- Scientific justification for the results of assay test of meropenem for the batch No. 17L078 which show upward trend (i.e. increase in assay values with time) throughout the stability studies (both accelerated and real time) keeping in view the fact that the testing method was not exactly as per USP monograph, the reference standard meropenem (trihydrate) for injection was used instead of meropenem (base), the contents of sodium, as well as sodium carbonate was not determined at any time point during stability studies and loss on drying is also not performed during the stability studies.
- Scientific justification how three batches have been manufactured using 5Kg containers while each batch required 5.4Kg drug substance.
- Evidence of purchase of atomic absorption spectrophotometer including commercial invoice and Installation Qualification (IQ) and Operational Qualification (OQ) of atomic absorption.
- Submission of fee for pre-registration changes in the drug product specifcations.

Keeping in view the above, the Board decided that the submitted stability study data is not acceptable and directed the manufacturer to either perform complete product development and stability studies or submit the aforementioned data as per USP specifications and submit data accordingly. The Board further directed the manufacturer to comply USP Specifications for already registered drug products.

Response by the firm:

Reason for deferment	Response by the firm
Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both Drug Product manufacturer.	Specifications and Analytical Procedure of Drug Substance by API manufacturer is provided.
Scientific justification for using flow rate of 1.0ml/min for assay testing of your commercial batches since USP recommends flow rate to be 1.5ml/min,	As mentioned in USP monograph of Meropenem for Injection edition 2018 and 2019, retention time should be between 6 to 8 minutes. We were following same criteria regarding flow rate i.e. 1.5ml but due to typographic error flow rate of 1.0ml was mentioned in test method which has been corrected now.
Scientific justification for having the method of sample solution preparation for the commercial batches which is entirely different from that specified in USP monograph.	Sample solution preparation was performed as USP monograph but step of reconstitution with water was not previously part of sample solution preparation. Said step has been incorporated in revised test method. Copy of revised test method is also provided.
Scientific justification for having analytical method of drug product without specifying that "sample should be hold for 1-2 hours at 25± 1°C before testing" which is recommended in USP monograph.	Due to typographic error these details of hold time after sample preparation was missed in finished product testing method. Testing method has been revised as per current USP monograph
Scientific justification for releasing the commercial batch of drug product and during its stability studies even after having the value of tailing factor above 1.5, since USP monograph specifies tailing factor NMT 1.5 in the system suitability requirements.	We have checked all chromatograms of raw material testing as well as stability testing but found no peak tailing greater than 1.5. Particular details regarding tailing factor was not previously mentioned in the testing method, which is now incorporated in revised testing method of both drug substance and drug product. Copy of revised test method is also provided.
Scientific justification for using different HPLC equipment and software for the standard solution and the sample solution analysis.	We use to run standard solution and sample solution both (whenever we perform the testing of any API or Finished product) on same HPLC system, as it makes results more reliable and also verifies system suitability parameters in all-routine testing. We have tested assay and impurities on two separate systems having different softwares, may be this was confusion factor while data review.
Scientific justification for HPLC testing of your commercial batches using UV detector at 220nm while the USP recommends that testing be performed at 300nm.	We have followed USP monograph for testing of assay of drug substance as well as impurities. USP monograph specifies 300nm for assay testing of drug substance while 220nm for impurities testing in drug substance.
Scientific justification for using reference / working standard having a potency of 73.91% for the analysis of commercial batches.	The potency is on as is basis of Meropenem for injection, which has been standardized against the primary standard (Meropenem base) and is used as working standard in routine testing.
Scientific justification for having a master formulation containing 707mg of meropenem trihydrate blended with sodium carbonate which is equivalent to 500mg meropenem.	Below is calculation of fill weight if Meropenem 1gm: As per attached COA, Average water content = 10.5% Average sodium bicarbonate content = 18.5% By adding both contents, 10.5 + 18.5 = 29%

	By subtracting both contents, 100% - 29% = 71% For Merem 1g = $\frac{1000 \times 100}{71}$ = 1408.45mg/vial
Provision of details including batch number, expiry date and name of manufacturer of the innovator product along with pharmaceutical equivalence was performed.	Product Name: Merrem for injection 1g Batch Number: ZEF0068 Manufacturing Date: 09-2015 Expiry Date: 08-2019 Name of manufacturer is not mentioned.
Scientific justification why complete tests as mentioned in USP monograph were not performed in pharmaceutical equivalence studies.	All tests that are mentioned in USP could not perform during pharmaceutical equivalence due to limited quantity of innovator sample. Therefore, we have included only all major test while performing pharmaceutical equivalence.
Scientific justification for not performing compatibility studies of the drug product with the recommended diluent.	Compatibility studies of Merem were performed but it was not made part of dossier during submission. Detailed compatibility studies of Merem against its innovator i.e. Merrem was performed with all its recommended diluents. Study results are also provided
Scientific justification for not performing the test of sodium content and loss on drying for the analysis of commercial batches of the drug product.	In 2017, we did not have Atomic Absorption there test of content of sodium is not part of specifications of product. Moreover we have now revised specification and LOD and content of sodium has been incorporated in revised specifications.
Scientific justification for using an entirely different formula for calculation of assay results of commercial batches from that specified in USP monograph.	Formula of content of drug product is elaborated with context to standard and sample preparation procedure which has now been updated as per USP format. Copy of revised test method & USP monograph is also provided.
Scientific justification for not performing test of content of sodium, completeness and clarity of solution, loss on drying and sterility test during the stability studies of the product.	Testing parameters like sodium contents, loss on drying has not performed because they can be monitored indirectly. Justifications given as below: • Sodium is the part of Sodium carbonate which in this mixture of meropenem for injection acts as a buffer and controls the pH of the mixture. A pH drift will depict the change in buffer contents, as Sodium being metal does not degrade in ordinary conditions. • Loss on drying has a direct impact on the active ingredient stability/degradation. Assay determination depicts the impact cause by this parameter. • In physical check of stability samples we use to perform this test after reconstitution with prescribed amount of water but this test was not separately mentioned in stability data. As for as sterility is concerned it was not part of stability testing. We have revised our stability protocols and included all critical Quality attributes in stability testing and implemented for onward stability testing.

Scientific justification how three batches have been manufactured using 5Kg containers while each batch required 5.4Kg drug substance.	During interpretation of data from BMR while preparation of dossier 5.4kg has been mistakenly considered batch size by regulatory person. Actual batch size as stated in BMR is 5.0kg. Moreover meropenem as ready to fill powder is imported in container of 5.0kg.
Evidence of purchase of atomic absorption spectrophotometer including commercial invoice and Installation Qualification (IQ) and Operational Qualification (OQ) of atomic absorption.	Field Service Report dated 25-10-2019 is provided from Rays Technologies. In report it is mentioned that IQ, OQ and PQ of the instrument is perfomed and the instrument is handed over to user in working condition. However no details of the equipment / instrument is provide.
Submission of fee for pre-registration changes in the drug product specifications.	Firm has submitted fee 7500/- dated 05-11-2021 for revision of specifications.
Keeping in view the above, the Board decided that the submitted stability study data is not acceptable and directed the manufacturer to either perform complete product development and stability studies or submit the aforementioned data as per USP specifications and submit data accordingly. The Board further directed the manufacturer to comply USP Specifications for already registered drug products.	Firm has not submitted product development and stability study data of new batches in which the development and testing is carried out as per USP specifications from initial time point.

Decision of 313rd meeting of Registration Board:

Registration Board deliberated that the commercial batches manufactured by the manufacturer i.e. Global Pharmaceuticals was not developed and tested as per the USP monograph. Keeping in view the USP monograph, public assessment report of the innovator product and the data submitted by the firm, the Board decided to defer the case and advised the manufacturer to perform product development studies keeping in view the innovator product and product testing and stability studies by complying USP monograph and submit data upon completion of 6 months stability studies.

Submission by the firm:

The firm on 13-01-2022 submitted new response against the decision of 312nd meeting of Registration Board instead of complying the decision of 313rd meeting of Registration Board.

In the new submission, the firm has changed the source of drug substance from M/s Sterile India Pvt Ltd. India to M/s Shenzhen Haibin Pharmaceutical Co. Ltd China. Furthermore, the firm has submitted stability data of following new batches:

Batch No.	Batch size	Mfg date	Stability initiation date
21A243	3538 Vials	01-2021	03-02-2021
21E154	3538 Vials	05-2021	29-05-2021
21E155	3538 vials	05-2021	29-05-2021

Firm has submitted data which shows that the product testing has been conducted as per revised specs and calculation formula however firm has revised their specifications after 312nd meeting which was conducted on 14-16 Septeber 2021 and the revised specifications were considered by the Board in its 313rd meeting held on 16-18 November 2021.

Decision of 316th meeting of Registration Board:

Deferred for submission of complete data of drug substance as well as drug product as per revised specifications in module-2 and module-3 as per the Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Now the firm has submitted following data of three newly manufactured batches. Firm has also changed the source of drug substance to CSPC Zhongnuo Pharmaceutical (Shijiazhuang) Co. Ltd. No. 88, Yangzi Road, Shijiazhuang Economic and Technological Development Zone, Hebei Province PR. China. **Firm has not submitted any fee for change of source as well as submission of stability study data of new batches**.

Firm has also submitted module 2 and module 3 along with stability study data, the details of which are as under:

STABILITY STUDY DATA			
Manufacturer of API	M/s CSPC Zhongnuo Pharmaceutical (Shijiazhuang) Co. Ltd. No. 88, Yangzi Road, Shijiazhuang Economic and Technological Development Zone, Hebei Province PR. China.		
API Lot No.	682107003		
Description of Pack (Container closure system)	Glass vial		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	22A335	21M270	21M271
Batch Size	3709 vials	3709 vials	3709 vials
Manufacturing Date	01-2022	12-2021	12-2021
Date of Initiation	10-01-2022	30-12-2021	30-12-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has referred to previous inspection of stability data of the same dosage form on the basis of which Registration Board in 289th meeting decided to approve registration of Promig Plus 500mg/20mg Tablet and Promig Plus 375mg/20mg Tablet. Inspection date: 14th March, 2019 The report shows that: • The HPLC software is 21 CFR compliant. • The firm has provided data loggers with stability chambers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. HE20180065) issued by China Food and Drugs Administration dated 17-08-2018. The certificate is valid till 16-08-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 13-09-2021 specifying import of 200Kg Meropenem for Batch No. 682107002 and 682107003. The commercial invoice is attested by AD (I&E) DRAP field office.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Firm has changed the source of drug substance to CSPC Zhongnuo Pharmaceutical (Shijiazhuang) Co. Ltd. No. 88, Yangzi Road, Shijiazhuang Economic and Technological Development Zone, Hebei Province PR. China. **Firm has not submitted any fee for change of source as well as submission of stability study data of new batches**.
- GMP certificate / insepection report of the contract manufacturer is not available within last three years.

Approved.

- **Registration Board decided that registration letter will be issued after submission of applicable fee that is 75,000/- for change of source as well as submission of stability study data of new batches as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Board Authorized its Chairman for issuance of registration letter upon capacity assessment of manufacturing and testing facility of M/s Global Pharmaceuticals (Pvt) Ltd. Plot No. 204-205, Industrial Triangle Kahuta Road Islamabad.**

253.	Name, address of Applicant / Marketing Authorization Holder	**M/s Sami Pharmaceuticals, F-95, SITE, Karachi.**
	Name, address of Manufacturing site.	M/s Sami Pharmaceuticals, F-95, SITE, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 8323 dated 15-03-2021
	Details of fee submitted	PKR 50,000/-: dated 08.01.2021
	The proposed proprietary name / brand name	**D-Tres oral 400 IU Drops**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each drop contains: Cholecalciferol (Vitamin D3) Ph. Eur….400 IU (10µg) Innovator Specs
	Pharmaceutical form of applied drug	Oral drops

	Pharmacotherapeutic Group of (API)	Vitamin D ATC code: A11CC05
	Reference to Finished product specifications	Innovator Specs
	Proposed Pack size	10ml, 15 ml, 20 ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	SAPVIT D3 Oral Drops Solution
	For generic drugs (me-too status)	NA
	GMP status of the Finished product manufacturer	GMP Certificate issued date 11-08-2020
	Name and address of API manufacturer.	FERMENTA BIOTECH LIMITED Plot No. Z-109 B & C, SEEZ II, Dahej Taluka – Vagra, Distt. Bharuch 392 130 Gujarat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Cholecalciferol is present in Ph. Eur. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances and specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 5 ± 3°C for 36 months Accelerated: 25°C ± 2°C / 60% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence not performed due to the unavailability of the innovator sample, CDP is not applicable		
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, accuracy, precision, specificity.

Remarks OF Evaluator:

	Shortcomings	Reply of the firm
2.3.S.4.3	The drug product manufacturer has performed impurity and residual solvent testing in the drug substance. The firm did not perform the method validation/verification for the same	We performed assay method validation of the drug substance as per CTD requirement. Validation of Impurity and residual solvent testing is performed by drug substance manufacturer.
3.2.P.1	Justification/scientific rationale is required for addition of 20% overage along with submission of stability assay report of the latest time point	Some active pharmaceutical ingredients including several vitamins in certain dosage forms or packaging condition may be susceptible to degrade or deteriorate and may not remain their native form over the shelf life of product. Degradation or deterioration of vitamins is one of the major factors that lead manufacturer to require excess amount of vitamins in their products, to ensure the amount of the drug substance meets the requirement of 100% of the label claim amount throughout the shelf life of the product. (**Referred ANNEXURE –I** Pharmacopeial Forum Vol.42.42 (3) [May-June 2016], Stimuli to the Revision Process, Factors to Consider in Setting Adequate Overages of Vitamins and Minerals in Dietary Supplements). Outside the U.S., many jurisdictions recognize the minimum value as 80-90% of label claim. For example, the Danish and Korean authorities allow a shelf-life minimum of 80% of label claim for added vitamins and minerals, and the United Kingdom allows -50% for water soluble vitamins and minerals, and -30% for oil soluble vitamins. U.S.-designed products with inputs typically 10-50% higher than the label claim to meet 100% minimum requirement at end of shelf life can exceed upper specifications limits for non-U.S. countries with maximum overage limits. (**Referred ANNEXURE –II** Council for Responsible Nutrition-Docket No.FDA-2012-N-1210; Food labelling: Revision of the Nutrition and Supplement Facts Labels, Page No.27). For development of our product i.e. D-Tres 400 IU/Drop, 20% overage of cholecalciferol (vitamin D_3) was taken to compensate initial process loss followed by the expected loss in assay during stability studies. The initial test results and stability trending of our product shows about 3% initial process loss and 3 to 4% loss in assay under accelerated condition as well as in long term condition. Moreover, 20% overage was not fixed, as mentioned above, it is a global practice to take overages for vitamins during development studies. However, after evaluation of the stability data and stability study report of the latest time period i.e. 18 months it is observed that our product is stable and no further loss in assay observed after 18 month.

<table>
<tr><td></td><td></td><td>(Referred ANNEXURE –III Stability trending of our product i.e. D-Tres 400 IU/Drop).
Therefore, based on the above data and stability trend analysis of our product, we recommend to reduce the overage of cholecalciferol (vitamin D_3) from 20% to 5%. However, this 5% overage will not effect safety and efficacy of product, because this 5% overage is well within the tolerable upper intake levels recommend for Vitamin D (Referred ANNEXURE –IV National Institutes of Health).</td></tr>
<tr><td>3.2.P.2.1</td><td>The theoretical dispensed weight of cholecalciferol is 12,000 IU per ml (without overages), while it is 14,400 IU per ml in the reference product. Justification is required</td><td>We have developed our product D-Tres 400 IU/Drop against the reference listed drug (RLD) i.e. Sapvit-D3 14,400 IU/ml Oral Drops, Solution (400 IU/ Drop marketed by M/s. Fresenius Kabi Limited UK.
The literate data of RLD shows that one ml of RLD is equivalent to 36 drops. 1 drop of RLD is equivalent to 400 IU (10 µg) cholecalciferol (vitamin D_3). As 0.025 µg Cholecalciferol is equivalent to 1 IU Cholecalciferol so, 360 µg is equivalent to 14,400 IU cholecalciferol (vitamin D_3) for 36 drops which is equivalent to one ml
Furthermore, please note that One ml of our product contains 30 drops. However, the label claim of Cholecalciferol per drop is same as of the RLD i.e. One drop of our product is equivalent to 400 IU (10 µg) cholecalciferol (vitamin D_3). As 0.025 µg Cholecalciferol is equivalent to 1 IU Cholecalciferol so, 300 µg is equivalent to 12,000 IU cholecalciferol (vitamin D_3) for 30 drops which is equivalent to one ml.
(Referred ANNEXURE –V Package leaflet: Information for the user, Sapvit-D3 14,400 IU/ml Oral Drops, Solution (400 IU/ Drop), page no.5)
The comparative analysis of D-Tres 400 IU/Drop against Sapvit-D3 14,400 IU/ml Oral Drops, Solution (400 IU/ Drop) is mention below
<table>
<tr><th>SAMI's Product
D-Tres 400IU/Drop</th><th>RLD
Sapvit-D3 14,400 IU/ml Oral D
Solution (400 IU/ Drop)</th></tr>
<tr><td>1ml contains 30 drops</td><td>1ml contains 36 drops</td></tr>
<tr><td>1drop contains 400 IU (10 µg) cholecalciferol (vitamin D_3)</td><td>1drop contains 400 IU (10 µg) cholecalciferol (vitamin D_3)</td></tr>
<tr><td>30 drops =12,000 IU (300 µg)</td><td>36 drops =14,400 IU (360 µg)</td></tr>
</table>
Based on the above details we can conclude that our product contain the same labelled amount of cholecalciferol as of the reference listed drug (RLD) i.e. 400 IU (10 µg) cholecalciferol (vitamin D_3) per drop</td></tr>
<tr><td>3.2.P.2.2.1</td><td>You have not performed pharmaceutical equivalence. Justification is required</td><td>The reference product is not available in Pakistan. We have tried to arrange it from the country of origin but unfortunately not succeeded.
Please note that the dosage form is oral solution for which BE studies also exempted (See reference guideline of FDA "Guidance for Industry, Bioavailability and Bioequivalence Studies Submitted in NDAs or INDs",
Solutions and Other Solubilized Dosage Forms
"For oral solutions, elixirs, syrups, tinctures, or other solubilized forms, in vivo BA and/or BE are generally self-evident and a requirement of in vivo data for a product may</td></tr>
</table>

<table>
<tr><td></td><td></td><td>be waived (21 CFR 320.22(b)(3)). In such instances, the applicant would be deemed to have complied with and fulfilled any requirement for in vivo data. Although a comparative study is not necessary, characterization of the pharmacokinetics of the drug is required (21 CFR 314.50(d)(3)). In addition, in vivo BE studies that compare different solution formulations are waived based on the assumptions that release of drug substance from the drug product is self-evident and that the solutions do not contain any excipients that significantly affect drug absorption. However, there are certain excipients that may alter the BA (e.g., sorbitol may reduce the BA of drugs, and vitamin E may enhance the BA) in amounts sometimes used in oral liquid dosage forms. In this case, evaluation of in vivo BA and/or BE may be required".
Please also note that our formulation is similar to the innovator in the following,
1. API: Same as that of Reference listed drug.
2. Dosage form: Same as that of Reference listed drug.
3. Indication: Same as that of Reference listed drug.
4. Excipients: Same as that of Reference listed drug .
5. Label claim: Same as that of Reference listed drug.
However, for assay and other chemical / microbiological attributes, we have tested the product according to the general monograph of pharmacopeia and complied.</td></tr>
<tr><td>3.2.P.4.1</td><td>The coconut oil is available in pharmacopeia. The drug product manufacturer has claimed in-house specifications; and did not perform the chromium test.
Justification is required</td><td>Yes, it is available in BP and testing was done according to the BP specifications. As per our procedure for excipients, we do not mention the material reference on the specifications.
The missing Chromium test performed and incorporated in our specifications.</td></tr>
<tr><td>3.2.P.5.1</td><td>Pharmacopeial monograph for the Cholecalciferol solution has the different vehicle / solvent from the innovator and our formulation is based on reference listed drug (RLD), which using only API and medium chain triglyceride (coconut oil). Therefore we cannot claim it Pharmacopeial and claim it as</td><td>Pharmacopeial monograph for the Cholecalciferol solution has the different vehicle / solvent from the innovator and our formulation is based on reference listed drug (RLD), which using only API and medium chain triglyceride (coconut oil). Therefore we cannot claim it Pharmacopeial and claim it as Innovator specifications.
Please see below the difference of the formulations
<table>
<tr><th>Pharmacopeia</th><th>Innovator</th><th>SAMI</th></tr>
<tr><td>edible vegetable oil</td><td>Medium chai triglyceride (Fractionated coconut oil)</td><td>Medium chai triglyceride (Fractionated coconut oil)</td></tr>
<tr><td>Polysorbate 80 or</td><td>-</td><td>-</td></tr>
<tr><td>Propylene Glycol</td><td>-</td><td>-</td></tr>
</table>
</td></tr>
</table>

	Innovator specifications.	
3.2.P.5.1	Filled volume/weight variation test has not been performed	We have already performed filled volume test but not submitted to you as this is the part of our in-process testing. Please find attached the in-process report for your ready reference
3.2.P.5.2	The applied drug product is available in pharmacopeia. The drug product manufacturer has validated their own testing method for the assay. Justification is required	As already mentioned in 3.2.P.5.1, the product available in pharmacopeia has different vehicle / solvent from the innovator. Our formulation is based on innovator. Therefore, we use the in-house developed, validated method.
3.2.P.5.6	The drug product manufacturer has performed additional tests (other than those mentioned in the pharmacopeia). The specifications for such tests shall be justified	Pharmacopoeia tests are the minimum requirement. As per general pharmacopoeial monograph, additional tests can be performed according to the nature of substance and considering the formulation.
3.2.P.8.3	You shall clarify whether the stability was conducted placing the bottles upright or inverted	The product is placed in inverted position.

Decision of 316th meeting of Registration Board:

Deferred for following:

- Pharmaceutical equivalence studies of the applied product along with innovator / reference product.
- Evidence of approval of applied formulation as a pharmaceutical drug product in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.
- Scientific justification that the applied formulation is equivalent to the innovator's product in terms of cholecalciferol contents per ml as well as per drop.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Pharmaceutical equivalence studies of the applied product along with innovator / reference product.	We have developed our product D-Tres 400 IU/Drop against the reference listed drug (RLD) i.e. Sapvit-D3 Oral Drops solution (400 IU/ Drop) marketed by M/s. Fresenius Kabi Limited UK. However, due to unavailability of the reference product, pharmaceutical Equivalence has been performed against

		Baby Ddrops 400IU per drop - which is similar to our formulation *Reference Document attached* https://health-products.canada.ca/lnhpd-bdpsnh/index-eng.jsp
2.	Evidence of approval of applied formulation as a pharmaceutical drug product in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.	**Sapvit-D3 400 IU/drop oral drops, solution** **Qualitative and Quantitative Composition** One ml (= 36 drops) contains: 14,400 IU (360 microgram) cholecalciferol (vitamin D3) One drop = 400 IU (10 microgram) cholecalciferol (vitamin D3) **Health Products Regulatory Authority (HPRA) Ireland**
3.	Scientific justification that the applied formulation is equivalent to the innovator's product in terms of cholecalciferol contents per ml as well as per drop.	SmPC of the Innovator product clearly mentions that 1 drop is equivalent to 400IU The Leaflet & SmPC of the Innovator product SAPVIT D3 mentions the following dosage guidelines: **The Method of administration mentions that the best way to take** Sapvit-D3 oral drops is to add them drop by drop into the mouth or, if necessary, administer with a spoon and some liquid. **Prevention of vitamin D deficiency:** The usual daily dose is: For newborns, infants and children from the second week of life to the age of 3 years: between 1-2 drops For children aged 4 years and above and adolescents: between 1-3 drops For adults aged 19 to 70 years: between 1-4 drops For elderly people aged above 70 years: between 2-4 drops **Treatment of rickets** The total amount of required vitamin D depends on the severity of the disease. In existing rickets, treatment is started with a preparation with a higher concentration of vitamin D for the initial treatment. Subsequently, the usual dose is between 2 to 12 drops of Sapvit-D3 daily. **Treatment of vitamin D deficiency** The usual daily dose is: For children and adolescents: 5 drops daily for 6 weeks, then between 1-3 drops daily For adults aged 19 to 70 years and elderly people aged above 70 years: 15 drops daily for 8 weeks, then between 3-5 drops daily **Adjunct to osteoporosis treatment of patients who are at risk of vitamin D deficiency**

		The usual daily dose is: For adults aged 19 years and above: between 2-4 drops daily or between 14-26 drops weekly. **Based on the dosage guidelines for multiple conditions as mentioned above, SAPVIT D3 is available in 12.5 ml (corresponding to 450 drops) or 25 ml (corresponding to 900 drops), whereas our product D-Tres Oral Drops applied pack size is 10ml.** The literate data of RLD shows that one ml of RLD is equivalent to 36 drops. 1 drop of RLD is equivalent to 400 IU (10 µg) cholecalciferol (vitamin D_3). As 0.025 µg Cholecalciferol is equivalent to 1 IU Cholecalciferol so, 360 µg is equivalent to 14,400 IU cholecalciferol (vitamin D_3) for 36 drops which is equivalent to one ml. Furthermore, please note that One ml of our product contains 30 drops. However, the label claim of Cholecalciferol per drop is same as of the RLD i.e. One drop of our product is equivalent to 400 IU (10 µg) cholecalciferol (vitamin D_3). As 0.025 µg Cholecalciferol is equivalent to 1 IU Cholecalciferol so, 300 µg is equivalent to 12,000 IU cholecalciferol (vitamin D_3) for 30 drops which is equivalent to one ml. Finally, the firm summarized that their per drop content is same as that of the reference product.

Decision: Deferred for following points:

- **Clarification since the concentration of Cholecaliferole per mL of the innovator's product is 360ug (Eq. to 14,440IU) while the applied product contains 30ug (12,000IU) per mL.**
- **Confirmation of RDA value for Cholecalciferole.**

254.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Aspin Pharma (Pvt) Ltd. Plot No. 10 & 25 Sector 20, Korangi Industrial Area Karachi.**
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

- Firm has submitted fee 70,000 for the application of contract manufacturing

Shortcomings communicated	**Response by the firm**
Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of analytical method of drug substance from the drug product manufacturer. The analytical method is issued on 20-07-2021.
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be	Firm has submitted report of verification studies of the analytical method of drug substance. However, the verification studies were conducted on 21-01-2021 while the analytical method of drug substance was issued by the drug product manufacturer on 20-07-2021.

submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.	
Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture. A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)".	Firm has submitted COA of the drug substance generated by drug product manufacturer only, while the COA of drug substance manufacturer is not submitted.
Submit COA of reference standard / working standard including source and lot number which is actually used in the testing of drug substance and drug product.	Firm has submitted COA of working standard from drug substance manufacturer which has been standardized against USP reference standard. However drug product manufacturer is using working standard of meropenem Batch No. SI/MPM/00060120 manufactured by M/s Sterile India.
Justify the master formulation containing 570mg of meropenem trihydrate for manufacturing of 500mg meropenem for injection, since the drug substance contains meropenem blended with 15.10 to 16.50% w/w of sodium carbonate.	Firm has submitted calculation to justify the filled weight. As per calculations submitted by the firm the weight 570mg per vial is calculated on theoretical basis considering that the drug substance has 100% assay, while the actual dispensing is to be made on the basis of actual % assay of the meropenem.
Justify the use of 5% overage in the formulation, since the justification submitted in this regard is not supported by any guidelines.	We hereby justify that in development stage we added 5% extra meropenem sterile powder for injection in initial batches. After completion of stability study degradation is no more than 2 – 3% within the limit assay range is 90 – 120% so no more 5% meropenem sterile powder for injection is added.
Submit results of compatibility studies in section 3.2.P.2.6.	Firm has submitted result of compatibility studies of the drug product with WFI.
Justify how the time and temperature of sterilization cycle is directly selected without any protocols for its validation.	Firm has submitted summary report of autoclave machine re qualification instead of providing justification.
Provide detailed method of sample stock solution preparation instead of mentioning the general statement "Constitute a container of Meropenem for Injection with a volume of water, corresponding to the quantity of solvent specified in the labelling".	Firm has not submitted complete method of analysis of the drug product in which the method of sample solution preparation is explained.
Justify why the formula for calculation of assay contents of meropenem is different than that mentioned in USP monograph.	Firm has submitted that we are using potency of working standard as percentage. USP taking the potency in mg/mg which is

	converted into percentage by multiplying this ratio with 100. Firm has submitted calculation to justify that their formula is equivalent to USP. However, the USP formula used by the firm is different from that specified in USP.
Analytical method verification studies have not been conducted and evaluated in the light of USP general chapters and ICH guidelines.	Firm has submitted verification studies of the analytical method dated 21-01-2021, while the analytical method of the drug product was revised and updated on 12-07-2021.
Justify why the drug product specifications does not contain the test for sodium contents as recommended by USP.	In Meropenem trihydrate injection label claim is as meropenem while trihydrate and sodium considered as impurity. We are verifying the meropenem by HPLC and due to unavailability of the atomic absorption we were verifying the sodium content by titration method. Moreover, for verification purpose, we analysed sodium content from PCSI and Citi Pharma with atomic absorption. And now we have atomic absorption in our facility and we have changed our SOP accordingly and now we are conducting each and every analysis of sodium content in our facility as per USP monograph.
Justify the test of accuracy in analytical method validation without specifying the concentrations of the solution which are analysed for accuracy. Further justify the use of solutions having low, medium, and high concentration of sample without specifying their exact concentration. Such words are not recommended by any scientific guidelines.	Firm has submitted that we had performed the accuracy by making a concentration of standard preparation and three concentrations. The concentrations used by the firm for accuracy test is 0.16mg/ml, 0.20mg/ml and 0.24mg/ml. As per the analytical method the standard solution concentration is 0.11mg/ml and the concentration used by the firm to study accuracy does not include the said concentration.
Linearity and range have been studied from 70% to 120% of the solution wherein the area under curve for 100% solution was 4691449 while in accuracy studies in the same method none of the solution (either low, medium or high concentration) achieved such area although the concentration of the solution is expected to be the same. Justification is required in this regard.	Two different samples were prepared for linearity and accuracy parameter of analytical method verification, for linearity parameter from the first dilution 6 further second dilutions 70%, 80%, 90%, 100%, 110% and 120% were prepared while in accuracy 3 further second dilutions low, medium and high were prepared. Because the weights of the sample are different in linearity and accuracy parameters that's why the area achieved is different for both parameters.
In linearity studies the area under curve for 100% solution was 4691449, while in stability studies the area under curve of the sample solution having exactly same concentration is reported to be 11769485. Justification is required in this regard how such huge difference in area under the curve can exist in the analysis and how this method can be considered reliable and verified.	In linearity the sample solution preparation is different from the sample preparation of finished product. In linearity a concentration of standard taken to prepare first dilution then make second dilution by taking 7ml, 8ml, 9ml, 10ml, 11ml, 12ml from the first dilution, second dilution of 10ml is considered as 100% concentration while in finished good the dilution contain 100mg of sample that's

	why area under curve for 100% solution is different from the area of 100mg in finished product.
The analytical method verification studies have been conducted in January 2021 while the batches were manufactured in 2017. Justification is required in this regard.	In 2017, we had completed analytical method verification by performing three parameters which are linearity, system suitability and specificity while when we submit the CTD dossier we came to know the DRAP requirement of accuracy and repeatability, then we had complete the analytical method verification by performing five parameters which are linearity, system suitability, specificity accuracy and repeatability.
Justify the limit of sodium content in the in house generated COA of drug substance, in which limit of sodium content is taken as 6.0% to 9.3% and the drug substance was passed on the basis of results of 9.12%, while the drug substance manufacturer specifies the limit of sodium content as 6.56% to 7.20%.	In past we were doing sodium content analysis by titration method (due to unavailability of AAS) the result was 9.12% limit of sodium content is 6.0% - 9.3% while the drug substance manufacturer specifies the sodium content as 6.65 to 7.20%. Now we are doing sodium content with AAS according to USP.
As per the submitted results of sodium content in meropenem injection by CITI Pharma, the results of % sodium content is 7.867%, while USP specifies the acceptance criteria to be 80%–120% of the labeled amount of sodium. Justify how your results complies USP specifications keeping in view the labelled amount of sodium in your product.	Firm has not submitted any justification
Justify the use of commercial lot of meropenem for injection as working standard since USP recommends that reference standard should be pure meropenem trihydrate.	The assay of meropenem trihydrate USP reference standard lot# J0K434, is 87.3% meropenem. Similarly by comparing with reference standard we prepare our meropenem trihydrate working standard in which 82.12% is meropenem present. Actually the material used in USP Reference standard and the working standard is the same as meropenem trihydrate because the product label claim is meropenem, therefore we have to calculate the assay against the purity of material as meropenem which is 87.3% in USP Reference standard and 82.12% in working standard.
Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm has not submitted details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Further documents confirming import of these relevant batches are also required.
Provide data of stability batches properly arranged and supported by respective documents including analytical report / COA, raw data sheet and respective chromatograms separately for each time point, since the	Firm has not yet submitted stability study data in proper sequence with COA for each time point, raw data sheets and chromatograms. Raw data sheets are not submitted. Further the calculation formula used for the calculation of

submitted chromatograms and analytical reports are without any proper sequence.	assay result is also different from USP as well as the method of sample and standard solution preparation.
Provide Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
Provide compliance Record of HPLC software 21CFR & audit trail reports on product testing.	No response submitted by the firm
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	No response submitted by the firm

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of differential fee as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.
- Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.
- Scientific justification for use of 5% overage in the formulation.
- Submission of complete protocols of process validation studies of the drug product.
- Submission of detailed method of analysis of the drug product with details of sample solution preparation.
- Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.
- Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.
- Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of differential fee as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has submitted differential fee 5,000/- vide slip number 551237597908 dated 20-05-2022.
2.	Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.	Firm has submitted COA of relevant batch of drug substance generated by drug substance manufacturer.
3.	Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.	This firm has submitted that the assay of Meropenem Trihydrate USP reference standard lot # J0k434 is 87.3%. Therefore, we used sterile India material as working Standard having potency 82.02% by using standardization procedure with USP reference standard. Material used for batch

		manufacturing is from Aurobindo China and working standard prepared is of Sterile India having Potency 82.02% COA's for Reference standard & working standard along with standardization procedure is submitted by the firm.
4.	Scientific justification for use of 5% overage in the formulation.	Firm has submitted that an overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
5.	Submission of complete protocols of process validation studies of the drug product.	Firm has submitted general protocols for process validation. **Firm has not submitted specific protocols for the process validation of applied product.**
6.	Submission of detailed method of analysis of the drug product with details of sample solution preparation.	Firm has submitted detailed method of analysis of the drug product, **However in the submitted method, sample solution preparation method is still not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions.** Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
7.	Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.	Firm has submitted that they are using the potency of working standard as percentage. USP taking the Potency into mg/mg which is covered into percentage multiplying the ratio with 100 so there is no difference between the USP formula & our standard operating formula further more we have amended our SOP with respect to the formula given in USP. **However, the newly used calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.**

		The new formula is also not exactly as per USP monograph.
8.	Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has now added sodium content test in their specifications. Firm has also submitted fee 7,500/- vide slip number 212267176 dated 20-05-2022. **However, no data regarding the sodium content testing during stability studies is provided.**
9.	Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.	Firm has not justified the previous validation reports, instead the firm has submitted new report in which the analysis is carried out on July 2022. The new report was performed in line with ICH recommendations.
10.	Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.	Firm has submitted data in section 3.2.P.8.3. The evaluation os submitted data is as under:

Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
Documents for the procurement of API with approval from DRAP (in case of import).	**1705205135, 1705205096:** Firm has submitted copy of commercial invoice cleared dated 19-10-2017 specifying import of 20Kg meropenem for lot number 1705205135, 1705205096. The invoice is cleared by AD (I&E) DRAP. **1705203623:** Firm has submitted copy of commercial invoice cleared dated 12-09-2017 specifying import of 15Kg meropenem for lot number 1705203623. The invoice is cleared by AD (I&E) DRAP.
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of product testing including HPLC chromatogram and raw data sheets
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted

	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for stability chambers for accelerated and real time stability study.

Decision: Deferred for following:

- **Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.**
- **Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.**
- **Submission of specific protocols for the process validation of applied product.**
- **Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.**
- **Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.**

255.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Aspin Pharma (Pvt) Ltd. Plot No. 10 & 25 Sector 20, Korangi Industrial Area Karachi.**
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.

	Name and address of API manufacturer.	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 36 months.

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against Meronem 1g Injection of Pfizer Pakistan Ltd.
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.		
API Lot No.	1705205135 1705205096 1705203623		
Description of Pack (Container closure system)	Glass vial		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	U7003	U7004	U7005
Batch Size	3900 vials	7600 vials	3780 vials
Manufacturing Date	09-2017	10-2017	11-2017
Date of Initiation	04-10-2017	14-11-2017	17-11-2017
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

- Firm has submitted fee 70,000 for the application of contract manufacturing

Shortcomings communicated	**Response by the firm**
Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of analytical method of drug substance from the drug product manufacturer. The analytical method is issued on 20-07-2021.
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.	Firm has submitted report of verification studies of the analytical method of drug substance. However, the verification studies were conducted on 21-01-2021 while the analytical method of drug substance was issued by the drug product manufacturer on 20-07-2021.
Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture. A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)".	Firm has submitted COA of the drug substance generated by drug product manufacturer only, while the COA of drug substance manufacturer is not submitted.

Submit COA of reference standard / working standard including source and lot number which is actually used in the testing of drug substance and drug product.	Firm has submitted COA of working standard from drug substance manufacturer which has been standardized against USP reference standard. However drug product manufacturer is using working standard of meropenem Batch No. SI/MPM/00060120 manufactured by M/s Sterile India.
Justify the master formulation containing 1140mg of meropenem trihydrate for manufacturing of 1g meropenem for injection, since the drug substance contains meropenem blended with 15.10 to 16.50% w/w of sodium carbonate.	Firm has submitted calculation to justify the filled weight. As per calculations submitted by the firm the weight 1140mg per vial is calculated on theoretical basis considering that the drug substance has 100% assay, while the actual dispensing is to be made on the basis of actual % assay of the meropenem.
Justify the use of 5% overage in the formulation, since the justification submitted in this regard is not supported by any guidelines.	We hereby justify that in development stage we added 5% extra meropenem sterile powder for injection in initial batches. After completion of stability study degradation is no more than 2 – 3% within the limit assay range is 90 – 120% so no more 5% meropenem sterile powder for injection is added.
Submit results of compatibility studies in section 3.2.P.2.6.	Firm has submitted result of compatibility studies of the drug product with WFI.
Justify how the time and temperature of sterilization cycle is directly selected without any protocols for its validation.	Firm has submitted summary report of autoclave machine re qualification instead of providing justification.
Provide detailed method of sample stock solution preparation instead of mentioning the general statement "Constitute a container of Meropenem for Injection with a volume of water, corresponding to the quantity of solvent specified in the labelling".	Firm has not submitted complete method of analysis of the drug product in which the method of sample solution preparation is explained.
Justify why the formula for calculation of assay contents of meropenem is different than that mentioned in USP monograph.	Firm has submitted that we are using potency of working standard as percentage. USP taking the potency in mg/mg which is converted into percentage by multiplying this ratio with 100. Firm has submitted calculation to justify that their formula is equivalent to USP. However, the USP formula used by the firm is different from that specified in USP.
Analytical method verification studies have not been conducted and evaluated in the light of USP general chapters and ICH guidelines.	Firm has submitted verification studies of the analytical method dated 21-01-2021, while the analytical method of the drug product was revised and updated on 12-07-2021.
Justify why the drug product specifications does not contain the test for sodium contents as recommended by USP.	In Meropenem trihydrate injection label claim is as meropenem while trihydrate and sodium considered as impurity. We are verifying the meropenem by HPLC and due to unavailability of the atomic absorption we were verifying the sodium content by titration method. Moreover, for verification purpose, we analysed sodium content from PCSI and Citi Pharma with atomic absorption. And now

	we have atomic absorption in our facility and we have changed our SOP accordingly and now we are conducting each and every analysis of sodium content in our facility as per USP monograph.
Justify the test of accuracy in analytical method validation without specifying the concentrations of the solution which are analysed for accuracy. Further justify the use of solutions having low, medium, and high concentration of sample without specifying their exact concentration. Such words are not recommended by any scientific guidelines.	Firm has submitted that we had performed the accuracy by making a concentration of standard preparation and three concentrations. The concentrations used by the firm for accuracy test is 0.16mg/ml, 0.20mg/ml and 0.24mg/ml. As per the analytical method the standard solution concentration is 0.11mg/ml and the concentration used by the firm to study accuracy does not include the said concentration.
Linearity and range have been studied from 70% to 120% of the solution wherein the area under curve for 100% solution was 4691449 while in accuracy studies in the same method none of the solution (either low, medium or high concentration) achieved such area although the concentration of the solution is expected to be the same. Justification is required in this regard.	Two different samples were prepared for linearity and accuracy parameter of analytical method verification, for linearity parameter from the first dilution 6 further second dilutions 70%, 80%, 90%, 100%, 110% and 120% were prepared while in accuracy 3 further second dilutions low, medium and high were prepared. Because the weights of the sample are different in linearity and accuracy parameters that's why the area achieved is different for both parameters.
In linearity studies the area under curve for 100% solution was 4691449, while in stability studies the area under curve of the sample solution having exactly same concentration is reported to be 11769485. Justification is required in this regard how such huge difference in area under the curve can exist in the analysis and how this method can be considered reliable and verified.	In linearity the sample solution preparation is different from the sample preparation of finished product. In linearity a concentration of standard taken to prepare first dilution then make second dilution by taking 7ml, 8ml, 9ml, 10ml, 11ml, 12ml from the first dilution, second dilution of 10ml is considered as 100% concentration while in finished good the dilution contain 100mg of sample that's why area under curve for 100% solution is different from the area of 100mg in finished product.
The analytical method verification studies have been conducted in January 2021 while the batches were manufactured in 2017. Justification is required in this regard.	In 2017, we had completed analytical method verification by performing three parameters which are linearity, system suitability and specificity while when we submit the CTD dossier we came to know the DRAP requirement of accuracy and repeatability, then we had complete the analytical method verification by performing five parameters which are linearity, system suitability, specificity accuracy and repeatability.
Justify the limit of sodium content in the in house generated COA of drug substance, in which limit of sodium content is taken as 6.0% to 9.3% and the drug substance was passed on the basis of results of 9.12%, while	In past we were doing sodium content analysis by titration method (due to unavailability of AAS) the result was 9.12% limit of sodium content is 6.0% - 9.3% while the drug substance manufacturer specifies the sodium content as 6.65 to 7.20%. Now we are

the drug substance manufacturer specifies the limit of sodium content as 6.56% to 7.20%.	doing sodium content with AAS according to USP.
As per the submitted results of sodium content in meropenem injection by CITI Pharma, the results of % sodium content is 7.867%, while USP specifies the acceptance criteria to be 80%–120% of the labeled amount of sodium. Justify how your results complies USP specifications keeping in view the labelled amount of sodium in your product.	Firm has not submitted any justification
Justify the use of commercial lot of meropenem for injection (batch number SI/MPM/00060120) manufactured by sterile India as working standard since USP recommends that reference standard should be pure meropenem trihydrate.	The assay of meropenem trihydrate USP reference standard lot# J0K434, is 87.3% meropenem. Similarly by comparing with reference standard we prepare our meropenem trihydrate working standard in which 82.12% is meropenem present. Actually the material used in USP Reference standard and the working standard is the same as meropenem trihydrate because the product label claim is meropenem, therefore we have to calculate the assay against the purity of material as meropenem which is 87.3% in USP Reference standard and 82.12% in working standard.
Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm has not submitted details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Further documents confirming import of these relevant batches are also required.
Provide data of stability batches properly arranged and supported by respective documents including analytical report / COA, raw data sheet and respective chromatograms separately for each time point, since the submitted chromatograms and analytical reports are without any proper sequence.	Firm has not yet submitted stability study data in proper sequence with COA for each time point, raw data sheets and chromatograms. Raw data sheets are not submitted. Further the calculation formula used for the calculation of assay result is also different from USP as well as the method of sample and standard solution preparation.
Provide Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
Provide compliance Record of HPLC software 21CFR & audit trail reports on product testing.	No response submitted by the firm
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	No response submitted by the firm

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of differential fee as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

- Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.
- Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.
- Scientific justification for use of 5% overage in the formulation.
- Submission of complete protocols of process validation studies of the drug product.
- Submission of detailed method of analysis of the drug product with details of sample solution preparation.
- Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.
- Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.
- Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of differential fee as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has submitted differential fee 5,000/- vide slip number 658476562996 dated 20-05-2022.
2.	Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.	Firm has submitted COA of relevant batch of drug substance generated by drug substance manufacturer.
3.	Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.	This firm has submitted that the assay of Meropenem Trihydrate USP reference standard lot # J0k434 is 87.3%. Therefore, we used sterile India material as working Standard having potency 82.02% by using standardization procedure with USP reference standard. Material used for batch manufacturing is from Aurobindo China and working standard prepared is of Sterile India having Potency 82.02% COA's for Reference standard & working standard along with standardization procedure is submitted by the firm.
4.	Scientific justification for use of 5% overage in the formulation.	Firm has submitted that an overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage.

		In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
5.	Submission of complete protocols of process validation studies of the drug product.	Firm has submitted general protocols for process validation. **Firm has not submitted specific protocols for the process validation of applied product.**
6.	Submission of detailed method of analysis of the drug product with details of sample solution preparation.	Firm has submitted detailed method of analysis of the drug product, **However in the submitted method, sample solution preparation method is still not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions.** Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
7.	Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.	Firm has submitted that they are using the potency of working standard as percentage. USP taking the Potency into mg/mg which is covered into percentage multiplying the ratio with 100 so there is no difference between the USP formula & our standard operating formula further more we have amended our SOP with respect to the formula given in USP. **However, the newly used calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard. The new formula is also not exactly as per USP monograph.**
8.	Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has now added sodium content test in their specifications. Firm has also submitted fee 7,500/- vide slip number 45752149528 dated 20-05-2022. **However, no data regarding the sodium content testing during stability studies is provided.**
9.	Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.	Firm has not justified the previous validation reports, instead the firm has submitted new report in which the analysis is carried out on July 2022. The new report was performed in line with ICH recommendations.

10.	Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.	Firm has submitted data in section 3.2.P.8.3. The evaluation os submitted data is as under:

Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
Documents for the procurement of API with approval from DRAP (in case of import).	**1705205135, 1705205096:** Firm has submitted copy of commercial invoice cleared dated 19-10-2017 specifying import of 20Kg meropenem for lot number 1705205135, 1705205096. The invoice is cleared by AD (I&E) DRAP. **1705203623:** Firm has submitted copy of commercial invoice cleared dated 12-09-2017 specifying import of 15Kg meropenem for lot number 1705203623. The invoice is cleared by AD (I&E) DRAP.
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of product testing including HPLC chromatogram and raw data sheets
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for stability chambers for accelerated and real time stability study.

Decision: Deferred for following:

- **Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.**
- **Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.**
- **Submission of specific protocols for the process validation of applied product.**
- **Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.**

- **Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.**

256.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Genetics Pharmaceuticals (Pvt) Ltd. 539-A, Sundar Industrial Estate, Raiwind Road Lahore.**
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Copy of agreement for contract manufacturing of pharmaceutical products between contract giver and acceptor dated 29-10-2020 is submitted.
	GMP status of the firm	**Genetics Pharmaceuticals:** Firm has submitted copy of GMP certificate issued on the basis of inspection dated 29-03-2019. **Stallion Pharmaceuticals:** Firm has submitted GMP certificate issued on the basis of inspection dated 22-09-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of Grant of additional section / amendment under DML No 000783 of M/s Stallion Pharma Islamabad dated 08-02-2016 specifying dry powder injection Vial (carbapenem) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 13638: 20-05-2021
	Details of fee submitted	PKR 50,000/-: 30-11-2020
	The proposed proprietary name / brand name	**MEROTOL 500mg Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Meropenem (as trihydrate)……500mg (blended with sodium carbonate)
	Pharmaceutical form of applied drug	White or almost white, hygroscopic, crystalline, powder filled in clear glass vials
	Pharmacotherapeutic Group of (API)	Carbapenem antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	Merrem Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Merrem Injection of Global Pharmaceuticals
	Name and address of API manufacturer.	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against Meronem 500mg Injection of Pfizer Pakistan Ltd.

	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**

Submit differential fee for the registration of applied product, since the notification for revision of fee vide SRO No. F.7-11/2012-B&A/DRA was published on 7th May 2021 while this application was received in R&I section of DRAP on 20th May 2021.	Firm has submitted copy of fee challan dated 28-10-2021 for 25,000/- vide slip number 08343787921
Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of analytical method of drug substance from the drug product manufacturer. The analytical method is issued on 20-07-2021.
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.	Firm has submitted report of verification studies of the analytical method of drug substance. However, the verification studies were conducted on 21-01-2021 while the analytical method of drug substance was issued by the drug product manufacturer on 20-07-2021.
Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture. A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)".	Firm has submitted COA of the drug substance generated by drug product manufacturer only, while the COA of drug substance manufacturer is not submitted.
Submit COA of reference standard / working standard including source and lot number which is actually used in the testing of drug substance and drug product.	Firm has submitted COA of working standard from drug substance manufacturer which has been standardized against USP reference standard. However drug product manufacturer is using working standard of meropenem Batch No. SI/MPM/00060120 manufactured by M/s Sterile India.
Justify the master formulation containing 570mg of meropenem trihydrate for manufacturing of 500mg meropenem for injection, since the drug substance contains meropenem blended with 15.10 to 16.50% w/w of sodium carbonate.	Firm has submitted calculation to justify the filled weight. As per calculations submitted by the firm the weight 570mg per vial is calculated on theoretical basis considering that the drug substance has 100% assay, while

	the actual dispensing is to be made on the basis of actual % assay of the meropenem.
Justify the use of 5% overage in the formulation, since the justification submitted in this regard is not supported by any guidelines.	We hereby justify that in development stage we added 5% extra meropenem sterile powder for injection in initial batches. After completion of stability study degradation is no more than 2 – 3% within the limit assay range is 90 – 120% so no more 5% meropenem sterile powder for injection is added.
Submit results of compatibility studies in section 3.2.P.2.6.	Firm has submitted result of compatibility studies of the drug product with WFI.
Justify how the time and temperature of sterilization cycle is directly selected without any protocols for its validation.	Firm has submitted summary report of autoclave machine re qualification instead of providing justification.
Provide detailed method of sample stock solution preparation instead of mentioning the general statement "Constitute a container of Meropenem for Injection with a volume of water, corresponding to the quantity of solvent specified in the labelling".	Firm has not submitted complete method of analysis of the drug product in which the method of sample solution preparation is explained.
Justify why the formula for calculation of assay contents of meropenem is different than that mentioned in USP monograph.	Firm has submitted that we are using potency of working standard as percentage. USP taking the potency in mg/mg which is converted into percentage by multiplying this ratio with 100. Firm has submitted calculation to justify that their formula is equivalent to USP. However, the USP formula used by the firm is different from that specified in USP.
Analytical method verification studies have not been conducted and evaluated in the light of USP general chapters and ICH guidelines.	Firm has submitted verification studies of the analytical method dated 21-01-2021, while the analytical method of the drug product was revised and updated on 12-07-2021.
Justify why the drug product specifications does not contain the test for sodium contents as recommended by USP.	In Meropenem trihydrate injection label claim is as meropenem while trihydrate and sodium considered as impurity. We are verifying the meropenem by HPLC and due to unavailability of the atomic absorption we were verifying the sodium content by titration method. Moreover, for verification purpose, we analysed sodium content from PCSI and Citi Pharma with atomic absorption. And now we have atomic absorption in our facility and we have changed our SOP accordingly and now we are conducting each and every analysis of sodium content in our facility as per USP monograph.
Justify the test of accuracy in analytical method validation without specifying the concentrations of the solution which are analysed for accuracy. Further justify the use of solutions having low, medium, and high concentration of sample without specifying their exact concentration. Such words are not recommended by any scientific guidelines.	Firm has submitted that we had performed the accuracy by making a concentration of standard preparation and three concentrations. The concentrations used by the firm for accuracy test is 0.16mg/ml, 0.20mg/ml and 0.24mg/ml. As per the analytical method the standard solution concentration is 0.11mg/ml and the

	concentration used by the firm to study accuracy does not include the said concentration.
Linearity and range have been studied from 70% to 120% of the solution wherein the area under curve for 100% solution was 4691449 while in accuracy studies in the same method none of the solution (either low, medium or high concentration) achieved such area although the concentration of the solution is expected to be the same. Justification is required in this regard.	Two different samples were prepared for linearity and accuracy parameter of analytical method verification, for linearity parameter from the first dilution 6 further second dilutions 70%, 80%, 90%, 100%, 110% and 120% were prepared while in accuracy 3 further second dilutions low, medium and high were prepared. Because the weights of the sample are different in linearity and accuracy parameters that's why the area achieved is different for both parameters.
In linearity studies the area under curve for 100% solution was 4691449, while in stability studies the area under curve of the sample solution having exactly same concentration is reported to be 11769485. Justification is required in this regard how such huge difference in area under the curve can exist in the analysis and how this method can be considered reliable and verified.	In linearity the sample solution preparation is different from the sample preparation of finished product. In linearity a concentration of standard taken to prepare first dilution then make second dilution by taking 7ml, 8ml, 9ml, 10ml, 11ml, 12ml from the first dilution, second dilution of 10ml is considered as 100% concentration while in finished good the dilution contain 100mg of sample that's why area under curve for 100% solution is different from the area of 100mg in finished product.
The analytical method verification studies have been conducted in January 2021 while the batches were manufactured in 2017. Justification is required in this regard.	In 2017, we had completed analytical method verification by performing three parameters which are linearity, system suitability and specificity while when we submit the CTD dossier we came to know the DRAP requirement of accuracy and repeatability, then we had complete the analytical method verification by performing five parameters which are linearity, system suitability, specificity accuracy and repeatability.
Justify the limit of sodium content in the in house generated COA of drug substance, in which limit of sodium content is taken as 6.0% to 9.3% and the drug substance was passed on the basis of results of 9.12%, while the drug substance manufacturer specifies the limit of sodium content as 6.56% to 7.20%.	In past we were doing sodium content analysis by titration method (due to unavailability of AAS) the result was 9.12% limit of sodium content is 6.0% - 9.3% while the drug substance manufacturer specifies the sodium content as 6.65 to 7.20%. Now we are doing sodium content with AAS according to USP.
As per the submitted results of sodium content in meropenem injection by CITI Pharma, the results of % sodium content is 7.867%, while USP specifies the acceptance criteria to be 80%–120% of the labeled amount of sodium. Justify how your results complies USP specifications keeping in view the labelled amount of sodium in your product.	Firm has not submitted any justification
Justify the use of commercial lot of meropenem for injection as working standard since USP recommends that reference	The assay of meropenem trihydrate USP reference standard lot# J0K434, is 87.3% meropenem. Similarly by comparing with

standard should be pure meropenem trihydrate.	reference standard we prepare our meropenem trihydrate working standard in which 82.12% is meropenem present. Actually the material used in USP Reference standard and the working standard is the same as meropenem trihydrate because the product label claim is meropenem, therefore we have to calculate the assay against the purity of material as meropenem which is 87.3% in USP Reference standard and 82.12% in working standard.
Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm has not submitted details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Further documents confirming import of these relevant batches are also required.
Provide data of stability batches properly arranged and supported by respective documents including analytical report / COA, raw data sheet and respective chromatograms separately for each time point, since the submitted chromatograms and analytical reports are without any proper sequence.	Firm has not yet submitted stability study data in proper sequence with COA for each time point, raw data sheets and chromatograms. Raw data sheets are not submitted. Further the calculation formula used for the calculation of assay result is also different from USP as well as the method of sample and standard solution preparation.
Provide Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
Provide compliance Record of HPLC software 21CFR & audit trail reports on product testing.	No response submitted by the firm
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	No response submitted by the firm

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.
- Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.
- Scientific justification for use of 5% overage in the formulation.
- Submission of complete protocols of process validation studies of the drug product.
- Submission of detailed method of analysis of the drug product with details of sample solution preparation.
- Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.
- Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.

- Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.	Firm has submitted COA of relevant batch of drug substance generated by drug substance manufacturer.
2.	Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.	This firm has submitted that the assay of Meropenem Trihydrate USP reference standard lot # J0k434 is 87.3%. Therefore, we used sterile India material as working Standard having potency 82.02% by using standardization procedure with USP reference standard. Material used for batch manufacturing is from Aurobindo China and working standard prepared is of Sterile India having Potency 82.02% COA's for Reference standard & working standard along with standardization procedure is submitted by the firm.
3.	Scientific justification for use of 5% overage in the formulation.	Firm has submitted that an overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
4.	Submission of complete protocols of process validation studies of the drug product.	Firm has submitted general protocols for process validation. **Firm has not submitted specific protocols for the process validation of applied product.**
5.	Submission of detailed method of analysis of the drug product with details of sample solution preparation.	Firm has submitted detailed method of analysis of the drug product, **However in the submitted method, sample solution preparation method is still not clear in terms of exact volume of water used to**

		reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
6.	Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.	Firm has submitted that they are using the potency of working standard as percentage. USP taking the Potency into mg/mg which is covered into percentage multiplying the ratio with 100 so there is no difference between the USP formula & our standard operating formula further more we have amended our SOP with respect to the formula given in USP. **However, the newly used calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard. The new formula is also not exactly as per USP monograph.**
7.	Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has now added sodium content test in their specifications. Firm has also submitted fee 7,500/- vide slip number 212267176 dated 20-05-2022. **However, no data regarding the sodium content testing during stability studies is provided.**
8.	Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.	Firm has not justified the previous validation reports, instead the firm has submitted new report in which the analysis is carried out on July 2022. The new report was performed in line with ICH recommendations.
9.	Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.	Firm has submitted data in section 3.2.P.8.3. The evaluation os submitted data is as under:

Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
Documents for the procurement of API with approval from DRAP (in case of import).	**1705205135, 1705205096:** Firm has submitted copy of commercial invoice cleared dated 19-10-2017

		specifying import of 20Kg meropenem for lot number 1705205135, 1705205096. The invoice is cleared by AD (I&E) DRAP. **1705203623:** Firm has submitted copy of commercial invoice cleared dated 12-09-2017 specifying import of 15Kg meropenem for lot number 1705203623. The invoice is cleared by AD (I&E) DRAP.
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of product testing including HPLC chromatogram and raw data sheets
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for stability chambers for accelerated and real time stability study.

