	CoPP/GMP status	Original, legalized certificate of origin and free sale issued on 20-03-2014 by Ministry of Agriculture and Food, Bulgarian Food Safety Agency confirms its free sale. Copy of GMP certificate (No. 64/2017/GMP) issued on 01-13-2017 by Ministry of Agriculture and Food, Bulgarian Food Safety Agency confirms the GMP of Biovet but the address written on certificate is different from that provided in Form 5-A as well as in free sale certificate. Authority letter M/s Saadat International 117 Habitat Flat Shadman II Jail Road Lahore & Biovet Joint Stock Company 39, Petar Rakov St. 4500 Peshtera, Bulgaria Dated : 13 June 2017 Biovet Joint Stock Company is subsidiary of Huvepharma Eood Located in 3 A ,Nikolay haytov Street, Sofia, 1113 , Bulgaria
	Remarks of the Evaluator.	Withdrawal Period: Meat and offal: Chicken : 6 days Not authorized for use in laying birds producing eggs for human consumption Do not use within 4 weeks of onset of the laying period. ● The address of manufacturing site on GMP certificate is 39, Petar Rakov St. 48 Vasil Petleshkov Str Peshtera 4, Pazardjik, Bulgaria which is different from that provided on Form 5-A . ● The free sale certificate mentions the product license holder is Biovet Joint Stock Company whereas Form 5 A mentions Huvepharma AD. ● Clarify 1 Kg sachet or bag
	(M-282)	Deferred for the following reasons: ● Clarification for type of container whether you have applied for sachet or bag. ● The address of manufacturing site mentioned on Form 5A is different from the address mentioned on GMP

		certificate. Clarification is required with documented evidence. ● The product license holder mentioned on free sale certificate is different from the product license holder mentioned on Form 5A. Clarification is required.
	Fresh Evaluation: a. Clarification for type of container whether you have applied for sachet or bag. 1 Kg sachet b. The address of manufacturing site mentioned on Form 5A is different from the address mentioned on GMP certificate. Clarification is required with documented evidence. (QC and Batch Release+Headquarter) Biovet Joint Stock Company 39, Petar Rakov St. 4500 Peshtera, Bulgaria (Manufactures) 48 Vasil Petleshkov Str Peshtera 4550,Bulgaria c. The product license holder mentioned on free sale certificate is different from the product license holder mentioned on Form 5A. Clarification is required. Firm has submitted that product license holder is Biovet Joint Stock Company 39, Petar Rakov St. 4550 Peshtera, Bulgaria and the same has been mentioned on Free sale Certificate.	
	Decision of 285th meeting of RB: Deferred for above clarifications Now the firm has submitted the following documents: d. It is a 1kg sachet e. **Original Legalized CoPP (Certificate#. BG 5/2019)** issued on 29-01-2019 by Bulgarian Food Safety Agency Ministry of Agriculture, Food and Forestry 15 Pencho Slaveikov Blvd. Sofia 1606, Bulgaria declaring the free sale of applied product and GMP compliant status of the manufacturer i.e., BIOVET Joint Stock Company**, 39 Petar Rakov Str. /48 Vasil Petleshkov Str., Peshtera 4550, Bulgaria**. Product License Holder of applied product is M/s Huvepharma NV, Uitbreidingstraat 80, 2600 Antwerpen, Belgium. (Revised form-5A showed that Address of QC, Batch release and Headquarter: **39, Petar Rakov Street,** 4550 Peshtera, Bulgaria while address of manufacturing site is **48 vasil Petleshkov street**, Peshtera 4550, Bulgaria) f. The firm has submitted original and legalized letter of authorization for the following products; Hydrodoxx 500mg Vetmulin 450mg Tilmovet 250mg **Decision: Deferred for confirmation whether the applicant has applied same addresses of manufacturing sites as per CoPP.**	
2336.	**Name and address of Applicant**	M/s Poul Med Enterprises 9-C, Amber Estate Building, Balouch colony, main shahrah-e-Faisal, Karachi Pakistan
	Name and address of manufacturer	S.P. VETERINARIA, S.A. Crta. Reus-Vinyols, Km. 4.1 P.O. Box 60 43330 Riudoms (Tarrangona) Spain
	Marketing authorization holder	S.P. VETERINARIA, S.A. Crta. Reus-Vinyols, Km. 4.1 P.O. Box 60 43330 Riudoms (Tarrangona) Spain
	Name of exporting country	Spain
	Type of Form	Form 5-A
	Diary No. & Date of R& I	Dy. No 26825 Dated 06-08-2018
	Fee including differential fee	Rs. 100,000/- Dated 06-08-2018
	Brand Name +Dosage Form + Strength	COLMYC 20% Oral solution for administration in drinking water
	Composition	Each ml contains: Enrofloxacin…….200mg
	Finished Product Specification	USP
	Pharmacological Group	Antibacterial
	Shelf life	3 years store below 30^0C
	Demanded Price	Decontrolled

	Pack size	500ml, 1L,5L
	Me-too status	EL-FLOXACIN LIQUID of M/s ELKO ORGANISATION,
	Stability studies	Firm has submitted long term (36 months) at 30ºC 75±5%RH & accelerated (06 months) stability data at 40ºC, 75±5% RH for three batches.
	Detail of certificates attached	**Original Legalized CoPP dated 14th May 2018** by ministry of health, social services and equality (Department of veterinary medicines) declaring the free sale of applied product and GMP compliant status of the manufacturer i.e., S.P. VETERINARIA, S.A. Crta. Reus-Vinyols, Km. 4.1 P.O. Box 60 43330 Riudoms (Tarrangona) Spain
	Remarks of the Evaluator.	Applied product is **Suspension as per USP monograph but applied product is solution dosage form**.
	Decision of 292nd meeting of Registration Board: Deferred for following: Applied product is suspension as per USP monograph, but applicant apply solution dosage form. M/s Poul Med submitted that the European Pharmacopoeia monograph number 2229 for Enrofloxacin (Enrofloxacin for veterinary use) is the only monograph available for Enrofloxacin in the European Pharmacopoeia. It describes the tests and specifications that the raw material (enrofloxacin) must follow to comply with the European Pharmacopoeia standards. It does not state that it is for suspension product forms only. Decision of 293rd meeting: Registration Board deferred the application for dosage form clarification. Submission by the firm: The firm has submitted that the dosage form of the applied product is Oral Solution while in USP describes the monograph for Oral Suspension. The firm has requested for grant of registration with innovator's specifications. Moreover, the firm has submitted fee Rs. 5,000/- with the reply (challan number 0539489 dated 22/04/2020). **Decision: Deferred for confirmation of composition of formulation in the database of importing country.**	

Case No. 5: Import cases (Human) Form 5F

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No 7963 Dated 10-06-2019
	Details of fee submitted	Rs. 100,000/- Dated 29-05-2019
	The proposed proprietary name / brand name	Alvocade Single use vial containing 3.5mg powder for injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Bortezomib powder….3.5mg
	Pharmaceutical form of applied drug	Powder for Injection IV/Sc
	Pharmacotherapeutic Group of (API)	Anticancer
	Reference to Finished product specifications	In-House
	Proposed Pack size	1 vial box
	Proposed unit price	73.2 Dollars
	The status in reference regulatory authorities	Bortezomib 3.5 mg powder for solution for injection (UK)
	For generic drugs (me-too status)	Egybort injection by M/s Revive Pharma, Reg. No. 090738
	Module-II (Quality Overall Summary)	The submitted QOS is as per WHO-PD template.
	Name, address of drug substance manufacturer	M/s Laurus Labs Limited Plot no.21 Jawaharlal Nehru Pharma City, Parawada Visakhapatanma 531021 Andra Pradesh India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Submitted. Real time at -20^{o}C±5^{o}C for 12 months Accelerated study at 5^{o}C±3^{o}C for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical

		procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted complete data of formulation development process. Firm has submitted comparative quantitative composition of applied product along with reference product. Firm has also submitted comparative table summarizing results of all physico-chemical tests performed on 5 batches of applied product and one batch of the reference product i.e. Omnipaque injection.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Glass vial
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30ºC ±2ºC / 75% ± 5% RH for 12 months.

2347. Nab-Xelpac Injection (Lyophilized Powder) applied by M/s Himmel Pharmaceuticals (Pvt.) Ltd Lahore

MODULE 1: ADMINISTRATIVE

Section	Sub-Section	Heading
1.1		Covering Letter and Fee Deposit Slip Submitted Dy. No 26966 Dated 13-12-2019 PKR: 50,000/- dated 19-03-2019
1.2		Table of Contents (From Module 1 to Module 5) Submitted
1.3		Applicant Information Submitted
	1.3.1	Name, address and contact details of Applicant / Marketing Authorization Holder: M/s Himmel Pharmaceuticals (Pvt.) Ltd, 793-D, Block C Faisal Town Lahore
	1.3.2	Name, address and contact details of Manufacturing site. Product License Holder & Manufacturer: M/s BEACON Pharmaceuticals Limited Plant address: Kathali, Bhaluka, Mymensingh Bangladesh Office Address: 9/A, Toyenbee Circular Road, Motijheel Dhaka, Bangladesh
	1.3.3	Specify whether the Applicant is: Importer
	1.3.4	**Drug Sale License** License to Sell drugs as a Distributor No: 0011000 0001520 valid upto 06-Feb-2020
1.4		Type of Application Submitted
	1.4.1	Application is for the registration of: Generic Drug Product
	1.4.1	Pharmaceutical product is intended for: Domestic sale
	1.4.2	For imported products, please specify one of following: Finished Pharmaceutical Product Import
1.5		Detailed Information of Drug, Dosage From & Labelling Claims Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug. Nanoparticle Albumin bound Paclitaxel USP
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit Each vial contains: Nanoparticle Albumin bound Paclitaxel USP …..100mg
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trademark certification / clearance. Nab-Xelpac Injection (Lyophilized Powder)
	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. 1's & As per SRO
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API)

		Antineoplastic agents
	1.5.6	Pharmacopoeial reference / Status of applied formulation USP
	1.5.7	Route of administration IV
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price ONCOTAXEL 100MG INJECTION of M/S. PHARMEVO (PRIVATE) LIMITED,
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. Abraxane 5 mg/ml powder for suspension for infusion (Netherlands)
	1.5.10	Dosage form of applied drug Injection (Lyophilized Powder) : 100mg
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens Submitted
	1.5.12	Description of Batch numbering system
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & Adverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard.
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined. Submitted
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so.
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant. Submitted
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals. Submitted
	1.5.20	Other commitment e.g., regarding stability studies etc.
	1.5.21	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.

	1.5.22	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
1.6		Miscellaneous Information Submitted
	1.6.5	Drug Substance related Document including following: Name and address of API manufacturer.
	• **Original Legalized CoPP (Certificate#. Case no. 01 Review of the previously presented cases

Following application was approved in 286th meeting of Registration Board held on 14th - 16th November, 2018. During subsequent processing of the said case, it has been identified that the evidence of approval of applied formulation i.e., "Each capsule contain Gabapentin …. 60mg" is not verifiable from any of the reference regulatory authorities, rather "Gabapentin 600mg tablet" is approved by US FDA. Hence the case is presented before the Board for re-consideration.

2173.	**Name and address of manufacturer / Applicant**	**M/s Parkar Pharma. Plot No. O/7-A, S.I.T.E Area Kotri, Sindh**
	Brand Name +Dosage Form + Strength	Parkopentin 600mg Capsule
	Composition	Each Capsule Contains: Gabapentin…600mg
	Diary No. Date of R& I & fee	Dy.No 24892 dated 18-07-2018 Rs.20,000/- Dated 16-07-2018
	Pharmacological Group	Anti-convulsant
	Type of Form	Form-5
	Finished product Specification	USP
	Pack size & Demanded Price	As per SRO, As per Drap Policy
	Approval status of product in Reference Regulatory Authorities.	**USFDA Approved**

	Me-too status	**Kendis Tablets 600mg Reg # 064838**
	GMP status	The CLB in its 259th meeting held on 29th and 30th March 2018 has considered and approved the grant of DML by way of formulation. d) Tablet (General Section) e) Capsule (General Section) f) Liquid Syrup (General Section)
	Remarks of Evaluator	
	Decision: Registration Board rejected the application as applied formulation is not approved by any reference regulatory authority and firm has not submitted safety and efficacy data.	

Case no. 02 Registration applications for local manufacturing of (Human) drugs

b. New cases

2174.	**Name and address of manufacturer / Applicant**	**"M/s Medizan Laboratories (Pvt) Ltd, Plot No. 313, Industrial Triangle, Kahuta road, Islamabad** Contract manufacturing by **M/s Ipram International. Plot No. 26, S.S, National Industrial Zone, Rawat, Islamabad"**

	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	MHRA Approved
	Me-too status	Azithromycin 250mg Capsules Unipharma (Pvt) Ltd., 071421
	GMP status	28-09-2017 and good
	Remarks of the Evaluator XIII	• Azithromycin "as" dihydrate is approved in MHRA. • Manufacturing facility / section needs to be confirmed.
	Previous Decision (M-295)	Deferred for evidence of approval of relevant/required manufacturing facility and revision of formulation as per the innovator / reference product along with submission of fee for revision of formulation.
	Firm's response	• Firm has submitted revised master formulation in line with the reference product i.e., "Each Capsule Contains: Azithromycin as dihydrate……250mg" • Firm has submitted copy of letter from Secretary CLB dated 14-02-2020, wherein Renewal of DML w.e.f 05-10-2017 has been issued including the section of "Capsule (general)".
	Decision: Approved as per following composition: "Each Capsule Contains: Azithromycin as dihydrate……250mg"	

2182.	**Name and address of manufacturer / Applicant**	**M/s Hiranis Pharmaceuticals (Pvt.) Limited, Located at plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi.**
	Brand Name +Dosage Form + Strength	Brethease 100mcg/6mcg Capsule
	Composition	Each capsule contains: Formoterol Fumarate……6mcg Budesonide……100mcg
	Diary No. Date of R& I & fee	Dy.No. 939, 28-10-2013, 20,000/-, 28-10-2013
	Pharmacological Group	Corticosteroid + selective beta$_2$–adrenergic agonist
	Type of Form	Form-5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	As per PRC
	Approval status of product in Reference Regulatory Authorities.	Symbicort 100/6 Turbohaler, Inhalation Powder by M/s AstraZeneca (MHRA Approved)
	Me-too status	Combivair 100mcg + 6mcg capsule of M/s Highnoon
	GMP status	Last GMP inspection conducted on 07-09-2017, and the report concludes that the firm was considered to be operating at satisfactory compliance with GMP guidelines.
	Previous remarks of the Evaluator.	
	Previous decision(s)	Deferred for product specific inspection by Director DTL Karachi alongwith FID with following verifications **(M-243)**: • Confirmation of approval of formulation by the stringent regulatory agencies. • Confirmation of API in ultramicronized form. Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies adopted by the Registration Board in 275th meeting **(M-289)**. Deferred for confirmation of manufacturing and testing

		facility for DPI as decided by registration Board in 290th meeting **(M-293)**.
	Evaluation by PEC	The firm has submitted copy of product specific inspection conducted by Director DTL, Karachi and Area FID which concludes as below: "*In the light of manufacturing, Quality Control, Storage facilities and technical persons met, the panel is of the view to recommend Registration of a) Aclidum Capsule, b) Brethease 200mcg/6mcg Capsule, c) Brethease 100mcg/6mcg Capsule, d) Brethease 400mcg/6mcg Capsule to the firm under the Drug Act, 1976."* Approval status of applied formulation has been confirmed in MHRA. The firm has submitted as under : • We are using micronized material which is already DPI grade and hence specialized mixer not require to fine the material particle size and same is the industrial practice. (Refer to DRAP panel inspection report & materials CoA's in Annex 2.1 for details). • We have separate manufacturing facility for capsules (General) & capsules (steroidal). With necessary equipment's, mean-while a separate dispensing booth for steroidal dispensing also available. (Refer to DML panel inspection report in Annex 3.) • We have revised the finished product specifications and testing method and include the test of "Uniformity of Delivered Dose" and "Aerodynamic Particle Size Distribution". We also arrange Andersen Cascade Impactor, USP apparatus 1 & 3 for these tests. Manufactured by Copley Scientific, UK. (Revised FP specifications, test method and Cascade impactor qualification documents attached in Annex 4). • We have Andersen Cascade impactor for determining the aerodynamic particle size of API in formulation blend in micron range. United States pharmacopoeia/British Pharmacopoeia recommend any one of the Marple-miller impactor, Andersen Impactor, Multistage Liquid Impinger, Next Generation Impinger etc. (Refer to Annex 1 for details). • We have mentioned our drug delivery device as CAPSUHALE in our submitted product specifications. Similarly we also include target delivery dose in our product specifications. (Refer to Annex 4.1).
	Previous decision (M-295):	Registration Board deferred the case for further deliberation in the light of decision of 290th meeting of Registration Board.
2183.	**Name and address of manufacturer / Applicant**	**M/s Hiranis Pharmaceuticals (Pvt.) Limited, Located at plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi.**

(Revised FP specifications, test method and Cascade impactor qualification documents attached in Annex 4). • We have Andersen Cascade impactor for determining the aerodynamic particle size of API in formulation blend in micron range. United States pharmacopoeia/British Pharmacopoeia recommend any one of the Marple-miller impactor, Andersen Impactor, Multistage Liquid Impinger, Next Generation Impinger etc. (Refer to Annex 1 for details). We have mentioned our drug delivery device as

		CAPSUHALE in our submitted product specifications. Similarly we also include target delivery dose in our product specifications. (Refer to Annex 4.1)
	Previous decision (295):	Registration Board deferred the case for further deliberation in the light of decision of 290th meeting of Registration Board.
	Firm's response: • As concerned of manufacturing controls for particle size of blend, we will use DPI grade API & lactose (Respitose) as an excepient. Therefore, we do not require spiral jet mill/high shear mixer to fine the material. We have arranged micronized Budesonide, formoterol fumarate and inhalation grade lactose (Respitose SV003) in our proposed formulation. • We are also providing our commitment/undertaking for arrangement/purchase of Spiral Jet Mill/high shear mixer, when our applied products have requirements of particle size reduction in future. • We have separate manufacturing facility for capsules (General) & capsules (steroidal). Our Steroidal capsule manufacturing section is also verified by DRAP Officials during their inspections. We also have separate dispensing booth for dispensing of steroidal API. • We have Andersen Cascade impactor for determining the aerodynamic particle size of API in formulation blend in micron range. United States pharmacopoeia/British Pharmacopoeia recommend any one of the Marple-miller impactor, Andersen Impactor, Multistage Liquid Impinger, Next Generation Impinger etc. • We have revised the finished product specifications and testing method and include the test of "Uniformity of Delivered Dose" and "Aerodynamic Particle Size Distribution". We also arrange Andersen Cascade Impactor, USP apparatus 1 & 3 for these tests. Manufactured by Copley Scientific, UK. • We have mentioned our drug delivery device as CAPSUHALE in our submitted product specifications. Similarly, we have also included "target delivery dose" in our product specifications.	
	Decision: Registration Board deliberated upon submission of firm and decided as under: **v. Approved the applied product considering the fact that the use of micronized DPI grade APIs does not necessitate the use of Spiral Jet Mill/high shear mixer.** **vi. The firm shall include the test of Aerodynamic particle size distribution" in the finished product specifications to ensure the required particle size of the formulation blend.** **vii. Firm shall use micronized DPI grade excipient for the applied product.** **viii. Registration letter shall be issued with following label claim:** **"Each capsule contains:** **Formoterol Fumarate (micronized) ……. 6mcg** **Budesonide (micronized) ……..… 200mcg"**

	Type of Form	Form 5A
	Diary No. Date of R& I	Dy No.23258: 05.07.2018
	Fee including differential fee	PKR 100,000/-: 05.07.2018
	Brand Name +Dosage Form + Strength	Asi-Tydox Plus Powder
	Composition	Each 1000g Contains: Tylosin Tartrate…100g Doxycycline Hyclate…200g
	Pharmacological Group	Antibiotics
	Finished Product Specification	Not provided
	Pack size & Demanded Price	1 kg; Rs. 10500/-
	Approval status of product in Reference Regulatory Authorities.	NA
	Me-too status	TYLODOX 100/200 W.S. POWDER. Reg No. 43595
	Detail of certificate attached	• Legalized copy of FSC issued by Department of Animal Health of Vietnam valid for two years from 30.07.2018. Only brand name has been mentioned without label claim. • Legalized copy of GMP certificate issued by Department of Animal Health of Vietnam for five years from 23.1.2017. • Letter of authorization is provided.
	Remarks of the Evaluator.	• First page of Form 5A was from manufacturer not importer and had not been signed. The firm submitted revised first page of Form 5. • The firm was asked to submit certificate of analysis. The firm did not submit the same. • Only brand name has been mentioned without label claim. • The firm has provided stability summary sheets, wherein description, identification, loss on drying and assay have been performed as per Zone IV-A. However, USP general chapter has mentioned description, identification, assay and impurities for universdal tests. Furthermore, USP has mentionedadditional tests for powder as: "Oral powders should indicate: "For Oral Use Only". Tests that are considered specific to the type of powders include: Minimum Fill (755) and volatile content ((731) and (921)). Minimum Fill (755) has specifications that apply to oral powders. On the basis of the nature of the article and scientific criteria, additional tests may apply, including pH in an aqueous solution, powder fineness, microbial limits, and others.
	Previous decision	The Board in its 291st meeting deferred the case for: • Submission of testing method and certificate of analysis. • Submission of Original legalized and valid FSC with label claim of the product.
	Evaluation by PEC	• The firm changed the address in form 5 from "M/s Schiwo Pakistan. Office No. 10, First Floor, City Plaza, Khanewal Road, Chowk Rasheedabad, Multan, Punjab" to "M/s Schiwo Pakistan, 11G, Shah Rukh e Alam Colony, Multan. • The firm submitted the testing method and CoA.

		• The firm submitted Legalized copy of FSC issued by Department of Animal Health of Vietnam valid for two years from 26.09.2019.
	Previous decision	The Board in its 293rd meeting deferred the case for or changing the address of applicant in Form 5A.
	Evaluation by PEC	• The firm submitted Rs. 5000/- fee.
	Previous decision (M-295)	Deferred for following: • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.
	Remarks of Evaluator	Following reference of me-too product has been verified: "DOXYSIN WATER SOLUBLE POWDER" of M/s UNIVET PHARMACEUTICALS, RAWALPINDI. (Reg.#033256)
	Decision of 296th meeting: Approved.	

Case no. 04 Registration applications of newly granted DML or New section (Human)

b. New DML /section

M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa, has been granted approval for two new tablet sections in 274th meeting of CLB. Now the firm has applied following products for priority consideration against these two new sections.

2193.	**Name, address of Applicant / Marketing Authorization Holder**	**"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"**
	Name, address of Manufacturing site.	"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 15180: 29-06-2020
	Details of fee submitted	PKR 50,000/-: 17-02-2020
	The proposed proprietary name / brand name	**Ertuvia 5mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	"Each Film Coated Tablet Contains: Ertugliflozin L-Pyroglutamic Acid Eq. to Ertugliflozin…5mg"
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Anti-Diabetic (A10BK04)
	Reference to Finished product specifications	Inovator's specification
	Proposed Pack size	10's, 14's, 20's, 28's & 30's

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Steglatro approved by USFDA
	For generic drugs (me-too status)	--
	GMP Status of FPP manufacturer	GMP certificate issued on the basis of inspection conducted on 25-01-2019.
	Name and address of API manufacturer.	M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS –PD template
	Module-III Drug Substance:	--
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated and real time conditions of Zone-IVa.
	Module-III Drug Product:	
	Pharmaceutical Equivalence and Comparative Dissolution Profile	CDP studies against the innovator product "Steglatro 5mg tablets" in three dissolution mediums has been submitted with acceptable level of f2 results.
	Analytical method validation/verification of product	Firm has submitted analytical method validation data.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions

STABILITY STUDY DATA

Manufacturer of API	M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China

Manufacturing Date	05-2019	05-2019	05-2019

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data of applied products and provided the following documents in conjunction with the checklist approved by the Registration Board in its 293rd Meeting:

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Empagen tablet 10mg & 25mg", which was conducted on 25-10-2019, and was presented in 294th meeting of Registration Board.

		Following observations were reported in the report: ✓ The HPLC software is 21CFR Compliant. \ ✓ Firm has demonstrated audit trail reports of testing. ✓ The firm has stability chambers for carrying out accelerated and real time stability studies provided with uninterrupted power supply and data loggers.
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	• Copy of GMP certificate (JS20180935) issued by the Jiangsu Drug Administration in the name of Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China has been submitted which is valid upto 26-11-2023.
9.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form issued by ADC DRAP Peshawar office dated 26-02-2019 specifying import 189gm Ertugliflozin L-pyroglutamic acid from M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

2194.	**Name, address of Applicant / Marketing Authorization Holder**	**"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"**
	Name, address of Manufacturing site.	"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"

11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Sr. No.	Section #.	Deficiencies
5.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance

		with appropriate levels of impurities. Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
6.	***3.2.S.5***	• The submitted Drug substance analytical procedure recommends the use of working standard of "Ertugliflozin L-pyrogulatmic acid" for Assay & related substances test, whereas the COA of working standard of "Ertugliflozin" has been submitted.
P - PART		
7.	***3.2.P.5.5***	• Acceptance criteria for the parameter of Accuracy in "Analytical Method Validation" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, placebo, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g., light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation in method.
8.	***3.2.P.8***	• Calculation of Assay results during stability studies has been performed by using the "theoretical concentration" of the sample solution instead of the actual concentration based upon the weight of the drug product sample used to prepare the sample solution. Justification shall be submitted in this regard.

Decision: Registration Board deferred the applications of Ertuvia 5mg Tablet & Ertuvia 15mg Tablet for the following deficiencies:

Sr. No.	Section #.	Deficiencies
5.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Manufacturing Date	05-2019	05-2019	05-2019

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data of applied products and provided the following documents in conjunction with the checklist approved by the Registration Board in its 293rd Meeting:

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Empagen tablet 10mg & 25mg", which was conducted on 25-10-2019, and was presented in 294th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR Compliant. \ ✓ Firm has demonstrated audit trail reports of testing. ✓ The firm has stability chambers for carrying out accelerated and real time stability studies provided with uninterrupted power supply and data loggers.
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Ertugliflozin L-Pyroglutamic Acid:** Copy of GMP certificate (JS20180935) issued by the Jiangsu Drug Administration in the name of Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China has been submitted which is valid upto 26-11-2023. **Sitagliptin Phosphate Monohydrate:** Firm has submitted copy of Drug Manufacturing License (No. ZHE20020015) for M/s Zhejiang Yongtai Pharmaceutical Co., Ltd. No.1, 4th Donghai Road, Zhejiang Provincial Chemical and Medical Raw Material Base Linhai Zone, Linhai City, Zhejiang Province, 317016, China, issued by Zheijiang Food & Drug Administration
9.	Documents for the procurement of API with approval from DRAP (in case of import).	**Ertugliflozin L-Pyroglutamic Acid:** Firm has submitted copy of Form issued by ADC DRAP Peshawar office dated 26-02-2019 specifying import 189gm Ertugliflozin L-pyroglutamic acid from M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China **Sitagliptin Phosphate Monohydrate:** Firm has submitted copy of commercial invoice attested by ADC, DRAP Karachi, dated 02-01-2019 for the import of 350 Kg of Sitagliptin phosphate monohydrate.
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted

12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Sr. No.	Section #.	Deficiencies
		Ertugliflozin-LPGA
6.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities. Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
7.	***3.2.S.5***	• The submitted Drug substance analytical procedure recommends the use of working standard of "Ertugliflozin L-pyrogulatmic acid" for Assay & related substances test, whereas the COA of working standard of "Ertugliflozin" has been submitted.
		Sitagliptin Phosphate
8.	***3.2.S.4***	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g., light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
		P - PART
9.	***3.2.P.5.5***	• Acceptance criteria for the parameter of Accuracy in "Analytical Method Validation" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, placebo, sample and reference solution. Whereas USP

		chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g., light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation in method.
10.	***3.2.P.8***	• Calculation of Assay results during stability studies has been performed by using the "theoretical concentration" of the sample solution instead of the actual concentration based upon the weight of the drug product sample used to prepare the sample solution. Justification shall be submitted in this regard.

Decision: Decision: Registration Board deferred the applications of Ertuvia-S 5/100 mg Tablet & Ertuvia-S 15/100 mg Tablet for the following deficiencies:

Sr. No.	Section #.	Deficiencies
		Ertugliflozin-LPGA
6.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than $\pm$2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities. Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
7.	***3.2.S.5***	• The submitted Drug substance analytical procedure recommends the use of working standard of "Ertugliflozin L-pyrogulatmic acid" for Assay & related substances test, whereas the COA of working standard of "Ertugliflozin" has been submitted.
		Sitagliptin Phosphate

Case no. 05 Registration applications of import cases

a. New Cases (Veterinary)

2197	**Name and address of Applicant**	**M/s Prix Pharmaceutica, 26 Abbot Road, Lahore, 54000, Pakistan**
	Detail of Drug Sale License	Address: **M/s Prix Pharmaceutica,** 26 abbot road Lahore (Godown: Plot NO. 5, Pharmacity, 30Km Multan Road Lahore. Validity: 12/06/2022`
	Name and address of manufacturer	M/s Fatro S.P.A, Via Emilia, 285-40064, Ozzano Emilia (Bo) Italy.
	Name and address of marketing authorization holder	M/s Fatro S.P.A, Via Emilia, 285-40064, Ozzano Emilia (Bo) Italy.
	Name of exporting country	**Italy**
	Type of Form	Form 5-A
	Diary No. & Date of R& I	Dy. No. 75 Dated 14-07-2015
	Fee including differential fee	Rs. 50,000/- Dated 10-07-2015
	Brand Name +Dosage Form + Strength	**ZOOCOLAGOGO C.M. Oral Powder**
	Composition	Each 18gm sachet contains: Rhubarb ……. 9gm Boldo leaf …….. 6gm Condurango ……. 2gm Nux vomica ……. 1gm
	Finished Product Specification	Manufacturer's specification
	Pharmacological Group	Products for alimentary tract and metabolism
	Shelf life	5 years
	Demanded Price	Decontrolled
	Pack size	1's
	International availability	Approved by Italy (Ministry of Health Directorate General for Animal Health and Veterinary Medicinal Products)
	Me-too status	N/A
	Stability studies	Firm has submitted long term (60 months) at 25+2°C, 60+5%RH & accelerated (06 months) stability data at 40+ 2°C, 75+ 5% RH for three batches.

	Detail of certificates attached	• **Original Legalized CoPP** **Certificate No:** 163/2018/C **Certifying Authority:** Ministry of Health Directorate General for Animal Health and Veterinary Medicinal Products **Issue Date:** 19-08-2018 **Free sale in exporting country: Yes** • **GMP of manufacturer:** Yes **GMP Certificate** The GMP certificate (No. NBF/18/2017/V) issued by Ministry of Health - General Directorate of Animal Health and Veterinary Drugs Italy, submitted by the firm and also available at EUDRA GMP database, valid upto 23-02-2020. **Sole Agency Agreement:** Firm has submitted declaration form M/s Fatro S.P.A, Italy wherein M/s Prix Pharmaceutica, 26 Abbot Road, Lahore, 54000, Pakistan has been declared as sole agent in Pakistan for their product "Zoocolagogo C.M. oral powder".
	Remarks of the Evaluator:	
	Decision: Registration Board deferred the case for following: **iv. Opinion from H&OTC division regarding the classification of applied formulation.** **v. Submission of stability data of the applied product as per Zone IV-a conditions.** **vi. Submission of valid legalized GMP certificate of the finished product manufacturer.**	

Case no. 06 Registration applications of drugs for which stability study data is submitted

c. New cases

2198.	**Name and address of manufacturer / Applicant**	**M/s Hudson Pharma Pvt. Ltd. D-93 north western industrial zone, port Qasim, Karachi.**
	Brand Name +Dosage Form + Strength	Jenta 80mg Injection
	Composition	Each ampoule contains: Gentamicin as sulphate ……. 80mg
	Diary No. Date of R& I & fee	Dy.No.728, 27-7-2016, Rs.20,000/-
	Pharmacological Group	Antibiotic
	Type of Form	Form-5
	Finished Product Specification	Manufacturer
	Pack size & Demanded Price	2 ml ampoule As per SRO
	Approval status of product in Reference Regulatory Authorities.	DBL GENTAMICIN 80mg/2mL Injection BP (TGA)
	Me-too status	GENXAT of Surge pharma
		Last GMP Inspection dated 03-04-2019 with conclusive remarks of acceptable cGMP compliance.
	Remarks of Evaluator	
	Decision:	

STABILITY STUDY DATA	
Drug	Jenta 80mg Injection
Name of Manufacturer	M/s Hudson Pharma Pvt. Ltd. D-93 north western industrial zone, port Qasim, Karachi.
Manufacturer of API	M/s Fujian Fukang Pharmaceutical Co., Ltd., Jiangyin Industrial Estate, Fujian, China
API Lot No.	FG 1608226
Description of Pack	LDPE Ampoule

(Container closure system)			
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0,1,3,6 months Real Time: 0,1,3,6 months		
Batch No.	001	002	003
Batch Size	20,000 ampoules	20,000 ampoules	20,000 ampoules
Manufacturing Date	01-2017	01-2017	01-2017
Date of Initiation	20-01-2017	20-01-2017	20-01-2017
No. of Batches	03		
Date of Submission	03-12-2018		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
8.	COA of API	Yes
9.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	• Copy of GMP Certificate (Certificate#FJ20170003) issued by Germany, **valid upto 09-04-2022**
	Protocols followed for conduction of stability study and details of tests.	Yes
10.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
11.	Documents confirming import of API etc.	Copy of ADC attested invoice for Gentamicin sulfate, dated 16-12-2016.
12.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
13.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
14.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

iv. Firm has submitted data for Bio-Assay analysis as per USP monograph.

v. Firm has used LDPE ampoules as primary container closure system for applied formulation which is a semi permeable container. As per ICH guidelines for drug products packaged in semi-permeable containers the testing conditions are:

Study	Storage conditions
Long Term	30°C ± 2°C/35% RH ± 5% RH
Accelerated	40°C ± 2°C/not more than (NMT) 25% RH

vi. The firm has submitted reports of 6 months accelerated & long term stability studies, for all the above three batches of Jenta 80mg injection, the firm has derived water loss rate by applying alternate approach given in the ICH Q1A (R2) guidelines as below:

Batch No.: 001 Filled Volume: 2 ml 1 Month Completion Date: 06-01-2020

Moreover firm has submitted Container Qualification Studies for Low Density Polyethylene (LDPE), as per USP. The submitted studies make following declarations:

- Material pass the test describe in European Pharmacopoeia.
- Material pass the test describe in USP.
- LDPELE6609 PH has FDA drug master file number DMF 17927 (24086 ex Porvoo)
- PCSIR test reports for extractable metals concluded that No Extractable was found in LDPE sample tested as per USP<661.1>.
- Sample analysed as per USP <661.2> and found results within the USP specification.

Decision: Registration Board deliberated the case in detail and considering the submitted stability data "Container qualification studies", the Board decided to approve Jenta 80mg injection (Gentamicin)", of M/s Hudson Pharma Pvt. Ltd. D-93 north western industrial zone, port Qasim, Karachi.

9.	COA of API	Yes
10.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by China Food & Drug Administration, valid upto 18.08.2019.
11.	Protocols followed for conduction of stability study and details of tests.	Yes
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
13.	Documents confirming import of API etc.	Copy of commercial invoice attested by ADC DRAP Karachi on 14.05.2018, has been submitted.
14.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes (Stamped signature)
15.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
16.	Commitment to follow Drug Specification Rules, 1978.	Yes

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion		
20.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Ramelton Tablets 8mg", which was conducted on 18.08.2017, and was presented in 273rd meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR compliant and having certificates of Compliance by USFDA ✓ The firm has audit trail Reports on testing. ✓ Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software.

38.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for complete stability studies analysis of three batches.

Remarks of Evaluator:

Shortcomings communicated	**Response by the firm**
The testing/analysis method of API is different from that of manufacturer. Justify.	90% Tests inclusive of critical tests, i.e ; Assay, Solubility, Related Substance, Clarity, Water content etc. all are comparative / present in Helix's Testing protocols same as supplier. However, test i.e; particle size is for information only & residual solvent (OVI) would be performed in future once the Gas Chromatography is purchased by Quality Control department. However, as per COA, the firm only performed description, identification water content, residue on ignition and assay with in-house claims, and the limits are as per specifications of APi manufacturer. Column Condition: API manufacturer – Agilent Zorbax SB-C18 (240mm x 4.6mm x 5 micron or equivalent); FPP manufacturer – ODS (150mm x 4.6mm x 5 micron)
The peaks at approx. 1.19, 1.31, 1.50 and 3.73 (RT) are present in the chromatogram of initial assay, but not in that of standard. Justify/clarify.	The extra small peaks in chromatogram of assay sample is due to presence of excipients which are used in the formulation whereas no extra small peak in chromatogram of standard as the standard contains only pure active ingredient.
The innovator product has time of 15 minutes for dissolution test as per pharmacology and biopharmaceutics review. You have set it 30 minutes. Justify.	We have formulated our applied product "Aglizon Tablets (Dapagliflozin)" as film coated tablets & as per USP , disintegration time for film coated tablet is NMT 30 minutes for in-vitro test. We have performed In-vitro test not in–vivo.
Tailing factors and theoretical plates are missing in the chromatogram of API and finished product (assay, dissolution and stability data).	The firm did not submit the same.

In comparative dissolution profile, justify the use 06 tablets instead of 12 tablets, and the peaks in the chromatograms of samples, which are not present in those of standard.	Please note that the comparative dissolution profile (CDP) of newly applied molecules was carried out in the past by using 06 units. However, we assure you to conduct CDP by using 12 units each of reference and sample product in future & for the same we are in-process to purchase 12 to 14 units dissolution apparatus.
You have not performed drug-excipients compatibility study by submitting that stated composition of developed product is similar to innovator's product formulation. However, you have added talc powder in your formulation, which is not used in the innovator's product. Justify/clarify.	Please note that the Innovator used Talc as excipient in coating process & in our formulation, Talc is used as a Lubricant agent to improve the flow property in granulation stage. This is an inert material which do not have any therapeutic effect & is the part of formulation either used in granulation or coating process. We are enclosing herewith the reference page from Handbook of Pharmaceutical Excipients for Role of Talc for your ready reference in Annex – X.

Decision of 293rd meeting: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC: Firm has submitted stability studies of two batches i.e., TF004 & TF 005 for both accelerated and real time conditions at initial and 01 month time points with revised dissolution specifications of "NLT 80% within 15 minutes", along with analytical record i.e., raw data sheets, chromatograms, audit trail reports.

Decision: Registration Board decided to approve registration of "Aglizon 5mg Tablet (Dapagliflozin 5mg) and Aglizon 10mg Tablet (Dapagliflozin 10mg) by M/s Helix Pharma (Pvt.) Ltd., Hakimsons House, A/56, SITE Mangho pir Road Karachi-75700. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVA conditions.

