No. 385 10/11/2016 Fee 50000/- (#0568770) 07/11/2016 Pack Size 14's tablets Price /- per pack	Entresto (FDA) Last inspection report Dated **27/09/2018** is attached which confirms the good level of GMP compliance.

STABILITY STUDY DATA	
Drug	Sacuva 100 mg
Name of Manufacturer	**M/s Highnoon Laboratories, 17.5km, Multan Road, Lahore**
Manufacturer of API	**(Sacubitril/Valsartan)** Zhuhai Rundu Pharmaceutical Co. Ltd China No.6, North Airport Road, Sanzao Town, Jinwan District, Guangdong, China
API Lot No.	**57317060103**
Description of Pack	Alu – Alu blister

(Container closure system)			
Stability Storage Condition	**Real Time:** 30'C ± 2'C / 65% ± 5%RH **Accelerated:**40'C ±2'C / 75% ± 5%RH		
Time Period	**Real Time:** 24 Months (9 month data provided) **Accelerated:** 6 Months		
Frequency	**Real Time:**0,3,6,9, 12, 18, 24 (Months) **Accelerated:** 0,3 & 6 (Months)		
Batch No.	**RD 18005**	**RD 18006**	**RD 18043**
Batch Size	1500 tablets	1500 tablets	1500 tablets
Manufacturing Date	01/18	01/18	01/18
Date of Initiation	03/18	03/18	03/18
No. of Batches	**03 batches**		
Date of Submission	11-2-19 (Dy. No.5909)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API	Copy of COA from M/s Zhuhai Rundu Pharmaceutical Co. Ltd China No.6, North Airport Road, Sanzao Town, Jinwan District, Guangdong, China submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP Certificate (# GD20160649) issued by China Food and Drug Administration People's Republic of China is submitted valid till 2021
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of commercial invoice has been submitted issued by ADC, DRAP. Import quantity: 2 kg Reference standard: 50 mg #170801 Working standard: 100 mg Batch #: 18-WS-04 Impurities: Not provided
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

. Risk assessment report of sacubitril/valsartan is provided about NDMA
. Stability Study of API is on 25 oC and 30 both
. Detection at 254. With 8 minutes time Check it with protocol
. Check protocol according to USFDA dissolution or not?
. Some of the excipient are different from innovator e.g. innovators is using copovidone

S #	Short comings	Response of Firm
.	Provide complete stability protocols along with detail protocols of trail batches and testing methods e.g. dissolution method and assay methods.	The stability and report have been submitted
.	COA and import documents of impurity standards are required	The related substance in API and FPP are evaluated by the validated method provided by API manufacturer Zuhai Rundu pharmaceuticals co ltd.In this method the related substance are calculated by area normalization method which does not required impurity standard. For identification of impurity the relative retention time of the impurity are used. The relative retention time of impurity B is about 0.7 and impurity C is about 5 with reference to valsartan retention time (6 min)
.	Some of the excipient are different from innovator e.g. innovators is using copovidone which is not used in applied product. Clarification is needed.	Firm replied that they are also using Copovidoneby the name of Kollidone VA 64
.	Reference to approval of one (01) similar dosage form by Registration Board on the basis of which you are claiming exemption from verification of authenticity of submitted stability data	Last onsite inspection conducted on 1st January, 2019 for following products • Nebvax (Nebivolo + Valsartan) 5/80mg Tablet • Daplozmet 5/850mg Tablet • Daplozmet 5/1000mg Tablet According to the report following important points were confirmed 1. HPLC is 21 CFR compliant 2. Audit trails of the test reports were available. Related manufacturing area equipment's personals and utilities were found GMP compliant.

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Halovate cream, lotion, ointment" (Halobetasol) and Plaiglo cream which was conducted on 22-August 2017 and was presented in 271th meeting of Registration board. Registration Board decided to approve registration. According to the report following points were confirmed • HPLC is 21 CFR compliant • Audit trails of the test reports were available. • Related manufacturing area equipment's personals and utilities were found GMP compliant.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted photocopies of ADC (Islamabad) attested Commercial Invoice for 400gm via Invoice # HP2017914 dated: 14/09/2017 lot No. DAP-20170701 from Chongqing Huapont shengchem Pharma. co. Ltd. No. 666, Rongjun road, Nanjin Avenue, Hechuandistrict Chongqing, Chinavide proper approval from DRAP Office, Islamabad.
3.	Documents for the procurement of reference standard and impurity standards.	The reference and impurity standards were received free of cost with API. Therefore no procuring documents available. But undertaking from Chongqing Huapont Pharmaceuticals co Ltd is provided that sample is provided along with API
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP Certificate issued by Chongqing Food and Drug Administration People's Republic of China is submitted valid till 2020. (Certificate # CQ20150003)
5.	Mechanism for Vendor pre-qualification	Firm has submitted SOPs for vendor evaluation and performance monitoring
6.	Certificate of analysis of the API, reference standards and impurity standards	• **Dapsone API:** Photocopy of COA of Batch No. DAP-20170701 issued by Chongqing Huapont shengchem Pharma. co. Ltd. Chongqing, China is submitted. • **Reference standards and impurity standards:** The firm has submitted the copy of Working Standard (Batch # DAP-WS-20170514), **Reference Standard and impurity standards of API were not provided**
7.	Documents for the procurement of excipients used in product	Firm has submitted documents for procurement of excipients used in product development.

7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- Dissolution was according to USFDA. Details are as under

Dissolution 1 (naproxen at core), Dissolution 2 (naproxen at coating stage),Dissolution 3 (esomeprazole at coating stage)

Data for exemption from On-site investigation of submitted stability data

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their products Daclavir Tablet 30 & 60 mg (Daclatasvir as Dihydrochloride), Ledipasvir + Sofosbuvir and Sofosbuvir Tablets which was conducted on 06th February, 2018 and was presented in 279th meeting of Registration Board held on 29-31st January, 2018.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted following: • Permission letter for import of API Vide Ref No. 12494/2016/DRAP (A-IV) Quantity: Naproxen: 6.562 kg, Esomeprazole: 334.5 gm • Copy of form 3 confirming license to import of API's • Copy of form 7 (Batch Certification) • ADC (Lahore) attested copy of commercial invoice
3.	Documents for the procurement of reference standard and impurity standards.	**Esomeprazole:** Firm has submitted copy of invoice for the Purchase of reference standard & Impurity standard i-e 100 mg Omeprazole Sulphone (Impurity-D) & Omeprazole N-Oxide (Impurity-E) **Naproxen:** Firm has submitted exemption of submission of

		procurement of impurity standard of naproxen s they claim that API manufacturer claim no impurity in there COA as per USP.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of GMP certificate **Esomeprazole Magnesium Trihydrate**: Everest Organic limited Certificate No. L.Dis.No.3600/E(S)/TS/2018 Dated 30-06-2018 Issued by: Drugs control Administration Government of Telangana, India. **Naproxen Base:** Zheijiang Tianxin pharma Certificate # No. ZJ20140007 Dated 27-01-2014 Issued by: State Food and Drug Administration China
5.	Mechanism for Vendor pre-qualification	Firm has submitted copy of vendor evaluation documents form and vendor evaluation report
6.	Certificate of analysis of the API, reference standards and impurity standards	**Esomeprazole Magnesium Trihydrate**: Firm has submitted COA of API and reference standard and impurity standards (Impurity D and E) **Naproxen:** Firm has submitted COA of API **reference standard missing** **Impurity: Firm submitted exemption of submission of procurement of impurity standard as they claim that API manufacturer claim no impurity in there COA as per USP.**
7.	Documents for the procurement of excipients used in product development?	Firm has submitted documents for procurement of excipients.
8.	List of qualified staff involved in product development with relevant experience.	Technical staff (6 person) list including R&D was provided by firm.
Production Data		
9.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted authorized protocols/SOPs for the development & testing of trial batches.
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all three batches
11.	Record of remaining quantities of stability batches.	**T03:** 540 Tablets (70 Acc, 470 Real Time) **T04:** 530 Tablets (60 Acc, 470 Real Time) **T05:** 530 Tablets (60 Acc, 470 Real Time)
QA/QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of temperature and humidity monitoring of stability, stability chambers (real time and Chambers (real time and accelerated)
13.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	Firm has submitted method of analysis of FPP and complete record of testing of stability complete record of testing of stability batches along batches (i.e. chromatograms, lab reports, with chromatograms, lab reports, raw data sheets etc.)
15.	Reports of stability studies of API from manufacturer.	**Esomeprazole:** Firm has submitted both accelerated (40°C ± 2°C &75±5%RH)

		stability studies & long term (30°C ± 2°C & 65±5%RH) stability studies reports of three batches **Naproxen:** Firm has submitted both accelerated (40°C ± 2°C &75±5%RH) stability studies & long term **(25°C ± 2°C & 65±5%RH)** stability studies reports of three batches
16.	Analysis reports for excipients used.	Form has provided COA and testing reports of excipients used
17.	Drug-excipients compatibility studies.	Firm has used the same excipients as that used by innovator Firm has conducted compatibility study of drug-excipients using FTIR spectra.
18.	Record of comparative dissolution data.	Comparative dissolution with innovator was performed and record was available.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has 21CFR compliant software installed on HPLC 20-A Schimadzu

Evaluation by PEC:

Sr.#	Deficiency/Observation	Response by Pharma.
i.	Clarification regarding exemption of submission of procurement of impurity standard of naproxen on the base of the claim that API manufacturer claim no impurity in there COA as per USP but the provided COA mentioned two impurities i.e. impurity O, L	Naproxen API manufacturer complies specification of both USP and BP as per COA. So as per USP specification there are no impurities as mentioned in the COA. We also followed USP specifications containing no impurities. COA of Naproxen is provided
ii.	Certificate of analysis of the Naproxen, reference standards prove of its procurement	CAO of Naproxen reference standard is provided and we received RS along with the API so there is no separate invoice of it.
iii.	USP and API manufacturer performs naproxen API, assay with HPLC Justify the use of titration method for testing of API by applicant.	USP performs assay by titration method, reference. In COA of Naproxen API, manufacturer did not mention HPLC method of assay**. (Note:** Testing of Naproxen by manufacturer on HPLC does not make firm bound to adopt the same because questioned article is a USP monograph).
iv.	API stability of naproxen at conditions of zone IV-A	Provided. **Firm has submitted both accelerated (40°C ± 2°C &75±5%RH) stability studies & long term (25°C ± 2°C & 65±5%RH) stability studies reports of three batches on query they provide the stability studies on long term (30°C ± 2°C & 65±5%RH) by API manufacturer**
v.	Details method of comparative dissolution. Why it's not performed on 3 mediums?	Comparative dissolution as required by standard is not applicable to modified or delayed release tablet dosage form. Secondly firm has conducted and provided data of comparative dissolution of Naproxen in acidic medium and in pH 6.8 buffer.

Decision: Registration Board decided to approve registration of "Esonap 20/500 Tablet (Naproxen…….500 mg & Esomperazole (as Meagnesium) ...20 mg) by M/s Dyson Research Laboratories (Pvt.)Ltd. 28th KM Ferozpur Road, Lahore. Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	**Documents To Be Provided**	**Status**
1.	COA of API	Yes

2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Aspirin:** Firm has submitted copy of GMP Certificate (#SN20150132) of manufacturer "JQC (Huayin) Pharmaceutical Co., Ltd. CHINA." issued by SFDA, China which is valid till 29/04/2020. **Omeprazole:** Firm has submitted copy GMP Certificate of manufacturer "Metrochem API Pvt Ltd, Plot No: 62/C/6, Pipeline road, Phase-I, IDA, Jeedimetla INDIA" issued by Drugs Control Administration, Government of Telangara , India.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of ADC (Karachi) attested invoice provided.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- Dissolution is according to USFDA.

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data vide Letter No. 1857 (R&I) dated 15-01-2018 and provided the following documents in conjunction with the checklist approved by the Registration Board in its 276th Meeting.

Data for exemption from On-site investigation of submitted stability data

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	• Registration Board approved RAMELTON Tablets 8mg (Ramelteon) in its 273rd Meeting. o Date of Inspection: 18-08-2017. o The HPLC is 21CFR Compliant. o Audit trail on the testing reports of ―Ramelton (Ramelteon) Tablets 8mg were available.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	**Aspirin:** The firm has submitted photocopies of ADC (Karachi) attested Form 6 dated 30-11-2017, Commercial Invoice attestation on dated 30/11/2017 for 0.8 Kg of Aspirin **Omeprazole:** The firm has submitted photocopies of ADC (Karachi) attested Form 6 dated 24-10-2017, Commercial Invoice attestation on dated 24/10/2017 for 2.0 Kg of Omeprazole.
3.	Documents for the procurement of reference standard and impurity standards.	• The firm has submitted analytical reports/COA of reference standard & impurity standards. Reference/Working standard: omeprazole and aspirin provided Impurity standard: omeprazole and aspirin provided

<table>

Evaluation by PEC:

Deficiency/Observation	**Response by Pharma.**
Clarification regarding GMP certificate, as on GMP name of firm is JQC (Huayian) Pharmaceuticals but on china FDA site firm certified under the provided certificate number is Huayin Jinjincheng Pharmaceutical Co., Ltd. Is mentioned	Firm replied that the submitted GMP for manufacturer of Aspirin JQC (Huayian) Pharmaceuticals is the abbreviation of Huayin Jinjincheng Pharmaceutical Co., Ltd. Is mentioned on SFDA.
The GMP certificate of Metrochem API Pvt Ltd, India is not valid after 2-2018. Provide the valid GMP certificate	The GMP certificate of Metrochem API Pvt Ltd, India valid up to 11-1-2019. Is provided
Mechanism for Vendor pre-qualification and list of R&D staff not attached only annexure heading is attached	Provided
API stability of omeprazole at conditions of zone IV-A as provided stability is at Accelerated: 25°C ± 2°C & 60±5%RH and Real Time: 5°C ± 3°C.	The storage conditions of omeprazole is at cold conditions that's whyAPI stability of omeprazole was provided at Accelerated: 25°C ± 2°C & 60±5%RH and Real Time: 5°C ± 3°C.

The innovators finished product release specifications tests for this dosage form including tests for content uniformity Justify the exemption of these tests as it is very important becauseomeprazole is being incorporated via coating solution.	As per USP monographs of uniformity of contents if the weight of the API is more than 25 mg then the content uniformity test is optional however as per your requirement they provides the content uniformity test of omeprazole on the base of weight variation
Since API of omeprazole is being incorporated via coating solution so how it is possible to ensure that proper amount of active has been incorporated in dosage form while using 100% quantity in master formulation	Since API of omeprazole is being incorporated via coating solution to ensure proper amount of active has been incorporated in dosage using 50% overage that has already been submitted along with stability.

Decision: Registration board decided to defer the case for submission of stability studies of three batches of API both accelerated & real time according to zone IV-A conditions.

Not applicable GMP compliant dated 24/09/2018

STABILITY STUDY DATA

Drug	NAP-X Tablets 500/20mg (Naproxen + Esomeprazole)		
Name of Manufacturer	Helix Pharma (Pvt.) Ltd., Karachi.		
Manufacturer of API	**Naproxen Sodium:** M/s Zhejiang Charioteer Pharmaceutical Co., Ltd. CHINA.		
	Esomeprazole -Mg: M/s Smilax Laboratories Ltd, Plot # 70 & 71, JN Pharma city, Parawada, Visakhapatnam-531021, Andhera Pradesh INDIA.		
API Lot No.	**Naproxen Sodium:** 176315A61 **Esomeprazole -Mg:** EOV1705007		
Description of Pack (Container closure system)	Alu / Alu Blister Pack		
Stability Storage Condition	Accelerated: 40°C ± 2°C & 75±5%RH Real Time : 30°C ± 2°C & 65±5%RH		
Time Period	Accelerated: 06 Months Real Time: 06 Months		
Frequency	Accelerated: 0, 3 ,6 (Months) Real Time : 0, 3 ,6 (Months)		
Batch No.	TF 001	TF 002	TF 003
Batch Size	1000 Tablets	1000 Tablets	1000 Tablets

Manufacturing Date	02 – 2018	02 - 2018	02 – 2018
Date of Initiation	16-02-2018	16-02-2018	16-02-2018
No. of Batches	03		
Date of Submission	8552 (26/2/19)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr.	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Naorpxen Sodium:** Firm has submitted copy of GMP Certificate of manufacturer "Zhejiang Charioteer Pharmaceutical Co., Ltd. CHINA." (# ZJ20150090) issued by SFDA, China which is valid till 07/06/2020. **Esomeprazole-Mg:** Firm has submitted copy GMP Certificate of manufacturer "M/s Smilax Laboratories Ltd, INDIA" (#1550/DD/ DCA/VSP/2017) issued by Drugs Control Administration, Visakhapatnam Region, India.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of ADC (Karachi) attested invoice provided.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- Dissolution is according to USFDA.

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data vide Letter No. 1857 (R&I) dated 15-01-2018 and provided the following documents in conjunction with the checklist approved by the Registration Board in its 276th Meeting.

Data for exemption from On-site investigation of submitted stability data

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	• Registration Board approved RAMELTON Tablets 8mg (Ramelteon) in its 273rd Meeting. o Date of Inspection: 18-08-2017. o The HPLC is 21CFR Compliant. o Audit trail on the testing reports of ―Ramelton (Ramelteon) Tablets 8mg were available.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	**Naproxen Sodium:** The firm has submitted photocopies of ADC (Karachi) attested Form 6 dated 07-02-2018, Commercial Invoice attestation on dated 07/02/2018 for 2.5 Kg of Naproxen Sodium. **Esomeprazole-Mg:** The firm has submitted photocopies of FedEx paper along with Proforma Invoice for Esomeprazole-Mg.

<table>
<tr><td>3.</td><td>Documents for the procurement of reference standard and impurity standards.</td><td>• The firm has submitted analytical reports/COA of reference standard & impurity standards.
• The firm has clarified that the reference standard and impurity standards are procured along with the APIs' consignment and not separately.</td></tr>
<tr><td>4.</td><td>Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.</td><td>Naorpxen Sodium: Firm has submitted copy of GMP Certificate of manufacturer "Zhejiang Charioteer Pharmaceutical Co., Ltd. CHINA." issued by SFDA, China which is valid till 07/06/2020.

• Comparative dissolution studies have been performed in following media:</td></tr>
</table>

		NAPROXEN : i. 0.1N Hydrochloric Acid Solution ii. pH 4.5 Acetate buffer solution. iii. pH 6.8 Phosphate buffer solution. **ESOMEPRAZOLE :** i. 1.2N Hydrochloric Acid Solution ii. pH 4.5 Acetate buffer solution. iii. pH 7.4 phosphate buffer solution. • Copy of Calculation Sheets and HPLC chromatograms has been submitted for Comparative dissolution studies.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	The firm has submitted copy of Audit Trail for Initial, 3rd and 6th Month Testing Intervals of NAP-X TABLETS 500/20mg.

Evaluation by PEC:

Above observation were communicated to firm vide letter no. F.1-1/2019/PEC-DRAP (AD PEC-VII), to which firm has responded as under:

Sr.#	Deficiency/Observation	Response by Pharma.
i.	The innovator product is as naproxen alone not as naproxen sodium as applied by the firm. Justification is needed	Please be informed that "we have applied formulation naproxen + esomeprazole a magnesium in applied dossier. In submitted stability data we are using salt of naproxen i.e. naproxen sodium but we have derived contents naproxen by applying factor in the calculation sheets".
i.	The GMP certificate of Smilax lab Ltd, India is not valid after 1-2019. Provide the valid GMP certificate	GMP certificate of Smilax lab Ltd, India issued on 18-1-2019 valid for 3 years is provided.
i.	Documents for the procurement of API esomeprazole with approval from DRAP is needed as only the photocopies of FedEx invoice is submitted without any AD attestation	Firm reply that they received the documents through FedEx. FedEx documents are provided
i.	In USFDA dissolution method, Type II (Paddle) with sinkers are used but in applied finished product specification sinker I not mentioned. Clarification is needed	The firm claim that "we have followed USFDA dissolution method by using type II (Peddle) and sinkers but missed to mentioned sinkers in FP testing method and comparative dissolution profile. We are enclosing revised FP testing protocol along with procuring documents od sinkers"
i.	API stability of esomeprazole at Accelerated conditions is not submitted	Provided

Decision:Registration Board decided to reject the registration application of applied formulation as it contains Naproxen Sodium but reference product product contains Naproxen only so the applied formulation is not generic to innovator.

Evaluation by PEC:

Above observation were communicated to firm vide letter no. F.1-1/2019/PEC-DRAP (AD PEC-VII), to which firm has responded as under:

Dissolution parameters stated in finished product testing method, submitted along with stability studies data are recommended by USFDA.

Amlodipine Besylate/Hydrochlorothiazide/Olmesartan Medoxomil:

Tablet II (Paddle) 50 Phosphate Buffer, pH 6.8 900 5, 10, 15, 20, 30 and 45

Deficiency/Observation	**Response by Pharma.**
Submit raw data sheets of all time points. Provide concentrations of standard and sample solution used in assay and dissolution, as it is not clear from the provided method.	Provided

Clarification regarding peak resolution as some peaks are merged in method validation (e.g. in sample ID "sys suitably 6" and in "linearity-150%" etc.)	Peak resolution was found by the firm and new chromatograms are submitted. A resolution of 1.5 or greater between the peaks will ensure that the sample components are well (baseline) separated to degree at which the area or height of each peak may be accurately measured. No resolution was found to be less than 2.
Valid GMP certificate is required as Photocopy of GMP Certificate No. 6208/E(G)/TS/2017 issued by Drugs Control Administration (Telangana) India was valid up to 21-04-2018	Valid GMP certificate No. 6208/E(G)/TS/2017 issued by Drugs Control Administration (Telangana) India was valid up to 21-04-2018 is provided
List of qualified staff involved in product development with relevant experience does not mentioned their qualifications.	Provided
COA of Impurity standard of amlodipine are not provided same is required.	Provided
Impurities analysis not performed for finished product. Clarify and justify	Provided

Decision: Registration Board decided to approve registration of "Sofvasc Trio Tablet 40/10/25 mg by Wilsons's Pharmaceuticals, Islamabad. Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

No. of Batches	03		
Date of Submission	14-1-2019 (D # 1669)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Olmesartan medoxomil:** M/s Glenmark Pharmaceuticals Ltd. India: Photocopy of GMP Certificate No. 1708289 issued by Food & Drugs Control Administration (Gujarat) India, valid up to 18-08-2019 is submitted. **Amlodipine besilate:** M/s Hetero Drugs Limited (Unit-IV), India: Photocopy of GMP Certificate No. 6208/E(G)/TS/2017 issued by Drugs Control Administration (Telangana) India, valid up to 21-04-2018 is submitted. **Hydrochlorothiazide:** M/s Suzhou Lixin Pharmaceutical Co. Ltd, China: Photocopy of GMP Certificate No. JS20140325 issued by Jiangsu Food and Drug Administration China, valid up to 25-08-2019 is submitted.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of ADC attested Form 5, form 3 and commercial invoice provided for all 3 actives. Amlodipine as besylate Quantity… 300 kg Olmesartan medoxomil Quantity… 100 kg Hydrochlorothiazide Quantity…300 kg
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules,	Yes

	1978.	
REMARKS OF EVALUATOR		
. Above observation were communicated to firm vide letter no. F.1-1/2017/PEC-DRAP (AD PEC-VII), to which firm has responded as under:		
Data for exemption from On-site investigation of submitted stability data		
Administrative Portion		
1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board decided to approve Registration of "Saferon (Sofosbuvir 400mg) tablets by M/s Wilson Pharmaceuticals, I-9 Industrial Area, Islamabad in its 278th Meeting. Date of Inspection: 10-12-2015, 19-04-2017 & 20-01-2018 compliant and audit trail on the testing reports was available and confirmed.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	**Amlodipine as besylate:** The firm has submitted photocopies of ADC (Islamabad) attested Form 5, Commercial Invoice issued by M/s Hetero corporate, INDIA attestation on dated 23/Dec/2016 for 300 kg of Amlodipine. The firm has imported Raw Material ,Qty ; 12x25 kg ; Batch # AM0321216 and AM0331216 **Olmesartan medoxomil:** The firm has submitted photocopies of ADC (Islamabad) attested Form 5 and commercial invoice dated 11/10/2017. Commercial Invoice is issued by M/s Glenmark Pharma Ltd, INDIA Moreover detail of Qty; 10 kg; Batch 83170554 is mentioned on invoice. **Hydrochlorothiazide:** The firm has submitted photocopies of ADC (Islamabad) attested Form 5 and AD attested commercial invoice issued by M/s Suzhou Lixin Pharmaceutical Co. Ltd, China dated 29/3/17. Commercial Invoice is issued by M/s Suzhou Lixin Pharma Co. Ltd, China Moreover detail of Qty; 300 kg ; Batch # C01-20170102 is mentioned on invoice
3.	Documents for the procurement of reference standard and impurity standards.	The firm has submitted the commercial invoice of the reference standard and impurity standard purchased from different source other then API manufacturer.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Amlodipine as besylate:** M/s Hetero Drugs Limited (Unit-IV), India: Photocopy of GMP Certificate No. 6208/E(G)/TS/2017 issued by Drugs Control Administration (Telangana) India, valid up to 18-5-2020 is submitted. **Olmesartan medoxomil:** M/s Glenmark Pharmaceuticals Ltd. India: Photocopy of GMP Certificate No. 1708289 issued by Food & Drugs Control Administration (Gujarat) India, valid up to 18-08-2019 is submitted. **Hydrochlorothiazide:** M/s Suzhou Lixin Pharmaceutical Co. Ltd, China: Photocopy of GMP Certificate No. SU20160171 issued by Jiangsu Food and Drug Administration China, valid up to 31-december-2020 is submitted.
5.	Mechanism for Vendor pre-qualification	• The firm has submitted copy of vender evaluation questionnaire for vender pre-qualification along with filled questionnaire from APIs manufacturer.
6.	Certificate of analysis of the	**Amlodipine as besylate API:**

	Decision: Approved	

REGAL Pharmaceuticals, Islamabad.

The CLB in its 269th meeting held on 26.02.2019 granted three additional section to the firm. The details of molecules and products applied are as below:

Dry Suspension Section (Cephalosporin): 7 molecules/ 13 Products		
1064.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	ZOLEX 125mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cephalexin Monohydrate eq to Cephalexin USP… 125mg
	Diary No. Date of R& I & fee	Diary No 15108 Dated 07/03/2019, Rs 20000/- , Dated 06/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	60 ml ; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	Cefalexin 125mg/5ml Powder for Oral Suspension of M/s Milpharm Limited UK
	Me-too status	AG-CIN 125mg Dry Suspension (Saydon Pharma)
	GMP status	Grant of Additional Sections by CLB in its 269th meeting dated 26th Feb. 2019 are as under: 1. Capsule Section (Cephalosporin) 2. Dry Suspension Section (Cephalosporin) 3. Dry Powder vial Injection (Cephalosporin)
	Remarks of the Evaluator.	
	Decision: Approved	
1065.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	ZOLEX 250mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cephalexin Monohydrate eq to Cephalexin USP… 250mg
	Diary No. Date of R& I & fee	Diary No 15107 Dated 07/03/2019, Rs 20000/- , Dated 07/03/2019

	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	60 ml ; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	Cefalexin 250mg/5ml Powder for Oral Suspension of M/s Milpharm Limited UK
	Me-too status	AG-CIN 250mg Dry Suspension (Saydon Pharma)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1066.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	CEFIX 100mg/5ml Dry Suspension
	Composition	Each 5ml contains after reconstitution: Cefixime trihydrate eq to cefixime USP…. 100 mg.
	Diary No. Date of R& I & fee	Diary No 15103, Dated 07/03/2019, Rs 20000/- Dated 06/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	30ml; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	Cefixime 100 mg/5 ml granules for oral suspension (MHRA)
	Me-too status	EPAN 100mg/5ml Dry suspension (EPHARM Labs)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1067.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	CEFIX 200mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cefixime trihydrate eq to cefixime……. 200 mg.
	Diary No. Date of R& I & fee	Diary No 11345, Dated 05/03/2019, Rs 20000/- Dated 04/03/2019
	Pharmacological Group	Cephalosporine antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	30ml; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	Cefixime for Oral Suspension of Aurobindo Pharma USA, Inc. U.
	Me-too status	EPAN 200mg/5ml Dry suspension (EPHARM Labs)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1068.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Reclor 125mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cefaclor monohydrate USP……. 125 mg.
	Diary No. Date of R& I & fee	Diary No 15106, Dated 07/03/2019, Rs 20000/- Dated 07/03/2019
	Pharmacological Group	Cephalosporine antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP. Specification
	Pack size & Demanded Price	60ml; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	125mg/5ml SUSPENSION (cefaclor) (MHRA)
	Me-too status	CECLOR 125mg/5ml ELI LILLY (Reg. 007176)
	GMP status	As recorded for above application

	Remarks of the Evaluator.	
	Decision: Approved	
1069.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Reclor 250mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cefaclor as monohydrate ……. 250 mg.
	Diary No. Date of R& I & fee	Diary No 15105, Dated 07/03/2019, Rs 20000/- Dated 07/03/2019
	Pharmacological Group	Cephalosporine antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP. Specification
	Pack size & Demanded Price	60ml; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	250mg/5ml SUSPENSION (cefaclor) (MHRA)
	Me-too status	CECLOR 125mg/5ml ELI LILLY (Reg. 007175)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1070.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Prolix 40mg/5ml Dry Suspension
	Composition	Each 5ml contains after reconstitution: Cefpodoxime proxetil eq to Cefpodoxime USP ….. 40mg.
	Diary No. Date of R& I & fee	Diary No 15109, Dated 07/03/2019, Rs 20000/- Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP Specification
	Pack size & Demanded Price	30ml and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	Cefpodoxime 40 mg/5 ml granules for oral suspension of Milpharm Limited Ares, Odyssey Business Park West End Road South Ruislip HA4 6QD United Kingdom
	Me-too status	Podicef 40mg/5ml Dry Suspension of Mediate Pharma (R.#057919)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1071.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad
	Brand Name +Dosage Form + Strength	Prolix 50mg/5ml Dry Suspension
	Composition	Each 5ml contains after reconstitution: Cefpodoxime proxetil eq to Cefpodoxime USP ….. 50mg.
	Diary No. Date of R& I & fee	Diary No 15110 Dated 07/03/2019, Rs 20000/- Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotics
	Type of Form	Form 5
	Finished Product Specification	USP. Specification
	Pack size & Demanded Price	30ml; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	cefpodoxime proxetil eq 50mg base/5ml of pharmacia and upjohn USFDA
	Me-too status	Qink 50mg/5ml Dry Suspension(Wilshire Labs)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1072.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Recef 250mg/5ml Dry Suspension

	Composition	Each 5ml after reconstitution contains: Cephradine as monohydrate eq to cephradine USP ….. 250mg.
	Diary No. Date of R& I & fee	Diary No 15112 Dated 07/03/2019, Rs 20000/- , Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP. Specification
	Pack size & Demanded Price	Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	VELOSEF '250' of APOTHECON (USFDA)
	Me-too status	VELOSEF 250MG sus. (Reg. 1868) by Gsk
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1073.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	NEROX 125mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cefadroxil Monohydrate USP eq to Cefadroxil …… 125mg
	Diary No. Date of R& I & fee	Diary No 15113 Dated 07/03/2019, Rs 20000/- , Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	60 ml ; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	CEFADROXIL/CEFADROXIL HEMIHYDRATE EQ 125MG BASE/5ML of APOTHECON
	Me-too status	Evacef Suspension 125mg of Highnoon Lab (Reg 11213)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1074.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	NEROX 250mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cefadroxil Monohydrate USP eq to Cefadroxil…… 250mg
	Diary No. Date of R& I & fee	Diary No 15114 Dated 07/03/2019, Rs 20000/- , Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	60 ml ; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	Cefadroxil 250 mg/5 ml granules for oral suspension (MHRA)
	Me-too status	Evacef Suspension 250mg of Highnoon Lab (Reg. 11214)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	
1075.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	CEFTEN 90mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Ceftibuten as dihydrate ……. 90 mg.
	Diary No. Date of R& I & fee	Diary No 15615 Dated 07/03/2019, Rs 20000/- , Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	As per Innovator
	Pack size & Demanded Price	30ml; and Price as per Policy
	Approval status of product in	CEDAX 90mg/5ml

	Reference Regulatory Authorities.	(Schering Corporation Miami Lakes, FL 33014, USA)
	Me-too status	XIGRIS 90mg/5ml Dry suspension (Wilshire Labs)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved with innovator's specification	
1076.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Prolix 100mg/5ml Dry Suspension
	Composition	Each 5ml after reconstitution contains: Cefpodoxime proxetil eq to cefpodoxime ….. 100mg.
	Diary No. Date of R& I & fee	Diary No 15111, Dated 07/03/2019, Rs 20000/- Dated 07/03/2019
	Pharmacological Group	Cephalosporine Antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP. Specification
	Pack size & Demanded Price	30ml; and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	CEFPODOXIME PROXETIL EQ 100MG BASE/5ML FOR SUSPENSION;ORAL (USFDA)
	Me-too status	Qink 100mg/5ml Dry Suspension(Wilshire Labs)
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved	

REGAL. Pharmaceuticals, Islamabad.

The CLB in its 269th meeting held on 26.02.2019 granted three additional section to the firm. The details of molecules and products applied are as below:

Capsule Section (Cephalosporin): 6 molecules/ 10 Products		
1077.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Ceften 400mg Capsules
	Composition	Each Capsule contains: Ceftibuten as Dihydrate ……. 400mg.
	Diary No. Date of R& I & fee	Diary No 15076, Dated 07/03/2019, Rs 20000/-, Dated 07/03/2019
	Pharmacological Group	Cephalosporine
	Type of Form	Form 5
	Finished Product Specification	As per innovator
	Pack size & Demanded Price	10 Capsules and Price as per Policy
	Approval status of product in Reference Regulatory Authorities.	CEFTIBUTEN DIHYDRATE EQ 400MG BASE of SI PHARMS USFDA
	Me-too status	Xigris Capsule 400mg capsule Wilshire Lab
	GMP status	As recorded for above application
	Remarks of the Evaluator.	
	Decision: Approved with innovator's specification	
1078.	Name and address of manufacturer / Applicant	Regal. Pharmaceuticals, Plot No 2-A, Street No. S-5 National Industrial Zone, Rawat, Islamabad.
	Brand Name +Dosage Form + Strength	Reclor 250mg Capsule
	Composition	Each Capsule contains: Cefaclor USP ….. 250mg.
	Diary No. Date of R& I & fee	Diary No 15118, Dated 07/03/2019, Rs 20000/-, Dated 07/03/2019

	Me-too status	Masacol 800mg Tablet. Reg. No. 61348
	GMP status	As recorded for above application
	Remarks of the Evaluator.	• The firm has mentioned film-coated tablet with seal coat and modified release coat. Upon clarification, the firm revised the coating to enteric coating without fee. However, the reference product has an outer protective coat consisting of a combination of acrylic based resins, Eudragit S (methacrylic acid and methyl methacrylate copolymer (1:2), NF) and Eudragit L (methacrylic acid and methyl methacrylate copolymer (1:1), NF). The inner coat consists of an acrylic based resin, Eudragit S, which dissolves at pH 7 or greater, releasing mesalamine in the terminal ileum and beyond for topical anti- inflammatory action in the colon.
	Decision: Deferred for clarification from the firm.

	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	As per DRAP Policy
	Approval status of product in Reference Regulatory Authorities.	Diclofenac Sodium 50 mg gastro-resistant tablets. **MHRA** approved
	Me-too status	Diclopal 50mg delayed release tablet. Reg # 82298
	GMP status	The firm was inspected on 14.09.2017, wherein the GMP of the firm was rated as GOOD.
	Remarks of the Evaluator.	• The firm revised the formulation to enteric-coated tablet with submission of Rs. 5,000/- fee.
	Decision: Approved	
1189.	Name and address of manufacturer / Applicant	Winthrox Laboratories, (Pvt) Ltd., K-219-A, SITE, Super Highway, Phase-II, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Windic SR Tablet 100mg
	Composition	Each sustained release tablet contains: Diclofenac sodium……100mg
	Diary No. Date of R& I & fee	Dy No. 6874: 22.02.2018 PKR 20,000/-: 21.02.2018 PKR 5,000/-: 08.03.2019
	Pharmacological Group	Acetic acid derivatives and related substances
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	As per DRAP Policy
	Approval status of product in Reference Regulatory Authorities.	Dicloflex Retard 100 mg prolonged release tablet. **MHRA** approved
	Me-too status	Diclorax 100mg Tablet. Reg. # 85498
	GMP status	The firm was inspected on 14.09.2017, wherein the GMP of the firm was rated as GOOD.
	Remarks of the Evaluator.	• The firm revised the formulation to sustained release tablet with submission of Rs. 5,000/- fee. • The revised coating composition has HPMC 15cp as binder. The reference product contains sub-coat of Copovidone and Sucrose, and Pigmented film coat of Opadry 02B24025. The dossier does not depict the same. • The firm was asked about the use of sustained release polymer in composition, i.e., how the drug release was sustained/extended. The firm did not justify the same. The firm has mentioned HMPC K100 and HPMC K4 as binder.
	Decision: Deferred for further clarification from the firm.

	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	Could not be confirmed
	GMP status	As recorded for above application
	Remarks of the Evaluator.	• The firm has mentioned in master Formula that "appropriate overage is added to compensate the potency loss on storage". The firm was asked for clarification. However, the firm did not replied. • The firm was asked to submit complete updated Form 5 duly signed by all concerned persons. However, the firm submitted incomplete Form 5. • The firm was asked to submit complete finished product specifications and testing method. However, the firm did not submit the same. • The firm has claimed the product on priority for Oral Powder (penicillin) Veterinary. However, the product is not related to the said section.
	Previous decision	The Board in its 288th meeting deferred the case for the following: • Evidence of applied formulation/drug already approved by DRAP (generic/me-too status) alongwith registration number, brand name and name of firm • Justification on scientific basis for addition of overage in master formulation. • For submission of complete Form-5 • The firm has claimed the product on priority for Oral Powder (penicillin) Veterinary. However, the product is not related to the said section
	Evaluation by PEC	• The firm removed overage • Updated Form 5 submitted • The firm has claimed innovator's specifications • The firm has claimed the product on priority for Oral Powder (penicillin) Veterinary. However, the product is not related to the said section.
	Decision: Deferred for consideration on its turn	
1517.	Name and address of manufacturer / Applicant	Mylab Pvt. Ltd Khankah Shareef Bahawalpur
	Brand Name +Dosage Form + Strength	Listin-Hi WSP
	Composition	Each gram contains:

		Amoxicillin trihydrate…… 200mg Lincomycin base….88mg Spectinomycin base……88mg Vitamin E Acetate……30mg
	Diary No. Date of R& I & fee	Dy No. 13006: 06.04.2018 PKR 20,000/-: 27.02.2018
	Pharmacological Group	Combination of antibiotics with vitamin E (not available in ATC)
	Type of Form	Form 5
	Finished Product Specification	The firm has claimed innovator's specifications
	Pack size & Demanded Price	1kg, 2.5kg, 5kg, 10kg, 20kg, 25kg; The firm has submitted that the price is decontrolled.
	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	Lincamox-S Water Soluble Powder. Reg. No. 63788
	GMP status	As recorded for above application
	Remarks of the Evaluator.	• The firm has mentioned in master Formula that "appropriate overage is added to compensate the potency loss on storage". The firm was asked for clarification. However, the firm did not reply. • The firm was asked to submit complete updated Form 5 duly signed by all concerned persons. However, the firm submitted incomplete Form 5. • The firm was asked to submit complete finished product specifications and testing method. However, the firm did not submit the same. • The me-too product contains Lincomycin Base; however, the firm has revised Lincomycin Base to Lincomycin as HCl without submission of any fee. • The me-too product contains Vitamin E acetate. The firm was asked for correction in Form 5 and Master Formula along with submission of applicable fee. However, the firm did not revise Form 5 with submission of fee.
	Previous decision	The Board in its 288th meeting deferred the case for the following: • Justification on scientific basis for addition of overage in master formulation. • For submission of complete Form-5 • Revision of formulation in line with reference product along approved by DRAP with submission of fee
	Evaluation by PEC	• The firm removed overage • Updated Form 5 submitted • The firm has claimed innovator's specifications • The firm again revised lincomycin HCl to Lincomycin base. • The firm revised Vitamin E to Vitamin E acetate with submission of fee Rs. 5000/- (Dy. No. 5552; 08.05.2019).
	Decision: Approved	
1518.	Name and address of manufacturer / Applicant	Mylab Pvt. Ltd Khankah Shareef Bahawalpur
	Brand Name +Dosage Form + Strength	Phenox Plus WSP
	Composition	Each gram contains: Phenoxymethylpenicillin…….800mg
	Diary No. Date of R& I & fee	Dy No. 2022: 16.01.2018 PKR 20,000/-: 15.01.2018
	Pharmacological Group	Beta-lactamase sensitive penicillins
	Type of Form	Form 5
	Finished Product Specification	The firm has claimed manufacture's specifications

	Pack size & Demanded Price	100g, 500g, plastic bottles; 1 kg, 10kg, 25kg, plastic bag; As per SRO (10% less than the brand leader)
	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	Could not be confirmed
	GMP status	As recorded for above application
	Remarks of the Evaluator.	• Undertakings have not been signed. • Reference (Pharmacopeia / innovator / manufacturer) for finished product specifications is required. • Submit clear stepwise manufacturing outlines. • Complete finished product specifications and testing method are needed. • Details of environmental control processing including waste disposal management. • Proof of me-too product (name and registration number) with same dosage form, same salt form and same strength is required • Justification for overage is required. • Signature at the beginning of Form 5 is missing. • The firm has mentioned the word flavor. The name of flavor that will be used in the product is required.
	Previous decision	The Board in its 288th meeting deferred the case for the following: • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm • Justification on scientific basis for addition of overage in master formulation. • For submission of complete Form-5 • Submision of clear stepwise manufacturing outlines and testing methods.
	Evaluation by PEC	• The firm removed overage. • Updated Form 5 submitted. • Submit clear stepwise manufacturing outlines. • **Me-too status could not be confirmed** • The firm has mentioned the word flavor. The name of flavor that will be used in the product is required.
	Decision: Deferred for the following: • **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.** • **Submit clear stepwise manufacturing outlines.** • **The name of flavor that will be used in the product is required.**	
1519.	Name and address of manufacturer / Applicant	Mylab Pvt. Ltd Khankah Shareef Bahawalpur
	Brand Name +Dosage Form + Strength	Klavimox WSP
	Composition	Each 100 grams contain: Amoxicillin as trihydrate…….16g clavulanic acid as potassium salt ……..4g
	Diary No. Date of R& I & fee	Dy No. 2021: 16.01.2018 PKR 20,000/-: 15.01.2018
	Pharmacological Group	Amoxicillin and beta-lactamase inhibitor
	Type of Form	Form 5
	Finished Product Specification	The firm has claimed innovator's specifications
	Pack size & Demanded Price	100g, 500g, 1 kg, 10kg, 25kg,; As per SRO (10% less than the brand leader)
	Approval status of product in Reference Regulatory Authorities.	NA

	Me-too status	PRIMOX-PLUS WATER SOLUBLE POWDER. Reg. No. 074026
	GMP status	As recorded for above application
	Remarks of the Evaluator.	• The firm has mentioned in master Formula that "appropriate overage is added to compensate the potency loss on storage". The firm was asked for clarification. However, the firm did not reply. • The firm was asked to submit complete updated Form 5 duly signed by all concerned persons. However, the firm submitted incomplete Form 5. • The firm was asked to submit complete finished product specifications and testing method. However, the firm did not submit the same. • Details of environmental control processing including waste disposal management. • The product is intended for oral use. In the proposed dosage, the firm has mentioned 1ml/20kg body weight, which is submitted for Clavimox Injection. Clarification is was asked from the firm. The firm did not reply. • Correction of 'clavulanic acid as potassium' to 'potassium clavulanate' is required in Master Formula. • The firm changed clavulanic acid to clavulanic acid as potassium salt without submission of fee. • Available in USP, wherein the monograph is for "for oral suspension'.
	Previous decision	The Board in its 288th meeting deferred the case for the following: • Justification on scientific basis for addition of overage in master formulation. • The firm was asked to submit complete updated Form 5 duly signed by all concerned persons. However, the firm submitted incomplete Form 5. • The firm was asked to submit complete finished product specifications and testing method. However, the firm did not submit the same. • Correction of amoxicillin as trihydrate to amoxicillin trihydrate in Master Formula is required. • Details of environmental control processing including waste disposal management is needed. • The product is intended for oral use. In the proposed dosage, the firm has mentioned 1ml/20kg body weight, which is submitted for Clavimox Injection. Clarification is required from the firm. • Correction of 'clavulanic acid as potassium' to 'potassium clavulanate' is required in Master Formula. • The firm changed clavulanic acid to clavulanic acid as potassium salt without submission of fee.
	Evaluation by PEC	• The firm removed overage. • Updated Form 5 submitted. • The firm has claimed innovator's specifications • The firm changed clavulanic acid to clavulanic acid as potassium salt without submission of fee. • The product is intended for oral use. In the proposed dosage, the firm has mentioned 1ml/20kg body weight, which is submitted for Clavimox Injection. • Available in USP, wherein the monograph is for "for oral

		suspension'.
	Decision: Deferred for the following: • **Submission of fee for revision of salt form.** • **Submission of correct dosage** • **Clairifaction about the dosage form.**	
1520.	Name and address of manufacturer / Applicant	Mylab Pvt. Ltd Khankah Shareef Bahawalpur
	Brand Name +Dosage Form + Strength	Avipen 325 WSP
	Composition	Each gram contains: Phenoxymethylpenicillin…….325mg
	Diary No. Date of R& I & fee	Dy No. 2020: 16.01.2018 PKR 20,000/-: 16.01.2018
	Pharmacological Group	Beta-lactamase sensitive penicillins
	Type of Form	Form 5

	Evaluation by PEC	• The firm removed overage and flavor. • Updated Form 5 submitted. • The firm revised amoxicillin as trihydrate to amoxicillin trihydrate. • The firm submitted details of environmental control

		processing. • The firm removed the flavor form the compositions.
	Decision: Approved with innovator's spcifications	

Case No. 05: Registration Applications of Categories to be Considered on Priority.

Local manufacturing applications of priority categories defined by Registration Board in its 257th meeting

1523.	Name and address of manufacturer / Applicant	M/s Welmark Pharmaceuticals, Factory Plot # 122, Block B, Phase V, Industrial Estate, Hattar, District Haripur, Pakistan
	Brand Name +Dosage Form + Strength	Nelfi 250mg tablet
	Composition	Each film-coated tablet contains: Nelfinavir as Mesylate…..250mg
	Diary No. Date of R& I & fee	Dy No. 39451: 30.11.2018 PKR 20,000/-: 30.11.2018
	Pharmacological Group	Protease inhibitors
	Type of Form	Form 5
	Finished Product Specification	IP
	Pack size & Demanded Price	As recommended by the PRC
	Approval status of product in Reference Regulatory Authorities.	VIRACEPT® (nelfinavir mesylate) film-coated Tablets, for oral use USFDA approved
	Me-too status	NELFIN–250 Tablets. Reg. No.41115
	GMP status	The firm was inspected on 04.09.2018 & 26.09.2018 with the conclusion: As per observation made, facilities of production and quality control inspected, technical staff employed and keeping in view the overall GMP compliance status of the firm, the panel unanimously recommends the renewal of DML 000614 by way of formulation granted to M/s Welmark KPK.
	Remarks of the Evaluator.	• The firm revised Nelfinavir Mesylate to Nelfinavir as Mesylate in Form 5 without any fee.
	Decision: Deferred for submission of fee	

1524.	Name and address of manufacturer / Applicant	Aulton Pharmaceutical, Plot No. 84/1, Block A, Phase V, Industrial Estate, Hattar Pakistan
	Brand Name +Dosage Form + Strength	Leflunomalt 10mg tablet
	Composition	Each film-coated tablet contains: Leflunomide…… 10mg
	Diary No. Date of R& I & fee	Dy No. 39448: 30.11.2018 PKR 20,000/-: 30.11.2018
	Pharmacological Group	Immunosuppressants
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Leflunomide 10 mg Film-coated Tablets Approved by MHRA
	Me-too status	Zefora Tablets 10mg. Reg. No.66488
	GMP status	The firm was last inspected on 13.02.2018, wherein it was concluded that "Overall the firm was in good working condition with proper documentation, adequate Equipments both in production and quality control and qualified staff for performing the manufacturing and analysis of the manufactured products in accordance with the cGMP guidelines. Some of the minor shortcomings as described above were identified to the firm for immediate rectification. Based on the premises inspected, the qualified staff met and documentation reviewed, it is concluded that M/s Aulton Pharma Industrial Estate Hatter operate at good level of compliance with cGMP guidelines"

	Remarks of the Evaluator.	• The firm was asked to provide clear and complete manufacturing outlines mentioning the addition/mixing of each component of the formulation including APIs. The firm submitted inomplete having instructions/precautionary measures.
	Decision: Deferred for submission of complete manufacturing outlines.	

b. Export facilitation

Following three cases were received from section I & V-I vide letter No. F.1-9/2013-Reg-I dated 19.02.2019. According to the contents of the letter the firm has claimed two molecules (03 products) to be considered on priority basis in lieu of export facilitation.

1525.	Name and address of manufacturer / Applicant	Selmore Pharmaceuticals (Pvt.) Ltd., 36 Km, Multan Road Lahore
	Brand Name +Dosage Form + Strength	Triox Drench
	Composition	Each 100 ml contain: Oxfendazole……..2.265g Triclabendazole…….8.50g
	Diary No. Date of R& I & fee	Dy No. 32735: 02.10.2018 PKR 20,000/-: 02.10.2018
	Pharmacological Group	Other antitrematodal agents + Oxfendazole (not in ATC)
	Type of Form	Form 5
	Finished Product Specification	The firm has claimed manufacturer's specifications
	Pack size & Demanded Price	100ml, 500ml, 1000ml; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	VORCID SUSPENSION. Reg. No. 063563
	GMP status	The firm was inspected on 05.03.2018, 17.08.2018 & 16.10.2018, wherein renewal of DML: was recommended.
	Remarks of the Evaluator.	•
	Decision: Approved with innovator's specifcation	
1526.	Name and address of manufacturer / Applicant	Selmore Pharmaceuticals (Pvt.) Ltd., 36 Km, Multan Road Lahore
	Brand Name +Dosage Form + Strength	Amoxygent Forte IM Injection 50ml
	Composition	Each ml contains: Amoxicillin trihydrate……...150mg Gentamycin sulfate eq. to Gentamycin……40mg
	Diary No. Date of R& I & fee	Dy No. 35898: 30.10.2018 PKR 20,000/-: 29.10.2018
	Pharmacological Group	Penicillins with extended spectrum + aminoglycoside (not in ATC)
	Type of Form	Form 5
	Finished Product Specification	The firm has claimed manufacturer's specifications
	Pack size & Demanded Price	50ml; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	GENTAMOX INJECTION (100ml). Reg. No. 80160
	GMP status	The firm was inspected on 05.03.2018, 17.08.2018 & 16.10.2018, wherein renewal of DML: was recommended.
	Remarks of the Evaluator.	• The registration board in its meeting 287th meeting approved 100ml on the basis of 50ml.
	Decision: Approved with innovator's specifications	
1527.	Name and address of manufacturer / Applicant	Selmore Pharmaceuticals (Pvt.) Ltd., 36 Km, Multan Road Lahore
	Brand Name +Dosage Form + Strength	Amoxygent Forte IM Injection 100ml
	Composition	Each ml contains: Amoxicillin trihydrate……...150mg Gentamycin sulfate eq. to Gentamycin……40mg
	Diary No. Date of R& I & fee	Dy No. 35900: 30.10.2018 PKR 20,000/-: 29.10.2018

	Pharmacological Group	Penicillins with extended spectrum + aminoglycoside (not in ATC)
	Type of Form	Form 5
	Finished Product Specification	The firm has claimed manufacturer's specifications

	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	GENTAMOX INJECTION (100ml). Reg. No. 80160
	GMP status	The firm was inspected on 05.03.2018, 17.08.2018 & 16.10.2018, wherein renewal of DML: was recommended.
	Remarks of the Evaluator.	•
	Decision: Approved	

c. Import applications of priority categories defined by Registration Board in its 257th meeting

i. Human

1528.	Name and address of Applicant	Aster Life Sciences 32-Babar Block, New Garden Town, Lahore
	Detail of Drug Sale License	No. 05-352-0065-013801D, valid till 29.11.2019 Address: 32-Babar Block, New Garden Town, Lahore
	Name and address of Manufacturer	Panacea Biotec Limited, Vill. Malpur, Baddi, Distt. Solan, Himachal Pradesh-173205, India
	Name and address of marketing authorization holder	M/s Panacea Biotech Ltd., Village Malpur, Baddi, Distt. Solan-173205, Himachal Pradesh, India
	Name of exporting country	India
	Type of Form	Form 5A
	Diary No. Date of R& I	Dy No. 25111: 19.07.2018
	Fee including differential fee	PKR 50,000/-: 19.07.2018
	Brand Name +Dosage Form + Strength	PacliAll Lyophilzed Powder for Injectable Suspension
	Composition	Each vial contains: Paclitaxel USP…..100mg Human Albumin USP……..900mg
	Pharmacological Group	Taxanes
	Finished Product Specification	The firm has claimed manufacturer's specifications
	Pack size & Demanded Price	
	Approval status of product in Reference Regulatory Authorities.	ABRAXANE® for Injectable Suspension (paclitaxel protein-bound particles for injectable suspension, albumin-bound). Label claim; Each single-use vial contains 100mg of paclitaxel (bound to human albumin) and approximately 900 mg of human albumin (containing sodium caprylate and sodium acetyltryptophanate) USFDA approved with box warning.
	Me-too status	ONCOTAXEL 100MG. Reg. No. 78156 (does not depict protein bounding).
	Detail of certificate attached	• Original, legalized COPP, valid till 11.02.2020 issued by State Drug Controller Distt. Solan Himachal Pradesh is attached. • Original, legalized FSC, valid till 10.10.2020 issued by State Drug Controller Distt. Solan Himachal Pradesh is attached. • Original legalized GMP certificate valid until 11.02.2020 issued by Health and Family Welfare Department, Himachal Pradesh Baddi Distt. Solan is attached. • Original legalized Sole agent letter is provided which is valid till 31.03.2021.
	Remarks of the Evaluator.	• It has been mentioned in the COPP, SmPC and composition that the product contains Chloroform and Ethanol. Upon clarification, the firm submitted that these solvents are subsequently removed

		during the process. The level of these solvent in final drug product are controlled to concentrations much below the allowable limits as per ICH Q3C guidelines. • The label claim of reference product is "Each single-use vial contains 100mg of paclitaxel (bound to human albumin) and approximately 900mg of human albumin (containing sodium caprylate and sodium acetyltryptophanate)". However, the applied product has label claim "Each vial contains 100 mg of paclitaxel and 900mg of human albumin USP". • In the reference product, human albumin has been stabilized by sodium caprylate and sodium acetyltryptophanate. Clarification was asked for such stabilization of your product. The firm submitted that the albumin contains such stabilizing agents. The firm submitted COA of albumin from CSL Behring, Switzerland, mentioning sodium caprylate and sodium acetyltryptophan.
	Decision: Deferred for further delibration	

Evaluator PEC-XII

Case no. 01 Registration Applications for Local Manufacturing of (Human) Drugs.

a. Deferred cases

1529.	Name and address of manufacturer / Applicant	M/s Shaigan Pharmaceuticals (Pvt) Ltd, 14 KM Adyala Raod Post Office Daghal, Rawalpindi
	Brand Name +Dosage Form + Strength	Ulgin Liquid
	Composition	Form-5 Dy.No 5423 dated 14-02-2018 Rs. 20,000/- 14-02-2018
	Diary No. Date of R& I & fee	Each 10ml Contains: Sodium Alginate…500mg Sodium Bicarbonate…267mg Calcium Carbonate…160mg
	Pharmacological Group	Antacid
	Type of Form	Form-5
	Finished Product Specification	BP
	Pack size & Demanded Price	120ml/ As per SRO
	Approval status of product in Reference Regulatory Authorities.	Gaviscon oral liquid peppermint bottle by M/s Reckitt Benckiser Pty Ltd, (TGA approved)
	Me-too status	Ul-Nil Suspension by M/s Z-Jans. (Reg# 052470)
	GMP status	14-12-2017; Routine GMP Inspection Company is found complying GMP
	Remarks of the Evaluator.	Evidence of Atomic absorption apparatus not submitted by firm
	Decision of previous meeting of RB	Deferred for confirmation of availability of atomic absorption spectrophotometer. (M-288)
	Evaluation by PEC	• Firm has submitted panel inspection report dated 06-08-2018. The report states that the quality control lab of the firm has atomic absorption spectrophotometer. To perform routine tests/ analysis.
	Decision: Approved.	
1530.	Name and address of manufacturer / Applicant	M/s Genetics Pharmaceuticals Pvt. Ltd. 539-A, Sundar Industrial Estate,Raiwind,Lahore
	Brand Name +Dosage Form + Strength	Vepridone 1mg ODT Tablet
	Composition	Form-5 Dy.No 1055 dated 08-01-2018 Rs. 20,000 08-01-2018

Evaluation by PEC:

- Invoice is not ADC attested.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Cinacal 30mg & 60mg Tablets (Cinacalcet as HCl) Tablets by M/s. Kaizen Pharmaceuticals, Pvt. Ltd., Bin Qasim, Karachi.

Reference No: F.13-11/2017-PEC(Pt) dated 16th January, 2019.
Investigation Date and Time: 28th February, 2019 (Forenoon).
Investigation Site: Factory premises of M/s. Kaizen Pharmaceuticals, (Pvt.), Ltd., Plot#E-127, E-128 & E-129, North Western Industrial Zone, Bin Qasim, Karachi.

Background:

Chairman Registration Board considered the applications of M/s Kaizen Pharmaceuticals, (Pvt.) Ltd., Bin Qasim, Karachi for registration of Cinacal 30mg & 60mg (Cinacalcet as HCl) Tablets and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

1. Dr. Saif ur Rehman Khattak, Director, CDL, DRAP, Karachi.
2. Dr. Rafeeq Alam Khan, Meritorious Professor, Department of Pharmacology, University of Karachi, Karachi, Member Registration Board, Islamabad.
3. Dr. Kirshan Das, Assistant Director, DRAP Office, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

CINACAL 30MG & 60MG TABLETS

Sr. No.	Question	Observation by panel
1	Do you have documents confirming the import of API ?	The firm has imported 50g batch No. (EL-03/A100/16001) Cinacalcet hydrochloride via DHL on 22-02-2017 and 360.1g batch No. (EL-03/A100/16002) also through DHL on 28-02-2017 from M/s. Enaltec Lab, (Pvt) Ltd., India

Sr. No.	Question	Observation by panel
		vide in indenter Biofar, Karachi. The firm has got license No. 3445 dated 05-12-2018 for 360.1g after the laps of 22 months which is not a proper procedure.
2	What was the rationale behind selecting the particular manufacturer of API?	There is proper vendor qualification program being implemented by the firm which includes GMP Status, provision of DMF, reference standard, impurity standards etc.
3	Do you have documents confirming the import of API reference standard and impurity standards?	The firm has documents confirming the import of API working standard batch No. (EL/IRS/A100/16/004), however, any impurity standard has not been imported. As per COA of the API there are two known impurities in the API.
4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificate of analysis for the API and working standards of API. Two batches of working standards have been imported by the firm of which one was expired in June, 2017 while other in September, 2018. The firm has been conducting analysis with expired working standard of the API.
5	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has non-specific GMP certificate of the manufacturer issued by Food & Drug Administration, Maharashtra, India.
6	Do you use API manufacturer method of testing?	The firm has used API manufacturer method for Assay only which is an isocratic method, however, the method for related substances which is gradient method has not been used to qualify / quantify the related substances.
7	Do you have stability studies reports on API?	The firm has stability studies reports on API showing no value against the impurities (A&B).
8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method, however, no degradation products have been found as per stability data provided for three API batches.
9	Do you have method for quantifying the impurities in the API?	The firm has method for quantifying the impurities in the API, however, this method has not been used.
10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has some remaining quantities of the API, working standard of the API, however, there is no quantity of any impurity as no impurity has been imported by the firm.
11	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients. The excipients include Avicel PH 102 (BP), PVP-K30 (USP), Aerosil-200 (USP), Magniesium Sterate (BP), Pregelatinized Starch (USP), Crospovidone (BP) and SheffCoat.
12	Do you have documents confirming the import of the used excipients?	All the excipients have been purchased locally; however, their COAs are available with the firm.
13	Do you have test reports and other records on the excipients used?	The firm has test reports and other records on the excipients used.
14	Do you have written and authorized protocols for the development of API tablets?	The firm has written and authorized protocols for the development of Cinacal (Cinacalcet) 30mg & 60mg tablets.
15	Have you performed Drug-excipient compatibility studies?	Drug-excipients compatibility studies were not performed as the firm has used the same excipients as of innovator (Mimpara, manufactured by M/S. Amgen, USA).
16	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution studies only 60mg tablets in comparison to the innovator product (Mimpara 60mg tablets) while employing FDA guidance document for comparative dissolution profile. The firm

Sr. No.	Question	Observation by panel
		formulation have comparable dissolution profile with that of the innovator product. Firm has not performed any comparative dissolution profile study on 30mg tablets. Moreover, the method used for assay in dissolution studies is spectrophotometeric which needs to be validated.
17	Do you have product development (R&D) section	The firm has product development (R&D) section with equipment for manufacturing of tablet dosage form whereas the analytical activities are performed in routine QC lab.
18	Do you have necessary equipment available in product development section for development of API tablets?	The firm has necessary equipment for product development in product development section however Cinacal tablets manual work (mixing in poly bag, wet massing in tray) and production equipment (compression machine, tray dryer, coating pan and blister machine) have been used.
19	Are the equipment in product development section qualified?	The available equipment in product development section are qualified.
20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has SOP for the maintenance/calibration/requalification of equipment used on PD section.
21	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has some qualified staff in product development section however, needs to be improved in all respects.
22	Have you manufactured three stability batches for the stability studies of Cinacal tablets as required?	The firm has manufactured three stability batches for the accelerated and real time stability studies of Cinacal tablet Cinacal Tablet 30mg (Batch No. TF-01, TF-02 and TF-03 each of 1000 tablets) Cinacal Tablet 60mg (Batch No. TF-01, TF-02 and TF-03 each of 1000 tablets). The tablets are packed in Alu Alu blisters with pack size of 10's.
23	What was the criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability batches is the number of tablets per testing and the number of tablets required for whole stability testing.
24	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches. Necessary log books of equipment used have been available with the firm.
25	Do you have protocols for stability testing of stability batches?	The firm has protocol for stability testing of stability batches.
26	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated the method for testing stability batches. The method is based on assay method of API provided by API manufacturer. The method is isocratic in non-selective / specific hence cannot quantify the impurities (degradation products).
27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Validation is done for the assay method. However, the method is non-stability indicating.
28	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug?	The firm has documents confirming the qualification of equipment / instruments being used in the test and analysis of API and finished drug.
29	Do your method of analysis stability indicating?	The firm's method of analysis is not stability indicating.
30	Do your HPLC software is 21CFR compliant?	The HPLC software is 21CFR Compliant as per record available with the firm.
31	Can you show Audit Trail reports on API	The firm showed the audit trail reports on API and finished

Sr. No.	Question	Observation by panel
	and finished product testing?	product.
32	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches only. Degradation products have not been procured nor studied.
33	Do you have stability batches kept on real time stability testing?	The firm has completed accelerated stability testing on the three stability batches of both strengths. The real time stability testing is in progress on all the three stability batches. 12 months studies have been performed on the first batch whereas, the rest two have been studied for 09 months. Significant variation i.e. > 5% degradation has been found for all the three batches upto three months in the accelerated testing. The real time studies upto 9 months also show degradation about 6% for all three trail batches. 1% more degradation has been found in another 3 months (12 months study) for the first trial batch (Batch#TF-01).
34	Do you have valid calibration status for the equipment used in the production and analysis of API and tablets?	The firm has valid calibration status for the equipment used in Cinacal tablets production and analysis.
35	Do proper and continuous monitoring and control are available for stability chamber?	Continuous power supply and monitoring are available for stability chambers. More stability chambers are required for future studies.
36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipment, personnel and utilities be rated as GMP compliant.