Decision: Deferred for following:

- **Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.**
- **Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.**
- **Submission of specific protocols for the process validation of applied product.**
- **Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.**
- **Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.**

257.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Genetics Pharmaceuticals (Pvt) Ltd. 539-A, Sundar Industrial Estate, Raiwind Road Lahore.**
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Copy of agreement for contract manufacturing of pharmaceutical products between contract giver and acceptor dated 29-10-2020 is submitted

	GMP status of the firm	**Genetics Pharmaceuticals:** Firm has submitted copy of GMP certificate issued on the basis of inspection dated 29-03-2019. **Stallion Pharmaceuticals:** Firm has submitted GMP certificate issued on the basis of inspection dated 22-09-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of Grant of additional section / amendment under DML No 000783 of M/s Stallion Pharma Islamabad dated 08-02-2016 specifying dry powder injection Vial (carbapenem) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 16253: 11-06-2021
	Details of fee submitted	PKR 50,000/-: 30-11-2020
	The proposed proprietary name / brand name	**MEROTOL 1g Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Meropenem (as trihydrate)……1g (blended with sodium carbonate)
	Pharmaceutical form of applied drug	White or almost white, hygroscopic, crystalline, powder filled in clear glass vials
	Pharmacotherapeutic Group of (API)	Carbapenem antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Merrem Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Merrem Injection of Global Pharmaceuticals
	Name and address of API manufacturer.	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and

		stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against Meronem 1g Injection of Pfizer Pakistan Ltd.
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Submit differential fee for the registration of applied product, since the notification for revision of fee vide SRO No. F.7-11/2012-B&A/DRA was published on 7th May 2021 while this application was received in R&I section of DRAP on 11th June 2021.	Firm has submitted fee challan dated 28-12-2021 for 25,000/- vide slip number 16540367178
Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of analytical method of drug substance from the drug product manufacturer. The analytical method is issued on 20-07-2021.
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity,	Firm has submitted report of verification studies of the analytical method of drug substance. However, the verification studies were conducted on 21-01-2021 while the

accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.	analytical method of drug substance was issued by the drug product manufacturer on 20-07-2021.
Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture. A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)".	Firm has submitted COA of the drug substance generated by drug product manufacturer only, while the COA of drug substance manufacturer is not submitted.
Submit COA of reference standard / working standard including source and lot number which is actually used in the testing of drug substance and drug product.	Firm has submitted COA of working standard from drug substance manufacturer which has been standardized against USP reference standard. However drug product manufacturer is using working standard of meropenem Batch No. SI/MPM/00060120 manufactured by M/s Sterile India.
Justify the master formulation containing 1140mg of meropenem trihydrate for manufacturing of 1g meropenem for injection, since the drug substance contains meropenem blended with 15.10 to 16.50% w/w of sodium carbonate.	Firm has submitted calculation to justify the filled weight. As per calculations submitted by the firm the weight 1140mg per vial is calculated on theoretical basis considering that the drug substance has 100% assay, while the actual dispensing is to be made on the basis of actual % assay of the meropenem.
Justify the use of 5% overage in the formulation, since the justification submitted in this regard is not supported by any guidelines.	We hereby justify that in development stage we added 5% extra meropenem sterile powder for injection in initial batches. After completion of stability study degradation is no more than 2 – 3% within the limit assay range is 90 – 120% so no more 5% meropenem sterile powder for injection is added.
Submit results of compatibility studies in section 3.2.P.2.6.	Firm has submitted result of compatibility studies of the drug product with WFI.
Justify how the time and temperature of sterilization cycle is directly selected without any protocols for its validation.	Firm has submitted summary report of autoclave machine re qualification instead of providing justification.
Provide detailed method of sample stock solution preparation instead of mentioning the general statement "Constitute a container of Meropenem for Injection with a volume of	Firm has not submitted complete method of analysis of the drug product in which the method of sample solution preparation is explained.

water, corresponding to the quantity of solvent specified in the labelling".	
Justify why the formula for calculation of assay contents of meropenem is different than that mentioned in USP monograph.	Firm has submitted that we are using potency of working standard as percentage. USP taking the potency in mg/mg which is converted into percentage by multiplying this ratio with 100. Firm has submitted calculation to justify that their formula is equivalent to USP. However, the USP formula used by the firm is different from that specified in USP.
Analytical method verification studies have not been conducted and evaluated in the light of USP general chapters and ICH guidelines.	Firm has submitted verification studies of the analytical method dated 21-01-2021, while the analytical method of the drug product was revised and updated on 12-07-2021.
Justify why the drug product specifications does not contain the test for sodium contents as recommended by USP.	In Meropenem trihydrate injection label claim is as meropenem while trihydrate and sodium considered as impurity. We are verifying the meropenem by HPLC and due to unavailability of the atomic absorption we were verifying the sodium content by titration method. Moreover, for verification purpose, we analysed sodium content from PCSI and Citi Pharma with atomic absorption. And now we have atomic absorption in our facility and we have changed our SOP accordingly and now we are conducting each and every analysis of sodium content in our facility as per USP monograph.
Justify the test of accuracy in analytical method validation without specifying the concentrations of the solution which are analysed for accuracy. Further justify the use of solutions having low, medium, and high concentration of sample without specifying their exact concentration. Such words are not recommended by any scientific guidelines.	Firm has submitted that we had performed the accuracy by making a concentration of standard preparation and three concentrations. The concentrations used by the firm for accuracy test is 0.16mg/ml, 0.20mg/ml and 0.24mg/ml. As per the analytical method the standard solution concentration is 0.11mg/ml and the concentration used by the firm to study accuracy does not include the said concentration.
Linearity and range have been studied from 70% to 120% of the solution wherein the area under curve for 100% solution was 4691449 while in accuracy studies in the same method none of the solution (either low, medium or high concentration) achieved such area although the concentration of the solution is expected to be the same. Justification is required in this regard.	Two different samples were prepared for linearity and accuracy parameter of analytical method verification, for linearity parameter from the first dilution 6 further second dilutions 70%, 80%, 90%, 100%, 110% and 120% were prepared while in accuracy 3 further second dilutions low, medium and high were prepared. Because the weights of the sample are different in linearity and accuracy parameters that's why the area achieved is different for both parameters.
In linearity studies the area under curve for 100% solution was 4691449, while in stability studies the area under curve of the sample solution having exactly same concentration is	In linearity the sample solution preparation is different from the sample preparation of finished product. In linearity a concentration of standard taken to prepare first dilution then

reported to be 11769485. Justification is required in this regard how such huge difference in area under the curve can exist in the analysis and how this method can be considered reliable and verified.	make second dilution by taking 7ml, 8ml, 9ml, 10ml, 11ml, 12ml from the first dilution, second dilution of 10ml is considered as 100% concentration while in finished good the dilution contain 100mg of sample that's why area under curve for 100% solution is different from the area of 100mg in finished product.
The analytical method verification studies have been conducted in January 2021 while the batches were manufactured in 2017. Justification is required in this regard.	In 2017, we had completed analytical method verification by performing three parameters which are linearity, system suitability and specificity while when we submit the CTD dossier we came to know the DRAP requirement of accuracy and repeatability, then we had complete the analytical method verification by performing five parameters which are linearity, system suitability, specificity accuracy and repeatability.
Justify the limit of sodium content in the in house generated COA of drug substance, in which limit of sodium content is taken as 6.0% to 9.3% and the drug substance was passed on the basis of results of 9.12%, while the drug substance manufacturer specifies the limit of sodium content as 6.56% to 7.20%.	In past we were doing sodium content analysis by titration method (due to unavailability of AAS) the result was 9.12% limit of sodium content is 6.0% - 9.3% while the drug substance manufacturer specifies the sodium content as 6.65 to 7.20%. Now we are doing sodium content with AAS according to USP.
As per the submitted results of sodium content in meropenem injection by CITI Pharma, the results of % sodium content is 7.867%, while USP specifies the acceptance criteria to be 80%–120% of the labeled amount of sodium. Justify how your results complies USP specifications keeping in view the labelled amount of sodium in your product.	Firm has not submitted any justification
Justify the use of commercial lot of meropenem for injection (batch number SI/MPM/00060120) manufactured by sterile India as working standard since USP recommends that reference standard should be pure meropenem trihydrate.	The assay of meropenem trihydrate USP reference standard lot# J0K434, is 87.3% meropenem. Similarly by comparing with reference standard we prepare our meropenem trihydrate working standard in which 82.12% is meropenem present. Actually the material used in USP Reference standard and the working standard is the same as meropenem trihydrate because the product label claim is meropenem, therefore we have to calculate the assay against the purity of material as meropenem which is 87.3% in USP Reference standard and 82.12% in working standard.
Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm has not submitted details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Further documents confirming import of these relevant batches are also required.

Provide data of stability batches properly arranged and supported by respective documents including analytical report / COA, raw data sheet and respective chromatograms separately for each time point, since the submitted chromatograms and analytical reports are without any proper sequence.	Firm has not yet submitted stability study data in proper sequence with COA for each time point, raw data sheets and chromatograms. Raw data sheets are not submitted. Further the calculation formula used for the calculation of assay result is also different from USP as well as the method of sample and standard solution preparation.
Provide Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
Provide compliance Record of HPLC software 21CFR & audit trail reports on product testing.	No response submitted by the firm
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	No response submitted by the firm

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.
- Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.
- Scientific justification for use of 5% overage in the formulation.
- Submission of complete protocols of process validation studies of the drug product.
- Submission of detailed method of analysis of the drug product with details of sample solution preparation.
- Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.
- Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.
- Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.	Firm has submitted COA of relevant batch of drug substance generated by drug substance manufacturer.
2.	Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.	This firm has submitted that the assay of Meropenem Trihydrate USP reference standard lot # J0k434 is 87.3%. Therefore, we used sterile India material as working Standard having potency 82.02% by using standardization procedure with USP reference standard. Material used for batch

		manufacturing is from Aurobindo China and working standard prepared is of Sterile India having Potency 82.02% COA's for Reference standard & working standard along with standardization procedure is submitted by the firm.
3.	Scientific justification for use of 5% overage in the formulation.	Firm has submitted that an overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
4.	Submission of complete protocols of process validation studies of the drug product.	Firm has submitted general protocols for process validation. **Firm has not submitted specific protocols for the process validation of applied product.**
5.	Submission of detailed method of analysis of the drug product with details of sample solution preparation.	Firm has submitted detailed method of analysis of the drug product, **However in the submitted method, sample solution preparation method is still not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions.** Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
6.	Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.	Firm has submitted that they are using the potency of working standard as percentage. USP taking the Potency into mg/mg which is covered into percentage multiplying the ratio with 100 so there is no difference between the USP formula & our standard operating formula further more we have amended our SOP with respect to the formula given in USP. **However, the newly used calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.**

		The new formula is also not exactly as per USP monograph.
7.	Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has now added sodium content test in their specifications. Firm has also submitted fee 7,500/- vide slip number 45752149528 dated 20-05-2022. **However, no data regarding the sodium content testing during stability studies is provided.**
8.	Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.	Firm has not justified the previous validation reports, instead the firm has submitted new report in which the analysis is carried out on July 2022. The new report was performed in line with ICH recommendations.
9.	Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.	Firm has submitted data in section 3.2.P.8.3. The evaluation os submitted data is as under:

Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
Documents for the procurement of API with approval from DRAP (in case of import).	**1705205135, 1705205096:** Firm has submitted copy of commercial invoice cleared dated 19-10-2017 specifying import of 20Kg meropenem for lot number 1705205135, 1705205096. The invoice is cleared by AD (I&E) DRAP. **1705203623:** Firm has submitted copy of commercial invoice cleared dated 12-09-2017 specifying import of 15Kg meropenem for lot number 1705203623. The invoice is cleared by AD (I&E) DRAP.
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of product testing including HPLC chromatogram and raw data sheets
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted

	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for stability chambers for accelerated and real time stability study.

Decision: Deferred for following:

- **Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.**
- **Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.**
- **Submission of specific protocols for the process validation of applied product.**
- **Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.**
- **Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.**

258. CAPACITY ASSESSMENT INSPECTION REPORT OF M/S VISION PHARMACEUTICALS (PVT.) LTD

GENERAL INFORMATION

Name of manufacturer	M/s. Vision Pharmaceuticals (Pvt.) Ltd
Physical Address	Plot No. 22 – 23, Industrial Triangle Kahuta Road, Islamabad
DML No.	000517
Date of inspection	15.06.2022
Purpose of inspection	Assessment and confirmation of manufacturing capacity with reference to DRAP, Islamabad letter No.
Dosage Form/Sections Included	I. Sterile Dry Powder Injection Vial (GENERAL) II. Sterile Dry Powder Injection Vial (STEROID)
Name of inspector (s)	I. Muhammad Haseeb Tariq, Assistant Director PEC, PE&R Division. II. Dr Farhadullah, Assistant Director PEC, PE&R Division.
Name of Firm's Representative (s) accompanying during inspection	I. Dr. Waseem Shahzad (Head of Quality Operations) II. Mr. Shaukat Iqbal (Manager Quality Control)

Manufacturing and testing record/data was evaluated from **January 2021 to December 2021** for the said purpose. The details of capacity calculations are as under:

NUMBER OF PRODUCTS MANUFACTURED BY THE FIRM

Category	No of products registered for self-manufacturing	No of products registered for contract manufacturing	Total

Sterile Dry Powder Injection Vial (General)	15	17	32
Sterile Dry Powder Injection Vial (Steroid)	04	00	04
Total products	**19**	**17**	**36**

SECTION WISE MANUFACTURING CAPACITY

1. CAPACITY OF STERILE DRY POWDER INJECTION VIAL (GENERAL)

Step wise capacity of Sterile Dry Powder Injection Vial (GENERAL)	**Maximum production Capacity (vials)**	
	Per day (8 hour working shift)	**Per month** (26 working days)
Vial Washing - Per single shift of 8 working hours (Load per Day)	25,000	650,000
Depyrogenation Capacity- Per Single shift of 8 working hours (Load per Day)	35,826	931,476
Filling and Sealing Capacity – Per single shift of 8 working hours (Load per Day)	30,000	780,000
Packing Capacity – Per single shift of 8 working hours (Load per Day)	20,000	520,000

***Note:** Limiting step in this process is **Packing** for calculating Utilized Capacity.*

Quarter Wise capacity utilized in Sterile Dry Powder Injection Vial (GENERAL)			
Quarter	**Actual Production (Vials)**	**Capacity (Vials)**	**Capacity utilized in (%)**
I (1st January – 31st March 2021)	474,030	1,560,000	30.3 %
II (1st April – 30th June 2021)	871,948	1,560,000	55.8 %
III (1st July – 30th September 2021)	430,320	1,560,000	27.5 %
IV (1st October – 31st December 2021)	741,563	1,560,000	47.5 %
Average Capacity Utilized for January – December 2021 in %			**40.27 %**

Manufacturing Capacity Utilized (average): 40.27 %
Manufacturing Capacity Available (average): 59.72 %

2. CAPACITY OF STERILE DRY POWDER INJECTION VIAL (STEROID)

Step wise capacity of Sterile Dry Powder Injection Vial (STEROID)	**Maximum production Capacity (vials)**	
	Per day (8 hour working shift)	**Per month** (26 working days)
Vial Washing - Per single shift of 8 working hours (Load per Day)	40,000	1,040,000
Depyrogenation Capacity- Per Single shift of 8 working hours (Load per Day)	40,000	1,040,000

Filling and Sealing Capacity – Per single shift of 8 working hours (Load per Day)	40,000	1,040,000
Packing Capacity – Per single shift of 8 working hours (Load per Day)	20,000	5,20,000

Note: Limiting step in this process is Packing for calculating Utilized Capacity.

Quarter Wise capacity utilized in Sterile Dry Powder Injection Vial (STEROID)			
Quarter	**Actual Production (Vials)**	**Capacity (Vials)**	**Capacity utilized in (%)**
I (1st January – 31st March 2021)	194,418	1,560,000	12.4%
II (1st April – 30th June 2021)	96,955	1,560,000	6.21%
III (1st July – 30th September 2021)	278,531	1,560,000	17.85%
IV (1st October – 31st December 2021)	197,903	1,560,000	12.68%
Average Capacity Utilized for January – December 2021 in %			**12.28%**

Manufacturing Capacity Utilized (average): 12.28%
Manufacturing Capacity Available (average): 87.71%

CAPACITY OF QUALITY CONTROL DEPARTMENT

Quality Control Equipment Detail			
Sr. No	**Equipment**	**Qty.**	**Capacity per day (tests)**
1.	HPLC Hitachi (Auto Sampler)	1	03
2.	HPLC Waters (Auto Sampler)	1	03
3.	HPLC Waters (Auto Sampler)	1	03
4.	HPLC Shimadzu	1	02

7.	Sterility Testing	1 Lab	12
8.	Moisture Analyzer	1	50
9.	Total Organic carbon Analyzer	1	10
10.	Karl Fischer	1	30
11.	pH meter	2	100
12.	Conductivity Meter	1	50
13.	Weighing balance	2	100
14.	Liquid particle Counter	1	50
15.	Hot Incubator (30- 35^{o}C) 750 Liters	1	175

16.	Cool Incubator (20- 25°C) 750 Liters	1	750
17.	Hot Incubator (30- 35°C) 108 Liters	1	108
18.	Hot Incubator (30- 35°C) 100 Liters	1	224
19.	Hot Incubator (55- 60°C) 74 Liters	1	Only for BET 300
20.	Cool Incubator (20- 25°C) 126 Liters	1	150
21.	Hot Incubator 37°C ± 1 °C 74 Liters	1	For Biological Indicators
22.	Dry Heat Sterilizer 250 °C	1	200
23.	Refrigerator	1	-----
24.	Autoclave	1	10
25.	Autoclave	1	10
26.	Air born particle counter	1	50
27.	Air sampler	1	50
28.	FTIR	1	20
29.	Polarimeter	1	15
30.	Dissolution Apparatus	3	15
31.	Stability Chamber (Accelerated)	2	600L
32.	Stability Chamber (Real time)	5	1500L

The details of the total registered products of the firm with respect to the method of testing is provided below:

Total No of registered Products	**No of Products with official Monograph (USP/BP/JP)**	**No of Products with In-house/Innovator specs**	**No of product currently on HPLC**	**No of products to be shifted to HPLC**
36	08 USP/03 BP	25	36/ 36 currently	NA

The firm has two separate Drug Manufacturing License i.e. DML by way of formulation and DML by way of semi-basic manufacturing, however the firm has a single QC laboratory which caters for all stages of testing for all type of products manufactured in both licensed facilities.

HPLCs Capacity Calculation Quarter Wise
(Average 2 – 3 tests/day/HPLC)
TOTAL 05 HPLC (13 tests per day)*
26 working days

* Firm has 5 HPLC systems which is used to test all products manufactured either as formulation in one DML or as semi basic products in other DML. Under the semi-basic facility the firm also manufacture pellets including sustained release, delayed release and dual delayed release pellets etc which requires extensive testing and dissolution studies. Further the formulation side also contain various sections which also requires product testing through HPLC.

Keeping in view the above, the panel members were of the opinion that the two sections i.e. Sterile Dry Powder Injection Vial (General) and Sterile Dry Powder Injection Vial (Steroid) will have at least 25% testing load of the whole Quality Control Laboratory. So keeping in view this factor the total HPLC capacity was reduced to 25% to check the testing capacity for these two sections.

Quarter	Average testing capacity / Quarter	Raw material tests	Product tests	Stability tests	Total tests	Capacity utilized (%)
I (1st Jan – 31st Mar 2021)	253	8	48	6	62	24.50 %
II (1st Apr – 30th June 2021)	253	12	60	8	80	31.60 %
III (1st July – 30th Sept 2021)	253	15	40	10	65	25.69 %
IV (1st Oct – 31st Dec 2021)	253	10	54	8	72	28.45 %
Average capacity						**27.56 %**

HPLC Testing Capacity Utilized (average): 27.56 %
HPLC Testing Capacity Available (average): 72.44 %

Sterility testing capacity of the firm was also reduced to 25% of the total capacity for calculating the overall capacity for these two sections.

Sterility Testing Capacity Calculation Quarter Wise (Average 12 tests/day)			
Quarter	Average capacity/ Quarter	Test Performed	Capacity Utilized %
I (1st Jan – 31st Mar 2021)	234	62	26.49%
II (1st Apr – 30th June 2021)	234	80	34.18%
III (1st July – 30th Sept 2021)	234	65	27.77%
IV (1st Oct – 31st Dec 2021)	234	72	30.76%
Average capacity available:			**29.8%**

Sterility Testing Capacity Utilized (average): 29.8%
Sterility Testing Capacity Available (average): 70.2%

Sterility testing capacity of the firm was also reduced to 25% of the total capacity for calculating the overall capacity for these two sections.

Bacterial Endotoxin Test Capacity Calculation Quarter Wise (Average 200 tests / day)			
Quarter	Average capacity/ Quarter	Test Performed	Capacity Utilized %
I (1st Jan – 31st Mar 2021)	3900	158	4.05%
II (1st Apr – 30th June 2021)	3900	200	5.12%

III (1st July – 30th Sep 2021)	3900	145	3.71%
IV (1st Oct – 31st Dec 2021)	3900	188	4.82%
Average capacity available:			**4.42%**

BET Testing Capacity Utilized (average): 4.42 %
BET Testing Capacity Available (average): 95.57 %

Hot and Cold Incubator Testing Capacity

The testing capacity of hot and cold incubators was determined at maximum production load during the study period i.e. January – December 2021.

	INCUBATOR TOTAL 08 INCUBATOR				
Incubator Name	**Use**	**capacity at a time for incubation**	**Media used for testing (Maximum production load)**	**Capacity utilized (%)**	**Capacity Available (%)**
	Test				
Hot incubator for sterility	**for sterility**	175 bottles for 14 days	07 test per day	4 %	96 %
Cool incubator for sterility	**for sterility**	175 bottles for 14 days	07 test per day	4 %	96 %
Cool incubator for media plates	**For Bio burden test**	150 plates for 5 days	03 test per day	2 %	98 %
Hot incubator for media plates	**For area monitoring**	270 plates for 3 days	80 plates per day	29.6 %	70.4 %
Hot incubator for incubation	**For Bio burden/ area monitoring**	288 plates for 3 days	80 plates per day	27.7 %	72.3 %
Hot incubator for biological indicators	**For biological indicators**	300 tubes for 2 days	20 tubes per day	6.6 %	93.4 %
Hot incubator for BET	**BET**	216 for 1 hour	30 test per day	15 %	85 %
Dry heat sterilizer	**Sterilization**	360 plates per day	80 plates per day	22.2 %	77.8 %

Observations by the Inspection Panel:

- The panel observed that the firm has two separate Drug Manufacturing License i.e. DML by way of formulation and DML by way of semi-basic manufacturing, however the firm has a single QC laboratory which caters for all stages of testing for all type of products manufactured in both licensed facilities.
- At the time of receiving of drug substance (containing multiple containers of sterile drug substances) the firm perform complete analysis including physical, chemical and microbiological tests using the sample vial / pouch provided with the containers.
- However, before production of commercial batches, the firm only performs BET test for the drug substance instead of performing complete testing for each container.
- The representatives of the firm informed the panel that incase of non-pharmacopoeial drug products, they were using UV methods for analysis, however they have switched all such products to HPLC method / innovator's specifications.
- During review of specifications of drug substance and drug product it was observed that the firm

has mentioned an alternate method (UV method) for assay testing in some cases. Upon clarification the firm's representatives informed that they use this alternate method only for identification test of those drug substances which are already manufactured and released within their own facility having DML by way of semi-basic manufacturing.

- It was also observed that the firm was using diluents for reconstitution of the drug products other than those recommended by innovator product in certain cases like esomeprazole powder for solution for injection/infusion etc.

CONCLUSION

The manufacturing capacity (installed, utilized and unutilized) and overall capacity of the analytical equipment of M/s Vision Pharmaceuticals (Pvt.) Ltd Plot No. 22 – 23, Industrial Triangle Kahuta Road, Islamabad, was assessed based on the data and record provided by the firm, interview of the personnel and visit of the premises. The installed and utilized capacity of the manufacturing and analytical equipment used for testing of products has been given in detail above for record and further necessary action.

Dr. Farhad Ullah Assistant Director, PEC, PE&R Division DRAP, Islamabad	**Dr. Muhammad Haseeb Tariq**, Assistant Director, PEC, PE&R Division DRAP, Islamabad

ANNEXURES:

Annexure 1	• Total number of registered products of the firm, • Total number registered product for each aforementioned section • Existing registered products on contract manufactured by the firm in aforementioned sections
Annexure 2	• List of all quality control equipment along with its testing capacity • Total number of QC, IPQC and stability study tests performed in each quarter
Annexure 3	• List of qualified personnel working in production, Quality control and Quality assurance department
Annexure 4	• List of production equipment along with capacity
Annexure 5	• List of all production batches of each product manufactured in each quarter from January to December 2021.
Annexure 6	• Calibration certificate of dryer and autoclave.

Decision: Registration Board discussed the inspection report in details. Deliberations were made on used and available manufacturing and quality control capacity keeping in view all registered product and currently applied products. After thorough deliberation, the Board decided to allow contract manufacturing from M/s Vision Pharmaceuticals (Pvt) Ltd Plot No. 22 – 23, Industrial Triangle Kahuta Road, Islamabad for following sections:

- **Sterile Dry Powder Injection Vial (General)**
- **Sterile Dry Powder Injection Vial (Steroid)**

Agenda of Evaluator PEC-IV

Case no. 01 Registration applications on Form 5F for local manufacturing of (Human) drugs

a. New cases

259.	Name, address of Applicant / Marketing Authorization Holder	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Name, address of Manufacturing site.	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23834 dated: 31-08-2021
	Details of fee submitted	PKR 20,000/- dated: 08/03/2021 PKR 10,000/- dated: 11/05/2020
	The proposed proprietary name / brand name	Montisim 5mg tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each chewable tablet contains: Montelukast as sodium…….5mg
	Pharmaceutical form of applied drug	Red colored, Round shaped, chewable tablet
	Pharmacotherapeutic Group of (API)	Leukotriene receptor antagonist
	Reference to Finished product specifications	USP
	Proposed Pack size	2×7’s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Montelukast 5mg chewable tablet, Accord Healthcare Limited, United Kingdom, MHRA Approved.
	For generic drugs (me-too status)	Montiget 5mg chewable tablet, Getz Pharma (Pvt) Ltd. Reg# 034837
	GMP status of the Finished product manufacturer	Copy of cGMP issued on 23-07-202 on the basis of evaluation conducted on 09-07-2020
	Name and address of API manufacturer.	ZHEJIANG TIANYU PHARMCEUTICALS CO., LTD. No. 15, Donghai 5th Avenue, Zhejiang Provincial chemical and medical Raw Materials Base Linhai Zone, Taizhou City.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of montelukast sodium is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for related substances (Sulfoxide impurity, Cis Isomer, methylketone, methylstyrene and total impurities), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (201310301, 201310302, 201310303)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Singulair 5mg tablet Batch No# S018860 by Merck Sharp & Dohme limited UK by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Singulair 5mg tablet by Merck Sharp & Dohme limited UK in Acid media (pH 1.0-1.2) & Acetate buffer 4.5pH and Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision and specificity.
STABILITY STUDY DATA		
Manufacturer of API	ZHEJIANG TIANYU PHARMCEUTICALS CO., LTD.	

	No. 15, Donghai 5th Avenue, Zhejiang Provincial chemical and medical Raw Materials, Base Linhai Zone, Taizhou City.		
API Lot No.	11001-181210		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (2×7's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	20TRn006	20TRn009	20TRn010
Batch Size	2000 tab	2000 tab	2000 tab
Manufacturing Date	10-2020	11-2020	11-2020
Date of Initiation	23-11-2020	23-11-2020	23-11-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No . ZJ20180033 issued by China food and Drug Control administration valid until 14.03.2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of form 3, form 7 and commercial invoice (Invoice# TY119146 Dated: 28-02-2019 with received quantity i.e. 15 kg) of Montelukast Batch No# 11001-181210 with attestation of DRAP Lahore dated: 11-03-2019
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.1	Differential fee according to as per notification No.F.7-11/2012-	Differential fee of Rs:10000/- deposit slip # 34803402245 dated: 11-05-2022 submitted

		B&A/DRAP dated 13-07-2012	
2.	1.3.5.	GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted.	Latest cGMP certificate submitted
3.	1.5.15 – 1.5.20	Submit Original Commitment	Signed original commitments submitted.
4.	2.3.R.1.1	Assay of Drug substance mentioned is 94.24% while in Certificate of Analysis of Drug substance Assay is 99.39%. Clarification is required.	Assay result 94.24% is result of montelukast on as is basis (the content of montelukast in montelukast sodium API), while the result 99.39% in Certificate of analysis of Drug substance under assay is result on dried basis.
5.	3.2.S.4.2	USP specify montelukast dicyclohexylamine as reference standard in drug substance assay testing while you have used montelukast sodium as reference standard. Clarification is required.	We used montelukast sodium as working standard which was standardized against Montelukast dicyclohexylamine CRS Lot#Y0001436 B#2. CoA of montelukast dicyclohexylamine Reference standard is given under section 3.2.P.6 Reference standard or materials and also attached (As the primary reference standards are costly and have small quantities, reference standards used in routine test of batch/product analysis are made in-house against primary reference standard. The in-house reference standards are working/secondary reference standards).
6.	3.2.P.5.2	• USP specify montelukast dicyclohexylamine as reference standard in drug product analytical testing method while you have used montelukast sodium as working standard. Clarification is required.	We used montelukast sodium as working standard which was standardized against Montelukast dicyclohexylamine CRS Lot#Y0001436 B#2. CoA of montelukast dicyclohexylamine Reference standard is given under section 3.2.P.6 Reference standard or materials and also attached (As the primary reference standards are costly and have small quantities, reference standards used in routine test of batch/product analysis are made in-house against primary reference standard. The in-house reference standards are working/secondary reference standards).
7.	3.2.P.8	• Reference of previous approval of applications with stability study data of the firm (if any). • Compliance Record of HPLC software 21CFR	• NA • Real time stability data summary sheets are attached. • Compliance record of HPLC Software 21CFR and audit trail reports on product testing are attached.

		& audit trail reports on product testing. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) • Documents for the procurement of API with approval from DRAP (in case of import).	• Record of digital data logger for temperature and humidity monitoring of stability chambers is attached. • Import documents submitted.

Decision: Registration Board deferred the case for Scientific justification for use of montelukast sodium as working standard instead of montelukast dicyclohexylamine specified by USP monograph.

Date of Initiation	25.09.2020	09.10.2020	25.09.2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product for Mirab (Mirabegron) Extended Release Tablets 25mg & 50mg on 12th December, 2017. Further, the said panel inspection report was discussed in 277th Drug Registration Board meeting held on 27th – 29th December 2017. The case was approved and the inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are GMP compliant.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** Copy of Drug Manufacturing License no. Su 20160324 issued by Jiangsu Drug Administration (Huai'an Inspection Branch) valid till 06-12-2025. **Metformin HCl:** Copy of GMP Certificate No. SD20190888 issued by CFDA, China valid till 12-03-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** Firm has submitted copy of invoice (invoice# JXCAVIR-20191003AP) dated : 03-01-2020 cleared by DRAP Karachi office dated 07.01-2020 specifying import 20Kg Empagliflozin: (Batch# 20191130). **Metformin HCl:** Firm has submitted copy of invoic (invoice# JC202002009-1) dated : 18-03-2020 cleared by DRAP Karachi office dated 07.04.2020 specifying import of Metformin Hcl (Batch# A-81412001039). Firm has submitted copy of invoice (invoice# JC201910012-2) dated : 30-12-2019 cleared by DRAP Karachi office dated 07.01-2020 specifying import of Metformin HCl (Batch# A-32611910002).

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record, analytical record and attested documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted compliance certificate of HPLC software and audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated).

Remarks OF Evaluator: Gap bew mfg and stability start

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.2.	Strength of Active ingredient shall be stated clearly. For example, each tablet contains,	Firm submitted Label claim as follows: Each extended-release tablet contains: Empagliflozin…..5mg Metformin HCl USP…..1000mg
2.	2.3.R.1.1	In BMR of batch # 532DS03 batch no of drug substance Metformin HCl # 0000176216 while in stability summary sheets it is mentioned as batch # 000013980. Clarify which batch of drug substance is used in manufacturing of 532DS03.	Batch no # 0000176216 of Metformin HCl is used in manufacturing of 532DS03 and accordingly revised corrected stability summary sheets are submitted.
3.	1.6.5	Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin. Or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin for Empagliflozin	Valid Drug Manufacturing License of Empagliflozin issued by Jiangsu Drug Administration, China valid till 06.12.2025.
4.	3.2.S.4.3	Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both drug substance(s) Empagliflozin & Metformin HCl) Shall be submitted.	Firm has submitted Analytical method verification studies, without performance of accuracy parameter. Firm has submitted following justification: "This is to bring to your kind attention that we have used 100% API without any placebo in Analytical Method Verification Studies of Empagliflozin and Metformin HCl, therefore, requirement of accuracy is not applicable. Further, we have performed linearity to check area response of the sample as the concentration of the sample

			raised within working range of sample i.e., 50% - 150%."
5.	3.2.P.2.2.1	CDP has been performed with different strength. Clarification is required.	Comparative dissolution profile (CDP) with Erliplus XR Tablets 5mg + 1000mg (Batch No # 1B133) manufactured by Pharmevo (Pvt) Limited, submitted.
6.	3.2.P.5.1	In specification of dissolution testing time for Empagliflozin Q is not mentioned	Updated finished product specifications submitted.
7.	3.2.P.8	Documents for the procurement of Metformin HCl for batch # (Batch# A-81412001039). with approval from DRAP	Documents for the procurement of Metformin HCl for batch # (Batch# A-81412001039). with approval from DRAP submitted.

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

No. 18, 237 provincial highway, Jiangsu Huai'an Economic Development, China. **Metformin HCl:** Shouguang Fukang Pharmaceutical Co., Ltd. North-East of Dongwaihuan Road, Dongcheng Industrial Area, Shouguang, Shandong, China.
API Lot No.	Empagliflozin: 20191205 (0000174101) Metformin HCl: A-22612002008 (0000177796) A-81412001039 (0000176216)
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (14's & 28's)
Stability Storage Condition	Real time: 30°C ± 2°C / 75% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	536DS01	536DS02	536DS03
Batch Size	1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date	10.07.2020	12.08.2020	12.08.2020
Date of Initiation	25.09.2020	25.09.2020	25.09.2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product for Mirab (Mirabegron) Extended Release Tablets 25mg & 50mg on 12th December, 2017. Further, the said panel inspection report was discussed in 277th Drug Registration Board meeting held on 27th – 29th December 2017. The case was approved and the inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are GMP compliant.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** Copy of Drug Manufacturing License no. Su 20160324 issued by Jiangsu Drug Administration (Huai'an Inspection Branch) valid till 06-12-2025. **Metformin HCl:** Copy of GMP Certificate No. SD20190888 issued by CFDA, China valid till 12-03-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** Firm has submitted copy of invoice (invoice# JXCAVIR-200212) dated : 02-03-2020 cleared by DRAP Karachi office dated 05.03-2020 specifying import 10Kg Empagliflozin: (Batch# 20191205). **Metformin HCl:** Firm has submitted copy of form 7 and invoice (invoice# JC202002010-1) dated : 09-04-2020 cleared by DRAP Karachi office dated 22.04.2020 specifying import 9 of Metformin HCl (Batch# A-22612002008). Firm has submitted copy of invoice (invoice# JC202002009-1) dated : 18-03-2020 cleared by DRAP Karachi office dated 07.04.2020 specifying import of Metformin HCl (Batch# A-81412001039)

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record, analytical record and attested documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted compliance certificate of HPLC software and audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated).

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.2.	Strength of Active ingredient shall be stated clearly. For example, each tablet contains,	Firm submitted Label as follows: Each extended-release tablet contains: Empagliflozin…..10mg Metformin HCl USP…..1000mg
2.	2.3.R.1.1	In BMR of batch # 536DS01 batch no of drug substance Metformin HCl # 0000176216 mentioned while in stability summary sheets it is mentioned as batch # (0000177796). Clarify which batch of drug substance is used in manufacturing of 536DS01.	0000176216 of Metformin HCl is used in manufacturing of 536DS01 and accordingly revised corrected stability summary sheets are submitted.
3.	1.6.5	Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin. Or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin for Empagliflozin	Valid Drug Manufacturing License of Empagliflozin issued by Jiangsu Drug Administration, China valid till 06.12.2025.
4.	3.2.S.4.3	Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both drug substance(s) Empagliflozin & Metformin HCl) Shall be submitted.	Firm has submitted Analytical method verification studies, without performance of accuracy parameter. Firm has submitted following justification: "This is to bring to your kind attention that we have used 100% API without any placebo in Analytical Method Verification Studies of Empagliflozin and Metformin HCl, therefore, requirement of accuracy is not applicable. Further, we have performed linearity to check area response of the

			sample as the concentration of the sample raised within working range of sample i.e., 50% - 150%."
5.	3.2.S.4.4	Submit Certificate of analysis for Empagliflozin batch #(20191205) by drug substance manufacturer and drug product manufacturer.	Certificate of analysis of Empagliflozin batch # (20191205) by drug substance manufacturer and drug product manufacturer is attached.
6.	3.2.P.2.2.1	CDP has been performed with different strength. Clarification is required.	Comparative dissolution profile (CDP) with Erliplus XR Tablets 10mg + 1000mg (Batch No # 1D0683) manufactured by Pharmevo (Pvt) Limited, submitted
7.	3.2.P.5.1	In specification of dissolution testing time for Empagliflozin Q is not mentioned	Updated finished product specifications submitted.
8.	3.2.P.8	• Documents for the procurement of Empagliflozin for batch #(0000174101) with approval from DRAP. • Documents for the procurement of Metformin HCl for batch # (A-81412001039) with approval from DRAP	Documents for the procurement of Empagliflozin for batch # (0000174101) and Metformin HCI for batch # (Batch# A-81412001039) with approval from DRAP are attached.

Decision: Approved with innovator's specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** Firm has submitted copy of form 7 and invoice (invoice# JXCAVIR-200212) dated : 02-03-2020 cleared by DRAP Karachi office dated 05.03-2020 specifying import 10Kg Empagliflozin: (Batch# 20191205). Firm has submitted copy of form 7 and invoice (invoice# CAVIR-20190303AP) dated : 28-03-2019 cleared by DRAP Karachi office dated 05.04-2019 specifying import 10Kg Empagliflozin: (Batch# 20190322). **Metformin HCl:** Firm has submitted copy of invoic (invoice# JC201910012-2) dated : 30-12-2019 cleared by DRAP Karachi office dated 07.01.2020 specifying import 9 of Metformin HCl (Batch# A-32611910002). Firm has submitted copy of invoice (invoice# JC202002009-1) dated : 18-03-2020 cleared by DRAP Karachi office dated 04.04.2020 specifying import of Metformin HCl (Batch# A-81412001039).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record, analytical record and attested documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted compliance certificate of HPLC software and audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated).

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.2.	Strength of Active ingredient shall be stated clearly. For example, each tablet contains,	Firm submitted Label as follows: Each extended-release tablet contains: Empagliflozin…..25mg

			Metformin HCl USP…..1000mg
2.	2.3.R.1.1	In BMR of batch # 533DS05 batch no of drug substance Empagliflozin # 0000174101 and Metformin HCl# 0000176216 mentioned while in stability summary sheets it is mentioned as batch Empagliflozin # 0000171936 and Metformin HCl #0000177796. Clarify which batch of drug substance's are used in manufacturing of 533DS05.	Batch no: 0000174101 of Empagliflozin and Batch no: 0000176216 of Metformin HCl is used in manufacturing of 533DS05 and accordingly revised corrected stability summary sheets are submitted.
3.	1.6.5	Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin. Or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin for Empagliflozin	Valid Drug Manufacturing License of Empagliflozin issued by Jiangsu Drug Administration, China valid till 06.12.2025.
4.	3.2.S.4.3	Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both drug substance(s) Empagliflozin & Metformin HCl) Shall be submitted.	Firm has submitted Analytical method verification studies, without performance of accuracy parameter. Firm has submitted following justification: "This is to bring to your kind attention that we have used 100% API without any placebo in Analytical Method Verification Studies of Empagliflozin and Metformin HCl, therefore, requirement of accuracy is not applicable. Further, we have performed linearity to check area response of the sample as the concentration of the sample raised within working range of sample i.e., 50% - 150%."
5.	3.2.S.4.4	Submit Certificate of analysis for Empagliflozin batch # (20191205 & 0000161733) by drug substance manufacturer and drug product manufacturer.	Certificate of analysis of Empagliflozin batch # ((20191205 & 0000161733) by drug substance manufacturer and drug product manufacturer are attached.
6.	3.2.P.5.1	In specification of dissolution testing time for Empagliflozin Q is not mentioned	Updated finished product specifications submitted.

7.	3.2.P.8	• Documents for the procurement of Empagliflozin for batch # (0000174101 and 0000161733) with approval from DRAP. • Documents for the procurement of Metformin HCl for batch # (A-81412001039) with approval from DRAP	Documents for the procurement of Empagliflozin for batch # (0000174101 and 0000161733) and Metformin HCI for batch # (Batch# A-81412001039) with approval from DRAP. Are attached.

Decision: Approved with innovator's specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	2.3.R.1.1	In BMR potency of Drug substance mentioned on As is basis is 100.96% while in COA 99.49% . Clarification is required.	In BMR potency of Drug Substance on As is basis was taken 100.96% for trial batches. The actual potency of API was 99.49%. In fact 100.96% potency was erroneously taken from 20.0g docket sample of API received for initial testing purpose. Please find enclosed data of docket sample including with raw data as your ready reference. However, both docket sample for initial testing and API received for trial batches have potency results within the specification limit i.e. 98 – 102% (on dried basis). The difference is minor and that is 1.47%, which does not effect stability data as all assay results are well within limits. "In continuation of our letter no. SA/MI/05-22/78 (Racehil Granules for Suspension) submitted on 12.05.2022. As required, we explain the point No. 2.3.R.1.1, vendor sample from manufacturer for testing/evaluation purpose is termed as docket sample. Potency of docket sample was used mistakenly instead of potency of API. However, there is no significant difference in potency of docket sample & API used for trial batches"
2.	3.2.P.2.2.1	Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed	All quality tests (mentioned in section 3.2.P.5.1) were tested for test product (Racehil Granules for Oral Suspension 30mg) and innovator (Hidrasec Granules For Oral Suspension 30mg) and found to be satisfactory and comparable.
9.	3.2.P.5.1	Dissolution testing not included in specification.	Dissolution test has been included in specification, enclosed.

Decision: Approved with innovator's specification.

• **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.** • **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.1	Drug substance manufacturer specifications are BP for drug substance while drug product manufacture specifications are USP for drug substance. Clarification is required.	We have changed specification from USP to BP, revised Standard analytical procedure, performed method verification studies as per BP and performed complete analysis of Drug substance as per BP method. Revised standard analytical procedure and specifications, method verification protocol and report and Drug substance analytical record as per BP specification are attached. • (However different batch no mentioned on COA.)
2.	3.2.P.2.2.1	Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section	Pharmaceutical equivalence study report and analytical record is attached

		3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed	
3.	3.2.P.8	• Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. • Documents for the procurement of API with approval from DRAP (in case of import). • Compliance Record of HPLC software 21CFR & audit trail reports on product testing • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• GMP certificate of API manufacturer is attached. • For document for procurement of API form 6 submitted (However of different batch no mentioned.) • Compliance record of HPLC software 21CFR & Audit trail reports on product testing are attached. • Record of digital data logger for temperature and humidity monitoring of stability chambers is attached .
4.	In continuation of previous reply firm submitted justification for change of Batch No on COA and import documents as follows: **1.** **"**Flurbiprofen Drug substance was received in Raw material store and RMS in-Charge asked purchase department for CoA (as the soft copy of document is received in purchase dept. and hard copy arrives after few days of receiving of drug substance). Purchase department provided CoA of different Batch No. (FBP-2020/09/24) (mistakenly provided by supplier to purchase department) to RMS and the same Batch number was recorded in all documents in RMS, quality control laboratory and production. **2.** At the time of reply to deficiencies of Dentofin 100mg tablet above issue was detected that the import documents have different batch number (FB-2020/07/41) compared to our record. After investigation above mentioned mistake was traced, correct batch number CoA provided and record was corrected. **3.** As it was observed in deficiencies (performance of test as per USP instead of BP) we performed method verification studies as per drug substance manufacturer specifications (BP) and retested the drug substance as per BP method mentioning correct batch number. Method verification protocol, report, revised SAP for drug substance, testing record and report submitted to your office. **4.** Flurbiprofen drug substance was initially tested by USP method (assay by titration using indicator) on 16-Nov-2020 and Trial batches were manufactured		

	as per USP method results (99.45% on as is basis). Flurbiprofen drug substance was re-tested as per manufacturer specifications by BP method (assay by potentiometric titration) on 15-Jun-2022, assay result (99.16% on as is basis). **5.** The difference of assay result is 0.30% which is due to difference of time between two analysis/tests (1.7 years) and testing method (titration method using indicator versus potentiometric titration).**"**

Decision: Approved with USP specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in Drug Substance, specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

No. of Batches	03		
Administrative Portion			
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product "Dascot (Daclatasvir) 30mg Tablets" which was presented in 278th meeting of Registration Board wherein the Board decided to approve registration of this product Date of inspection: 26th January, 2018. According to inspection report, following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available. Adequate monitoring and control are available for stability chamber	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No . 22043267 issued by food and Drug Control administration Gandhinagar Gujarat State India valid until 17.04.2025.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 3,Form 6, Form 7 & invoice (invoice# EXP/1/20-21/0217) Dated: 20-08-2020 from Ami life sciences Pvt. Ltd cleared by DRAP Islamabad office dated 09-09-2020 specifying import 300g Vonoprazone Fumarate(Batch# VPF/RD/30720520).	

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.6.5	Name and address of API manufacturer. Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin. ii. Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is attached.
2.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided
3.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required	Copies of the Drug substance specifications by Drug Product manufacturer is attached.
4.	3.2.S.4.2	Copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required	Copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is attached.
5.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is attached.

		Product manufacturer for drug substance(s) shall be submitted.	
6.	3.2.S.4.4	Certificate of Analysis (CoA) of the same batch used during product development and stability studies from Drug Substance / /Active Pharmaceutical Ingredient manufacture.	Certificate of Analysis (CoA) of the same batch used during product development and stability studies from Drug Substance / /Active Pharmaceutical Ingredient manufacture is submitted.
7.	3.2.P.2.2.1	Pharmaceutical Equivalence and CDP not performed with Innovator. Clarification is required.	The Innovator product was not readily available in the market at the time of performing these studies in Pakistan. Therefore, we selected a comparator product that has been approved by DRAP and is the most widely used brand in Pakistan.
8.	3.2.P.5.2	Justify the adaptation of dissolution parameters including type of apparatus, speed (rpm), dissolution medium, volume and time keeping in view the solubility and pKa of the drug substance, pH – pKa solubility profile and recommendations from general chapters of official pharmacopoeia	Dissolution parameters i.e revolution (50rpm), dissolution media volume (900ml) and time (30 minutes) of Vonaprazan Tablet 10mg and Vonaprazan Tablet 20mg were selected as per USP chapter <1092>. For the selection of dissolution media, the dose solubility ratio of Vonoprazan was performed in pH 1.2, 4.5, and 6.8 buffer. Dose solubility ratio was very high throughout the physiological buffer range i.e. 1mg/ml in pH 6.8 buffers, 10mg/ml in pH 1.2 buffers, and 10.4mg/ml in pH 4.5 buffers. Therefore, we selected a dissolution medium having 6.8 pH as a strict-case scenario. <Reference Attached> Dose solubility volume ratio was calculated by using the following formula: Dose solubility volume: Dose (mg) Solubility (mg/ml)
9.	3.2.P.8	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) submitted.

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Pharmacotherapeutic Group of (API)	Antidiabetic Drug (Sodium-glucose co-transporters 2 (SGLT2) inhibitor)
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	10's, 14's, 20's, 28's and 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Farxiga 5mg tablet by AstraZeneca Pharmaceuticals LP Wilmington, DE 19850, USFDA Approved
	For generic drugs (me-too status)	Dapwiz 5mg Tablets by M/s Pharmevo Pvt Ltd. - Karachi, Reg. No. 107374
	GMP status of the Finished product manufacturer	cGMP certificate on the basis of evaluation conductd on 25-01-2019 and valid for 03 years.
	Name and address of API manufacturer.	M/s Fuxin Long Rui Pharmaceutical Co, Ltd – China Address: Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province – 123000 China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Dapagliflozin is Inhouse, the firm submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, tests for single/total impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (160108, 160124, 160220)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification,

		reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Farxiga 5mg tablet by AstraZeneca Pharmaceuticals, by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Farxiga 5mg tablet by AstraZeneca Pharmaceuticals. The dissolution profile of Dakardi 5mg Tablets and Farxiga 5mg Tablet has shown release of more than 85 % in all three Buffer pH 1.2, Phosphate Buffer pH 6.8 and Acetate Buffer pH 4.5 in 30 minutes. And no calculation is required for Similarity factor f2 hence dissolution profile of both Dakardi 5mg tablets and Farxiga 5mg tablet is similar.
	Analytical method validation/verification of product	Method Validation studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Fuxin Long Rui Pharmaceutical Co, Ltd – China Address: Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province – 123000 China		
API Lot No.	DG-20200107-D01-DG06-01		
Description of Pack (Container closure system)	01 Alu-Alu blister of 14 tablets, packed in cardboard box (Box of 14 tablets)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	DGTab-001	DGTab-002	DGTab-003
Batch Size	1000 tablets	1000 tablets	1000 tablets
Manufacturing Date	01-2021	01-2021	01-2021
Date of Initiation	19-01-2021	19-01-2021	19-01-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product EMPAGEN 10mg & 25mg which was conducted on 24-08-2021 and was presented in 294th meeting of Registration Board held on 9th April , 2020. According to the report following points were confirmed.

		• The firm has 21 CFR compliant HPLC software • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of DML Registration. No. Liao20150233 issued by Food and Drug Administration of Liaoning Province-China valid till 20/12/2022
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of form 6 , , DRAP acknowledgment for receiving of dapagliflozin ,form3, form 7 and invoice (invoice#HN200716-L) dated : 16-07-2020 specifying import of Dapagliflozin propanediol monohydrate (Batch# DG-20200107-D01-DG06-01).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.P.5.3	Protocols of analytical validation studies not submitted.	Protocols of analytical validation studies submitted
2.	3.2.P.5.4	In COA's Inhouse specifications mentioned while in section 1.5.6 Innovator specifications claimed. Clarification is required.	Revised COA's with Innovator's specifications are submitted.
3.	3.2.P.8	Submit Commercial invoice with approval from DRAP.	Drug substance was imported against form-6 and the DRAP-Peshawar office was also intimated regarding receiving of the same. Both Copy of form 6 , DRAP acknowledgment for receiving of dapagliflozin are attached. That's why commercial invoice with DRAP approval was not granted.

Decision:

Approved with innovator's specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

• **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.** • **Firm shall submit the fee of Rs. 7,500 for revision of specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

	Decision: Deferred for confirmation of required manufacturing facility / section (Cream sections)	
333.	Name and address of manufacturer / Applicant	M/s Genix Pharma Pvt Ltd. 44,45-B, Korangi Creek Road, Karachi, 75190, Pakistan
	Brand Name +Dosage Form + Strength	Seipil ER 330mg Tablet
	Composition	Each film coated Extended Release Tablet Contains: Pregabalin…330mg
	Diary No. Date of R& I & fee	Dy.No. 13930 dated 07-03-2019 Rs.50,000/- Dated 06-03-2019
	Pharmacological Group	Anti-epileptic
	Type of Form	Form-5D
	Finished product Specifications	Manufacturer specification
	Pack size & Demanded Price	10’s, 20’s, 30’s, 60’s, 100’s :As per SRO
	Approval status of product in Reference Regulatory Authorities	LYRICA CR of USFDA approved
	Me-too status (with strength and dosage form)	Not found
	GMP status	Last inspection was conducted on 10-04-2019 and report concludes that firm is operating at an

		acceptable level of cGMP compliance.
	Previous remarks of the Evaluator.	Submit Stability studies along with requisite documents.
	Previous decision(s)	**Deferred for following reasons:** Deferred for consideration on its turn. **(M-296)**
	Remarks of the Evaluator.	In USFDA description of product as follows: **11 DESCRIPTION** LYRICA CR (pregabalin extended-release) tablets are for oral use and contain pregabalin. Pregabalin is described chemically as (*S*)-3-(aminomethyl)-5-methylhexanoic acid. The molecular formula is $C_8H_{17}NO_2$ and the molecular weight is 159.23. The chemical structure of pregabalin is:  Pregabalin is a white to off-white, crystalline solid with a pK_{a1} of 4.2 and a pK_{a2} of 10.6. It is freely soluble in water and both basic and acidic aqueous solutions. The log of the partition coefficient (n-octanol/0.05M phosphate buffer) at pH 7.4 is – 1.35. LYRICA CR extended-release tablets are administered orally and contain 82.5, 165, or 330 mg of pregabalin, along with Kollidon SR (polyvinyl acetate, povidone, sodium lauryl sulphate, and silica), crospovidone, polyethylene oxide, carbomer, magnesium stearate, polyvinyl alcohol, titanium dioxide, talc, polyethylene glycol, and colorants as inactive ingredients.
	Decision: Registration Board deferred for submission of stability study data as per the guidelines provided in 293rd meeting of Registration Board.	

Case no. 02 Registration applications of newly granted DML or New section (Human)

a. New DML

M/s Swera Pharmaceuticals**. (New DML)**

CLB in its 282nd meeting held on 31st August 2021 has considered and approved the grant of Drug Manufacturing License by way of formulation with following six (06) sections to M/s Swera Pharmaceuticals

1	Tablet(General)	4	Cream/ Gel (General)
2	Capsule (General)	5	Lotion Section (General)
3	Sachet (General)	6	Dry Powder Injection (General)

Accordingly, firm has applied for following products for consideration by Drug Registration Board.

Capsule (General)
04 Molecules/ 06 Products

334.	Name, address of Applicant / Marketing Authorization Holder	M/s Swera Pharmaceuticals. Plot No. 27, Street No. S-4, National Industrial Zone, Rawat, Islamabad
	Name, address of Manufacturing site.	M/s Swera Pharmaceuticals. Plot No. 27, Street No. S-4 National Industrial Zone, Rawat, Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 2365 dated 25-01-2022

	Details of fee submitted	PKR 30,000/-: Deposit Slip No# 64944411
	The proposed proprietary name / brand name	Login 50mg Capsule
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Capsule Contains: Diclofenac Sodium (as 32% Enteric coated pellets)…50mg
	Pharmaceutical form of applied drug	Capsule
	Pharmacotherapeutic Group of (API)	Non steroidal anti inflammatory Drugs
	Reference to Finished product specifications	Innovator specifications
	Proposed Pack size	2 x 10's , 3 x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Difene 50mg Capsules of Ireland approved
	For generic drugs (me-too status)	Diclogesic 50mg Capsule by Wilson Pharmaceuticals Reg. No. 011892
	GMP status of the Finished product manufacturer	New DML letter issued dated; 16-09-2021
	Name and address of API manufacturer.	Vision Pharmaceuticals (pvt) Ltd Plot3 22-23, Industrial Triangle, Kahutta road, Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Mobikare 50mg Capsule. By M/s Barret Hodgson by performing quality tests (Identification, Assay, and dissolution). Firm has performed comparative dissolution profile against the product i.e Mobikare by M/s Barret Hodgson Batch No# C8862, Pakistan in Acid media (pH 1.2) & Phosphate Buffer (pH 6.8). and the results are within acceptable limit
	Analytical method validation/verification of product	Method Validation have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturing Date	10-2021	10-2021
Date of Initiation	08-10-2021	08-10-2021
No. of Batches	02	

Administrative Portion		
19.	Reference of previous approval of applications with stability study data of the firm (if any)	New section
20.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP certificate issued by Additional Director DRAP, Islamabad. It is valid till 10-02-2022.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	Invoice No # 801689 dated: 16-09-2021 specifying 2 Kg of Diclofenac sodium 32% EC pellets batch no # DE931
22.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Data of stability batches have been submitted by UV method along with respective documents like COA, summary data, sheets.
23.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has performed testing of Login 50mg capsule on UV spectrophotometer

24.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	2.3.R.1.1	Quantity of Pellets subject to assay and moisture content not calculated, clarification is required	Assay is done on 'as is basis' so there is no need of calculation of moisture content.
2.	2.3.R.1.2	Provide blank master production document / batch manufacturing record to be used during the commercial manufacturing of the applied product.	Submitted
3.	3.2.P.2.2.1	Pharmaceutical equivalence of the applied drug shall be established with the innovator product and results of all the quality tests of the developed formulation and the innovator product shall be submitted and discussed.	We were unable to arrange the innovator product that's why we couldn't perform Pharmaceutical equivalence against the innovator product. Pharmaceutical equivalence of Login capsules has been performed against Mobikare capsules prepared by Barret Hodgson as per available guidance document on DRA website i.e Pharmaceutical equivalence may also be carried out against reference/comparator product.
4.	3.2.P.5.2	• Justification is required for performing assay testing by UV method instead of HPLC method. • Justification is required for setting dissolution limit in phosphate buffer stage as NLT 75% in 45 min which is different from that mentioned in Specifications i.e., NLT 75% in 30 min.	• The assay was performed on UV Spectrophotometer as the method provided by the Diclofenac sodium pellets manufacturer was also on UV, moreover complete method validation has been performed and submitted for your kind consideration. • The dissolution time limit is 45 minutes, the time 30 minutes is typographical error.
5.	3.2.P.5.3	Submit protocols of analytical method validation.	Submitted
6.	3.2.P.8	• Documents for the procurement of the API including purchase invoice from M/s Vision Pharmaceuticals (Pvt.) Ltd. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• Submitted • Submitted

Decision: The Board deferred the case for scientific justification of performance of assay testing by using UV-spectrophotometer instead of using HPLC method as performed by the reference product.		
335.	Name, address of Applicant / Marketing Authorization Holder	M/s Swera Pharmaceuticals. Plot No. 27, Street No. S-4, National Industrial Zone, Rawat, Islamabad

	Name and address of API manufacturer.	Vision Pharmaceuticals (pvt) Ltd Plot3 22-23, Industrial Triangle, Kahutta road, Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product. Firm submitted dissolution of drug product in 3 pH: Acid stage 0.1N HCl and Buffer stage pH 5.5 and pH 7.0
	Pharmaceutical equivalence and comparative dissolution profile	established against the brand leader that is Razodex 30mg Capsules Getz Pharma by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Razodex 30mg Capsules by Getz Pharma in Acid media (pH 1.2) & Phosphate Buffer (pH 7.0). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	Vision Pharmaceuticals (Pvt) Ltd Plot# 22-23, Industrial Triangle, Kahutta road, Islamabad.		
API Lot No.	DLP756		
Description of Pack (Container closure system)	Alu-Alu Blistering		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	RD-C001	RD-C002	RD-C003
Batch Size	1500 cap	1500 cap	1500 cap
Manufacturing Date	11-2021	11-2021	11-2021

Date of Initiation	08-11-2021	08-11-2021	09-11-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP certificate issued by Additional Director DRAP, Islamabad. It is valid till 10-02-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Invoice No # 801084 dated: 01-11-2021 specifying 2 Kg of DDR Pellets of Dexlansoprazole 22.5% EC pellets batch no # DLP756
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	2.3.R.1.1	Quantity of Pellets subject to assay and moisture content not calculated, clarification is required	Assay is done on 'as is basis' so there is no need of calculation of moisture content.
2.	2.3.R.1.2	Provide blank master production document / batch manufacturing record to be used during the commercial manufacturing of the applied product.	Submitted
3.	3.2.P.2.2.1	Pharmaceutical equivalence of the applied drug shall be established with the innovator product and results of all the quality tests of the developed formulation and the innovator product shall be submitted and discussed.	We were unable to arrange the innovator product that's why we couldn't perform Pharmaceutical equivalence against the innovator product. Pharmaceutical equivalence of Sevodex 30mg capsules has been performed against Razodex 30mg capsules prepared by Getz Pharma as per available guidance document on dra website i.e Pharmaceutical equivalence may also be carried out against reference/comparator product.
4.	3.2.P.5.3	Submit protocols of analytical method validation.	Submitted
5.	3.2.P.8	• Documents for the procurement of the API	• Submitted • Submitted.

		including purchase invoice from M/s Vision Pharmaceuticals (Pvt.) Ltd. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Decision: Approved with innovator's specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **The firm will perform Comparatice Dissolution Profile and Pharmaceutical Equivalence studies against the innovator's product before issuance of registration letter.**

- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

b. New/Additional section(s)

M/s News Pharma Lahore**. (New Section)**

CLB in its 283rd meeting held on 28th October 2021 has considered and approved the grant One (01) Additional section to M/s News Pharma Lahore. Accordingly, firm has applied for following products for consideration by Drug Registration Board.

Oral Liquid General section
09 Molecules/ 10 Products

340.	Name, address of Applicant / Marketing Authorization Holder	M/s News Pharma Lahore Plot 42, Sundar Industrial Estate Lahore
	Name, address of Manufacturing site.	M/s News Pharma Plot 42, Sundar Industrial Estate Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.6140 dated: 07-03-2022
	Details of fee submitted	PKR 30,000/-: dated : 03-03-2022
	The proposed proprietary name / brand name	Newmol 120 mg / 5 mL Suspension
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5 mL contains: Paracetamol (BP).... 120 mg
	Pharmaceutical form of applied drug	Pink colour sweet homogeneous strawberry flavored oral suspension
	Pharmacotherapeutic Group of (API)	Paracetamol is part of the class of drugs known as "aniline **analgesics**"
	Reference to Finished product specifications	BP
	Proposed Pack size	60 mL, 120 mL, 400 mL
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Paracetamol 120 mg/5 ml Oral Suspension by M/s Pinewood healthcare UK (MHRA Approved)
	For generic drugs (me-too status)	Febrol 120 mg/5 ml Suspension by Barret Hodgson Reg. No. 023532
	GMP status of the Finished product manufacturer	New additional section of Oral Liquid general section approved on : 28-10-2021 letter issued on: 12-11-2021 and inspection conducted on: 28-07-2021
	Name and address of API manufacturer.	Pharmagen Limited. 34-Km, Ferozepur Road, Lahore, Pakistan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure

		system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Paracetamol is present in BP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Calpol 120 mg/5 mL Susp. By M/s GSK by performing quality tests (Identification, Assay, and determination of Impurity (4-Aminophenol). CDP – Not applicable
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Calpol 6 Plus 250 mg/5 mL Susp. By M/s GSK by performing quality tests (Identification, Assay, and determination of Impurity (4-Aminophenol). CDP – Not applicable
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	Pharmagen Limited. 34-Km, Ferozepur Road, Lahore, Pakistan.		
API Lot No.	00510921/040/2021		
Description of Pack (Container closure system)	Amber glass bottle sealed with aluminium cap and packed in printed unit cartons.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	45 Bottles	45 Bottles	45 Bottles
Manufacturing Date	09-2021	09-2021	09-2021

Date of Initiation	10-09-2021	10-09-2021	10-09-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate dated 22-05-2019 issued by DRAP
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Local source
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Audit Trail submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	2.3.R.1.1	• Manufacturing method mentioned in BMR's is not same mentioned in section 3.2.P.2.3 and 3.2.P.3.5. Clarification is required. • Justification of overages in the formulation(s) shall be submitted. • Batch size 100 bottles mentioned while in stability sheets and COA's 45 bottles mentioned.	• BMR's, 3.2.P.2.3 and 3.2.P.3.5. have been revised and same method is adopted. Documents attached. • No overage was added in the formulation. There was human error in calculation of material which has been corrected in BMR's attached. • Actual batch size is 45 bottles according to which all calculations done. 100 bottles was mentioned by clerical mistake.
2.	2.3.R.1.2	• Manufacturing method mentioned in BMR's is not same mentioned in section 3.2.P.2.3 and 3.2.P.3.5. Clarification is required	BMR's, 3.2.P.2.3 and 3.2.P.3.5. have been revised and same method is adopted. Documents attached.
3.	3.2.S.4.2	• Analytical procedures used for routine testing of the Drug substance /Active	• Analytical Procedures used for routine testing of the drug substance / Active Pharmaceutical Ingredient by Drug Substance are attached.

