Drug Regulatory Authority of Pakistan
T.F. Complex, Mauve Area, G-9/4
Islamabad.

295th meeting of Registration Board was held on 08th- 11th June, 2020 in the Committee Room, Drug Regulatory Authority of Pakistan, G-9/4, Islamabad. The meeting was chaired by Dr.Obaidullah, Director, Pharmaceutical Evaluation & Registration Division, DRAP. The meeting started with recitation of the Holy Verses.

The meeting was attended by following:-

1.	Dr. Rafeeq Alam Khan, Meritorious Professor, Faculty of Pharmacy, Ziauddin University, Karachi.	Member
2.	Maj.Gen. (R) Dr.Tahir Mukhtar Sayed, Inspector General (Hospitals), Fauji Foundation, Rawalpindi	Member
3.	Mr. Iftikhar A.Choudhary, Hospital Pharmacist, Lahore	Member
4.	Dr. Qurban Ali, Ex-Director General, National Veterinary Laboratories, Islamabad	Member
5.	Dr. Amanullah Khan, Director, Drugs Testing Laboratory, Quetta. Government of Balochistan	Member
6.	Dr. Muhammad Khalid Jawed, Director, Drugs Testing Laboratory,Peshawar Government of Khyber Pakhtunkhwa	Member
7.	Mr. Muhammad Aslam, Deputy Draftsman-II, Representative of Ministry of Law & Justice, Islamabad	Member
8.	Mr. Ghulam Mujtaba, Deputy Director (Patent) Representative of IPO, Islamabad.	Member
9.	Dr. Noor-us-Saba, Director, Biological Evaluation & Research Division, DRAP	Member
10.	Mr. Abdullah, Additional Director (PE&R), DRAP.	Member/ Secretary

Following members attended the meeting via video link.

11.	Lt.Gen.(R) Prof.Dr. Karamat Ahmed Karamat (HI-M, SI-M) Former Surgeon General Pakistan	Member
12.	Dr. Hafsa Karam Ellahi, Additional Director, Representative of QA&LT Division, DRAP	Member

Mr. Asif Jalil, Incharge PEC and respective Assistant Directors, presented the agenda of PE&R Division. Director, BE&R assisted by respective Assistant Directors to present the agenda of Biological Evaluation & Research Division. Additional Director, QA&LT was assisted by respective Assistant Directors to present the agenda of QA & LT Division.

Mr. Ehsan Awan, Mr. Hamid Raza, Mr. Tipu Sultan Sattar, Mr. Arshad Mehmood & Mr.Iftikhar Hussain (PPMA) and Mr. Nadeem Alamgir (Pharma Bureau) and Mr. M.Asad Malik (PC&DA) attended the meeting as observers.

Before formal starting of the agenda, the Board was apprised about the sad demise of Dr.Ghulam Sarwar who was august member of Registration Board for two tenures. The Board recognized his services rendered during his tenures. The members offered Fateha and prayers for the departed soul. May Allah bless him in eternal peace Ameen.

Item No. I: Confirmation of Minutes of 294th Meeting of Registration Board.

294th meeting of Registration Board was held on 09th April, 2020. Initially draft partial minutes of 294th meeting were circulated among the members of Registration Board on 11th April, 2020. Later, complete draft minutes were circulated on 22nd April, 2020 with the request for perusal/approval within five (05) days. None of the members disagreed the draft minutes except Syed Adnan Rizvi, Director DTL, Govt. of Sindh, Karachi who commented on both the partial and complete draft minutes.

The partial & complete minutes in fair, along with comments and response prepared were submitted before Chairman Registration Board for perusal/approval. The Chairman Registration Board after perusal of comments and response approved the partial and complete minutes. The same were circulated to concerned divisions/sections for implementation.

The comments and response is hereby tabulated for information of Board as under: -

Commnets/Response on Partial Minutes	
Comments	**Response**
Item No.II Division of Pharmaceutical Evaluation & Registration. ***Item No.1:*** Priority approval/ registration of drugs during COVID-19 Pandemic. All are approved except serial No. 7, 16, 18, 19, 38, 46, 72, 90, 94, 115, 125, 137, 143, 149, 166, 168, 170, 174, 179, 180, 181, 189, 190,194, 200, 208, 217, 233, 234, 235, 237, 251, 259, 261, 263, 265, 266, 273, 293, 296, 300 and 308 are approved with change of Brand names.	Brand names are checked before issuance of registration letters and will be followed in these cases as well
More important is that labelling should be in base form instead of Hydroxychloroquine H_2SO_4 200mg equivalent to 155mg base. As labelling of plaquenil clearly mentioned that Plaquenil (Hydroxychloroquine sulfate) tablets contain 200mg Hydroxychloroquine sulfate equivalent to 155mg base.	• The reference product Plaquenil contains hydroxychloroquine in its "sulphate" salt form and the numerical figure of "200" accounts for the total quantity of hydroxychloroquine sulphate rather than hydroxychloroquine alone. • Equivalency statement of "200mg Hydroxychloroquine sulfate is equivalent to 155mg base" is an additive elaboration made in the PIL (patient information leaflet or detailed literature), while the product is always prescribed with the numerical figure of 200, which accounts for the "Hydroxychloroquine sulphate". Also the dose recommendations are made using the figure of 200. • Hence, the equivalency of salt form to the base may be given in the PIL (which is already conditioned to be same as that of innovator), while for label claim correct statement has already been mentioned.
Item No.II: Registration-I section ***Case No.1:*** Opinion regarding letter of DG Health Punjab. This may be given one time permission as the financial year being closed and all the firms may be given time for registration of the larger packs if required and registration may be given in time in public interest.	Needs no comments as deferred by Registration Board for further deliberation
Item No. III ***Case No. 1:*** Any alternation, ornamenting, finishing comes under the heading of 'manufacture' in the Drug Act, 1976. This permission should be given in emergency only from the license premises having DML with cold chain facility not at drug sale license premises.	Needs no comments as same has been decided by Registration Board

Item No. IV: ***Case No. 2:*** Novartis applied for exemption from local testing of their product "Tablet Exforage", containing Valsartan, the product is imported in finished form by the Firm. As the policy is decided after reported carcinogenic activity of NDMA by the registration board in 291st meeting that, product registration holders shall ensure and are bound to test the APIs & the finish products for impurities, than why an exemption is considered for a finished product to be imported into Pakistan. The importers of finished products containing Valsartan shall also be asked to provide analysis report of both APIs & Finished product at the time of import for each batch. Either the firm ensure and give affidavit that finished product doesn't contain the NDMA impurity and they will test every 10th batch of finished product for the said impurity. As impurity of NDMA develop during formulation of finished drug (Zantac) not during basic manufacturing of API may also be considered before giving exemption of testing finished product for NDMA in larger public health interest.	It has been established by reference regulatory authorities that NDMA found in Valsartan is a process related impurity generated during the API manufacturing and is not a degradation impurity generated during finished product manufacturing or FPP storage, hence the amount of NDMA detected at the API batch release level is likely to be carried out in the Finished Product at the same level. Accordingly, it was established by M/s Novartis that the API Valsartan used by Novartis in formulation of FPP has been tested and found compliant for NDMA contents and has also undertaken that same API has been used for manufacturing of FPPs and exported. It is also pertinent to mention that for local manufacturers, NDMA testing has been made mandatory for the API only and not for the FPPs. Unlike Valsartan, in case of Ranitidine NDMA was present in both the finished drug product samples and the active pharmaceutical ingredients (APIs). Moreover the USFDA's recent laboratory testing results demonstrated that levels of NDMA in some ranitidine finished drug products increase over time at room temperature hence giving a hint that the NDMA in Ranitidine may be a degradation impurity which may arise in FPP during storage.

Comments/Response on Complete Minutes	
Comments	**Response**
Item # II: The word growth promoter should be removed at Sr.No.24 in pharmacological group.	The word growth promotor is removed.
at serial # 36 the word NSAID should be incorporated in place of anti inflammatory as Flunixin is potent analgesic, antipyretic and anti-inflammatory.	Flunixin is categorized only as Anti-inflammatory and Antirheumatic Products as per WHO ATC Vet Index. Therefore, no change is required.
Serial # 42,43,45,46 contained Gentian Violet which is carcinogenic in nature it should be removed in composition.	Gentian violet applications are of spray dosage form for external use and Board has considered on the basis of evidence of already registered generic drug(s). However, comments are taken for future strategy and course of action keeping in view the availability in RRA and use of said molecule in veterinary formulation.
Serial # 46 pharmacological group may kindly be corrected as anti biotic instead of diuretic.	Pharmacological group is already mentioned as Antibacterial / antiseptic.
At serial # 78 is approved with change of brand name.	Brand names are checked before issuance of registration letters & will be followed in these cases as well
Serial # 75,76,77 & 78 approval of DPI (storied) in general section is against the policy of 290th meeting of registration board.	The approval of these products is as per the decision of 290th meeting of RB wherein the Board decided that if applied formulation includes a steroidal drug then firm shall require separate section for "Dry Powder Inhaler Capsule" to avoid chances of cross contamination and the same is complete in the instant cases.
Serial # 141, 142, 143, 144, 145, 146, 147, 159, 160, the word expectorant should be edit beside the anti bacterial in pharmacological group.	Case 141, 142, 143, 146 & 159 are already deferred, so no action is required. Case 144, 145 corrections done. Case 147, 160 no expectorant is used in the

	formulation. So no action is required.
Serial # 258 the word anthelmintic with anti biotic in pharmacological group.	Pharmacologic group is mentioned, so no action is required.
Serial # 74 approve the registration of indigo with innovator's specification. Manufacturer will place first three production badges of long term stability studies throughout proposed shelf life and on accelerated studies for six month in the public interest at large.	The case is deferred since the applied formulation is a subsequent generic (the innovator was first approved in 254th meeting).
Item # 08 **Case # 02** **Serial # 265:** I was as member in the penal, the penal checked authenticity / geniuniousness of the stability data. the dissolution studies were performed three trial budges for the intervals (initial, 1,2,3 & six month) at accelerated as well as on long term the dissolution test were within the specification i.e. 80% (Q) in 30 minutes. The 15 minute dissolution interval is required in comparative dissolution studies which is already being performed and test results complied the requirements. The data and test results were checked by penal the GNP certificate of API manufactures were also shown by the farm therefore the registration of sofosbuvir tablets 400mg my kindly be granted to the farm.	As per decision of 293rd meeting of Registration Board. For rapidly dissolving drug products (i.e. those products for which the dissolution time adopted by innovator/reference product is 15 minutes or less). a. The firms should exactly follow the same dissolution time as adapted by innovator / reference product. b. For already submitted stability studies and those cases in which stability batches are manufactured before 01-06-2020, wherein the dissolution testing was performed at more than 15 minutes time point, the firm shall perform dissolution testing at 15 minutes time point at initial and one month time point at both accelerated and real time stability conditions for 2 batches. The decision of the Board is in the light of its decision taken in 293rd meeting. Furthermore, the conclusion of the report point (2) specifies that Valid GMP Certificate of API Manufacturer is hereby attached for reference, while no GMP certificate is attached with the report therefore the case is deferred for GMP certificate.
Import & Vet I- II Section **Case#01:** Acceptance of Eudra GMDP for manufacture out side of EU. As Eudra GMDP data base provide GMP status of Reference and non Reference country therefore this exemption should not be given as the registration board already made policy in 275th meeting approved 21 RRAs in the interest of public health, also kept the decision in C.P. 3093/2019 M/s Hakimsons Vs Federation of Pakistan and others and C.P. 3094/2019 Sindh Medical Store Vs Federation of Pakistan and others in which exemption was not granted by the Honorable High Court Sindh to the petitioners. Therefore, inspection exemption of manufacturing facilities on the basis of Eudra GMDP data base should not be given.	The GMP certificates available at Eudra GMP database are based on the inspection reports conducted by national competent authorities of EU EMA. The reports as well as certificates are owned, maintained and operated by EMA. Further, policy for inspection of manufacturer abroad (for imported drugs) recognizes facility (dosage form manufacturing facility or whole product facility) approved by regulatory authorities of EU EMA. Hence, instant decision is in line with the decisions of DRAP's Policy Board and Registration Board taken in its 275th meeting. Moreover, in the referred cases no such orders have been passed by the Honorable Sindh High Court as mentioned by Director DTL.

Decision: Registration Board confirmed the minutes of 294th meeting.

Item No. I: Cases Related to Covid-19 Management.

A. Division of Pharmaceutical Evalautaion & Registration (P. E & R)

Priority Approval / Registration of Drugs During the COVID-19 Pandemic:

The world is currently facing one of the biggest public health outbreak of coronavirus disease 2019 (COVID-19), which is caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The outbreak was first identified in Wuhan, Hubei, China, in December 2019. The World Health Organization (WHO) declared the outbreak to be a Public Health Emergency of International Concern on 30th January 2020 and recognized it as a pandemic on 11th March 2020. More than 723,500 cases of COVID-19 have been reported in over 190 countries and territories, resulting in approximately 34,000 deaths till date.

Many clinical trials are under way for treatment / prevention of COVID-19 which uses different type of pharmaceutical / biological drugs. Many drugs have been allowed for investigational use in hospitals under medical care for the COVID-19 patients.

The authorities from all over the world have considered the use of several drugs under their respective national emergency management plans. Clinical Management Guidelines for COVID-19 Infections issued by Ministry of National Health Services, Regulation & Coordination (available at http://covid.gov.pk/guideline) also recommends the use of these drugs in the management of mild to moderate and severe cases of COVID-19 patients. Further, USFDA has also given Emergency Use Authorization for chloroquine and hydroxychloroquine tablets for COVID-19 patients (available at: https://www.fda.gov/media/136534/download). Further Centers for disease control and prevention (CDC) USA also issued Information for Clinicians on Therapeutic Options for Patients with COVID-19 (available at: https://www.cdc.gov/coronavirus/2019-ncov/hcp/therapeutic-options.html). Similarly Italian Medicines Agency (AIFA) considers it essential to provide clinical elements useful to guide the prescription and to define, for each drug used, a relationship between benefits and risks for the individual patient. *Off-label* use is only permitted under the national emergency management plan for treatment of COVID-19 by using Lopinavir / ritonavir (available at: https://www.aifa.gov.it/emergenza-covid-19).

Keeping in view the above information, Drug Regulatory Authority of Pakistan (DRAP), exercising its powers under Rule 26of Drugs (LRA) Rules amended via SRO 713(1)/2018 dated 8th June, 2018, has made following decision in its meeting dated 3rd April, 2020.

1. Allowed to submit registration application on form 5, form 5A, form 5D or form 5E instead of form 5F for following formulations as approved by the reference regulatory auhtories;
    a. Chloroquine Phosphate
    b. Hydroxychloroquine Sulfate
    c. Lopinavir/Ritonavir
    d. Oseltamivir
    e. Ascorbic Acid
2. The applicant can submit their application till 2nd May 2020 but the date was extended till 5th May, 2020 vide letter No.F.76-DRAP/2020(PE&R) dated 30th April, 2020.
3. These applications will be considered out of queue.
4. The validity of registration period for above mentioned drugs registered during this time will be one only.
5. The registration holder will submit data of product development of 3 and 6 months within one year. The data will be considered by Registration Board for extension of validity period of registration for further period.
6. Applicant shall submit affidavit for compliance of point and 5 above.

The Authority further extended the time lines till 31-07-2020 for submission of registration applications on Form 5 / Form 5-A / Form 5-D for molecules already approved by the Authority for the management of Covid-19.

Discussion & Decision:

In continuation to discussion and decision of 294th meeting, Registration Board decided to adopt same approval pathway and accordingly decided as follows:

a. **The registration applications of following formulations, as approved by Reference Regulatory Authorities, will be considered out of queue on priority basis:**
   - **Chloroquine Phosphate**
   - **Hydroxychloroquine Sulfate**
   - **Lopinavir/Ritonavir**
   - **Oseltamivir**
   - **Ascorbic Acid**

b. **As present, registration applications are without product development and stability data, thus registration shall be valid for 01 year only and the registration holder shall perform product development including stability studies for 6 months as per intervals and data requirements decided by Registration Board in 293rd meeting and shall submit to PE&R Division within one year time for consideration by Registration Board for extension of validity period of registration for further period. The same shall be applicable for the 5D applications of above formulations.**

c. **Registration Board also clarified that no therapeutic claim regarding treatment of COVID-19 shall be made for above formulations until unless approved by any Reference Regulatory Authority and the same is approved by Registration Board as well. Presently above formulations shall only be used as part of the clinical trials or its management of COVID-19 under strict supervision of relevant medical experts.**

d. **Registration Board further directed to issue an advisory wherein self-medication and other related matters related to COVID-19 shall be addressed.**

With reference to the decision of Drug regulatory Authority of Pakistan, following applications were received and evaluated by PEC and now presented before the Board. Registration Board considered these applications in light of its above cited decision:

1. Hydroxy Chloroquine Sulfate Tablet 200mg:

Composition:

Each Film Coated Tablet contains:
Hydroxychloroquine sulfate……200mg

International Availability:

PLAQUENIL 200mg film coated tablet by M/s Concordia, USFDA Approved.

Me too: HCQ 200 Tablets by M/s Getz Pharma, Reg. No. 45471

Specifications: USP Specification

Applications for local manufacturing:

Sr. No.	Name of applicant	Brand Name	composition	Diary no. / Date / fee / form	Pack Size / Price	Remarks/GMP status
1.	M/s Wellborne Pharmacchem and Biological, Plot# 51/1-52/1 Phase II, Industrial Estate Hattar.	Hcqwell 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy. No. 6519 Dated 09/04/2020 Rs. 20,000/- Form 5	As per SRO	Last inspection report dated 07/11/2018, Satisfactory level of cGMP compliance.

2.	M/s Arsons Pharmaceutical Industries (pvt) Ltd. 2.5km defence road, off Multan road, Lahore.	Hydroximol 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 6535 dated 09/04/2020 Rs. 20,000/- Form 5	As per SRO	Last inspection dated 18/09/2019, satisfactory GMP compliance for; ➢ Tablet (General & Psychotropic) ➢ Capsule General ➢ Cream/ointment /Gel (general)
3.	M/s Eros Pharmaceuticals (pvt) ltd, 94/23, Korangi industrial Area, Karachi.	Ero HCQ sulphate 200 tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 7268 dated 14/04/2020 Rs. 20,000/- Form 5	As per SRO	Last inspection report dated 26/03/2018, panel recommended resumption of production.
4.	M/s Pliva Pakistan (pvt) ltd. B-77, H.I.T.E, Balochistan.	Pliquine Tablet 200mg	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 7136 dated 13/04/2020 Rs. 20,000/- Form 5	As per SRO	Renewal of DML was granted vide letter No.F.4-1/89-Lic(Vol-V) dated 7th November, 2019.
5.	M/s ISIS Pharmaceuticals & Chemical Works, Karachi.	IS-HCQ tablet 200mg	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 6749 dated 10/04/2020 Rs. 20,000/- Form 5	As per SRO	Last inspection report of dated 08-07-2019 showed good level of GMP compliance.
6.	M/s Avant Pharmaceuticals, M-028 HITE Lasbela Balochistan.	Avequine 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 7610 15/04/2020 Rs. 20,000/- Form 5	As per SRO	Last inspection report dated 07/12/2017, good GMP.
7.	M/s Mafins Pharma, A-5, SITE Super highway Industrial Area, Karachi.	Hydroqueen 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy. No.6524 09/04/2020 14/04/2020 Rs. 20,000/- Form 5	As per SRO	Last inspection conducted on 24/07/2019, appropriate GMP compliance.
8.	M/s Amarant Pharmaceuticals Private Limited, 158, D. Tore, Gadap road Super Highway, Karachi.	Amaquine-H 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy. No.7154 13/04/2020 dated 13/04/2020 Rs. 20,000/- Form 5	As per SRO	Good GMP compliance, inspection date 24/07/2018.
9.	M/s Jinnah Pharmaceuticals (pvt) ltd. 13km Lahore Road, Multan.	J-Quine H200 tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 7110 dated 13/04/2020 Rs. 20,000/- Form 5	As per SRO	The panel recommended renewal of DML, inspection date 03/05/2019.
10.	M/s BJ Pharmaceuticals 18-km Mandiali stop, Lahore-shiekhupura road Lahore.	Hicloq 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 6758 dated 10/04/2020 Rs. 20,000/- Form 5	As per SRO	**Firm has required** equipment/ machinery, HVAC system and qualified staff, firm showed good intention to further improvements in future. Overall hygienic condition of the firm is satisfactory at the

						time of inspection. Inspection date 15/01/2020.
11.	M/s N.S Pharma, Plot # 576-577 Sundar Industrial estate Lahore.	NS-Chlor 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy.No. 6273 08/04/2020 Rs. 20,000/- Form 5	As per SRO	DML issued on 14/09/2017.
12.	M/s Hicon Pharmaceuticals, 131-Industrial Estate Hayatabad.	Oroquine Advance 200mg tablet	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy. No.6566 9/04/2020 Rs. 20,000/- Form 5	As per SRO	Good level of GMP, inspection date 26/07/2018.
13.	M/s MBL Pharma, B-77-A, HITE, HUB, Balochistan.	Mb Hcquine tablet 200mg	Each Film Coated Tablet contains: Hydroxychloroquine sulfate……200mg	Dy. No.7932 16/04/2020 Rs. 20,000/- Form 5	As per SRO	Good GMP compliance, inspection date 28/02/2018.
14.	M/s Akson Pharmaceuticals Pvt Ltd. Plot no.9-B/1 & 2, Sector D-1,Old industrial Estate Mirpur Azad Kashmir	Quinex Tablet 200mg	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 7307 dated 14/04/2020 Rs. 20,000/- Form 5	As per SRO	As of today the firm's facility is suitable to carry out manufacturing and testing of pharmaceuticals. Inspection date 22/02/2019.
15.	M/s Goodman laboratories (Pvt) Ltd, Plot#5, Street# S-05, National Industrial Zone Rawat.	Quinogood 200mg tbalet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy. No. 5856 Dated 07/04/2020 Rs. 20,000/- Form 5	As per SRO	GMP certificate issued on the basis of inspection conducted on 08/08/2018.
16.	M/s Max Pharmaceuticals. Plot # 12, St. No. N-7, National Industrial Zone, Rawat, Islamabad	Hydromax 200mg tablet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 6568 dated 14/04/2020 Rs. 20,000/- Form 5	As per SRO	Good level of GMP compliance, inspection date 21/02/2019.
17.	M/s Warafana Pharmaceuticals (Pvt) Ltd. Plot#125-126-127, Industrial triangle kahuta road, Islamabad.	War Quin 200mg tablet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 6522 dated 09/04/2020 Rs. 20,000/- Form 5	As per SRO	GMP inspection dated on 12-07-2017 concluding that firm is operating at fair level of compliance with GMP.
18.	M/s Evolution Pharmaceuticals (pvt) ltd Plot # 25&26, street S-3, RCCI, National Industrial zone, Rawat, Islamabad.	Quenil 200mg tablet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 6532 dated 09/04/2020 Rs. 20,000/- Form 5	As per SRO	**Inspection date** 25/10/2018, As the operations have not started as of yet at M/s Evolution Pharmaceuticals, Rawat the GMP status can only be ascertained upon the start of active pharmaceutical; however, keeping in view the facility inspected the firm has requisite

						manufacturing facility for manufacturing of Pharmaceuticals.
19.	M/s Medisave Pharmaceuticals. Plot 578-579, Sundar Industrial Estate, Lahore, Pakistan	Qinsave 200mg Tablet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 7770 16/04/2020 Rs. 20,000/- 16-04-2020 Form 5	As per SRO	GMP certificate issued on 22/01/2020 on the basis of inspection conducted on 02/10/2019.
20.	M/s Jawa Pharmaceuticals Pvt Ltd, 112/10, Quaid e Azam Industrial Area, Kot Lakhpat, Lahore	Curequine 200mg Tablet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 8382 dated 21/04/2020 Rs. 20,000/- 21-04-2020 Form 5	As per SRO	Inspection date 21/02/2020 & 04/03/2020. Satisfactory level of GMP compliance.
21.	M/s Bosch Pharmaceuticals (Pvt.) Ltd. Bosch House 221, Sector 23, Korangi Industrial Area, Karachi.	B-Quine H 200mg Tablet	Each film coated tablet contains: Hydroxychloroquine sulfate…200mg	Dy.No. 8329 dated 20/04/2020 Rs. 20,000/- 20-04-2020 Form 5	As per SRO	Inspection date 17/09/2019, Acceptable levelof GMP compliance.

	Pharmacological Group	Macrolide antibiotic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack Size & Demanded Price	As per SRO
	Approval Status of Product in Reference Regulatory Authorities	Could not be confirmed
	Me-too Status	AZOTINE of M/s Nimral Pharma, Islamabad, Reg. No. 68501
	GMP Status	Last inspection report dated 22/05/2018, the firm is Operating with cGMP as of today.
	Remarks of the Evaluator.	Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.
	Decision: Deferred for evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.	

Deferred Cases:

878.	Name and address of manufacturer / Applicant	Invictus Pharmaceuticals, Plot No. 21, 26, Street No. NS-2, national Industrial Zone (RCCI) Rawat Rawalpindi
	Brand Name +Dosage Form + Strength	Ezocin Capsule 250mg
	Composition	Each capsule contains: Azithromycin as dihydrate…… 250mg
	Diary No. Date of R& I & fee	Dy No. 1734: 14.01.2019 PKR 20,000/-: 14.01.2019
	Pharmacological Group	Macrolides
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Azithromycin 250 mg Capsules. MHRA approved
	Me-too status	Azofas 250mg Capsules. Reg. No. 60291

	GMP status	The firm has been granted DML on the basis of inspection 13.11.2018 & 17.12.2018.
	Remarks of the Evaluator[IX]	The USP has mentioned amperometric electrochemical detector with dual glassy carbon electrodes for assay/analysis. The firm submitted that they will purchase the same.
	Previous decision	The Board in its 289th meeting deferred the case for amperometric electrochemical detector with dual glassy carbon electrodes for assay/analysis.
	Evaluation by PEC	The USP has specified Amperometric electrochemical detector with Dual glassy carbon Electrode. Provide proof of provision of the same. However, in previous cases, it was claimed that the said electrode is not a requirement in USP 42. The firm submitted that they have purchased amperometric electrochemical detector with dual glassy carbon electrodes.
	Decision: Approved.	
879.	Name and address of manufacturer / Applicant	M/s Iqra Pharmaceuticals. Plot No. 02, Street No. S-9, National Industrial Zone, Rawat, Islamabad, Pakistan
	Brand Name+ Dosage Form + Strength	Zito 250mg Capsule
	Composition	Each hard gelatin capsule contains: Azithromycin as Dihydrate……250mg
	Diary No. Date of R & I & Fee	Dy No. 15550: 07.03.2019 Rs. 20,000/-: 06.03.2019
	Pharmacological Group	Macrolides
	Type of Form	Form-5
	Finished Product Specification	USP
	Pack Size & Demanded Price	1x6's, 10's; as per SRO
	Approval Status of product in Reference Regulatory Authorities	Azithromycin 250 mg Capsules. MHRA approved
	Me-too Status	Azofas 250mg Capsules. Reg. No. 60291
	GMP Status	New License
	Remarks of the Evaluator[IX]	The USP has mentioned amperometric electrochemical detector with dual glassy carbon electrodes for assay/analysis. The firm submitted that they will purchase the said electrode.
	Previous decision	The board in its 289th meeting deferred the case for provision of amperometric electrochemical detector with dual glassy carbon electrodes for assay/analysis.
	Evaluation by PEC	The firm again submitted that they will purchase the said electrode.
	Previous decision	The board in its 290th meeting deferred the case for provision of amperometric electrochemical detector with dual glassy carbon electrodes for assay/analysis.
	Evaluation by PEC	The firm requested that they may be granted USP sepcifications or BP specification. The USP has specified Amperometric electrochemical detector with Dual glassy carbon Electrode. Provide proof of provision of the same. However, in previous cases, it was claimed that the said electrode is not a requirement in USP 42. The undersigned does not have any access to USP 42.
	Decision: Approved.	
880.	Name and address of manufacturer / Applicant	M/s Vega Pharmaceuticals (Pvt) Ltd,
	Brand Name +Dosage Form + Strength	Azocin 250mg tablet
	Diary No. Date of R& I & fee	Duplicate dossier Dated 29/04/2013 Rs. 20,000 (8000/- + 12000/-)
	Composition	Each tablet contains: Azithromycin as dehydrate…….250mg
	Pharmacological Group	Antibiotic

	Type of Form	Form 5
	Finished Product Specification	USP
	Pack Size & Demanded Price	Rs. 280/- per 10's
	Approval Status of Product in Reference Regulatory Authorities	MHRA Approved
	Me-too Status	Azithrolide tablet of M/s Heal Pharma (Reg. # 084233)
	GMP Status	Date of inspection 9th January, 2019 & 21st March, 2019.Fair level of cGMP compliance at the time of inspection.
	Remarks of the Evaluator.	
	Decision: Deferred in 261st meeting for: • Commitments as per decision of the Board. • Inspection report • Finished product specifications. • Fee Rs. 8000/- and 12000/- are photocopies. • Approval status in reference countries. **Evaluation by PEC:** • Commitments as per decision of the Board are submitted. • Inspection report Submitted. • The product is present in USP. The submitted monograph shows that the firm has applied for Film Coated tablet as per the reference product while the minutes of 261st meeting the composition is mentioned as Each Tablet Contains azithromycin as dihydrate…250mg. • The product is approved in MHRA and me too status is confirmed.	
Decision: Approved. Fee shall be verified as per procedure adopted in 285th meeting.		

Case No. 01 Priority Registration of Remdesivir containing drug products

Keeping in view the current outbreak of Covid-19, the Drug Regulatory Authority of Pakistan in its 84th meeting held on 01st June, 2020 decided as:

1. exercising its power under Rule 26 of Drugs (LRA) Rules amended via SRO 713(I)/2018 dated 8th June, 2018, allowed to submit registration applications on Form 5 / Form 5-A / Form 5-D instead of Form 5F, for Registration of Remdesivir and Tocilizumab in light of approvals granted by the reference regulatory authorities and with the following additional conditions:

a. The applicants can submit their applications till 31-07-2020 and these applications will be considered out of queue.
b. Registration Board shall consider grant of registration under proviso of Rules 29(6) (8) of the Drug (Licensing, Registration & Advertising) Rules, 1976 and shall follow precautions / terms & conditions as adopted by the Reference Regulatory Authorities.
c. The registration holders including those granted registration under Form 5D as a new drug will submit data of product development and 6 months accelerated and 6 months real time stability studies data within one year alongwith other data as may be required by Registration Board. The data will be considered by Registration Board for further decision.

Following applications are presented before the Registration Board for its consideration:

I. Applications for "Lyophilized powder for injection" (applied by way of Lyophilization in the vial)

881.	Name and address of Manufacturer / Applicant	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan
	Brand Name+DosageForm+Strength	Coriv Injection 100mg
	Composition	Each Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.12411; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	As Per PRC
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	Last inspection dated 05-08-2019 concluded acceptable level of GMP compliance

Remarks of Evaluator:

Observations	Firm's response
• Test for reconstitution has not been included in the finished product specifications.	• The test for reconstitution has been added in the Finished Product Specification. The revised Finished Product Specification is submitted.
• Reference for finished product specifications shall be submitted.	• Firm has declared finished product specification's "As per Innovator's specifications".
• Unlike the formulation ingredients of the reference product of M/s Gilead Pharma, as revealed in literature from US FDA & EMA you have not mentioned any ingredient in the master formulation for pH adjustment. Clarification shall be submitted in this regard.	• The ingredient Sodium Hydroxide has been used for pH adjustment and it was mentioned in the manufacturing procedure but the ingredient was overlooked to mention in the Manufacturing Formulation Ingredient List. The corrected Master Formulation has been submitted.

882.	Name and address of Manufacturer / Applicant	M/s BF Biosciences Ltd. 5-Km,Sundar Raiwind Road, Lahore
	Brand Name+DosageForm+Strength	Remidia Lyophillized Powder for Infusion 100mg/Vial
	Composition	Each Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.763 (Dir. PE & R); 28-05-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's specifications
	Pack Size & Demanded Price	MRP Rs. 14,600 TP Rs. 12410 ($ 76.98) per Vial
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	Last GMP inspection report conducted on 22-08-2019 recommended renewal of DML.

Remarks of Evaluator:

Observations	**Firm's response**
• Submit evidence of approval of required manufacturing facility for Lyophilization from CLB.	• The facility is licensed to manufacture liquid & Lyophilized Vials manufacturing.
• Submit master formulation for per unit dosage form.	• Master formulation for per unit dosage form has been submitted.
• Test for pH of reconstituted solution has not been included in finished product specifications.	• Revised finished product specification with inclusion of test for pH has been submitted.
• Submitted finished product testing method recommends use of UPLC (Ultra Performance Liquid Chromatograph) equipped with Photodiode Array Detector, for the performance of Assay test whereas submitted List of equipment of QC does not include UPLC.	• UHPLC is not in list of existing equipment as UHPLC is on order (Proforma invoice submitted). Ordered equipment is with PDA (Photo Diode array) detector.
• Sample preparation described in the Assay test is for the "Liquid Injection" instead of "Powder for injection".	• Revised finished product testing method has been submitted, wherein description of sample preparation in assay test has been corrected for powder for injection.
• Reference for proposed finished product specifications shall be submitted.	• Firm has referred to "Innovator's specifications

Keeping in view the current outbreak of Covid-19, the Drug Regulatory Authority of Pakistan in its 84th meeting held on 01st June, 2020 decided as:

- Recommended to the Registration Board under Section 7(c) of DRAP Act, 2012 for permitting M/s BF Biosciences, Lahore for manufacturing of Remdesivir in already approved section for biological drugs on campaign manufacturing basis in light of decision of Appellate Board taken in its 151st sitting held on 16th January, 2019.
- Manufacturing of Remdesivir on campaign basis will also be applicable to other applicants on the same analogy.