Conclusions:

1. Significant change has been found for all the three trial batches in accelerated stability testing at three months. The firm has continued real time stability testing. The 12 months study on trial batch (TF-01) show more than 7% degradation.
2. The firm is using non-stability indicating method therefore, the extent of actual degradation in the trial batches could not be determined.
3. The firm has conducted comparative dissolution profile on 30mg tablets with innovator tablets (Mimpara, 30mg tablets, Manufactured by M/S. Amgen, USA) and have used an expired API working standard for analysis at various time points.

Recommendations:

1. Keeping in view the above facts the genuineness / authenticity of stability data submitted by the firm for registration of Cinacal 30mg & 60mg Tablets (Cinacalcet as HCl) Tablets are not verifiable.
2. Since > 7% degradation has already been found for one batch at 12 months real time stability studies, although using non-stability indicated method which clearly indicate that the product is unstable and extrapolated value of degradation will be outside the product specifications (Assay limit 90% - 110%) even using non-stability indicating method.
3. The firm must re-design / conduct their studies with proper formulation and testing program using authentic reference standards and stability indicating method under the guidance of proper product development staff.

Note: The firm has also shown their interest to re-design the whole study.

Decision: Registration Board rejected the application for registration of Cinacal Tablets 30mg & Cinacal Tablets 60mg (Cinacalcet (as hydrochloride)) by M/s. Kaizen Pharmaceuticals (Pvt.) Ltd; Plot No. E-127, E-128 & E-129 North Western Industrial Zone, Bin Qasim, Karachi based on the observations in the Report on Investigation of Authenticity / Genuineness of data for said products. Following are the observations:

1. **Significant change has been found for all the three trial batches in accelerated stability testing at three months. The firm has continued real time stability testing. The 12 months study on trial batch (TF-01) show more than 7% degradation.**
2. **The firm is using non-stability indicating method therefore, the extent of actual degradation in the trial batches could not be determined.**
3. **The firm has conducted comparative dissolution profile on 30mg tablets with innovator tablets (Mimpara, 30mg tablets, Manufactured by M/S. Amgen, USA) and have used an expired API working standard for analysis at various time points.**

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability / Local Availability GMP Inspection Report Date & Remarks

Date of Initiation	15-09-2017	15-09-2017	15-09-2017
No. of Batches	03		
Date of Submission	09-08-2018		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	**Documents To Be Provided**	**Status**
i.	COAs of API	Submitted
ii.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Naproxen:** Copy of GMP Certificate (Certificate#. ZJ20140007) issued by SFDA to M/s Zhejiang Tianxin Pharmaceutical Co., Ltd., Tiantai, Zhejiang, China, valid upto 26-1-2019. **Esomeprazole magnesium:** Copy of GMP

		Certificate (Certificate#. L. Dis. No. 428/A2/2017) issued by DCA Government of Telangana to M/s Metrochem API Private Limited, Telnagana State, India and valid upto February, 2018.
iii.	Protocols followed for conduction of stability study and details of tests.	Submitted
iv.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Submitted
v.	Documents confirming import of API etc.	**Esomeprazole magnesium:** Copy of license to import raw material of Esomeprazole magnesium (25Kg) issued by Assistant Director I&E Islamabad, to the M/s Global Pharmaceuticals (Pvt.) Ltd., to be used solely in the manufacture of their registered product "Esmazole tablet (Reg.# 056279)." **Naproxen:** Copy of license to import drug Naproxen base (3Kg) for clinical, trial examination, test for analysis issued by Assistant Director I&E Islamabad, to the M/s Global Pharmaceuticals (Pvt.) Ltd.
vi.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Submitted
vii.	Commitment to continue real time stability study till assigned shelf life of the product.	Submitted
viii.	Commitment to follow Drug Specification Rules, 1978.	Submitted

REMARKS OF EVALUATOR

i. Firm has submitted 6 months of Accelerated & Long term stability data.
ii. Firm has submitted that Esomeprazole drug layer is applied via coating and they have taken 6% additional quantity of Esomeprazole focusing the loss in coating.

REMARKS OF EVALUATOR

iii. Firm has submitted 6 months of Accelerated & Long term stability data.

iv. Firm has submitted that Esomeprazole drug layer is applied via coating and they have taken 6% additional quantity of Esomeprazole focusing the loss in coating.

Report on Inspection of Authenticity / Genuineness of data submitted for registration of Promig Plus 500mg/20mg (Naproxen …..500 mg + Esomeprazole……20 mg) and Promig Plus 375mg/20mg (Naproxen …..375 mg + Esomeprazole……20 mg) Tablets by M/s. Global Pharmaceuticals (Pvt.) Ltd., Plot No. 204-205, Industrial Estate Triangle, Kahuta Road, Model Town, Islamabad.

Inspection Date and Time: 1st (Morning), 13th (Morning) and 14th (Morning) March,2019

Inspection Site: M/s. Global Pharmaceuticals (Pvt.) Ltd., Plot No. 204-205, Industrial Estate Triangle, Kahuta Road, Model Town, Islamabad.

Background:

M/s. Global Pharmaceuticals (Pvt.) Ltd., Plot No. 204-205, Industrial Estate Triangle, Kahuta Road, Model Town, Islamabad applied for registration of

Promig Plus 500mg/20mg (Naproxen …..500mg + Esomeprazole……20mg) Tablets and Promig Plus 375mg/20mg (Naproxen …..375mg + Esomeprazole……20 mg) Tablets with following composition:

Promig Plus 500mg/20mg Tablets

Each modified release tablet contains:-

Naproxen ……500 mg

Esomeprazole Magnesium equivalent to Esomeprazole……20mg

Promig Plus 375mg/20mg Tablets

Each modified release tablet contains:-

Naproxen ……....375mg

Esomeprazole Magnesium equivalent to Esomeprazole……20mg

Chairman Registration Board constituted following three member panel for on-site investigation to confirm the genuineness/authenticity of submitted stability data and associated documents, import of API, quality, specification, test analysis, facilities etc. Panel was requested to conduct inspection of the firm to verify the submitted data by the firm and to submit a report on approved format for further consideration of case by the Registration Board.

Composition of Panel:

1. Additional Director, QA & LT, DRAP, Islamabad.
2. Area FID, Islamabad.
3. Mr. Arsalan Tariq, Assistant Director, QA & LT, DRAP, Islamabad.

Scope of Inspection:

On-site investigation to confirm the genuineness/authenticity of submitted stability data and associated documents, import of API, quality, specification, test analysis, facilities.

Tools for Inspection:

The Inspection was conducted by using a structured questionnaire approved by DRAP. For objective

evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of findings/verification inspection are summarized as under:

Detail of Inspection:

<table>
<tr><th>Q. #</th><th>Question</th><th>Observation by panel</th></tr>
<tr><td>1.</td><td>Do you have documents confirming the import of API including approval from DRAP?</td><td>Naproxen
Invoice Number: 16TXI-164
ADC attestation date: 05.08.2016
Exporter/Manufacturer: M/s Zhejaing Tianxin Pharmaceutical Co. Ltd. No.215, Fengze Road, Tiantai County, Zhejiang Province 317200, China.
Batch No. NX 1604301
Manufacturing Date: 21.04.2016
Expiry Date: 20.04.2019
Quantity: 03 kg
Esomeprazole Magnesium
Invoice Number: AE/17/022
ADC attestation date: 07-08-2017
Exporter: M/s Metrochem API Private Ltd. Flat No.302, Bhanu Enclave, Sunder Nagar Erragadda,Hyderabad-500038, T.S India
Manufacturer: M/s Metrochem API Private Ltd. Plot No. 62/C/6, Pipe line road, phase-1IDA Jeedimetla, Hyderabad-500, Telangana State, India
Batch No. ESM/1707301
Mfg. Date: July-2017
Exp. Date: June-2022
Quantity: 25Kg (The quantity was already in use in manufacturing of commercial batches of registered product Esmazole Tablet 40mg (Esomeprazole).</td></tr>
<tr><td>2.</td><td>What was the rationale behind selecting the particular manufacturer of API?</td><td>Naproxen
The firm has submitted a comparison sheet showing different parameters to compare among 3 different API sources namely:
a. M/s Vervain Pharma-Chem India
b. M/s Wellona Pharmaceutical Ltd. India
c. M/s Zhejiang Tianxin Pharmaceutical Co. China
M/s Zhejiang Tianxin Pharmaceutical Co. Ltd. was selected on the basis of Valid GMP, COA, good impurity profile, and good client list of API manufacture contains International and Local client and Stability Data (Accelerated and Real Time) as per requirement. The firm is already using the “Naproxen sodium” from the same suppliers.
Esomeprazole Magnesium
The firm has submitted that M/s Metrochem API Private Ltd. Flat No.302, Bhanu Enclave, Sunder Nagar Erragadda,Hyderabad-500038, T.S India is their regular supplier and having Valid GMP by the relevant regulatory authority.
The selection of vendor was discussed in detail in the light of GMP guidelines and firm was advised to devise a comprehensive S.O.P covering more parameters in details for the purpose. There should be a detailed report/study for such prequalification studies.</td></tr>
<tr><td>3.</td><td>Do you have documents confirming the import of reference standard and impurity standards?</td><td>The firm imported following reference standards:
Naproxen:
<table>
<tr><th>Name of product</th><th>Source</th><th>Batch No.</th><th>Qty</th><th>Invoice No.</th><th>Mfg. date</th><th>Exp. date</th></tr>
<tr><td>Working Standard</td><td>M/s Zhejiang Tianxin</td><td>1112106</td><td>1 gm</td><td>16TXI-164</td><td>06.2. 2015</td><td>05.02. 2017</td></tr>
</table></td></tr>
</table>

		<table><tr><td></td><td>Pharmaceutical Co. Ltd.</td><td></td><td></td><td></td><td></td><td></td></tr></table> The firm has developed tertiary working standard of Naproxen from secondary standards provided by the Manufacturer/ source for Naproxen. **Esomeprazole Magnesium:** Firm has imported primary standard from which they have and impurities as per details below: <table><tr><th>Name of product</th><th>Source</th><th>Batch No.</th><th>Qty</th><th>Invoice No.</th><th>Mfg. date</th><th>Exp. date</th></tr><tr><td>Esomeprazole primary reference standard</td><td>USP</td><td>G0I290</td><td>10 mg</td><td>783 Purchased via Cavax Enterprises</td><td>-</td><td>-</td></tr><tr><td>Omeprazole Sulphone</td><td>As above</td><td>OP-IMP-E/WS-01/17</td><td>20 mg</td><td>Purchased via NEON Chemicals, Pakistan</td><td>July, 2017</td><td>June, 2018</td></tr><tr><td>Omeprazole N-oxide</td><td>As above</td><td>OP-IMP-E/WS-01/17</td><td>20 mg</td><td>As above</td><td>July, 2017</td><td>June, 2018</td></tr></table>
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has submitted COAs of following drugs (APIs)/materials of source as mentioned below: **Neproxen** ✓ Neproxen (API) B. No. NX1604301 ✓ Neproxen reference standard B.No.1112106 **Esomeprazole Magnesium** ✓ Esomeprazole Magnesium (API) B. No. ESM/1707301 ✓ Esomeprazole Magnesium Primary Standard from USP, B. No. G0I290 ✓ Impurity Standard Omeprazole Sulphone, B.No. OP-IMP-E/WS-01/17 ✓ Impurity Standard Omeprazole N-oxide, B.No. OP-IMP-E/WS-01/17
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	**Neproxen** The firm has submitted copy of GMP certificate No: ZJ20140007 in the name of Manufacturer that is "M/s Zhejiang Tianxin Pharmaceutical Co. Ltd. No.215, Fengze Road, Tiantai County, Zhejiang Province 317200, China." of **Neproxen** by the Certifying Authority of "China Food & Drugs Administration, China." Issued on: 27-01-2014 Valid up to: 26-01-2019 **Esomeprazole Magnesium** The firm has submitted copy of GMP certificate No: L.Dis.No.428/A2/2017 in the name of Manufacturer that is "M/s Metrochem API Private Ltd. Unit-I, Plot No.62/C/6, pipeline road, phase-1, IDA Jeedimetla, Hyderabad-500055, Telangana State, India for source of **Esomeprazole Magnesium** by the Certifying Authority of "Drug Control Administration, Government of Telangana (India)" Issued on: 02-02-2017 Valid upto: 01 year from the date issue (01-02-2017).
6.	Do you use API manufacturer method of testing for testing API?	The firm has used USP/pharmacopoeial method of testing for testing for the API Naproxen & Esomeprazole Magnesium.

<table>
<tr><td>7.</td><td>Do you have stability studies reports on API?</td><td>Naproxen:
Firm has submitted data of accelerated stability studies data (at 40 C° ± 2 C° & 75 % RH ± 5 %) of three batches 0605104 (Mfg: 3rd May, 2006), 0605105 (Mfg: 5th May, 2006), & 0605106 (Mfg: 6th May, 2006), up to 6 months and for real time (at 30 C° ± 2 C° & 60 % RH ± 5 %) data up to 36 month, conducted by the API manufacturer “M/s Zhejiang Tianxin Pharmaceutical Co. Ltd. No.215, Fengze Road, Tiantai County, Zhejiang Province 317200, China. for API namely Neproxen. The data submitted by the API manufacturers lies within the limits for the assay, loss on drying & related substances.
<u>Esomeprazole Magnesium:</u>
Firm has submitted data of three batches ESM/A/200807076 (Mfg.: July, 2008), ESM/A/200807077 (Mfg.: July, 2008), & ESM/A/200807078 (Mfg.: July, 2008), for accelerated stability studies (at 40 C° ± 2 C° & 75 % RH ± 5 %) up to 6 months and for real time data (at 30 C° ± 2 C° & 60 % RH ± 5 %) up to 60 month, conducted by the API manufacturer “M/s Metrochem API Private Ltd. Plot No. 62/C/6, Pipe line road, phase-1IDA Jeedimetla, Hyderabad-500, Telangana State, India for API namely Esomeprazole Magnesium. The data submitted by the API manufacturers lies within the limits for the Assay water & impurities.</td></tr>
<tr><td>8.</td><td>If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?</td><td>The firm has submitted the stability testing studies of the API verifying the determination of impurities, degradation products as per USP/pharmacopoeial specifications.</td></tr>
<tr><td>9.</td><td>Do you have method for quantifying the impurities in the API?</td><td>The firm stated that they have used the USP testing method for quantifying the impurities in the API Naproxen (by using chromatographic purity test) and Esomeprazole Magnesium.</td></tr>
<tr><td>10.</td><td>Do you have some remaining quantities of the API, its reference standard and impurities standards?</td><td>The firm has submitted remaining quantities of the API, reference standard and impurities standards as per details below:
<table>
<tr><th>S#</th><th>Entity Name</th><th>Batch No.</th><th>Received amount</th><th>Consumption Details</th><th>Consumed amount</th><th>Remaining amount (approx.)</th></tr>
<tr><td rowspan="2">1</td><td rowspan="2">Naproxen</td><td rowspan="2">NX1604301</td><td rowspan="2">3kg</td><td>Raw material Testing</td><td>10g</td><td>2990gm</td></tr>
<tr><td>Three Stability Batches STRNGHTH 500/20 mg PPT-01, PPT-02,PPT-03 STRNGHTH 375/20 mg PPT-01, PPT-02,PPT-03</td><td>2625g</td><td>365gm</td></tr>
<tr><td>2</td><td>Esomeprazole magnesium</td><td>ESM/1707301</td><td>0.5kg</td><td>Three Stability Batches STRNGHTH 500/20 mg PPT-01, PPT-02,PPT-03 STRNGHTH 375/20 mg PPT-01, PPT-02,PPT-03</td><td>143.4g</td><td>356.6gm</td></tr>
</table></td></tr>
</table>

		3 | Naproxen (Working. Standard) | 1112106 | 1 g | Raw material Testing | 100mg | 990mg 4 | Omeprazole Sulphone | OP-IMP-E/WS-01/17 | Approx: 20mg | Finished product | -------- | Approx: 20mg 5 | omeprazole N oxide | OP-IMP-E/WS-01/17 | Approx: 20mg | Finished product | --------- | Approx: 20mg
11.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients as indicated from the COAs submitted by firm.
12.	Do you have documents confirming the import of the used excipients?	The firm purchased the excipients used in the applied formulation from local suppliers as per details below: **S# | EXCIPIENT NAME | Grade** 1 | PVP-K30 | Pharmaceutical 2 | Crosscarmellose Sodium | Pharmaceutical 3 | Talcum | Pharmaceutical 4 | Magnesium Stearate | Pharmaceutical 5 | Aerosil 200 | Pharmaceutical 6 | Eudragit L100 | Pharmaceutical 7 | Triacetin | Chemical 8 | Sodium Hydroxide | Analytical 9 | Tabcoat clear | Pharmaceutical 10 | Titanium Dioxide | Pharmaceutical 11 | Polyethylene Glycol 400 | Pharmaceutical 12 | HPMC E5 | Pharmaceutical 13 | Propyl paraben | Pharmaceutical 14 | Methyl paraben | Pharmaceutical 15 | Ethanol | Pharmaceutical
13.	Do you have test reports and other records on the excipients used?	The firm has performed tests on above mentioned excipients and hence has test reports and other records on the excipients used. **Remarks:** a) The firm has not performed complete tests for verifying the quality of excipients. b) The firm shows COA of Talcum with no test of Asbestos which is a cancer causing agent.
14.	Do you have written and authorized protocols for the development of Promig Plus 500mg/20mg Tablet & Promig Plus 375mg/20mg Tablet (Neproxen+Esomeprazole Magnesium)?	The firm has written and authorized protocols for the development of Promig Plus 500mg/20mg Tablet & Promig Plus 375mg/20mg Tablet. But submitted documented was not in accordance with ICH Q-8 which actually pertains to Pharmaceutical Development. The firm was advised to improve the submitted protocol in the light of said document.
15.	Have you performed Drug-excipients compatibility studies?	The firm has not performed Drug-Excipients compatibility studies as their formulation (API & Excipients) is similar/comparable to that of the Vimovo Tablet approved by EMA.
16.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution studies against the Vimovo Tablet 500 mg/20 mg (B# AAAN) approved by EMA. However, the studies seems improvement for example the firm has used 6 units for both test and reference products instead of 12 as recommended in USFDA Guidance for Industry: Dissolution testing of immediate release solid oral dosage form.
17.	Do you have product development (R&D) section	The firm possesses an approved Research & Development (R&D) and Validation Department for product development studies.
18.	Do you have necessary equipment available in product development section for development of Promig	The firm has following necessary equipment in R & D section for the development of Promig Plus 500mg/20mg Tablet and 375mg/20mg Tablet.

	Plus 500mg/20mg Tablet & Promig Plus 375mg/20mg Tablet?	**Research & Development** **Machine /Equipment Name** | **Machine ID #** | **Model/Make** | **Capacity** | **Location** | **Qualification No.** | **Calibration Date** | **Calibration Due Date** Multifunctional Experimental Machine | GL/R&D/698 | SD-1/STC-China | 1.00kg | R&D | IQ-234/08-10 OQ-235/08-10 PQ-236/08-10 | N/A | N/A Manual Capsule Filling Machine | GL/R&D/668 | Manual/Pakistan | 600cap/Hr. | R&D | IQ-237/03-13 OQ-238/03-13 PQ-239/03-13 | N/A | N/A Magnetic Stirrer | GL/R&D/738 | 78HW1/China | -- | R&D | IQ-317/09-15 OQ-318/09-15 | N/A | N/A Disintegration Apparatus | GL/R&D/755 | BJ-2/Guoming-china | Double Basket | R&D | IQ-338/02-16 OQ-339/03-16 | 20-08-2017 | 20-08-2018 Precision Balance | GL/R&D/678 | TX-300/Akira-Japan | 300gm | R&D | IQ-249/03-15 OQ-250/03-15 | 20-08-2017 | 20-08-2018 Weighing Balance | GL/R&D/001 | SBZ/Pakistan | 10.0 Kg | R&D | IQ-523/03-17 OQ-524/03-17 | 20-08-2017 | 20-08-2018 Stability Chamber (Accelerated) | GL/R&D/655 | I-01/Instrumend-Pakistan | 100 Packs | R&D | IQ-244/03-13 OQ-245/03-13 PQ-246/03-13 | 18-08-2017 | 18-08-2018 Stability Chamber(Real Time) | GL/R&D/034 | R1-201/Raxell-Pakistan | 200 Packs | R&D | IQ-110/05-08 OQ-111/05-08 PQ-112/05-18 | 19-08-2017 | 19-08-2018 Dissolution Apparatus | GL/R&D/777 | RC-8/Guoming-China | 8 Vessels | R&D | IQ-594/08-17 OQ-595/08-17 | 20-08-2017 | 20-08-2018 HPLC | GL/R&D/753 | Hitachi | -- | R&D | External | 28-07-2017 | 28-07-2018 HPLC | GL/R&D/819 | Hitachi | -- | R&D | External | 13-08-2018 | 13-08-2019 Stability Chamber(Real Time) | GL/R&D/035 | Thermolab / India | - | R&D | IQ-110/05-08 OQ-111/05-08 PQ-356/04-16 | 17-08-2017 | 17-08-2018 Stability Chamber(Real Time) | GL/R&D/768 | SC750L / Instrumends | - | R&D | - | 05-09-2018 | 05-09-2019
19.	Are the equipment in product development section qualified?	The equipment used in production and analysis of trial batches are qualified as per details mentioned in reply of above question # 18.
20.	Do you have proper maintenance/calibration/re-qualification program for the equipment used in PD section?	The firm has calibration program for the equipment used in production and QC as per details mentioned in reply of question 18.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has appointed a team of following technical personnel: **Sr. #.** | Employee Name | **Designation** | **Qualification** | **Experience** 1. | Mr. Muhammad Jamil | Manager R&D | M. Sc. Analytical Chemistry | 17 years 2. | Dr. Tanseer Abbas | Executive | Pharm -D | 06 Years 3. | Atif Ali | Executive | M. Sc. Chemistry | 5 years 4. | Dr. Anas Ullah | Senior analyst | Pharm D | 4.5 years 5. | Muhammad Zubair | Analyst | M. Sc. Chemistry | 1.5 Years 6. | Miss Kainat Zahra | Pharmacist | Pharm D | 06 month
22.	Have you manufactured three stability batches for the stability studies of Promig Plus 500mg/20mg Tablet Promig Plus 375mg/20mg Tablet?	The firm has manufactured following three stability batches for the stability studies of Promig Plus 500mg/20mg Tablet and Promig Plus 375mg/20mg Tablet: **S. No.** | **Stability Batchs** | **Batch Sizes** Promig Plus 500mg/20mg Tablet a. | PPT-01 | 1000 tablets b. | PPT-02 | 1000 tablets c. | PPT-03 | 1000 tablets Promig Plus 375mg/20mg Tablet d. | PPT-01 | 1000 tablets e. | PPT-02 | 1000 tablets f. | PPT-03 | 1000 tablets
23.	Do you have any criteria for fixing the batch size of stability batches?	The firm has set the criteria for fixing the batch size of stability batches as/& derived the quantity sufficient for the studies both in accelerated and real time studies to cover all testing time points as per details below: **Batch Sizes** | **Tablets for real time studies** | **Tablets for accelerated studies** | **Total packs per batch required** 1000 tablets | 420 Tablets OR | 360 Tablets OR | 780 Tablets OR

		<table><tr><td></td><td>7 Packs</td><td>6 Packs</td><td>13 Packs</td></tr></table> Batch size = 1000 Tablets, Pack Size 60'S
24.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches. Starting from Raw Material manufacturing order sheet assuring the traceability of manufacturing and analysis of all the three stability batches.
25.	Do you have protocols for stability testing of stability batches?	The firm has controlled protocol for conducting stability studies on batches of applied formulation at 30 C^o $\pm$ 2 C^o & 65 % RH $\pm$ 5 % for real time studies and at 40 C^o $\pm$ 2 C^o & 75 % RH $\pm$ 5 % for accelerated studies.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has used its own developed method for testing of finished drug in their stability studies. The firm has also submitted a report verifying the validation studies of the analytical method covering following parameters of validation: i. Specificity ii. Precision a. Repeatability b. Intermediate Precision iii. Accuracy iv. Linearity v. Robustness vi. System Suitability vii. Limit of Quantification/Detection viii. Range
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	The firm has not conducted method transfer studies. According to the firm since their analytical method is developed by them hence no method transfer studies are required.
28.	Do you have documents confirming the qualifications of equipment/instruments being used in the test and analysis of APIs and the finished drug?	The firm showed documents confirming the qualification of equipment/instruments being used in the test and analysis of APIs and the finished drug as per details under question No:18.
29.	Do your method of analysis stability indicating?	The firm's method of testing is stability indicating for stability testing of their finished product, the data sheet submitted by firm verifies the testing of impurity on samples kept on stability studies. The firm has conducted impurity testing at one time at 6^{th} month time point it was discussed to conduct the impurity testing at initial and end time point (i.e., at 0 and 6) to get an exact verification of impurity profiling/level.
30.	Do your HPLC software is 21CFR compliant?	Firm has 1 HPLC dedicated for R&D testing at the time of studies conducted (now they have 2) and is 21 CFR II compliant. This HPLC system is used for stability studies of Promig Plus 500mg/20mg Tablet and Promig Plus 375mg/20mg. The HPLC used for the stability studies is 21-CFR compliant. The record from logbooks, analytical test reports was randomly found verifiable onsite. A complete trail of such testing was available and verifiable.
31.	Can you show Audit Trail reports on Promig Plus 500mg/20mg tablets testing?	A complete trail of such testing was found available and verifiable from log books, analytical test reports and software of HPLC as well.
32.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches as per following details:

		<table><tr><th>S#</th><th>Product Name</th><th>Batch No.</th><th>Total packs</th><th>Sample for Accelerated study</th><th>Sample for Real Time Study</th><th>Remaining Packs</th></tr><tr><td rowspan="3">1</td><td rowspan="3">Promig plus 500/20mg Tablet</td><td>PPT-01</td><td>14</td><td>6</td><td>7</td><td>2</td></tr><tr><td>PPT-02</td><td>16</td><td>6</td><td>7</td><td>2</td></tr><tr><td>PPT-03</td><td>15</td><td>6</td><td>7</td><td>2</td></tr><tr><td rowspan="3">2</td><td rowspan="3">Promig plus 375/20mg Tablet</td><td>PPT-01</td><td>15</td><td>6</td><td>7</td><td>2</td></tr><tr><td>PPT-02</td><td>15</td><td>6</td><td>7</td><td>2</td></tr><tr><td>PPT-03</td><td>15</td><td>6</td><td>7</td><td>2</td></tr></table>
33.	Do you have stability batches kept on stability testing?	The firm has completed the accelerated stability testing on the three stability batches of Promig Plus 500mg/20mg Tablet and 375mg/20mg Promig Plus Tablet. Also the firm has completed the real time stability testing up to 12 months on all three batches. However, in real time studies the testing at 9th month time point is missing.
34.	Do you have valid calibration status for the equipments used in production in analysis?	The firm has valid calibration status for the equipment used in production and analysis of Promig Plus 500mg/20mg Tablet and 375mg/20mg Promig Plus Tablet as per record available during onsite visit.
35.	Do proper and continuous monitoring and control are available for stability chamber?	Continuous power supply and monitoring with back up from generator and UPS are available for stability chamber to address the problem of interrupted power supply or load shedding. Portable digital data loggers are available for continuous monitoring of temperature and humidity conditions of stability chamber. The firm submitted date-wise data for every next hour of temperature and humidity conditions of stability chambers used for accelerated and real time studies.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipment, personnel and utilities are rated as GMP compliant.
37.	Applied technology of drug layering for Esomeprazole in which Drug is loaded via coating solution on the core tablet of Naproxen.	The firm stated that drug layer of Esomeprazole was applied on the enteric coated Naproxen tablet (core) through manual coating technique i.e. coating pan and spray gun.
38.	Justification of 6% overage of esomeprazole in master formulation (Which is required to be based on study/scientific rationale) for which firm has stated that additional quantity of Esomeprazole was used focusing the loss of coating.	In order to fix this percentage the firm performed several trials. First the firm applied 100% esomeprazole drug layer as dispersion in IPA, the results showed remarkable reduction in esomeprazole assay to 26.89%. The possible loss was due to use of esomeprazole as dispersion and its loss during coating process. Then they decided to change the coating solution composition and applied esomeprazole drug layer as solution in ethanol. Keeping in view of the drug loss during coating the firm performed three consecutive trials with 120% esomeprazole in coating solution in ethanol. The first trial B# T-012Q (part I) yield a results 111.13%. The same formulation was again trialed for two times B#T-012Q (Part II), B#T-012Q (Part III) with more precaution and the results produced were 115.69% and 116.38%. The average loss in all three 03 trials was 6%. Based on the average loss a trial T-026 with 106% Esomeprazole in coating solution in ethanol was conducted and the results achieved were 101.37%. Based on these trials 6% overage was made as part of master formulation.

Conclusions & Recommendations:

1. On the basis of risk based approach the genuineness / authenticity of stability data submitted by the firm for registration of 375mg/20mg Promig Plus Tablet and Promig Plus 500mg/20mg tablets is verifiable to a satisfactory level.
2. The related manufacturing area, equipment, personnel and utilities are GMP compliant and suitable for the manufacturing of 375mg/20mg Promig Plus Tablet and Promig Plus 500mg/20mg tablets, therefore, the panel

recommends the registration of Promig Plus 500mg/20mg tablets in the name of the manufacturer.

Decision: Registration Board decided to approve registration of "Promig plus tablets 500mg/20mg & Promig Plus tablets 375mg/20mg by by M/s. Global Pharmaceuticals (Pvt.) Ltd., Islamabad. Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

b. Exemption from onsite verification of stability data

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	**Documents to Be Provided**	**Status**
1)	COA of API	Method used for analysis of API along with copy of COA for dapagli Apixaban from M/s Fuxin Long Rui Pharmaceutical Co., Ltd. has been submitted.

2)	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by Food and Drugs control administration, Gujrat state India to, Glenmark Pharmaceuticals Limited. Plot#3109, GIDC, Industrial estate, Ankleshwar city Ankleshwar-393002 District, Bharuch, Gujrat state India valid up to 18-08- 2019.
3)	Protocols followed for conduction of stability study and details of tests.	Yes
4)	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5)	Documents confirming import of API etc.	• Firm has submitted ADC attested copy dated 07-02-2017 confirming import of 0.057 Kg Apixaban. • Batch no. 801609708 • Invoice no. 2006004973 • Firm has submitted copy of Form-3 confirming import of API from M/s Glenmark pharmaceuticals Ltd. • Firm has submitted copy of Form-7 confirming batch no of API i.e. 801609708.
6)	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7)	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8)	Commitment to follow Drug Specification Rules, 1978.	Yes
Data for exemption from On-site investigation of submitted stability data		
Administrative Portion		
1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product Saffaldi Tablet 400mg (Sofosbuvir), which was conducted on 8th January, 2018 and was presented in 279th meeting of Registration Board held on 28th February-2nd March, 2018. Following observations were reported in the report: i. The HPLC software is 21CFR Compliant. ii. Firm has shown all Audit trail reports. iii. Adequate monitoring and control are available for stability chambers. Data Loggers are also placed in stability chambers for monitoring
2.	Documents for the procurement of API with approval from DRAP (in case of import).	• Firm has submitted ADC attested copy dated **07-02-2017** confirming import of 0.057 Kg **Apixaban**. Batch no. 801609708 Invoice no. 2006004973 • Firm has submitted copy of Form-3 confirming import of API from M/s Glenmark pharmaceuticals Ltd. • Firm has submitted copy of Form-7 confirming batch no of API i.e. 801609708.
3.	Documents for the procurement of reference standard and impurity standards.	• Firm has submitted declaration from API manufacturer regarding dispatiching of Apixaban working standard to M/s Saffron Pharmaceuticals. • Quantity of working standard imported by the firm is n100mg Batch#WD18801.01.
4.	Approval of API/ DML/GMP	Copy of GMP certificate issued by Food and Drugs control

</table>

16.	Analysis reports for excipients used.	• Firm has submitted COA and analysis reports of all excipients used in the study
17.	Drug-excipients compatibility studies.	• Submitted by the firm.
18.	Record of comparative dissolution data.	• Firm has submitted Dissolution profile of FPP at 3 different mediums i.e HCl buffer pH 1.2, Acetate Buffer pH 4.5, Phosphate Buffer pH 6.8. • However firm did not submit Dissolution profile of reference product at above mentioned mediums thus also firm was unable to calculate the f2 similarity factor.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	• Firm has submitted audit trail reports of stability studies of applied formulation

Evaluation by PEC:

- Relevant chromatograms and FTIR spectrum, for generated COA of API by M/s Saffron Pharmaceuticals (Pvt) Ltd are not submitted.
- Firm has not submitted dissolution profiles for reference product for CDP. Also, f2 similarity factor shall be calculated and submitted.
- Relevant analytical record of CDP i.e. chromatograms, raw data sheets not submitted by the firm.
- Long term Stability studies of Apixaban as per Zone IV-A conditions from API manufacturer is not submitted. Upon intimation to the firm, the response was, "Required stability data according to Zone-IV-A manufacturer has not provided the data due to current crisis between both the countries; we are continuously having follow up regarding this matter."
- System generated electronic record of stability chambers for temperature and humidity conditions covering the stability study duration is not submitted.

Decision: Registration Board decided to deferred the case for following:

i. **Submission of relevant chromatograms and FTIR spectrum, for generated COA of API by the firm.**
ii. **Submittion of dissolution profiles for reference product for CDP. Also, f2 similarity factor shall be calculated and submitted.**
iii. **Submission of relevant analytical record of CDP i.e. chromatograms, raw data sheets.**
iv. **Submission of long term Stability studies of Apixaban as per Zone IV-A conditions from API manufacturer.**
v. **Submission of system generated electronic record of stability chambers for temperature and humidity conditions covering the stability study duration.**

	Approval status of product in Reference Regulatory Authorities.	Fluorouracil Injection, 50 mg/ml, solution for injection by medac Gesellschaft für klinische Spezialpräparate mbH Theaterstr. 6 22880 Wedel Germany (MHRA Approved)
	Me-too status	Fivuflu 250mg injection by Atco (Reg.# 045756)
	GMP status	30-03-2017 Grant of Additional Sections Panel recommends grant of Additional Sections
	Previous remarks of the Evaluator.	• Confirmed as vial in MHRA but firm has applied in ampoule packaging. • Evidence of vial from available me-too database
	Previous decision(s)	Deferred for clarification/justification on scientific basis for applied packaging material as reference product approved by MHRA of UK is available in glass vial whereas firm has applied for glass ampoule.**(M-275).** Registration Board referred the case to QA & LT Division to conduct GMP inspection of Firm on priority **(M-285).** Deferred for evidence of me-too status in applied fill volume of 5 ml **(M-287)**.
	Evaluation by PEC	The firm has referred the decision of 274th meeting wherein Registration Board has decided as me-too is available in 10ml vial with type-1 glass and, the container closure is more safe as ampoule does not have rubber stopper and thus DRB approved that product. The firm is granted GMP certificate based on inspection conducted on 17-03-2017 The firm has submitted me-too reference "UTORAL injection of Al-Habib Corporation (Reg#021046)" which has been verified from available database.
	Decision: Approved.

Registration Board deferred the case since submitted source of pellets is not of USP grade **(M-278)**. Registration Board deferred the case since submitted source of pellets is not of USP grade **(M-285)**.
	Evaluation by PEC	Firm has requested to change the source of pellets (22.5%) to M/s Murli Krishna Pharma (Pvt) Ltd., along with fee PKR 100,000/- (Chalan # 0726014). Firm has also submitted COA and stability study data and copy of GMP certificate The real time stability study data of pellets is conducted at 25°C ± 2 °C and 60% ± 5% RH which is not as per the requirement of Zone IV-A.

		The USP has specified the pellets to be tested at buffer stage of either 20% or 32%, while the pellets of M/s Murli Krishna is 22.5%. The dissolution range of pellets in USP is NLT 75% of Q in 60 mins, while that provided in COA is NLT 70% of Q in 45 min. **New firm title is "M/s. Horizon Healthcare (Pvt.) Ltd, Taxila, Pakistan".** GMP certificate granted based on inspection conducted on 26-01-2018. The firm has submitted stability data sheet with revised storage conditions of 30°C ± 2 °C and 65% ± 5% while remaining particulars i.e., batch numbers and results etc was the same. The firm has submitted fresh dossier with new title of the firm **"M/s. Horizon Healthcare (Pvt.) Ltd, Taxila, Pakistan"**. New fee challan of Rs. 20,000/- (deposit slip # 0817180) dated 05-12-2018 has been submitted. **Source of pellets**: M/s Murli Krishna Pharma (Pvt) Ltd, India. The firm has submitted revised COA from M/s Murli Krishna Pharma (Pvt) Ltd, India with dissolution specifications same as mentioned in USP.
	Decision: Approved.	
1787.	Name and address of manufacturer / Applicant	M/s ISIS Pharmaceuticals and chemicals 25/1-3 sector 12-C, North Karachi industrial area, Karachi
	Brand Name +Dosage Form + Strength	Isaline 0.9% 100ml Infusion
	Composition	Each vial contains: Normal Saline…….5% 100ml
	Diary No. Date of R& I & fee	Dy.No.1715, 30-8-2016, Rs.20,000/-
	Pharmacological Group	Electrolyte solution
	Type of Form	Form-5
	Finished product Specification	BP specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Sodium Chloride 0.9% Intravenous Infusion by M/s Eastgate Way (MHRA)
	Me-too status	Lifesol IV Infusion by M/s Geofman
	GMP status	Last GMP Inspection dated 12-6-17 with conclusive remarks of good cGMP compliance.
	Previous remarks of the Evaluator.	
	Previous decision(s)	Deferred for clarification of composition as firm has mentioned Normal saline instead of Sodium chloride in Form 5 and master formulation. Details of container closure system (glass or plastic) are required **(M-275)**.
	Evaluation by PEC	● The firm has submitted that ●"Due to some typographical error the composition of the product was mentioned as Normal saline 0.9% instead of sodium chloride 0.9%." ●Now the firm has submitted revised Form-5 with following label claim: ●Each vial contains: Sodium chloride……0.9% ●100ml vial (Infusion packed in plastic bottles) ●The firm has deposited fee challan Rs. 20,000/- (Deposit slip#0610570) dated 28-11-2018. (photocopy attached)
	Decision: Registration Board approved the formulation with following revision: **Each vial contains:** **Sodium chloride……0.9%**	

1788.	Name and address of manufacturer / Applicant	M/s Pharmix Laboratories, 21km Ferozpur Road, Lahore.
	Brand Name +Dosage Form + Strength	SUNDROP Oral Drops
	Composition	Each 10ml contains: Cholecalciferol…..…….5mg
	Diary No. Date of R& I & fee	Dy. No.625, R&I Dated 11.12.2014, Rs. 20,000/-
	Pharmacological Group	Vitamin
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specs
	Pack size & Demanded Price	1x10ml,1x30ml &Rs.700/pack of 10ml,Rs.2000/pack of 30ml
	Approval status of product in Reference Regulatory Authorities.	**Finnish Medicine Agency**
	Me-too status	Doplet Oral Drops of M/s Saffron Pharma (Reg#078963)
	GMP status	GMP inspection conducted on 31-05-2018 to 01-06-2018 concluded that the firm has improved the documentation regarding production, QC and QA and the firm has installed a new HPLC (gradient system) and double beam UV spectrophotometer.
	Previous remarks of the Evaluator.	The composition of the proposed drug is incorrectly mentioned in Form-5 as "each 10 ml contains cholecalciferol 5mg/10ml" is written. Moreover, brand name resembles the other firms' drug.
	Previous decision(s)	Deferred for evidence of approval in reference agencies and me-too status. Moreover, the proposed composition of the drug needs to be verified since both strengths 5mg/10ml and 5mg/ml are mentioned in the dossier. **(M-271)**. Deferred for confirmation of approval status of applied formulation in reference regulatory authorities/agencies and their generic / me-too status **(M-275).**
	Evaluation by PEC	• Firm has clarified the proposed strength as 5mg/10ml (eq. to 20,000 IU/ml or 0.5mg cholecalciferol / ml). • The submitted me-too reference "Doplet-Oral Drops of M/s. Saffron Pharma" has been verified. • The approval status of applied formulation has been confirmed in **Finnish medicine agency**. • The firm has submitted fee challan of Rs. 5,000/- (deposit slip # 0811091) dated 25-04-2019.
	Decision: Approved with innovator's specifications.	
1789.	Name and address of manufacturer / Applicant	M/s. Hamaz Pharmaceuticals (Pvt.) Ltd, 13-Km, Bosan Road, Lutfabad Multan
	Brand Name +Dosage Form + Strength	ZEETOP 20mg Tablets
	Composition	Each dispersible tablet Contains:- Zinc Sulphate Monohyrate USP eq. to ….20mg elemental Zinc.
	Diary No. Date of R& I & fee	351, 03.03.2015, Rs.8000/-, Rs.12000/-, 02-03-2015
	Pharmacological Group	Indirectly-acting sympathomimetic
	Type of Form	Form-5
	Finished product Specification	International pharmacopoea
	Pack size & Demanded Price	1*10's; As per brand leader
	Approval status of product in Reference Regulatory Authorities.	WHO approved formulation
	Me-too status	Zindigi by Zafa Pharmaceuticals
	GMP status	GMP inspection dated 17-01-2018 concluded as follows: In view of all the above it is observed that the management has addressed most of the short comings, which were pointed out during the last inspection which leads the panel of inspectors to

		the conclusions that the firm is presently operating at satisfactory level of GMP compliance. M/s Hamaz Pharmaceuticals is situated at Multan hence it is advised to the management to continue their efforts to further upgrade their systems.
	Previous remarks of the Evaluator.	
	Previous decision(s)	Deferred for confirmation of dosage form whether dispersible tablet or otherwise. **(M-266)**
	Evaluation by PEC	The firm has submitted revised master formulation for dispersible tablet. However, fee for such revision not submitted.
	Decision: Deferred for submission of fee for revision of formulation.	
1790.	Name and address of manufacturer / Applicant	M/s Noa Hemis Pharmaceuticals, Plot # 154, Sector 23, Korangi Industrial Area, Karachi
	Brand Name +Dosage Form + Strength	Flexibon Delayed Release Tablet
	Composition	Each delayed release tablet contains Diclofenac Sodium (enteric coated)……..50mg Misoprostol (1% w/w dispersion HPMC)……200mcg
	Diary No. Date of R& I & fee	Dy. No. 168 dated 17-09-2011 & 10-04-2014Rs. 20,000/-
	Pharmacological Group	NSAID/ Prostaglandin
	Type of Form	Form-5
	Finished product Specification	In-house specifications
	Pack size & Demanded Price	20‘s Rs. 350/-

	Brand Name +Dosage Form + Strength	STYROL INJECTION
	Composition	Each ml contains: Stilbestrol Dipropionate……10mg
	Diary No. Date of R& I & fee	40589, 06-12-2018, 20,000/-, 04-12-2018
	Pharmacological Group	Synthetic Estrogen
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	10ml × 10's clear glass vial; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	N/A
	Me-too status	BESTEROL Injection of M/s Selmore (Reg#071085)
	GMP status	As recoded for above application
	Remarks of the Evaluator.	
	Decision: Deferred for clarification regarding manufacturing facility whether steroidal or non-steroidal hormone section.	

Case No. 05: Registration Applications of Import Cases:

a. Deferred cases

i. Human

1858.	Name and address of Applicant	M/s. Mehran Dental, Karachi. M No. Al Noor Centre Randle Road, ADJANKLE Seria Hospital, Karachi
	Details of Drug Sale License	
	Name and address of manufacturer	M/s. Laboratorios zeyco s.a. De c.v. Camino a santa ana tepetitlan no. 2230 colonia santa ana tepetitlan 45230 zapopan jalisco, Mexico.
	Name and address of marketing authorization holder	-do-
	Name of exporting country	Mexico
	Type of Form	Form 5-A
	Diary No. & Date of R& I	Diary No.153 Dated 17-02-2009
	Fee including differential fee	Rs.15000/- (18-06-2013) + Rs.85000/-
	Brand Name +Dosage Form + Strength	FD Injection IV
	Composition	Each 1.8ml ampoule contains: - Lidocaine HCl……36.0mg Epinephrine…….0.018mg
	Pharmacological Group	Local Anesthetic/Adrenergic agonist
	Finished Product Specification	In House
	Shelf life	---------
	Pack size	1 x 10 cartridge ineach blister Total 5 blisterin packet Total 50 pieces of cartridges in Packet
	Demanded price	Rs. 1200/-

	International availability	Lidocaine and Epinephrine By Hospira, USFDA
	Me-too status	Rapicaine by S.Ejazuddin (imported)
	Detail of certificates attached	
	Previous Remarks of the Evaluator.	Sole agency agreement has been expired. GMP certificate of manufacturer has been expired. Firm has not provided original & legalized Certificate of Pharmaceutical Product with English translation. Firm has not provided long term stability studies under zone IV-A conditions are ICH/WHO guidelines. Chromatograms in analytical methods & stability studies have not been provided along with data. Firm gave reference of USP for finished product specifications while given assay method is not as same as given in USP 35. Firm has not provided active raw material specifications. Firm has not provided specifications of primary packaging material (glass vial). Undertaking on desired format has not been submitted.
	Previous Decisions	**Registration Board deferred the case for rectification of following observations in the dossier: (M-246)** a. Sole agency agreement has been expired. b. GMP certificate of manufacturer has been expired. c. Firm has not provided original & legalized Certificate of Pharmaceutical Product with English translation. d. Firm has not provided long term stability studies under zone IV- A conditions are ICH/WHO guidelines. e. Chromatograms in analytical methods & stability studies have not been provided along with data. f. Firm gave reference of USP for finished product specifications while given assay method is not as same as given in USP 35. g. Firm has not provided active raw material specifications. h. Firm has not provided specifications of primary packaging material (glass vial). g. Undertaking on desired format has not been submitted. **Registration Board deferred the case for the following reasons (M-270)** • Only long term stability studies have been submitted while the assay of all 3 batches of epinephrine shows a significant change that is difference in the assay values is more than 5% from its initial value. • Following documents are not submitted: Sole agency agreement Original legalized CoPP GMP certificate Undertaking as per requirement of Form-5(A).
	Evaluation by PEC	1. The product is available in USP as injection but the firm has claimed In-House specifications. 2. Specifications for primary packaging material have been provided. • The firm has submitted justification for significant change in assay values of epinephrine as follows: "This requirement is mostly impossible to meet for any dental cartridge manufacturer in the world given the physicochemical properties of epinephrine. Our product FD is manufactured with a 15% overage of epinephrine in order to counter epinephrine fast degradation occurring from the solution

		preparation until the manufacturing process is completed. The USP monograph specifies that the solution should contain the equivalent of not less than 90.0% and not more than 115.0% of the labeled amount of Epinephrine. The unusual limits are due to high degradation losses of epinephrine occurring during the manufacturing process prior to the FPP release. Once the solution is packed inside the cartridges, the degradation becomes slower as the epinephrine stabilizes inside its container. The purpose of the overage is not to extend the shelf life of the product; instead, it is a part of the manufacturing process in order to obtain a product for release with an epinephrine assay within USP specifications near to 100% according to labeled amount." • Regarding CoPP, the firm has submitted that "*The certificate of pharmaceutical product is not legally defined in Mexico, however, the legislation issues currently its equivalent document which is a free sale certificate (FSC) for health inputs which includes all information contained in a Certificate of Pharmaceutical Product.*" • Original Legalized free sale certificate issued by Ministry Of Health, Federal commission for the protection against Health Risks, Mexico Issued on: 15-01-2019 • Original, legalized Declaration letter dated 01-02-2019 from **M/s. Laboratorios Zeyco s.a. de C.V. Camino a santa ana tepetitlan no. 2230 colonia santa ana tepetitlan 45230 zapopan jalisco, Mexico** do hereby declare to export to the territory of the Islamic Republic of Pakistan through our distributor Mehran Dental Supplier. • Copy of GMP certificate of the manufacturer is submitted which is issued on 31-07-2017. Certificate No: 173300516A0786. Valid till April, 2019. • ***Valid Legalized copy of GMP certificate is required.***
	Decision: Deferred for following: • **Submission of original, valid legalized GMP certificate** • **Submission of details of drug sale license.**	

Case No. 07: Registration Applications of Drugs for Which Stability Study Data is Submitted.

a. Deferred cases

1859.	Name and address of manufacturer / Applicant	M/s Seraph Pharmaceutical Plot No. 210, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name +Dosage Form + Strength	Serbica 20mg capsule
	Composition	Each capsule contains; Isotretinoin…….20mg
	Diary No. Date of R& I & fee	08-06-2017 / Dy No. 5155 / Rs.20,000/-
	Pharmacological Group	AntiAcne
	Type of Form	Form 5
	Finished product Specifications	BP
	Pack size & Demanded Price	30's, 20's, 10's, 5's / As per SRO
	Approval status of product in Reference Regulatory Authorities	Absorica 20mg capsule by Ranbaxy Laboratories (USFDA Approved)
	Me-too status	Atractin by Genome
	GMP status	New License (Inspection Date: 8th May 2017)

	Remarks of the Evaluator	
	Decision of previous meeting:	• Deferred for confirmation of manufacturing process/facility for applied formulation/dosage form as decided by Registration Board for this product (M-271) • Deferred for clarification of submitted manufacturing method for applied formulation particularly how nitrogen purging will be carried out during manufacturing of hard gelatin capsules and justification in light of decision of 250th meeting (M-275)
	Evaluation by PEC:	• Firm has replied that they have applied as per the formulation and specification of Absorbica capsule in hard gelatin which is formulated with appropriate oleaginous vehicles for stability and efficient antioxidants to prevent the product from oxidation. • The filling of capsules will be carried out by semi-automatic capsule filling machine and after filling empty capsule shells in dyes, the cap and body of shells will be seprated and the body will be nitrogen purged by nozzles of cylinders containing nitrogen. After purging the material will be immediately filled in body of capsule shells and capsule will be locked immediately to minimize the air contact. • The formulation as per annovator containing oleaginous vehicles and antioxidants itself is sufficient for stability of product and that the nitrogen purging is an additional precautionary step for product stability.
	Decision of previous meeting:	The Board deferred the case for further evaluation. (M-277)
	Remarks of Evaluator: The firm has submitted that the product was formulated with appropriate oleaginous vehicles for stability and with efficient antioxidants in order to prevent the product from oxidation. To ensure this firm has conducted accelerated and real time stability study data and submitted it along with required documents as per checklist approved in 251st meeting of Registration Board. Detailsof submitted data are as under: (Dy.# 31426 dated 18-09-2018)	

STABILITY STUDY DATA

Drug	Serbica 20mg capsule		
Name of Manufacturer	M/s Seraph Pharmaceutical Plot No. 210, Industrial Triangle, Kahuta Road, Islamabad		
Manufacturer of API	Shanghai New Hualian Pharmaceutical Co. Ltd. No.217, Minle Road, Spark Zone, Haiwan Town, Fengxian District Shanghai.		
API Lot No.	C014-171106		
Description of Pack (Container closure system)	3x10's: Alu-Alu blister packed in cardboard unit carton		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months		Accelerated: 6 months

Date of Submission	(Dy.# 31426 dated 18-09-2018)	
DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted GMP certificate (No. SH20150008) issued by state Food and Drug Administration China
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted copy of Packing list, invoice, Form 7, Form 3, COA and DHL invoice for import of 50g Isotretinoin on 26-01-2018from Shanghai New Hualian Pharmaceutical through Kimwell Pharma Limited.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- Firm has used BP method for testing of the finished product which is based on analytical methods of UV spectroscopy, furthermore the BP monograph is for isotretinoin soft gelatin capsule.

Report on investigation of genuineness / authenticity of data submitted for registration of SERBICA Capsule 20mg (Isotretinoin Hard Gelatin Capsule 20mg) by M/s Seraph Pharmaceutical, Islamabad.
Reference No: F.13-11/2017-PEC (Pt) dated 29th October, 2018.
Investigation Date: 27th December, 2018.
Investigation Site: M/s Seraph Pharmaceutical Plot No. 210, Industrial Triangle, Kahuta Road, Islamabad.
Background:
The Chairman Registration Board approved the following panel for on-site investigation to confirm genuineness / authenticity of stability data and associated documents, import of API, quality, specification, test analysis, facilities etc. in addition to verify and report about the following point for consideration of Registration Board:

. Firm has used BP method for testing of the finished product which is based on analytical methods of UV spectroscopy. Furthermore, the BP monograph is for isotretinoin soft gelatin capsule.

Composition of Panel:
1. Dr. Hafsa Karam Elahi, Additional Director, QA&LT-I, DRAP Islamabad
2. Mr. Muhammad Tahir Waqas, Assistant Director (QA&LT), DRAP Islamabad
3. Mst. Haleema Sharif, Assistant Director (PEC), DRAP Islamabad

Scope of investigation:
Investigation to confirm genuineness / authenticity of stability data and associated documents, import of API, quality, specification, test analysis, facilities etc.

Tools for Investigation:
The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The

details of investigation may be summarized as under:

Detail of Investigation:

Q. No.	Question	Observation by Panel
1.	Do you have documents confirming the import API including approval from DRAP?	Firm have shown copy of DHL invoice for import of 50g Isotretinoin on 26-01-2018 from Shanghai New Hualian Pharmaceutical through Kimwell Pharma limited.
2.	What was the rationale behind selecting the particular manufacturer of API?	Firm informed that they have selected API's supplier on the basis of GMP Certification & CEP Certification for Isotretinoin from EDQM (R1-CEP 2008-231-Rev 01) and Vendor Prequalification (Desktop).
3.	Do you have documents confirming the import of API reference standard and impurity standards?	The firm had analyzed using Reference Absorbance value of Standard given in BP Monograph.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	Firm have Certificate of Analysis of the API (Batch No. C014-171106).
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Firm have copy of GMP certificate No. SH20150008 of M/s Shanghai New Hualian Pharmaceutical Co., Ltd., China issued by State Food and Drug Administration, China.
6.	Do you use API manufacturer method of testing for testing API?	Firm have used BP Method for testing of API (Isotretinoin) whereas the API Manufacturer have used USP-36 Monograph.
7.	Do you have stability studies reports on API?	Firm have shown copy of 06 Months (Accelerated) and 36 Months (Real Time) Stability Study Reports on 03 Batches of API (Isotretinoin) conducted by the API Manufacturer.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method.
9.	Do you have method for quantifying the impurities in the API?	Firm have method for quantifying the impurities in the API.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Firm have 15 gm of the API (Isotretinoin) remaining.
11.	Have you used pharmaceutical grade excipients?	Firm have used pharmaceutical grade excipients: • Avicel 102 • Stearoyl polyoxyl glyceride • Soybean oil • Tween 80 • Propyl gallate
12.	Do you have documents confirming the import of the used excipients?	Firm has shown documents confirming the import of the used excipient (Avicel 102); others were purchased locally.
13.	Do you have test reports and other records on the excipients used?	Firm have test reports and other records on the excipients used.
14.	Do you have written and authorized protocols for the development of applied product?	Firm have shown a generalized protocol for the development of new products. Firm was advised to adopt SOP for Product Specific New Product Development Protocol.
15.	Have you performed Drug-excipients compatibility studies?	Firm have not performed Drug-excipients compatibility studies and claims to use same excipients as that of Innovator (ABSORICA™).
16.	Have you performed comparative dissolution studies?	Firm have performed comparative study of their product with ABSORICA™ Hard Gelatin Capsule 20mg. Details are as follows:

		<table><tr><td>Details</td><td>Test Product</td><td>Reference Product</td></tr><tr><td>Brand</td><td>SERBICA</td><td>ABSORICA™</td></tr><tr><td>Batch No.</td><td>T001</td><td>10-3243</td></tr><tr><td>Mfg. Date</td><td>2/2018</td><td>2/2018</td></tr><tr><td>Medium</td><td>900ml of 0.1M of NaOH at 37°C.</td><td>900ml of 0.1M of NaOH at 37°C.</td></tr><tr><td colspan="3">Remarks: The analysis was performed using BP Method for Dissolution Testing in DT apparatus.</td></tr></table> Test product showed comparable results with the reference product.
17.	Do you have product development (R&D) section?	Firm have product development (R&D) section.
18.	Do you have necessary equipment available in product development section for development of applied product?	Firm have necessary equipment available in product development section for development of applied product. However capsule filling was done in Production area using Semi-automatic Capsule Filling Machine tailored with nozzles of cylinders containing Nitrogen for purging.
19.	Are the equipment in product development section qualified?	The equipment in product development section were qualified.
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	Firm have proper maintenance / calibration / re-qualification program for the equipment used in PD section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	RND Manager (Pharmacist, 08 years exp.) is involved in Product Development (RND).
22.	Have you manufactured three stability batches for the stability studies of applied product as required?	Three (03) stability batches have been manufactured in 02-2018 for the stability studies of applied product having batch size of 500 capsules each.
23.	Do you have any criteria for fixing the batch size of stability batches?	Keeping in view the DRAP's criteria, guidelines and no. of units required for test / analysis the firm had developed a criteria for fixing batch size of stability batches.
24.	Do you have complete record of production of stability batches?	Firm have shown record of production of stability batches.
25.	Do you have protocols for stability testing of stability batches?	Firm have detailed protocols for stability testing of stability batches.
26.	Do you have developed and validated the method for testing of stability batches?	Firm have used BP Method and conducted Analytical Method Verification using 04 parameters.
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable.
28.	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug?	Firm have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug.
29.	Is your method of analysis stability indicating?	Firm have used BP Method for testing of FPP however Impurity profiling was not performed.
30.	Is your HPLC software 21CFR Compliant?	No. The analysis was performed using UV-1601 Spectrophotometer (Schimadzu, BIOSPEC).
31.	Can you show Audit trail reports on stability study testing?	The log book of UV-1601 Spectrophotometer (Schimadzu, BIOSPEC) was checked and submitted documents were cross verified.
32.	Do you have some remaining quantities of degradation products and stability batches?	No degradation products. Stability batches are kept on Real Time Stability Testing.
33.	Do you have stability batches kept on	Firm have stability batches kept on Real Time Stability

	stability testing?	Testing.
34.	Do you have valid calibration status for the equipment used in production and analysis?	Firm have valid calibration status for the equipment used in production and analysis.
35.	Do proper and continuous monitoring and control are available for stability chamber?	Adequate monitoring and control are available for stability chambers (China Chong Qing Chuang, CSH-2225D-C) with built-in Digital Data Loggers. Power backup has been ensured with UPS & 150kV Generator.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Related manufacturing area, equipment, personnel and utilities are as per cGMP compliance.
37.	To verify and report about the following point for consideration of Registration Board: ~Firm has used BP method for testing of the finished product which is based on analytical methods of UV spectroscopy. Furthermore, the BP monograph is for isotretinoin soft gelatin capsule.	The panel verifies that the Firm has used BP method for testing of the finished product which is based on analytical methods of UV spectroscopy. Moreover, the BP Monograph does not specify whether it can only be used for isotretinoin soft gelatin capsule. Submitted for consideration of Registration Board.

CONCLUSION:

On the basis of risk based approach the genuineness / authenticity of stability data submitted by the firm for registration of SERBICA Capsule 20mg (Isotretinoin Hard Gelatin Capsule 20mg) is verifiable to satisfactory level.

Previous Decision: Registration Board deliberated that since applied formulation is prone to oxidation, and is likely to undergo degradation, hence 6 months stability data could not be considered sufficient to ascertain shelf life of 2 years. Therefore Registration Board directed the firm to submit Long term stability studies data for one year. Moreover Board directed the firm to justify the use of UV spectroscopy instead of HPLC for Assay analysis of applied formulation **(M-287).**

Evaluation by PEC: The firm has submitted that rationale behind the use of UV method is that;

As we are using the testing method defined in British Pharmacopoeia and the method given in British Pharmacopoeia for the analysis of capsule is UV method. Hence we have tested the product as per British Pharmacopoeia monograph.

The firm has submitted real time stability study data of 9^{th} and 12^{th} month time points of three trial batches.