Name of Manufacturer	M/s Jenner Pharmaceuticals (Pvt.) Ltd., 26-km Lahore-Sharaqpur Road Sheikhupura		
Manufacturer of API	Kekule Pharma Limited, MIA, Khazaipally, Jinnaran Mandal, Sangaredddy – 502 319, T. S. India		
API Lot No.	ACE 01319 (MFG DATE: January, 2018)		
Description of Pack (Container closure system)	1x10's, 2x10's, 3x10's in Alu Alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5% RH Accelerated: 40˚C ± 2˚C / 75% ± 5% RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0,1,2,3,4 & 6 (months) Real Time: 0, 3, 6 (months)		
Batch No.	ETR-PB-010001	ETR-PB-010002	ETR-PB-010003
Batch Size	1000	1000	1000
Manufacturing Date	02.2019	02.2019	02.2019
Date of Initiation	07.03.2019 (from initial analysis)	07.03.2019 (from initial analysis)	07.03.2019 (from initial analysis)
No. of Batches	03		
Date of Submission	18.09.2019 (Dy. No. 17862)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	Documents To Be Provided	Status
9.	COA of API	Yes
10.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by DCA, Government of Telangana valid upto 11.05.2019.
11.	Protocols followed for conduction of stability study and details of tests.	Yes
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
13.	Documents confirming import of API etc.	Copy of commercial invoice attested by AD DRAP Lahore on 30.01.2019, has been submitted.
14.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes (Stamped only)
15.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
16.	Commitment to follow Drug Specification Rules, 1978.	Yes
REQUEST OF EXEMPTION FROM ON SITE INSPECTION		

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:		
Administrative Portion		
20.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Lansodex capsule 30mg and 60mg, Sofos Tablet 400/90mg and 400mg", which was conducted on 10.02.2018, and was presented in 287th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR compliant and having certificates of Compliance by USFDA ✓ The firm has audit trail Reports on testing. ✓ Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has imported Etoricoxib API 25 kg from Kekule Pharma Limited, MIA, Khazaipally, Jinnaran Mandal, Sangaredddy – 502 319, T. S. India and the declaration includes the following information. Batch No.: ACE 01319 Mfg Date: January, 2018 ➢ **Details of ADC attested commercial Invoice** Invoice No. KPLEXP/156/18-19 Quantity imported: 25 Kg Date of import: 22.01.2019 ADC Attestation Date: 30.01.2019 Manufacturer: NOT MENTIONED Batch No.: ACE 01319
22.	Documents for the procurement of reference standard and impurity standards.	No. but CoA of working standard, impurity I and impurity II are attached
23.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has provided copy of GMP certificate of M/s Kekule Pharma Limited, MIA, Khazaipally, Jinnaran Mandal, Sangaredddy – 502 319, T. S. India issued by DCA, Government of Telangana valid upto 11.05.2019.
24.	Mechanism for Vendor pre-qualification	➢ The firm has submitted Vendor evaluation Form. Copy of Vendor Certification Questionnaire filled for M/s Kekule Pharma Limited, India.
25.	Certificate of analysis of the API, reference standards and impurity standards	• Copies of COAs of API, working standard and impurity-I and impurity-II have been submitted.
26.	Documents for the procurement of excipients used in product development?	Yes
27.	List of qualified staff involved in product development with relevant experience.	The firm has submitted list of three qualified staff involved in product development.
Production Data		
28.	Authorized Protocols/SOP for the development & stability testing of trial batches.	The firm has submitted photocopy of following documents for development of FPP: **g.** Development protocol. **h.** Stability Study Protocol.
29.	Complete batch manufacturing record of three stability batches.	The firm has submitted photocopy of Batch Manufacturing Record and Batch Packaging Record of three stability batches for the stability studies of tablets such as.

<tr><td colspan="3">Remarks of Evaluator:
<table>
<tr><th>Shortcomings communicated</th><th>Response by the firm</th></tr>
<tr><td>The reference product has the criterion for the dissolution test of more than 85% drug release in 15 minutes. You have set it 80% in 30 minutes. Justify.</td><td>In Public Assessment Report of Etoricoxib, it is mentioned that release in 0.1N HCl, pH 1.2 is faster i.e more than 85% in 15 minutes and slower in acetate buffer pH 4.5 and phosphate buffer pH 6.8
As per PAR 85% are results, not limits.</td></tr>
</table>
</td></tr>
</table>

	Conclusion: Etory tablets 90mg and 120mg are released more than 85% in 15 minutes at pH 1.2 and more than 95% in 30 minutes (both sample and reference products) and slower in acetate buffer pH 4.5 and Phosphate buffer pH 6.8, f2 values are well above 50% . In case of drug release less than 85% in 15 minutes, the CDP shall be applied on the drug release data to the extent of one point above the >85% release, not at all points
Specify the exact polymorphic form of API used in the drug product.	Polymorphic Form-1 of API (Etoricoxib) is used. Declaration from manufacturer is attached. (No document specifies that Form-I has been used).
Justify the selection of dissolution parameters for the drug product.	Since innovator brands (Arcoxia 120mg by Frosst Iberica, Spain and Etoricoxib 90mg by Torrent Pharma, UK) and our products Etory Tablets 90mg and Etory Tablets 120mg releases more than 85% in 15 minutes and more than 95% in 30 minutes for both sample and reference products (0.1N HCl, pH 1.2), hence we selected up to 30 minutes for dissolution of our product. Note: Dissolution is slower in acetate buffer pH 4.5 and Phosphate buffer pH 6.8.
The reference product contains Avicel PH 101 and Avicel PH 200 LM; however, you have used Avicel PH 102 in your formulation and have imported Comprecel M 102. Moreover, you have not conducted drug-excipient compatibility studies. Clarify/justify.	We use Arcoxia Tablets (Merck Sharp & Dohme Limited UK) as innovator brand and used excipients same to this brand. - Since we used excipients similar to innovator, hence Drug-Excipient compatibility studies is not required. However, we performed Drug-Excipient compatibility studies by using FTIR and literature survey is also attached.
You have not performed all the tests specified by the CoA of API manufacturer. Justify	Only heavy metals test was missing, now its reagents and apparatus is arranged and test is performed (Report attached)
You have not adjusted the potency of the API (assay = 99.51%) in the drug product.	Potency of API was not adjusted due to pilot batch for R & D, in commercial batches potency will be adjusted.
The batch of API used in the manufacturing of the drug product has not been mentioned in the BMR. Justify.	QC No. is mentioned on BMR, this QC report of API contains all traceable data for API including batch no of API. Now, lot No. of API is mentioned on manufacturing order of BMR.
The humidity graph for accelerated stability chamber, on 08.05.2019 and 09.05.2019 shows out of limit trends. Justification shall be submitted.	Level of water in reservoir was decreased, due to which humidity was decreased from 70% to 60%. Problem was rectified.
As you have performed forced degradation studies of the drug product. Reference shall be provided to the guidelines adopted for the performance of forced degradation studies of the drug product and specificity test in the analytical method validation along with data logger record.	Forced degradation study is performed according to Pharmaceutical manufacturing hand book Pages 566, 571. The firm submitted that in specificity of AMV report, now this is mentioned that there is no effect of degradation products. Although not detected, the two impurities have RT of 1.65 min and 2.68 min, while the drug substance has RT of 3.37.
The values for tailing factor are missing in all the chromatograms of the dossier.	Tailing factor value was not selected in report format, now it is added in report format and few sample graphs are attached.

You have specified impurity I and II for the API. However, these impurities are not specifically tested in CoA provided by the drug substance manufacturer.	These impurities were supplied by manufacturer on our demand for additional test, so they provided. They claimed that these impurities are not present in API, so they are not performing this test.
The reference product is tested in terms of description, identification, colour, average weight, dissolution, uniformity of dosage units by mass variation, related substances, assay, water content, residual solvents and microbial quality. You have not tested the related substances, water content, residual solvents and microbial quality of the drug product. Clarify.	- Related substances test performed and report attached with impurities report of "not detected". - Loss on drying test performed. However, the testing method is not provided. - The firm submitted that the Microbial test performed (analyzed in sister concern company McOlson), report attached. However, the testing method is not provided. - Residual solvent analysis not performed due to non-availability of GC
Provide CDP data for all three physiological buffers, i.e., 0.1N HCl pH 1.2, Acetate buffer pH 4.5, Phosphate Buffer pH 6.8.	The firm submitted CDP data acquired after communication of shortcomings letter. release, not at all points. The firm has performed dissolution on 06 tablet, wherein CV (%) of drug release is ca. 18% and 23% for acetate and phosphate buffers at 15 minutes for the trial batch, i.e., more than 10%. Moreover, in case of drug release less than 85% in 15 minutes, the CDP shall be applied on the drug release data to the extent of one point above the >85%.

Decision of 293rd meeting: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

			ETR-TB-011002	100.16%	100.55%

Decision: Registration Board decided to approve registration of "Etory Tablet 90mg (Etoricoxib) and Etory Tablet 120mg (Etoricoxib) by M/s Jenner Pharmaceuticals (Pvt.) Ltd., 26-km Lahore-Sharaqpur Road Sheikhupura. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

Date of Submission	15-04-19 (Dy. No. 3603)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
9.	COA of API	Applicant has submitted the following: **Copy of COA** **From**:Shengai Desano Chemical Pharmaceuticals**Batch No**: DBH251-B15A-180802

10.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Applicant has submitted the following: Copy of GMP Certificate: **Certificate No:** SH2017046 **Issued To**: Shengai Desano Chemical Pharmaceuticals, No. 417, Binhai Road, Laogang Town, Pudong New Area, Shanghai. **Issued ON**: 04-12-2017 **Valid Till**: 3-12-2022 **Issued By**: China Food & Drug Administration.
11.	Protocols followed for conduction of stability study and details of tests.	Yes
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
13.	Documents confirming import of API etc.	Applicant has submitted Coy of Commercial invoice attested by ADC on 27-08-18 having following information on it: **Invoice Number**: DL-Y-2018-0208 **Manufacturer of API**: Desano Limited. No. 1479, Zhangheng Road, Zhangliang Hi- Tech Park, Shanghai 201203, China. Tenofovir Alafenamide Fumarate API: 1kg Tenofovir Alafenamide Fumarate API W/S: 4g Impurity 1: 100mg Fumaric acid: 100mg Impurity 2: 100mg
14.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
15.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
16.	Commitment to follow Drug Specification Rules, 1978.	Yes

Evaluation by PEC:

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Vireof-N Tablet 25mg (TenofovirAlafenamide Fumarate) Tablets by M/s. Macter International Ltd., F-216, S.I.T.E, Karachi.

Reference No: F.13-11/2017-PEC (Pt) dated 14th Nov, 2019.
Investigation Date and Time: 18th December, 2019.
Investigation Site: M/s. Macter International Ltd., F-216, S.I.T.E, Karachi.

Background:

Chairman Registration Board considered the applications of M/s. Macter International Ltd., F-216, S.I.T.E, Karachi for registration of Vireof-N Tablet 25mg (Tenofovir Alafenamide Fumarate) Tablets. PE&R Division considered scientifically rational laboratory scale data submitted by the firm as pre-requisite of registration being new formulation and constituted a three member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and also advised to verify:

"Confirmation of dissolution test results for all trial batches of applied formulation on US-FDA recommended dissolution parameters including RPM".

Composition of Panel:

4. Prof. Dr. Ghulam Sarwar, ex-member Registration Board, Dean faculty of Pharmacy, Jinnah University for Women, Karachi.

5. Dr. Affan Ali Qureshi, Assistant Director (CDL) DRAP, Karachi.
6. Dr. Kirshan Das, Assistant Director DRAP Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Detail of Investigation:

S. No.	Question	Observation
38.	Do you have documents confirming the import of Tenofovir Alafenamide Fumarate API including approval from DRAP?	The firm has imported 1Kg Tenofovir Alafenamide Fumarate (API) from Shanghai Desano Chemical Pharmaceutical Co., Ltd.)vide invoice No. DL-Y-2018-0208 dated: 27.08. 2018. There is proper approval from DRAP Karachi Form 6 (2440-17).
39.	What was the rationale behind selecting the particular manufacturer of API?	The rationale behind selecting the particular manufacturer of API is the vendor evaluation process based on audit and other criteria like manufacturer GMP status, DMF source etc.
40.	Do you have documents confirming the import of Tenofovir Alafenamide Fumarate reference standard and impurity standards?	The firm has imported Tenofovir Alafenamide Fumarate working standard and two impurities standards from the API manufacturer.
41.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has Certificate of Analysis of API, working standard of API and impurities standards.
42.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificates for API manufacturer issued by China Food & Drugs Administration valid till 03/12/2022.
43.	Do you use API manufacturer method of testing for testing API?	The firm has used API manufacturer method of testing.
44.	Do you have stability studies reports on APIs?	The firm has stability studies report on API (Tenofovir Alafenamide Fumarate) conducted by API manufacturer.
45.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The manufacturer of API has performed the stability studies as per SIM method. The process related impurities and degradation product ie. Impurity I have been observed.
46.	Do you have method for quantifying the impurities in the API?	The firm has method for quantifying impurities.
47.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has some remaining quantities of API (Tenofovir Alafenamide Fumarate) working standard and impurity standard.
48.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients including Microcrystalline cellulose, Lactose Monohydrate ,Croscarmellose sodium, Magnesium stearate

49.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
50.	Do you have test reports and other records on the excipients used?	The firm has test reports and other records for the excipients used.
51.	Do you have written and authorized protocols for the development of Tenofovir Alafenamide Fumarate Tablets?	The firm has written and authorized protocol for the development Tenofovir Alafenamide Fumarate Vireof-N tablets 25mg.
52.	Have you performed Drug-excipient compatibility studies?	The firm has not performed Drug Excipient compatibility studies as composition of their product is similar to that of innovator product (VEMLIDY tablets 25mgfrom GILEAD Ontario Canada.
53.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution profile of their product with VEMLIDY 25mg batch # CBNKMD of GILEAD and found comparable to the innovator product.
54.	Do you have product development (R&D) section	The firm has product development (R&D) section with requisite manufacturing, storage and analysis facilities.
55.	Do you have necessary equipments available in product development section for development Tenofovir Alafenamide Fumarate Tablets?	The firm has all the necessary equipment available in product development section for the development of Tenofovir Alafenamide Fumarate tablets now, however, the product in question was manufactured in routine production area.
56.	Are the equipment in product development section qualified?	The equipments in product development section and production area are qualified.
57.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance / calibration / re-qualification program for the equipment used in PD section.
58.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff in PD section with proper knowledge and training in Product Development including 04 Pharmacists 05 MSc Chemistry and 01 M.Phil.
59.	Have you manufactured three stability batches for the stability studies of Tenofovir Alafenamide Fumarate Tablets required?	The firm has manufactured three stability batches as follows; **Tenofovir Alafenamide Fumarate 25mg tablets:** **Sr. No. / B. No. / Batch size** 1 / 001P / 5000 2 / 002P / 5000 3 / 003P / 5000 The tablets are packed in Alu Alu blisters with pack size 3 x 10's.
60.	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability batches is the number of tablets required per testing frequency and number of testing frequencies.
61.	Do you have complete record of production of stability batches?	The firm has complete records of production of stability batches. All log books are properly maintained.
62.	Do you have protocols for stability testing of stability batches?	The firm has detailed protocol for the stability testing of Tenofovir Alafenamide Fumarate tablets.
63.	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated method for testing of stability batches of finish product i.e. Tenofovir

		Alafenamide Fumarate tablets based on the API method of testing provided by the API manufacturer.
64.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	The firm has developed and validated method based on API manufacturer for testing of finished product, so method transfer studies were required.
65.	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Tenofovir Alafenamide Fumarate and the finished drug?	The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of the API (Tenofovir Alafenamide Fumarate) and the finished drug Vireof-N (Tenofovir Alafenamide Fumarate) tablets 25mg.
66.	Do your method of analysis stability indicating?	The firm's method of analysis is stability indicating as evidence by forced degradation studies and spiking studies of the two major impurities.
67.	Do your HPLC software 21CFR Compliant?	The HPLC software is 21CFR compliant as per record available with the firm.
68.	Can you show Audit trail reports on Tenofovir Alafenamide Fumarate testing?	Audit Trail on the testing reports on Tenofovir Alafenamide Fumarate API and Vireof-N tablets 25mg is available.
69.	Do you have some remaining quantities of degradation products and stability batches?	The firm has only remaining quantities of stability batches kept on real-time stability testing.
70.	Do you have stability batches kept on stability testing?	The firm has three lab scale batches kept on stability studies for real time stability testing. Currently 12 months studies have been completed with satisfactory results.
71.	Do you have valid calibration status for the equipment used in Tenofovir Alafenamide Fumarate Tablets production and analysis?	The firm has valid calibration status for the equipment used in Vireof-N (Tenofovir Alafenamide Fumarate) tablets 25mg production and analysis.
72.	Do proper and continuous monitoring and control are available for stability chamber?	The firm has adequate monitoring and control system for stability chambers.
73.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipments, personnel and utilities are GMP compliant.
74.	Any other query raised by PE&R Division: Confirmation of dissolution test results for all trial batches of applied formulation on US-FDA recommended dissolution parameters including RPM.	As per firm they have adopted Dissolution method as recommended by US-FDA. The medium is 50 mM Sodium Acetate buffer pH 4.5, Apparatus is USP type II, RPM is 75 which are same as recommended by USFDA. The sampling time is 30 mins which is the maximum time point mentioned on the website of USFDA under dissolution data, however the NDA document of VEMLIDY shows the sampling time to be 15 mins. The firm states that F2 was calculated in CDP at 10 mins because the drug was dissolved more than 90% within 5 mins which shows the formulation complies with innovator as well as US-FDA recommendation. The firm has also performed dissolution testing on an additional time point of 15 month of stability studies and observed the result at 15 minutes and found more than 90% release, which complies with innovator and US-FDA recommendations.

Conclusions:

8. On the basis of risk based approach the genuineness / authenticity of stability data including dissolution method submitted by the firm for registration of Vireof-N (Tenofovir Alafenamide Fumarate) Tablets 25mg is verifiable satisfactory level.
9. The related manufacturing area, equipments, personnel and utilities are GMP compliant and well suited for the manufacturing of Vireof-N (Tenofovir Alafenamide Fumarate) Tablets 25mg.
10. The case is submitted before Registration Board for decision please.

Decision (M-293): Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

Sr. No.	Deferred for :	Submitted following:
2.	Decision (M-293): Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.	Applicant has submitted stability studies data for following three batches at following time points: **Batches:** Batch No: P004, P005, P006 **Testing Frequency:** Initial: 1 month: real time plus accelerated. Sampling Time: 15 minutes Drug release at 15 minute sampling interval: Above 90% for all trials at Ist month, as per data submitted by the firm. However data submitted by the firm is in dates before the meeting was carried out & decision of the case was made.

Decision of 295th meeting: Deferred for clarification since the dissolution testing at 15 minutes time point for 2 batches was carried out before the date of conduction of 293rd meeting of Registration Board.

Firm's response: We would like to clarify that the new batches 004P, 005P & 006P were manufactured on 20th December, 2019 immediately after the Product specific Panel inspection held on 17th, December, 2019 on behalf of detailed discussion with panel members. We are also enclosing copy of Form-06 & consumption report of API (for your ready reference). Also it is our usual practice to perform product development activities before launching of the product. We hope that the above justification will be sufficient to clarify the situation.

Decision: Registration Board decided to approve registration of "Vireof-N 25mg Tablets (Tenofovir alafenamide (as fumarate)) by M/s. Macter International Limited, F-216, S.I.T.E, Karachi. Manufacturer will place first three commercial batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

f. Verification of stability study data

Commitment to follow Drug Specification Rules, 1978.	Yes

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Boschofen 400mg/100ml (Ibuprofen) Infusion by M/s. Bosch Pharmaceuticals, Korangi Industrial Area, Karachi.

Reference No: F.13-11/2017-PEC (Pt) dated 26th, December, 2019.
Investigation Date and Time: 8th July, 2020 (Afternoon).
Investigation Site: Factory premises of M/s. Bosch Pharmaceuticals, Korangi Industrial Area, Karachi.

Background:
Chairman Registration Board considered the applications of M/s Bosch Pharmaceutical, Bosch House 221, Sector 23, Korangi Industrial Area, Karachi for registration of Boshofen 400mg/100ml (Ibuprofen) Infusion and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

10. Dr. Rafeeq Alam Khan, Meritorious Professor, Dean Faculty of Pharmacy, Ziauddin University, Karachi. (Member Registration Board)
11. Dr. Sanam Kausar Jahan, Assistant Director, CDL, DRAP, Karachi.
12. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:
Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

S. No	Question	Observation by Panel
Q.No.1	Do you have documents confirming the import of API including approval from DRAP?	Firm has procured 0.4kg Ibuprofen from M/S Pharmagen ,Lahore
Q.No.2	What was the rationale behind selecting the particular manufacturer of API?	There is proper vendor qualification being implemented by the firm which includes GMP Status, provision of DMF, reference standard, impurity standards etc.
Q.No.3	Do you have documents confirming the import of reference standard and impurity standards?	The firm has obtained API reference standard from API manufacturer.
Q.No.4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for both APIs and working standards
Q.No.5	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has provided GMP certificate issued by Drug Regulatory Authority of Pakistan.
Q.No.6	Do you use API manufacturer method of testing for testing API?	The firm has used the manufacturer method of testing of API to carryout analysis.
Q.No.7	Do you have stability studies reports on API?	The firm has stability studies reports from API manufacturer conducted on 03 batches for accelerated and real time condition.
Q.No.8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability data of API provided by manufacturer is stability indicating and degradation products has been quantified.
Q.No.9	Do you have method for quantifying the impurities in the API?	The firm has used the analysis method provided by the manufacturer of API for quantification of impurities in API.

Q.No.10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm had arranged 0.4kg of Ibuprofen API out of which 0.07 kg was still available in firm .Remaining quantities of working standard and impurity standards were also available.
Q.No.11	Have you used pharmaceutical grade excipients?	The firm used pharmaceutical grade excipients.
Q.No.12	Do you have documents confirming the import of the used excipients?	The firm has proper documents for import of the used excipients.
Q.No.13	Do you have test reports and other records on the excipients used?	The firm has Analytical reports for all excipients used in product development of Boschofen infusion.
Q.No.14	Do you have written and authorized protocols for the development of applied product?	The firm had written and authorized protocol for development of Boschofen infusion .
Q.No.15	Have you performed Drug-excipients compatibility studies?	The firm has not performed Drug-excipients compatibility studies and stated that the qualitative composition of their product is similar to that of innovator's product and also stability studies have not shown any incompatibility or significant degradation.
Q.No.16	Have you performed comparative dissolution studies?	Not Applicable.
Q.No.17	Do you have product development (R&D) section	The firm has dedicated area for product development.
Q.No.18	Do you have necessary equipments available in product development section for development of applied product?	The firm has necessary equipment for manufacturing of stability batches.
Q.No.19	Are the equipments in product development section qualified?	All equipment in product development section is qualified.
Q.No.20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance /calibration plan for equipment in product development section and maintenance /calibration are carried out accordingly.
Q.No.21	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff in product development section with relevant work experience.
Q.No.22	Have you manufactured three stability batches for the stability studies of applied product as required?	Firm has manufactured three stability batches for the stability studies of Boschofen infusion. Batch No : TR-BFI-02 Batch No : TR-BFI-03 Batch No : TR-BFI-04
Q.No.23	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability batches is the number of vials per testing and the number of vials required for whole stability testing.
Q.No.24	Do you have complete record of production of stability batches?	The firm has complete record for manufacturing of three batches of Boschofen Infusion.
Q.No.25	Do you have protocols for stability testing of stability batches?	The firm has protocols for testing of stability batches.

Q.No.26	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated the method for the testing of Boschofen infusion.
Q.No.27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable
Q.No.28	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	The firm has complete record of qualification of equipment's /instruments used for test and analysis of API and Boschofen infusion .
Q.No.29	Is your method of analysis stability indicating?	The method of analysis for finished product is stability indicating .
Q.No.30	Is your HPLC software is 21CFR compliant? (Details of Model, software, description/version (i.e. software validation report for 21 CFR Part 11 compliance including audit trail, password protection, date & time lock and user authorizations shall also be reported.))	The HPLC used for analysis of stability batches is Water e2650 with auto sampler and gradient system and it was 21CFR compliant as per record available with firm.
Q.No.31	Can you show Audit Trail reports on stability studies testing?	The firm has demonstrated the audit trail reports for the data submitted for Boschofen infusion.
Q.No.32	Do you have some remaining quantities of degradation products and stability batches?	The firm had some remaining quantities of stability batches.
Q.No.33	Do you have stability batches kept on stability testing?	The firm has completed accelerated studies whereas, samples are kept for real time stability studies.
Q.No.34	Do you have valid calibration status for the equipments used in production and analysis?	The firm has valid calibration status for all the equipment /instruments used in production and analysis of the Boschofen infusion .
Q.No.35	Do proper and continuous monitoring and control are available for stability chamber? (Number and utilized/available capacity of stability chambers shall also be reported.)	The firm has two separate Stability chambers for Real time and accelerated studies which are equipped with data loggers.
Q.No.36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area ,Equipment ,personnel and utilities can be rated as cGMP compliant

Conclusions:

1. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Boshofen 400mg/100ml (Ibuprofen) Infusion is verifiable to satisfactory level.
2. The related manufacturing area, equipment, personnel and utilities are GMP compliant and well suited for the manufacturing of Boshofen 400mg/100ml Infusion.

Decision: Registration Board decided to approve registration of "Boschofen 400mg Infusion (Ibuprofen) by M/s Bosch Pharmaceuticals (Pvt.) Ltd. Bosch House 221, Sector 23, Korangi Industrial Area, Karachi, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

	Details of fee submitted	PKR 50,000/-: 09-05-2019
	The proposed proprietary name / brand name	**Xiga-Met 5/850 Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Dapagliflozin as propanediol monohydrate …… 5mg Metformin HCl ….. 850mg
	Pharmaceutical form of applied drug	Film coated tablets
	Pharmacotherapeutic Group of (API)	Drugs Used in diabetes, combinatiom of oral blood glucose –lowering drugs
	Reference to Finished product specifications	Manufacturer Specification
	Proposed Pack size	10’s,14’s, 20’s, 28’s, & 30’s
	Proposed unit price	As per innovator price
	The status in reference regulatory authorities	Xigduo 5/850mg of EMA approved
	For generic drugs (me-too status)	Dapa-Met Tablet 5mg/850mg of M/s Hilton Pharma
	Name and address of API manufacturer.	**Dapagliflozin propanediol monohydrate:** M/s Fuxin Long Rui Pharmaceutical Co. Ltd, Fluoride Industrial park, Fuxin City, Liaoning Province, China **Metformin HCl**: M/s Wanbury Limited, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.
	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol and Finished product analytical method validation report.
	Remarks: The Finished product analytical method validation report has been prepared and approved in 08-2019, while as per relevant guidelines the method validation has to be performed before commencing stability studies. Firm has committed to perform test method validation before commencing of stability studies for future developed products.	

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has not submitted comparative dissolution profile of applied product against the reference product, instead firm has submitted CDP data for the higher strength i.e., Xiga-met 5/1000 against the reference product Xigduo.

STABILITY STUDY DATA

Manufacturer of API	**Dapagliflozin propanediol monohydrate:** M/s Fuxin Long Rui Pharmaceutical Co. Ltd, Fluoride Industrial park, Fuxin City, Liaoning Province, China **Metformin HCl**: M/s Wanbury Limited, Andhra Pradesh, India		
API Lot No.	**Dapagliflozin propanediol monohydrate:** 180903 **Metformin HCl**: MT13881218		
Description of Pack (Container closure system)	Alu-Alu blister in unit carton		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	XMA-T5-19	XMA-T6-19	XMA-T7-19
Batch Size	2000 tabs.	2000 tabs.	2000 tabs.
Manufacturing Date	03-2019	03-2019	03-2019
Date of Initiation	04-2019	04-2019	04-2019
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Yes
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	**Dapagliflozin propanediol monohydrate:** Firm has submitted copy of invoice (invoice# HN190124-C) cleared by DRAP Lahore office dated 01-02-2019 specifying import 5Kg Dapagliflozin (batch#180903). **Metformin HCl:** Firm has submitted copy of invoice (invoice# 92002215) cleared by DRAP Lahore office dated 19-12-2018 specifying import 1.3Kg Metformin HCl (batch# MT13881218).

6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The stability studies upto 3rd month have been performed with limits of Q = 70%, while at 6th month firm has rectified the specifications as Q = 80%.
- Firm has applied have applied Paddle speed = 100 RPM in dissolution parameters for zero & 3rd month stability study but has revised our Product test method (PTM) with agitation speed of 75 rpm and 6th month stability study was performed as per revised PTM.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Xiga-Met 5/1000 Tablet & Xiga-Met 5/850 Tablet by M/s CCL Pharmaceuticals (Pvt.) Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore.

Date of Inspection	2nd – 3rd July, 2020
Purpose of Inspection	Verification of authenticity of stability data for purpose of registration of drugs with reference DRAP's letter no. F.1-2/2020-PEC dated 22-04-2020.
Name of Inspector	01. Dr. Muzammal Waheed Director, DTL, Faisalabad. 02. Ms. Aisha Irfan Area FID, DRAP, Lahore. 03. Hafiz Ahsan Assistant Director, DRAP, Islamabad.

Q. No.	Contents	Remarks
37	Do you have documents confirming the import of Dapagliflozin Propanediol Monohydrate and Metformin HCl including approval from DRAP?	**Dapagliflozin Propanediol Monohydrate:** The firm has imported Dapagliflozin Propanediol Monohydrate raw material vide invoice no. HN190124-C dated 24-01-2019 from M/s. Fuxin Long Rui Pharmaceutical Co., Ltd., China and got DRAP approval vide no. 1757/2019/DRAP dated 01-02-2019. **Metformin Hydrochloride:** The firm has imported Metformin HCl raw material vide invoice no.

		92002215 dated 10-12-2018 from M/s. Wanbury Ltd., India and got DRAP approval vide no. 16536/2018/DRAP dated 19-12-2018.
38	What was the rationale behind selecting the particular manufacturer of API?	The firm selected API manufacturers based on their vendor evaluation mechanism.
39	Do you have documents confirming the import of reference standard and impurity standards?	The firm imported Dapagliflozin Propanediol Monohydrate working standard from API supplier dated 27-06-2019. The firm imported Metformin HCl working standard and impurity standard (Metformin HCl Compound A) from API supplier dated 28-05-2019.
40	Do you have certificate of Analysis of the API, reference standards and impurity standards?	**Dapagliflozin Propanediol Monohydrate:** The firm has certificates of analysis for API and working standard. **Metformin HCl:** The firm has certificates of analysis for API, working standard and impurity standard.
41	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	**Dapagliflozin Propanediol Monohydrate**: The firm has valid GMP Certificate of M/s. Fuxin Long Rui, China issued by Fuxin Food & Drugs Administration, China valid till 27-09-2020. **Metformin HCl:** The firm has valid GMP Certificate of M/s. Wanbury Ltd., India issued by Directorate of Drugs Control Administration, Andhra Pradesh valid till 06-02-2022.
42	Do you use API manufacturer method of testing for testing APIs?	The firm has used API manufacturer's method of testing. *Moreover, the firm was advised to develop method transfer protocol for testing APIs.*
43	Do you have stability studies reports on APIs?	The firm had stability studies reports of APIs from API manufacturer: **Dapagliflozin Propanediol Monohydrate**: Accelerated (40ºC±2ºC/RH75%±5%) –6 months Real time (30ºC±2ºC/RH65%±5%) – 24 months **Metformin HCl:** Accelerated (40ºC±2ºC/RH75%±5%)– 6 months Real time (30ºC±2ºC/RH75%±5%) – 60 months
44	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The API manufacturer had performed stability as per SIM method and Metformin HCl Compound A impurity had been quantified.
45	Do you have method for quantifying the impurities in the API?	The firm had testing method to quantify Metformin HCl Compound A impurity as provided by API manufacturer.
46	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Nil.
47	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients including Avicel pH 102, Klucel EXF, Polyvinylpyrolidone, Aerosil 200, Magnesium stearate, Opadry AMB purple (88A200006) and Opadry white (85G28725).

48	Do you have documents confirming the import of the used excipients?	The firm had necessary documents confirming the import of the used excipients.
49	Do you have test reports and other records on the excipients used?	The firm had certificates of analysis of the excipients used.
50	Do you have written and authorized protocols for the development of Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet?	The firm had written and authorized protocols for the development of Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet.
51	Have you performed Drug-excipient compatibility studies?	The firm had performed drug-excipient compatibility studies under stress conditions of 60°C ± 2°C / RH 75% ± 5%.
52	Have you performed comparative dissolution studies?	The firm had performed comparative dissolution studies for Xiga-Met 5/1000 Tablet with Xigduo 5/1000 Tablet, manufactured by M/s. AstraZeneca, USA using paddle apparatus at 100rpm in 900ml of the following dissolution mediums: 4. HCl buffer 5. Acetate buffer 6. Phosphate buffer
53	Do you have product development (R&D) section	The firm had product development (R&D) section.
54	Do you have necessary equipment available in product development section for development of Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet?	Product development section has necessary equipment to develop Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet.
55	Are the equipment in product development section qualified?	The available equipment in product development section were qualified *however, the firm was advised to perform qualifications of equipment from authorized bodies.*
56	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm had proper maintenance / calibration / re-qualification program for the equipment used in product development section.
57	Do you have qualified staff in product development section with proper knowledge and training in product development?	Yes.
58	Have you manufactured three stability batches for the stability studies of Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet as required?	The firm has manufactured three initial stability batches for the stability studies of Xiga-Met 5/850 Tablet with batch numbers i.e. XMA-T5-19, XMA-T6-19 and XMA-T7-19 and of Xiga-Met 5/1000 Tablet with batch numbers i.e. XMB-T5-19, XMB-T6-19 and XMB-T7-19. The accelerated studies were done in Climatic test chamber (Model: HPP-749; Making Memmert, Germany) and long-term studies were done in Climatic test chamber (Model: HPP-750, Making Memmert, Germany).
59	Do you have any criteria for fixing the batch size of stability batches?	The firm had followed in-house SOP for fixing the batch size of stability batches.

<table>
<tr><td>60</td><td>Do you have complete record of production of stability batches?</td><td>The firm had record of production of stability batches:
<table><tr><th>Batch No.</th><th>Batch Size</th><th>Mfg. Date</th></tr><tr><td colspan="3">Xiga-Met 5/850 Tablets</td></tr><tr><td>XMA-T5-19</td><td>2,000</td><td>03-2019</td></tr><tr><td>XMA-T6-19</td><td>2,000</td><td>03-2019</td></tr><tr><td>XMA-T7-19</td><td>2,000</td><td>03-2019</td></tr><tr><td colspan="3">Xiga-Met 5/1000 Tablets</td></tr><tr><td>XMB-T5-19</td><td>2,000</td><td>03-2019</td></tr><tr><td>XMB-T6-19</td><td>2,000</td><td>03-2019</td></tr><tr><td>XMB-T7-19</td><td>2,000</td><td>03-2019</td></tr></table></td></tr>
<tr><td>61</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm had protocols for testing of stability batches.</td></tr>
<tr><td>62</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm had developed method of Xiga-Met 5/850 Tablet (RD-PTM-16 C) and Xiga-Met 5/1000 Tablet (RD-PTM-17 C) and validated the test method (CCL-AMVR-220) for testing of stability batches.</td></tr>
<tr><td>63</td><td>Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?</td><td>Not Applicable.</td></tr>
<tr><td>64</td><td>Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Dapagliflozin Propanediol Monohydrate and Metformin HCl API and the finished drug?</td><td>The firm has documents confirming the qualification of equipment / instruments being used in the test and analysis of APIs and the finished product. However, the firm was advised to qualify the equipments / instruments from authorized bodies.</td></tr>
<tr><td>65</td><td>Do your method of analysis stability indicating?</td><td>The firm had conducted stress testing of finished product.</td></tr>
<tr><td>66</td><td>Do your HPLC software 21CFR Compliant?</td><td>API testing, FPP testing and compatibility testing had been conducted on HPLCs which were not 21 CFR compliant.
However, the firm has procured 21 CFR part 11 compliant HPLC.</td></tr>
<tr><td>67</td><td>Can you show Audit trail reports on Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 testing?</td><td>Initially, audit trail was not enabled. However, log of data was available on the HPLCs. The data was also checked through hard copies of chromatograms.
However, 6 months onwards stability studies were performed on audit trail active software.</td></tr>
</table>

<table>
<tr><td>68</td><td>Do you have some remaining quantities of degradation products and stability batches?</td><td>The firm had remaining quantities of stability batches kept on stability testing:

<tr><td>72</td><td>Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?</td><td>Requisite facilities are satisfactory and GMP compliant (DRAP ref. no. 118/2019-DRAP (AD-789112-762) dated 13-05-2019 valid for 3 years).</td></tr>
</table>

VERIFICATION:

(ii) The firm selected M/s. Fuxin Long Rui Pharmaceutical Co. Ltd., China for Dapagliflozin Propanediol Monohydrate based on their vendor evaluation mechanism. Panel verified following documents regarding source:

- ADC attested invoice
- Trial cards

RECOMMENDATIONS:

Based on the area inspected, the technical personnel met and the documents reviewed, and considering the findings of inspection, it is concluded that M/s. CCL Pharmaceuticals (Pvt.) Ltd., at 62 Industrial Estate, Kot Lakhpat, Lahore, Pakistan have conducted stability studies of the following products. However few points are being recorded for the kind perusal of the Drug Registration Board, against questions 6, 19, 28, 30, 31 and 35 of the check list.

Decision: Registration Board decided to approve registration of "Xiga-Met 5/850 Tablet & Xiga-Met 5/1000 Tablet by M/s CCL Pharmaceuticals (Pvt.) Ltd, 62-Industrial Estate, Kot Lakhpat, Lahore-54770, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

d. Exemption from onsite verification of stability data

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Documents To Be Provided	Status
COA of API	• Copy of COA for Linagliptin (Batch# 161031) from M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of DML (Liao20150233) for the M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China, issued by Liaoning province Food & Drug Administration valid upto 20-12-2022.
Protocols followed for conduction of stability study and details of tests.	Yes

Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	Commercial invoice for import of Linagliptin approved by DRAP office, Lahore has been submitted as per following details

Batch No.	Invoice No.	Quantity Imported.	Date of approval by DRAP
161031	HK1701121-B	80gm	20-03-2017

All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Lina tablets 5mg and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:
Date of submission: 09-05-2019 (R&I no. 5661)

Administrative Portion

20.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Lansodex capsule 30mg and 60mg, Sofos Tablet 400/90mg and 400mg", which was conducted on 10.02.2018, and was presented in 287th meeting of Registration Board. Following observations were reported in the report: iv. The HPLC software is 21CFR compliant and having certificates of Compliance by USFDA v. The firm has audit trail Reports on testing. vi. Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	Commercial invoice for import of Linagliptin approved by DRAP office, Lahore has been submitted as per following details

Batch No.	Invoice No.	Quantity Imported.	Date of approval by DRAP
161031	HK1701121-B	80gm	20-03-2017

22.	Documents for the procurement of reference standard and impurity standards.	No document has been submitted to establish the procurement of reference standard and impurity standards.
23.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted copy of DML (Liao20150233) for the M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China, issued by Liaoning province Food & Drug Administration valid upto 20-12-2022.
24.	Mechanism for Vendor pre-qualification	• The firm has submitted document of "Rationale for Selection of manufacturer of API 'Linagliptin'"

<table>
<tr><td>25.</td><td>Certificate of analysis of the API, reference standards and impurity standards.</td><td>The firm has submitted certificate of analysis for API, working standard & impurity standards.</td></tr>
<tr><td>26.</td><td>Documents for the procurement of excipients used in product development?</td><td>The firm has submitted photocopy of Purchase Order/Invoices for the procurement of excipients used in product development</td></tr>
<tr><td>27.</td><td>List of qualified staff involved in product development with relevant experience.</td><td>The firm has submitted List of qualified staff involved in Research & product development & scientific Development and Analytical services comprising of 19 technical members.</td></tr>
<tr><td colspan="3">Production Data</td></tr>
<tr><td>28.</td><td>Authorized Protocols/SOP for the development & stability testing of trial batches.</td><td>• The firm has submitted authorized photocopy of Product Development Protocol & Stability protocols for applied product.</td></tr>
<tr><td>29.</td><td>Complete batch manufacturing record of three stability batches.</td><td>The firm has submitted photocopy of Batch Manufacturing Record and Batch Packaging Record of three stability batches for the stability studies of Lina 5mg tablet such as.