883.	Name and address of Manufacturer / Applicant	M/s Bosch Pharmaceuticals (Pvt.) Ltd. Plot No. 209, Sector 23, Korangi Indsutrial Area, Karachi, Pakistan
	Brand Name+DosageForm+Strength	Remivir Injection 100mg
	Composition	Each Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.12483; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs

	Pack Size & Demanded Price	As Per PRC
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	Last inspection dated 10-04-2020 concluded acceptable level of GMP compliance

Remarks of Evaluator:

Observations	**Firm's response**
• The dosage form of applied product shall be clearly declared in Form-5D, whether it is "Dry powder for injection" or "Liquid injectable solution."	• Firm has submitted photocopy of revised Form 5D, wherein dosage form has been declared as "Dry powder for injection (Lyophilized powder).
• Master formulation does not include water for injection. Clarification shall be submitted in this regard.	• Firm has submitted revised master formulation wherein "Water for injection" has been added as diluent along with following statement: "Water for injection not present in final formulation (to be evaporated during lyophilization)
• Test for reconstitution, pH of reconstituted solution, water content, uniformity of dosage have not been included in the finished product specifications.	• Firm has submitted revised finished product specifications, wherein tests for Constituted solution, pH, water content, uniformity of dosage have been included. While firm has referred to their specifications "as per innovator". Note: Acceptance criteria for reconstitution time has not been declared in the finished product specifications.
• Submitted finished product specifications declare the limit for Assay test as 90% - 115%. Scientific justification shall be submitted for extending assay limit beyond usual limit of 110%.	• Limits for Assay test have been changed to 90% - 110% in the revised finished product specifications submitted by firm.
• Finished product testing method shall be submitted.	• Finished product testing method has been submitted.
• Justification shall be submitted for proposed storage condition of "Store below 25^{o}C".	• Firm has changed the proposed storage condition to "Store below 30^{o}C" in the revised Form 5D, while referring to innovator's product storage instructions.
• Justification shall be submitted or demanded shelf life of 36 months.	• The shelf life of Besivir 100mg is established as per Innovator Product by Gilead Sciences, Inc. which is 48 months.

884.	Name and address of Manufacturer / Applicant	M/s Bosch Pharmaceuticals (Pvt.) Ltd. Bosch House 221-223, Sector 23, Korangi Industrial Area, Karachi, Pakistan
	Brand Name+DosageForm+Strength	Besivir Injection 100mg
	Composition	Each Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.12482; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	As Per PRC
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	Last inspection dated 17-09-2019 concluded acceptable level of GMP compliance

Remarks of Evaluator:

Observations	Firm's response
• The dosage form of applied product shall be clearly declared in Form-5D, whether it is "Dry powder for injection" of "Liquid injectable solution."	• Firm has submitted photocopy of revised Form 5D, wherein dosage form has been declared as "Dry powder for injection (Lyophilized powder).
• Master formulation does not include water for injection. Clarification shall be submitted in this regard.	• Firm has submitted revised master formulation wherein "Water for injection" has been added as diluent along with following statement: "Water for injection not present in final formulation (to be evaporated during lyophilization)
• Test for reconstitution, pH of reconstituted solution, water content, uniformity of dosage have not been included in the finished product specifications.	• Firm has submitted revised finished product specifications, wherein tests for Constituted solution, pH, water content, uniformity of dosage have been included. While firm has referred to their specifications "as per innovator". Note: Acceptance criteria for reconstitution time has not been declared in the finished product specifications.
• Submitted finished product specifications declare the limit for Assay test as 90% - 115%. Scientific justification shall be submitted for extending assay limit beyond usual limit of 110%.	• Limits for Assay test have been changed to 90% - 110% in the revised finished product specifications submitted by firm.
• Finished product testing method shall be submitted.	• Finished product testing method has been submitted.
• Justification shall be submitted for proposed storage condition of "Store below 25°C".	• Firm has changed the proposed storage condition to "Store below 30°C" in the revised Form 5D, while referring to innovator's product storage instructions.
• Justification shall be submitted or demanded shelf life of 36 months.	• The shelf life of Besivir 100mg is established as per Innovator Product by Gilead Sciences, Inc. which is 48 months.

885.	Name and address of Manufacturer / Applicant	M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name+DosageForm+Strength	Biovir IV Injection 100mg
	Composition	Each Vial Contains: Remdesivir Lyophillized Powder…100mg
	Diary No. Date of R&I & fee	Dy No.12371; 03-06-2020 ; Rs.20,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	As Per DRAP's Pricing Policy
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	Last inspection dated 18 & 23-04-2019 concluded acceptable level of GMP compliance

Remarks of Evaluator:

Observations	Firm's response
• Form-5D shall be submitted for applied formulation along with differential fee of Rs. 30,000/-	• Firm has submitted differential fee of Rs. 30,000/- vide deposit slip# 1943897 dated 05-06-2020, whereas again Form 5 has been submitted instead of Form 5D.
• Submit manufacturing outline specific to the applied product.	• Firm has submitted outline of method of manufacturing including steps of mixing, solution preparation, filtration, vial filling & Lyophilization.
• The submitted raw material testing method of Remdesivir declares the description as "white to off-white to yellow lyophilized powder". Clarification shall be submitted for use of lyophilized API, while the finished product is itself to be manufactured by way of Lyophilization.	Firm has submitted revised raw material specifications for Remdesivir wherein description has been changed to "off-white to yellow colored powder".
• Test for reconstitution has not been included in the finished product specifications.	• Firm has submitted revised finished product specifications, wherein tests for reconstitution and water content have been included.
• Test for water content has not been included in finished product specifications.	• Note: *Acceptance criteria for reconstitution time has not been declared in the finished product specifications.*
• Reference for finished product specifications shall be submitted.	• While firm has referred to their specifications "as Bio-Lab's specifications".
• Justification for the acceptance limit between 9.0 – 12.0, for the pH test shall be submitted.	• Firm has submitted revised finished product specifications wherein limit for test of pH has been changed to "Between 3.0 & 4.0"

886.	Name and address of Manufacturer / Applicant	M/s The Nextar Pharma Private Limited. Plot No. E-58, North Western Industrial Zone, Port Qasim, Pakistan **Contract manufacturing by:** M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name+DosageForm+Strength	Remency IV Injection 100mg
	Composition	Each 20ml Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.12412; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	
	Pack Size & Demanded Price	As Per DPC
	Approval status of product in Reference Regulatory Authorities

	Pack Size & Demanded Price	As Per SRO
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	--

Remarks of Evaluator:

Observations	Firm's response
• You have submitted proposed storage condition for the diluted Remdesivir solution instead of the applied finished product of Dry powder injection.	• Firm has proposed revised storage condition as "Store below 25^{o}C protect from heat, light & moisture"
• Submitted master formulation is qualitatively different from the reference product of M/s Gilead pharma, since it does not contain any solubilizing agent for Remdesivir.	• Firm has submitted revised master formulation which is qualitatively similar to innovator but the quantity of SBECD is not as per innovator.
• Submitted manufacturing method involves initial mixing of Remdesivir with NaOH only, which is not in line with the manufacturing outline of the reference product of M/s Gilead pharma, as revealed by the literature from US FDA & EMA.	• Firm has submitted revised manufacturing outline wherein step of Lyophilization is missing.
• Submitted raw material specifications declare the solubility of Remdesivir in water as "Freely soluble in water". Scientific justification shall be submitted in this regard since available literature from US FDA & EMA suggest that Remdesivir is practically insoluble in water.	• Solubility in water now mentioned as insoluble, while no revised document is submitted for this regard.
• Submitted Raw material testing method describes the standard and sample solution preparation for "Remifentanil HCl" instead of "Remdesivir". Clarification shall be submitted in this regard.	• Remifentanil HCL is typographic error.We Submitted Remdesivir testing method instead of Remifentanil HCl • No revised document is submitted for this regard
• Submitted finished product specifications declare the "filling weight range" as 100mg $\pm$ 10%. The said fill weight does not suggest incorporation of any ingredient other than the API, which is not in line with the reference product of M/s Gilead pharma, as revealed by the literature from US FDA & EMA.	• Filling weight Range: 110 mg 2% • This is still not rationale considering the innovator's formulation.
• The pH range of 9 -12, specified in the finished product specifications shall be justified.	• Finish product (PH range: 3….4)
• Test for reconstitution & water content has not been included in the submitted finished product specifications.	• Water content limit : Not more than :2% • Test for reconstitution still not mentioned.
• Reference for proposed finished product specifications shall be submitted.	• It's as per innovators specification
• Submitted finished product testing method	• Remifentanil HCL is typographic error.

	describe the standard solution preparation for "Remifentanil HCl" instead of "Remdesivir". Clarification shall be submitted in this regard.	We Submitted Remdesivir testing method instead of Remifentanil HCL

890.	Name and address of Manufacturer / Applicant	M/s Sami Pharmaceuticals Pvt Limited. F-95, S.I.T.E, Karachi, Pakistan
	Brand Name+DosageForm+Strength	Remdes Lyophilized Injection 100mg
	Composition	Each Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy. No.12903; 08-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	N/A

Composition	Each Vial Contains: Remdesivir…100mg
Diary No. Date of R&I & fee	Dy. No.12378; 03-06-2020 ; Rs.100,000
Country of origin	Bangladesh
Market authorization holder	M/s Beximco Pharmaceuticals Ltd., Tongi, Gazipur, Dhaka
Manufacturer	M/s Beximco Pharmaceuticals ltd, 126, Kathaldia, Auchpara, tongi-1711, Ghazipiur, Bangladesh
Pharmacological Group	Anti-Viral
Type of Form	Form 5A
Finished Product Specification	Manufacturer specification
Pack Size & Demanded Price	As Per SRO
Approval status of product in Reference Regulatory Authorities	
Me-too status	
DSL	Valid copy of DSL submitted.

Remarks of Evaluator:

Observations	Firm's response
• The document issued by Director General DGDA of Bangladesh with title of "Formulation for manufacture of Remdesivir Lyophilized powder for IV injection by M/s Beximco Pharmaceuticals Ltd., Tongi, Gazipur" declares the quantity of Sulfobutyl ether-beta-cyclodextrin as 10.0gm per vial, whereas the Batch formula submitted by manufacturer declares the quantity of Sulfobutyl ether-beta-cyclodextrin 3.3 gm per vial. Clarification shall be submitted for this variation.	Previous quantity of this excipient is 10g/vial but the manufacturer has revised the Formulation to use the optimum quantity. Actual quantity of this excipients is 3.3gm per vial which is mentioned in Batch formula (Submitted with the dossier).
• Submitted batch formula declares 2% overage of Remdesivir. Justification shall be submitted for incorporating overage.	• 2% overage has been added in the formulation to compensate manufacturing loss.
• Submitted raw material specifications declares the storage condition as 2 – 8°C. Justification shall be submitted in this regard since the literature of reference product of Gilead Pharma, available from EMA declares the performance of drug substance stability at 30°C/75%RH & 40°C/75%RH.	The API used for manufacturing Beximco's Remdesivir Injection has storage condition of 2-8°C. This is also mentioned in the COA of the API supplier. Firm submitted during personal representation that the API is stable even at 30°C, but the API manufacturer had set precautionary storage condition of 2 – 8°C

	• Test for degradation products & Uniformity of dosage units have not been included n finished product specifications.	Test of Related Substances is a part of routine testing of API. However, test of related substance and uniformity of Dosage unit will be included in revised Finished product specification.
	• Submitted stability protocol does not include test for degradation products. Justification shall be submitted in this regard.	Degradation product test will be included in the stability protocol once the method is developed.
	• Justification shall be submitted for proposed shelf life of two years.	• Since innovator is also claiming one-year shelf life therefore please grant us shelf life as per innovator product.
	• Reference for proposed finished product specifications shall be submitted.	The reference for Finished Product is In-house since the molecule and product is not included any Pharmacopoeia yet.
	• Original legalized COPP / Free Sale Certificate shall be submitted.	Legalization is in process. Will submit to your good office once received.
	• Original legalized GMP certificate shall be submitted.	Legalization is in process. Will submit to your good office once received.
	• Original notarized Letter of authorization shall be submitted.	Legalization is in process.
	• The submitted GMP certificates for the manufacturer issued by various reference agencies does not endorse the GMP status of the required manufacturing facility i.e., "Lyophilized Vial Injectable", hence justification shall be submitted for consideration of your request to waive off the facility inspection in light of "Policy for inspections of Manufacturer abroad".	Various products / sections of Beximco Pharmaceuticals Limited (126 Kathaldia, Auchpara, Tongi 1711 Gazipur, Dhaka, Bangladesh) are already approved (See Annexure – 5) by Stringent Regulatory Authorities: • Germany • TGA Australia • WHO • GCC • Malta • FDA • Health Canada On the basis of above inspection report/GMP Certificates, we would request you to waive off facility inspection in current pandemic situation as per rule 29 (8) of Drug Act, 1976.

Remarks of Evaluator:

Observations	Firm's response
• Original Form 5A shall be submitted, since photocopy ha sbeen submitted.	• Submitted.
• Submitted raw material specifications declares the solubility of Remdesivir as "Sparingly soluble in water" whereas the literature from US FDA and EMA for the reference product of Gilead pharma, declares the solubility of Remdesivir as "Practically insoluble ion water". Justification shall be submitted in this regard.	• The revised specification of Raw material is submitted declaring it soluble in methanol and insoluble in water • The clarification from manufacturer is also submitted declaring it typographical error.
• Test for degradation products & Uniformity of dosage units have not been included in finished product specifications.	• The degradation products (Related substances) testing and uniformity of dosage units have been included in finished product specifications. • The revised Finished product specification is enclosed.
• Submitted stability protocol does not include test for degradation products. Justification shall be submitted in this regard.	• Revised stability protocol is enclosed after the addition of degradation product (Related substances) testing.
• Justification shall be submitted for proposed shelf life of two years.	The shelf life in Bangladesh is one year. One year shelf life will be claimed in Pakistan also. The revised original Form 5A is enclosed with clarification of manufacturer.
• Reference for proposed finished product specifications shall be submitted.	• The product has "in-house finished product specifications" as the product is not included in any pharmacopeia.
• Original legalized COPP / Free Sale Certificate shall be submitted.	• The COPP is under issuance process. The undertaking from the manufacturer and OBS healthcare is enclosed.
• Original legalized GMP certificate shall be submitted.	• The legalization of GMP is under process. The undertaking from the manufacturer and OBS healthcare is enclosed.
Original notarized Letter of authorization shall be submitted.	• The undertakings are enclosed in this regard.

Pharmacological Group	Anti-Viral
Type of Form	Form 5A
Finished Product Specification	Innovator's Specs
Pack Size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities	
Me-too status	

Remarks of Evaluator:

Observations	Firm's response
Submitted master formula declares Quantity of Remdesivir = 105 mg	Remdesvir for Injection 100 mg/ vial contains about 5% Overfill to accommodate displacement

		per vial, whereas submitted label claim is "Each vial contains Remdesivir=100 mg".	volume of powder when reconstituted with 19 mL Water for Injection. The 5% is overfill is necessary to obtain the labelled 5 mg/mL Remdesivir concentration in the reconstituted solution when reconstituted with 19 mL of sterile water for injection. The proposed overfill and reconstitution instructions are is same as Gilead product.
		Test for reconstitution time and Uniformity of dosage units have not been included in finished product specifications	Firm has submitted revised finished product specifications with desired test.
		Justification shall be submitted for proposed shelf life of 24 months since no product development and stability data has been submitted in the dossier	We would like to inform Agency that, Cipla has undertaken a significant initiative through collaboration and licensed Remdesivir for manufacturing and marketing in 127 countries including India from Gilead Sciences Inc. (Address: 333 Lakeside Drive, Foster city, California 9440, USA) for making this drug accessible to needy patients fighting this Covid-19 pandemic. As part of the licensing arrangement Gilead has shared the Tech Pack of Remdesivir development and manufacturing processes with Cipla for both API and formulation. The proposed shelf life for the Cipla's product is based on the stability of product assessed by Gilead. The stability program has been designed to establish the stability profile of Remdesivir for injection,100mg, in support of an appropriate storage condition and shelf-life. The stability assessment of Remdesivir for injection was conducted at the long-term storage condition of 30°C/75% RH and at the accelerated condition of 40 °C/75% RH. Stability data for all batches of Remdesivir for injection, tested under formal stability studies following the principles outlined in the ICH Q1A Stability Testing of New Drug Substances and Products, met the acceptance criteria for all attributes tested following long-term storage at 30 °C/75% RH for up to 36 months, and accelerated storage at 40 °C/75% RH for up to 6 months.
		Reference for proposed finished product specifications shall be submitted	Cipla's Remdesvir for Injection 100 mg/ vial is set similar to the Innovator Gilead's drug product specification.
		Valid copy of DSL of the applicant shall be submitted	Valid copy of DSL submitted.
		Original legalized COPP/Free Sale Certificate from relevant regulatory authority of country of origin shall be submitted	Commitment letter for submission of legalized COPP
		Original legalized GMP Certificate of the manufacturer shall be submitted	WHO GMP of FP mfg. site (Cipla Goa unit IX) is enclosed as along with Commitment letter for submission of legalized GMP
		Original notarized Letter of authorization shall be submitted	We have supply and distribution agreement in place between Cipla Ltd. India and AJM Pharma Pvt. Ltd. Pakistan.

II. Applications for "Dry Powder Injection" (applied by way of using ready to fill dry powder for injection)

896.	Name and address of Manufacturer / Applicant	M/s Horizon Healthcare (Pvt) Ltd. Plot No.35-A, Small Industrial Estate, Taxila, Pakistan

	Pack Size & Demanded Price	As Per SRO
	Approval status of product in Reference Regulatory Authorities	Emergency use authorization granted by USFDA
	Me-too status	--
	GMP status	The firm was inspected on 25.06.2018 with the following conclusion: Keeping in view the above facts, detailed visit of establishment and supporting documents provided by the management and verification of rectification of plan/action with reference to previous shortcomings identified and company has shown good response and rectified the problems

Remarks of Evaluator:

Observations	Firm's response
• The composition table declares the content of applied product as "Remdesivir Lyophilized Sterile powder = 3100mg/vial", while the section 4 of Form 5D mentions following against the strength: "Each vial contains: Remdesivir lyophilized sterile powder ….. 100mg". Clarification shall be submitted in this regard.	• M/S Horizon Pharma use Remdesivir Lyophilized Sterile powder as ready to fill powder in which Remdesivir active drug substance is 3-4% remaining contents weight contains SBECD which is 96-97%. • In form 5D section 4 shows label claim that is: Each vial contain Remdesivir Lyophilized Powder eq. to Remdesivir……100mg
• Submitted specifications for the Remdesivir drug substance declares the limit for Assay test as 90.0% - 110%. Justification shall be submitted for this wide range for Assay test.	• M/S Horizon use Remdesivir lyophilized ready to fill powder the given assay limit is according to supplier assay limit .Typographic mistake is corrected "Remdesivir" drug substance with "Remdesivir Lyohpilized powder"and assay limit is provided for Remdesivir Lyophilized Powder. COA of material provided by supplier is attached herewith as evidence. • The submitted COA of "Remdesivir Lyophilized powder" from API manufacturer declares the Assay limits as NLT 2.9& NMT 3.5 of labelled amount of T611
• Submitted specifications declare the solubility for Remdesivir as "Practically soluble in water", whereas the literature from US FDA and EMA for the reference product of Gilead pharma, declares the solubility of Remdesivir as "Practically insoluble ion water". Justification shall be submitted in this regard.	M/S Horizon use Remdesivir lyophilized ready to fill powder that is soluble in water. Typographic mistake is corrected after replacing "Remdesivir" drug substance with "Remdesivir Lyohpilized powder". Specifications for the material are attached as evidence.
• The lit rature from US FDA and	• M/S Horizon use Remdesivir lyophilized ready to fill

	EMA for the reference product of Gilead pharma, declares content of Sulfobutylether-β-cyclodextrin sodium (SBECD) as s lubilizing agent, but you have not provided any such detail for SBECD in the dossier.	powder. Manufacturer COA are attached here as evidence that SBECD is used as solubilizing agent. • The submitted COA of "Remdesivir Lyophilized powder" from API manufacturer does not declare the content of SBECD
	• Test for reconstitution and pH of reconstituted solution have not been included in the finished product specifications.	• Test for reconstitution and PH of reconstituted solution have been included in the finished product specifications. • Acceptable limit for reconstitution time has not been mentioned.
	• Reference for proposed finished product specifications shall be submitted.	• M/S Horizon use Remdesivir lyophilized ready to fill powder. Finished product specifications are same as supplier specifications.

897.	Name and address of Manufacturer / Applicant	M/s Vision Pharmaceuticals. Plot # 22,23, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name+DosageForm+Strength	Viso-Rem for Injection 100mg
	Composition	Each Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.12409; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Vision's Specs
	Pack Size & Demanded Price	As Per SRO
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	GMP certificate issued on basis of inspection conducted on 26-1-2018.

Remarks of Evaluator:

Observations	**Firm's response**
• The submitted master formulation mentions Remdesivir = 100mg only. Clarification shall be submitted whether the API will be used in pure form or as a pre-mix.	• The API will be used as ready to fill lyophilized powder. Updated details are described below i. Lyophilized powder containing 3.23%w/w of Remdesivir (Lyophilized powder will also contain Sulfobutylether-β-cyclodextrin sodium salt (SBECD) USP-NF as solubilizing agent and HCl or NaoH for pH adjustment) ii. Pr posed Qty. er Vial = 3.095gm Eq. to 100mg Remedesivir
• The literature from US FDA and EMA for the reference product of Gilead pharma, declares content of Sulfobutylether-β-cyclodextrin sodium (SBECD) as solubilizing agent, but you have not provided any such details or SBECD in the dossier.	• Firm has submitted updated master formulation wherein details of SBECD have described as below: "Lyophilized powder containing 3.23%w/w of Remdesivir" (Lyophilized powder will also contain Sulfobutylether-β-cyclodextrin sodium salt (SBECD) USP-NF as solubilizing agent and HCl or NaoH for pH adjustment)
• Submitted fi ished product specifications declare the acceptance limit for assay test of Remdesivir as 99-110%. Clarification shall be submitted in this regard.	• Firm has submitted revised raw material specifications: "Lyophilized powder containing 3.23%w/w of Remdesivir"

	• Test for appearance, identification, reconstitution, pH of reconstituted solution, uniformity of dosage units, sterility, bacterial endotoxins and particulate matter. Finished product testing method has not been submitted.	• Firm has submitted revised finished product specifications wherein test for reconstitution time has still not been included. • Finished product testing method has been submitted, wherein mobile has been used as diluent for sample & standard solution preparation while the chromatographic conditions mention the gradient of two different solutions over 60 minutes as mobile phase.
	• In contrary to the reference product of M/s Gilead pharma which is produced by way of Lyophilization in the glass vials (as evident from available literature by US FDA & EMA), you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.	• In Viso-Rem 100mg for injection, similar composition formulation has been followed for the lyophilized powder as used by the Innovator. • The manufacturing of lyophilized powder is being carried out under aseptic condition that subsequently filled into the vials also under aspectic condition and in amount which corresponds to the labeled quantity. Therefore, we can say that our product is pharmaceutically equivalent to that of Gilead Pharma

898.	Name and address of Manufacturer / Applicant	M/s Welwrd Pharmaceuticals. Plot # 3, Block A, Phase I-II, Industrial Estate Hattar, KPK
	Brand Name+DosageForm+Strength	Remdi-Wrd Injection 5mg/ml
	Composition	Each Vial Contains: Remdesivir …… 100mg
	Diary No. Date of R&I & fee	Dy. No.12474; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	As Per SRO
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	**Conclusion:** During the inspection, dated 12-11-2018 M/ s Welwrd are considered to be operating at satisfactory level of GMP.

Remarks of Evaluator:

Observations	**Firm's response**
• Firm has submitted application on Form 5 instead of Form 5D.	• Firm has submitted revised Form 5D. • The dosage form of applied product has now been declared in Form-5D, as "Dry powder injection"
• Submitted Form 5 has not been signed by any authorized person.	
• The dosage form of applied product shall be clearly declared in Form-5D, whether it is "Dry powder for injection" or "Liquid injectable solution."	
• Undertaking of Form 5 has not been signed by any authorized person.	
• The literature from US FDA and EMA for the reference product of Gilead pharma, d clares content o	• Firm has submitted updated composition wherein details of SBECD have described as below: "Remdesivir lyophilized ready to fill powder*"

	Sulfobutylether-β-cyclodext in sodium (SBECD) as solubilizing agent, but ou have not provided ny such details for SBECD in the dossier.	*Lyophilized ready to powder containing 100mg Remdesivir, 3300 mg Betadex Sulfobut l ether odium as solubilizing agent.
	• Test for reconstitution, pH of reconstituted solution, water content, uniformity of dosage units & bacterial endotoxins have not been included in the finished product specifications.	• Firm has submitted revised finished product specifications wherein, pH of reconstituted solution, water content & bacterial endotoxins have been included • While test for reconstitution & uniformity of dosage units have still not been included in the finished product specifications.
	• Reference for proposed finished product specification shall be submitted.	• Firm has mentioned in revised finished product specifications that "Product complies with Innovator's specifications."
	• The Assay test in the submitted finished product testing method describes the use of water as diluent for standard preparation, whereas as per available literature from US FDA & EMA, Remdesivir is insoluble in water. Justification shall be submitted in this regard.	• Firm has submitted revised finished product testing method which now describes the use of Mobile phase (0.1% TFA in water) as diluent for standard & sample solution preparation.
	• In contrary to the reference product of M/s Gilead pharma which is produced by way of Lyophilization in the glass vials, you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.	--
	• The submitted master formulation mentions Remdesivir = 100mg only. Clarification shall be submitted whether the API will be used in pure form or as a pre-mix.	• Firm has submitted updated composition wherein details of API have been described as below: "Remdesivir lyophilized ready to fill powder*" • *Lyophilized ready to powder containing 100mg Remdesivir, 3300 mg Betadex Sulfobutyl ether sodium as solubilizing agent. • Quantity per vial = 3400mg

	GMP status	**Conclusion:** Last inspection dated 09-03-2018 grant of dry powder injection sections to M/s Radiant Pharma Lahore

Remarks of Evaluator:

Observations	Firm's reply
• Firm has submitted application on Form 5 instead of Form 5D.	• Form 5D Submitted
• Submitted master formulation declares the quantity of Remdesivir per vial as 105mg, whereas applied label claim is "Each vial contains Remdesivir = 100 mg". Clarification shall be submitted for this variation.	• In submitted master formulation actual quantity of REMDESIVIR is100mg per vial, 105mg is typing mistake.
• The submitted master formulation mentions Remdesivir = 105mg per vial only. Clarification shall be submitted whether the API will be used in pure form or as a pre-mix.	As mention in point 2 actual quantity of REMDESIVIR IS 100mg per vial. It is in premixed form Lyophilized powder for injection. i.e. REMDESIVIR is equivalent to 100mg per vial (100% assay adjustment) without solubilizing agent, after water contents and assay adjustment etc.
• The literature from US FDA and EMA for the reference product of Gilead pharma, declares content of Sulfobutylether-β-cyclodextrin sodium (SBECD) as s lubilizing agent, but you have not provided any such details for BECD in the do sier.	•
• Test for reconst tution, pH of reconstituted solution, water con ent have not been included in the finished product specifications.	•
• Reference for proposed finished roduct s ecifications shall be submitted.	•
• Justification shall be submitted for applying g UV spectrophotometric method instead of HPLC method for the Assay test of finished product.	•
• In contrary to the reference product of M/s Gilead pharma which is produced by way of Lyophilization in the glass vials, you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.	•
• The submitted master formulation mentions Remdesivir = 100mg per vial only. Clarification shall be submitted whether the API will be used in pure form or as a pre-mix.	•

900.	Name and address of Manufacturer / Applicant	M/s Pharmasol (Pvt) Ltd. Plot No. 549, Sundar Industrial Estate, Raiwind Road, Lahore

GMP status	Last inspection dated 08-07-2019 & 25-07-2019 concluded that M/s Pharmasol, Lahore was operating at satisfactory level of GMP compliance.

Remarks of Evaluator:

Observations	**Firm's response**
• Justification shall be submitted for proposed storage condition of "Store below 25°C".	• Remdisol 100mg injection containing Remdesivir Lyophilized Powder for injection 100 mg, to be stored below 30°C (below 86°F) until required for use.
• Submit master formulation for per unit dosage form.	• Following master formulation is submitted: Each Vial Contains Remdesivir lyophilized powder (3.24% w/w) = 3.1 gram [Remdesivir = 100mg + Sulfobutylether-ß-cyclodextrin sodium salt (SBECD)= 3.0g].
• Submitted raw material specifications declare the assay limit as 99.0 to 102.0%. Clarification shall be submitted whether the API intended to be used in formulation will be in pure form or as a pre-mix.	• API will be premix and revised specifications have been submitted.
• The Assay test in the submitted raw material testing method describes the use of water as diluent for standard preparation, whereas as per available literature from US FDA & EMA, Remdesivir is insoluble in water. Justification shall be submitted in this regard.	• Acetonitrile will be used as a Diluent
• Tests for sterility and bacterial endotoxins have not been included in raw material specifications.	• Sterility Test & Bacterial Endotoxins are incorporated. Revised Raw material specification
• Tests for reconstitution, pH of reconstituted solution, water content & bacterial endotoxin have not been included in the finished product specifications.	• Finished product specifications have been revised for desired tests. Limit for reconstitution time has not been identified.
• Reference for proposed finished product specifications shall be submitted.	• Manufacturer's Specifications
• Submitted finished product specifications declare the Average weight of contents of 20 vials equal to 100 mg. Justification shall be submitted in this regard.	• Average weight of contents of 20 Vials = 3.1g ± 2% (3038mg – 3162mg)
• The Assay test in the submitted finished product testing method describes the use of water as diluent for standard solution preparation, whereas as per available literature from US FDA & EMA, Remdesivir is insoluble in water. Justification shall be submitted in this regard.	• Acetonitrile will be used as a Diluent
• In contrary to the reference product of M/s Gilead pharma which is produced by way of	• As per definition of Pharmaceutical Equivalent,

	Lyophilization in the glass vials, you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.	It is identical to reference product in term of dosage forms, route(s) of administration, amount of the active drug ingredient, i.e., the same salt or ester of the same therapeutic moiety. • Raw Material Composition [Remdesivir (as API) + Sulfobutylether-ß-cyclodextrin sodium salt (As excipient to enhance drug solubility)] is similar to that of the Reference Product. • Further as far as the manufacturing method (using Ready to fill lyophilized powder) is concerned, it can be referred to other Products (ready to fill lyophilized powders) e.g. Acyclovir, Vancomycin HCl, Omeprazole sodium, Pantoprazole Sodium, Esomeprazole Sodium etc.
	• The literature from US FDA and EMA for the reference product of Gilead pharma, de lares content of Sulfobutylet er-β-cyclo extrin sodium (SBECD) as solubilizing agent, but you have not provided any such details fo SBECD in the dossier.	• Remdesivir lyophilized powder 3.24% w/w will be used that contains. Remdesivir (as API) = 100mg Sulfobutylether-ß-cyclodextrin sodium salt (As excipient to enhance drug solubility)= 3.0g Further drug solubility aspect will be ensured by finish product testing (Test for Completeness & clarity of reconstituted Solution).

