1539.	M/s Shaigan Pharmaceuticals, Pvt Ltd, 14 km Adyala Road, Rawalpindi (New Section)	Hycort 100 injection Each vial contains lyophilized powder: Hydrocortisone as sodium succinate (USP)….100mg Glucocorticoid-Minerolcorticoid (Manufacturer's specs)	Form 5 Dy.No.773 02-09-2016 Rs.20,000/- 1's Rs.400/-	Hydrocortisone as sodium succinate Injection-USFDA Solu-cortef by Pfizer Pharma Inspection report dated 17-08-2016 recommended for the grant of additional sections	263rd Meeting Registration Board held on 29-30th November, 2016. Deferred for confirmation of section
	Evaluation By PEC • Firm has submitted copy of letter issued by Secretary CLB, dated 27th Sep, 2016, stating the grant of additional section for "Lyophilized Injection Ampoule (Hormone). • Firm has stated that Hydrocortisone is a steroid & according to the classification of Hormone, steroids fall under the subclass of Hormone. Decision: Registration Board deferred for clarification of product pharmacological classification with respect to manufacturing facility.				
	Previous Decision: Registration Board in its 267th meeting deferred the case for the clarification of product pharmacological classification with respect to manufacturing facility.				

	Evaluation By PEC. **a.** According to WHO ATC classification system Hydrocortisone is classified as under: H Systemic Hormonal Preparations, Excl. Sex Hormones And Insulin H02 Corticosteroids For Systemic Use H02A Corticosteroids For Systemic Use, Plain H02AB Glucocorticoids H02AB09 Hydrocortisone **b.** Now the firm has submitted the letter of Licensing Division bearing a number "No.F. 1-18/92-Lic (Vol-II)" dated 6th July, 2018 for modification of section from "Lyophilized Injection Ampoule (Hormone)" to "Lyophilized Injection vials(steroids)".				
	Previous Decision: Registration Board in its 284th meeting deferred the case for further deliberation upon facility required for manufacturing of applied formulation.				
	Evaluation by PEC: Applicant has submitted letter of CLB having No. F-18/92-Lic(Vol-II) dated 7th of November, 2019 grant of lyophilized Injection Vials Steroidal (Hormone).				
	Decision(M-293): Registration Board deferred the case for further deliberation upon facility required for manufacturing of applied formulation.				
	Registration Board deliberated the matter in detail and discussed that aplicant has steroidal hormone section & applied formulation is a corticosteroid which can not be manufactured with hormones like estrogen, progesterone & testosterone etc due to the risk of cross contamination. However, firm don't have any approved or registered formulation in the said section neither hormone nor steroid. **Decision: Keeping in view the above discussion, the Board decided as follows:** • **Approve registration of applied drug product in the above said section & advised firm to change the title of section from "Steroidal (Hormone)" to "Steroids" so to avoid any future registration of hormonal preparation in the said section.** • **The Board further decided that letter of registration will be issued to the firm after change of name of section.**

Case no. 02 Registration applications for local manufacturing of (veterinary) drugs

a. New Cases

1545.	Name and address of Manufacturer / Applicant	M/s Farm Aid Group Plot No. 3/2 Phase I & II Hattar, Industrial Estate, Haripur.
	Brand Name + Dosage Form + Strength	Zinco B Powder
	Composition	Each kg Contains: Streptomycin Sulphate…36gm Penicillin Penicillin…12gm Zinc Bacitracin 10%…52gm
	Diary No. Date of R&I & fee	DyNo.3737; 30-01-2018; Rs. 20,000/-
	Pharmacological Group	Electrolyte
	Type of Form	Form-5
	Finished Product Specification	Innovator's Specifications
	Pack Size & Demanded Price	10g, 20g, 30g, 50g, 100g,250g,500g, 1kg, 5kg, 10kg, 15kg, 20kg, 25kg: Decontrolled
	Me-too status	Penstrep Powder of Anima Nutrition Products Islamabad.
	GMP status	GMP inspection conducted on 11-02-16 concluded that firm is operating at satisfactory level of GMP compliance.
	Remarks of the Evaluator (VIII)	What does this Zinc Bacitracin 10%...52gm mean? Clarify. Applied formulation is Powder but outline of manufacturing method is for capsule, Clarify.
	Decision: Deferred for the following: • **Clarification of formulation with reference to innovator/generic drug product** • **Correct outline of manufacturing method of applied formulation**	
1546.	Name and address of Manufacturer / Applicant	M/s Farm Aid Group Plot No. 3/2 Phase I & II Hattar, Industrial Estate, Haripur.
	Brand Name + Dosage Form + Strength	Mycopen Powder 72gm/24gm/104gm
	Composition	Each kg Contains: Streptomycin Sulphate…72gm Procaine Penicillin…24gm Zinc Bacitracin …104gm
	Diary No. Date of R&I & fee	DyNo.3732; 30-01-2018; Rs. 20,000/-
	Pharmacological Group	Antibiotic
	Type of Form	Form-5
	Finished Product Specification	Innovator's Specifications
	Pack Size & Demanded Price	10g, 20g, 30g, 50g, 100g,250g,500g, 1kg, 5kg, 10kg, 15kg, 20kg, 25kg: Decontrolled
	Me-too status	S.P.Z.200 Water Soluble Powder of Islamabad Pharmaceutical Products
	GMP status	GMP inspection conducted on 11-02-16 concluded that firm is operating at satisfactory level of GMP compliance.
	Remarks of the Evaluator (VIII)	Applied formulation is Powder but outline of manufacturing method is for capsule, Clarify.
	Decision: Deferred for submission of correct outline of manufacturing method of applied formulation	
1547.	Name and address of Manufacturer / Applicant	M/s Farm Aid Group Plot No. 3/2 Phase I & II Hattar, Industrial Estate, Haripur.
	Brand Name + Dosage Form + Strength	Septo can Powder 72gm/24gm/104gm
	Composition	Each kg Contains: Streptomycin Sulphate…36gm Procaine Penicillin…12gm Zinc Bacitracin …52gm
	Diary No. Date of R&I & fee	DyNo.3733; 30-01-2018; Rs. 20,000/-
	Pharmacological Group	Antibiotic
	Type of Form	Form-5
	Finished Product Specification	Innovator's Specifications

	Pack Size & Demanded Price	10g, 20g, 30g, 50g, 100g,250g,500g, 1kg, 5kg, 10kg, 15kg, 20kg, 25kg: Decontrolled
	Me-too status	Pro Sb Powder of Medicure Laboratories, Karachi.
	GMP status	GMP inspection conducted on 11-02-16 concluded that firm is operating at satisfactory level of GMP compliance.
	Remarks of the Evaluator (VIII)	Approval of section/manufacturing facility (Penicillin dedicated facility) by the Central Licensing Board. However, you may submit panel inspection report for renewal of DML verifying the section/manufacturing facility.
	Decision: Deferred for clarification of formulation with reference to innovator/generic drug product.	
1548.	Name and address of manufacturer / Applicant	"M/s Elegance Pharmaceuticals. Chak Belli Pandori Road, Distt. Rawalpindi"
	Brand Name +Dosage Form + Strength	Amantacin 10gm Powder
	Composition	Each 100gm Contains: Amantadine HCL…10gm
	Diary No. Date of R& I & fee	Dy.No 34438 dated 17-10-2018 Rs.20,000/- Dated 16-10-2018
	Pharmacological Group	Anti-viral

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API	Applicant has submitted the following: **Copy of COA** **From**:Shengai Desano Chemical Pharmaceuticals**Batch No**: DBH251-B15A-180802
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Applicant has submitted the following: Copy of GMP Certificate: **Certificate No:** SH2017046 **Issued To**: Shengai Desano Chemical Pharmaceuticals, No. 417, Binhai Road, Laogang Town, Pudong New Area, Shanghai. **Issued ON**: 04-12-2017 **Valid Till**: 3-12-2022 **Issued By**: China Food & Drug Administration.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Applicant has submitted Coy of Commercial invoice attested by ADC on 27-08-18 having following information on it: **Invoice Number**: DL-Y-2018-0208 **Manufacturer of API**: Desano Limited. No. 1479, Zhangheng Road, Zhangliang Hi- Tech Park, Shanghai 201203, China. Tenofovir Alafenamide Fumarate API: 1kg Tenofovir Alafenamide Fumarate API W/S: 4g Impurity 1: 100mg Fumaric acid: 100mg Impurity 2: 100mg
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

Evaluation by PEC:

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Vireof-N Tablet 25mg (TenofovirAlafenamide Fumarate) Tablets by M/s. Macter International Ltd., F-216, S.I.T.E, Karachi.

Reference No: F.13-11/2017-PEC (Pt) dated 14th Nov, 2019.
Investigation Date and Time: 18th December, 2019.

Investigation Site: M/s. Macter International Ltd., F-216, S.I.T.E, Karachi.

Background:

Chairman Registration Board considered the applications of M/s. Macter International Ltd., F-216, S.I.T.E, Karachi for registration of Vireof-N Tablet 25mg (Tenofovir Alafenamide Fumarate) Tablets. PE&R Division considered scientifically rational laboratory scale data submitted by the firm as pre-requisite of registration being new formulation and constituted a three member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and also advised to verify:

"Confirmation of dissolution test results for all trial batches of applied formulation on US-FDA recommended dissolution parameters including RPM".

Composition of Panel:

1. Prof. Dr. Ghulam Sarwar, ex-member Registration Board, Dean faculty of Pharmacy, Jinnah University for Women, Karachi.
2. Dr. Affan Ali Qureshi, Assistant Director (CDL) DRAP, Karachi.
3. Dr. Kirshan Das, Assistant Director DRAP Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Detail of Investigation:

S. No.	Question	Observation
1.	Do you have documents confirming the import of Tenofovir Alafenamide Fumarate API including approval from DRAP?	The firm has imported 1Kg Tenofovir Alafenamide Fumarate (API) from Shanghai Desano Chemical Pharmaceutical Co., Ltd.)vide invoice No. DL-Y-2018-0208 dated: 27.08. 2018. There is proper approval from DRAP Karachi Form 6 (2440-17).
2.	What was the rationale behind selecting the particular manufacturer of API?	The rationale behind selecting the particular manufacturer of API is the vendor evaluation process based on audit and other criteria like manufacturer GMP status, DMF source etc.
3.	Do you have documents confirming the import of Tenofovir Alafenamide Fumarate reference standard and impurity standards?	The firm has imported Tenofovir Alafenamide Fumarate working standard and two impurities standards from the API manufacturer.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has Certificate of Analysis of API, working standard of API and impurities standards.
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificates for API manufacturer issued by China Food & Drugs Administration valid till 03/12/2022.
6.	Do you use API manufacturer method of testing for testing API?	The firm has used API manufacturer method of testing.
7.	Do you have stability studies reports on APIs?	The firm has stability studies report on API (Tenofovir Alafenamide Fumarate) conducted by API manufacturer.