		• Firm has submitted f2 factor value for each time point.
38.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	• Firm has submitted method audit trail reports of stability studies of applied formulations.

Remarks of Evaluator:

Sr. #	Observations	Response of Firm
1	Concentration of sample solution (0.005mg/ml) is different from standard solution (0.01mg/ml) as written in finished product specifications	The analysis is performed for sample solutions and standard solutions in dissolution is 0.005mg/ml as already mentioned in whole stability studies testing records. In finished product specifications, by typing mistake, 2ml is written instead of 1 ml which lead to read as 0.01mg/ml instead of 0.005mg/ml. (It is just typing mistake and is rectified)
2	Retention time of 1st Month stability studies is about 5 mints whereas on all other time points is about 3 mints	Retention time at whole stability studies is about 3 mints instead of 1st Month time point analysis, which is about 5 minutes. **Remarks:** The pressure of HPLC column was increased at 1st Month analysis time point due to which retention time for both sample and standard solution was increased to about 5 minutes from 3 minutes. After that we rectified it and separate column is specified for whole stability studies of said product. Further, more analytical method validation is performed and retention time during AMV was also about 3 minutes.
3	Concentration of sample solution (0.005mg/ml) is different from standard solution (0.01mg/ml) in dissolution at 1st month time point analysis	As earlier discussed in point 3, In finished product specifications, by typing mistake, 2ml is written instead of 1 ml. The problem was rectified and analysis at all time points were performed at 0.005mg/ml concentration after this time point.

Decision of 296th meeting: Registration Board decided to approve registration of "Lina 5mg tablets (Linagliptin)" by M/s Jenner Pharmaceuticals (Pvt) Ltd, 28-KM Lahore-Sharaqpur Road, District Sheikhupura. Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Registration letters shall be issued after decision on comments of IPO regarding patent matter for the applied formulation.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets and provided the following documents in conjunction with the checklist approved by the Registration Board.		
15.	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection reports of their product "Tapendol tablets (Tapentadol)", which was presented in 289th meeting of Registration Board held on 14-16 May, 2019 **Observations:** Panel has observed that firm has improved as follows: • The HPLC software is 21CFR compliant as per record available with the firm. • Audit trail on the testing reports is available. • Firm has software for monitoring of stability chambers. **Decision:** Registration Board decided to approve registration of "Tapendol tablets 50mg, 75mg & 100mg by M/s The Searle Company Ltd., Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
16.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Submitted
17.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
18.	Stability study data of API from API manufacturer	Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65%±5%RH) stability studies reports of three batches.
19.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Metformin HCl:** Copy of GMP certificate issued by Food & Drug Control Administration, Gujarat state, India, in the name of M/s AARTI Drugs Ltd. (Unit-II), Gujarat State, India valid upto 19-03-2023. **Empagliflozin:** Copy of GMP certificate (certificate# AH20150172) issued by Anhui Drug administration, China for the M/s Anhui Youcare Kaiyue Pharmaceuticals Co., Ltd. China valid upto 03-01-2020 has been submitted. Copy of DML (20160049) issued by Anhui Drug administration, China for the M/s Anhui Youcare Kaiyue Pharmaceuticals Co., Ltd. China valid upto 13-12-2020 has also been submitted.
20.	Documents for the procurement of API with approval from DRAP (in case of import).	**Metformin HCl:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 29-03-2019 Invoice# EXP/2657/18-19 Qty. 3000Kg **Empagliflozin:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 01-01-2019 Invoice# TM20181225L Batch# 2018001002 Qty. 1Kg
21.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted authorized protocols for the development of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
22.	Method used for analysis of FPP	Submitted
23.	Drug-excipients compatibility studies (where applicable)	Firm has referred to the formulation of innovator product for establishing drug-excipient compatibility.
24.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.

25.	Record of comparative dissolution data (where applicable)	• Firm has performed comparative dissolution studies in three media including (0.1 N HCl) pH 1.2, (Acetate Buffer) pH 4.5 and (Phosphate Buffer) pH 6.8 buffers against reference product Synjardy tablet for all the concluding f2 value within acceptable limit.
26.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted for Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
27.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
28.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

Previous Remarks of Evaluator:

- Salt from of Metformin is not mentioned in Form 5-D.
- Firm has submitted that "the material Empagliflozin" having batch no. D5284-15-001 from "Zhejiang Huahuai Pharmaceutical Co., Ltd. had a retest date of May-2017. As per our SOP QAD/III/0020, we have retested the above mentioned material on date 29-04-2017. The results complies with specification, on the basis of the satisfactory result we have extended its retest date upto 28-04-2018." Scientific rationale/justification shall be submitted for extending retest date to one year on the basis of analysis performed by the firm.
- Content uniformity test has not been performed for Empagliflozin to determine uniformity of dosage unit.
- Submitted GMP certificates of API manufacturers, does not mention the names of API being imported.

STABILITY STUDY DATA			
Drug	Jarzin-Met 5/1000mg Tablets		
Name of Manufacturer	M/s The Searle Company Limited.		
Manufacturer of API	**Empagliflozin**: Zhejiang Huahai Pharmaceutical Co., Ltd **Metformin HCl**: M/s Aarti Drugs Limited, plot no. 211 & 213, Road no. 2, GIDC, Sarigam, Gujarat, India.		
API Lot No.	**Empagliflozin**: D5284-15-001 **Metformin**: MEF/17091410		
Description of Pack (Container closure system)	Alu-Alu Blister in unit carton		
Stability Storage Condition	**Real Time:** 30˚C ± 2˚C / 75% ± 5%RH **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	**Real Time:** 24 Months **Accelerated:** 6 Months		
Frequency	**Real Time:** 0, 3, 6 (Months) **Accelerated:** 0, 3, 6 (Months)		
Manufacturing date	Mar 2018	Apr 2018	Apr 2018
Date of Initiation	May 2018	May 2018	May 2018
Batch Nos.	**18PD-084**	**18PD-087**	**18PD-098**
Batch Size	2,500 Tablets	2,500 Tablets	2,500 Tablets
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT
(M/s The Searle Company Limited.)

DOCUMENTS TO BE PROVIDED	**STATUS**
COA of API	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Metformin HCl:** Copy of GMP certificate issued by Food & Drug Control Administration, Gujarat state, India, in the name of M/s AARTI Drugs Ltd. (Unit-II), Gujarat State, India valid upto 19-03-2023. **Empagliflozin:** Copy of GMP certificate (Certificate# ZJ20180073) issued by China Food & Drug Administration, in the name of M/s Zhejiang Huahai Pharmaceutical Co., Ltd valid upto 25-06-2023.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	

Documents confirming import of API etc.	**Metformin HCl:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 09-10-2017. Batch# MEF/17091410 (Qty. 2000 Kg) **Empagliflozin:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 07-03-2017 Batch# D5284-15-001 (Qty. 300gm)
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

Remarks of Evaluator:

- Salt form of Metformin is not mentioned in Form 5-D.
- The acceptance criteria of dissolution test submitted by firm for applied formulation is NLT 75% (Q) after 30 minutes for both Metformin HCl & Empagliflozin. While the dissolution specification of the innovator product i.e., "Synjardy", revealed in Clinical Pharmacology & Biophartmaceutics review by USFDA (Ref: https://www.accessdata.fda.gov/drugsatfda_docs/nda/2015/206111Orig1s000ClinPharmR.pdf) declares the dissolution specification for 20 minutes for all strengths of both drug substances i.e., Metformin HCl & Empagliflozin.
- Firm has submitted that "the material Empagliflozin" having batch no D5284-15-001 from "Zhejiang Huahuai Pharmaceutical Co., Ltd. had a retest date of May-2017. As per our SOP QAD/III/0020, we have retested the above mentioned material on date 29-04-2017. The results complies with specification, on the basis of the satisfactory result we have extended its retest date upto 28-04-2018." Scientific rationale/justification shall be submitted for extending retest date to one year on the basis of analysis performed by the firm.
- Upon communication of above observation the firm has referred to following definition of "re-test period", from Annex 2 (Stability testing of active pharmaceutical ingredients and finished pharmaceutical products) of WHO Technical Report Series, No. 953, 2009:

re-test period

"The period of time during which the API is expected to remain within its specification and, therefore, can be used in the manufacture of a given FPP, provided that the API has been stored under the defined conditions. After this period a batch of API destined for use in the manufacture of an FPP should be re-tested for compliance with the specification and then used immediately. **A batch of API can be re-tested multiple times and a different portion of the batch used after each re-test, as long as it continues to comply with the specification.** For most substances known to be labile, it is more appropriate to establish a shelf-life than a re-test period. The same may be true for certain antibiotics."

- Moreover, firm has submitted that they have not performed "Residual solvents testing" & "Chiral impurity testing" at the time of re-test since both these are process related impurities and if they are within specification than there is no need to further analyze at stability & at re-test.

- It is pertinent to mention that as per applicable guidelines, the API could be used immediately (within one month) after the retest, but one time retest analysis could not be used to extend the shelf life of the API in term of retest date.

- Submitted GMP certificates of API manufacturers, does not mention the names of API being imported.

Decision of 293rd meeting: Registration Board deferred the cases for following reasons:

- Clarification/Justification shall be submitted by the firm for extending shelf life of the API for 1 year on the basis of one-time retest.
- Stability studies of Empagliflozin API from the API manufacturer.
- Submission of revised Form 5 with correct composition, declaring the salt form of Metformin.

Firm's response:

- Firm has referred to their SOP of "Retesting of Raw materials".

- For Empagliflozin firm has submitted both accelerated stability studies (6 months) & long-term stability studies report (36 months) of three batches from the API manufacturer.
- Revised Form 5 D with correct composition, declaring the salt form of Metformin as "Metformin HCl" has been submitted.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION		
Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet and provided the following documents in conjunction with the checklist approved by the Registration Board.		
15.	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection reports of their product "Tapendol tablets (Tapentadol)", which was presented in 289th meeting of Registration Board held on 14-16 May, 2019 **Observations:** Panel has observed that firm has improved as follows: • The HPLC software is 21CFR compliant as per record available with the firm. • Audit trail on the testing reports is available. • Firm has software for monitoring of stability chambers. **Decision:** Registration Board decided to approve registration of "Tapendol tablets 50mg, 75mg & 100mg by M/s The Searle Company Ltd., Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
16.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Submitted
17.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
18.	Stability study data of API from API manufacturer	**Metformin HCl:** Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65%±5%RH) stability studies reports of three batches. **Empagliflozin:** Firm has submitted both stability studies & long term stability studies reports of three batches
19.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Metformin HCl:** Copy of GMP certificate issued by Food & Drug Control Administration, Gujarat state, India, in the name of M/s AARTI Drugs Ltd. (Unit-II), Gujarat State, India valid upto 19-03-2023. **Empagliflozin:** Copy of GMP certificate (Certificate# ZJ20180073) issued by China Food & Drug Administration, in the name of M/s Zhejiang Huahai Pharmaceutical Co., Ltd valid upto 25-06-2023.
20.	Documents for the procurement of API with approval from DRAP (in case of import).	**Metformin HCl:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 09-10-2017. Batch# MEF/17091410 (Qty. 2000 Kg) **Empagliflozin:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 07-03-2017 Batch# D5284-15-001 (Qty. 300gm)
21.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted authorized protocols for the development of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
22.	Method used for analysis of FPP	Submitted
23.	Drug-excipients compatibility studies (where applicable)	Firm has referred to the formulation of innovator product for establishing drug-excipient compatibility.
24.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet

25.	Record of comparative dissolution data (where applicable)	• Firm has performed comparative dissolution studies for 5/1000mg tablet in three media including (0.1 N HCl) pH 1.2, (Acetate Buffer) pH 4.5 and (Phosphate Buffer) pH 6.8 buffers against reference product Synjardy tablet for all the concluding f2 value within acceptable limit.
26.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted for Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
27.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
28.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
Remarks of Evaluator^{II}:		
Decision: Registration Board decided to approve registration of "Jarzin-Met 5/1000mg Tablets, Jarzin-Met 5/500mg Tablets, Jarzin-Met 12.5/850mg Tablets, Jarzin-Met 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets and Jarzin-Met 5/850mg Tablets by M/s The Searle Company Limited F-319 S.I.T.E. Karachi, Pakistan. Manufacturer will place first three commercial batches of all 6 products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Esli 200mg & 800mg tablets and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

20.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "HILVEL 400mg + 100mg (Sofosbuvir +Velpatasvir)", which was conducted on 14th December, 2017 and was presented in 277th meeting of Registration Board held on 27-29th December, 2017. Registration Board decided to approve registration of "HILVEL 400mg / 100mg (Sofosbuvir + Velpatasvir" by M/s. Hilton Pharma (Pvt.) Ltd., Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Following two observations were reported in the report: iv. The HPLC software is 21 CFR compliant. v. Audit trail on the testing reports of Hilvel Tablets 400mg+100mg is available. vi. Adequate monitoring and control are available for stability chamber. Chamber are controlled and monitored through software having alarm system for alerts as well.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of Form 6 signed & stamped by ADC DRAP, Karachi dated 08-06-2017 for the import of Eslicarbazepine acetate from M/s CTX Lifesciences Pvt. Ltd., Surat, Gujarat, India, has been submitted. **Batch No.** | **Invoice No.** | **Quantity Imported.** 17EA00012 | EL/2021700092 | 2Kg
22.	Documents for the procurement of reference standard and impurity standards.	Firm has submitted a non-commercial invoice from M/s CTX Lifesciences Pvt. Ltd., Surat, Gujarat, India for the import of 1000mg of working standard
23.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	• The firm has provided copy of GMP ceretificate (Certificate # 19061470) issued to M/s M/s CTX Lifesciences Pvt. Ltd., Surat, Gujarat, India by Hubeii Food & Drug Control Administration Gujarat, valid Up to 01-07-2022.
24.	Mechanism for Vendor pre-qualification	• The firm has submitted photocopy of "SOP for Selection of manufacturer for API/Excipient and Procurement Procedure", SOP No: PDV-FM-068 with effective date 02-03-2018. Version no: 01 • Copy of "Vendor's Audit form" filled for M/s CTX Lifesciences Pvt. Ltd., Surat, Gujarat, India
25.	Certificate of analysis of the API, reference standards and impurity standards	• The firm has submitted certificate of analysis for API (Batch# 17EA00012), working standard (Batch#WS/EA/03) for Eslicarbazepine acetate.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Trip-Lat 60mg & 90mg tablets and provided the following documents in conjunction with the checklist approved by the Registration Board.

15.	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection reports of their product "Saferon tablets (Sofosbuvir 400 mg)", which was presented in 278th meeting of Registration Board held on 29-31st Jan, 2018 **Observations:** Panel has observed that firm has improved as follows: • Floor has been renovated and painted with epoxy paint (anti-bacterial). • Old windows were replaced with double glazed windows.

<table>
<tr><td></td><td></td><td>• Special Aluminium fixtures with rounded edges were installed.
• Upgraded HVAC with pressure differentials was provided.
• Firm has 06 tablet compression machines with capability of producing double layered tablets.
Keeping in view improvements made by the firm as identified in the previous inspection, panel recommends the facilities of the firm for manufacturing of Saferon (Sofosbuvir 400mg) tablets and give rating of very Good.
Decision: Registration Board decided to approve registration of "Saferon (Sofosbuvir 400mg) tablets by M/s Wilson Pharmaceuticals, I-9 Industrial Area, Islamabad. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.</td></tr>
<tr><td>16.</td><td>Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.</td><td>Submitted</td></tr>

25.	Record of comparative dissolution data (where applicable)	• Firm has performed comparative dissolution studies in three media including (0.1 N HCl) pH 1.2, (Acetate Buffer) pH 4.5 and (Phosphate Buffer) pH 6.8 buffers against reference product Brilinta tablet for both strengths concluding f2 value within acceptable limit.
26.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
27.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches of Trip-Lat 60mg & 90mg tablets
28.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
Remarks of Evaluator[II]: • Submitted batch manufacturing record declare use of 3% overage of API.		
Decision: Registration Board decided to approve registration of "Tri-Plat Tablets 60mg (Ticagrelor) and Tri-Plat Tablets 90mg (Ticagrelor) by M/s Wilson's Pharmaceuticals. 387-388, I-9, Industrial Area, Islamabad. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IV-A conditions.		

Case no. 07 Applications on Form 5F

9.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice (No. CYI18311) attested by DRAP Karachi office dated specifying import of Ticagrelor (2Kg) of batch# RD-TG- 201810081.
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Observation	**Firm's response**
Justify the dissolution specification NLT 80%(Q) after 45 minutes, since the USFDA chemistry review document of the innovator product specify dissolution testing at two points i.e. NLT (Q) at 45 minutes and NLT (Q) at 60 minutes. • USFDA guidelines "dissolution testing of Immediate release solid oral dosage form" recommends that for slowly dissolving or poorly water soluble drugs, a two point dissolution specification, one at earlier time to include a dissolution range (a dissolution window) and the other at a later point (30, 45 or 60 minutes) to ensure 85% dissolution, is recommended to characterize the quality of the product. The innovator product has also used the same approach and selected two time points for dissolution, justify how your finished product specification without a test for measure of dissolution range at 45 minutes & at 60 minutes to ensure 85% drug release be considered similar to that if innovator product. If your product shows more than 85% release in 45 minutes, how it can be considered similar with innovator product in terms of drug release	• As per USFDA guidelines *"dissolution testing of Immediate release solid oral dosage form"* Two time point dissolution analysis is recommended for development studies of BCS class II drugs and after development the final dissolution specifications will be set while the Ticagrelor falls in BCS class IV and many pharmacopeal monograph of BCS class IV and II available in pharmacopeia having only one time interval for dissolution test i.e. Clarithromycin , Leflunomide - • Furthermore, According to FDA chemistry review, the agency recommend the applicant (Innovator) to submit a supplement to set the final acceptance criteria for dissolution testing. • It is also mentioned in FDA reviews of Innovator data that the product shows consistent results at 45 minutes and the agency recommend to revised the proposed dissolution • To ensure the release pattern of SAMI product same as Innovator product, Comparative dissolution against innovator at different time point (i-e 45 and 60 minutes) has been performed and both products achieve the dissolution more than 80%(Q) after 45 minutes.**)** • We have also done testing at both time intervals i.e. 45 & 60 minutes at 9th month stability study at long term on stability batches • On the basis of above we have set the specification for dissolution i-e NLT 80% (Q) at 45 minutes.

Decision: Registration Board deferred the applications of Taglor 60mg Tablet & Taglor 90mg tablet and directed the firm to submit dissolution testing data with time pints of 45 minutes & 60 minutes at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Canzin tablets", which was conducted on 14-03-2019, and was presented in 289th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR Compliant. \ ✓ Audit trail on testing reports is available.
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	• Copy of GMP certificate (No. 181529) issued by the Jiangsu Drug Administration in the name of M/s Fermenta Biotech Ltd., India Plot no. Z-109, B& C, SEZ-II, Dahej, Tal-Vagra, City Dahej, Dist. Bharuch, Gujarat state, India has been submitted which was valid upto 02-01-2020.
9.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice (No. RV1002100166) attested by AD DRAP Karachi dated 09-04-2019, for import of 0.2Kg of Cholecalciferol (batch# CLC0419019)
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

- Firm has used 15% overage in the master formulation and submitted following justification for it:
  "Vitamin D3 is a heat sensitive material, when used as an active ingredient, cannot be terminally sterilized therefore subjected to filtration through microbial retentive materials. It is aseptically filled and sterilized by filtration by using 0.2um filter which have high chances of clogging and absorption. The assay limit is therefore set at 95% - 105% at the time of release, as API is lost during filtration process. Hence, 15% overage is used to compensate the process loss."
  Whereas, our result in accelerated stability are within the limit which justify the assay limit of 90% - 110% for shelf life. However, we undertake that we will revise our limit with 90% to 115% in finished product specification."
- Firm has applied UV method for the Assay analysis of drug product during stability studies.

Decision: Deferred for justification of performing Assay analysis of the drug product by UV spectrophotometric method.

REMARKS OF EVALUATOR[II]:

Observation	Firm's response
Justification of 5% overage in the formulation(s) of stability batches shall be submitted since Overages are not acceptable unless fully justified.	This addition was not due to any specific reason, however we have reviewed the stability data of these three trial batches and noted that Assay & Dissolution results remain well within limits without significant change after 6 months accelerated stability. Furthermore we have evaluated that 5% overage impact on assay & Dissolution results and if we subtract 5% overage

	impact on assay & dissolution values, our values are still within limits. Furthermore we hereby commit that in commercial batch formulation of Etoxib tablet 30mg, overage will not be included.

Decision: Registration Board decided to approve registration of "Etoxib tablet 30mg (Etoricoxib) by M/s Hiranis Pharmaceuticals (Pvt.) Ltd. Plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVA conditions.

	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.
	Remarks: Firm has performed comparative dissolution profile against the innovator's product i.e, Eliquis 2.5mg tablet and the results are within acceptable limit of f2 value.	

	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol, Finished product analytical method validation report & stability studies data.
	Remarks: Firm has performed comparative dissolution profile against the innovator's product i.e, Eliquis 2.5mg tablet and the results are within acceptable limit of f2 value.	

STABILITY STUDY DATA

Manufacturer of API	M/s Jiangxi Synergy Pharmaceutical Co., Ltd., China		
API Lot No.	20180205Y		
Description of Pack (Container closure system)	Alu-Alu blister in unit carton		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0,1,2,3,4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	Lab-01	Lab-02	Lab-03
Batch Size	2500 tabs.	2500 tabs.	2500 tabs.
Manufacturing Date	12-2018	12-2018	12-2018
Date of Initiation	01-2019	01-2019	01-2019
No. of Batches	03		

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.

Administrative Portion

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Empoli tablet 10mg & 25mg", which was conducted on 13-06-2019, and was presented in 290th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR Compliant. \ ✓ Audit trail reports were available and physically checked ✓ Firm has adequate monitoring and controls for stability chambers. Software is installed for continuous monitoring of chambers.
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Manufacturing License for M/s Jiangxi Synergy, China issued by China Food & Drug Administration valid Up to 31-12-2020.
9.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice (invoice# JXS181027) cleared by DRAP Karachi office dated 01-02-2019 specifying import 0.13Kg Apixaban (Batch#20180205Y).
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted

11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
2222.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Sami Pharmaceuticals, S-95, SITE, Karachi.
	Name, address of Manufacturing site.	Name: M/s Sami Pharmaceuticals, S-95, SITE, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23128: 08-11-2019
	Details of fee submitted	PKR 50,000/-: 08-011-2019
	The proposed proprietary name / brand name	**Xaby 5mg tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Apixaban …… 5
	Pharmaceutical form of applied drug	Film coated tablets
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	Manufacturer Specification
	Proposed Pack size	10’s, 20’s, 30’s
	Proposed unit price	--
	The status in reference regulatory authorities	Approved by USFDA
	For generic drugs (me-too status)	--
	GMP status of the Finished product manufacturer	
	Name and address of API manufacturer.	M/s Jiangxi Synergy Pharmaceutical Co., Ltd., China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.
	Remarks of Evaluator: • Stability studies of drug substance as per Zone IVa conditions have been submitted.	
	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol, Finished product analytical method validation report & stability studies data.

	Remarks: Firm has performed comparative dissolution profile against the innovator's product i.e, Eliquis 5mg tablet and the results are within acceptable limit of f2 value.

Decision: Registration Board decided to approve registration of "Xaby 2.5mg tablet (Apixaban) and Xaby 5mg tablet (Apixaban) by M/s Sami Pharmaceuticals, S-95, SITE, Karachi. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.		

Item No. -: Agenda of Evaluator PEC-VIII

Case no. 01 Registration applications for local manufacturing of (Human) drugs

b. New cases

2451.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Etob 120mg Tablet
	Composition	"Each Film Coated Tablet Contains: Etoricoxib …120mg"
	Diary No. Date of R& I & fee	Dy.No 9382 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	NSAID
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	10's, 20's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in MHRA
	Me-too status	----
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator VIII	Applied formulation is subsequent drug generic version.
	Decision: Deferred for submission of stability study data for applied formulation as per guidelines approved in 293rd meeting of Registration Board, as the applied formulation is subsequent drug generic version.	
2452.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Etob 60mg Tablet
	Composition	"Each Film Coated Tablet Contains: Etoricoxib …60mg"
	Diary No. Date of R& I & fee	Dy.No 9380 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	NSAID
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	10's, 20's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in MHRA
	Me-too status	Starcox 60 mg tab by Getz Pharma
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator VIII	
	Decision: Approved as per innovator's specification.	

2453.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Defrox 500mg Tablets
	Composition	"Each dispersible contains: Deferasirox…500mg"
	Diary No. Date of R& I & fee	Dy.No 9378 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	Iron chelating agent
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	3*10's , 2*14's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in ANSM
	Me-too status	Oderox 500mg tablet of AJ mirza
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator [VIII]	
	Decision: Approved as per innovator's specification.	
2454.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Defrox250mg Tablets
	Composition	"Each dispersible contains: Deferasirox…250mg"
	Diary No. Date of R& I & fee	Dy.No 9379 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	Iron chelating agent
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	3*10's , 2*14's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in ANSM
	Me-too status	Oderox 250mg tablet of AJ mirza
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of Evaluator	
	Decision: Approved as per innovator's specification.	
2455.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Topet Tablets 100mg
	Composition	"Each Film Coated Tablet Contains: Topiramate…100mg"
	Diary No. Date of R& I & fee	Dy.No 9374 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	Anti-epileptic
	Type of Form	Form-5
	Finished product Specification	USP Specifications
	Pack size & Demanded Price	10's, 20's, 30's, 60's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in MHRA

	Me-too status	Tics 100mg Tablet of Genix Pharma
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator [VIII]	
	Decision: Approved.	
2456.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Topet Tablets 200mg

DOCUMENTS / DATA PROVIDED BY THE APPLICANT			

Sr.#	Documents To Be Provided	Status
17.	COA of API	Firm has submitted copy of COA stating following information on it: **Product:**Sofosbuvir **Batch No.**OP-GLD/10/15/037 **Manufacturer:**Optimus Drugs PVT Limited,
18.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Applicant has submitted GMP certificate having following information on it: **Certificate No.**L.Dis.No.20121/A3/2018 **Issued to:**Optimus Drugs PVT Limited, **Issued on:** 21-05-2018 **Validity:** One Year From The Date Of Issue
19.	Protocols followed for conduction of stability study and details of tests.	Yes
20.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
21.	Documents confirming import of API etc.	Firm has submitted copy of commercial invoice stating following information on it: **Invoice No.** 412/EXP **Batch No of API.** OP-GLD/10/15/037 **Attested by Assistant Director (I & E) DRAP Karachi On** : 03-02-2016
22.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
23.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
24.	Commitment to follow Drug Specification Rules, 1978.	Yes

Evaluation by PEC:

SOFOSBUVIR TABLET 400MG, M/S ZAFA PHARMACEUTICALS LABORATORIES.

Following panel of inspectors visited M/s Zafa Pharmaceuticals Laboratories for verification of authenticity of submitted stability study data for registration of Sofosbuvir 400mg Tablet.

1. Syed Adnan Rizvi Director, DTL, Karachi.
2. Dr. Najam-us-Saquib Additional Director DRAP, Karachi.
3. Kirshan, Assistant Director, DRAP, Karachi.

Q.No.	Question	Observation by panel
37.	Do you have documents confirming the import of API including approval from DRAP?	The firm has imported Sofosbuvir from Optimus Drug Pvt. Ltd. Hyderabad INDIA, Supplier IRIS Karachi. Invoice No.412/EXP dated 15-11-2015. Batch # OP-GLD/10/15/037. The total quantityofAPI purchased was1.00 kg.The approval from DRAP is available. (Annex-A)
38.	What was the rationale behind selecting the particular manufacturer of API?	Rationale behind selecting the particular manufacturer of API, as it is GMP compliant and vendor evaluation has been done. (Annex-B).
39.	Do you have documents confirming the import of reference standard and impurity standards?	The reference standard & impurity standard were imported through Optimus Drug Pvt. Ltd. Hyderabad INDIA. In House Reference standard, Batch # OP-

		SFS/RS1402, quantity100mg.Impurity standard, Batch # OP-GLD/St-I/Rp-Isomer/A0453/055, with quantity 10.0mg. (Annex-C)
40.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has COAs for API, reference standards and impurity.
41.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP Certificate of API manufacturer issued by Drug Control Administration Govt. of TelanganaINDIA.L.DisNo. 2021/A3/2018 Dated 21-05-2018.
42.	Do you use API manufacturer method of testing for testing API?	The Firm has used manufacturer's method of testing for the testing of API.
43.	Do you have stability studies reports on API?	The firm has manufacturers Stability studies report of API.
44.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	Stability testing as per SIM method and degradation products has been quantified by the API manufacturer.
45.	Do you have method for quantifying the impurities in the API.	The firm has used HPLC method for chromatographic impurities that was used for assay purpose.
46.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has some quantities of API (As reference), reference standard.
47.	Have you used pharmaceutical grade excipients?	The firm has used Pharmaceutical grade excipients
48.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
49.	Do you have test reports and other records on the excipients used?	The firm has test reports and other records of the excipient used.
50.	Do you have written and authorized protocols for the development of applied product?	The firm has written protocol for the development of Sofosbuvir Tablets 400 mg.(Annex-D)
51.	Have you performed Drug-excipient compatibility studies?	The firm has not performed drug excipient compatibility studies because the composition of their tablets/product is similar to that of the innovator's product (Sovaldi Tablets)
52.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution studies and their product show comparable dissolution profile and same were reviewed at time of inspection.
53.	Do you have product development (R&D) section.	The firm has separate new product development (R&D) section.
54.	Do you have necessary equipments available in product development section for development of applied product?	The firm has used Quality Control Lab instruments for the development of Sofosbuvir Tablets 400 mg. The firm has all necessary equipment in QC and Product development section.
55.	Are the equipment in product development section qualified?	All the equipment used in the development of product is qualified.
56.	Do you have proper maintenance / calibration / requalification program for the equipment used in PD section?	The firm has proper maintenance and calibration for the equipment used in quality Control for the development of the product.
57.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff for the development of the product with proper knowledge and training in product development. (Annex-E)
58.	Have you manufactured three stability batches for the stability studies of applied products required?	The firm has manufactured three stability batches, of Sofosbuvir Tablets 400 mg, TR01, TR02, TR03.

59.	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability of batches are the number of tablets as per requirement of testing.
60.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches. All the log books are properly maintained and reviewed at the time of inspection.
61.	Do you have protocols for stability testing of stability batches?	The firm has protocols for testing of the stability batches.
62.	Do you have developed and validated the method for testing of stability batches?	Yes, the firm has used manufacturer's method of testing, the method is validated.
63.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable
64.	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Yes, the firm has proper documents confirming the qualification of equipment and instruments being used in the test and analysis of API and the finished product.
65.	Do your method of analysis stability indicating?	Yes the method of analysis is stability indicating.
66.	Do your HPLC software is 21CFR compliant?	HPLC software is 21CFR compliant.
67.	Can you show Audit Trail reports on Stability study testing?	The firm showed the Audit trail report on API and finished product testing.
68.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches.
69.	Do you have commitment batches kept on stability testing?	The firm has three commitment batches kept on stability testing for real time stability studies.
70.	Do you have valid calibration status for the equipment used in Production and analysis?	Yes, the firm has valid calibration status for the equipment used in the production and analysis of Sofosbuvir Tablets 400 mg.
71.	Do proper and continuous monitoring and control are available for stability chambers.	Continuous power supply and monitoring and control are available for the stability chambers.
72.	Do related manufacturing area, equipment, personal and utilities be used as GMP compliance	The relevant manufacturing facilities are GMP complaint.

Conclusion:

M/s Zafa Pharmaceutical Laboratories was inspected as per directions contained in DRAP letter No. 13-11/2017-PEC (Pt) dated 30th July, 2019. During inspection, the panel inspected/reviewed the relevant record, data and premises in detail with specific focus on the observations/points made in above referred letter. Following are the current observations:

5. **Criterion/reference for selection of Q Value 70%:** - The said molecules was not included in any official monograph, therefore, the firm previously performed the dissolution test as per general requirement for dissolution testing and there was no any specific criteria for the selection of Q value 70%. Now, the firm have performed dissolution test for their product according to US-FDA recommended dissolution method and found it satisfactory at the time of inspection.
6. **Valid GMPCertificate** of API Manufacturer is hereby attached for reference.
7. On the basis of risk-based approach the genuineness/ authenticity of stability data submitted by the firm for registration of Sofosbuvir Tablets 400mg is verifiable to satisfactory level.
8. The related manufacturing area, equipment, personnel and utilities observed in line as per GMP requirements and well suited for manufacturing of the said product.

Recommendations:

Based on the people met, documents reviewed and observations made during inspection including corrective action taken by the firm, the panel unanimously recommends that the firm may kindly be granted necessary registration of Sofosbuvir Tablets 400mg.

Decision(M-294): Registration Board decided to defer the case for following submissions:

- Submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.
- Valid GMP certificate of the API manufacturer.

Now the applicant has submitted following:
Applicant has referred to their Comparative dissolution profile of applied formulation with reference product and submitted results declaring drug release profile of applied formulation is greater than 90 % within 15 minutes.

Decision: Registration Board keeping in view its decision taken in 293rd meeting decided to defer the case for following submissions:

- **Submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.**
- **Valid GMP certificate of the API manufacturer.**

2728.	Name and address of manufacturer / Applicant	M/s Helix Pharma, Hakimsons House, A/56, S.I.T.E, Manghopir Road, Karachi.

Date of Initiation	25-08-2017	25-08-2017	25-08-2017
No. of Batches	03		
Date of Submission	Dy No.12219, 03-04-18		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
25.	COA of API	Yes
26.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Timolol (as maleate):** Copy of GMP certificate bearing a number NEW-WHO-GMP/CERT/KD/50623/2016/11/17467 issued to M/s. Gangwal Chemicals by Food & Drug Administration Maharashtra, India. Valid until 02-12-2018. **Brinzolamide:** Copy of GMP certificate bearing a number 1707219 issued to M/s. Century Pharmaceuticals by Food & Drug Control Administration, Gujarat state India. Valid until 06-07-2019.
27.	Protocols followed for conduction of stability study and details of tests.	Yes
28.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
29.	Documents confirming import of API etc.	**Timolol (as maleate):** Copy of Form 5 (license to import Drugs) issued by ADC, DRAP, Karachi dated 04-07-2016 has been submitted. Copy of commercial invoice has been submitted. **Brinzolamide:** Copy of Form 6 (license to import Drugs for clinical trial examination) issued by ADC, DRAP, Karachi dated 21-09-2016 has been submitted. Copy of ADC attested commercial invoice has been submitted.
30.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
31.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
32.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR & REPLIES OF APPLICANT

- The firm has claimed Manufacturer's Specifications and the product is not present in available USP & BP.
- Submit raw data sheets of analytical method of applied formulation.
- Commitment to follow Drug Specification Rules, 1978.
- Commitment to continue real time stability studies till the proposed/assigned shelf life.
- Latest GMP inspection report conducted within the period of last one year.
- Chromatographic conditions in the finished product testing method submitted in dossier is different to that submitted with stability studies. Clarify/Justify.

Applicant has submitted that "We have applied for product dossier file on 20-04-2012, at that time, we did not have HPLC complies Software 21CFR but now we have all HPLCs complies with software 21CFR and we are working on HPLC with software 21CFR for new product's stability studies. Therefore you found the

difference in chromatographic conditions & current chromatographic conditions upon which stability studies are performed are following: wavelength 280nm & flow rate 1ml/minute".

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Helisopt Ophthalmic Suspension (Brinzolamide/Timolol) by M/s. Helix Pharma , Karachi.

Reference No: F.13-11/2017-PEC (Vol.I) dated 10th December, 2018.
Investigation Date and Time: 18th December, 2018 (Forenoon).
Investigation Site: Factory premises of M/s. Helix Pharma, Karachi.

Background:

Chairman Registration Board considered the applications of M/s Helix Pharma, Karachi for registration of Helisopt Ophthalmic Suspension each ml of which contain Brinzolamide 10mg and Timolol (as maleate) 5mg and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

4. Dr. Abdul Waheed, Assistant Director, CDL, DRAP, Karachi
5. Mr. Adnan Rizvi, Director DTL Sindh, Karachi (Member Registration Board)
6. Dr.Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Helisopt Ophthalmic Suspension

S.No.	Question	Observation by panel
1	Do you have documents confirming the import of API ?	The firm has imported 80g Brinzolamide from M/s Century Pharmaceuticals Limited, India vide invoice no. EXP16087 dated 2-09-2016 and 4.0 kg from M/s Gangwal Chemical Pvt. Ltd. India vide invoice No. EXP-T/030/16-17 dated 05.01.2017 and obtained approval from DRAP Karachi
2	What was the rationale behind selecting the particular manufacturers of APIs?	There is proper vendor qualification being implemented by the firm which include a desktop audit by means of a questionnaire which is filled by the manufacturer, GMP Status, provision of DMF etc. The firms were evaluated on above mentioned criteria and selected
3	Do you have documents confirming the import of API reference standard and impurity standards?	The firm has documents confirming the import of both APIs USP reference standard and impurity standards.
4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for both APIs, working standards and their impurities.
5	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate of Brinzolamide and timolol manufacturers issued by Food and Drug Control Administration, Gujrat State, India and Food and Drug Administration, Mahrashtra, India respectively.
6	Do you use API manufacturer method of testing?	The firm has used USP method of testing for both APIs.
7	Do you have stability studies reports on API?	The firm has accelerated stability studies reports of six months on both APIs and five years and four years real time stability studies reports on the Brinzolamide and Timolol respectively.

