Item No. I: Agenda of Evaluator PEC-III

Case no. 01 Registration applications for local manufacturing of (Human) drugs

a. Deferred cases

2524.	**Name and address of manufacturer / Applicant**	**M/s Pharmedic Laboratories Pvt Ltd. 16-km, Multan Road Lahore, Pakistan**
	Brand Name +Dosage Form + Strength	Evolar 2.5mg Tablet
	Composition	Each film coated tablet contains: Everolimus…2.5mg
	Diary No. Date of R& I & fee	Dy No. 26865: 06-08-2018 PKR 20,000/-: 03-08-2018
	Pharmacological Group	Antineoplastic agent
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	30's, Rs. 10000/- per tablet
	Approval status of product in Reference Regulatory Authorities.	Everolimus 2.5mg Tablets by Synthon Hispania (**MHRA** Approved)
	Me-too status	Afinitor tablets by Novartis
	GMP status	Last GMP inspection report dated 31-8-2016 confirms satisfactory compliance to GMP.
	Remarks of the Evaluator[3]	• Justify the formulation of film coated tablet since the reference product is uncoated tablet, in case of revision of formulation as per the reference product requisite fee needs to be submitted.
	Decision of 286th meeting of Registration Board	Deferred for following submissions:

		• Revision of formulation to uncoated tablet as per the reference product along with submission of fee. • Updated GMP status of the firm from QA&LT Division
	Evaluation by PEC[3]	Firm has submitted the following • Revised master formulation and method of manufacturing for the uncoated tablets along with submission of fee PKR 20,000/- dated 17-08-2020 for revision of formulation • GMP inspection report dated 04-02-2020 in which the panel concludes satisfactory level of cGMP compliance. The panel further reported that since the firm had upgraded the layout of anti-cancer section, therefore the firm was advised to get the anticancer section regularized and approved by DRAP, Islamabad after fulfilment of all codal formalties.
	Decision: Registration Board deliberated the matter and decided to defer the case for confirmation of cytotoxic facility since the applied formulation falls in both L01 and L04 categories as per WHO ATC classification.

Case no. 02 Registration applications for registration of oral substitution therapy (OST)

Request of M/s Searle IV Solution for fast track registration of oral substitution therapy (ost)

M/s Searle IV Solutions (Pvt) Ltd., 1.5Km Manga Raiwind Road Manga Mandi, Lahore has applied for registration of following five drugs drugs on Form 5-F (CTD) dated 09-12-2019, as detailed below:

S.No	Name of Product
1	**Senorphine 4mg Tablet** Each sublingual tablet contains Buprenorphine HCl……4mg

2	**Senorphine 8mg Tablet** Each sublingual tablet contains Buprenorphine HCl……8mg
3	**Senorphine 12mg Tablet** Each sublingual tablet contains Buprenorphine HCl……12mg
4	**Seldone 10mg Tablet** Each sublingual tablet contains Methadone HCl……10mg
5	**Seldone 40mg Tablet** Each sublingual tablet contains Methadone HCl……40mg

2. The cases were evaluated and shortcomings were communicated to the applicant on 12th March 2020. It is pertinent to mention that the formulations applied by the firm were different from those approved by reference regulatory authorities which were adopted by Registration Board in its 275th meeting.

3. DRAP Authority in its 84th meeting held on 1st June 2020, considered the request of M/s Searle IV Solutions (Pvt) Ltd., 1.5Km Manga Raiwind Road Manga Mandi, Lahore and advised PE&R Division to once again ask the firm to standardize their applied formulations / dosage form in the light of approvals by reference regulatory authorities and intimate the same to authority for decision on request of M/s Searle IV Solutions (Pvt) Ltd for waiver of the conditions of registration application on Form 5F for OST drugs as a special case with conditions to submit stability data before launching the products.

4. In compliance to the directions of Authority, the firm M/s Searle IV Solutions (Pvt) Ltd was once again issued a letter dated 26th June, 2020 to revise and standardize their applied formulations in line with formulations approved by reference regulatory authorities. In response, the firm has submitted a letter dated 6th July 2020 in which the firm has revised their 4 formulations as per the reference products along with submission of requisite fee.

The details of the revision formulations submitted by the firm are provided in the table below;

Sr. No.	Initially applied Product	Revised Product	Details revision	Evaluation by PEC
1	Senorphine 4mg Tablet Each sublingual tablet contains: Buprenorphine HCl...4mg	Senorphine 4mg Tablet Each sublingual tablet contains: Buprenorphine as HCl ……...4mg	Firm has submitted revised master formulation and label claim alongwith submission of 5,000/- fee for correction of salt form of the API.	The formulation has been revised as per the reference product and the requisite fee (for correction of salt form) is also submitted.
2	Senorphine 8mg Tablet Each sublingual tablet contains: Buprenorphine HCl….8mg	Senorphine 8mg Tablet Each sublingual tablet contains: Buprenorphine as HCl ……8mg	Firm has submitted revised master formulation and label claim alongwith submission of 5,000/- fee for correction of salt form of the API.	The formulation has been revised as per the reference product and the requisite fee (for correction of salt form) is also submitted.
3	Senorphine 12mg Tablet Each sublingual tablet contains: Buprenorphine HCl…12mg	Senorphine 12mg Tablet Each sublingual tablet contains: Buprenorphine as HCl ……12mg	Firm has submitted revised master formulation and label claim alongwith submission of 5,000/- fee for correction of salt form of the API.	The formulation has been revised and the requisite fee (for correction of salt form) is also submitted.
4	Seldone 10mg Tablet Each sublingual tablet contains:	Seldone 10mg Tablet Each tablet contains: Methadone HCl..10mg	Firm has submitted that they have initially applied for plain tablet	The formulation has been revised as per the reference product and

	Methadone HCl…….10mg		and that the word "sublingual tablet" was typographical mistake. Firm has submitted revised master formulation and label claim alongwith submission of 5,000/- fee.	the requisite fee (for correction of salt form) is also submitted.
5	Seldone 40mg Tablet Each sublingual tablet contains: Methadone HCl…….40mg	Seldone 40mg Tablet Each tablet contains: Methadone HCl...40mg	Firm has submitted that they have initially applied for plain tablet and that the word "sublingual tablet" was typographical mistake. Firm has submitted revised master formulation and label claim alongwith submission of 5,000/- fee.	The formulation has been revised as per the reference product and the requisite fee (for correction of salt form) is also submitted.

5. It is pertinent to mention that, the formulation at Sr. No. 03 in the table above is not approved by any reference regulatory authority. In response to this query, the firm has submitted the following documents / Justification:

i. **Proposal for the inclusion of buprenorphine in the WHO Model List of essential medicines dated October 2004.** However, the submitted document does not contain any evidence for 12mg strength of an individual buprenorphine tablet. Firm has referred to the references and recommendations for the overall dose of buprenorphine which varies from 4mg to 12 mg.

ii. **Guidelines for the psychosocially assisted pharmacological treatment of opioid dependence issued by WHO in 2009.** However, the submitted document does not contain any evidence for 12mg strength of an individual buprenorphine tablet.

6. The case was forwarded to DRAP Authority, and the Authority in its 88th meeting considered the case and decided as "***The Authority, exercising it power under Rule 26 of the Drugs (LRA) Rules amended vide SRO 713(I)/2018 dated 8th June, 2018, allowed to submit registration application on Form 5/ Form 5-A/Form 5-D instead of Form 5-F, for registration of OST i.e. Methadone and Buprenorphine tablets to M/s Searle IV Solutions (Pvt.) Ltd.as a special case because of recommendation by OST project of WHO, in light of approvals granted by the reference regulatory authorities and with the following additional conditions:***

a. The applicants can submit their applications till 15-09-2020 and these applications will be considered out of queue.

b. Registration Board may consider grant of registration to M/s Searle IV Solutions (Pvt.) Ltd. Lahore and submission of data of product development and 6 months accelerated and 6 months real time stability studies data before sale of product along with other data as may be required."

Later, the firm has submitted applications on Form 5D for four of the previously applied products. The evaluation of applications on Form 5D is provided below:

Contract Manufacturing Agreement between Searle IV solutions (Pvt) Ltd and National AIDS Control Program, Islamabad dated 22-10-2019 have been submitted. According to the contents to contract manufacturing agreement, WHO-Pakistan and National AIDS control Program (NACP) has collaborated to introduce oral substitution therapy (OST) in order to curb and eliminate AIDS. This is the medical procedure of replacing an illegal opioid drug such as heroin with longer acting but less euphoric opioid, usually methadone or buprenorphine. WHO-Pakistan has pivotal role and efforts in technical support for roll out of OST in Pakistan. Searle has been selected through EOI to manufacture products for NACP.

2518.	**Name and address of manufacturer / Applicant**	**M/s Searle IV Solutions (Pvt) Ltd., 1.5Km Manga Raiwind Road Manga Mandi, Lahore**
	Brand Name +Dosage Form + Strength	Senorphine 4mg Tablet

Date of Initiation	**Not submitted**	**Not submitted**	**Not submitted**
No. of Batches	**Not submitted**		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	**Not submitted**
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. S-GMP/1991608) issued by Food and Drugs Control Administration Gujrat State India. The certificate is valid till 23-09-2021.
3.	Protocols followed for conduction of stability study and details of tests.	**Not submitted**
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	**Not submitted**
5.	Documents confirming import of API etc.	**Not submitted**
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	**Not submitted**

7.	Commitment to continue real time stability study till assigned shelf life of the product.	**Not submitted**
8.	Commitment to follow Drug Specification Rules, 1978.	**Not submitted**

REMARKS OF EVALUATOR[3]

Contract Manufacturing Agreement between Searle IV solutions (Pvt) Ltd and National AIDS Control Program, Islamabad dated 22-10-2019 have been submitted. According to the contents to contract manufacturing agreement, WHO-Pakistan and National AIDS control Program (NACP) has collaborated to introduce oral substitution therapy (OST) in order to curb and eliminate AIDS. This is the medical procedure of replacing an illegal opioid drug such as heroin with longer acting but less euphoric opioid, usually methadone or buprenorphine. WHO-Pakistan has pivotal role and efforts in technical support for roll out of OST in Pakistan. Searle has been selected through EOI to manufacture products for NACP.

Following shortcomings were communicated to the firm, but the firm has not submitted any response against the letter of shortcoming.

- Evidence of approval of applied formulation in reference regulatory authorities which were adopted by Registration Board in its 275th meeting.
- Clarify whether the application is for new or generic drug product, since you have selected Generic drug product in section 1.4.1, while mentioned "Not applicable" against section 1.5.8 where reference of other similar medicine approved by DRAP is required.
- Quality Overall Summary (QOS) needs to be submitted as per WHO QOS-PD template.
- Data of drug substance as per the requirements of Module 3 section 3.2.S needs to be submitted.
- Justify the formulation development through comparative analysis by testing your product against the reference / innovator product as well as by performing comparative dissolution profile against the reference / innovator product.
- Submit details of manufacturing process development as per the requirement of section 3.2.P.2.3.
- Process controls and critical process parameters needs to identified and submitted as per the requirement of section 3.2.P.3.3.
- Control of critical steps and intermediates needs to be submitted as per the requirements of section 3.2.P.3.4.
- Data of verification of analytical method needs to be submitted as per the requirements of 3.2.P.5.3.
- Batch analysis needs to be submitted as per the requirements of 3.2.P.5.4.
- Information pertaining to reference standard or materials needs to be submitted as per the requirements of 3.2.P.6.
- Stability study data of 3 batches along with associated documents as described in 293rd meeting of Registration Board needs to be submitted as per the requirements of section 3.2.P.8.

Decision: Registration Board decided to defer the case for following submissions:

- **Evidence of approval of applied formulation in reference regulatory authorities which were adopted by Registration Board in its 275th meeting.**
- **Complete data of Form 5F (CTD) as per the guidance document approved by Registration Board in the instant meeting.**

Case no. 03 Registration applications of CTD cases

a. New cases of Import

Linz) Estermannstrasse, 17 A-4020 Linz Austria. **In process testing** Fresenius Kabi Austria GmbH Hafnerstrasse, 36 A-8055 Graz Austria. **QC Testing** Fresenius Kabi Austria GmbH Hafnerstrasse, 36 A-8055 Graz Austria. **Visual and optical control** Fresenius Kabi Austria GmbH Hafnerstrasse, 36 A-8055 Graz Austria.
	Name of exporting country	Portugal
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized CoPP certificate (No. 1596/CM/2019) dated 23-09-2019 issued by Autoridade Nacional do Medicamento e Produtos de Saude I.P (INFARMED) Parque de Saude de Lisboa, Av. Do Brasil N. 53 1749-004 Lisboa Portugal (translated to English from google translate "National authority for medicines and health products I.P (INFARMED) Lisbon Health Park, Av. Do Brasil

		N. 53 1749-004 Lisboa Portugal") for Iohexol imax 647mg/ml solution for injection.. The CoPP confirms free sale status of the product in exporting country but the GMP status of the manufacturing facility is not confirmed. As per the contents of CoPP the applicant for the certificate was PharSolution – Pharmaceutical Consulting, Lda. Av. Bombeiros Voluntarios, nº 146- 1º 2765-201 Estoril Portugal. Firm has submitted that the product is approved in following three European countries which are part of EC and are also considered as reference for the criteria of reference regulatory authorities. **1. Estonia:** Iohexol Imax 647mg / 1ml of IMAX Diagnostic Imaging Limited. The product is confirmed from the official website of Agency of Medicines Republic of Estonia through the following link https://www.ravimiregister.ee/en/default.aspx?pv=Loendid.Pakend&vid=1d9ac7f7-0bc5-470c-9368-a14ee7962835 (Accessed on 12-08-2020) **2. Lithuania:** Iohexol Imax 647mg / 1ml of IMAX Diagnostic Imaging Limited Ireland. The product is confirmed from the official website of Community Register of Medicinal Products State Drug Control Service Republic of Lithuania through the following link https://vapris.vvkt.lt/vvkt-web/public/medications (Accessed on 12-08-2020) **3. Latvia:** Iohexol Imax 647mg / 1ml of IMAX Diagnostic Imaging Limited Ireland. The product is confirmed from the official website of Latvian Register of Medicines, Latvia through the following link https://www.zva.gov.lv/zvais/zalu-registrs/info/15-0176?r=L3p2YWlzL3phbHUtcmVnaXN0cnMvP2lzcz0xJmFtcDtxPUlvaGV4b2wrSW1heCZhbXA7SUstMT0xJmFtcDtJSy0yPTI= (Accessed on 12-08-2020) **GMP**: **Fresenius Kabi Austria GmbH (Fab. Graz) Hafnerstrasse, 36 A-8055 Graz Austria.** Firm has submitted copy of GMP certificate (No. 480166-0097) issued by Austrian Medicine and Medical Devices Agency dated 10-05-2019 based on the inspection report dated 08-02-2018 The certificate is verifiable from Eudra GMP database. **Fresenius Kabi Austria GmbH** **Am Gewerbepark 6, A-8402 Wendorf Austria** Firm has submitted copy of GMP certificate (No. 482159-0040) issued by Austrian Medicine and Medical Devices Agency dated 28-08-2018 based on the inspection report dated 24-05-2018 The certificate is verifiable from Eudra GMP database. **Fresenius Kabi Austria GmbH (Fab. Linz) Estermannstrasse, 17 A-4020 Linz Austria.** Firm has submitted copy of GMP certificate (No. 480019-0063) issued by Austrian Medicine and Medical Devices Agency dated 10-12-2018 based on the inspection report dated

		28-09-2018 The certificate is verifiable from Eudra GMP database.
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of authorization from Imax Diagnostic Imaging Limited Phoenix house, Room 137, Monhan Road, T12 H1XY Cork, Ireland. The letter species that Imax diagnostic are the license holder of Iohexol 647mg/ml and Iohexol 755mg/ml and that they authorize Medi Mark Pharmaceuticals as their local agents to be responsible for all regulatory affairs of these products in Pakistan. The authorization letter was issued on 18 December 2019 and is valid for 5 years.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 8448: 21-04-2020
	Details of fee submitted	PKR 100,000/-: 04-03-2020
	The proposed proprietary name / brand name	**IOHEXOL iMAX 647mg/ml solution for injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: 647mg Iohexol equivalent to organic iodine……300mg
	Pharmaceutical form of applied drug	Clear and colorless to slightly yellowish solution filled in 100ml glass vials
	Pharmacotherapeutic Group of (API)	Watersoluble, nephrotropic, low osmolar X-ray contrast media (**V08AB02)**
	Reference to Finished product specifications	USP
	Proposed Pack size	10 vials of 100ml
	Proposed unit price	Rs. 6000/- of 50ml Rs. 10,000 of 100ml
	The status in reference regulatory authorities	Omnipaque - 300 mg I/ ml **(Norway** Approved)
	For generic drugs (me-too status)	Omnipaque Injection by Apex Pvt Ltd (Reg #008867)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and

		controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Zhejiang Taizhou Hisyn Pharmaceutical Co. Ltd. Chemical and Medical Materials Base, Linhai Park Zhejiang Province China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has also referred to their CEP certificate (No. R1-CEP 2009-192-Rev 02) which is also verified from EDQM CEP certification online database.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 25ºC / 60% RH. The stability study data is till 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted complete data of formulation development process. Firm has submitted comparative quantitative composition of applied product along with reference product. Firm has also submitted comparative table summarizing results of all physico-chemical tests performed on 5 batches of applied product and one batch of the reference product i.e. Omnipaque injection.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Iohexol solution for injection will be filled into Type I glass vials. The vials are closed with chlorobutyl rubber stoppers and capped with aluminium / plastic flip-off seals.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches at following conditions: • 40ºC ±2ºC / <25% RH for 6 months • 25ºC ±2ºC / 60% ± 5% RH for 36 months (testing only at initial and last time point) • 30ºC ±2ºC / 65% ± 5% RH for 36 months
Evaluation by PEC[3]:		
Decision: Approved as per Policy for inspection of Manufacturer abroad.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Zhejiang Taizhou Hisyn Pharmaceutical Co. Ltd. Chemical and Medical Materials Base, Linhai Park Zhejiang Province China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has also referred to their CEP certificate (No. R1-CEP 2009-192-Rev 02) which is also verified from EDQM CEP certification online database.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 25ºC / 60%

		RH. The stability study data is till 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted complete data of formulation development process. Firm has submitted comparative quantitative composition of applied product along with reference product. Firm has also submitted comparative table summarizing results of all physico-chemical tests performed on 5 batches of applied product and one batch of the reference product i.e. Omnipaque injection.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Iohexol solution for injection will be filled into Type I glass vials. The vials are closed with chlorobutyl rubber stoppers and capped with aluminium / plastic flip-off seals.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches at following conditions: • 40ºC ±2ºC / <25% RH for 6 months • 25ºC ±2ºC / 60% ± 5% RH for 36 months (testing only at initial and last time point) • 30ºC ±2ºC / 65% ± 5% RH for 36 months

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 25°C / 60% RH. The stability study data is till 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Not submitted**
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Aluminium-PVC blister

	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30ºC ±2ºC / 75% ± 5% RH for 36 months.

Evaluation by PEC[3]:

Shortcomings communicated	Response by the firm
Justify the application for import along with fee (PKR 100,000/-) submitted on the basis of "Drug Manufacturing License" instead of "Drug Sale License".	The submitted fee (PKR 100,000) is for imported products. DML was submitted w.r.t. facility proof for local repacking and also submitting copy of Drug Sale License (DSL) for import. **The fee receipt contains DML number of the firm.**
You have selected the option "Bulk import and local repackaging" in section 1.4.2 without specifying the status of bulk, and provided multiple pack sizes in section 1.5.4. Furthermore the CoPP is also for the finished product. Clarification is required in this regard.	Please be informed that the product is bulk import and local repacking as mentioned in 1.4.2. Multiple pack sizes were mentioned because after bulk import, product will be packed in pack sizes as mentioned in 1.5.4.
Letter of authorization / sole agency agreement between the applicant firm in Pakistan and marketing authorization holder abroad specifying the applied product needs to be submitted.	Firm has submitted copy letter of authorization from Phil Inter Pharma Co. Ltd. as per the contents of letter, "Phil Inter Pharma Co. Ltd authorizes CCL Pharmaceuticals(Pvt) Ltd to carry out all drug registration procedures for dutasteride 0.5mg" **The letter of authorization do not bear any date.**
Quality overall summary (QOS) in module 2 needs to be submitted as per WHO QOS-PD template or the template approved by Registration Board in its 293rd meeting.	Firm has submitted QOS as per WHO QOS-PD template
Submit data in section 3.2.P.2.2.1 as per the decision of 293rd meeting of Registration Board, which states that "*Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed"*.	Firm has submitted results of pharmaceutical equivalence against the Avodart capsule. **The pharmaceutical equivalence report is signed by technical persons of CCL Pharma, while the document does not contain any endorsement or signatures from the manufacturer abroad.**

Following observations are not yet addressed:

- Firm has submitted application on the basis of their DML. The DML number is mentioned on the fee receipt of the application. Now the firm has also submitted copy of DSL but the fee receipt still contains the DML number as well as addressof DML site.
- The letter of authorization does not contains any date nor the validity.
- The pharmaceutical equivalence report is signed by technical persons of CCL Pharma, while the document does not contain any endorsement or signatures from the manufacturer abroad.
- As per the details of manufacturer of finished product, Phil Inter Pharma Co. Ltd is mentioned as manufacturer of the finished product including the step of packaging.
- The comparative dissolution profile is performed by Phil Inter Pharma Co. Ltd, which is not the batch release site since the final packaging of capsules is to be performed by CCL Pharmaceuticals.
- The complete module 3 and 2 specifies that the product manufactured by Phil Inter Pharma Co. Ltd is packed in Alu-PVC blister packs further packed in unit carton, while the module 1 specifies that the firm is importing bulk capsules.
- The description of container closure for the drug to be imported mentioned in module 3 section 3.2.P.7 is Alu-PVC blister pack, while the firm has applied for import of bulk capsules which they

will blister and finally pack in Pakistan. The details of container closure system which contains bulk capsules should be submitted.

- The stability study of the drug product submitted by Phil Inter Pharma Co. Ltd in module 3 section 3.2..P.8.3 is for capsules packed in Alu-PVC blister packs, while the applied case is different. The stability studies from Phil Inter Pharma Co. Ltd should have been conducted in the container which will contain the bulk capsules. Furthermore the stability studies after blistering and packing should be conducted by CCL Pharmaceuticals.
- Since the firm is importing on the basis of DSL, therefore an agreement for the blistering, packaging and batch release from the DML site should be submitted.
- Since the batch analysis is to be performed by CCL Pharmaceuticals, therefore the finished product specifications, analytical method, validation of analytical methods and batch analysis should be submitted by CCL Pharmaceuticals.

Decision: Deferred for following submissions:

- **Clarification regarding the application whether submitted on the basis of Drug Manufacturing License (DML) or Drug Sale License (DSL).**
- **Clarification regarding the submitted letter of authorization since it does not contain any issuance or validity date.**
- **Clarification, how the pharmaceutical equivalence report is signed by the technical person of CCL Pharmaceuticals while the study was conducted by manufacturer abroad i.e. Phil Inter Pharma Co Ltd., Vietnam.**
- **Clarification of application of bulk import local repacking, since the submitted Form 5F specifies that the blistering and final packing steps are also performed by the manufacturer abroad i.e. Phil Inter Pharma Co Ltd., Vietnam.**
- **Submission of complete data of module 2 as well as module 3 to justify the requirements of bulk import and local repacking.**

	For generic drugs (me-too status)	Anzatax Injection by Atco (Reg # 021091)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Phyton Biotech LLC 1503 Cliveden Avenue Delta B.C Canada. V3M6P7
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has submitted DMF for both drug substances including their stability study data.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of both API at accelerated and real time conditions. The real time stability data is conducted as per 30°C ±2°C / 65% ± 5% RH for 12 months and as per 25°C

		±2°C / 60% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation repport, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted details of formulation development study. Firm has used Taxol Injection 6mg/ml manufactured by Bristol myers squibb company as comparator product. Firm has performed assay and impurities testing of comparator product and their own product. The results were comparable
	Analytical method validation/verification of product	Firm has submitted method transfer studies for the drug product
	Container closure system of the drug product	Type I colorless glass vial which is closed with PTEF coated butyl rubber stopper and is sealed with aluminium cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches AS1801, AS1802 and AS1803. The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30°C ±2°C / 75% ± 5% RH for 36 months.

Evaluation by PEC[3]:

The official monograph exists in USP however firm has not selected USP specification instead they have developed specifications baed on European pharmacopeia. The comparison of specs of the USP and those selected by the firm are tabulated below:

Tests	**USP Specs**	**Firm's specs**
Assay	90 – 110 (HPLC)	95 – 105 (HPLC)
pH	3 – 7	3 – 4.9
Limit of degradation products	**Name** / **Limit (%)** Baccatin III – 0.8 Ethyl ester side chain – 0.4 10-Deacetylpaclitaxel – 0.8 10-Deacetyl-7-epipaclitaxel (Paclitaxel related compound B – 0.5 7-Epipaclitaxel – 0.6	**Name** / **Limit (%)** Baccatin III – 0.2 N-Benzoylphenylisoserine ethylester 10 – 0.2 10-Deacetylpaclitaxel – 0.2 Cephalomannine and isomer (impurity A/B) – 0.7 7-Epipaclitaxel – 0.4 10-Deacetyl-7-epipaclitaxel – 0.4

Decision: Approved with USP specifications as per Policy for inspection of Manufacturer abroad.

	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized CoPP certificate (No. 2020/1253) dated 11-05-2020 issued by Turkish Medicines and Medical Devices Agency, Ministry of Health, Republic of Turkey for Mextu 50mg/2mL IM/IV/IA/IT solution for injection and infusion. The CoPP confirms free sale status of the product in Turkey as well as GMP status of the manufacturing site through periodic inspection in every 3 years. The certificate is valid till 11-05-2022.
		GMP: Firm has submitted **copy** of certificate of GMP compliance of manufacturer (No. TR/GMP/2017/188) dated 08-11-2017 issued by Turkish Medicines and Medical Devices Agency, Ministry of Health, Republic of Turkey. The certificate was **valid till May 2019**.
	Details of letter of authorization / sole agency agreement	Firm has submitted a **copy** of letter of authorization from General Director of *Onko Ilac San ve. Tic. A.S* located at Kosuyolu Cad. No. 34 34718, Kadikoy / Istanbul Turkey. According to the letter, the firm Onko Ilac San ve. Tic authorizes "Punjab Medical Services" with registered address at Office No. 4/5 2nd Floor Jalal Center opposite OPD Gate Sir Gangaram Hospital Mozang Road Lahore to perform the registration procedures, sales and other similar activities concerning medicinal products for territory of Pakistan. The letter was issued on 22-03-2018 and it is valid for three years from date of issue. The appendix 1 of the letter of authorization contains products list containing Mextu 50mg, 500mg and 1000mg.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1197: 19-03-2019
	Details of fee submitted	PKR 100,000/-: 19-03-2019

	The proposed proprietary name / brand name	**MEXTU 50mg/2ml IM/IV/IA/IT Solution for Injection and Infusion**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Methotrexate……25mg
	Pharmaceutical form of applied drug	Yellowish, clear solution filled in clear glass vial, sealed with rubber closure and aluminium flip off brown seal.
	Pharmacotherapeutic Group of (API)	Cytostatic agent: Folic Acid analogue (**L01BA01)**
	Reference to Finished product specifications	BP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Methotrexate 25 mg/ml solution for injection **(MHRA** Approved)
	For generic drugs (me-too status)	Methotrexate injection by Atco (Reg#016151)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Excella GmbH Nurnberger Strasse 12 D-90537 Feucht Germany
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has also referred to their CEP certificate No. R1-CEP 2000-024-Rev 10 which is verified from EDQM database.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has also referred to their CEP certificate No. R1-CEP 2000-024-Rev 10 which is verified from EDQM database.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation report, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted details of formulation development study. Firm has used Methotrexate Injection 25mg/ml (200mg/8mL) manufactured by Cynamid of Great Britan Ltd England as comparator

		product. Firm has performed testing of comparator product and used its values for developing their own formulation. Firm has provided detailed process of formulation development including results of various experiments to control pH and other parameters.
	Analytical method validation/verification of product	Firm has submitted that the product was initially registered as an import license product and manufactured in Intas Pharmaceuticals India in 2014. After that they file a variation application for replacement of manufacturing site to Onko Ilac Turkey in 2015. During this variation application manufacturing method transfer and analytical method transfer studies were performed. Process validation, batch analysis and stability studies were also performed. The application was approved from MoH in 2016.
	Container closure system of the drug product	10mL Type-I clear glass vial (6R transparent glass vial) with 20mm Chlorobuthyl grey rubber stopper and 20mm Aluminium flip-off brown seal
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches 50500400, 5060700 and 50700900. The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30°C ±2°C / 65% ± 5% RH for 24 months.

	Module-II (Quality Overall Summary)	QOS is submitted as per WHO QOS-PD Template
	Name, address of drug substance manufacturer	Mac-Chem Products (India) Pvt. 304, Town Centre Andheri-Kurla Road Andheri (East) Mumbai 400 059 India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has submitted DMF for both drug substances including their stability study data.
	Stability Studies of Drug Substance	Firm has submitted stability study data of 3 batches

	(Conditions & duration of Stability studies)	of API at accelerated and real time conditions. The real time stability data is conducted as per 25ºC ±2ºC / 60% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation report, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not submitted
	Analytical method validation/verification of product	Firm has submitted analytical method validation report for drug substance and drug product.
	Container closure system of the drug product	Alu-Alu blister
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30ºC ±2ºC / 65% ± 5% RH for 36 months for 1 batch and 24 months for 2 batches.
Evaluation by PEC[3]:		
• Data of pharmaceutical equivalence is not submitted. • Data of comparative dissolution profile is not submitted.		
Decision: Deferred for following submissions: • **Pharmaceutical equivalence data of the applied product along with innovator / reference or comparator product.** • **Comparative Dissolution Profile (CDP) data of the applied product along with innovator / reference or comparator product.**

Evaluation by PEC[3]:

- Data of pharmaceutical equivalence is not submitted.
- Data of comparative dissolution profile is not submitted.
- The details of container closure system is not submitted.
- Data of module 3 drug product part is not submitted as per Form 5F requirements.

Decision: Deferred for following submissions:

- **Pharmaceutical equivalence data of the applied product along with innovator / reference or comparator product.**
- **Comparative Dissolution Profile (CDP) data of the applied product along with innovator / reference or comparator product.**
- **Details of container closure system for the applied product.**
- **Complete data of drug product in Module 3 as per the requirements of Form 5F, further explained by Registration Board in the instant meeting.**

M/s Wyeth has submitted the following response dated 25 August 2020.
Dear Sir,

This refers to initial application for registration of Pristiq 50mg Extended Release Tablets submitted by Wyeth Pakistan Limited for registration to the erstwhile Ministry of Health offices in June 2008.

We wish to inform you that since then, there has been some changes that has occurred including change of manufacturer of this imported product. In order to keep the information accurate and up-to-date, we have recently re-submitted our application in compliance to the current CTD requirements vide our letter no. NR/Reg/12/2019 dated 31-October-2019 (copy attached).

At the same time, we have also submitted a new registration application of Pristiq 100mg Extended Release Tablets at your kind offices.

We have also responded to the queries related to dossier evaluation of both applications as communicated to us from your good offices (copies attached).

Please also note that the U.S. Food and Drug Administration (FDA) approved Wyeth's research and innovative product PRISTIQ (desvenlafaxine) in 2008. It's a structurally novel, once-daily serotonin-norepinephrine reuptake inhibitor (SNRI), to treat adult patients with major depressive disorder (MDD).

Therefore, we now request you to kindly consider these applications as new registration applications and consider them for review and approval at the forthcoming meeting of Drug Registration Board.

Accordingly the below mentioned 2 cases are presented before the Board

2536.	**Name, address of Applicant / Importer**	**M/s Wyeth Pakistan Limited. Room No. 002 and 003; PGS Admin Block First Floor B-2 S.I.T.E, Karachi**

	Details of Drug Sale License of importer	**License No:** DHSKDK(Drug)/-1152 **Address:** B-2, S.I.T.E., Room No. 002 & 003 Karachi. **Address of Godown:** NA **Validity:** 21-06-2020. **Status:** Drug License by way of Wholesale
	Name and address of marketing authorization holder (abroad)	Pfizer Australia Pty Ltd Level 17 151 Clarence Street Sydney NSW 2000 Australia
	Name, address of manufacturer(s)	**Manufacturing site:** M/s Pfizer Ireland Pharmaceuticals, Little Connell Newbridge, county Kildare Ireland **Packaging, Labeling & Release for supply site:** Pfizer Manufacturing Deutchland GmbH Mooswaldallee 1 Freiburg 79090 Germany
	Name of exporting country	Australia
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Original Legalized CoPP (Certificate#. 19/0052) dated 31-01-2019 issued by Therapeutic Goods Administration Australia declaring the free sale of applied product and GMP compliant status of the manufacturer.
	Details of letter of authorization / sole agency agreement	Firm has submitted original sole agent letter from Pfizer Australia Pty Ltd. ABN 50 008 422 348 Level 15-18, 151 Clearance Street Sydney NSW 2000 Australia dated 12-06-2020. The letter specifies that the product license holder authorizes Wyeth Pakistan Limited B-2 SITE Karachi to be the sole agent for Pristiq ER 50mg Tablet.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy No 23104 : 08-11-2019
	Details of fee submitted	PKR 15,000/-: 12-06-2008 PKR 35,000/- : 08-11-2019 PKR 50,000/-: 29-06-2020
	The proposed proprietary name / brand name	**PRISTIQ 50mg Extended Release Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended release tablet Contains: Desvenlafaxine Succinate…..50mg
	Pharmaceutical form of applied drug	Light pink square film coated tablets debossed “W” over “50” on flat side.
	Pharmacotherapeutic Group of (API)	SNRI
	Reference to Finished product specifications	In house
	Proposed Pack size	7’s, 14’s, 28’s

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Pristiq ER Tablet **(USFDA** Approved).
	For generic drugs (me-too status)	Desvel XR 50mg Tablet of M/s HILTON PHARMA
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Pfizer Asia Manufacturing Pte Ltd. 31 Taus South Ave 6 Singapore 637578
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated and real time conditions. The accelerated stability is conducted at 40ºC±2 ºC / 75% ±5% RH. The real time stability is conducted at 30ºC±2 ºC / 65% ±5% RH 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Applied drug is an innovator product having NDA registration status in FDA, the firm has submitted detailed reports of product development including clinical, and in vitro dissolution studies.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	PVDC coated polyvinyl chloride PVC film with an aluminium foil lidding or a PVC/Aclar Ultrex 2000 film with an aluminium foil lidding.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted three batches long term stability data 3 batches 36 months at 30±20C, 75±5%RH and 6 months at 400C±75%RH for three batches.

Evaluation by PEC[3]:

- Evidence of 15,000 fee submitted by the firm could not be confirmed.
- DSL was valid till 21-06-2020, firm has submitted copy of receipt submitted for renewal of DSL dated 12-6-2020.

Discussion: During the proceedings of the meeting, it was revealed that M/s Wyeth Pakistan Limited, Karachi has already applied for this product i.e. Pristiq 50mg Extended Release Tablets with following details:

Manufacturer	Name of drug (s)/ Composition & Therapeutic Group.	Demanded Price/Pack.	Shelf Life.
M/s.Wyeth Pakistan Limited, Karachi/ Manufactured by M/s. Wyeth Pharmaceuticals Co., Puerto Rico. Packed and Released by M/s. Wyeth Taiwan Corporation, Taiwan.	Pristiq 50mg Extended Release Tablets. Each tablet contains:- Desvenlafexaine 50mg.	Rs.291.06/1's. Rs.4074.85/14's.	02years

The case was already discussed in 215 and 222nd meeting of Registration Board.

Decision: Registration Board decided to defer the case with proceedings of 215 and 222nd meeting for further deliberation.

Evaluation by PEC[3]:		
• DSL was valid till 21-06-2020, firm has submitted copy of receipt submitted for renewal of DSL dated 12-6-2020.		
Decision: Approved with Innovator's specifications as per Policy for inspection of Manufacturer abroad.		

b. New cases of local manufacturing

Request of M/s Ferozesons for Priority review of applications submitted on Form 5F submitted against newly granted section

M/s Ferozesons Pharmaceuticals have submitted following applications on CTD format. Firm has submitted that their two tablet sections were approved in 274th meeting of CLB and they were granted approval of two new sections. On the basis of new sections, they are allowed for registration of 10 molecules in each section on priority basis. Firm has submitted as follows

"In view of above approval, we request you to kindly consider "Empagliflozin + Metformin tablet on fast track registration and accordingly add these CTD submissions on priority basis during upcoming DRB meeting."

The cases are evaluated and presented before the Board.

2538.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ferozesons Laboratories Limited, P.O. Ferozesons Amangarh, Nowshera.**
	Name, address of Manufacturing site.	M/s Ferozesons Laboratories Limited, P.O. Ferozesons Amangarh, Nowshera.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted GMP certificate based on the inspection conducted dated 25-01-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of Section approval letter dated 08-04-2015 specifying Tablet General section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 17091: 13-04-2020

	Details of fee submitted	PKR 20,000/-: 17-02-2020 PKR 30,000/- : 20-08-2020
	The proposed proprietary name / brand name	**EMPAGEN-M 5/500 mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Empagliflozin…5mg Metformin Hcl…500mg
	Pharmaceutical form of applied drug	Yellow, oblong, biconvex tablet having "ferozesons" on one side and break line on other side
	Pharmacotherapeutic Group of (API)	Anti diabetic
	Reference to Finished product specifications	Innovators specs
	Proposed Pack size	10's, 14's, 20's, 28's and 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Synjardy tablets **(USFDA** Approved)
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	**Empagliflozin:** Fuxin Long Rui Pharmaceutical Co, Ltd Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province China. **Metformin**: Ipca Laboratories Limited, H-4, M.1.0.C., Waluj Aurangabad, Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has submitted verification studies of analytical method for the testing of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Empagliflozin:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 24 months. **Metformin**: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 60 months.

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the innovator i.e. Synjardy 5/500 of Boehringer. Firm has also submitted results of comparative dissolution profile of their product with the innovator product i.e. Synjardy 5/500mg tablet. Firm has performed CDP in 0.1 N HCl, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The results of drug release in all the three medium shows greater than 85% release in 15 minutes.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for both drug substance.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "INVICTA (Sofosbuvir 400mg+ Velpatasvir 100 mg) Tablets" which was presented in 281st meeting of Registration Board wherein the Board decided to approve registration of INVICTA Tablet. Date of inspection: 16th March 2018. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software.

		• The firm has audit trail reports available.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** • Firm has submitted copy of DML (No. Liao 20150223) issued by Food and Drug Administration of Liaoning Province China. The certificate is valid till December 20, 2022. • Firm has submitted copy of GMP certificate issued by Fuxin Food and Drug Administration. The certificate is valid till 27-09-2020. **Metformin**: • Firm has submitted copy of letter of License retention with products (License No. 25-AD/070) issued by FDA Maharashtra. The letter contains list of approved products including metformin hydrochloride. The letter is valid till 31-03-2024. • Firm has submitted copy of GMP certificate (No. 67318/2018/11/24741) issued by FDA Maharashtra dated 31-08-2018. The certificate is valid till 27-08-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** • Firm has submitted copy of Form 6 "License to import drugs for clinical trial, examination, test or analysis" for import of emapgliflozin 650gm M/s Beijing Huikang Pharmaceuticals Manufactured by Fuxin Long Rui Pharmaceuticals China issued by Ad (I&E) DRAP field office. The license was issued on 13-04-2018. • Firm has submitted copy of commercial invoice dated 08-05-2018 specifying import of 650g Empagliflozin. **Metformin**: Firm has submitted copy of commercial invoice dated 12-10-2018 specifying import of 2500Kg Metformin HCl. The commercial invoice is attested by AD (I&E) DRAP field office.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.
Evaluation by PEC[3]:		
Decision: Approved with Innovator's specifications. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
2539.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ferozesons Laboratories Limited, P.O. Ferozesons Amangarh, Nowshera.**
	Name, address of Manufacturing site.	M/s Ferozesons Laboratories Limited, P.O. Ferozesons Amangarh, Nowshera.
	Status of the applicant	☒ Manufacturer

		☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted GMP certificate based on the inspection conducted dated 25-01-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of Section approval letter dated 08-04-2015 specifying Tablet General section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 9707: 04-05-2020
	Details of fee submitted	PKR 20,000/-: 17-02-2020
	The proposed proprietary name / brand name	**EMPAGEN-M 5/1000 mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Empagliflozin…5mg Metformin Hcl…1000mg
	Pharmaceutical form of applied drug	Yellow oblong, biconvex film coated tablet plain on one side and "*f*" on other side
	Pharmacotherapeutic Group of (API)	Anti diabetic
	Reference to Finished product specifications	Innovators specs
	Proposed Pack size	10's, 14's, 20's, 28's and 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Synjardy tablets **(USFDA** Approved)
	For generic drugs (me-too status)	Xenglomet 5/1000mg tablet by Hilton Pharma (Reg#093102)
	Name and address of API manufacturer.	**Empagliflozin:** Fuxin Long Rui Pharmaceutical Co, Ltd Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province China. **Metformin**: Ipca Laboratories Limited, H-4, M.1.0.C., Waluj Aurangabad, Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has submitted verification studies of analytical

		method for the testing of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Empagliflozin:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30ºC ± 2ºC / 75% ± 5% RH for 24 months. **Metformin**: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30ºC ± 2ºC / 75% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the innovator i.e. Synjardy 5/1000 of Boehringer. Firm has also submitted results of comparative dissolution profile of their product with the innovator product i.e. Synjardy 5/1000mg tablet. Firm has performed CDP in 0.1 N HCl, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The results of drug release in all the three medium shows greater than 85% release in 15 minutes.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for both drug substance.

STABILITY STUDY DATA	
Manufacturer of API	**Empagliflozin:** Fuxin Long Rui Pharmaceutical Co, Ltd Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province China. **Metformin**: Ipca Laboratories Limited, H-4, M.1.0.C., Waluj Aurangabad, Maharashtra India.
API Lot No.	**Empagliflozin:** E-20180425-D01-E06-01 **Metformin**: 18117 ML2ARMI
Description of Pack (Container closure system)	Alu-Alu Blister
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)

Batch No.	EGTab-010	EGTab-011	EGTab-012
Batch Size	650 tablet	650 tablet	650 tablet
Manufacturing Date	07-2019	07-2019	07-2019
Date of Initiation	03-08-2019	03-08-2019	03-08-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "INVICTA (Sofosbuvir 400mg+ Velpatasvir 100 mg) Tablets" which was presented in 281st meeting of Registration Board wherein the Board decided to approve registration of INVICTA Tablet. Date of inspection: 16th March 2018. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** • Firm has submitted copy of DML (No. Liao 20150223) issued by Food and Drug Administration of Liaoning Province China. The certificate is valid till December 20, 2022. • Firm has submitted copy of GMP certificate issued by Fuxin Food and Drug Administration. The certificate is valid till 27-09-2020. **Metformin**: • Firm has submitted copy of letter of License retention with products (License No. 25-AD/070) issued by FDA Maharashtra. The letter contains list of approved products including metformin hydrochloride. The letter is valid till 31-03-2024. • Firm has submitted copy of GMP certificate (No. 67318/2018/11/24741) issued by FDA Maharashtra dated 31-08-2018. The certificate is valid till 27-08-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** • Firm has submitted copy of Form 6 "License to import drugs for clinical trial, examination, test or analysis" for import of emapgliflozin 650gm M/s Beijing Huikang Pharmaceuticals Manufactured by Fuxin Long Rui Pharmaceuticals China issued by Ad (I&E) DRAP field office. The license was issued on 13-04-2018. • Firm has submitted copy of commercial invoice dated 08-05-2018 specifying import of 650g Empagliflozin. **Metformin**: Firm has submitted copy of commercial invoice dated 12-10-2018 specifying import of 2500Kg Metformin HCl. The commercial invoice is attested by AD (I&E) DRAP field office.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC[3]:

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

2540.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ferozesons Laboratories Limited, P.O. Ferozesons Amangarh, Nowshera.**

	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has submitted verification studies of analytical method for the testing of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Empagliflozin:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 24 months. **Metformin**:

		Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has developed their formulation as per the reference product in which empagliflozin is used in coating solution to provide immediate release function and the metformin is present in the compressed layer as extended release. Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the innovator i.e. Synjardy XR 5/1000 of Boehringer. Firm has also submitted results of comparative dissolution profile of their product with the innovator product i.e. Synjardy XR 5/1000mg tablet. Firm has performed CDP in 0.1 N HCl, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The results of drug release in all the three medium shows greater than 85% release in 15 minutes. The f2 factor value of empagliflozin at all pH is as follows: **pH 1.2**: 58 **pH 4.5:** 54 **pH 6.8:** 69 The f2 factor value of metformin at all pH is as follows: **pH 1.2**: 88 **pH 4.5:** 93 **pH 6.8:** 92
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for both drug substance.

STABILITY STUDY DATA	
Manufacturer of API	**Empagliflozin:** Fuxin Long Rui Pharmaceutical Co, Ltd Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province China. **Metformin**: Ipca Laboratories Limited, H-4, M.1.0.C., Waluj Aurangabad, Maharashtra India.
API Lot No.	**Empagliflozin:** E-20180425-D01-E06-01 **Metformin**: 18117 ML2ARMI
Description of Pack (Container closure system)	Alu-Alu Blister

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "INVICTA (Sofosbuvir 400mg+ Velpatasvir 100 mg) Tablets" which was presented in 281st meeting of Registration Board wherein the Board decided to approve registration of INVICTA Tablet. Date of inspection: 16th March 2018. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** • Firm has submitted copy of DML (No. Liao 20150223) issued by Food and Drug Administration of Liaoning Province China. The certificate is valid till December 20, 2022. • Firm has submitted copy of GMP certificate issued by Fuxin Food and Drug Administration. The certificate is valid till 27-09-2020. **Metformin**: • Firm has submitted copy of letter of License retention with products (License No. 25-AD/070) issued by FDA Maharashtra. The letter contains list of approved products including metformin hydrochloride. The letter is valid till 31-03-2024. • Firm has submitted copy of GMP certificate (No. 67318/2018/11/24741) issued by FDA Maharashtra dated 31-08-2018. The certificate is valid till 27-08-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** • Firm has submitted copy of Form 6 "License to import drugs for clinical trial, examination, test or analysis" for import of emapgliflozin 650gm M/s Beijing Huikang Pharmaceuticals Manufactured by Fuxin Long Rui Pharmaceuticals China issued by Ad (I&E) DRAP field office. The license was issued on 13-04-2018. • Firm has submitted copy of commercial invoice dated 08-05-2018 specifying import of 650g Empagliflozin. **Metformin**: Firm has submitted copy of commercial invoice dated 12-10-2018 specifying import of 2500Kg Metformin HCl. The commercial invoice is attested by AD (I&E) DRAP field office.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC[3]:

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

2543.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ferozesons Laboratories Limited, P.O. Ferozesons Amangarh, Nowshera.**

The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 24 months. **Metformin**: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has developed their formulation as per the reference product in which empagliflozin is used in coating solution to provide immediate release function and the metformin is present in the compressed layer as extended release. Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the innovator i.e. Synjardy XR 10/1000 of Boehringer. Firm has also submitted results of comparative dissolution profile of their product with the innovator product i.e. Synjardy XR 10/1000mg tablet. Firm has performed CDP in 0.1 N HCl, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The results of drug release in all the three medium shows greater than 85% release in 15 minutes. The f2 factor value of empagliflozin at all pH is as follows: **pH 1.2**: 50 **pH 4.5:** 53 **pH 6.8:** 52

		The f2 factor value of metformin at all pH is as follows: **pH 1.2**: 93 **pH 4.5:** 98 **pH 6.8:** 97
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for both drug substance.

STABILITY STUDY DATA

Manufacturer of API	**Empagliflozin:** Fuxin Long Rui Pharmaceutical Co, Ltd Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province China. **Metformin**: Ipca Laboratories Limited, H-4, M.1.0.C., Waluj Aurangabad, Maharashtra India.		
API Lot No.	**Empagliflozin:** E-20180425-D01-E06-01 **Metformin**: 18117 ML2ARMI

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "INVICTA (Sofosbuvir 400mg+ Velpatasvir 100 mg) Tablets" which was presented in 281st meeting of Registration Board wherein the Board decided to approve registration of INVICTA Tablet. Date of inspection: 16th March 2018. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** • Firm has submitted copy of DML (No. Liao 20150223) issued by Food and Drug Administration of Liaoning Province China. The certificate is valid till December 20, 2022. • Firm has submitted copy of GMP certificate issued by Fuxin Food and Drug Administration. The certificate is valid till 27-09-2020. **Metformin**: • Firm has submitted copy of letter of License retention with products (License No. 25-AD/070) issued by FDA Maharashtra. The letter contains list of approved products

		including metformin hydrochloride. The letter is valid till 31-03-2024. • Firm has submitted copy of GMP certificate (No. 67318/2018/11/24741) issued by FDA Maharashtra dated 31-08-2018. The certificate is valid till 27-08-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** • Firm has submitted copy of Form 6 "License to import drugs for clinical trial, examination, test or analysis" for import of emapgliflozin 650gm M/s Beijing Huikang Pharmaceuticals Manufactured by Fuxin Long Rui Pharmaceuticals China issued by Ad (I&E) DRAP field office. The license was issued on 13-04-2018. • Firm has submitted copy of commercial invoice dated 08-05-2018 specifying import of 650g Empagliflozin. **Metformin**: Firm has submitted copy of commercial invoice dated 12-10-2018 specifying import of 2500Kg Metformin HCl. The commercial invoice is attested by AD (I&E) DRAP field office.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.
Evaluation by PEC[3]:		
Decision: Approved with Innovator's specifications. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
2546.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Wilson's Pharmaceuticals. Plot No. 387-388, Sector I-9, Industrial Area, Islamabad.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their last inspection report for their product "saferon tablet " Registration Board in its 278th meeting decided to approve Registration of "Saferon (Sofosbuvir 400mg) tablets by M/s Wilson Pharmaceuticals, I-9 Industrial Area, Islamabad. Date of Inspection: 10-12-2015 , 19-04-2017 & 20-01-2018 • Software of HPLC present in the firm is 21CFR compliant and audit trail on the testing reports was available and confirmed.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Phenylephrine HCl:** Copy of GMP certificate (No. GD20150448) issued by CFDA china is submitted by the firm. The certificate is valid till 07-12-2020. **Ibuprofen:** Copy of GMP certificate of M/s Zenith Chemical Industries (Pvt) Limited dated 22-05-2019 issued on the basis of inspection dated 06-12-2018 is submitted by the firm. The certificate is issued by Additional Director DRAP Lahore.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Phenylephrine HCl:** Firm has submitted copy of commercial invoice specifying import of 308.25g of phenylephrine dated 10-05-2018. The invoice is signed by AD (I&E) DRAP Islamabad. **Ibuprofen:** Firm has submitted copy of invoice specifying purchase of 250Kg Ibuprofen from Zenith Chemical Industries Lahore dated 26-06-2018.
4.	Data of stability batches will be supported by attested respective documents like	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.

	chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC[3]:

Shortcomings communicated	Response by the firm
Submit data of pharmaceutical equivalence in section 3.2.P.2.2.1. to comply the decision of 293rd meeting of Registration Board, which states that "*Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed*."	Pharmaceutical equivalence dissolution study has not been performed due to non-availability of reference product in local market (Pakistan) and it is difficult to arrange. However, we are committed to conduct / perform pharmaceutical equivalence of reference product as available and will submit the requisite data.
Submit summary of the results of comparative dissolution profile in section 3.2.P.2.2.1. to comply the decision of 293rd meeting of Registration Board, which states that "*The results of comparative dissolution profile conducted in three BCS media across the physiological pH range along with calculation of similarity factor f2 should be submitted and discussed. For comparative dissolution profile, the guidelines specified in WHO Technical Report Series No. 992, 2015, Annex 7, Appendix 1 Recommendations for conducting and assessing comparative dissolution profiles and USFDA Guidance for Industry Dissolution Testing of Immediate Release Solid Oral Dosage Forms - Dissolution Profile Comparisons may be followed".*	Comparative dissolution study has not been performed due to non-availability of reference product in local market (Pakistan) and it is difficult to arrange. However, we are committed to conduct / perform pharmaceutical equivalence of reference product as available and will submit the requisite data.
Scientific rationale for development of tablet having bisect line on one side of the tablet.	Our applied Drug products (Conofen Tablets 5/200mg and Conofen Tablets 10/200mg) compressed on oval (bi-convex) shaped having bisect line on one side and plain on other side which is our available punch design and the applied drug products are stable with afore mentioned punch design. Moreover, we had submitted the stability studies data of three batches (Trials) on accelerated and real-Time stability conditions (as per decision of 293rd meeting of Drug Registration Board.
Provide acceptance criteria in terms of the amount of dissolved active ingredient "Q" for dissolution test at 15 minutes.	Acceptance criteria in terms of the amount of dissolved active ingredient Q = NLT 80% for dissolution test of conofen tablets at 15minutes for both Phenylephrine HCL and Ibuprofen.

Decision: Deferred for following submissions:

- **Pharmaceutical equivalence data of the applied product along with innovator / reference or comparator product.**
- **Comparative Dissolution Profile (CDP) data of the applied product along with innovator / reference or comparator product.**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their last inspection report for their product "saferon tablet " Registration Board in its 278th meeting decided to approve Registration of "Saferon (Sofosbuvir 400mg) tablets by M/s Wilson Pharmaceuticals, I-9 Industrial Area, Islamabad. Date of Inspection: 10-12-2015 , 19-04-2017 & 20-01-2018 • Software of HPLC present in the firm is 21CFR compliant and audit trail on the testing reports was available and confirmed.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 67649/2018/11/25185) issued by FDA Maharashtra. The certificate is valid till 04-10-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice, airway bill, form 3 and form 7 dated 06-11-2015 specifying import of 100Kg of diphenhydramine hydrochloride. The invoice is not signed by AD (I&E) DRAP Islamabad.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC[3]:

Shortcomings communicated	Response by the firm
Submit data of pharmaceutical equivalence in section 3.2.P.2.2.1. as per the decision of 293rd meeting of Registration Board, which states that "*Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed*."	Firm has submitted results of Pharmaceutical Equivalence of their product against the reference product Benadryl Tablet 25mg manufactured by Johnson & Johnson, UK.

Provide scientific justification for use of 3% overage in the formulation of trial batches in section 3.2.P.2.2.2.	The 3% overage is included to compensate for process losses during manufacturing. The batch size is lab scale of 1500 Tablets. The amount of active is 25 mg per Tablet and 3% overage amount to 0.75mg per Tablet respectively. The overage ensures a content uniformity within range as per USP 2018.
Provide scientific rationale for development of tablet having bisect line on one side of the tablet.	We have already got some products in round shaped without a bisect line. Therefore in order to differentiate between the products and to eliminate chances of mixing, the punch and dies set with a bisect line was selected.
Justify why the commercial invoice for import of drug substance is not attested by AD (I&E), DRAP Islamabad office.	Our Active Pharmaceutical Ingredient (Diphenhydramine Hydrochloride) bearing Invoice no. SLL/EXP/794/15-16, cleared from DRAP dated: 25-11-2015. At that time Mr. Atiq Ul Bari was authorized for the purpose of issuance of Clearance. Firm has now submitted copy of commercial invoice which is cleared by AD (I&E) DRAP dated 02-12-2015.

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	GMP certificate issued dated: 14-06-2018
	Evidence of approval of manufacturing facility	Firm has submitted copy of Section approval letter dated 22-06-2018 specifying Tablet General section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23997: 15-11-2019
	Details of fee submitted	PKR 50,000/-: 14-11-2019
	The proposed proprietary name / brand name	**ERTU Tablet 5mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Ertugliflozin (as L-Pyroglutamic acid)……5mg
	Pharmaceutical form of applied drug	Pink coloured triangular shaped film coated tablet, debossed SAMI on one side and break line on the other side.
	Pharmacotherapeutic Group of (API)	Anti-diabetic

	Reference to Finished product specifications	Innovators specs
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Steglatro tablets **(USFDA** Approved)
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	Shanghai Pharma Group Changzhou Kony Pharmaceutical Co. Ltd. Daixi Street Luoyang Town, Wujin District, Changzhou Jiangsu China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated and real time conditions. The real time stability data is conducted as per zone IV-A conditions
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has also submitted results of comparative dissolution profile of their product with the innovator product i.e. Steglatro Tablet manufactured by Merck Sharp Dohme. Firm has performed CDP in 0.1 N HCl, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The drug release was above 85% in 15 minutes in all medias. Firm also calculated factor f2 which was above 50.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product.

STABILITY STUDY DATA	
Manufacturer of API	Shanghai Pharma Group Changzhou Kony Pharmaceutical Co. Ltd. Daixi Street Luoyang Town, Wujin District, Changzhou Jiangsu China.

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "TEFOD (Tenofovir Alafenamide) 25mg Tablets" which was presented in 288th meeting of Registration Board wherein the Board decided to approve registration of this product Date of inspection: 28th January, 2019. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of Drug Manufacturing License (S 20160130) of M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co. Ltd. The certificate is valid till 31-12-2020. GMP certificate (No. JS20180935) issued by CFDA is also verified online.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 "License to Import drugs for clinical trial, examination, test or analysis" specifying import of 0.8Kg ertugliflozin. Firm has submitted copy of commercial invoice dated 25-01-2019 specifying import of 0.8Kg ertugliflozin along with impurities and working standard. The commercial invoice is not attested by AD (I&E) DRAP field office.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC[3]:

Shortcomings communicated	Response by the firm
Submit data in section 3.2.S.4.3 to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) shall be submitted".	Firm has submitted analytical method validation report for validation of the method of analysis for both drug substances.

Submit data in section 3.2.P.2.2.1. to comply the decision of 293rd meeting of Registration Board, which states that "Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed."	Firm has submitted comparative analysis report comparing the results of all quality tests for their own product as well as the Steglatro tablet. Firm has also submitted results of comparative dissolution of both products at all the three recommended pH.
Scientific rationale for development of tablet having break line on one side of the tablet.	The reference product is not scored, however score line was suggested for our product. The purpose of score was not for splitting the tablet into two equal doses but only to make differentiation with other existing products. No impact was observed on the dissolution of product, therefore the generic tablet will be scored.
Justify selection of dissolution parameters i.e. USP apparatus-II paddle with 100rpm and 0.1N HCl as dissolution medium, since the dissolution parameters declared by USFDA in its review of innovator product i.e. Steglatro are USP apparatus-I (Basket) with 100 rpm and acetate buffer pH 4.5 as dissolution medium.	Ertugliflozin falls in BCS class I and its solubility is pH independent which is also confirmed by the CDP report that it achieves 80% Q in 15 minutes at all pH ranges. Initially we performed dissolution by using following following parameters Media: 0.1N HCl RPM: 100 Apparatus: II (Paddle) Time 30 min. Stability batches were analysed at 0,1,2,3,4 & 6 months on in house testing but after reviewing the FDA drug approval, we revised our testing method and continue the real time stability studies by following method. Media: Acetate buffer (pH 4.5) RPM: 100 Apparatus: I (Basket) Time 15 min. Results from both methods are found similar and no impact observed in the results due to change in dissolution parameters.
Justify the dissolution parameters i.e. NLT 85% in 30 minutes, since the dissolution specifications of the innovator product is NLT (Q) in 15 minutes.	Firm has not provided any specific clarification but have submitted revised testing method and specifications in which the dissolution time is 15 minutes.

Decision: Registration Board decided to defer the case and directed the firm to submit dissolution testing data as per USFDA recommended dissolution conditions at 15 minutes at initial and one-month time point at both accelerated and real time stability conditions for 2 batches.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	Yes

2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (No. GD20180856) issued by China Food and Drug Administration has been submitted. The submitted certificate is valid till 31-07-2023.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted copy of commercial invoice specifying import of 20Kg Vancomycin HCl sterile USP. The invoice is attested by AD (I&E) DRAP Lahore dated 10-12-2018 for batch # HAF1809029.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

Remarks of Evaluator[3]

Shortcomings communicated	Response by the firm
Submit contract manufacturing agreement between the applicant and contract manufacturer.	Firm has submitted copy of contract manufacturing agreement
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit mentioned in Module 1 under section 1.5.2 is vancomycin hydrochloride eq to vancomycin 1g, while the submitted fee is for vancomycin hydrochloride eq to vancomycin 500mg. Clarification is required in this regard.	It was a typographic error. Correct strength is now being submitted under section 1.5.2.
Commitments in module 1 should be submitted by the applicant instead of contract manufacturer.	Firm has submitted all commitments
Quality overall summary (QoS) should be submitted by filling the WHO template or the template approved by Registration Board in its 293rd meeting instead of attaching documents from module 3. Complete drug substance part in Module 3 is not submitted.	Firm has submitted QOS as per WHO QOS PD template
Provide detailed analytical method for drug substance as well drug product.	Firm has submitted detailed analytical method for drug substance and drug product.
Submit the data of verification of analytical method for drug substances in section 3.2.S.4.3 to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) shall be submitted".	Firm has submitted analytical method verification report for drug substance.

Specify the exact batch number of drug substance used in the manufacturing of stability batches.	HAF1809029.
Submit results of batch analysis in section 3.2.S.4.4 to comply the decision of 293rd meeting of Registration Board, which states that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacture".	COA of relevant batches has been provided
Submit stability study data of drug substance in section 3.2.S.7.	Stability study data of 3 batches is submitted,
Provide scientific justification for use of 2.5% overage in the formulation.	The 2.5% overage was a typo error and was mistakenly mentioned under the master formula. We have not used any overage and are also submitting our BMR for stability batches as evidence that the formulation was dispensed without any overage.
Submit information in section 3.2.P.1 to comply the decision of 293rd meeting of Registration Board, which states that "Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug".	Firm has submitted details of the diluent as per the innovator product
Submit data in section 3.2.P.2.2.1 to comply the decision of 293rd meeting of Registration Board, which states that "Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed.	Firm has submitted pharmaceutical equivalence of their product against the reference product Vancocine Injection.
Submit the data of compatibility studies in section 3.2.P.2.6 to comply the decision of 293rd meeting of Registration Board, which states that "Compatibility studies for the dry powder for injections and dry powder for suspension should be performed as per the instructions provided in individual label of the drug product"	Firm has submitted results of description, pH, clarity of solution and assay of their product after reconstitution with the accompanying diluent.
Justify why the test for uniformity of dosage unit, water determination and content of vancomycin are not included in finished product specification, since these tests are included in the USP monograph. Provide detailed analytical procedure in section 3.2.P.5.2.	Finished product specifications as per USP monograph have been submitted
Provide detailed protocols for validation of bioassay for vancomycin hydrochloride injection and also provide validation report summarized results for each testing parameter as per the relevant ICH / FDA / WHO guidelines in section 3.2.P.5.3.	Validation studies of Bio Assay has been submitted by the firm

Justify why the validation / verification of analytical chromatographic method provided under content of vancomycin in the USP monograph is not performed.	Firm has submitted verification studies report for the drug substance.
Provide justification of specifications of the finished drug product in section 3.2.P.5.6.	Firm has submitted justification of specifications
Provide COA of primary / secondary reference standard including source and lot number in section 3.2.P.6.	Firm has submitted COA of reference standard and standardized working standard
Provide the details regarding type of glass vial, material of construction and colour of rubber stopper in section 3.2.P.7.	Firm has submitted details of container closure system for their product.
Justify the use of 20cc glass vials for the applied product, since the innovator products are supplied in 10ml glass vials.	The word 20cc in container closure system was a typo error and actually we are using 10 ml glass vials as per the innovator product.
Provide batch size in terms of number of vials for all the stability batches.	Firm has submitted revised stability data sheets including batch size in terms of number of vials.
Provide the data of in-use stability studies in section 3.2.P.8 as per the decision of 293rd meeting of Registration Board, which states that "Summary of additional stability studies (if applicable) e.g. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf life should be provided."	Since the applied formulation is meant for immediate administration upon reconstitution hence in-use stability is not required.
Submit stability study data in section 3.2.P.8.3 as per the checklist approved by Registration Board in its 293rd meeting, which includes the following documents: • Reference of previous approval of applications with stability study data of the firm (if any) • Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. • Documents for the procurement of API with approval from DRAP (in case of import). • Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted the documents with stability data as per the guidelines of 293rd meeting of Registration Board.
Provide batch manufacturing record for the stability batches.	Firm has submitted BMR of all the three batches

Decision: Registration Board decided to approve registration of VANCOMAC 500mg Injection by M/s Macter International Limited. F-216, SITE, Karachi, contract manufactured by M/s English Pharmaceutical Industries Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore.

2552.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Macter International Limited. F-216, SITE, Karachi.**

	Name, address of Manufacturing site.	M/s English Pharmaceutical Industries Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the firm	**Macter International:** Inspection conducted on 23-01-2019 concludes the firm is considered to be operating at good level of GMP. **English Pharmaceutical:** GMP certificate issued based on inspection dated 06-01-2018
	Evidence of approval of manufacturing facility	Firm (M/s English Pharmaceuticals) has submitted copy of renewal of DML letter dated 09-03-2015 specifying Dry powder injectable vial (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 15807 dated 02-07-2020
	Details of fee submitted	Rs.50,000/- Dated 07-05-2020
	The proposed proprietary name / brand name	**VANCOMAC 1g Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Vancomycin (as HCl) …… 1g
	Pharmacotherapeutic Group of (API)	Antibiotic
	Pharmaceutical form of applied drug	Powder for solution for injection
	Reference to Finished product specifications	USP
	Proposed Pack size	1x1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Vancomycin 500mg Powder for Solution for Infusion **MHRA** Approved
	For generic drugs (me-too status)	Vanbact 500mg Injection by NabiQasim (Reg # 070682)
	Name and address of API manufacturer.	M/s Livzon Syntpharm Co. Ltd. (Zhuhai FTZ) Zhuhai Free Trade Zone, Wanzai, Zhuhai Gd. Wanfang Industrial Park, Macun Area, Jiaozuo, Henan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of

		drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated and real time conditions**.**
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence	Submitted
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Livzon Syntpharm Co. Ltd. (Zhuhai FTZ) Zhuhai Free Trade Zone, Wanzai, Zhuhai Gd. Wanfang Industrial Park, Macun Area, Jiaozuo, Henan.		
API Lot No.	HAF1702010		
Description of Pack (Container closure system)	Clear glass vial		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 3, 6 (Months) Real Time: 0, 1, 3, 6 (Months)		
Batch No.	VMI-018	VMI-019	VCI-002
Batch Size	14800 vials	21500 vials	4385 vials
Manufacturing Date	01-2018	06-2018	07-2019
Date of Initiation	19-01-2018	10-07-2018	15-07-2019
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (No. GD20180856) issued by China Food and Drug Administration has been submitted. The submitted certificate is valid till 31-07-2023.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted copy of commercial invoice specifying import of 70Kg Vancomycin HCl sterile USP. The invoice is

		attested by AD (I&E) DRAP Lahore dated 30-03-2017 for batch # HAF1702010.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

Remarks of Evaluator[3]

Shortcomings communicated	**Response by the firm**
Submit contract manufacturing agreement between the applicant and contract manufacturer.	Firm has submitted copy of contract manufacturing agreement
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit mentioned in Module 1 under section 1.5.2 is vancomycin hydrochloride eq to vancomycin 1g, while the submitted fee is for vancomycin hydrochloride eq to vancomycin 500mg. Clarification is required in this regard.	It was a typographic error. Correct strength is now being submitted under section 1.5.2.
Commitments in module 1 should be submitted by the applicant instead of contract manufacturer.	Firm has submitted all commitments
Quality overall summary (QoS) should be submitted by filling the WHO template or the template approved by Registration Board in its 293rd meeting instead of attaching documents from module 3. Complete drug substance part in Module 3 is not submitted.	Firm has submitted QOS as per WHO QOS PD template
Provide detailed analytical method for drug substance as well drug product.	Firm has submitted detailed analytical method for drug substance and drug product.
Submit the data of verification of analytical method for drug substances in section 3.2.S.4.3 to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) shall be submitted".	Firm has submitted analytical method verification report for drug substance.
Specify the exact batch number of drug substance used in the manufacturing of stability batches.	HAF1809029.
Submit results of batch analysis in section 3.2.S.4.4 to comply the decision of 293rd meeting of Registration Board, which states that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacture".	COA of relevant batches has been provided
Submit stability study data of drug substance in section 3.2.S.7.	Stability study data of 3 batches is submitted,
Provide scientific justification for use of 2.5% overage in the formulation.	The 2.5% overage was a typo error and was mistakenly mentioned under the master formula.

	We have not used any overage and are also submitting our BMR for stability batches as evidence that the formulation was dispensed without any overage.
Submit information in section 3.2.P.1 to comply the decision of 293rd meeting of Registration Board, which states that "Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug".	Firm has submitted details of the diluent as per the innovator product
Submit data in section 3.2.P.2.2.1 to comply the decision of 293rd meeting of Registration Board, which states that "Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed.	Firm has submitted pharmaceutical equivalence of their product against the reference product Vancocine Injection.
Submit the data of compatibility studies in section 3.2.P.2.6 to comply the decision of 293rd meeting of Registration Board, which states that "Compatibility studies for the dry powder for injections and dry powder for suspension should be performed as per the instructions provided in individual label of the drug product"	Firm has submitted results of description, pH, clarity of solution and assay of their product after reconstitution with the accompanying diluent.
Justify why the test for uniformity of dosage unit, water determination and content of vancomycin are not included in finished product specification, since these tests are included in the USP monograph. Provide detailed analytical procedure in section 3.2.P.5.2.	Finished product specifications as per USP monograph have been submitted
Provide detailed protocols for validation of bioassay for vancomycin hydrochloride injection and also provide validation report summarized results for each testing parameter as per the relevant ICH / FDA / WHO guidelines in section 3.2.P.5.3.	Validation studies of Bio Assay has been submitted by the firm
Justify why the validation / verification of analytical chromatographic method provided under content of vancomycin in the USP monograph is not performed.	Firm has submitted verification studies report for the drug substance.
Provide justification of specifications of the finished drug product in section 3.2.P.5.6.	Firm has submitted justification of specifications
Provide COA of primary / secondary reference standard including source and lot number in section 3.2.P.6.	Firm has submitted COA of reference standard and standardized working standard
Provide the details regarding type of glass vial, material of construction and colour of rubber stopper in section 3.2.P.7.	Firm has submitted details of container closure system for their product.

Justify the use of 20cc glass vials for the applied product, since the innovator products are supplied in 10ml glass vials.	The word 20cc in container closure system was a typo error and actually we are using 10 ml glass vials as per the innovator product.
Provide batch size in terms of number of vials for all the stability batches.	Firm has submitted revised stability data sheets including batch size in terms of number of vials.
Provide the data of in-use stability studies in section 3.2.P.8 as per the decision of 293rd meeting of Registration Board, which states that "Summary of additional stability studies (if applicable) e.g. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf life should be provided."	Since the applied formulation is meant for immediate administration upon reconstitution hence in-use stability is not required.
Submit stability study data in section 3.2.P.8.3 as per the checklist approved by Registration Board in its 293rd meeting, which includes the following documents: • Reference of previous approval of applications with stability study data of the firm (if any) • Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. • Documents for the procurement of API with approval from DRAP (in case of import). • Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted the documents with stability data as per the guidelines of 293rd meeting of Registration Board.
Provide batch manufacturing record for the stability batches.	Firm has submitted BMR of all the three batches

Decision: Registration Board decided to approve registration of VANCOMAC 1g Injection by M/s Macter International Limited. F-216, SITE, Karachi, contract manufactured by M/s English Pharmaceutical Industries Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore.

2553.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Macter International Limited. F-216, SITE, Karachi.**
	Name, address of Manufacturing site.	M/s English Pharmaceutical Industries Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the firm	**Macter International:** Inspection conducted on 23-01-2019 concludes the firm is considered to be operating at good level of GMP. **English Pharmaceutical:** GMP certificate issued based on inspection dated 06-01-2018
	Evidence of approval of manufacturing facility	Firm (M/s English Pharmaceuticals) has submitted copy of renewal of DML letter dated 09-03-2015 specifying Dry powder injectable vial (General) section.

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 15753 dated 26-08-2019
	Details of fee submitted	Rs.50,000/- Dated 26-08-2019
	The proposed proprietary name / brand name	**COLMIT 1MIU Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Colistimethate sodium …… 1MIU
	Pharmacotherapeutic Group of (API)	Antibiotic

Remarks of Evaluator[3]

Shortcomings communicated	Response by the firm

Submit contract manufacturing agreement between the applicant and contract manufacturer.	Firm has submitted copy of contract manufacturing agreement
Commitments in module 1 should be submitted by the applicant instead of contract manufacturer.	Firm has submitted all commitments
Quality overall summary (QoS) should be submitted by filling the WHO template or the template approved by Registration Board in its 293rd meeting instead of attaching documents from module 3. Complete drug substance part in Module 3 is not submitted.	Firm has submitted QOS as per WHO QOS PD template
Submit the data of verification of analytical method for drug substances in section 3.2.S.4.3 to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) shall be submitted".	Firm has submitted analytical method verification report for drug substance.
Submit results of batch analysis in section 3.2.S.4.4 to comply the decision of 293rd meeting of Registration Board, which states that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacture".	COA of relevant batches has been provided
Submit stability study data of drug substance in section 3.2.S.7.	Stability study data of the drug substance is submitted as per zone IV-A conditions.
Provide scientific justification for use of ±5% overage in the formulation.	The 2.5% overage was a typo error and was mistakenly mentioned under the master formula. We have not used any overage and are also submitting our BMR for stability batches as evidence that the formulation was dispensed without any overage.
Submit information in section 3.2.P.1 to comply the decision of 293rd meeting of Registration Board, which states that "Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug".	Firm has submitted details of the diluent as per the innovator product
Submit data in section 3.2.P.2.2.1 to comply the decision of 293rd meeting of Registration Board, which states that "Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed.	Firm has submitted pharmaceutical equivalence of their product against the comparator product.

Submit the data of compatibility studies in section 3.2.P.2.6 to comply the decision of 293rd meeting of Registration Board, which states that "Compatibility studies for the dry powder for injections and dry powder for suspension should be performed as per the instructions provided in individual label of the drug product"	Firm has submitted results of description, pH, clarity of solution and assay of their product after reconstitution with the accompanying diluent.
Justify why the test for uniformity of dosage unit, loss on drying, heavy metals, and free colistin under Colistimethate Sodium are not included in finished product specification, since these tests are included in the USP monograph.	Firm has submitted revised specifications as per USP monograph which includes these tests.
Provide detailed protocols for validation of bioassay for colistimethate sodium injection and also provide validation report summarized results for each testing parameter as per the relevant ICH / FDA / WHO guidelines in section 3.2.P.5.3.	Validation studies of Bio Assay has been submitted by the firm
Provide justification of specifications of the finished drug product in section 3.2.P.5.6.	Firm has submitted justification of specifications
Provide COA of primary / secondary reference standard including source and lot number in section 3.2.P.6.	Firm has submitted COA of reference standard and standardized working standard
Provide the details regarding type of glass vial, material of construction and colour of rubber stopper in section 3.2.P.7.	Firm has submitted details of container closure system for their product.
Justify the use of 15cc glass vials for the applied product, since the innovator / reference products are supplied in 7ml or 10ml glass vials.	The word 15cc in container closure system was a typo error and actually we are using 10 ml glass vials as per the Reference product.
Provide batch size in terms of number of vials for all the stability batches.	Firm has submitted revised stability data sheets including batch size in terms of number of vials.
Provide the data of in-use stability studies in section 3.2.P.8 as per the decision of 293rd meeting of Registration Board, which states that "Summary of additional stability studies (if applicable) e.g. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf life should be provided."	Since the applied formulation is meant for immediate administration upon reconstitution hence in-use stability is not required.
Submit stability study data in section 3.2.P.8.3 as per the checklist approved by Registration Board in its 293rd meeting, which includes the following documents: • Reference of previous approval of applications with stability study data of the firm (if any) • Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. • Documents for the procurement of API with approval from DRAP (in case of import). • Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted the documents with stability data as per the guidelines of 293rd meeting of Registration Board.

• Compliance Record of HPLC software 21CFR & audit trail reports on product testing • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	
Provide batch manufacturing record for the stability batches.	Firm has submitted BMR of all the three batches

Decision: Registration Board decided to approve registration of COLMIT 1MIU Injection by M/s Macter International Limited. F-216, SITE, Karachi, contract manufactured by M/s English Pharmaceutical Industries Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore.

3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted ADC attested invoice dated 08-08-2018 specifying import of 4Kg pellets
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR[3]

- Firm has submitted two different COA from Alphamed which are totally contradictory with each other in terms of dissolution profiles.

Annexure Number: Annexure/QA/A002 Version No: 2.0 Effective Date: 23/03/2018
Page No: 1 of 2

- The second COA of alphamed submitted by the firm (Pharmevo) is of the same batch AJ3A8010 signed on the same dates but with totally different release specification. As per new COA the average release of pellets at pH 7.0 is 100% while that mentioned in previous COA was 68%. As per new COA the testing of pellets at pH 7.0 is conducted at two different stages at two specifications i.e. NLT 30% in 60 minutes and NLT 80% in 180 minutes.
- Further, since the firm has submitted that their finished product specifications is NLT 75% in 75 minutes and as per the response provided by firm, the release of pellets was more than 80% in 75 minutes, while as per the COA of pellets release is NLT 80% in 180 minutes.
- Further the firm has not performed testing of pellets at pH 5.5 as per the requirements of Registration Board.

Shortcoming communicated	Response received by the firm
Scientific justification is required for the adaptation of dissolution specification (NLT 75% in 75 minutes) in buffer stage for finished product in the light of general monographs of USP/BP and FDA guidance on "Dissolution Testing of Immediate Release Solid Oral Dosage Forms"	Firm has submitted that as per USFDA recommended dissolution method the end time point is 120 minutes for acid as well as buffer stage. We have set specification NLT 75% after 75 minutes in buffer stage as when we tested the pellets at initial stage the release was more than 80% in 75 minutes so we shortened the specified time point of 120 minutes to 75 minutes.

Decision of 291st meeting of Registration Board:
Deferred for following:

- Scientific justification of submission of 2 different certificate of analysis from the pellets manufacturer Alphamed Formulations of the same batch with same analysis date and signature but with different limits and tests for dissolution of pellets.
- Scientific justification of adaptation of dissolution limits for the finished product in the buffer stage i.e. NLT 75% in 75 minutes which is contradictory to the dissolution of pellets (i.e. NLT 80% in 180 minutes) as well as the reference product. Furthermore clarification is required how the capsule can provide sustained release effect if the dissolution is not less than 75% in 75 minutes.
- Scientific justification of not performing dissolution testing of the pellets at buffer stage pH 5.5 before the filling of pellets for confirmation of dual delayed release action and to comply with the decision of Registration Board.

Response by the firm:

Decision of Registration Board	Response by the firm
Scientific justification of submission of 2 different certificate of analysis from the pellets manufacturer Alphamed Formulations of the same batch with same analysis date and signature but with different limits and tests for dissolution of pellets.	The firm has submitted that the API manufacturer conducted the testing with three different procedures and provided us with all the COA's. During submission we erroneously attached CoA different from our development method. We are now enclosing the test procedures, CoA from the supplier as well as testing of finished product.
Scientific justification of adaptation of dissolution limits for the finished product in the buffer stage i.e. NLT 75% in 75 minutes which is contradictory to the dissolution of pellets (i.e. NLT 80% in 180 minutes) as well as the reference product. Furthermore clarification is required how the capsule can provide sustained release effect if the dissolution is not less than 75% in 75 minutes.	Initially the dissolution time point at phosphate buffer was set in accordance to USFDA dissolution method. As in the FDA dissolution database the end time point is 120 minutes for acid and buffer stage. We would like to mention that initially we find our results more than 75% in 75 minutes and we considered the results as baseline of Q value. It may be noted that we further extended the test till 120 minutes and results were found to be more than 90%. Furthermore for verification of release pattern, comparative study with innovator product Dexilant capsule has also been conducted and the results found comparable i.e. more than 75% in 75 minutes on both products.
Scientific justification of not performing dissolution testing of the pellets at buffer stage pH 5.5 before the filling of pellets for confirmation of dual delayed release action and to comply with the decision of Registration Board.	We initially set the dissolution specification for pellets i.e. in acid condition, buffer stage condition, but we did not performed testing at pH 5.5 before filling of pellets. But as per the decision of Registration Board we have then performed dissolution testing at pH 5.5 and submitting the results. We also commit to perform this test in all new received commercial lots of dexlansoprazole.

If agreed, the case may be forwarded for panel inspection. The panel may be requested to verify the dissolution testing of pellets at pH 5.5 for confirmation of dual delayed release action.

- Scientific justification of not performing dissolution testing of the pellets at buffer stage pH 5.5 before the filling of pellets for confirmation of dual delayed release action and to comply with the decision of Registration Board.

Response by the firm:

Decision of Registration Board	Response by the firm
Scientific justification of submission of 2 different certificate of analysis from the pellets manufacturer Alphamed Formulations of the same batch with same analysis date and signature but with different limits and tests for dissolution of pellets.	The firm has submitted that the API manufacturer conducted the testing with three different procedures and provided us with all the COA's. During submission we erroneously attached CoA different from our development method. We are now enclosing the test procedures, CoA from the supplier as well as testing of finished product.
Scientific justification of adaptation of dissolution limits for the finished product in the buffer stage i.e. NLT 75% in 75 minutes which is contradictory to the dissolution of pellets (i.e. NLT 80% in 180 minutes) as well as the reference product. Furthermore clarification is required how the capsule can provide sustained release effect if the dissolution is not less than 75% in 75 minutes.	Initially the dissolution time point at phosphate buffer was set in accordance to USFDA dissolution method. As in the FDA dissolution database the end time point is 120 minutes for acid and buffer stage. We would like to mention that initially we find our results more than 75% in 75 minutes and we considered the results as baseline of Q value. It may be noted that we further extended the test till 120 minutes and results were found to be more than 90%. Furthermore for verification of release pattern, comparative study with innovator product Dexilant capsule has also been conducted and the results found comparable i.e. more than 75% in 75 minutes on both products.
Scientific justification of not performing dissolution testing of the pellets at buffer stage pH 5.5 before the filling of pellets for confirmation of dual delayed release action and to comply with the decision of Registration Board.	We initially set the dissolution specification for pellets i.e. in acid condition, buffer stage condition, but we did not performed testing at pH 5.5 before filling of pellets. But as per the decision of Registration Board we have then performed dissolution testing at pH 5.5 and submitting the results. We also commit to perform this test in all new received commercial lots of dexlansoprazole.

If agreed, the case may be forwarded for panel inspection. The panel may be requested to verify the dissolution testing of pellets at pH 5.5 for confirmation of dual delayed release action.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Denzol (Dexlansoprazole) 30mg and 60mg Capsules by M/s PharmEvo (Pvt.) Limited, A-29, North Western Industrial Zone, Port Qasim, Karachi.

Reference No: F.1-2/2020-PEC dated 6th July, 2020
Investigation Date and Time: 22nd July, 2020
Investigation Site: Factory premises of M/s PharmEvo (Pvt.) Limited, A-29, North Western Industrial Zone, Port Qasim, Karachi.

Background:
Chairman Registration Board considered the applications of M/s PharmEvo (Pvt.) Limited, A-29, North Western Industrial Zone, Port Qasim , Karachi for registration of Denzol (Dexlansoprazole) 30mg & Denzol (Dexlansoprazole) 60mg Capsules and constituted a three member panel to investigate the authenticity /

genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

16. Prof. Dr. Rafeeq Alam Khan, Dean. Faculty of Pharmacy, Ziauddin University, Karachi (Member Registration Board).
17. Dr. Saif-ur-Rehman Khattak, Director/ FGA, CDL, Karachi.
18. Ms. Sanam Kauser, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Sr. No.	Question	Observation by panel
1.	Do you have documents confirming the import of Dexlansoprazole API including approval from DRAP?	The firm has imported Dexlansoprazole 4.0Kg vide Invoice No. GE052/2018 dated August 1, 2018from M/s Alphamed formulations (Pvt). Ltd for the manufacturing of lab scale batches of Dexlansoprazole 30mg and 60mg Capsules. The firm has proper approval for the import of the API from DRAP, Karachi.
2.	What was the rationale behind selecting the particular manufacturer of API?	The rationale behind selecting the particular source of API is the laid down criteria of the firm in their Vendor Evaluation procedure which include the GMP status of the firm, DMF source and capability to provide API reference standard and impurity standard.
3.	Do you have documents confirming the import of Dexlansoprazole, reference standard and impurity standards?	Firm has documents confirming the import of Dexlansoprazole, The API working standard was imported at the time of import of the API whereas the impurity standards imported later on.
4.	Do you have certificate of Analysis of the API, reference standard and impurity standards?	The firm has certificates of analysis for API, Working standard of the API and impurities standards.
5.	Do you have GMP certificate of API Manufacturer issued by regulatory Authority of country of origin?	Firm has GMP certificate issued by the Drug Control Administration, Government of Telangana, India.
6.	Do you use API manufacturer method of testing for testing API?	The firm has used API manufacturer method for testing the API.
7.	Do you have stability studies reports on API?	The firm has stability studies reports on API.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method, however, no degradation products are reported by the manufacturer. Process related impurities have been quantified during stability studies.
9.	Do you have method for quantifying the impurities in the API?	The firm has API manufacturer method for quantifying the impurities in the API.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Firm has some quantities of the API and working standard, however they have consumed all the impurity standards.

11.	Have you used pharmaceutical grade excipients?	The only excipient used is hard gelatine shells.
12.	Do you have documents confirming the import of the used excipients?	Firm has documents conforming the import of gelatine shells.
13.	Do you have test reports and other records on the excipients used?	Test reports are available on gelatine shells.
14.	Do you have written and authorized protocols for the development of Dexlansoprazole 30mg and 60mg Capsules?	The firm has written and authorized protocols for the development of Dexlansoprazole 30mg and 60mg Capsules.
15.	Have you performed Drug-excipient Compatibility studies?	Not applicable.
16.	Have you performed comparative Dissolution studies?	The firm has performed comparative dissolution profile of Dexlansoprazole 30mg and 60mg Capsule with Dexilant Capsule 30mg and 60mg manufactured by M/s Takeda Pharmaceutical Co. Ltd. respectively. Similarity factor for Dexlansoprazole 30mg Capsule are as follows: Buffer pH 7.0 (55.240). Similarity factor for Dexlansoprazole 60mg Capsule are as follows: Buffer pH 7.0 (52.237).
17.	Do you have product development (R&D) section?	The firm has dedicated R&D section with reasonable facilities of equipment, human resource and utilities.
18.	Do you have necessary equipment available in product development section for development of Dexlansoprazole 30mg & 60mg Capsules?	These are ready to fill pellets which were filled using ZJT-40 automatic filling machine that is present in the commercial facility. The quality control related to development work has been done in the routine quality control laboratory; however, there are dedicated HPLCs and Human Resource for this purpose.
19.	Are the equipment in product Development section qualified?	All the equipment used in product development are qualified.
20.	Do you have proper maintenance / Calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance / calibration/ re-qualification program for the equipment used in PD section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has 05 pharmacists and 01 chemist in manufacturing section of product development currently with suitable knowledge and training in product development. 02 QC Analysts are dedicated for new products testing.
22.	Have you manufactured three stability batches for the stability studies of Dexlansoprazole 30mg and 60mg Capsules as required?	The firm has manufactured three stability batches for the stability studies of: Dexlansoprazole 30mg Capsule with Batch Numbers: 18PD-2428-01-T 18PD-2429-02-T 18PD-2430-03-T Dexlansoprazole 60mg Capsule with Batch Numbers: 18PD-2425-01-T 18PD-2426-02-T 18PD-2427-03-T All batches of both strengths have batch size of 2500 capsules.

23.	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing batch size is according to DRAP guidelines
24.	Do you have complete record of Production of stability batches?	The firm has complete record of production of stability batches.
25.	Do you have protocols for stability testing of stability batches?	The firm has detailed protocols for stability testing of stability batches.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated stability indicating method for testing of their finished product supported by forced degradation.
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Method transfer studies have not been done, however, validation of the method has been performed.
28.	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Dexlansoprazole and the finished drug?	The firm has documents confirming the installation and operational qualification of the equipment / instruments being used in the test and analysis of Dexlansoprazole and the finished drug.
29.	Do your method of analysis stability indicating?	The firm's method of testing is stability indicating as supported by forced degradation studies.
30.	Do your HPLC software 21CFR Compliant?	The HPLC software is 21CFR Compliant as per record available with the firm.
31.	Can you show audit trail reports on Dexlansoprazole testing?	Audit trail on the testing reports are available.
32.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of the stability batches kept in stability chambers.
33.	Do you have stability batches kept on stability testing?	The firm has kept all the three batches on real time and accelerated stability testing. Accelerated stability testing is complete whereas in real time studies 12 months has been completed with satisfactory results.
34.	Do you have valid calibration status for the Equipment used in Dexlansoprazole 30mg & 60mg Capsules production and analysis?	The firm has valid calibration status for the equipment used in Dexlansoprazole Capsules production and analysis.
35.	Do proper and continuous monitoring and control are available for stability chamber?	The firm has 16 stability chambers, 02 for accelerated and 14 for real time stability testing. All the chambers are properly qualified. All the chambers are provided with continuous power supply and data loggers for continuous monitoring.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The firm has manufacturing area provided with necessary qualified equipment and utilities. The manufacturing personnel are suitable in number and qualification to run the manufacturing processes as per GMP requirements. The environmental conditions and their controls are also proper. The overall GMP conditions can be rated as compliant.
37.	**Specific Queries by PEC/Board** To verify the dissolution testing of pellets at pH 5.5 for confirmation of dual delayed release action.	As per direction of the PEC results of dissolution testing of the pellets at pH 5.5 were reviewed. It was concluded that the results lie within the limits (less than 35% in three hours).

Conclusions:

14. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Denzol 30mg/60mg (Dexlansoprazole) Capsules are verifiable to satisfactory level.

15. The related manufacturing area, equipment, personnel and utilities are GMP compliant and well suited for the manufacturing of Denzol 30mg/60mg (Dexlansoprazole) Capsules.

Recommendations:

1. Since Denzol 30mg/60mg (Dexlansoprazole) Capsules are modified release (delayed release) capsules therefore, post registration bioequivalence studies should be conducted on the product before marketing.
2. Firm must developed specific identification test for dexlansoprazole in the pallets and the finished product.
3. The firm may kindly be granted necessary registration of Denzol 30mg/60mg (Dexlansoprazole) Capsules.

Note: The firm has submitted written undertaking for post registration bioequivalence studies on the capsules (copy enclosed).

Decision: Registration Board decided to approve registration of Denzol (Dexlansoprazole) 30mg and 60mg Capsules with Innovator's specifications by M/s Pharmevo (Pvt) Ltd., Plot # A-29, North Western Industrial zone, Port Qasim, Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted: • copy of GMP certificate (No. DE_BE_01_GMP_2016_0021) issued by Landesamt fur Gesundheit und Soziales, Germany dated 31-05-2016 • Copy of letter and establishment inspection report by FDA dated 13-11-2015
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted ADC attested invoice dated 20-04-2018 specifying import of 0.5Kg Omarigliptin along with 20mg impurity A and B each.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR[3]

Shortcoming communicated	Response received by the firm
Justify the acceptance criteria of dissolution test i.e. NLT 75% after 30 minutes without defining the value of "Q" since the value of Q at level S1 is defined between 75 to 80 in various guidance documents of EDQM, FDA guidance documents and USP and the overall acceptance criteria for level S1 is set as Q+5. Moreover FDA guidance "Dissolution Testing and Acceptance Criteria for Immediate-Release Solid Oral Dosage Form Drug Products Containing High Solubility Drug Substances" specifies under the heading **DISSOLUTION ACCEPTANCE CRITERIA** that *for immediate release solid oral drug products containing a high solubility drug substance (as defined herein), the dissolution criterion is Q=80% in 30 minutes.*	Firm has submitted that we have set the dissolution specification NLT 75% as per USFDA and USP. In all provided stability reports the dissolution results are more than 80% on all intervals and in both conditions which indicates that all results are meeting the USP criteria S1 i.e. Q+5. Accelerated stability data dissolution results

Batch No.	0 month	3 month	6month
18PD-2460-01-T	99.37	92.26	98.58
18PD-2461-02-T	100.42	87.02	98.07
18PD-2462-03-T	89.4	87.1	97.9

	Real time stability data dissolution results Batch No. | 0 month | 3 month | 6month 18PD-2460-01-T | 99.37 | 87.35 | 89.01 18PD-2461-02-T | 100.42 | **86.76** | 90.24 18PD-2462-03-T | 89.4 | 92.7 | 97.01 **The exact BCS class of Omarigliptin is not yet identified by PMDA Japan. As per the literature, the solubility of omarigliptin is 543mg/L which makes it an intermediate to high soluble drug. Other gliptins like sitagliptin, vildagliptin, trelagliptin etc are all BCS-III class drugs. As per the USFDA guidelines the value of Q for such drugs should be 80% and for dissolution testing at S-1 level the dissolution limit will become 85% (i.e. Q+5%).** • **Out of trend (OOT) results can be seen although all results are still within acceptable criteria / specifications.** • **Some results at the borderline of acceptance criteria with 6 months data makes it scientifically difficult to predict the shelf life for 24 months.** • **Since this is a once weekly antidiabetic drug and the drug release from each unit will help to control the glycemic levels for whole week that's why the dissolution results of this particular drug plays very important role.**
Submit the latest GMP certificate of the API manufacturer by the relevant regulatory authority of the country of origin.	Firm has again submitted the same inspection report of FDA dated **13-11-2015** and copy of GMP certificate (No. DE_BE_01_GMP_2016_0021) issued by Landesamt fur Gesundheit und Soziales, Germany dated **31-05-2016**.
Justify the finished product specification without the test for content uniformity.	Firm has submitted that they are not performing content uniformity test on new drug product at initial stage but after getting registration from DRAP after inspection on commercial batches we include the test of content uniformity as per guidelines.
Scientific justification for dissolution parameters including type of apparatus, speed and dissolution medium is required.	Firm has submitted that they have selected apparatus **2 paddle** method and for rpm the range value of 50 to 75 rpm given we have selected **50 rpm**. Time point for immediate release products in USP BP JP and also FDA is given as 30 miutes so we have adopted this **30 minute** end point for our study. Dissolution medium selection water and dilute hydrochloric acid, buffers in pH range of 1.2 to 7.5 are given. But as omarigliptin is Japanese product son we have considered **0.01N HCl** as dissolution medium. As results founded well within

	specification we have adopted this dissolution medium. **Firm has not specified the pH of dissolution medium used. Further the pKa of the drug is 8.1 and as per pH pKa relationship, the drug is more soluble at higher pH while the firm has used 0.01N HCl which has pH 2.0.**
Specify the exact crystal form of the drug substance / API used in the stability study, since the innovator product have revealed that this drug substance have 5 crystal forms with different stability and solubility	Firm has submitted that the exact crystal form of omarigliptin used in stability batches in Form-V. Firm has also submitted copy of declaration provided by API manufacturer. **The review report / Deliberation result report of the PMDA Japan approved product Marizeb** (http://www.pmda.go.jp/drugs/2015/P20151007002/170050000_22700AMX01014000_A100_2.pdf Accessed on 23-08-2019) **specifies under the heading Quality materials/<Outline of submitted materials>/API/Characteristics as *"The drug substance is recognized in five crystal forms. The production method produces only crystalline form-I (anhydride) which is stable at room temperature"***

Decision of 291st meeting of Registration Board:

Deferred for following:

- Submission of valid GMP certificate of API manufacturer from the relevant regulatory authority of China.
- Scientific justification how the stability study data at 9th month conducted as per revised dissolution specification [i.e. NLT 85% (Q=80%) in 30 minutes] with values close to acceptance criteria can be representative of whole 6 months stability conducted at accelerated and real time conditions with dissolution specifications different from the reference product [i.e. NLT 75% after 30 minutes].
- Scientific justification of the Out of Trend (OOT) results of dissolution data.
- Scientific justification for selection of dissolution medium (i.e. 0.01N HCl having pH 2.0), since the pKa of the drug is 8.1 and as per pH pKa relationship, the drug is more soluble at higher pH.
- Scientific justification for the use of crystal form-V of the drug substance, since the innovator product has used crystal form-I which is more soluble and stable at room temperature.

Response by the firm:

1. Submission of valid GMP certificate of API manufacturer from the relevant regulatory authority of China.

Firm has submitted a copy of GMP certificate (No. 2018047) issued by Shaoguan Food and Drug Administration China. The certificate is valid till 04-12-2021.

2. Scientific justification how the stability study data at 9th month conducted as per revised dissolution specification [i.e. NLT 85% (Q=80%) in 30 minutes] with values close to acceptance criteria can be representative of whole 6 months stability conducted at accelerated and real time conditions with dissolution specifications different from the reference product [i.e. NLT 75% after 30 minutes].

Firm has submitted that that stability study at 9 month interval as per specifications NLT 75% (Q); (Q+5% = 80%) in 30 minutes has been conducted and results were found to be within specifications which is indicative of the pattern for dissolution throughout the shelf-life. The firm has also submitted 9th month long term stability data for Omrax 12.5mg Tablet and Omrax 25mg Tablet.

3. Scientific justification of the Out of Trend (OOT) results of dissolution data.

Firm has submitted that "Dissolution results at 3rd and 6th month interval of stability study data submitted in DRAP were found well within specifications. However, variations observed in Dissolution results were specifically due to the weight variation of tablet for each batch. It may be noted that weight variation of tablets for each batch lies within the defined limits as stated in 978 (2040) Weight Variation USP35 (copy attached) and same can be verified through Assay results for each batch during all stability intervals. (Summary of stability results is enclosed for your easy reference).

Furthermore, we have followed USP for acceptance criteria of dissolution test, which allows to continue dissolution testing till three stages (i.e. S1, S2 & S3) stated in USP General Chapter <711> Dissolution.

Therefore, it is evident from dissolution results obtained during stability testing of product are within acceptable limits of S1 stage and declared as normal pattern. However, if in case the results obtained exceed acceptable limit of S1 stage, it is pertinent to note that dissolution testing can be continued till S2 and/or S3 stage as well. If the results then exceed acceptable limits of S2 & S3 stage as well then only it may be considered as OOS which in this case is not relevant as all the results were found within acceptable limits of S1 stage".

4. Scientific justification for selection of dissolution medium (i.e. 0.01N HCl having pH 2.0), since the pKa of the drug is 8.1 and as per pH pKa relationship, the drug is more soluble at higher pH.

Firm has submitted that "We have developed In House method for the dissolution testing of product according to (1092) The Dissolution Procedure: Development and Validation.
Dissolution apparatus 2 paddle method and 50 rpm was selected wherein range value of 50 or 75rpm was mentioned in the reference (copy attached). Time point for immediate release products as stated in USP, BP, JP and US-FDA is 30minutes, therefore we have adopted 30minutes as end point of our study. Water, dilute Hydrochloric Acid and buffers in the pH range of 1.2 to 7.5 were used as dissolution medium.
After a thorough evaluation of solubility of Omarigliptin Tablets, we have considered 0.01N HCl as dissolution medium and same was adopted for dissolution testing parameter in stability studies.
In order to verify solubility profile and release pattern of our product, we have also performed dissolution study in all recommended mediums as mentioned in ICH & EMA and US-FDA guidelines (i.e. pH 1.2, pH 4.5 and pH 6.8). Further, Dissolution Profile study was performed in Buffer pH 2.0 (i.e. 0.01N HCl) as well to justify that there is no significant difference occurring in Buffer pH 2.0 (i.e. 0.01N HCl) & Buffer pH 6.8, which ultimately proves that formulation of Omarigliptin and selected dissolution medium are compatible and accurate".

5. Scientific justification for the use of crystal form-V of the drug substance, since the innovator product has used crystal form-I which is more soluble and stable at room temperature.

Firm has submitted that "In the patent of international application published under the Patent Cooperation Treaty (PCT), published date: 2nd March 2017, Patent # WO 2017/032705 A1, it is clearly mentioned that Omarigliptin form-V is more stable.
This patent states that "the known polymorphic forms of Omarigliptin do not seem to be adequately stable under pharmaceutically acceptable conditions and/or tend to convert into each other. Such a conversion of polymorphs often results in an unpredictable behavior of the pharmaceutically active agent with regard to its in-vivo and/or in-vitro properties such as solubility, bioavailability and stability (shelf life)"
It further states ahead "Thus it was an object of the present invention to overcome the drawbacks of the above mentioned prior forms and to provide omarigliptin which is present in a pure and/or stable form. Further, omarigliptin should be provided in a form that can be easily produced also on an industrial scale."
This patent further states in summary "The above objectives are unexpectedly achieved by the provision of a polymorphic form of omarigliptin which is designated omarigliptin form-V"
Conclusion:
This can easily be concluded from above mentioned facts that form-V of Omarigliptin does not have any negative effect on product safety, bioavailability / in-vivo characteristics which may be the risks in other polymorphic forms. Due to this reason we selected this form for generic product development.
Further, comparative study against known omarigliptin crystal form I and V have been performed by API manufacturer M/s Ruyuan HEC Pharm Co. Ltd. and results from the studies proves that "Omarigliptin crystal form V is more stable than the known crystal form I of Omarigliptin, and more suitable for solid preparation application. It is beneficial to improving the bioavailability of the drug, to counteracting the problems of uneven content, purity reduction and the like caused by factors such as time, temperature and humidity".
If agreed, the case may be forwarded for panel inspection and the panel may be requested to verify the following:

- The crystal form V of the drug substance used by the firm is equivalent to and crystal form I, which is used by the innovator product.

Further the pKa of the drug is 8.1 and as per pH pKa relationship, the drug is more soluble at higher pH while the firm has used 0.01N HCl which has pH 2.0.**
Specify the exact crystal form of the drug substance / API used in the stability study, since the innovator product have revealed that this drug substance have 5 crystal forms with different stability and solubility	Firm has submitted that the exact crystal form of omarigliptin used in stability batches in Form-V. Firm has also submitted copy of declaration provided by API manufacturer. **The review report / Deliberation result report of the PMDA Japan approved product Marizeb** (http://www.pmda.go.jp/drugs/2015/P20151007002/170050000_22700AMX01014000_A100_2.pdf Accessed on 23-08-2019) **specifies under the heading Quality materials/<Outline of submitted materials>/API/Characteristics as *"The drug substance is recognized in five crystal forms. The production method produces only crystalline form-I (anhydride) which is stable at room temperature"***

Decision of 291st meeting of Registration Board:

Deferred for following:

- Submission of valid GMP certificate of API manufacturer from the relevant regulatory authority of China.
- Scientific justification how the stability study data at 9th month conducted as per revised dissolution specification [i.e. NLT 85% (Q=80%) in 30 minutes] with values close to acceptance criteria can be

representative of whole 6 months stability conducted at accelerated and real time conditions with dissolution specifications different from the reference product [i.e. NLT 75% after 30 minutes].

- Scientific justification of the Out of Trend (OOT) results of dissolution data.
- Scientific justification for selection of dissolution medium (i.e. 0.01N HCl having pH 2.0), since the pKa of the drug is 8.1 and as per pH pKa relationship, the drug is more soluble at higher pH.

Scientific justification for the use of crystal form-V of the drug substance, since the innovator product has used crystal form-I which is more soluble and stable at room temperature.

Response by the firm:

1. Submission of valid GMP certificate of API manufacturer from the relevant regulatory authority of China.

Firm has submitted a copy of GMP certificate (No. 2018047) issued by Shaoguan Food and Drug Administration China. The certificate is valid till 04-12-2021.

2. Scientific justification how the stability study data at 9th month conducted as per revised dissolution specification [i.e. NLT 85% (Q=80%) in 30 minutes] with values close to acceptance criteria can be representative of whole 6 months stability conducted at accelerated and real time conditions with dissolution specifications different from the reference product [i.e. NLT 75% after 30 minutes].

Firm has submitted that that stability study at 9 month interval as per specifications NLT 75% (Q); (Q+5% = 80%) in 30 minutes has been conducted and results were found to be within specifications which is indicative of the pattern for dissolution throughout the shelf-life. The firm has also submitted 9th month long term stability data for Omrax 12.5mg Tablet and Omrax 25mg Tablet.

3. Scientific justification of the Out of Trend (OOT) results of dissolution data.

Firm has submitted that "Dissolution results at 3rd and 6th month interval of stability study data submitted in DRAP were found well within specifications. However, variations observed in Dissolution results were specifically due to the weight variation of tablet for each batch. It may be noted that weight variation of tablets for each batch lies within the defined limits as stated in 978 (2040) Weight Variation USP35 (copy attached) and same can be verified through Assay results for each batch during all stability intervals. (Summary of stability results is enclosed for your easy reference).

Furthermore, we have followed USP for acceptance criteria of dissolution test, which allows to continue dissolution testing till three stages (i.e. S1, S2 & S3) stated in USP General Chapter <711> Dissolution. Therefore, it is evident from dissolution results obtained during stability testing of product are within acceptable limits of S1 stage and declared as normal pattern. However, if in case the results obtained exceed acceptable limit of S1 stage, it is pertinent to note that dissolution testing can be continued till S2 and/or S3 stage as well. If the results then exceed acceptable limits of S2 & S3 stage as well then only it may be considered as OOS which in this case is not relevant as all the results were found within acceptable limits of S1 stage".

4. Scientific justification for selection of dissolution medium (i.e. 0.01N HCl having pH 2.0), since the pKa of the drug is 8.1 and as per pH pKa relationship, the drug is more soluble at higher pH.

Firm has submitted that "We have developed In House method for the dissolution testing of product according to (1092) The Dissolution Procedure: Development and Validation.

Dissolution apparatus 2 paddle method and 50 rpm was selected wherein range value of 50 or 75rpm was mentioned in the reference (copy attached). Time point for immediate release products as stated in USP, BP, JP and US-FDA is 30minutes, therefore we have adopted 30minutes as end point of our study. Water, dilute Hydrochloric Acid and buffers in the pH range of 1.2 to 7.5 were used as dissolution medium.

After a thorough evaluation of solubility of Omarigliptin Tablets, we have considered 0.01N HCl as dissolution medium and same was adopted for dissolution testing parameter in stability studies.

In order to verify solubility profile and release pattern of our product, we have also performed dissolution study in all recommended mediums as mentioned in ICH & EMA and US-FDA guidelines (i.e. pH 1.2, pH 4.5 and pH 6.8). Further, Dissolution Profile study was performed in Buffer pH 2.0 (i.e. 0.01N HCl) as well to justify that there is no significant difference occurring in Buffer pH 2.0 (i.e. 0.01N HCl) & Buffer pH 6.8, which ultimately proves that formulation of Omarigliptin and selected dissolution medium are compatible and accurate".

5. Scientific justification for the use of crystal form-V of the drug substance, since the innovator product has used crystal form-I which is more soluble and stable at room temperature.

Firm has submitted that "In the patent of international application published under the Patent Cooperation Treaty (PCT), published date: 2nd March 2017, Patent # WO 2017/032705 A1, it is clearly mentioned that Omarigliptin form-V is more stable.
This patent states that "the known polymorphic forms of Omarigliptin do not seem to be adequately stable under pharmaceutically acceptable conditions and/or tend to convert into each other. Such a conversion of polymorphs often results in an unpredictable behavior of the pharmaceutically active agent with regard to its in-vivo and/or in-vitro properties such as solubility, bioavailability and stability (shelf life)"
It further states ahead "Thus it was an object of the present invention to overcome the drawbacks of the above mentioned prior forms and to provide omarigliptin which is present in a pure and/or stable form. Further, omarigliptin should be provided in a form that can be easily produced also on an industrial scale."
This patent further states in summary "The above objectives are unexpectedly achieved by the provision of a polymorphic form of omarigliptin which is designated omarigliptin form-V"
Conclusion:
This can easily be concluded from above mentioned facts that form-V of Omarigliptin does not have any negative effect on product safety, bioavailability / in-vivo characteristics which may be the risks in other polymorphic forms. Due to this reason we selected this form for generic product development.
Further, comparative study against known omarigliptin crystal form I and V have been performed by API manufacturer M/s Ruyuan HEC Pharm Co. Ltd. and results from the studies proves that "Omarigliptin crystal form V is more stable than the known crystal form I of Omarigliptin, and more suitable for solid preparation application. It is beneficial to improving the bioavailability of the drug, to counteracting the problems of uneven content, purity reduction and the like caused by factors such as time, temperature and humidity".

If agreed, the case may be forwarded for panel inspection and the panel may be requested to verify the following:
The crystal form V of the drug substance used by the firm is equivalent to and crystal form I, which is used by the innovator product.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Omrax (Omarigliptin) 12.5mg and 25mg Tablets by M/s PharmEvo (Pvt.) Limited, A-29, North Western Industrial Zone, Port Qasim , Karachi.

Reference No: F.1-2/2020-PEC dated 6th July, 2020.
Investigation Date and Time: 02nd July, 2020
Investigation Site: Factory premises of M/s PharmEvo (Pvt.) Limited, A-29, North Western Industrial Zone, Port Qasim, Karachi.

Background:
Chairman Registration Board considered the applications of M/s PharmEvo (Pvt.) Limited, A-29, North Western Industrial Zone, Port Qasim, Karachi for registration of Omrax (Omarigliptin) 12.5mg & Omrax (Omarigliptin) 25mg Tablets and constituted a three member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:
1. Prof. Dr. Rafeeq Alam Khan, Dean. Faculty of Pharmacy, Ziauddin University, Karachi (Member Registration Board).
2. Dr. Saif Ur Rehman Khattak, Director, CDL, DRAP, Karachi.
3. Ms, Sanam Kauser Assistant Director, DRAP, Karachi.

Scope of investigation:
Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:
The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Q. No.	Question	Observation by Panel
1.	Do you have documents confirming the import of Omarigliptin API including approval from DRAP?	The firm has imported Omarigliptin 0.5 Kg vide Invoice No. WIS180041 dated April 02, 2018 from M/s WIS Pharmatech Co.Ltd. Manufactured by M/s Ruyuan HEC Pharm Co. Limited for the manufacturing of lab scale batches of Omarigliptin 12.5mg and 25mg Tablets. The firm has proper approval for the import of the API from DRAP, Karachi.
2.	What was the rationale behind selecting the particular manufacturer of API?	The rationale behind selecting the particular source of API is the laid down criteria of the firm in their Vendor Evaluation procedure which include the GMP status of the firm, DMF source and capability to provide API reference standard and impurity standard.
3.	Do you have documents confirming the import of Omarigliptin, reference standard and impurity standards?	Firm has documents confirming the import of Omarigliptin, The API working standard and impurities standard were imported at the time of import of the APIs.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for API, Working standard of the API and impurities standards.
5.	Do you have GMP certificate of API Manufacturer issued by regulatory Authority of country of origin?	Firm has GMP certificate issued by the China, FDA.
6.	Do you use API manufacturer method of testing for testing API?	The firm has used API manufacturer method for testing the API.
7.	Do you have stability studies reports on API?	The firm has stability studies reports on API.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method however no degradation products are reported by the manufacturer. Moreover, process related impurities have been quantified during stability studies.
9.	Do you have method for quantifying the impurities in the API?	The firm has API manufacturer method for quantifying the impurities in the API.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Firm has some quantities of the API and working standard, however they have consumed all the impurity standards.
11.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients which includes Omrax 12.5mg Tablet, microcrystalline cellulose PH.102, Mannitol, Croscarmellose Sodium, Magnesium Stearate. Opadry Yellow II 85G62338 has been used for coating and Omrax 25mg Tablet, microcrystalline cellulose PH.102, Mannitol, Croscarmellose Sodium, Magnesium Stearate. Opadry White 85G68918 has been used for coating.
12.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
13.	Do you have test reports and other records on the excipients used?	The firm has test reports and other records on the excipients used.
14.	Do you have written and authorized protocols for the development of Omarigliptin 12.5mg and 25mg Tablets?	The firm has written and authorized protocols for the development of Omarigliptin 12.5mg and 25mg Tablets.
15.	Have you performed Drug-	The firm has not performed Drug-excipient Compatibility

	excipient compatibility studies?	studies as the composition of their tablets is similar to that of the innovator product (Marizev Tablets 12.5mg and 25mg manufactured by Takeda, Japan).
16.	Have you performed comparative dissolution studies?	The firm has not performed comparative dissolution profile. As per statement of the firm they could not performed comparative dissolution profile as they were unable to get pack from Japan without Japanese prescription. They however has performed dissolution in three media (pH 1.2, 4.5 and 6.8) and the data shows that the product is highly soluble and dissolves more than 85% within 15minutes in all three media. Firm was required to perform comparative dissolution profile for pharmaceutical equivalency however, keeping in view the high solubility of the product we can predict no significant difference in dissolution rate and extant of the firm product if compared to the innovator product.
17.	Do you have product development (R&D) section?	The firm has dedicated R&D section with reasonable facilities of equipment, human resource and utilities.
18.	Do you have necessary equipment available in product development section for development of Omarigliptin 12.5mg & 25mg Tablets?	The firm has all necessary equipment related to manufacturing available in R&D section for manufacturing of Omarigliptin 12.5mg and 25 mg Tablets. The quality control related to development work has been done in the routine quality control laboratory; however, there are dedicated HPLCs and Human Resource for this purpose.
19.	Are the equipment in product development section qualified?	All the equipment used in product development are qualified.
20.	Do you have proper maintenance / Calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance / calibration programme/ re-qualification program for the equipment used in PD section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has 05 pharmacists and 01 chemist in manufacturing section of product development section currently with suitable knowledge and training in product development. 03 QC Analysts are dedicated for new products testing.
22.	Have you manufactured three stability batches for the stability studies of Omarigliptin 12.5mg and 25mg Tablets as required?	The firm has manufactured three stability batches, each of 2500 tablets, for the stability studies of: Omarigliptin 12.5mg Tablets with Batch Numbers: 18PD-2460-01-T, 18PD-2461-02-T & 18PD-2462-03-T Omarigliptin 25mg Tablets with Batch Numbers: 18PD-2463-03-T, 18PD-2464-04-T & 18PD-2465-05-T The tablets are packed in AluAlu blisters.
23.	Do you have any criteria for fixing the batch size of stability batches?	Batch size has been decided as per requirement the of all the testing stations throughout the shelf life.
24.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches.
25.	Do you have protocols for stability testing of stability batches?	The firm has detailed protocols for stability testing of stability batches.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated stability indicating method for testing of their finished product supported by forced degradation studies.
27.	Do you have method transfer studies in case when the method	Method transfer studies have not been done, however, validation of the method has been performed.

	of testing being used by your firm is given by any other lab?	
28.	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of Omarigliptin and the finished drug?	The firm has documents confirming the installation and operational qualification of the equipment / instruments being used in the test and analysis of Omarigliptin and the finished drug.
29.	Do your method of analysis stability indicating?	The firm's method of testing is stability indicating as supported by forced degradation studies.
30.	Do your HPLC software 21CFR Compliant?	The HPLC software is 21CFR Compliant as per record available with the firm.
31.	Can you show audit trail reports on Omarigliptin testing?	Audit trail on the testing reports are available.
32.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of the stability batches kept in stability chambers.
33.	Do you have stability batches kept on stability testing?	The firm has kept all the three batches on real time and accelerated stability testing. Accelerated stability studies are over whereas in real time studies 12 months testing has been completed with satisfactory results.
34.	Do you have valid calibration status for the Equipment used in Omarigliptin 12.5mg & 25mg tablets production and analysis?	The firm has valid calibration status for the equipment used in Omarigliptin tablets production and analysis.
35.	Do proper and continuous monitoring and control are available for stability chamber?	The firm has 16 stability chambers, 02 for accelerated and 14 for real time stability testing. All the chambers are properly qualified. All the chambers are provided with continuous power supply and data loggers for continuous monitoring.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The firm has manufacturing area provided with necessary qualified equipment and utilities. The manufacturing personnel are suitable in number and qualification to run the manufacturing processes as per GMP requirements. The environmental conditions and their controls are also proper. The overall GMP conditions can be rated as compliant.
37.	**Specific Queries by PEC/Board** To verify whether the crystalline form V of the drug substance used by the firm is equivalent to crystalline form I as used by the innovator.	Firm has submitted an international patent publication bearing No. WO2017/032705AI dated 02-03-2017 patented under patent cooperation treaty (PCT) in the name of M/S. Sandoz, AG. Basel, Switzerland, which states that "Form I and Form II are reported to be enantiotropically related and able to convert into each other depending on the temperature. Similarly Form III and Form IV are meta-stable and convert into Form I and II. Such conversion of polymorphs often results in an unpredictable behaviour of the pharmaceutically active agent with regard to its in-vivo and / or in-vitro properties such as solubility, bioavailability and stability. The patent further states that "It was an object of the present invention (Form V) to overcome the drawbacks of the above mentioned prior forms (Form-I-IV) to provide omarigliptin which is present in a pure and / or stable form. The patent further states in the summary that "The above objectives are unexpectedly achieved by the provision of a polymorphic form of omarigliptin which is designated omarigliptin Form-V.

		Keeping in view the above facts and other data presented in patent No. WO2017/032705, Form-V in most stable and highly feasible polymorph to be used in pharmaceutical formulations.

Conclusions:

1. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Omrax (Omarigliptin) 12.5mg and 25mg Tablets is verifiable to satisfactory level.
2. The related manufacturing area, equipment, personnel and utilities are GMP compliant and well suited for the manufacturing of Omarigliptin 12.5mg and 25mg Tablets.

Recommendations:
The firm may kindly be granted necessary registration of Omarigliptin 12.5mg and 25mg Tablets**.**

Decision: Registration Board decided to approve registration of Omrax (Omarigliptin) 12.5mg and 25mg Tablets with Innovator's specifications by M/s Pharmevo (Pvt) Ltd., Plot # A-29, North Western Industrial zone, Port Qasim, Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

STABILITY STUDY DATA

Drug	Silflow Capsule 4mg
Name of Manufacturer	M/s CCL Pharmaceuticals (Pvt) Ltd. 62 Quaid-e-Azam Industrial Estate Kot Lakhpat Lahore.
Manufacturer of API	Zhejiang Tianyu Pharmaceutical Co. Ltd China
API Lot No.	13000-180501
Description of Pack (Container closure system)	Blue opaque capsule and off white opaque body size "3" properly locked hard gelatin capsule packed in blister pack (2x7's cap) in printed alu-alu foil.
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)

Batch No.	SDAT2/18	SDAT3/18	SDAT4/18
Batch Size	2000 Capsule	2000 Capsule	2000 Capsule
Manufacturing Date	11-2018	11-2018	11-2018
Date of Initiation	23-11-2018	23-11-2018	23-11-2018
No. of Batches	03		
Date of Submission	Dy.# 11916 dated 15-07-2019		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of Drug Manufacturing authorization certificate issued by Zhejiang province food and drug administration.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted ADC attested invoice dated 11-07-2018 specifying import of 0.09Kg silodosin from Zhejiang Tianyu Pharmaceutical Co. Ltd.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR[3]

Shortcomings communicated	Response by the firm
Justify the acceptance criteria of dissolution test i.e. NLT 70% (Q) in 30 minutes, since the Clinical Pharmacology & Biopharmaceutics Review specifies that the acceptance criteria for dissolution test is not less than 85% in 15 minutes.	We hereby do agree to adopt dissolution criteria i.e. NLT 85% in 15 minutes and submitting revised Product Test Method (PTM) for your kind information. The results of dissolution test in already submitted stability studies are more than 85% in 15 minutes which complies to observation. **The dissolution testing in already submitted data was conducted at 30 minutes.**
Justify the testing of the product without content uniformity and weight variation test.	Test for uniformity of dosage units by content uniformity (assay method) has been performed as recommended by USP general chapter <905> for both strengths of silodosin 4mg and 8mg. The test has been mentioned in PTM of both strengths. In view of your observation, from day to onward, we will elaborate this test in our PTM according to the application of test "as uniformity of dosage units by content uniformity or weight"

	instead of our existing practice of writing as "meets the requirement of USP 905". Data supporting this study can be verified during on-site inspection.

Decision of 293rd meeting of Registration Board:
Registration Board decided to defer the case and directed the firm to submit dissolution testing data at 15 minutes at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:
Firm has submitted stability real time and accelerated study data for 2 Batches SDA-T3-18 and SDA-T4-18 at 0 and 1 month interval in which dissolution acceptance criteria was "NLT 80% Q of labelled amount of silodosin is dissolved in 15 minutes."
The panel may be requested to verify the performance of dissolution test with revised acceptance criteria.