8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The manufacturer of API has performed the stability studies as per SIM method. The process related impurities and degradation product ie. Impurity I have been observed.
9.	Do you have method for quantifying the impurities in the API?	The firm has method for quantifying impurities.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has some remaining quantities of API (Tenofovir Alafenamide Fumarate) working standard and impurity standard.
11.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients including Microcrystalline cellulose, Lactose Monohydrate ,Croscarmellose sodium, Magnesium stearate
12.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
13.	Do you have test reports and other records on the excipients used?	The firm has test reports and other records for the excipients used.
14.	Do you have written and authorized protocols for the development of Tenofovir Alafenamide Fumarate Tablets?	The firm has written and authorized protocol for the development Tenofovir Alafenamide Fumarate Vireof-N tablets 25mg.
15.	Have you performed Drug-excipient compatibility studies?	The firm has not performed Drug Excipient compatibility studies as composition of their product is similar to that of innovator product (VEMLIDY tablets 25mgfrom GILEAD Ontario Canada.
16.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution profile of their product with VEMLIDY 25mg batch # CBNKMD of GILEAD and found comparable to the innovator product.
17.	Do you have product development (R&D) section	The firm has product development (R&D) section with requisite manufacturing, storage and analysis facilities.
18.	Do you have necessary equipments available in product development section for development Tenofovir Alafenamide Fumarate Tablets?	The firm has all the necessary equipment available in product development section for the development of Tenofovir Alafenamide Fumarate tablets now, however, the product in question was manufactured in routine production area.
19.	Are the equipment in product development section qualified?	The equipments in product development section and production area are qualified.
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance / calibration / re-qualification program for the equipment used in PD section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff in PD section with proper knowledge and training in Product Development including 04 Pharmacists 05 MSc Chemistry and 01 M.Phil.

<table>
<tr><td>22.</td><td>Have you manufactured three stability batches for the stability studies of Tenofovir Alafenamide Fumarate Tablets required?</td><td>The firm has manufactured three stability batches as follows;
Tenofovir Alafenamide Fumarate 25mg tablets:
<table><tr><th>Sr. No.</th><th>B. No.</th><th>Batch size</th></tr><tr><td>1</td><td>001P</td><td>5000</td></tr><tr><td>2</td><td>002P</td><td>5000</td></tr><tr><td>3</td><td>003P</td><td>5000</td></tr></table>The tablets are packed in Alu Alu blisters with pack size 3 x 10’s.</td></tr>
<tr><td>23.</td><td>Do you have any criteria for fixing the batch size of stability batches?</td><td>The criteria for fixing the batch size of stability batches is the number of tablets required per testing frequency and number of testing frequencies.</td></tr>
<tr><td>24.</td><td>Do you have complete record of production of stability batches?</td><td>The firm has complete records of production of stability batches. All log books are properly maintained.</td></tr>
<tr><td>25.</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm has detailed protocol for the stability testing of Tenofovir Alafenamide Fumarate tablets.</td></tr>
<tr><td>26.</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm has developed and validated method for testing of stability batches of finish product i.e. Tenofovir Alafenamide Fumarate tablets based on the API method of testing provided by the API manufacturer.</td></tr>
<tr><td>27.</td><td>Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?</td><td>The firm has developed and validated method based on API manufacturer for testing of finished product, so method transfer studies were required.</td></tr>
<tr><td>28.</td><td>Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Tenofovir Alafenamide Fumarate and the finished drug?</td><td>The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of the API (Tenofovir Alafenamide Fumarate) and the finished drug Vireof-N (Tenofovir Alafenamide Fumarate) tablets 25mg.</td></tr>
<tr><td>29.</td><td>Do your method of analysis stability indicating?</td><td>The firm’s method of analysis is stability indicating as evidence by forced degradation studies and spiking studies of the two major impurities.</td></tr>
<tr><td>30.</td><td>Do your HPLC software 21CFR Compliant?</td><td>The HPLC software is 21CFR compliant as per record available with the firm.</td></tr>
<tr><td>31.</td><td>Can you show Audit trail reports on Tenofovir Alafenamide Fumarate testing?</td><td>Audit Trail on the testing reports on Tenofovir Alafenamide Fumarate API and Vireof-N tablets 25mg is available.</td></tr>
<tr><td>32.</td><td>Do you have some remaining quantities of degradation products and stability batches?</td><td>The firm has only remaining quantities of stability batches kept on real-time stability testing.</td></tr>
<tr><td>33.</td><td>Do you have stability batches kept on stability testing?</td><td>The firm has three lab scale batches kept on stability studies for real time stability testing. Currently 12 months studies have been completed with satisfactory results.</td></tr>
<tr><td>34.</td><td>Do you have valid calibration status for the equipment used in Tenofovir Alafenamide Fumarate Tablets production and analysis?</td><td>The firm has valid calibration status for the equipment used in Vireof-N (Tenofovir Alafenamide Fumarate) tablets 25mg production and analysis.</td></tr>
<tr><td>35.</td><td>Do proper and continuous monitoring and control are available for stability chamber?</td><td>The firm has adequate monitoring and control system for stability chambers.</td></tr>
</table>

36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipments, personnel and utilities are GMP compliant.
37.	Any other query raised by PE&R Division: Confirmation of dissolution test results for all trial batches of applied formulation on US-FDA recommended dissolution parameters including RPM.	As per firm they have adopted Dissolution method as recommended by US-FDA. The medium is 50 mM Sodium Acetate buffer pH 4.5, Apparatus is USP type II, RPM is 75 which are same as recommended by USFDA. The sampling time is 30 mins which is the maximum time point mentioned on the website of USFDA under dissolution data, however the NDA document of VEMLIDY shows the sampling time to be 15 mins. The firm states that F2 was calculated in CDP at 10 mins because the drug was dissolved more than 90% within 5 mins which shows the formulation complies with innovator as well as US-FDA recommendation. The firm has also performed dissolution testing on an additional time point of 15 month of stability studies and observed the result at 15 minutes and found more than 90% release, which complies with innovator and US-FDA recommendations.

Conclusions:

1. On the basis of risk based approach the genuineness / authenticity of stability data including dissolution method submitted by the firm for registration of Vireof-N (Tenofovir Alafenamide Fumarate) Tablets 25mg is verifiable satisfactory level.
2. The related manufacturing area, equipments, personnel and utilities are GMP compliant and well suited for the manufacturing of Vireof-N (Tenofovir Alafenamide Fumarate) Tablets 25mg.
3. The case is submitted before Registration Board for decision please.

Decision (M-293): Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

Sr. No.	Deferred for :	Submitted following:
1.	Decision (M-293): Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.	Applicant has submitted stability studies data for following three batches at following time points: **Batches:** Batch No: P004, P005, P006 **Testing Frequency:** Initial: 1 month: real time plus accelerated. Sampling Time: 15 minutes Drug release at 15 minute sampling interval: Above 90% for all trials at Ist month, as per data submitted by the firm. However data submitted by the firm is in dates before the meeting was carried out & decision of the case was made.

Decision: Deferred for clarification since the dissolution testing at 15 minutes time point for 2 batches was carried out before the date of conduction of 293rd meeting of Registration Board.

c. Verification of stability study data

d. Exemption from onsite verification of stability data

Data for Exemption from onsite investigation

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their Product "Siloget 8mg (Silodosin)", which was conducted on 16-02-2018, and was presented in 279th meeting of Registration Board held on 28th Feb -02nd March, 2018. Registration Board decided to approve registration of Siloget 8mg (Silodosin), of M/s. Getz Pharma (Pvt.) Ltd., Karachi. Following two points are reported inside the above stated inspection report: • The HPLC software is 21CFR complaint as per record available with the firm. • (Adequate monitoring and control are available for stability chamber. Chamber are controlled and monitored through software having alarm system for alerts as well).
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Applicant has submitted the following: **For Silodosin:** License to import drug(s) for clinical trial examination, test or analysis having following information on it: Copy of commercial Invoice declaring following information on it: Attested by: ADC Karachi Attested on: 01-11-2016 Quantity: 0.45 Kg From: M/s Zhejiang Tianyu Pharmaceutical Co., Ltd.

12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm has submitted photocopies of digital printouts of graphical chart for Real Time and Accelerated Conditions starting from 01-07-2018 to 31-01-2019.
13.	Method used for analysis of API along with COA.	**For Silodosin:** The firm has submitted photocopy of method used for test analysis of API & Finished Product.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopy of method used for test analysis of API & Finished Product.
15.	Reports of stability studies of API from manufacturer.	**For Silodosin:** The firm has submitted photocopy of silodosin 06 Months Accelerated (40^oC+2^oC, RH 75+5%) & 18 month real time (30^oC+2^oC, RH 65+5%) stability study data of 03 batches from M/s Zhejiang Tianyu Pharmaceutical.
16.	Analysis reports for excipients used.	The firm has submitted photocopies of Analytical reports for excipients used in product development of Siloget Tablets by excipient's manufacturer & also its own.
17.	Drug-excipients compatibility studies.	The firm has stated that the composition of developed product is similar to the innovator's product formulation.
18.	Record of comparative dissolution data.	Comparative dissolution studies have been performed in following medium: i. pH 0.1N HCl buffer
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports of stability studies of applied formulation.

Evaluation by PEC :

Sr. No.	Queries	Response
01.	Please submit evidence of purchase of reference product for CDP & also submit justification for not performing Comparison Dissolution Profile in three dissolution media at three pH.	Now the Applicant has submitted following: 1. Invoice for purchase of Rapaflo Capsule 8mg. 2. Results of CDP for applied formulation with Rapaflo Capsule 8mg Batch No. 110179M at pH 1.2, pH 4.5, pH 6.8. & also stated following: Reference Product Silodosin Capsules 8mgis used for the Dissolution Profile Comparison, since the product is dose proportional. Further, product is BCS Class II and rapidly dissolving in all the three media therefore, F2 calculation is not applicable.
02.	Please submit clarification/ justification for selection of dissolution test criteria of applied drug product different from that of re erence product s according to USFDA Clinical & B o Pharmaceutics Review silodosin capsule is formulated as immediate release capsule with rapid dissolution ≥85% in 15 minutes.	We, Getz Pharma (Pvt.) Ltd., hereby inform your good office that during development and stability studies, we have kept General limits for the immediate release dosage form as per USP chapter (1092). However, we undertake that we will add additional sampling time i.e. 15 minutes for the initial 3 commercial batches that will be kept on stability. Upon completion of 6 months stability, we hereby commit to update our specifications and intimate DRAP accordingly.
03.	Submit valid GMP certificate of	Applicant has Copy of GMP Certificate having following

	API manufacturer.	information on it: "Certificate of GMP Compliance of a Manufacturer of Active Pharmaceutical Ingredients (APIs)" Certificate Number: MI-2016-CE-06202-1 Issued to: Zhejiang Tianyu Pharmaceutical Co Ltd Manufacturing Site Address: No 15 Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone Taizhou City Zhejiang Province P.R. China 317016 EXPIRY DATE: 15 March 2021 ISSUE DATE: 13 December 2017

Decision: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

QA / QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted photocopies of data logger record for chambers used in Real Time & Accelerated stability studies of applied product from 01-03-2018 to 30-09-2018.
13.	Method used for analysis of API along with COA.	The firm has submitted photocopies of following: • Raw Material Test/Analysis Procedures & Raw Material Specifications (In-house). • Method for analysis of API (Supplier/Manufacturer of FPP) & COA for Dapagliflozin Propanediol Monohydrate (Supplier).
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopies of following: • FPP Test/Analysis Method & FPP Specifications (In-house) for Dapawil 5mg Tablet.
15.	Reports of stability studies of API from manufacturer.	The firm has submitted photocopy of 06 Months Accelerated and 36 Months Real Time Stability Study Data of 03 Batches of Dapagliflozin Propanediol Monohydrate from M/s Jiangsu Yongan Pharmaceutical at Zone II.
16.	Analysis reports for excipients used.	The firm has submitted copy of Analytical reports of excipients used.
17.	Drug-excipients compatibility studies.	Excipients of applied drug product are similar to that of innovator product (Farxiga tablet 5mg) as submitted by firm.
18.	Record of comparative dissolution data.	The firm has submitted reports for comparative dissolution in three media including (0.1 N HCl) pH 1.2, Buffer pH 4.5 and Buffer pH 6.8.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted declaration of software quality & audit trail reports

Remarks of the Evaluator (VIII):

Sr. No.	Queries	Response
1.	Justification/Clarification for Use of Dissolution Method Different from That of US-FDA Recommended Dissolution Parameters in terms of sampling time (30min).	Applicant has submitted following: 1. Dissolution of Depawil is performed on 15 minutes in stability studies. 2. During 0 month testing and CDP, it has been performed in 30minutes, that's why test method was made according to FDA guidelines i.e. 30minutes. 3. But in stability studies the tablet dissolved within 15 minutes, as per innovator product release profile. 4. Moreover as evident by our CDP more than 85% drug was being released within 15 minutes.