Decision: Registration Board deferred the case for provision of real time stability data upto assigned shelf life.

a. Exemption from onsite verification of stability data

Deferred cases:

7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The firm has submitted 26 weeks Accelerated and 26 weeks Real Time Stability Data for 03 Batches.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:
Date of submission: 1213 vide diary no. 10-01-2019

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	The firm has submitted reference of already approved product in 285th meeting the decision as: Registration Board decided to approve registration of Vebuvir Tablets 400 mg (Sofosbuvir) of M/s Shaigan Pharmaceuticals (Pvt) Ltd, 14 km, Adyala road, post office Dahgal, Rawalpindi. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months. **Date of inspection**: 8th August, 2018 The HPLC software of the firm is 21 CRF compliant. The firm has provided USB data loggers, which are set for recording temperature and humidity after each hour.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of commercial invoice for the import of 600g of Ticagrelor (Invoice#2007000394) attested by ADC DRAP, Islamabad dated 08-09-2016.
3.	Documents for the procurement of reference standard and impurity standards.	The firm has submitted copy of commercial invoice for the procurement of working standards.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by Food and Drugs Administration, Maharashtra State, India (Certificate No 6081505) has been submitted. It is valid until 03-05-2019.
5.	Mechanism for Vendor pre-qualification	The firm has submitted Mechanism for Vendor pre-qualification.

STABILITY STUDY DATA

Drug	Tikanox-90 Tablets		
Name of Manufacturer	M/s Shaigan Pharmaceuticals, 14-Km, Adyala Road, Post Office Dahgal, Rawalpindi		
Manufacturer of API	M/s Glenmark Pharmaceuticals Ltd. Gujarat, India		
API Lot No.	82160137		
Description of Pack (Container closure system)	PVC Blister of 1×10's pack		
Stability Storage Condition	**Accelerated:** 40°C ± 2°C/75%±5% RH **Real Time:** 30°C ± 2°C/65%±5% RH		
Time Period	Accelerated: 0,1,2,3,4,6,8,12,16,20,24,26 weeks Real Time: 0,1,2,3,4,6,8,12,16,20,24,26 weeks		
Frequency	Accelerated: 26 (weeks) Real Time: 26 (weeks)		
Batch No.	T-001	T-002	T-003

Batch Size	1000 tablets	1000 tablets	1000 tablets
Manufacturing Date	07-2017	07-2017	07-2017
Date of Initiation	23-07-2017	24-07-2017	25-07-2017
No. of Batches	03		
Date of Submission	121 (10-01-2019)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API.	Copy of COA (Batch# 82160137) from M/s Glenmark Pharmaceuticals Ltd. Gujarat, India is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by Food and Drugs Administration, Maharashtra State, India (Certificate No 6081505) has been submitted. It is valid until 03-05-2019.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	The firm has submitted copy of commercial invoice for the import of 600g of Ticagrelor (Invoice#2007000394) attested by ADC DRAP, Islamabad dated 08-09-2016.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The firm has submitted 26 weeks Accelerated and 26 weeks Real Time Stability Data for 03 Batches.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:
Date of submission: 1213 vide diary no. 10-01-2019

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	The firm has submitted reference of already approved product in 285th meeting the decision as: Registration Board decided to approve registration of Vebuvir Tablets 400 mg (Sofosbuvir) of M/s Shaigan Pharmaceuticals (Pvt) Ltd, 14 km, Adyala road, post office Dahgal, Rawalpindi. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months. **Date of inspection**: 8th August, 2018 The HPLC software of the firm is 21 CRF compliant.

Previous Decision: Registration Board deferred the case for submission of stability data of API from supplier conducted at Zone IV-A conditions and submission of comparative dissolution profiling at pH 1.2, pH 4.5 and pH 6.8 **(M-288)**.

Evaluation by PEC:

The firm has submitted long term stability data of three batches of API conducted at Zone IV-A.

The firm has performed comparative dissolution studies conducted at pH 1.2, pH 4.5, pH 6.8 with Brilinta 90mg Tablets manufactured by M/s. Astrazeneca Pharms, USA ((Batch#JP0010, EXP 02/20). The firm's product (Tikanox-90 Tablets) results are comparable with BRILINTA 90mg Tablets.

Decision: Registration Board deferred the case for confirmation of polymorphic form of API Ticagrelor.

MISCELLENEOUS CASES:

REGISTRATION-I

Case No.1. Request For Change in Registration Status of Products From M/s AGP Ltd, Karachi To M/s. Aspin Pharma, Karachi.

Registration Board in its 288th meeting considered the request of M/s. Aspin Pharma (Pvt.) Ltd; Plot No. 10 & 25, Sector 20, Korangi Industrial Area Karachi-74900 for change of registration status of following products from M/s. AGP Ltd; Karachi to their name through contract manufacturing by M/s. AGP Ltd; B-23, S.I.T.E, Karachi. The details are given as under:

S.No.	Reg.No.	Name of Drug(s)	Approved Pack/MRP	Registration History	Remarks
I	II	III	IV	V	VI
1	055121	Xovat 5mg Tablet Each tablet contains: Rosuvastatin as calcium ….5mg (Manufacturer Specifications)	Rs. 120.00/ 10's	Initial date of Reg. 02-03-2009 Last Renewal 02-03-2014	Dy.No.3395 11-02-2019 Rs.70,000/- Standard Formulation approved by RRAs is film coated.
2	055122	Xovat 10mg Tablet Each tablet contains: Rosuvastatin as calcium ….10mg (Manufacturer Specifications)	Rs. 200.00/ 10's	Initial date of Reg. 02-03-2009 Last Renewal 02-03-2014	Dy.No.3396 11-02-2019 Rs.70,000/- Standard Formulation approved by RRAs is film coated.
3	055123	Xovat 20mg Tablet Each tablet contains: Rosuvastatin as calcium ….20mg (Manufacturer Specifications)	Rs. 400.00/ 10's	Initial date of Reg. 02-03-2009 Last Renewal 02-03-2014	Dy.No.3397 11-02-2019 Rs.70,000/- Standard Formulation approved by RRAs is film coated.
4	082244	Xovat 40mg Tablet Each tablet contains: Rosuvastatin as calcium….20mg (As per Innovators Specifications)	Rs. 800.00/ 10's	Initial date of Reg. 26-09-2017	Dy.No.3398 11-02-2019 Rs.70,000/- Standard Formulation approved by RRAs is film coated.

The management of the firm has provided following documents:-

i. Application on Form-5 with original fee challan of Rs. 70,000/- for each product.
ii. Copies of initial letters of registration as stated in column V above table.
iii. Section (Tablet General) approval of M/s AGP from Licensing Division dated 28-4-2016.
iv. Copy of last GMP inspection of M/s AGP, dated 16-10-2018, indicating "Good" level.
v. NOC from M/s. AGP Ltd; Karachi 29-01-2019.
vi. DML of M/s Aspin dated 31st May, 2015
vii. DML of M/s AGP, Karachi dated 06-02-2015.
viii. Undertakings in the light of SOPs approved vide M-283.
ix. Contract Agreement of M/s. AGP Limited, Karachi and M/s Aspin, Karachi.

Decision of M-288:

Registration Board decided as follows:

i. Cancellation of registration of products at S.No. 1-4from the name of M/s. AGP Ltd; B-23, S.I.T.E, Karachi.

ii. *Approved registration of products at S.No. 1-4 in the name of M/s. Aspin Pharma (Pvt.) Ltd, Plot No. 10 & 25, Sector 20, Korangi Industrial Area Karachi-74900 through contract manufacturing by M/s. AGP Ltd; B-23, S.I.T.E, Karachi. Furthermore, formulations shall be standardized in accordance with that approved by Reference Regulatory Authorities.*

iii. *Reference will be sent to Cost and Pricing Division for confirmation of maximum retail price (MRP).*

Furthermore, M/s Aspin, Karachi has 04 approved sections, therefore, entitled to contract manufacturing of 20 products as per policy of 5 products per section.

Now the firm has submitted a request stating that:

"Due to restriction of maximum 20 contract manufacturing of products as per contract manufacturing policy, we here by request your good office to withdraw the above mentioned products for transfer of registration via contract manufacturing and consider these applications null and void"

Decision: **Registration Board acceded to the request of M/s. Aspin Pharma (Pvt.) Ltd, Plot No. 10 & 25, Sector 20, Korangi Industrial Area Karachi-74900 for withdrawal of their previously submitted application regarding change in registration status of above mentioned products via contract manufacturing. Decision taken in 288th meeting shall stand *void ab initio.***

Case No.2. Request for Change in Registration Status of Products From M/s OBS Pakistan (Pvt.) Ltd, Karachi To M/s. Aspin Pharma, Karachi.

Registration Board in its 288th meeting considered the request of M/s. Aspin Pharma (Pvt.) Ltd, Plot No. 10 & 25, Sector 20, Korangi Industrial Area Karachi-74900 for change of registration status of following products from M/s. OBS Pakistan (Pvt.) Ltd; Karachi to their name through contract manufacturing by M/s. OBS Pakistan (Pvt.) Ltd; C-14, S.I.T.E, Karachi. The details are given as under:

Case No.15. Issuance of Registration letter of Pyrexa 5mg & 10mg Tablets by M/s. Genome Pharmaceuticals, Hattar.

Following two products of M/s. Genome Pharmaceuticals, Hattar were approved in 264th meeting of Registration Board as dispersible tablets but because of availability of these products in reference regulatory authorities in Orally Disintegrating/Orodispersible tablets the registration letter could not be issued . Now the firm has submitted duplicate dossiers with respect to these products with correct formulation i.e. Orodispersible tablets.

1.	M/s. Genome Pharmaceuticals, Hattar.	Pyrexa 5mg Dispersible Tablets Each tablet contains:- Olanzapine …..5mg (Antipsychotic) Genome Specs	Price Not fixed yet	10's As Per SRO	Product is available and approved by US FDA as orally disintegrating tablet, and also available and approved by MHRA as orodispersible tablet specifications may be given accordingly. Name has been changed to **"Olnaz"** due to similarity with already registered products.
2.		Pyrexa 10mg Dispersible Tablets Each tablet contains:- Olanzapine …..10mg (Anti psychotic) Manufacturer's Specs	Price has not been fixed yet	10's As Per SRO	Product is available and approved by US FDA as orally-disintegrating tablet, and also available and approved by MHRA as orodispersible tablet specifications may be given accordingly. Name has been changed to **"Olnaz"** due to similarity with already registered products.

Decision of M-287: *Registration Board decided to defer the case for submission of fresh fee for both products.*

Now the firm has submitted a fresh fees of Rs.20,000/- for each product dated 6.02.2019. (Deposit Slip # 084063 & 084062 respectively).

Decision: Registration Board deferred the request of M/s. Genome Pharmaceuticals, Hattarfor submission of generic/me-too status of Olanzapine orally-disintegrating/ Orodispersible Tablet 5 mg & 10mg.

Case No.16. Correction in Letter of Drug(s) of M/s. Helix Pharma (Pvt.) Ltd; Karachi

M/s. Helix Pharma (Pvt.) Ltd; Karachi has requested for correction in formation of their following registered product:-

S.No.	Name of Drug(s) with existing formulation	Existing MRP & Pack Size	Correct MRP & Pack Size	Reg.No.
1.	Vomitron 3mg / 3ml Injection Each 3ml contains:- Granisetron as hydrochloride ……. 3mg	Rs. 253.00 / 3ml vial	Rs. 253.00 / 3ml ampoule	086056

The firm has requested to correct the pack from vial to ampoule as the firm has approved ampoule section by Licensing Division and they had also applied the drug in ampoule dosage form.

It is submitted that product was approved in 274th meeting of Registration Board as under:-

1	Name and address of manufacturer / Applicant	M/s Helix Pharma (Pvt.) Ltd., Hakimsons House, A-56, S.I.T.E., Karachi.
	Brand Name +Dosage Form + Strength	Vomitron 3mg/3ml injection
	Composition	Each 3ml contains: Granisetron as hydrochloride…….3mg
	Diary No. Date of R& I & fee	Dy. No.207; 01-06-2015; Rs.20,000/- (01-06-2015)
	Pharmacological Group	5HT3-antagonist
	Type of Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	3ml x 1's; As per PRC
	Approval status of product in Reference Regulatory Authorities	Granisetron 1mg/ml concentrate for solution for injection or infusion (MHRA approved)
	Me-too status (with strength and dosage form)	Graniset 3mg/3ml injection of M/s CCL
	GMP status	Last inspection conducted on 10-08-2017 and report concludes that firm is operating at satisfactory level of compliance with GMP.
	Remarks of the Evaluator	
	Decision:Approved.	

The above contents of the Registration Board shows that the firm has not specifically for ampoule, therefore, letter was issued with vial dosage form. There is a considerable difference between the price of vial and ampoule pack sizes for above product.

Decision of M-279: *Registration Board deferred the case for clarification from Costing and Pricing Division on the price of the above mentioned product in vial and ampoule.*

The pricing division has clarified vide letter .No.F.11-20/20148-DD(P) (M-279 Local) dated 17-01-2019. That price of Granisetron 3mg ampoule has been fixed vide SRO 252 (I)/2018 dated 21-02-2018. Division of PE&R may proceed if it is same drug.

MRP Fixed vide said SRO 252 (I)/2018 dated 21-02-2018	**MRP/ Pack issued vide Reg. Letter No. F. 3-11/2017 Reg-II (M-274) dated 18-12-2017**
Rs.3165/5x3ml Rs.633/1x3ml	Rs.253/3ml Vial

Decision: Registration Board deferred the case for seeking opinion of Costing &Pricing Division of DRAP.

Case No.17. Products of M/s S.J & G. FazulEllahie (Pvt) Ltd., E/46, SITE, Karachi approved in 215th meeting.

Registration Board in 215th meeting approved following products of M/s S.J & G. FazulEllahie (Pvt) Ltd., E/46, SITE, and Karachi. Case was again discussed in 259th meeting wherein board deferred the following product due to reasons mentioned in last column below:

Product name with specification	Demanded pack size	Decision
Vivid Suspension Each 5ml contains: Voriconazole …….200mg	60ml	Registration Board deferred the case for confirmation of me too status.

The firm has provided evidence of fee of Rs. 15,000/- dated 29th December, 2008 and Rs. 35,000/-on 24th September, 2013 and Form-5D. However, the fee challans are not original nor endorsed by STO DRAP.

Decision of M-267: *Registration Board deferred the request of the firm for verification of fee challans from Budget and Accounts.*

The firm has now provided yellow copy of deposit slip of Rs.35,000/- & photocopy of deposit slip of Rs.15,000/- along with letter of verification issued by "Federal Treasury". However, different account heads are mentioned on challan copy& verification letter.

Decision: Registration Board observed that the case pertains to verification of duplicate fee challan that has already been addressed vide its 285th meeting.

Case No.18. Correction in Price of Drug(s) of M/s. Barrett Hodgson Pakistan (Pvt.) Ltd, Karachi.

I	II	III	IV	V
1	088221	Atcovate 0.05% Lotion Each gm contains:- Fluticasone Propionate ……. **0.05mg** (USP Specification)	Atcovate 0.05% Lotion Each gm contains:- Fluticasone Propionate ……. **0.5mg** (0.05% w/v) (USP Specification)	The Registration Board approved the existing formulation as mentioned in column No. III. However, correction is required in strength of Fluticasone Propionate from "**0.05mg" to "0.5mg"** andper unit claim from "**Each gm contains:"** to "**Each ml contains:"**

The management of the firm has provided following documents for this purpose:-

i. Original challan of Rs. 5000/-.
ii. Copies of initial letter of registration.
iii. Registration is valid.

Decision of M-283: *Registration Board deferred the case for confirmation of MRP fixed for "Fluticasone Propionate0.5mg/ml Lotion".*

Pricing Division has fixed the MRP of Rs.200/20ml vide 12th DPC and same has been granted to above mentioned formulation vide letter No. F. 3-13/2017 Reg-II (M-276).

Decision: Registration Board approved the correction in composition of Atcovate 0.05% Lotion (R# 088221) i.e., as under:

Atcovate 0.05% Lotion
Each gm contains:-
Fluticasone Propionate ……. 0.5mg (0.05% w/w)
(USP Specification)

Case No.20. De-Registration of Alpram Tablet of M/s. Akhai Pharmaceuticals (Pvt.) Ltd. Karachi.

M/s. Akhai Pharmaceuticals (Pvt.) Ltd; A-248, A-256 to A-259, H.I.T.E, Lasbella, Balochistan has requested they were granted the registration of following product in import and later the product was transferred from import to local contract manufacturing by M/s. Cirin Pharmaceutical (Pvt.) Ltd; for a period of 10 months (from 18-12-2006 to 17-10-2007) vide letter dated 18-12-2006:-

S.No.	Name of Drug(s)	Reg.No.
1.	Alpram Tablet Each tablet contains:- Alprazolam ……. 0.5mg	015749

Later on, contract manufacturing permission was extended till 27-05-2008 vide letter dated 28-11-2008 by M/s. Cirin Pharmaceuticals, Hattar. Subsequently the permission was extended through same manufacturer till 08-07-2009 and 30-06-2010 vide letters dated 24-07-2008 & 13-07-2009.

The firm had applied for renewal of registration of above drug on 13-12-2011 with fee of Rs. 4000/- and on 18-08-2016 with fee of Rs. 10,000/-. The case of the firm was forwarded to RRR section for confirmation of renewal status and RRRl section has forwarded the case with the remarks that the above product was registered under contract manufacturing from M/s. Cirin Pharmaceuticals (Pvt.) Ltd; Hattar and forwarded the case to Reg-II Section for processing.

In the meanwhile, the firm has submitted approval of Tablet (Psychotropic) Section by Licensing Division and requested to transfer the registration of above product in the name of their firm as they have developed their own facility. Furthermore, the firm has also provided a copy of application with fee of Rs. 20,000/- wherein the firm had applied for contract to local manufacturing on their own facility.

The case was deferred in 4th PRVC meeting for further deliberation in its next meeting.

Decision of M-279: *Registration Board deferred the case for opinion of Legal Affairs Division.*

The firm has now applied for de-registration of Alpram 0.5mg Tablet (R#015749) stating that they have been granted new registration of same molecule under Reg. No.089351 vide 280th meeting held on 15-03-2018.

Decision: Registration Board acceded to the request of M/s. Akhai Pharmaceuticals (Pvt.) Ltd; A-248, A-256 to A-259, H.I.T.E, Lasbella, Balochistan for de-registration of Alpram Tablet 0.5mg (R# 015749).

Case No.21. Request of M/s Delta Pharma, Risalpur for Extension in Contract Manufacturing Permission Along With Change in Contract Manufacturer.

M/s Delta Pharma, Risalpur has submitted 3 times renewal fee on 04-12-2017 in pursuance of SRO 1005(I)/ 2017 dated 05-10-2017 for renewal/ extension in contract manufacturing permission along with change in contract manufacturer of following products:

S.No	Reg.No	Name of Product	Previous Manufacturer	New Manufacturer	Date of applications/Fee
1.	050327	G-Xon 500mg Injection Each vial contains: Ceftriaxone (as Sodium)….500mg (USP Specification)	M/s. Medicraft Pharmaceuticals, Peshawar	M/s Bio-Lab (Pvt) Ltd., Islamabad	**04-12-2017** Rs.150,000/-

2.	044259	G-Xon 250mg Injection Each vial contains: Ceftriaxone (as Sodium)….250mg (USP Specification)	-do-	-do-	-do-
3.	044260	G-Xon 1gm Injection Each vial contains: Ceftriaxone (as Sodium)….1gm (USP Specification)	-do-	-do-	-do-

With reference to above mentioned case following facts are submitted:

i. The 3 times renewal fee in respect of above products was submitted even after expiry of deadline i.e 03-12-2017 set under the SRO 1005(I)/ 2017.

ii. The 3 times renewal fee has been submitted on 4-12-2017 while the DML status was invalid. However the firm was granted DLM (Afresh) on 18-12-2017 with Tablet (General) & Capsule (General) sections.

The Board was informed that the fee has been submitted under the head of contract manufacturing. However the firm, in its request has stated that the fee is submitted with reference to SRO 1005(I)/ 2017.

Decision of M-281: - *Registration Board observed that though the fee is submitted under SRO 1005(I)/ 2017 which address the issue of renewal of registration while this case falls in the category of extension of contract manufacturing. However, since the fee is submitted during the period when the DML of the firm was invalid so the case was deferred for soliciting the views/ comments of Legal Affairs Division of DRAP regarding validity of the fee submitted by the firm.*

Accordingly, the case was referred to Legal Affair Divisions and the said division has responded as under:

"The DML of firm is not valid on the date of submission of fee. The DML was granted afresh to the firm on 18-12-2017 while the fee was submitted by the firm on 04-12-2017. Further, the firm deposited the fee under SRO 1005 (I)/2017 under the head of contract manufacturing therefore, the application of the firm for extension in contract manufacturing cannot be entertained against the fee submitted under SRO 1005 (I)/2017. It is gain clarified that the SRO 1005(I)/2017 only covers the renewal of regular registered products and not the extension of contract manufacturing."

Decision: Registration Board deliberated the case in the light of comments submitted by Legal Affairs Division of DRAP and decided that the above mentioned request of M/s Delta Pharma, Risalpur shall not be acceded as the DML of the firm was not valid on the date of submission of fee.

Case No.22. Brand Name Resemblance of Approved Products of M/s Caliph Pharmaceuticals, Risalpur.

Registration Board, in its 279th meeting approved the following two products of M/s Calpih Pharmaceuticals, Risalpur. Detail is given as under:

Name and address of manufacturer / Applicant	Caliph Pharmaceuticals Pvt. LTD, Plot 17, Special Industrial Zone Risalpur, KPK
Brand Name +Dosage Form +Strength	Largyl Tablet 200mg
Diary No. Date of R& I & fee	Dyn# 1599, 17-1-2017, Rs, 20,000/-
Composition	Each film coated tablet contains: Metronidazole…….200mg
Pharmacological Group	Antiamoebic
Type of Form	Form 5

Finished Product Specification	USP
Pack size & Demanded Price	10x10‘s; As per SRO
Approval status of product in Reference Regulatory Authorities	Flagyl 200 mg Approved by (MHRA)
Me-too status	Flagyl of Sanofi Aventus
GMP status	Last GMP inspection Date:07-03-2017 with satisfactory cGMP compliance
Remarks of the Evaluator.	
Decision: Approved	
Name and address of manufacturer / Applicant	Caliph Pharmaceuticals Pvt. LTD, Plot 17, Special Industrial Zone Risalpur, KPK
Brand Name +Dosage Form +Strength	Largyl Tablet 400mg
Diary No. Date of R& I & fee	Dyn# 1600, 17-1-2017, Rs, 20,000/-
Composition	Each film coated tablet contains: Metronidazole…….400mg
Pharmacological Group	Antiamoebic
Type of Form	Form 5
Finished Product Specification	USP
Pack size & Demanded Price	10x10‘s; As per SRO
Approval status of product in Reference RegulatoryAuthorities.	Flagyl 400 mg Approved by (MHRA)
Me-too status	Flagyl of Sanofi Aventus
GMP status	Last GMP inspection Date:07-03-2017 with satisfactory cGMP compliance
Remarks of the Evaluator.	
Decision: Approved	

While processing for issuance of registration letter, it was identified that the applied brand name “Largyl” resembles with “Flagyl” &M/s. Caliph Pharma was advised accordingly to change brand name of their product “Largyl”. The firm responded by producing evidence that same brand name has already been granted to their registered product i.e. “Largyl 200mg Liquid Suspension” bearing registration no.079356”. The firm has also produced evidence of similar name with little variance to different firms. For example Metrogyl (Unexo lab, Reg #009498), Ferogyl (Fedro Pharma, Reg #011926), Entagyl (BJ Pharma, Reg#087946) and Resgyl (Rasco Pharma, Reg#078931).

It was later on identified that the registered brand name of M/s Caliph is “Fedragyl” instead of “Ferogyl”

Decision: **Registration Board deliberated the case regarding resemblance of brand names and observed that unlike “Largyl”, the brand names “Metrogyl”, “Fedragyl”, “Entagyl” and “Resgyl” do not closely resemble with “Flagyl”. Therefore, M/s Caliph Pharmaceuticals Pvt. Ltd, Plot 17, Special Industrial Zone Risalpur, KPK shall be directed to change the brand name of their registered product “Largyl 200mg Liquid Suspension (Reg # 079356)”.**

Case No.23. Approved Cases of Revision of Formulation

Registration Board, in its various meetings approved following cases of revision of formulation in the light of decision taken by the Board, vide its 250th meeting.

a) Revision of Formulation of Nocer 10 Suspension (Reg. No. 042966)

M/s. Bryon Pharmaceuticals, Peshawar has requested for revision of formulation of their registered product Nocer 10 suspension in the light of decision of M-250 that is reproduced below:

90. FAMOTIDINE 10 MG/5ML LIQUID SUSPENSION		
International availability	***Me too status***	***Remarks***
Not available in reference authorities	*ACICON of M/s Barret Hodgson, Karachi* *CAPSID of M/s Olive Labs, Islamabad*	*Not approved by reference drug regulatory agencies. Internationally available formulation is dry powder for suspension in the strength of 40 mg/ 5 ml. (Ref: US FDA)*
Decision: i. Applicants shall revise their formulation as per innovator (new registration application with complete fee) within six months if manufacturing facility is approved by CLB. ii. For already registered drugs, same procedure as mentioned above (at Sr. No. i) shall be adopted. Otherwise show cause notice shall be issued for de-registration of registered drugs in this formulation. iii. All such application shall be processed on priority basis.		

The firm has submitted a fresh dossier with revised formulation as per following details:

Reg. No.	Previous formulation	Revised formulation
042966	Nocer 10 suspension Each 5ml contains: Famotidine……..10mg	Nocer 40 Dry Suspension Each 5ml contains: Famotidine……..40mg

Detail of submissions:

i) Application on form-5 with fee of Rs.20,000/-
ii) Copy of Registration letter dated 13-04-2006
iii) Last renewal submitted on 31-03-2016 (verified from copies of submissions to the renewal section)
iv) Last inspection report dated 15-02-2017
v) Data regarding **Accelerated** stability study conducted on 3 batches (from Oct-2016-Apr-2017).

Decision of M-276: *The Registration Board approved the revision of formulation & also modification of the brand name accordingly in line with decision of its 250th meeting as per following details:*

Nocer 40 Dry Suspension: Famotidine 40mg/5ml

Accordingly, fresh registration letter was issued to M/s. Bryon Pharmaceuticals, Peshawar for Nocer 40 Dry Suspension (R#087998).

b) Revision of Formulation of Zithrox Capsule (Reg. No. 052518)

M/s. MKB Pharmaceuticals, Peshawar has requested for revision of formulation of their registered product Zithrox Capsule in the light of decision of M-250 that is reproduced below:

12. AZITHROMYCIN 500MG CAPSULES		
International availability	***Me too status***	***Remarks***
Not approved in reference drug agencies. Only 250 mg capsules are	*AZOGEN of M/s Rogen, Islamabad.*	*Not approved in reference drug agencies. Only 250 mg capsules are approved.*

approved. However, 500 mg tablets are available. *Zithromax of M/s Pfizer, UK.*	*AZOTINE of M/s Nimral Pharma, Islamabad*	*However, 500 mg tablets are available.* *When azithromycin capsules were administered with food, the rate of absorption (Cmax) of azithromycin was reduced by 52% and the extent of absorption (AUC) by 43%.* *Zithromax 250 mg capsules should be given as a single daily dose. In common with many other antibiotics Zithromax Capsules should be taken at least 1 hour before or 2 hours after food. (Ref: MHRA)*

Decision:

i. Applicants shall either revise their formulation to tablet dosage form, if not registered previously and if manufacturing facility is approved by CLB (new registration application with complete fee) or,

ii. Shall submit Pharmaceutical development data including stability, bioavailability/ bioequivalence studies within six months period.

iii. For already registered drugs, same procedure as mentioned above (at Sr. No. i& ii) shall be adopted. Otherwise show cause notice shall be issued for deregistration of drug in this formulation.

iv. All such application shall be processed on priority basis.

The firm has submitted a fresh dossier with revised formulation as per following details:

Reg. No.	Previous formulation	Revised formulation
052518	Zithrox Capsules Each capsule contains: Azithromycin as dihydrate……..500mg	Zithrox Tablet Each film coated tablet contains: Azithromycin as dihydrate……..500mg

Detail of submissions:

i) Application on form-5 with fee of Rs.20,000/-
ii) Copy of Registration letter dated 18-09-2008
iii) Last renewal submitted on 09-09-2013 (verified from copies of submissions to the renewal section)
iv) Last inspection report dated 26-12-2016
v) Data regarding stability study i.e 6 months accelerated &12 months real time conducted on 3 batches (from Mar-2016- Mar-2017).

Decision of M-276: *The Registration Board approved the revision of formulation of Zithrox Capsules to Zithrox Tablets containing "Azithromycin as dihydrate…..500mg" in line with its decision of 250th meeting.*

Accordingly, fresh registration letter was issued to M/s. MKB Pharmaceuticals, Peshawar for Zithrox Tablets (R#087999).

c) Revision of Formulation of Registered Product(s) of M/s. Akhai Pharmaceuticals (Pvt.) Karachi.

M/s. Akhai Pharmaceuticals (Pvt.) Ltd; A-248, A-256 to A-259, H.I.T.E, Lasbella, Balochistan has requested for revision of formulation of their following registered product:-

S.No.	Name of Drug(s) with existing formulation	Name of Drug(s) with demanded formulation	Reg.No.
1.	Zonacin 500mg Capsule Each capsule contains:- Azithromycin …… 500mg (BP Specification)	Zonacin 500mg Tablet Each film coated tablet contains:- Azithromycin …… 500mg (USP Specification)	070429 dated 21-04-2011

The firm has stated that after reviewing the effectiveness and dosage of capsule against the tablet formulation which contains same molecule, they believe that their formulation should be changed to tablet. The firm has stated that Azithromycin is not available in BP specification and it is available in USP specification. They have requested to correct the specification from BP specification to USP specification. The firm initially provided fee of Rs. 5000/- only along with Form -5 for above product.

The PRVC in its 4th PRVC deferred the case to provide fee of Rs. 20,000/- and Form-5 and evaluation of the case in light of 250th meeting decision of Registration Board. The management of the firm has provided relevant information along with balance fee of Rs. 15,000/- . The RRR section has informed that the renewal application of the above product received within time.

Decision of M-283: *Registration Board approved the revision of formulation of Zonacin 500mg Capsules to Zonacin 500mg Tablets with USP Specifications.*

Registration/approval letter for revised formulation of Zonacin tablet has not been issued yet.

In view of the position explained above, casesmentioned at **a)** and **b)** have been placed for deliberation regarding registration status of previously registered formulations of these products as fresh registration letters with new registration numbers have been issued for revised formulations. Furthermore, w.r.t the third case(**c)**& all such cases in future,guidance is sought for issuance of fresh registration letter or post-registration approval letter for revision of formulation.

Decision: **Registration Board observed that since the above mentioned formulations have been revised to new dosage forms. Therefore, it will be more appropriate to issue fresh registration certificates. Accordingly, the Board also directed to cancel the previously registered formulations as per following details:**

i. **Cancellation of registration of Nocer 10 suspension (R# 042966) from the name of M/s. Bryon Pharmaceuticals, Peshawar.**
ii. **Cancellation of registration of Zithrox Capsules (R# 052518) from the name of M/s. MKB Pharmaceuticals, Peshawar.**
iii. **Cancellation of registration of Zonacin 500mg Capsule (R# 070429) from the name of M/s. Akhai Pharmaceuticals (Pvt.) Ltd; A-248, A-256 to A-259, H.I.T.E, Lasbella, Balochistan.**

Case No.24. Request of M/s Abbott Laboratories (Pakistan) Limited for Correction in Composition of Citrosoda Regular.

Registration Board, in its 284th meeting, held on 31st July- 01st Aug, 2018 considered the request of M/s Abbott Laboratories (Pakistan) Ltd Opp. Radio Pakistan Transmission Centre, Hyderabad Road, Landhi, Karachi for Change in flavor of Citrosoda (008749) i.e reproduced as under:

M/s. Abbott Laboratories (Pakistan) Ltd Opp. Radio Pakistan Transmission Centre, Hyderabad Road, Landhi, Karachi-75120 has requested that they have the registration of following product with lemon flavor. The management of the firm has submitted application on registration dossier and fee of Rs. 20,000/- and has requested to grant them additional variant without any flavor:-

S.No.	Reg.No.	Name of Drug(s)	Demanded MRP and specs	International availability
1.	008749	Citrosoda Each sachet 4gm contains:- Sodium Bicarbonate….1.76gm Sodium Citrate ……0.63gm Citric Acid …….. 0.72gm Tartaric Acid …….. 0.89gm	100's 20's 100's 20's (The firm has stated that Citricosoda is already a registered brand of Abbott in flavors of Orange and lemon (Originator Brand)	TGA Australia Ural Sachet

Decision of M-284: *Registration Board approved the registration of above product with innovator specifications. The claim of firm regarding MRP of the product shall be referred to Cost & Pricing Division.*

The firm has informed that the formulation of Citrosoda Regular mentioned in 284th meeting is not correct as per the documents & approval submitted by the firm with application & form-5, dated 02-05-2018 & 18-07-2018. Now the firm has requested to correct the formulation as mentioned below.

S/N	Reg.#	Composition Approved in M-284	Correct composition/ gramof Sachet	Correct composition/ 4gram of Sachet	Packsize
I	*II*	*III*	*IV*	*V*	*VI*
1.	008749	Citrosoda Each sachet **4gm** contains:- Sodium Bicarbonate...1.76gm Sodium Citrate……0.63gm Citric Acid……....0.72gm Tartaric Acid.....0.89gm	CitrosodaRegular Each **gm** of sachet contains:- Sodium Bicarbonate...0.429gm Sodium Citrate……..0.153gm Citric Acid…….....0.176gm Tartaric Acid.....0.215gm	CitrosodaRegular Each **4gm** of sachet contains:- Sodium Bicarbonate …….1.716gm Sodium Citrate……....0.613gm Citric Acid…….....0..702gm Tartaric Acid……0.858gm	4gm Sachet of 20's 4gm sachet of 100's

Decision: **Registration Board approved the correction in composition of Citrosoda Regular i.e., as under:**

Citrosoda Regular
Each gm of sachet contains:-
Sodium Bicarbonate.....0.429gm
Sodium Citrate……...0.153gm
Citric Acid…….0.176gm
Tartaric Acid.....0.215gm

Case No.25. Request of M/s Safe Pharmaceuticals (Pvt) Limited, Karachi for Correction in Formulation of Fayneec Capsule 50mg

M/s Safe Pharmaceuticals, Karachi was granted approval for registration of Fayneec 50mg Capsule vide 260th meeting of Registration Board as per below mentioned detail.

S/N	Name and address of manufacturer / Applicant	Brand Name (Proprietary name + Dosage Form + Strength) Composition Pharmacological Group Finished product Specification	Type of Form Initial date, diary Fee including differential fee Demanded Price / Pack size	Remarks on the formulation (if any) including International status in stringent drug regulatory agencies / authorities Me-too status GMP status as depicted in latest inspection report (with date) by the Evaluator	Remarks by Evaluator/ Decision	Decision of M-260
1.	M/s Safe Pharmaceuticals Pvt Ltd, Karachi **Source of Pellets** M/s Vision Pharmaceuticals Kahuta road, Islamabad 15	Fayneec Capsule 50mg Each capsule contains:- Diclofenac Sodium as SR pellets……..……50mg Anti-Rheumatics USP Specifications	Form 5 Dy No. Nil dated 17-02-2010 Rs.8000 (Photocopy) & 22-05-2013 Rs.12000 (Photocopy) As per SRO	Deflamat 50mg-Kapseln by M/s Astellas Pharma GmbH Austria. Local. Mobikare 50mg by M/s Barrett Hodgson GMP compliant as per inspection report dated 09-06-2015.	Fee Rs.8000 & Rs.12,000/- are photocopy.	Approved. Photocopy fee challanswill be verified by Budget & Accounts Division and Chairman Registration Board will permit issuance of registration letter.

Later on, after verification of duplicate fee challans, registration letter couldn't be issued as the approval status of Diclofenac Sodium 50mg SR Capsule couldn't be confirmed in Reference Regulatory Authorities.However, the firm has now informed that the formulation of Fayneec Capsule 50mg mentioned in 260th meeting is not correct as per documents submitted by the firm at the time of initial application. Detail is given below:

S/N	Composition Approved in M-260	Correct Composition as per Firm's Request
I	II	III
1.	Fayneec Capsule 50mg Each capsule contains:- **Diclofenac Sodium as SR pellets……..……50mg**	Fayneec Capsule 50mg Each capsule contains:- **Diclofenac Sodium……..……50mg**

In this regard, the firm has submitted photocopies of following documents stating "Fayneec Capsule 50mg (Diclofenac Sodium)":

i. Form-5 along with fee deposit slips…..whether enteric coated granules/pellets mentioned anywhere

ii. MOH acknowledged receipt for Fee of Rs.8000/-
iii. DRAP's acknowledged receipt for Fee of Rs.12,000/-
iv. Last Inspection Report dated 31-07-2018 (Compliance level: GOOD)

Decision: **Registration Board approved the correction in formulation of Fayneec Capsule 50mg as per details mentioned vide column III of above table. The Board further directed the firm to submit an undertaking stating their applied formulation.**

Case No.26. Request of M/s. Zaynoon Pharmaceuticals, Peshawar For Grant of Afresh Registration.

The Registration Board, in 276th meeting held on 22nd - 25thNovember, 2017, declared registration of all drugs of M/s. Zaynoon Pharmaceuticals, Peshawar invalid due to invalidity of DML declared by CLB (vide 249th meeting). However, the firm was issued afresh DML No. 000358 by way of formulation, dated 11-04-2017. Management of the firm has now applied for registration of following products on form-5 with fee of Rs.20,000/- each as per details mentioned below:

S.No.	Brand Name, Composition and (Reg.No)	Dy.No./Date & Demanded Price/ Pack	Evidence of Availability in RRAs and Metoo Status Provided by Firm	Section Approval, Last Inspection Report & DML
1.	Zayfen Suspension. Each 5ml contains:- Ibuprofen……100mg (B.P Specification) Reg. No.064409	Rs.14.00 Rs.18.00 60ml 90ml	Bruphene Suspension of M/s. Abbott Karachi	Approval of Liquid Syrup Section: 13-04-2017 Last Inspection report: 11-01-2018 DML: 11-04-2017 **(Flag- A)**
2.	Nafpol 6 Plus Suspension. Each 5ml contains:- Paracetamol……250mg. (BP Specification) Reg. No.064410	Rs.15.00 60ml	Calpol 6 Plus Suspension M/s. GSK	-do-
3.	Zaycid Suspension. Each 5ml contains:- Aluminium Hydroxide…....215mg. Magnesium Hydroxide…….80mg. Simethicone……..25mg. (USP Specification) Reg. No.064411	Rs.18.00 120ml	Mylanta Antacid Original Oral Liquid Bottle of M/s. Johnson & Johnson Karachi	-do-

The firm has provided copies of challan of Rs.20,000/- for each product. They have requested to re-register the above products accordingly.

As per information obtain from QA&LT Division, based on critical observation made by FID querying routine GMP inspection on 11-10-2018, a panel has been constituted for thorough inspection of the firm for verification of observation.

S.No. Observations

1. The air curtain was not working at the male change room entrance.
2. The management has placed a basin in the change room which is advised to be removed.
3. Raw material store is very small and the passage to liquid section is also from the

receiving area for materials; which needs to be separated by some partition.

4. The firm is also advised to provide the quarantine for the received materials.
5. The raw material testing record was seen randomly but regretted to state the record was not up-to-date although QC released tags found placed on all the raw material but the data is not traceable in the QC lab.
6. Improvement is advised in the condition of the dispensing room.
7. The management is advised to change the balance in the dispensing room.
8. The management is advised to control the humidity before dispensing the Raw Material.
9. The flooring in the liquid section is in very bad condition and needs immediate improvement; especially the washing area needs replacement of tiles.
10. The management is using used bottles which should be immediately stopped as already advised in the last inspection.
11. In the QC Lab the record is not maintained and loose papers are being used for the recording of the test results; the management is directed to use ledgers for the data so it can be kept in safe custody.
12. HPLC is not in working condition, it is a very old model and needs to be replaced.
13. The management is also advised to follow official testing methods for the testing of their registered products and should buy recent official books which are mandatory for the development of their QC methods.
14. The SOP for stability testing are not satisfactory.
15. The capacity of the Stability Chamber was also not sufficient for their registered products.
16. The HPLC operator also needs training.
17. The management is advised to appoint the full time QA in-Charge with sufficient experience.
18. The management is advised to immediately do the following;
    a) Calibration of all the equipment.
    b) Preparation and up-gradation of all the SOPs of Production and QC
    c) Purchase of official books (latest edition) and preparation of testing method accordingly.
    d) Up-gradation of HPLC.
    e) Adaptation of official testing method.
    f) Training of staff.
    g) Appointment of QA staff as per rules.

Decision of M-286: *Registration Board deferred the above-referred case till the firm complies with GMP requirements.*

The firm has now provided the latest GMP Panel Inspection Report dated 12-12-2018, conducted for the verification of the compliance/ improvements of the firm with reference to last inspection dated 11-01-2018.

Conclusion:

The firm's management has rectified most of the observations of previous inspection. They have purchased Karl Fischer apparatus and also submit the invoice of FTIR and it will be delivered to them in two months time. In light of above mentioned observations it is concluded that the firm is now operating at "Good" level of GMP Compliance.

Decision: Registration Board decided as under:

i. **Approved the grant of registration for products at S.No. 1 & 2 of above table.**

ii. **Deferred the product at S.No.3 for submission of evidence confirming approval status of applied formulation in Reference Regulatory Authorities.**

Case No.27. Registration of Co-Dep 12/25 Capsule of M/s. Nabiqasim Industries Private Limited, Karachi.

Registration Board, in its 237th meeting considered the following product of M/s Nabiqasim Industries Private Limited, Karachi as per below mentioned details:

Sr. No	Name of firm(s)	Name of drug(s) & Composition	Proposed Pack size	Demanded Price	Date of application, Diary No. & Form	Remarks
1.	M/s NabiQasim Karachi	Co-Dep 12/25 Capsule Each capsule contains: Olanzapine ……12 mg Fluoxetine HCl…..25 mg (Anti psychotropic)	10's 14's 20's 30's	As per PRC	18-11-2011 Dy.No.372 Form-5 Rs.8000/- Rs.52,000/- 24-1-2013	

Decision of M-237: *The board referred the cases to committee comprising of Brig.(R).Prof. Dr. Muzammil Hasan Najmi (Member Registration Board), Dr. TaufeequrRehman, Assistant Professor, Department of Pharmacy, Quaid-e-Azam University, Islamabad (Member Registration Board), DDG (Reg-II) and concerned DDC for securitization, verification of codal requirements and recommendations for me-too registration applications. The recommendations of committee will be submitted to Chairman, Registration Board for decision.*

Minutes of Expert Committee of Drug Registration Board

Name of firm(s)	Name of drug(s) & Composition	Proposed Pack size	Demanded Price	Date of application, Diary No. & Form	Remarks
M/s NabiQasim Karachi	Co-Dep 12/25 Capsule Each capsule contains: Olanzapine ……12 mg Fluoxetine HCl……..25 mg (Anti psychotropic)	10's 14's 20's 30's	As per PRC	18-11-2011 Dy.No.372 Form-5 Rs.8000/- Rs.52,000/- 24-1-2013	Deferred for confirmation of me-too status

The firm has now referred to 248th meeting of Registration Board, wherein, it has been stated that a number of formulations including above mentioned formulation will be considered for registration by Registration Board and thus the Board advised P E & R Division to place all deferred cases in agenda of the meeting. However, their deferred application has not been put on agenda.

In this regard, the firm has provided the following documents& requested for grant of registration:

i. Photocopy of Acknowledgement Receipt of Registration Application dated 16-11-2011.
ii. Photocopies of fee deposit slips of Rs.8,000/- & Rs.52,000/-.
iii. Evidence for approval status of applied formulation in USFDA (As mentioned in below table)

Company	Drug Name	Active ingredient	Strength	Dosage Form/Route
Lilly	Symbyax	Fluoxetine HCL ; Olaznzapine	EQ 25mg Base EQ 12mg Base	Capsule :Oral

Decision: **Registration Board approved the grant of registration with "USP Specifications" for Co-Dep 12/25 Capsule" of M/s. Nabiqasim Industries Private Limited, Karachi.Formulation/ Label claim shall be standardized in accordance with the standard formulation approved by Reference Regulatory Authorities. Furthermore, for verification of fee challan, procedure shall be adopted as approved by the Board vide its 285th meeting.**

Case No.28. Request For Change in Formulation (Dosage form)of Products Approved in the Name of M/s Le Mendoza Pharmaceutical (Pvt) Ltd, Karachi.

Registration Board, in its 277th meeting held on 27-29th December, 2017, approved the change in registration status of following products from M/s Chas. A Mendoza Karachi to its new title i.eM/s. Le Mendoza Pharmaceuticals (Pvt.) Ltd., Karachi.

Sr. No.	Reg. No.	Name of product along with composition	Initial Date of Reg.	Fee along with date	Remarks	Renewal validity till
1.	058642	Azocam DS Capsules Each capsule contains: Azithromycin as dihydrate … 500mg	10/10/2009	(Due date: 09-10-2014) Rs.30,000/- 04-12-2017	Locally Manufactured	09-10-2019
2.	017658	Ciprocam Capsule 250mg Each capsule contains:- Ciprofloxacin Hcl eq. to Ciprofloxacin …250mg	18/07/1995	(Due date: 17-07-2015) Rs.30,000/- 04-12-2017	Locally Manufactured	17-07-2020
3.	017659	Ciprocam Capsules 500mg Each capsule contains:- Ciprofloxacin Hcleq to Ciprofloxacin …500mg	18/07/1995	(Due date: 17-07-2015) Rs.30,000/- 04-12-2017	Locally Manufactured	17-07-2020

The approval letter of above mentioned products to new title of the firm were pending due to non-availability of above mentioned formulations in "Capsule" dosage form in RRAs.However, these formulations are available in Tablet dosage form.

Now the firm has requested for revision of above mentioned formulations to "Tablet" dosage form & submitted fresh applications on Form-5 along with fee of Rs.20,000/- for each product.(Dy.Nos. 43736, 16322, 16323/R&I. with date 24-12-2018& 03-05-2018 respectively)

Decision: **Registration Board decided as under:**

i. **Cancellation of registration of products at S.No. 1-3 of above table.**
ii. **Approved the grant of new registrations for revised formulations of above mentioned products at S.No. 1-3 in "Tablet dosage form".**

Case No.29. Approved Products of M/s SNB Pharma (Pvt) Ltd. Peshawar.

Registration Board in its 237th& 238th meeting considered the following products of M/s SNB Pharma (Pvt) Ltd. Peshawar as per below mentioned details:

M-237

ANOMALY

Decision:-The Registration Board referred the applications (after submission of differential fee for registration) to committee comprising Brig. (R). Prof. Dr. Muzammil Hassan Najmi (Member Registration Board), Dr. Taufeeq Ur Rehman, Assistant Professor, Department of Pharmacy, Quaid-e-Azam University, Islamabad (Member Registration Board), DDG (Reg-II) and concerned DDC's/ADC's for scrutiny, verification of codal requirements and recommendations for me-too registration applications. The recommendations of committee will be submitted to the Chairman, Registration Board for decision.

S. No	Name of Firms	Name of Drugs /label Claim	AU	Price	Date	Remarks	Current Status
1.	M/s. SNB Pharmaceuticals Peshawar **New License**	Diclo-P 75 mg Tablets Each film coated tablet contains:- Diclofenac Potassium……75 mg (Antirheumatic)	10's	As Per SRO	24-5-2011	Approved / Remaining 4 / 6	Applied pack size: 3x10's Decision of M-258 regarding de-registration of instant formulation.
2.	-do-	Domp 10 mg Tablets Each tablet contains:- Domperidone ……..10 mg (Anti-Dopamineragic)	50's	As Per SRO	-do-	Do	Applied pack size: 10's
3.	-do-	SNfer Tablets Each tablet contains:- Iron (III) hydroxide Polymaltose ≡ Iron (Element)...100 mg Folic Acid…….0.35 mg (Anti-anaemic)	10's	As Per SRO	-do-	do	Applied pack size: 3x10's
4.	-do-	L-Floxin 250 mg Tablets Each film coated tablet contains:- Levofloxacin Hemihydrate ≡ Levofloxacin... 250mg (Quinolone)	10's	As Per SRO	-do-	do	-
5.	-do-	L-Floxin 500 mg Tablets Each film coated tablet contains:- Levofloxacin Hemihydrate ≡ Levofloxacin.. 500mg (Quinolone)	10's	As Per SRO	-do-	do	-
6.	-do-	SNVasc Tablets Each tablet contains:- Amlodipine (as besylate)…..5 mg (Calcium Antagonist)	2x10's	As Per SRO	-do-	do	-

14.	M/s. SNB Pharmaceuticals, Peshawar	Famot 10mg Suspension Each 5ml contains:- Famotidine……10mg (H2 Blocker)	60ml	As Per SRO	22-5-2012	Approved subject to correction in composition However the Registration Board advised the Registration sections to again review the Registration Dossiers	Decision of M-250 regarding revision of formulation.

						before issuance of Registration letters	
15.	-do-	Cefim 200mg Dry Suspension Each 5ml contains;- Cefixime……200mg (Cephalosporin)	30ml 60ml	As Per SRO	-do-	-do-	Standard formulation contains "Cefixime as trihydrate….200 mg/5ml"

Original dossiers along with fee challans of products at S.No.1-13 of above table have been retrieved from record. However, recommendations of committee could not be retrieved.Furthermore, the firm has now requested for issuance of registration letter & provided following documents:

i. Copy of DML dated 20-09-2012.
ii. Evidence for Approval of following sections:
   - Tablet (General)
   - Capsule (General)
   - Dry Suspension (General)
   - Liquid Syrup (General)
   - Cephalosporin (Capsule & Dry Powder Suspension)
iii. Last Inspection report dated 17-10-2018Conclusion is as under,

The firm has finished maintenance work and the plant is ready for production activities. The firm had already requested for approval of start production after their volunteer stop production to regulate then supply of medicines to market. They are committed to comply cGMP guidelines. The panel agrees with the firm for resumption of their production after volunteer stop production.

Decision: Registration Board decided as under:

i. Approved grant of registration for the products at S.No. 2-6, 8-10 & 12-13 of above table.
ii. Rejected the product at S.No.1 in accordance with the decision taken by the Board vide its 258th meeting.
iii. Deferred the products at S.No.7 & 15 for submission of revised formulation as approved by Reference Regulatory Authorities along with requisite fee for revision.
iv. Deferred the product at S.No.11 for submission of evidence confirming approval status in Reference Regulatory Authorities.
v. Deferred the product at S.No.14 in accordance with the decision taken by the Board vide its 250th meeting.

Case No.30. Change in Formulation of Approved Product of M/s Noa Hemis Pharmaceutical, Karachi

Registration Board in its 256th meeting approved the following product of M/s NoaHemis, Karachi

S/N	Name and address of manufacturer / Applicant	Brand Name (Proprietary name + Dosage Form + Strength) Composition Pharmacological Group Finished product Specification	Type of Form Initial date, diary Fee including differential fee Demanded Price / Pack size	International status in stringent regulatory agencies Me-too status GMP status as depicted in inspection report (dated)	Decision
1	M/s NoaHemis Pharmaceuticals , Plot # 154, Sector 23, Korangi Industrial Area, Karachi	Clinac Gel Each gram contains Clindamycin Phosphate 20mg Anti acne USP specifications	Form 5 Rs. 20000/- vide Dy. No. 167 dated 17-9-2011 & 10-04-2014 Pack size of 10gm Rs.145/-	MHRA approved Dalacin Dalacin–Pfizer GMP compliant section vide inspection report of panel dated 02-2-2015.	Approved

The firm has now requested for change in above mentioned formulation to "Clindamycin Phosphate eq. to Clindamycin 10mg (1%w/w), stating the reason of non-availability of applied formulation in Reference Regulatory Authorities. Detail is given below:

S/N	Name of Product applied for registration	Previously Applied Formulation	Revised Formulation
1.	Clinac 1% Gel	Each gram contains: Clindamycin Phosphate.....20mg	Each gram of gel contains: Clindamycin Phosphate eq. to Clindamycin……10mg (1%w/w)

In this regard, the firm has submitted fresh application along with fee of Rs.20,000/- and last inspection report dated 28-02-2019 for renewal of DML.

Decision: Registration Board approved the change in formulation of Clinac Gel as per following details:

Clinac 1% Gel
Each gram of gel contains:
Clindamycin Phosphate eq. to Clindamycin……10mg (1%w/w)

Case No.31. Verification of Authentication of Stability Data Submitted For Xenase Nasal Spray of M/s Sante (Pvt) Ltd., Karachi.

Registration Board in its 243rd meeting deferred registration of following products of M/s Sante (Pvt) Ltd., Karachi and decided as recorded in last column.

Ear/Nasal drops (General) section vide letter no F.2-12/2006-lic dated 25-02-2011	Xenase Nasal Spray Each100 micro liter contains: Olopatadine hydrochloride…… ……..665mcg equivalent to 0.6% (600mcg) of base. (Anti Allergic)	Rs.800/15ml Plastic Bottle	1.Form-5D 2. 23-11-2011 Dy.No.379 Rs.15000/- 3. 08-04-2013 Rs.35,000/-	1. PATANASE (ALCON PHARMS LTD) SPRAY, METERED;NASAL OLOPATADINE HYDROCHLORIDE 0.665MG/SPRAY (FDA) 2.Acceptable level of GMP (09.05.13)	Deferred for (i) expert opinion (ii) Product Specific Inspection for manufacturing facility.

According to the decision of 243rd meeting of Registration Board the Product Specific Inspection of premises was conducted by Director DTL (Mr. Abdul RazzaqJawinda) and Area FID (Syed Hakim Masood) on 16th April, 2015. The panel was of the view to recommend Registration of Xenase Nasal Spray (OlopatadineHCl 0.6% w/v) to the firm subject to the approval of Competent Authority. Regarding expert opinion since product is FDA approved there is no need to take opinion as per M-250 decision of Registration Board.

Registration Board in its 256th meeting approved the request of the firm for grant of registration of above product i.e. Xenase Nasal Spray.

At the time of issuance of registration letter it was observed that the product is new molecule and registration letter was not issued. The firm was asked to provide stability studies as per decision of the Registration Board. Later on, the firm provided stability studies and the case was reconsidered in M-286 with following decision:

Decision of M-286: *Registration Board deferred the case for onsite investigation to confirm genuineness/ authenticity of stability data and associated documents submitted by the firm. The Board further advised that the panel shall be constituted without waiting for confirmation/ finalization of minutes of 286th meeting.*

In line with the decision of M-286, a panel comprising of following members was constituted:

i. Dr. Ghulam Sarwar, Member Registration Board
ii. Mr. Affan Qureshi, Assistant Director, CDL, Karachi
iii. Area FID

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Xenase (Olopatadine) 0.6% w/v Nasal Spray by M/s. Sante Pharma Pvt. Ltd., Karachi.

Reference No: F.3-9/2018-Reg-II (M-286) (Misc) dated 21st December, 2018.
Investigation Date and Time: 28th December, 2018 (Afternoon).
Investigation Site: Factory premises of M/s. Sante Pharma, Karachi.

Background:

Chairman Registration Board considered the applications of M/s Sante Pharma, Karachi for registration of Xenase (Olopatadine) 0.6% w/v Nasal Sprayand constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

4. Prof Ghulam Sarwar, Dean Faculty of Pharmacy, Jinnah University for Women (Member Registration Board)
5. Mr. Abdul Rasool Shaikh, Area FID, DRAP, Karachi.
6. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used

and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Xenase (Olopatadine) Nasal Spray

Sr. No.	Question	Observation by panel
1	Do you have documents confirming the import of API ?	The firm has imported Olopatadine 1kg batch # V0673/0 15030 vide invoice # 20151730 dated 23-12-2015 and obtained approval from DRAP Karachi
2	What was the rationale behind selecting the particular manufacturers of APIs?	There is proper vendor qualification being implemented by the firm which include a desktop audit by means of a questionnaire which is filled by the manufacturer, GMP Status, provision of DMF and stability data etc. The manufacturer was evaluated on above mentioned criteria. The same source is being used in another registered eye preparation as well.
3	Do you have documents confirming the import of API reference standard and impurity standards?	The firm has documents confirming the import of API USP reference standard and impurity standards.
4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for API, USP reference standard and their impurities.
5	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate of Olopatadine Manufacturer M/s Crystal Pharma, Spain issued by Spanish Agency of Medicine and Sanitary Products (AEMPS).
6	Do you use API manufacturer method of testing?	The firm has used USP method of testing for API.
7	Do you have stability studies reports on API?	The firm has accelerated stability studies reports of six months and five years real time stability studies reports on Olopatadine.
8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method and degradation products have been quantified.
9	Do you have method for quantifying the impurities in the API?	The firm has USP method for quantifying the impurities in the API.
10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has remaining quantities of API and reference standard of API.
11	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients.
12	Do you have documents confirming the import of the used excipients?	The firm has documents confirming the procurement of all excipients used.
13	Do you have test reports and other records on the excipients used?	The firm has test reports and other records on the excipients used.
14	Do you have written and authorized protocols for the development of API nasal solution?	The firm has written and authorized protocols for the product development.
15	Have you performed Drug-excipient compatibility studies?	Drug-excipients compatibility studies were not performed as the firm has used the same excipients as of innovator "Patanase" manufactured by Alcon Laboratories USA.
16	Have you performed comparative dissolution studies?	N/A
17	Do you have product development (R&D) section	The firm has R&D section which include facilities for manufacturing.
18	Do you have necessary equipment available in product development section for development of API Nasal Spray?	The firm has necessary equipment for product development of API Nasal Spray. The product in question has been developed while using some equipment of commercial manufacturing also.

<table>
<tr><th>Sr. No.</th><th>Question</th><th>Observation by panel</th></tr>
<tr><td></td><td></td><td>Furthermore, the analytical part has been performed via the routine quality control equipment. Firm has already placed orders for procurement of other equipment for this section.</td></tr>
<tr><td>19</td><td>Are the equipment in product development section qualified?</td><td>The available equipment in product development section are qualified.</td></tr>
<tr><td>20</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>The firm has SOP for the maintenance/calibration/requalification of equipment used on PD section.</td></tr>
<tr><td>21</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>The firm has qualified staff which include One Chemist and Two Pharmacists in product development section with relevant work experience.</td></tr>
<tr><td>22</td><td>Have you manufactured three stability batches for the stability studies of API nasal solution as required?</td><td>The firm has manufactured three consecutive stability batches for the accelerated and real time stability studies of Xenase Nasal Spray packed in LDPE bottles of 15ml each.
<table>
<tr><td>Batch No.</td><td>Batch Size</td><td>Mfg Date</td></tr>
<tr><td>03T</td><td>1000ml</td><td>05-2016</td></tr>
<tr><td>04T</td><td>1000ml</td><td>09-2016</td></tr>
<tr><td>05T</td><td>1000ml</td><td>09-2016</td></tr>
</table></td></tr>
<tr><td>23</td><td>What was the criteria for fixing the batch size of stability batches?</td><td>The criteria for fixing the batch size of stability batches is the number of bottles per testing and the number of bottles required for whole stability testing.</td></tr>
<tr><td>24</td><td>Do you have complete record of production of stability batches?</td><td>The firm has complete record of production of stability batches. Necessary log books of equipment used has been available with the firm.</td></tr>
<tr><td>25</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm has detailed protocol for stability testing of stability batches in which the stability conditions are:
Real Time: 30°C and 65% RH
Accelerated: 40°C and 75% RH,
however, the firm has used LDPE container for the product in question for which ICH guidelines and WHO recommends 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies.</td></tr>
<tr><td>26</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm has developed and validated their own method for testing of stability batches in light of USP method for Ophthalmic Solution. The method is supported by impurities standards spiking studies, forced degradation, hence capable of quantifying the degradation products in their nasal spray.</td></tr>
<tr><td>27</td><td>Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?</td><td>Not Applicable</td></tr>
<tr><td>28</td><td>Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug?</td><td>The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of API and finished drug.</td></tr>
<tr><td>29</td><td>Do your method of analysis stability indicating?</td><td>The firm’s method of analytical testing has stability indicating parameters.</td></tr>
<tr><td>30</td><td>Do your HPLC software is 21CFR compliant?</td><td>The HPLC software is 21CFR Compliant as per record available with the firm.</td></tr>
<tr><td>31</td><td>Can you show Audit Trail reports on API testing?</td><td>The firm showed the audit trail reports on API testing.</td></tr>
<tr><td>32</td><td>Do you have some remaining quantities of degradation products and stability batches?</td><td>The firm has completed both accelerated and real time stability studies however a few bottles were available</td></tr>
</table>

Sr. No.	Question	Observation by panel
		with the firm.
33	Do you have commitment batches kept on stability testing?	The firm has completed both accelerated and real time stability studies
34	Do you have valid calibration status for the equipment used in API nasal solutions production in analysis?	The firm has valid calibration status for the equipment used in Xenase Nasal Spray production and analysis.
35	Do proper and continuous monitoring and control are available for stability chamber?	Continuous power supply and monitoring are available for stability chambers.
36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipment, personnel and utilities be rated as GMP compliant.

Discussion:

1. On the basis of risk-based approach the genuineness / authenticity of stability data, associated documents, import of API, quality, specification, test analysis, facilities as submitted by the firm for registration of Xenase (Olopatadine) 0.6% Nasal Spray is verifiable to satisfactory level.

2. Furthermore, the firm has conducted the stability studies as per their protocol which is 30°C and 65% RH for real time and 40°C and 75% RH for accelerated stability studies, whereas, the recommended stability conditions for products packed in semi-permeable containers are 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies. However, 30°C and 65% RH for real time and 40°C and 75% RH for accelerated stability studies may be used for semi-permeable containers provided the calculated water loss multiplied with the corresponding factor may not exceed 5% of initial, which is considered as significant change.
3. In this case the firm has not calculated water loss at any stage, so no comparison can be made between the reference and alternative relative humidity as mentioned in ICH Q1A (R2) (2.2.7.3. Drug products packaged in semi-permeable containers).
4. On risk-based approach the data evaluated during inspection does not show any deviation in the critical tests throughout the study period which may be altered if the water has lost more than the prescribed limits.
5. The related manufacturing area, equipment, personnel and utilities are GMP compliant and well suited for the manufacturing of Xenase (Olopatadine) 0.6% Nasal Spray.