	Composition	Each Vial Contains: Remdesivir…100mg Lyophillized Powder
	Diary No. Date of R&I & fee	Dy No.12656; 04-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Tabros Specs
	Pack Size & Demanded Price	As Per DPC
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	**Conclusion:** "On the basis of current inspection it was observed that the firm rectified all observations noted during last GMP Inspection." 07/02/18

Remarks of Evaluator:

Observations	Firm's response
• Original Form 5 D shall be submitted, whereas firm has submitted photocopy.	• Original Form 5D submitted. (not received in R&I till 5th of june 2020)
• You have submitted storage conditions for reconstituted solution, while storage condition for applied finished pharmaceutical product shall be submitted.	• Firm has proposed following storage condition now: "Store Remdesivir for injection, 100mg vials below 30°C until required for use.
• Proposed shelf life of 2 years shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C, while any reference for shelf life is not available form US FDA.	• Firm has referred to "Summary for compassionate use" wherein shelf life of 51 months have been assigned at the storage condition "Store below 30°C", based upon the available stability data.
• Submitted master formulation declares the content of Remdesivir Lyophilized powder per vial = 100mg. Clarification shall be submitted whether the API will be used in pure form or as a pre-mix.	• Firm has submitted revised master formula, wherein target for quantity of Remdesivir lyophilized per vial has been declared as 3.077gm base upon the potency of API in the lyophilized powder.
• Tests for reconstitution, water content & bacterial endotoxin have not been included in the finished product specifications.	• Firm has submitted revised finished product specifications wherein tests for reconstitution, water content & bacterial endotoxin have been included. • Note: Acceptance criteria for reconstitution time has not been declared in the finished product specifications.
• Reference for proposed finished product specifications shall be submitted.	• Firm has submitted that EMA assessment report (Summary for compassionate use) is used for the preparation of finished product specifications
• Submitted finished product testing method recommends use of UHPLC-MS/MS for the performance of Assay test whereas submitted List of equipment of QC does not include UHPLC-MS/MS.	• The product will be tested from outsource. In the meanwhile we will try to develop and validate the method on HPLC.
• In contrary to the reference product of M/s Gilead pharma which is produced by way of Lyophilization in the glass vials, you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.	• We do not have lyophilization facility therefore we use ready to fill lyophilized powder for the production of Remdesivir injection, which is manufactured as per innovator.
• The literature from US FDA and EMA for the reference product of Gilead pharma, declares content of Sulfobutylether-β-cyclodextrin sodium (SBECD) as solubilizing agent, but you have not provided any such details for SBECD in the submitted dossier.	• Our API manufacturer is producing Remdesivir using Sulfobutyl-β-cyclodextrin sod um (SBECD) as per Gilead Pharma (as mentioned in USFDA & EMA literature)

902.	Name and address of Manufacturer / Applicant	M/s English Pharmaceuticals Industries. Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore
	Brand Name+DosageForm+Strength	Codesvir Infusion 100mg

Composition	Each 20ml Contains: Remdesivir…100mg
Diary No. Date of R&I & fee	Dy No.12663; 04-06-2020 ; Rs.20,000
Pharmacological Group	Anti-Viral
Type of Form	Form 5
Finished Product Specification	Innovator's Specs
Pack Size & Demanded Price	As Per SRO
Approval status of product in Reference Regulatory Authorities	
Me-too status	
GMP status	Certificate of GMP Issued on 16-01-2018.

Remarks of Evaluator:

Observations

- Form-5D shall be submitted for applied formulation along with differential fee of Rs. 30,000/-
- Form 5 declares the Dosage form of applied product as "Infusion", whereas submitted composition and manufacturing method describe the applied formulation as "Dry powder for injection". Clarification shall be submitted in this regard.
- You have submitted storage conditions for diluted Remdesivir solution for infusion, while storage condition for applied finished pharmaceutical product shall be submitted.
- Proposed shelf life of 2 years shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8^{o}C, while any reference for shelf life is not available form US FDA.
- The Type of packaging in Form 5 has been declared as under:
  "Each 20ml of lyophilized powder for solution for infusion contains 100 mg of Remdesivir in clear glass vial"

  Clarification shall be submitted for the term "Each 20ml of lyophilized powder" against the applied dosage form.

- Submitted master formulation declares the content of Remdesivir Sterile (Lyophilized powder) per vial = 100mg. Clarification shall be submitted whether the API will be used in pure form or as a pre-mix.
- Submitted master formulation declares 5% overage of Remdesivir. Scientific justification shall be submitted for incorporation of 5% overage.
- The literature from US FDA and EMA for the reference product of Gilead pharma, declares content of Sulfobutylether-β-cyclodextrin sodium (SBECD) as solubilizing agent, but you have not provided any such details for SBECD in the submitted dossier.
- Test for reconstitution has not been included in finished product specifications.
- Test of "Loss on Drying" has been included instead of test of "Water content" in finished product specifications.
- Submitted Finished product analytical procedure mentions the test of Dissolution with following statement:
  "Comply with the requirements for monographs of British Pharmacopoeia in the dissolution test for infusion, Appendix XII B1". Finally it states to "Calculate the total content of Metformin hydrochloride in the medium."

Justification shall be submitted for above cited content of finished product testing method

- Submitted finished product specifications declare the Average filled weight equal to 100 mg, while the submitted Raw material specification for Remdesivir declare the Assay limits as "NLT 3 & NMT 3.5 % w/w". Justification shall be submitted for the Average filled weight equal to 100 mg for finished drug product when Assay limits for the API are between 3 – 3.5% w/w.
- In contrary to the reference product of M/s Gilead pharma which is produced by way of Lyophilization in the glass vials, you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.
- Firm has submitted Stability study report for the applied product i.e., Codesvir Infusion, wherein

results for 24 months long term stability studies and 06 months accelerated stability studies for three batches have also been reported, while the manufacturing date for three batches has been mentioned as under:
TRI-001: 04-2017
TRI-002: 06-2017
TRI-003: 08-2017

- Justify the above cited stability study report along with relevant analytical & performance record for the said stability studies.

	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	Vision Pharma: GMP Certificate issued on 08.05.2018.

Remarks of Evaluator:

Observations	**Firm's response**
• Form 5D has not been signed by any authorized person.	Submitted
• Proposed master formulation mentions use of USP type-II glass vials whereas reference product has used USP Type I glass vial. Justification shall be submitted in this regard.	Mistakenly, the Vial type of REMDESIVIR is mentioned as USP Type II in the master formulation however the correct one is USP Type I. We undertake that we will use Clear glass vial of USP Type I, according to reference product.
• Submitted finished product specifications declare the acceptance limit for assay test of Remdesivir as 99-110%. Clarification shall be submitted in this regard.	Refer to your finding regarding finished product specification, where previously acceptance limit was declared as 99-110% , we undertake that the Assay Content limit for Remdesivir in finished product will be 90-110% of labeled claim i.e., 90mg-110mg/20ml vial.
• Reference for proposed finished product specifications shall be submitted.	
• Finished product testing method shall be submitted.	Submitted
• In contrary to the reference product of M/s Gilead pharma which is produced by way of Lyophilization in the glass vials (as evident from available literature by US FDA & EMA), you have used the ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product how applied product could be considered as "Pharmaceutical equivalent" to the reference product.	Reference to your observation regarding equivalent study of Remi 100mg lyophilized powder for, We will perform the comparative study of "Remi 100mg Lyophilized powder for Injection" against the reference product of M/S. Gilead Pharma, and submit the report to justify that both products are Pharmaceutically Equivalent.

910.	Name and address of Manufacturer / Applicant	M/s Neutro Pharma Pvt Ltd, 9.5-Km, Sheikhupura Road, Lahore.
	Brand Name+DosageForm+Strength	Medvir-19 100mg Injection
	Composition	Each Vial contains : Remdesivir ….. 100mg
	Diary No. Date of R&I & fee	Dy. No.13037; 08-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	

	GMP status	GMP certificate issued dated: 11-07-2019. GMP certificate does not include the required section.

Remarks of Evaluator:

Observations	Firm's response
• You have submitted proposed storage condition as "Store at 20°C - 25°C, Justification shall be submitted in this regard since the literature available from US FDA & EMA for the reference product of M/s Gilead Pharma, recommends storage condition as "Store below 30˚C."	We had submitted storage condition at "20 – 25 °C for Medvir-19 injection 100 mg. As per reference product literature storage conditions are below 30°C. Although 20 – 25 °C is also below 30 °C but we shell change it according to reference product literature i.e. below 30 °C
• Submitted finished product specifications declare the "Average weight/ glass vial" as 105mg/vial. The said weight does not suggest incorporation of any ingredient other than the API, which is not in line with the reference product of M/s Gilead pharma, as revealed by the literature from US FDA & EMA.	Average weight 105 mg/vial is a typographic mistake. As according to COA of API the theoretical weight/ vial should be 3.125 gm. As the assay of API is 3.24% w/w (ODS) by HPLC (Assay Limit 3.0 - 3.5% w/w)
• You have submitted section approval letter for "General Lyophilization Section", whereas your applied formulation is for "Dry powder Injection by way of filling ready to fill powder." Evidence of approval of required facility of "Dry powder filling" in "General Lyophilization Section" shall be submitted.	Feeling jubilant by informing you that in our approved general lypholization area we have both facilities. 1- Pre lypholized powder filling 2- Liquid filling by way of lypholization. Along this we already have taken approval of products for both type of manufacturing methods.
• The submitted finished product specification does not include tests for reconstitution time.	According to the literature of reference product of M/s Gilead Pharma, • Immediately shake the vial for 30 seconds. • Allow the contents of the vial to settle for 2 to 3 minutes. A clear solution should result. • If the contents of the vial are not completely dissolved, shake the vial again for 30 seconds and allow the contents to settle for 2 to 3 minutes. Repeat this procedure as necessary until the contents of the vial are completely dissolved. • Following reconstitution, each vial contains 100 mg/20mL (5mg/mL) of Remdesivir solution.
• Finished product analytical procedure describes preparation of sample solution by using "25 mg of test sample", instead of the reconstituted solution. Clarification shall be submitted in this regard.	This is typographic mistake; According to finished product analytical procedure preparation of sample solution we have taken reconstituted sample eq. to 25 mg of Remdesvir according to testing method sent us by LEE Pharma. (Testing Method is attached as reference)
• Submitted COA from API manufacturer i.e., M.s Lee Pharma, India for "Remdesivir Lyophilized Powder" does not make any declaration about the contents of Sulfobutylether-β-cyclodextrin sodium salt (SBECD).	Declaration letter of M/s Lee Pharma regarding SBECD is Attached
• Submitted COA from API manufacturer i.e., M.s Lee Pharma, India is for "Remdesivir Lyophilized Powder", while the submitted raw material analytical procedure & Stability data is for Remdesivir pure API. Clarification shall be submitted in this regard.	**Note:** REMDESIVIR lyophilized powder for injection is ready to fill ,no change in formulation stability study of raw material is similar to that of finished product .so vendor stability data for REMDESIVIR lyophilized powder for injection is justifiable to that of finished product Medvir-19 powder for Injection

		Stability further more we shell ask the manufacturer to provide us stability data of Lyophilized powder of Remdesvir if any. We are also undertaking to submit the stability data of our initial commercial batches at accelerated and real time studies.
	• The literature from US FDA and EMA for the reference product of Gilead pharma, declares content of Sulfobutylether- -cyclodextrin sodium (SBECD) as solubilizing agent, but you have not provided any such details for SBECD in the dossier.	The attached declaration letter of Lee Pharma India declared that they manufactured Remdesvir Lyophilized powder by using the Sulfobutlye ether- Beta cyclodextrin sodium salt as inactive in there process. (Letter Attached)
	• In contrary to the reference product of M/s Gilead Pharma which is produced by way of Lyophilization in the glass vials, you have used ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product, how applied could be considered as "Pharmaceutical equivalent" to the reference product.	Lee Pharma Claimed Lyophilized powder for Injection is similar to that of reference product of M/s Gilead Pharma As the API and solubilizing ingredient SBECD is the same for Both Pharma. The only difference is that Gilead Pharm is manufacturing it in small glass vial while Lee Pharma is manufacturing it in Bulk as the final product of both Pharma are similar having same pharmacological effects and they are therapeutically equivalent, on the basis of these grounds these are also consider as Pharmaceutical equivalents.

911.

Name and address of Manufacturer / Applicant	M/s Radiant Pharma Pvt Ltd, 43-E Sunder Industrial Estate, Lahore.
Brand Name+DosageForm+Strength	Medvir-19 100mg Injection
Composition	Each Vial contains : Remdesivir ….. 100mg
Diary No. Date of R&I & fee	Dy. No.13037; 08-06-2020 ; Rs.50,000
Pharmacological Group	Anti-Viral
Type of Form	Form 5D
Finished Product Specification	Innovator's Specs
Pack Size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities	
Me-too status	
GMP status	GMP certificate issued dated: 11-07-2019. GMP certificate does not include the required section.

Remarks of Evaluator:

Observations	**Firm's response**
• You have submitted proposed storage condition as "Store at 20°C - 25°C, Justification shall be submitted in this regard since the literature available from US FDA & EMA for the reference product of M/s Gilead Pharma, recommends storage condition as "Store below 30˚C."	We have corrected storage conditions below 30C
• The submitted composition and master formula annexure declares the label claim as under: "Each vial contains: Remdesivir (Lyophilized water for injection) = 100mg". Clarification shall be submitted in this regard.	We have corrected composition as Each Vial Contains: Remdesivir (Lyophilized powder for injection) 100mg
• Submitted finished product specifications declare the "Average weight/ glass vial" as 100mg/vial. The said weight does not suggest incorporation	We have corrected average weight/ glass vial as 3.086 g, in which 100mg is Remdesivir and remaining 2.986 g is SBECD

		of any ingredient other than the API, which is not in line with the reference product of M/s Gilead pharma, as revealed by the literature from US FDA & EMA.	
		• Finished product analytical procedure describes preparation of sample solution by using "25 mg of test sample", instead of the reconstituted solution. Clarification shall be submitted in this regard.	We have made correction in finished product analytical procedure take 25 mg from reconstituted vial
		• Submitted COA from API manufacturer i.e., M.s Lee Pharma, India for "Remdesivir Lyophilized Powder" does not make any declaration about the contents of Sulfobutylether-β-cyclodextrin sodium salt (SBECD).	Declaration letter is submitted, indicating SBECD.
		• Submitted COA from API manufacturer i.e., M.s Lee Pharma, India is for "Remdesivir Lyophilized Powder", while the submitted raw material analytical procedure & Stability data is for Remdesivir pure API. Clarification shall be submitted in this regard.	In submitted raw material COA from Lee Pharma Remdesivir is 3.24%, Declaration letter show other is SBECD Same case in stability is covered.
		• The literature from US FDA and EMA for the reference product of Gilead phar a, declares content f Sulfobutylether-β-cyclodextrin sodium (SBECD) as solubi iz ng agent, but you have not provided any such details for BECD in the dossier.	• Lee Pharma will provide Lyophilized powder for injection similar to that of reference product of Gilead Pharma. SBECD will be same as in Gilead Pharma , mention in Declaration letter. • Radiant Pharma now have add SBECD in the composition of dossier.
		• In contrary to the reference product of M/s Gilead Pharma which is produced by way of Lyophilization in the glass vials, you have used ready to fill powder of Remdesivir for the production of Remdesivir injection. Scientific justification shall be submitted that with aforementioned variation in method of manufacturing from the reference product, how applied could be considered as "Pharmaceutical equivalent" to the reference product.	We will perform Comparative Study our product comparative to INNOVATOR PRODUCT.

III. Applications for "Liquid Injection"

912.

Name and address of Manufacturer / Applicant	M/s Allmed Pvt Ltd. Plot No. 590, Sundar Industrial Estate, Lahore, Pakistan
Brand Name+Dosage Form+Strength	Remvir concentrated solution for Infusion 100mg
Composition	Each vial contains: Remdesivir…100mg
Diary No. Date of R&I & fee	Dy. No.9970; 05-05-2020 ; Rs.50,000
Pharmacological Group	Anti-Viral
Type of Form	Form 5D
Finished Product Specification	Manufacturer's specifications
Pack Size & Demanded Price	As Per SRO
Approval status of product in Reference Regulatory Authorities	Emergency use authorization granted by USFDA
Me-too status	--
GMP status	Last inspection dated 01-01-2020 concluded GMP compliant status.

Remarks of Evaluator:

Observations	Firm's response
• Evidence of approval of required manufacturing facility of "Liquid Injectable Vial (general) small volume parenteral section" shall be submitted.	• Firm has submitted copy of section approval letter for "Injection Ampoule (general) & Injection vial (general antibiotic) in the name of M/s Evergreen Pharmaceuticals, Lahore dated 27-01-2010 issued by Secretary CLB. • A copy of letter dated 26-03-2011 issued by Deputy Drug Controller (L&A) for the change of company name from "M/s Evergreen Pharmaceuticals Pvt. Ltd" to "M/s Allmed (Pvt.) Ltd." • Copy of letter for "Approval of revised lay out plan" dated 06th February, 2020 issued by Assistant Director (Lic) has been submitted including "Injectable (Vial) (SVP/LVP) (general) section (Revised).
• Proposed shelf life of 2 years shall be justified with storage condition of (-25 to -10°C).	Storage conditions have been revised to 2-8°C as per innovator product.
• Submitted raw material specifications of Remdesivir declare the solubility for Remdesivir as "slightly soluble in water", whereas the literature from US FDA and EMA for the reference product of Gilead pharma, declares the solubility of Remdesivir as "Practically insoluble in water". Justification shall be submitted in this regard.	• Firm has submitted revised raw material specifications of Remdesivir declare the solubility for Remdesivir as "practically insoluble in water"
• Submitted raw material specifications of Remdesivir declare the storage condition as "Store at -20°C temperature". Justification shall be submitted in this regard.	• Firm has submitted revised raw material specifications wherein storage condition has been changed to "Store at room temperature"
• Evidence of availability of cold room facility with temperature range of (-25 to -10°C) at raw material store, in-process quarantine and finished goods store, must be submitted.	• Storage conditions for finished product has been revised to 2-8°C. • Moreover firm has referred to following observation from the GMP inspection report dated 12-11-2018 under the section of "**Raw Material Store**": "It had a refrigerator for storage of products at

		2-8°C
	• Reference for proposed finished product specifications shall be submitted.	• Firm has referred to USP general chapters <1>,<1151> & ICH Q6A guidelines as well as innovator's specification.

913.	Name and address of Manufacturer / Applicant	M/s Horizon Healthcare (Pvt) Ltd. Plot No.35-A, Small Industrial Estate, Taxila, Pakistan
	Brand Name+DosageForm+Strength	Remvir Injection 5mg/ml
	Composition	Each 20ml Vial Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.11267; 18-05-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Manufacturer's Specs
	Pack Size & Demanded Price	As Per SRO
	Approval status of product in Reference Regulatory Authorities	Emergency use authorization granted by USFDA
	Me-too status	--
	GMP status	The firm (M/s walt danzey) was inspected on 25.06.2018 with the following conclusion Keeping in view the above facts, detailed visit of establishment and supporting documents provided by the management and verification of rectification of plan/action with reference to previous shortcomings identified and company has shown good response and rectified the problems

Remarks of Evaluator:

Observation
• Evidence of approval of required manufacturing facility of "Liquid Injectable Vial (general) section" shall be submitted. • Proposed shelf life of 2 years shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C, while any reference for shelf life is not available for m US FDA • Submitted manufacturing outline mentions the step of terminal sterilization while the available literature from EMA for the reference product of Gilead Pharma states that the finished product, when exposed to a typical autoclaving cycle of 121 °C for 30 minutes, results in significant degradation of Remdesivir. Justification shall be submitted in this regard. • Submitted manufacturing outlines describe the "Ampoule filling" step, whereas applied dosage form is liquid injectable vial. Clarification shall be submitted in this regard. • Evidence of availability of cold room facility at both in-process quarantine and finished goods store, must be submitted. • Details must be submitted for proposed storage condition of API. • Reference for proposed finished product specifications shall be submitted.

Decision:

	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's specifications
	Pack Size & Demanded Price	MRP Rs. 14,600 TP Rs. 12410 ($ 76.98) per Vial
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	

	GMP status	Last GMP inspection report conducted on 22-08-2019 recommended renewal of DML.

Remarks of Evaluator:

Observations	Firm's response
• Submit evidence of approval of required manufacturing facility for Liquid Injectable Vial from CLB. • Submit master formulation for per unit dosage form. • Proposed shelf life of 18 months shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C, while any reference for shelf life is not available for m US FDA • Test for pH of solution has not been included in finished product specifications. • Submitted finished product testing method recommends use of UPLC (Ultra Performance Liquid Chromatograph) equipped with Photodiode Array Detector, for the performance of Assay test whereas submitted List of equipment of QC does not include UPLC. • Submitted finished product specification does not include test of identification. • Evidence of availability of cold room facility at both in-process quarantine and finished goods store, must be submitted. • Details must be submitted for proposed storage condition of API. • Reference for proposed finished product specifications shall be submitted.	• The facility is licensed to manufacture liquid and Lyophilized Vials manufacturing. • Master formulation for per unit dosage form has been submitted. • Firm has submitted that "Based on the linear regression analysis of the long-term stability data at 5 °C, a shelf-life of 18 months at the recommended long-term storage condition of "Store at 2–8 °C" is justified" • Revised finished product specification with inclusion of test for pH has been submitted. • UHPLC is not in list of existing equipment as UHPLC is on order (copy of LC attached). Ordered equipment is with PDA (Photo Diode array) detector. • Revised finished product specification with Identification through Chromatographic retention Time has been submitted. • Firm has submitted copy of inspection report conducted on 24-06-2019 by Area FID Lahore, for confirmation of storage & cold storage facility, wherein the said facility has been "recommended" with following remarks: "The company has cold chain system in place from import of raw & finished products ensuring the finished product remains within the temperature range till it reaches the patient." • Firm has referred to following statement: "The stability data support a retest period of 48 months at the recommended long-term storage condition of "Store below 30 °C" and in the recommended packaging configuration." • Firm has referred to "Innovator's specifications.

Keeping in view the current outbreak of Covid-19, the Drug Regulatory Authority of Pakistan in its 84th meeting held on 01st June, 2020 decided as:

- Recommended to the Registration Board under Section 7(c) of DRAP Act, 2012 for permitting M/s BF Biosciences, Lahore for manufacturing of Remdesivir in already approved section for biological drugs on campaign manufacturing basis in light of decision of Appellate Board taken in its 151st sitting held on 16th January, 2019.
- Manufacturing of Remdesivir on campaign basis will also be applicable to other applicants on the same analogy.

915.	Name and address of Manufacturer / Applicant	M/s Vision Pharmaceuticals. Plot # 22,23, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name+DosageForm+Strength	Remedy Solution for Injection 100mg/20ml
	Composition	Each Vial (20ml) Contains: Remdesivir…100mg
	Diary No. Date of R&I & fee	Dy No.12410; 03-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral

	Type of Form	Form 5D
	Finished Product Specification	Vision's Specs
	Pack Size & Demanded Price	As Per SRO
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	GMP certificate issued on the basis of inspection conducted on 26-01-2018.

Remarks of Evaluator:

Observations	**Firm's response**
• Proposed shelf life of 2 years shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C, while any reference for shelf life is not available form US FDA.	• After reviewing the referred Data of Remdesivir, it has been concluded that the shelf life of the solution is 12 months with storage condition of 2-8°C.
• Submitted master formulation declares the content of Remdesivir per vial = 5mg. Clarification shall be submitted in this regard.	Mistakenly, the content of REMDESIVIR is mentioned as 5mg per vial in the master formulation however the correct content per vial is 100mg. Revised master formulation has been submitted.
• Test for appearance, identification, sterility, bacterial endotoxins, particulate matter and volume in container have not been included in finished product specifications.	• Revised finished product specifications have been submitted wherein Test for appearance, identification, sterility, bacterial endotoxins, particulate matter and volume in container have been included
• Finished product testing method has not been submitted.	• Firm has submitted revised finished product testing method for Assay test.
• Evidence of availability of cold room facility at both in-process quarantine and finished goods store, must be submitted.	• At present, a cold storage facility is available for storage of the materials/products at 2-8°C. Moreover, we have already initiated the process of procuring of referred container of suitable size. • This container will be employed for storing of Bulk intermediate, in process/semi-finished and finished products at 2-8°C.
• Details must be submitted for proposed storage condition of API	The storage conditions for API of Remedisivir are: • Should Be Kept at Temperature should below 25°C±2%. • Should be stored in light protected Container • It has also been verified from Active Product Stability Data of LEE Pharmaceuticals

916.	Name and address of Manufacturer / Applicant	M/s Macter International Limited. F-216, S.I.T.E, Karachi, Pakistan
	Brand Name+DosageForm+Strength	Rememac Injection 5mg/ml
	Composition	Each ml Contains: Remdesivir …… 5mg
	Diary No. Date of R&I & fee	Dy No.12633; 04-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Innovator's Specs
	Pack Size & Demanded Price	As Per PRC
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	**Conclusion:** Last inspection dated 23-05-02018 concluded good level of GMP compliance at the time of inspection.

Remarks of Evaluator:

Observations	Firm's response
• Evidence of approval of required manufacturing facility of "Liquid Injectable Vial (general) small volume parenteral section" shall be submitted.	• Firm has submitted letter for regularization of layout plan dated 10-12-2019 issued by Secretary CLB, for various sections including "Liquid parenteral (SVP)"
• Proposed shelf life of 2 years shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C, while any reference for shelf life is not available form US FDA.	As per EMA accelerated stability for 12 month is available at 5°C, on behalf of stability data we proposed shelf life of two years. But we agree for the shelf life as per EMA reference i.e., one year.
• Submitted master formulation mentions only two ingredients i.e., Remdesivir & Water for injection, hence it differs qualitatively from the composition of the reference product of Gilead pharma, as available in the literature from US FDA & EMA.	• Firm has submitted revised composition including other ingredients as per innovator.
• Justification shall be submitted for applied master formulation since available literature from US FDA and EMA for the reference product of Gilead pharma, declares the solubility of Remdesivir as "Practically insoluble in water, while the submitted master formulation does not include only Remdesivir & Water for injection only.	• Firm has submitted revised composition including SBECD as solubilizer.
• Complete manufacturing outline shall be submitted for the applied product.	• Firm has submitted manufacturing procedure.
• Submitted raw material specifications for Remdesivir declare its solubility as "Solubility in water, whereas the available literature from US FDA and EMA for the reference product of Gilead pharma, declares the solubility of Remdesivir as "Practically insoluble in water". Justification shall be submitted in this regard.	• Firm has submitted revised raw material specifications declaring solubility as "Insoluble in water" for Remdesivir.
• Reference for proposed finished product specifications shall be submitted.	Innovator's specifications (as per EMA)
• The Assay test in the submitted finished product testing method describes the use of water as diluent for standard solution preparation, whereas as per available literature from US FDA & EMA, Remdesivir is insoluble in water. Justification shall be submitted in this regard.	Firm has submitted revised finished product testing method with revision of diluent to Acetonitrile: Water (30:70)

917.	Name and address of Manufacturer / Applicant	M/s Wnsfield Pharmaceuticals. Plot # 122, Block A, Phase V, Hattar Industrial Estate, Hattar

Brand Name+DosageForm+Strength	Ramyr Liquid Injection 5mg/ml
Composition	Each Vial (2oml) Contains: Remdesivir…100mg
Diary No. Date of R&I & fee	Dy No.12661; 04-06-2020 ; Rs.50,000
Pharmacological Group	Anti-Viral
Type of Form	Form 5D
Finished Product Specification	Innovator's Specs
Pack Size & Demanded Price	As Per SRO
Approval status of product in Reference Regulatory Authorities	
Me-too status	
GMP status	**Conclusion:** "As per observations made, facilities of production and quality control inspected, technical staff employed and keeping in view the overall CGMP compliance status of the firm, the panel unanimously recommend the renewal of DML no. 000610 by way of formulation granted to M/s Wnsfield Pharma Hattar." 18-01-2018.

Remarks of Evaluator:

Observations	**Firm's response**
• Evidence of approval from CLB, of required manufacturing facility i.e., "Liquid Injectable Vial (General) section shall be submitted.	• We Have General Liquid Injection Section having both facilities Ampoule and Vial Filling. • Section approval letter has not been submitted.
• Justify the proposed storage conditions of "Store at cool and dry place below 30°C", since the available literature from US FDA, EMA & MHRA of UK for the reference product of Gilead Pharma, declares the storage condition of 2–8°C.	Proposed storage condition revised to 2 – 8 °C. Proposed Shelf life revised to 1 year.
• Justify the proposed shelf life of two years with storage condition of "Store at cool and dry place below 30°C" since literature available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C.	
• The submitted finished product specification does not includes tests for bacterial endotoxins.	• Revised finished product specifications have been submitted including test of bacterial endotoxin.
• Reference for proposed finished product specification shall be submitted.	Firm has mentioned in finished product specifications as "Product complies innovator's specifications"
• The Assay test in the submitted finished product testing method describes the use of water as diluent for standard solution preparation, whereas as per available literature from US FDA & EMA, Remdesivir is insoluble in water. Justification shall be submitted in this regard.	• Firm has submitted revised finished product testing method which now describes the use of Mobile phase (0.1% TFA in water) as diluent for standard & sample solution preparation.
• Evidence of availability of cold room facility at both in-process quarantine and finished goods store,	• We have Cold room for In Process Quarantine and Freezer for Finished Drug Store.

	must be submitted.	• No report has been submitted in this regard.
	• Details must be submitted for proposed storage condition of API.	--

	Me-too status	--
	GMP status	Last inspection report of M/s Weather folds dated 20/02/2019, recommends the grant of GMP certificate.

Remarks of Evaluator:

Observations	**Firm's response**
• Evidence of approval from CLB, of required manufacturing facility i.e., "Liquid Injectable Vial (General) section shall be submitted.	• We have manufacturing facility for vial & ampoule section together. • Section approval letter has not been submitted.
• Justify the proposed storage conditions of "Store at cool and dry place below 30°C", since the available literature from US FDA, EMA & MHRA of UK for the reference product of Gilead Pharma, declares the storage condition of 2 – 8°C.	Proposed storage condition revised to 2 – 8 °C.
• Justify the proposed shelf life of two years with storage condition of "Store at cool and dry place below 30°C" since literature available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C.	
• The submitted finished product specification does not includes tests for bacterial endotoxins.	• Revised finished product specifications have been submitted including test of bacterial endotoxin.
• Reference for proposed finished product specification shall be submitted.	Firm has mentioned in finished product specifications as "Product complies innovator's specifications"
• The Assay test in the submitted finished product testing method describes the use of water as diluent for standard solution preparation, whereas as per available literature from US FDA & EMA, Remdesivir is insoluble in water. Justification shall be submitted in this regard.	• Firm has submitted revised finished product testing method which now describes the use of Mobile phase (0.1% TFA in water) as diluent for standard & sample solution preparation.
• Evidence of availability of cold room facility at both in-process quarantine and finished goods store,	• We have facility of Cold room and to maintain the temperature of 2 – 8°C we have freezer for finished good storage for In Process Quarantine and Freezer

	must be submitted.	for Finished Drug Store. • No report has been submitted in this regard.
	• Details must be submitted for proposed storage condition of API.	--

919.	Name and address of Manufacturer / Applicant	M/s Hilton Pharma Pvt Ltd. Plot No. 13-14, Sector 15, Korangi Industrial Area, Karachi, Pakistan
	Brand Name+DosageForm+Strength	Hildesvir Injection 5mg/ml
	Composition	Each Single Dose Vial Contains: Remdesivir…5mg/ml (100mg/20ml Vial)
	Diary No. Date of R&I & fee	Dy No.12781; 05-06-2020 ; Rs.50,000
	Pharmacological Group	Anti-Viral
	Type of Form	Form 5D
	Finished Product Specification	Hilton Specs
	Pack Size & Demanded Price	As Per DPC
	Approval status of product in Reference Regulatory Authorities	
	Me-too status	
	GMP status	**Conclusion:** Based upon the areas inspected, the people met and the documents reviewed during the inspection of M/s Hilton Pharma, it was concluded that M/s Hilton Pharma is operating at a good level of Cgmp compliance on the day of inspection as per Drugs Act, 1976 and rules framed there under. 10-07-2019
	Remarks of Evaluator:	

Observations	**Firm's response**
• Original Form 5 D shall be submitted, whereas firm has submitted photocopy.	• Submitted
• Justify the proposed storage conditions of "Store at cool and dry place below 30°C", since the available literature from US FDA, EMA & MHRA of UK for the reference product of Gilead Pharma, declares the storage condition of 2 – 8°C.	Proposed storage condition revised to 2 – 8 °C.
• Quantity of SBECD per vial mentioned in the master formulation is not as recommended by the reference product of M/s Gilead Pharma, in the literature available from US FDA & EMA	• Firm has submitted revised proposed master formulation wherein quantity of SBECD has been revised as per innovator.
• The submitted finished product specification does not includes tests for pH and volume in container.	• Revised finished product specifications have been submitted including tests for pH and volume in container.
• Reference for proposed finished product specification shall be submitted.	Firm has referred to various general chapters of USP and ICH Q6A guidelines, while test of appearance & pH has been developed in-house.
• Evidence of approval from CLB, of required manufacturing facility i.e., "Liquid Injectable Vial (General) section shall be submitted.	• Firm has submitted copy of letter dated issued by Secretary CLB dated 04-12-2014, for "Regularization/Authentication of Master Layout plan of Sections of existing facility" including "Injectable vial & Ampoule (General).
• Evidence of availability of cold room facility at both in-process quarantine and finished goods store, must be submitted.	• Copy of inspection report for "Verification of storage facility" dated 110-02-2017 has been submitted.

• Details must be submitted for proposed storage condition of API.	• Firm has referred to the extract of EMA "Summary for compassionate use" for the storage condition of API.	

920.	Name and address of Manufacturer / Applicant	M/s Ameer & Adnan Pharmaceutical Pvt Ltd. Plot No.47, Sundar Industrial Estate, Lahore
	Brand Name+DosageForm+Strength	Ramvir Infusion 5mg/ml
	Composition	Each ml Contains: Remdesivir…5mg
	Diary No. Date of R&I & fee	Dy No.12800; 05-06-2020 ; Rs.20,000
	Pharmacological Group	Anti-Viral

	Me-too status	
	GMP status	Last GMP inspection conducted on 05-01-2018 and report concludes that firm had maintained conformance to cGMP."