2.	Please submit evidence of purchase of reference product for CDP.	Applicant has submitted invoice dated September 16, 2018 for purchase of Farxiga 5mg & 10mg tablet.
3.	Provide documents including chromatograms for initial testing of all three trial batches.	Applicant has submitted chromatograms of initial testing.
4.	Please submit copy of COA of reference/working standard for Dapagliflozin.	Applicant has submitted COA of Dapagliflozin Propanediol monohydrate working standard.
5.	Please explain why the content uniformity test is not performed for applied formulation at initial stage.	Now the applicant has submitted documents for content uniformity.
6.	Please explain why the invoice for purchase of API is not ADC attested & also mention quantity of API imported, before further processing of the case.	Commercial invoice is not ADC attested.

Decision: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

STABILITY STUDY DATA

Drug	Dapawil 5/850mg Tablet
Name of Manufacturer	"M/s Wilshire Laboratories Pvt Ltd. 124/1, Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore"
Manufacturer of API	**For Dapagliflozin (as Propanediol):** M/s. Jiangsu Yongan Pharmaceutical Co., Ltd. **For Metformin hydrochloride:** IPCA Laboratories Limited
API Lot No.	**For Dapagliflozin (as Propanediol):** Lot #: 201608001
Description of Pack (Container closure system)	Alu/Alu foil
Stability Storage Condition	Accelerated:40°C ± 2°C/75%±5% RH Real Time: 30°C ± 2°C/75%±5% RH
Time Period	Accelerated: 6 (Months) Real Time: 6 (Months)

Frequency	Accelerated: 1,2,3,4,6 (Months) Real Time: 0, 3, 6, 9,12,18, 24 (Months)		
Batch No.	Trial # 001	Trial # 002	Trial # 003
Batch Size	3.25kg	3.25kg	3.25kg
Manufacturing Date	05-18	05-18	05-18
Date of Initiation	16-05-18	16-05-18	16-05-18
No. of Batches	03		
Date of Submission	Dy No. 27855, 23-12-2019		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
9.	COA of API.	**For Dapagliflozin (as Propanediol):** Applicant has submitted following COAs: **For API:** • Copy of COA (batch No.201608001, Exp Date: July, 2018) from M/s Jiangsu Yongan Pharmaceutical is submitted. **For Metformin hydrochloride:** Applicant has submitted following COAs: **For API:** • Copy of COA (batch No.6417ML2RMI, Exp Date: NOV, 2021) from IPCA Laboratories Limited is submitted.
10.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**For Dapagliflozin (as Propanediol):** The firm has submitted copy of GMP certificate declaring following information: **Certificate No**. JS20160548 **Issued to**: Jiangsu Yongan Pharmaceutical Co., Ltd. Address: No. 18, 237 Provincial Road, Economic Development Zone, Huian Jiangus. **Issued by**: China Food & Drugs Administration, **Validity**: Valid Till 03-03-2021. **For Metformin hydrochloride:** The firm has submitted copy of GMP certificate declaring following information: **Certificate No**. RTMGMP201703180 **Issued to**: IPCA Laboratories Limited. Address: Sejavta, Dit. Ratlam Madhya Pradesh, Ratlam. **Issued by**: Food & Drugs Administration, Madya Pradesh. **Validity**: Valid Till 31-12-2021.
11.	Protocols followed for conduction of stability study and details of tests.	Yes
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
13.	Documents confirming import of API etc.	**For Dapagliflozin (as Propanediol):** The firm has submitted copy of invoice dated 10-09-2017 not attested by ADC, DRAP declaring 0.5412kg API Dapagliflozin powder alongwith working reference standard & all impurities standard. Manufacturer of API as per submitted invoice: Jiangsu Yongan Pharmaceutical Co., Ltd.

		Address: No. 18, 237 Provincial Road, Economic Development Zone, Huian Jiangus. **For Metformin hydrochloride:** The firm has submitted copy of invoice dated 21-12-2016 not attested by ADC, DRAP declaring 2000kg APIMetformin hydrochloride. Manufacturer of API as per submitted invoice: IPCA Laboratories Limited. Address: Internation Division, International House, 48 Kandivili Industrial Estate, Kandivli (West) Mumbai, India.
14.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
15.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
16.	Commitment to follow Drug Specification Rules, 1978.	Yes
REQUEST OF EXEMPTION FROM ON SITE INSPECTION		
The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided following documents as per checklist approved by the Registration Board in its 278th Meeting: Date of submission: 04-12-2019 vide diary No.27855.		
Administrative Portion		
20.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Velbuvir 400mg/100mg (Sofosbuvir/Velpatasvir 400mg/100mg) Tablets", which was conducted on 23rd of May, 2019 and was presented in --- meeting of Registration board. Registration Board decided to approve registration Velbuvir 400mg/100mg Tablets" by M/s. Wilshire Laboratories. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm has audit trail reports on Sofosbuvir testing. • The firm possesses stability chambers with digital data loggers.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	**For Dapagliflozin (as Propanediol):** The firm has submitted copy of invoice dated 10-09-2017 not attested by ADC, DRAP declaring 0.5412kg API Dapagliflozin powder alongwith working reference standard & all impurities standard. Manufacturer of API as per submitted invoice: Jiangsu Yongan Pharmaceutical Co., Ltd. Address: No. 18, 237 Provincial Road, Economic Development Zone, Huian Jiangus. **For Metformin hydrochloride:** The firm has submitted copy of invoice dated 21-12-2016 not attested by ADC, DRAP declaring 2000kg APIMetformin hydrochloride. Manufacturer of API as per submitted invoice: IPCA Laboratories Limited. Address: Internation Division, International House, 48 Kandivili Industrial Estate, Kandivli (West) Mumbai, India.
22.	Documents for the procurement of reference standard and impurity standards.	**For Dapagliflozin (as Propanediol):** The firm has submitted copy of invoice dated 10-09-2017 not attested by ADC, DRAP stating 0.5412kg API Dapagliflozin powder

		alongwith working reference standard & all impurities standard. For Working Standard & Impurities A, B, C, D, E. Dated: 10-September-2017. **For Metformin hydrochloride:** The firm has submitted copy of packing list dated 21-12-2016 stating 2000kg API Metformin hydrochloride alongwith working reference standard & all impurities standard as per packing list.
23.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**For Dapagliflozin (as Propanediol):** The firm has submitted copy of GMP certificate declaring following information: **Certificate No**. JS20160548 **Issued to**: Jiangsu Yongan Pharmaceutical Co., Ltd. Address: No. 18, 237 Provincial Road, Economic Development Zone, Huian Jiangus. **Issued by**: China Food & Drugs Administration, **Validity**: Valid Till 03-03-2021. **For Metformin hydrochloride:** The firm has submitted copy of GMP certificate declaring following information: **Certificate No**. RTMGMP201703180 **Issued to**: IPCA Laboratories Limited. Address: Sejavta, Dit. Ratlam Madhya Pradesh, Ratlam. **Issued by**: Food & Drugs Administration, Madya Pradesh. **Validity**: Valid Till 31-12-2021.
24.	Mechanism for Vendor pre-qualification	The firm has submitted vendor Prequalification assessment form for only IPCA Laboratories Limited.
25.	Certificate of analysis of the API, reference standards and impurity standards	**For Dapagliflozin (as Propanediol):** Applicant has submitted following COAs: **For API:** • Copy of COA (batch No.201608001, Exp Date: July, 2018) from M/s Jiangsu Yongan Pharmaceutical is submitted. **For reference/working standard:** ***Not Submitted.*** **For Impurities:** • Copy of COA of impurity Standards A, B, has been submitted. **For Metformin hydrochloride:** Applicant has submitted following COAs: **For API:** • Copy of COA (batch No.6417ML2RMI, Exp Date: NOV, 2021) from IPCA Laboratories Limited is submitted. **For reference/working standard:** • Copy of COA (batch No. 4002ML2RII (A), Exp Date: June, 2019) from IPCA Laboratories Limited is submitted. **For Impurities:** • ***Not submitted***
26.	Documents for the procurement of excipients used in product development?	The firm has submitted photocopy of Commercial invoices of the excipients used in the formulation of applied product.
27.	List of qualified staff involved in product development with relevant experience.	The firm has submitted List of qualified staff comprising of 06 members as per list involved in R&D
Production Data		

<table>
<tr><td>28.</td><td>Authorized Protocols/SOP for the development & stability testing of trial batches.</td><td>Yes</td></tr>

The firm has submitted photocopy of 06 Months Accelerated and 36 Months Real Time Stability Study Data of 03 Batches of Dapagliflozin Propanediol Monohydrate from M/s Jiangsu Yongan Pharmaceutical at Zone II.
<u>For Metformin hydrochloride:</u>
The firm has submitted photocopy of 06 Months Accelerated and 60 Months Real Time Stability Study Data of 03 Batches of Metformin hydrochloride from M/s IPCA Laboratories Limited at Zone IV A.</td></tr>
<tr><td>35.</td><td>Analysis reports for excipients used.</td><td>The firm has submitted copy of Analytical reports of excipients used.</td></tr>
</table>

36.	Drug-excipients compatibility studies.	Excipients of applied drug product are similar to that of innovator product (xigduo 5/850mg tablet) as submitted by firm.
37.	Record of comparative dissolution data.	The firm has submitted reports for comparative dissolution in three media including (0.1 N HCl) pH 1.2, Buffer pH 4.5 and Buffer pH 6.8 innovator Xigdou 5/850mg tablets.
38.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted declaration of software quality & audit trail reports

Remarks of the Evaluator (VIII):

Sr. No.	Queries	Response
1.	Please clarify whether applied formulation is extended release or film coated tablet as in submitted dossier under heading of brand name & composition extended release is written & in clinical data & justification film coated is mentioned.	Applicant has clarified that applied formulation is film coated tablet.
2.	Please explain why the invoices for both APIs are not ADC attested.	Applicant has submitted the following: Dapagliflozin: Commercial invoice is not ADC attested. Metformin hydrochloride: ADC attested commercial invoice is submitted.
3.	Mention lot No. of API Metformin hydrochloride, as it is not mentioned on invoice.	--------
4.	Method for test/analysis of API is in-house or supplier? Moreover submit interpretation for using titration method for assay of Metformin hydrochloride.	Applicant has submitted Suppliers method test/analysis of API.
5.	Submit master formulation of applied formulation.	Not submitted.
6.	Please submit clarification for difference in the address of the manufacturer of metformin hydrochloride on invoice & on GMP certificate, moreover submit the GMP Certificate of relevant site & also provide list of drugs for which GMP certificate is issued to M/s. IPCA.	Applicant has submitted following: Address mentioned on commercial invoice is of office while the address on GMP is of manufacturing site. Applicant has submitted GMP certificate of another site of IPCA Laboratories Limited having address H4, MIDC, Waluj, Aurangabad, Maharastra state India. Issued by: Food & Drug Administration, Mahashtra, india.
7.	Submit evidence of purchase of reference product for CDP.	Applicant has submitted invoice dated October 1st 2018 for purchase of Xigduo 5/850mg & 5/1000mg tablet.
8.	Please explain why the content uniformity test is not performed for applied formulation.	Now the applicant has submitted documents for content uniformity.
9.	Please provide reference for selection of dissolution parameters for applied formulation before further processing of the case.	Dissolution parameters for applied formulation are following: Apparatus I, Basket 20mesh Rotation: 100rpm Time: 45 minutes Volume 1000ml