		Pharmaceutical Ingredient by Drug substance is required. • Submitted assay method is different than B.P monograph. Clarification is required.	• It is a typographical mistake. Actual method is submitted.
4.	3.2.S.4.3	In B.P and as per your ,method Assay is carried out by titration method while Verification studies are conducted by HPLC. Clarification is required.	Revised Verification studies were conducted by titration method. Copy of reports is attached.
5.	3.2.P.2.2.2	Justification of overages in the formulation(s) shall be submitted.	No overage was added in the formulation. There was human error in calculation of material which has been corrected in BMR's attached.
6.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided	Preservative effectiveness studies performed as per recommendations of Pharmacopoeia.
7.	3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.	The copies of complete analysis of at least two batches.

Decision: Approved with BP specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued after submission of Pharmaceutical Equivalence with Innovator product.**

	The proposed proprietary name / brand name	Newdom Suspension 5mg/5ml.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5 ml Suspension contains: Domperidone ……..5 mg
	Pharmaceutical form of applied drug	Oral suspension filled in amber glass bottle sealed with pilfer proof aluminium caps.
	Pharmacotherapeutic Group of (API)	Dopamine Antagonist
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	60 ml, 90 mL, 120 mL & 400 mL
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Domperidone 1 mg/mL Suspension. MHRA approved
	For generic drugs (me-too status)	Motilium Suspension 5 mg /5 mL Reg # 006527
	GMP status of the Finished product manufacturer	New additional section of Oral Liquid general section approved on : 28-10-2021 letter issued on: 12-11-2021 and inspection conducted on: 28-07-2021
	Name and address of API manufacturer.	M/S Vasudha Pharma Chem Limited. Address: Unit-II, Plot No. 79Jawaharlal Nehru Pharma City Thanam(V), Parawada(M), Visakhapatnam District-531019, Andhra Pradesh, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties,

		solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (DN-01T15, DN-02T15, DN-03T15)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The Firm has performed pharmaceutical equivalence of their developed formulation Newdom Suspension with comparator product Motilium Susp. 5 mg/5ml Susp. By M/s Aspin Pharma.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	M/S Vasudha Pharma Chem Limited Unit-II, Plot No. 79 Jawaharlal Nehru Pharma City Thanam (V), Parawada(M), Visakhapatnam District-531019, Andhra Pradesh, India.
API Lot No.	EDOM/2110097
Description of Pack (Container closure system)	Oral Suspension filled in Amber glass bottle sealed with pilfer pr aluminium caps.
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)

Batch No.	T-01	T-02	T-03
Batch Size	45 Bottles	45 Bottles	45 Bottles
Manufacturing Date	09-2021	09-2021	09-2021
Date of Initiation	17-09-2021	17-09-2021	17-09-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP Certificate for M/s Vasudha Pharma Chem Ltd, India issued by food and drugs administration (Andhra Pradesh) India. It is valid till 20-11-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of letter No.14901/2021/DRAP-AD-CD(I&E) dated 04/10/2021 is submitted wherein the permission to import different APIs including Domperidone for the purpose of test/analysis and stability studies is granted. Firm has submitted copy of Form 3, form 7 & invoice (invoice# EXP/6994 (20-21) dated: 06-09-2021 specifying import 1Kg Domperidone (Batch# EDOM/2110097). However not attested by DRAP. Copy of DHL is provided.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	2.3.R.1.1	• Manufacturing method mentioned in BMR's is not same as mentioned in section 3.2.P.2.3 and 3.2.P.3.5. Clarification is required.	Short method was mentioned in BMR. Now Revise BMR (s) & 3.2.P.2.3 are submitted as with detailed method as mentioned in 3.2.P.3.5 It is clarified that actual batch size is 45 bottles and 100 bottles mentioned mistakenly.
2.	2.3.R.1.2	Manufacturing method mentioned in BMR's is not same as mentioned in section 3.2.P.2.3 and 3.2.P.3.5. Clarification is required	Short method was mentioned in BMR. Now Revise BMR is submitted with detailed method as mentioned in 3.2.P.2.3 and 3.2.P.3.5

3.	3.2.S.4.2	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance is required	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance is attached.
4.	3.2.S.4.3	Verification studies are conducted by HPLC while assay method is by titrimetry. Clarification is required.	Revised verification reports are attached conducted by Titrimetry.
5.	3.2.S.4.4	Specification claimed are USP while it is not available in USP. Clarification is required.	Domperidone is not present in USP . USP was mentioned by mistakenly.
6.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia shall be provided	Preservative effectiveness studies performed as per recommendations of pharmacopoeia) is provided.
7.	3.2.P.5.1	Specification claimed are B.P. Provide evidence of B.P specifications.	The product is not available in any pharmacopeia and B.P is mentioned by mistake.
8.	3.2.P.5.2	Justification is required for performing assay testing by UV method	The product is not available in any pharmacopeia so we have test from in-house testing method. The validation of testing method is attached in Dossier.
9.	3.2.P.8	Commercial invoice with approval from DRAP..	Copy of DHL is provided. Calculations of Assay.

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

STABILITY STUDY DATA			
Manufacturer of API	**Iron Polymaltose Complex:** Chemiworld Pvt. Ltd. Plot No. 97, J-Industrial Estate Jamrud Peshawar Pakistan. **Folic Acid:** Hebei Jiheng Pharmaceutical Co., Ltd, 1 Weiwu Street, Hengshui City, Hebei Province, P.R. China 053000		
API Lot No.	**Iron Polymaltose Complex:** K20-IPC-420 **Folic Acid:** 022004010		
Description of Pack (Container closure system)	Oral Suspension filled in Amber glass bottle sealed with pilfer pr aluminium caps.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	45 Bottles	45 Bottles	45 Bottles
Manufacturing Date	09-2021	09-2021	09-2021
Date of Initiation	21-09-2021	21-09-2021	21-09-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**IPC:** The firm has submitted copy of GMP Certificate # F.3-20/2017-DRAP-90 on the basis of inspection conducted on 29-11-2016 for M/S Chemiworld Pvt. Ltd. issued by DRAP. The firm has submitted application for issuance of new GMP certificate. **Folic Acid :** Copy of GMP certificate No. HE20170030 issued by China Food and Drug Administration valid till 26/05/2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of letter No.14901/2021/DRAP-AD-CD(I&E) dated 04/10/2021 is submitted wherein the permission to import different APIs Folic acid for the purpose of test/analysis and stability studies is granted. Firm has submitted copy of Form 3, form 7 & invoice (invoice# HJG/EXP/0124) dated: 07-09-

		2021 specifying import 100g Folic acid (Batch# 022004010) however not attested by DRAP. Copy of DHL provided.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	UV method used
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.6.5	Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin for Iron Polymaltose Complex.	Firm submitted copy of request to federal inspector of Drugs, Peshawar for issuance of GMP certificate.
2.	3.2.S.4.1	Drug substance manufacturer and Drug product manufacturer did not mentioned Which specifications followed for Iron Polymaltose Complex. Please clarify.	It is clarified that Iron Polymaltose Complex is not present in any Pharmacopeia and manufacturer has developed an in-house method. Drug Product manufacturer also followed the Drug Substance manufacturer's method for testing
3.	3.2.S.4.2	Analytical procedures used for routine testing of the both Drug substance /Active Pharmaceutical Ingredient (Iron Polymaltose Complex &Folic Acid) by Drug substance is required	Analytical Procedures used for routine testing of the drug substance / Active Pharmaceutical Ingredient by Drug Substance is attached.
4.	3.2.S.4.3	• In analytical method verification of Iron polymaltose complex Sodium nitrile mentioned . clarification is required. • Submit analytical method verification according to analytical testing method of Iron polymaltose complex • Analytical verification is done by titration while analytical testing method of folic acid is by HPLC. Clarification is required.	• It is clarified that sodium nitrile is a clerical mistake. • Analytical verification according to analytical testing method of Iron Polymaltose Complex. Is attached. • Revised Verification by HPLC is attached.
5.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia shall be provided	Preservative effectiveness studies performed as per recommendations of pharmacopoeia) is provided.

6.	3.2.P.5.1	Specifications claimed are B.P. provide evidence.	Revised specification with in-house specs is attached.
7.	3.2.P.5.2	• Clarification is required that how drug product analytical testing method developed. • In Drug substance Iron polymaltose complex assay of iron contents and polymaltose contents are separately conducted. While in your analytical testing method assay of Iron polymaltose is conducted. Justify how quantity of elemental Iron is equivalent to 50mg deducted.	• The Product is not available in any Pharmacopeia we have test the product with in-house testing method. The standard & sample solutions scan on UV Spectrophotometer pick absorbance on maximum nm. After scanning this solution we have scan sample solution placebo for the conformation of method absorbance and wavelength. • In Drug substance iron Polymaltose complex assay of iron contents and Polymaltose contents are separately conducted but in syrup have many other excipients which disturbed in testing so that we use factor calculation for the equivalence of Iron Polymaltose complex to iron. 1mg of Iron is equivalent to 1.1243mg of Iron Polymaltose complex
8.	3.2.P.8	• Purchase documents for iron hydroxide polymaltose • Commercial invoice with approval from DRAP.	• Iron Polymaltose Complex was purchased locally. • Copy of DHL is provided.

Decision: The Board deferred the case for scientific justification of performance of assay testing by using UV-spectrophotometer instead of using potentiometric titration or atomic absorption spectrophotometer.

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
5.	2.3.R.1.1	Manufacturing method mentioned in BMR's is not same as mentioned in section 3.2.P.2.3 and 3.2.P.3.5. Clarification is required.	Short method was mentioned in BMR. Now Revise BMR (s) are submitted as with detailed method as mentioned in 3.2.P.2.3 and 3.2.P.3.5.
6.	2.3.R.1.2	Manufacturing method mentioned in BMR's is not same as mentioned in section 3.2.P.2.3 and 3.2.P.3.5. Clarification is required	Short method was mentioned in BMR. Now Revise BMR (s) are submitted as with detailed method as mentioned in 3.2.P.2.3 and 3.2.P.3.5
7.	3.2.S.4.3	Testing method of desloratadine is by HPLC while verification is done by U.V method. Clarification is required.	Revised verification by HPLC method is submitted
8.	3.2.S.7	Accelerated stability studies of drug substance not submitted.	Accelerated stability studies of drug substance submitted.
9.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia shall be provided	Preservative effectiveness studies performed as per recommendations of pharmacopoeia are provided
10.	3.2.P.5.1	Specifications claimed for drug product are B.P. provide evidence.	Revised Specification are attached (Inhouse)
11.	3.2.P.5.2	Justification is required for performing assay testing by UV method	The Product is not available in any pharmacopeia so we have test from inhouse testing method. The validation of testing method is attached in dossier
12.	3.2.P.8	Commercial invoice with approval from DRAP.	Copy of DHL provided.

Decision: Registration Board deferred the case for Justification of assay of drug product conducted by UV method while drug substance assay is conducted by HPLC as per BP monograph.

M/s Hudson Pharma Private Limited, Karachi (**New Section)**

CLB in its 283rd meeting held on 28th October 2021 has considered and approved the grant Two (02) Additional section/Revised Section to M/s Hudson Pharma Karachi.

Sr.No	Name of Section
1.	Injection Ampoule BF (Steroid)
2.	Capsule (General) Section

Accordingly, firm has applied for following products for consideration by Drug Registration Board.

Injection Ampoule BF (Steroid)
02 Molecules/02 Products

350.	Name, address of Applicant / Marketing Authorization Holder	M/s Hudson Pharma Private Limited D-93, North Western Industrial Zone, Port Qasim, Karachi, Sindh 75350, Pakistan.
	Name, address of Manufacturing site.	M/s Hudson Pharma Private Limited D-93, North Western Industrial Zone, Port Qasim, Karachi, Sindh 75350, Pakistan.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

Date of Initiation	03-01-2022	03-01-2022	03-01-2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No.IT-API/167/H/2020 issued by Italian Medicine Agency valid till 12/06/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 invoice (invoice# 380) Dated 19-11-2021 cleared by DRAP Karachi office dated 10-12-2021 specifying import 0.2g Beclomethasone dipropionate (Batch# 2106DM4).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail reports on product testing
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.7	Aerosol for Nebulization mentioned in this section. Clarification is required about applied formulation	Our applied formulation is in suspension form which is used as nebulisation for aerosol. So, our formulation route of administration is Suspension for nebulisation for aerosol, and the same has been mentioned on the innovator (Clenil) pack.
2.	3.2.P.5.3	Analytical Method Verification studies including specificity, accuracy and repeatability	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision)

		(method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	performed by the Drug Product manufacturer drug substance(s) submitted.
3.	3.2.S.5	COA of primary / secondary reference standard Testosteron Propionate including source and lot number shall be provided.	With reference to this query we would like to inform you that at the time of initial testing of Beclomethasone Dipropionate, the internal standard testosterone propionate was not available to us due to import constraints of the USP primary reference standard. Hence, we have used the same method as per USP without internal standard and complete validation has been performed to validate our results and also compare it with manufacturer results as well. Furthermore, we have ordered for working standard of Testosterone propionate from Merck, Same will be used for the release testing in future consignment. The complete method of validation is already submitted.
4.	3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.	CoA's attached
5.	3.2.P.8	• Sterility testing and Uniformity of dose units not included in initial testing. • Manufacturing date on summary sheets of stability studies for batch SB-BD-NU-05 & SB-BD-NU-06 is 12-2021 while in BMR manufactured on 03-01-2022. • Details of Water loss test for 6 months not submitted.	• We have performed the Sterility testing and Uniformity of dose on all stability batches and results are within range. CoA' are attached. • There is a Typo-graphical error in the stability sheets of both batches but the actual manufacturing date was 03-01-2022 as per BMR's. • Details of Water loss test for 6 months submitted.

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Beclomethasone dipropionate : Firm has submitted copy of invoice (invoice# 380) Dated 19-11-2021 cleared by DRAP Karachi office dated 10-12-2021 specifying import 0.2g Beclomethasone dipropionate (Batch# 2106DM4). Salbutamol sulphate: Firm has submitted copy of invoice (invoice# 112) Dated 27-03-2020 cleared by DRAP Karachi office dated 23-04-2022 specifying import 5kg Salbutamol Sulphate (Batch# SALM119).		

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.2	Specify the equivalent strength of the base for Salbutamol sulfate	Each 2ml of suspension contains: Beclometasone dipropionate 0.8mg Salbutamol sulphate 1.928mg equivalent to salbutamol 1.6mg
2.	1.5.7	Aerosol for Nebulization mentioned in this section. Clarification is required about applied formulation	Our applied formulation is in suspension form which is used as nebulisation for aerosol. So, our formulation route of administration is Suspension for nebulisation for aerosol, and the same has been mentioned on the innovator (Clenil Compositum) pack.
3.	2.3.R.1.1	Source of Salbutamol Sulfate in BMR's is from Cipla. Clarification is required.	A typographical error in the BMR and we have used the salbutamol sulfate manufactured by Lusochimica and it can be verified from the CoA of FPP manufacturer for the same lot number.
4.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer of both drug substances (Beclomethasone dipropionate &Salbutamol sulphate shall be submitted..	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer of both drug substances (Beclometasone dipropionate & Salbutamol sulphate) shall be submitted.
5.	3.2.S.5	COA of primary / secondary reference standard Testosteron Propionate including source and lot number shall be provided.	With reference to this query we would like to inform you that at the time of initial testing of Beclomethasone Dipropionate, the internal standard testosterone propionate was not available to us due to import constraints of the USP primary reference standard. Hence, we have used the same method as per USP without internal standard and complete validation has been performed to validate our results and also compare it with manufacturer results as well.

			Furthermore, we have ordered for working standard of Testosterone propionate from Merck, Same will be used for the release testing in future consignment. The complete method of validation is already submitted.
6.	3.2.P.8	• Sterility testing and Uniformity of dose units not included in initial testing. • Details of Water loss test for 6 months not submitted.	• We have performed the Sterility testing and Uniformity of dose on all stability batches and the results are within range. • Details of Water loss test for 6 months submitted.

Decision: Registration Board deferred the case for further deliberation regarding manufacturing requirement of products containing steroidal and non-steroidal drug substance in one formulation.

Variant Pharmaceuticals (Pvt.) Ltd (New Section)

CLB in its 282nd meeting held on 31st September 2021 has considered and approved the grant One (01) Additional section to Variant Pharmaceuticals (Pvt.) Ltd

Sr.No	Name of Section
1.	Liquid Injectable -Ampoule & Vial (General)

Accordingly, firm has applied for following products for consideration by Drug Registration Board.

Liquid Injectable -Ampoule & Vial (General)
01 Molecules/02 Products

352.	Name, address of Applicant / Marketing Authorization Holder	Variant Pharmaceuticals (Pvt.) Ltd
	Name, address of Manufacturing site.	Variant Pharmaceuticals (Pvt.) Ltd Plot # 5, M-2, Pharmazone, 26 Km Main Sharaqpur Road District Sheikhupura.Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 17403 dated 14/06/2022
	Details of fee submitted	PKR 30,000/-: Deposit Slip # 561999878
	The proposed proprietary name / brand name	VARISOL 5ML STERILE WATER FOR INJECTION
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ampoule contains sterile water for injection ….5ml
	Pharmaceutical form of applied drug	Intravenous injection
	Pharmacotherapeutic Group of (API)	Diluent

	Reference to Finished product specifications	USP specifications
	Proposed Pack size	5ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Sterile Water for injection 5ml by MEDEFIL INC., USFDA Approved.
	For generic drugs (me-too status)	Sterile water for injection 5ml by M/s Getz pharma (Pvt.) Ltd. (Pvt.) Ltd., Reg. No. 053043
	GMP status of the Finished product manufacturer	New license granted on 13/02/2020 General Tablet, General Capsule, General Sachet and General dry powder injectable (pre-lyophilized), General ampoule and vial section

Date of Initiation	16-09-2021	16-09-2021	16-09-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. NEW-WHO-GMP/ CERT/KD/91716/2020/11/31377 issued by WHO valid till 19/03/2023.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice (invoice# MBR2021/GEB00070) Dated 28-8-2020 cleared by DRAP Lahore office dated 23-10-2020 specifying import 25gm Glycopyrronium bromide (Batch# GLY/20001).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.1	Clarify which specification were followed for drug substance testing by drug product manufacturer.	We are following Ph. Eur. Specifications for testing of drug substance. In case, of Assay drug product manufacturer adopted HPLC method of related substance because: 1. In titration method Acetic anhydride is used which is banned in Pakistan. 2. Also, HPLC method is more specific than titration method to assure the specificity and DRAP also prefer the HPLC method over titration.
2.	3.2.P.1	Justification of overages in the formulation(s) shall be submitted.	As, drug substance is in micrograms (63mcg), so 10% overage is taken to ensure content delivery dose of product. The same also mandated by assay limit (80% - 120%) of Product Monograph.
3.	3.2.P.8	• As per submitted record Batch No # RD-21116 was manufactured in 29-6-2021 while and samples were placed in stability chamber on 09-2021 Clarification is required. • Furthermore, Please justify where batch was stored before placement in stability chamber.	• Batch No # RD-21116 was manufactured in 29-6-2021, while samples were placed in stability chamber on 09-2021, because it was the initial trial batch which was used for development of testing method. During this period, this batch was stored in quarantine under control storage condition. • Moreover, other two Batches RD-21172 & RD-21173 were manufactured in Aug-2021 and placed in stability chamber on 09-2021 and each batch having batch size of 24,000 capsules. Both batches comply with the stability

			studies requirements of CTD guidelines which stated that: "3.2.P.8 Stability: b). At least 2 batches having the following minimum batch size considering the scientific reliability • OSDs: 5000 Units • Oral Liquid/Suspension: 2000 • Injectable: 2000 • Aerosol and any other specialized preparations: 500".

Decision: Approved with innovator's specification.

- **Firm shall submit master formulation without overage before issuance of registration letter along with fee of Rs. 30,000/- for change/correction in composition as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Glycopyrronium bromide is present in BP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Whereas, Indacaterol maleate complies Manufacturer's specifications. So, firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance as per inhouse specifications.

	Stability studies	Stability study conditions: **1. Glycopyrronium bromide:** Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (GLY/20003M1, GLY/20004M1, GLY/20005M1) **2. Indacaterol maleate:** Real time: 30°C ± 2°C / 65% ± 5%RH for 12 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (ICM/19004, ICM/19005, ICM/19006)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Ultibro Breezhaler 85 micrograms/43 micrograms inhalation powder hard capsules by Novartis Pharma Stein AG by performing tests (DUSA (Delivered dose uniformity by dosage sampling apparatus), ACI (Aerodynamic particle size distribution by Andersen cascade impactor (USP Apparatus 3)). CDP is not applicable in case of Dry powder inhalers.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.
	Description of the delivery devices(Inhaler intended to be marketed along applied formulation	Complete description and specifications of Delivery device describe orange and white body with transparent cavity inhaler device properly sealed packed polythene and suitable to open shell size 3 with smooth opening and closing of device.

STABILITY STUDY DATA	
Manufacturer of API	M/s MELODY HEALTHCARE PVT. LTD. Plot No. J-73, MIDC, Tarapur, Boisar Dist. Palghar – 401 506, Maharashtra, India.
API Lot No.	Glycopyrronium bromide: GLY/20001 Indacaterol maleate: ICM/20005
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (3 x 10's)
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months

	Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	RD-21115	RD-21170	RD-21171
Batch Size	24,000 capsules	24,000 capsules	24,000 capsules
Manufacturing Date	11-6-2021	25-8-2021	25-8-2021
Date of Initiation	16-09-2021	16-09-2021	16-09-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. NEW-WHO-GMP/ CERT/KD/91716/2020/11/31377 issued by WHO valid till 19/03/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Glycopyrronium bromide:** Firm has submitted copy of invoice (invoice# MBR2021/GEB00070) Dated 28-8-2020 cleared by DRAP Lahore office dated 23-10-2020 specifying import 25gm Glycopyrronium bromide (Batch# GLY/20001). **Indacaterol maleate:** Firm has submitted copy of invoice (invoice# MBR2021/GEB00070) Dated 28-8-2020 cleared by DRAP Lahore office dated 23-10-2020 specifying import 25gm Indacaterol maleate (Batch# ICM/20005).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.1	Clarify which specification were followed for drug substance (Glycopyrronium bromide**)** testing by drug product manufacturer.	We are following Ph. Eur. Specifications for testing of drug substance. In case, of Assay drug product manufacturer adopted HPLC method of related substance because: 3. In titration method Acetic anhydride is used which is banned in Pakistan.

			4. Also, HPLC method is more specific than titration method to assure the specificity and DRAP also prefer the HPLC method over titration.
2.	3.2.P.1	Justification of overages in the formulation(s) shall be submitted.	As, drug substance is in micrograms (63mcg), so 10% overage is taken to ensure content delivery dose of product. The same also mandated by assay limit (80% - 120%) of Product Monograph.
3.	3.2.P.8	• As per submitted record Batch No # RD-21115 was manufactured in 11-06-2021 while and samples were placed in stability chamber on 16-09-2021 Clarification is required. • Furthermore, Please justify where batch was stored before placement in stability chamber.	• Batch No # RD-21115 was manufactured in 11-6-2021, while samples were placed in stability chamber on 09-2021, because it was the initial trial batch which was used for development of testing method. During this period, this batch was stored in quarantine under control storage condition. • Moreover, other two Batches RD-21170 & RD-21171 were manufactured in Aug-2021 and placed in stability chamber on 09-2021 and each batch having batch size of 24,000 capsules. Both batches comply with the stability studies requirements of CTD guidelines which stated that: "3.2.P.8 Stability: b). At least 2 batches having the following minimum batch size considering the scientific reliability • **<u>OSDs: 5000 Units</u>** • Oral Liquid/Suspension: 2000 • Injectable: 2000 • Aerosol and any other specialized preparations: 500".

Decision: Approved with innovator's specification.

- **Firm shall submit master formulation without overage before issuance of registration letter along with fee of Rs. 30,000/- for change/correction in composition as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case no. 03 Registration applications for local manufacturing of (veterinary) drugs

a. Deferred Cases

356.	Name and address of manufacturer / Applicant	M/s Farm Aid Group. Plot # 3/2, Phase I & II, Hattar Industrial Estate, Haripur
	Brand Name +Dosage Form + Strength	CB DOX Powder
	Composition	Each 1000gm contains: Doxycycline HCL…200gm Tylosin Tartrate…100gm Colistin Sulphate…480MIU Bromhexine HCL…5gm
	Diary No. Date of R& I & fee	Dy.No. 44454 dated 31-12-2018 Rs.20,000/- Dated 27-12-2018
	Pharmacological Group	Antibiotic
	Type of Form	Form-5
	Finished product Specification	Manufacturer specification
	Pack size & Demanded Price	10gm, 20gm, 30gm, 50gm, 100gm, 250gm, 500g, 1kg, 5kg, 10kg,: Decontrolled
	Me-too status	Emeria Shell Powder Of M/S Inshal Pharmaceutical
	GMP status	Last GMP inspection conducted on 03-10-2018 report concludes that firm was considered to be maintaining satisfactory level of the cGMP
	Remarks of the Evaluator[IV]	
	Previous decision (M-295)	Deferred for conversion of Colistin Sulphate MIU to grams
	Evaluation by PEC	Firm submitted conversion as follows: Conversion of Colistin Sulphate (MIU to grams) 19000 IU of Colistin Sulphate = 0.001 grams of Colistin Sulphate 1 IU of Colistin Sulphate = 0.001/19000 grams of Colistin Sulphate 1 MIU of Colistin Sulphate = 0.001/19000 x 1,000,000 grams of Colistin Sulphate 480 MIU of Colistin Sulphate = 25.263 grams
	Decision: Registration Board deferred the case for justification of Colistin sulphate conversion in the light of as per the document No. EMEA/MRL/016/95-Final (Summary Report for colistin) issued by Committee for Veterinary Medical Products, Colistin Base has been assigned a potency of 1000ug base activity per mg (30,000 IU/mg) and theoretical potency of Colistin Sulphate is 800ug per mg (24,000IU/mg).	
357.	Name and address of manufacturer / Applicant	M/s Farm Aid Group. Plot # 3/2, Phase I & II, Hattar Industrial Estate, Haripur
	Brand Name +Dosage Form + Strength	U Mox Powder
	Composition	Each gm contains: Amoxicillin Trihydrate…200mg Colistin Sulphate…60,000,000 IU
	Diary No. Date of R& I & fee	Dy.No. 44453 dated 31-12-2018 Rs.20,000/- Dated 27-12-2018
	Pharmacological Group	Antibiotic

	Type of Form	Form-5
	Finished product Specification	Manufacturer specification
	Pack size & Demanded Price	10gm, 20gm, 30gm, 50gm, 100gm, 250gm, 500g, 1kg, 5kg, 10kg,: Decontrolled
	Me-too status	Almoxin-C Water Soluble Powder Of M/S Breeze Pharma
	GMP status	Last GMP inspection conducted on 03-10-2018 report concludes that firm was considered to be maintaining satisfactory level of the cGMP
	Remarks of the Evaluator[iv]	Colistine Sulphate 60,000,000 in applied formulation while in submitted generic reference contain Colistine Sulphate 60,00,000. Clarify.
	Previous decision (M-295)	Deferred for evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
	Evaluation by PEC	Firm said that they applied formulation as follows: Each gm contains: Amoxicillin Trihydrate…200mg Colistin Sulphate…60,00,000 IU And submitted copy of covering letter as proof.(However in form 5 a different strength) Firm submitted conversion as follows: Conversion of Colistin Sulphate (MIU to grams) 19000 IU of Colistin Sulphate = 0.001 grams of Colistin Sulphate 1 IU of Colistin Sulphate = 0.001/19000 grams of Colistin Sulphate 60,00,000 IU of Colistin Sulphate = 0.3158 grams
	Decision: Deferred for following: • **Submission of Complete Dossier with revised form 5 for corrected formulation and fee.** • **For justification of Colistin sulphate conversion in the light of as per the document No. EMEA/MRL/016/95-Final (Summary Report for colistin) issued by Committee for Veterinary Medical Products, Colistin Base has been assigned a potency of 1000ug base activity per mg (30,000 IU/mg) and theoretical potency of Colistin Sulphate is 800ug per mg (24,000IU/mg).**	

Case no. 04 Registration applications of categories to be considered on priority

a. Import applications of priority categories defined by Registration Board in its 257th meeting

S.No	Section	Shortcomings Communicated	Reply
1.	1.6.5	Name and address of API manufacturer not mentioned in this section.	Submitted
2.	3.2.P.8	In Submitted stability studies batches it is not evident that Drug substance Ibuprofen from which source is used.	Firm submitted details that 8 batches stability data submitted out of which in 6 batches source of Ibuprofen was M/s BASF Corporation, Highway 77 South USA- 78343 bishop Texas And in 2 batches source of Ibuprofen was Hubei Granules-Biocause Pharmaceutical Co.Ltd/China 122 Yangwan- Biocause China city Hubei Province

Previous Decision (M-317): Deferred for Evaluation of stability studies in the light of ICH Q1 D guidelines.

Firm Reply: In response to valued decision of Drug Registration Board; we would like submit that the stability of Deep Relief Gel is as per **ICH Q1-D guidelines;** and following clauses are being presented for your kind review:

1- Clause 2.4.1 "Design factors that can be matrixed include batches made by using the same process and equipment, and container sizes and/or fills in the same container closure system."

2- Clause 2.4.2"In a design where time points are matrixed, all selected factor combinations should be tested at the initial and final time points."

3- Clause 2.4.2" data from at least three time points, including initial, should be available for each selected combination through the first 12 months of the study."

4- Clause 2.4.4"a matrixing design is applicable if the supporting data indicate predictable product stability. Matrixing is appropriate when the supporting data exhibit only small variability."

It is humbly stated that the stability of Deep Relief Gel complies all the above clauses and hence it is in accordance to ICH Q1-D Guidelines. The justification letter from the Manufacturer (Mentholatum Company Limited/UK) is attached

_In addition, we are also submitting the Complete Stability studies of three batches of Deep Relief Gel according to Zone-IVA conditions (30±2 ℃ & 65%±5 RH)

Evaluation by PEC: Firm submitted Stability data of 3 batches in which Accelerated stability studies have been conducted at 40^{o}C ±2^{o}C / 75%±5% RH for 06 months.
Real time stability studies conducted at 25 ^{o}C±2^{o}C / 60% ± 5% RH and at 30 ^{o}C±2^{o}C / 65% ± 5% RH for 36months.And stability studies data at 30 ^{o}C±2^{o}C / 65% ± 5% RH includes all the time points **i.e** 0, 3, 6,9,12,18,24 and 36 months.

Batches submitted.

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	Submitted
2.	3.2.P.3.5	process validation reports including the protocols and results for critical process steps mentioned in 2.3.P.3.4 / 3.2.P.3.4 shall be provided.	All critical quality attributes mentioned in 2.3.P.3.4/3.3.P.3.4 are covered in process validation reports except "Gelatin shell weight and Gelatin gross weight of capsule" are not covered in process validation report. However, these are regularly monitored as in process checks at initial and every 30 minutes and results are reported in batch manufacturing record.
3.	3.2.P.5.2	US FDA review document of the Innovator product, specifies the dissolution limit as "NLT Q in 15 minutes" 0.1N HCl/ 0.3% CTAB, whereas submitted specifications declare the dissolution limits as "NLT 75% in 30 minutes" . Justify the variation in time point of dissolution.	Our product is a dosage form of soft gelatin capsule formulation. Gelatin cross-linking is a common problem of gelatin capsule, which is typically triggered by catalytic amounts of aldehydes and /or from exposure to high temperature and humidity. This impact is commonly seen in stability testing and results in lower and/or incomplete dissolution invitro. Enzymes like pepsin and pancreatin act by cleavage of peptide bonds present in cross- linked gelatin and there by resulting in release of content from capsule Dissolution method for drug product (Enzalutamide capsule 40mg) includes both Tier-I media (with out enzymes) and Tier-II media [ith inclusion of enzymes i.e., Pepsin added in 0.3%

<table>
<tr><td></td><td></td><td></td><td>CTAB(cetyl trimethyl ammonium bromide) in 0.1N HCl]. In the instance of drug product failing to meet the acceptance criteria in Tier-I due to gelatin cross-linking , Tier-II method would be adopted.
Since the test product shows the cross linking tendency, we have adopted the dissolution method bot Tier-I and Tier-II in the analytical testing methodology.. The tier-II dissolution testing for cross-linked capsules involves two steps:
1) Pre-treatment
2) After Pre-treatment (main treatment)
In first step pre-treatment the cross-linked capsules were subjected to exposure (pre-soaking) to pepsin enriched media (450ml)for 10 minutes . After pre-treatment remaining pre-warmed plain 0.1N HCl/ 0.3% CTAB (without any pepsin) is added to makeup the final volume to 900ml. therefore the representation of dissolution time point [Q time point in Tier-I media is 30 minutes, which includes 10 minutes of pre-treatment step and remaining 20 minutes of main treatment in final volume.
Hence based on the above dissolution testing discussion and considering the higher disintegration time allowed for soft gelatin capsule, the following dissolution limits are proposed for release and stability shelf life testing of Enzalutamide capsule.

<table><tr><td rowspan="2">Test</td><td colspan="2">Adopted dissolution Limits</td></tr><tr><td>Release</td><td>Shelf life</td></tr><tr><td>Dissolution (%)</td><td>NLT 75% Q in 30 minutes</td><td>NLT 75% Q in 30 minutes</td></tr></table></td></tr>
<tr><td>4.</td><td>3.2.P.8</td><td>From submitted stability data for product it is not evident that dissolution testing conducted either on Tier-1, or Tier-2 or both.</td><td>All batches were tested with Tier-1 method up to 12 months and from 18 months station batches are tested with Tier-2 method. Stability data results with note “ Results pass at Tier-2 stage” are enclosed.</td></tr>
<tr><td colspan="4">Previous Decision: Deferred for following:

Ltd No.589, North Yulong Road, Xinbei District, Changzhou, CH 213127, China (CHN)</td></tr></table></td></tr>
<tr><td></td><td>Module-III Drug Substance:</td><td>General Information
Nirmatrelvir was formally known as PF-07321332.
Polymorphism: Form 1 is the thermodynamically most stable form at relevant temperatures and humidity and is used for development and emergency application supplies.
Chirality: PF-07321332 has 6 asymmetric centers, giving 32 possible stereoisomers.
There are no cis-trans isomers for PF-07321332.
White to pale colored powder.
Manufacture, characterisation and process controls
A total of six synthetic routes have been used to manufacture supplies of PF-07321332. There are two processes used in the manufacture of PF-07321332, Synthetic Route F and Synthetic Route G.
There is no process validation as there is no aseptic processing or sterilization in the manufacture of PF-07321332.
Specification
Provisional Specifications have been provided for synthetic route F and G.
Provisional analytical procedures used to control the manufacture of PF-07321332. The final analytical methods for registration will be validated in accordance with ICH guidelines.</td></tr>
</table>

		Container Closure System PF-07321332 is packaged in two sealed, low density polyethylene (LDPE) anti-static liners.The bagged material is then inserted in a high density polyethylene (HDPE) drum or equivalent secondary container.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	The stability of PF-07321322 synthetic routes C and D are supportive of synthetic routes F and G as all synthetic routes have the same polymorph, similar synthetic chemistry, and same final solvents. **Condition (6months)** 40°C/75% RH 25°C/60% RH **Shelf life** A retest date has been assigned to be 12 months at 15 – 30°C. Emergency supply batches of PF-07321332 drug substance manufactured at the commercial site will be placed on stability at 30°C/75% RH and 40°C/75% RH in support of this storage condition. The stability data sheets of synthetic route F and G are not available.
	Ritonavir	
	Name, address of drug substance manufacturer	The following commercial sites are involved in manufacturing of ritonavir: M/s. Hetero Drugs Limited, Unit-IX, Plot No. 1, Hetero Infrastructure SEZ Ltd., N. Narasapuram (Village), Nakkapalli (Mandal), Visakhapatnam District-531081, Andhra Pradesh, INDIA.
	Module-III Drug Substance:	**General Information** • Polymorphism : Ritonavir exhibits polymorphism. Hetero produces crystalline Form-I. • Isomerism : Ritonavir (Form-I) exhibits isomerism. It contains four chiral centers. • White or almost white powder. **Manufacture, characterisation and process controls** The molecular structure of Ritonavir (Form-I) (B. No. RI0020410) was investigated and confirmed by IR, UV, NMR (Proton & Carbon), Mass spectroscopic techniques. **Specification** • The specification limits followed for drug substance is fixed based on process capability, Ph. Eur. monograph of Ritonavir (Form-I) and ICH recommendations. • The analytical methods used in the analysis of Ritonavir (Form-I) are Related compounds (By HPLC), Assay (By HPLC, on anhydrous basis), Residual solvents (By GC). These methods were qualified for regular analysis. **Container Closure System**

		The API is packed in transparent polythene bags placed in an HDPE drum.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated 40±2°C/75±5% RH 0, 1, 2, 3, 4, 5, 6 Intermediate 30±2°C/65±5% RH 0, 1, 3, 6, 9, 12 Long Term 25±2°C/60±5%RH 0, 1, 2, 3, 4, 5, 6, 9,12, 18, 24, 36, 48, 60 Shelf life/Retest Retest period of 60 months
	Paxlovid finished medicinal product The proposed medicinal product Paxlovid consists of PF-07321332 150 mg film-coated tablets and ritonavir 100 mg film-coated tablets, which are separately manufactured, but co-packaged on the same blister for ease of daily co-administration.	
	Nimatrelvir film-coated tablets	
	Module-III Drug Product: Nimatrelvir film-coated tablets	Description of the product and pharmaceutical development The proposed dosage form for PF-07321332 is an immediate release (IR) film-coated tablet in dosage strength of 150 mg. The dosage form is presented as an oval, pink, film-coated tablet with "PFE" debossed on one tablet face and "3CL" debossed on the opposite tablet face. Manufacture of the product and process controls Manufacturing Site Pfizer Manufacturing Deutschland GmbH Betriebsstätte Freiburg Mooswaldallee 1 79090 Freiburg,Germany Process validation: The manufacturing process for PF-07321332 150 mg film-coated tablets use conventional manufacturing techniques and equipment. The manufacturing & packaging process validation will be completed and provided as part of a forthcoming submission when final process and controls will have been identified and appropriate process understanding has been developed. Stability data Manufacture Site:Pfizer ,Freiburg, PPD Container:Foil blister 3 months data submitted
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Nirmatrelvir: Not applicable for innovator products.
	Analytical method validation/verification of product	Nirmatrelvir: Firm has submitted that analytical method validation studies for drug product has been performed. These analytical procedures were verified and confirmed suitable for their intended use. Non-compendial

		analytical procedures used for batch release and stability studies.
	Ritonavir Film coated Tablets	
	Module-III Drug Product: Ritonavir film-coated tablets	Description of the product and pharmaceutical development White to off white, capsule shaped, film-coated tablets, debossed with 'H' on one side and 'R9' on other side. Manufacture of the product and process controls Manufacturing Site Ritonavir: I. Bulk tablet manufacturing M/s. Hetero Labs Limited, Unit-III, 22-110, Industrial Development Area, Jeedimetla, Hyderabad-500055, Telangana, India II. Ritonavir Premix (Amorphous) manufacturing M/s. Hetero Drugs Limited, Unit-IX, Plot No. 1, Hetero Infrastructure Ltd.- SEZ, Narasapuram Village, Nakkapally Mandal, Visakhapatnam District-531081, Andhra Pradesh, India. Stability data of bulk Tablets is available.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Ritonavir tablets were developed in reference to NORVIR® Manufactured by Abbott Laboratories Ltd., (Manufactured by Abbott laboratories. North Chicago, IL 60064, U.S.A). The dissolution methods developed indicated good comparison with Norvir®.
	Analytical method validation/verification of product	The method validations were performed for Related compounds (By HPLC), Assay (By HPLC), Residual solvents (By GC).
	Paxlovid finished medicinal product The proposed medicinal product Paxlovid consists of PF-07321332 150 mg film-coated tablets and ritonavir 100 mg film-coated tablets, which are separately manufactured, but co-packaged on the same blister for ease of daily co-administration.	
	Container closure system of the co-pack	Paxlovid is packaged in cartons containing 5 daily-dose OPA/Al/PVC foil blister cards of 30 tablets. Each daily blister card contains 4 Nirmatrelvir tablets (Pink) and 2 ritonavir tablets (White). The container closure system for PF-07321332 150 mg film-coated tablets and externally sourced ritonavir 100 mg film-coated tablets consists of a foil/foil blister system made from a composite Oriented PolyAmide/Aluminium Foil/Polyvinylchloride (OPA/Al/PVC) foil blister with aluminium foil lidding where each tablet is placed into an individual blister cavity.

		 **Figure 1. Blister configuration of Paxlovid**
	Stability study data of Co-pack drug product, shelf life and storage conditions	Stability data for Ritonavir 100 mg Tablets in the Pfizer co-packaged foil/foil blister system is currently not available. Stability studies for the co-packaged drug product (containing both Nirmatrelvir and ritonavir tablets) in commercial packaging are currently scheduled to start between March and May 2022. Stability studies will be performed at long term storage conditions of 30 °C/75% RH and 25°C/60% RH and accelerated conditions of 40 °C/75% RH. Stability data for the individual tablets are provided. **Nirmatrelvir film coated tablets Shelf life** Due to the accelerated pharmaceutical development, limited primary stability data is currently available for the PF-07321332 150 mg film-coated tablet. Preliminary stability data for three primary batches of the 150 mg tablets were reported for three months at the long-term storage conditions of 30°C/ 75% RH and 25°C/60% RH and at the accelerated storage conditions of 40°C/ 75% RH. To support the proposed 12-month shelf life, six months of stability data for PF-07321332 tablets from the three primary stability batches will be available in March 2022. **Ritonavir Film coated shelf life** The commercially available Hetero Ritonavir 100 mg tablet in foil/foil blister container closure system has an approved shelf life of 24 months. **Copack Shelf Life** The final shelf life and storage condition for co-package product will be based on the more stringent shelf-life and storage condition Based on the 3 months stability data for 3 batches of Nirmatrelvir 150 mg film-coated tablets from the primary registration stability program and up to 6 months stability data for supportive stability batches, the proposed shelf-life is 12 months when “Stored at room temperature 20°C to 25°C (68°F to 77°F); excursions permitted between 15°C and 30°C (59°F and 86°F)” for product packaged in foil/foil blisters.

Remarks of the evaluator

	Shortcomings Query	Firms response

1.	QOS is not available.	It is not available currently. Due to accelerated development timelines in response to the pandemic, the dossier was submitted to MHRA and subsequently updated as part of a rolling submission process.
2.	Total 6 synthetic routes have been used in manufacture of Nirmatrelvir (A,B,C,D,.E.F.G) but the submitted stability data is of route C and D only. Clarification regarding synthetic route, manufacturing and stability site is required? • Pfizer Ireland Pharmaceuticals, Ringaskiddy Active Pharmaceutical Ingredient Plant Ringaskiddy County Cork, Ireland • Jilin Asymchem Laboratories Co. Ltd, No. 99, Hongda Road, Economic Development Zone, Dunhua, Jilin 133700, China (CHN) • Changzhou SynTheAll Pharmaceutical Co. Ltd No.589, North Yulong Road, Xinbei District, Changzhou, CH 213127, China (CHN).	A total 6 synthetic routes have been used in the manufacturing of Nirmatrelvir. The routes that will provide supplies to emergency supply are route F(Pfizer Ireland Current Source) and route G (China, future assessment).These routes have been used for initial manufacturing of Nirmatrelvir. Five previous routes A,B,C,D and E(China)were used to provide earlier development ,preclinical and clinical supplies. Stability studies at Pfizer Ireland Pharmaceuticals, Ringaskiddy are ongoing. The 3-month interval stability analysis is under progress. The data will be made available by April 2022. Given stability of 6 months of another site Wuxi Apptec China(route C and D) is available. **STA** Pharmaceutical (**WuXi STA**), a subsidiary of **WuXi** AppTec.
3.	3.2.P.3.5. Process validation has not been performed for Nirmatrelvir Tablets?	The manufacturing process for PF-07321332 150 mg film-coated tablets uses conventional manufacturing techniques and equipment. The manufacturing & packaging process validation will be completed and provided as part of a forthcoming submission when final process and controls will have been identified and appropriate process understanding has been developed. Manufacturing site is expected to complete the protocol development by July 2022.
4.	Stability Data of co-pack has not been submitted?	Stability studies for the co-packaged drug product (containing both nirmatrelvir and ritonavir tablets) in commercial packaging are currently scheduled to start between March and May 2022 at all three sites, depending on site packaging schedules. Stability studies will be performed at long term conditions 30°C/75% RH ,25°C/60% RH and accelerated conditions of 30°C/75%. To support 12 months shelf life ,six months stability for nirmatrelvir tablets from the three primary stability batches will be available in March 2022. We commit to monitor stability data according to ICH guidelines and will inform the authorities according to GMP processes in the case of OOS results.
5.	Clarification for Final release site for drug product with respect to COPP as it mentions Germany	Germany site is responsible for manufacturing and final release of drug product. MHRA can mention a site name once only.

	site as manufacturer and at release site Ireland and Italy.	

Decision of M-316: Registration Board deliberated the case in details and opined that as MHRA of UK and US FDA has approved EUA (Emergency Use Authorisation) with certain post-marketing conditions and Registration Board may also consider on same pattern / conditions. However, the Board referred the case to DRAP Authority for priority consideration of registration applications or otherwise considering the current situation of COVID-19 pandemic in Pakistan.

Decision of 136th meeting of the Authority held on 20-05-2022:
The Authority in light of its previous decisions regarding out of queue treatment of drugs/biologicals for COVID-19 treatment decided that registration applications of combo pack of Nirmatrelvir 150mg and Ritonavir 100mg shall be considered out of queue considering the potential of resurgence of COVID-19 in future. The same will also be communicated to M/o NHS,R&C.

Fresh Evaluation

	Shortcomings Query	**Firms response**	**Firms Response Dated 03-08-2022**	**Firms Response Dated 25-08-2022**
1.	QOS is not available.	It is not available currently. Due to accelerated development timelines in response to the pandemic, the dossier was submitted to MHRA and subsequently updated as part of a rolling submission process.	Fresh Evaluation Firm has not submitted QOS.	QOS is not available Due to application of Emergency Use Authorization, QOS document has not been prepared. We will provide the QOS upon conversion to full registration.
2.	Total 6 synthetic routes have been used in manufacture of Nirmatrelvir (A,B,C,D,.E.F.G) but the submitted stability data is of route C and D only. Clarification regarding synthetic route, manufacturing and stability site is required? • Pfizer Ireland Pharmaceuticals, Ringaskiddy Active Pharmaceutical Ingredient Plant Ringaskiddy County Cork, Ireland • Jilin Asymchem Laboratories Co. Ltd, No. 99,	A total 6 synthetic routes have been used in the manufacturing of Nirmatrelvir. The routes that will provide supplies to emergency supply are route F(Pfizer Ireland Current Source) and route G (China, future assessment).These routes have been used for initial manufacturing of Nirmatrelvir. Five previous routes A,B,C,D and E(China)were used to provide earlier development ,preclinical and clinical supplies. Stability studies at Pfizer Ireland Pharmaceuticals, Ringaskiddy are ongoing. The 3-month interval stability analysis is under progress. The data will be made available by April 2022.	Fresh Evaluation Firm has submitted Stability data of Route F Pfizer Ireland Pharmaceuticals, Ringaskiddy and Route G.	*Clarification regarding manufacturing and stability site of Nirmatrelvir* As informed through our initial application dossier (3.2.S.2.1 & Table 3.2.S.2.6-5), three sites will be involved in API manufacturing & supplies: (a) Pfizer Ireland Pharmaceuticals, Ringaskiddy, Ireland, (b) Jilin Asymchem Laboratories Co. China & (c) Changzhou SynTheAll Pharmaceutical Co. Ltd, China. As of now, Jilin Asymchem Laboratories Co. China is supplying

	Hongda Road, Economic Development Zone, Dunhua, Jilin 133700, China (CHN) • Changzhou SynTheAll Pharmaceutical Co. Ltd No.589, North Yulong Road, Xinbei District, Changzhou, CH 213127, China (CHN). Manufacturing site:Pfizer , Freiburg, Germany Packaging Site:Pfizer ,Ascoli, Italy API Site :Jilin, China	*Stability Data of co-packaged drug product* We have submitted 3-month stability data for co-packaged drug product, packaged at Ascoli, Italy site. Please note Ascoli, Italy is one of our qualified packaging sites. Data for Germany as packaging site will be

		To support 12 months shelf life ,six months stability for nirmatrelvir tablets from the three primary stability batches will be available in March 2022. We commit to monitor stability data according to ICH guidelines and will inform the authorities according to GMP processes in the case of OOS results.	Nirmatrelvir Mfg Date: 27 Jan 2022 Packaging date:7-Feb-2022 Stability Start Date:11-March 2022 Ritonavir Mfg Date: 01 Sep 2021 Packaging date:7-Feb-2022 Stability Start Date:11-March 2022 Fresh Evaluation The API manufacturing site as mentioned in co-pack stability data is Jilin, China but as per your previous submission it will be Pfizer Ireland. Clarification is required.	submitted as soon the activity takes place at site.
5.	Clarification for Final release site for drug product with respect to COPP as it mentions Germany site as manufacturer and at release site Ireland and Italy.	Germany site is responsible for manufacturing and final release of drug product. MHRA can mention a site name once only.	The packaging site mentioned in stability data of co-pack is Pfizer, Ascoli, Italy whereas, as per your previous submission Germany site will be responsible for manufacturing and final release of drug product. Clarification is required.	*Clarification for Final release site for drug product with respect to COPP* We submitted in our initial registration application & CPP, that there is one manufacturing & three packaging sites approved for Paxlovid, (a) Pfizer Manufacturing Freiburg, Germany, (b) Pfizer Pharmaceuticals Newbridge, Ireland, & (c) Pfizer Ascoli, Italy.
6.	The storage condition for Co-pack is Store Below 25.			*Storage condition / label of co-pack* The stringent long-term condition of

		30°C/75%RH is being used in stability data to support climatic zones IVa/b for labelling up to 30°C. Since we have applied for EUA and Paxlovid will be supplied as international standard export Pack, hence the label will mention 25°C.

Decision: Approved with Innovator's specifications as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

- **Firm shall submit the fee of Rs. 7,500 for revision of specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Firm will provide Quality Overall summary (QOS) on the basis of which MHRA has accorded Emegency Use Authorization before issuance of Registration letter.**

Case no. 02 Registration applications for local manufacturing of (Human) drugs

a. New cases

362.	Name and address of manufacturer / Applicant	M/s Fedro Pharmaceuticals Laboratories Private Limited. 149-Industrial Estate, Hayatabad, Peshawar
	Brand Name +Dosage Form + Strength	Sitafed Tablets 25mg
	Composition	Each film coated tablet contains: Sitagliptin as phosphate monohydrate…25mg
	Diary No. Date of R& I & fee	Dy.No 11912 dated 06-03-2019 Rs.20,000/- dated 06-03-2019
	Pharmacological Group	Dipeptidyl peptidase 4 (DPP-4) inhibitor

Evaluation by PEC:		
Sr no	**Short Coming**	**Replies**
1	The address of manufacturer on GMP and COPP is different. Clarification is needed.	M/s Sichuan Huiyu changed the address as per requirements from local official administrative office. The CPP was applied before the address changed. However, the Eudra has updated the GMP to the current address, and the GMP certificate number is also updated to 0004 from 0003 version.
2	GMP certificates of M/s Seacross Pharmaceuticals and M/s Sterling Biotech Ltd Jambusar are required.	Did not provided.
3	3.2.P.8 You have provided Accelerated stability data for only 2 months. Remaining months data is not provided.	The product is thermal sensitive. The impurity content and assay were out of specification at 2nd month of accelerated stability study, so the storage condition of the product should be at 2~8℃. The product should be transferred on a controlled temperature during shipping. The shelf life is based on the long-term stability study. 2 months accelerated studies at 25C, 60% has been submitted. Long term stability studies at 5C for 18months has been submitted. Storage temperature is 2 to 8C.
4	3.2.P.5.3 Validation of analytical procedures: For in-house methods, analytical methods validation shall be performed. All the officially recognized compendial methods for assay, dissolution and impurities (as applicable) are required to be verified and verification shall include a demonstration of specificity, repeatability (method precision) and accuracy	The full validation reports, including specificity, repeatability and accuracy, for assay, degradation and related substance will be provided by you tomorrow.
Decision of 312th : Deferred for submission of complete stability study data of finished product as per Zone -IVA.		
Evaluation by PEC: The firm has submitted MHRA COPP and Smpc that states "Store at 2 to 8 'C". They also submitted declaration letter from the manufacturer "Doxorubicin is a thermal sensitive product, required to be stored in a refrigerator. The long-term stability study condition according to ICH Q1 is 2 to 8, which has been provided. It is not necessary to provide 30'C stability data for Doxorubicin, as significant change has occurred at 2nd month at 25 'C condition."		

Decision of 320th meeting: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

	Name of exporting country	UK
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** the firm has submitted CoPP from MHRA for Doxorubicin 2mg/ml Concentrate for Solution for Infusion, Certificate No: PP10165864 dated 03-Apr-2020. The firm has submitted copy of letter from MHRA regarding issuance of export certificates for medicines for humans which will not be available as hard copy with wet ink signature during the period pertaining to COVID-19 *"The export certificate will be processed by the MHRA named signatories and issued as electronic pdf copy. The certificate will refer to this covering letter which should be attached to any submissions."*
	Details of letter of authorization / sole agency agreement	Firm has submitted Copy of Exclusive Distribution Agreement is submitted M/S Seacross Pharmaceutical Co., Ltd Stanmore Business & Innovation Centre, Stanmore Place Howard Road, Stanmore London HA7 1BT, UK authorizes M/s Ahsan Pharma Room no.2 Delhi Muslim Building Aram Bagh Road, Karachi for marketing and selling the Seacross products including the applied product.

	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 7320: 05-03-2021
	Details of fee submitted	PKR 100,000/- : 23-02-2021
	The proposed proprietary name / brand name	**Doxorubicin 2mg/ml Concentrate for Solution for Infusion,**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 25ml vial contains: Doxorubicin hydrochloride…….50mg
	Pharmaceutical form of applied drug	Concentrate for Solution for infusion
	Pharmacotherapeutic Group of (API)	Anthracyclines and related substance (L01DB01)
	Reference to Finished product specifications	B Pharmacopoeia
	Proposed Pack size	25ml x1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	MHRA Approved
	For generic drugs (me-too status)	
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Sterling Biotech Ltd Jambusar State Highway Taluka Padra, District Vadodara India-391 421 Masar Village, Gujarat
	Module-III Drug Substance:	Firm has submitted (EDQM has issued certificate of suitability which is deemed to replace the data.)
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	(EDQM has issued certificate of suitability which is deemed to replace the data.)

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence has been compared with Adriblastina (Greece), Adriamycin (Denmark, Australia).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Type-I glass vial
	Stability study data of drug product, shelf life and storage conditions	2 months accelerated studies at 25C, 60% has been submitted. Long term stability studies at 5C for 18months has been submitted. Storage temperature is 2 to 8C.
Evaluation by PEC:		
Sr. no	**Short Coming**	**Replies**
1	The address of manufacturer on GMP and COPP is different. Clarification is needed.	M/s Sichuan Huiyu changed the address as per requirements from local official administrative office. The CPP was applied before the address changed. However, the Eudra has updated the GMP to the current address, and the GMP certificate number is also updated to 0004 from 0003 version.
2	GMP certificates of M/s Seacross Pharmaceuticals and M/s Sterling Biotech Ltd Jambusar are required.	Did not provided.
3	3.2.P.8 You have provided Accelerated stability data for only 2 months. Remaining months data is not provided.	The product is thermal sensitive. The impurity content and assay were out of specification at 2nd month of accelerated stability study, so the storage condition of the product should be at 2~8℃. The product should be transferred on a controlled temperature during shipping. The shelf life is based on the long-term stability study. 2 months accelerated studies at 25C, 60% has been submitted. Long term stability studies at 5C for 18months has been submitted. Storage temperature is 2 to 8C.
4	3.2.P.5.3 Validation of analytical procedures: For in-house methods, analytical methods validation shall be performed. All the officially recognized compendial methods for assay, dissolution and impurities (as applicable) are required to be verified and verification shall include a	The full validation reports, including specificity, repeatability and accuracy, for assay, degradation and related substance will be provided by you tomorrow.

	demonstration of specificity, repeatability (method precision) and accuracy	
Decision of 312th: Deferred for submission of complete stability study data of finished product as per Zone -IVA.		
Evaluation by PEC: The firm has submitted MHRA COPP and Smpc that states "Store at 2 to 8 'C". They also submitted declaration letter from the manufacturer "Doxorubicin is a thermal sensitive product, required to be stored in a refrigerator. The long-term stability study condition according to ICH Q1 is 2 to 8, which has been provided. It is not necessary to provide 30'C stability data for Doxorubicin, as significant change has occurred at 2nd month at 25 'C condition."		
Decision of 320th meeting: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility.		

Case no. 03 Registration applications for local manufacturing of (veterinary) drugs

a. New Cases

b. Deferred Cases

406.	Name and address of manufacturer/ Applicant	M/s Bio-Oxime Pharmaceuticals Plot.no.31,32 Millat Garment City, Dry Port Road, Faisalabad
	Brand Name + Dosage Form + Strength	Biostin Oral Powder
	Composition	Each 100gm contains: Colistin Sulphate…500,000IU
	Diary No. Date of R & I & fee	Dy. No. 7971; 22.02.2019 PKR. 20,000/-; 22.02.2019
	Pharmacological Group	Antibiotics
	Type of Form	Form 5
	Finished product Specification	The firm has claimed in-house specifications
	Pack size & Demanded Price	Decontrolled
	Me-too status	Could not be confirmed
	GMP status	The firm was inspected on 24.02.2021, wherein the renewal of DML was recommended.
	Remarks of the Evaluator	• Provide proof of approval of me-too product (name and registration number) approved by DRAP.
	Previous decision	The board in its 295th meeting deferred the case for: • Updated status of GMP since submitted inspection report is not within the period of three years. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
	Evaluation by PEC	Reply dated 03.06.2021: • GMP status updated. • The firm submitted me-too reference, which is not matching with the applied product.
	Decision of 312th : Deferred for evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.	
	Evaluation: The firm has submitted me-too as: Polyrox Forte water soluble powder. Each 100gm contains: Colistin Sulphate….500MIU by M/s Vetrox Pharmaceutcals.	
	Decision: Deferred for evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.	