INSPECTION REPORT

1.1 General Information

Name of Manufacturer	M/s CCL Pharmaceuticals (Pvt.) Ltd.
Physical Address	62 Industrial Estate, Kot Lakhpat, Lahore.
Drug Manufacturing License No. and validity	000052 by way of formulation Valid till 20-07-2020.
Contact Address	Irfan Sohail Senior Manager Regulatory Affairs 0308-8884984
Date of Inspection	2nd – 3rd July, 2020
Purpose of Inspection	Verification of authenticity of stability data for purpose of registration of drugs with reference DRAP's letter no. F.1-2/2020-PEC dated 22-04-2020.
Name of Inspector	01. Dr. Muzammal Waheed Director, DTL, Faisalabad. 02. Ms. Aisha Irfan Area FID, DRAP, Lahore. 03. Hafiz Ahsan Assistant Director, DRAP, Islamabad.
Name of firm Representatives	• Dr. Rizwan Mahmood Director Quality Operations • Irfan Sohail Senior Manager Regulatory Affairs • Shahid Anwar General Manager R&D • Farhan Qureshi GM Quality Assurance • Muhammad Fiaz Quality Control Manager

1.2 General Information about unit:

M/s. CCL is a private limited company and was licensed in the year 1976, initially and shifted to the existing site in 1984. The firm has production facility, supply chain, engineering, quality control, quality assurance, research & development, regulatory and administrative departments. The production operations at firm involve manufacturing, packaging and distribution of finished pharmaceutical products. The firm is manufacturing generic products and involved in export to various countries.

1.3 Focus of Inspection:

The inspection was focused on a thorough evaluation of data for stability studies of following products namely:

Sr. No.	Name / Composition of Drugs
01	Silflow Capsule 4mg Each capsule contains: Silodosin……..…4mg
02	Silflow Capsule 8mg

	Each capsule contains: Silodosin……..…8mg

Details of investigation:

Q. No.	Contents	Remarks
1.	Do you have documents confirming the import of Silodosin including approval from DRAP?	The firm has imported Silodosin raw material vide invoice no. TYI18426 dated 02-07-2018 from M/s. Zhejiang Tianyu Pharmaceutical Co., Ltd. China and got DRAP approval vide no. 9371/2018/DRAP dated 11-07-2018.
2.	What was the rationale behind selecting the particular manufacturer of API?	The firm selected M/s. Zhejiang Tianyu Pharmaceutical Co., Ltd., China for Silodosin based on their vendor evaluation mechanism.
3.	Do you have documents confirming the import of reference standard and impurity standards?	The firm imported Silodosin working standard and impurity standard (YDL 11) from API supplier dated 02-09-2018.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm had certificates of analysis for API, working standard and impurity standard.
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has valid GMP Certificate of M/s. Zhejiang Tianyu Pharmaceutical Co., Ltd., China valid till 28-03-2022.
6.	Do you use API manufacturer method of testing for testing APIs?	The firm used API manufacturer's method of testing for API testing. *During inspection, it was also brought into the notice of the firm that Silodosin is a light sensitive material therefore the whole analytical procedures should avoid exposure to light using brown volumetric flask and sampler vials. Moreover, the firm was advised to develop method transfer protocol for testing APIs.*
7.	Do you have stability studies reports on APIs?	The firm had stability studies reports on API of API manufacturer. Accelerated ($40^oC \pm 2^oC$ / RH75% ± 5%) – 6 months Real time ($30^oC \pm 2^oC$ / RH75% ± 5%) – 24 months
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The API manufacturer has performed stability as per SIM method and impurities (YDL-11, YDL-Imp-1, YDL-Imp-2, YDL-Imp-3, YDL-Imp-4) has been quantified.
9.	Do you have method for quantifying the impurities in the API?	The firm has testing method to quantify the impurity (YDL-11) as provided by API manufacturer.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has no remaining quantities of the working standard and impurity standard.
11.	Have you used pharmaceutical grade excipients?	The firm used pharmaceutical grade excipients including Mannitol-D, Pre-Gelatinized starch, Sodium lauryl sulphate, Magnesium stearate, E.H.G shell size "1" (Cap: Dark red opaque; Body: Off-white opaque) and E.H.G shell size "3" (Cap: Dark blue opaque; Body: Off-white opaque)
12.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
13.	Do you have test reports and other records on the excipients used?	The firm has certificates of analysis of the excipients used.

<table>
<tr><td>14.</td><td>Do you have written and authorized protocols for the development of Silodosin Capsule 4mg and Silodosin Capsule 8mg?</td><td>The firm has written and authorized protocols for the development of Silodosin Capsule 4mg and Silodosin Capsule 8mg.</td></tr>
<tr><td>15.</td><td>Have you performed Drug-excipient compatibility studies?</td><td>The firm has performed drug-excipient compatibility studies under stress conditions of 60°C ± 2°C / 75% ± 5% RH.</td></tr>
<tr><td>16.</td><td>Have you performed comparative dissolution studies?</td><td>The firm has performed comparative dissolution studies for Silodosin Capsule 8mg with Rapaflo Capsule 8mg, manufactured by M/s. Balkan Pharma, USA using paddle apparatus at 50rpm in 900ml of the following dissolution mediums:
10. HCl buffer
11. Acetate buffer
12. Phosphate buffer</td></tr>
<tr><td>17.</td><td>Do you have product development (R&D) section</td><td>The firm has product development (R&D) section.</td></tr>
<tr><td>18.</td><td>Do you have necessary equipment available in product development section for development of Silodosin Capsule 4mg and Silodosin Capsule 8mg?</td><td>The firm has used commercial production area for filling of capsules using semi-automatic capsule filling machine. The log books of equipment also confirm the filling of capsules in respective dates.</td></tr>
<tr><td>19.</td><td>Are the equipment in product development section qualified?</td><td>The available equipment in product development section were qualified however, the firm was advised to perform qualifications of equipment from authorized bodies.</td></tr>
<tr><td>20.</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>The firm had proper maintenance / calibration / re-qualification program for the equipment used in product development section.</td></tr>
<tr><td>21.</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>Yes.</td></tr>
<tr><td>22.</td><td>Have you manufactured three stability batches for the stability studies of Silodosin Capsule 4mg and Silodosin Capsule 8mg as required?</td><td>The firm had manufactured three initial stability batches for the stability studies of Silodosin Capsule 4mg with batch numbers i.e. SDA-T2/18, SDA-T3/18 and SDA-T4/18 and of Silodosin Capsule 8mg with batch numbers i.e. SDB-T2/18, SDB-T3/18 and SDB-T4/18. The accelerated studies were done in Climatic test chamber (Model: HPP-749; Making Memmert, Germany) and long-term studies were done in Climatic test chamber (Model: HPP-750, Making Memmert, Germany).
Samples were taken from stability chamber and tested at 0, 1, 3 months at accelerated and real time conditions with revised dissolution specifications.</td></tr>
<tr><td>23.</td><td>Do you have any criteria for fixing the batch size of stability batches?</td><td>The firm had followed in-house SOP for fixing the batch size of stability batches.</td></tr>
<tr><td>24.</td><td>Do you have complete record of production of stability batches?</td><td>The firm had record of production of stability batches.

<tr><td>SDB-T4-18</td><td>2,000</td><td>540</td><td>144</td></tr>
</table></td></tr>
<tr><td>33.</td><td>Do you have stability batches kept on stability testing?</td><td>The firm has stability batches kept on stability testing.</td></tr>
<tr><td>34.</td><td>Do you have valid calibration status for the equipment used in Silodosin Capsule 4mg and Silodosin Capsule 8mg production and analysis?</td><td>The firm has valid calibration status for the equipment used in Silodosin Capsule 4mg and Silodosin Capsule 8mg production and analysis.</td></tr>
<tr><td>35.</td><td>Do proper and continuous monitoring and control are available for stability chamber?</td><td>Adequate monitoring and control was available for stability chamber. The firm was advised to improve alarm system.</td></tr>
</table>

36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Requisite facilities are satisfactory and GMP compliant (DRAP ref. no. 118/2019-DRAP (AD-789112-762) dated 13-05-2019 valid for 3 years).

VERIFICATION:

(i) The firm performed dissolution test in the presence of panel as per revised dissolution acceptance criteria on SDA-T2/18 of Silodosin Capsule 4mg at dissolution apparatus (Pharma Test DT-70) and analysis was done at 21 CFR compliant HPLC Agilent QC # 122. The results were within dissolution acceptance limit i.e., NLT 80% Q in 15 minutes (copy of raw data sheet attached).

(ii) The firm had revised the dissolution limits i.e., NLT 80% Q in 15 minutes in Product Test Method.

CONCLUSIONS:

Based on the area inspected, the technical personnel met and the documents reviewed, and considering the findings of inspection, it is concluded that M/s. CCL Pharmaceuticals (Pvt.) Ltd., at 62 Industrial Estate, Kot Lakhpat, Lahore, Pakistan have conducted stability studies of the following products: **However few points are being recorded for the kind perusal of the Drug Registration Board, against questions 6, 19, 28, 30, 31 and 35 of the check list.**

Sr. No.	Name / Composition of Drugs
01	Silflow Capsule 4mg Each capsule contains: Silodosin……..…4mg
02	Silflow Capsule 8mg Each capsule contains: Silodosin……..…8mg

Decision: Registration Board decided to approve registration of Silflow (Silodosin) 4mg and 8mg capsule with Innovator's specifications by M/s CCL Pharmaceuticals (Pvt) Ltd. 62 Quaid-e-Azam Industrial Estate Kot Lakhpat Lahore. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability / Local Availability GMP Inspection Report Date & Remarks
2560	M/s CCL Pharmaceuticals (Pvt) Ltd. 62 Quaid-e-Azam Industrial Estate Kot Lakhpat Lahore.	Vemteno Tablet 25mg Each film coated tablet contains: Tenofovir alfenamide (as fumarate) ….25mg (Anti-viral)	Form 5 27-02-2019 PKR 20,000/- (27-02-2019)	Vemlidy Tablet by Gilead Sciences (**USFDA** Approved) GMP inspection report conducted on 20-04-2018 & 24-04-2018, concluding satisfactory level of GMP compliance.
	Evaluation by PEC: Firm has submitted accelerated and real time stability data of 6 months as per the requirement of Registration Board.			
	STABILITY STUDY DATA			

Drug	Vemteno Tablet 25mg		
Name of Manufacturer	M/s CCL Pharmaceuticals (Pvt) Ltd. 62 Quaid-e-Azam Industrial Estate Kot Lakhpat Lahore.		
Manufacturer of API	Cipla Ltd. at plot D-22, MIDC Industrial Area Kurkumbh Village, Taluka Daund District Pune Mahrashtra India		
API Lot No.	LDP170006		
Description of Pack (Container closure system)	Pink round biconvex shape film coated tablet packed in Alu-Alu in bleach board with leaflet		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T2/17	T3/17	T4/17
Batch Size	1500 Tablet	1500 Tablet	1500 Tablet
Manufacturing Date	07-2017	08-2017	07-2017
Date of Initiation	08-2017	08-2017	08-2017
No. of Batches	03		
Date of Submission	Dy.# 7194 dated 25-05-2019		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Government of Karnataka, Drugs Control Department dated 21-02-2019.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted ADC attested invoice dated 24-02-2017 specifying import of 0.21Kg tenofovir alafenamide fumarate. The exact manufacturing site of the API manufacturer is not mentioned in the submitted invoice.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR[3]

Shortcomings	Response by the firm

<table>
<tr>
<td>Justify the acceptance criteria of dissolution test i.e. NLT 70% Q after 30 minutes since the value of "Q" since the value of Q at level S1 is defined between 75 to 80 in various guidance documents of EDQM, FDA guidance documents and USP and the overall acceptance criteria for level S1 is set as Q+5. The FDA guidance "Dissolution Testing and Acceptance Criteria for Immediate-Release Solid Oral Dosage Form Drug Products Containing High Solubility Drug Substances" specifies under the heading DISSOLUTION ACCEPTANCE CRITERIA that for immediate release solid oral drug products containing a high solubility drug substance (as defined herein), the dissolution criterion is Q=80% in 30 minutes. Furthermore, USFDA chemistry review for the innovator product "Vemlidy Tablet" specifies that the acceptance criteria for dissolution test is NLT (Q+5) in 15 minutes.</td>
<td>Firm has submitted that as per CDP performed their results show more than 85% release in 15 minutes in Acetate Buffer pH 4.5.
Initially we have used parameters taken from USFDA dissolution methods but after your good self highlighted the document of chemistry review, which suggests sampling time of 15 minutes. It is acknowledge & commit to revise product test method with revised sampling time and Q value which can be verified during on-site inspection.

<table>
<tr><th>Dissolution Specifications of the firm</th><th>Dissolution Specifications of innovator product</th></tr>
<tr><td>NLT 70% (Q) after 30 minutes</td><td>NLT 80%(Q) after 15 minutes</td></tr>
</table>

Firm has performed complete stability studies as per the specification which is different from innovator product. Further the dissolution testing during CDP studies or at 9th month interval cannot be used to predict the product quality profile in terms of dissolution studies during 6 months accelerated study as well as during real time studies.</td>
</tr>
<tr>
<td>Specify the exact storage conditions at which the API was kept after ADC clearance in February 2017 till the manufacturing of batches in July and August 2017.</td>
<td>Firm has submitted that they have kept the material at 2-8 degree which is the recommended storage condition for this drug.</td>
</tr>
<tr>
<td>The submitted GMP certificate is of Cipla Limited Old Madras Road Virgonagar Post Bangalore (No. NB-110/78), while as per certificate of analysis the manufacturing site of API is Cipla Ltd. Plot D-22, MIDC Industrial Area, Kurkumbh Village, Taluka – Daund, District Pune, Mahrashtra. Clarify the exact manufacturing site and submit the GMP certificate.</td>
<td>Firm has submitted that the exact manufacturing site is Cipla Ltd. at plot D-22, MIDC Industrial Area Kurkumbh Village, Taluka Daund District Pune Mahrashtra India. The GMP certificate of said site can be verified during on-site inspection.
The firm has not submitted GMP certificate of the API manufacturer.</td>
</tr>
</table>

Firm has performed 3rd month testing of batch T4-17 on 16-11-2017 which is 15 days earlier than 3 months period. Firm has submitted that as per their protocols they can test the product within 1 month of due date.

Decision of 292nd meeting of Registration Board:

Deferred for following:

- Scientific justification how the CDP studies or stability study data at 9th month conducted as per revised dissolution specification [i.e. NLT 80% (Q) in 15 minutes] with values close to acceptance criteria can be representative of whole 6 months stability conducted at accelerated and real time conditions with dissolution specifications different from innovator product [i.e. NLT 70% (Q) after 30 minutes].
- Submission of valid GMP certificate from API manufacturer.

Response of the firm:

Firm has submitted that:

- We have developed our product in 07-2017 and adopted dissolution test method as per USFDA established on 19—01-2017. As highlighted by your office, the chemistry review was updated on 27-11-2017, therefore it was not incorporated in initial studies.
- Firm has submitted copy of GMP certificate of Cipla Ltd. plot D-22, MIDC Industrial Area Kurkumbh Village, Taluka Daund District Pune Mahrashtra India, issued by FDA Mahrashtra dated 13-11-2018

Decision of 293rd meeting of Registration Board:

Registration Board decided to defer the case and directed the firm to submit dissolution testing data at 15 minutes at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:
Firm has submitted stability real time and accelerated study data for following 2 new Batches at 0 and 1 month interval in which dissolution acceptance criteria was "NLT 80% Q of labelled amount of tenofovir alafenamide is dissolved in 15 minutes."
1. T5-20 (Mfg date: 01-2020, testing date: 02-2020: Batch size 600 tablet)
2. T6-20 (Mfg date: 01-2020, testing date: 02-2020: Batch size 600 tablet)

The panel may be requested to verify the development of two new batches and performance of dissolution test with revised acceptance criteria.

INSPECTION REPORT

1.4 General Information

Name of Manufacturer	M/s CCL Pharmaceuticals (Pvt.) Ltd.
Physical Address	62 Industrial Estate, Kot Lakhpat, Lahore.
Drug Manufacturing License No. and validity	000052 by way of formulation Valid till 20-07-2020.
Contact Address	Irfan Sohail Senior Manager Regulatory Affairs 0308-8884984
Date of Inspection	2nd – 3rd July, 2020
Purpose of Inspection	Verification of authenticity of stability data for purpose of registration of drugs with reference DRAP's letter no. F.1-2/2020-PEC dated 22-04-2020.
Name of Inspector	01. Dr. Muzammal Waheed Director, DTL, Faisalabad. 02. Ms. Aisha Irfan Area FID, DRAP, Lahore. 03. Hafiz Ahsan Assistant Director, DRAP, Islamabad.
Name of firm Representatives	• Dr. Rizwan Mahmood Director Quality Operations • Irfan Sohail Senior Manager Regulatory Affairs • Shahid Anwar General Manager R&D • Farhan Qureshi GM Quality Assurance • Muhammad Fiaz Quality Control Manager

1.5 General Information about unit:

M/s. CCL is a private limited company and was licensed in the year 1976, initially and shifted to the existing site in 1984. The firm has production facility, supply chain, engineering, quality control, quality assurance, research & development, regulatory and administrative departments. The production operations at firm involve manufacturing, packaging and distribution of finished pharmaceutical products. The firm is manufacturing generic products and involved in export to various countries.

1.6 Focus of Inspection:

The inspection was focused on a thorough evaluation of data for stability studies of following product namely:

Sr. No.	Name / Composition of Drugs
01	Vemteno Tablet 25mg Each film coated tablet contains:

	Tenofovir alafenamide (as fumarate)……25mg

Detail of investigation:

Q. No.	Contents	Remarks
1.	Do you have documents confirming the import of Tenofovir alafenamide fumarate including approval from DRAP?	The firm has imported Tenofovir alafenamide fumarate raw material vide invoice no. 6001322169 dated 07-02-2017 from M/s. Cipla Ltd., India and got DRAP approval vide no. 2723/2017/DRAP dated 24-02-2017.
2.	What was the rationale behind selecting the particular manufacturer of API?	The firm selected M/s Cipla Ltd., India based on their vendor evaluation mechanism.
3.	Do you have documents confirming the import of reference standard and impurity standards?	The firm imported Tenofovir alafenamide fumarate working standard and impurities standards [9-(2-Phosphonyl Methoxy Propyl) Adenine (PMPA)] & Ten phenol from API supplier dated 24-02-2017.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm had certificates of analysis for API, working standard and impurities standards for impurities.
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm had valid GMP Certificate of M/s. Cipla Ltd., India issued by Food & Drugs Administration, Maharashtra, India valid till 07-11-2021.
6.	Do you use API manufacturer method of testing for testing API?	*The firm has partially adopted API manufacturer's method of testing. Moreover, the firm was advised to develop method transfer protocol for testing APIs.*
7.	Do you have stability studies reports on API?	The firm has stability studies reports of API from API manufacturer: Accelerated (25^{o}C±2^{o}C/RH60% ±5%)-6 months Real time (2^{o}C - 8^{o}C) – 18 months
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The API manufacturer has performed stability as per SIM method and impurities (PMPA, Ten phenol), Fumaric acid, Enantiomeric purity (D-Alanine isomer 1, D-Alanine isomer 2, L-Alanine isomer 1) has been quantified.
9.	Do you have method for quantifying the impurities in the API?	*The firm had testing method to quantify the impurities (PMPA & Ten phenol) as provided by API manufacturer. The firm did not perform Fumaric acid contents and Enantiomeric purity and relied on the results of API manufacturer However, the firm undertake that upon commercial manufacturing, they will perform said tests and results will be submitted to DRAP.*
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm had no remaining quantities of the working standard and impurity standards.
11.	Have you used pharmaceutical grade excipients?	The firm had used pharmaceutical grade excipients including Avicel pH 102, Lactose Monohydrate, Croscarmellose sodium, Magnesium stearate, Opadry pink 200F240014 and Opadry clear OY-S-29019.
12.	Do you have documents confirming the import of the used excipients?	The firm had necessary documents confirming the import of the used excipients.

13.	Do you have test reports and other records on the excipients used?	The firm had certificates of analysis of the excipients used.
14.	Do you have written and authorized protocols for the development of Tenofovir alafenamide fumarate Tablets?	The firm has written and authorized protocols for the development of Vemteno Tablet 25mg.
15.	Have you performed Drug-excipient compatibility studies?	The firm has performed drug-excipient compatibility studies under stress conditions of 60°C ± 2°C / 75% ± 5% RH.
16.	Have you performed comparative dissolution studies?	The firm had performed comparative dissolution studies for Vemteno Tablet 25mg with Vemlidy Tablet 25mg, manufactured by M/s. Gilead Sciences, Inc. USA using paddle apparatus at 75rpm in 500ml of the following dissolution mediums: 13. HCl buffer 14. Acetate buffer 15. Phosphate buffer
17.	Do you have product development (R&D) section	The firm had product development (R&D) section.
18.	Do you have necessary equipment available in product development section for development of Tenofovir alafenamide fumarate Tablets?	Product development section has necessary equipment to develop Vemteno Tablets 25mg.
19.	Are the equipment in product development section qualified?	The available equipment in product development section were qualified *however, the firm was advised to perform qualifications of equipment from authorized bodies.*
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm had proper maintenance / calibration / re-qualification program for the equipment used in product development section.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	Yes.
22.	Have you manufactured three stability batches for the stability studies of Tenofovir alafenamide fumarate Tablets as required?	The firm had manufactured three initial stability batches for the stability studies of Vemteno Tablets 25mg with batch numbers i.e. T2-17, T3-17, T4-17 and later-on two more stability batches T5-20, T6-20 were manufactured. The accelerated studies were done in Climatic test chamber (Model: HPP-749; Making Memmert, Germany) and long-term studies were done in Climatic test chamber (Model: HPP-750, Making Memmert, Germany). *The firm has manufactured two new trial batches of formulation and tested at 0,1,3 months accelerated and real time stability conditions and also revised dissolution limits as per reference formulations.*
23.	Do you have any criteria for fixing the batch size of stability batches?	The firm had followed in-house SOP for fixing the batch size of stability batches.

<table>
<tr><td>24.</td><td>Do you have complete record of production of stability batches?</td><td>The firm had record of production of stability batches:

<table><tr><th>Batch No.</th><th>Batch Size</th><th>Mfg. Date</th></tr><tr><td>T2-17</td><td>1,500</td><td>07-2017</td></tr><tr><td>T3-17</td><td>1,500</td><td>08-2017</td></tr><tr><td>T4-17</td><td>1,500</td><td>08-2017</td></tr><tr><td>T5-20</td><td>600</td><td>01-2020</td></tr><tr><td>T6-20</td><td>600</td><td>01-2020</td></tr></table></td></tr>
<tr><td>25.</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm had protocol for stability testing of stability batches.</td></tr>
<tr><td>26.</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm had developed method of Vemteno Tablet 25mg (RD-PTM-05 B) and validated the test method (CCL-AMVR-212) for testing of stability batches.</td></tr>
<tr><td>27.</td><td>Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?</td><td>Not Applicable.</td></tr>
<tr><td>28.</td><td>Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Tenofovir alafenamide fumarate API and the finished drug?</td><td>The firm has documents confirming the qualification of equipment / instruments being used in the test and analysis of tenofovir alafenamide fumarate API and the finished product. However, the firm was advised to qualify the equipments / instruments from authorized bodies.</td></tr>
<tr><td>29.</td><td>Do your method of analysis stability indicating?</td><td>The firm had conducted stress testing of finished product.</td></tr>
<tr><td>30.</td><td>Do your HPLC software 21CFR Compliant?</td><td>API testing, FPP testing and compatibility testing has been conducted on HPLCs which were not 21 CFR compliant.
However, the firm has procured 21 CFR part 11 compliant HPLC.</td></tr>
<tr><td>31.</td><td>Can you show Audit trail reports on Tenofovir alafenamide fumarate testing?</td><td>Initially, audit trail was not enabled. However, log of data was available on the HPLCs. The data was also checked through hard copies of chromatograms.
However in revised FPP testing, audit trail was enabled.</td></tr>
<tr><td>32.</td><td>Do you have some remaining quantities of degradation products and stability batches?</td><td>The firm had remaining quantities of stability batches kept on stability testing:

<table><tr><th>Batch No</th><th>Batch size</th><th>Tablets used for stability studies</th><th>Remaining Quantity (Stability)</th></tr><tr><td>T2-17</td><td>1,500</td><td>324</td><td>36</td></tr><tr><td>T3-17</td><td>1,500</td><td>324</td><td>36</td></tr><tr><td>T4-17</td><td>1,500</td><td>324</td><td>36</td></tr><tr><td>T5-20</td><td>600</td><td>216</td><td>72</td></tr><tr><td>T6-20</td><td>600</td><td>216</td><td>72</td></tr></table></td></tr>
<tr><td>33.</td><td>Do you have stability batches kept on stability testing?</td><td>The firm has stability batches kept on stability testing.</td></tr>
</table>

34.	Do you have valid calibration status for the equipment used in Tenofovir alafenamide fumarate tablets production and analysis?	The firm has valid calibration status for the equipment used in Vemteno Tablets production and analysis.
35.	Do proper and continuous monitoring and control are available for stability chamber?	Adequate monitoring and control was available for stability chamber. *The firm was advised to improve alarm system.*
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Requisite facilities are satisfactory and GMP compliant (DRAP ref. no. 118/2019-DRAP (AD-789112-762) dated 13-05-2019 valid for 3 years).

VERIFICATION:

(i) The firm performed dissolution test in the presence of panel as per revised dissolution acceptance criteria on T5-20 of Vemteno Tablet 25mg at dissolution apparatus (Agilent 708-DS) and analysis was done at 21 CFR compliant HPLC Agilent RD # 034. The results were within stipulated limits (copy of raw data sheet attached).

(ii) The firm had revised the dissolution limits i.e., NLT 80% Q in 15 minutes in Product Test Method.

RECOMMENDATIONS:

Based on the area inspected, the technical personnel met and the documents reviewed, and considering the findings of inspection, it is concluded that M/s. CCL Pharmaceuticals (Pvt.) Ltd., at 62 Industrial Estate, Kot Lakhpat, Lahore, Pakistan has conducted stability studies of the following product: However few points are being recorded for the kind perusal of the Drug Registration Board, against questions 6, 9, 19, 28, 30, 31 and 35 of the check list.

Sr. No.	Name / Composition of Drugs
01	Vemteno Tablet 25mg Each film coated tablet contains: Tenofovir alafenamide (as fumarate)……25mg

Decision: Registration Board decided to approve registration of Vemteno (Tenofovir alafenamide (as fumarate)) 25mg tablet with Innovator's specifications by M/s CCL Pharmaceuticals (Pvt) Ltd. 62 Quaid-e-Azam Industrial Estate Kot Lakhpat Lahore. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

c. Exemption from onsite verification of stability data

i. New cases

DOCUMENTS / DATA PROVIDED BY THE APPLICANT	
Documents To Be Provided	**Status**
COA of API	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (certificate No.20041958) issued by Food & Drug Control Administration, Gujrat State India. It is valid until 29/03/2022.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	Firm has submitted copy of Form 3, commercial invoice dated 25-09-2018 specifying import of 6Kg Empagliflozin. The invoice is not signed by AD (I&E) DRAP Lahore, but the firm has submitted copy of letter for permission to import empagliflozin for

		manufacturing of empazmet and empazmet XR tablets.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.		Yes
Commitment to continue real time stability study till assigned shelf life of the product.		Yes
Commitment to follow Drug Specification Rules, 1978.		Yes
DATA FOR EXEMPTION FROM ONSITE INVESTIGATION OF SUBMITTED STABILITY DATA		
ADMINISTRATIVE PORTION		
1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Daplozmet Tablet 5mg/1000mg and Daplozmet Tablet 5mg/850mg (Dapagliflozin propanediol monohydrate + metformin HCl) Tablets", which was presented in 288th meeting of Registration Board wherein the Board decided to approve registration of Daplozmet Tablet. Date of inspection: 1st January, 2019. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 3, commercial invoice dated 25-09-2018 specifying import of 6Kg Empagliflozin. The invoice is not signed by AD (I&E) DRAP Lahore, but the firm has submitted copy of letter for permission to import empagliflozin for manufacturing of empazmet and empazmet XR tablets.
3.	Documents for the procurement of reference standard and impurity standards.	Firm has submitted copy of invoice of purchase of working reference standard.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (certificate No.20041958) issued by Food & Drug Control Administration, Gujrat State India. It is valid until 29/03/2022.
5.	Mechanism for Vendor pre-qualification	Firm has submitted copy of SOPs for vendor pre-qualification.
6.	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted COA of API, and working standard.
7.	Documents for the procurement of excipients used in product development?	Firm has submitted documents for procurement of excipients.
8.	List of qualified staff involved in product development with relevant experience.	Firm has provided list of technical staff of product development section.
PRODUCTION DATA		
9.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted protocols / SOPSs for product development.
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of each strength.
11.	Record of remaining quantities of stability batches.	Firm has provided following remaining quantities for each batch: **EMPAZ 10MG TABLET**

		RD-19008: 228 Tablets RD-19009: 228 Tablets RD-19010: 228 Tablets **EMPAZ 10MG TABLET** RD-19012: 228 Tablets RD-19013: 228 Tablets RD-19020: 228 Tablets
QA/QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers.
13.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	Firm has submitted method of analysis of FPP and complete record of testing of stability batches along with chromatograms
15.	Reports of stability studies of API from manufacturer.	Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65±5%RH) stability studies reports of three batches of both API's.
16.	Analysis reports for excipients used.	Firm has submitted analysis reports for all excipients used.
17.	Drug-excipients compatibility studies.	Firm has submitted results of compatibility study report of empagliflozin API with all the excipients using binary mixtures and study of compatibility using HPLC analysis.
18.	Record of comparative dissolution data.	Firm has submitted CDP data with of innovator product the f2 values at all three dissolution medium was more than 50.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches.

Evaluation by PEC[3]:

Shortcomings communicated	Response by the firm
Evidence of import of API including copy of commercial invoice signed by AD (I&E) DRAP Lahore.	Firm has submitted copy of commercial invoice specifying import of 50Kg empagliflozin. The invoice is cleared by AD (I&E) DRAP Lahore dated 28-01-2020. The invoice is freshly cleared while batches were manufactured in March 2019.
Justify why the content uniformity test is not performed.	Firm has submitted that they have performed content uniformity test only at initial stage. They have also submitted the results of content uniformity at initial time point.
Justify why the testing at different time points is carried out using different HPLC equipment i.e. Agilent Technologies and Schimadzu Lab solutions.	The stability at all time points was performed using 21 CFR compliant system. Depending upon the availability of system different HPLC equipment were used.
Justify the dissolution specification NLT 80%(Q) after 30 minutes, since the USFDA review document of the innovator product specify dissolution specifications i.e. NLT (Q) after 15 minutes. Submit the data of dissolution testing at 15 minutes time point at initial and one-month time point at both accelerated and real time stability conditions for 2	Firm has performed dissolution testing of all the three batches at 15 minutes time point at initial and 1 month time point as per the guidelines of Registration Board and have submitted the results. All results at 15 minutes time point fall within the acceptable limit.

batches as per the decision of 293rd meeting of Registration Board.	

Decision: Registration Board decided to approve registration of Empaz (Empagliflozin) 10mg and 25mg Tablet with Innovator's specifications by M/s Highnoon Laboratories Limited 17.5 K. M. Multan Road, Lahore. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

COA of API		Yes	
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.		**Empagliflozin:** Firm has submitted copy of GMP certificate (No. 20011803) issued by Food And Drugs Control Administration Gujrat Estate India. The certificate is valid till 08-01-2023. **Metformin:** Firm has submitted copy of GMP certificate (No. 67318/2018/11/24741) issued by FDA Mahrashtra. The certificate is valid till 27-08-2021.	
Protocols followed for conduction of stability study and details of tests.		Yes	
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.		Yes	
Documents confirming import of API etc.		**Empagliflozin:** Firm has submitted copy of Form 3, commercial invoice dated 25-09-2018 specifying import of 6Kg Empagliflozin. The invoice is not signed by AD (I&E) DRAP Lahore, but the firm has submitted copy of letter for permission to import empagliflozin for manufacturing of empazmet and empazmet XR tablets. **Metformin:** Firm has submitted copy of commercial invoice specifying import of 3000 Kg metformin dated 27-11-2018. The invoice is signed by AD (I&E) DRAP Lahore.	
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.		Yes	
Commitment to continue real time stability study till assigned shelf life of the product.		Yes	
Commitment to follow Drug Specification Rules, 1978.		Yes	
DATA FOR EXEMPTION FROM ONSITE INVESTIGATION OF SUBMITTED STABILITY DATA			

ADMINISTRATIVE PORTION		
1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Daplozmet Tablet 5mg/1000mg and Daplozmet Tablet 5mg/850mg (Dapagliflozin propanediol monohydrate + metformin HCl) Tablets", which was presented in 288th meeting of Registration Board wherein the Board decided to approve registration of Daplozmet Tablet. Date of inspection: 1st January, 2019. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** Firm has submitted copy of Form 3, commercial invoice dated 25-09-2018 specifying import of 6Kg Empagliflozin. The invoice is not signed by AD (I&E) DRAP Lahore, but the firm has submitted copy of letter for permission to import empagliflozin for manufacturing of empazmet and empazmet XR tablets. **Metformin:** Firm has submitted copy of commercial invoice specifying import of 3000 Kg metformin dated 27-11-2018. The invoice is signed by AD (I&E) DRAP Lahore.
3.	Documents for the procurement of reference standard and impurity standards.	Firm has submitted copy of invoice of purchase of working reference standard.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Empagliflozin:** Firm has submitted copy of GMP certificate (No. 20011803) issued by Food And Drugs Control Administration Gujrat Estate India. The certificate is valid till 08-01-2023. **Metformin:** Firm has submitted copy of GMP certificate (No. 67318/2018/11/24741) issued by FDA Mahrashtra. The certificate is valid till 27-08-2021.
5.	Mechanism for Vendor pre-qualification	Firm has submitted copy of SOPs for vendor pre-qualification.
6.	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted COA of API, and working standard.
7.	Documents for the procurement of excipients used in product development?	Firm has submitted documents for procurement of excipients.
8.	List of qualified staff involved in product development with relevant experience.	Firm has provided list of technical staff of product development section.
PRODUCTION DATA		
9.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted protocols / SOPSs for product development.
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of each strength. Firm has manufactured the batches using empagliflozin in coating solution exactly as per the reference product.

11.	Record of remaining quantities of stability batches.	Firm has provided the remaining quantities of the product for each batch.
QA/QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers.
13.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	Firm has submitted method of analysis of FPP and complete record of testing of stability batches along with chromatograms
15.	Reports of stability studies of API from manufacturer.	**Empagliflozin:** Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 75±5%RH) stability studies reports of three batches for 36 month. **Metformin:** Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65±5%RH) stability studies reports of three batches for 60 month.
16.	Analysis reports for excipients used.	Firm has submitted analysis reports for all excipients used.
17.	Drug-excipients compatibility studies.	Firm has submitted results of compatibility study report of both API with all the excipients using binary mixtures and study of compatibility using HPLC analysis.
18.	Record of comparative dissolution data.	Firm has submitted CDP data of all strengths of their product against the innovator product.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches.

Evaluation by PEC[3]:

Decision: Registration Board decided to approve registration of following drugs with Innovator's specifications by M/s Highnoon Laboratories Limited 17.5 K. M. Multan Road, Lahore.

- **Empazmet XR 5/1000 mg Tablet**
- **Empazmet XR 10/1000 mg Tablet**
- **Empazmet XR 12.5/1000 mg Tablet**
- **Empazmet XR 25/1000 mg Tablet**

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Documents To Be Provided	Status
COA of API.	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	M/s Jiangxi Synergy Pharmaceutical Co., LTD. This was Previously named as M/s. Jiangxi Tonghe Pharmaceutical Co., Ltd. (As per API manufacture's Web information). **Certificate number** : JX20150013 **Validity: 05-03-2020**
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	Firm has submitted copy of commercial invoice dated 17-07-2018 specifying import of lesinurad 3Kg (Batch No. 20180601BF) and 1 Kg (Batch No. 20180602BF) attested by AD DRAP, Karachi.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	• Firm has referred to their last onsite inspection conducted for product Arcox Tablet 90mg and 120mg on 17th September, 2018. The said inspection report was discussed in 286th meeting of Registration Board held on 14-16th November 2018 and the case was approved. The inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are GMP compliant.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 17-07-2018 specifying import of lesinurad 3Kg (Batch No. 20180601BF) and 1 Kg (Batch No. 20180602BF) attested by AD DRAP, Karachi.
3.	Documents for the procurement of reference standard and impurity standards.	The firm has submitted an undertaking specifying that we have procured reference standard and impurity standards for testing / analysis purpose of Lesinurad from M/s Jiangxi Synergy Pharmaceutical Co Ltd. China in September 2018 through DHL courier. The DHL airway bill number for the said shipment is 1833140035.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	M/s Jiangxi Synergy Pharmaceutical Co., LTD. This was Previously named as M/s. Jiangxi Tonghe Pharmaceutical Co., Ltd. (As per API manufacture's Web information). **Certificate number** : JX20150013 **Validity: 05-03-2020**
5.	Mechanism for Vendor pre-qualification	Firm has submitted copy of vendor certification checklist filled and signed by technical persons of the firm in March 2018, before the import of API.
6.	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted analytical report and copy of COA of API and reference and impurity standard.
7.	Documents for the procurement of excipients used in product development?	The firm has submitted documents for procurement of excipients used in the formulation of applied product.
8.	List of qualified staff involved in product development with relevant experience.	The firm has submitted List of qualified staff involved in R&D department.
Production Data		
9.	Authorized Protocols/SOP for the development & stability testing of trial batches.	The firm has submitted copy of protocols for stability study of primary batches of Lesinurad tablets.
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted copy of Batch Manufacturing Records of all the three Batches.
11.	Record of remaining quantities of stability batches.	Firm has provided following remaining quantities for each batch: 422DS01: 270 Tablet 422DS02: 270 Tablet 422DS03: 270 Tablet
QA / QC DATA		

12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted copies of data logger record for stability chambers with real time and accelerated stability testing
	Method used for analysis of API along with COA.	The firm has submitted copy of Raw Material Specifications, Raw Material Testing Procedures along with COA.
13.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	The firm has submitted copy of Finished Product Testing Procedure and specification.
14.	Reports of stability studies of API from manufacturer.	Firm has submitted stability study data of 3 batches conducted as per the conditions of zone IV-A. The real time stability study data till 9 months is submitted by the firm. The stability initiation date of all batches is 15-07-2018.
15.	Analysis reports for excipients used.	Firm has submitted analysis reports for all excipients used in applied product development
16.	Drug-excipients compatibility studies.	Firm has submitted that they have used same excipients in their formulation as used by the innovator "Zurampic" Tablets. The only difference is in film coating material. Therefore drug-excipient compatibility studies are not required.
17.	Record of comparative dissolution data.	Firm has only submitted comparative dissolution at 4.5 pH acetate buffer.
18.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail on testing reports for the applied product has been submitted by the firm.

Remarks of the evaluator[3]:

Shortcomings communicated	Response by the firm
Justify how the comparative dissolution profile testing only at 4.5pH acetate buffer can demonstrate in vitro similarity against the innovator product, since the Appendix 1: Recommendations for conducting and assessing comparative dissolution profiles, of WHO guidelines Multisource (generic) pharmaceutical products: guidelines on registration requirements to establish interchangeability recommends that "*Studies should be performed in at least three media covering the physiological range, including pH 1.2 hydrochloric acid, pH 4.5 buffer and pH 6.8 buffer"*	Lesinurad is BCS Class II weak acid drug substance having solubility which increase with increase in pH. Considering the low solubility at low pH, FDA recommended dissolution medium was referred for CDP as it can discriminate the dissolution release.
Evidence of approval of applied formulation in reference regulatory authorities which were adopted by Registration Board in its 275th meeting, since the USFDA approved innovator product "Zurampic" is discontinued.	Firm has submitted evidence of approval of Zurampic 200mg film coated tablet of Astrazaneca Pty Ltd which is approved by TGA Austalia and its status is "active"
GMP certificate of the API manufacturer, since the submitted certificate is issued by Jiangxi Fengxin Market and Quality Supervision Administration, which is not a relevant regulatory authority.	Firm has submitted that Chinese agency reforms, drug supervision and management were incorporated into the market supervision administration. Market supervision administration adopts hierarchical management. Drug supervision agencies are set up only at provincial / city level. The production, operations, and sale shall be undertaken by the city and county market

	supervision administration. Based on these it is clear that after Chinese agency reforms the relevant city / county market supervision administration will issue GMP certificate. The copy of Drug Manufacturing License (GAN 20160125) of M/s Jiangxi Synergy Pharmaceutical Co, Ltd Jiangxi Fengxin Industrail Park, Fengxin 330700, Jiangxi Province, China. The certificate is valid till 15-02-2021.

Decision: Registration Board decided to approve registration of Lesiget Tablets 200mg with Innovator's specifications by M/s Getz Pharma (Pvt) Ltd. 29-30/27, Korangi Industrial Area, Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability GMP Inspection Report Date & Remarks

DOCUMENTS / DATA PROVIDED BY THE APPLICANT			
Documents To Be Provided		**Status**	
COA of API		Yes	
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.		**Ertugliflozin:** Firm has submitted copy of GMP certificate (No. ZJ20180032) issued by CFDA China. The certificate is valid till 14-03-2023.	
		Metformin: Firm has submitted copy of GMP certificate (No. 201703180) issued by office of the controller food and drugs administration Madhya Pradesh. The certificate is valid till 31-12-2021.	
Protocols followed for conduction of stability study		Yes	

and details of tests.		
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.		Yes
Documents confirming import of API etc.		**Ertugliflozin:** Firm has submitted copy of commercial invoice dated 28-05-2018 specifying import of 1 Kg Ertugliflozin. The invoice is signed by AD (I&E) DRAP Karachi office dated 13-6-2018.
		Metformin: Firm has submitted copy of commercial invoice dated 27-06-2018 specifying import of 8000kg metformin HCl. The invoice is signed by AD (I&E) DRAP Karachi.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.		Yes
Commitment to continue real time stability study till assigned shelf life of the product.		Yes
Commitment to follow Drug Specification Rules, 1978.		Yes
DATA FOR EXEMPTION FROM ONSITE INVESTIGATION OF SUBMITTED STABILITY DATA		
ADMINISTRATIVE PORTION		
1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Rofl 500mcg tablet (Roflumilast)", which was conducted on 10th October, 2017 and was presented in 277th meeting of Registration Board held on 27-29th December, 2017. Registration Board decided to approve registration of "Roflumilast 500mcg Tablet (ROFL 500mcg TABLET)" by ATCO Laboratories Limited Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Following two observations were reported in the report: i. The HPLC software is 21 CFR compliant. ii. Audit trail reports on the testing were verifiable. iii. Adequate monitoring and control are available for stability chambers.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	**Ertugliflozin:** Firm has submitted copy of commercial invoice dated 28-05-2018 specifying import of 1 Kg Ertugliflozin. The invoice is signed by AD (I&E) DRAP Karachi office dated 13-6-2018.
		Metformin: Firm has submitted copy of commercial invoice dated 27-06-2018 specifying import of 8000kg metformin HCl. The invoice is signed by AD (I&E) DRAP Karachi.
3.	Documents for the procurement of reference standard and impurity standards.	Firm has submitted copy of invoice of purchase of working reference standard and impurity.

4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Ertugliflozin:** Firm has submitted copy of GMP certificate (No. ZJ20180032) issued by CFDA China. The certificate is valid till 14-03-2023.
		Metformin: Firm has submitted copy of GMP certificate (No. 201703180) issued by office of the controller food and drugs administration Madhya Pradesh. The certificate is valid till 31-12-2021.
5.	Mechanism for Vendor pre-qualification	Firm has submitted copy of vendor's audit form and SOPs for selection of vendor.
6.	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted COA of API, and reference standard.
7.	Documents for the procurement of excipients used in product development?	Firm has submitted documents for procurement of excipients.
8.	List of qualified staff involved in product development with relevant experience.	Firm has provided list of technical staff of product development section.
PRODUCTION DATA		
9.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted authorized general protocols/SOPs for the development & testing of trial batches.
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the batches
11.	Record of remaining quantities of stability batches.	Firm has provided following remaining quantities for each batch: **ERTUMET TABLET 2.5MG/500MG** 271J18: 375 Tablets 272J18: 375 Tablets 273J18: 375 Tablets **ERTUMET TABLET 2.5MG/1000MG** 274J18: 375 Tablets 275J18: 375 Tablets 276J18: 375 Tablets **ERTUMET TABLET 7.5MG/500MG** 277J18: 375 Tablets 278J18: 375 Tablets 279J18: 375 Tablets **ERTUMET TABLET 7.5MG/1000MG** 280J18: 375 Tablets 281J18: 375 Tablets 282J18: 375 Tablets
QA/QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers.
13.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	Firm has submitted method of analysis of FPP and complete record of testing of stability batches along with chromatograms
15.	Reports of stability studies of API from manufacturer.	**Ertugliflozin:** The submitted stability data as per zone IV-A conditions. The real time stability data is till 24 months. **Metformin:** Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies &

		long term (30°C ± 2°C & 65±5%RH) stability studies reports of three batches.
16.	Analysis reports for excipients used.	Firm has submitted analysis reports for all excipients used.
17.	Drug-excipients compatibility studies.	Firm has submitted drug excipient compatability studies through binary mixtures study for all applied strengths.
18.	Record of comparative dissolution data.	• Firm has submitted that we have performed CDP for 2.5/1000mg and 7.5/500mg strength because the innovator pack of only these two strengths was available. • Firm has submitted data of comparative dissolution profile at pH 1.2 buffer, 4.5 buffer, 6.8.phosphate buffer and calculated difference of % release with innovator product for only 2 strengths.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches.

Evaluation by PEC[3]:

Shortcomings communicated	Response by the firm
Justification why the dissolution test is not included in the finished product specification, further justify why the dissolution test is not performed during the stability studies.	Firm has not submitted any clarification however firm has submitted results of dissolution of all batches at 16 month time point during real time studies. Firm has also submitted revised finished product specifications containing dissolution test.

Decision: Deferred for scientific justification for not perfoming dissolution studies since innovator has performed dissolution test with limits of NLT Q in 15min

Case no. 06 Miscellaneous Cases

2576. Withdrawal of Registration applications of applied generic drug products of Abbott Laboratories (Pakistan) Ltd.

M/s Abbott Laboratories (Pakistan) Ltd have applied for registration of following products on Form 5F (CTD).

4	PreAbb 150mg Capsule	Pregabalin	Form-5F Dy. No 33455 dated 09-10-2018 Rs.100,000/- Dated 09-10-2018
5	PreAbb 300mg Capsule	Pregabalin	Form-5F Dy. No 5100 dated 03-05-2019 Rs.20,000/- Dated 03-05-2019
6	Abistat 120mg Capsule	Orlistat	Form-5F Dy. No 5096 dated 03-05-2019 Rs.20,000/- Dated 03-05-2019

The applications were evaluated and letter of shortcoming were issued.
Now the firm vide their letter dated 17-06-2020 has requested to withdraw these registration applications due to availability of better molecules.
The request of the firm is submitted before the Board.

Decision: Registration Board acceded to the firm's request to withdraw above registration applications and rejected / disposed off above 6 applications.

Case No.1. Request of M/s Amarant Pharmaceuticals, Karachi for correction in pack size/ volume of Amta-Rose Injection.

Registration Board in its 290th meeting approved the following product M/s Amarant Pharmaceutical (Pvt) Ltd., 158-D Tore, Gadap Road, Super Highway Karachi with contract manufacturing from M/s Caraway Pharmaceutical, Islamabad:

Contract Giver / Applicant	Contract Acceptor / Manufacturer
M/s Amarant Pharmaceuticals (Pvt.) Ltd. 158, D. Tore, Gadap Road, Super Highway, Karachi.	M/s Caraway Pharmaceuticals Plot No. 12, street # N-3, National Industrial Zone, Rawat, Islamabad.

Amta-Rose Injection

1. Name of drug(s)
Amta-Rose Injection (Iron Sucrose)

2. Composition
Each ampoule (1ml) contains: Iron Sucrose Complex eq. to Elemental Iron…100mg

3. Dosage Form
Injection

4. Form, Fee, DY Date
Form 5
1024 dated 02-05-2013
Rs 150,000/-

5. Decision of Registration Board in 246th meeting
Deferred for rectification of following observation in the dossier:

i. Reference will be sent to B & A Division for verification of challan.
ii. Confirmation of installation and operational qualifications for TOC analyzer and liquid particle counter by the area FID.
iii. Initially on Form 5, firm mentioned quantity of active as 420 mg/ ampoule, in reply firm mentioned it as 1873 mg/ ampoule. Clarification is required. No clarification is provided in second reply.
iv. Letter of approval of injection section is required. Not provided in second reply. Inspection report dated 24-09-12 mentions Ampoule and Vial sections.

Submission by the Firm:

6. The original dossier of the firm has been traced with original fee deposit slip.
ii. Evidence of Approval status in Reference regulatory authorities
iii. Firm has submitted Approval of Liquid Ampoule (Injectable) manufacturing facility from Licensing Division
iv. Correct labelling information for treatment of Vit-D3 deficiency.

The original dossier has been traced out with original fee challans. Moreover, the firm has submitted following documents in support:

7. Justification of point raised in point No. 5
8. Undertaking of installation of TOC and liquid practical counter.
9. Section approval dated 15.04.2015.

Decision 271st Meeting of Registration Board:

Registration Board deferred the request of M/s Amarant Pharmaceuticals Karachi for submission of latest GMP report of M/s Amarant Pharmaceuticals, Karachi (contract giver / applicant) and M/s Caraway Pharmaceuticals, Rawat, Islamabad (contract acceptor / manufacturer).

Later on, the firm submitted the inspection reports in favor of M/s Amarant Pharmaceuticals, Karachi conducted on 26-February-2019 and M/s Caraway Pharmaceuticals, Rawat, Islamabad conducted on 24-July-2018, respectively.

Decision of M-290:

Registration Board approved registration of above mentioned products of M/s Amarant Pharmaceuticals, Karachi on contract manufacturing basis by M/s Caraway Pharmaceuticals, Rawat, Islamabad.

The case was re-considered in 295th meeting of Registration Board (held on 8th-11th June, 2020) wherein the Board was informed that registration letter could not be issued as demanded pack size was not mentioned in minutes of 290th meeting. Furthermore, as per minutes the firm had applied: **"Each ampoule (1ml) contains: Iron Sucrose Complex eq. to Elemental Iron…100mg"**

However, the standard formulation approved by reference regulatory authority states:

"**Each 5ml ampoule contains: Iron (III) Hydroxide Sucrose Complex Eq. to Elemental Iron 100mg"**

Original Dossier/ Form-5 could not be retrieved. However, the firm had submitted revised label claim along-with fee of **Rs.5000/-** (DS#1908821 dated 27-12-2019) as per following details:

"Each 5ml ampoule contains:
Iron (III) Hydroxide Sucrose Complex Eq. to Elemental Iron 100mg"

The firm had also informed that their demanded pack size and MRP is **"As Per SRO"**

Decision of M-295: Registration Board deferred for submission of remaining fee Rs.15000/-

The firm has now submitted remaining fee of Rs.15000 (DS#1952631) for change in label claim (Dy.No.19506 dated 10-08-2020).

Decision: **Registration Board approved the request of M/s Amarant Pharmaceuticals (Pvt.) Ltd., Karachi for correction in pack size/ volume along-with composition/ label claim of Amta-Rose Injection in line with the reference/ standard product approved by Reference Regulatory Authorities. Detail is given as under:**

"Each 5ml ampoule contains:
Iron (III) Hydroxide Sucrose Complex Eq. to Elemental Iron….100mg"
Demanded Pack Size and MRP: "As Per SRO"

Case No.2. Request of M/s Akhai Pharmaceuticals Pvt. Ltd. H.I.T.E. Baluchistan for correction in Packaging Material/ Container Closure System of Atracurium Besylate Injections

Registration Board in its 290th meeting approved the following products of M/s Akhai Pharmaceuticals Pvt. Ltd. H.I.T.E. Baluchistan as per below mentioned details:

Name and address of manufacturer / Applicant	M/s Akhai Pharmaceuticals Pvt. Ltd. H.I.T.E. Baluchistan Contract Manufactured By: M/s NovaMed Pharmaceuticals Pvt. Ltd. Lahore

Me-too status	Efacurim 25mg /2.5ml I.V Injection of M/s Pharmedic
GMP status	Last GMP inspection dated 5th & 27th December conclusion by Panel "The firm (M/s NovaMed Pharmaceuticals Pvt. Ltd. Lahore) is compliant to Good cGMP guidelines at the time of inspection"
Remarks of the Evaluator	
Decision: Approved	

Name and address of manufacturer / Applicant	M/s Akhai Pharmaceuticals Pvt. Ltd. H.I.T.E. Baluchistan Contract Manufactured By: M/s NovaMed Pharmaceuticals Pvt. Ltd. Lahore
Brand Name +Dosage Form + Strength	Atracurium Besylate 50mg/5ml Injection
Composition	Each 5ml vial contains: Atracurium Besylate…….50mg
Diary No. Date of R& I & fee	Dy. No 17947 Dated 15-05-2018, Rs. 50,000/- 15-05-2018
Pharmacological Group	muscle relaxant
Type of Form	Form 5
Finished product Specifications	USP Specification
Pack size & Demanded Price	5'sx5ml
Approval status of product in Reference Regulatory Authorities	Atracurium 10mg/ml Solution for Injection or Infusion (UK)
Me-too status	Arium Injection 50Mg of M/s Cirin
GMP status	Last GMP inspection dated 5th & 27th December conclusion by Panel "The firm (M/s NovaMed Pharmaceuticals Pvt. Ltd. Lahore) is compliant to Good cGMP guidelines at the time of inspection"
Remarks of the Evaluator	
Decision: Approved	

The case was re-considered in 295th meeting of Registration Board (held on 8th-11th June, 2020) wherein the Board was informed that registration letter had been issued. However, the firm later on informed that their applied packaging material was "**Ampoule**" instead of "**Vial**". Original Dossier/ Form-5 couldn't be retrieved, however, the firm had submitted copy of form-5 wherein "Ampoule" is mentioned on 1st page and against S.No. 4 (strength of active ingredient per unit). Furthermore, the firm had also submitted a copy of approval for addition section issued to M/s NovaMed Pharmaceuticals (Pvt.) Ltd., Lahore (Contract Manufacturer) vide letter No.F.6-1/2013-Lic (M-232) dated 29-08-2013 stating following sections:

1. General Liquid Injection (Ampoule)
2. General Liquid Injection Vial (SVP)

Decision of M-295: Registration Board deferred the case for verification of applied packaging material/container closure system from original dossier submitted by the firm at the time of initial application.

Despite of repeated attempts, original dossier/ Form-5 couldn't be retrieved. However, the firm has now submitted snap shots of registered brands in Pakistan and PIL of following products as evidence for availability of applied product in "**ampoule**" packaging material:

Local Availability				
S.No.	**Brand Name**	**Strength**	**Reg.No.**	**Reg. Holder**
1.	Tracurium	2.5ml 5ml	009570 009571	GSK
2.	Atrelex	2.5ml 5ml	018010 011031	Abbott
3.	Acuron	3ml 5ml	022818	Brookes
International/RRA Availability				
S.No.	**Brand Name**	**Strength**	**License Holder**	**Approved in Country**
1.	Tracrium	2.5ml 5ml	GlaxoSmithKline	Australia/New Zealand
2.	Atracurium Besylate	2.5ml 5ml	Hospira UK Limited	UK

Decision: **Keeping in view the availability/ approval status of generic products and reference/ standard products (approved by Reference Regulatory Authorities) in both "Vial" and "Ampoule" container closures, Registration Board acceded to the request of M/s Akhai Pharmaceuticals Pvt. Ltd. H.I.T.E. Baluchistan for correction in Packaging Material/ Container Closure System of Atracurium Besylate Injections from "Vial" to "Ampoule".**

Case No.3. Request of M/s Barret Hodgson, Karachi for correction in Demanded MRP of Opsilk Lubricant Eye Drops

Registration Board in its 275th meeting approved Opsilk Lubricant Eye Drops of M/s Barrett Hodgson Pakistan, F/423, S.I.T.E, Karachi as per below mentioned details:

Name and address of manufacturer / Applicant	M/s Barrett Hodgson Pakistan, F/423, S.I.T.E, Karachi.
Brand Name +Dosage Form + Strength	Opsilk Lubricant eye drops
Composition	Each ml contains: Polyethylene Glycol 400 …… 4 mg Propylene Glycol …….. 3 mg
Diary No. Date of R& I & fee	Dy. No.46; 06-07-2015; Rs.20,000/- (06-07-2015)
Pharmacological Group	Ocular lubricant
Type of Form	Form-5
Finished product Specification	Manufacturer specifications
Pack size & Demanded Price	**10ml; Rs.33.35/- 15ml; Rs.19.55/-** **30 ml; Rs. 575/-**
Approval status of product in Reference Regulatory Authorities.	Approved by MHRA of UK
Me-too status	Systane Lubricant Eye Drops M/s Ali Gohar & Company (Pvt) Ltd., Karachi (Reg.# 044834)
GMP status	Last inspection report dated 8-8-2017 confirms satisfactory compliance to GMP
Remarks of the Evaluator.	
Decision: Approved with innovator's specification.	

The case was re-considered in 295th meeting of Registration Board (held on 8th-11th June, 2020) wherein the Board was informed that price had not been fixed for demanded pack sizes. Furthermore, MRP demanded for 10ml pack appeared to be less than that approved for 5ml pack vide 12th DPC. Accordingly, as per practice in vogue, the case was referred to C&P Division for Price confirmation/fixation.

However, the firm had informed that there were discrepancies in demanded prices mentioned in M-275 (held on 25th - 27th Oct, 2019) and their applied demanded prices as per following details. Furthermore, the firm had also stated that they intimated timely via letter dated 2-04-2018. In this regard, the firm had also submitted copy of form-5 along-with undertaking because the original dossier couldn't be retrieved.

S/N	Pack Size	Actual Demanded Price On Form-5 at the Time of Registration Application	Demanded Price Erroneously Mentioned in Minutes of 275th Meeting
I	**II**	**III**	**IV**
1.	10ml	Rs.210/-	Rs.33.35/-
2.	15 ml	Rs.300/-	Rs.19.55/-
3.	30ml	Rs.575/-	Rs.575/-

Decision of M-295: Registration Board deferred the case for verification of demanded MRP from original dossier submitted by the firm at the time of initial application.

Original dossier has now been received from PEC (Dy. No.46; 06-07-2015) from where the above mentioned claim of the firm regarding demanded pack sizes & demanded prices (column II & III of above table) has been verified.

Decision: **Registration Board acceded to the request of M/s Barret Hodgson Pakistan, Karachi for correction in demanded MRP of Opsilk Lubricant Eye Drops as per details mentioned vide column II and III of above table.**

Case No.4. Change in Registration Status of Etipro 20mg Capsules From M/s The Searle Company, Limited, Karachi to M/s ICI Pakistan Limited (Formerly Cirin Pharmaceuticals (Pvt.) Ltd.), Hattar

Registration Board in its 295th meeting (held on 8th-11th June, 2020) considered the request of M/s ICI Pakistan Limited (Formerly Cirin Pharmaceuticals (Pvt.) Ltd.), 32/2A Phase 3, Industria Estate, Hattar (DML # 000363) for change in registration status of "**Etipro 20mg (Omeprazole) Capsules**" from M/s The Searle Company Limited, Karachi to their name as per following details:

I	II	III	IV	V
Reg. No.	**Brand name and Composition as per Initial Registration Letter**	**Brand Name & Revised Composition applied by M/s ICI**	**Remarks of RRR section Regarding Renewal Status**	**Dy. No. & Date of Submission**
019147	**Etipro SR 20mg Capsule** Each capsule contains:- Omeprazole ……..20mg as SR Microgranules **(Toll manufacture for ICI Pak Limited, Karachi)** **Source of Pellets:** M/s Precise Chemipharm a Pvt Ltd, India.	**Etipro 20mg Capsule** Each capsule contains:- Omeprazole Enteric Coated Pellets eq. to Omeprazole……..20mg (USP Specifications) **Source of Pellets:** M/s Precise Chemipharm a Pvt Ltd, Gut No. 215/1 & 215/2, Khatwad Phata, At Psot Talegaon, Taluka Dindori, Nashik 422202 Maharashtra State, India **India.**	As per computer record of RRR section, renewal application is received on 06-04-2016 and initial date of registration is 10-04-1996. Firm has submitted additional fee in case of imported pellets on 27-02-2018. Case has to be placed before the Reg. Board for regularization and final status will be communicated afterwards	Initial application submitted by M/s Cirin Pharmaceuticals, Hattar; Dy. No.113; 26-01-2018 **with Fee of** Rs. 100000/- (Challan No. 0713297). After change in title, fresh application has been received from M/s ICI Pakistan Limited; Dy. No.606; 03-06-2020 **with Fee of** Rs. 100000/- (Challan No. 1959577).

The firm has now submitted following documents:

i. Capsule (General) Section approval of M/s Cirin, Hattar verified from Licensing Division's letter for renewal of DML (dated 02nd March, 2016).
ii. Copy of last GMP inspection report of M/s Cirin Pharmaceuticals (Pvt.) Ltd.), 32/2A Phase 3, Industria Estate, Hattar dated 07th May, 2018 indicating "Good" level.
iii. NOC from M/s The Searle Company Limited, Karachi dated 01-06-2020.
iv. DML of M/s Cirin, Hattar dated 18-09-2015.
v. Copy of approval for change in title and management of M/s Cirin, Hattar issued by Licensing Division dated 18-02-2020.

vi. Copy of GMP certificate of M/s Chemipharma, India valid upto 27-02-2022. However, the firm had previously submitted legalized GMP Certificate valid upto 22-01-2019 along-with Accelerated & Real Time statbility studies.

Decision of M-295: Registration Board deliberated the case in correlation with succeeding Case and directed the firm to submit clarification/justification for their instant request as they already hold registration of same molecule in same dosage form & strength i.e., Acizol (Omeprazole) Caps 20mg (Reg. No. 017715).

M/s ICI Pakistan Limited, Hattar has now submitted following clarification on the above matter:

"ICI Pakistan is marketing Etipro 20mg Caps, currently registered in the name of The Searle Company Limited (Searle) since its registration in 1996. It is ICI's famous brand in Pakistan therefore we want to shift its registration in the name of ICI Pakistan at the earliest. Initially Cirin Pharmaceuticals (Pvt) Limited (Cirin, a wholly owned subsidiary of ICI Pakistan Limited) had applied for transfer of registration from Searle to Cirin by paying fee of Rs. 100,000/- but the application could not be processed because Acizole 20mg caps having same molecule was registered in the name of Cirin.

Recently title of Cirin has been changed to ICI Pakistan limited and we have obtained fresh NOC from Searle in the name of ICI Pakistan Limited and request to process our pending application by paying an additional fee of Rs. 100,000/- following DRAP requirement.

Further, we have submitted all the documents required for withdrawal of Acizol 20mg Caps (Reg. No. 017715) registration.

We request the Registration Board for de-registration of Acizol 20mg and at the same time approve our subject application for change of registration status of Etipro 20mg Caps from Searle to ICI Pakistan limited, 32-2A, Phase III, Industrial Estate, Hattar (DML No: 000363)."

Decision: Registration Board decided as follows:

i. **Cancellation of registration of Etipro SR 20mg Capsule (R#019147) from the name of M/s The Searle Company Limited, F-319, S.I.T.E, Karachi.**
ii. **Approved registration of Etipro 20mg Capsule in the name of M/s. ICI Pakistan Limited, 32/2A, Phase III, Industrial Estate, Hattar, Haripur. In line with the reference/ standard product approved by Reference Regulatory Authorities, label claim shall be standardized as mentioned vide column III of above table. Furthermore, the firm shall submit valid and legalized GMP of M/s Precise Chemipharm, India before issuance of Registration letter.**
iii. **Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).**

Case No.5. Request for Withdrawal of Registration of Acizol (Omeprazole) Caps 20mg (Reg. No. 017715)

Registration Board in its 295th meeting (held on 8th-11th June, 2020) considered the request of M/s ICI Pakistan Limited. 32/2 A, Industrial Estate Hattar (Formerly known as Cirin Pharmaceuticals (Pvt.) Limited - DML No. 000363) to withdraw an existing registration of Acizol 20mg (registered in the name of M/s Cirin, Hattar) & to expedite their application for change in registration status of Etipro Caps 20mg (R# 019147) from M/s the Searle Company Limited, Karachi to M/s ICI Pakistan Limited, Hattar.

S/N	Reg.No.	Brand name and composition	Justification	Alternate Brands/ Registration Holders submitted by the firm.	Date of Registration & Last Renewal Status
1.	017715	Acizol Capsule 20mg Each Capsule contains: Omeprazole…..20mg	To expedite their application for change in registration status of Etipro Caps 20mg (R# 019147) from M/s the	1. Alpazol of M/s Medicaids Pakistan (Pvt) Ltd. 2. Amazole of M/s Medera	Reg. Letter date: 18-07-1995 Last Renewal date:

			Searle Company Limited, Karachi to M/s ICI Pakistan Limited, Hattar.	Pharmaceuticals (Pvt). 3. Anmol of M/s Roryan Pharmaceutical Industries.	10-07-2015

The firm has now submitted following documents:

- Copy of registration letters and Last renewal.
- List of alternatives brands available in Pakistan
- An Undertaking that:
    i. No case is pending at any forum/ court of law regarding above mentioned products.
    ii. Provided information/ documents are true/ correct.

Decision of M-295: Registration Board deferred the case to be considered after submission of clarification/ justification in preceding Case.

Submitted for consideration of Registration Board in the light of clarification submitted by M/s ICI Pakistan Limited, Hattar in preceding case.

Decision: **Registration Board acceded to the request of M/s. ICI Pakistan Limited (Formerly: Cirin Pharmaceuticals (Pvt.) Limited), 32/2A, Phase III, Industrial Estate, Hattar, Haripur for withdrawal/ de-registration of Acizol Capsule 20mg (Reg. No. 017715) as the same molecule i.e., "Omeprazole" under the brand name of "Etipro 20mg Capsule" has been approved for registration in their name after being cancelled from M/s The Searle Company Limited, Karachi.**

Case No.6. **Request of M/s Atco Laboratories Limited.B-18, S.I.T.E. Karachi for Revision of Formulation of Eskazole Tablets 400mg**

Registration Board in its 288th meeting approved Eskazole Tablets 400mg of M/s Atco Laboratories Limited.B-18, S.I.T.E. Karachi as per below mentioned details:

Name and address of manufacturer / Applicant	M/s Atco Laboratories Limited.B-18, S.I.T.E. Karachi
Brand Name +Dosage Form + Strength	Eskazole Tablets 400mg
Composition	Each film coated tablet contains: Albendazole …400mg
Diary No. Date of R& I & fee	Dy.No 5185 dated 13-02-2018 Rs. 20,000/- 12-02-2018
Pharmacological Group	ANTHELMINTICS
Type of Form	Form 5
Finished product Specifications	USP
Pack size & Demanded Price	2's, 7's, 14's, 20's, 28's, 30's & 60's RS: 200/2's, 700/7's, 1000/10's,1400/14's 2000/20's, 2800/28's, 3000/30's & 6000/60's
Approval status of product in Reference Regulatory Authorities	Eskazole 400mg tablet by GSK Austrailia
Me-too status (with strength and dosage form)	Wormgo Tablets of M/s Mediceena Pharma
GMP status	Last GMP inspection was conducted on 21-07-2017 and report concludes that firm was considered to be operating at good level of compliance
Remarks of the Evaluator[4]	
Decision: Approved.	

However, while processing for issuance of registration letter it was observed that the standard formulation approved by TGA (Eskazole 400mg tablet by GSK Australia; quoted as reference product in M-

288) is a chewable tablet. Therefore, clarification was sought from the firm/ dossier regarding applied formulation/ RRA approval status. In response, the firm has now submitted fresh fee for Rs. 20,000/- along with requisite documents for revision of formulation to "**chewable tablet**" (Dy. No. 2263 dated 21-02-2020).

Decision: **Registration Board acceded to the request of M/s Atco Laboratories Limited, B-18, S.I.T.E. Karachi for revision of formulation of Eskazole Tablets 400mg in line with reference/ standard product approved by Reference Regulatory Authorities. Detail is as under:**

"Each chewable tablet contains:
Albendazole……..…400mg"

Case No.7. Request of M/s Martin Dow Limited, Karachi for import of Controlled Drug Substance for Trial/ Development & Stability Purposes.

M/s Martin Dow Limited, Plot No.37, Sector 19, Korangi Industrial Area, Karachi has informed that they are going to shift their imported registered product "Rivotril Tablet 0.5mg (Reg.No. 001049)" and "Rivotril Tablet 2mg (Reg.No. 003626)" from bulk import to local manufacturing. In this regard, they are going to perform development & stability studies for the said product. Accordingly, the firm has requested for permission to import a controlled drug substance "**Clonazepam**" for developing their product. Details are as under:

S.No	Controlled Drug Substance	Quantity required for trial, development & stability batches	Source
1	Rivotril Tablet 0.5mg (Reg.No. 001049)	0.0265kg	Fabbrica Italiana Sintetici S.p.a, Italy
2	Rivotril Tablet 2mg (Reg.No. 003626)	0.076kg	
	Total	**0.1025kg**	
3	Clonazepam Working Standard	0.400 g	
4	Clonazepam Related Compound A	0.025g	
5	Clonazepam Related Compound B	0.025g	
6	Clonazepam Related Compound C	0.025g	

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

i. Clonazepam 0.5mg

S.NO.	Product	API	mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Clonazepam 0.5mg tablet**	Clonazepam	0.5	**Batch size for trial batch** (1,000 tablets) **Batch size of Lab batch** (10,000 tablets) **Batch size for Pilot batch 1** (10,000 tablets) **Pilot batch 2**	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	16.50	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	26.50

				(10,000 tablets				

ii. Clonazepam 2mg

S.NO.	Product	API	mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Clonazepam 2mg tablet**	Clonazepam	2.00	**Batch size for trial batch** (1,000 tablets) **Batch size of Lab batch** (10,000 tablets) **Batch size for Pilot batch 1** (10,000 tablets) **Pilot batch 2** (10,000 tablets	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	66.00	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	76.00

The firm has also submitted evidence for approval of requisite manufacturing facility in the form of letter issued by Licensing Division dated 12-06-2011 stating approval of additional sections including **"Tablet (Psychotropic) (Product already registered)".**

Decision: **Registration Board decided to recommend allocation of controlled drug substances i.e., Clonazepam along-with above mentioned Reference Standards for trial/stability batches of above mentioned products.**
The Board further advised the firm to maintain records of used substances and waste materials having above APIs and shall be destroyed after approval of Controlled Drug Division, DRAP.

Case No.8. Request of M/s Martin Dow Marker Limited, 7, Jail Road Quetta for import of Controlled Drug Substance for Trial/ Development & Stability Purposes.

M/s Martin Dow Marker Limited, 7, Jail Road Quetta has requested for permission to import controlled drug substances for trial/development and stability Purposes. Details are given below:

i. <u>Diazepam</u>

S.No	Controlled Drug Substance	Quantity required for trial, development & stability batches	Source
1	Diazepam Injection 10mg/2ml	98.5 g	Fabbrica Italiana Sintetici S.p.a, Italy
2	**Total**	**100 g**	
3	Diazepam Working Standard	200mg	
4	Diazepam Related Compound A	100 mg	
5	Diazepam Related Compound B	100 mg	
6	Diazepam USP nordazepam RS	100 mg	

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

The firm has also submitted evidence for approval of requisite manufacturing facility in the form of letter dated 22-06-2018, issued by Licensing Division for "Regularization of existing facility as per approved layout plan on the recommendations of the panel of experts" stating following sections:

- **Tablet (Psychotropic)**
- **Capsule (Psychotropic)**
- **Liquid Injectable-SVP (Psychotropic)**

Decision: **Registration Board decided to recommend allocation of controlled drug substances i.e., Oxycodone along-with above mentioned Reference Standard for trial/stability batches of above mentioned products.**
The Board further advised the firm to maintain records of used substances and waste materials having above APIs and shall be destroyed after approval of Controlled Drug Division, DRAP.

Case No.12. Request of M/s GlaxoSmithKline Consumer Health Care Pakistan Ltd, Jamshoro Regarding Interim Extension for Utilization of Printed Packaging Material Bearing Old Registration Numbers and Pharmacopeia Specification.

M/s GlaxoSmithKline Consumer Health Care Pakistan Ltd, Petaro Road, Jamshoro (DML #000010) was issued registration of 04 products (Panadol Tablet, Children's Panadol Liquid, Children's Panadol Drops & Panadol Extra Tablets) through contract manufacturing at M/s Pharmatec, Karachi (contract manufacturer remains same) after being cancelled from M/s GSK Pakistan Limited, F-268, Karachi. The firm, later on, requested for permission to resume manufacturing of all products, considered as essential medicine (containing paracetamol) till 31st July, 2020 with existing registration numbers to consume entire inventory with continuous and un-interrupted supply of products. In support of their request, the firm mentioned that they had been awarded new registration numbers, therefore, they require time to print new artwork with new registration numbers.

The firm was advised to submit requisite documents along-with relevant rules applicable to their request for utilization of printed packaging material bearing old registration numbers.

However, the firm has once again requested for interim extension till **31st October, 2020** for utilization of printed packaging material bearing old registration numbers and specifications. The firm has further

mentioned that current COVID-19 lockdown situation is further impacting timely delivery of these components as most of the material is coming from China.

Decision: **Registration Board deferred the case & directed the firm to provide rule position applicable to their request for utilization of printed packaging material bearing old registration numbers.**

Case No.13. Violation of Registration Board's Decision on Segregated Section for Psychotropic Products by M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi

Assistant Director (QA-II) has informed that inspection of M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi was conducted by Mr. Awais Ahmed, FID DRAP, Karachi on 16-01-2020 and following observation has been mentioned in the inspection report which needs attention of the Registration Board.

"The firm found in violation of DRB decision on segregated section for Psychotropic substance as firm has no segregated section for Psychotropic Products. Psychotropic product "Estazolim" was being manufactured in general OSD section"

As per available record of registered products in PE&R Division, following information has been retrieved regarding registered products of M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi along-with their renewal status.

S/N	Reg. No.	Brand Name	Composition	Manufacturer/ Registration Holder	Remarks of RRR Section
1.	002668	Cerelium 2mg Tablet	Diazepam 2mg	M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi	Record of renewal submission not available. Evidence for submission of renewal is required to process further.
2.	002669	Cerelium 5mg Tablet	Diazepam 5mg	M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi	Record of renewal submission not available. Evidence for submission of renewal is required to process further.
3.	007480	Esilgan 1mg Tablet	Estazolam 1mg	M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi	Transfer of registration from Hakimsons to Helix 20-02-2006. Renewal application received on 11-02-2020.
4.	007481	Esilgan 2mg Tablet	Estazolam 1mg	M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi	Transfer of registration from Hakimsons to Helix 20-02-2006. Renewal application received on 11-02-2020.
5.	011636	Cereluin Injection	Diazepam 10mg	M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi	Transfer of registration from Hakimsons to Helix 18-08-2005. Renewal application received on 19-08-2015. Regularization is required for submission of renewal after expiry but within sixty days.

6.	001385	Phenobarbitone Tablet 30mg	Phenobarbitone 30mg	M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi	Transfer of registration from Hakimsons to Helix 06-02-2007. Renewal application received on 27-01-2017 i.e., within time under Rule 27 of Drug L.R&A Rules.

In this regard, Licensing Division has also been requested for confirmation regarding approval status of "Psychotropic Section" of M/s Helix Pharma (Pvt.) Ltd., A-56, S.I.T.E, Karachi. However, response is awaited.

Decision: **Registration Board deferred the case & advised to present comprehensive details on decisions already taken by the Central Licensing Board & Registration Board regarding requirement of segregated facility for psychotropic products along-with the time limits already set to establish segregated facilities.**

Case No.14. Withdrawal of Request For Change In Registration Status of Products From M/s Barrett Hodgson Private Limited Karachi To M/s OBS Pakistan Private Limited Karachi

M/s OBS Pakistan (Pvt) Ltd, C-14, S.I.T.E, Manghopir Road, Karachi applied for change in registration status of following products from M/s Barret Hodgson (Pvt) Limited, Karachi to their name through contract manufacturing at M/s Indus Pharma, Karachi.

1. **Xylocaine Ointment 5%; Reg. No. 023075** (Dy.No. 54 Dated 07-01-2020)
2. **Xylocaine Jelly 2%; Reg. No. 009315** (Dy.No. 53 Dated 07-01-2020)
3. **Xylocaine Topical Solution 4%; Reg. No. 000380** (Dy.No. 55 Dated 07-01-2020)
4. **Xylocaine 2% Injection; Reg. No. 000378** (Dy.No. 64 Dated 07-01-2020)
5. **Xylocaine 2% Solution with Adrenaline; Reg. No. 010112** (Dy.No. 63 Dated 07-01-2020)

However, M/s OBS Pakistan, Karachi has now submitted **"Withdrawal of Product –Xylocaine Range"** on behalf of Aspen Global. In this regard, a letter has also been submitted from Pauline Macdonald- Deputy Chief Operating Officer-Aspen Global Incorporated regarding withdrawal/ discontinuation of commercialization/ marketing of the abovementioned products in Pakistan. Based on Aspen's Instructions, Barrett Hodgson has stopped manufacturing of the products and shall not renew the product licenses with DRAP.

Accordingly, the case has been placed with respect to status of initially submitted applications (Dated 07-01-2020) for transfer/change in registration status of abovementioned products from M/s Barrett Hodgson Private Limited Karachi to M/s OBS Pakistan Private Limited Karachi which shall stand redundant after submission of this withdrawal intimation.

Proceedings of M-296:

The Board was apprised that the abovementioned letter received from Pauline Macdonald-Deputy Chief Operating Officer-Aspen Global Incorporated (regarding withdrawal/ discontinuation of commercialization & marketing of the abovementioned products in Pakistan) states brand names of abovementioned products along-with their registration number. Furthermore, despite of Aspen's Instructions stating "Barrett Hodgson has stopped manufacturing of the products and shall not renew the product licenses with DRAP", M/s Barrett Hodgson, Karachi has changed brand names of abovementioned products from "Xylocaine" to "Xyloaid" as per approval issued vide letter dated 30-09-2019.

Decision: **Keeping in view the abovementioned position, Registration Board referred the case to Legal Affairs Division for their opinion whether discontinuation of commercialization/ marketing of the abovementioned products in Pakistan by Aspen Global requires cancellation of registration of Xylocain Range along-with their registration numbers.**

Case No.15. Issuance of Registration Letter For Products of M/s Nabiqasim Industries Pvt. Ltd. 17/24, Korangi Industrial Area, Karachi Approved In 292nd Meeting of Registration Board

No.560) UK MHRA approved formulation.

The firm had provided following documents:-

1. Applications on From-5 along with fee of Rs.360,000/- (06-06-2016) and Rs.900,000/- (27-06-2016) (Duplicate)
2. Copies of initial letter of registration and renewal status.
3. Copy of last GMP inspection report of M/s GlaxoSmithKline Pakistan Limited F-268, S.I.T.E, Karachi dated 11-09-2018 and 04-10-2018 (**Good** Level of Compliance).
4. Evidence of approval for change in title from "GSK OTC (Pvt) Ltd Jamshoro" to "M/s. GlaxoSmithKline Consumer Healthcare Pakistan Ltd., Petaro Road Jamshoro (DML #000010)" dated 14-05-2019.
5. NOC from M/s. GlaxoSmithKline Pakistan Ltd, Karachi dated 25-06-2019.
6. Consent from contract manufacturers dated 03-07-2019 and 04-07-2019.

In line with the decision taken by the board, case was referred to Licensing Division for confirmation regarding approval status of requisite manufacturing facility. However, their response is still awaited. Meanwhile, the firm has provided copy of Panel Inspection Report for regularization & renewal of DML as per following details:

a. Panel Inspection Report for renewal of DML for GlaxoSmithKline Pakistan Limited F-268, S.I.T.E, Karachi (DML#000233), dated 26,27-03-2019 & 01-04-2019 stating recommendation for renewal of DML and following sections:
   i. Iodex Section/ Ointment Section
   ii. Liquid (General) Section.
   iii. Tablet (General) Section.
   iv. Penicillin Tablet Section

v. Penicillin Capsule Section
vi. Penicillin Dry Suspension Section.

Furthermore, as per copy of panel inspection report conducted for renewal of DML/ grant of additional sections (dated 6th & 7th February, 2017) provided by the firm, M/s GlaxoSmithKline Consumer Healthcare Pakistan Ltd, Jamshoro has 09 sections including "**Liquid/ Syrup Section"**, while the firm has already been granted approval for registration of 08 products on contract manufacturing basis.

Accordingly, the firm was asked to submit clarification for applying contract manufacturing of "Panadol Forte Suspension" at GlaxoSmithKline Pakistan Limited F-268, S.I.T.E, Karachi as they have approval for **Liquid/ Syrup Section** at their own facility. Furthermore, the firm was also asked regarding already issued registrations of tablet (general) and Topical dosage forms products on contract manufacturing basis as they hold approval for **"Tablet (General) & Semi solids/ Cream Sections"** at their own facility. In response, the firm has stated that:

"We are in phase of consolidating all our products' manufacturing at our own manufacturing unit i.e. GlaxoSmithKline CHC Pakistan Limited, Petaro Road Jamshoro, through a step wise approach to avoid capacity challenges and shortage in market. Hence, we in first phase had already applied for all liquid preparations manufacture at other facility (Pharmatec) and in next step we will move Panadol Forte Suspension too to our own manufacturing facility. Here, it is important to identify that Panadol Forte is Paracetamol Formulation for kids and in current pandemic of COVID 19 it has major role in managing fever in toddlers while transfer of manufacturing volume require a proper planning to avoid any in market shortage. Therefore, we request DRAP approval under rule 20A 1 (c) and 2 (b) to avoid any shortage in testing time we are facing currently."

Decision: **Registration Board deferred the case and advised M/s. GlaxoSmithKline Consumer Healthcare Pakistan Ltd, Jamshoro to submit timelines for provision of necessary manufacturing and testing facility at their own site for these applied and already registered products (date of registration: 17-01-2020 & 07-08-2020) as contract manufacturing under the requested rule 20A, 1(c) of Drug (Licensing, Registering and Advertising) Rules, 1976 is valid for a period not exceeding thirty months.**

Case No.18. Cancellation of Registration of Liquid Infusions of M/s YAS Chemicals, Swabi Having Volumes /Packing Other Than 100ml Glass Bottle.

Registration Board in 294th meeting (held on 9th April, 2020) advised to issue reminder to M/s Yusaf Ali Shah Chemical Industries, Swabi with respect to show cause notice issued to the firm for cancellation of registrations of following Liquid Infusions having volumes other than 100ml glass bottle (i.e., in line with previous decision of Registration Board taken in its 292nd meeting in the light of panel inspection conducted on 20-12-2018 which transpired that the manufacturing facility has capability of producing 100ml infusion in glass bottles/vials only).

Sr.No.	Reg. No.	Brand Name & Composition	Pack Size
1.	016449	Steri-Sol Dextrose 5% + Sodium Chloride 0.9% Injection Contains:- Dextrose Monohydrate…….5% Sodium Chloride …….0.9%	500ml 1000ml
2.	016450	Steri-Sol Ringers Solution Each 500ml contains: Sodium Chloride …….4.3gm Potassium Chloride ……..……0.15gm Calcium Chloride ……0.24gm	500ml
3.	016451	Steri-Sol Dextrose 5% Injection Contains:-	500ml 1000ml

		Dextrose Monohydrate …….5.5gm	
4.	016452	Steri-Sol Sodium Chloride 0.9% Injection Each 100ml contains: Sodium Chloride……0.9gm	1000ml
5.	016454	Steri-Sol Hartmanns Solution Each 500ml contains: Sodium Chloride……..……....3gm Potassium Chloride……..…0.2gm Calcium Chloride……...0.135gm Sodium Lactate……..…....2.65gm	500ml
6.	016455	Steri-Sol Dextrose 5% + Sodium Chloride 0.45% Injection Each 100ml contains:- Dextrose Monohydrate…….5.5gm Sodium Chloride…….….0.45gm	500ml
7.	016456	Steri-Sol Darrows Solution Each 100ml contains:- Sodium Chloride……..……..0.4gm Potassium Chloride……..……..0.26gm Sodium Lactate…….…….0.59gm	500ml
8.	016453	Steri-Sol Metronidazole 0.5% Injection Each 100ml contains: Metronidazole……....0.5gm Sodium Chloride……....0.85gm	100ml PVC Bag.

Accordingly, a reminder was issued to the firm vide letter dated 27-08-2020 to submit a compliance report within 07 days. However, till to date no response has been received.

Decision: Registration Board decided to cancel the registration of above mentioned products due to non-existence of requisite manufacturing facility at M/s Yusaf Ali Shah Chemical Industries, Swabi.

Case No.19. Deferred Products of M/s Hicon Pharmacuticals, Peshawar

Registration Board in its 295th meeting held on 8th-11th June, 2020 deferred the following product of M/s Hicon, Peshawar for submission of complete fee along-with requisite information/documents. Detail is given below:

S. No.	Brand Name / Label Claim	Demanded Pack Size	Demanded Price	Date of Submission	Recommendations of Me-Too Committee Ref. M-238	Remarks
I	II	III	IV	V	VI	VII
1.	Hitaline Syrup Each 5 ml contains:- Terbutaline sulphate…….0.3 mg (Beta-2 adrenergic agonist)	60 ml	As Per SRO	11-5-10	Deferred for submission of correct method of manufacturing and product specification.	RRA status: MHRA (Bricanyl 0.3mg/ml syrup) Me-Too Status: Britanyl 0.3mg/ml Syrup M/s Barret Hodgson, Karachi (R # 044255)

						The firm has submitted fee of Rs.5000/- along with Method of Manufacturing, revised Formulation & Master Formula stating that there is a typographical mistake i.e ***"Each 5ml contains: Terbutaline Sulphate 0.3mg"*** instead of ***"Each ml contains: Terbutaline Sulphate 0.3mg".***

The firm has submitted following documents:

1. Remaining Fee of Rs.15000/- (DS#0508533) dated 19-08-2020 for revision of formulation.
2. Revised form-5, Master Formulation & Outline of manufacturing method:

   Each ml contains:

   Terbutaline Sulphate…….. 0.3mg
3. Last Inspection Report for renewal of DML dated 26-07-2018, wherein the panel has recommended renewal of DML by way of formulation for following sections:
   - Tablet section (General)
   - Tablet Section (General) Antibiotics
   - Liquid Syrup Section (General)

Decision: Registration Board approved the registration of "Hitaline Syrup" with following composition i.e., in line with that of the generic product & reference/ standard product approved by Reference Regulatory Authorities:

"Each ml contains:

Terbutaline Sulphate…….. 0.3mg"

Case No.20. Registration Status of Formulations (Diclofenac Potassium 75mg & 100mg and Famotidine 10mg/5ml) not approved by Reference Regulatory Authorities & Previous Decisions Taken by the Registration Board in its 250th & 258TH Meeting.

Registration Board, in its 288th meeting held on 14th -15th February, 2019 considered the case regarding issuance of show cause notice to registration holders of Diclofenac Potassium 75 and 100mg (Ref. M-258) and current status of court cases filed by different firms against the decision of Registration Board, taken vide its 258th meeting.

Proceedings of M-288:

Registration Board, in its 248th meeting considered the request of M/s Cibex (Pvt.) Ltd Plot No. F-405, S.I.T.E, Karachi wherein it was informed by the firm that have developed their facility for manufacturing of Tablet (General), Capsule (General), Sachet (General), Tablet (General Antibiotics), Liquid Manufacturing, Capsule (General Antibiotics), Dry Syrup (General Antibiotics), Ointment-I (Steriods) and Ointment-II (Non Steriods) located at Plot No. F-405, S.I.T.E, Karachi vide Drug Manufacturing License No.000784.

The firm has requested for transfer of their following registered drugs from M/s Macter International Ltd, Karachi to their name as per following details: -

Sr. No.	Reg. No.	Brand Name(s)	Formulation / Generic Name	Date of Registration	Remarks
1.	027108	Famobex Suspension	Each 5ml contains:- Famotidine….10mg	13-06-2001	The applied formulation is not approved in SRA's
2.	039198	Catafen Tablets 100mg	Each sugar coated tablet contains:- Diclofenac Potassium…….100mg	26-05-2005	Formalities required as per Form -5 are complete

Registration Board in its 248th meeting approved the product at Sr.No.2 and deferred the product at Sr.No.1 for review of formulation.

For product at Sr.No.1 the firm has submitted that the same formulation is freely available, manufactured and marketed by multiple firms in Pakistan. These products are old registered products and were registered prior from the implementation of SRA regime. DRAP has not taken any action to withdraw this product from the market or stop its manufacturing. DRAP has also awarded price increase for same product (Al-Famot) to Ali Industries vide SRO 908(I)/2017 dated 07-09-2017, which demonstrate DRAP's intention to patronize selected companies which unfortunately is discriminating. W.r.t. product at Sr.No.2, the firm has stated that multiple companies are still manufacturing the 75mg and 100mg strength of this molecule without any hindrance from DRAP. Therefore, non issuance of registration is unconstitutional and illegal. . They have requested to grant them registration of above products.

Furthermore, the firm has submitted that "if DRAP issues registration letters of above mentioned two products, we are ready to withdraw the suit (CP Suit No.1545/2017, Cibex vs DRAP & others) filed by us against DRAP and also undertake to stop manufacturing and marketing these two products if other companies are compelled by DRAP to withdraw these products from market."

The case was deferred in 14th meeting of PRVC for deliberation in next meeting. Later on the case was reconsidered in 19th PRVC with following decision taken:

Decision of 19th PRVC:

The Committee deferred the case for presentation before registration board in next meeting with complete background, record and updated status of WP No 1695/2017 filed in Islamabad High Court Islamabad by M/s. Quaper Pharma V/S Federation of Pakistan, in the case of Diclofenec Potassium 100 mg Tablets.

Background

W.r.t above mentioned two formulations, the Registration Board has already taken following decisions:

Sr. No.	Formulation	Ref. Meeting No. of Reg. Board	Decision/Remarks
1.	Famotidine 10mg/5ml Suspension	M-250	***Remarks:*** ***Not approved by reference drug regulatory agencies. Internationally available formulation is dry powder for suspension in the strength of 40 mg/ 5 ml.*** ***(Ref: US FDA)*** **Decision:** i. Applicants shall revise their formulation as per innovator (new registration application with complete fee) within six months if manufacturing facility is approved by CLB.

			ii. For already registered drugs, same procedure as mentioned above (at Sr. No. i) shall be adopted. Otherwise show cause notice shall be issued for de-registration of registered drugs in this formulation. iii. All such application shall be processed on priority basis.
2.	Diclofenac Potassium 75mg & 100mg	M-258	**Decision:** Diclofenac Potassium is not registered in any reference country in dose more than 50mg, thus Registration Board decided to issue show cause notices to manufacturers of Diclofenac Potassium (75 and 100mg) for de-registration of these products.

In this regard, manufactures of Diclofenac Potassium 75mg & 100mg Tablets have already been issued show cause notice including following firms:

S. No	Reg. No.	Firm Name	Name of drug(s) & Composition
1.	021634	M/s Global Pharmaceuticals, Plot no.204-205, Industrial Triangle, Kahuta Road, Islamabad.	Artinil-K Tablets 75mg Each tablet contains: Diclofenac Potassium……..75mg
2.	066670	M/s. Medizan Labs. (Pvt) Ltd. P.No. 313, Industrial Triangle Kahuta Road, Islamabad	Qrelif-75 Tablets Each tablet contains: Diclofenac Potassium…….75mg
3.	027876	M/s. Valor Pharmaceuticals, 124/A Kahuta Road, Industrial Triangle Zone, Islamabad.	Vaclo-Pot Tablets Each tablet contains: Diclofenac Potassium…….75mg
4.	028340	M/s. Robins Pharmaceuticals Industries, 43, Industrial Triangle, Kahutta Road, Islamabad	Dinak Tablets Each tablet contains: Diclofenac Potassium…….75mg
5.	031800	Technovision Pharmaceuticals 295-Industrial Triangle, Kahuta Road.	Ketagesic-75 Tablets Each tablet contains: Diclofenac Potassium…….75mg
6.	037415	Makson Pharmaceuticals Plot No.80-B, Street No.6I-10/3, Industrial Area Islamabad	Makaid-K 75Mg Tablets Each tablet contains: Diclofenac Potassium…….75mg
7.	056845	Webros Pharmaceuticals, Plot # 1, Street # 10, RCCI Industrial Estate, Rawat, Islamabad	Deltaflam Tablets 75mg. Each Tablet Contains :- Diclofenac Potassium.....75mg.
8.	038437	Pearl Pharmaceuticals, Plot No.204, Street No.1, I-10/3, Islamabad	Phlodic-K Each Tablet Contains :- Diclofenac Potassium.....75mg.
9.	024333	Candid Pharmaceutical, Opposite Pasrur Suagr Mills Sialkot Road, Pasru	Kalfen Tablets Each tablet contains:- Diclofenac Potassium.....75mg
10.	047860	M/s. Wise Pharmaceuticals, Plot no.3-A, S-1, RCCI Industrial Estate, Rawat, Islamabad.	Achex-75mg Tablets Each film coated tablet contains: Diclofenac Potassium.....75mg
11.	049385	M/s shawan Pharmaceuticals, Plot no.37, road NS-1, National Industrial Zone Rawat Islamabad	Lofen Tablets Each tablet contains: Diclofenac Potassium.....75mg

12.	043655	Miracle Pharmaceuticals (Pvt.) Ltd. Pharmaceuticals (Pvt) Ltd	Marinac-P 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
13.	043987	M/s Neomedix Pharmaceuticals, Islamabad	Neofenik- 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
14.	037574	M/s Vision Pharmaceuticals, Islamabad	Deflam 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
15.	038553	M/s Glitz Pharmaceuticals, Islamabad	Glif-K 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
16.	050019	M/s Caraway Pharmaceuticals, Islamabad	Carafenac-P 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
17.	050107	M/s Harrison Pharmaceuticals, Islamabad	Diclokam-K 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
18.	050953	M/s Leads Pharma, Islamabad	Diclosoft-K 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
19.	052552	M/s Panacea Pharmaceuticals, Islamabad	Tasilex 75 Tablets Each tablet contains:- Diclofenac Potassium 75mg
20.	052727	M/s Paramount Pharmaceuticals, Islamabad	Ronset SRTablets Each tablet contains:- Diclofenac Potassium 75mg

Status of WP No 1695/2017

M/s. Quaper Pharmaceuticals (Pvt) Limited, Sargodha has filed a Writ Petition in Islamabad High Court Islamabad v/s Federation of Pakistan, Drugs Registration Board etc against issuance of show cause notice in the case of Diclofenec Potassium 75mg Tablets. The case was heard on 30-05-2017and adjourned.

Decision of M-288: **Registration Board decided that all registration holders of "Diclofenac Potassium 75mg & 100mg" shall be called for personal hearing.**

Current Status of WP No 1695/2017 (Ref. M-295):

The Islamabad High Court, Islamabad dismissed the application of M/s. Quper Pharma, Sargodha vide its orders dated 29-01-2020 being without merit. Registration Board in its 295th meeting deliberated on the matter in details and decided to give an opportunity of personal hearing as per Drug Act, 1976 and Rules framed there under to all the firms who have registration of Diclofenac Potassium 75mg & 100mg in forthcoming meeting of Registration Board.

Decision taken by DRAP's Authority in its 70th meeting held on 05-09-2019:

For formulations containing "drugs" which were previously registered by the Registration Board and have proof of availability and prescription of last 10 years but are not available in the Reference Regulatory Authorities shall continue to be considered/ registered as drugs until and unless withdrawn on Safety, Efficacy and Quality reasons.

Draft List of Registered Products Containing Diclofenac Potassium 75mg & 100mg

Sr.No.	Reg. No.	Brand Name & Composition	Reg. Holder

1.	023973	Fen-K SR Tablet 100mg Diclofenac Potassium…100mg	Pakheim International Pharma (Pvt) Ltd., 28 Km Ferozepur Road Lahore., Lahore
2.	030960	Artimov-K Tablets 100mg Diclofenac Potassium …..100mg	Barrett Hodgson Pakistan (Pvt) Ltd., F/423 SITE Karachi., Karachi
3.	031178	Mediflam SR 100mg Tablets Diclofenac Potassium……100mg	Mediceena Pharma (Pvt) Ltd., 27 Km Raiwind Road Lahore, Lahore
4.	038450	Kaldic Tablet Each tablet contains:- Diclofenac Potassium 100mg	Mass Pharma (Pvt) Ltd., 17 Km Ferozpur Road Lahore., Lahore
5.	039198	Catafen 100 Tablets Diclofenac Potassium…..100mg	
6.	039800	Noafilm Tablet 100mg DiclofenacPotassium…...100mg	Noa Hemis Pharmaceuticals, Plot No. 154 Sector 23 Korangi Industrial Area Karachi. , Karachi
7.	042985	Movom-P Capsule 100mg DiclofenacPotassium (enteric coated granules)…100mg	Nenza Pharmaceuticals (Pvt) Ltd., 33-A Hayatabad Industrial Estate Peshawar. , Peshawar
8.	047294	Dic-P 100mg Tablets Each tablet contains Diclofenac Potassium……100mg	Uni-Tech Pharmaceuticals (Pvt) Ltd., Plot No. 4/116 Sector 21 Korangi Industrial Area Karachi. , Karachi
9.	052727	Ronset SR Tablets. Diclofenac Potassium……100mg	Paramount Pharmaceuticals, 36 Industrial Triangle, Kahuta Road Islamabad., Islamabad

Proceedings of 296th Meeting:

The Board discussed the case at length that the above formulations are registered since long. As per available record and reviewing of information available at websites of RRAs, no data regarding their safety and efficacy is available in such strengths/dosage forms, so continuity of these formulations is not justifiable. Furthermore, scrutiny of data revealed that there also exists a number of formulations, which were never approved in the strengths currently registered in the country, while, others have strengths identical to that approved by reference regulatory authorities but have different dosage forms.

Board emphasized the significance of recognition of RRAs as adopted by it since long. RRAs includes robust regulatory authorities of world like US-FDA, EMA, Health Canada, TGA Australia etc. etc. The concept of reliance on decisions of reference regulatory authorities assure the safety, efficacy, and quality of medicines. This reliance enables to have evidence for robust and accurate decision-making, considering that the products registered and sold in the countries of reference regulatory authorities fulfil the harmonized standards of safety, efficacy and quality as adopted by WHO, ICH, etc. This reliance also enables the national regulatory authority for post marketing surveillance particularly related to safety and efficacy issues. Reference regulatory authorities have stronger reporting and information sharing system, which can be used by national regulatory authorities as a useful tool for surveillance, new available treatments and new indications or contraindications.

It was also discussed that certain formulations were previously approved by reference regulatory authorities but later on withdrawn due to following reasons:

- Commercial/ marketing issues.
- Safety concerns.

In this context, all members endorsed the above stated facts and shared their views on the subject matter, which have been consolidated as under:

- Policies/ practices adopted by different countries regarding such formulations were discussed and it was concluded that it is reasonable to continue with such formulations in those countries, which have a well-developed regulatory system for reporting of adverse events and addressing of safety issues. While, there also exists examples of countries where a number such

formulations have been withdrawn. However, in current health care system working in our country, safety cannot be established as ADRs reporting system is not well anchored.

- Once a product is discontinued in reference regulatory authorities due to safety reasons, the information regarding its label/ patient information leaflet (PIL), medical literature, clinical use, route of administration, dosage, storage conditions of finished products and type of container closure system/packaging material etc will not be available as a reference/ standard to be adopted by a local manufacturer, which is required as per conditions of registration.
- If a product has no evidence of availability/ approval in the Reference Regulatory Authorities or it was available in the past but now withdrawn due to marketing/ commercial etc. issues and not because of safety reasons.
- Therefore, there is a need to resolve the issue by taking administrative measures/ decision. Furthermore, all such cases need to be evaluated/ decided on case to case basis considering scientific grounds, therapeutic equivalencies and pharmacodynamic aspects provided that the strength remains same as available/ approved in reference regulatory authorities. In this regard, a working group may be created having members from Registration Board with relevant specialty and stake holders.

Decision: **Registration Board deliberated the case in the light of above stated facts / opinions and decided as under:**

i. **Since, all such formulations which are not approved by the Reference Regulatory Authorities; the safety and efficacy profile cannot be established in the absence of a well-established system for reporting of adverse events, so a reference shall be forwarded to DRAP's Authority with the request to review the decision taken in its 70th meeting held on 05-09-2019. In this regard, PE&R Division shall prepare a comprehensive document/agenda for consideration of Authority, keeping in view the practices adopted by RRA for all such formulations;**

ii. **For all those formulations which are registered/ applied in strengths, different from those approved by reference regulatory authorities, the registration holders/ applicants shall standardize their formulations (by submitting registration application with requisite fee, provided that the firm did not have same registration) in line with those approved by reference regulatory authorities. In this regard, recommendation shall be forwarded to DRAP's Authority to exempt all such cases/applications for standardization of formulation to be submitted on Form-5F/CTD format as notified vide SRO 713(I)/2018 dated 09-06-2018.**

iii. **Drug products withdrawn from RRA due to any commercial reason shall be considered for registration by Registration Board.**

iv. **Vitamin-mineral formulations will be considered as per vitamin policy approved by Policy Board and further adopted by Registration Board in its 295th meeting.**

Case No.21. De-Registration of Darcin Capsule of M/s Bloom Pharmaceuticals (Pvt) Ltd, Hattar

M/s Bloom Pharmaceuticals (Pvt) Ltd, Plot No. 30, Phase I & II Industrial Estate Hattar has applied for de-registration of their following registered product.

S/N	Reg.No.	Brand name and composition	Justification	Alternate Brands/ Registration Holders submitted by the firm.	Date of Registration & Last Renewal Status
1.	077486	Darcin-250mg Capsules Each capsule contains:- Azithromycin dihydrate ≡ Azithromycin……250 mg (USP Specification)	The product was registered on 08-11-2013 but the renewal was delayed & product was not renewed with differential fee. Due to this the firm has applied new registration of the product which is approved in 295th meeting of Registration Board.	Not provided	08-11-2013

In the light of SOP approved vide 283rd meeting, the firm has submitted following documents:

a. Copy of Registration Letter & Last Renewal Status.
a. Justification.

Following documents have not been submitted by the firm:

a. List of alternate brands available in the country.
b. An Undertaking that:
    i. No case is pending at any forum/ court of law regarding above mentioned products.
    ii. Provided information/ documents are true/ correct.

Decision: **Registration Board acceded to the request of M/s Bloom Pharmaceuticals (Pvt) Ltd, Hattar for de-registration of "Darcin-250mg Capsule" (R#077486) due to non-submission of renewal application within due date. Furthermore, the firm shall submit undertaking in the light of SOP approved vide 283rd meeting of Registration Board.**

Case No.22. Cancellation of Registration of Registered Products of M/s Pakistan Pharmaceutical Products, (Pvt) Ltd., Karachi

M/s Pakistan Pharmaceutical Products, (Pvt) Ltd., D-122, Sindh Industrial Trading Estate, Karachi has applied for de-registration of their following registered products:

S/N	Reg.No.	Brand name and composition	Justification	Alternate Brands/ Registration Holders submitted by the firm.	Date of Registration & Last Renewal Status (provided by the firm)
	004017	Oxymycin Capsule 250mg Oxytetracycline	No market demand as very old molecule	Not provided	03-05-1978 Last renewed on 03-05-2008 for further period.
	012097	Erin Tablet Each tablet contains: Ethambutal….300mg Rifampicin….150mg INH……..…75mg	Out dated combination- No market demand	Not provided	26-12-1990 Last renewal submitted on 27-11-2010
	007393	Okasa Tablet Each tablet contains: Methyl Testosterone…5mg Yohimbine HCl……3.5mg Strychnine Glycerophosphate….0.3mg Callcium Glycerophosphate….7mg Vitamin E…….2.5 mg Caffeine……..15mg	Company does not have Hormone Section.	Not provided	27-05-1994 Last renewed on 27-05-2014 for further period.
	005918	Chlorpromazine Tablets 25mg	No market demand as very old molecule	Not provided	18-04-1982 Last renewal submitted on 10-04-2017
	005420	Tetracycline Capsule 250mg	No market demand as very old molecule	Not provided	29-07-1980 Last renewal submitted on 05-07-2010

In the light of SOP approved vide 283rd meeting, the firm has submitted following documents:

b. Copy of Registration Letter & Last Renewal Status.
b. Justification.
c. An Undertaking that:
   i. No case is pending at any forum/ court of law regarding above mentioned products.
   ii. Provided information/ documents are true/ correct.

Following documents have not been submitted by the firm:

a. List of alternate brands available in the country.

Decision: Registration Board referred to Drug's availability committee for their evaluation and comments.

Case No.23. License Withdrawal of Registered Products of M/s Sanofi Aventis Pakistan Ltd., Karachi

M/s Sanofi Aventis Pakistan Ltd., Plot No.23, Sector No.22, Koramgi Industrial Area, Karachi has applied for withdrawal of registration license of their following registered products:

S/N	Reg.No.	Brand name and composition	Justification	Alternate Brands/ Registration Holders submitted by the firm.	Date of Registration & Last Renewal Status (provided by the firm)
1.	017264	Lactacyd Liquid Each 100ml contains: Lactoserum Spray Dried…0.930gm Lactic Acid…..1gm Ammonium and Triethanolaminealkylsulphates…..18gm	➢ The product is a daily feminine hygiene wash to maintain the physiological equilibrium of the mucosa. ➢ The decision is not related to safety, quality and efficacy of the product. ➢ The product is not in essential drug list of Pakistan, whereas similar products are freely available in the market.	Not provided	18-04-1995 (in the name of M/s Searle, Karachi) Transfer of registration to M/s Sanofi-Aventis, Karachi dated 02-10-2007 Last renewal submitted on 04-08-2016
2.	070435	Gastrolyte Fruit Sachet Each Sachet of 4.885gms contains: Sodium Chloride…0.47gm Potassium Chloride…0.3gm Sodium acid Citrate….0.53gm Dextrose Monohydrate…3.56gm Silicon Dioxide (Aerosil)….0.009gm	➢ The decision is not related to safety, quality and efficacy of the product. ➢ A Number of alternative are freely available in the market.	➢ Paedicare by M/s Woodwards ➢ Peditral by M/s The Searle Company ➢ Osmolar by M/s Atco Laboratories	22-04-2011 Last renewed submitted on 25-03-2016.
3.	070436	Gastrolyte Rice Sachet Each Sachet of 7.45gms contains: Rice Powder…….6gm Sodium Citrate….0.58gm Sodium Chloride…0.35gm Potassium Chloride…0.30gm			

		HPMC (Pharmacoat 606)……..…0.36gm			
4.	070437	Gastrolyte Orange Sachet Each Sachet of 5.177gms contains: Sodium Chloride…0.47gm Potassium Chloride…0.3gm Sodium acid Citrate….0.53gm Dextrose Monohydrate…3.56gm Silicon Dioxide (Aerosil)….0.009gm			

In the light of SOP approved vide 283rd meeting, the firm has submitted following documents:

a. Copy of Registration Letter & Last Renewal Status.
c. Justification.
d. An Undertaking that:
   i. No case is pending at any forum/ court of law regarding above mentioned products.
   ii. Provided information/ documents are true/ correct.

Following documents have not been submitted by the firm (for products at S.No.1):

a. List of alternate brands available in the country.

Decision: Registration Board referred to Drug's availability committee for their evaluation and comments.

Case No.24. Intimation for Discontinuation of Production of Marketed Products of M/s Getz Pharma (Pvt) Ltd., Karachi

M/s Getz Pharma (Pvt) Ltd., 29-30/27, Korangi Industrial Area, Karachi has intimated regarding discontinuation of production of their following marketed products under Rule 30 of Drugs (L,R&A) Rules, 1976 which states to intimate Registration Board about the circumstances which may lead to reduction in the production of drug and may result in its shortage.

S/N	Reg. No.	Brand Name and Composition	Justification
1.	061706	Cinita Tablet Each tablet contains:- Cinitapride (as acid tartarate) ..1mg	Demand of product is far lesser than the minimum batch quantity of the product, which can be manufactured on the equipment.
2.	075965	Cipesta XR 500mg Tablet Each extended release tablet contains: Ciprofloxacin: 500mg	

Decision: Registration Board referred to Drug's availability committee for their evaluation and comments..

Case No.25. Withdrawal of De- Registration Request for Products of M/s GSK Pakistan Limited, Karachi.

M/s GSK Pakistan Limited, Karachi has requested for withdrawal of their previously submitted request for de-registration of their following registered products.

S. No.	Reg.No.	Brand name and composition	Justification Submitted by the Firm	Date of Registration & Last Renewal Status Provided by the firm	Remarks
I	II	III	IV	V	VI
1.	009574	Capozide Tablet 50mg Each tablet contains: Captopril…….50mg Hydrochlorothiazide….25mg	Based on revised commercial decision the firm has decided to retain these products/ licenses. These products currently have valid licenses.	26-02-1987 17-09-2015	Case for de-registration was considered in M-286 and referred to DRAP's Committee for availability of drugs for its opinion.
2.	004035	Tagamet Tablet 200mg Each tablet contains: Cimetidine……200mg		03-05-1979 14-12-2018	
3.	006364	Tagamet Tablet 400mg Each tablet contains: Cimetidine……400mg		18-05-1982 08-08-2018	
4.	089270	Tagamet Injection Each 2ml contains: Cimetidine HCl….200mg		06-06-2018	Applied for de-registration on 29-01-2018

Decision: Registration Board referred the matter to Legal Affair Division for their comments on firm's request.

Case No.26. Request for change in Registration Status of Product from M/s Barrett Hodgson, Karachi to M/s Martin Dow Marker Limited, Quetta.

M/s Martin Dow Marker Limited, 7, Jail Road, Quetta has requested for change in registration status of Toradol Injection, Ketorolac Tromethamine 30mg/ml (R#015000) from M/s Barrett Hodgson, F/423, S.I.T.E., Karachi to their name. Detail is given as under:

1.	**Name, address of Applicant / Marketing Authorization Holder**	**Martin Dow Marker Limited**
	Name, address of Manufacturing site.	Martin Dow Marker Limited, 7, Jail Road, Quetta, Pakistan.
	Status of the applicant	☒ **Manufacturer** ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ **Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☒ **Domestic sale** ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 8813 (R&I) dated 23-04-2020
	Details of fee submitted	PKR 20,000/-: 26-11-2019
	The proposed proprietary name / brand name	**Toradol Injection 30mg/ml**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	"Each 1ml ampoule contains: Ketorolac Tromethamine…..…30mg"
	Pharmaceutical form of applied drug	Parentral (Injection)
	Pharmacotherapeutic Group of (API)	Acetic Acid Derivative and related Substances ATC Code: M01AB15
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	Health Canada approved Ketorolac Tromethamine Injection
	For generic drugs (me-too status)	K-Dol (Akson Pharmaceuticals) Reg. No. 060042
	Name and address of API manufacturer.	M/s. Satyadivis Pharmaceuticals Pvt. Ltd., Survey No. 10, Gaddapotaram Village, Khazipally Indl. Estate, Jinnaram Mandal, Sangareddy Dist.-502 319. Telangana State INDIA. Tel. +91-8458-277227
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS –PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated (40˚C ± 2˚C / 75% ± 5%RH) and real time (25˚C ± 2˚C / 60% ± 5%RH) conditions
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence	The firm has submitted results (of all the quality tests (mentioned in USP) and comparison of Toradol lnjection 30mg/ml, Batch No. C0525 manufactured by Barret Hodgson Pakistan (Pvt.) Ltd. and Toradol lnjection 30mg/ml, Batch No. 1DF manufactured by Martin Dow Marker Ltd. Test results of this study found satisfactory, comparable and within specifications.
	Analytical method validation/verification of product	Firm has submitted analytical method verification data.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions

3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Applicant has submitted copy of commercial Invoice having following information Invoice No: U05/17-18/776 dt:10-10-17 ADC Attested Invoice dated: 19-10-2017 Quantity: 20 Kg Batch No. 1705205096-10kg Batch No. 1705205135-10kg
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATORS

The firm has submitted following information/ documents in the light of SOP approved in 283rd meeting of Registration Board:

1. Copies of initial letter of registration and renewal status.
2. Copy of last GMP inspection report of M/s Stallion dated 16-09-2019 (**Satisfactory** Level of Compliance).
1. Approval of "Dry Powder Injection Vial (Carbapenem) Section" of M/s Stallion issued by Licensing Division vide letter dated 08-02-2016.
3. NOC from Hilton Pharma (Pvt) Ltd., Plot No.13 & 14, Sector 15, Korangi Industrial Area, Karachi dated 10-02-2020.
4. Copy of Contract Agreement.

M/s Stallion has further informed that:

They will contract with M/s Renacon Pharma Ferozpur Road, Lahore, for the analysis of Na Content in Meropenem injection. In future, they will proceed with them or may arrange AAS for their laboratory.

ii. MOPEN Injection 1g

1.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Healthtek (Pvt.) Limited. Plot No. 14, Sector 19, Korangi Industrial Area Karachi
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd., 581-Sundar Industrial Estate, Lahore
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) **☒ Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 8188 (R&I) dated 20-04-2020
	Details of fee submitted	PKR 50,000/-: 20-04-2020
	The proposed proprietary name / brand name	MOPEN Injection 1g
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Meropenem (as Meropenem Trihydrate)……1g
	Pharmaceutical form of applied drug	Dry Powder For Injection
	Pharmacotherapeutic Group of (API)	Broad Spectrum Carbapenem Beta Lactam Antibiotics
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	Approved in FDA (MERREM 1g Injection M/s. AstraZeneca USA) Approved in EMA (MERONEM 1g Injection M/s. Pfizer UK)
	For generic drugs (me-too status)	PENRO IV 1g Injection M/s, Bosch Pharma
	Name and address of API manufacturer.	M/s AUROBINDO Pharma, India. Unit-V. Plot No. 68-70, 79-91, 95,96,260,261, I.D.A, Pashamylaram, Sangareddy Dist. Telangana State, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS –PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form,

		manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated (40˚C ± 2˚C / 75% ± 5%RH) and real time (25˚C ± 2˚C / 60% ± 5%RH) conditions
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence	The firm has submitted results (of all the quality tests (mentioned in USP) and comparison of Merostin Injection, Batch No. U0003 manufactured by M/s Stallion and Meronem Injection, Batch No. 4A19J15 of M/s Pfizer. Test results of this study found satisfactory, comparable and within specifications.
	Analytical method validation/verification of product	Firm has submitted analytical method verification data.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions.

M/s Stallion has further informed that:
They will contract with M/s Renacon Pharma Ferozpur Road, Lahore, for the analysis of Na Content in Meropenem injection. In future, they will proceed with them or may arrange AAS for their laboratory.

Remarks of RRR Section regarding Renewal Status:

Renewal application of year 2019 received on 31-12-2019 while due date was 30-12-2019 under Rule 27 of Drugs (L, R &A) Rules,1976. Therefore, renewal was received late but within 60days. Firm has submitted late fee of Rs. 60000 dated 28-07-2020 vided challan No. 2032362 (Mopen 500mg) & 2032363 (Mopen 1gm).

Proceedings of M-296:

The Board was apprised that in addition to above mentioned remarks following observations have been recorded while evaluation:

i. Provided stability studies of API have not been performed as per conditions of Zone-IV-A.
ii. The firm has submitted formulation development studies, batch analysis reports and stability studies (regardless of stating API Lot No.) which were performed in 2016 while developing their registered

product (Merostin Injection). However, as evidence for procurement of API, the firm has submitted AD attested invoice dated 10-10-2017. Therefore, complete trail couldn't be established.

iii. The firm has informed that analysis at that time was performed on manual HPLC that is why audit trail reports are not available for analysis performed before Januray, 2016.

iv. Analytical method verification studies of API and FPP (at that time) were not performed in line with the requirements (explanatory notes) set in 293rd meeting of Registration Board.

v. Compatibility studies of drug product with reconstitution diluent(s) have not been submitted.

Decision: Registration Board deferred the case for following;

a. Review of application as per decision of Registration Board in 293rd meeting.

b. Submission of stability studies of active substance (API) as per conditions of Zone IV-A or/otherwise submission of requisite information/ documents as already decided by the Board in its 290th meeting under "Requirement of The Storage Conditions for The API Stability and FPP Stability".

c. submission of requisite information/ documents (as detailed above under proceedings of M-296)

Case No.28. Validity of Products Registration of M/s Alen Pharmaceuticals (Pvt) Ltd., Risalpur

Mr Zia Ullah, AD/FID-III, DRAP Peshawar, has informed (vide letter dated 03-02-2020) that during routine GMP inspection of M/s Alen Pharmaceuticals (Pvt) Ltd. 138, Nowshera Industrial Estate, Risalpur on 23-12-2019, it has been observed that apparently some of the registered products of the firm do not comply the Drugs (L, R & A) Rules, 1976, because the firm failed to provide registration renewal applications submitted within stipulated period for these products.

It has, therefore, been requested that validity of registration of those products for which the initial validity period has elapsed, may be evaluated as per law.

Detail of products as tabulated from registration letter copies provided by the firm at the time of inspection along-with remarks of RRR section regarding renewal status has been placed as under:

S.#	Name of Products	Reg.#	Letter No. & Date of Registration	Remarks of RRR Section
1.	Alendol Tablets 200mg	041038	F.13-3/2005-Reg-II-(M-191), Dated 08/08/2005	Renewal application of product is received within due date under Rule 27 L,R & A Rules, 1976.
2.	Alenprol Tablets 40mg	076891	F.13-1/2013-Reg-IV-(M-237), Dated 20/05/2013	Renewal application of product is received late but within 60 days. In this regard, additional fee & regularization by the RB is required.
3.	Dicgesic-K Tablets 75mg	076892	F.13-1/2013-Reg-IV-(M-237), Dated 20/05/2013	Renewal application of product is received late but within 60 days. In this regard, additional fee & regularization by the RB is required.
4.	Alencip Tablets 250mg	076893	F.13-1/2013-Reg-IV-(M-237), Dated 20/05/2013	Renewal application of product is received late but within 60 days. In this regard, additional fee

				& regularization by the RB is required.
5.	Alencip Tablets 500mg	076894	F.13-1/2013-Reg-IV-(M-237), Dated 20/05/2013	Renewal application of product is received late but within 60 days. In this regard, additional fee & regularization by the RB is required.
6.	Alenoliv Tablets 500mg	076895	F.13-1/2013-Reg-IV-(M-237), Dated 20/05/2013	Renewal application of product is received late but within 60 days. In this regard, additional fee & regularization by the RB is required.
7.	S. Alen Capsule 40mg	078513	F.13-2/2014-Reg-IV (M-242), Dated 25/04/2014	Received after expiry (01 year late) i.e., invalid under Rule 27 L,R & A Rules, 1976.
8.	Alenolive Tablets 250mg	078509	F.13-2/2014-Reg-IV (M-242), Dated 25/04/2014	Received after expiry (01 year late) i.e., invalid under Rule 27 L,R & A Rules, 1976.
9.	A-Mycin Tablets 250mg	078510	F.13-2/2014-Reg-IV (M-242), Dated 25/04/2014	Received after expiry (01 year late) i.e., invalid under Rule 27 L,R & A Rules, 1976.
10.	A-Mycin Tablets 500mg	078511	F.13-2/2014-Reg-IV (M-242), Dated 25/04/2014	Received after expiry (01 year late) i.e., invalid under Rule 27 L,R & A Rules, 1976.
11.	Locsim Tablets 400mg	078512	F.13-2/2014-Reg-IV (M-242), Dated 25/04/2014	Received after expiry (01 year late) i.e., invalid under Rule 27 L,R & A Rules, 1976.
12.	Fanlo Tablet 40mg	032446	F.3-1/2004-Reg-II-(M-182), Dated 05/08/2004	Found in the available record, with similar Reg. No. (Duplicate with Polyfine Chempharma but different product name)
13.	Zinclo Tablet 10mg	032447	F.3-1/2004-Reg-II-(M-182), Dated 05/08/2004	Found in the available record, with similar Reg. No. (Duplicate with Polyfine Chempharma but different product name)
14.	Dictasium Tablet 50mg	032448	F.3-1/2004-Reg-II-(M-182), Dated 05/08/2004	Found in the available record, with similar Reg. No. (Duplicate with Polyfine Chempharma

				but different product name)
15.	Alenmol Tablets	077487	F.11-3/2013-Reg-IV (M-218), Dated 08/11/2013	Not found in available record of RRR Section.
16.	I-Mec Tablets 6mg	078421	F.13-3/2013-Reg-IV-(M-239), Dated 13/12/2013	Not found in available record of RRR Section.
17.	Asterdic Tablets 75mg	043358	F.13-1/2006-Reg-II-(M-195-A), Dated 12/9/2006	Not found in available record of RRR Section.
18.	Alenzole Capsule 30mg	034733	F.3-2/2004-Reg-II-(M-183), Dated 01/12/2004	Not found in available record of RRR Section.
19.	Dolint Tablet 15mg	034399	F.3-4/2004-Reg-II-(M-186), Dated 19/11/2004	Not found in available record of RRR Section.
20.	Alenprox Dispersible Tablets 20mg	034489	F.3-4/2004-Reg-II-(M-186), Dated 19/11/2004	Not found in available record of RRR Section.
21.	Hypotec Tablet 10mg	027758	F.3-2/2002-Reg-II-(M-170), Dated 06/06/2002	Not found in available record of RRR Section.
22.	Panex Tablets 20mg	027759	F.3-2/2002-Reg-II-(M-170), Dated 06/06/2002	Not found in available record of RRR Section.
23.	Vermit Tablets 500mg	025808	F.3-4/2000-Reg-II-(M-153), Dated 18/05/2000	Not found in available record of RRR Section.
24.	Norex Tablets	025809	F.3-4/2000-Reg-II-(M-153), Dated 18/05/2000	Not found in available record of RRR Section.
25.	Durafenic Tablets 50mg	023702	F.3-7/2001-Reg-II-(M-164), Dated 24/08/2001	Not found in available record of RRR Section.
26.	Ibufer Tablets 400mg	026395	F.6-26/2000-Reg-II(AB), Dated 04/01/2001	Not found in available record of RRR Section.
27.	DIA-STILL Tablets 500mg	003174	F.3-5/97-Reg-II (M-127), Dated 23/09/1997	Not found in available record of RRR Section.
28.	Vitamax H Capsule	001704	F.3-5/97-Reg-II (M-127), Dated 23/09/1997	Not found in available record of RRR Section.
29.	Vitamax Forte C Capsules	002789	F.3-5/97-Reg-II (M-127), Dated 23/09/1997	Not found in available record of RRR Section.
30.	Vitamax F Tablets	038435	F.3-5/2004-Reg-II (M-186), Dated 26/05/2005	Not found in available record of RRR Section.
31.	Alendin Tablet	037496	F.3-7/2004-Reg-II (M-188-A), Dated 02/03/2005	Not found in available record of RRR Section.
32.	Alenpra Capsule	037497	F.3-7/2004-Reg-II (M-188-A), Dated 02/03/2005	Not found in available record of RRR Section.
33.	Al-One 1gm Injection	050416	F.3-1/2008-Reg-II-South (M-212), Dated 08/08/2008	Not found in available record of RRR Section.
34.	H-Caver Tablets 0.5mg	078508	F.13-2/2014-Reg-IV (M-242), Dated 25/04/2014	Not found in available record of RRR Section.