<table>
<tr><td>8</td><td>If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?</td><td>The stability testing has been performed as per SIM method and degradation products have been quantified.</td></tr>
<tr><td>9</td><td>Do you have method for quantifying the impurities in the API?</td><td>The firm has USP method for quantifying the impurities in the API.</td></tr>
<tr><td>10</td><td>Do you have some remaining quantities of the API, its reference standard and impurities standards?</td><td>The firm has remaining quantities of API and reference standard of both APIs.</td></tr>
<tr><td>11</td><td>Have you used pharmaceutical grade excipients?</td><td>The firm has used pharmaceutical grade excipients.</td></tr>
<tr><td>12</td><td>Do you have documents confirming the import of the used excipients?</td><td>The firm has documents confirming the procurement of all excipients used.</td></tr>
<tr><td>13</td><td>Do you have test reports and other records on the excipients used?</td><td>The firm has test reports and other records on the excipients used.</td></tr>
<tr><td>14</td><td>Do you have written and authorized protocols for the development of API ophthalmic suspension?</td><td>The firm has written and authorized protocols for the product development.</td></tr>
<tr><td>15</td><td>Have you performed Drug-excipient compatibility studies?</td><td>Drug-excipients compatibility studies were not performed as the firm has used the same excipients as of innovator.</td></tr>
<tr><td>16</td><td>Have you performed comparative dissolution studies?</td><td>N/A</td></tr>
<tr><td>17</td><td>Do you have product development (R&D) section</td><td>The firm has product development (R&D) section with equipment for manufacturing of ophthalmic suspension dosage form. The analytical part is performed on equipment of routine quality control tests.</td></tr>
<tr><td>18</td><td>Do you have necessary equipment available in product development section for development of API ophthalimic suspension?</td><td>The firm has necessary equipment for product development of API ophthalmic suspensions. The product in question has been developed while using some equipment of commercial manufacturing also. Furthermore, the analytical part has been performed via the routine quality control equipment. Firm has already placed orders for procurement of other equipment for this section.</td></tr>
<tr><td>19</td><td>Are the equipment in product development section qualified?</td><td>The available equipment in product development section are qualified.</td></tr>
<tr><td>20</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>The firm has SOP for the maintenance/calibration/requalification of equipment used on PD section.</td></tr>
<tr><td>21</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>The firm has qualified staff which include One Chemist and One Pharmacist in product development section with relevant work experience.</td></tr>
<tr><td>22</td><td>Have you manufactured three stability batches for the stability studies of API ophthalmic suspension as required?</td><td>The firm has manufactured three consecutive stability batches for the accelerated and real time stability studies of Helisopt ophthalmic suspension packed in LDPE bottles of 5ml each.
<table>
<tr><td>Batch No.</td><td>Batch Size</td><td>Mfg Date</td></tr>
<tr><td>TF 001</td><td>1000ml (180 bottles)</td><td>07-2017</td></tr>
<tr><td>TF 002</td><td>1000ml (180 bottles)</td><td>07-2017</td></tr>
<tr><td>TF 003</td><td>1000ml (180 bottles)</td><td>07-2017</td></tr>
</table></td></tr>
<tr><td>23</td><td>What was the criteria for fixing the batch size of stability batches?</td><td>The criteria for fixing the batch size of stability batches is the number of bottles per testing and the number of bottles required for whole stability testing.</td></tr>
</table>

24	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches. Necessary log books of equipment used has been available with the firm.
25	Do you have protocols for stability testing of stability batches?	The firm has detailed protocol for stability testing of stability batches in which the stability conditions are: Real Time: 30°C and 65% RH Accelerated: 40°C and 75% RH, however, the firm has used LDPE container for the product in question for which ICH guidelines and WHO recommends 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies.
26	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated their own method for testing of stability batches. The method is supported by impurities standards spiking studies, forced degradation, hence capable of quantifying the degradation products in their ophthalmic suspension kept on stability testing.
27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable
28	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug?	The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of API and finished drug.
29	Do your method of analysis stability indicating?	The firm's method of analytical testing has stability indicating parameters.
30	Do your HPLC software is 21CFR compliant?	The HPLC software is 21CFR Compliant as per record available with the firm.
31	Can you show Audit Trail reports on API testing?	The firm showed the audit trail reports on API testing.
32	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches.
33	Do you have commitment batches kept on stability testing?	The firm has completed accelerated stability testing on the three stability batches. The real time stability testing is in progress on all the three stability batches. Currently 12 months studies have been completed with satisfactory results.
34	Do you have valid calibration status for the equipment used in API ophthalmic suspensions production in analysis?	The firm has valid calibration status for the equipment used in helisopt ophthalmic suspension production and analysis.
35	Do proper and continuous monitoring and control are available for stability Chamber?	Continuous power supply and monitoring are available for stability chambers.
36	Do related manufacturing area, equipment, personnel and utilities be Rated as GMP compliant?	The related manufacturing area, equipment, personnel and utilities be rated as GMP compliant.

Discussion:

6. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Helisopt Ophthalmic Suspension is verifiable to satisfactory level.
7. Furthermore, the firm has conducted the stability studies as per their protocol which is 30°C and 65% RH for real time and 40°C and 75% RH for accelerated stability studies, whereas, the recommended stability conditions for products packed in semi-permeable containers are 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies. However, 30°C and 65% RH for real time and 40°C and 75% RH for accelerated stability studies may be used for semi-permeable

containers provided the calculated water loss multiplied with the corresponding factor may not exceed 5% of initial, which is considered as significant change.

8. In this case the firm has not calculated water loss at any stage, so no comparison can be made between the reference and alternative relative humidity as mentioned in ICH Q1A (R2) (2.2.7.3. Drug products packaged in semi-permeable containers).
9. On risk-based approach the data evaluated during inspection does not show any deviation in the critical tests throughout the study period which may be altered if the water has lost more than the prescribed limits.
10. The related manufacturing area, equipment, personnel and utilities are GMP compliant and suited for the manufacturing of Helisopt Ophthalmic Suspension.

Recommendations:

The firm may be granted necessary registration of Helisopt Ophthalmic Suspension in their name with the direction to conduct stability studies on their commitment batches as per ICH guidelines i.e. 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies and submit the data to the Drug Registration Board.

Previous Decision:

Registration Board in its 287th meeting decided as follow:

Registration Board deferred the case for submission of stability data at next time point of long term stability studies along with assessment of water loss rate for applied container closure system as per ICH Q1A (R2) guidelines for "Stability Testing of New drug substances and products."

Evaluation by PEC:

Applicant has submitted results of Water loss test in the form of graphs conducted on following newly manufactured batches of applied formulation.

Sr. No.	Batch No.	Batch Size.
1.	TF004	90 bottles
2.	TF005	90 bottles
3.	TF006	90 bottles

Decision:

Deferred for submission of formula by which results of moisture loss from the semipermeable container are calculated as well as submit details of readings used to plot the graph, as only graphs are submitted.

Evaluation by PEC:

Now the applicant has submitted following:

3. Formula by which results of moisture loss from the semipermeable container are calculated.
4. Readings used to plot the graph with the conclusion that moisture loss from the semipermeable container is within permissible limits.

Decision: Registration Board decided to approve registration of "Helisopt Ophthalmic Suspension" by M/s Helix Pharmaceuticals. Manufacturer shall place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

c. Exemption from onsite verification of stability data (Deferred cases)

Sr. No.	Documents To Be Provided	Status
17.	CoA of API	Firm has submitted copy of COA of Ticagrelor (Batch # RD-TG-201709061) from M/s Nantong Chanyoo Pharmatech Co., Ltd., China.
18.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (certificate No.2017006) issued by Nantong Food & Drug Administration, China. It is valid until 07/09/2020.
19.	Protocols followed for conduction of stability study and details of tests.	Yes
20.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
21.	Documents confirming import of API etc.	The firm has submitted commercial invoice for the import of Ticagrelor (5kg) from M/s. Nantong Chanyoo Pharmatech Co., Ltd, China attested by ADC DRAP, Karach dated 27-10-2017.
22.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
23.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes

24.	Commitment to follow Drug Specification Rules, 1978.	Yes
REMARKS OF EVALUATOR		
Firm has submitted 6 months accelerated and 12 months real time stability study data of four batches.		
REQUEST OF EXEMPTION FROM ON SITE INSPECTION		
The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting: Date of submission: 02-07-2019 vide diary no. 10339		
Administrative Portion		
39.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Apixa 2.5mg and 5mg (Apixaban) Tablets", which was presented in 289th meeting of Registration board. Registration Board decided to approve registration of above stated drug product of M/s. Pharmatec Pakistan (Private) Ltd, Karachi. Date of inspection: 30-04-2019 According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
40.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted commercial invoice for the import of Ticagrelor (5kg) from M/s. Nantong Chanyoo Pharmatech Co., Ltd, China attested by ADC DRAP, Karach dated 27-10-2017.
41.	Documents for the procurement of reference standard and impurity standards.	The firm has submitted COAs of following working standards & impurity Standards : Ticagrelor working standard (B # WS201603001) Ticagrelor working standard (B # WTG01-170401) Impurity standards TG16 WRS (B# WTG05-170401) De-Ethoxyl of TG WRS (B# WTG06-170401)
42.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (certificate No.2017006) issued by Nantong Food & Drug Administration, China. It is valid until 07/09/2020.
43.	Mechanism for Vendor pre-qualification	The firm has submitted SOP for evaluation of vendors.
44.	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted copy of COA of Ticagrelor (Batch # RD-TG-201709061) from M/s Nantong Chanyoo Pharmatech Co., Ltd., China.
45.	Documents for the procurement of excipients used in product development?	The firm has submitted photocopy of Commercial invoices/COAs of the excipients used in the formulation of applied product
46.	List of qualified staff involved in product development with relevant experience.	The firm has submitted List of qualified staff involved in product development department.
Production Data		
47.	Authorized Protocols/SOP for the development & stability testing of trial batches.	The firm has submitted photocopy of "Protocols/SOP for the Development of Ticagrelor 90mg Tablet".
48.	Complete batch manufacturing record of three stability batches.	The firm has submitted photocopy of Batch Manufacturing Records of following 03 Batches:

Batch No.	Batch Size	Mfg. Date

<tr><td>9.</td><td>Digital data logger record does not cover the duration of stability study data. Clarification is required.</td><td>Digital logger sheets which cover the duration stability study data.</td></tr>
</table></td></tr>
</table>

10.	Justification is required for preparation of four batches for the purpose of carrying out stability studies.	The first batch exhibiting the batch number 17PD048TICT04, is the pre-formulation batch, the very initial batch developed at every step of formulation development, this supports in making decision. These steps include process feasibility studies, formulation optimization and manufacturing process.
11.	Audit trail reports of only one date are submitted. It is important to submit the audit trail reports at all time points of stability studies as well as comparative dissolution study.	Audit trail on the testing time point is submitted.
12.	Polymorphic formof Ticagrelor API is required to be submitted.	The firm has submitted that polymorphic form-II was used and further stated that same form of molecule is discussed in the patent of Astra Zeneca. The form-II of Ticagrelor is confirmed by the melting points & X-ray Diffraction.

Storage conditions under which stability studies were conducted are at 25ºC±2ºC/60%±5% RH.
Previous Decision: Deferred for submission of scientific justification for conducting API stability studies at storage conditions of 25ºC±2ºC/60%±5% RH.
Evaluation by PEC: The firm has submitted that internationally API stability studies are conducted at 25ºC±2 ºC/60%±5%RH because majority of API manufacturer supplies their product to international market. When we receive APIs, we keep them in controlled temperature i.e., 25ºC. When we manufacture our finished product with these APIs, we use to conduct stability studies of our products according to our stability Zone i.e., Zone IVA.

Previous Decision: Registration Board deferred the case for submission of valid GMP certificate of M/s Nantong Chanyoo, Jiangsu province, China, issued by relevant Provincial or state Regulatory authority since the Nantong Food and Drug Administration is not the relevant provincial regulatory authority (M-293).
Response of the firm: Firm has submitted copy of "License for Drug production" issued by the Jiangsu Food and Drug Administration in the name of M/s Nantong Chanyoo Pharmatech Co., Ltd., China with License number "S. 20160512" and valid upto 31-12-2020.
The above cited certificate has been verified from the following web link of National Medical Product Administration of China:
http://app1.sfda.gov.cn/datasearchcnda/face3/base.jsp?tableId=34&tableName=TABLE34&title=%D2%A9%C6%B7%C9%FA%B2%FA%C6%F3%D2%B5&bcId=152911762991938722993241728138 .

Deferred for following submissions (M-294):

- Submission of real term stability studies data of the product for atleast 1 year along with degradation studies in the finished pharmaceutical product as per the decision of 290th meeting of Registration Board since the firm has used API whose stability testing has not been done as per the conditions of Zone IV-A.
- Scientific justification for performance of drug excipient compatibility studies with only 1 excipient (i.e. Sodium lauryl sulphate).
- Status whether form-II of Ticagrelor is confirmed by the melting points & X-ray Diffraction by M/s Pharmatec or API manufacturer

Evaluation by PEC: The firm has submitted following:

- Stability study data of API as per Zone IV-A.
- Drug Excipient compatibility was conducted and assessed through HPLC. Binary mixtures of excipient and drug substance at a ratio 1:1 ratio in the solid state were prepared. Results showed no interference/degradant was detected with any of the excipient used.
- Crystalline Form-II of Ticagrelor is confirmed by melting points & X-Ray diffraction as per DMF of API manufacturer.

Decision: Registration Board decided to approve registration of Tigrelor 90mg Tablet with Innovator's specifications by M/s Pharmatec Pakistan (Pvt.) Limited, D-86/A, S.I.T.E., Karachi. Manufacturer will place

first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability GMP Inspection Report Date & Remarks
1863.	M/s Kaizen Pharmaceuticals (Pvt) Ltd. E-127-129, North Western Industrial Zone, Bin Qasim, Karachi	Tofacit 5mg Tablet Each Film Coated tablet Contains: Tofacitinib (as citrate) ……5mg Selective immunosuppressants ATC code: L04AA29	Form-5 Dy. No. 34109: 15.10.2018 PKR 20,000/-: 04.08.2018 As per SRO	XELJANZ 5 mg film-coated tablets (**USFDA** Approved) 02-07-2019 Satisfactory level of GMP compliance.

Case history:
Decision of 290th meeting of Registration Board:
Deferred for evidence of approval of applied formulation in reference regulatory authorities / agencies and generic / me-too status which were adopted by the Registration Board in its 275th meeting.

Now the firm has submitted the reference and generic evidence which is as under:
Reference status "XELJANZ 5 mg film-coated tablets (Pfizer Europe MA EEIG Boulevard de la Plaine 17 1050 Bruxelles Belgium"
Generic/me-too status " Xeljanz Film Coated Tablet 5mg of M/s Pfizer"
Decision of 293rd meeting of Registration Board:
Deferred for further deliberation regarding stability data.

The stability data of 3 batches have been submitted by the firm

STABILITY STUDY DATA

Manufacturer of API	Kaifeng Pharmaceutical (Grp)Co. Ltd. No. 1 Yunan Street Kaifeng		
API Lot No.	KFX171203		
Description of Pack (Container closure system)	Alu-Alu blister		
Stability Storage Condition	Accelerated: 40˚C ± 2˚C / 75% ± 5%RH Real Time: 30˚C ± 2˚C / 65% ± 5%RH		
Time Period	Accelerated: 6 Months Real Time: 6 Months		
Frequency	Real Time: 0, 3 & 6 (months) Accelerated: 0, 3 6 (months)		
Batch No.	TF-01	TF-02	TF-03
Batch Size	700 Tablets	700 Tablets	700 Tablets
Manufacturing Date	11-2018	12-2018	12-2018
Date of Initiation	14-11-2018	20-12-2018	20-12-2018
Date of submission	4648 (16-03-2020)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Documents To Be Provided	Status
COA of API	Yes

Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted GMP certificate (No. HA20150067) issued by CFDA China. The certificate is valid till 16-11-2020.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	Firm has submitted copy of commercial invoice dated 15-10-2018 specifying import of 0.5g API. The invoice is not signed by AD (I&E) DRAP Karachi. Firm has submitted copy of DHL invoice for the said invoice having tracking number 783242202418.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

DATA FOR EXEMPTION FROM ONSITE INVESTIGATION OF SUBMITTED STABILITY DATA

ADMINISTRATIVE PORTION

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	• Firm has referred to their last onsite inspection conducted for product Rofair (Roflumilast) 500mcg Tablets on 25th June, 2019. The said inspection report was discussed in 290th meeting of Registration Board held on 3rd – 4th July, 2019 and the case was approved. The inspection report confirms following points: • The firm has Shimadzu's LC 20A, with software ―Lab solution DB‖ which is 21 CFR part 11 compliant with audit trail and date time stamped and with complete multi-level user authorization • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are GMP compliant.
2.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 15-10-2018 specifying import of 0.5g API. The invoice is not signed by AD (I&E) DRAP Karachi. Firm has submitted copy of DHL invoice for the said invoice having tracking number 783242202418.
3.	Documents for the procurement of reference standard and impurity standards.	Firm has submitted copy of invoice of purchase of working reference standard.
4.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has submitted GMP certificate (No. HA20150067) issued by CFDA China. The certificate is valid till 16-11-2020.
5.	Mechanism for Vendor pre-qualification	Firm has submitted copy of SOPs for vendor pre-qualification.

6.	Certificate of analysis of the API, reference standards and impurity standards	Firm has submitted COA of API, and working standard.
7.	Documents for the procurement of excipients used in product development?	Firm has submitted documents for procurement of excipients.
8.	List of qualified staff involved in product development with relevant experience.	Firm has provided list of technical staff of product development section.
PRODUCTION DATA		
9.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted SOPSs for product development.
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of each strength.
11.	Record of remaining quantities of stability batches.	Firm has provided following remaining quantities for each batch: TF-01: 70 Tablets TF-02: 98 Tablets TF-03: 108 Tablets
QA/QC DATA		
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers.
13.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
14.	Method used for analysis of FPP & complete record of testing of stability batches (i.e. chromatograms, lab reports, raw data sheets etc.)	Firm has submitted method of analysis of FPP and complete record of testing of stability batches along with chromatograms
15.	Reports of stability studies of API from manufacturer.	Firm has submitted both accelerated stability studies & long term stability studies reports of three batches of API.
16.	Analysis reports for excipients used.	Firm has submitted analysis reports for all excipients used.
17.	Drug-excipients compatibility studies.	Firm has submitted that they have used same excipients in their formulation as used by the innovator. Therefore drug-excipient compatibility studies are not required.
18.	Record of comparative dissolution data.	Firm has submitted CDP data of their product against the Xeljanz Tablet. The drugs show more than 85% release in 15 minutes at all media.
19.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches.

Evaluation by PEC:

Shortcomings communicated	Response by the firm
Submit protocols for stability studies	Firm has submitted protocols for stability studies.
You have provided dissolution specifications as NLT 75% in 15 minutes without specifying the value of "Q".	Firm has submitted revised dissolution specifications with acceptance criteria NLT 75%(Q) after 15 minutes
Submit stability study data of API	Firm has submitted the stability study data of API for three batches.

Decision: Registration Board decided to approve registration of Tofacit 5mg Tablet (Tofacitinib, Selective immunosuppressants, ATC code: L04AA29) with Innovator's specifications by M/s Kaizen Pharmaceuticals (Pvt) Ltd., E-127-129, North Western Industrial Zone, Bin Qasim, Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Case no. 05: Registration applications of locally manufacturing drugs (human) submitted on CTD format

1864.	Name, address of Applicant / Marketing Authorization Holder	M/s SAMI Pharmaceuticals (pvt.) Ltd., F-95, Off, Hub River Road, S.I.T.E, Karachi
	Name, address of Manufacturing site.	M/s SAMI Pharmaceuticals (pvt.) Ltd., F-95, Off, Hub River Road, S.I.T.E, Karachi
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	The Firm has submitted copy of GMP certificate granted based on the inspection dated 28-08-2019.
	Evidence of approval of manufacturing facility	The firm has provided Tablet General section as per document of licensing Regularization of DML.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.18270 : 23-09-2019
	Details of fee submitted	PKR 50,000/-: 23-09-2019
	The proposed proprietary name / brand name	EMPOLI Plus 12.5 + 1000mg Tablets
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin……..12.5mg Metformin hydrochloride……..1000mg
	Pharmaceutical form of applied drug	Immediate release film coated Tablets
	Pharmacotherapeutic Group of (API)	Anti-diabetic
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	14's & 28's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Synjardy 12.5mg /1000mg tablet of BOEHRINGER INGELHEIM (USFDA approved)
	For generic drugs (me-too status)	Empozin-M 12.5mg + 1000mg tablet of Macter
	Name and address of API manufacturer.	Empagliflozin: M/s. Fuxin Long Rui Pharmaceutical Co.,Ltd, Address: Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province -123000, China Metformin hydrochloride: M/s Wanbury Limited, 10th Floor, B-wing, BSEL techpark, Sector 30A, Navi Mumbai, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls,

		impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Empagliflozin: The submitted stability study data was conducted at accelerated condition (40 ^{o}C ±2^{o}C & 75%±5% RH) for 6 months, 5 years at long term storage conditions (30 ^{o}C ±2^{o}C & 65%±5% RH). Metformin hydrochloride: The submitted stability study data was conducted at accelerated condition (40 ^{o}C ±2^{o}C & 75%±5% RH) for 6 months, 6 years at long term storage conditions (30^{o}C±2^{o}C & 75%±5% RH).
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Comparative Dissolution Profile Data (Details of reference product & study)	Firm has submitted results of comparative dissolution profile of their Batch No. TFB-T001 with the innovator product i.e. Xeljanz 5mg Tablet. Firm has performed CDP in o.1 N HCl, acetate buffer and phosphate buffer. The results of drug release were greater than 85% in 15 minutes in all medium therefore the firm did not calculate similarity factor *f*2 values.
	Analytical method validation/verification of product	Firm has submitted protocols and reports of validation studies of analytical method.

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	The Firm has submitted copy of GMP certificate granted based on the inspection dated 28-08-2019.
	Evidence of approval of manufacturing facility	The firm has provided Tablet General section as per document of licensing Regularization of DML.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.20013 : 08-10-2019
	Details of fee submitted	PKR 50,000/-: 08-10-2019
	The proposed proprietary name / brand name	EMPOLI Plus 5 + 850mg Tablets
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin…….5mg Metformin hydrochloride……..850mg
	Pharmaceutical form of applied drug	Immediate release film coated Tablets
	Pharmacotherapeutic Group of (API)	Anti-diabetic
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	14's & 28's
	Proposed unit price	---------
	The status in reference regulatory authorities	Synjardy 5mg /850mg tablet of BOEHRINGER INGELHEIM (USFDA approved)

	For generic drugs (me-too status)	Empozin-M 12.5mg + 850mg tablet of Macter
	Name and address of API manufacturer.	Empagliflozin: Fuxin Long Rui Pharmaceutical Co.,Ltd, Address: Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City Liaoning Province -123000, China Metformin hydrochloride: M/s Wanbury Limited, 10th Floor, B-wing, BSEL techpark, Sector 30A, Navi Mumbai, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Empagliflozin: The submitted stability study data was conducted at accelerated condition (40 °C ±2°C & 75%±5% RH) for 6 months, 5 years at long term storage conditions (30 °C ±2°C & 65%±5% RH). Metformin hydrochloride: The submitted stability study data was conducted at accelerated condition (40 °C ±2°C & 75%±5% RH) for 6 months, 6 years at long term storage conditions (30°C±2°C & 75%±5% RH).
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Comparative Dissolution Profile Data (Details of reference product & study)	Firm has submitted results of comparative dissolution profile of their Batch No. TFB-T001 with the innovator product i.e. Xeljanz 5mg Tablet. Firm has performed CDP in o.1 N HCl, acetate buffer and phosphate buffer. The results of drug release were greater than 85% in 15 minutes in all medium therefore the firm did not calculate similarity factor *f*2 values.
	Analytical method validation/verification of product	Firm has submitted protocols and reports of validation studies of analytical method.
1869.	Name, address of Applicant / Marketing Authorization Holder	M/s SAMI Pharmaceuticals (pvt.) Ltd., F-95, Off, Hub River Road, S.I.T.E, Karachi

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred last onsite panel inspection for instant dosage form conducted during last two years TEFOD *(Tenofovir Alafenamide)* 25mg Tablets on 28th January, 2019 by following panel: 1. Dr. Rafeeq Alam Khan, Meritorious Professor, Member Registration Board 2. Mr. Aslam Shah, Member Registration Board. 3. Mr. Affan Ali Qureshi, Assistant Director (CDL), DRAP, Karachi.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Empagliflozin: The firm has submitted copy of GMP certificate for M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China issued by Fuxin Food and Drug Administration. The certificate is valid till 27-09-2020.

		Metformin hydrochloride: The firm has submitted copy of GMP certificate for M/s Wanbury Limited, Andhra Pradesh, India. The certificate is valid till 05-02-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Empagliflozin: Firm has submitted copy of invoice for the import of Empagliflozin (1kg) attested by AD (I&E) Karachi office dated 08-11-2018. Metformin hydrochloride: Firm has submitted copy of invoice for the import of metformin hydrochloride (1.5kg) attested by AD (I&E) Karachi office dated 25-05-2018.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC

Shortcomings communicated	Response by the firm
Though you have submitted summary of batch analyses release results of the FPP manufacturer for relevant batches in quality overall summary, however it is not provided in relevant section of module 3	The firm has provided data of relevant section of Module 3.
Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) (Empagliflozin and metformin hydrochloride) shall be submitted as per section 3.2.S.4-Control of drug substance	The firm has submitted analytical method verification studies for both drug substances.
How it is possible even in the presence of stress conditions, no degradation/impurities were observed in specificity parameter of analytical validation of finished product. Please justify your findings.	The firm has submitted that selectivity of method can be determined by following two methods • Spiking of impurities • Forced Degradation We performed both methods and no degradation has been observed due to high stability of these molecules.
The justification of specification(s) for non-pharmacopeial products must be provided.	The firm has submitted that we have developed in-house justification for inclusion of tests non-pharmacopoeial.
Details of reference standards needs to be submitted since details of metformin impurity A and metformin impurity F are submitted without mentioning API reference standard. In case of Empagliflozin, working standard of API has been procured. Justify the quantity of working standard procured will it be sufficient for complete test and analysis.	The firm has submitted that assay of Metformin hydrochloride performed by titrimetric method hence working standard not required. While for testing of finished product, reference standard is used to standardize the working standard. The firm has submitted justification for quantity of working standard procured for test and analysis. Amount of working standard procured is 125mg. 125mg is used for analysis of API.

	125mg is used for standardization of in-house standard. 10mg working standard required for single analysis of finished product. No. of testing per strength is 6mg (60mg consumed). Total no. of testing per 6 strength is 36mg (360mg consumed).
Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed.	The firm has performed pharmaceutical equivalence of their test formulations with different strengths of Synjardy as below: • Synjardy 12.5/1000mg Tablets (Boehringer Ingelheim, Batch # 644963) • Synjardy 12.5/850mg Tablets (Boehringer Ingelheim, Batch # 544531) • Synjardy 12.5/500mg Tablets (Boehringer Ingelheim, Batch # 856310) • Synjardy 5/500mg Tablets (Boehringer Ingelheim, Batch # 856327) • Synjardy 5/850mg Tablets (Boehringer Ingelheim, Batch # 644574) • Synjardy 5/1000mg Tablets (Boehringer Ingelheim, Batch # 644648)
Though you have submitted brief summary of CDP with innovator in module 2, however the results of comparative dissolution profile conducted in three BCS media across the physiological pH range along with calculation of similarity factor f2 should be submitted and discussed in relevant portion of module 3.	The firm has submitted performance of comparative dissolution test of their test formulations against innovator formulations in 3 different pH media i.e., 0.1 N HCl, acetate buffer pH 4.5 and phosphate buffer pH 6.8 for relevant section of module 3. The results show comparable dissolution with innovator's product

Decision: Registration Board decided to defer the cases for justification of using Titrimetric method alongwith performance of potentiometric end point for analysis of metformin API.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to last onsite panel inspection for instant dosage form conducted during last two years Promig plus Tablets on 13th & 14th March, 2019 which confirms that : HPLC is 21 CFR II compliant. Digital data loggers were available for continuous monitoring of temperature and humidity.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP Certificate (Certificate#JX170001) for M/s Symed Labs Limited, India issued by Drug Control Administration, Government of Telangana, India. It was valid till 24-04-2018.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying import of 2.0Kg of Tapentadol Hydrochloride. The invoice is attested by AD (I&E) DRAP Islamabad office dated 29-03-2018.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

REMARKS OF EVALUATOR

Dissolution conditions of innovator as per Biopharmaceutics Review:
Apparatus: Type I (Basket apparatus)
Spindle rotation: 75 RPM
Medium: 0.1 M HCl
Medium volume: 900ml
Time: 45 min
Acceptance criteria: NLT 80% (Q) of the labelled amount of Tapentadol (as HCl) dissolved in 45 min

Sr. No.	Observations communicated	Response by the firm
17.	Submit Quality Overall Summary (QOS) needs to be submitted as per 293rd meeting of Registration Board.	The firm has submitted summarised information of drug substance and drug product as per 293rd meeting of Registration Board
18.	Evidence of import of API including copy of commercial invoice cleared by DRAP field office.	Firm has submitted copy of commercial invoice specifying import of 2.0Kg of Tapentadol Hydrochloride. The invoice is attested by AD (I&E) DRAP Islamabad office dated 29-03-2018.
19.	GMP certificate of API manufacturer issued by regulatory authority of country of origin needs to be submitted.	The firm has submitted copy of GMP certificate however it is expired now.
20.	Provide certificate of analysis of each batch of API used in the stability studies of the three submitted batches.	Submitted
21.	Summary of batch analyses release results of the drug product manufacturer for relevant batch needs to be submitted as per 2.3.S.4.4 (b).	Submitted
22.	Provide data of pharmaceutical equivalence against innovator product including data of comparative dissolution profile to justify your formulation development as per the requirement of section 3.2.P.2.2.1.	The firm has submitted that we performed pharmaceutical equivalence against comparator product that is Tapento IR 75mg tablet. Unfortunately we are unable to arrange innovator pack / comparator of one of its strength i.e., 50mg Tablet. Being same dosage form and same kind of release profile of both strengths, the firm has requested to accept the study of higher strength of same product against it lower strength also.
23.	Submit data to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".	Submitted.
24.	The drug substance and drug product part of Module III needs to be submitted as per 293rd meeting of registration covering all the sections mentioned in that document.	The firm has submitted data of relevant modules.

Decision: Registration Board decided as follows:

- **To defer registration application of D-Pain 50mg Tablet for submission of pharmaceutical equivalence and comparative dissolution profile with innovator / comparator product of same strength.**
- **To approve registration of D-Pain 75mg tablet by M/s Global Pharmaceuticals (Pvt.) Ltd. Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Manufacturer will also perform process validation studies on first three commercial batches as per the commitment submitted along with registration application.**

1872.	Name, address of Applicant / Marketing Authorization Holder	M/s Global Pharmaceuticals (Pvt.) Ltd. Plot # 204-205, Industrial Triangle, Kahuta Road,

		Islamabad
	Name, address of Manufacturing site.	M/s Global Pharmaceuticals (Pvt.) Ltd. Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	The Firm has submitted copy panel inspection dated 24-12-2018 wherein renewal of DML was granted.
	Evidence of approval of manufacturing facility	Firm has submitted copy of Section approval letter dated 13th June, 2107 specifying Tablet General section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 4211: 11-03-2020
	Details of fee submitted	PKR 20,000/-: 21-02-2020, 30,000/- 10-03-2020
	The proposed proprietary name / brand name	Asprala 81mg/40mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated delayed release tablet contains: Aspirin……..81mg (Delayed release) Omeprazole…….40mg (Immediate release)
	Pharmaceutical form of applied drug	Film coated delayed release Tablet
	Pharmacotherapeutic Group of (API)	Antiplatelet agent and proton pump inhibitor
	Reference to Finished product specifications	Innovators specifications
	Proposed Pack size	1 x10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	YOSPRALA Tablets 81mg /40mg by Arelez Pharmaceuticals (USFDA approved)
	For generic drugs (me-too status)	OMO/ASPER Tablets 81mg /40mg by M/s Helix
	Name and address of API manufacturer.	Aspirin: M/s Shangdong Xinhua Pharmaceutical Co. Ltd. 14 Dongyi Road, Zhangdian District, Zibo city, Shangdong province, China Omeprazole: M/s Everest Organics Limited, Sadasivpet (Mandal) Medak, Andra Pradesh, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process

		and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Aspirin: The Firm has submitted 6months accelerated (40ºC ± 2ºC/75%± 5% RH) and 60months real time (30ºC ± 2 ºC/60%± 5% RH) stability study data of 3 batches. Omeprazole: The Firm has submitted 6months accelerated (40ºC ± 2ºC/75%± 5% RH) and 48months real time (30ºC ± 2 ºC/60%± 5% RH) stability study data of 3 batches.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted comparative dissolution study of their Batch No. TT-001 with the innovator product i.e. Yosprala 325/40mg Tablets. Firm has performed CDP in 0.1 N HCl, acetate buffer and phosphate buffer. Comparison of results indicate that omeprazole releases more than 85% in 10 minutes in pH 1.2 and 6.8, therefore calculation for *f2* factor was not made. However, for aspirin F2 factor is 58.42, hence dissolution profile of both products found comparable.
	Analytical method validation/verification of product	Firm has submitted protocols and reports of validation studies of analytical method.
1873.	Name, address of Applicant / Marketing Authorization Holder	M/s Global Pharmaceuticals (Pvt.) Ltd. Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad
	Name, address of Manufacturing site.	M/s Global Pharmaceuticals (Pvt.) Ltd., Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to last onsite panel inspection for instant dosage form conducted during last two years Promig plus Tablets on 13th & 14th March, 2019 which confirms that : HPLC is 21 CFR II compliant. Digital data loggers were available for continuous monitoring of temperature and humidity.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Aspirin:** The firm has submitted copy of GMP certificate for M/s Shangdong Xinhua Pharmaceutical Co. Ltd. 14 Dongyi Road, Zhangdian District, Zibo city, Shangdong province, China issued by Shangdong Food and Drug

		Administration. It is valid till 18-10-2022. **Omeprazole:** The firm has submitted copy of GMP certificate for M/s Everest Organics Limited, Sadasivpet (Mandal) Medak, Telangana, India issued by Government of Telangana, Drugs Control administration. It was valid till 31-03-2017.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Aspirin:** Firm has submitted copy of commercial invoice specifying import of 5Kg of Aspirin. The invoice is attested by AD (I&E) DRAP Islamabad office dated 11-06-2018. **Omeprazole:** Firm has submitted copy of commercial invoice specifying import of 100Kg of Aspirin. The invoice is attested by AD (I&E) DRAP Islamabad office dated 13-05-2016.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance along with audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

REMARKS OF EVALUATOR

Sr. No.	Observations communicated	Response by the firm
13.	Evidence of import of API including copy of commercial invoice cleared by DRAP field office.	Evidence of import of both APIs attested by AD (I&E), Islamabad is submitted
14.	GMP certificate of API manufacturer issued by regulatory authority of country of origin needs to be submitted.	Valid GMP certificate for omeprazole is yet to be submitted.
15.	Provide certificate of analysis of each batch of API used in the stability studies of the three submitted batches.	Submitted
16.	Provide data of pharmaceutical equivalence against innovator product including data of comparative dissolution profile to justify your formulation development as per the requirement of section 3.2.P.2.2.1.	The firm has submitted that we performed pharmaceutical equivalence against comparator product that is Yosprala 325mg/40mg tablet. But unfortunately we are unable to arrange innovator pack / comparator of one of its strength i.e., Yosprala 81mg/40mg Tablet. Being same dosage form and same kind of release profile of both strengths, the firm has requested to accept the study of higher strength of same product against it lower strength also.

17.	Submit data to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".	The firm has submitted analytical method validation studies.
18.	The drug substance and drug product part of Module III needs to be submitted as per 293rd meeting of registration covering all the sections mentioned in that document.	The firm has submitted details of drug substance and drug product as per 293rd meeting of Registration Board.

Decision: Registration Board decided as follows:

- **to defer registration application of Asprala 81mg/40mg Tablet for submission of pharmaceutical equivalence and comparative dissolution profile with innovator / comparator product of same strength.**
- **to approve registration of Asprala 325mg/40mg Tablet by M/s Global Pharmaceuticals (Pvt.) Ltd. Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Manufacturer will also perform process validation studies on first three commercial batches as per the commitment submitted along with registration application.**

Item No. : Agenda of Evaluator AD PEC-I

Item No. I: Registration Applications for Local Manufacturing of (Human) Drugs
a. New Cases

2360.	Name and address of manufacturer / Applicant	M/s Skim Pharmaceuticals 10/B value addition city Faisalabad
	Brand Name +Dosage Form + Strength	SKIFENAC Diclofenac Sodium 50mg sustain coated pellets
	Diary No. Date of R& I & fee	Each capsule contains: Diclofenac sodium sustained release pellets….50mg Source of Pellets: M/s Vision Pharmaceutical Islamabad
	Composition	Dy. No. 20075 dated 04-06-2018 Rs20,000/-Dated 04-06-18
	Pharmacological Group	NSAID
	Type of Form	Form-5
	Finished Product Specification	USP
	Pack Size & Demanded Price	20,s capsule in Alu/PVC Blister & As per SRO
	Approval Status of Product in Reference Regulatory Authorities	Diclofenac sodium 25mg & 50mg) gastro resistant **Tablet** by M/s Daxcel Pharma, MHRA Approved.
	Me-too Status	Lifdik 50mg capsule by M/s Goodmann, Reg No. 52586
	GMP Status	DML No. 000830 issue dated 03-12-2015 Panel recommended additional sections including Capsule (general) dated 19-01-2018
	Remarks of the Evaluator-I	The firm initially applied for Sustained Release Capsule and then it was revised as Enteric coated Capsule as per reference product and submitted fee Rs. 5,000/- vide challan number 0300788 dated 13/04/2020.
	Decision: Deferred for evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.	
2361.	Name and address of manufacturer / Applicant	M/s AGP Limited, B-23, S.I.T.E. Karachi
	Brand Name +Dosage Form + Strength	Paliga XR 1.5mg Tablet

	Diary No. Date of R& I & fee	Dy.No 38171 dated 20-11-2018 Rs.20,000/-
	Composition	Each Film Coated Extended Release Tablet Contains: Paliperidone…….1.5mg
	Pharmacological Group	Antipsychotic
	Type of Form	Form 5
	Finished Product Specification	MFG Spcs
	Pack Size & Demanded Price	14's, Rs. 1000/-
	Approval Status of Product in Reference Regulatory Authorities	NVEGA® (paliperidone) Extended-Release Tablets (1.5mg, 3mg, 6mg, 9mg) by M/s Janssen Pharmaceuticals, Inc., USFDA Approved.
	Me-too Status	Paliris-XR Tablets 1.5mg by M/s Genome Pharmaceuticals (Pvt) Ltd. Reg. No. 079270
	GMP Status	GMP granted on the basis of inspection dated 16.10.2018
	Remarks of the Evaluator-I	The reference product Invega, approved by USFDA is prolonged release tablet manufactured by OROS Push-Pull Technology and the public assessment report describes that osmotic pressure delivers paliperidone from the dosage form at a controlled rate. While the firm has stated that the product will be manufactured with simple matrix system.
	Decision: Deferred for clarification regarding method of manufacturing as the reference product is manufactured by OROS Push-Pull Technology while the submitted method of manufacturing for applied product is different.	
2362.	Name and address of manufacturer / Applicant	M/s AGP Limited, B-23, S.I.T.E. Karachi
	Brand Name +Dosage Form + Strength	Paliga XR 9mg Tablet
	Diary No. Date of R& I & fee	Dy.No 38174 dated 20-11-2018 Rs.20,000/-
	Composition	Each Film Coated Extended Release Tablet Contains: Paliperidone…9mg
	Pharmacological Group	Antipsychotic
	Type of Form	Form 5D
	Finished Product Specification	MFG Spcs
	Pack Size & Demanded Price	14's price Rs. 4000/-
	Approval Status of Product in Reference Regulatory Authorities	NVEGA® (paliperidone) Extended-Release Tablets (1.5mg, 3mg, 6mg, 9mg) by M/s Janssen Pharmaceuticals, Inc., USFDA Approved.
	Me-too Status	Could not be confirmed
	GMP Status	GMP granted on the basis of inspection dated 16.10.2018
	Remarks of the Evaluator-I	• The reference product Invega, approved by USFDA is prolonged release tablet manufactured by OROS Push-Pull Technology and the public assessment report describes that osmotic pressure delivers paliperidone from the dosage form at a controlled rate. While the firm has stated that the product will be manufactured with simple matrix system. • Me too status could not be confirmed.
	Decision: Deferred for; • **Clarification regarding method of manufacturing as the reference product is manufactured by OROS Push-Pull Technology while the submitted method of manufacturing for applied product is different.** • **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.**	
2363.	Name and address of manufacturer / Applicant	M/s AGP Limited, B-23, S.I.T.E. Karachi
	Brand Name +Dosage Form + Strength	Paliga XR 6mg Tablet
	Diary No. Date of R& I & fee	Dy.No 38173 dated 20-11-2018 Rs.20,000/- Dated

	Composition	Each Film Coated Extended Release Tablet Contains: Paliperidone…6mg
	Pharmacological Group	Antipsychotic
	Type of Form	Form 5
	Finished Product Specification	MFG Spcs
	Pack Size & Demanded Price	14's price Rs. 2700/-
	Approval Status of Product in Reference Regulatory Authorities	NVEGA® (paliperidone) Extended-Release Tablets (1.5mg, 3mg, 6mg, 9mg) by M/s Janssen Pharmaceuticals, Inc., USFDA Approved.
	Me-too Status	Avega 6mg Tablets by M/s Biogen Pharma, Reg No. 080370
	GMP Status	GMP granted on the basis of inspection dated 16.10.2018
	Remarks of the Evaluator-I	The reference product Invega, approved by USFDA is prolonged release tablet manufactured by OROS Push-Pull Technology and the public assessment report describes that osmotic pressure delivers paliperidone from the dosage form at a controlled rate. While the firm has stated that the product will be manufactured with simple matrix system.
	Decision: Deferred for clarification regarding method of manufacturing as the reference product is manufactured by OROS Push-Pull Technology while the submitted method of manufacturing for applied product is different.