407.	Name and address of manufacturer/ Applicant	M/s Bio-Oxime Pharmaceuticals Plot.no.31,32 Millat Garment City, Dry Port Road, Faisalabad

	Diary No. Date of R & I & fee	Dy. No. 7969; 22.02.2019 PKR. 20,000/-; 22.02.2019
	Pharmacological Group	Antibiotics
	Type of Form	Form 5
	Finished product Specification	The firm has claimed in-house specifications
	Pack size & Demanded Price	500g, 1000g, 5000g; Decontrolled
	Me-too status	E-COL WATER SOLUBLE POWDER. Reg. No. 81733
	GMP status	The firm was inspected on 24.02.2021, wherein the renewal of DML was recommended.
	Remarks of the Evaluator	
	Previous decision	The board in its 295th meeting deferred the case for updated status of GMP since submitted inspection report is not within the period of three years.
	Evaluation by PEC	Reply dated 03.06.2021: • GMP status updated. • In the latest database, the me-too product contains Oxytetracycline HCl…300mg instead of Oxytetracycline…300mg.
	Decision of 312th : Deferred for revision of salt form along with submission of applicable fee.	
	Evaluation: The firm has submitted fee of Rs 7500 slip no 5132746736 and revised formulation with the addition of HCL as: Each gm contains: Neomycin sulphate…150mg Florfenicol…100mg Oxytetracycline HCl…300mg E-COL WATER SOLUBLE POWDER. Reg. No. 81733	
	Decision: Approved with Innovator specifications. Firm shall submit the differential fee of Rs. 22,500/- for correction/pre-approval change in composition (correction/change of salt form of the drug substance), as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.	
408.	Name and address of manufacturer/ Applicant	M/s Bio-Oxime Pharmaceuticals Plot.no.31,32 Millat Garment City, Dry Port Road, Faisalabad
	Brand Name + Dosage Form + Strength	Speclin 100 Oral Liquid
	Composition	Each 150gm contains: Lincomycin HCL…33.3 Spectinomycin HCL…66.7gm
	Diary No. Date of R & I & fee	Dy. No. 7968; 22.02.2019 PKR. 20,000/-; 22.02.2019
	Pharmacological Group	Antibiotics
	Type of Form	Form 5
	Finished product Specification	The firm has claimed in-house specifications
	Pack size & Demanded Price	Decontrolled
	Me-too status	LINCO-S 100 W/S POWDER. Reg. No. 62169
	GMP status	The firm was inspected on 24.02.2021, wherein the renewal of DML was recommended.
	Remarks of the Evaluator	• Submit latest GMP inspection report.

		• You have applied for liquid pack size. Justify. • Revise Lincomycin HCl to Lincomycin as HCl and Spectinomycin HCl to Spectinomycin as HCl. Also, adjust their weight in master formula as per salt factor.
	Previous decision	The board in its 295th meeting deferred the case for: • Updated status of GMP since submitted inspection report is not within the period of three years. • Revision of formulation as per me-too reference • Confirmation of pack size
	Evaluation by PEC	Reply dated 03.06.2021: • GMP status updated. • The firm revised Lincomycin HCl to Lincomycin as HCl and Spectinomycin HCl to Spectinomycin as HCl, but did not adjust their weight in master formula as per salt factor. • The firm claimed 150g, 500g, and 1000g pack size.
	Decision of 312th: Deferred for adjustment of weights of APIs in master formula as per salt factor. Along with submission of applicable fee.	
	Evaluation: The firm has adjusted the weigh in master formulation and deposited fee Rs 7500 slip no 8755481265.	
	Decision: Approved with Innovator specifications. Firm shall submit the differential fee of Rs. 22,500/- for correction/pre-approval change in composition (correction/change of salt form of the drug substance), as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

No. of Batches	03		

Administrative Portion

a.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has submitted that their capsule section is a new facility and was inspected by panel of inspectors on 26-06-2019 and 16-09-2019 for grant of new section.
b.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate dated 31-07-2019 issued by Additional Director (QA&LT) DRAP Islamabad. The certificate is valid till 10-02-2022.
c.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 21-02-2020 specifying purchase of 1kg Duloxetine (as hydrochloride) 17.0% EC pellets.
d.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with raw data sheets, HPLC chromatograms COA and summary data sheets.
e.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
f.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued upon submission of Pharmaceutical Equivalence & CDP studies against the Innovator product i.e., Cymbalta.**

New license granted on 21/09/2021by CLB
Cephalosporin section approved.

2 molecules / 10products

	Dy. No. and date of submission	Dy.No 5513 dated 28/02/2022
	Details of fee submitted	PKR 30,000/-: dated 23/10/2021
	The proposed proprietary name / brand name	Citi-Axone Injection IM
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Sterile powder of Ceftriaxone sodium USP eq. to Ceftriaxone 1g
	Pharmaceutical form of applied drug	Intra-Muscular Injection
	Pharmacotherapeutic Group of (API)	Broad-spectrum cephalosporin antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1×1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Rocephin Injection 1gm by M/s Rouche Laboratories Inc. UK, USFDA Approved.
	For generic drugs (me-too status)	Oxidil Injection 1gm by Sami Pharmaceuticals, Reg. No. 022422
	GMP status of the Finished product manufacturer	New license granted on 21/09/2021 Cephalosporin section approved.
	Name and address of API manufacturer.	M/s Qilu Antibiotics Pharmaceutical Co., Ltd. China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Ceftriaxone Sodium eq. to Ceftriaxone is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, t, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 6 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (TRI-013, TRI-014, TRI-015)

	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Inocef 1gm Injection by Barrett Hodgson Pakistan performing quality tests (Identification, Assay, Constituted Solution, Uniformity of dosage form).
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. SD20170635 issued by CFDA valid till 13/12/2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Letter No. 10676/2021 DRAP dated 15-07-2021 B/L No. YML4S236121840 dated: 01-07-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

Sr. no	Short comings	Response
a.	3.2.S.7 Stability studies are not as per zone IVA	Stability data has been submitted as per Zone IV Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months
b.	Some parts of applications states Intra muscular (IM) injection whereas at some it states Intra venous (IV).	Its typographic error and rectified, correct data have been submitted.
c.	3.2.P.2 why not the pharmaceutical equivalence of the applied drug being	Pharmaceutical Equivalence have been established against the brand leader that is

	compared with the innovator's product	Inocef 250mg Injection by Barrett Hodgson Pakistan performing quality tests (Identification, Assay, Constituted Solution, Uniformity of dosage form).
d.	3.2.P.5 Justification is required for the use of 5% overage in master formulation.	Its typographic error, we didn't avail the overage
e.	Documents for the procurement of API with approval from DRAP (in case of import).	M/S Qilu Antibiotic Pharmaceutical Co. Ltd, China API Lot Number: CC0121060125 Letter No. 10676/2021DRAP Dated: 15-07-2021. B/L No. YML4S236121840 Dated: 01-07-2021 API import documents has been submitted with ADC clearance
f.	Compliance Record of HPLC software 21CFR &audit trail reports on product testing.	Record of HPLC software 21 CFR and audit trail reports has been submitted in detailed.
g.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) has been submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Manufacturing Date		11-2019	11-2019	11-2019
Date of Initiation		26-11-2019	26-11-2019	26-11-2019
No. of Batches		03		
Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their product Canazin Tablets 300mg which was approved in 289th Meeting of Registration Board. 1) Yes HPLC software is 21 CFR Part 11 compliant where all user levels are properly defined 2) Audit trail on the testing reports is available.		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP Certificate for M/s Shangyu Jingxin Pharmaceutical Co., Ltd issued by National Medical Products Administration China & valid up to 29-11-2024 is submitted		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted (invoice# JXHQ1807203) dated 20-07-2018 specifying import LEVOFLOXACIN cleared by DRAP Karachi office dated 15-08-2018.		
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets		

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Observations / Deficiency / Shortcomings	**Firm Response**
3.2.S.4.4 Compare the COA's of API from finish product manufacturer with COA of API supplier and justification is required for non-performance of test, if any.	Firm has provided comparison of COAs Residual solvents and microbial limit tests were not performed by M/s Indus Pharma as this does not exist in USP monograph.
3.2.P.5 Justification is required for the use of overage in master formulation.	**Batch Calculation for Levofloxacin:** In **Levofloxacin infusion**, there is no overage used instead potency adjustment is carried out to adjust the water content of API. As per USP, **Levofloxacin hemihydrate** contains **2.0 to 3.0%** water. This water content is adjusted using below mentioned calculation: Standard quantity of API for batch = ---------- Potency (as is basis) = ---------- Required quantity for batch = (Standard quantity of API x 100)/ Potency (as is basis) Required quantity for batch = ----------
Valid GMP certificate of API manufacturer is required.	Copy of GMP Certificate for M/s Shangyu Jingxin Pharmaceutical Co., Ltd issued by National Medical Products Administration China & valid up to 29-11-2024 is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for revision of specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Registration letter will be issued after review of pharmacopoeia of reference regulatory authorities for availability of the product monograph.**

		Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (170501, 170502 & 170503)
	Module-III (Drug Product):	The firm has submitted detail of manufacturer, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Innovator product that is VESICARE TABLETS 5mg by Astellas Pharma Istanbul by performing quality tests (Identification, Disintegration, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is VESICARE TABLETS 5mg by Astellas Pharma Istanbul, in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method Validation studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s Zhejiang Guobang Pharmaceuticals Co., Ltd. **Address:** No. 6, Weiwu Road, Hangzhou Gulf Shangyu Economic and Technological Development Zone, Zhejiang, PR China.		
API Lot No.	2011000080 (Manufacturer's batch no. 200501)		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (2x5's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 75% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 24 (Months)		
Batch No.	NPD-T-1488-S	NPD-T-1503-S	NPD-T-1504-S
Batch Size	1500 tablets	5000 tablets	5000 tablets
Manufacturing Date	21-05-2021	28-05-2021	28-05-2021
Date of Initiation	04-06-2021	04-06-2021	04-06-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their product Empator Tablets 10mg which was approved in 291st Meeting of Registration Board held on 2nd - 4th September 2019. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of DML Certificate for Zhejiang Guobang Pharmaceuticals Co., Ltd. issued by Zhejiang Food and Drug Administration & valid up to 08-12-2024 is submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice (invoice# GBPH2020-2023) Dated: 02-11-2020 from Zhejiang Guobang Pharmaceuticals Co., Ltd. cleared by DRAP Karachi office dated 03-11-2020.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Shortcomings communicated	Response by firm
3.2.P.8 Stability: You have provided stability data of 3 months only.	Firm has submitted stability Data till 6 months on 22-12-2021.
Adjust the potency of Solifenacin succinate in BMR according to the assay report.	The potency is adjusted as per 100% since the results of assay are higher than 100 i.e., 100.4% due to analytical variation. Batch proceeded accordingly because adjusting the potency for higher than 100% will result in decreasing the amount of API per tablet. The statement is supported by satisfactory QC results of stability batches.

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

428.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Martin Dow Marker Limited,7-Jail Road, Quetta**

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Acidex 60mg Capsule Dexlansoprazole was approved in 312th Registration Board meeting. 1) Compliance Record of HPLC software 21CFR & audit trail reports on product testing were present		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 201907047 issued by CFDA valid till 15/01/2023. Copy of GMP certificate No. JS20180848 issued by CFDA valid till 09/07/2023.		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Losartan Potassium:** ADC Invoice No: HH20201310, 29-June-2020 is submitted wherein the permission to import APIs (Losartan Potassium) for the purpose of test/analysis and stability studies is granted. **Hydrochlorothiazide:** ADC Invoice No: CY119019, 04-Feb-2019 is submitted wherein the permission to import APIs (Hydrochlorothiazide) for the purpose of test/analysis and stability studies is granted.		

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator IV:

Observations / Deficiency / Shortcomings	**Firm Response**
3.2.S.4.4 Compare the COA's of API from finish product manufacturer with COA of API supplier and justification is required for non-performance of test, if any. Furthermore, COA reflects that pharmacopeial method was not adopted in testing drug substance, please justify.	Firm has provided comparison of COAs and justified that the manufacturer has performed all the tests mentioned in Pharmacopeia.
3.2.P.5.3 Control of Drug Substance: Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted	Firm has provided Analytical Method Verification studies including specificity, accuracy and repeatability (method precision).
3.2.P.4.5 Excipients of human & animal origin shall be addressed for the use of "**Magnesium Stearate"** in the applied formulation.	Firm has submitted that there is no human or animal source used for Magnesium Stearate.
Valid GMP certificate of API manufacturer is required.	**Losartan Potassium:** Firm has provided GMP certificate No. 201907047 issued by CFDA valid till 15/01/2023. **Hydrochlorothiazide:** Firm has provided GMP certificate No. JS20180848 issued by CFDA valid till 09/07/2023.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	Angiolo Tablet 50mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Losartan Potassium……50mg
	Pharmaceutical form of applied drug	Peach, round shaped film coated Tablets
	Pharmacotherapeutic Group of (API)	Angiotensin II receptor antagonist (Anti-hypertensive)
	Reference to Finished product specifications	USP
	Proposed Pack size	2×10's (20's)
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	AURO-LOSARTAN Tablet 50mg by M/s Auro Pharma Inc. HEALTH CANADA Approved.
	For generic drugs (me-too status)	Bespar Tablet 50mg by Nabiqasim Industries (Pvt.) Ltd. , Reg. No. 027206
	GMP status of the Finished product manufacturer	Certificate No:015/2021-DRAP (Q)/K issued on 10th September 2021 Tablet (General & Psychotropic), Capsule (General), Oral Liquid Syrup (General), Sterile Liquid Injection/Ampoule, Ointment/Cream, Dry Powder Sachet (General), Dry Powder Suspension (General) section approved.
	Name and address of API manufacturer.	M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Losartan Potassium is present in USP. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 75% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: **Real Time**: C5082-14-136, C5082-14-137, C5082-14-138 **Accelerated Time:** C5455-13-135, C5455-13-136, C5455-13-137
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities,

		specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is **Cozaar Tablets** by **Merck Sharp & Dohme Limited** by performing quality tests (Identification, Assay, Dissolution). CDP has been performed against the same brand that is **Cozaar Tablets** by **Merck Sharp & Dohme Limited** in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Zhejiang Huahai Pharmaceutical Co., Ltd., Chuannan, Duqiao, Linhai, Zhejiang 317016, China

Batch Size	10000 Tablets	10000 Tablets	10000 Tablets
Manufacturing Date	08-2020	08-2020	08-2020
Date of Initiation	10-2020	10-2020	10-2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Acidex 60mg Capsule Dexlansoprazole was approved in 312th Registration Board meeting. Compliance Record of HPLC software 21CFR & audit trail reports on product testing were present

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 201907047 issued by CFDA valid till 15/01/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	ADC Invoice No: HH20201310, 11-June-2020 is submitted wherein the permission to import APIs (Losartan Potassium) for the purpose of test/analysis and stability studies is granted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

Observations / Deficiency / Shortcomings	**Firm Response**
3.2.S.4.4 Compare the COA's of API from finish product manufacturer with COA of API supplier and justification is required for non-performance of test, if any. Furthermore, COA reflects that pharmacopeial method was not adopted in testing drug substance, please justify.	Firm has provided comparison of COAs and justified that the manufacturer has performed all the tests mentioned in Pharmacopeia.
3.2.P.5.3 Control of Drug Substance: Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted	Firm has provided Analytical Method Verification studies including specificity, accuracy and repeatability (method precision).
Valid GMP certificate of API manufacturer is required.	Firm has provided GMP certificate No. 201907047 issued by CFDA valid till 15/01/2023.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Remarks OF Evaluator:

Observations / Deficiency / Shortcomings	**Firm Response**
• 3.2.S.4 Control of Drug Substance: - You have submitted finished product specifications, COA, analytical method etc. instead of providing drug substance information.	We already have submitted Raw Material specification and testing method of Tapentadol Hydrochloride with Certificate of Analysis (CoA) by both, drug substance manufacturer and drug product manufacturer, now as per your requirement we are hereby re submitting the drug substance information
• 3.2.S.7 Stability study data is not as per zone IV A. •	Stability data of Tapentadol Hydrochloride drug substance by Ami Life Sciences, India as per zone IV-A has been provided already we are hereby resubmitting the stability study data as zone IV-A.
• 3.2.S.4 Control of Drug Substance:- A discussion and justification should be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification •	The Drug Substance/API "Tapentadol Hydrochloride" has been analyzed by Drug Product manufacturer according to the proposed specification and testing method submitted in Section 3.2.S.4.
• 3.2.P.5 Control of Drug Product, 3.2.P.8 Stability: - The submitted dissolution condition is different from the innovators'. **Dissolution conditions of innovator as per Biopharmaceutics Review:** Apparatus: Type I (Basket apparatus) Spindle rotation: 75 RPM Medium: 0.1 M HCl Medium volume: 900ml Time: 45 min Acceptance criteria: NLT 80% (Q) of the labelled amount of Tapentadol (as HCl) dissolved in 45 min	According to FDA Dissolution methods database, updated on 07/02/2020 for Tapentadol Hydrochloride Immediate release Tablets, Refer to FDA's Dissolution Guidance, 2018. Also, Tapentadol Hydrochloride belongs to Class I of Biopharmaceutics Classification System, so the Standard Dissolution Testing Condition has been employed for dissolution testing of drug product Tapentadol Hydrochloride and validated through Comparative dissolution profile studies as per "GUIDANCE DOCUMENT FOR SUBMISSION OF APPLICATION ON FORM 5-F (CTD) FOR REGISTRATION OF PHARMACEUTICAL DRUG PRODUCTS FOR HUMAN USE" Drug Regulatory Authority of Pakistan. Dissolution Method

	from FDA website with FDA's Dissolution Guidance "Dissolution Testing and Acceptance Criteria for Immediate-Release Solid Oral Dosage Form Drug Products Containing High Solubility Drug Substances – Guidance for Industry" is being attached for your reference. (Section 3.2.P.5)

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Manufacturer will revise dissolution specifications as per USFDA along with submission of fee 7500/- for revision of specifications.**
- **Manufacturer shall perform dissolution testing as per USFDA on commercial batches.**

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Tapentadol HCl:** Copy of GMP certificate No. 19041306 issued by Food and Drugs Control Administration Gujarat valid till 24/04/2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Attested invoice from ADC attached for Tapentadol HCl Invoice No. EXP/A/064/2018-19
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of

		drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator VI:

Observations / Deficiency / Shortcomings	**Firm Response**
• - The submitted dissolution condition is different from the innovators'. **Dissolution conditions of innovator as per Biopharmaceutics Review:** Apparatus: Type I (Basket apparatus) Spindle rotation: 75 RPM Medium: 0.1 M HCl Medium volume: 900ml Time: 45 min Acceptance criteria: NLT 80% (Q) of the labelled amount of Tapentadol (as HCl) dissolved in 45 min	• Dissolution medium proposed by innovator is 0.1M HCI, while our is 0.1N HCI, both are same and there is no difference. • Dissolution medium volume proposed by innovator is 900ml, while our is also 900ml, both are same & there is no difference. • Dissolution time proposed by innovator is 45 minutes, while our is 15 minutes which is shorter than innovator, it is acceptable in accordance to USP Chapter <711> Dissolution under procedure Apparatus 1 and Apparatus 2; IMMEDIATE-RELEASE DOSAGE FORMS, refer to: Time: Where a single time specification is given, the test may be concluded in a shorter period if the requirement for the minimum amount dissolved is met. Therefore, proposed dissolution time in our specification is justified & acceptable. • Acceptance criteria is NLT 80% (Q) in both scenario and acceptable % drug release is same, no difference. • Apparatus type and rpm is different in both cases, please note that while reviewing "Clinical pharmacology & Biopharmaceutics review" by "Center of drug evaluation and research", Application number 22-304 (submission date 16-09-2008); it was found that manufacturer performed dissolution test at various condition, including our condition 50 rpm with paddle.
• 3.2.S.4 Control of Drug Substance: - You have submitted finished product specifications, COA, analytical method etc. instead of providing drug substance information.	We already have submitted Raw Material specification and testing method of Tapentadol Hydrochloride with Certificate of Analysis (CoA) by both, drug substance manufacturer and drug product manufacturer, now as per your requirement we are hereby re submitting the drug substance information

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

• **Manufacturer will revise dissolution specifications as per USFDA along with submission of fee 7500/- for revision of specifications.** • **Manufacturer shall perform dissolution testing as per USFDA for commercial batches.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications,

		analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	**Rupatadine Fumarate:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 60 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence Studies s against the reference product of "Rupall 1mg/mL Oral Solution".
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their last inspection report for Elixa (Apixaban) 2.5mg & 5mg conducted on 08.10.2019, approved in 293rd meeting of Registration Board. Following are details of few points; • The HPLC software is 21CFR Compliant. • Audit trail reports were available and physically checked by the inspection team. • Firm has adequate monitoring and controls for stability chambers. • Software is installed for continuous monitoring of chambers.		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate (Certificate# 46/VP/AP/2007/B/R) issued by Govt. of Andhrapradesh, INDIA, valid upto 30.12.2022		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice attested by AD I&E DRAP, Lahore has been submitted. **Rupatadine Fumarate:** **Batch No.** / **Quantity Imported** / **Date of approval by DRAP** BRPFA/1911009 / 100gm / 14.10.2019		
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record and analytical record.		
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail reports on product testing.		
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)		

SUBMITTED DATA REGARDING THE DEFICIENCIES		
7.	Valid GMP Certificate of finish product and API manufacturer.	Copy of GMP certificate (Certificate# 46/VP/AP/2007/B/R) issued by Govt. of Andhrapradesh, INDIA, valid upto 30.12.2022
8.	3.2.S.4 you are using in house specifications for some tests whereas the drug substance is present in British Pharmacopoeia. Justification is required for not following the pharmacopoeia and compares the limits and both specifications.	Specification for testing of Rupatadine Fumarate manufactured at Vasudh Pharma is adopted from Ph. Eur monograph. Assay by HPLC method of In-House developed is adopted to estimate the assay of Rupatadine. Analytical method validation report for the assay by HPLC method is performed and verification report is provided. An In-house GC method was developed for estimation of residual solvents in Rupatadine Fumarate. Analytical method validation for the residual solvents by GC method was performed and validation report is provided.
9.	3.2.P.2 Invoice are required for the procurement of innovator's product.	Firm has submitted Unit pack innovator product Rupall Oral Solution
Remarks of Evaluator:		
Decision: Approved with Innovator's specifications. • **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.** • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.** • **Registration letter will be issued upon submission of revised drug substance analytical method, analytical method verification studies & drug substance analysis report as per European Pharmacopoeia Monograph for "Rupatadine Fumarate".**

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their last onsite inspection conducted for product Rofair (Roflumilast) 500mcg Tablets on 25th June, 2019. The said inspection report was discussed in 290th meeting of Registration Board held on 3rd–4th July, 2019 and the case was approved. The inspection report confirms following points: • The firm has Shimadzu 's LC 20A, with software ―Lab solution DB‖ which is 21 CFR part 11 compliant with audit trail and date time stamped and with complete multi-level user authorization • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are GMP compliant.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	L.Dis.No.3686/E(S)/TS/2017 issued to primal enterprises limited province FDA valid till 07-06-2019
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Form 6 license no. 0469 dated 11-02-2019

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

Short coming	**Replies**
• **3.2.P** Which API polymorphic form was used by you in formulation development and how do you know the API polymorphic form was used by the innovator? Submit testing reports if you have performed any specific test • **3.2.P.2.1.2** Discussion of the choice of excipients, their concentration and characteristics that can influence the Drug Product performance shall be provided. • **3.2.P.2** Invoice is required for the procurement of innovator's product.	• Only one polymorphic form has been found. Solubility of Dronedarone HCl is greater in water than in buffers but in all cases it is practically insoluble. Only one polymorphic form was available as described in the TGA document. Attached for your reference. • We have added : hypromellose, starch, crospovidone, poloxamer 407, lactose monohydrate, colloidal silicon dioxide, magnesium stearate polyethylene glycol 6000, titanium dioxide, carnauba wax • We procured Innovator's product from a personal resource.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	For generic drugs (me-too status)	N/A
	GMP status of the Finished product manufacturer	New license granted on 17/12/2020 Tablet section approved.
	Name and address of API manufacturer.	**Name:** M/s EVEREST ORGANIC LIMITED. **Address:** AROOR VILLAGE, SADASIVAPET MANDAL, SANGAREDDY DIST, AROOR(V) SADASIVPET(M), SANGAREDDY(DIST.),502291 **Contact Person:** DR BOLLAM VENKATESWARLU
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Naproxen and Esomeprazole present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity related substances, specifications, analytical

		procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Long term: 30°C ± 2°C / 65% ± 5%RH for 6 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (T-01, T-02, T-03)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Vimovo DR Tablets 500/20mg by Horizon Pharma USA, Inc. performing quality tests (Identification, Dissolution, Assay). CDP has been performed against the same brand that is Vimovo Tablets 500/20mg by Horizon Pharma USA, Inc, Dissolution profiles of both products (Vimovo Tablets 500/20mg and Esonap DR Tablets 500/20mg) were compared at three pH (1.2, 4.5, and 6.8) graphically and statistically.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, Robustness, accuracy, linearity, precision (Repeatability), specificity.

STABILITY STUDY DATA			
Manufacturer of API	**Name:** M/s EVEREST ORGANIC LIMITED. **Address:** AROOR VILLAGE, SADASIVAPET MANDAL, SANGAREDDY DIST, AROOR(V) SADASIVPET(M), SANGAREDDY(DIST),502291 **Contact Person:** DR BOLLAM VENKATESWARLU		
API Lot No.	Naproxen: ANMA000240 Esomeprazole: ESM/E-108/19		
Description of Pack (Container closure system)	Alu-Alu blister with cold aluminum foil (7's, 10's, 14's, 20's, 28's & 30's)		
Stability Storage Condition	Long term: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Long term: 6 months Accelerated: 6 months		
Frequency	Accelerated: Initial,1,2 3,4, 6 (Months) Long term: Initial, 3, 6 (Months)		
Batch No.	T-01	T-02	T-03

Batch Size		1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date		02-2020	02-2020	02-2020
Date of Initiation		15-02-2020	17-02-2020	19-02-2020
No. of Batches		03		
Administrative Portion			
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Mekolade Tablets containing Metolazone 5mg DRAP Registration no. 108059	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 42005/TS/2020 issued by Drugs control Administration (Telangana State) Issue & Valid Upto Dt: 30/07/2020 - 30/07/2021	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Letter to Assistant Director (I&E) (R&I dated; Naproxen: 20/11/2019 and Esomeprazole: 29-01-2019) is submitted wherein the permission to import different APIs including Naproxen and Esomeprazole for the purpose of test/analysis and stability studies is granted.	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.	

Remarks Of Evaluator:

Dissolution was according to USFDA. Details are as under

Dissolution 1 (naproxen at core), Dissolution 2 (naproxen at coating stage),Dissolution 3 (esomeprazole at coating stage)

Decision:

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Description of Pack (Container closure system)		Type II Glass VIAL (1s)		
Stability Storage Condition		Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period		Real time: 6 months Accelerated: 6 months		
Frequency		Accelerated: 0, 1, 2, 3, 4, 5, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.		21H011	21H012	21H013
Batch Size		4120 Vial	4120 Vial	4120 Vial
Manufacturing Date		08-2021	08-2021	08-2021

Date of Initiation		31-08-2021	31-08-2021	04-09-2021
No. of Batches		03		
Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	**PIPRABEN Injection 4.5g Injection (Piperacillin + Tazobactum)Approved in 316th Registration Board meeting.** **Applicant is :** M/s Benson Pharmaceuticals Plot No. 3, Main Road, National Industrial Zone, RCCI, Rawat. **Manufacturer:** **M/s Global Pharmaceuticals (Pvt) Ltd. Plot No. 204-205, Industrial Triangle Kahuta Road Islamabad.**		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No.Drugs (3) Pb.2021/6335) issued by Food and Drugs Administration Punjab dated 01-19-2021. The certificate is valid till 2 years from the date of issue..		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy ADC, duly endorsed by AD (1&E) Dated: 20-05-2021, Diary No: 1643		
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets		
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.		
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.		
Evaluation by PEC:				
Shortcomings communicated			**Response by the firm**	
Valid GMP certificate of finish product and API manufacturer			Valid GMP Certificate till 31-12-2022 Provided.	
3.2.P.2 Invoice are required for the procurement of innovator product			Invoice for procurement of API Provided	
Remarks OF Evaluator:				
Decision: Approved. Registration Board Authorized its Chairman for issuance of registration letter upon capacity assessment of manufacturing and testing facility of M/s Global Pharmaceuticals (Pvt) Ltd. Plot No. 204-205, Industrial Triangle Kahuta Road Islamabad.				
443.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Carer Pharmaceuticals Industries Plot # 27, Main Road Rawat-Islamabad"**		

	Name, address of Manufacturing site.	M/s Global Pharmaceuticals (Pvt) Ltd Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad"
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 10092 dated 31-03-2021
	Dy. No. and date of submission	PKR 50,000/-: dated 08/03/2021 (2077512)
	Details of fee submitted	Salutem Injection IV 2.5gm
	The proposed proprietary name / brand name	P-Becten Injection IV 2.25 gm
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Glass vial contains: Piperacillin Sodium eq. to Piperacillin…….2 gm Tazobactam Sodium eq. to Tazobactam……0.25 gm
	Pharmaceutical form of applied drug	Lyophilized powder for injection/infusion
	Pharmacotherapeutic Group of (API)	Antibacterial
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	Glass vial USP type II partially sealed by rubber stopper and fully sealed by flip off seal. 1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Piperacillin/Tazobactam 4 g/0.5 g powder for solution for infusion MHRA Approved
	For generic drugs (me-too status)	Tazop Injection of Global Pharmaceuticals
	GMP status of the Finished product manufacturer	**Global pharmaceuticals:** Firm has submitted copy of GMP certificate dated 04-01-2022. The certificate was issued based on the inspection dated 03-01-2022. The certificate specifies dry powder injection penicillin section.
	Name and address of API manufacturer.	M/s Nectar Lifesciences Ltd., (Unit No. 1) village saidpura Tehsil Derabassi District Sahibzada Ajit Singh Nagar Punjab India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties,

		solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 36 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the reference product Zosyn Injection 4.5gm by Pfizer Pharmaceuticals, by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form).
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product: EMPAZON 10mg Tablets, EMPAZON 25mg Tablets (Empagliflozin) which was conducted on 1st June, 2021 and was presented in 307th meeting of Registration Board held on 08-10th June , 2021. Registration Board decided to approve registration of EMPAZON 10mg Tablets, EMPAZON 25mg Tablets (Empagliflozin) by M/s. Horizon Healthcare (Pvt) Ltd. Lahore. Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months. Following two observations were reported in the report: i. The HPLC software is 21 CFR compliant. ii.Audit trail on the testing reports of EMPAZON 10mg and 25mg Tablets, Dayzol 30mg and 60mg Capsules is available. iii. Adequate monitoring and control are available for stability chamber. Chamber are controlled and monitored through software having alarm system for alerts as well.		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Solifenacin Succinate:** Firm had provided valid GMP and DML Certificate of M/s Optimus Drugs (Pvt.) Limited. Issued by Drugs Control Administration Government of Telangana, GMP Valid upto 24-05-2022 DML Valid upto: 09-09-2023 **Tamsulosin HCl:** Firm had provided valid GMP and DML Certificate of M/s Symed Labs (Pvt.) Limited. Issued by Drugs Control Administration Government of Telangana, GMP Valid upto 03-03-2022 DML Valid upto: 27-05-2023		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice attested by AD I&E DRAP, Lahore, has been submitted. **Solifenacin Succinate:**		

		Batch No. / **Invoice No.** / **Quantity Imported** / **Date of approval by DRAP** OP-SSC/10/19/003 / 1920OD267/EXP / 07kgs / 13-01-2020 Copy of commercial invoice attested by AD I&E DRAP, Lahore, has been submitted. **Tamsulosin HCl:** **Batch No.** / **Invoice No.** / **Quantity Imported** / **Date of approval by DRAP** 6TSN0010519 / Symed-201921-20 / 0.020kgs / 23-04-2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Audit trail reports have been submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers.

Remarks of Evaluator:

Section#	Observation	Firm's response
3.2.S.4.4	Details of site address of the drug substance manufacturer mentioned on COA of drug substance are different form that mentioned in section 3.2.S.2.1	Firm has corrected site address in section 3.2.S.2.1 according to COA
3.2.P.3.2	Composition of each layer of Solifenacin succinate and Tamsulocin HCl shall be described separately in batch formula.	Firm has submitted batch formula where in composition for Solifenacin immediate release layer and Tamsulocin HCl extended release layer have been mentioned separately.
3.2.P.5.2	Justification shall be submitted for applying 100rpm with USP paddle apparatus , in the test of Dissolution of Tamsulocin HCl in the light of USP general chapter <1092>	Justification shall be submitted for applying 100rpm with USP Paddle apparatus in the test of dissolution of Tamsulosin HCL in the light of USP general chapter<1092> As per The united states

			pharmacopeia, The general Information chapters <1092> The dissolution Procedures: Development and Validation, Under the Sub section 2.3 Agitation of section 2.0 Method Development "If justified, 100 rpm may be used with Apparatus2, especially for Modified-release products". The tamsulosin is Modified release in our product, hence we used the 100 rpm with comparing the Tamsulosin Modified release capsule official Monograph in USP.	
	3.2.P.5.6	Justification shall be submitted for selection of dissolution parameters and limits for the test of Dissolution of both drug substances.	The Dissolution Parameters and Limits of Solifenacin (Immediate Release) was taken from FDA Dissolution method guidelines While the Tamsolusin Parameters and Limits was taken from Tamsulosin Modified release capsule official Monograph in USP. Also the time points Parameters was chosen from concerning the USP <1092> The dissolution Procedures: Development and Validation For testing an Modified-release dosage form, at least three time points are chosen, to guard against dose dumping, to define the in vitro release profile, and to show that essentially complete release (>80%) of the drug is achieved. Additional sampling times may be useful. Selection of the final time points is reflective of the data from the drug release profile that are generated during development. For products containing more than a single active ingredient, determine the drug release for each active ingredient. The Comparative dissolution profile for the both drug substances in Combination product also clarify our parameters and Limits.	
	3.2.P.8.3	• Valid GMP certificate or Drug Manufacturing License shall be submitted of the relevant unit of Symed labs, from which	• Firm has submitted copy of GMP certificate issued by DCA Goverrnment of Telangana, in the name of M/s Symed Labs, Unit VI valid upto 14-09-2022.	

		Tamsulocin HCl has been imported. • Evidence of availability of bi-layer compression machine shall be submitted.	• Firm has submitted copy of commercial invoice dated 18-05-2020 for the procurement of Tablet press machine ZP-31 along with bill of lading.

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.6.5 (B)	Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	DML of API submitted.
2.	3.2.S.4	Differences from the officially recognized compendial standard(s) shall be justified, as claimed specifications are USP but certain testes are not included i.e Enantiomeric Purity, chloride and sulfate, limit of potassium, limit of sodium	All the required test has been performed and revised COA is attached. **Drug substance manufacturer and Drug product manufacturer claimed USP, API specification but both did not performed Enantiomeric Purity. According to USP NMT 0.2% of D-carnitine is mentioned.**

3.	3.2.S.5	COA of primary / secondary reference standard including source and lot number shall be provided.	Certificate of analysis of primary reference standard attached.
4.	3.2.P.2.1.1	As per relevant guidelines & structure of Form 5F, Pharmaceutical equivalence shall be established with the innovator / reference / comparator product at the time of formulation development, while according to your submitted data, Pharmaceutical equivalence have been performed 27-02-2021 which is after commencing stability studies.i.e 20-05-2020 Justification shall be submitted.	Owing to the prevailed condition of covid throughout the world We had performed PE after formulation development due to unavailability of the Innovator pack. So, as per the need of hour or to overcome this challenge we deviated from the flow. However, we confirm that this deviation will not be repeated.
5.	3.2.P.5.3	• As per relevant guidelines & structure of Form 5F Analytical test method verification has to be performed at the time of formulation development, while according to your submitted data, Analytical test method verification have been performed on 16-03-2021 while stability studies started on 20-05-2020. Justification shall be submitted in this regard. • Accuracy is not performed. • Range is not calculated • Justify the analytical method of repeatability and intermediate precision in accordance with performance.	USP Method was adopted for the testing of the finished product. During testing at each point the recovery or accuracy was as per predefined specification. Further system suitability was performed, for which the RSD is in limit, in other words we can say this method is repeatable. However, we confirm that this deviation will not be repeated. • Performed and Revised copy Attached. • Revised copy is attached.
6.	3.2.P.8	Documents for the procurement of API with approval from DRAP	Copy of DRAP attested invoice and import permission letter is attached.

Decision of 313th: Registration board deferred the case for following:
• Performance of Enantiomeric Purity test for Drug substance by drug product manufacturer.
• For confirmation of required manufacturing facility i.e filling of 5ml Vial.

Evaluation by PEC: The firm has submitted COA having Enantiomeric purity by fluorescence detector test.
The firm has submitted a letter from CLB having Liquid injectable Ampoule/Vial general-Revised. section

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

• **Registration letter will be issued upon submission of evidence of performance of Enantiomeric purity test of drug substance by drug product manufacturer as recommended by USP monograph.**

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The board approved Glyzia-XR Tablet 50/500m of M/s AGP limited B-23, SITE, Karachi in 285th meting held in October 2018. As per minutes, HPLC is 21 CFR compliant and have audit trails.	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Cetirizine Hydrochloride:** Copy of GMP certificate No. S-GMP/21092927 issued by Food and Drug Control Administration, India, valid till 09th Oct 2023.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	ADC Attested Karachi invoice no Ex/060 date 1-1-2020	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Data of 3 batches of 4 liter each with raw data sheets, COA, and chromatograms have been submitted.	

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing was submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

Short coming	Replies
a) 2.3.P.8/ 3.2.P.8 Stability. The storage condition "Do not store above 25C " does not meet zone IV a condition. Please Justify.	The Rigix oral solution (Cherry flavour) is also a brand of innovator purchased by AGP few years back. The storage temperature conditions of Rigix oral solution (Cherry Flavour) is "Do not store above 25℃. Therefore, we have conducted the stability studies of Rigix Oral solution (Strawberry Flavour) at 30+- 2℃ / 65+-5% RH (real time for 12 months at initial, 6, 9th and 12month.) of 3 batches. 40+- 2℃ / 75+-5% RH (Accelerated for 6months) of 3 batches. The other brand of innovators "Zyrtec" in USA has also the same storage condition i.e. Between 20 ℃ to 25 ℃. We hereby revise the storage condition as "Store below 30'C." The firm did not submit fee for correction. The me-too product Zyrtec by GSK Pakistan has storage condition "Do not store above 30'C.
b) Approval of valid API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin is required.	Valid copy of GMP certificate of API manufacturer i.e. M/s PRAVEEN LABORATORIES PVT. LTD, India, Block No. 206, Village: Jolwa, Taluka: Palsana Dist.: Surat, Gujarat, INDIA. valid till 19-9-2023. Certificate is issued b Food and Drug Control Administration.

Decision of 316th: Deferred for justification of not performing long term stability studies testing at 3rd month time point.

Evaluation: The firm has submitted:

- We have conducted stability studies of our product on Zone IV-A (30°C ± 2°C / 65 ± 5% RH) and by mistake we have skipped 3rd month stability testing point but we have performed 6th month, 9th month and 12th months stability studies and results shows that the product is stable.
- We have also performed accelerated stability studies for 0, 3 & 6 months, the results are also in compliance with specifications.

	• We assure you that we will continue the stability studies up to the shelf life of 24 months i.e. 18th months, 24months and submit the data at DRAP.	
	Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Observation	**Response**
Submit data of pharmaceutical equivalence in section 3.2.P.2.2.1. to comply the decision of 293rd meeting of Registration Board, which states that "Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product should be submitted and discussed".	Firm has performed comparative analysis of their developed formulation against the comparator product i.e. "Cefiget". Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the comparator product. . The results depicts that the developed formulation is comparable to the comparator product.
Submit the data of verification of analytical method for drug substances in section 3.2.S.4.3 to comply the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as noncompendial drug substance(s) shall be submitted".	Firm has submitted protocols and results of verification of analytical method of drug substance based on recommendations of USP.

Decision of 308th : Deferred for following:

- Submission of details of stability chambers for conducting stability studies.
- **Batch size in units.**
- Pharmaceutical equivalence with innovator's product

Evaluation VI:

Short coming	**Replies**

a) Submission of details of stability chambers.	Details of stability chambers both long term of 400L and accelerated chambers of 500L of Organa international have been submitted.
b) Batch size in units	Batch Size is of 5000 bottles
c) Pharmaceutical equivalence with innovator product	Pharmaceutical equivalence has been done with Cefiget 200mg/5ml of Getz Pharma having batch number 954.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued upon submission of Pharmaceutical equivalence studies against the innovator product i.e, Cefspan suspension.**

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

The firm has submitted stability study data as per checklist of 14 points approved by Registration Board in its 293rd meeting.

1.	Reference of last onsite panel inspection for instant dosage form conducted during last two years.	Firm has referred to onsite inspection report of their products "Venticort Rotacaps 100mcg+6mcg, which were presented in 257th meeting of Registration board. Registration Board decided to approve registration of Venticort Rotacaps 100mcg+6mcg of M/s Macter International Limited F-216, S.I.T.E., Karachi-Pakistan. According to the report generated following points were confirmed a) The HPLC used for analysis of stability batches is Shimadzu 20 ATVP with auto sampler and gradient system and it was 21 CFR compliant. b) The firm has six stability chambers for real time and accelerated stability studies which are equipped with proper alarm system and data loggers
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	The firm has submitted copies of COA of drug substance from drug substance manufacturer and analytical report of their testing of raw material. Glycopyrrolate U.S.P of M/s. Harman Finochem Ltd, Batch No. GCP/004/2017-2018/A and Indacaterol of Inke S.A, Batch No. PP-1 PR3
3.	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer.	Analytical method for testing of API as well as from API manufacturer was submitted
4.	Stability study data of API from API manufacturer.	The firm has submitted 6 months accelerated and 36 months real time stability study data of API as per zone IVA.
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate for Glycopyrrolate (Certificate#6087313) issued by Food and Drug Administration, Aurangabad division, Maharashtra state valid upto 10-04-2020. Copy of GMP certificate for Indacaterol (Certificate# NCF-II/1740/001/CAT) issued by Directorate General Ministry of Health of Govt of Catalonia – spain issued on 21-06-2017

<tr><td colspan="3">• The firm has submitted 06 months Accelerated and 24 months Real Time Stability Data for 03 Batches.
Decision of 290th meeting of Registration Board:
Deferred for confirmation of manufacturing facility for DPIs.
Evaluation by PEC:
Firm has submitted following documents:</td></tr>
</table>

• The Central Licensing Board in its 277th meeting held on 15th -16th October 2020, has considered and approved the regularization of building layout in the name of M/s Macter International on the recommendation of panel of experts for the following sections:

Sr no.	Section
1	Capsule (General)
2	Capsule DPI (General)

Firm has submitted that we have our product DPI Capsule pilot batches were manufactured on 19-2-2018 in available area of DPI, at that time there is no steroidal and non-steroidal separate section policy available. Later CLB in its 277th meeting October 2020 has approved Capsule DPI General Section.

Firm has submitted following documents as per the decision of **290th** meeting of Registration Board regarding Manufacturing Requirements for Rotacaps (Dry Powder Inhaler).

• Evidence of approval of applied formulation in EMA. The label claim of EMA approved product Ultibro Breezhaler 85 micrograms/43 micrograms inhalation powder hard capsules is as follows: Each capsule contains 143 micrograms of indacaterol maleate equivalent to 110 micrograms of indacaterol and 63 micrograms of glycopyrronium bromide equivalent to 50 micrograms of glycopyrronium.

Each delivered dose (the dose that leaves the mouthpiece of the inhaler) contains 110 micrograms of indacaterol maleate equivalent to 85 micrograms of indacaterol and 54 micrograms of glycopyrronium bromide equivalent to 43 micrograms of glycopyrronium.

• Firm has submitted results of aerodynamic particle size distribution by cascade impactors for Indamac DPI, uniformity of delivered dose, results of delivered dose contents of both indacaterol as well as glycopyrronium

Decision: Approved with Innovator's specifications.

- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued upon submission of Pharmaceutical equivalence studies including test of "Aerodynamic particle size distribution test" & "Uniformity of delivered dose test" against the innovator/reference product.**

	Decision: Approved. Registration letter will be issued after submission of GMP inspection report from QA&LT Division, valid within last three years	
513.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Avebion Ampoule
	Composition	Each 3ml Ampoule Contains: Thiamine Hcl…100mg Pyridoxine Hcl…100mg Cyanocobalamin…1000mcg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17379 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0826520)
	Pharmacological Group	B-complex vitamin
	Form	Form-5
	Finished product Specifications	Manufacturer specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Neurobion Injection by M/s Merck (Germany) Merck
	Me-too status	Neurobion Injection by Merck (Reg. No. 001485)
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of Formulation for nine sections:
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Approved with innovator's specifications with shelf life of 12 Months. Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012- B&A/DRAP dated 07-05-2021.Registration letter will be issued after submission of GMP inspection report from QA&LT Division, valid within last three years	
514.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan

	Brand Name +Dosage Form + Strength	Gravisis 50mg/ml Injection
	Composition	Each 1ml Ampoule Contains: Dimenhydrinate …50mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17383 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0826524)
	Pharmacological Group	Antiemetic
	Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Dimenhydrinate Injection of Fresenius Kabi, USFDA Approved.
	Me-too status	Corinate 50mg/ml Inj. of Asian continental (Reg#057863).
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of Formulation for nine sections:
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Approved. Registration letter will be issued after submission of GMP inspection report from QA&LT Division, valid within last three years	
515.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Piromax 20mg/ml Injection
	Composition	Each ml Ampoule Contains: Piroxicam…20mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17389 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0761613)
	Pharmacological Group	Anti-rheumatic
	Form	Form-5
	Finished product Specifications	Manufacturers specification
	Pack size & Demanded Price	5's As per SRO
	Approval status of product in Reference Regulatory Authorities	Approved by ANSM of France
	Me-too status	Salden 20mg Injection of M/s Danas Pharma (Reg.#080373)
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of formulation for nine sections
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn

521.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Adrenaline 0.1% Injection
	Composition	Each Ampoule Contains: Adrenaline…1mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17378 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0761617)
	Pharmacological Group	adrenergic
	Form	Form-5
	Finished product Specifications	Manufacturer specifications
	Pack size & Demanded Price	100's As per SRO
	Approval status of product in Reference Regulatory Authorities	Adrenaline solution for ijection (MHRA)
	Me-too status	Adrenaline injection by Elite (#026237)
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant

		of DML to Avensis Pharmaceuticals by way of formulation for nine sections
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Approved with innovator's specifications. Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012- B&A/DRAP dated 07-05-2021.Registration letter will be issued after submission of GMP inspection report from QA&LT Division, valid within last three years	
522.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Codomax 500/15 mg Tablet
	Composition	Each Tablet Contains: Paracetamol…500mg Codeine phosphate hemihydrate…15mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17385 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0841047)
	Pharmacological Group	Opioid analgesic
	Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	100's As per SRO
	Approval status of product in Reference Regulatory Authorities	Co-codamol 15/500 Tablets of Zentiva Pharma UK Limited
	Me-too status	Lowmol Tablets (Reg. 040426) of Lowit Pharma (Pvt) Ltd
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of formulation for nine sections
	Remarks of Evaluator [VII]	In RRA Codeine phosphate hemihydrate not just codien No master formulation and method of manufacturer
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Deferred for the following; • **Submission of method of manufacturign and master formulation.** • **Submission of correct label claim since the reference product contains Codeine Phosphate Hemihydrate while you have applied for Codiene (base) only.**	
523.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Montysis 4mg Sachet
	Composition	Each Sachet Contains: Montelukast as Montelukast Sodium oral granules …4mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17385 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0841018)

	Pharmacological Group	Leukotriene antagonist
	Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	10's, 14's As per SRO
	Approval status of product in Reference Regulatory Authorities	Singulair Sachet 4mg Granules of Merck, USFDA
	Me-too status	Montiget Sachet of M/s Getz Pharma (Reg.# 044046
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of formulation for nine sections
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Approved. Registration letter will be issued after submission of GMP inspection report from QA&LT Division, valid within last three years	
524.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Estern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Stilmix 10mg Tablet
	Composition	Each Film Coated Tablet Contains: Zolpidem Tartrate…10mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17385 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0813648)
	Pharmacological Group	Sedative
	Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	10's, 14's As per SRO
	Approval status of product in Reference Regulatory Authorities	Stilnoct (5mg, 10mg) film-coated Tablets by M/s Sanofi, MHRA Approved.
	Me-too status	Olida 10mg Tablets of M/s Glitz Pharmaceuticals, Islamabad (Reg.# 081418)
	GMP status	Inspection dated 28-11-2018 for DML, CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of formulation for nine sections
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Deferred for confirmation of requisite manufacturing facility that is Tablet Psychotropic Section.	
525.	Name and address of manufacturer / Applicant	M/s Avensis Pharmaceuticals. F-24/1, Eastern Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Kinza 10mg/ml Ampoule
	Composition	Each 1ml Ampoule Contains:

		Nalbuphine Hcl…10mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 17391 dated 07-03-2019 Rs.20,000/- Dated 07-03-2019 (#0841036)
	Pharmacological Group	Potent analgesic.
	Form	Form-5
	Finished product Specifications	Manufacturer specifications
	Pack size & Demanded Price	5's, 25's As per SRO
	Approval status of product in Reference Regulatory Authorities	NUBAIN – (nalbuphine hydrochloride) injection for intramuscular, subcutaneous, or intravenous (USFDA).
	Me-too status	Sonotic injection of M/s Brookes Pharma (Reg. # 057729)
	GMP status	CLB in its 267th meeting held on 31st Dec, 2018 has considered and approved the grant of DML to Avensis Pharmaceuticals by way of formulation for nine sections
	Remarks of Evaluator [VII]	
	Previous Decision (M296)	Deferred for consideration on its turn
	Decision: Approved with innovator's specifications. Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012- B&A/DRAP dated 07-05-2021. Registration letter will be issued after submission of GMP inspection report from QA&LT Division, valid within last three years	

Case no. 02 Registration applications of drugs for which stability study data is submitted
Registration applications for Form 5F

a) newly granted DML or New section (Human)

Case No. 01: M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2, Phase 3, Industrial estate, hattar, Haripur. M/s M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2, Phase 3, Industrial estate, hattar, Haripur has been granted additional section Tablet section (Psychotropic) section) dated 07-04-2020 by Licensing division DRAP. Now the firm has submitted following applications as per the details mentioned in the table below: Tablet section (Psychotropic): 01 Molecules / 01 Products		
526.	Name, address of Applicant / Marketing Authorization Holder	M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2,Phase 3,Industrial estate,hattar,Haripur.
	Name, address of Manufacturing site.	M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2,Phase 3,Industrial estate, hattar, Haripur.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale

		☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 6512859933 dated 17/09/2021
	Details of fee submitted	PKR 30,000/-: dated 31/08/2021
	The proposed proprietary name / brand name	Zolsyd 10mg tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film Coated tablet contains: Zolpidem tartrate…….10mg
	Pharmaceutical form of applied drug	White, Round shaped, bisect film coated tablet
	Pharmacotherapeutic Group of (API)	Imidazopyridine
	Reference to Finished product specifications	USP
	Proposed Pack size	2×10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ambien 10mg tablet (USFDA Approved).
	For generic drugs (me-too status)	Somnia 10 mg Tablet by M/s Wilshire
	GMP status of the Finished product manufacturer	New Section approved on 09/04/2020 Tablet (Psychotropic)
	Name and address of API manufacturer.	M/s Cambrex Profarmaco Milano S.R.L Via Curiel,34-20067 Paullo-Milano, Italy.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Zolpidem tartrate is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity A & related substance, (N,N-Dimethyl-2-(7-methyl-2-p-tolylimido[1,2-a]pyridine-3-yl)acetamide specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies of API	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 72 months

		Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (010101), (010202), (010303)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Comparator product that is Downox 10mg tablet by Martin Dow by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Downox 10mg tablet by Martin Dow in Acid media (pH 1.2) (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.
	Remarks: The formulation is same as innovator 2.3.P.5.2 In USP the time of dissolution is 15 minutes but firm mentioned time as 45 minutes and at some places 30 minutes Injection volume 10 ul instead of pharmacopeia 100 ul In 3.2.S.4.2 analytical procedure no details of dissolution is there	

STABILITY STUDY DATA			
Manufacturer of API	M/s Cambrex Profarmaco Milano S.R.L Via Curiel,34-20067 Paullo-Milano, Italy.		
API Lot No.	188439		
Description of Pack (Container closure system)	Alu-PVC blister packed in unit carton (2×10's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH

Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	Trial-01	Trial-02	
Batch Size	5000 tab	5000 tab	
Manufacturing Date	03-2021	03-2021	
Date of Initiation	31-03-2021	31-03-2021	

No. of Batches		02
Administrative Portion		
31.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
32.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. II-API/44/H/2019 issued by Italian Medicine Agency.
33.	Documents for the procurement of API with approval from DRAP (in case of import).	• Copy of letter No. F.5-4/2020-CD (M-71)dated 11/11/2020 for the purpose of test/analysis and stability studies is granted. • Invoice No.1000002020 dated 18/12/2020
34.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
35.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
36.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S No	Section #.	Deficiencies	Reply
1.	1.6.5	Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin is needed as the provided one is valid till January 2021	GMP Certificate valid till 30-1-2022 was provided
2.	3.2.P.4.5	Regarding query that Excipients of Human or Animal Origin shall be addressed for the use of "Magnesium stearate" in the applied formulation For excipients of human or animal origin, a certificate shall be provided, confirming that the excipient(s) are free from BSE and TSE. the firm provided the certificate from "Peter geven" that this magnesium stearate is from plant source	COA of magnesium stearate attached. No contamination with TSE/BSE –Rist materials

<table>
<tr><td>3.</td><td>3.2.P.4.5</td><td>The detailed analytical procedure of active pharmaceutical ingredient details of dissolution is provided in 3.2.P.5.2 in the analysis procedure of finished product</td><td>Provided</td></tr>
<tr><td>4.</td><td>3.2.P.5</td><td>In USP the time of dissolution is 15 min but firm mentioned time as 45 minutes and at some places 30 minutes. Justification is needed</td><td>Firm has following USP dissolution test 1 in which dissolution time is 15 minutes. firm as followed same dissolution time as 15 minutes as per USP throughout the stability study till now and same 15 minutes in mentioned as analytical reports. Also 15 minutes mentioned in analytical procedure</td></tr>
<tr><td>5.</td><td>3.2.P.5</td><td>In assay the injection volume prescribed inn USP is 25 ul but firm used 100 ul. justification is needed</td><td>100 µl injection loop is fixed from the manufacturer with our HPLC. By using 100ul injection volume concentration of standard and sample increased 4 time to injection volume mentioned in USP i.e 25 ul and proportionally area also increased of standard and sample which obey beer lambert law, which states that there is linear relation between concentration and absorbance of a solution.
By Using 100 µl, RSD of standard in the assay is less than 2%, which is within the limit
In method verification of linearity, study was conducted on increased concentration (Data submitted)</td></tr>
<tr><td>6.</td><td></td><td>• As per relevant guidelines & structure of Form 5F, Comparative Dissolution profile and comparative assay has to be performed at the time of formulation development, while according to your submitted data, Comparative Dissolution profile studies and comparative assay have been performed after commencing stability studies. Justification shall be submitted.</td><td>As analysis of formulation development was finished before two days of CDP end date, that’s why that date on which formulation development analysis was finished, was considered as initial stability date

7.		Letter of approval for import of narcotic/psychotropic substance for manufacturing of trial batches and conduction of stability studies	Firm provides the Letter # 5-1/2021-CD(M73) of approval for import of narcotic/psychotropic substance (Clonazepam) for manufacturing of trial batches and conduction of stability studies

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued after submission of Pharmaceutical equivalence and Comparative Dissolution Profile against innovator drug product.**

Case No. 01: M/s Shaigan Pharmaceuticals Limited, Post Office Dahgal, 14-Km Adyala Road Rawalpindi.
has been granted additional facility of dry powder section dated 13 january 2022 by Licensing division DRAP. Now the firm has submitted following applications as per the details mentioned in the table below:
01 Molecules / 01 Products

527.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Shaigan Pharmaceuticals Limited, Post Office Dahgal, 14-Km Adyala Road Rawalpindi.**
	Name, address of Manufacturing site.	M/s Shaigan Pharmaceu9 36ticals (Pvt.) Ltd. 14-Km Adyala road, Post office Dahgal, Rawalpindi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	GMP certificate issued on 8/12/2021
	Evidence of approval of manufacturing facility	Firm has submitted copy of section approval letter dated 13-01-2022 which specifies Oral Dry powder suspension (general) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No: 5413 25/02/2022
	Details of fee submitted	PKR 30,000/-: 25/02/2022 (#255776532)

	The proposed proprietary name / brand name	Famot Dry Suspension
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml (after reconstitution) contains: Famotidine……40mg
	Pharmaceutical form of applied drug	Dry suspension
	Pharmacotherapeutic Group of (API)	H_2 Receptors antagonists
	Reference to Finished product specifications	USP specification
	Proposed Pack size	50ml, 60ml, 90ml, 120ml
	Proposed unit price	As per S.R.O
	The status in reference regulatory authorities	"PEPCID" Approved by Merck & CO.,INC,USA
	For generic drugs (me-too status)	APSIN (Reg. No.: 046460) manufactured by Safron Pharmaceuticals (19 km Sheikhupura Road Faisalabad Pakistan.)
	Name and address of API manufacturer.	**Famotidine** Vaasavaa Pharamceuticals Pvt. Ltd Plot NoC-216,MIDC,Chincholi,Solapur-413 255,Maharashtra India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions duration of Stability studies)	**Famotidine:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 60 months.

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence Profile	Pharmaceutical Equivalence Studies Profile has been done against reference product of Zapsin Dry Suspension

Remarks OF Evaluator:
Analysis is according to USP

S.No	Section	Deficiency/Remarks	Reponses
1.		Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Famotidine: Copy of GMP issued in the name of Vaasavaa Pharamceuticals Pvt. Ltd Plot NoC-216,MIDC,Chincholi,Solapur-413 255,Maharashtra India., valid upto 19-07-2022
2.	3.2.P.2.5	The microbial attributes and preservative effectiveness study is required	Submitted
3.	3.2.P.8.3	Submission of Volume of diluent for reconstitution along with justification (weight/ml calculation) with reference to innovator/reference product.	Details of Volume of diluent (45 ml) for reconstitution along with justification with reference to innovator/reference product is submitted
4.	3.2.P.	Submission of Stability data of reconstituted suspension up to proposed shelf life is submitted	Stability data of reconstituted suspension up to proposed shelf life of 30 days is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued after submission of Pharmaceutical equivalence with either innovator or brand leader if innovator is not available in Pakistan.**

Enzon Pharma Labs Pvt Ltd, 5 km off Raiwind Manga Road, Lahore
CLB in its 273 meeting held on 15th January 2020 has considered and approved the grant of DML by way of
Formulation. Now firm has applied for following products.

528.	Name, address of Applicant / Marketing Authorization Holder	Enzon Pharma Labs Pvt Ltd 5 km off Raiwind Manga Road, Lahore
	Name, address of Manufacturing site.	Enzon Pharma Labs Pvt Ltd 5 km off Raiwind Manga Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 396 dated 5/01/2022
	Details of fee submitted	PKR 30,000/-: dated 09/08/2021
	The proposed proprietary name / brand name	Ensol- Metro 0.5% IV Infusion 100 mL
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100 mL contains: Metronidazole…….....0.5% w/v
	Pharmaceutical form of applied drug	Intravenous Injection
	Pharmacotherapeutic Group of (API)	Other IV Solution Additives ATC CODE: J01XD01
	Reference to Finished product specifications	BP
	Proposed Pack size	100 mL LDPE bottle **w/ Eurocap**
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Metronidazole 500 mg / 100 ml Intravenous Infusion Baxter Healthcare Ltd. Caxton Way Thetford Norfolk IP24 3SE, UK

	For generic drugs (me-too status)	Flagyl Injection **Sanofi- aventis Pakistan Limited** Plot 23, Sector 22 Korangi Industrial Area, Karachi
	GMP status of the Finished product manufacturer	New DML Approved. Last inspection conducted on 15 & 16-10-2020 and report concludes that overall evaluation of inspection report rating is Good
	Name and address of API manufacturer.	Hubei Hongyuan Pharmaceutical Technology Co., Ltd., No.428, Yishui North Road, Fengshan Town, Luotian County, Hubei Province, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted relevant information against the Module III, including Process validation protocol, Finished product analytical method validation report & stability studies data of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (031201, 031202 and 031203)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure, its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted Pharmaceutical equivalence study of their product with Flagyl injection". Batch # AH324 of M/S Sanofi Aventis Comparative dissolution studies are not applicable

	Analytical method validation/verification of product	Method verification studies has been submitted including accuracy, precision, specificity and robustness.