Decision: **Registration Board referred the case to RRR section for further processing at their end in the light of SOPs.**

Additional Agenda Minutes

Case No.01. Request for Change in Registration Status of Product from M/s Swat Pharmaceuticals to M/s Wahabsons Pharma (Pvt) Ltd. Swat Through Contract Manufacturing at M/s EG Pharmaceuticals, Islamabad.

M/s Wahabsons Pharma (Pvt) Ltd. Swat has requested for change in registration status of Soxime Capsule (Cefixime as Trihydrate 400mg) (R#060128) from M/s Swat Pharmaceuticals, Swat (existing contract manufacturer: M/s Biorex Pharmaceuticals, Islamabad) to their name through contract manufacturing at M/s EG Pharmaceuticals, Islamabad. Detail is given as under:

1.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Wahab sons pharma Pvt Ltd 4km Buner Road Barikot Swat
	Name, address of Manufacturing site.	EG Pharmaceuticals 13A Industrial Triangle, Kahuta road Islamabad
	Status of the applicant	☐ Manufacturer ☐ Importer ✓☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ✓☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	✓☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.2942 : 27-02-2020
	Details of fee submitted	PKR 50,000/-: 25-02-2020
	The proposed proprietary name / brand name	**Soxime Capsules 400mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	"Each Capsule Contains: Cefixime (as Trihydrate)…….400mg
	Pharmaceutical form of applied drug	Capsules
	Pharmacotherapeutic Group of (API)	Third Generation Cephalosporin
	Reference to Finished product specifications	JP specification
	Proposed Pack size	5's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Approved by FDA
	For generic drugs (me-too status)	Fixval Capsule (R#067071) of M/s GSK, Karachi
	Name and address of API manufacturer.	SAAKH PHARMA (Pvt)Ltd C-7/1,NWIZ,Port Qasim Karachi
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS –PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification,

		reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated and real time conditions
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has also submitted results of comparative dissolution profile of their product with Fixval Capsule of M/s GSK. Firm has performed CDP in 0.1 N HCl, buffer pH 4.5 and phosphate buffer pH 6.8. Firm also calculated factor f2 which was above 50. The firm has submitted results and comparison of Fixval Capsule, manufactured by M/s GSK and Ficx Capsule of M/s EG. Test results of this study found satisfactory, comparable and within specifications.
	Analytical method validation/verification of product	Firm has submitted analytical method validation data.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions

STABILITY STUDY DATA

Manufacturer of API	SAAKH PHARMA (Pvt)Ltd C-7/1,NWIZ,Port Qasim Karachi		
API Lot No.	18CF10131,18CF10111,18CF10039		
Description of Pack (Container closure system)	Alu-Alu blister in unit carton		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
#	**Documents To Be Provided**	**Status**
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	• Copy of GMP certificate 039/2019-DRAP (K) issued by the DRAP has been submitted. Which is valid up to 03-01-2020
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	**N/A** As API Purchased from Saakh Pharma (Pvt)Ltd C-7/1,NWIZ, Port Qasim Karachi
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

The firm has submitted following information/ documents in the light of SOP approved in 283rd meeting of Registration Board:

1. Copies of initial letter of registration and renewal status/ extension in permission of contract manufacturing valid upto 30.06.2020.
2. Copy of last Panel inspection report for renewal of DML of M/s EG dated 13-02-2019 as evidence of approval of "Cephalosporin Capsule Section" and GMP compliance.
3. NOC from M/s Swat Pharmaceuticals, Swat dated 25-02-2020.

The firm was asked to submit compatibility studies of the Drug Substance(s) with excipients shall be as the qualitative composition of the applied formulation was not similar to reference product. In response the firm has submitted revised composition i.e., qualitatively in line with that of reference product.

Decision:

i. **Cancellation of registration of Soxime Capsule (R#060128) from the name of M/s Swat Pharmaceuticals, Saidu Sharif, Amankot, Swat.**
ii. **Approved registration of Soxime Capsule in the name of M/s Wahabsons Pharma (Pvt) Ltd., 4KM, Buner Road, Barikot Swat through contract manufacturing at M/s EG Pharmaceuticals, 13-A, Industrial Triangle, Kahuta Road, Islamabad.**
iii. **Reference will be sent to Costing & Pricing Division for confirmation of maximum retail price (MRP).**

Case No.1 Registration of Drug M/s. Allmed Pvt. Ltd; Lahore

Registration Board in its 229th meetings as mentioned below decided registration application of M/s. Evergreen, Lahore: -

S.No.	Name of Drug(s)	Demanded MRP	Decision of RB	Meeting reference
1.	Benajel Tablet Each tablet contains:- Sevelamer hydrochloride ….800mg (Phosphate binding)	As per SRO	Deferred for expert opinion	229th meeting

Later on, title of the firm has been changed to M/s. Allmed Pvt. Ltd, Lahore and they have submitted following documents.

They have submitted following documents and requested to grant them registration of above product:-

i. Duplicate dossier.
ii. Copy of Form-5.
iii. Firm has submitted photocopy of fee of Rs. 8000/- submitted by M/s. Evergreen Pharma and fresh submission of Rs.12000/- by M/s. Allmed Pvt.
iv. Change of company name letter from M/s. Evergreen to M/s. Allmed dated 26-03-2011.

Decision: Registration board deferred the case for submission of differential fee of Rs.8000/-.

Case No.2 Deferred cases of M/s Aptcure, Lahore.

Registration Board in its 229th meeting deferred the following products of M/s Aptcure, Lahore as follows:-

S. No.	Name of Drug(s)	Fee, Form and demanded Pack size	Decision of 229th meeting of the Board	Remarks
1.	Flomax Tablets Each film coated tablet contains:- Moxifloxacin B.P (as hydrochloride)……400mg (Quinolones(anti-biotics)	1x5's As per SRO	Deferred for GMP & product specific inspection	MHRA Approved The firm was inspected on 24-11-2017 for renewal of DML and conclusion of inspection was: In the light of inspection conducted by panel and based on the findings, the panel of inspectors recommends grant of renewal of drug manufacturing license by way of formulation of M/s Aptcure (Pvt) Ltd., 30km Multan Road Lahore for the following sections. a) Tablet (General) Section b) Capsule (General) Section

The firm has provided copy of inspection report 24-11-2017 and requested to grant them registration of above products. Firm has submitted fee of Rs. 20,000/- dated 02-03-2020.

Decision: - Registration Board approved registration of above product in the name of M/s. Aptcure, Lahore.

Case No.3 Registration of Drugs M/s Harmann Pharmaceuticals Laboratories Pvt. Ltd. Lahore

Registration Board in its 270th deferred for clarification regarding confirmation of date of submission of registration applications.

Now firm has submitted a letter regarding withdrawal of replacement letter and requested to issue registration letter of the product Tramax 50mg/ml Injection.

Registration Board in its 295th deferred for further deliberation with complete case.

Firm has now submitted a letter regarding withdrawal of previous undertakings regarding replacement of products considered in 260th meeting and requested to issue registration letter of the approved products Tramax 50mg/ml Injection and Zytec 25mg Injection.

Decision: - Registration Board acceded to request of the firm and decided to process the case as per decision of 260th meeting.

Case No.8 Rejected cases of Piracetam 400mg Tablets. M/s. Wilshire, Lahore.

Piracetam 400mg tablet formulations were deferred in 268th meeting of Registration Board for review by review committee. The review committee finalized their comments and the case was presented in 250th meeting of Registration Board with following comments

PIRACETAM 400MG TABLETS		
International availability	**Me too status**	**Remarks by review committee**
Not found in 400mg strength. Only 800 mg and 1200 mg strengths are available in MHRA.	CEREMIN 400mg tablet M/s Schazoo Laboratories	Not available in reference authorities. The daily dosage should begin at 7.2 g increasing by 4.8 g every three to four days up to a maximum of 24 g, in two or three sub-doses. Treatment with other anti-myoclonic medicinal products should be maintained at the same dosage. Depending on the clinical benefit obtained, the dosage of other such medicinal products should be reduced, if possible. (Ref. MHRA) N.B: (Review committee has not recommended the product for registration in 246th meeting of registration board. However, Registration Board discussed comments of stakeholders in 246th meeting and decided that Review Committee will review these comments for framing its final recommendation).
Decision: i. The formulation is not approved in reference drug regulatory agencies, hence the Board decided **NOT** to register the formulation in Pakistan. ii. Issuance of show cause notice for deregistration of already registered formulations.		

The formulation is available in France and registered by **ANSM** in the same strength and dosage form. The details of product registration are as follows

- **Brand Name:** PIRACETAM BIOGARAN 400 mg film-coated tablet
- **Market Authorization number:** 349 725-4: (60 coated tablets)
- **Status of authorization:** Valid

i. **Approved the registration of products at Sr. No. 1-5, 8, 9, 11, 12 & 14-21. Fee of Rs. 8000/- shall beverifi ed as per procedure adopted by Registration Boardin 285th .meeting**

ii. **Deferred the products at Sr. No. 6, 7, 10 & 13 for submission of fee.**

Case No.13 Registration of Drug(s) M/s. Shaigan Pharmaceuticals (Pvt.) Ltd; Rawalpindi.

Registration Board in its 291st decided to approve registration of TIKANOX (Ticagrelor) 30mg & 90mg Tablets by M/s. Shaigan Pharmaceuticals, 14-Km, Adyala Road, Post Office Dahgal, Rawalpindi. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months:-

Sr. No.	Name of Firm	Product Name
1.	M/s Shaigan Pharmaceuticals, 14-Km, Adyala Road, Post Office Dahgal, Rawalpindi	Tikanox-60 Tablets Each Film coated tablet contains: Ticagrelor …..... 60mg Platelet activation inhibitor Manufacturer's specifications
2.	M/s Shaigan Pharmaceuticals, 14-Km, Adyala Road, Post Office Dahgal, Rawalpindi	Tikanox-90 Tablets Each Film coated tablet contains: Ticagrelor …..... 90mg

		Platelet activation inhibitor Manufacturer's specifications

After discussion with PEC, it is clarified that firm has submitted stability of Ticagrelor 60mg & 90mg and due to typographical error, it was written as Ticagrelor 30mg & 60mg in decision of the minutes while the product is available only in strengths of 60mg & 90mg internationally. Firm has also submitted copies of receiving of registration applications which shows that firm had submitted applications for registration of Ticagrelor 60mg & 90mg. Accordingly, registration letter was issued for the correct strengths i.e, Ticagrelor 60mg & 90mg.

Decision: Registration Board noted the information

Case No.14 M/s Ambrosia Pharmaceuticals, Islamabad.

M/s Ambrosia Pharmaceuticals, Islamabad have requested for correction in brand name, pack and MRP of their registered product with following details.

S. No.	Reg. No.	Existing Name of drug(s) with formulation	Demanded Corrections	Existing Pack & MRP	Demand pack & MRP	Decision of 9th PRVC
I	II	III	IV	V	VI	VII
1.	040815	Amrotose comples syrup Each 5ml contains: Iron (III) Hydroxide Polymaltose complex …..…50mg	Amrotose **Complex** Syrup Each 5ml contains: Iron (III) Hydroxide Polymaltose complex ……50mg	Rs.70/120ml	Rs.133/120ml	The Committee evaluated the case in the light of SOPs approved by the Registration Board. Chairman Registration Board, upon recommendation(s) of Committee decided to defer the request of M/s Ambrosia Pharmaceuticals, Islamabad for submission of copy of form-5 for verification of brand name and decided to advise the firm to apply in C & P Division for additional pack of 120ml.

Now the firm has submitted copy of Form-5 which shows that firm has applied with the brand name of **Polytose complex syrup**.

Remarks of the section:

The approved price for Iron (III) Hydroxide Polymaltose complex 50mg/5ml syrup is Rs.70/60ml. The demanded price i.e. Rs.133/120ml is not available in pricing minutes.

The firm has submitted following documents:

i. Copy of registration letter dated 13-07-2005
ii. Last Renewal applied: 10-07-2015
iii. NOC of CRF clearance valid till 31-12-2018

Decision of Chairman RB taken in 11th meeting of PRVC:-

The Committee evaluated the case in the light of SOPs approved by the Registration Board. Chairman Registration Board, upon recommendation(s) of Committee decided to approve the request of M/s Ambrosia Pharmaceuticals, Islamabad for issuance of corrigendum in brand name of above product while for correction of pack and MRP, the case is referred to Registration Board.

Decision of RB taken in its 284th meeting: Registration Board deferred the request of the firm for confirmation of demanded MRP and pack size from record.

Now the record has been checked and found that firm has demanded Rs.98.80 for 60ml pack.

Registration Board in its 286th meeting decided to refer the case to C & P Division.

Latterly it was discussed that firm's demanded MRP/Pack size is Rs.98.80/60ml as mentioned in 286th meeting. Firm has also submitted an undertaking regarding demanded MRP/Pack size. Accordingly, case is re-submitted for consideration of Registration Board.

Registration Board in its 295th meeting deferred the case for confirmation of demanded MRP and pack size from registration dossier.

The firm has submitted copy of receiving of registration application submitted on 03-12-2004 confirming that the firm had applied "**Polytose complex syrup**" containing Iron (III) Hydroxide Poly Maltose Complex 10mg/1ml in **60ml bottle packing**.

Decision: Registration Board approved correction of pack size from 120ml to 60ml.

Case No.15 Correction of Pack size of Drug(s) of M/s. Bajwa Pharma, Lahore.

Registration Board in its 282nd meeting approved the following product of M/s. Bajwa Pharma, Sheikhupura and it was not processed due to packing clarification.:-

S.No.	Name of Firm	Name of Drug(s) with composition	Demanded MRP	Approved MRP	Decision of Registration Board.
1.	M/s Bajwa Pharmaceuticals (Pvt) Limited, 36 Km, Lahore-Gujranwala Road, Khori District, Sheikhupura	Keto-baj Injection 1ml Each ml ampoule contains: Ketorolac Tromethamine……..30mg (USP Specification)	1x 5ml ampoules & as per PRC	Rs.430.00/ 5'sx1ml	Approved with U.S.P. specifications.

The firm submitted request alongwith fee of Rs.5000/- for correction of pack size from "1x 5ml" to "**5'sx1ml**" which have been incorporated in relevant file at pages 310-311/cor.

Registration Board in its 293rd meeting deferred the request of the firm for submission of differential fee.

The firm has submitted remaining fee amounting Rs.15000/- for this purpose and requested for correction of pack size.

Decision: Registration Board deferred for updated GMP status.

Case No.16 Registration of M/s. N.B.S Pharma, Lahore

Following products of M/s N.B.S Pharma, Lahore were considering 215th meeting of registration board and decided as follows.

Sr.No	Name of Drug	Decision
1.	Povidone-1 Solution Each 100ml contains:- Povidone Iodine USP 7.5gm equivalent to 0.75% available iodine (USP)	Approved subject to the submission of the last Inspection report.

It is submitted that the above cases were discussed in 215th meeting of registration board and decision of the board has been reflected in the above table. The firm has now submitted the differential free of Rs. 12000/- and submitted the inspection report dated 12.11.2014. which shows details of the section as under:-

External Preparation Section:-

This section comprised of preparation and filling rooms, equipped with preparation vessels of different sizes. Silver san mixer and filling machines was installed HVAC system was provided in this area and was functional at the time of inspection. Re-packing area was equipped with filling machine and different size vessels. HVAC system was installed production area furnish with epoxy.

Registration Board in its 260th meeting deferred the case for GMP status of the firm and confirmation of section either from Licensing division or from panel / renewal inspection report.

The firm has submitted copy of inspection report 20-09-2019 with conclusion that the firm has rectified most of the shortcomings pointed out during last inspection. The panel recommends that M/s. N.B.S Pharma, Lahore may be allowed to resume the production in all sections.

Mr. Ajmal Sohail Asif Area FID vide letter No. 15075/2016-DRAP (L-II) dated 17-10-2016 clarified that the firm has approved external preparation section and is already manufacturing Povidone I Solution, (Povidone Iodine SP. 10gm eq. to 1% Iodine) under Reg. No. 025552

Decision: Registration Board deferred the case for confirmation of section approval from Licensing division.

Case No.17 Registration of Drug(s) M/s. GT Pharma (Pvt.) Ltd; Lahore.

Registration Board in its 256th meeting approved the following product of M/s. GT Pharma (Pvt.) Ltd; 713-Sundar Industrial Estate, Sundar Raiwind Road, Lahore:-

Sr. No.	Product Name	Type of Form Initial date, diary Fee including differential fee Demanded Price / Pack size	Me-too and RRA reference	Decision of 256th meeting
1.	Cheliron Capsules Each Capsule contains Iron Hydroxide polymaltose Complex 150mg Antianemia (Manufacture Specification)	Form 5 Rs. 20,000/- vide Dy. No. 2684 dated 11-12-2015 Pack size of 3 x 10's / as per price fixed by Government	*v.Niferex* UCB Brussels, Belgium. FERRICURE S.J. & G. FAZUL ELLAHIE (PVT) LTD.	Approved

Firm has submitted that they had applied for registration of Cheliron Capsule for registration that is approved in meeting 256th with mistakenly written Iron Polymaltose Complex instead of Polysaccharide Iron Complex. Firm has requested to correct formulation from **Iron Polymaltose Complex** to **Polysaccharide Iron Complex**. Firm has submitted following documents;

i. Form-5 (Duplicate dossier)
ii. Fee submission of Rs.20,000/- for correction.

Decision: Registration Board acceded to request of the firm and approved the correction of formulation as under;

Cheliron Capsules
Each Capsule contains
Polysaccharide Iron Complex … 150mg

Case No.18 Change of Brand name of Product of M/s. CCL Pharmaceuticals, Lahore.

Registration Board in its 282nd meeting approved the following products of M/s. CCL Pharmaceuticals, Lahore as per following details:-

465.	Name and address of manufacturer / Applicant	CCL Pharmaceuticals (Pvt) Ltd 62-Industrial Estate, Kot Lakhpat, Lahore
	Brand Name +Dosage Form + Strength	Pulmonol M Syrup 250mg/5ml Each 5ml contains:- Carbocysteine….250mg
	Diary No. Date of R& I & fee	
	Composition	Dy No. 476, 29-01-2015; PKR 20,000/-, 28-01-2015
	Pharmacological Group	(mucolytic agent)
	Type of Form	Form 5
	Finished product Specification	As per Innovator
	Pack size & Demanded Price	120mL/ As per brand leader
	Approval status of product in Reference Regulatory Authorities.	Mucodyne syrup 250mg/5ml by Lexon (MHRA Approved)
	Me-too status	Rhinathiol syrup by Sanofi Aventis
	GMP status	Last inspection report dated 8-3-2017 confirms satisfactory compliance to GMP
	Previous remarks of the Evaluator.	Firm has provided specifications of the innovator and also the commitments to conduct validation of analytical method. The submitted specifications (claimed to be of innovator) contains tests for physical description, pH, taste, odor, identification and assay while according to MHRA and Irish assessment report the specification of mucodyne should be as per pharmacopoeial monograph for 'Liquid preparations for oral use'. The general monograph for liquid preparations for oral use contains tests for fill volume, uniformity of mass and uniformity of dosage units as well.
	Previous decision(s)	Deferred for following submission (M-269): ● Change of brand name as the same is registered for different active ingredient ● Latest GMP inspection report conducted within 1 year ● Clarification regarding the submitted innovator's specification as they do not contain test of general monograph for "liquid preparations for oral use" including fill volume, uniformity of mass and uniformity of dosage units as mentioned in the Irish and MHRA assessment report. ● Deferred for further deliberation for brand name of Pulmonol M for applied formulation (M-274). ● Registration Board deferred the case and advised PEC to present the case with detailed composition of already registered Pulmonol brands. Moreover Registration Board referred the case to QA & LT Division to conduct GMP inspection of Firm on priority (M-281).
	Evaluation by PEC ● Firm has stated that "Pulmonol" is our registered trademark having TM No. 085475 dated (18-02-1985) in class 5 under section 33 of the Trade mark ordinance 2001, and following products are already registered in different composition and indicated for wide range of indications of upper respiratory tract disorders which are in line extension of Pulmonol range: i. Pulmonol syrup, Reg.# 00874 ii. Pulmonol Flu Syrup, Reg.# 068109 iii. Pulmonol DM Syrup, Reg.# 068110 iv. Pulmonol Junior Syrup, Reg.# 068111 v. Pulmonol CF Tablets, Reg.# 023982	

- A similar case of change of brand name was presented n 263rd meeting of Registration Board wherein M/s. CCL Pharmaceuticals (Pvt) Ltd, Lahore had requested for change of brand name of their following product:

Names of Drug(s) with formulation	Reg. No.	New proposed names
Epinol CF Tablet Each tablet contains: Paracetamol……500mg Pseudoephedrine HCl….60mg Chlorpheniramine Maleate..4mg	023982	Pulmonol CF Tablet

Registration Board deliberated that suffix of brand name is different, thus the Board approved request of firm for change of brand name from Epinol CF Tablet to Pulmonol CF Tablet.

- The firm described that Pulmonol is their flagship brand name which covers the product indicated in disorder of upper respiratory tract especially cough and cold in different combination. Furthermore as per business strategy and marketing norms one brand name can be used for minutely different formulations of same category of products e.g Hydryllin syrup, Hydryllin DM syrup, Hydryllin Day syrup etc.
- Firm has submitted revised finished product specifications including test of filled volume, deliverable volume & Uniformity of dosage unit.
- Copy of Panel inspection conducted on 20-04-2018 & 24-04-2018 concluded that the firm was found to be operating at a satisfactory level of GMP compliance.
- The firm has submitted that we already have following four products registered with brand name Pulmonol in different composition and indicated for wide range of indications for upper respiratory tract disorders especially cough & cold. The detailed compositions of pulmonol brand names is as follows:

Brand Name	Composition
Pulmonol Syrup	Each 5ml contains: Chlorpheniramine Maleate BP …...5mg Terpin Hydrate USP …… 10mg Pot. Bicarbonate BP ……. 0.1mg Ammonium Chloride BP …….. 25mg Tr. Senega BP …….. 0.05ml Menthol BP …….. 1mg Aminophylline Ph. Eur. …….. 32mg Pot. Guaiacol Sulphate USP ……. 5mg Pot. Citrate BP ……... 0.1mg
Pulmonol Flu Syrup	Each 5ml Contains: Chlorpheniramine Maleate ….……1mg Pseudoephedrine HCl…….. 15mg Paracetamol …… 160mg Dextromethorphan HBr …….. 7.5mg
Pulmonol DM Syrup	Each 5ml Contains: Pseudoephedrine HCl …… 30mg Dextromethorphan HBr ……. 10mg
Pulmonol Junior Syrup	Each 5ml Contains: Promethazine HCl ……. 1.5mg Pholcodine …… 1.5mg Absolute Alcohol …… 3.8%
Pulmonol CF Tablet	Each tablet contain: Paracetamol ……..… 500mg Pseudoephedrine HCl ……60mg Chlorpheniramine Maleate ….. 4mg

Decision: Registration Board did not accede to firm's request for assigning brand name of "Pulmonol" for applied formulation because it can lead to medication errors due to different compositions. Hence Registration Board approved the applied formulation with change of brand name.

466.	Name and address of manufacturer / Applicant	CCL Pharmaceuticals (Pvt) Ltd 62-Industrial Estate, Kot Lakhpat, Lahore
	Brand Name +Dosage Form + Strength	Pulmonol M Capsule 375mg Dy No. 475, 29-01-2015; PKR 20,000/-, 28-01-2015 Each capsule contains:- Carbocysteine….375mg
	Diary No. Date of R& I & fee	
	Composition	
	Pharmacological Group	Mucolytic agent
	Type of Form	Form 5
	Finished product Specification	Innovator's specifications
	Pack size & Demanded Price	30's/ As per Brand leader
	Approval status of product in Reference Regulatory Authorities.	Mucodyl Capsule by Sanofi (MHRA Approved)
	Me-too status	Rhinathiol Capsule by Sanofi
	GMP status	Last inspection report dated 21-03-2016 recommends the grant of renewal of DML
	Previous remarks of the Evaluator.	● Firm has provided specifications of the innovator without detailed method of analysis and also the commitments to conduct validation of analytical method. The submitted specifications (claimed to be of innovator) contains dissolution test with specification NLT 70% (Q) in 30 minutes
	Previous decision(s)	Deferred for following (M-269): ● Change of brand name as the same is registered for different active ingredient ● Latest GMP inspection report conducted within 1 year ● Clarification regarding the submitted innovator's specification as dissolution test parameters Q mentioned in the reply to letter is NLT 70%, while the value of Q mentioned in original dossier was NLT 80% in 30 minutes Deferred for following (M-271): ● Word "Pulmonol" is not stated on copy of trade mark certificate submitted. Clarification is required in this regard. ● Clarification from R-V section regarding approval of "Pulmonol" brand name for various formulations.
	Evaluation by PEC: ● Firm has submitted following: ● Copy of Panel inspection conducted on 20-04-2018 & 24-04-2018 concluded that the firm was found to be operating at a satisfactory level of GMP compliance. ● Clarification that they regret for the typographical mistake as the original value of Q is NLT 80% in 30 minutes. ● Moreover firm has stated that "Pulmonol" is our registered trademark having TM No. 085475 dated (18-02-1985) in class 5 under section 33 of the Trade mark ordinance 2001, and following products are already registered in line extension of Pulmonol range: vi. Pulmonol Cough syrup, Reg.# 00874 vii. Pulmonol Flu Syrup, Reg.# 068109 viii. Pulmonol DM Syrup, Reg.# 068110 ix. Pulmonol Junior Syrup, Reg.# 068111 x. Pulmonol CF Tablets, Reg.# 023982 In light of above details the Firm has requested to allow brand name of Pulmonol Capsule 375 mg in line extension of their Pulmonol range **Decision: Registration Board did not accede to firm's request for assigning brand name of "Pulmonol" for applied formulation because it can lead to medication errors due to different compositions. Hence Registration Board approved the applied formulation with change of brand name.**	

Now the firm has submitted that the brand name Pulmonol is a household name in the respiratory tract disorder and currently covering cough, cold and sore throat indications. They have requested that the brand name "**Pulmonol-M"** is a line extension of umbrella brand name because of mucolytic effect of Carbosysteine falling under same category of respiratory tract disorders.

Registration Board in its 291st meeting deferred the request of the firm for scientific justification.

Now firm has requested for withdrawal of their request of 291st meeting regarding line extension of umbrella brand name and requested to issue registration letter with change of brand name.

Decision: Registration Board acceded to request of the firm and decided to process the case as per decision of 282nd meeting.

Case No.19 Deferred product of M/s. Shrooq Pharmaceuticals (Pvt.) Ltd, Lahore

Registration Board in its various meetings decided the following products of M/s. Shrooq Pharmaceuticals (Pvt.) Ltd; 21-Km, Feruz Pur Road, Lahore. Details are given as under:-

S.No	Brand Name/Label claim	Demanded Pack size	Demanded Price	Decision of RB	Remarks
1.	Valrox Syrup Each 5ml contains:- Divalproex Sodium…….500mg (Anti-epileptics)	60ml	As per SRO	Approved. The Board advised to submit finished product specifications. M-238	Firm has now requested to change strength of formulation as **Each 5ml contains:- Divalproex Sodium…..250mg**
2.	Cegrel-Ap Tablet Each tablet contains:- Clopidogrel (Bisulphate)…75mg Aspirin……...150mg	10's	As Per SRO	Deferred for latest GMP report M-263	Firm has now requested to change strength of formulation as **Each tablet contains:- Clopidogrel (Bisulphate)… 75mg Aspirin…… 75mg**
3.	Airvent Tablet 8mg Each tablet contains Montelukast Sodium……. 8mg Leukotriene receptor antagonist	7's	Rs.155	Deferred for confirmation of the applied formulation in references regulatory authorities M-265	Firm has now requested to change strength of formulation as **Each chewable tablet contains Montelukast Sodium……. 4mg**

Firm has submitted following documents;

i. Form 5.
ii. Evidence of fee of Rs.8000/- (Photocopy) along with fresh submission of Rs.12000/- for each product.
iii. cGMP certificate based upon evaluation conducted on 29-01-2019.

Registration Board in its 291st meeting decided deferred the products at Sr. No. 4-6 for submission of fee.

The firm has submitted fee of Rs.5000/- for each product and requested to issue registration letter.

Decision: Registration Board deferred for submission of complete case including RRAs status of previously applied formulations.

Case No.20 Registration of Drug(s) M/s. Candid Pharmaceuticals, Lahore.

M/s. Candid Pharmaceuticals Opp. Eden Avenue Extension Airport Road, Lahore was granted the registration of following products:-

Old Reg. numbers issued			
S.No.	**Old Reg. No.**	**Name of Drug(s) & Composition**	**Remarks**
1.	028384	Ozone Injection Each vial contains:- Ceftriaxone Sodium eq. to Ceftriaxone …… 250mg	The firm was granted registration vide letter No.F.3-3/2002-Reg-II (M-171) dated 21-08-2002 but the contract manufacturing condition was not mentioned initial letter of registration. Brand name was changed to Efxone vide letter dated 05-10-2002. These products contract manufacturing permission was extended vide letter No.F.3-1/2008-Reg-II-South(M-212) dated 18-09-2008 till 30-06-2010.
2.	028385	Ozone Injection Each vial contains:- Ceftriaxone Sodium eq. to Ceftriaxone …… 500mg	
3.	028386	Ozone Injection Each vial contains:- Ceftriaxone Sodium eq. to Ceftriaxone …… 1gm	
New Reg. numbers issued in 275th meeting			
4.	087354	Efxone Injection 250mg IV Each vial contains: Ceftriaxone (as sodium)..…….250 mg (USP Specifications)	The firm was granted registration of these products vide letter No.F.8-11/2017-Reg-III(M-275) dated 29-12-2017 after the approval of Ceph. Injectable section by Licensing Division.
5.	087355	Efxone Injection 250mg IM Each vial contains: Ceftriaxone (as sodium)…….250 mg (USP Specifications)	
6.	087356	Efxone Injection 1gm IV Each vial contains: Ceftriaxone (as sodium)……1000mg (USP Specifications)	

Registration Board in its 275th meeting approved transfer of registration from contract manufacturing to their own facility but due to typographical error firm was granted registration of Ceftriaxone 250mg Injection (IM) (Reg.No.087355) instead of Ceftriaxone 500mg Injection (IV). The firm has requested to correct the strength/rout of administration from "Efxone (Ceftriaxone) 250mg Injection IM (Reg.No.087355) to "Efxone (Ceftriaxone) 500mg Injection IV (Reg.No.087355).

Firm has also provided copies of application receiving which shows that the firm had applied "Efxome (Ceftriaxone) 250mg & 500mg Injection IV.

Registration Board in its 295th meeting deferred for confirmation of manufacturing status of the product.

The firm has summited undertaking that they are not manufacturing the product "Efxone Injection 250mg IM" (Reg.No.087355) since grant of its registration dated 29-12-2017 due to typographical error as stated above.

Decision: Registration Board acceded to request of the firm and approved correction of strength/route of administration as under;

Efxone Injection 500mg IV
Each vial contains:
Ceftriaxone (as sodium)…….500 mg

Case No.21 Request of M/s. Don Valley (Pvt.) Limited, Lahore for import of Controlled Drug Substance for Trial/ Development & Stability Purposes.

M/s Don Valley (Pvt.) Lahore has requested for permission to import a controlled drug substance for developing their products and stability study. Details are as under:

1. **Phenobarbital**

5. Diphenoxylate HCl

S. No.	PRODUCT NAME	QUANTITY REQUIRED	SOURCE	Product Specification
1.	Diphenoxylate HCl 2.5mg Tablet along with Atropine Sulphate	92.5gm	RPG Life Science Ltd, India	USP Specification
	Total	**92.5gm**		
2.	Diphenoxylate HCl working standard	200mg		

3.	Diphenoxylate HCl Related compound A	5mg		

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Diphenoxylate HCl 2.5mg Tablet**	Diphenoxylate HCl	2.5mg	**Batch size for trial batch** (1,000 tablets) **Batch size of Stability Batch No.1** (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3** (10,000 tablets)	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	82.5	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	92.5

6. Diazepam

S. No.	PRODUCT NAME	QUANTITY REQUIRED	SOURCE	Product Specification
1.	**Diazepam 5mg Tablet**	175gm	Centaur Pharmaceuticals (Pvt.) Ltd India	B.P Specification
2.	**Diazepam 10mg Tablet**	330gm		
	Total	**505gm**		
3.	**Diazepam Working standard**	400mg		
4.	**Diazepam CRS for system suitability**	10mg		

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

i. Diazepam 5mg

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Diazepam 5mg Tablet**	Diazepam	5mg	**Batch size for trial batch** (1,000 tablets) **Batch size of Stability Batch No.1** (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3**	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	165.00	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	175.00

				(10,000 tablets)				

ii. Diazepam 5mg

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Diazepam 10mg Tablet**	Diazepam	10mg	**Batch size for trial batch** (1,000 tablets) **Batch size of Stability Batch No.1** (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3** (10,000 tablets)	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	330.00	--	330.00

7. Buprenorphine

S. No.	PRODUCT NAME	QUANTITY REQUIRED	SOURCE	Product Specification
1.	**Buprenorphine Tablet**	17.115gm	Micro Orgo Chemicals India	B.P Specification
	Total	**92.5gm**		
2.	**Buprenorphine HCl working standard**	200mg		
3.	**Buprenorphine HCl CRS for system suitability**	100mg		

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Buprenorphine 0.2mg Tablet**	Buprenorphine Hydrochloride	0.2mg	**Batch size for trial batch** (1,000 tablets) **Batch size of Stability Batch No.1** (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3** (10,000 tablets)	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	7.115	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	17.115

8. Zolpidem

S. No.	PRODUCT NAME	QUANTITY REQUIRED	SOURCE	Product Specification
1.	**Zolpidem Tartrate Tablet**	340g	Centaur Pharmaceuticals (Pvt.) Ltd India	B.P Specification
	Total	**340g**		
2.	**Zolpidem Tartrate Working Standard**	200mg		
3.	**Zolpidem Related Compound A**	15mg		

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Zolpidem Tartrate 10 mg tablet**	Zolpidem Tartrate	10.0	**Batch size for trial batch** (1,000 tablets) **Batch size of Stability Batch No.1** (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3** (10,000 tablets)	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	330.00	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	340.00

9. Alprazolam

S. No.	PRODUCT NAME	QUANTITY REQUIRED	SOURCE	Product Specification
1.	**Alprazolam 0.5mg Tablet**	26.50gm	Centaur Pharmaceuticals (Pvt.) Ltd India	B.P Specification
2.	**Alprazolam 1.0mg Tablet**	33.00gm		
	Total	**59.50gm**		
3.	**Alprazolam Working Standard**	400mg		
4.	**Alprazolam Related compound A**	30mg		
5.	**2-Amino-5-chlorobenzophenone**	30mg		
6.	**Chlordiazepoxide Related Compound A**	30mg		

The firm has submitted break up of quantities required for trial, development & stability batches i.e., as under:

i. Alprazolam 0.5mg

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Alprazolam 0.5mg tablet**	Alprazolam	0.5	**Batch size for trial batch** (1,000 tablets)	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g

				Batch size of Stability Batch No.1 (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3** (10,000 tablets)	Trial batches (3) Stability batches (3)	16.50	For chemical testing: 5.00 Retention Sample: 5.00 Total: 10.00	26.50

ii. Alprazolam 1.0mg

S. No.	Product	API	Mg/Tab	No. of Tab/batch	No. of batches	Quantity of API required		
1.	**Alprazolam 1.0mg tablet**	Alprazolam	1.0	**Batch size for trial batch** (1,000 tablets) **Batch size of Stability Batch No.1** (10,000 tablets) **Batch size of Stability Batch No.2** (10,000 tablets) **Batch size of Stability Batch No.3** (10,000 tablets)	Trial + Stability	For Formulation Development	For QC testing & Retention	Total
						g	g	g
					Trial batches (3) Stability batches (3)	33.00	--	33.00

Decision: Registration Board approved the allocation of controlled drug substances i.e i) Phenobarbital ii) Lorazepam iii) Methylphenidate HCl iv) Pentazocine HCl v) Diphenoxylate HCl vi) Diazepam vii) Buprenorphine viii) Zolpidem ix) Alprazolam for trial, development & stability batches of above mentioned products. The Board further advised the firm to maintain records of used substances and waste materials having above APIs will be destroyed after approval of Controlled Drug Division, DRAP.

VETERINARY

Case.No.01:- REQUEST OF M/S. D-MAARSON PHARMACEUTICALS, RAWAT, ISLAMABAD REGISTRATION OF DRUGS.

M/s. D-Maarson Pharmaceuticals, Rawat, Islamabad has requested for registration of following veterinary products for local manufacture in their name and cancellation of same from the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.

S. No.	Reg. No.	Name of Drug(s)/ Composition	Already Approved Pack Size(s)	Initial Date of Registration
1.	102083	Ivoron Drench Oral Liquid Each 100ml contains:- Ivermectin……2.4mg (As per Innovator's Specification)*	100ml 250ml 500ml 1Litre 2.5Litre	30-04-2020
2.	102084	Tenex 19.5% Drench Each 100ml contains:- Tricabendazole……..12gm Levomizole (HCl)…..…....7.5gm Sodium Selenite……0.035gm Cobalt Chloride…..…..0.075gm (As per Innovator's Specification)*	100ml 250ml 500ml 1Litre 2.5Litre	-do-
3.	102085	Ketojet Injection Each ml contains:- Ketoprofen……100mg (BP Specifications)	50ml	-do-
4.	102155	Cyanavit-12 Injection Each ml contains:- Vitamin B- 12……..1000mcg (As per Innovator's Specification)*	50ml	-do-
5.	102156	Furason Injection 50mg Each ml contains:- Furosemide……50mg (USP Specifications)	50ml	-do-
6.	102157	Enropro 20% Injection Each ml contains:- Enrofloxacin……..…200mg (As per Innovator's Specification)*	100ml	-do-
7.	102159	Redox-34 Injection Each 100ml contains:- Nitroxynil…….34gm (As per Innovator's Specification)*	50ml	-do-

8.	102160	Sporex Drench Each ml contains:- Sulphadaizine……..35.5mg Neomycin Sulphate.……1.8mg Pectin……...7.1mg Vitamin B……0.5mg Sulphadimidine……..28.4mg HyosinMethylbromide…..0.04mg Kaoline……103.3mg Vitamin B2……..…0.22mg (As per Innovator's Specification)*	100ml 250ml 500ml 1000ml	-do-
9.	102256	Atrapin Injection Each ml contains:- Atropine Sulphate……1mg (USP Specifications)	50ml	22-06-2020

M/s. D-Maarson Pharmaceuticals, Rawat, Islamabadhas deposited the required fee Rs. 20,000 x 9 = 180,000 and submitted following supporting documents:-

(i) Original NOC **dated 06-05-2020& 07-07-2020**from M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.
(ii) Copy of initial registration letters.
(iii) Copy of Drug Manufacturing License.
(iv) GMP inspection report conducted on 13-11-2018. The panel recommended the DML No.000744 (Formulation) for the following sections.

(a) Oral Powder Section (Veterinary).
(b) Oral Liquid Section (Veterinary).
(c) Bolus Section (Veterinary).
(d) Liquid Vial Injectable Section (Veterinary).

(v) Applications on Form 5.
(vi) Undertaking.

Decision:- Registration Board decided as follow;

a. Approved the cancellation of registration of above mentioned products from the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.
b. Approved the registration of above mentioned products (Sr.No.2-9 of above table) in the name of M/s. D-Maarson Pharmaceuticals, Rawat, Islamabad.
c. Deferred product at Sr. No.1 for Generic status confirmation/standardization of formulation with requisite form and fee.

Case.No.02:- REQUEST OF M/S. NAWAL PHARMACEUTICALS, TAXILA REGISTRATION OF DRUGS.

M/s. Nawal Pharmaceuticals, Taxila has requested for registration of following veterinary product for local manufacture in their name and cancellation of same from the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.

S. No.	Reg. No.	Name of Drug(s)/ Composition	Already Approved Pack Size(s)	Initial Date of Registration
1.	102158	Toldem Injection Each 100ml contains:- Toldimfos Sodium……..20gm Vitamin B-12……5mg (As per Innovator's Specification)*	50ml	30-04-2020

M/s. Nawal Pharmaceuticals, Taxila Islamabad has deposited the required fee Rs. 20,000/- and submitted following supporting documents:-

(i) Original NOC **dated 06-05-2020** from M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.
(ii) Copy of initial registration letter.
(iii) Copy of Drug Manufacturing License.
(iv) GMP inspection report conducted on 29-10-2018DML No.000735 (Formulation).
(v) Copy of approved section.
(vi) Applications on Form 5.
(vii) Undertaking.

Decision:- Registration Board decided as follow;

a. **Approved the cancellation of registration of above mentioned product (of above table) from the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.**
b. **Approved the registration of above mentioned product (of above table) in the name of M/s. Nawal Pharmaceuticals, Taxila Islamabad.**

Case.No.03:- REQUEST OF M/S. REGENT LABORATORIES, KARACHI REGISTRATION OF DRUGS.

M/s. Regent Laboratories, Karachi has requested for registration of following veterinary product for local manufacture in their name and cancellation of same from the name of M/s. Epla Laboratories (Pvt) Ltd., Karachi& M/s. Spencer Pharma (Pvt) Ltd., Karachi.

S. No.	Reg. No.	Name of Drug(s)/ Composition as Registration letter	Already Approved Pack Size(s) as per registration letter.	Initial Date of Registration, Variation/ Renewal Status

1.	022772	Vitapol Powder Each gm powder contains:- Vitamin A USP…….20,000 Units Vitamin D3……..4,000 Units Vitamin E eq. to…...1.6 Units (8mg) Thiamine HCI……...1.25mg Pyridoxine HCI……..6mg Ascorbic Acid ……..10mg Nicotinic Acid…….....100mg Calcium D Pantothenate……...30mg Folic Acid……...2mg Cyanocobalamin……..30mg Riboflavin 5 Phosphate Sodium……..20mg Vitamin K3…….9mg	100gm 300gm 1000gm	**18-08-2004** Transfer from M/s. Spencer Pharma (Pvt) Ltd., Karachi on **18-09-2006** **24-08-2016**

M/s. Regent Laboratories, Karachihas deposited the required fee Rs. 20,000 x 9 = Rs.180,000/- and submitted following supporting documents:-

(i) Original NOC fromboth firms **M/s. Epla Laboratories (Pvt) Ltd., Karachi**&**M/s. Spencer Pharma (Pvt) Ltd., Karachi** without date.
(ii) Copies of initial registration letter/variation.
(iii) Copy of renewal status.
(iv) Copy of Drug Manufacturing License.
(v) Copy approved sections Powder Veterinary Vitamin (G), Dry Powder for Oral and Oral Liquid.
(vi) GMP inspection report conducted on 09th October, 2019. The panel recommended the DML No.000506 (Formulation) for the following veterinary sections and 5th November, 2019.
(vii) Applications on Form 5.
(viii) Undertaking.

The product at Sr. No. 6 containing**"Furaltadone".**

Decision:- Registration Board decided to defer for NOC confirmation from the manufacturer.

Case.No.04:- Registration of Drugs under the Drugs Act, 1976.

Registration Board in its 293rd meeting approved following veterinary drug as per decision mentioned alongside each. However, processing of this product for issuance of registration letter was withheld. After receiving registration dossier from PEC applied by M/s. Grand Pharma, Rawat-Islamabad them but mistakenly in minutes the product got approved in favour of "M/s. Evergreen Pharmaceuticals, Lahore" of product "Alben Par 200 Bolus.

1.	M/s. Evergreen Pharmaceuticals. 69-70/B, Main Glaxo Town, Industrial Area, 20th Km Ferozepur Road, Lahore.	Alben Par 200 Bolus Each bolus contains:- Albendazole……200mg	4 x 5's 10 x 5's 20 x 5's	Approved with innovator's specification.

Registration letter has been issued to M/s. Grand Pharma, Rawat-Islamabad after confirmation of dossier received from PEC.

Decision: Registration Board noted and endorsed issuance of registration in favor of M/s. Grand Pharma, Rawat, Islamabad.

Case.No. 05:- Request of M/s. D-Maarson Pharmaceuticals, Rawat, Islamabad registration of drugs.

M/s. D-Maarson Pharmaceuticals, Islamabad has requested for registration of following veterinary products for local manufacture in their name and cancellation of same from the name of M/s. Breeze Pharma (Pvt) Ltd., Islamabad.

S. No.	Reg. No.	Name of Drug(s)/ Composition	Already Approved Pack Sizes	Remarks
1.	075653	Oxytron LA Injection Each ml contains:- Oxytertracycline ….200mg	50ml 100ml	*04-05-2013* ***20-07-2019*** *Firm requested for grant of 50ml pack.*
2.	059156	Diaminac Granules for Injection Each sachet contains:- Diminazine Diaceturate…..2.36gm	2.36gm sachet	*Sachet manufacturing facility needs to be confirmed.*

M/s. D-Maarson Pharmaceuticals, Islamabad has deposited the required fee Rs. 20,000 x 2 = 40,000 and submitted following supporting documents:-

(i) Original NOC from M/s. Breeze Pharma (Pvt) Ltd., Islamabad.
(ii) Copy of initial registration letters alongwith renewal status.
(iii) Copy of Drug Manufacturing License.
(iv) Undertaking.
(v) GMP inspection report conducted on 06-02-2019
(vi) Applications on Form 5.

Registration Board in its 292nd meeting decided as follow;

S. No.	Reg. No.	Name of Drug(s)/ Composition	Decision
1.	075653	Oxytron LA Injection Each ml contains:- Oxytertracycline ……...200mg	Registration Board deferred the case for confirmation of renewal status of the product.
2.	059156	Diaminac Granules for Injection Each sachet contains:- Diminazine Diaceturate ..2.36gm	Registration Board deferthe case for confirmation of sachet manufacturing facility of the firm.

The firm has provided renewal status for product at Sr. No.1 with double fee submitted within sixty days and sachet manufacturing facility for product mentioned at Sr. No.2.

Decision:- Registration Board decided as follow;

a. **Approved the cancellation of registration of above mentioned products (of above table) from the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.**
b. **Approved the registration of above mentioned products (of above table) in the name of M/s. D-Maarson Pharmaceuticals, Islamabad.**
c. **For product at Sr. No. 1 registration letter will be issued after the confirmation/approval of renewal.**

Case No. 06:- Request of M/s. Ghazi Brothers, Karachi for Change of Name of Manufacturer/ Manufacturer Site for their registered products.

M/s. Ghazi Brothers, Karachi has applied for change of name of manufacturer/manufacturing site for their already registered products as per details mentioned alongside each:-

S. No	Reg. No.	Name of Drug(s)/Composition as per Registration letter	Name of Drug(s)/Composition as per new CoPP	Existing Name of Manufacturer/ Initial date of Registration/ Variation	Request for Change of Name of Manufacturer	Request for Change of Manufacturing Site

Decision:- Registration Board decided as follow;

a. **Approved the cancellation of registration of above mentioned products (of above table) from the name of M/s. Redex Pharmaceutical Industries (Private) Limited, Karachi.**

b. **Approved the registration of above mentioned product (of above table) in the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.**

Case.No.10:- Registration of Drugs under the Drugs Act, 1976.

Registration Board in its 289th meeting held on 14–16th May, 2019 deferred the following drug of M/s. Medi-Vet (Pvt) Limited, Lahore for confirmation of me-too status.

S. #	Name of Drug(s)/Composition	Demanded Composition of the firm.	Pack Size	Shelf Life
(i)	(ii)	(iii)	(iv)	(v)
1.	Floxivet-C Injection Each ml contains:- Enrofloxacin B.P Vet……..……..100mg/ml ColistinSulphate BP…….250000 iu/ml	Floxivet-C Injection Each 100ml contains:- Enrofloxacin BP Vet…10gm Colistin Sulphate BP……....50,000,000IU	100ml 250ml 500ml 1000ml	02 years

The firm has deposited the fee of Rs.20,000/-. As per available record the above mentioned product is not registered in same composition. The firm has requested to change the composition me-too already registered product in various firms including M/s. Zakfas Pharmaceuticals (Pvt) Ltd. Multan ***"Encoras Injection Regn.No.057067"***.

Registration Board in its 295th meeting advised to get justification for reason for change of composition and its approval status accordingly.

Letter issued to M/s. Medi-Vet (Pvt) Limited, Lahore to get justification for reason for change of composition and its approval status accordingly.

Firm reply as under:

Justification for reason for change of composition is our competitor M/s. Zakfas Pharmaceuticals (Pvt) Ltd. Multan having the same composition for me-too with products Encoras Injection Regn.No.057067. The firm has requested to please consider their justification for the registration of their product Floxivet-C Injection.

Decision:- Registration Board deferred for confirmation of generic status from record.

Case No. 11:- Registration of Veterinary Drug under Drug Act, 1976.

Registration Board in its 237th meeting approved following product of M/s. Ghazi Brothers, Karachi for import from M/s. Hebei Yuanzheng Pharmaceutical Co. Ltd., Shijiazhuang City, Hebei Province, China subject to inspection of manufacturer abroad as per import policy and verification of storage facility (where applicable) as per detailed mentioned against each:-

S. No.	Name of Importer/ Manufacturer	Name of Drugs/ Composition & Meeting	Decontrolled/ Packs Size	Shelf Life	Decision/ Remarks
1.	M/s. Ghazi Brothers, Karachi. / M/s. HebeiYuanzheng Pharmaceutical Co. Ltd., Shijiazhuang City, Hebei Province, China.	Sinomox LA Suspension for Injection Each ml contains:- Amoxicillin….150mg (15%)	10ml 50ml 100ml 250ml	2 years	Approved

While processing for issuance of registration letter it was observed that the said product is already registered in the name of M/s. Genome Pharma, Islamabad with brand name **"**Amoxygen LA Injection" (Reg.No. 057143) from the same manufacturer/product license holder. M/s. Ghazi Brothers was informed accordingly about the status of the case.

Now, M/s. Ghazi Brothers, Karachi has provided legalized and attested termination letter in favor of "*M/s. Genome Pharma, Islamabad-Pakistan*" from the manufacturer/principal M/s. HebeiYuanzheng Pharmaceutical Co., Ltd., No. 16 Liuyuan Road, Chang, An District, Shijiazhuang City, Hebei Province, China.

It is pertinent to mention that inspection of above mentioned manufacturer has already been carried out by nominated panel on 04th and 05th April, 2017 and rated the manufacturing facility as "Good".

The case was discussed in 291st meeting of Registration Board meeting, keeping in view the termination of distribution agreement of M/s. Genome Pharma, Islamabad for product "Amoxygen LA Injection" (Reg.No. 057143) by M/s. HebeiYuanzheng Pharmaceutical Co., Ltd., No. 16 Liuyuan Road, Chang, An District, Shijiazhuang City, Hebei Province-China, Registration Board decided to issue show cause notice to M/s. Genome Pharma, Islamabad as to why the registration of aforesaid product may not be cancelled because of termination of distribution agreement.

Accordingly show cause notice issued on 30thDecember, 2019 and reminder issued on11th February, 2019 to M/s. Genome Pharma, Islamabad. But reply is still awaited.

Registration Board in its 295th meeting decided to issue final reminder toM/s. Genome Pharma, Islamabad. A copy of same will also be sent to concerned DRAP office for handing over to the firm.

Accordingly final reminder issued to M/s. Genome Pharma, Islamabad to submit your reply within five days, failing to which it will be presumed that you have nothing to offer in your defense and ex-parte decision would be taken in Registration Board, but **reply is still awaited**.

Decision:- Registration Board decided to issue final show cause notice toM/s. Genome Pharma, Islamabad to submit reply within 15 days.

Case No. 12:- Cancellation of distribution agreement of M/s. SS Associates, Lahore by their principal abroad (Turkey).

M/s. Medicavet, Turkey informed vide letter about termination of distribution agreement with M/s. SS Associates, S-77-R8/10 Ground Floor Back Side Nirala Sweet, MozangChungi Jail Road, Lahore ***w.e.f. 18-01-2019*** and further informed about appointment of *M/s. Unicare Enterprises, Faisalabad* (Head Office: M/s. Unicare Enterprises, Commercial -06, 1st Floor, Block-A, Kazimabad, Model Colony, Karachi, Pakistan-75100) (Regd. Office: Reg. Office: Plot No. 587/1-B, Street No.3, Punjab Small Industrial Estate, NalkaKohala, Sargodha Road, Faisalabad) as their new distributor. M/s. Medicavet, Turkey also provided a copy of termination notice addressed to M/s. SS Associates, S-77-R8/10 Ground Floor Back Side Nirala Sweet, MozangChungi Jail Road, Lahore.

Details of registration applications submitted by M/s. SS Associates, Lahore from the above mentioned principal is as follow:-

S.No	Name of Drugs/Composition / Meeting No.	Name of Manufacturer	Remarks
1.	Mediquinol 10% Oral Liquid Each ml contains:- Enrofloxacin…...100mg **(M-277)**	M/s. Medicavet, TarimHayvancilikIlacveKimya San. Tic. Ltd. Sti. ItosbEski Ankara AsfaltiUzeri 12. Cadde No: 1 34959 Tepeoren Tuzla Istanbul, Turkey.	Inspection of the manufacturer abroad has been carried by the nominated panel on 27th& 28th September, 2018 and recommended the facility.

Cholecalciferol (as concentrate Oily form) ……1000 IU. Alpha Tocopheryl Acetate …..20mg. Thiamine Hydrochloride ……..10mg. Riboflavine Sodium Phosphate....6.85mg. Pyridoxin Hydrochloride…….3mg. Cyanocobalamin…50mcg. Nicotinamide…35mg. Dexpanthenol …25mg. M/s.Alina Combine Pharmaceuticals (Pvt) Ltd., Karachi./ Manufactured by M/s. Alfasan International B.V., The Netherlands.	048185
5.	Amoxycilline 20% LA Suspension for Injection Each ml Suspension contains:- AmoxycillinTrihydrate……..…200mg Manufactured by M/s. Alfasan Nederland B.V. Kuipersweg 9, 3449 JaWoerden Netherlands.	AmoxcinTrihydrate 20% Injectable Each ml contains: - AmoxycillinTrihydrate equivalent to 200mg amoxycillin base M/s. Shayan Traders Rawalpindi./ Manufactured by M/s. AlfasanInt Holland.	022144

While processing of registration letters it has been observed that the same products are already found registered in the name of other importers (M/s. Alina Combine Pharmaceuticals (Pvt) Ltd, Karachi and M/s. Shayan Traders Rawalpindi). M/s. ChakwalPharma International, Lahore informed that their principle had already cancelled the agency agreement dated 06-03-2009 due to not reaching the agreed annual targets for several years and provided a copy of it.

The case was again discussed in 291st meeting the Registration Board decided to issue show cause to M/s. Alina Combine Pharmaceuticals (Pvt) Ltd, Karachi and M/s. Shayan Trader, Rawalpindi as to why the registration of the abovementioned products may not be cancelled because of termination of their distribution agreement.

Accordingly show cause notices issued to both firms;

M/s. Alina Combine Pharmaceuticals (Pvt) Ltd., Karachi Reply against show cause is as under:

(i) We strongly object to the cancellation of subject registrations since it is violation of their agreement with M/s. Alfasan, Netherlands. We never received notice of termination of ouragreement with M/s. Alfasan, Netherlands and reason behind this invalid termination.Prior to agreement with M/s. Alfasan, Netherlands, the products of this company are being counterfeited in Pakistan by their previous agent M/s. Lexicon Pharma. It was Alina Combine Pharmaceuticals (Pvt) Ltd, Karachi that exposed M/s. Lexicon Pharma and its illegal counterfeit business and underwent extensive legal and operational costs in initiating legal proceedings against M/s. Lexicon Pharma.

(ii) M/s. Alina Combine Pharmaceuticals (Pvt) Ltd, Karachispent hugeamounts of money in getting Alfasan Netherlands out of the grips of counterfeiters M/s. Lexicon Pharma which is included legal costs, market surveys, travelling costs and products registration and transfer costs. Furthermore, Alina Combine pharmaceuticals has over the regularly paid the required DRAP fees to maintain the products registrations valid in Pakistan, hence they are asked to right to market these products in Pakistan given the extensive costs borne by us the effort and hardships faced by us in securing the interest of M/s. Alfasan in Pakistan.

(iii) Considering the above believe that DRAP should secure the interest of its genuine importers/manufacturers who have over the years exposed the counterfeit and spurious manufacturers and helped international manufactures as a result. They gone the extra length and paid exorbitant amounts in legal costs and various other expenses without any compensation to date from M/s. Alfasan Netherlands.

(iv) In lieu of above, we again submit that strongly object to the notion of consideration of cancellation of their registered products and hope that Board will give justified consideration to their case and not cancel our valid registration.

For product at Sr.No.5, show cause notice issued to M/s. Shayan Traders Rawalpindi but letter was undelivered. As per record the product has been transfer from M/s. Shayan Traders Rawalpindi to M/s. Alina Combine Pharmaceuticals (Pvt) Ltd, Karachi vide letter No.F.2-2/2007-Reg-I (Vet) dated 16th April, 2007.

Registration Board in its 295th meeting defer the case for provision of fresh sole agency agreement / authorization letter from the manufacturer abroad in the name of M/s. Alina Combine Pharmaceuticals (Pvt) Ltd., Karachi.

Accordingly letter issued to M/s. Alina Combine Pharmaceuticals (Pvt) Ltd., Karachi for provision of fresh agreement/authorization letter the manufacturer abroad. **The reply is still awaited**. Meanwhile the manufacturer abroad i.e.M/s. Alfasan Nederland B.V. Kuipersweg 9, 3449 JA Woerden Netherlands submit a letter in the name of Chairman, Registration Board, DRAP, Islamabad which is reproduced as under:

(i) AlfasanInternational has terminated its sole distribution agreement with Alina Combine Pharmaceuticals (Pvt) Ltd. on ground of non-compliance dated 26-01-2010.

(ii) No transaction of any nature took place between Alfasan International and Alina Combine Pharmaceuticals (Pvt) Ltd. after termination of sole distribution.

(iii) This termination of sole distribution rights for Alina Combine Pharmaceuticals (Pvt) Ltd. has been communicated/submitted to DRAP via our letter dated 22-July, 2019 (copy attached for your ready reference).

(iv) The registration applications submitted by Alina Combine Pharmaceuticals (Pvt) Ltd. to transfer registration from import to local manufacturing is without our consent and we do not allow Alina Combine Pharmaceuticals (Pvt) Ltd. to use our brand name of any intellectual property of Alfasan International.

(v) Moreover, Alfasan International has never authorized Alina Combine Pharmaceuticals (Pvt) Ltd. to manufacture/produce/market veterinary medicines using Alfasan International brand name and we strongly oppose them doing so.

(vi) Alfasan International do not intend to provide Alina Combine Pharmaceuticals (Pvt) Ltd. with renewed sole distributorship agreement or any authorization letter whatsoever.

Furthermore, Alfasan International has appointed *M/s. ChakwalPharma International located at OTI Plaza, Basement, Ground, 1st, 2nd& 3rd Floor, 210 Lalazar Commercial Market, ThokarNiazBaig, Raiwind Road, District Lahore* has sole distributor of veterinary medicines since May 5th, 2017, and as such have been authorized to officially follow up registration issues on our products in Pakistan.

It is therefore requested to process registration of products in name of *M/s. ChakwalPharma International*as approved by Honorable DRAP Registration Board in 289th meeting of Registration Board (14-16 May, 2019) and oblige.

Decision:- Registration Board decided to issue final show cause notice to M/s. Alina Combine Pharmaceuticals (Pvt) Ltd, Karachi to submit reply within 15 days.

Case No. 14:- Request of M/s. Leads Pharma (Pvt) Ltd., Islamabad for Additional Pack Size for already Registered Veterinary Drug.

M/s. Leads Pharma (Pvt) Ltd., Islamabad has applied for approval of additional pack of their registered veterinary drugs as per details mentioned below:-

S. No.	Regn. No.	Name of Drug(s)/Composition	Already granted Pack Size	Demanded Additional Pack	Remarks/ Diary No./ Justification
1.	079124	Broxy Oral Solution Each 1000ml contains:- Tylosin Tartrate……..100gm Doxycycline HCL……...200gm ColistinSulphate……..450MIU Bromohexine……...4gm	100ml 200ml 250ml 500ml 1Litre	5 Litre	Dy. No. 21677 (R&I) DRAP dated 27-08-2020 Due to demanded by the veterinary prescribes and marketing due to being economical for the farmer to purchase.

M/s. Leads Pharma (Pvt) Ltd., Islamabadhas deposited the required fee of Rs.5,000/- and submitted following supporting documents:-

(i) Copy of initial registration letter.
(ii) Copy of renewal status.

(iii) Latest GMP inspection report conducted on 29-11-2018 & 01-01-2019.
(iv) Copy of Drug Manufacturing License.
(v) Undertaking.

The demanded pack size is not given to other firms.

Decision:- Keeping in view justification given by the applicant, Registration Board approved M/s. Leads Pharma (Pvt) Ltd., Islamabad request for grant of additional pack size of "5 Litre" to their registered veterinary product Broxy Oral Solution (Reg.No. 079124) on same terms and conditions.

Case No. 15:- Registration of Drugs under the Drugs Act, 1976.

Registration Board in its 287th meeting approved following veterinary drugs in the name M/s. International Pharma Labs., Lahore. However, further processing of these products for issuance of registration letters were withheld to confirm the intra-mammary injection manufacturing facility from Licensing Division.

The Licensing Division has submitted that as per available record of Licensing Division, pre-filled injection facility has not been granted to M/s. International Pharma Labs., Lahore under DML No.000582 (Formulation).

The details are as under:-

S. No.	Name of Manufacturer	Name of drug(s) & Composition	Approved Packs Size	Decision & Remarks
1.	M/s. International Pharma Labs. Raiwind Road, BhobtianChowk, defence Road, 1-KM Towards Kahna, Lahore.	Cephra Injectable Solution Each 4gm contains:- Cephradine……..300mg Neomycin Sulphate….200mg Prednisolone Sulphate….5gm	4gm Syringe	Approved with Innovator's specifications.
2.	-do-	I-Multivet IMM Injection Each 5gm contains:- Procaine Penicillin…..100,000IU StreptomyinSulphate…..100mg NeomyinSulphate……100mg Prednisolone……...10mg	5gm	Approved with Innovator's specifications.
3.	-do-	Linconepre Injection Each injection contains:- Lincomycin as HCl……..200mg Neomycin as Sulphate….200mg Prednisolone……5mg	5gm	Approved with Innovator's specifications.

Decision:- Registration Board deferred for further deliberation regarding manufacturing requirements of these products.

HUMAN IMPORT

Case No.01 **REQUEST OF M/S ZAM ZAM CORPORATION, KARACHI FOR EXEMPTION OF URDU LABELING, MRP & IMPORT OF STANDARD PACKING FOR FINISHED IMPORTED PRODUCTS FUCIDIN TABLET (REG. NO.005964) & DAIVOBET OINTMENT (REG.NO.031379)**

M/s Zam Zam Corporation, Karachi has stated that their foreign manufacturer produces bulk to cater the need of more than 50 countries this becomes difficult for the manufacturer to make specialized pack for Pakistan only as quantity of import is small on yearly business hence, principal has informed that in future only international pack would be exported, which will have no Urdu version and Pakistan Registration number.

The firm is requested to allow them to print Urdu labeling, registration no. and MRP on the international pack. on **their license premises (DSL)** before sale / market. Detail of products as under:

S. No.	Product(s) Description	Reg.No.	Pack Size
1.	Fucidin Tablets	005964	20's
2.	Daivobet ointment	031379	15gm

The firm has provided the following documents along with the application: -

a. Fee challan of Rs.5000/- for each product.
b. Copy of registration letter with post registration variation trial.
c. Copy of valid Drug Sale License.

Decision: **Registration Board deferred the case and advised the firm to submit reasons for exemption in subject case along with contract with Drug Manufacturing License (DML) Holder for printing of Urdu Labeling, Registration No. & MRP.**

Case. No.02:- **REQUEST OF M/S LUNDBECK PAKISTAN (PRIVATE) LIMITED, KARACHI FOR CHANGE OF GODOWN ADDRESS (LOCAL) FOR THEIR REGISTERED PRODUCTS.**

Case. No.6 <u>REQUEST FOR CONTINUATION OF BUSINESS WITH IN-HOUSE SPECIFICATION FOR TWO YEARS (FRESOFOL 1% REG. NO. 099009).</u>

M/s Fresenius Kabi Pakistan (Pvt) Ltd, Lahore has requested as under: -

"We applied for the transfer of our product (Fresofol 1%) from Ms. MediPak importer to Ms. Fresenius Kabi Pakistan (Pvt.) Ltd. with in-house specification (validated method) but the registration letter issued with B.P. Specification as per Drug (Specifications) rules, 1978.

The above said product was already marketed in Pakistan with In-House Specification before transfer. As the same product is registered in Reference countries with in-house specification and marketed. We need some time to update our product specification as per Pharmacopeia for Pakistan.

We request to provide two years wavier for us to be compliant with Pharmacopeia Specification and allow us to import with in-house Specification till that time. We assure, we will update and submit the documents upon completion of this process".

Fresofol 1% Comparison of In-House Specifications with BP and USP

The subject case was presented & discussed in 271st meeting of Registration Board as under: -

M/s OBS Pakistan (Pvt) Limited Karachi has requested for change in excipient of their already following registered drugs:

S.No	**Reg. No**	**Name of drug(s)**	**Existing Excipient**	**Proposed Excipient**
1	009729	Pepcidine 40 mg Tablet (Famotidine)	Ethyl Alcohol	Isopropyl Alcohol

2	016865	Zocor 10 mg Tablet (Simvastatin)	do	do
3	020750	Zocor 20 mg Tablet (Simvastatin)	do	do
4	022544	Zocor 40 mg Tablet (Simvastatin)	do	do

The firm has informed that they want to change the inactive excipients (as indicated in the table above) of said products and this minor change comes due to fact that Ethyl Alcohol comes under excisable articles, and due to which they are facing lot of problems during releasing process. For that they have requested Excise and Taxation Department Karachi to discontinue their private bonded warehouse. The Excise and Taxation Department have asked to share approval letter of change in excipient from DRAP. Firm has submitted application with prescribed fee.

Decision of 271st: Keeping in view reference sent by Excise and Taxation Department, Karachi Registration Board acceded to the request of firm for use of Isopropyl Alcohol from Ethyl Alcohol

Fresh Proceedings:

Above decision was conveyed to the firm. Accordingly, a letter received from Excise, Taxation & Narcotics Control, Sindh Karachi dated 6th August, 2020 on subject i.e. usage of isopropyl alcohol instead of ethanol / rectified spirit in medicines and stated as under: -

> " I am directed to refer to your letter No. Nil dated 20-04-2020 addressed to M/s OBS Pakistan (Pvt) Ltd, Karachi. Before proceeding further this office has floated a questionnaire to M/s Pakistan Council of Scientific & Industrial Research, (PCSIR) wherein several questions were enlisted among them a question "Whether Isopropyl Alcohol can be used in the manufacturing of medicine instead of rectified spirit / ethanol" was framed. PCSIR in its report dated 07-07-2020 replied that "Isopropyl Alcohol cannot be used in the manufacturing of medicine as a raw material. However, it can be used in the sterilization / disinfection of the floors, instruments, machineries of pharmaceutical industries". In light of above report of PCSIR approval given in favor of M/s OBS Pakistan for the usage of Isopropyl Alcohol instead of rectified spirit in the manufacturing of medicine is astonishing and deserve justification to proceed further".

Decision: Registration Board advised to confirm its usage as excipient and inform Excise and Taxation Department, Karachi accordingly.

Case No.13: REGISTRATION OF DRUGS UNDER DRUGS ACT, 1976.

The subject case was presented & discussed in 288th meeting of Registration Board as under: -

B. M/s. Shijiazhuang No. 4 Pharmaceutical Co., Ltd., No. 288, Zhujiang Road, High Tech Industrial Development Zone, Shijiazhunang, Hebei, China.

S. No.	Name of Importer/ Manufacturer & meeting number	Name of Drug/ Composition/	Panel of Inspector(s)/ Date of inspection
1.	M/s. S.K. Enterprises, Office No. 701, 7th floor KS trade tower, Shahrah e Liaquat Karachi./ M/s. SK+METROSIM Infusion Solution for IV infusion Each 100 ml contains:- Metronidazole…500mg (ANTIPROTOZOALS)	(i) Dr. FakhruddinAamir, Additional Director, Drug Regulatory Authority of Pakistan, Islamabad. (ii) Mr.Zaheer-ud-Din Muhammad Babar, Deputy Director, Drug Regulatory Authority of Pakistan, Islamabad.
		SK+CIPROSIM Injection Solution for IV Injection Each 100 ml contains:- Ciprofloxacin (as lactate)…200mg (Quinolones)	

	Manufacturer & Market Authorization Holder:- M/s. Shijiazhuang No. 4 Pharmaceutical Co., Ltd., No. 288, Zhujiang Road, High Tech Industrial Development Zone, Shijiazhunang, Hebei, China. **(M-278)**	SK+RINGERSIM Infusion Solution for IV Infusion Each 500ml contains:- Sodium lactate…….1.6g Potassium chloride..0.2g Calcium chloride dehydrate….0.135g Sodium chloride……3g (electrolytes)	10th& 11th December, 2018

Comments/ Remarks of the Panel.

i. The CoPP of all the three products i.e. SK+Metrosim Infusion solution for IV infusion, SK+Ciprosim Injection solution for IV Injection and SK+Ringersim Infusion Solution for IV Infusion mentions manufacturer and product license holder as M/s Shijiazhuang No. 4 Pharmaceutical Co., Ltd., No.288 Zhujiang Road, High & New tech Development Zone, Shijiazhuang, Hebei, China, Yangzi Road, Shijiazhunang Economic and Technological Development Zone Hebei PRC. The SK+Metrosim Infusion solution for IV infusion and SK+Ciprosim Injection solution for IV Injection are manufactured at the premises located at No.288 Zhujiang Road, High-tech Industrial Development Zone, Shijiazhuang while the product is manufactured at another premises located few streets away having address M/s Shijiazhuang No. 4 Pharmaceutical Co., Ltd., Yangzi Road, Economic and Technological Development Zone Shijiazhunang, Hebei, China. However, the Quality Control and Batch release is done at the premises situated at No.288 Zhujiang Road.

ii. The management of the firm informed that the COPP are issued at the legal address, which mentions both above premises, while the GMP certificate mentions the manufacturing site and facilities. The manufacturing facility at No.288 Zhujiang Road, High-tech Industrial Development Zone, Shijiazhuang are well designed and adequately equipped having effective system and controls for cGMP compliance.

iii. The report of the premises situated at Yangzi Road, Economic and Technological Development Zone Shijiazhunang, Hebei, China., which manufactures SK+Ringersim Infusion Solution for IV Infusion, in addition to above details, states that the manufacturing facility of SK+Ringersim Infusion Solution is state of art facility and all the process from dispensing of raw material to the manufacturing of finished products are automatic with least involvement of workers. The facility have latest HVAC and WFI system. The firm claims to be the largest manufacturing of IV solutions in china. The premises appears to comply GMP requirements as observed at the time of visit.

The details regarding manufacturer / MH Holder as per Form-5A, CoPP& GMP submitted by the firm are as under:

Sr. No.	Product Name	Manufacturer / MA Holder as per Form-5A	Manufacturer / MA Holder as per CoPP	Manufacturer as per GMP
1. 4.	Water for Injection (10ml) Each ampoule contains: Sterilized water for Injections …….10ml (Eur. Ph. Specification) (Reg.No.045354)				

Remarks:

Firm not provided documents pertaining to Drug Substance part in Module 3 while documents pertaining to Drug Product part was complete. The Reason/Justification provided was *"being diluents (of Ceftriaxone injection) manufacturer performed all studies on FPP rather than Drug Substance. Hence DMF related part was not included"*

Further, the title/name of firm has also been changed from M/s Martin Dow Pharmaceuticals Limited to M/s Martin Dow Limited (DML No.000267-Formulation) vide Licensing Division's letter No.F.6-4/2014-Lic (M-235) dated 30th June, 2014 (Manufacturing site remains the same) and the firm has also requested for the change of title /name of firm for the above mentioned products.

Decision of 295th Meeting of Registration Board:

Registration Board deferred for provision of information regarding quality control release of the products.

Updated Submission:

The firm has submitted that they will perform testing & quality control release of the above-mentioned products at their licensed premises i.e. M/s Martin Dow Ltd, Plot No.37, Sector 19, Korangi Industrial Area, Karachi.

Decision: Registration Board acceded to request of M/s Martin Dow Ltd, Plot No.37, Sector 19, Korangi Industrial Area, Karachi for change of bulk manufacturer of their registered drugs from M/s Cenexi SAS, France to M/s Siegfried Hameln GmbH, Germany. However, repacking and quality control release will be performed at M/s Martin Dow Ltd, Plot No.37, Sector 19, Korangi Industrial Area, Karachi.

iii. Request for change of manufacturing site of registered product of M/s ICI Pakistan Ltd, S-33, Hawkes Bay Road, S.I.T.E Karachi

M/s ICI Pakistan Ltd, Karachi has requested for change of manufacturing site of their following registered products from M/s Pfizer Pakistan Ltd, Karachi to their own.

S.#	Reg. No.	Name of Product with Composition	Remarks
1	097003	Citralka Liquid Each 5ml contains: Disodium Hydrogen Citrate……1.315g (As per innovator's specifications)	Stability data (both accelerated and real time studies) submitted for 6 months. Being titrimetric analytical method, chromatograms are not applicable.

In this regard, the firm has submitted the following documents;

i. Application on Form-F along-with Fee of Rs.20,000/- (Dated 20-Nov-19)
ii. Copies of Initial Registration letter dated 28th June, 2019.
iii. Evidence of Section approval by CLB dated 28th June, 2019.

M/s ICI Pakistan Limited acquired the registration of Citralka Liquid from Pfizer Pakistan Limited under an Asset Purchase Agreement dated 19th May 2017. Subsequently, ICI Pakistan Limited applied for transfer of registration and contract manufacturing permission for local manufacturing on 15th March 2018.

Registration Board approved Citralka registration in the name of ICI Pakistan Limited on contract manufacturing basis by Pfizer Pakistan Limited in its 284th meeting and approval letter was issued after completion of other formalities on 28th June 2019.

The case was discussed in 295th meeting of Registration Board and decided as follows:

Decision 295th meeting: Registration Board deferred for evaluation of registration application and completion of documents as per Form5F.

Application of firm was reassessed. Documents were deficient as per Form5F which were communicated vide letter No. F.295-RB/2020 (PR-1) dated 13.08.2020. The reply was reassessed and deficiencies were again communicated vide letter No. F 1-1/2020-PR-1 (Deficiency) dated 25.08.2020 and reply was submitted as follows:

1) Documents for the procurement of API in the name of ICI Pakistan Limited, Karachi are required. Since MA holder as well as manufacturer will be ICI Pakistan Limited Karachi

Submission:
As the current manufacturer, Pfizer Pakistan procured the API for manufacture of Citralka. ICI Pakistan Limited acquired API of Citralka from Pfizer Pakistan to conduct its stability as the same product will be manufactured by ICI Pakistan Limited, following DRAP approval.

2) The result of verification studies of drug substance performed by the drug product manufacturer is not submitted in section 3.2.S.4.3.

Submission:
Analytical method verification of drug substance has been submitted by ICI Pakistan Limited, Karachi.

3) Submit results of analysis of relevant batch(es) of drug substance performed by drug product manufacturer used during product development and stability studies, along with Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacture

Submission
Certificate of Analysis of relevant batch (i.e. 42181212) of Drug Substance performed by ICI Pakistan, Limited is submitted.

4) Submit real time stability study data of drug substance in section 3.2.S.7 conducted as per zone IV-A conditions

Submission:
Real time stability data of drug substance is not as per zone IV-A condition. In the light of decision of Registration Board 290th meeting following data is required:

- Record of data logger for the storage conditions throughout the transportation.
- Real term stability studies data of the product for at least 1 year along with degradation studies in the finished pharmaceutical product

Firm had performed real time stability data for the period of 12 months as per zone IV-A conditions. Moreover, firm has submitted degradation studies performed on a single batch T-01 at 50°C for the period of 24 hours. Parameters studied were description/physical appearance, PH and Assay.

Firm has submitted undertaking to continue stability studies along with degradation/stress studies throughout the shelf life of product and results will be communicated.

Regarding data logger for storage conditions firm has submitted declaration from API manufacturer that storage condition of material is STORE IN TIGHTLY CLOSED CONTAINER PROTECTED FROM SUNLIGHT. Further it is stated that temperature control is not required.

5) Submit data of pharmaceutical equivalence of the applied drug with the innovator / reference / comparator product.

Submission:

Firm has submitted pharmaceutical equivalence data in comparison with reference product manufactured at M/s Pfizer Pakistan Ltd, Karachi. The parameters studied were description/physical characteristics, PH and Assay. Results of three batches (T-01, T-02 & T-03) were comparable with results of studied batches of reference product.

Decision: Registration Board acceded to request of M/s ICI Pakistan Ltd, S-33, Hawkes Bay Road, S.I.T.E Karachi for change of manufacturing site of their registered product i.e Citralka Liquid (Reg. No. 097003) from M/s Pfizer Pakistan Ltd, Karachi to their own site i.e. M/s ICI Pakistan Ltd, S-33, Hawkes Bay Road, S.I.T.E. Karachi.

M-289

iv. Change of Registration Status from Import to Local Manufacturing by M/s Abbott Laboratories (Pakistan) Ltd, Karachi.

Dy.No.11968 (R&I) dated: 2-Apr-18

M/s Abbott Laboratories (Pakistan) Ltd, Karachi have requested for transfer of their following registered product from finished import to local manufacturing. The details are as under;

Sr. No.	Reg. No	Name of Drug(s) & Composition	Existing Manufacturer	Proposed Source of Manufacturer of Pellets	Proposed Formulation and repacking site
1	009192	**Froben SR Capsule** Each capsule contains: Flurbiprofen sustained release pellets…200mg	M/s. Famar, L'Aigle, France	Alphamed Formulations Pvt. Ltd. Sy. No.225, Sampanbole Village Shamirpet Mandal, Medchal –Malkargiri District Telangana-500078, India.	M/s Abbott Laboratories (Pakistan) Ltd, Opposite Radio Pakistan Transmission Centre, Hyderabad Road, Landhi, Karachi

The firm has submitted following documents:

1. Fee of Rs. 100,000/- **(2-Apr-18)** deposited.
2. Application on Form-5.
3. Copy of initial registration (28-Jul-1986) letter and renewal confirmed from RRR Section.
4. cGMP of Pellets Manufacturing Site (Valid till 08-May-2020).
5. Stability Data of Pellets (Zone IV-A) Real & Accelerate time.
6. Certificate of Analysis of Pellets.
7. Undertaking regarding impact of Shelf life.

Decision of 289th meeting of Registration:

Registration Board deferred the request of firm for NOC from marketing authorization holder / manufacturer.

Updated Submission: *Dy.No.48 (PR-I) dated 8-July-2020*

Now, the firm has submitted original NOC (legalized) dated 19.02.2020 from manufacturer of Froben SR Capsules i.e. M/s Famar L' Agile, France dully attested by Pakistan Embassy-France.

Decision: Registration Board acceded to request of M/s Abbott Laboratories (Pakistan) Ltd, Karachi for change of registration status of their registered product i.e. Froben SR Capsule (Reg. No. 009192) from finished import to local manufacturing at M/s Abbott Laboratories (Pakistan) Ltd, Opp. Radio Pakistan Transmission Centre, Hyderabad Road, Landhi, Karachi.

Case No.02: Cases Referred by Post Registration Variation Committee (PRVC).

37-PRVC

i. Change of Finished Product Specification of Registered Drug (s).

The following products of M/s MKB Pharmaceuticals (Pvt.) Ltd, Plot #66, Hayatabad Industrial Estate, Peshawar for the change of finished product specifications of registered drugs were discussed in 37th meeting of PRVC. The details are as under;

Sr.#	Reg. No.	Name of Drug(s) with composition & specification	Proposed Specification	Justification	Remarks
1.	046864	Mobilex 7.5mg Tablets Each tablet contains: Meloxicam……7.5mg **(BP Specification)**	USP Specification	BP method shows interference in results with our excipients due to which peak resolution is not good enough. In USP method, there is no such interference found. In BP monograph for assay, mixing time for sample preparation is **03 hours,** however, in USP monograph its just 30 minutes. In USP monograph sample concentration for 7.5mg and 15mg tablets are mentioned, which creates any easy approach to follow instructions for sample preparation. In USP, product is tested on isocratic HPLC system and in BP its now gradient which is more time consuming.	Assay limit in USP: 90-110% Assay limit in BP: 95-105%
2.	046865	Mobilex 15mg Tablets Each tablet contains: Meloxicam……..15mg **(BP Specification)**	USP Specification		Assay limit in USP: 90-110% Assay limit in BP: 95-105%
3.	086480	Nerish 500mcg Tablets Each sugar coated tablet contains: Mecobalamin…….500mcg **(JP Specification)**	USP Specification	In JP monograph, injection volume is 10uL, due to this low injection volume our standard RSD% for 5 injections is always greater than 2.0%. In USP monograph, injection volume is 50uL, and RSD% for 5 standard injection is under 1.0%. In JP method our excipients interferes with active drug peak areas due to which peaks areas are fused. In USP method acitive drug peak areas are clear. Our samples are showing uniform results in	Mecobalamin tablet is available in Dietary USP.

				Mobile phase as mentioned in USP monograph while the procedure as mentioned in JP monograph, which involves dilution of samples with water & methanol is not giving satisfactory results.	

Decision of 37-PRVC:

The Committee referred the case to Registration Board.

Decision: Registration Board decided as follows:

1) **Acceded to request for change of finished product specifications from BP to USP for products at Sr. No. 1-2.**
2) **Did not accede to request for product at Sr. No. 3 because applied formulation exist in Dietary supplement compendium of USP.**

Furthermore, Registration Board authorized its Chairman to grant approval for change of finished product specification from one pharmacopeia to another pharmacopeia.

43-PRVC.

ii. The request of M/s Bosch Pharmaceuticals (Pvt.) Ltd, Plot No.209, Sector 23, Korangi Industrial Area, Karachi for change of Finished Product Specification of Registered Drug was discussed in 43rd meeting of PRVC. The details are as under;

(Page No.689 – 700/C.) *Dy.No.19534 (R&I) dated: 2-Oct-2019*

Documents as per SOP submitted as under;

a. Fee of Rs.5,000/- for each product (**17-Sep-19**).
b. Copies of initial Registration letter & last renewal status.
c. Relevant Documents for the proposed change.

Sr.#	Reg.No.	Name of Drug(s) with composition	Date of initial reg.& renewal	Proposed Specification	Remarks/Comments
10.	070607	Bofalgan 1g/100ml Infusion Each 100ml contains: Paracetamol……..1gm **(BP Specification)**	18-Aug-11 23-Feb-16	Manufacturer's Specification	The requisite formulation is not available in BP Specification. Hence, correction is needed in finished product specification FPP specification may be granted as per innovator's specification, in the light of decision of RB 267th meeting.

Decision: The Committee referred the request of firm to Registration Board.

Decision: Registration Board deferred the request of M/s Bosch Pharmaceuticals (Pvt.) Ltd, Plot No.209, Sector 23, Korangi Industrial Area, Karachi for submission of data as per decision of Registration Board 267th meeting.

Case No.03: Application for Manufacturing of Already Registered Drug(s) on contract Manufacturing Basis.

In pursuance of DRAP's Circular No.F.76-DRAP/2020 (PE&R) dated 5th May, 2020 regarding **"Priority Approval / Registration of Drugs During the Covid-19 Pandemic"** for priority registration of formulation of Azithromycin.

M/s Martin Dow Marker Limited, 7, Jail Road, Quetta has requested for manufacturing of their following already registered product from M/s Nabiqasim Industries (Pvt.) Ltd., 17/24, Korangi Industrial Area, Karachi on contract manufacturing basis due to non-availability of filling machine at their site. The details of the product are as under;

Sr. No.	Reg. No.	Name of drug with composition	Date of initial registration	Documents submitted
1.	100281	Arzomic Suspension 200mg/5ml Each 5ml contains: Azithromycin dihydrate eq.to Azithromycin……200mg (USP Specification)	19-Dec-19	➢ Application on Form-5 along-with fee of Rs.50,000/- dated 3-Jun-2020. ➢ Copy of initial registration letter. ➢ Copy of agreement b/w contract giver/acceptor (dated 1-Apr-2020). ➢ Copies of DMLs of contract giver/acceptor. ➢ Copy of section approval of proposed manufacturer. ➢ Undertaking.

Decision: Registration Board deferred for registration status of other Dry powder suspension products and justification for contract manufacturing.

Case No.04: Request to allow Campaign Manufacturing of Dexamethasone Injection in Pandemic Situation.

Dy.No.108 (PR-I) dated 27-July-2020

The case of change of title/name of manufacturer from M/s Cirin Pharmaceuticals (Pvt.) Ltd., to M/s ICI Pakistan (Pvt.) Ltd., (site remains the same i.e. 32/2-A, Phase-III, Industrial Estate, Hattar) vide Licensing Division's letter No.F.3-4/92-Lic (Vol-III) (Pt.) dated 18th February, 2020 under DML No.000363 (Formulation) & corrigendum issued on 20-February-2020 for their already registered products; **wherein the following two products were deferred in 38th meeting of PRVC for provision of evidence of section approval Liquid Injectable (Steroid).**

Sr.No.	Reg. No.	Name of Drug with composition	Pack size
1.	060033	Adrenaal Injection Each ml contains: Dexamethasone (as Sodium Phosphate)……....4mg (USP Specifications)	1mlx25's
2.	063093	Adrenaal Injection Each ml contains: Dexamethasone Sodium Phosphate equivalent to Dexamethasone Phosphate.....4mg (USP Specification)	5mlx1's

Firm has not submitted the evidence of section approval of Liquid Injectable (Steroid) but have requested to allow them campaign manufacturing of Dexamethasone Injection as the recent pandemic caused by Covid-19 has led to various studies and trials around the world on different therapeutic solutions against the Coronavirus; one solution is Dexamethasone.

Dexamethasone has been on the World Health Organization Model List of Essential Medicine since 1977. It is a corticosteroid used in a wide range of conditions for its anti-inflammatory and immunosuppressant effects. It was tested in hospitalized patients with Cofid-19 in the United Kingdom's national clinical trial RECOVERY and was found to have benefits for critically ill patients. According to WHO, "for patients on ventilators, the treatment was shown to reduce mortality by about one-third and for patients requiring only oxygen, mortality was cut by about one-fifth". The

health ministry of Japan has also approved the use of the steroid drug dexamethasone for the treatment of novel coronavirus patients.

As a long term solution for manufacturing of Dexamethasone, M/s ICI Pakistan is currently evaluating following two options (either of options will take time to materialize);

i. Construction of Liquid Injectable (Steroid) Section.
ii. Toll Manufacturing arrangement with a third party who have the necessary approved section for manufacturing of Liquid Injectable (Steroid).

Now, the firm has requested that considering the extremely urgent need of Dexamethasone in pandemic, M/s ICI Pakistan may be allowed to manufacture "Corticosteroids" in their approved liquid injectable section on campaign basis by ensuring strict GMP compliance to ensure its free availability for the benefit of patients and medical profession.

Decision: Registration Board did not accede to request of M/s ICI Pakistan (Pvt.) Ltd., 32/2-A, Phase-III, Industrial Estate, Hattar for campaign manufacturing of above-mentioned products as segregated facility is required as decided by Central Licensing Board.

Case No.05: Deferred Cases by 295th Meeting of Registration Board.

i. Change of Contract Manufacturer of Registered Drugs of M/s Bosch Pharmaceuticals (Pvt.) Ltd Karachi from own Plant-I to Plant-II.

Dy.No.4591 (R&I) dated: 16-Mar-20.

M/s Bosch Pharmaceuticals (Pvt.) Ltd, **(Plant-I)** 221, Sector 23, Korangi Industrial Area, Karachi has requested for manufacturing of their following registered products from **Plant-II** i.e. Plot No.209, Sector 23, Korangi Industrial Area, Karachi. The details are as under;

Sr. No.	Name of Drug(s) with Composition & Reg.No.	FPP specification Status	Date of initial Reg. & Renewal Status	Existing Address of Manufacturer	Proposed Address of 01Manufacturer	Documents Submitted & Remarks (if any)
1.	B Tig 50mg Injection Each vial contains: Tigecycline……..50mg **As per Innovator's Specification** (Reg.No.084761)	Formulation exist in USP	18-Sep-17	M/s Bosch Pharmaceuticals (Pvt.) Ltd, **(Plant-I)** Plot No.221, Sector 23, Korangi Industrial Area, Karachi	M/s Bosch Pharmaceuticals (Pvt.) Ltd. **Plant-II:** Plot No.209, Sector 23, Korangi Industrial Area, Karachi	➢ Fee of Rs.50,000/- for each product. ➢ CTD dossier for each product. ➢ Copies of initial registration letters & last renewal status for each product. ➢ Copies of Section approvals. ➢ Contract manufacturing agreement ➢ Undertaking.
2.	Zezot 500mg Injection Each vial contains: Azithromycin (as Dihydrate) ……..…..500mg **Manufacturer's specification** (Reg.No.055017)	Formulation exist in USP	16-Jan-09 28-Nov-16			
3.	Q-Pro 30mg Injection Each vial contains: Lansoprazole……30mg **USP specification** (Reg.No.055018)	Formulation exist in USP	16-Jan-09 28-May-18			
4.	Somezole20mg Injection Each lyophilized vial contains: Esomeprazole (as Sodium) ……..20mg Manufacturer's specification (Reg.No.047446)	Formulation do not exist in any official monograph May be approved with	19-Jan-08 12-Oct-17			

		innovator's specification				
5.	Somezole40mg Injection Each lyophilized vial contains: Esomeprazole (as Sodium) …….40mg Manufacturer's specification Reg.No.045386)	-do-	13-Jun-07 21-Sep-16			
6.	Ticozid 200mg Injection Each vial contains: Teicoplanin……200mg Manufacturer's specification (Reg.No.050514)	-do-	27-Aug-08 5-Apr-18			
7.	Ticozid 400mg Injection Each vial contains: Teicoplanin……400mg Manufacturer's specification (Reg.No.050515)	-do-				
8.	Vinjec 500mg Injection Each vial contains: Vancomycin HCl 525mg eq.to Vincomycin ….500mg (Reg.No.024114)	Formulation exist in USP/BP/JP	7-Oct-02 22-May-17			
9.	Vinjec 1000mg Injection Each vial contains: Vancomycin HCl 1050mg eq.to Vincomycin …….1000mg (Reg.No.024115)	Formulation exist in USP/BP/JP				
10.	Zentro 40mg Injection Each vial contains: Pantoprazole Sodium 44.39mg eq.to Pantoprazole …...40mg Manufacturer's specification (Reg.No.045388)	Formulation do not exist in any official monograph May be approved with innovator's specification	12-Jun-07 21-Sep-16			
11.	Omezole 40mg Injection Each vial contains: Omeprazole (as Sodium) …...40mg (Reg.No.024245)	-do-	7-May-02 21-Sep-16			

Remarks:

1. Validated analytical method of FPP was **not provided**.
2. Stability data (accelerated and real time) of only initial/0 month of FPP was submitted only; however, undertaking was submitted regarding submission of rest of data both accelerated and real time shall be submitted upon completion.
3. Impurity studies were **not performed** by FPP manufacturer (neither of Drug substance nor FPP)
4. Description regarding container closure system/suitability studies was **not provided.**

Decision 295th meeting:
Registration Board deferred the request of firm for provision of above mentioned documents.

Updated status:
Firm has submitted documents in reply of deficiency letter No. F 1-1/2020-PR-1 (Deficiency) dated May 11,2020 as follows:

S.No	Required documents	Submission	Remarks
1.	Drug substance related documents (documents confirming import of API including AD attested commercial invoice etc.) and valid GMP certificate of API manufacturer as required under subsection 1.6.5 of Module 1.	Attested commercial invoices/ CoA are provided	Complied
2.	Analytical procedure and Batch analysis of API by FPP manufacturer as required in Drug Substance part of Module-3	Relevant batch of API has been analyzed by FPP manufacturer	Complied
3.	Validated analytical method should be submitted and specifications should be justified as required under sub section **3.2.P.5.6** (justification of specification) of Module-3.	Validated analytical methods are submitted.	Specifications of formulations available in pharmacopeia need to be justified
4.	Formulation Development and Pharmaceutical Equivalence, comparative study with the innovator product as required in Module-3.	Not applicable	To be submitted
5.	Description of the container closure system, the suitability of the container closure system used for the storage, transportation (shipping) and use of the drug product.	Provided	Complied
6.	Stability Summary and protocol (for both accelerated & long term studies) along with chromatogram, and stability data as required under Drug Product part of Module-3.	Stability data (accelerated and real time) of only initial/0 month is submitted and undertaking provided regarding submission of rest of data both accelerated and real time upon completion.	Stability data for at least three points of time (0,3,6 months) to be provided
7.	Certificate of analysis of drug product by FPP manufacturer	Provided	Complied
8.	Administrative documents such as contract mfg agreement, registration letters/ renewal status	Provided	Complied

Decision: Registration Board deferred the request of M/s Bosch Pharmaceuticals (Pvt.) Ltd, Karachi for submission of above-mentioned shortcomings.

ii. Request for grant of Contract Manufacturing Permission to M/s Helix Pharma (Pvt.) Ltd, Karachi

M/s Helix Pharma (Pvt.) Ltd, Karachi has requested for grant of permission for contract manufacturing of their following registered products from M/s Opal Laboratories (Pvt.) Ltd, Karachi.

S.#	Reg. No.	Name of Product with Composition	Initial date of registration/ last date of renewal	Demanded FPP specifications	Remarks
1.	028931	Tycef Capsule Each capsule contains: Cefixime……..400mg	13th August 2002 02 August 2017	JP	Firm performed CDP in comparison to Cebosh capsule 400mg in lieu of innovator's product i.e Suprax capsule.
2.	028165	Tycef Paediatric Suspension	10th August 2002 02 August 2017	USP	Comparative study was performed against Vencef

		Each 5ml contains: Cefixime Trihydrate eq. to cefixime …….100mg			100mg suspension by Opal Lab in lieu of innovator's product Suprax 100mg oral suspension
3.	048552	Tycef DS Suspension Each 5ml contains: Cefixime Trihydrate eq. to cefixime…..200mg	20th March 2008 19th March 2018	USP	Comparative study was performed against Vencef DS suspension by Opal Lab in lieu of innovator's product Suprax 200mg oral suspension

The reason provided by firm for proposed change is business feasibility considering the low volumes and turnover with low margins of the said product and excess capacity/manufacturing facility at M/s Opal Laboratories, Karachi.

In this regard, the firm has submitted the following documents;

- **i.** Application on Form-F along-with Fee of Rs.50,000/- each product (dated 15-Oct-19)
- **ii.** Copies of Initial Registration and renewal status.
  Contract manufacturing agreement between M/s Helix Pharma (Pvt.) Ltd, Karachi and M/s Opal Laboratories (Pvt.) Ltd, Karachi dated 24.07.2019
- **iii.** Section approval letter by CLB dated 09-April-2014 (M/s Opal Laboratories (Pvt.) Ltd)
- **iv.** Last GMP inspection report of M/s Opal Laboratories (Pvt.) Ltd, Karachi dated 19th September 2019.

Decision of 293rd meeting: Registration Board deferred the request of firm for status of cephalosporin section (capsule/dry suspension) of M/s Helix Pharma (Pvt.) Ltd, Karachi.

Updated Submission:

The firm has submitted clarification regarding Capsule/dry suspension cephalosporin section which was approved in 13th June 2002 vide letter No. F.2-20/84-Lic Vol-II (M-192). Firm has initiated a major renovation/up gradation project, revised lay out plan has been approved by Licensing division dated 22nd July, 2019 vide letter No. F.2-20/1984-Lic (Vol-IV). Considering that current renovation/up gradation project firm's business viability of cephalosporin area complemented with available excess capacity at manufacturing facility of M/s Opal Laboratories, Karachi for interim period of 03 years.

Decision 295th meeting: Registration Board deferred the request of M/s Helix Pharma (Pvt.) Ltd, Karachi for manufacturing of their above mentioned products on contract manufacturing basis from M/s Opal Laboratories (Pvt.) Ltd, Karachi for submission of renovation plan along-with clear timelines and undertaking**.**

Updated status:

The firm has submitted renovation plan along-with clear time lines and undertaking that approved renovation plan will be completed within a period of 12 to 16 months after obtaining DRAP approval for contract manufacturing of Tycef range of products. The time lines submitted as follows:

Phase 1: Renovation of general packaging area (tablets and capsules) will be completed by Dec-2020
Phase II: Renovation of blistering, coating &encapsulation will be completed by May 2021.
Phase III: Renovation of Dry Suspension, blending, granulation and packaging will be completed by November 2021
Phase IV: Renovation of liquid manufacturing, filling and packing will be completed by March 2022.
Phase V: Renovation of oral cephalosporin (capsule and dry powder suspension) will be completed by Feb,2022

Form 5F of firm was reassessed in the light of guidelines regarding implementation of CTD discussed in 293rd meeting of Registration Board. Following documents were submitted by the firm as per checklist approved by Registration Board in 293rd meeting:

Documents required	Status	Remarks
1. Form 5-F:	Complied	
2. Requisite fee:	Complied	
3. Valid DML / DSL:	Complied	

4. Evidence of GMP compliance of relevant section:	Complied	
5. Evidence of approval status in RRA:	Complied	
6. QOS (Quality Overall Summary) as per WHO QOS-PD Tem-plate:	Complied	
For Module-3, in Drug Substance part:		
3.2.S.2.1: Manufacturer(s) site address	Complied	
3.2.S.4.4: Certificate of Analysis (COA) of both drug substance(s) manufacturer and drug product manufacturer:	Complied	
3.2.S.7: Stability data of 3 batches at accelerated and real time conditions:	Complied	Data submitted as per Zone-IVA condition
For Module-3, in Drug Product part:		
3.2.P.2.2.1: Product development, description of dosage form, Pharmaceutical Equivalence through Comparative Dissolution Profile (where applicable)	Complied	
3.2.P.3.5: Process validation:	Complied	
3.2.P.5.1: Specifications of drug product:	Complied	
3.2.P.5.3: Validation / verification of analytical procedures summary / reports:	Complied	
3.2.P.8.3: Stability data:	Complied	Stability data submitted along with supporting documents like chromatograms, Raw data sheets, COA, summary data sheets etc. Compliance Record of HPLC software 21CFR & audit trail reports on product testing submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers submitted

Decision: Registration Board acceded to request of M/s Helix Pharma (Pvt.) Ltd, Karachi for contract manufacturing of their above mentioned registered products from M/s Opal Laboratories (Pvt.) Ltd, Karachi for the period of 16 months as per Rule 20A(1)(c) of Drugs (Licensing, Registering and Advertising) Rules, 1976.

The firm will submit quarterly progress report on the activities undertaken under the aforementioned submitted plan for appraisal of Registration Board. In case of non-compliance for above time lines, Registration Board will be informed accordingly.

iii. Change of Primary Packaging.

Dy.No 3960 (R&I) dated: 9-Mar-20 & Dy.No. 6795 (R&I) dated: 10-Apr-20

M/s. Pharmatec Pakistan (Pvt.) Ltd; Karachi requested for change in primary packaging material of following products details are as under:

Sr.#	Reg. No.	Name of Product with composition	Existing Packaging	Proposed Packaging	Remarks
1.	019762	Reltus DM liquid Each 5ml contains: Dextromethorphan HBr ……. 10mg Pseudoephedrine HCl…….30mg Chlorphineramine Maleate……2mg	Amber glass bottle Alu cap 25mm with 1.8 WAD	Amber PET bottle Plastic cap PET bottle 60/120ml	RRA approval status not confirmed

2.	017570	Reltus cough expectorant Ammonium Chloride ……. 100mg Phenylephrine HCl…….5mg Chlorphineramine Maleate……2mg	Amber glass bottle Alu cap 25mm with 1.8 WAD	Amber PET bottle Plastic cap PET bottle 60/120ml	RRA approval status not confirmed

The stability data submitted by the firm **(accelerated=6months & Long-term= 6months).**

Details of Submission:

Firm has submitted the following documents as per SOP (approved in 283rd meeting).

Sr.#	Documents Required (as per SOP M-283)	Information Provided
1.	Application with required fee as per relevant SRO.	Date of applications 10-April-2020; Rs.5,000/- for each product.
2.	Copy of registration letter and last renewal status	Reg. No. 019762 (dated 07-08-1996) Last renewal dated 27.05.2015 (Rs.10,000/-) Reg. No. 017570 (dated 27-06-1995) Last renewal dated 27.05.2015 (Rs.10,000/-)
3.	Justification of proposed change including data on the suitability of the container-closure system (e.g. extractable/ leachable testing (where applicable), permeation testing, light transmission) demonstrating equivalent or superior protection compared to the current packaging system. For changes to functional packaging related to container closure (e.g. MDIs etc.), data to demonstrate the functioning of the new packaging	Data regarding suitability of proposed packaging material is provided from supplier i.e. Novatex Ltd. Following tests are performed: a) Leachable/extractable test as prescribed by FDA b) heavy metals determination
4.	If the container closure system of applied formulation is different from that of the reference product, manufacturer will place first three lab scale batches or developmental scale batches as set by Registration Board in 276th meeting, at 3 months of accelerated and 3months of real time studies for compatibility of applied formulation with container closure system as directed by Pharmacopeia of Reference Regulatory Authorities. Registration Board shall be informed immediately and along with market withdrawal in case of any significant change about result of stability studies	**Accelerated studies** (Temp 40◦C±2◦C/ RH 75%±5%) Interval: 0,3,6 months **Long term studies** (Temp 30◦C±2◦C /RH 65%±5%) **Interval**: 0,3,6 months **Reltus DM liquid** **Testing parameters**: description, ph, assay (dextromethorphan, pseudoephedrine, chlorphineramine maleate, microbiological tests (total aerobic count, yeast and mold count, gas forming organism. Batch No: 0383, 0267, 0381 Type of container: Amber PET bottle with plastic cap **Reltus cough expectorant** **Testing parameters**: description, ph, assay (ammonium chloride, phenylephrine, chlorphineramine maleate, microbiological tests (total aerobic count, yeast and mold count, gas forming organism. Batch No: J67BH, J67B1,189PE Type of container: Amber PET bottle with plastic cap **Batch size:** 6000 bottles **Sample size**: 15 bottles for real time studies, 5 bottles for accelerated studies.
5.	Shelf life of drug product supported with justification.	Provided
6.	Existing and proposed container closure system with differences (e.g. description, materials of construction of primary packaging components, specifications, if appropriate) highlighted in tabular form.	Comparison between Amber glass bottle and Amber PET bottle is provided in tabulated form.

7.	If the proposed change requires change in manufacturing section/ facility, then a new registration application with prescribed fee shall be submitted.	Not applicable
8.	An Undertaking that: • To perform stress studies. • In case of any quality complaint/OOS result observed by the marketing authorization holder as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately. • Provided information is true & correct.	provided

A study report for container closure system performed by Smithers lab for Novatex Ltd. as follow:

Sr.#	Tests performed
1.	Specific migration of mono and diethylene glycol, terephtalic acid and antimony by total immersion into simulants.
2.	FDA extraction test as specified inUS FDA code of federal regulations CFR21
3.	Determination of levels of Pd, Cd, chromium and mercury

Certificate of Analysis by packaging material supplier i.e. Auvitronics Limited submitted. Auvitronics Limited buy raw material from Novatex Ltd.

Remarks:

Shortcomings	Reltus Cough Expectorant (Reg.No.017570)	➢ Validated analytical testing method/pharmacopeial reference not provided
	Reltus DM liquid (Reg.No.019762)	➢ Related substances were not tested ➢ Validated analytical testing method /pharmacopeial reference not provided ➢ Chromatograms are not submitted ➢ Certificate of analysis for each point of time is not provided ➢ Stability protocol not provided

Decision 39-PRVC:

The Chairman Registration Board referred the case to Registration Board after submission of shortcomings by the firm as mentioned above.

Updated Submission:

The firm has now submitted validated analytical testing method for product Reltus Cough Expectorant (Reg.No.017570); however, documents submitted for product Reltus DM liquid (Reg.No.019762) were not satisfactory.

Decision 295th meeting:

Registration Board deferred the request of firm for confirmation of primary packaging material of same/similar formulation approved in any Reference Regulatory Authorities.

Updated Status:

1) References regarding availability of similar formulations in proposed container closure system are provided by the firm as follows:
   a) **Chlorpheniramine Maleate** containing formulation Boots children's allergy relief antihistamine syrup (MHRA approved, UK) available in PET bottle
   b) **Phenylephrine HCl** containing formulation Covonia cold & flu formula oral solution (MHRA approved, UK) available in PET bottle.
   c) **Ammonium Chloride** containing formulation Pimacolin Rasa Apel plus syrup (Indonesia, ASEAN country) available in PET bottle. (https://www.pengobatan.org/indonesia-id/pimacolin-rasa-apel-plus-syrup)

2) Firm has submitted documents regarding **Reltus cough expectorant** (Reg No. 017570) in dated 11.08.2020 as follows:

Documents submitted	Status	Remarks

Real time stability data for the period of 9 months along with raw data sheets and chromatograms, as per zone IV-A condition	Submitted	Previously firm submitted 6 months stability data for accelerated and 6 months for real time studies.
Validated analytical method	Submitted	Complied
Justification of shelf life	Based on stability data , the shelf life is proposed to be 2 years	Complied
Justification of proposed change (glass to PET)	The stability data has been found satisfactory in proposed container closure system.	Complied
Certificate of Analysis of packaging material from supplier Auvitronics Limited submitted	Submitted	Complied
Technical report (food contact compliance) from smithers prepared for Novatex Ltd.	Tests performed included: • Specific migration of mono and diethylene glycol, terephtalic acid and antimony by total immersion into simulants. • FDA extraction test as specified in US FDA code of federal regulations CFR21. • Determination of levels of Pd, Cd, chromium and mercury	Tests for pharmaceutical grade packaging material need to be performed as per USP General chapter <661> container. Following tests to be performed for PET bottle: • Multiple internal reflectance • Thermal analysis • Light transmission • Water vapor permeation • Colorant extraction • Heavy metals

Decision: Registration Board deferred the request of M/s. Pharmatec Pakistan (Pvt.) Ltd; Karachi for providing data regarding performance of tests of packaging material as per USP General chapter <661> container or any other official monograph of any reference regulatory authority for confirmation of packaging material to be used is of pharmaceutical grade or not.

Case No.01: Registration of Drug(s) of M/s. Geofman Pharmaceuticals, 20/23, Korangi Industrial Area Karachi For Export Purpose Only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5D submitted
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided **Approval of relevant section i.e Liquid injection (steroidal hormone) not verified.**
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based on inspection dated 30.12.2019
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s)	Generic/RRA Status	Diary No. date & Remarks.
I	II	III	IV
1.	Perluton Injection 500mg/2ml Each 2ml contains: Hydroxyprogesterone caproate……500mg	Me too status/ RRA status not available Purchase order from Kenya **FDA approved formulation as 250mg/ml**	Dy. No1061/ 2020-PE&R-(EFD) 27-08-2020. Rs.20000/- dated 07-07-2020 Rs.30000/- dated 23-07-2020

Decision: Registration Board deferred above mentioned product of M/s Geofman Pharmaceuticals, 20/23, Korangi Industrial Area Karachi for confirmation of injection hormone (steroid) section.

Case No.02: Registration of Drug (s) of M/s BF Biosciences Ltd. 5-Km, Sunder Raiwind Road, Raiwind Lahore For Export Purpose Only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5D submitted
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from Parenterals (Campaign Manufacturing vide decision of Drug Appellate Board (Letter No.F.1-3/2018-AB (M-15) on 04.02.2019) from DML renewal inspection report dated 22.08.2019
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from DML renewal inspection report dated 22.08.2019

Undertakings that the applied product is exclusively for export purpose & proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the product is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Diary No. date & Remarks.
I	II	III	IV
1.	Formicgen 60% Solution Each ml contains: Formic acid…….600mg	Me too status /RRA approval status not available Purchase order from Afghanistan	Dy. No.666/2019-PE&R-(EFD) 02.07.2019. Rs.50000/- dated 25.06.2019
2.	Bekchlogen 5% Solution Each ml contains: Benzalkonium Chloride……..50mg	Me too status /RRA approval status not available Purchase order from Afghanistan	Dy. No.667/2019-PE&R-(EFD) 02.07.2019. Rs.50000/- dated 25.06.2019

Decision of 291st meeting of Registration Board:

Registration Board deferred above mentioned products of M/s Biogen Pharma, 8-KM, Chakbeli Road, Rawat for evidence of approval of applied formulations in importing country.

Now, the firm has clarified that applied formulations Formicgen 60% Solution and Bekchlogen 5% Solution intended to be used as an insecticide to kill bee mites. Either used as Fumigant or applied directly on bee hives/bee path.

Applied formulation is available in China for the same purpose.

Decision 293rd meeting:

Registration Board deferred the request for clarification from the firm about indications of above mentioned products.

Now, firm has submitted detail regarding indication of above mentioned formulation as under:

Benzalkonium Chloride is primarily used as a preservative and antimicrobial agent. It works by killing microorganisms and inhibiting their further growth.

Formic acid is commonly used as preservative and antibacterial agent in livestock feed. It is widely used to preserve winter feed for cattle.

Decision 295th meeting:
Registration Board deferred above mentioned products for further deliberation.

Decision: Registration Board deliberated that as per available data, above mentioned products are not registered as drugs in any part of world. However, if applicant still want to have export registration then any document of concerned regulatory authority may be shared for consideration by the Board.

Deferred case of 293rd Registration Board meeting

Decision: The registration Board deferred the request of firm for change in brand name as matter has already been referred to DRAP's Authority.

Case No. 02: Resemblance/Similarity of brand name Mefnac of M/s Efroze Chemical Industries with Mefnax of M/s Qintar Pharmaceuticals, Sargodha.

M/s. Efroze Chemical Industries, Karachi has informed that the brand name of their registered product Mefnac tablets (Reg. No. 004481) and Mefnac DS tablets (Reg. No. 011270) has close resemblance/similarity with the brand name of product of M/s. Qintar Pharmaceuticals, Sargodha. The brief facts of this matter are as follows:

1. Registration of our Mefnac tablets was granted to Efroze Chemical Industries by the Ministry of Health much earlier than Mefnax of Qintar Pharmaceuticals as evident from the registration numbers

    - MEFNAC TABLETS (EFROZE) -- Registration No. 004481
    - MEFNAX TABLETS (QINTAR) -- Registration No. 030647

    - MEFNAC DS TABLETS (EFROZE) -- Registration No. 011270
    - MEFNAX DS TABLETS (QINTAR) -- Registration No. 030648

2. Mefnac range of products (Efroze) has been in the market since **October 1985** while Mefnax range was launched in **April 2004** i.e. after a lapse of more than 18 years.

Now, please refer to our letter No. NIL dated December 29, 2003 and subsequent reminders on the above subject:

1. No. NIL dated April 08, 2004
2. No. 786/ECI/050627-02 dated June 27, 2005
3. No. 786/ECI/050927-01 dated September 27, 2005
4. No. 786/ECI/051128-01 dated November 28, 2005
5. No. 786/ECI/070208-01 dated February 08, 2007

In response to our letters, the Ministry of Health advised M/s Qintar Pharmaceuticals to change the brand name of their product through letters

1. No. F.21-3/2005-Reg-II (North) dated December 27, 2005 &
2. No. F.21-3/2005-Reg-II (North) dated January 16, 2006 both issued by Mr. Ghazanfar Ali Khan, Assistant Drugs Controller Reg-II,
3. No. F.21-3/2005-Reg-II (North) dated November 1st, 2006 issued by M. Akhtar Abbas Khan, DDC (Reg II, North)

M/s Qintar Pharmaceuticals did not take any action to comply with the advice of the Ministry of Health per the above letters.

Due to non-compliance of the Ministry's letters by Qintar Pharmaceuticals the case was placed and discussed in the **200th meeting** of Registration Board held on September 05, 2006, and the decision was as under:

> *"The Board decided to **issue show cause notice** to M/s Qintar Pharmaceuticals Sargodha"*

Subsequently, M/s Qintar Pharmaceuticals was advised through Ministry's letter No. F.21-3/2005-Reg-II (North) dated November 01, 2006, to change the brand name of their product namely Mefnax **within a fortnight** because of similarity in brand name with Efroze's already registered and marketed product MEFNAC TABLETS.

M/s Qintar Pharmaceuticals was asked and warned by Ministry's letter no. F.13-3/2005-Reg-II (North)(M-206) dated June 06, 2007 to appear for **personal hearing** before the Board on 09-06-2007 at 10.00 am in the committee room of Ministry of Health before taking final decision, but by continuously violating the norms **no one** as a representative from M/s Qintar Pharmaceuticals appeared for the personal hearing regarding this serious issue.

Moreover, the registration board in its **204th meeting** decided to call the M/s Qintar Pharmaceuticals, Sargodha for the personal hearing. The firm called for personal hearing Mr. Azhar Hussain of M/s Qintar Pharmaceuticals, Sargodha appeared before the boards and presented the case, and the decision published in DRB **209th** dated 31st August – 1st September 2007.

> *"M/s Qintar Pharmaceuticals was **agreed to change their brand name**. The firm was advised to propose new brand name within two weeks".*

But still, Mefnax Tablet is available in market with same brand name which is pure noncompliance of DRAP decision. On the basis of above true and accurate facts we, Efroze Chemical Industries are confident to say that the product MEFNAX of M/s Qintar Pharmaceuticals should be **deregistered,** as the Ministry has already issued three letters advising to change the brand name and finally a personal hearing with Mr. Azhar Hussain of M/s Qintar Pharmaceuticals, Sargodha in which they agreed to change their brand name.

Decision: **Keeping in view the background of the case as explained above, the Registration Board decided for show cause with personal hearing in next Registration Board meeting.**

Case No. 03: M/s. Masfa Industries Pvt. Limited, Lahore (Deferred case of 290th meeting of Registration Board)

M/s. **Masfa Industries (Pvt. Limited), Lahore** has requested for change in specification of already registered products of their following registered products

S. No.	Reg. No.	Name of drug(s) with formulation	Desired specifications	Details of Fee, Registration letter and renewal status	Justification
I	II	III	IV	V	
1	071557	Meofen oral suspension Each 5ml contains:- Ibuprofen……..100mg (BP Specification)	Meofen oral suspension Each 5ml contains:- Ibuprofen……..100mg **(USP Specification)**	Dy. No. 7533 R&I dated 29-05-2019; Fee Rs. 5000/- deposited 13-09-2012 Renewal due: 12-09-2017 Applied: 14-05-2015	We are using USP grade API so, it is more feasible for us to use same product specifications.

2. <u>Decision of 290th Meeting of RB:-</u>

3.

4. Registration Board deferred the above product for submission of comparative analysis of testing methods in BP and USP.

5.

Now the firm has submitted following comparison

PARAMETERS	USP SPECIFICATIONS	BP SPECIFICATIONS
Identification	By 1-UV 2- by retention time comparison.	1- Chemical testing 2- By TLC
Assay by	HPLC	HPLC
Mobile phase	Tetra hydrofuron and water of 2.05 Ph (44% : 56%)	acetonitrile and 0.01M orthophsphoric acid (40 : 60)
Diluent	Methanol and water (1:1)	acetonitrile 0.01M orthophsphoric acid (40 : 60)
Detector	UV 254	UV 220
Column	4.6-mm × 15-cm × 5-µm	3.9-mm × 30-cm × 10-µm
Flow rate	1.0ml/min	2.0ml/min
Injection volume	25µl	10µl
Tailing Factor	NMT 3.0	NMT 2.0
Relative standard deviation	NMT 2.0%	NMT 2.0%
Ph	3.6 --- 4.6	3.6 --- 4.6
Acceptance criteria	90.0% to 110.0%	95.0% to 105.0%

Decision: The Registration Board decided to approve the change of specifications of above product from "BP Specifications" to "USP Specifications".

Case No. 04: Change of Dosage form of M/s. Pacific Pharmaceuticals Limited, Lahore

The request of M/s Pacific Pharmaceuticals (Pvt.) Ltd., Lahore for change of dosage form of their already registered product(s) was deferred in 277th meeting of the Registration Board as per detailed below.

Sr. No.	Name of product with formulation	Reg. No.	Proposed dosage form	Remarks
1	Zimol 40mg Tablet Each tablet contains:- Esomeprazole magnesium trihydrate……..40mg	052824	Zimol 40mg **Capsule** Each **Capsule** contains:- Esomeprazole magnesium trihydrate……..40mg	-
2	Zimol 20mg Tablet Each tablet contains:- Esomeprazole magnesium trihydrate……..20mg	052825	Zimol 20mg **Capsule** Each **Capsule** contains:- Esomeprazole magnesium trihydrate……..**20mg**	Application for registration of Zimol 20mg capsule was considered and approved in 282nd meeting on Export facilitation criteria.

Firm has submitted following documents:-

i. Application with fee of Rs. 20,000/- for this purpose
ii. Form -5
iii. Copy of DML
iv. Last GMP

Decision of 277th Meeting of RB:

Registration Board deferred the request for justification of proposed change in dosage form since existing formulation is also approved in reference regulatory authority authorities

Fresh submission:

Now the firm has submitted that they want to change the dosage form as per their **marketing department requirement.**

The firm has also submitted following documents:

a. Fee Rs. 100,000/- deposited dated 06-07-2020
b. Duplicate Dossier (Form-5)
c. GMP certificate, CoA and stability studies data of M/s. Murli Krishna Pharma Pvt. Limited, India

Decision: The Registration Board did not accede to the above request of firm for change of dosage form of their already registered product(s) since both formulations are approved in reference regulatory authority authorities.