Decision: Deferred for following submissions:

- **Clarification of applied formulation, whether extended release or film coated**
- **Lot number of metformin hydrochloride API used in the stability studies along with evidence of its import**

- **Master formulation for the applied product**
- **Revised finished product specifications in the light of specifications of the innovator product and decision of 293rd meeting of Registration Board.**
- **Specify the exact site address of API manufacturer of metformin hydrochloride along with submission of its GMP certificate.**

6	Please submit clarification for difference in the address of the manufacturer of metformin hydrochloride on invoice & on GMP certificate, moreover submit the GMP Certificate of relevant site & also provide list of drugs for which GMP certificate is issued to M/s. IPCA.	Applicant has submitted following: Address mentioned on commercial invoice is of office while the address on GMP is of manufacturing site. applicant has submitted GMP certificate of another site of IPCA Laboratories Limited having address H4, MIDC, Waluj, Aurangabad, Maharastra state India. Issued by: Food & Drug Administration, Mahashtra, india.
7	Submit evidence of purchase of reference product for CDP.	Applicant has submitted invoice dated October 1st 2018 for purchase of Xigduo 5/850mg & 5/1000mg tablet.
8	Please explain why the content uniformity test is not performed for applied formulation.	Now the applicant has submitted documents for content uniformity.
9	Please provide reference for selection of dissolution parameters for applied formulation before further processing of the case.	dissolution parameters for applied formulation are following: Apparatus I, Basket 20mesh Rotation: 100rpm Time: 45 minutes Volume 1000ml

Decision: Deferred for following submissions:

- **Clarification of applied formulation, whether extended release or film coated**
- **Lot number of metformin hydrochloride API used in the stability studies along with evidence of its import**
- **Master formulation for the applied product**
- **Revised finished product specifications in the light of specifications of the innovator product and decision of 293rd meeting of Registration Board.**
- **Specify the exact site address of API manufacturer of metformin hydrochloride along with submission of its GMP certificate.**

1581.	**Name and address of manufacturer / Applicant**	**M/s Jenner Pharma, Lahore**
	Brand Name +Dosage Form + Strength	Plexodol Tablets 75mg
	Composition	Each film coated tablet contains: Tapentadol (as hydrochloride)……75mg
	Diary No. Date of R& I & fee	Dairy No. 913dated 30.09.15 Rs:50,000 dated 29.09.2015
	Pharmacological Group	Analgesic, Opioids

	Type of Form	Form 5D
	Finished product Specifications	In house specifications/Manufacturer's specifications
	Pack size & Demanded Price	As per SRO Alu foil, PVC 10's
	Approval status of product in Reference Regulatory Authorities	Palexia Tablets by Grunenthal Ltd. UK Approved in USFDA
	Me-too status (with strength and dosage form)	N/A
	Previous Decision	Registration Board in its 254th meeting decided as follow: Deferred for Stability Data as per guidelines approved by the Board in 251st meeting.
	Evaluation by PEC	Now the firm has submitted stability studies data details of which are given below:

STABILITY STUDY DATA

Drug	Plexodol Tablets 75mg		
Name of Manufacturer	M/s Jenner Pharma, Lahore		
Manufacturer of API	M/s. Precise Chemipharm Pvt. Ltd.		
API Lot No.	Batch No. 6010032019		
Description of Pack (Container closure system)	alu/alu blister		
Stability Storage Condition	Real Time: 30°C ± 2°C / 65% ± 5%RH Accelerated:40°C ±2°C / 75% ± 5%RH		
Time Period	Real Time: 12 Months Accelerated:06Months		
Frequency	Real Time: 0,3,6,9,12 Months(on going) Accelerated: 0,1,2,3,4,6 Months

Batch Size	1000 tablets	1000 tablets	1000 tablets
Manufacturing Date	05-2019	05-2019	05-2019
Date of Initiation			
No. of Batches	03		
Date of Submission	Dy No.27741 , 20/12/2019		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API	Applicant has submitted following COAs: **For API:** • Copy of COA for Tapentadol hydrochloride Batch No. 6010032019.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has submitted copy of GMP certificate declaring following information: **Certificate No**. 6090300 **Issued to**: M/s. Precise Chemipharm Pvt. Ltd. Address: C-384, T.T.C. Industrial Area M.I.D.C Village PAWNE, Navi Mumbai 400703, India. **Issued by**: Food & Drugs Administration, KonKan Division, Maharashtra State. **Validity**: Valid Till 21-09-2020.

3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	The firm has submitted copy of invoice dated 01-04-2019 attested by ADC, DRAP on 08-04-2019 declaring 0.6kg API Tapentadol hydrochloride (Batch No. 6010032019). Manufacturer of API as per submitted invoice: M/s. Precise Chemipharm Pvt. Ltd. Address: C-384, T.T.C. Industrial Area M.I.D.C Village PAWNE, Navi Mumbai 400703, India.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided following documents as per checklist approved by the Registration Board in its 278th Meeting:
Date of submission: 20-12-2019 vide diary No.27741.

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Sofpas tablet 400mg/100mg (Sofosbuvir/Velpatasvir 400mg/100mg) Tablets", which was conducted on 10th of December, 2018 and was presented in 287th meeting of Registration board. Registration Board decided to approve registration of Sofpas tablet 400mg/100mg Tablets" by M/s. Wilshire Laboratories. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm demonstrated audit trail reports of data submitted for Sofpas testing. • The firm has two separate Memmert (Germany) stability chambers for Real Time and Accelerated stability studies which are equipped with data loggers.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of invoice dated 01-04-2019 attested by ADC, DRAP on 08-04-2019 declaring 0.6kg API Tapentadol hydrochloride (Batch No. 6010032019). Manufacturer of API as per submitted invoice: M/s. Precise Chemipharm Pvt. Ltd. Address: C-384, T.T.C. Industrial Area M.I.D.C Village PAWNE, Navi Mumbai 400703, India.
3.	Documents for the procurement of reference standard and impurity	The firm has submitted Following: **For Working Standard:** Firm has stated that Tapentadol hydrochloride working standard was

<table>
<tr><td></td><td>standards.</td><td>received alongwith shipment of API.
Copy of COA for Tapentadol hydrochloride Batch No. 6010032019.
<u>For Impurity Standards:</u>
Firm has stated that working standard is received through indenter M/s. Synapse Chemicals.</td></tr>
<tr><td>4.</td><td>Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.</td><td>The firm has submitted copy of GMP certificate declaring following information:
Certificate No. 6090300
Issued to: M/s. Precise Chemipharm Pvt. Ltd.
Address: C-384, T.T.C. Industrial Area M.I.D.C Village PAWNE, Navi Mumbai 400703, India.
Issued by: Food & Drugs Administration, KonKan Division, Maharashtra State.
Validity: Valid Till 21-09-2020.</td></tr>
<tr><td>5.</td><td>Mechanism for Vendor pre-qualification</td><td>The firm has submitted a document with the name rational for selection of manufacturer of API.</td></tr>
<tr><td>6.</td><td>Certificate of analysis of the API, reference standards and impurity standards.</td><td>Applicant has submitted following COAs:
<u>For API:</u>
• Copy of COA for Tapentadol hydrochloride Batch No. 6010032019.
<u>For reference/working standard:</u>
Copy of COA for Tapentadol hydrochloride working standard Batch No. 6001012017.</td></tr>
<tr><td>7.</td><td>Documents for the procurement of excipients used in product development?</td><td>The firm has submitted photocopy of Commercial invoices of the excipients used in the formulation of applied product.</td></tr>
<tr><td>8.</td><td>List of qualified staff involved in product development with relevant experience.</td><td>The firm has submitted List of qualified staff comprising of 03 members as per list involved in R&D</td></tr>
<tr><td colspan="3">Production Data</td></tr>
<tr><td>9.</td><td>Authorized Protocols/SOP for the development & stability testing of trial batches.</td><td>Yes</td></tr>
<tr><td>10.</td><td>Complete batch manufacturing record of three stability batches.</td><td>The firm has submitted photocopy of Batch Manufacturing Orders of following 03 Batches:
<table><tr><th>Batch No.</th><th>Batch Size</th><th>Mfg. Date</th></tr><tr><td>PLX-PB-013001</td><td>1000 tablets</td><td>05-2019</td></tr><tr><td>PLX-PB-013002</td><td>1000 tablets</td><td>05-2019</td></tr><tr><td>PLX-PB-013003</td><td>1000 tablets</td><td>05-2019</td></tr></table></td></tr>
<tr><td>11.</td><td>Record of remaining quantities of stability batches.</td><td>The firm has submitted reconciliation sheet mentioning following
<table><tr><th>Batch No.</th><th>Plexodol Tablets 75mg</th></tr><tr><td>PLX-PB-013001</td><td>26 packs left for RT stability</td></tr><tr><td>PLX-PB-013002</td><td>26 packs left for RT stability</td></tr><tr><td>PLX-PB-013003</td><td>26 packs left for RT stability</td></tr></table></td></tr>
<tr><td colspan="3">QA / QC DATA</td></tr>
<tr><td>12.</td><td>Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).</td><td>Firm has submitted photocopies of data logger record for chambers used in Real Time & Accelerated stability studies of applied product from 01-03-2018 to 30-09-2018.</td></tr>
<tr><td>13.</td><td>Method used for analysis of API along with COA.</td><td>The firm has submitted photocopies of following:
• Method for analysis of API (Supplier/Manufacturer of FPP) & COA for Tapentadol hydrochloride (Supplier).</td></tr>
</table>

14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted photocopies of following: • FPP Test/Analysis Method & FPP Specifications (In-house) for Plexodol Tablets 75mg.
15.	Reports of stability studies of API from manufacturer.	The firm has submitted photocopy of 06 Months Accelerated and 36 Months Real Time Stability Study Data of 03 Batches of Tapentadol hydrochloride from M/s Precise Chemipharm at Zone II.
16.	Analysis reports for excipients used.	The firm has submitted copy of Analytical reports of excipients used.
17.	Drug-excipients compatibility studies.	Formulation of applied drug product is qualitatively similar to that of innovator Brand Palexia tablets 75mg.
18.	Record of comparative dissolution data.	The firm has submitted reports for comparative dissolution in three media including (0.1 N HCl) pH 1.2, Buffer pH 4.5 and Buffer pH 6.8.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Yes

Remarks of the Evaluator (VIII):

Sr. No.	Queries	Response
1.	Submit documents for the procurement of reference Standard.	Firm has stated that Tapentadol hydrochloride working standard was received alongwith shipment of API.
2.	Reference for selection of sampling time 60 minutes in dissolution testing.	Sampling time 60 minutes for dissolution testing is selected from USFDA dissolution database. However drug release results are above 90 minutes in 20 minutes at "2nd sampling time point" as shown in provided CDP data in Question 18 of dossier.
3.	Provide COA of API "Tapentadol hydrochloride" by FPP manufacturer.	Applicant has submitted COA of Tapentadol hydrochloride by Jenner Pharmaceuticals.
4.	Please provide procedure of CDP & reference for selection of time points for CDP & clarification for not performing CDP for applied drug product with innovator product. (Me too product).	Applicant has submitted that a Procedure & time point for CDP is same as USFDA dissolution database. Since innovator brand is not available in Pakistan so we used product from local manufacture " Tapento tablets by Sami Pharma, Registration No. 093064 for CDP analysis.