Remarks Of Evaluator:

S. No	Sections	Observations/Deficiencies/ Short-comings	Response by the Firm
1.	3.2.P.8	Commercial invoice of Metronidazole was provided by Shaoxing Hantai import and export Co Ltd. not Hubei Hongyuan Pharmaceutical Technology Co., Ltd. Clarification is needed	The commercial invoice of Metronidazole being issued by Shaoxing Hantal Import & Export Co, Ltd because they are the importer and material is procured with approval from DRAP
2.	1.5.9	Reference of previous approval of applications with stability study data of the firm (if any)	Ensol- NS 0.9% (25ml, 100ml, 500ml, 1000ml) Ensol- WFI (5ml, 10ml, 20ml) Ensol- 5% (100ml, 500ml, 1000ml) Ensol- DS (500ml, 1000ml) Ensol- RL (500ml, 1000ml)
3.	3.2. P.2.2.1	Justify why the pharmaceutical equivalence was established against comparator product instead of using innovator / reference product.	The comparison of the developed formulation is against the comparator product because CTD guidelines clearly mentioned that the applicant may compare their product with the innovator / reference / comparator product
4.	3.2.P.2.3	Scientific justification is required regarding the temperature and duration of sterilization in autoclave, sterilization of applied product has been done at 106 °C for 1 hour while the conventional condition is 121°C for 15min.	Relevant Guidelines for terminal sterilization allow the performance of steam sterilization by applying reduce temperature and time other than that of reference condition i.e., ≥ 121°C, ≥ 15 min, while considering the nature of product and container closure system Following two conditions shall be ensured while applying steam sterilization other than that of the reference conditions. Minimum sterilization cycle of F° ≥ 8 minutes. Sterility assurance level (SAL) of 10-6 is achieved. As evident form of the submitted data, the SAL of

			10-6 has been achieved while applying temperature of 106°C for 60 minutes, hence fulfilling the mandatory requirements of guidelines
5.	3.2. P.5.2	Provide detailed analytical procedure of Bacterial Endotoxin Testing test and sterility test of drug product	The detailed analytical procedure of sterility test of drug product is submitted
6.		Analysis is by UV spectrophotometer as per BP requirements	The detailed of Analytical procedure of metronidazole infusion as per BP requirements is submitted

Decision: Approved.

• Manufacturer will place first three production batches on long term stability studies throughout
proposed shelf life and on accelerated studies for six months as per the commitment submitted in
the registration application.

• Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Remarks Of Evaluator:

Me too Pledex 25% dextrose solution by Otsuka Pakistan (1000 ml) was verified by section.

S. No	Sections	Observations/Deficiencies/ Short-comings	Reply
1.	1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form in one of the reference regulatory authority specified by Registration Board.	The product is registered in same composition, salt and dosage form in TGA Australia Glucose 25% 1000 ml by Baxter healthcare Australia
2.	1.5.9	Reference of previous approval of applications with stability study data of the firm (if any)	Ensol-///ns 0.9% (25 ml, 100ml, 500ml, 1000ml) Ensol-RL (500ml,1000ml)
3.	3.2. S.4.3	• Submitted Analytical Method Verification report describe the same procedure for preparation of different sample concentration in performance of accuracy parameter for Glucose anhydrous. • Describe sample preparation procedure for performance of precision parameter for Glucose anhydrous.	Submitted Analytical Method Verification report
4.	3.2. S.4.4	• COA of drug substance Glucose anhydrous from drug substance manufacturer include pyrogen Testing and total bacterial/mold and yeast count test for confirmation of sterility of drug substance but same test has not been included in the COA of drug substance from drug product manufacturer. • Evidence of availability of HPLC equipped with refractometer and column oven to maintained the temperature at 85°C as per the chromatographic condition given in BP.	The updated COA of drug substance from drug product manufacturer is provided along with supporting documents
5.	3.2. S.5	COA of reference standard of anhydrous glucose is submitted,	Firm has submitted that the COA of reference standard of Glucose

		while according to BP glucose hydrous chemical reference standard is used to analyze the quality of glucose anhydrous. Justification is required for using glucose anhydrous reference standard for the assay.	anhydrous is submitted instead of Glucose Monohydrate erroneously by our analyst, hence we are submitting the COA of reference standard of Glucose Monohydrate.
6.	3.2.P.2.3	Scientific justification is required regarding the temperature and duration of sterilization in autoclave, sterilization of applied product has been done at 106 °C for 1 hour while the conventional condition is 121°C for 15min.	Relevant Guidelines for terminal sterilization allow the performance of steam sterilization by applying reduce temperature and time other than that of reference condition i.e., ≥ 121°C, ≥ 15 min, while considering the nature of product and container closure system .Following two conditions shall be ensured while applying steam sterilization other than that of the reference conditions. Minimum sterilization cycle of F° ≥ 8 minutes. Sterility assurance level (SAL) of 10-6, is achieved. As evident form of the submitted data, the SAL of 10-6 has been achieved while applying temperature of 106°C for 60 minutes, hence fulfilling the mandatory requirements of guidelines
7.	3.2. P.5.2	Provide detailed analytical procedure of Bacterial Endotoxin Testing test and sterility test of drug product	Provided
8.		Same stability data has been submitted for 500ml &1000ml.Clarification required in this regard.	Firm submitted the separate stability data for 1000ml volume with the statement that "Same stability data was submitted for 500ml &1000ml erroneously by our analyst, hence we are submitting the actual stability data results for each pack size separately. We regret the Inconvenience caused in this regard."
9.	3.2. P.5.3	• Submitted Analytical Method Verification report describe the same procedure for preparation of different sample concentration in performance of accuracy parameter for glucose anhydrous	Firm has submitted the following reply: • The details of accuracy parameter of drug product is given below. • ACCURACY/ RECOVERY • Prepared the three replicates of ENSOL- 25% INFUSION with the active • drug from 95% to 105% of the label claim by taking 4.75g for 95%, 5.0g for

			• 100% and 5.25g for 105% in each 100ml volumetric flasks. Recover the • spiked amount by analyzing these samples as per analytical procedure. The • figure No.2 will be help full in this regard. • Acceptance Criteria: -The recovery should be 100 ± 2.0% across 95–105% • of target concentrations

Decision: Approved.

• Manufacturer will place first three production batches on long term stability studies throughout
proposed shelf life and on accelerated studies for six months as per the commitment submitted in
the registration application.

• Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	Module III (Drug Substance)	Firm has submitted relevant information against the Module III, including Process validation protocol, Finished product analytical method validation report & stability studies data of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (110504-1, 110505-1 and 110506-1)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure, its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence Bacip Inf 200mg /100 ml by surge pharma batch # AH324

	Analytical method validation/verification of product	Method verification studies has been submitted including accuracy, precision, specificity and robustness.		
STABILITY STUDY DATA				
Manufacturer of API		Zhejiang Guobang Pharmaceutical Co., Ltd. No.06, Weiwu Road, Hangzhou Zhejiang China		
API Lot No.		190707		
Description of Pack (Container closure system)		100mL LDPE bottle w/ Eurocap		
Stability Storage Condition		Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period		Real time: 6 months Accelerated: 6 months		
Frequency		Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.		A	B	C
Batch Size		100 L	100 L	100 L

Date of Initiation		15-07-2020	15-07-2020	15-07-2020
No. of Batches		03		
Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Ensol- NS 0.9% (25ml, 100ml, 500ml, 1000ml) Ensol- WFI (5ml, 10ml, 20ml) Ensol- 5% (100ml, 500ml, 1000ml) Ensol- DS (500ml, 1000ml) Ensol- RL (500ml, 1000ml)		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP Certificate (Certificate No. # ZJ20190170) for Zhejiang Guobang Pharmaceutical Co., Ltd. No.06, Weiwu Road, Hangzhou Zhejiang China issued by China food & Drug Administration valid up to 29-11-2024 is submitted		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy invoice (invoice# 20NVT-183) dated: 16-04-2020 from Shanghai Nuvit bio- tech co ltd china cleared by DRAP Lahore office dated 29-04-2020.		
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted		
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted		

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks Of Evaluator:

 USP-Injection monograph
 BP-Infusion monograph
Firm use same analytical method according to BP
Master formula has ciprofloxacin lactate and lactic acid while BP monograph states that ciprofloxacin infusion is a sterile solution prepared by the interaction of ciprofloxacin and lactic acid.
Excipients change as compare to RRA
Documents for the procurement of API with approval from DRAP (in case of import)

S. No	Sections	Observations/Deficiencies/ Short-comings	Reply
1.	1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form in one of the reference regulatory authority specified by Registration Board.	The link is attached for your kind attention. https://mhraproducts4853.blob.core.windows.net /docs/78150360f4c25d036caca70cb71988061dbd6efd
2.		Master formula has ciprofloxacin lactate and lactic acid while BP monograph states that ciprofloxacin infusion is a sterile solution prepared by the interaction of ciprofloxacin and lactic acid.	Packaging material of the applied formulation is LDPE and is different from the reference product which is PVC bag contained in a polypropylene/polyester aluminium/polyester pouch. No explanations regarding method of manufacturing
3.	1.33	The address of manufacturer on invoice is Shanghai Nuvit bio- tech co ltd china instead of Zhejiang Guobang Pharmaceutical clarification is needed in this regard.	The reason for the commercial invoice of Ciprofloxacin Lactate being issued by shanghai Nuvit biotech co ltd china is provided
4.	(2.3.S.4.3)	Provide summarized tabulated results of verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer	Submitted
5.	***2.3.P.4***	The excipients are different from the reference product in MHRA. Justification n is needed	The reference having same excipients is provided https://mhraproducts4853.blob.core.windows.net /docs/78150360f4c25d036caca70cb71988061dbd6efd

6.	3.2. P.2.2.1	Justify why the pharmaceutical equivalence was established against comparator product instead of using innovator / reference product.	The comparison of the developed formulation is against the comparator product because CTD guidelines clearly mentioned that the applicant may compare their product with the innovator / reference / comparator product. The reference of CTD guidelines is given
7.	3.2.P.2.3	Scientific justification is required regarding the temperature and duration of sterilization in autoclave, sterilization of applied product has been done at 106 °C for 1 hour while the conventional condition is 121°C for 15min.	Relevant Guidelines for terminal sterilization allow the performance of steam sterilization by applying reduce temperature and time other than that of reference condition i.e., ≥ 121°C, ≥ 15 min, while considering the nature of product and container closure system. Following two conditions shall be ensured while applying steam sterilization other than that of the reference conditions. • Minimum sterilization cycle of F° ≥ 8 minutes. • Sterility assurance level (SAL) of 10-6 , is achieved. As evident form of the submitted data, the SAL of 10-6 has been achieved while applying temperature of 106°C for 60 minutes, hence fulfilling the mandatory requirements of guidelines Reference: EMA guidelines on the sterilization of the medicinal product, active substance, excipient and primary container. (EMA/CHMP/CVMP/QWP/850374/2015)
8.	3.2. P.5.2	Provide detailed analytical procedure of Bacterial Endotoxin Testing test and sterility test of drug product	Submitted

Decision: Approved.

• Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

• Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

- **Registration letter will be issued after submission of Pharmaceutical equivalence against innovator drug product.**

Case No.01. Correction in Label Claim/ Strength of Approved Products of M/s Adamjee Pharmaceuticals (Pvt) Ltd., Plot 39, Sector 15, Korangi Industrial Area Karachi (DML No. 000236)

Registration Board in its 308th meeting held on 21st-22nd June, 2021 approved the following products of M/s Adamjee Pharmaceuticals Pvt Ltd. Plot 39, Sector 15, Korangi Industrial Area, Karachi (DML No. 000236) as per below mentioned details:

1.	Name and address of manufacturer / Applicant	Applicant: M/s Adamjee Pharmaceuticals Pvt Ltd. Plot 39, Sector 15, Korangi Industrial Area, Karachi Manufactured By: M/s Safe Pharmaceuticals Pvt Ltd. Plot No. C.I-20, Sector 6-B, Industrial Area, North Karachi
	Brand Name +Dosage Form+ Strength	Adpime Injection **500mg** (IV/IM)
	Diary No. Date of R& I & fee	Dy.No 41935 dated 07-12-2018 Rs.50,000/- Dated 07-12-2018
	Composition	Each vial of dry substance contains: Cefepime as HCL (with L-Arginine)…**1000mg**
	Pharmacological Group	Cephalosporin
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack Size & Demanded Price	As per SRO
	Approval Status of Product in Reference Regulatory Authorities	Cefipime hydrochloride 1gm Injection M/s Hospira, Inc. (USFDA approved)
	Me-too Status	Nuxipim 1gm Injection by M/s Bosch, Reg. No. 44357
	GMP Status	Same as stated above
	Remarks of the Evaluator.	
	Decision of 295th meeting: Deferred for following: a. Submission of details of products which are already being manufactured on contract. b. Capacity assessment report of M/s safe Pharma, Karachi by already constituted panel **Decision: Approved.**	
2.	Name and address of manufacturer / Applicant	Applicant: M/s Adamjee Pharmaceuticals Pvt Ltd. Plot 39, Sector 15, Korangi Industrial Area, Karachi Manufactured By: M/s Safe Pharmaceuticals Pvt Ltd. Plot No. C.I-20, Sector 6-B, Industrial Area, North Karachi
	Brand Name +Dosage Form+ Strength	Adpime Injection **500mg** IM Powder for injection
	Diary No. Date of R& I & fee	Dy.No 41931 dated 07-12-2018 Rs.50,000/- Dated 07-12-2018
	Composition	Each vial of dry substance contains: Ceftriaxone Sodium eq to Ceftriaxone…**250mg**
	Pharmacological Group	Cephalosporin
	Type of Form	Form 5
	Finished Product Specification	USP
	Pack Size & Demanded Price	As per SRO
	Approval Status of Product in Reference Regulatory Authorities	Ceftriaxone powder for injection (250mg, 500mg, 1000mg, 2000mg) by M/s Bowmed limited, MHRA Approved.
	Me-too Status	Trimark 250mg Injection IM by M/s WelMark Reg. No. 69750

	GMP Status	Same as stated above
	Remarks of the Evaluator.	
	Decision of 295th meeting: Deferred for following: a. Submission of details of products which are already being manufactured on contract. b. Capacity assessment report of M/s safe Pharma, Karachi by already constituted panel **Decision: Approved.**	

Registration letter could not be issued due to disparity in strengths mentioned in composition and alongside the brand name.

In this context original dossier could not be retrieved from available record, however, the firm has submitted copies of DRAP's acknowledged receipts & fee challans of 250mg and 500mg strengths of both formulations. Furthermore, approval for registration of Cefepime Injection 1000mg and Ceftriaxone Injection 250mg have also been issued by the Registration Board in its 308th meeting.

Accordingly, the case has been placed for correction in strengths of above-mentioned products which appears to be due to cut-paste/ typographical error.

Proceedings of 320th Meeting:

Registration Board was further apprised regarding correction required in composition/ label claim of product at S.No.1 as the reference/ standard formulation approved by RRA contains "Cefepime (as Hydrochloride Monohydrate) 1000mg"

Decision: Registration Board decided as under:

i. **Approved correction in strength and composition of product at S.No.1 as per following detail:**

   Adpime Injection 500mg
   Each vial contains:
   Cefepime as Hydrochloride Monohydrate (with L-Arginine)……500mg
   (USP Specifications)

ii. **Approved correction in strength/ label claim of product at S.No.2 as per following detail:**

   Adpime Injection 250mg IM
   Each vial contains:
   Ceftriaxone Sodium Eq. to Ceftriaxone……250mg
   (USP Specifications)

iii. **Furthermore, for product at S.No.1, the applicant shall submit fee of Rs. 75,000/- in the light of notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 for pre-registration correction in composition/label claim.**

Case No.02. Correction in Label Claim/ Dosage Form of Approved Products of M/s Swiss Pharmaceuticals (Pvt) Ltd., A-159, S.I.T.E Super Highway Karachi (DML No. 000438).

Registration Board in its 295th meeting held on 08th-11th June, 2020 approved the following products of M/s Swiss Pharmaceuticals Pvt Ltd., A-159, S.I.T.E Super Highway, Karachi (DML No. 000438) as per below mentioned details:

1.	Name and address of manufacturer Applicant	M/s Swiss Pharmaceuticals Pvt Ltd. A-159, S.I.T.E Super Highway, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Letam 100mg/ml **Oral Solution**
	Composition	Each 1 ml **ampoule** contains: Levetiracetam…100 mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 9264 dated 28-02-2019 Rs.20,000/- Dated 28-02-2019 (#0621840)
	Pharmacological Group	Antiepilaptic
	Form	Form-5
	Finished product Specifications	USP

	Pack size & Demanded Price	5 ml (**vial**) As per SRO
	Approval status of product in Referen Regulatory Authorities	KEPPRA (levetiracetam) **injection**, for intravenous use. (USFDA)
	Me-too status	Lerace **Injection** 500mg/5ml/ Reg. No. 66949
	GMP status	M/s: Swiss Pharma Last GMP inspection conducted on 18-10-2018.and report concludes overall current GMP compliance level is rated as good.
	Remarks of Evaluator [VII]	
	Decision: Approved.	

Registration letter could not be issued due to disparity in dosage form mentioned alongside the brand name and as evident from label claim/ demanded pack/ RRA reference and generic product reference.

In this context original dossier could not be retrieved from available record, however, the firm has informed that they applied for complete range of "Levetiracetam" containing dosage forms including:

- 250mg & 500mg Tablets (approved and registered vide M-293),
- 100mg/ml Oral Solution (approved and registered vide M-295) and
- 100mg/ml Injection which was mistakenly quoted under the name of Oral Solution with same diary No. However, deposit slip No., applied pack, RRA and generic status are correctly mentioned in minutes.

As evidence, the firm has also submitted copies of acknowledgement receipts, fee challans of both applications (i.e., Oral solution and Injection) & duplicate dossier of "Letam 100mg/ml Injection" and requested for issuance of registration letter with following details:

Svetri Injection 100mg/ml (Already registered name for Levetiracetam)
Each ml contains:
Levetiracetam……..100 mg
(USP Specifications)

Accordingly, the case has been placed for correction in dosage form of above-mentioned product which appears to be due to cut-paste/ typographical error.

Decision: **Registration Board approved correction in label claim/ dosage form of above-mentioned product as per following detail:**
Letam Injection 100mg/ml
Each ml contains:
Levetiracetam……..100 mg
(USP Specifications)

Case No.03. Correction in Decision of 316th Meeting of Registration Board

Registration Board in its 316th meeting held on 15th-18th March, 2022 approved the following product of The Searle Company Limited F-319, S.I.T.E., Karachi as per below mentioned details. However, below-mentioned product was not included in the decision recorded.

592.	**Name, address of Applicant / Marketing Authorization Holder**	**The Searle Company Limited F-319, S.I.T.E., Karachi, Pakistan.**
	Name, address of Manufacturing site.	The Searle Company Limited F-319, S.I.T.E., Karachi, Pakistan.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 17245 dated 21-06-2021
	Details of fee submitted	Rs.50,000/- dated 29-03-2021
	The proposed proprietary name / brand name	**Emsyn-Met XR 5mg + 1000mg Tablets**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Emsyn-Met XR Tablets Each Film coated tablet contains: Empagliflozin……...5mg Metformin hydrochloride (Extended Release)…….1000mg
	Pharmaceutical form of applied drug	Apple Green colored, Oblong shaped, Biconvex, Film coated Tablets, Plain from both sides
	Pharmacotherapeutic Group of (API)	Antidiabetic
	Reference to Finished product specifications	In-House
	Proposed Pack size	1×14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Approved by US FDA and marketed in USA, with the name of Synjardy XR Tablets
	For generic drugs (me-too status)	Xenglu-Met XR Manufactured by Hilton Pharma (Pvt.) Ltd **Strength:** Empagliflozin 5mg + Metformin 1000mg **Reg. No**.105268
	GMP status of the Finished product manufacturer	New license granted on 13/08/2020 Tablet (General & General Antibiotic) section approved.
	Name and address of API manufacturer.	**Empagliflozin:** Anhui Youcare Kaiyue Pharmaceutical Co., Ltd. Industrial Avenue area A, Economic Development Zone, Taihe County, Anhui Province, China **Metformin HCL** Aarti Drugs Limited Mahendra Industrial Estate Plot No. – 109 –D Road No.29, Sion (East), Mumbai – 400 022. INDIA.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference

		standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: **Empagliflozin** Real time: 30°C ± 2°C / 65% ± 5%RH for 12 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (20151116, 20151208, 20160104) Stability study conditions: **Metformin HCL** Real time: 30°C ± 2°C / 65% ± 5%RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches:(MEF/1510145, MEF/1510146, MEF/1510147)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Synjardy XR Tablet US FDA Approved by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Synjardy XR Tablet US FDA Approved in Acid media (pH 1.2) & Phosphate Buffer (PH 4.5) And (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificty.

Remarks of Evaluator[II]:

Section #	Observations	Firm's response
	Empagliflozin	
3.2. S.4.1	• Analytical procedure and specifications applied by the drug product manufacturer shall be submitted. • The specifications and analytical procedure submitted from the drug substance manufacturer does not contain test for Assay.	• Firm has submitted analytical procedure as per the method applied by the drug substance manufacturer. • Complete analytical method including test of Assay has been submitted from drug substance manufacturer.
3.2. S.4.3	Analytical method verification studies shall be submitted performed by the drug product manufacturer.	Firm has submitted analytical method verification report, performed by M/s Searle.
3.2. S.4.4	Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance /Active Pharmaceutical Ingredient manufacture.	Submitted as per following details. **Drug substance** — **Batch#** Emagliflozin — 20190501001
3.2. S.5	COA of primary / secondary reference standard including source and lot number shall be provided.	Submitted.
	Metformin HCl	
3.2. S.4.1	• Analytical procedure and specifications applied by the drug product manufacturer shall be submitted. • The specifications and analytical procedure submitted from the drug substance manufacturer does not contain test for Assay.	• Firm has submitted analytical procedure as per the method applied by the drug substance manufacturer. • Complete analytical method including test of Assay has been submi

3.2. S.4.3	Analytical method verification studies shall be submitted performed by the drug product manufacturer.	Firm has submitted analytical method verification report, performed by M/s Searle.
3.2. S.4.4	Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance /Active Pharmaceutical Ingredient manufacture.	Submitted as per following details. **Drug substance** — **Batch#** Metformin HCl — MEF/10020674
3.2.S.5	COA of primary / secondary reference standard including source and lot number shall be provided.	Submitted.
3.2.P.1	• Role of each excipient shall be submitted. • Innovator product formulation includes Polyethylene oxide, whereas it is not included in the applied formulation.	With the reference of query, this is to inform you that Polyethylene Oxide is highly sensitive to oxidation leading to chain cleavage of reduction of viscosity during storage. High temperature speeds up the autooxidation of Polyethylene Oxide and can impact its stability. Due to these properties of Polyethylene Oxide and its short shelf life, Hypromellose was taken in EmsynMet XR tablet and dissolution profile has been achieved by a single polymer. Polyethylene Oxide and Hypromellose are both hydrophilic extended-release matrices and use as the rate-controlling polymer. The benchmark of the innovator product, Janumet XR 1000mg tablet also includes only Hypromellose as a rate-controlling polymer.
3.2.P.2	Drug excipient compatibility study shall be submitted since composition of Metformin core tablet is different from that of the innovator product.	The above excipients had been chosen on the basis of core formulation of Metformin HCl XR tablet of innovator product, Janumet XR tablet which shows these excipients are compatible with Metformin HCl.
3.2.P.5.2	Submitted analytical procedure does not include the details for the test of "Content Uniformity" for Empagliflozin.	Drug product analytical method has been submitted including test of content uniformity.
3.2.P.5.3	Specificity parameter has been performed by injecting the placebo, diluent, mobile phase & standard solution. Whereas USP chapter <1225> & ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities or exposing the drug product sample to relevant stress conditions (e.g.,	Firm has submitted data for stress conditions i.e., heat, acid hydrolysis, base hydrolysis and oxidation as per ICH guidelines and USP chapter 1225 to demonstrate that the method is capable to identify and quantify the degraded compounds.

	light, humidity, acid or base hydrolysis, oxidation). Justification shall be submitted for this variation in method. Clarification shall be submitted for this variation.	
3.2. P.6	Working standard of Empagliflozin has been standardized against the reference standard from M/s Beijing Huikang Boyuan, whereas the drug substance has been procured from the M/s Anhui Youcare Kaiyue Pharmaceutical Co., Ltd. Justification shall be submitted in this regard.	We, The Searle Company Limited has been manufacturing the Empagliflozin Tablets 10mg and Empagliflozin Tablets 25mg since 2019. Beijing Huikang Boyuan is one the approved source for Empagliflozin that's why trail of standardization include the reference standard from the source other than Anhui Youcare Kaiyue.
	• Justification of 10% extra amount of Empagliflozin in master formulation (which is required to be based on study/scientific rationale) for which firm has stated that it was taken to compensate the loss during coating. • Quantity of batch after active coating, mentioned in the product development record is not correct. • The submitted product development record does not reflect performance of dissolution for Metformin HCl before proceeding for seal & active coating step. Justification shall be submitted for proceeding further without establishing the Dissolution profile of Metformin HCl. • The submitted product development record does not reflect performance of Uniformity of dosage units test by way of Assay for Empagliflozin before proceeding for final film coating step. Justification shall be submitted for proceeding further without establishing the content of Empagliflozin.	• In normal routine coating process, there is always some loss of coating dispersion as 100% coating material doesn't reach the tablet rather some quantity gets loss during spraying of coating due to continuous coating air blowing and exhaust. This loss is compensated by taking extra coating material and same is the case with Empagliflozin. It is coated over the tablets in the form of coating dispersion. That's why 10% extra quantity of API coating material has been taken. • In correct quantity of batch after active coating is a typographical error. Firm has submitted product development record with correct quantity. • We, The Searle Company Limited has established dissolution profile during trial that's why we perform dissolution testing at final stage. • We, The Searle Company Limited, performed content uniformity test as per routine practice at final stage i.e., after film coating.

Decision: Registration Board approved the applications of "Emsyn-Met XR 12.5mg + 1000mg Tablets", "Emsyn-Met XR 10mg + 1000mg Tablets", "Emsyn-Met XR 25mg + 1000mg Tablets" & "Emsyn-Met XR 25mg + 1000mg Tablets" with Innovator's specifications.

- Firm shall submit fee of Rs. 7,500 for each product for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Manufacturer will place first three commercial batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
- Manufacturer will perform process validation of first three commercial batches as per the commitment submitted in the registration application.

Keeping in view the complete details of the case presented in 316th meeting, registration letter was issued, however, the case has been placed for information and record of Registration Board.

Decision: Registration Board noted the correction in minutes of 316th meeting regarding approval of Emsyn-Met 5mg + 1000mg Tablet which could not be recorded in decision.

Case No.04. Request of M/s GSK Consumer Healthcare Pakistan Limited, Jamshoro (DML No. 000010) for De-Registration of Paradon Tablets (Reg. No. 083992)

M/s GSK Consumer Healthcare Pakistan Limited, Petaro Road, Jamshoro (DML No. 000010) has requested for de-registration of Paradon Tablets (Reg. No. 083992) as per following details:

S/N	Reg. No.	Brand name and composition	Justification	Date of Reg. & Last Renewal Status
I	II	III	IV	V
1.	083992	Paradon 500mg Tablet Each tablet contains:- Paracetamol …….. 500 mg (BP Specification)	The product is similar in nature to one of our already registered products. Therefore, considering local regulations and requirements, we would like to apply for the de-registration of this product.	DOR: 20-04-2017 (in the name of M/s GSK OTC (Pvt) Ltd., Petaro Road, Jamshoro) Last Renewal Submission: 28-03-2022

Decision: Keeping in view the current need of paracetamol containing formulations, Registration Board did not accede to the request regarding de-registration of Paradon (Paracetamol) 500mg Tablet. The Board further advised the firm to ensure market availability of the product.

Case No.05. Request of M/s Abbott Laboratories (Pakistan) Limited, Opposite Radio Pakistan Transmission Centre Hyderabad Road Landhi, Karachi (DML No. 000001) for Withdrawal of Application for Discontinuation of Brufen Plus Tablet (Reg. No.044415)

	1.5.11-Proposed Label	Submitted

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to general properties, structure, elucidation, polymorphism, solubility, physical forms, manufacturing site, impurities characterizations, specifications based on USP, analytical procedures, analytical method validation, batch analysis, container closure and stability of Duloxetine pellets at both real time and accelerated conditions. Similarly, information summaries for drug product (Zenbar) including its description, composition, pharmaceutical development, pharmaceutical equivalence against Cymbalta, comparative dissolution profile, in-process controls, analytical procedure and its validation, specification based on USP, batch analysis and specification, reference(working) standard, container closure system and stability studies has been provided.
	Module-III Drug Substance:	Firm has submitted data for drug substance related to nomenclature, structure, general properties, solubilities, character elucidation, impurities structures, physical form, manufacturer, raw material specifications by DS and DP manufacturer, analytical method and its verification performed drug product manufacturer, batch analysis, certificate of analysis by drug product manufacturer, pellets specification, reference standard an CoA of working standard, container closure system used for pellets, specification and test methods for packing materials, and stability studies.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches (each of 25kg) drug substance at both accelerated as well as real time conditions**.** The accelerated stability data was conducted at 40^{o}C ± 2^{o}C / 75% ± 5% RH for 6 months and the long-term stability data was conducted at 30^{o}C ± 2^{o}C / 65% ± 5% RH for 36 months. Pellets were packed in LDPE transparent bag with 2 Poly bags in HDPE container. The pellets remained within specified limits as tested on defined intervals.
	Module-III Drug Product:	Firm has submitted data of drug product including its composition, selection of excipients, drug excipient compatibility studies, manufacturing procedure, in-process controls and validation protocol, pharmaceutical equivalence against Cymbalta 20mg Capsules, excipients testing methods, dissolution method verification of USP Test 1, microbial limits test validation, specifications, analytical procedures

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	-
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Drugs Control Administration, Govt of Telangana, dated 30-08-2019. (Valid up to 29-08-2022).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	5Kg of API purchased from M/s Alphamed Formulations Pvt Ltd, Telagana, India invoice dated 15-07-2020, cleared 12-08-2020 from DRAP, Karachi.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail of stability batches.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

The drug substance for Zenbar 20 mg Capsule is manufactured by M/s Alphamed Formulations Pvt Ltd, Telagana, India (GMP certified by Drugs Control Administration, Govt of Telangana, dated 30-08-2019). Pellets specification has been verified according to pharmacopeia specification. Finished Pharmaceutical Product (FPP) manufacturer has also performed analysis of Drug Substance (DS) and verification of analytical method of DS according to provided specifications.

The finished pharmaceutical product is hard gelatin capsule containing 100mg Duloxetine Hydrochloride 20% w/w equivalent to 20mg of Duloxetine manufactured by Ms/ Searle Pakistan Ltd. (Formerly M/s OBS Pakistan (Pvt.) Ltd. Karachi (DML 000012; Formulation). The method of manufacturing is encapsulation with adequate in process controls. Submitted regulatory specifications are verified according to USP monograph. Dissolution method is also verified

according to USP test method 1. Stability data shows compliance to the specification range at specified time points during 06 months accelerated and 18-month real time stability studies.

M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan (Pvt.) Ltd.) is GMP complaint as per certificate issued by DRAP, Karachi office on 16-12-2020 based on the inspection conducted on 07-10-2020.

Zenbar 20mg Capsules' pharmaceutical equivalence has been established against the Cymbalta 20mg Capsule (Eli Lilly) approved by the FDA. The clinical particulars and pharmacological properties of the Duloxetine, based on the reliance principle, are as per the reference regulatory authority's product. This product is mainly indicated for the treatment of major depressive disorder.

Conclusion:

The applicant shall maintain consistency in clinical particulars and pharmacological properties with the current version of the reference medicinal product (cymbalta 20mg Cap) as approved by reference regulatory authority and this information shall be updated regularly when the new information becomes available for reference medical product in accordance with the post registration variation procedures.

	Module-III Drug Substance:	Firm has submitted data for drug substance related to nomenclature, structure, general properties, solubilities, character elucidation, impurities structures, physical form, manufacturer, raw material specifications by DS and DP manufacturer, analytical method and its verification performed drug product manufacturer, batch analysis, certificate of analysis by drug product manufacturer, pellets specification, reference standard an CoA of working standard, container closure system used for pellets, specification and test methods for packing materials, and stability studies.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches (each of 25kg) drug substance at both accelerated as well as real time conditions**.** The accelerated stability data was conducted at 40^{o}C ± 2^{o}C / 75% ± 5% RH for 6 months and the long-term stability data was conducted at 30^{o}C ± 2^{o}C / 65% ± 5% RH for 36 months. Pellets were packed in LDPE transparent bag with 2 Poly bags in HDPE container. The pellets remained within specified limits as tested on defined intervals.
	Module-III Drug Product:	Firm has submitted data of drug product including its composition, selection of excipients, drug excipient compatibility studies, manufacturing procedure, in-process controls and validation protocol, pharmaceutical equivalence against Cymbalta 20mg Capsules, excipients testing methods, dissolution method verification of USP Test 1, microbial limits test validation, specifications, analytical procedures and its verification, dissolution method verification, batch analysis for 3 trial batches, specifications as per USP monograph, working standard and its CoA, container closure system and stability studies.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence was performed against Cymbalta 60mg Capsule which shows comparable results within specified limits. The comparative dissolution profile was performed for Zenbar 60mg Capsules against the Cymbalta 60mg Capsule, manufactured by Eli Lily. Comparison was performed using 12 samples at acidic stage for 2 hours and buffer stage at pH 6.8 for 60min. Calculation of the

		obtained values are as under: **Mediums** / **Time interval** / **Zenbar 20mg Cap** / **Cymbalta 20mg Cap** Acidic stage: 10 min 0 % 0 %; 20 min 0 % 0 %; 30 min 0 % 0 %; 40 min 0 % 0 %; 50 min 0 % 0 %; 60 min 0 % 0 % Buffer (pH 6.8): 10 min 73 % 62 %; 20 min 81 % 78 %; 30 min 86 % 88 %; 40 min 92 % 97 %; 50 min 99 % 103 %; 60 min 100 % 103 % f1 = 5 f2= 61
	Analytical method validation/verification of product	Firm has claimed USP specifications and performed verification of analytical method for the drug product. DS manufacturers has also provided validation of analytical methods for Duloxetine.

STABILITY STUDY DATA

Manufacturer of API	Alphamed Formulations Pvt Ltd. Sy.No. 225, Sampanbole village, shamirpet Mandal, Medchal-Malkajgiri District Telangana, India.		
API Lot No.	DP5A9005

Manufacturing Date	05-09-2020	05-09-2020	05-09-2020
Date of Initiation	02-10-2020	02-10-2020	02-10-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	-
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Drugs Control Administration, Govt of Telangana, dated 30-08-2019. (Valid up to 29-08-2022).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	5Kg of API purchased from M/s Alphamed Formulations Pvt Ltd, Telagana, India invoice dated 15-07-2020, cleared 12-08-2020 from DRAP, Karachi.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail of stability batches.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

The drug substance for Zenbar 60 mg Capsule is manufactured by M/s Alphamed Formulations Pvt Ltd, Telagana, India (GMP certified by Drugs Control Administration, Govt of Telangana, dated 30-08-2019). Pellets specification has been verified according to pharmacopeia specification. Finished Pharmaceutical Product (FPP) manufacturer has also performed analysis of Drug Substance (DS) and verification of analytical method of DS according to provided specifications.

The finished pharmaceutical product is hard gelatin capsule containing 300mg Duloxetine Hydrochloride 20% w/w equivalent to 60mg of Duloxetine manufactured by Ms/ Searle Pakistan Ltd. (Formerly M/s OBS Pakistan (Pvt.) Ltd. Karachi (DML 000012; Formulation). The method of manufacturing is encapsulation with adequate in process controls. Submitted regulatory specifications are verified according to USP monograph. Dissolution method is also verified according to USP test method 1. Stability data shows compliance to the specification range at specified time points during 06 months accelerated and 18-month real time stability studies.

M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan (Pvt.) Ltd.) is GMP complaint as per certificate issued by DRAP, Karachi office on 16-12-2020 based on the inspection conducted on 07-10-2020.

Zenbar 60mg Capsules' pharmaceutical equivalence has been established against the Cymbalta 60mg Capsule (Eli Lilly) approved by the FDA. The clinical particulars and pharmacological properties of the Duloxetine, based on the reliance principle, are as per the reference regulatory authority's product. This product is mainly indicated for the treatment of major depressive disorder.

Conclusion:

The applicant shall maintain consistency in clinical particulars and pharmacological properties with the current version of the reference medicinal product (cymbalta 60mg Cap) as approved

by reference regulatory authority and this information shall be updated regularly when the new information becomes available for reference medical product in accordance with the post registration variation procedures.

Proceedings of M-320:

Registration Board was apprised that Legalized GMP certificate of M/s Alphamed Formulations (Pvt) Ltd., India (issued by Drugs Control Administration, Govt of Telangana, dated 30-08-2019) was valid up to 29-08-2022. The firm has now provided copy of GMP certificate (L.Dis.No:9342/TS/2022) valid until 15-08-2023 which can be verified online at Drugs Control Adminstration(DCA) (telangana.gov.in)

Decision: Registration Board decided as under:

i. **Cancelled registration of following products from the name of M/s The Searle Company Limited, Plot No. F-319, S.I.T.E., Karachi (DML No. 000016)**

S. No.	Reg. No.	Product Name & Composition
1.	055608	Zenbar 20mg Capsule Each capsule contains: - Doulexetine HCl enteric coated pellets eq. to Doluxetine……20mg
2.	055609	Zenbar 30mg Capsule Each capsule contains: - Doulexetine HCl enteric coated pellets eq. to Doluxetine……30mg
3.	055610	Zenbar 60mg Capsule Each capsule contains: - Doulexetine HCl enteric coated pellets eq. to Doluxetine……60mg

ii. **Approved registration of following products in the name of M/s Searle Pakistan Limited (Formerly OBS Pakistan Private Limited), C-14, Manghopir Road, S.I.T.E, Karachi (DML # 000012).**

a) **Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

b) **Manufacturer will perform process validation of first three batches of both products as per the commitment submitted in the registration application.**

S. No.	Product Name & Composition
1.	Zenbar 20mg Capsule Each Delayed release capsule contains: Duloxetine Hydrochloride 20% w/w equivalent to 20mg of Duloxetine (USP Specifications)
2.	Zenbar 30mg Capsule Each delayed release capsule contains: 150mg of Duloxetine Hydrochloride 20% w/w equivalent to 30mg of Duloxetine (USP Specifications)
3.	Zenbar 60mg Capsule Each delayed release capsule contains: 300mg of Duloxetine Hydrochloride 20% w/w equivalent to 30mg of Duloxetine (USP Specifications)

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).

Case No.11: Request for Change in Registration Status of Product(s) From M/s GSK Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi (DML #000017) to M/s. GlaxoSmithKline Consumer Healthcare Pakistan Ltd, Petaro Road Jamshoro (DML #000010)

Registration Board in its 291st meeting held on 02nd-04th September, 2019 considered the following application of M/s. GlaxoSmithKline Consumer Healthcare Pakistan Ltd [Formerly M/s GSK OTC (Pvt) Ltd.], Petaro Road Jamshoro (DML #000010) regarding change in registration status of below-mentioned product from M/s. GlaxoSmithKline Pakistan Ltd, Karachi to their name. Detail has been reproduced as under:

S/ N	Reg. No.	Brand Name & Composition of Registered Products	Initial letter of registration with renewal status.	Registration Holder/ Manufacturer	Dy. No. & Date/ Remarks
I	II	III	IV	V	VI
1.	016868	ENO Lemon Powder Contains: Sodium Bicarbonate …….34.16%w/w Sodium Bicarbonate Fine…..11.39%w/w Citric Acid (anhydrous)…… …….43.10%w/w Sodium Carbonate (anhydrous)… …….10.00%w/w Sodium Carbonate Decahydrate… …….0.25%w/w	1- F.No.3-1/95-Reg-II (M-112) dated 18-04-1995 in the name of M/s Beecham Pakistan (Pvt) Ltd, Karachi. 2- Transfer from M/s Galxowellcome to M/s GSK Pakistan Ltd., D/43, Textile Avenue, SITE, Karachi vide Letter No.3-3/2003-Reg-II (M-179) dated 30thAugust, 2003. 3- Last Renewal Application Dated 13-06-2018 **Remarks of RRR Section** Registration Board granted the renewal w.e.f 30-08-2018 to 29-08-2023 (Ref. F.No.3-10/2019-RRR (M-288 Dated 26-06-2019)	M/s GSK Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi (DML#000017)	Duplicate Applications on From-5 along with photocopy fee challan of Rs.360,000/- (06-06-2016) and Rs.900,000/- (27-06-2016) received on 17-06-2019 (Dy. No.560) Label claim as applied on Form-5: ENO Fruit Salt Lemon Each 5gm contains: Sodium Bicarbonate ….2.277gm Sodium Carbonate.0.5gm Citric Acid ….2.155gm Label claim needs to be standardized/ corrected as per UK MHRA

The firm has provided following documents:-

1. Applications on From-5 along with fee of Rs.360,000/- (06-06-2016) and Rs.900,000/- (27-06-2016) (Duplicate)
2. Copies of initial letter of registration and renewal status.
3. Copy of last inspection report of M/s GlaxoSmithKline Pakistan Ltd, 35- Dockyard Road, West Wharf Karachi.
4. Evidence of approval for change in title from "GSK OTC (Pvt) Ltd Jamshoro" to "M/s. GlaxoSmithKline Consumer Healthcare Pakistan Ltd., Petaro Road Jamshoro (DML #000010)" dated 14-05-2019.
5. NOC from M/s. GlaxoSmithKline Pakistan Ltd, Karachi dated 25-06-2019.
6. Consent from contract manufacturers dated 03-07-2019 and 04-07-2019.

Decision of M-291:

Registration Board decided as follows:

[…Deferred the products at S.No. 5-13 for confirmation of approval status of required manufacturing facilities from Licensing Division. Furthermore, w.r.t products at S.No. 5, 6, 9 & 10, the Board also advised the firm for submission of evidence of approval status of applied formulations in Reference Regulatory Authorities.]

The firm has now submitted the following information/ documents:

1. Fee of Rs.75000/-(S#63313501456) and Rs.30000/-(S#7147148718).
2. Form-5 with following composition i.e., revised as per reference product approved by RRA (MHRA):

   ENO Lemon Powder
   Each 5gm contains:
   Sodium Bicarbonate …….2.32gm
   Sodium Carbonate……...0.5gm
   Citric Acid ……2.18gm

3. Panel Inspection Report for regularization & renewal of DML for M/s GSK Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi (DML#000017), dated 05-09-2019 stating recommendation for renewal of DML for following sections:

   i. Ointment (General)
   ii. **Oral Powder Eno (General) Section.**
   iii. Eye/Ophthalmic Ointment Section.
   iv. Ear/ Otic Drops.
   v. Capsule/ Spansule (General)
   vi. Non-Pareil Seeds (NPS)- In house use only.

4. Copy of DML of M/s GSK CHC Pakistan Ltd., Jamshoro (renewed w.e.f. 31-03-2020).
5. Copy of DML of M/s GSK Pakistan Limited, West Wharf, Karachi (renewed w.e.f. 31-03-2020).
6. NOC from M/s. GlaxoSmithKline Pakistan Ltd, 35- Dockyard Road, West Wharf Karachi dated 10-08-2022.

Decision: Registration Board decided as under:

i. Cancelled registration of following product from the name of M/s GSK Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi (DML#000017).

S. No.	Reg. No.	Product Name & Composition
1.	**016868**	**ENO Lemon Powder** **Contains:** **Sodium Bicarbonate …….34.16%w/w** **Sodium Bicarbonate Fine…..11.39%w/w**

		Citric Acid (anhydrous)…….43.10%w/w Sodium Carbonate (anhydrous)……..10.00%w/w Sodium Carbonate Decahydrate…….0.25%w/w

ii. Approved registration of following product in the name of M/s. GlaxoSmithKline Consumer Healthcare Pakistan Ltd, Petaro Road Jamshoro (DML #000010) by way of contract manufacturing at M/s GSK Pakistan Limited, 35-Dockyard Road, West Wharf, Karachi (DML#000017).

S. No.	Product Name & Composition
1.	**ENO Lemon Powder Each 5gm contains: Sodium Bicarbonate …….2.32gm Sodium Carbonate……...0.5gm Citric Acid ……2.18gm (As per Innovator's Specifications)**

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).

Case No.12. Request for Change in Registration Status of Product from M/s The Searle Company Limited, Plot No. F-319, S.I.T.E., Karachi (DML No. 000016) to M/s Searle Pakistan Limited (Formerly OBS Pakistan Private Limited), C-14, Manghopir Road, S.I.T.E, Karachi (DML # 000012)

M/s. Searle Pakistan Limited (Formerly OBS Pakistan Pvt Ltd.), C-14, Manghopir Road, S.I.T.E, Karachi has requested for change in registration of below mentioned products from M/s The Searle Company Ltd., F-319, S.I.T.E Karachi to their name.

The detail of cases is as following:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of GMP certificate on the basis of inspection conducted on 15-02-2022.
ii. Copy of DML (000012) of M/s OBS renewed w.e.f. 31-03-2020.
iii. Copy of panel inspection report of M/s OBS for renewal of DML dated 08-10-2021 confirming "Tablet (General) Section"
iv. NOC from M/s. The Searle Company Ltd; Karachi for transfer of Morcet 5mg on the name of M/s. Searle Pakistan Limited (Formerly OBS Pakistan Pvt Ltd.), C-14, Manghopir Road, S.I.T.E, Karachi
v. Relevant undertakings & commitments.

The cases were referred to Pharmaceutical Evaluation Cell / QMS for scrutinization /evaluation. Detail of submitted documents remarks of evaluators have been mentioned as under:

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

The drug substance for Morcet 5 mg Tablet is manufactured by Zhejiang Huahai Pharmaceutical Co, Ltd, Xunqiao, Linhai, Zhejiang, China.(License and GMP certified by China Food and Drug Administration, on USP specifications. Polymorphic form of DS is Form-I. The impurity profiling of DS is also carried out including the potential genotoxic impurity Ethyl p-tosylate which was also tested by DS manufacturer using GC method and not detected in three batches. Manufacturing and controls, comparability protocols, structural characterization, and stability protocol has been submitted. Specification is considered adequate with respect to USP monograph. Finished Pharmaceutical Product (FPP) manufacturer has also performed analysis of Drug Substance (DS) according to provided specifications.

The drug product is film coated tablet of 5 mg manufactured by Searle Pakistan Ltd (Formerly OBS Pakistan (Pvt.) Ltd. Karachi DML 000012 (Formulation) (light green colored, round enclave film coated tablet). The method of manufacturing is granulation, direct compression and film coating with adequate in process controls. Submitted regulatory specifications are as per USP monograph and submitted stability data shows no degradation product at specified time points.

M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan (Pvt.) Ltd.) is a GMP complaint unit as per certificate issued by DRAP, Karachi office based on the inspection conducted on 15-02-2022.

Morcet 5mg Tablets' pharmaceutical equivalence has been established against the Cipralex 5mg Tablets approved by the Health Canada, however the comparative dissolution profile was studied against the Citanew 5mg Tablets manufactured by Hilton Pharma Karachi. The clinical particulars and pharmacological properties of the Escitalopram, based on the reliance principle, are as per the reference regulatory authority's product. This product is mainly indicated for Major depressive disorder, panic disorder with or without agoraphobia, social anxiety disorder, generalized anxiety, obsessive compulsive disorder.

Conclusion:

The applicant shall maintain consistency in clinical particulars and pharmacological properties with the current version of the reference medicinal product as approved by reference regulatory authority and this information shall be updated regularly when the new information becomes available for reference medical product in accordance with the post registration variation procedures.

The firm shall also ensure black boxed information on "Suicidality and Antidepressant Drugs" in the beginning of the leaflet.

Decision: Registration Board decided as under:

i. Cancelled registration of following product from the name of M/s The Searle Company Limited, Plot No. F-319, S.I.T.E., Karachi (DML No. 000016)

S. No.	Reg. No.	Product Name & Composition
1.	082242	**Morcet 5mg Tablets** **Each tablet contains: -** **Escitalopram oxalate eq. to Escitalopram……5mg** **(USP Specification)**

ii. Approved registration of following product in the name of M/s Searle Pakistan Limited (Formerly OBS Pakistan Private Limited), C-14, Manghopir Road, S.I.T.E, Karachi (DML # 000012).

a) Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf

life and on accelerated studies for six months as per the commitment submitted in the registration application.

b) Manufacturer will perform process validation of first three batches of both products as per the commitment submitted in the registration application.

S. No.	Product Name & Composition
1.	**Morcet 5mg Tablet** **Each film coated tablet contains:** **6.390mg of Escitalopram Oxalate is equivalent to 5mg of Escitalopram** **(USP Specifications)**

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).

Case No.13. Correction in Label Claim/ Strength of Approved Products of M/s High-Q Pharmaceuticals, Plot No. 224, Sector-23, Korangi Industrial Area, Karachi (DML No.000597).

a. Registration Board in its 283rd meeting held on 27th -29th June, 2018 approved the following product of M/s High-Q Pharmaceuticals, Plot No. 224, Sector-23, Korangi Industrial Area, Karachi (DML No.000597) as per below mentioned details:

1.	Name and address of manufacturer / Applicant	M/s High-Q Pharmaceuticals, Plot No. 224, Sector-23, Korangi Industrial Area, Karachi.
	Brand Name +Dosage Form+ Strength	Co-Mesart **40mg+5mg** Tablet
	Diary No. Date of R& I & fee	Diary No:15799, 21/09/2017, Rs: 20,000/-
	Composition	Each film-coated tablet contains: Olmesartan medoxomil …**20mg** Amlodipine as besilate …**5mg**
	Pharmacological Group	Angiotensin II antagonists and calcium channel blockers
	Type of Form	Form 5
	Finished Product Specification	Innovator's specifications
	Pack Size & Demanded Price	10's, 14's, 20's, 28's, 30's / As per SRO
	Approval Status of Product in Reference Regulatory Authorities	Sevikar 40 mg/5 mg film-coated tablets by M/s Daiichi Sankyo UK Ltd (MHRA Approved)
	Me-too Status	Comcarb 5/40mg tablet by M/s Maple Pharmaceuticals (Pvt) Ltd (Reg#061882)
	GMP Status	Last GMP inspection conducted on 19-07-2017 and the report concludes good level of GMP compliance.
	Remarks of the Evaluator.	
	Decision: Approved with innovator's specification.	

Registration letter could not be issued due to disparity in strengths mentioned in composition and alongside the brand name.

In this context original dossier could not be retrieved from available record, however, the firm has submitted copies of DRAP's acknowledged receipts & fee challans of both strengths i.e., 40/5mg and 20/5mg. Furthermore, the firm has also submitted copy of registration letter of 20/5mg strength of above-mentioned formulation (R#091209) and copy of form-5 of 40/5mg strength stating correct label claim.

Accordingly, the case has been placed for correction in strength/label claim of above-mentioned product which appears to be due to typographical (cut-paste) error.

Submitted for consideration of Registration Board.

b. Registration Board in its 283rd meeting held on 27th -29th June, 2018 approved the following product of M/s High-Q Pharmaceuticals, Plot No. 224, Sector-23, Korangi Industrial Area, Karachi (DML No.000597) as per below mentioned details:

2.	Name and Address of Manufacturer / Applicant	M/s High-Q Pharmaceuticals, Plot No. 224, Sector-23, Korangi Industrial Area, Karachi.
	Brand Name + Dosage Form + Strength	Atasart **32mg** Tablet
	Diary No. Date of R & I & fee	Diary No:15751 ,20/09/2017, Rs: 20,000/-
	Composition	Each tablet contains: Candesartan cilexetil …**16mg**
	Pharmacological Group	Angiotensin II antagonists, plain
	Type of Form	Form-5
	Finished Product Specification	JP
	Pack Size & Demanded Price	10's, 14's, 20's, 28's, 30's / As per SRO
	Approval Status of Product in Reference Regulatory Authorities.	Amias 16 mg Tablets by M/s Takeda UK Limited (MHRA Approved)
	Me-too Status	Cansar 32mg Tablets by M/s Pharmatec (Reg#035902)
	GMP Status	Last GMP inspection conducted on 19-07-2017 and the report concludes good level of GMP compliance.
	Remarks of the Evaluator.	
	Decision: Approved.	

Registration letter could not be issued due to disparity in strengths mentioned in composition and alongside the brand name.

In this context original dossier could not be retrieved from available record, however, the firm has submitted copies of DRAP's acknowledged receipts & fee challans of both strengths i.e., 32mg and 16mg. Furthermore, the firm has also submitted copy of registration letter of 16mg strength of above-mentioned formulation (R#091208).

Accordingly, the case has been placed for correction in strength/label claim of above-mentioned product which appears to be due to typographical (cut-paste) error.

Decision: Registration Board decided as under:

i. Approved correction in strength/ label claim of product at S.No.1 as per following detail:

Co-Mesart 40mg+5mg Tablet
Each film-coated tablet contains:
Olmesartan Medoxomil …….40mg
Amlodipine as Besilate ……..5mg
(USP Specifications)

ii. Approved correction in strength/ label claim of product at S.No.2 as per following detail:

Atasart 32mg Tablet
Each tablet contains:
Candesartan Cilexetil ……32mg
(JP Specifications)

iii. Furthermore, for product at S.No.1, the applicant shall submit fee of Rs. 7500/- in the light of notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 for pre-registration correction in finished product specifications.

Case No.14. Correction in Label Claim/ Strength of Approved Products of M/s Lisko Pakistan (Pvt) Ltd., L-10-D Block-21, Shaheed Rashid Minhas Road, Federal B Industrial Area Karachi (DML No. 000110)**.**

Registration Board in its 273rd meeting held on 28th -29th August, 2017 approved the following product of M/s Lisko Pakistan (Pvt) Ltd., L-10-D Block-21, Shaheed Rashid Minhas Road, Federal B Industrial Area Karachi (DML No. 000110) as per below mentioned details:

Name and address of manufacturer / Applicant	M/s. Lisko Pakistan (PVT.) LTD.L-10-D, BlockNo.21, Shaheed Rashid Minhas Road, Federal-B, Industrial Area, Karachi
Brand Name +Dosage Form+ Strength	Claricure Dry Suspension **250 mg/5ml**
Diary No. Date of R& I & fee	Dy. No. 255, 21-08-2015 , Rs.20,000/- (20-08-2015)
Composition	Each **5 ml** contains: Clarithromycin… **125mg**
Pharmacological Group	Macrolide Antibiotic
Type of Form	Form 5
Finished Product Specification	USP
Pack Size & Demanded Price	70ml: Glass Bottle: Rs. 408.00/-
Approval Status of Product in Reference Regulatory Authorities	Biaxin by M/s. Abbott Laboratories, USFDA
Me-too Status	Clarivin by M/s. Wnsfeld Pharmaceuticals, Hattar (R No. 069709)
GMP Status	Last inspection conducted on 23-01-2017—Good compliance.
Remarks of the Evaluator.	
Decision: Approved.	

Registration letter could not be issued due to disparity in strengths mentioned in composition and alongside the brand name.

In this context original dossier could not be retrieved from available record, however, the firm has submitted copies of DRAP's acknowledged receipts & fee challans of both strengths i.e., 250mg/5ml and 125mg/5ml. Furthermore, the firm has also submitted copy of registration letter of 125mg/5ml strength of above-mentioned formulation (R#085681) and copy of form-5 of 250mg/5ml strength stating correct label claim.

Accordingly, the case has been placed for correction in strength/label claim of above-mentioned product which appears to be due to typographical (cut-paste) error.

Decision: Registration Board approved correction in strength/ label claim of above-mentioned product as per following detail:
Claricure Dry Suspension 250 mg/5ml
Each 5ml contains:
Clarithromycin……. 250mg
(USP Specifications)

Case No.15. Correction in Composition of Approved Products of M/s Platinum Pharmaceuticals (Pvt) Ld, A-20, North western Industrial Zone, Bin Qasim Karachi (DML No. 000415).

Registration Board in its 295th meeting held on 8th-11th June 2020 approved the following product of M/s Platinum Pharmaceuticals (Pvt) Ld, A-20, North western Industrial Zone, Bin Qasim Karachi (DML No. 000415) as per below mentioned details:

Name and address of manufacturer / Applicant	"M/s Platinum Pharmaceuticals Pvt Ltd A-20, North western Industrial Zone, Bin Qasim Karachi"
Brand Name +Dosage Form + Strength	Bislol 10mg Tablet
Composition	"Each Film Coated Tablet Contains:

	Bisoprolol as fumarate….10mg
Diary No. Date of R& I & fee	Dy.No 8135 dated 25-02-2019 Rs.20,000/- Dated 15-02-2019
Pharmacological Group	Beta Blocking Agents
Type of Form	Form-5
Finished product Specification	USP
Pack size & Demanded Price	10's,20's,30's,50's,100's, As per sro.
Approval status of product in Reference Regulatory Authorities.	MHRA Approved.
Me-too status	077051 "Bisfat Tablets 10mg "M/s. Dyson Research Laboratories (Pvt) Ltd,28Km, Ferozepur Road, Lahore."
GMP status	
Remarks of the Evaluator (V)	Latest GMP inspection report (which should have been conducted within the period of last three years).
Decision: Approved.	

Registration letter could not be issued as reference/ standard formulation approved by RRA contains "**Bisoprolol fumarate**….**10mg**" instead of **"Bisoprolol as fumarate…10mg"**. However, when the firm was advised to submit correct formulation in line with that approved by RRAs, the firm submitted copies of form-5 and fee challan stating correct composition/ label claim. In this regard, original dossier could not be retrieved for confirmation of firm's claim.

Decision: **Registration Board approved correction in composition/ label claim of above-mentioned product as per following detail:**
Bislol 10mg Tablet
Each film coated tablet contains:
Bisoprolol Fumarate….10mg
(USP Specifications)

Case No.16. **Correction in Minutes of M-295th of Approved Products of** M/s Getz Pharma (Pvt.) Ltd., 29-30, Sector 27, Korangi Industrial Area, Karachi (DML No.000284)

Registration Board in its 295rd meeting held on 8th-11th June 2020 approved the following product of M/s Getz Pharma (Pvt.) Ltd., 29-30, Sector 27, Korangi Industrial Area, Karachi (DML No.000284) as per below mentioned details:

Name and address of manufacturer / Applicant	M/s Getz Pharma Private Limited. 29-30/27, Korangi Industrial area, Karachi
Brand Name +Dosage Form + Strength	Rival Oral Solution 1mg/ml
Composition	Each ml contains: Risperidone…….1mg
Diary No. Date of R& I & fee	Dy.No. 42007 dated 07-12-2018 Rs.20,000/- 07-12-2018
Pharmacological Group	Antipsychotic
Type of Form	Form-5
Finished Product Specification	BP
Pack size & Demanded Price	15ml ; Rs:270/- 30ml ; Rs:540/- 60ml ; Rs:1080/- 120ml ; Rs:2160/-
Approval status of product in Reference Regulatory Authorities.	Risperidone oral solution by Sandoz Ltd. (MHRA approved)
Me-too status	Rislet 1mg/ml Oral Solution of M/s High-Q Pharmaceuticals

GMP status	Last GMP inspection conducted on 16-12-2019, and the report concludes that the firm is considered to be operating at an acceptable level of compliance of GMP requirements.
Remarks of the Evaluator[IV]	
Decision: Approved with innovator's specification.	

Accordingly, the firm was issued registration of "Risperiget Oral Solution 1mg/ml" (R#104292). The firm has now requested for issuance of corrigendum stating that the product was applied through contract manufacturing at M/s. Herbion Pakistan (Pvt) Ltd. Industrial Triangle Kahuta Road, Humak, Islamabad, however, registration letter has been issued for self-manufacturing. In this regard, the firm has provided copy of DRAP acknowledged receipt, copy of fee challan (#0785792) of Rs.50000/- and Form-5, all stating/indicating particulars of contract manufacturing.

Decision: **Registration Board approved correction in manufacturer of Risperiget Oral Solution as per following detail:**

Reg. No.	Product Name & Composition	Registration Holder	Contract Manufacturer
104292	**Risperiget Oral Solution 1mg/ml Each ml contains: Risperidone…….1mg (USP Specifications)**	M/s Getz Pharma (Pvt.) Ltd., 29-30, Sector 27, Korangi Industrial Area, Karachi (DML No.000284)	**M/s. Herbion Pakistan (Pvt) Ltd. Industrial Triangle Kahuta Road, Humak, Islamabad** (DML No.000795)

Case No.17. Request for Change in Registration Status of Products from M/s OBS Pakistan Pvt. Ltd., (New Title: M/s Searle Pakistan Limited) C/14, Manghopir Road, S.I.T.E Karachi (DML No. 000012) to M/s AGP Limited B-23-C, S.I.T.E. Karachi (DML No. 000348)

M/s AGP Limited B-23-C, S.I.T.E. Karachi (DML No. 000348) has requested for change in registration status of following products from M/s OBS Pakistan Pvt. Ltd. (New Title: M/s Searle Pakistan Limited) C/14, Manghopir Road, S.I.T.E Karachi (DML No. 000012) to their name by way of contract manufacturing at M/s. Geofman Pharmaceuticals, 20/23, Korangi Industrial Area, Karachi (000090).

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of GMP certificate of M/s Geofman on the basis of inspection conducted on 05-012021.
ii. Copy of DML of M/s AGP B-23-C, S.I.T.E. Karachi renewed w.e.f. 06-02-2020.
iii. Copy of approval letter dated 07-10-2021 issued by Licensing Division confirming "Injectable (Steroid Hormone) (SVP) Ampoule Section" of M/s Geofman.
iv. NOC from M/s Searle Pakistan Limited (Previous Title: M/s OBS Pakistan Pvt. Ltd.) C/14, Manghopir Road, S.I.T.E Karachi dated 12-08-2021.
v. NOC from M/s Aspin Pharma (Pvt) Ltd. Plot No.10 & 25 Sector 20 Korangi Industrial Area Karachi dated 15-08-2021 as below mentioned products were approved in 289th meeting of RB for change in registration status to M/s Aspin, Karachi, however, registration letter was not issued.
vi. Relevant undertakings & commitments.