Remarks of Evaluator:

Observations	**Firm's response**
• Form 5D shall be submitted instead of Form 5 along with differential fee of Rs. 30,000/- since applied product is not yet registered in Pakistan.	• Frm has submitted Form5D with differential fee of Rs. 30,000/- vide deposit slip# 2003895 dated 08-06-2020.
• You have submitted proposed storage condition as "Store at 20°C to 25°C, excursions permitted between 15°C and 30°C. Store below 30°C". Justification shall be submitted in this regard since the literature available from US FDA & EMA for the reference product of M/s Gilead Pharma, recommends storage condition as 2 – 8°C.	• We have revised the storage conditions of product according to US FDA & EMA, now recommended storage form is 2-8 ^{0}C.
• You have applied for "liquid ampoule" whereas reference product of M/s Gilead Pharma, is available in "glass vial", as evident from the literature available by US FDA & EMA. Clarification shall be submitted in this regard.	We had applied for 20mL glass vial, by mistake ampoules was mentioned. We have corrected. Remdesivir concentrate for solution for infusion,100mg(5mg/mL), is a sterile , preservative-free, clear, colorless to slightly yellow, aqueous based concentrated solution for dilution into intravenous fluids, available in 20ml vials Firm has also submitted section approval letter dated 11-02-2014 issued by Secretary CLB, for the "Liquid Injectable general SVPs (a (Ampoule) (b) (Vial/infusion))
• Reference for proposed finished product specifications shall be submitted.	• Finished products specifications are according to ICH Q6A, USP general Chapter for parenteral product specifications and rest of data from EMA remdesivir dossier. List of analytical test (FPP) and specifications has been attached.
• Evidence of availability of cold room facility at both in-process quarantine and finished goods store must be submitted.	We have cold room in raw material section with approved layout and we have also maximum capacity fridge (Pharmaceutical Grade) in in-process quarantine and for

		finished goods store we will purchased undertaken has attached.
	• You have submitted Analytical method validation data, justify this data along with relevant analytical & performance record for Analytical method validation studies.	• We had submitted Attentative, purposed or predicted SOP for method validation; Here we forgot to mention this SOP is not actual, just supposed. We have corrected the statement. Rest of actual data we will provide after real method validation and undertaken has attached.
	Submitted COA of Remdesivir from "M/s Bright Gene Bio-Medical Technology Co., Ltd, China", declares the storage condition for API as 2 – 8°C. Justification shall be submitted in this regard since the literature of reference product of Gilead Pharma, available from EMA declares the performance of drug substance stability at 30°C/75%RH & 40°C/75%RH.	• Storage condition proposed by supplier is 2- 8° C.

921.

Remarks of Evaluator:

Observations	**Firm's response**
• Proposed shelf life of 2 years shall be justified since the document available from MHRA of UK has declared shelf life as 12 months with storage condition of 2 – 8°C, while any reference for shelf life is not available form US FDA.	Refer to your finding regarding Shelf Life of Remi 100mg/20 ml solution for injection ,we have review the referred data and conclude that the shelf life of the solution with storage condition of 2-8ºC may be as per innovator
• Finished product analytical procedure describes preparation of sample solution by using Sample powder eq. to about 25 mg of Remdesivir", instead of the reconstituted solution. Clarification shall be submitted in this regard.	We have reviewed the analytical testing method and found that it is correctly mentioned that to take 5ml of sample solution equivalent to about 25.0 mg of Remdesivir. However, we are submitting the testing method of both Finished products of Remi 100mg Lyophilized powder for injection and Remi Injection 100mg/20ml solution for injection
• Evidence of availability of cold room facility at both in-process quarantine and finished goods store, must be submitted.	At present, a cold storage facility is available for storage of the materials/products at 2-8C. Moreover, we have already initiated the process of procuring of referred container of suitable size. This container will be employed for storing of Bulk intermediate and in process/semi-finished

			at 2-8ºC.
		• Details must be submitted for proposed storage condition of API	As we have reviewed data, the storage conditions for API of Remedisivir are: □ Should be stored in light protected Container □ Temperature should be kept below 25ºC±2%. It has also been verified from Active Product Stability Data of LEE Pharmaceuticals

Proceedings:

The Board was apprised about the decision of DRAP's Authority circulated vide letter No. F.76-DRAP/2020 (PE&R) dated 4th June, 2020 regarding Priority Registration of Remdesivir containing drug products. Various firms submitted Remdesivir applications before & after circulation of above letter.

1. Regulatory status of Remdesivir in various reference regulatory authorities is as follows:

   i. United States Food and Drug Administration (USFDA):

   U.S. Food and Drug Administration on 1st May 2020, issued an "Emergency Use Authorization for Remdesivir for the treatment of suspected or laboratory-confirmed COVID-19 in adults and children hospitalized with severe disease.

   ii. European Medicine Agency:

   During an extraordinary virtual meeting held on 2nd April 2020, EMA's human medicines committee (CHMP) gave recommendations on how the investigational antiviral medicine Remdesivir should be used for treating coronavirus disease (COVID-19) in compassionate use programmes in the European Union.

   iii. Medicines & Healthcare Products Regulatory Agency of UK

   MHRA on 26th May, 2020 gave the first positive scientific opinion under the Early Access to Medicines Scheme (EAMS) for use of Gilead's Remdesivir.

   iv. Pharmaceuticals and Medical Devices Agency (PMDA) of Japan

   Under article 14-3 of the Pharmaceuticals and Medical Devices Act, on 7th May, 2020, PMDA Japan granted "Special Approval for Emergency to Remdesivir" for Covid-19 with the brand name of "Velkury for Intravenous Infusion".

2. Registration Board was apprised that innovator of Remdesivir (M/s Gilead Sciences Inc) has developed the product in following 2 different dosage forms and same has been approved by reference regulatory authorities.
   a. Remdesivir Lyophilized Powder for Injection 100mg (manufactured by way of lyophilization)
   b. Remdesivir Injectable solution (5mg/ml) in 20 ml vial.
3. Registration Board advised PE&R Division to present registration applications of Remdesivir submitted till 8th June 2020 for its consideration. Screening of the received applications revealed that the applications can be divided in following three groups.

Sr. No	Type of formulation	No. of received applications			
		Local self-manufacture	Local contract manufacture	Imported finished product	Total
i.	Remdesivir Lyophilized Powder for Injection 100mg (manufactured by way of lyophilization)	7	5	3	15
ii.	Remdesivir Injectable Solution 5mg/ml	9	1	0	10
iii.	Remdesivir bulk lyophilized powder (ready to fill in vials)	13	3	0	16

4. All applications were evaluated and shortcomings were communicated to the applicant firms on priority via email etc. The representatives of applicant firms were also advised to attend the meeting along with technical / pharmaceutical data and supporting documents for consideration of Registration Board.

5. During discussion with representatives of the firms, matters regarding regulatory approval status of the Active Pharmaceutical Ingredient (API) manufacturer, control of specifications and testing method of API, accelerated and real-time stability study data of API, manufacturing and testing method of the finished product manufacturer and manufacturing, testing and storage facility including cold chain storage facility in quarantine, finished goods store and distribution channel for applications of remdesivir Injectable solution 5mg/ml were discussed in detail. The matter regarding capacity and expertise of manufacturing and testing of Remdesivir by manufacturer(s) for applications of contract manufacturing was also discussed.

6. The Board was apprised regarding three applications for import of Remdesivir from Bangladesh and India as detailed under:

Applications from Bangladesh:

a) M/s Searle Pharmaceuticals Karachi imported from M/s Beximco Pharmaceuticals ltd, 126, Kathaldia, Auchpara, tongi-1711, Ghazipiur, Bangladesh.
b) M/s OBS Healthcare Pvt. Limited Karachi,-74900 imported from M/s Incepta Pharmaceuticals Limited. Dewan Idris Road, Bara Rangamatia, Zirabo, Ashulia, Savar, Dhaka-1341, Bangladesh

Scrutiny of these applications revealed the following facts:
Both applicants submitted notarized copy of letter of emergency use authorization of Remdesivir in the name of their principal manufacturer issued by Directorate General of Drug Administration, Government of People's Republic of Bangladesh in place of CoPP/FSC. However this letter is for emergency use authorization for use only in Government hospitals or Government designated private hospitals dealing with COVID-19 Patients and is silent about approval status for export. However both firms submitted following explanations.

- M/s Beximco Pharmaceuticals Limited, the principal manufacturer in the application of M/s M/s Searle Pharmaceuticals Karachi has provided an explanation letter dated 9th June 2020 stating as under:
  "We, Beximco pharmaceuticals Limited would like to inform you that our Drug Regulatory Authority (DGDA) have confirmed us the Certificate of Pharmaceutical product is applicable for registered products only. However, we have been granted Emergency use Authorization to Remdesivir Injection. Therefore COPP, is not applicable in this case.
  Further, we have also enclosed Purchase order from a reputed hospitals as a proof of availability of medicine in country.
  However there is no restriction on export of this medicine in current pandemic situation."

- M/s Incepta Pharmaceuticals, the principal manufacturer in the application of M/s OBS Healthcare Pvt. Limited Karachi has submitted a clarification dated 09-06-2020 stating as under:
  "We, Incepta Pharmaceuticals Ltd., would like to declare that, we have applied for the certificate of Pharmaceutical product (COPP) of Ninavir 1200 IV infusion to Bangladesh National Drug Regulatory authority, Directorate General of Drug Administration on 03-06-2020 for exporting purpose in pakistan. The received copy of application is attached with this declaration letter (The application is in Bengali which is DGDA format).
  The approved and legalized (from Pakistan Embassy, Bangladesh) COPP will be provided as soon as available."

In both cases, the manufacturer abroad has developed the product as "Lyophilized Powder for IV Injection" and are in process of concurrent stability studies of their developed products.

Application from India:

a. M/s A.J. Mirza Pharma (Pvt.) Ltd. 1st floor, Shafi court, Civil lines Karachi imported from M/s Cipla Ltd. Plot No. m-61, M-62 & M-63, Verna Industrial Estate, Verna-Goa.

Scrutiny of this application revealed the following facts:

- Certificate of Pharmaceutical Product (CoPP) or Free Sale Certificate is not available in the application, while only GMP certificate is provided.
- As per firm's representative, manufacturer of this product in India i.e. M/s Cipla has not been granted approval to manufacture Remdesivir by Indian Regulatory Authority / Government rather firm has provided a copy of letter for permission to manufacture "Remdesivir for Injection 100mg/vial" for export purpose only. However, they have not yet manufactured this product as it is under production expected to be marketed in last week June/1st week of July.

Decision:

Keeping in view the above status in reference regulatory authorities of remdesivir and Authority's directions for priority consideration for such applications; the Registration Board considered and made following decisions under Rule 29(6)(8) of Drugs (LR&A) Rules, 1976:

I. Applications for Local Manufacturing:

a) Approved registration of following products of Remdesivir Lyophilized Powder for Injection 100mg (Emergency use authorization) for applicants having facility of Lyophilization.

Sr. No	Name of applicant / manufacturer	Brand Name Applied Formulation / composition Finished Product specification	Pack Size Demanded Price	Shelf life & recommended storage conditions
1.	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan	Coriv Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per PRC	24 months/Store below 30°C
2.	M/s BF Biosciences Ltd. 5-Km,Sundar Raiwind Road, Lahore	Remidia Lyophilized Powder for Infusion 100mg/Vial Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	MRP Rs. 14,600 TP Rs.12410 ($ 76.98) per Vial	24 months/Store below 30°C
	• Campaign manufacturing of Remdesivir in already approved section for biological drugs of M/s BF Biosciences is allowed as per decision of Authority taken in its 84th meeting held on 01st June, 2020 and Appellate Board taken in its 151st sitting held on 16th January, 2019 with same terms & conditions as decided by the Appellate Board in its aforementioned sitting. • Registration Board further directed to communicate above decision to secretary Appellate Board for appraisal of the Board.			
3.	M/s Bosch Pharmaceuticals (Pvt.) Ltd. Plot No. 209, Sector 23, Korangi Indsutrial Area, Karachi, Pakistan	Remivir Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per PRC	24 months/Store below 30°C
4.	M/s Bosch Pharmaceuticals (Pvt.) Ltd. Bosch House 221-223, Sector 23, Korangi Industrial Area, Karachi, Pakistan	Besivir Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per PRC	24 months/Store below 30°C
5.	M/s Bio Labs Pvt. Ltd. Plot # 145, Industrial Triangle,	Biovir IV Injection 100mg Each Lyophilized vial contains:	As Per DRAP's	24 months/Store below 30°C

	Kahuta Road, Islamabad	Remdesivir …… 100mg (As per Innovator's specifications)	Pricing Policy	
6.	M/s MTI Medical Pvt Ltd. 586-587 Sundar Industrial Estate, Lahore, Pakistan	Remdevir Lyophilized Injection 100mg/Vial Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per SRO	24 months/Store below 30°C
7.	M/s Sami Pharmaceuticals Pvt Limited. F-95, S.I.T.E, Karachi, Pakistan	Remdes Lyophilized Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	--	24 months/Store below 30°C

b) Approved registration of following products of Remdesivir Injectable solution 5mg/ml (Emergency use authorization) for applicants having manufacturing facility of liquid injectable Vial (General) section with cold chain storage facility in quarantine, finished goods store and distribution channel to ensure storage of drug product between 2 – 8°C. The process for verification of cold chain storage facility shall be initiated immediately after approval of minutes and registration letters shall be issued after verification.

Sr. No	Name of applicant / manufacturer	Brand Name Applied Formulation / composition Finished Product specification	Pack Size Demanded Price	Shelf life & recommended storage conditions
1.	M/s Allmed Pvt. Ltd. Plot No. 590, Sundar Industrial Estate, Lahore, Pakistan	Remvir concentrated solution for Infusion 100mg Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per SRO	12 months/ 2 – 8°C.
2.	M/s BF Biosciences Ltd. 5-Km,Sundar Raiwind Road, Lahore	Remidia Liquid Solution for Infusion 20ml Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	MRP Rs. 14,600 TP Rs. 12410 ($ 76.98) per Vial	12 months/ 2 – 8°C.
	• Campaign manufacturing of Remdesivir in already approved section for biological drugs of M/s BF Biosciences is allowed as per decision of Authority taken in its 84th meeting held on 01st June, 2020 and Appellate Board taken in its 151st sitting held on 16th January, 2019 with same terms & conditions as decided by the Appellate Board in its aforementioned sitting. • Registration Board further directed to communicate above decision to secretary Appellate Board for appraisal of the Board.			
3.	M/s Vision Pharmaceuticals. Plot # 22,23, Industrial Triangle, Kahuta Road, Islamabad	Remedy Solution for Injection 100mg/20ml Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per SRO	12 months/ 2 – 8°C.
4.	M/s Macter International Limited. F-216, S.I.T.E, Karachi, Pakistan	Rememac Injection 5mg/ml Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per PRC	12 months/ 2 – 8°C.
5.	M/s Wnsfield Pharmaceuticals. Plot # 122, Block A, Phase V, Hattar Industrial Estate, Hattar	Ramyr Liquid Injection 5mg/ml Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per SRO	12 months/ 2 – 8°C.
6.	M/s Hilton Pharma Pvt Ltd. Plot No. 13-14, Sector 15, Korangi Industrial Area, Karachi, Pakistan	Hildesvir Injection 5mg/ml Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per DPC	12 months/ 2 – 8°C.

7.	M/s Ameer & Adnan Pharmaceutical Pvt. Ltd. Plot No.47, Sundar Industrial Estate, Lahore	Ramvir Infusion 5mg/ml Each vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As per PRC	12 months/ 2 – 8°C.

c) Rejected following registration applications of Remdesivir bulk lyophilized powder (ready to fill in vials) 100mg as applied way of manufacturing method is not approved by any reference regulatory authority and since the exemption of Form 5F & out of queue consideration granted by the Authority is applicable to only those dosage forms as authorized by the reference regulatory authorities hence its safety, efficacy and quality is not fully determined.

Sr. No	Name of applicant / manufacturer	Brand Name, Applied Formulation / composition Finished Product specification
1.	M/s Horizon Healthcare (Pvt) Ltd. Plot No.35-A, Small Industrial Estate, Taxila, Pakistan	Remvir for Injection 100mg Each vial contains: Remdesivir Lyophilized Sterile powder ……100mg
2.	M/s Vision Pharmaceuticals. Plot # 22,23, Industrial Triangle, Kahuta Road, Islamabad	Viso-Rem for Injection 100mg Each Vial Contains: Remdesivir…100mg
3.	M/s Welwrd Pharmaceuticals. Plot # 3, Block A, Phase I-II, Industrial Estate Hattar, KPK	Remdi-Wrd Injection 5mg/ml Each Vial Contains: Remdesivir…100mg
4.	M/s OBS Pakistan Private Limited. C-14, S.I.T.E, Karachi, Pakistan **contract manufacturing** by M/s Radiant Pharma Pvt Ltd, 43-E Sunder Industrial Estate, Lahore	Remvid Injection 100mg Each Vial Contains: Remdesivir…100mg
5.	M/s Pharmasol (Pvt) Ltd. Plot No. 549, Sundar Industrial Estate, Raiwind Road, Lahore	Remdisol Injection 100mg Each Vial Contains: Remdesivir Lyophilized Powder for Infusion…100mg
6.	M/s Tabros Pharma Pvt Ltd. L-20/B,Sector-22, Federal B Industrial Area, Karachi	Remz IV Injection 100mg Each Vial Contains: Remdesivir…100mg
7.	M/s English Pharmaceuticals Industries. Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore	Codesvir Infusion 100mg Each 20ml Contains: Remdesivir…100mg
8.	M/s Wenovo Pharmaceuticals. Plot # 31& 32 Punjab Small Industrial Estate Taxila Pakistan	Wemeda Injection 5mg/ml Each Vial Contains: Remdesivir…100mg
9.	M/s Wnsfeild Pharmaceuticals. Plot # 122, Block A, Phase V, Hattar Industrial Estate, Hattar	Ramyr Dry Powder Injection 100mg Each Vial (20ml) Contains: Remdesivir…100mg
10.	M/s Genix Pharma Pvt Ltd. 44,45-B, Korangi Creek Road, Karachi, 75190, Pakistan	Remvir for Injection 100mg Each Vial Contains: Remdesivir…100mg
11.	M/s Weather Folds Pharmaceuticals. Plot # 69, Phase-II, Industrial Estate, Hattar	Remida Injection 5mg/ml Each ml Contains: Remdesivir…5mg
12.	M/s Pharmevo Private Limited. Plot # A-29, North Western Industrial Zone, Port Qasim, Karachi **Contract manufacturing by** M/s Genix Pharma Pvt Ltd. 44,45-B, Korangi Creek Road, Karachi, 75190, Pakistan	Resvir Injection 100mg Each Vial Contains: Remdesivir Powder Concentrate for Injection/Infusion ……. 100mg
13.	M/s Winbrains Research Laboratories. Plot No. 69/1, Block B, Phase I-II,	Remdiza Injection 100mg EachVial Contains:

	Industrial Estate, Hattar, Pakistan	Remdesivir ……. 100mg
14.	M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate,Kot Lakhpat,Lahore **Contract manufacturing** By M/s Vision Pharmaceuticals. Plot # 22,23, Industrial Triangle, Kahuta Road, Islamabad	Remi Lyophilized Powder for Injection 100mg EachVial Contains: Remdesivir…..100mg
15.	M/s Neutro Pharma Pvt Ltd, 9.5-Km, Sheikhupura Road, Lahore.	Medvir-19 100mg Injection Each Vial contains : Remdesivir ….. 100mg
16.	M/s Radiant Pharma Pvt Ltd, 43-E Sunder Industrial Estate, Lahore.	Medvir-19 100mg Injection Each Vial contains : Remdesivir ….. 100mg

d) Deferred following registration applications of Remdesivir till contract manufacturer develop the product and initiate stability studies and present at least 3 months stability data for initial consideration of their cases of contract manufacturing by Registration Board.

Sr. No	Name of applicant / manufacturer	Brand Name Applied Formulation / composition Finished Product specification	Pack Size Demanded Price
a. Lyophilized Powder for Injection 100mg (manufactured by way of lyophilization)			
1.	M/s The Nextar Pharma Private Limited. Plot No. E-58, North Western Industrial Zone, Port Qasim, Pakistan **Contract manufacturing by** M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad	Hildesvir Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg	As per DPC
2.	M/s Focus & Rulz Pharmaceuticals Pvt Ltd. 44-Industrial Triangle Kahuta Road, Islamabad **Contract manufacturing by** M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad	Desivir Injection 100mg IV Each Lyophilized vial contains: Remdesivir …… 100mg	As per PRC
3.	M/s Bio Mark Pharmaceuticals. Plot No. 527, Sundar Industrial Estate, Lahore contract manufacturing by M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad	Remdesivir IV Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg	As Per PRC
4.	M/s Hilton Pharmaceuticals, Plot No.13, Sector 15, Korangi, Karachi **contract manufacturing by** M/s Nabiqasim Industries Ltd, 17/24, Korangi Industrial Area, Korangi Highway, korangi, Karachi	Hildesvir Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg	As per SRO
5.	M/s Pharm Evo Pvt Ltd, A-29, North West Industrial Zone, Light Industrial Zone, Port Qasim, Karachi. **contract manufacturing by** M/s Nabiqasim Industries Ltd, 17/24, Korangi Industrial Area, Korangi Highway, korangi, Karachi	Redvir Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg	As per SRO
Applications for "Liquid Injection"			

6.	M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate,Kot Lakhpat,Lahore Contract manufacturing By M/s Vision Pharmaceuticals. Plot # 22,23, Industrial Triangle, Kahuta Road, Islamabad	Remi Solution For Injection100mg/20ml Each Lyophilized vial contains: Remdesivir …… 100mg	As per SRO

e) Rejected following registration application of Remdesivir Injectable solution 5mg/ml (Emergency use authorization) for applicant not having manufacturing facility of liquid vial injectable

Sr. No	Name of applicant / manufacturer	Brand Name Applied Formulation / composition Finished Product specification
1.	M/s Horizon Healthcare (Pvt) Ltd. Plot No.35-A, Small Industrial Estate, Taxila, Pakistan	Remvir Injection 5mg/ml Each 20ml Vial Contains: Remdesivir …… 100mg

f) Deferred following product of Remdesivir Injectable solution 5mg/ml (Emergency use authorization) for confirmation of evidence of approval of required manufacturing facility i.e., "Liquid injectable Vial (General) section" from Licensing Division.

Sr. No	Name of applicant / manufacturer	Brand Name Applied Formulation / composition Finished Product specification
1.	M/s Weather Folds Pharaceuticals, Plot No.62/2, Phase-II Industrial Estate Hattar.	Remida Liquid Injection 5mg/ml Each Vial (20ml) Contains: Remdesivir ……. 100mg

II. Finished Import:

a. Approved following registration applications of Remdesivir Lyophilized Powder for Injection 100mg (Emergency use authorization) for following cases. As manufacturing sites of imported finished products are inspected for GMP purpose. As during current pandemic situation, inspection abroad is not possible thus Registration Board recommended case for exemption of inspection may be referred to DRAP's Authority for its consideration. If approved by DRAP's Authority then every imported lot of Remdesivir will be subjected to quality tests performed by CDL Karachi on priority basis.

Sr. No	Name of applicant / manufacturer	Brand Name Applied Formulation / composition Finished Product specification	Pack Size Demanded Price	Shelf life & recommended storage conditions
1.	M/s The Searle Company Limited. F-319 S.I.T.E. Karachi, Pakistan **Import from** M/s Beximco Pharmaceuticals ltd, 126, Kathaldia, Auchpara, tongi-1711, Ghazipiur, Bangladesh	Bemsivir IV Injection 100mg Each Lyophilized vial contains: Remdesivir …… 100mg (As per Innovator's specifications)	As Per SRO	Shelf life 24 months / Store below 30°C
2.	M/s OBS Healthcare Pvt Limited. Plot No. 10 & 25, Sector 20, Korangi Indsutrial Area, Karachi,-74900 **Import from** M/s Incepta Pharmaceuticals Limited. Dewan Idris Road, Bara Rangamatia, Zirabo, Ashulia, Savar, Dhaka-1341, Bangladesh	Ninavir IV Infusion 100mg Each Lyophilized vial contains: Remdesivir …… 100mg	MRP: Rs.25,000/01 Vial Per Pack	Shelf life 24 months /Store below 30°C

- Rejected registration application of Cipremi 100mg Injection (Remdesivir Lyophilized Powder for Injection 100mg) applied by M/s A.J. Mirza Pharma (Pvt.) Ltd. 1st floor,

Shafi court, Civil lines Karachi **manufactured by** M/s Cipla Ltd. Plot No. m-61, M-62 & M-63, Verna Industrial Estate, Verna-Goa, India, as firm failed to submit any document confirming approval / authorization status of Remdesivir by Indian regulatory authority / Government even for Indian market rather firm has provided a copy of letter for permission to manufacture "Remdesivir for Injection 100mg/vial" for export purpose only. However, they have not yet manufactured this product as it is under production expected to be marketed in last week June/1st week of July.

Moreover applicant could not share any data regarding development of any batch for their domestic market.

All approved registrations are subject to following conditions:

i. Remdesivir API / drug substance shall only be procured from sources/manufacturers having valid API manufacturing license / GMP certificates by respective drug regulatory authority and concurrent accelerated and real time stability study data of API as per the conditions of zone IV-A.
ii. Registration of Remdesivir is subject to performance of product development, process validation and concurrent real time and accelerated stability study of drug product for the first three commercial batches as per zone IVA climatic conditions.
iii. This medicine will only be supplied to healthcare facilities dealing with COVID-19 Patients under strict supervision of a qualified specialist physician.
iv. Registration of Remdesivir (Emergency Use Authorization) shall remain valid upto current COVID-I9 pandemic situation and shall be reviewed regularly in line with its regulatory status by reference regulatory authorities.
v. The firm shall conduct stability studies at monthly interval during the initial six months and submit the data to P.E&R Division DRAP on quarterly basis.
vi. The firm shall immediately inform respective FID for taking sample of 1st three commercial batches for its testing to be performed by CDL on priority basis.
vii. Firm shall ensure that the Remdesivir drug product shall be accompanied with the authorized labeling is distributed to hospitals and healthcare facilities as directed by Registration Board, consistent with the terms of this letter.
viii. Firm shall ensure the appropriate storage and cold chain facility during manufacturing and distribution cycle.
ix. Firm shall ensure that terms & conditions of this registration are made available to all relevant stakeholders (Government Agencies, Authorized distributors, Healthcare facilities, Healthcare providers).
x. Firm will report monthly to National Pharmacovigilance Centre, Pharmacy Services Division DRAP, serious adverse events and all medication errors associated with the use of the authorized Remdesivir that are reported to the firm during the pandemic.
xi. The firm shall maintain complete records of distribution of Remdesivir (i.e. lot numbers, Quantity, Receiving site, receipt date) and will be provided to any government organization (if required).
xii. Product will be recalled in case of any quality issues or any adverse decision by the reference regulatory authorities regarding safety/efficacy of Remdesivir injection or as decided by Registration Board.

Following applications has been received on Form-5/Form 5-D instead of Form 5-F as per details mentioned against each.

S. No.	Name of applicant	Brand Name	composition	Diary no. Date /Fee & Date/ form

Decision: Registration Board deferred above cases and directed the firms to apply on Form-5F.				

B. Division of Biological Evalautaion & Research (B. E & R)

1. Permission of exemption from the Drugs Labelling & Packaging Rules, 1986 for Actemra 80mg (Reg. No. 083134) & Actemra 400mg (Reg. No. 083136) at the time of import applied by M/s Roche Pakistan Limited, Karachi granted by circulation of agenda to members of Registration Board.

M/s Roche Pakistan Limited, Karachi applied for the exemption from the Drugs Labelling & Packaging Rules, 1986 at the time of import for their already registered products Actemra 80mg (Reg. No. 083134) & Actemra 400mg (Reg. No. 083136). The firm submitted that we all are informed that there is no targeted drug for COVID-19 and it is only being treated symptomatically and supportively. The "Clinical Management Guidelines for Covid-19 Infections" (issued by NHSRC, Govt. of Pakistan) has mentioned one of their registered products, Actemra (tocilizumab), as an important drugs for COVID-19 management, which has exponentially increased its demand and they have been receiving the requests for the said drug from miscellaneous medical institutions and hospitals (of which some notable are SIUT, AKUH and DOW) for the urgent supply of it.

Since, the said product is imported from their principal F. Hoffmann-La Roche Ltd., Basel, Switzerland and due to high demand of this product from all over the world, it will take them at least six months to import the shipment on local (Pakistan make-up) label, which includes Urdu text, local MRP and local registration number. The shipment will be received in parts.

The firm has submitted the following documents:

a. Fee challan of Rs. 10000/-
b. Copies of purchase orders & e-mails for supply of Actemra.

Moreover, the online available news show that Roche has announced that the US Food and Drug Administration (FDA) has formally approved its phase 3 trial of Actemra in severely ill COVID-19 patients, who have been hospitalized with pneumonia. The trial – named COVACTA – will recruit around 330 patients around the world, with an expected start date sometime in early April. The primary and secondary endpoints will include assessing clinical status, mortality, mechanical ventilation and intensive care unit variables in the patient population. Despite a number of clinical trials evaluating Actemra already ongoing across the world, Genentech has maintained that the COVACTA study is pivotal because there are still no well-controlled studies and limited published evidence on the safety or efficacy of the drug in COVID-19. (https://www.pmlive.com/pharma_news/fda_approves_roches_actemra_covid-19_trial_1329887)

The firm has requested to grant them exemption from the Drugs Labelling & Packaging Rules, 1986 for Actemra 80mg (Reg. No. 083134) & Actemra 400mg (Reg. No. 083136) at the time of import.

In this context, it is submitted that the above products have already been registered as per following details:

Reg. No.	Name of Manufacturer	Brand Name & Composition	Pack Size
083134	M/s Utsunomiya Plant of Chugai Pharma Manufacturing Co., Ltd., 16-3, Kiyohara Kogyodanchi, Utsunomiya-city, Tochigi, Japan	Actemra 80mg (Concentrate for Solution for Infusion) Each vial(4ml) contains: Tocilizumab (Genetical Recombination)…….80 mg	1's Vial
083136	M/s Utsunomiya Plant of Chugai Pharma Manufacturing Co., Ltd., 16-3, Kiyohara Kogyodanchi, Utsunomiya-city, Tochigi, Japan	Actemra 400mg (Concentrate for Solution for Infusion) Each vial(20ml) contains: Tocilizumab (Genetical Recombination)…….400 mg	1's Vial

It is submitted that initially the firm applied for permission for Actemra 200mg (Reg. No. 083135). Accordingly, the case was considered in 294th meeting of Registration Board wherein the Board decided as follows:

"Registration Board deliberated the case in light of prevailing COVID-19 emergency situation and considered Clinical Management Guidelines for COVID-19 Infections issued by M/o NHSR&C, requirements of Actemra 200mg by leading medical institutions of the country (AKUH, SIUT, Indus, HMC, DOW etc) for management of their COVID-19 patients and Rule 3 of Drugs (Labeling & Packing) Rules, 1986 and decided as under:

a. Acceded to request of the firm for import of registered Actemra 200mg, Reg. No. 083135 in Standard Export Packs.

b. The firm shall make necessary arrangement for local printing of MRP and Registration Number at least on secondary packing before sale of drug, at any licensed premises having. Firm shall be responsible for providing requisite cold chain facility during local printing process under supervision of relevant experts of manufacturing and Quality Assurance. Complete batch processing record shall be maintained for aforementioned process.

c. Actemra 200mg, Reg. No. 083135 shall be supplied only to medical institutions for use under strict medical supervision of relevant experts / Registered Medical Practitioner and shall not be sold either to retail pharmacies or whole sale market.

d. Complete import, sale / supply and printing record shall be maintained and will be provided if required by DRAP.

e. This permission shall be valid for three (03) months only. During this period, M/s Roche shall make efforts for future import of finished product as per requirements of Drugs (Labeling & Packing) Rules, 1986."

The firm then submitted that due to high demand of Actemra 20mg, it is not available for supply and requested to extend the above permission for 2000 packs each of Actemra 80mg (Reg. No. 083134) & Actemra 400mg (Reg. No. 083136).

It was evident from the above that the said products are included in the "Clinical Management Guidelines for Covid-19 Infections" (issued by NHSRC, Govt. of Pakistan) and approval has already been granted for one strength of Actemra i.e 200mg in 294th meeting of Registration Board and **then the firm had requested for extension of the permission for Actemra 80mg (Reg. No. 083134) & Actemra 400mg (Reg. No. 083136)**. Due to current situation of COVID 19, the meeting of registration Board was not held, therefore, being the matter of public interest the agenda was being circulated for the approval from members of Registration Board so that permission may be granted to the firm at the earliest. The following comments were received on whatsapp from members of Registration Board:

Name of Member	Comments
Dr. RafeeqAlam	Agreed
Dr Noor us Saba	Agreed
Dr. HafsaKaramElahi	Agreed
Abdullah	Agreed
Maj. Gen. Tahir Mukhtar	Agreed Please
DrQurban	Agreed as proposed, please.
Iftikhar ch	Agreed in the public interest but now according to the decision of supreme court Lock down is over so regular meeting of the registration board is the need of the hour and we must hold meetings. **Email** Respected Abdullah sahib Asslamoallikum I have given my consent to you through WhatsApp as you desired.i agree in the public interest in prevailing covid 19 situation but now after the decision of supreme court and ease of Lock down we have to hold regular meeting of board for discussion and decisions. I hope you will note and consider my request.