Case No. 5: Delegation of Functions:

Registration Board is competent forum for grant / renewal / cancellation / suspension of registration (including post-registration variations) of drugs under section 7 of the Drugs Act, 1976 and rules framed thereunder. For timely disposal of various functions / post-registration variation cases, Registration Board, in its various meetings, has authorized its Chairman under Rule 24(10) of Drugs (Licensing, Registering & Advertising) Rules, 1976 for deciding such cases. The details of functions delegated in various meetings is as follows:

Sr. No.	Function	Registration Board meeting
1.	Relaxation / exemption in urdu version only for drugs imported for critical ailments like AIDS, cancer, vaccines, sera sutures etc subject to the condition that same shall be printed at any licensed premises prior to marketing.	262
2.	Relaxation / exemption in urdu version only for drugs to be imported in low volume by the firms having manufacturing facility in Pakistan subject to the condition that same shall be printed at any licensed premises prior to market.	262
3.	Export Registration of finished drugs for following categories except Narcotic, Psychotropic drugs and precursor chemicals. • Generic version / me too drugs of already registered formulations. • Formulations which have already been registered for export purposes. • Formulations which are approved by reference regulatory authorities (as approved by Registration Board) and yet not registered for local sale.	262
4.	Change of name of the manufacturer of imported drugs.	262
5.	Increase/ decrease in shelf life of finished drug.	262
6.	Grant of additional packing of already registered same drugs/medicines except injectables.	262
7.	Action initiated on safety of drugs.	262
8.	Change of packing from PVC to Alu-Alu, strip to blister/bottle and vice-versa etc.	262
9.	Changes of source of API-intermediates (pellets/ liquid) and excipients of registered drugs.	262
10.	Constitution of panel of inspector for product specific inspection, GMP inspection etc.	262
11.	Typographic errors in recording minutes and registration letters like composition, brand names, demanded price, pack size etc or other typing mistakes.	262
12.	Change in the packing design/packaging components/ change in label, carton/change in shape, colour of Capsule, Tablets and shape of blister/ aluminum foil.	262
13.	Change of brand names of registered drugs.	262
14.	Correction in formulation in accordance with standard formulations approved by reference regulatory authorities i.e. change from uncoated to film/ sugar coated tablet or vice versa and correction in base / salt / ester / form of API.	276

15.	Correction in specification for issuance of registration letters in accordance with decisions in 264th and 266th meetings.	276
16.	Constitution of Panel for Verification of Stability Data	277
17.	Issuance of show cause notice for already registered contraindicated/Banned injection vitamin K3 10mg/ml (menadione/ menaphthone) for cancellation of registrations	284
18.	Correction in address in registration letter as per DML applicable at that time.	288
19.	Grant of registration of diluents as combo packs for already registered/approved drugs provided that such diluents shall be provided free of cost.	290
20.	Issuance of registration letters in approved cases of ciprofloxacin granules for oral suspension containing ciprofloxacin base where revision / correction of salt form and granules of the formulation is required after submission of requisite fee. All registration holders of ciprofloxacin granules for oral suspension shall ensure the supply of ciprofloxacin granules along with the solvent / diluent having following composition as per the innovator product. • Soya lecithin • Medium chain triglycerides • Flavor • Sucrose • Purified water.	290
21.	Constitution of panel of inspectors for dosage form specific inspection of manufacturer abroad.	290
22.	In case of change of title of the firm (site remains the same,) issuance of approval letter for change in registration status of products within 10 working days.	290
23.	Approval of change/correction of finished product specifications in different scenarios discussed as under: i. Products registered with manufacturer specifications but formulation exist in official monograph (as decided by Registration Board in 267th meeting) ii. Products registered with any pharmacopeial specification (e.g USP) but formulation do not exist in that particular pharmacopeia but another pharmacopeia (e.g BP).	290
24.	Grant of renewal of registration (locally Manufactured) which have been received within time as required under Rule 27 of Drug (LR&A) Rules 1976.	292
25.	Grant of extension in cases of contract manufacturing of already registered products if these are on same terms and conditions.	295
26.	Disposal of cases regarding change of finished product specification from one pharmacopeia to another pharmacopeia.	New

Decision: **Registration Board deliberated that above referred functions (S No.1-25) are already delegated to Chairman Registration Board. The Board further endorsed/approved continuity of delegation of above functions along with addition of new function at S No. 26 as mentioned above on behalf of Registration Board.**

2.	Mr. Saadat Ali Khan	AD-II	38
3.	Mr. M. Zubair Masood	AD-III	54

A: Locally Manufactured Human Biologicals.

1. <u>Priority Registration/ Emergency use Authorization of Tocilizumab for use in Covid-19 patients</u>

Drug Regulatory Authority of Pakistan in its 84th meeting held on 01st June, 2020 decided to allow the submission of registration applications on Form 5/ Form 5-A/ Form 5-D instead of Form 5F for registration of Tocilizumab in light of approvals granted by the reference regulatory authorities and with following conditions:

a. The applicants can submit their application till 31-07-2020 and these applications will be considered out of queue.
b. Registration Board shall consider grant of registration under proviso of Rules 29(6) (8) of the Drug (Licensing, Registration & Advertising) Rules, 1976 and shall follow precautions/ terms & conditions as adopted by the Reference Regulatory Authorities.
c. The registration holders including those granted registration under Form 5D as a new drug will submit data of product development and 6 months real time stability studies data within one year along with other data as may be required by Registration Board. The data will be considered by Registration Board for further decision.

Accordingly, in light of above decision, a circular was issued vide No. F. 76-DRAP/2020 (PE&R) dated 04-06-2020.

In this context, it is submitted Tocilizumab is a biotechnology product and falls under the category of Biological Drugs as per Schedule-I of DRAP Act, 2012 and requires dedicated biotech facility. Division of Biological Evaluation & Research has received applications from following local manufacturers on Form 5 and Form 5D:

Sr. No.	Name of Manufacturer	Brand Name & Composition	Section
1.	M/s Shrooq Pharmaceuticals (Pvt.) Ltd., Lahore.	Zumab Injection Each 20ml contains: Tocilizumab…….400mg	1. Injection (General) Ampoules 2. Vial Infusion
2.	M/s Welwrd Pharmaceuticals, Hattar.	Tocikon 400mg/20ml Infusion Each vial contains: Tocilizumab…….400mg	Injection Ampoule/ Vial (General)
3.	M/s WnsFeild Pharmaceuticals, Hattar.	Tocizab 400mg/20ml Infusion Each vial contains: Tocilizumab…….400mg	Liquid Injectables (General)
4.	M/s Saffron Pharmaceuticals (Pvt.) Limited, Faisalabad.	Zumacil 80mg/4ml Injection for Infusion Each ml contains: Tocilizumab…….20mg	1. Liquid Injectable Ampoule (General) 2. Liquid Vials/ Small Volume Infusion
5.		Zumacil 200mg/10ml Injection for Infusion Each ml contains: Tocilizumab…….20mg	
6.		Zumacil 400mg/20ml Injection for Infusion Each ml contains: Tocilizumab…….20mg	

1. M/s Shrooq Pharmaceuticals (Pvt.) Ltd., Lahore.
2. M/s Welwrd Pharmaceuticals, Hattar.
3. M/s WnsFeild Pharmaceuticals, Hattar.
4. M/s Saffron Pharmaceuticals (Pvt.) Limited, Faisalabad.

The above mentioned applicants do not have the Biological Section approval nor provided any details of source of drug substance and only provided proposed formulations. M/s Shrooq Pharmaceuticals & M/s Saffron Pharmaceuticals provided the following commitments along with their applications:

a. We are submitting proposed formulation based on physicochemical characteristics of Active & Inactive components of formulation. Before marketing of the product, we will prepare trial/ pilot scale batches for adjustment of said formulation in which proposed quantities of inactive ingredients may vary. After adjustment of formulation, the final formulation shall be submitted to DRAP along with Pharmaceutical Development studies.
b. Before marketing of product, we shall perform/ conduct following studies for our product as per guidelines approved/ recommended by the Registration Board & the same shall be submitted to DRAP for becoming the part of our dossier of said product:
    i. Stability Studies
    ii. Pharmaceutical Development Studies
    iii. Validation of analytical testing method and
    iv. Process Validation.
c. Label claims and prescribing information would be same as approved by reference drug agencies like FDA, TGA, MHLW, EMA and Health Canada.

M/s Welwrd Pharmaceuticals and M/s WnsFeild Pharmaceuticals did not provide any commitments.
The case is placed before the Registration **Board** to seek guidance to deal with such applications lacking basic requirements and information please.

Decision: Registration Board rejected the above mentioned applications of the firms for the grant of registration of Tocilizumab due to non-availability of the requisite manufactuting facilities (Biological Section).

B: Imported Human Biologicals from Reference countries.

1.	**Name of Applicant**	**M/s Servier Research & Pharmaceuticals, Kot Abdul Malik, Ferozwala, District Sheikhupura.**

Alternate Products already registered in Pakistan	Not Available
Type of Form Dy. No. Date of Application, Fee submitted	Form-5F Dy. No. 20591, 28874&2503 Dated: 14-10-2019, 01-01-2020&24-02-2020 Rs. 50000/- Dated 14-10-2019
Demanded Price / Pack size	1's Vial/ Not Provided.
General documentation	Legalized CoPP No. 08/19/135377 dated 03-09-2019 issued by EMA.
Remarks of Evaluator (M. Zubair Masood)	• This division has received letters from doctors of INMOL and Shaukat Khanum Memorial Trust indicating that they are using the said product and have found this product satisfactory. They further requested the authorities to make it freely available in Pakistan for patient care.

Moreover, the firm has demanded for Oncaspar brand name which has already been approved in name of M/s Merixil Pharma, Islamabad for solution formulation of above product in 254th meeting of Registration Board but the letter was not issued as the product license holder of said product was changed and the firm did not submit the sole agency agreement from new product license holder. Details are as under:

Following product of M/s Merixil Pharma, Islamabad was approved in 254th meeting of Registration Board as per following details:

Name of Manufacturer	**Brand Name & Composition**	**Document Details/ Pack Size**	**Decision of RB in 254th Meeting**
Sigma-Tau Arzneimittel GmbH Liebherrstr. 22 80538 Munich, Germany	ONCASPAR 3750 IU Injection Each ml of solution for injection contains 750 IU of PEGLASPARGINASE (ANTICANCER)	CoPP No. S 225-1-03/15 dated 29-7-2015 1's Vial	*Keeping in view approval status of the product by EMA, Registration Board approved as per Import Policy for Finished Drugs and confirmation of storage facility of importer.*

After approval by the Board, DBER received an anonymous letter addressed to health Secretary Ministry of NHS&RC Islamabad, regarding registration of Inj. Oncaspar with misleading documentation. The complainant has drawn the attention of ministry towards the registration of Oncaspar injection with concealment/falsified information with malafide intent. The complaint stated that this product is used for treatment of blood cancer in children and the product is very expensive. The said product was approved in 254th Registration Board meeting held on 11th -12th November 2015.The product was approved as Sigma-Tau GmbH manufacturer of the product. At that time the product no longer belonged to Sigma-Tau, as 6 months before the approval by honorable board Baxter acquired Sigma-Tau's Oncaspar and this information was public since 13th May 2015.Later on, Baxalta was acquired by Shire and this information was made public on 11th January 2016.The said product is listed on Shire website in their portfolio www.shire.com and on www.oncaspar.com the shire's resource helpline is provided. As per European Medicine Agency website the Marketing Authorization Holder of the Product is Baxalta Innovation GmbH, Austria & Manufacturer is Shire Pharmaceuticals Ireland Limited. The complainant requested that documentation of the product should be thoroughly scrutinized, as the information was concealed from the honorable Registration Board, and neither this information was provided at any later stage. The importer is trying to get this product registered with the name of a principle that no longer holds the marketing authorization neither manufacturing the product.

Accordingly, DBER issued a letter to the firm to explain their position on 22-03-2018. The firm did not submit any response and after the submission of application for registration of Oncaspar Lyophilized formulation by M/s Servier Research & Pharmaceuticals, Sheikhupura, M/s Merixil Pharma, Islamabad on 25-10-2019 submitted a letter stating the following:

"Market authorization holder & manufacturer of product is changed due to acquisition of previous Sigma-Tau Arzneimittel GmbH Liebherrstr. 22 80538 Munich, Germany by Baxalta GmbH Austria and Manufacturer Shire Pharmaceutical, Ireland & from Oct 2018 ONCASPAR is being purchased worldwide by M/s Servier France.

Merixil Pharma therefore, has no objection to transfer of the registration of above mentioned in the name of Servier Research and Pharmaceuticals (Pakistan) Pvt Limited with their office at 65 Main Boulevard, Gulberg, Lahore with immediate effect."

Decision: Keeping in view valid legalized CoPP indicating product availability in country of origin and approval of EMA (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs. Registration Board further deliberated that as M/s Merixil pharma, Islamabad has submitted the NOC for transfer of registration of Ocaspar 3750IU Injection (approved in 254th meeting) in name of M/s Servier Research and Pharmaceuticals (Pakistan) Pvt. Limited, Lahore, therefore, the board also cancelled the approval of Ocaspar 3750IU Injection from the name of M/s Merixil pharma, Islamabad.		
2.	**Name of Applicant**	**M/s Stallion Pharmaceuticals (Pvt) Ltd.,** **22-L, Johar Town, Lahore.** **Godown Address:** 581-Sundar Industrial Estate, Lahore.
	DSL details	DSL No. 05-352-0066-045476D dated 26-09-2019 valid till 26-09-2021
	Name of Manufacturer	**Product License Holder & Manufacturer:** M/s Japan Bio Products Co., Ltd., (Japan Bio Products Co., Ltd., L'Atelier Fujimitsu) 1-44-4, Tomigaya, Shibuya-ku, Tokyo, Japan. (735-14, Aza Edamitsu, Fujimitsu-mach, Kurume-shi, Fukuoka-ken, Japan.
	Brand Name +Dosage Form + Strength	Laennec, Injection
	Composition	Each 2ml contains: Water-soluble substance of a product of enzymatic human placenta…….112mg
	Finished product specifications	As per Drug Approval and Licensing Procedure in Japan 2016.
	Pharmacological Group	Enzymatic human placenta
	Shelf life	24 months (30^0C)
	International availability	Japan.
	Alternate Products already registered in Pakistan	Not Available
	Type of Form Dy. No. Date of Application, Fee submitted	Form-5A Dy. No. 7573& 4187 Dated 21-02-2019& 11-03-2020 Rs. 100000/- Dated 21-02-2019
	Demanded Price / Pack size	50's x 2ml Ampoule/ Not Provided.
	General documentation	Legalized CoPP No. 3348 dated 18-10-2018 issued by MHLW, Japan.
	Remarks of Evaluator (M. Zubair Masood)	• The product is used for improvement of hepatic function in chronic hepatic disease. • The submitted CoPP indicates two product license holders & manufacturers, for which the firm submitted the clarification that one is product license holder and other is manufacturer as per following details: **Product License Holder:** M/s Japan Bio Products Co., Ltd., 1-44-4, Tomigaya, Shibuya-ku, Tokyo, Japan. **Manufacturer:** M/s Japan Bio Products Co., Ltd., L'Atelier Fujimitsu 735-14, Aza Edamitsu, Fujimitsu-mach, Kurume-shi, Fukuoka-ken, Japan. • 06 weeks, Multicenter, randomized, open clinical trial to evaluate the efficacy and safety of said product with Choongwae Adelavin 9 inj in 194 patients with alcoholic hepatitis and non-alcoholic steatohepatitis.
Decision: Keeping in view valid legalized CoPP indicating product availability in country of origin and approval of MHLW, Japan (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.		
3.	**Name of Applicant**	**M/s Novartis Pharma Pakistan Ltd.,**

		15, West Wharf BLDG 1, Karachi
	DSL details	DSL No. 0488 dated 17-01-2018 valid till 26-11-2019
	Name of Manufacturer	**Product License Holder:** M/s Amgen Inc, One Amgen Center Drive, Thousand Oaks, CA 91320 United States of America. **Manufacturer:** M/s Amgen Manufacturing Limited, Carr 31 KM 24 6, Juncos, Puerto Rico 00777-4060, United States
	Brand Name +Dosage Form + Strength	Aerinex Injection 140mg/ml (Erenumab)
	Composition	Each PFS contains: Erenumab…….140mg
	Finished product specifications	Innovator Specifications.
	Pharmacological Group	Monoclonal Antibody
	Shelf life	2 years (2^0C-8^0C)
	International availability	Aimovig 140 mg solution for injection in pre-filled syringe of M/s Novartis Pharmaceuticals Ltd., UK
	Alternate Products already registered in Pakistan	Registration Board in its 286th meeting has already approved another strength of this product i.e. Aerinex 70mg Solution for Injection.
	Type of Form Dy. No. Date of Application, Fee submitted	Form-5F Dy. No. 12363& 3056 Dated 18-07-2019& 28-02-2020 Rs. 50000/- Dated 11-07-2019
	Demanded Price / Pack size	1's PFS / Not Provided.
	General documentation	Legalized CoPP No. V8XG-FG5R dated 10-05-2019 issued by USFDA valid till 09-05-2021.
	Remarks of Evaluator (M. Zubair Masood)	As per submitted CoPP, product is license to be placed on the market in exporting country but actually not available in exporting country. The firm has submitted another CoPP issued by EMA which shows that product is licensed and available in European region from the aforementioned manufacturer. Registration Board in its 256th meeting decided as follows: *"if an imported drug is not on free sale in its respective country of origin / manufacture, such product will be registered in Pakistan if the product manufactured in the applied facility is approved by any of the regulatory authorities from USFDA, EMA, PMDA Japan, Australia TGA, Health Canada, Switzerland or any of regulatory authority of former erstwhile Western Europe (United Kingdom, Germany, France, Switzerland, Netherlands, Austria, Belgium, Denmark, Finland, Sweden, Italy, Ireland, Luxemburg, Norway, Scotland and Spain) or three stringent regulatory bodies of former erstwhile Eastern Europe. However, references countries regarding availability of drug / molecule / formulation shall remain the same as specified in 249th meeting of Registration Board."*
Decision: Keeping in view the availability of product in EMA and approval of USFDA (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

	Name of Manufacturer	**Product License Holder & Manufacturer:** **M/s Eli Lilly and company, Lilly Corporate Center, Indianapolis, IN 46285, USA**
	Brand Name +Dosage Form + Strength	**Emgality™** 100mg/mL solution
	Composition	Each pre-filled syringe contains: galcanezumab……100mg/mL
	Finished product specifications	innovator specifications
	Pharmacological Group	Antimigraine
	Shelf life	24 months when stored at 2-8°C
	International availability	FDA
	Products already registered in Pakistan	New molecule
	Type of Form Dy. No. Date of Application, Fee submitted	Form-5F Dy. No 26686 Dated 10-12-2019 Rs. 50,000/- Dated 04-12-2019
	Demanded Price / Pack size	As per SRO /1's pre-filled syringe
	General documentation	Legalized **CoPP No. RG7R-A7BG**valid till11th July 2021 issued by USFDA.
	Remarks of Evaluator (Mr. Khurram Khalid)	i. 120mg/mL of same drug with same name has already been approved by the Registration Board in its 292nd meeting held on 1-2nd October 2019. ii. The product is innovator and registered in FDA. iii. Indicated for preventive treatment of migraine and episodic cluster headache in adults.

Decision: Keeping in view valid legalized CoPP indicating product availability in country of origin and approval of USFDA (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

C: Imported Human Biologicals from Non-Reference countries.

1.	**Name of Applicant**	**M/s SMS Corporation, 13 B/1, Block 6, PECHS, Karachi**
	DSL details	DSL No. 0831 dated 08-01-2019 valid till 20-06-2020
	Name of Manufacturer	**Product License Holder & Manufacturer:** M/s Chengdu Rongsheng Pharmaceuticals Co., Ltd., 7 Keyuan South Road, Hi-tech Zone, Chengdu, Sichuan, P.R. China.
	Brand Name +Dosage Form + Strength	Tepron 250IU/2.5ml Vial Human Tetanus Immunoglobulin, Solution for Intramuscular Injection
	Composition	Each dose contains: Protein content……..≤180mg/ml IgG monomer+dimmer content…….≥90.0% Tetanus Antibody Potency…….≥100IU/ml
	Finished product specifications	Ph. Eur. Specifications
	Pharmacological Group	Human Tetanus Immunoglubulin
	Shelf life	36 months (2^0C-8^0C)
	International availability	Tetanus Gamma 250IU, Solution for Injection for Intramuscular use of M/s Kedrion SPA, Italy
	Alternate Products already registered in Pakistan	Igantet (Reg. No. 028412) of M/s Hakimsons
	Type of Form Dy. No. Date of Application, Fee submitted	Form-5A Dy. No. 1248 Dated: 03-05-2017 Rs. 100000/- Dated 02-05-2017
	Demanded Price / Pack size	1's Vial/ Rs. 3182/-
	General documentation	Legalized CoPP dated 28-06-2016 issued by China.
	Remarks of Evaluator (M. Zubair Masood)	• Phase-III clinical trial on 156 patients. • Post Marketing Experience report of 1139 open-injury cases from January, 2002 to June 2003 concluding that efficacy and duration of prophylaxis and the safety of TIG are better than that of Tetanus Toxoid.
Decision: Registration Board deliberated that two firms have already been granted approvals of Tetanus Immunoglobulin on the basis of Periodic Safety Update Report (PSUR) in 282nd & 293rd meetings of Registration Board as PSUR suffices the clinical trial data. Keeping in view the PSUR of above product & valid legalized CoPP indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

Biosimilarity data as per WHO guidelines submitted by the firm is as follows:

WHO Biosimilarity Guidelines	**Data Submitted by the firm**

Quality Comparison • Physicochemical Characterization	Characterization: i. Comparative Gel Electrophoresis (Reducing and Non-reducing SDS-PAGE) ii. Peptide Mapping (Primary Structure/ Identity) in comparison with reference standard. iii. Size Exclusion (SE)-HPLC (Monomer, Dimer, Aggragates) (Non-Comparative) iv. Distribution of Charge Variants by Ion Exchange Chromatography (Non-comparative) v. Oligosaccharide profile by Glycan Analysis (Non-comparative) vi. N-Terminal Sequencing (Comparative) vii. Primary Structure by Peptide Mapping (Comparative) viii. C-Terminal Analysis (Comparative) ix. Intact Molecular Mass (Comapartive) x. Protein backbone shape analysis by FTIR (Comparative) xi. Assessment of structural and Hydrodynamic Profile by NMR (Comparative) xii. Secondary Structure Analysis by Circular Dichroism (Comapartive)-
Biological Activity	i. Antibody-Dependent Cell Cytotoxicity (ADCC) and Complement- Dependent Cytotoxicity (CDC) Assay (Comparative)
Immunochemical properties	i. Fc gamma and FcRn binding assay a. SPR binding assays for FcγRIA (Comparative) b. SPR binding assays for FcγRIIA (Comparative) c. SPR binding assays for FcγRIIB (Comparative) d. SPR binding assays for FcγRIIIA (Comparative) e. SPR binding assays for FcγRIIIB (Comparative) f. SPR binding assays for FcRn (Comparative)
Impurities	Process and Product related Impurities (Non- Comparative)
Stability Studies	Provided.
Non-clinical Comparison i. In-vitro Studies ii. In-vivo Studies a. Biological/ Pharmacodynamic activity b. Non- clinical toxicity as determined in one repeat dose toxicity study	Primary Pharmacodynamics: i. VEGF binding Assay (Comparative) ii. C1q binding Assay (Comparative) iii. Fc gamma receptors binding study (Comparative)

	iv. Neutralization of VEGF-mediated Proliferation in HUVEC (Comparative) v. Antibody-Dependent Cell Cytotoxicity (ADCC) and Complement- Dependent Cytotoxicity (CDC) Assay (Comparative) Non-clinical toxicity studies are not provided.
Clinical Comparison	Phase-III, randomized, two-armed, patient and assessor blinded, parallel active controlled non-inferiority clinical trial to evaluate the efficacy and safety of Bevacizumab (Stivant) plus Folfiri-3 in comparison with Bevacizumab (Avastin) plus Folfiri-3 in patients with metastatic colorectal cancer (mCRC) (Interim Report).

Remarks of the Evaluator (M. Zubair Masood):

- The firm has not submitted the non-clinical toxicity studies and provided the reference of EMA guidelines that In-vivo toxicological studies are only required when the biosimilars are produced in a new type of cell or organism, or when the formulation includes new excipients. Having the same expression system and formulation as Avastin, their product is excluded from requirement of toxicological studies.
- The firm has submitted the real time stability data of 24 months for 01 batch, 18 months for 01 batch & 06 months for 01 batch.
- The firm has not submitted the accelerated stability data. The firm submitted that accelerated stability data is only performed on controlled batches, hence not required for on-going batches.
- The firm has submitted the copy of registration letter issued by Iran for Stivant 25mg/mL and it does not indicate the approved shelf life. The firm submitted a copy of letter from their manufacturer which indicates that Iran Food and Drug Administration does not mention shelf life on registration certificate and shelf life is mentioned in submitted CTD at requisite contents including stability studies. The shelf life of the product is 24 months and ongoing stability studies are submitted.
- The firm has already been issued two deficiency letters and the firm has not yet completed the stability study data.

Decision: Registration Board deferred the case for submission of following by the firm:

a) Real time stability data of 24 months for 3 commercial scale batches

b) Accelerated stability data of 06 months for 3 commercial scale batches

4.	**Name of Applicant**	M/s Gene-Tech Laboratories, Head Office: 246/B, PECHS, Block-6, Karachi.
	DSL details	DSL License No. 10725 valid upto 15 Aug 2020.
	Name of Manufacturer	**Product License Holder & Manufacturer:** ANGDE BIOTECH PHARMACEUTICAL Co., Ltd Address: No.78, E-Jiao Street, Dong-E County, Shandong Province, P.R. China
	Brand Name + Dosage Form + Strength	**Retrplase**

		Reteplase for Injection [Recombinant Human Tissue-type Plasminogen Activator Derivative for Injection] Each vial of lyophilized powder contains 18mg of Reteplase for Injection
	Composition	Each vial (10mL) contains: Reteplase (Recombinant Human Tissue-type Plasminogen Activator Derivative)……. 18mg
	Finished product specifications	In house
	Pharmacological Group	Antithrombotics
	Shelf life	24 Months (Store at 2°C to 8°C)
	International availability	Not available in this strength.
	Alternate Products already registered in Pakistan	Same
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A dated 12-9-2018 Form 5-F Dy.No.5720(R&I) DRAP dated 16-2-2018. Fee of 100,000/- dated 31-1-2018.
	Demanded Price Pack size	As per SRO
	General documentation	Legalized CoPP No. SD20170058 issued on 25th October 2017 Legalized
	Evaluator Comments (Mr. Khurram Khalid)	1. The product is **already registered** in the name of Lunar Pharmacia Lahore (Reg. No. 066146) from the same principal. The firm has not provided NOC from the existing importer. However, the firm has provided i. Sole agency agreement in their name and ii. Termination letter for existing importer from the principal. 2. **The strength of reteplase 18mg is not available in reference countries** instead the provided reference product Retavase contains "reteplase 18.1mg" 3. Biosimilarity study data **is not with single reference product** inpre-clinical and clinical trials. The firm has provided two drugs *Rapilysin in* pre-clinical and *Actilyse* in clinical trials. The firm was asked to clarify and they replied that due to different requirements of non-clinical and

		clinical trials different reference drugs were used. However, it is pertinent to mention that both the reference products are not available in required strength 18mg and the product Actilyse is *alteplase* instead of *reteplase*. The firm requested to take the agenda in Reg. Board meeting.
Decision: **Registration Board deferred the case for submission of following by the firm:** **a) NOC for transfer of registration from existing registration holder i.e. M/s Lunar Pharmacia, Lahore.** **b) Evidence of approval of above formulation in any of reference regulatory authorities.** **c) Complete biosimilarity data in comparison with Innovator.**

	Remarks of Evaluator	Detailed below

Bio-similarity studies of the finished product with Granulokine by Amgen .	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	Primary Structure: ***i.*** PeptidemappingbyLC-ESI-MSandMS/MS- ***ii.*** N/C-TerminalSequencingbyMALDI-ISD– • Disulphide bonds analysis by LC-ESI-MS and MS/MS - Work Package 01c • Molecular weight and size by mass spectrometry • Spectroscopic profile by circular dichroism (CD) • Aggregation state analysis by SEC-MALLS • Electrophorectic profile by SDS-PAGE under reducing and non-reducing conditions • Aggregation state analysis by SEC-MALLS • Aggregation state analysis by HPLC-SEC
Biological Activity	Assay of M-NFS-60 cell proliferation for potency determination
Impurities	Impurity profile by reversed phase chromatography (HPLC-RP)
Non-clinical Studies	• Local tolerance due to endovenous and subcutaneous exposure to Filgrastine® when compared to Granulokine® (reference substance) in rabbits. • Biological activity from subcutaneous exposure to Filgrastine® when compared to Granulokine® (reference substance) in a model of experimental neutropenia induced in rats. • The toxic and immunogenic potential, the local tolerance, and the toxicokinetic profile resulting from the daily subcutaneous exposure to Filgrastine®, when compared to the reference substance (Granulokine®) in rats
Clinical Studies	**Phase-I: (comparative)** A randomized, crossover, double-blind clinical trial which comparedincreased leukocyte numberpharmacodynamic effect and pharmacokinetic effect of Filgrastim in plasma to prove the interchangeability oftest products (T1 and T2) by Blausiegel compared to the product **Granulokine®** by Roche, in 24 women whounderwent mastectomy, and also to check the incidence of adverse events. Assessment of pharmacokinetic and pharmacodynamic parameters of the filgrastine drug (filgrastim) of laboratório blau farmacêutica s/a. compared to the granulokine drug of laboratório produtos Roche.
Phase-II:	**Not summitted**
Phase-III:	
Phase-IV:	(Non-comparative) A review of medical records, retrospective, multicenter, to describe efficacy and treatment standards for patients with lymphohematopoietic malignancies receiving filgrastine® in Brazil, before hematopoietic stem cell autologous transplantation

Remarks of Evaluator (Mr. Khurram Khalid)

1. As per record, the product with brand name is already registered with Reg. No. 066169 in the name of Pharmatec Pakistan (Pvt) Ltd., Karachi manufactured by Blausiegel Industrria E Comercio Ltda. Cotia-Sp-Brazil. The firm was asked for clarification and the firm has submitted following clarification from Manufacturer;

"Blau Farmacêutica S.A clarifies that it had an agreement with Pharmatech, Pakistan Pvt Ltd., and decided not to continue it for product distribution in Pakistan. Therefore, the business plan presented by Pharmatech did not meet Blau business, prospects and strategy in this territory. For this reason Blau informed that the mentioned ***agreement settled with Pharmatech was terminated on March 2018 as of the letter of termination****, with the termination of the commercial relationship between the parties and the termination of rights and obligations with respect to marketing Blau product by Pharmatech in Pakistan. As a result of the termination of said agreement, Blau requested Pharmatech to cancel the registration of its product with in the competent aauthories in Pakistan. Pharmatech has expressly acknowledged that the parties granted each other the most complete, total and unrestricted discharge with respect to the rights and obligations contained in the agreement and may no longer claim any right as appropriate."*

Moreover, the firm has submitted

i. Sole Agency Agreement
ii. Termination letter in the name of M/s Pharmatech Pakistan (Pvt) Ltd from the manufacturer.

2. The firm was asked to submit application considering SOPs of 283rd meeting (revised in 292nd meeting of reg. Board.), if it is transfer case. The firm, however, has replied as detailed above (Pt. No. 1).
3. CoPP was valid at the time of application submission but now it is expired.
4. Biosimilarity data as per 278th meeting of Registration Board is not provided.

For biosimilarity data the firm has submitted that

"Filgrastine is a biosimilar to the originator Granulokine, for which the extensive in vitro comparative biosimilarity data has ben provided. Our product was registered in the country of origin, Brazil, on 30-03-2005 along with Chile, Ecuador, Uruguay and Vietnam long before the WHO guidelines for Biosimilar drugs was published in TRS 977, 2013.

As per the decision of the DRAP in its meeting no 278th held on 29-31 january,2018 in section 2(b) the importer shall provide the guidelines for evaluation of biotherapeutics in the country of export (non-reference authorities) as evidence that the submitted data is in accordance with said guidelines.

In this regard it is submitted that filgrastine was registered and in ***use in Brazil since 30-3-2005,*** *thus the product has a fifteen year history of successful use in patients*

When the ***WHO and EU guidelines were available from 2013 onward****, the manufacturer decided to conduct animal test and crossover the test to satisfy the new requirements.*

The manufacturer has done extensive in vitro and in vivo study to prove the comparative biosimilarity of its product applicable at the initial time of registration i.e. 2005. And after 15 years of use in 5 countries, it is to be considered on its merit"

Decision:

Registration Board deferred the case for submission of following by M/s Genome Pharma, Rawalpindi:

a. **Valid legalized CoPP**
b. **The guidelines for evaluation of biotherapeutics in Brazil, as evidence, that the submitted data is in accordance with said guidelines.**

Registration Board further decided to issue show cause notice to M/s Pharmatech Pakistan (Pvt.) Ltd., Karachi regarding the cancellation of their authorization for registration of Filgrastine Injection by M/s Blau Farmacêutica S.A, Brazil.

C: Imported Veterinary Biologicals from Non-Reference countries.

	Evaluator Comments (Mr. Khurram Khalid)	1. The product was previously taken in 258th meeting of Reg. Board wherein the board decided as under; "*Deferred for submission of original legalized documents: CoPP/ FSC along with GMP."* The firm submitted the documents on 22nd January 2020. However, the brand name and composition were changed in FSC. Now the firm has submitted fresh application with full fee.

Decision: Registration Board deferred the case for submission of scientific immunological relevance of Classical (IBV-26 MEVAC – M41), IB Variant type 1 (ME/IBV-VAR1-2017) IBV, IB Variant type 2 Eg/1212B), H9N2 A/chicken /Egypt/ME 543V /2016 (H9N2) & NDV/Chicken/Egypt/11478 AF/2011 strains in Pakistan.		
9.	**Name of Applicant**	M/s BroMed Animal Health, 246/A, West Wood Colony, Thokar Niaz Baig, District Lahore.
	DSL details	DSL License No.05-352-0066-037660D valid upto 18-10-2020
	Name of Manufacturer	Middle East for Veterinary Vaccines (ME-VAC) Second Industrial Zone-Extention Part No.21, 22, 24, 25 El Salhya El Gdeda, Elsharkya Governorate, Egypt
	Brand Name +Dosage Form + Strength	**Aphthovac-Tri** Suspension
	Composition	Ingredients perdose (2ml): Inactivated FMD Virus Serotype A/Egy/1/2011 (A Iran 05) (4 ug of viral protein /dose which is equivalent to 6 PD_{50}per dose) Inactivated FMD Virus Serotype O/Egy-4-2012 (O Pan-Asia 2) (6 ug of viral protein /dose which is equivalent to 6 PD_{50}per dose) Inactivated FMD Virus Serotype Asia 1/Shamir (5 ug of viral protein /dose which is equivalent to 6 PD_{50}per dose)
	Finished product specifications	BP
	Pharmacological Group	Veterinary Biologic
	Shelf life	24 Months (Store at 2°C to 8°C)
	International availability	Egypt
	Alternate Products already registered in Pakistan	**ARRIAH-VAC**(Foot And Mouth Disease Vaccine Inactivated Oil Adjuvant Containing Serotypes A, O, Asia-1). By Mustafa Brothers
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A Dy.No.15186(R&I)DRAP dated 29-6-2020. Fee of 100,000/- dated 29-6-2020.
	Demanded Price Pack size	50mL(25 doses) vial
	General documentation	• Valid Legalized GMP Certificate dated 18-03-2019 valid till 17-03-2022. • Legalized Registration License valid till 05-11-2021. • Legalized copy of manufacturing license of M/s Middle East for Veterinary Vaccines (ME-VAC) indicating address of manufacturer.
	Evaluator Comments (Mr. Khurram Khalid)	1. The Registration License of the product indicate clearly**"For Export"** status. Moreover, it is mentioned that the product is approved in Arabrepublic of Egyptunder reg. No. 833in 6/11/2018. 2. The stability data is of R&D batches and commercial scale batches are not available with the firm. 3. The product was previously taken in 258th meeting of Reg. Board wherein the board decided as under; "*Deferred for submission of original legalized documents: CoPP/ FSC along with GMP."* The firm submitted the documents on 22nd January 2020. However, the brand name and composition were changed in Registration License. Now the firm has submitted fresh application with full fee.

Decision:

Registration Board deferred the case for submission of following by the firm:

a. **Valid Legalized Free Sale certificate indicating availability of product in country of origin.**
b. **Scientific immunological relevance of Serotypes A/Egy/1/2011 (A Iran 05), O/Egy-4-2012 (O Pan-Asia 2) & Asia 1/Shamir of FMD virus in Pakistan.**

10.	**Name of Importer**	M/s Forward Solutions (Animal Health Company) Plot No.19-B, Off Abdul Sattar Eidhi Road, Near Qazalbash Chowk, Lahore-Pakistan
	DSL details	DSL No. 05-352-0066-028137D valid till 10 Feb 2020
	Name of Manufacturer	**ATAFEN** Ata Fen Veteriner Malzemeleri Hayvancilik Paz. San. Ve Tic. A.S. OSB Mah. 21 Sok. No.7/A 35735 Kemalpasa – Izmir / Turkey
	Brand Name +Dosage Form + Strength	**VBR K99 + C,** Bacterin toxoid vaccine Each 1ml contains: *Escherichia coli* K99 ≥ 100 AU *Clostridium perfringens* Type C ≥ 10IU Beta antitoxin
	Composition	Each 1ml contains: *Escherichia coli* K99 ≥ 100 AU *Clostridium perfringens* Type C ≥ 10IU Beta antitoxin

E: Miscellaneous/ Deferred Cases.

Evaluator: AD-III

1. Registration of Imported Human Biologicals from reference countries applied by M/s Eli Lilly Pakistan (Private) Limited, Karachi in their name from M/s Ali Gohar & Company (Pvt.) Ltd., Karachi.

M/s Eli Lilly Pakistan (Private) Limited, Karachi applied for the registration of following human biologicals in their name from M/s Ali Gohar & Company (Private) Limited, Karachi as per following details:

Sr. No.	Brand Name & Composition	Name of Manufacturer	Dy. No. Date of Application Fee Status Pack Size
1.	Humalog (Insulin lispro 100U/ml) Solution for Injection Each ml contains: Insulin Lispro……..100units (equivalent to 3.5mg)	**Product License Holder:** M/s Eli Lilly Nederland B.V., Papendorpseweg 83, 3528 BJ Utrecht, The Netherlands. **Manufacturer:** M/s Eli Lilly and Company, Indianapolis, Indiana 46285, USA. **Secondary Packaging & Batch Release:** M/s Lilly S.A., Avda. de la Industria, 30, 28108 Alcobendas, Madrid, Spain.	Dy. No. 6007, 23773 & 4407 Date: 13-05-2019, 13-11-2019 & 13-03-2020 Rs. 100,000/- Date: 13-05-2019 1's Vial (10ml)
2.	Humulin 30/70 100UI/ml Suspension for Injection Each 3ml cartridge contains: Insulin (as Human rDNA biosynthetic insulin)……..100IU/ml	M/s Eli Lilly Italia S.P.A., Gramsci, 731-733- 50019 Sesto Fiorentino (Firenze), Italy.	Dy. No. 6006, 23774 & 4407 Date: 13-05-2019, 13-11-2019 & 13-03-2020 Rs. 100,000/- Date: 13-05-2019 1's Cartridge (3ml) 5's Cartridge (3ml)

The firm has submitted the following documents as per SOPs formulated in 283rd meeting revised in 292nd meeting of Registration Board:

Sr. No.	SOPs formulated in 283rd Meeting revised in 292nd meeting	Documents submitted by the firm
1.	Application on Form 5F with required fee as per relevant SRO	Form-5F and fee Challans of Rs. 100000/- each are provided.
2.	Copy of registration letter and last renewal status.	Copy of initial registration letter of Humalog dated 21-04-1999. Copy of approval of change of source dated 20-09-2005. Copy of last renewal submission of Humalog dated 23-07-2015. Copy of initial registration letter of Humalog dated 05-05-1999. Copy of last renewal submission of Humalog dated 28-02-2019.
3.	Termination letter (original) from manufacturer for previous importer.	Original Termination letter of Humalog from manufacturer for previous importer dated 21-02-2020.

		Original Termination letter of Humulin 70/30 from manufacturer for previous importer dated 14-01-2019.
4.	Authority letter/sole agent letter (original) from manufacturer.	Original Authorization letter of Humalog dated 21-02-2020. Original Authorization letter of Humulin 70/30 dated 14-06-2019.
5.	Document confirming NOC (issued within last 6 Months) from existing registration holder permitting for registration of product to another importer.	No Objection certificates from M/s Ali Gohar & Company (Private) Limited, Karachi dated 01-04-2019 for both products.
6.	Original and legalized Certificate of Pharmaceutical Product as per WHO format for new manufacturer's name OR Original and legalized GMP certificate of new manufacturing site with free sale certificate from regulatory body of country of origin.	Legalized CoPP No. 01/19/128490 dated 14-02-2019 for Humalog issued by EMA. Legalized CoPP No. CPP/2019/152 dated 28-01-2019 for Humulin70/30 issued by Italian Medicine Agency.
7.	Undertaking that the provided information/ documents are true/ correct.	Provided.

In this context, it is submitted that there are two manufacturing sites mentioned on CoPP of Humulin 70/30 for which the firm submitted that dual sourcing is allowed internationally/ in Europe. Therefore, Italian Medicine Agency has mentioned both the sites. However, for their product only M/s Eli Lilly Italia, Italy is applicable and same has already been approved for the said product vide DRAP letter No. 3-80/2015-DDC(BD)(M-264) dated 06-03-2017.

Decision: Keeping in view valid legalized CoPPs indicating product availabilities in country of origin, approval of EMA & Italian Medicine Agency (Reference Regulatory Authorities) and NOC from M/s Ali Gohar & Company (Private) Limited, Karachi; Registration Board cancelled the registrations from the name of M/s Ali Gohar & Company (Private) Limited, Karachi and granted the registrations in the name of M/s Eli Lilly Pakistan (Private) Limited, Karachi as per current Import policy for finished drugs subject to price confirmation from Costing & Pricing division and verification of cold storage facility. Before issuance of registration letter, NOC will be re-confirmed from M/s Ali Gohar & Company (Pvt.) Ltd., Karachi as it was issued in April, 2019.

2. Imported Human Biological from Non-reference country applied by M/s Amson Vaccine & Pharma (Pvt) Ltd., Islamabad deferred in 291st meeting of Registration Board.

Following product of M/s Amson Vaccine & Pharma (Pvt.) Ltd., Islamabad was deferred in 291st meeting of Registration Board as per following details:

Name of Applicant	**M/s Amson Vaccine & Pharma (Pvt) Ltd., Plot No. 115, Industrial Triangle, Kahuta Road, Islamabad.**
DSL details	DSL License No.920-ICT/2013 dated 02-08-2018 valid upto 01-08-2020.
Name of Manufacturer	M/s Yuxi Walvax Biotechnology Co., Ltd., No. 83 South Dongfeng Road, High & New Technology Industries Development Zone, Yuxi City, Yunnan Prov., China.
Brand Name +Dosage Form + Strength	Group ACYW 135 Meningococcal Polysaccharide Vaccine (freeze-dried), for Injection
Composition	Each single human dose (0.5ml) contains:

	Meningococcal Group Apolysaccharide.....50µg Meningococcal Group C polysaccharide.....50µg Meningococcal Group Y polysaccharide.....50µg Meningococcal Group W135 polysaccharide.....50µg **Diluent:** Water for injection.....0.5ml
Finished product specifications	Chinese Pharmacopoeia
Pharmacological Group	Meningococcal Polysaccharide Vaccine
Shelf life	24 Months (2^oC to 8^oC)
International availability	Menomune ACYW135 of M/s Sanofi Pasteur, USA
Alternate Products already registered in Pakistan	Menvac ACYW of M/s Sind Medical Store, Karachi.
Type of Form Dy. No. Date of Application, Fee submitted	Initially Form-5 F then Form-5A Dy.No.8969, 15567 & 16548(R&I) Dated: 27-02-2019, 26-08-2019 & 02-09-2019 Rs. 100,000/- Dated: 27-02-2019.
Pack Size/ Demanded Price	1's Vial (lyophilized powder) + 1's Vial (Diluent)/ As per DPC
General documentation	Legalized CoPP No. 2018-043 dated 06-08-2018 valid for 24 months.
Decision of RB in 291st meeting	*Registration board deferred the case for submission of following by the firm:* *a. Form-5A indicating details of diluents as the product is in combopack* *b. Accelerated stability data of 06 months.* *c. Stability data covering all the parameters as per finished product specifications.* *d. Finished product specifications as per decision of 267th meeting of Registration Board.* *e. Clarification regarding the difference in limit of each polysaccharide in finished product specifications and stability studies.*
Remarks of Evaluator	The firm has submitted the following documents: i. Revised Form-5A with diluent as combopack. ii. For 100 days Accelerated stability data, the firm submitted that the ICH Q5C: Stability testing of Biotechnology/ Biological Products does not clearly define the requirement for accelerated stability programme. The purpose of 100 days Accelerated stability data at 25^0C is as per VVM14 category of WHO which requires at least 90 days for 25^0C. iii. The firm has submitted 30 months stability data covering all the parameters as per finished product specifications. **iv. In finished product specifications, the firm has demanded British Pharmacopoeia Specifications.** v. The firm has provided the clarification regarding the difference in limit of each polysaccharide in finished product specifications and stability studies that it was a typographical error.

Decision: Keeping in view valid legalized CoPP indicating product availability in country of origin; Registration Board approved the product with BP Specifications subject to compliance of current Import Policy for finished drugs.

3. Correction in composition of already registered veterinary vaccine applied by M/s Vet Line International, Lahore.

M/s Vet Line International, Lahore applied for the correction of composition in registration letter of Avi IB H120 Vaccine as per following details:

Reg. No.	Brand Name	Incorrect Composition on initial Registration Letter	Correct Composition
062006	AVI IB H 120 Vaccine	Each dose contains: Infectious bronchitis virus (IBV), H-120 strain.....**min $10^{3.5}$TCID$_{50}$**	Each dose contains: Infectious bronchitis virus (IBV), **Massachusetts** (H-120) strain……..**min $10^{3.3}$EID$_{50}$**

The firm submitted that they have typographic error in already submitted dossier of Avi IB H120. The firm submitted the following documents:

a. Application with fee challan of Rs. 5000/-
b. Original valid legalized Free Sale certificate indicating new composition
c. Copy of Free Sale submitted with initial dossier at the time of registration indicating previous composition as per registration letter
d. Copy of initial registration letter dated 07-01-2010
e. Copy of last renewal submission dated 28-10-2014
f. Revised Form-5A indicating new composition

RRR section has verified the last renewal submission of product. Moreover, the initial registration letter was issued as per composition mentioned in initially submitted FSC and the composition has been changed in newly submitted FSC and the firm is requesting correction of composition as per new FSC. Furthermore, Registration Board in its 283rd meeting decided as follows:

"Correction/Changes That Necessitate Submission of New Application (Local Manufacture/Import):

a) Change in the dose and/or strength of one or more APIs.
b) Change from an immediate release product to an extended or delayed-release dosage form or vice versa.
c) Change in dosage form.
d) Case of additional flavor.
e) Change of the API to a different API.
f) Inclusion of an additional API in a multicomponent product.
*g) Removal of one API from a multicomponent product."***(F/A)**

As per the decision of Registration Board the said correction requires new application, therefore, the firm has submitted new application on Form-5A with full fee as per following details:

Name of Importer	**M/s Vet Line International, 939-A, Block-J, Phase-I, LDA, Lahore.**

Contract manufacturing certificate No. 02.2/3281-2/2018 dated 13-06-2018 issued by Directorate of Veterinary Medicinal Products, Hungary

Decision: Registration Board approved the above mentioned correction in composition of Avi IB H120 (Reg. No. 062006) as per valid legalized Free Sale Certificate.

4. Registration of Imported Human Biological applied by M/s Vikor Enterprises (Pvt.) Ltd., Karachi approved in 293rd meeting of Registration Board.

Following product of M/s Vikor Enterprises (Pvt.) Ltd., Karachi was approved in 293rd meeting of Registration Board as per following details:

Name of Manufacturer	Brand Name & Composition	Document Details/ Pack Size	Decision of RB in 293rd meeting
M/s Bharat Biotech International Ltd., Genome Valley, Shameerpet Mandal, Medchal District-500 078, Telangana, India	Typbar TCV Typhoid Vi Conjugate Vaccine Each dose of 0.5mL contains: Purified Vi Capsular Polysaccharide of *Salmonella typhi Ty2* conjugated to Tetanus Toxoid... ….25µg	Legalized CoPP No. 8735/STORES/2019 dated 11-01-2019 valid upto 15-04-2020. 1's Vial (0.5mL)/ Not Provided.	*Keeping in view the above discussion, WHO Prequalification and valid legalized CoPP indicating product availability in country of origin; Registration Board cancelled the approval of Typbar TCV from the name of M/s Sind Medical Store, Karachi granted in 284th meeting and granted approval in name of M/s Vikor Enterprises (Pvt.) Ltd., Karachi as per current Import Policy for Finished Drugs. The Registration letter shall be issued after confirmation of cold storage facility of by the area FID and price verification from Pricing Division.*

Initially, the product was approved in 284th meeting of Registration Board in name of M/s Sind Medical Store, Karachi wherein the Board decided as follows:

"Keeping in view the WHO Prequalification and valid legalized CoPP indicating the availability of product in country of origin; Registration Board approved the product subject to price fixation by the Federal government and compliance of current Import Policy for finished drugs. The firm will submit new brand name along with NOC from manufacturer abroad and Chairman Registration Board is authorized for issuance of Registration letter."

However, while the product was approved in name of M/s Vikor Enterprises (PVt.) Ltd., Karachi, the scenario of brand name was not discussed. The product has already been referred to Pricing Division for price fixation. In this context, it is submitted that M/s Vikor Enterprises (Pvt.) Ltd., Karachi has informed that the brand name

change is not possible as M/s Bharat Biotech International Ltd., India is the originator of this product and Typbar TCV is their brand name which is internationally recognized, even it is WHO Preferred vaccine (with the same name) and till to date this product is not available with any other name globally, so that would not be possible for their principal to give new name for them.
The case was discussed in 295th meeting of Registration Board wherein the Board deferred the case for further deliberation in next meeting.
Accordingly, the case is placed for deliberation of the Board please.

Decision: Registration Board deliberated that already registered brand name is Typbar which is polysaccharide vaccine. While the said vaccine is conjugated vaccine and has TCV suffix in the brand name, which differentiates it from previously registered brand name. Moreover, Typbar TCV is only international brand of Typhoid Conjugate Vaccine and enlisted in WHO Prequalified list with the same name. The Registration Board endorsed its decision of 293rd meeting of Registration Board with Typbar TCV brand name.

5. Change of address of importer for already registered veterinary vaccines applied by M/s Vety-Care (Pvt.) Ltd., Islamabad.

M/s Vety-Care (Pvt.) Ltd., Islamabad has applied for the change in address of importer of already registered veterinary vaccines as per following details:

The firm has submitted the following documents for each product:

a. Fee challan of Rs. 5000 for each product
b. Copy of valid Drug Sale License No. 156ICT/2013 dated 31-12-2014 valid till 30-12-2020 indicating same proprietor as of previous DSL.
c. Copies of initial registration letter
d. Copies of last renewal submission

The last renewal applications of above products are provided by RRR Section.

Decision: Keeping in view the valid Drug Sale License; Registration Board approved the change of address of importer from M/s Vety-Care (Pvt.) Ltd., Plot # 81-B, Street # 06, I-10/3, Islamabad to M/s Vety-Care (Pvt.) Ltd., Plot No. 77, Street No. 6, I-10/3, Islamabad for above products subject to storage facility verification report of new address.

6. Change in manufacturing site of already registered human biological applied by M/s Sanofi Aventis Pakistan Limited, Karachi.

M/s Sanofi Aventis Pakistan Limited, Karachi applied for the change in manufacturing site of powder of their already registered product as per following details;

Reg. No.	**Name of Product**	**Already Approved site**	**Newly Applied Site**
083176	Thymoglobuline (Powder for concentrate for solution for infusion)	M/s Genzyme Polycolonals S.A.S., 23 boulevard Chambaud de la Bruyere, 69007 Lyon, France	M/s Genzyme Ireland Ltd., IDA Industrial Park, Old Kilmeadon Road, Waterford, Ireland.

The firm has submitted the following documents as per SOPs formulated in 283rd meeting revised in 292nd meeting of Registration Board:

Sr. No.	**SOPs formulated in 283rd Meeting revised in 292nd meeting**	**Documents submitted by the firm**
1.	Application on Form-5F	Provided.
2.	Required fee as per relevant SRO.	Fee Challan of Rs. 100000/-
3.	Copy of registration letter and last renewal status.	Copy of initial registration letter dated 23-01-2017
4.	Original and legalized Certificate of Pharmaceutical Product as per WHO format for new manufacturer's name OR Original and legalized GMP certificate of new manufacturing site with free sale certificate from regulatory body of country of origin.	Legalized CoPP dated 27-03-2019 indicating new manufacturing site issued by HPRA, Ireland.
5.	Site master file of new manufacturing site in case of change of manufacturing site/ source.	Provided.
6.	Revised Sole Agency Agreement when there is change in MAH.	Not Applicable as MAH is not changed.
7.	Proof/ evidence of the contract between Product License Holder & manufacturer (with changed/ new name), where	Copy Provided.

	the manufacturer and product license holder are different entities.	
8.	Undertaking that provided information/ documents are true & correct.	Provided.

Decision: Keeping in view the valid legalized CoPP indicating new manufacturing site & approval of HPRA, Ireland (Reference Regulatory Authority); Registration Board approved the change in manufacturing site of Thymoglobuline (Powder for concentrate for solution for infusion) (Reg. No. 083176) from M/s Genzyme Polycolonals S.A.S., 23 boulevard Chambaud de la Bruyere, 69007 Lyon, France to M/s Genzyme Ireland Ltd., IDA Industrial Park, Old Kilmeadon Road, Waterford, Ireland as per current Import Policy for finished drugs.

7. Change in Product License Holder of already registered human biological Myozyme (Reg. No.088667) applied by M/s Sanofi Aventis Pakistan Limited, Karachi.

M/s Sanofi Aventis Pakistan Limited, Karachi applied for the change in Product License Holder of already registered human biological as per following details:

Reg. No.	Name of Product	Already Approved Product License Holder	Newly Applied Product License Holder
088667	Myozyme Powder for concentrate for solution for infusion	M/s Genzyme Europe B.V., Gooimeer 10, NL-1411 DD Naarden, The Netherlands	M/s Genzyme Europe B.V., Paasheuvelweg 25, 1105 BP Amsterdam, The Netherlands.

The firm has submitted the following documents as per SOP approved in 283rd meeting Registration Board for the said change:

Sr. #.	Required Documents As per SOP	Documents submitted by the firm
1.	Application on Form-5A with required fee as per relevant SRO.	Provided
2.	Copy of registration letter and last renewal status.	• Copy of initial registration letter dated 10-10-2018 is provided.
3. Original Legalized CoPP 21/19/140562 dated 02-12-2019 issued by EMA indicating new address of product license holder.
4.	Site master file of new manufacturing site in case of change of manufacturing site/ source.	Not Applicable
5.	Revised Sole Agency Agreement when there is change in MAH.	Provided.
6.	Proof/ evidence of the contract between Product License Holder & manufacturer (with changed/ new name), where the manufacturer and product license holder are different entities.	Not applicable as both are same entities.
7.	Undertaking that the provided information/ documents are true/ correct.	Undertaking on the company letter head is provided.

Registration Board in its 292nd meeting discussed the requirement of Form-5F for Post Registration Variations. Registration Board exempted the requirement of Form-5F for change in name of Product License Holder as it may not incur any quality change. However, for change in address of Product License Holder requirement of

Form-5F was not discussed. As the change in address of Product license Holder also does not incur any quality change, hence the requirement of Form-5F in instant case may also be exempted.

Decision: Keeping in view the valid legalized CoPP indicating new Product License Holder & approval of EMA (Reference Regulatory Authority); Registration Board approved the change in Product License Holder of Myozyme Powder for concentrate for solution for infusion (Reg. No. 088667) from M/s Genzyme Europe B.V., Gooimeer 10, NL-1411 DD Naarden, The Netherlands to M/s Genzyme Europe B.V., Paasheuvelweg 25, 1105 BP Amsterdam, The Netherlands.

8. Application for separate registration numbers applied M/s Popular International Pvt. Ltd., Karachi available in the market under same number.

Following application of M/s Popular International Pvt. Ltd., Karachi for the change in name of Product License Holder and Manufacturer of registered human biologicals was discussed by Registration Board in its 293rd meeting:

Sr. No.	Reg. No. & Date	Date of Last renewal submission	Name of Product	Already Approved Name of Manufacturer	Newly Applied Name of Manufacturer
1.	077515 23-09-2013	18-09-2018	Gamunex-C 10%	M/s Grifols Therapeutics Inc. 8368 US 70 Business Hwy West, Clayton, NC 27520, US	M/s Grifols Therapeutics LLC 8368 US 70 Business Hwy West, Clayton, NC 27520, US
2.	012835 29-10-1991	15-05-2018	Hyperhep B S/D		
3.	007965 07-02-1985	15-05-2018	Koate-DVI		
4.	007967 07-02-1985	15-05-2018	Plasbumin-20 100ml		
5.	007967 07-02-1985	15-05-2018	Plasbumin-20 50ml		
6.	007967 07-02-1985	15-05-2018	Plasbumin-25 100ml		
7.	007967 07-02-1985	15-05-2018	Plasbumin-25 500ml		

The Board after discussion decided as follows:

"Keeping in view the valid legalized CoPP and approval of USFDA (Reference Regulatory Authority), Registration Board approved the change in name of product license holder and manufacturer from M/s Grifols Therapeutics Inc. to M/s Grifols Therapeutics LLC for above products. Registration Board further advised the firm to submit separate applications with full fee for products at sr. no. 5 to 7 for grant of separate registration numbers."

Accordingly, the firm has now submitted the applications on Form-5A with Fee challans of Rs. 50000/- each for all products as per following details:

Sr. No.	Product License Holder and Manufacturer	Brand Name and Composition	CoPP details	Type of Form Dy. No. Date of Application Pack Size
1.	**Product License Holder:** Grifols Therapeutics LLC, 79 T.W. Alexander Dr., 4101 Research Commons,	**Plasbumin-20; Intravenous** Each 50ml contains: Albumin…..10gm Shelf Life: 36 months (≤30^{0}C)	Legalized CoPP No. ZFM3-JHME WHO dated 10-01-2019 valid till 09-01-2021 issue by USFDA.	Form-5A Dy. No. 4998 Date: 19-03-2020 Rs. 50000/- Date: 19-03-2020

	Research Triangle Park, NC 27709, US **Manufacturer:** M/s Grifols Therapeutics LLC,			1's Vial (50mL)/ As per DPC
2.	8368 US 70 Bus Hwy W, Clayton, NC 27520, US, License # 1871	**Plasbumin-25; Intravenous** Each 50ml contains: Albumin…..12.5gm Shelf Life: 36 months (≤30^{0}C)	Legalized CoPP No. 5ZTP-V263 WHO dated 10-01-2019 valid till 09-01-2021 issue by USFDA.	Form-5A Dy. No. 4998 Date: 19-03-2020 Rs. 50000/- Date: 19-03-2020 1's Vial (50mL)/ As per DPC
3.		**Plasbumin-25; Intravenous** Each 100ml contains: Albumin…..25gm Shelf Life: 36 months (≤30^{0}C)	Legalized CoPP No. 5ZTP-V263 WHO dated 10-01-2019 valid till 09-01-2021 issue by USFDA.	Form-5A Dy. No. 4998 Date: 19-03-2020 Rs. 50000/- Date: 19-03-2020 1's Vial (100mL)/ As per DPC

Decision: Registration Board advised DBER to issue Post Registration variation approval granting three separate registration numbers for Plasbumin-20 (50mL), Plasbumin-25 (50mL) & Plasbumin-25 (100mL).

9. Withdrawal of license of Shan TT 5ml Adsorbed Tetanus Vaccine (Reg. No. 079273) applied by M/s Sanofi Aventis Pakistan Limited, Karachi.

M/s Sanofi Aventis Pkaistan Limited, Karachi applied for the cancellation of registration of following registered human biological:

Reg. No. & Date of Reg.	Name of Manufacturer	Brand Name & Composition	Pack Size
079273	M/s Shantha Biotechnics Private Limited, Survey No. 274, Athvelli village, Medchal Mandal – 501401, Ranga Reddy district, Telangana, India	Shan TT (Adsorbed Tetanus Vaccine) Each dose of 0.5ml contains: Tetanus Toxoid……≥40IU	5ml/10 dose vial

The firm submitted that this decision is not based on quality, safety or efficacy issues but has been taken for following reason:

i. WHO and UNICEF recommends replacing TT vaccine with Td vaccine
ii. No demand for TT vaccine has been received since January, 2019 in national and International immunization programs.
iii. The Tetanus containing vaccine market is healthy market, with ample capacity.
iv. Sanofi has also applied for delisting of Shan TT from the WHO prequalified vaccine list. Shan TT will be kept in the WHO list until the last lot expired in September, 2020.

The firm has also submitted the copy of delisting letter issued by WHO.

Decision: Registration Board did not accede to request of the firm and advised to make it available for market supply.

10. Application for Exemption of registration number & MRP on Pakistan specific packs at the time of import and permission for local priniting of same applied by M/s Sanofi Aventis Pakistan Limited, Karachi.

M/s Sanofi Aventis Pakistan Limited has requested for the exemption of Registration Number & MRP at the time of import on Pakistan Specific packs of below mentioned human biologicals:

Sr. No.	Reg. No.	Name of Product	Pack Size
1.	052293	Apidra Solostar Solution for Injection	3ml x 5PFS
2.	017004	Clexane Injection 40mg	2 Syringes (0.4mL)
3.	017809	Clexane Injection 60mg	2 Syringes (0.6mL)
4.	017810	Clexane Injection 80mg	2 Syringes (0.8mL)
5.	052294	Lantus Solostar Solution for Injection	3ml x 5PFS
6.	031388	Lantus Solution for Injection	10ml x 1's Vial
7.	090645	Toujeo 300Units/ml (Insulin Glargine)	3/s Pre-filled Pens
8.	069588	Enterogermina oral suspension 2 Billion	10's , 20's
9.	095289	Enterogermina oral suspension 4 Billion	5ml x 10 Vials, 5ml x 20 Vials

The firm has submitted the following documents:

1. Application with fee challan of Rs. 5000/- for each product
2. SOPs for control of repacking operations.
3. An undertaking that we will print the Registration Number and Maximum Retail Price (MRP) on each pack of above products at our Karachi site bearing DML No. 000007, before releasing the goods into the market.

The firm further submitted that:

"COVID 19 pandemic has brought the world to its knees. Even the countries supposed to have a strong healthcare system are unable to meet the requirements during these crucial times. Moreover, due to current work situation in majority of the countries affected many of the usual tasks have become a challenge to fulfill. Sanofi Aventis Pakistan Limited has always ensured to find ways to continue serving patients of Pakistan. Unfortunately, COVID -19 has been serious concern for whole of the world but still Sanofi embraces the challenge to serve patients at any cost.

Keeping in view the current scenario, we Sanofi-Aventis Pakistan Limited, Karachi would like to request the competent authority for exemption from Registration Number and Maximum Retail Price on Pakistan Specific packs and allow us to locally print Registration Number and MRP after import at our registered premises located at Plot No. 23, Sector No. 22, Korangi Industrial Area, Karachi."

Decision: Registration Board acceded to the request of the firm for import of Apidra Solostar (3ml x 5PFS) (Reg. No. 052293), Clexane Injection 40mg (2 Syringes(0.4mL) (Reg. No. 017004), Clexane Injection 60mg (2 Syringes(0.6mL) (Reg. No. 017809), Clexane Injection 80mg (2 Syringes(0.8mL) (Reg. No. 017810), Lantus Solostar (3ml x 5PFS) (Reg. No. 0052294), Lantus Solution for Injection (10ml x 1's Vial) (Reg. No. 031388), Toujeo 300Units/mL (3's Pre-filled Pens) (Reg. No. 090645), Enterogermina oral suspension 2 Billion (10's & 20's) (Reg. No. 069588), Enterogermina oral suspension 4 Billion (5ml x 10 Vials, 5ml x 20 Vials) (Reg. No. 095289) in Pakistan Specific Packs. The Board advised the firm to locally print MRP and Registration Number and other parameters as per Drugs (Labelling & Packing) Rules, 1978 before sale of drug at M/s Sanofi Aventis, Plot 23, sector 22, Korangi Industrial area, Karachi to comply the requirement as per Drugs (Labelling & Packing) Rules, 1986. This permission shall be valid for six (06) months only. The firm shall submit the future plan regarding the import of products in compliance with Drugs (Labelling & Packing) Rules, 1986.

Evaluator: AD-I

11. Imported Veterinary Biological applied by M/s Forward Solutions, Lahore deferred in 292nd meeting of Registration Board.

Following product of M/s Forward Solutions, Lahore was deferred in 258th meeting of Reg. Board held on 25-26thApril, 2016*for clarification by the firm for non-availability of the formulation by the regulatory authority in the country of the origin.* The case was taken in expert working group and the recommendations were considered in 292nd meeting of Registration Board held on 1st to 2nd October, 2019wherein the Board decided as under:

Product License Holder and Manufacturer	**Brand Name and Composition**	**CoPP details/ Shelf life/ pack size**	**Decision of 292nd RB meeting**
Product License Holder: FATRO S.p.A – Via Emilia, 285–40064-Ozzano Emilia (Bologna) Italy. **Dosage Form Manufacturer:** FATRO S.p.A–Via Molino Emili, 2–25030-Maclodio (BS)- Italy.	**IBA-VAC ST** Freeze-dried vaccine for administration in drinking water for chickens) Each dose contains: Live moderately attenuated virus, intermediate plus, of Infective Bursitis (Gumboro disease), Winterfield strain 2512: min. 10^2– max. 10^3EID_{50}	Legalized CoPP No. N. 25/2020/C dated 11th February 2020. 18 Months (2°C—8°C) 2500doses	*a. Reason for non-availability of the products in the country of origin by their concerned Regulatory Authority.* *b. Evidence of availability of the same products in any other reference regulatory authority as prescribed by the Registration Board.* *c. Evidence of availability of the same products with other brand*

			names in country of origin or in any other reference regulatory.

It is submitted that the firm was asked to clarify above mentioned queries for which the firm has submitted fresh Legalized CoPP details of which are mentioned above. The CoPP reflects that the product is in free sale in country of origin.

Decision: Keeping in view valid legalized CoPP indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

12. Request for approval of label update by M/s Eli Lilly Pakistan (Private) Limited for Trulicity 0.75mg/0.5mL & 1.5mg/0.5mL injections:

M/s Eli Lilly Pakistan (Private) Limited has applied for change in label of their already registered products as per following details:

Name of products	Current Leaflet (Indication)	New Leaflet (indication)
1. Trulicity 0.75mg/0.5mL injection (Reg. No. 088524) **2. Trulicity 1.5mg/0.5mL injection (Reg. No.** 088525)	Trulicity is indicated in adults with type 2 diabetes mellitus to improve glycaemic control as: *Monotherapy* When diet and exercise alone do not provide adequate glycaemic control in patients for whom the use of metformin is considered inappropriate due to intolerance or contraindications. *Add-on therapy* In combination with other glucose-lowering medicinal products including insulin, when these, together with diet and exercise, do not provide adequate glycaemic control (see section 5.1 for data with respect to different combinations).	<u>Type 2 Diabetes Mellitus</u> Trulicity is indicated for the treatment of adults with insufficiently controlled type 2 diabetes mellitus as an adjunct to diet and exercise • As monotherapy when metformin is considered inappropriate due to intolerance or contraindications • In addition to other medicinal products for the treatment of diabetes. For study results with respect to combinations, effects on glycaemic control and **cardiovascular events**, and the populations studied, see sections 4.4, 4.5 and 5.1.
	4.4 Special warnings and precautions for use Use of GLP-1 receptor agonists may be associated with gastrointestinal adverse reactions. This should be considered when treating patients with impaired renal function since these events, i.e. nausea, vomiting, and/or diarrhoea, may cause dehydration	**4.4 Special warnings and precautions for use** Dehydration, sometimes leading to acute renal failure or worsening renal impairment, has been reported in patients treated with dulaglutide, especially at the initiation of treatment. Many of the reported adverse renal events occurred in patients who had experienced nausea, vomiting, diarrhoea, or dehydration.

	which could cause a deterioration of renal function.	Patients treated with dulaglutide should be advised of the potential risk of dehydration, particularly in relation to gastrointestinal side-effects and take precautions to avoid fluid depletion. **4.8. Undesirable effects** **Dehydration (Uncommon)**

The firm has submitted following documents for the said change;

i. Fee of 20,000/- (Rs. 5000/- for each product for applied (2) changes)
ii. Copy of Reg. Letters
iii. Copy of existing leaflet
iv. Copy of updated leaflet
v. Justification of change.
vi. Copy of EMA approvals

It is submitted that the said update has been checked online for desired updates and changes were mentioned in new leaflet.

Decision: Keeping in view the approval of EMA (Reference Regulatory Authority); Registration Board approved the above mentioned indications for Trulicity 0.75mg/0.5mL (Reg. No. 088524) & Trulicity 1.5mg/0.5mL (Reg. No. 088525)

13. Registration of Veterinary Biological products applied by M/s Forward Solutions (Animal Health Company) deferred in 291st meeting of Registration Board.

Following products of M/s Forward Solutions, Lahore were deferred in291st meeting of Registration Board held on 2-4th September 2019. The details are as under;

1.	**Name of Importer**	M/s Forward Solutions (Animal Health Company) Plot No.19-B, Off Abdul Sattar Eidhi Road, Near Qazalbash Chowk, Lahore-Pakistan
	DSL details	DSL No. 05-352-0066-028137D valid till 10 Feb 2020
	Name of Manufacturer	**ATAFEN** Ata Fen VeterinerMalzemeleriHayvancilik Paz. San. Ve Tic. A.S. OSB Mah. 21 Sok. No.7/A 35735 Kemalpasa – Izmir / Turkey
	Brand Name +Dosage Form + Strength	**VBR COLI SERA + C COMBINED SERUM ANTIBODY**
	Composition	Active Substance: Each 1 ml of vaccine contains: *Escherichia coli* K99antibodies …….…….. ≥ 1/640 AU *Clostridium perfringens* Type C antibodies……≥ 50 IU
	Finished product specifications	As per innovator
	Pharmacological Group	Veterinary Biologicals (Antibody Serum)
	Shelf life	24 Months (Store at 2°C -8°C)
	International availability	Turkey, Azerbaijan.

	Products already registered in Pakistan	N/A
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A Dy.No.1377/AD(BD) dated 3rdDecember, 2018 30thNov, 2018 Fee Submitted: Rs.100,000/-
	Demanded Price / Pack size	Decontrolled/ 50mL(20 doses)
	General documentation	• Legalized Free Sale Certificate issued by Ministry of Agriculture and Forestry, General Directorate of Food and Control, Turkey. • Legalized GMP Certificate having Certificate No.GMP/TR/V/Yi/S0123/2018 issued by Ministry of Agriculture and Forestry General Directorate of Food and Control, Turkey valid till 22nd November 2020.
	Decision of 291st meeting of Registration board	Registration Board deferred the case for submission of following by the firm: a. Valid legalized GMP and Free Sale Certificates. b. Stability studies data of commercial batches **c.** Clarification regarding two manufacturing sites mention on GMP.
2.	**Name of Importer**	M/s Forward Solutions (Animal Health Company) Plot No.19-B, Off Abdul Sattar Eidhi Road, Near Qazalbash Chowk, Lahore-Pakistan
	DSL details	DSL No. 05-352-0066-028137D valid till 10 Feb 2020
	Name of Manufacturer	**ATAFEN** Ata Fen VeterinerMalzemeleriHayvancilik Paz. San. Ve Tic. A.S. OSB Mah. 21 Sok. No.7/A 35735 Kemalpasa – Izmir / Turkey
	Brand Name +Dosage Form + Strength	**VBR COLIMIX 9** Combined *Clostridium novyi* Type A, *Clostridium septicum*, *Clostridium sordelli*, *Clostridium perfringerns* Type B, C, D, *Clostridium chauvoei*, *Clostridium haemolyticum* and *Escherichia coli* Bacterin & Toxoid.
	Composition	<u>Active Ingredient:</u> 2ml of the vaccine provide 75% minimum immune response against Clostridum haemolyticum antigen in guinea pigs, > 1.0 IU / ml Clostridium soredellii, > 10.0 IU / ml Clostridium perfringens Type B and Type C Beta Antitoxin, > 5.0 IU / ml Clostridium perfringens Type D Epsilon Antitoxin, > 3.5 IU / ml Clostridium novyii Alfa Antitoxin, > 2.5 IU / ml Clostridium septicum Alfa Antotoxin, it provides 90% minimum immune response against Clostridium chauvoei antigen in guinea pigs, > 100 AU minimum immune response against Escherichia coli antigen K99/F41/F17(Fy),
	Finished product specifications	As per innovator

	Pharmacological Group	Veterinary Vaccine
	Shelf life	24 Months [2 Years] (Store at 2°C -8°C)
	International availability	Turkey, Azerbaijan.
	Products already registered in Pakistan	N/A
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A Dy.No.1377/AD(BD) dated 3rdDecember, 2018 30thNov, 2018 Fee Submitted: Rs.100,000/-
	Demanded Price / Pack size	Decontrolled/ 30mL 250 ml vial (62 cattle dose or 125 sheep and goats dose) / decontrolled
	General documentation	• Legalized Free Sale Certificate issued by Ministry of Agriculture and Forestry, General Directorate of Food and Control, Turkey. • Legalized GMP Certificate having Certificate No.GMP/TR/V/Yi/S0123/2018 issued by Ministry of Agriculture and Forestry General Directorate of Food and Control, Turkey valid till 22nd November 2020.
	Decision of 291st meeting of Registration board	Registration Board deferred the case for submission of following by the firm: a. Valid legalized GMP certificate. b. Notarized English translation of Free Sale Certificate. c. Stability studies data of commercial batches. d. Clarification regarding two manufacturing sites mention on GMP.

In the above context, the documents required as per decision of Registration Board and documents submitted by the firm are summarized as under;

Sr. No.	**Documents required as per 291st RB decision**	**Documents/ Clarification submitted by the firm**	
		Name of Product	
		VBR COLI SERA + C COMBINED SERUM ANTIBODY	**VBR COLIMIX 9**
1.	Valid legalized GMP certificate.	Legalized GMP No. Certificate No. GMP/TR/V/YI/S0123/2018	Legalized GMP No. Certificate No. GMP/TR/V/YI/S0123/2018
2.	Notarized English translation of Free Sale Certificate.	Notarized English translated Free Sale Certificate submitted. However, composition and pack size are not mentioned in the FSC.	Notarized English translated Free Sale Certificate submitted. However, composition and pack size are not mentioned in the FSC
3.	Stability studies data of commercial batches.	Submitted	Submitted
4.	Clarification regarding two manufacturing sites mention on GMP.	Atafen do not have two manufacturing sites. **Name of Manufacturer** **Address of Manufacturer** Ata Fen Veteriner OSB Mah. 21 Malz Sokak No.7/A	Atafen do not have two manufacturing sites. **Name of Manufacturer** **Address of Manufacturer** Ata Fen Veteriner OSB Mah. 21 Malz Sokak No.7/A

		Hay Paz. San. Ve Tic. A.S. Ulucak Kemalpasa/ IZMIR	Hay Paz. San. Ve Tic. A.S. Ulucak Kemalpasa/ IZMIR

Remarks of Evaluator:

1. The firm has changed pack size details;

Previous Pack Size		**New Pack Size**	
VBR COLI SERA + C COMBINED SERUM ANTIBODY	**VBR COLIMIX 9**	**VBR COLI SERA + C COMBINED SERUM ANTIBODY**	**VBR COLIMIX 9**
100 ml vial	250 ml vial	50mL(20 doses) vial	30mL vial

The firm has submitted revised form 5A.

2. The Free Sale Certificate does not mention composition and pack size. The firm has submitted undertaking that they will submit the required FSC mentioning composition and pack size before registration.

3. The stability data has been provided for complete shelf life with time intervals of 0,4,8,12,16,20,24 months which compiles to the specifications. Accelerated stability data has also been submitted.

Decision:

Registration Board deferred the products for submission of following by the firm:

a. Valid Legalized Free Sale certificate indicating composition & desired pack sizes.
b. Scientific immunological relevance of Clostridium species in Pakistan.

14. Basagine Injection approved in 256th meeting of Registration Board applied by M/s Getz Pharma (Pvt.) Limited, Karachi.

Following product of M/s Getz Pharma (Pvt.) Limited, Karachi was approved in 257th meeting of Registration Board as per following details:

Name of Manufacturer	**Brand Name & Composition as per CoPP**	**Decision of RB in 257th meeting**
M/s Gan & Lee Pharmaceuticals Ltd., No.8,JingshengNorth 3rdStreet, Golden Bridge Science Industrial Base, Zhongguancun Science Park, Tongzhou District, Beijing, China.	Basagine (Recombinant Insulin glargine injection) Each ml contains; - Recombinant Insulin Glargine…..…..100U	*Approved as per valid Legalized CoPP subject to inspection of manufacturer abroad as per Import Policy for Finished Drugs, verification of storage facilities and fixation of MRP by Pricing Committee.*

It is submitted that as per available record the product is already registered from same source in name of M/s East West Pharmaceuticals Pakistan (Pvt) Ltd., Karachi with brand name Basalin Insulin 100IU/3ml cartridge **(Reg. No. 053809)**. M/s Getz Pharma (Pvt.) Ltd., Karachi applied as new application and provided the authorization letter in their name from M/s Gan & Lee Pharmaceuticals Ltd., China.

To confirm status of the product from M/s East West Pharmaceuticals Pakistan (Pvt) Ltd., Karachi letter was forwarded on 19th June 2019.The firm was advised to submit response and clarify its position. However, no response was received. The case was taken in 291st meeting of Registration Board held on 2nd, 3rd& 4th September 2019 wherein the board decided as under;

"Registration Board advised DBER to issue a reminder to M/s East & West Pharmaceuticals Pakistan (Pvt.) Ltd., Karachi and to ask DRAP office, Karachi to provide the data of import of Basalin by M/s East & West Pharmaceuticals Pakistan (Pvt.) Ltd., Karachi."

Accordingly, a letter was forwarded to DRAP office, Karachi and a reminder to M/s East & West Pharmaceuticals Pakistan (Pvt.) Ltd., Karachi

It is submitted that reply from DRAP office, Karachi was received wherein it was informed that the product has not been imported through this office since January 2018 to date, as per available record. Moreover, no reply was received from East & West Pharmaceuticals Pakistan (Pvt.) Ltd., Karachi. So, the matter was again taken in 295th meeting of Reg. Board wherein board decided as under;

Registration Board advised DBER to issue final letter to M/s East & West Pharmaceuticals Pakistan (Pvt) Ltd., Karachi and advise them to appear before Registration Board in forth coming meeting for personal hearing to explain their position regarding the authorization of their product Basalin in name of M/s Getz Pharma (Pvt.) Limited, Karachi by their principal M/s Gan & Lee Pharmaceuticals Ltd., China. If M/s East & West Pharmaceuticals Pakistan (Pvt) Ltd., Karachi failed to attend the meeting, Registration Board will make ex-party decision & shall grant the registration in name of M/s Getz Pharma (Pvt.) Limited, Karachi.

Accordingly, a letter has been issued on 19-08-2020 to ask them to appear before Registration Board. In response, the firm has submitted that they are unable to attend the meeting due to current conditions in Karachi.

Decision: Registration Board advised DBER to issue show cause letter to M/s East & West Pharmaceuticals Pakistan (Pvt) Ltd., Karachi to give them final opportunity to appear before Registration Board in forth coming meeting for personal hearing under section 42 of the Drugs Act, 1976 read with rule 24 (17) of the Drugs (Licensing, Registering, Advertising) Rules, 1976 to explain their position regarding the authorization of their product Basalin in name of M/s Getz Pharma (Pvt.) Limited, Karachi by their principal M/s Gan & Lee Pharmaceuticals Ltd., China. If M/s East & West Pharmaceuticals Pakistan (Pvt) Ltd., Karachi failed to avail this final opportunity, Registration Board will make ex-party decision and shall grant the registration in name of M/s Getz Pharma (Pvt.) Limited, Karachi.

15. Change of address for importer on registration letter of MMR Vaccine (Reg. No. 013272):

M/s Amson Vaccine & Pharma has applied for change of address on approval letter of transfer of registered products of **MMR Vaccine (Reg. No. 013272):**

Reg No	Brand Name of Product	Manufacturer	Address of importer on Reg. Letter	Applied / desired address of importer
013272	Measles, Mumps, Rubella Vaccine live, attenuated (freeze-dried) M.M.R	Serum Institute of India Pvt Ltd(710286), 212/2, Hadapsar, Pune, 411028, Dist – Pune Zone3 India.	**M/s. Amson Vaccines & Pharma (Pvt.) Ltd** 154, Industrial Triangle, Kahuta Road, Islamabad	**M/s. Amson Vaccines & Pharma (Pvt.) Ltd** 115, Industrial Triangle, Kahuta Road, Islamabad

The firm has submitted;

i. Fee Rs. 5030/-
ii. Copy of registration letter and renewal (which has beensubmitted within time)

It is pertinent to mention that in DSL, mentioned address is "*115, Industrial Triangle, Kahuta Road, Islamabad"* and cold storage facility report is also available for the same address.

Decision: Keeping in view the valid Drug Sale License; Registration Board approved the change of address of importer from M/s. Amson Vaccines & Pharma (Pvt.) Ltd., 154, Industrial Triangle, Kahuta Road, Islamabad to M/s. Amson Vaccines & Pharma (Pvt.) Ltd., 115, Industrial Triangle, Kahuta Road, Islamabad for above product subject to storage facility verification report of new address.

16. Local Human Biological applied by M/s BF Biosciences, Lahore, deferred in 295th meeting of Registration Board.

Following human biological products applied by M/s BF Biosciences Ltd, Lahore were deferred in 295th meeting of Reg. Board. The details of the case are as under;

1.	**Name of Manufacturer/ Applicant**	M/s BF Biosciences Ltd., 5km- Sunder Raiwind Road, Raiwind, Lahore Bulk Manufacturer (Product License Holder in CoPP): M/s GEMABIOTECH S.A.U Fray Justo Sarmiento 2350 – 5ºPisoEdificio E2, Olivos, Partido de Vicente Lopez, Provincia de Buenos Aires, Argentina.
	Brand Name +Dosage Form + Strength	Eterna 25mg Injection
	Composition	Each ml contains: Each PFS contains Etanercept…. 25mg/0.5mL
	Finished product specifications	As per innovator
	Approval status in Reference countries	Enbrel
	Products already registered in Pakistan	Enbrel (M/s Pfizer)
	Shelf life	24 months
	Type of Form Dy No & Date of application, Fee submitted	Form-5 1379(R&I) 24-11-2016 Rs. 20000/- dated 23-11-2016
	Demanded Price/ Pack size	1's PFS/ As per SRO
	General documentation	DML No. 000655 dated 30-01-2019 GMP inspection report dated 24-12-2018
2.	**Name of Manufacturer/ Applicant**	M/s BF Biosciences Ltd., 5km- Sunder Raiwind Road, Raiwind, Lahore Bulk Manufacturer (Product License Holder in CoPP): M/s GEMABIOTECH S.A.U Fray Justo Sarmiento 2350 – 5ºPisoEdificio E2, Olivos, Partido de Vicente Lopez, Provincia de Buenos Aires, Argentina.
	Brand Name +Dosage Form + Strength	Eterna 50mg Injection
	Composition	Each ml contains: Each PFS contains Etanercept…. 50mg/0.5mL
	Finished product specifications	As per innovator
	Approval status in Reference countries	Approved
	Products already registered in Pakistan	Enbrel (M/s Pfizer)
	Shelf life	24 months

	Type of Form Dy No & Date of application, Fee submitted	Form-5 1379(R&I) 24-11-2016 Rs. 20000/- dated 23-11-2016
	Demanded Price/ Pack size	1's PFS/ As per SRO
	General documentation	DML No. 000655 dated 30-01-2014 GMP inspection report dated 22-02-2016

The firm has submitted the documents/data in the light of regulatory guideline for biological products approved in 278th meeting of Registration Board as per following details:

Sr. No.	Documents required as per 278th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	Documents submitted by firm
1.	The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	GMP certificate No. 20132021-000 013-18 dated 19-04-2018 of M/s ZELLTEK S.A, Ruta Nacional No 168 S/N, Pasaje "EI Pozo', Parque TecologicoLitoral, of the Province of Santa Fe, of the Argentine.
2.	The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	The firm has provided legalized copy of CoPP from ANMAT (National Administration of Drugs, Foods and Medical Devices) which is signed electronically.
3.	The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the bio-similarity.	Details are included below.
4.	The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	Lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (Not applicable).
5.	The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	Provided
6.	The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform analytical studies(Physicochemical and biological) including protein content, appearance, pH, Osmolarity, composition of key excipients including stabilizers (if formulation is same), visible/subvisible particles, identity testing to parent molecule, purity testing, in vitro biological activity, sterility, Pyrogen content, safety, potency and toxicity with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques). The firm shall submit the results for processing of registration application.	The firm has submitted stability study data and CoA wherein the tests conducted are as under; i. Appearance ii. Leak test iii. pH iv. Extractable volume v. Immuno characterization vi. Potency vii. Sterility viii. Bacterial endotoxins ix. Particulate matter. x. Sialic acid content xi. Protein concentration xii. Peptide mapping xiii. Identification (by SDS page) xiv. Isoforms content xv. Dimers and related proteins of higher molecular mass
7.	Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of	Provided

	DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	
8.	The manufacturer shall perform all tests locally as detailed on Certificate of analysis.	Provided.
9.	The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Not Provided.
10.	The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	Provided.
11.	The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Provided.

Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	**Physicochemical Characterization** i. Appearance and pH determination by visual method and potentiometric method. ii. Protein content by Spectroscopy. iii. Osmolarity by Osmometric vapor pressure. iv. Amino acid sequence by UPLC-ESI-MS/MS. v. Molecular Mass determination by MALDI-TOF MS. vi. Peptide mapping by RP-HPLC. vii. Analysis of Secondary & Tertiary structure by circular Dichroism (CD) and Intrinsic Fluorescence. viii. Structure Analysis by NMR. ix. Analysis of free monossacharides, Reversed Phase HPLC. x. Determination of High molecular weight and impurities by SEC-HPLC.
Biological Activity	Determination of Biological Activity by Quantification of the protection activity by inhibition of the cytotoxic effect of TNF-alfa.
Immunochemical properties	Immuno Identification by western blot.
Impurities	Impurities by SEC-HPLC.
Stability Studies	Long term stability data is provided while accelerated stability data is not provided.
Non-clinical Studies i. In-vitro Studies ii. In-vivo Studies	1. In vitro studies include determination of TNF-α binding through the quantification of the protection activity by inhibition of the cytotoxic effect of TNF-α. In addition, TNF-αbinding analysed by ELISA and Surface Plasmon Resonance (SPR). 2. In vitro secondary pharacodynamic comparability assays (ADCC, CDC, TNF-β binding and Fcγ receptors binding) performed and detailed in this module. Studies are performed in *Cebusapella* monkeys and Wistar rats (WKAH/Hok/LAE).
Clinical Studies	**Safety** Open randomized balanced Phase 1, actively – controlled, single dose, crossover study with two treatment periods. Thirty subjects treated with two products i.e. Enerceptan® Gemabiotech S.A. laboratory against Pfizer reference Enbrel® (15 each)

	Efficacy A phase III randomized evaluator blinded, Multicenter, Non-inferiority study to evaluate the comparative Efficacy, Safety and Immunogenicity of Enerceptan® (Gemabiotech) with Enbrel® (Pfizer) in combination with methotrexate in the treatment of patients with rheumatoid arthritis. (138 patients)

Remarks of Evaluator(295th meeting):

ii. The firm has provided legalized copy of CoPP from ANMAT (National Administration of Drugs, Foods and Medical Devices) which is signed electronically. However, the same certificates received earlier used to be manually signed. For this the firm has clarified that the document issuance process has been Digitalized in Argentina since January 2019. The firm also referred to online website of ANMAT which shows that *"depapelization program"* has been launched.

iii. The CoPP submitted by the firm reflects that **GEMABIOTECH S.A.U Fray Justo Farmiento2350 – 5º PisoEdificio E2, Olivos, Partido de Vicente Lopez, Provincia de Buenos Aires, Argentina**is Product License Holder while **MR Pharma S.A., Etados Unidos 5105, Malvinas Argentinas, Provincia de Beunos Aires, Argentina** is Manufacturer of pharmaceutical form.It is pertinent to mention that GMP certificate submitted by the firm is of manufacturer **ZELLTEK S.A, Ruta Nacional No 168 S/N, Pasaje "EI Pozo', Parque TecologicoLitoral , of the Province of Santa Fe, of the Argentine.**

In order to establish the relationship between

a. GEMABIOTECH S.A.U
b. MR Pharma S.A
c. ZELLTEK S.A

The firm has submitted following clarification letter by GEMABIOTECH S.A.U

- *Gemabiotech S.A.U. is a pharmaceutical company and the Marketing Authorization (MA) holder of certain finished dosage forms, registered and located in Argentina.*
- *Zeltek S.A. is an API manufacturing company also registered and located in Argentina that produces some of the APIs of Gemabiotech S.A.U. marketed pharmaceutical products.*
- *The manufacturing process of Gemabiotech S.A.U. finished products is outsourced to a contract manufacturing organization called MR Pharma S.A., which is a thirdparty company registered and located in Argentina too.*
- *Gemabiotech S.A.U. performs the quality control and releases all the finished products to the market after a Quality Assurance final inspection.*
- *There exist a manufacturing contract between Gemabiotech S.A.U. and MR Pharma S.A., ruling the relationship between them and the responsibilities of each party.*
- *The three companies, Zeltek S.A., Gemabiotech S.A.U and MR Pharma S.A., are inspected and approved by A.N.M.A.T, the Argentina Drug Agency, regarding GMP normative compliance.*

The case was discussed in the 295thmeeting of Reg. Board and it was pointed out by the DBER that the firm representative was present in the committee that finalized the Biosimilar evaluation guidelines hence their data should be exemplary. The board decided as under;

> *"Registration Board deferred the case for submission of data of complete test results as mentioned above in section 6 of guidelines approved in 278th meeting of Registration Board and Board advised the DBER that the test not performed by the firm or not required should clearly be mentioned."*

It is submitted that the firm has provided CoAs and result of Abnormal Toxicity Test which were performed by Centre of Excellence in Molecular Biology (CEMB) and are outsourced. Abnormal Toxicity test has been performed for three batches of both products (Eterna 25mg & 50mg) in three mice (for each batch).

Decision: Registration Board referred the case to Committee on Biological Drugs constituted in 273rd meeting of Registration Board for its recommendations on the requirements of toxicity studies and abnormal toxicity studies. Moreover, Registration Board nominated Lt. Gen. (R) Prof. Dr. Karamat Ahmed Karamat (HI-M, SI-M) as Chairman of said committee.

Evaluator: AD-II

17. Imported Human Biologicals applied by M/s Nees International, Lahore deferred in 291st meeting of Registration Board

The following two products are deferred in the 291st meeting of Registration Board. The details of the products are as under;

1.	**Name of Importer**	**M/s Nees International, Office No.6, 3rd Floor Al-Hafeez View Sir Syed Road Gulberg-III, Lahore.**
	DSL details	License No. 171-A/GT/11/2017, Valid: 14 June, 2019 Qualified Person: Umair Ikram Dar
	Name of Manufacturer	**Product License Holder & Manufacturer:** Hugel, Inc. Address: 23 Geodudanji 1-gil, Dongnae-myeon, Chuncheon-si Gangwon-do, Republic of Korea
	Brand Name +Dosage Form + Strength	BotulaxInj (100 units/ /vial) Lyophilized powder for injection
	Composition	Each vial (100 units) Contains….Clostridium botulinum toxin type A (CBFC26 strain)-------100 units
	Finished product specifications	BP specification
	Pharmacological Group	Muscle relaxant, peripherally acting agent
	Shelf life	36 months (2^0C-8^0C)
	International availability	China
	Products already registered in Pakistan	Not Available
	Type of Form Dy No & Date of application, Fee submitted	Form-5A Dy. No. (R&I) Dated 6th February 2018 Rs. 100,000/-6th February, 2018
	Demanded Price / Pack size	$60+ 10%FOC /100 units Vial
	General documentation	Legalized CoPP No.2017-A1-2061 dated 16-10-2017 Legalized GMP No. 2017-B1-0313 dated 27-06-2017 Copy of distribution Agreement

Decision of 291st meeting of RB: *Registration Board deferred the case for submission of following by the firm:*

a. Evidence of availability of formulation in reference regulatory authorities along with approved indications.

b. *Medical indication of the product as approved by regulatory authority of manufacturer.*

Remarks of Evaluator:

The firm has submitted that the Innovator of their product is Botox which is USFDA approved product and indications of their product will be same as that of Innovator product (i.e. Botox).

The Botox was checked in the USFDA and it was found that active constituent in the Botox is Onabotulinum toxin A while in the applied product active constituent is letibotulinum toxin A. Please note that in FDA two other types botulinum toxin A are also approved with the name of abobotulinum toxin A (Brand Name: DYSPORT) and incobotulinum toxin A (Brand Name: Xeomin) but the letibotulinum toxin A is not present in the online USFDA approval list. Moreover, applied formulation is not available in any reference regulatory authority.

Response of the firm: The firm has submitted the following clarification from the Principal Manufacturer:

We. Hugel Inc., hereby declare that Botulax (USAN: Letibotulinnumtoxin A) and Botox have the similar characteristics in terms of active substance, excipients, non-clinical pharmacodynamics study and comparative clinical studies with Botox as a control drugs. The firm has also informed that it is under registration in many European countries.

2.	**Name of Importer**	**M/s Nees International, Office No.6, 3rd Floor Al-Hafeez View Sir Syed Road Gulberg-III, Lahore.**
	DSL details	License No. 171-A/GT/11/2017, Valid: 14 June, 2019 Qualified Person: Umair Ikram Dar

	Name of Manufacturer	**Product License Holder & Manufacturer:** Hugel, Inc. Address: 23 Geodudanji 1-gil, Dongnae-myeon, Chuncheon-si Gangwon-do, Republic of Korea
	Brand Name +Dosage Form + Strength	Botulaxinj (50 units/ /vial) Lyophilized powder for injection
	Composition	Each vial (50 units) Contains….Clostridium botulinum toxin type A (CBFC26 strain)-------50 units
	Finished product specifications	**BP specification**
	Pharmacological Group	Muscle relaxant, peripherally acting agent
	Shelf life	36 months (2^0C-8^0C)
	International availability	China
	Products already registered in Pakistan	Not Available
	Type of Form Dy No & Date of application, Fee submitted	Form-5A Dy. No. 5615 (R&I) Dated 11thFebruary 2019 Rs. 100,000/- 7th February, 2019
	Demanded Price / Pack size	$37.5+ 10% FOC/100 units Vial
	General documentation	CoPP No.2017-A1-2062 dated 16th October,2017 Legalized GMP No. 2017-B1-0313 dated 27-06-2017 Copy of distribution Agreement

Decision of 291st meeting of RB: Registration Board deferred the case for submission of following by the firm:

a) Evidence of availability of formulation in reference regulatory authorities along with approved indications.
b) Evidence of availability of formulation in Pakistan.
c) Medical indication of the product as approved by regulatory authority of manufacturer.

The firm has submitted that the Innovator of their product is Botox which is USFDA approved product and indications of our product will be same as that of Innovator product (i.e. Botox).

Remarks of Evaluator:

- There is no formulation available in Pakistan in the 50IU.

The Botox was checked in the USFDA and it was found that active constitute in the Botox is Onabotulinum toxinA while in the applied product active constitute is letibotulinum toxinA. Please note that in FDA two other types botulinum toxin A are also approved with the name of abobotulinum toxinA (Brand Name: DYSPORT) and incobotulinum toxinA (Brand Name: Xeomin) but the letibotulinum toxin A is not present in the online USFDA approval list. Moreover, applied formulation is not available in any reference regulatory authority.

Response of the firm: The firm has submitted the following clarification from the Principal Manufacturer ;

We. Hugel Inc., hereby declare that Botulax (USAN: Letibotulinnumtoxin A) and Botox have the similar characteristics in terms of active substance, excipients, non-clinical pharmacodynamics study and comparative clinical studies with Botox as a control drugs. The firm has also informed that it is under registration in many European countries.

Decision: Registration Board deferred and advised applicant to provide data / evidence regarding availability of formulation in any of reference regulatory authorities.

18. Imported Human Biological applied by M/s Medinet Pharmaceuticals, Rawalpindi deferred in 291st meeting of Registration Board.

The following product of M/s Medinet Pharmaceuticals, Rawalpindi was deferred in 291st meeting of Registration Board. The details of the products are as under;

Name and address of Importer	**M/s Medinet Pharmaceuticals, Rawalpindi** **Building No. 601, Lane No. 05, Main Peshawar Road, Rawalpindi**
Detail of Drug Sale License	Drug Sale License No.01-374-0176-022646Ddated 13-12-2017 valid till 13-12-2019
Name of Manufacturer	**Product License Holder & Manufacturer:** Probiomed S.A de C.V. San Esteban No.88, Col. Santo Tomas, C.P. 02020, Deleg, Azcapotzalco, D.F., Mexico.
Brand Name +Dosage Form + Strength	FILATIL Prefilled Syringe 300MCG/1ML (Filgrastim)
Diary No. Date of R& I & fee	Dy. No. 1798 (R&I) dated 21-11-2014 Fee deposited: Rs. 50000/- dated 17-11-2014 + Rs.50000/- dated 15-3-2016
Composition	Each prefilled syringe contains: Filgrastim ……300 mcg
Pharmacological Group	rDNA therapeutic protein
Type of Form	Form 5-A
Finished Product Specification	BP specification
Shelf Life	2 years
Document Details	Legalized GMP Certificate No. 183300516A0174 dated 20-03-2018 valid until 2-06-2019. Legalized Free sale certificate No. 183300CI170155 dated 23-04-2018 with one year of validity and copy of translation notarized by Notary Public.
Pack size & Demanded Price	1's PFS/Not Provided.
International Availability	Neupogen of M/s Amgen Limited, UK
Products already registered in Pakistan	Neupogen
The detail of biosimilarity data submitted by the firm as under:	

WHO Biosimilarity Guidelines	**Data Submitted by the firm**
Quality Comparison Physicochemical Characterization	a) Molecular mass by mass spectrometer. b) Amino acid sequence in the N-terminus end by EdmanDegradation c) Amino acid sequence and peptide profile by reduced peptide mapping d) Electrophoretic 'profile' and 'apparent' molecular' mass' by sodium dodecyl sulfate polyacrylamide gel electrophoresis (SDS-PAGE) e) Hydrodynamic'volume by size-exclusion chromatography (SE-UPLC) technique using a fluorescence detector. f) Isoelectric point by capillary isoelectric focusing (cIEF) g) **Chromatographic'profile'and'polarity' BY** the reverse phase liquid chromatography (RP-HPLC) technique h) Upper order structure by fluorescence lifetime spectroscopy

	i) Secondary structure by circular dichroism j) Disulfide bond and peptide profile identification BY by non-reducing peptide mapping
Biological Activity	a) Binding to the receptor by flow cytometry b) Receptor binding by spectrophotometry in cells c) By G-CSF induced cell proliferation assay in cells 32D Clone 3 d) Biological Potency by in vitro cell proliferation using a mouse lymphoblastoid cell line (32D clone 3) e) Biological Potency by in vitro cell proliferation line NFS-60 (mice myeloblastic cells), f) In vivo assessment of the proliferative activity of Filgrastim using a neutropenic mouse model
Immunochemical properties	
Impurities	a. Aggregates by Identity and purity by molecular exclusion chromatography dad y SEUPLC-UV-FL b. Related isoforms by Reverse phase chromatography
Stability Studies	Stability studies are provided.
Non-clinical Comparison In-vivo Studies	(As already provided in Biological activity reproduced below:) a) Binding to the receptor by flow cytometry b) Receptor binding by spectrophotometry in cells c) By G-CSF induced cell proliferation assay in cells 32D Clone 3 d) Biological Potency by in vitro cell proliferation using a mouse lymphoblastoid cell line (32D clone 3) e) Biological Potency by in vitro cell proliferationline NFS-60 (mice myeloblastic cells), f) In vivo assessment of the proliferative activity of Filgrastim using a neutropenic mouse model
Clinical Comparison	i. Comparison of two presentations of filgrastim in Mexico used to mobilize hematopoietic totipotential cells from the bone marrow to the peripheral blood: prospective study in one single institution (19 Patient) ii. Only clinical reports are provided. Complete studies are not provided.

Decision of 291st meeting of RB:*Registration Board deferred the case for submission, of comparative Nonclinical studies under biosimilarity studies, by the firm.*

In response the firm has submitted comparative in-vitro non-clinical studies and in vivo assessment of the proliferative activity of Filgrastim using a neutropenic mouse model. While comparative toxicity studies are not provided for the which the firm has provided justification wherein it has been described that the product has been safely and effectively used in Mexico and in more than 8 countries since 2001. In 2014 the Mexican regulation was updated to converge with international guidelines, in this regard all biotechnological products were submitted to a regularization process according to the Official Mexican Standard NOM-257-SSA1-2014 "On matters of biotechnological medicines" and on the "Guide for establishing biocomparability of biotechnological drug product that contain Filgrastim as drug substance", to demonstrate its biocomparability against the reference drug product.And the said product i.e. Filatil (Filgrastim) was validated & renewed the marketing authorization in 2016 in the country of origin by submission the same data. And as per the guidelines of the country of the origin"**Toxicological studies will only be carried out if there is a need for information additional to that obtained in the *in vitro* studies. The duration must be justified and the pharmacokinetic behavior of the molecule and its clinical use must be taken into account**." Filatil has

presented biocomparability with the brand leader in the in vitro and in vivo biological activity assays, showing no signs that the assessment of the repeated dose toxicity was needed as part of the comparability exercise.

Decision: Registration Board deferred the case for submission of data of comparative non-clinical in-vivo repeat dose toxicity study by the firm.

19. Termination of Marketing Authorization of M/s Hospital Services & Sales, Karachi by its overseas Principal manufacturer Sichuan Yuanda Shuyang Pharmaceutical Co., Ltd, JieErNian, Zhonghe, Hi Tech Zone, Chengdu, China

The following product of M/sHospital Services & Sales, Karachi was approved in 258th meeting of Registration Board as per following details:

Manufacturer	**Brand Name & Composition**	**Document Details, Pack size & Shelf life**	**Decision of RB**
M/s Sichuan Yuanda Shuyang Pharmaceutical Co., Ltd, The 32nd Floor, First City Plaza, No. 308 of Shuncheng Street, Chengdu-610017, Sichuan, China, Manufacturing site: Sichuan YuandaShuyangPharmaceutical Co., Ltd, Hui Long, Zhonghe, Hi Tech Zone, Chengdu-610214, Sichuan, China	SUYA – IV 5g/VIAL (5%), 100mL Human Immunoglobulin (pH4) for Intravenous injection Each 100ml vial contains: Human Immunoglobulin ≥ 95%.....5g	CoPP No. 161100B0/57458 Valid till 04-09-2018	*Approved as per Import Policy for Finished Drugs. Firm will provide valid legalized CoPP and Chairman, RB will permit issuance of registration letter.*
	SUYA – IV 2.5g (5%), 50mL Human Immunoglobulin (pH4) for Intravenous injection Each 50ml vial contains: Human Immunoglobulin ≥ 95%.....2.5g	CoPP No. 161100B0/57457 Valid till 04-09-2018	
	SUYA – IV 1.25 /VIAL (5%), 25ML Human Immunoglobulin (pH4) for Intravenous injection Each 25ml vial contains: Human Immunoglobulin ≥ 95%.....1.25g	CoPP No. 161100B0/57455 Valid till 04-09-2018	

The inspection of manufacturing facility abroad was conducted by panel on dated12-13th July 2018in which panel "RECOMMENDED" the facility and rated VERY GOOD. The case has been processed for price fixation/ confirmation by the Costing & Pricing Division**.**

Now the , Legalized Letter of Cancellation (Termination letter) has been received by post on 7th April,2020 via Director PE&R division from Manager of International Trade Dept. Sichuan Yuanda Shuyang Pharmaceutical Co., Ltd China wherein it has been described that they have terminated the cooperation with Hospital Services & Sales, located at 13-C,Block 6, PECHS, Shahrah-e-Faisal, Karachi and decided to discontinue the cooperation with the said agent for the product Human Immunoglobulin for Intravenous Injection (1.25g,2.5g,5.0g,)(SUYA-IV).

Decision: Registration Board advised M/s Hospital Services & Sales, Karachi to submit updated Sole agency agreement within 02 months.

20. Change in address of importer applied by M/s Hipra Pakistan (Pvt) Limited, Lahore deferred in 295th meeting of Registration Board.

M/s Hipra Pakistan (Pvt) Limited, Lahore applied for the change in address of importer for their following veterinary vaccines as per following details:

Sr. No.	Reg. No.	Name of Product	Previous Address	Newly Applied Address
1.	094782	HIPRAGUMBORO-GM97	Office no.3&4,5th floor,105-B-II, Ali Tower, M.M Alam Road, Gulberg, Lahore.	3rd floor, Plot no.8, Block CCA, Phas w 6-C,DHA, Lahore.
2.	094781	HIPRAVIAR-SHS		
3.	094777	BRONIPRA-1		
4.	094769	HIPRAVIAR-B1/H120		
5.	094766	HIPRAGUMBORO-CH80		
6.	094779	HIPRAVIAR-CLON		
7.	094773	TOXIPRA-S7		
8.	094781	CORIPRAVAC		
9.	094770	AVISAN MULTI		
10.	099081	HIPRABOVIS SOMNI/Lkt		
11.	094783	HIPRAVIAR-ILT		
12.	094784	HIPRAGUMBORO-BPL2		
13.	094774	AVISAN SECURE		
14.	094768	HIPRAVIAR-TRT		
15.	094775	HIPRAVIAR-TRT4		
16.	094776	HIPRAVIAR-BPL2		
17.	094780	HIPRABOVIS-4		
18.	094771	HIPRAVIAR-S

25.	094468	HIPRALONA ENRO-S		
26.	094469	HIPRALONA ENRO-I		
27.	Under Process. Approved in 286th meeting.	HIPRAPOX		
28.	Under Process. Approved in 286th meeting.	NASYM		
29.	Under Process. Approved in 286th meeting.	HIPRADOG-7		

The firm has submitted the following documents:

a. Fee Challan of Rs. 5000/- for each product
b. Copy of initial registration letter
c. Copy of previous DSL.
d. Copy of new DSL indicating different proprietor.

All the products are recently transferred/fresh Registration (after 2018) in the name of the said importer therefore renewal is not yet.

It was noted that the proprietor of the company on the new DSL was also change and the NOC from the previous proprietor was not submitted instead the firm submitted notarized copy of the Resignation letter of the previous proprietor and notarized copy of the appointment letter of the new proprietor. And the firm

submitted that "The NOC is not possible to have from his side as he himself has resigned so that for your reference we have submitted his resignation letter"

The case was placed in 295th meeting of Registration board and the Board deferred the case for legal opinion by Legal Affairs Division of DRAP on not having NOC of from the previous proprietor. But before processing the case for legal opinion as per decision of the Board, the firm has submitted NOC from the previous proprietor i.e. Shadab Yunis Hakim.

Decision: Keeping in view the valid Drug Sale License; Registration Board approved the change of address of importer from M/s. Hipra Pakistan (Pvt.) Limited, Office no. 3 & 4, 5th floor, 105-B-II, Ali Tower, M.M Alam Road, Gulberg, Lahore to M/s. Hipra Pakistan (Pvt.) Limited, 3rd floor, Plot no.8, Block CCA, Phase w 6-C, DHA, Lahore for above products subject to storage facility verification report of new address.

21. Local human Biological applied for registration by M/s Hilton Pharma Karachi.

The following product for the local manufacturing biological drug was considered in 262nd Meeting of Registration Board held on 20-21stOctober, 2016and the Board decided as under;

Central Licensing Board has approved the manufacturing facility for rDNA products, As product is also of rDNA origin, which is evident from the provided certificate of analysis and other documents, thus Registration Bard approved Gluwell- Base 3ml Cartridge (Insulin Glargine 100IU). Insulin glargine will be imported in crystalline form from M/s Biocon India and will be formulated locally at M/s Hilton Pharma Karachi.

But later on the Registration Board in its 270th meeting advise the division of Biological drugs to come up with working paper in the next meeting. The final guidelines regulatory requirements of Biological drugs using rDNA technology has been approved in 278th meeting of Registration Board and it has been mentioned in the Guidelines that "***For the already registered drugs for local manufacturing the current guidelines shall apply".***

And the firm was advised to submit Biosmilarity data in light of decision of 278th meeting of Registration Board. Now the firm has submitted data which has been summarized below. The Detail of the product is as under;

Name of Manufacturer	M/s Hilton Pharma (Pvt.) Ltd. 13, sector 15, Korangi Industrial Area, Karachi.
Brand Name +Dosage Form + Strength	Gluwell-Base 3ml Cartridge Insulin glargine (100IU/ml)
Composition	Each ml cartridge contains: Insulin glargine ……100IU
Finished product specifications	BP Specification
Pharmacological Group	Therapeutic Protein
Shelf life	2 years when stored at 2-8 ^{O}C
Products already registered in Pakistan	Lantus by Sanofi
Type of Form Dy No & Date of application, Fee submitted	Form-5, Dy No & Date of initial Application. Dy No.2924/2016(R&I) dated 27-06-2016 Rs. 20,000 dated 27-06-2016
Demanded Price / Pack size	Price: As per DPC 3ml Cartridge Pack of 1's ,3's & 5's

The firm has submitted data as per the said guidelines. The submitted documents are evaluated as under;

Documents required as per 278th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	Documents submitted by firm
The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	The firm has submitted legalized copy of GMP but the manufacturing site mentioned is different from that was mentioned in the initial Registration dossier, provided copy of GMP at that time and Registration board meeting.
The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	The firm has submitted legalized copy of Free Sale Certificate (FSC) but the product mentioned is for export purpose only (Not freely available as per provided FSC). Furthermore, the manufacturing site mentioned is different from that was mentioned in the initial Registration dossier, provided copy of GMP at that time and Registration board meeting.
The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the bio-similarity.	Provided & Evaluated below
The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	The firm informed that no Lot release certificate is required for such types of product in India. (The letter is from the importer side)
The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	Provided
The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform analytical studies(Physicochemical and biological) including protein content, appearance, pH, Osmolarity, composition of key excipients including stabilizers (if formulation is same),visible/subvisible particles, identity testing to parent molecule, purity testing, in vitro biological activity, sterility, Pyrogen content, safety, potency and toxicity with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques). The firm shall submit the results for processing of registration application.	Provided results for the following tests: Appearance, Identification, PH, Product related substances and impurities, Limit of High Molecular weight proteins, m-cresol Content, Assay (Insulin Glargin), Particulate Matters & Bacterial Endotoxin test. **Not Perform:** Osmolarity, sterility, Safety, toxicity with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques.
The manufacturer shall perform all tests locally as detailed on Certificate of analysis.	Provided as mentioned above except Sterility test, Total Zinc content, Glycol content
The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Provided
The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	The firm has submitted Technology Transfer Agreement between Hilton Pharma & Biocon Limited dated 24th July 2009 but the specific wording as required in the Guidelines are not mentioned.
Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the	The firm has provided SOP for Pharmacovigilance Surveillance.

manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	The firm has also provided Commitment on its letter head mentioning the said statement.
The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Commitment provided on the letter head
If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Commitment provided on the letter head
All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	Commitment provided on the letter head

Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	a) Protein Content at UV 280 (by RP-HPLC method) b) Primary Structure: i. Intact Mass determination by Liquid Chromatography-mass spectrometry (LC-MS) ii. Molecular Mass (Reduced mass) determination by LC-MS iii. Peptide Mapping (Reduced) by LC-MS iv. Peptide sequencing by Liquid Chromatography with tandem mass spectrometry (LC-MS-MS) c) Secondary Structure & high order Structure i. Peptide mass fingerprinting under non –reducing conditions for confirmation of disulfide linkage by LC-MS ii. Disulfide linkage by 2D NMR iii. Secondary Structure by FT-IR spectroscopy iv. Circular Dichroism (Secondary Structure) by Far spectroscopy. v. Circular Dichroism (Tertiary Structure) by Near spectroscopy. vi. Determination of thermal stability by mean of Differential scanning calorimetry DSC vii. Determination of **Isoelectric point** (**pI**) by means of capillary isoelectric focusing (cIEF)
Biological Activity	Biological activity was carried out for insulin glargine injections by means of four different methods:. • Cell bases metabolic assay, • Mitogenic assay • Insulin receptor binding assay • IGF-1 receptor binding assay. Additionally in vivo bioassay /Insulin assay (USP 121 & USP 111) : Rabbit blood sugar method
Impurities	Determination of product related substances by mean of RS method
Stability Studies	Stability studies are provided.
Non-clinical Studies	A comparative 90 day toxicity study with recombinant Insulin Glargine (Biocon Ltd) and Lantus (Aventis Pharma) in Wistar Rats by subcutaneous route (Study no. G4668)
Clinical Studies	Open Label, Randomized, Multicentric Study to Establish Safety and Efficacy of Recombinant Insulin Glargine Manufactured by Biocon Ltd Compared to

	Lantus TM in Type 1 Diabetes Mellitus Patients. **(Total 226 evaluable patients)**

Remarks of Evaluator: As per Guidelines approved in 278th meeting of Registration Board, the following documents/data need to be submitted by the firm.

i. The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.
ii. The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.
iii. The firm has not performed Sterility test locally which is required as per above mentioned guidelines.
iv. The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.

Furthermore, the Safety/toxicity with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques is not been performed which is also not performed in quality comparison as per EMA assessment report of Biosimilar Insulin glargine.

Decision: Registration Board referred the case to Committee on Biological Drugs constituted in 273rd meeting of Registration Board for its recommendations on the requirements of toxicity studies and abnormal toxicity studies. Moreover, Registration Board nominated Lt. Gen. (R) Prof. Dr. Karamat Ahmed Karamat (HI-M, SI-M) as Chairman of said committee. However, following documents need to be submitted by the firm:

i. **Legalized GMP certificate of drug substance manufacturer abroad.**
ii. **Legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.**
iii. **Data of sterility test performed locally on finished drug.**
iv. **An agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.**

22. Case of Termination of Marketing Authorization of M/s Medi Mark Pharmaceuticals Liaqat chowk, Sahiwal by its overseas Principal manufacturer Changzhou Qianhong Bio pharma Co., Ltd. No.128 Xueye Road, Xinbei District, Changzhou, Jiangsu, China

The following product of M/s Medi Mark Pharmaceuticals Liaqat chowk, Sahiwal approved in 278th meeting of Registration Board as per following details:

Manufacturer	**Brand Name & Composition**	**Decision of RB**
M/s Changzhou QianhongBio-pharma Co., Ltd. Address 1: No.192 Huanghe West Road, Xinbei District, Changzhou, Jiangsu, China. Address 2: No.128 Xueye Road, Xinbei District, Changzhou, Jiangsu, China	**Mediren Inj**. 25000IU/5ml Each 5ml Vial contains: Heparin Sodium…… 25000IU/5ml USP Specs	Keeping in view the availability of product in country of origin as per submitted CoPP and Heparin injection being non-rDNA pharmacopoeial product, Registration Board approved the Mediren Inj. 25000IU/5ml as per valid legalized CoPP subject to price fixation by Federal Government and compliance of current Import Policy for Finished drugs.

The inspection of manufacturing facility abroad has been conducted by panel of inspectors (Mr. Muhammad Abdul Ghaffar , Deputy Director (Health & OTC), DRAP Islamabad & Prof. Dr. Abdul Haleem Khan, Member

Medical Devices Board on dated 29th-30th September 2019 in which panel "RECOMMENDED" the facility and rating **VERY GOOD.**

After receiving the above inspection report , Legalized Letter of Declaration (Termination letter) has been received by post on 28th October,2019 from Assistant of API Business Unit Changzhou Qianhong BiopharmaCo., Ltd. China wherein it has been described that Changzhou Qianhong Bio-pharma Co., Ltd.No.128 Xueye Road, Xinbei District, Changzhou, Jiangsu, China have decided to terminate the partnership, and cancel the agreement and power of attorney in the region of Pakistan with Medi Mark Pharmaceuticals (Pvt) Ltd. Addressed: Liaquat Chowk, Sahiwal, Pakistan for the product Heparin Sodium Injection 25000IU/5ml due to the fact that Medi Mark Pharmaceutical (Pvt) Ltd has failed to finish the registration and start the marketing of the said product within the validity period of agreement. And they also submit copy of email address to CEO DRAP, Chairman Registration Board Director Biological Drugs and Secretary Registration Board enclosing the same comments.

Decision of 293rd meeting of RB: Registration Board deliberated that the above said court order does not bar for further processing of the case. Hence, Registration Board decided to issue show cause notice to M/s Medi Mark Pharmaceuticals, Sahiwal regarding the cancellation of their authorization for registration of Mediren Injection by M/s Changzhou Qianhong Bio-pharma Co., Ltd., China.

As per above decision of the Board, show cause letter was issued to the firm and in response the firm has requested to give some more time to reply the show cause notice in proper way**.**

Decision: Registration Board advised M/s Medi Mark Pharmaceuticals, Sahiwal to submit updated Sole agency agreement within 02 months.

23. Case of Termination of Marketing Authorization of M/s Marush Pvt Ltd Lahore by its overseas Principal manufacturer M/s Shchelkovo Biocombinat, a Federal State Enterprise Russian Federation.

The following product of M/s Marush (Pvt.) Ltd., Lahore approved in258th meeting of Registration Board as per following details:

Manufacturer	**Brand Name & Composition**	**Decision of RB**
M/s Shchelkovo Biocombinat, Biocombinat township, Shchelkovskii, District Moscow region, Russian Federation. Jiangsu, Russia.	Cultural monovalent and polyvalent adsorbed Inactivated vaccine against Foot and Mouth disease. Each dose contains: Inactivated FMD virus antigen of strains: A (Turk06)…6PD50 O (Pan Asia2)……6PD50 Asia 1 (Sind08)…….6PD50 **Shelf Life:** 18 months (20C-80C)	Approved as per import policy and as per valid legalized CoPP

The product is waiting of constitution of panel for inspection facility abroad and now email has been received to Director Biological via Chairman Registration Board fromUlyashkin Alexey Head of commercial department Shchelkovo Biocombinat, Russia (sales@biocombinat.ru) wherein it has been mentioned that Schelkovo Biocombinat a Federal State Enterprise of the Russian Government, in the year 2018 has terminated the Distribution Agreement for Pakistan's market with Marush and request to not consider any dealing of Marush (Pvt) Ltd on behalf of Schelkovo Biocombinat. The Notice of Termination of Agreement in the name of M/s Marush Pvt Ltd dated 1-04-2018 is also attached with said email.

Decision: Registration Board decided to issue show cause notice to M/s Marush Pvt. Ltd., Lahore under section 42 of the Drugs Act, 1976 read with rule 24 (17) of the Drugs (Licensing, Registering, Advertising) Rules, 1976 regarding the cancellation of their authorization for registration of Cultural monovalent and polyvalent adsorbed Inactivated vaccine against Foot and Mouth disease by M/s Shchelkovo Biocombinat, Biocombinat township, Shchelkovskii, District Moscow region, Russian Federation. Jiangsu, Russia.

24. Delisting of BCG vaccine BP of M/s M & M Pharma, Lahore from WHO prequalification list

The following product of M/s M & M Pharma, Lahore was approved in 268th meeting of Registration board as per following details.

Manufacturer	Brand name & composition	Document details
Greensignal Bio Pharma Limited,No. 49, Pappankuppam village, Gummidipoondi taluk Tiruvallur District Chennai-601201, India	**BCG vaccine BP** Each freeze dried vaccine vial contains: Mycobacterium bovis BCG, Danish strain 1331, Live attenuated equivalent to 20 doses…….1mg Sodium glutamate.....1.5%w/v Shelf Life: 24 months	Legalized CoPP No. L.DIS No. 17307D1/4/2016 dated 30-09-2016 Free Sale certificate No.L.Dis. No. 14450/ D1/4/2015 dated 19-09-2015 Sole agent/ Authority letter dated 19-11-2016

The product is imported from India and its WHO prequalification is been removed on *1 November 2019* as per online WHO websites vide below mentioned link **but the firm i.e. M/s M & M Pharma, Lahore did not intimate DRAP till date.**
https://www.who.int/immunization_standards/vaccine_quality/TB_Vaccine-withdrawal/en/

And the statement on WHO website is reproduced as under;

"1 November 2019 - WHO today removed a freeze-dried BCG vaccine for the prevention of tuberculosis from its list of prequalified vaccines for procurement by UN agencies. The decision follows a number of evaluation activities carried out by WHO to monitor the performance of both the vaccine and its manufacturer, GreenSignal Bio Pharma Pvt Ltd., India.

Alternative sources of prequalified BCG vaccines are available.