Recommendations:

The firm may be granted necessary registration of Xenase (Olopatadine) 0.6% Nasal Spray in their name with the direction to conduct stability studies on their commitment batches as per ICH guidelines i.e. 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies and submit the data to the Drug Registration Board.

Decision of M-286: *Registration Board deferred the case for submission of stability data at next time point of long term stability studies along with assessment of water loss rate for applied container closure system as per ICH Q1A (R2) guidelines for "Stability Testing of New Drug Substance and Products."*

In line with the above mentioned decision, the firm later on submitted following information, presented in 288th meeting of Registration Board:

General Study of Water loss
on Semi permiable Packaging material (LDPE)
Product : Xenase Nasal Spray
Batch No. 07T
Storage condition 40°C / 75% RH

Detail of Supporting Documents Provided by the Firm/Observations:

- As protocol & testing method, the firm has only provided ICH guidelines for stability testing of drug products packaged in Semi-Permeable containers.
- The firm has submitted water loss test results on Real Time storage conditions by multiplying with following 2 different ratios (i.e., Ratio of water loss rates at a given temperature as per ICH guidelines)

"3" (initially)

"1.9" (after clarification sought in the light of ICH guidelines).

- As per ICH guidelines:

"A 5% loss in water **from its initial value** is considered a significant change for a product packaged in a semi-permeable container **after an equivalent of 3 months' storage** at 40°C/NMT 25% RH. However, for small containers (1 mL or less) or unit-dose products, a water loss of 5% or more after an equivalent of 3 months' storage at 40°C/NMT 25% RH may be appropriate, if justified".

Decision of M-288: *Registration Board deliberated the case in the light of ICH Q1A (R2) guidelines for "Stability Testing of New Drug Substance and Products" and decided that the firm shall be directed to submit following information/documents:*

i. Data to demonstrate that the drug product will not have significant water loss (i.e., 5% loss in water from its initial value) after an equivalent of 3 months' storage.

ii. *Data to demonstrate linear water loss rate at the alternative relative humidity over the storage period.*

The firm has now provided following information:

Decision: **Registration Board decided to approve registration of "Xenase (Olopatadine) Nasal Spray" by M/s Sante (Pvt) Ltd.,A/97 S.I.T.E Super Highway Karachi.Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

Case No.32. Approved Product of M/s OBS Pakistan (Pvt) Ltd., Karachi

Registration Board in its 254th meeting held on 11-12th November, 2015 considered the following product of M/s OBS Pakistan (Pvt) Ltd., Karachi as per below mentioned details:

Registration Board in 234th meetings deferred following registration application of M/s OBS Pakistan (Pvt) Ltd., Karachi for expert opinion being new formulation:

S.#	Name of firm(s)	Pack size	Demanded price
85.	Andrex Gel 1% Each 5 gm contains: Testosterone …….50 mg (Hormonals)	5gm 30's	Rs.3000/-

Now, the firm has informed that they have developed sachet filling area (Hormone) and considering the good manufacturing facility, Sachet filling area (Hormone) has been given approval by the CLB. Furthermore, Andrex Gel 1% is approved by different regulatory Authorities of the world including FDA and is available in market in various countries around the world.

The firm have provided following with their claim:

i) Approval of additional section of Sachet (Hormones) Soft Gel.
ii) Evidence of approval of above generic in TGA
iii) Approval product in FDA.

Decision of M-254: *Registration Board approved request of firm for registration of above product (Andrex Gel 1%).*

At the time of issuance of registration letter it was observed that the product is new molecule and registration letter was not issued. The firm was asked to provide stability studies as per decision of the Registration Board. Later on, the firm provided stability studies anda panel comprising of following members was constituted:

i. Dr. RafeeqAlam Khan, Meritorious Professor, Department of Pharmacology, University of Karachi. (Member Registration Board)
ii. Prof. Ghulam Sarwar, Dean Faculty of Pharmacy, Jinnah University for Women, Karachi. (Member Registration Board)
iii. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Andrex (Testosterone) 1% Gel by M/s OBS Pakistan Pvt. Limited, C-14, Manghopir Road, S.I.T.E, Karachi.

Reference No: F.3-1/2016-R-II (M-254) dated 8th February, 2019.
Investigation Date and Time: 1st March, 2019. (Afternoon)
Investigation Site: Factory premises of M/s OBS Pakistan Pvt. Limited, C-14, Manghopir Road, S.I.T.E, Karachi.

Background:

Chairman Registration Board considered the applications of M/s OBS Pakistan Pvt. Limited, C-14, Manghopir Road, S.I.T.E, Karachi for registration of Andrex (Testosterone) 1% Gel and constituted a three member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

1. Dr. RafeeqAlam Khan, Meritorious Professor, Department of Pharmacology, University of Karachi. (Member Registration Board)
2. Prof. Ghulam Sarwar, Dean Faculty of Pharmacy, Jinnah University for Women, Karachi. (Member Registration Board)
3. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Andrex Gel 1% (Testosterone)

Q. NO.	QUESTION	OBSERVATION BY PANEL
1.	Do you have documents confirming the import of API including approval from DRAP?	Firm has procured 1.5kg testosterone import from M/S. IPCA Laboratories Limited, Gujarat, India having Batch number TST/M/002/15 vide Invoice No.MUM/2014-15/5106 dated March 25, 2015 and obtained approval from DRAP, Karachi.
2.	What was the rationale behind selecting the particular manufacturer of API?	Selection of the manufacturer has been based upon its GMP Certification and availability of DMF (open part). Supplier's assessment through postal audit.
3.	Do you have documents confirming the import of reference standard and impurity standards?	The firm has procured working standards of API while impurities are not included as per USP monograph.
4.	Do you have certificate of analysis of API, reference standards and impurity standards	The firm has certificate of analysis for API, Working standards of APIs.
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate of API Manufacturer issued by Drugs Control Administration, Government of Ghandinagar, Gujarat, India.
6.	Do you use API manufacturer method of the testing for testing API?	The firm is using API manufacturer method for testing of API which is as per USP monograph.
7.	Do you have stability studies report on API?	The firm has accelerated stability studies report of six months and 36 months real time stability reports of API.
8.	If yes, whether the stability testing has been performed as per SIM and degradation products have been quantified?	The stability testing has been performed as per USP monograph.
9.	Do you have methods for quantifying the impurities in API?	Not Applicable
10.	Do you have some remaining quantities of API, the reference standards and impurities?	The firm has remaining quantities of the API & working standard of API.
11.	Have you used pharmaceutical grade excepients?	The firm has used pharmaceutical grade excipients.
12.	Do you have documents confirming the import of used excepients?	The firm has necessary documents confirming the procurement of used excipients.
13.	Do you have test reports and other records on the excepients used	The firm has test reports & other record on the used excipients.
14.	Do you have written and authorized protocols for the development of products?	The firm has written and authorized protocols for the development of Andrex (Testosterone) Gel.
15.	Have you performed drug-excepient compatibility studies?	The firm hasn't performed drug-excipients computability study as same excipients of RLD brand used in formulation. Carbomer, Ethyl Alcohol, Isopropyl Myristate, Sodium Hydroxide
16.	Have you performed comparative dissolution studies?	Not Applicable
17.	Do you have product development (R&D) section?	The firm has dedicated area for product development comprising manufacturing & testing facilities for trial batches. However, the product in question has been developed in Hormonal Manufacturing Area.
18.	Do you have necessary equipment available in product development section for development of product?	The firm has necessary equipment for production of trial batches in Hormonal Manufacturing Area.
19.	Are the equipment in product development section qualified?	The equipment used in production and analyses of trial batches are qualified.
20.	Do you have proper maintenance/	The firm has proper maintenance / calibration /

<tr><td>36.</td><td>Do related manufacturing area, equipment, personnel, and utilities be rated as GMP compliant?</td><td>The related manufacturing area, equipment, personnel and utilities are rated as GMP compliant.</td></tr>
</table>

CONCLUSION:

1. On the basis of risk-based approach the genuineness/authenticity of stability data submitted by the firm for registration of Andrex (Testosterone) 1% Gel is verifiable to satisfactory level.
2. The related manufacturing area, equipment, and utilities of Hormonal Section can be rated as GMP compliant and are suited for the manufacturing of Andrex (Testosterone) 1% Gel.
3. Keeping in view the above statement the panel recommends grant of registration in the name of manufacturer.

Decision: **Registration Board decided to approve registration of "Andrex (Testosterone) 1% Gel" by M/s OBS Pakistan (Pvt) Ltd., Karachi. Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

Case No.33. Approved Product of M/s GaxoSmithKline Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi.

Following product of M/s GlaxoSmithKline Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi was approved by the Registration Board in its 243rd meeting, held on 08-09 May, 2014, as per following details:-

S #	Name & Address of Manufacture/ Applicant	1. Brand Name 2. Dosage Form 3. Composition 4. Pharmacological Group	1. Type of form 2. Type of application 3. Demanded Price/ Pack size 4. Initial date, diary 5. Date on which fee becomes complete according to type of application/ or Form (Total Fee)	1. Me-too Status 2. GMP status	Decision
1	M/s GaxoSmithKline Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi	Panadol Joint Tablet Each modified release tablet contains: Paracetamol PhEur 665mg modified release (Non narcotic Analgesic) Finished product specifications are Manufacturer	1. Form 5 A 2. 20's Rs. 200/- 3. 22-06-12 4. 18-04-13 Rs.150,000/-	1. Paracetamol-Osteo 665mg modified release tablets approved by TGA 2. New Drug 3. Firm was inspected on 20-01-2011 and GMP compliance was good.	Approved with change in brand name.

The Cost & Pricing Division has now fixed the price of above mentioned formulation. However, while possessing for issuance of registration letter, it was informed by the firm that the above mentioned application was made for bulk import and local repacking. In this regard the firm has now provided revised Form- 5D (for being a new molecule) along with fee of Rs.5000/- as per following details:

The firm has elaborated complete details of import, packing & batch release of finished product **Step # 1**: Bulk labeled tablets of Pandaol Joint will be imported from M/s GaxoSmithKline Australia Pty Limited, Consumer Healthcare Division, 82 Hughes Avenue, Ermington NSW 2115, Australia. **Step # 2:** Complete testing will be performed as per requirement of tableting mentioned in QC release. **Step # 3:** Bulk tablets will be packed in blisters, unit cartons and finally in master cartons. This packing activity will be performed in GMP compliant facility located at GSK Pakistan Limited F-268 SITE, Karachi. **Step # 4:** QC release & batch release of the final dosage form will be done by the GSK Pakistan limited.	

The Board was further informed that original dossier of above mentioned case has been traced along with Original & Legalized CoPP (Certificate No. 11/0084). However, requirement of stability data needs deliberation.

Decision of M-288: *Registration Board deferred the case for submission of stability data and associated documents. The Board further advised that the panel shall be constituted for onsite investigation to confirm genuineness/ authenticity of submitted data/documents without waiting for confirmation/ finalization of minutes of 288th meeting.*

In line with the above mentioned decision of the Board, the firm provided stability studies and a panel comprising of following members was constituted:

i. Dr.SaifurRehmanKhattak, Director, CDL, DRAP, Karachi.
ii. Dr. Najam us Saquib, Additional Director, DRAP Office, Karachi.
iii. Mr. Kirshan Das, Assistant Director, DRAP Office, Karachi.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Panadol Joint 665mg Tablets (Paracetamol) by M/s. GlaxoSmithKline Pakistan Limited, S.I.T.E, Karachi.

Reference No: F.3-3/2019-Reg-I (M-288) dated 29th, April, 2019.
Investigation Date and Time: 08th May, 2019 (Morning).
Investigation Site: Factory premises of M/s. GlaxoSmithKline Pakistan Limited, F-268 S.I.T.E, Karachi.

Background:

Chairman Registration Board considered the applications of M/s. GlaxoSmithKline Pakistan Limited, F-268 S.I.T.E, Karachi for registration of Panadol Joint 665mg Tablets (Paracetamol) and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

1. Dr.SaifurRehmanKhattak, Director, CDL, DRAP, Karachi.
2. Dr. Najam us Saquib, Additional Director, DRAP Office, Karachi.
3. Mr. Kirshan Das, Assistant Director, DRAP Office, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

PANADOL JOINT 665MG TABLETS

S. No	Question	Observation by Panel
1.	Do you have documents confirming the import of API including approval from DRAP?	Around 7500 Panadol joint tablets were imported in bulk from miser GskErmington Australia. Via invoice number 142 dated 18th Dec 2013. With reference to DRAP Islamabad letter # F.3-3/2012-IE/PT dated 10th July 2013. Three batches of bulk tablets were imported with batch # 131707,131708 and 131751 each of 2500 tablets. The manufacturing and expiry date of these three batches were Aug 2013 and Aug 2017 respectively. Tablets for imported in fibre drums. Approval from DRAP Karachi for the release of the consignment was obtained on 08th Jan 2014.
2.	What was the rationale behind selecting the particular manufacturer of API?	Not applicable

S. No	Question	Observation by Panel
3.	Do you have documents confirming the import of reference standard and impurity standards?	Reference standard has been imported from Hamire road, Barnard castle, co. Durham, DL12 8DT, UK bearing Catalogue number 5307 batch 8 for paracetamol, bearing catalogue number 1481 batch 4 for 4-chloroacetanilide and bearing catalogue number 5305 batch 6 for p-aminophenol.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	As above
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Not applicable.
6.	Do you use API manufacturer method of testing for testing API?	It is a bulk product tested vide the tablet manufacturing site (GskErmington Australia) method of testing.
7.	Do you have stability studies reports on API?	Although it is a bulk product however stability reports of API are also available
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability has been performed as SIM it is available with the firm.
9.	Do you have method for quantifying the impurities in the API?	Not applicable
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	API not applicable however some quantities of the reference standard and impurities are available.
11.	Have you used pharmaceutical grade excipients?	Not applicable
12.	Do you have documents confirming the import of the used excipients?	Not applicable
13.	Do you have test reports and other records on the excipients used?	Not applicable
14.	Do you have written and authorized protocols for the development of applied product?	Protocol for development is available. Complete testing of the bulk product is advised to be added in the protocol and the related tests to be performed on receipt of the bulk product. Moreover, holding time studies should also be performed for the period between receipt of the bulk product in conversion on packaging.
15.	Have you performed Drug-excipients compatibility studies?	***Not applicable***
16.	Have you performed comparative dissolution studies?	Since the product is that of innovator therefore only dissolution studies has been performed at Gsk site
17.	Do you have product development (R&D) section	Not applicable
18.	Do you have necessary equipments available in product development section for development of applied product?	Not applicable
19.	Are the equipments in product development section qualified?	Not applicable
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	Not applicable

S. No	Question	Observation by Panel
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	Not applicable
22.	Have you manufactured three stability batches for the stability studies of applied product as required?	The firm has packed (blistering and cartooning) three batches with batch number 01, 02 and 03 each of 125 packs of 20s.
23.	Do you have any criteria for fixing the batch size of stability batches?	DRAP reference letter for import of bulk tablets reference as above.
24.	Do you have complete record of production of stability batches?	The firm has complete record of import of bulk product tablets (three batches) and there blistering and cartooning.
25.	Do you have protocols for stability testing of stability batches?	The firm has authorised protocol for stability testing of Panadol Joints tablets # STAB/STP-NP/968/02.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has adopted Gsk Australia Ermington method of testing. Proper method transfer studies has been conducted.
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	As above
28.	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	The firm has documents confirming the qualification of equipment's / instruments being used in the test and analysis bulk finished drug.
29.	Is your method of analysis stability indicating?	The firm has SIRM.
30.	Is your HPLC software is 21CFR compliant? (Details of Model, software, description/ version (i.e. software validation report for 21 CFR Part 11 compliance including audit trail, password protection, date & time lock and user authorizations shall also be reported.)	The firm has HPLC compliant with 21CFR. audit trail reports are available
31.	Can you show Audit Trail reports on stability studies testing?	Audit trail reports on the testing are available
32.	Do you have some remaining quantities of degradation products and stability batches?	Since stability has been completed two years ago therefore no stability batch or degradation products are available with firm as such however a blister of 10 tablets batch number 03 was produced by the firm as a reference for review of the panel
33.	Do you have stability batches kept on stability testing?	Stability testing has already competed
34.	Do you have valid calibration status for the equipments used in production and analysis?	The firm has valid calibration status of equipment's
35.	Do proper and continuous monitoring and control are available for stability chamber? (Number and utilized/available capacity of stability chambers shall also be reported.)	The firm has continuous monitoring and control are available for stability chamber.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipment, personnel and utilities be rated as GMP compliant.

Conclusion:

1. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Panadol Joint tablet is verifiable to satisfactory level.
2. The related manufacturing area, equipment, personnel and utilities are GMP compliant and suited for the manufacturing of Panadol Joint tablet.

Recommendation

1. Panadol Joint tablet is recommended for registration (bulk import and local packing) in the name of the firm.

Decision: **Registration Board decided to approve registration of "Panadol Joint Tablets (Paracetamol 665mg Modified Release)" in the name of M/s GlaxoSmithKline Pakistan Limited, F-268 S.I.T.E., Karachi (DML 000233) as per following details:**
Bulk tablets will be imported from M/s GlaxoSmithKline Australia Pty Limited, Consumer Healthcare Division, 82 Hughes Avenue, Ermington NSW 2115, Australia and M/s. GlaxoSmithKline Pakistan Limited, F-268 S.I.T.E, Karachi will be responsible forblistering and packing oftablets alongwith final quality control release of the finished pharmaceutical product. Furthermore, first three production batches of the productwill be placed on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Case No. 34. Grant of Registration OnPriority Basis In Lieu of Export Facilitation.

Registration Board, in its 288th meeting considered the following application of M/s Medisure Laboratories (Pvt.) Limited, A-115, S.I.T.E., Super Highway, Karachi on priority basis in lieu of export facilitation. Detail is as under:

Following pplication has been forwarded by registration-I section vide letter No. F.7-7/2017-Reg-II (Vol-II) for priority consideration in lieu of Export facilitation	
Name and address of manufacturer / Applicant	M/s Medisure Laboratories (Pvt.) Limited, A-115, S.I.T.E., Super Highway, Karachi
Brand Name +Dosage Form + Strength	Ticalor tablet 90mg
Composition	Each film- coated tablet contains: Ticagrelor ……..90mg
Diary No. Date of R& I & fee	Dy.No.42669;13-12-2018; Rs.20,000/ (11-12-2018)
Pharmacological Group	Platelet Aggregation Inhibitor
Type of Form	Form- 5
Finished product Specification	Not claimed
Pack size & Demanded Price	20's & As per SRO
Approval status of product in Reference Regulatory Authorities	MHRA Approved
Me-too status	Could not be confirmed
GMP status	Last GMP inspection was conducted on 28-06-2018 and the report concludes good GMP compliance.
Remarks of the Evaluator [XIII]	• No USP or BP monograph is available for the applied formulation. • Tablet General Section is available in the firm as mentioned in the submitted section approval letter. • **Film- coating** is not applied in the master formulation. • Me- too status could **not** be confirmed. • **Stability** is required against the applied formulation.
Decision: Deferred for application on Form 5-D along with submission of differentialfee and stability study data as per the requirements of 278th meeting of Registration Board.	

Now the firm has requested to replace the above mentioned molecule with new molecule detailed below:

I	II	III	IV
Sr.No	**Molecule/Generic**	**Product Name & Composition**	**Date of Submission of Dossier**
1.	Lacosamide	Lacoste 50mg Tablet Each film coated tablet contains: Lacosamide……50mg	31-12-2018
		Lacoste 100mg Tablet Each film coated tablet contains: Lacosamide……100mg	31-12-2018
		Lacoste Injection Each 20ml contains: Lacosamide……200mg	31-12-2018

The case has been placed for deliberation whether a replacement can be made with an item i.e., already considered on priority (in lieu of export facilitation) and deferred by the Registration Board.

Decision: **Registration Board acceded to the request of M/s Medisure Laboratories (Pvt.) Limited, A-115, S.I.T.E., Super Highway, Karachi for replacement of previously deferred application of Ticagrelor 90mg Tablet with abovementioned Lacosamide Tablet Range for grant of registration on priority basis in lieu of export facilitation.**

Case No.35. Request of M/s. Muller & Phipps Pakistan (Private) Limited,Karachi .

M/s. Muller & Phipps Pakistan (Pvt.) Ltd. Uzma Court, Main Clifton Road, P.O. Box3880-Karachi-75600 has requested that they have multinational distribution network for national and multinational pharmaceuticals companies. On behalf of importers / manufacturers they always participate in the institution tender business. As per the institution requirements outer / secondary packs must be stamped / over printed with the same of institution and wording "Not for Sale". Their licensed warehouse has been approved by the Drug Regulatory Authority of Pakistan for storage of biological and non-biological products.

They have provided following documents:-

i. Drug Regulatory Authority of Pakistan, Inspectors Approval reports.
ii. Provisional Establishment Certificate to Import Medical Devices provided in schedule-D.
iii. Copy of valid sale license.
iv. Authority letters for institutions of different manufacturers.
v. Fee of Rs. 5000/- for this purpose.

They have further quoted the SRO 470(I)/2017 and the medical devices Rules 2017, as under:-

1. **Drugs (Labelling & Packing) Rules, 1986 (Rule 9A, Sub-rule (2):**
"Where the imported drugs, at the time of import, do not confirm to the provision of sub-rule (1), the person importing the drug shall make an arrangement at a local facility licensed to manufactured drugs of sell the drugs in terms of clause (i) of Rule (3) of the Drugs (Import & Export) Rules, 1976 with the prior approval of the Registration Board to print the GSI Application, before the drug is placed in to the Pakistani Market."
2. **Medical Devices Rules 2017: (Rule 38, Sub-rule (2):**
"Where a medical devices has either not been appropriately labeled, or partially labelled as mentioned in sub-rule (1), the importer on his request in this behalf may be allowed by MDB to comply with these rules relating to labeling by printing the information of establishment-license's details, enlistment or registration number, MRP or any other information which may be required by MDB at establishment's licensed premises".

They have requested that the above stated proviso should also be extended to the stamping / marketing on outer packs for Government Institution Supplies only, as the Drugs (Labeling and Packing) Rules has been amended.

The PRVC in its 14th meeting referred the case for presenting in Registration Board.

Decision of M-286: *Registration Board referred the case to Legal Affairs Division of DRAP for opinion/ comments.*

Comments furnished by Legal Affairs Division

The term "label" is defined in the Drugs Act, 1976 as display of written, printed or graphic matter upon the immediate container, or the outside container or wrapper of a drug package. As per aforesaid Act, "labeling" means all labels and other written, printed or graphic matter accompanying any drug. The act defines "manufacture" as all operations involved in the production of the drug, including labeling with a view to its storage, sale and distribution. Therefore, labeling is part of manufacturing process.

Rule 7 of the Drugs (Labeling and Packaging) Rules, 1986 deals with labeling of drugs for Government supply. The said rule stipulates that the label of a container of every drug intended for the supply to any Government agency including an autonomous body or a semi government agency shall, while complying with other labeling requirements of 1986 rules, bear the words or mark reading "Government Supply" or such other words or mark as may be required by the agency concerned.

In view of the above, labeling requirements including the addition of words "Government Supply" or "Not for Sale", being part of drug manufacturing process, has to be carried out during that process.

It is further clarified that S.R.O. 470(I)/2017 was issued to amend the 1986 rules to include barcoding requirements. Rule 3A(2) of S.R.O. 2470(I)/2017 requires an importer to make an arrangement at a local facility licensed to manufacture drugs or sell drugs to print the GS1 application, if the imported drugs do not conform to the barcoding requirements at the time of import, before the drug is placed in to the Pakistan market. The said rule only deals with barcoding requirements. The provisions of Medical Devices Rules, 2017 cannot be extended to labeling requirements of drugs under the 1986 Rules.

Decision: **Registration Board deliberated the case in the light of comment furnished by Legal Affairs Division of DRAP & decided that the request of M/s. Muller & Phipps Pakistan (Private) Limited, Karachi shall not be acceded.**

Case No. 36: Allocation Of Quota For Control Substances Ephedrine HCl for the year 2017 to M/s. Sharex Laboratories, Sadiqabad.

The case of M/s. Sharex Laboratories, Sadiqabad was considered in 275th and 286th meeting of Registration Board as per detailed below:-

Proceedings of 275th of Registration Board:

The instant case was presented based on the letter received from Assistant Director (CD) (Dated 21st Sep, 2017) wherein it has been stated that M/s Sharex Laboratories, sadiqabad applied for quota allocation of product "Tracodil syrup (Reg. 003158). The case was presented before 43rd meeting of committee on allocation of controlled drug held on 26th July, 2017, the comittee deferred the case for issuance of show cause by DRAP for manufacturing of Tracodil syrup (Reg. 003158) 60ml, 400ml pack without approval. It was requested to verify the status of product registration of Tracodil syrup (Reg. 003158) 400ml pack size.

The approved pack sizes of product "Tracodil Syrup" (Reg no. 003158) have been verified as per available record i.e 120ml, 450ml (National Formulary 1981) and 60ml (dated 27th October 1988).

Decision of 275th meeting of Registration Board:-

Registration decided to call M/s Sharex Laboratories, Sadiqabad for personal hearing and for deliberating above mentioned matter before the Registration Board.

Proceedings of 286th meeting of Registration Board:-

Mr. Muhammad Ishfaq, production pharmacist, appeared before Registration Board and apologized on behalf of the firm for applying quota of 400ml pack size of product "Tracodil syrup (Reg.003158) without approval.

Decision of 286th meeting of Registration Board:-

Registration Board in its 286th meeting decided to refer the case to Legal Affair division for legal opinion.

Accordingly, the case was refer to Legal Affairs, Division and in response, Legal Affairs, Division has provided following opinion:-

i. That M/s. Sharex Laboratory applied for the quota allocation of product "Tracodil Syrup" (Reg.No.003158).
ii. That the Committee on Allocation of Controlled Drugs held on 26.07.2017 deferred the case for issuance of show cause by DRAP for manufacturing of "Tracodil Syrup" (Reg.No.003158) 60ml, 400ml pack without approval. It was requested to verify the status of product registration of "Tracodil Syrup" (Reg.No.003158) and 60ml (dated 27th October, 1988).
iii. That the approved pack size of the product "Tracodil Syrup" (Reg.No.003158) have been verified as per available record i.e 120ml, 450ml (National Formulary 1981) and 60ml (dated 27th October, 1988).
iv. That Mr. Muhammad Ishfaq production pharmacist, appeared in 286th meeting before Board and apologized on behalf of the firm for applying quota of 400ml pack size of product "Tracodil Syrup" (Reg.No.003158) without approval.
v. That the Registration Board in 286th meeting referred the case to Legal Affairs, Division for legal opinion.
vi. Drug Regulatory Authority of Pakistan Act, 2012 in Schedule-II A(1) (a) (vii) prohibits export, import or manufacture and sale or sell of any therapeutic goods which is not registered or is not in accordance with conditions of registration as

disclosed in the registration dossier and that has undergone pharmaceutical evaluation. Furthermore, Schedule-II(A)(c) prohibits to sell any therapeutic goods except under, and in accordance with the conditions of a license issued under this Act. In addition, Schedule-II A(a)(f) prohibit to supply an incorrect, imcomplete or misleading information when required to furnish any information under this Act or the rules.

vii. In this regard, DRAP Act, 2012 under section 27 read with schedule-III (6) provides penalty for violating the prohibitions mentioned above.

Decision: **In light of the opinion of Legal Affair's Division on the matter, Registration Board deliberated the case and decided to issue showcause notice to M/s Sharex Laboratories, Sadiqabad for violation of condition of drug registration, as follows:**

- **Cancellation of registration.**
- **Suspension of registration.**
- **Prosecution in Drug Court**

(v) Copy of Drug Manufacturing License.
(i) Copy of CRF.
(ii) Copy of latest GMP inspection report.
(iii) Certificate of GMP.

All the demanded additional pack sizes are for injection dosage form. As per current practice, separate registration number is given to different volumes of injectables, as quantity of drug /API changes with the change in total volume of pack / container.

Registration Board in its 282nd meeting decided to refer the case to Expert Working Group on Veterinary Drugs for further deliberation and their recommendations on the matter.

The case was accordingly discussed in 5th meeting of Expert Working Group on Veterinary Drugs held on 27th December, 2018 wherein it has been decided as follow;

"The Expert Working Group observed that as per guidelines / practice of Registration Board for giving separate registration to different volumes of injectables, the additional packs cannot be recommended. Moreover, the valid justification for the demand of the additional packs in higher volume is also required."

Decision:- Keeping in view the decision of the Expert Working Group on veterinary drugs, Registration Board did not acceded to firm's request for grant of additional pack size for their registered injection products.

Case No.43: Request of M/s. Decent Pharma, Rawat, Islamabad for Grant of Additional Pack Sizes For Already Registered Veterinary Drugs.

M/s. Decent Pharma, Rawat, Islamabad has applied for approval of additional packs of their registered veterinary drugs as per details mentioned against each:-

8.	079170	Ectin-C Injection Each ml contains:- Ivermectin……...10mg Closental……...125mg	100ml	10ml 50ml	21-08-2015	-do-
9.	081716	Spel Injection Each ml contains:- Spectinomycin (as sulphate).....100mg Lincomycin (as HCL)……50mg (Manufacturer Specification)	100ml	50ml	06-10-2016	-do-

M/s. Decent Pharma, Rawat, Islamabad has deposited the required fee of Rs.5,000 x 13 = Rs. 65,000/- and submitted following supporting documents:-

(i) Copies of registration letters.
(ii) Justification for additional packs.
(iii) Copy of CRF provided.

The case was considered in 8th PRVC meeting and it was decided to place the case for consideration of Registration Board as the demanded additional pack sizes are for injection dosage form. As per current practice separate registration number is given to different volumes of injectables, as quantity of drug /API changes with the change in total volume of pack / container.

Registration Board in its 282nd meeting decided to refer the case to Expert Working Group on Veterinary Drugs for further deliberation and their recommendations on the matter.

The case was accordingly discussed in 5th meeting of Expert Working Group on Veterinary Drugs held on 27th December, 2018 wherein it has been decided as follow;

The Expert Working Group observed that as per guidelines / practice of Registration Board for giving separate registration to different volumes of injectables, the additional packs cannot be recommended. However, the demanded packs, which are smaller than the existing ones and meant for household livestock population, can be considered for products mentioned at Sr. No. 1-3, 5,6, 8&9 of above table, if separate applications are filed in line with practice of giving separate registration to different volume of injectables. The products mentioned at Sr. No 4 & 7 of above table are recommended to be deferred for review of formulation.

Decision:- Keeping in view the decision of the Expert Working Group on veterinary drugs, Registration Board did not acceded to firm's request for grant of additional pack size for their registered injection products.

Case No.44: Request of M/s. Bio-Labs (Pvt) Ltd., Islamabad for Grant of Additional Pack Sizes For Already Registered Veterinary Drugs.

M/s. Bio-Labs (Pvt) Ltd., Islamabad has applied for approval of additional packs of their registered veterinary drug as per details mentioned against each:-

S. No.	Regn. No.	Name of Drug(s)/Composition	Already Granted Pack Size(s)	Demanded Additional Pack(s)	Justification
1.	048122	Lions-Mox-C Water Soluble Powder Each 100gm contains:- Amoxycillin Trihydrate equivalent to Amoxycillin base……..15gm Colistin Sulphate……50 MIU	100gm 250gm 500gm 1000gm	1.5 Kg 5 Kg	*Due to market demand of additional pack.*
2.	046568	Biotil Liquid Each ml contains:- Tilmicosin (as Phosphate)…..250mg	60ml 250ml 500ml 1000ml	5 Litre	-do-

M/s. Bio-Labs (Pvt) Ltd., Islamabad has deposited the required fee of Rs.5,000 x 3 = Rs.15,000/- and submitted following supporting documents:-

(i) Copies of registration letters.
(ii) Renewal status of drugs.
(iii) Copy of Drug Manufacturing License.
(iv) Copy of approved section.
(v) Copy of CRF.

(vi) Copy of inspection report.

The demanded packs are not given to other firms.

Registration Board in its 283rd meeting decided to referred the case to Expert Working Group on Veterinary drugs for further consideration.

The case was accordingly discussed in 5th meeting of Expert Working Group on Veterinary Drugs held on 27th December, 2018 wherein it has been decided as follow;

The Expert Working Group recommended for grant of additional packs demanded by the firm as mentioned in above table with exception of 1.5kg of Lions-Mox-C Water Soluble Powder which is not recommended for having no rational justification.

Decision:- Keeping in view the decision of Expert working group on veterinary drugs, Registration Board decided as follow;

a. **Approved the grant of additional pack size of "*5 Kg and 5 liters*" for registered products Lions-Mox-C Water Soluble Powder (Reg.No. 048122) and Biotil Liquid (Reg.No. 046568) on same terms and conditions respectively.**
b. **Did not acceded to the request of firm for the grant of additional pack size of *1.5 Kg* for product Lions-Mox-C Water Soluble Powder (Reg.No. 048122) by the firm having no rational justification.**

Case No.45: Request of M/s. Nawan Laboratories (Pvt) Ltd., Karachi for Grant of Additional Packs for their already Registered Veterinary Drugs.

M/s. Nawan Laboratories (Pvt) Ltd., Karachi has applied for grant of additional packs of their following registered veterinary drugs as per details mentioned against each:-

Decision:- **Registration Board decided as follow:**

a. **Approved the grant of additional pack sizes of *5 liter, 10 liter and 15 liter* to registered product Hicos 250 Oral Solution (Reg.No. 044909) on same terms and conditions.**
b. **Deferred the case for product at Sr.No.2 for review of the product/molecule by expert working group on veterinary drugs.**

Case No. 47: **Request of M/s. U.M. Enterprises, Karachi for Grant of Additional Pack Sizes for Already Registered Veterinary Drug.**

M/s. U.M. Enterprises, Karachi has requested for grant of additional pack sizes for their following registered veterinary product. Details are mentioned alongside.

S. #	Reg. No.	Name of Drug (s) / Composition.	Existing Pack.	Demanded Additional packs.	Initial Date of Regn. Letter/ Dairy No. & Date	Justification
1.	088152	Diclacox Liquid Each ml contains:- Diclazuril……10mg	500ml plastic bottle	1 Litre plastic bottle	08th March, 2018 Dy.No. 4037 (R&I) DRAP Dated 19-04-2019	Due to customers/ consumers. Larger pack sizes are more suitable for large farmers"

M/s. U.M. Enterprises, Karachi has deposited the required fee of Rs.5000/- and submitted required supporting documents including;

(i) Copy of initial Registration letters..
(ii) Copy of Drug Sale License.
(iii) Original legalized free sale Certificate (alongwith approval of the pack sizes) issued by Regulatory Authority of Exporting Country i.e. Jordan.
(iv) Justification.
(v) Label.
(vi) Undertaking.

The demanded packs are not given to other firms.

Decision:- **Registration Board approved the grant of additional pack size of "*1 liter plastic bottle*" for registered product Diclacox Liquid (Reg.No. 088152) of M/s. U.M. Enterprises, Karachi on same terms and conditions.**

Case.No.47: **M/s. Attabak Pharmaceuticals, Islamabad.**

Federal Inspector of Drugs-IV, Islamabad has informed that a routine GMP inspection of M/s. Attabak Pharmaceuticals, Islamabad was conducted on 29-06-2018 wherein it has been observed that the firm has seven registered penicillin products but has no separate penicillin manufacturing section. The Federal Inspector of Drugs further informed that at present lay out has been approved for new penicillin section. Federal inspector of Drugs has provided the following list of registered products having penicillin of M/s. Attabak Pharmaceuticals alongwith registration letters.

S. No.	Regn. No.	Name of Drug(s)/Composition
1.	063822	Salinobak Water Soluble Powder Each 100gm contains:- Lincomycin as Hcl ……. 5.0gm Spectinomycin as Hcl ……..5.0gm Amoxicillin Trihydrate ……10gm
2.	069629	Amoxibak LA Injection. Each ml contains:- Amoxicillin as Trihydrate 15% w/v

3.	071053	Moxin-L Water Soluble Powder Each 100gm contains:- Lincomycin as HCl ……5gm ColistinSulphate….. ….50MIU Amoxicillin Trihydrate ….10gm BromhexineHCl …….0.5gm

6.	071062	Amoxitin-C Water Soluble Powder Each 100gm contains:- Amoxicillin as Trihydrate…20gm Colistinsulphate …….. 80MIU
7.	071063	As-Plus Water Soluble Powder. Each 100gm contains:- Spectinomycin as HCl …. 5.0gm ColistinSulphate ……50MIU Amoxicillin Trihydrate .….10gm BromhexineHCl ……. 0.5gm

With reference to product at Sr. No.1 it is submitted that the product has already been transferred to M/s. D-Maarson Pharmaceuticals, Rawat, Rawalpindi.

Registration Board in its 286th meeting decided to issue show cause notice to M/s. Attabak Pharmaceuticals, Islamabad for cancellation/suspension of registration of above mentioned products registered in the name of M/s. Attabak Pharmaceuticals, Islamabad for not possessing the penicillin manufacturing facility.

Show cause notice issued to M/s. Attabak Pharmaceuticals, Islamabad. In response the firms informed as under:-

(i) We would like to inform you that our sections are ready for inspection and we informed to Assistant Director (Licensing) dated 4-1-2019.

(ii) Licensing Department has constituted a panel for inspection of our penicillin section dated 25th February, 2019.

The firm has requested to withdraw the show cause notice in the greater interest of justice.

Decision:- Registration Board deferred the case for obtaining details from Licensing Division of DRAP regarding the updated status of firm's penicillin section.

Case.No.48:- Registration of Drugs under the Drugs Act, 1976.

Registration Board in its 239th meeting held on 12th September, 2013 deferred the following drugs of M/s. Medi-Vet (Pvt) Limited, Lahore due to stoppage of production by Central Licensing Board.

S. #	Name of Drug(s)/Composition	Pack Size	Shelf Life	Registration Board Decision
1.	Floxivet-C Injection Each ml contains:- Enrofloxacin B.P Vet.….100mg/ml Colistin Sulphate BP..250000 iu/ml (Antibiotic/Antibacterial).	100ml 250ml 500ml 1000ml	02 years	Deferred as production of firm has been stopped by CLB

2.	Medi-Voc Injection Each ml contains:- Ivermectin B.P……...10mg (Dewormer/ Anthelmintic).	100ml 250ml 500ml 1000ml	02 years	-do-

The firm has now provided copy of letter issued by Secretary CLB, dated 29-01-2019, wherein it has been mentioned that "*on the recommendations of the panel of experts, the Central Licensing Board in its 267th meeting held on 31-12-2018 has considered and approved the resumption of the production in the following one (1) section (Liquid Injectable Veterinary Section) of your firm M/s. Medivet (Pvt) Ltd, 16-Km, Sheikhupura Road, Lahore under Drug Manufacturing License No.000269 (Formulation)*"

Decision:- **Registration Board decided as follow;**

a. Keeping in view the resumption of production of Liquid injectable veterinary section of M/s. Medi-vet (Pvt) Ltd, 16 Km, Sheikhupura Road Lahore (DML No.000269) by the Central Licensing Board , Registration Board approved the product *Medi-Voc Injection* as per details mentioned below. Furthermore, the firm shall select one pack size among the demanded pack sizes before issuance of Registration letter.

S. #	Name of Drug(s)/ Composition	Pack Size	Shelf Life	Finished product Specification
1.	**Medi-Voc Injection Each ml contains:- Ivermectin……...10mg**	**100ml 250ml 500ml 1000ml**	**02 years**	**BP specification**

b. Deferred the product *Floxivet-C Injection* for confirmation of me-too status.

Case No. 49: Request of M/s. Leads Pharma (Pvt) Ltd Islamabad for Correction of Pack Sizes.

Registration Board in its 282nd meeting approved following veterinary drug of M/s. Leads Pharma (Pvt.) Ltd, Islamabad. However, further processing of the registration letter of following product was withheld for getting clarification regarding approved pack size.

S. No	Name of Manufacturer	Name of drug(s) & Composition	Approved Packs Size(s)	Remarks
1.	M/s. Leads Pharma (Pvt.) Ltd, 81-A, Street No. 06, I-10/3, Islamabad.	Doxyfas-50 Powder Each 1Kg contains:- Doxycycline HCl…500g	10 ml x 5's vial	Approved with innovator's specification.

From original dossier it has been checked that in Form-5 submitted by the firm with registration application, the demanded pack sizes are mentioned as 100gm, 250gm,500gm, 1Kg, 2.5Kg & 5Kg while the pack size "10ml x 5's vial" has been mentioned inadvertently in minutes. The firm has requested for correction of pack sizes in minutes of the meeting.

Decision:- **Registration Board approved the correction in minutes w.r.t pack size of approved product Doxyfas-50 Powder from "*10 ml x 5's vial*" to "*100gm, 250gm,500gm, 1Kg, 2.5Kg & 5Kg*.**

Case No. 50:- **Show Cause Notices issued to the firms having registration of products containing Norfloxacin.**

Registration Board in its 249th meeting while rejecting applications of veterinary drugs containing Norfloxacin due to development of resistance in human the Board also decided to issue show cause notice to already registered products for cancellation. Accordingly show cause notices were issued to the firms having registrations of aforementioned drug formulations. A number of firms have responded with their point of view including request for personal hearings.

The salient points, of the responses received are summarized as under:-

i) The drug is considered vital to combat stubborn bacterial infections faced by the poultry section.
ii) No scientific approval information regarding Norfloxacin resistance in human.
iii) Extensive study needs to be carried out before making a decision on this issue.
iv) Under Section 7 (11) of Drugs Act, 1976, detail of the information or enquiry conducted, on the basis of which the decision was taken, may be communicated for response.
v) The drug has no significant residual effect on human body.
vi) A few firms also agreed to withdraw the products.
vii) A number of the firm requested for opportunity for personal hearing.

The Board in 262nd meeting referred the case to Dr. Qurban Ali for further evaluation and recommendations. Dr. Qurban Ali in 265th meeting informed the Board that the case is under study for developing policy recommendations. The Board accordingly deferred the case in 265th and subsequent meetings.

The case was again discussed in 278th meeting decided that Dr. Qurban Ali, Member Registration Board informed that he will submit report after reviewing all relevant references and literature.

The case was accordingly discussed in 5th meeting of Expert Working Group on Veterinary Drugs held on 27th December, 2018wherein it has been decided as follow;

"The Group observed that Ciprofloxacin has already been banned for veterinary use so two antibiotics of Quinolone group i.e. Enrofloxacin and Norfloxacin may continue to be permitted for having more choice for controlling infections in veterinary practices".

Decision:- **Registration Board deferred the case for further deliberation on the matter in light of status in reference regulatory authorities.**

Case No.51:- **Show Cause Notices issued to the firms having registration of products containing Phenylbutazone.**

Registration Board in its 260th meeting while rejecting applications of veterinary drugs containing Phenylbutazone as drug is not recommended for use in food producing animals the Board also decided to issue show cause notices to all registered veterinary drug formulation containing Phenylbutazone. Accordingly show cause notices were issued to the firms having registrations of aforementioned drug formulations. A number of firms have responded with their point of view including request for personal hearings.

The salient points, of the responses received are summarized as under:-

i) The drug is used in equines like horse, donkeys etc. which is not meant for human consumption, therefore there is no problem of residual effect
ii) Extensive study needs to carry out before making a decision on this issue.

iii) Under Section 7 (11) of Drugs Act, 1976, detail of the information or enquiry conducted, on the basis of which the decision was taken, may be communicated for response.

iv) A few firms also agreed to withdraw the products

The Board in 262nd meeting referred the case to Dr. Qurban Ali for further evaluation and recommendations. Dr. Qurban Ali in 265th meeting informed the Board that the case is under study for developing policy recommendations. The Board accordingly deferred the case in 265th and subsequent meetings.

The case was again discussed in 278th meeting decided that Dr. Qurban Ali, Member Registration Board informed that he will submit report after reviewing all relevant references and literature.

The case was accordingly discussed in 5th meeting of Expert Working Group on Veterinary Drugs held on 27th December, 2018wherein it has been decided as follow;

"The Group, after deliberation, observed that since the Phenylbutazone is primarily used in equine animals so its use should be restricted to these animals only. Moreover, prominent warning on label of drugs containing Phenylbutazone, restricting its use in nonfood producing animals, should also appear in conspicuous manner."

Decision:- Registration Board deferred the case for further deliberation on the matter in light of status in reference regulatory authorities.

Case No.52:- Show cause notices issued to firms having registration of products containing Amantadine in combination with other antibiotics/ antibacterial.

Registration Board in its 249th meeting decided to issue show cause notices for cancellation of all the drug formulations having Amantadine in combination with antibiotic/ antibacterials for veterinary use for having drug interaction and resistance problem. Accordingly show cause notices were issued to the firms having registrations of aforementioned drug formulations. A number of firms have responded with their point of view including request for personal hearings.

The case was placed before the Registration Board in its 257th meeting and the Board directed to place comments of all firms / stake holders before the Board in its next meeting. Accordingly, the responses of the firms were placed before the Board in 258th meeting. The salient points, of the responses received are summarized as under:-

i) Huge financial losses to the firms /distributor as heavy investment have been made in the products.
ii) No complaints/information regarding interaction of Amantadine with antibiotic/ antibacterial, is reported.
iii) These combinations play very important role for treatment of diseases like Bird flu, Influenza.
iv) Extensive study needs to be carried out before making a decision on this issue.
v) Under Section 7 (11) of Drugs Act, 1976, detail of the information or enquiry conducted, on the basis of which the decision was taken, may be communicated for response.
vi) A few firms also agreed to withdraw the products and requested for grant of registration of other products instead.
vii) A number of the firm requested for opportunity for personal hearing.
viii) Pakistan Poultry Association has claimed that Amantadine based products are effective and safe for veterinary practices, that they have not received any complaint. The Association has requested for withdraw of the decision.

ix) Pakistan Veterinary Pharmaceutical Association has claimed that Amantadine based products are effective and safe for veterinary practices and they have received no complaint regarding such products. The Association has requested for withdrawal the decision.

Registration Board deferred the case in its 258th meeting due to paucity of time and took it again in 259th meeting. The following decision was taken.

Registration Board referred the matter to Dr. Muhammad Arshad, Member Registration Board, for giving his detail views (approval status of products by reference regulatory authorities, pharmacological and pharmaceutical compatibility etc) on the matter after consultation with other concerned experts in veterinary field.

Since no response was received from Dr. Muhammad Arshad so the Registration Board in its 262nd meeting decided to refer the matter to Dr. Qurban Ali, Director General, National Veterinary Laboratory, Islamabad/ Member Registration Board for expert views.

The Board in 262nd meeting referred the case to Dr. Qurban Ali for further evaluation and recommendations. Dr. Qurban Ali in 265th meeting informed the Board that the case is under study for developing policy recommendations.

The case was again discussed in 278th meeting decided that Dr. Qurban Ali, Member Registration Board informed that he will submit report after reviewing all relevant references and literature.

The case was accordingly discussed in 5th meeting of Expert Working Group on Veterinary Drugs held on 27th December, 2018 wherein it has been decided as follow;

"The group deliberated the matter in depth and in absence of any recognized scientific rational, regarding simultaneous use of antibiotic with antiviral drugs, all such combination are recommended to be withdrawn."

Decision:- Registration Board deferred the case for further deliberation on the matter in light of status in reference regulatory authorities.

Case No. 53:- Complaint of M/s. Mehran International, Karachi Regarding Resemblance of Packaging.

M/s. Mehran International, Karachi has complaint that the label and box of registered product of M/s. International Pharma Labs., Lahore namely Gentamin 10% 100ml (Regn. No. 041238) has resemblance with the label and box of their registered product namely Gentamicin Injection 10% (Regn. No. 022179). The firm has informed that their product is registered earlier than the product of M/s. International Pharma Labs., Lahore.

As an evidence the firm has provided boxes of both products and requested that M/s. International Pharma Labs., Lahore may be advised to change the packing of the label and box of their product. In accordance with the decision of 2nd PRVC meetingM/s. International Pharma Labs., Lahore, which got the registration of product namely Gentamin 10% 100ml (Regn. No. 041238) later, was advised to change packaging design of their product under intimation to this office.

M/s. International Pharma Labs., Lahore in response submitted as under:-

- As you can see by yourself neither the picture of animals, nor the font & design is same.
- Company M/s. Mehran International allegation is baseless.
- As you can physically see our box is of white colour and there is snow white our box original pack is attach with.

- As urdu version of dosage and composition on above said Chinese product is not available and same is misbranded as defined in Drug Act, 1976 but urdu version according to law is available as on packing of International Pharma Labs., Lahore which is part of our design. So in the light of point discussed above our product design is totally different from them if your good self is not satisfied then give us a chance to justify our self personally.

The case was considered in 8th PRVC meeting and the Committee decided to place the case before Registration Board.Registration Board in its 282nd meeting decided to issue show cause notice to M/s. International Pharma Labs., Lahore for having resemblance of packaging design of their registered product with that of another registered product of M/s. Mehran International, Karachi.

Accordingly show cause notice was issued to M/s. International Pharma Labs., Lahore. In response the firm has informed that "*we are hereby ready to change the design and fount of our product required by your good self. The change design is attach with this letter please approve our design and make us to think you.*"

Decision:- **Registration Board noted and endorsed the changes made in packaging design and font by M/s. International Pharma Labs., Lahore for their registered product Gentamin 10% 100ml (Regn. No. 041238) on complaint of M/s. Mehran International, Karachi**.

Case No. 54:- **Request of M/s. Ani Cure Veterinary Services, Rawalpindi for change of address (local) for their registered products.**

M/s. Ani Cure Veterinary Services, Rawalpindi has requested for change of local address for their following registered products as per following details:-

viii. Copy of CRF of M/s. Intervac (Pvt) Ltd. valid upto 31-12-2017.

Registration Board in its 279th meeting deferred M/s. P.D.H Laboratories (Pvt.) Ltd, 9.5 Km Sheikhupura Road, Lahore request for confirmation of status of renovation plan and timelines of their oral and injectable veterinary sections from Licensing Division of DRAP.

Letter issued to Licensing Division for confirmation of status of renovation plan and timelines of their oral and injectable veterinary section. In response Licensing Division has informed that layout plan for following sections of M/s. PDH Laboratories (Pvt) Ltd, Lahore was approved on 08-01-2019.

1. Tablet (Penicillin) Section (New).
2. Capsule (Penicillin) Section (New).
3. Dry Powder Suspension (Penicillin) Section (New).
4. Dry Powder Injection (Cephalosporin) (Revised).
5. Syrup (General) Section (New).
6. Capsule (General) Section (New).
7. Sachet (General) Section (New).
8. Tablet (General) Section (New).
9. Narcotics (General) (Human) (Revised).
10. Drench (General) (Veterinary) Section (Revised).
11. Injectable (Vial) (General) (Veterinary) Section (Revised).

Registration Board in its 288th meeting decided to defer the case for seeking following clarifications:

- Timelines for completion of renovation of Oral and Injectable veterinary sections.
- Status of other registered products of Oral and Injectable veterinary sections as firm has not applied for contract manufacturing.

In response the firm submitted that the completion of the construction and installation of the machinery will be completed in the period of two years and six months. Furthermore, firm provided list of other registered products for toll manufacturing.

Decision:- **Registration Board deferred the case for obtaining details from the firm regarding timelines for completion of renovation of Oral and Injectable veterinary sections as the already provided information does not provide details about same.**

Case No. 56:- Show Cause Notices issued to the firms having registration of products containing Novaminsulfon.

Registration Board in its 277th meeting held on 27-29th December, 2017 meeting while rejecting applications of veterinary drugs containing Novaminsulfon due to earlier decisions of cancelling registration of metamizole containing human drugs for being associated with serious adverse effects like agranulocytosis. Accordingly show cause notices were issued to the firms having registrations of aforementioned drug formulations. A number of firms have responded with their point of view including request for personal hearings.

The salient points, of the responses received are summarized as under:-

i) Novaminsulfonis being used worldwide even in the countries which are being regulated by European Medicine Agency (EMA), MHRA and other countries like Canada. Novaminsulfon (Methampyrone, Dipyrone, Analgin, Metamizole) is allowed to use in veterinary drugs all over these countries. It is pertinent to note that the clinical study environments in US and in Pakistan are completely different and to take such strong action against the stakeholder who has invested millions in the products under consideration.

ii) The metamizole sodium is best drug of choice in emergency pain management of animals. Because this drug is registered in strict regulatory authorities like EMA, MHRA and Health Canada.

iii) Metamizole is a non-steroidal anti-inflammatory drug has been banned for human consumption not for veterinary drugs in the world. For veterinary Metamizole is not banned in any foreign and SRA countries. It is commonly used in the horse, cattle, pigs and dose as an antipyretic, analgesic and anti-inflammatory drug. The drug containing Metamizole is currently in use many foreign and SRA countries.

iv) A number of the firm requested for opportunity for personal hearing.

Decision:- Keeping in view the above stated position, Registration Board decided to call up all the above mentioned firms for personal hearing in the next meeting of Registration Board.

Case No. 57:- Request of M/s. Hilton Pharma (Pvt) Ltd., Karachi for Grant of Additional Packs for their already Registered Veterinary Drugs.

M/s. Hilton Pharma (Pvt) Ltd., Karachi has applied for grant of additional packs of their following registered veterinary drugs as per details mentioned against each:-

S.No.	Regn. No.	Name of Drug(s)/Composition	Already Pack Size Granted	Demanded Additional Pack	Initial registration with renewal	Justification
1.	084849	Mycohil Granules Each gm contains:- Tylosin Tartrate…...10% w/w Doxycycline HCL…20% w/w Bromhexine……0.5% w/w (As per Innovator's Specification*)	100gm 500gm 1Kg 5Kg Aluminum Sachet	2Kg 3Kg 4Kg 6Kg	18th August, 2017	*"To comply with market needs and cost effectiveness of the product"*

M/s. Hilton Pharma (Pvt) Ltd., Karachi has deposited the required fee of Rs.20,000/- and submitted following supporting documents:-

Case.No.68: REQUEST OF M/S BAYER PAKISTAN (PVT) LTD, KARACHI FOR DE-REGISTRATION/ CANCELLATION OF REGISTRATION REGISTERED PRODUCT.

M/s Bayer Pakistan (Pvt) Ltd, Karachi has applied for de-registration/cancellation of registrations of following registered imported products as per details mentioned alongside.

DE-REGISTRATION OF DRUGS ON FIRM'S REQUEST					
S. No	**Firm Name**	**Product(s) Name**	**Reg. No**	**Reason for De-Reg (stated by firm)**	**Alternative registered product**
1.	M/S Bayer Pakistan (Pvt) Ltd, Karachi	Dopergin Tablet Each Tablet Contains: - Lisuride Hydrogen Maleate……0.2mg	009882	TEVA CZECH Republic was the single qualified source of Lisuride Hydrogen maleate worldwide & our parent company Bayer AG Germany procure this API from the same manufacturer. M/s Medipharm (Pvt) Ltd (now merged with M/s Bayer Pakistan) was getting same API from our	Other product containing Lisuride Hydrogen Maleate as an active ingredient is not available in Pakistan.

				principal Bayer AG Germany. Bayer AG has stopped the production / marketing of this product in Europe since 2013. To continue with this product in Pakistan we directly approached TEVA & based on our very less requirement of this API (i.e. less than 1kg) TEVA has shown his inability to produce API batches solely for Pakistan due to big production batch sizes.	
2.	-do-	Qlaira Tablet, Each wallet (28 film coated tablets) contains: - Part I (2 dark yellow film coated tablets-Core) Estradiol valerate….3.000 mg. Part II (5 medium red film-coated tablets-Core) Estradiol valerate….2.000 mg Dienogest…….2.000 mg Part III (17 light yellow film-coated tablets-Core) Estradiol valerate….2.000 mg Dienogest…….3.000 mg Part IV (2 dark red film-coated tablets-Core) Estradiol valerate….1.000 mg Part V (2 white film-coated tablets-Core) None	088370	• The business of this product is not viable. • Due to delayed registration, globally our principal has taken decision to not market this product. • Therefore, we are applying for cancellation / De-registration of this product to avoid unnecessary workload of life cycle management at both ends DRAP & Company.	Qlaira contains tow APIs: • Estradiol Valerate. • Dinogest (not available in pakistan). Company provided brands containing Estradiol Valerate as. Estranor, M/s Saffron Pharma. Norestra, M/s British Pharma ltd, Orgyluton, M/s Hansel Pharma, Progyluton, M/s Bayer Heatl care. Ovlogyn M/s Zafa.

The firm has also provided the following supporting documents:-

a. Copy of registration letter with last renewal status..
b. Justification (for de-registration/cancellation of registration).
c. An undertaking that no case is pending at any forum/court of law.

Decision: Registration Board deferred the case for confirmation of alternative registered products.

Case No.69: REQUEST OF M/S GLAXOSMITHKLINE PAKISTAN LIMITED, KARACHI FOR PERMISSION TO IMPORT REQUIP PD TABLETS IN GENERAL EXPORT (GE) PACK.

M/S Glaxosmithkline Pakistan Limited, Karachi has requested for for permission to import the following products in General Export packs: -

S. No.	Product(s) Description	Reg.No.	Registered Source
1.	Requip PD Tablet 2mg Each prolonged release tablets contains:- Ropinirole hydrochloride…2.280mg eq. to 2mg Ropinirole free base.	094747	Spain

2.	Requip PD Tablet 4mg Each prolonged release tablets contains:- Ropinirole hydrochloride…4.560mg eq. to 4mg Ropinirole free base	094748	Spain
3.	Requip PD Tablet 8mg Each prolonged release tablets contains:- Ropinirole hydrochloride…9.120mg eq. to 8mg Ropinirole free base	094749	Spain

The firm has mentioned following reasons to ensure sustained supply of the product: -

a. Manufacturing site has supply constraints and packaging of the product in country specific packs consumes more time and resources as compared to the packaging in General Export Packs which are being supplied to mos of the markets.
b. Constraints in technical and commercial feasibility of the manufacturing site due to requirement of specialized packaging only for Pakistan.
c. We may often face stocks availability issues if do not import in readily available General Export Pack.

The firm has stated that product registration number, MRP and urdu text will be printed locally through laser jet printer at their licensed premises (i.e.F-268, SITE, Karachi DML No.000233 by way of formulation) prior to market the products for an initial period of 03 years.

The firm has provided the following documents along with the application: -

a. Fee challan of Rs.15000/-
b. Copy of registration letter (issued on 1st February, 2019).

Decision: **Registration Board acceded to the request of the firm for import of already registered products Requip PD Tablet 2mg vide Reg. No. 094747, Requip PD Tablet 4mg vide Reg. No. 094748, Requip PD Tablet 8mg vide Reg. No. 094749 in Standard Export Packs. The Board advised the firm to locally print MRP and Registration Number along with Urdu Text before sale of drug at M/S Glaxosmithkline Pakistan Limited, F-268, SITE, Karachi DML No.000233 to comply requirement as per Drugs (Labelling & Packing) Rules, 1986. This permission shall be valid for two (02) years only.**

Decision: **Registration Board acceded to firm's request for change in title/name of manufacturer from Sanofi Aventis, Italy to Sanofi, Italy (manufacturing site remain same)**

Case No.78: Change of Title of Manufacturer of Products of M/s Le Mendoza Pharmaceuticals (Pvt.) Ltd, Karachi.

The title of the firm has been changed from M/s. Chas .A. Mendoza (DML No. 000140) to M/s. Le Mendoza Pharmaceuticals (Pvt.) Ltd., Karachi vide letter no. F.6-1/2013-Lic (M-232) dated 2nd September, 2013. The firm applied on 26-04-2014 for transfer of registration of following products due to change in the Company Name/Title Name from M/s Chas. A Mendoza Karachi to M/s Le Mendoza Pharmaceutical (Pvt) Ltd Karachi, where the DML and site remains the same and case was considered in the 263rd meeting of Registration Board. The Board decided to send the RRR section for verification of Renewal status as per decision of the Board. However, as there is only change of title of the firm and renewal status of the various products of the firm needed validation. Subsequently, firm has applied vide S.R.O 1005(I)/2017 and submitted the three times renewal fee for each product, whose renewal has been expired in previous years.

Sr. No.	Reg. No.	Name of product along with composition	Initial Date of Reg.	Fee along with date	Remarks	Renewal validity till
7	055660	Kilcam Dry Suspension Each 5 ml contain Clarithromycin … 125mg	03/04/2009 Change of brand name dated 29/08/2009	(Due date: 28-08-2014) Rs.30,000/- 04-12-2017	Locally Manufactured	28-08-2019

Decision of 277th Meeting:
Registration Board deferred the product for submission of legalized source of clarithromycin.

Now, the firm has submitted the Legalized source of clarithromycin Stability Data, cGMP (dated 28-Mar-2018) by M/s Surge Laboratories (Pvt.) Ltd, 10 KM Faisalabad road, Bikhi District Sheikhupura.

Decision: Registration Board acceded to firm's request for change in title/name of manufacturer from M/s. Chas .A. Mendoza to M/s. Le Mendoza Pharmaceuticals (manufacturing site remain same)

Case No.79: Change of Address of Manufacturing Site of Registered Imported Product i.e. Omega Infusion (M/s. Ferozsons Laboratories Ltd., Nowshera).

iii.	List of alternatives brands/ FPPs available in the country.	Provided.
iv.	An undertaking that: **i.** No case is pending at any forum / court of law regarding this product. **ii.** Provided information/ documents are true/ correct.	Provided.

Decision: Registration Board decided as follows:

- **Acceded to firm's request for deregistration of registration of product at Sr. No. 1.**
- **Deferred product at Sr. No. 2 for confirmation of availability status of alternate product.**

Case No.87: De-Registration of Drug (s) of M/s OBS Pakistan Limited, Karachi.