	Composition	Each Film Coated Extended Release Tablet Contains: Paliperidone……3mg
	Pharmacological Group	Antipsychotic
	Type of Form	Form 5
	Finished Product Specification	MFG Spcs
	Pack Size & Demanded Price	14's price Rs. 1700/-
	Approval Status of Product in Reference Regulatory Authorities	NVEGA® (paliperidone) Extended-Release Tablets 1.5mg, 3mg, 6mg, 9mg) by M/s Janssen Pharmaceuticals, Inc., USFDA Approved.
	Me-too Status	Paliris-XR Tablets 3mg by M/s Genome Pharmaceuticals (Pvt) Ltd. Reg. no. 079271
	GMP Status	GMP granted on the basis of inspection dated 16.10.2018
	Remarks of the Evaluator-I	The reference product Invega, approved by USFDA is prolonged release tablet manufactured by OROS Push-Pull Technology and the public assessment report describes that osmotic pressure delivers paliperidone from the dosage form at a controlled rate. While the firm has stated that the product will be manufactured with simple matrix system.
	Decision: Deferred for clarification regarding method of manufacturing as the reference product is manufactured by OROS Push-Pull Technology while the submitted method of manufacturing for applied product is different.	
2365.	Name and address of manufacturer / Applicant	M/s Getz Pharma Pvt Ltd, 29-30/27, Korangi Industrial Area, Karachi.
	Brand Name +Dosage Form + Strength	Safiget 50mg Tablets
	Diary No. Date of R& I & fee	Form-5D Dy.No 37929 dated 16-11-2018 Rs.50,000/- Dated 15-11-2018
	Composition	Each Film Coated Tablet Contains: Safinamide as Mesylate……50mg
	Pharmacological Group	antiparkinsonism
	Type of Form	Form 5D

	Finished Product Specification	Mfg Spec
	Pack Size & Demanded Price	30's, price Rs. 12,000/-
	Approval Status of Product in Reference Regulatory Authorities	Xadago (50mg & 100mg) film coated tablet by M/s US WORLDMEDS LLC, USFDA Approved
	Me-too Status	N/A
	GMP Status	Last inspection report dated 26/06/2018 acceptable level of GMP compliance.
	Remarks of the Evaluator-I	The firm has claimed In-House specifications and the product is not present in available pharmacopoeia (USP, BP, IP, JP). 06 month submit stability data (Real time and Accelerated stability studies) as per guidelines/decision of 278th meeting Registration Board of 03 batches.
	Decision: Deferred for submission of stability data of 03 batches as per the guidelines/decision of 293rd meeting of Registration Board.	
2366.	Name and address of manufacturer / Applicant	M/s Getz Pharma Pvt Ltd, 29-30/27, Korangi Industrial Area, Karachi.
	Brand Name +Dosage Form + Strength	Safiget 100mg Tablets
	Diary No. Date of R& I & fee	Form-5D Dy.No 37928 dated 16-11-2018 Rs.50,000/- Dated 15-11-2018
	Composition	Each Film Coated Tablet Contains: Safinamide as Mesylate……100mg
	Pharmacological Group	antiparkinsonism
	Type of Form	Form 5D
	Finished Product Specification	Mfg Spec
	Pack Size & Demanded Price	30's, price Rs. 20,000/-
	Approval Status of Product in Reference Regulatory Authorities	Xadago (50mg & 100mg) film coated tablet by M/s US WORLDMEDS LLC, USFDA Approved
	Me-too Status	N/A
	GMP Status	Last inspection report dated 26/06/2018 acceptable level of GMP compliance.
	Remarks of the Evaluator-I	Stability data (Real time and Accelerated stability studies) as per guidelines/decision of 278th meeting Registration Board of 03 batches.
	Decision: Deferred for submission of stability data of 03 batches as per the guidelines/decision of 293rd meeting of Registration Board.	
2367.	Name and address of manufacturer / Applicant	M/s Navegal Laboratories, 41/1-A2, Phase-1, Industrial Estate, Hattar
	Brand Name +Dosage Form + Strength	Diclotol 50mg/200mcg Tablets
	Diary No. Date of R& I & fee	Dy.No 38150 dated 19-11-2018 Rs.12,000/-
	Composition	Each Tablet Contains: Diclofenac Sodium (enteric coated core)…….……50mg Misoprostol (1% HPMC Dispersion)…..……..…200mcg
	Pharmacological Group	Anti-rheumatic
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack Size & Demanded Price	2×10's, price as per SRO
	Approval Status of Product in Reference Regulatory Authorities	Arthrotec 50 modified-release tablets by M/s Pfizer, MHRA approved
	Me-too Status	Prostol Tablets by M/s Flow Pharmaceutical (Pvt) Ltd, 17-KM Sheikhupura Road, Lahore, Reg. No. 026839
	GMP Status	The GMP of the firm was satisfactory on the basis of inspected conducted on 11/03/2019. (Sections: Tablet general, Tablet Psychotropic, Capsule , General, Capsule Cephalosporin, Dry Powder Cepalosporin)

	Remarks of the Evaluator-I	The composition of applied product is different from the reference product and is given in the following; Each delayed release tablet contains: Diclofenac sodium…..50mg Misoprostol…….200mcg While the composition of the reference product is; Each tablet contains: Diclofenac Sodium (enteric coated core)…..……50mg Misoprostol (1% HPMC Dispersion)…..……..…200mcg Clarify or otherwise submit revised formulation along with the submission of requisite fee.
	Decision: Deferred for submission of evidence of approval of applied formulation as "delayed release tablets" in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting or else the formulation may be revised in accordance with reference product along with submission of requisite fee.	
2368.	Name and address of manufacturer / Applicant	M/s Navegal Laboratories, 41/1-A2, Phase-1, Industrial Estate, Hattar

		Remaining fee of Rs:50000/- as product is already registered in Pakistan.	Remaining fee of Rs:50000/- Submitted. Deposit slip No# 1914215 Dated: 16-10-2019
		Justify use of Type II glass as primary packaging material while in reference agency Type I glass is used as primary packaging material.	According to the European Pharmacopoeia "3.2.1 Glass Containers for Pharmaceuticals Use" Type II glass containers are suitable for most acidic and neutral ,aqueous preparations whether or not for parenteral administration. Our product is near neutral and aqueous

			solution. Therefore, Type II glass is suitable for this product.
	Decision of 293rd meeting: Deferred for Clarification/Justification on scientific grounds for use of Type II glass container as primary packaging material for applied formulation or otherwise evidence of reference product packed in Type II glass container. **Evaluation by PEC:** The firm has provided the reference of the following product approved by MHRA which has been verified with following details; Fluconazole 2 mg/ml Solution for Infusion **2. Qualitative and quantitative composition** 50 ml/100 ml glass vials: 1 ml solution for infusion contains 2 mg of fluconazole. **6.5 Nature and contents of container** Glass vials: Clear type I or II glass vial, sealed with chlorobutyl rubber stopper and sealed with a flip-off aluminium cap. The official website was accessed on 29/06/2020. https://mhraproductsproduction.blob.core.windows.net/docs/c10d2a9d32a84c9c845161dedc2e587247c0ff58 **Decision: Deferred for clarification of DSL details since Form-5A is from M/s Bristol Mayer Biotech whereas renewal application submitted is for M/s. Initially in form 5A firm have mentioned "do not store above 30^0C while submitted real time stability data at 2-80C. now firm submit revised form-5A without any fee.
	Decision of 293rd meeting: Deferred for submission of Letter of Authorization from Product License Holder. Submission by the firm: The firm ha submitted copy of Letter of Authorization, the contents of which are similar to that of letter of authorization submitted earlier except the name of and address of the authorizing agen i.e M/s Pharmathen International S.A located at industrial park sapes rodopi prefecture, block number 5, ropdopi 69300, Greece instead of M/s Pharmathen Global B.V. located at Van Heuven goedhartlaan 9, 1181 le,Amstelveen, Netherland. It is also pertinent to mention that the signing authority on both the letters is same. Moreover, the stamp on the letter submitted earlier clearly mentions Amsterdem while the stamp on recently submitted letter is not clear to verify the contents. **Decision: Deferred for further deliberation regarding authenticity of submitted documents.**

	Type of Form	Form 5-A
	Diary No. & Date of R& I	Dy. No 31413 Dated 18-09-2018
	Fee including differential fee	Rs. 100,000/- Dated 18-09-2018
	Brand Name +Dosage Form + Strength	Cefquinome Oral Suspension 2.5% 100ml
	Composition	Each ml contains: Cefquinome sulfate…….25mg
	Finished Product Specification	Firm claim innovators specification
	Pharmacological Group	fourth-generation cephalosporin antibiotic
	Shelf life	3 years
	Demanded Price	Decontrolled
	Pack size	1x100ml bottle Oral Suspension
	RRA status	Combactan of MSD USA
	Stability studies	Firm has submitted long term (36 months) at 30+2oC, 65+5%RH & accelerated (06 months) stability data at 40+ 2oC, 75+ 5% RH for three batches.
	Detail of certificates attached	Copy of CoPP is submitted Copy of Provided Sole agency agreement with M/s NINHUA Group Co., Ltd, 21 Jiangxia st. Ningbo, P.R. China which is sole and exclusive exporting subjected products of the manufacturer in Pakistan and manufacturer shall not sell the above-mentioned items to Pakistan marketed by itself or through any other third parties.
	Remarks of the Evaluator.	
	Decision of 293rd meeting: Deferred for submission of original legalized CoPP from concerned regulatory Authority of exporting country. Submission by the firm:	

	The firm has submitted original legalized CoPP (no.2019121601) issue dby Agricultural office of Shijiazhuang High-tech zone, China on 16/12/2019. The product is available in free sale. The facilitie and operations conform to WHO-GMP. **Decision: Approved with Innovator's specifications as per Policy for inspection of Manufacturer abroad.**

Miscellaneous deferred cases of Import (Human)

Registration Board in 295th meeting had decided to defer the below mentioned 5 cases and decided that the Secretary Registration Board will confirm from the manufacturer (M/a Shanxi PUDE Pharmaceutical Co., Ltd., MAH Holder) via email regarding the authenticity of submitted stability data. Accordingly, the Secretary Registration Board communicated with the firm regarding the submitted stability data of relevant batches.

The reply received from the relevant firm is being reproduced hereby before the Board.

Subject: Confirmation of Authenticity of Stability Data

To: <abroabdullah@gmail.com>

Dear Abdullah,

Thanks for your email. We confirmed stability data of products for the batches mentioned in below mentioned table is true.

Sr.#	Brand name & Composition	Stability Batch No. & Manufacturing Date
1.	METHOTREXATE for IV injection 50mg/vial Each vial contains: Methotrexate…. 50mg	Batch No: 1845027 Mfg date: June 5, 2017 Batch No: 1845028 Mfg date: June 6, 2017 Batch No: 1845029 Mfg date: June 07, 2017
2.	METHOTREXATE for IV injection 100mg/vial Each vial contains: Methotrexate…. 100mg	Batch No: 19456620 Mfg date: July 09, 2017 Batch No: 19456621 Mfg date: July 10, 2017 Batch No: 19456622 Mfg date: July 11, 2017
3.	METHOTREXATE for IV injection 500mg/vial Each vial contains: Methotrexate…. 500mg	Batch No: 2010100 Mfg date: Aug 15, 2017 Batch No: 2010101 Mfg date: Aug 16, 2017 Batch No: 2010102 Mfg date: Aug 18, 2017
4.	VINORELBINE 10mg Lyophilized powder for injection Each vial contains: Vinorelbine Tartrate Eq. to Vinorelbine….. 10mg	Batch No: 21000401 Mfg date: Sep 15, 2017 Batch No: 21000402 Mfg date: Sep 16, 2017 Batch No: 21000403 Mfg Date: Sep 17, 2017
5.	VINORELBINE 50mg Lyophilized powder for injection Each vial contains: Vinorelbine Tartrate Eq. to Vinorelbine….. 50mg	Batch No: 21000404 Mfg date: Sep 18, 2017. Batch No: 21000405 Mfg date: Sep 19, 2017. Batch No: 21000406 Mfg Date: Sep 19, 2017.

Best regards

	International Availability	USFDA Approved
	Me-too status	Methogen by Gene Tech Laboratories
	Stability studies	
	Detail of certificates attached	• Original legalized CoPP (certificate No. (20150006) issued by Shanxi Food and Drug Administration valid till 31/08/2017 *declaring the free sale of applied product and GMP compliant status of the manufacturer*.
	Remarks of the Evaluator.	Reason for Discontinuation cannot be confirmed. The formulation in other reference countries is registered as solution for injection. Firm has initially submitted real-time stability data conducted at 25 ± 2oc and 65 ± 5%RH, letter was issued to submit stability study data conducted according to the conditions of zone IV-A. In response to the letter firm has submitted stability data sheet specifying stability conditions as 30 ± 2oc and 65 ± 5%RH with same results at each time point.
	Decision of 274th meeting of Registration Board: Registration Board deferred the cases for: i. Submission of clarification regarding since the data/assay values in the stability studies are unjustifiable/irrational as there is no difference in assay values of initially submitted stability data (at 25 ± 2oc and 60 ± 5%RH) and the stability data submitted after issuance of letter (at 30 ± 2oc and 65 ± 5%RH). Since this ambiguity shows that the revised data (at 30 ± 2oc and 65 ± 5%RH) is not true j. Detail of diluent to be used for reconstitution. k. Evidence of approval of the product in reference regulatory authorities in the same strength/volume/dosage form. l. Original, legalized and valid CoPP Evaluation by PEC: i. The firm has submitted Real Time Stability data (24 months) and Accelarated stability data (6months) of 3 batches (1845027 Mfg date:June5, 1845028 Mfg date: June 6, 2017, 1845029 Mfg	

	date:June 07 2017). However, the firm has not submitted any reply/clarification regarding previously submitted stability data of the same product. j. Detail of diluent used for reconstitutions are 5% dextrose or 0.9% NaCL. k. The product approved in USFDA with same strength and dosage form that is 50mg Powder For injection is discontinued and reason for discontinuation is not mentioned on the official website of the authority while 50mg/2ml solution for injection is approved in USFDA. However, another higher strength is approved in USFDA, Methotrexate For Injection by M/s Fresenius Kabi USA (Each vial contains Methotrexate as sodium.....1000mg with no preservative). Moreover, USP monograph for Methotrexate For Injection is also available. l. Original legalized CoPP (certificate No. (2018002) issued by Shanxi Food and Drug Administration valid till 26/02/2020 declaring the free sale of applied product and GMP compliant status of the manufacturer.	
	Decision of 295th meeting: Registration Board deferred the case and decided that Secretary Registration Board will confirm from manufacturer M/s Shanxi PUDE Pharmaceutical Co., Ltd (Marketing Authorization Holder) via e-mail regarding authenticity of the latest submitted stability data. **Decision: Approved as per Policy for inspection of Manufacturer abroad. Stability data will be verified by panel during inspection of the firm.**

p. The salt form of the drug as it is different from the approved product in reference countries.
q. Finished product specifications.
r. Sole agency agreement

Evaluation by PEC:

m. Detail of diluent used for reconstitutions are 5% dextrose or 0.9% NaCL.
n. Reference formulation is NAVELBINE® 10 mg/ml concentrate for solution for infusion (UK) while applied is VINORELBINE Injection 10mg Lyophilized powder for injection.
o. Legalized CoPP (certificate No. 2018006) issued by Shan Xi Food and Drug Administration valid till 26/02/2020 declaring the free sale of applied product and GMP compliant status of the manufacturer and showing Correct salt form is submitted.
p. Firm submitted CFDA standard specification.
q. The firm has submitted 24 months Real time stability and 06 months Accelerated stability data of 3 batches (21000404 Mfg date: Sep 18, 2017, 21000405 Mfg date: Sep 19, 2017, 21000406 Mfg Date: Sep 19, 2017). However the firm has not submitted the reply/clarification regarding previously submitted stability data.
r. Salt form

Decision of 295th meeting: Registration Board deferred the case and decided that Secretary Registration Board will confirm from manufacturer M/s Shanxi PUDE Pharmaceutical Co., Ltd (Marketing Authorization Holder) via e-mail regarding authenticity of the latest submitted stability data.

Decision: Approved with innovators specifications as per Policy for inspection of Manufacturer abroad. Stability data will be verified by panel during inspection of the firm.

Registration Board in 295th meeting had decided to defer the below mentioned 02 cases and decided Secretary Registration Board will confirm from the manufacturer via email regarding the authenticity of submitted stability data. Accordingly, the Secretary Registration Board communicated with the firm regarding the submitted stability data of relevant batches.

The reply received from the relevant firm is being reproduced hereby before the Board.

Dear ABDULLAH

Sorry for my late reply.

we (Cisen Pharmaceutical Co. Ltd.) confirm that the stability data of IRINOTECAN INJECTION 40mg/2mL and IRINOTECAN INJECTION 100mg/5mL with the following information was submitted by our company.

Sr.	Brand Name & Composition	Stability Batch No.	Manufacturing Date
1.	IRINOTECAN injection 40mg: Each ampoule (2mL) contains: Irinotecan hydrochloride trihydrate……40mg	19277800	Oct 20, 2017
		19277801	Oct 21, 2017
		19277802	Oct 22, 2017
2.	IRINOTECAN injection 100mg: Each ampoule (5mL) contains: Irinotecan hydrochloride trihydrate……100mg	19277803	Oct 23, 2017
		19277804	Oct 24, 2017
		19277805	Oct 25, 2017

Please see attachment for STATEMENT.

Best regards!

Subject: Re:Confirmation of Authenticity of Stability Data

Aug.31, 2020

STATEMENT

To whom it may concern,

Hereby, we (Cisen Pharmaceutical Co. Ltd.) confirm that the stability data of IRINOTECAN INJECTION 40mg/2mL and IRINOTECAN INJECTION 100mg/5mL with the following information was submitted by our company.

Sr.	Brand Name & Composition	Stability Batch No.	Manufacturing Date
1.	IRINOTECAN injection 40mg:	19277800	Oct 20, 2017
	Each ampoule (2mL) contains:	19277801	Oct 21, 2017
	Irinotecan hydrochloride trihydrate……40mg	19277802	Oct 22, 2017
2.	IRINOTECAN injection 100mg:	19277803	Oct 23, 2017
	Each ampoule (5mL) contains:	19277804	Oct 24, 2017
	Irinotecan hydrochloride trihydrate……100mg	19277805	Oct 25, 2017

Sincerely yours,
Quality Management Department

For and on behalf of
Cisen Pharmaceutical Co. Ltd.

	Stability studies	
	Detail of certificates attached	Original legalized CoPP (certificate No. 151100B0/62246) issued by Jining Food and Drug Administration valid till 14/12/2017 *declaring the free sale of applied product and GMP compliant status of the manufacturer.*
	Remarks of the Evaluator.	The firm has claimed In House manufacturing specifications and the product is present in USP. The product is not available in reference countries as Powder for Solution but it is available as Solution for injection. Firm has initially submitted real-time stability data conducted at 25 ± 2oc and 65 ± 5%RH, letter was issued to submit stability study data conducted according to the conditions of zone IV-A. In response to the letter firm has submitted stability data sheet specifying stability conditions as 30 ± 2oc and 65 ± 5%RH with same results at each time point
	Decision of 274th meeting of Registration Board: Registration Board deferred the cases for: Submission of clarification regarding since the data/assay values in the stability studies are unjustifiable/irrational as there is no difference in assay values of initially submitted stability data (at 25 ± 2oc and 60 ± 5%RH) and the stability data submitted after issuance of letter (at 30 ± 2oc and 65 ± 5%RH). Since this ambiguity shows that the revised data (at 30 ± 2oc and 65 ± 5%RH) is not true Detail of diluent to be used for reconstitution. Evidence of approval of the product in reference regulatory authorities in the same strength/volume/dosage form. Now the firm has submitted: In response to decision of Registration Board the firm has submitted (dated 15th August 2017, and after that on dated 13th December 2019 of three batches is submitted. Different years but same batch no., assay and other parameters as well. Reference formulation is Each vial with 2 ml contains 40 mg Irinotecan hydrochloride trihydrate (UK) while applied is Each ampoule (2ml) contains: Irinotecan…… 40mg CoPP valid till 14-12-2017 Copy of valid DSL Composition different from reference?	
	Evaluation by PEC: The composition of the product as presented in 274th meeting is not correct, the correct composition of the product is given in the following confirmed from the original dossier. Each 2ml Ampoule contains: Irinotecan hydrochloride trihydrate……20mg (equivalent to Irinotecan……17.33mg) Approval status of the product in reference regulatory authorities is confirmed. CAMPTO 20 mg/ml concentrate for solution for infusion (2ml Vial, 5ml Vial, 15ml Vila) by M/s Pfizer limited, MHRA Approved. The firm has submitted 24 months Real time stability and 06 months Accelerated stability data of 3 batches (19277800 Mfg date: Oct 20, 2017, 19277801 Mfg date: Oct 21, 2017, 19277802 Mfg Date: Oct 22, 2017). However the firm has not submitted the reply/clarification regarding previously submitted stability data. COPP is not valid and was expired on 14/12/2017.	
	Decision of 295th meeting: Registration Board deferred the case and decided that Secretary Registration Board will confirm from manufacturer M/s Shanxi PUDE Pharmaceutical Co., Ltd (Marketing Authorization Holder) via e-mail regarding authenticity of the latest submitted stability data. **Decision: Approved as per Policy for inspection of Manufacturer abroad. Stability data will be verified by panel during inspection of the firm.**

The address of manufacturing site mentioned on Form 5A is different from the address mentioned on GMP certificate. Clarification is required with documented evidence. (QC and Batch Release+Headquarter) Biovet Joint Stock Company 39, Petar Rakov St. 4500 Peshtera, Bulgaria (Manufactures) 48 Vasil Petleshkov Str Peshtera 4550,Bulgaria c. The product license holder mentioned on free sale certificate is different from the product license holder mentioned on Form 5A. Clarification is required. Firm has submitted that product license holder is Biovet Joint Stock Company 39, Petar Rakov St. 4550 Peshtera, Bulgaria and the same has been mentioned on Free sale Certificate.	
	Decision of 285th meeting of RB: Deferred for above clarifications Now the firm has submitted the following documents: g. It is a 1kg sachet h. **Original Legalized CoPP (Certificate#. BG 5/2019)** issued on 29-01-2019 by Bulgarian Food Safety Agency Ministry of Agriculture, Food and Forestry 15 Pencho Slaveikov Blvd. Sofia 1606, Bulgaria declaring the free sale of applied product and GMP compliant status of the manufacturer i.e., BIOVET Joint Stock Company**, 39 Petar Rakov Str. /48 Vasil Petleshkov Str., Peshtera 4550, Bulgaria**. Product License Holder of applied product is M/s Huvepharma NV, Uitbreidingstraat 80, 2600 Antwerpen, Belgium. (Revised form-5A showed that Address of QC, Batch release and Headquarter: **39, Petar Rakov Street,** 4550 Peshtera, Bulgaria while address of manufacturing site is **48 vasil Petleshkov street**, Peshtera 4550, Bulgaria) i. The firm has submitted original and legalized letter of authorization for the following products; Hydrodoxx 500mg Vetmulin 450mg Tilmovet 250mg **Decision: Deferred for confirmation whether the applicant has applied same addresses of manufacturing sites as per CoPP.**	
2591.	**Name and address of Applicant**	M/s Poul Med Enterprises 9-C, Amber Estate Building, Balouch colony, main shahrah-e-Faisal, Karachi Pakistan
	Name and address of manufacturer	S.P. VETERINARIA, S.A. Crta. Reus-Vinyols, Km. 4.1 P.O. Box 60 43330 Riudoms (Tarrangona) Spain
	Marketing authorization holder	S.P. VETERINARIA, S.A. Crta. Reus-Vinyols, Km. 4.1 P.O. Box 60 43330 Riudoms (Tarrangona) Spain
	Name of exporting country	Spain
	Type of Form	Form 5-A
	Diary No. & Date of R& I	Dy. No 26825 Dated 06-08-2018
	Fee including differential fee	Rs. 100,000/- Dated 06-08-2018
	Brand Name +Dosage Form + Strength	COLMYC 20% Oral solution for administration in drinking water
	Composition	Each ml contains: Enrofloxacin…….200mg
	Finished Product Specification	USP
	Pharmacological Group	Antibacterial
	Shelf life	3 years store below 30^0C

	Demanded Price	Decontrolled
	Pack size	500ml, 1L,5L
	Me-too status	EL-FLOXACIN LIQUID of M/s ELKO ORGANISATION,
	Stability studies	Firm has submitted long term (36 months) at 30ºC 75±5%RH & accelerated (06 months) stability data at 40ºC, 75±5% RH for three batches.
	Detail of certificates attached	**Original Legalized CoPP dated 14th May 2018** by ministry of health, social services and equality (Department of veterinary medicines) declaring the free sale of applied product and GMP compliant status of the manufacturer i.e., S.P. VETERINARIA, S.A. Crta. Reus-Vinyols, Km. 4.1 P.O. Box 60 43330 Riudoms (Tarrangona) Spain
	Remarks of the Evaluator.	Applied product is **Suspension as per USP monograph but applied product is solution dosage form**.
	Decision of 292nd meeting of Registration Board: Deferred for following: Applied product is suspension as per USP monograph, but applicant apply solution dosage form. M/s Poul Med submitted that the European Pharmacopoeia monograph number 2229 for Enrofloxacin (Enrofloxacin for veterinary use) is the only monograph available for Enrofloxacin in the European Pharmacopoeia. It describes the tests and specifications that the raw material (enrofloxacin) must follow to comply with the European Pharmacopoeia standards. It does not state that it is for suspension product forms only. Decision of 293rd meeting: Registration Board deferred the application for dosage form clarification. Submission by the firm: The firm has submitted that the dosage form of the applied product is Oral Solution while in USP describes the monograph for Oral Suspension. The firm has requested for grant of registration with innovator's specifications. Moreover, the firm has submitted fee Rs. 5,000/- with the reply (challan number 0539489 dated 22/04/2020). **Decision: Deferred for confirmation of composition of formulation in the database of importing country.**	

Case No. 5: Import cases (Human) Form 5F

		applied product and GMP compliant status of the manufacturer.
	Details of letter of authorization / sole agency agreement	Product specific sole agency agreement is submitted.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No 7963 Dated 10-06-2019
	Details of fee submitted	Rs. 100,000/- Dated 29-05-2019
	The proposed proprietary name / brand name	Alvocade Single use vial containing 3.5mg powder for injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Bortezomib powder….3.5mg
	Pharmaceutical form of applied drug	Powder for Injection IV/Sc
	Pharmacotherapeutic Group of (API)	Anticancer
	Reference to Finished product specifications	In-House
	Proposed Pack size	1 vial box
	Proposed unit price	73.2 Dollars
	The status in reference regulatory authorities	Bortezomib 3.5 mg powder for solution for injection (UK)
	For generic drugs (me-too status)	Egybort injection by M/s Revive Pharma, Reg. No. 090738
	Module-II (Quality Overall Summary)	The submitted QOS is as per WHO-PD template.
	Name, address of drug substance manufacturer	M/s Laurus Labs Limited Plot no.21 Jawaharlal Nehru Pharma City, Parawada Visakhapatanma 531021 Andra Pradesh India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Submitted. Real time at -20^{o}C±5^{o}C for 12 months Accelerated study at 5^{o}C±3^{o}C for 6 months

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted complete data of formulation development process. Firm has submitted comparative quantitative composition of applied product along with reference product. Firm has also submitted comparative table summarizing results of all physico-chemical tests performed on 5 batches of applied product and one batch of the reference product i.e. Omnipaque injection.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Glass vial
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30°C ±2°C / 75% ± 5% RH for 12 months.
	Evaluation by PEC:	
	Decision: Approved with Innovator's specifications as per Policy for inspection of Manufacturer abroad.

		confirms the following manufacturer M/s Sichuan Huiyu Pharmaceutical Ltd. No. 5 Road Chengxi economic area, Neijiang, Sichuan-641000, China has been inspected dated 21/08/2017, it is considered that it complies with the principle and guideline of GMP laid down in Directive 2003/EC.
	Details of letter of authorization / sole agency agreement	Copy of Exclusive Distributionship Agreement is submitted. M/s Seacross Pharmaceuticals Co., Ltd., Stanmore Bussiness & Innovation Centre, Stanmore Place Howard Road, Stanmore London HA7 1BT, UK. authorizes M/s Ahsan Pharma, Zeenat Medicine Market, A-5, First Floor, Napier Road, Karachi for marketing and selling the the Seacross' products including the applied product.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No 3687 Dated 16-04-2019
	Details of fee submitted	Rs. 100,000/- Dated 16-04-2019
	The proposed proprietary name / brand name	Azacitidine Seacross powder for suspension for injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Azacitidine……..100mg
	Pharmaceutical form of applied drug	Powder for suspension for injection
	Pharmacotherapeutic Group of (API)	Antineoplastic agent
	Reference to Finished product specifications	USP
	Proposed Pack size	1's 30ml glass Vial
	Proposed unit price	Price as per SRO
	The status in reference regulatory authorities	VIDAZA of Baxter Oncology GmbH 33790 Halle/Westfalen Germany
	For generic drugs (me-too status)	Could not be confirmed
	Module-II (Quality Overall Summary)	Submitted.
	Name, address of drug substance manufacturer	M/s Chongqing Taihao Pharmaceutical Co., Ltd. No.105, Chuangye Road, Erlang, Jiulongpo District, Chongqing, P. R. China 400039

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Real time stability studies (25ºC±2ºC 60%±5% RH) 24 months and Accelerated study (40ºC±2ºC 75%±5% RH) 6 months of 3 batches.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is submitted against the innovator product VIDAZA® by M/s Colgene. As the product is intended to be administered Sc, therefore In-vitro dissolution testing at 37ºC against the innovator product is submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Type I glass vial
	Stability study data of drug product, shelf life and storage conditions	Real time stability studies (30ºC±2ºC 65%±5% RH) 36 months and Accelerated study (40ºC±2ºC 75%±5% RH) 6 months of 3 batches.
Evaluation by PEC: FSC issuing authority Neijiang Bureau of Ministry of Commerce of the people's republic of China which is not concern regulatory authority i.e. China Food & Drug Administration.		
Decision: Deferred for issuance of CoPP from relevant regulatory authority.

	1.4.1	Application is for the registration of: Generic Drug Product
	1.4.1	Pharmaceutical product is intended for: Domestic sale
	1.4.2	For imported products, please specify one of following: Finished Pharmaceutical Product Import
1.5		Detailed Information of Drug, Dosage From & Labelling Claims Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug.

		Nanoparticle Albumin bound Paclitaxel USP
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit Each vial contains: Nanoparticle Albumin bound Paclitaxel USP …..100mg
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trademark certification / clearance. Nab-Xelpac Injection (Lyophilized Powder)
	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. 1's & As per SRO
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) Antineoplastic agents
	1.5.6	Pharmacopoeial reference / Status of applied formulation USP
	1.5.7	Route of administration IV
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price ONCOTAXEL 100MG INJECTION of M/S. PHARMEVO (PRIVATE) LIMITED,
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. Abraxane 5 mg/ml powder for suspension for infusion (Netherlands)
	1.5.10	Dosage form of applied drug Injection (Lyophilized Powder) : 100mg
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens Submitted
	1.5.12	Description of Batch numbering system
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & Adverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard.
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined. Submitted
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so.
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant.

		Submitted
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals. Submitted
	1.5.20	Other commitment e.g., regarding stability studies etc.
	1.5.21	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.
	1.5.22	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
1.6		Miscellaneous Information Submitted
	1.6.5	Drug Substance related Document including following: Name and address of API manufacturer.
	• **Original Legalized CoPP (Certificate#. DA/6-110/2016/3677)** issued on 18-02-2018 by Govt. of the people's republic of Bangladesh, Ministry of Health & Family welfare, Directorate General of Drug Administration, declaring the free sale of applied product and GMP compliant status of the manufacturer i.e., M/s BEACON Pharmaceuticals Limited. • Copy of Product specific sole agency agreement is submitted.

Case no. 01 Review of the previously presented cases

Following application was approved in 286th meeting of Registration Board held on 14th - 16th November, 2018. During subsequent processing of the said case, it has been identified that the evidence of approval of applied formulation i.e., "Each capsule contain Gabapentin …. 60mg" is not verifiable from any of the reference regulatory authorities, rather "Gabapentin 600mg tablet" is approved by US FDA. Hence the case is presented before the Board for re-consideration.

2223	**Name and address of manufacturer / Applicant**	**M/s Parkar Pharma. Plot No. O/7-A, S.I.T.E Area Kotri, Sindh**
	Brand Name +Dosage Form + Strength	Parkopentin 600mg Capsule
	Composition	Each Capsule Contains: Gabapentin…600mg

	Diary No. Date of R& I & fee	Dy.No 24892 dated 18-07-2018 Rs.20,000/- Dated 16-07-2018
	Pharmacological Group	Anti-convulsant
	Type of Form	Form-5
	Finished product Specification	USP
	Pack size & Demanded Price	As per SRO, As per Drap Policy
	Approval status of product in Reference Regulatory Authorities.	**USFDA Approved**
	Me-too status	**Kendis Tablets 600mg Reg # 064838**
	GMP status	The CLB in its 259th meeting held on 29th and 30th March 2018 has considered and approved the grant of DML by way of formulation. g) Tablet (General Section) h) Capsule (General Section) i) Liquid Syrup (General Section)
	Remarks of Evaluator	
	Decision: Registration Board rejected the application as applied formulation is not approved by any reference regulatory authority and firm has not submitted safety and efficacy data.	

Case no. 02 Registration applications for local manufacturing of (Human) drugs

	Finished product Specification	USP
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	MHRA Approved
	Me-too status	Azithromycin 250mg Capsules Unipharma (Pvt) Ltd., 071421
	GMP status	28-09-2017 and good
	Remarks of the Evaluator XIII	• Azithromycin "as" dihydrate is approved in MHRA. • Manufacturing facility / section needs to be confirmed.
	Previous Decision (M-295)	Deferred for evidence of approval of relevant/required manufacturing facility and revision of formulation as per the innovator / reference product along with submission of fee for revision of formulation.
	Firm's response	• Firm has submitted revised master formulation in line with the reference product i.e., "Each Capsule Contains: Azithromycin as dihydrate……250mg" • Firm has submitted copy of letter from Secretary CLB dated 14-02-2020, wherein Renewal of DML w.e.f 05-10-2017 has been issued including the section of "Capsule (general)".
	Decision: Approved as per following composition: **"Each Capsule Contains:** **Azithromycin as dihydrate……250mg"**	
2232.	**Name and address of manufacturer / Applicant**	**M/s Hiranis Pharmaceuticals (Pvt.) Limited, Located at plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi.**
	Brand Name +Dosage Form + Strength	Brethease 100mcg/6mcg Capsule
	Composition	Each capsule contains: Formoterol Fumarate……6mcg Budesonide……100mcg
	Diary No. Date of R& I & fee	Dy.No. 939, 28-10-2013, 20,000/-, 28-10-2013
	Pharmacological Group	Corticosteroid + selective $beta_2$–adrenergic agonist
	Type of Form	Form-5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	As per PRC
	Approval status of product in Reference Regulatory Authorities.	Symbicort 100/6 Turbohaler, Inhalation Powder by M/s AstraZeneca (MHRA Approved)
	Me-too status	Combivair 100mcg + 6mcg capsule of M/s Highnoon

	GMP status	Last GMP inspection conducted on 07-09-2017, and the report concludes that the firm was considered to be operating at satisfactory compliance with GMP guidelines.
	Previous remarks of the Evaluator.	
	Previous decision(s)	Deferred for product specific inspection by Director DTL Karachi alongwith FID with following verifications **(M-243)**: • Confirmation of approval of formulation by the stringent regulatory agencies. • Confirmation of API in ultramicronized form. Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies adopted by the Registration Board in 275th meeting **(M-289)**. Deferred for confirmation of manufacturing and testing facility for DPI as decided by registration Board in 290th meeting **(M-293)**.
	Evaluation by PEC	The firm has submitted copy of product specific inspection conducted by Director DTL, Karachi and Area FID which concludes as below: "*In the light of manufacturing, Quality Control, Storage facilities and technical persons met, the panel is of the view to recommend Registration of a) Aclidum Capsule, b) Brethease 200mcg/6mcg Capsule, c) Brethease 100mcg/6mcg Capsule, d) Brethease 400mcg/6mcg Capsule to the firm under the Drug Act, 1976."* Approval status of applied formulation has been confirmed in MHRA. The firm has submitted as under : • We are using micronized material which is already DPI grade and hence specialized mixer not require to fine the material particle size and same is the industrial practice. (Refer to DRAP panel inspection report & materials CoA's in Annex 2.1 for details). • We have separate manufacturing facility for capsules (General) & capsules (steroidal). With necessary equipment's, mean-while a separate dispensing booth for steroidal dispensing also available. (Refer to DML panel inspection report in Annex 3.) • We have revised the finished product specifications and testing method and include the test of "Uniformity of Delivered Dose" and "Aerodynamic Particle Size Distribution". We also arrange Andersen Cascade Impactor, USP apparatus 1 & 3 for these tests. Manufactured by Copley Scientific, UK. (Revised FP specifications, test method and Cascade impactor qualification documents attached in Annex 4). • We have Andersen Cascade impactor for determining the aerodynamic particle size of API in formulation blend in micron range. United States pharmacopoeia/British Pharmacopoeia recommend any one of the Marple-miller impactor, Andersen Impactor, Multistage Liquid Impinger, Next Generation Impinger etc. (Refer to Annex 1 for details). • We have mentioned our drug delivery device as CAPSUHALE in our submitted product specifications. Similarly we also include target delivery dose in our product specifications. (Refer to Annex 4.1).
	Previous decision (M-295):	Registration Board deferred the case for further deliberation

		in the light of decision of 290th meeting of Registration Board.
2233.	**Name and address of manufacturer / Applicant**	**M/s Hiranis Pharmaceuticals (Pvt.) Limited, Located at plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi.**

With necessary equipment's, mean-while a separate dispensing booth for steroidal dispensing also available. (Refer to DML panel inspection report in Annex 3.) • We have revised the finished product specifications and testing method and include the test of "Uniformity of

		Delivered Dose" and "Aerodynamic Particle Size Distribution". We also arrange Andersen Cascade Impactor, USP apparatus 1 & 3 for these tests. Manufactured by Copley Scientific, UK. (Revised FP specifications, test method and Cascade impactor qualification documents attached in Annex 4). • We have Andersen Cascade impactor for determining the aerodynamic particle size of API in formulation blend in micron range. United States pharmacopoeia/British Pharmacopoeia recommend any one of the Marple-miller impactor, Andersen Impactor, Multistage Liquid Impinger, Next Generation Impinger etc. (Refer to Annex 1 for details). We have mentioned our drug delivery device as CAPSUHALE in our submitted product specifications. Similarly we also include target delivery dose in our product specifications. (Refer to Annex 4.1)
	Previous decision (295):	Registration Board deferred the case for further deliberation in the light of decision of 290th meeting of Registration Board.
	Firm's response: • As concerned of manufacturing controls for particle size of blend, we will use DPI grade API & lactose (Respitose) as an excepient. Therefore, we do not require spiral jet mill/high shear mixer to fine the material. We have arranged micronized Budesonide, formoterol fumarate and inhalation grade lactose (Respitose SV003) in our proposed formulation. • We are also providing our commitment/undertaking for arrangement/purchase of Spiral Jet Mill/high shear mixer, when our applied products have requirements of particle size reduction in future. • We have separate manufacturing facility for capsules (General) & capsules (steroidal). Our Steroidal capsule manufacturing section is also verified by DRAP Officials during their inspections. We also have separate dispensing booth for dispensing of steroidal API. • We have Andersen Cascade impactor for determining the aerodynamic particle size of API in formulation blend in micron range. United States pharmacopoeia/British Pharmacopoeia recommend any one of the Marple-miller impactor, Andersen Impactor, Multistage Liquid Impinger, Next Generation Impinger etc. • We have revised the finished product specifications and testing method and include the test of "Uniformity of Delivered Dose" and "Aerodynamic Particle Size Distribution". We also arrange Andersen Cascade Impactor, USP apparatus 1 & 3 for these tests. Manufactured by Copley Scientific, UK. • We have mentioned our drug delivery device as CAPSUHALE in our submitted product specifications. Similarly, we have also included "target delivery dose" in our product specifications.	
	Decision: Registration Board deliberated upon submission of firm and decided as under: **ix. Approved the applied product considering the fact that the use of micronized DPI grade APIs does not necessitate the use of Spiral Jet Mill/high shear mixer.** **x. The firm shall include the test of Aerodynamic particle size distribution" in the finished product specifications to ensure the required particle size of the formulation blend.** **xi. Firm shall use micronized DPI grade excipient for the applied product.** **xii. Registration letter shall be issued with following label claim:** **"Each capsule contains:** **Formoterol Fumarate (micronized) ……. 6mcg** **Budesonide (micronized) ……..… 200mcg"**

The firm did not submit the same. • Only brand name has been mentioned without label claim. • The firm has provided stability summary sheets, wherein description, identification, loss on drying and assay have been performed as per Zone IV-A. However, USP general chapter has mentioned description, identification, assay and impurities for universdal tests. Furthermore, USP has mentionedadditional tests for powder as: "Oral powders should indicate: "For Oral Use Only". Tests that are considered specific to the type of powders include: Minimum Fill (755) and volatile content ((731) and (921)). Minimum Fill (755) has specifications that apply to oral powders. On the basis of the nature of the article and scientific criteria, additional tests may apply, including pH in an aqueous solution, powder fineness, microbial limits, and others.
	Previous decision	The Board in its 291st meeting deferred the case for: • Submission of testing method and certificate of analysis.