Dr. Amanullah	Assalam-u-Alaikum to all my fellow members , Submitted my points of concern 1) Is the product in question is safe . 2) Is the product has completed its all required trial phases and declared safe for human use . 3) At the time of approval in 294 registration board meeting I can't remember that product is discussed about its trial phase(s) and in the past I remember that Board has never approved any product which has not completed it's all trial phases and if I'm not wrong in case of Dengue we have not approved the product due to incomplete studies and in Philippine the same Dengue product was banned due to deaths noted so is the case here if studies are incomplete we may not allow and even registration of the product approved in 294 -M may be suspended till the time the study is completed. 3) I have already shown my serious concerned about 294 registration board meeting which was on line rather it was Off-line meeting because we were not able to participate due to poor communication system from DRAP and every thing was in hurry . 4) Approval through E-mail and Whattsapp is not appropriate because it's a matter of human lives so the DRAP may not compromise for holding such meetings and taking approval on email / Whattsapp and on line . If my points are addressed and the product is safe for human consumption then it's ok otherwise it is not approved from my side.
M. Aslam	Dear Abdullah can we approved any item on whatsapp or proceed the registration Board meeting on WhatsApp? If yes then I have no objection. Kindly share relevant section of DRAP Act for the purpose of taking approval of any medicine or consent of members on any drug via email. Otherwise all process will be unlawful. Things must be done in proper manner SMCr.
Dr. Obaid	Dear Members as matter is of high public health importance due to potential use of instant medicine in COVID-19 management & no other alternate is registered as well, thus opinion of members is hereby solicited. Date of Registration Board meeting will be shared immediately after Eid holidays.
Mujtaba IPO	DR sb The matter is critical and may kindly be discussed in next meeting for approval which is appropriate forum. Regards
Adnan Rizvi	FDA approved phase 3 clinical trial not management of Covid19. It is blockbuster drug of Roach is an immunosuppressive agent, exclusively use in Arthritis. It has many side effects one of the most common is upper respiratory tract infection (10%) and common Cold. It's much expensive drug. FDA approved for trial not treatment/management of Covid19. Not agreed For any further approval please call proper meeting of Registration Board as flight operation is also started. We had given exemption in one strength it is enough we should wait the next meeting of Registration Board or until the FDA approve for the treatment of Covid19 rather clinical trial. Dear sir firstly FDA approve the Acterna in the treatment of Covid19 now it is on phase 3 clinical trial then put this matter in upcoming meeting. Otherwise not, our peoples are not guniea pigs Strongly agreed with the concern of DrAmanullah It was online rather it was Off-line.
Khalid Javed KPK	If rules allow approval in such a manner then I agree with the proposal.
Muzzammil DTL Punjab	Strongly agreed with drammansb

After above comments, the Director PE&R/Chairman Reg. Board explained the case keeping in view the Covid-19 public health urgency situation. Later on, all members agreed the approval of case through Whatsapp group as tabulated under:

	Dr. Obaidullah	Reference queries in previous messages, I want to clarify that Actemra 80mg and 400mg are both registered drugs vide No. 083134 and 084136. Product is approved by almost all reference regulatory authorities including USFDA and EMA for various indications. After emergence of COVID-19, national clinical management guidelines for COVID-19 infections has been issued where it is categorically mentioned as treatment option (see page 6). Same treatment option has been adopted by various reference countries including USA, Spain, Italy, Ireland and various non-reference countries aswell. As per information provided by M/s Roche, presently Actemra orders are pending from SKMCH&RC, DOW, PIMS, LGH, DG Health KPK & Baluchistan, CMH Quetta, Farooq Hospital Lhr, Hameed Lateef Lhr, QIH Islamabad, BehriaLhr, AKUH, SIUT and Indus karachi being used for COVID-19 management exclusively to treat extensive and bilateral lung disease or severely ill patients with elevated IL-6 levels. In 294th meeting, it was decided to exempt Urdu version only with certain conditions for already registered drugs. DRAP proposal is to follow same pathway for Actemra 80mg and 200mg with same conditions. Firm informed that 8 packs of Actemra 200mg and 10 packs of 80mg are available in stocks throughout country. As per information provided by M/s Roche and non-approval at this stage, DRAP's apprehend that product Actemra will not be available for use in management of COVID-19 infection in above hospitals and can have devastating and life threatening effects as well. As far as query regarding approval through WhatsApp/ email is concerned, definitely it has never been practiced in past as Pakistan And health related organisations as well has never faced such Public health emergency situation. If members consented for granting approval as per details in agenda then we will issue Urdu exemption letter All proceedings are only done to save COVID patients in such extraordinary public health urgency situation Across the globe including Pakistan.
	Dr. Qurban	Clarification is much appreciated; Agreed.
	Gh. Mujtaba	Yes clarification is appropriated and Agreed with Dr. Obaid sb proposal.
	DrRafiqAlam	I endorsed the justification given by Dr. Obaid
	Maj. Gen. Tahir	I strongly endorse the clarification and Recomend Approval
	Dr Noor us Saba	In novel pandemic situations priority is to save lives with all possible methods. Therefore with this timely decision DRAP will project itself as a responsible organisation. All members are requested to grant the approval.
	DrRafiqAlam	Agreed Exemption from Urdu printing should be granted for three months in present scenario of urgency
	Khalid Javed KPK	I totally agree with DrOdaid clarification. keeping in view present scenerio I strongly recommend for its approval.
	M Aslam Law	Dear Obaid sb when a thing is to be done in a particular manner, it must be done in that way and not authorize any deviation there from will render the action as illegal and unlawful. Reliance is placed a judgement of the Supreme Court in case Tehsil Nazim TMA, Okara versus Abbas Ali and others reported as 2010 SCMR p 1437. Solution in this situation is that Board may take the measures but in the next meeting take retrospective approval of the said medicine
	DrHafsa	Agreed
	Muzzamil	I endorse

	DrAkram	Keeping in view the established indication of drug i.e adult arthritis and side efects as mentuoned by Mradnan and dramanullah relaxation of rules in hurry may not not advisable. Better deliberate thoroughly. It is not the only drug which is IL-6 inhibitor alternate available. I suggest call a meeting in person following SOPs.

Accordingly, the approval was granted and letter was issued on 21-05-2020. Chairman Registration Board further advised to include the case in forth coming Registration Board for concurrence.

Decision: Registration Board acknowledged the above approval. Registration Board further extended the already granted permissions regarding import of standard export packs and local printing of MRP and registration number on at least secondary packaging for Actemra 80mg, 200mg and 400mg for nine (09) months from the date of permissions.

2. Application for permission of import of Actemra 400mg/20ml from M/s Genetech Inc., 4625 NE Brookwood Parkway, Hillsboro, OR 97124, USA applied by M/s Roche Pakistan Limited, Karachi.

M/s Roche Pakistan Limited, Karachi applied for the permission to import Actemra 400mg/2ml from M/s Genetech Inc., 4625 NE Brookwood Parkway, Hillsboro, OR 97124, USA. The firm submitted that considering the unfortunate pandemic situation of COVID-19 and the fact that Actemra is in extremely high-demand throughout the world, their global supply chain is unable to fulfil the demands of many international markets from the existing manufacturing facility (Chugai Pharma Manufacturing Co Ltd, 16-3 Kiyohara-Kogyodanchi, Utsunomiya, Japan). Therefore, Roche has initiated the production of additional batches of Actemra 400mgvial in their Genentech's Hillsboro (HTO) site, located at 4625 NE Brookwood Parkway, Hillsboro, OR97124, United States. This operation is being carried out on an interim basis only in order to mitigate the potential Actemra supply disruptions due to the exponentially increasing demand.

The firm further submitted that it is worthy to mention here that Actemra is already the part of COVID-19 management as per the following local guidelines:

- Clinical Management Guidelines for COVID-19 Infections, issued by the Federal Govt.
- Clinical Management Guidelines for COVID-19 Infections, issued by the Punjab Govt.

Moreover, it is also the part of clinical management guidelines in the following notable countries/hospitals:

- China (Wuhan guidelines)
- US (NIH)
- Italy
- Spain
- Ireland
- Russia
- Poland
- Saudi Arabia
- Qatar
- Lebanon
- Egypt
- Israel
- International Pulmonologist's Consensus Group on COVID-19
- US Hospitals – University of Michigan/Yale Medical Center/Swedish Hospital
- US Organization Guidance – ASHP, Compendia

While Roche Pakistan Limited has been able to meet most of the immediate demand through a variety of measures, looking ahead to the mid-to-long term, demand is expected to increase further. So far, we have the pending supply orders from following hospitals:

Karachi

- Tabba Heart Institute
- SIUT
- Ziauddin Hospital

Lahore

- Al-Shafi Hospital
- Baharia Hospital
- National Hospital
- PKLI
- Mayo Hospital
- Lahore General Hospital
- Hameed Latif

- University of Lahore Teaching Hospital
- KEMU
- Govt. Kot Khawaja Saeed Teaching Hospital
- Jinnah Hospital Lahore
- Surgimed Hospital
  Doctors Hospital & Medical Centre
- Fatima Memorial Hospital
- Imran Adrees Hospital

Faisalabad

- General Hospital
- Family Care Hospital

Islamabad/Rawalpindi

- Shifa International
- PIMS

Considering the above-mentioned facts and status, we request your special approval to avail the opportunity of importing Actemra 400mg vial from Hillsboro manufacturing site in the United States. Currently there are only 95 packs available in stock for Actemra 80mg vial, which will be consumed by today, Monday 1st June, and the next expected shipment contains a very limited number of packs as compared to the market demand.

For this purpose, we are submitting a set of available administrative and technical documents (as mentioned in the attached checklist), the same against which the US FDA has allowed the manufacturing and release of Actemra 400mg vial from Hillsboro site. We have tried our level best to provide the maximum documents which would establish the credibility and validity of the site. It is worthy to note that the said site is already the existing approved site for our product Herceptin (trastuzumab) 440mg vial, hence, the credibility and authenticity of the new site is already established and accepted by the DRAP.

Moreover, M/s Roche Pakistan Limited, Karachi has submitted the following commitments:

- To ensure that the quality of the finished product will not be compromised. The finished product will be manufactured at Genentech Inc., 4625 NE Brookwood Parkway, Hillsboro, OR 97124, United States, which operates in accordance with FDA GMP guidelines and have been inspected by US and Japanese health authorities.
- A minimum of 3 consecutive batches of drug product (ca. 40,000 vials per batch) will be released in accordance with an ongoing process verification protocol.
- The first 3 batches will be placed in long term (2-8°C) and accelerated stability (25°C), according to the stability protocol. *The shelf life initially claimed is 6 months at 2-8°C.* The shelf life will be extended in accordance to the stability protocol. Each extension will not be more than twice the time points available, for a maximum 12 months.
- The vials are shorter and wider compared to the commercial material and the vial cap is *dark blue (instead of red).*
- *The batches imported from the Hillsboro site shall only be used for the treatment of COVID-19 patients, and not in any other indication of the product.*

The firm has submitted the following documents:

a. Fee Challan of Rs. 50000/-
b. Copies of orders from different institutes/ hospitals.
c. Copy of email from Mr. Robert G. Kosko, Jr., Pharm D, MPH, Commander USPHS Senior Programme Management Officer, FDA/CDER/Drug Shortage Staff regarding no objection to Roche/ Genetech's distribution within the U.S. of following:
   Actemra (Tocilizumab) mg/ml lot number 3378172
   The email further states that this discretion is contingent on the following points:
   i. It does not extend beyond the product and lot number specified above.
   ii. Roche/ Genetech will distribute a Dear Healthcare provider letter to alert prectitioners to the differences between the two configurations of Actemra 400mg/20ml which will be on the market at the same time.

In this context, it is submitted that the aforementioned product was initially registered as per following details:

Reg. No.	Name of Manufacturer	Brand Name & Composition	Pack Size
083136	M/s Utsunomiya Plant of	Actemra 400mg	1's Vial

	Chugai Pharma Manufacturing Co., Ltd., 16-3, Kiyohara Kogyodanchi, Utsunomiya-city, Tochigi, Japan	(Concentrate for Solution for Infusion) Each vial(20ml) contains: Tocilizumab (Genetical Recombination)…….400 mg	

Now, the firm submitted that Actemra is in extremely high-demand throughout the world, their global supply chain is unable to fulfil the demands of many international markets from the existing manufacturing facility (Chugai Pharma Manufacturing Co Ltd, 16-3 Kiyohara-Kogyodanchi, Utsunomiya, Japan). Therefore, Roche has initiated the production of additional batches of Actemra 400mg vial in their Genentech's Hillsboro (HTO) site, located at 4625 NE Brookwood Parkway, Hillsboro, OR97124, United States. The firm has requested to grant the permission to import Actemra 400mg/20ml from M/s Genetech Inc., 4625 NE Brookwood Parkway, Hillsboro, OR 97124, USA. Moreover, the new site has already been approved for another product Herceptin 440mg (Reg. No. 032130) in 276th meeting of Registration Board.

Decision: **Registration Board deliberated the case in the light of prevailing COVID-19 emergency situation, shortage of availability of Actemra from already approved manufacturing site and approvals of EMA & USFDA for additional site & new container closure system and decided as under:**

a. **Approved the addition of M/s Genetech Inc., 4625 NE Brookwood Parkway, Hillsboro, OR 97124, USA as manufacturing Site for Actemra 400mg/20ml (Reg. No. 083136)**
b. **Approved the addition of new container closure system wherein the vials will be shorter and wider compared to the commercial material and the vial cap is dark blue instead of red.**
c. **Complete import, sale and supply record shall be maintained and will be provided if required by DRAP.**
d. **The shelf life of the product manufactured at Hillsboro site shall be 06 months.**

This permission shall be valid for nine (09) months from the date of issuance of approval letter.

Case No. 1: Registration of Vitamin-Mineral Formulations

Registration of vitamin-mineral formulations are pending for deliberations and decision regarding consideration as Drug or otherwise. Registration of formulations containing Vitamin-mineral was discussed in 291st meeting of Registration Board and following decision has been taken:

291st Meeting of Registration Board:

Vitamin Policy was placed in 291st meeting of Registration Board and following decision has been taken:

Decision: Registration Board deliberated the decision of the Policy Board and the Authority for Vitamin Policy and decided that:-

i. Those vitamins and minerals above RDA as defined in the Vitamin Policy (18th meeting of Policy Board) will be considered as drug. If any one of the ingredient of multiple ingredient dosage form falls above RDA, it will be considered as a drugs.

ii. Those combinations already having registration in Pakistan and marketing proof of availability of 5-7 years in market with no reported adverse reactions, shall be considered as reference for safety and efficacy of these combinations.

iii. For new combinations, availability in already defined reference regulatory authorities will be considered as a reference.

iv. For already submitted dossier, applicant will be given 3 months time for amendment / correction in their applied formulations in light of above recorded decision and submission of differential fee and registration application.

v. Registration dossiers will be considered on FIFO basis from date of completion of dossiers including all codal formalities.

- In this regard, following is submitted for the consideration of Registration board:
  1. Those Vitamins and minerals above Recommended Daily Allowance (RDA) up to Tolerable upper intake level (UL) may be considered as drug.
  2. If any ingredient in the vitamin and mineral formulation is above UL, then it may allow only, if it is available in already defined Reference Regulatory Agencies, *for intended therapeutic purpose,* otherwise the Firm has to revise its formulation. Furthermore single ingredient vitamins for certain disease conditions may be registered with therapeutic claim as per approved Reference Regulatory Agencies.
  3. Point (ii) of decision of Registration Board needs further deliberation regarding the documents required for consideration as reference.
  4. As per direction given in point (iv) of above mentioned decision of Registration Board, circular has been issued vide letter no. F.291-DRB/2019(PE&R) dated 14th January,2020 for the information/compliance of all Pharmaceutical Manufacturer/Importer of Pakistan.However as per record no such amendment/correction has recived in the given timeline.
  5. Applicant firm shall give reference of conversion of units (e.g. IU to mcg/mg or vice versa) and equivalency in elemental form as required in RDA or UL table.
  6. The pharmaceutical companies shall ensure the availability of requisite manufacturing & testing facilities including atomic absorption spectrophotometer.
  7. Renewal application of already registered drug will be considered in the light of above given submission.

Decision: Registration Board deliberated in detail on the above points and decided to approve following futher points in addition to aforesaid decision of Regisatration Board in its 291st meeting.

1. **Those Vitamins and minerals above Recommended Daily Allowance (RDA) up to Tolerable upper intake level (UL) shall be considered as drug for registration purpose.**

2. **If any ingredient in the vitamin and mineral formulation is above UL, then it shall be allowed only, if it is available in already defined Reference Regulatory Agencies, *for intended therapeutic purpose,* otherwise the applicant firm shall have to revise its formulation in line with RRA.**
3. **Single ingredient vitamin for certain disease conditions shall be registered with therapeutic claim in line with Reference Regulatory Agencies.**
4. **New formulations shall be considered if approved by Reference Regulatory Authorities.**
5. **Multivitamin/minerals injectable shall be registered, if they are approved by Reference Regulatory Authorities.**
6. **Applicant firm shall give reference of conversion of units (e.g. IU to mcg/mg or vice versa) and equivalency in elemental form as required in RDA or UL table.**
7. **The applicant firm shall ensure the availability of requisite manufacturing & testing facilities like atomic absorption spectrophotometer for test purposes.**
8. **For Point (ii) of decision of Registration Board in 291st meeting, following documents will be required for consideration.**
    i. **Name of product, Registration No and composition for confirmation of generic status alongwith unit carton of available formulation..**
    ii. **For Adverse Drug Reaction, Pharmacy Services Division will be approached to provide the data.**
9. **Registration Board noted the information that circular has been issued vide letter no. F.291-DRB/2019(PE&R) dated 14th January,2020 for the information/compliance of all Pharmaceutical Manufacturer/Importer of Pakistan. However as per record, no such amendment/correction has been received in the given timeline. Registration Board extended the timeline for further six month for amendment / correction in the applied formulations from date of issuance of new circular in light of above recorded decision and submission of differential fee and registration application.**
10. **For consideration of renewal application of already registered vitamin-mineral formulations following will be the criteria:**
    i. **All those formulations which are in line with above guidelines will be granted the renewal as per delegation already approved by Registration Board.**
    ii. **In those formulations which donot fulfill the above criteria, cases will be placed before Registration Board for consideration.**

In the light of above, following registration applications of vitamin and mineral formulation have been considered by Regisration Board and decided accordingly as mentioned against each:

1.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals,I-10/3,Industrial Area, Islamabad
	Brand Name +Dosage Form + Strength	HIGH C-D Tablets (Effervescent Tablet) Orange Flavor
	Diary No. Date of R& I & fee	(Duplicate Dossier)Dy. No.148 dated 18/03/2009 Rs.8,000/- Differential fee (Photocopy) of Rs.12,000/- submitted on 26/10/2017
	Composition	Each tablet contains: Calcium Lactate Gluconate….1000mg Calcium Carbonate….327mg Vitamin C (Ascorbic Acid)…..500mg Vitamin D3 …..4mg Vitamin B6…..10mg
	Pharmacological Group	Vitamin and mineral formulations
	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specification
	Pack Size & Demanded Price	As per S.R.O

	Approval Status of Product in Reference Regulatory Authorities	Quantity of vitamin and mineral in the applied formulation is between RDA and UL according to the decision of Registration Board in its 291st meeting.
	Me-too Status	CaC-1000 Plus Effervescent Tablet by M/s. GSK OTC (Pvt.) Ltd. Petaro Road,Jamshoro
	GMP Status	Last inspection report dated 09/11/2018, the panel recommended for the grant of GMP Certificate.
	Remarks of the Evaluator. AD(PEC-XII)	Vitamin D3 used in the formulation is above UL, as the upper tolerable intake level of vitamin D is 10000IU (250mcg) while the used amount is 4000mcg same amount is used in me-too.
	Decision: Deferred as the quantity of Vitamin D3 used in the composition is above upper tolerable intake level (UL). Furthermore Registration Board directed M/s. GSK OTC for justification of existing formulation of CaC-1000 Plus Effervescent Tablet for quantity of Vitamin D3 as it is upper tolerable intake level (UL).	
2.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals,I-10/3,Industrial Area, Islamabad
	Brand Name +Dosage Form + Strength	HIGH C-D Sachet (Orange Flavor)
	Diary No. Date of R& I & fee	(Duplicate Dossier)Dy.188 No.dated 19/12/2008 Differential fee (Photocopy) of Rs.12,000/- submitted on 26/10/2017
	Composition	Each Sachet contains: Calcium Lactate Gluconate….1000mg Calcium Carbonate….327mg Vitamin C (Ascorbic Acid)…..500mg Vitamin D3…..4mg Vitamin B6…..10mg
	Pharmacological Group	Vitamin and mineral formulations
	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specification
	Pack Size & Demanded Price	As per S.R.O
	Approval Status of Product in Reference Regulatory Authorities	Quantity of vitamin and mineral in the applied formulation is between RDA and UL according to the decision of Registration Board in its 291st meeting.
	Me-too Status	CaC-1000 sachet by M/s. GSK OTC (Pvt.) Ltd. Petaro Road,Jamshoro
	GMP Status	Last inspection report dated 09/11/2018, the panel recommended for the grant of GMP Certificate.
	Remarks of the Evaluator. AD(PEC-XII)	1. Me Too (CaC-1000 Sachet) product mentioned by the firm in Form 5 is available with different composition. 2. Vitamin D3 used in the formulation is above UL, as the upper tolerable intake level of vitamin D is 10000IU (250mcg) while the used amount is 4000mcg same amount is used in me-too also.
	Decision: Deferred for Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.	
3.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals,I-10/3,Industrial Area, Islamabad
	Brand Name +Dosage Form + Strength	HIGH C-D Tablets (Mango Flavor) (Effervescent Tablet)
	Diary No. Date of R& I & fee	Dy. No. 6423 dated 08/04/2020 Rs.20,000/-
	Composition	Each tablet contains: Calcium Lactate Gluconate….1000mg Calcium Carbonate….327mg Vitamin C (Ascorbic Acid)…..500mg Vitamin D3 …..4mg Vitamin B6…..10mg
	Pharmacological Group	Vitamin and mineral formulations

	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specification
	Pack Size & Demanded Price	As per S.R.O & Pack: 10's,20's &30's
	Approval Status of Product in Reference Regulatory Authorities	…..
	Me-too Status	CaC-1000 Plus Effervescent Tablet by M/s. GSK OTC (Pvt.) Ltd. Petaro Road,Jamshoro
	GMP Status	Last inspection report dated 09/11/2018, the panel recommended for the grant of GMP Certificate.
	Remarks of the Evaluator. AD(PEC-XII)	1. Application is received on Form-5 instead of Form 5-F. 2. Vitamin D3 used in the formulation is above UL, as the upper tolerable intake level of vitamin D is 10000IU (250mcg) while the used amount is 4000mcg same amount is used in me-too also.
	Decision: Deferred as the quantity of Vitamin D3 used in the composition is above upper tolerable intake level (UL). Furthermore Registration Board directed M/s. GSK OTC for justification of existing formulation of CaC-1000 Plus Effervescent Tablet for quantity of Vitamin D3 as it is upper tolerable intake level (UL). Application is required to be submitted on Form5F and will be considered on its turn.	
4.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals,I-10/3,Industrial Area, Islamabad
	Brand Name +Dosage Form + Strength	HIGH C-D Tablets (Lemon Flavor) (Effervescent Tablet)
	Diary No. Date of R& I & fee	Dy. No. 6423 dated 08/04/2020 Rs.20,000/-
	Composition	Each tablet contains: Calcium Lactate Gluconate….1000mg Calcium Carbonate….327mg Vitamin C (Ascorbic Acid)…..500mg Vitamin D3 …..4mg Vitamin B6…..10mg
	Pharmacological Group	Vitamin and mineral formulations
	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specification
	Pack Size & Demanded Price	As per S.R.O & Pack: 10's,20's &30's
	Approval Status of Product in Reference Regulatory Authorities	…..
	Me-too Status	CaC-1000 Plus Effervescent Tablet by M/s. GSK OTC (Pvt.) Ltd. Petaro Road,Jamshoro
	GMP Status	Last inspection report dated 09/11/2018, the panel recommended for the grant of GMP Certificate.
	Remarks of the Evaluator. AD(PEC-XII)	1. Application is received on Form-5 instead of Form 5-F. 2. Vitamin D3 used in the formulation is above UL, as the upper tolerable intake level of vitamin D is 10000IU (250mcg) while the used amount is 4000mcg same amount is used in me-too.
	Decision: Deferred as the quantity of Vitamin D3 used in the composition is above upper tolerable intake level (UL). Furthermore Registration Board directed M/s. GSK OTC for justification of existing formulation of CaC-1000 Plus Effervescent Tablet for quantity of Vitamin D3 as it is upper tolerable intake level (UL). Application is required to be submitted on Form5F and will be considered on its turn.	
5.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals,I-10/3,Industrial Area, Islamabad
	Brand Name +Dosage Form + Strength	HIGH C-D Tablets (Cola Flavor**)** (Effervescent Tablet)
	Diary No. Date of R& I & fee	Dy. No. 6423 dated 08/04/2020 Rs.20,000/-
	Composition	Each tablet contains: Calcium Lactate Gluconate….1000mg Calcium Carbonate….327mg Vitamin C (Ascorbic Acid)…..500mg

		Vitamin D3 …..4mg Vitamin B6…..10mg
	Pharmacological Group	Vitamin and mineral formulations
	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specification
	Pack Size & Demanded Price	As per S.R.O & Pack: 10's,20's &30's
	Approval Status of Product in Reference Regulatory Authorities	…..

	Me-too Status	CaC-1000 Plus Tablet by M/s. GSK OTC (Pvt.) Ltd. Petaro Road,Jamshoro
	GMP Status	Last inspection report dated 24/01/2018, by Area FID rated the firm operating at a very good level of GMP compliance.
	Remarks of the Evaluator. AD(PEC-XII)	1. Application is received on Form-5 instead of Form 5-F. 2. Vitamin D3 used in the formulation is above UL, as the upper tolerable intake level of vitamin D is 10000IU (250mcg) while the used amount is 4000mcg same amount is used in me-too also.
	Decision: Deferred as the quantity of Vitamin D3 used in the composition is above upper tolerable intake level (UL). Furthermore Registration Board directed M/s. GSK OTC for justification of existing formulation of CaC-1000 Plus Effervescent Tablet for quantity of Vitamin D3 as it is upper tolerable intake level (UL). Application is required to be submitted on Form5F and will be considered on its turn.

	Brand Name +Dosage Form + Strength	METHOTREXATE for IV injection 50mg/vial Freeze dried cake for solution for injection (Lyophilized Powder)
	Composition	Each vial contains: Methotrexate…. 50mg
	Finished Product Specification	USP
	Pharmacological Group	L04AX Other immunosuppressants
	Shelf life	24 Months
	Demanded Price	As per SRO
	Pack size	1's
	International Availability	USFDA Approved
	Me-too status	Methogen by Gene Tech Laboratories
	Stability studies	
	Detail of certificates attached	• Original legalized CoPP (certificate No. (20150006) issued by Shanxi Food and Drug Administration valid till 31/08/2017 *declaring the free sale of applied product and GMP compliant status of the manufacturer.*
	Remarks of the Evaluator.	Reason for Discontinuation cannot be confirmed. The formulation in other reference countries is registered as solution for injection. Firm has initially submitted real-time stability data conducted at 25 ± 2oc and 65 ± 5%RH, letter was issued to submit stability study data conducted according to the conditions of zone IV-A. In response to the letter firm has submitted stability data sheet specifying stability conditions as 30 ± 2oc and 65 ± 5%RH with same results at each time point.
	Decision of 274th meeting of Registration Board: Registration Board deferred the cases for: a. Submission of clarification regarding since the data/assay values in the stability studies are unjustifiable/irrational as there is no difference in assay values of initially submitted stability data (at 25 ± 2oc and 60 ± 5%RH) and the stability data submitted after issuance of letter (at 30 ± 2oc and 65 ± 5%RH). Since this ambiguity shows that the revised data (at 30 ± 2oc and 65 ± 5%RH) is not true b. Detail of diluent to be used for reconstitution. c. Evidence of approval of the product in reference regulatory authorities in the same	

	strength/volume/dosage form. d. Original, legalized and valid CoPP Evaluation by PEC: a. The firm has submitted Real Time Stability data (24 months) and Accelarated stability data (6months) of 3 batches (1845027 Mfg date:June5, 1845028 Mfg date: June 6, 2017, 1845029 Mfg date:June 07 2017). However, the firm has not submitted any reply/clarification regarding previously submitted stability data of the same product. b. Detail of diluent used for reconstitutions are 5% dextrose or 0.9% NaCL. c. The product approved in USFDA with same strength and dosage form that is 50mg Powder For injection is discontinued and reason for discontinuation is mentioned on the official website of the authority while 50mg/2ml solution for injection is approved in USFDA. However, another higher strength is approved in USFDA, Methotrexate For Injection by M/s Fresenius Kabi USA (Each vial contains Methotrexate as sodium.....1000mg with no preservative). Moreover, USP monograph for Methotrexate For Injection is also available. d. Original legalized CoPP (certificate No. (2018002) issued by Shanxi Food and Drug Administration valid till 26/02/2020 declaring the free sale of applied product and GMP compliant status of the manufacturer.	
	Decision: Registration Board deferred the case and decided that Secretary Registration Board will confirm from manufacturer M/s Shanxi PUDE Pharmaceutical Co., Ltd (Marketing Authorization Holder) via e-mail regarding authenticity of the latest submitted stability data.

	Stability studies	
	Detail of certificates attached	• Original legalized CoPP (certificate No. 151100B0/47074) issued by Jining Food and Drug Administration valid till 16/09/2017 **declaring the free sale of applied product and GMP compliant status of the manufacturer.**
	Remarks of the Evaluator.	• The firm has claimed In House manufacturing specifications and the product is present in USP. • The product is not available in reference countries as Powder for Solution but it is available as Solution for injection. • Firm has initially submitted real-time stability data conducted at 25 ± 2oc and 65 ± 5%RH, letter was issued to submit stability study data conducted according to the conditions of zone IV-A. In response to the letter firm has submitted stability data sheet specifying stability conditions as 30 ± 2oc and 65 ± 5%RH with same results at each time point
	Decision of 274th meeting of Registration Board: Registration Board deferred the cases for: d. Submission of clarification regarding since the data/assay values in the stability studies are unjustifiable/irrational as there is no difference in assay values of initially submitted stability data (at 25 ± 2oc and 60 ± 5%RH) and the stability data submitted after issuance of letter (at 30 ± 2oc and 65 ± 5%RH). Since this ambiguity shows that the revised data (at 30 ± 2oc and 65 ± 5%RH) is not true e. Detail of diluent to be used for reconstitution. f. Evidence of approval of the product in reference regulatory authorities in the same strength/volume/dosage form. Now the firm has submitted: c. In response to decision of Registration Board the firm has submitted data dated 13th December 2019 of three batches is submitted. Different years but same batch no., assay and other parameters as well.	

	d. Reference formulation is Each vial with 5 ml contains 100 mg Irinotecan hydrochloride trihydrate (UK) while applied is Each ampoule (5ml) contains: Irinotecan…… 100mg CoPP valid till 16-09-2017	
	Evaluation by PEC: e) The composition of the product as presented in 274th meeting is not correct, the correct composition of the product is given in the following confirmed from the original dossier. Each 2ml Ampoule contains: Irinotecan hydrochloride trihydrate……20mg (equivalent to Irinotecan……17.33mg) f) Approval status of the product in reference regulatory authorities is confirmed. CAMPTO 20 mg/ml concentrate for solution for infusion (2ml Vial, 5ml Vial, 15ml Vila) by M/s Pfizer limited, MHRA Approved. g) The firm has submitted 24 months Real time stability and 06 months Accelerated stability data of 3 batches (1977803 Mfg date: Oct 23, 2017, 19277804 Mfg date: Oct 24, 2017, 19277805 Mfg Date: Oct 25, 2017). However the firm has not submitted the reply/clarification regarding previously submitted stability data. h) COPP is not valid and was expired on 16/09/2017.	
	Decision: Registration Board deferred the case and decided that Secretary Registration Board will confirm from manufacturer M/s Shanxi PUDE Pharmaceutical Co., Ltd (Marketing Authorization Holder) via e-mail regarding authenticity of the latest submitted stability data.	
452.	Name and address of Applicant	M/s Mehran International, Pliva Avenue Hume Road Near World Map, Karachi, Pakistan

1.1		Covering Letter and Fee Deposit Slip Submitted Dy. No 23130 Dated 08-11-2019 PKR: 100,000/- dated 07-11-2019
1.2		Table of Contents (From Module 1 to Module 5) Submitted
1.3		Applicant Information Submitted
	1.3.1	Name, address and contact details of Applicant / Marketing Authorization Holder: M/s Getz Pharma (Pvt.) Limited Plot No. 29-30, Sector 27, Korangi Industrial Area, Karachi
	1.3.2	Name, address and contact details of Manufacturing site. Manufacturing & Product License Holder: M/s Shanghai Hengrui Pharmaceutical Co., Ltd. No. 279, Wenjing Road, Minhang Development Zone, Shanghai, P.R China
	1.3.3	Specify whether the Applicant is: Importer
	1.3.4	Drug Sale License Drug License by way of Wholesale No. 00774 valid upto 16-Aug-2020
1.4		Type of Application Submitted
	1.4.1	Application is for the registration of: Generic Drug Product
	1.4.1	Pharmaceutical product is intended for: Domestic sale
	1.4.2	For imported products, please specify one of following: Finished Pharmaceutical Product Import
1.5		Detailed Information of Drug, Dosage From & Labelling Claims Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug. Sevoflurane for Inhalation
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit **Sevoflurane 250ml**
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trademark certification / clearance. **SEVOF (Sevoflurane) Liquid for Inhalation 250ml**
	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. 1's (250ml) & MRP: Rs. 17,000/-
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) General anesthetic
	1.5.6	Pharmacopoeial reference / Status of applied formulation USP
	1.5.7	Route of administration Inhalation
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price Sevorance Volatile Liquid For Inhalation of M/s ABBOTT LABS
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. Sevoflurane 100% Inhalation Vapour, liquid (UK)
	1.5.10	Dosage form of applied drug Inhalation anesthetic 250ml
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens

		Submitted
	1.5.12	Description of Batch numbering system
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & Adverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard.
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined. Submitted
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so.
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant. Submitted
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals. Submitted
	1.5.20	Other commitment e.g., regarding stability studies etc.
	1.5.21	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.
	1.5.22	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
1.6		Miscellaneous Information Submitted
	1.6.5	Drug Substance related Document including following: Name and address of API manufacturer. M/s Jiangsu Hengrui Medicine Co., Ltd. No. 22, Jinqiao Road, Dapu Industrial Zone Lianyungang, Jiangsu Province, P.R. China
	• Original Legalized CoPP (Certificate#. 20190197) dated 27-08-2019 issued by Shanghai Municipal Medical Products Administration 728 Yishan Road, Shanghai, China declaring the free sale of applied product and GMP compliant status of the manufacturer. This certificate valid until: 26-08-2021. • Copy of Product specific Authorization letter from product License holder is submitted.