M/s OBS Pakistan Limited, C-14, Manghopir Road, S.I.T.E. Karachi has requested for cancellation/De-registration of their following product due to no demand of the products in the market. The details are as under;

Sr.#	Reg. No.	Name Drug with composition	Date of Initial Registration with Renewal Status	Alternate Products
1.	011019	**Mevacor 20mg tablets** Each tablet contains: Lovastatin……20mg	Initial DOR: 16-May-1990. Transfer of Registration: 09-Jul-2009 Last Renewal:16-Jun-2014	Colostin tablet of M/s Zafa Lovestan of M/s Opal Lab. Lo-Lipid of M/s Nabiqasim Cholescor of M/s Atco Lab.

The firm has submitted the following documents;

Sr.#	Requirement as per SOP	Submission
i.	Application with justification.	Provided.
ii.	Copy of registration letter and last renewal status.	Provided.
iii.	List of alternatives brands/ FPPs available in the country.	Provided.
iv.	An undertaking that: **i.** No case is pending at any forum / court of law regarding this product. **ii.** Provided information/ documents are true/ correct.	Provided.

Decision: Registration Board deferred the request of firm for confirmation of availability status of alternate products of above mentioned formulation.

Case No.88: Discontinuation of Production of Marketed Drug(s) of M/s. Getz Pakistan (Pvt.) Ltd; Karachi.

M/s. Getz Pharma (Pvt.) Ltd; 29-30/27, Korangi Industrial Area Karachi-74900 has informed that they are no more interested to continue the production of following marketed products as there are so many alternate salts are available in the market:-

Sr.#	*Reg. No.*	*Name of Drug(s)*	*Alternate brand*
1.	070450	**Emrix-SR 15 mg Capsule** Each capsule contains:- Each extended release capsule contains:- Cyclobenzaprine HCl as extended release pellets…… 15mg	**Mezrel XR by Pharmevo**
2.	070451	**Emrix-SR 30 mg Capsule** Each capsule contains:- Each extended release capsule contains:- Cyclobenzaprine HCl as extended release pellets ……..… 30mg	**Mezrel XR by Pharmevo**

Remarks: They have submitted it for information of the Registration Board.

"Decision of 19th PRVC:

The Committee referred the case to Registration Board".

Decision: **Registration Board deferred the request of firm for confirmation of availability status of alternate products of above mentioned formulations.**

Case No.89: Correction in Brand Name of Drug(s) of M/s. Faas Pharmaceutical (Pvt.) Ltd; Karachi.

M/s. Faas Pharmaceutical (Pvt.) Ltd; Karachi had requested for change of brand name of their already registered drug(s). The details are as under: -

S.#	Regn. No.	Existing Brand Name	Initial registration with renewal status
1.	085943	**Ulciloc Insta 20mg Sachet** Each sachet contains:- Omeprazole ……...20mg Sodium Bicarbonate …… 1680mg (As per *Innovator's Specification)	Initial registration dated 18.01.2018
2.	086085	**Ulciloc Insta 40mg Sachet** Each sachet contains:- Omeprazole ……...40mg Sodium Bicarbonate …… 1680mg (As per *Innovator's Specification)	-do-

The firm had submitted fee of Rs. 20,000/- for each product and other documents for this purpose and the PRVC approved the change of brand name from "Ulciloc" to "Tinkit Insta". Now, the firm has informed that they have already been granted the registration of Omeprazole pellets under the brand name Nomizil 40mg & 20mg (Reg.No.082167 & 082168). The firm has requested to correct the brand name as per their first priority name i.e Nomizil Insta instead of Tinkit Insta.

"The PRV-Committee in 9th meeting deferred the case for provision of prescribed fee."

The firm has again requested that they have already been granted the registration of "Nomizil 40mg & 20mg Capsule" (Reg.No.082167 & 082168) and they may be granted the brand name "Nomizil Insta" for uniformity of brand name.

"The Committee in its 14th meeting deferred the case to present in Registration Board."

Decision of 286th Meeting of RB:

"Registration Board deferred the case for submission of requisite fee for change of brand name."

Now, the firm has submitted the fees of Rs.20,000x02=40,000/- for the change of brand name of their above mentioned products.

Decision: **Registration Board acceded to firm's request for change of brand name of above mentioned products from Ulciloc" to Nomizil.**

Case No.90: Show-cause Notice Issued to M/s Pharmatec Pakistan (Pvt.) Ltd., S.I.T.E, Karachi under DML No.000024 for Products of M/s OBS Pakistan, Karachi.

- **Previous History of Case: (OK)**

M/s OBS Pakistan Karachi was served with show cause notice as CLB in its 251st meeting held on 6th December 2017 has considered and deliberated the case of M/s Pharmatec Pakistan (Pvt.) Ltd., D-86/A, S.I.T.E, Karachi under DML No. 000024 by way of formulation (contract manufacturer) and decided to allow grant of renewal section for sterile Liquid ampoule section with the direction that Registration Board be informed about approval of sterile Liquid ampoule section only. It is pertinent to mention that

hormonal products of M/s OBS Pakistan, Karachi were manufactured by M/s Pharmatec Pakistan by permission vide letter no. F.3-3/2015-Reg-II (M-249) dated 26th August, 2015, i.e., valid for 30-06-2020.

The above stated facts of the case were presented in the 275th meeting of Registration Board. Wherein, it was decided to "issue a show cause notice to M/s OBS Pakistan, Karachi for their hormonal products which were being manufactured by M/s Pharmatec Pakistan (Pvt.) Ltd., Karachi on contract basis."

Accordingly, a show cause was issued to M/s OBS Pakistan (Pvt.) Ltd., Karachi vide letter no. F.3-12/2017-Reg-II (M-275) dated 15.02.2018. Now the firm has submitted the reply which was considered in 280th meeting of registration board. The board considered the reply of the firm and decided to defer the case till decision of Central Licensing Board on application of the firm for contract manufacturing.

Sr. No.	Registration holder	Contract manufacturer	Reg. No.	Name of drug(s) & Composition	Validity of last permission
1.	OBS Pakistan Karachi	M/s Pharmatec Pakistan, Karachi	002444	**Deca – Durabolin 100mg Injection** Each ml amploule contains:- Nandrolone Decanoate … 100mg (As per *Innovator's Specification)	30.06.2020
2.	-do-	-do-	002442	**Deca – Durabolin 25mg Injection** Each ml ampoule contains:- Nandrolone Decanoate …. 25mg (As per *Innovator's Specification)	30.06.2020
3.	-do-	-do-	002443	**Deca – Durabolin 50mg Injection** Each ml ampoule contains:- Nandrolone Decanoate …. 50mg (As per *Innovator's Specification)	30.06.2020
4.	-do-	-do-	002446	**Sustanon 250mg Injection** Each ml contains:- Testosterone Propionate …30mg Testosterone Phenylpropionate…60mg, Testosterone Insocaproate … 60mg Testosterone Decanoate 100mg (As per *Innovator's Specification)	30.06.2020

Then, the firm has submitted applications on Form-5, along with fee of Rs. 50,000/- for each product & other relevant document. M/s. OBS Pakistan (Pvt.) Ltd; and **requested to change the contract manufacturer of above product** from M/s Pharmatec Pakistan, Karachi to M/s. Geofman Pharmaceuticals, 20/23 Main Korangi Industrial Area, Karachi. The case was placed before the Registration Board in its 284th meeting and the board decided as under: -

- **Decision of 284th Meeting:**

  "Registration board deferred the case for confirmation of Liquid Injection (ampoule) Hormone Section from Licensing Division".

Now, the firm has submitted the confirmation from Licensing Division for Injectable (Hormone) Section of M/s. Geofman Pharmaceuticals, 20/23 Main Korangi Industrial Area, Karachi, vide letter No.F.2-11/85-Lic (Pt.) dated 05th March, 2019.

Moreover, the firm has also requested for transfer of Marketing Authorization/ Registration from M/s OBS Pakistan (Pvt.) Ltd, to M/s Aspin Pharma (Pvt.) Ltd, Karachi. In this regard, the firm has also submitted the following documents;

i. Fee of Rs.70,000/- for each product (05-May-2019)

ii. Toll Manufacturing agreement between M/s Aspin & M/s Geofman (02-May-2019)
iii. NOC from M/s OBS Pakistan (Pvt.) Ltd. Karachi for transferring marketing authorization to M/s Aspin Pharma (Pvt.) Ltd, Karachi.
iv. Undertaking from Aspin Pharma that above mentioned formulations are not already registered in their name.

Decision: Registration Board acceded to firm's request for

a) Cancellation of registration of above mentioned products from the name of M/s OBS Pakistan (Pvt.) Ltd. Karachi
b) Grant of registration of above mentioned products in the name of M/s Aspin Pharma (Pvt.) Ltd, Karachi
c) Change of contract manufacturer of above mentioned products from M/s Pharmatec Pakistan (Pvt.) Ltd., S.I.T.E, Karachi to M/s. Geofman Pharmaceuticals, 20/23 Main Korangi Industrial Area, Karachi

Case No.91: Change of Finished Product Specifications/Composition of Registered Drugs by M/s Genix Pharma (Pvt.) Ltd, Karachi.

M/s Genix Pharma (Pvt.) Ltd, 44, 45-K, Korangi Creek Road, Karachi-75190 has requested to change the composition and finished product specifications of their following registered drugs:-

Sr. No	Reg. No.	Name of Drug(s) with existing formulation	Name of Drug(s) with proposed formulation	Proposed Specification
1.	035816 (Last Renewal 01-Dec-14)	Respicare 10mg tablets Each tablet contains: Montelukast Sodium…..10mg	Respicare 10mg tablets Each tablet contains: Montelukast Sodium **equivalent to Montelukast**……..10mg	USP Specification
2.	039039 (Last Renewal 14-May-15)	Respicare 5mg tablets Each tablet contains: Montelukast Sodium…….5mg	Respicare 5mg tablets Each chewable tablet contains: Montelukast Sodium **equivalent to Montelukast** ……..5mg	USP Specification
3.	037534 (Last Renewal 2-Mar-15)	Respicare 4mg Chewable tablets Each tablet contains: Montelukast Sodium…….4mg	Respicare 4mg Chewable tablets Each chewable tablet contains: Montelukast Sodium **equivalent to Montelukast** ……..……4mg	USP Specification

The firm has submitted the following documents;

Sr.#	Requirement as per SOP	Submission
a.	Application with required fee as per relevant SRO.	Rs.5,000/- for each product
b.	Copy of registration letter and last renewal status	Provided
c.	Document in support of proposed change.	Provided

Decision: Registration Board acceded to request of firms for change in finished product specifications of above mentioned products as per pharmacopeia/ official monographs details recorded above.

Case No.95: Change of Registration Status of M/s Le Mendoza Pharmaceuticals (Pvt.) Ltd, Karachi

The title of the firm has been changed from M/s. Chas .A. Mendoza (DML No. 000140) to M/s Le Mendoza Pharmaceuticals (Pvt.) Ltd., Karachi vide letter No.F.6-1/13-Lic (M-232) dated 2nd September, 2013. The firm applied on 26-4-2014 for transfer of registration of following products due to change in Company Name / Title Name from M/s Chas A. Mendoza Karachi to M/s Le Mendoza Pharmaceutical (Pvt.) Ltd Karachi, where the DML and site remains the same and case was considered in the 277th meeting of Registration Board. The Board decided to send letter to the RRR section for verification of Renewal status. Subsequently, firm has applied vide S.R.O. 1005(I)/2017 and submitted three times renewal fee for each product, whose renewal has been expired in previous years.

Sr. No	Reg. No.	Name of product along with composition	Initial Date of Reg.	Fee along with date	Remarks	Renewal validity till
1.	067028	Essocam 20mg Capsules Each capsule contains:- Esomeprazole enteric coated pellets eq to Esomeprazole .20mg	12/11/2010	(Due date: 11-11-2015) Rs.30,000/- 04-12-2017	Differential fee for renewal submitted.	11-11-2020
2.	067029	Essocam 40mg Capsules Each capsule contains:- Esomeprazole enteric coated pellets eq to Esomeprazole .40mg	12/11/2010	(Due date: 11-11-2015) Rs.30,000/- 04-12-2017	Differential fee for renewal submitted.	11-11-2020

The Registration Board in its 277th meeting deferred the above products for submission of legalized source of Esomeprazole respectively and differential fee. Now, the firm has requested that they have already approved source of pellets for above products i.e. "M/s. Goldfish Pharma Pvt. Ltd. # 5-5/328, Opp. NCS Complex Prashanth Nagar, Hyderabad, India and the same is mentioned in registration letter. They have further stated that they had deposited three time fee for renewal of the above products and requested to change the registration status of above products from previous name to new name of the firm.

Decision of the 284th meeting:-

Registration Board approved change in registration status of above products from M/s. Chas .A. Mendoza, Karachi (DML No. 000140) to M/s. Le Mendoza Pharmaceuticals (Pvt.) Ltd., Karachi (DML No. 000140). However, the Board authorized chairman to issue approval letter after submission of legalized GMP certificate for the source of pellets i.e. "M/s. Goldfish Pharma Pvt. Ltd. # 5-5/328, Opp. NCS Complex Prashanth Nagar, Hyderabad, India.

Request of the firm:-

Now the firm has requested that approval letter for change of title from M/s. Chas .A. Mendoza (DML No. 000140) to M/s Le Mendoza Pharmaceuticals (Pvt.) Ltd., Karachi may be issued in respect of above stated drugs with new source of Pellets (M/s Vision Pharmaceutical (Pvt.) Ltd, Islamabad) as they have already furnished all required documents of new source i.e. M/s Vision Pharmaceutical (Pvt.) Ltd, Islamabad.

The firm has submitted the following documents;

i. Fees of Rs. 20,000/- for each product.
ii. Stability data.
iii. cGMP of M/s Vision Pharmaceuticals, Islamabad (26-January-2018)

Decision: Registration Board acceded to request of firm for change in title of manufacturer from M/s. Chas .A. Mendoza, Karachi to M/s. Le Mendoza Pharmaceuticals (Pvt.) Ltd., Karachi and approved source of pellets i.e M/s Vision Pharmaceutical (Pvt.) Ltd, Islamabad

Case No. 96: Request For Change in Registration Status of Products From M/s. High-Q International, Karachi To M/s. High-Q Pharmaceuticals, Karachi.

4	010454	Nimotop Tablets Each vial contains:- Nimodipine …..0.01g	Manufactured By: Bayer Pharma AG, Leverkusen, 51368, Germany Product License Holder: Bayer Vital GmbH, 51368, Leverkusen, Germany Packed By: Bayer Pakistan (Pvt) Ltd, C-21.	Manufactured by: Bayer AG, Kaiser-Wilhelm-Allee 51368, Leverkusen, Germany. Product License Holder: No Change Packed By:	Original Legalized CoPP from Germany

			S.I.T.E, Karachi	No Change	

The firm has submitted following documents:

1. Fee of Rs. 5,000/- for each product.
2. Copy of initial registration letter and renewal submissions.

.

Decision: Registration Board acceded to firm's request for change in title of manufacturer of above mentioned products from Bayer Pharma AG, Leverkusen, 51368, Germany to Bayer AG, Kaiser-Wilhelm-Allee 51368, Leverkusen, Germany (manufacturing site remains same)

Case No. 98: Standard Operating Procedures for Approval of Post-Registration Variations.

Registration Board in 283rd meeting considered and approved revised SOPs for processing of post registration variations. In SOP's of following post registration variations "Form-5/ Form5-A" is required:

Sr. No	Post Registration Variation wherein Form5/Form 5A is required	Description
1.	Registration of Product from One Manufacturer to another Manufacturer with Change in Manufacturing Site.	For locally manufactured products
2.	Registration of Product after Change in Name / Title of Manufacturer (Site of Manufacturing Remains the Same)	
3.	Change of Address of Manufacturing Site/Source/Marketing Authorization Holder (MAH).	For imported products
4.	Change in Shelf Life.	
5.	Registration of Product from One importer to another Importer	

Since applications on CTD format have been implemented from now and onward hence opinion is being solicited from Registration Board whether application on CTD shall be required for processing such cases or any further direction as the Board may deem appropriate.

Decision: The case was deferred for futher deliberation.

Case No.99. Applications referred by 27TH PRVC for export registration

Following applications were considered in 27th PRVC (held on 25-04-2019) and referred to Registration
Board, as per details below

1) Registration of Drug(s) of M/s Wilshire Pvt Ltd Lahore for Export purpose.

Sr.#	Name of Drug(s)	Generic/RRA Status	Diary No. date & Remarks.

13.	M /s. CCL Pharmaceuticals (Pvt) Ltd, Lahore	Ccldiolin tablet 5mg Each film coated tablet contains:- Linagliptin……..5mg	Dated 21.03.2018 **Rs 20,000**/-	Considered in 287th meeting Deferred product for further deliberation.

Decision: **The case was discussed on 2nd day of the meeting and Registration Board approved above mentioned formulations of firms for export registration, in the light of decision of Registration Board in 288th meeting except product of M/s CCl pharmaceuticals, Lahore at Sr. No. 13 for differential fee of Rs 30,000/-. Later on (3rd day), Mr.Ghulam Mujtaba, representative of IPO shared following note of dissent:**

"The Linagliptin is a patented drug and at present, its patent(s) is/are valid and enforced in Pakistan under section 30 and 31 of the Patents Ordinance, 2000. All the commercialization rights including exporting of a patented product is only confreres to patentee under the law. The Honorable Sindh High Court has also confirmed these rights specifically in this particular case of enforcement of patent of Linagliptin. Despite, the clear legal binding confirmed by the High Court, the registration of Linagliptin to third parties were approved by the Chairman Drug Registration Board in 27th Post Registration Variation Committee (PRVC) meeting held on 25/04/2019 and the Registration Board in 289th meeting of the Board.
IPO Pakistan completely disagree with the decision of registration of Linagliptin for export purpose listed as Case No.02 and Case No.03 (page no. 1746 to 1748) of the Agenda of 289th meeting of the Drug Registration Board and PRVC. The enforcement of patent right is a binding on Pakistan in lieu of international agreement to which Pakistan is signatory including Paris convention and WTO's TRIPS agreement. The violation of international obligation will create a huge problem for the trade of this country and may invite trade barriers. Therefore, matter may be taken seriously and with due care. The registration of a valid patented drug i.e. Linagliptin by the Board to unauthorized parties is clear violation

of section 30 of the Patents Ordinance 2000 and the Sindh High Court's decision in matter of Patent No. 141311, 141044 and 141068."

Registration Board decided to forward complete case to Legal Affair Division to seek the opinion for consideration of Registration Board.

Case No.101: Information regarding Registration of Linagliptin for export purpose.

Following applications were considered by chairman Registration Board in 27th Post Registration Variation committee (PRVC), held on 25-04-2019 and approved for registration in the light of discussion and deliberation of Registration Board in 288th meeting. Accordingly registration has been granted for export purpose:

S.No	Name of firm	Product name and composition	Application details	Remarks
1.	M/s Medisure Laboratories Pakistan (Pvt) Ltd, Karachi	**Medjenta tablet** Each film coated tablet contains: Linagliptin.....5mg	Dy. No.461 /2019-PE&R-(EFD) 22.03.2019. Form 5-D with	**Approved**
2.	M/s Genix Pharma Pvt Ltd. 44, 45-B, Korangi Creek Road, karachi	**Empalin Tablets** Each film coated tablet contains: Empagliflozin.....25mg Linagliptin.....5mg	Dy. No.503 /2019-PE&R-(EFD) 16.04.2019; Form5D; Rs.50, 000/- dated 08.04.2019	**Approved**
3.	M/s Genix Pharma Pvt Ltd. 44, 45-B, Korangi Creek Road, karachi	**Empalin Tablets** Each film coated tablet contains: Empagliflozin.....10mg Linagliptin.....5mg	Dy. No.504 /2019-PE&R-(EFD) 16.04.2019; Form5D; Rs.50, 000/- dated 08.04.2019	**Approved**

Decision: Registration Board noted the information. However, keeping in view opion of Mr.Ghulam Mujtaba, representative of IPO in above case, the Board decided to forward complete case to Legal Affair Division to seek the opinion for consideration of Registration Board

Case No. 102: Deferred case of 17th PRVC and 24th PRVC.

Registration of Drugs of M/s. Martin Dow Marker Ltd. (Formerly Merck Pvt Ltd) 7, Jail Road, Quetta, Pakistan for Export purpose.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Sr.#	Name of Drug(s)	Generic/RRA Status	Diary No. Fee with date	Remarks
I	**II**	**III**	**IV**	**V**
1.	**Wintogeno Cream** Each gram contains: Methyl Salicylate…12.5% w/w Menthol ……2.5%	Iodex By M/s GSK Pain Gay by M/s Marvi Pharmaceuticals	Dy No.79-PE&R-(EFD) 07.11.2018 Rs.20,000/-	Provided Generic status could not be verified. Iodex By M/s GSK: Iodine 4% + Methyl Salicylate 5% Pain Gay by M/s Marvi (Menthol 10% + Methyl salicylate 15%)

				Wintogeno Balm by M/s Martin Dow: Eucalypto 0.11% + Menthol 2.6% + Methyl Salicylate 12.17% + Thymol 0.11%

Decision of 17th PRVC: - The Committee evaluated and recommended the case in the light of SOPs approved by the Registration Board. Request of firm for registration of above mentioned product at sr. no. 01 for export purpose has been deferred by the Chairman Registration Board for following reason:

i *Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm. In case of new molecule, submission of application on form 5D along with differential fee of Rs.30,000/-*

ii *Requisite documents including evidence of approved section, status of DML & undertakings in the light of SOPs approved for export registrations vide 283rd meeting of Drugs Registration Board.*

Later on firm provided evidence of approval in importing country i.e Sri Lanka and submitted following documents:

Sr.#	**Requirements As Per SOP**	**Submitted documents (Ref. File.No.1-3/2019-Pt-I-EFD-DRAP)**
1.	Application with requisite fee.	Form 5-D alongwith PKR 30,000/- fee.
2.	Copy of GMP inspection	GMP inspection report dated 29-01-18.
3.	Copy of DML & Approval of section by CLB.	Copy of DML dated 02-12-2014 Approval of relevant section verified from letter of licensing division No. F.2-6/86-Lic. (Vol-V)
4.	Undertaking for export only purpose.	Provided
5.	Registration status in RRAs or importing country.	Firm submitted copy of registration approval in the importing country i.e., Sri Lanka.

The case was reconsidered in 24th PRVC and decided as follows:

Decision: - The Committee evaluated and recommended the case in the light of SOPs approved by the Registration Board. Chairman Registration Board has referred the request of firm to the Registration Board.

Decision: Since applied formulation is approved in importing country i.e Sri Lanka hence Registration Board approved above mentioned product of M/s. Martin Dow Marker Ltd for export registration.

Case No.103: Change of Brand Name for the product of M/s. CCL Pharmaceuticals (Private) Limited, Lahore.

M/s. CCL Pharmaceuticals (Private) Limited, Lahore has requested for change of brand name of following products as per details below:-

S. No.	Reg. No.	Existing Brand Name	Proposed Brand Name	Justification/ Reasons	Decision in 278th Meeting of Registration Board
1.	025410	Once A Day Tablet Each Tablet contains:- Vitamin A (as acetate and betacarotene)……10mg Vitamin B1 ……...1.5mg Niacin.....20mg Vitamin E …….....30mg Folic Acid…….0.4mg Biotin…….....30mcg Iron.....18mg Phosphorus ……....100mg Magnesium ……100mg Zinc ……..15mg Selenium ……..10mcg Manganese……...2.5mg Chloride ……34mg Vitamin C …….60mg Vitamin B2 ……1.7mg Vitamin D…….10mcg Vitamin B6.....2mg Vitamin B12.....6mcg Pantothenic acid ……..…10mg Calcium ……..130mg Iodine ……..…..150mcg Copper ……2mg Chromium ……10mcg Molybdenum ……10mcg Potassium ……....37.5mg	Once A Day Maximum Tablet	As per marketing requirement.	*Since the proposed brand name contains adjective property hence Registration Board deferred the request of M/s. CCL Pharmaceuticals (Private) Limited, Lahore and advised firm to propose alternate brand name.*

Following documents have been submitted by the firm as per SOP approved by the Registration Board in its 283rd meeting for the purpose of change of brand name for above product:

S. No.	Required documents
a	Application with required fee as per relevant SRO (in case of similarity / resemblance with already registered drug, fee will not be required)
b	Copy of registration letters and renewal status.
d	Justification for proposed change
e	Information regarding previous change of brand name since registration of drugs.
f	Details (batch number, date of manufacture, quantity and stock position) regarding last batch manufactured.
g	i. An undertaking that the proposed names do not resemble with already registered brands. In case of resemblance/similarity with already registered drugs, the applicant will be liable to change immediately. Moreover, no case is pending at any forum / court of law regarding this matter. ii. Undertaking that the provided information/ documents are true/ correct.

Now the firm has proposed following name for the instant product
"Oadmax Tablet"

Decision: Registration Board approved the change in brand name of above product from Once A Day to "Oadmax".

The provided information/ documents are true/ correct**.**

Decision: Registration Board deferred the case as the evidence of approval of the applied formulation could not be confirmed from RRAs.

Case No. 106: Transfer of Registration from Import to Local manufacturing product of M/s. Himont Pharmaceuticals (Pvt.) Ltd, Lahore.

M/s. Himont Pharmaceuticals (Pvt.) Ltd, Lahore has requested for transfer of registration from import to local manufacturing of registered product as per detailed below:-

Sr. No	Reg. No	Name of product & formulation	Decision of 287th RB	Remarks
1.	023668	Gliatilin 1000 injection Each 4ml ampoule contains:- Choline Alfoscerate …….1000mg Manufactured by M/s. Italfarmaco S.P.A. Itlay Approved in Italy (AIFA) New proposed brand names:- 1. Hilatin 2. Neurotin 3. Neulotin	Registration board deferred request of M/s. Himont Pharmaceuticals (Pvt.) Limited Lahore **for latest NOC from Exporter**.	Now the firm submitted latest NOC from Manufacturer by M/s. Italfarmaco S.P.A. Itlay stating that we have no objection of whatever regarding Himont Pharmaceuticals (Pvt.) Limited, undertaking local production of Choline Alfoscerate Injections and soft Gel capsule **as long as they do not use our brand name i.e. Gliatilin**

Decision of 288th Meeting:
Registration Board deferred the case for evaluation of dossier.

The firm has submitted following documents:-
i. Copy of application with Rs.42000/- (**copy** challan) submitted on 10.02.2015 and **copy** Rs.20000/- dated 17.12.2012.
ii. Copy of registration letter for import dated 29.08.1999.
iii. Copy of Form-5
iv. Copy of GMP inspection report dated 4th and 5th October, 2018
v. NOC from M/s Italfarmaco S.P.A Italy dated **28-01-2019**
vi. Evidence for section approval

Decision: Registration Board approved transfer of registration of the above product from import to local manufacturer i.e. M/s. Himont Pharmaceuticals, Lahore. Firm shall propose alternate brand name as present name is not authorized by manufacturer / marketing authorization holder. Fee shall be verified as per procedure adopted by Registration Board.

Miscellaneous Cases

i. Cases deferred in 286th meeting of Registration Board.

a. Renewal application of M/s Marvi Pharmaceuticals Pvt Limited Karachi of Pain Gay Ointment (012777)

It is submitted that M/s. Marvi Pharmaceuticals had applied for renewal of registration of year 2015 for their following product vide SRO 1005(I)/2017 dated 05th October, 2017. Details of products are as under:

Reg. No	Brand Name & Composition	Date of registration as per Form-5B
012777	Pain Gay Ointment Each gm contains: Methyl salicylate ……150mg Menthol….100	15-12-1992

The Firm was advised to submit the evidence of initial registration letter and post registration variation (if any) for further proceeding the case. In the reply firm submitted only the evidence of renewal of year 2010, however the firm was again requested for submission of initial registration letter. The firm informed that they were granted the registration of Pain Gay Ointment containing Methyl Salicylate 150mg + Menthol 100mg, Registration No. 012777 vide approval letter No. F.3-6/91-Reg-II (M-94) dated 04th August, 1991.Since then they are marketing this product in whole country and export to other countries as well. Furthermore they have also taken Trade Mark Registration of their brand PainGay from the Trade Marks Registry, Government of Pakistan Karachi.

The firm further informed d that due to ill health followed by demise of one of their Director Mr. Nadir Fazwani, several documents were stolen or misplaced/lost which also include registration letters issued to them by Ministry of Health. Due to the reason they fail to apply renewal within due time.

Recently Drug Regulatory Authority of Pakistan's decision /policy vide SRO 1005(I)/2017 dated 5th October, 2017 regarding renewal of registration of products applied after stipulated time. Accordingly we have applied for renewal of Pain Gay Ointment (Reg.No. 012777) along with 3 time applicable fee i.e. Rs.30, 000/- .The firm also stated that that they had already applied for issuance of duplicate registration letter of subject product and applied in concerned section.

It is submitted that aforementioned product is included in the formulary and according to it Pain Gay Ointment was registered in the name of M/s. Marvi Pharmaceuticals Pvt Limited Karachi with the Registration No.012777 and formulation is mentioned as METHYL SALICYCILATE 15gm +MENTHOL 10gm.However initial registration date is not mentioned in the said formulary which is the date as provided by the firm in Form 5B with renewal application.

The above case was discussed in the 288th meeting of Registration Board wherein the board decided as under:

"Registration Board deferred the case for the submission of copy of FIR related to documents stolen/misplaced/lost for onward consideration of case"

The firm has now submitted the copy of daily dairy record of concerned Police Station regarding the report of stolen/ misplaced/ lost registration letter. Submitted for consideration please.

Decision: Registration Board deferred the above case for opinion of Legal Affairs Division.

b. M/s Trigon Pharmaceuticals Pvt Limited Lahore.

Sr. No.	Reg. No.	Product Name	Initial date of Registration	Application Receiving date
1.	047757	Pantagon Injection IM/IV Each 1ml contains:- Pentazocine (as Lactate) … 30mg	25-10-2007	**Due date (24-10-2017)** Fee of Rs.10,000/- deposited on 25-10-2017. As application received within 60 days after expiry of Reg. Remaining Fee of Rs.10,000/- deposited on 23-04-2018.
2.	047758	Bubrifen Injection Each ml contains:- Buprenorphen (as HCl) … 0.3mg	Do	Do

The above products were considered in the 286th meeting of Registration Board wherein the Board decided as under:

"Registration Board deferred the case for the confirmation of status of License from Licensing Division"

It is submitted that CLB in its 267th meeting after decision of PQCB decided that no further action is warranted. The decision of PQCB is as under:

The Board after considering the inspection report , due deliberation and discussion decoded to allow M/s Trigon Pharmaceuticals Pvt Limited Lahore to resume production operations in Cephalosporin dry Powder injection, Psychotropic Injectable , Steroidal Injections and General liquid Injections (vials, ampoules), strictly in accordance with law.

Decision: Registration Board acceded to the request of firm and decided to grant renewal w.e.f. 25-10-2017 to 24-10-2022.

ii. Cases referred by other Sections/ Divisions.

a. **Transfer of Registration from M/s The Searle Company Limited Karachi to M/s ICI Pakistan Limited Karachi**.

Reg-I section has informed that M/s ICI Pakistan Limited Karachi has requested for change of registration status of following products from M/s The Searle Company Limited Karachi to their name. Details are as under:

Sr. No.	Reg. No.	Brand name & composition
1.	001318	Ketress tablet 40mg Each tablet contains: Levamisole HCL BP 47.2mg Eq. to 40mg as Levamisole
2.	001317	Ketress Syrup Each 5ml contains: Levamisole 40mg(as HCl 47.2mg)

After securitization of the documents, following are the observations:

i. The product was registered in the name of M/s Serale Pakistan Pvt Limited Karachi on 12-12-1991vide letter No. F.3-9/91-Reg-II (M-97). However the change brand name was granted in name of M/s ICI Pakistan Limited Karachi on 23-11-2002 vide letter No. F-6-11/ 2002 –Reg-II.
ii. The renewal from 2007-2012 was again granted in name of M/s Searle Pakistan Limited Karachi on dated 16-11-2007. Moreover the renewal for the year 2012 and 2017 was also submitted by M/s Searle Pakistan Karachi.
iii. The title of the firm was changed from M/s Serale Pakistan Pvt Limited Karachi to The Searle Company Limited Karachi by the Licensing Division on 29-8-2013, however the transfer letter in new name has not been submitted by the firm.

Decision: Registration Board deferred the above case for opinion of Legal Affairs Division.

Type of Form Dy No & Date of application, Fee submitted	Form 5-A dated 26-6-2018 R&I Dy.No.23590 dated 09-07-2018. Rs.100,000/- dated 05-07-2018.
Demanded Price/ Pack size	4USD per 20 dose vial/ 2mL vial of 20 Doses
General documentation	Legalized CoPP No. MB/07/632/WHO GMP/18-19 valid upto 25thSeptember, 2020.
Decision of Registration Board	*Registration Board deferred the case for submission of following by the firm:* *a. Real time stability data of 24 months.* *b. Clarification regarding manufacturer's specifications mentioned in form-5A while product is available in BP.*
Remarks of Evaluator (**Khurram Khalid AD**)	The firm has submitted a. The required stability data for 24 months. b. Demanded BP specifications WHO PQ Status: https://extranet.who.int/gavi/PQ_Web/PreviewVaccine.aspx?nav=0&ID=335
Decision: Keeping in view WHO Prequalification and legalized CoPP indicating productavailability in country of origin; Registration Board approved the product subject to compliance ofcurrent Import policy for finished drugs.	

4. Information regarding withdrawal of "*application for registration of Lartruvo 500mg/50ml (10mg/ml) Concentrate for solution for infusion*" applied by M/s Eli Lilly Pakistan (Private) Limited, Karachi:

Following products of M/s Eli Lilly Pakistan (Private) Limited, Karachi were approved in 275th meeting of Registration Board as per following details:

Name of Manufacturer	**Brand Name & Composition**	**Document details (CoPP)**	**Decision of RB in 275th meeting**
Product License Holder: M/s Eli Lilly Nederland B.V., Papendorpseweg 83, 3528 BJ Utrecht, The Netherlands.	Lartruvo 500mg/50ml (10mg/ml) Concentrate for	Legalized CoPP No 02/17/111515 issued on 04-08-	*Keeping in view valid legalized CoPP and approval of European Medicine Agency (EMA)*

Name of Manufacturer: M/s Eli Lilly and company, Lilly Corporate Center, Indianapolis, Indiana 46285, USA **Site responsible for batch release in the EU, quality control and secondry packaging:** M/s Lilliy S.A., Avda. De la Industria 30, Alcobendas, 28108 Madrid, Spain. **Site responsible for quality control:** M/s ImClone Systems LLC, 33 ImClone Drive, Branchburg, NJ 08876, USA.	solution for infusion Each ml of concentrate for solution for infusion contains: Olaratumab…10mg Shelf Life: 2 years at 2-8^{o}C.	2017.	*(Reference Regulatory Authority); Registration Board approved the product subject to price fixation by the Federal Government and compliance of current Import Policy for Finished Drugs.*

The price of aforementioned product has been fixed vide SRO 1609(I)/2018 dated 31-12-2018 as per following details:

Brand Name & Composition	Pack Size	Approved M.R.P
Lartruvo 500mg/50ml (10mg/ml) Concentrate for solution for infusion Each ml of concentrate for solution for infusion contains: Olaratumab…10mg	50ml Vial x 1's	Rs. 142,820 (originator Brand)

M/s Eli Lilly and Company applied for withdrawing the pending application for Lartruvo (Olartumab) for the treatment of soft tissue sarcoma due to the recently disclosed Phase 3 clinical trial (ANNOUNCE) results. Specifically, ANNOUNCE did not confirm the clinical benefit of Lartruvo in combination with doxorubicin as compared to doxorubicin, a standard of care treatment. The study did not meet the primary end points to prolong survival in the overall population or in the leiomyosarcoma (LMS) sub-population. Lartruvo was well tolerated; there were no new safety signals identified and the safety profile was comparable between treatment arms

Decision: Registration Board deferred the case for confirmation, of status of product registration in other reference regulatory authorities, by the firm.

5. Change in market authorization holder and manufacturer applied by M/s Eli Lilly Pakistan (Private) Limited, Karachi:

M/s Eli Lilly Pakistan (Private) Limited, Karachi applied for the change in market authorization holder and manufacturer of their already registered human biologicals as per following details:

Sr. No.	Reg. No.	Brand Name & Composition	Already approved Market Authorization Holder & Manufacturer	Newly Applied Market Authorization Holder & Manufacturer
1.	089812	Basaglar Solution for injection in Cartridge Each ml contains: Insulin Glargine….100units	M/s Eli Lilly Regional Operations GmbH, kolblgasse 8-10, 1030 vienna, Austria. M/s Lilly France, 2 rue	M/s Eli Lilly Nederland B.V., Papendorpseweg 83, 3528 BJ Utrecht, The Netherlands M/s Eli Lilly Italia S.p.A., Via Gramsci 731-733, 50019 Sesto Fiorentino, (FI),

			du Colonel Lilly, 67640 Fegersheim, France (also responsible for batch release in the EU, quality control, primary and secondary packaging)	Italy.(also responsible for batch release in the EU, quality control, primary and secondary packaging)
2.	089813	Basaglar Solution for injection in prefilled pen (kwikpen) Each ml contains: Insulin Glargine….100units		M/s Eli Lilly Nederland B.V., Papendorpseweg 83, 3528 BJ Utrecht, The Netherlands M/s Eli Lilly Italia S.p.A., Via Gramsci 731-733, 50019 Sesto Fiorentino, (FI), Italy (also responsible for batch release in the EU, quality control& primary packaging) & M/s Lilly France, 2 rue du Colonel Lilly, 67640 Fegersheim, France (Site responsible for batch release in the EU, quality controland secondary packaging)

The firm has submitted the following documents for each product:

a. Application on Form-5A.
b. Fee Challan of Rs. 100000/- for each product
c. Copies of Initial registration letters dated 25-05-2018.
d. Valid legalized CoPPs vide no. 01/19/129645 and 01/19/129646 dated 31-08-2018 for cartridge and kwikpen respectively.
e. A declaration that no sole agency agreement between Eli Lilly to Eli Lilly.
f. A declaration that no contract between Eli Lilly Netherlands and Eli Lilly Italy.
g. An undertaking that the provided information/ documents are true/ correct to the best of their knowledge.

The applications of the firm have been evaluated as per SOPs established in 283rd meeting of Registration Board. The firm has submitted same accelerated and long-term stability data for *Basaglar Cartridge & Kwikpen* and clarified as under;

'The accelerated stability data already provided refer to the product packaged in its primary container closure system. The purpose of accelerated studies is to determine a stress that simulates the entire validity period of the product from a chemical degradation point of view. Since the secondary packaging, and in the same way the pen, is not designed to protect the product, the accelerated studies on nude cartridges are representative of the product packaged both in blister and in KwikPen.

Concerning long-term studies, according to module 3.2.R.3 Medical Device – Prefilled Pen – Injector, paragraph III. Drug Stability, the stability of the drug product has been established in the primary container closure system (the cartridge) therefore long-term data already provided are representative also for the KwikPen.'

Decision: Keeping in view the approval of EMA (Reference Regulatory Authority); Registration Board approved the change in market authorization holder and manufacturer as per following details:

Sr. No.	Reg. No.	Brand Name & Composition	Already approved Market Authorization Holder & Manufacturer	Newly Approved Market Authorization Holder & Manufacturer
1.	**089812**	**Basaglar 100units Cartridge**	**M.A. holder: M/s Eli Lilly Regional Operations**	**Market AuthorizationHolder: M/s Eli Lilly Nederland B.V., Papendorpseweg 83, 3528 BJ Utrecht, The Netherlands**

			GmbH, kolblgasse 8-10, 1030 vienna, Austria. **Manufacturer:** **M/s Lilly France, 2 rue du Colonel Lilly, 67640 Fegersheim, France (also responsible for batch release in the EU, quality control, primary and secondary packaging)**	**Manufacturing Site:** **M/s Eli Lilly Italia S.p.A., Via Gramsci 731-733, 50019 Sesto Fiorentino, (FI), Italy.(also responsible for batch release in the EU, quality control, primary and secondary packaging)**
2.	**089813**	**Basaglar 100units Kwikpen**		**Market Authorization Holder:** **M/s Eli Lilly Nederland B.V., Papendorpseweg 83, 3528 BJ Utrecht, The Netherlands** **Manufacturing and Primary Packaging Site:** **M/s Eli Lilly Italia S.p.A., Via Gramsci 731-733, 50019 Sesto Fiorentino, (FI), Italy (also responsible for primary packaging)** **Secondary Packaging & Batch Release Site:** **M/s Lilly France, 2 rue du Colonel Lilly, 67640 Fegersheim, France**

6. Applications of M/s Huzaifa International, Sargodha deferred in various meeting of Registration Board.

Following product of M/s Huzaifa International, Sargodha were deferred in 266th meeting of Registration Board for the expert opinion of Dr.Qurban Ali. The detail of the product as under:

Manufacturer	Brand Name & Composition	Type of Form Dy No & Date of application Fee submitted Pack size/ Demanded Price	Document details (CoPP) Me too status/New molecule	Decision
Komipharm International Co., Ltd. 17, Gyeongje-Ro, Siheung-Si, Gyeonggi-Do, The republic of Korea	PRO-VAC™ FP (lyophilized part) Each dose (0.5ml) contains: TCH Fowl Pox Virus Culture……50% SPGG…….50% (Diluent) Each 1000 ml contains: Nacl....8g KCl....0.2g Na_2HPO_4. $2H_2O$....2.6g KH_2PO_4....0.2g Phenol red...q.s. Distilled water....up to 1000ml	Form 5-A 118-ADC(BD) 06-12-2016 1495 30-11-2016 Rs. 100000/-24-10-2016 Pack: 1's (1000doses) Diluent 10ml vial	Legalized GMP Legalized Free Sale The diluent is also a part of pack composition; the firm has submitted Rs. 100000/- fee for the registration of diluent.	Deferred for evaluation of strain by Dr. Qurban Ali, Member Registration Board.

The expert opinion of Dr.Qurban Ali, Member Registration Board has been received and he has recommended the product for registration and use for protection and prophylaxis against FPV. .The expert opinion is reproduced as under:

"Kindly refer 266th Meeting of Registration Board on the subject noted above and please find below technical comments on the subject cited [PRO-VAC™FP(lyophilized part) TCH Fowl Pox], as follows:

Poxvirus diseases of poultry and other domestic birds have significant economic impact worldwide with losses resulting in the form of drop in egg production in layers, reduced growth rates in broilers, and in some cases death. The FPV is double-stranded DNA (260 to 309 kbp)

virus and infects chicken turkeys and other birds. Two forms of disease are associated with different routes of infection. The most common is the cutaneous form and the second diphtheric form. Prognosis with the second form of the disease is poor because lesions often cause death by asphyxiation. Vaccination programs in poultry and other birds vary widely, depending on several maternal immunity, vaccines available, costs and potential losses). Vaccination with live attenuated and non-attenuate viruses is used to control this disease.

The under consideration vaccine product is PRO-VAC^{TM}FP (lyophilized part) Fowl Pox(TCH strain). The strain is already registered in combination (AE+FP) from the same manufacturer. The PRO-VAC^{TM}FP is a product from Animal Health Division Komipharm, S.Korea and is recommended for registration and use for protection and prophylaxis against FPV."

Decision: **Keeping in view recommendation of veterinary expert, valid legalized GMP and valid legalized FSC indicating productavailability in country of origin; Registration Board approved the product subject to compliance ofcurrent Import policy for finished drugs.**

7. Change of address of manufacturing site without change in location of already registered human biologicals applied by M/s RG Pharmaceutica (Pvt.) Ltd., Karachi.

M/s RG Pharmaceutica (Pvt.) Ltd., Karachi applied for the change in address of manufacturer of following registered biologicals without any change in actual manufacturing site as per following details:

Sr. No.	Reg. No.& Date	Brand Name & Composition	Already Approved Manufacturing site	Newly Applied Manufacturing site
1.	070928 11-06-2011	Ferti M Injectable Each vial contains: Menotropin (HMG)……75IU	M/s Livzon (Group) Pharmaceutical Factory, No. 38, Chuangye Road North, Liangang Industrial Zone, Zhuai, Guandong, China	M/s Livzon (Group) Pharmaceutical Factory, No. 38, Chuangye Road North, Jinwan District, Zhuai, Guangdong, China
2.	070929 11-06-2011	Ferti M Injectable Each vial contains: Menotropin (HMG)……150IU		
3.	070930 11-06-2011	Ferti C Injectable Each vial contains: Human Chorionic Gonadotrophin(HCG)…1000IU		
4.	070931 11-06-2011	Ferti C Injectable Each vial contains: Human Chorionic Gonadotrophin(HCG)…5000IU		

The firm has submitted the following documents:

a. Fee Challan of Rs. 5000/- for each product
b. Copy of copy of last renewal submissions.
c. Copy of approval letter of manufacturing site change for products at sr. no. 1-4 of above table dated 14-09-2018
d. Valid legalized GMP certificate No. GD20170764 dated 04-12-2017 valid till 03-12-2022 of new manufacturing address

e. Valid legalized CoPPs No. ZH18-031, ZH18-032, ZH18-033, & ZH18-034 dated 01-11-2018 for Ferti-M Injection 75IU, Ferti-M Injection 150IU, Ferti-C Injection 1000IU and Ferti-C Injection 5000IU respectively issued by Zhuai FDA.
f. Valid legalized approval of Drug Supplementry application dated 30-11-2015 issued by Guangdong FDA indicating that the address is changed without any change in the actual manufacturing site.

The last renewal application submissions have been verified from R&I section of DRAP and the firm has submitted the yellow copies of fee challans.

Decision: **Keeping in view the valid legalized CoPPs and approval of country of origin; Registration Board approved the change in manufacturing site address from M/s Livzon (Group) Pharmaceutical Factory, No. 38, Chuangye Road North, Liangang Industrial Zone, Zhuai, Guandong, China to M/s Livzon (Group) Pharmaceutical Factory, No. 38, Chuangye Road North, Jinwan District, Zhuai, Guangdong, China without change in the actual manufacturing site of Ferti M 75IU (Reg. No. 070928), Ferti M 150IU (Reg. No. 070929), Ferti C 1000IU (Reg. No. 070930) and Ferti C 5000IU (Reg. No. 070931).**

8. Change of manufacturing site of already registered Solvent Isotonic for Ferti-C and Ferti-M Injections applied by M/s RG Pharmaceutica (Pvt.) Ltd., Karachi.

M/s RG Pharmaceutica (Pvt.) Ltd., Karachi applied for the change in manufacturing site of Solvent Isotonic for Ferti-C and Ferti-M Injections as per following details:

Sr. No.	Reg. No.& Date	Brand Name & Composition	Already Approved Manufacturing site	Newly Applied Manufacturing site
5.	070993 22-06-2011	Solvent- Isotonic for Ferti-C &Ferti-M Injections Each 2ml vial contains: Sodium Chloride……..19.35mg	M/s Livzon (Group) Pharmaceutical, Zhuai, Guandong, P.R. China	M/s Livzon (Group) Pharmaceutical Factory, No. 38, Chuangye Road North, Jinwan District, Zhuai, Guangdong, China

The firm has submitted the following documents:

a. Application on form-5A
b. Fee Challan of Rs. 100000/-
c. Copy of copy of last renewal submissions.
d. Valid legalized GMP certificate No. GD20170764 dated 04-12-2017 valid till 03-12-2022 of new manufacturing address
e. Valid legalized CoPPs No. ZH18-031, ZH18-032, ZH18-033, & ZH18-034 dated 01-11-2018 for Ferti-M Injection 75IU, Ferti-M Injection 150IU, Ferti-C Injection 1000IU and Ferti-C Injection 5000IU respectively issued by Zhuai FDA indicating saud diluent.

In this context, it is submitted that the firm initially applied for change in manufacturing site of lyophilized Ferti-C and Ferti-M injections from M/s Livzon (Group) Pharmaceutical, Zhuai, Guangdong, P.R. China to M/s Livzon (Group) PharmaceuticalFactory, No.38, ChuangyeRoadNorth, Liangang Industrial Zone,Zhuhai, Guangdong, China. Accordingly, the approval was granted and letter was issued after inspection of manufacturer abroad and now the firm has applied for change in address of manufacturer of these lyophilized injections without any change in actual manufacturing site. The firm submitted that they did not applied for the change in manufacturing site of this Solvent Isotonic and hence did not get the approval. Now, the firm has applied for change in manufacturing site with new address of site.Moreover, the

firm submitted that there is typographical error in initial registration letter of solvent regarding the name and composition as per following details:

Incorrect Brand Name & Composition	Correct Brand Name & Composition
Solvent- Isotonic for Ferti-C &Ferti-M Injections Each 2ml vial contains: Sodium Chloride…….. …..19.35mg	Sodium Chloride Injection Each 2ml vial contains: Sodium Chloride…….. …..18mg

The last renewal application submission has been verified from R&I section of DRAP and the firm has submitted the yellow copy of fee challan.

Decision: **Keeping in view the valid legalized CoPPs and the fact that solvent will be imported in combo pack; Registration Board approved the change in manufacturing site from M/s Livzon (Group) Pharmaceutical, Zhuai, Guandong, P.R. China to M/s Livzon (Group) Pharmaceutical Factory, No. 38, Chuangye Road North, Jinwan District, Zhuai, Guangdong, China for Solvent- Isotonic for Ferti-C &Ferti-M Injections (Reg. No. 070993) subject to compliance of current Import Policy for finished drugs. Registration Board also approved the correction in initial registration letter as per following details:**

Reg. No.	Incorrect Brand Name & Composition	Correct Brand Name & Composition
070993	**Solvent- Isotonic for Ferti-C &Ferti-M Injections** **Each 2ml vial contains:** **Sodium Chloride…….. …..19.35mg**	**Sodium Chloride Injection** **Each 2ml vial contains:** **Sodium Chloride……..……..18mg**

9. Imported Veterinary Biologicals applied by M/s Saadat International, Lahore deferred in 274th meeting.

Following product of M/s Saadat International, Lahore was deferred in 274th meeting of Registration Board as per following details:

Name of Importer	**M/s Saadat International,** **117-Habitat Appartments, Shadman-II, Jail Road, Lahore.**
DSL Details	License No. 21-A/DGBT/11/2014 valid till 19-06-2018
Name of Manufacturer	M/s Merial, Inc 1168 Airport parkway, SW Gainesville, GA 30501 USA.
Brand Name	PREVEXXION RN Marek's Disease Vaccine, Serotype 1, Live Herpesvirus Chimera
Composition	Frozen form: Each of vaccine contains the following through expiration: Marek's disease virus, serotype 1, RN1250 strain, at least……952 pfu Calf Serum……15% *DMSO/ Freezing Solution……..7.5% Freezing media…… q.s to 1 dose *DMSO: Dimethylsulfoxide
Finished product specifications	Manufacturer Specs (USDA 9CFR)
Pharmacological Group	Veterinary Vaccine
Shelf life	18 months
Approval status in reference countries	United States of America
Products already registered in Pakistan	Not Available
Type of Form	Form-5A

Dy No & Date of application Fee submitted	Dy. No. 9974 (R&I)Dated 25-07-2017 Rs. 100000/- Dated 25-07-2017
Pack size	2000doses, glass ampoule
General documentation	Legalized GMP certificate no. 1701355 dated 10-04-2017 Valid legalized Certificate of Licensing and Inspection No. 1701344 dated 10-04-2017
International Availability	United States of America
Decision of RB in 274th meeting	*Registration Board deferred the application for evaluation by Dr. Qurban Ali regarding strain relevance in Pakistan*

The letter for expert opinion was issued on 08-03-2018 and Dr. Qurban Ali has provided the expert opinion on 22-02-2019 as per following details:

Evaluation:

Marek's Disease (MD) is a highly prevalent and important lympho-proliferative disease of chickens. It is controlled in commercial chickens by live virus vaccines consisting of attenuated or naturally avirulent MD-related herpes viruses. Although vaccination programs have been considered effective overall, the poultry industry continues to experience losses due to MD. Given the tendency of MD virus to become more virulent with time (e.g. by reversion to more virulent form) coupled with the economic pressures confronting the poultry industry, there remains a strong incentive to develop safer and more efficacious products that will protect better in the face of early challenge with very virulent field strains without causing adverse side effect.

There are three distinct serotypes of MD virus found in chickens:

1) Serotype 1, the oncogenic form responsible for the disease, including high and low virulence MD virus and their attenuated variants.
2) Serotype 2, a non-oncogenic MD virus; and
3) Serotype 3, herpesvirus of turkeys (HVT)

The early MD vaccines used to consist of serotype 3 virus originally isolated from turkeys. Its lack of oncogenicity, self limiting infection, good replication in vivo and in vitro, availability as cell-free and cell-associated preparations, and high protective efficacy established HVT as a standard for vaccines throughout the world. A commonly used strain of HVT was FC126.

The present product containing (Marek's disease virus, serotype 1, RN1250 strain) is an effective vaccine for Marek's disease, prepared using a recombinant Marek's Disease Virus (MDV), strain CV1988, having been transformed with a foreign DNA construct that includes a long term repeat sequence of a reticuloendotheliosis virus. This safe viral agent elicits a highly protective immune response in chicken against virulent MDV challenge without causing a significant degree of pathogenicity. Suitable formulations of the vaccine for use in chickens include an effective immunization dosage of this novel viral agent, along with pharmaceutically acceptable excipients.

Expert Opinion: This product is recommended for registration.

Decision: Keeping in view the recommendation of veterinary expert, valid legalized Certificate of Licensing and Inspection indicating product availability in country of origin; Registration Board approved the product subject to compliance ofcurrent Import policy for finished drugs.

10. Registration of Imported Human Biological from M/s Morgan Technologies Services, Karachi to M/s Al Habib Pharmaceuticals, Karachi deferred in 262nd meeting.

M/s Al-Habib Pharmaceuticals, Karachi applied for the registration following human biological in their name from M/s Morgan Technologies Services, Karachi. The case was deferred in 262nd meeting as per following details:

Reg. No.& Date	Name of Drug and Composition	Date of application / Fee status	Documentary details	Decision of RB in 262nd meeting
072504 12-8-2011	SCIMAX Injection Recombinant Human Granulocyte	Dy.No. 202 R&I DRAP dated 14-3-	Legalized COPP No. 2014012	*Registration Board deferred*

	Colony-Stimulating Factor Injection Each vial (1ml) contains : Recombinant Human Granulocyte Colony Stimulating Factor (rhG-CSF)…300ug/vial. Shelf life. 02years	2016 Fee deposited Rs.15000/- dated 17-11-2011 + Rs. 35000/- dated 12-4-2013 + Rs.50000/- dated 13-11-2014	dated 25-6-2014 from china. Valid for two years.	*for submission of biosimilarity data and valid legalized CoPP by thefirm.*

The firm then submitted valid legalized CoPP vide no. 2017005 dated 17-01-2017 valid for two years. The firm submitted the biosimilarity data on 17-01-2019 and now the CoPP is not valid. Moreover, the firm submitted that Scimax is a Biotherapeutic product and not a similar biotherapeutic product. It has 174 amino acids while all other branded Filgrastims including Neupogen have 175 amino acids and Scimax is a patent product. The application is for transfer of registration and the product was already registered in Pakistan.

Decision: Registration Board deferred the case for following:

a. **Evaluation report of analytical parameters of the product in light of Pharmacopoeia.**
b. **Tabulated summary of non-clinical and clinical data submitted by the firm.**

11. NobivacDHPPi applied by M/s Vety-Care (Pvt) Ltd. Rawalpindi approved in 271st meeting of Registration Board.

Following veterinary vaccine of M/s Vety-Care (Pvt) Ltd. Rawalpindi was approved in 271st meeting of Registration Board as per following details:

Name of Manufacturer	Brand Name & Composition	Form Dy. No.& Date of Application Price and Pack size	Document details	Decision of RB in 271st meeting
M/s Vety-Care (Pvt) Ltd. Rawalpindi Product License Holder: M/s Intervet Nederland B.V., Wim de Korverstraat 35, 5831 AN Boxmeer, The Netherlands Manufacturer: M/s Intervet International B.V., Wim de Korverstraat 35, 5831 AN Boxmeer, The Netherlands	NovibacDHPPi Each dose contains: Canine distemper virus, strain Onderstepoort..... ...at least4.0$\log_{10}$ $TCID_{50}$ Canine adenovirus type 2, strain Manhattan LPV3..... at least 4.0 $\log_{10}$ $TCID_{50}$ Canine parvovirus, strain 154..... at least 7.0 $\log_{10}$ $TCID_{50}$ Canine parainfluenza virus, strain Cornell ....at least 5.5 $\log_{10}$ $TCID_{50}$ Shelf Life: 36 months Innovator's Specs	Form-5A Dy. No.3085 (R&I) 13/04/2017 Rs.100,000/- 10-04-2017 Pack Size: 5x1dose 10x1dose 25x1dose 50x1dose Price: Decontrolled	Valid legalized CoPP No. 245962 dated 05-09-2016	Registration Board approved the product as per import policy for finished drugs and as per valid legalized CoPP. The firm will submit Separate application along with fee for diluent.

During processing the case, following points were noted:

i. Typographical error in the brand name of the product: Novibac DHPPias reflected in minutes of meeting while actually it is Nobivac DHPPi as per CoPP & Form 5-A.
ii. The product is freeze dried formulation and diluent is required for its reconstitution

The case was taken up in 276th meeting of Registration Board wherein the Board decided as follows:

"Registration Board decided as follows:

i. Keeping in view the valid legalized CoPP & Form-5A, Registration Board approved the correction in brand name from Novibac DHPPi to Nobivac DHPPi.

ii. Registration Board deferred the application of diluent for clarification whether NobivacDHPPi will be imported in combo pack or diluent will be imported separately."

Now the firm has clarified that the diluent will be imported separately and separate application will be submitted. The firm requested to issue registration letter for freeze dried Nobivac DHPPI.

Decision: Registration Board acceded to the request of the firm for issuance of registration letter for lyophilized vaccine only.

12. Sterile diluent for Vexxitek vaccine deferred in 287th meeting of Registration Board.

Following product of M/s Saadat International, Lahore was approved in 267th meeting of Registration Board as per following details:

Sr. No.	Name of Manufacturer	Brand Name & Composition	Pack Size	Documents submitted	Decision of RB in 274th meeting
1.	Merial, Inc. facilities at 1168 Airport Parkway, SW, Gainesville, Georgia 30501, USA	Sterile Diluent for Vexxitek Each dose contains: Sucrose…0.01025g Potassium Phosphate, monobasic...0.00009g Potassium phosphate dibasic…0.0002g NZ Amine… 0.003g Phenol Red…. ……0.000002g Deionized water… 0.2ml Sodium hydroxide… qs pH Diluent Shelf Life: 36 months	400ml	Valid Legalized Free Sale Certificate dated 26-08-2016 Valid Legalized GMP certificate no. 1603314 dated 22-09-2016	*Approved as per Import Policy for Finished Drugs and as per valid legalized CoPP/ GMP and FSC only for Vaxxitek vaccine.*

During processing the case for issuance of registration letter, the firm submitted that the same diluent will be used for Newxxitek HVT+ND vaccine approved in 271st meeting of Registration Board. The firm has submitted revised Form-5A indicating both vaccines along with valid legalized Certificate of Licensing and Inspection No. 18-01591 dated 29-05-2018 of Newxxitek HVT+ND indicating sterile diluent.

The case was taken up in 287th meeting of Registration Board wherein the Board decided as follows:

"Registration Board deferred the case for submission of clarification of following by the firm:

a. Why the sterile diluent is required separately for Vexxitek and Newxxitek HVT+ND vaccines instead of combo pack."

Now the firm submitted that both vaccines Newxxitek &Vaxxitek are stored/ transported in liquid nitrogen cylinder. However, the diluents is stored/ transported below 30^0C. Therefore,

both the vaccine & the diluents cannot be shipped / stored together. The firm requested to process the cases of vaccine & sterile diluents separately.

Decision: **Registration Board deferred the case for clarification, of import of Vexxitek and Newxxitek HVT+ND vaccines in liquid nitrogen cylinders, by the firm.**

13. Change in manufacturing site of Enbrel 50mg PFS (Reg. No. 062228) applied by M/s Wyeth Pakistan Limited, Karachi.

M/s Wyeth Pakistan Limited, Karachi applied for the change in manufacturing site of their already registered product Enbrel (Reg. No. 062228) as per following details:

Reg. No.	Brand Name & Composition	Previous Manufacturing Site	Newly Applied Manufacturing Site
062228	Enbrel 50mg Pre-filled Syringe Injection Each pre-filled contains: Etanercept……50mg	M/s Pfizer Ireland Pharmaceuticals, Grange Castle Business Park, Clondalkin, Dublin 22, Ireland.	Ms Pfizer Manufacturing Belgium NV, Rijksweg 12, 2870 Puur, Belgium.

The firm has submitted the following documents:

a. Application on Form-5A.
b. Fee Challan of Rs. 100000/-
c. Copy of initial registration letter dated 28-04-2010 and corrigendum letter dated 05-11-2010.
d. Copy of approval of change of name of manufacturing site approval dated 03-11-2011.
e. Copy of approval of change of address of importer dated 17-12-2018.
f. Copy of last renewal submission dated 24-03-2015
g. Valid legalized CoPP No. 02/18/122609 dated 30-07-2018 issued by EMA indicating new manufacturing site.
h. Undertaking that the provided information/ documents are true/ correct.

In this context, it is submitted that while processing the case it is observed that as per submitted CoPP, the packaging and batch release site has also been changed from initial registration letter as per following details:

Packaging and Release Site as per Initial Registration Letter	Packaging and Release Site as per newly submitted CoPP
M/s John Wyeth & Brother Ltd. Trading as Wyeth Pharmaceuticals, New Lane, Havant Hampshire, P09 2NG United Kingdom	Ms Pfizer Manufacturing Belgium NV, Rijksweg 12, 2870 Puur, Belgium.

As the firm has submitted the complete fee of Rs. 100000/-, therefore, along with the change of manufacturing site, the above change in packaging and release site may also be approved.