		• Submission of Original legalized and valid FSC with label claim of the product.
	Evaluation by PEC	• The firm changed the address in form 5 from "M/s Schiwo Pakistan. Office No. 10, First Floor, City Plaza, Khanewal Road, Chowk Rasheedabad, Multan, Punjab" to "M/s Schiwo Pakistan, 11G, Shah Rukh e Alam Colony, Multan. • The firm submitted the testing method and CoA. • The firm submitted Legalized copy of FSC issued by Department of Animal Health of Vietnam valid for two years from 26.09.2019.
	Previous decision	The Board in its 293rd meeting deferred the case for or changing the address of applicant in Form 5A.
	Evaluation by PEC	• The firm submitted Rs. 5000/- fee.
	Previous decision (M-295)	Deferred for following: • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.
	Remarks of Evaluator	Following reference of me-too product has been verified: "DOXYSIN WATER SOLUBLE POWDER" of M/s UNIVET PHARMACEUTICALS, RAWALPINDI. (Reg.#033256)
	Decision of 296th meeting: Approved.	

Case no. 04 Registration applications of newly granted DML or New section (Human)

c. New DML /section

M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa, has been granted approval for two new tablet sections in 274th meeting of CLB. Now the firm has applied following products for priority consideration against these two new sections.

2243.	**Name, address of Applicant / Marketing Authorization Holder**	**"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"**
	Name, address of Manufacturing site.	"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 15180: 29-06-2020
	Details of fee submitted	PKR 50,000/-: 17-02-2020
	The proposed proprietary name / brand name	**Ertuvia 5mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	"Each Film Coated Tablet Contains: Ertugliflozin L-Pyroglutamic Acid Eq. to Ertugliflozin…5mg"

	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Anti-Diabetic (A10BK04)
	Reference to Finished product specifications	Inovator's specification
	Proposed Pack size	10's, 14's, 20's, 28's & 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Steglatro approved by USFDA
	For generic drugs (me-too status)	--
	GMP Status of FPP manufacturer	GMP certificate issued on the basis of inspection conducted on 25-01-2019.
	Name and address of API manufacturer.	M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS –PD template
	Module-III Drug Substance:	--
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated and real time conditions of Zone-IVa.
	Module-III Drug Product:	
	Pharmaceutical Equivalence and Comparative Dissolution Profile	CDP studies against the innovator product "Steglatro 5mg tablets" in three dissolution mediums has been submitted with acceptable level of f2 results.
	Analytical method validation/verification of product	Firm has submitted analytical method validation data.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions

STABILITY STUDY DATA

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data of applied products and provided the following documents in conjunction with the checklist approved by the Registration Board in its 293rd Meeting:		
13.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Empagen tablet 10mg & 25mg", which was conducted on 25-10-2019, and was presented in 294th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR Compliant. \ ✓ Firm has demonstrated audit trail reports of testing. ✓ The firm has stability chambers for carrying out accelerated and real time stability studies provided with uninterrupted power supply and data loggers.
14.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	• Copy of GMP certificate (JS20180935) issued by the Jiangsu Drug Administration in the name of Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China has been submitted which is valid upto 26-11-2023.
15.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form issued by ADC DRAP Peshawar office dated 26-02-2019 specifying import 189gm Ertugliflozin L-pyroglutamic acid from M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China
16.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
17.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
18.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

2244.	**Name, address of Applicant / Marketing Authorization Holder**	**"M/s Ferozsons Laboratories Ltd. P.O Ferozsons, Amangarh, Nowshera-Khyber Pakhtunkhwa"**

Remarks of Evaluator[II]:

Sr. No.	Section #.	Deficiencies
9.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard.

		• Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities. Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
10.	***3.2.S.5***	• The submitted Drug substance analytical procedure recommends the use of working standard of "Ertugliflozin L-pyrogulatmic acid" for Assay & related substances test, whereas the COA of working standard of "Ertugliflozin" has been submitted.
		P - PART
11.	***3.2.P.5.5***	• Acceptance criteria for the parameter of Accuracy in "Analytical Method Validation" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, placebo, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g., light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation in method.
12.	***3.2.P.8***	• Calculation of Assay results during stability studies has been performed by using the "theoretical concentration" of the sample solution instead of the actual concentration based upon the weight of the drug product sample used to prepare the sample solution. Justification shall be submitted in this regard.

Decision: Registration Board deferred the applications of Ertuvia 5mg Tablet & Ertuvia 15mg Tablet for the following deficiencies:

Sr. No.	Section #.	Deficiencies
9.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Ertugliflozin L-Pyroglutamic Acid:** Copy of GMP certificate (JS20180935) issued by the Jiangsu Drug Administration in the name of Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China has been submitted which is valid upto 26-11-2023. **Sitagliptin Phosphate Monohydrate:** Firm has submitted copy of Drug Manufacturing License (No. ZHE20020015) for M/s Zhejiang Yongtai Pharmaceutical Co., Ltd. No.1, 4th Donghai Road, Zhejiang Provincial Chemical and Medical Raw Material Base Linhai Zone, Linhai City, Zhejiang Province, 317016, China, issued by Zheijiang Food & Drug Administration
15.	Documents for the procurement of API with approval from DRAP (in case of import).	**Ertugliflozin L-Pyroglutamic Acid:** Firm has submitted copy of Form issued by ADC DRAP Peshawar office dated 26-02-2019 specifying import 189gm Ertugliflozin L-pyroglutamic acid from M/s Shanghai Pharma Group Changzhou Kony Pharmaceutical Co., Ltd. Daixi Street, Luoyang Town, Wujin District, Changzhou City, Jiangsu Province 213105, China **Sitagliptin Phosphate Monohydrate:** Firm has submitted copy of commercial invoice attested by ADC, DRAP Karachi, dated 02-01-2019 for the import of 350 Kg of Sitagliptin phosphate monohydrate.
16.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
17.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted

18.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Sr. No.	Section #.	Deficiencies
		Ertugliflozin-LPGA
11.	***3.2.S.4***	• Drug substance specifications submitted by the Drug substance manufacturer include the assay test for the content of "Ertugliflozin-LPGA", while the assay test for the content of "Ertugliflozin" shall have been included as per the available literature of the innovator product. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities. Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
12.	***3.2.S.5***	• The submitted Drug substance analytical procedure recommends the use of working standard of "Ertugliflozin L-pyrogulatmic acid" for Assay & related substances test, whereas the COA of working standard of "Ertugliflozin" has been submitted.
		Sitagliptin Phosphate
13.	***3.2.S.4***	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance (API) by Drug Product manufacturer is required. • Acceptance criteria for the parameter of Accuracy in "Analytical Method Verification" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, sample and reference solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g., light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation. • Analytical record for the batch analysis of Drug substance, performed by the Drug product manufacturer shall be submitted.
		P - PART
14.	***3.2.P.5.5***	• Acceptance criteria for the parameter of Accuracy in "Analytical Method Validation" studies has been declared in terms of "RSD should not be more than ±2%", instead of the "percentage recovery". Justification shall be submitted in this regard. • Specificity parameter has been performed by injecting the mobile phase as a blank, placebo, sample and reference solution. Whereas USP

		chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g., light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation in method.
15.	***3.2.P.8***	• Calculation of Assay results during stability studies has been performed by using the "theoretical concentration" of the sample solution instead of the actual concentration based upon the weight of the drug product sample used to prepare the sample solution. Justification shall be submitted in this regard.

Decision: Decision: Registration Board deferred the applications of Ertuvia-S 5/100 mg Tablet & Ertuvia-S 15/100 mg Tablet for the following deficiencies:

Case no. 05 Registration applications of import cases

a. New Cases (Veterinary)

2247	**Name and address of Applicant**	**M/s Prix Pharmaceutica, 26 Abbot Road, Lahore, 54000, Pakistan**
	Detail of Drug Sale License	Address: **M/s Prix Pharmaceutica,** 26 abbot road Lahore (Godown: Plot NO. 5, Pharmacity, 30Km Multan Road Lahore. Validity: 12/06/2022`
	Name and address of manufacturer	M/s Fatro S.P.A, Via Emilia, 285-40064, Ozzano Emilia (Bo) Italy.
	Name and address of marketing authorization holder	M/s Fatro S.P.A, Via Emilia, 285-40064, Ozzano Emilia (Bo) Italy.
	Name of exporting country	**Italy**
	Type of Form	Form 5-A
	Diary No. & Date of R& I	Dy. No. 75 Dated 14-07-2015
	Fee including differential fee	Rs. 50,000/- Dated 10-07-2015
	Brand Name +Dosage Form + Strength	**ZOOCOLAGOGO C.M. Oral Powder**
	Composition	Each 18gm sachet contains: Rhubarb ……. 9gm Boldo leaf …….. 6gm Condurango ……. 2gm Nux vomica ……. 1gm
	Finished Product Specification	Manufacturer's specification
	Pharmacological Group	Products for alimentary tract and metabolism
	Shelf life	5 years
	Demanded Price	Decontrolled
	Pack size	1's
	International availability	Approved by Italy (Ministry of Health Directorate General for Animal Health and Veterinary Medicinal Products)
	Me-too status	N/A
	Stability studies	Firm has submitted long term (60 months) at 25+2°C, 60+5%RH & accelerated (06 months) stability data at 40+ 2°C, 75+ 5% RH for three batches.

	Detail of certificates attached	• **Original Legalized CoPP** **Certificate No:** 163/2018/C **Certifying Authority:** Ministry of Health Directorate General for Animal Health and Veterinary Medicinal Products **Issue Date:** 19-08-2018 **Free sale in exporting country: Yes** • **GMP of manufacturer:** Yes **GMP Certificate** The GMP certificate (No. NBF/18/2017/V) issued by Ministry of Health - General Directorate of Animal Health and Veterinary Drugs Italy, submitted by the firm and also available at EUDRA GMP database, valid upto 23-02-2020. **Sole Agency Agreement:** Firm has submitted declaration form M/s Fatro S.P.A, Italy wherein M/s Prix Pharmaceutica, 26 Abbot Road, Lahore, 54000, Pakistan has been declared as sole agent in Pakistan for their product "Zoocolagogo C.M. oral powder".
	Remarks of the Evaluator:	
	Decision: Registration Board deferred the case for following: **vii. Opinion from H&OTC division regarding the classification of applied formulation.** **viii. Submission of stability data of the applied product as per Zone IV-a conditions.** **ix. Submission of valid legalized GMP certificate of the finished product manufacturer.**	

Case no. 06 Registration applications of drugs for which stability study data is submitted

e. New cases

2248.	**Name and address of manufacturer / Applicant**	**M/s Hudson Pharma Pvt. Ltd. D-93 north western industrial zone, port Qasim, Karachi.**
	Brand Name +Dosage Form + Strength	Jenta 80mg Injection
	Composition	Each ampoule contains: Gentamicin as sulphate ……. 80mg
	Diary No. Date of R& I & fee	Dy.No.728, 27-7-2016, Rs.20,000/-
	Pharmacological Group	Antibiotic
	Type of Form	Form-5
	Finished Product Specification	Manufacturer
	Pack size & Demanded Price	2 ml ampoule As per SRO
	Approval status of product in Reference Regulatory Authorities.	DBL GENTAMICIN 80mg/2mL Injection BP (TGA)
	Me-too status	GENXAT of Surge pharma
		Last GMP Inspection dated 03-04-2019 with conclusive remarks of acceptable cGMP compliance.
	Remarks of Evaluator	
	Decision:	

STABILITY STUDY DATA	
Drug	Jenta 80mg Injection
Name of Manufacturer	M/s Hudson Pharma Pvt. Ltd. D-93 north western industrial zone, port Qasim, Karachi.
Manufacturer of API	M/s Fujian Fukang Pharmaceutical Co., Ltd., Jiangyin Industrial Estate, Fujian, China
API Lot No.	FG 1608226
Description of Pack	LDPE Ampoule

(Container closure system)			
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0,1,3,6 months Real Time: 0,1,3,6 months		
Batch No.	001	002	003
Batch Size	20,000 ampoules	20,000 ampoules	20,000 ampoules
Manufacturing Date	01-2017	01-2017	01-2017
Date of Initiation	20-01-2017	20-01-2017	20-01-2017
No. of Batches	03		
Date of Submission	03-12-2018		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
15.	COA of API	Yes
16.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	• Copy of GMP Certificate (Certificate#FJ20170003) issued by Germany, **valid upto 09-04-2022**
	Protocols followed for conduction of stability study and details of tests.	Yes
17.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
18.	Documents confirming import of API etc.	Copy of ADC attested invoice for Gentamicin sulfate, dated 16-12-2016.
19.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
20.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
21.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

vii. Firm has submitted data for Bio-Assay analysis as per USP monograph.

viii. Firm has used LDPE ampoules as primary container closure system for applied formulation which is a semi permeable container. As per ICH guidelines for drug products packaged in semi-permeable containers the testing conditions are:

Study	Storage conditions
Long Term	30°C ± 2°C/35% RH ± 5% RH
Accelerated	40°C ± 2°C/not more than (NMT) 25% RH

ix. The firm has submitted reports of 6 months accelerated & long term stability studies, for all the above three batches of Jenta 80mg injection, the firm has derived water loss rate by applying alternate approach given in the ICH Q1A (R2) guidelines as below:

Batch No.: 001 Filled Volume: 2 ml 1 Month Completion Date: 06-01-2020

Moreover firm has submitted Container Qualification Studies for Low Density Polyethylene (LDPE), as per USP. The submitted studies make following declarations:

- Material pass the test describe in European Pharmacopoeia.
- Material pass the test describe in USP.
- LDPELE6609 PH has FDA drug master file number DMF 17927 (24086 ex Porvoo)
- PCSIR test reports for extractable metals concluded that No Extractable was found in LDPE sample tested as per USP<661.1>.
- Sample analysed as per USP <661.2> and found results within the USP specification.

Decision: Registration Board deliberated the case in detail and considering the submitted stability data "Container qualification studies", the Board decided to approve Jenta 80mg injection (Gentamicin)", of M/s Hudson Pharma Pvt. Ltd. D-93 north western industrial zone, port Qasim, Karachi.

17.	COA of API	Yes
18.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by China Food & Drug Administration, valid upto 18.08.2019.
19.	Protocols followed for conduction of stability study and details of tests.	Yes
20.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
21.	Documents confirming import of API etc.	Copy of commercial invoice attested by ADC DRAP Karachi on 14.05.2018, has been submitted.
22.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes (Stamped signature)
23.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
24.	Commitment to follow Drug Specification Rules, 1978.	Yes

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion		
39.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Ramelton Tablets 8mg", which was conducted on 18.08.2017, and was presented in 273rd meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR compliant and having certificates of Compliance by USFDA ✓ The firm has audit trail Reports on testing. ✓ Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software.

Remarks of Evaluator:

<table>
<tr><th>Shortcomings communicated</th><th>Response by the firm</th></tr>
<tr><td>The testing/analysis method of API is different from that of manufacturer. Justify.</td><td>90% Tests inclusive of critical tests, i.e ; Assay, Solubility, Related Substance, Clarity, Water content etc. all are comparative / present in Helix's Testing protocols same as supplier. However, test i.e; particle size is for information only & residual solvent (OVI) would be performed in future once the Gas Chromatography is purchased by Quality Control department. However, as per COA, the firm only performed description, identification water content, residue on ignition and assay with in-house claims, and the limits are as per specifications of APi manufacturer.
<table>
<tr><td></td><td>API manufacturer</td><td>FPP manufacturer</td></tr>
<tr><td>Column Condition</td><td>Agilent Zorbax SB-C18 (240mm x 4.6mm x 5 micron or equivalent)</td><td>ODS (150mm x 4.6mm x 5 micron)</td></tr>
</table></td></tr>
<tr><td>The peaks at approx. 1.19, 1.31, 1.50 and 3.73 (RT) are present in the chromatogram of initial assay, but not in that of standard. Justify/clarify.</td><td>The extra small peaks in chromatogram of assay sample is due to presence of excipients which are used in the formulation whereas no extra small peak in chromatogram of standard as the standard contains only pure active ingredient.</td></tr>
<tr><td>The innovator product has time of 15 minutes for dissolution test as per pharmacology and biopharmaceutics review. You have set it 30 minutes. Justify.</td><td>We have formulated our applied product "Aglizon Tablets (Dapagliflozin)" as film coated tablets & as per USP , disintegration time for film coated tablet is NMT 30 minutes for in-vitro test. We have performed In-vitro test not in–vivo.</td></tr>
<tr><td>Tailing factors and theoretical plates are missing in the chromatogram of API and finished product (assay, dissolution and stability data).</td><td>The firm did not submit the same.</td></tr>
</table>

In comparative dissolution profile, justify the use 06 tablets instead of 12 tablets, and the peaks in the chromatograms of samples, which are not present in those of standard.	Please note that the comparative dissolution profile (CDP) of newly applied molecules was carried out in the past by using 06 units. However, we assure you to conduct CDP by using 12 units each of reference and sample product in future & for the same we are in-process to purchase 12 to 14 units dissolution apparatus.
You have not performed drug-excipients compatibility study by submitting that stated composition of developed product is similar to innovator's product formulation. However, you have added talc powder in your formulation, which is not used in the innovator's product. Justify/clarify.	Please note that the Innovator used Talc as excipient in coating process & in our formulation, Talc is used as a Lubricant agent to improve the flow property in granulation stage. This is an inert material which do not have any therapeutic effect & is the part of formulation either used in granulation or coating process. We are enclosing herewith the reference page from Handbook of Pharmaceutical Excipients for Role of Talc for your ready reference in Annex – X.

Decision of 293rd meeting: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC: Firm has submitted stability studies of two batches i.e., TF004 & TF 005 for both accelerated and real time conditions at initial and 01 month time points with revised dissolution specifications of "NLT 80% within 15 minutes", along with analytical record i.e., raw data sheets, chromatograms, audit trail reports.

Decision: Registration Board decided to approve registration of "Aglizon 5mg Tablet (Dapagliflozin 5mg) and Aglizon 10mg Tablet (Dapagliflozin 10mg) by M/s Helix Pharma (Pvt.) Ltd., Hakimsons House, A/56, SITE Mangho pir Road Karachi-75700. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVA conditions.

Manufacturer of API	Kekule Pharma Limited, MIA, Khazaipally, Jinnaran Mandal, Sangaredddy – 502 319, T. S. India		
API Lot No.	ACE 01319 (MFG DATE: January, 2018)		
Description of Pack (Container closure system)	1x10's, 2x10's, 3x10's in Alu Alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5% RH Accelerated: 40˚C ± 2˚C / 75% ± 5% RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0,1,2,3,4 & 6 (months) Real Time: 0, 3, 6 (months)		
Batch No.	ETR-PB-010001	ETR-PB-010002	ETR-PB-010003
Batch Size	1000	1000	1000
Manufacturing Date	02.2019	02.2019	02.2019
Date of Initiation	07.03.2019 (from initial analysis)	07.03.2019 (from initial analysis)	07.03.2019 (from initial analysis)
No. of Batches	03		
Date of Submission	18.09.2019 (Dy. No. 17862)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	Documents To Be Provided	Status
17.	COA of API	Yes
18.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by DCA, Government of Telangana valid upto 11.05.2019.
19.	Protocols followed for conduction of stability study and details of tests.	Yes
20.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
21.	Documents confirming import of API etc.	Copy of commercial invoice attested by AD DRAP Lahore on 30.01.2019, has been submitted.
22.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes (Stamped only)

23.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
24.	Commitment to follow Drug Specification Rules, 1978.	Yes
REQUEST OF EXEMPTION FROM ON SITE INSPECTION		
The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:		
Administrative Portion		
39.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "Lansodex capsule 30mg and 60mg, Sofos Tablet 400/90mg and 400mg", which was conducted on 10.02.2018, and was presented in 287th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR compliant and having certificates of Compliance by USFDA ✓ The firm has audit trail Reports on testing. ✓ Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software.
40.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has imported Etoricoxib API 25 kg from Kekule Pharma Limited, MIA, Khazaipally, Jinnaran Mandal, Sangaredddy – 502 319, T. S. India and the declaration includes the following information. Batch No.: ACE 01319 Mfg Date: January, 2018 ➢ **Details of ADC attested commercial Invoice** Invoice No. KPLEXP/156/18-19 Quantity imported: 25 Kg Date of import: 22.01.2019 ADC Attestation Date: 30.01.2019 Manufacturer: NOT MENTIONED Batch No.: ACE 01319
41.	Documents for the procurement of reference standard and impurity standards.	No. but CoA of working standard, impurity I and impurity II are attached
42.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Firm has provided copy of GMP certificate of M/s Kekule Pharma Limited, MIA, Khazaipally, Jinnaran Mandal, Sangaredddy – 502 319, T. S. India issued by DCA, Government of Telangana valid upto 11.05.2019.
43.	Mechanism for Vendor pre-qualification	➢ The firm has submitted Vendor evaluation Form. Copy of Vendor Certification Questionnaire filled for M/s Kekule Pharma Limited, India.
44.	Certificate of analysis of the API, reference standards and impurity standards	• Copies of COAs of API, working standard and impurity-I and impurity-II have been submitted.
45.	Documents for the procurement of excipients used in product development?	Yes
46.	List of qualified staff involved in product development with relevant experience.	The firm has submitted list of three qualified staff involved in product development.
Production Data

Remarks of Evaluator:

Shortcomings communicated	Response by the firm
The reference product has the criterion for the dissolution test of more than 85% drug release in 15 minutes. You have set it 80% in 30 minutes. Justify.	In Public Assessment Report of Etoricoxib, it is mentioned that release in 0.1N HCl, pH 1.2 is faster i.e more than 85% in 15 minutes and slower in acetate buffer pH 4.5 and phosphate buffer pH 6.8 As per PAR 85% are results, not limits. Conclusion: Etory tablets 90mg and 120mg are released more than 85% in 15 minutes at pH 1.2 and more than 95% in 30 minutes (both sample and reference products) and slower in acetate buffer pH 4.5 and Phosphate buffer pH 6.8, f2 values are well above 50% . In case of drug release less than 85% in 15 minutes, the CDP shall be applied on the drug release data to the extent of one point above the >85% release, not at all points
Specify the exact polymorphic form of API used in the drug product.	Polymorphic Form-1 of API (Etoricoxib) is used. Declaration from manufacturer is attached. (No document specifies that Form-I has been used).
Justify the selection of dissolution parameters for the drug product.	Since innovator brands (Arcoxia 120mg by Frosst Iberica, Spain and Etoricoxib 90mg by Torrent Pharma, UK) and our products Etory Tablets 90mg and Etory Tablets 120mg releases more than 85% in 15 minutes and more than 95% in 30 minutes for both sample and reference products (0.1N HCl, pH 1.2), hence we selected up to 30 minutes for dissolution of our product. Note: Dissolution is slower in acetate buffer pH 4.5 and Phosphate buffer pH 6.8.
The reference product contains Avicel PH 101 and Avicel PH 200 LM; however, you have used Avicel PH 102 in your formulation and have imported Comprecel M 102. Moreover, you have not conducted drug-excipient compatibility studies. Clarify/justify.	We use Arcoxia Tablets (Merck Sharp & Dohme Limited UK) as innovator brand and used excipients same to this brand. - Since we used excipients similar to innovator, hence Drug-Excipient compatibility studies is not required. However, we performed Drug-Excipient compatibility studies by using FTIR and literature survey is also attached.
You have not performed all the tests specified by the CoA of API manufacturer. Justify	Only heavy metals test was missing, now its reagents and apparatus is arranged and test is performed (Report attached)
You have not adjusted the potency of the API (assay = 99.51%) in the drug product.	Potency of API was not adjusted due to pilot batch for R & D, in commercial batches potency will be adjusted.
The batch of API used in the manufacturing of the drug product has not been mentioned in the BMR. Justify.	QC No. is mentioned on BMR, this QC report of API contains all traceable data for API including batch no of API. Now, lot No. of API is mentioned on manufacturing order of BMR.
The humidity graph for accelerated stability chamber, on 08.05.2019 and 09.05.2019 shows out of limit trends. Justification shall be submitted.	Level of water in reservoir was decreased, due to which humidity was decreased from 70% to 60%. Problem was rectified.

As you have performed forced degradation studies of the drug product. Reference shall be provided to the guidelines adopted for the performance of forced degradation studies of the drug product and specificity test in the analytical method validation along with data logger record.	Forced degradation study is performed according to Pharmaceutical manufacturing hand book Pages 566, 571. The firm submitted that in specificity of AMV report, now this is mentioned that there is no effect of degradation products. Although not detected, the two impurities have RT of 1.65 min and 2.68 min, while the drug substance has RT of 3.37.
The values for tailing factor are missing in all the chromatograms of the dossier.	Tailing factor value was not selected in report format, now it is added in report format and few sample graphs are attached.
You have specified impurity I and II for the API. However, these impurities are not specifically tested in CoA provided by the drug substance manufacturer.	These impurities were supplied by manufacturer on our demand for additional test, so they provided. They claimed that these impurities are not present in API, so they are not performing this test.
The reference product is tested in terms of description, identification, colour, average weight, dissolution, uniformity of dosage units by mass variation, related substances, assay, water content, residual solvents and microbial quality. You have not tested the related substances, water content, residual solvents and microbial quality of the drug product. Clarify.	- Related substances test performed and report attached with impurities report of "not detected". - Loss on drying test performed. However, the testing method is not provided. - The firm submitted that the Microbial test performed (analyzed in sister concern company McOlson), report attached. However, the testing method is not provided. - Residual solvent analysis not performed due to non-availability of GC
Provide CDP data for all three physiological buffers, i.e., 0.1N HCl pH 1.2, Acetate buffer pH 4.5, Phosphate Buffer pH 6.8.	The firm submitted CDP data acquired after communication of shortcomings letter. release, not at all points. The firm has performed dissolution on 06 tablet, wherein CV (%) of drug release is ca. 18% and 23% for acetate and phosphate buffers at 15 minutes for the trial batch, i.e., more than 10%. Moreover, in case of drug release less than 85% in 15 minutes, the CDP shall be applied on the drug release data to the extent of one point above the >85%.

Decision of 293rd meeting: Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Decision: Registration Board decided to approve registration of "Etory Tablet 90mg (Etoricoxib) and Etory Tablet 120mg (Etoricoxib) by M/s Jenner Pharmaceuticals (Pvt.) Ltd., 26-km Lahore-Sharaqpur Road Sheikhupura. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
17.	COA of API	Applicant has submitted the following: **Copy of COA** **From**:Shengai Desano Chemical Pharmaceuticals**Batch No**: DBH251-B15A-180802
18.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Applicant has submitted the following: Copy of GMP Certificate: **Certificate No:** SH2017046 **Issued To**: Shengai Desano Chemical Pharmaceuticals, No. 417, Binhai Road, Laogang Town, Pudong New Area, Shanghai. **Issued ON**: 04-12-2017 **Valid Till**: 3-12-2022 **Issued By**: China Food & Drug Administration.
19.	Protocols followed for conduction of stability study and details of tests.	Yes
20.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
21.	Documents confirming import of API etc.	Applicant has submitted Coy of Commercial invoice attested by ADC on 27-08-18 having following information on it: **Invoice Number**: DL-Y-2018-0208 **Manufacturer of API**: Desano Limited. No. 1479, Zhangheng Road, Zhangliang Hi- Tech Park, Shanghai 201203, China. Tenofovir Alafenamide Fumarate API: 1kg Tenofovir Alafenamide Fumarate API W/S: 4g

		Impurity 1: 100mg Fumaric acid: 100mg Impurity 2: 100mg
22.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
23.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
24.	Commitment to follow Drug Specification Rules, 1978.	Yes

Evaluation by PEC:

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Vireof-N Tablet 25mg (TenofovirAlafenamide Fumarate) Tablets by M/s. Macter International Ltd., F-216, S.I.T.E, Karachi.

Reference No: F.13-11/2017-PEC (Pt) dated 14th Nov, 2019.
Investigation Date and Time: 18th December, 2019.
Investigation Site: M/s. Macter International Ltd., F-216, S.I.T.E, Karachi.

Background:

Chairman Registration Board considered the applications of M/s. Macter International Ltd., F-216, S.I.T.E, Karachi for registration of Vireof-N Tablet 25mg (Tenofovir Alafenamide Fumarate) Tablets. PE&R Division considered scientifically rational laboratory scale data submitted by the firm as pre-requisite of registration being new formulation and constituted a three member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and also advised to verify:

"Confirmation of dissolution test results for all trial batches of applied formulation on US-FDA recommended dissolution parameters including RPM".

Composition of Panel:

7. Prof. Dr. Ghulam Sarwar, ex-member Registration Board, Dean faculty of Pharmacy, Jinnah University for Women, Karachi.
8. Dr. Affan Ali Qureshi, Assistant Director (CDL) DRAP, Karachi.
9. Dr. Kirshan Das, Assistant Director DRAP Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Detail of Investigation:

S. No.	Question	Observation
75.	Do you have documents confirming the import of Tenofovir Alafenamide Fumarate API including approval from DRAP?	The firm has imported 1Kg Tenofovir Alafenamide Fumarate (API) from Shanghai Desano Chemical Pharmaceutical Co., Ltd.)vide invoice No. DL-Y-2018-0208 dated: 27.08. 2018. There is proper approval from DRAP Karachi Form 6 (2440-17).
76.	What was the rationale behind selecting the particular manufacturer of API?	The rationale behind selecting the particular manufacturer of API is the vendor evaluation process based on audit and other criteria like manufacturer GMP status, DMF source etc.
77.	Do you have documents confirming the import of Tenofovir Alafenamide Fumarate reference standard and impurity standards?	The firm has imported Tenofovir Alafenamide Fumarate working standard and two impurities standards from the API manufacturer.
78.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has Certificate of Analysis of API, working standard of API and impurities standards.
79.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificates for API manufacturer issued by China Food & Drugs Administration valid till 03/12/2022.
80.	Do you use API manufacturer method of testing for testing API?	The firm has used API manufacturer method of testing.
81.	Do you have stability studies reports on APIs?	The firm has stability studies report on API (Tenofovir Alafenamide Fumarate) conducted by API manufacturer.
82.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The manufacturer of API has performed the stability studies as per SIM method. The process related impurities and degradation product ie. Impurity I have been observed.
83.	Do you have method for quantifying the impurities in the API?	The firm has method for quantifying impurities.
84.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has some remaining quantities of API (Tenofovir Alafenamide Fumarate) working standard and impurity standard.
85.	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients including Microcrystalline cellulose, Lactose Monohydrate ,Croscarmellose sodium, Magnesium stearate
86.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
87.	Do you have test reports and other records on the excipients used?	The firm has test reports and other records for the excipients used.
88.	Do you have written and authorized protocols for the development of Tenofovir Alafenamide Fumarate Tablets?	The firm has written and authorized protocol for the development Tenofovir Alafenamide Fumarate Vireof-N tablets 25mg.
89.	Have you performed Drug-excipient compatibility studies?	The firm has not performed Drug Excipient compatibility studies as composition of their product is similar to that of innovator product (VEMLIDY tablets 25mgfrom GILEAD Ontario Canada.
90.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution profile of their product with VEMLIDY 25mg batch # CBNKMD of GILEAD and found comparable to the innovator product.

<table>
<tr><td>91.</td><td>Do you have product development (R&D) section</td><td>The firm has product development (R&D) section with requisite manufacturing, storage and analysis facilities.</td></tr>
<tr><td>92.</td><td>Do you have necessary equipments available in product development section for development Tenofovir Alafenamide Fumarate Tablets?</td><td>The firm has all the necessary equipment available in product development section for the development of Tenofovir Alafenamide Fumarate tablets now, however, the product in question was manufactured in routine production area.</td></tr>
<tr><td>93.</td><td>Are the equipment in product development section qualified?</td><td>The equipments in product development section and production area are qualified.</td></tr>
<tr><td>94.</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>The firm has proper maintenance / calibration / re-qualification program for the equipment used in PD section.</td></tr>
<tr><td>95.</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>The firm has qualified staff in PD section with proper knowledge and training in Product Development including 04 Pharmacists 05 MSc Chemistry and 01 M.Phil.</td></tr>
<tr><td>96.</td><td>Have you manufactured three stability batches for the stability studies of Tenofovir Alafenamide Fumarate Tablets required?</td><td>The firm has manufactured three stability batches as follows;
Tenofovir Alafenamide Fumarate 25mg tablets:
<table><tr><th>Sr. No.</th><th>B. No.</th><th>Batch size</th></tr><tr><td>1</td><td>001P</td><td>5000</td></tr><tr><td>2</td><td>002P</td><td>5000</td></tr><tr><td>3</td><td>003P</td><td>5000</td></tr></table>The tablets are packed in Alu Alu blisters with pack size 3 x 10’s.</td></tr>
<tr><td>97.</td><td>Do you have any criteria for fixing the batch size of stability batches?</td><td>The criteria for fixing the batch size of stability batches is the number of tablets required per testing frequency and number of testing frequencies.</td></tr>
<tr><td>98.</td><td>Do you have complete record of production of stability batches?</td><td>The firm has complete records of production of stability batches. All log books are properly maintained.</td></tr>
<tr><td>99.</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm has detailed protocol for the stability testing of Tenofovir Alafenamide Fumarate tablets.</td></tr>
<tr><td>100.</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm has developed and validated method for testing of stability batches of finish product i.e. Tenofovir Alafenamide Fumarate tablets based on the API method of testing provided by the API manufacturer.</td></tr>
<tr><td>101.</td><td>Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?</td><td>The firm has developed and validated method based on API manufacturer for testing of finished product, so method transfer studies were required.</td></tr>
<tr><td>102.</td><td>Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of Tenofovir Alafenamide Fumarate and the finished drug?</td><td>The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of the API (Tenofovir Alafenamide Fumarate) and the finished drug Vireof-N (Tenofovir Alafenamide Fumarate) tablets 25mg.</td></tr>
<tr><td>103.</td><td>Do your method of analysis stability indicating?</td><td>The firm’s method of analysis is stability indicating as evidence by forced degradation studies and spiking studies of the two major impurities.</td></tr>
<tr><td>104.</td><td>Do your HPLC software 21CFR Compliant?</td><td>The HPLC software is 21CFR compliant as per record available with the firm.</td></tr>
</table>

105.	Can you show Audit trail reports on Tenofovir Alafenamide Fumarate testing?	Audit Trail on the testing reports on Tenofovir Alafenamide Fumarate API and Vireof-N tablets 25mg is available.
106.	Do you have some remaining quantities of degradation products and stability batches?	The firm has only remaining quantities of stability batches kept on real-time stability testing.
107.	Do you have stability batches kept on stability testing?	The firm has three lab scale batches kept on stability studies for real time stability testing. Currently 12 months studies have been completed with satisfactory results.
108.	Do you have valid calibration status for the equipment used in Tenofovir Alafenamide Fumarate Tablets production and analysis?	The firm has valid calibration status for the equipment used in Vireof-N (Tenofovir Alafenamide Fumarate) tablets 25mg production and analysis.
109.	Do proper and continuous monitoring and control are available for stability chamber?	The firm has adequate monitoring and control system for stability chambers.
110.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area, equipments, personnel and utilities are GMP compliant.
111.	Any other query raised by PE&R Division: Confirmation of dissolution test results for all trial batches of applied formulation on US-FDA recommended dissolution parameters including RPM.	As per firm they have adopted Dissolution method as recommended by US-FDA. The medium is 50 mM Sodium Acetate buffer pH 4.5, Apparatus is USP type II, RPM is 75 which are same as recommended by USFDA. The sampling time is 30 mins which is the maximum time point mentioned on the website of USFDA under dissolution data, however the NDA document of VEMLIDY shows the sampling time to be 15 mins. The firm states that F2 was calculated in CDP at 10 mins because the drug was dissolved more than 90% within 5 mins which shows the formulation complies with innovator as well as US-FDA recommendation. The firm has also performed dissolution testing on an additional time point of 15 month of stability studies and observed the result at 15 minutes and found more than 90% release, which complies with innovator and US-FDA recommendations.

Conclusions:

11. On the basis of risk based approach the genuineness / authenticity of stability data including dissolution method submitted by the firm for registration of Vireof-N (Tenofovir Alafenamide Fumarate) Tablets 25mg is verifiable satisfactory level.
12. The related manufacturing area, equipments, personnel and utilities are GMP compliant and well suited for the manufacturing of Vireof-N (Tenofovir Alafenamide Fumarate) Tablets 25mg.
13. The case is submitted before Registration Board for decision please.

Decision (M-293): Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

Evaluation by PEC:

Sr. No.	Deferred for :	Submitted following:
3.	Decision (M-293): Registration Board decided to defer the case and directed the firm to submit dissolution testing data with specifications of "NLT Q within 15	Applicant has submitted stability studies data for following three batches at following time points: **Batches:** Batch No: P004, P005, P006 **Testing Frequency:**

	minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.	Initial: 1 month: real time plus accelerated. Sampling Time: 15 minutes Drug release at 15 minute sampling interval: Above 90% for all trials at Ist month, as per data submitted by the firm. However data submitted by the firm is in dates before the meeting was carried out & decision of the case was made.

Decision of 295th meeting: Deferred for clarification since the dissolution testing at 15 minutes time point for 2 batches was carried out before the date of conduction of 293rd meeting of Registration Board.

Firm's response: We would like to clarify that the new batches 004P, 005P & 006P were manufactured on 20th December, 2019 immediately after the Product specific Panel inspection held on 17th, December, 2019 on behalf of detailed discussion with panel members. We are also enclosing copy of Form-06 & consumption report of API (for your ready reference). Also it is our usual practice to perform product development activities before launching of the product. We hope that the above justification will be sufficient to clarify the situation.