The Freeze-Dried BCG vaccine in question was prequalified by WHO in November 2015. As part of its efforts to ensure continued supply of quality-assured vaccines, WHO has recently carried out post prequalification monitoring activities – namely, target independent testing, submission and assessment of Prequalified Vaccine Annual Reports and inspections of the manufacturing site.
The outcome of the WHO inspections of the manufacturing site, and the company's response to the findings of those inspections were not satisfactory. The last two WHO inspections concluded that the company was operating at unacceptable levels of compliance with WHO guidelines on good manufacturing practices, potentially endangering the performance of the vaccine and posing a high risk to recipients.
WHO will proceed to the immediate removal of the vaccine from the WHO list of prequalified health products and recommends continued vaccination with prequalified BCG vaccines from alternative sources.
WHO has advised Green Signal Bio Pharma Pvt Ltd., India to take appropriate action, including immediate recall of remaining vials of the lots of the freeze-dried BCG vaccine manufactured and distributed in 2019."

Decision: Registration Board deliberated that the product was registered and exempted from inspection of manufacturer abroad on the basis of then WHO Prequalification. Now, WHO has removed the vaccine from WHO list of prequalified products, therefore, Registration Board decided to issue show cause notice to M/s M&M Pharma, Lahore under section 42 of the Drugs Act, 1976 read with rule 24 (17) of the Drugs (Licensing, Registering, Advertising) Rules, 1976 regarding the delisting of their product BCG Vaccine BP (Reg. No. 084608) from the list of WHO Pre-qualified vaccines.

AGENDA ITEM NO. 01– OLD CASES RELATED TO DRAP OFFICE, QUETTA REFERRED BY HONOURABLE DRUG COURT QUETTA.

It is submitted that the FID, Q @K vide letter vide letter 3-1/2009-FID(Q)K dated 28.01.2019 stated that the Honorable Drug Court, Quetta has passed the orders during proceedings on 3rd December, 2018 in the case titled "Surat Khan Medical Store and others" to provide the list of pending cases of DRAP, Quetta. Moreover, the FID Quetta requested vide letter No.3-1/2019-FID(Q) K dated 05th August 2019 "the old pending cases may kindly be discussed in the Boards concerned on priority basis and necessary decisions may kindly be passed in order to submit the status/copies of decisions in the Honorable Drug Court, Quetta".

As per information provided regarding the cases referred by the Honorable Drug Courts, Quetta and FID, Quetta @ Karachi, as per records shared by DRAP Office Quetta, following are the details of cases. The FID Quetta claimed that the cases were submitted to the Chairman CLB&RB, Government of Pakistan, de-funct Ministry of Health, Islamabad in the said years. As per available record of the section it seems that the referred cases by the FID Quetta were not processed and found pending to date due to reasons not revealed yet.

In light of request of FID Quetta, the agenda of said pending cases have been prepared according to records available in the section and the records shared by DRAP Office Quetta, for the consideration of Board please. The details of the cases are as under:-

CASE NO.01:- MANUFACTURE AND SALE OF MISBRANDED AND SUBSTANDARD DRUG BICOLAX TABLET B.NO.4E009

That the then FID Quetta Mr. Syed Abdul Saleem vide letter no.F.12-26/DCA-QTA/1708 dated 08th September, 2008informed that the instant case was sent by the then FID Mr. Adnan Faisal Saim vide his letter No.12-26/DCA-QTA/Bicolax-3752 dated 28thOctober 2005.

02. As per case forwarded by the then FID Quetta Mr. Adnan Faisal Saim that he visited the premises of T.K Traders Dr. Bano Road Quetta on 21st May 2005 from where a sample of drug namely BicolaxB.No.4E009 labeled to be manufactured by M/s Epoch Pharmaceuticals Pvt Ltd Karachi (along with other samples of drugs) was taken from the purpose of test/analysis under section 19(2) of Drugs Act 1976 on Form-3.

03. That the then FID Quetta informed that the sample of said drug along with other samples of drugs was sent to the Government Analyst/Director CDL Karachi vide his office letter No.F.5/DCA-QTA/Sample-3020 dated 25th May 2005 on form-4 under section 19(3)(i) of Drug Act 1976 and a portion of the said drugs also sent to the Chairman CLB & RB Islamabad vide his letter No.F.5/DCA-QTA/Sample-3028 dated 25th May,2005. A portion as manufacturer portion of said drug was also send to M/s Epoch Pharmaceutical Pvt. Ltd Karachi vide his office letter No.F.5/DCA-QTA/Sample-3022 dated 25th May, 2005.

04. That the then FID Quetta informed that M/s T.K traders Quetta was asked to provide invoice with warrantee in respect of drug in question vide office letter No.F.5/DCA-QTA/Sample-3047 dated 28thMay 2005 and on non-responding reminders vide letter No.F.5/DCA-QTA/Sample-3143, 3179, 3297 dated 21.06.2005, 11.07.2005 and 29.07.2005 respectively & show cause notice vide letter No.F.5/DCA-QTA/Sample-3390 & 3427 dated 20.08.2005 & 24.08.2005 respectively. M/s T.K Traders Quetta submitted vide letter No. TK/16-8/05 dated 23.08.2005, copy of their letter addressed to M/s Epoch Pharmaceutical Pvt Ltd Karachi for provision of invoice for said drug. Thereafter a letter vide No.F.5/DCA-QTA/Sample-3426 dated 24th August 2005 was dispatched to M/s Epoch Pharmaceutical Pvt. Ltd Karachi for explanation but firm submitted copy of their invoice with warrantee bearing No.1091 dated 28.03.2005 for said drug vide letter No. Nil dated 30.08.2005. M/s T. K Traders Quetta has also submitted invoice with warrantee bearing No.1091 dated 28.03.2005 of M/s Epoch Pharmaceuticals Pvt. Ltd Karachi vide their letter No. T. K/17-08/2005dated 05.08.2005 received on 05th September 2005.So the warrantor portion of said sample of drug was sent to M/s Epoch Pharmaceuticals Pvt. Ltd Karachi vide his office letter No.F.5/DCA-QTA/Samples-3518 dated 13th September 2005.

05. That the then FID Quetta also informed that the Director, CDL, Karachi vide his test report no.R.1286/2005 dated 26th August 2005 dated 26th August 2005 declared the sample of **Bicolax Tablet Tablet B.No.4E009** as **Misbranded & Substandard.**

06. That the then FID Quetta also reported that a show cause notice was issued to M/s Epoch Pharmaceuticals Pvt. Ltd Karachi for manufacturing a substandard drug, issuing false warranty, stocking for sale and selling substandard drug namely Bicolax Tablet B.4E009 and also asked for provision of following documents vide office letter No.F.12-26/DCA-QTA/Bicolax-3530 dated 21st September 2005.

a). Production/analysis and sale record with copies of invoice of paracetamol tablet b.no.10.
b). Copy of Registration certificate of Bicolax Tablets.
c). Recall all the stocks of Bicolax Tablet B.No.4E009 from the market under intimation to this office.
d). Name addresses and attested copies of CNIC of the following personal of firm
   i. Management Director/Chief Executive/owner/partner
   ii. Director/Directors.
   iii. Plant Manager
   iv. Approved production Incharge.
   v. Approved QC Incharge.
   vi. Warehouse Incharge.

07. That the then FID Quetta also informed that M/s Epoch Pharmaceuticals Pvt Ltd instead of submitting their reply along with information asked for, challenged the test report and requested for test/analysis of said product from NIH Islamabad vide letter No. Nil dated 11th October 2005.

08. That the then FID Quetta also stated that M/s T.K Traders Quetta was asked for provision of stock position of referred batch of Bicolax Tablet and that stop further sale vide office letter No. F.12-26/DCA-QTA/Bicolax-3532 dated 21st September 2005. M.K Traders Quetta submitted Nil report vide letter No. T.K 18-10/05 dated 26.10.2005

09. That keeping in view the detail investigation the then FID Quetta proposed that a panel (in which the FID Quetta also nominated as member) may kindly be constituted for details inspection for checking the production test/analysis and sale record of firm

10. That keeping in view the above stated facts the then FID Quetta also stated that it seems that the firm M/s Epoch Pharmaceuticals has violated the sections 23(1)(a)(iii), 23(1)(v),23(1)(x), 23(2)(b), 23(2)(f) and 27(4) of the Drugs Act 1976 and M/s T.K Traders Quetta violated the section 23(1)(a)(x), 23(1)(i).

11. As per information obtained from the company file available in Division of Drugs Licensing following are the responsible persons for manufacturing of BICOLAX TABLET B.NO.4E009 with manufacturing date 12/04:

i. Production Incharge – Qamar ul Huda
ii. Quality Control Manager – Mrs Seema Ashaqeen

Proceedings and Decision of 292nd Meeting of Registration Board held on 01st-02nd October, 2019

14. That None appeared on behalf of the accused before the Board (neither in person nor by any attorney/pleader) nor submitted any written reply to the show cause notice till 01st October, 2019.

Decision of 292nd meeting of Registration Board.

15. The Board decided to grant last opportunity of personal hearing to the accused persons before the Registration Board in its upcoming meeting with direction that no further adjournments will be granted.

16. The decision of the Board was communicated to the accused persons vide letter no. 03-46/2019-QC (292-DRB) dated 12.11.2019.

17. The firm M/s Epoch Pharmaceuticals, Plot No. 83-85, Sector No. 15, Korangi Industrial Area; Karachi- Pakistan vide their letter no. NIL dated 20.11.2019 submitted reply which is reproduced as under:

"With reference to your letter No. F.03-46 /2019-QC (292-DRB) dated 12th November 2019, received by us on 19th November 2019, that the board decided to grant last opportunity of Personal Hearing to the accused person before Registration Board Meeting in its upcoming meeting with the direction that no further adjournment will be granted.

This is to inform you that a letter No. F.21-26/DCA-QTA/Bicolax 3530 dated 21/09/2005 received by us on 5th October 2005. Our Technical Director had appeared in honorable board on 11th October 2005 and disused the matter and submit the reply. After that Honorable board decided to cancel the registration of Bicolax 5 mg Tablets Registration # 012833, copy enclosed.

Similarly, this case was again received by letter No. F.03-41/2019-00(291 DRB) dated 19lh September 2019 received on 27th September 2019 Ministry of health provided us the opportunity of Personnel hearing which we availed and our representative appear on 30th September 2019 and discuss the matter and submit the reply which is self-explanatory, copy enclosed.

Honorable Board had already decided to cancel the registration of Bicolax Tablet 5mg (Reg. No. 012833) and letter no. F-1-51/2005Reg-II (pt) dated 30th June, 2006 and we have accepted the decision of the Honorbale Board in comply with the direction of Central Licensing Baord and stop manufacturing of Bicolax Tablet 5mg since June 2006 (copy enclosed).

Now again on 19th November 2019 we received a letter in which board decided to grant last opportunity of Personnel Hearing.

We are requesting you to pl. suggest that this opportunity is still needed that product has already been deregistered since last 13 years.

We are enclosing all the required correspondence for your ready reference.

Again requesting to consider this reply for Bicolax 5 mg Tablets Reg # 012833 and close this matter."

Proceedings and decision of 293rd Meeting of Registration Board:

18. The Board was apprised that the show cause notice and personal hearing letters were issued to the accused persons in the light of decision of the Board, the firm has submitted written reply reproduced in para 17 above, however no one appeared before the Board either in-person or by authorized legal counsel.

19. The Board after detailed discussion, deliberations, considering the facts and written reply of the firm decided as under:

i. **As the registration of the product has already been cancelled by the Registration Board vide letter dated 30th June, 2006, the Board constituted the following panel to conduct a thorough cGMP inspection of Tablet Section of the firm:**
    a. **Rafiq Alam**
    b. **Area FID, Karachi**
    c. **Affan Ali**

Directed the FID, Quetta to hand over the case to Provincial Quality Control Board, Baluchistan to the extent of M/s T.K Traders Quetta for violating the provisions of section 23(1)(a)(x), 23(1)(i) of the Drugs Act, 1976.

The above said decisions of the Registration Board were communicated to the constituted panel and FID, Quetta vide No.F.03-65/2019-QC (293-RB) dated 22-04-2020 with request to comply with the decision of the Registration Board and report of inspection be provided **within 15 days** positively for consideration of Board, please.

In response to the Decision of the 293rd meeting of RB, M/s Epoch Pharmaceuticals vide reference No.Nil dated 11-05-2020 submitted their reply and is reproduced as under;

- *A letter No.F.12-26/DCA-QTA/Bicolax 3530 dated 21-09-2005 on the subject cited above. Our Technical Director and Managing Partner had appeared in honourable Board on 18-03-2206 and discussed the matter and submit the reply. After that the Honorable Board decided to cancel the Registration of Bicolax 5mg Tablets reg.# 012833.*
- *After Honorable Baord decision to cancel the Registration of Bicolax tablets 5mg Reg. No. 012833 in letter No.F.1-51/2005 Reg-II (pt) dated 30-06-2006and we have accepted the decision of the Board and comply with the directions of Central Licensing Board and stop manufacturing of Bicolax tablets 5mg since 2006.*
- *Through inspection had been conducted by the panel on 20-10-2010.*

- *Similarly the case was again received by letter No.F.03-41/2019-QC (291 DRB) dated 19-09-2019. Ministry of Health provided us the opportunity of personal hearing which was availed by us and our representative appear on 30-09-2019 and submit the reply.*
- *Product already been deregistered since around last 13 years so we presumed that the case is now closed by licensing Board therefore as per standard procedure we have disposed of the batch document record and the keeping samples all the licensing staff has now been changed who can brief the process.*
- *Respected sir our humble request to withdraw the letter of panel inspection.*

FID-II, DRAP, Karachi vide reference No.F.000425/2020-FID-II (K) dated 31st August, 2020 has forwarded the panel GMP inspection report of M/s Epoch Pharmaceuticals conducted by the panel constituted in 293rd meeting of the Registration Board. Inspection report is reproduced as under;

i. ***Inspection Site:***

M/s Epoch Pharmaceuticals (Pvt.) Ltd. is situated at Plot # 83-85, Sector 15, Korangi Industrial Area, Korangi, Karachi, Pakistan.

ii. ***Inspection Date:***

The inspection was carried out on Monday, 17th August 2020.

iii. ***Inspectors:***

The following inspectors of Drug Regulatory Authority of Pakistan were authorized to inspect/audit the firm:

1. *Dr. Rafeeq Alam Khan, Dean Faculty of Pharmacy, Ziauddin University, Karachi*
2. *Mr. Abdul Rasool Shaikh, Area Federal Inspector of Drugs-II, DRAP, Karachi.*
3. *Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi*

iv. ***Reference:***

The firm has been granted Drug Manufacturing License (by way of formulation) number 000425, valid till 2021.

The inspection was carried out on the instruction of Drug Registration Board, DRAP for detail cGMP inspection of Tablet section vide letter No.F.03-65/2019-QC (293-RB), dated 22nd April, 2020.

v. ***Introduction:***

M/s Epoch Pharmaceuticals (Pvt.) Ltd., is a national pharmaceutical manufacturing company based at Karachi started its operations in 1998 with Manufacturing License Number 00425. The firm is engaged in manufacturing of solid oral dosage forms (i.e. tablets, capsules, powder for oral suspension), liquid syrup, cream/ointment, dedicated sections of cephalosporin, separate sections for oral penicillin, separate sections for veterinary products and sterile liquid injection and sterile ophthalmic drops.

vi. ***Scope of Inspection:***

As per TORs of the reference DRAP Islamabad letter a detailed inspection of their tablet section, stores, QC Lab was carried out and respective documentations were also reviewed in detail.

vii. ***Personnel met/accompaniedduring the inspection:***

1. *Mr. Saleem Abu Bakar, Managing Director*
2. *Mr. Salman Saleem, Chief Operations*
3. *Mr. Sohail Qasim Khan, Manager Quality Assurance*
4. *Ms. Zeenat Azhar, Head of Quality Control*
5. *Ms. Farhat Baigum, Head of Production*

viii. ***Inspectors Team's findings and observations relevant to the inspection; and deficiencies***

Pharmaceutical Quality System

During targeted inspection the panel found compromised quality management system starting from procurement of production materials from un-approved sources, inappropriate and un-controlled storage conditions, sub-optimal production conditions and more than that lack of necessary quality

documents, overall resulting in un-safer products. However certain instant working SOPs and controlling documents were shown during inspection, which were found deficient of key quality elements.

Personnel

The firm has hired key personnel without well-defined written authority, training and necessary relevant experience.

Premises & Equipment:

The tablet section was seen built as per provided design, which has to be regularized and approved. The flow of men &material and poor sanitation level might amplify the chances of cross-contamination among the productionas there were no proper buffers/air-locks and proper written plan to minimize the risks of cross-contamination was not available. The processes were found un-validated and almost all equipment were seen without proper written qualification documents. Certain key production machines like FB Dryers and bag filters used in drying were found key sources of cross-contamination, as cleaning procedures were not validated.

Certain walls of tablet sections were peeling off and floor was cracked resulting in bad maintenance and accumulation of dust and pathogens in claimed controlled areas. The panel was not shown any preventive or emergency maintenance plan available with the management of the firm.

Warehouses were not maintained properly, materials were seen exposed to un-controlled and un-wanted environmental conditions. The storage areas were provided with low lighting, the merely ducts provided there were open and no false ceiling was provided.

Documentation:

During inspection the firm was advised to provide key quality documents like site master file, validation and calibration plan, HVAC design with qualification documents, certain key working SOPs, preventive maintenance plan, stability studies program, self-audit documents, training program, change control management, controlling the deviations, OOS and OOT etc. Among those only a few incomplete and insufficient documents were provided. The panel found a very poor documentation control, which may badly affect the quality and safety of product the firm manufactures.

Production:

The tablet section has been provided with un-qualified HVAC System which was found incapable of reducing the chances of contamination and cross-contamination and can provide better safety to working personnel. Most of the bags of active materials were seen without necessary initial sampling and testing as required under GMP guidelines, instead seen tagged with released labels. In-appropriate sampling plan and procedures were seen in place. In-appropriate and irregular quality checks were noted in one of the BMR wherein apparent OOS were neglected and product was released for marketing. Overall a feeble production system noted in place.

Quality Control:

The firm has quality control laboratory for testing of bulk as well as finished goods with requisite equipment. The stability program of the firm needs to be improved with proper implementation.

ix. ***Conclusion & Recommendation:***

Keeping in view the above-mentioned facts and observations, the panel found the firm operating at sub-optimal GMP conditions particularly in tablet section and might not be allowed to carryout it's manufacturing under those conditions. All the major observations pointed out during the inspection were discussed in detail with the management of the firm and they showed interest to halt voluntarily their manufacturing operations and in addition to that the firm has submitted in written improvement plan to the panel for further consideration of the Board.

Proceeding and Decision of 296th meeting of Registration Board.

Registration Board after detailed deliberations, considering the inspection report forwarded by the panel constituted by the Board in its 293rd meeting decided as follows;

- **QA&LT Division shall process the panel report by its own, as per their prescribed procedure without waiting for the minutes of the 296th meeting of Registration Board.**
- **Registration Board also recommended the suspension of the tablet section to the Central Licensing Board till improvements in the said section and restoration by the Board.**

Case No. 02: CASES DECIDED BY BOARD FOR WHICH IMPLEMENTATION PART IS NOT TRACEABLE/PENDING.

Name of drug	Manufact-ured by	Declared by CDL as	Current Status of case	Decision of 291st Meeting of RB held on 02-04th September, 2019	Communication of Decision of 291st RB	Proceeding & Decision of 292ndmeeting of RB held on 01-02 Oct, 2019
1. Tabs. Paracetamol **Batch No.** 1595	M/s Pakistan Pharmaceutical and chemical Hyderabad	Substandard	Case decided by Drug Registration Board in its 234th Meeting held on 23.07.2012 and decided as under: • Suspension of registration of Paracetamol 500mg Tablet (Reg. No. 004251) for 2 months, • Panel inspection of the firm for qualitative investigation of case. • Resumption of production will be after satisfactory inspection report of panel and approval of chairman, Registration Board. • Sampling of drug after resumption of production. The area Assistant Director (I&E) That the area FID shall submit a complete report including implantation	The decision has been communicated to quarter concerned vide letter 03-41/2019-QC (291-DRB) dated 19-09-2019 for compliance of the decision of Board.	The Board was apprised that the reply from the Federal Inspector of Drugs are still awaited because 15 days period was given to them for the said purpose which has yet not expired. The Board further directed to update Drug Court as per report of respective DRAP office and place the case in forthcoming meeting of Registration Board.

			August, 2012 to the quarter concerned for its implementation.	status alongwith supporting documents/evidences/ annexures/inspection reports **within 15 days positively**. Non-compliance to the aforesaid directions will lead to disciplinary proceedings as per law.		

Response of FID vide letter no.F.SAA-001/2019-FID-V(K)(INV) dated 30th September, 2019:

"In compliance to decision of the Drug Registration Board undersigned along with Dr. Kirshan, Assistant Director, DRAP, Karachi visited the premises of M/s Pakistan Pharmaceuticals and chemicals, A-34, SITE, Hyderabad on dated 30th September, 2019 to ensure the implementation of the decision of the 234th Meeting of Drug Registration Board. During the course of the visit Mr. Sultan-ul-Haq Qureshi and Miss Maqsooda Begam (QC Incharge) were present at the premises, the manufacturing section of the firm was closed and it was observed that there was no any manufacturing activity being carried out for some time period, in addition there was no any record of said batch of paracetamol available at the premises of the firm and no any fresh stock of tablet paracetamol was available for re-sampling. The owner of the firm informed that they had never produced the said batch number (B.No. 10) of product paracetamol tablet and never received any letter pertaining to the said batch number from the DRAP, Islamabad / any concerned quarter."

Additional Director, DRAP, Karachi has been telephonically once again requested to send the implementation status before the meeting.

Proceedings and Decision of Board in its 293rd Meeting

The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under:

- That area FID be directed to again visit the firm and communicate the implementation of Board's decision of the case.
- The Board once again directed area FID to comply with/enforce the Board's decision in its letter & spirit and where required conduct the panel inspection comprising of following panel members and submit report:
    1. The area Additional Director, field office DRAP
    2. The area FID
    3. The area Assistant Director (I&E)

That the area FID shall submit a complete report including implementation status along with supporting documents/evidences/ annexures/inspection reports **within 15 days positively**. Non-compliance to the aforesaid directions will lead to disciplinary proceedings as per law.

In light of the above said decision of the Registration Board in its 293rd meeting, the area FID, DRAP, Karachi was requested vide letter No.F.03-65/2019-QC (293rd RB) dated 21st April, 2020 to comply with the decision of the Registration Board in its true letter and spirit. Reminder of the above said letter is also issued on 02-06-2020.

Till now, no report has been submitted by the area FID, DRAP, Karachi in the instant case.

Proceedings and Decision of Board in its 295th Meeting

The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under:

- **Last/final chance shall be given to the FID/Investigation officer for compliance of the already communicated decision in the instant matter and submit complete report including implementation status along with supporting documents/evidences/ annexures/inspection reports within 15 days positively.**
- **QA&LT Division, DRAP, Islamabad is advised to direct Federal Inspector of Drugs/Investigation officers for compliance of decision of Registration Board within stipulated time.**

In response to the communicated decision of 293rd meeting of Registration Board, FID-V, DRAP, Karachi submitted reply vide No.F.SAA.001/2019-FID-V (K) (INV) dated 12th June, 2020 and is reproduced as under;

I have the honor to refer to the DRAP's letter no. F.03-65/2019-QC (293-RB) and this office earlier letter of even number dated 30 September, 2019 for the subject captioned above. In compliance of the directions passed by the Drugs Registration Board in its meeting no. 293, held on 06th - 08th January, 2020, the undersigned again visited the premises of M/s. Pakistan Pharmaceutical and Chemical Hyderabad on dated 04th June, 2020, the firm M/s. Pakistan Pharmaceutical and Chemical Hyderabad was found closed. Upon telephonic contact with the owner of the firm Mr. Sultan ul Haque Qureshi, he informed that currently he is on dialysis and the factory is closed these days and regarding telephonic discussion about the batch in question, he again informed that they had never produced the batch no. 10 of Paracetamol tablets and didn't receive any letter pertaining to the said batch number from DRAP, Islamabad or concerned quarter (the written response already submitted by the firm vide their letter of dated 30th September,2019 and the copy is enclosed herewith).

Decision of 295th meeting of Registration Board was communicated to the quarter concerned vide letter No.F.03-28/2020-QC (295th RB) dated 19-08-2020.

In response to the communicated decision of 295th meeting of Registration Board, FID-VIII, DRAP, Karachi submitted reply vide No.F.SY.004/2020-FID-VIII (K) dated 31st August, 2020 and is reproduced as under;

"*In compliance to the directions passed by the Drug Registration Board in its meeting No. 295th , held on 08-11th June, 2020 the undersigned visited the premises of M/s Pakistan Pharmaceutical and Chemical Hyderabad on dated 28th August, 2020.*

The firm was found closed due to sudden death of the owner of the firm Mr. Sultan Ul Haque Qureshi. Owner's son Asad Ul Haque Qureshi assured to comply with the decision of RB communicated vide letter No.F.SY.001/2020-FID-VIII (K) dated 26th August, 2020.

Furthermore, Factory was not operational and production was temporarily closed till 21st September, 2020 due to owner death. The written response of the firm is enclosed herewith.

Keeping in view of the facts stated above, the case may be placed and discussed in the Central Licensing Board under section 19(7) of Drug Act 1976 for further directions."

Proceeding and decision of the 296th meeting of Registration Board.

Registration Board after thorough deliberations constituted the following panel to conduct Panel inspection of the firm after 21st September for qualitative investigation of case (**Manufacture & sale of substandard Paracetamol tablets, Batch No.1595**) and submit a complete report including implementation status of 234th meeting of Registration Board's decision along with supporting documents/evidences/ annexures/inspection reports without waiting for the minutes of the meeting and for further consideration of the Board;

- **Dr. Rafeeq Alam Khan, Member Registration Board.**
- **Additional Director, DRAP, Karachi.**
- **Area Federal Inspector of Drugs, DRAP, Karachi.**

2. AB -Clor **Batch No.** D-173	M/s Alience Pharmaceuticals Peshawar	Sub-Standard and Adulterated	Case decided by Drug Registration Board in its 234th Meeting held on 23.07.2012 and decided as under: • Suspension of registration of AB-Clor 250mg/5ml Suspension till the submission of stability data by the firm,	The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under: • That area FID be directed to communicate the implementation of aforesaid Board's decision of the case.	The decision has been communicated to quarter concerned vide letter 03-41/2019-QC (291-DRB) dated 19-09-2019 for compliance of the decision of Board.	The Board was apprised that the reply from the Federal Inspector of Drugs are still awaited because 15 days period was given to them for the said purpose which has yet not expired. The Board further directed to update Drug Court as per report of respective DRAP office

			• Panel inspection of the firm for qualitative investigation of case. • Resumption of production will be after satisfactory inspection report of panel and approval of chairman, Registration Board. • Sampling of drug after resumption of production. Non-compliance to the aforesaid directions will lead to disciplinary proceedings as per law.		and place the case in forthcoming meeting of Registration Board.

Response of FID-II, DRAP, Peshawar vide No.F.11-54/19-Alliance-DRAP(P)-FID-II-6092:
"[…]The firm has submitted in reply that they appeared for personal hearing before the 234th DRB Meeting held on 23rd July, 2012.
3. The panel constituted vide letter no. F.3-28/2009-QC-I dated 29th August, 2012 conducted inspection on 05th and 26th December, 2013 wherein panel recommended restoring the production of the product.
Recommendation.
Therefore the panel recommends restoring the production of AB-Clor dry powder suspension as the firm has done sufficient improvements on the advice of the panel. (Copy of inspection report attached).
4. However there is no approval of Chairman, Registration Board available as per available office record.
5. Sampling of drug has also not been done as the firm has not manufactured the said product batches as per their letter no. 104-All/QC-19-20 dated 25th Sep, 2019. (Copy attached).

[…]"

6. As per company statement dated 25-09-2019 in the light of decision by DRB, despite recommendation by the panel regarding restoring the said product until now we have not manufactured the said product. However, no stability data is attached with the report.

Proceedings and decision of 293rd meeting of the Board

In the light of report submitted by FID, Peshawar, the board decided to verify the claims of the firm by corroborating it with import data of raw material required for manufacturing of product AB-Clor and place the case in forthcoming meeting of Registration Board. Aforementioned data shall be verified by DRAP, Peshawar.

In light of the above said decision of the Registration Board in its 293rd meeting, the area FID, DRAP, Peshawar was requested vide letter No.F.03-65/2019-QC (293rd RB) dated 22nd April, 2020 to comply with the decision of the Registration Board in its true letter and spirit. Reminder of the above said letter is also issued on 02-06-2020. Till now, no report has been submitted by the area FID, DRAP, Peshawar in the instant case.

Proceedings and Decision of Board in its 295th Meeting.

The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under:

- **Last/final chance shall be given to the FID/Investigation officer for compliance of the already communicated decision in the instant matter, to verify the claims of the firm by corroborating it with import data of raw material required for manufacturing of product AB-Clor and submit complete report within 15 days positively.**
- **QA&LT Division, DRAP, Islamabad is advised to direct Federal Inspector of Drugs/Investigation officers for compliance of decision of Registration Board within stipulated time.**

Current Status of the case.

That the Federal Inspector of Drugs, DRAP, Peshawar submitted his reply vide reference No.F.11-54/2020-Alliance-DRAP (P) dated 12-08-2020 regarding the subject of "Manufacturing And Sale Of Substandard And Adulterated Drug Ab-Color Batch No. D-173 – M/S Alliance Pharmaceuticals, Peshawar" addressed to the Director QA&LT, DRAP, Islamabad.

Wherein he has referred DRPS's Islamabad letter No.F.03-65/2019-QC (293-RB) dated 22-04-2020 and submitted that as per available office record of the firm M/s Alliance Pharma Peshawar has not imported API Cefaclor, the raw material required for manufacturing of product AB-Clor, since 2010. The same statement has also been submitted by the firm.

Proceeding and decision of 296th Meeting of Registration Board.

The Board after thorough deliberations, considering the facts of the case, report submitted by the FID, DRAP, Peshawar decided to issue show cause notice for cancellation/suspension of the subject cited drug to M/s Alliance Pharmaceuticals (Pvt.) Ltd., Peshawar.

3. Caps. Epoclox 500mg **Batch no:** 5A001	M/s Epoch Pharmaceuticals, Karachi	Substandard & Misbranded	As per available record of 219th Meeting of RB held on 20th August, 2009 wherein the case was presented before the Board and the Board after scrutiny of the record has decided to • Conduct CGMP inspection • Investigate the matter through a panel	The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under: • That area FID be directed to communicate the implementation of aforesaid Board's decision of the case. • The Board further directed area FID to comply	The decision has been communicated to quarter concerned vide letter 03-41/2019-QC (291-DRB) dated 19-09-2019 for compliance of the decision of Board. Non-compliance to the aforesaid directions will lead to disciplinary proceedings as per law.		and place the case in forthcoming meeting of Registration Board.

Area FID, DRAP, Karachi vide no. F. 4-10/2019-FID-II-(K)1180 dated 04.10.2019 submitted as under:

"I have the honor to refer to your letter No.F.03-41/2019-QC (291-RB) dated 19th September, 2019 regarding subject cited above and to state that M/s Epoch Pharmaceuticals Karachi was contacted to clarify the subject matter.

2. The firm vide letter no. Nil dated 25th September 2019, submitted that the required inspection in that connection had been conducted by the then FID and Director CDL Karachi on 27th January 2010, but the sample of under referenced product was not taken for test & analysis.

3. It is further stated that as the necessary inspection has already been conducted thereby only samples were taken and sent to Federal Government Analyst, CDL Karachi for test & analysis in compliance to the direction.

4. All necessary documents in this matter are hereby attached for your information & further necessary action/direction."

Proceedings and decision of 293rd Meeting

Registration Board after detailed discussion and deliberations after considering the facts of the case decided as under:

"Directed area FID, Karachi to carryout Product (Caps. Epoclox 500mg) Specific Inspection for verification of root cause analysis, Corrective and preventive action (CAPA) by the firm and panel comprising of Dr. Rafeeq Alam Khan, Member Registration Board, Area FID and Ms. Hira Bhutto, AD-CDL.

Submit test/analysis report of already taken samples."

In light of the above said decision of the Registration Board in its 293rd meeting, the area FID, DRAP, Karachi was requested vide letter No.F.03-65/2019-QC (293rd RB) dated 21st April, 2020 to comply with the decision of the Registration Board in its true letter and spirit. Reminder of the above said letter is also issued on 02-06-2020. **Till now, no report has been submitted by the area FID, DRAP, Karachi in the instant case.**

Proceedings and Decision of Board in its 295th Meeting

The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under:

- **Last/final chance shall be given to the FID/Investigation officer for compliance of the already communicated decision in the instant matter and conduct Product (Caps. Epoclox 500mg) Specific Inspection for verification of root cause analysis, Corrective and preventive action (CAPA) by the firm and submit complete report with clear & candid recommendations within 15 days positively.**
- **QA&LT Division, DRAP, Islamabad is advised to direct Federal Inspector of Drugs/Investigation officers for compliance of decision of Registration Board within stipulated time.**

In response to the decision of 293rd meeting of RB, communicated vide letter No.F.03-65/2019-QC dated 22-04-2020 FID-II, DRAP Karachi forwarded the Product Specific inspection report vide reference No.F.000425/2020-FID-II (K) dated 14-07-2020. Inspection was conducted by Dr. Rafiq Alam, Area FID, DRAP, Karachi and Dr. Hira Bhutto Assistant Director, CDL, Karachi. Report is reproduced as under;

BACKGROUND:

M/s Epoch Pharmaceuticals (Byt) Ltd, situated at Plot 83-85 sector 15 Korangi Industrial Area Karachi was inspected on 1'5-07-2020 with reference to DRAP's letter no F. No. 03-65/2019 - QC(293RB)dated 22nd July, 2020in order to check the Rootcause of their substandard Epoclox 500mg capsule and subsequent corrective and preventive actions taken by them to avoid occurrence and recurrence of such failures in future.

Case Background.

i. *As per letter from deputy drug controller letter No. F. 4. 29.2003 QC the board in 219th meeting dated 20th August, 2009 constituted the panel for investigation of the matter comprised of Dr Tanver alam, Director CDL and Area FID and ADC. As per the report of panel the GMP report was unsatisfactory, (copy enclosed), however the samples of the product were drawn during inspection for test and analysis purposes and the results were of standard quality copy of the test report is annexed.*

ii. *As per Direction of registration board vide letter No F. 03-41/2019-QC (291-RB) dated 19th September, 2019 wherein area FID was directed to take Sapmples of Epoclox 500mg capsule for testing purpose. The area F.I.D took the samples of Epoclox 500mg capsule B # 010 on 25th September, 2019, the same were tested by central drug laboratory and the results found satisfactory as per CDL report dated 29th October, 2019 (Copy enclosed)*

iii. *The Board in its 293rd meeting held on 6th and 8th January 2020 directed area FID karachi to carry out product (caps Epoclox 500mg) specific inspection for verification of root cause analysis, corrective and preventive action of the firm by the panel comprising of Dr Rafeeq Alam khan, Member Registration Board, area FID and Ms Hira Bhutto AD, CDL*

The panel gone through following areas to identify the root-cause of above mentioned substandard product:

i. *Meeting / Discussion with technical staff*
ii. *Quality Control Department*
iii. *Production Section*
iv. *Raw Material Store*
v. *Documentation*

1 Meeting / Discussion with technical staff: *Before the start of inspection, the technical persons were interviewed and the background of the matter in question was discussed. Firm's representative told the panel that batch of Epoclox 500mg capsule B# 5A001 was manufactured in year February, 2005 currently no record of batch manufacturing or quality control testing available with firm however the copy of report of CDL dated 24th February, 2005 and investigation report of panel dated 27th January, 2010 available (copy enclosed).*

2. *Quality Control Department:*

- *No dedicated facility for testing of penicillin product available. The penicillin products were tested in general quality control Lab.*
- *The record showed that product was tested as per In-House specifications, however no record of*

product testing of Epoclox 500mg Capsule B # 5A001 available.

- *Calibration of most of the equipment in quality control lab was due for which no updated schedule for calibration available.*
- *the documents record / log sheets and record of relevant raw calculation was found to be un-satisfactory and non-traceable.*
- *Analytical method validation or verification of raw material and finished pharmaceutical product not available.*

3. *Raw Material Store:*

The raw material store, storage conditions and relevant supporting documents / log sheets were reviewed.

- *Uncontrolled material storage area was provided within segregated facility of Penicillin*
- *Cleaning condition of raw material store was unsatisfactory.*
- *Job description of dispensing pharmacist was not available. Dispensing pharmacist is directly reporting to CEO.*
- *No dedicated staff for penicillin production facility. The firm have only one dispensing pharmacist who perform the dispensing operation of penicillin and non-penicillin products*
- *Raw material was not assigned unique identity code at the time of arrival. Raw material details could not be traced from material issuance note as no unique code assigned*
- *Dispensing booth is not of adequate size to perform dispensing operations*

4. *Production Section:* *Technically the penicillin manufacturing areas were not dedicated on the following grounds.*

- *The entrance to the area was provided through a common entrance from general area.*
- *Area classification and qualification was not justified*
- *HVAC of area was unfunctional, return ducts were provided on roof*
- *HVAC qualification record not available*
- *Current status of penicillin area is not as per provided lay out plan*
- *No area for in process checks control available.*
- *Machine parts of penicillin were placed in tool room of general area*
- *Primary packaging of capsule in jar performed in uncontrolled area*
- *batch manufacturing formula, production equipment, log books, equipment and relevant SOPs were checked and found a satisfactory level of compliance.*

5. *Documentation:*

- *Batch manufacturing record of Epoclox 500mg capsule B# 010 manufactured in August, 2019 was reviewed by panel. Batch was manufactured as per standard BMR. The product testing record of that batch was also reviewed. The batch was tested as per In House specifications,*
- *Equipment calibration and dispensing booth calibration records were reviewed*
- *No cleaning validation record available*
- *Log books were uncontrolled without specific code and page numbering*

Findings of inspection.

- *Product validation of Epoclox 500mg capsule were not performed.*
- *The firm change the primary packaging of epoclox 500mg from strip to jar without performing stability studies and without necessary regulatory approval.*
- *The Material issuance note of Epoclox 500mg capsule B # 010 shows that cioxacillin sodium USP grade was used however COA of manufacturer shows that the raw material tested as per BP grade. The firms representative said it is a documentation error.*
- *Batch documents have no recording of time of production steps.*
- *Incident report, deviation form and CAPA not raised for this incident*
- *SOP of CAPA SOP # EP/QA/SOP-010/002 were implemented on 11-11-2019 have no description of CAPA investigation committee firm advised to review this SOP.*
- *SOP of documentation control not available.*
- *No CAPA and incident report of Epoclox 500mg capsule B # 5A001 was available*
- *As per material issuance record of raw material (Bin card) no standard batch sizeof Epoclox 500mg capsule is followed batches are manufactured as per market demand.*
- *The batch manufacturing record of Epoclox 500mg capsule B # 009 and 010 were available and reviewed. As per the record of batch #010 weight variation in capsule were observed most of the capsule were filled below lower limit (limit 670mg to 700mg)*
- *Batch # 009 weight variation limit is 656mg to 725mg. no standard limit is followed.*
- *Change control mechanism and documents were not available*

Details of previous/subsequent batches is described as under: Detailed record of manufacturing and testing were

not available however as per material issuance BIN card following details has been recorded.

S No:	Product name	Batch No	Date Of dispensing of raw material	Packaging Detail
1	Epoclox 500mg	006	31-08-2012	Jar Packaging
2	Epoclox500mg	007	19-08-2014	Jar Packaging
3	Epoclox 500mg	008	22-12-2016	Jar Packaging
4	Epoclox500mg	009	02-02-2017	Jar Packaging
5	Epoclox500mg	010	08-08-2019	Jar Packaging

Conclusion / Recommendation:

In the light of the meeting with staff, documents review including manufacturing, testing and ware-house record and findings of the inspection, the firm has been found non-compliant in so called dedicated manufacturing facilities of Penicillin. Based on the stated observations the panel unanimously recommends as follows.

Suspension of manufacturing activities in Penicillin areas till the rectifications of all critical observations stated in the report.

The Panel also recommends suspension of subject product till the submission of product development data and re-verification of the same by a panel.

All the findings raised during inspection were discussed in detail with the representatives of the firm and they agreed to overcome those findings within four months. Further they agreed to suspend their production activities in penicillin department till the rectification of observations raised by the panel.

It is submitted that the fresh samples of epoclox capsules, B#010, taken for the purpose of test/analysis have been declared as of Standard quality by the CDL, Karachi vide test reportNo.KQ.422/2019 dated 29-10-2019.

Proceeding and Decision of 296th meeting of Registration Board.

The Board after detailed deliberations, considering the inspection report forwarded by the panel constituted by the Board in its 293rd meeting decided as follows;

- **QA&LT Division shall process the panel report by its own, as per their prescribed procedure without waiting for the minutes of the 296th meeting of Registration Board.**
- **Registration Board also recommended the suspension of the Penicillin (Capsule) section to the Central Licensing Board till improvements in the said section and restoration by the Board.**

4.Inj. Neutim 250mg **Batch No.** 0265P061	M/s Neutro Pharma (Pvt) Ltd; Lahore.	Substandard	As per available record the case was presented in 228th Meeting of RB held on 12 & 13th October, 2010 wherein the Board decided as under: • strict warning to the firm. • Panel GMP inspection • Sampling of the raw material.	The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under: That area FID be directed to communicate the implementation of aforesaid Board's decision of the case. • The Board further directed area FID to comply	The decision has been communicated to quarter concerned vide letter 03-41/2019-QC (291-DRB) dated 19-09-2019 for compliance of the decision of Board.	The Board was apprised that the reply from the Federal Inspector of Drugs are still awaited because 15 days period was given to them for the said purpose which has yet not expired. The Board further directed to update Drug Court as per report of respective DRAP office and place the

				with/enforce the Board's decision in its letter & spirit and where required conduct the panel inspection comprising of following panel members and submit report: 1. The area Additional Director, field office DRAP 2. The area FID 3. The area Assistant Director (I&E) That the area FID shall submit a complete report including implantation status alongwith supporting documents/evidences/ annexures/inspection reports **within 15 days positively**. Non-compliance to the aforesaid directions will lead to disciplinary proceedings as per law.		case in forthcoming meeting of Registration Board.

The Additional Director, DRAP, Lahore vide no. 16078/2019-DRAP(L-VI) dated 04.12.2019 informed that the inspection of M/s Neutro Pharmaceuticals, 9.5-Km Sheikhupura road, Lahore was conducted by the panel of inspectors on 02.10.2019. The conclusion of said report is reproduced as under:

"**Conclusion**:
In the light of above the panel has given some advises regarding GMP compliance and also observed that the firm is not manufacturing drug namely Neutim 250mg injection since last 7-8 years. No manufacturing record was available of the above said drug even no any raw material was available for sampling of the said product at the time of visit, so it is suggested that the registration of the said product Neutim 250mg Injection Registration No. 038852 may be suspended/ cancelled as the management also discontinued this drug since 7-8 years due to its unavailability of demand in local market (copy of firm's Reply attached) on the other hand, the firm GMP practices was found satisfactory and few shortcomings were noticed and communicated to the firm representative for immediate compliance and also asked for their compliance report as stated above"

It is proposed that as identified in the report, the firm is not manufacturing drug namely Neutim 250mg injection since last 7-8 years, so the registration of the said product may be withdrawn/cancelled as per prevailing law.

Proceedings and Decision of 293rd Meeting

Board after detailed discussion and deliberations after considering the facts of the case decided to issue show cause notice to the firm/responsible persons for cancellation/suspension of Registration of Neutim 250mg injection as recommended by the panel in inspection report dated 02-10-2019. The board Further decided to verify the claims of the firm by corroborating claim of not producing it with import data of raw material from DRAP Lahore required for manufacturing of product Neutim Injection and place the case in forthcoming meeting of Registration Board.

- The FID, DRAP, Lahore was requested vide letter No.F.03-65/2019-QC (293rd RB) dated 22nd April, 2020 to comply with the decision of the Registration Board in its true letter and spirit. Reminder of the above said letter is also issued on 02-06-2020.

Till now, no report has been submitted by the area FID, DRAP, Lahore in the instant case.

Proceedings and Decision of Board in its 295th Meeting.

The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under:

- **Last/final chance shall be given to the FID/Investigation officer for compliance of the already communicated decision in the instant matter and to verify the claims of the firm by corroborating claim of not producing it with import data of raw material from DRAP Lahore required for manufacturing of product Neutim Injection & submit report with clear and candid recommendations within 15 days positively.**
- **QA&LT Division, DRAP, Islamabad is advised to direct Federal Inspector of Drugs/Investigation officers for compliance of decision of Registration Board within stipulated time.**

Current status of the case.

In response to the show cause notice issued as per decision of the Registration Board in its 293rd meeting, M/s Neutro Pharma (Pvt.) Ltd., submitted their reply vide reference No. nil dated 11-04-2020 and is reproduced as under;

"This is with reference to your letter No. F.03-65/2019-QC (293-RB), dated 22nd April, 2020 (copy enclosed), regarding our said product about your proposal after re-inspection ***"that as identified in the report, the firm has not manufactured drug namely Neutim 250 mg since last 7-8 years, so the registration of the said product may be withdrawn/cancelled as per prevailing law".***

This issue happened in 2005 when Neutro Pharma was newly established. Since then we are improving quality of our products in a continuous way. We have upgraded our equipment, system and QC lab to improve and ensure product quality and safety.

Regulatory authorities have visited our premises multiple times since then and have been granted/renewed our GMP and DM License after thorough panel inspections with satisfactory remarks. Besides, none of our products have been declared substandard or adulterated since 2005.

In the last GMP inspection of our manufacturing plant, inspection team gave us good level of grading and our organization was ranked at "low risk".

We are committed to produce quality products and improvement in quality standards of our products is our prime objective. ***We request you not to cancel registration or take any other action against us and we also assure you that we'll manufacture this product whenever there is market demand****.*

Furthermore, we assure you that we are taking rigorous checks and testing our products to make sure that only products of standard quality are produced and authorized for marketing.

Please, accept our request."

It is submitted that decision of the 295th meeting of Registration Board was communicated to the Area FID, DRAP, Lahore vide letter No.F.03-28/2020-QC (295th RB) dated 19-08-2020 with request to comply with the decision of Registration Board.

The additional Director, DRAP, Lahore vide reference No.12290/2020-DRAP (L-VI) dated 31-08-2020 has forwarded the report in response to the above said letter and is reproduced as under;

"Panel inspection of M/s Neutro Pharma, Lahore was conducted with reference to Drug Regulatory Authority of Pakistan, Islamabad letter No.F.03-41/2019-QC (291-RB) dated. 19-09-2019, on 02-10-2019 to chock cGMP compliance status of die dry powder injectable section of the firm. The panel concluded that:

In the light of above the panel has given some advises regarding GMP compliance and also observed that the firm is not manufacturing drug namely Neutim 250mg injection since last 7-8 years. No manufacturing

record was available of the above said drug even no any raw material was available for sampling of the said product at the time of visit, so it is suggested that the registration of the said product Neutim 250mg Injection Registration No. 038852 may be suspended/ canceled as the management also discontinued this drug since 7-8 years due to its unavailability of demand in local market. On the other hand, the firm GMP practices was found satisfactory and few shortcomings were noticed and communicated to the firm representative for immediate compliance and also asked for their compliance report as stated above"

Panel inspection of M/s Neutro Pharma, Lahore was conducted with reference to Drug Regulatory Authority of Pakistan, Islamabad letter No.F.03-65/2019-QC (293-RB) dated 22-04- 2020 and even No. dated 02-06-2020, and letter No. 03-28/2020-QC (295-RB) dated 19-08-2020 received 21-08-2020, to verify the claim of the firm of not producing Neutim Injection 250mg and corroborating that claim with import data of raw material from DRAP, Lahore required for manufacturing of the said product, as decided by the Drug Registration Board in its 293rd and 295th meetings conducted on January 06-08th January, 2020 and 08-11th June, 2020, respectively.

As per available record of this office the firm had imported total 140kgs of Ceftazidime Pentahydrate raw material from Year 2016 to Year 2019. Detail is as follows;

Import date	***Quantity imported***
January, 2016	*60*
July, 2017	*30*
November, 2017	*30*
April, 2019	*20*

As stated by tire firm's management, the imported material had been used in the manufacturing of Injection Neutim 500mg and 1gm and Ceftebas Injection 1gm. ***Ceftebas Injection 1gm is registered for export purpose only.*** *The same was verified from raw material stock ledger of the firm. During the inspection, the firm's management also informed the panel that the firm is engaged in toll manufacturing of M/s Mega Pharma for Injection Megtazidime (Ceftazidme) 250mg and 1gm.*

However, at the time of inspection no raw material (Ceftazidime) was available at the premises and the stock in hand was nil. The same was also verified from the raw material ledger. Moreover, inventory of labels of Neutim Injection 250mg was Nil as of 01/12/19. The inventory of Neutim 250mg Injection was 9750.

Conclusion:

In light of the above, and on the basis of documentation reviewed, the panel observed that the firm is not manufacturing Neutim Injectio 250mg (Registration No. 038852) since last 7-8 years, as communicated by the firm earlier as well. However, the firm has used the imported 140kgs Ceftazidim raw material in the manufacturing of Neutim 500mg, 1gm and ceftebas injection for export only and Megtazidime injection 250mg and 1gm for M/s Mega Pharma. Submitted for necessary action and further deliberations by the Board, please.

Proceeding and decision of the 296th Meeting of the registration Board.

Mr. Abdul Hafeez, Regulatory manager of M/s Neutro Pharma, Lahore appeared before the Board on behalf of M/s Neutro Pharma to plead the instant case. He submitted that personal hearing letter was received to them on 10-09-2020 and requested to kindly give them another opportunity of personal hearing, so that their technical person can explain the case.

Decision of the 296th Meeting of Registration Board.

The Board after considering the facts of the case, request of the firm and after thorough deliberations decided as follows;

- **Suspended the Registration of the Neutim 250mg Injection Registration No. 038852.**
- **Acceded the request of the firm and give them another opportunity of personal hearing to the firm.**

Name of drug	Manufact-ured by	Declared by CDL as	Current Status of case	Decision of 291st Meeting of RB held on 02-04th September, 2019	Communication of Decision of 291st RB	Proceeding & Decision of 292ndmeeting of RB held on 01-02 Oct, 2019

			and forwarded the copy of panel inspection report. The conclusion is as under: "the panel recommended that the firm may be allowed manufacturing of a trial batch with approved source of M/s Taizhou Tlanrui Pharmaceutical, China for conducting the stability studies and submission of the results to the registration Section. Later on the sample could be taken for the testing of the product from the Central Drug Laboratory Karachi. the Resumption of production of ISOPTOP Capsule (Isotretinoin) shall be granted after satisfactory report from the CDL Karachi" That the-then ADC(QC) vide letter No. F. 3-46/2010-DDC (QC-I)dated 14th February, 2013 conveyed the **approval granted by Chairman, Registration**			

			Board for manufacturing of trial batch of ISOTOP Capsule by utilizing approved source of M/s Taizhou Tlanrui Pharmaceutical, China for conducting stability studies and proceeding further as per recommendations of the panel. That FID-II, Islamabad vide letter no. 3-12/2004-FID-I(ISD) dated 12th November, 2013 forwarded report test/analysis report of CDL Karachi wherein the CDL, Karachi declared the trial batch sample taken by FID from firms' premises as **MISBRANDED** for not mentioning the retail price on outer carton as required under law. That the FID-II, Islamabad pertinently mentioned that the tiral batch sent for the purpose of analysis on the direction of Registration Board the firm was not allowed to sell			

			the batch in the market.			

FID-III, DRAP, Islamabad vide no. F. 03-12/2004-FID-I(ISD) dated 30th September, 2019 submitted as under:

"Please refer to Assistant Director (QC) for Secretary, Registration Board letter No. 3- 41/2019-QC (291 -RB) dated 19-09-2019 on the subject cited above and to say that the following panel have inspected M/s Panacea Pharmaceuticals. Plot No. 4, Street No S-6. National Industrial Zone. Rawat on 25-09-2019 to comply with/ enforce the Board's decision in its letter and spirit.

i. Dr. Hafsa Karam Elahi, Add. Director (QA & LT), DRAP, Islamabad
ii. Dr. Hasan Afzaal, FID-II, DRAP, Islamabad
iii. Dr. Qurat Ul Ain Jamil Rana, Assistant Director (I&E), DRAP, Islamabad"

Conclusion of the report is reproduced as under:

"Keeping in view all the above stated facts under consideration, the panel has opined that the implementation of the Decision of the Drug Registration Board in its 234th& 291stMeetings was implemented with a slight variation in the "resumption of production will be after satisfactory inspection report of panel and approval of Chairman, Registration Board"; The spirit of the decision has been upheld since the product was suspended for a period for not less than two (02) months, the panel inspection of the firm for qualitative investigation of case was carried out, conditional resumption for manufacturing trial batch was granted by the Chairman Registration Board, and subsequent sampling was performed; although the sample was declared as misbranded (based on the reason that the product did not have MRP printed, as the product was trial batch, but the Form-4 had no mention of this information) by the Federal Government Analyst from CDL Karachi, nevertheless the product complied the requisite limits based on the Assay for Isotretinoin. However, the firm was not given a formal approval for the manufacture of commercial batches of the product Isotop 20 mg Capsule"

It is apprised that FID-III, Islamabad took following samples during aforesaid inspection:

Name of Product	Manufactured by	Registration #	Batch #	Mfg date	Exp Date
Isotop 20 mg Capsule	M/s. Panacea Pharmaceuticals, Plot# 4 Street #S-6, National Industrial Zone, Rawat, Islamabad	054948	069	09-18	09-19
Isotop 20mg Capsule	-do-	054948	072	07-10	07-20

FID vide letter no. F.03-12/2004-FID-I(ISD) dated 18th December, 2019 informed that the Federal Government Analyst CDL, Karachi under section 22 of the Drugs Act, 1976 has submitted the test reports of above mentioned drug batch No. 072 declared as "Standard" quality vide Test Report No. IP. 109/2019 dated 11thOctober, 2019 and batch No. 069 was returned back from CDL Karachi due to short expiry date.

Furthermore, FID order not to dispose of following stock at M/s Panecea Islamabad.

Sr.	Name of Drug	B.No. & Quantity	Manufacturer	Reason
01.	ISOTRFETINOIN POWDER	1904017 5kg	M/s Shanghai New Hualian Pharmaceutical Co. Ltd	The product is usnder investigation in compliance to the letter No.F.03-41/2019-QC (291-QC)

FID-III, Islamabad vide letter of even number dated 17-10-2019. M/s. Panacea has requested to please allow the use of raw material Isotretinoin powder for manufacturing of registered products as CDL, Karachi has already declared the above mentioned drug as of standard quality.

Proceedings and Decision of 293rd Meeting of the Board:

The Board after detailed discussion and deliberations after considering the facts of the case decided as under:

a. Suspended the Registration of product of Isotop 20 mg Capsule issued in favor of M/s. Panacea Pharmaceuticals, Plot# 4 Street #S-6, National Industrial Zone, Rawat till further orders; and
b. to give personal hearing to M/s Panacea Pharmaceuticals, Plot# 4 Street #S-6, National Industrial Zone, Rawat in upcoming meeting of Registration Board.

In compliance with the decision of the Board, the Decision has been communicated to the quarter concerned vide letter No.F.03-65/2019-QC (293rd RB) dated 22nd April, 2020.

However, in the prevalent situation of COVID-19 the personal hearings letters were not issued for 295th meeting of registration Board.

M/s Panacea Pharmaceuticals vide reference No. nil dated 15-07-2020 submitted that Mr. Hassan Afzaal Area FID-III visited our premises Panacea Pharmaceuticals along with Dr. Qurat Ul Ain Jamil Rana and withdraw samples of our registered product lsotop 20mg Capsule Batch # 069 & 072 for the purpose of Analysis.

During that visit of our premises DRAP's Officials also sealed Isotretinoin (5.00kg) active material; we were using for manufacturing of both Isotop 20mg Capsule & Isotop Gel 0.05% (Reg. No. 075032) and advised us not to dispose of said material as product is under investigation.

Now after clearance of our product **(declared** as of **"standard quality")** from CDL Karachi, it is our request that please allow us to use material Isotretinoin for manufacturing of our registered product Isotop Gel 0.05%.

Proceeding and decision of 296th meeting of Registration Board.

Mr. Abid Hussain (12103-5720698-1), Production Manager & Mr. Qamar abbas (13302-9893508-5), Quality Control Manager of M/s Panacea Pharmaceuticals, Rawat appeared on behalf of M/s Panacea Pharmaceuticals to plead the instant case. They informed that they are manufacturing Isotop capsule in Hard Gel. They further requested to allow them to use the raw material of Isotretinoin in the manufacturing of Isotop Gel 0.05% (Reg. No. 075032)

Decision of 296th Meeting of Registration Board.

The Board after considering the facts of the case, request of the firm and thorough deliberations decided as follows;

- **The firm shall revise their formulation as per innovator product i.e., "Absorica capsules approved by US FDA"**
- **Scientifically rationale lab scale product development & stability data shall also be submitted along with requisite documents as decided by Registration Board in its 293rd meeting against the case title "Requirements for Stability study data and exemption from onsite inspection".**
- **Sampling of the Active Pharmaceutical Ingredient by the Area FID for test/analysis from Central Drug Laboratory, Karachi. The firm can use the API for manufacturing of their product Isotop Gel 0.05% (Reg. No. 075032) only, if the test/analysis report from CDL, Karachi is of standard quality.**

6. Susp. Amocilline DS **Batch No.** K229	M/s CCL Pharmaceutical (Pvt) Ltd; Lahore.	Substandard	The case was presented in 214th DRB held on 29.10.2008 After detailed scrutiny the Board decided to drop the case with directions to the firm to rectify the problem. The same was communicated vide letter No. 03-326/07-QC dated 20.11.2008	The Registration Board considered the facts/available record of the case and after thorough deliberation decided as under: • That area FID be directed to communicate the implementation of aforesaid Board's decision of the case. • The Board further directed area FID to comply with/enforce the Board's decision in its letter & spirit and where required conduct the panel inspection comprising of following panel members and submit report: 1. The area Additional Director, field office DRAP 2. The area FID	The decision has been communicated to quarter concerned vide letter 03-41/2019-QC (291-DRB) dated 19-09-2019 for compliance of the decision of Board.	The Board was apprised that the reply from the Federal Inspector of Drugs are still awaited because 15 days period was given to them for the said purpose which has yet not expired. The Board further directed to update Drug Court as per report of respective DRAP office and place the case in forthcoming meeting of Registration Board.

				3. The area Assistant Director (I&E) That the area FID shall submit a complete report including implantation status alongwith supporting documents/evidences/ annexures/inspection reports **within 15 days positively**. Non-compliance to the aforesaid directions will lead to disciplinary proceedings as per law.		

The Additional Director, DRAP, Lahore vide no. 13460/2019-DRAP(L-VII) dated 21.10.2019 informed that the inspection of M/s CCL Pharmaceuticals, Lahore was conducted by the panel of inspectors on 10.10.2019 to verify the manufacturing and sale of Susp. Amocilline DS Batch No. K229. The observations and conclusion of said report is reproduced as under:

"[…]2. The firm's management informed the panel that they had discontinued the manufacturing of Amocilline DS Suspension in March 2007. Later, during inspection by the then area FID on 27-06-2012, it was highlighted that the firm did not have segregated / dedicated facility/section for manufacturing of penicillins. The firm's management informed that they agreed to withdraw the registration of 15 penicillin-containing products as they did not have the requisite section. (Copy attached).

3. Firm's management informed the panel that they have applied for de-registration of the afore-mentioned 15 products, including Amocilline DS Suspension (No evidence was provided).

4. Accordingly, firm did not have any penicillin raw material, in warehouse or finished goods containing penicillin at the premises at the time of inspection. No retaining samples, BMR, testing documentation related to Amocilline DS Suspension were provided by the firm.

5. However, the firm was advised to ensure compliance to Drugs Labeling and Packaging Rules 1986 for all its registered products.

Conclusion

In view of the above observations, the panel could not verify testing, raw material status, documentation, BMRs, production facility for Amocilline DS Suspension, Batch No. K229, as the firm did not have any record/retaining samples of the said product."

It is proposed that as identified in the report, the dedicated facility for penicillin product is not available with the firm and they discontinued the product Amocillin DS, so the registration of the said product may be withdrawn/cancelled as per prevailing law.

Proceedings and Decision of 293rd Meeting

Board after detailed discussion and deliberations after considering the facts of the case decided to issue show cause notice to the firm for cancellation/suspension of Registration of Amocilline DS Suspension issued in favor of M/s CCL Pharmaceuticals, Lahore.

In compliance with the decision of the Board, the Decision has also been communicated to the quarter concerned vide letter No.F.03-65/2019-QC (293rd RB) dated 22nd April, 2020.

"In response to the above said show cause notice, M/s CCL Pharmaceuticals (Pvt.) Ltd., submitted their reply and is reproduced as under;

Please refer to your letter no. F.03-65/2019-QC (293-RB) dated 22nd April, 2020 regarding captioned subject.

We would like to emphasize that:

- It has already been intimated to the panel of inspectors during their visit to our plant on 10.10.2019 that we had discontinued the said product since 2007.
- We had surrendered the registration of penicillin containing products (12) on 25.06.2011 against "Registration of Drugs on Fast Track Basis" for new registration applications; as per DRB policy at that time.
- Accordingly, we have not applied for the renewal of registration of said product, due to non-availability

of dedicated manufacturing facility.

As per decision of DRB in its 293rd meeting, we have no objection for cancellation of registration of subject drug as per prevailing law. We will appear before the worthy board to explain the position, if so desired. We would like to assure you that no provision of the Drugs Act, 1976 and rules there under has been violated by CCL Pharmaceuticals (Pvt.) Ltd. in any way at any time.

Thanking you and assuring you our best compliance & cooperation all the times, we remain."

Proceeding and Decision of the Registration Board.

Mr. Imran Babar (33100-6771955-7), SMCA of M/s CCL Pharmaceuticals, Lahore appeared before the Board on behalf of M/s CCL, Pharmaceuticals, Lahore to plead the instant case. He submitted that CDL, Karachi declared the said product as of substandard quality. Method of analysis adopted by CDL, Karachi does not comply with manufacturer provided method of analysis, therefore, they applied for retesting from NIH, Islamabad. NIH, Islamabad declared the said sample as Misbranded on the basis that the firm has not printed Pharmacopoeial or Manufacturer's specifications for the dosage form and instruction & method of reconstitution is printed in English & Urdu version on outer packing while on immediate packing it is only in Urdu version. On the basis of report of NIH, Islamabad as the product is of standard quality, therefore it is requested to correct the record. He further submitted that they have no objection on the cancellation of the said product. However, at the time of test/analysis CDL, Karachi have not applied their protocols.

Decision of 296th Meeting of the registration Board.

The Board after considering the facts of the case and thorough deliberations decided to cancel the Registration of Amocilline DS Suspension Reg. No. 008923.

AGENDA ITEM NO. 02: NEW / ONGOING QC CASES

Case No.01: MANUFACTURE & SALE OF SUB-STANDARD ZANCPAL SUSPENSION, BATCH NO. D281 BY M/S ZANCTOK PHARMACEUTICAL LABS, HYDERABAD.

The Federal Inspector of Drugs-V, DRAP, Karachi visited the premises of M/s National Institute of Child Health (NICH), Rafiquee Shaheed Road, Karachi, on 26-07-2018 wherein the sample of Zancpal Suspension, Batch No. D281, manufactured by M/s Zanctok Pharmaceutical Labs, Hyderabad was drawn under Schedule-V (1) (C) of DRAP Act, 2012 read with section 18 (1) (C) of the Drugs Act, 1976 for the purpose of test/analysis. Expiry Date:	01-20
Claimed Manufacturer:	Zanctok Pharmaceutical Labs, Hyderabad

Portion of the sealed sample was sent to Federal Government Analyst, Central Drug Laboratory, Karachi vide memorandum No.SAA-47-48/2018-FID-V (K) dated 27-07-2018.

Portion of the sealed sample was also sent to DRAP, Islamabad under section 19 of the Drugs Act, 1976 vide memorandum No.SAA-47-48/2018-FID-V (K) dated 27-07-2018.

The Federal Government Analyst, CDL, Karachi declared the above mentioned sample as of substandard quality vide test/analysis report No. KQ.548/2018, dated 08th August, 2018. Results of the test report of CDL, Karachi are reproduced as under:

Description: *Blackish pink colored suspension in ambered glass bottle.*
Manufacturer's Description: *Pink colored suspension* ***(Does not comply with description)***
Identification: *Paracetamol identified.*
Assay for Paracetamol:
Determined amount/5ml: *77.4787mg*
Stated amount/5ml: *120mg*
Percentage: *64.6%*
Limits: *90.0% to 110.0%* ***Does not comply.***
Remarks:- *The sample is of* ***" substandard"*** *quality under the Drugs Act. 1976.*

The firm didn't agree to the results of CDL, Karachi and requested for retesting under Section 22(4) of the Drugs Act, 1976 and rules framed there under. On the request of the firm, the Board's portion of the sample was sent to Appellate Laboratory, NIH, Islamabad for retesting vide No.F.03-69/2018-QC dated 18-03-2019 under section 22 of the Drugs Act, 1976.

The Appellate Laboratory, NIH, Islamabad vide their test report No.011-M/2019 dated 23rd April, 2019 has also declared the said sample as of substandard quality. Test results of the NIH, Islamabad are reproduced as under:

Description: *Four bottles of Zancpal suspension received and their description is as below:*
Bottle 1: *Pink colored suspension in an amber colored glass bottle with white plastic cap. The suspension also contains black particles.*
Bottle 2: *Pink colored suspension in an amber colored glass bottle with white plastic cap.*
Bottle 3: *Pink colored suspension in an amber colored glass bottle with white plastic cap.*
Bottle 4: *The cap of the bottle is found broken and found empty.*
Does not comply with manufacturers specifications which describes the Zancpal suspension as "A pink colored thick suspension with raspberry flavour"

Identification: *Paracetamol identified.*

Volume:	***Determined:***	***Limit:***
Bottle1:	*60ml*	*60ml*
Bottle2:	*55ml*	*60ml*
Bottle3:	*60ml*	*60ml*
Bottle4:	*Empty*	*Empty*

(Does not comply with volume stated on the label)

Determined: *45.49% of the labeled amount.*
Limit: *Not less than 75%(Q) of the labeled amount.*
Does not comply with USP 39.

Assay for Paracetamol:	***Stated***	***Found***	***Limit***	***Percentage***
Bottle 1 Paracetamol: ***(Pink colored suspension)***	*120mg/5ml*	*114mg/5ml*	*95-105%*	*95.0%*
Bottle 2 & 3 Paracetamol: ***(Black colored suspension)*** ***(Does not comply withBP-2017)***	*120mg/5ml*	*58.43mg/5ml*	*95-105%*	*48.69%*

In the opinion of the undersigned the sample is of substandard quality as defined in the Drugs Act, 1976 for the reason(s) given below:

Description: *Four bottles of Zancpal suspension received and their description is as below:*
Bottle 1: *Pink colored suspension in an amber colored glass bottle with white plastic cap. The suspension also contains black particles.*
Bottle 2: *Pink colored suspension in an amber colored glass bottle with white plastic cap.*
Bottle 3: *Pink colored suspension in an amber colored glass bottle with white plastic cap.*
Bottle 4: *The cap of the bottle is found broken and found empty.*
Does not comply with manufacturers specifications which describes the Zancpal suspension as "A pink colored thick suspension with raspberry flavour"

Identification: *Paracetamol identified.*

Volume:	***Determined:***	***Limit:***
Bottle1:	*60ml*	*60ml*
Bottle2:	*55ml*	*60ml*
Bottle3:	*60ml*	*60ml*
Bottle4:	*Empty*	*Empty*

(Does not comply with volume stated on the label)
Determined: *45.49% of the labeled amount.*
Limit: *Not less than 75%(Q) of the labeled amount.*
Does not comply with USP 39.

Assay for Paracetamol:	***Stated***	***Found***	***Limit***	***Percentage***
Bottle 1 Paracetamol: ***(Pink colored suspension)***	*120mg/5ml*	*114mg/5ml*	*95-105%*	*95.0%*
Bottle 2 & 3 Paracetamol: ***(Black colored suspension)*** ***(Does not comply withBP-2017)***	*120mg/5ml*	*58.43mg/5ml*	*95-105%*	*48.69%*

Remarks: *1. Variation in cooler of suspension is observed in the same batch of zancpal suspension as one bottle is pink colored suspension whereas other bottles have black colored suspension.*
2. The label of the bottles of zancpal suspension is badly damaged and the particulars regarding Registration No., License No., date of manufacturing, date of expiry, Batch No., manufacturer, dosage and directions are not legible.

Conclusion: *The sample is of substandard quality on the basis of tests performed.*

Federal Inspector of Drugs-V, DRAP, Karachi provided that keeping in view of the test reports of CDL, Karachi and NIH, Islamabad the firm has violated Section 23(1)(a)(v) of the Drugs Act, 1976 and also provided the following names:

i. M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.
ii. Mr. Muhammad Saleem (Partner).
iii. Mr. Wazir Ali Lasi (Partner).
iv. Ms. Shabana Yousuf (Production Manager)
v. Ms. Salma Bibi (QC Incharge)

The Drugs Licensing Division was requested to verify/provide the names provided by the FID-V, DRAP, Karachi and they provided the following;

M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.	Muhammad Saleem **(Partner)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.
Wazir Ali Lasi **(Partner)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.	Salma Bibi **(Q.C Incharge)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.
Shabana Sadiq **(Production Incharge)** M/s Zanctok Pharmaceutical Laboratories, SITE, Hyderabad.	

Show cause notice was issued to the firm and above accused, along with the copies of CDL, Karachi & NIH, Islamabad test reports, under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-69/2018-QC dated 21-04-2020 for the following actions.

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

In response to the above said show-cause notice the firm has replied as under;

"1. Sample of subject cited drug was taken from the premises of M/s. National Institute of Child Health (NICH), Rafique Shaheed raod, Karachi on 26 July 2018 for analysis purpose by the FID-V DRAP and Karachi.

2. No sealed portion or intimation of sample taken was sent to manufacturer.

3. The Federal Government analyst CDL Karachi declared the above-mentioned samples substandard quality vide test / analysis report No. KQ.548/2018 dated 8 August 2018. Manufacturer was informed through FID vide letter No. FSAA-07-15/2018-FID-V(K) dated 15 August 2018. Report stated 64.1% efficacy and in description column mentioned blackish pink colored suspension filled in amber glass bottle along with providing all details including name of product, batch no, name of manufacturer etc. details were taken from form no. 4 / label.

4. In response to FID No. FSAA-07-15/2018-FID-V(K) dated 15 August 2018 manufacturer rigorously investigated and came to decision that NICH did not comply with storage conditions. Therefore, the manufacturer requested FID to retest the samples through National Institute of Health (Appellate laboratory).

5. National Institute of Health (Appellate laboratory), Islamabad declared four sample bottles substandard vide its test report no. 011-M/2019 dated 23 April 2019. The details of which is as under; Hence the sample were declared substandard from NIH, but it confirmed our investigation that due to noncompliance of proper storage conditions. It was also mentioned in NIH report that the labels of the Zancpal suspension bottles were badly damaged and the particulars including registration number, license number, date of manufacturing, date of expiry, batch number, dosage and directions are not legible.

We supplied 60 batches of Zancpal suspension to different institutions and their samples were also tested, but never found any problem (testing reports of different batches attached).

We have gone through the batch record that fo not reveal any discrepancy throughout the production cycle include dispensing, manufacturing, IPC, analysis, packaging and dispatching.

Retention samples found to be ok well within the specification.

We hereby confirm that we maintained GMP compliance (cGMP audit report attached).

We have ISO 9001:2015 "Quality management system" certificate. Our plant is regularly visited by auditors of Quality management system to assure quality standards.

Based on all above facts, we had presented all the facts and finding in this regard.

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. M. Fahim (42101-0117271-9), Regulatory Manager of M/s Zanctok Pharmaceutical labs, Hyderabad appear before the Board on behalf of M/s Zanctok Pharmaceutical to plead the instant case. He submitted that the report of NIH confirmed that the substandard results of our product were due to improper storage conditions. Improper storage condition are also supported by the fact that construction work was carried out at NICH at the time of sampling of the said drug. He further added that they have manufactured over 60 Batches of the said product and all of them were according to the specifications.

Decision of 296th meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the test reports of CDL & NIH, Islamabad decided as under:

i. **Suspension of the Registration of the said product for six (06) months or till the verification of root cause analysis, Corrective and preventive action (CAPA) by the firm, product development data and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.**
   - **Dr. Rafiq Alam Khan, Member Registration Board.**
   - **Additional Director, DRAP, Karachi.**
   - **Area Federal Inspector of Drugs.**

Case No.02: MANUFACTURE & SALE OF SUB-STANDARD KEYGESIC 75 TABLETS, BATCH NO. 2918 BY M/S BENSON PHARMACEUTICALS, ISLAMABAD.

The Federal Inspector of Drugs-II, DRAP, Peshawar visited the premises of M/s Haider Zaman Medicose, near DHQ Hospital, Charsadda on 17-09-2018 wherein the sample of Keygesic 75 Tablets, Batch No. 2918, Manufactured by M/s Benson Pharma, Islamabad was drawn under Schedule-V (1) (C) of DRAP Act, 2012 read with section 18 (1) (C) of the Drugs Act, 1976 for the purpose of test/analysis. Details are as under;

Name of Drug	Reg. No.	Batch No.	Mfg. Date	Exp. Date	Purported to be manufactured by.
Keigesic-75 Tablets	021577	2918	01-18	01-21	M/s Benson Pharmaceuticals, Rawat

The said sample was sent to the Government Analyst, Central Drugs Laboratory, Karachi vide memorandum No.F.10-124/2018-Haider Zaman Medicose, DRAP-3564 dated 18-09-2018.

The Federal Government Analyst, CDL, Karachi vide their test report No.IP.273/2018 dated 17th October, 2018 declared the above said sample as of substandard quality. Test results of the CDL, Karachi are reproduced as under:

Description: *Brown colored, circular biconvex film coated tablets*
Identification: *Diclofenac Potassium identified.*
Dissolution test: ***Does not comply.***
Uniformity of Dosage Units
By Weight Variation. *Complies*
Assay for Diclofenac Potassium:
Determined amount/tablet: *75.9434mg*
Stated amount/tablet: *75mg*
Percentage: *101.3%*
Limits: *90.0% to 110.0% Complies.*
Remarks:- *The sample is of **"substandard"** quality under the Drugs Act. 1976.*

The firm didn't agree to the results of CDL, Karachi and requested for retesting under Section 22(4) of the Drugs Act, 1976 and rules framed there under. On the request of the firm, the Board's portion of the sample was sent to Appellate Laboratory, NIH, Islamabad for retesting on 17-01-2019 under section 22 of the Drugs Act, 1976.

The Appellate Laboratory, NIH, Islamabad vide their test report No.03-M/2019 dated 21st February, 2019 has also declared the said sample as of substandard quality. Test results of the NIH, Islamabad are reproduced as under:

Description: *Grayish black circular, biconvex coated tablets packed in blister packing, further contained in an outer carton.*
Identification: *Diclofenac Potassium identified.*
Dissolution test:
Determined: *45.49% of the labeled amount.*
Limit: *Not less than 75%(Q) of the labeled amount.*
Does not comply with USP 39.
Assay for Diclofenac Potassium:
Determined amount/Tablet: *71.884mg*
Stated amount/Tablet: *75.0mg*

Percentage: *95.846%*
Limits: *90.0% to 110.0%*
Complies with USP 39.

Conclusion:- *The sample is of **" substandard"** quality on the basis of test performed.*

Federal Inspector of Drugs-II, DRAP, Peshawar provided that keeping in view of the test reports of CDL, Karachi and NIH, Islamabad the firm has violated Section 23(1)(a)(v) of the Drugs Act, 1976 and also provided the following names:

i. Javid Iqbal Satti, Managing Partner/Warrantor (61101-2263967-1)
ii. Mr. Kamran John, Production Incharge, (16202-4145910-1)
iii. Mr. Saeed Ayaz Khan QC Incharge (17201-3115034-5)

The Drugs Licensing Division was requested to verify/provide the names provided by the FID-II, DRAP, Peshawar and they provided the following;

M/s Benson Pharmaceuticals Plot # 3, Man Road, National Industrial Zone, RCCI, Rawat.	Mr. Javaid Iqbal Satti **(Management)** M/s Benson Pharmaceuticals Plot # 3, Man Road, National Industrial Zone, RCCI, Rawat.
Mrs. Shagufta Javaid Satti **(Management)** M/s Benson Pharmaceuticals Plot # 3, Man Road, National Industrial Zone, RCCI, Rawat.	Lt. Colonel [R] Muhammad Ishaq **(Management)** M/s Benson Pharmaceuticals Plot # 3, Man Road, National Industrial Zone, RCCI, Rawat.
Mr. Kamran John **(Production Incharge)** M/s Benson Pharmaceuticals Plot # 3, Man Road, National Industrial Zone, RCCI, Rawat.	Mr. Saeed Ayaz Khan **(QC Incharge)** M/s Benson Pharmaceuticals Plot # 3, Man Road, National Industrial Zone, RCCI, Rawat.

Show cause notice was issued to the firm and above accused, along with the copies of CDL, Karachi & NIH, Islamabad test reports, under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-85/2018-QC dated 20-04-2020 for the following actions.

ii. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

In response to the above said show cause notice, the firm submitted their reply vide reference No. nil dated 23-04-2020 and is reproduced as under;

Reference your letter # F-NO-03-85/2018-(Qc) Dated 20-04-2020,though our internal tests on the retained samples of the said Drug still show compliance with standards of (peak pick report attached) but we certainly cannot & do not want to contest the findings of Appellate Laboratory i.e. NIH.
We are only sorry about it & beg the pardon on following grounds.

1) *The product is no more in manufacturing range because the registration of the said product had not been renewed by DRAP due to non-availability of international reference & according to our information this strength (75mg) of all other brands of Diclofenac potassium are meeting the same fate.*
2) *All formalities regarding recall of the batch/product have been completed. Copy of batch track report attached.*
3) *Benson Pharmaceutical started its production activity in year 2000. During this span of twenty years thousands & thousands of our products were sampled/ analyzed & only two batches including this one were declared substandard one based on friability & this on dissolution. This perhaps gives you an idea of our quality consciousness about pharmaceutical manufacturing.*
4) *All records of manufacturing prove that only right quantities of standard & qualitative API/ ingredients were used to manufacture this batch but UNINTENTIONAL human error on the part of our technical staff cannot be ruled out. Marketing certificates duly signed by QC, QA and Production is attached herewith.*

We therefore place ourselves at your disposal for the action that you deem right but we hope our clean manufacturing record of the past will be considered.
It is further submitted that two partners of our firm named Col® Muhammad Ishaq and Mrs. Shagufta Javid Satti are merely investor/sleeping partners and have no say in the management of any of firm's affair and they may please be treated as such.

We thank you for your guidance & patronization and are at your deposal for any further information that you may require on the subject cited above.

5) *With profound regards, we remain committed,*

Proceeding & Decision of the 296th Meeting of registration Board.

Mr. Saeed Ayaz Khan (17201-3115034-5), Quality Control In charge of M/s Benson Pharmaceutical, Islamabad appeared before the board on behalf of M/s Benson Pharmaceutical to plead the instant case. He submitted that at the time of manufacturing of the product in question all the test performed were according to the specifications.

He further added that they have shifted their premises to new place. In reply of a question from board, he replied that they have not shifted their product Registration to the new premises.

Decision of 296th meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the test reports of CDL & NIH, Islamabad decided to cancel the Registration of Keigesic-75 Tablets, Reg. No. 021577 with immediate effect.

Case No.03: OREDRED NOT TO DISPOSE OF UNDER SECTION 18 (1) (I) OF THE DRUGS ACT, 1976, EXTENSION IN PERIOD.

The Federal Inspector of Drugs-IV, DRAP, Islamabad inspected the premises of M/s Wenvovo Plot No. 31&32, Punjab Small Estate, 5C, Taxilla on 20-12-2018, and observed that the following material was placed in premises of M/s Wenvovo Plot No. 31&32, Punjab Small Industrial Estate, 5C, Taxilia in contravention of DRAP Act, 2012 Drugs Act, 1976 and rules framed there under. The stocks mentioned below was ordered not to dispose off under Schedule V (Powers of Inspectors) (1) (i) read with section (18) (1) (i) of the Drugs Act, 1976 and rules framed their under. Details are as under;

s.#	Name of Drug	Batch No &Quantity	Manufacturer	Reason of order not to dispose off
1.	**Hitazid (Ceflazidine 250mg)**	CVl14 1000Vials	M/s Wenvovo Plot No. 31&32, Punjab Small Industrial Estate, 5C, Taxilla	**Vials of above mentioned drugs were stocked (in baskets) in corridor in front of packing hall with label states " Resealing"(copy of label attached) despite the fact that no batch # was mentioned in label. QA manger informed that there is defect in sealing although she could not show the same proof.**
2.	**Lacura Inj lgm (Ceftrixone Na (lgm)**	CV095 800Vials	-do-	**-do-**
3.	**Kors inj lgm**	CV078 600 Vials	-do-	**-do-**

Competent forum was requested for grant of permission for keeping the above-mentioned material/unit cartons ordered not to dispose of for further period under section 18 (1)(i) of the Drugs Act, 1976.

M/s Wenvovo Plot No. 31&32, Punjab Small Industrial Estate, 5C, Taxilia was directed by the FID-IV, DRAP, Islamabad vide letter No.F.2-3/2011-FID-II(ISD) dated 07-01-2019 to explain their position on the reasons mentioned in the Form-1 already received to the person present at the time of the inspection.

Extension in the period of "not to dispose of stock" was conveyed vide letter No.F.13-17/2019-(QC) dated 31-01-2019 by the competent authority i.e. Chairman, Registration Board being authorized by the Registration Board for the purpose till 19th March, 2019 with request to complete the investigation for further processing.

In response to the above said letter, M/s Wenovo Plot No. 31&32, Punjab Small Industrial Estate, 5C, Taxilia submitted their reply vide letter No. nil dated 15-02-2019 and is reproduced as under:

"It is submitted that we are following strict sterile manufacturing compliance SOP#

WP/PR/SOP/211. As per procedure during aseptic/sterile manufacturing any deviation is recorded and reported i.e. DOC#WP/QA/006 & WP/QA/DEV/007. The Aluminum sealing of some of the vials were found faulty during the process and QA officer was informed and the vials were released. While vials were already rubber stoppered under class 100. Strictly followed SOP#WP/QA/SOP/036 and vials were properly resealed prior to taking these out of aseptic area. All three batches found, were under process of optical check, labeling and packing but few of them labeled "Releasing Ok" means that these were released during the manufacturing process within the sterile area before taking out those vials to non sterile area. It is ensured that we strictly follow sterile manufacturing protocols and Quality Assurance Compliance Procedure."

The FID-IV, DRAP, Islamabad has provided that keeping in view of the reply of the firm, thay have contravened the provisions of Section 23(1) (a) (iii) read with section 27 (2) (b) & (4) of Drugs Act, 1976 and provided the following names being technical and management personnels;

- Malik Arshad Mehmood (Chief Executive/Managing Director)
- Mr. Saqib Yaqoob Awan (Production Incharge)
- Mr. Muhammad Imran (Quality Control Incharge)

The Drugs Licensing Division was requested to verify/provide the names of technical persons and management for further processing of the case and they provided the following;

Mahboob sardar **(71103-2130259-3)** **Executive Director** of M/s Wenvovo Plot No. 31&32,Punjab Small Industrial Estate, 5C, Taxilia	Arshad Mehmood **(61101-6927558-3)** **Managing Director** of M/s Wenvovo Plot No. 31&32, Punjab Small Industrial Estate, 5C, Taxilia.
Muhammad Imran **(37406-5049292-3)** **Quality Control Incharge** of M/s Wenvovo Plot No. 31&32,Punjab Small Industrial Estate, 5C, Taxilia	Saqib Yaqoob Awan **(37406-1619050-7)** **Production Incharge** of M/s Wenvovo Plot No. 31&32,Punjab Small Industrial Estate, 5C, Taxilia

Show cause notice was issued to the firm and above accused under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-38/2019-QC dated 28-02-2020 for the following actions but their reply is still awaited:

i. Cancellation/Suspension of Drug Registration.
ii. Any other action the Board may deem fit.

In response to the above said showcause notice, M/s Wenovo Pharmaceuticals submitted their reply vide reference No.WP/SCN/1 dated 10 March, 2020 and is reproduced as under:

"That Ms. Mahvash Ansari FID-IV-lslamabad inspected M/s Wenovo Pharmaceuticals Taxila on 20th December, 2018, during the visit she noticed that some shippers of vials were lying in the corridor with the labels "Resealing OK". She sealed the shippers and ordered not to dispose off these till further orders. Our point of view/explanation in this regard is as under;

a. *The shipper containing Hitazid (Ceftazidime 250mg Injection) Batch No. CV114 (1000 vials) and Lacura Injection 1gram (Ceftriaxone Na 1000mg) Batch No. CV095, 800 vials were labeled as "Resealing OK". The factual position is that during production of these batches the production staff noticed some issue regarding quality of the aluminum seals of these vials. These vials were already rubber stoppered under class-100. The vials with faulty seals were segregated and the issue was resolved by resealing these vials with their respective batches while these were still in the sterile vial filling area before being taken out. To ensure quality checks, these vials were stored in separate baskets for quality assurance inspection. It is pertinent to mentioned that since the resealing problem was addressed while these vials were still in the sterile filling area /environment during production of their respective batches, no violation of GMP was made.*
b. *The shipper containing Kors Injection 1gm (Ceftriaxone Na 1gm) Batch No. CV078 around 600 vials was also in the corridor. The product had no issue of resealing or any other problem. It was there prior to be shifted to the IPQ. This product was sealed without any defect by the Honorable FID. The same is very much clear from the picture of the label on the shipper.*
c. *It is submitted that the show cause notice has been issued for violation of the provisions of Section 23 (1) (a) (iii) read with Section 27 (2) (b) & (4) of Drug Act, 1976. The Section*

23 (1) (a) (iii) of the Drug Act pertains to any misbranded drug and the Section 27 (2) (b) & (4) pertains to giving false warranty of any drug sold. Both Sections under reference in the show cause notice are not applicable to this case as neither we have misbranded any drug nor we have sold and issued any false warranty of these products. The sealed stock of the products are still at the factory premises since 20th December 2018 awaiting the decision of the competent authority.

2. *It is submitted that keeping in view the above mentioned facts the show cause notice may please be withdrawn and if required M/s Wenovo Pharmaceuticals may please be given an opportunity to be heard in person.*

Proceeding and Decision of 296th Meeting of Registration Baord.

Mr. Muhammad Imran (37406-5049292-3), Quality Control Manager of M/s Wenovo Pharmaceutical appeared before the Board on behalf of M/s Wenovo Pharmaceutical to plead the instant case. Representative of the firm reiterated the points already mentioned in their reply to the show cause notice. The Board also observed that violation established by the FID are not related to the case.

Decision of 296th Meeting of Registration Board.

The Board after thorough deliberations decided as follows;

- **To issue strict warning to the firm to strictly comply to GMP standards as per relevant provisions of law.**
- **FID / Investigation officer shall be asked to provide current status of the stock along with their manufacturing & expiry date for further necessary action.**

Case No.04: **Manufacture & Sale of Adulterated & Substandard Adyneph Injection, Reg. No. 085777, Mfg. Date May, 2018, Exp. Date April 2020, Batch no. AD-10418, Manufactured by M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore.**

The FID-VI, DRAP, Karachi visited the premises of M/s. Hashmani Medicine, Shop No. 4 Plot SB-1, Block-1, Madiha Square, Hussain FB Area, Karachi on 21-11-2019 and took the sample of Adyneph Injection, Reg. No. 085777, Mfg. Date May, 2018, Exp. Date April 2020, Batch No. AD-10418, Manufactured by M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore under Schedule-V (1)(C) of DRAP Act, 2012 read with section 18 (1)(C) of the Drugs Act, 1976. Details are as under:

Name	Adyneph Injection
Composition	Each ml contains 1mg of Adrenaline.
Registration No:	085777
Batch No:	AD-10418
Manufacturing Date:	May, 2018
Expiry Date:	April, 2020
Claimed Manufacturer:	M/s. Bajwa Pharmaceutical (Pvt.) Ltd., 36-KM Off GT Road, Lahore.

The sealed samples of the above said drugs was sent by the FID, DRAP, Karachi to Federal Government, Central Drugs Laboratory, Karachi for the test/analysis vide memorandum No.ARS-249-252/2019-FID-VI (K) dated 22-11-2019.

The sealed portion of sample was also sent by the FID, DRAP, Karachi to Chairman, Drug Registration Board, DRAP, Islamabad vide letter of even number dated 22-11-2019 as required under the provision of clause (b)(3) Schedule-V (Procedure for Inspector) of DRAP, Act, 2012.

M/s. Hashmani Medicines, Karachi has produced the Invoice/Bill Warranty No. 1085 dated 20th July 2018 of M/s Bajwa Pharmaceuticals (Pvt.) Ltd., Lahore as a proof of their purchase of above drug.

The Government Analyst, Central Drugs Laboratory, Karachi vide test reports No.NTF.KQ.566/2019 (initial) dated 02nd December 2019 and No. KQ.566/2019 (Final) dated 11th December 2019 declared the sample of the above named drug as **"Adulterated and Substandard"** under the Drugs Act, 1976, which is violation of Section 23(1) (a) (iv) and 23(l)(a)(v) of Drugs Act, 1976 and rules framed there under. Test results of CDL, Karachi are reproduced as under:

Description: *Colorless solution in ambered glass ampoule contains black particles visible to the naked eye.* ***Does not comply with BP 2019****.* ***Identification:*** *Adrenaline Acid Tartarate identified.*

pH Determined: *3.48*
Limits: *2.8 to 4.0 Complies.*
Assay for Adrenaline:
Determined amount/ml: 1.0516mg
Stated amount/ml: 1mg
Percentage: 105.2%
Limits: 90.0% to 110.0% Complies.

In the light of above test reports of Government Analyst, Central Drugs Laboratory, Karachi an explanation letters of even number dated 05th December 2019 and 12th December 2019 were accordingly issued to M/s Bajwa Pharmaceuticals Pvt. Ltd., 36KM, Off G.T Road, Lahore for explaining their position in the matter of manufacturing, selling & distributing of above mentioned Adulterated and Substandard drug with the directions to recall the above batch from the market.

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

M/s Opal Laboratories (Pvt.) Ltd., plot No. LC-41, L.I.T.E, Landhi, Karachi submitted their reply to show cause notice vide letter No. nil dated 31-01-2020 which is reproduced as under:
Refer to your letter No. 03-28/2018-(QC) dated 24-01-2020, received on 30-01-2020 regarding substandard & Adulterated drug Rhinex-P syrup, B# 051, please note that we have submitted all the required documents on dated 05-03-2019 to DRAP Area FID-VII, DRAP, Karachi and copy to QC DRAP Islamabad. Furthermore we have recalled all the remaining stock of complaint batch from Market through print media and through intimation given to all distributors.
In reference to your above mentioned letter we would like to submit as under:

- *It is submitted that we have checked retained sample of the said batch and results have found ok within the limits and meets specifications "Brown color syrup" containing no traces of black particles. We are confident that all the chemical and physical tests are alright.*
- *Details of physical and chemical analysis along with test protocol are attached for your kind reference.*

We will appreciate for meeting you for further elaboration in case of any clarification/information required.

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. Iqbal Ahmad (42201-7917477-5), Managing Director & Rozina Babar of M/s Opal Laboratory appeared before the Board on behalf of M/s Opal Laboratory, karachi to plead the instant case. They submitted before the board that retained samples were checked and were found according to the specification. No black particles were seen in the retained samples. They further added that as the retained samples were according to the specifications, therefore, they didn't apply/requested for retesting of the said product.

Decision of 296th meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the test reports of CDL, Karachi decided as under:

i. Suspension of the Registration of the said product for six (06) months or till the verification of root cause analysis, Corrective and preventive action (CAPA) by

the firm, product development data and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.

- **Prof.Dr. Abdullah Dayo, Member Central Licensing Board.**
- **Mr. Affan Ali, Assistant Director, CDL, Karachi.**
- **Dr. Krishan Das, Assistant Director, DRAP, Karachi.**

Case No. 06: MANUFACTURE & SALE OF SUB-STANDARD ZAYPEP SUSPENSION, BATCH NO. 18023 BY M/S ZAYNOON PHARMACEUTICALS (PVT.) LTD, PESHAWAR.

The FID-III, DRAP, Islamabad visited the premises M/s New Al-Shifa Medicose, 1st Floor Al-Shifa Hotel, New Murree on 25-05-2018 wherein the sample of Zaypep Suspension, Batch No. 18023, manufactured by M/s Zaynoon Pharmaceuticals (Pvt.) Ltd, Peshawar was drawn under Schedule-V (1) (C) of DRAP Act, 2012 read with section 18 (1) (C) of the Drugs Act, 1976 for the purpose of test/analysis. Details are as under;

Name of Product	Reg. No.	Batch No.	Mfg. Date	Exp. Date	Purported to be manufactured by.
Zaypep Susp. 120ml	017633	18023	02-2018	01-2020	M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar

The sealed sample of said drug was sent to the Federal Government Analyst, Central Drugs Laboratory, Karachi for test & analysis on 28-05-2018 and other sealed portions were dispatched as per DRAP Act, 2012 read with the Drugs Act, 1976.

M/s New Al-Shifa Medicose, 1st Floor Al-Shifa Hotel, New Murree has submitted the bill/invoice with warranty No. 223924 dated 14-05-2018 in favor of the said drug issued to them by M/s FM distributor, B-364/A, Collage Road, Rawalpindi.

M/s FM distributor, B-364/A, Collage Road, Rawalpindi was directed by the FID-III, DRAP, Islamabad vide letter dated 28-05-2018 to confirm the said warranty and to send the sealed portion of the sample from whom they have purchased the same and to provide subsequent bill/invoice with warranty along with original receipt of sending sample.

M/s FM distributor, B-364/A, Collage Road, Rawalpindi has confirmed the said bill/invoice with warranty issued by them to M/s New Al-Shifa Medicose, 1st Floor Al-Shifa Hotel, New Murree and further provided the subsequent bill/invoice with warranty No. 772 dated 28-04-2018 of M/s Absar traders in favor of the said drug.

M/s Absar traders, Shop No. 11, 1st floor, Al Marba Market Namak Mandi, Peshawar was directed by the FID-III, DRAP, Islamabad vide letter dated 11-06-2018 to confirm the warranty and provision of subsequent warranty of the manufacturer but M/s Absar traders, Peshawar vide letter No. 19-ATP-002 dated 01-07-2019 after lapes of period more than seven months confirmed their bill invoice with warranty and receipt of warrantor portion but subsequent bill invoice with warranty of M/s Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar has not been provided.

The Federal Government Analyst, CDL, Karachi declared the aforementioned sample as of sub-standard quality vide test/analysis report No.IP.138/2018, dated 03-08-2018. Results of the report are reproduced as under:

Description:	*Off white suspension in ambered glass bottle.*
Identification:	*Famotidine identified.*
pH Determined:	*5.60*
Limits:	*6.5 to 7.5* ***Does not comply.***
Assay for Famotidine:	
Determined amount/5ml:	*6.5745mg*
Stated amount/5ml:	*10mg*
Percentage:	*65.7%*
Limits:	*90.0% to 110.0%* ***Does not comply.***

Remarks:- *The sample is of* ***" substandard"*** *quality under the Drugs Act. 1976.*

The FID-III, DRAP, Islamabad issued an explanation letter dated 15-08-2019 to M/s Zaynoon Pharmaceuticals with direction to stop the sale, recall the said drug and explain their position on manufacturing and selling of the said substandard drug.

In compliance to the above said letter, the firm replied vide letter No. ZPPl/QC/010 dated 27-08-2018 and Ref. No. ZPPL/QC/18/023 dated 11-09-2018 wherein the firm only challenged the said test report under section 22 (4) of the Drugs Act, 1976 whereas no information regarding recall and stoppage sale of the said drug was provided.

On the request of the firm, the Board's portion of the said sample was received in the Appellate Laboratory, NIH, Islamabad vide No.F.03-67/2018-QC dated 23-11-2018 as required under section 22 (5) of the Drugs Act, 1976.

Appellate laboratory, NIH, Islamabad vide their test report No.30-M/2018 dated 03-01-2019 declared the said sample as of substandard quality. Results of the test report of NIH report are reproduced as under:

Description:	*Off white suspension contained in amber colored labeled glass bottles further packed in an outer carton.*			
Identification:	*Famotidine identified.*			
Volume:	***Determined:*** *120ml*		***Limits:*** *120ml*	
	Complies with volume stated on the label.			
pH	***Determined:*** *5.40*		***Limits:*** *6.5-7.5*	
	Does not comply with USP 39.			
Assay:	***Stated:***	***Found:***	***Limit:***	***Percentage:***
Famotidine	*10mg/5ml*	*7.634mg/5ml*	*90-110%*	*76.343%*
	In the opinion of the undersigned the sample is of substandard quality as defined in the Drugs Act, 1976 for the reason(s) given below:			
pH	***Determined:*** *5.40*		***Limits:*** *6.5-7.5*	
	Does not comply with USP 39.			
Assay:	***Stated:***	***Found:***	***Limit:***	***Percentage:***
Famotidine	*10mg/5ml*	*7.634mg/5ml*	*90-110%*	*76.343%*

The FID-III, DRAP, Islamabad submitted that in view of the test report of CDL, Karachi and Appellate Laboratory, NIH, Islamabad firm has violated section 23 (1)(a)(v) of the Drugs Act, 1976. The firm, M/s Absar Traders Peshawar and M/s FM Distributors, B-364/A, College Road Rawalpindi were once again directed to stop the sale, recall the said drug and explain their position in manufacturing and selling of the said substandard drug and to furnish required information within 07 days. The reply of the firm and M/s Absar Traders, Peshawar has been received but M/s FM Distributor, B-364/A, College Road, Rawalpindi Distributor, B-364/A, College Road, Rawalpindi has not replied yet so for.

M/s Absar Traders, Peshawar replied that they confirmed their bill invoice with warranty issued to M/s FM Distributor, Rawalpindi in favor of said drug and also acknowledged receipt of sample of warrantor portion but did not provide the subsequent bill invoice with warranty of the manufacturer and proof of receipt of warrantor portion to the manufacturer. Hence M/s Absar Traders, Peshawar contravened section 32 (3) (b) (i), schedule-III (3) (4) read with 27 (3) (4) (schedule VI) of DRAP Act, 2012 and M/s FM Distributor, B-364/A, College Road, Rawalpindi contravened section 32 (3) (b) (i), schedule-III (3) (4) read with 27 (3) (4) (schedule VI) of DRAP Act, 2012.

M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar has replied that this product has been recalled w.e.f 29-08-2018 after receiving CDL, Karachi report and assured the stoppage of sale and use of the said drug; Cutting of News Paper/ circular and bill invoice with warranty issued to M/s Absar Traders, Peshawar. They further furnished the authority letters issued to M/s Absar Traders and M/s FM Distributors, Rawalpindi to sale their said drug and also confirmed the receipt of warrantor portion. Hence, the firm contravened Section 23(1)(a)(v) of Drugs Act, 1976 and DRAP Act, 2012. No evidence about recalled quantity has been provided from firm or both distributors. Following actions are proposed against the said firm/ distributors.

i. Cancellation / suspension of DML/ cancellation of registration of said drug.
ii. Recommendation of Cancellation/ suspension of Whole Sale Licenses of both distributors to the concerned authority.

iii. Prosecution in the Drug Court against the persons mentioned below:

S.#.	Name.	CNIC #	Designation
1.	Mr. Muhammad Nadeem Gul.	17301-1301410-5	Chief Executive of the firm.
2.	Mr. Sadaqat Ali Khan.	31202-5101935-7	Production In-charge.
3.	Mr. Shaukat Ayaz.	15402-7372422-3	QC In-charge.
4.	Mr. Muhammad Umer Malik.	37405-7614227-3	Proprietors of FM distributors
5.	Mr. Anwar Saeed Khan.	11201-3406586-3	Qualified person.
6.	Mr. Islam Gul		Proprietors of Absar Traders.
7.	Mr. Kaleemullah.	-	-do-
8.	Mr. Muhammad Javeed.	-	Qualified person.

The Drugs Licensing Division, DRAP, Islamabad was requested to verify/provide the names provided by the FID-III, DRAP, Islamabad and they provided the following:

M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar	Muhammad Nadeem Gul **(Director/Management)** M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar
Khalid Naeem **(Director/Management)** M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar	Sadaqat Ali Khan **(Production Incharge)** M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar
Shaukat Ayaz **(QC Incharge)** M/s. Zaynoon Pharmaceuticals (Pvt.) limited, 27-28-B, Industrial Estate, Hayatabad, Peshawar	

Show cause notice was issued to the firm and above accused along with the copies of CDL, Karachi and NIH, Islamabad test reports under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-67/2018-QC dated 03-02-2020 for the following actions;

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

M/s. Zaynoon Pharmaceuticals (Pvt.) limited, Peshawar vide reference No. ZPPL/QC/020/004 dated 13-02-2020 submitted their reply in response to the above said show cause notice and is reproduced as under:

i. We have provided that finished product specification to CDL, Karachi as well as NIH, Islamabad with the request to check the product as per method as we develop the product and esteemed laboratories did not adopt the method so we are still aggrieved.

ii. As per your instructions, we have recall all the stock from the market of the said batch as advised and we are abide by the Drugs Act, 1976 and DRAP Act, 2012 and rules framed there under.

iii. It is also requested to give us an opportunity of personal hearing for the explanation of our grievances before Registration Board regarding the case.

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. Shaukat Ayaz (15402-7372422-3), Quality Control Manager M/s Zaynoon Pharmaceuticals, Peshawar appeared before the Board on behalf of M/s Zaynoon Pharmaceuticals, Peshawar to plead the instant case. He reiterated the points already mentioned in their reply to the show cause notice as recorded above.

Decision of 296th meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the test reports of CDL, Karachi decided as **under:**

i. **Applicants shall revise their formulation as per innovator drug product which is available as dry powder for suspension in the strength of 40 mg/ 5 ml, if manufacturing facility is approved by CLB.**
ii. **The firm shall submit new application with complete fee to the relevant registration section for the change of their formulation as per innovator's product which is available as dry powder for suspension in the strength of 40 mg/ 5 ml.**
iii. **The product shall remain suspended till the approval of the revised formulation as per innovator's product.**

Case No. 07: MANUFACTURE & SALE OF SUB-STANDARD ALFASUN 1MCG CAPSULES BATCH NO.C325 BY M/S HISUN PHARMACEUTICAL INDUSTRIES, GADOON.

The Federal Inspector of Drugs, DRAP, Peshawar visited the premises of M/s Hisun Pharmaceutical Industries, Gadoon on 12-04-2018 wherein the sample of Alfasun 1mcg Capsules, Batch No.C325 manufactured by M/s Hisun Pharmaceutical Industries, Gadoon was drawn under Schedule-V (1) (C) of DRAP Act, 2012 read with section 18 (1) (C) of the Drugs Act, 1976 for the purpose of test/analysis. Details are as under;

Name	Alfasun 1mcg Capsules
Composition	Each capsule contain 1mcg Alfacalcidol.
Registration No:	064083
Batch No:	C325
Manufacturing Date:	04-17

Claimed Manufacturer:	M/s Hisun Pharmaceuticals Industries, **Gadoon.**

The said sample was sent to the Government Analyst, Central Drugs Laboratory, Karachi vide memorandum No.F.10-34/2018-Hisun-DRAP (P) dated 13-04-2018.

The Federal Government Analyst, CDL, Karachi declared the sample as of sub-standard quality vide test/analysis report No.IP.109/2018, dated 04th July, 2018. Results of the CDL's test report are reproduced as under:

Description: *Red and black colored capsules, containing off white powder.*
Identification: *Alfacalcidol identified.*
Assay for Alfacalcidol:
Determined amount/Capsule: *0.4034mcg*
Stated amount/Capsule: *1mcg*
Percentage: *40.3%*
Limits: *90.0% to 110.0%* ***Does not comply.***
Remarks:- *The sample is of* ***" substandard"*** *quality under the Drugs Act. 1976.*

The firm didn't agree with the results of the aforementioned report of CDL, Karachi and challenged the report under Section 22(4) of the Drugs Act, 1976 for retesting from Appellate Laboratory, NIH, Islamabad.

Appellate Laboratory, NIH, Islamabad vide their test report No.021-M/2018 dated 21-02-2019 has also declared the said sample as of substandard quality. Results of the NIH, Islamabad test report are reproduced as under:

Description: *White powder contained in black and red capsule shells packed in blister packing further contained in an outer carton.*
Identification: *Alfacalcidol identified.*
Weigh variation: ***Does not comply with BP-2017.***
Disintegration Time: ***Determined:*** *22 minutes* ***Limits:*** *NMT 30 minutes*
Complies with BP-2017.

Assay:	***Stated:***	***Found:***	***Limit:***	***Percentage:***
Alfacalcidol	*1mcg/Capsule.*	*0.3319mcg/Capsule.*	*Nil*	*33.19%*

In the opinion of the undersigned the sample is of substandard quality as defined in the Drugs Act, 1976 for the reason(s) given below:

Weigh variation:	***Does not comply with BP-2017.***			
Assay:	***Stated:***	***Found:***	***Limit:***	***Percentage:***
Alfacalcidol	*1mcg/Capsule.*	*0.3319mcg/Capsule.*	*Nil*	*33.19%*

Federal Inspector of Drugs, DRAP, Peshawar provided the following names:

- Mr. Rana Muhammad Nawaz-**Managing Director.**
- Mr. Sardar Ahmad – **Production Incharge** (at the time of production of Alfasun 1mcg Capsule).
- Mr. Abdullah Abu Bakar – **Production Incharge** (Current).
- Mr. Sajjad Ali Khan – **(Quality Control Manager)**

The Drugs Licensing Division was requested to verify/provide the names provided by the FID, DRAP, Peshawar and they provided the following;

M/s Hisun Pharmaceuticals Industries, 37-A, R-2 Industrial Estate, **Gadoon.**	Rana Muhammad Nawaz **(Management)** M/s Hisun Pharmaceuticals Industries, 37-A, R-2 Industrial Estate, **Gadoon.**
Muhammad Barhan-ud-din **(Management)** M/s Hisun Pharmaceuticals Industries, 37-A, R-2 Industrial Estate, **Gadoon.**	Shafiq Ur Rehman **(Management)** M/s Hisun Pharmaceuticals Industries, 37-A, R-2 Industrial Estate, **Gadoon.**
Sardar Ahmad **(Production Incharge)** M/s Hisun Pharmaceuticals Industries, 37-A, R-2 Industrial Estate, **Gadoon.**	Sajjad Ali Khhan **(Quality control Incharge)** M/s Hisun Pharmaceuticals Industries, 37-A, R-2 Industrial Estate, **Gadoon.**

Show cause notice was issued to the firm and above accused, along with the copies of CDL, Karachi & NIH, Islamabad test reports, under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-67/2018-QC dated 03-02-2020.

In response to the above said show cause notice, the firm submitted their reply vide reference No. Alfasun01/2020 dated 20th February, 2020 and is reproduced as under:

"Reference to your letter No.F.No.03-61/2018-(QC) dated 3rd February 2020 regarding our product ALFASUN 1mcg Capsule having manufacturing date April 2017 and Expiry date March 2019 that is declared as Substandard by CDL Karachi and Appellate Laboratory NIH Islamabad, we came to the following conclusion by identifying the root cause.

- *The quantity of active ingredient (AlfacaIcidol) in Batch is very minute hence extremely difficult to mix it with other excipient, further we do not have the proper mixer for such sensitive mixing and we do declare that we like most of other pharmaceutical industries manually mix the batch without proper mixer.*
- *The second reason that we have concluded is that even after proper mixing but in slight weight variation of capsules the active ingredient quantity varies to a large extent.*

We also want to inform you that particular batch has already expired as on March 2019 and same was recalled from market and the stock is sealed by Area FID, DRAP Peshawar Mr. Atiq- ul-Bari in our Finish Goods Store.

Regarding the show cause notice we the management of this firm has decided to surrender and deregister Alfasun 1mcg having registration No.064083.

We also want to request the Area FID DRAP Peshawar for destruction of the sealed stock. Aforesaid in view a favorable action is requested please".

The FID, DRAP, Peshawar also informed that stock of 05 Cartons x 250 Packs x 20 Capsules were not to dispose of on form 1 on 06-08-18. On 27-09-18 stock of 278 packs x 20 capsules and on 17-01-19 stock of 250 packs x 20 capsules were not to dispose of on form-1and also seek directions from the Registration Board for the fate of the said stock.

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. M. Nawaz (34601-9588618-1), Owner of M/s Hisun Pharmaceutical Industries, Gadoon appeared before the Board on behalf of M/s Hisun Pharmaceutical Industries to plead the instant case. The

owner of the firm submitted before the Board that they want to discontinue their product as the concentration of the active is very low & it is very difficult to mix it properly.

Decision of 296th meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the test reports of CDL, Karachi, statement of the firm decided as under:

- **To cancel the Registration of Alfasun 1mcg Capsules, Reg. No. 064083 with immediate effect.**
- **Destruction of the stock 05 Cartons x 250 Packs x 20 Capsules, 278 packs x 20 capsules & 250 packs x 20 capsules in the presence of Area FID and certificate of destruction dully signed by the Owner/representative of the firm and Area FID.**

Case No. 08: **Manufacture & Sale of Sub-Standard Drug Pearle White Cotton Bandage B.P Type-II, Batch No.PWB-0901, Reg. No. 042254 manufactured by M/s Sultan Cotton & Bandage, Mirpurkhas, Sindh.**

The FD-VI, DRAP, Karachi visited the premises of M/s. Al Shifa Medical Store, 1499/3, Opposite Bank- Al Habib, Main Road, Siddiq abad, FB Area, Karachi on 12-02-2019 in light of NTF and took the sample of Pearle White Cotton Bandage B.P Type-II, Batch No.PWB-0901, Reg. No. 042254 manufactured by M/s Sultan Cotton & Bandage, Mirpurkhas, Sindh for the purpose of test/analysis on prescribed Form-3. Details are as under:

Name of Drug	Batch No.	Mfg. Date	Exp. Date	Mfg. By
Pearle White Cotton Bandage BP Type-II R#042254	**PWB- 0901**	Sep 2018	Use within 3 years	M/s. Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road, Mirpurkhas

A sealed sample of above drug was sent to Federal Government Analyst, Central Drugs Laboratory, Karachi for test/analysis vide memorandum No. ARS-07/2019- FID-VI (K) dated 13-02-2019.

The sealed portion of the said sample was also sent to Chairman, Drug Registration Board, DRAP, Islamabad vide letter of even number dated 13-02-2019 as required under the provision of clause (b)(3) Schedule-V (Procedure for Inspector) of DRAP, Act, 2012.

The sealed sample (manufacturer portion) of under reference drug was sent to M/s. Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road, Mirpurkhas vide letter of even number dated 25-02-2019 as required under the provision of clause(c) (3) Schedule-V (Procedure for Inspector) of DRAP Act, 2012.

M/s. Al Shifa Medical Store, 1499/3, Opposite Bank Al Habib, Main Raod, Siddiqabad, FB Area, Karachi has produced invoice/bill warranty No. 0001 dated 08-02-2019 of M/s. Hashmani Medicine, Shop No. 4, Plot sb#l, Block-1, Sharifabad, Near Usman Hospital, FB Area, Karachi as a proof of their purchase of above said drug.

M/s. Hashmani Medicine, Shop No. 4, Plot sb#l, Block-1, Sharifabad, Near Usman Hospital, FB Area, Karachi was directed by FID, DRAP Karachi to produce the subsequent invoice/bill warranty of above said drug under Section 23(1)(i) of Drug Act, 1976 vide letter of even number dated 06th March 2019. M/s. Hashmani Medicine, Shop No. 4, Plot sb#l, Block-1, Sharifabad, Near Usman Hospital, FB Area, Karachi has produced subsequent invoice/bill warranty No. F.0105 dated 16-11-2018 of M/s. Medicine House, Shop No. 1&2, Plot No. 50, Block-3, Near Edhi Centre, FB Area, Karachi. Subsequently, M/s. Medicine House, Shop No. 1&2, Plot No. 50, Block-3, Near Edhi Centre, FB Area, Karachi vide letter dated 14th March has produced invoice No. 1102 dated 06-11-2018 of M/s. Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road, Mirpurkhas of purchase of above said drug.

The Government Analyst, Central Drugs Laboratory, Karachi vide test report No.R.KQ.166/2019 dated 28th February 2019 declared the sample as of **"Substandard"** quality under the Drugs Act, 1976, which is violation of Section 23(1) (a) (v) of Drugs Act, 1976 and rules framed there under. Results of the test are reproduced as under:

> ***"Description:*** *Open wove bandage consist of fabric of plain wave. It is practically odorless, not reasonably free from weaving defects and contains not more than traces of leaf residue seed coat and other impurities. It is not in one continuous length. The edges are not*

cut evenly parallel to the warp threads and are not reasonably free from loose threads.
Does not comply with B.P 1988.

Fiber Identification test: *Complies.*

Treads per 10cm:	*Determined:*	*Limits.*
Warp:	*127.56*	*135 to 163 Does not comply.*
Weft:	*69.29*	*84 to 95 Does not comply.*
Weigh per unit area:	*41.09gm/m^2*	*Not less than 33gm/m^2 Complies.*

Remarks: *The sample is of* ***sub-standard*** *quality under the drugs Act. 1976.*

On the request of the firm, sample was sent for retesting from Appellate laboratory, NIH, Islamabad dated 14-06-2019 under section 22(4) of the Drugs Act, 1976. The Appellate laboratory, NIH, Islamabad vide their test report No. 012-M/2019 dated 09-07-2019 has declared the sample as of substandard quality. Results of the test are reproduced as under:

Description: *Off white cloth of plain weaves, bleached not to a good white. The bandage is not in one continuous length, containing joins and have weaving defects. The edges are no evenly cut parallel with the wrap threads and have loose threads on the either sides of the bandage. The bandage is packed in khaki paper and further packed in printed khaki envelop. (Does not comply with B.P 1988 which states that "" Cotton cloth of plain weaves, bleached to a good white, in one continuous length containing no joins and reasonably free from weaving defects, leaf and shells. The edges are evenly cut, parallel with the wrap threads, and are reasonably free from loose threads").*

Identification:	*Cotton fibers identified.*	
Size:	***Determined:***	*5cm x 3.0m*
	Limit:	*5cm x 3.0m.*
	Complies with size stated on the label.	
Threads per stated length:		
Warp per 10cm	***Determined:***	*Average 115 threads/10cm*
	Limit:	*135-163 threads/10cm*
Weft per 10cm	***Determined:***	*Average 75 threads/10cm*
	Limit:	*84-96threads/10cm*
	Does not comply with BP 1988.	
Weight per unit area:		
	Determined:	*Average32.51gm/m^2*
	Limit:	*Not less than 33.0gm/m^2*
Water soluble and ether soluble substances:		
	Determined:	*1.45%*
	Limit:	*Not more than 1.5%*
	Complies with BP-1988.	

The FID-VI, DRAP, Karachi recommended that as the firm has violated section 23(1)(a)(v) of the Drugs Act, 1976 and rules framed there under therefore, the registration of their under reference product may kindly be suspended/cancelled for a certain period being a non safer drug and all other drugs being manufactured at their premises may kindly be reviewed after detailed GMP inspection by the panel. The names of responsible persons provided by the FID, DRAP, Karachi are as under:

i. Tahir Rasheed, Director (CNIC No. 44103-0293309-6).
ii. Abdul Sattar, General Manager (CNIC No. 44103-0303363-3).
iii. Basharat Ali, Quality Control Manager (CNIC No. 44103-9097095-5).
iv. Nusrat Sultan, Production Manager (CNIC No. 42201-1618043-3).

The Drugs licensing Division was requested to verify/provide the names provided by the FID, DRAP, Karachi and the provided the following names as per available record:

M/s Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road, **Mirpurkhas**.	Muhammad Akram Sultan **(Director)** M/s Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road, **Mirpurkhs.**

Tahira Akram Sultan **(Director)** M/s Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road **Mirpurkhas.**	Nusrat Sultan **(Production Incharge)** M/s Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road **Mirpurkhas.**
Mukhtiar Ahmad **(Q.C. Incharge)** M/s Sultan Cotton & Bandages, 145-146, Sindh Small Industrial Estate, Mirwah Road **Mirpurkhas.**	

Show cause notice was issued to the firm and above accused along with the copies of CDL, Karachi and NIH, Islamabad test reports under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-15/2019-QC dated 19-02-2020 for the following actions:

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

In response to the above said show cause notice, the firm submitted their reply vide letter No. nil dated 22-02-2020 and is reproduced as under:

"With reference to your letter No. 03-15/2019-QC received by us on 22/02/2020 we, Directors, Dr. Muhammad Akram Sultan & Tahira Akram Sultan, QC Incharge Mr. Mukhtiar Ahmed, Production Incharge Miss Nusrat Sultan, on behalf of Sultan Cotton & Bandages, Mirpurkhas hereby deeply apologize here for our mistake of contravening the provisions of 23(1)(a)(v) of the Drug Act, 1976 and the rules made their under as well as the conditions of Registrations.

We have been in the Industry for almost fifteen years and have always opt to manufacture quality product for our consumers. Sir, we are the only registered Cotton & Bandage Factory in the deprived area of interior Sindh, facing power failures, destroyed infrastructure ,almost no sweet water facility and with shortage of technical staff we are still running our firm as it is a source of earning for 30 + workers who are living in different villages nearby our factory.

Sir, we were buying bandage cloth from Tandoadam and we make sure to check every bundle of cloth (normally 100 yard) by applying all testing protocols. Sir, we have come to a conclusion that we may have received mix bundle with some yards of short pic threads by the suppliers which has led to substandard quality, we would like to bring into your kind knowledge that since February 2019 we are buying bleached cloth from Punjab which is made up of fresh yarn and is better than that of Tandoadam cloth.

We accept that the mistake has been made on our part as some short pic cloth has been over looked and consumed. Our firm's almost 80% expenses are covered from our Bandages sale. We would not be able to bear any losses because of the outcome of adverse decision against us. We are still not established in this region as Sindh is a huge market for unregistered Bandages Cotton wool & Crepe Bandage and Hyderabad is the Hub of producing illegal unregistered Bandage I Crepe Bandage Gauze etc which is only few kilometers away from Mirpurkhas.

Sir, we have already collected all stock of the mentioned batch when F.I.D Mr. Abdul Rasool Sheikh first intimated us to recall from the market through his letter No.F.ARS-07/2019-FID-VI (K), at last we request your honor & the Drug registration Board to accept our apology ,we assure you that we will strictly follow rules set under BP-1988, in testing and manufacturing of Cotton Bandage BP type -II.

Hoping for the positive decision and support of the competent authority"

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. Imran Bari (4503-0800603-9), Manager of M/s Sultan Cotton & Bandage, Sindh appeared before the Board on behalf of M/s Sultan Cotton & Bandage to plead the instant case. He reiterated the points already recorded above. In reply to a question from a board member, he submitted that have submitted their application for grant of License in the Medical Devices & Medicated Cosmetic Division.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case decided to issue strict warning to the firm to strictly comply to GMP standards as per relevant provisions of law.

Case No.09: Manufacture & Sale of Sub-Standard Drug Nim D3 Injection Batch No.P560 Reg. No. 090190 manufactured by M/s Nimrall Laboratories, Islamabad.

The FID-III, DRAP, Islamabad visited the premises of M/s Nimrall Laboratories, Plot No. 24, Street No. SS-3, Rawat Industrial Estate, Islamabad on 05-12-2018 and drawn the sample of Nim D3 Injection, Batch No. P560, Reg. No. 090190 manufactured by M/s Nimrall Laboratories, Islamabad under Schedule-V (1)(C) of DRAP Act, 2012 read with section 18 (1)(C) of the Drugs Act, 1976. Details are as under:

Name of the Product	Manufactured by	Registration #	Batch #	Mfg date	Exp Date
Nim D3 5mg/ml Injection	M/s Nimrall Laboratories, Plot No. 24. Street No. SS-3, Rawat Industrial Estate, Islamabad	090190	P560	10-2018	10-2020

A sealed sample of the said drug was sent to Federal Government Analyst, Central Drugs Laboratory, Karachi for test & analysis on 06-12-2018 and other sealed samples were dispatched as per DRAP Act, 2012 read with Drugs Act, 1976.