Decision: **Keeping in view the approval of EMA Reference Regulatory Authority); Registration Board approved the change of manufacturing site from M/s Pfizer Ireland Pharmaceuticals, Grange Castle Business Park, Clondalkin, Dublin 22, Ireland to Ms Pfizer Manufacturing Belgium NV, Rijksweg 12, 2870 Puur, Belgium and change of packaging & release site from M/s John Wyeth & Brother Ltd. Trading as Wyeth Pharmaceuticals, New Lane, Havant Hampshire, P09 2NG United Kingdom to Ms Pfizer Manufacturing Belgium NV, Rijksweg 12, 2870 Puur, Belgium as per current Import Policy for finished drugs.**

14. Change of address of importer of already approved product applied by M/s Wyeth Pakistan Limited, Karachi.

M/s Wyeth Pakistan Limited, Karachi submitted that effective August 11, 2017, Wyeth Pakistan Limited deal has been finalized of sale purchase agreement with ICI Pakistan Limited and selling its assets i.e. manufacturing premises holding license no. 000006. Whereas, Wyeth Pakistan Limited will continue operating within Pakistan as an Importer and distributor in future under Drug Sale License/ Wholesale License.

Therefore, the firm applied for the change in address of importer for following already approved product:

Registration Status	Name of Product	Previous Address of Importer	New Address of Importer
Approved in 267th meeting.	Prevenar 13 (Suspension for Injection in Multi-Dose Vial)	M/s Wyeth Pakistan Limited, S-33, Hawkes Bay Road, S.I.T.E., Karachi	M/s Wyeth Pakistan Ltd., B-2, S.I.T.E. Room No. 002 & 003, PGS Amin Block, 1st Floor, Karachi.

The firm has submitted the following documents:

a. Application for change in address of importer.
b. Fee Challan of Rs. 5000/-.
c. NOC for CRF Clearance
d. Site Change approval of SECP
e. Copy of DSL dated 06-07-2018 valid till 21-06-2020

Decision: **Keeping in view the valid Drug Sale License; Registration Board approved the change of address of importer from M/s Wyeth Pakistan Limited, S-33, Hawkes Bay Road, S.I.T.E., Karachi to M/s Wyeth Pakistan Ltd., B-2, S.I.T.E. Room No. 002 & 003, PGS Amin Block, 1st Floor, Karachi for Prevenar 13 Multi-Dose Vial subject to storage facility verification report of new address.**

15. Complain of Brand Name similarity submitted by M/s Hi-Warble Pharmaceutical (Pvt.) Ltd.

Ch. Tariq Ahmed MD M/s Hi-Warble Pharmaceutical (Pvt.) Ltd. in his letter address to Secretary Ministry of NHSR&C on subject "Triplication of Similar Brand Name" has submitted that they got the product Human Immunoglobulinregistered on 9th July 2007 with brand name "Hi-Globin IV" registration No.045723 and came to know through the SRO No.1610(I)/2018, dated 31st Dec 2018 that DRAP has registered a human Albumin with almost similar brand name HL-Globin (only one letter difference) being imported by M/s. Popular International. It has been further stated that these are totally two different drugs, and both are lifesaving but in different indications and his product with registration No.045723 has been registered first (in the market since 2007) and the other product mentioned in SRO No.1610(I)/2018, Sr. No.640, dated 31st Dec 2018, has been registered later on. They have invested a lot of time and expense on this brand to make a reputation and also that was the first brand with this name. Now similar brand name can damage reputation and goodwill of their product. They requested to take immediate action against triplication of brand names to rectify this problem to save the life of the patients by directing the importer i.e.M/s. Popular International to stop its import and sales immediately and also to recall the present stock available in the market.

Importer & Manufacturer	Brand Name& Composition	Reg. No.
M/s Hi-Warble Pharmaceutical (Pvt.) Ltd Lahore Manufacturer: M/s Shanghai Institute of Biological Products, China	HiGlobin I.V. Infusion Each 50ml solution contains: Immunoglobulin IgG…2.5gm Human Albumin….3%	045723
M/s Popular International Manufacturer: M/s Grifols Therapeutics Inc, USA	HL-Globin (PH4) 5% 5vial contains: Human Albumin 5% at PH4	059250

As per condition of registration letter (**The Drugs (Licensing, Registration and Advertising) Rules,1976)**

"The name shall be changed in case it has resemblance with already registered drugs"

The M/s Popular International (Pvt.) Ltd. Karachi has been asked vide letter dated 7-05-2019 to apply for change in brand name because **Hi-Globin** IV" (registration No.045723) of M/s Hi-Warble Pharmaceutical (Pvt.) Ltd. Lahore registered earlier than **HL-Globin** (registration No.059250) of M/s Popular International (Pvt.) Ltd. Karachi. The response of M/s Popular International (Pvt.) Ltd. Karachi is still awaited.

Decision: Registration Board advised DBER to adopt the prescribed procedure for rectification of brand name similarity.

16. Application for change in Brand name of Cosentyx (Reg. No. 088711) applied by M/s Novartis Pharma (Pakistan) Limited, Karachi.

M/s Novartis Pharma (Pakistan) Limited, Karachi applied for the change in brand name of their already registered human biological as per following details:

Reg. No.	Approved Brand Name	Applied Brand Name
088711	Cosentyx	Fraizeron

The firm has submitted following documents:

i. Application with fee challan of Rs. 5000/-
ii. Copy of Initial registration letter dated 24-04-2018
iii. Justification of proposed change
iv. Details (batch number, date of manufacture, quantity and stock position) regarding last batch imported.
v. An undertaking that the proposed names do not resemble with already registered brands. In case of resemblance/similarity with already registered drug, the applicant will be liable to change immediately. Moreover, no case is pending at any forum / court of law regarding this matter.
vi. Valid Legalized CoPP No. 03/18/122018 dated 09-07-2018 issued by Swissmedic indicating brand name Fraizeron in importing country i.e. Pakistan.
vii. Undertaking that the submitted information is true/ correct.

During processing the case, it was observed that the product license holder of the product has also changed as per following details:

Reg. No.	Brand Name & Composition	Previous Market Authorization Holder	New Market Authorization Holder
088711	Cosentyx Powder for Solution for Injection	M/s Novartis Europharm Limited, Firmley Business Park, Camberley GU16 7SR, United	M/s Novartis Pharma Schweiz AG, 6343 Risch, Switzerland.

	Each vial contains: Secukinumab….150mg	Kingdom.	

The firm was asked for clarification and the firm then submitted the application for change in market authorization holder and submitted the following documents:

a. Application along with fee challan of Rs. 5000/-
b. Copy of initial registration letter dated 24-04-2018
c. Copy of letter of authorization and relationship between Market Authorization holder and manufacturer
d. Revised Sole agency agreement with new market authorization holder.
e. Undertaking that the provided information/ documents are true/ correct to the best of their knowledge.

Initially the registration of the product was granted on the basis of CoPP issued by EMA and now the firm has requested for said changes with the CoPP issued by Swissmedic because as per CoPP issued by EMA the product is not available in country of origin.

Decision: **Keeping in view the approval of Swissmedic (Reference Regulatory Authority); Registration Board approved the change in brand name from Cosentyx to Fraizeron and change in market authorization holder from M/s Novartis Europharm Limited, Firmley Business Park, Camberley GU16 7SR, United Kingdom to M/s Novartis Pharma Schweiz AG,6343Risch, Switzerland.**

17. Procurement of vaccines for Hajj-2019.

A letter from Mr. Muhammad Saleem, Deputy Secretary (HO), Ministry of Religious Affairs & Interfaith Harmony, Government of Pakistan (MoRA&IH), Islamabad having subject "Procurement of Vaccines for Hajj-2019" dated 9th April, 2019 was received. The Ministry had issued a supply order of even number dated 25th March, 2019 to the following vendors being lowest for procurement of vaccines as mentioned against each:

Name of Bidder	Quoted Items	Quantity
M/s Sind Medical Stores, KHI	Meningococcal (Meningitis ACYW-135)	180,000
M/s Sanofi-Aventis, KHI	Trivalent seasonal influenza vaccine	190,000

"The Ministry informed that the above mentioned bidders have submitted that the shelf life of the vaccines mentioned in above said Ministry's supply order may be reduced from 70% to 60%. Furthermore, M/s Sind Medical Stores, Karachi has also revealed that owing to paucity of time Urdu version can't be printed instead to supply in Chinese version. The Ministry requested DRAP to furnish techno-legal comments for supply of above vaccines for the pilgrim's departure to Saudi Arabia for Hajj-2019."

In this context, it is submitted that I&E section of DRAP has already issued a letter No.F.3-4/2014-I&E(pt) dated 19th December, 2014, stating that;

"*The sensitive drugs like vaccines, sera, blood products and other thermolabile drugs having total shelf life of 02 years or less but having remaining / available shelf life 50% or more shall be cleared by the area Assistant Drugs Controller.*

The sensitive drugs like vaccines, sera, blood products and other thermolabile drugs having total shelf life of 3 years or less, but having remaining / available shelf life 60% or more shall be cleared accordingly."

Moreover, for relaxation of Urdu text, the case was referred to Chairman Registration Board. Chairman then advised to confirm whether the firm informed about inability of providing stock with Urdu version during bidding process. The same was confirmed from the copy of letter provided by the firm addressed to Ministry of Religious Affairs & Interfaith Harmony dated 13-02-2019 while the supply order was issued on 25-03-2019.

Further, M/s Sind Medical Stores, Karachi 03-04-2019 informed that they got Purchase order from Ministry of Religious Affairs & Interfaith Harmony, Government of Pakistan (MoRA&IH), Islamabad though letter No.3(5)/2019-pw dated 25th Mar, 2019 for the supply of the following vaccine and quantity for the Hajj-2019:

Sr. No.	Product Name	Pack Size	Quantity	Manufacturer
1.	MENVAC ACYW (Meningococcal Polysaccharide Vaccine – Group ACYW135) 1 Dose Vial (Reg. No.090316)	01 Vial x 0.5ml/1 Dose	180,000 vials	**M/s. Beijing Zhifei Lvzhu Bio Pharmaceutical Co. Ltd.** No.22 Tongji Bei Road, Beijing Economic Technological Development Area, Beijing – CHINA.
2.	Sterile Water For injection 0.5ml Ampoule (Reg. No.090317)	Box of 10 Ampoules x 0.5mL	As per vaccine quantity	**Jiangsu Desano Pharmaceutical Co., Ltd.** No.3, Kangan road, Economic & Technology Development District, Liyang City, Jiangsu Province – CHINA.

"The firm informed that the label of vial / ampoule of the available stocks are in the Chinese language, therefore they are seeking exemption of customized packing for the vial label of the abovementioned vaccine & diluents while the outer packaging and packaging insert will be in customized packing as per prevailing drugs labeling rules. Moreover the firm submitted that they have already informed to MoRA&IH through their letter dated 13-02-2019 (Page/60) about the said situation (Chinese version of vial/ampoule label) and they have no objection to receive the said version stocks due to limited time frame of supply and urgent need of vaccine.

The firm requested that as there is no Meningococcal Polysaccharide vaccine available in the market and due to given timeframe from MoRA&IH (15th April, 2019) for the supply of abovementioned vaccines & quantity, they may be allowed the exemption from customized packing for the vial label of the abovementioned vaccine & diluents while the outer packaging and packaging insert will be in customized packing as per prevailing drugs labeling rules.

Decision: **Registration Board deliberated that reduction of shelf life requirement from 70% to 60% is not the purview of Registration Board. Moreover, as per available record, M/s Sind Medical Stores, Karachi has already informed to Ministry of Religious Affairs & Interfaith Harmony (MoRA&IH) that owing to paucity of time Urdu version can't be printed on the label of vial/ampoule and the supply will be made in Chinese version on vial/ampoule (primary packaging). Yet the supply order was issued to M/s Sind Medical Store, Karachi. Therefore, keeping in view the above fact and urgency of matter due to upcoming Hajj-2019, Registration Board granted the permission of import of meningococcal vaccine with label of vial / ampoule in the Chinese language while the outer packaging and packaging insert will be as per Drugs (Labeling and Packing) Rules, 1986 subject to following conditions:**

i. **This permission shall only be for supply order, of 180000 doses of meningococcal vaccine, issued by Ministry of Religious Affairs & Interfaith Harmony (MoRA&IH)**

for exclusive use in intending pilgrims in Haji camps and not for open market supply.

ii. **Ministry of Religious Affairs & Interfaith Harmony (MoRA&IH) shall maintain the record of quantity of vaccine procured and used against said supply order.**

iii. **In case of pilferages, Ministry of Religious Affairs & Interfaith Harmony (MoRA&IH) shall be responsible.**

18. Request for leaflet update for Cyramza Injection applied by M/s Eli Lilly Pakistan (Private) Limited Karachi.

M/s Eli Lilly Pakistan (Private) Limited Karachi submitted documents regarding leaflet update for products detailed as under;

Sr. No	Reg. No	Brand Name	Pack Size	Requested Change
1.	089814	Cyramza 100mg Injection	10ml vial	• Blood and lymphatic system: Thrombotic microangiopathy • Neoplasms benign. Malignant and unspecified: Hemangioma
2.	091269	Cyramza 500mg Injection	50mL vial	

The firm has submitted following documents;

i. Fee of Rs. 5030/- for each product.
ii. Copy of Registration letters.
iii. Undertaking that proposed label complies all provisions of Drug (Labeling & Packing) Rules 1986.
iv. Copy of Approval letter from Department of Health and Human Services, FDA.
v. Existing leaflet.
vi. New leaflet.

It is submitted that the information has been added in Post marketing Experience under ADVERSE REACIONS.

Moreover, in this context, for such changes, rule position of LRA Rules, 1976, Rule 30(10)(b) states following;

"if a clinical information for a drug is approved by the Drug Regulatory Authority in any of the said countries, the same clinical information shall be considered as approve for drug registration in Pakistan unless modified by Registration Board on the basis of scientific data available to it, and such clinical information may include indications, contra-indications, side effect precautions, dosage., etc.

However, the said inclusion has been checked on label/patient package insert available online on FDA website latest of which is of 14-08-2018. It is submitted that in latest label the only inclusion added in Post marketing Experience under ADVERSE REACIONS is '*Thrombotic microangiopathy'*

The firm provided the clarification that receival date of application to Department of Health and Human Services, FDA is 25-10-2018 and last label available on FDA website is 14-08-2018.

Decision: Registration Board deferred the case for following:

a. Updated status of said change on official website of USFDA.
b. Approval status of said change in other reference regulatory authorities.

Item No. V Division of Quality Assurance & Laboratory Testing

Case No. 01: **Manufacture & Sale of Sub-Standard Protonix 40mg Tablets, Batch No. 052 by M/s Wilshire Laboratories (Pvt.) Ltd., Lahore.**

The FID-VI, DRAP, Karachi visited the premises of M/s Marhaba Medicos, Shop No. 51, Bismillah Market, near New Sabzi Mandi Super Highway, Karachi on 25-04-18 and taken the following sample of drug along with other drugs for the purpose of test/analysis on prescribed Form-3. Details are as under:

Name:	Protonix 40mg Tablet
Composition:	Each tablet contain 40mg Pantoprazole
Registration No:	030041
Batch No:	052
Manufacturing Date:	09-17
Expiry Date:	08-20
Manufactured By:	M/s Wilshire Laboratories (Pvt.) Ltd, Lahore

The FID-VI, DRAP, Karachi has forwarded one sealed portion of sample to Government Analyst, Central Drugs Laboratory, Karachi vide memorandum No.ARS-32-35/2018-FID-VI (K) dated 26-04-2018 as required under Section 19(3)(i) of the Drugs Act, 1976.

The sealed portion of sample were also sent to Chairman, Registration Board vide letter number ARS-32-35/2018-FID-VI (K) dated 27-04-2018 as required under the provision of clause (b) (3) Schedule V of DRAP Act, 2012.

The sealed sample (manufacturer portion)of under reference drug was sent to M/s Wilshire Laboratories (Pvt.) Ltd., 124/1, Industrial Estate, Kot Lakhpat, Lahore vide letter number ARS-32-35/2018-FID-VI (K) dated 30-04-2018 as required under the provision of clause (c) (3) Schedule V of DRAP Act, 2012.

The Federal Government Analyst, CDL, Karachi declared the sample sub-standard quality on the basis of dissolution vide test/analysis report No.R.KQ.310/2018, dated 20th June, 2018 which is violation of section 23 (1) (a) (v) of the Drugs Act, 1976 and rules framed there under. The test report is reproduced as under:

Description:	*Yellow colored, circular shaped enteric coated tablets.*
Identification:	*Pantoprazole Sodium identified.*
Dissolution test:	***Does not comply.***
Uniformity of dosage unit	
By Weight Variation:	*Complies.*
Assay for Pantoprazole Sodium:	
Determined amount/tablet:	*38.2609mg*
Stated amount/tablet:	*40mg*
Percentage:	*95.7%*
Limits:	*90.0% to 110.0% Complies.*

Remarks: *The sample is of **"Substandard"** quality under the Drugs Act, 1976.*

The FID-VI, DRAP, Karachi vide reference No.ARS-32-45/2018-FID-VI (K) dated 26th June, 2018 served an explanation letter to M/s Wilshire Laboratories (Pvt.) Ltd., 124/1, Industrial Estate, Kot Lakhpat, Lahore for explaining their position in the manufacturing, selling & distributing of above mentioned substandard drug with direction to recall the above mentioned batch from the market.

In response to the above said explanation letter, M/s Wilshire Laboratories (Pvt.) Ltd., 124/1, Industrial Estate, Kot Lakhpat, Lahore submitted their reply vide letter No. WL/OC/S-221 dated 06th July, 2018 wherein they have stated that they received the sealed portion of their product

Protonix 40mg Tablets (Samples quantity of 30 tablets) while Batch No/Mfg Date/Exp Date was not visible on sample pack. We also receive the sample after 41 days after picking the sample which is violation of Section 19 (3) of the Drugs Act 1976. As guidelines of the Drugs Act 1976 were not followed which is illegal and the said procedure is null and void in the eyes of law. The sample dispatched to us remained in transit during very hot months of May and June while no temperature and humidity conditions were maintained.
Storage conditions are not mentioned on the report where the sample was stored after receipt and we fail to understand as the sample remained untested for 54 days. We had provided reference standard to CDL but we are not sure whether our provided reference standard was used for testing or CDL arranged reference standard from some other source because USP 40 method was used. So, USP reference standard must have been used. Please provide a copy of reference standard of Pantoprazole USP. As per USP method of testing, 68 tablets are required while the sample sent to CDL, Karachi contain 30 tablets so how the required tests can be performed with provided sample.

The FID-VI, DRAP, Karachi was requested to provide the names of responsible persons vide letter No.03-49/2018-QC dated 07th August, 2018. The FID-VI, DRAP, Karachi vide letter No. ARS-32-45/2018-FID-VI (K) dated 09th August, 2018 submitted that updated names of responsible persons may be obtained from Directorate of Licensing Division, DRAP, Islamabad for further processing of the matter.

The Division of Drug Licensing, DRAP Islamabad was requested to provide the names of responsible persons and they provided the following names being responsible persons and technical persons.

M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore	Mr. Ghazanfar Ali Jawa (35202-7157858-5) M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore
Mr. Asad Ali Jawa (35202-2722600-3) M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore	Amjad Ali Jawa (35202-2722635-7) M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore
Ms. Tehseen Tahira (35202-2576262-2) M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore	Mr. Hafiz Nasrullah Khan (33301-1441883-5) M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore
Mr. Muhammad Faisal Javed (31103-1150494-1) M/s Wilshire Laboratories, 124/1, Industrial Estate, Kot Lakhpat, Lahore	

Show cause notice has been issued to the technical staff/management of the firm – responsible persons U/S 7(11) of the Drugs Act, 1976 vide letter no. 03-49/2018-(QC) dated 06-03-2019.
The firm submitted their reply with reference number WL/OC/S-267 dated 13th March, 2019 which is reproduced as under;
"We recievd letter No. F.ARS-32-35/2018-FID-VI (K) dated 14-05-18 received on 17-05-18 from Mr. Abdul Rsool Sheikh FID Karachi advising us to provide complete specifications/ working standard for our product Protoniz 40 mg Tablet directly to FGA CDL Karachi. This was the first intimation towards us for picking of samples of our products on 25-04-2018 but no sample portion was received by us, neither copy of Form nor place from where he sample was picked.

Being a responsible law abiding company we provided testing methods and working reference standard t FGA CDL vide letter No. WL/B/373-2018 dated 21-05-18.

We received letter No. F.ARS-32-35/2018-FID-VI (K) dated 30-04-18 posted by registered post without stamp received on 04-06-18 along with sealed sam0ple portion of the above said product (Quantity of 30 tablets) while batch No/ mfg date/ Expiry date was not visible on the sample pack. We received sample portion after 41 days which is violation of section 19(3) of the Drugs Act 1976. As guidelines of the Drugs Act 1976 were not followed which is illegal and the said procedure is null and void in the eyes of law.

We had not received any intimation until 17-05-18 and we have not received any copy of sample collection Form till date. The sample dispatched to us remained in transit during very hot months of May and June while no temperature and humidity conditions were maintained.

We received letter No. F. ARS-32-35/2018-FID-VI (K) dated 26-06-18 along with testing report No R.KQ.310/2018 dated 20-06-18 issued by CDL Karachi declaring our product substandard on the basis of non-compliance in dissolution test and it is also mentioned that bill/ warranty produced by M/s horizon Pharma, 108/J, Block-2, PECHS, Karachi is enclosed while it has not been found with the letter. While, no invoice/ warranty was provided with his previous letters as well, so how can we trace and ensure that the product picked by him is manufactured by Wilshire Labs?

We have found CDL test report No R.KQ.310/2018 as vague on the following grounds;

- *Storage conditions are not motioned on the report where the sample was stored after receipt and we fail to understand as the sample remained untested for 54 days.*
- *We had provided reference standard to CDL on 21-05-18 but we are not sure whether our provided reference standard was used for testing or CDL arranged reference standard from some other sourece because as mentioned by CDL, USP-40 method was used so, USP reference standard must have been used. Please provide copy of the primary standard of pentoprazole USP. We are also unaware of the grade and potency with standard solution preparation.*
- *As pr our provided method of testing at least 68 tablets are required for complete analysis while the sample sent to CDL contains 30 tablets so how the required tests can be performed with provided sample?*
- *As per USP-40 method of testing, at least 68 tablets are required (i.e 44 for assays and dissolution and 24 for disintegration and Hardness) while the sample sent to CDL contains 30 tablets so how the required tests can be performed with provided sample?*
- *Our DRAP Registration letter is with "MS Specifications" and same was mentioned on all packaging materials of Protonix 40 mg Tablet, Batch No. 052.*
- *We have provided the method of testing with manufacturers specifications and working standard with Manufacturers Specifications to FGA CDL Karachi vide letter No. WL/B/373 dated 21-05-18 but we are surprised to see that our product was tested as per USP-40.*
- *More over USP monograph requires USP Reference Standard while we had sent working standard with Manufactures Specifications. Reference standard with Manufacturers Specification was used to test the product according to USP-40 which is illegal and against the USP method of testing so the results are null and void.*
- *In Dissolution chapter <711> criterion for acidic stage (A1, A2, A3) and buffer stage (B1, B2, B3) is mentioned while the CDL report is lacking this information too.*
- *As per USP-40, mentioned column is 4.6-mm X 7.5-cm, 3-µm packing L1(C-18). While CDL test report shows column as (C-18) (5 microns with 0.25m-Length and 4.6 n diameter) it proves that wrong column was used for testing of the product.*
- *CDL report shows that column with (C-18) (5 microns) with 0.25m-Length and 4.6n Diameter was used which is astonishing that how a particle with 5 microns can be*

packed in 4.6n Diameter columns. If it exists, please share the source name and copies of invoices so that we are able to procure the same column and own a test to verify results.

- *Injection volume mentioned in USP 40 is 10µl while CDL report shows injection volume as 20 µl which is violation of USP monograph.*
- *Chromatograms for assay and dissolution test are not provided along with CDL Report.*
- *As per USP Monograph, tailing factor and Relative Standard Deviation (RSD) are compulsory while in method provided along with CDL Report lacking this information.*
- *Testing Report No. R.KQ, 310/2018 dated 20-06-2018 declared our product as substandard due to failing in dissolution test. It shows only a phrase regarding dissolution i.e. "does not comply". Please note that dissolution test is a chemical test and for understanding it must be provided with numerical value for each tablet. While, in this report, no detailed/ numeric values are found which shows that dissolution test is performed as per physical observations.*
- *No results for each tablet at acid stager are provided in CDL report. Further, no time and type of medium used, have been mentioned in report/ method.*
- *No, sample preparation and standard preparation and calculations are provided in CDL test method at acid stage.*
- *There is difference between quantitative analysis (mcg) of Sample preparation and working standard preparation. Moreover, no calculations re provided with the reports which confirms that the report as null and void.*
- *No results for each tablet at buffer stage are provided in CDL report. Further, the buffer 6.8 has no clarity for its preparation and salt information is missing whereas USP requires Phosphate buffer to be used.*
- *CDL Report shows assay results as 95.7% and we are surprised that how a product can be declared as substandard in dissolution test while the assay is well within the prescribed limit.*

In light of above mentioned submissions, it is respectfully requested that there are violations of The Drug Act 1976. Moreover, Central Drug Laboratory Report No. R.KQ, 310/2018 dated 20-06-2018 is null and void as numerous legal and technical faults are found in CDL Test Report issued for our product Protonix 40 mg Tablet. So, your letter may please be withdrawn and stop further proceeding. Moreover, as many technical aspects are involved in this case so we request you to please give us a chance for appearing in person for detailed briefing in this regard.

Proceeding of the 289th Meeting of Registration Board.

Hafiz Nasrullah, Senior QCM (11101-1441883-5) and Mr. Shoaib Hakeem, Technical Director (35202-2954794-1) of M/s Wilshire Laboratories (Pvt.) Ltd., Lahore appeared on behalf of M/s Wilshire Laboratories (Pvt.) Ltd., Lahore to plead instant case of Substandard drug Protonix 40mg Tablets, Batch No.052, before the Board in its 289th meeting on 16th May, 2019.

Representatives of the firm re-iterated points already mentioned in their letter as recorded above. After deliberation, firm requested for re-testing of drug product.

Decision: Registration Board after hearing the accused deliberated the matter in depth in the light of available record/ investigation report of FID decided that the Board's portion of the sample shall be retested from appellate laboratory, NIH, Islamabad.

Case No.02: **Manufacture & Sale of Counterfeit Zotanil 3mg Tablets, Batch No.055 Manufactured by M/s Zanctok Pharmaceutical Labs, Hyderabad.**

The FID-V, DRAP Karachi visited the premises of M/s Damam Medical Store, Near Sohrab Goth, Karachi on 16th July, 2018 and taken the following sample of drug along with other drugs for the purpose of test/analysis on prescribed Form-3. Details are as under:

Name:	Zotanil 3mg Tablets
Composition:	Each tablet contain 3mg Bromazepam
Registration No:	058631
Batch No:	055
Manufacturing Date:	04-18
Expiry Date:	03-20
Manufactured By:	M/s Zanctok Pharmaceutical Labs, Hyderabad.

The FID-V, DRAP, Karachi has forwarded one sealed portion of sample to Government Analyst, Central Drugs Laboratory, Karachi vide memorandum No.SAA-45-46/2018-FID-V (K) dated 19-07-18 as required under Section 19(3)(i) of the Drugs Act, 1976.

The Federal Government Analyst, CDL, Karachi declared the sample as **Counterfeit** on the basis of **resemblance in the color scheme, text and presentation of outer packaging** with already registered product.

Description: *Pink colored tablets, marked with **"ZPL"** on one side.*

Identification: *Bromazepam identified.*

Disintegration test: *Complies.*

Assay for Bromazepam:

Determined amount/tablet: *3.0723mg*

Stated amount/tablet: *3mg*

Percentage: *102.4%*

Limits: *90.0% to 110.0% Complies.*

Remarks:- *The color scheme, name, text and presentation of outer packaging of the sample **"Zotanil 3mg tablets"** nearly resembles as to be calculated to deceive the label and outer packaging of brand leader drug product **"Lexotanil 3mg tablets"** registration number 001043, manufactured by "Martin Dow Limited Karachi". Hence, sample is declared **"Counterfeit"** under section 3 (f) of the Drugs Act, 1976.*

The FID-V, DRAP, Karachi vide reference No. SAA-45-46/2018-FID-V (K) dated 13-09-18 served an explanation letter to M/s Zanctok Pharmaceutical Labs, Hyderabad that why action may not be taken against them as they have violated the section 3 (f) of the Drugs Act, 1976.

In response to the above said explanation letter, M/s Zanctok Pharmaceutical Labs, Hyderabad submitted their reply vide letter No. Nil dated 27th September, 2018 wherein they have stated that the remarks of the CDL, Karachi should be "The sample is of standard quality with regard to the test performed" instead of the sample is "Counterfeit" under section 3 (f) of the Drugs Act, 1976 which is totally invalid in the eye of law as both the packs are different in respect of (a) front panel, side panel and rear panel (b) text matter (c) product name (well prominent) (d) Company logo (e) Registration number & Manufacturing license and Manufacturer name. They further requested to withdraw the notice as they have not violated the law nor manufactured counterfeit product.

The FID-V, DRAP, Karachi submitted that the firm is involved in contravention/violation of Section 23 (1) (a) (ii) of the Drugs Act, 1976 and recommended that M/s Zanctok Pharmaceutical Labs, Hyderabad may be directed to revise the color scheme of their outer

packaging of their registered product "Zotanil tablets 3mg" in order t avoid confusion in the resemblance in the color scheme and compliance of the section 3 (f) of the drugs Act, 1976.
The FID-V, DRAP, Karachi also provided the names of accused persons as under:

i. M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.
ii. Mr. Muhammad Saleem (Partner).
iii. Mr. Wazir Ali Lasi (Partner).
iv. Ms. Shabana Yousuf (Production Manager)
v. Ms. Salma Bibi (QC Incharge)

The Division of Drug Licensing, DRAP Islamabad was requested to verify the names provided by the FID-V, Karachi and they provided the following names being responsible persons and technical persons.

M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.	Muhammad Saleem **(Partner)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.
Wazir Ali Lasi **(Partner)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.	Salma Bibi **(Q.C Incharge)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.
Shabana Sadiq **(Production Incharge)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.	

Show cause notice has been issued to the technical staff/management of the firm – responsible persons U/S 7(11) of the Drugs Act, 1976 vide letter no. 03-71/2018-(QC) dated 26-02-2019.
In response to the show cause notice, the firm submitted that their product complies in respect of appearance, Identification of Bromazepam, Disintegration test, Uniformity of dosage unit by content uniformity and Assay of Bromazepam 102.4% (90 -110%). Therefore, remarks of the CDL, Karachi should be "The sample is of standard quality with regards to the test performed" instead of this the Federal Government Analyst declared the sample Counterfeit, which is totally invalid in the eye of law as both the packs are different in respect of (a) front panel, side panel and rear panel (b) text matter (c) product name (well prominent) (d) Company logo (e) Registration number & Manufacturing license and Manufacturer name. Moreover M/s Martin Dow does not having any objection on the resemblance of lexotanil with zotanil packs.

Proceeding :
The Accused were called for personal hearing before the Registration Board on 16th May, 2019 at 12:00 PM vide letter No. 03-31/2019-(QC) dated 13th May, 2019 but no one appeared before the Board.

Decision: Registration Board decided to give second opportunity of personal hearing to the accused in the next meeting and deferred the case".

Case No.03: CASE REFERRED BY PQCB LAHORE REGARDING DIFFERENT MANUFACTURERS FOR NOT PROVIDING THE PRODUCT SPECIFICATIONS/METHOD OF ANALYSIS.

The Secretary, PQCB, Punjab vide letter no. PQCB/Dtl-D/197/2018 dated 20-12-2018 addressed to the Chief Executive Director Officer, DRAP, Islamabad with request to look into the matter personally and to direct the quarter concerned to expedite the matter.

Brief Facts of the Case:

The Director, Drug Testing Laboratory, Rawalpindi, Lahore and Bahawalpur reported that they have to file the cases pertaining to testing of the various drug samples due to non co-operation of the manufacturers. These firms failed to provide method and standards for test/analysis due to which it was not possible to conduct test/analysis and to report the same in the best public interest. The Directors DTLs have requested the Board to recommend the DRAP for cancellation of registration of the following Drugs whose test/analysis method/specification were not provided to the Government Analyst concerned by the pharmaceutical firm, as according to the clause XIX of the condition of registration of the drugs under the section 7 of the Drugs Act, 1976, manufacturer is bound to provide the complete method of analysis of the product.

S/N	DTL	Drug Inspector Area	Form 6 Date	DTL letter No. and Date	Manufacturer	Product name	Reg.No	Reason
1	Rawalpindi	Deputy Drug controller Hassan Abdal	11-10-2018	LR/DS/2018/561 17-11-2018	M/s Lisko Pakistan pvt Ltd	Tablet Muscadol Forte Batch No.061	067174	No response from firm to provide product specification, method of analysis and reference standard despite of 3 letters from DTl dated 18-10-18, 30-10-18 & 06-11-18
2	Lahore	DI Aziz Bhatti town Lahore	03-09-2018	6032/DTL 7-11-2018	M/s Ferroza international Pharma Lahore	Tab. Melide (Nimsulide 100mg) Batch No. 019	035543	No response from firm to provide product specification, method of analysis and reference standard despite of 3 letters from DTL dated; 12-09-18, 28-09-18 & 11-10-18.
3	Bahawalpur	DI Tehsil Okara	12-10-18	2002 15-11-2018	M/s Danas Pharma (Pvt) Ltd	Cyclofen Batch No.TA945	054592	No response from firm to provide product specification, method of analysis and reference standard despite of 3 letters from DTl dated; 17-10-18, 29-10-18 & 06-11-18

The case was considered by the Provincial Quality Control Board, (PQCB) Punjab in its 196th meeting held on 13-11-2018. The Secretary, PQCB appraised the Board about the background of the case which was discussed at length. The Board observed that all the manufacturers/ drug Registration certificate holders are legally bound to provide product specifications and method of analysis to Government analyst/Drug testing Laboratories as and when required. The need for product specification/method of analysis becomes more critical when the drug is not available in the official pharmacopoeia and/ or the manufacturer has its own customized speciation/ method

for analysis. In such circumstances it becomes quite challenging and almost impossible for a Government Analyst to conduct testing of the drug sample without having manufacturer specification/method of test/analysis.

The Board expressed its serious concerns over casual behavior and non co-operation on the part of the above listed firms in this regard. The Board after detailed discussion and deliberation decided to allow the provincial Drug Testing laboratory, Multan to file only those cases where Manufacturer Specifications are not provided by the respective firm and also not available in official compendia. Furthermore, the Board decided to recommend the Drug Regulatory Authority of Pakistan (DRAP) Islamabad for cancellation of registration of the drugs listed above, in best public interest.

Proceeding and Decision:

The case was presented before the Registration Board in its 289th meeting on 16th May, 2019 and the Board after detailed deliberation and decided to issue the show cause notice for suspension / cancellation of drugs to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Lahore for not providing the specifications/method of analysis of the above said products manufactured by the said manufacturers to the Drug Testing Laboratories."

Case no.4: Manufacturing and sale of substandard injection Hepaferon (Interferon) B. no. 85 by M/s Pharmedic lab, Lahore.

The brief of the case for consideration of the Registration Board
Background of the case.

The background of the case is that the Registration Board in its 248th meeting held on 18th-19th March, 2015 discussed the case of supply of sub-standard Hepaferon Injection (Interferon) to Government of Khyber Pakhtunkhwa Batch No.80-87. The Federal Inspector of Drugs (FID) Peshawar was directed by the Registration Board to submit the certified copies of decisions of Drug Court Peshawar and Peshawar High Court, Peshawar in the instant case. The FID has submitted the copies of the orders the Peshawar High Court, Peshawar and the copies of decision of Drug Court Khyber Pakhtunkhwa, Peshawar The Board after thorough deliberations and in the light of decisions of the Courts and view point of the member from the M/o Law Justice and Human Rights decided the case as under:-

"Registration Board was briefed about the background of the case. Sheikh Sarfraz Ahmad, representative from Ministry of Law was of the view that after the decision of the Drug Court Peshawar a fresh reference requires to be sent to Law Division for seeking opinion. The Board agreed to the proposal".

Decision:

The Drugs Registration Board decided that the opinion of Law Division may be solicited in the light of decision of the Drug Court, Khyber Pakhtunkhwa, and Peshawar which are self explanatory in which the Honorable Drug Court ordered that the complaint of the prosecution is dismissed.

Decision of the 254th Meeting of the Registration Board.

Report was being prepared both by the Federal Inspector of Drugs and Provincial Drug Inspector for submission the Honorable Court. When the investigation was under process by FID and Provincial Drug Inspector completed his investigation is submitted before the Court on the basis of report submitted by Provincial Drug Inspector the court acquitted the accused Later when the report of FID was completed, the time for filing appeal had also lapsed.

In this case Federal Drug Inspector should have intervened through Peshawar High Court for stopping the drug court from announcing its decision till the time the report of Federal Inspector of Drug was completed this was must done.

Presently the accused stand acquainted and Board cannot ensure notice to the accused on the here of report of FID because the accused stand accqumtted by the Court

The Law division has decided to consult additional Attorney General DAG for filling application before the court for already condonation of delay in order to file an appeal.

The Board has decided to consult the DAG through Legal Affairs Division of DRAP for filing application on condo nation of delay The decision was communicated to Deputy Director Legal Affairs on 22nd August 2016.

The Federal Inspector of Drugs (FID) Peshawar was directed by the Registration Board to submit the certified copies of decisions of Drug Court Peshawar and Peshawar High Court, Peshawar in the instant case. The FID has submitted the copies of the orders the Peshawar High Court, Peshawar and the copies of decision of Drug Court Khyber Pakhtunkhwa, Peshawar The Board after thorough deliberations and in the light of decisions of the Courts and view point of the member from the M/o Law Justice and Human Rights decided the case as under:-

*"Registration Board was briefed about the background of the case. Sheikh Sarfraz Ahmad, representative from Ministry of Law was of the view that after the decision of the Drug Court Peshawar a fresh reference requires to be sent to Law Division for seeking opinion. The Board agreed to the proposal"***.**

The Drugs Registration Board decided that the opinion of Law Division may be solicited in the light of decision of the Drug Court, Khyber Pakhtunkhwa, and Peshawar which are self explanatory in which the Honorable Drug Court ordered that the complaint of the prosecution is dismissed.

Keeping in view of the decision of the Drug Court Khyber Pakhtunkhwa, Peshawar the M/o Law Justice and Human Rights is requested to furnish view/ comments as whether the responsibility fixed by Federal Inspector of Drugs, Peshawar under Section 23(1)(a)(v)(vii) and 23(1)(a)(vii), 23(1)(b)(f) of Drugs Act, 1976 for prosecution **(Annex-IV)** may be set aside after the decision of the Drug Court Khyber Pakhtunkhwa, Peshawar or otherwise.

As per reference para 433/N FID Peshawar informed that he sent 02 letters to DAG office Peshawar on 05th August and 25th August 2016 but no reply receive from DAG office Peshawar then on 30th August 2016. The FID mentioned that he personally went to DAG office Peshawar High court Peshawar Mr. Manzoor Khan Khalil Senior DAG Peshawar High Court. The DAG informed the FID Peshawar that they cannot give any opinion/comments on the case relevant case.

The FID Peshawar further informed that the DAG also directed him to submit an application to Law Division Islamabad for legal opinion and when Law Division Islamabad shall refer the subject case to DAG office Peshawar High Court then they will look into the subject matter and give legal opinion/comments.

The Federal Inspector of Drug Peshawar forwarded the FR to Director QA, DRAP Islamabad wherein the FID submitted the details of the instant case which are as under:
The case of Hepaferon (Interferon) manufactured by Pharmadic Lahore has been devided into three phases/parts as under:-

1. **Part/phase 1.**

On 01/04/2013 on the Telephonic direction of DDC (QC) (QA) the FID visited Chief Drugs Inspector Khyber Pakhtunkhwa Mr. Sabir Ali to get initial information about the case which was communicated to DRAP Islamabad on 26.04.2014 vide letter No.F.3-20/2013-FID-DRAP-119 after getting the initial and unsigned substandard report from provincial govt. the FID issued a letter to Chief Executive Pharmedic Lab. Lahore and asked to provide the following information vide this officer letter No.F.3-20/2013-FID-DRAP 868 dated 08-04-2013 and reminder and in reference to telephonic direction from Director Biological directed the FID to get the status and storage condition of the Hepaferon lying in LRH Car parking premises the detailed report submitted to Director Biological DRAP Islamabad vide this office letter No. F.3-20/2013-FID-DRAP-1288 dated 25-04-2013 desiring detailed information about the case the FID and in reference to Director Biological Drugs letter No.F-1/-4/2013 dated 25-04-2013 desiring detailed information about the case the FID submitted a detailed report about the preceding of sampling by provincial drugs inspector and report submitted by Director DTL and by anticorruption from unknown Laboratory submitted to Director Biological vide this office letter No. F.3-20/2013-FID DRAP-1288 dated 08-05-2013. Under direction of Chief Justice High Court Peshawar the Director General Health Services requested DRAP Islamabad to conduct sampling from the stock of Interferon lying in the premises of LRH Peshawar. The Director General Health Services issued a letter on 02-08-2013 vide office letter No. S.O (Drugs)/H/2-43/2013-Re-examination to Director Federal Govt. Analyst National Control Laboratory for Biological Islamabad and in response DG Health Services KPK letter the DRAP Islamabad issued a letter to the FID to take sample of Hepaferon Inj. Mfg and supplied by Pharmadic Lahore from LRH and from the stores the stock lying in the company M/s Pharmadic Lahore premises vide letter No. F.3-15/2013-QC dated 19th August 2013.

The FID vide DRAP Islamabad letter No. F.3-15/2013-QC dated 31-005-2013 coordination with Director General Health office and Director Anticorruption office to send their representative as witness during sampling on 15-08-2013 and reminder issued on 24-06-2013 vide this office letter No.F.3-20/2013-FID-DRAP-1674. The FID along with representative of DG Health and Director Anti Corruption office drawn samples from three containers on Form-3 on 15-08-2013 from the stock of Interferon (Hepaferon) Injections of the available batches of Batch No. 80,82,85 and 87 lying at different temperature of 4.7 C 35 and 38 C and sent to govt. Analyst Biological NCLB on Form 4 dated 15-08-2013 summary of storage condition and samples submitted to Director Biological National Laboratory Islamabad vide this office letter No.F.No.3-20/2013-FID-DRAP dated 15-08-2013. Sampling received by Director Biological Islamabad on16-08-2013 copies of Form3 and Form-4 and detail report of storage condition submitted to Director Biological and DG Health Services KPK and DDC (QC) Islamabad for Information.

On 27-08-2013 vide this office letter No. F.3-20/2013-FID-DCA (P)2134 a detail report about sampling and storage condition submitted to Director General Health Services for information
On 26-08-2013 manufacture portion sent to Manager (QC) M/s Pharmadic Lab Lahore

On 22-10-2013 the office receive all the test report of Interferon from NCLB from B.No.80-87 stock lying in three containers at the basement car parking of LRH hospital Peshawar which are as under :-

S.No.	Name of Drug	B.No. and Temperature	Test Report No. & date	Results/Remarks
01.	Hepaferon Injection 3 MIU (Interferon Alpha 2a)	80(+38 C)	FS-2013/17 14-10-2013	Substandard
02.	do	81(4.7 C)	FS-2013/13 14-10-2013	Substandard
03.	do	82(+38 C)	FS-2013/13 14-10-2013	Substandard
04.	do	82(4.7 C)	FS-2013/13 14-10-2013	Substandard
05.	do	83(+38 C)	FS-2013/13 14-10-2013	Substandard
06.	do	83(4.7 C)	FS-2013/13 14-10-2013	Substandard
07.	do	84(4.7 C)	FS-2013/13 14-10-2013	Substandard
08.	do	85(35C)	FS-2013/13 14-10-2013	Substandard
09.	do	87(+38 C)	FS-2013/13 14-10-2013	Substandard

On 22-10-2014 copies of attested tests reports were submitted to DG Health KPK Peshawar Chief Executive officer DRAP Islamabad Director Anti Corruption Peshawar and Director Pharmadic Lab Lahore with direction to stop sale and recall all the stock from the market.

On 30-10-2013 after receiving the substandard tests reports of Hepaferon (Interferon) from batch No.81-87 the FID visited the storage area of Hepaferon at LRH Car Parking and took the details of stock by physical checking/counting batch wise quantity manufacturing and expiry date recorded on Form-I and ordered under section 18(1) of the Drugs Act 1976 requiring a person not to dispose of stock in his position and sign taken from the store keeper of cold chain system kept in three container at LRH under safe custody of Rehmatullah Khan Sahibzada Khan Barkat Ali Cold Chain operators and Mr. Mohammad Ibrahim Cold Chain supervisor Signature taken on Form-I from all the responsible persons mentioned above.

In reference to the substandard report show cause issued to Chief Exeutive M/s Pharmadic Lahore vide this office letter No.F.10-77-85/2013-LRH-DRAP-2651 dated 28-10-2013 and directed the firm to recall the stock of the said drug from the market and from your distributer outlets under intimation to this office and also directed to provide the sale record batch History and names of Directors and technical staff in QA and production with NIC No.

Another letter No.F.10-77-85/201-LRH-DRAP 2951 dated 29th November 2013 issued to DG Health Services KPK Peshawar with direction not to use these substandard drugs Hepaferon (Injection) B.No.80-87 kept in three container at LRH car parking and inform the same to all field DHQs offices and Health centers not to use the same batch no. whereas available.

On 12.3.2014 a letter issued to Chief Executive M/s Pharmadic Lahore to provide the name of Director/Chief Executive with NIC copy Name of Production Incharge Name of QC Incharge

valid copy of DML issued by DRAP Islamabad The same letter was sent to DDG (E&M) Lahore vide this office letter of even No. dated 12-03-2014 with request to ensure the compliance of this letter through your area FID

The reply of the firm was received vide their letter No. Ref.No.PH/LHR/18225 dated 28-03-204 in which they have provided all the required information name of director/chief executive name of production Incharge QC Incharge along with copies of CNIC and valid copy of DML

Another reply of the firm was communicated to this office by area FID Lahore on 25-112013 vide firm letter No.RefPh/LRH/18062 dated November 02, 2013 in which the firm blames the Director Health for not maintaining the temperature of the cold storage rooms of the 3 containers lying at LRH car Parking but did not provide the undertaking about the storage condition between the firm and DG Health Services KPK who was responsible to maintain the storage condition 2-8 C

In light of above mentioned storage condition and substandard test report received form govt. analyst NCL Biological Islamabad the firm has violated section 23 of Drugs Act 1976 therefore the Director Itikhar Ahmad Sheikh CNIC No.35202-0328994-9 production Incharge Mazhar Hussainan Quality control Incharge Mr. Asim Mehmood of the firm as mentioned above may please be prosecuted in Drugs Court alongwith Director program Hepatitis KPK Dr. Ghulam Subhani store keeper Mr. Mubarak shah may please be nominated as co accused in the case due to negligence or intentionally the storage condition was not maintained from 2-8 C nor tested after purchase and gave huge loss to public money The FID ordered to stop the use of hepaferon on Form-I under section 18(1) of Drugs Act 1976 due to particle and not maintaining the storage condition of the 3 containers lying/kept in the premises of LRH Hospital by KPK Govt.

Part 2.

On the other hand interferon Injection Batch Nos. 87 and 88 sampling conducted from DHQ Hospital Mardan on 23-12-2013 on Form-3 and samples sent to the Director National Biological Islamabad on 24-12-2013 and test reports received from National Institute Biological Islamabad with standard Quality vide Test report No.FS2013/31 and 32 dated 22-02-2014 with the remarks The sample is of standard quality with regards to tests performed however being a biological product this sample report is not applicable to whole lot or some other portion of the same lot stored elsewhere under different storage conditions which needs clarification by the govt analyst NCL Biological because when any sample is drawn from any stock/premises in random it covers the whole stock but the remarks of govt. analyst is doubtful needs clarifications The same repot communicated to DDC (QC) DRAP Islamabad and copy to DG Health KPK and Director M/s Pharmadic Lahore on 20-03-2014 and letter issued to Director NCL for Biological/Govt. Analyst for clarification Reply is still awaited.

During sampling of Hepaferon Injection (Interferon Alpha 2A 3MIU/ml batch No. 87 and 88 storage condition was found maintained between 2-8C.

However on further scrutiny of the record of DHQ Mardan following fact were revealed

1. The hospital was supplied 180.000 vial of Hepaferon vials in 2011 as per receipt No. Nil dated 22-04-2011. The receipt did not indicate any batch No..
2. However as per statement of store keeper MS DHQ Mardan the stock was returned to M/s Pharmadic for keeping in their cold storage facilities on behalf of hospital then the hospital make arrangement for its own appropriate storage facilities.

3. An undertaking by M/s Pharmadic Lab Dated 22-04-2014 was also found in the record to that effect that the firm will supply the balanced interferon as and when required by DHQ Mardan
4. A receipt dated 26-05-2012 issued by M/s Pharmadic indicate the 180,000 vials interferon was received by M/s Pharmadic Lab Lahore
5. A delivery Challan D.C No.3 dated 26-02-2011 issued by M/s Pharmadic indicate that DHQ Mardan was supplying 180,000 Hepaferon Injection Batch No.87 and 88
6. Lot release certificate of Batch No. 87 and 88 is enclosed

In view of above documents/ statement obtained from record of DHQ Hospital Mardan there appeared to be a number of Locumas which create doubts on the whole process of receipt and return of stock by DHQ Mardan.

Some documents received from the store Keeper given to Anti Corruption during investigation copies stock of 180,000 vials on dated 26th May 2012 and another letter of undertaking issued by pharmedic on 22-04-2011 regarding 180,000 vials letter received by the office of the Medical superintendent DHQ Hospital Mardan by Aurangzeb store Incharge dated 22-04-2011

Statement of MS Dr. Nigar Ahmed DHQ Hospital Mardan dated 03-06-2013 given to Anti Corruption Circle Peshawar In which he states that store Keeper informed him about the arrival of Hepaferon and with the directive of Director Hepatitis on telephone we received the stock and on the direction of Project Director Hepatitis as per the statement of store keeper Mr. Aurangzeb the stock was received and retuned back to M/s Pharmadic Lahore for keeping at their cold storage until the DHQ Mardan will not arrange their own cold storage facilities as per stamen of store keeper Mr. Aurangzaib DHQ Mardan

Part 3

On the request of Director Hepatitis Program KPK and the DRAP Islamabad issued direction to Fid Lahore to take samples from the stock of KPK Government lying with M/s Pharmedic Lahore custody quantity is 837894 vide letter No.4186/PHCP dated 13-01-2014

In continuation to DRAP letter direction Mr. Ajmal sohail area FID Lahore and Dr. Akbar Ali area ADC Lahore visited the premises of M/s Pharmedic Lahore an checked the stock of Hepaferon of the stock of KPK government and it was observed that all the stock of interferon of B.No. 81, 82, 88, 89, 90, 91, 92, 93, 94 and 95 was found kept at room temperature. Therefore the panel could not take samples for test analysis as the storage condition was not maintained under section 18(I) of the Drug Act 1976 requiring a person not to dispose of the stock in his possession on Form-I and required the concerned authority to grant permission for extension in not to dispose of period under clause (i) of subsection (I) of the section 18 of the Drug Act 1976 for 3 months or till the decision

The FID submitted that they are also sending complete suo Moto judgment copies of Honorable High Court Peshawar for information and necessary action attached with this letter

Keeping in view all the facts and correspondence and substandard tests reports issued by Govt. analyst NCL Biological Islamabad the following persons may please be included in prosecution under section 23(1)(a)(v)(vii) and 23(1)(a)(vii) and 23 (1) (b) (f) violation of cold chain storage condition who are directly or indirectly involved

Accused

i. Mr. Iftikhar Ahmed Shiekh, Director/C.E.O
ii. Mr. MazharHussain, Production Incharge.
iii. Mr. AsimMehmood, Quality Control Inchage

Co Accused

i. Dr. GhulamSubhani Director Hapatitis Program (Co-accused)
ii. Mubarik Shah, Store Keeper LRH Hapatitis Program (Co-accused)
iii. Dr. Nigar Ahmed, Ms DHQ Mardan
iv. Mr. Aurengzaib, Store Incharge, DHQ Mardan (Co-accused)
v. Dr. Chuhan Director (Co-accused),
vi. Dr. Sharif, Director (Co-accused)

Witness

1. Mr. Abdul Samad Khan Director/ Federal Govt.analyst NCL for Biological Islamabad.

Proceeding and decision of 279th meeting of DRB:

The Board decided to issue the show cause notice and personal hearing to the accused persons of the firm responsible for manufacturing and selling of substandard interferon injection, as the purchaser had purchased the injection under the warranty issued by the manufacturer. Hence, they are protected under section 32 of The Drugs Act, 1976.

Proceeding and decision of 284th meeting of DRB:

The board deferred the case till the next meeting of Registration Board.

Proceeding and Decision of the 286th Meeting of Registration Board.

Mr. Syed Anees Ur Rehman Kirmani (Manager Regulatory Affairs) of M/s Pharmedic Laboratories (Pvt.) Ltd., Lahore and Shahid, Advocate (35200-1420583-9) appeared on behalf of M/s Pharmedic Laboratories (Pvt.) Ltd., Lahore to plead instant case of Substandard Hepaferon Injection (Interferon) drug before the Board in its 286th meeting on 16th November, 2018. The Board decided to defer the case keeping in view of the request of the firm for detailed show cause notice to the accused persons and to come up in the upcoming meeting of Registration Board."

Show cause notice was served to the firm and accused as per decision of 286th meeting of the Registration Board dated 09th April, 2019 and their reply is still awaited.

Proceeding and decision:

Mr. Syed Anees, Regulatory Manager(38403-868689026-9) of M/s Pharmedic Laboratories (Pvt.) Ltd., Lahore and Shahid Sulehri, Legal Manager (35200-1420583-9) appeared on behalf of M/s Pharmedic Laboratories (Pvt.) Ltd., Lahore to plead instant case of Substandard Hepaferon Injection (Interferon) drug before the Board in its 289th meeting on 16th May, 2019.

The representative of the firm informed the Board that delay in reply to show cause notice was due to unavailability of the Chief Executive Officer of the firm, as he was abroad. They also submitted written reply to the show cause notice issued to them vide reference No.03-48/2013- (QC) dated 09th April, 2019.

The Board after hearing the accused deliberated the matter in depth in the light of available record/ investigation report of FID decided to thoroughly review the reply of the show cause notice and defer the case till next meeting of the Registration Board.

Case No. 05: Deligation of Powers to Change The Panels Constituted By The Registration Board.

Sometime the inspection of any facility could not be conducted due to non availability of the any of the members which delays the inspection. Sometimes the inspections are delayed for long period. It is therefore proposed that to avoid unnecessary delays, the powers to constitute or reconstitute the panels may be delegated to the Director, QA&LT, DRAP, Islamabad so that unnecessary delay me be overcome.

01. Manufacture & Sale of Sub-Standard Atrofate Sulphate Injection, Batch No. AT.10118 Manufactured By M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore.

FID-II, DRAP, Lahore visited the premises of M/s Bajwa Pharmaceuticals Industries, 36-km GT Road, Gujranwala Road, District Sheikhupura on 21-02-2018 and taken following sample U/S 18(1) (c) of the Drugs Act, 1976 for the purpose of test/analysis on prescribed Form-3:

Name:	Atrofate Sulphate Injection
composition	Each ml contain 1mg of Atropine Sulphate
Registration No:	085776
Batch No:	AT.10118
Manufacturing Date:	Jan.2018
Expiry Date:	Dec.2019
Manufactured By:	M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore

FID-II, DRAP, Lahore has forwarded one sealed portion of sample to Central Drugs Laboratory, Karachi vide memorandum No.2999/2018-DRAP (L-II) dated 01-03-2018 as required under Section 19(3) (i) of the Drugs Act, 1976.

FID-II, DRAP, Lahore has also forwarded one sealed portion of sample as Board's Portion vide letter No.3000/2018-DRAP (L-II), dated 01-03-2018 as required under Section 19(3)(ii) of the Drugs Act, 1976.

The Federal Government Analyst, CDL, Karachi declared the sample as of **sub-standard** quality vide test/analysis **report No.LHR.26/2018**, on the basis of pH (**pH determined= 5.72, Limits= 2.8-4.5**) dated 20th April, 2018.

FID-II, DRAP, Lahore vide letter No.5464/2018-DRAP (L-II) dated 24-04-2018 directed M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore to recall the said drug on war foot basis.

M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore submitted their reply vide letter No.BPL/MOH/18/101dated 14-05-2018 wherein they challenged the results of the CDL, Karachi and requested for retesting of sample by appellate laboratory – NIH, Islamabad U/S 22 (4) of the Drugs Act, 1976.

On the request of the firm, sample was sent for the appellate testing from Appellate laboratory, NIH, Islamabad dated 13-08-2018 under section 22(5) of the Drugs Act, 1976 after seeking due approval from the Chairman, Registration Board (in exercise of delegated power of Registration Board in it 283rd Meeting held on 27 to 29th June, 2018) as required U/S 22(5) of the Drugs Act, 1976.

The Appellate Laboratory – NIH, Islamabad vide their test report No.018-M/2018 dated 04-10-2018, has also declared the sample as of **Sub-standard** quality on the basis of pH **(pH determined=6.08, Limits= 2.8-4.5)**.

Stance of The Firm:

M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore vide reference No.BPL/MOH/18/138 dated 03 November, 2018 have stated that upon testing of samples in quality control lab, pH of Atrofate sulphate (Atropine sulphate 1mg/ml) injection was found within limits as per BP 2017 specifications.

They stated that all other tests complied BP specs such as assay, physical Appearance, BET and sterility but pH showed compliance with USP 39 specifications instead of BP specifications. However pH results did not interfered physical appearance and no complaint was received from health section regarding pH doing harm for human.

They further requested that production of the said product is stopped on the orders of FID and if they are given a chance to resume production of the said injection, it would be very helpful to overcome the shortage of emergency product in major hospitals. They further requested to review their product as they are under immense pressure from major institutional hospitals.

Remarks of the Deputy Director (Quality Control):

The sample of Atropine Sulphate was declared on the basis of Ph limits. The company stopped production of the said product and conducted investigation. They also conducted the stability studies. Furthermore the said product is reportedly short item. The case is yet to be considered by the Registration Board. To save the time it is proposed that a panel may be constituted for verification of the stability data and product specific inspection, so that if the company fulfills the criteria, they may start production to avoid market shortage and to ensure free availability.

Proceeding and Decision of the 287th Meeting of Registration Board.

The facts of the case were presented before the Registration Board in its 287th meeting on 04th January, 2019. The Board deliberated the matter in depth in the light of available record/ remarks of the Deputy Director (Quality Control), decided as under:

I. Verification of the stability data provided by the firm as soon possible by the following panel of inspectors:
   - Additional Director, DRAP, Lahore.
   - Dr. Shafiq Ur Rehman, Director, DTL, Lahore.

The above said decision was communicated to the firm and panel members vide letter No.F.03-92/2018-QC (287-RB) dated 28th February, 2019.

M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore vide reference No.BPL/MOH/19/159 dated 29th April, 2019 stated that since the issuance of above said letter, the firm has still not been inspected by constituted panel of inspectors. They further requested to reconstitute the panel to resolve the matter and oblige.

Proceeding and decision of the Board.

The case was presented before the Registration Board in its 289th meeting on 16th May, 2019 for reconstitution of the panel which was constituted by the Board in its 287th meeting and the Board reconstituted the panel as follows;

a) Director, Drug Testing Laboratory, Lahore.
b) Area Federal Inspector of Drugs.

02. Manufacture & Sale of Sub-Standard Ann-vil Injection Batch No. H-07616 manufactured by M/s Venus Pharma, Lahore.

The sample of Ann-vil Injection Batch No. H-07616, Reg. No.012083, manufactured by M/s.Venus Pharma, Lahore has been declared **Sub-Standard** by Federal Government Analyst vide test report No. LHR.292/2016, dated 21st June, 2016. The sample of failed drug was taken by FID Faisalabad at Lahore, on 12-04-2016 from Manufacturer's Premises for test/analysis. The results of CDL, Karachi on the basis of which the subject stated product was declared substandard are as under;

Substandard with regard to;

Bacterial Sterility Test: (With protocols of test applied) Manufacturer's specifications Does not comply.

Procedure: Put the content (gauze) of the sample in presterilized thioghycollate medium, kept in medium flask. Incubate the same medium flask at 30˚C to 35˚C for 14 days.

Acceptance Criterion: No growth of micro organism occurs.

On explanation letter issued by the FID Faisalabad at Lahore on 20-07-2016, M/s Venus Pharma, Lahore submitted a reply vide its letter No./VP/FY/49/16, dated 23-07-2016, wherein the firm challenged the test/analysis report of CDL Karachi for retest by Appellate Laboratory at NIH, Islamabad. The Appellate Laboratory also declared the sample Substandard vide test report No. 020-M/2016 dated 20th October, 2016. The results of Appellate Lab, NIH, Islamabad on the basis of which the subject stated product was declared substandard are as under;

(With protocols of test applied) Manufacturer's specifications

Description: Colorless liquid contained in amber colored labeled glass ampoules having fibers and particles packed in an outer carton. **(Does not comply with manufacturer's specifications which states that Ann-vil Injection is clear colourless solution).**

In the light of Appellate Laboratory test report, the FID served an explanation letter dated 09-12-2016 to the firm. In its reply vide No. / VP/FY/49/16 dated 13-12-2016, the firm M/s Venus Pharma Lahore has pleaded that the report of NIH is incomplete on the following grounds:-

i. NIH has not mentioned the method of inspection of fiber and particles.
ii. It has not been clarified that how the visual inspection was carried out i.e., by naked eye or by some equipment.
iii. NIH has not pointed out the nature and size of particle.