	3.2.P.8.3	Stability Submitted
		Firm has submitted three batches long term stability data 3 batches 36 months at 30 ± 2^0C, 75±5%RH and 6 months at 40^0C±75%RH for three batches.

i. Original Product Specific Sole Agency agreement submitted.
ii. Firm claim that Drug product contains only sevoflurane therefore USP specification monograph of drug substance is applicable.
iii. The firm has requested for exemption from inspection and stated that the product is manufactured by M/s Shanghai Hengrui Pharmaceutical Co. Ltd. 279 wenjing road minhang district Shaghai 200245 has also been approved by USFDA and the product is also approved by USFDA. The firm has provided original CoPP indicating that the manufacturer of the product was complying to FDA cGMP at the time of inspection.

Decision: Approved as per Policy for inspection of Manufacturer abroad.

	3.2.P.8.3	Stability Submitted
		Firm has submitted three batches long term stability data 24 months at 30 ± 2^0C,75%RH and 6 months at 40^0C±75%RH.
Remarks of Evaluator: i. CoPP is issued by HEALTH & FAMILY WELFARE DEPARTMENT BADDI, HIMACHAL PRADESH. ii. Product specific sole agency agreement is not submitted.		
Decision: Deferred for following: • **Submission of product specific sole agency agreement** • **Clarification regarding the CoPP issuing authority.**		

456. **M/s Atco Pharma International Pvt. Ltd. B-18, S.I.T.E, Karachi (FORM 5-F)**

MODULE 1: ADMINISTRATIVE

Section	Sub-Section	Heading
1.1		Covering Letter and Fee Deposit Slip Submitted Dy. No 13555 Dated 30-07-2019 (Rs. 100,000/- Dated 24-07-2019)
1.2		Table of Contents (From Module 1 to Module 5) Submitted
1.3		Applicant Information Submitted
	1.3.1	Name, address and contact details of Applicant / Marketing Authorization Holder: M/s Atco Pharma International Pvt. Ltd. B-18, S.I.T.E, Karachi
	1.3.2	Name, address and contact details of Manufacturing site. Manufacturer & Product License Holder:

		M/s Fresenius Kabi Oncology Limited, Village Kishanpura, P.O Guru Majra, Tehsil: Nalagarh. Solan Himachal Pradesh, In-174 101, India
	1.3.3	Specify whether the Applicant is: □ Importer
	1.3.4	**Drug Sale License** Drug License by way of WholeSale no. 10573 valid till 23-Jan-2020 apply for renewal receipt dated 16-01-2020
	1.3.8	Manufacturer's Site Master File and Credential (for importer) Submitted
1.4		Type of Application Submitted
	1.4.1	Application is for the registration of: Generic Drug Product Oxitan 100mg/20ml Injection
	1.4.1	Pharmaceutical product is intended for: □ **Domestic sale**
	1.4.2	For imported products, please specify one of following: □ **Finished Pharmaceutical Product Import**
1.5		Detailed Information of Drug, Dosage From & Labelling Claims Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug. Oxaliplatin Injection USP
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit 5mg/ml (100mg/20ml)
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trademark certification / clearance. **Oxitan Injection 100mg/20ml**
	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. 1's
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) Anticancer
	1.5.6	Pharmacopoeial reference / Status of applied formulation USP
	1.5.7	Route of administration Injection
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price. Oxaltie 100 Injection of M/s Ferozsons
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. **OXALIPLATIN 100MG/20ML (5MG/ML) (USFDA)**
	1.5.10	Dosage form of applied drug Injection
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens Submitted
	1.5.12	Description of Batch numbering system
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & A0dverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was

		not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard. **Submitted**
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined. **Submitted**
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so. **Submitted**
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant. **Submitted**
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals. **Submitted**
	1.5.20	Other commitment e.g., regarding stability studies etc.
	1.5.21	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.
	1.5.22	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
1.6		Miscellaneous Information Submitted
	1.6.1	Information on Prior-related Applications
	1.6.2	Appendix
	1.6.3	Electronic Review Package
	1.6.4	QIS (Quality Information Summary)
	1.6.5	Drug Substance related Document including following: Name and address of API manufacturer. Approval of manufacturing facility of API by regulatory body of country and validity. M/s Fresenius Kabi Oncology Limited, India
	• **Original Legalized CoPP (Certificate#. HFW-H (Drug) 488/06 Vol-V/19-345)** dated 05-08-2019 by **HEALTH & FAMILY WELFARE DEPARTMENT BADDI, HIMACHAL PRADESH** declaring the free sale of applied product and GMP compliant status of the manufacturer. Certificate valid upto 28-08-2021.

3.2.P.8	STABILITY	
	3.2.P.8.1	Stability summary and conclusion (Finished Dosage Form) Submitted Stability protocol submitted
	3.2.P.8.2	Post-approval Stability Protocol and Stability Commitment Submitted
	3.2.P.8.3	Stability Submitted
		Firm has submitted three batches long term stability data (24 months) at 30±2^{0}C, 75% RH and 6 months at 40^{0}C±75%RH.
Decision: Approved as per Policy for inspection of Manufacturer abroad.		

458. **FORM 5-F**

MODULE 1: ADMINISTRATIVE

Section	Sub-Section	Heading
1.1		Covering Letter and Fee Deposit Slip Submitted Dy. No. 530 Dated 13-03-2019 (Rs. 100,000/- Dated 13-03-2019)
1.2		Table of Contents (From Module 1 to Module 5) Submitted
1.3		Applicant Information Submitted
	1.3.1	Name, address and contact details of Applicant / Marketing Authorization Holder: M/s Novartis Pharma (Pakistan) Limited, 15 West Wharf, Karachi
	1.3.2	Name, address and contact details of Manufacturing site.

		Product License Holder: Sandoz GmbH BiochemiestraBe 10 6250 Kundle Austria Manufacturer: M/s Ebewe Pharma Ges.m.b.H. Nfg. KG Mondseestrasse 11, 4866 Unterach am Attersee, Austria
	1.3.3	Specify whether the Applicant is: Importer will import from Austria.
	1.3.4	Drug Sale License Drug License by way of Wholesale No. 0488 valid upto 26-Nov-2019 apply for renewed receipt dated 29-11-2019
	1.3.8	Manufacturer's Site Master File and Credential (for importer)
1.4		Type of Application Submitted
	1.4.1	Application is for the registration of: Generic Drug Product
	1.4.1	Pharmaceutical product is intended for: Domestic and Export sale
	1.4.2	For imported products, please specify one of following: Finished Pharmaceutical Product Import
1.5		Detailed Information of Drug, Dosage From & Labelling Claims Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug. Brand (Proprietary) name: Fulvestrant Sandoz Chemical name: Fulvestrant
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit **Each pre-filled syringe Contains: Fulvestrant 250mg/5mL**
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trademark certification / clearance. **Fulvestrant Sandoz**
	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. 1 pack of 1PFS, 1 pack of 2PFS & As per DPC
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) Anti-cancer
	1.5.6	Pharmacopoeial reference / Status of applied formulation Firm claim Innovator's specification
	1.5.7	Route of administration Parentral
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price. Not available
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. USFDA Approved
	1.5.10	Dosage form of applied drug Pre-filled syringe
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens Submitted
	1.5.12	Description of Batch numbering system Submitted
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects,

		Precautions, Dosage & A0dverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard. Submitted
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined. Submitted
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so. Submitted
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant. Submitted
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals. Submitted
1.6		Miscellaneous Information Submitted
	1.5.5	Drug Substance related Document including following: Name and address of API manufacturer: M/s Sicor S.R.L. Via Terrazzano 77 Italy 20017 rho, Milano
	• Original Legalized CoPP (No. 11787402) dated 21st Feb. 2019 issued by federal office for security in health care Traisengasse 5 1200 vienna, Austria declaring the not-free sale of applied product in exporting country but confirm the GMP compliant status of the manufacturer. • Original Legalized CoPP (No. 19001494) dated 01-03-2019 issued by Swissmedic declaring the free sale of applied product in Switzerland and the GMP compliant status of the manufacturer. • Copy of Sole agency agreement with product license holder is submitted.

3.2.P.8	STABILITY	
	3.2.P.8.1	Stability summary and conclusion (Finished Dosage Form) Submitted Stability protocol submitted
	3.2.P.8.2	Post-approval Stability Protocol and Stability Commitment Submitted
	3.2.P.8.3	Stability Submitted
		Firm has submitted three batches long term stability data (24 months) at 5 ± 3^0C and 6 months at 25^0C±60%RH for three batches.

Remarks of Evaluators:

i. Copy of Letter of authorization from product license holder is submitted.
ii. QOS as per Form-5F format?
iii. Submitted application is not as per Form-5F format.

Decision: Deferred for following:

- **Submission of complete Form 5F as per the guidelines of 293rd meeting of Registration Board.**
- **QOS as per WHO QOS-PD Template.**

Case No. 3: Routine Applicatins of Import (Veterinary)

459.	Name and address of Applicant	M/s Mustafa Brothers 186-D, People colony No.i, Faisalabad 38090, Pakistan
	Detail of Drug Sale License	Address: M/s Mustafa Brothers 186-D, People colony No.i, Faisalabad 38090, Pakistan License to sell drug as distributor valid upto : 21-06-2020

	Detail of certificates attached	• **Original** Legalized CoPP Certificate No: 2286/2 Certifying Authority: District Government of Cologne, Deaprtment 24, Zeughausstrae 2-10, 50667 Cologne. (The name of issuing authority is included in the WHO list of "Competent authorities of countries participating in the WHO certification scheme on the quality of pharmaceutical products moving in international commerce" https://www.who.int/medicines/areas/quality_safety/regulation_legislation/certification/contacts/en/index1.html as accessed on 19-12-2018) Issue Date: 10-07-2018 Free sale in exporting country: Yes • GMP: No • Applicant of certificate: M/s Stragen Pharma GmbH, technologie Park Koln, Eupener Strasse 135-137, 50933, Cologne, Germany • Original legalized GMP Certificate Certificate no. HPF/FR/168/2017 valid upto 22-03-2020 **Manufacturer Address:** M/s CENEXI – Fontenay Sous Bois, 52, rue Marcel et Jacques Gaucher, 94120 Fontenay-sous-Bois, France **Issued by** French National Agency for Medicines and Health Products Safety.
	Remarks of the Evaluator: • Firm has submitted a Original legalized statement from M/s Stragen Pharma SA, Switzerland declaring M/s Stragen Nordic A/S Denmark (Product License Holder) an affiliate of M/s Stragen	

	Pharma SA, Switzerland. The statement further grants the M/s Pharmatech Pakistan (Pvt.) Ltd, right to register and to commercialize, the finished product in Pakistan under Stragen Pharma's trademark. • Applicant for COPP is different from Product License Holder. • Only Long term stabilities data for three batches as per Zone IV-A conditions have been submitted by applying bracketing principle on 5ml & 20 ml ampoule.
	Decision of 289th meeting: Registration Board deferred the case for evaluation of bracketing principle applied by the firm on "long term stabilities data" in view of applicable ICH guidelines and presentation of complete details before the Board.
	Firm's response: Firm has now submitted accelerated stability data of three batches at 40°C/75% RH, while the long term stability data has already been submitted as per Zone-IV-A conditions. The results of one of the impurity i.e., 1,3-dimethylbarbituric acid are out of specifications at 6 month time point for all three batches for which firm has submitted following justification: "It is evident that product was stable till 3 months of studies at accelerated condition i.e., 40°C+2°C & 75% + 5%. Only one of the related substances is out of specification s at 6 month time point, while rest of the parameters are within specifications. Therefore it could be inferred that applied product could handle short term excursions outside the label; storage condition, e.g., during shipping or handling, since maximum time required for the shipment of stock from manufacturer to the local facility in Pakistan will be two weeks."
	Decision: Approved as per Policy for inspection of Manufacturer abroad.

Case no. 07 Registration applications of drugs for which stability study data is required to be verified (Routine)

DOCUMENTS / DATA PROVIDED BY THE APPLICANT	
Documents To Be Provided	**Status**
COA of API	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has provided copy of GMP certificate (Certificate#19061470) issued by FDCA Gujarat for M/s CTX Life Sciences Pvt. Ltd., Block No. 251/P,252/P, 253 to 255, 256/P,258/P,276/P,277,278/P,279 to 282,283/P,284/P, GIDC, Sachi City, District Surat, Gujarat state, India. Valid Up to 01-07-2022.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	• Copy of invoice (Invoice No. El/3082100200) for 0.163 Kg of Apixaban has been submitted attested by Assistant Director DRAP, Karachi, dated 27-07-2018.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes

Commitment to follow Drug Specification Rules, 1978.	Yes

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Ixaban 2.5mg and 5mg (Apixaban) Tablets by M/S. Martin Dow Limited, Plot No. 37, Sector 19, Korangi Industrial Area, Karachi.

Reference No: F.1-2/2020-PEC : Dated 18th February, 2020.

Investigation Date and Time: 15-04-2020 (Morning).

Investigation Site: Factory premises of M/S. Martin Dow Limited, Plot No. 37, Sector 19, Korangi Industrial Area, Karachi.

Composition of Panel:

1. Dr. Rafeeq Alam Khan, Dean Faculty of Pharmacy, Ziauddin University, Karachi, Member Registration Board, Islamabad.
2. Dr. Saif-ur-Rehman Khattak, Director / FGA, CDL, DRAP, Karachi.
3. Ms. Sanam Kausar, Assistant Director, CDL, DRAP, Karachi.

Detail of Investigation:

Sr. No.	Question	Observation by panel
1.	Do you have documents confirming the import of API?	The firm has imported 0.163kg Apixaban API from CTX Life Sciences Pvt, Ltd India. Batch No. 18AP00001 and has taken approval from DRAP-Karachi for import.
2.	What was the rationale behind selecting the particular manufacturer of API?	There is proper vendor qualification being implemented by the firm which include an audit by means of a questionnaire which is filled by the manufacturer, GMP Status, provision of DMF, reference standard, impurity standards etc. The firm was evaluated on above mentioned criteria and selected.
3.	Do you have documents confirming the import of API reference standard and impurity standards	The firm has documents confirming the import of API of said batches and working standards of the API and major impurities.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for API, reference standards of API and impurities.
5.	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate no. 19061470 and validity of **01/07/2022** for Apixaban manufacturer, issued by Food and Drug Control Administration Gujrat India.
6.	Do you use API manufacturer method of testing	The firm has used API manufacturer method of testing for API.
7.	Do you have stability studies reports on API?	The firm has stability studies reports on the API.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method and degradation products have been quantified
9.	Do you have method for quantifying the impurities in the API?	The firm has method for quantifying the impurities in the API.
10.	Do you have some remaining quantities of the API, its reference standard, and impurities standards?	The firm has remaining quantities of API, reference standards of API and impurities.
11.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients, including: Apixaban, Lactose anhydrous,

		microcrystalline cellulose pH 102, croscarmellose sodium, sodium lauryl sulfate and magnesium stearate.
12.	Do you have documents confirming the import of the used excipients?	The firm has documents confirming the import/purchase of all excipients used.
13.	Do you have test reports and other records on the excipients used	The firm has test reports and other records on the excipients used.
14.	Do you have written and authorized protocols for the development of Ixaban 2.5/5mg tablets?	The firm has written and authorized protocols for the development of Ixaban 2.5mg/5mg tablets
15.	Have you performed Drug excipient compatibility studies?	Drug-excipients compatibility studies were not performed as the firm has used the same excipients as of innovator.
16.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution studies of their products against innovator products (Eliquis by M/s Pfizer, USA) and their products have shown comparable dissolution profiles.
17.	Do you have product development (R&D) section	The firm has product development (R&D) section with equipment for manufacturing of tablet dosage form. The analytical part is performed on equipment dedicated for R&D activities.
18.	Do you have necessary equipment available in product development section for development of Ixaban 2.5mg / 5mg tablets?	The firm has necessary equipment for product development of Ixaban 2.5mg / 5mg tablets. The product in question has been packed using packing machine of commercial packaging. Furthermore, the analytical part has been performed via the dedicated quality control equipment & lab.
19.	Are the equipment in product development section qualified?	The available equipment in product development section are qualified.
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has SOP for the maintenance / calibration / requalification of equipment used in PD section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff which include One PhD Chemistry and six Pharmacists in product development section with relevant work experience.
22.	Have you manufactured three stability batches for the stability studies of Ixaban 2.5mg / 5mg tablets as required?	The firm has manufactured three consecutive stability batches for the accelerated and real time stability studies of • Ixaban (Apixaban) 2.5mg tablets with batch No. NPD-T-582-L,NPD-T-592-P,NPD-T-593-P having batch size of 2500 tablets each. The tablets are packed in Alu-Alu blisters of pack size 2x7's. • Ixaban (Apixaban) 5mg tablets with batch No. NPD-T-568-L,NPD-T-579-P,NPD-T-580-P having batch size of 2500 tablets each. The tables are packed in Alu-Alu blisters of pack size 2x7's.
23.	What was the criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability batches is the number of tablets per testing and the number of tablets required for whole stability testing.
24.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches. Necessary logbooks of equipment used has been available with the firm.
25.	Do you have protocols for stability testing of stability batches?	The firm has detailed protocol for stability testing of stability batches.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated their own method for testing of stability batches based upon the API testing method.

27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable
28.	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug?	The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of API and finished drug.
29.	Do your method of analysis stability indicating?	The firm's method of analytical testing has stability indicating parameters. The stability indicating nature of the testing method has been supported by forced degradation studies.
30.	Do your HPLC software is 21CFR compliant?	The HPLC software is 21CFR Compliant as per record available with the firm.
31.	Can you show Audit Trail reports on API and finished product testing?	The firm showed the audit trail reports on API and finished product testing.
32.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities for real time stability studies.
33.	Do you have commitment batches kept on stability testing?	The firm has completed accelerated stability testing on the three stability batches. The real time stability testing is in progress on all the three stability batches. Currently 06 months studies have been completed with satisfactory results.
34.	Do you have valid calibration status for the equipment used in API tablets production in analysis?	The firm has valid calibration status for the equipment used in production and analysis.
35.	Do proper and continuous monitoring and control are available for stability chamber?	Continuous power supply and monitoring are available for stability chambers.
36.	Do related manufacturing area, equipment, personnel, and utilities be rated as GMP compliant?	The related manufacturing area, equipment, personnel, and utilities be rated as GMP compliant.
37.	**Any Query of PEC:** Performance of content uniformity test at UV spectrophotometer, for all the trial batches of both strengths.	Since the product contains single API and lower strength of API is 2.5mg, which is easily quantifiable on UV spectrophotometery based on good absorptive at 225nm, therefore, UV spectrophotometeric method was employed due to heavy workload, for CU testing. Furthermore, the employed method was validated satisfactorily, where no interference of the excipients and diluents was noted during specificity testing as well.

Conclusions:

1. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Ixaban (apixaban 2.5mg and 5mg) tablets is verifiable to satisfactory level.
2. The related manufacturing area, equipment, personnel, and utilities are GMP compliant and well suited for the manufacturing of Ixaban (apixaban 2.5mg and 5mg) tablets.

Recommendations:

1. The firm may kindly be granted necessary registration of Ixaban (apixaban 2.5mg and 5mg) tablets.

Decision: Registration Board decided to approve registration of "Ixaban (Apixaban) 2.5mg tablets" and Ixaban (Apixaban) 5mg tablets by M/s Martin Dow Limited. Plot No. 37, Sector 19, Korangi Industrial Area, Karachi. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IV a conditions.

b. Exemption from onsite verification of stability data

Batch Size	2000 tablets	2000 tablets
Manufacturing Date	May-2019	Apr-2019

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

REMARKS OF EVALUATOR

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Empag tablet and provided the following documents in conjunction with the checklist approved by the Registration Board in its 293rd Meeting of Registration Board:

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board approved GLYZIA-XR Tablet range in its 285th Meeting of Registration Board (3rd–4th Oct. 2018), i. As per the record available with the firm their HPLC software is 21CFR Compliant. ii. Audit trail on the testing reports are available. iii. Continuous power supply and monitoring (data loggers) are available for stability chambers. The data is properly reviewed on daily basis.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	The firm has submitted certificate of analysis for API from both API Manufacturer and Finished Product manufacturer for the batch number of EPG20190102
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Commercial invoice of Empagliflozin approved by DRAP office, Karachi has been submitted as per following details **Invoice No.** | **Quantity Imported.** | **Date of approval by DRAP** 30206691 | 1.525 Kg | 08-03-2019
4.	Method used for analysis of API from both API manufacturer and Finished Product manufacturer.	Firm has submitted method of analysis of API from both API manufacturer as well as FPP manufacturer.
5.	Stability study data of API from API manufacturer.	Firm has submitted Accelerated stability studies reports of six months and 24months Long Term stability studies reports of three batches as per the conditions of zone IVA i.e Accelerated : 40 ± 2°C and 75± 5% Long Term : 30°C±2°C and 65±5%
6.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of GMP (ZJ20180032) for the M/s Zheijiang Hongyuan Pharmaceutical Co., Ltd. issued by China Food & Drug Administration valid upto 14-03-2023.
7.	Protocols followed for conduction of stability study.	Firm has submitted protocols for conduction of stability studies.
8.	Method used for analysis of FPP.	Firm has submitted drug product testing method wherein limits of dissolution has been set as per reference product approved by US FDAi.e., NLT Q in 15 minutes.
9.	Drug-excipients compatibility studies.	Firm has submitted that their formulation is as per reference product so they do not require drug excipient compatibility studies.
10.	Complete batch manufacturing record of three stability batches.	Firm has submitted batch manufacturing record of three batches of both strengths **Empag 10mg Tablet** Batch No. TR-472, TR-473, TR-474 **Empag 25mg Tablet**

		Batch No. TR-469, TR-470, TR-471
11.	Record of comparative dissolution data (where applicable).	Firm has submitted performed comparative dissolution profile studies of Empag 10mg & 25mg Tablet in 3 media including pH 1.2, pH 4.5, & pH 6.8 buffers with reference product JARDIANCE tablet manufactured M/s. Boehringer by Ingelheim Pharma GmbH & Co. KG Ingelheim am Rhein Germany. The results are comparable to that of the reference product
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted chromatograms, Raw data sheets, COA, summary data sheets of following batches: **Empag 10mg Tablet** Batch No. TR-472, TR-473, TR-474 **Empag 25mg Tablet** Batch No. TR-469, TR-470, TR-471
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted record of HPLC including audit trail reports for testing on the applied product
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers as mentioned below: Accelerated : 40 ± 2°C and 75± 5% Real Time: 30°C±2°C and 65±5%
Decision: Registration Board decided to approve registration of "Empag (Empagliflozin) Tablets 10mg" and "Empag (Empagliflozin) Tablets 25mg" by M/s AGP Ltd., Karachi. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.		
523.	Name and address of manufacturer / Applicant	"M/s Dyson Research Laboratories Pvt Ltd. 28 km Ferozepur Road Lahore"
	Brand Name +Dosage Form + Strength	Tapen 75mg Tablets
	Composition	"Each Film Coated Tablet Contains: Tapentadol as hydrochloride…….75mg"
	Diary No. Date of R& I & fee	Dy. No 1260 dated 27-10-2015 Rs. 50,000 Dated 26-10-2015
	Pharmacological Group	Analgesics, Opiods
	Type of Form	Form-5D
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	`
	Approval status of product in Reference Regulatory Authorities	Approved by USFDA
	Me-too status (with strength and dosage form)	-
	GMP status	Panel recommended issuance of GMP certificate on the basis of inspection dated 11-01-2019.
	Remarks of the Evaluator[II]	
524.	Name and address of manufacturer / Applicant	"M/s Dyson Research Laboratories Pvt Ltd. 28 km Ferozepur Road Lahore"
	Brand Name +Dosage Form + Strength	Tapen 50mg Tablets
	Composition	"Each Film Coated Tablet Contains: Tapentadol as hydrochloride…….50mg"
	Diary No. Date of R& I & fee	Dy. No 1258 dated 27-10-2015 Rs. 50,000 Dated 26-10-2015
	Pharmacological Group	Analgesics, Opiods
	Type of Form	Form-5D
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in	Approved by USFDA

	Reference Regulatory Authorities	
	Me-too status (with strength and dosage form)	-
	GMP status	Panel recommended issuance of GMP certificate on the basis of inspection dated 11-01-2019.
	Remarks of the Evaluator[II]	

Now the firm has submitted stability data detailed as under:

STABILITY STUDY DATA

Drug	Tapen tablets
Name of Manufacturer	M/s Dyson Research Laboratories Pvt Ltd. 28 km Ferozepur Road Lahore
Manufacturer of API	Tapentadol: M/s Nantong Chanyoo Pharmatech Co., Ltd, Jiangsu Province China
API Lot No.	Tapentadol: 6TDL 0220518
Description of Pack (Container closure system)	10's tablets packed in alu-alu blister pack.
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 12 months Accelerated: 6 months
Frequency	Accelerated: 0,1,2,3,4 & 6 months Real Time: 0,3,6 months

Product name	Batch Nos.	Batch size	Date of Mfg.	Date of initiation
Tapen 75mg Tablets	T01,T02,T03	1000 tablets	03-2019	19-03-2019
Tapen 50mg Tablets	T02,T03,T04	1000 tablets	03-2019	19-03-2019

REQUEST OF EXEMPTION ROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Tapen 50mg tablet & Tapen 75mg tablet and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting: (Dy. No: 21950 dated 25-10-2019)

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Sovir 400mg tablets", which was conducted on 06th February, 2018 and was presented in 279th meeting of Registration Board. Registration Board decided to approve registration of "Sovir tablet**"** by M/s Dyson Research Laboratories Pvt Ltd. 28 km Ferozepur Road Lahore. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Following two observations were reported in the report: i. The HPLC software is 21 CFR compliant. ii. Firm has demonstrated audit trail reports (assay analysis on HPLC) for the submitted stability batches.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	• Copy of commercial invoice to import Tapentadol HCl (0.912Kg) attested by AD, I&E DRAP, Lahore has been submitted. Detailed as under:

Batch No.	**Invoice No.**	**Date of approval by DRAP**
6TDL 0220518	Exp/872	04-01-2018

<table>
<tr><td>3.</td><td>Documents for the procurement of reference standard and impurity standards.</td><td>• Firm has submitted that “We received the reference standards along with the API, so there is no separate invoice of reference.</td></tr>
<tr><td>4.</td><td>Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.</td><td>• Copy of GMP certificate issued by DCA Telangana for the M/s Symed Labs Limited, Unit-VI, Survey No. 744, 745, 750, 751, 752 & 753, Mandollaguden (Village), Choutuppal (Mandal), Yadadri District, Telangana, India and valid upto 10-2021 has been submitted.</td></tr>
<tr><td>5.</td><td>Mechanism for Vendor pre-qualification</td><td>• The firm has submitted copy of document with title “Rationale for selection of Manufacturing of the API ‘Tapentadol HCl”</td></tr>
<tr><td>6.</td><td>Certificate of analysis of the API, reference standards and impurity standards</td><td>The firm has submitted certificate of analysis for API (Batch# 6TDL 0220518) and working standard.</td></tr>
<tr><td>7.</td><td>Documents for the procurement of excipients used in product development?</td><td>The firm has submitted photocopy of Purchase Order/Invoices for the procurement of excipients used in product development.</td></tr>
<tr><td>8.</td><td>List of qualified staff involved in product development with relevant experience.</td><td>The firm has submitted photocopy of List of R& D technical staff comprising of 7 technical members.</td></tr>
<tr><td colspan="3">Production Data</td></tr>
<tr><td>9.</td><td>Authorized Protocols/SOP for the development & stability testing of trial batches.</td><td>• The firm has submitted copy of Product Development Protocol & Stability study protocols for the Tapen 50mg & 75mg tablets.</td></tr>
<tr><td>10.</td><td>Complete batch manufacturing record of three stability batches.</td><td>The firm has submitted photocopy of Batch Manufacturing Record of three stability batches for the stability studies of Tapen 50mg & 75mg tablets such as.
<table>
<tr><th colspan="3">Tapen 50mg Tablets</th></tr>

</table>

	accelerated)	
13.	Method used for analysis of API along with COA.	The firm has submitted photocopy of raw material specifications, raw material testing procedures for Tapentadol HCl.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopy of Testing Method of Finished Product for Tapen 50mg & 75mg tablets along with relevant analytical record for stability studies.
15.	Reports of stability studies of API from manufacturer.	The firm has submitted stability studies reports on API as per Zone-IV-a conditions.
16.	Analysis reports for excipients used.	The firm has submitted photocopies of its Analytical reports for all excipients used in product development of Tapen tablet.
17.	Drug-excipients compatibility studies.	• The firm has submitted that drug excipient compatibility studies data is not applicable since firm has used qualitative innovator formulation.
18.	Record of comparative dissolution data.	• Firm has submitted comparative dissolution profile study for Tapen 75mg tablet against the me-too products of M/s Sami Pharmaceuticals, Karachi in three dissolution mediums of 0.1N HCl, pH 4.5 buffer and pH 6.8 buffer. • f_2 factor results are within acceptable limit • Firm has claimed exemption form the Comparative Dissolution study for Tapen 50mg tablets stating that the reference product Nucynta tablets 50mg and commercial pack of any of Pakistan brands is not available.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	• Firm has submitted audit trail reports of stability studies of applied formulations.

Remarks of Evaluator:

Sr.#	Observations	Response of firm
1	Submitted batch processing record declare the use of 2% overage in master formulation. Scientific Justification shall be submitted in for the use of 2% overage.	The 2% overage is included to compensate process losses during manufacturing. The batch size is lab scale (1000) tablets. The amount of active is 50 mg and 75 mg per tablet and 2% overage amount to 1 mg and 1.5 mg per tablet respectively. The Overage was not added to compensate any Potency loss during study.
2	Significant change (variation of more than 5% than the initial value) has been observed in the assay results of Batch # T03 of Tapen 50 mg tablets during accelerated stability studies at the 3rd and 4th month time point. Justification shall be submitted in this regard.	We request to consider the following points as justification of not performing study on intermediate conditions of stability: **1)** The assay value of 102.37% (initial time point) and 96.97% (3rd month time point) when rounded off become 102% and 97% respectively, so the net difference between assay value is 5% i.e., NMT 5%. **2)** Assay value of last time point (i.e., 6th month) is 98.57%. So the ultimate difference from initial assay (102.37%) is3.8% (i.e., NMT 5%).

Decision: Registration Board decided to approve registration of "Tapen (Tapentadol as hydrochloride) 75mg Tablets" and "Tapen (Tapentadol as hydrochloride) 50mg Tablets" by M/s Dyson Research Laboratories Pvt. Ltd. 28 km Ferozepur Road Lahore. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVA conditions.

</table>

Remarks of Evaluator:

Sr. #	Observations	Response of firm
1	Submitted batch processing record declare the use of 3% overage in master formulation. Scientific Justification shall be submitted in for the use of 3% overage.	The assay result of API Obeticholic acid performed by us was 99.43%. So in order to compensate it to 100% we added 0.5% overage. Furthermore, the 2.5% overage is included to compensate for process losses during manufacturing. The batch size is lab scale (1500) tablets. The amount of active is 5 mg and 10 mg per tablet and 3% overage amount to 0.15 mg and 0.3 mg per tablet respectively. The Overage was not added to compensate potency loss during study.
3	Comparative dissolution profile of applied formulation with reference product shall be submitted.	Exemption claimed from study of Comparative Dissolution because the reference product Ocaliva tablets for Comparative Dissolution Profile is not available/marketed in Pakistan. DRAP already approved products of likewise cases. Firm has referred to the case of "Nib-Sol-AF tablet" of M/s Wilson Pharmaceuticals, approved in 291st meeting of Registration Board.
4	Firm has submitted Dissolution limits of 75% (Q) in 45 minutes, while the chemistry review by the CDEER of USFDA for the reference product "Ocaliva" declares the acceptance criteria of Q for dissolution at 15 minutes. Justification shall be submitted for the submitted dissolution specification in terms of time.	The firm has now submitted dissolution analysis data for two batches of each strength at both long term and accelerated stability study with the dissolution limits of NLT 75% (Q) in 15 minutes in compliance to the decision of 293rd meeting of Registration Board for rapidly dissolving drugs. Details of the newly manufactured batches are as under:

Obcholic 10mg Tablets		
Batch No.	**Date of Mfg.**	**Batch Size**
T03-B	03-2020	500 tablets
T04	03-2020	500 tablets
Obcholic 5mg Tablets		
Batch No.	**Date of Mfg.**	**Batch Size**
T03-B	03-2020	500 tablets
T04	03-2020	500 tablets

Decision: Registration Board decided to approve registration of "Obcholic (Obetichloic Acid) 5mg Tablets" and "Obcholic (Obetichloic Acid) 10mg Tablets" by M/s Dyson Research Laboratories Pvt. Ltd. 28 Km Ferozepur Road Lahore. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

Case no. 08 Miscellaneous cases

I. Registration application Under WHO Collaborative Procedure for Accelerated Registration

Pakistan became signatory of WHO Collaborative Procedure for Accelerated Registration on 23rd February 2018. The collaborative registration procedure serves to facilitate and accelerate national registration of pharmaceutical products which the WHO Prequalification of Medicines Team (WHO/PQT) has already assessed and prequalified. Under this agreement, WHO/PQT assessment and inspection reports will be shared with DRAP on requirement. DRAP Authority in its 57th meeting held on 27th March, 2018 endorsed the signing of agreement between DRAP and WHO-PQ and gave its consent to proceed further.