	For generic drugs (me-too status)	Sestonil injection by Hansel Pharma (Reg # 074304)
	Name and address of API manufacturer.	ASG Biochem Pvt. Ltd. Ganganagar 24 PGS (N), Wesat Bengal, PIN-700132, West Bengal India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference

		standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Testosterone propionate:** Firm has submitted stability study data of 4 batches of drug substance only at real time conditions. The real time stability data is conducted at 25°C ± 2°C / 605% ± 5% RH for 60 months for 3 batches and 48 months for 1 batch. **Testosterone phenylpropionate:** Firm has submitted stability study data of 4 batches of drug substance. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 12 months for only 1 batch. The real time stability data is conducted at 25°C ± 2°C / 605% ± 5% RH for 60 months for 3 batches and 24 months for 1 batch. **Testosterone isocaproate:** Firm has submitted stability study data of 4 batches of drug substance only at real time conditions. The real time stability data is conducted at 25°C ± 2°C / 605% ± 5% RH for 60 months for 2 batches and 48 months for 2 batches. **Testerone decanoate:** Firm has submitted real time stability study data of 2 batches of drug substance The real time stability data is conducted at 2 – 8°C for 5 years for 1 batch and for 4 years of the second batch.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted that their product is an innovator product.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 2018/828) dated 08-08-2018 issued by Directorate of Drugs Control Health & Family Welfare Department. **The certificate was valid till 24-10-2019.**
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying all drug substances from ASG Biochem. The invoice was cleared by AD (I&E) on 09-08-2019.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted raw data sheets and HPLC chromatograms for 3rd month and 6month testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Firm has submitted 6-month stability study data of three batches of drug product. Firm has initially submitted stability data of three batches Trial 001, Trial 002 and Trial 003. Later on in the response has submitted revised data of three different batches ***with submission of 75,000 fee (dated 27-06-2022).*** **The submitted stability study data are of 3 batches having batch size 2L each.**

Shortcomings communicated	**Response by the firm**
Valid GMP certificate of API manufacturer since the submitted GMP certificate was valid till 2019.	Firm has submitted copy Letter (No. 3785) dated 29-01-2021 issued by Directorate of Drugs Control Health & Family Welfare Department wherein it has been certified that License no. DL-1576-M & DL-802-MB

		issued in the name of ASG Biochem Pvt. Ltd. Ganganagar 24 PGS (N), Wesat Bengal, is valid till 24-10-2024.
	Verification studies of analytical method of drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies.
	Accelerated stability study data of 3 batches of all drug substance is not provided.	Accelerated stability studies data for three batches has been submitted.
	Validation / verification studies of the analytical method of drug product is not provided.	Analytical method verification report has been submitted.
	Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted copy of commercial invoice specifying purchase of all drug substances from ASG Biochem. The invoice was cleared by AD (I&E) on 08-02-2019.
	Submit stability study data including raw data sheets and chromatograms of initial testing of all batches.	Firm has submitted raw data sheet for initial analysis
	Justify why only 3 standard injections were used for HPLC analysis of the drug product instead of using 5 injections of standard solution.	The Firm submitted that the testing was done as per previous procedure provided by our principal; However, 5 injection practice will be implemented after the validation of testing method on new HPLC for the testing of commercial batches.
	Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The Firm submitted that stability testing was done on old HPLCs, However Firm has purchase new HPLC which is 21CFR compliant and all testing of commercial batches will be done on new HPLC after the validation of testing method.
	Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted data logger record of accelerated & long term stability studies chamber.
2.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s Geofman Pharmaceuticals 20/23, Korangi Industrial Area, Karachi.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of contract manufacturing agreement between Geofman Pharma and AGP dated 25-09-2019).
	GMP status of the firm	Firm has submitted copy of GMP certificate of manufacturer dated 01-01-2020 issued on the basis of inspection dated 30-12-2019. The GMP certificate does not specify any section where steroid injection can be manufactured since the applied drug is an anabolic steroid.

	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of Drug Manufacturing License of M/s Geofman Pharmaceuticals dated 20-09-2012 specifying liquid injectable (SVP) hormone. The letter do not specify any section where steroid injection can be manufactured since the applied drug is an anabolic steroid.

		and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted real time stability study data of 3 batches of drug substance The real time stability data is conducted at 2 – 8°C.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted that their product is an innovator product.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	ASG Biochem Pvt. Ltd. Ganganagar 24 PGS (N), Wesat Bengal, PIN-700132, West Bengal India.		
API Lot No.	NADC01A030		
Description of Pack (Container closure system)	Clear glass ampoule		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	1101	1102	1103
Batch Size	1818 ampoules (2 Liters)	1818 ampoules (2 Liters)	1818 ampoules (2 Liters)
Manufacturing Date	03-2021	03-2021	03-2021
Date of Initiation	03-2021	03-2021	03-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 2018/828) dated 08-08-2018 issued by Directorate of Drugs Control Health &

		Family Welfare Department. The certificate was valid till 24-10-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying 2.1 Kg Nandolone Dacanoate from ASG Biochem. The invoice was cleared by AD (I&E) on 09-08-2019.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted raw data sheets and results of UV absorption values since product testing has been conducted at UV as per BP monograph.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable since product testing has been conducted at UV as per BP monograph.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for accelerated conditions from 01-03-2021 till 30-09-2021

Evaluation by PEC:

Firm has submitted 6-month stability study data of three batches of drug product. Firm has initially submitted stability data of three batches Trial 001, Trial 002 and Trial 003. Later on in the response has submitted revised data of three different batches with submission of fee of Rs. 75,000/- vide deposit slip# 9320496659. The submitted stability study data are of 3 batches having batch size 2L (1818 ampoules) each.

Shortcomings communicated	**Response by the firm**
The applied product is an anabolic steroid while as per the submitted letter of renewal of DML and GMP certificate, the manufacturing firm does not have any section where steroids can be manufactured. The firm has liquid injectable SVP (Hormone) section.	Firm has submitted copy of letter of grant of additional section dated 7th October 2021 specifying **Injectable (steroid hormone) (SVP) Ampoule section.**
Submit GMP certificate of API manufacturer	Firm has submitted copy Letter (No. 3785) dated 29-01-2021 issued by Directorate of Drugs Control Health & Family Welfare Department wherein it has been certified that License no. DL-1576-M & DL-802-MB issued in the name of ASG Biochem Pvt. Ltd. Ganganagar 24 PGS (N), West Bengal, is valid till 24-10-2024.
Verification studies of analytical method of drug substances from drug product manufacturer is required.	Analytical method verification studies have been submitted.
Accelerated stability study data of drug substance is not provided.	Accelerated stability studies of three batches shave been submitted.
Validation / verification studies of the analytical method of drug product is not provided.	Analytical method verification studies have been submitted for the drug product.
Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted copy of commercial invoice specifying 2.1 Kg Nandolone Dacanoate from ASG Biochem. The invoice was cleared by AD (I&E) on 09-08-2019.

Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).		Firm has submitted record of data logger for accelerated & long term conditions.
3.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s Geofman Pharmaceuticals 20/23, Korangi Industrial Area, Karachi.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of contract manufacturing agreement between Geofman Pharma and AGP dated 25-09-2019).
	GMP status of the firm	Firm has submitted copy of GMP certificate of manufacturer dated 01-01-2020 issued on the basis of inspection dated 30-12-2019. The GMP certificate does not specify any section where steroid injection can be manufactured since the applied drug is an anabolic steroid.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of Drug Manufacturing License of M/s Geofman Pharmaceuticals dated 20-09-2012 specifying liquid injectable (SVP) hormone. The letter do not specify any section where steroid injection can be manufactured since the applied drug is an anabolic steroid.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Details of fee submitted	PKR 30,000/-: 03-01-2020
	The proposed proprietary name / brand name	**Deca Durabolin 50mg Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml ampoule contains: Nandrolone decanoate…..50mg
	Pharmaceutical form of applied drug	Clear light yellow oily solution
	Pharmacotherapeutic Group of (API)	Anabolic Steroids (A14AB01)
	Reference to Finished product specifications	BP
	Proposed Pack size	1ml x 1's
	Proposed unit price	Already registered
	The status in reference regulatory authorities	Deca-Durabolin 50 mg/ml solution for injection (**Austria** Approved)
	For generic drugs (me-too status)	Deka-duralin injection by Hansel Pharma (Reg # 074302)

	Name and address of API manufacturer.	ASG Biochem Pvt. Ltd. Ganganagar 24 PGS (N), Wesat Bengal, PIN-700132, West Bengal India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted real time stability study data of 3 batches of drug substance. Real time stability data is conducted at 2 – 8°C.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted that their product is an innovator product.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

Shortcomings communicated	**Response by the firm**
Evidence of approval of applied formulation in reference regulatory authorities is required.	• Firm has referred to the list published on TGA website for "Designated orphan drugs prior to 1 July 2017", wherein **"Nandrolone decanoate (DECA-DURABOLIN 100)"** has been designated as orphan drug dated 30-12-99, verifiable from following weblink: https://www.tga.gov.au/orphan-drugs#summary-n • Further firm has referred to the US Federal Register wherein determination has been made for Deca-Durabolin 200mg/ml FDA has reviewed its records and, under § 314.161, has determined that Deca-Durabolin (nandrolone decanoate) Injection, 200 mg/mL, 1 mL, was not withdrawn from sale for reasons of safety or effectiveness. https://www.federalregister.gov/documents/2010/08/10/2010-19698/determination-that-deca-durabolin-nandrolone-decanoate-injection-200-milligramsmilliliter-1 • Firm has referred to the Deca-Durabolin injection 100mg from US FDA Approved Drug database, wherein the status has been declared as Discontinued. • Firm has also referred to following text from section 314.161 (Determination of reasons for voluntary withdrawal of a listed drug) of Chapter I of Title 21 of US Code of Federal Regulations: "*A drug that the agency determines is withdrawn for safety or effectiveness reasons will be removed from the list, under § 314.162.* The drug may be relisted if the agency has evidence that marketing of the drug has resumed or that the withdrawal is not for safety or effectiveness reasons. A determination that the drug is not withdrawn for safety or effectiveness reasons may be made at any time after its removal from the list, upon the agency's initiative, or upon the submission of a petition under §§ 10.25(a) and 10.30 of this chapter. If the agency determines that the drug is not withdrawn for safety or effectiveness reasons, the agency shall publish a notice of this determination in the Federal Register. The notice will also announce that the drug is relisted, under § 314.162(c). The notice will also serve to reinstate approval of all suspended

	abbreviated new drug applications that referred to the listed drug."
The applied product is an anabolic steroid while as per the submitted letter of renewal of DML and GMP certificate, the manufacturing firm does not have any section where steroids can be manufactured. The firm has liquid injectable SVP (Hormone) section.	Firm has submitted copy of letter of grant of additional section dated 7th October 2021 specifying **Injectable (steroid hormone) (SVP) Ampoule section.**
Submit GMP certificate of API manufacturer	Firm has submitted copy Letter (No. 3785) dated 29-01-2021 issued by Directorate of Drugs Control Health & Family Welfare Department wherein it has been certified that License no. DL-1576-M & DL-802-MB issued in the name of ASG Biochem Pvt. Ltd. Ganganagar 24 PGS (N), West Bengal, is valid till 24-10-2024.
Verification studies of analytical method of drug substances from drug product manufacturer is required.	Analytical method verification studies have been submitted.
Accelerated stability study data of drug substance is not provided.	Accelerated stability studies of three batches shave been submitted.
Validation / verification studies of the analytical method of drug product is not provided.	Analytical method verification studies have been submitted for the drug product.
Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted copy of commercial invoice specifying 2.1 Kg Nandolone Dacanoate from ASG Biochem. The invoice was cleared by AD (I&E) on 09-08-2019.
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of data logger for accelerated & long-term conditions.

Proceeding of M-320:

i. It was informed that above-mentioned products were previously manufactured by M/s Pharmatec Pakistan (Pvt.) Ltd., Karachi on contract basis.

ii. CLB in its 251st meeting held on 6th December 2017 considered and deliberated the case of M/s Pharmatec Pakistan (Pvt) Ltd., D-86/A, S.I.T.E, Karachi under DML No. 000024 by way of formulation and decided to allow grant of renewal section for 'Sterile Liquid Ampoule Section' with the direction that Registration Board be informed about approval of sterile Liquid ampoule section only.

iii. Accordingly, M/s OBS Pakistan (Pvt.) Ltd., Karachi was issued show cause notice in the light of decision taken by the Registration Board in its 275th meeting (held on 25th-27th Oct, 2017) as to why the registration of above mentioned products manufactured in hormone facility of M/s. Pharmatec Pakistan (Pvt.) Ltd., Karachi on contract basis may not be cancelled with immediate effect.

iv. Later on, the case was approved in 289th meeting of Registration Board (held on 14th-16th May, 2019) for change in registration status of above-mentioned products from M/s OBS Pakistan (Pvt.) Ltd., Karachi to M/s Aspin Pharma (Pvt.) Ltd, Plot No.10 & 25 Sector 20 Korangi Industrial Area Karachi (DML No. 000045) through contract manufacturing at M/s. Geofman Pharmaceuticals, 20/23 Main Korangi Industrial Area, Karachi.

v. However, while the cancellation & registration letters (w.r.t. point iv) were under-process, the application was submitted (dated 19-09-2019 with fee of Rs.20000/each) by M/s AGP Limited B-23-C S.I.T.E., Karachi for change in registration status from M/s Aspin Pharma (Pvt.) Ltd, Plot No.10 & 25 Sector 20 Korangi Industrial Area Karachi to M/s M/s AGP Limited B-23-C S.I.T.E., Karachi through contract manufacturing at M/s. Geofman Pharmaceuticals, 20/23 Main Korangi Industrial Area, Karachi .

Decision: Registration Board decided as under:

i. Cancelled registration of following products from the name of M/s OBS Pakistan (Pvt.) Ltd. (New Title: M/s Searle Pakistan Limited) C-14, Manghopir Road, S.I.T.E Karachi (DML # 000012)

S. No.	Reg. No.	Product Name & Composition
1.	002446	Sustanon Injection 250mg/ml Testosterone Propionate……30mg Testosterone Phenylpropionate…….60mg Testosterone Isocaproate…….60mg Testosterone Decanoate……..100mg
2.	002442	Deca-Durabolin Injection 25mg/ml Nandrolone Decanoate……..25mg
3.	002443	Deca-Durabolin Injection 50mg/ml Nandrolone Decanoate……..50mg
4.	002444	Deca-Durabolin Injection 100mg/ml Nandrolone Decanoate……..100mg

ii. Approved registration of following products in the name of M/s AGP Limited B-23-C, S.I.T.E. Karachi (DML No. 000348) by way of contract manufacturing at M/s. Geofman Pharmaceuticals, 20/23, Korangi Industrial Area, Karachi (DML No.000090).

a) Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

b) Manufacturer will perform process validation of first three batches of both products as per the commitment submitted in the registration application.

S. No.	Product Name & Composition
1.	Sustanon 250mg Injection Each ml ampoule contains: Testosterone Propionate……..30mg Testosterone Phenylpropionate……..….60mg Testosterone Isocaproate…….60mg Testerone Decanoate……....100mg

	(In House Specifications)

1.	007688	Ospamox 125mg/5ml Dry Suspension Each 5ml contains: Amoxicillin (as trihydrate)…125mg	Dy.No.10670/R&I Dated 26-04-2022
2.	007689	Ospamox 250mg/5ml Dry Suspension	Dy.No.10671/R&I

		Each 5ml contains: Amoxicillin (as trihydrate)…250mg	Dated 26-04-2022
3.	007684	Ospamox 500mg Tablet Each film coated tablet contains: Amoxicillin (as trihydrate)…500mg	Dy.No.10672/R&I Dated 26-04-2022
4.	007686	Ospamox 1000mg tablet Each film coated tablet contains: Amoxicillin (as trihydrate)…1000mg	Dy.No.10673/R&I Dated 26-04-2022
5.	031358	Amoxi-Clav 156.25mg Dry Suspension Each 5ml contains: Amoxicillin (as trihydrate)….125mg Clavulanic acid (as potassium)…31.25mg	Dy.No.8953/R&I Dated 07-04-2022
6.	031359	Amoxi-Clav 312.5mg Dry Suspension Each 5ml contains: Amoxicillin (as trihydrate)….250mg Clavulanic acid (as potassium)…62.5mg	Dy.No.8954/R&I Dated 07-04-2022
7.	031335	Amoxi-Clav 375mg Tablets Each film coated tablet contains: Amoxicillin (as trihydrate)….250mg Clavulanic acid (as potassium)…125mg	Dy.No.8955/R&I Dated 07-04-2022
8.	031356	Amoxi-Clav 625mg Tablets Each film coated tablet contains: Amoxicillin (as trihydrate)….500mg Clavulanic acid (as potassium)…125mg	Dy.No.8956/R&I Dated 07-04-2022
9.	031357	Amoxi-Clav 1gm Tablets Each film coated tablet contains: Amoxicillin (as trihydrate)….875mg Clavulanic acid (as potassium)…125mg	Dy.No.8957/R&I Dated 07-04-2022

The cases were referred to Pharmaceutical Evaluation Cell/ QMS for scrutinization/evaluation. Detail of submitted documents remarks of evaluators have been mentioned as under:

1.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s CSH Pharmaceuticals (Pvt) Ltd. 32-Km Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of novation agreement between Novartis Pharma, CSH Pharma and AGP dated 17-03-2021).
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 26-08-2019 issued on the basis of inspection dated 22-07-2019. The GMP certificate specifies Tablet (Penicillin),

		Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License of M/s CSH Pharmaceuticals dated 01-08-2012 specifying Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 10670: 26-04-2022
	Details of fee submitted	PKR 75,000/-: 14-04-2022
	The proposed proprietary name / brand name	**OSPAMOX 125mg Granules for suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Amoxicillin (as trihydrate)…….125mg
	Pharmaceutical form of applied drug	White to yellowish granules
	Pharmacotherapeutic Group of (API)	Penicillin
	Reference to Finished product specifications	USP
	Proposed Pack size	60ml & 90ml
	Proposed unit price	As per DRAP approved MRP at the time of issuance of letter
	The status in reference regulatory authorities	Amoxil suspension **(USFDA** Approved)
	For generic drugs (me-too status)	Oximox suspension by CSH
	Name and address of API manufacturer.	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities,

		physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^{o}C \pm 2^{o}C$ / 75% ± 5% RH for 6 months. The real time stability data is conducted at $30^{o}C \pm 2^{o}C$ / 65% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted report of pharmaceutical equivalence study of their product against Amoxil Suspension.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers - Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain		
API Lot No.	B393297		
Description of Pack (Container closure system)	Amber color glass bottle		
Stability Storage Condition	Real time: $30^{\circ}C \pm 2^{\circ}C$ / 65% ± 5%RH		
Time Period	Real time: 24 months		
Frequency	Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	17SC030	18SC054	19SC026
Batch Size	10,813 Packs	11,111 Packs	11,111 Packs
Manufacturing Date	05-2017	10-2018	09-2019
Date of Initiation	26-05-2017	29-10-2018	06-12-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record and raw data sheets, HPLC chromatograms and
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	N/A

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Valid GMP certificate of API manufacturer since the submitted GMP certificate was valid till 2019.	Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.
Verification studies of analytical method of drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for amoxicillin trihydrate.
Justify why the qualitative composition of your formulation is different from that of the reference product.	Firm has submitted referred to the reference product having similar qualitative composition as applied.
Pharmaceutical equivalence study is not provided.	Firm has submitted report of pharmaceutical equivalence study of their product against Amoxil Suspension.
Submit COA of working standard / reference standard used in the analysis of drug substance and drug product.	Firm has submitted COA of working standard.
Batch 19SC026 is manufactured in 09-2019 while stability is initiated on 06-12-2019. Justification is required in this regard.	The batch no. 19SC026 was manufactured in 09-2019 whereas it was decided by the principal in Dec-2019 to place this batch on stability on random basis.

Justify why accelerated stability study of drug product is not conducted.	Firm has now submitted accelerated stability study data sheets for 3 different batches i.e. 15SC01, 15SC02 and 15SC03.
Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate along with COA of relevant batch.
Submit stability study data including raw data sheets and chromatograms of initial testing of all batches.	Firm has submitted stability study record for accelerated (6 months) and long term stability studies (24 months) as per Zone IV a conditions for three batches.
Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing	As the stability studies were conducted in 2015, 2017, 2018 and 2019 the audit trail is not available. However, all HPLCs are 21CFR compliant
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger of real time and accelerated stability study chamber.

2.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s CSH Pharmaceuticals (Pvt) Ltd. 32-Km Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of novation agreement between Novartis Pharma, CSH Pharma and AGP dated 17-03-2021).
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 26-08-2019 issued on the basis of inspection dated 22-07-2019. The GMP certificate specifies Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License of M/s CSH Pharmaceuticals dated 01-08-2012 specifying Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 10671: 26-04-2022
	Details of fee submitted	PKR 75,000/-: 14-04-2022

	The proposed proprietary name / brand name	**OSPAMOX 250mg Granules for suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Amoxicillin (as trihydrate)…….250mg
	Pharmaceutical form of applied drug	White to yellowish granules
	Pharmacotherapeutic Group of (API)	Penicillin
	Reference to Finished product specifications	USP
	Proposed Pack size	60ml & 90ml
	Proposed unit price	As per DRAP approved MRP at the time of issuance of letter
	The status in reference regulatory authorities	Amoxil suspension **(USFDA** Approved)
	For generic drugs (me-too status)	Oximox suspension by CSH
	Name and address of API manufacturer.	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^{o}C \pm 2^{o}C$ / 75% ± 5% RH for 6 months. The real time stability data is conducted at $30^{o}C \pm 2^{o}C$ / 65% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture,

		manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence studies have been submitted against Amoxil forte 250mg suspension of M/s GSK.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers - Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain		
API Lot No.	B393297		
Description of Pack (Container closure system)	Amber color glass bottle		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH		
Time Period	Real time: 24 months		
Frequency	Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	17SD035	18SD104	19SD080
Batch Size	8,512 Packs	8,333 Packs	5,200 Packs
Manufacturing Date	05-2017	12-2018	05-2019
Date of Initiation	01-06-2017	28-12-2018	23-05-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Amoxicillin Trihydrate:** Firm has submitted copy of GMP certificate (No. NCF-II/1823/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain issued by Department of Health General Directorate of Proessional Health Planning and Regulation, Government of Catalonia dated 03-07-2018 based on inspection conducted dated 22 May 2018. As per the certificate it is valid for 3 years.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record and raw data sheets, HPLC chromatograms and
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Valid GMP certificate of API manufacturer since the submitted GMP certificate was valid till 2019.	Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.
Verification studies of analytical method of drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for amoxicillin trihydrate.
Justify why the qualitative composition of your formulation is different from that of the reference product.	Firm has referred to the reference product having similar qualitative composition as applied.
Pharmaceutical equivalence study is not provided.	Firm has submitted report of pharmaceutical equivalence study of their product against Amoxil Suspension.
Submit COA of working standard / reference standard used in the analysis of drug substance and drug product.	Firm has submitted COA of working standard.
Batch 17SD035 is manufactured in 05-2017 while stability is initiated on 06-2017. Justification is required in this regard.	The batch no. 17SD035 was manufactured in 05-2017 whereas it was decided by the principal in 06-2017 to place this batch on stability.
Justify why accelerated stability study of drug product is not conducted.	Firm has now submitted accelerated stability study data sheets for 3 different batches i.e. 15SD03, 15SD04 and 15SD05.
Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate along with COA of relevant batch.
Submit stability study data including raw data sheets and chromatograms of initial testing of all batches.	Firm has submitted stability study record for accelerated (6 months) and long-term stability studies (24 months) as per Zone IV a conditions for three batches.

Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing	As the stability studies were conducted in 2015, 2017, 2018 and 2019 the audit trail is not available. However, all HPLCs are 21CFR compliant
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger of real time and accelerated stability study chamber.

3.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s CSH Pharmaceuticals (Pvt) Ltd. 32-Km Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of novation agreement between Novartis Pharma, CSH Pharma and AGP dated 17-03-2021).
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 26-08-2019 issued on the basis of inspection dated 22-07-2019. The GMP certificate specifies Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License of M/s CSH Pharmaceuticals dated 01-08-2012 specifying Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 10672: 26-04-2022
	Details of fee submitted	PKR 75,000/-: 14-04-2022
	The proposed proprietary name / brand name	**OSPAMOX 500mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated tablet contains: Amoxicillin (as trihydrate)…….500mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Penicillin
	Reference to Finished product specifications	USP
	Proposed Pack size	12’s, 20’s, & 100’s

	Proposed unit price	As per DRAP approved MRP at the time of issuance of letter
	The status in reference regulatory authorities	Amoxicillin Tablets **(USFDA** Approved)
	For generic drugs (me-too status)	Oximox Tablet by CSH
	Name and address of API manufacturer.	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^{o}C \pm 2^{o}C$ / 75% ± 5% RH for 6 months. The real time stability data is conducted at $30^{o}C \pm 2^{o}C$ / 65% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is not submitted.

		CDP is performed but the name of the reference product is not mentioned against which CDP is performed.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. NCF-11/1823/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain issued by Department of Health General Directorate of Proessional Health Planning and Regulation, Government of Catalonia dated 03-07-2018 based on inspection conducted dated 22, 23, 24 and 25th May 2018. As per the certificate it is valid for 4 years.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record and raw data sheets, HPLC chromatograms and
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	Response by the firm
Valid GMP certificate of API manufacturer since the submitted GMP certificate was valid till 2019.	Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.
Verification studies of analytical method of drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for amoxicillin trihydrate.
Justify why the qualitative composition of your formulation is different from that of the reference product.	Firm has referred to the reference product having similar qualitative composition as applied.
Pharmaceutical equivalence study is not provided.	Firm has submitted pharmaceutical equivalence studies & CDP report in three dissolution medias with acceptable value of f2 factor, against the Amoxistad 500mg tablets of M/s Stada Arzneimittel, Austria.
Provide details of the reference product against which CDP studies are conducted.	Firm has submitted pharmaceutical equivalence studies & CDP report in three dissolution medias with acceptable value of f2 factor, against the Amoxistad 500mg tablets of M/s Stada Arzneimittel, Austria.
Submit COA of working standard / reference standard used in the analysis of drug substance and drug product.	Firm has submitted COA of working standard.
Justify why accelerated stability study of drug product is not conducted.	Firm has now submitted accelerated stability study data sheets for 3 different batches.
Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate.
Submit stability study data including raw data sheets and chromatograms of initial testing of all batches.	Firm has submitted stability study record for accelerated (6 months) and long-term stability studies (24 months) as per Zone IV a conditions for three batches.
Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing	As the stability studies were conducted in 2015, 2017, 2018 and 2019 the audit trail is not available. However, all HPLCs are 21CFR compliant
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger of real time and accelerated stability study chamber.

4.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s CSH Pharmaceuticals (Pvt) Ltd. 32-Km Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of novation agreement between Novartis Pharma, CSH Pharma and AGP dated 17-03-2021).
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 26-08-2019 issued on the basis of inspection dated 22-07-2019. The GMP certificate specifies Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License of M/s CSH Pharmaceuticals dated 01-08-2012 specifying Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 10673: 26-04-2022
	Details of fee submitted	PKR 75,000/-: 14-04-2022
	The proposed proprietary name / brand name	**OSPAMOX 1000mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated tablet contains: Amoxicillin (as trihydrate)…….1000mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Penicillin
	Reference to Finished product specifications	USP
	Proposed Pack size	10’s, 12’s, & 100’s
	Proposed unit price	As per DRAP approved MRP at the time of issuance of letter
	The status in reference regulatory authorities	**Could not be confirmed from any RRA**
	For generic drugs (me-too status)	Oximox Tablet by CSH
	Name and address of API manufacturer.	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -

		08520 Les Franqueses Del Valles, Barcelona, Spain
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^{o}C \pm 2^{o}C$ / 75% ± 5% RH for 6 months. The real time stability data is conducted at $30^{o}C \pm 2^{o}C$ / 65% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is not submitted. CDP is performed but the name of the reference product is not mentioned against which CDP is performed.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.
STABILITY STUDY DATA		
Manufacturer of API	SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers - Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain	

API Lot No.	B393297		
Description of Pack (Container closure system)	Alu-PVC blister		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH		
Time Period	Real time: 24 months		
Frequency	Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	17TE009	18TE017	19TE007
Batch Size	12,359 Packs	150,000 Tablets	12,500 Tablets
Manufacturing Date	06-2017	11-2018	04-2019
Date of Initiation	15-06-2017	15-11-2018	02-05-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record and raw data sheets, HPLC chromatograms and
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Evidence of approval of applied formulation in RRA is required.	Firm has referred to the "Amoxilane tablet 1000g of M/s GL Pharma GmbH, approved by AGES of Austria, verified from following web link: Register of proprietary medicinal products (basg.gv.at)

Valid GMP certificate of API manufacturer since the submitted GMP certificate was valid till 2019.	Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E - 08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.
Verification studies of analytical method of drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for amoxicillin trihydrate.
Justify why the qualitative composition of your formulation is different from that of the reference product.	Firm has referred to the reference product having similar qualitative composition as applied.
Pharmaceutical equivalence study is not provided.	Firm has submitted pharmaceutical equivalence studies & CDP report in three dissolution medias with acceptable value of f2 factor, against the Amoxilan 1000mg tablets of M/s GL pharma Austria
Provide details of the reference product against which CDP studies are conducted.	Firm has submitted pharmaceutical equivalence studies & CDP report in three dissolution medias with acceptable value of f2 factor, against the Amoxilan 1000mg tablets of M/s GL pharma Austria
Submit COA of working standard / reference standard used in the analysis of drug substance and drug product.	Firm has submitted COA of working standard.
Justify why accelerated stability study of drug product is not conducted.	Firm has now submitted accelerated stability study data sheets for 3 different batches.
Submit evidence of procurement of relevant batch of drug substances used in the manufacturing of batches of drug product whose stability data is submitted.	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate along with COA of relevant batch.
Submit stability study data including raw data sheets and chromatograms of initial testing of all batches.	As the Accelerated stability performed in 2015, raw data of initial month testing is not available. However, available raw data of Accelerated 03rd and 06th month and For Long Term Initial, 3rd, 06th, 09th, 12th, 18th and 24th month data has been provided. Firm has submitted the commitment as: "*We have submitted the stability data (commercial batches) of Ospamox 125mg Granules for oral Suspension at 40°C + 2°C/ 75% + 5% RH, 25°C + 2°C/ 60% + 5% RH & 30°C + 2°C/ 65% + 5% RH*. We *hereby commit that after the transfer of registration of product we will again conduct the stability studies of first three commercial batches and submit the complete testing."* *Stability data sheets and commitment are attached* **Firm has not provided raw data and chromatograms for stability study.**

Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing	As the stability studies were conducted in 2015, 2017, 2018 and 2019 the audit trail is not available. However, all HPLCs are 21CFR compliant
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger of real time and accelerated stability study chamber.

5.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s CSH Pharmaceuticals (Pvt) Ltd. 32-Km Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of novation agreement between Novartis Pharma, CSH Pharma and AGP dated 17-03-2021).
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 26-08-2019 issued on the basis of inspection dated 22-07-2019. The GMP certificate specifies Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License of M/s CSH Pharmaceuticals dated 01-08-2012 specifying Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 8953: 07-04-2022
	Details of fee submitted	PKR 75,000/-: 02-03-2022
	The proposed proprietary name / brand name	**Amoxi-clav 156.25mg granules for oral suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Amoxicillin trihydrate eq to Amoxicillin…….125mg Potassium clavulanate eq to Clavulanic acid……31.25mg
	Pharmaceutical form of applied drug	White to yellowish white crystalline powder
	Pharmacotherapeutic Group of (API)	Penicillin
	Reference to Finished product specifications	USP

	Proposed Pack size	60ml, 90ml & 100ml
	Proposed unit price	As per DRAP approved MRP at the time of issuance of letter
	The status in reference regulatory authorities	Augmentin suspension **(USFDA** Approved)
	For generic drugs (me-too status)	Amclav suspension by Getz Pharma
	Name and address of API manufacturer.	**Amoxicillin Trihydrate:** SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain **Potassium Clavulanate:** Lek Pharmaceuticals d.d. Verovskova 57, 1526 Ljubljana Slovenia
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Amoxicillin Trihydrate:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^oC \pm 2^oC$ / 75% ± 5% RH for 6 months. The real time stability data is conducted at $30^oC \pm 2^oC$ / 65% ± 5% RH for 60 months. **Potassium Clavulanate:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^oC \pm 2^oC$ / 75% ± 5% RH for 6 months. The real time stability data is conducted at $30^oC \pm 2^oC$ / 65% ± 5% RH for 24 months

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is not submitted. CDP is not applicable as per the firm.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	**Amoxicillin Trihydrate:** SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain **Potassium Clavulanate:** Lek Pharmaceuticals d.d. Verovskova 57, 1526 Ljubljana Slovenia		
API Lot No.	**Amoxicillin Trihydrate:** B393297 **Potassium Clavulanate:** B418839AA, B449299AA, B485491AA		
Description of Pack (Container closure system)	Amber color glass bottle		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH		
Time Period	Real time: 24 months		
Frequency	Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	17SA031	18SA026	19SA010
Batch Size	19,260 Packs	19,736 Packs	19,736 Packs
Manufacturing Date	07-2017	10-2018	05-2019
Date of Initiation	21-07-2017	06-11-2018	16-05-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Amoxicillin Trihydrate:** Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023.

		Potassium Clavulanate: Firm has submitted copy of GMP certificate (401-3/2022-5) of M/s Lek Pharmaceuticals d.d. Verovskova 57, 1526 Ljubljana Slovenia dated 24-06-2022 issued by Agency for medicinal products and medical devices of the Republic of Slovenia based on the inspection dated 18-03-2022 valid till 17-03-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The APIs were procured in 2016 for commercial batches. All APIs ware cleared from customs and DRAP as per applicable procedure.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record and raw data sheets, HPLC chromatograms and
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that as the stability studies were conducted in 2017 and 2018 the audit trail is not available. However, all HPLCs are 21CFR compliant
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger from 01-01-2018 till 09-06-2021.

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Revise label claim as per the reference product along with submission of fee. (firm has applied for clavulanic acid…125mg instead of potassium clavulanate eq to clavulanic acid 125mg).	The firm has submitted the response. The label claim is as per Innovator's/ Reference Product Each 5ml contains: Amoxicillin Trihydrate corresponding to 125mg Amoxicillin Potassium clavulinate corresponding to 31.25mg Clavulanic Acid
Verification studies of analytical method of both drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for amoxicillin trihydrate.
Justify why the qualitative composition of your formulation is different from that of the reference product.	Firm has referred to the reference product having similar qualitative composition as applied.
Pharmaceutical equivalence is not submitted.	Firm has submitted the pharmaceutical equivalence studies against reference product of Augmentin.
Submit compatibility studies of the drug product with recommended diluent / solvent.	Submitted.
Provide exact COA of RS used in stability testing. Further justify how RS of clavulanate lithium is used from Shandong New Time Pharmaceutical. Submitted COA are of 2019 and 2020 while stability batches were of 2017, 2018 and 2019.	Firm has submitted COA of USP reference standard for Clavulanate lithium (Lot#K0J130)

Submit analytical record for long term stability studies	Frim has submitted analytical record along with chromatograms.
BMR of three stability batches are not provided.	As per manufacturers procedure the BMR was destroyed after 1 year of the expiry of product However, few documents related to batch manufacturing like batch release certificate, dispensing order sheet etc are attached
Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate along with COA of relevant batch. Firm has submitted Air way bill dated 20-06-2017 for import of 600Kg of Potassium Clavulanate along with COA of relevant batch.
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger of real time & accelerated stability study chamber.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated tablet contains: Amoxicillin trihydrate eq to Amoxicillin…….250mg Potassium clavulanate eq to Clavulanic acid……125mg
	Pharmaceutical form of applied drug	White to almost white oblong film coated tablet with bevelled edges and score on both sides.
	Pharmacotherapeutic Group of (API)	Penicillin
	Reference to Finished product specifications	USP
	Proposed Pack size	2 x 3's
	Proposed unit price	As per DRAP approved MRP at the time of issuance of letter
	The status in reference regulatory authorities	Augmentin 375mg Tablets **(MHRA** Approved)
	For generic drugs (me-too status)	Amclav Tablet by Getz Pharma
	Name and address of API manufacturer.	**Amoxicillin Trihydrate:** SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain **Potassium Clavulanate:** Lek Pharmaceuticals d.d. Verovskova 57, 1526 Ljubljana Slovenia
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature,

		structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Amoxicillin Trihydrate:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. **Potassium Clavulanate:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is not submitted. CDP is performed against Augmentin Tablet.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA	
Manufacturer of API	**Amoxicillin Trihydrate:** SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain **Potassium Clavulanate:** Lek Pharmaceuticals d.d. Verovskova 57, 1526 Ljubljana Slovenia
API Lot No.	**Amoxicillin Trihydrate:** B396478, B396473, B440845 **Potassium Clavulanate:** B403093AA, B461888AA
Description of Pack (Container closure system)	Alu-alu strip
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH
Time Period	Real time: 24 months

Frequency	Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	17TA005	18TA006	19TA001
Batch Size	400,000 Tablets	400,000 Tablets	400,000 Tablets
Manufacturing Date	06-2017	05-2018	07-2019
Date of Initiation	07-06-2017	14-05-2018	16-07-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No previous product specific inspection of the manufacturer firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Amoxicillin Trihydrate:** Firm has submitted copy of GMP certificate (No. NCF-II/2222/001/CAT) of M/s SANDOZ INDUSTRIAL PRODUCTS, SA Ctra. Granollers -Cardedeu C-251, Km 4 E -08520 Les Franqueses Del Valles, Barcelona, Spain issued by Spanish Agency for Medicines & Health Products dated 13-05-2022 valid till 22/05/2023. **Potassium Clavulanate:** Firm has submitted copy of GMP certificate (401-3/2022-5) of M/s Lek Pharmaceuticals d.d. Verovskova 57, 1526 Ljubljana Slovenia dated 24-06-2022 issued by Agency for medicinal products and medical devices of the Republic of Slovenia based on the inspection dated 18-03-2022 valid till 17-03-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The APIs were procured in 2016 for commercial batches. All APIs ware cleared from customs and DRAP as per applicable procedure.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record and raw data sheets, HPLC chromatograms and
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that as the stability studies were conducted in 2017 and 2018 the audit trail is not available. However, all HPLCs are 21CFR compliant
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger from 01-01-2018 till 09-06-2021. The data logger was set at 25°C and 60% RH.

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Revise label claim as per the reference product along with submission of fee. (firm	The firm has submitted corrected formulation as per reference product.

has applied for clavulanic acid…125mg instead of potassium clavulanate eq to clavulanic acid 125mg).	**Amoxi-Clav 375mg Film Coated Tablets** Each Film coated tablet contains: Amoxicillin Trihydrate equivalent to 250mg amoxicillin and Potassium clavulanate equivalent to 125mg of Clavulanic acid. Firm has submitted fee of R/s.7,500/-
Verification studies of analytical method of both drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for both Amoxicillin & Potassium clavulanate.
Justify why the qualitative composition of your formulation is different from that of the reference product.	Firm has referred to the reference product of similar qualitative composition.
Pharmaceutical equivalence is not submitted.	Firm has submitted the pharmaceutical equivalence studies against reference product of Augmentin tablet.
How CDP results decrease with time i.e. from 81.6% to 93%, 88.1% and 81.8% in 4.5 pH acetate buffer and 88.29 to 95.17%, 90.8% and 87.1% in 6.8 pH buffer.	Due to un-stability/degradation behavior with passing time in these medium, CDP results decreased. This observation is similar in both test product & reference product.
CDP time points are significantly different from that specified in FDA dissolution database.	Both test are different. FDA dissolution data base is for development of product dissolution with defined parameters, while CDP is part of therapeutic equivalence, performed in at least three media covering the physiological range, including pH 1.2 hydrochloric acid, pH 4.5 buffer and pH 6.8 buffer. As per WHO (Technical Report Series, No. 1003, 2017) minimum of three time points (zero excluded) should be included, the time points for both reference (comparator) and test product being the same.
Significant difference in peak areas of system suitability / stanard solution in AMV and in stability studies.	Difference of peak areas has no impact for calculation of results. As peak areas are depends on brand, life, sensitivity of system & column while results calculation depends on current peak areas of standard and sample solution which eluted in same system environment.
Provide exact COA of RS used in stability testing. Further justify how RS of clavulanate lithium is used from Shandong New Time Pharmaceutical. Submitted COA are of 2019 and 2020 while stability batches were as 2017, 2018 and 2019.	Firm has submitted COA of USP reference standard for Clavulanate lithium (Lot#K0J130)
Justify long term stability studies of product at 25 degree.	Firm has submitted accelerated and long-term stability record as per Zone IV a condition for three batches.
BMR of three stability batches are not provided.	As per manufacturers procedure the BMR was destroyed after 1 year of the expiry of product However, few documents related to batch manufacturing like batch release certificate, dispensing order sheet etc are attached
Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate along with COA of relevant batch.

	Firm has submitted Air way bill dated 20-06-2017 for import of 600Kg of Potassium Clavulanate along with COA of relevant batch.
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger for accelerated and long term stability studies.

8.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s CSH Pharmaceuticals (Pvt) Ltd. 32-Km Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Firm has submitted copy of novation agreement between Novartis Pharma, CSH Pharma and AGP dated 17-03-2021).
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 26-08-2019 issued on the basis of inspection dated 22-07-2019. The GMP certificate specifies Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License of M/s CSH Pharmaceuticals dated 01-08-2012 specifying Tablet (Penicillin), Capsule (Penicillin) and Dry Powder for suspension (Penicillin) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 8956: 07-04-2022

The firm has submitted corrected formulation as per reference product. **Amoxi-Clav 1g Film Coated Tablets** Each Film coated tablet contains: Amoxicillin Trihydrate equivalent to 875mg amoxicillin and Potassium clavulanate equivalent to 125mg of Clavulanic acid. Firm has submitted fee of Rs. 7,500/- vide deposit slip# 68190325699
Verification studies of analytical method of both drug substances from drug product manufacturer is required.	Firm has submitted analytical method verification studies for both Amoxicillin & Potassium clavulanate.
Justify why the qualitative compositition of your formulation is different from that of the reference product.	Firm has referred to the reference product having similar qualitative composition as applied.
Pharmaceutical equivalence is not submitted.	Firm has submitted pharmaceutical equivalence studies against Augmentin tablet
How CDP results decrease with time i.e. from 81.6% to 93%, 88.1% and 81.8% in 4.5 pH acetate buffer and 88.29 to 95.17%, 90.8% and 87.1% in 6.8 pH buffer.	Due to un-stability/degradation behavior with passing time in these medium, CDP results decreased. This observation is similar in both test product & reference product.
CDP time points are significantly different from that specified in FDA dissolution database.	Both test are different. FDA dissolution data base is for development of product dissolution with defined parameters, while CDP is part of therapeutic equivalence, performed in at least three media covering the physiological range, including pH 1.2 hydrochloric acid, pH 4.5 buffer and pH 6.8 buffer. As per WHO (Technical Report Series, No. 1003, 2017) minimum of three time points (zero excluded) should be included, the time points for both

	reference (comparator) and test product being the same.
Significant difference in peak areas of system suitability / stanard solution in AMV and in stability studies.	Difference of peak areas has no impact for calculation of results. As peak areas are depends on brand, life, sensitivity of system & column while results calculation depends on current peak areas of standard and sample solution which eluted in same system environment.
Provide exact COA of RS used in stability testing. Further justify how RS of clavulanate lithium is used from Shandong New Time Pharmaceutical. Submitted COA are of 2019 and 2020 while stability batches were os 2017, 2018 and 2019.	Firm has submitted COA of USP reference standard for Clavulanate lithium (Lot#K0J130)
Justify long term stability studies of product at 25 degree.	Firm has submitted accelerated and long-term stability record as per Zone IV a condition for three batches.
BMR of three stability batches are not provided.	As per manufacturers procedure the BMR was destroyed after 1 year of the expiry of product However, few documents related to batch manufacturing like batch release certificate, dispensing order sheet etc are attached
Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Air way bill dated 29-11-2016 for import of 1230Kg of Amoxicillin trihydrate along with COA of relevant batch. Firm has submitted Air way bill dated 20-06-2017 for import of 600Kg of Potassium Clavulanate along with COA of relevant batch.
Submit record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Firm has submitted record of digital data logger for accelerated and long term stability studies.

Decision: Registration Board decided as under:

i. Cancelled registration of following products from the name of M/s Novartis Pharma (Pakistan) Limited, 15- West Wharf, Dockyard Road, Karachi (DML No. 000193).

S. No.	Reg. No.	Product Name & Composition
1.	**007688**	**Ospamox 125mg/5ml Dry Suspension** **Each 5ml contains:** **Amoxicillin (as Trihydrate)…125mg**

Case No. 01 Registration Status of Formulations (Diclofenac Potassium 75mg & 100mg and Famotidine 10mg/5ml) not approved by Reference Regulatory Authorities & Previous Decisions Taken by the Registration Board in its 250th & 258th Meeting.

1. Registration Board, in its various meetings considered the case regarding *"Registration Status of Formulations (Diclofenac Potassium 75mg & 100mg and Famotidine 10mg/5ml) not approved by Reference Regulatory Authorities & Previous Decisions Taken by the Registration Board in its 250th & 258th Meeting".*

2. With respect to "Diclofenac Potassium", complete record including proceedings & decisions of Registration Board and relevant decisions of DRAP's Authority have been reproduced as under:

Sr. No.	Formulation	Ref. Meeting No. of RB	Decision/Remarks
1.	Diclofenac Potassium 75mg & 100mg	M-258 *(held on 25th-26th April, 2016)*	**Decision:** Diclofenac Potassium is not registered in any reference country in dose more than 50mg, thus Registration Board decided to issue show cause notices to manufacturers of Diclofenac Potassium (75 and 100mg) for de-registration of these products.

3. With respect to Famotidine Suspension, complete record including proceedings & decisions of Registration Board and relevant decisions of DRAP's Authority have been reproduced as under:

Sr. No.	Formulation	Ref. Meeting No. of RB	Decision/Remarks
1.	Famotidine 10mg/5ml Suspension	M-250 *(held on 09th 10th July, 2015)*	***Remarks:*** ***Not approved by reference drug regulatory agencies. Internationally available formulation is dry powder for suspension in the strength of 40 mg/ 5 ml.*** ***(Ref: US FDA)*** **Decision:** i. Applicants shall revise their formulation as per innovator (new registration application with complete fee) within six months if manufacturing facility is approved by CLB. ii. For already registered drugs, same procedure as mentioned above (at Sr. No. i) shall be adopted. Otherwise show cause notice shall be issued for de-registration of registered drugs in this formulation. iii. All such application shall be processed on priority basis.

4. ***Decision taken by DRAP's Authority in its 70th meeting held on 05th Sep, 2019:***

For formulations containing "drugs" which were previously registered by the Registration Board and have proof of availability and prescription of last 10 years but are not available in the Reference Regulatory Authorities shall continue to be considered/ registered as drugs until and unless withdrawn on Safety, Efficacy and Quality reasons.

5. ***Decision of M-296 held on 08th-10th Sep, 2020:***

Registration Board deliberated the case in the light of above stated facts / opinions and decided as under:

i. *Since, all such formulations which are not approved by the Reference Regulatory Authorities; the safety and efficacy profile cannot be established in the absence of a well-established system for reporting of adverse events, so a reference shall be forwarded to DRAP's Authority with the request to review the decision taken in its 70th meeting held on 05-09-2019. In this regard, PE&R Division shall prepare a comprehensive document/agenda for consideration of Authority, keeping in view the practices adopted by RRA for all such formulations;*

ii. *For all those formulations which are registered/ applied in strengths, different from those approved by reference regulatory authorities, the registration holders/ applicants shall standardize their formulations (by submitting registration application with requisite fee, provided that the firm did not have same registration) in line with those approved by reference regulatory authorities. In this regard, recommendation shall be forwarded to DRAP's Authority to exempt all such cases/applications for standardization of formulation to be submitted on Form-5F/CTD format as notified vide SRO 713(I)/2018 dated 09-06-2018.*

iii. *Drug products withdrawn from RRA due to any commercial reason shall be considered for registration by Registration Board.*

iv. *Vitamin-mineral formulations will be considered as per vitamin policy approved by Policy Board and further adopted by Registration Board in its 295th meeting.*

Keeping in view the point (i) and in order to proceed further for effective implementation/ execution of point (ii) to (iv) of the above-mentioned decision, the Authority was requested to review the decision taken vide its 70th meeting held on 05-09-2019.

6. <u>Proceedings of M-313:</u>

i. The concept of reliance on the decisions of reference regulatory authorities adopted by the Registration Board in its 275th meeting was reiterated as deliberated during proceedings of 296th meeting with respect to instant case.

ii. Furthermore, Registration Board was apprised that a policy of reliance on reference regulatory authorities has also been approved by the Authority in its 73rd meeting held on 06-11-2019.

iii. Registration Board was also informed regarding court case (CP No.1545/2017) filed by M/s Cibex (Pvt.) Ltd., Karachi vs DRAP & others i.e, sub-judiced before the hon'ble Sindh High Court and written statement/updated registration status of such formulations on behalf of DRAP is required to be furnished.

iv. It was further deliberated that relevant registration holders/ manufacturers shall be provided with an opportunity to submit their response regarding (a) evidence for approval status of such formulation in reference regulatory authorities (b) product development data and relevant studies with respect to quality, safety and efficacy of these formulations.

7. <u>Decision of M-313 held on 16th-18th Nov, 2021:</u>

Keeping in view the detailed deliberations during proceedings of its 296th and 313th meeting, Registration Board decided as under:

i. ***To issue show cause notices to all registration holders/ manufacturers (including those listed in above tables) of below mentioned formulations under Section 7 (11)(d) of the Drug Act, 1976 that why the registration of their products may not be cancelled in the public interest. In this regard, the Board advised relevant registration sections to review the above-mentioned lists for correctness and issue notices accordingly. Moreover,***

any registration holder not included in above lists shall also be issued show cause notice after approval of Chairman Registration Board.

ii. ***Furthermore, management of these firms shall also be given the opportunity of personal hearing in the forthcoming meeting of the Board under section 42 of the Drugs Act, 1976.***

S. No.	***Formulations***
1.	*Diclofenac Potassium Tablets/ Capsules in strengths greater than 50mg*
2.	*Famotidine Suspension in strength/dosage form other than 40mg/5ml Powder for Oral Suspension.*

iii. *The Board also advised to share the updated status with hon'ble Sindh High Court if required.*

8. **Decision of 128th meeting of Authority held on 14th Dec, 2021:**

I. The Authority endorsed the recommendations of Registration Board and made following decisions:-

A. Partially reviewed its earlier decision taken in its 70th meeting held on 05-09-2019, consolidated amended decision is reproduced as under:

1. For molecules falling in the grey areas or overlapping between PE&R and H&OTC division:

a. Formulations/molecules already registered as "drugs" by Registration Board shall continue to be considered / registered as drugs irrespective of their status in Reference Regulatory Authorities until and unless withdrawn on Safety, Efficacy and Quality reasons.

b. If any such formulation was also enlisted by H&OTC Division, it will be un-enlisted. The applicants shall be advised to approach PE&R Division for processing of application for registration. For such un-enlisted applications, a separate queue shall be prepared by the PE&R Division in order to avoid discomfort to the applicants and assurance of availability of such formulations for patients.

c. This decision shall not apply to those formulations / molecules covered under Vitamin-Policy as approved by the Policy Board.

2. New formulations/molecules other than those which were already registered by Registration Board will be considered on the basis of their status in Reference Regulatory Authorities. If in the RRA, these are considered as drugs, these will be dealt by the PE&R Division while otherwise will be dealt by Health & OTC Division.

3. Endorsed the Reference Regulatory Authorities as adopted by the Registration Board from time to time and the criteria being opted to adopt RRAs. Registration Board was advised to issue a notification of adopted RRAs and comprehensive selection criteria for information and easy understanding of all relevant stakeholders.

4. Drug formulations/strengths which were previously registered by the Registration Board but are not available in any Reference Regulatory Authorities, shall be reviewed and disposed off keeping in view of safety and efficacy evidence / data in the Reference Regulatory Authorities.

B. Registration Board may decide and dispose off such formulations as and when identified/reported.

II. *The Authority further advised Registration Board to review existing RRAs for veterinary drugs and submit its recommendations to the Authority for its consideration.*

9. In line with the decision taken by the Board in its 313th meeting, show-cause/personal hearing notices were issued to **162** registration holders.

10. Accordingly, Registration Board in its 317th meeting decided as under;

For Diclofenac Potassium:

In light of the foregoing discussions, risk-benefit analysis and public health impact of Diclofenac Potassium 75mg and 100mg, the Board made following decisions:

i. Suspended all drug registrations of Diclofenac Potassium 75mg and 100mg under Section 7 (11) (d) read with Section 42 of the Drugs Act, 1976 in the larger public interest, with immediate effect as these are neither approved by any Reference Regulatory Authority nor any safety and efficacy data regarding them is available with any registration holder. Period of suspension will be for one (01) year or till demonstration of its safety and efficacy by conducting indigenous clinical trials in accordance with the Bio Study Rules, 2017 or its approval by the Reference Regulatory Authorities, whichever is earlier. After provision of aforementioned data, cases of such pharmaceutical firms shall be considered on merit by Registration Board.

ii. Suspended manufacturing and import of these drug products immediately and directed to withdraw available stocks from the market in the larger public interest. QA&LT Division, DRAP will monitor and implement the decision in coordination with the respective provincial governments.

iii. Recommended Licensing Division, DRAP for approval of Qualified person for Pharmacovigilance (QPPV) / Local Safety Officer (LSO) whichever is applicable in licensed pharmaceutical units and advised PE&R and BE&R Divisions for implementing similar action for importers of finished drug products as required under Pharmacovigilance Rules, 2022.

iv. Final decision regarding pharmaceutical firms who have obtained interim relief from the Hon'ble Lahore High Court, Lahore shall be announced after decision and direction by the Hon'ble Court. Legal Affairs Division is requested to place the instant decision before the Hon'ble Court and seek expeditious disposal of the matter in the larger public interest.

v. Recommended DRAP Authority for out of queue consideration of registration applications of Diclofenac Potassium 50mg, 25mg and 12.5mg Tablet and 50mg Sachet in order to facilitate the registration holders affected by the instant decision.

For Famotidine Suspension:

In light of the foregoing discussions, risk-benefit analysis and public health impact of Famotidine 10mg/5ml and 40mg/5ml, the Board made following decisions:

i. Suspended all drug registrations of Famotidine 10mg/5ml and 40mg/5ml Liquid Suspension under Section 7(11)(d) read with Section 42 of the Drugs Act, 1976 in the larger public interest, with immediate effect as neither approved by any Reference Regulatory Authorities nor efficacy data is available with any registration holder. Period of suspension will be for one (01) year or till demonstration of efficacy by conducting indigenous clinical trials in accordance with Bio Study Rules, 2017 or approval by Reference Regulatory Authorities whichever is earlier. After provision of aforementioned data, cases of such pharmaceutical firms shall be considered on merit by the Registration Board

ii. Suspended manufacturing and import of these drug products immediately and directed to withdraw available stocks from the market in the larger public interest. QA&LT Division, DRAP will monitor and implement the decision in coordination with the respective provincial governments.

iii. Final decision regarding pharmaceutical concerns who have obtained interim relief from the Hon'ble Lahore High Court, Lahore shall be announced after decision and direction by the Hon'ble Court. Legal Affairs Division is requested to place the instant decision before the Hon'ble Court and seek expeditious disposal of the matter in the larger public interest.

iv. Recommended DRAP Authority for out of queue consideration of registration applications of Famotidine 40mg/5ml Dry Suspension in order to facilitate the registration holders affected by the instant decision.

11. Accordingly, suspension letters have been issued to all the firms. However, inadvertently following registration holders of Famotidine Suspension 10mg/5ml and Diclofenac Potassium 75mg & 100mg Tablet could not be included in the list previously presented before the Board. Detail is as under;

Famotidine Suspension 10mg/5ml			
Sr. No.	**Reg. No.**	**Brand Name & composition**	**Registration Holder**
1.	025157	Gimed Suspension Each 5ml contains:- Famotidine 10mg	M/s. Albro Pharmaceutical (Pvt) Ltd. 340-S Industrial Area, Lahore.
2.	027948	Famron Suspension Each 5ml contains:- Famotidine 10mg	M/s. PDH Pharmaceuticals Pvt Ltd, 19-km, Ferozpur Road, Lahore
3.	059498	Fedcid Suspension Each 5ml contains:- Famotidine USP……..10mg	Fedro Pharmaceutical Labs (Pvt) Ltd. 149-Industrial Estate Jamrud Road Peshawar.
Diclofenac Potassium 75mg Tablet

2.	021599	Moven Tablet Each tablet contains:- Diclofenac Potassium….75mg	Fedro Pharmaceutical Labs (Pvt) Ltd. 149-Industrial Estate Jamrud Road Peshawar.
3.	036815	Dic-P 75mg Tablets Each tablet contains:- Diclofenac Potassium….75mg	M/s. Shaheen Pharmaceuticals 3 K.M Murghzar Road Saidu Sharif Swat
4.	058262	Velflex 75mg Tablet Each film coated tablet contains:- Diclofenac Potassium...75mg	Kaizen Pharmaceuticals (Pvt) Ltd. Plot No. E-127 E-128 & E-129 North Western Industrial Zone Port Qasim Authority Karachi
5.	058263	Velflex 100mg Tablet Each film coated tablet contains:- Diclofenac Potassium...100mg	Kaizen Pharmaceuticals (Pvt) Ltd. Plot No. E-127 E-128 & E-129 North Western Industrial Zone Port Qasim Authority Karachi

Decision: Registration Board deferred the case for decision of Drugs Appellate Board.

Case No. 02 M/s. Health Care Pharmaceuticals 40-Km, Lahore Road Multan.

Registration Board in its 293rd meeting approved following product of M/. Health Care Pharmaceuticals 40-Km, Lahore Road Multan. Detail is as under;

Sr. No.	**Name of Drug(s) with composition**	**Decision of 293rd meeting of Registration Board**
1.	COUGHGO SYRUP Each 5ml contains Sodium citrate……..58mg Chlorpheniramine maleate……...2mg Ammonium Chloride …100mg Manufacture specs	**Approved with change of brand name**

Later on, during review of products it was transpired that above stated formulation is not approved in any reference regulatory authority.

Decision: Registration Board deferred the case for further deliberation.

Case No. 03 M/s. Saffron Pharmaceuticals (Pvt.) Ltd; 19 Km, Sheikhupura Road, Faisalabad

M/s. Saffron Pharmaceuticals (Pvt.) Ltd; 19 Km, Sheikhupura Road, Faisalabad were granted registration of following products with MRP demanded by the firm as mentioned in the minutes. However, the firm has submitted a request that these MRPs are not viable for manufacturing and they unable to manage the cost. Same case was placed in 2nd meeting of C&P Division & PE&R Division and it was decided in said meeting that "The MRPs were granted to firm as per their demand, hence the request of the firm cannot be acceded for revision in MRP, firm may approach C&P Division". The detail is given below:-

S. No.	Reg. No. & Date	Name of Drug(s) with composition	Existing MRP & Pack size
1.	057446 29-04-2009	Dystrone Tablet Each tablet contains:- Dydrogesterone …… 10mg (BP Specifications)	Rs.25/20's
2.	081383 27-07-2016	Episaf 250mg Tablet Each film coated tablet contains:- Levetiracetam …… 250mg (USP Specifications)	Rs.40/1x10's

Later on, firm has submitted fresh applications for product Episaf 250mg Tablet in 293rd meeting and registration letter has also been issued with following details

S. No.	Reg. No. & Date	Name of Drug(s) with composition	Existing MRP & Pack size
1.	102374 29-04-2020	Episaf 250mg Tablet Each film coated tablet contains:- Levetiracetam …… 250mg (USP Specifications)	Rs.787.00 / 30s

For product Dystrone 10mg Tablet, firm has also submitted fresh application which was approved in 313th meeting but registration letter was not yet issued as it was revealed during scrutiny of record that firm has already been granted registration of said product as mentioned above.