Decision: Registration Board decided as follows:

- **Accept the stability study data as the dissolution specifications falls within the definition of immediate release drug product and approved registration of Plexodol Tablets 75mg with Innovator's specifications by M/s Jenner Pharma, Lahore, wherein manufacturer will adopt the dissolution specifications i.e. NLT Q at 30 minutes in line with innovator product for commercial production batches.**
- **Furthermore, manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

1582.	Name and address of manufacturer / Applicant	M/s Jenner Pharma, Lahore

1.5		**Detailed Information of Drug, Dosage From & Labelling Claims** Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug. **Tirofiban Hydrochloride and Sodium Chloride Injection**
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit 5mg /100ml
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trade mark certification / clearance. **Tirofiban Hydrochloride and Sodium Chloride Injection**
	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. As per SRO
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) **B01AC: Platelet aggregation inhibitors excl. heparin**
	1.5.6	Pharmacopoeial reference / Status of applied formulation Chinese Pharmacopoeia
	1.5.7	Route of administration Intravenous route of administration
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price. N/A
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. Approved in USFDA.
	1.5.10	Dosage form of applied drug **Solution for Injection**
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens **Submitted**
	1.5.12	Description of Batch numbering system
	1.5.13	Training evidence of technical staff with respect of manufacturing of applied drug (mandatory in case of specially designed pharmaceutical product / Novel Dosage Form).
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & Adverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard.
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined.
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so.
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the

		specifications. In both cases, the validation of specifications shall be done by the applicant.
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals.
	1.5.20	Other commitment e.g., regarding stability studies etc.
	1.5.21	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.
	1.5.22	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
1.6		**Miscellaneous Information** Submitted
	1.6.1	Information on Prior-related Applications
	1.6.2	Appendix -
	1.6.3	Electronic Review Package
	1.6.4	QIS (Quality Information Summary)
	1.6.5	Drug Substance related Document including following: a. Name and address of API manufacturer. b. Approval of manufacturing facility of API by regulatory body of country and validity. c. Vendor qualification / audit is □ Document based □ Site inspection based d. Reason for point c.
	COPP **Original, legalized CoPP** **Issued by:** Hubei Food & Drug Administration **Certificate No:**20180064 GMP status: it confirms the GMP of manufacturer and free sale status of product in country of origin. Validity: The certificate is valid till November 2020.

		The applicant has stated that since complete stability studies of 36 months are submitted, post-approval stability commitment is not required.
	3.2.P.8.3	**Stability** ***Submitted***
		The firm has submitted 6 month accelerated stability study data and 36 months long term stability study data for three batches at zone IV b conditions.
Decision: Deferred for submission of stability study data of drug substance both accelerated & real time conducted in accordance with Zone IV A conditions.		

Case no. 01 Registration applications for local manufacturing of (Human) drugs

a. New cases

1584.	Name and address of manufacture / Applicant	M/s Arsons Pharmaceutical Industries Pciposevt. Ltd. Plot 2.5km Defence Road, Off Multan Road, Lahore,
	Brand Name + Dosage Form and Strength	Arglipmet-D 50/1000 mg Tablet
	Composition	Each Film Coated Tablet Contains: Vildagliptin…..50mg Metformin HCl……1000mg
	Dairy No. date of R &I fee	Dy.No 42388 dated 11-12-2018 Rs. 20,000/- Dated 11-12-2018
	Pharmacological Group	Blood glucose lowering drugs, excl. Insulins
	Type of form	Form 5
	Finished product specifications	In house
	Pack size and Demand Price	28's; As per SRO
	Approval status of product in Reference Regulatory Authorities	GALVUMET® (50 mg vildagliptin and 1,000 mg metformin hydrochloride) of TGA; Australia Approved
	Me-too-status	GALVUS MET 50mg/1000mg Tablets by Novartis Pharma (Reg. No. 66107)
	GMP Status	The firm was inspected on 18-09-2019 and conclusion of inspection was: Based on the inspection of the manufacturing facility and evaluation of documents, the panel is of the opinion that the firm M/s Arsons Pharmaceuticals Lahore as operating at satisfactory level of GMP compliance of following sections on the day of inspection: 1- Tablet (General, Psychotropic) 2- Capsule (General) 3- Cream/Ointment/Gel (General) Firm was given several advises for improvements which are given in detail in the report. Detailed report of other sections which come under Medical Devices is forwarded to the directorate of Medical Devices.
	Remark of the Evaluator [XI]	• Firm submitted undertaking signed by qualified persons along with list of equipment's used for the quality control of raw material and finished products.
	Decision: Approved as per innovator's specifications	
1585.	Name and address of manufacture / Applicant	M/s Arsons Pharmaceutical Industries Pvt Ltd. Plot 2.5km Defence Road, Off Multan Road, Lahore, Pakistan
	Brand Name + Dosage Form and Strength	Arglipmet 50/850 mg Tablet
	Composition	Each Film Coated Tablet Contains: Vildagliptin……50mg Metformin HCl……850mg
	Dairy No. date of R &I fee	Dy.No 42389 dated 11-12-2018 Rs.20,000/- Dated 11-12-2018
	Pharmacological Group	Blood glucose lowering drugs, excl. Insulins
	Type of form	Form 5
	Finished product specifications	In house
	Pack size and Demand Price	28's; As per SRO
	Approval status of product in Reference Regulatory Authorities	GALVUMET® (50 mg vildagliptin and 850 mg metformin hydrochloride) of TGA; Australia Approved
	Me-too-status	GALVUS MET 50mg/850mg TABLETS by Novartis Pharma (Reg. No. 66106)

	GMP Status	The firm was inspected on 18-09-2019 and conclusion of inspection was: Based on the inspection of the manufacturing facility and evaluation of documents, the panel is of the opinion that the firm M/s Arsons Pharmaceuticals Lahore as operating at satisfactory level of GMP compliance of following sections on the day of inspection: 1- Tablet (General, Psychotropic) 2- Capsule (General) 3- Cream/Ointment/Gel (General) Firm was given several advises for improvements which are given in detail in the report. Detailed report of other sections which come under Medical Devices is forwarded to the directorate of Medical Devices.
	Remark of the Evaluator [XI]	• Firm submitted undertaking signed by qualified persons along with list of equipment's used for the quality control of raw material and finished products.
	Decision: Approved as per innovator's specifications	
1586.	Name and address of manufacture / Applicant	M/s Arsons Pharmaceutical Industries Pvt Ltd. Plot 2.5km Defence Road,Off Multan Road, Lahore, Pakistan
	Brand Name + Dosage Form and Strength	Armethrin 30gm Cream
	Composition	Each gram Contains: Permethrin…..5% w/w
	Dairy No. date of R &I fee	Dy.No 42398 dated 11-12-2018 Rs.20,000/- Dated 11-12-2018
	Pharmacological Group	Ectoparasiticides, Incl. Scabicides, Insecticides And Repellents
	Type of form	Form 5
	Finished product specifications	In house
	Pack size and Demand Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Permethrin cream 5% w/w of USFDA approved
	Me-too-status	LOTRIX CRM by M/s WELLCOME Pharma (Reg. No. 10516)
	GMP Status	The firm was inspected on 18-09-2019 and conclusion of inspection was: Based on the inspection of the manufacturing facility and evaluation of documents, the panel is of the opinion that the firm M/s Arsons Pharmaceuticals Lahore as operating at satisfactory level of GMP compliance of following sections on the day of inspection: 1- Tablet (General, Psychotropic) 2- Capsule (General) 3- Cream/Ointment/Gel (General) Firm was given several advises for improvements which are given in detail in the report. Detailed report of other sections which come under Medical Devices is forwarded to the directorate of Medical Devices.
	Remark of the Evaluator [XI]	• Firm submitted complete form 5 mentioning the composition duly signed by the qualified persons. • Firm submitted master formulation, manufacturing outline, list of equipment's used in production and quality control and commitments as per decision of 251st meeting of Registration Board.
	Decision: Approved as per innovator's specifications	

1587.	Name and address of manufacture / Applicant	M/s Arsons Pharmaceutical Industries Pvt Ltd. Plot 2.5km Defence Road, Off Multan Road, Lahore, Pakistan
	Brand Name + Dosage Form and Strength	Clobisol Cream 15gm
	Composition	Each gram contains: Clobetasol Propionate…… 0.5mg (0.05% w/w)
	Dairy No. date of R &I fee	Dy.No 42396 dated 11-12-2018 Rs.20,000/- Dated 11-12-2018
	Pharmacological Group	Corticosteroids, Dermatological Preparations
	Type of form	Form 5
	Finished product specifications	USP
	Pack size and Demand Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	MHRA Approved (Aluminium tube)
	Me-too-status	Clobeta Cream by M/s Saffron Pharmaceuticals (Reg. No. 46429)
	GMP Status	The firm was inspected on 18-09-2019 and conclusion of inspection was: Based on the inspection of the manufacturing facility and evaluation of documents, the panel is of the opinion that the firm M/s Arsons Pharmaceuticals Lahore as operating at satisfactory level of GMP compliance of following sections on the day of inspection: 1- Tablet (General, Psychotropic) 2- Capsule (General) 3- Cream/Ointment/Gel (General) Firm was given several advises for improvements which are given in detail in the report. 	Remark of the Evaluator [XI]	• Firm submitted revised form 5 mentioning the composition but not considering the salt factor in case of dexamethasone and without submission of fee. • Firm submitted undertaking signed by the qualified persons. • Firm submitted master formulation but weight of API was not adjusted considering the salt factor • Firm submitted manufacturing outline • Approval status of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting and me-too status could not be verified. • Firm submitted list of equipment's used in production and quality control and commitments as per decision of 251st meeting of Registration Board.
	Decision: Deferred for following: • **Evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.** • **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.** • **Revision of formulation considering the salt factor in case of dexamethasone and submission of fee along with adjustment of API weight in master formulation considering the salt factor**	
1591.	Name and address of manufacture / Applicant	M/s Arsons Pharmaceutical Industries Pvt. Ltd. Plot 2.5km Defence Road, Off Multan Road, Lahore, Pakistan
	Brand Name + Dosage Form and Strength	Rezolid 400mg Tablet
	Composition	Each Film Coated Tablet Contains: Linezolid…….400mg
	Dairy No. date of R &I fee	Dy.No 42390 dated 11-12-2018 Rs.20,000/- Dated 11-12-2018
	Pharmacological Group	Oxazolidinone Antibiotic
	Type of form	Form 5
	Finished product specifications	In house
	Pack size and Demand Price	12's, As per SRO
	Approval status of product in Reference Regulatory Authorities	ZYVOX 400mg film-coated tablets Tablet USFDA Approved. Discontinued **Federal Register determination that product

		was not discontinued or withdrawn for safety or efficacy reasons* (as per USFDA website)
	Me-too-status	Nezocin Tablets 400mg by M/s Brookes Pharmaceuticals (Reg. No.55004)
	GMP Status	The firm was inspected on 18-09-2019 and conclusion of inspection was: Based on the inspection of the manufacturing facility and evaluation of documents, the panel is of the opinion that the firm M/s Arsons Pharmaceuticals Lahore as operating at satisfactory level of GMP compliance of following sections on the day of inspection: 1- Tablet (General, Psychotropic) 2- Capsule (General) 3- Cream/Ointment/Gel (General) Firm was given several advises for improvements which are given in detail in the report. Detailed report of other sections which come under Medical Devices is forwarded to the irectorate of Medical Devices.
	Remark of the Evaluator [XI]	• Firm replied that they will use polymorphic form S (Form III). • Firm submitted undertaking signed by qualified persons along with list of equipment's used for the quality control of raw material and finished products. • LINEZOLID SANDOZ 600mg Pharmaceutical development The substance exhibits at least three polymorphic forms, and one chiral centre. Linezolid has the S-configuration. The polymorph manufactured is Form-III. Linezolid can exist in different polymorphic forms. While in the innovator product polymorphic form II is present, the applied product uses drug substance with polymorphic form III. Since the bioequivalence of the applied product Linezolid 600 mg film-coated tablets (polymorphic form III) versus the reference product (polymorphic form II) has been demonstrated, it can be assumed that polymorphic forms does not affect in-vivo performance. Reference: Linezolid Sandoz 600 mg, film-coated tablets (linezolid) NL/H/2965/001/DC (Date: 8 January 2015) • https://mri.cts-mrp.eu/Human/Downloads/NL_H_2965_001_PAR.pdf
	Decision: Approved as per innovator's specifications

	Type of form	Form 5
	Finished product specifications	In house
	Pack size and Demand Price	12's, As per SRO
	Approval status of product in Reference Regulatory Authorities	ZYVOX 600mg film coated Tablets USFDA Approved.