Decision: Registration Board decided to approve registration of "Vireof-N 25mg Tablets (Tenofovir alafenamide (as fumarate)) by M/s. Macter International Limited, F-216, S.I.T.E, Karachi. Manufacturer will place first three commercial batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

i. Verification of stability study data

Documents To Be Provided	Status
COA of API	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	• Copy of GMP Certificate for M/s Pharmagen Ltd. Lahore, issued on the basis of inspection conducted on 08-01-2019
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	--
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Boschofen 400mg/100ml (Ibuprofen) Infusion by M/s. Bosch Pharmaceuticals, Korangi Industrial Area, Karachi.

Reference No: F.13-11/2017-PEC (Pt) dated 26th, December, 2019.
Investigation Date and Time: 8th July, 2020 (Afternoon).
Investigation Site: Factory premises of M/s. Bosch Pharmaceuticals, Korangi Industrial Area, Karachi.

Background:
Chairman Registration Board considered the applications of M/s Bosch Pharmaceutical, Bosch House 221, Sector 23, Korangi Industrial Area, Karachi for registration of Boshofen 400mg/100ml (Ibuprofen) Infusion and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

13. Dr. Rafeeq Alam Khan, Meritorious Professor, Dean Faculty of Pharmacy, Ziauddin University, Karachi. (Member Registration Board)
14. Dr. Sanam Kausar Jahan, Assistant Director, CDL, DRAP, Karachi.
15. Dr. Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

S. No	Question	Observation by Panel
Q.No.1	Do you have documents confirming the import of API including approval from DRAP?	Firm has procured 0.4kg Ibuprofen from M/S Pharmagen ,Lahore
Q.No.2	What was the rationale behind selecting the particular manufacturer of API?	There is proper vendor qualification being implemented by the firm which includes GMP Status, provision of DMF, reference standard, impurity standards etc.
Q.No.3	Do you have documents confirming the import of reference standard and impurity standards?	The firm has obtained API reference standard from API manufacturer.
Q.No.4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for both APIs and working standards
Q.No.5	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has provided GMP certificate issued by Drug Regulatory Authority of Pakistan.
Q.No.6	Do you use API manufacturer method of testing for testing API?	The firm has used the manufacturer method of testing of API to carryout analysis.
Q.No.7	Do you have stability studies reports on API?	The firm has stability studies reports from API manufacturer conducted on 03 batches for accelerated and real time condition.
Q.No.8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability data of API provided by manufacturer is stability indicating and degradation products has been quantified.
Q.No.9	Do you have method for quantifying the impurities in the API?	The firm has used the analysis method provided by the manufacturer of API for quantification of impurities in API.
Q.No.10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm had arranged 0.4kg of Ibuprofen API out of which 0.07 kg was still available in firm .Remaining quantities of working standard and impurity standards were also available.
Q.No.11	Have you used pharmaceutical grade excipients?	The firm used pharmaceutical grade excipients.
Q.No.12	Do you have documents confirming the import of the used excipients?	The firm has proper documents for import of the used excipients.
Q.No.13	Do you have test reports and other records on the excipients used?	The firm has Analytical reports for all excipients used in product development of Boschofen infusion.
Q.No.14	Do you have written and authorized protocols for the development of applied product?	The firm had written and authorized protocol for development of Boschofen infusion .
Q.No.15	Have you performed Drug-excipients compatibility studies?	The firm has not performed Drug-excipients compatibility studies and stated that the qualitative composition of their product is similar to that of innovator's product and also stability studies have not shown any incompatibility or significant degradation.

Q.No.16	Have you performed comparative dissolution studies?	Not Applicable.
Q.No.17	Do you have product development (R&D) section	The firm has dedicated area for product development.
Q.No.18	Do you have necessary equipments available in product development section for development of applied product?	The firm has necessary equipment for manufacturing of stability batches.
Q.No.19	Are the equipments in product development section qualified?	All equipment in product development section is qualified.
Q.No.20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The firm has proper maintenance /calibration plan for equipment in product development section and maintenance /calibration are carried out accordingly.
Q.No.21	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff in product development section with relevant work experience.
Q.No.22	Have you manufactured three stability batches for the stability studies of applied product as required?	Firm has manufactured three stability batches for the stability studies of Boschofen infusion. Batch No : TR-BFI-02 Batch No : TR-BFI-03 Batch No : TR-BFI-04
Q.No.23	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability batches is the number of vials per testing and the number of vials required for whole stability testing.
Q.No.24	Do you have complete record of production of stability batches?	The firm has complete record for manufacturing of three batches of Boschofen Infusion.
Q.No.25	Do you have protocols for stability testing of stability batches?	The firm has protocols for testing of stability batches.
Q.No.26	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated the method for the testing of Boschofen infusion.
Q.No.27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable
Q.No.28	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	The firm has complete record of qualification of equipment's /instruments used for test and analysis of API and Boschofen infusion .
Q.No.29	Is your method of analysis stability indicating?	The method of analysis for finished product is stability indicating .
Q.No.30	Is your HPLC software is 21CFR compliant? (Details of Model, software, description/version (i.e. software validation report for 21 CFR Part 11 compliance including audit trail, password protection, date & time lock and user authorizations shall also be reported.))	The HPLC used for analysis of stability batches is Water e2650 with auto sampler and gradient system and it was 21CFR compliant as per record available with firm.

Q.No.31	Can you show Audit Trail reports on stability studies testing?	The firm has demonstrated the audit trail reports for the data submitted for Boschofen infusion.
Q.No.32	Do you have some remaining quantities of degradation products and stability batches?	The firm had some remaining quantities of stability batches.
Q.No.33	Do you have stability batches kept on stability testing?	The firm has completed accelerated studies whereas, samples are kept for real time stability studies.
Q.No.34	Do you have valid calibration status for the equipments used in production and analysis?	The firm has valid calibration status for all the equipment /instruments used in production and analysis of the Boschofen infusion .
Q.No.35	Do proper and continuous monitoring and control are available for stability chamber? (Number and utilized/available capacity of stability chambers shall also be reported.)	The firm has two separate Stability chambers for Real time and accelerated studies which are equipped with data loggers.
Q.No.36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	The related manufacturing area ,Equipment ,personnel and utilities can be rated as cGMP compliant

Conclusions:

1. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Boshofen 400mg/100ml (Ibuprofen) Infusion is verifiable to satisfactory level.
2. The related manufacturing area, equipment, personnel and utilities are GMP compliant and well suited for the manufacturing of Boshofen 400mg/100ml Infusion.

Decision: Registration Board decided to approve registration of "Boschofen 400mg Infusion (Ibuprofen) by M/s Bosch Pharmaceuticals (Pvt.) Ltd. Bosch House 221, Sector 23, Korangi Industrial Area, Karachi, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Dapagliflozin as propanediol monohydrate …… 5mg Metformin HCl ….. 850mg
	Pharmaceutical form of applied drug	Film coated tablets
	Pharmacotherapeutic Group of (API)	Drugs Used in diabetes, combinatiom of oral blood glucose –lowering drugs
	Reference to Finished product specifications	Manufacturer Specification
	Proposed Pack size	10's,14's, 20's, 28's, & 30's
	Proposed unit price	As per innovator price
	The status in reference regulatory authorities	Xigduo 5/850mg of EMA approved
	For generic drugs (me-too status)	Dapa-Met Tablet 5mg/850mg of M/s Hilton Pharma
	Name and address of API manufacturer.	**Dapagliflozin propanediol monohydrate:** M/s Fuxin Long Rui Pharmaceutical Co. Ltd, Fluoride Industrial park, Fuxin City, Liaoning Province, China **Metformin HCl**: M/s Wanbury Limited, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.
	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol and Finished product analytical method validation report.
	Remarks: The Finished product analytical method validation report has been prepared and approved in 08-2019, while as per relevant guidelines the method validation has to be performed before commencing stability studies. Firm has committed to perform test method validation before commencing of stability studies for future developed products.	
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has not submitted comparative dissolution profile of applied product against the reference product, instead firm has submitted CDP data for the higher strength i.e., Xiga-met 5/1000 against the reference product Xigduo.

STABILITY STUDY DATA	
Manufacturer of API	**Dapagliflozin propanediol monohydrate:** M/s Fuxin Long Rui Pharmaceutical Co. Ltd, Fluoride Industrial park, Fuxin City, Liaoning Province, China **Metformin HCl**: M/s Wanbury Limited, Andhra Pradesh, India
API Lot No.	**Dapagliflozin propanediol monohydrate:** 180903 **Metformin HCl**: MT13881218
Description of Pack (Container closure system)	Alu-Alu blister in unit carton
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)

Batch Size	2000 tabs.	2000 tabs.	2000 tabs.
Manufacturing Date	03-2019	03-2019	03-2019
Date of Initiation	04-2019	04-2019	04-2019
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents To Be Provided	Status
1.	COA of API	Yes
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Yes
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	**Dapagliflozin propanediol monohydrate:** Firm has submitted copy of invoice (invoice# HN190124-C) cleared by DRAP Lahore office dated 01-02-2019 specifying import 5Kg Dapagliflozin (batch#180903). **Metformin HCl:** Firm has submitted copy of invoice (invoice# 92002215) cleared by DRAP Lahore office dated 19-12-2018 specifying import 1.3Kg Metformin HCl (batch# MT13881218).
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The stability studies upto 3rd month have been performed with limits of Q = 70%, while at 6th month firm has rectified the specifications as Q = 80%.
- Firm has applied have applied Paddle speed = 100 RPM in dissolution parameters for zero & 3rd month stability study but has revised our Product test method (PTM) with agitation speed of 75 rpm and 6th month stability study was performed as per revised PTM.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Xiga-Met 5/1000 Tablet & Xiga-Met 5/850 Tablet by M/s CCL Pharmaceuticals (Pvt.) Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore.

Date of Inspection	2nd – 3rd July, 2020
Purpose of Inspection	Verification of authenticity of stability data for purpose of registration of drugs with reference DRAP's letter no. F.1-2/2020-PEC dated 22-04-2020.
Name of Inspector	01. Dr. Muzammal Waheed Director, DTL, Faisalabad. 02. Ms. Aisha Irfan Area FID, DRAP, Lahore. 03. Hafiz Ahsan Assistant Director, DRAP, Islamabad.

Q. No.	Contents	Remarks
73	Do you have documents confirming the import of Dapagliflozin Propanediol Monohydrate and Metformin HCl including approval from DRAP?	**Dapagliflozin Propanediol Monohydrate:** The firm has imported Dapagliflozin Propanediol Monohydrate raw material vide invoice no. HN190124-C dated 24-01-2019 from M/s. Fuxin Long Rui Pharmaceutical Co., Ltd., China and got DRAP approval vide no. 1757/2019/DRAP dated 01-02-2019. **Metformin Hydrochloride:** The firm has imported Metformin HCl raw material vide invoice no. 92002215 dated 10-12-2018 from M/s. Wanbury Ltd., India and got DRAP approval vide no. 16536/2018/DRAP dated 19-12-2018.
74	What was the rationale behind selecting the particular manufacturer of API?	The firm selected API manufacturers based on their vendor evaluation mechanism.
75	Do you have documents confirming the import of reference standard and impurity standards?	The firm imported Dapagliflozin Propanediol Monohydrate working standard from API supplier dated 27-06-2019. The firm imported Metformin HCl working standard and impurity standard (Metformin HCl Compound A) from API supplier dated 28-05-2019.
76	Do you have certificate of Analysis of the API, reference standards and impurity standards?	**Dapagliflozin Propanediol Monohydrate:** The firm has certificates of analysis for API and working standard. **Metformin HCl:** The firm has certificates of analysis for API, working standard and impurity standard.
77	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	**Dapagliflozin Propanediol Monohydrate**: The firm has valid GMP Certificate of M/s. Fuxin Long Rui, China issued by Fuxin Food & Drugs Administration, China valid till 27-09-2020.

		Metformin HCl: The firm has valid GMP Certificate of M/s. Wanbury Ltd., India issued by Directorate of Drugs Control Administration, Andhra Pradesh valid till 06-02-2022.
78	Do you use API manufacturer method of testing for testing APIs?	The firm has used API manufacturer's method of testing. *Moreover, the firm was advised to develop method transfer protocol for testing APIs.*
79	Do you have stability studies reports on APIs?	The firm had stability studies reports of APIs from API manufacturer: **Dapagliflozin Propanediol Monohydrate**: Accelerated (40ºC±2ºC/RH75%±5%) –6 months Real time (30ºC±2ºC/RH65%±5%) – 24 months **Metformin HCl:** Accelerated (40ºC±2ºC/RH75%±5%)– 6 months Real time (30ºC±2ºC/RH75%±5%) – 60 months
80	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The API manufacturer had performed stability as per SIM method and Metformin HCl Compound A impurity had been quantified.
81	Do you have method for quantifying the impurities in the API?	The firm had testing method to quantify Metformin HCl Compound A impurity as provided by API manufacturer.
82	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Nil.
83	Have you used pharmaceutical grade excipients?	The firm has used pharmaceutical grade excipients including Avicel pH 102, Klucel EXF, Polyvinylpyrolidone, Aerosil 200, Magnesium stearate, Opadry AMB purple (88A200006) and Opadry white (85G28725).
84	Do you have documents confirming the import of the used excipients?	The firm had necessary documents confirming the import of the used excipients.
85	Do you have test reports and other records on the excipients used?	The firm had certificates of analysis of the excipients used.
86	Do you have written and authorized protocols for the development of Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet?	The firm had written and authorized protocols for the development of Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablet.
87	Have you performed Drug-excipient compatibility studies?	The firm had performed drug-excipient compatibility studies under stress conditions of 60ºC ± 2ºC / RH 75% ± 5%.
88	Have you performed comparative dissolution studies?	The firm had performed comparative dissolution studies for Xiga-Met 5/1000 Tablet with Xigduo 5/1000 Tablet, manufactured by M/s. AstraZeneca, USA using paddle apparatus at 100rpm in 900ml of the following dissolution mediums: 7. HCl buffer 8. Acetate buffer 9. Phosphate buffer

<tr><td>10</td><td>Do you have valid calibration status for the equipment used in Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 Tablets production and analysis?</td><td>The firm had valid calibration status for the equipment used in Xiga-Met 5/850 Tablet and Xiga-Met 5/1000 production and analysis.</td></tr>
<tr><td>10</td><td>Do proper and continuous monitoring and control are available for stability chamber?</td><td>Adequate monitoring and control was available for stability chamber. The firm was advised to improve alarm system.</td></tr>
<tr><td>10</td><td>Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?</td><td>Requisite facilities are satisfactory and GMP compliant (DRAP ref. no. 118/2019-DRAP (AD-789112-762) dated 13-05-2019 valid for 3 years).</td></tr>
</table>

VERIFICATION:

(iii) The firm selected M/s. Fuxin Long Rui Pharmaceutical Co. Ltd., China for Dapagliflozin Propanediol Monohydrate based on their vendor evaluation mechanism. Panel verified following documents regarding source:

- ADC attested invoice
- Trial cards

RECOMMENDATIONS:

Based on the area inspected, the technical personnel met and the documents reviewed, and considering the findings of inspection, it is concluded that M/s. CCL Pharmaceuticals (Pvt.) Ltd., at 62 Industrial Estate, Kot Lakhpat, Lahore, Pakistan have conducted stability studies of the following products. However few points are being recorded for the kind perusal of the Drug Registration Board, against questions 6, 19, 28, 30, 31 and 35 of the check list.

Decision: Registration Board decided to approve registration of "Xiga-Met 5/850 Tablet & Xiga-Met 5/1000 Tablet by M/s CCL Pharmaceuticals (Pvt.) Ltd, 62-Industrial Estate, Kot Lakhpat, Lahore-54770, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

d. Exemption from onsite verification of stability data

</table>

Remarks of Evaluator:

Sr. #	Observations	Response of Firm
1	Concentration of sample solution (0.005mg/ml) is different from standard solution (0.01mg/ml) as written in finished product specifications	The analysis is performed for sample solutions and standard solutions in dissolution is 0.005mg/ml as already mentioned in whole stability studies testing records. In finished product specifications, by typing mistake, 2ml is written instead of 1 ml which lead to read as 0.01mg/ml instead of 0.005mg/ml. (It is just typing mistake and is rectified)
2	Retention time of 1st Month stability studies is about 5 mints whereas on all other time points is about 3 mints	Retention time at whole stability studies is about 3 mints instead of 1st Month time point analysis, which is about 5 minutes. **Remarks:** The pressure of HPLC column was increased at 1st Month analysis time point due to which retention time for both sample and standard solution was increased to about 5 minutes from 3 minutes. After that we rectified it and separate column is specified for whole stability studies of said product. Further, more analytical method validation is performed and retention time during AMV was also about 3 minutes.
3	Concentration of sample solution (0.005mg/ml) is different from standard solution (0.01mg/ml) in dissolution at 1st month time point analysis	As earlier discussed in point 3, In finished product specifications, by typing mistake, 2ml is written instead of 1 ml.

		The problem was rectified and analysis at all time points were performed at 0.005mg/ml concentration after this time point.

Decision of 296th meeting: Registration Board decided to approve registration of "Lina 5mg tablets (Linagliptin)" by M/s Jenner Pharmaceuticals (Pvt) Ltd, 28-KM Lahore-Sharaqpur Road, District Sheikhupura. Manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Registration letters shall be issued after decision on comments of IPO regarding patent matter for the applied formulation.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets and provided the following documents in conjunction with the checklist approved by the Registration Board.

29.	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection reports of their product "Tapendol tablets (Tapentadol)", which was presented in 289th meeting of Registration Board held on 14-16 May, 2019 **Observations:** Panel has observed that firm has improved as follows: • The HPLC software is 21CFR compliant as per record available with the firm. • Audit trail on the testing reports is available. • Firm has software for monitoring of stability chambers. **Decision:** Registration Board decided to approve registration of "Tapendol tablets 50mg, 75mg & 100mg by M/s The Searle Company Ltd., Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
30.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Submitted
31.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
32.	Stability study data of API from API manufacturer	Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65%±5%RH) stability studies reports of three batches.
33.	Approval of API/ DML/GMP certificate of API manufacturer issued	**Metformin HCl:** Copy of GMP certificate issued by Food & Drug Control Administration, Gujarat state, India, in the name of

	by concerned regulatory authority of country of origin.	M/s AARTI Drugs Ltd. (Unit-II), Gujarat State, India valid upto 19-03-2023. **Empagliflozin:** Copy of GMP certificate (certificate# AH20150172) issued by Anhui Drug administration, China for the M/s Anhui Youcare Kaiyue Pharmaceuticals Co., Ltd. China valid upto 03-01-2020 has been submitted. Copy of DML (20160049) issued by Anhui Drug administration, China for the M/s Anhui Youcare Kaiyue Pharmaceuticals Co., Ltd. China valid upto 13-12-2020 has also been submitted.
34.	Documents for the procurement of API with approval from DRAP (in case of import).	**Metformin HCl:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 29-03-2019 Invoice# EXP/2657/18-19 Qty. 3000Kg **Empagliflozin:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 01-01-2019 Invoice# TM20181225L Batch# 2018001002 Qty. 1Kg
35.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted authorized protocols for the development of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
36.	Method used for analysis of FPP	Submitted
37.	Drug-excipients compatibility studies (where applicable)	Firm has referred to the formulation of innovator product for establishing drug-excipient compatibility.
38.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
39.	Record of comparative dissolution data (where applicable)	• Firm has performed comparative dissolution studies in three media including (0.1 N HCl) pH 1.2, (Acetate Buffer) pH 4.5 and (Phosphate Buffer) pH 6.8 buffers against reference product Synjardy tablet for all the concluding f2 value within acceptable limit.
40.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted for Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
41.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches of Jarzin-Met 12.5/850mg Tablets, Jarzin-Met, 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets, Jarzin-Met 5/850mg Tablets.
42.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Previous Remarks of Evaluator:

- Salt from of Metformin is not mentioned in Form 5-D.
- Firm has submitted that "the material Empagliflozin" having batch no. D5284-15-001 from "Zhejiang Huahuai Pharmaceutical Co., Ltd. had a retest date of May-2017. As per our SOP QAD/III/0020, we have retested the above mentioned material on date 29-04-2017. The results complies with specification, on the basis of the satisfactory result we have extended its retest date upto 28-04-2018." Scientific rationale/justification shall be submitted for extending retest date to one year on the basis of analysis performed by the firm.
- Content uniformity test has not been performed for Empagliflozin to determine uniformity of dosage unit.
- Submitted GMP certificates of API manufacturers, does not mention the names of API being imported.

STABILITY STUDY DATA

Drug	Jarzin-Met 5/1000mg Tablets
Name of Manufacturer	M/s The Searle Company Limited.
Manufacturer of API	**Empagliflozin**: Zhejiang Huahai Pharmaceutical Co., Ltd **Metformin HCl**: M/s Aarti Drugs Limited, plot no. 211 & 213, Road no. 2, GIDC, Sarigam, Gujarat, India.
API Lot No.	**Empagliflozin**: D5284-15-001 **Metformin**: MEF/17091410
Description of Pack (Container closure system)	Alu-Alu Blister in unit carton

Stability Storage Condition	**Real Time:** 30˚C ± 2˚C / 75% ± 5%RH **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	**Real Time:** 24 Months **Accelerated:** 6 Months		
Frequency	**Real Time:** 0, 3, 6 (Months) **Accelerated:** 0, 3, 6 (Months)		
Manufacturing date	Mar 2018	Apr 2018	Apr 2018
Date of Initiation	May 2018	May 2018	May 2018
Batch Nos.	**18PD-084**	**18PD-087**	**18PD-098**
Batch Size	2,500 Tablets	2,500 Tablets	2,500 Tablets
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT
(M/s The Searle Company Limited.)

DOCUMENTS TO BE PROVIDED	STATUS
COA of API	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Metformin HCl:** Copy of GMP certificate issued by Food & Drug Control Administration, Gujarat state, India, in the name of M/s AARTI Drugs Ltd. (Unit-II), Gujarat State, India valid upto 19-03-2023. **Empagliflozin:** Copy of GMP certificate (Certificate# ZJ20180073) issued by China Food & Drug Administration, in the name of M/s Zhejiang Huahai Pharmaceutical Co., Ltd valid upto 25-06-2023.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	
Documents confirming import of API etc.	**Metformin HCl:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 09-10-2017. Batch# MEF/17091410 (Qty. 2000 Kg) **Empagliflozin:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 07-03-2017 Batch# D5284-15-001 (Qty. 300gm)
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

Remarks of Evaluator:

- Salt form of Metformin is not mentioned in Form 5-D.
- The acceptance criteria of dissolution test submitted by firm for applied formulation is NLT 75% (Q) after 30 minutes for both Metformin HCl & Empagliflozin. While the dissolution specification of the innovator product i.e., "Synjardy", revealed in Clinical Pharmacology & Biophartmaceutics review by USFDA (Ref: https://www.accessdata.fda.gov/drugsatfda_docs/nda/2015/206111Orig1s000ClinPharmR.pdf) declares the dissolution specification for 20 minutes for all strengths of both drug substances i.e., Metformin HCl & Empagliflozin.
- Firm has submitted that "the material Empagliflozin" having batch no D5284-15-001 from "Zhejiang Huahuai Pharmaceutical Co., Ltd. had a retest date of May-2017. As per our SOP QAD/III/0020, we have retested the above mentioned material on date 29-04-2017. The results complies with specification, on the basis of the satisfactory result we have extended its retest date upto 28-04-2018." Scientific rationale/justification shall be submitted for extending retest date to one year on the basis of analysis performed by the firm.

- Upon communication of above observation the firm has referred to following definition of "re-test period", from Annex 2 (Stability testing of active pharmaceutical ingredients and finished pharmaceutical products) of WHO Technical Report Series, No. 953, 2009:

re-test period
"The period of time during which the API is expected to remain within its specification and, therefore, can be used in the manufacture of a given FPP, provided that the API has been stored under the defined conditions. After this period a batch of API destined for use in the manufacture of an FPP should be re-tested for compliance with the specification and then used immediately. **A batch of API can be re-tested multiple times and a different portion of the batch used after each re-test, as long as it continues to comply with the specification.** For most substances known to be labile, it is more appropriate to establish a shelf-life than a re-test period. The same may be true for certain antibiotics."

- Moreover, firm has submitted that they have not performed "Residual solvents testing" & "Chiral impurity testing" at the time of re-test since both these are process related impurities and if they are within specification than there is no need to further analyze at stability & at re-test.

- It is pertinent to mention that as per applicable guidelines, the API could be used immediately (within one month) after the retest, but one time retest analysis could not be used to extend the shelf life of the API in term of retest date.

- Submitted GMP certificates of API manufacturers, does not mention the names of API being imported.

Decision of 293rd meeting: Registration Board deferred the cases for following reasons:

- Clarification/Justification shall be submitted by the firm for extending shelf life of the API for 1 year on the basis of one-time retest.
- Stability studies of Empagliflozin API from the API manufacturer.
- Submission of revised Form 5 with correct composition, declaring the salt form of Metformin.

Firm's response:

- Firm has referred to their SOP of "Retesting of Raw materials".
- For Empagliflozin firm has submitted both accelerated stability studies (6 months) & long-term stability studies report (36 months) of three batches from the API manufacturer.
- Revised Form 5 D with correct composition, declaring the salt form of Metformin as "Metformin HCl" has been submitted.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION		
Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet and provided the following documents in conjunction with the checklist approved by the Registration Board.		
29.	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection reports of their product "Tapendol tablets (Tapentadol)", which was presented in 289th meeting of Registration Board held on 14-16 May, 2019 **Observations:** Panel has observed that firm has improved as follows: • The HPLC software is 21CFR compliant as per record available with the firm. • Audit trail on the testing reports is available. • Firm has software for monitoring of stability chambers. **Decision:** Registration Board decided to approve registration of "Tapendol tablets 50mg, 75mg & 100mg by M/s The Searle Company Ltd., Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
30.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Submitted
31.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.

32.	Stability study data of API from API manufacturer	**Metformin HCl:** Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65%±5%RH) stability studies reports of three batches. **Empagliflozin:** Firm has submitted both stability studies & long term stability studies reports of three batches
33.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Metformin HCl:** Copy of GMP certificate issued by Food & Drug Control Administration, Gujarat state, India, in the name of M/s AARTI Drugs Ltd. (Unit-II), Gujarat State, India valid upto 19-03-2023. **Empagliflozin:** Copy of GMP certificate (Certificate# ZJ20180073) issued by China Food & Drug Administration, in the name of M/s Zhejiang Huahai Pharmaceutical Co., Ltd valid upto 25-06-2023.
34.	Documents for the procurement of API with approval from DRAP (in case of import).	**Metformin HCl:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 09-10-2017. Batch# MEF/17091410 (Qty. 2000 Kg) **Empagliflozin:** Copy of Commercial Invoice signed & stamped by ADC Karachi, dated 07-03-2017 Batch# D5284-15-001 (Qty. 300gm)
35.	Authorized Protocols/SOP for the development & stability testing of trial batches.	Firm has submitted authorized protocols for the development of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
36.	Method used for analysis of FPP	Submitted
37.	Drug-excipients compatibility studies (where applicable)	Firm has referred to the formulation of innovator product for establishing drug-excipient compatibility.
38.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the three batches of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
39.	Record of comparative dissolution data (where applicable)	• Firm has performed comparative dissolution studies for 5/1000mg tablet in three media including (0.1 N HCl) pH 1.2, (Acetate Buffer) pH 4.5 and (Phosphate Buffer) pH 6.8 buffers against reference product Synjardy tablet for all the concluding f2 value within acceptable limit.
40.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted for Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
41.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted audit trail reports for HPLC analysis for all the three batches of Jarzin-Met 5/1000mg Tablets, Jarzin-Met, 5/500mg Tablet
42.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
Remarks of Evaluator^{II}:		
Decision: Registration Board decided to approve registration of "Jarzin-Met 5/1000mg Tablets, Jarzin-Met 5/500mg Tablets, Jarzin-Met 12.5/850mg Tablets, Jarzin-Met 12.5/1000mg Tablets, Jarzin-Met 12.5/500mg Tablets and Jarzin-Met 5/850mg Tablets by M/s The Searle Company Limited F-319 S.I.T.E. Karachi, Pakistan. Manufacturer will place first three commercial batches of all 6 products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVa conditions.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Esli 200mg & 800mg tablets and provided the following documents in conjunction with the checklist approved by the Registration Board in its 278th Meeting:

Administrative Portion

39.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their product "HILVEL 400mg + 100mg (Sofosbuvir +Velpatasvir)", which was conducted on 14th December, 2017 and was presented in 277th meeting of Registration Board held on 27-29th December, 2017. Registration Board decided to approve registration of "HILVEL 400mg / 100mg (Sofosbuvir + Velpatasvir" by M/s. Hilton Pharma (Pvt.) Ltd., Karachi. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Following two observations were reported in the report: vii. The HPLC software is 21 CFR compliant. viii. Audit trail on the testing reports of Hilvel Tablets 400mg+100mg is available. ix. Adequate monitoring and control are available for stability chamber. Chamber are controlled and monitored through software having alarm system for alerts as well.

REQUEST OF EXEMPTION ROM ON SITE INSPECTION

Now the firm has requested for Exemption from On-site Investigation of their submitted stability data of Trip-Lat 60mg & 90mg tablets and provided the following documents in conjunction with the checklist approved by the Registration Board.

29.	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection reports of their product "Saferon tablets (Sofosbuvir 400 mg)", which was presented in 278th meeting of Registration Board held on 29-31st Jan, 2018 **Observations:** Panel has observed that firm has improved as follows: • Floor has been renovated and painted with epoxy paint (anti-bacterial). • Old windows were replaced with double glazed windows. • Special Aluminium fixtures with rounded edges were installed. • Upgraded HVAC with pressure differentials was provided. • Firm has 06 tablet compression machines with capability of producing double layered tablets. Keeping in view improvements made by the firm as identified in the previous inspection, panel recommends the facilities of the firm for manufacturing of Saferon (Sofosbuvir 400mg) tablets and give rating of very Good. **Decision:** Registration Board decided to approve registration of "Saferon (Sofosbuvir 400mg) tablets by M/s Wilson Pharmaceuticals, I-9 Industrial Area, Islamabad. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
30.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Submitted
31.	Method used for analysis of API along with COA.	Firm has submitted COA and method of analysis of API.
32.	Stability study data of API from API manufacturer	Firm has submitted both accelerated (40°C ± 2°C & 75±5%RH) stability studies & long term (30°C ± 2°C & 65%±5%RH) stability studies reports of three batches.
33.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 19011176) for M/s Glenmark Pharmaceuticals Ltd., Plot no., Z/103/1,SEZ Phase-II, Dahej, Taluka Vagra, Dist. Bhanch, 392130, Gujarat, India issued by Food & Drug Control Administration, Gujarat State, valid upto 08-08-2021.
34.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted following. •Commercial invoice attested by AD (I&E) DRAP, Islamabad dated 22-10-2018, Islamabad confirming import of Ticagrelor

Remarks of Evaluator[II]:

Observation	Firm's response
Justify the dissolution specification NLT 80%(Q) after 45 minutes, since the	• As per USFDA guidelines *"dissolution testing of Immediate release solid oral*

USFDA chemistry review document of the innovator product specify dissolution testing at two points i.e. NLT (Q) at 45 minutes and NLT (Q) at 60 minutes. • USFDA guidelines "dissolution testing of Immediate release solid oral dosage form" recommends that for slowly dissolving or poorly water soluble drugs, a two point dissolution specification, one at earlier time to include a dissolution range (a dissolution window) and the other at a later point (30, 45 or 60 minutes) to ensure 85% dissolution, is recommended to characterize the quality of the product. The innovator product has also used the same approach and selected two time points for dissolution, justify how your finished product specification without a test for measure of dissolution range at 45 minutes & at 60 minutes to ensure 85% drug release be considered similar to that if innovator product. If your product shows more than 85% release in 45 minutes, how it can be considered similar with innovator product in terms of drug release	*dosage form"* Two time point dissolution analysis is recommended for development studies of BCS class II drugs and after development the final dissolution specifications will be set while the Ticagrelor falls in BCS class IV and many pharmacopeal monograph of BCS class IV and II available in pharmacopeia having only one time interval for dissolution test i.e. Clarithromycin , Leflunomide - • Furthermore, According to FDA chemistry review, the agency recommend the applicant (Innovator) to submit a supplement to set the final acceptance criteria for dissolution testing. • It is also mentioned in FDA reviews of Innovator data that the product shows consistent results at 45 minutes and the agency recommend to revised the proposed dissolution • To ensure the release pattern of SAMI product same as Innovator product, Comparative dissolution against innovator at different time point (i-e 45 and 60 minutes) has been performed and both products achieve the dissolution more than 80%(Q) after 45 minutes.**)** • We have also done testing at both time intervals i.e. 45 & 60 minutes at 9th month stability study at long term on stability batches • On the basis of above we have set the specification for dissolution i-e NLT 80% (Q) at 45 minutes.

Decision: Registration Board deferred the applications of Taglor 60mg Tablet & Taglor 90mg tablet and directed the firm to submit dissolution testing data with time pints of 45 minutes & 60 minutes at initial and one month time point at both accelerated and real time stability conditions for 2 batches.

17.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
18.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator^{II}:

- Firm has used 15% overage in the master formulation and submitted following justification for it:
  "Vitamin D3 is a heat sensitive material, when used as an active ingredient, cannot be terminally sterilized therefore subjected to filtration through microbial retentive materials. It is aseptically filled and sterilized by filtration by using 0.2um filter which have high chances of clogging and absorption. The assay limit is therefore set at 95% - 105% at the time of release, as API is lost during filtration process. Hence, 15% overage is used to compensate the process loss."
  Whereas, our result in accelerated stability are within the limit which justify the assay limit of 90% - 110% for shelf life. However, we undertake that we will revise our limit with 90% to 115% in finished product specification."
- Firm has applied UV method for the Assay analysis of drug product during stability studies.

Decision: Deferred for justification of performing Assay analysis of the drug product by UV spectrophotometric method.

REMARKS OF EVALUATOR[II]:

Observation	Firm's response
Justification of 5% overage in the formulation(s) of stability batches shall be submitted since Overages are not acceptable unless fully justified.	This addition was not due to any specific reason, however we have reviewed the stability data of these three trial batches and noted that Assay & Dissolution results remain well within limits without significant change after 6 months accelerated stability.

	Furthermore we have evaluated that 5% overage impact on assay & Dissolution results and if we subtract 5% overage impact on assay & dissolution values, our values are still within limits. Furthermore we hereby commit that in commercial batch formulation of Etoxib tablet 30mg, overage will not be included.

Decision: Registration Board decided to approve registration of "Etoxib tablet 30mg (Etoricoxib) by M/s Hiranis Pharmaceuticals (Pvt.) Ltd. Plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi, Pakistan. Manufacturer will place first three commercial batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per Zone-IVA conditions.

	Name and address of API manufacturer.	M/s Jiangxi Synergy Pharmaceutical Co., Ltd., China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.

	Remarks: Firm has performed comparative dissolution profile against the innovator's product i.e, Eliquis 2.5mg tablet and the results are within acceptable limit of f2 value.	
	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol, Finished product analytical method validation report & stability studies data.
	Remarks: Firm has performed comparative dissolution profile against the innovator's product i.e, Eliquis 2.5mg tablet and the results are within acceptable limit of f2 value.	

STABILITY STUDY DATA			
Manufacturer of API	M/s Jiangxi Synergy Pharmaceutical Co., Ltd., China		
API Lot No.	20180205Y		
Description of Pack (Container closure system)	Alu-Alu blister in unit carton		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0,1,2,3,4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	Lab-01	Lab-02	Lab-03
Batch Size	2500 tabs.	2500 tabs.	2500 tabs.
Manufacturing Date	12-2018	12-2018	12-2018
Date of Initiation	01-2019	01-2019	01-2019
No. of Batches	03		

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.

Administrative Portion

13.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Empoli tablet 10mg & 25mg", which was conducted on 13-06-2019, and was presented in 290th meeting of Registration Board. Following observations were reported in the report: ✓ The HPLC software is 21CFR Compliant. \ ✓ Audit trail reports were available and physically checked ✓ Firm has adequate monitoring and controls for stability chambers. Software is installed for continuous monitoring of chambers.
14.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Manufacturing License for M/s Jiangxi Synergy, China issued by China Food & Drug Administration valid Up to 31-12-2020.
15.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice (invoice# JXS181027) cleared by DRAP Karachi office dated 01-02-2019 specifying import 0.13Kg Apixaban (Batch#20180205Y).

16.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
17.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
18.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

2272.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Sami Pharmaceuticals, S-95, SITE, Karachi.
	Name, address of Manufacturing site.	Name: M/s Sami Pharmaceuticals, S-95, SITE, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23128: 08-11-2019
	Details of fee submitted	PKR 50,000/-: 08-011-2019
	The proposed proprietary name / brand name	**Xaby 5mg tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Apixaban …… 5
	Pharmaceutical form of applied drug	Film coated tablets
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	Manufacturer Specification
	Proposed Pack size	10’s, 20’s, 30’s
	Proposed unit price	--
	The status in reference regulatory authorities	Approved by USFDA
	For generic drugs (me-too status)	--
	GMP status of the Finished product manufacturer	
	Name and address of API manufacturer.	M/s Jiangxi Synergy Pharmaceutical Co., Ltd., China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.

	Remarks of Evaluator: • Stability studies of drug substance as per Zone IVa conditions have been submitted.	
	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Process validation protocol, Finished product analytical method validation report & stability studies data.
	Remarks: Firm has performed comparative dissolution profile against the innovator's product i.e, Eliquis 5mg tablet and the results are within acceptable limit of f2 value.

Case no. 01 Registration applications for local manufacturing of (Human) drugs

c. New cases

2729.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Etob 120mg Tablet
	Composition	"Each Film Coated Tablet Contains: Etoricoxib …120mg"
	Diary No. Date of R& I & fee	Dy.No 9382 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	NSAID
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	10's, 20's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in MHRA
	Me-too status	----
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator [VIII]	Applied formulation is subsequent drug generic version.
	Decision: Deferred for submission of stability study data for applied formulation as per guidelines approved in 293rd meeting of Registration Board, as the applied formulation is subsequent drug generic version.	
2730.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Etob 60mg Tablet
	Composition	"Each Film Coated Tablet Contains: Etoricoxib …60mg"
	Diary No. Date of R& I & fee	Dy.No 9380 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019

	Pharmacological Group	NSAID
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	10's, 20's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in MHRA
	Me-too status	Starcox 60 mg tab by Getz Pharma
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator [VIII]	
	Decision: Approved as per innovator's specification.	
2731.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Defrox 500mg Tablets
	Composition	"Each dispersible contains: Deferasirox…500mg"
	Diary No. Date of R& I & fee	Dy.No 9378 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019
	Pharmacological Group	Iron chelating agent
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specifications
	Pack size & Demanded Price	3*10's , 2*14's:As per SRO
	Approval status of product in Reference Regulatory Authorities.	Approved in ANSM
	Me-too status	Oderox 500mg tablet of AJ mirza
	GMP status	GMP certificate is issued to the firm based on inspection conducted on 19-09- 2019.
	Remarks of the Evaluator [VIII]	
	Decision: Approved as per innovator's specification.	
2732.	Name and address of manufacturer / Applicant	"M/s Jupiter Pharma. Plot No. 25, Street # S-6, National Industrial Zone, Rawat, Rawalpindi"
	Brand Name +Dosage Form + Strength	Defrox250mg Tablets
	Composition	"Each dispersible contains: Deferasirox…250mg"
	Diary No. Date of R& I & fee	Dy.No 9379 dated 01-03-2019 Rs.20,000/- Dated 01-03-2019

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr.#	Documents To Be Provided	Status
33.	COA of API	Firm has submitted copy of COA stating following information on it: **Product:**Sofosbuvir **Batch No.**OP-GLD/10/15/037 **Manufacturer:**Optimus Drugs PVT Limited,

34.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Applicant has submitted GMP certificate having following information on it: **Certificate No.**L.Dis.No.20121/A3/2018 **Issued to:**Optimus Drugs PVT Limited, **Issued on:** 21-05-2018 **Validity:** One Year From The Date Of Issue
35.	Protocols followed for conduction of stability study and details of tests.	Yes
36.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
37.	Documents confirming import of API etc.	Firm has submitted copy of commercial invoice stating following information on it: **Invoice No.** 412/EXP **Batch No of API.** OP-GLD/10/15/037 **Attested by Assistant Director (I & E) DRAP Karachi On** : 03-02-2016
38.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
39.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
40.	Commitment to follow Drug Specification Rules, 1978.	Yes

Evaluation by PEC:

SOFOSBUVIR TABLET 400MG, M/S ZAFA PHARMACEUTICALS LABORATORIES.