Now firm has applied for correction in MRP of Dystrone 10mg Tablet (Reg. No. 057446) as per of C&P Division's letter No. F. 11-12/2021-DD (P) dated 25-06-2021 regarding "Clarification with respect to issuance of revised MRP where the applicant/ pharmaceutical concern had demanded lower MRPs at the time of submission of application for registration" clarified as under;

> The matter was placed before Drug Pricing Committee (DPC) in its 48th meeting held on 03-06-2021 and DPC after considering statutory construction of law, provisions of Drug Pricing Policy-2018 and facts, decided as under;
>
> ***"MRPs of generics are fixed with prospective effect on uniform basis under Drug Pricing Policy- 2018 without regard to a particular brand or applicant. Therefore, all applicants whose registration letters are issued under sub-rule (4) of rule 29 of the Drugs (Licensing, Registration and Advertising) Rules, 1976 after notification of MRPs are entitled for notified MRPs. If a lower MRP is issued to any applicant on the basis of an initial demanded MRP, it will create anomalies against provision of paragraph 12(5) of the Drug Pricing Policy-2018. Therefore, applicants be issued with SRO notified MRPs instead of initial demanded prices. Moreover, corrigendum be issued to applicant companies if initial demanded MRP was notified in registration letter instead of SRO notified MRP under section 12 of the Drugs Act,1976 after approval by the Federal Government.".***

Decision: Registration Board decided to issue show cause notice under section 42 of the Drugs Act, 1976 read with Rule 7 (11) of The Drug (L, R & A) Rules, 1978 to M/s. Saffron Pharmaceuticals (Pvt.) Ltd., Faisalabad for cancellation of Episaf 250mg Tablet (Reg. No. 102374). The Board further decided that registration letter shall not be issued to the firm for product Dystrone 10mg Tablet approved in 313th meeting, as the firm already holds registration of same product.

Case No. 04 M/s. Shrooq Pharmaceuticals (Pvt) Ltd 21-Km Ferozepur Road, Lahore

Registration Board in its 226th meeting considered the following application of M/s. Shrooq Pharmaceuticals (Pvt) Ltd 21-Km Ferozepur Road, Lahore. Detail is as under:-

Sr. No.	Name of Drug(s)	Demanded Pack Size/Price	Decision	Remarks
1.	Tdol Capsule Each capsule contains:- Tramadol Hydrochloride …….. 50mg	10's/ As Per SRO	Deferred for confirmation of separate section by licensing section.	MHRA Approved. Product is available in BP.

Firm has submitted following documents;

i. Form 5
ii. Photocopy of fee challan of Rs.8000/- and fresh submission of Rs.12,000/- dated 24-08-2022.
iii. Section approval of Capsule (General).
iv. Firm has submitted copy of GMP Certificate issued based upon evaluation conducted dated 29-10-2021.

Decision: Registration Board approved registration of above product in the name of M/s. Shrooq Pharmaceuticals (Pvt) Ltd 21-Km Ferozepur Road, Lahore. Registration letter shall be issued after verification of fee of Rs.8000/- as per decision of 285th meeting and submission of fee of Rs.7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

Case No.05 Correction in Minutes of Registration Board Meetings.

i. M/s Briell Pharmaceuticals Pvt. LTD. 538-C, Sundar Industrial Estate, Lahore.

Registration Board in its 295th meeting approved following product of M/s Briell Pharmaceuticals Pvt. LTD. 538-C, Sundar Industrial Estate, Lahore. Registration letter was not issued as there is some typo error while drafting decision of Registration Board. Details are as under;

Sr. No.	Name of Approved Drug(s) & Composition	Decision of 307th Meeting of RB	Remarks
1.	Cvox Dry Powder Suspension 250mg Each 5ml contains: Ciprofloxacin as HCl…250mg Innovator Source M/s. Vision	**Approved with USP specifications and with following composition / label claim:** **Each 5ml of reconstituted suspension contains:** **Ciprofloxacin……125mg**	Registration letter not yet issued

Firm had submitted receiving of registration application which reveals that applied strength is 250mg instead of 125mg and firm has also applied for registration of 125mg for which registration letter has also been issued.

Decision: Registration Board decided to approved the correction in decision of above product with following details.
"Approved with USP specifications and with following composition / label claim:
Each 5ml of reconstituted suspension contains:
Ciprofloxacin……250mg"
Details of diluent shall be added as per decision of 290th meeting.

Case No.06 Registration of M/s. Medipak Ltd. Plot No 132 Industrial Estate Kot Lakhpat, Lahore.

The Registration Board has deferred following products of M/s Medipak, Lahore in 286th meetings for confirmation of approval status in RRA. Detail is as under;

S. No.	Name of Drug(s) with formulation	Demanded MRP/Pack size	Previous Remarks	Current Remarks
1.	Voluven Infusion Solution. Each 1000ml Contains:- Poly(O-2-Hydroxyethyl) starch (Hydroxyethyl starch 130/0.4)……60.0gm Sodium Chloride……..9.0gm	Rs.521.70 /500ml	Approval status in SRA not confirmed	Approved in TGA Australia as under; Poly (O-2-Hydroxyethyl) starch (Hydroxyethyl starch 130/0.4)……60.0gm/L **Excipient;** Sodium Chloride…9.0gm

Registration Board in its 297th meeting deferred the product for confirmation of formulation of Innovator Product.

Now firm has submitted fee of Rs.5000/- dated 18-03-2021 for correction of formulation as per reference as in TGA Sodium Chloride is mentioned as an excipient.

Decision: Registration Board decided as under;

a. **Approved registration of above product in the name of M/s. Medipak Ltd. Plot No 132 Industrial Estate Kot Lakhpat, Lahore with following label claim.**
   Each 1000ml Contains:-
   Poly(O-2-Hydroxyethyl) starch
   (Hydroxyethyl starch 130/0.4)……60.0gm
   Excipient;
   Sodium Chloride……..9.0gm

b. **Registration letter shall be issued after verification of fee as per decision of 285th meeting and submission of fee of Rs.7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

Case No.07 Registration of Drug M/s. Synchro Pharmaceuticals 77-Industrial Estate Kot Lakhpat Lahore

Registration Board in its 228th meeting approved the following products of M/s. Synchro Pharmaceuticals 77-Industrial Estate Kot Lakhpat Lahore and the firm has informed that they have not yet got registration letter:-

Sr. No.	Name of Drug(s)	Demanded Pack Size/Price	Remarks
1.	Teraxone Injection IM Each vial contains:- Ceftriaxone(as sodium)…..500mg (USP Specifications)	Rs.240.00 Per Vial	Product is approved in MHRA
2.	Teraxone Injection IM Each vial contains:- Ceftriaxone (as sodium)…..250mg (USP Specifications)	Rs.140.00 Per Vial	Product is approved in MHRA.

Firm has submitted following documents;

i. Form 5
ii. Fresh submission of Rs.30,000/- dated 25-03-2022.
iii. Section approval of Dry Powder Injection (Cephalosporin).
iv. Firm has submitted copy of GMP Certificate issued based upon evaluation conducted dated 22-01-2021.

Decision: Registration Board approved registration of above product in the name of M/s. Synchro Pharmaceuticals 77-Industrial Estate Kot Lakhpat Lahore.

Case No.08 Registration of Drug M/s. Medisearch Pharmacal (Pvt) Ltd. 5 Km Raiwind Manga Road, Lahore.

Registration Board in its 237th meeting considered following products of M/s. Medisearch Pharmacal (Pvt) Ltd. 5 Km Raiwind Manga Road, Lahore. As per minutes of 237th meeting of Registration Board, firm has previously applied for registration of above stated products by way of contract manufacturing from M/s. Dyson and M/s. Mcolson and then requested to register these products at their own facility as firm has established their own facility to manufacture these products. Detail is as under;

Sr. No.	Name of Drug(s)	Demanded Pack Size/Price	Decision M-237	Remarks
1.	Medipram Tablets 10mg Each Film Coated Tablet contains:- Escitalopram (as Oxalate) ... 10mg (Manufacturer Specifications)	Rs.600.00 14's	Deferred. The firm has not submitted differential fee	MHRA Approved Product is available in USP
2.	L-Pride 50mg Tablets Each tablet contains:- Levosulpiride…….50mg (Manufacturer Specifications)	Rs.360.00 20's	Deferred. The firm has not submitted differential fee	Approved in Italy. Product is not available in any Pharmacopoeia.

Firm has submitted following documents;

i. Form 5
ii. Photocopy of fee challan of Rs.8,000/- and 12000/-.
iii. Firm has submitted GMP Certificated issued based upon evaluation conducted on 22-02-2021.

Decision: Registration Board approved registration of above product in the name of M/s. Medisearch Pharmacal (Pvt) Ltd. 5 Km Raiwind Manga Road, Lahore. Registration letter shall be issued after verification of fee as per decision of 285th meeting and submission of fee of Rs.7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

Case No.09 Transfer of Registration from M/s. Horizon Healthcare (Pvt) Ltd. 35-A, Punjab Small Industrial Estate, Taxila to M/s Horizon Healthcare (Pvt.) Ltd., 33- Sundar Industrial Estate, Lahore.

1.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Horizon Healthcare (Pvt.) Ltd., 33- Sundar Industrial Estate, Lahore**
	Name, address of Manufacturing site.	M/s Horizon Healthcare (Pvt.) Ltd., 33- Sundar Industrial Estate, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale

		☒ Domestic and Export sales
	Evidence of availability of manufacturing facility	Firm has submitted copy of GMP certificate issued on basis of inspection conducted on 18-06-2020 wherein availability of tablet general section is confirmed.
	Dy. No. and date of submission	Dy. No 12558 R&I dated 23-05-2022
	Details of fee submitted	Rs.30,000/- dated 23-05-2022
	The proposed proprietary name / brand name	**Doxelo Capsule 30mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Capsule Contains: Enteric coated pellets of Duloxetine Hydrochloride equivalent to Duloxetine …… 30mg
	Pharmaceutical form of applied drug	Capsule
	Pharmacotherapeutic Group of (API)	Antidepressants
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	As Per SRO
	Proposed unit price	As Per SRO
	The status in reference regulatory authorities	Approved by USFDA
	For generic drugs (me-too status)	Lyta capsule of M/s Getz Pharma
	GMP status of the Finished product manufacturer	Firm has submitted copy of GMP certificate issued on basis of inspection conducted on 18-06-2020.
	Name and address of API manufacturer.	SURGE LABORATORIES (PVT) LTD. 10th KM, Faisalabad Road Bikhi, District Sheikhupura –Pakistan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance from M/s Surge Labs Limited and drug product from the M/s Horizon Healthcare. Batch manufacturing records have also been submitted for all three stability batches.
	Module III (Drug Substance)	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures, method validation from M/s Horizon, batch analysis and justification of specification, reference standard COA form USP,

		container closure system and stability studies of from M/s Surge Labs.
	Stability studies of drug substance	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability studies.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence & CDP studies in three dissolution mediums against the reference product "Lyta capsules" of M/s Getz Pharma, has been submitted with acceptable results of similarity factor.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies of the drug substance and the drug product.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted valid DML/GMP Certificate of Symed Labs Limited Unit-III, Plot No. 19 & 20, Phase-I, IDA, Jeedimetla, Hyderabad, Telangana, India, issued by DCA Telangana valid up to 29/09/2022
3.	Documents for the procurement of API with approval from DRAP (in case of import).	--
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record and analytical record.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of Evaluator[II]:

Sr.#	Section#	Observation	Firm's response
1.	**3.2.S.4.1**	Submitted drug substance specifications shall declare the %age w/w of the drug substance in pellets.	Firm has submitted revised specifications declaring the percentage content as 20%w/w for Duloxetine HCl pellets as per supplier's COA.
2.	**3.2.P.2.2.1**	Justification shall be submitted for not performing Pharmaceutical Equivalence & CDP studies against the innovator product	Doxelo me too status is available in market so CDP studies have been performed with local brand.
3.	**3.2.P.5.2**	Justify variation in the standard concentration applied in the dissolution test form that recommended by USP monograph.	Firm has submitted that we adjusted the concentration of standard as per sample concentration.

Decision: Registration Board decided as follows:

a. **Cancellation of registration of above mentioned product from the name of M/s. Horizon Healthcare (Pvt) Ltd. 35-A, Punjab Small Industrial Estate, Taxila.**

Case No. 10 Complaint from Pakistan Citizen's Portal Regarding Manufacturing of Same Product with Two Different Brand Names.

A complaint has been received from Prime Minister's Performance Delivery Unit (PMDU), Pakistan Citizen's Portal that M/s. Pacific Pharmaceuticals 30Km Multan Road, Lahore is manufacturing a product by two names and the firm also marketing the products with two different MRPs i.e Rs.355.56 for Plasenzyme & Rs.227.13 for Plasil witth Enzyme. The details are given as under:-

Sr.#	Reg. No.	Product Name and Composition
1.	021646	Plasenzym Tablet Each tablet contains: - Metoclopramide HCl ……..…… 6mg Sodium dehydrochlolate ……... 20mg Bromelain Proteolytic unit …….. 35,000 Pancreatin FIP Proteolytic unit …… 210 Simethicon …… 50mg
2.	012130	Plasil with Enzyme Tablet Each tablet contains: - Metoclopramide HCl ……..…… 6mg Sodium dehydrochlolate ……... 20mg Bromelain Proteolytic unit …….. 35,000 Pancreatin FIP Proteolytic unit …… 210 Simethicon …… 50mg

M/s. Pacific Pharmaceutical Lahore has submitted following documents:-

i. Copy of registration letter of **Plasil with Enzyme Tablet** (Reg.No.012130) dated 02-01-1991 registered in the name of M/s. Pacific Pharmaceuticals Ltd; 29th Km Multan Road, Lahore. Previously this drug was registered in the name of M/s. Mars Pharma, Lahore in finished import under the brand name **Plasil Enzymatico (Reg.No.002659)** manufactured by M/s. Lepitit Millan Italy and transferred to M/s. Isman Drug House, 26 Commercial Building Shahra-e-Quaid-e-Azam Road, Lahore **dated 18th November, 1978**

ii. Copy of registration letter of **Plasenzym Tablet (Reg.No.021646) dated 20-05-1998** registered in the name of M/s. Pacific Pharmaceuticals Ltd; 29th Km Multan Road, Lahore.

It is submitted that the firm has not provided any evidence regarding change of registration status from M/s. Isman Drug House Lahore to M/s. Pacific Pharmaceutical, Lahore. Now firm contains two registrations of same formulation with two different brand names in local manufacturing and marketing with two different MRPs as complained stated above.

Registration Board in 297th meeting decided to issue show cause to M/s. Pacific Pharmaceutical, Lahore.

Accordingly show cause notice has been issued to the firm and firm has submitted a reply which is as under;

1. This is in regards to the Show Cause Notice received by Pacific Pharmaceuticals (Private) Limited's (the "Company") dated 21st October 2021 in regards to the registration of two different brand names for the same product.
2. That the Plasil with Enzyme bearing Registration No. 012130 was a registered product of Isman Drug House, a parent company of the Company, whereby the same was being imported by the Isman Drug House at that time, which was later on transferred to the Company for manufacturing locally. Furthermore, the Plasenzym bearing Registration No. 021646 is a product registered by the Company itself, since, one of the old products was

transferred to our Company, we started using both names to avoid disrupting the market. That both products are owned and are being manufactured by the Company not to defraud the public but in order to help them carry on with the product name they are comfortable with and have been using for decades.

3. It is pertinent to mention here that; several other companies are following the same market practice in order to cater to different segments or regions of the market. Please see below the similar products of only one company, Global Pharmaceutical, marketing its medicines under several brand names.

Sr. No.	Product Name	Generic	Registration Holder
1.	Norbac injection 250mg IV	Ceftrixone	M/s. Global Pharmaceuticals (Pvt) Ltd., Plot No 204-205 Kahuta Triangle Industrial Area Islamabad

4. Furthermore, the above-mentioned products belong to one single company who is marketing several of its products under different brand names having similar salts. There are several other companies involved in the same practice in order to cater different demands and regions.
5. This practice does not constitute to any sort of violation; hence, it is respectfully prayed that the Authority may kindly suspend the working of its Show Cause Notice dated 21st October 2021.

As per above reply of the firm, stance of the firm is not justified as all above stated products are not registered products of M/s. Global.

Decision of 316th meeting of registration Board:

Registration Board decided to call M/s. Pacific Pharmaceuticals Limited, Lahore for personal hearing for cancellation of one of above-mentioned products registered in their name.

Accordingly, firm has been called for personal hearing at 12.30 P.M.

Proceedings of 317th Meeting:

Mr. Gazi Mustansar Riaz appeared on behalf of firm and requested to re-schedule the hearing as their technical head is on medical leave.

Decision of 317th Meeting

Registration Board considered the request of the firm and decided to postpone the personal hearing till forthcoming meeting of the Board.

Accordingly, firm has been called for personal hearing at 12.30 P.M

Proceeding of 320th Meeting:

Registration Board was informed that firm has applied for cancellation of registration of product at Sr. No. 1 of para-1 Plasenzym Tablet (Reg. No. 021646) in the name of M/s. Pacific Pharmaceuticals 30Km Multan Road, Lahore and registration of same in the name of M/s. Pacific Pharmaceuticals Ltd Ravi Lane, Plot No. 384, Sundar Industrial Estate, Raiwind Road, Lahore by way of contract manufacturing from M/s. Pacific Pharmaceuticals 30Km Multan Road, Lahore. Hence, personal hearing is not required, as firm has already applied for cancellation of registration of one of the product Plasenzym Tablet (Reg. No. 021646).

Decision: Registration Board decided to withdraw the show cause notice issued in the name of M/s. Pacific Pharmaceuticals 30Km Multan Road, Lahore and advised PE&R Division to place the case before the Board after its evaluation.

Referred case of 80th PRVC

Decision 84th PRVC: ***The Committee considered the case and referred the product to Registration Board after confirmation of Tablet (Psychotropic) section.***

Update Status

The firm has provided evidence of approval of Tablet (Psychotropic) Section by the Licensing Division vide letter No F.2-13/85-Lic(Vol-V) dated 31/06/2022.

Decision: Registration Board approved above mentioned product of M/s Indus Pharma (Pvt.) Ltd, Plot No. 26-27, 63-67, Sector-27, Korangi Industrial Area Karachi for export purpose only. The firm shall comply with all rules and regulations specified for export of controlled drugs.

Case No.01: Change of Specifications / Standardization

Sr. No.	Reg. No.	Name of Product with existing composition, Specifications	Name of Product with proposed Change in Specifications	Initial Date of Registration Renewal Application	Remarks
I	II	III	IV	V	VI
iii. M/s. Synchro Pharmaceuticals, Lahore					
1.	044749	Matilda –D Syrup Each 5ml contains:- Calcium Phosphate (tribasic)……210mg Vitamin D3…350Units	Matilda –D **Suspension** Each 5ml contains:- Calcium Phosphate (tribasic)……210mg Vitamin D3……350Units	18-01-2007 17-01-2017 12-01-2017 Renewal is ok	Fee Rs. 10,000/- deposited for each product dated 21-06-2021 Dy. No. 25297 R&I dated 10-09-2021 Dy. No. 1370PR-II dated 13-09-2021

Remarks:-

- Both the ingredients used in formulation are below RDA level, accordingly does not fall under the category of drug as per current vitamin policy.
- The firm has provided the evidence of generic status as follows:-

Name of product	Calcium –P suspension
Registration no.	005761
Composition of generic status	Each 5ml contains:- Calcium Phosphate (tribasic) …210mg Vitamin **D3**……350 IU
Unit carton of available formulation	Not provided

Decision 68th PRVC	The Committee considered and deferred the request as both the ingredients used in formulation are below RDA level, accordingly does not fall under the category of drug as per decision of 295th meeting of Registration Board.

Fresh / Reply by the firm

The committee has deferred the request as both ingredients used in formulation are below RDA Level. In the view of above-mentioned decision, the firm has again resubmitted the application as their formulation is previous registered in their name and they also submit the evidence of same formulation registered with Suspension Specification of different firms. In the above scenario the firm has requested to allow print Matilda-D Suspension instead of Syrup as their products is supply to different government hospital etc.

Decision 74th PRVC	The Committee considered and deferred the request for submission of reference of innovator's product/similar formulation approved in RRA. Moreover, reference regarding formulation of generic versions available (in suspension form) to be provided by the firm.

Updated status: Firm has submitted unit carton as evidence of availability of proposed formulation in local market as follows: **Calcium-P suspension** **Reg No 005761** **M/s PDH Pharmaceutical Pvt Ltd**	
Decision 76th PRVC	The committee considered the case and referred it to Registration Board.
Decision 316th meeting: ***Registration Board considered the case and deferred the request of firm for submission of Batch Manufacturing Record to clarify whether firm has been manufacturing Matilda –D Syrup (Reg No 044749) in suspension form or syrup form.***	

Updated Status:

Now the firm has submitted Batch Manufacturing Record confirming firm has been manufacturing above mentioned product in suspension form, moreover firm has further clarified that Calcium Phosphate (tribasic)is poorly soluble in water hence its formulation is oral liquid suspension.

Decision: Registration Board considered the case and acceded to request of firm for standardization/correction of nomenclature of dosage form of Matilda –D Syrup (Reg No 044749) as suspension from syrup.

Case No 2 Application for Change of Formulation of Already Registered Drug Rifapin-H Plus Powder Suspension

M/s Schazoo Zaka (Pvt) Ltd have applied for change of formulation for their already registered product "**Rifapin H Plus Powder Suspension (Reg No. 071498)**" dated 30.06.2020. The initial registration of the said product was granted to the firm on 04.09.2012. The details of the already registered formulation and proposed revised formulation of the firm along with its approval status in reference regulatory authorities is provided in the table below:

Already registered formulation of the firm	**Newly applied formulation by the firm**	**RRA approved formulation**
Each 5ml contains: Rifampicin……150mg Isoniazid……75mg	Each 5ml of reconstituted suspension contains: Rifampicin……150mg Isoniazid……100mg	Each **dispersible tablet** contains: Rifampicin…. 75 mg Isoniazid…… 50 mg Each **film coated tablet** contains Rifampicin……..150 mg Isoniazid……..75 mg

According to firm they have applied to change formulation in line with the revised dosing published in the 2014 WHO Guidance on childhood TB. Firm has further submitted that Dry Powder Suspension form is mother and child friendly. It is the conventional and convenient method of consuming medicine. Mostly mothers can easily administer reconstituted suspension as compared to sachet or dispersible tablet. WHO prefers dispersible tablet just to avoid the heavy freight cost for Dry Powder Suspension (include weight of bottle and cap). The reason is not due to any quality, safety or efficacy.

As per the summary of product characteristics of Isoniazid/rifampicin 50mg/75mg dispersible tablets of Macleods Pharmaceuticals Ltd, Reference Number: TB302 a WHO Prequalified Medicinal Products the dose of isoniazid/rifampicin for prevention or treatment of tuberculosis (TB) in children weighing less than 25 kg is as follows:

Patient's weight	Dose (isoniazid/rifampicin)	Number of [TB302 trade name] tablets
4-7 kg	50mg / 75mg	1
8-11 kg	100mg / 150mg	2
12-15 kg	150mg / 225mg	3
16-24 kg	200mg / 300mg	4
> 25 kg	--*	--*

*For these patients, formulations containing more isoniazid/rifampicin should be used.

(Accessed on 04.07.2022 at https://extranet.who.int/pqweb/sites/default/files/TB302part4v2_0.pdf).

It is evident that the newly applied formulation is not approved by any reference regulatory authority nor is part of WHO essential model list / WHO prequalified medicinal product list and not recommended as a single dose / dosage form by any clinical guidelines. The newly applied formulation is different from the reference product both in terms of strength as well as dosage form.

Decision: **Registration Board considered the case and deferred the request of firm for rationale of proposed change. Since applied formulation is neither approved by any reference regulatory authority nor is part of WHO essential model list / WHO prequalified medicinal product list. Moreover, applied formulation is different from the reference product both in terms of strength as well as dosage form.**

Case No. 3: Change in status of Product Registration Holder from Drug Manufacturing License (000234) to Drug Sale License without change in manufacturing site.

M/s Bayer Pakistan (Pvt) Limited has applied for change of registration status of already registered products as follows:

DML Site (current)	DSL Site (Proposed)	
DML No. 000243 Bayer Pakistan Pvt Ltd Plot No. 108, Quaid-e-Azam Industrial Esate, Kot Lakhpat, Lahore Pakistan	**DSL No. 01. Bayer Pakistan Pvt Ltd. Plot No. 23 Sector No. 22, Korangi Industrial Area, Karachi 74900, Pakistan**	**Manufacturing site shall remain same i.e M/s Novartis pharma, C-21, S.I.T.E Karachi**

Following are the products applied by the firm for proposed change:

S. No.	Products Details	Reg. No.	Fee Paid
1	Canesten 1, Vaginal Cream with applicator	107229	Fee of Rs. 30,000/- (Deposit Slip No. 3620099532)
2.	Canesten Clotrimazole Cream	107227	Fee of Rs. 30,000/- (Deposit Slip No. 60106706910)
3.	Canesten 1 Vaginal Tablet 0.5g	107224	Fee of Rs. 30,000/- (Deposit Slip No. 7993597883)
4.	Baycuten N Cream	012639	Fee of Rs. 30,000/- (Deposit Slip No. 635276035343)
5.	Canesten 6 Vaginal Tablet of 0.1g	107226	Fee of Rs. 30,000/- (Deposit Slip No. 60106706910)
6.	Canesten Extra Bifonazole Cream	107226	Fee of Rs. 30,000/- (Deposit Slip No. 017332495525)

7.	Baydal Tablet	109734	Fee of Rs. 30,000/- (Deposit Slip No. 540447322218)

According to firm proposed change is with reference to rule 20A 1 (c) of SRO 1347(I)/2021 dated 15th October,2021.

"*a foreign pharmaceutical company (manufacturer or marketing authorization holder) having drug sale licence in Pakistan for their research, innovator, originator drug products or drug products already registered for sale by any of reference regulatory authorities adopted by the Registration Board;"*

Decision: Registration Board after deliberation deferred the request and advised the firm to explain relevant rule for consideration of the proposed change.

VETERINARY CASES

Case.No.01:- Request of M/s. Nawal Pharmaceuticals, Taxila Registration of Drugs.

M/s. Nawal Pharmaceuticals, Taxila has requested for registration of following veterinary products for local manufacture in their name and cancellation of same from the name of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.

S. No.	Reg. No.	Name of Drug(s)/ Composition	Already Approved Pack Size(s)	Initial Date of Registration	Date of Application Receiving in R&I-DRAP
1.	059179	Pro VADE Injection Each ml contains:- Vitamin A……..80,000IU Vitamin D3……40,000IU Vitamin E……....20mg	10ml 20ml 50ml 100ml	18-08-2009 31-07-2019	17-03-2021
2.	059133	HIT-CRD Injection Each ml contains:- Tylosin Tartrate……...50mg Colistin Sulphate…….10mg Streptomycin…….100mg	10ml 20ml 50ml 100ml	01-08-2009 30-07-2019	17-03-2021
3.	059108	Tylogent Injection Each ml contains:- Gentamycin (as Sulphate)…..50mg Tylosin (as Tartrate)…….100mg	50ml 100ml	01-08-2009 30-07-2019	17-03-2021
4.	059120	Spectral Injection Each ml contains:- Lincomycin (as HCI)……50mg Spectinomycin (as HCI)…..100mg	50ml 100ml	01-08-2009 30-07-2019	17-03-2021

M/s. Nawal Pharmaceuticals, Taxila has deposited the required fee Rs.20,000 x 4 = Rs.80,000/- and submitted following supporting documents:-

(i) Original NOC dated 26-01-2021 & 15-03-2021 from M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.
(ii) Copy of initial registration letters and renewal status.
(iii) Copy of Drug Manufacturing License.
(iv) GMP inspection report conducted on 29-10-2018 DML No.000735 (Formulation).
(v) Copy of approved sections.
(vi) Applications on Form 5.
(vii) Undertaking.

Registration Board in its 307th meeting defer the case for seeking opinion from Legal Division as the Central Licensing Board in its 280th meeting held On 26th & 27th April, 2021 cancelled the Drug Manufacturing License No.000659 (Formulation) of M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.

Accordingly letter issued to Legal Division for seeking opinion from Legal Division. In response the Legal Division has informed that as per available facts/record of the case, M/s. Breeze Pharma, Islamabad issued various NOC's to different firms for transfer of registration of products from its name to other manufacturer. Central Licensing Board cancelled the Drug Manufacturing License of the said firm in its 280th meeting held on 26th & 27th April, 2021. Hence, this Division is opined that those from who got NOC's from M/s. Breeze Pharma, Islamabad and applied well within time for transfer of registration to PE&R Division before

cancellation of Drug Manufacturing License, their cases for transfer of registration may be processed by the Division in accordance with law.

Registration Board in its 312th meeting decided as follow;

(a) Deferred products for NOC clarification.

The NOC of above mentioned products have also been issued to M/s. Nawal Pharmaceuticals, Taxila by M/s. Breeze Pharma, Islamabad. I/we on behalf of M/s. Eterna Pharma (Pvt) Ltd., Mirpur, AJK hereby request you to transfer the registration alongwith brand name of the following products to M/s. Nawal Pharmaceuticals, Taxila, so that M/s. Nawal Pharmaceuticals, Taxila should be able to manufacture these products in their own name. We have no objection regarding the transfer of the registrations alongwith brand name of the above products.

Decision:- Registration Board decided as follow;

(a) Approved cancellation of registration of above mentioned products from the name of M/s. Breeze Pharma, Islamabad.

(b) Approved the registration of above mentioned products in the name of M/s Nawal Pharmaceuticals, Plot No.11-A Punjab Small Industrial Estate, Taxila-Rawalpindi.

Case No. 02:- Request of M/s. Selmore Pharmaceuticals (Pvt) Ltd., Lahore for Grant of Additional Packs for their already Registered Veterinary Drug.

M/s. Selmore Pharmaceuticals (Pvt) Ltd., Lahore has applied for grant of additional packs of their following registered veterinary drug as per details mentioned against each:-

3.	-do-	Bravecto 250mg Chewable Tablets for Dogs Each Chewable table contains:- Fluralaner…..250mg	1's 2's 4's 24 months	Approved with innovator's specifications as per import policy for inspection of Manufacturer abroad. The Board further decided that the panel should verify the authenticity of submitted stability data.

4.	-do-	Bravecto 500mg Chewable Tablets for Dogs Each chewable table contains:- Fluralaner……500mg	1's 2's 4's 24 months	Approved with innovator's specifications as per import policy for inspection of Manufacturer abroad. The Board further decided that the panel should verify the authenticity of submitted stability data.

Decision of Registration Board shows that panel should verify authenticity of submitted stability data, but subject products are EMA approved and exempted from inspection abroad. It is informed that products are being manufactured in Netherlands which is RRA, and thus inspection was not conducted. Accordingly registration letter issued to the firm.

Decision: Registration Board noted the information.

Case No. 04:- Request of M/s. Mallard Pharmaceuticals (Pvt) Ltd., Multan for Grant of Additional Packs for their already Registered Veterinary Drugs.

M/s. Mallard Pharmaceuticals (Pvt) Ltd., Multan has applied for grant of additional packs of their following registered veterinary drugs as per details mentioned against each:-

S. No.	Regn. No.	Name of Drug(s)/ Composition	Already Pack Size Granted	Demanded Additional Pack	Initial registration/ renewal status	Remarks/ Justification Diary No.
1.	078361	ARTD FOARD Liquid Each 100ml contains:- Doxycycline HCL BP……20g Tylosin Tartrate BP……10g Colistin Sulphate BP…40MIU Bromhexine BP…….....0.3g	100ml 250ml 500ml 1000ml	30ml	12th September, 2015 11-09-2019	Dy.No.16818-(R&I) DRAP dated 16-6-2021. Due to market need and demand. As we all know there is increase in prices of all medicinal products and now little farmers want to purchase smaller pack size as per dose required and not to purchase one kg or bigger pack sizes.
2.	087087	Alviflox Oral Liquid Each 100ml contains:- Enrofloxacine HCl…..…10g Colistin Sulphate…….50,000,000IU (As per Innovator's Specification*)	100ml 250ml 500ml 1000ml 2.5 Liter	30ml	05th January, 2018	-do-

7.	059162	Provet 40 Lac Dry Injection Each dry vial contains: - Procaine Penicillin…40,00,000IU	30ml	01-08-2009 (i)Initial registration letter incomplete. 31-07-2019

M/s. Bio-Labs (Pvt) Ltd., Plot No.145, Industrial Triangle, Kahuta Road, Islamabad has deposited the required fee Rs.20,000 x 7 = Rs.140,000/- and submitted following supporting documents:-

(i) Original NOC **dated 15-01-2021** from M/s. Breeze Pharma (Pvt.) Ltd., Islamabad.
(ii) Copy of initial registration letters and renewal status.
(iii) Copy of Drug Manufacturing License.
(iv) Variation for change of brand name Colimox Water Soluble Powder to Comox Water Soluble Powder
(v) GMP panel inspection report conducted on 18th & 23rd April, 2019 DML No.000296 (Formulation).
(vi) Copy of approved sections.
(vii) Applications on Form 5.
(viii) Undertaking.

- NOC issued by M/s. Breeze Pharma (Pvt) Ltd., Islamabad on 15-01-2021 to M/s. Bio-Labs (Pvt) Ltd., Islamabad.
- The firm M/s. Bio-Labs (Pvt) Ltd., Islamabad deposit fee of above mentioned drugs on 19th April, 2021.
- The applications submitted by M/s. Bio-Labs (Pvt) Ltd., in R&I-DRAP on 28th April, 2021.
- The Drug Manufacturing License cancelled of M/s. Breeze Pharma (Pvt) Ltd., Islamabad on 26th -27th April, 2021.

Legal Division opinion: the Legal Division has informed that as per available facts/record of the case, M/s. Breeze Pharma, Islamabad issued various NOC's to different firms for transfer of registration of products from its name to other manufacturer. Central Licensing Board cancelled the Drug Manufacturing License of the said firm in its 280th meeting held on 26th & 27th April, 2021. Hence, this Division is opined that those from who got NOC's from M/s. Breeze Pharma, Islamabad and applied well within time for transfer of registration to PE&R Division before cancellation of Drug Manufacturing License, their cases for transfer of registration may be processed by the Division in accordance with law.

Decision:- Registration Board did not exceed request of the firm M/s. Bio-Labs (Pvt) Ltd., Islamabad as firm submitted application dated 28th April 2021 after the cancellation of M/s Breeze pharma DML.

Case No.08: Request of M/s. Aptly Pharmaceuticals, Faisalabad for change of composition of veterinary drug(s).

Registration Board in its 285th meeting approved following veterinary drugs in favor of M/s. Aptly Pharmaceuticals, Faisalabad. Registration letter has already been issued to the firm. The firm has requested to change the compositions are as under:-

S. No.	Regn.No.	Name of Manufacturer	Name of Drug(s) / Composition Granted	Composition Requested by the Firm	Approved Packs Size	Remarks
I		II	III	IV	V	VI
1.	093869	M/s. Aptly Pharmaceuticals, 5-Km Sargodha-Sidhar Bypass Road, Faisalabad.	Closul-5 Oral Powder **Each Kg contains:-** Colistin Sulphate…5,000,000 IU (As per Innovator's Specification)*	Closul-5 Oral Powder **Each gm contains:-** Colistin Sulphate…5,000,000 IU	500g 1Kg 2.5Kg 5Kg in plastic jar	Dy.No.18373-R&I DRAP dated 23-06-2022

M/s. Aptly Pharmaceuticals, Faisalabad has deposited fee of Rs.20,000/- for the said purpose along with form-5 and requested to change the compositions. Furthermore, the requested composition has already been granted registration to various firms.

The case was discussed in its 295th meeting of Registration Board advised to get justification for reason for change of composition and its approval status accordingly.

Accordingly letter issued to the firm to get justification for reason for change of composition. In response the firm has inform that mathematically it is impossible that 1kg of powder could contain 263.1mg of active of active which is too much low for its therapeutic effect. Required composition detail is as follows which a "me-too products".

S.No.	Registration No.	Product Name	Composition Registered	Manufacturer

1.	049616	Colisel-50 Powder	Each gm contains:- Colistin Sulphate…5,000,000 IU	M/s. Selmore Pharmaceuticals (Pvt) Ltd. Lahore.

International units' converter

5,000,000 IU = 263.1mg per gran which is effective.

Decision:- Registration Board did not exceed request of the firm M/s. Aptly Pharmaceuticals, Faisalabad, as the same formulation is already registered in the name of various firms including M/s. Nawan Laboratories (Pvt) Ltd., Karachi vide Regn.No. 035059.

Case No.09:- Request of M/s. Avicenna Laboratories (Pvt) Ltd., Bhikki Distt., Sheikhupura for change of composition of already registered veterinary drugs.

M/s. Avicenna Laboratories (Pvt) Ltd., Bhikki Distt., Sheikhupura has requested for change of composition of their registered products. Details are as under:-

S. No.	Regn.No.	Product Granted Composition	Previous Demanded Composition	Remarks/ Diary No. R&I
I	**II**	**III**	**IV**	**VI**
1.	063652	Boxer Liquid. Each 1000ml contains:- **Oxyclozanide……0.06gm Oxfendazole……0.0226gm**	Boxer Liquid. Each 1000ml contains:- **Oxyclozanide…..…60gm Oxfendazole…..…22.6gm**	Dy. No. 21308-R&I DRAP dated 28-07-2022
2.	063649	Avi-Dex Liquid Each 1000ml contains:- **Triclobendazole……..0.05gm Levamisole HCl……0.015gm**	Avi-Dex Liquid Each 1000ml contains:- **Triclabendazole……..50gm Levamisole HCl…..…15gm**	-do-
3.	063654	Albencena Plus Oral Liquid Each 1000ml contains:- **Albendazole…….....0.025gm Sodium Selenite…...0.0015gm Cobalt Sulphate….0.00382gm**	Albencena Plus Oral Liquid Each 1000ml contains:- **Albendazole…….....25gm Sodium Selenite..….1.5gm Cobalt Sulphate…..3.82gm**	-do-

M/s. Avicenna Laboratories (Pvt) Ltd., Bhikki Distt., Sheikhupura deposited **fee of Rs.5000 x 3 = Rs.15000/- and again deposited fee of Rs.25000 x 3 = Rs.75000/-** and submitted following supporting documents:-

(i) Copies of registration letters.
(ii) Renewal trails.
(iii) Copy of Drug Manufacturing License.
(iv) GMP panel inspection report conducted by panel of inspector on 22nd October, 2018.
(v) Comparison of me-too.
(vi) Undertaking.

The firm has informed that giving the approval for registration mistakenly registered some of the drugs other them our requirement may be it was due to clerical mistake on the part of DRAP.

The case was discussed in its 313th meeting of Registration Board deferred for confirmation of already approved generic drugs and details of renewal.

The firm has provided details of already approved generic drugs are as under:-

S. No.	Regn.No.	Product Granted Composition	New Demanded Composition
1.	063652	Boxer Liquid. Each 1000ml contains:- **Oxyclozanide…….….0.06gm** **Oxfendazole……0.0226gm**	Boxer Liquid. Each 1000ml contains:- **Oxyclozanide…..…..62.50gm** **Oxfendazole…..……22.65gm**
2.	063649	Avi-Dex Liquid Each 1000ml contains:- **Triclobendazole……..0.05gm** **Levamisole HCl……0.015gm**	Avi-Dex Liquid Each 1000ml contains:- **Triclabendazole……....50gm** **Levamisole HCl…...…37.50gm**
3.	063654	Albencena Plus Oral Liquid Each 1000ml contains:- **Albendazole…….....0.025gm** **Sodium Selenite…...0.0015gm** **Cobalt Sulphate….0.00382gm**	Albencena Plus Oral Liquid Each 1000ml contains:- **Albendazole…….....25gm** **Sodium Selenite..….0.35gm** **Cobalt Sulphate…...0.75gm**

The above mentioned products already registered in various firms M/s. Mediexcel Pharmaceuticals, Islamabad, M/s. Star Laboratories (Pvt) Ltd., Lahore and M/s. Mylab (Pvt) Ltd., Bahawalpur vide Registration No.031412,031454 & 073903 respectively.

Decision:- Registration Board considered and approved the standardization of composition of already registered drugs of M/s. Avicenna Laboratories (Pvt) Ltd., Bhikki Distt., Sheikhupura. The details are as under: -

S. No.	Regn.No.	Existing Name of Drug & Composition	New Approved Name of Drug & Composition
1.	063652	Boxer Liquid Each 1000ml contains:- **Oxyclozanide…….….0.06gm** **Oxfendazole……0.0226gm**	Boxer Liquid Each 1000ml contains:- **Oxyclozanide…….…..62.50gm** **Oxfendazole…..…22.65gm**
2.	063649	Avi-Dex Liquid Each 1000ml contains:- **Triclobendazole……..0.05gm** **Levamisole HCl……0.015gm**	Avi-Dex Liquid Each 1000ml contains:- **Triclabendazole……....50gm** **Levamisole HCl….37.50gm**

	Detail of certificates attached	Original Legalized CoPP (certificate no. 2016030519) issued by *Shijiazhuang Animal Husbandry and Aquatic Product Bureau* confirms the free sale of the product in exporting country. The facilities and operations conform to GMP as recommended by WHO as per CoPP. The certificate remains valid until 04-03-2021
	Remarks of the Evaluator.	
	Previous Decision:	Registration Board referred the case to Expert Working Group on Veterinary drugs for review of formulation **(M-283)**.
Decision of Expert Working Group in its 5th meeting: Deferred for further evaluation with respect to withdrawal period and safety profile of antipyrine.		

Decision of Expert Working Group in its 6th meeting: *Fixed dose combination of Diminazene aceturate & Antipyrine (Phenazone) are available and marketed in countries having heamatozoons infections, where the principle of disease therapy intends requirement of 'antiprotozoal' and 'antipyratic' together for ease and convenience of use and therapeutic effect. However, withdrawal period is advised for strict observance on label when used in food producing animals. The combination is recommended for registration.*

Decision of Registration Board in 289th meeting:-

Registration Board in its 289th meeting deferred the case for further deliberation on the matter.

Decision of Expert Working Group in its 08th meeting:

The Committee deferred the case till getting the following information relating to the formulation;

a. Evidence of availability of said formulation in any reference regulatory authority.
b. Difference between chemical structure of antipyrine, metamizole and novaminsulfone.
c. Confirmation of causing of "agranulocytosis" by antipyrine.

Decision of EWGVD:

a. **The EWGVD deliberated the cases of antipyrine combinations with their dosage form at length and decided to obtain scientific rationale of combination, pharmacokinetics with examples of such products registered at scientifically developed countries for use in variety of animal species, Difference between chemical structure of antipyrine, metamizole and novaminsulfone and Confirmation of causing of "agranulocytosis" by antipyrine in their applications for product registration.**

Decision:- Registration Board endorsed the decision of Expert Working Group on Veterinary Drugs.

Me-too status	N/A
Detail of certificates attached	Original Legalized COPP Certificate No. 06/17/113733 Certified by: EMA Free sale: Yes GMP : GMP Complaint Issue Date: 12-10-2017 Letter of Authorization M/s Intervet International BV Wim de Korverstraat 35, 5831 AN Boxmeer, The Netherlands & M/s ICI Pakistan LTD ICI House , 5 West Wharf, Karachi Dated: Nov, 2017
Remarks of the Evaluator.(VI)	Withdrawal Period Meat and Offal: 14 days. Eggs: Zero days In the finished product label the Urdu version of the following namely; (i) Name of drug (ii) dosage; and (iii) Instruction is missing
Evaluation by PEC:	**Decision of 291st**:- Deferred for further deliberation regarding use of applied formulation in chickens. Firm has submitted EPAR stating that Exzolt is a veterinary medicine used to treat poultry red mite (Dermanyssus gallinae) infestation in pullets (Young female chickens), breeders and layer hens.

Decision of 293rd : Deferred for further deliberation regarding use of applied formulation in chickens

Decision of 295th: Deferred for the justification of safety parameters in accordance with the withdrawl period.

Firm's response: The withdrawl period(s) for exzolt 10mg/ml solution for use in drinking water for chickens were determined based on the following MRL of fluralaner as established by the Committee for Medicinal Products for Veterinary Use (CVMP).

Table :MRL(s) for fluralaner

Active Substance	Marker residue	Animal Specie	MRL	Target tissue	Other provision
Fluralaner	Fluralaner	Poultry	65ug/kg 650ug/kg 420ug/kg 650ug/kg 1300ug/kg	Muscle Liver Kidney Skin with fat Eggs	No Entry

Based on the results of the residue depletion studies and taking into the account the MRL established for fluralaner, the MAH proposes the following WHPs for exzolt 10mg/ml solution for use in drinking water for chickens:
Meat and offal: 13days
Eggs: 0 days.
Nevertheless, it is up to the competent authority to assess residue depletion data and come to a conclusion on the with-drawl periods. Therefore, with-drawl periods as registered nationally in

	different countries (e.g. Country of origin) might deviate from what has been proposed by the MAH.					
	Recommendation of 10th EWG:- **The Expert Working Group on Veterinary Drugs deferred for further deliberation.** **Decision of EWGVD:** **The EWGVD deliberated the cases and decided to recommend the product for the registration.** **Decision:- Keeping in view the decision of EWGVD, Registration Board approved the product.**					
6.	M/s. Ghazi Brothers, Ghazi House, D-35. K.D.A. Scheme No.1, Miran Muhammad Shah Road, Karachi./ **Manufactured by:** M/s. Specs and the product is not present in available versions of BP and USP (**B.P 2013** and **USP 39**)	Deferred for review of formulation by Dr. Qurban Ali. (Member Registration Board)

Recommendation of 10th EWG:-

The Expert Working Group on Veterinary Drugs deferred for further deliberation.

Decision of EWGVD:
The EWGVD deliberated the cases of Acetyl Salicylic Acid with vit. C and similar combinations with their dosage form at length and decided to obtain scientific rationale of combination and pharmacokinetics with examples of such products registered at scientifically developed countries for use in variety of animal species as applied by the firms in their applications for product registration.

Decision:- Registration Board endorsed the decision of Expert Working Group on Veterinary Drugs.

Case No.07: Rejection of Registration of Oxyone Powder-Case Remanded Back by the Appellate Board.

The registration application of Oxyone Powder filed by M/s. Ghazi Brothers, Karachi was rejected by the Drug Registration Board in its 249th meeting held on 18th May, 2015 as per following details:-

S. No.	Name of Applicant/Manufacturer	Name of Drug(s)/ Composition	Decision of Registration Board
1.	M/s. Ghazi Brothers, Karachi. / Manufactured by M/s. Cheilbio Co. Ltd. Gyeonggi-Do, KoreA.	Oxyone Powder Each Kg contains:- Oxytetracycline Quaternary Ammonium Salts……200gm	The Board rejected the product due to Potential of misuse on feed additive & drug interaction. The Board also decided to issue show cause Notice to already Registered Products for cancellation (If applicable).

The firm filed appeal before the Appellate Board which was considered in its 45th meeting. The decision of the Appellate Board and further proceeding are as under:-

(i) "Keeping in view of the arguments of the Appellate Board and Defendants, the Appellate Board decided to give 15 days' time to the Appellant to submit documentary evidence that their applied product Oxyone Powder containing Oxytetracycline Quaternary Ammonium Salt is available in the US FDA in the same packaging as applied by the Appellant. Chairman was authorized to refer back the case to Registration Board, if documentary evidence is provided by the Appellant. Otherwise, if no such evidence is provided by the Appellant, case shall be placed in the next meeting of the Appellate Board for final decision on the Appeal".

(ii) Resultantly, M/s. Ghazi Brothers, Karachi has provided the documentary evidence that Oxytetracycline quaternary ammonium salt is available in US FDA and the packing is also same as applied by the firm (provided date is enclosed). Data provided by the firm was also verified from FDA website.

(iii) As authorized by the Appellate Board, Chairman (Appellate Board) has decided to refer back the case to the Registration Board for re-consideration in light of documentary evidence provided by the firm.

As per information submitted by the firm to the Appellate Board the pack size approved by the USFDA is 50 lb (22.6 Kg) for the brand of M/s. Phirbro Animal Health, New Jersey.

Registration Board in its 274th meeting referred the case to Veterinary expert Dr.Qurban Ali for evaluation and subsequent recommendations for consideration of Board.

Decision of EWGVD:
The EWGVD deliberated the cases of Oxyone Powder decided to request to the applicant firms for pharmacokinetics with examples of such products registered at scientifically developed countries for use in variety of animal species as applied by the firms in their applications for product registration.

Decision:- Registration Board endorsed the decision of Expert Working Group on Veterinary Drugs.

HUMAN IMPORT

Decision: **Registration Board acceded to the request of firm for import of already registered above products in standard export packs. The Board advised the firm to locally print MRP and Registration Number along with Urdu text before sale of drug at their Licensed Premises of M/s Novartis Pharma (Pakistan) Ltd, C-21, SITE, Manghopir Road, Karachi (DML No.000003) to**

comply requirement as per drugs (labelling & packing) rules, 1986. This permission shall be valid for two (02) years only. The firm shall submit future plan regarding the import of drugs (labelling & packing) rules, 1986 compliant packs.

Case No.05: REQUEST OF M/S NOVARTIS PHARMA (PVT) LTD, KARACHI FOR EXTENSIONIN SHELF LIFE FROM 21 MONTHS TO 36 MONTHS OF ASUNRA 100MG DISPERSIBLE TABLETS (REG.NO.047517).

The subject case was discussed & deferred in 316th meeting of Registration Board as per following details.

M/s Novartis Pharma (Pakistan) Limited, Karachi has requested for extension in shelf life of registered product from 21 Months to 36 Months as per following details.

Reg. No.	Name/ Composition	Approved sites (as per approval)	Name of Sites (as per CoPP)	Initial registration letter with shelf life
047517	Asunra Dispersible tablets Each Dispersible tablet contains: Deferasirox…100mg	**Manufacturer: -** M/s. Novartis Pharma Stein AG, Switzerland.	**Manufacturer: -** M/s. Novartis Pharma Stein AG, Schaffhauserstrasse 4332 Stein, Switzerland	15-12-2007 Shelf life not mentioned in Reg. letter. Dy.No.16100 R&I DRAP 09-06-2021

The firm has submitted following documents as per SOP's

Documents required as per SOP's	Documents submitted by the firm
Application on Form 5A with required fee as per relevant SRO.	The firm has deposited a fee of Rs.7500/-
Copy of registration letter and last renewal status.	Registration letter issued on 15-12-2007 Due date of renewal is 14-12-2017 Submission of renewal is 10-11-2017
Proposed shelf-life, justification & data of long-term stability testing (as per conditions of zone IV-A) including chromatograms for a minimum of 3 commercial scale batches or development scale batches upto the proposed shelf-life.	Provided
Approval of regulatory body of country of origin or Original and legalized Certificate of Pharmaceutical Product as per WHO format.	Original & legalized CoPP issued by Swissmedic showing shelf life 36 Months
Undertaking that: i. Provided information is true & correct. ***For extension in shelf life:*** • No change to the primary packaging type in direct contact with the FPP and to the recommended conditions of storage. • No change in formulation and specification either of finished product, API and excipients etc.	Provided

• In case both the above conditions are involved then manufacturer will submit complete requisite information as per procedure.	

Remarks: -
As per provided CoPP the product is not on free sale in country of origin.

Decision 66th PRVC
The Committee evaluated the case and Chairman Registration Board, on the recommendations of the committee, decided to defer the request for confirmation of free sale status in any country of origin.

Fresh Proceedings
The firm has stated as under:
We are submitting an undertaking on stamp paper that Asunra 100mg tablets is registered and currently marketed in India, Sri Lanka, Ghana and Kenya with approved extended shelf life i.e. 36 months.

Decision 76th PRVC.
Keeping in view of above, Committee refer the case to Registration Board.

Decision:
Registration Board deferred the above case for confirmation of availability in exporting country or any RRA.

Reply of the firm:
The firm has submitted their reply as under: -
"Our principals, M/s. Novartis Switzerland, has declared that we had initially developed and registered 3 dose strengths of deferasirox dispersible tablets available in 125 mg, 250 mg, and 500 mg under the registered tradename "Exjade®" in Switzerland and many countries worldwide. Subsequent, to the initial registration of "Exjade®", Novartis further developed 100 mg and 400 mg deferasirox dispersible tablets and registered these additional dose strengths under the tradename "Asunra®" in Pakistan and a few other countries* worldwide. The 100 mg and 400 mg dose strengths of deferasirox dispersible tablets were registered for "export only" purposes in Switzerland under the tradename Exjade® dispersible tablets 100 mg and 400 mg. As a result, the tradename product Asunra® is listed for export only purposes in Switzerland and has never been marketed in this country".

Decision: Registration Board deliberated that availability of drug product either in country of origin or in reference regulatory authorities is prior condition of registration but in instant case the product does not qualify either of aforementioned parameter. Accordingly, the Board decided to seek guidance from DRAP Authority on the matter.

Case No.06: REQUEST OF M/S PFIZER PAKISTAN LIMITED, KARACHI FOR CHANGE IN REGISTRATION STATUS FROM BULK IMPORT TO FINISHED IMPORT WITH CHANGE IN MANUFACTURING SITE-ADRIBLASTINA 10MG&50MG.

Case No.10: REQUEST OF M/S BAYER PAKISTAN (PVT) LIMITED FOR CANCELLATION OF REGISTRATION OF IMPORTED DRUGS.

M/s Bayer Pakistan (Pvt) Ltd, Korangi Industrial Area, Plot No. 23, Sector No.22, Karachi has submitted request for cancellation of registrations of imported drugs which were registered at C-21, SITE, Karachi plant which has been divested.

S. No	Product(s) Name	Reg. No.	Reason for De-Reg. (stated by firm)	Alternative registered product
1.	Angeliq Tablet 2mg Each film coated tablets contains: - Estradiol ..... l.0mg. Drospirenone..... 2.0mg.	059088	The licensed facility of product registration holder / importer i.e. C-21, SITE, Karachi has already been divested in 2020-21 and transfer of registrations were also not processed (but applied for the issuance of cancellation of registration since Mar, 2021) as it was not feasible for a company to import, re-launch and market these products due to the availability of more advance therapies with better patient compliance in Pakistan Hence, registrations of both the products are already no more valid. Therefore, requesting for the issuance of formal letter for cancellation of registration.	Estranor(Saffron) Star-Gest (Mass Pharma)
2.	Nebido Solution for Injection 1000mg Each ampoule of 4ml contains: - Testosterone Undecanoate.....1000mg.	059089	-do-	Testonon (Zafa), Danabol (Danas), Lyssa (Mass Pharma), Testosterone (Geofman)
3.	Qlaira Tablet Each wallet (28 film coated tablets) contains: -	088370	The licensed facility of product registration holder / importer i.e. C-21, SITE, Karachi has already been divested in 2020-21 and transfer of registrations were also not processed	Desofam (Zafa), Hytrade-C (Hygeia),

	Part I (2 dark yellow film coated tablets-Core) Estradiol valerate...3.0mg. Part II (5 medium red film-coated tablets-Core) Estradiol valerate...2.0mg. Dienogest....2.0 mg. Part III (17 light yellow film-coated tablets-Core) Estradiol valerate...2.0mg. Dienogest....3.0 mg. Part IV (2 dark red film-coated tablets-Core) Estradiol valerate...1.0mg. Part V (2 white film-coated tablets-Core) Placebo		(but applied for the issuance of cancellation of registration since Mar, 2021) as it was not feasible for a company to import, re-launch (never launched before due to pricing / cost) and market Qlaria due to the very high production cost and low granted price (hardship was also not applied due to the fact that price will not be feasible for the patients in Pakistan as no reimbursement / out of pocket. Also alternative therapies / other oral contraceptives are available in a low price). Hence registrations of Qlaria is already no more valid. Therefore, requesting for the issuance of formal letter for cancellation of registration.	Geogynon (Geofman Pharma)

Decision M-296: Registration Board approved the change of address of manufacturing site of following registered product medicaine injection (Reg. No. 023645) subject to policy for inspection of manufacturer abroad for imported finished drugs. Other terms and conditions will remain the same.

Reg. No.	Name & Composition (as per approval)	Existing approved Manufacturing Site (as per approval)	New approved Site / Manufacturer & Product License Holder (as per COPP)
023645	**As per Approval** Kwang Myung Lidocaine HCL Injection. Each 1.8ml cartridge contains:- Lidocaine Hcl USP 36mg. Epinephrine Bitrtrate USP 0.324mg (Eq to 0.018mg of Epinephrine) **As per Transfer letter** Kwang Myung Lidocaine HCL Injection (Medicaine Injection)	M/s Kwang Myung Pharm. Co. Ltd 907, Sangshin – RI, Hyangnam – Myun, Hwaseong-Kun, KyuncGI-Do, Rep. of Korea.	**Manufacturer & Product License Holder: -** M/s Huons Co., Ltd, 100 Bio Valley-ro, Jecheon-si, Chungcheongbuk-do, Republic of Korea

The comments /remarks of Legal Affair Division are as under:

> *"The instant case is of import of un-registered drug from a manufacturer which was not approved by the Registration Board yet. Moreover, mere approval by the Registration Board does not create any vested right of registration for any company / firm till the registration letter / post registration variation letter is issued. Therefore, the PE&R Division may process the case for prosecution of import of unregistered drug".*

Area FID Report

It is pertinent to mention that the clearance of the product under question was given in light of registration letter no.F.1-16/93-Reg-I dated 4th November, 2004 in which the name of manufacturer was changed from M/s Kwang Myung Pharm.Co.Ltd: 907, Sangshin-ri, Hyangnam-Myun, Hwaseong-city, Kyunggi-do. Rep.of Korea to M/s Huons Co. Ltd Korea whereas the address of the manufacturer is not mentioned.

In the light of above it is established that M/s Hospital Supply Corporation Karachi has imported consignment of Medicaine Injection from the new source before getting the approval letter.

Decision: Registration Board deliberated on the opinion of the Legal Affairs Division to prosecute the firm for import of unregistered . The Board after deliberation decided to issue show cause notices to the firm M/s Hospital

Supply Corporation, Karachi, under section 7 (11) read with 42 of the Drugs Act, 1976 for violation the condition of registration as reported by area FID.

The firm is requested to know that is it legally correct to allow another brand with the similar active ingredient of the same foreign manufacturer to be registered and imported in Pakistan.

Decision of 79th meeting of PRVC:

On the recommendations of the committee, Chairman Registration Board considered and refer the case to Registration Board.

Proceeding of 278th meeting of Registration Board on such cases having same manufacturer is asunder:

Registration Board called up Deputy Director, Legal Affairs Division to further elaborate their opinion regarding the sole agency agreement. Deputy Director, Legal Affairs Division apprised the Board that Registration Board may grant registration of said product to any firm which produces sole agency agreement from the manufacturer, product license holder or authorized distributor of the product license holder and fulfill the requirements of Form-5A.

Decision: Registration Board endorsed proceeding of 278th meeting.

Case No.20: REQUEST OF M/S ATCO LABORATORIES LIMITED, KARACHI FOR CHANGE IN STORAGE CONDITIONS (PENTASA 500MG TABLET).

M/s. Atco Laboratories Limited, Karachi has requested for change in storage condition of registered product Pentasa 500mg Tab (Reg.No.031333). details are as under: -

S. No	**Change In Storage Condition**	
1.	**From**: "Store in dry place and at room temperature below 25°C".	**To:** "Do not store above 30°C, do not freeze, store in the original package in order to protect from light" The change in storage conditions is supported by stability data (30°C ± 2°C / RH 75 ± 5%) for two primary batches covering full shelf life 36 months, and one batch covering 24 months.
Adding The Full Address Of Manufacturing Site And Marketing Authorization		
2.	**From:** **Manufacture(as per approval)** M/s Pharbil Pharma GmbH, Germany. **Product License Holder (as per approval)** Not mentioned in Registration letter.	**To:** **Manufacture (as per COPP)** M/s Pharbil Pharma GmbH, Reichenberger Str. 43 33605 Bielefeld Germany. Or M/s Ferring International Center S.A. Chemin de la Vergognausaz 50 CH-1162 St. Prx Swiss Confederation. **Primary and Secondary Packaging** M/s Ferring International Center S.A. Chemin de la Vergognausaz 50 CH-1162 St. Prx Swiss Confederation. **Product License Holder (as per COPP)** M/s Ferring GmbH Wittland 11 24109 Kiel Germany

In support the firm has submitted the following documents;

a. Fee of Rs.5000/-
b. Initial registration letter and renewal status.
c. Original & legalized COPP issued by Germany.

Decision of 29th meeting of PRVC:

The Committee advised to take up the case in Registration Board meeting along with the application on CTD and with requisite fee of Rs.100,000/- as the manufacturing site is also changed.

M-245:

M/s. Atco Laboratories Limited, Karachi have requested to approve the change of manufacturing site of their registered imported drug "Pentasa 500mg Tablets (Mesalazine 500mg) (Reg. No.031333)" from M/s. Pharbil Pharma GmbH, Germany to M/s. Ferring International Center S.A., Switzerland.