Subsequently the Registration Board in its 289th meeting held on 14-16 May, 2019, while appreciating the steps taken by DRAP for adopting internationally harmonized regulation and signing agreement with international health partners, endorsed procedure for the processing of such applications in line with WHO Technical Report Series (TRS).

Accordingly following application of a WHO prequalified product has been submitted, which is evaluated and submitted for consideration of Registration board.

	Name, address of Manufacturing site.	M/s PT. SANBE FARMA Unit 3 Sterile Preparation Plant Jl. Industri Cimareme No. 8, Desa Cimareme, Kecamatan Ngamprah, Kabupaten Bandung Barat-Indonesia
	Country of origin	Republic of Indonesia
	Status of the applicant	☐ Manufacturer ☒Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy.# 28302 dated 26-12-2019
	Details of fee submitted	Rs. 100,000/- vide deposit slip# 1996665 dated 26-12-209
	The proposed proprietary name / brand name	**Santocyn**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Oxytocin ….. 10 IU
	Pharmaceutical form of applied drug	Liquid Injectable
	Pharmacotherapeutic Group of (API)	Hormone ATC code: H01BB02
	Reference to Finished product specifications	BP specifications.
	Proposed Pack size	1 x 10’s
	Proposed unit price	As per DPC
	The status in reference regulatory authorities	Approved by US FDA
	For generic drugs (me-too status)	Product: Oxytocen Manufacturer: S.J & G. Fazul Ellahie (Pvt.) Ltd. Reg.#: 021223
	Name and address of API manufacturer.	Joint Stock Company “Grindeks” 53 Krustpils Street, Riga, LV 1057, Latvia
	Details of Certification submitted	**COPP:** Original Legalized COPP Has Been Submitted. **Certificate No**. RG.01.05.32.321.08.19.0646 **Issued By:** National Agency For Drug And Food Control, Republic Of Indonesia. **Issue Date:** 05-08-2019 **GMP Status:** Endorsed **Free Sale Status In Country Of Origin:** Endorsed. **Product License Holder:** M/S PT. SANBE FARMA, Jl. Industri Cimareme No. 8, Desa Cimareme, Kecamatan Ngamprah, Kabupaten Bandung Barat-Indonesia **Letter Of Authorization:** Original Legalized Letter Of Authorization has Been Submitted From PT Sanbe Farma-

	Indonesia in the name of "The Searle Company ltd." having the registered office at 1st floor N.I.C.L Building Abbasi Shaheed Road off: Shahrah-e-e faisa Karachi-75530 for the product "Santocyn solution for injection"
WHO prequalification reference number:	RH050
Module-II (Quality Overall Summary)	Firm has module II as per WHO QOS PD template
Module-III:	Submitted.
Pharmaceutical Equivalence Data	Firm has submitted pharmaceutical equivalence data in comparison with the innovator product
Analytical method validation/verification of product	Firm has submitted analytical method verification data.
Stability study data of finished product.	The firm has submitted 36 months long term stability data at 2-8°C and 6 months accelerated stability data at 25°C/60%
Storage conditions	Store the ampoules refrigerated (2-8°C) in the original cartons protected from light. Do not freeze.
Shelf life	18 months

Remarks of Evaluator:

Exchange of following requisite documents have been done as required by the procedure decided by Registration Board in its 289th meeting, for Registration application Under WHO Collaborative Procedure for Accelerated Registration

- Appendix 3 Part A, Applicant's expression of interest in application of the procedure.
- Appendix 2, Prequalification holder's consent to information-sharing
- Fee and the complete information required under Module 1 of DRAP CTD template
- Appendix 3 Part B submitted by DRAP to WHO for communicating its decision to apply the procedure.
- WHO granted access to the WHO reports for the applied product on 26-03-2020.

Following observations were shared with WHO to seek clarification regarding assigned shelf life to which WHO replied as under:

Sr.#	Observation from PEC	WHO response
1.	When the significant change was reported in the Assay test at accelerated stability conditions, for new batches manufactured without 5% overage than how the shelf life was extrapolated to 18 months while the ICH Q1E guidelines state as under: "***2.5.1.2 Significant change at accelerated condition:*** If significant change occurs between 3 and 6 months' testing at the accelerated storage condition, the proposed retest period or shelf life should be based on the long-term data. Extrapolation is not considered appropriate. In addition, a retest period or shelf life shorter than the period covered by long-term data could be called for. If the long-term data show variability, verification of the proposed retest period or shelf life by statistical analysis can be appropriate. If significant change occurs within the first 3 months' testing at the accelerated storage condition, the proposed retest period or shelf life should be	Please note shelf life was assessed on the basis of the primary 36 months long term stability data at 2-8°C and 6 months accelerated stability data at 25°C/60% RH for the 3 batches of FPP with 5% overage and the additional supportive data on the retained samples as well as the six months accelerated and long term data reported on the three new batches manufactured without the overages. From the primary data, significant change in assay results was seen for one batch (5% decrease) with lowest assay result at 36 months for 3 batches being 101.3%. Based on this, it was concluded that assay would exceed the lower limit of 90% even in the absence of an overage at 36 months. However, since there was no 24 months stability data generated with FPP batches manufactured without the 5% overage to

	based on long-term data. Extrapolation is not considered appropriate. A retest period or shelf life shorter than the period covered by long-term data could be called for. If the long-term data show variability, verification of the proposed retest period or shelf life by statistical analysis can be appropriate. In addition, a discussion should be provided to address the effect of short-term excursions outside the label storage condition (e.g., during shipping or handling). This discussion can be supported, if appropriate, by further testing on a single batch of the drug substance or product at the accelerated condition for a period shorter than 3 months."	support the requested shelf life, it was considered prudent to assign 18 months shelf life. The applicant committed to continue stability studies on the 3 batches and to immediately report any out-of-specification results or significant changes during the study to WHO
2.	As per provided summary the short shelf-life (18 months) is appropriate for this product until significant data is provided on batches without overage, while the prequalification was granted on the 30th June 2017 and as per submitted stability schedule 18th month time point of long term was due in Feb 2017, suggesting at least 18 months data would have been available as of then, hence why the short shelf-life (18 months) wasn't extended, which was initially granted on the basis of 6 months stability data	The quality review was completed in October 2016. The final prequalification of the FPP was delayed up to June 2017 because of GMP considerations. Since the applicant did not request for extension of the shelf life, the product was prequalified with the 18 months shelf life accepted at the time of QA review.
3.	What is the current status of the shelf life of the product, when sufficient time has elapsed since the commencement of primary stability studies and also data from the commitment & ongoing stability bathes would have also been available?	The current shelf life of the FPP is 18 months. The applicant has not requested to extend the shelf life of the product. Further, there has been no communication from the applicant of any out-of-specification results or significant changes during the stability studies for batches RG3401, RG3422, RG3441 or for other ongoing stability batches.

Decision: Approved.

II. REPORT ON ASSESSMENT AND CONFIRMATION OF MANUFACTURING CAPACITY FOR CONTRACT MANUFACTURING.

General Information

Name of manufacturer	M/s. Novamed Pharmaceuticals (Pvt.) ltd.
Physical Address	28-Km Ferozepur Road, Lahore.
Manufacturing Enlistment No.	00590
Date of inspection	21-04-2020
Purpose of inspection	Assessment and confirmation of manufacturing capacity for contract manufacturing of different products with reference to DRAP, Islamabad letter No. F.1-2/2020-PEC dated 17-02-2020.
Dosage Form/Sections Included	i. Dry Powder Injection (Cephalosporin) Section ii. Dry Powder for Suspension (Cephalosporin) Section iii. Capsule (Cephalosporin) Section iv. General Liquid Injection (Ampoule) v. General Liquid Injection Vials (SVP)
Name of inspector (s)	i. Mr. Iftikhar Ahmed Chaudhry, Member Registration Board ii. Ms. Uzma Barkat, Assistant Director, DRAP, Lahore. iii. Ms. Maham Misbah, Assistant Director, DRAP, Lahore.
Name of Firm's Representative	i. Muhammad Adnan Jamil (Production Incharge)

(s) accompanying during inspection	ii. M. Jehangir (Quality Control Manager) iii. M. Asad Malik (Assistant Manager Regulatory) iv. Mirza Rasheed Ahmed (Regulatory Executive)

Manufacturing record/data was evaluated from **January 2019 to March 2020** for the said purpose. The details of capacity calculations are as under:

SECTION WISE CAPACITY CALCULATION

Capacity of Cephalosporin Injectable Section

Step wise capacity of Cephalosporin Injectable manufacturing	Capacity
Vial Washing - Per single shiftof 8 working hours (Load per Day)	40,000 vials
Vial Washing - Per month (22 working Days) with single shift of 8 working hours	880,000 vials
Depyrogenation Capacity- Per Single shift of 8 working hours (Load per Day)	20,000 vials
Depyrogenation Capacity- Per month (22 working Days) with single shift of 8 working hours	440,000 vials
Filling and SealingCapacity – Per single shift of 8 working hours(Load per Day)	20,000 vials
Filling and SealingCapacity – Per month (22 working Days) with single shift of 8 working hours	440,000 vials
Packing Capacity – Per single shift of 8 working hours	20,000 Packs (Vials)
Packing Capacity– Per month (22 working Days) with single shift of 8 working hours	440,000 Packs (Vials)

Note: Limiting step in this process is Depyrogenationprocess for calculating Utilized Capacity.

Quarter Wise capacity utilized in Tablet Section			
Quarter	**Actual Production (Vials)**	**Capacity (Vials)**	**Capacity utilized in (%)**
1st- 2019	758,269	1,320,000	57.44%
2nd-2019	709,315	1,320,000	53.74%
3rd-2019	516,176	1,320,000	39.10%
4th -2019	935,924	1,320,000	70.90%
1st - 2020	579,698	1,320,000	43.92%
Total	3,499,382	6,600,000	--
Average per quarter	699,876	1,320,000	53.02%

Manufacturing Capacity Utilized (Average)=53.02%
Manufacturing Capacity Available (Average) = 46.98%

Capacity of Cephalosporin DryPowder Suspension

Step wise Capacity of Cephalosporin Dry Powder Suspension	Capacity
Air Blowing Capacity - Per single shift of 8 working hours (Load per Day)	20,000 Bottles
Air Blowing Capacity Per month (22 working Days) with single shift of 8 working hours	440,000 Bottles
Mixing Capacity - Per single shift of 8 workinghours (Load per Day)	300 Kg
Mixing Capacity Per month (22 working Days) with single shift of 8 workinghours	6,600 Kg
Filling Capacity –	13,000 Bottles

Per single shift of 8 workinghours (Load per Day)	
Filling Capacity – Per month (22 working Days) with single shift of 8 workinghours	286,000 Bottles
Packing Capacity – Per single shift of 8 workinghours	13,000 Packs
Packing Capacity – Per month (22 working Days) with single shift of 8 workinghours	286,000 Packs

Note: Limiting step in this process is fillingprocess for calculating Utilized Capacity.

Quarter wise Capacity utilized			
Quarter	**Actual Production (Bottles)**	**Capacity (Bottles)**	**Capacity utilized in (%)**
1st- 2019	282,960	858,000	32.98%
2nd -2019	514,696	858,000	59.99%
3rd -2019	664,009	858,000	77.39%
4th -2019	574,167	858,000	66.92%
1st - 2020	193,281	858,000	22.53%
Total	2,229,113	4,290,000	--
Average per quarter	743,038	858,000	51.96%

Manufacturing Capacity Utilized (average) : 51.96%
Manufacturing Capacity Available (average) : 48.04%

Capacity of Cephalosporin Capsule Section

Step wise capacity of Capacity of Hard Gelatin Capsule Section	**Capacity**
Mixing Capacity - Per single shift of 8 workinghours (Load per Day)	300 Kg
Mixing Capacity Per month (22 working Days) with single shift of 8 workinghours	6,600 Kg
Filling Capacity – Per single shift of 8 workinghours (Load per Day)	384,000 Capsules
Filling Capacity – Per month (22 working Days) with single shift of 8 workinghours	8,448,000 Capsules
Blistering Capacity – Per single shift of 8 working hours	48,000 Packs (Blister size 5's= 240,000 Capsules)
Blistering Capacity – Per month (22 working Days) with single shift of 8 working hours	1,056,000 Packs
Packing Capacity – Per single shift of 8 working hours	48,000 Packs
Packing Capacity – Per month (22 working Days) with single shift of 8 working hours	1,056,000 Packs

Note: Limiting step in this process is Blistering Process for calculating Utilized Capacity.

Quarter Wise Capacity of Cephalosporin Hard Gelatin Capsule Section			
Quarter	**Actual Production (Capsules)**	**Capacity (Capsules)**	**Capacity utilized in (%)**
1st - 2019	677,953	3,168,000	21.40 %
2nd -2019	1,625,000	3,168,000	51.29 %
3rd -2019	2,195,711	3,168,000	69.31 %
4th -2019	924,775	3,168,000	29.19 %
1st - 2020	833,148	3,168,000	26.30 %
Total	6,256,587	15,840,000	--
Average per	1,251,317	3,168,000	39.50%

quarter			

Manufacturing Capacity Utilized (average) : ***39.50(%)***
Manufacturing Capacity Available (average) : ***60.50 (%)***

Capacity of Liquid Injectable Section (Ampoule)

Step wise capacity of Capacity of Liquid Injectable Section (Ampoule)Section	Capacity
Ampoule Washing - Per single shift of 8 working hours (Load per Day)	100,000 Ampoules
Ampoule Washing Per month (22 working Days) with single shift of 8 working hours	2,200,000 Ampoules
Ampoule Depyrogenation – Per single shift of 8 working hours (Load per Day)	100,000 Ampoules
Ampoule Depyrogenation – Per month (22 working Days) with single shift of 8 working hours	2,200,000 Ampoules
Mixing – Per single shift of 8 working hours (Load per Day)	1000 Litres
Mixing – Per month (22 working Days) with single shift of 8 working hours	22,000 Litres
Ampoule Filling – Per single shift of 8 working hours (Load per Day)	100,000 Ampoules (5ml)
Ampoule Filling – Per month (22 working Days) with single shift of 8 working hours	2,200,000 Ampoules (5ml)
Terminal Sterilization Per single shift of 8 working hours (Load per Day)	113,000 Ampoules
Terminal Sterilization Per month (22 working Days) with single shift of 8 working hours	2,486,000 Ampoules
Packing Capacity – Per single shift of 8 working hours	1's 100,000 Packs 5's 20,000 Packs 100's- 1500 Packs
Packing Capacity – Per month (22 working Days) with single shift of 8 working hours	1's- 2,200,000 Packs 5's – 440,000 Packs 100's- 33,000 Packs

Note: Limiting step in this process is Depyrogenation and Terminal Sterilization and all batch Sizes are designed according to these limitations.

Quarter Wise Capacity of Liquid Injectable Section (Ampoule)Section			
Quarter	**Actual Production (Ampoules)**	**Capacity (Ampoules)**	**Capacity utilized in (%)**
1st - 2019	2,426,300	6,600,000	36.76 %
2nd -2019	2,551,370	6,600,000	38.66 %
3rd -2019	3,506,578	6,600,000	53.13 %
4th -2019	3,200,961	6,600,000	48.50 %
1st - 2020	2,742,329	6,600,000	41.55 %
Total	14,427,538	33,000,000	--
Average per quarter	2,885,508	33,000,000	43.72%

Manufacturing Capacity Utilized (average) : ***43.72(%)***

Remarks on Additional Points

Some additional points mentioned in the inspection letter that were required to be addressed are given as follows:

1. Total number of registered products and registered products in aforementioned sections:

Total registered products :223
Registered products in aforementioned sections: 99
Existing contract manufactured products in aforementioned sections: 24
Sectionwise breakup and list of products are attached. **(ANNEX 1)**

2. Manufacturing, QC and IPQC testes performed on manufactured products:

The details of QC and IPQC tests performed on the products manufactured in aforementioned sections are as given in **ANNEX 2**.

3. Installed and utilized capacity of these sections:

The installed and utilized capacity of production in these sections, as provided by the firm, has been given in detail earlier in the report.

4. Installed and utilized capacity of QC Equipment as per pharmacopoeial reference:

The installed and utilized capacity of QC equipment used for testing of products related to these sections, as provided by the firm, has been given in detail earlier in the report.
List of technical personnel **(ANNEX 3)** and list of machinery/equipment **(ANNEX 4)** is attached with the report.

CONCLUSION

The manufacturing capacity (installed, utilized and unutilized) of M/s Novamed Pharmaceuticals Pvt Ltd, 28km Ferozepur Road, Lahore was assessed based on the data and record provided by the firm, interview of the personnel and visit of the premises.
The details along with the additional points have been given in the report for record and further necessary action.

Decision: Registration Board discussed the inspection report in details. Deliberations were made on used and available capacity keeping in view registered product, currently applied products and future products. After thorough deliberation, the Board decided to allow contract manufacturing from M/s Novamed Pharmaceuticals Pvt Ltd, 28km Ferozepur Road, Lahore for following sections:

i. **Dry Powder Injection (Cephalosporin) Section**
ii. **Dry Powder Suspension (Cephalosporin) Section**
iii. **Capsule (Cephalosporin) Section**
iv. **General Liquid Injection (Ampoule)**
v. **General Liquid Injection Vials (SVP)**

Case no. 06 Registration applications of drugs for which stability study data is submitted

a. New cases

b. Deferred cases

c. Verification of stability study data

Deferred case

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability / Local Availability GMP Inspection Report Date & Remarks
1072.	M/s. Vision Pharmaceuticals , Plot # 22-23, Industrial Triangle, Kahuta road, Islamabad	K-Fast 50mg Sachet Each Sachet contains:- Diclofenac Potassium....50mg NSAID Manufacturer's specification	Dy.No.2695; 21-01-2019; Rs.50,000/- 21-01-2019 30's As per SRO	CAMBIA (USFDA) approved. Last inspection conducted on 26-01-2018 and report concludes that firm was operating at Good level of GMP compliance.

STABILITY STUDY DATA

Drug	K-Fast 50mg Sachet		
Name of Manufacturer	M/s. Vision Pharmaceuticals , Plot # 22-23, Industrial Triangle, Kahuta road, Islamabad		
Manufacturer of API	Huixian Dongpu Chemicals co Ltd , China		
API Lot No.	20170520		
Description of Pack (Container closure system)	Paper coated aluminium sachet		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5% RH Accelerated: 40°C ± 2°C / 75% ± 5% RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3,6 (month) Real Time: 0,1,2 3,4,5,6 (month)		
Batch No.	NPD801(T-01)	NPD801(T-02)	NPD801(T-03)
Batch Size	1000 Sachet	1000 Sachet	1000 Sachet
Manufacturing Date	16-05-2018	17-05-2018	21-05-2018
Date of Initiation	23-05- 2018	24-05- 2018	25-05- 2018
No. of Batches	3		
Date of Submission	21-01-2019 (Dy. No. 2695)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr.	Documents To Be Provided	Status
1.	COA of API	Copy of COA Shanghai Pharma group Changzhou kony Pharmaceuticals co., Ltd is submitted
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP Certificate No.HN20160178 issued by Cfda is attached but could not verified from CFDA database
3.	Protocols followed for conduction of stability study and details of tests.	Yes

4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of Assistant Director (I & E) DRAP (Karachi) attested dated: 21-06-2018 Commercial Invoice No WIS180048 Dated:05-06-2018 is submitted.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

Certificate No on GMP certificate in China FDA database is for another manufacturer
GMP certificate of API manufacturer issued by regulatory authority of country of origin could not be confirmed from China FDA database.

Initially firm submitted stability data containing API Diclofenac Potassium from Huixian Dongpu Chemicals co Ltd, China. GMP of Huixian Dongpu Chemicals co Ltd, China can not be verified from CFDA database. Thereafter, the firm submitted new stability data with API source i.e Henan Dongtai Pharma co Ltd , China.

NEW STABILITY DATA SUBMITTED BY THE FIRM

Drug	K-Fast 50mg Sachet

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr.	Documents To Be Provided	Status
1.	COA of API	Copy of COA Henan Dongtai Pharma co Ltd , China is submitted
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP Certificate No.HA20170001 issued by CFDA is attached. Valid till 22-01-2022

3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of Assistant Director (I & E) DRAP (islamabad) attested dated: 09-01-2017 Commercial Invoice No DT1612132Y Dated: 11-01-2017 is submitted.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

The panel may be requested to verify and report about following point in addition to authenticity of stability data and associated documents,

Whether stability studies from both API sources performed. Initially firm submitted stability data containing API Diclofenac Potassium from Huixian Dongpu Chemicals co Ltd , China. GMP of Huixian Dongpu Chemicals co Ltd , China can not be verified from CFDA database. Thereafter, the firm submitted new stability data with API source i.e Henan Dongtai Pharma co Ltd , China .

Report on Inspection for verification of Authenticity/Genuineness of data submitted by M/s. Vision Pharmaceuticals (Pvt.) Ltd., Plot No. 22-23, Industrial Estate Triangle, Kahuta Road, Model Town, Islamabad for registration of K-fast 50mg (Diclofenac potassium) sachet

Inspection Date and Time: 17, 18 and 19 December, 2019

Inspection Site: M/s. Vision Pharmaceuticals (Pvt.) Ltd., Plot No. 22-23 Industrial Estate Triangle, Kahuta Road, Model Town, Islamabad.

Background:

M/s. Vision Pharmaceuticals (Pvt.) Ltd., Plot No. 22-23, Industrial Estate Triangle, Kahuta Road, Model Town, Islamabad applied for registration of K-fast 50mg (Diclofenac potassium) sachet with following composition:

K-fast sachet 50mg

Each sachet contains:-

Diclofenac potassium……50mg

Chairman Registration Board constituted a three member panel for on-site investigation to confirm the genuineness/authenticity of submitted stability data and associated documents, import of API, quality, specification, test analysis, facilities etc. Panel was requested to conduct inspection of the firm to verify the data submitted by the firm and to submit a report on approved format for further consideration of case by the Registration Board. The Chairman Registration Board further advised the panel to verify and report about following point:

Initially, the firm has submitted stability studies data containing API Diclofenac potassium imported from Huixian Dongpu Chemicals Co. Ltd, China. GMP of Huixian Dongpu Chemicals Co. Ltd, China cannot be verified from the official database of SFDA. Thereafter, the firm submitted new stability data with new API source Henan Dongtai Pharma Co. Ltd., China.

The Panel was requested to confirm whether the firm has conducted stability studies with each API from two different sources. It was clarified during audit that the firm conducted stability studies with API imported from M/s Henan Dongtai Pharm Co. Ltd., East Changhong Tangyin Henan, China only. The firm did not continue the studies with API imported from source M/s Huixian Dongpu Chemicals Co. Ltd, China and submitted the destruction record (Report no. 1725/NCR dated 22 March, 2019) of stability batches manufactured from this earlier source.

Composition of Panel:
Dr. Qurban Ali, (Member Registration Board).
Mr. Babar Khan, Area FID, DRAP, Islamabad.
Mr. Hanifullah, Assistant Director (PEC) DRAP, Islambad.

Scope of Inspection:
On-site investigation to confirm the genuineness/authenticity of submitted stability data and associated documents like import of API, quality specification and test analysis facilities etc.

Tools for Inspection:
The Inspection was conducted by using a structured questionnaire approved by DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data integrity and security of data in respective databases were also audited. The detail of inspection is summarized as under:
(Some of the observations have been highlighted as bold with bullet point against the respective question).

Q. No.	Question	Observation by panel
1.	Do you have documents confirming the import of API including approval from DRAP?	DICLOFENAC POTASSIUM Invoice Number: DT1612132Y Assistant Director (I & E) DRAP attestation date: 09.02.17 Exporter: M/s Henan Dongtai Pharm CO LTD, EAST CHANGHONG TANGYIN HENAN, CHINA Manufacturer: as above Batch No. 303161222-6 Mfg. Date: 22-12-2016 Exp. Date: 21-12-2020 Quantity: 300Kg
2.	What was the rationale behind selecting the particular manufacturer of API?	The firms provide the rational that Since Diclofenac Potassium is already being used at VISION PHARMACEUTICALS PVT. LTD. in the product Diclofenac Potassium 32% pellets since quite long, therefore, based on the track record of HENAN DONGTAI PHARM CO. LTD. the API source is validated and use of same source is preferred rather than going for an unknown source. The documents of source, HENAN DONGTAI PHARM CO. LTD., are more authentic. The firm has submitted a document comparing the parameters between two sources namely M/s Henan Dongtai Pharm Co. Ltd. China and M/s Huxian Doungpu Chemicals Co. Ltd. China. The document shows the concluding remarks that M/s Henan Dongtai Pharm Co. Ltd. China will be the preferred source with date of 28th August, 2018. While the firm mentioned the manufacturing date of 10th August 2018, 11th August 2018 and 14th August 2018 in the stability studies for the batch # NPD801 (T-01), NPD801 (T-02) and NPD801 (T-03) respectively. This means that the source was qualified after the API has been used in the manufacturing of Finished product batches.
3.	Do you have documents confirming the import of Diclofenac potassium reference standard and impurity standards?	The firm imported following reference standard and impurity standard: Diclofenac potassium primary reference standard from the USP (Lot No. R034L0) Order placing date: 08 June, 2018 Shipment date:11.06.2018 Commercial Invoice no. 31068571(Dated 11 June, 2018) AD attestation date 11.07.2018 Firm has also imported impurity (Diclofenac related compound A USP RS) for identification/quantification of specified impurities from Pharmaffiliates: Invoice no. EXP/2019-20/121 dated 21.06.2019 Lot no. PA/ACE/01109 AD attestation date 11.07.2018
4.	Do you have	The firm has submitted COAs of API, reference standards and impurity

<table>
<tr><td></td><td>certificate of Analysis of the API, reference standards and impurity standards?</td><td>standards as per details below:
Diclofenac potassium API from Henan Dongtai Pharm CO.LTD
(for Batch No.303161222-6)
Diclofenac potassium primary reference standard USP (Lot No. R034L0)
Diclofenac potassium Impurity A RS USP from Pharmaffiliates (Lot no. PA/ACE/01109).</td></tr>
<tr><td>5.</td><td>Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?</td><td>The firm has submitted copy of GMP certificate No:HA20170001 in the name of Manufacturer that is “M/s Henan Dongtai Pharm Co. Ltd, East Changhong Road, Tangyin County, Anyang City, China” for API Diclofenac Potassium USP issued by HeNan Province Food and Drug Administration.
Issuing date: 23-01-2017
Valid till: 22-01-2022
The name of city “Anyang” is mentioned on GMP while it is not mentioned on COA.</td></tr>
<tr><td>6.</td><td>Do you use API manufacturer method of testing for testing API?</td><td>The firm stated that they have used pharmacopoeial (USP) method for testing of API as per statement of API source.</td></tr>
<tr><td>7.</td><td>Do you have stability studies reports on API?</td><td>Firm has submitted data of long term stability studies of three batches 131118-5 (Mfg: 18th Nov, 2013), 131118-6 (Mfg: 18th Nov, 2013) & 131119-5 (Mfg: 18th Nov, 2013) conducted by the API manufacturer M/s Henan Dongtai Pharm Co Ltd, East Changhong Tangyin Henan, China, under conditions of Zone-IV A that is 30 Co + 2 Co & 65 % RH + 5 % (for real time studies) up to 48 months and 40 Co + 2 Co & 75 % RH + 5 % (for accelerated studies) up to 6 months for API namely Diclofenac potassium. The data submitted by the API manufacturer lies within the limits for the Assay & related impurities.

Parameter like pH, viscosity etc. have not been tested by API manufacture in its studies for stability.
Typo-mistake in limit of impurity A has been noticed that is “NMT 0.15 %” has been mentioned instead of “NMT 0.1 %” in stability studies of batch no. 131119-6 in real time studies.</td></tr>
<tr><td>8.</td><td>If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?</td><td>Since the manufacturer has conducted the stability studies using USP compendia in which they have quantified the impurities as per pharmacopoeia, which gives sense that the studies have been conducted as per SIM method.</td></tr>
<tr><td>9.</td><td>Do you have method for quantifying the impurities in the API?</td><td>Yes, they have used USP method for quantifying the impurities in the API.</td></tr>
<tr><td>10.</td><td>Do you have some remaining quantities of the API, its reference standard and impurities standards?</td><td>Yes, they have remaining quantities of the API, reference standard and impurities standards as per details given in the following table which have been verified by the panel during the visit:
<table>
<tr><th>Raw Material</th><th>Lot No.</th><th>Place of Consumption</th><th>Quantity</th></tr>
<tr><td rowspan="6">Diclofenac Potassium</td><td rowspan="3">303161222-6</td><td>NPD801(T-01)</td><td>50 gram</td></tr>
<tr><td>NPD801(T-02)</td><td>50 gram</td></tr>
<tr><td>NPD801(T-03)</td><td>50 gram</td></tr>
<tr><td>Total Quantity</td><td colspan="2">300kg</td></tr>
<tr><td>Quantity Consumed</td><td colspan="2">150grams</td></tr>
<tr><td>Remaining Quantity</td><td colspan="2">299.85kg (Rest used in commercial manufacturing)</td></tr>
</table></td></tr>
</table>

		<table><tr><th>Item Type</th><th>Lot No.</th><th>Total Quantity</th><th>Remaining Quantity</th></tr><tr><td>Diclofenac Potassium Reference Standard</td><td>R034LO</td><td>200mg</td><td>125mg</td></tr><tr><th>Item Type</th><th>Lot No.</th><th>Total Quantity</th><th>Remaining Quantity</th></tr><tr><td>Diclofenac Potassium Related Compound A</td><td>PA/ACE/01109</td><td>25mg</td><td>10mg</td></tr></table>
11.	Have you used pharmaceutical grade excipients?	The firm has used following excipients of pharmaceutical grade except flavors Anise and Mint: <table><tr><th>S. No.</th><th>Excipients</th><th>Pharma grade</th></tr><tr><td>1</td><td>Sucralose</td><td>BP</td></tr><tr><td>2</td><td>Mannitol</td><td>BP/USP/EP</td></tr><tr><td>3</td><td>Aspartame</td><td>BP</td></tr><tr><td>4</td><td>Potassium Hydrogen Carbonate</td><td>BP</td></tr><tr><td>5</td><td>Anise Flavour</td><td>Manufacturer's Specification</td></tr><tr><td>6</td><td>Mint Flavour</td><td>Manufacturer's Specification</td></tr></table> The firm has used flavors Anise and Mint which were of manufacturer's specifications.
12.	Do you have documents confirming the import of the used excipients?	The firm has imported only one excipient MANNITOL for the applied formulation through exporter M/s HANGZHOU STARSHINE PHARMACEUTICAL CO LTD (Room B2, 10F, Tianyuan Building, No.508 Wensan Road, Hangzhou, China) from the manufacturer M/s SHANDONG TIANLI PHARMACEUTICAL CO LTD (South of Anshun Street and West of Xingyuanxi Road, Gucheng subdistrict office, Shouguang, Shandong, China) with Batch No. 301802314, manufacturing date:15th Feb, 2018 Expiry Date: 14th Feb, 2020. The firm acquired following other raw material excipients from local suppliers as per details below: <table><tr><th>S.No</th><th>Excipient</th><th>Supplier</th><th>Batch No.</th></tr><tr><td>1.</td><td>Sucralose</td><td>Global</td><td>A17071614</td></tr><tr><td>2.</td><td>Aspartame</td><td>National</td><td>W 16121510</td></tr><tr><td>3.</td><td>Potassium Hydrogen Carbonate</td><td>Musaji Adam & Sons</td><td>PO201PD1</td></tr><tr><td>4.</td><td>Anise</td><td>Hamza</td><td>24151</td></tr><tr><td>5.</td><td>Mint</td><td>Hamza</td><td>24152</td></tr></table> The firm procured the excipient from local supplies. The firm has developed an SOP for vendor qualification but above listed suppliers are not included in the approved list of vendor suppliers.