The Federal Government Analyst, CDL, Karachi declared the above said sample as of sub-standard quality vide test/analysis report No.IP.302/2018, dated 09-01-2019. Results of the test report of CDL, Karachi are reproduced as under:

Description: *Clear colorless oily solution in ambered glass ampoule.*
Identification: *Cholecalciferol identified.*
Bacterial Sterility Test: *Complies.*
Assay for Cholecalciferol:
Determined amount/ml: *3.4707mg*
Stated amount/ml: *5mg*
Percentage: *69.4%*
Limits: *90.0% to 120.0%* ***(Does not Comply.)***
Remarks: *The sample is of* ***sub-standard*** *quality under the drugs Act. 1976.*

The FID-III, DRAP, Islamabad stated that in view of the test report of Federal Government Analyst, Central Drugs Laboratory, Karachi the firm has violated Section 23(l)(a)(v) of Drugs Act, 1976. The firm was directed to stop the sale, recall the said drug and explain their position on manufacturing and selling the said "Substandard'' drugs and to furnish following information within 07 days.

- Name of Chief Executive/Director along with attested copies of CNIC.
- Name of Production In-charge along with attested copies of CNIC.
- Name of Quality Control In-charge along with attested copies of CNIC.
- To provide batch history, production and quality control records along with the sale record.

In compliance to the above said letter the firm replied vide letter No. nil dated 22-01-2019 wherein they have challenged the said test report under section 22 (4) & (5) of Drug Act, 1976 whereas did not inform about recall & to stop the sale of the said drug and other record/ information asked for in above para.

On the request of the firm, sample was sent for retesting from Appellate laboratory, NIH, Islamabad dated 18-03-2019 under section 22(4) of the Drugs Act, 1976. The Appellate laboratory, NIH, Islamabad vide their test report No. 05-M/2019 dated 15-05-2019 has declared the sample as of substandard quality. Results of the test report of Appellate Laboratory NIH, Islamabad are reproduced as under:

Description: *Clear colorless liquid contained in amber colored labeled glass ampoules, place in a transparent plastic rack further packed in an outer carton.*
Identification: *Cholecalciferol identified.*
Sterility test: *Sterile.*
Assay of Cholecalciferol:

Stated: *5mg/ml ampoule.*
Found: *3.117mg/1 ml ampoule.*
Limit: *90-120%*
Percentage: *62.351%*

Does not comply with alternate specification (Scotmann Pharmaceuticals 5-D Industrial Area I-10/3 Islamabad.)

Remarks: ***Reference of specifications (B.P Specifications) is mentioned on the label however it could not be followed due to some technical constraints, moreover manufactured fail to supply his own specifications therefore alternative specifications Scotmann Pharmaceuticals 5-D Industrial Area I-10/3 Islamabad) followed for test and analysis of Nim D3 Injection (Cholecalciferol).***

Conclusion: *The sample is of substandard quality on the basis of tests performed.*

The FID-III, DRAP, Islamabad further stated that in view of the test report of Federal Government Analyst & the Appellate Labs, Islamabad, the firm have violated Section 23(l)(a)(v) of Drugs Act, 1976. The firm was once again directed to stop the sale, recall the said drug and to explain their position on manufacturing and selling the said "Substandard" drug and to furnish desired information within 07 days.

M/s Nimrall Laboratories, Plot No. 24, Street No. SS-3, Rawat Industrial Estate, Islamabad has replied that this product has been recalled w.e.f 28-01-2019 after receiving report and assured the stoppage of sale and use of the said drug. The recalled stock has been received in warehouse on 30-01-2019.

The FID-III, DRAP, Islamabad further submitted that as the firm has contravened Section 23(l) (a) (v) of Drugs Act, 1976 and DRAP Act, 2012. Following actions are proposed against the said firm:

- Cancellation / suspension of DML/ cancellation of registration of said drug.
- Prosecution in the Drug Court against the persons mentioned below:

S.#	Name.	CNIC #	Designation
1.	Mr. Shahzad Saeed.	37405-5119440-7	Chief Executive of the
2.	Syed Musarat Ali.	32102-4345781-1	Production In-charge.
3.	Mr. Miraj Khalid.	Missing	QC In-charge.

The Drugs licensing Division was requested to verify/provide the names provided by the FID, DRAP, Karachi and provided the following names as per available record:

M/s Nimrall Laboratories, Plot No. 24, Street No. SS-3, Rawat Industrial Estate, Islamabad	Shahzad Saeed (37405-5119440-7) Chief Executive of M/s Nimrall Laboratories, Plot No. 24, Street No. SS-3, Rawat Industrial Estate,Islamabad
Syed Musarat Ali (32102-4345781-1) Production In-charge M/s Nimrall Laboratories, Plot No. 24, Street No. SS-3, Rawat Industrial Estate,Islamabad	Miraj Khalid (16102-4228315-7) M/s Nimrall Laboratories, Plot No. 24, Street No. SS-3, Rawat Industrial Estate,Islamabad

Show cause notice was issued to the firm and above accused along with the copies of CDL, Karachi and NIH, Islamabad test reports under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-02/2019-QC dated 19-02-2020 for the following actions;

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

The firm submitted their reply to the above said show cause notice vide reference no. nil dated 27-02-2020 and is reproduced as under;

" With reference to your letter No.3-02/2019-QC dated 24-02-2020. In this regard, according to CDTL Karachi Test report No.IP.302/2018 dated 19-01-2019, our product (Nim D3 Injection) does not comply with USP 41 Specifications. The Appellate laboratory, NIH, Islamabad vide their test report No.05-M/2019 dated 15-05-2019 has declared the sample as of substandard quality by using Scotmann Pharmaceutical Specifications as mentioned in the report. But we apply B.P Specifications

as mentioned in the Unit carton and registration letter. We reuest to be heard in person and hear our point of view and position.
We have already recalled the said batch No.(P560) of Nim D3 Injection as per instructions of area FID"

Proceeding & Decision of the 296th Meeting of Registration Board.

Mr. Syed Musarat Ali (32102-4345781-1), Production manager of M/s Nimrall Laboratories, Islamabad appeared before the Board on behalf of M/s Nimrall Laboratories to plead the instant case. He reiterated the points already recorded above. He further submitted that they have recalled most of the stock of the said batch and up to 79% of the stock is in their warehouse and is almost expired.

The Board observed that CDL, Karachi applied USP protocols and NIH, Islamabad applied Scottman protocols while the product is registered with BP specifications.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case decided as follows;

- **The firm shall apply for correction of product specification as per innovator's product to the PE&R Division of DRAP.**
- **Meanwhile there shall be no production of the said drug till approval of change of specification as per innovator's product.**

Case No. 10: CASE REFERRED BY PQCB, PUNJAB REGARDING APOCLOX 500MG INJECTION MANUFACTURED BY M/S PDH LABORATORIES.

Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/ISU-4-DTL-M-209/19 dated 17-07-2019 has informed that Government Analyst Drug Testing Laboratory, Multan vide letter No. 841 dated 25-05-2019 requested guidance regarding test/analysis of Inj Apoclox 500 mg (Ampicillin+Cloxacillin), **Batch** #1901368 which is not present in USP or BP and the MS of respective manufacturer contains three chemicals (Acetic anhydride (currently banned in Pakistan), 1,4 Dioxane, Recrystallized imidazole) which are currently not, present in DTL Multan.

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

Subject issue was considered by the Provincial Quality Control Board under section 11 of the Drugs Act, 1976 in its **208th meeting held on 27-06-2019.** The Board after detailed discussion and deliberation decided to issue a show cause/ personal hearing notice to M/s PDH Laboratories to appear before the board in next meeting of PQCB along with their method of testing and approved source of purchase of chemicals used for testing.

Personal Hearing notice dated 8th July, 2019 was served to the firm.

CURRENT PROCEEDINGS & DECISION BY THE BOARD:

The above mentioned issue was discussed in 209th meeting of Provincial Quality Control Board held on 17-07-2019. The Board after detailed discussion and deliberation decided to allow the Drug Testing Laboratory Multan to file the case of Inj. Apoclox 500 mg (Ampicillin+Cloxacillin), Batch #1901368 due to use of Acetic anhydride for analysis as this chemical is currently banned in Pakistan and *Board has also recommended DRAP for cancellation of registration of the above-mentioned product due to use of banned chemical for its analysis. The Board further directed the M/S PDH Laboratories to stop manufacturing of this product till the validated method approved by the DRAP.*

Decision of 293rd meeting of Registration Board.

Registration Board after detailed discussion decided to issue the show cause notice and personal hearing to the firm/ responsible persons as provided by the Provincial Quality Control Board (PQCB), Punjab due to use of banned chemical for analysis of the product in question."

Show cause notice as per decision of the Registration Board was issued to the quarter concerned vide Letter No.F.03-65/2019-QC (293rd RB) dated 21-04-2020.

In response to the above said show cause notice M/s PDH Laboratories (Pvt.) Ltd., Lahore submitted their reply vide reference No.PDHL/DRAP/20/0464 dated 28th April, 2020 and is reproduced as under;

In reference to the letter # F.No.03-65/2019-QC (293rd) received on 25-04-2020 regarding the use of

Acetic Anhydride in the Method of Analysis of Apoclox injection-500 mg Batch # 1901368.
Matter of the fact is that, the said chemical was never used in Method of Analysis of Apoclox- injection 500mg, since the time Acetic Anhydride had been banned by the Government of Pakistan. The aforesaid chemical was just in the list of reagents but never used for the purpose of analysis since 2006. Of course, this reagent needed to be deleted from the list but it just went overlooked due to human error, from the list of reagents mentioned in the Method of Analysis that was sent to Multan DTL vide letter No.841 dated 25-05-2019 regarding test/ analysis of Apoclox injection 500mg (Ampicillin + Cloxacillin) for batch# 1901368.
Multan DTL referred the matter to PQCB which issued the notice to the firm vide letter No. PQCB/VAC-341/19 regarding the use of the Acetic Anhydride in Method of Analysis of Apoclox Injection 500mg. In that meeting we had a clear stance that the aforesaid chemical was never used in the process of analysis and it was just a human error that the chemical was still present in the list of reagents despite of the fact that it is never been used. It was mistakenly concluded that the company is using a ban chemical (Acetic Anhydride) for the test /Analysis of Apoclox injection 500mg.
Now we have updated our method analysis including the list of reagents used. We have attached the copy of corrected (with the deletion of acetic anhydride from the list of reagents) method of analysis that is actually used for the testing and analysis of Apoclox injection 500mg batch No. 1901368, for your reference.
In reference to the letter from PQCB (No.PQCB/ISU-4-DTL-M-RP/19) we have already submitted an application for the approval of the new Method of Analysis of Apoclox injection 500mg along with its validation, to the DRAP. Also, in response to that application we have submitted the required documents referring to the letter from PR-II (No.3-l/2019. AD (PR-II) (copies attached).
We are law abiding firm and we duly respect the laws, rules and regulations established by government of Pakistan. We will never do such act that corresponds to breach of laws/ rules and regulations. There are always chances of existence of human error and presence of acetic anhydride in the list of reagents in the method of analysis of Apoclox injection 500mg is an example of that it went undeleted but it really doesn't mean that we are using a banned chemical in our lab. We will never violate the rules. Now kindly dismiss the matter and allow us the regular production of our product. We shall be remaining grateful.
Area FID, DRAP, Lahore was requested vide letter No.F.03-50/2019-QC dated 06-08-2020 and 26-08-2020 to verify the claim by the firm as recorded above and submit conclusive report regarding firm's claims for further consideration by Registration Board.
FID, DRAP, Lahore forwarded the report and is reproduced as under;
The Inspection of M/s PDH Laboratories (Pvt.) Ltd 9.5Km Sheikhupura Road Lahore was conducted on 27-08-2020 with reference to DRAP Islamabad letter No.F.3-50/2019-QC dated 06-08-2020 and even number dated 26-08-2020 on the subject case referred by PQCB Punjab regarding Apoclox 500mg Injection Mfg by PDH Laboratories (Pvt.) Ltd Lahore to verify the claim stated therein:-
The firm management informed the panel and provided documents that they were manufacturing Apoclox 500mg Injection (Ampicillin+Cloxacillin), Registration 007118 since long and also testing it as per their in house testing method
The management informed that they were only using imidazole with buffer for the reparation of solutions for testing as till date as the combined finished product is not available an any pharmacopoeia
The Management also stated that the chemical acetic anhydride which was printed in the list of reagents in the previous testing method was a typographical mistake as the same is not being used in detail in procedure explained in the testing method. A very old SOP of the firm was also shown to the panel in which acetic anhydride was mentioned in the reagents and testing method. Now the management has revised the testing method by removing acetic anhydride from the testing method
It is pertinent to mentioned here that as per available record of import of DRAP, Lahore the firm has never imported acetic anhydride for any purpose. There was no any acetic anhydride stored there, at the time of inspection.
Meanwhile the firm had developed test methods validation protocol for injection Apoclox 250mg and 500mg finished product. However, the firm was given several advise to improve the protocol and

documentation practices.

Conclusion:

Based on the review of the documents at the time of inspection and meetings with the firm's management, it seems that at present, acetic anhydride was not being used by the firm for any purpose as supported by the available import data of the office. Submitted for consideration of the Registration Board, please.

Proceeding and Decision of the 296th Meeting of Registration Board.

Mr. Mohsin Shah (35202-9998661-7) Managing Director & M. Akhtar of M/s PDH Laboratories, Lahore appeared before the Board on behalf of M/s PDH Laboratories to plead the instant case. They submitted before the Board that they have never used the banned chemical acetic anhydride. The name of acetic anhydride in the method of analysis was due to typographic error. In reply to question from Board member, they appraised the Board that they are applying in house specifications for their product.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case, statement given by the firm and report forwarded by the Area FID, DRAP, Lahore decided as follows;

> **"As the matter was investigated through FID, DRAP, Lahore and also there is no utilization of the said chemical i.e. acetic anhydride by the firm and same confirmed by DRAP, Lahore regarding its non-import so the recommendation of Provincial Quality Control Board, Punjab for cancellation Inj. Apoclox 500 mg (Ampicillin+Cloxacillin), Manufactured by M/s PDH Laboratories, Lahore is not entertainable."**

Case No. 11: CASE REFERRED BY PQCB, PUNJAB REGARDING METHOD OF DOSAVIL INJECTION, BATCH NO. AM-182, MANUFACTURED BY M/S DOSACO LABORATORIES.

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/FC-1021/6RM/19 dated 20-02-2019 has informed that Director DTL, Lahore reported that they have filed the case pertaining to testing of the drug sample due to non-cooperation of manufacturers. The firm failed to provide product specifications and method of analysis due to which it was not possible to conduct test/analysis of the samples and to report the same in best public interest. The director DTLs have requested the Board to recommend the DRAP for cancellation of registration of the following drug whose product specifications and method of analysis were not provided to the Government Analyst concerned by Pharmaceutical Firm.

Request for case file by	Name of drug	Batch no	Mfg. by	Request dates & Letter No	Reason of case file
DTL lahore	Dosavil Injection	AM-182	M/S Dosaco Laboratories	DPN/6218/DTL 23-11-18 DPN/6335/DTL 19-12-18	The firm failed to provide product specifications and method of analysis

Proceeding and decision:

Subject matter was considered by Provincial Quality Control Board (PQCB) in its 6th retesting meeting held on 20-02-2019. Secretary PQCB appraised the committee about background of the subject matter which was discussed at length. The committee observed that all the manufacturers/drug registration certificate holders are legally bound to provide product specification and method of analysis to the Government analyst/Drug Testing Laboratories as and when required. The need for product specifications /method of analysis becomes more critical when the drug is not available in official pharmacopoeias and/or the manufacturer has its own customized specifications/method for analysis. In such circumstances it becomes quite challenging and almost impossible for a Government Analyst to conduct testing of the drug sample without having manufacturer specification / method of test / analysis.

The Committee expressed its serious concerns over casual behavior and non-cooperation on the part

of the above listed firms in this regard. The Committee after detailed discussion and deliberation decided to recommend the Drug Regulatory Authority of Pakistan (DRAP) Islamabad for cancellation of registration of the drug listed above, in best public interest.

Proceeding and Decision of 290th meeting of Registration Board.

The case was presented before the Registration Board in its 290th meeting held on 04th July, 2019 and the Board after detailed discussion decided as under:

"To issue the show cause notice and personal hearing to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Lahore for failing to fulfill the condition for registration by not providing product specifications / testing method."

Show cause notice was served to the firm vide letter No.03-37/2019 (290th RB) dated 26-09-2019 as per decision of the Registration Board.

In response to the above said show cause notice, M/s Dosaco Laboratories , Lahore submitted their reply vide reference No.DS.INJ/10-19 dated 02-10-2019 addressed to Assistant Director (QC-II) regarding the subject cited above wherein they have humbly stated that they have already been submitted product specification and method of analysis of their registered product Dosavil injection to the Director Drugs Testing laboratory, Lahore through TCS on 15-01-2019 vide letter No.DSL/1-19 dated 15-01-2019.

They further stated that all the relevant documents are attached herewith for information and record, please.

Proceedings and Decision of 293rd Meeting of Registration Board.

As no one appeared on behalf of the firm before Registration Board and the Board accordingly decided to give second / last opportunity of personal hearing to the firm/accused in the next meeting.

The above said decision was communicated to the firm vide letter No.F.03-65/2019-QC (293rd RB) dated 21st April, 2020.

Proceeding & Decision of the 296th meeting of Registration Board.

Mr. M. Aslam Javed (0345-4233784), Advocate appeared before the Board on behalf of M/s Dosaco laboratories to plead the instant case. He submitted that while the letters were issued to them by the PQCB, Punjab their unit was closed. There were also some GMP observations and sudden death of their owner was also a major problem. He further assured that in future they will show full co-operation.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case, statement given by the firm decided as follows;

"Suspended the Registration of Dosavil Injection, Reg. No.011233, Manufactured by M/s Dosaco Laboratories, Lahore for 03 months."

Case No. 12: CASE REFERRED BY PQCB, PUNJAB REGARDING PROVISION OF NUGATORY METHODOF INJ. COLIMOXIN TO DTL, BAHAWALPUR BY M/s SELMORE PHARMACEUTICALS.

The Secretary, Provincial Quality Control Board, Punjab vide reference No. PQCB/ISU-2-DTL-B-206/19 dated 23-05-2019 wherein he has informed that Director DTL Bahawalpur vide letter no. 485 dated: 01-03-19 stated that DTL has received the updated method of Inj. Colimoxin (100ml) manufactured by M/S Selmore Pharmaceuticals (Pvt.) Ltd. Approved by the PQCB but there is a deficiency in newly updated method as micro-assay test of Colistin Sulphate is not working. Personal hearing notice served to the firm on 25-03-2019.

The Secretary, PQCB, Punjab informed that subject issue was considered by the Provincial Quality Control Board, under section 11 of the Drugs /Act 1976 in its 203rdmeeting held on 29-03-2019. Representative of M/S Selmore Pharmaceuticals (Pvt.) Ltd appeared before the worthy Board to explain their position before the Worthy Board. He stated that their provided method is validated and give results for their sample as well standard. The matter was discussed by the Board at length. The Board after discussion decided to direct the Government Analyst, DTL Bahawalpur to test/analyze of

the drug sample with no deviation from the provided method, in the presence of Quality Control Incharge of the firm who will provide technical assistance to the Government Analyst.
The Secretary, PQCB, Punjab further informed that now, Director DTL Bahawalpur vide letter no. 871 dated: 13-05-19 stated that upon the recommendation of worthy Board the test/ analysis was performed on 04-05-19 in the presence of microbiologist from M/S Selmore Pharmaceuticals. The letter of satisfaction of microbiologist about laboratory conditions and method application in writing form was taken.
It was concluded that lower dilutions of sample and standard 1250 lU/ml exhibited no clearly defined zones of inhibition and multiple numbers of bacterial colonies were seen adjacent to wells. Higher dilutions of sample and standard 2500 lU/ml exhibited very minute zones of inhibitions having mean diameter of 10.625 mm and 11.360mm respectively while 8 mm is the size of well. It was impractical to calculate the final potency of the colistin sulphate in the Colimoxin injection 100 ml due to absence of zones of inhibition in lower dilution sample and standard dilutions. Due to provision of nugatory method to Drug Testing Laboratory Bahawalpur by M/S Selmore Pharmaceuticals, the worthy Board is suggested to review the registration of the product.
The matter is placed before the worthy Board for further discussion and necessary action.

CURRENT PROCEEDINGS & DECISIONS BY THE BOARD IN 206th MEETING HELD ON 23-05-19

Subject issue was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 206th meeting held on 23-05-19. Secretary PQCB apprised the Board about background of the subject matter which was discussed at length. Secretary PQCB further apprised the Board that Inj. Colimoxin is a combination of Amoxicillin as Trihydrate and Colistin Sulphate which is not available in any official pharmacopoeia. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specification and effective method of analysis to the Government analyst/Drug Testing Laboratories. The need for product specifications /effective method of analysis become more critical when the drug is not available in official pharmacopoeias and/or the manufacturer nas its own customized specifications/method for analysis. In such circumstances it becomes quite challenging and almost impossible for a Government Analyst to conduct testing of the drug sample on such method provided by the firm, which do not work in the Laboratory/ nugatory. The Board expressed its serious concern over casual behavior on the part of the firm in this regard.
The Board after due discussion and deliberation unanimously decided to recommend DRAP for the cancellation of registration of the above mentioned product as the manufacturer provided nugatory method to the DTL Bahawalpur.

Decision of 293rd meeting of Registration Board.

Registration Board after detailed discussion decided to issue the show cause notice and personal hearing to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Punjab for providing nugatory method of analysis of the product in question to the Drugs Testing Laboratory, Bahawalpur."

Show cause notice as per decision of the Registration Board was issued to the quarter concerned vide Letter No.F.03-65/2019-QC (293rd RB) dated 21-04-2020 but the reply of the firm is yet not received. In response to the above said show cause notice, the firm submitted their reply vide reference No. nil dated 11-05-2020 and is reproduced as under;
In response to this show cause notice, and remarks about validity of method of the product, we submit as under:

1. *Our product is fully compliant with all specifications and as per the impugned report of DTL Bahawalpur the product has been allegedly declared to be substandard on the basis of Assay hence the product colimoxin's method is called in question by the DTL Bahawalpur due to purportedly providing ineffective nugatory method to the DTL Bahawalpur, whereas the company's repute is at risk.*
2. *M/s Selmore is one of the prominent Pharmaceuticals Company in manufacturing quality and life saving drugs all over in the Pakistan and even outside of its territories. The company's first and foremost manifesto is to save life of human, species being by providing up to the mark and quality*

product in the market for which the company abide by the rules, regulations of international standard cGMP as well as stick by local laws of the land.

3. *Its been more than ten years, we are manufacturing this product and marketed hundreds of batches of Colimoxin Injection (for veterinary use only) but no complaint of any sort is reported expect DTL Bahawalpur even repeatedly, whereas the same Batch No. CM-212 was declared of standard quality by adopting the same procedure and method by the Govt. Analyst from DTL Multan, DTL Faisalabad as well as from NIH Islamabad positively (copies of reports are attach herewith). Therefore, we reiterate that the product Colimoxin Injection is of a standard quality product according specifications and provided method.*
4. *To maintain the supply and harmony between the company and institution, we gave replacement of the product Colimoxin Injection Batch No. CM-225 without considering monetary loss and just to keep the company moving ahead towards its vision but the same was rejected again being sub-standard. Later on it was declared upto the mark and standard quality product by NIH Islamabad (copy of testing report attached). So there may be possibility in adopting the method of the product Colimoxin Injection through and through by DTL Bahawalpur, as per the company's specification and method inadvertently.*

5. *We have maintained in house validation of the product Colimoxin Injection with expertise as the company has invested much to keep the lab update and carries best lab equipment's of the world and even hold R&D department with its wider, for the assurance of the product quality and stability (validation documents are also attached herewith).*

6. *After DTL Bahawalpur reports, we have manufactured a number of batches of the product Colimoxin Injection by applying the same method as per previous one and supplied in various institutions and all batches were declared of a standard quality and no one raised any objection regarding method of the product (copies of reports are attach herewith).*

7. *As for as latter of satisfaction is concerned by the company representative regarding DTL Bahawalpur we have written a detailed letter to the Secretary PQCB Punjab Lahore in which we have described the whole scenario regarding testing procedure of analyst of DTL Bahawalpur (copy is attached for your kind perusal).*

8. *Colimoxin Injection is the combination of Amoxicillin as trihydrate and Colistin Sulphate but sir for the Bio-assay Penicilinase Enzyme is used as Amoxycillin Inhibitor (P-Lactamase).*

Keeping in view, all above mentioned facts you are humbly requested to please! Consider our position that we used a validated method for the testing of Colistin sulphate in Colimoxin Injection and all Govt, reports are endorsing this point, stating the Colimoxin Injection as of standard quality. So we asserted that the Colimoxin Injection is of standard quality product which never ever cause harm to any single species so for since its registration, its may be just a little bit confusion in adopting the process which could be take off.

Therefor it is humble requested that the product Colimoxin Injection may kindly not be suspended or cancelled or any other action should not be taken in any way in the interest of justice and equity.

Having submitted the above, we wish to request for personal hearing to clear more of our position in this regard.

Proceeding & decision of 296th Meeting of Registration Board.

Mr. Muhammad Ijaz (35200-1460474-3), Quality Control Manager & Muzaffar Iqbal (0300-8425925), Manager regulatory Affairs appeared before the Board on behalf of M/s M/s Selmore Pharmaceuticals (Pvt.) Ltd., Lahore to plead the instant case. He submitted before the Board that they have manufactured batch No. 206 to 215. Batch No. 212 was declared as of standard quality by DTL, Faisalabad & Multan while DTL, Bahawalpur declared the said batch as of substandard quality. The firm challenged the report of DTL, Bahawalpur and NIH, Islamabad declared the said batch as of standard quality. the same batch along with other batches of the same product have been declared by the NIH, Islamabad as of standard quality. Once again Batch No. 225 was declared as of substandard

quality by the DTL, Bahawalpur and the firm again challenge the report of DTL, Bahawalpur. NIH, Islamabad again declared the said product as of standard quality. They submitted before the Board that after DTL Bahawalpur reports, they have manufactured a number of batches of the product Colimoxin Injection by applying the same method as per previous one and supplied in various institutions and all batches were declared of a standard quality and no one raised any objection regarding method of the product.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case, statement given by the firm decided to refer back the case to Provincial Quality Control Board, Punjab and to verify the statement of the firm.

Case No. 13: CASE REFERRED BY PQCB, PUNJAB REGARDING NON-PROVISION OF METHOD OF ANALYSIS AND STANDARD BY MS LAWARI PHARMACEUTICALS FOR POLWARI 100MG TABLET.

Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/ISU-5-DTL-M-209/19 dated 17-07-2019 has informed that Director Drug Testing Laboratory, Multan reported that they have to file the cases pertaining to testing of Tab. POLWARI 100 mg due to non provision of method of analysis and standards by the firm despite of multiple requests i.e. 5594/DTL Dated 9/4/19, 620/DTL Dated 17/4/19, 645/DTL Dated 22/4/19, 653/DTL Dated 24/4/19, 686/DTL Dated 29/4/19.

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

Subject issue was considered by the Provincial Quality Control Board, under action 11 of the Drugs Act 1976 in its **208th meeting held on 27-06-2019.** Government analyst DTL, Multan apprised the Board that the firm did not responded despite of multiple requests by the DTL Multan for provision of method of analysis and standards. The Board after detailed discussion and deliberation decided to issue show cause/personal hearing notice to M/s Lawari Pharmaceuticals to appear before the Board in next meeting of PQCB.

Personal Hearing notice dated 8th July, 2019 was served to the firm.

CURRENT PROCEEDINGS & DECISION BY THE BOARD:

Subject matter was considered by Provincial Quality Control Board (PQCB) in its 209th meeting of Provincial Quality Control Board held on 17-07-2019. No one appeared on behalf of the firm although a personal hearing notice was served to the firm. Secretary PQCB appraised the Board about background of the subject matter which was discussed at length. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specifications and method of analysis to the Government analyst/ Drug Testing Laboratories as and when required. The need for product specification/method of analysis become more critical when the drug is not available as monograph in official pharmacopeias &/or the manufacturer has its own customized specifications/method of analysis. In such circumstances it become quite challenging &/or almost impossible for a Government Analyst to conduct testing of the drug sample.

The Board expressed its serious concerns over casual behavior and non-cooperation by the above listed firms in this regard. The Board after detailed discussion and deliberation decided to allow the Provincial Drug Testing Laboratories to file the above-mentioned cases. ***Furthermore, the Board decided to recommend the Drug Regulatory Authority of Pakistan (DRAP) Islamabad for cancellation of registration of the drugs enlisted above, in best public interest.***

Decision of 293rd meeting of Registration Board.

Registration Board after detailed discussion & deliberations decided as under:

"To issue the show cause notice and personal hearing to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Punjab for not providing the method of analysis & standards despite of multiple requests by the Drugs Testing Laboratory, Multan."

Show cause notice as per decision of the Registration Board was issued to the quarter concerned vide Letter No.F.03-65/2019-QC (293rd RB) dated 21-04-2020.

In response to the above said show cause notice the firm submitted their reply vide reference No.LI/04/20 date 30-04-2020 and is reproduced as under;

"With reference to your letter No.FN003-65/2019-QC (293rd RB) Dated 21st April 2020 Letter

No.PQCB/VAC-342/19 Dated 8 July 2019 from Provincial Quality Control Board issue to our firm for personal hearing schedule to be held on 17/07/2019 at 10 AM. The personal notice has been received by our firm on 18/7/2019 by receiving late dated notice we replied to provincial quality control board through our letter no. LI/PO.CB/19- 01 dated 19/7/2019 dispatched through LCS receipt no. ST34425902.2 letter arid receiving from UMS attached for your consideration and record purpose.

As per law we haven't received manufacturer portion / any information from the concern Drugs inspector regarding our product Polwari 100mg Tabs Batch No. 265 which is clear violation of Drug Act 1976. And not any letter received from DTL Multan.

It is humble request to registration Board that to file our case.

Thanking you and assuring you best of our cooperation at all the time.

All the evidence regarding this matter is enclose for your ready reference.

Proceedings & Decision of 296th Meeting of Registration Board.

Mr. Waseem Jawaid (61101-7844999-9), Owner of M/s Lawari Pharmaceuticals appeared on behalf of the firm to plead the instant case. He reiterated the points already recorded above in their reply to show cause notice. He further submitted that the personal hearing letter from PQCB, Punjab was received to them after the date of meeting and also showed the record of post office.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case, statement given by the firm decided to refer back the case to Provincial Quality Control Board, Punjab and to verify the statement of the firm.

Case No. 14: **Manufacture & Sale of Sub-Standard Cotton Bandages B.P Type-II, Batch No. CBB-17L047 By M/S The National Absorbent Cotton Mills Co., Karachi.**

The FID-IV, DRAP, Karachi visited the premises of M/s National Absorbent Cotton Mills Co, A-37, S.I.T.E, Karachi on 26-12-2017 and took the that the sample of Cotton Bandages B.P Type-II, Batch No. CBB-17L047, manufactured by M/s The National Absorbent Cotton Mills Co., Karachi for the purpose of test/analysis on prescribed Form-3. Details are as under:

Sr. No.	Name of Drug	Reg. No.	Batch No.	Manfg. Date	Expiry Date	Purported to be manufactured by
01	Cotton Bandages B.P Type-II	066959	CBB-17L047	Nov.17	Oct.19	M/s National Absorbant Cotton Mills Co, A-37, S.I.T.E, Karachi.

A sealed sample of above drug was sent to Federal Government Analyst, Central Drugs Laboratory, Karachi for test/analysis vide memorandum No. SHM-24-25/2017- FID-(K-IV) dated 27-12-2017.

The sealed portion of the said sample was also sent to Chairman, Central Licensing Board, DRAP, Islamabad vide letter No.SHM-24-25/2017- FID-(K-IV) dated 27-12-2017.

The Federal Government Analyst, Central Drugs Laboratory, Karachi vide test report No.KQ.692/2017 dated 21st February 2018 declared the sample as of **"Substandard"** quality under the Drugs Act, 1976. Results of the CDL, Karachi test report are reproduced as under:

Description:	*Open wove bandage consist of fabric of plain weave. It is practically odorless, reasonably free from weaving defects and contains not more than traces of leaf residue seed coat and other impurities. It is in one continuous length. The edges are cut evenly parallel to the wrap threads.*	
Fibre identification test:	*Complies.*	
Threads/10cm:	*Determined.*	*Limits:*
Wrap:	*139*	*135 -163 Complies.*
Weft:	*80*	*84 – 96.* ***Does not comply.***
Weight per Unit Area:	*43gm/m^2*	*Not less than 33gm/m^2 Complies.*

The firm didn't agree with the result of CDL, Karachi and requested for retesting from Appellate laboratory, NIH, Islamabad under section 22(4) of the Drugs Act, 1976. On the request of the firm,

sample was sent for retesting from Appellate laboratory, NIH, Islamabad dated 13-11-2018 under section 22(4)&(5) of the Drugs Act, 1976. The Appellate laboratory, NIH, Islamabad vide their test report No. 029-M/2018 dated 26-12-2018 has also declared the sample as of substandard quality. Results of the Appellate laboratory, NIH, Islamabad are reproduced as under:

Description: *Cotton cloth of plain weaves, bleached not to a good white, in one continuous length containing joins and having weaving defects. The edges are not evenly cut parallel to the wrap threads and have loose threads. (Does not comply with BP 1988 which states that cotton cloth of plain weave, bleached to a good white, in one continuous length containing no joins, clean, and reasonably free from weaving defects, leaf and shells. The edges are evenly cut, parallel with wrap threads, and are reasonably free fron loose threads.)*

Identification: *Cotton Fibers identified.*

Size: *Determined: 10.02cm x 3.03m.* *Limit: 1cm x 3m.*
Complies with the size stated on the label.

Threads per stated length:

	Determined:	*Limit:*
Wrap:	*138 threads/10cm*	*Average 135-163threads/10cm.*
Weft:	*75 threads/10cm*	*Average 84-96 threads/10cm.*

Does not comply with BP 1988.

Weight per unit area: *Determined: 45.60gm/m^2* *Limit: Minimum 33.0gm/m^2*
Complies with BP 1988.

Water soluble and other soluble substances:
Determined: 1.096% *Limit: Not more than 1.5%.*
Complies with BP 1988.

Fluorescence: *Complies with BP 1988.*

In the opinion of the Undersigned the sample is of Substandard quality as defined in the Drugs Act, 1976 for the reasons given below:

Description: *Cotton cloth of plain weaves, bleached not to a good white, in one continuous length containing joins and having weaving defects. The edges are not evenly cut parallel to the wrap threads and have loose threads. (Does not comply with BP 1988 which states that cotton cloth of plain weave, bleached to a good white, in one continuous length containing no joins, clean, and reasonably free from weaving defects, leaf and shells. The edges are evenly cut, parallel with wrap threads, and are reasonably free fron loose threads.)*

Weft: *75 threads/10cm* *Average 84-96 threads/10cm.*
Does not comply with BP 1988.

The FID, DRAP, Karachi submitted that in light of the CDL, test report and appellate laboratory, NIH Islamabad test reports, M/s National absorbent cotton mills Co, A-37, S.I.T.E, Karachi is involved in manufacturing and selling of substandard drug " Cotton Bandages" B.P Type-II, Batch No.CBB-17L047, which is violation of section 23 (1) (a) (v) of the Drugs Act, 1976 and DRAP Act, 2012 and rules farmed there under and view of the said violation action may be initiated under section 42 of the Drugs Act, 1976 and rules farmed there under.

Names of responsible provided by the firm to FID-IV, DRAP, Karachi are as under and also verified by the Division of Medical Devices & Medicated Cosmetics.

Name	Designation	CNIC
Mr. Kashif Iftikhar	Chief executive Officer	42201-1503654-5
Mr. Altaf Hussain	Production Incharge	42501-8564360-3
Mr. Liaqat Ali	Quality Control Incharge	43207-3743073-5

Show cause notice was issued to the firm and above accused along with the copies of CDL, Karachi and NIH, Islamabad test reports under section 7 (11) of the Drugs Act, 1976 vide letter No.F.03-11/2018-QC dated 06-07-2020 for the following actions:

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

In reply to the above said show cause notice M/s The National Absorbent Cotton Mills Co. submitted their reply vide reference No.NACM/GM/044/20 dated 15-07-202 and is reproduced as under:

"We refer to your letter No.F.03-11/2018-QC dated 06th July 2020 received on 09-07-2020 concerning the subject matter and hereby enclosed previous correspondence and comparison report containing test results including complies and variances in the test reports with comparison of standard requirements for your perusal.

We would like to inform you that since day first our top management and technical staff was fully involved and in close coordination with local FID officials on proper resolution and settlement of the above matter and very thankful for them on providing guidance and support not only improvement of quality control & Assurance process but also in advancement of machinery etc.

During the period from the sample taken from our factory premises in December, 2017 till to date we have satisfactorily gone through GMP visit and panel visit conducted by experts from DRAP who have given "Satisfactory" rating in their report and based on that we received our medical device manufacturing license whose credit definitely marked to them. Further, we have also received satisfactory report from Central Drug Laboratory report dated 08-02-2019 against sample of cotton Bandages B.P. type II (Batch No. CBB-19A001)

Nevertheless, we are very much understand the importance of quality and very rigorously complying GMP practices in the whole process and will ensure our best without any quality compromise in future. In view of the above you are kindly requested to appreciate our efforts towards improvements in all areas and give us a favorable consideration in this matter.

Nonetheless we understand that all the efforts have been made since December, 2017 to-date towards improvements and achievements in process and product quality for your complete satisfaction. However, if you feel that these improvements needs to be presented in person then I kashif Iftekhar, CEO, would like to avail this opportunity to appear in person and request you to withdraw the show cause notice.

We assure you our best efforts and will furnish any information you may require in this matter."

Proceeding & Decision of 296th Meeting of Registration Board.

No one appeared before the Board on behalf of M/s National absorbent cotton mills Co, A-37, S.I.T.E, Karachi in the instant case and the Board decided to give second chance of personal hearing to the firm and accused.

Case No. 15:- Manufacture And Sale Of Spurious Drug (Quinozef 250mg Tablets, Batch No. AP0014) – M/S Ambro Pharma (Pvt.) Ltd., Islamabad.

That the FID-I,DRAP, Islamabad stated that he has been notified as a Federal Inspectors of Drugs for area jurisdiction of Industrial Triangle Kahuta Road Islamabad since 31st May, 2018 vide S.R.O. 686 (I)/2018.

That the Federal Government Analyst, Central Drugs Laboratory(CDL) Karachi declared the following sample as **"Spurious"** vide test analysis report No.NAS.111/2018 dated 14.11.2018. The sample was sent by Drug Inspector, Gilgit Baltistan (GB) vide memorandum No.103/DI-GLT/97/298 dated 23.10.2018 to CDL.

Name of Drug	Reg. No.	Batch No.	Date/Mfg	Date/Exp	Claimed to be Mfg By
Quinozef 250mg Tablets	046368	AP0014	08-17	08-20	M/s Ambro Pharma Pvt. Ltd., Islamabad

That Assistant Director (Quality Control) vide letter No.04-74/2018-QC dated 26th November, 2018 conveyed the undersigned about the above said report with the request to look into the matter and submit complete investigation. Undersigned along with FID-IV visited the firm on 26th November, 2018 on the direction of Additional Director, QA&LT. The panel noticed number of serious GMP violations during the inspection. The report was submitted to the Additional (Director), QA&LT vide letter No.F.3-7/2003-FID–I (ISD) dated 28th November, 2019 with the recommendation to carry out a thorough investigation for manufacturing of spurious drugs and inspection of firm by a larger panel (in order to cover all facets/aspects mentioned in the report) and to probe the matter more carefully.

That in response to the above, AD (QC) vide letter No.04-74/2018-QC dated 30th November, 2018 conveyed the approval of following panel to conduct thorough inspection of firm by the competent authority to probe the manufacturing of Spurious product Quinozef (Ciprofloxacin) 250mg Tablets Reg. No. 046368 Batch No.AP0014 and to see overall GMP compliance (Annex - E):

a) Mr.NadeemIqbal, Expert member
b) Mr. Abdul SattarSohrani, Additional Director, QA&LT
c) Mahvash Ansari, FID-IV/DD (QC), QA&LT, DRAP.
d) Area Federal Inspector of Drugs, DRAP, Islamabad.

That the inspection was conducted by the above panel on 03rd December, 2018 and again a number of violations were noticed and conveyed to Secretary, Central Licensing Board and Secretary, Registration Board via the inspection report vide letter No. F.3-7/2003-FID-I dated 24th December, 2018 (Annex - F). It is pertinent to mention here that DML of the firm was cancelled by Central Licensing Board on the basis of gross violations as reported above.

That during the inspection, undersigned took following samples on form-3 (Annex - G) for test/analysis and sent to Federal Government Analyst, CDL, Karachi vide memorandum No.F.3-7/2003-FID-I dated 07th December, 2018 (Annex - H).

Name of Drug	Reg. No.	Batch No.	Date/Mfg.	Date/Exp.	Claimed to be Mfg. by
Quinozef (Ciprofloxacin) 250mg Tablets	046368	AP0014	08/2017	08/2020	M/s Ambro Pharma Pvt. Ltd., Islamabad
Polymal-F Tablet (Iron III hydroxide polymatose complex 100 mg + Folic acid 350 mcg)	045897	AP0028	04/2018	04/2020	-do-

That Federal Government Analyst (FGA), Central Drug Laboratory, Karachi vide test reports No.R.IP.309/2018 dated 11th January, 2019 (Annex - I) declared the drug mentioned at S.No.1 in above table, as **Spurious** with the remarks that the sample is under section 3 (z-b) (i) of the Drugs Act, 1976. While the drug mentioned at S.No.2 in above table, declared as "Standard" by the FGA vide test reports No.R.IP.310/2018 dated 09th January, 2019 with the remarks that "the sample is of standard quality with regard to the tests performed". Results of the test report are reproduced as under:

Description: *Yellow colored oval shaped film coated with line of bisection on one side.*
Identification: *Ciprofloxacin Hydrochloride NOT Identified.*
Remarks: *The sample is under section 3 (z-b) (i) of the Drugs Act, 1976.*
Note:

1) *The HPLC and FTIR studies show that the sample contains Levofloxacin (237.3120 mg/tablet) instead of ciprofloxacin HCl as stated on the label.*

2) Section 3 (Definition):In this act unless there is anything repugnant in the subject or context 3 (z): "Specification" when applied to a drug:

3 (z-b): Spurious drug means a drug:

i. Which purports to be a drug but does not contain the active ingredient of that drug

The Assistant Director (Quality Control) again requested the undersigned to look into the matter and submit a complete case for further consideration by the concerned Board vide letter No.04-74/2018-QC dated 18th January, 2019. The said reports (certificate of test or analysis) were forwarded/delivered to the firm as required under section 22(3) (a) of Drugs Act, 1976 vide letter No.F.3-7/2003-FID–I (ISD) dated 12th February, 2019. The firm was asked for explaining its position in this regard.

M/s Ambro Pharmaceuticals, Islamabad through its owner Mr. Abdul Majeed Chaudhary replied vide letter No.APL/FID-003/2018-19 dated 19th February, 2019 stated that:

> "…..they are not satisfied above Analytical Report of our product as declared "Spurious". Now, we have challenged in the Appellate Laboratory i.e. National Institute of Health, Islamabad, because we tested our product in Quality Control Laboratory, as per our Q.C. Lab. report the sample is declared up to standard as a Ciprofloxacin. You are requested to kindly send samples of our product to National Institute of Health for further testing please".

In the light of the firm's above request, the Board portion was sent for appellate testing under section 22(5) of Drugs Act, 1976 to Appellate Board. The Appellate Laboratory, NIH, Islamabad also declared the said sample as **"Spurious"** vide test report No.016-M/2019 dated 19th July, 2019. Results are reproduced as under:

Description: *Yellow colored oblong shaped, biconvex, film coated tablets having bisectional line on one side whereas plain from the other side packed in blister packing further contained in an outer carton along with leaflet.*

Identification: *Ciprofloxacin not identified.*
Levofloxacin identified.

Dissolution test: *Determined:*
Ciprofloxacin not identified.
Levofloxacin identified.
Does not comply with manufacturer specifications.

Assay:	***Stated:***	***Found:***	***Limit:***	***Percentage:***
Ciprofloxacin as Hydrochloride	*250mg/tab*	*Nil*	*90-110%*	*Nil*

Does not comply with manufacturer specifications and official pharmacopoeia.

In the opinion of the undersigned the sample is of spurious as defined in the Drugs Act, 1976 for the reasons given below:

Dissolution test: *Determined:*
Ciprofloxacin not identified.
Levofloxacin identified.
Does not comply with manufacturer specifications.

Assay:	***Stated:***	***Found:***	***Limit:***	***Percentage:***
Ciprofloxacin as Hydrochloride	*250mg/tab*	*Nil*	*90-110%*	*Nil*

During investigation, original warranty and bill invoices confirming the sale/trading of drug under question to Gilgit Baltistan from stock register were traced. It has now proved that product under question was manufactured by M/s Ambro Pharmaceuticals, Islamabad and following persons are responsible for the offence:

a) M/s Ambro pharmaceuticals, Islamabad through owner Ch. Abdul Majeed.

b) Ch. Abdul Majeed, (claimed) Owner of firm.
c) Mr. Muhammad Asif Awan, Production Manager.
d) Ms. Rohi Asif, Quality Control Manager.

That in the light of substantial evidence, it is therefore, requested to grant permission for registration of FIR or direct prosecution in the competent Drug Court against the above mentioned persons responsible for violation of Schedule-II (1) (a) (i) r/w Section 23(1)(a)(i) punishable under Schedule-III(1)(a) read with Section 27(1)(a) which is cognizable offence under Schedule-IV of DRAP Act, 2012 read with Section 30 of the Drugs Act, 1976.

Proceeding and Decision of 292nd meeting of Registration Board.

The case was presented before the Registration Board in its 292nd meeting held on 01st – 02nd October, 2019 and the Board considered and evaluated the following record:

- Test report No.NAS.111/2018 dated 14th November, 2018 by CDL, Karachi.
- Inspection report vide No.F.3-7/2003-FID-I dated 28th November, 2018 by FID-I, DRAP, Islamabad.
- Test report No.R.IP.309/2018 dated 11th January, 2019 by CDL, Karachi.
- Inspection report vide No.F.3-7/2003-FID-I dated 24th December, 2018 by FID-I, DRAP, Islamabad.
- Test report No.016-M/2019 dated 19th July, 2019 by the Appellate laboratory, NIH, Islamabad.
- Complete case forwarded by FID-I, DRAP, Islamabad vide No.F.3-7/2003-FID-I dated 23rd September, 2019.

The Board after detailed discussion and deliberation decided as under:

- To serve show cause notice and personal hearing to the firm and responsible persons for manufacturing and sale of Spurious Drug Quinozef 250mg Tablets, Registration number 046368, Batch No. AP0014, manufactured by M/s Ambro pharmaceuticals, Islamabad in violation to Schedule-II (1) (a)(i) r/w Section 23(1)(a)(i) punishable under Schedule-III(1)(a) read with Section 27(1)(a) which is cognizable offence under Schedule-IV of DRAP Act, 2012 read with Section 30 of the Drugs Act, 1976.

As per decision of the Registration Board, show cause notice was served to the firm and accused vide letter No.F.03-46/2019-QC (292nd RB) dated 08-11-2019.

Reply of the firm is still awaited.

Proceedings and Decision of 293rd Meeting of Registration Board.

No one appeared on behalf of the firm before the Registration Board in its 293rd meeting held on 08-01-2020 and the Board was appraised that the personal hearing letters were received back undelivered. The Board considered and evaluated once again the following record:

- Test report No.NAS.111/2018 dated 14th November, 2018 by CDL, Karachi.
- Inspection report vide No.F.3-7/2003-FID-I dated 28th November, 2018 by FID-I, DRAP, Islamabad.
- Test report No.R.IP.309/2018 dated 11th January, 2019 by CDL, Karachi.
- Inspection report vide No.F.3-7/2003-FID-I dated 24th December, 2018 by FID-I, DRAP, Islamabad.
- Test report No.016-M/2019 dated 19th July, 2019 by the Appellate laboratory, NIH, Islamabad.
- Complete case forwarded by FID-I, DRAP, Islamabad vide No.F.3-7/2003-FID-I dated 23rd September, 2019.

The Board after detailed discussion and deliberation decided to grant permission of prosecution against the following accused persons in the court of competent jurisdiction for violating the provisions of Schedule-II(1)(a)(i) of the DRAP Act, 2012 read with Section 23(1)(a)(i) of the Drugs Act, 1976 punishable under Schedule-III(1)(a) of the DRAP Act, 2012 read with Section 27(1)(a) of the Drugs Act, 1976:

a) M/s Ambro pharmaceuticals, Plot no. 293, Industrial Triangle, Kahuta Road,Islamabad through owner Ch. Abdul Majeed.

b) Ch. Abdul Majeed, (claimed) Owner of firm (CNIC No.: 37405-9697166-9; Cell no.:0300-8555655).
c) Mr. Muhammad Asif Awan, Production Manager.
d) Ms. Rohi Asif, Quality Control Manager.

Board directed the FID to lodge complaint for prosecution against the above mentioned accused persons in the court of competent jurisdiction along with all relevant record and submit compliance report thereof.

Current Status of the Case.

It is submitted that personal hearing letters issued to the firm/accused were received back undelivered and at the same time area FID, DRAP, Islamabad could also not been able to deliver personal hearing letter to the firm. In order to avoid any legal complications and give the accused/firm another & final opportunity of personal hearing, the case is once again placed before the Registration Board for further necessary directions.

Proceedings and Decision of Board in its 295th Meeting

Registration Board considered the facts/available record of the case, and after thorough deliberation decided as under:

- Copies of the CNIC's of the accused shall be obtained from the Drugs Licensing Division as per their available record.
- Personal hearing letters shall be issued again to the accused upon addresses on their CINC's.

The above said decision was communicated to the Additional Director Drugs Licensing Division vide letter No.F.03-28/2020-QC (295th RB) dated 19-08-2020 with request to provide the requisite information for further processing of the case. A copy of letter was also communicated to the concerned FID with request to provide requisite information.

FID-I, DRAP, Islamabad has provided copies of the CNIC's of the accused and personal hearing letters have been issued upon addresses of on their CNIC's as per decision of the Registration Board.

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. M. Asif Awan (54400-59787393), Production Manager and Ms. Rohi Asif, Quality Control Manager of M/s Ambro pharmaceuticals, Plot no. 293, Industrial Triangle, Kahuta Road, Islamabad appeared on behalf M/s Ambro Pharma to plead the instant case. The Board was appraised that personal hearing letter was issued to the owner of the firm on the CNIC address of the owner, as provided by the area FID, DRAP, Islamabad.

They submitted before the Board that the case of spurious drug was unintentional mistake. The sample was also taken in Gilgit & declared as of spurious. NIH, Islamabad also declared the said product as spurious. They also informed the Board that Quality Control Board, Gilgit Baltistan showed displeasure against the careless attitude of the firm and instructed the firm to be vigilant in future, as spurious products are a great threat for general public.

Decision of 296th Meeting of Registration Board.

The Board after detailed discussion and deliberation decided to grant permission of prosecution against the following accused persons in the court of competent jurisdiction for violating the provisions of Schedule-II(1)(a)(i) of the DRAP Act, 2012 read with Section 23(1)(a)(i) of the Drugs Act, 1976 punishable under Schedule-III(1)(a) of the DRAP Act, 2012 read with Section 27(1)(a) of the Drugs Act, 1976:

a) M/s Ambro pharmaceuticals, Plot no. 293, Industrial Triangle, Kahuta Road, Islamabad through owner Ch. Abdul Majeed.
b) Ch. Abdul Majeed, (claimed) Owner of firm (CNIC No. 37405-9697166-9, Cell No. 0300-8555655).
c) Mr. Muhammad Asif Awan (CNIC No. 54400-5978734-3), Production Manager.
d) Ms. Rohi Asif (54401-9646301-2), Quality Control Manager.

The Board directed the FID to lodge complaint for prosecution against the above mentioned accused persons in the court of competent jurisdiction along with all relevant record and submit compliance report thereof.

Case No.16: CASE REFERRED BY PQCB, PUNJAB REGARDING NON-PROVISION OF METHOD OF ANALYSIS BY M/S CREST PHARMACEUTICALS (PVT.) LTD.

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/FC-01/215/19 dated 14-12-2019, received on 11-02-2020, has informed that Government Analyst Drug Testing Laboratory, Faisalabad reported that they have to file the cases pertaining to testing of the various drug samples due to non-cooperation of manufacturer. This firm failed to provide methods and standards for test/analysis due to which it was not possible to conduct test/analysis of the samples and to report the same in best public interest.

PREVIOUS PROCCEDINGS & DECISION BY THE BOARD:

213 Meeting held on 15-11-2019

Subject matter was placed before the Provincial Quality Control Board, under section 11 of the Drugs Act in its **213th meeting held on 15-11-2019. The** Board after due deliberation and discussion decided to give an Opportunity of personal hearing to the above-mentioned firms before recommendation to the DRAP for cancellation t of their products registration.

Personal hearing notice served to the firm.

CURRENT PROCCEDINGS & DECISION BY THE BOARD:

Subject matter was placed before the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its **meeting held on 14-12-2019.** Secretary PQCB apprised the Board about background of the subject matter which was discussed at length. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specification and method of analysis to the Government Analyst/Drug Testing Laboratories and Drug Regulatory Authority of Pakistan vide letter no. F. No.03-37/2019-QC(290th RB) dated 26-09-2019 has issued guide under Testing Specifications. The need for product specifications /method of analysis become more critical when the drug is not available in official pharmacopoeias and/or the manufacturer has its own customized specifications/method of analysis. In such circumstances it becomes quite challenging and almost impossible for a Government Analyst to conduct testing of the drug sample without having manufacturer specification / method of test / analysis.

The Board expressed its serious concerns over casual behavior and non-cooperation on the part ofabove listed firms in this regard. The Board after detailed discussion and deliberation decided to

allow the Provincial Testing Laboratory, Faisalabad to file only those cases where Manufacturer Specifications are not provided by respective firm and also not available in official compendia. Furthermore, the Board decided to recommend the Regulatory Authority of Pakistan (DRAP) Islamabad for cancellation of registration of the drug listed above, in best public interest.

Proceedings and Decision of Board in its 295th Meeting.

Registration Board after detailed discussion & deliberations decided as under:

"To issue the show cause notice and personal hearing for suspension / cancellation of registration to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Punjab for not providing method and standards for test/analysis despite of multiple requests by the Drugs Testing Laboratory Faisalabad."

The above said decision of the Registration Board was communicated vide letter No.03-28/2020-QC (295th RB) dated 19-08-2020.

M/s Crest Pharmaceuticals vide reference No. nil dated 25-08-2020 submitted their reply and is reproduced as under;

Brief Facts.

- *We always used to provide the information, data and reference standard to the DTL's whenever they ask.*
- *In this particular case, DTL asked to provide us the reference standard, method of analysis, validation data with all supporting documents vide letter No. 10072/DTL/FSD dated 27-08-2019 received on 03-09-2019 and 11-09-2019.*
- *We asked our Indian supplier to send us reference standard.*
- *The trade with India was barred in those days due to Indian action on Kashmir (05-08-2019).*
- *No courier service was booking parcels for Pakistan from India in those days and we were discussing alternative ways for the supply of standard with our supplier.*
- *Meanwhile we received another letter from DTL Faisalabad, referring our case to Chief Drug Inspector Punjab on 19-09-2019.*
- *We feel regretted not to arrange reference standard and reply them within two weeks time provide us by DTL Faisalabad.*

Defense

- *The Registration Board issued guidelines under testing Specifications vide letter No.F03-37/2019-QC (290th RB) dated 26-09-2019 and our case is before the issuance of this letter (27-08-2019), hence does not fall under the violation of this letter.*
- *There is no power of Government Analyst mentioned in the Drugs Act, 1976 to write letters to the companies and time frame to reply.*
- *We could not reply to the DTL due to ban on trade with India in those days.*

Keeping in view the facts of the case and ground reality, the Board is requested to graciously with draw this show cause and stop the proceedings against us to meet the end of justice.

Proceeding & Decision of 296th Meeting of Registration Board.

NO one appeared before the Board and Board decided to give another opportunity of personal hearing to the firm.

Case No. 17: **CASE REFERRED BY PQCB, PUNJAB REGARDING DIFFERENT MANUFACTURERS FOR NOT PROVIDING THE METHOD OF ANALYSIS.**

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/F-Isu-11/212/19 dated 30-10-2019 has informed that the following manufacturers have not provided the method of analysis for testing of their products by the Drugs Testing Laboratories;

Sr#	DTL	Name of Drug	Batch No.	Manufactured By	Letters sent
01.	Multan	Inj. Murcobal 500mcg/ml	84	M/S Murfy Pharmaceuticals	Three letters were sent dated: 27-07-19, 21-08-19 and 28-08-19

Sr#	DTL	Name of Drug	Batch No.	Manufactured By	Letters sent
02.	Lahore	Irosim Syrup 120ml	S1-017	M/S Simz Pharmaceuticals (Pvt.) Ltd	Two letters were sent dated: 29-06-19 and 13-07-19

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

Subject matter was considered by the provincial quality control board under section 11 of the Drugs Act, 1976 in its 211th meeting held on 30-09-2019. The board decided to left over the matter due to time constraints.

CURRENT PROCEEDINGS & DECISION BY THE BOARD:

Subject matter was placed before the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 212th meeting held on 30-10-2019. Secretary PQCB appraised the Board about background of the subject matter which was discussed at length. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specifications and method of analysis to the Government analyst/ Drug Testing Laboratories as and when required. The need for product specification/method of analysis become more critical when the drug is not available as monograph in official pharmacopeias'&/or the manufacturer has its own customized specifications/method of analysis. In such circumstances it become quite challenging &/or almost impossible for a Government Analyst to conduct testing of the drug sample.

The Board expressed its serious concerns over casual behaviour and-non-cooperation by the above listed firms in this regard. The Board after detailed discussion and deliberation decided to allow the Provincial Drug Testing Laboratories to file the above-mentioned cases. Furthermore, the Board decided to recommend the Drug Regulatory Authority of Pakistan (DRAP) Islamabad for cancellation of registration of the drugs enlisted above, in best public interest.

Proceedings and Decision of Board in its 295th Meeting.

Registration Board after detailed discussion & deliberations decided as under:

"To issue the show cause notice and personal hearing for suspension / cancellation of registration to the firm/ responsible persons as provided by the Provincial Quality Control Board (PQCB), Punjab for not providing the method of analysis & standards despite of multiple requests by the Drugs Testing Laboratories i.e. Multan & Lahore."

In compliance to the above said decision of the Registration Board, show cause notices were issued vide No.F.03-28/2020-QC (295th RB) dated 19-08-2020 to the concerned manufacturers.

M/s Murfy Pharmaceuticals (Pvt.) Ltd., submitted their reply vide reference No.MP/DRAP dated 25-08-2020 and is reproduced as under;

"Respectfully stated that method of analysis/product specifications (In House) regarding our product Inj. Murcobal 500mcg/ml had already been submitted to DTL, Multan and they have been testing this product according to the manufacturer specifications.

As a proof attested copy of TRA No/9745/DTL dated 05-11-2009 from DTL, Multan is enclosed herewith.

We never received letter No: 27-07-2019, No: 21-08-2019 and 28-08-2019 from DTL, Multan.

If we had received any letter from DTL, Multan we would have sent them the method of analysis again.

Moreover, we have again submitted the method of analysis/product specifications (In House) to DTL, Multan vide our letter No.MP/DTL dated 22-08-2020.

Besides DTL Multan we enclose herewith the following test reports from different Drug Testing Laboratories to whom we had already supplied the in house specifications/method of analysis of Inj. Murcobal 500mcg/ml.

S. No.	*Test repot No/date*	*Drug Testing Laboratory*	*Specifications*
1	*TRA-9745/DTL Dated: 05-11-2009*	*DTL Multan*	*Manufacturer's Specifications*
2	*TRA-1163/DTL Dated: 15-01-2009*	*DTL Lahore*	*Manufacturer's Specifications*

3	*TRA-7385/DTL Dated: 15-04-2010*	*DTL Lahore*	*Manufacturer's Specifications*
4	*TRA-190/DTL Dated: 01-01-2011*	*DTL Lahore*	*Manufacturer's Specifications*
5	*TRA-27465/DTL Dated: 31-12-2013*	*DTL Lahore*	*Manufacturer's Specifications*
6	*TRA-6926/DTL Dated: 27-12-2016*	*DTL Bahawalpur*	*In House method*

The above referred test report of Inj. Murcobal 500mcg/ml especially the test report of the DTL, Multan proves that we have already provided, the manufacturer's method of analysis/specifications, to DTL Multan in respect of Inj. Murcobal 500mcg/ml.

It is humbly requested that we have not violated any condition of the product registration therefore taking a lenient view the matter may kindly be filed.

We may kindly be given an opportunity to be heard in person."

Proceeding & Decision of 296th Meeting of Registration Board.

Mr. Mian Shafiq-Ur-Rehman (35202-2382981-7), CEO of M/s Murfy Pharmaceutical appeared before the Board to plead the instant case for their product. He reiterated the points already mentioned in their reply to the show cause notice.

Decision of 296th Meeting of Registration Board.

Registration Board after detailed discussion and deliberations considering the facts of the case, statement given by the firm decided to refer back the case to Provincial Quality Control Board, Punjab and to verify the statement of the firm.

Case No. 18: Investigation Of Sub-Standard Megafen 90ml Suspension (Ibuprofen 100mg/5ml) Batch No. 1-526 M/S Albro Pharmaceuticals (Pvt.) Ltd., Lahore Inspection Thereof.

The Additional Director, DRAP, Lahore vide reference No12865/2019-DRAP (L-VII) dated 07-10-19 addressed to the Director QA&LT, DRAP, Islamabad regarding the subject cited above has enclosed the inspection report of M/s Albro Pharmaceuticals, Lahore. The inspection was conducted by panel of inspectors on 30-09-2019 as per verbal directions of Additional Director QA&LT regarding megafen 90 ml Suspension (Ibuprofen 100mg/5ml) Batch No. 1-526, Manufactured by M/s Albro Pharmaceuticals (Pvt.) Ltd., Lahore which was declared substandard by DTL, Rawalpindi, Government of Punjab.

The panel in its report has mentioned that the Quality Analyst Ms. Yasmeen Bano (Pharm-D) performed test in the presence of panel. The working standard used was obtained from M/s Zenith which was tested against USP Standard as per claim of the firm.

The panel has stated in their report that various ambiguities were found in the manufacturing /QC SOPs and actual performance method. Furthermore, following observations are reported;

i. *The Director of the firm informed that the Ibuprofen raw material was purchased from local market and COA provided was of M/s Mahima Life Sciences, India. The quality control raw material analysis record showed that assay of the material was 100%. Other inactive raw materials were also purchased from local market. No Vender qualification or I&E Rules were being followed.*
ii. *In the standard manufacturing SOP of the Megafen Suspension under heading product description " amber color pet bottle of 90ml" was mentioned whereas in actual the firm was using amber colored glass bottles.*
iii. *The mixing time and RMP required for mixing of CMC (suspending agent) and other raw materials were not mentioned, in the manufacturing SOP.*
iv. *The production Incharge informed that the 1000 liter batch size of the product was being manufactured in two parts of 500 liter each, which was not described in SOPs.*
v. *The quality control analysis for assay was performed as per in house testing method, while the said method was available in B.P/USP.*

vi. *For assay single beam spectrophotometer was used double beam was out of order. The HPLC was not used as recommended in BP/USP.*

vii. *In the quality control testing SOP the limit for the assay of bulk specification of suspension was 95%-105% while that of finished product was 90%-110% of the stated amount. The firm was asked to explain the reason of this difference.*

viii. *In the testing SOP under specification heading it was mentioned that "the product complies with USP Specification", where as USP specifications were not being followed and on the label claim "manufacturer specification" was written.*

ix. *As per analysis conducted in the presence of panel on 30-09-2019 the assay of the product was 106%. The firm already conducted assay on 19-08-2019 after receiving the Drug Testing Laboratory report and it was 95.089%. On that basis the firm applied for Appellate Testing. However, at the time of product release, the quality control assay was 102.3%. The specification limit mentioned in the firm's quality control report was 95-105% of the label claim. Almost 11% variation in current testing assay results conducted on 30-09-2019 and 19-08-2019 was noticed.*

x. *No stability testing was performed on this product. The firm was advised to conduct accelerated stability study for the said batch of the product.*

The conclusion given by panel is reproduced below;

> ***"In this preliminary investigation report the panel is of the view that mixing/soaking of the suspension was not proper. No proper time of mixing and RPM were provided. The firm also deviated from SOPs and the mixing of one batch was done in two parts. The quality control testing procedures also required improvements as the variation in assay results were seen. Moreover quality control testing, SOPs were not as per pharmacopeial method, it was also mentioned in last GMP report. The material management of the firm required improvement with respect to vender qualification and I & E Rules 1976."***

Decision of 293rd meeting of Registration Board.

The case was presented before the Registration Board in its 293rd meeting held on 08th January, 2019. The Board was apprised that the firm has provided a copy of test analysis report in which the product Megafen 90ml Suspension (Ibuprofen 100mg/5ml) Batch No. 1-526 M/S Albro Pharmaceuticals (Pvt.) Ltd., Lahore has been declared of Standard quality by the Appellate Laboratory NIH Islamabad and the Board after detailed discussion and deliberation considered the GMP report forwarded by the Additional Director DRAP, Lahore decided as under:

"That QA&LT Division shall process the GMP report forwarded by the Additional Director DRAP, Lahore by its own, as per their prescribed procedure and present it to the Central Licensing Board which is competent forum for this."

The above said decision was communicated to the quarter concerned with request to comply with the decision of the Registration Board.

In the light of the decision of Registration Board, the Quality Assurance Division presents the case before the Central Licensing Board in its 275th meeting.

The Central Licensing Board in its 275th meeting Decided as under;

"After thorough discussion/deliberations, the Central Licensing Board decided to refer back the case to Registration Board for taking decision on the matter. The Board was of the opinion that as the observation noted by the panel of experts are related to specific product i.e Megafen Suspension and these observations are not related to overall GMP compliance. Therefore, relevant Board decided the case in the light of report at their end."

<u>Proceeding & Decision of 296th Meeting of Registration Board.</u>

Registration Board after detailed discussion and deliberations considering the facts of the case, decided to issue show cause notice for cancellation/suspension of registration of the product in question to the firm."

Case No. 19: **CASE REFERRED BY PQCB, PUNJAB REGARDING CAPSULE CAPSOL ZOL 40, BATCH NO. 0198, MANUFACTURED BY M/S FESTAL LABORATORIES, JINNAH INDUSTRIAL ESTATE, LINK KATTARBAND RAOD, LAHORE.**

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-52/2018 dated 30-10-2019 has informed that Provincial Inspector of Drugs Jampur/Rojhan reported that:

i. He, on 11-01-2018, inspected the business premises of M/s Tahir Medical Store Main Medicine Store, Opposite THQ Hospital Rojhan and took two different drug samples on Form No 4 for the purpose of test/analysis.

ii. One out of these drug samples, after test/ analysis was declared as **Substandard** by Government Analyst Drug Testing Laboratory Multan, as detailed below:

Name of drug	Batch No.	Name of manufacturer	DTL Report TRA No. & Date	DTL Test Report Results
Capsule Capsol Zol 40 Esomeprazole 40mg	0198	M/s Festal Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore.	TRA No.01-57000126/DTL dated: 31-03-2018	**Analysis with specifications applied:** USP 2017 **Identification:** Esomeprazole identified. **Assay:** Esomeprazole: Stated 40mg/Cap Determined **48.82mg/ Cap** Percentage **122.04%** Limit 90-110% **Does not comply with the specifications.** **Result:** The sample is Substandard, on the basis of tests performed.

iii. M/S Tahir Medical Store Opposite THQ Hospital Rojhan provided Invoice/ warranty No.7103196 dated 01-01-2018 issued by M/S ALM Pharma Mahmood Abad Colony Street # 5 Khanewal Road, Multan who in turn provided invoice/warranty No. 3486 dated 29-04-2017 issued by M/S Festel Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore as a proof of their purchase of the said drug.

iv. A copy of Test report and Warrantor portion of drug sample was sent to M/S Festel Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore and they were asked to explain their position and provide requisite information in this regard.

v. Drug Inspector requested for grant of permission for prosecution against above mentioned accused person who have contravened the provisions of Section 23/27 of the Drugs Act 1976 and Rules framed there under by the way of: -

a. **Manufacturing for sale/Sale of sale of Substandard drug**

b. **issuance of false warranty**

Show cause/personal hearing notice(s) issued to accused person(s)

Reply of the Firm:

M/s Festel laboratory stated that we have checked our retained sample but we find the results within the limits i.e 107% further more your DTL declare the weight variation is within the limits. How it is possible that the assay exceeds the limits other this fact we done our production on automatic machines if we fill this shell 3 manually by force the maximum assay goes up to 108% we cannot fill the pellets more than 108% then how it is possible that assay exceed 110%.

Furthermore, our product is according to company's specification and DTL have checked the product according to USP Specifications.

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its **196th meeting held on 13-11-2018.** Drug Inspector briefed the Board about facts of the case and requested for the permission for prosecution against the accused persons.

Representative of the firm appeared before the board and stated that according to Report of Govt. Analyst DTL Multan the subject drug sample was tested according to U.S.P Specifications however our product is registered as Festel Specifications. We have checked our retained sample and found the results within stated limits i.e 107%. Moreover, Weight variation of subject drug sample was found within limits according to the DTL Report so the assay of the active drug cannot exceed the limits as manufacturing plant is fully automated. We cannot fill the pellets of drug more than 108% then it is impossible for the assay of the product to exceed 110%.

The Board unanimously decided to constitute an inspection committee comprising of the followings to conduct **Product Specific Inspection (PSI)** of **M/S Festel Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore,** and submit report for consideration by the Board:

Prof. Dr. Mahmood Ahmed Member
Member PQCB
Mr. Munawar Hayat Member
CDC Punjab
Area **Drug Inspector Industries** Facilitator

PRODUCT SPECIFIC INSPECTION (PSI) REPORTOF M/S FESTEL LABORATORIES

Date of Inspection: 25-07-2019

Premises:

Unit started in 2006. Total area (06 Canals), covered area 75% of total). The firm has nine production Sections

1. General Tablet Section.
2. General Capsule Section.
3. General Liquid Section.
4. Psychotropic Section.
5. Eye Drop Section.
6. External Preparation Section.
7. Pyodine Section.
8. Dry powder Suspension (Cephalosporin Section).
9. Dry powder capsule (Cephalosporin Section),

Drug:

Capsol-Zol (Esomeprazole 40mg capsule). Batch No. 0I98
Date of Mfg. 03/2017
Exp. Date 02/2019.

Staff:

Designation	Name
Managing Director	Amir Jahangir
Production Manager	Maqsood Ul Haq
QC Manager	Mubashir Bashir
Warrantor	Akbar Ali

Observations:

DTL Lahore declared substandard on above than the upper limit of assay basis.

1. Product Specification of Capsol- Zol is Manufacturer Specification but it has been present in U.S.P from 2016 but manufacturer still applying its own Specifications.
2. Identification by UV spectrophotometer by the firm for assay.
3. Assay in final release report is 101%
4. One HPLC and one UV Spectrophotometer are available. FTIR not available.
5. IPQC: Weight variation, physical and average weight was performed.
6. Raw material testing performed.

7. Material Test. Vendor source. Vision Pharma, Pakistan
8. Packing Material: Physical testing.
9. Shell testing not performed but started performing from May, 2019.
10. Shift time: 9AM to 5PM.
11. Calibration of UV Spectrophotometer is performed but Internal Calibration not performed on weekly basis.
12. Calibration of Balance performed but calibration certificate docs. not have Confidence limit. Daily calibration record is available from 1st July 2019 to onwards. Calibration of the balance at three different weights showing no deviation even at the fourth decimal point which is astonishing as balance is not in separate cabinet.
13. The weight of the pellets of one capsule was measured during inspection which was I 87mg.
14. The firm not justifies the implementation of the factor in assay of the product.

Batch Processing Record of specific product:

1. BMR Record: available.
2. QC retain sample: available (Wrong Brand Name).
3. Testing method: manufacturer own (U V) method, pharmacopoeial (HPLC) method is not performing.
4. API issued was 25 Kg per batch for 12624 Packs.
5. Batch manufacturing started on 27/03/2017 and completed on 31/03/2017.
6. Batch size: 12624 Packs (finally released 12450 Packs.
7. Production yield: 98.60%.
8. In process QC: Available.
9. Reconciliation sheet: available.
10. Testing of finish product is as per MS.

Conclusion:

The panel is of the opinion that the firm is at fault on the below mentioned POINTS.

1) The firm has produced Certificate of analysis of Esomeprazole raw material which bears expiry date September 2016 whereas; formulation is manufactured on July 2017.
2) The firm has released Esomeprazole in the Quality Control Raw material register without mentioning Batch No., Expiry Date. Manufacturing date and potency of API.
3) In BMR of the said product, it is not confirmed what is the Batch No. of the Raw Material used in manufacturing of the product of that batch.
4) The analysis method of the product was available in USP 2016 on HPLC whereas, the firm is performing the analysis of bulk as well as finished good on manufacturer specification on UV Spectrophotometer.
5) In the filling sheet of the batch manufacturing record shows the wrong data with respect of the time on dated 28-03-17.
6) In Batch manufacturing record blistering date is 29-03-17 whereas the packing date and transfer to finished goods store date is 01-03-17.
7) The firm is printing the name of the product on the label in wrong manner as per registration certificate of the product.
8) FTIR is not available, the release of inactive materials were also in question.
9) The firm was not performing any test on the shell of capsule which is pharmacopeial requirement.
10) The calculation of the assay by the firm with factor is doubtful and not having any official reference.
11) The production and QC Manager of the firm are symbolic, not having any practical experience which is very alarming situation.

The panel is of the opinion that the firm fails to justify the matter, therefore, it is recommended to forward the case to the trial court as well as to DRAP for necessary action in the matter.

CURRENT PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976

in its 212th meeting held on 30-10-2019. Mr. Sadiq Hussain Secretary DQCB Rajanpur, was present along with original case file. Dr. Muhammad Munawar Hayat (Member of PSI Committee/ Member of PQCB) briefed the Board about facts of the Product Specific Inspection along with finding and conclusion by the PSI committee. He apprided the Board that the inspection panel is of the opinion that the firm is violating the necessary provision of GMP as required by the Schedule II-B of the Drugs (L.R&A) Rules 1976. The firm used the expired Active Pharmaceutical Ingredients (API) for the manufacture of drug product in question. Moreover, the FTIR was not available with the firm which is essentially required for the identification of the APIs etc. These are the sheer violations of the requirements of the GMP and equivalent to putting the public at the risk of severe/serious adverse event/ mortality/ morbidity.

Secretary PQCB apprised the Board that a letter from the firm M/S Festel Laboratories, Lahore has been received in which they requested to adjourn the case for the next date of hearing as according to them personal hearing notice for the meeting was received on 22-10-2019 and there was insufficient time for them to prepare a suitable defense for the case.

After careful perusal of the above mentioned Inspection report the Board showed serious concerns on GMP violations by the firm. The Board was of the opinion that compliance with Good Manufacturing Practices by the pharmaceutical manufacturers is the best way to ensure quality of medicines being manufactured by them. Such violations/ nonconformance's of GMP guidelines may results in production of compromised quality drugs. The Board after thorough scrutiny of the Product Specific Inspection report observed that that the firm was performing the assay of the finished product on UV-Spectrophotometer. However, the firm was required to adopt the test/analysis method as prescribed in the individual monograph of United States Pharmacopoeia (USP). Whereas the Government Analyst has performed the test/analysis of the product in accordance to the USP specifications through HPLC method. As per the directions of Ministry of Health, Government of Pakistan vide letter No F.3-2/2006-Reg-II-South (M-197) dated 05-06-2006, when a product is contained in any official Pharmacopoeia, then it is mandatory to follow the specifications of that Pharmacopoeia. In present case firm has also violated these direction of Ministry of Health. Moreover, the letter of Personal Hearing was received by the firm eight days before the meeting, so there was sufficient time for them to prepare the defense of the case. Keeping in view the foregoing facts and wilful absence of accused(s), the Board unanimously decided to grant permission for prosecution against the following accused persons in the Drug Court:

1.	M/s Festel Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore through its Chief Executive Officer Usman Ghani.	
2.	Usman Ghani	Chief Executive Officer.
3.	Mubarik Ali	Proprietor.
4.	Manzoor Ahmad	Quality Control Manger.
5.	Akbar Ali	Warrantor.
6.	Muhammad Maqsood Ul Haq	Production Incharge.

Of M/s Festel Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore , for the offences of:

a. **Manufacturing for sale/Sale of sale of Substandard drug**
b. **Issuance of false warranty**

The Board further decided to suspend the Drug manufacturing License (DML) of the firm for 15 days w.e.f. the date of receipt of this order, with recommendation to DRAP for de-registration of the Product. Moreover, the Board further decided to direct the Area Drug Inspector industries to re-inspect the factory premises after 15 days to evaluate CAPA and remedial measures taken by the firm and submit report to PQCB for further necessary action.

The Provincial Quality Control Board further recommended the Registration Board to deregister the product capsule capsol zol 40 (Esomeprazole 40mg) of M/s Festel Laboratories, Jinnah Industrial Estate, Link Kattarband Road, Lahore.

Decision of 293rd meeting of Registration Board.

Registration Board deliberated that PQCB has already prosecuted responsible persons in Drug Court and also recommending DRAP for cancellation of registration. The Board

decided to seek opinion of Legal Affair Division regarding issuance of show cause notice or otherwise.

Current Status of the Case.

In order to comply the above said decision of the Registration Board, The case file was forwarded to the Legal Affair Division for seeking opinion regarding the issuance of show cause notice or otherwise and the reply of the Legal Affair Division is reproduced as under;

"*That the PQCB granted permission for prosecution against the accused persons mentioned in para 8/N and also recommended to DRAP for cancellation of registration of subject product. The Registration Board deferred the matter for opinion of this Division for issuance of show cause notice or otherwise. In view of the above facts, the Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.*"

Proceeding and Decision of 295th Meeting of Registration Board.

Registration Board considered the facts of the case and views comments of the Legal Affairs Division, DRAP, Islamabad that the Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board after thorough deliberations decided to defer the case for further deliberations in the upcoming meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

"13. *No person-*

(a) Shall be prosecuted or punished for the same offence more than once; or

(b) shall, when accused of an offence, be compelled to be a witness against himself."

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 20: CASE REFERRED BY PQCB, PUNJAB REGARDING SUBSTANDARD MEDIDOL TABLET, MANUFACTURED BY M/S MIDICON PHARMA (PVT.) LTD., PESHAWAR.

Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-278/2018 dated 13-06-2019 wherein he has informed that Provincial Inspector of Drugs Tehsil & district Attock reported that:

i. He, on 16-07-2018, inspected the business premises of Ms/ Hafiz Brothers Medicose Sameer Plaza Attock and took three different types of Drugs on Form-4 for the purpose of test and analysis.

ii. One out of three drug samples , after test/analysis was declared substandard by Government Analyst Drug Testing Laboratory, Rawalpindi as detailed below;

<table>
<tr><th>Name of the Drug</th><th>Batch No.</th><th>Name of Manufacturer</th><th>DTL Report TRA No. & Date</th><th>DTL Report results</th></tr>
<tr><td>Tablet Medidol 500mg [Paracetamol: 500mg, Caffeine:65mg, Chlorpheniramine Maleate:2 mg]</td><td>546</td><td>M/s Medicon Pharmaceuticals (Pvt.) Ltd., B1/11 Industrial Estate Hayatabad, Peshawar.</td><td>TRA No.01-13001358/ DTL Dated: 29-10-2018</td><td>Analysis with specifications:
Manufacturer’s specification
Description:
White colored, oblong shaped, biconvex, uncoated tablets engraved word “Medicon” on one side and plain from other side, packed in PVC-ALU blister of 10 tablets.
Identification: Paracetamol, Caffeine and Chlorpheniramine Maleate identified.
Assay:
<table>
<tr><th></th><th>Stated (mg/Tab)</th><th>Determined (mg/Tab)</th><th>%age</th></tr>
<tr><td>Paracetamol</td><td>500</td><td>494.23</td><td>98.85</td></tr>

The percent release of Chlorpheniramine Maleate is not consistent according to manufacturer’s method.</td></tr>
</table>

				Result: The sample is **substandard** on the basis of dissolution test performed.

iii. M/s Hafiz Brothers Medicose Sameer Plaza Attock provided invoice/warranty No.2037 dated 14-03-2018 issued by M/s Medicon Pharmaceuticals (Pvt.) Ltd., B1/11 Industrial Estate Hayatabad, Peshawar as proof of its purchase.

iv. Warrantor portion of the sample was sent to M/s Medicon Pharmaceuticals (Pvt.) Ltd., B1/11 Industrial Estate Hayatabad, Peshawar.

v. A copy of test report was sent to M/s Medicon Pharmaceuticals (Pvt.) Ltd., B1/11 Industrial Estate Hayatabad, Peshawar with direction to explain their position and provide requisite information in this regard.

Drug inspector requested for grant of permission of prosecution against the nominated accused persons who have contravened the provisions of section 23/27 of the Drugs Act, 1976/DRAP Act, 2012 and Rules framed there under by the way of:-

a) Manufacturing for sale/Sale of substandard drug.
b) Issuance of false warranty.

Show cause/personal hearing notice(s) issued to accused person(s).

Previous proceeding by the Board:

PQCB 205th meeting dated 30-04-2018.

Case was considered by Provincial Quality Control Board under section 11 of the Drugs Act, 1976 in its 205th meeting dated 30-04-2019. Mr Aadil mehmood Secretary DQCB District Attock and Mr. Adnan Aslam Drug Inspector Tehsil Pindi Gheb District Attock was present on behalf of Drug inspector Tehsil Pindi Gheb District Attock with original case record. No one appeared on behalf of M/s Medicon Pharmaceuticals (Pvt.) Ltd., B1/11 Industrial Estate Hayatabad, Peshawar. Secretary PQCB appraised the board that written request from Medicon Pharmaceuticals (Pvt.) Ltd., B1/11 Industrial Estate Hayatabad, Peshawar has been received stating that owing to the heart problem faced by the Chief Executive of the firm, they requested the Board to adjourn the case.

In view of the foregoing facts, the Board unanimously decided to adjourn the case in best interest of justice. The Board further decided to provide another/final chance of personal hearing to the accused.

Personal hearing Notice issued to the accused persons.

Proceeding & Decision by the Board.

Case was considered by Provincial Quality Control Board under section 11 of the Drugs Act, 1976 in its 207th meeting dated 13-04-2019. Mr Aadil mehmood Secretary DQCB District Attock and Mr. Tariq Masood Shah Drug Inspector Tehsil & District Attock were present along with the original case record. The complete investigation report submitted by the Drug inspector was scrutinized by the Board under section 11(3) (b) of the Drugs Act, 1976. Show-cause was issued to the firm after detail scrutiny and discussion by the Board in accordance to Rules (5) of the Punjab Drug Rules 2007 (as amended). The Board observed that the Drug inspector on 16-07-2018, having Gazette Notification No. S.O (Dental) 10-11/2014 dated 26-03-2015, in exercise of powers conferred to him under section 18 (b) of the Drugs Act, 1976, inspected the premises of Ms/ Hafiz Brothers Medicose Sameer Plaza Attock and took sample of above mentioned Drugs on Form-4 under section 18 (1) (c) (3) of the Drugs Act, 1976 for the purpose of test and analysis. The sample was sent to DTL vide memorandum No.0000017569, dated 21-07-2018, within the prescribed period of seven days as required under section 19 (3) of the Drugs Act, 1976. The drug sample after test and analysis was declared substandard by the Government Analyst, Drug testing laboratory Rawalpindi under section 22 (1) and report was generated on Form no.07 as required under section 22(2) of the Drugs Act 1976. The said sample was tested according to Manufacturer's specifications as mentioned on the label. The instruments used for testing said sample were calibrated. The calibration status and internal calculation sheets were thoroughly checked and scrutinized. On receipt of the report of Government Analyst the Drug Inspector delivered the test report in accordance to section 22(3) of the Drugs Act 1976.The Drug Inspector conveyed warrantor portion of the drug sample vide letter no 225/DI/AK/18 dated 01-08-2018 to M/s Medicon Pharmaceuticals (Pvt.) Ltd, B1/11 Industrial Estate, Hayatabad, Peshawar and DTL report vide letter no. 402/DI.AK/18 dated 15-11-2018 to M/s Medicon Pharmaceuticals (Pvt.) Ltd, B1/11 Industrial Estate, Hayatabad, Peshawar and asked for provision of

requisite information.

Among accused Dr. Maqbool (Managing Director) of M/s Medicon Pharma (Pvt.) Ltd. B1/11 Industrial Estate Hayatabad, Peshawar was present. Managing Director of the firm appeared before the Board and submitted that chemical assay of the product complies with the specifications. The average release of Chlorpheniramine Maleate is 212.92% which is impossible. He further submitted that the report of Drug Testing Laboratory, Rawalpindi is defective. Their product is registered on Manufacturer's specifications, however, Drug Testing Laboratory, Rawalpindi never asked for provision of method for test/ analysis.

The Board after detailed scrutiny of the record, due deliberation & discussion observed that the Government Analyst, Drug Testing Laboratory, Rawalpindi applied the same method for test/ analysis as provided by the manufacturer. The method provided by M/s Medicon Pharma (Pvt.) Ltd. B1/11 Industrial Estate Hayatabad, Peshawar is incomplete and the drug sample was declared substandard on the basis of analysis performed according to manufacturer's own method. The chemical assay of all the three ingredients present in the formulation lies within prescribed limits i.e., 98.85% for Paracetamol, 95.44% for Caffeine and 98.48% for Chlorpheniramine Maleate. The dissolution profile of all the three ingredients lies outside the limits. Perusal of the method provided by the firm reveals that the method was incomplete. The product that does not comply the dissolution test is unable to produce therapeutic effectiveness. Such product cannot be registered whose method of analysis is faulty or incomplete, tn view of the foregoing facts, the Board unanimously decided to grant permission for prosecution against the following accused in the Drug Court:

i. M/s Medicon Pharma (Pvt.) Ltd. B1/11 Industrial Estate Hayatabad, Peshawar through its Managing Director Farjad Maqbool.

ii.	Farjad Maqbool	Managing Director
iii.	Arshad Ali	Production Incharge
iv.	Raza Khan	Quality Control Incharge
v.	Farhad Ali	Warrantor

of M/s Medicon Pharma (Pvt.) Ltd. 81/11 Industrial Estate Hayatabad, Peshawar. For the offences of:

a) Manufacturing for sale/Sale of Sub-standard drug

b) Issuance of false warranty

The Board further decided to recommend cancellation of registration of Tablet Medidol 500mg [Paracetamol: 500mg, Caffeine 65mg, Chlorpheniramine Maleate: 2mg] manufactured by M/s Medicon Pharma (Pvt.) Ltd. B1/11 Industrial "Estate Hayatabad, Peshawar from Drug Regulatory ' Authority of Pakistan (DRAP) for provision of incomplete method of analysis.

Decision of 293rd meeting of Registration Board.

Registration Board deliberated that PQCB has already prosecuted responsible persons in Drug Court and also recommending DRAP for cancellation of registration. The Board decided to seek opinion of Legal Affair Division regarding issuance of show cause notice or otherwise.

Current Status of the Case.

In order to comply the above said decision of the Registration Board, The case file was forwarded to the Legal Affair Division for seeking opinion regarding the issuance of show cause notice or otherwise and the reply of the Legal Affair Division is reproduced as under;

"*That the PQCB granted permission for prosecution against the accused persons mentioned in para 8/N and also recommended to DRAP for cancellation of registration of subject product. The Registration Board deferred the matter for opinion of this Division for issuance of show cause notice or otherwise. In view of the above facts, the Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.*"

Proceeding and Decision of 295th Meeting of Registration Board.

Registration Board considered the facts of the case and views comments of the Legal Affairs Division, DRAP, Islamabad that the Registration Board may issue the show cause notice under rule 24(17) of

Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board decided to defer the case for further deliberations in the next meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

> **"13.** *No person-*
>
> *(a) Shall be prosecuted or punished for the same offence more than once; or*
>
> *(b) shall, when accused of an offence, be compelled to be a witness against himself."*

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

> *"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."*

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 21: CASE REFERRED BY PQCB, PUNJAB REGARDING KAYMAX 75MG SUGAR COATED TABLETS, B# GX1733, MANUFACTURED BY M/S QUAPER (PVT.) LT., 26-A S.I.E LAHORE ROAD, SARGODHA.

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-325/2018 dated 17-09-2019 has informed that Provincial Inspector of Drugs Tehsil Jampur Rojhaan, district Rajanpur reported that:

i. He, on 26-06-2018, inspected the business premises of M/S Saleem Medical Store at Bangla Hidayat Tehsil Rojhan District Rajanpur and took samples of two different types of drug on Form No. 04 for the purpose of test and analysis.

ii. One out of these drug samples, after test/ analysis, was declared **Substandard** by Government Analyst Drug Testing Laboratory Multan as detailed below:

Name of drug	Batch No.	Name of manufacturer	DTL Report TRA No. & Date	DTL Test Report Results
Sugar Coated Tablet. Kaymax 75mg (Diclofenac Potassium 75mg)	GX1733	M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan.	TRA No.01-56001323/DTL dated: 18-08-2018	**Analysis with Specifications:** Manufacturer's Specification **Disintegration Test:** Determined **18 out of 18 tablets were not disintegrated in specified time** Limit All the tablets should disintegrate within 30min **Does not comply).** Assay: Percentage 97.42% Limit 90-110% Result: The above sample is **Substandard** on the basis of test performed.

iii. M/S Saleem Medical Store at Bangla Hidayat Tehsil Rojhan District Rajanpur provided invoice/ warranty No.025644 dated 05-06-2018 issued by M/S Public Medical Store Whole Sale Chemist Muslim Bazar Kashmore who in turn provided invoice/warranty no.7640 dated 24-04- 2018 issued by M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan as a proof of its purchase.

iv. Warrantor portion was sent to M/S Public Medical Store Whole Sale Chemist Muslim Bazar Kashmore.

v. A copy of test report was sent to M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan with directions to explain their position and provide requisite information in this regard.

vi. In Response, the firm challenged the test/analysis report and requested to re-test the above- mentioned drug sample from Appellate laboratory NIH, Islamabad.

vii. Pursuant to the request of manufacturer the sample was sent to NIH, Islamabad, from where the same was declared as **Sub-standard,** as detailed below: -

Name of drug	Batch no.	Name of manufacturer	NIH Test Report No. & Date	NIH Test Report Results	
Kaymax Tablets 75mg	GX1733	M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan	057-P/2019-dated: 09-04-2019	**Specifications Applied** USP-39 **Dissolution Test:**	
				Determined	**59.73% of the label amount. Five tablets out of six deviated from the limits (Q)**
				Limit	Not less than 75% (Q) of the label amount
				Does not comply with USP-39 **Result:** The sample is **Sub-standard** quality on the basis of tests performed.	

viii. A copy of NIH Test Report was sent to M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan with directions to provide the requisite information and to explain their position in this regard.

Drug Inspector requested for grant of permission for prosecution against the above- mentioned accused persons who have contravened the provisions of Section 23/27 of the Drugs Act 1976 and Rules framed there under by the way of: -

a. **Manufacturing/stocking /selling of Substandard Drug**
b. **Issuance of false warranty**

Show cause/personal hearing notice(s) issued to accused person(s)

REPLY OF THE FIRM TO THE DRUG INSPECTOR:

- *M/S Quaper (Pvt.) Ltd stated that our firm is one of the leading and trusted national company, best known for its high-quality products, which are fully compliant with Drugs Act 1976 and rules framed there under. Its firm commitment to quality and adherence to high standards/ cGMP guidelines is the hallmark of the company to meet the high expectations of the patients as well as Health care providers.*
- *That retained sample of the same batch no. kept under prescribed conditions was tested at our well-equipped QC Lab, which fully complied with approved specifications and was found of standard quality.*
- *That we neither received any warrantors portion of the sample nor manufacturer portion despite the lapse of three months which was required to be required to be received within statutory period of one week.*
- *The storage conditions of the medical store where sample was drawn, not mentioned by the drug inspector.*
- *Our product is sugar coated tablet, the limits defined by the British Pharmacopoeia for disintegration time for sugar coated is not more than 60minutes, but DTL erroneously applied specifications of the film coated tablets which is not justified.*

PROCEEDINGS & DECISION BY THE BOARD:

PQCB 208th meeting held on 27-06-2019:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 208th meeting held on 27-06-2019. Drug Inspector briefed the Board about facts of the case and requested for the permission for prosecution against the accused persons. No one appeared before the Board on behalf of M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan. Secretary PQCB apprised the Board that request for adjournment was received from the firm. The Board after discussion decided to adjourn the case in the best interest of justice. The Board further decided to provide another but final opportunity of personal hearing to the accused persons.

Personal hearing notice(s) issued to accused person(s)
Case is placed before the Board or further necessary action

PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its **210th meeting** held on **17-09-2019.** Mr Sadiq Hussain Secretary DQCB District Rajanpur & Mr Muhammad Kaleem Bhutta Drug Inspector Tehsil Jampur Rojhan were present. Drug Inspector briefed the Board about the facts of the case and requested for permission of prosecution. Accused Person Muhammad Saleem (Quality Control Manager) appeared before the Board on the behalf of M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistanand submitted that;

a) Quaper Pharmaceutical industry is one of the leading and trusted national Pharmaceutical company, best known by its high-quality products, which are fully compliant with the Drugs Act 1976 and rules framed there under.

b) The storage condition of the medical store from where sample was drawn, not mentioned by the drug inspector.

c) Our sample was sent to NIH Islamabad by this honorable Board but NIH report tested our product applying USP method instead of BP and declared our product Substandard on physical basis for not complying with Dissolution test which was unwarranted and defective report as the whole test was performed without Pancreatic Enzyme without any legal justification which made the whole report doubtful.

d) Both DTL and NIH are contradictory and highly doubtful and benefit of doubt always goes to the accused.

e) He also mentioned that we have recalled all the stock from our distributors as good will gesture and we have also given the public notice through newspaper. So, He requested for the linnet view.

The Board after comprehensive perusal of the records and statements of the representatives of the firm observed that as the monograph of the subject drug product is not mentioned in BP. The label claim is false and the product is misleading in addition to substandard as declared by DTL & NIH, Islamabad. Moreover, the firm provided Manufacturer specifications to DTL Multan and it was declared as substandard based on disintegration test. On request of the firm the sample was sent to NIH, Islamabad for retesting and NIH, Islamabad has declared it substandard based on Dissolution test as it is the mistake on the part of the firm that label claim does not mention that the product is gelatinized sugar coated tablet so NIH, Islamabad applied USP-39 as the notification vide No. F-3-2/2006 DATED 05-06-2006 that stated that *"All the firms shall adopt the specifications mentioned in the official pharmacopoeias for all the formulations except those drugs not included in the official pharmacopoeia. For these drugs manufacturers may adopt their own specifications till the inclusion of that formulation in the official pharmacopoeias. After this decision firms will not be allowed to adopt their own specifications for the drugs, which are included in any of the official pharmacopoeias"* Furthermore honorable members rebutted firm arguments that due to unavailability of monograph in B.P, NIH Islamabad apply U.S.P Specifications. The Board further observed that dissolution is not a minor parameter in the drug testing. There is a linear relationship between bioavailability and dissolution rate of the drug product. Hence, the drug having low dissolution will have lower bioavailability and will be unable to reach up to the therapeutic concentration and therefore, will lead to therapeutic failure and may cause development of resistance as 'well. Keeping in view the foregoing facts, the Board unanimously decided to grant **permission for prosecution** against the following accused persons in the Drug Court:

1. M/S Quaper (Pvt.) Ltd., 26-A S.I.E Lahore Road Sargodha, Pakistanthrough its Managing Director Muhammad Iftikhar.
2. Muhammad Iftikhar — Managing Director.
3. Fozia Naheed — Production manager/Warrantor.
4. Muhammad Saleem — Quality Control Manager.

Of **M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan** for the offences of:

a). Manufacturing/stocking /selling of Substandard Drug.

b.) Issuance of false warranty.

The Board after due deliberation and discussion at length, decided to send a letter to Registration Board to review the registration documents of the products of M/S Quaper (Pvt.) Ltd 26-A S.I.E Lahore Road Sargodha, Pakistan.

Proceeding and Decision of 295th Meeting of Registration Board.

The Board was appraised that similar case was presented in 293rd meeting of the Registration Board wherein the Board decided to take the views comments of the Legal Affairs Division, DRAP, Islamabad.

Legal Affairs Division, DRAP, Islamabad provided their opinion that Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board after thorough deliberations decided to defer the case for further deliberations in the upcoming meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

> **"13.** *No person-*
>
> *(a) Shall be prosecuted or punished for the same offence more than once; or*
>
> *(b) shall, when accused of an offence, be compelled to be a witness against himself."*

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

> *"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."*

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 22: CASE REFERRED BY PQCB, PUNJAB REGARDING INJECTION SULFAPRIME, BATCH NO. I-109, MANUFACTURED BY M/S ATTABAK PHARMA ISLAMANBAD.

TheSecretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-331/2019 dated 14-12-2019 has informed that Provincial Inspector of Drugs Tehsil & District Sahiwal reported that:

i. She, on 13-07-2019 inspected the premises of Medicine Store of office of Directorate Live Stock, Jogi Chowk, Sahiwal and took samples of four different types of drugs on Form No. 04 for the purpose of test and analysis.

ii. One out of these drug samples after test/analysis, was declared **Substandard and Misbranded by** Government Analyst Drug Testing Laboratory, Bahawalpur as detailed below:

Name of drug	Batch No.	Name of manufacturer	DTL Report TRA No. & Date	DTL Test Report Results
Injection Sulfaprime [(Trimethoprm 80mg Sulfadiazine 400mg)/ml 50ml]	1-109	M/s Attabak Pharmaceutical Industries. 5-C. 1-10/3 Industrial Area, Islamabad	TRA No 01-25004258/DTL dated:28-08- 2019	**Analysis with specifications applied:** MS/BP 2018 **Description (MS):** Suspension of almost white solid in pale straw solution filled in sealed amber glass vial (stated volume: 50ml) The label of the product does not bear the name of pharmacopoeia or document according to which product is manufactured (**The product is misbranded).** **Volume (BP) :** Limit: Not less than nominal (50ml) Determined: 50mL **pH (BP):** Limit: 10.0-10.5 Determined: **11.313 (Does not comply)Sterility (BP):** The product is sterile. **Assay (MS):** (Trimethoprim) Percentage: 100.72% Limit: 90-110% (Sulfadiazine) Percentage 98.65% Limit: 90-110% **Result:** The sample is **Substandard** on the basis of pH test and **Misbranded** as defined under clause (vi) of sub-section (s) of section 3 of the Drugs Act 1976.

iii. Store keeper, office of Directorate Live Stock, Jogi Chowk, Sahiwal provided invoice/ warranty No. DG-LS-SWL_0005-14-06-2019 dated 14-06-2019 issued by M/s Attabak Pharmaceutical Industries, 5-C, 1-10/3 Industrial Area, Islamabad as a proof of its purchase of the said drug, whereas the Drug Inspector accepted the above mentioned bill/warranty.

iv. Whereas, warrantor portion and a copy of test report of the drug sample was sent to M/s Attabak Pharmaceutical Industries, 5-C, 1-10/3 Industrial Area, Islamabad with directions to provide the requisite information and to explain their position in this regard.

Drug Inspector requested to grant permission for prosecution against the accused persons nominated

in the instant case who have contravened the provisions of Section 23/27 of the Drugs Act, 1976 (as amended) /DRAP Act, 2012 and Rules framed there under by the way of -

i. **Manufacturing/ Selling/ Stocking of Substandard/Misbranded drug**
ii. **Issuance of false warranty**

Show-cause notice(s) were issued to accused person(s).

Reply of The Firm to Showcause Notice:

M/s Attabak Pharmaceutical Industries, 5-C, 1-10/3 Industrial Area, Islamabad submitted that:

> *'That the product injection Sulfaprime have manufacturer specification and the PH determined by the DTL Bahawalpur are as per manufacturer specification.*
> *That the PH limit of injection Sulfaprime Is 10— 13 and the PH determined i.e. 11.3 is within limits which are as per manufacturers' specification.*
> *That the chemical assay of both the actives Trimethoprime and Sulphadiazine is with the limits.*
> *That same product injection Sulfaprime is supplied to Gujranwala which is analyzed from DTL Multan and the DTL Multan follow our manufacturers specification and the PH determined by DTL Multan is 11.73 which is as per manufacturers specification.*
> *That how it is possible that on some component of analysis of the same product i.e. Description and Assay manufacturers specification is applied while on some components of analysis i.e. sterility and pH, BP is applied.*
> *That the matter regarding the misbranded of the product we rectify the labels of the said product and* a *label and an affidavit is already submitted to PQCB Lahore Letter No PQCB/P- 1012-09/19 "*

Personal hearing notice(s) were issued to accused person(s).

PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its **215th meeting** held on **14-12-2019.** Ms. Roquia Parveen, Secretary DQCB Sahiwal and Ms. Sadaf Drug Inspector Tehsil & District Sahiwal were present along with original record of the case. Among accused persons, Sajid Hussain (Quality Control Manager) of M/s Attabak Pharmaceutical Industries, 5-C, 1-10/3 Industrial Area, Islamabad was present and submitted that the Government Analyst wrongly applied BP specifications (pH range=10.0-10.5) for pH determination instead of applying manufacturer's specifications (pH range=10-13) and declared the subject drug sample substandard. Thus, he disagreed with the DTL results and requested for lenient view based on application of wrong specifications.

In reply to a query from a Board member, representative of the firm stated that the subject drug sample got registered in 2009, since then they are producing this product according to firm's in-house specifications with pH range 10-13.

The Board, after careful scrutiny of the DTL report and statements of firm representative, observed that the subject drug sample has been declared substandard by the Government Analyst Drug Testing Laboratory on the basis of pH. The determined value of pH (11.313) is greater than the upper permissible limit i.e., **10.0-10.5** as given in British Pharmacopoeia. The Board was of the opinion that injecting more alkaline solutions (above the upper permissible limit of pH) may lead to discomfort, erythema and oedema at the site of injection. The Board further observed that the firm is continuously producing subject drug sample with more alkaline/out of range pH according to their own set, unjustified pH range.

Keeping in view the facts of the case, the Board after due deliberation and discussion, **unanimously** decided **to** grant **permission for prosecution** against the following accused persons in **Drug Court:**

1. **M/s Attabak Pharmaceutical Industries, 5-C, 1-10/3 Industrial Area, Islamabad** through its Managing Director Dr. Israr Hussain Shah
2. Dr. Israr Hussain Shah — Managing Director/Warrantor
3. Shaid Ahmad Yousafzai — Production Incharge
4. Sajid Hussain — Quality Control Manager

of M/s Attabak Pharmaceutical Industries, 5-C. 1-10/3 Industrial Area. Islamabad., for the offences of:

a) Manufacturing/ Selling/ Stocking of Substandard/Misbranded drug

b) Issuance of false warranty

The Board further decided to direct office of secretary PQCB to report to DRAP, thematter of unexplained and unjustified pH range specifications being used by the firm without performing any product development or stability studies.

Proceeding and Decision of 295th Meeting of Registration Board.

The Board was appraised that similar case was presented in 293rd meeting of the Registration Board wherein the Board decided to take the views comments of the Legal Affairs Division, DRAP, Islamabad.

Legal Affairs Division, DRAP, Islamabad provided their opinion that Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board after thorough deliberations decided to defer the case for further deliberations in the upcoming meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

> **"13.** *No person-*
>
> *(a) Shall be prosecuted or punished for the same offence more than once; or*
>
> *(b) shall, when accused of an offence, be compelled to be a witness against himself."*

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

> *"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."*

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 23: CASE REFERRED BY PQCB, PUNJAB REGARDING DOLOGIN TABLETS, B# 346, MANUFACTURED BY M/S OPAL LABORATORIES (PVT.) LTD., LC-41, L.I.T.E., LANDHI, KARACHI.

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-327/2018 dated 15-11-2019 wherein he has informed that Provincial Inspector of Drugs Tehsil Depalpur, District Okara reported that:

i. He on 04-01-2018 inspected the business premises of M/S Macca Medical Store, Kasur Road Rajowal Depalpur, District Okara and took samples of three different types of drugs on form No 4 for the purpose of test/analysis.

ii. Out of which one drug sample after test/analysis was declared **Substandard** by the Government Analyst Drug Testing Laboratory Punjab, Bahawalpur as detailed below:

Name of drug	Batch No.	Name of manufacturer	DTL Report TRA No. & Date	DTL Test Report Results
Tabs. Dologin [Mefenamic acid; 250mg]	346	M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan	TRA No: 01-01010653/DTL Dated: 21.03.2018	**Analysis with specifications applied:** Manufacturer's Specifications **Composition:** Each dispersible tablet contains: Mefenamic acid ..... 250mg **Description:** A white colored tablet, oblong in shape, bisected on one side and plain on other side. Packed in blister packing of 10 units. **Disintegration:** Eight tablets out of eighteen were not disintegrated within specified time, i.e. 3 minutes. **Limit: 16 tablets out of 18 must be disintegrated within specified time, i.e. not more than 3 minutes** **(Does not comply specifications)** **Identification:** Mefenamic acid is identified. **Assav: (Mefenamic acid)** Stated:……250mg Determined: ……..253.365mg Percentage: ……101.346% Limit:……..95-105 % **Result:** The sample is Substandard on the basis of test performed.

iii. M/S Macca Medical Store Kasur Road Rajowal Depalpur, District Okara provided invoice/warranty No.19853(A) dated 16-10-2017 issued by M/S Asif Trading Corporation, 45 Akbar Road Okara who in turn provided invoice/warranty No. PH-88085 dated 18-09-2017 issued by M/S Opal Laboratories (Pvt.) Ltd., LC-41, L.I.T.E., Landhi, Karachi-Pakistan as a proof of its purchase of the said drug, whereas the Drug inspector accepted the above-mentioned bill/warranty.

iv. Whereas, warrantor portion and a copy of test report was sent to M/S Asif Trading Corporation, 45 Akbar Road Okara.

v. Whereas, a copy of test report of drug sample was sent to M/S Opal Laboratories (Pvt.) Ltd., LC- 41, L.I.T.E., Landhi, Karachi-Pakistan with directions to explain their position and provide requisite information in this regard.

REPLY OF THE FIRM TO DRUG INSPECTOR:

M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan submitted that:

"portion of sealed sample was received on 03-04-2018 after passage of 89 days, although according to law it should have been dispatched within 7 days. Moreover, we had thoroughly checked, upon detail evaluation both warrantor sample and reference sample, found OK and meets specification It is worth noting that we have not been asked for testing method and other required relevant detail for Quality Control laboratory testing. "

Drug Inspector requested for grant of permission for prosecution against the accused persons involved in the subject case who have contravened the provisions of Section 23/27 of the Drugs Act 1976 and Rules framed there under by the way of: -

a. Manufacturing for sale/Sale of Substandard drug.
b. Issuance of false warranty.

Showcause/personal hearing notice(s) was issued to accused person(s).

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

209th meeting held on 17-07-2019:

Case was considered by the Provincial Quality Control Board, under section 11 of The Drugs Act, 1976 in its 209th meeting held on 17-07-2019 Mr. Zaheer-udin Babar Secretary DQCB Okara and Mr. M Irfan Munir Drug Inspector Tehsil Depalpur & District Okara were present. Drug Inspector briefed the Board about facts of the case and requested to grant permission for prosecution against the accused persons. Secretary PQCB apprised the Board that showcause/personal hearing notice was duly served to the accused persons. Counsels of the firm, Sarnia Khalid (Advocate) and M. Zohaib Shahid (Advocate) were present on behalf of M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan and submitted written request for adjournment of the subject case.

The Board after due deliberation and discussion decided to **adjourn** the case in the best interest of justice and provide another but final opportunity of personal hearing to the accused persons

Personal hearing notice(s) issued to accused person(s).

211th meeting held on 30-09-2019:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act. 1976 in its **211th**meeting held on 30-09-2019. Mr. Zaheer-udin Babar Secretary DQCB Okara was present along with the original case record. Secretary DQCB Okara briefed the Board about facts of the case and requested to grant permission for prosecution against the accused persons. Secretary PQCB apprised the Board that personal hearing notice was duly served to the accused persons. Counsel of the firm, M. Zohaib Shahid (Advocate) appeared before the Board on behalf of M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan and submitted that a similar case of Tablet Dologin [Mefenamic Acid: 250mg] with batch no. 348 was previously considered by the Board. The DTL report of both these cases declared Tablet Dologin [Mefenamic Acid: 250mg] substandard on the basis of Disintegration test. He further stated that inspection of Batch manufacturing record was recommended in the other case and requested that the subject case may be clubbed with case of Tablet Dologin [Mefenamic Acid: 250mg] with batch no. 348

The Board after detailed scrutiny of the record and in light of the arguments raised by the

Counsel of the firm observed that a case of Tablet Dologin [Mefenamic Acid: 250mg] Batch no. 348 with R. no. 36/2018 was considered by the Board in its 207th meeting held on 13-06-2019. The Board further observed that there are similarities in these two cases as both the batches (batch no. 348 & 349) were manufactured in similar time period and they failed on same grounds i.e . Disintegration test. The inspection of Batch manufacturing record was conducted on 23rd September 2019 by the nominated team and the final report is still awaited.

The Board after due deliberation and discussion, unanimously decided to accept therequest of the counsel of the firm and directed the office of Secretary PQCB to club the case of Tablet Dologin [Mefenamic Acid. 250mg] Batch no 346 with the other case of Tablet Dologin [Mefenamic Acid 250mg] Batch no 348 of R. no. 36/2018 for further consideration by the Board

INSPECTION REPORT OF M/S OPAL LABORATORIES (PVT.) LTD, LC-41, L.I.T.E., LANDHI, KARACHI.

Panel Members:

Dr. Prof(R) Mahmood Ahmad, Member, PQCB.
Dr. Muhammad Munawar Hayat CDC Punjab
Date of Inspection: 23-09-2019.

Detail of matter and Firm:

- *The management of the firm is changed on 19th December 2017 which was approved in 256th meeting of CLB DRAP on 09 & 10 November 2017.*
- *QA of Firm generated request for change the art work of label on 15-01-2018*
- *Tablet Dologin (Mefenamic acid) 250mg. Batch No. 348 was manufactured on 09/2017*
- *The said drug was declared substandard on basis of Disintegration test by DTL Rawalpindi on 07-05-2018.*

OBSERVATIONS:

a) *The firm is manufacturing "**dispersible"** tablets but having the registration of plain tablets.*
b) *Product Specification of Tablet Dologin is B.P.as mentioned in method and assay is by titration.*
c) *At time of inspection, the production manager of firm informed that firm is now manufacturing the plain dologin tablets from last one year.*
d) *Currently, the firm is using the same formulation as before without any variation.*
e) *API Mefenamic acid is of BP specification.*
f) *On 18/08/2018 firm destroyed the remaining packing material /label bearing dispersible word through Gel Pvt. Ltd.*

Batch Processing Record of specific product:

01. *BMR Record: available.*
02. *QC retain sample: Not available Expired.*
03. *Testing method: available*
04. *Manufacturing started on 29/09/2017 and completed on 09/10/2017.*

Manufacturing Process of tablet Dologin 250mg:

1. *The firm provided the record of process of manufacturing of tablets Dologin, the firm has no reference of dispersible tables of Mefenamic acid of any other firm in the world.*
2. *The firm developed the method of manufacturing of tablet Dologin by using the one disintegrant at 5% percentage only in final blending and found Primogel (Sodium starch glycolate) as suitable for manufacturing of dispersible Dologin tablets.*

Conclusion:

The panel is of the opinion that:

01. This defect in tablet is due to improper development of dispersible tablet formulation and the firm has not performed any in-vitro tests or study to evaluate the status of dispersible formulation.
***02.** The Firm has given self-life of 3 years to Plain tablets whereas 2 years of shelf-life has been given to dologin DS tablets.*
03. The firm is performing only Disintegration test and not performing dissolution test.
04. The firm has not recalled the drug from the market which is still not expired. The expiry of the drug is 08/2020.
*05. The firm is manufacturing **"dispersible"** tablets illegally while they have the registration of plain tablets.*
***06.** The firm is advised to redesign its formulation to differentiate between plain and dispersible Tablet and stop manufacturing of dispersible tablets.*
Submitted for final decision to Board

Personal hearing notice(s) issued to accused person(s).

CURRENT PROCEEDINGS & DECISION BY THE BOARD:

Inspection report was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its **213th** meeting held on 15-11-2019. Ms. Barkhoona Waheed Secretary DQCB Jhelum was present along with original record of the case. Counsel of the firm, M Zohaib Shahid (Advocate) appeared before the Board on behalf of M/S Opal Laboratories LC-41, L.I.T.E., Landhi, Karachi and submitted that the statement mentioned on the DTL report that "no monograph of

Mefenamic acid dispersible tablet is available in official monographs" as dispersible tablets monograph is available in European Pharmacopeia. He further submitted that Mefenamic acid is commonly used to treat mild to moderate pain and its repeated use can cause serious gastrointestinal toxicity, thus, the clinical justification for manufacturing of dispersible Dologin Tablet is to avoid these adverse effects.

Dr. Munawar Hayat, Chief Drugs Controller, Punjab apprised the Board about the observations made by the inspection team during the visit of the firm. In the light of the facts stated in the inspection report, the Board observed that

- The firm has registration of plain tablets of Mefenamic acid but it was manufacturing dispersible tablet which is illegal. Moreover, the firm is manufacturing Mefenamic acid dispersible tablets, the reference of which is neither available in any pharmacopeia nor such reference is available for its manufacturing by any firm in the world.
- The defect in the tablet was due to improper development of dispersible tablet formulation and that the firm has not performed any in-vitro tests or study to evaluate the stability of dispersible formulation.
- The firm was performing only Disintegration test and not performing dissolution test while according to official pharmacopoeia, both tests are necessary to be performed.
    - The expiry date of the subject drug is 08/2020 but the firm has still not recalled it from the market.
- According to the letter from DRAP to M/S Opal Laboratories LC-41, L.I.T.E., Landhi. Karachi, the management of the firm was changed on 19th December 2017 which was approved in 256th meeting of CLB DRAP on 09 & 10 November 2017. However, in PQCB 194th meeting dated 18-10-2018, the current CEO of the firm appeared before the Board and stated that the firm has been acquired by the new management in June 2017. The subject drug was manufactured in September 2017 i.e. after the new management acquired the firm. Moreover, no sale deed has been provided by the firm about handing/taking over of the firm, in support of the claim that on such date they were having the responsibility of this offense or not. Further, in writ petition no 24146/2019, as reflected by the orders of Ayesha A. Malik J dated 16-05-2019 the petitioner has not taken any such stance rather he was in the proper defense of case in the High Court in said writ petition.

Keeping in view the foregoing facts, the Board unanimously decided to grant permission for Prosecution against the following accused persons in the Drug Court

01. M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan through its Chief Executive Officer Dr. Ali Afzal
02. Dr. Ali Afzal Chief Executive Officer
03. Jhanzaib Akram Managing Director
04. Rozina Babar Quality Control Manager/Warrantor
05. Ikram Zubairi Production Manager

of M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan for the offences of:

a. Manufacturing for sale/Sale of Substandard drug.
b. Issuance of false warranty.

The Board further decided to recommend the Registration Board, Drug Regulatory Authority of Pakistan for cancellation of registration of Tablet Dologin (Mafenamic acid) 250mg manufactured by M/S Opal Laboratories LC-41, L.I.T.E., Landhi, Karachi.

Proceeding and Decision of 295th Meeting of Registration Board.

The Board was appraised that similar case was presented in 293rd meeting of the Registration Board wherein the Board decided to take the views comments of the Legal Affairs Division, DRAP, Islamabad.

Legal Affairs Division, DRAP, Islamabad provided their opinion that Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already

prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board after thorough deliberations decided to defer the case for further deliberations in the upcoming meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

> **"13.** *No person-*
>
> *(a) Shall be prosecuted or punished for the same offence more than once; or*
>
> *(b) shall, when accused of an offence, be compelled to be a witness against himself."*

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

> *"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."*

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 24: CASE REFERRED BY PQCB, PUNJAB REGARDING DOLOGIN TABLETS, B# 348, MANUFACTURED BY M/S OPAL LABORATORIES (PVT.) LTD., LC-41, L.I.T.E., LANDHI, KARACHI.

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-36/2018 dated 15-11-2019 has informed that Provincial Inspector of Drugs Tehsil Jhelum reported that:

v. He on 27-02-2018 inspected the business premises of M/S M/s Tariq Pharmacy, Amin market, Muhammadi chowk, Tehsil Jhelum and took sample of two different type of drugs on Form No. 04 - for the purpose of test and analysis.

vi. One of drug sample after test/ analysis, was declared **Substandard** by Government analyst Drug Testing Laboratory Rawalpindi as detailed below:

Name of drug	Batch No.	Name of manufacturer	DTL Report TRA No. &	DTL Test Report Results
Tabs. Dologin [Mefenamic acid; 250mg]	348	M/S Opal Laboratories (Pvt.) Ltd, LC-41, L.I.T.E., Landhi, Karachi-Pakistan	TRA No: 01-13000725/DTL Dated: 07-05-2018	Physical Description White to off white colored, oblong shaped tablet, bisect line on both sides, packed in Alu-PVC blister (1x10) Average Weight Result 385.82mg Limit 370.409.5mg Disintegration Test: Stage 1 4 out of 6 units fail to comply the disintegration test. Stage 2 10 out of 18 units fail to comply the disintegration test. **(Does not comply)** If 1 or 2 dosage units fails to disintegrate, repeat the test on 12 additional units, the requirements of the test are met if not less than 16 units tested have disintegrated. Limit NMT 3 min Identification; Mefenamic Acid identified Assay: Stated: 250mg/Tablet Determined: 253.88mg/Tablet Percentage: 101.553% Limit: 95-105% Result: Sample is Substandard on the basis of disintegration test.

iii. M/s Tariq Pharmacy, Jhelum provided invoice/warranty No.PH-88716, dated 13-10-2017 issued by M/S Opal Laboratories (Pvt.) Ltd., LC-41, L.I.T.E., Landhi, Karachi-Pakistan as the proof of their purchase.

iv. Copy of test/analysis report and warrantor portion was sent to warrantor M/s Opal Laboratories LC-41, L.I.T.E., Landhi, Karachi with the direction to explain their position and provide requisite information in this regard.

v. Drug Inspector requested for grant of permission for prosecution against the above-mentioned accused persons who have contravened the provisions of Section 23/27 of the Drugs Act 1976/DRAP Act 2012 and Rules framed there under by the way of: -

(Accused No. 1)

a. Stocking/Selling of Substandard drug

(Accused No. 2-5)

a. Manufacturing for sale/stocking/Selling of Substandard drug

b. Issuance of false warranty

Show-cause/Personal hearing notice(s) issued to accused person(s)

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Qua ty Control Board, under section 11 of the Drugs Act 1976 in its **194th meeting held on 18-10-2018.** Drug Inspector briefed the Board about facts of the case and requested for the permission for prosecution against the accused persons Accused Muhammad

Qasim (Proprietor) of M/s Tariq Pharmacy, Amin market, Jhelum stated that he purchased the drug directly from manufacturer M/s Opal Pharma and submitted the copy of bill/warranty to the office of Drug Inspector within seven days. Chief Executive Officer of M/s Opal Pharma that the firm was acquired by the new management in June 2017. The said Batch of the drug was manufactured by old management; hence they are not responsible for commission of the offence. In response of a query, QC manager of the firm replied she has been working with the firm since 2016 and the product is being manufactured under B.P specifications. She added that the said drug is registered as a plain tablet not as a dispersible tablet and she raised this issue before the management with the request rectify the label claim. CEO of the firm apprised the Board that in response to the intimation by the QCM the firm has stopped manufacturing of the said drug as dispersible tablet. QC retained portion was tested and its disintegration time was found within required limits. He requested to drop the case. The Board, after detailed scrutiny of the record, due deliberation and detailed discussion observed that no monograph of Mefenamic acid dispersible tablet is available in official pharmacopoeias. The product was not registered as a dispersible tablet by the **MOH/DRAP.** The said batch of drug was manufactured in September 2017 after acquisition of the firm by the new management. Hence, new management is responsible for manufacturing of the substandard drug in a dosage form not approved by the regulatory authority. In the view of foregoing facts the Board, decided to grant **permission for prosecution** against the following accused persons in the Drug Court:

1. M/S Opal Laboratories LC-41, LITE, Landhi, Karachi through its Chief Executive Officer Dr. Ali Afzal
2. Dr. Ali Afzal — Chief Executive Officer
3. Ikram Zubairi — Production Manager
4. Rozina Baber — Quality Control Manager/Warrantor

of M/S Opal Laboratories LC-41, LITE, Landhi, Karachi for the offences of:

a. Manufacturing for sale/stocking/Selling of Substandard drug

b. Issuance of false warranty

The Board further decided to drop the proceedings against the accused Muhammad Qasim (Proprietor) of M/s Tariq Pharmacy, Amin market, Muhammadi chowk, Tehsil Jhelum.