FID Faisalabad at Lahore furnished the names of responsible persons as under;

i. Mr. Pervaiz Iqbal Siddique, Managing Partner.
ii. Mr. Akbar Ali Malhi, Production Manager.
iii. Miss Saadia Khan, Quality Control Manager
iv. Mr. Muhammad Usman Akhtar, Quality Assurance Manager

In response to show cause notice issued to the firm on 09th March, 2017, the firm M/s Venus Pharma, Lahore submitted its reply to show cause notice dated 15-03-2017. The firm stated that according to CDL test report No. LHR.292/2016 the sample was cleared in all tests i.e. Visual Inspection, pH, Volume, Identification and Assay except Sterility test. The result was challenged for retesting from NIH Islamabad and according to test report No. 020-M/2016, the product is clear in all tests including the sterility test. However NIH has pointed out the fiber and particle in the sample. The firm further stated that the report of NIH is incomplete because the NIH Analyst

has failed to mention the method of inspection of fiber and particles. It has not been clarified that how the visual inspection was carried out i.e., by naked eye or by some equipment. Moreover NIH has not pointed out the nature and size of particle because as per Honorable High Courts of KPK, Punjab and Sindh, the test report is invalid until and unless the Nature and Size of particle is not indicated. Moreover, neither the FID nor CDL had seen the Fibers / Particles.
The accused persons of the firm, M/s Venus Pharma, Lahore were called for personal hearing.

Proceedings:

The subject case was considered by the Registration Board in its 270th meeting dated 26-05-2017. Mr. Umair Pervaiz, Director and Mr. Hafiz Nisar Ahmad, Production Manager of the firm M/s Venus Pharma, Lahore appeared before the Board and pleaded their case. Umair Pervaiz, Director, M/s Venus Pharma, Lahore argued that the Appellate Lab Lahore declared the product substandard on the basis of description having fiber and particle but they tested/analyzed their retention samples and the recalled samples which are clear. On inquiry raised by Secretary Registration Board, Dr. Obaidullah, Director, M/s Venus Pharma, Lahore told that they use USP type I ampoules for their product.

Decision:

The Registration Board after detailed discussion, deliberation, considering all the pros and cons of the case and discussion with Umair Pervaiz, Director and Mr. Hafiz Nisar Ahmad, Production Manager of the firm M/s Venus Pharma, Lahore, decided the case as under:-

i. The firm will recall the batch No. H-07616 from the market on immediate basis and area FID will supervise the destruction.
ii. To suspend the Registration of "Ann-vil Injection, Reg. No.012083" for six (06) months.
iii. To conduct PSI (Product Specific Inspection) to identify the root cause of manufacture of substandard product, and investigate with reference to product in question by a panel comprising of following members:
    a. Additional Director, QA & LT, DRAP, Islamabad.
    b. Director, DTL, Lahore
    c. Area FID
iv. The area FID will conduct sampling of Ann-vil Injection at resumption of production and send for test/analysis.

That the above said decision of 270th meeting of Registration Board was communicated to the firm vide reference No.F.03-28/2016-(QC) dated 13-07-2017. Reminder of the same was issued dated 07-12-2018.
Ms Venus Pharma, Lahore vide reference No. nil dated 24th February, 2019 referred DRAP, Islamabad letter No. 03-28/2016-(QC) and requested for change in the inspection panel for the said PSI.

Proceeding and decision of 289th meeting of Registration Board.

The case was presented before the Registration Board in its 289th meeting on 16th May, 2019 for reconstitution of the panel which was constituted by the Board in its 270th meeting and the Board reconstituted the panel as follows;

c) Director, Drug testing Laboratory, Lahore.
d) Area Federal Inspector of Drugs.

Case No.06: Manufacture & Sale of Sub-Standard Kawach Gel Batch No. KWI-4116 By M/S Lomus Pharmaceuticals (Pvt) Ltd, Nepal.

ADC-II, DRAP, Karachi inspected the premises of M/s Jhpiego, H. No. D-66 Block-II, Kehkashan Clifton, Karachi on 29-03-2017 and drew the sample of Kawach Gel Batch No. KWI-4116 having Expiry Date **August, 2019** mentioned on Form 3 manufactured by M/S Lomus Pharmaceutical Nepal imported by M/s Jhpeigo, karachi. Details are as under:

Name of Drug	Batch No.	Mfg. Date	Exp. Date	Manufactured by
Kawach Gel (Chlorhexidine)	KWI-4116	Sep-16	Aug-19	M/s Lomus Pharmaceutical Nepal

The above said sample has been declared as of Substandard quality by the Federal Government Analyst, CDL, Karachi on the basis of assay content **(Determined percentage – 111.8%, Limits – 90-110%, USP-40)** vide their test report No.KQ.213/2017 dated 15th June, 2017.

In the light of the above test report of Federal Government Analyst, CDL, Karachi explanation letters of reference No.F.DMK-15-18/2017-ADC-II (K) dated 21-06-2017 & 17-07-2017 were issued to M/s Jhpiego H. No. D-66 Block-II, Kehkashan Clifton, Karachi for explaining their position in the matter of importing and distribution of above mentioned substandard drug with the direction to recall the above said substandard drug/batch from the market.

M/s Jhpiego H. No. D-66 Block-II, Kehkashan Clifton, Karachi submitted their reply vide reference No.JP/NOC/DRAP-002/17 dated 23-06-17 & reference No.JP/NOC/DRAP-003/17 dated 21-07-17 wherein they have stated that from 16 districts of Sindh all 78,000 chlorhexidine 10gm tubes from B#4116 identified & 67612 are collected back, stored at their out sourced storage place and also requested for retesting from appellate laboratory, NIH, Islamabad as provided under section 22 of the Drugs Act, 1976.

As per request of the firm, the sample was sent to appellate laboratory, NIH, Islamabad dated 25-09-2017. The Appellate laboratory, NIH, Islamabad, vide test report No.019-M/2017 dated 06th November, 2017 declared the above said sample **Misbranded** as Urdu version of language, Registration number, local place of business, agent, indenter or distributor is neither mentioned on the immediate pack nor on the outer carton which is violation of packing and labeling rules of the Drugs Act, 1976.

The Assistant Director-II, DRAP, Karachi was requested to investigate the matter thoroughly and provide the details of SRO under which this donation was allowed to import for public use and clarify whether the labeling rules are applicable in this case or not vide letter F.No.3-37/2017-(QC) dated 05th January, 2018.

Assistant Director-II, DRAP, Karachi vide reference No.F.DMK-15-18/2017-ADC-II (K) dated 09-01-2018 provided the document including SRO 577(I)/2016 along with NOC/permission granted to import the 1st batch (150,000) units of the drug 7.1% Chlorhexidine Digluconate gel Release Chlorhexidine 4% W/W 10 gram tubes from M/s Lomus Pharmaceutical, limited Nepal. The NOC is not related to the Batch from which sampling was done by Assistant Director-II, Karachi, DRAP. The details are as under:

s. no.	**Particulars**	**Exp. Date**	**Category**	**Quantity**
1	Chlorhexidine gel 4% w/w	**Aug. 2017**	Medicine	150,000
Total				**150,000**

Assistant Director-II, DRAP, Karachi submitted that NOC for the consignment was issued by the office according to the SRO. 577(I)/2016 in accordance with the approved guidelines by the DRAP. Moreover it was also submitted that the above drug was imported as donation for supply

to Government of Sindh under Maternal and Child Health Program (MCHIP) as free of cost to needy patients. Hence labeling and packing Rules are not applicable for such import according to the above mentioned SRO.

Assistant Director-II, DRAP, Karachi was once again requested, vide letter F.No.3-37/2017-QC dated 30th January, 2019 to provide the NOC/clearance certificates including fair copy of application mentioning the Batch number and quantities of the subject cited drug along with other supporting documents, if any along with complete case with clear and candid recommendations for consideration of the Registration Board.

Assistant Director, DRAP, Karachi vide reference No.F.DMK-15-18/2017-ADC-II (K) dated 14th February, 2019 & No.F.DMK-15-18/2017-ADC-II (K) (377) dated 21st March, 2019 submitted the complete case for consideration of the Registration Board wherein ha has stated that consignment was imported as donation for supply to the Government of Sindh under Maternal and Child Health Integrated Program (MCHIP) hence labeling and packaging rules are not applicable for such import. He further added that No foreign exchange is involved as no payment has been made by M/s Jhpiego Clifton Karachi invoice amount only for custom purpose. M/s Jhpiego Clifton Karachi supplied the Kawach Gel free of cost in MNCH Program Government of Sindh.

The Assistant Director DRAP Karachi recommended that M/s Jhpiego Clifton Karachi may be allowed to utilize the remaining stock of Kawach Gel i.e. 67708 tubes in MNCH Program Government of Sindh before its expiry.

During evaluation it was observed that 2 invoices are provided, one is from manufacturer M/s Lomus Pharmaceuticals dated 04-11-2016 and second ADC attested **commercial invoice** is from M/s Logenix dated 29-09-2016.

No NOC was issued by DRAP Karachi for clearance of the consignment. An NOC vide No. F.3-8/2014-I&E (Vol-I) dated 11-03-2016 was issued by DRAP Islamabad for clearance of 150,000 units only where as in actual 250,000 units were cleared.

Proceeding and Decision:

The Board after perusing the record/ document of the instant case deliberated that the instant case is of unregistered drug and does not come under preview of the Registration Board as the Registration Board deals with the cases of registrar drugs referred by FID under sub rule (2) of rule (4) of the Drugs (Federal Inspectors, Federal Drug Laboratory & Federal Government Analysts) Rules, 1976. Moreover, as case pertains to donation of un-registered drugs permitted under special SRO thus it would be appropriate that licensing authority under Drugs (Import & Export) Rules, 1976 may decide the case.

Case No.07: Manufacture & Sale Of Adulterated & Sub-Standard "Oxytocin Injection (for vetonly)"Batch No. 2876 Manufactured By M/S. Elko Organization Pvt, Ltd, Karachi.

The matter of Adulterated and Substandard Oxytocin Injection Batch no 2876 manufactured by M/s Elko organization, Karachi, by CDL, Karachi vide report no. KQ.461/2014(B) dated 26th November, 2014, was placed before the Registration Board in its 248th meeting and RB decided as under:

I. Suspended the registration of oxytocin injection, registration no. 011122 of M/s Elko Organization (Pvt), Ltd, Karachi for a period of six months.

II. Investigation through a Product Specific inspection (PSI) by a panel comprising of director DTL Quetta, Chief Drug Inspector, Sindh and Area FID karachi.
III. The panel will also witness the destruction of the recalled/withheld stocks of the drug under reference.

That the letter regarding PSI was conveyed to panel members vide letter no. 3-56/2014-QC dated 22nd April, 2015. It was requested to conduct PSI by the panel members as under:

I. Dr. Amanullah Khan, Director, Drug Testing Laboratory, Quetta.
II. Syed Kalb-e- Hasan Rizvi, Chief Drug Inspector, Sindh.
III. Abdul Rasool sheikh, Area FID, Karachi.

That the reminders were issued to Additional Director, DRAP, Karachi to conduct PSI and submit the report by panel vide letter no. 3-56/2014-QC dated 9th October, and 26th October, 2017.

PSI report received from Additional Director, DRAP, Karachi vide F. no. 01-04/2017-DRAP(K)(Insp) dated 15th November, 2017 received on 23rd November, 2017 wherein he enclosed the detailed PSI report (duly signed) conducted by panel vide f. ARS.000245/2015-FID-III(k) dated 15th November, 2017.The panel members are as under:

I. Dr. Amanullah Khan, Director, Drug Testing Laboratory, Quetta.
II. Syed Kalb-e- Hasan Rizvi, Chief Drug Inspector, Sindh.
III. Abdul Rasool sheikh, Area FID, Karachi.

That the following points in the report submitted by Additional Director, DRAP, Karachi are as under:

- **Good practices in production**: The root cause of failure was rubber stopper which was not washed properly as rubber stoppers were being washed manually. Factors triggering such incidents were reviewed in detail. Keeping in view the instant failure stringent checking was found in place to avoid the occurrence and recurrence of such failures in future.
- **QA system**: with respect to the subject case their SOPS regarding failures and controlling the deviation were reviewed in detail. After receiving the report the firm had started to find out the root cause of the problem and total three batches were also investigated. The firm was found capable enough to investigate their failures as per SOPs. Appropriate in process checks were noted in place.

That the conclusion of the report submitted by panel is reproduced as under:

After investigating the root cause analysis (RCA) of the failure and subsequent rectification of the problem the firm had resumed the manufacturing of oxytocin injection after the lapse of suspension period and keeping in view the current status of their compliance the panel recommends that the firm may be allowed to continue the manufacturing of oxytocin injection. The panel further observed that the retained stocks in quarantine were destructed as per their approved SOP on 01.11.2016.

- Meanwhile, it is pertinent to mention that FIA Karachi is conducting enquiry 22/2017 on the complaint of Provincial Inspector of Drugs, Karachi about illegal import of oxytocin and manufacturing of oxytocin injections manufactured by M/s Elko organization, Karachi during suspension period. The FIA raised the following queries in this respect as under:

I. Copies of minutes of meeting of 248th Drug Registration Board where registration no. 011122 of M/s Elko organization Pvt., ltd was suspended.
II. Import details of oxytocin by M/s Elko Organization during 2015 to till date.

III. Procedure/ DRAP regulations to import oxytocin (in any form) into Pakistan by manufacturers of oxytocin for human and veterinary usage.
IV. Details of importers viz name of company, quantity imported, etc.
V. Details of any ban imposed on manufacturing or importing (in any form) of oxytocin by DRAP.

Similarly, NAB is also conducting an enquiry.

Proceeding and Decision of 278th Meeting of RB:

Product Specific Inspection report and import data forwarded by AD (I&E) DRAP Karachi about import of oxytocine raw material was contained by the DRB and discussed in details.

- The queries of the FIA Karachi and NAB were also brought in the knowledge of the Board members. The DRB after through deliberation decided as under:-
- That the company violated the orders of the DRB, statutory body and continued import of raw material during the suspension period as per detail are given below.
- The company resumed production of oxytocin vials without approval of the DRB.
- The Board decided to issue show cause notice & personal hearing letter to the firm for their violation in the forthcoming meeting.
- It was also decided that the Registration of the oxytocin shall remain suspended till final decision by the DRB in the forthcoming meeting.
- Registration Board advised PE&R Division to present the case regarding alleged use of oxytocin vials for enhancement of milk production in the animals.

The Board decided to issue show cause notices of multi dose vials on the same lines which have been adopted by India. They allow only one ml oxytocin ampoule for human use only.

Proceeding and Decision of 281st meeting of DRB

Representatives of the M/s Elko appeared before the DRB and stated that M/s Elko did not manufactured oxytocin vials whose registration was suspended by the DRB. They manufactured 1cc injection of oxytocin which was also registered by the DRB. They further contented that after the expiry of suspension period they were legally authorized are manufacturing of oxytocin vials. DRB member law also opined that after the expiry of suspension period, the bar on the company is automatically revoked. The DRB after detailed deliberations and discussion constituted a Committee comprising of (Dr. Saif ur Rehman Khattak Director CDL Karachi and Additional Director Karachi) to investigate following issues:-

1. It shall be verified whether API of oxytocin vial for veterinary use and oxytocin ampoules for human use is of same specification as per their registration letters issued by the DRAP and cleared by the Karachi DRAP office during the suspension period.
2. The Quantity of oxytocin vials and oxytocin ampoules manufactured, sold and distributed during suspension period should be verified by the Committee after evaluation of manufacturing data of oxytocin vials and ampoules from the manufacturing and distribution records. Random verification should also be obtained from the distributors etc. past manufacturing trend of the oxytocin ampoules may also be taken into account while evaluating the manufacturing of oxytocin ampoules and vials during the suspension period
3. The Committee should submit its conclusive report for consideration of the Board with candid opinion whether M/s Elko conducted manufacturing of oxytocin vials during the suspension period of six months or not. It shall also be verified that the firm import of raw material was on the basis of oxytocin vials or oxytocin ampoules registrations.

4. Decision of cancellation of registration of Oxytocin vial in the light of show cause notice issued to the firm will be taken after the receipt of committee report.

Proceeding of 286th Meeting of Registration Board.

Inspection report is received on 05-10-2018 in response to DRAP, Islamabad letter No.03-56/2014-QC dated 12-06-2018 on the subject regarding "Investigation report on manufacturer and sale of adulterated and substandard Oxytocin injection (for vet only) Batch No. 2876 manufactured by M/s Elko Organization (Pvt.) Ltd., Karachi" wherein the finding of the investigation with respect to the scope are as under:

The committee mainly focused on the areas / issues as mandated to it by the Registration Board under the scope of this investigation.

A. <u>Official specifications of oxytocin raw material and registration of the firm</u>

1. Oxytocin injection has been used in humans as well animals. Monographs of oxytocin raw material and oxytocin injection are available both in United States Pharmacopeia and British Pharmacopeia. **The raw material of oxytocin for veterinary use has the same specifications as that for human use and the imported raw material of oxytocin was also of the same specifications. However, it also revealed that M/s Elko Organization (Pvt.) Ltd., Karachi does not hold registration of oxytocin ampoule for human use (undertaking of the firm attached as Annex-A).**

02. M/s Elko Organization (Pvt.) Ltd., Karachi holds following registrations of products containing oxytocin:

Name of product	Strength	Registration Numbers	Packing	Use
Oxytocin 5 I.U injection	5 I.U	011121	100x1ml ampoule	Veterinary Use
Oxytocin 10 I.U injection	10 I.U	011122	100x1ml ampoule	Veterinary Use
			50ml Vial	Veterinary Use
			100ml Vial (that was declared substandard)	Veterinary Use
XZ injection (Oxytocin 20 I.U)	20 I.U	085466	100ml	Veterinary Use

(Annex-B)

Upon cross checking of import documents pertaining to the period of suspension of the referred products i.e. (22-04-2015 to 21-10-2015) that were submitted in the DRAP, Karachi office for obtaining clearance including undertaking of the firm regarding utilization and Form-8 under Drug import & Export rules 1976 of the Drugs Act, 1976, **it was observed that the import of oxytocin was raw material was not made for oxytocin 10 I.U. (Annex-C).**

B. Oxytocin raw material import and manufacturing of oxytocin injection (10 I.U, 50/100ml vials and 100x1ml ampoules).

01. Review of oxytocin raw material import record:

- As per import and warehouse record of M/s Elko Organization (Pvt.) Ltd., Karachi following quantities of oxytocin were available/ received in the firm:

Sr. No.	LC No.	LC Date	Invoice No.	Invoice Date	Delivered On	Quantity (MIU)
	Opening balance on 23-04-2015					322.7

Total quantity MIU						**4122.7**

Related invoices and record attached as Annex-D

- The documents on the yearly planned for import show that 3800 MIU oxytocin raw material was imported during the suspension period with the undertaking of manufacturing of oxytocin containing registration product but not for product under suspension, as per pre established agreement of the firm for annual supply with the API manufacturers **(copies of bin cards attached as Annex-F).**

02. Review of purchase record of packing material (Glass vials, Glass ampoules, Rubber Stoppers, Al. Seals, Unicartons and Labels).

The purchase record related to the packing material of 50ml and 100ml oxytocin injection (10 IU vials) show that no purchase/ use of 50ml, 100ml vials, Al. Sealslabels and unicarton was made by the firm during the referred product suspension period. Since rubber stoppers for 50ml and 100ml are also used for other products therefore, rubber stoppers have been purchased during the referred product suspension period but for other registered products of the firm. Similarly no glass ampoules have been purchased by the firm during the suspension period. **(Copies of bin cards attached as Annex-F).**

03. Review of production record of oxytocin injection (50/100ml vials).

- Physical inspection of the manufacturing equipments and confirmation by the manufacturer **(copy attached as Annex-G)** establish that the manufacturer has the capacity of manufacturing oxytocin injection as under:

- Minimum batch size capacity = 600 liters (12,000 vials of 50ml 0r 6000 vials of 100ml)
- Maximum batch size capacity = 3000 liters (60,000 vials of 50ml or 30,000 vials of 100ml).
- Maximum filling/ packing capacity = 70,000 vials/ 8 hours.

The previous record of the production shows that before and after suspension period the firm has manufactured mainly 50ml and 100ml oxytocin vials in 10I.U. potency.

- The scrutiny of production record i.e. raw material bin cards, daily production record, finished goods store bin cards etc. (copies attached as Annex-H) revealed that M/s Elko Organization did not conduct manufacturing of oxytocin products (the product suspended and oxytocin product whose registrations were valid) in the section of the firm during the suspension period i.e. 22-04-2015 ton 21-10-2015.

04. Review of quality control and quality assurance documents and record.

As per record of QC (Test/ analysis reports) and instruments utilization log books and tests log books the production and testing of the referred product could not be establish during the suspension period. The assay (potency) test of oxytocin injection is based on HPLC method as per United States Pharmacopeia therefore the specific HPLC (Shemadzu, LC-20AT) system

was also checked for audit trial for the same. Although proper audit trial was not available on the instrument, however, the available data on the instrument show that no batch of oxytocin injection was tested on the instrument during the suspension period **(copies of log book attached as Annex-I).**

The quality assurance record show that no batch number of the referred product was issued nor any new batch history record reviewed / authorized during the suspension period.

C. Review of sales record.

The firm has selling their veterinary products through their sole authorized agent for sale/distribution with the name and address as under:

M/s Shaheen Enterprises, Road No.9, Cattle Colony, Bin Qasim Town Karachi (**Copies of appointment of the distributor and related documents attached as Annex-J**).

As per record related to sale available at factory premises and at M/s Shaheen Enterprises, the sale/purchase of the referred product could not be established for the period of suspension other than the batches which were manufactured before suspension period **(copies of the sale record attached as Annex-K).**

D. Feedback from employees at manufacturing and sale premises.

The following employees/personnel were asked specifically for related information to assist the investigation process and to authenticate the record provided:-

S.No	Name of Technical person	Designation
1.	Mr. Muhammad Farooq	Plant Manager (DRAP approved person for production)
2.	Mr. Muneer Ahmad	QC Manager (DRAP approved person for QC)
3.	Ms. Shama Anees	Production Manager
4.	Ms. Leena Baig	Production Officer, Injection Section
5.	Mr. Mirza Ayaz Baig	Quality Operation Manager
6.	Ms. Syeeda Mahwish	QC Microbiologists
7.	Mr. Muzaffar Nawab	Raw Material Store Incharge
8.	Mr. Muhammad Ali	Finished Goods Store Incharge
9.	Mr. Tahir Javed	Proprietor Shaheen Enterprises

As per statement attached of the technical persons the production of any of the Oxytocin strength was not conducted (**copies attached as Annex-L).**

Conclusion

Keeping in view of the investigation, through scrutiny/review of record pertaining to the Import of Oxytocin Raw Material, production of Oxytocin products, quality control, storage, sales and distribution of 10 IU Oxytocin Injection, physical inspection of manufacturing, storage and distribution/retail sale site/outlets, examination of log books related to equipment/instrument utilization and processes and information/feedback gathered from related people it is concluded:

a. the firm has imported 3800 IU Oxytocin Raw Material (USP Grade) during the suspension period for utilization in 5 IU (Registration No.011121, 100x1ml ampoules packs) however, as per record the material was not utilized till 12.01.2016 i.e. resumption of 10 IU 50ml and 100 ml vials (Registration No.011122) production.

b. That, production of the Oxytocin vial 10 IU (100 ml) could not be established during the suspension period.

c. Firm resumed production by their self after the expiry of the suspension period i.e. 22.04.2015 to 21.10.2015.

d. The committee is also of the opinion that the necessary sale record could be verified in detail, if necessary, through provincial health authorities because of availability of adequate field force.
e. The committee also recommends that necessary directions may please be issued to the firm for availability of 21 CFR compliant equipments/ instrument in the QC Lab for audit trail purposes.

Decision:

The board considered the report of the committee and after deliberation, the Board decided as under:

1. The registration of oxytocin vial shall remain suspended till the final decision by the Registration Board about the cancellation of registration of multi dose oxytocin vials in the light of show cause notices approved by the RB. Its fate will be decided collectively as a policy decision.
2. The provincial governments shall be requested to verify the sales data of oxytocin vials during the suspension period (22-04-2015 to 21-10-2015) of oxytocin which is subject matter. The sales data oxytocin ampoules shall also be verified that was sold by M/s Elko Organization during the said period.
3. Certified copy of the List of Distributors and sales and distribution data of the oxytocin vials and ampoules will be obtained from the company through area FID.

That the above said decision was communicated to the firm vide letter No.F.03-86/2018-QC (286-RB) dated 16th January, 2019 with direction to comply with the decision of the Registration Board. Reminder of the same was issued vide letter No.F.03-56/2014-QC dated 12th March, 2019.

That the area FID was once again requested to comply with the decision of the Registration Board vide letter No.F.03-56/2014-QC dated 12th March, 2019. Certified copy of the List of Distributors and sales and distribution data of the oxytocin vials and ampoules is yet awaited. Accordingly the verification of sales/distribution data could not be sent to the provincial authorities. The matter is already investigation by the NAN authorities and Mr. Sajjad Ahmad Abbasi has been nominated for assistance to Combined Investigation team headed by Mr. Saeed Ahmad Sheikh (CO-B) at investigation Wing-II, NAB, Karachi by the CEO, DRAP and communicated vide letter No.F.03-56/2014-QC dated 09th April, 2019 and 17th April, 2019.

It is recommended that the registration of the product may remain suspended until M/s Elko Organization cooperates and submits data for verification and the same also verified at ground level by the provincial authorities who are also complainant before the NAB and FIA.

Proceedings of 289th meeting of DRB:

The Board was appraised that the FID DRAP Karachi has forwarded partial data pertaining to M/s Elko organization (Pvt.) Ltd., Karachi vide F.No. 000245/2017-FID (K) dated 07th May 2019. Evaluation of this partial data reveals that it is only for 100ml vials only and Registration No. is also not mentioned. The data of other pack size i.e. 1ml ampoule and 50ml vial with Reg.No. 011122 is yet to be provided. The batch No. in the partial data before and after the resumption period is not in continuation.

The Board was further appraised that M/s Elko Organization (Pvt.) Ltd., Karachi has filed a Constitution petition No.D-562 of 2019 titled M/s Elko Organization (Pvt.) Ltd., Vs Federation of Pakistan & others in the High Court of Sindh at Karachi, which is fixed for hearing on 21-05-2019.

Decision:

The Board after perusing the record/ document of the instant case deliberated the matter in depth and decided as under:

- **That cancellation of registration of multi-dose oxytocin vials is a separate issue and shall be decided by the Registration Board separately as a policy decision.**

- **Suspension of oxytocin 10 IU Injection (Reg.No. 011122) was not due to above issue rather due to manufacturing of Adulterated and Substandard Oxytocin Injection Batch No. 2876.**

- **That the firm M/s. Elko Organization (Pvt) Ltd., Karachi has three registration of oxytocin namely Oxytocin 5 I.U injection (Reg.No. 011121) in pack size of 100x1ml ampoule, Oxytocin 10 I.U injection (Reg.No. 011122) in pack size of 100x1ml ampoule, 50ml vial and 100ml vial and XZ Injection (Oxytocin 20 IU) (Reg.No. 085466) in pack size of 100ml.**

- **Registration Board has suspended Oxytocin 10IU Injection (Reg. No. 011122) in pack sizes of 100x1ml ampoule, 50ml vial & 100ml vial. The other two products Oxytocin 5 I.U injection (Reg.No. 011121) and XZ Injection (Oxytocin 20 IU) (Reg.No. 085466) have not been suspended.**

- **Registration Board is investigating the manufacturing of Oxytocin 10 IU Injection (Reg.No.011122), in pack size of 100x1ml ampoule, 50ml vial and 100ml vial during suspension period (22-04-2015 to 21-10-2015).**

- **Sales data of Oxytocin 10IU injection (Reg.No. 011122) in pack size of 100x1ml ampoule, 50ml vial and 100ml vial is to be verified from Provincial Governments after provision of same along with list of distributors from M/s Elko Organization.**

- **The product Oxytocin 10IU injection (Reg.No. 011122) in pack size of 100x1ml ampoule, 50ml vial and 100ml vial shall remain suspended till verification of sales data.**

- **A report with above status shall be presented before the Honorable Sindh High Court on next date of hearing.**

Additional Agenda

A. Biological Drugs Division:

1. Application for Change of Address of M/s Roche Pakistan Limited, Karachi for already registered products;

M/s Roche Pakistan Limited, Karachi has applied for change in address of their head office and godown for already registered human biologicals as per following details:

Sr. No.	Reg. No.	Product Name	Date of Initial Registration	Date of Last renewal Submission	Previous Address of Importer	New Address of Importer
1.	043004	Avastin 100mg/4ml	22-03-2006	21-03-2016	37-C, Block 6, P.E.C.H.S., Karachi	1st Floor, 37-B, Block 6 PECHS, Karachi
2.	043005	Avastin 400mg/16ml	22-03-2006	21-03-2016		
3.	032130	Herceptin 440mg Vial	04-08-2004	28-07-2014		
4.	032131	Solvent for Herceptin 440mg	04-08-2004	28-07-2014		
5.	059052	Mircera Injection 50mcg	02-09-2009	28-08-2014		
6.	059051	Mircera Injection 75mcg	02-09-2009	28-08-2014		
7.	059050	Mircera Injection 100mcg	02-09-2009	28-08-2014		
8.	059049	Mircera Injection 150mcg	02-09-2009	28-08-2014		
9.	059048	Mircera Injection 200mcg	02-09-2009	28-08-2014		
10.	019576	Recormon 2000 Inj.	26-03-1998	29-01-2018		
11.	019577	Recormon 5000 Inj.	26-03-1998	29-01-2018		
12.	019578	Recormon 10000 Inj.	26-03-1998	29-01-2018		
13.	031394	Ristova 100mg/10ml	28-02-2013	12-01-2018		
14.	031395	Ristova 500mg/50ml	28-02-2013	12-01-2018		
15.	077512	Ropegra	19-09-2013	29-08-2018		

The firm has submitted following documents;

i. Fee of Rs. 5000/- for each product.
ii. Copy of registration lettersand last renewal submissions.
iii. Copy of valid DSL for new address.

In this context, it is submitted that the last renewal applications of products at sr. 5 to 15 are available in this division and were submitted in time while for products at sr. no. 3 to 4, the original renewal applications have been provided by RRR and for products at sr. 1 to 2, the RRR section provided the copies of renewal submissions and verified that the renewal applications were submitted in time.

The firm has applied for new address as **"1st Floor, 37-B, Block 6 PECHS, Karachi"**while in the address mentioned on new Drug sale license is "**1st 37-B, Block 6 PECHS, Karachi**" and word "Floor" is missing. Moreover, the address of godowns where the above products will be stored as per new DSL are as under:

"1. R-PI, Plot No. 116, Sector 15, K.I.A, Karachi.
2. R-PI, Plot No. 56, Sector 15, K.I.A, Karachi."

The tabulated detail is as under:

Address of Head Office as per new DSL	Addresses of godowns as per new DSL
1st 37-B, Block 6 PECHS, Karachi	i. R-PI, Plot No. 116, Sector 15, K.I.A, Karachi. ii. R-PI, Plot No. 56, Sector 15, K.I.A, Karachi.

Decision: **Keeping in view the valid Drug Sale License, Registration Board approved the change in address of importer of above products from M/s Roche Pakistan Limited, 37-C, Block 6, P.E.C.H.S., Karachi to M/s Roche Pakistan Limited, 1st Floor, 37-B, Block 6 PECHS, Karachi subject to storage facility verification of new godowns situated at R-PI, Plot No. 116, Sector 15, K.I.A, Karachi and R-PI, Plot No. 56, Sector 15, K.I.A, Karachi.**

2. Appeal Filed by M/s MarushPvt Ltd.,Lahore in the Appellate Board against the decision of Registration Board taken in 287th meeting held on 3rd & 4th January, 2019.

M/s MarushPvt. Ltd. Lahore filed the appeal in the Appellate Board against the decision of the Registration Board whereby the Registration Board refused to confirm the renewal status of following products registered in the name of M/s MarushPvt. Ltd., Lahore:

Sr#	Reg. No.	Name of Product
1.	039911	Cevac Broiler ND K Vaccine
2.	039910	Cevac Transmune IBD Vaccine
3.	022799	Cevac ND IB EDS K Vaccine
4.	022796	Cevac ND IBD K Vaccine
5.	022792	Cevac ND IB K Vaccine

The decision of the Registration Board is reproduced below:

Decision of Registration Board (287th meeting) held on 3rd & 4th January, 2019:

"During the deliberations Registration Board observed that the firm is involved in import of unregistered drugs, used of forged registration letters and various clearance authorization by DRAP and accordingly a number of cases are under investigations including 02 FIRS at various levels in FIA and custom authorities against M/s Marush International and M/s Marush (Pvt) Ltd and its owners, as follows:

a) Custom authorities / FBR have registered FIR No.05/2017 at Lahore which is under investigation as per report of DRAP Lahore office regarding illegal import of poultry medicines / vaccines by presenting fake / irrelevant provisional authorizations of the DRAP. Along with other allegations of massive mis-declaration of values by suppressing the actual transactional value and transfer of foreign exchange. DRAP Karachi has confirmed that fake registrations letters purported to be issued by DRAP were prepared and presented before the custom authorities for the release of unregistered therapeutic goods from the custom authorities since 2010-2015 and the matter is under investigation

b) FIA inquiry No.21/2017 of FIA Corporate Crime circle, Karachi is also under investigation against M/s Marush (Pvt) Ltd and Marush International alleging that Director / CEO of the said companies committed fraud / evasion of taxes which cause heavy loss to government exchequer. In light of aforementioned inquiry of FIA, DRAP has also requested for registration of an FIR u/s 420, 467, 468, 471 and 472 of PPC with permission of Central Licensing Board.

Keeping in view above status, the Board decided as follows:

i. For issuance of registration letters of pending registrations:

The Board decided not to issue Registration letters till the completion of inquiries and finalization of legal proceedings including FIR as stated above and provision of latest sole agency agreement by M/s Marush Pvt. Ltd., Lahore for above new registrations from their manufacturer abroad/ principal.

ii. Renewal Status:

The Board decided that as the firm has also submitted incomplete applications in following aspects, thus the renewal status cannot be confirmed till completion of inquiries and finalization of legal proceedings including FIR as stated above and rectification of following deficiencies in renewal applications as mandatory requirement for issuance / confirmation of renewal status:

a. Form-5B signed by Chief Executive Officer of M/s Marush Pvt. Ltd., Lahore OR Authority letter of the signing person.

b. An undertaking that the applied products has never been de-registered

c. An undertaking that submitted documents are true copy of the originals and that, if at any stage any discrepancy/ misinformation is detected / observed the firm/company will be held responsible as per relevant laws.

d. Attested copy of registration letter for confirmation of brand name.

e. Attested copy of approval letter of transfer of registration in name of M/s Marush Pvt. Ltd., Lahore.

f. Attested copy of valid Drug Sale License (for imported drugs)

g. Legalized CoPP as per WHO"s format or legalized free sale certificate and GMP certificate (for imported products)

h. Inspection report by regulatory authority of country of manufacture.

i. Last import invoice attested by DRAP."

The Decision of 152nd sitting of the Appellate Board held on 24th & 25th April,2019:

Now the appeal of the M/s Marush Pvt. Ltd. Lahore has been disposed of by the Appellate Board and regarding renewal application the decision of the Appellate Board is reproduced as under:

"Since the appellant could not remove the above deficiencies pointed out by the Registration Board till date which cannot be relaxed for the appellant under any circumstances, the appellant is directed to remove deficiencies pointed out in impugned decision dated 10-01-2019 and submit following documents to the Secretary , Registration Board within 10 days of the receipt of this decision for consideration of renewal status of its products by the Registration Board.

a) Form-5B signed by Chief Executive Officer of M/s Marush Pvt Ltd., Lahore OR Authority letter of the signing person.

b) An undertaking that the applied products has never been de-registered

c) An undertaking that submitted documents are true copy of the originals and that, if at any stage any discrepancy/ misinformation is detected / observed the firm/company will be held responsible as per relevant laws.

d) Attested copy of registration letter forconfirmation of brand name.

e) Attested copy of approval letter of transfer of registration in name of M/s MarushPvt. Ltd., Lahore.

f) Attested copy of valid Drug Sale License (for importeddrugs)

g) Legalized CoPP as per WHO"s format or legalized free sale certificate and GMP certificate (for imported products)

h) Inspection report by regulatory authority of country ofmanufacture.
i) Last import invoice attested by DRAP.
j) Copy of valid sole agency agreement

Present Status:

In compliance of the above decision of the Appellate Board the firm has submitted that the he had made an application for registration of its products strictly in accordance with law prevalent at the time of submission of the aforesaid application on 24-03-2016 in terms of Rule 26(3)(c) of the Drugs (Licensing, Registering & Advertising) Rules 1976 and on the contrary the new SOPs formulated in the 276th meeting of Registration Board held on 22nd -25th November,2017,can by no stretch of the imagination be applicable on the Company's pending application. Further has been stated that it is the dictum laid down by the superior courts that policies such as SOPs that are promulgated or formulated after a Company has duly made its application cannot applied upon the same retrospectively. The letter of the firm is reproduced below:

1. "We write to your good self on behalf of MarushPvt. Ltd (the "Company") for compliance of the order dated 26-04-2019 of the Drugs Appellate Board passed in its 152nd Meeting held on 24th and 25thApril, 2019.

Copy of the decision dated 26-4-2019

2. Previously the Company had challenged the decision dated 10-01-2019 passed by the Registration Board whereby our application for renewal of registration for seventeen products was declared as incomplete on the basis of certain documentary deficiencies.
3. At the very outset it is submitted that the Company had made an application for registration of its products strictly in accordance with law prevalent at the time of submission of the aforesaid application on 24-03-2016 in terms of Rule 26(3)(c) of the Drugs (Licensing, Registering & Advertising) Rules 1976.
4. On the contrary the new SOPs formulated in the 276th meeting of Registration Board held on 22nd -25th November,2017,can by no stretch of the imagination be applicable on the Company's pending application before your good self. It is the dictum laid down by the superior courts that policies such as SOPs that are promulgated or formulated after a Company has duly made its application cannot applied upon the same retrospectively.
5. It may be noted that the Company has conducted its business in compliance with all applicable laws including the Drugs Act, 1976 and the Drugs (Licensing Registering Advertising) Rules 1976 and received no complaint from any quarter whatsoever.
6. Since, the Company's appeal before the Drugs Appellate Board has been rejected the following documents are being submitted as directed in decision dated 24-04-2019 under protest:
   i. Form-5B signed by CEO of Marush (Private) Limited / its authorized person (original already submitted on 24-03-2016) alongwith its receivings.
   ii. Legalized CoPP as per WHO's format or legalized free sales certificate and GMP certificate (for imported products) (already submitted for the relevant products on 24-03-2016) alongwithreceivings.
   iii. An undertaking that the applied products have never been de-registered.
   iv. An undertaking the the submitted documents are true copies of the originals and that the Company may be held responsible in case of any discrepancy/misinformation as per the relevant laws.

v. Attested copy of the registration letter for confirmation of brand name
vi. Attested copy of approval letter of transfer of registration from EVP to Marush (Pvt) Ltd
vii. Attested copy of valid Drug Sales License
viii. Inspection report by regulatory authority of the manufacturer
ix. Last import invoice attested by DRAP
x. Copy of valid Sole Agency Agreement of the manufacturer

7. Without prejudice, to the Company's compliance with the decision of the Drugs Appellate Board the same reserves the right to challenge the decision dated 24-04-2019 before a court of competent jurisdiction.
8. In light of submission of these documents, thanks to release our shipment of vaccines lying at Lahore Airport, which is losing valuable shelf life every day, is incurring heavy demurrage charges on daily basis and is at risk of damage due to breakage of cold chain due to limited storage in the Lahore Airport's cold storage, as we have received several reminders from Gerry's Dnata Pvt Ltd, till date.
9. In view of the foregoing, your office is requested to kindly accept the enclosed documents and issue the Company a receipt of the same in accordance with law."

The firm submitted documents have been evaluated and summarised as under:

i. Cevac Broiler ND K Vaccine

At the end the firm has requested to release their shipment of vaccines lying at Lahore Airport which is losing valuable shelf life every day and is at risk of damage due to breakage of cold chain due to limited storage in the Lahore Airport's cold storage.

Decision: Registration Board deferred the case for submission of following by the firm:

a. **Form-5B for each product signed by Chief Executive Officer of M/s Marush Pvt Ltd., Lahore OR Authority letter of the signing person.**
b. **Valid legalized CoPP or FSC issued by regulatory body of country of origin.**
c. **DRAP attested last import invoice of Cevac Broiler ND K Vaccine, Cevac Transmune IBD Vaccine, Cevac ND IB EDS K Vaccine and Cevac ND IB K Vaccine.**

3. Minutes of3rd Meeting of Committee on Biological Drugs constituted by Registration Board in its 273rd meeting held on 29th April, 2019.

3rd meetings of committee on Biological drugs constituted by Registration Board in its 273rd meeting was held on29thApril, 2019 in the Committee Room, Drug Regulatory Authority of Pakistan, G-9/4, Islamabad. The meeting was attended by the following:-

1.	Maj.Gen.Dr. Tahir Mukhtar Syed	Chairman
2.	Dr. Noor us Saba, Director Biological Drugs	Member
3.	Dr.Qurban Ali, Member Registration Board	Member
4.	Mr. Abdullah Add. Director (PE&R) / Secretary Registration Board	Co-Opted Member
5.	M. ZubairMasood, Asst. Director, Biological Drugs	Secretary

Mr. Khurrum Khalid AD (Bio) and Mr. Saadat Ali Khan AD (Bio) assisted with relevant agenda. Mr. NadeemAlamgirreperesentedPharma Bureau while not any representative of PPMA and PCDA attended the meeting. Mr. AjmalNasir (BF Biosciences) was called for on his request with the permission of Chairman as the firm is not member of PPMA.

Division of Biological Evaluation & Research has received many applications for registration of Enoxaprin Injections where the bulk will be imported and packed locally. Registration Board in its 281st meeting, while discussing the cases of imported Enoxaprin Injections, decided as follows:

"Registration Board deliberated the matter in detail and decided that for registration of Enoxaparins the applicants shall provide the following data/information with application:

i. *The physical and chemical characteristics of enoxaparin.*
ii. *The nature of the heparin material and the chemical process used to break up heparin chains into smaller pieces.*
iii. *The nature and arrangement of components that constitute enoxaparin.*
iv. *Certain laboratory measurements of the product's anticoagulant activity*
v. *Certain aspects of the drug's effect in humans."*

For local manufacturing of Enoxaparin injections Registration Board in its 28thmeeting referred the case to Committee on Biological Drugs constituted in 273rd meeting to make guidelines for registration of locally manufactured Enoxaparin injections.

In this context, division of BE&R found two approaches for registration of generic/ biosimilarEnoxaprin injections. One is adopted by USFDA which is called as Abbreviated New

Drug Application (ANDA) while the other is adopted by other reference countries like EMA, TGA Australia & Health Canada etc. The USFDA approach for registration of Enoxaparin Injection was adopted by Registration Board in its 281st meeting for registration of imported Enoxaparin Injections. Both approaches are detailed below:

Guidelines of FDA:

In the United States, innovator LMWHs are classified as drugs under the New Drug Application (NDA) process. The abbreviated NDA (ANDA) requires the demonstration of bioequivalence through pharmacokinetic (PK) studies. The approval of the first generic LMWH enoxaparin followed this pathway.The approval of ANDAs for enoxaparin raises complicated scientific and regulatory issues, which the FDA carefully considered. The FDA concluded that an ANDA applicant for enoxaparin can demonstrate active ingredient sameness by meeting 5 criteria, each of which captures different aspects of the active ingredient's ''sameness.''

The 5 criteria involve:

(1) The physical and chemical characteristics of enoxaparin

(2) The nature of the source material and the method used to break up the polysaccharide chains into smaller fragments

(3) The nature and arrangement of components that constitute enoxaparin

(4) Certain laboratory measurements of anticoagulant activity

(5) Certain aspects of the drug's effect in humans.

The equivalence evaluation demonstrates that the molecular diversity of the generic drug product's enoxaparin and branded enoxaparin is equivalent, including with respect to the 1,6anhydro ring structure at the reducing ends between 15% and 25% of its saccharide units. Equivalent molecular diversity demonstrated sameness for the generic version of enoxaparin.

The term ''same as'' means ''identical in active ingredient/ ingredients.''The FDA specifically rejected the suggestion that active ingredients exhibit the same physical and chemical characteristics, that no additional residues or impurities can result from the different manufacture or synthesis process, and that the stereochemistry characteristics and solid state forms of the drug have not been altered. Instead, FDA adopted a more flexible approach considering an active ingredient (in a generic drug product) to be the same as that of the reference listed drug (RLD) if it meets the same standards for identity. **The standards for identity are described in the United States Pharmacopeia (USP),** although FDA might prescribe additional standards that are material to the ingredient's sameness. In the case of enoxaparin, there is an **USP monograph** and there are additional standards that are material to enoxaparin's sameness.

1. The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).
2. The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The

equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.

3. The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.
4. The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.
5. The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.

They concluded that the rigorous chemical analyses will detect the antithrombin binding site of the generic LMWH, impurities leading to severe anaphylactoid reactions, and immunogenicity leading to heparin-induced thrombocytopenia type II (HIT-II). The FDA stated that it is not necessary to completely characterize all of the different polysaccharide sequences, nor is it necessary to use the same manufacturing process as that used for the RLD or to conduct clinical trials to demonstrate equivalent safety or effectiveness. The FDA regulations do not require that an ANDA applicant uses the same methods used in, or the facilities and controls used for, the manufacture, processing, and packing of the RLD to assure and preserve the identity, strength, quality, and purity of the generic drug. The FDA concludes that ANDA applicants are not required to submit clinical trials to establish the safety and effectiveness of a generic LMWH if the 5 criteria see above are fulfilled.

Guidelines of the EMA:

The guideline on similar biological medicinal products containing biotechnology-derived proteins as active substance—nonclinical and clinical issues (EMEA/CPMP/42832/ 05/)—lays down the general requirements for demonstration of the similar nature of 2 biological products in terms of safetyand efficacy. This product-specific guidance complements the above guideline and presents the current view of the Committee for Medicinal Products for Human Use (CHMP) on the application of the guideline for demonstration of biosimilarity of 2 LMWH-containing medicinal products.

1. Biochemical characterization
2. In vitro Pharmacodynamic studies
3. In vivo Pharmacodynamic studies
4. Data from at least 1 repeated dose toxicity study in a relevant species (e.g. the rat).

5. Phase I studies: The absorption and elimination characteristics of biosimilar LMWHs should be compared with thebranded LMWH by determining PD activities (including anti-FXa and anti-FIIa), as surrogate markers for their circulating concentrations.
6. Therapeutic equivalence should be demonstrated in at least 1 adequately powered, randomized, double-blind, parallel group clinical trial.
7. Prelicensing safety data should be obtained in a number of patients sufficient to determine the adverse effect profiles of the test medicinal product.
8. Demonstration of comparable efficacy and safety in surgical patients at high risk of VTE as recommended may allow extrapolation to other indications of the reference medicinal product if appropriately justified by the applicant.
9. A risk management program plan in accordance with the current EU legislation and pharmacovigilance guidelines.

In view of the above international guidelines, the guidelines adopted in 281st meeting of Registration Board for registration of imported Enoxaparins, the guidelines adopted for registration of locally manufactured rDNA therapeutic proteins and current scenario of Pakistan Division of BE&R is of the view that following guidelines may be considered for registration of locally manufactured & Imported Enoxaparin Injections:

Bulk Import, Locally Repacked Enoxaparins	**Finished Import Enoxaparins**
1. The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country oforigin. 2. The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by sameconcentrate/ready to fill bulk after submission of data to the concerned regulatoryauthority. 3. The firm shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board todemonstrate the similar efficacy and safety to innovator product. 4. The firm shall provide the lot release certificate of the finished product manufacturedby same bulk concentrate/ ready to fill from country of export (If applicable). 5. The firm shall provide the 6 months accelerated and real time stability studies for drugsubstance. 6. The local manufacturer shall manufacture three trial batches of the finished biologicalproduct to finalize the formulation and then perform all the tests as detailed in USP monograph of Enoxaparin Sodium in addition to tests for equivalence of disaccharide building blocks, fragment mapping, and sequence of	The applicant of finished import of Enoxaparin injections shall submit the data in light of decision of 281st meeting. The explanation of those 5 criteria is as follows: 1. The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS). 2. The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar. 3. The third criterion for demonstrating the sameness of enoxaparin is equivalence in

oligosaccharide species. All these testsshall be performed in comparison with innovator product. 7. The local manufacturer shall perform immunogenicity studies in comparison with Innovator product in order to confirm that the locally manufactured Enoxaparinis safe from heparin-induced thrombocytopenia type II (HIT-II). 8. The firm shall also provide the list of finished products being manufactured from samebulk concentrate or ready to fill form in any country of the world (if available). 9. The firm shall provide the agreement with the source (of bulk concentrate/ready to fill)that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevantdocuments. 10. Regular monitoring through pharmacovigilance reporting system shall be observedthrough proper pharmacovigilance cell of the manufacturer and report will beforwarded to the National Pharmacovigilance Centre, Division of Pharmacy Servicesand Biological Division of DRAP. In case of any severe adverse event, immediatemandatory reporting procedure shall be followed. 11. The firm shall inform DRAP if there shall be any adverse event or ADR reporting fromthe country of manufacture of concentrate/ready to fill bulk and finished product asrequired vide Rules 30 of Drug (LR&A) Rule. 12. If any of the conditions is not fulfilled or public health risk reported at any stage, thedrug registration shall stand cancelled with immediate effect. 13. All the provisions as contained in the Drugs Act, 1976 and rules made there underincluding provisions of Lot Release certification from National Control Laboratory forBiologicals shall be strictly adhered to. 14. For the already registered and approved drugs for local manufacturing the current guidelines shallapply**.**	disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included. 4. The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided. 5. The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles. In addition to above studies, the manufacturer abroad shall provide immunogenicity studies in comparison with Innovator product in order to confirm that said Enoxaparin is safe from heparin-induced thrombocytopenia type II (HIT-II**).**

Recommendations of the committee:

The committee while considering the statutory requirements and current scenario of Pakistan recommended the following:

i) For Bulk Concentrate Import, Local formulation Filling:

i. The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country oforigin.

ii. The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by sameconcentrate/ready to fill bulk after submission of data to the concerned regulatoryauthority.

iii. The firm shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board todemonstrate the similar efficacy and safety to innovator product covering following requirements:

a. The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).
b. The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.
c. The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.
d. The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.
e. The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.

iv. The firm shall provide the lot release certificate of the finished product manufacturedby same bulk concentrate/ ready to fill from country of export (If applicable).

v. The firm shall provide the 6 months accelerated and real time stability studies for drug substance.

vi. The local manufacturer shall perform all the tests on Enoxaparin Sodium bulk as detailed in USP monograph of Enoxaparin Sodium in comparison with Innovator product.

vii. The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform the six months stability data on all

the batches along with all the tests as detailed in USP monograph of Enoxaparin Sodium Injection. All these tests shall be performed in comparison with innovator product.

viii. The local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The following techniques may be used:
   a. SDS-PAGE for individual proteins
   b. GC-MS for lipid impurities
   c. Threshold ® Total DNA Assay System for DNA content.

ix. The firm shall provide the agreement with the source (of bulk concentrate/ready to fill)that if there shall be any critical change in manufacturing process, biological systemsused to manufacture, etc. the firm shall inform DRAP immediately along with relevantdocuments.

x. Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.

xi. The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.

xii. If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.

xiii. All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.

xiv. For the already registered and approved drugs for local manufacturing the current guidelines shall apply**.**

ii) For Finished Import:

1. The physical and chemical characteristics of enoxaparin.
2. The nature of the heparin material and the chemical process used to break up heparin chains into smaller pieces.
3. The nature and arrangement of components that constitute enoxaparin.
4. Certain laboratory measurements of the product's anticoagulant activity
5. Certain aspects of the drug's effect in humans.

The following checklist will be used for Imported Enoxaparins:

Sr. No.	Required Documents	Documents Provided by the Firm	Remarks
1.	Equivalence of physicochemical properties, such as:		
	a. Molecular weight distribution using size exclusion chromatography		
	b. Chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).		
2.	Equivalence of heparin source material (i.e. heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline		

	b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.		
3.	Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by following: a. Capillary Electrophoresis (CE) b. Reverse phase high-performance liquid chromatography (RP-HPLC) c. Strong anion exchange HPLC (SAX-HPLC) d. Mass spectroscopy e. Nuclear magnetic resonance (NMR) spectroscopy. f. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.		
4.	Equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.		
5.	Equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.		

Moreover, Division of Biological Evaluation & Research is of the opinion that before implementation of these guidelines, the input of all the local manufacturers of Biological Drugs may be taken.

A policy may be decided by Registration Board regarding the implementation of above guidelines for already approved and registered Enoxaparin products.

Discussion:

Division of Biological Evaluation & Research apprised the Board that they are of the opinion that before implementation of these guidelines, the input of all the local manufacturers of Biological Drugs may be taken. However, Registration Board asked representatives of Pharma Bureau and PPMA and they agreed with the guidelines.

Decision: Keeping in view the recommendations of Committee on Biological Drugs, Registration Board decided to adopt the following guidelines as regulatory requirements for registration of Enoxaparin Injections.

1. For Bulk Concentrate Import, Local Formulation and Filling:

i. The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide bulk concentrate of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country oforigin.

ii. The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same bulk concentrate after submission of data to the concerned regulatory authority.

iii. The firms shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (bulk concentrate) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board todemonstrate the similar efficacy and safety to innovator product covering following requirements:

a. The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).
b. The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.
c. The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.
d. The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.
e. The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.

iv. The firm shall provide the lot release certificate of the finished product manufacturedby same bulk concentrate/ ready to fill from country of export (If applicable).

v. The firm shall provide the 6 months accelerated and real time stability studies for drug substance.

vi. The local manufacturer shall perform all the tests on Enoxaparin Sodium bulk concentrate as detailed in Pharmacopoeial monograph of Enoxaparin Sodium.

vii. The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform the six months stability data on all

the batches along with all the tests as detailed in Pharmacopoeial monograph of Enoxaparin Sodium Injection.

viii. The local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The following techniques may be used:
   a. SDS-PAGE for individual proteins
   b. GC-MS for lipid impurities
   c. Threshold ® Total DNA Assay System for DNA content.

ix. The firm shall provide the agreement with the source (of bulk concentrate/ready to fill)that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevantdocuments.

x. Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.

xi. The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.

xii. If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.

xiii. All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.

xiv. If an applicant does not have the requisite testing facility to perform above tests, they can outsource the required tests to a certified laboratory.

xv. For the already registered drugs, the current guidelines shall apply at the time of renewal.

2. For Ready to Fill Bulk Import, Local Filling:

i. The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country oforigin.

ii. The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same ready to fill bulk after submission of data to the concerned regulatory authority.

iii. The firm shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (ready to fill bulk) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board todemonstrate the similar efficacy and safety to innovator product covering following requirements:
   a. The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong

anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).

b. The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.

c. The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.

d. The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.

e. The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.

iv. The firm shall provide the lot release certificate of the finished product manufacturedby same bulk concentrate/ ready to fill from country of export (If applicable).

v. The firm shall provide the 6 months accelerated and real time stability studies for drug substance.

vi. The local manufacturer shall perform all the tests on Enoxaparin Sodium bulk as detailed in Pharmacopoeial monograph of Enoxaparin Sodium.

vii. The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform the six months stability data on all the batches along with all the tests as detailed in Pharmacopoeial monograph of Enoxaparin Sodium Injection.

viii. The firm shall provide the agreement with the source (of bulk concentrate/ready to fill)that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevantdocuments.

ix. Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded

to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.

x. The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.

xi. If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.

All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.

xii. If an applicant does not have the requisite testing facility to perform above tests, they can outsource the required tests to a certified laboratory.

xiii. For the already registered drugs, the current guidelines shall apply at the time of renewal.

iii) For Finished Import:

The importer shall provide the following documents as already approved in 281st meeting of Registration Board.

i. The physical and chemical characteristics of enoxaparin.

ii. The nature of the heparin material and the chemical process used to break up heparin chains into smaller pieces.

iii. The nature and arrangement of components that constitute enoxaparin.

iv. Certain laboratory measurements of the product's anticoagulant activity

v. Certain aspects of the drug's effect in humans.

vi. For the already registered drugs, the current guidelines shall apply at the time of renewal.

The documents will be evaluated as per following checklist:

Sr. No.	Required Documents	Documents Provided by the Firm	Remarks
1.	Equivalence of physicochemical properties, such as:		
	a. Molecular weight distribution using size exclusion chromatography		
	b. Chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).		
2.	Equivalence of heparin source material (i.e. heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.		
3.	Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide		

	building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by following: a. Capillary Electrophoresis (CE) b. Reverse phase high-performance liquid chromatography (RP-HPLC) c. Strong anion exchange HPLC (SAX-HPLC) d. Mass spectroscopy e. Nuclear magnetic resonance (NMR) spectroscopy. f. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.		
4.	Equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.		
5.	Equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.

8.	Commitment to follow Drug Specification Rules, 1978.	Yes	

REMARKS OF EVALUATOR

- The panel may be requested to verify and report about following points in addition to authenticity of stability data and associated documents,

. Import of API because Form 3 ,form 7 and goods declaration for metformin attached but commercial invoice not ADC attested.

. Applied technology of Active coating for Empagliflozin in which drug is loaded via coating solution on the core tablet of metformin hydrochloride.

. Justification of 5% overage of Empagliflozin in master formulation (which is required to be based on study/scientific rationale) for which firm has stated that Empagliflozin overage was inducted due to drug loss during spray coating process and to attain the satisfactory contents of Empagliflozin as per claim.

. Method development study to justify that the result of dissolution analysis for metformin as performed by UV method have not been interfered with the ingredients of formulation specially the other API i.e Empagliflozin present in the same sample aliquote.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of **Empaa-M XR**

12.5/1000mg Tablets by **M/s Weatherfolds Pharmaceuticals, Plot No. 69 Phase II, Industrial Estate, Hattar**.

Inspection of the firm M/s Weatherfolds Pharmaceuticals, Plot No. 69 Phase II, Industrial Estate, Hattar is conducted today on 10.05.2019 in compliance to PEC letter No. F.13-11/2017-PEC (Vol-I) dated 25.04.2019 for the verification o authenticity of stability data for the registration of following products.
Empaa-M XR 12.5/1000mg Tablets
Empaa 25 mg Tablet

The following panel conducted inspection of the firm

- **Prof. Dr. Jamshed Ali Khan, Member, CLB**
- **Dr. Muhammad Khalid Javed, Director, DTL , Peshawar**
- **Ch. Zeeshan Nazir, Deputy Director (QA), DRAP, Islamaba**d

The panel go through the record of the raw material of Metformin Hcl. The firm's representative provided the In-gate pass, Good Receiving Note, Goods Declaration, Commercial Invoice, Form-3, Form-7 and testing record of the imported raw material. However the firm fails to provide the attested invoice by the Assistant Director (I &E). Provided record shows that the firm imported Metformin Hcl from the firm M/s The Moleculez, Mumbai, India.

The firm is using manual coating technique for the coating of Empagliflozin on the core of Metformin Hcl. The firm uses 5 kg coating pan for the R&D purpose. The record of testing of the finish product is scrutinized and found satisfactory.

Technical staff provided testing record of the finish product. The technical staff stated that the coating of Empagliflozin was done with 100 %, 102 %, 105 % and 110 %. The testing record show that 105 % of Empagliflozin provided 100 % results on finish testing. The firm after trial decided to use overage of 5 % of Empagliflozin.

Technical staff stated that during test trial of finish product, they have developed a placebo for the adjustment of excipients as well as Empa. The UV method does not interfere with ingredients of formulation and Empagliflozin.

Stability data of the above mentioned products is also verified through manual record and directory of HPLC. The HPLC provided is 21 CFR compliant, Water's 600 pump, 486 Detector with Empower software. Manual record of above mentioned products is also verified and found satisfactory.

Keeping in view the above mentioned facts, the panel unanimously verified the authenticity of stability data of below mentioned products.