	Me-too-status	Nezocin Tablets 600mg by M/s Brookes Pharmaceuticals (Reg. No.55005)
	GMP Status	The firm was inspected on 18-09-2019 and conclusion of inspection was: Based on the inspection of the manufacturing facility and evaluation of documents, the panel is of the opinion that the firm M/s Arsons Pharmaceuticals Lahore as operating at satisfactory level of GMP compliance of following sections on the day of inspection: 1- Tablet (General, Psychotropic) 2- Capsule (General) 3- Cream/Ointment/Gel (General) Firm was given several advises for improvements which are given in detail in the report. Detailed report of other sections which come under Medical Devices is forwarded to the irectorate of Medical Devices.
	Remark of the Evaluator [XI]	• Firm replied that they will use polymorphic form S (Form III). • Firm submitted undertaking signed by qualified persons along with list of equipment's used for the quality control of raw material and finished products. • LINEZOLID SANDOZ 600mg Pharmaceutical development The substance exhibits at least three polymorphic forms, and one chiral centre. Linezolid has the S-configuration. the polymorph manufactured is Form-III. Linezolid can exist in different polymorphic forms. While in the innovator product polymorphic form II is present, the applied product uses drug substance with polymorphic form III. Since the bioequivalence of the applied product Linezolid 600 mg film-coated tablets (polymorphic form III) versus the reference product (polymorphic form II) has been demonstrated, it can be assumed that polymorphic forms does not affect in-vivo performance. Reference: Linezolid Sandoz 600 mg, film-coated tablets (linezolid) NL/H/2965/001/DC (Date: 8 January 2015) https://mri.cts-mrp.eu/Human/Downloads/NL_H_2965_001_PAR.pdf
	Decision: Approved as per innovator's specifications

	Approval status of product in Reference Regulatory Authorities	Cytotec (100 mcg, 200 mcg) tablets (USFDA Approved)
	Me-too-status	Prosotec 100mcg Tablet by Atco Laboratories Limited (Reg#58355)
	GMP Status	The firm was inspected on 29-01-2019 and conclusion of inspection was: The firm is overall GMP compliant.
	Remark of the Evaluator [XI]	• The firm revised the 1st page of form 5 as per approved formate • The firm has claimed manufacturer's specifications but the official monograph is available in IP. • Misoprostol is used as 1% dispersion which is an intermediate and not the active substance. Do we need additional documents, source fixation and fee? • Approved with boxed warning of ―misoprostol administration to women who are pregnant can cause birth defects, abortion, premature birth or uterine rupture.
	Decision: Approved with IP specifications and with boxed warning of ―misoprostol administration to women who are pregnant can cause birth defects, abortion, premature birth or uterine rupture.

	Composition	Each 5ml Contains: Cephradine …250mg
	Dairy No. date of R &I fee	Dy. No 15881 dated 07-03-2019 Rs. 20,000/- Dated 04-03-2019
	Pharmacological Group	Cephalosporin
	Type of form	Form-5
	Finished product specifications	USP
	Pack size and Demand Price	As per SRO
	Approval status of product in reference regulatory Authorities	Nicef Syrup 250mg/5ml / Cefradine Syrup 250mg/5ml Approved in MHRA as syrup
	Me-too-status	Cephrascot Oral Suspension by Scotmann Pharmaceuticals (Reg. 028221)
	GMP Status	The firm was inspected on 01-10-2019 and conclusion of inspection was: Based on the areas inspected, the people met, documents reviewed and considering the findings especially the efforts in removal of observations noticed during the last inspection of the premises, the panel unanimously recommended: 1- Renewal of DML 2- Grant of additional sections. I- Cephalosporin (capsule) II- Cephalosporin (Dry suspension)
	Previous Remark of the Evaluator [XI]	• MHRA mentions CEFRADINE as powder of syrup (cefradine anhydrous). • The case was evaluated with the reference to AUGMENTIN DUO claims that product is in syrup form, but actually is suspension. In this regard, DRAP has previously sent email to TGA (Therapeutic Goods Administration) Australia. On this behalf TGA (Australia) clarified the situation that AUGMENTIN

		DUO is not syrup, and technically you are right after reconstitution product prepare as suspension.
	Previous Decision	• Deferred in 293rd meeting for further deliberations
	Evaluation by PEC	•
	Decision: Approved	

Deferred Cases (Veterinary):

1920.	Name and address of Manufacturer / Applicant	D-Haans Pharma (Pvt) Ltd. Plot No. 9/A, Industrial Estate, Bhimber, AJK.
	Brand Name, Dosage Form, Strength	FEN HANS 25 % ORAL LIQUID
	Composition	Each 100ml contains:- Florfenicol …… 25g Colistin Sulphate……50MIU
	Diary No., Date of R & I & Fee	Dy.No 1512 dated 14/02/2020; Rs. 20,000 14/02/2020

No: 1362 Dated. 10/3/2016 Rs.50,000/- (10/March/2016) 1's.., As per SRO 5's.. As per SRO 10's. As per SRO 20's.., As per SRO 30's.. As per SRO 50's. As per SRO	Jardiance tablet 25 mg by M/s Boehringer Ingelheim (USFDA Approved). GMP inspection report conducted on Last inspection was conducted on 27-08-2018, 05-10-2018, 06-11-2018 Based on observations the firm was found to be operating at satisfactory level of GMP compliance at the time of inspections.

STABILITY STUDY DATA (AD-PEC-VI)	
Drug	Diamant 25 mg tablet
Name of Manufacturer	M/s Wilshire Laboratories Pvt Ltd. 124/1, Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore
Manufacturer of API	**Empagliflozin :** M/s Zhejing materials industry chemical group co. Ltd. 25 floor tower A, Zhongda plaza, Zhongshan road, Hangzhou china
API Lot No.	**Empagliflozin:** 20170401

Description of Pack (Container closure system)	Al foil 2x10's		
Stability Storage Condition	Real time : 30°C ± 2°C / 75% ± 5% RH Accelerated: 40°C ± 2°C / 75% ± 5% RH		
Time Period	Real time: 6 months Accelerated:6 months		
Frequency	Accelerated: 0,3,6 (month) Real Time: 0,3,6 (month)		
Batch No.	**T#001**	**T#002**	**T#003**
Batch Size	0.45 kg	0.45 kg	0.45 kg
Manufacturing Date	3-2018	3-2018	3-2018
Date of Initiation	10-3-18	10-3-18	10-3-18
No. of Batches	03		
Date of Submission	13/12/18 (Dy. No. 12527)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Empagliflozin:** Copy of GMP certificate issued to MSN M/s Zhejing Hongyun pharmaceuticals co. Ltd, The said certificate has been issued by Taizhou city no Zhejiang province
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	**Empagliflozin:** Copy of commercial invoice has been submitted but it is not attested by ADC, DRAP.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

Following short comings were convey to the firm via letter No. F.1-1/2018 / PEC- DRAP (AD PEC-VII)

Sr.#	**Deficiency/Observation** (AD-PEC-VI)	**Response by Pharma.**
i.	Submitted GMP certificate of supplier of API was issued by Taizhou city. Provide GMP certificate of the relevant Drug regulatory authority i.e. provincial or federal authority is needed.	New GMP certificate provided, authorized by FDA
ii.	Invoice for importing API is not ADC attested. Clarify	Firm responded that the material was received by the courier but no tracking ID was provided

iii.	In the dossier, in many points e.g. in point 28, velbuvir is mentioned instead of Diamant 25.Clarify.	It's a typo mistaken rectified by the firm
iv.	The commercial invoice is from M/s Zhejing materials industry chemical group co. Ltd. and mentions manufacturer as Zheijiang Hongyuan Pharmaceutical Co. Ltd. Provide the relationship.	Firm provide the statement from the manufacturer that Zhejiang Hongyuan pharmaceuticals Co., Ltd is one of the sub companies of Zheijang Material industry chemical group (ZMICHEM)all the export business would be through ZMICHEM or from Honygyuan
v.	The API quantity imported as per commercial invoice is 0.535 kg. Justify the quantity of API imported which is less than the total of API dispensed for all the three batches (0.45 Kg per batch).	The firm clarify that they had imported 0.535 kg but the overall batch size of diamant 25 mg is 0.45 kg along with excipient and 0.063 kg is the weight of the active for one trial batch.
vi.	Provide reference for assay calculation formula i.e. Assay= Sample Area / Standard Area x Weight of Standard /Weight of Sample x P x 100	Firm claims that they have taken equivalent weight of standard and sample in same dilution that's why concentrations was not mentioned but we have revised complete formula for assay in test method.
vii.	Submit raw data sheets and system suitability sheets of each time point.	For system suitability the tailing factor and theoretical plates are already mentioned in all chromatograms
viii.	The injection volume mentioned in test method of assay and dissolution is 10 µl whereas, in the chromatograms is 20 µl. Justify.	It's a typo error in test method. Correction has been made in test methods and reference was provided.
ix.	The innovators finished product release specifications tests for this dosage form including uniformity of dosage unit. Justify the exemption of these tests.	Firm claim that we have performed the uniformity of dosage unit on all 3 trial batches with previously validated method and results found satisfactory (85%-115%). Documents and chromatograms are provided. Microbial test are also performed on 3 trial batches and results found satisfactory. COA of trail batches are provided.
x.	1st month assay chromatograms for accelerated stability not provided for all the three batches.	**Not provided**
xi.	Stability data sheets of real time analysis not provided.	Provided

(AD-PEC-VI)

Registration Board was approised that the firm has also submitted data for exemption from onsite inspection of submitted stability study data.

Decision: Registration Board decided to defer the case for evaluation of data submitted for exemption from onsite inspection of submitted stability study data.

REMARKS OF EVALUATOR

Justify the dissolution specification NLT= Q in 30 minutes. Since dissolution acceptance criteria of innovators product (Jardiance) is NLT Q in 15minutes. (The value of Q in USP general chapters and FDA guideline is 75-80%).

Decision of 293rd meeting: Registration Board decided to defer the cases of Diamant 25 mg tablet & Diamant 10 mg tablet and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches of both Diamant 25 mg tablet & Diamant 10 mg tablet.

Evaluation by PEC (AD-PEC-VI)
: The firm has submitted dissolution testing data of two batches with specification NLQ within 15minutes at initial and one month time point at both accelerated and real time stability conditions.

Registration Board was approised that the firm has also submitted data for exemption from onsite inspection of submitted stability study data.

Decision: Registration Board decided to defer the case for evaluation of data submitted for exemption from onsite inspection of submitted stability study data.

c. Verification of stability study data

d. Exemption from onsite verification of stability data

8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATORS

The firm has provided 06 Months Accelerated and 06 Months Real Time Stability Data for 03 Lab Scale Batches.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administration portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred last onsite panel inspection for instant dosage form conducted during last two years **TEFOD** *(Tenofovir Alafenamide)* **25mg Tablets** on 28th January, 2019 by following panel: 1. Dr. Rafeeq Alam Khan, Meritorious Professor, Member Registration Board 2. Mr. Aslam Shah, Member Registration Board. 3. Mr. Affan Ali Qureshi, Assistant Director (CDL), DRAP, Karachi.