Review Petition:

The firm has filed the Review Petition against the orders of Provincial QualityControl Board of even No. dated 05-11-2018:

Dr. Ali Afzal Presently CEO of M/s Opal Laboratories (Pvt.) Ltd., LITE, Landhi, Karachi

Verses

Provincial Drug Inspector, Tehsil Jhelum, Jhelum,

A. That at the time of sampling of the product in question by the Respondent, the Petitioner was not Chief Executive officer of the company the rather Mr Tariq Ikram was the Chief Executive Officer/ Managing Director of the company at that time of manufacturing of the Product in question and the same is evident from the letter dated 19-12-2018 issued by the Central Licensing Board of the DRAP whereby the change of management of the company taken place. As per Section 34 of the Drugs Act, 1976 only those directors may be held responsible within whose knowledge the alleged offence was committed. Had the complainant drug inspector carried out any investigation in the matter or reflected upon status of the Petitioner in the management of the company, he would have certainly excluded his name from the list of accused persons. Therefore, the Petitioner cannot be held liable for the commission of alleged offences and name of the Petitioner as the CEO of the company is liable to be dropped from the instant case

B. That the Petitioner has been charged under section 23 and under 27(4) of the Drugs Act, 1976 in ignorance of the provisions of Section 32 of the Drugs Act which provides that the person not being the manufacturer of the drug in question cannot be held liable for non-fulfillment of responsibility of the manufacturer. He just has to satisfy himself generally to the extent that the drug did not violate the provisions of the act

C. That without prejudice to the above the test report of the DTL Rawalpindi is for various reasons completely in effective, invalid and unfit for the purpose of evaluation of the quality and standard of the drug, either under the law and under the facts, and the same are of no consequence or

merit for declaring the Tablet Dologin (Mefenamic Acid) 250 mg as sub-standard.

D That this honorable Board has committed material irregularity while passing the impugned order though giving its observation that "no monograph of Mefenamic acid dispersible tablet is available in official pharmacopeias" it is submitted that this observation is totally wrong as official monograph of dispersible tablet is available. As per 'Ph Eur. monograph 0478' several categories of tablets for oral use are provided which may be distinguished as follows:

i. Uncoated tablets;
ii. Coated tablets;
iii. Effervescent tablets:
iv. Soluble tablets;
v. Dispersible tablets
vi. Orodispersible tablets;
vii. Gastro-resistant tablets;
viii. Modified release tablets
ix. Ablets for use in mouth:
x. Oral lyophilisates;

E. It is clarified that the Dologin Tablet was developed as buffered and dispersible effects, however, it was not mentioned in the brand name, in this regard, a letter dated 24-01-2004 for price revision of the product was sent to the Ministry of Health wherein it was mentioned that the Product is Buffered' and 'Dispersible' to overcome the side effects of GIT. Therefore, this observation by this Honorable Board is wrong that 'the Product was not registered as a dispersible tablet by the MOH/ DRAP'.

F. The clinical justification of the dispersible Dologin Tablets of 'Mefenamic acid' is widely used in the treatment of mild to moderate pain including headache, dental pain, post-operative/ postpartum pain, dysmenorrhea, rheumatic disorders such as osteoarthritis and rheumatoid arthritis. The chemistry and pharmacology of Mefenamic acid is no more hidden from the eyes of the prescribers besides the fact that its usage cause serious gastrointestinal toxicity such as bleeding, ulceration and perforation any time without any warning. The common adverse effects of Mefenamic acid are gastrointestinal disturbances, peptic ulceration and gastrointestinal bleeding The Petitioner/ Opal Laboratories under took studies to eliminate or reduce the above- mentioned side effects of Mefenamic acid during its usage in their Research and Development department. The first idea was to coat the tablet with an acid resistant material but it was dropped, as it will delay the onset action of the drug for almost two hours. During the further studies and review of the published literature another theory was developed that if the drug is made buffered and dispersible, the side effects can be eliminated or at least be minimized. The advantage of buffered Mefenamic Acid is to be antagonize the acidity of stomach to prevent further decrease of pH and hence minimize the serious adverse effects of Mefenamic acid on one hand and on the other hand increases absorption due to lesser acidic environment created in the stomach. Due to the dispersible action the drug is rapidly dispersed throughout the lumen of the gastrointestinal tract and as a result each particle proves its own absorption of Mefenamic acid. The theoretical results were testified at R & D with practical, the approval was received to launch the product with the slogan of buffered Dispersible Mefenamic Acid tablets. As this new idea of dispersion and buffering reached the prescribers the more and more patients were put onto Dologin tablets with buffered and dispersible action and today many are convinced remaining few to touch for their acceptance.

G. That be that as it may and without prejudice to the foregoing, and the legality of the decision of the previous management to add the word 'dispersible' on the label, the new management after taking over the company in Dec 2017 has removed the word 'dispersible' from the label.

H. That without prejudice to the foregoing, the Government Analyst has failed to mention complete protocols of the test applied in the DTL report. It is a trite law that without protocols of the test report is inconclusive and cannot be used as evidence against the accused persons. The Impugned report is liable to be set aside being based on incomplete report.

I. That the petitioner carried out a thorough check on retained samples of Tablet Dologin

(Mefenamic acid) 250mg Batch no. 348 and has made similar tests on random samples of the same, no such abnormality was found, the product is well within the limit and is of standard quality. All parameters of test and analysis are within acceptable limits.

J. That Sections 11 (5)(b) and 19(6) of the Act read with Rule 5(3) of the Punjab Drug Rules. 2007 cast a duty upon the Respondent and this honorable Board to take every action under the Impugned reports by applying conscious mind and not in a mechanical manner It is regretted that the impugned Order has been passed in violation of Section 11 (5)(b) and 19(6) of the Drugs Act and Rule 5(3) of the Punjab Drug Rules. 2007.

K. That it is the duty and obligation of the public functionaries to act justly fairly, equitably, reasonably without any element of discrimination and squarely within the parameters of law as is envisaged by Article 4 of the Constitution.

L. That in addition to above, the Petitioner reserved his right to submit further assistance to this honorable Board during the arguments of the instant petition.

Prayer:

In view of the foregoing, it is most respectfully and humbly submitted that this honorable Board may be pleased to:

x. Accept the instant review petition, delete the name of the Petitioner from the list of accused persons in the case no. PQCB/R-36/2018;

xi. Set aside the Impugned Order dated 05-11-2018 being passed without proper examination of available record;

xii. Suspend the Impugned Order till the decision of the instant review petition

Any other relief which this Honorable Forum deems fit and appropriate in the circumstance of the case may also be allowed.

Review petition:

The following accused have filed the Review Petition against the orders of
Provincial Quality Control Board of even No. dated 05-11-2018:

1. M/s Opal Laboratories (Pvt.) Ltd, LITE, Landhi, Karachi through its authorized officer Ms. Rozina Babar
2. Ms. Rozina Baber d/o Ibarat-ullah- Baber Quality Control Manager/ warrantor of M/s Opal Laboratories (Pvt.) Ltd, LITE, Landhi, Karachi.
3. Mr. Ikram Zubairi Production Manager of M/s Opal Laboratories (Pvt.) Ltd, LITE, Landhi, Karachi.

Verses

Provincial Drug Inspector, Tehsil Jhelum, Jhelum.

A That the test report of the DTL Rawalpindi consists of technical defects and therefore ineffective for the purpose of evaluation of the quality and standard of the drug, either under the law or under the facts, and the same are of no consequence or merit for declaring the Tablet Dologin (Mefenamic Acid) 250mg as sub-standard.

B. That this honorable Board has committed material irregularity while passing the impugned order though giving its observation that "no monograph of Mefenamic acid dispersible tablet is available in official pharmacopeias". It is submitted that this observation is totally wrong as official monograph of dispersible tablet is available. As per 'Ph Eur monograph 0478' several categories of tablets for oral use are provided which may be distinguished as follows;

i. Uncoated tablets;
ii. Coated tablets;
iii. Effervescent tablets;
iv. Soluble tablets;
v. Dispersible tablets:
vi. Orodispersible tablets;
vii. Gastro-resistant tablets;
viii. Modified-released tablets:
ix. Tablets for use in the mouth;

x. Oral lyophilisates.

C. It is clarified that the Dologin Tablet was developed as buffered and dispersible effects, however, it was not mentioned in the brand name, in this regard, a letter dated 24-01-2004 for price revision of the product was sent to the Ministry of Health wherein it was mentioned that the Product is Buffered' and 'Dispersible' to overcome the side effects of GIT Therefore, this observation by this Honorable Board is wrong that 'the Product was not registered as a dispersible tablet by the MOH/ DRAP'.

D. The clinical justification of the dispersible Dologin Tablets of 'Mefenamic acid' is widely used in the treatment of mild to moderate pain including headache, dental pain, post-operative/ postpartum pain, dysmenorrhea, rheumatic disorders such as osteoarthritis and rheumatoid arthritis. The chemistry and pharmacology of mefenamic acid is no more hidden from the eyes of the prescribers besides the fact that its usage cause serious gastrointestinal toxicity such as bleeding, ulceration and perforation any time without any warning The common adverse effects of mefenamic acid are gastrointestinal disturbances, peptic ulceration and gastrointestinal bleeding The Petitioner/ Opal Laboratories under took studies to eliminate or reduce the above- mentioned side effects of Mefenamic acid during its usage in their Research and Development Department. The first idea was to coat the tablet with an acid resistant material but it was dropped, as it will delay the onset action of the drug for almost two hours During the further studies and review of the published literature another theory was developed that if the drug is made buffered and dispersible, the side effects can be eliminated or at least be minimized. The Petitioners also requested for grant of interim relief till the final decision of the titled Review petition.

Personal hearing notice(s) issued to accused person(s)

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

199th meeting held on 31-01-2019:

Subject Review Petition was considered by the Provincial Quality Control Board, undersection 11 of the Drugs Act 1976 in its 199lhmeeting held on 31-01-2019. Ms Barkhoona Waheed Secretary DQCB District Jhelum and Mr. Naseer Ahmed Drug Inspector Tehsil &District Jhelum were present Counsel of the firm Zohaib Shahid Lodhi (Advocate) appeared before the Board and submitted that the firm was unaware that this case is placed at the agenda of 199th meeting dated 31-01-2019. as they did not receive personal hearing notice. He agitated his grievances as mentioned in grounds of the review petition submitted by the firm.

The Board after detailed scrutiny of the record and grounds of the review petition submittedby the firm, due deliberation &discussion observed that the current CEO of the firm appeared before the Board in PQCB 194th meeting dated 18-10-2018 and gave the statement that the firm has been acquired by the new management in June 2017 and the subject drug was manufactured in September 2017 after acquisition of the firm by the new management. Government Analyst has tested the subject sample according to the Manufacturer's specifications as provided by the firm and the sample fails to comply with manufacturer's own specifications and the report of Government Analyst is the conclusive evidence of the facts stated therein.

In view of the foregoing facts, the Board unanimously decided to turn-down the subject review petition and uphold its previous decision taken in PQCB 194th meeting held on 18-10-2018 for grant of permission for Prosecution against the following accused in the Drug Court:

1. M/S Opal Laboratories LC-41, LITE, Landhi, Karachi through its Chief Executive Officer Dr. Ali Afzal
2. Dr. Ali Afzal — Chief Executive Officer
3. Ikram Zubairi — Production Manager
4. Rozina Baber — Quality Control Manager/Warrantor

of M/S Opal Laboratories LC-41, LITE, Landhi, Karachi for the offences of

- **a.** Manufacturing for sale/stocking/Selling of Substandard drug
- **b.** Issuance of false warranty

203rd meeting dated 29-03-2019:

Request of the firm to grant fair opportunity of hearing was placed as issue in 203rd meeting dated: 29-03-2019

Request from M/s Opal Laboratories (Pvt.) Ltd. has been received stating that:

1. We write to you on behalf of M/s Opal Laboratories (Pvt.) Ltd. (the "company", our "client").

2. Kindly refer to the previous letter dated 01-02-2019 whereby our client has made a request to your good office for granting of fair opportunity of hearing.

3 That we on the instructions of our Client filed a Review Petition before this honorable Board challenging the Order dated 05-11-2018 of the Provincial Quality Control Board, Punjab. The said Review Petition was lastly fixed for hearing before the honorable Provincial Quality Control Board, Punjab (the "Board") on 31-01-2019 m its 199'" meeting.

4. *That it is pertinent to mention here that no hearing notice for the aforesaid meeting was received by the Company till the date of hearing i.e. 31-01-2019. The associate of the undersigned counsel who was present in the office of the Board to attend hearing of other cases, informed the Company telephonically that their Review Petition is also fixed in the aforesaid hearing*

5. *Since, our Client is based in Karachi, it was impossible for the officials of the Company to*

reach and attend the hearing on a very short notice. Therefore, our Client gave us instructions to seek adjournment on ground of these unavoidable circumstances, which the honorable Board had flatly refused and directed the associate to plead the case knowing the fact that concerned accused persons and supporting documents were not available with him. However, the honorable Board in absence of the representative of the Company and without conducting a proper hearing of our Client has passed the Order dated 31-01-2019. whereby permission for prosecution has been granted to the Drug Inspector illegally, which is against the principles of natural justice, equity and fair play and also against the principle of Audi Alerm Partem'

6 Now. through the instant letter we hereby again request you to kindly provide a fair opportunity of hearing to the Company before taking any action against the Company and the accused persons in the titled case, so that we may properly assist the Board in this case.

7. *It is reiterated here that the absence of the Company and its officials in the meeting dated 31-01-2019 was neither intentional nor deliberate rather it was due to the circumstances mentioned in Para 2-4 of the instant Application. No adverse order could have been passed without hearing the stance of the Company.*

8. *We have a strong and good prima facie case in our favor and there is very likelihood of the case being dropped if the honorable Board may grant us a proper opportunity of hearing.*

9. *It in the interests of justice that stance of the Company may be heard in a proper hearing, therefore, it is requested to kindly consider the instant application and fix our review petition in upcoming meeting scheduled.*

PROCEEDINGS & DECISION BY THE BOARD:

Issue was considered by Provincial Quality Control Board under Section 11 of the Drugs Act 1976 inits 20rd meeting dated 29-03-2019. The Board observed that the review petition filed by the firm has already been upheld by the Board in its 199th meeting dated 31-01-2019 and there is no provision to give a chance of personal hearing after review petition, in view of the foregoing facts, the Board unanimously decided to turn-down the request of the firm.

Honourable High Court Judgment dated: 16-05-2019 in Writ Petition No. 24146/2019 Titled as "M/S Opal Laboratories (Pvt.) Vs Provincial Quality Control Board etc."

"The instant Petition is allowed, order dated 31-01-2019 issued by Respondent No.l is set aside. The review petition filed by the Petitioner shall be deemed pending before the respondent No.l (PQCB) who is directed to decide it afresh in accordance with law within six weeks' time of certified copy of this order."

Personal hearing notice(s) issued to accused person(s).

PROCEEDINGS & DECISION BY THE BOARD:

Subject Review Petition was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 207th meeting held on 13-06-2019. Ms. Barkhoona Waheed Secretary DQCB District Jhelum and Mr Naseer Ahmed Drug Inspector Tehsil & District Jhelum were present along with original case file. Counsel of the firm Miss Sarnia Khalid (Advocate) appeared before the Board and agitated his grievances as mentioned in grounds of the review petition submitted by the firm. She added that according to DTL report the product was tested on Manufacturer specifications but the firm was not asked to provide method of testing. Our product is plain tablet instead of dispersible tablet (which was mistakenly printed on the label of the product sampled), so disintegration time limit of plain tablet (i.e NMT15 min) should have been applied on the product. This incorrect printing of dosage form on the label of the product is an offence under Labelling and Packaging Rules and DTL Rawalpindi was supposed to declare it misbranded instead of substandard. She further added that at the time of manufacturing of the product in question, her client was not Chief Executive officer of the company rather Mr. Tariq Ikram was the Chief Executive Officer/ Managing Director of the company the same is evident from the letter dated 19-12-2018 issued by the Central Licensing Board of the DRAP whereby the change of management of the company is mentioned. As per Section 34 of the Drugs Act, 1976 only those directors are held responsible with whose knowledge the alleged offence is committed.

The Board after detailed scrutiny of the record, grounds of the review petition and verbal arguments submitted by the counsel of the firm, due deliberation &discussion observed that in order to dig out whether the product in question was manufactured under new administration/ ownership or not. the Batch manufacturing record of the product need to be evaluated. Therefore, the Board decided to constitute a committee comprising of the following members to visit **M/S Opal Laboratories LC-41, LITE, Landhi, Karachi** for record verification and submit report for consideration by the Board:

1. **Prof Dr. Mehmood Ahmad** Convenor
   (Member PQCB)
2. **Munawar Hayyat** Member
   Chief Drugs Controller Punjab /Member PQCB

INSPECTION REPORT OF M/S OPAL LABORATORIES (PVT.) LTD, LC-41, L.I.T.E., LANDHI. KARACHI.

Panel Members:

Dr. Prof(R). Mahmood Ahmad, Member, PQCB.

Dr. Muhammad Munawar Hayat CDC Punjab

Date of Inspection: 23-09-2019

Detail of matter and Firm:

The management of the firm is changed on 19th December 2017 which was approved in 256th meeting of CLB DRAP on 09 & 10 November 2017.

- QA of Firm generated request for change the art work of label on 15-01-2018
- Tablet Dologin (Mefenamic acid) 250mg, Batch No. 348 was manufactured on 09/2017.
- The said drug was declared substandard on basis of Disintegration test by DTL Rawalpindi on 07- 05-2018

OBSERVATIONS:

1 The firm is manufacturing **"dispersible"** tablets but having the registration of plain tablets.

2 Product Specification of Tablet Dologin is B.P as mentioned in method and assay is by titration

3 At time of inspection, the production manager of firm informed that firm is now manufacturing the plain dologin tablets from last one years.

4. Currently, the firm is using the same formulation as before without any variation.
5. API Mefenamic acid is of BP specification.
6. On 18/08/2018, firm destroyed the remaining packing material /label bearing dispersible word through Gel Pvt. Ltd.

Batch Processing Record of specific product

1. BMR Record: available.
2. QC retain sample: Not available. Expired.
3. Testing method: available
4. Manufacturing started on 29/09/2017 and completed on 09/10/2017

Manufacturing Process of tablet Dologin 250mg:

1. The firm provided the record of process of manufacturing of tablets Dologin, the firm has no reference of dispersible tables of mefenamic acid of any other firm in the world.
2. The firm developed the method of manufacturing of tablet Dologin by using the one disintegrant at 5% percentage only in final blending and found Primogel (Sodium starch glycolate) as suitable for manufacturing of dispersible Dologin tablets.

Conclusion

The panel is of the opinion that:

1. This defect in tablet is due to improper development of dispersible tablet formulation and the firm has not performed any *in-vitro*tests or study to evaluate the status of dispersible formulation.
2. The Firm has given self-life of 3 years to Plain tablets whereas 2 years of shelf-life has been given to dologin DS tablets.
3. The firm is performing only Disintegration test and not performing dissolution test.

4. The firm has not recalled the drug from the market which is still not expired The expiry of the drug is 08/2020.

5 The firm is manufacturing **dispersible"** tablets illegally while they have the registration of plain tablets

6 The firm is advised to redesign its formulation to differentiate between plain and dispersible Tablet and stop manufacturing of dispersible tablets.

Submitted for final decision to Board.

Personal hearing notice(s) issued to accused person(s).

CURRENT PROCEEDINGS & DECISION BY THE BOARD:

Inspection report was considered by the Provincial Quality Control Board, under section 11of the Drugs Act 1976 in its **213th**meeting held on 15-11-2019. Ms. Barkhoona Waheed Secretary DQCB Jhelum was present along with original record of the case. Counsel of the firm, M. Zohaib Shahid (Advocate) appeared before the Board on behalf of M/S Opal Laboratories LC-41, LITE, Landhi, Karachi and submitted that the statement mentioned on the DTL report that "no monograph of Mefenamic acid dispersible tablet is available in official monographs" as dispersible tablets monograph is available in European Pharmacopeia. He further submitted that mefenamic acid is commonly used to treat mild to moderate pain and its repeated use can cause serious gastrointestinal toxicity, thus, the clinical justification for manufacturing of dispersible Dologin Tablet is to avoid these adverse effects.

Dr. Munawar Hayat, Chief Drugs Controller. Punjab apprised the Board about theobservations made by the inspection team during the visit of the firm. In the light of the facts stated in the inspection report, the Board observed that

- The firm has registration of plain tablets of mefenamic acid but it was manufacturing dispersible tablet which is illegal Moreover, the firm is manufacturing mefenamic acid dispersible tablets, the reference of which is neither available in any pharmacopeia nor such reference is available for its manufacturing by any firm in the world
- The defect in the tablet was due to improper development of dispersible tablet formulation and that the firm has not performed any in-vitro tests or study to evaluate the stability of dispersible formulation.
- The firm was performing only Disintegration test and not performing dissolution test while according to official pharmacopoeia, both tests are necessary to be performed.
- The expiry date of the subject drug is 08/2020 but the firm has still not recalled it from the market.
- According to the letter from DRAP to M/S Opal Laboratories LC-41, LITE, Landhi. Karachi, the management of the firm was changed on 19th December 2017 which was approved in 256th meeting of CLB DRAP on 09 &10 November 2017. However, in PQCB 194thmeeting dated 18-10-2018, the current CEO of the firm appeared before the Board and stated that the firm has been acquired by the new management in June 2017. The subject drug was manufactured in September 2017 i.e.. after the new management acquired the firm Moreover, no sale deed has been provided by the firm about handing/taking over of the firm, in support of the claim that on such date they were having the responsibility of this offense or not. Further, in writ petition no. 24146/2019 as reflected by the orders of Ayesha A. Malik J dated 16-05-2019, the petitioner has not taken any such stance rather he was in the proper defense of case in the High Court in said writ petition.

Keeping in view the foregoing facts, the Board unanimously decided to uphold its previousdecision for grant of permission for Prosecution against the following accused in the Drug Court

1. M/S Opal Laboratories LC-41, LITE, Landhi, Karachi through its Chief Executive Officer Dr. Ali Afzal
2. Dr. Ali Afzal — Chief Executive Officer
3. Ikram Zubairi — Production Manager
4. Rozina Baber — Quality Control Manager/Warrantor

of M/S Opal Laboratories LC-41, LITE, Landhi, Karachi for the offences of:

a. Manufacturing for sale/stocking/Selling of Substandard drug

b. Issuance of false warranty

The Board further decided to recommend the Registration Board, Drug RegulatoryAuthority of Pakistan for cancellation of registration of Tablet Dologin (Mafenamic acid) 250mg manufactured by M/S Opal Laboratories LC-41, LITE, Landhi, Karachi.

Proceeding and Decision of 295th Meeting of Registration Board.

The Board was appraised that similar case was presented in 293rd meeting of the Registration Board wherein the Board decided to take the views comments of the Legal Affairs Division, DRAP, Islamabad.

Legal Affairs Division, DRAP, Islamabad provided their opinion that Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board after thorough deliberations decided to defer the case for further deliberations in the upcoming meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

> **"13.** *No person-*
>
> *(a) Shall be prosecuted or punished for the same offence more than once; or*
>
> *(b) shall, when accused of an offence, be compelled to be a witness against himself."*

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

> *"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."*

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 25: CASE REFERRED BY PQCB, PUNJAB REGARDING DOLOPRIN TABLETS 75MG, B# 006502L, MANUFACTURED BY M/S PACIFIC PHARMACEUTICALS (PVT.) LTD., 30TH km MULTAN ROAD, LAHORE.

The Secretary, Provincial Quality Control Board, Punjab vide reference No.PQCB/R-453-07/2016 dated 30-11-2019 has informed that Provincial Inspector of Drugs Tehsil Rajan Pur reported that:

i. He, on 12-05-2016, inspected the Medical Store Depot, E.D.O (Health) Office Rajan pur and took samples of two different types of drugs on Form No. 04 for the purpose of test and analysis.

ii. One out of two drug samples after test/ analysis was declared as **Sub-standard** by Government Analyst Drug Testing Laboratory Multan, as detailed below:

Name of drug	Batch no.	Name of manufacturer	DTL Report TRA No. & Date	DTL Test Report Results
Tablet Doloprin 75mg	006502L	M/S Pacific Pharmaceutical, (Pvt.) Ltd., 30th Km, Multan Road, Lahore, Pakistan.	TRA NO.5598/DTL dated: 18-06- 2016	**Test/Analysis with Specifications:** Manufacturer's Specifications **Description:** Round pink tablets, packed in outer carton. Some tablets have spots and irregular surface. **(Does not comply with Specifications).** **Assay: (Aspirin)** Stated: 75mg/Tablet Found: 75.80mg/Tablet Percentage: 101.07% Limit: 90-110% **Result:** The sample is **Sub-Standard** on the basis of physical specifications.

iii. Store keeper of Medical Store Depot, E.D.O (Health) Office, Rajan pur provided invoice/ warranty No.PPL/001 dated 04-04-2016 issued by M/S Pacific Pharmaceutical, (Pvt.) Ltd., 30th Km, Multan Road, Lahore, as a proof of its purchase.

iv. A copy of test report and warrantor portion of drug sample was sent to M/S Pacific Pharmaceutical, (Pvt.) Ltd., 30tn Km, Multan Road, Lahore, Pakistan with directions to explain their position and provide requisite information in this regard. In response they requested for retest/analysis of drug sample from Appellate Laboratory NIH, Islamabad.

v. Pursuant to their request, the sample was sent to NIH Islamabad, from where the drug sample was declared **Substandard** as detailed below:

Name of drug	Batch no.	Name of manufacturer	DTL Report TRA No. & Date	DTL Test Report Results Name of drug
				Analysis with Specifications: B.P 2013 **Description:** Pink colored circular, biconvex, coated, plain tablets, packed in blister packing further packed in outer carton.

Dissolution:	Determined:	Limit:
Acid Phase	3.135	NMT 5.0%

Tablet Doloprin 75mg	006502 L	M/S Pacific Pharmaceutical. (Pvt.) Ltd., 30th Km, Multan Road, Lahore, Pakistan.	No. 0131-P/2016 dated 13-10-2016	Buffer Phase **40.37%** NLT 70.0% of the labeled amount (**Does not comply with BP-2013).** **Assay: (Aspirin)** Stated: 75mg/Tablet Found: 78.34mg/Tablet Percentage: 104.45% Limit: 95-105% **Result:** The sample is of **Sub-Standard** quality as defined in the Drug Act, 1976.

vi. Copy of NIH report was sent to M/S Pacific Pharmaceutical, (Pvt.) Ltd., 30th Km, Multan Road, Lahore, Pakistan with directions to explain their position and provide requisite information in this regard.

vii. Drug Inspector requested for grant of permission for prosecution against the above-mentioned accused persons who have contravened the provisions of Section 23/27 of the Drugs Act 1976 and Rules framed there under by the way of:

a. **Manufacturing for sale/sale of Substandard Drug**

b. **Issuance of false warranty**

PREVIOUS PROCEEDINGS OF THE CASE:

PQCB 194th meeting held on 18-10-2018

Case was considered by the Provincial Quality Control Board, under section11 of the Drugs Act, 1976 in its **194th meeting held on 18-10-2018.** Secretary PQCB apprised the Board that the personal hearing notice was duly served to the accused persons through M&P Courier Service.

Counsel of firm Haroon Dugal (Barrister) appeared before the Board and submitted that the appearance of spots on the surface of tablets may be due to temperature or storage conditions of the drug sample. He further added that the QC unit of firm has retested the retained samples and they are according to specifications both physically and chemically. Keeping in view the foregoing facts, the Board with due deliberation and discussion at length unanimously decided to **adjourn the case** in the best interest of justice due to its **incomplete quorum** as the presence of Secretary DQCB is mandatory to complete the quorum of the meeting under law.

Personal hearing notice(s) issued to accused person(s).

PREVIOUS PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its **208thmeeting held on 27-06-2019.** Mr. Sadiq Hussain Secretary DQCB District Rajanpur was present along with original record of the case.

Slama Imran (Representative of the firm) appeared before the Board on the behalf of **M/s Pacific Pharmaceutical, (Pvt.) Ltd., 30th Km, Multan Road, Lahore** and stated that the same batch no. of subject drug sample has been declared of standard quality from DTL Faisalabad and Rawalpindi. He further added that the drug in question is substandard on the basis of dissolution test. According to USP, if a drug sample failed to comply with its dissolution test it should be repeated. Hence in the instant case, analyst of NIH Islamabad failed to repeat the test.

The Board, after detailed scrutiny of the case record and statement of therepresentative of the firm, observed that matter for subject drug need to be evaluated. So, in order to dig out the root cause of this defect the Board decided to constitute a committee comprising of the followings for the Product specific inspection of **M/s Pacific Pharmaceutical, (Pvt.) Ltd., 30th Km, Multan Road, Lahore, Pakistan** to submit report within fortnight for consideration by the Board:

1) **Prof. Dr. Mahmood Ahmed** Convener
Member PQCB

2) **Mr. Munawar Hayyat** Member
Member PQCB

3) **Mrs. Rabeea Sultan** Facilitator

PRODUCT SPECIFIC INSPECTION REPORT

Members of inspection committee:

Prof. (Rtd.) Dr. Mahmood Ahmad	*Member Board (PQCB)*	*Convener*
Dr. Muhammad Munawar Hayat	*CDC Punjab*	*Member*
Ms. Rabeea Sultan	*Incharge Regulatory Wing PQCB*	*facilitator*

Date of Inspection: 31-07-2019

Inspection was conducted with reference to PQCB order no. ***PQCB/R-453-07/2016*** *dated 02-07-2019. Tablet Doloprin 75mg, batch no. 006502L was declared substandard vide DTL test report no. 5598/DTL dated: 18-06-2016 from DTL Multan based on physical specifications i.e. Round pink tablets, packed in outer carton. Some tablets have spots and irregular surface. The sample was sent to NIH on request of the firm from where the sample was declared substandard based on dissolution test i.e., only 40.37% of the labeled amount of the tablet was found in buffer phase however B.P requires that it should not be less than 70.0% of the labeled amount.*

Premises:

The manufacturing unit was established in 1990.lt is MHRA certified pharmaceutical company having 180 finished products and exporting up to 28 countries. It is ISO 1400:2004 certified Pharmaceutical Company by SGS. The manufacturing unit comprises of two main blocks. In first block there is tablet section, capsule section, syrup section and semi-solid section. While in second block there are dedicated sections for narcotics, anti-tuberculosis drugs and hormones. Manufacturing area and Q.C is located on the ground floor while the administration department is on the first floor of the building. The drug in question i.e., Doloprin 75mg tablets enteric coated tablet was registered vide letter No.F.3-2/98-REG.II(M-133) dated 20-05-1998 having registration No.021647.

Detail of Product:

Doloprin 75mg Tablet, Batch No. 006502L, Date of Mfg. 02-16. Exp. Date 01-19

Technical Staff

Designation	*Name*
Director/ Quality Control In	*Ahmed Junaid Rashid*
Production In charge	*Imtiaz Hussain*
QC Manager/warrantor	*Imran Shehzad*

Detail of Inspection/Observations:

1. *Product Specification of tablet doloprin 750mg is B.P 2013 specification. Since registration B.P method is used for testing. The primary reference standard available was USP aspirin having Lot no R059RO.*
2. *The temperature and humidity charts were displayed and filled accordingly. At the time of inspection temperature in Raw Material Store was 24°C and humidity was 48%.*
3. *There were proper air showers, cross over bench and separate entrance and change rooms for male and female staff.*
4. *Raw Material Store of the unit has designated dusting area, quarantine area, rejection area and sampling area.*
5. *HVAC system is installed and is operational.*
6. *Mixing area has three rooms for mixers, where two mixers having capacity of 200kg and 1 mixer having capacity of 100kg are present. There is a separate room for fluidized bed dryer having capacity of 100kg and two rooms for wet granulation. The final mixing is done in V-mixer which has*

a capacity of 700kg. Most of the batches are of 200kg.

7. *In production area temperature, humidity and differential pressure were properly maintained and manometric devices were in order.*

8. *In compression room-1 compression of tablet plasenzym was in process the temperature and humidity was 26°C and 48% respectively. In compression room-2 compression of tablet Glupac SR in compression room-3 compression of tablet levopraid 25mg was in process the temperature and humidity were well maintained. Compression room no.04 was temporary in process quarantine at the time of inspection.*

9. *In capsule section the temperature and humidity at the time of inspection was 24.9°C and 52% respectively. The capsule filling machine was fully automatic attached with dust collectors etc. having filling capacity of 800cap /min. The section had a portable polisher as well.*

10. *The unit has automatic machines for sugar coating, enteric coating and film coating. During inspection spray coating of tablet Bromelin was in process in coating room no.02.*

11. *General liquid section has 09 storage tanks with different storage capacities. Manometric devices were properly installed and differential pressures were well maintained.*

12. *Personnel and materials entry are separate in manufacturing area.*

13. *There is a proper transfer gallery in manufacturing area.*

14. *There are 03 rooms for blistering and the machines of the blistering area are attached to conveyer belts of the packing area in a proper flow. At the time of inspection packing was in process on the four belts and the temperature and humidity of the packing hall was 27.3°C and 51% respectively.*

15. *The Quality Control Section has wet chemistry lab, in process quality control Lab. microbiological lab and instrumental lab. All the labs are well equipped having 05 HPLC, FTIR. Kai Fischer, viscometer, digital polarimeter, U.V spectrophotometer, atomic absorption spectrophotometer, potentiometer, automatic dissolution apparatus, filtration pump, muffle furnace, disintegration apparatus, friabilator, hardness tester, etc.*

16. There is a separate stability room having total 05 stability chambers where real time, accelerated and intermediate stability studies are done for hot plate real time stability chamber and accelerated stability chamber etc.

17. All 05 HPLC are operational and are fully automated, analysts working on HPLC are assigned specific login id and password and once an analysis is done and result is generated no change can be done.

18. *During inspection HPLC data of doloprin tablet batch no Al 0212N was checked from record. It was analyzed on HPLC on 30-01-2019.The standard and sample curves of chromatograms were checked and was found to be 6.1 and 6.092 respectively and it was verified with the QC results from the record which was found to be within the specified limits.*

19. *Log book of columns C18 (300x3.9mm) and (250X4.6mm) of the HPLC was checked during inspection it was well maintained.*

20 Operational safety alarms, air showers, smoke detector and insect killers are installed in all sections.

21. SOP for finished product testing having document no. QCFG/03/0017 Revision no.01 dated 26-07-2016 was checked and the method for testing was in accordance with the test and method specified in B.P.

Batch Processing Record of specific product:

1. *BMR Record: available.*
2. *QC retain sample. Not Available. Expired on 01-2019*
3. *Batch size. 800,000 tablets*
4. *Testing method: B P 2013*
5. *Bulk weight: 132000kg*
6. *Theoretical yield= 800,000tabs*
7. *Practical yield=805,860tabs*
8. *Manufacturing started on 16-02-2016*
9. *Labelling / Packing: 01-03-2016*

10. *Expiry date: 01/2019.*
11. *Percentage purity of API=100.27%*
12. *API issued was 60 kg per batch.*
13 *In process QC: Available*
14 *Reconciliation sheet: available*
15. *Record of in-process testing of Doloprin 75mg tablets and chromatograms of batch no.006502L were thoroughly checked. According to BMR of the subject batch dissolution test was conducted on 16-02-2016 and following results were obtained.*

Tablet	*%age release in 0.1 N HCI in first 02 hours*	*%age release in 6.8 Phosphate buffer after 01 hour*
1	*3.54%*	*85.82%*
2	*3.54%*	*93.85%*
3	*3.96%*	*91.69%*
4	*3.34%*	*92.31%*
5	*2 50%*	*83.66%*
6	*3.34%*	*90.76%*
Average	*3.37%(NMT 5%)*	*89.68%(NLT 70%)*

16. *Record of finished product testing of Doloprin 75mg tablets and chromatograms of batch no.006502L were also thoroughly checked. According to BMR of the subject batch dissolution test was conducted on 04-03-2016 and following results were obtained.*

Tablet	*%age release in 0.1 N HCI in first 02 hours*	*%age release in 6.8 Phosphate buffer after 01 hour*
1	*2.96%*	*99.49%*
2	*2.75%*	*99 80%*
3	*2.75%*	*100.12%*
4	*2.96%*	*99.80%*
5	*2.53%*	*97.59%*
6	*2.53%*	*99.80%*
Average	*2.75% (NMT 5%)*	*99.43%(NLT 70%)*

18. *Testing of finish product is as per specification and assay of finished product prior to release in FGS was 99.79%.*
19. *Aspirin was purchased from Ali Baba Chemicals and according to COA its assay was 100.27%.*

Conclusion:

The panel is of the opinion that

1. *The drug was declared substandard by Govt. Analyst. Drug Testing Laboratory, Punjab was on physical ground having spots and rough surface of the tablet whereas declared substandard by NIH on dissolution test. From reflecting the different aspects, the inspection was conducted in derail to address all parameters of manufacture to correlate the any defect in manufacturing, but not found.*
2. *Remedial measures were taken by the firm by improving the standards of manufacturing at all levels.*
3. *No record for recalling the drug product was provided by the firm.*
4. *No CAPA was generated by the firm and Root-cause analysis was not performed.*

PROCEEDINGS & DECISION BY THE BOARD:

Case was considered by the Provincial Quality Control Board, under section 11of the Drugs Act 1976 in its **214th meeting held on 30-11-2019.** Secretary DQCB Rajanpur Mr Sadiq Hussain and Drug Inspector Rajanpur Mr. Rauf Ahmed Meo both were present with original case file. Prof. (R) Dr.

Mahmood Ahmad (Convener of PSI Committee) apprised the Board about findings and conclusion of the PSI Committee. Panel was of the opinion that no CAPA was generated by the firm and Root-cause analysis was not performed. Moreover, no record for recalling the drug product was provided by the firm.

Counsel of the firm Advocate Shahzaib Bhatti and accused Imtiaz Hussain(Production Incharge) appeared before the Board and submitted the following grounds/remedial measures taken by firm.

i. Warrantor and retained sample portion were thoroughly checked and found to be of standard quality in all parameters.

ii. Our Quality Assurance Department is well established and working properly.

iii Each batch is released by QC Department after though examination by international standard test/ analysis via sophisticated HPLC Methods. HPLC Trails are present showing all the results of standard quality.

iv We have proper SOP for batch recall and until now three volunteer recalls have done in the past at different levels.

v. The batch in question was of 8 lakh tablets and supplied to institution as well in market. Upon receipt of substandard report a distributer level recall was done regarding the batch. He requested the Board for lenient view.

The Board, after detailed scrutiny of NIH report and PSI report observed that noCAPA was generated by the firm and Root-cause analysis was not performed. No record for recalling the drug product was provided by the firm. According to NIH report the drug was having a very poor release profile as only 40.37% (instead of >70%) drug was released in buffer Phase. Prof. Dr. Irshad Hussain Qureshi (Professor of Medicine/ Member PQCB) was of the opinion that such low quantity of released drug is unable to produce its therapeutic effect. He was of the opinion that DRAP should review the registration of the product in light of this NIH report and guidelines for manufacturer should be issued to improve release profiles for such formulations. Moreover, unnecessary use of platelet inhibitors (e.g. Aspirin) should be discouraged as this may increase the risk of brain hemorrhage by causing small capillary rupture by blood thinning effect.

In view of foregoing facts, the Board after due deliberation and discussion decided to grant **permission for prosecution** against the following accused persons in theDrug Court:

i. M/s Pacific Pharmaceuticals, (Pvt.) Ltd., 30th KM, Multan, Lahore through its Director Junaid Rashid.
ii. Ahmad Junaid Rashid — Director/Quality Control Incharge.
iii. Imtiaz Hussain — Production Incharge.
iv. Faisal Imran — Marketing Incharge.
v. Imran Shahzad — Warrantor/QC Manager.

Of M/s Pacific Pharmaceuticals, (Pvt.) Ltd., 30th KM, Multan, Lahore for the offences of

a) **Manufacturing for Sale/ Sale of Substandard Drug**
b) **Issuance of its false warranty**

The Board further endorsed the comments of Prof. Dr. Irshad Hussain Qureshi and decided to recommend DRAP to review the registration of the subject drug in light of the NIH report and guidelines for manufacturers should be issued to improve release profiles for such enteric coated formulations. Moreover, Dispersible formulation of Aspirin instead of enteric coated formulation should be promoted as drug release defects in enteric coated formulations are more common.

The Board further recommended the Director Registration Board, DRAP, Islamabad to review the Registration of the Subject Drug.

Proceeding and Decision of 295th Meeting of Registration Board.

The Board was appraised that similar case was presented in 293rd meeting of the Registration Board wherein the Board decided to take the views comments of the Legal Affairs Division, DRAP, Islamabad.

Legal Affairs Division, DRAP, Islamabad provided their opinion that Registration Board may issue the show cause notice under rule 24(17) of Drugs (Licensing, Registration & Advertising) Rules, 1976 to the firm in the light of recommendations of PQCB.

However, member of the Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) was of the opinion that as the Provincial Quality Control Board has already prosecuted the accused, hence Registration Board cannot take any action in this regard since it will attract double jeopardy.

Decision:

Registration Board after thorough deliberations decided to defer the case for further deliberations in the upcoming meeting.

Proceeding & decision of 296th meeting of Registration Board.

Member of Registration Board from Law & Justice Division (M. Aslam, Deputy Draftsman, Islamabad) read the article 13 of the constitution of Pakistan and is reproduced as under;

> **"13.** *No person-*
>
> *(a) Shall be prosecuted or punished for the same offence more than once; or*
>
> *(b) shall, when accused of an offence, be compelled to be a witness against himself."*

Furthermore, he also discussed the Punjab drug rules, 2007 wherein he read the sub rule (3) of rule 5 and is reproduced as under;

> *"(3) The Provincial or the District Board shall examine a case referred to it by an inspector and shall, if an action is proposed to be taken against a person under the Act or the Rules, issue a show cause notice to the person and provide him an opportunity for hearing before taking the action about the prosecution of the person or recommending suspension or cancellation of his license to the licensing authority."*

The member of Law & Justice Division () further added that in view of the above said facts it is evident that Provincial Quality Control Board can only take one action under the Punjab Drug Rules 2007, i.e.

i. Either grant the permission for prosecution against the accused in the court of competent jurisdiction

OR

ii. Recommending suspension or cancellation of his license to the licensing authority

Decision of the 296th meeting of Registration Board:

The Board after thorough deliberation, considering the facts of the case and comments of the Member Law & Justice Division decided that since the prosecution has already been granted against the accused person(s) by PQCB Punjab therefore, any other action against the accused would attract double jeopardy. Hence, the Board decided to refer the case back to the PQCB Punjab as the recommendations cannot be considered keeping in view the legal position recorded above.

Case No. 26: Manufacture & Sale of Sub-Standard Drug Revox 500mg Tablets Batch No. 17GT01 Reg. No. 045265 manufactured by M/S Uni-Teich Pharmaceutical (Pvt.) Ltd. Karachi.

FID-II Karachi visited the premises of M/s Uni-Tiech Pharmaceutical (Pvt.) Ltd., Plot No.4/116, Sector-21 Korangi Industrial Area, Karachi on 23-10-2017 and taken the following sample U/S 18(1) (c) of the Drugs Act, 1976 for the purpose of test/analysis on prescribed Form-3:

Name:	Revox 500mg Tablets
Composition:	Each tablet contain 500mg Levofloxacin.

Proceeding and Decision of the 287th Meeting of Registration Board.

Mr. Muhammad Hashim (Production Manager) of M/s Uni-Teich Pharmaceutical (pvt.) Ltd, Plot No. 4/116, Sector-21 Korangi Industrial Area, Karachi appeared on behalf of M/s Uni- Teich Pharmaceutical (pvt.) Ltd, Plot No. 4/116, Sector-21 Korangi Industrial Area, Karachi to plead instant case of Substandard drug Sub-Standard Revox 500mg Tablets Batch No.17GT01 Reg. No. 045265 before the Board in its 287th meeting on 04th January, 2019.The Board after hearing the accused deliberated the matter in depth in the light of available record/investigation report of FID decided as under:

i. Submission of product development data by the firm.
ii. Product Specific Inspection including verification of product development data by the following panel:
    - Director, Drug Testing Laboratory, Karachi.
    - Area Federal Inspector of Drugs.
iii. Suspension of the Registration of the said product for six (06) months or till the verification of data and satisfactory report by the panel whichever is later.

The above said decision of the Registration Board was communicated to the quarter concerned vide No.F.03-92/2018-QC (287-RB) dated 28th February, 2018.

FID-II, DRAP, Karachi vide reference No.F.03-02/2020-FID-II (K) forwarded the Product Specific Inspection report of the subject cited drug. The report forwarded by the FID, DRAP, Karachi is reproduced as under;

Ms. Uni-Tiech Pharmaceuticals (Pvt.) Ltd, situated at Plot No.4/116, Sector-21 Korangi Industrial Area Karachi was visited & inspected on 30/01/2020 as per instructions contained in DRAP Islamabad Letter No. F.03-92/2018-QC (287-RB), Dated: 28th February 2019. Mr. Munsif Ali Qureshi Plant Manager, Muhammad Hashim Production Manager, Miss. Ameer Zaadi QC Manager and other technical persons from respective departments assisted during the course of inspection. Followings are the detailed observations and recommendations of the visit.

HISTORY OF THE CASE:

1. *Samples of Tablet Revox-500mg Batch No. 17GT01were taken 23/10/17 during routine inspection of the then FID.*
2. *The said samples were sent to FGA CDL Karachi for testing on 24/10/17.*

3. *The FGA CDL Karachi declared the above sample as of Sub-standard quality based on Dissolution test; vide the test report No.KQ-586/2017 Dated: 13/12/17.*

4. *After FGA CDL report, the firm requested for retesting of their sample from NIH Islamabad as per law.*

5. *The Chief Analyst NIH Islamabad Vide test report No.04-M/2018, Dated: 13th March 2018, maintained the results of FGA CDL Karachi and declared the samples as of Sub-standard quality based on same Dissolution Test.*

6. *The Drug Registration Board in its 287th Meeting on 03rd& 04th January 2019, after listening Firm's point of view decided to suspend the registration of said product for six month or till the verification of product development data and satisfactory report by the panel.*

CURRENT OBSERVATIONS OF THE PANEL:

1. *The panel observed that the firm has kept the production of Tablet Revox-500mg suspended after the decision of Board concerned. Relevant manufacturing records in this respect including procurement of raw material, packaging materials, sales record and log-books were carefully checked and observed that the firm has not manufactured any commercial batch of Tablet Revox-500 mg since its suspension.*

2. *During the suspension period the firm started to redevelop the product and three trial batches (Each consists of 5000 Tablets) of the said product had been manufactured with revised formulation. Sufficient quantities of trial batches were kept on accelerated stability studies in a qualified climatic chamber. Manufacturing processes in this respect were validated as per protocols in place. Active material was obtained from ZAFA Pharmaceuticals Karachi. The trial batches were manufactured under appropriate GMP conditions as observed from BMR.*

CONCLUSION:

The panel after reviewing relevant data & physical inspection of the QC Lab and production section observed that three trial batches of Tablet Revox-500 MG were manufactured and each batch yielded the satisfactorily results during manufacturing & under stress stability conditions, especially Q value of Dissolution Test fallen within the specified limits.

RECOMMENDATIONS:

Based on the stated observations and keeping in view the attitude of the management towards continuous improvements, the panel unanimously recommends to the Board concerned, the resumption of production of Tablet Revox-500 MG as the necessary suspension period has been passed and the firm has satisfactorily carried out the product development studies of under reference product as well.

Proceedings & Decision of 296th Meeting of registration Board.

Registration Board decided to refer back report to the panel for determining / confirmation of Root Cause Analysis and CAPA emerged after the report.

i. The applicants can submit their applications till 30-09-2020 and these applications will be considered out of queue.

ii. Registration Board shall consider grant of registration and submission of data of product development and 6 months accelerated and 6 months real time stability studies data before sale of product along with other data as may be required

Proceedings & Decision:

The Registration Board considering the above cited Authority's decision regarding priority consideration of Potassium Iodide tablets in light of approvals granted by the reference regulatory authorities decided upon the following applications as mentioned against each case:

1.	**Name and address of manufacturer / Applicant**	**M/s Bio Mark Pharmaceuticals. Plot No. 527, Sundar Industrial Estate, Lahore**
	Brand Name +Dosage Form + Strength	**Biodat 130mg Tablet**
	Composition	Each tablet contains: Potassium Iodide…130mg
	Diary No. Date of R& I & fee	Dy. No 22668 dated 04-09-2020, Rs.20,000/- dated 04-09-2020
	Pharmacological Group	Antidote
	Type of Form	From-5
	Finished product Specification	USP
	Pack size & Demanded Price	10's, 20's, 30's, As per SRO
	Approval status of product in Reference Regulatory Authorities.	USFDA Approved
	Me-too status	Reg # 036721 Bosch Pharma
	GMP status	13-2-2020, GMP was compliant on the day of inspection.
	Remarks of the Evaluator.(VI)	Reference product is uncoated.
	Decision: Approved. The Board further decided that registration shall be valid for one (01) year only and the registration holder shall perform product development including stability studies for 6 months as per intervals and data requirements decided by Registration Board in its 293rd meeting and shall submit within one year time for consideration by Registration Board for further extension of validity period of registration.	
2.	Name and address of manufacturer / Applicant	M/s Seraph Pharmaceuticals. Plot No. 210, Industrial Triangle, Kahuta Road, Islamabad.
	Brand Name +Dosage Form + Strength	**KI 130mg Tablet**
	Composition	Each Tablet Contains: Potassium Iodide…130mg

	Diary No. Date of R& I & fee	Dy.No 22666 dated 04-09-2020 Rs.20,000/- dated 03-09-2020
	Pharmacological Group	Antidote
	Type of Form	From-5
	Finished product Specification	USP
	Pack size & Demanded Price	As per SRO, As per SRO
	Approval status of product in Reference Regulatory Authorities.	USFDA Approved
	Me-too status	Reg # 036721 Bosch Pharma
	GMP status	CGMP certificate valid till 10-7-2022.
	Remarks of the Evaluator.(VI)	
	Decision: Approved. The Board further decided that registration shall be valid for one (01) year only and the registration holder shall perform product development including stability studies for 6 months as per intervals and data requirements decided by Registration Board in its 293rd meeting and shall submit within one year time for consideration by Registration Board for further extension of validity period of registration.	
3.	Name and address of manufacturer / Applicant	M/s Seraph Pharmaceuticals. Plot No. 210, Industrial Triangle, Kahuta Road, Islamabad.
	Brand Name +Dosage Form + Strength	**KI 65mg Tablet**
	Composition	Each Tablet Contains: Potassium Iodide…65mg
	Diary No. Date of R& I & fee	Dy.No 22665 dated 04-09-2020 Rs.20,000/- dated 03-09-2020
	Pharmacological Group	Antidote
	Type of Form	From-5
	Finished product Specification	USP
	Pack size & Demanded Price	4's, 1x10's, 10'sx10's, As per SRO
	Approval status of product in Reference Regulatory Authorities.	USFDA Approved
	Me-too status	Orin 65mg Tablet of M/s Tabros Pharma (Reg.# 032360)
	GMP status	CGMP certificate valid till 10-7-2022.
	Remarks of the Evaluator.(VI)	Me-too status is not confirmed
	Decision: Approved. The Board further decided that registration shall be valid for one (01) year only and the registration holder shall perform product development including stability studies for 6 months as per intervals and data requirements decided by Registration Board in its 293rd meeting and shall submit within one year time for consideration by Registration Board for further extension of validity period of registration.	
4.	Name and address of manufacturer / Applicant	M/s Shaigan Pharmaceuticals (Pvt) Ltd, 14 KM Adyala Raod Post Office Daghal, Rawalpindi
	Brand Name +Dosage Form + Strength	**Thiodide 65mg Tablet**
	Composition	Each Tablet Contains: Potassium Iodide…65mg
	Diary No. Date of R& I & fee	Dy.No 22785 dated 04-09-2020 Rs.50,000/- dated 04-09-2020
	Pharmacological Group	Antidote
	Type of Form	From-5D
	Finished product Specification	USP

The Board further decided that registration shall be valid for one (01) year only and the registration holder shall perform product development including stability studies for 6 months as per intervals and data requirements decided by Registration Board in its 293rd meeting and shall submit within one year time for consideration by Registration Board for further extension of validity period of registration.	

Case No. 02 PRIORITY REGISTRATION OF FLUDROCORTISONE TABLETS

The Drug Regulatory Authority of Pakistan in its 91st meeting held on 4th September 2020, exercising its power under Rule 26 of Drugs (LRA) Rules amended vide SRO 713(I)/2018 dated 8th June, 2018, allowed to submit registration applications on Form 5 / Form 5-A / Form 5-D instead of Form 5F, for Registration of Fludrocortisone tablets in light of approvals granted by the reference regulatory authorities and with the following additional conditions:

a. *The applicants can submit their applications till **30-09-2020** and these applications will be considered out of queue.*

b. *Registration Board may consider grant of registration and submission of data of product development and 6 months accelerated and 6 months real time stability studies data before sale of product along with other data as may be required.*

Proceedings & Decision:

The Registration Board considering the above cited Authority's decision regarding priority consideration of Fludrocortisone tablets, in light of approvals granted by the reference regulatory authorities decided upon the following applications as mentioned against each case:

13.	**Name and address of manufacturer / Applicant**	**"M/s Tabros Pharma Pvt Ltd. L-20/B,Sector-22, Federal B Industrial Area, Karachi"**
	Brand Name +Dosage Form + Strength	Fludrocort 0.1mg Tablet
	Composition	"Each Tablet Contains: Fludrocortisone Acetate…0.1mg"
	Diary No. Date of R& I & fee	Dy. No 44230 dated 28-12-2018 Rs.20,000/- Dated 28-12-2018
	Pharmacological Group	Mineralocorticoid
	Type of Form	Form-5D
	Finished product Specification	USP
	Pack size & Demanded Price	Rs. 6.25/- per tablet Rs. 125/- per 20's
	Approval status of product in Reference Regulatory Authorities.	Approved by MHRA of UK
	Me-too status	--
	GMP status	Last inspection report 07-02-2018 concluding as under: On the basis of current inspection, it was observed that the firm rectified all observations noted during last GMP Inspection
	Remarks of the Evaluator[2]	• Evidence of required manufacturing facility required. • Evidence of me-too status required.
	Decision of 289th meeting: Deferred for following: • Evidence of approval of required manufacturing facility for applied formulation from CLB.	

	• Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.
	Evaluation by PEC: Firm has been granted section approval vide letter issued by Secretary CLB dated 27-09-2019, declaring approval of following two sections for M/s Tabros Pharma. • Tablet General - Amendments (granulation area) • Tablet (Steroid) Regularization
	Decision: Approved for manufacturing in Tablet (Steroid) section. Registration letter will be processed after submission of differential fee of Rs. 30,000/-. The Board further decided that registration shall be valid for one (01) year only and the registration holder shall perform product development including stability studies for 6 months as per intervals and data requirements decided by Registration Board in its 293rd meeting and shall submit within one year time for consideration by Registration Board for further extension of validity period of registration.

Case No. 3: GUIDANCE DOCUMENT FOR SUBMISSION OF APPLICATION ON FORM 5-F (CTD) FOR REGISTRATION OF PHARMACEUTICAL DRUG PRODUCTS FOR HUMAN USE.

Registration Board was apprised that in its 293rd meeting, explanatory notes for Form 5-F (CTD) were approved. Later, PE&R Division transformed these explanatory notes into a guidance document with detailed explanation for each module and section of Form 5F (CTD). This guidance document will facilitate the applicants on the related requirements in step by step manner.

Registration Board was apprised about instant guidance document covering 5 modules with details. The Board approved the subject guidance document for submission of application on Form 5-F (CTD) for registration of pharmaceutical drug products for human use and also appreciated the continuous efforts of PE&R Division for preparing a comprehensive document for effective implementation of Form 5F (CTD). The detailed document is explained as under:

GUIDANCE DOCUMENT FOR SUBMISSION OF APPLICATION ON FORM 5-F (CTD) FOR REGISTRATION OF PHARMACEUTICAL DRUG PRODUCTS FOR HUMAN USE

Document No.: **GL No. DRAP/PER-000/04**
Document History: **1st Edition**
Effective Date:

Drug Regulatory Authority of Pakistan
Islamabad - Pakistan.

Table of Contents

1. HISTORY

This is the first edition of these guidelines.

APPLICATION[1] - Guidance for Industry

This document is applicable to the firms who intends to apply for registration / Marketing Authorization of pharmaceutical drug products for human use.

2. SCOPE

The scope of this Guideline is limited to application on Form-5F (CTD) for registration of pharmaceutical drug products for human use.

3. BACKGROUND

Section 7 (c) (ix) of DRAP Act 2012, mandated the systematic implementation of internationally recognized standards of World Health Organization, International Conference on Harmonization (ICH), and Food and Drug Administration guidelines etc.

These guidelines conform and shall be read in consistence to DRAP Act, 2012 and Drugs Act 1976 and Rules framed there under.

[1] The Guidance document is prepared by Drug Regulatory Authority of Pakistan for better illustration of data requirements of the Form 5-F (CTD). However, content of guidance document only reflects the current thinking perspective of the Authority on the subject and does not create or confer any rights for or on any person and does not operate to bind the Authority or the public.

GLOSSARY

ACRONYMS

API	Active Pharmaceutical Ingredient
BAN	British Approved Name
BCS	Biopharmaceutics Classification System
BP	British Pharmacopoeia
BSE	Bovine Spongiform Encephalopathy
CAS	Chemical Abstract Service
CEP	Certificate of Suitability
CoA	Certificate of Analysis
CPP	Critical Process Parameters
CQA	Critical Quality Attribute
CTD	Common Technical Document
DML	Drug Manufacturing License
DRAP	Drug Regulatory Authority of Pakistan
EPAR	European Public Assessment Report
FDA	Food & Drug Administration of United States
GCP	Good Clinical Practices
GLP	Good laboratory Practices
GMP	Good Manufacturing Practices
ICH	International Conference on Harmonization
INN	International nonproprietary name
IR	Infrared
JP	Japanese Pharmacopoeia
LR&A	Licensing, Registering & Advertising
MS	Mass Spectrometry
NMR	Nuclear Magnetic Resonance
OSD	Oral Solid Dosage form
PAR	Public Assessment Report
Ph.Eur	European Pharmacopoeia
Ph.Int	International Pharmacopoeia
PMDA	Pharmaceuticals and Medical Devices Agency of Japan
RRA	Reference Regulatory Authority
SAE	Serious Adverse Events
TSE	Transmissible Spongiform Encephalopathies
USAN	United States Adopted Name
USP	United States Pharmacopoeia
UV	Ultraviolet-Visible
WHO	World Health Organization

1. INTRODUCTION

This guidance is developed to assist manufacturers and importers in developing their applications for registration of human pharmaceutical drug products. Drug Regulatory Authority of Pakistan (DRAP) has adapted CTD format for registration of all such drugs vide SRO-713(l)/2018 dated 8th June 2018. The detailed guidance regarding the data requirement for CTD format has been provided in ICH M-4 guidelines. Since the DRAP is introducing the CTD in a progressive manner, therefore, initial guidance to applicants would be helpful for harmonization and appropriate data submission to achieve consistency and uniformity of application.

This guidance document is developed on the basis of best available knowledge and scientific data / evidence.

2. LEGAL PROVISIONS

Rule 26 of the Drugs (Licensing, Registering and Advertising) Rules, 1976, as amended vide S.R.O 713(I)/2018 dated 8th June, 2018, under 26(1) section provides the standard formats and requirements for submission of registration application dossier on Form 5F (Common Technical Documents) for registration of Human drugs.

3. GENERAL GUIDANCE FOR APPLICANTS

For submitting applications on CTD format, applicant needs to follow the following general instructions/guidance to ensure proper submission.

1. Module 1 (Administrative part) shall be prepared as provided in Form-5F without deleting any component. Applicant shall mention "Not applicable" with proper justification for those parts which are not related to any particular application.

2. Quality Overall Summary (QOS) in module 2 shall be prepared using WHO QOS-PD template or template provided hereinafter without deleting any component / table of the template. Applicant shall mention "Not applicable" with proper justification for those parts which are not related to any particular application.

3. The Quality overall Summary (QOS) prepared as per WHO QOS-PD template or template provided hereinafter needs to be submitted as "MS Word document" in CD / USB as well.

4. Application shall be submitted along with complete data as per the module 3.

5. Each section / sub section of CTD application shall be properly segregated using page separators.

MODULE 1: (ADMINISTRATIVE PART)

1.1 Covering Letter and Fee Deposit Slip

a) Covering letter on the Applicant company / manufacturer / importer letter head in context to the application for the registration of the Pharmaceutical Drug Product shall be submitted, which shall be dully signed by owner/ authorized person on behalf of company/ manufacturer/ importer as per below mentioned format:

"I / We ……..... of ……hereby apply for registration of the drug, namely ……details of which are enclosed."

b) An original cash deposit slip endorsed by Budget & Accounts Division, DRAP of prescribed fee as per Schedule-F of L R & A Rules, 1976, for specified category shall be attached therewith.

1.2 Table of Contents (From Module 1 to Module 5)

a) A comprehensive Table of Contents shall contain Module and sub module heading with page number on the pharmaceutical dossier. The contents of all the Module from 1 to 5 shall be covered. Comprehensive Table of Contents is different form individual table of contents in the beginning of each Module.

b) Also, a complete list of all documents provided in the registration dossier by Module, Section and sub-section shall be included.

1.3 Applicant Information

1.3.1. Name, address and contact details of Applicant / Marketing Authorization Holder:

a) In this section, administrative information related to the applicant is required.

b) It is necessary to provide the complete particulars of the applicant, which shall contain:

i. Name of Licensed Pharmaceutical Manufacturer / Licensed Importer having Drug Sale License by respective licensing authority

ii. Manufacturing Site Address of Pharmaceutical unit or address of the godown / warehouse in case the applicant is Drug Sale license Holder

iii. Contact details, including postal address, telephone contact number, Fax number, website and email address.

1.3.2. Name, address and contact details of manufacturing site

There could be following three situations:

a) **The applicant is manufacturer**
Provide the details including name, DML number and complete address of the manufacturing site of the applicant (manufacturer).

b) **Contract Manufacturing (The applicant is not manufacturer for the applied product)**
Provide the details including name, DML number and complete address of the manufacturing site of the manufacturer.

c) **Import (The applicant is importer for the applied product)**
Provide the details including name and complete address of the manufacturing site and name of marketing authorization Holder/ Product License Holder for the applied product.
In case multiple manufacturing sites are involved, provide details for each.

1.3.3. Specify whether the Applicant is:

□ Manufacturer
□ Importer
□ Is involved in none of the above (contract giver)
This point requires the status of applicant for the instant product.

The applicant must select one of the above mentioned options. A manufacturer will provide all the requisite information as per Registration procedure of Pakistan, subsequently mentioned in 1.3.4-1.3.5.

- An importer shall provide Certificate of Pharmaceutical Product (CoPP) / Free Sale certificate and GMP certificate of the Manufacturer issued by relevant regulatory authority in the country of origin and name of exporting country.
- "c" is for Contract Manufacturing as per Rule 20-A of Drugs (Licensing, Registering and Advertising) Rules, 1976.

1.3.4. Valid Drug Manufacturing License (DML) of manufacturer / Applicant or Drug Sale License, whichever is applicable.

a) For drug to be locally manufactured, copy of valid Drug Manufacturing License (DML) issued by Licensing Division, DRAP.
b) For drugs to be imported, copy of valid Drug Sale License (DSL) issued by relevant licensing authority. The address of applicant mentioned on Drug Sale License (DSL) shall match with the information provided in sub-section 4.3.1 and sole agency agreement / letter of authorization between applicant and marketing authorization holder (abroad).

1.3.5. Evidence of approval of manufacturing facility / Approved Section from Licensing Authority

a) To be provided if option **a** or **c** is selected in sub-section 1.3.3
b) Approval letter of the section (Dosage form) in which manufacturing of the applied product is to be carried out needs to be submitted or panel inspection report conducted for renewal of DML or grant of GMP certificate. In case of contract manufacturing, the same documents from the contract manufacturer shall be submitted.
c) GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted.

1.3.6. List of already approved registered drugs in this section

The submission against this point is optional

1.3.7. Identification of Signature(s) of authorized persons, Incharge Production, Quality Control and Incharge Quality Assurance

The submission against this point is optional**.**

1.3.8. Manufacturer's Site Master File and Credential (for importer)

The submission against this point is optional.

1.4 Type of Application

1.4.1. Application is for the registration of:

□ New Drug Product (NDP)
□ Generic Drug Product (GDP)

a) New Drug Product (*Product not already registered in Pakistan*) includes New Molecule/ New strength / New Formulation.
b) It is important to specify here whether the applicant has submitted the CTD for a New Drug Product Registration or a Generic Drug Product.

1.4.1 Pharmaceutical product is intended for:

□ Domestic sale
□ Export sale
□ Domestic and Export sales

a) Applicant needs to clarify whether the applied product (drug product) is intended for sale in domestic market or both for domestic and export market.

b) For Export only registrations application on Form 5F (CTD) is already exempted by the Authority vide its Circular No. F.1-21/2019-Add:Dir. (PE&R) dated06-02-2019.

1.4.2. For imported products, please specify one of following:

- **Finished Pharmaceutical Product Import**
- **Bulk Import and local repacking (specify status of bulk)**
- **Bulk Import Local Repacking for Export purpose only**

This point only pertains to registration applications of drug products for import.
The applicant / importer needs to specify whether the import is of finished pharmaceutical product or of bulk product. In case of bulk import local repack, the applicant also needs to provide following documents:

a) Evidence and GMP status of packing facility for the bulk imported drug to be repacked and batch release.
b) Agreement between the importer and the firm responsible for local repacking in Pakistan.

1.4.3. Contract Manufacturing as per Rule 20-A of Drugs (Licensing, Registering and Advertising) Rules, 1976.

- **□ Domestic Manufacturing**
- **□ Export Purpose Only**

a) Provide notarized copy of Contract manufacturing agreement.
b) Provide documents confirming number of approved sections of the applicant (DML holder).
c) Provide details of already registered drug products of contract giver on contract manufacturing.

1.5 Detailed Information of Drug, Dosage From & Labeling Claims

1.5.1. Generic name with chemical name & synonyms of the applied drug.

The following necessary information shall be provided in this sub-section:

a) (Recommended) International Non-proprietary name (INN):
b) Compendia name, if relevant:
c) Chemical name(s):
d) Chemical Abstracts Service (CAS) registry number: (where applicable)

The submission of following is **optional**

a) Company or laboratory code:
b) Other non-proprietary name(s) (e.g. national name, USAN, BAN):

1.5.2. Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit

a) Strength of Active ingredient shall be stated clearly. In case API is in the form of salt, specify the equivalent strength of the base e.g., AAA sodium 50 mg (equivalent to AAA) etc.
b) For example, each tablet contains, each ml contains in case of Injectable. However, description like each ampoule / vial contains shall be avoided, or in case of syrup / suspension / dry powder for suspension each 5 ml (after reconstitution) contains etc.

1.5.3 The proposed proprietary name / brand name under which the drug is intended to be sold with trade mark certification / clearance.

a) The proposed brand name shall be justified keeping in view the LASA (Look alike and Sound alike) with specific emphasis on prefix, mid-name and suffix.
b) An undertaking in this regard that the applicant shall be responsible to change the name in case the name resembles with already approved / registered names.

1.5.4 Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned.

a) The applicant needs to submit the proposed pack size as well as demanded price for each pack size.

1.5.5 Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API)

a) Indicate Pharmacological class of the API (drug substance) with proper reference.
b) Also, state the WHO ATC code for each distinct therapeutic indication.

1.5.6 Pharmacopoeial reference / Status of applied formulation

Mention the reference specifications of the finished product (drug product) from the following list

- USP
- BP
- Int. Ph.
- JP

Pharmacopoeia of any Reference Regulatory Authority

- Manufacturer's specifications.
- Specifications as per Innovator's product
- Any other (specify exact reference)
- Any other pharmacopoeia as mentioned in Drug specification rules. (Specify the exact reference).

1.5.7 Route of administration

The applicant needs to specify the exact route of administration for the applied drug product. In case of multiple route of administration, specify all routes of administration.

1.5.8 For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price.

If the applicant has selected Generic Drug Product (GDP) in sub-section 1.4.1, the reference of already registered product including the following details needs to be submitted.

- Brand name
- Manufacturer/Registration holder
- Registration number

If the applicant has selected New Drug Product (NDP) in sub-section 1.4.1 "Not applicable since this is a new drug" needs to be mentioned against this point.

1.5.9 The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention.

Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form in one of the reference regulatory authority specified by Registration Board. The name of the reference authority shall be mentioned as adopted by Board currently.

Mention the name of innovator product in case of non-pharmacopoeial product.

1.5.10 Dosage form of applied drug

- Dosage form of applied drug shall be mentioned clearly, with complete description of a unit like "Film Coated Tablet" & "Sugar Coated Tablet" etc.

1.5.11 Proposed label [outer (secondary) & inner (primary)] & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens

The submission against this point is optional.

1.5.12 Description of Batch numbering system

The submission against this point is optional.

1.5.13 Training evidence of technical staff with respect of manufacturing of applied drug (mandatory in case of specially designed pharmaceutical product / Novel Dosage Form).
The submission against this point is optional.

1.5.14 Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP).
The submission against this point is optional.

1.5.15 – 1.5.20 Commitments
I / we hereby undertake that:

1.5.15 After registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & Adverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard.

1.5.16 We shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined.

1.5.17 In case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so.

1.5.18 We will follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant. *(For drug products to be imported, this commitment must be submitted by manufacturer abroad as well).*

1.5.19 In case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals.

1.5.20 We will perform process validation and stability studies till the assigned shelf life for the first three consecutive batches of commercial scale, stability study of at least one batch every year in accordance with the protocols and continue real time stability study till assigned shelf life of the applied product.

1.5.20 a) We will be responsible to change the brand name in case the name resembles with already approved / registered names.

b) We will be responsible to change the label design if it resembles with any of the previously registered drug.

I / We hereby undertake that the above given information is true and correct to the best of my / our knowledge and belief.

1.5.21 Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.
The submission against this point is optional.

1.5.22 Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
The submission against this point is optional.

1.6 Miscellaneous Information
1.6.1 Information on Prior-related Applications
The submission against this point is optional.

1.6.2 Appendix

1.6.3 Electronic Review Package
The applicant shall submit electronic review package in CD / USB including Quality Overall Summary.

1.6.4 QIS (Quality Information Summary)
The submission against this point is optional

1.6.5 Drug Substance related Document including following:
a. Name and address of API manufacturer.
b. Approval of manufacturing facility of API by regulatory body of country and validity.
For applications of locally manufactured drug product(s), the one of the following documents shall be submitted.

i. Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin.
ii. Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.
iii. CEP certificate.

For applications of imported drug product(s), the submission against this point is not required.
c. Vendor qualification / audit is
□ Document based
□ Site inspection based
d. Reason for point c.

MODULE 2: (OVERVIEWS AND SUMMARIES)

2.3 Quality Overall Summary (QOS)

- The applicants of innovator drug products can submit QOS either as per WHO QOS-PD template or as per ICH template for consideration by the Registration Board.

- For drug products other than innovator's product, Quality Overall Summary (QOS) shall be provided in WHO QOS-PD Template or template provided below.

INTRODUCTION
Summary of product information:

Non-proprietary name(s) of the Drug Product	
Proprietary name(s) of the Drug Product	
International non-proprietary name(s) of the Drug Substance, including form (salt, hydrate, polymorph)	
Applicant name and address	
Dosage form	
Strength	
Route of administration	
Proposed indication(s)	

Primary Contact person responsible for this application	**Title:** **First name:** **Family Name:**
Contact person's job title	
Contact person's details	
Corresponding address	
Town/City/Country	
Contact person's email address	
Contact person's phone number	

Note: Provide contact details of the person who is responsible for this application and have all the technical and administrative details related to this application.

Other Introductory information:

Related dossiers (e.g. Drug Product(s) with the same Drug Substance(s) submitted to DRAP:

Brand Name	**Date of submission in DRAP**	**Drug Substance, strength, dosage form (eg. Abacavir (as sulphate) 300 mg tablets)**	**Drug Substance manufacturer (including address if same supplier as current dossier)**

Identify available literature references for the Drug Substance and Drug Product:

Publication(s)	**Monograph exists/does not exist/exists in other combination only**	**Most recent edition/volume consulted**
Drug substance status in pharmacopoeias:		
USP	**<e.g. Monograph exists>**	**<e.g. USP 42>**
BP	**<e.g. Monograph exists>**	**<e.g. BP 2019>**
Ph.Eur.	**<e.g. Monograph exists>**	**<e.g. Ph.Eur. 10.0>**
Ph.Int.	**<e.g. monograph exists>**	**<e.g. Ph.Int. 9th Edition 2019>**
Other (e.g. JP)	**<e.g. Monograph exists>**	**<e.g. JP 17th Edition>**
Drug product status in pharmacopoeias:		
USP	**<e.g. Monograph exists>**	**<e.g. USP 42>**
BP	**<e.g. Monograph exists>**	**<e.g. BP 2019>**
Ph.Int.	**<e.g. monograph exists>**	**<e.g. Ph.Int. 9th Edition 2019>**
Other (e.g. JP)	**<e.g. Monograph exists>**	**<e.g. JP 17th Edition>**
Other reference texts (e.g. public access reports): Mandatory for new drugs or drug products for which official monograph does not exist		
<e.g. WHOPARs, EPARs, FDA review, PMDA review report>	**<e.g. WHOPAR HAXXX>**	**<e.g. EMA PAR of June 2018>**

Do not delete any row in the above table. For drug products for which official monograph do not exist, the information regarding other references (e.g. public assessment reports) is mandatory to mention.

2.3.S Drug Substance

<For drug products having more than one drug substances, a separate section 2.3.S shall be provided for each drug substance >

2.3.S.1 General Information

2.3.S.1.1 Nomenclature

(a) (Recommended) International Non-proprietary name (INN):

(b) Compendial name, if relevant:

(c) Chemical name(s):

(d) Other non-proprietary name(s) (e.g. national name, USAN, BAN):

(e) Chemical Abstracts Service (CAS) registry number:

2.3.S.1.2 Structure

(a) Structural formula, including relative and absolute stereochemistry:

(b) Molecular formula:

(c) Relative molecular mass:

<For drug substance(s) existing as salts the molecular mass of the free base or acid shall also be provided>

2.3.S.1.3 General Properties

(a) Physical description (e.g. appearance, colour, physical state):

(b) Solubilities:

In common solvents:

Quantitative aqueous pH solubility profile (pH 1.2 to 6.8) at 37°C:

Medium (e.g. pH 4.5 buffer)	**Solubility (mg/ml)**
<pH = pKa, if pKa is between 1.2 and 6.8>	**<e.g. pKa = 13.1, therefore solubility result at this pH is not required>**

(c) Physical form (e.g. polymorphic form(s), solvate, hydrate):

Polymorphic form:

Solvate:

Hydrate:

(d) Other:

Property	
pH	
pK	
Partition coefficients	
Melting/boiling points	
Specific optical rotation (specify solvent)	
Refractive index (liquids)	
Hygroscopicity	
UV absorption maxima/molar absorptivity	

2.3.S.2 Manufacture

2.3.S.2.1 Manufacturer(s)

(a) Name, address and responsibility (e.g. fabrication, packaging, labelling, testing, storage) of each manufacturer, including contractors and each proposed production site or facility involved in these activities:

Name and address (including block(s)/unit(s))	Responsibility

(b) Approval of Drug Substance / Drug Manufacturing License (DML) / Good Manufacturing Practice (GMP) certificate of the Drug Substance / API manufacturer issued by concerned regulatory authority of country of origin:

<The copy of certificate shall be provided in Module-1 section 1.6.5(b)>

2.3.S.2.2 Description of Manufacturing Process and Process Controls

The submission against this point is optional.

2.3.S.2.3 Control of Materials

The submission against this point is optional.

2.3.S.2.4 Controls of Critical Steps and Intermediates

The submission against this point is optional.

2.3.S.2.5 Process Validation and/or Evaluation

The submission against this point is optional.

2.3.S.2.6 Manufacturing Process Development

The submission against this point is optional.

2.3.S.3 Characterization

2.3.S.3.1 Elucidation of Structure and other Characteristics

(a) List of studies performed (e.g. IR, UV, NMR, MS, elemental analysis) and conclusion from the studies (e.g. whether results support the proposed structure):

<For Drug substance(s) that are not described in an officially recognized pharmacopoeia, the studies carried out to elucidate and/or confirm the chemical structure normally include elemental analysis, infrared (IR), ultraviolet (UV), nuclear magnetic resonance (NMR) and mass spectra (MS) studies>

<For Drug substance(s) that are described in an officially recognized pharmacopoeia, it is generally sufficient to provide copies of the IR spectrum>

(b) Discussion on the potential for isomerism and identification of stereochemistry (e.g. geometric isomerism, number of chiral centres and configurations):

<Generally applicable for those drug substance(s), for which isomerism may impact the quality, safety or efficacy of the drug product>

(c) Summary of studies performed to identify potential polymorphic forms (including solvates): <including identification of and data on the drug substance lot used in stability studies>

<Generally applicable for those drug substance(s), for which polymorphic form may impact the quality, safety or efficacy of the drug product>

(d) Summary of studies performed to identify the particle size distribution of the API: <including identification of and data on the drug substance lot used in stability studies>

<Generally applicable for those drug substances, for which particle size may impact the quality, safety or efficacy of the drug product>

2.3.S.3.2 Impurities

(a) Identification of potential and actual impurities arising from the synthesis, manufacture and/or degradation:

i. List of Drug Substance / API-related impurities (e.g. starting materials, by-products, intermediates, chiral impurities, degradation products), including chemical name, structure, origin and acceptable limits:

Drug Substance / API-related impurity (chemical name and compendial name)	**Structure**	**Origin**	**Acceptable limit / Acceptance criteria**

ii. List of process-related impurities (e.g. residual solvents, reagents):

Process-related impurity (compound name)	**Acceptable limit / Acceptance criteria**

2.3.S.4 Control of the Drug Substance

2.3.S.4.1 Specification

(a) Drug Substance specifications of the Drug Product manufacturer:

Standard (e.g. USP, BP, Ph.Int., Ph.Eur., JP, in-house)		
Specification reference number and version		
Test	**Acceptance criteria**	**Analytical procedure (Type/Source/Version)**
Description		
Identification		
Impurities		
Assay		
etc.		

Provide Drug Substance Specifications of the Drug Product manufacturer. Avoid deleting this table and inserting specifications table provided by the Drug Substance / API manufacturer.

2.3.S.4.2 Analytical Procedures

(a) Summary of the analytical procedures (e.g. key method parameters, conditions, system suitability testing):

<Provide brief tabulated summary of analytical procedures instead of attaching detailed analytical methods of Drug Substance manufacturer>

Detailed analytical procedures shall be provided in Module 3 under section 3.2.S.4.2

2.3.S.4.3 Validation of Analytical Procedures

(a) Summary of the validation information (e.g. validation parameters and results):

<Provide summarized tabulated results of verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s)>

Detailed data of verification of analytical procedures shall be provided in Module 3 under section 3.2.S.4.3

2.3.S.4.4 Batch Analyses

<Provide summarized results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer >

<Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacturer shall also be submitted>

(a) Summary of batch analyses release results *of the Drug Product manufacturer* for relevant batches used during product development and stability studies:

Test	**Acceptance Criteria**	**Results**		
		<batch x>	**<batch y>**	**etc.**
Description				

Test	Acceptance Criteria	Results		
		<batch x>	<batch y>	etc.
Identification				
Impurities				
Assay				
etc.				

<A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)>

2.3.S.4.5 Justification of Specification

<A discussion shall be provided on the inclusion of certain tests, evolution of tests, analytical procedures and acceptance criteria, and differences from the officially recognized compendial standard(s)>

2.3.S.5 Reference Standards or Materials

(a) CoA of primary / secondary reference standard including source and lot number:

<For testing of Pharmacopeial Drug Substance, the use of primary reference standard is recommended, however for non-pharmacopeial Drug Substance, a secondary reference standard provided by the Drug Substance manufacturer is acceptable>

2.3.S.6 Container Closure System

(a) Description of the container closure system(s) for the shipment and storage of the Drug Substance:

Packaging component	Materials of construction

2.3.S.7 Stability

2.3.S.7.1 Stability Summary and Conclusions

(a) Summary of accelerated and long-term stability study testing parameters:

Accelerated stability study				
Storage condition (◦C, % RH)	Batch number	Batch size	Container closure system	Completed testing intervals

Long term / Real time stability study				
Storage condition (◦C, % RH)	Batch number	Batch size	Container closure system	Completed testing intervals

(b) Proposed storage conditions / statement and re-test period (or shelf-life, as appropriate):

Container closure system	**Storage conditions / Storage statement**	**Re-test period***

* indicate if a shelf-life is proposed in lieu of a re-test period (e.g. in the case of labile Drug Substance).

2.3.S.7.2 Post-approval Stability Protocol and Stability Commitment

The submission against this point is optional.

2.3.S.7.3 Stability Data

(a) Summary of the stability results observed for the accelerated and long-term studies:
The actual stability results shall be provided in *Module 3* section 3.2.S.7.3.

2.3.P Drug Product

2.3.P.1 Description and Composition of the Drug Product

(a) Description of the Drug Product:

<e.g The proposed XYZ 50-mg tablets are available as white, oval, film coated immediate release tablets, debossed with'50' on one side and a break line on the other side>

(b) Composition of the Drug Product:

i. Composition, i.e. list of all components of the Drug Product and their amounts on a per unit basis and percentage basis (including individual components of mixtures prepared in-house (e.g. coatings) and overages, if any):

Component and quality standard (and grade, if applicable)	**Function**	**Strength (label claim)**	
		Quant. per unit or per mL	**%**
<complete with appropriate titles e.g. Core tablet (Layer 1, Layer 2, etc. as applicable), Contents of capsule, Powder for injection>			
Subtotal 1			
<complete with appropriate title e.g. Film-coating >			
Subtotal 2			
Total			

(c) Description of accompanying reconstitution diluent(s), if applicable:

<Provide summarized information (including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug product>

(d) Type of container closure system used for the Drug Product and accompanying reconstitution diluent, if applicable:

<The container-closure used for the drug product (and accompanying reconstitution diluent, if applicable) shall be briefly described, with further details provided under 3.2.P.7 Container-closure system>

2.3.P.2 Pharmaceutical Development

2.3.P.2.1 Components of the Drug Product

2.3.P.2.1.1 Drug Substance

(a) Discussion of the:

i. compatibility of the Drug Substance(s) with excipients listed in 2.3.P.1:

<If the qualitative composition of the formulation is not similar to innovator / reference product, the drug-excipient compatibility studies shall be provided>

ii. key physicochemical characteristics (e.g. water content, solubility, particle size distribution, polymorphic or solid state form) of the Drug Substance(s) that can influence the performance of the Drug Product:

iii. for fixed-dose combinations, compatibility of Drug Substance(s) with each other:

<For combination products, which are not approved by any reference regulatory authority, the compatibility of drug substances with each other shall be discussed>

2.3.P.2.1.2 Excipients

(a) Discussion of the choice of excipients listed in 2.3.P.1, their concentrations and characteristics that can influence the Drug Product performance):

2.3.P.2.2 Drug Product

2.3.P.2.2.1 Formulation Development

(a) Summary describing the development of the Drug Product:

<Brief discussion on the formulation development procedure adopted for the currently applied Drug Product>

(b) Pharmaceutical equivalence:

<The comparison of the developed formulation and the innovator / reference / comparator product including the results of all the quality tests shall be submitted and discussed>

For innovator drug products, the submission of pharmaceutical equivalence is not required.

i. Summary of the results of comparative dissolution profile (where applicable):

<The results of comparative dissolution profile conducted in three BCS media across the physiological pH range along with calculation of similarity factor f2 shall be submitted and discussed>
<For comparative dissolution profile, the guidelines specified in WHO Technical Report Series No. 992, 2015, Annex 7, Appendix 1 Recommendations for conducting and assessing comparative dissolution profiles and USFDA Guidance for Industry Dissolution Testing of Immediate Release Solid Oral Dosage Forms - Dissolution Profile Comparisons may be followed>

For innovator drug products, the submission of comparative dissolution profile is not required.

2.3.P.2.2.2 Overages

(a) Justification of overages in the formulation(s) described in 2.3.P.1:

<Generally overages are not acceptable unless fully justified>

2.3.P.2.2.3 Physicochemical and Biological Properties

(a) Discussion of the parameters relevant to the performance of the Drug Product (e.g. pH, ionic strength, dissolution, particle size distribution, polymorphism, rheological properties):

2.3.P.2.3 Manufacturing Process Development

(a) Discussion of the development of the manufacturing process of the Drug Product (e.g. optimization of the process, selection of the method of sterilization):

<The selection and optimization of the manufacturing process described in 3.2.P.3.3, in particular its critical aspects, shall be explained. Any specific manufacturing process development shall be provided e.g., sterilization shall be explained and justified>
<Where relevant, justification for the selection of aseptic processing or other sterilization methods over terminal sterilization shall be provided.>
2.3.P.2.4 Container Closure System

(a) Discussion of the suitability of the container closure system (described in 2.3.P.7) used for the storage, transportation (shipping) and use of the Drug Product (e.g. choice of materials, protection from moisture and light, compatibility of the materials with the Drug Product):

<A brief description of container closure shall be included>

(b) For a device accompanying a multi-dose container, a summary of the study results demonstrating the reproducibility of the device (e.g. consistent delivery of the intended volume for the lowest intended dose):

<e.g. for Dry Powder Inhalers supplied with rotacaps, the studies including uniformity of delivered dose, aerodynamic particle size distribution etc. shall be provided>

2.3.P.2.5 Microbiological Attributes

(a) Discussion of microbiological attributes of the Drug Product (e.g. preservative effectiveness studies):

<Antimicrobial (preservative) effectiveness studies to be performed as per recommendations of pharmacopoeia>

2.3.P.2.6 Compatibility

(a) Discussion of the compatibility of the Drug Product (e.g. with reconstitution diluent(s) or dosage devices, co-administered Drug Product(s)):

<Compatibility studies for the dry powder for injections and dry powder for suspension shall be performed as per the instructions provided in individual label of the drug product>

2.3.P.3 Manufacture

2.3.P.3.1 Manufacturer(s)

(a) Name, address and responsibility (e.g. fabrication, packaging, labelling, testing) of each manufacturer, including contractors and each proposed production site or facility involved in manufacturing and testing:

Name and address (include block(s)/unit(s))	**Responsibility**

(b) Good Manufacturing Practices (GMP) certificate of all manufacturing sites mentioned above:

<For applications of locally manufactured drug products, GMP certificate of all sites shall be provided in Module 1>
<For applications of imported drug products, Certificate of Pharmaceutical Product or GMP certificate of all manufacturing sites shall be provided in Module 1>

2.3.P.3.2 Batch Formula

(a) List of all components of the Drug Product to be used in the manufacturing process and their amounts on a per batch basis (including individual components of mixtures prepared in-house (e.g. coatings) and overages, if any):

Proposed commercial batch size(s) (e.g. number of dosage units)	
Component and quality standard	**Quantity per batch**
<complete with appropriate titles e.g. Core tablet (Layer 1, Layer 2, etc. as applicable), Contents of capsule, Powder for injection>	
Subtotal 1	
<complete with appropriate title e.g. Film-coating >	
Subtotal 2	
Total	

2.3.P.3.3 Description of Manufacturing Process and Process Controls

(a) Flow diagram of the manufacturing process:

<A flow diagram shall be presented giving the steps of the process and showing where materials enter the process. The critical steps and points at which process controls, intermediate tests or final product controls are conducted shall be identified>
<The maximum holding time for bulk product prior to final packaging shall be stated. The holding time shall be supported by the submission of stability data if longer than 30 days. For an aseptically processed drug product, sterile filtration of the bulk and filling into final containers shall preferably be continuous; any holding time shall be justified>

2.3.P.3.4 Controls of Critical Steps and Intermediates

(a) Summary of controls performed at the critical steps of the manufacturing process and on isolated intermediates:

Step (e.g. granulation, compression, coating)	**Controls**	
	Tests	**Acceptance criteria**

<Tests and acceptance criteria of the critical steps identified in Description of Manufacturing Process and Process Controls shall be provided, to ensure that the process is controlled>

2.3.P.3.5 Process Validation and/or Evaluation

(a) Summary of the proposed process validation protocol for the critical steps or critical assays used in the manufacturing process:

<For applications of locally manufactured drug products, a brief description of process validation including the proposed protocol based upon the process steps and controls mentioned in 2.3.P.3.4 / 3.2.P.3.4 shall be described. It shall be noted that first three consecutive batches of commercial scale will be subjected to the process validation in accordance with the protocol>

<For applications of imported drug products, process validation reports including the protocols and results for critical process steps mentioned in 2.3.P.3.4 / 3.2.P.3.4 shall be provided>

2.3.P.4 Control of Excipients

<If the excipient(s) are in pharmacopoeia there is no need to provide detailed specifications or its analytical procedures. However for excipients of non-compendial standards, specifications as well as analytical procedures shall be provided>

2.3.P.4.1 Specifications

(a) Summary of the specifications for in-house standard excipients:

<The specifications for excipients of non-compendial standard shall be provided>

2.3.P.4.2 Analytical Procedures

(a) Summary of the analytical procedures for in-house standard excipients:

<Copies of analytical procedures of non-compendial excipient shall be submitted>

2.3.P.4.3 Validation of Analytical Procedures

(a) Summary of the validation information for the analytical procedures for in-house standard excipients:

2.3.P.4.4 Justification of Specifications

(a) Justification of the specifications for the analytical procedures for in-house standard excipients:

2.3.P.4.5 Excipients of Human or Animal Origin

<For excipients of human or animal origin, a certificate shall be provided, confirming that the excipient(s) are free from BSE and TSE>

2.3.P.4.6 Novel Excipients

<For excipient(s) used for the first time in a drug product or by a new route of administration, full details of specification and testing method shall be provided>

2.3.P.5 Control of Drug Product

2.3.P.5.1 Specification(s)

(a) Specification(s) for the Drug Product:

Standard (e.g. USP, BP, Ph.Int., JP, in-house)			
Specification reference number and version			
Test	**Acceptance criteria (release)**	**Acceptance criteria (shelf-life)**	**Analytical procedure (type/source/version)**
Description			
Identification			
Impurities			
Assay			
etc.			

<Specifications shall include the degradation products and related substances>

2.3.P.5.2 Analytical Procedures

(a) Summary of the analytical procedures (e.g. key method parameters, conditions, system suitability testing):

<Provide brief tabulated summary of analytical procedures including key method parameters and conditions instead of attaching detailed analytical methods of Drug Product>
Detailed analytical procedures shall be provided in Module 3 under section 3.2.P.5.2

2.3.P.5.3 Validation of Analytical Procedures

(a) Summary of the validation information (e.g. validation parameters and results):

<For in-house methods, analytical method validation shall be performed>

<All the officially recognized compendial methods for assay, dissolution and impurities (as applicable) are required to be verified and verification shall include a demonstration of specificity, repeatability (method precision) and accuracy>
<Brief summary of validation / verification shall be provided here, instead of attaching detailed protocols and results of analytical method validation>

Summarized tabulated results of validation / verification shall be provided in 2.3.R.2.

2.3.P.5.4 Batch Analyses

(a) Description of the batches:

Batch number	**Batch size**	**Date of manufacturing**	**Use (e.g. pharmaceutical equivalence or stability)**

(b) Summary of batch analyses release results for relevant batches (e.g. comparative bioavailability or biowaiver, stability):

Test	**Acceptance criteria**	**Results**		
		<batch x>	**<batch y>**	**etc.**
Description				
Identification				
Impurities				
Assay				
etc.				

2.3.P.5.5 Characterization of Impurities

<Those impurities that are degradation product shall be included in the specifications>
2.3.P.5.6 Justification of Specification(s)

<The justification of specification(s) for non-pharmacopeial products must be provided. Justification of specification of non-pharmacopeial product shall be based on batch analysis results>

2.3.P.6 Reference Standards or Materials

(a) Specifications of primary / secondary reference standard including source and lot number for primary reference standards:
<For testing of Pharmacopeial Drug Product(s), the use of primary reference standard is recommended, however for non-pharmacopeial Drug Product(s), a secondary reference standard is acceptable>

2.3.P.7 Container Closure System

(b) Description of the primary container closure systems, including unit count or fill size, container size or volume:

Description of primary container closure (including materials of construction)	Unit count or fill size (e.g. 60s, 100s etc.)	Container size (e.g. 5 ml, 100 ml etc.)

2.3.P.8 Stability

2.3.P.8.1 Stability Summary and Conclusions

(a) Summary of accelerated and long-term stability study:

Accelerated stability study				
Storage condition (◦C, % RH)	**Batch number**	**Batch size**	**Container closure system**	**Completed testing intervals**

Long term / Real time stability study				
Storage condition (◦C, % RH)	**Batch number**	**Batch size**	**Container closure system**	**Completed testing intervals**

(b) Summary of additional stability studies (if applicable): *<e.g. in-use studies for drug products which are to be reconstituted before use>:*

(c) Proposed storage statement and shelf-life:

Container closure system	Storage statement	Shelf-life

(d) Proposed in-use storage statement and in-use shelf-life:

Storage statement	Shelf-life

All the data and statements provided in this section shall be based on ICH and WHO guidelines

2.3.P.8.2 Post-approval Stability Protocol and Stability Commitment

(a) Stability protocol for *Commitment batches* (e.g. storage conditions, batch numbers and batch sizes, tests and acceptance criteria, testing frequency, container closure system(s)):

Parameter	Details	
Storage condition(s) (◦C, % RH)		
Batch number(s) / batch size(s)	*<not less than three production batches in each container closure system>*	
Tests and acceptance criteria	Description	

Parameter	Details	
	Moisture	
	Impurities	
	Assay	
	etc.	
Testing frequency		
Container closure system(s)		

<For applications of imported drug product(s) where stability study data till complete shelf life is submitted, post-approval stability protocols and commitment is not required>

2.3.P.8.3 Stability Data

(a) Conclusion of the stability studies:

The actual stability results shall be provided in Module 3 section 3.2.P.8.3

2.3.A Appendices

2.3.A.1 Facilities and Equipment

<Provide a list of manufacturing and testing facilities / equipment available with reference to the applied drug product>

2.3.A.2 Adventitious Agents Safety Evaluation

The submission against this point is optional.

2.3.A.3 Excipients

<For excipient(s) used for the first time in a drug product or by a new route of administration, full details of manufacture, characterization, and controls, with cross references to supporting safety (non-clinical and/or clinical) data shall be provided>

2.3.R Regional Information

2.3.R.1 Production Documentation

2.3.R.1.1 Executed Production Documents

<Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>

2.3.R.1.2 Master Production Documents

<For applications of locally manufactured drug product(s), provide blank master production document / batch manufacturing record to be used during the commercial manufacturing of the applied product>

<For applications of imported drug product(s) the submission of master production documents is not required>

2.3.R.2 Analytical Procedures and Validation Information for Drug Product

<Provide analytical method validation / verification results in the table below>

ANALYTICAL PROCEDURES AND VALIDATION INFORMATION SUMMARIES			
HPLC Method Summary		**Volume/Page:**	
Method name:			
Method code:		**Date:**	
Column(s) / temperature (if other than ambient):			
Mobile phase (specify gradient program, if applicable):			
Detector (and wavelength, if applicable):			
Flow rate:			
Injection volume:			
Sample solution preparation and concentration (expressed as mg/ml, let this be termed "A"):			
Reference solution preparation and concentration (expressed as mg/ml and as % of "A"):			
System suitability solution concentration (expressed as mg/ml and as % of "A"):			
System suitability tests (tests and acceptance criteria):			
Method of quantification (e.g. against API or impurity reference standard(s)):			

Validation Summary		**Volume/Page:**			
Analytes:					
Typical retention times (RT)					
Relative retention times ($RT_{Imp.}/RT_{API\ or\ Int.\ Std.}$):					
Relative response factor ($RF_{Imp.}/RF_{API}$):					
Specificity:					
Linearity / Range:	**Number of concentrations:** **Range (expressed as mg/ml and as % "A"):** **Slope:** **Y-intercept:** **Correlation coefficient (r^2) :**				
Accuracy:	**Conc.(s) (expressed as mg/ml and as % "A"):** **Number of replicates:** **Percent recovery (avg/RSD):**				
Precision / Repeatability: (intra-assay precision)	**Conc.(s) (expressed as mg/ml and as % "A"):** **Number of replicates:** **Result (avg/RSD):**				
Precision / Intermediate Precision: (days/analysts/equipment)	**Parameter(s) altered:** **Result (avg/RSD):**				
Limit of Detection (LOD): (expressed as mg/ml and as % "A")					
Limit of Quantitation (LOQ): (expressed as mg/ml and as % "A")					
Robustness:	**Stability of solutions:**				

	Other variables/effects:	
Typical chromatograms or spectra may be found in:		
Company(s) responsible for method validation:		

2.4 Non-Clinical Overview

For all drug products which are approved in the same combination, strength and dosage form by reference regulatory authorities adapted by Registration Board, the submission of documents in section 2.4 is optional.

2.5 Clinical Overview

For all drug products which are approved in the same combination, strength and dosage form by reference regulatory authorities adapted by Registration Board, the submission of documents in section 2.5 is optional.

2.6 Non-Clinical Written and Tabulated Summaries

For all drug products which are approved in the same combination, strength and dosage form by reference regulatory authorities adapted by Registration Board, the submission of documents in section 2.6 is optional.

2.7 Clinical Summary

For all drug products which are approved in the same combination, strength and dosage form by reference regulatory authorities adapted by Registration Board, the submission of documents in section 2.7 is optional.

4. MODULE 3: (QUALITY / CMC)

3.2.S Drug Substance

3.2.S.1 General Information

Nomenclature

Information on the nomenclature of the drug substance shall be provided. For example: INN, compendial name, USAN, BAN, CAS registry name where applicable.

Structure

The structural formula, including relative and absolute stereochemistry, the molecular formula, and the relative molecular mass shall be provided. For APIs existing as salts or esters the molecular mass of the free base or acid shall also be provided.

General Properties

The physical and chemical properties of the API shall be discussed, including the physical description, solubility in common solvents (e.g. water, alcohols, dichloromethane and acetone), quantitative aqueous pH solubility profile (e.g. pH 1.2–6.8, dose/solubility volume), polymorphism, pH and pKa values, ultraviolet (UV) absorption maxima and molar absorptivity, melting point, refractive index (for a liquid), hygroscopicity and partition coefficient.

This list is not intended to be exhaustive but provides an indication as to the type of information that could be included. Such information can be obtained either from the open part of drug master file or from manufacturer as well as from reference literature.

3.2.S.2 Manufacture

The name, address, and responsibility of each manufacturer, including contractors, and each proposed production site or facility involved in manufacturing and testing shall be provided. It is important that the site of the manufacturer as well as its role and responsibility with respect to manufacturing, packing and testing shall be clearly identified. The name and address of the site shall be given. If the manufacturing, processing, packaging or testing is performed by an outside contractor or third party contractor, this shall be clearly identified and copy of quality agreement shall be included.

A certificate of compliance with GMP shall be provided in the Module-1.

3.2.S.3 Characterization

Elucidation of Structure and other Characteristics

Drug substances /Active Pharmaceutical Ingredients that are not described in an officially recognized pharmacopoeia, the studies carried out to elucidate and/or confirm the chemical structure normally include elemental analysis, infrared (IR), ultraviolet (UV), nuclear magnetic resonance (NMR) and mass spectra (MS) studies. Other tests could include X-ray powder diffraction (XRPD) and differential scanning calorimetry (DSC). Drug substance /Active Pharmaceutical Ingredients that are described in an officially recognized pharmacopoeia it is generally sufficient to provide copies of the IR spectrum.

Discussion on the potential for isomerism and identification of stereochemistry, studies performed to identify potential polymorphic forms and particle size distribution of the Drug substance shall be submitted, where these parameters may impact the quality, safety or efficacy of the drug product.

Impurities

List of Drug Substance / API-related impurities and process-related impurities shall be submitted along with acceptance limits.

3.2.S.4 Control of Drug Substance

Specification

Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required.

Analytical procedures

Detailed analytical procedures for the testing of drug substance shall be provided.

Validation of analytical procedures

Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.

Batch analysis

Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture.

A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification).

Justification of specifications

A discussion/justification shall be provided on the inclusion of certain tests, evolution of tests, analytical procedures and acceptance criteria. Any differences from the officially recognized compendial standard(s) shall also be justified.

3.2.S.5 Reference Standards or Materials

For testing of Pharmacopeial Drug Substance, the use of primary reference standard is recommended, however for non-pharmacopeial Drug Substance, a secondary reference standard provided by the Drug Substance manufacturer is acceptable.

COA of primary / secondary reference standard including source and lot number shall be provided.

3.2.S.6 Container Closure System

Description of the container closure system(s) for the shipment and storage of the API including materials of construction of each primary packaging component.

Other information on the container closure system(s) (e.g. suitability studies) may be submitted.

3.2.S.7 Stability

- The protocols used and the results of the accelerated and long-term stability studies shall be summarized. Proposed storage conditions / statement and re-test period (or shelf-life, as appropriate) shall also be submitted.
- For locally manufactured products the stability studies of the Drug substance shall be submitted as per Zone-IV a conditions.
- In case where the real time stability data of drug substance is conducted at 25°C ± 2°C/60% RH ± 5% RH, the firm shall submit the record of data logger for the storage conditions throughout the transportation.
- Moreover, in case of use of ingredients whose stability testing has not been done as per Zone IVA, then the manufacturer of finished pharmaceutical product, shall submit real term stability studies data of the product for atleast 1 year along with degradation studies in the finished pharmaceutical product.

3.2.P Drug Product

3.2.P.1 Description and Composition of the Drug Product

a) Description of the dosage form

The description of the Drug product shall include the physical description, available strengths, release mechanism (e.g. immediate or modified (delayed or extended)), as well as any other distinguishable characteristics, e.g.

"The proposed XYZ 50-mg tablets are available as white, oval, film coated tablets, debossed with '50' on one side and a break line on the other side.

b) Composition

List of all components of the dosage form, and their amount on a per unit basis (including overages*, if any), the function of the components, and a reference to their quality standards (e.g. compendial monographs or manufacturer's specifications).

* *Overages are not acceptable unless fully justified*

If the Drug product is formulated using an active moiety, then the composition for the active ingredient shall be clearly indicated (e.g. "1 mg of active ingredient base = 1.075 mg active ingredient hydrochloride").

c) **Description of accompanying reconstitution diluent(s)**

Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug.

d) Type of Container Closure:

The container-closure used for the Drug Product (and accompanying reconstitution diluent, if applicable) shall be briefly described, with further details provided under 3.2.P.7 Container-closure system

3.2.P.2 Pharmaceutical Development

A brief information on the pharmaceutical development shall be included. This information specify the justification of formulation and method of manufacturing. It is also important that critical quality attributes (CQAs) and Critical Process Parameters (CPP) shall be discussed.

Components of the Drug Product

Drug substance

Compatibility studies of the Drug Substance(s) with excipients shall be provided if the qualitative composition of the formulation is not similar to innovator / reference product.

Discussion shall be provided for the key physicochemical characteristics (e.g. water content, solubility, particle size distribution, polymorphic or solid state form) of the Drug Substance(s) that can influence the performance of the Drug Product.

For fixed-dose combinations, compatibility of Drug Substance(s) with each other shall be discussed, where in the applied formulation is not approved any reference regulatory authority.

Excipients

Discussion of the choice of excipients, their concentrations and characteristics that can influence the Drug Product performance shall be provided.

Formulation Development

a) A brief description of formulation development shall be given.
b) *Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed.
c) Where applicable the results of comparative dissolution profile conducted in three BCS media across the physiological pH range along with calculation of similarity factor f2 shall be submitted and discussed.
d) Justification of overages in the formulation(s) shall be submitted.
e) Discussion of the parameters relevant to the performance of the Drug Product (e.g. pH, ionic strength, dissolution, particle size distribution, polymorphism, rheological properties).

* For innovator drug products, the submission of pharmaceutical equivalence and comparative dissolution profile is not required.

Manufacturing Process Development

The selection and optimization of the manufacturing process described in 3.2.P.3.3, in particular its critical aspects, shall be explained. Any specific manufacturing process development shall be provided e.g., sterilization shall be explained and justified.

Where relevant, justification for the selection of aseptic processing or other sterilization methods over terminal sterilization shall be provided.

Container Closure System

Discussion of the suitability of the container closure system (described in 2.3.P.7) used for the storage, transportation (shipping) and use of the FPP (e.g. choice of materials, protection from moisture and light, compatibility of the materials with the FPP) shall be provided.

For a device accompanying a multi-dose container, study results demonstrating the reproducibility of the device (e.g. consistent delivery of the intended volume for the lowest intended dose) shall be submitted.

Microbiological Attributes

Discussion of microbiological attributes of the Drug Product (e.g. preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.

Compatibility

Compatibility studies for the dry powder for injections and dry powder for suspension shall be performed as per the instructions provided in individual label of the drug product.

3.2.P.3 Manufacture

The name, address, and responsibility of each manufacturer, including contractors, and each proposed production site or facility involved in manufacturing and testing shall be provided.

The list of manufacturers or companies shall specify the actual addresses of production or manufacturing site(s) involved (including block(s) and unit(s)), rather than the administrative offices. For applications of locally manufactured drugs, GMP certificate of all sites shall be provided. For applications of imported drugs, Certificate of Pharmaceutical Product or GMP certificate of all manufacturing sites shall be provided.

Batch formula

A batch formula for proposed commercial batch size shall be provided that includes a list of all components of the drug product to be used in the manufacturing process, their amounts on a per batch basis, and a reference to their quality standards.

If the drug product is formulated using an active moiety, then the composition for the drug substance shall be clearly indicated (e.g. "1 kg of active ingredient base = 1.075 kg active ingredient hydrochloride").

Description of manufacturing process and process controls

A flow diagram shall be presented giving the steps of the process and showing where materials enter the process. The critical steps and points at which process controls, intermediate tests or final product controls are conducted shall be identified.
Proposals for the reprocessing of materials (if any) shall be justified. Any data to support this justification shall be provided in this section.
The maximum holding time for bulk product prior to final packaging shall be stated. The holding time shall be supported by the submission of stability data if longer than 30 days. For an aseptically processed drug product, sterile filtration of the bulk and filling into final containers shall preferably be continuous; any holding time shall be justified.

Controls of critical steps and intermediates

Tests and acceptance criteria shall be provided (with justification, including experimental data) performed at the critical steps identified in 3.2.P.3.3 of the manufacturing process, to ensure that the process is controlled.

Process validation and/or evaluation

For applications of locally manufactured drug products, a brief description of process validation including the proposed protocol shall be described. A commitment to perform process validation on first three consecutive batches of commercial scale shall be provided in Module-1.
For applications of imported drug products, process validation reports including the protocols and results for critical process steps mentioned in 2.3.P.3.4 / 3.2.P.3.4 shall be provided.

3.2.P.4 Control of Excipients

Specifications

The specifications for excipients shall be provided. If the excipient(s) are in pharmacopoeia there is no need to provide detailed specifications or its analytical procedures. However for excipients of non-compendial standards, specifications as well as analytical procedures shall be provided.
The colors permitted for use are limited to those listed in the FDA "Inactive ingredient guide", "Japanese pharmaceutical excipients" or the European Union (EU) "List of permitted food colors".
For proprietary mixtures, the composition sheet provided by the supplier shall be submitted.

Analytical procedures

Copies of analytical procedures of non-compendial excipient shall be submitted.

Validation of analytical procedures

Validation information for the analytical procedures for in-house standard excipients shall be submitted.

Justification of specifications

Justification of the specifications for the analytical procedures for in-house standard excipients shall be provided.

Excipients of Human or Animal Origin

For excipients of human or animal origin, a certificate shall be provided, confirming that the excipient(s) are free from BSE and TSE.

Novel Excipients

For excipient(s) used for the first time in a drug product or by a new route of administration, full details of specification and testing method shall be provided.

3.2.P.5 Control of Drug Product

Specification(s)

A copy of the drug product specification(s) including tests, acceptance criteria and reference to analytical procedure shall be provided. Specifications shall also include the details of impurities (as applicable).

Analytical procedures

Detailed analytical procedures used for testing the drug product shall be provided.

Validation of analytical procedures

For in-house methods, analytical method validation shall be performed.

All the officially recognized compendial methods for assay, dissolution and impurities (as applicable) are required to be verified and verification shall include a demonstration of specificity, repeatability (method precision) and accuracy.

Batch analysis

The copies of complete analysis of at least two batches shall be provided.

Characterization of impurities

Those impurities that are degradation product shall be included in the specifications.

Justification of specifications

The justification of specification(s) for non-pharmacopeial products must be provided. Justification of specification of non-pharmacopeial product shall be based on batch analysis results.

3.2.P.6 Reference Standards or Materials

For testing of Pharmacopeial Drug Product(s), the use of primary reference standard is recommended, however for non-pharmacopeial Drug Product(s), a secondary reference standard is acceptable.
COA of primary / secondary reference standard including source and lot number shall be provided.

3.2.P.7 Container Closure System

A detail of the container closure systems, description of the primary container closure systems, including materials of construction, unit count or fill size, container size or volume shall be provided.

3.2.P.8 Stability

For the pre-market authorization stability studies for a period of 6 months accelerated and real time in proposed container closure system is required in accordance with the Zone Iva conditions. Based on the satisfactory results, a two years shelf life will be granted. For selection of number and size of batches applicant may follow , any of the following options:

a) ICH/WHO guidelines.

b) At least 2 batches having the following minimum batch size considering the scientific reliability
- OSDs : 5000 Units
- Oral Liquid/Suspension : 2000
- Injectable : 2000
- Aerosol and any other specialized preparations : 500

c) At least 3 batches having scientifically rational batch size, sufficient enough to perform complete testing till the claimed shelf life.

Stability summary and conclusion (Finished pharmaceutical product):

Summary of stability batches with details of storage conditions, batch numbers, batch size, testing intervals and container closure system along with proposed storage statement and shelf-life shall be provided.
Summary of additional stability studies (if applicable) e.g. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf-life shall be provided.

Post-approval Stability Protocol and Stability Commitment:

For applications of locally manufactured drug product(s), stability protocol for commitment batches (e.g. storage conditions, batch numbers and batch sizes, tests and acceptance criteria, testing frequency, container closure system(s) shall be provided. A written commitment (signed and dated) to continue long-term testing over the shelf-life shall be included in Module-1.
For applications of imported drug product(s) where stability study data till complete shelf life is submitted, post-approval stability protocols and commitment is not required.

Stability Data:

Results of the stability studies shall be presented in an appropriate format (provided below).
The actual stability results and reports used to support the proposed shelf-life shall be provided. For quantitative tests (e.g. individual and total degradation product tests and assay tests), actual numerical

results shall be provided rather than vague statements such as "within limits" or "conforms". Conduction of stability study data shall be scientifically justified.

Storage Conditions:

a) General case

The general case applies if the drug product is not specifically covered by any other storage condition in the subsequent sections.

Study	Storage condition
Accelerated	40°C ± 2°C / 75% RH ± 5% RH
Long term	30°C ± 2°C / 65% RH ± 5% RH

b) Drug products packaged in semi-permeable containers

Aqueous-based products packaged in semi-permeable containers shall be evaluated for potential water loss in addition to physical, chemical, biological, and microbiological stability.

Other comparable approaches can be developed and reported for non-aqueous, solvent-based products.

Study	Storage condition
Accelerated	40°C ± 2°C / NMT 25% RH
Long term	30°C ± 2°C / 35% RH ± 5% RH

c) Drug products intended for storage in a refrigerator

Study	Storage condition
Accelerated	25°C ± 2°C / 60% RH ± 5% RH
Long term	5°C ± 3°C

d) Drug products intended for storage in a freezer

Study	Storage condition
Accelerated	5°C ± 3°C or 25°C ± 2°C
Long term	- 20°C ± 5°C

Stability data submission:

- For applications of imported drug product(s), real time and accelerated stability data (summary sheets) as per ICH guidelines or till claimed shelf life as per the storage conditions mentioned above shall be provided.
- For applications of locally manufactured drug product(s), the stability study data shall be provided as per the below mentioned format.

Stability study data submission locally manufactured products for CTD:

<u>Stability Study Data Sheet</u>

Product details:

Product name	ABCD 100mg tablets		Batch No.	
Description of pack (container closure system)	e.g: Alu-Alu blister of 10's packed in printed unit carton, further packed in a master shipper.		Batch Size.	
Parameters and tests mentioned	As per Product Specifications		Mfg. Date	
Recommended storage conditions	Accelerated conditions		Exp Date	

	Real time conditions			
Date of initiation of stability studies			(API) lot no.	

Accelerated Stability study data:

Storage conditions				
Assessment frequency (Months)		Initial	3	6
Date of Testing				
Tests (as per specifications)	Acceptance Criteria			

Real time stability study data:

Storage conditions				
Assessment frequency (Months)		Initial	3	6
Date of Testing				
Tests (as per specifications)	Acceptance Criteria			

Documents / Data to be provided along with stability study data:

1.	Reference of previous approval of applications with stability study data of the firm (if any)
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
3.	Documents for the procurement of API with approval from DRAP (in case of import).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

3.2.A Appendices

Facilities and equipment

A list of manufacturing and testing facilities / equipment available with reference to the applied drug product shall be provided.

Adventitious agent safety evaluation

The submission against this point is optional.

Excipients

For excipient(s) used for the first time in a drug product or by a new route of administration, full details of manufacture, characterization, and controls, with cross references to supporting safety (non-clinical and/or clinical) data shall be provided.

3.2.R Regional Information

Production Documentation Human Blood product with required supporting documents:
The submission against this point is optional.

TSE Checklist with required supporting documents:
For excipients of human or animal origin, a certificate stating that all excipients used in the applied drug product, are free from BSE and TSE.

Product Interchangeability (Bioequivalence study reports):
The submission against this point is optional.

Blank production batch record:
For applications of locally manufactured drug product(s), provide blank master production document / batch manufacturing record to be used during the commercial manufacturing of the applied product For applications of imported drug product(s) the submission of master production documents is not required.

Module 4: (Non-clinical / Safety)
For all drug products which are approved in the same combination, strength and dosage form by reference regulatory authorities adapted by Registration Board, the submission of documents in module 4 is optional.

Module 5: (Clinical / Efficacy)
For all drug products which are approved in the same combination, strength and dosage form by reference regulatory authorities adapted by Registration Board, the submission of documents in module 5 is optional.

Section/subsection wherein data submission is optional:
Registration Board decided that data requirements for following components / part of CTD will be optional.

Chemistry, Manufacturing and Control (CMC) data		
Sub-section of Drug substance	**Sub section in Module 2**	**Sub section in Module 3**
Description of Manufacturing Process and Process Controls	2.3.S.2.2	3.2.S.2.2
Control of Materials	2.3.S.2.3	3.2.S.2.3
Control of critical steps and Intermediates	2.3.S.2.4	3.2.S.2.4
Process Validation and/or Evaluation	2.3.S.2.5	3.2.S.2.5
Manufacturing Process Development	2.3.S.2.6	3.2.S.2.6
Post-approval Stability Protocol and Stability Commitment	2.3.S.7.2	3.2.S.7.2
Product Interchangeability (Bioequivalence Study Reports)	-	3.2.R.3

Non-Clinical and Clinical Data
Module / Section / Sub-section
Module 2.4 Non-Clinical Overview
Module 2.5 Clinical Overview
Module 2.6 Non-Clinical Written and Tabulated Summaries
Module 2.7 Clinical Summary
Module 4: (Non-clinical / Safety)
Module 5: (Clinical / Efficacy)

Registration applications with stability study data

Case no. 01 Registration applications of drugs for which stability study data is submitted

a. Verification of stability study data

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability / Local Availability GMP Inspection Report Date & Remarks	Previous DRB Decision / Remarks (if any)
1.	M/s. Weather Folds Pharmaceuticals, Plot # 69, Phase-II, Industrial Estate, Hattar.	Empaa-M XR 25 mg/1000mg Tablet Each film coated Extended Release tablet contains Empagliflozin……..25mg Metformin Hydrochloride…….1000mg **Sodium Glucose Co transporter 2 Inhibitors, Biguanides** (Manufacturers specifications)	Form-5D Dy.No.4876; 04-02-2019; Rs.50,000/- 04-02-2019 As per SRO As per SRO	Synjardy Xr tablet of USFDA approved Last inspection conducted on 15-09-2017 and report concludes that Overall the firm was GMP Compliant	

1. **STABILITY STUDY DATA**

Drug	Empaa-M XR 25 mg/1000mg Tablet			
Name of Manufacturer	M/s. Weather Folds Pharmaceuticals, Plot # 69, Phase-II, Industrial Estate, Hattar.			
Manufacturer of API	Empagliflozin	M/s Zhejiang Hongyuan Pharmaceuticals co ., Ltd		
	Metformin Hydrochloride	M/s IOL Chemicals and Pharmaceuticals		
API Lot No.	Empagliflozin	20180515		
	Metformin Hydrochloride	4250/1203/18/A-0184PM		
Description of Pack (Container closure system)	Alu Blister			
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5% RH Accelerated: 40˚C ± 2˚C / 75% ± 5% RH			
Time Period	Real time: 6 months Accelerated: 6 months			
Frequency	Accelerated: 0,1,2 3,4,6 (month) Real Time: 0,3 ,6 (month)			
Batch No.	T- 31	T- 32	T- 33	
Batch Size	1200 Tablet	1200 Tablet	1200 Tablet	
Manufacturing Date	14-08-2018	14-08-2018	14-08-2018	
Date of Initiation	16-08- 2018	16-08- 2018	16-08- 2018	
No. of Batches	3			
Date of Submission	15-04-2019 (Dy. No. 3606)			

2. **DOCUMENTS / DATA PROVIDED BY THE APPLICANT**			
Sr.	**Documents To Be Provided**	**Status**	
1.	COA of API	Empagliflozin	Copy of COA by M/s Zhejiang Hongyuan Pharmaceuticals co ., Ltd Limited is submitted.
		Metformin Hydrochloride	Copy of COA by M/s IOL Chemicals and Pharmaceuticals Limited is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Empagliflozin	Copy of GMP Certificate No. ZJ20180032 by China Food and Drug Adminstration valid till 03-14-2023.
		Metformin Hydrochloride	Copy of GMP Certificate No. Drugs (7) Pb.2018/ 1895 by Food & Drug Administration Punjab valid till 07-03-2020.
3.	Protocols followed for conduction of stability study and details of tests.	Yes	
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes	
5.	Documents confirming import of API etc.	Empagliflozin	Copy of Commercial Invoice No 10053012 Dated: 11-07-2018 is submitted attested by ADC(Peshawar) dated ;19-07-2018.
		Metformin Hydrochloride	Copy of Commercial Invoice No TM/104/18-19 Dated: 17-01-2018 by The molecules, Mumbai India is submitted. But not ADC attested
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes	
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes	
8.	Commitment to follow Drug Specification Rules, 1978.	Yes	

9. REMARKS OF EVALUATOR

The panel may be requested to verify and report about following points in addition to authenticity of stability data and associated documents,

- Import of metformin because Form 3, Form 7 and goods declaration for metformin attached but commercial invoice not ADC attested.
- Applied technology of Active coating for Empagliflozin in which drug is loaded via coating solution on the core tablet of metformin hydrochloride.
- 5% overage of Empagliflozin in master formulation (which is required to be based on study/scientific rationale) for which firm has stated that Empagliflozin overage was inducted due to drug loss during spray coating process and to attain the satisfactory contents of Empagliflozin as per claim.
- Method development study to justify that the result of dissolution analysis for metformin as performed by UV method have not been interfered with the ingredients of formulation specially the other API i.e Empagliflozin present in the same sample aliquote.