<table>
<tr><td>13.</td><td>Do you have test reports and other records on the excipients used?</td><td>The firm has performed tests on the excipients as per details below:
<table>
<tr><th>S. No.</th><th>Excipients</th><th>Report No.</th><th>Release Date</th></tr>
<tr><td>1</td><td>Sucralose</td><td>0916/RM/17</td><td>15.12.2017</td></tr>

The firm did not acquire COAs of above excipient before purchase or during vendor qualifications. However, the firm provided COA of all excipients during audit.
The QC report for Sucralose have no signature of QA Manager for release of excipient.
Some tests done by source like tests for microorganism for Sucralose (artificial sweetner) but not performed by firm.</td></tr>
<tr><td>14.</td><td>Do you have written and authorized protocols for the development of K-FAST 50mg Sachet (Diclofenac Potassium)?</td><td>The firm has written and authorized protocols No.RD/PD/001 for the development of K-FAST 50mg Sachet (Diclofenac Potassium) in accordance with ICH Q-8 Pharmaceutical Development guidelines.</td></tr>
<tr><td>15.</td><td>Have you performed Drug-excipients compatibility studies?</td><td>The firm has not performed Drug-Excipients compatibility studies. They have submitted the reason/logic for this that as their formulation (API & Excipients) is similar/comparable to that of Voltfast sachet of Novartis Pharma, Switzerland approved by Swissmedics. The quantities of sweetening agents that is Sucralose and Aspartame were within safe limits as per USFDA inactive ingredient database.

The firm referred the product approved by the Swiss Medic which contains Aspartame and saccharine sodium. Hence, the firm should perform compatibility studies.</td></tr>
<tr><td>16.</td><td>Have you performed comparative dissolution studies?</td><td>The comparative dissolution studies have not been performed by the firm. However, the firm has performed comparative assay, LOD and pH studies in comparison with Voltfast to which firm is referring as reference product. This so-called reference product seemed approved by UAE drug agency as it contains UAE: NDC 4924-6116-01-03 & NAFDAC Reg. No. 04-9014. Though it is mentioned on box that it is manufactured by M/s Miphar S.p.A., Milan, Italy for M/s Novartis Pharma AG, Basle, Switzerland.

It was advised to the firm to perform comparative dissolution profile according to WHO guidelines in at least 3 different media of pH 1.2, 4.5 & 6.8 (to simulate the in vivo absorption site) in comparison with the reference product approved by reference drug agency.
The firm has been using sucralose and aspartame in the formulation while the product to which they are referring as reference product namely Voltfast contains aspartame and saccharine sodium.</td></tr>
<tr><td>17.</td><td>Do you have product development (R&D) section</td><td>The firm possesses a Research & Development (R&D) section for product development studies.</td></tr>
<tr><td>18.</td><td>Do you have necessary equipment available in product</td><td>Yes, the firm has following necessary equipment in R & D section though for the development of K-fast sachet. Following is the list of equipments.
<table>

<tr><td>Trial No 3</td><td>3 Kg</td><td>1000 Sachets</td><td>30 Packs</td><td>8 Packs</td><td>7 Packs</td><td>15 Packs</td></tr>
</table></td></tr>
<tr><td>24.</td><td>Do you have complete record of production of stability batches?</td><td>The firm has complete record of production of stability batches. The firm has shown the BMR of all three batches showing the complete history of manufacturing and testing of batches step by step:
<table>
<tr><td>NPD801 (T-01)</td><td>3 Kg</td></tr>
<tr><td>NPD801 (T-02)</td><td>3 Kg</td></tr>
<tr><td>NPD801 (T-03)</td><td>3 Kg</td></tr>
</table></td></tr>
<tr><td>25.</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm has controlled protocol no. SOR 03544 for testing the stability batches of applied formulation at 30 Co + 2 Co & 65 % RH + 5 % for real time studies and at 40 Co + 2 Co & 75 % RH + 5 % for accelerated studies with them.</td></tr>
<tr><td>26.</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm has used pharmacopoeia (USP) method of Diclofenc potassium tablets for testing of Diclofenac potassium sachet and validate this method through their method validation protocol No: MVP/032/2018 for batch No: NPD801. The firm has also submitted a report No: MVR/032/2018 for batch No: NPD801 T01 verifying the validation studies of the analytical method covering following parameters of validation as defined in compendia:
Specificity
Precision
Repeatability
Accuracy and recovery
Ruggedness
Robustness
Linearity and range</td></tr>
<tr><td>27.</td><td>Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?</td><td>The firm has not conducted method transfer studies. The firm submitted that since they have developed the method from pharmacopoeia (Pharmacopoeial method of tablets) in their own laboratory and they have validated it so there is no need to do such studies.</td></tr>
<tr><td>28.</td><td>Do you have documents confirming qualification of equipment/ instruments being used in the test and analysis of APIs and finished drugs.</td><td>The firm showed documents like Report No.2477 dated 16.05.2019 by Kamstec International authorized by Waters (the firm showed the evidence from the website for this authorization), confirming the qualification of HPLC (Waters e 2695) being used in the test and analysis of APIs and the finished drug.</td></tr>
<tr><td>29.</td><td>Do your method of analysis stability indicating?</td><td>The firm has performed SIM studies on the product and covering aspects like Photolytic degradation, peroxide degradation, thermal degradation, acid degradation, and base degradation studies for 72 hours.
The number of theoretical plates and tailing factor are missing in the chromatograms.</td></tr>
</table>

<table>
<tr><td>30.</td><td>Do your HPLC software is 21CFR compliant?</td><td>Complete product development as well as stability studies have been performed on 21CFR complaint HPLC (Waters e 2695) with software version Empower 3 Software database version 7.40.00.00 Waters 2002-2017.</td></tr>
<tr><td>31.</td><td>Can you show Audit Trail reports on K-fast sachet?</td><td>Yes, the firm has showed the audit trail record. Moreover, record and chromatograms are attached with stability record. It has a limited/controlled access as well.</td></tr>
<tr><td>32.</td><td>Do you have some remaining quantities of degradation products and stability batches?</td><td>The firm has remaining quantities of stability batches as per following details:<table><tr><td>NPD801 (T-01)</td><td>6 packs</td></tr><tr><td>NPD801 (T-02)</td><td>6 Packs</td></tr><tr><td>NPD801 (T-03)</td><td>6 Packs</td></tr></table></td></tr>
<tr><td>33.</td><td>Do you have stability batches kept on stability testing?</td><td>The firm has completed the accelerated stability testing on the three stability batches of K-fast Sachet. Also the firm has completed the real time stability testing up to 12 months on all three batches with satisfactory results.</td></tr>
<tr><td>34.</td><td>Do you have valid calibration status for the equipments used in production in analysis?</td><td>The firm has valid calibration status for the equipment used in K-fast Sachet production and analysis as detailed in following table.<table><tr><td>S. No.</td><td>Equipment Name</td><td>Equipment ID</td><td>Last calibration date</td><td>Last calibration date</td></tr><tr><td>1</td><td>Multi Functional Pharmaceutical R&D Machinery</td><td>VP/RD/001</td><td>October 2019</td><td>October 2019</td></tr><tr><td>2</td><td>Bag Forming Filling Sealing Machine</td><td>DXDK80CH</td><td>October 2019</td><td>October 2019</td></tr></table></td></tr>
<tr><td>35.</td><td>Do proper and continuous monitoring and control are available for stability chamber?</td><td>Continuous power supply and monitoring with back up of 1 kv generator is available for stability chamber to address the problem of load shedding and for continuous/uninterrupted power supply. Portable digital data loggers are available for continuous monitoring of temperature and humidity conditions of stability chamber. The firm submitted date-wise data of temperature and humidity conditions of stability chambers used for accelerated and real time studies for every next hour.</td></tr>
<tr><td>36.</td><td>Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?</td><td>The related manufacturing area, equipment, personnel and utilities are rated as GMP compliant.
The firm was advised to increase the capacity of the R&D in terms of facilities, technical staff and training thereof.</td></tr>
</table>

Conclusions & Recommendations:

It was clarified during audit that the firm conducted stability studies with API imported from M/s Henan Dongtai Pharm Co. Ltd., East Changhong Tangyin Henan, China only. The firm did not continue the studies with API imported from source M/s Huixian Dongpu Chemicals Co. Ltd, China and submitted the destruction record (Report no. 1725/NCR dated 22 March, 2019) of stability batches manufactured from this earlier source.

On the basis of risk based approach, the genuineness/authenticity of stability data submitted by the firm for registration of K-Fast Sachet is verifiable to an acceptable/satisfactory level. However, during audit it was revealed that the firm is not clear regarding reference product compare to which they would have to establish the formulation and perform pharmaceutical development studies. Earlier, they referred the brand "Cambia" of Assertio as their reference product whose formulation was found as different (e.g., mannitol has been used with specific particle size) from the applied one by the panel. It is hence, recommended that the assessment related to formulation and manufacturing technology may be carried out again by PEC so as to ascertain/ensure the similarity/comparability of same in the light of approval by reference agency(ies) before grant of registration by the Registration Board.

The related manufacturing area, equipment, personnel and utilities are GMP compliant and suitable for the manufacturing of K-fast 50mg (Diclofenac potassium) sachet therefore, the panel recommends the registration of K-fast 50mg (Diclofenac potassium) sachet in the name of the manufacturer.

Evaluation by PEC:

Firm submitted an undertaking that their reference product was Voltfast Sachet 50mg of Swissmedic.
The assessment related to formulation and manufacturing technology may be carried out again by PEC and it is revealed that firm follow manufacturing process of Voltfast of Swissmedic
Firm submitted dissolution and compare it with Voltfast Sachet 50mg of Swissmedic. Valaue of Q is greater than 90% in 5 minutes.
Excipients are different from Voltfast Sachet 50mg but they did not perform compatibility studies.

Previous Decision: Registration Board after thorough deliberation decided to defer the case for re evaluation of the firm's applied formulation and the USFDA as well as Swissmedic approved reference product by Pharmaceutical Evaluation Cell.**(M-294)**

Evaluation by PEC

S. No	**Parameters**	**Cambia USFDA**		**Voltfast Swissmedic**	**Vision(Applied product)**
1.	Date of approval	17 June 2009		15 July 2005	Nil
2.	Excipient	2009 label (Chemistry review)	2017 label	1. Aspartame 2. Saccharinum natricum 3. Mannitol 4. Aromatica(Mint, Peppermint, Anise) 5. Potassium hydrogencarbon 6. Glycerrol dibehenate	1. Aspartame 2. Mannitol 3. Sucralose 4. Potassium bicarbonate 5. Flavour Anise 6. Flavour Mint
		1. Flavoring agents (anise and mint) 2. Aspartame 3. Glycerol behenate 4. Mannitol, 5. Potassium bicarbonate 6. saccharin sodium	1. Flavoring agents (anise and mint) 2. Glycerol behenate 3. Mannitol 4. Potassium bicarbonate 5. Sucralose		
3.	Indications	For the acute treatment of migraine attacks with or without aura in adults 18 years of age or older		Short-term treatment (maximum 3 days) of the following acute conditions: • Postoperative inflammation and pain, e.g. after dental and orthopedic surgery. • Painful post-traumatic inflammatory conditions, e.g. due to distortion. • Painful and / or inflammatory conditions in gynecology, e.g. primary dysmenorrhea or adnexitis. • Migraine attacks with or without aura . • As an adjuvant for severe painful, inflammatory infections of the throat, nose or ears, e.g. Pharyngotonsillitis, otitis. • Painful spine syndromes. • Extra-articular rheumatism.	For short term treatment of the following conditions: • Sprains, strains or other injuries. • Pain & swelling after surgery. • Painful menstrual periods • Migraine attacks • Back pain, frozen shoulder, tennis elbow, and other forms of soft tissue rheumatism. • Infection of the ear nose or throat.
4.	Dosage	Once daily Single 50 mg dose; mix single packet contents with 1 to 2 ounces or 2 to 4 tablespoons (30 to 60 mL) of water prior to administration		• As a general recommendation, the dose should be adjusted individually. Adverse effects can be reduced by administering the lowest effective dose over the shortest possible period of time to control the symptoms	• Dose to be individually adjusted, lowest effective dose to be given for the shortest duration • Adults: The recommended initially daily dose is 100 to 150 mg.

			• Adults: As a rule, the daily dose is 2-3 bags of Voltfast (100-150 mg / d). In lighter cases and for children over 14 years, 2 sachets of Voltfast per day (50-100 mg) are usually sufficient. The daily dose should generally be taken in 2-3 divided doses. • In primary dysmenorrhea, the daily dose has to be adjusted individually and is usually 1-3 bags. As a starting dose, 1-2 sachets should be prescribed. • Migraines: It is recommended to take an initial dose of 50 mg at the first sign of an impending migraine attack. If pain relief is not sufficient approx. 2 hours after taking the first dose, another dose of 50 mg can be taken. If necessary, further doses of 50 mg can be taken at intervals of 6-8 h, whereby the maximum dose of 150 mg must not be exceeded within 24 h. • Pediatrics (under 18 years) • Due to the dosage strength of Voltfast, use in children under 14 years of age is not recommended. There is currently no data available on the use of Voltfast in migraines in children. • Elderly patients (65 years and older): Basically, no adjustment of the initial dose is necessary in older patients. However, due to basic medical considerations, caution is required in the elderly. Particularly in the case of frail elderly patients or those with low body weight • Existing cardiovascular disease or major cardiovascular risk factors: Voltfast treatment is generally not recommended in patients with pre-existing cardiovascular disease or uncontrolled hypertension. If necessary, patients with existing cardiovascular disease, uncontrolled	The daily dose should generally be divided in up to 3 separate doses. • In primary dysmenorrhea, the daily dose should be individually adjusted and is generally 50 to 150mg. • In migraine, an initial dose of 50mg should be taken at the first signs of an impending attack. • Adolescents aged 14 and over: 50 to 100mg daily are usually sufficient, given as 1 to 2 divided doses. • Children and adolescents below 14 year of age: no recommended • Geriatrics. Renal impairment and hepatic impairment : No adjustment of the starting dose is required

			hypertension or significant risk factors for cardiovascular disease should only be treated with Voltfast after careful consideration and, if administered for more than 4 weeks, only with doses of up to 100 mg per day (see «Warnings and precautions »).Patients with kidney disease • Voltfast is contraindicated in patients with renal insufficiency (GFR <15 ml / min / 1.73 m^2) No specific studies have been performed in patients with renal impairment, and therefore no specific recommendations for dose adjustment can be made. Caution should be exercised when administering Voltfast to patients with renal impairment • Patients with liver disease: Voltfast is contraindicated in patients with hepatic insufficiency No specific studies have been performed in patients with hepatic impairment and therefore no specific recommendations for dose adjustment can be made. Caution should be exercised when administering Voltfast to patients with mild to moderate hepatic impairment	
5.	Manufacturing control (if available)	The firm has controlled the particle size of mannitol & performed multiple mixing	Not found	The firm has not controlled the particle size of mannitol & did not performed multiple mixing
6.	Quality control (if available)	Dissolution testing conducted	Not found	Comparative dissolution with Voltfast Sachet submitted.

The firm has submitted clinical data and reviews of Cambia. Which depicts that they have used the same as innovator product. However, the applied formulation varies in terms of the following:

- The firm has not controlled the particle size of mannitol as specified for CAMBIA Sachet.
- The firm has not performed multiple mixing as specified for CAMBIA Sachet.
- The firm has not used glyceryle behenate as mentioned in the CAMBIA Sachet. Moreover, the firm has used aspartame, which is not present in the CAMBIA Sachet.
- The firm has claimed clinical indications and dosage thereof, other than specified for CAMBIA Sachet.
- However, the firm has performed comparative assay, LOD and pH studies in comparison with Voltfast to which firm is referring as reference product. This so-called reference product seemed approved by UAE

drug agency as it contains UAE: NDC 4924-6116-01-03 & NAFDAC Reg. No. 04-9014. Though it is mentioned on box that it is manufactured by M/s Mipharm S.p.A., Milan, Italy for M/s Novartis Pharma AG, Basle, Switzerland.

2. The firm submitted an undertaking that they have not referred "Cambia of Assertio" as our reference product for the development of K- Fast Sachet. Instead we have referred "Voltfast (approved from Swissmedic) and performed all studies according to it. However, the firm has manufactured the batch of the product in May to August, 2018 and have subsequently submitted the application in January, 2019, wherein all the documents of CAMBIA Sachet have been attached.

3. To the best my knowledge, more data is available regarding the manufacturing and quality attributes of the product and regulatory information for CAMBIA in USFDA than the other brands.

Decision: Registration Board decided to approve registration of K-Fast 50mg Sachet with Innovator's specifications(Voltfast Sachet of Novartis Pharma Swissmedic) by M/s. Vision Pharmaceuticals,. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

c. Exemption from onsite verification of stability data

Date of Submission	16-01-2020 (30567)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API.	Copy of COA (Batch# DPG-201803001) from M/S Jiangsu Yogan Pharmaceutical Co., Ltd, China is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board approved Wymly 25mg Tablet in its 281st Meeting. • Date of Inspection: 09-04-2018 • The HPLC is 21CFR Compliant. • Audit trail on the testing were available
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.

15.	Reports of stability studies of API from manufacturer.	The firm has submitted copy of **accelerated, 06 Months** (40°C ± 2°C & 75±5%RH) & **long term, 06 Months** (30°C ± 2°C & 65±5%RH) stability study reports of 03 batches.
16.	Analysis reports for excipients used.	The firm has submitted copy of COAs for the excipients used in the applied formulation.
17.	Drug-excipients compatibility studies.	The firm has stated that we manufactured lab scale batches of our applied products "Flucid 5mg" by using same formulation (excipients) of Innovator's Product.
18.	Record of comparative dissolution data.	Firm has submitted Comparative dissolution study of their product (Flucid Tablets) with Innovator's Brand "Forxiga Tablets" The details are as follows: Feature / Reference. Product / Product Genix Brand Name / Forxiga 5mg Tablet / Flucid 5mg Batch No. / NJ535 / 19SB-201-01 Mfg. Date / 03/2017 / 01-2019 Exp. Date / 02/2020 / 01-2021 Comparative dissolution studies have been performed in following mediums: 1. Ph 1.2 HCl buffer 2. Ph 4.5 Acetate buffer 3. Ph 6.8 Phosphate buffer Copy of Calculation Sheets and HPLC chromatograms has been submitted for Comparative dissolution studies
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for complete stability studies analysis of three batches

Remarks of Evaluator:

S.No	Shortcoming communicated	Reply of Firm
1.	The firm has claimed that they manufactured lab scale batches of their applied product "Flucid 5mg" by using same formulation (excipients) of Innovator's Product however yellow colour added in core. Clarify.	Firm reply that they are adding colour in very minute quantity in core formulation for segregation of product to avoid mixing as they have different products on same tooling in order to comply GMP.
2.	Innovator used dry granulation method while applied product is manufactured by direct compression . Justify.	Direct compression and dry granulation methods are almost same processes except unit operation that is compaction involve in dry granulation, while in both processes, formulation developed without using any solvent or liquid solution
3.	Submit Real time Stability of API according to zone IV -A	Stability studies of 3batches according to Zone IV-A submitted.
4.	Chromatograms for Content uniformity and dissolution testing at initial testing for Batch No: 19SB-201-01and chromatograms at initial dissolution testing Batch no: 19SB-201-03 not submitted	Submitted.
5.	Evidence of procurement of reference product	submitted
6.	Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as "Shall comply with requirements for Q at 15 minutes	• Firm reply that they are following FDA dissolution method. Dissolution time is 30 minutes mentioned. • On the basis of CDP data, the results were

		found above the 85% in 15 minutes • The dissolution test were conducted again at 15 minutes. The results were found above 80%(Q) = 85% • The dissolution results of all 3 batches are attached for the reference. • The specifications are revised for 15 minutes of dissolution testing.

Decision: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications as per that of the innovator product at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

1074.	Name and address of manufacturer / Applicant	M/s. Genix Pharma Private Limited 44, 45-B, Korangi Creek road, Karachi

Manufacturing Date	01-2019	01-2019	01-2019
Date of Initiation	24-01-2019	24-01-2019	24-01-2019
No. of Batches	03		

Date of Submission	16-01-2020 (30567)

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API.	Copy of COA (Batch# DPG-201803001) from M/S Jiangsu Yogan Pharmaceutical Co., Ltd, China is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board approved Wymly 25mg Tablet in its 281st Meeting. • Date of Inspection: 09-04-2018 • The HPLC is 21CFR Compliant. • Audit trail on the testing were available
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
3.	Documents for the procurement of reference standard and impurity standards.	Firm have submitted letter from an indentor Neon chemicals and supplier is M/S Jiangsu Yongan pharmaceuticals Co., Ltd, China
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.

6.	Evidence of procurement of reference product Briliant	Submitted
7.	Submit complete auditrail for Assay, dissolution, comparative dissolution & method validation as submitted auditrail could not be verified	Submitted Audi trail could not be verified.
8.	Value of Q in dissolution at 75 minute is NLT 70% . Please justify	Stability report mentioning correct specifications for dissolution as "NLT 80% (Q) in 75 minutes"

Previous Decision: (M-292)

Registration Board deferred for clarification of following points:

- Audit trail reports of the analysis performed on HPLC during stability studies.
- Valid GMP certificate of the API manufacturer i.e., M/s Nantong Chanyoo Pharmatech Co, Ltd. China, issued by relevant provincial or state regulatory authority.
- Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as "Shall comply with requirements of USP for Q at 45 minutes and at 60 minutes

S.no	**Deficiencies**	**Reply by Firm**
1	Audit trail reports of the analysis performed on HPLC during stability studies.	Still not verifiable. Time is not evident from provided auditrail.
2	Valid GMP certificate of the API manufacturer i.e., M/s Nantong Chanyoo Pharmatech Co, Ltd. China, issued by relevant provincial or state regulatory authority	GMP certificate of the API manufacturer i.e., M/s Nantong Chanyoo Pharmatech Co, Ltd. China by Jiangsu Food and Drug administration Jiangsu food and drug administration submitted. Nantong food and drug administration submitted. Certificate of GMP compliance by agency for medicinal products and medical devices of Republic of Solvenia on the basis of inspection conducted on 06-12-2014.
3	Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as "Shall comply with requirements of USP for Q at 45 minutes and at 60 minutes	Regarding applied dissolution limits, We would like to apprise you that the applied dissolution limit is taken from FDA approved dissolution method wherein the sampling time mentioned is 10, 20, 30, 45, 60 & 75 minutes. Generally, for an established dissolution method for film coated tablets the maximum sampling time is considered and used to define the limit.

Previous Decision: (M-293)

Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications as per that of the innovator product at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

Firm submitted Dissolution testing data with specification as per that of Innovator product i.e Q at 45 minutes at initial and 1st month time points at both Accelerated and real time stability for 2 batches

I. Batch# PD04/19
   Manufacturing date: March- 2020
   Date of commencement: 17-03-2020
II. Batch# PD05/19
   Manufacturing date: March- 2020
   Date of commencement: 17-03-2020

And results are satisfactory and with in limits **Decision:Registration Board decided to approve registration of Agranil 60mg Tablet (Ticagrelor…60 mg)with Innovator's specifications by M/s High-Q Pharmaceuticals**. **Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**		
1076.	Name and address of manufacturer / Applicant	M/s. High-Q Pharmaceuticals, Plot 224/23 Korangi Industrial Area, Karachi
	Brand Name +Dosage Form + Strength	Agranil 90 mg
	Composition	Each film coated tablet contains: Ticagrelor… 90 mg
	Diary No. Date of R& I & fee	Dy.No 8184 dated 12-06-2098 Rs. 50,000/- Duplicate Dossier
	Pharmacological Group	Anti-coagulant
	Type of Form	Form 5
	Finished product Specifications	Manufacturers specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulator Authorities	BRILINTA of Astrazenica USFDA Approved.
	GMP status	Last inspection was conducted on 12-09-2018 for renewal / grant of GMP Certificate and the report concludes Good compliance of GMP.
	Remarks of the Evaluator[IV]	

STABILITY STUDY DATA

Drug	Agranil 90 mg tablet		
Name of Manufacturer	M/s. High-Q Pharmaceuticals, Plot 224/23 Korangi Industrial Area, Karachi		
Manufacturer of API	Nantong Chanyoo Pharmatech Co., Ltd, China, address: No.2, Tonghai Si Ro ad, Yangkou chemical industrial park, Rudong coastal economic developme nt zone, Nantong Jiangsu province 226407, PR china		
API Lot No.	RD-TG-201712111		
Description of Pack (Container closure system)	Alu-PVC blister		
Stability Storage Condition	Real time : 30°C ± 2° C / 65% ± 5% RH Accelerated: 40°C ± 2°C / 75% ± 5% RH		
Time Period	Real time: 9 months Accelerated:6 months		
Frequency	Accelerated: 0,1,2,3,4,6 (month) Real Time: 0,3,6,9 (month)		
Batch No.	PD01/18	PD02/18	PD03/18
Batch Size	1408 Tablets	1408 Tablets	1408 Tablets
Manufacturing Date	05-2018	05-2018	05-2018
Date of Initiation	23-05-2018	23-05-2018	23-05-2018
No. of Batches	03		
Date of Submission	01-04-2019 (2312)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr.#	Documents To Be Provided	Status
1.	COA of API.	Copy of COA (Batch# RD-TG-201712111) from M/S Nantong Chanyoo Pharmatech Co., Ltd,

		China is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued to M/s Nantong Chanyoo Pharmatech Co., Ltd, China, address: No.2, Tonghai Si Road, Yangkou chemical industrial park, Rudong coastal economic development zone, Nantong Jiangsu province 226407, PR china. Issued by Nantong Food and drug administration. Valid up to 7-9-2020.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of commercial invoice (invoice No. CY118070, dated: 08-03-2018) has been submitted, manufacturer is Nantong Chanyoo Pharmatech Co., Ltd, China, address: No.2, Tonghai Si Road, Yangkou chemical industrial park, Rudong coastal economic development zone, Nantong Jiangsu province china attested by ADC DRAP Karachi dated 20-03-2018.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board approved Basovir 400 mg tablet and Vesoft 400/100mg Tablets in its 279 & 284 Meeting. • Date of Inspection: 16-02-2018 & 12-07-2018. • The HPLC is 21CFR Compliant. • Audit trail on the testing were available
2.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted photocopies of ADC (Karachi) attested Form 6 dated 20-03-2018, Copy of commercial invoice (invoice No. CY118070, dated: 08-03-2018) has been submitted, manufacturer is Nantong Chanyoo Pharmatech Co., Ltd, China, address: No.2, Tonghai Si Road, Yangkou chemical industrial park, Rudong coastal economic development zone, Nantong Jiangsu province china attested by ADC DRAP Karachi dated 20-03-2018.
3.	Documents for the procurement of reference standard and impurity standards.	Firm have certificate of analysis of API, working standard, and Impurities, all provided by Nantong Chanyoo, China.

<table>
<tr><td></td><td></td><td>The firm has clarified that the reference standard and impurity standards are provided free of cost along with the APIs' consignment and not separately by Nantong Chanyoo.</td></tr>
<tr><td>4.</td><td>Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.</td><td>The firm has submitted GMP of M/s Nantong Chanyoo Pharmatech Co, Ltd China issued by Nantong food and Drug Adminstration. This certificate is valid until 07- 09, 2020.</td></tr>
<tr><td>5.</td><td>Mechanism for Vendor pre-qualification</td><td>The firm has submitted copy of vender evaluation questionnaire for vender pre-qualification along with filled questionnaire from both APIs manufacturers.</td></tr>
<tr><td>6.</td><td>Certificate of analysis of the API, reference standards and impurity standards</td><td>The firm has submitted
COA of API: Batch No. RD-TG-201712111
COA of Reference Standard: Batch No. WTG01-1409901
COA of Impurities:
TGE: Batch No. WTG02-140901
TGD1: Batch No. WTG03-140901
TGD2: Batch No. WTG04-140901
TG-16: Batch No. WTG05-140901
De-ethoxyl of TG: Batch No. WTG06-1409901
Acetyl TG: Batch No. WTG07-1409901</td></tr>
<tr><td>7.</td><td>Documents for the procurement of excipients used in product development?</td><td>The firm has submitted copy of vender evaluation questionnaire for vender pre-qualification along with filled questionnaire from both APIs manufacturers.</td></tr>

<tr><td colspan="3">QA / QC DATA</td></tr>
<tr><td>12.</td><td>Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)</td><td>Firm has submitted photocopies of data logger record for Accelerated stability chamber from 16-05-2018 to 16-11-2018 and for Real Time</td></tr>
</table>

		stability chamber starting from 16-05-2018 to 16-05-2018
13.	Method used for analysis of API along with COA.	The firm has submitted photocopy of method used for analysis of APIs along with COA.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopy of Finished Product Specifications and Testing Method of Complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.) are submitted with 06 & 09 months stability data Accelerated & Real Time respectively.
15.	Reports of stability studies of API from manufacturer.	**Ticagrelor:** The firm has submitted copy of **accelerated, 06 Months** (40°C ± 2°C & 75±5%RH) & **long term, 06 Months** (30°C ± 2°C & 60±5%RH) stability study reports of 03 batches.
16.	Analysis reports for excipients used.	The firm has submitted copy of COAs for the excipients used in the applied formulation.
17.	Drug-excipients compatibility studies.	The firm has submitted Drug-excipients compatibility studies.
18.	Record of comparative dissolution data.	Firm has submitted Comparative dissolution study of their product with Innovator's Brand " Brilinta". The details are as follows: **Feature** / **Reference product** / **Product of High-Q** Brand name / Brilinta 90mg tablet / Agranil 60mg tablet Batch No. / PS01092 / PD01/18 Comparative dissolution studies have been performed in following mediums: 1. Ph 1.2 HCl buffer 2. Ph 4.5 Acetate buffer 3. Ph 6.8 Phosphate buffer
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted Audi trail could not be verified.

Remarks of Evaluator:

S.no	Deficiencies/Shortcomings	Reply by Firm
1.	Which polymorphic form of ticagrelor is used in stability batches.	The product manufactured by us according to the synthetic route presented in the dossier is characterized as crystalline form II
2.	Submitt Commercial invoices for excipients	Submitted
3.	Authorized Protocols/SOP for the product development	Submitted.
4.	As per documents product developed from API batch no: RD-TG-201712111 having quanity of 1kg as per commercial invoice. However batch no: RD-TG-2018062 of API tested having quantity of 3 kg as per commercial invoice . Furthermore API testing have been performed after production of stability batches. Clarification is needed	COA of API by High Q batch no: RD-TG-201712111 submitted with testing date 18-04-2018.
5.	Stability studies of API according to Zone –IV-A is required	6 month real time stability data submitted As per Stability studies of API according to Zone – IV-A submitted, initial testing done at july, 2018 while 3rd month testing done at Feb, 2019 **Stament from Nantong Chanyoo Pharmatec co.,**

		Ltd **“** Since the stability study requires 3 batches of API , we did not arrange the stability study immediately after completion of the initial analysis of each batch. After 3 batches of API are collected and the stability study plan has been confirmed, the substances have been I into the stability study box. Before that, all the batches were stored in the warehouse in accordance with the storage conditions.”
6.	Evidence of procurement of reference product Briliant	Submitted
7.	Submit complete auditrail for Assay, dissolution, comparative dissolution & method validation as submitted auditrail could not be verified	Submitted auditrail could not be verified.
8.	Value of Q in dissolution at 75 minute is NLT 70% . Please justify	Stability report mentioning correct specifications for dissolution as “NLT 80% (Q) in 75 minutes”

Previous Decision: (M-292)

Registration Board deferred for clarification of following points:

- Audit trail reports of the analysis performed on HPLC during stability studies.
- Valid GMP certificate of the API manufacturer i.e., M/s Nantong Chanyoo Pharmatech Co, Ltd. China, issued by relevant provincial or state regulatory authority.
- Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as “Shall comply with requirements of USP for Q at 45 minutes and at 60 minutes.

S.no	**Deficiencies**	**Reply by Firm**
1	Audit trail reports of the analysis performed on HPLC during stability studies.	Still not verifiable. Time is not evident from provided auditrail.
2	Valid GMP certificate of the API manufacturer i.e., M/s Nantong Chanyoo Pharmatech Co, Ltd. China, issued by relevant provincial or state regulatory authority	GMP certificate of the API manufacturer i.e., M/s Nantong Chanyoo Pharmatech Co, Ltd. China by Jiangsu Food and Drug administration Jiangsu food and drug administration submitted. Nantong food and drug administration submitted. Certificate of GMP compliance by agency for medicinal products and medical devices of Republic of Solvenia on the basis of inspection conducted on 06-12-2014.
3	Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as “Shall comply with requirements of USP for Q at 45 minutes and at 60 minutes	Regarding applied dissolution limits, We would like to apprise you that the applied dissolution limit is taken from FDA approved dissolution method wherein the sampling time mentioned is 10, 20, 30, 45, 60 & 75 minutes. Generally, for an established dissolution method for film coated tablets the maximum sampling time is considered and used to define the limit.

Previous Decision: (M-293)

Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications as per that of the innovator product at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

Firm submitted Dissolution testing data with specification as per that of Innovator product i.e Q at 45 minutes at initial and 1st month time points at both Accelerated and real time stability for 2 batches

I. Batch# PD04/19
   Manufacturing date: March- 2020
   Date of commencement: 17-03-2020
II. Batch# PD05/19

Manufacturing date: March- 2020
Date of commencement: 17-03-2020
And results are satisfactory and with in limits
Decision: Registration Board decided to approve registration of Agranil 90mg Tablet (Ticagrelor…90 mg)with Innovator's specifications by M/s High-Q Pharmaceuticals. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