Date</td><td>June- 2019</td><td>July 2020</td></tr></table>
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for complete stability studies analysis of three batches.

Remarks of Evaluator: (AD-PEC-VI)

Shortcomings communicated	**Response by the firm**
Please clarify the dissolution of Calcium Carbonate & Sodium Bicarbonate in LAGITA Chewable Tablet	As the sodium bicarbonate and Calcium carbonate used to neutralize the gastric acid. In addition, the dissolution test is not available in product specific monograph of antacid tablet (Reference provided)
Submit method of analysis of API along with certificates of analysis generated after receiving the material instead of submitting copies of BP monograph	Method of analysis from vendor and in-house method attached. Certificate of analysis also provided previously but we again attached for reference
Justify why palatability and hardness tests are not performed	Palatability and Hardness testing was performed during stability studies but not incorporated in stability summary Revised stability studies summary and initial test response attached for reference
Documents for procurement of calcium carbonate and sodium bicarbonate are not ADC attested. Clarify please	ADC endorsed invoice of Calcium carbonate and sodium bicarbonate ultra-coarse attached again for your reference. In addition, Sodium bicarbonate Form-7 and Form -3 also attached
Batch no. of sodium alginate not mentioned on commercial invoices. Submit Form 7	Form 3,7 and 5 provided
The batch no. of sodium alginate on COA H051707038 whereas on stability data sheet is 171106-R02. Justify	171106-R02 is the SAMI lab generated batch number, while the H051707038 is the batch number of manufacturer
The date of analysis of sodium alginate and sodium bicarbonate is 30-Aug-2018 and 31-Aug-2018 respectively. Whereas initial testing date mentioned on stability data sheet is 17-09-2018. Clarify the difference of dates. Moreover final date of analysis is 31-Aug-2018 whereas placement of samples in chamber is 22-09-2018. Justify the time gap between initial analysis and date of placement in chamber.	Batch testing has been completed on 03.09.2018 and the date is mentioned on the stability report i.e. 17.09.2018 is the date of reporting, and batch was kept in stability on 22.09.2018 which is in the acceptable time limit of one month, and revised stability
The retention time of initial analysis of sodium alginate in 1.603 min whereas the retention time for 1st month analysis and 6 month analysis is 1.046 min and 0.973 min respectively. Justify	The retention time can be slightly vary in different analysis at different time point but the retention of sample and standard should be same in each analysis which is same in our case.
Dissolution test for chewable table has not been performed. Justify	Dissolution test is not applicable on this formulation because it acts only physical way and have no systemic absorption sodium alginate acts in a physical way forming a raft that folates on the stomach contents and exert a demulcent effect Calcium carbonate and sodium bi carbonate only neutralize the gastric acid
In Product Development master formulation you have submitted that quantity of each API is	Attached

calculated as per their potencies. Submit calculation for potency adjustment of APIs per in house assay	
Provide target weight of tablet	Attached
Justify why impurities has not been performed	Method of analysis used to conduct the stability studies of sodium alginate is on HPLC and there is no additional peak is observed throughout accelerated stability studies
At 6 month time point accelerated stability studies, the tailing factor of sodium alginate standard is greater than 2. Justify	It is in-house developed method and the limit of tailing factor was set to NMT 3.0
The data sheet of Lab-02 mentions initial analysis date 16-07-2018, however batch has been manufactured in August 2018	Typographical error in stability summary of Lab -02 the actual initial date is 03-9-2018. Revised stability summary is attached
Approval of API by regulatory authority of country of origin or GMP certificate of all API's manufacturer issued by regulatory authority of country of origin	GMP attached
In the specification of sodium alginate API you have claimed SAMI's specification, whereas the attached monograph is of BP. Moreover the tests are not similar to the BP. You have exempted the tests of chloride, calcium and changed the specs. of sulphated ash i.e. 30% - 36% and your specs. are 19% - 37%. Justify	Material specifications is BP, which was written with every test and the specification has been revised and shared. Chlorides and Calcium tests performed and included in the specifications, while the test for sulphated Ash was the part of specification as per BP i.e. 30 % to 36 %, revised specifications is submitted
In the specification of sodium bicarbonate you have claimed SAMI's specification, whereas the attached monograph is of BP. You have not included assay of sodium bicarbonate. Justify	RM Material specification is BP and in the specifications lower limit was mentioned and upper specification was missed, specifications has been revised and submitted
In the specification of calcium carbonate, you have claimed SAMI's specification, whereas the attached monograph is of BP. The claimed specifications of assay are NLT 98.5% whereas BP specs. are 98.5% - 100.5%. Justify	RM Material specification is BP and in the specifications lower limit was mentioned and upper specification was missed, specifications has been revised and submitted
Decision: Registration Board decided to approve registration of "LAGITA Chewable Tablet " by M/s Sami Pharmaceuticals (Pvt.) Limited. F-95 S.I.T.E. Karachi. Manufacturer will place first three commercial batches of product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

	Description of Batch numbering system	No
	Training evidence of technical staff with respect of manufacturing of applied drug (mandatory in case of specially designed pharmaceutical product / Novel Dosage Form).	We have a well experienced technical team in our tableting section. We are manufacturing more than 40 products in tablets dosage form in this section.
	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP).	Yes
	Commitments	Firm has submitted undertaking/commitments on its letter head
	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.	Yes
	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.	Yes
	Information on Prior-related Applications	Not Applicable
	Electronic Review Package	Yes
	QIS (Quality Information Summary)	Yes
	Drug Substance related Document including following:	
	a. Name and address of API manufacturer.	M/s Metrochem API Private Limited, Hyderabad
	b. Approval of manufacturing facility of API by regulatory body of country and validity.	Firm has Submitted GMP certificate of M/s Metrochem API pvt Ltd and it

		is valid till 12-3-2020
	c. Vendor qualification / audit is	☑ **Document based** ☑ Site inspection based
	d. Reason for above point (c)	Already approved vendor for other API's
	MODULE 2: OVERVIEWS & SUMMARIES	
	Drug Substance	Firm has submitted overall summary of drug substance including general information, Manufacture, and characterization, control of the API, reference standard, container closure system and stability.
	Drug Product	Firm has submitted summary of drug product including description and composition of drug product, pharmaceutical development, manufacture, control of excipients, control of Drug Product, Reference standards or materials, container closure system and stability studies.
	MODULE 3: QULITY / CMC	
	3.2.S: Drug substance	
	General Information	General information on Structure, Nomenclature are provided
	Manufacture	M/s Metrochem API Private Limited, Unit-I Plot No. 62/C/6, Pipeline Road, Phase-I, IDA, Jeedimetla, Quthbullapur (M), Medchal (Dist) - 500 055 Talangana State, India.
	Characterization	Firm has submitted data.
	Control of drug substance	Firm has submitted data.
	Reference standards or materials	Firm has submitted data.
	Container closure system	Firm has submitted data.
	Stability	Firm has submitted data of 7 batches.
	3.2.P: Drug Product	
	Description and composition of drug product	Firm has submitted description and composition of drug product
	Pharmaceutical development	Firm has provided details of Pharmaceutical development, Components of the FPP, formulation development, overages, physicochemical and biological properties.
	Manufacture	Firm has submitted detail of manufacturer, batch formula, description of manufacturing process and process controls, controls of critical steps and intermediates, process validation and or evaluation.
	Control of excipients	Firm has submitted Control of excipients, Specifications, Analytical Procedures, Validation of analytical procedures, Justification of specifications, Excipients of Human or animal origin and Novel excipients
	Control of drug product	Firm has submitted details of specification, analytical procedures, validation of analytical procedures, batch analysis, and characterization of impurities and justification of specification.
	Reference standard or materials	Firm has submitted certificate of analysis of reference standards and impurity standards
	Container closure system	TUBULAR GLASS VIAL USP TYPE 1 OUTER DIA 22mm

	Stability	Firm has provided stability study data of 3 batches as per Zone IV-A
	Comparative dissolution profile	Not Applicable
	MODULE 4: NON-CLINICAL / SAFETY	
	Pharmacology	Firm has submitted Pharmacology.
	Pharmacokinetics	Firm has submitted Pharmacokinetics.
	Toxicology	Firm has submitted Toxicology.
	MODULE 5: CLINICAL / EFFICACY	

Remarks of the Evaluator.(VI):	**Response of Applicant:**
● Valid GMP certificate of API manufacturer (i.e., Metrochem API Private Ltd.) as mentioned in subsection 1.6.5 is required to be submitted.	● The valid GMP of API manufacturer (i.e. Metrochem API Private Ltd) is submitted it is valid till 12-3-2020
● You have referred various sections of QOS to module 3. It is required that you should summarize all the information as specified in section 2.3.P.3 to 2.3.P.8 of module II.	● The summarize all the information a specified in Section 2.3.P.3 to 2.3.P.8 Module II is submitted.
● The applied formulation contains Mannitol. However reference product in MHRA does not mention such excipient.	● Mintakenly the tentative formulation contains mannitol. Therefore we are enclosing Blank BMR for review purpose.
● Finished pharmaceutical product manufacturer's certificate of analysis of API with API lot numbers is required to be submitted.	● Finished Pharmaceutical product Manufacturer's Certificate of Analysis of API with API Lot Numbers is submitted
● Although you have used overkill cycle for sterilization and de-pyrogenation process, studies are required for the heat distribution and penetration and submit the data.	● The Studies for heat distribution and Penetration alongwith required data is submitted.
● Since this product is going to be diluted with various IV solutions, it is therefore very important to have compatibility studies upto the recommended time periods.	● The Compatibility studies upto recommended time period with diluents are provided.
● You have not submitted process validation data by referring that it is a me-too product. Relevant data is required as specified I 3.2.P.3.5 of Module 3.	● The Process Validation alongwith required data is provided.
● You have not submitted validation of analytical procedures under control of drug product. It is very important to submit the data as specified in 3.2.P.5.3 especially where in-house method is developed.	● Validation of Analytical Procedure under control of Drug is submitted.
● You have not submitted supporting documents like raw data sheets and chromatograms against submitted stability summary sheets of applied formulation.	● The Stability studies along with supporting documents and Chromatograms has been submitted

Decision of 293rd:: Deferred for panel verification of mannitol in formulation or otherwise.

Evaluation by PEC:
Verification of Authenticity of formulation of Esomax (Esomeprazole) 40mg IV Injection by M/s. Martin Dow Limited, K.I.A. Karachi.

Reference No: F.1-2/2020-PEC dated 02nd January, 2020.
Investigation Date and Time: 6th January, 2020. (Afternoon)
Investigation Site: Factory premises of M/s. Nabi Qasim Industries Pvt. Ltd. Karachi.

Background:
The Pharmaceutical Evaluation and Registration Division considered the application of M/s Martin Dow Limited for registration of Esomax (Esomeprazole) 40mg IV Injection manufactured by M/s Nabi Qasim

Industries on contract manufacturing basis. The Chairman Registration Board constituted a two member panel for investigation of the query mentioned in the scope of investigation:

Composition of Panel:

1. Ms. Hira Bhutto, Assistant Director, CDL, DRAP, Karachi
2. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

On Site Investigation/verification of the following point:

1. Verification of formulation for use of mannitol as the firm initially submitted the formulation containing mannitol and upon query for justification they replied that their formulation do not contain mannitol and their formulation is as per innovator's product.

Details of Investigation:

1. The panel visited the firm, reviewed the batch records including dispensing, production records, log books, the available software (ERP), audit trail for the ERP on the system and found that mannitol was never dispensed for the manufacturing of any batch of the said product:
2. As per record available with the firm the formulation of product is as under:
    a. Esomeprazole Sodium (Pyrogen Free) 42.5mg/vial
    b. Di Sodium EDETATE (Injectable Grade) 1mg/vial
    c. Sodium Hydroxide (Injectable Grade) 0.7mg/vial
    d. Water for injection q.s. 2.1ml

Conclusion & Recommendation:

1. On the basis of the site visit, documents reviewed and personnel inquired the panel reached on conclusion that the firm has not used mannitol in their formulation and their formulation is as per innovator product.