INSPECTION REPORT VERIFICATION OF AUTHENTICITY OF STABILITY DATA
M/s Weather folds Pharmaceuticals Plot 69. Phase II Industrial Estate Hattar

Inspection dated 01-09-2020 in compliance to DRAP PEC letter No.F.13-11/22017-PEC (Vol.1) dated 24-06-2020

Q.No.1	Do you have documents confirming the import of APIs?	APIs used were imported/locally purchased for already registered drugs) Empa: DRAP attested Invoice #1312 dated 19-7-2020 Metformin: GD copy available
Q.No.2	What was the rationale behind selecting the particular manufacturer of API?	Already available with the firm, GMP compliant and easy availability.
Q.No.3	Do you have documents confirming the import of Metformin and Empagliflozin reference standard and impurity standards?	Record unavailable for reference standard impurities.
Q.No.4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	Yes for API, Impurities not available
Q.No.5	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	GMP certificates for both APIs available
Q.No.6	Do you use API manufacturer method of testing?	Yes
Q.No.7	Do you have stability studies reports on API?	Yes as supplied by manufacturer
Q.No.8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	Yes
Q.No.9	Do you have method for quantifying the impurities in the API?	Only method available
Q.No.10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Yes for API, No for impurities reference standard.
Q.No.11	Have you used pharmaceutical grade excipients?	Yes
Q.No.12	Do you have documents confirming the import of the used excipients?	Locally purchased
Q.No.13	Do you have test reports and other records on the excipients used?	Yes
Q.No.14	Do you have written and authorized protocols for the development **Tablets**?	Yes
Q.No.15	Have you performed Drug-excipients compatibility studies?	Not performed.
Q.No.16	Whether firm has performed comparative dissolution studies?	Not performed.
Q.No.17	Do you have product development (R&D) section	**No**
Q.No.18	Do you have necessary equipments available in product development section for development **Tablets?**	Not Applicable
Q.No.19	Are the equipments in product development section qualified?	Not Applicable
Q.No.20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	Not Applicable
Q.No.21	Do you have qualified staff in product development section with proper knowledge and training in product development?	Yes
Q.No.22	Have you manufactured three stability batches for the stability studies **Tablets** as required?	Yes
Q.No.23	What was the criteria for fixing the batch size of stability batches?	Criteria for fixing batch size of stability batches is number of tablets per testing and number of testing frequencies according to 276th DRB meeting.
Q.No.24	Do you have complete record of production of stability batches?	Yes

Q.No.25	Do you have protocols for stability testing of stability batches?	Yes
Q.No.26	Do you have developed and validated the method for testing of stability batches?	In-house method developed and validated
Q.No.27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable
Q.No.28	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Calibration record maintained.
Q.No.29	Do your method of analysis stability indicating?	Yes, method validated
Q.No.30	Do your HPLC software is 21CFR compliant?	Yes, Empower2, waters , 600 series
Q.No.31	Can you show Audit Trail reports on **Empaa-XR Tablets** testing?	Yes
Q.No.32	Do you have some remaining quantities of degradation products and stability batches?	Degradation products not available Stability batches available
Q.No.33	Do you have commitment batches kept on stability testing?	Yes
Q.No.34	Do you have valid calibration status for the equipments used in **Empaa-XR Tablets** production in analysis?	Yes
Q.NO.35	Do proper and continuous monitoring and control are available for stability chamber?	21CFR compliant chambers have been provided with continuous power supply(power backup up to 12hrs) and digital data loggers with record of test period.
Q.No.36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Yes

- Only Good Declaration copy is available regarding import of Metformin.
- Empagliflozin is coated as solution on core of Metformin as confirmed from record during inspection.
- The firm production in-charge during inspection informed that overage of 5% was added to compensate for drug loss during manufacturing process.
- The firm has informed that they have developed and validated there method of analysis, record seen and found satisfactory.

Conclusion:

a. On risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of **Empaa-M XR Tablets (Empagliflozin 25mg, and Metformin 1000mg) Extended release tablets** is verifiable as per above mentioned details.

- Dr Abdul Rasheed, Director PS
- Atiq ul Bari, FID, Peshawar

Decision: Registration Board decided to approve registration of "Empaa-M XR 25 mg/1000mg Tablet by M/s. Weather Folds Pharmaceuticals, Plot # 69, Phase-II, Industrial Estate, Hattar. Manufacturer will place first three commercial batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

b. Exemption from onsite verification of stability data

Deferred case:

2.	Name and address of manufacturer / Applicant	M/s. Genix Pharma Private Limited 44, 45-B, Korangi Creek road, Karachi
	Brand Name +Dosage Form + Strength	Fludip 5 mg tablet
	Composition	Each film coated tablet contains: Dapagliflozin propanediol monohydrate eq. to Dapagliflozin……....5mg
	Diary No. Date of R& I & fee	Dy.No 218 dated 09-09-2014 Rs. 50,000/- 08-09-2014

	Pharmacological Group	**Sodium Glucose Co-transporter 2 Inhibitors**
	Type of Form	Form 5
	Finished product Specifications	Manufacturers specification
	Pack size & Demanded Price	10's, 20's, & 30's:As per SRO
	Approval status of product in Reference Regulator Authorities	Farxiga 5mg tablet of USFDA approved
	GMP status	Last inspection was conducted on 10-04-2019 and report concludes that firm is operating at an acceptable level of cGMP compliance.
	Remarks of the Evaluator[IV]	

STABILITY STUDY DATA

Drug	Fludip 5 mg		
Name of Manufacturer	M/s. Genix Pharma Private Limited 44, 45-B, Korangi Creek road, Karachi		
Manufacturer of API	M/S Jiangsu Yogan Pharmaceutical Co., Ltd, China		
API Lot No.	DPG-201803001		
Description of Pack (Container closure system)	Alu-Alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚ C / 65% ± 5% RH Accelerated: 40˚C ± 2˚C / 75% ± 5% RH		
Time Period	Real time: 9 months Accelerated:6 months

Date of Initiation	21-01-2019	21-01-2019	21-01-2019
No. of Batches	03		
Date of Submission	16-01-2020 (30567)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
25.	COA of API.	Copy of COA (Batch# DPG-201803001) from M/S Jiangsu Yogan Pharmaceutical Co., Ltd, China is submitted.
26.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.

27.	Protocols followed for conduction of stability study and details of tests.	Yes
28.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
29.	Documents confirming import of API etc.	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
30.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
31.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
32.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

20.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board approved Wymly 25mg Tablet in its 281st Meeting. • Date of Inspection: 09-04-2018 • The HPLC is 21CFR Compliant. • Audit trail on the testing were available
21.	Documents for the procurement of API with approval from DRAP (in case of import).	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
22.	Documents for the procurement of reference standard and impurity standards.	Firm have submitted letter from an indentor Neon chemicals and supplier is M/S Jiangsu Yongan pharmaceuticals Co., Ltd, China
23.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.
24.	Mechanism for Vendor pre-qualification	The firm has submitted copy of vender evaluation questionnaire for vender pre-qualification along with filled questionnaire from both APIs manufacturers.

<tr><td>38.</td><td>Compliance Record of HPLC software 21CFR & audit trail reports on product testing.</td><td>Firm has submitted audit trail reports for complete stability studies analysis of three batches</td></tr>
</table>

Remarks of Evaluator:

S.No	Shortcoming communicated	Reply of Firm
1.	The firm has claimed that they manufactured lab scale batches of their applied product “Flucid 5mg” by using same formulation (excipients) of Innovator’s Product however yellow colour added in core. Clarify.	Firm reply that they are adding colour in very minute quantity in core formulation for segregation of product to avoid mixing as they have different products on same tooling in order to comply GMP.
2.	Innovator used dry granulation method while applied product is manufactured by direct compression . Justify.	Direct compression and dry granulation methods are almost same processes except unit operation that is compaction involve in dry granulation, while in both processes, formulation developed without using any solvent or liquid solution
3.	Submit Real time Stability of API according to zone IV -A	Stability studies of 3batches according to Zone IV-A submitted.
4.	Chromatograms for Content uniformity and dissolution testing at initial testing for Batch No: 19SB-201-01and chromatograms at initial dissolution testing Batch no: 19SB-201-03 not submitted	Submitted.

5.	Evidence of procurement of reference product	submitted
6.	**Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as "Shall comply with requirements for Q at 15 minutes**	• Firm reply that they are following FDA dissolution method. Dissolution time is 30 minutes mentioned. • On the basis of CDP data, the results were found above the 85% in 15 minutes • The dissolution test were conducted again at 15 minutes. The results were found above 80%(Q) = 85% • The dissolution results of all 3 batches are attached for the reference. • The specifications are revised for 15 minutes of dissolution testing.

Previous Decision(M-295)
Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications as per that of the innovator product at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

- Firm submitted reply that they had initially conducted dissolution studies at 15 minutes and 30 minutes on initially manufactured batch and Q of both 15 minutes and 30minutes testing is greater than 85%. They submitted the data for 2 batches at initial and one month time point at both **accelerated and real time stability conditions where the rest of test values are same but dissolution results are change from 30 minutes data.**
- **However at initially they submitted protocol in which they did not mentioned that the dissolution studies are conducted parallel at both 30 minutes and 15 minutes.**
- **When communicated through letter** No. F.1-1/2019/PEC-DRAP (AD PEC-IV*)* Dated: 30-06-2020 about **Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as "Shall comply with requirements for Q at 15 minutes. They did not mentioned that the dissolution studies are conducted parallel at both 30minutes and 15 minutes and replied that they were following FDA dissolution method where dissolution time is 30minutes and submitted results of one time dissolution testing on each batch i.e 19SB-201-01, 19SB-202-02 & 19SB-203-03 at 15 minutes.**

3.	Name and address of manufacturer / Applicant	M/s. Genix Pharma Private Limited 44, 45-B, Korangi Creek road, Karachi
	Brand Name +Dosage Form + Strength	Fludip 10 mg
	Composition	Each film coated tablet contains: Dapagliflozin propanediol monohydrate eq. to Dapagliflozin……....10mg
	Diary No. Date of R& I & fee	Dy.No 219 dated 09-09-2014 Rs. 50,000/- 08-09-2014
	Pharmacological Group	**Sodium Glucose Co-transporter 2 Inhibitors**
	Type of Form	Form 5
	Finished product Specifications	Manufacturers specification
	Pack size & Demanded Price	10's, 20's, & 30's:As per SRO
	Approval status of product in Reference Regulator Authorities	Farxiga 10mg tablet of USFDA approved

	GMP status	Last inspection was conducted on 10-04-2019 and report concludes that firm is operating at an acceptable level of cGMP compliance.
	Remarks of the Evaluator[IV]	

STABILITY STUDY DATA			
Drug	Fludip 10 mg		
Name of Manufacturer	M/s. Genix Pharma Private Limited 44, 45-B, Korangi Creek road, Karachi		
Manufacturer of API	M/S Jiangsu Yogan Pharmaceutical Co., Ltd, China		
API Lot No.	DPG-201803001		
Description of Pack (Container closure system)	Alu-Alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚ C / 65% ± 5% RH Accelerated: 40˚C ± 2˚C / 75% ± 5% RH		
Time Period	Real time: 9 months Accelerated:6 months		
Frequency	Accelerated: 0,1,2,3,4,6 (month) Real Time: 0,3,6, 9 (month)		
Batch No.	19SB-204-01	19SB-205-02	19SB-206-03
Batch Size	1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date	01-2019	01-2019	01-2019
Date of Initiation	24-01-2019	24-01-2019	24-01-2019
No. of Batches	03		
Date of Submission	16-01-2020 (30567)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	Documents To Be Provided	Status
1.	COA of API.	Copy of COA (Batch# DPG-201803001) from M/S Jiangsu Yogan Pharmaceutical Co., Ltd, China is submitted.
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes

5.	Documents confirming import of API etc.	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Registration Board approved Wymly 25mg Tablet in its 281st Meeting. • Date of Inspection: 09-04-2018 • The HPLC is 21CFR Compliant. • Audit trail on the testing were available
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Commercial Invoice No ZY18031601G/W Dated: 16-03-2018 from Suzhou ZhiYu Biotechnology Co., Ltd is submitted & attested by ADC (Karachi) dated ;09-04-2018.
3.	Documents for the procurement of reference standard and impurity standards.	Firm have submitted letter from an indentor Neon chemicals and supplier is M/S Jiangsu Yongan pharmaceuticals Co., Ltd, China
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate No. JS20160548 issued to M/s Jiangsu Yongan pharmaceuticals Co., Ltd, China, Address: No.18, 237 Provincial highway, Jiangsu HUai an economic Development Zone Issued by China Food and drug administration. Valid up to 03-03-2021.
5.	Mechanism for Vendor pre-qualification	The firm has submitted copy of vender evaluation questionnaire for vender pre-qualification along with filled questionnaire from both APIs manufacturers.
6.	Certificate of analysis of the API, reference standards and impurity standards	The firm has submitted COA of API: Batch No. DPG-201803001 COA of Reference Standard: Batch No. DPG-201804001
7.	Documents for the procurement of excipients used in product development?	The firm has submitted photocopy of Commercial invoices/COAs of all the excipients used in the formulation of applied product.

Remarks of Evaluator:

S.No	Shortcoming communicated	Reply of firm
1.	The firm has claimed that they manufactured lab scale batches of their applied product “Flucid 10mg” by using same formulation (excipients) of Innovator’s Product however yellow color added in core. Clarify.	Firm reply that they are adding color in very minute quantity in core formulation for segregation of product to avoid mixing as they have different products on same tooling in order to comply GMP.
2.	Innovator used dry granulation method while applied product is manufactured by direct compression . Justify.	Direct compression and dry granulation methods are almost same processes except unit operation that is compaction involve in dry granulation, while in both processes, formulation developed without using any solvent or liquid solution
3.	Submit Real time Stability of API according to zone IV -A	Stability studies of 3batches according to Zone IV-A submitted.
4.	Evidence of procurement of reference product	submitted
5.	**Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as “Shall comply with requirements for Q at 15 minutes.**	• Firm reply that they are following FDA dissolution method. Dissolution time is 30 minutes mentioned. • On the basis of CDP data, the results were found above the 85% in 15 minutes • The dissolution test were conducted again at 15 minutes. The results were found above 80%(Q) = 85% • The dissolution results of all 3 batches are attached for the reference.

		• The specifications are revised for 15 minutes of dissolution testing.

Previous Decision(M-295)

Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications as per that of the innovator product at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

- Firm submitted reply that they had initially conducted dissolution studies at 15 minutes and 30 minutes on initially manufactured batch and Q of both 15 minutes and 30minutes testing is greater than 85%. They submitted the data for 2 batches at initial and one month time point at both **accelerated and real time stability conditions where the rest of test values are same but dissolution results are change from 30 minutes data.**
- **However at initially they submitted protocol in which they did not mentioned that the dissolution studies are conducted parallel at both 30 minutes and 15 minutes.**
- **When communicated through letter** No. F.1-1/2019/PEC-DRAP (AD PEC-IV*)* Dated: 30-06-2020 about **Clarification of applied dissolution limits, since reference product specify the acceptance criteria of dissolution test as "Shall comply with requirements for Q at 15 minutes. They did not mentioned that the dissolution studies are conducted parallel at both 30minutes and 15 minutes and replied that they were following FDA dissolution method where dissolution time is 30minutes and submitted results of one time dissolution testing on each batch i.e 19SB-204-01, 19SB-205-02 & 19SB-206-03 at 15 minutes**

Decision: Registration Board decided to approve registration of "Fludip 10 mg tablet (Dapagliflozin as propanediol monohydrate) & Fludip 5 mg tablet (Dapagliflozin as propanediol monohydrate) by M/s. Genix Pharma Private Limited 44, 45-B, Korangi Creek road, Karachi Manufacturer will place first three commercial batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

Case no. 02 Registration applications of newly granted DML or New section (Human)

a. New DML

M/s Pacific Pharmaceuticals Ltd. Ravi lane, Plot No., 384, Sundar industrial Estate, Raiwind Road, Lahore was granted New DML.

Following applications are submitted.

4.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Pacific Pharmaceuticals Ltd. Ravi lane, Plot No., 384, Sundar industrial Estate, Raiwind Road, Lahore**
	Name, address of Manufacturing site.	M/s Pacific Pharmaceuticals Ltd. Ravi lane, Plot No., 384, Sunder Industrial Estate, Raiwind Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 18344, 27-07-2020
	Details of fee submitted	PKR 20,000/-: 05-05-2020

	The proposed proprietary name / brand name	**Pacisal-NS IV Infusion 500ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml contains: Sodium chloride ……. 900mg
	Pharmaceutical form of applied drug	Intravenous Infusion
	Pharmacotherapeutic Group of (API)	Electrolyte (B05XA03)
	Reference to Finished product specifications	USP
	Proposed Pack size	500ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Approved by US FDA
	For generic drugs (me-too status)	Medisol NS 0.9% 500ml of Mediapk Ltd., (Reg.# 008242)
	GMP status of the Finished product manufacturer	New DML issued on 24-06-2019
	Name and address of API manufacturer.	M/s Dominion Salt Ltd., 89, totara street, Mount Maunganui, New Zeland.
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.
	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol, Finished product analytical method validation report & stability studies data.
	Remarks: Firm has performed comparative studies against the "Medisol 0.9% infusion".	

STABILITY STUDY DATA

Manufacturer of API	M/s Dominion Salt Ltd., 89, totara street, Mount Maunganui, New Zeland.		
API Lot No.	08012019		
Description of Pack (Container closure system)	Low Density Polyethylene film bags.		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 35% ± 5%RH Accelerated: 40˚C ± 2˚C / NMT 25% RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)

	Details of fee submitted	Rs. 20,000/- vide deposit slip# 1960609 dated 06-08-2019
	The proposed proprietary name / brand name	Empaglif 10mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin ……. 10mg
	Pharmaceutical form of applied drug	Film coated tablets
	Pharmacotherapeutic Group of (API)	Anti-diabetic agent ATC code: A10BK03
	Reference to Finished product specifications	Innovator's specifications.
	Proposed Pack size	3 x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Approved by USFDA

	For generic drugs (me-too status)	Product: Xenglu tablet Manufacturer: Hilton pharma., Karachi.
	Name and address of API manufacturer.	M/s. Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou, Jiangsu, 213105, China
	GMP status of the API manufacturer	Copy of GMP certificate (Certificate# JS20170734) valid upto 25-12-2022 issued by China Food & Drug Administration.
	GMP status of the FPP manufacturer	cGMP certificate valid upto 22-04-2022.
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.
	Module-III:	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol and Finished product analytical method validation report.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted comparative dissolution profile of applied product against the reference product, Jardiance (batch# 844574 in three buffers i.e., pH 1.2, pH 4.5 & pH 6.8.
	Analytical method validation/verification of product	Firm has submitted analytical method validation data.
	Remarks of Evaluator:	

STABILITY STUDY DATA

Name of manufacturer	M/s Bio-Labs (Pvt.) Ltd., Plot # 145 Industrial Triangle, Kahuta Road, Islamabad-25000, Pakistan.		
Name of Product	Empaglif 10mg Tablet		
Manufacturer of API	M/s. Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd., Jiangsu, China.		
API Lot No.	EGF20180801		
Description of Pack (Container closure system)	Alu-Alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	EMT-001	EMT-002	EMT-003
Batch Size	1500 tablets	1500 tablets	1500 tablets
Manufacturing Date	11-2018	11-2018	11-2018
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
#	**Documents To Be Provided**	**Status**
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (JS20140321) valid upto 18-08-2019, issued by Jiangsu Food & Drug Administration for M/s. Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd., Jiangsu, China.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted copy of invoice (invoice# PSPW-180904) cleared by DRAP Islamabad office dated 27-09-2018 specifying import of 0.5kg Empagliflozin.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

Report on investigation of authenticity / genuineness of data submitted for registration of Empagliflozin 10mg & 25mg Tablet by M/s. Bio-Labs (Pvt) Ltd., Plot # 145 Industrial Triangle, Kahuta Road, Islamabad.

Composition of Panel:

- Dr. Qurban Ali, Member Registration Board.
- Mrs. Tehreem Sara, Deputy Director RRR, PE&R Division, DRAP Islamabad.
- Hafiz M. Ali Tayyab, Assistant Director Registration-II, PE&R Division, DRAP, Islamabad.

<table>
<tr><th>Sr. No.</th><th>Question</th><th>i. Observation by panel</th></tr>
<tr><td>1.</td><td>Do you have documents confirming the import of API including approval from DRAP?</td><td>Firm has imported 0.500Kg Empagliflozin from M/S Shanghai Pharma Group Changzhou Kony Phramaceuticals Co. Ltd., Daixi street, Luoyang Town, Wujin District, Changzhou, Jiangsu 213105, China. ADC clearance: 27/09/2018.</td></tr>
<tr><td>2.</td><td>What was the rationale behind selecting the particular manufacturer of API?</td><td>Vendor is selected on GMP status of firm, DMF and stability study data provided by API manufacture.</td></tr>
<tr><td>3.</td><td>Do you have documents confirming the import reference standard and impurity standards?</td><td>Firm has received working standard and impurity standards from their supplier Shanghai Pharma Group Changzhou Kony Phramaceuticals Co. Ltd., Daixi street, Luoyang Town, Wujin District, Changzhou, Jiangsu 213105, China confirming supply of following:
<table>
<tr><td>Particular</td><td>Quantity supplied</td></tr>
<tr><td>working standard</td><td>100mg</td></tr>
<tr><td>Impurity Standard A</td><td>10mg</td></tr>
<tr><td>Impurity Standard B</td><td>10mg</td></tr>
<tr><td>Impurity Standard C</td><td>Not imported</td></tr>
</table></td></tr>
<tr><td>4.</td><td>Do you have certificate of Analysis of the API, reference standards and impurity standards?</td><td>Firm has COA of API and impurity standards A & B. COA of Impurity Standard C not available.</td></tr>
<tr><td>5.</td><td>Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?</td><td>Firm has GMP certificate of Shanghai Pharma Group Changzhou Kony Phramaceuticals Co. Ltd., issued by CFDA, China. GMP certificate bears names of APIs manufactured by the firm but Empagliflozin was not included in that list as list on GMP certificate revised after every 5 years and validity of GMP certificate was also 5 years.</td></tr>
<tr><td>6.</td><td>Do you use API manufacturer method of testing?</td><td>The firm has used API manufacturer method of testing.</td></tr>
<tr><td>7.</td><td>Do you have stability studies reports on API?</td><td>The firm has API stabilities reports conducted by API manufacturer.</td></tr>
<tr><td>8.</td><td>If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?</td><td>Degradation products have not been quantified.</td></tr>
<tr><td>9.</td><td>Do you have method for quantifying the impurities in the API?</td><td>Firm has manufacturer method for quantifying impurities of API. No impurity was quantified while manufacturer has identified impurity A.</td></tr>
<tr><td>10.</td><td>Do you have some remaining quantities of the API, its reference standard and impurities standards?</td><td>Firm has remaining quantity of 200gm of API.
Small quantity of working standard is present.
Impurity standards not present</td></tr>
<tr><td>11.</td><td>Have you used pharmaceutical grade excipients?</td><td>Pharmaceutical grade excipient used as by Innovator (Lactose, Microcrystalline cellulose, Hydroxy propyl cellulose, Cross carmellose sodium, Colloidal Silicon dioxide, Magnesium stearate).</td></tr>
<tr><td>12.</td><td>Do you have documents confirming the import of the used excipients?</td><td>Firm has necessary documents for import of used excipients.</td></tr>
<tr><td>13.</td><td>Do you have test reports and other records on the excipients used?</td><td>Firm has performed following tests of Excipients
Appearance
Solubility
Identification</td></tr>
</table>

<table>
<tr><td></td><td></td><td>pH
LOD
Panel advised the firm to improve Microbial testing along with data presentation.</td></tr>
<tr><td>14.</td><td>Do you have written and authorized protocols for the development?</td><td>Product development protocol is available for Empaglif Tablets.</td></tr>
<tr><td>15.</td><td>Have you performed Drug-excipients compatibility studies?</td><td>Same excipients are used as by Innovator “Jardiance”, so drug excipient compatibility study was not performed.</td></tr>
<tr><td>16.</td><td>Have you performed comparative dissolution studies?</td><td>Comparative dissolution studies have been performed against innovator product Jardiance, manufactured by Boehringer Ingelheim.
<table>
<tr><td>Detail</td><td>Test product</td><td>Reference product</td></tr>
<tr><td>Brand</td><td>Empaglif 10mg Tab</td><td>Jardiance 10mg Tab</td></tr>
<tr><td>Batch No</td><td>EMT-001</td><td>844574</td></tr>
<tr><td>Medium</td><td colspan="2">0.1 HCl, Acetate buffer, Phosphate buffer</td></tr>
</table>
<table>
<tr><td>Detail</td><td>Test product</td><td>Reference product</td></tr>
<tr><td>Brand</td><td>Empaglif 25mg Tab</td><td>Jardiance 25mg Tab</td></tr>
<tr><td>Batch No</td><td>EMT-004</td><td>744305</td></tr>
<tr><td>Medium</td><td colspan="2">0.1 HCl, Acetate buffer, Phosphate buffer</td></tr>
</table></td></tr>
<tr><td>17.</td><td>Do you have product development (R&D) section</td><td>Firm has dedicated product development section.</td></tr>
<tr><td>18.</td><td>Do you have necessary equipment’s available in product development section for development of new product?</td><td>Firm has equipment available in R&D section.
For wet mixing not equipment was available in R&D section.</td></tr>
<tr><td>19.</td><td>Are the equipments in product development section qualified?</td><td>Equipment used in product development are qualified.</td></tr>
<tr><td>20.</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>Annual calibration program is available.</td></tr>
<tr><td>21.</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>Firm has qualified staff in product development section.</td></tr>
<tr><td>22.</td><td>Have you manufactured three stability batches for the stability studies of new product as required?</td><td>Firm has manufactured 03 stability batches (EMT-001, EMT -002, EMT -003) for Empaglif 10mg and (EMT -004, EMT -005, EMT -006) for Empaglif 25mg having batch size of 1500 Tablets.</td></tr>
<tr><td>23.</td><td>Do you have any criteria for fixing the batch size of stability batches?</td><td>Criteria for fixing batch size is number of test required and testing frequency.</td></tr>
<tr><td>24.</td><td>Do you have complete record of production of stability batches?</td><td>Complete record of production of stability batches for Empaglif 10mg & 25mg Tablets available.</td></tr>
</table>

25.	Do you have protocols for stability testing of stability batches?	Product testing protocol available for Empaglif Tablets.
26.	Do you have developed and validated the method for testing of stability batches?	Firm has performed following steps of validation; Precision Accuracy Linearity Ruggedness
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable.
28.	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Equipment used in testing are qualified.
29.	Do your method of analysis stability indicating?	**Degradation products have not been quantified.**
30.	Do your HPLC software is 21CFR compliant?	All the stability study of EMPAGLIF (10mg & 25mg) Tablets has been conduct on Shimadzu HPLC (Model SPD-20) operated via **LABSOLUTION** software version 6.5 (complying FDA 21 CFR part 11),
31.	Can you show Audit Trail reports on New product testing?	Audit trail reports for Testing of Empaglif 10mg & 25mg Tablets are available.
32.	Do you have some remaining quantities of degradation products and stability batches?	Firm has some remaining quantities of stability batches kept in stability chamber for Real time stability.
33.	Do you have stability batches kept on stability testing?	Stability batches are kept in stability chamber for Real time stability testing. Up to 18 month Real time stability completed.
34.	Do you have valid calibration status for the equipments used for production and analysis of new product?	Firm has valid calibration status for equipment used in production and analysis of new products.
35.	Do proper and continuous monitoring and control are available for stability chamber?	Proper and continuous monitoring record for stability chamber is available, along with 5KV backup generator with ATS.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Related manufacturing area, equipment, personnel and utilities be rated as GMP compliant

Decision: Registration Board decided to approve registration of "Empaglif 10mg Tablet (Empagliflozin) & Empaglif 25mg Tablet (Empagliflozin) by M/s Bio-Labs (Pvt.) Ltd., Plot # 145 Industrial Triangle, Kahuta Road, Islamabad-25000, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
#	**Documents To Be Provided**	**Status**
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of GMP certificate of M/s Jiangsu Yongan Pharmaceutical Co., Ltd. China (Certificate # JSHAHAQ2017005). The certificate is valid till 31-12-2020. Firm has submitted copy of GMP certificate of M/s Wanbury Limited India (Certificate # 3083/Stores/2019). The certificate is valid till 06-02-2022.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Firm has submitted ADC attested invoice confirming import of 4 Kg Empagliflozin from M/s Jiangsu Yongan Pharmaceutical Co., Ltd. China dated 23-11-2017 for Batch No. 20171108 and 10 Kg Empagliflozin dated 05-04-2019 for Batch No. 20190322. Firm has submitted ADC attested invoice confirming import of 1000 Kg Metformin HCl from M/s Wanbury Limited India dated 16-01-2018 for Batch No. MT18751217.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

DATA FOR EXEMPTION FROM ONSITE INVESTIGATION OF SUBMITTED STABILITY DATA		
Administrative Portion		
1	Reference of last onsite panel inspection for instant dosage form conducted during last two years	Firm has referred to onsite inspection report of their product for Arcox (Etoricoxib) Tablets 90mg & 120mg on 17th September, 2018 and was presented in 286th Drug Registration Board meeting held on 14th – 16th November, 2018. The case was approved and the inspection report confirms following points:

		• The HPLC software is 21CFR Compliant as per record available with the firm. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are GMP compliant.
2	Documents for the procurement of API with approval from DRAP (in case of import)	Firm has submitted ADC attested invoice confirming import of 4 Kg Empagliflozin from M/s Jiangsu Yongan Pharmaceutical Co., Ltd. China dated 23-11-2017 for Batch No. 20171108 and 10 Kg Empagliflozin dated 05-04-2019 for Batch No. 20190322. Firm has submitted ADC attested invoice confirming import of 1000 Kg Metformin HCl from M/s Wanbury Limited India dated 16-01-2018 for Batch No. MT18751217.
3	Documents for the procurement of reference standard and impurity standards	Firm has submitted COA and invoice of reference standard and impurity standards.
4	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin	Firm has submitted copy of GMP certificate of M/s Jiangsu Yongan Pharmaceutical Co., Ltd. China (Certificate # JSHAHAQ2017005). The certificate is valid till 31-12-2020. Firm has submitted copy of GMP certificate of M/s Wanbury Limited India (Certificate # 3083/Stores/2019). The certificate is valid till 06-02-2022.
5	Mechanism for Vendor pre-qualification	Firm has submitted copy of vendor evaluation report of Empagliflozin and Metformin HCl, filled and signed by technical persons of the firm.
6	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted COA of API, reference standard and impurity standards.
7	Documents for the procurement of excipients used in product development	Firm has submitted documents for procurement of excipients used in formulation of applied product.
8	List of qualified staff involved in product development with relevant experience	Firm has provided list of qualified staff of product development section and R&D Analytical Laboratory comprising of 43 qualified staff.
Production Data		
9	Authorized Protocols/SOP for the development & stability testing of trial batches	Firm has submitted authorized stability protocols / SOP for development and stability testing of trial batches.
10	Complete batch manufacturing record of three stability batches	Firm has submitted copy of Batch Manufacturing Record for all the three stability batches.
11	Record of remaining quantities of stability batches	Firm has provided following remaining quantities for each batch:

		488DS01 : 292 Tablets 488DS02 : 310 Tablets 488DS03 : 310 Tablets
QA/QC Data		
12	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted copies of data logger record for stability chambers with real time and accelerated stability testing.
13	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of Empagliflozin and Metformin HCl.
14	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	Firm has submitted copy of method of analysis of FPP and complete record of testing of stability batches along with chromatograms, lab reports, raw data sheets etc.
15	Reports of stability studies of API from manufacturer.	Firm has submitted stability studies reports of three batches of Empagliflozin and Metformin HCl.
16	Analysis reports for excipients used.	Firm has submitted analysis reports for all excipients used in product development
17	Drug-excipients compatibility studies.	Firm has submitted that same excipients has been used as used by innovator 'Synjardy Tablets 12.5mg + 500mg'. However, there is only difference in the film-coating material. Therefore, Drug-excipients compatibility studies were not performed.
18	Record of comparative dissolution data.	Firm has submitted data of comparative dissolution profile (in pH 1.2 HCl, Acetate Buffer pH 4.5, Phosphate buffer pH 6.8) with the innovator brand (Synjardy Tablets).
19	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail on testing reports for the applied product has been submitted by the firm.
Decision: Registration Board decided to approve registration of "GLARDIN-M Tablets 12.5mg + 500mg by M/s Getz Pharma Pvt. Ltd 29-30, Sector 27, Korangi Industrial Area, Karachi. Manufacturer will place first three commercial batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.		

Agenda of Evaluator PEC-XIV

Case no. 01 Registration applications of drugs for which stability study data is submitted

a. Verification of stability study data

9.	Name and address of manufacturer / Applicant	M/s Weather Folds Pharmaceuticals, Plot No. 62/2, Phase II, Industrial area, Hattar
	Brand Name +Dosage Form + Strength	SACUVAL 24/26MG TABLET
	Composition	Each film coated tablet contains: Sacubitril as Sacubitril Valsartan sodium salt complex ……...24.3mg Valsartan as Sacubitril Valsartan sodium salt complex ……...25.7mg
	Diary No. Date of R& I & fee	2930, 22-01-2019, 20,000/-, 16-01-2019
	Pharmacological Group	Neprilysin inhibitor / Angiotensin II Receptor Blocker combination
	Type of Form	Form-5

	Finished Product Specification	Manufacturer's specifications
	Pack size & Demanded Price	As per SRO As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in USFDA (Entresto Tablet of Novartis pharms)
	Me-too status	Savel tablet 24/26mg by PharmEvo.
	GMP status	Inspection report of M/s Weather folds dated 20/02/2019, recommends the grant of GMP certificate.

11.	Name and address of manufacturer / Applicant	M/s Weather Folds Pharmaceuticals, Plot No. 62/2, Phase II, Industrial area, Hattar
	Brand Name +Dosage Form + Strength	SACUVAL 97/103MG TABLET
	Composition	Each film coated tablet contains: Sacubitril as Sacubitril Valsartan sodium salt complex ……...97.2mg Valsartan as Sacubitril Valsartan sodium salt complex ……...102.8mg
	Diary No. Date of R& I & fee	2932, 22-01-2019, 20,000/-, 16-01-2019
	Pharmacological Group	Neprilysin inhibitor / Angiotensin II Receptor Blocker combination
	Type of Form	Form-5
	Finished Product Specification	Manufacturer's specifications
	Pack size & Demanded Price	As per SRO As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in USFDA (Entresto Tablet of Novartis pharms)
	Me-too status	Savel tablet 97/103mg by PharmEvo.
	GMP status	Inspection report of M/s Weather folds dated 20/02/2019, recommends the grant of GMP certificate.
	Remarks of Evaluator	

STABILITY STUDY DATA			
Name of Manufacturer	M/s Weather Folds Pharmaceuticals, Plot No. 62/2, Phase II, Industrial area, Hattar.		
Manufacturer of API	M/s Shandong Sihuan Pharmaceuticals Co., Ltd., Address: Nanyuan Road, Economic Development Zone, Pingyuan County, Dezhou City, Shandong Province, China.		
API Lot No.	2019021101		
Description of Pack (Container closure system)	Alu-Alu Blister		
Stability Storage Condition	Accelerated: 40ºC ± 2ºC/75%±5% RH Real Time: 30ºC ± 2ºC/65%±5% RH		
Time Period	Accelerated: 06 (months) Real Time: 06 (months)		
Frequency	Real Time: 0,3,6 (06 months) Accelerated: 0,1,2,3,4,6 (06 months)		
Products applied	Batch No.	Batch Size	Manufacturing date
SACUVAL 24/26MG TABLET	T-49 T-50 T-51	1200 Tablets 1200 Tablets 1200 Tablets	06-06-2019 06-06-2019 06-06-2019

No. of Batches	03		
Date of Submission	26978 (13-12-2019)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
1. Sr. No.	Documents To Be Provided	Status
2.	COA of API.	Firm has submitted copy of COA of LCZ696 (Sacubitril/valsartan, batch # 2019021101) from M/s Shandong Sihuan Pharmaceutical Co., Ltd, China. Firm has submitted copy of COA of working standard from API supplier.
3.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has submitted copy of GMP certificate issued from Shandong Pharmaceutical Industry Association valid until 11-05-2021.
4.	Protocols followed for conduction of stability study and details of tests.	Yes
5.	Data of 03 batches will be supported by attested respective documents like	Yes

	chromatograms, laboratory reports, data sheets etc.	
6.	Documents confirming import of API etc.	The firm has submitted copy of invoice for the import of Raw material Sacubitril/Valsartan complex (1.5Kg) and copy of Form-6 attested by Assistant Director (I&E), DRAP, Peshawar dated 30-05-2019.
7.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
8.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
9.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

The firm has submitted 06 months Accelerated and 06 months Real Time Stability Data for 03 Batches.

Sr. No.	Observations	Response of the firm
1.	Clarification is required since weight of raw material (Sacubitril/Valsartan) mentioned on courier slip is 0.5 Kg while that mentioned on commercial invoice is 1.5 Kg. Moreover, submitted commercial invoice is not attested by ADC DRAP.	The firm submitted that we purchased two different consignments from same source and mistakenly that list was attached. The firm has submitted copy of invoice for the import of Raw material Sacubitril / Valsartan complex (1.5Kg) and copy of Form-6 attested by Assistant Director (I&E), DRAP, Peshawar dated 30-05-2019.
2.	GMP certificate of API manufacturer from concerned regulatory authority is required to be submitted	Firm has submitted copy of GMP certificate which is not issued by relevant regulatory authority.
3.	Justify dissolution specifications NLT 80% (Q) in 45 min since dissolution specifications of FDA approved product Entresto 24/26mg Tablet is NLT Q in 25min.	We performed comparative dissolution which fall in limits for both our product and innovator.

Previous Decision: Registration Board deferred the case for following: (M-295)
Submission of GMP certificate of API manufacturer from concerned regulatory authority.
Submission of dissolution limits in finished product specifications in numerical values.

Evaluation by PEC: The firm has submitted GMP certificate for M/s Shandong Boyuan Pharmaceutical Co., Ltd. Qiangjin Street, Jibei Economic Development Zone, Jinan City, China issued by Shandong Food and Drug Administration, China valid till 25-08-2021. Previously submitted GMP certificate was for M/s Shandong Sihuan Pharmaceuticals Co., Ltd., Nanyuan Road, Economic Development Zone, Pingyuan County, Dezhou City, Shandong Province, China. The firm submitted agreement between M/s Shandong Boyuan Pharmaceutical Co., Ltd and M/s Shandong Sihuan Pharmaceuticals Co., Ltd and stated that all sacubitril-valsartan commercial goods will be manufactured in Shandong Boyuan Pharmaceutical Co., Ltd from 1st June 2019.

4. The firm submitted that we shall revise dissolution specifications as per innovator i.e., NLT (Q) in 25 min in commercial batch and accordingly, product test method will be updated.

INSPECTION REPORT VERIFICATION OF AUTHENTICITY OF STABILITY DATA

M/s Weather folds Pharmaceuticals Plot 69. Phase II Industrial Estate Hattar

Product:

1. Sacuval 24mg/26 mg Tablets
2. Sacuval 49mg/51 mg Tablets
3. Sacuval 97mg/103 mg Tablets

Date of inspection 01-09-2020 in compliance to letter No.F.1-/2020-PEC dated 01-09-2020

Q. No.	QUESTION	OBSERVATION BY PANEL
1.	Whether the firm has documents confirming import of API?	The firm has imported 1.5 Kg Sacubitril - Valsartan (LCZ696) API complex from M/s Shandong Sihuan Pharmaceutical Co., Ltd China. Form6, dated 30-05-2020
2.	What was the rationale behind selecting the particular manufacturer of API?	There is proper vendor evaluation form being implemented by the firm and the rationale behind selecting the manufacturer is its GMP status.
3.	Whether documents confirm the import of Valsartan/Sacubitril reference standard and impurity standards?	COA of working standard are available as supplied during shipment by the exporter.
4.	Whether the firm has certificate of Analysis of the API, reference standards and impurity standards from exporter?	COA of API and working standard LCZ696 available. Reference standard and impurities not imported.
5.	Whether the firm has any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Firm has GMP Certificate of API manufacturer issued by regulatory authority of country of origin (China).
6.	Whether firm use API manufacturer method of testing?	Firm has used manufacturer method for testing of co-crystallized API complex.
7.	Whether firm has stability studies reports on API?	Firm has accelerated and real time stability studies reports on API co-crystal complex Valsartan + Sacubitril performed by manufacturer of API.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	Stability testing has been performed by manufacturer method, and manufacturer method is stability indicating (SIM). Degradation products have been quantified.
9.	Whether firm has method for quantifying the impurities in the API?	Firm has manufacturer validated method for quantifying impurities in API complex Valsartan + Sacubitril.
10.	Whether firm have some remaining quantities of the API, its reference standard and impurities standards?	Firm has consumed the co-crystal API Valsartan + Sacubitril.
11.	Whether firm has used pharmaceutical grade excipients?	All the excipients are pharmaceutical grade.

12.	Whether firm has documents confirming the import of the used excipients?	Local purchase for already registered products.
13.	Whether firm have test reports and other records on the excipients used?	Firm provided Lab test reports and certificate of analysis for all excipients.
14.	Whether firm has written and authorized protocols for the development of Valsartan + Sacubitril tablets?	Firm has written protocol for the development of Standard manufacturing procedure and batch processing sheet for manufacturing of trial batches.
15.	Whether firm has performed Drug-excipients compatibility studies?	The firm have not performed drug-excipients compatibility studies.
16.	Whether firm has performed comparative dissolution studies?	Firm has performed In vitro comparative dissolution studies with product (Savesto 50 mg (Getz Pharm), Uperio 100 mg and 200 mg)
17.	Whether firm has product development (R&D) section	No
18.	Whether firm has necessary equipment available in product development section for development of Valsartan + Sacubitril tablets?	No, firm have used existing manufacturing facility.
19.	Are the equipment in product development section qualified?	NA
20.	Whether firm have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	NA.
21.	Whether firm has qualified staff in product development section with proper knowledge and training in product development?	Firm has qualified staff with proper knowledge with respect to product development.
22.	Whether firm has manufactured three stability batches for the stability studies of Valsartan + Sacubitril Tablets as required?	Firm has manufactured three stability batches for each.
23.	What were the criteria for fixing the batch size of stability batches?	Criteria for fixing batch size of stability batches is number of tablets per testing and number of testing frequencies according to 276th DRB meeting.
24.	Whether firm has complete record of production of stability batches?	Firm has complete record of production of stability batches.
25.	Whether firm have protocols for stability testing of stability batches?	Real time stability studies: 0, 3rd, 6th, 9th, 12th, 18th and 24th months Accelerated stability studies: 0, 1st, 2nd, 3rd, 4th & 6th months as per 276 DRB meeting.
26.	Whether firm has developed and validated the method for testing of stability batches?	Firm has used In-house validated HPLC method for testing of Assay and Dissolution in stability batches.
27.	Whether firm has method transfer studies in case when the method of testing being used by your firm is given by any other lab?	In house methods.

28.	Whether firm has documents confirming the qualification of equipment / instruments being used in the test and analysis of Valsartan + Sacubitril API and the finished drug?	Yes
29.	Whether firm has stability indicating method of analysis?	Method stability indicating.
30.	Whether firm has HPLC software 21CFR compliant?	Yes, Empower2,waters , 600 series
31.	Whether firm could you show Audit Trail reports on Valsartan + Sacubitril testing?	Audit trail on the testing reports were provided by the firm and demonstrated accordingly.
32.	Whether firm have some remaining quantities of degradation products and stability batches?	Stability batches available.
33.	Whether firm has commitment batches kept on stability testing?	Firm has three commitment batches kept on stability testing in stability chamber at real time stability conditions.
34.	Whether firm has valid calibration status for the equipment used in Valsartan + Sacubitril tablets production and analysis?	Firm has proper calibration schedule and valid calibration status for the equipment used in Valsartan + Sacubitril tablets.
35.	Do proper and continuous monitoring and control are available for stability chamber?	21CFR compliant, The chambers have been provided with continuous power supply (power backup up to 12hrs) and digital data loggers with record of test period.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Firm was operating under satisfactory level of cGMP compliance.

Conclusions:

a. On the basis of risk based approach the genuineness / authenticity of stability data submitted by the firm for registration of Sacuval 24mg/26 mg Tablets (Sacubitril as Sacubitril valsartan sodium salt complex 24.3mg, valsartan as Sacubitril Valsartan sodium salt complex25.7mg), Sacuval 49mg/51 mg Tablets (Sacubitril as Sacubitril valsartan sodium salt complex 48.6mg, valsartan as Sacubitril Valsartan sodium salt complex 51.4mg), Sacuval 97mg/103 mg Tablets (Sacubitril as Sacubitril valsartan sodium salt complex 97.2mg, valsartan as Sacubitril Valsartan sodium salt complex 102.8mg) is verifiable to satisfactory level and the panel recommends grant of registration for the above mentioned products.

Decision: Registration Board decided to approve registration of "SACUVAL 24/26MG TABLET, SACUVAL 49/51MG TABLET, SACUVAL 97/103MG TABLET by M/s. Weather Folds Pharmaceuticals, Plot # 69, Phase-II, Industrial Estate, Hattar. Manufacturer will place first three commercial batches of all three products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

Case No.2 Registration applications of local manufacturing of human drugs submitted on CTD format (New Section)

On the recommendations of panel of experts, the CLB in its 271st meeting held on 12th September has considered and approved the following two additional sections to firm M/s News Pharma, plot No. 42, Sundar Industrial Estate, Lahore

- Dry Powder Suspension (Cephalosporin) Section (1 molecule / 2 Products)
- Capsule (cephalosporin) Section

12.	Name, address of Applicant / Marketing Authorization Holder	M/s News pharma, Plot No. 42, Sundar Industrial Estate, Lahore
	Name, address of Manufacturing site.	M/s News pharma, Plot No. 42, Sundar Industrial Estate, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	The Firm has submitted copy of panel inspection dated 24-07-2019 wherein firm was granted two additional section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of section approval letter dated 27th September, 2019 specifying Dry Powder Suspension (Cephalosporin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 22467 : 03-09-2020
	Details of fee submitted	PKR 20,000/-: 11-08-2020,
	The proposed proprietary name / brand name	New-Xime DS 200mg / 5ml Dry Suspension
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml (after reconstitution) contains: Cefixime as trihydrate……..200mg
	Pharmaceutical form of applied drug	Dry Powder for Oral Suspension
	Pharmacotherapeutic Group of (API)	Third Generation Cephalosporin (J01DD08)
	Reference to Finished product specifications	USP specifications
	Proposed Pack size	1 x30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Suprax 200mg / 5ml Powder for oral suspension (USPFDA approved)
	For generic drugs (me-too status)	Caricef DS 200mg / 5ml of M/s Sami pharma (Reg # 044340)
	Name and address of API manufacturer.	M/s PHARMAGEN LIMITED, Kot Nabi Bukshwala, 34 Km, Ferozpur Road , Lahore (Cefixime Micronised)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related

		to nomenclature, structure, general properties, solubilities, physical form, manufacturers, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 6 months accelerated and 36 months real time data of 3 batches of API.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	The firm has submitted pharmaceutical equivalence with comparator product Caricef DS 200mg/5ml Dry suspension.
	Analytical method validation/verification of product	Firm has submitted protocols and reports of validation studies of analytical method and referred to USP monograph in module III.
13.	Name, address of Applicant / Marketing Authorization Holder	M/s News pharma, Plot No. 42, Sundar Industrial Estate, Lahore
	Name, address of Manufacturing site.	M/s News pharma, Plot No. 42, Sundar Industrial Estate, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	The Firm has submitted copy of panel inspection dated 24-07-2019 wherein firm was granted two additional section.

	Evidence of approval of manufacturing facility	Firm has submitted copy of section approval letter dated 27th September, 2019 specifying Dry Powder Suspension (Cephalosporin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP Certificate for M/s Pharmagen Ltd, Lahore issued by DRAP Lahore. It is valid till 07-01-2022.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying local purchase of 1.0Kg of Cefixime (micronized) dated 15-10-2019.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted that it is not applicable as stability study started in November 2019and it was decided in 293rd meeting which was held in January 2020.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

REMARKS OF EVALUATOR

<table>
<tr><th>Sr. No.</th><th>Observations communicated</th><th>Response by the firm</th></tr>
<tr><td>25.</td><td>Submit data in section 3.2.P.2.6 as per the decision of 293rd meeting of Registration Board which states that “Compatibility studies for the dry powder for injections and dry powder for suspension should be performed as per the instructions provided in individual label of the drug product.”</td><td>The firm has submitted that study was performed after reconstitution with boiled, cooled water and no significant change in odor, taste or assay was observed.</td></tr>
<tr><td>26.</td><td>Summary of additional stability studies (if applicable) e.g. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf life should be provided.</td><td>Following studies were performed on New-Xime powder for suspension after reconstitution with boiled, cooled water:
<table>
<tr><th>Day</th><th>Change in odor</th><th>Change in Taste</th><th>Assay</th></tr>
<tr><td>01</td><td>No</td><td>No</td><td>99.97%</td></tr>
<tr><td>03</td><td>No</td><td>No</td><td>99.96%</td></tr>
<tr><td>05</td><td>No</td><td>No</td><td>99.43%</td></tr>
<tr><td>07</td><td>No</td><td>No</td><td>98.90%</td></tr>
</table></td></tr>
<tr><td>27.</td><td>Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.</td><td>The firm has submitted batch manufacturing records of all the batches of drug product.</td></tr>
<tr><td>28.</td><td>Submit description of the primary container closure systems, including materials of construction as per section 3.2.P.7.</td><td>The firm has used Amber Glass bottle of USP Type III.</td></tr>
<tr><td>29.</td><td>Pharmacological group has been mentioned as 1st generation cephalosporin antibiotic. Clarification is required.</td><td>The firm has corrected the pharmacological group as 3rd Generation cephaloporins.</td></tr>
<tr><td>30.</td><td>Provide summarized tabulated results of verification studies including</td><td>The firm has submitted summary of verification studies of drug product.</td></tr>
</table>

	specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance under section 2.3.S.4.3.	
31.	Data of stability batches is not supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets. Submission of documents is required.	The firm has submitted supporting documents like chromatograms, raw data sheets, COAs and summary data sheets.

Decision: Registration Board decided to approve registration of New-Xime 100mg / 5ml Dry Suspension and New-Xime DS 200mg / 5ml Dry Suspension:

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Agenda of AD PEC-III

Case No. 01

1. **REPORT OF VERIFICATION OF AUTHENTICITY OF PRODUCT DEVELOPMENT / STABILITY DATA AND CAPACITY ASSESSMENT FOR CONTRACT MANUFACTURING**

General Information

Name of manufacturer	M/s. Seraph pharmaceuticals (Pvt.) ltd.
Physical Address	Plot # 210, Industrial Triangle, Kahuta Road, Islamabad
Manufacturing Enlistment No.	000860
Date of inspection	03-09-2020
Purpose of inspection	Verification of Authenticity of Product Development/Stability Data And Capacity Assessment with reference to DRAP, Islamabad letter No. F.1-2/2020-PEC dated 27-08-2020.
Dosage Form/Sections Included	i. Dry Powder Injection (Cephalosporin) Section ii. Dry Powder for Suspension (Cephalosporin) Section iii. Capsule (Cephalosporin) Section
Name of inspector (s)	i. Dr. Qurban Ali, Member Registration Board ii. Mr. Haseeb Tariq, Assistant Director, PEC, PE&R Division iii. Mr. M. Ahsan Hafiz, Assistant Director, PEC, PE&R Division
Name of Firm's Representative (s) accompanying during inspection	i. Qazi Abdur Rasheed (Production Incharge) ii. Faisal Siddiqui (Quality Control Manager) iii. Inam ul Haq (QA Incharge)

Manufacturing record/data was evaluated from **July 2019 to June 2020** for the said purpose. The details of capacity calculations are as under:

SECTION WISE CAPACITY CALCULATION

Capacity of Cephalosporin Injectable Section

Step wise capacity of Cephalosporin Injectable manufacturing	Capacity
Vial Washing - Per single shift of 8 working hours (Load per Day)	32,000 vials
Vial Washing - Per month (22 working Days) with single shift of 8 working hours	704,000 vials
Depyrogenation Capacity- Per Single shift of 8 working hours (Load per Day)	28,000 vials
Depyrogenation Capacity- Per month (22 working Days) with single shift of 8 working hours	6,16,000 vials
Filling and Sealing Capacity – Per single shift of 8 working hours(Load per Day)	56,000 vials
Filling and Sealing Capacity – Per month (22 working Days) with single shift of 8 working hours	12,32,000 vials
Packing Capacity – Per single shift of 8 working hours	21,600 Packs (Vials)
Packing Capacity– Per month (22 working Days) with single shift of 8 working hours	475,200 Packs (Vials)

Note: Limiting step in this process is Packing for calculating Utilized Capacity.

Quarter Wise capacity utilized in Tablet Section			
Quarter	**Actual Production (Vials)**	**Capacity (Vials)**	**Capacity utilized in (%)**
3rd- 2019	300985	1425600	21.12
4th-2019	377816	1425600	26.53
1st-2020	263461	1425600	18.49
2nd -2020	218662	1425600	15.34
Average Capacity Utilized for 2019-2020 in %			**20.37**

Manufacturing Capacity Utilized (average): 20.37%
Manufacturing Capacity Available (average): 79.63%

Capacity of Cephalosporin Dry Powder Suspension

Step wise Capacity of Cephalosporin Dry Powder Suspension	Capacity
Air Blowing Capacity - Per single shift of 8 working hours (Load per Day)	20,000 Bottles
Air Blowing Capacity Per month (22 working Days) with single shift of 8 working hours	440,000 Bottles
Mixing Capacity - Per single shift of 8 working hours (Load per Day)	300 Kg
Mixing Capacity Per month (22 working Days) with single shift of 8 working hours	6,600 Kg
Filling Capacity – Per single shift of 8 working hours (Load per Day)	12,000 Bottles

Filling Capacity – Per month (22 working Days) with single shift of 8 working hours	264,000 Bottles
Packing Capacity – Per single shift of 8 working hours	12,000 Packs
Packing Capacity – Per month (22 working Days) with single shift of 8 working hours	264,000 Packs

Note: Limiting step in this process is filling and packing process for calculating Utilized Capacity.

Quarter wise Capacity utilized			
Quarter	**Actual Production (Bottles)**	**Capacity (Bottles)**	**Capacity utilized in (%)**
3rd- 2019	57394	792000	7.25
4th-2019	89455	792000	11.29
1st-2020	24473	792000	3.09
2nd -2020	59429	792000	7.50
Average Capacity Utilized for 2019-2020 in %			7.28

Manufacturing Capacity Utilized (average): 7.28%
Manufacturing Capacity Available (average): 92.72%

Capacity of Cephalosporin Capsule Section

Step wise capacity of Capacity of Hard Gelatin Capsule Section	**Capacity**
Mixing Capacity - Per single shift of 8 working hours (Load per Day)	300 Kg
Mixing Capacity Per month (22 working Days) with single shift of 8 working hours	6,600 Kg
Filling Capacity – Per single shift of 8 working hours (Load per Day)	100,000 Capsules
Filling Capacity – Per month (22 working Days) with single shift of 8 working hours	22,00,000 Capsules
Blistering Capacity – Per single shift of 8 working hours	32000 Blisters
Blistering Capacity – Per month (22 working Days) with single shift of 8 working hours	704000 Blisters
Packing Capacity – Per single shift of 8 working hours	21,600 Packs
Packing Capacity – Per month (22 working Days) with single shift of 8 working hours	475,200 Packs

Note: Limiting step in this process is Packing Process for calculating Utilized Capacity.

Quarter Wise Capacity of Cephalosporin Hard Gelatin Capsule Section			
Quarter	**Actual Production (Capsules)**	**Capacity (Capsules)**	**Capacity utilized in (%)**
3rd- 2019	2,70,515	1425600	18.98 %
4th-2019	4,21,953	1425600	29.60 %
1st-2020	1,12,373	1425600	7.88 %
2nd -2020	1,85,070	1425600	12.98 %

Average Capacity Utilized for 2019-2020 in %	17.36 %

Manufacturing Capacity Utilized (average): 17.36%
Manufacturing Capacity Available (average): 82.64%

CAPACITY OF QUALITY CONTROL DEPARTMENT

Quality Control Equipment Details			
Sr. No.	Equipments	Qty.	Capacity per day (tests)
1	HPLC	2	2x2 = 4
2	UV Spectrophotometer	1	20
3	pH Meter	2	50
4	Polarimeter	1	15
5	Dissolution apparatus	2	16
6	Balance	1	50
7	Moisture Analyzer	1	20
8	Melting Point Apparatus	1	20
10	Viscometer	1	20
11	Cold Incubator	1	500L
12	Hot incubator	4	125L x 4 = 500L
13	Filtration assembly	2	6

HPLC Capacity Calculation Quarter Wise
(Average 2 tests/day/HPLC)
TOTAL 2 HPLC

QUARTER	Average Capacity of 2 HPLCs	Performed	Capacity Utilized %	Capacity Available %

Average capacity available:				**90.98%**

1. Total number of registered products and registered products in aforementioned sections:

Total registered products of the firm: 172

Registered products in the aforementioned sections: 28

Existing registered products on contract manufactured by the firm in aforementioned sections: 27

2. Manufacturing, QC and IPQC testes performed on manufactured products:

The details of QC and IPQC tests performed on the products manufactured in aforementioned sections are as given in **ANNEX 1**.

3. Installed and utilized capacity of these sections:

The installed and utilized capacity of production in these sections, as provided by the firm, has been given in detail earlier in the report.

4. Installed and utilized capacity of QC Equipment as per pharmacopoeial reference:

The installed and utilized capacity of QC equipment used for testing of products related to these sections, as provided by the firm, has been given in detail earlier in the report.

List of technical personnel **(ANNEX 2)** and list of machinery/equipment **(ANNEX 3)** is attached with the report.

CONCLUSION

The manufacturing capacity (installed, utilized and unutilized) of M/s. Seraph pharmaceuticals (Pvt.) Ltd., Plot # 210, Industrial Triangle, Kahuta Road, Islamabad was assessed based on the data and record provided by the firm, interview of the personnel and visit of the premises.

The details along with the additional points have been given in the report for record and further necessary action.

Decision: Registration Board referred the case back to the panel to assess overall capacity of the analytical equipment of firm including HPLC keeping in view pharmacopoeial and other requirements of all registered drug products.

Case no. 02 Registration applications of CTD cases

A. New Cases

New DML:

M/s Bio-Next Pharmaceuticals Plot No. 50, St No. S-10, RCCI Industrial Estate Rawat Islamabad was granted new license by way of formulation dated 06-11-2019. The firm has submitted following applications on CTD format.

No. of molecules: 01 / No. of Products: 02		
14.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Bio-Next Pharmaceuticals Plot No. 50, St No. S-10, RCCI Industrial Estate Rawat Islamabad.**
	Name, address of Manufacturing site.	M/s Bio-Next Pharmaceuticals Plot No. 50, St No. S-10, RCCI Industrial Estate Rawat Islamabad.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has been granted new DML by way of formulation dated 06-11-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of Section approval letter dated 06-11-2019 specifying Dry Vial Injection section (Carbapenem).
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 25473: 29-11-2019 (Form 5) Dy. No. 22258: 02-09-2020 (Form 5F)
	Details of fee submitted	PKR 20,000/-: 28-11-2019
	The proposed proprietary name / brand name	**MENEPOR 500 mg Injection IV**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Meropenem……..500mg
	Pharmaceutical form of applied drug	Glass vial filled with almost white powder along with 10ml ampoule of WFI further packed in unit carton.
	Pharmacotherapeutic Group of (API)	Carbapenem
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Merrem Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Meronem Injection by ICI Pakistan Ltd.
	Name and address of API manufacturer.	Rajasthan Antibiotics Ltd. Plot No. 619 & 630 RIICO Industrial Area Bhiwadi – District Alwar Rajasthan India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form,

		manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. **Firm has not submitted verification studies of analytical method for the testing of drug substance.**
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30ºC ± 2ºC / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability. **Firm has used overage in the formulation of trial batches**
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the comparator i.e. Meronem 500mg injection.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA	
Manufacturer of API	Rajasthan Antibiotics Ltd. Plot No. 619 & 630 RIICO Industrial Area Bhiwadi – District Alwar Rajasthan India.
API Lot No.	UIMRPS19021
Description of Pack (Container closure system)	Glass vial
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months

Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	MR-001	MR-002	MR-003
Batch Size	350 vials	350 vials	350 vials
Manufacturing Date	01-2020	01-2020	01-2020
Date of Initiation	07-01-2020	07-01-2020	07-01-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. DC/A-1/WHO-GMP/2020/214) issued by Drugs control organization dated 23-01-2020. The certificate is valid till 26-02-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Firm has submitted copy of Form 6 "License to import drugs for clinical trial, examination, test or analysis" for import of meropenem 3Kg from M/s Rajasthan Antibiotics Ltd. Plot No. 619 & 630 RIICO Industrial Area Bhiwadi – District Alwar Rajasthan India issued by AD (I&E) DRAP field office. The license was issued on 02-01-2020. • Firm has submitted copy of commercial invoice dated 02-01-2020 specifying import of 3Kg meropenem.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for only single day 01-07-2020.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) shall be submitted".	Firm has submitted protocols and report for verification studies of the analytical procedure for drug substance.
Provide scientific justification for the use of overage in development of the trial batches.	Firm has submitted that they have not used any overage but did the potency adjustment as per the raw material analysis
Submit the data of compatibility studies in section 3.2.P.2.6 to comply the decision of 293rd meeting of Registration Board, which states that "Compatibility studies for the dry powder for	Firm has submitted the results of appearance, pH and assay after reconstitution with water for injection.

injections and dry powder for suspension should be performed as per the instructions provided in individual label of the drug product"	
Submit data in section 3.2.P.5.3 as per the decision of 293rd meeting of Registration Board, which states that "All the officially recognized compendial methods for assay, dissolution and impurities (as applicable) are required to be verified and verification should include a demonstration of specificity, repeatability (method precision) and accuracy. You have submitted verification report which states that testing is conducted at chemical laboratory of Bio-Labs, further the parameters like specificity, repeatability (method precision) are not determined.	Firm has submitted protocols and report for verification studies of drug product which includes test of specificity, accuracy and repeatability. The report specifies that the verification studies was carried out in chemical lab of Bio-Next Pharmaceuticals.
Submit data in section 3.2.P.6 as per the decision of 293rd meeting of Registration Board, which states that "COA of primary / secondary reference standard including source and lot number shall be provided." You have submitted certificate of analysis of the API instead of reference standard.	Firm has submitted COA of primary reference standard from USP. Reference standard from API manufacturer is **not** submitted.
Specify the type of glass vial used for the applied product.	Firm has submitted that they will use type **II** glass vial.
Provide the data of in-use stability studies in section 3.2.P.8 as per the decision of 293rd meeting of Registration Board, which states that "Summary of additional stability studies (if applicable) e.g. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf life should be provided."	Firm has submitted that after reconstitution the product is to be used immediately therefore in-use stability data is not applicable.
Complete audit trail report for all the HPLC tests of the applied product needs to be submitted.	Firm has submitted that they have performed stability studies on Agilent HPLC which is 21 CFR compliant working via openLab CDS (Revision No. 2.3) compliance software.

Decision: Registration Board decided to approve registration of MENEPOR 500mg Injection IV

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Evaluator PEC-I

Case No. I: Capacity Assessment of M/s Safe Pharmaceuticals, Karachi

CAPACITY ASSESSMENT INSPECTION OF MS. SAFE PHARMACEITICALS PRIVATE LIMITED

Physical Address:	Plot No. CI-20 & 21 Sector-6/B North Karachi industrial area Karachi.
Date of inspection:	13th March 2020
Purpose of inspection:	To determine the manufacturing surplus capacity.
DRAP Islamabad reference letter No. & Date:	F.1-2/2020/PEC, 24th February 2020
Names of inspectors	Dr. Najam-Us-Saquib Additional Director DRAP Karachi. Abdul Rasool Shaikh Area FID Karachi
Names of firm's representatives:	Muhammad Farooq Memon, CE of the firm.

BRIEF ABOUT FIRM:

M/s. Safe Pharmaceuticals (Pvt) Ltd: situated at Plot No. CI-20 & 21 Sector-6/B North Karachi industrial area Karachi was visited and inspected in the light of the above letter to gauge their manufacturing surplus capacity. The firm is famous for manufacturing certain generic products and as per approved design the firm has facilities to manufacture Tablet (G), Tablet (Psychotropic), Capsule (G), Capsule (Cephalosporin), Liquid Syrup, Sterile Liquid Injection General (ampoule/vial), Dry Powder Suspension (G), Dry Powder Suspension (Cephalosporin), Sterile Lyophilized Dry Powder injection (G), Sterile Dry Powder Injection (Cephalosporin).

The firm bears DML No. 000349 by way of formulation and that is valid till 02/2025. In all the approved sections the firm has 309 numbers of registrations excluding registrations for export and for contract manufacturing, which is around 91. Among all the registrations around 210 are regularly manufactured as per records reviewed during the visit. The firm was seen well-maintained at the time of inspection with respect to sanitation & hygiene, documentation and good practices in production, QC lab and stores. The firm was further inspected as per TORs and relevant manufacturing, packaging and quality control records for previous year were reviewed in detail and concluded as follows:

Manufacturing record/data was evaluated from July, 2019 to June, 2020 for the said purpose. The details of capacity calculations are as under:-

SECTION WISE CAPACITY CALCULATION

CAPACITY OF DRY POWDER INJECTION (CEPHALOSPORIN)

Step wise capacity of Cephalosporin Injectable manufacturing	Capacity
Vials Washing: Per single shift of 8 working hours (Load per Day)	50,000 Vials
Vials Washing: Per month (25 working Days) with single shift of 8 working hours	1,250,000 Vials
Depyrogenation Capacity: Per single shift of 8 working hours (Load per Day)	37,000 Vials
Depyrogenation Capacity: Per month (25 working Days) with single shift of 8 hours	925,000 Vials
Filling and Sealing Capacity: Per single shift of 8 working hours (Load per Day)	50,000 Vials
Filling and Sealing Capacity: Per month (25 working Days) with single shift of 8 hours	1,250,000 Vials
Labeling Capacity: Per single shift of 8 working hours (Load per Day)	50,000 Vials
Labeling Capacity: Per month (25 working Days) with single shift of 8 hours	1,250,000 Vials
Packing Capacity: Per single shift of 8 working hours	50,000 Vials
Packing Capacity: Per month (25 working Days) with single shift of 8 hours	1,250,000 Vials

Note: Limiting step in this process is Depyrogenation process for calculation Utilized Capacity

Quarter Wise capacity utilized in Cephalosporin Injectable Section			
Quarter	Actual Production (Vials)	Capacity (Vials)	Capacity utilized in %
3rd - 2019	903,031	2,775,000	32.54%
4th - 2019	478,236	2,775,000	17.23%
1st - 2020	774,297	2,775,000	27.90%

2nd - 2020	701,534	2,775,000	25.28%
Total	2,857,098	11,100,000	--
Average per Quarter	714,275	2,775,000	25.74%

Manufacturing Capacity Utilized (Average) = 25.74%
Manufacturing Capacity Available (Average) = 74.26%

CAPACITY OF DRY POWDER INJECTION GENERAL/LYOPHILIZED) SECTION

Step wise capacity of Cephalosporin Injectable manufacturing	Capacity
Vials Washing: Per single shift of 8 working hours (Load per Day)	30,000 Vials
Vials Washing: Per month (25 working Days) with single shift of 8 working hours	750,000 Vials
Depyrogenation Capacity: Per single shift of 8 working hours (Load per Day)	18,500 Vials
Depyrogenation Capacity: Per month (25 working Days) with single shift of 8 hours	462,500 Vials
Filling and Sealing Capacity: Per single shift of 8 working hours (Load per Day)	15,000 Vials
Filling and Sealing Capacity: Per month (25 working Days) with single shift of 8 hours	375,000 Vials
Labeling Capacity: Per single shift of 8 working hours (Load per Day)	15,000 Vials
Labeling Capacity: Per month (25 working Days) with single shift of 8 hours	375,000 Vials
Packing Capacity: Per single shift of 8 working hours	50,000 Vials
Packing Capacity: Per month (25 working Days) with single shift of 8 hours	1,250,000 Vials

Note: Limiting step in this process is Filling & Sealing process for calculation Utilized Capacity

Quarter Wise capacity utilized in Dry Powder General Section			
Quarter	Actual Production (Vials)	Capacity (Vials)	Capacity utilized in %
3rd - 2019	60,907	375,000	16.24%
4th - 2019	171,929	375,000	45.85%
1st - 2020	100,486	375,000	26.80%

2nd - 2020	162,015	375,000	43.20%
Total	495,337	1,500,000	--
Average per Quarter	123,834	375,000	33.02%

Manufacturing Capacity Utilized (Average)= 33.02%

Conclusion:

The above calculations were made on installed capacity of each section, actual quantity manufactured and finished quantity stocked or sold into the market for the period from July 2019 to June 2020. The panel further examined with respect to time consumption, each process starting form cleaning of ampoules /vials, washing, drying, filling, sealing, packing, testing and storage of above dosage forms.

Based on a thorough inspection the panel unanimously concluded an ample surplus capacity in the stated sections which could better be utilized in contract manufacturing for other registered manufacturers.

Decision: Registration Board referred the case back to the panel to assess overall capacity of the analytical equipment of firm including HPLC keeping in view pharmacopoeial and other requirements of all registered drug products.

Case No.01: ALLOCATION OF QUOTA FOR CONTROL SUBSTANCES EPHEDRINE HCL FOR THE YEAR 2017 TO M/S. SHAREX LABORATORIES, SADIQABAD.

The case of M/s. Sharex Laboratories, Sadiqabad was considered in 275th and 286th meeting of Registration Board as per detailed below:-

Proceedings of 275th of Registration Board:

The instant case was presented based on the letter received from Assistant Director (CD) (Dated 21st Sep, 2017) wherein it has been stated that M/s Sharex Laboratories, sadiqabad applied for quota allocation of product ―Tracodil syrup (Reg. 003158). The case was presented before 43rd meeting of committee on allocation of controlled drug held on 26th July, 2017, the comittee deferred the case for issuance of show cause by DRAP for manufacturing of Tracodil syrup (Reg. 003158) 60ml, 400ml pack without approval. It was requested to verify the status of product registration of Tracodil syrup (Reg. 003158) 400ml pack size.

The approved pack sizes of product ―Tracodil Syrup‖ (Reg no. 003158) have been verified as per available record i.e 120ml, 450ml (National Formulary 1981) and 60ml (dated 27th October 1988).

Decision of 275th meeting of Registration Board:-

Registration decided to call M/s Sharex Laboratories, Sadiqabad for personal hearing and for deliberating above mentioned matter before the Registration Board.

Proceedings of 286th meeting of Registration Board:-

Mr. Muhammad Ishfaq, production pharmacist, appeared before Registration Board and apologized on behalf of the firm for applying quota of 400ml pack size of product ―Tracodil syrup (Reg.003158) without approval.

Decision of 286th meeting of Registration Board:-

Registration Board in its 286th meeting decided to refer the case to Legal Affair division for legal opinion.

Accordingly, the case was referred to Legal Affairs, Division and in response, Legal Affairs, Division has provided following opinion:-

i. That M/s. Sharex Laboratory applied for the quota allocation of product ―Tracodil Syrup‖ (Reg.No.003158).

ii. That the Committee on Allocation of Controlled Drugs held on 26.07.2017 deferred the case for issuance of show cause by DRAP for manufacturing of ―Tracodil Syrup‖ (Reg.No.003158) 60ml, 400ml pack without approval. It was requested to verify the status of product registration of ―Tracodil Syrup‖ (Reg.No.003158) and 60ml (dated 27th October, 1988).

iii. That the approved pack size of the product ―Tracodil Syrup‖ (Reg.No.003158) have been verified as per available record i.e 120ml, 450ml (National Formulary 1981) and 60ml (dated 27th October, 1988).

iv. That Mr. Muhammad Ishfaq production pharmacist, appeared in 286th meeting before Board and apologized on behalf of the firm for applying quota of 400ml pack size of product ―Tracodil Syrup‖ (Reg.No.003158) without approval.

v. That the Registration Board in 286th meeting referred the case to Legal Affairs, Division for legal opinion.

vi. Drug Regulatory Authority of Pakistan Act, 2012 in Schedule-II A(1) (a) (vii) prohibits export, import or manufacture and sale or sell of any therapeutic goods which is not registered or is not in accordance with conditions of registration as disclosed in the registration dossier and that has undergone pharmaceutical evaluation. Furthermore, Schedule-II(A)(c) prohibits to sell any therapeutic goods except under, and in accordance with the conditions of a license issued under this Act. In addition, Schedule-II A(a)(f) prohibit to supply an incorrect, imcomplete or misleading information when required to furnish any information under this Act or the rules.

vii. In this regard, DRAP Act, 2012 under section 27 read with schedule-III (6) provides penalty for violating the prohibitions mentioned above.

Decision of 289th meeting of Registration Board: -

In light of the opinion of Legal Affair's Division on the matter, Registration Board deliberated the case and decided to issue show cause notice to M/s Sharex Laboratories, Sadiqabad for violation of condition of drug registration, as follows:

- Cancellation of registration.
- Suspension of registration.
- Prosecution in Drug Court

Accordingly show cause notice has been served to M/s. Sharex Laboratories, Sadiqabad.

Registration Board in its 295th deliberated on the matter in details and decided to give an opportunity of personal hearing as per Drug Act, 1976 and Rules framed there under to M/s. Sharex Laboratories, Sadiqabad in forthcoming meeting of Registration Board.

Discussion:

M/s. Sharex Laboratories, Sadiqabad was called for personal hearing. Mr. Muhammad Ishfaq, production pharmacist, appeared before Registration Board and apologized on behalf of the firm and stated that firm was unaware about the approval of pack sizes of Tracodil Syrup (Reg.No.003158) as on initial registration letter no pack size was written. He has further stated that firm will submit all the relevant documents / approvals granted by DRAP regarding said product.

Decision:

Registration Board deferred the case for further deliberation after submission of documents as stated by representative of the firm

Sr. No.	Details of application	No. of Cases
A	Locally Manufactured Human Biologicals.	2
Total		15

Sr. No.	Assistant Director	Designated No.	No. of Cases
1.	Mr. Saadat Ali Khan	AD-II	1
2.	Mr. M. Zubair Masood	AD-III	1

A: Locally Manufactured Human Biologicals.

1. Local human Biological applied for registration by M/s Macter International Limited, Karachi deferred in 295th meeting of Registration Board.

The following product for the local manufacturing biological drug was considered in 246th Meeting of Registration Board held on 10-11th December, 2014 but later on the Registration Board in its 270th meeting advise the division of Biological drugs to come up with working paper in the next meeting. The final guidelines regulatory requirements of Biological drugs using rDNA technology has been approved in 278th meeting of Registration Board. As per initial Registration dossier the ready to fill bulk will be imported from Hangzhou Jiuyuan Gene Engineering Co., Ltd. (China) for local vial filling and packaging. The Detail is as under;

1.	Name of Manufacturer	M/s Macter International Limited,F-216, Site, Karachi
	Brand Name +Dosage Form + Strength	Macgrastim***300 mcg/1.2ml*** *(Filgrastim-Recombinant human granulocyte colony-stimulating factor*
	Composition	Each vial contains: Filgrastim…..300mcg/1.2ml
	Finished product specifications	BP Specification
	Pharmacological Group	Therapeutic Protein
	Shelf life	2 years when stored
	Products already registered in Pakistan	Grastim by CCL Pharma, Lahore.
	Type of Form Dy No & Date of application, Fee submitted	Form-5, Dy No.1118/2014(R&I) dated 10-10-2014 Rs. 20000 dated 16-09-2014
	Demanded Price / Pack size	Price: As per PRC Pack of 1's (Vial)

The firm has submitted data as per the said guidelines. The submitted documents are evaluated as under;

Documents required as per 278th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	Documents submitted by firm
The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	Provided
The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	Provided
The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured	Provided & Evaluated below

either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the bio-similarity.	
The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	In China Filgrastim (rhG-CSF) is not included in products which require LOT Release Certificate.
The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	Provided
The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform analytical studies(Physicochemical and biological) including protein content, appearance, pH, Osmolarity, composition of key excipients including stabilizers (if formulation is same),visible/subvisible particles, identity testing to parent molecule, purity testing, in vitro biological activity, sterility, Pyrogen content, safety, potency and toxicity with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques). The firm shall submit the results for processing of registration application.	Physical Appearance Particulate Matter pH Osmolality, Immuno identification by western blotting, Protein Content by Lowry Method, Biological Activity by Invitro bioassay, Potency, Purity by Sodium Dodecyl Sulfate Poly-Acrylamide Gel Electrophoresis (SDS-PAGE), Purity by Gel Filtration HPLC, a. Endotoxin Test by Gel Clot Method**, Sterility Test,** Abnormal Toxicity **(on** NMRI mice)
The manufacturer shall perform all tests locally as detailed on Certificate of analysis.	Provided
The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Provided
The firm shall provide the agreement with the source (of bulk concentrate/ready to fill)that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	The firm has submitted Supply Agreement between Macter International Limited & Hangzhou Jiuyuan Fene Engineering Company dated 24th July 2013 wherein it has been mentioned that the firm will provide advance notification to Macter and DRAP of any significant changes to process, specifications and analytical methods, product…. **(Point no.7c. Change Control of the agreement)**
Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	Layout plane submitted. The firm has also provided Commitment on its letter head mentioning the said statement.
The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Commitment provided on the letter head

If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Commitment provided on the letter head
All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	Commitment provided on the letter head

Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	i. Molecular Weight by Reducing SDS-PAGE ii. **Assay for chemical structure by following methods** a. Sequencing for recombinant DNA b. UV Spectrum c. Composition of Amino Acids d. Peptide Mapping e. N-terminal sequencing of rhG-CSF by Edman degradation
Biological Activity	**In-vivo activity** by Activity of rhG-CSF in vivo (Effects of rhG-CSF on CY-induced myelo suppression in rhesus Monkeys): In-vitro activity by a. 3H-TdR assay , b. MTT assay using NFS-60 cell line
Immunochemical properties	a. Identification (by Western Blot) b. ELISA (Enzyme-linked Immunosorbent Assay)
Impurities	**Purity assay by following methods** a. Non-Reducing SDS-PAGE & Reducing SDS-PAGE b. Iso-electric focusing c. Reverse Phase HPLC d. SEC-HPLC (Size Exclusion Chromatography HPLC) e. Capillary Electrophoresis
Stability Studies	Stability studies are provided.
Non-clinical Studies	**In Vitro Pharmacodynamic Study:** Effect of rhG-CSF on the proliferation of normal mouse and human bone marrow cells in vitro Effects of rhG-CSF on Acute Radiation-induced Hematopoietic Injury in Mice **Toxicity study is provided but not comparative.**
Clinical Studies	A Comparative Study between Jilifen (rhG-CSF) Hangzhou Jiuyuan Gene Engineering Co., Ltd China and Gran (rhG-CSF) manufactured by Kirin Brewery Company, Japan in Hematological Malignancy **(Conducted in 15 hospitals in Shanghai from Mar to Jun 1998)**

Decision of 291st meeting Registration Board: Registration Board deferred the case for submission of following by the firm:

a. Comparative toxicity studies data under biosimilarity studies.
b. Clarification regarding the import of finished product from same source with same name.

For the point no. (a) the firm has submitted that since comparative clinical studies in humans are provided and proving similarity in toxicity, importance of comparative toxicity data in animals is of secondary in importance and is not critical or confirmatory nature and as per Chinese Biosimilar guidelines states that if Bio-similarity is proven by PK/PD and immunogenicity there is no need to do comparative toxicity in animals.

While the point (b), the firm has submitted that the finish product applied by them with the name brand name is from the different source and in the different dosage form i.e. PFS .And further it has been submitted by the firm that they will change the brand name of the finish product if required.

The original reply of the firm has been reproduced as under for ready reference and understanding.

a) *"Our case of Macgrastim 300mcg, liquid solution for injection was deferred in 291st DRB meeting of DRAP on the basis of comparative toxicity data in bio similarity studies, in this context we want to clarify that we have submitted comparative clinical trial in humans in which efficacy & safety (side effects & toxicity profile) are compared. (Refer to Vol.II annexure d.3 clinical study report page 1-7).*

b) *Since comparative clinical studies in humans are provided and proving similarity in toxicity, importance of comparative toxicity data in animals is of secondary in importance and is not critical or confirmatory nature.*

c) *As per Chinese Biosimilar guidelines states that if Bio-similarity is proven by PK/PD and immunogenicity there is no need to do comparative toxicity in animals.*

d) *Since robust comparative structural and quality data is given which suggests high similarity with innovator product (Refer to Macgrastim dossier as mentioned in annexure-d. biosimilarity study).*

e) *Since finished drug of same manufacturer is already registered in Pakistan and is marketed by AA pharma with brand name JILIFEN injection registration No.045618.*

f) *Accepting Dr. Sarfraz Niazi petition US FDA has accepted that if robust analytical data suggests similarity then comparative clinical trial data is unnecessary to prove similarity. (see attached recent US FDA draft guidelines on Insulin page 3, lines 95-107. Insulin and GCSF are similar size peptides of same class cytokines.*

g) *US FDA updated thinking reflects that requirement of even comparative clinical data can be waived while in our case comparative clinical trial data in humans is given and toxicity data in animals is provided but it is not comparative. As per current thinking of US FDA comparative toxicity in animals is of no importance. In Macgrastim case we have submitted robust comparative analytical, structural and human clinical studies and single arm extensive toxicity data in animals is also submitted which stands sufficient to prove bio-similarity. We request that our product Macgrastim solution for injection (300ug Filgrastim) may kindly be approved for registration.*

h) *Same product with same formulation is registered & marketed in china i.e. country of origin*

Second query was clarification regarding the import of finished product from same source with same name.

a) *We also want to clarify that Macgrastim prefilled syringes (PFS) & Macgrastim 300mcg, liquid solution for injection are two different dosage form and both of them are from two different sources. The source of Macgrastim prefilled syringes is BEIJING SL PHARMACEUTICAL.CO LTD while the source of Macgrastim vials containing liquid solution for injection is HANGZHOU JIUYUAN GENE ENGINEERING CO., LTD. As Macgrastim prefilled syringe was also applied by us for registration. We are waiting for some data from our source BEIJING SL PHARMACEUTICAL.CO LTD and we may change brand name if required.*

The case was considered in 295th meeting of Registration Board wherein the Board decided as follows:
"*Registration Board deferred the case for further deliberation in next meeting and advised DBER to bring up the details of all the cases which have already been approved on the basis of guidelines formulated in 278th meeting of Registration Board."*

In this context, it is submitted that till date following manufacturers are given registrations for local manufacturing in light of guidelines formulated in 278th meeting:

1. M/s Macter International, Karachi
    a. Momentum (Etanercept)
2. M/s BF Biosciences, Lahore

a. Eritrogen 2000IU PFS
b. Eritrogen 4000IU PFS
c. Eritrogen 10000IU PFS
d. Eritrogen 10000IU Vial

3. M/s Nextar Pharma, Karachi
    a. NP-Poetin 2000IU PFS
    b. NP-Poetin 4000IU PFS
    c. NP-Poetin 10000IU PFS

The locally performed test by each manufacturer for above products against the requirements of 278th meeting are tabulated as under:

Tests required as per 278th Meeting	**Tests performed by M/s BF Biosciences, Lahore for Eritrogen**	**Tests performed by M/s Nextar Pharma, Karachi for NP-Poeitin**	**Tests performed by M/s Macter International, Karachi for Momentum**
• Protein content • Appearance • pH • Osmolarity • Composition of key excipients including stabilizers (if formulation is same) • Visible/subvisible particles • Identity • Purity testing • In vitro biological activity • Sterility • Pyrogen content • Safety • Potency • **Toxicity** (with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques)	• Appearance • Leak test • pH • Extractable volume • Immuno characterization • Potency • Sterility • Bacterial endotoxins • Particulate matter. • Sialic acid content • Protein concentration • Peptide mapping • Identification (by SDS page) • Isoforms content • Dimers and related proteins of higher molecular mass • Abnormal Toxicity/ Safety	• Appearance • Particulate Matter a. Visible b. Sub-visible • Leak Test • Filling Volume • Identification by SDS-PAGE • Identification by Immunobloting by Western blot • pH • Protein Content • Purity by SEC HPLC • Residual Bacterial Endotoxins • Potency/ Biological activity a. In-Vitro b. In-Vivo • Sterility • Safety/ Abnormal Toxicity	• Appearance • Particulate Matter a. Visible b. Sub-visible • pH • Osmolality • Identification by SDS-PAGE • Identification by Immunobloting by Western blot • Purity by Gel Filtration Chromatography • Purity by Isoelectric focusing • Protein Content • Biological Activity by Cytotoxicity Inhibition Assay • Endotoxin Test by Gel Clot Method • Sterility • Abnormal Toxicity

The point of concern of Registration Board in 295th meeting was the In-Vitro Toxicity test mentioned in requirements. No local manufacturer has performed this test as per provided data and the same was not pointed out by DBER in Registration Board as the said test is not performed by the Biosimilar manufacturers of reference regulatory authorities and it is evident from the Quality part of EPARs of above formulations available on official website of EMA. The said test is performed in pre-clinical part, which was exempted in 278th meeting of Registration Board for local manufacturers as the said part is provided by bulk manufacturer. Moreover, to support the safety of their products, all the manufacturers have provided the results of In-Vivo Abnormal Toxicity Test which is not included in the requirements of 278th meeting.

Decision: Registration Board referred the case to Committee on Biological Drugs constituted in 273rd meeting of Registration Board for its recommendations on the requirements of toxicity studies and abnormal toxicity studies. Moreover, Registration Board nominated Lt. Gen. (R) Prof. Dr. Karamat Ahmed Karamat (HI-M, SI-M) as Chairman of said committee.

2. Nexfil Injection applied by M/s Nextar Pharma, Karachi.

M/s Nextar Pharma, Karachi had the registration of Nexfil injection as per following details:

Reg. No.	Name of Bulk Manufacturer	Brand Name & Composition	Packaging
077534	M/s Pooyesh Darou, Tehran Iran	Nexfil 300 Inj Each Prefilled syringe contains: Filgrastim…….300mcg (B.P)/ml	1 x 1 PFS

The registration letters was issued to the firm on 08-12-2014. Then the firm applied for the change in source of bulk from M/s Pooyesh Darou, Tehran Iran to M/s Shandong Kexing Bio-products Co., Ltd., China No. 2666 Chuangye Road, Mingshui Development Zone, Zhangqiu, Shandong and approval was granted on 17-02-2017. The aforementioned registration was granted exclusively for trial manufacturing of drug and not for sale in the open market. Now the firm has applied for the marketing permission of aforementioned products as per following details.

1.	**Name of Manufacturer/ Applicant**	M/s Nextar Pharma (Pvt.) Ltd., Plot No. E-58, North Western Industrial Zone, Port Qasim, Karachi. DML No. 000777 **Bulk Manufacturer:** M/s Shandong Kexing Bio-Products Co., Ltd., No. 2666 Chuangye Road, Mingshui Development Zone, Zhangqiu, Jinan, Shandong, China.
	Brand Name +Dosage Form + Strength	Nexfil 300 Inj
	Composition	Each ml contains: Each Pref-filled Syringe contains Filgrastim……..300mcg/0.5mL
	Finished product specifications	Nextar Specifications
	Approval status in Reference countries	Zarzio of M/s Sandoz Limited, UK
	Products already registered in Pakistan	Zarzio of M/s Novartis Pharma, Karachi
	Shelf life	24 months (2^0C-8^0C)
	Dy No & Date of application, Fee submitted	Dy. No. 7973, 23078, 10600 & 20579 Date: 10-06-2019, 08-11-2019, 11-05-2020 & 19-08-2020 Rs. 20000/- dated 23-11-2016
	Demanded Price/ Pack size	1's PFS/ As per SRO
	General documentation	Copy of cGMP dated 01-11-2019 valid for 01 year.

The firm has submitted the documents/data in the light of regulatory guideline for biological products approved in 278th meeting of Registration Board as per following details:

Sr. No.	Documents required as per 278th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	Documents submitted by firm
12.	The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	Legalized copy of GMP certificate No. SD20190880 dated 22-02-2019 of M/s Shandong Kexing Bio-Products Co., Ltd., No. 2666 Chuangye Road, Mingshui Development Zone, Zhangqiu, Jinan, Shandong, China valid till 21-02-2024.
13.	The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	Legalized FSC No. 2020-012 dated 30-07-2020 valid for two years.
14.	The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk	Details are included below.

	concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the bio-similarity.	
15.	The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	Lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (Not applicable).
16.	The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	Provided.
17.	The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform analytical studies(Physicochemical and biological) including protein content, appearance, pH, Osmolarity, composition of key excipients including stabilizers (if formulation is same), visible/subvisible particles, identity testing to parent molecule, purity testing, in vitro biological activity, sterility, Pyrogen content, safety, potency and toxicity with support of iso-electro focusing data, gel electrophoresis, Western-Blot and other analytical techniques). The firm shall submit the results for processing of registration application.	The firm has submitted CoAs wherein the tests conducted are as under; i. Appearance ii. Particulate Matter iii. Leak test iv. pH v. Filling volume vi. Identification by RP-HPLC vii. Protein Content/ Assay viii. Purity by SDS-PAGE ix. Purity by Iso-electric focusing x. Related Proteins (HPLC) xi. Potency (Biological Activity) a. In-Vivo b. In-Vitro x. Sterility xi. Bacterial Endotoxins xii. Safety Test/ Abnormal Toxicity
18.	Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	Provided
19.	The manufacturer shall perform all tests locally as detailed on Certificate of analysis.	Provided.
20.	The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Brazil, Indonesia, Paraguay, Philippines
21.	The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	Provided.
22.	The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Provided.
Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.		
WHO Bio-similarity guidelines	**Data submitted by the firm**	

Quality Comparison Physicochemical characterization	**Physicochemical Characterization** i. N-terminal amino acid sequence ii. Peptide Mapping iii. Purity by Western-Blot Analysis iv. Purity by Capillary Isoelectric Focusing v. Secondary Structure by Circular Dichorism vi. UV Absorbance Spectroscopy vii. Fluorescence viii. Secondary Structure by Fourier Transform Infrared Spectroscopy (FTIR) ix. Free Cystein x. Mass Spectrum xi. Impurity Profile by SDS-PAGE xii. Impurity Profile by Size Exclusion HPLC xiii. Impurity by Analytical Ultracentrifugation xiv. Thermal Stability by Dynamic Light Scattering xv. Quantitative Impurities Analysis by RP-HPLC xvi. Impurities by Iso-electric focusing xvii. Charge Distribution by Ion Exchange Chromatography
Biological Activity	i. In-Vitro Biological Activity in NFS 60 cell. ii. In-Vivo biological activity in albino mice
Immunochemical properties	Receptor binding by Flow Cytometer.
Impurities	Impurities by SEC-HPLC.
Stability Studies	Comparative stability profiles to assess the degradation products.
Non-clinical Studies iii. In-vitro Studies iv. In-vivo Studies	• Comparative Local Tolerance testing after single administration in rabit • Comparative repeat dose toxicity study in Wistar rats for 28 days. • Comparative Toxicokinetic studies in Wistar rats over a period of 14 days. • Comparative Pharmacodynamic Study of G-CSF in Rhesus Mokey.
Clinical Studies	• Bioequivalence study report in healthy volunteers • Summary of comparative safety and efficacy study in treatment of granulocytopenia after the cancer chemotherapy.

Remarks of Evaluator (M. Zubair Masood):

- The initial registration letter was issued for 300mcg/ml while now the firm has applied for 300mcg/0.5ml. The firm was asked for clarification and they submitted that they are manufacturing 300mcg/0.5ml PFS.
- The firm submitted that Filgrastim injection is not available in any Pharmacopoeia and requested for Nextar specifications. Filgrastim Injection is available in Japanese Pharmacopoeia.
- The firm has only submitted Bioequivalence study report and summary of comparative safety and efficacy study. The firm was asked to provide the complete comparative clinical trial data. In response, the firm requested to hold the summary of comparative safety and efficacy study as it is not fulfilling the requirements of WHO Biosimilarity guidelines. Instead the firm submitted that the product was registered in China in 2002 and at that time comparative trials was not the requirement in China. The firm also submitted the "Requirements for registration and classification of biological products". The firm further submitted that the finished product of M/s Shandong Kexing Bioproducts Co. Ltd. is already registered in Brazil, Indonesia, Paraguay, Philippines and Pakistan.
- The above mentioned guidelines clearly states that clinical trials should be conducted for new drugs. The firm has not submitted the safety, efficacy data of their product. The firm has already been issued two letters but the application is still not complete.

Decision: Registration Board referred the case to Committee on Biological Drugs constituted in 273rd meeting of Registration Board for its recommendations on the requirements of toxicity studies and abnormal toxicity studies. Moreover, Registration Board nominated Lt. Gen. (R) Prof. Dr. Karamat Ahmed Karamat (HI-M, SI-M) as Chairman of said committee. However, the firm shall submit safety and efficacy data of the finished product of bulk manufacturer abroad.

Division of Quality Assurance & Laboratory Testing

CASE NO.01:- MANUFACTURE AND SALE OF MISBRANDED AND SUBSTANDARD ZOLERIC 20MG CAPSULES B.NO.18 MFG BY M/S GENIX PHARMA PVT LTD KARACHI

That Mr. Usman Hameed the then FID Quetta, forwarded the case vide letter No.12-15/06-DCA-Q (MB & Substandard)-1166 dated 06th April 2007. It was informed by Mr. Usman Hameed, that the then FID Mr. Muhammad Adnan Faisal Saim visited the premises of M/s Muhammadi Traders Natha Singh Street, Quetta on 23-11-2005 and took the sample Zoleric Capsules B.No.18 claimed to be manufactured by M/s Genix Pharma Pvt Ltd Karachi along with other samples of the purpose of test/analysis on prescribed Form-3.

02. That the then FID Quetta informed that sealed sample of above said drug along with other samples of drug was sent to the Government Analyst/Director CDL Karachi vide office memorandum No.F.5/DCA-QTA/Sample-3810 dated 24-11-2005 on form-4 under section 19(3)(i) of Drug Act 1976 and a portion of the said drugs also sent to the Chairman CLB & RB Islamabad vide letter No.F.5/DCA-QTA/Sample-3811 dated 24-11-2005under section 19(3)(ii) of Drug Act 1976.

03. The FID Quetta submitted that the sealed sample as purported to be manufactured M/s Genix Pharma Pvt Ltd Karachi of said drug was also sent vide office letter No. F.5/DCA-QTA/Sample-3696 dated 25-11-2005 under section 19(3)(iv) and warrantor portion of said drug was sent to M/s Genix Pharma Pvt Ltd Karachi vide letter No.F.5/DCA-QTA/Sample-5057 dated 19-01-2006.

04. The Government Analyst CDL, Karachi declared the sample Zoleric Capsules B.No.18 Manufactured by M/s Genix Pharma Pvt Ltd Karachi is Substandard and Misbranded drug vide test report No.R.2649/2005 dated 17-04-2006.

05. The FID Quetta submitted that in the light of above Government Analyst, CDL, Karachi a show cause notice letter No.F.12-150/06-DCA(MB & Substandard)-820 dated 09-09-2006 was accordingly issued to M.s Genix Pharma Pvt Ltd Karachi for explaining the position in the matter of manufacturing and selling of above mentioned Misbranded and substandard drug. The FID Quetta further informed that the response of the above letter was not received in the office So the firm was issued a reminder vide letter No. No.F.12-150/DCA-QTAMB& S.S-1119 dated 09-03-2007. In response of the above letter of the office of FID Quetta reference No. GPPL-QC/024/07 dated 03-04-2007 according to which **the firm intends to get the sample retested from Appellate Lab at their own cost. The firm has violated section 23(1)(a)(iii), 23(1)(a)(v), of Drug Act 1976 as per above referred test of Government Analyst CDL Karachi.**

06. The firm replied vide their reference letter no. GPPL-QC/025/07 dated 03-04-2007 wherein they submitted the names of owner and technical staff of the firm as follows formanufacturing of **Capsule Zoleric 20mg Batch No. 18 mfg. date – 12/04**:

i. Managing Director – Chaudhary Muhammad Israr Sharif
ii. Manager Quality Control –ZafarUllah Baig
iii. Manger Production – Munsif Ali Qureshi

07. Proceedings and Decision of 291st Meeting of Registration Board:

On the request of FID, Quetta @ Karachi vide letter No.3-1/2019-FID(Q) K dated 05th August 2019, the case presented before the Registration Board in its 291st Meeting on 4th September, 2019 and the Board after detailed deliberation decided **to issue the show cause notice to the firm (M/s Genix Pharma Pvt. Ltd., Karachi) for violating section 23(1)(a)(iii), 23(1)(a)(v), of Drug Act 1976 and its following responsible persons**:

i. Managing Director – Chaudhary Muhammad Israr Sharif
ii. Manager Quality Control – Zafar Ullah Baig
iii. Manger Production – Munsif Ali Qureshi

08. In the light of minutes of the meeting Show Cause & Personal Hearing Notice has been issued to the accused persons vide letter no. **03-41/2019-QC (291-DRB)** dated 19.09.2019. The contents of the letter are reproduced as under:

> ***"****That Federal Inspector of Drugs, Quetta during inspection of M/s Muhammadi Traders Natha Singh Street, Quetta on 23-11-2005 and took samples of the Drug detailed below under Section 18 of the Drug Act, 1976****:-***

Proceeding and Decision of 292nd meeting of Registration Boardheld on 01st – 02nd October, 2019.

09. Mr. Maqsood-Ur-Rehman, AGM Quality Assurance, Genix Pharma Pvt. Ltd. 44, 45-B, Korangi Creek Road, Karachi appeared before the Registration Board to plead the instant case before the Registration Board. The representative of firm submitted a written reply before the Board. The reply is reproduced as under:

> *"With reference to your letter No.F.03-41/2019-QC (291-DRB) dated 19.09.2019, received in Genix Pharma on 26.09.2019, wherein, the product Zoleric 20mg Capsule (Esomeprazole), batch No. 018 mfg. date 07-2005 was declared as misbranded and substandard vide test analysis report 2649/2005 dated 17.04.2006.*
>
> *Genix Pharma (Private) Limited was founded with the vision to help and provide top quality and affordable medicine for all those in need. Since inception, Genix has grown from being a relatively humble contender to being one of the fastest growing companies in the Pakistani Pharmaceutical Arena, the company's aim to become the benchmark in the pharmaceutical industry.*

Genix Pharma is making an ever-increasing contribution to the export of Pakistan by exporting medicines to more than 20 countries including, South Asian, North American, African and Russian Countries. Genix is strongly committed to its responsibility towards community and patients. Genix's products bring a promise of QUALITY, and ensure smooth and flawless operations at its facility with local manufacturing in compliance with global quality standards which are strictly maintained and followed meticulously at every level in the process of manufacturing.

Genix Pharma believes on continual improvement and for that we enhance our cGMP according to National and International Guidelines, our sterile area is developed with high class imported prefabricated sheets, we have developed dedicated and well-equipped Quality Control laboratory and Currently (August & September- 2019) our QMS have certified as cGMP compliant by the Ministry of Health Uzbekistan and Azerbaijan and also many more countries.

We would like to inform that FID Quetta send letter for the case mentioned above on 09.09.2006, which was unfortunately not received at Genix Pharma Pvt Ltd., for that FID sent us reminder letter on 09.03.2007, upon receiving that letter Genix Pharma sent reply letter number GPPL/QC/024/07 & GPPL/QC/025/07 dated 03-04-2007 in response of reminder letter. After that we did not receive any letter in the matter subjected above and it seems that our position is clear and case has been closed. Now after 12 years we receive this show cause notice and personal hearing letter.
We request you to kindly consider the above reference. We look forward to the pleasure of hearing from you favorably.

Decision of 292nd meeting of Registration Board.

10. The Board deliberated the matter in depth, considered the facts of the case and perused the available record and decided as under:

- **A. Suspension of the registration of Zoleric Capsules 20mg (Reg. No. 039087) for a period of Six (06) months or till the verification of root cause analysis, CAPA, product development data and satisfactory report by the panel whichever is later.**
- **B. Product Specific Inspection including verification of product development data and confirmation of CAPA by the following panel:**
  - **i. Dr. Rafiq Alam Khan, Member Registration Board**
  - **ii. Area Federal Inspector of Drugs**
  - **iii. Assistant Director (I&E)**
- **C. In the light of panel inspection report, Registration Board will decide the fate of the product.**
- **D. Fresh Sampling from the premises of firm and one sample each from the market in area jurisdiction of five (05) regional offices of DRAP.**

The above said decision of the Board was communicated to the panel vide letterNo.F.0346/2019-QC (292-DRB) dated 12-11-2020.
In response to the above said letter area FID, DRAP, Karachi vide reference No.F.000351/2020-FID-I (K) dated 30-07-2020 forwarded the report of M/s Genix Pharma (Pvt) ltd., Karachi.
It is submitted that annexure were attached with the report and there was no information about the fresh sampling of the drug.
The area FID, DRAP, Karachi was requested to provide/ comply with the decision of the Board for further processing of the case.
In response to the above said letter area FID, DRAP, Karachi vide reference No.F.000351/2020-FID-I (K) dated 07-09-2020 submitted that the report was sent along with annexure vide this office letter, however, photocopies of the same along with root cause analysis, CAPA, are again attached herewith.

He further submitted that fresh sampling of the was done at the time of inspection and sample was sent to CDL, Karachi for test analysis. The FGA, CDL, Karachi declared the said sample as of standard quality vide test report No.KQ.200/2020 dated 01-08-2020.

The inspection report provided by the FID, DRAP, Karachi is reproduced as under;

*Inspection of M/s Genix Pharma (Pvt.) Ltd. Situated at Plot 44-45-B, Korangi Kreek Road Karachi was conducted on 23rd July 2020 with reference to DRAP letter No.F.3-46/2019-QC (292-DRB) dated 12th November 2019 (**Annex-A**), for product specific inspection including the verification of product development data and confirmation of CAPA of the product Cap. Zoleric 20mg (Esomeprazole Magnesium), Registration No. 0319087, Batch No. 18, declared as "**Mis-Branded**" and "**sub-standard**" as per CDL test/analysis report No.2649/2006 vide No. F.5-3/2006-CDL/S-775 dated 17th April 2006 (**Annex-B**), on the basis of :*

1. *The inner most label does not contain English/urdu version of the instruction as required under rule 3(h)(iii) of the Drugs (Lebelling & Packing) Rules 1986 and Section 3(s)(i) & 3(s)(ii) of the Drugs Act 1976*
2. *Weight Variation*

Following panel of experts inspected the firm:-

i. *Prof. Dr. Rafeequ Alam Khan, Member Registration Board*
ii. *Dr. Najam-us-Saquib, FID (Area)*
iii. *Dr. Kirshan AD (I&E)*

The panel has gone through following areas to verify the reasons for manufacturing of Mis-branded and substandard drug product Cap. Zoleric 20mg (Esomeprazole Magnesium), Registration No. 0319087, Batch No. 18:

1. *Raw Material Store.*
2. *Production / filling facility of Capsule Section.*
3. *Quality Control Lab.*
4. *Quality Assurance*

Following observations were noted during the course of inspection.

1. Raw Material Store

i. *M/S Genix Pharma (Pvt.) Ltd. had only one approved source for the purchase of API (Esomeprazole pallets containing Esomeprazole Magnesium Trihydrate) from M/S Titan Pharma India (Pvt.0 Ltd., Mumbai India (**Annex-C**). After that, the firm has switched to a local source namely, M/S Surge Laboratories (Pvt.) Ltd, 10KM Faisalabad Road, Bikhi, District Sheikhupura and obtained DRAP approval vide letter No. F.33-PRVC/2019(PR-I) dated 23rd October 2019 (**Annex-D**).*
ii. *The log book record shows that accurate quantity of Esomeprazole pellets and other excipients, as per material issue note (MIN), was received for the manufacturing of Cap. Zoleric 20mg Batch No.18 (**Annex-D**).*
iii. *Testing record of the Cap. Zoleric 20mg Batch No.18, shows that weight variation results were within the reference limits (**Annex-E**).*
iv. *Storage conditions of RMS were found satisfactory.*
v. *The manufacturing order issued by the production department was for 50000 capsules as per available record (**Annex-F**).*
vi. *The process of manufacturing for this particular product is blending/mixing and filling steps (**Annex-G**).*
vii. *The Manufacturing facilities match with the batch size.*
viii. *The batch was filled on manual capsule filling machine in 2006.*

2. Manufacturing Facility of Capsule Section: -

i. *At present, the firm have two blenders, one of 200 Kgs another 500kgs and also has an automatic filling machine and blister machines.*
ii. *The product involves coated pallets and based on blending/mixing of Esomeprazole pellets with neutral pellets.*

iii. *Logbook record was checked and found satisfactory. In process testing was performed during and after filling. The record was compared with the logbooks and found satisfactory.*

3. Quality Assurance: -

*The catch cover and inner most label has been replaced and the inner most labets are now bearing both the English/Urdu versions (**Annex-I**).*

4. Quality Control Facility: -

i. *The Firm followed inhouse specifications at the time of testing of the batch in question and used UV spectrophotometric method and at present firm has switched the specifications to USP and obtained approval vide DRAP letter No. F. 289-RB/2019 (PR-I) dated dated 4th July 2019 (**Annex-J**). The record shows that the firm is using HPLC method for the product in question testing of this product as per USP.*

ii. *Testing record of said product was available and found satisfactory.*

iii. *SOPs of testing were found validated.*

iv. *The management of the firm has provided the copies of the testing reports of the Cap. Zoleric 20mg that were tested by the Central Drugs Laboratory (CDL), wherein the same product was declared as of **"Standard Quality"** vide CDL test/analysis reports No. 1387/2008-OA dated 18th December 2018 and KQ.273/2019 dated 20th may 2019 (**Annex-J & K**).*

Conclusion: -

Keeping in view the people met, documents reviewed including manufacturing, testing and ware house record and finding of the inspection, the firm is found complying GMP as of today. The manufacturing of the product in question was found satisfactory and in accordance with the SOPs. Testing of the product Cap. Zoleric 20mg was also according to in house specifications which is now switched to USP specification after DRAP approval. The product was declared substandard due to non-compliance of the rule 3(h)(iii) of the Drugs (Labelling & Packing) Rules 1986 and Section 3(s)(i) & 3(s)(ii) of the Drugs Act 1976 and non-compliance of the weight variation test.

Firm has switched from manual filling machine to an automatic capsule filling machine with more in-built accuracy and replaced the inner most labels as per referred labelling Rules.

Proceeding & Decision of 296th Meeting of Registration Board.

The Case was presented before the Board and Board after detailed deliberations and discussions decided to resume the production of the product (Zoleric Capsules 20mg (Reg. No. 039087) which was under suspension since the decision of Registration Board in its 292nd meeting held on 01st – 02nd October, 2019).

CASE NO. 2:- MANUFACTURE AND SALE OF MISBRAND AND SUBSTANDARD NAMELY FREESIA TABLETS B.NO.F03R2

That Mr. Syed Abdul Saleem the then FID Quetta, forwarded the case vide letter No.5-75/2006.DCA(Q)U-R-1788 dated 15th November, 2008. The then FID informed that he visited the premises of M/s Shan Enterprises Quetta on 21-09-2005 and took samples of drug namely Freesia Tablet B.No. F03R2 labeled to be manufactured by M/s Karachi Chemical Industries, Karachi along with other samples of drug for the purpose of test analysis under the Drug Act 1976.

02. That the then FID Quetta informed that the sealed sample of said drug along with other samples of drugs was sent to the Government Analyst/Director CDL Karachi vide office memorandum No.F/5/DCA-QTA/Sample-3548 dated 23-09-2005 on form-4 and a portion of the said drugs also sent to the Chairman CLB Islamabad vide letter No.F.5/DCA-QTA/Sample-3547 dated 23-09-2005.

03. That the then FID Quetta informed that the Director, CDL, Karachi vide his test report No.2279/05 dated 27-03-2006the sample of Freesia Tablet B.NO. F03R2 labeled to be manufactured by M/s Karachi Chemical Industries Karachi as **Misbranded/Substandard**.

04. The then FID, Quetta informed that in the light of Government Analyst, CDL, Karachi a show cause notice vide letter No.12-118/2006 DCA (Q)-MB.S. S-177 was accordingly issued to M/s Karachi Chemical Industries Karachi explaining the position in the matter of manufacturing and selling of the above mentioned Misbranded and substandard Drug. In response of the above letter No.F.12-118/2006 DCA Q (MB.SS-177 dated 22-04-2006the firm submitted reply.

05. The firm have violated section 23(1)(a)(iii)(v) and 34 of the Drug Act 1976 as per above referred test report of Government Analyst CDL Karachi. The then FID, Quetta solicited the approval for prosecution in the Drug Court.

06. As per information obtained from the company file available in Division of Drugs Licensing following are the responsible persons for manufacturing of **Freesia Tablet Batch No. F03R2**withmanufacturing date 07/05:

i. Production Incharge – Zafar Khursheed
ii. Quality Control Manager – Muhammad Irshad
iii. Managing Director – Saboor Ahmed

07. Proceedings and Decision of 291st Meeting of Registration Board:

I. The request of FID, Quetta @ Karachi vide letter No.3-1/2019-FID (Q) K dated 05th August 2019, the case was placed before the Registration Board. The Board after detailed deliberation decided to issue the show cause notice for violating section 23(1)(a)(iii)(v) and 34 of the Drug Act 1976 as per above referred test report of Government Analyst CDL Karachi against following responsible person(s) of firm (M/s Karachi Chemical Industries Karachi):

i. M/s Karachi Chemical Industries Karachi through its MD
ii. Production Incharge – Zafar Khursheed
iii. Quality Control Manager – Muhammad Irshad
iv. Managing Director – Saboor Ahmed

II. That why not the following actions shall be taken against the above mentioned accused persons for the said violations:

a. Prosecution in the Court of competent jurisdiction.
b. Cancellation/suspension of registration.
c. Any other action the Board may deem fit under the law.

10. The Board decided to granted last opportunity of personal hearing to the accused persons before the Registration Board in its upcoming meeting with direction that no further adjournments will be granted.

11. The decision of the Board as communicated to accused persons vide letter no. F. 03-46/2019-QC (292-DRB) dated 12.11.2019.

12. The reply of the firm M/s Karachi Chemical Industries (Pvt.) Ltd., F/25, Estate Avenue, SITE, Karachi-75730 is reproduced as under:

"Respected Sir,

Please refer to your letter No.F.03-41/2019 Q.C (291-DRB) Dated 19thSeptember, 2019 and this office letter No. Nil dated 25th September, 2019 along with copy of doctor prescriptions.

IT IS VERY STRANGE THAT THIS CASE IS PENDING FOR THE LAST 13 YEARS

It is submitted that this case was placed on the Agenda of the meeting No.292 held on 1stOctober, 2019. It is crystal clear from the Agenda that this case was at Serial No.6 which was not scrutinized by any person/ authority which is against the natural justice. It is clearly mentioned on agenda (copy enclosed)

"FIRM SUBMITTED REPLY"

Unfortunately, the Agenda of the meeting shows that one sided facts submitted by the Federal Drug Inspector and view point of the firm has not been included in the Agenda of the meeting. The fact of the case is as under.

In response of Federal Drug inspector letter No F-12-118/2006/DCA-Q (MB255)77 Dated 22nd April 2005 we replied vide letter dated 20.5.2006 by the firm (Copy enclosed) CHALLENGING THE REPORT.

Again, we received letter No. F.3-75/2006 QC dated 30-12-2008 from Secretary, Drug Registration Board, Government of Pakistan, Ministry of Health, Islamabad and promptly replied in detail vide our letter dated 21-1-2009, CHALLENGING TEST REPORT (copy enclosed).

That the Federal Inspector of the Drug Inspected the business premises of M/s Shan Enterprises Quetta on 21.9.2005 and took the sample of drug namely Tab. Freesia B.NO.F03R2 manufacturing date 7/2005 and expiry date 1/2008 manufactured by M/sKarachi Chemical Industries, Karachi for the purposes of Test/analysis.

CDL REPORT

That the Government Analyst Central Drug Testing Laboratory, Karachi vides Test Report No. 2279/2005 dated 27th March, 2006 declared the drug Sub-standard/Misbranded. Whereas the drug chemically is of standard quality 97.74% and limit is 90-110%. The Sample portion of this product was received in the Central Drug Testing Laboratory, Karachi on 10-10-2005 AND REPORTED ON 27™ MARCH, 2006 AFTER 5 MONTHS AND 17 DAYS. Which is contrary of Section 22(2) of Drugs Act, 1976? Furthermore, no extension has been taken by the Drug Inspector or Government Analyst from the competent authority (copy enclosed).

SECTION 22(2) IS GIVEN AS UNDER FOR PERUSAL OF HONOURABLE BOARD.

> *"The Government Analyst, as far as my be , shall submit the report referred to in the Section (1) within sixty days of the receipt by him of the sample of the drug and if he is not able to do so for reason beyond his control shall communicate the reasons to the Inspector in writing and shall endorse its copy to the (Central Licensing Board or, as the case may be , the Registration Board or the Provincial Quality Control Board) who shall have the sample tested from the same or any other Government Analyst or a Government Drug Testing Laboratory or any other Laboratory and shall ensure the receipt of result of such test and analysis within further period as may be prescribed and shall make the test report available to the Inspector for further action".*

On receipt of Test Report, we have checked the retention sample and found of standard quality with reference to Assay, Disintegration and other relevant tests.

That the Test Report of the Government Analyst Central Drug Testing Laboratory is not reliable as Government Analysis while assay for Pantoprazole mentioned Capsule, where as our product is Tablets.

That on receipt of Test Report we had challenged the test report within prescribed period. The sample has been expired on 1/2008 but the report of National Institute of Health has not been received so far. The sample has been expired on 1/2008.and the report of Applet Laboratory has not been received so far.

No. Warrantor Portion has been sent to us required under Section 19(3) of the Drugs Act, 1976 till to date.

As far as the Misbranded drug is concerned the Deputy Drug Controller (Q, C), Government of Pakistan, Ministry of Health, Islamabad No. F.3-15/205 QC dated 15 March, 2007 in a letter addressed to Director/Govt: Analyst Central Drug Laboratory, Karachi states:-: Since no punitive action under the Drugs Act, 1876 is being taken on the misbranded reports, you are advised not to comment on the Packaging and Labeling Rules and confined only to the protocols (Analysis) of the test performedtile this issue is sorted out or amendments are made in the relevant Rules."

Keeping in viewl3 years old case and the above facts it is requested that Honorable Board taking lenient I sympathetic consideration file this case. This firm was established in 1976 and serving the ailing people of the country from that date.
Yours sincerely
For Karachi Chemical Industries (Pvt.) Ltd"

Proceedings and decision of 293rd meeting of the Board:

4. That Mr. Saboor Ahmed (42201-7842077-5), Managing Director, M/s Karachi Chemical Industries (Pvt.) Ltd., F/25, Estate Avenue, SITE, Karachi-75730 appeared on behalf of M/s Karachi Chemical Industries (Pvt.) Ltd., F/25, Estate Avenue, SITE, Karachi-75730 to plead the instant case in the light of written reply, wherein they challenged the test report of CDL, Karachi U/s 22(4) of the Drugs Act, 1976 and requested to get their sample re-tested from Appellate Laboratory (NIH, Islamabad).

5. Registration Board deliberated that despite of request of the firm for re-tested from Appellate Laboratory (NIH, Islamabad), the then FID Quetta requested for prosecution against the firm and no clarification was obtained from FID Quetta by defunct DCA, MoH for not recommending for re-testing as required by the firm.

14. The Board after detailed discussion, deliberations, considering the facts of the case and stance of representative of the firm, decided as under:

ii. Constituted the following panel to conduct a thorough cGMP inspection of product in question (Freesia Tablet) and Take fresh samples for test/analysis purpose:

a. Dr. Rafiq Alam Khan, Member Registration Board.
b. Area FID, Karachi.
c. Affan Ali, AD-CDL.

The above said decision was communicated to the panel vide letter No. No.F.03-65/2019-QC (293RB) dated 22-04-2020.

FID-III, DRAP, Karachi vide reference No.F.1.5-14/20017-FID (K)-iii dated 21-08-2020 forwarded the inspection report and is reproduced as under;

Name Of the manufacturer	*M/s Karachi Chemical Industries (Pvt) Ltd*
Address	*Plot no. F-25. Estate Avenue. S.I.T.E.. Karachi*
Name Of Owner/Directors	1. *Mr. Saboor Ahmed. Managing Director* 2. *Ms. Munira Ahmed (Chief Operating Officer)*
Name of Production Incharge	*Mr. Hafiz Ghulam Haider*
Name of Quality Control Incharge Name of Quality Assurance Manager	*Mr. Muhammad Ejaz* *Mr. Jameel Ahmed*
Name Of Inspectors	1. *Dr. RafeeqAlam Khan. Dean Faculty of Pharmacy. Ziauddin University. Karachi* 2. *Mr. Syed Hakim Masood. Area Federal Inspector of Drugs, DRAP. Karachi.* 3. *Dr. Affan Ali Qureshi. Assistant Director. CDL, DRAP. Karachi.*
Date of Inspection	*18lbAugust, 2020*

Focus/ Scope of inspection:

The panel inspection of the firm is conducted in compliance to the directions contained in DRAP. Islamabad letter no. F. 03-65/2019-QC (293-R13) dated 22nd April, 2020.

Brief Introduction of the firm:

The-firm is involved in manufacturing of finished pharmaceutical products, its packaging, quality control testing and release for market under valid Drug Manufacturing License no. 000048 (By way of formulation).

Proceedings of inspection:

The inspection is initiated with a brief presentation by the firm's representative. It was informed that the product in question "Freesia Tablets" registered under Registration no. 032221 was granted change in name "Xantamep" vide DRAP, Islamabad letter no. F.6-10/2005-Reg- II(s)Vol-IV dated 20th May, ***2008(Annexure-A).***

Following areas were inspected by the panel:

Change room:

Firm.has provided separate change rooms for male and female officers and officials for entering into production premises. Requisite change over facilities were also found provided.

Raw material store/ Warehouse:

Dedicated general pharmaceutical raw material store is provided as per the approved lay out plan. Receiving bay is maintained with double door system. After receiving area, yellow racks are provided defining the quarantine area. Released materials are found placed in controlled temperature environment.

Dispensing Area:

Dispensing booths equipped with laminar flow is provided in a separate area with requisite controls. Material and personnel flow are separately provided. The dispensed materials are moved in dispensed cages to the respective production areas. Documentation and labeling of this area was found available.

Packaging Material Store:

Packaging materials are received from different entrance and are store in a dedicated area with proper well-defined quarantine and release area.

Production:

Freesia (Formerly)/Xantamep (currently) Tablets are manufactured in the General Pharmaceuticals Tablets manufacturing section. Firm manufactures only one product at a time in tablet section, minimizing the risk of cross contamination.

Tablet Section:

This section is further divided into following dedicated areas provided with HVAC system.

Mixing area:

Mixing equipments were found properly installed with status label. Slugging machine is also found available in the same area. Documents related with this area activity were also available.

Granulation area:

The area is found managed in hygienic condition at the time of inspection. No production activity was under progress. Equipment's were found properly labeled according to the status.

Compression Area:

Three dedicated compression cubicles are provided for compression activity. Analytical weighing balances are also provided for carrying out timely weight variation lest. BMR has proper sheet for recording of the same in this area.

Coating Area

Three accela coating pans are provided in the coating area. Proper exhaust ducts are also attached. Equipments bear proper status label.

Fluid Bed Dryer Area:

A 100kg capacity FBD is found installed on the floor in separate area. Behind this area a small equipments washing area is also provided with proper separation. It was learned that the firm has dedicated bags separate for each product.

In-p rocess La borato ry:

The firm has provided weighing analytical balance, new disintegration apparatus and hardness tester, vernier caliper and friabilitor for carrying out in process checks of the under-process tablets. The records of the same are also seen available.

Blistering and packing areas:

Firm has installed additional blistering machine with better controls. Batch number is now seen to be engraved as per the company's policy of recording of the batch number on primary carton and strip. The blisters are transferred through the conveyor belt for primary and secondary packing.

Finished Goods-ware House

Samples of Xantamep 40 mg Tablets were drawn on prescribed Form-3 by the area FID.

Quality Control

The laboratory is equipped with necessary equipments updated from time to time in last five years for carrying out test/ analysis of Xantamep/ Freesia Tablets. Dissolution apparatus, disintegration apparatus and 11PLC log books/ SOP's were seen and found in order.

Quality Assurance

The firm has developed basic quality assurance system. SOP's for process, procedures and operating instructions were seen available.

Recommendations for further improvement:

1. *Firm must expand the team and role of quality assurance system. The in-process tests , frequency shall also be increased.*
2. *Compendia Analytical methods required to be verified and Non Pharmacopeial methods must be validated properly.*
3. *Re-visit the stability plan and Up- grade high speed latest production equipments, as well as floor of the manufacturing area.*

Conclusion:

Keeping in view the management's commitment towards continuous improvements and up- gradation of production/ quality control and quality assurance system the panel is of the view that firm has addressed the issues related with the manufacturing, labeling/ printing and testing of Freesia/Xantamep Tablets. Addressing the above said recommendations will further improve the quality of tablets produced in this section of the firm Ms. Karachi Chemical Industries (Pvt.) Ltd., S.I.T.E., Karachi.

Proceeding & Decision of 296th Meeting of Registration Board.

Keeping in view the compliance report submitted by area FID, Karachi the Board was apprised regarding the compliance of its earlier decision."

The meeting ended with the vote of thanks to and from the Chair.