Following panel of inspectors visited M/s Zafa Pharmaceuticals Laboratories for verification of authenticity of submitted stability study data for registration of Sofosbuvir 400mg Tablet.

1. Syed Adnan Rizvi Director, DTL, Karachi.
2. Dr. Najam-us-Saquib Additional Director DRAP, Karachi.
3. Kirshan, Assistant Director, DRAP, Karachi.

Q.No.	Question	Observation by panel
73.	Do you have documents confirming the import of API including approval from DRAP?	The firm has imported Sofosbuvir from Optimus Drug Pvt. Ltd. Hyderabad INDIA, Supplier IRIS Karachi. Invoice No.412/EXP dated 15-11-2015. Batch # OP-GLD/10/15/037. The total quantityofAPI purchased was1.00 kg.The approval from DRAP is available. (Annex-A)
74.	What was the rationale behind selecting the particular manufacturer of API?	Rationale behind selecting the particular manufacturer of API, as it is GMP compliant and vendor evaluation has been done. (Annex-B).
75.	Do you have documents confirming the import of reference standard and impurity standards?	The reference standard & impurity standard were imported through Optimus Drug Pvt. Ltd. Hyderabad INDIA. In House Reference standard, Batch # OP-SFS/RS1402, quantity100mg.Impurity standard, Batch # OP-GLD/St-I/Rp-Isomer/A0453/055, with quantity 10.0mg. (Annex-C)
76.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has COAs for API, reference standards and impurity.

77.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP Certificate of API manufacturer issued by Drug Control Administration Govt. of TelanganaINDIA.L.DisNo. 2021/A3/2018 Dated 21-05-2018.
78.	Do you use API manufacturer method of testing for testing API?	The Firm has used manufacturer's method of testing for the testing of API.
79.	Do you have stability studies reports on API?	The firm has manufacturers Stability studies report of API.
80.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	Stability testing as per SIM method and degradation products has been quantified by the API manufacturer.
81.	Do you have method for quantifying the impurities in the API.	The firm has used HPLC method for chromatographic impurities that was used for assay purpose.
82.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has some quantities of API (As reference), reference standard.
83.	Have you used pharmaceutical grade excipients?	The firm has used Pharmaceutical grade excipients
84.	Do you have documents confirming the import of the used excipients?	The firm has necessary documents confirming the import of the used excipients.
85.	Do you have test reports and other records on the excipients used?	The firm has test reports and other records of the excipient used.
86.	Do you have written and authorized protocols for the development of applied product?	The firm has written protocol for the development of Sofosbuvir Tablets 400 mg.(Annex-D)
87.	Have you performed Drug-excipient compatibility studies?	The firm has not performed drug excipient compatibility studies because the composition of their tablets/product is similar to that of the innovator's product (Sovaldi Tablets)
88.	Have you performed comparative dissolution studies?	The firm has performed comparative dissolution studies and their product show comparable dissolution profile and same were reviewed at time of inspection.
89.	Do you have product development (R&D) section.	The firm has separate new product development (R&D) section.
90.	Do you have necessary equipments available in product development section for development of applied product?	The firm has used Quality Control Lab instruments for the development of Sofosbuvir Tablets 400 mg. The firm has all necessary equipment in QC and Product development section.
91.	Are the equipment in product development section qualified?	All the equipment used in the development of product is qualified.
92.	Do you have proper maintenance / calibration / requalification program for the equipment used in PD section?	The firm has proper maintenance and calibration for the equipment used in quality Control for the development of the product.
93.	Do you have qualified staff in product development section with proper knowledge and training in product development?	The firm has qualified staff for the development of the product with proper knowledge and training in product development. (Annex-E)
94.	Have you manufactured three stability batches for the stability studies of applied products required?	The firm has manufactured three stability batches, of Sofosbuvir Tablets 400 mg, TR01, TR02, TR03.
95.	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size of stability of batches are the number of tablets as per requirement of testing.
96.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches. All the log books are properly maintained and reviewed at the time of inspection.
97.	Do you have protocols for stability testing of stability batches?	The firm has protocols for testing of the stability batches.

98.	Do you have developed and validated the method for testing of stability batches?	Yes, the firm has used manufacturer's method of testing, the method is validated.
99.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable
100.	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Yes, the firm has proper documents confirming the qualification of equipment and instruments being used in the test and analysis of API and the finished product.
101.	Do your method of analysis stability indicating?	Yes the method of analysis is stability indicating.
102.	Do your HPLC software is 21CFR compliant?	HPLC software is 21CFR compliant.
103.	Can you show Audit Trail reports on Stability study testing?	The firm showed the Audit trail report on API and finished product testing.
104.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches.
105.	Do you have commitment batches kept on stability testing?	The firm has three commitment batches kept on stability testing for real time stability studies.
106.	Do you have valid calibration status for the equipment used in Production and analysis?	Yes, the firm has valid calibration status for the equipment used in the production and analysis of Sofosbuvir Tablets 400 mg.
107.	Do proper and continuous monitoring and control are available for stability chambers.	Continuous power supply and monitoring and control are available for the stability chambers.
108.	Do related manufacturing area, equipment, personal and utilities be used as GMP compliance	The relevant manufacturing facilities are GMP complaint.

Conclusion:

M/s Zafa Pharmaceutical Laboratories was inspected as per directions contained in DRAP letter No. 13-11/2017-PEC (Pt) dated 30th July, 2019. During inspection, the panel inspected/reviewed the relevant record, data and premises in detail with specific focus on the observations/points made in above referred letter. Following are the current observations:

9. **Criterion/reference for selection of Q Value 70%:** - The said molecules was not included in any official monograph, therefore, the firm previously performed the dissolution test as per general requirement for dissolution testing and there was no any specific criteria for the selection of Q value 70%. Now, the firm have performed dissolution test for their product according to US-FDA recommended dissolution method and found it satisfactory at the time of inspection.

10. **Valid GMPCertificate** of API Manufacturer is hereby attached for reference.

11. On the basis of risk-based approach the genuineness/ authenticity of stability data submitted by the firm for registration of Sofosbuvir Tablets 400mg is verifiable to satisfactory level.

12. The related manufacturing area, equipment, personnel and utilities observed in line as per GMP requirements and well suited for manufacturing of the said product.

Recommendations:

Based on the people met, documents reviewed and observations made during inspection including corrective action taken by the firm, the panel unanimously recommends that the firm may kindly be granted necessary registration of Sofosbuvir Tablets 400mg.

Decision(M-294): Registration Board decided to defer the case for following submissions:

- Submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.
- Valid GMP certificate of the API manufacturer.

Now the applicant has submitted following:

Applicant has referred to their Comparative dissolution profile of applied formulation with reference product and submitted results declaring drug release profile of applied formulation is greater than 90 % within 15 minutes.

Decision: Registration Board keeping in view its decision taken in 293rd meeting decided to defer the case for following submissions:

- **Submit dissolution testing data with specifications of "NLT Q within 15 minutes" at initial and one month time point at both accelerated and real time stability conditions for 2 batches.**
- **Valid GMP certificate of the API manufacturer.**

3006.	Name and address of manufacturer / Applicant	M/s Helix Pharma, Hakimsons House, A/56, S.I.T.E, Manghopir Road, Karachi.
	Brand Name +Dosage Form + Strength	Helisopt Ophthalmic Suspension
	Composition	Each ml ophthalmic suspension contains: Brinzolamide...……..…10mg Timolol (as maleate)…….5mg
	Diary No. Date of R& I & fee	Duplicate dossier
	Pharmacological Group	Carbonic Anhydrase Inhibitor, Beta-adrenergic blocking agent.
	Type of Form	Form-5D
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	As per PRC
	Approval status of product in Reference Regulatory Authorities	Approved in TGA
	Me-too status (with strength and dosage form)	N/A
	GMP status	GMP compliant dated 10-08-2017.

STABILITY STUDY DATA

Drug	Helisopt Ophthalmic Suspension		
Name of Manufacturer	M/s Helix Pharma, Hakimsons House, A/56, S.I.T.E, Manghopir Road, Karachi.		
Manufacturer of API	**Timolol (as maleate):** M/s. Gangwal Chemicals Pvt. Ltd., Plot No. N-5 Mide, TarapurBoisar, District: Thane 01 506, India **Brinzolamide:** M/s. Century Pharmaceuticals 103 to 106, GIDC, Halol, 389 350, Dist: PANCHMAHAL, Gujrat State, India.		
API Lot No.	**Timolol (as maleate):** (Batch No. TMM-051656. Mfg date: May 2016, Quantity: 2kgs). **Brinzolamide:** (Batch No.07111004-BA. Mfg date: March 2016, Quantity: 80grams).		
Description of Pack (Container closure system)	(5ml) LDPE bottle

Date of Initiation	25-08-2017	25-08-2017	25-08-2017
No. of Batches	03		
Date of Submission	Dy No.12219, 03-04-18		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr.	Documents To Be Provided	Status

No.		
41.	COA of API	Yes
42.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	**Timolol (as maleate):** Copy of GMP certificate bearing a number NEW-WHO-GMP/CERT/KD/50623/2016/11/17467 issued to M/s. Gangwal Chemicals by Food & Drug Administration Maharashtra, India. Valid until 02-12-2018. **Brinzolamide:** Copy of GMP certificate bearing a number 1707219 issued to M/s. Century Pharmaceuticals by Food & Drug Control Administration, Gujarat state India. Valid until 06-07-2019.
43.	Protocols followed for conduction of stability study and details of tests.	Yes
44.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
45.	Documents confirming import of API etc.	**Timolol (as maleate):** Copy of Form 5 (license to import Drugs) issued by ADC, DRAP, Karachi dated 04-07-2016 has been submitted. Copy of commercial invoice has been submitted. **Brinzolamide:** Copy of Form 6 (license to import Drugs for clinical trial examination) issued by ADC, DRAP, Karachi dated 21-09-2016 has been submitted. Copy of ADC attested commercial invoice has been submitted.
46.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
47.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
48.	Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR & REPLIES OF APPLICANT

- The firm has claimed Manufacturer's Specifications and the product is not present in available USP & BP.
- Submit raw data sheets of analytical method of applied formulation.
- Commitment to follow Drug Specification Rules, 1978.
- Commitment to continue real time stability studies till the proposed/assigned shelf life.
- Latest GMP inspection report conducted within the period of last one year.
- Chromatographic conditions in the finished product testing method submitted in dossier is different to that submitted with stability studies. Clarify/Justify.

Applicant has submitted that "We have applied for product dossier file on 20-04-2012, at that time, we did not have HPLC complies Software 21CFR but now we have all HPLCs complies with software 21CFR and we are working on HPLC with software 21CFR for new product's stability studies. Therefore you found the difference in chromatographic conditions & current chromatographic conditions upon which stability studies are performed are following: wavelength 280nm & flow rate 1ml/minute".

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Helisopt Ophthalmic Suspension (Brinzolamide/Timolol) by M/s. Helix Pharma , Karachi.

Reference No: F.13-11/2017-PEC (Vol.I) dated 10th December, 2018.
Investigation Date and Time: 18th December, 2018 (Forenoon).
Investigation Site: Factory premises of M/s. Helix Pharma, Karachi.

Background:

Chairman Registration Board considered the applications of M/s Helix Pharma, Karachi for registration of Helisopt Ophthalmic Suspension each ml of which contain Brinzolamide 10mg and Timolol (as maleate) 5mg and constituted a three-member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

7. Dr. Abdul Waheed, Assistant Director, CDL, DRAP, Karachi
8. Mr. Adnan Rizvi, Director DTL Sindh, Karachi (Member Registration Board)
9. Dr.Affan Ali Qureshi, Assistant Director, CDL, DRAP, Karachi.

Scope of investigation:

Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation may be summarized as under:

Helisopt Ophthalmic Suspension

S.No.	Question	Observation by panel
1	Do you have documents confirming the import of API ?	The firm has imported 80g Brinzolamide from M/s Century Pharmaceuticals Limited, India vide invoice no. EXP16087 dated 2-09-2016 and 4.0 kg from M/s Gangwal Chemical Pvt. Ltd. India vide invoice No. EXP-T/030/16-17 dated 05.01.2017 and obtained approval from DRAP Karachi
2	What was the rationale behind selecting the particular manufacturers of APIs?	There is proper vendor qualification being implemented by the firm which include a desktop audit by means of a questionnaire which is filled by the manufacturer, GMP Status, provision of DMF etc. The firms were evaluated on above mentioned criteria and selected
3	Do you have documents confirming the import of API reference standard and impurity standards?	The firm has documents confirming the import of both APIs USP reference standard and impurity standards.
4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificates of analysis for both APIs, working standards and their impurities.
5	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate of Brinzolamide and timolol manufacturers issued by Food and Drug Control Administration, Gujrat State, India and Food and Drug Administration, Mahrashtra, India respectively.
6	Do you use API manufacturer method of testing?	The firm has used USP method of testing for both APIs.
7	Do you have stability studies reports on API?	The firm has accelerated stability studies reports of six months on both APIs and five years and four years real time stability studies reports on the Brinzolamide and Timolol respectively.
8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability testing has been performed as per SIM method and degradation products have been quantified.
9	Do you have method for quantifying the impurities in the API?	The firm has USP method for quantifying the impurities in the API.

<table>
<tr><td>10</td><td>Do you have some remaining quantities of the API, its reference standard and impurities standards?</td><td>The firm has remaining quantities of API and reference standard of both APIs.</td></tr>
<tr><td>11</td><td>Have you used pharmaceutical grade excipients?</td><td>The firm has used pharmaceutical grade excipients.</td></tr>
<tr><td>12</td><td>Do you have documents confirming the import of the used excipients?</td><td>The firm has documents confirming the procurement of all excipients used.</td></tr>
<tr><td>13</td><td>Do you have test reports and other records on the excipients used?</td><td>The firm has test reports and other records on the excipients used.</td></tr>
<tr><td>14</td><td>Do you have written and authorized protocols for the development of API ophthalmic suspension?</td><td>The firm has written and authorized protocols for the product development.</td></tr>
<tr><td>15</td><td>Have you performed Drug-excipient compatibility studies?</td><td>Drug-excipients compatibility studies were not performed as the firm has used the same excipients as of innovator.</td></tr>
<tr><td>16</td><td>Have you performed comparative dissolution studies?</td><td>N/A</td></tr>
<tr><td>17</td><td>Do you have product development (R&D) section</td><td>The firm has product development (R&D) section with equipment for manufacturing of ophthalmic suspension dosage form. The analytical part is performed on equipment of routine quality control tests.</td></tr>
<tr><td>18</td><td>Do you have necessary equipment available in product development section for development of API ophthalimic suspension?</td><td>The firm has necessary equipment for product development of API ophthalmic suspensions. The product in question has been developed while using some equipment of commercial manufacturing also. Furthermore, the analytical part has been performed via the routine quality control equipment. Firm has already placed orders for procurement of other equipment for this section.</td></tr>
<tr><td>19</td><td>Are the equipment in product development section qualified?</td><td>The available equipment in product development section are qualified.</td></tr>
<tr><td>20</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>The firm has SOP for the maintenance/calibration/requalification of equipment used on PD section.</td></tr>
<tr><td>21</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>The firm has qualified staff which include One Chemist and One Pharmacist in product development section with relevant work experience.</td></tr>
<tr><td>22</td><td>Have you manufactured three stability batches for the stability studies of API ophthalmic suspension as required?</td><td>The firm has manufactured three consecutive stability batches for the accelerated and real time stability studies of Helisopt ophthalmic suspension packed in LDPE bottles of 5ml each.
<table>
<tr><td>Batch No.</td><td>Batch Size</td><td>Mfg Date</td></tr>
<tr><td>TF 001</td><td>1000ml (180 bottles)</td><td>07-2017</td></tr>
<tr><td>TF 002</td><td>1000ml (180 bottles)</td><td>07-2017</td></tr>
<tr><td>TF 003</td><td>1000ml (180 bottles)</td><td>07-2017</td></tr>
</table></td></tr>
<tr><td>23</td><td>What was the criteria for fixing the batch size of stability batches?</td><td>The criteria for fixing the batch size of stability batches is the number of bottles per testing and the number of bottles required for whole stability testing.</td></tr>
<tr><td>24</td><td>Do you have complete record of production of stability batches?</td><td>The firm has complete record of production of stability batches. Necessary log books of equipment used has been available with the firm.</td></tr>
<tr><td>25</td><td>Do you have protocols for stability testing of stability batches?</td><td>The firm has detailed protocol for stability testing of stability batches in which the stability conditions are:
Real Time: 30°C and 65% RH
Accelerated: 40°C and 75% RH,</td></tr>
</table>

		however, the firm has used LDPE container for the product in question for which ICH guidelines and WHO recommends 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies.
26	Do you have developed and validated the method for testing of stability batches?	The firm has developed and validated their own method for testing of stability batches. The method is supported by impurities standards spiking studies, forced degradation, hence capable of quantifying the degradation products in their ophthalmic suspension kept on stability testing.
27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable
28	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of API and the finished drug?	The firm has proper documents confirming the qualification of equipment / instruments being used in the test and analysis of API and finished drug.
29	Do your method of analysis stability indicating?	The firm's method of analytical testing has stability indicating parameters.
30	Do your HPLC software is 21CFR compliant?	The HPLC software is 21CFR Compliant as per record available with the firm.
31	Can you show Audit Trail reports on API testing?	The firm showed the audit trail reports on API testing.
32	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches.
33	Do you have commitment batches kept on stability testing?	The firm has completed accelerated stability testing on the three stability batches. The real time stability testing is in progress on all the three stability batches. Currently 12 months studies have been completed with satisfactory results.
34	Do you have valid calibration status for the equipment used in API ophthalmic suspensions production in analysis?	The firm has valid calibration status for the equipment used in helisopt ophthalmic suspension production and analysis.
35	Do proper and continuous monitoring and control are available for stability Chamber?	Continuous power supply and monitoring are available for stability chambers.
36	Do related manufacturing area, equipment, personnel and utilities be Rated as GMP compliant?	The related manufacturing area, equipment, personnel and utilities be rated as GMP compliant.

Discussion:

11. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Helisopt Ophthalmic Suspension is verifiable to satisfactory level.
12. Furthermore, the firm has conducted the stability studies as per their protocol which is 30°C and 65% RH for real time and 40°C and 75% RH for accelerated stability studies, whereas, the recommended stability conditions for products packed in semi-permeable containers are 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies. However, 30°C and 65% RH for real time and 40°C and 75% RH for accelerated stability studies may be used for semi-permeable containers provided the calculated water loss multiplied with the corresponding factor may not exceed 5% of initial, which is considered as significant change.
13. In this case the firm has not calculated water loss at any stage, so no comparison can be made between the reference and alternative relative humidity as mentioned in ICH Q1A (R2) (2.2.7.3. Drug products packaged in semi-permeable containers).
14. On risk-based approach the data evaluated during inspection does not show any deviation in the critical tests throughout the study period which may be altered if the water has lost more than the prescribed limits.

15. The related manufacturing area, equipment, personnel and utilities are GMP compliant and suited for the manufacturing of Helisopt Ophthalmic Suspension.

Recommendations:

The firm may be granted necessary registration of Helisopt Ophthalmic Suspension in their name with the direction to conduct stability studies on their commitment batches as per ICH guidelines i.e. 30°C and 35% RH for real time and 40°C and 25% RH for accelerated stability studies and submit the data to the Drug Registration Board.

Previous Decision:

Registration Board in its 287th meeting decided as follow:

Registration Board deferred the case for submission of stability data at next time point of long term stability studies along with assessment of water loss rate for applied container closure system as per ICH Q1A (R2) guidelines for "Stability Testing of New drug substances and products."

Evaluation by PEC:

Applicant has submitted results of Water loss test in the form of graphs conducted on following newly manufactured batches of applied formulation.

Sr. No.	Batch No.	Batch Size.
1.	TF004	90 bottles
2.	TF005	90 bottles
3.	TF006	90 bottles

Decision:

Deferred for submission of formula by which results of moisture loss from the semipermeable container are calculated as well as submit details of readings used to plot the graph, as only graphs are submitted.

Evaluation by PEC:

Now the applicant has submitted following:

5. Formula by which results of moisture loss from the semipermeable container are calculated.
6. Readings used to plot the graph with the conclusion that moisture loss from the semipermeable container is within permissible limits.

Decision: Registration Board decided to approve registration of "Helisopt Ophthalmic Suspension" by M/s Helix Pharmaceuticals. Manufacturer shall place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Evaluator-PEC--X

Case No.1: Disclosure of Excipients on Labelling and leaflets for information of patients and prescribers.

It is submitted that Registration Board in 291st meeting deliberated on the matter related to the disclosure of excipients on the labelling and packaging leaflet insert. Matter has been discussed with reference to various complaints received through Prime Minister's Pakistan Citizen's Portal by different patients and also direct requests for the availability of gluten-free medicines for the patients suffering from Celiac Disease. Decision of the Board is as under:

Registration Board considered and deliberated the matter at length and decided, keeping in view the miserable condition of patients suffering from Celiac Disease and increasing number of lactose-intolerant patients, as following: -

i. *Directive 2001/83/EC of the European Council dated 06 November 2001 shall be adopted as such whereby the recommendations and guidelines along with Annexure to those guidelines shall be mandatory for the Pharmaceutical Manufacturers with respect to disclosure of excipients (both quantitative and qualitative) employed in the preparation of drug products;*
ii. *It shall also be mandatory for the manufacturer to perform tests for the presence of Gluten their drug and to categorically identify on the Label with the statement that "Contains Gluten and Contraindicated for Patients with Gluten allergy" or "Free from Gluten and safe for patients of celiac disease";*
iii. *It shall also be mandatory for the manufacturer to perform tests for the presence of Lactose in their drug and to categorically identify on the Label with the statement*

that "Contains Lactose and Contraindicated for Patients with Lactose-intolerance" or "Free from Lactose and Safe for Patients suffering from Lactose-intolerance";

However subsequent review revealed various points, which needs to consider by Registration Board:

i. Point (i) of the above decision is to adopt the Directive of European Council along with disclosure of excipient both (qualitative and quantitative).Instead of disclosure of all the excipient *(both quantitative and qualitative)* It may be appropriate to focus on the disclosure of those excipients which have known action or effect (for e.g. Gluten containing excipients, lactose containing ingredients etc.) employed in the preparation of drug product in the light of article 54(d) and 64 of the reference directive 2001/83/EC of the European Council dated 06 November 2001. Both articles are narrated as under: Article 54(d) of the directive is as under:

A list of those excipients known to have a recognized action or effect and included in the guidelines published pursuant to Article 65. However, if the product is injectable, or a topical or eye preparation, all excipient must be stated;

In Article 65 of reference directive following is stated related to the list of excipients which must feature on labelling:

As necessary, the commission shall publish guidelines concerning in particular:

- *The list of excipients which must feature on the labelling of medicinal products and the way these excipients must be indicated.*

ii. If any of such excipients used in the manufacturing of formulation it will be mandatory for the manufacturer to categorically identify on the Label with the statement that "Contains gluten/Lactose and Contraindicated for Patients with celiac disease/ Lactose-intolerance" or "Free from gluten/Lactose and Safe for Patients suffering from celiac disease/Lactose-intolerance";

It is therefore, proposed that Registration Board may passed a direction to Pharmaceutical Manufacturer/Importer for the disclosure of those excipients (e.g. gluten containing excipients, lactose) which have a recognized action or effect on the labelling and leaflet for information of patient and prescriber so that the patients suffering from hypersensitivity to any of the ingredients of the drug may help themselves by avoiding allergic medication(s) and may opt safe option(s) for themselves.

Discussion: The Board has noted, according to the draft guidance document of FDA https://www.fda.gov/media/116958/download regarding "the Gluten in Drug Products and Associated Labelling" that most oral drug products are not expected to contain ingredients derived from wheat barley or rye, which are the major source of gluten. Moreover, the amount of gluten estimated to be potentially present in a unit dose of an oral drug product (less than 0.5 mg) is 237 significantly less than the range at which gluten is estimated to be present in a gluten-free diet (5 to 50 mg). This leads FDA to conclude that individuals who respond well to a gluten-free diet are at low risk of experiencing problems as a result of the possible presence of gluten in a drug product.

Decision: Keeping in view the above stated position/discussion, the Board, in order to avoid any possibilities of untoward reaction relating to the use of such excipient (containing gluten, lactose etc.) decided to advise the Manufacturers/Importers, to provide the information that "product contains gluten/lactose" on the labelling and packaging leaflet insert in accordance with rule 3 (h)(iii) of Drug Labelling and packaging Rules,1986.

Case No. 2: Registration of Vitamin-Mineral Formulations

Registration Board in its 295th meeting considered the Registration applications of vitamin and mineral formulations which are previously deferred in different meeting of Registration Board. While considering the Registration applications which are the Me-Too of CaC-1000 plus Effervescent Tablet of M/s. GlaxoSmithKline Consumer Healthcare Pakistan Limited, the Board questioned formulation of CaC-1000 plus effervescent tablet containing 4mg of Vitamin D3 quantity above the

upper tolerable intake level (UL) which is in contradiction of following points of approved vitamin policy:

1. Those Vitamins and minerals above Recommended Daily Allowance (RDA) up to Tolerable upper intake level (UL) are considered as drug.
2. If any ingredient in the vitamin and mineral formulation is above UL, then it may allow only, if it is available in already defined Reference Regulatory Agencies, *for intended therapeutic purpose*, otherwise the Firm has to revise its formulation. Furthermore, single ingredient vitamins for certain disease conditions may be registered with therapeutic claim as per approved Reference Regulatory Agencies.

In the response of above matter M/s. GlaxoSmithKline Consumer Healthcare Pakistan Limited, submitted the clarification letter in which it is stated that they are using 4mg concentrate powder of Vitamin D3 which is equivalent to 400 IU Vitamin D3 based on potency of material used. Firm also submitted the evidence of Certificate of Analysis of Dry Vitamin D3 100 SD/S which consists of free-flowing particle. They contain 100,000-110,000 IU (2.5-2.75 mg) vitamin D3 per gram finely dispersed in the matrix of modified food starch, sucrose and medium chain triglycerides. All-rac-alpha-Tocopherol and sodium Ascorbate are added as antioxidant. Silicon dioxide is added as a flow agent.

Further, firm provide the BP Monograph of Cholecalciferol Concentrate (Powder Form) and it is mentioned in the definition of monograph that the powder concentrates obtained by dispersing an oily solution of cholecalciferol in an appropriate matrix, which is usually based on a combination of gelatin and carbohydrates of suitable quality, authorized by the competent authority. The content of concentrate 90.0 percent to 110.0 percent of the cholecalciferol content stated on the label, which is not less than 100,000 IU/g. It may contain suitable stabilizer such as antioxidants.

Dry Vitamin D3 100 SD/S used in the manufacturing of CaC 1000 plus effervescent tablet contain 100,000-110,000 IU (2.5-2.75mg) of vitamin D3 per gm so 400 IU of vitamin D3 is present in 4 mg of Dry Vitamin D3 100 SD/S and it is below the range of UL recommended by different international Agencies. Calculation of vitamin D3 on the basis of documents provided by the firm has been summarize as under:

Each gm of Dry Vitamin D3 100 SD/S contain …100,000-110,000 IU of vitamin D3
Each mg of Dry Vitamin D3 100 SD/S contain ….100 IU of vitamin D3
4 mg of Dry Vitamin D3 100 SD/S contain ….400IU of Vitamin D3

In the light of above/s. GlaxoSmithKline Consumer Healthcare Pakistan Limited has requested for issuance of rectified registration letter of all the flavours of CaC-1000 plus Effervescent tablet. Initially CaC-1000 plus Effervescent Tablet has been registered in the name of M/s. Novartis Pharma, Jamshoro than, Registration board in its 270th meeting cancel the registration of product CaC-1000 plus effervescent tablet from the name of M/s. Novartis Pharma and approved grant of registration of product in the name of M/s. GlaxoSmithKline OTC (Pvt) Ltd., Jamshoro. Registration Board in its 278th meeting approved the change in flavour of CaC 1000 Plus Effervescent Tablet (Reg# 084750) from Pine Apple to Mango flavour. Moreover, more additional flavours Cola, Orange and Lemon are also approved for CaC
1000 Plus Effervescent Tablet with new registration numbers. Approval of change of Title/Name of Manufacturer (from M/s. GlaxoSmithKline OTC (Pvt) Ltd., Jamshoro to M/s. GlaxoSmithKline Consumer Healthcare Pakistan Limited, Jamshoro) of below mentioned product has been granted dated 30th August, 2019. Detail of all the flavours along with their registration number is given as under:

Sr.no.	Reg.no.	Name of drug along with Composition and flavours	Date of Registration
1.	084750	CaC 1000 Plus Effervescent Tablet Each tablet contains: Calcium Carbonate….327 mg Ascorbic Acid (vitamin C) ….500 mg Calcium Lactate Gluconate……1000 mg Pyridoxine HCl (Vitamin B6) …10 mg	20-07-2017

		Cholecalciferol (Vitamin D3) ….4 mg Mango Flavour….20mg	
2.	089120	CaC 1000 Plus Effervescent Tablet Each tablet contains: Calcium Carbonate….327 mg Ascorbic Acid (vitamin C) ….500 mg Calcium Lactate Gluconate……1000 mg Pyridoxine HCl (Vitamin B6) …10 mg Cholecalciferol (Vitamin D3) ….4 mg Cola Flavour….20mg	21-05-2018
3.	089121	CaC 1000 Plus Effervescent Tablet Each tablet contains: Calcium Carbonate….327 mg Ascorbic Acid (vitamin C) ….500 mg Calcium Lactate Gluconate……1000 mg Pyridoxine HCl (Vitamin B6) …10 mg Cholecalciferol (Vitamin D3) ….4 mg Orange Flavour….20mg	21-05-2018
4.	089122	CaC 1000 Plus Effervescent Tablet Each tablet contains: Calcium Carbonate….327 mg Ascorbic Acid (vitamin C) ….500 mg Calcium Lactate Gluconate……1000 mg Pyridoxine HCl (Vitamin B6) …10 mg Cholecalciferol (Vitamin D3) ….4 mg Lemon Flavour….20mg	21-05-2018

Firm has requested for issuance of rectified registration letter of all the above flavours of CaC 1000 plus effervescent tablet with the following label claim:

Existing Label Claim	**Correct Label Claim**
Each Effervescent Tablet contains: Calcium Carbonate….327 mg Ascorbic Acid (vitamin C) ….500 mg Calcium Lactate Gluconate……1000 mg Pyridoxine HCl (Vitamin B6) …10 mg Cholecalciferol (Vitamin D3) ….4 mg	Each Effervescent Tablet contains: Calcium Carbonate….327 mg Ascorbic Acid (vitamin C) ….500 mg Calcium Lactate Gluconate……1000 mg Pyridoxine HCl (Vitamin B6) …10 mg Cholecalciferol (Vitamin D3) ….400 IU

Decision: Registration Board noted the technical information related to the concentrated powder of vitamin D3 used in the formulation of CaC-1000 plus Effervescent tablet of M/s. GlaxoSmithKline Consumer Healthcare Pakistan Limited, Jamshoro and accordingly quantity of Vitamin D3 (within UL Limit) used in the formulation of CaC-1000 Plus Effervescent tablet is summarize as under:

Each gm of Dry Vitamin D3 100 SD/S contain …100,000-110,000 IU of vitamin D3
Each mg of Dry Vitamin D3 100 SD/S contain ….100 IU of vitamin D3
4 mg of Dry Vitamin D3 100 SD/S contain ….400IU of Vitamin D3

Further, in the light of above submitted information Registration Board approved the correction in label claim of all four flavours of CaC-1000 Plus Effervescent Tablet of M/s. GlaxoSmithKline Consumer Healthcare Pakistan Limited, Jamshoro. The correct label claim is as under:

Each Effervescent Tablet contains:

Calcium Carbonate….327 mg
Ascorbic Acid (vitamin C) ….500 mg
Calcium Lactate Gluconate……1000 mg
Pyridoxine HCl (Vitamin B6) …10 mg
Cholecalciferol (Vitamin D3) ….400 IU

Case No. 3: <u>Cases which are deferred in the previous Meeting on the basis of above matter:</u>

2451.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals, I-10/3, /Industrial Area, Islamabad
	Brand Name +Dosage Form + Strength	HIGH C-D Tablets (Effervescent Tablet) Orange Flavour
	Diary No. Date of R& I & fee	(Duplicate Dossier) Dy. No. 148 dated 18/03/2009 Rs. 8,000/- Differential fee (Photocopy) of Rs. 12,000/- submitted on 26/10/2017
	Composition	Each tablet contains: Calcium Lactate Gluconate….1000 mg Calcium Carbonate….327 mg Vitamin C (Ascorbic Acid) ….500 mg Vitamin D3 ….4 mg Vitamin B6….10 mg
	Pharmacological Group	Vitamin and mineral formulations
	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specification
	Pack Size & Demanded Price	As per S.R. O
	Approval Status of Product in Reference Regulatory Authorities	…..
	Me-too Status	CaC-1000 Plus Effervescent Tablet by M/s. GSK OTC (Pvt.) Ltd. Petaro Road, Jamshoro
	GMP Status	Last inspection report dated 09/11/2018, the panel recommended for the grant of GMP Certificate.
	Remarks of the Evaluator.	Vitamin D3 used in the formulation is above UL, as the upper tolerable intake level of vitamin D is 10000 IU (250mcg) while the used amount is 4000 mcg same amount is used in me-too.
	Previous Decision:	Registration in its 295th meeting decided as under: Deferred, as the quantity of Vitamin D3 used in the composition is above upper tolerable intake level (UL) further Registration Board is directed to the Registration Holder of Me-Too/generic to apply for the correction/amendment of composition in the concerned section with the prescribed fee.
	Response of the Firm	• Firm submitted the COA of Dry Vitamin D3 100 SD/S, containing 100,000-110,000 IU (2.5-2.75mg) of vitamin D3 per gm meaning that 400 IU of vitamin D3 is present in 4 mg of Dry Vitamin D3 100 SD/S and it is below the range of UL recommended by different international Agencies. Further firm applied for the correction of label claim as follows, along with fee of Rs.5,000/- submitted on 10-09-2020. Each tablet contains: Calcium Lactate Gluconate….1000mg Calcium Carbonate….327mg

		Vitamin C (Ascorbic Acid) ….500mg Vitamin D3….400IU Vitamin B6….10mg
	Decision: Approved with the following label claim: **Each Effervescent tablet contains:** **Calcium Lactate Gluconate….1000mg** **Calcium Carbonate….327mg** **Vitamin C (Ascorbic Acid) ….500mg** **Vitamin D3….400IU** **Vitamin B6….10mg**	
2452.	Name and address of manufacturer / Applicant	M/s. Werrick Pharmaceuticals, I-10/3, Industrial Area, Islamabad

CaseNo.4: <u>Cases deferred in previous meetings of registration Board on the basis of Vitamin Policy</u>

2459.	Name and address of manufacturer / Applicant	M/s. Indus Pharma, 26-27 & 63-67, Sector 27, Korangi Industrial Area, Karachi
	Brand Name +Dosage Form + Strength	Trimet Syrup 120ml
	Composition	Each 15ml of reconstituted syrup Contain: Metopine……2.75 mg L-Lysin hydrochloride……250 mg DL-Carnitine hydrochloride….375mg Vitamin B1 (Thiamine HCL)….30mg Vitamin B6 (Pyridoxine HCL) ….30mg Vitamin B12 (Cyanocobalamin)…1000mcg
	Diary No. Date of R& I & fee	Dy. No.67; 07-07-2015; Rs.20,000/- (06-07-2015)
	Pharmacological Group	Appetite Stimulant
	Type of Form	Form 5

	Finished product Specification	Manufacturer specification
	Pack size & Demanded Price	Rs. 73.00 per 120ml pack
	Approval status of product in Reference Regulatory Authorities.	Not verifiable
	Me-too status	Trimetabol syrup of M/s Sami (Reg.#012814) registered with the following composition: Metopineate Bromide….2.75mg, L-Lysine Hcl….250 mg, D-I-Carnitine Hcl 375mg, Vitamin B1 30mg, Vitamin B6 30mg, Vitamin B12 1000mcg
	GMP status	cGMP inspection conducted on 16-08-2017 concludes that firm has been operating at acceptable level of GMP compliance.
	Remarks of the Evaluator.	
	Previous Decision	Registration Board in its 274th meeting decided as under: Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 249th meeting.
	Evaluation by PEC (AD PEC-XII)	In Me-too Metopineate Bromide is used in the formulation while in applied formulation Metopine is used by the firm, clarification is required. Further in approved UL table level of Metopine, L-Lysine and DL-carnitine has not included. Metopine is an appetite stimulant. L-Lysine is an amino acid and its estimate requirement in adult is 12mg/kg per day according to US IOM. DL-Carnitine is derived from amino acid.
	Decision: Deferred for the evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in 277th meeting because the formulation contain Metopine which is an appetite stimulant.	
2460.	Name and address of manufacturer / Applicant	M/s. Indus Pharma, 26-27 & 63-67, Sector 27, Korangi Industrial Area, Karachi
	Brand Name +Dosage Form + Strength	Osyfen-D Tablet
	Composition	Each film coated tablet contains: Ossein mineral complex…830mg Calcium …177.6mg* Phosphorus…82.2mg Residual Mineral Salts….24.9mg Collagen….224mg Other proteins…66.4mg Trace elements F, Mg, Fe, Zn, Cu, Ni *Corresponding to approximately 440mg Hydroxyapatite Vitamin D….400 IU
	Diary No. Date of R& I & fee	Dy. No. 635, 27-04-2015 , Rs. 20,000/- (27-04-2015)
	Pharmacological Group	Mineral and electrolyte calcium preparation
	Type of Form	Form-5
	Finished product Specification	Manufacturer
	Pack size & Demanded Price	Rs. 10.00/Tablet Rs. 300.0-0/-30's
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Ossein by Caraway
	GMP status	16-08-2017, Acceptable

	Remarks of the Evaluator.	• Firm provided the following justification for overage. "It is to inform you that 5 % additional ossein mineral complex in the formulation is added to compensate for 5% water present in ossein mineral complex and to compensate for material loss during processing due to sticky nature of ossein mineral complex." • Atomic absorption Spectrophotometer verified from FID report.
	Previous Decision	Registration Board in its 274th meeting deferred for the submission of the following: • Justification for 5% overage of active ingredient in master formulation since the submitted justification is not acceptable on scientific grounds. • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 249th meeting.
	Evaluation by PEC (AD PEC-XII)	Justification regarding the overage is still pending Latest GMP inspection report is required Firm provide the Me-Too product Ossein Tablet registered in the name of M/s. Caraway Pharmaceuticals (Reg.no.056017)
	Decision: Deferred for the submission of justification regarding the 5% overage of active ingredient in Master formulation.