Therefore, in opinion of the panel the firm may kindly be granted registration of the product with current formulation if there is no more query.

(AD-PEC-VI)

Decision: Registration Board decided to approve registration of Ezium IV 40mg Lyophilized Powder for Solution for Injection / Infusion with Innovator's specifications by The Searle Company Limited Karachi.

2013.	Name, address of Applicant / Marketing Authorization Holder	M/s The Searle Company Limited., F-319, S.I.T.E, Karachi, Pakistan
	Name, address of Manufacturing site.	Applicant is Contract manufacturing from Name: NabiQasim Industries (PVT) Limited Address: 17/24, Korangi Industrial Area, Korangi, Karachi-Pakistan
	Status of the applicant	☐ Manufacturer ☐ Importer ☑ Is involved in none of the above (contract giver)
	Dy No. and date of submission	Dy No. 12685 , : 22-07-2019
	Details of fee submitted	PKR 50,000/-: 22-07-2019
	The proposed proprietary name / brand name	Lovanzo IV 40mg Lyophilized Powder for Solution for Injection / Infusion
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Omeprazole sodium eq to Omeprazole…… 40mg Injection
	Dosage form of applied drug	Injection
	Route of administration	Intravenous
	Pharmacotherapeutic Group of (API)	Proton pump Inhibitor
	Pharmacopoeial reference	Firm has submitted:- "Innovators Specifications"
	Proposed Pack size	As per DPC
	Proposed unit price	As per DPC
	The status in reference regulatory authorities	Omeprazole IV 40mg by AstraZeneca LP, USA
	For generic drugs (me-too status)	Risek 40mg IV Infusion
	Valid drug manufacturing license/Drug Sale License	Firm has submitted DML of NabiQasim (DML # 000015)

	Evidence of approval of manufacturing facility / approved section from licensing authority	Firm has submitted
	Type of Application	□ New Drug Product (NDP) ☑ **Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☑ **Domestic sale** □ Export sale □ Domestic and Export sales
	For imported products, please specify one of following:	Not Applicable
	Contract Manufacturing as per Rule 20-A of Drugs (Licensing, Registering and Advertising) Rules, 1976	Domestic Manufacturing
	List of registered products	Not Applicable
	Manufacturer's site master file and credentials (for importers)	Yes
	Identification of signature of authorized persons, Incharge Production, Quality Control & Quality Assurance of manufacturer.	Yes
	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens	Yes
	Description of Batch numbering system	No
	Training evidence of technical staff with respect of manufacturing of applied drug (mandatory in case of specially designed pharmaceutical product / Novel Dosage Form).	We have a well experienced technical team in our tableting section. We are manufacturing more than 40 products in tablets dosage form in this section.
	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP).	Yes

	Pharmacokinetics	Firm has submitted Pharmacokinetics.
	Toxicology	Firm has submitted Toxicology.
	MODULE 5: CLINICAL / EFFICACY	

Remarks of the Evaluator.(VI):	**Response of Applicant:**
● Quantitative composition of applied formulation contains Mannitol as mentioned in 2.3.P.3.2. However, reference product Protium i.v 40mg lnjection approved in MHRA does not mention such excipient. Justification / Clarification is required and also the compatibility studies of APl with this excipient is required. ● Valid GMP certificate of API manufacturer (i.e., Metrochem API Private Ltd.) as mentioned in subsection 1.6.5 is required to be submitted. ● You have referred various sections of QOS to module 3. It is required that you should summarize all the information as specified in section 2.3.P.3 to 2.3.P.8 of module 11. ● Finished pharmaceutical product manufacturer's certificate of analysis of AP! with API lot numbers is required to be submitted. ● You have not submitted process validation data by referring that it is a me-too product. Relevant data is required as specified in 3.2.P.3.5 of Module 3. ● You have not submitted validation of analytical procedures under control of drug product. It is very important to submit the data as specified 111 3.2.P.5.3 especially where in-house method is developed. ● You have not submitted supporting documents like raw data sheets and chromatograms against submitted stability summary sheets of applied formulation.	● Pantoprazole 40mg Powder for Solution for Injection which is approved in MHRA by Ms. Accord HealthCare, UK also contains Mannitol as an excipients. Copy form Internet is enclosed as Annexure – A. In Lyophilized preparations, Mannitol (20-90% w/w) has been included as a carrier to produce a stiff, homogenous cake that improves the appearance of the lyophilized plug in a vial. A pyrogen free form is available specifically for this use. ● The Valid GMP of API manufacturer (i.e. Metrochem API Private Limited) is valid up to 3/2020 ● This summarize all the information as specified in Section 2.3.P.3 to 2.3.P.8 Module II is enclosed as Annexure – C. ● Finished pharmaceutical product manufacturer's Certificate of Analysis of AP! with AP! Lot umbers is enclosed as Annexure - '·E'· ● The process validation alongwith required data is enclosed a Annexure - "G". • Validation of Analytical procedure under control of drug is enclosed as Annexure - "I". ● The stability studies alongwith supporting documents and chromatograms is enclosed as Annexure - "J"

Decision: The Board deferred the case for further deliberation regarding clarification of the reference product's composition.

Evaluation by PEC:

https://mhraproductsproduction.blob.core.windows.net/docs/b9c20f692c254952e6127d1d9067d06ff17e2561

PAR of MHRA of Pantaprozole 40mg powder for solution for injection has excipients as below:

Ingredients	**Function**
Pantoprazole Sodium sesquihydrate	Active
Sodium Citrate Dihydrate	Excipient
Sodium Hydroxide	Excipient (For pH adjustment)
Mannitol	Excipient

Decision: Registration Board decided to approve registration of Panzium IV 40mg Lyophilized Powder for Solution for Injection / Infusion with Innovator's specifications by The Searle Company Limited Karachi.

Case no. 01 Registration applications for local manufacturing of (Human) drugs

a. New cases

2015.	Name and address of manufacturer / Applicant	"M/s Bio Mark Pharmaceuticals. Plot No. 527, Sundar Industrial Estate,Lahore"
	Brand Name +Dosage Form + Strength	Roflu 500 µg Tablet
	Composition	"Each Film Coated Tablet Contains: Roflumilast…500 µg "

	Remarks of the Evaluator (V)	EPAR of DuoCover(Innovator product) Quality aspects DuoCover is presented as film-coated tablets containing two active substances. Tablets are bilayer: clopidogrel and acetylsalicylic acid (ASA). Clopidogrel (Active Substance) It is a chiral substance due to presence of one chiral centre. Three positional isomers and one optical isomer exist. The substance used in the manufacture of DuoCover is the (S) enantiomer. Two polymorphic forms (form I and II) of clopidogrel hydrogen sulphate are known. The substance used in the manufacture of the medicinal product is clopidogrel hydrogen sulphate form II which is thermodynamically more stable than form I. Evaluation Tablets should be bilayer. The (S) enantiomer should be used. The polymorphic form II is more stable than one. Reference EMA

	Reference Regulatory Authorities.	DuoCover is presented as film-coated tablets containing two active substances. Tablets are bilayer: clopidogrel and acetylsalicylic acid (ASA). Marketing-authorisation holder :Sanofi-Aventis Groupe
	Me-too status	075978 CoPlavix Tablets 75/75mg By M/s Sanofi Karachi . .
	GMP status	29-03-2019 Recommendations: The firm M/s Genetics Lahore was evaluated for facilities, like building, flow, HVAC. Personnel, Quality control/QA and production operations. Keeping in view the observations, made on the day of inspection and after going through the documentations and overll assessment, the panel was of the opinion that the firm M/s Genetics Lahore was operating at satisfactory level of GMP compliance.
	Remarks of the Evaluator (V)	• Internationally it is available as bilayer tablet. Whereas, firm has applied for monolayer tablet. Revision of formulation with submission of requisite fee. Evaluation: EMA Approved DuoCover is presented as film-coated tablets containing two active substances. Tablets are bilayer clopidogrel and acetylsalicylic acid (ASA). Pharmaceutical Development The objective of the formulation development was to obtain fixed-dose combination tablets, which would be equivalent to therapy consisting of Iscover 75 mg tablets combined with commercially available acetylsalicylic acid tablets. The product has been developed as film-coated bilayer tablets containing two active substances. The aim of a preliminary development was to define the technology to be used for manufacturing tablets containing two active substances. Film-coated tablets were finally selected. The 75 mg clopidogrel granulate corresponds to the already marketed Iscover 75 mg core formula and is granulated according to the existing processing for this product. No modifications have been introduced to the formula, batch size and granulation process of the clopidogrel granulation. Further formulation development was performed on the blend containing acetylsalicylic acid. Various grades of acetylsalicylic acid granulated with maize starch with varying particle size distribution were mixed with additional excipients in order to achieve a homogenized blend. The weight of the acetylsalicylic acid blend varies proportionally in order to achieve the various strengths of the combination. The acetylsalicylic acid granulation blend was optimised for consistent release of acetylsalicylic acid and to produce granulation with good flow and compressibility properties.
	Decision: Deferred for confirmation of composition as per innovator's product.

	Remarks of the Evaluator (V)	• Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm is required OR submission of application on requisite form ,stability data and fee of Rs. 50,000/- • The internationally approved product "ENTRESTO" label claim is "Each film-coated tablet contains Sacubitril…24 mg and Valsartan….26 mg". Whereas, firm has applied for "Each Film Coated Tablet Contains: Sacubitril…24.3mg Valsartan…25.7mg". EPAR of Innovator. • The isolated active substance is a co-crystal complex of the sodium salts of two individual active

		components, sacubitril and valsartan, in hydrated form. • The sacubitril-valsartan complex is a white to almost white crystalline powder and is hygroscopic above 60% RH so needs to be protected from water. • Entresto is a fixed-dose combination product presented as film-coated tablets containing sacubitril and valsartan as active substances as a trisodium hemipentahydrate co-crystal. Conclusion Hence, sacubitril-valsartan is available in the form of co crystal complex instead of two individual active components.
	Decision: Deferred for submission of stability study data for applied formulation as per guidelines approved in 251st& later amended in 278th meeting of Registration Board, as the applied formulation is subsequent drug generic version

	Remarks of the Evaluator (V)	• Submission of manufacturing method of applied formulation in line with reference product which is prepared by OROS Push Pull technology. Description of Innovator Product Delivery System Components and Performance INVEGA® uses osmotic pressure to deliver paliperidone at a controlled rate. The delivery system, which resembles a capsule-shaped tablet in appearance, consists of an osmotically active trilayer core surrounded by a subcoat and semipermeable membrane. The trilayer core is composed of two drug layers containing the drug and excipients, and a push layer containing osmotically active components. There are two precision laser-drilled orifices on the drug-layer dome of the tablet. Each tablet strength has a different colored water-dispersible overcoat and print markings. In an aqueous environment, such as the gastrointestinal tract, the water-dispersible color overcoat erodes quickly. Water then enters the tablet through the semipermeable membrane that controls the rate at which water enters the tablet core, which, in turn, determines the rate of drug delivery. The hydrophilic polymers of the core hydrate and swell, creating a gel containing paliperidone that is then pushed out through the tablet orifices. The biologically inert components of the tablet remain intact during gastrointestinal transit and are eliminated in the stool as a tablet shell, along with insoluble core components.
	Decision: Registration Board deferred the case for submission of manufacturing method of applied formulation in line with reference product which is prepared by OROS Push Pull technology.