Empaa-M XR 12.5/1000mg Tablets
Empaa 25 mg Tablet

S.No	Question	Observation by Panel
Q.No.1	Do you have documents confirming the import of API including approval from DRAP?	Import documents including internal record is available. However Goods Declaration and Commercial Invoice of Metformin Hcl is also available.
Q.No.2	What was the rationale behind selecting the particular manufacturer of API?	GMP compliant
Q.No.3	Do you have documents confirming the import of reference standard and impurity standards?	Working standards provided by the manufacture.
Q.No.4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	YES
Q.No.5	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Yes
Q.No.6	Do you use API manufacturer method of testing for	Yes

	testing API?	
Q.No.7	Do you have stability studies reports on API?	Yes
Q.No.8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	Yes
Q.No.9	Do you have method for quantifying the impurities in the API?	No
Q.No.10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Yes only of API
Q.No.11	Have you used pharmaceutical grade excipients?	Yes
Q.No.12	Do you have documents confirming the import of the used excipients?	No
Q.No.13	Do you have test reports and other records on the excipients used?	Yes
Q.No.14	Do you have written and authorized protocols for the development of applied product?	Yes
Q.No.15	Have you performed Drug-excipients compatibility studies?	Brand Formulation is taken as standard
Q.No.16	Have you performed comparative dissolution studies?	Yes
Q.No.17	Do you have product development (R&D) section	No
Q.No.18	Do you have necessary equipments available in product development section for development of applied product?	No
Q.No.19	Are the equipments in product development section qualified?	N/A
Q.No.20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	N/A
Q.No.21	Do you have qualified staff in product development section with proper knowledge and training in product development?	N/A
Q.No.22	Have you manufactured three stability batches for the stability studies of applied product as required?	Yes
Q.No.23	Do you have any criteria for fixing the batch size of stability batches?	Yes
Q.No.24	Do you have complete record of production of stability batches?	Yes
Q.No.25	Do you have protocols for stability testing of stability batches?	Yes
Q.No.26	Do you have developed and validated the method for testing of stability batches?	Yes
Q.No.27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	N/A
Q.No.28	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Yes
Q.No.29	Is your method of analysis stability indicating?	Yes
Q.No.30	Is your HPLC software is 21CFR compliant? (Details of Model, software, description/version (i.e. software validation report for 21 CFR Part 11 compliance including audit trail, password protection, date & time lock and user authorizations shall also be	Yes 21 CFR, Water's 600 pump, 486 Detector with Empower software.

	reported.)	
Q.No.31	Can you show Audit Trail reports on stability studies testing?	Yes
Q.No.32	Do you have some remaining quantities of degradation products and stability batches?	Yes
Q.No.33	Do you have stability batches kept on stability testing?	Yes
Q.No.34	Do you have valid calibration status for the equipments used in production and analysis?	Yes
Q.No.35	Do proper and continuous monitoring and control are available for stability chamber? (Number and utilized/available capacity of stability chambers shall also be reported.)	Two stability chambers are provided. Each is having capacity of 600 litres with manual record keeping.
Q.No.36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Yes
Decision: Registration Board decided to approve registration of "Empaa-M XR Tablet (Empagliflozin 12.5mg, Metformin Hydrochloride 1000mg)" with Innovator's specifications by M/s. Weather Folds Pharmaceuticals, Plot # 69, Phase-II, Industrial Estate, Hattar. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Batch#2TDL0170417.
2)	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Photocopy of GMP Certificate No. L.Dis.No.2824/A3/2018 detailed as under: M/s Symed Labs Limited, **Unit-VI**, situated at Sy.No.744, 745, 750, 751, 752 & 753, Mandollagudem Village, Choutuppal Mandal, Yadadri District, Telangana, India. issued by Drugs Control Administration, Government of Telangana, India is submitted. Valid till 17-05-2019.
3)	Protocols followed for conduction of stability study and details of tests.	Yes
4)	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes

5)	Documents confirming import of API etc.	• Firm has submitted following: i. Photocopy of ADC (Karachi) attested Commercial Invoice dated 26-01-2016 containing batch details of Batch No. 2TDL0231115 is submitted. Quantity: 1 kg. ii. Photocopy of ADC (Karachi) attested Commercial Invoice dated 08-11-2017 containing batch details of Batch No. 6TDL0020917 is submitted. Quantity: 2 kg. iii. Photocopy of ADC (Karachi) attested Commercial Invoice dated 18-05-2017 containing batch details of Batch No. 2TDL0170417 is submitted. Quantity: 5 kg.
6)	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7)	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8)	Commitment to follow Drug Specification Rules, 1978.	Yes

Evaluation by PEC:

- Manufacturer of API i.e. M/s Symed Labs Limited, India, **Unit-VI**, situated at Sy.No.744, 745, 750, 751, 752 & 753, Mandollagudem Village, Choutuppal Mandal, Yadadri District, Telangana, India could not be confirmed from List of Manufacturing Units in Telangana listed on the website. However, firm has submitted copy of GMP certificate issued by Drugs Control Administration, Government of Telangana, India.
- Firm has not submitted GMP certificate of Unit-II of API manufacturer i.e. M/s Symed Labs Limited, **Unit-II**,Plot No: 25/B, Phase-III, IDA, Jeedimetla, Hyderabad., India

Decision:

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Tapendol (Tapentadol) 50mg, 75mg & 100mg Tablets by M/s The Searle Company Limited, Karachi.

Reference No: F.13-11/2017-PEC (Pt) dated 23rd January, 2019.
Investigation Date and Time: 11th March, 2019. (Forenoon)
Investigation Site: Factory premises of M/s The Searle Company Limited, Karachi.

Background:

Chairman Registration Board considered the applications of M/s. The Searle Company Limited, Karachi for registration of Tapendol (Tapentadol) 50mg, 75mg & 100mg Tablets and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

1. "Manufacturer of API ie. M/s Symed Labs Limited, India, Unit VI situated at Sy. No.744, 745, 750, 751, 752 & 753, Mandollagudem Village, Choutuppal Mandal, Yadadri District, Telangana, India could not be confirmed from list of manufacturing units in Telangana listed on the website. However, firm has submitted copy of GMP certificate issued by Drugs Control Administration, Government of Telangana, India"
2. "Firm has not submitted GMP certificate of Unit II of API manufacturer i.e. M/s Symed Labs Limited, Unit II Plot No. 25/B, Phase III, IDA Jeedimetla, Hyderabad, India"

Composition of Panel:

1. Dr. Rafeeq Alam, Meritorious Professor, Department of Pharmacology, University of Karachi, Karachi, Member Registration Board.
2. Mr. Aslam Shah, Member Registration Board.
3. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Details of Investigation:

Q. NO.	QUESTION	OBSERVATION BY PANEL
1.	Do you have documents confirming the import of Tapentadol API including approval from DRAP?	The firm has imported Tapentadol raw material 1.0Kg having lot number 2TDL0231115, 5.0Kg having lot number 2TDL0170417 & 2.0Kg 6TDL0020917 having lot number from M/s SYMED LABS LIMITED, have ADC clearance on 26th Jan-2016, 18th May-2017 and 8th Nov 2017 respectively and got approval from DRAP Karachi.
2.	What was the rationale behind selecting the particular manufacturer of API?	The firm has implemented proper vendor evaluation system. The rationale for the selection of this manufacturer was availability of GMP certificate from relevant authority, availability of DMF, working standard, stability studies of API.
3. .	Do you have documents confirming the import of Tapentadol reference standard and impurity standards?	The firm has imported working standard along with API consignment.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for API, and working standards.
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate of API manufacturer issued by Drug control administration government of Telangana for both units II & VI.
6.	Do you use API manufacturer method of testing for testing API?	The firm has used API manufacturer's method of analysis for API testing.
7.	Do you have stability studies reports on APIs?	The firm has long term and accelerated study reports for Tapentadol provided by M/s SYMED LABS LIMITED.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing is as per SIM as Impurity profile has been reported in stability study report of Tapentadol provided by M/S SYMED LABS LIMITED
9.	Do you have method for quantifying the impurities in the API?	The firm had API manufacturer method for quantification of impurities in the API.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has following remaining quantities of API' are;
11.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients i.e. Microcrystalline cellulose, Lactose monohydrate, povidone, Croscarmellose sodium & Magnesium stearate.
12.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
13.	Do you have test reports and other records on the excipients used?	The firm has necessary test reports and other record for the excipients used.

Lot No	Qty Received	Qty Remaining
2TDL0231115	1.0 Kg	0.0 g
2TDL0170417	5.0Kg	3.45Kg
6TDL0020917	2.0Kg	0.128Kg

14.	Do you have written and authorized protocols for the development of Tapentadol Tablets Range?	The firm has written and authorized protocols for the development of Tapentadol Tablets 50mg, 75mg & 100mg.
15.	Have you performed Drug-excipient compatibility studies?	The firm has used same excipient as used by the innovator, therefore, compatibility studies were not performed.
16.	Have you performed comparative dissolution studies?	The firm has not performed comparative dissolution profile due to non-availability of reference product, however, the data available with the firm shows that the product is highly soluble and dissolves more than 85% within 15minutes in all three media. Therefore, f2 calculation are not required.
17.	Do you have product development (R&D) section	The firm has dedicated product development (R&D) section with requisite manufacturing and analysis facilities.
18.	Do you have necessary equipment available in product development section for development of Tapentadol Tablets Range?	The firm has necessary equipment available in product development section for development of the Tapentadol tablets.
19.	Are the equipment in product development section qualified?	The equipment in product development section are qualified.
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance / calibration / re-qualification program for the equipment used in PD section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm had qualified staff comprising of 24 members in R&D department.
22.	Have you manufactured three stability batches for the stability studies of Tapentadol Tablets Range required?	The firm has manufactured three stability batches for stability studies for each strength; 1. Tapentadol Tablets 100mg Batch numbers are 18PD-048, 18PD-049 & 18PD-050 having batch size 1500 tablets each. 2. Tapentadol Tablets 75mg Batch numbers are 18PD-056, 18PD-064 & 18PD-065 having batch size 1500 tablets each. 3. Tapentadol Tablets 50mg Batch numbers are 16PD-098, 16PD-110 & 16PD-111 having batch size 1500 tablets each.
23.	Do you have any criteria for fixing the batch size of stability batches?	The firm had informed that their criteria for fixing batch size is based on number of samples required for stability studies for all testing frequencies.
24.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches.
25.	Do you have protocols for stability testing of stability batches?	The firm has detailed protocols for stability testing of stability batches.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated the method of testing for finished product.
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable
28.	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Tapentadol Tablets Range and the	The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of Tapentadol Tablets 50mg, 75mg & 100mg tablets.

	finished drug?	
29.	Do your method of analysis stability indicating?	The firm used stability indicating method for the quantification of any impurities and degradation products in the tablets kept on stability testing.
30.	Do your HPLC software 21CFR Compliant?	The HPLC software is 21CFR Compliant as per record available with the firm. The firm has Water's Alliance 2695 with Empower 3 software.
31.	Can you show Audit trail reports on Tapentadol Tablets Range testing?	Audit trail on the testing reports is available.
32.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches only.
33.	Do you have stability batches kept on stability testing?	The firm has completed accelerated stability testing on three stability batches of each strength. Currently 9th month real time stability testing has been completed with satisfactory results.
34.	Do you have valid calibration status for the equipment used in Tapentadol Tablets Range production and analysis?	The firm has valid calibration status for the equipment used in Tapentadol Tablet Range for production and analysis.
35.	Do proper and continuous monitoring and control are available for stability chamber?	Firm has software for monitoring of stability chambers.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Related manufacturing area, equipment, personnel and utilities were GMP compliant.
37.	Any Other query raised by PER Division: 1. "Manufacturer of API ie. M/s Symed Labs Limited, India, Unit VI situated at Sy. No.744, 745, 750, 751, 752 & 753, Mandollagudem Village, Choutuppal Mandal, Yadadri District, Telangana, India could not be confirmed from list of manufacturing units in Telangana listed on the website. However, firm has submitted copy of GMP certificate issued by Drugs Control Administration, Government of Telangana, India" 2. "Firm has not submitted GMP certificate of Unit II of API manufacturer i.e. M/s Symed Labs Limited, Unit II Plot No. 25/B, Phase III, IDA Jeedimetla, Hyderabad, India"	1. As per record available with the firm, Unit-VI is a GMP certified manufacturing unit as evident from GMP certificate provided by the firm, however, the address of the Unit VI of the manufacturer is mentioned at the corporate website of M/s Symed Labs Limited. 2. The firm has GMP certificated issued by Drug Control Administration, Govt of Telangana hereby annexed at Annex-I

Conclusions:

1. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Tapendol 50mg, 75mg & 100mg Tablets (Tapentadol) is verifiable to satisfactory level.
2. The related manufacturing area, equipments, personnel and utilities are compliant and are suited for the manufacturing of Tapendol 50mg, 75mg & 100mg Tablets.

Recommendations:

The firm may kindly be granted necessary registration of Tapendol 50mg, 75mg & 100mg tablets.

Decision: Registration Board decided to approve registration of "Tapendol Tablets 50mg, Tapendol Tablets 75mg &Tapendol Tablets 100mg" by M/s. The Searle Company Limited, Karachi. Manufacturer will place first three production batches of the products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Case No. 06 Cases for Correction In The Decision Of Board Meeting:

Following two cases of Resto Tablets 49/51mg & Resto Tablets 97/103mg of Ms Werrick were presented before the Board in its 287th Meeting. Inadvetently decision of one strength was mentioned against other & vice versa.

Now these two cases are again placed before the board for correction of decision.

1.	Name and address of manufacturer / Applicant	M/s Werrick pharmaceuticals, 216-217, I-10/3, Industrial Area, Islamabad.
	Brand Name +Dosage Form + Strength	Resto Tablets 49/51mg
	Composition	Each film coated tablet contains: Sacubitril……..49mg Valsartan……..51mg
	Diary No. Date of R& I & fee	Dy No.29045; 30-08-2018: 20,000/- ; 06-08-18
	Pharmacological Group	Neprilysin Inhibitor, Angiotensin II receptor blocker
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	10's, 20's, 60's ; As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in US-FDA (Entresto Tablet of Novartis pharms)
	Me-too status	Savel Tablets 24/26mg of PharmaEvo
	GMP status	GMP Inspection conducted on 07-12-2017 with conclusive remarks that firm is operating at satisfactory level of GMP compliance.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	**Documents To Be Provided**	**Status**
1.	COA of API.	Copy of COA (batch #20170203) from M/s Zhuhai Rundu Pharmaceutical Co., Ltd, China is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (certificate No. GD20170777) issued by China Food & Drugs Administration, China. It is valid until 24-12-2022.

3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	The firm has submitted copy of commercial invoice dated 14-06-2017 attested by ADC, DRAP, Islamabad
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The firm has submitted 26 Weeks Accelerated and 26 Weeks Real Time Stability Data for 03 Batches.
- As per submitted stability study data, only one injection of Standard solution for both Assay test and Dissolution test has been recorded. Clarification is required.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:
Date of submission: 06-07-2018 vide diary no. 23459

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Cell-Tab 400mg (Sofosbuvir) Tablets", which was presented Initially in 256th subsequently in 269th & finally in 276th meeting of Registration board. Registration Board decided to approve registration of above stated drug product of M/s. Werrick Pharmaceuticals. According to the report following points were confirmed. • The firm has 21CFR compliant HPLC software • The firm has audit trail reports available.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice dated 19th of May 2017 declaring 3kgs quantity of API Sacubitril + Valsartan (1:1) has been submitted which is not attested by ADC, DRAP Islamabad. **Copy of commercial invoice is not attested by ADC, DRAP Islamabad.**
3.	Documents for the procurement of reference standard and impurity standards.	The firm has submitted copies of COA for following working standard & impurity Standards: **For working standard:** Sacubitril sodium: 99.4 % Valsartan: 100% **For Impurity standard:** Valsartan Related compound C: 92 % Valsartan Related compound B: 99.5 % **COA for the working standard Sofosbuvir is not submitted.**
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has submitted copy of GMP certificate declaring following information: **Certificate No**.GD20170777 **Issued to**: M/s Zhuhai Rundu Pharmaceutical Co., Ltd, China. **Issued by**:Zhuhai Food & Drug Administration, Guangdong

	temperature and humidity monitoring of stability chambers (real time and accelerated).	used in Real Time & Accelerated stability studies of applied product from 01-01-2018 to 15-09-2018.
13.	Method used for analysis of API along with COA.	The firm has submitted photocopies of following: • Raw Material Test/Analysis Procedures & Raw Material Specifications (In-house). • COAs for Sacubitril/Valsartan Complex (Supplier/Manufacturer).
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopies of following: • FPP Test/Analysis Method & FPP Specifications (In-house) for Resto 49/51mg tablet.
15.	Reports of stability studies of API from manufacturer.	The firm has submitted photocopy of 06 Months Accelerated and 24 Months Real Time Stability Study Data of 03 Batches of Sacubitril/Valsartan from M/s Zhuhai Rundu Pharmaceutical Co., Ltd, China according to zone VIb conditions.
16.	Analysis reports for excipients used.	The firm has submitted copy of Analytical reports of excipients used.
17.	Drug-excipients compatibility studies.	The firm has used the excipients of innovator.
18.	Record of comparative dissolution data.	The firm has performed comparative dissolution studies in three media including pH 1.2, pH 4.5 and pH 6.8 buffers with Entresto Tablets 49/51mg manufactured by M/S. Novartis Europharn Limited with Batch No.TK538. The firm‘s product results are comparable to that of the comparator product.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail on testing reports of Sacubitril/Valsartan from 15-08-2017 to 19-02-2018 was submitted by the firm.

Remarks:

Queries	Response by the firm
1. Evidence for procurement of working standards and impurity standards is not submitted.	We received working standard & impurity standards along with API. So there is no separate invoice
2. COAs of Sacubitril impurity standards has not been submitted.	There is no specific impurity of Sacubitril as mentioned in the COA of API. The COA mentions specific impurity for valsartan only.
3. Copy of commercial invoice confirming the import of API is not ADC attested. Clarify.	Applicant has submitted ADC attested Clearance Certificate dated 07-06-17 for the import of 03 kgs Sacubitril+ Valsartan.
4. Evidence of purchase of reference drug product against which the CDP is carried out is not submitted.	The applicant has submitted the photocopy of outer carton of Entresto 97/103mg tablets.
5. You have mentioned two types of primary packaging materials (Alu/alu & Alu/PVC) on stability study data sheets. Mention that one packaging material which is used during stability studies of applied formulations.	The applicant has confirmed Alu/PVC as a primary packaging material for applied formulation.
6. Stability protocols, Analytical method for API & FPP & Analytical method validation protocols are not attested.	Firm has submitted the Stability protocols, Analytical method for API & FPP & Analytical method
7. Which analytical method is used by the firm for test/analysis of applied formulation either Supplier or In-house,	The applicant has in-house analytical method for applied formulation.

clarify.	
8. Analytical report for Color Red # 40 (Lake) is not submitted.	Firm has submitted Colour RED # 40 Lake packaging material for applied formulation.
9. Batch release test/analysis results of applied drug product are not submitted.	
10. Assay of Valsartan & Sacubitril (APIs) has to be calculated by these formulas (Area of sample/Area of standard × Conc. of standard/Conc. of sample × 100) & (Area of sample/Area of standard × Conc. of standard/Conc. of sample× 0.949 × 100) respectively as per submitted analytical method for test/analysis of API. However the formula used for the calculation of assay results of above stated APIs, as evident by your submitted raw data sheets of stability studies is different. Clarify/ Justify	In the calculation of API, the factor 0.949 is used to calculate the secubitril base (as it is used in the form of secubitril sodium salt) while in the product's stability studies it has already been adjusted in the formulation, so this factor is not required in the assay of stability studies.
11. Assay & Dissolution results of Valsartan & Sacubitril (APIs) are calculated by these formulas (Area of sample/Area of standard × 100) & (Area of sample/Area of standard × 100) respectively as per submitted analytical method for test/analysis of finished product, without considering the concentration & potencies of standards. Clarify/Justify	The potency of Sacubitril is adjusted in weight taken for reference standard whereas valsartan is calculated by its potency formula for assay as mentioned in raw data sheets. In case of dissolution the potency of both valsartan & secubitril is adjusted in weight taken for reference standard.
12. Drug-excipients compatibility studies are not submitted.	Stability Studies (accelerated & real time) are indicative of chemical & physical compatibility with the drug product. These studies clearly demonstrate that the excipients used for the manufacture of the dosage form are compatible with the API.
13. Submit procedure adopted by firm for conduction of CDP.	The firm has submitted procedure for adopted by firm for conduction of CDP.
14. Sacubitril/valsartan (88%) is written in master formulation. What does this 88% mean?	The activity of API is 88% which was adjusted to 100% in the formula.
15. Date acquired 31-01-2018 on the chromatograms for run of dissolution reference in initial studies of trial # 2 of Wertril tablet 49/51 is not verifiable from the submitted audit trail reports. Clarify/Justify.	-------
16. Date acquired 05-05-2018 on the chromatograms for run of dissolution reference in 3rd month studies of trial # 2 of Wertril tablet 49/51 is not verifiable from submitted audit trail reports. Clarify/ Justify.	-------

Decision of 287th meeting:

Registration Board decided to approve registration of "Resto Tablets 49/51mg" by "M/s Werrick pharmaceuticals, 216-217, I-10/3, Industrial Area, Islamabad." Manufacturer will place first three production batches of the product on long-term stability studies throughout proposed shelf life and on accelerated studies for six months.

Decision: Registration Board deferred case for confirmation of audit trail of HPLC analysis for stability studies of three trial batches of Resto Tablets 49/51 by Panel already constituted by Chairman, Registration Board.

2.	Name and address of manufacturer / Applicant	M/s Werrick pharmaceuticals, 216-217, I-10/3, Industrial Area, Islamabad.
	Brand Name +Dosage Form + Strength	Resto Tablets 97/103mg
	Composition	Each film coated tablet contains: Sacubitril……..97mg Valsartan……103mg
	Diary No. Date of R& I & fee	Dy No.31946; 25-09-2018: 20,000/- ; 06-08-18
	Pharmacological Group	Angiotensin II receptor blocker
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	10's, 20's, 60's ; As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in US-FDA (Entresto Tablet of Novartis pharms)
	Me-too status	
	GMP status	GMP Inspection conducted on 07-12-2017 with a conclusive remarks that firm is operating at satisfactory level of GMP compliance.

Date of Initiation	21-08-2017	21-08-2017	21-08-2017
No. of Batches	03		
Date of Submission	31947 (25-09-2018)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API.	Copy of COA (batch #20170203) from M/s Zhuhai Rundu Pharmaceutical Co., Ltd, China is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (certificate No. GD20170777) issued by China Food & Drugs Administration, China. It is valid until 24-12-2022.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like	Yes

	chromatograms, laboratory reports, data sheets etc.	
5.	Documents confirming import of API etc.	The firm has submitted copy of commercial invoice dated 14-06-2017 attested by ADC, DRAP, Islamabad
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The firm has submitted 26 Weeks Accelerated and 26 Weeks Real Time Stability Data for 03 Batches.
- As per submitted stability study data, only one injection of Standard solution for both Assay test and Dissolution test has been recorded. Clarification is required.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:
Date of submission: 06-07-2018 vide diary no. 23459

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Cell-Tab 400mg (Sofosbuvir) Tablets", which was presented Initially in 256th subsequently in 269th & finally in 276th meeting of Registration board. Registration Board decided to approve registration of above stated drug product of M/s. Werrick Pharmaceuticals. According to the report following points were confirmed. • The firm has 21CFR compliant HPLC software • The firm has audit trail reports available.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice dated 19th of May 2017 declaring 3kgs quantity of API Sacubitril + Valsartan (1:1) has been submitted which is not attested by ADC, DRAP Islamabad. **Copy of commercial invoice is not attested by ADC, DRAP Islamabad.**
3.	Documents for the procurement of reference standard and impurity standards.	The firm has submitted copies of COA for following working standard & impurity Standards: **For working standard:** Sacubitril sodium: 99.4 % Valsartan: 100% **For Impurity standard:** Valsartan Related compound C: 92 % Valsartan Related compound B: 99.5 % **COA for the working standard Sofosbuvir is not submitted.**
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has submitted copy of GMP certificate declaring following information: **Certificate No**.GD20170777 **Issued to**: M/s Zhuhai Rundu Pharmaceutical Co., Ltd, China.

QA / QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted photocopies of data logger record for chambers used in Real Time & Accelerated stability studies of applied product from 01-01-2018 to 15-09-2018.
13.	Method used for analysis of API along with COA.	The firm has submitted photocopies of following: • Raw Material Test/Analysis Procedures & Raw Material Specifications (In-house). • COAs for Sacubitril/Valsartan Complex (Supplier/Manufacturer).
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopies of following: • FPP Test/Analysis Method & FPP Specifications (In-house) for Resto 97/103mg tablet.
15.	Reports of stability studies of API from manufacturer.	The firm has submitted photocopy of 06 Months Accelerated and 24 Months Real Time Stability Study Data of 03 Batches of Sacubitril/Valsartan from M/s Zhuhai Rundu Pharmaceutical Co., Ltd, China according to zone VIb conditions.
16.	Analysis reports for excipients used.	The firm has submitted copy of Analytical reports of excipients used.
17.	Drug-excipients compatibility studies.	The firm has used the excipients of innovator.
18.	Record of comparative dissolution data.	The firm has performed comparative dissolution studies in three media including pH 1.2, pH 4.5 and pH 6.8 buffers with Entresto Tablets 49/51mg manufactured by M/S. Novartis Europharn Limited with Batch No.TK538. The firm's product results are comparable to that of the comparator product.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail on testing reports of Sacubitril/Valsartan from 15-08-2017 to 19-02-2018 was submitted by the firm.

Remarks:

Queries	Reply by the firm
1. Evidence for procurement of working standards and impurity standards is not submitted.	We received working standard & impurity standards along with API. So there is no separate invoice
2. COAs of Sacubitril impurity standards has not been submitted.	There is no specific impurity of Sacubitril as mentioned in the COA of API. The COA mentions specific impurity for valsartan only.
3. Copy of commercial invoice confirming the	Applicant has submitted ADC attested

import of API is not ADC attested. Clarify.	Clearance Certificate dated 07-06-17 for the import of 03 kgs Sacubitril+ Valsartan.
4. Digital data logger record for Accelerated stability studies from 27-01-2018 to 31-01-2018 is not submitted.	It is submitted now.
5. Evidence of purchase of reference product against which the CDP is carried out is not submitted.	The applicant has submitted the photocopy of outer carton of Entresto 97/103mg tablets.
6. Clarification regarding difference in Manufacturing method submitted in dossier (direct compression) & submitted with Stability studies in Batch Manufacturing Records (Dry granulation consisting of Slugging, Lubrication, Film coating) is required.	Clarified by the applicant.
7. You have mentioned two types of primary packaging materials (Alu/alu & Alu/PVC) on stability study data sheets. Mention that one packaging material which is used during stability studies of applied formulations.	The applicant has confirmed Alu/PVC as a primary packaging material for applied formulation.
8. Justify how assay and dissolution results are calculated by this formula (Area of sample/Area of standard ×100) without considering the potency of working standards. However in supplier analytical method of API, assay is calculated by considering the potency of standard.	The potency of Sacubitril is adjusted in weight taken for reference standard whereas valsartan is calculated by its potency formula for assay as mentioned in raw data sheets. In case of dissolution the potency of both valsartan & secubitril is adjusted in weight taken for reference standard.
9. Stability protocols, Analytical method for API & FPP & Analytical method validation protocols are not attested.	Firm has submitted the Stability protocols, Analytical method for API & FPP & Analytical method validation protocols for applied formulation..
10. Which analytical method is used by the firm for test/analysis of applied formulation either Supplier or In-house, clarify.	The applicant has in-house analytical method for applied formulation.
11. Analytical report for Color Red # 40 (Lake) is not submitted.	It is submitted now.

Decision of 287th RB meeting:

Registration Board decided to defer the case for confirmation of audit trail of HPLC analysis For stability studies of all three trial batches of applied product i.e. Resto Tablets 49/51, by Area FID.

Decision: Registration Board decided to approve registration of "Resto Tablets 97/103mg" by "M/s Werrick pharmaceuticals, 216-217, I-10/3, Industrial Area, Islamabad." Manufacturer will place first three production batches of the product on long-term stability studies throughout proposed shelf life And on accelerated studies for six months.

A. Cases Discussed in 05th meeting of Expert Working Group on Veterinary Drugs

a. VETERINARY BIOLOGICALS LOCALLY MANUFACTURED IN PAKISTAN.

Sr. No.	Name and address of product manufacturer (Applicant)	M/s. Ottoman Pharma 10 Km, Raiwind Road, Lahore.
1.	Brand Name +Dosage Form + Strength	OTTO FLU PLUS + VAC Injectable Emulsion (For Veterinary use only) Each dose contains:- Inactivated AIV H7N3 [Not less than EID_{50} 10^9/ml……....0.06ml Inactivated AIV H5N1 [Not less than EID_{50} 10^9/ml……..….0.06ml
	Type of Form, Diary No. Date of R& I & fee	Form-5, Dy. No.7460(R&I) Date:27-02-2018 Rs.20,000/-.

	Pack size & Demanded Price	300ml/vial **Decontrolled**
	International Availability	N/A
	Products already registered in Pakistan	i. Bio-Avian ii. GPVAC Flu 5+7
	Previous Decision:	Registration Board referred the case regarding the use of H5N1 strain in Pakistan to the expert working group on veterinary drugs. (M-282)
	Decision: - The member from M/o Food, Security informed that Pakistan has been declared as H5N1 free country. After deliberation, the Group observed that at this stage it would be premature to restrict registration of such vaccines merely on this ground as availability of such vaccines for any possible out break of the disease in future has also to be taken in consideration. Moreover, being a killed vaccine, it may not carry the hazards associated with live vaccines. The Expert Working Group, therefore, recommended OTTO FLU PLUS + VAC vaccine for being me to product.	
	Decision: Registration Board referred the case to Expert Working Group on veterinary drugs for further deliberation with reference to H5N1 strain.	

b. IMPORTED VETERINARY BIOLOGICAL NOT AVAILABLE IN EXPORTING COUNTRY REFER TO VETERINARY EXPERT COMMITTEE IN 284TH MEETING OF REGISTRATION BOARD.

	Pack size	500ml (1000 doses) Bottle
	International Availability	UEMOA(West African community including 8 countries)
	Products already registered in Pakistan	Not Available.
	Remarks of the evaluator	a. The product is not available in country of origin. The firm submitted copy of certificate of registration for product issued by ITA ND+IB+EDS+COR ABC indicating that according to diagnostic data infectious coryza has not been detected in Hungary by the National Food Chain Safety Office/ Veterinary Diagnostic Directorate in the last 10 years. The vaccine is licensed for manufacture in the country of origin .e. Hungary without being used on the Hungary market. However, it can be sold freely in the countries where the vaccine has valid market authorization. b. The firm has not submitted accelerated stability data and submitted that To perform accelerated stability study is not relevant in case of veterinary immunological products. Vaccines should be stored at 2^0C-8^0C. Storage out of range is not authorized. c. The firm has requested for "As per Innovator specifications" but the Innovator is not traceable.

	Previous Decision	Registration Board decided to refer the case to expert working group on veterinary drugs regarding the non-availability of product in country of origin and advised the firm to submit accelerated stability data of 3 batches for six months (M-284)
	Decision: - Expert working group noted that the combination is not me to and the said product is not available in country of origin. The Working Group was of the view that process of further scrutiny / evaluation of the product may be considered, once Registration Board decide upon its status with regards to the policy for products which are not on free sale in country of origin.	
	Decision:- Registration Board deferred the case for seeking details from the firm, before making final decision on the matter in accordance with prevailing policy, regarding free sale status of the said product in any of the reference regulatory authority prescribed by Registration Board for the said purpose.	

c. IMPORTED VETERINARY BIOLOGICALS CONSIDERED IN DIFFERENT MEETINGS OF REGISTRATION BOARD WHICH ARE NOT AVAILABLE IN EXPORTING COUNTRY.

Sr. No.	Manufacturer/ Importer	Brand Name and Composition	Remarks	Registration Board decision
1.	M/s. Ghazi Brothers, Karachi. M/s. IZO S.p.A., Via A. Bianchi 9, Brescia, Italy.	**IzovacAviflu 9** Multidose Freeze-Dried Bottle Each dose of 0.5ml of vaccine contains:- Inactivated Avian Influenza A strain H9N2……320 H.A.U. (Immunological) **(For Veterinary Use).**	New CoPP mentions that *"The product has been developed exclusively for the treatment of the conditions particularly tropical diseases, not endemic in the country of export"*	**273rd** *"Keeping in view the facts recorded above and GMP confirmation by Italian regulatory authority, Registration Board approved the product as per valid legalized CoPP and subject to compliance of Import policy for Finished Drugs".*
Decision: - Expert working group noted that the combination is me to and the said product is not available in country of origin. The Working Group was of the view that process of further scrutiny / evaluation of the product may be considered, once Registration Board decide upon its status with regards to the policy for products which are not on free sale in country of origin. **Decision: Registration Board deferred the case for seeking details from the firm, before making final decision on the matter in accordance with prevailing policy, regarding free sale status of the said product in any of the reference regulatory authority prescribed by Registration Board for the said purpose.**

	GMP status	Panel inspection conducted on 11-05-2018 recommended for the renewal of DML and two additional sections
	Remarks of the Evaluator.	The firm has submitted revised Form-5 correcting the strength of

		Belladonna extract as per me-too reference.
	Previous decision	Deferred for submission of fee for revision of formulation **(M-283).**
	Evaluation by PEC	The firm has deposited fee challan of Rs. 20,000/- (deposit slip # 0799105) dated 03-09-2018.
	Previous Decision:	Registration Board referred the case to Expert working group on Veterinary Drugs for review of formulation **(M-285)**.
Decision: Expert working group recommended this formulation as Belladonna Extract provides soothing and local anesthetic effect additionally.		
Decision (M-289):- Registration Board deferred the case for further deliberation on the matter.		

B. Cases Discussed in 06th meeting of Expert Working Group on Veterinary Drugs

Sr. No.	Name and address of manufacturer / Applicant	M/s. Vetz Pharmaceuticals (Private) Limited, Plot # Q-1, S.I.T.E. Kotri Sindh.
1.	Brand Name +Dosage Form + Strength	Vetzazene injection
	Composition	Each ml contains:- Diminazine Aceturate……..……105mg Antipyrine……..……131mg
	Diary No. Date of R& I & fee	1016, 06-09-2016, 20,000/-, 02-09-2016
	Pharmacological Group	Antiprotozoa
	Type of Form	Form-5
	Finished Product Specification	Manufacturer
	Pack size & Demanded Price	10ml; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	N/A
	Me-too status	Pronil Injection of Selmore Pharma (Reg # 029609)
	GMP status	The inspection conducted on 24-10-2017 concluded as: ―Maintenance of required quality of air and temperature as well as cleanliness of the facility, its design to facilitate cleaning was found nicely managed. The implementation of quality oversight and control over the manufacturing of drugs was found well attended by the entire team under their best capacity. **The ability of management, enthusiasm to walk with scientific standards was visible and remarkable.** The exercise to understand the entire status of compliance with emerging regulatory expectations is **under way** and will be recorded accordingly‖.
	Remarks of the Evaluator.	
	Previous decision	Deferred for the clarification regarding chemical structure/nature of antipyrine in applied formulation **(M-277).** Registration Board referred the case to Expert working group on Veterinary Drugs for review of this formulation **(M-283).**
	Evaluation by PEC	The firm was communicated to provide rationale of antipyrine in applied formulation. In response firm has submitted that **―Diminazene aceturate** is an antiprotozoal substance active against the following babesiosis (piroplasmosis) causing agents: Babesiabigemina, Babesiadivergens, Babesiabovis in cattle; Babesiacaballi and Babesiaequi in horses; Babesiaovis in sheep; Babesiacanis and Babesiagibsoni in dogs and Theileriaannulata in cattle. It is highly effective against Trypanosomacongolense and Trypanosomavivax and moderately active against Trypanosomabruceï, Trypanosomaevansi and Trypanosomaequiperdum. **Antipyrine**(phenazone) is an analgesic, a nonsteroidal anti-

		Inflammatory drug (NSAID) and an antipyretic. It reduces fever especially in case of babesiosis. • Reference: Plumb's veterinary drug hand book sixth edition (Donald.C Plumb, Pharm-D, USA) • Chemically, antipyrine is 1,2-Dihydro-1,5-dimethyl-2-phenyl-3H-pyrazol-3-one and synonyms are Phenazone and Analgesine. • The firm has submitted reference of literature which shows that antipyrine in the injection formulation acts as stabilizer and used for inflammation and fever.
	Previous Decision:	Registration Board referred the case to Expert Working Group on Veterinary drugs for review of formulation **(M-283)**.
Decision of Expert Working Group in its 5th meeting: Deferred for further evaluation with respect to withdrawal period and safety profile of antipyrine. **Decision of Expert Working Group in its 6th meeting:** *Fixed dose combination of Diminazene aceturate & Antipyrine (Phenazone) are available and marketed in countries having heamatozoons infections, where the principle of disease therapy intends requirement of 'antiprotozoal' and 'antipyratic' together for ease and convenience of use and therapeutic effect. However, withdrawal period is advised for strict observance on label when used in food producing animals. The combination is recommended for registration.*		
Decision (M-289):- Registration Board deferred the case for further deliberation on the matter.		

2	Name and address of manufacturer / Applicant	M/s. Inshal Pharmaceutical Industries, Plot # 2, Street SS2, National Industrial Zone, Rawat Islamabad.
	Brand Name +Dosage Form + Strength	TYLO CS Injection
	Composition	Each ml contains:- Mepyramine Maleate……50mg
	Diary No. Date of R& I & fee	10, 02-08-2012, Rs.12,000/-, 15-06-2015, 8000/-, (Photocopy attached) 02-08-2012
	Pharmacological Group	Anti-Histamine
	Type of Form	Form-5
	Finished Product Specification	In house specification
	Pack size & Demanded Price	50ml; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	N/A
	Me-too status	ALLERGINIL Liquid injection of Sanna Lab (Reg#069623)
	GMP status	Panel inspection conducted on 11-05-2018 recommended for the renewal of DML and two additional sections
	Remarks of the Evaluator.	
	Previous Decision:	Registration Board referred the case to Expert working group on Veterinary Drugs for review of this formulation **(M-283).**
Decision of Expert Working Group in its 05th meeting: Deferred for further evaluation on safety profile of Mepyramine Maleate by Dr. Mazharul Haq.		
Decision of Expert Working Group in its 06th meeting: *Mepyramine is a competitive inhibitor at H1 tissue cell histaminic receptors. It attaches with great affinity to histamine receptors, preventing the untoward effects of histamine release. The binding of mepyramine to cell receptors evokes no direct cellular reaction. Mepyramine also has some antiserotonin properties. It is useful in counteracting the action of histamine on bronchial, intestinal, uterine and vascular smooth muscle. It antagonizes the vasodilator and vasoconstrictor effects of histamine, as well as the effect of increased capillary permeability. It may be used for urticaria, oedema formation and other allergic reactions, especially those associated with Type 1 (anaphylactic) and Type IV (cell-mediated or delayed) hypersensitivity reactions. It can also be used as an adjunct to therapy in cases such as laminitis, feed engorgement, metritis and photosensitivity and a special use is made of mepyramine's initial CNS stimulatory action on recumbent cattle. It can be given as intravenous, intramuscular and subcutaneous injection in all species.*		

The formulation is available in New Zealand under the name "Antimine" (100ml multi-dose vial; Registered pursuant to the ACVM Act 1997, NoA2677) for all species from 'Ethical Agents' a family owned veterinary, agriculture and livestock specialist, in Auckland at 54 Hobill Avenue, Wiri, Auckland 2104; Tel: 0800 800 624).A formulation in combination [Pyrilamine maleate 25 mg (also called Mepyramine maleate) and Ephedrine hydrochloride 10 mg] from Vétoquinol N.-A. Inc., 2000, ch. Georges, Lavaltrie, QC, Canada J5T 3S5 in the form of sterile injectable antihistaminic solution for veterinary (DIN 02020122) use in cattle, cats, dogs, sheep and horses is available in Canada. The Mepyramine maleate based products are recommended for registration for veterinary use.

Decision (M-289):- Keeping in view the recommendation of Expert Working Group on Veterinary Drugs, Registration Board decided to approved the above mentioned product of M/s. Inshal Pharmaceutical Industries, Islamabad.

3	Name and address of manufacturer / Applicant	M/s. Inshal Pharmaceutical Industries, Plot # 2, Street SS2, National Industrial Zone, Rawat Islamabad.
	Brand Name +Dosage Form + Strength	MINAPYRINE INJECTION
	Composition	Each ml contains:- Diminazene Aceturate……..105mg Antipyrine…..……..131mg
	Diary No. Date of R& I & fee	560, 07-06-2012, Rs.12,000/-, 15-06-2015, 8000/-,
	(Photocopy attached) 07-06-2012	
	Pharmacological Group	Analgesic, Antipyretic, Antitrypansomiasis
	Type of Form	Form-5
	Finished Product Specification	In-house
	Pack size & Demanded Price	50ml amber coloured glass vials; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	N/A
	Me-too status	PRONIL INJECTION of Selmore Pharma (Reg # 029609)
	GMP status	Panel inspection conducted on 11-05-2018 recommended for the renewal of DML and two additional sections
	Remarks of the Evaluator.	
	Previous Decision:	Registration Board referred the case to Expert working group on Veterinary Drugs for review of this formulation **(M-283)**.

Decision of Expert Working Group in its 5th meeting: Deferred for further evaluation with respect to withdrawal period and safety profile of antipyrine.

Decision of Expert Working Group in its 6th meeting: *Fixed dose combination of Diminazene aceturate & Antipyrine (Phenazone) are available and marketed in countries having heamatozoons infections, where the principle of disease therapy intends requirement of 'antiprotozoal' and 'antipyratic' together for ease and convenience of use and therapeutic effect. However, withdrawal period is advised for strict observance on label when used in food producing animals. The combination is recommended for registration.*

Decision (M-289):- Registration Board deferred the case for further deliberation on the matter.

	GMP status	GMP certificate granted on the basis of inspection dated 31-1-2018
	Remarks of the Evaluator.	
	Decision of previous meeting	Deferred for clarification of compatibility of both API’s. **(M-281)**
	Evaluation by PEC	Firm has submitted that “*taking any dose of aspirin on regular basis can triple the risk of dangerous gastrointestinal bleeding and addition of vitamin C acts as an antioxidant in the stomach to decrease aspirin induced stomach damage. Taking vitamin c and aspirin together decreases the amount of stomach damage that occurs when compared to taking aspirin alone, according to research done at German University. This to prevent aspirin induced stomach damage we add vitamin C in drug*

		combination"
	Previous Decision:	Registration Board referred the case for Expert Working Group on Veterinary Drugs **(M-285)**.

Decision of Expert Working Group (06th meeting):

Generally speaking, Acetylsalicylic acid (Aspirin) and Ascorbic acid (vitamin C) rationality of combination as fixed ratio pharmaceutical products is primarily based on marketing interest, and not on therapeutic value and justification. Ascorbic acid is very unstable compound particularly when exposed to oxygen or transition elements. Protection can only be achieved either coating it with certain substances or bonding it with certain moieties. Apparently, in the given formulation (based on provided information) vitamin C does not seem to remain stable chemically. Moreover, Acetylsalicylic acid (Aspirin) and Ascorbic acid (vitamin C) have strong negative interaction when used concomitantly. Vitamin C may act as urine acidifier that may reduce the renal excretion of aspirin and resultantly may end up in its accumulation and toxicity (A negative pharmacokinetic interaction). Concurrent use of Aspirin also impedes the gastrointestinal absorption of Vitamin C. Therefore the formulation appears only the wastage of money and stress for the animal. Furthermore, use of vitamin C in animals of veterinary importance (Ruminants) is of doubtful clinical significance.

After examination and evaluation of the justification provided by the firms for FDCs, the committee observed that the data provided and available peer reviewed scientific evidences does not support the rationality of these combinations. The expert committee is not convinced by the rationality of their use in combination presented by the manufactures. These combinations show to violate scientific merits and are without adequate justification.

Decision (M-289):- Registration Board deferred the case for further deliberation on the matter.

The expert committee is not convinced by the rationality of their use in combination presented by the manufactures. These combinations show to violate scientific merits and are without adequate justification.

Decision: Registration Board deferred the case for further deliberation on the matter.

7	Name and address of manufacturer / Applicant	"M/s Mylab Pvt Ltd. Khankah Sharif Bahawalpur"
	Brand Name +Dosage Form + Strength	Meprax Injection
	Composition	Each ml Contains: Mepyramine maleate ….. 50mg
	Diary No. Date of R& I & fee	Dy.No 23797 dated 12-12-2017 Rs. 20,000 Dated 08-12-2017
	Pharmacological Group	Antihistamine
	Type of Form	Form-5
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	50ml
	Approval status of product in Reference Regulatory Authorities	--
	Me-too status (with strength and dosage form)	MEPRAWITS INJECTION Of M/s. WIMITS PHARMACEUTICALS, (Reg.#078303)
	GMP status	Last GMP inspection conducted on 13-09-2018 and 14-09-2018 recommending the renewal of DML
	Remarks of the Evaluator	
	Decision of Expert Working Group in its 06th meeting: *Mepyramine is a competitive inhibitor at H1 tissue cell histaminic receptors. It attaches with great affinity to histamine receptors, preventing the untoward effects of histamine release. The binding of mepyramine to cell receptors evokes no direct cellular reaction. Mepyramine also has some antiserotonin properties. It is useful in counteracting the action of histamine on bronchial, intestinal, uterine and vascular smooth muscle. It antagonizes the vasodilator and vasoconstrictor effects of histamine, as well as the effect of increased capillary permeability. It may be used for urticaria, oedema formation and other allergic reactions, especially those associated with Type 1 (anaphylactic) and Type IV (cell-mediated or delayed) hypersensitivity reactions. It can also be used as an adjunct to therapy in cases such as laminitis, feed engorgement, metritis and photosensitivity and a special use is made of mepyramine's initial CNS stimulatory action on recumbent cattle. It can be given as intravenous, intramuscular and subcutaneous injection in all species.* *The formulation is available in New Zealand under the name "Antimine" (100ml multi-dose vial; Registered pursuant to the ACVM Act 1997, NoA2677)for all species from 'Ethical Agents' a family*	

	owned veterinary, agriculture and livestock specialist, in Auckland at 54 Hobill Avenue, Wiri, Auckland 2104; Tel: 0800 800 624).A formulation in combination [Pyrilamine maleate 25 mg (also called Mepyramine maleate) and Ephedrine hydrochloride 10 mg] from Vétoquinol N.-A. 	Composition	Each 100g powder contains: Vitamin C……20g Acetyl Salicylic……20g Vitamin K3……2.5g
	Diary No. Date of R& I & fee	14-11-2016, Dy. No.2185, Rs.20,000/-, 10-11-2016

	Pharmacological Group	Analgesic and Antipyretic (NSAIDs)
	Type of Form	Form-5
	Finished Product Specification	Manufacturer's specifications
	Pack size & Demanded Price	100g, 500g, 1kg, 2.5Kg, 5Kg, 10Kg,20Kg, 25kg; Decontrolled
	Approval status of product in Reference Regulatory Authorities.	N/A
	Me-too status	C-Plus Powder of M/s. Intervac Pharma (Reg#046598)
	GMP status	QA Division vide letter No.F.8-6/2018-QA dated 18th September, 2018 concluded that the firm M/s. Decent Pharma, Rawat is allowed to resume production in oral dosage forms. However, production in sterile area shall remain suspended till the installation of distillation assembly, verification by the panel of experts and subsequent approval for resumption of production.
	Remarks of the Evaluator.	
	Decision of Exper Working Group in its 06th meeting: *Generally speaking, Acetylsalicylic acid (Aspirin) and Ascorbic acid (vitamin C) rationality of combination as fixed ratio pharmaceutical products is primarily based on marketing interest, and not on therapeutic value and justification. Ascorbic acid is very unstable compound particularly when exposed to oxygen or transition elements. Protection can only be achieved either coating it with certain substances or bonding it with certain moieties. Apparently, in the given formulation (based on provided information) vitamin C does not seem to remain stable chemically. Moreover, Acetylsalicylic acid (Aspirin) and Ascorbic acid (vitamin C) have strong negative interaction when used concomitantly. Vitamin C may act as urine acidifier that may reduce the renal excretion of aspirin and resultantly may end up in its accumulation and toxicity (A negative pharmacokinetic interaction). Concurrent use of Aspirin also impedes the gastrointestinal absorption of Vitamin C. Therefore the formulation appears only the wastage of money and stress for the animal. Furthermore, use of vitamin C in animals of veterinary importance (Ruminants) is of doubtful clinical significance.* *The presence of vitamin K3 may influence the oxidative susceptibility of vitamin C and its requirement as well. The use of vitamin K3 in combination with aspirin is more irrational and has no therapeutic value. Rather it may enhance the adverse effects. As aspirin inhibits the synthesis of vitamin K dependent clotting factors. With the use of aspirin, prothrombin synthesis is impaired and leads to hypo-prothrombin-emia.* *The provided info on the formulations is ambiguous. For example the water solubility of the Menadione (vitamin K3) is pharmaceutical form specific. Ascorbic acid does not have clinically validated data on aspirin induced gastro-protection in animals as argued by the firms. However, some antisecretory and/or antacid generics might have some clinical value without any significant influence on pharmacokinetic profile.* *After examination and evaluation of the justification provided by the firms for FDCs, the committee observed that the data provided and available peer reviewed scientific evidences does not support the rationality of these combinations. The expert committee is not convinced by the rationality of their use in combination presented by the manufactures. These combinations show to violate scientific merits and are without adequate justification.*	
Decision:- Registration Board deferred the case for further deliberation on the matter.		
10.	Name and address of manufacturer / Applicant	M/s. Decent Pharma Plot No. 30, Street SS 3, National Industrial Zone, Rawat

However, production in sterile area shall remain suspended till the installation of distillation assembly, verification by the panel of experts and subsequent approval for resumption of production.
	Remarks of the Evaluator.	
	Decision of Expert Working Group in its 06th meeting: *The principal component of the product L-Carnitine is a vitamin-like substance that is synthesized in the body of animals through a metabolic process involving several cofactors (lysine and methionine), four vitamins (vitamin C, niacin, vitamin B12 and choline) and reduced iron. Despite increased hepatic carnitine concentration around calving, insufficient endogenous carnitine synthesis might contribute to fatty liver-development in peri-parturient dairy. Carnitine mediates energy production and is beneficial in detoxification of aflatoxins. Higher animals, including mammals, can synthesize carnitine. However, recent studies have indicated that the biosynthesis of carnitine may be limited or inadequate in certain animals. The demand for carnitine during the suckling period may exceed the capacity for its synthesis. Although carnitine has been studied in humans and under laboratory conditions for many years, its effectiveness in promoting the performance and well-being of domestic animals has only recently received attention. A role for carnitine in animal species has been established. The other components of the products (including an array of amino acids, and sugars) also support the Carnitine synthesis; thus having the fortifying action on availability of the principal molecule for enhanced metabolism, energy production and cellular detoxification.*	
Decision (M-289):- Keeping in view the recommendation of Expert Working Group on Veterinary Drugs, Registration Board decided to approved the above mentioned product of M/s. Decent Pharma, Rawat.		

11.	Name and address of manufacturer / Applicant	M/s Izfaar Pharmaceutical Pvt Ltd. 542-A & B, Sundar Industrial Estate, Lahore, Pakistan
	Brand Name +Dosage Form + Strength	Furol Powder
	Composition	Each gm Contains: Furazolidone…….950mg.

	Remarks of Evaluator	
	Decision (06th meeting): Expert working group, as already deliberated in its 05th meeting held on 27-12-2018, observed that **Furazolidone** has strong potential of causing genotoxicity and cytotoxicity due to possible residual effects. The formulation is therefore recommended to be rejected.	
Decision (M-289):- Keeping in view the recommendation of Expert Working Group on Veterinary Drugs, Registration Board decided to reject the registration application of M/s Izfaar Pharmaceutical Pvt Ltd, Lahore containing Furazolidone due to strong potential of causing genotoxicity and cytotoxicity due to possible residual effects.		

Case No.01:- REQUEST OF M/S. PAK CHINA INTERNATIONAL, KARACHI FOR CHANGE OF MANUFACTURING SITE OF THEIR ALREADY REGISTERED PRODUCT.

M/s. Pak China International, 233, Sunny Plaza Hasrat Mohani Road, Karachi has applied for change of manufacturing site of their following already registered human product, as per details given below. Due to several changes in modern technology in plant of existing manufacturer M/s. Furen Pharmaceutical Group Co. Ltd. China have stopped the manufacturing of Metronidazole Injection 100ml and are unable to supply the registered product Metronidazole Injection 100ml to Pakistan market.

S. No.	Reg. No.	Name of Product(s) with Composition.	Existing Manufacturer/ Exporter.	New proposed Site(s).
1.	013267	Metronidazole Injection 100ml Per single dose glass vial contains:- Metronidazole……0.5gm	**Manufacturer:** M/s. Furen Pharmaceutical Group Co. Ltd. China. **Exported by:** M/s. Ninhua Group Co. Ltd. 21, Jiangxia Street, Ningbo 315000 P.R. China.	**Manufacturer and product License Holder:** M/s. Cisen Pharmaceutical Co. Ltd., Haichuan Road, Jining High & New Technology Industrial Development Zone, Jining, Shandong Province, China. **Exported by:** M/s. Ninhua Group Co. Ltd. 21, Jiangxia Street, Ningbo P.R. China.

Firm has deposited required fee of Rs.100,000/- and submitted following supporting documents:-

(i) Revised Form 5A.
(ii) Copy of initial registration letter.
(iii) Copy of change of manufacturer and exporter.
(iv) Copy of change of exporter.
(v) Copy of last renewal receiving.
(vi) NOC from previous manufacturer i.e. M/s. Furen Pharmaceutical Group Co. Ltd. China.
(vii) Revised Original & legalized CoPP's and GMP for new manufacturing site.
(viii) Credential of new manufacturing site.
(ix) Copy of distribution agreement.
(x) Site master plan of the manufacturer.

Decision: **Registration Board approved the above changes in respect of registered products Metronidazole Injection 100ml (Reg.No. 013267), subject to policy for imported finished drug registration. Other terms and conditions remain the same.**

Case No.02:- Registration of Drugs under the Drugs Act, 1976-Inspection Reports of Manufacturer Abroad.

Registration Board approved drugs in various meetings subject to inspection of manufacturer abroad as per import policy. The inspections were accordingly carried out by the approved inspection panel. The following panel inspection reports of manufacturer abroad have reported certain observations as per details mentioned below:-

(A) M/s. Cisen Pharmaceutical Co. Ltd. Tongji Tech Industry Garden, Jining High & New Technology Industrial Development Zone, Jining, Shadong, China.

S. No.	Name of Importer/ Manufacturer & meeting number	Name of Drug/ Composition/ Shelf Life	Panel of Inspector(s)/ Date of inspection

Comments/ Remarks of the Panel.

(i) The CoPP of all the four products i.e. *Ondansetron Injection 8mg/4ml, Ofloxacin Infusion 200mg/100ml, Ciprofloxacin Infusion 200mg/100ml and Omipen Injection 40mg* mentions manufacturer and product license holder as ***M/s Cisen Pharmaceutical Co., Ltd, Tongji Tech-Industry Garden, Jining High & New Technology Ind. Development Zone, Jining. Shandong Province***. However, Ondansetron Injection 8mg/4ml, Ofloxacin Infusion 200mg/100ml and Ciprofloxacin Infusion 200mg/100ml are manufactured at the premises situated at ***Haichuan Road, Jining High & New Technology Industries Development Zone***, while Omipen Injection 40mg is manufactured at premises located mentioned in the CoPP, which is few street away from the Haichuan Road premises.

Registration Board in its 288th meeting decided as:

i. Approved processing of issuance of registration letter for product "Omipen Injection 40mg" to be manufactured at "*M/s. Cisen Pharmaceutical Co. Ltd. Tongji Tech Industry Garden, Jining High & New Technology Industrial Development Zone, Jining, Shadong, China"* in accordance with the recommendation of said site by nominated inspection panel.

ii. For products at Sr. No. 1-3 "Ondansetron injection 8mg/4ml", "Ofloxacin infusion 200mg/100ml" and "Ciprofloxacin infusion 200mg/100ml" ***firm shall be advised to provide revised Form-5A along with requisite fee and all other credentials/documentations for the manufacturing site "M/s. Cisen Pharmaceutical Co. Ltd., Haichuan Road, Jining High & New Technology Industrial Development Zone, China" for consideration of Registration Board.***

In response the firm has deposited fee of Rs.100,000 x 3 = Rs.300,000/- and submitted following

supporting documents:-

(i) Revised Form 5A of above products for Sr. No.1-3.
(ii) Original & legalized CoPP's and GMP for new manufacturing site of above products.
(iii) Credential of new manufacturing site M/s. Cisen Pharmaceutical Co. Ltd., Haichuan Road, Jining High & New Technology Industrial Development Zone, Jining, Shandong Province, China.
(iv) Copy of distribution agreement.
(v) Site master plan of the manufacturer.

Decision: **Approved processing of issuance of registration letter for product "*Ondansetron Injection 8mg/4ml, Ofloxacin Infusion 200mg/100ml, Ciprofloxacin Infusion 200mg/100ml*" to be manufactured at "M/s. Cisen Pharmaceutical Co. Ltd., Haichuan Road, Jining High & New Technology Industrial Development Zone, Jining, Shandong Province, China." as per the COPP and in accordance with the recommendation of said site by nominated inspection panel.**

Case.No.03:- Request of M/s. Medinet Pharmaceuticals, Rawalpindi for Change of Name of manufacturer for registered product Anfotericina Fada Injection (Reg.No. 033128).

M/s. Medinet Pharmaceuticals, Rawalpindi requested for change of name of manufacturer for registered products the details are as under. The case was presented in 286th meeting of Registration Board.

S.#	Regn. No.	Existing Name/ Composition	Existing Name of manufacturer	Proposed Name of manufacturer & Market authorization holder (as per CoPP)	Initial registration with renewal	Remarks/ Diary No. R&I
I	II	III	IV	V	VI	VII
1.	031391	Varedet Injection Each vial contains:- Vancomycin HCI.....500mg	M/s. FADA Pharma S.A., Argentina.	Manufacturer & Product License Holder:- M/s. Laboratorio Inernacional Argentino S.A., 1641, Tabare St. C.A.B.A. Argentine Republic.	27-7-2004 Last renewal submitted on 17-7-2014	Dy. No. 7355 R&I dated 27-02-2018.
2.	031392	Varedet Injection Each vial contains:- Vancomycin HCI.....1000mg	-do-	-do-	27-7-2004 Last renewal submitted on 17-7-2014	-do-
3.	031393	Duvig Injection Each vial contains:- Dobutamine HCI…….250mg	-do-	-do-	27-7-2004 Last renewal submitted on 17-7-2014	-do-
4.	033128	Anfotericina Fada Injection Each vial contains:- Amphotericin B…….50mg	-do-	M/s. Laboratorio Internacional Argentino S.A. Av. 12 de Octubre 4444, Quilmes, Buenos Aires, Republica Argentina.	03-12-2004 Last renewal submitted on 21-11-2014	-do-

Firm has deposited fee of Rs.5,000x4=20,000/- & submitted following supporting documents:-

i) Copies of registration letters.
ii) Copies of renewal status.
iii) Original & legalized CoPP issued by Argentian Authority.

iv) Original & Legalized GMP issued by Argentian Authority.
v) Copy of Drug Sale License.
vi) Copy of change of corporate name amendment of the articles in corporation.

It is pertinent to mentioned that the firm has requested for change of name of manufacturer for all the products from M/s. FADA Pharma S.A., Argentina to M/s. Laboratorio Inernacional Argentino S.A., 1641, Tabare St. C.A.B.A. Argentine Republic. However, as per CoPP of product at Sr. No.4, the name and address of manufacturer is mentioned as M/s. Laboratorio Internacional Argentino S.A. Av. 12 de Octubre 4444, Quilmes, Buenos Aires, Republica Argentina. which is different from the one requested by the firm. Similarly the address of the manufacturer abroad was not mentioned on initial registration letter.

Case was presented before Registration Board in its 283rd meeting & Board decided as follow;

"Registration Board deferred the case for confirmation of address of manufacturer from previous import clearance documents in order to ascertain that the manufacturing site(s) is/are the same."

The firm has now provided previous import documents wherein it can be confirmed that, for products at Sr.No.1-3, the manufacturing site remains the same.

Decision: Registration Board decided as follow;

a. For products at Sr.No.1-3, approved the change in name of manufacturer from M/s. FADA Pharma S.A., Argentina to M/s. Laboratorio Inernacional Argentino S.A., 1641, Tabare St. C.A.B.A. Argentine Republic on same terms and conditions.
b. For product at Sr.No.4, deferred the case for seeking clarification from the firm regarding the address/status of manufacturer

With reference to above decision for the product Anfotericina Fada Injection (Reg.No.033128)(at Sr.no.04). The firm has submitted as under:-

1. As already informed that there are 5 plants of Labortorio Internacional Argentino S.A in Argentina including the following mentioned in the GMP and COPP.
   - Plant at 1641, Tabare St.C.A.B.A Argentina Republic.
   - Plant at 4444, 12 de Octubre Av., Quilmes Buenos Aires, Argentina.
2. The drug under question Anfotericina Fada Injection 500mg (Amphotericin B) is manufactured at plant 4444, 12 de Octubre Av., Quilmes Buenos Aires, Argentina and there is no change in the manufacturing site of the drug.
3. The company legal address is at 1641, Tabare St. C.A.B.A. Argentina republic which is mentioned in the invoices as being the legal and business address of the company. This address is written in the export documents of all the products in the place of manufacturing site which made confusion in the change of the address.
4. Since GMP and COPP are issued by the Regulatory body of the country (Argentina), therefore, address of the representative manufacturing site is mentioned on the GMP and COPP.

Sr. NO.	Product	Address as per GMP	Address as per COPP	Address as per Import Clearance Invoice
1.	Anfotericina Fada Injection 50mg (Reg.No. 033128)	M/s Laboratoria Internacional Argentino S.A 4444, 12 de Octubre Av., Quilmes Buenos Aires, Argentina.	M/s Laboratoria Internacional Argentino S.A. Av. 12 de Octubre 4444, Quilmes, Buenos Aires, Republica Argentina	Not Provided

The firm has not provided previous import documents so it cannot be confirmed that, for this product, the manufacturing site remains the same or different.

Decision: Registration Board deferred the case for further deliberation.

Case No.04:- Request of M/s Mukhtar Enterprises for the change of Specifications from USP to In-house of their already registered products.

M/s Mukhtar Enterprises, Lahore has requested for the change of Specifications from USP to IN-House of their already registered two products.

Sr. No	Reg No.	Product	Manufacturer and Product license Holder
1	085257	Vancomycin 500mg Injection vial Powder for concentrate for solution for IV infusion (USP Specifications)	M/s Xellia Pharmaceutical ApS Dalslandsgade 11, 2300 Copenhagen S Denmark
2	085258	Vancomycin 1000mg Injection vial Powder for concentrate for solution for IV infusion (USP Specifications)	-do-

The firm has applied In-House Specifications in the dossier (application).

The firm (M/s Xellia, Denmark) has submitted that the product was initially developed according to the USP monograph (because the product is officially available in USP monograph). In order to market the product in European Union, the product must follow the Ph.Eur regulations and test methods. This product is not officially available in Ph.Eur monograph, henceforth the product was developed through In-house method and finished product tests or parameters were analysed using Ph.Eur testing methods only as mentioned in the Pharmacopeia reference column of Finish Product Specifications.

A comparison has been made between both specifications.

Sr. No.	Tests	Xellia Specifications	USP specifications
1	Chromatographic Purity (HPLC) Vancomycin B	NLT 92%	NLT 88%
2	Bacterial Endotoxins	LT 0.25IU/mg	NMT 0.33EU/mg activity
3.	Assay	95%-105%	90%-115%
4.	pH	3-5	3-5
5.	Sub-Visible Particles Diameter _>10um Diameter _>25um	NMT 6000 Particles/Vial NMT 600 Particles/Vial	NMT 6000 Particles/Vial NMT 600 Particles/Vial
7.	Water	NMT 3%	NMT 5%
9.	Impurities	NMT 1.8%	NMT 4%

Decision: Registration Board approved in house specifications (Xellia Specifications) for above products as these are more stringent than USP.

Registration Board deferred rest of agenda due to paucity of time.
The meeting ended with the vote of thanks to and from the Chair.