The firm have deposited required fee Rs.100000/= and submitted following supporting documents:-

i) Copy of registration letter.
ii) Copy of last renewal.
iii) Copy of approval of change of manufacturing site.
iv) Copy of CRF Clearance Certificate.
v) Description of Manufacturing Process and Process Control (for new site).
Vi Original CPP confirming that change of manufacturing site from M/s. Pharbil Pharma GmbH, Germany to M/s. Ferring International Center S.A., Switzerland attested by Pakistan Embassy of Pakistan.
vii) Original GMP certificate of M/s. Ferring International Center S.A., Switzerland attested by Pakistan Embassy of Pakistan.
viii) Evidence copy of FDA approval for M/s. Ferring International Center S.A., Switzerland.

M/s. Atco Laboratories Limited, Karachi was advised to submit legalized proof of registration of the Pentasa 500mg Tablets manufactured by M/s. Ferring International Center S.A., Switzerland is approved by US-FDA. In response, the firm have submitted original legalized CoPP of "Pentasa 500mg Tablets (Reg. No.031333)" from Switzerland legalized by Pakistan Embassy.

M/s. Atco Laboratories Limited, Karachi was again advised to submit Form-5(A) and Site Mister File of Pentasa 500mg Tablets (Reg. N0.031333) from new site i.e. Switzerland. M/s. Atco Laboratories Limited, Karachi has submitted Form-5(A) and Site Mister File of new manufacturing site (Switzerland).

Decision of 245th meeting: Registration Board acceded to the request of firm.

Firm further submitted that on CoPP, under **2A.3.1** both manufacturing sites are mentioned i.e., M/s. Pharbil Pharma GmbH, Germany **OR** M/s. Ferring International Center S.A., Switzerland, it means that our principal has two approved sites as per CoPP but, our product, Pentasa 500mg tablet is now approved for M/s. Ferring International Center S.A., Switzerland as per DRAP policy.

Decision 307th meeting of RB:

Registration Board deferred the case for further deliberation**.**

Fresh proceeding:

we hereby declare that PENTASA 500mg TABLET is the innovator product of our principal manufacturer M/s. Ferring International Centre S.A., Switzerland.

Decision M-312:

Registration Board deferred the case for confirmation of requisite storage conditions approval from any RRA.

Firm submitted Germany official website link access on dated 26-08-2022 file:///C:/Users/sarfraz.nawaz/Downloads/FI_de_2127172_20210005419.pdf which shows " special precautions for storage
Do not store above 30°C."

Decision: Registration Board considered and approve the change in storage condition and detail as per CoPP of registered product Pentasa 500mg Tab (Reg.No.031333) details are as under: -

S. No	Change In Storage Condition	
1.	**From:** **"Store in dry place and at room temperature below 25°C".**	**To:** **"Do not store above 30°C, do not freeze, store in the original package in order to protect from light"** **The change in storage conditions is supported by stability data (30°C ± 2°C / RH 75 ± 5%) for two primary batches covering full shelf life 36 months, and one batch covering 24 months.**

9.	When emergencies occur, does the maintennacne technician arrive with the maximum stipulated in the agreement	No.
10.	Does the importer have established the Re-Call system of drugs	No

Furthermore, Ten Cotton of drug HEMOSOL B0 Solution for Haemodialysis/ Haemofiltration which is under registration was found in storage premises of M/s Iqbal & Sons Company.
Accordingly, above position was conveyed to Additional Director (QA/LT) Division vide letter No.F.1-11/2020-I&V-II/Human Import dated 23rd December, 2020 for further necessary action at their end.

Decision of 291st meeting: Registration Board advised QA/LT Division to finalize the case and inform PE&R Division for further processing of case.

Updated Status: -

Area FID-IV has submitted vide letter No.F.4-5/2021-FID(IV) dated 29-07-2022 as under: -

I have honor to refer to the letter No. F- 3-312021-l & VII (M312) there dated 25ft Nov. 2021, which is in continuation to the previous letter No.F.l-lll2}20 (I & VII) Human Import dated 23'd December,2020 on the subject cited above. The detail of the matter /case after scrutiny of the documents is as under:

The Registration Board in its 312 meeting refers the case to QA Division. The firm has submitted documents which have been reviewed in light of decision of Registration Board which indicted the following details for consideration;

i. The firm has applied for the registration of Product namely "Hemosol BO solution for Heamodialysis/Flaemofiltration in 2016. the case was first presented before Registration Board in its 279th meeting.

ii. The case has finally decided by the Registration Board in its 291't meeting as under approved as per policy by the manufacture observed " (copy attached)

iii. Accordingly, Chairman Registration Board constituted the panel for verification of local storage facility comprising of
a) Assistant Director (I&V)
b) Assistant Director (Reg-II)

The panel conducted inspection on 24-09-2020 and observed series of shortcoming along with the observation that 10 carton of the same product (viz under registration) was present there but didn't refer the same in the shortcoming for clarification.(copy attached/. The case was referred to QA< Division on 23'd December 2020, (copy attached) mentioning that they have forwarded the pictures of the same to the predecessor FID ,which she explain that information was received on 30-09-2020 (after a weak of inspection) & no written complaint provided with detail so action can't initiated (copy attached). The letter was again received on 25th November 2021 (after laps of almost one year).

The undersigned scrutinized the available documents and Board meetings which indicate that product is categorized as medical Devices in Italy (where actually manufacturing takes place) and referred as medicinal product in Sweden (actual maker authorization holder) (copy attached). The documents further indicate that product actually imported in the year of 2018 &2019 for Shaukat Khanum Hospital (institutional supply (copy attached/ and since its fate at that time was not decided/declare whether it is medical devices or otherwise the firm thus avails the opportunity of category of Medical Devices (as in Italy) and Rules 52 of MEDICAL Device Rules 2018 provide exemption to these class of products which is further amended vide SRO526(1) 12021 and exemption is extended S.R.O NOC not proceeded.(copy attached)

In the light of above in is worth mentioning here that no action from QA&LT Division at this point is required and case may please be processed at the end of Registration Division in the light of provided documents.

Decision: **Registration Board decided to seek legal opinion from Legal Affair Division on the matter.**

Case No.25: DIFFERENCE IN PRODUCT LICENSE HOLDER /MANUFACTURER OF APPROVED PRODUCT IN 308TH MEETING OF REGISTRATION BOARD.

Registration Board in its M-308th meeting approve the following product of M/s Health Services Office 3A 3rd Floor Building No. 8, Civic Centre Bahria Town Phase 4, Islamabad as per decision mentioned alongside.

S. No	Name of Importer/Manufacturer	Product Name & Composition	Demanded Pack size & MRP
1.	M/s Health Services. Office A4, 3rd Floor, Building # 8, Civic Centre, Bahria Town, Phase IV, Islamabad **Product License Holder & Manufacturer:** M/s BiemHacSanayiVeTicaret A.S. Turgut Reis, Caddesi No. 21,0657 Tandogan-Anakara, Turkey"	Beastin 100mg IV Powder for Concentrate for Solution for Infusion Each Vial Contains: Bendamustine Hydrochloride…100mg" Alkylating Agent 36 months	Rs:17000/- 1's
Decision of 308: The Board was apprised that the firm had submitted original and legalized CoPP which was valid at the time of submission of registration dossier but the submitted CoPP was expired on 13/04/2020. Now the firm has submitted copy of valid CoPP. Keeping in view the above stated fact, the Board decided to approve the case with innovator's specification as per Policy for inspection of Manufacturer abroad and verification of local storage facility. The Board further decided that the applicant will submit original, legalized and valid CoPP before the issuance of registration letter			

The names/address of Marketing Authorization Holder & Manufacturer as per Minutes & CoPP seems like different as per following details: -

Names/address of Product License Holder & Manufacturer as per Minutes	Names/address of Product License Holder & Manufacturer as per CoPP
Product License Holder & Manufacturer: M/s BiemHacSanayiVeTicaret A.S. Turgut Reis, Caddesi No. 21,0657 Tandogan-Anakara, Turkey"	**Product License Holder.** M/s Biem Ilac San. Ve Tic. A.S Turgut Reis Cad. No: 21 06570 Tandogan-Ankara/ Turkey **Manufacturer.** M/s Onko Ilac San. Ve Tic. A.S. Gebze Organize Sanayi Bolgesi, 1700 Sokak, No.1703 Gebze/Kocaeli/ Turkey

Decision: Registration Board noted the information

Case No.26: PROPOSAL TO CONSIDER THE RELIANCE PATHWAY FOR THE REGISTRATION OF INNOVATOR PRODUCTS MANUFACTURED OUTSIDE THE UNTED STATES

Subject case was considered and defer in 316th meeting of Registration Board held on 15th, 16th, 17th & 18th March, 2022 as under: -

Pharma Bureau submit a letter on subject cited above which is reproduced as under:

Pharma Bureau member companies involved in the import of state-of-the-art drugs from the First World countries in general and the United States of America in particular.

As you are aware of, USFDA is usually the first authority to register any new drug or therapy for the use of its patients and at times, the difference between the initial approval-time from the USFDA to the next SRA (especially EU) can take anywhere from 6 months to 1 year. Due to this fundamental reason, most of the markets in the world relied on the USFDA approval, and proceeded with their local registrations accordingly with the US CPP.

There has, however, there is a policy change in within the USFDA regarding the Foreign Export (FE) CPP program for products not manufactured nor exported from the US, and eventually, they relinquished their foreign exported CPPs program due to lack of legal authority from the US Congress, which is notified as follows on their official website:

"The FDA Center for Drug Evaluation and Research (CDER) previously issued foreign exported CPPs for FDA-approved drugs and biologics that were exported from a country other than the United States. Now CDER does not issue foreign exported CPPs given the other resources available for stakeholders to verify whether a drug or biologic is FDA approved and to view FDA's classifications of its inspections of manufacturing facilities."
(Source link: https://www.fda.gov/drugs/guidance-compliance-regulatory-information/human-drug-exports)

However, the US FDA has undertaken a number of transparency initiatives in recent years. These initiatives and associated documents below can serve as valid alternatives to an FE CPP, which are as follows:

1) USFDA approval letter present on FDA website.

2) The "90-Day Decisional e-mail" from FDA, which includes as an attachment a copy of the narrative portion of the Establishment Inspection Report (EIR), along with the FDA Market Authorization Letter which satisfies the intent of the FE CPP. Decisional email represents the manufacturing site along with its DUNS (Data Universal Numbering System). The DUNS can be traced on the official website for the full information about the manufacturing site on the following link:
   https://www.accessdata.fda.gov/scripts/cder/drls/default.cfm
   Hence, the manufacturing site of the product can also be verified from the FDA website.

3) National Drug Code (NDC) Directory of FDA is updated on a daily basis and is a key resource to verify the different attributes of products such as proprietary name, strength, dosage form, route of administration, marketing date, etc. It serves as a universal product identifier for the drugs approved by FDA. FDA publishes the listed NDC numbers with a current list of all drugs manufactured, prepared, propagated, compounded, or processed by it for commercial distribution. Following is the website link for the NDC Directory:
   https://www.accessdata.fda.gov/scripts/cder/ndc/index.cfm

4) Further resources of information to verify miscellaneous attributes of the product along with its marketing status are the ORANGE BOOK for small molecules/chemical drugs and the PURPLE BOOK for biologicals. Following are the links for the said databases:
   ORANGE BOOK: https://www.accessdata.fda.gov/scripts/cder/ob/index.cfm
   PURPLE BOOK: https://purplebooksearch.fda.gov/

In the light of above facts and information, we are confident that we have enough alternate resources to validate the necessary information, which is included in a CPP.

Considering the said details, we request you to exercise flexibility by accepting this alternate pathway for the new drugs manufactured outside the US, and make the registration of innovator drugs top priority in order to meet the unmet needs of the patients of Pakistan.

Decision 317:
Registration Board considered and deferred for further confirmation of CoPP requirement as per law. The Board further directed to send an email to USFDA for clarification on CoPP issuance in above scenario.

As per form-5F guidance documents:
"An importer shall provide Certificate of Pharmaceutical Product (CoPP) / Free Sale certificate and GMP certificate of the Manufacturer issued by relevant regulatory authority in the country of origin and name of exporting country"

Very similar case applied by M/s Roche pharma in which they informed that EMA will not issue CoPP anymore and they submit EMA online document which stated that:

"EMA is only issuing certificates electronically, as of March 2020. They are in PDF format, using an electronic signature that complies with Regulation (EU) No 910/2014 on the electronic identification and trust services for electronic transactions in the internal market (eIDAS Regulation)"

Decision: **Registration Board after deliberation decided to accept the CoPP copy if it is confirmed from the official website of the concerned issuing authority of a country of origin. Furthermore, the firm shall submit a notorized copy of CoPP of electronically issued CoPP for the record.**

Case No: 1 Renewal application of Hair Max Plus Topical Solution of M/s Elko Organization (Private) Ltd. Karachi.

Reg. No.	Brand Name & Composition	Initial date of Registration PRV (If any)	Date of application (R&I) Fee submitted	Remarks

The firm addressed the above queries as under:

Clarification for non-compliance of timelines given by the company and approved by Registration Board i.e., 30months:

With reference to earlier approval granted, we would like to share summary of progress in compliance of said decision as follows:

- Novartis has acquired a manufacturing plant, Drug Manufacturing License 000003, the approval letter of same was issued by DRAP in October 2020 (Attached Annexure 1).
- As per commitment, we have applied products for transfer of manufacturing site, to our newly acquired site, which we shared as "Wave 1" products in our undertaking. Approval of transfer is awaited.
- Further to our commitment, we have already started validation process and stability of Wave 2 products. Application of transfer will be applied as soon as all documentation are available mandatory to secure approval.
- We acknowledge that timelines of overall project have been delayed due to challenging situations of COVID in year 2020 and 2021. We have communicated same in our first quarterly report submitted to your kind office after approval granted by Drug Registration Board, however, it will not lead to any non-compliance to prevailing contract manufacturing when approval was granted nor with new contract manufacturing policy.

Status of products not applied for extension in contact manufacturing in registration letter dated: 22.01.2020 and 13.02.2020:

With reference to above query, we would like to update authorities' status of remaining products as follows which has not been applied for contract manufacturing:

- Products applied for transfer of registration as "Wave 1", in our undertaking, i-e Lamisil 250mg Tablet, Lamisil 125mg Tablet and Annuva Dispersible Tablet doesn't require said approval.
- Attached (Annexure 2), list of products, which we have divested to local pharmaceutical company "AGP Pharma", transfer of same has been submitted and many given approvals in registration board, therefore, approval of contract manufacturing is no longer relevant for Novartis to apply.
- Other products in the list, applied for contract manufacturing as per contract manufacturing policy.

Decision: **Registration Board discussed that initially M/s. Novartis Pharma (Pakistan) Ltd., 15-West Wharf Dockyard Road, Karachi was given contract manufacturing approval for thirty-nine products for a period of thirty months in 2017 and 2018 under Rule of 20A of Drug (LR&A) Rules 1976. The firm was again granted an extension for a period of 30 months vide DRAP letter dated 13.02.2020 with the condition to comply the aforesaid timelines, however same was not complied by the firm as per stance narrated above.**

Hence the Board directed the firm to provide timelines regarding the transfer of registration of above products to their own facility.

Case No: 11 Renewal applications M/s. Biogen Pharma 260/A- Industrial Triangle Kahuta Road, Islamabad

Reg. No.	Brand Name & Composition	Initial date of Registration PRV (If any)	Date of application (R&I) Fee submitted	Remarks

Case No. 24 M/s. Lachman Pharmaceuticals Lahore

Below mentioned product registered in name of M/s Lachman Pharmaceuticals Lahore was cancelled in 317th meeting of registration Board as renewal application was submitted after prescribed time period under rule 27 of Drug (LR&A) Rules 1976. Accordingly, cancellation letter was issued on 04.07.2022. The firm has now submitted evidence of submission of renewal which indicates the submission of 25.06.2016 rather 27.06.2016 and renewal application is within 60 days after the due date. The firm had submitted 40000/- at that time. The section has verified the date of submission of renewal from the record and it is found that submission date was 25.06.2016 instead 27.06.2016 but still application was filed on 61st day and is after the prescribed time period.

Sr. No.	Reg. No.	Brand Name & composition	Date of Reg	Due date	Renewal application date
1.	043111	Mycogal 105 Injection Each 100ml contains: Spiramycin Adipate…. 105MIU	26-04-2006	25-04-2016	25.06.2016

Decision: As the submission of renewal application is after the prescribed time period i.e. on 25.06.2016 (on 61st day after the due date). Hence Registration Board upheld its decision in its 317th meeting for cancellation of registration of Mycogal 105 Injection (043111).

Case No. 25 Renewal application of Batamine Injection (078954) of M/s Bajwa Pharmaceuticals Pvt Limited Lahore.

Sr. No.	Reg. No.	Brand Name & composition	Date of Reg	Renewal application date	Remarks
2.	078954	Batamine Injection Each ml contains: Ketamine HCl eq. to Ketamine….50mg	06.05.2015	Dy. No. 10967 dated 15.05.2020 Rs. 10000 Rs. 10000/- dated 24.05.2022	The renewal application is submitted within sixty days after due date. The firm has submitted differential fee.

Decision: Registration Board granted renewal to Batamine Injection (078954) w.e.f. 06.05.2020 to 05.05.2025

Case No. 26 Renewal applications of M/s. Berlex Labs. International Multan.

The registration of below mentioned products in name of M/s. Berlex Labs. International Multan were cancelled in 317th meeting of Registration Board and accordingly cancellation letter was issued on 04.07.2022. The firm has now informed that these products were granted renewal in 291st meeting of Registration Board as recorded in last column below and submitted copy of minutes of aforesaid meeting. Perusal of record revealed that stance of the firm is correct. Details are as under:

Sr. No.	Reg. No.	Brand Name & composition	Date of Reg	Due date	Renewal application date	Decision in M-291
1.	062592	Acio Tablets 40mg Each tablet contains: Famotidine……. 40mg	24-02-2010	23-02-2015	12-05-2017	w.e.f 24-02-2015 to 23-02-2020

Decision: Keeping in view the decision of 291st meeting of Registration Board, the cancellation letter issued vide letter F. No. 3-8/2022-RRR (M-317) dated is hereby withdrawn up to the extent on the products granted renewal in 291st meeting.

Case No. 27 Renewal applications of M/s. Orient Animal Health (Pvt) Ltd, Karachi.

Below mentioned renewal application of M/s. Orient Animal Health, (Pvt) Ltd, Karachi was considered in 297th meeting of Registration Board and decided as follows:

Sr. No	Reg. No.	Brand Name and Composition	Initial date of Registration	Date of application (R&I) Fee submitted	Decision
1.	048127	Aivlosin Soluble (Granules for use in drinking water) Contains: - Tylosin Tartrate (Acetyl Isovaleryl) ……85.0% **Product License Holder:** M/s. ECO Animal Health 78 Coombe Road new malden Surrey, KT3 4QS, United Kingdom **Manufacturer:** Cod Beck Blenders Ltd., Cod beck Estate, Dalton Thirsk, north Yorkshire Y07 3HR, United Kingdom	03-03-2008	Dy. No. 30454 dated 15-01-2020 Rs. 20000/-	Renewal is granted w.e.f.03.03.2018 to 02.03.2023 as per Import Policy for Finished Drugs.

Remarks:

The product was deferred in 297th meeting of Registration Board for submission of COPP for Aivlosin Soluble Powder 85% as the submitted COPP is of Aivlosin 62.5% granules. Hence the firm submitted the statement on behalf of manufacturer that ***"The product Aivlosin Soluble is same in all markets. Although the pharmaceutical form is listed as an oral granule on some product labels the generic term oral powder is used. Despite this difference the product in question is the same".***

Further as per CoPP submitted by the firm Tylvalosin as Tartrate 62% is equivalent to Tylvalosin tartrate 85% (Acetyl Isovaleryl Tylosin Tartrate) as per registration letter.

	The proposed proprietary name / brand name	Polivy 30mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Polatuzumab Vedotin ……30mg
	Dosage form of applied drug	Powder for Concentrate for Solution for Injection
	Pharmacotherapeutic Group of (API)	Monoclonal Antibody
	Reference to Finished product specifications	Innovator.
	Proposed Pack size	1's Vial
	Proposed unit price	Not Provided.
	Shelf Life	30 months
	Storage Conditions	2^0C-8^0C
	The status in reference regulatory authorities	The product is itself approved in SwissMedic.
	For generic drugs (me-too status)	Not Available

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Lonza Ltd., Lonzastrasse, CH-3930 Visp, Switzerland
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of Drug Substance at accelerated and real time conditions. The real time stability data conducted at -20^0C is for 24 months. The accelerated stability data conducted at $5^0C \pm 3^0$C is for 6 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the validation of Analytical procedures including verification of compendial methods and validated of product-specific methods for their suitability of intended use to support polatuzumab vedotin lyophilized drug product testing.
	Container closure system of the drug product	• 6 mL, USP/Ph. Eur./JP Type I glass, borosilicate, colorless • 20 mm D777-1, fluororesin laminate, latex-free (lyophilization type) • 20 mm aluminum seal with plastic flip-off cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 Process Performance Qualification Batches. The accelerated stability study data is conducted at 25^0C /60RH for 6 months. The real time stability study data is conducted at 5 ± 3^0C for 9 months.
	Module-IV Non-Clinical	Pharmacology: • Comparing Efficacy of DCDS4501A and DCDS5017A against Human Burkitt's Lymphoma BJAB-PD.cyCD79b.E3 Xenograft in C.B-17 Fox Chase SCID Mice

		• The Effect of MCDS4409A and DCDS4501A against Human Diffuse Large B-Cell Lymphoma WSU-DLCL2 Xenograft in C.B-17 Fox Chase SCID Mice. • The Effect of MCDS4409A and DCDS4501A against Human Burkitt's Lymphoma BJAB-luc Xenograft in C.B-17 Fox Chase SCID Mice. • Measurement of Cell-Based Binding Affinities of Anti-CD79b Clinical Candidate Antibodies DCDS4501A and MCDS4409A and Anti-CD79b Cynomolgus Monkey Surrogate Antibodies DCDS5017A and MCDS1358A. • Effects of MCDS4409A and MCDS1358A on the Induction of Cytokine Release by Peripheral Blood Mononuclear Cells. • Effects of Monomethyl Auristatin E (MMAE) on Cloned hERG Potassium Channels Expressed in Human Embryonic Kidney Cells. Pharmacokinetics: • Full Validation of a Method for the Determination of MMAE in Cynomolgus Monkey Plasma by HPLC with MS/MS Detection. • Quantitative Determination of MMAE in Cynomologus Monkey Plasma by LCIMSIMS. • Quantitative Determination of MMAE in Cynomolgus Monkey Plasma by LC/MS/MS. • Quantitative Determination of MMAE in Rat (Sprague-Dawley) Plasma by LC/MS/MS. • CD79.005 Total Anti-huCD79 (DCDS4501A) Antigen ELISA. • CD79.006 Anti-huCD79b-vc-MMAE (DCDS4501A) Antibody ELISA. • A 6-Week Single Dose Intravenous Pharmacokinetic and Pharmacodynamic Study of MCDS1358A and DCDS5017A in Male Cynomolgus Monkeys. • Characterization of the Pharmacokinetics of Naked SN8 (MCDS4409A), SN8-vc-MMAE (DCDS4501A), Naked 10D10 (MCDS1358A), and 10D10-vc-MMAE(DCDS5017A) in Female SCID Mice. • Determination of Metabolism, Tissue Distribution, and Route of Excretion Following IV Administration of [3H]-MMAE and Unlabeled MMAE in Female Sprague-Dawley RatsEvaluation of In Vitro MMAE Red Blood Cell • Partitioning Potential in Mouse, Rat, Cynomolgus Monkey, and Human. • In Vitro Plasma Protein Binding Determination of G00060245 (MMAE) in Human, Rat, and Monkey. • Determination of Tissue Distribution of DCD4501A (Anti-CD79b-vc-MMAE) Following IV Administration of [125I]/[111In]-Anti-CD79b-vc-MMAE in Female Sprague-Dawley Rats. Toxicology:

		• Safety Evaluation of Herceptin-Auristatin (AS) Immunoconjugates in Female Sprague- Dawley Rats. • Multiple Dose Intravenous Toxicity, Toxicokinetic, and Cardiovascular Safety Pharmacology Study of DCDS4501A and DCDS5017A Administered Intravenously to Cynomolgus Monkeys Once Every 3 Weeks for Four Doses, Followed by at Least a 9-Week Recovery Period. • L5178Y TK+/- Mouse Lymphoma Forward Mutation Assay with a Confirmatory Assay. • In Vivo Rat Bone Marrow Micronucleus Assay. • Intravenous Injection Study for Effects on Embryofetal Developmental and Toxicokinetics with SGN-35 and SGD-1010 in Rats. • Tissue Cross-Reactivity of DCDS4501A with Human Tissues Ex Vivo. SGD-1006, SGD-1427 and SGD-1010 photosafety evaluation.
	Module-V Clinical	• Selectivity in the Presence of Co-Administered Drugs on Bendamustine in Human Plasma by HPLC with MS/MS Detection. • Validation of a Method for the Determination of Cyclophosphamide in Human Plasma by HPLC with MS/MS Detection. • Selectivity in the Presence of Co-Administered Drugs on Doxorubicin in Human Plasma by HPLC with MS/MS Detection. • Validation of a Method for the Determination of Bendamustine and M3 in Human Plasma by HPLC with MS/MS Detection. • An Open-Label, Multicenter, Phase I Trial of the Safety and Pharmacokinetics of Escalating Doses of DCDS4501A in Patients with Relapsed or Refractory B-Cell Non-Hodgkin's Lymphoma and Chronic Lymphocytic Leukemia and DCDS4501A in Combination with Rituximab in Patients With Relapsed or Refractory B-Cell Non-Hodgkin's Lymphoma. • Evaluation of Concentration-QTc Relationship of Polatuzumab Vedotin in Patients with B-Cell Hematologic Malignancies.
	Remarks of Evaluator	**The firm has submitted real time stability data of 09 months only and requested shelf life of 30 months.**
Decision: **Keeping in view legalized CoPP and approval of Swissmedic (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs. Firm will submit real time stability data of 3 commercial batches up to the demanded shelf life before issuance of registration letter.**		
2.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Novo Nordisk Pharma (Private) Limited,** **113, Shahra-e-Iran, Clifton, Karachi.**

	The proposed proprietary name / brand name	NovoEight® 250 IU
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Powder Vial:** Each Vial contains: Human Coagulation Factor VIII, Turoctocog alfa…..250IU **Diluent PFS:**

		Each Pre-filled syringe contains: 0.9% Sodium chloride……4mL
	Dosage form of applied drug	Powder and solvent for solution for Injection
	Pharmacotherapeutic Group of (API)	Antihemorrhagics, blood coagulation factor VIII, ATC code: B02BD02
	Reference to Finished product specifications	Ph. Eur. Specifications
	Proposed Pack size	1's (Powder + Solvent)
	Proposed unit price	Not Provided/As per SRO
	Shelf Life	30 months
	Storage Conditions	Store in refrigerator (2°C – 8°C).
	The status in reference regulatory authorities	The product is itself registered in Danish Medicine Agency & EMA.
	For generic drugs (me-too status)	Not Applicable
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	Novo Nordisk US Bio Production Inc. 9 Technology Drive Lebanon, NH 03784 USA Novo Nordisk A/S Brennum Park 25K, DK-3400, Hillerød, Denmark Novo Nordisk A/S Novo Allé, DK-2880 Bagsværd, Denmark Bioreliance Ltd Todd Campus West of Scotland Science Park, Glasgow G20 OXA, Scotland, UK.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated and real time conditions. The real time stability data is conducted at -80°C±10°C for 60 months for 3 batches with the approved shelf life of 48 months.

	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted analytical methods as per Pharmacopeia. The methods are validated as per SOPs. The Analytical methods are listed below • Water content-Karl Fischer Coulorimetric titration (USP/JP) • Visual evaluation of clarity (Ph.Eur) • Color (Ph.Eur) • Particulate contamination/Foreign insoluble matter (Ph.Eur/JP) • pH (Ph.Eur/USP/JP) • Potency-chromogenic substrate assay (Ph.Eur/) • Particulate matter (Ph.Eur/USP/JP) • Osmalality (Ph.Eur/USP/JP) • Endotoxin (Ph.Eur/USP/JP) • Sterility (Ph.Eur/USP/JP)
	Container closure system of the drug product	Powder in Vial: The primary packaging of vial for turoctocog alfa drug product is a 5 mL vial made of type I glass, high hydrolytic resistance, in compliance with Ph Eur, USP and JP. The lyophilisation rubber stopper for the turoctocog alfa drug product is made of a grey chlorobutyl rubber. The rubber meets the requirements of Ph Eur (Rubber closures for aqueous preparations for parenteral use, Type I) and USP (Elastomeric Closures for Injections). The stopper is sealed with a snap-off cap made of aluminium and plastic.
		Diluent in PFS: The container closure system consists of a siliconised glass barrel made of borosilicate glass type 1 (Ph. Eur., USP and JP), a siliconised rubber plunger made of bromobutyl rubber (Ph. Eur., USP), and a syringe closure system (V-OVS 10.6®) composed of a tip cap with a luer lock and a tamperevident seal. Only the tip cap of the syringe closure system is in contact to the 0.9 % Sodium Chloride Solution. This tip cap is also made of bromobutyl rubber (Ph. Eur., USP).
	Stability study data of drug product, shelf life and storage conditions	Powder in Vial: Firm has submitted Primary stability study data of 3 batches. The accelerated stability study data is conducted at 30°C±2°C/75%±5RH for 12 months. The real time stability study data is conducted at 5°C±3°C/75%±5RH for 30 months. Firm has also submitted 6 months data at 40°C±2°C/75%±5RH
		Diluent in PFS: Firm has submitted Primary stability study data of 3 batches respectively. The accelerated stability study data is conducted at 30°C±2°C/65%±5RH for 60 months. The real time stability study data is conducted at 5°C for 60 months.

	Module-IV Non-Clinical	The Firm has submitted following non-clinical studies: Pharmacology: Primary Pharmacodynamics • Species crossreactivity (Turoctocog alfa enhanced thrombin generation in rat, cynomolgus monkey and human plasma in a dose dependent manner. This demonstrates species cross-reactivity of turoctocog alfa to rat and cynomolgus) • Thrombin generation assay (Dose dependent increase in thrombin generation. Similar thrombin generation capacity by turoctocog alfa and Advate®, ReFacto® and Haemate®). • vWF interaction (Turoctocog alfa and ReFacto® bind vWF with very similar affinities.) • vWF interaction (Turoctocog alfa, Advate® and ReFacto® bind vWF with very similar affinities). • SDS-PAGE and Western blot (FVIII related peptides, detected by Western Blot using different FVIII antibodies, are similar for turoctocog alfa and different commercially available FVIII products). • Kinetics mAb by SPR (Binding constants of different FVIII • mAbs are similar for turoctocog alfa, Advate® and ReFacto®). • Tail bleeding in F8 knock-out mice (Bleeding time and blood loss were significantly longer in vehicle treated F8 knock-out mice compared to normal CB57. The bleeding time and blood loss after administration of 200 IU/kg Advate® or turoctocog alfa was not significantly different from normal controls. No difference in potency was observed between Advate® and turoctocog alfa). • Knee injury model in F8 knock-out mice (F8 knock-out mice had a visual bleeding score (VBS) of 2.04 (SD1.30). Treatment with turoctocog alfa and Advate® significantly reduced the bleeding with a mean of 0.58 (SD 0.93) and 0.50 (SD 1.06) respectively. The mean change in joint diameter for F8 knock-out, untreated, and treated with turoctocog alfa and Advate® respectively was: 1.23 mm (SD 0.94); 0.32 mm (SD 0.39) and 0.25 mm (SD 0.39). • PK/PD study in haemophilia A dogs (Turoctocog alfa and Advate® were equally capable of normalising whole blood clotting time and showed similar activity profile over time). Secondary Pharmacodynamics • Not applicable as all studies done are related to desired therapeutic target. Safety Pharmacology • Safety Pharmacology is done on Male Cynomolgus and monkeys and observed following functions • Central Nervous System • Respiratory Function • Kindey Funcation • Cardiovascular system Pharmacodynamic Drug Interactions • Not Performed Pharmacokinetic:

		Absorption is studied with Test System • F8 Knock-out mice, single dose (PK of turoctocog alfa, Advate® and ReFacto® in F8 knock-out mice) • Haemophilia A dog, single dose (PK in heamophila A dogs) • Cynomolgus monkey, single dose (Toxicokinetics) • Sprague Dawley rat, multiple dose (Toxicokinetics) • Cynomolgus monkey, multiple dose (Toxicokinetics) Distribution is studies with Test System (C57Bl mice) Toxicology: • Single Dose Escalation Toxicity in Male cynomolgus monkey • Repeat Dose Toxicity in Rat and Male cynomolgus monkey • Genotoxicity • Carcinogenicity • Reproductive and Developmental Toxicity • Local Tolerance in Male New Zealand White Rabbits and Male cynomolgus monkey and Rats. • Other Toxicity Studies • Immunogenicity Study in rats
	Module-V Clinical	The Firm has submitted following clinical studies: • NN7008-3522 First human dose trial A multi-centre, multi-national, open-label, first human dose, PK, safety, single dose trial using a sequential design in patients with haemophilia A. • NN7008-3600 PK in Japanese patients. A multi-centre, open-label, single dose trial investigating the PK of turoctocog alfa in Japanese patients with haemophilia A. • NN7008-3893 PK trial (two lots). A multi-centre, open-label, trial investigating the PK of a single dose of turoctocog alfa in patients with haemophilia A. • NN7008-4015 PK trial (four lots). A multi-centre, open-label trial investigating the PK of four lots of turoctocog alfa in patients with haemophilia A. • NN7008-4239 PK trial. A multicentre, open-label trial evaluating the PK of turoctocog alfa in relation to BMI in patients with haemophilia A. • NN7008-3543 Pivotal trial. A multi-centre, multi-national, • open-label, safety, efficacy, single arm trial in patients with severe haemophilia A investigating turoctocog alfa when used for prevention and treatment of bleeds. The trial included a sub-trial designed to evaluate the safety and efficacy of turoctocog alfa when used for prevention and treatment of bleeding during surgical procedures and in the surgery period • NN7008-3545 Paediatric trial. A multi-centre, open-label, noncontrolled safety and efficacy trial of turoctocog alfa in previously treated paediatric patients with haemophilia A. • NN7008-3568 Extension trial. A multi-centre, multi-national, open-label, non-randomised, single treatment arm safety and efficacy extension trial in patients with haemophilia A investigating turoctocog alfa when used in a preventative or on-demand treatment regimen. The trial

		• includes a sub-trial designed to evaluate safety and efficacy of turoctocog alfa during surgery. • NN7008-4028 Previously treated Chinese patients. Efficacy and safety of turoctocog alfa for prevention and treatment of bleeding episodes in previously treated Chinese patients with haemophilia A. • NN7008-3553 Non-interventional post autorisation safety study (PASS). A multi-centre non-interventional study of safety and efficacy of turoctocog alfa during long-term prevention and treatment of bleeds in previously FVIII treated patients with severe and moderately severe haemophilia A (FVIII ≤2%). • NN7008-4105 Non-interventional study. A multicentre, non-interventional post marketing study of safety and efficacy of turoctocog alfa (rFVIII) during long-term treatment of haemophilia A in Japan. • NN7008-4253 Non-interventional study. Multicentre, post-authorisation safety study with turoctocog alfa in Mexican haemophilia A patients. • NN7008-4304 Non-interventional study. A prospective multicentre observational study of safety and efficacy outcomes with turoctocog alfa for prevention and control of bleeds in mild, moderate and severe Haemophilia A in India. • NN7008-3809 Trial in previously untreated patients. Safety and efficacy of turoctocog alfa in prevention and treatment of bleeds in paediatric previously untreated patients with haemophilia A (<6 years of age).
Decision: **Keeping in view legalized CoPP and approval of Dansih Medicine Agency (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.**		
3.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Novo Nordisk Pharma (Private) Limited,** **113, Shahra-e-Iran, Clifton, Karachi.**
	Name, address of Manufacturing site.	113, Shahra-e-Iran, Clifton, Karachi. **Address of go-down:** 208/1, Sector 23, KIA, Karachi Validity: 09-04-2023 Status: License to sell drugs by way of Wholesale.
	Name and address of marketing authorization holder (abroad)	M/s Novo Nordisk A/S, Novo Allé, DK-2880 Bagsværd, Denmark.
	Name, address of manufacturer(s)	M/s Novo Nordisk A/S, Novo Allé, DK-2880 Bagsværd, Denmark.
	Name of exporting country	Denmark
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	CoPP: • Firm has submitted legalized copy of CoPP (No. 2021110493) dated 03-11-2021 issued by Danish Medicine Agency valid for two years. The

		CoPP specifies free sale status of the product in Exporting country with its availability. The CoPP also confirms the GMP status of the firm.
	Details of letter of authorization / sole agency agreement	Firm has submitted letter of product specific authorization from Corporate Vice President (Global Regulatory Affairs) of Novo Nordisk A/S, Denmark. According to the letter, the firm Novo Nordisk A/S, Denmark authorizes "M/s Novo Nordisk Pharma (Private) Limited" to be their wholly owned subsidiary and sole importer in Pakistan and to import, distribute & sale the product. The letter was issued on 21-10-2021 and valid till 31-12-2024.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)

	Intended use of pharmaceutical product	☒Domestic sale ☐ Export sale ☐Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 31967 dated 22-11-2021
	Details of fee submitted	PKR 75,000/-: dated 22/10/2021 Deposit Slip No. 96507294753
	The proposed proprietary name / brand name	NovoEight® 500 IU
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Powder Vial:** Each Vial contains: Human Coagulation Factor VIII, Turoctocog alfa…..500IU **Diluent PFS:** Each Pre-filled syringe contains: 0.9% Sodium chloride……4mL
	Dosage form of applied drug	Powder and solvent for solution for Injection
	Pharmacotherapeutic Group of (API)	Antihemorrhagics, blood coagulation factor VIII, ATC code: B02BD02
	Reference to Finished product specifications	Ph. Eur. Specifications
	Proposed Pack size	1's (Powder + Solvent)

	Proposed unit price	Not Provided/As per SRO
	Shelf Life	30 months
	Storage Conditions	Store in refrigerator (2°C – 8°C).
	The status in reference regulatory authorities	The product is itself registered in Danish Medicine Agency & EMA
	For generic drugs (me-too status)	Not Applicable
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	Novo Nordisk US Bio Production Inc. 9 Technology Drive Lebanon, NH 03784 USA Novo Nordisk A/S Brennum Park 25K, DK-3400, Hillerød, Denmark Novo Nordisk A/S Novo Allé, DK-2880 Bagsværd, Denmark Bioreliance Ltd Todd Campus West of Scotland Science Park, Glasgow G20 OXA, Scotland, UK.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated and real time conditions. The real time stability data is conducted at -80°C±10°C for 60 months for 3 batches with the approved shelf life of 48 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Analytical method validation/verification of product	Firm has submitted analytical methods as per Pharmacopeia. The methods are validated as per SOPs. The Analytical methods are listed below • Water content-Karl Fischer Coulorimetric titration (USP/JP) • Visual evaluation of clarity (Ph.Eur) • Color (Ph.Eur) • Particulate contamination/Foreign insoluble matter (Ph.Eur/JP) • pH (Ph.Eur/USP/JP) • Potency-chromogenic substrate assay (Ph.Eur/) • Particulate matter (Ph.Eur/USP/JP) • Osmalality (Ph.Eur/USP/JP) • Endotoxin (Ph.Eur/USP/JP) • Sterility (Ph.Eur/USP/JP)
	Container closure system of the drug product	Powder in Vial: The primary packaging of vial for turoctocog alfa drug product is a 5 mL vial made of type I glass, high hydrolytic resistance, in compliance with Ph Eur, USP and JP. The lyophilisation rubber stopper for the turoctocog alfa drug product is made of a grey chlorobutyl rubber. The rubber meets the requirements of Ph Eur (Rubber closures for aqueous preparations for parenteral use, Type I) and USP (Elastomeric Closures for Injections). The stopper is sealed with a snap-off cap made of aluminium and plastic.
		Diluent in PFS: The container closure system consists of a siliconised glass barrel made of borosilicate glass type 1 (Ph. Eur., USP and JP), a siliconised rubber plunger made of bromobutyl rubber (Ph. Eur., USP), and a syringe closure system (V-OVS 10.6®) composed of a tip cap with a luer lock and a tamperevident seal. Only the tip cap of the syringe closure system is in contact to the 0.9 % Sodium Chloride Solution. This tip cap is also made of bromobutyl rubber (Ph. Eur., USP).
	Stability study data of drug product, shelf life and storage conditions	Powder in Vial: Firm has submitted Primary stability study data of 3 batches for lowest strength (250IU) & higher strength (3000IU). The accelerated stability study data is conducted at 30°C±2°C/75%±5RH for 12 months. The real time stability study data is conducted at 5°C±3°C/75%±5RH for 30 months. Firm has also submitted 6 months data at 40°C±2°C/75%±5RH
		Diluent in PFS: Firm has submitted Primary stability study data of 3 batches respectively. The accelerated stability study data is conducted at 30°C±2°C/65%±5RH for 60 months. The real time stability study data is conducted at 5°C for 60 months.
	Module-IV Non-Clinical	The Firm has submitted following non-clinical studies: Pharmacology: Primary Pharmacodynamics • Species crossreactivity (Turoctocog alfa enhanced thrombin generation in rat, cynomolgus monkey and human plasma in a dose dependent manner.

		This demonstrates species cross-reactivity of turoctocog alfa to rat and cynomolgus) • Thrombin generation assay (Dose dependent increase in thrombin generation. Similar thrombin generation capacity by turoctocog alfa and Advate®, ReFacto® and Haemate®). • vWF interaction (Turoctocog alfa and ReFacto® bind vWF with very similar affinities.) • vWF interaction (Turoctocog alfa, Advate® and ReFacto® bind vWF with very similar affinities). • SDS-PAGE and Western blot (FVIII related peptides, detected by Western Blot using different FVIII antibodies, are similar for turoctocog alfa and different commercially available FVIII products). • Kinetics mAb by SPR (Binding constants of different FVIII • mAbs are similar for turoctocog alfa, Advate® and ReFacto®). • Tail bleeding in F8 knock-out mice (Bleeding time and blood loss were significantly longer in vehicle treated F8 knock-out mice compared to normal CB57. The mean change in joint diameter for F8 knock-out, untreated, and treated with turoctocog alfa and Advate® respectively was: 1.23 mm (SD 0.94); 0.32 mm (SD 0.39) and 0.25 mm (SD 0.39). • PK/PD study in haemophilia A dogs (Turoctocog alfa and Advate® were equally capable of normalising whole blood clotting time and showed similar activity profile over time). Secondary Pharmacodynamics • Not applicable as all studies done are related to desired therapeutic target. Safety Pharmacology • Safety Pharmacology is done on Male Cynomolgus and monkeys and observed following functions • Central Nervous System • Respiratory Function • Kindey Funcation • Cardiovascular system Pharmacodynamic Drug Interactions • Not Performed Pharmacokinetic: Absorption is studied with Test System • F8 Knock-out mice, single dose (PK of turoctocog alfa, Advate® and ReFacto® in F8 knock-out mice) • Haemophilia A dog, single dose (PK in heamophila A dogs) • Cynomolgus monkey, single dose (Toxicokinetics) • Sprague Dawley rat, multiple dose (Toxicokinetics) • Cynomolgus monkey, multiple dose (Toxicokinetics) Distribution is studies with Test System (C57Bl mice) Toxicology:

		• Single Dose Escalation Toxicity in Male cynomolgus monkey • Repeat Dose Toxicity in Rat and Male cynomolgus monkey • Genotoxicity • Carcinogenicity • Reproductive and Developmental Toxicity • Local Tolerance in Male New Zealand White Rabbits and Male cynomolgus monkey and Rats. • Other Toxicity Studies • Immunogenicity Study in rats
	Module-V Clinical	The Firm has submitted following clinical studies: • NN7008-3522 First human dose trial A multi-centre, multi-national, open-label, first human dose, PK, safety, single dose trial using a sequential design in patients with haemophilia A. • NN7008-3600 PK in Japanese patients. A multi-centre, open-label, single dose trial investigating the PK of turoctocog alfa in Japanese patients with haemophilia A. • NN7008-3893 PK trial (two lots). A multi-centre, open-label, trial investigating the PK of a single dose of turoctocog alfa in patients with haemophilia A. • NN7008-4015 PK trial (four lots). A multi-centre, open-label trial investigating the PK of four lots of turoctocog alfa in patients with haemophilia A. • NN7008-4239 PK trial. A multicentre, open-label trial evaluating the PK of turoctocog alfa in relation to BMI in patients with haemophilia A. • NN7008-3543 Pivotal trial. A multi-centre, multi-national, • open-label, safety, efficacy, single arm trial in patients with severe haemophilia A investigating turoctocog alfa when used for prevention and treatment of bleeds. The trial included a sub-trial designed to evaluate the safety and efficacy of turoctocog alfa when used for prevention and treatment of bleeding during surgical procedures and in the surgery period • NN7008-3545 Paediatric trial. A multi-centre, open-label, noncontrolled safety and efficacy trial of turoctocog alfa in previously treated paediatric patients with haemophilia A. • NN7008-3568 Extension trial. A multi-centre, multi-national, open-label, non-randomised, single treatment arm safety and efficacy extension trial in patients with haemophilia A investigating turoctocog alfa when used in a preventative or on-demand treatment regimen. The trial • includes a sub-trial designed to evaluate safety and efficacy of turoctocog alfa during surgery. • NN7008-4028 Previously treated Chinese patients. Efficacy and safety of turoctocog alfa for prevention and treatment of bleeding episodes in previously treated Chinese patients with haemophilia A. • NN7008-3553 Non-interventional post autorisation safety study (PASS). A multi-centre non-interventional study of safety and efficacy of turoctocog alfa during long-term prevention and treatment of bleeds in

		previously FVIII treated patients with severe and moderately severe haemophilia A (FVIII ≤2%). • NN7008-4105 Non-interventional study. A multicentre, non-interventional post marketing study of safety and efficacy of turoctocog alfa (rFVIII) during long-term treatment of haemophilia A in Japan. • NN7008-4253 Non-interventional study. Multicentre, post-authorisation safety study with turoctocog alfa in Mexican haemophilia A patients. • NN7008-4304 Non-interventional study. A prospective multicentre observational study of safety and efficacy outcomes with turoctocog alfa for prevention and control of bleeds in mild, moderate and severe Haemophilia A in India. • NN7008-3809 Trial in previously untreated patients. Safety and efficacy of turoctocog alfa in prevention and treatment of bleeds in paediatric previously untreated patients with haemophilia A (<6 years of age).
Decision: Keeping in view legalized CoPP and approval of Dansih Medicine Agency (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.		

B: Imported Human Biologicals from Non-reference countries

1.	**Name, address of Applicant / Importer**	**M/s Uniplan Trade International (Pvt.) Ltd., 132/1, Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore.**
	Details of Drug Sale License of importer	**License No:** 05-352-0070-034348D **Address:** 132/1, Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore. **Validity: 07-07-2022** **Status:** License to sell drugs as a distributor.
	Name and address of marketing authorization holder (abroad)	M/s Allmed Middle East, 2nd Industrial Zone, Parts No. 72, 70, 87, 6th of October City, Egypt.
	Name, address of manufacturer(s)	M/s Global Pharmaceutical Industries (2), 5th Industrial Zone, Parts No. 2A, 6th of October City, Egypt.
	Name of exporting country	Egypt
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized GMP Certificate (No. 5/2022) dated 13-01-2022 valid till 13-01-2023 issued by Egyptian Drug Authority. The certificate specifies the GMP status of the manufacturer. • Firm has submitted legalized FSC (No. 00185/2020/H) dated 19-05-2020 issued by Egyptian Drug Authority. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Managing Director of Allmed Middle East. According to the letter, the firm *M/s Allmed Middle East* authorizes "Uniplan Trade International (Pvt.) Limited" to distribute and sale the product. The letter was issued on 21-10-2020 and valid till 31-12-2022.
	Status of the applicant	☐ Manufacturer

		☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 12486, 9062 & 12486 (R&I) Dated 27-04-2021, 11-02-2022 & 06-04-2022
	Details of fee submitted	Rs. 100,000/- dated 22-04-2021
	The proposed proprietary name / brand name	**BoviParin**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Heparin Sodium……5000IU
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	USP
	Proposed Pack size	1's Vial (5mL)
	Proposed unit price	Not Provided.
	Shelf Life	02 Years
	Storage Conditions	$\leq 30^0$C
	The status in reference regulatory authorities	Heparin Panpharma of M/s Panpharma, France.
	For generic drugs (me-too status)	Vaxcel Heparin Sodium Injection of M/s Ghazali Brothers (Reg. No. 088528).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.

	Name, address of drug substance manufacturer	M/s Kin Master Products Quimicos LTDA, Brazil
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of Drug Substance at real time conditions. The real time stability data conducted at $5^0C \pm 3^0C$ is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical method of Heparin Sodium Assay.
	Container closure system of the drug product	Amber Type I Glass vial. Chlorobutyl rubber stopper, Aluminum cap & seal.
	Stability study data of drug product	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at $40 \pm 2^0C/75\%RH \pm 5\%$ for 6 months. The real time stability study data is conducted at 30 ± 2^oC for 24 months.
	Remarks of Evaluator	The firm has submitted the Biosimilarity & Bioequivalence report for Heparin Sodium Injection. Registration Board in its 271st meeting considered that Heparin Sodium Injection is non-rDNA pharmacopoeial product, hence, revised its decision of 260th meeting and granted the approvals on the basis of valid legalized CoPP & availability in country of origin.
Decision: Keeping in view the availability of product in country of origin as per submitted FSC and Heparin injection being non-rDNA pharmacopoeial product; Registration Board approved the product as per current Import Policy for finished drugs.		
2.	**Name, address of Applicant / Importer**	**M/s Altimi Biosciences (Pvt.) Ltd., Office No. 201, Plot No. 43-C, Bukhari Commercial, Lane-10, Pase-VI DHA, Karachi.**
	Details of Drug Sale License of importer	License No: 2988 Address: Office No. 201, Plot No. 43-C, Bukhari Commercial, Lane-10, Pase-VI DHA, Karachi. Address of go-down: B-40, S.I.T.E., Karachi. Validity: 18-08-2021 Status: License to sell drugs by way of Whole sale.

	Name and address of marketing authorization holder (abroad)	M/s Hetero Biopharma Limited, Sy. No. 458(Part), TSIIC-Formulation SEZ, Polepally (Village), Jadcherla (Mandal), Mahaboobnagar (District)- 509301, Telangana State, India.
	Name, address of manufacturer(s)	M/s Hetero Biopharma Limited, Sy. No. 458(Part), TSIIC-Formulation SEZ, Polepally (Village), Jadcherla (Mandal), Mahaboobnagar (District)- 509301, Telangana State, India.
	Name of exporting country	India
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. 8963/E1/2018-24) dated 19-01-2019 valid till 23-11-2021 issued by DCA Telangana India. The CoPP specifies free sale status of the product in country of origin along with its availability. The certificate also specifies the GMP status of the manufacturer. • Firm has submitted the copy of valid CoPP (No. 3049930/TS/2022) dated 27-06-2022 valid till 11-06-2025 issued by DCA Telangana India. The CoPP specifies free sale status of the product in country of origin along with its availability. The certificate also specifies the GMP status of the manufacturer.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Sole Agent Authorization from Global Head- Biologics Business of M/s Hetero Biopharma Limited, Sy. No. 458(Part), TSIIC-Formulation SEZ, Polepally (Village), Jadcherla (Mandal), Mahaboobnagar (District)- 509301, Telangana State, India. According to the letter, the firm M/s Hetero Biopharma authorizes "Altimi Biosciences (Pvt.) Ltd.," to register, sale and quote the products within Pakistan. The letter was issued on 30-01-2020 and valid for 24 months.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)/ Biosimilar
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 28447, 33278, 5394 & 22784 (R&I) Dated 29-10-2020, 21-12-2021, 25-02-2022 & 11-08-2022
	Details of fee submitted	Rs. 100,000/- dated 26-10-2020
	The proposed proprietary name / brand name	Pamera 40 (Adalimumab 40mg/0.8mL)
	Strength / concentration of drug of Active	Each Pre-filled glass syringe (0.8 mL) contains: Adalimumab (r-DNA Origin)……..40mg

	Pharmaceutical ingredient (API) per unit	
	Dosage form of applied drug	Solution for sub-cutaneous Injection in single use pre-filled syringe
	Pharmacotherapeutic Group of (API)	TNF Blocker
	Reference to Finished product specifications	As per Innovator.
	Proposed Pack size	1's Vial
	Proposed unit price	Not Provided.
	Shelf Life	18 months
	Storage Conditions	2^0C-8^0C
	The status in reference regulatory authorities	Idacio 40mg of M/s Fresenius Kabi Ltd., UK.
	For generic drugs (me-too status)	Not Registered.
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Hetero Biopharma Limited, Sy. No. 458(Part), TSIIC-Formulation SEZ, Polepally (Village), Jadcherla (Mandal), Mahaboobnagar (District)- 509301, Telangana State, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 Commercial batches of Drug Substance at accelerated and real time conditions. The real time stability data conducted at -20^0C±5^0C is for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Analytical method validation/verification of product	Firm has submitted Validation of Analytical Procedures: Protein content by UV SDS-PAGE with CP-B staining Weak Cation Exchange Chromatography Size Exclusion Chromatography Relative Potency by VEGF Neutralization Bacterial Endotoxin Text Sterility Test
	Container closure system of the drug product	• Transparent glass Prefilled Syringe Barrel with stainless steel Hypodermic needle covering with rigid needle shield. • Plunger stopper packaged in sealed double polypropylene bag. • Polypropylene plunger rod.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 commercial batches. The accelerated stability study data is conducted at 25 ± 2^0C for 6 months. The real time stability study data is conducted at 5 ± 3^0C for 18 months.
	Module-IV Non-Clinical	Summarized in Biosimilarity data.
	Module-V Clinical	Summarized in Biosimilarity data.

Biosimilarity data as per WHO guidelines submitted by the firm is as follows:

WHO Biosimilarity Guidelines	**Data Submitted by the firm**
Quality Comparison • Physicochemical Characterization	• Protein Content **a.** UV absorbance at 280nm • General Properties **a.** pH **b.** Osmolality **c.** Physical Appearnce **d.** Immunogenic Specificity by Western Blot **e.** Isoelectric point of adalimumab **6** • Primary Structure a. Amino Acid Sequencing by LC-MS/MS b. Molecular weight of intact adalimumab by Intact Mass spectrometry c. Molecular weight for light & heavy chain of adalimumab by Reduced Mass spectrometry d. Peptide Mapping • **Higher order structure** a. Secondary structure by Far UV CD Spectroscopy b. Tertiary structure by Near UV CD Spectroscopy c. Tertiary structure by Intrinsic fluorescence Spectroscopy d. Tertiary structure by Extrinsic fluorescence Spectroscopy e. Confirmation of disulphide integrity by Free Thiol estimation **7** • Purity

	a. High & Low Molecular weight impurities by SE-UPLC b. Quantification of non-glycosylated variants by CE-SDS (Reducing) c. Determination of low molecular weight impurities by CE-SDS (Non-Reducing) d. Determination of charge related impurities by CEX • **Glycan Analysis** a. Qualitative Glycosylation pattern by N-linked glycosylation
Biological Activity & Immunochemical properties	a. Neutralization of soluble TNF-alpha induced cell death in L929 cells b. Ability to induce Antibody Dependent Cell mediated Cytotoxicity (ADCC) using tmCHOK1 cells. c. Ability to induce Complement Dependent Cytotoxicity using tmTNF-alpha d. C1q Binding Assay e. Soluble TNF-alpha binding assay (ELISA)/SPR/tmTNF-alpha binding assay f. Inhibition of soluble TNF-alpha induced IL-8 in HUVEC g. Specificity against TNF-β
Impurities	• <u>Product Purity & related Impurities</u> a. HMW & Monomers by Size Exclusion Chromatography b. LMW Impurities by Capillary SDS-PAGE (Non-reducing) c. Non-Glycosylated Heavy Chain by Capillary SDS-PAGE (Reducing) d. Charge Related variants by cation exchange chromatography • **Process-Related Impurities** a. Host Cell derived proteins b. Quantification of host cell DNA content by qPCR c. Protein A leachate d. Bacterial Endotoxin (BET) test e. Microbial enumeration test (TAMC) f. Microbial enumeration test (TYMC)
Stability Studies	Detailed Above.
Non-clinical Comparison	**In vitro functional assays** Already detailed in Biological Activity. **Toxicology Studies** a. Single dose Toxicity studies in Swiss Albino Mice (sub-cutaneous) b. Single dose Toxicity studies in Swiss Albino Mice (Intravenous) c. Single dose Toxicity studies in Wistar Rats (sub-cutaneous) d. Single dose Toxicity studies in Wistar Rats (Intravenous) e. 28 days repeated dose Toxicity Study in Wistar Rats with 14 days recovery period following weekly subcutaneous administration f. 28 days repeated dose Toxicity Study in New Zealand White Rabbits with 14 days recovery period following weekly subcutaneous administration g. Skin Sensitization study of Adalimumab in Guinea Pigs)
Clinical Comparison	1. A prospective, Randomized, Multiple-Dose, Multi-Center, Comparative, Parallel Clinical Study to evaluate safety, efficacy, immunogenicity and Pharmacokinetics of subcutaneous injection of Adalimumab (Hetero) with RMP concomitantly administered with Rheumatoid Arthritis. (n=168)
Remarks of Evaluator	The initially submitted legalized CoPP was valid till 23-11-2021 which is now expired. Now, the firm has submitted copy of CoPP valid till 11-06-2025 and submitted an undertaking that the said CoPP is in-process of legalization and will

	be submitted as soon as receive. Moreover, the firm has also applied for inspection exemption of manufacturer abroad as the products of same type Bevaas 100 & Bevaas 400 (Bevacizumab) are registered in Indonesia. Both the above products have already been granted inspection exemption on the basis of registration in Indonesia and the instant product is also a monoclonal antibody. The current Import Policy for finished drugs states the following: *"……..products fulfilling below mentioned criteria are exempted from dosage form specific inspection of manufacturer abroad:* *Any product approved by Pharmaceutical Inspection Co-operation Scheme (PIC/S) Participating Authority and manufacturing facility (section) of such product. (https://picscheme.org/en/members)."*

Decision: Keeping in view legalized CoPP indicating product availability in country of origin and biosimilarity data submitted in light of decision of 297th meeting of Registration Board; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

~~**The application for inspection exemption shall be processed after confirmation of minutes as per practice.**~~

3.	**Name, address of Applicant / Importer**	**M/s Sindh Medical Store,** **Sector 13B/B-10, Block-6, PECHS, Karachi.**
	Details of Drug Sale License of importer	**License No:** 0257 **Address:** Sector 13B/B-10, Block-6, PECHS, Karachi **Address of go-down: N/A** **Validity: 01-07-2024** **Status:** License to sell drugs by way of Wholesale
	Name and address of marketing authorization holder/ Product License Holde (abroad)	M/s SK Plasma Co., Ltd., 157 Saneopdanji-gil, Pungsan-eup, Andong-si Gyeongsangbuk-do, Republic of Korea.
	Name, address of manufacturer(s)	M/s SK Plasma Co., Ltd., 157 Saneopdanji-gil, Pungsan-eup, Andong-si Gyeongsangbuk-do, Republic of Korea.
	Name of exporting country	Korea
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** • Firm has submitted original, legalized CoPP (No.2018-A1-1396) dated 07-09-2018 issued by Ministry of Food and Drug Safety, Korea. The CoPP specifies free sale status of the product in country of export along with its availability. The CoPP also confirms the GMP status of the firm. (Periodicity of routine inspection:3years)
	Details of letter of authorization / sole agency agreement	Legalized Product Specific Sole Agency Agreement dated 10-04-2019 valid for 03 years is submitted.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 8787, 7049 (R&I) Dated 23-04-2020, 03-03-2021
	Details of fee submitted	Rs. 100000/- Dated 21-04-2020
	The proposed proprietary name / brand name	**Liv-Gamma SN Inj.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Human Normal Immunoglobulin-G……50mg
	Dosage form of applied drug	Solution for injection
	Pharmacotherapeutic Group of (API)	Human Normal Immunoglobulin
	Reference to Finished product specifications	Ph. Eur. Specifications
	Proposed Pack size	1's Vial (50mL)
	Proposed unit price	As per DPC
	Shelf Life	24 months
	Storage Conditions	2^0C-8^0C
	The status in reference regulatory authorities	Intratect 50g/L of M/s Biotest Pharma GmbH, Germany.
	For generic drugs (me-too status)	Bioven Mono of M/s SMS Corporation (Reg. No. 111087)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO. Firm has summarized information related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, Characterization (Elucidation of Structure and Other Characteristics), impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	M/s SK Plasma Co., Ltd., 157 Saneopdanji-gil, Pungsan-eup, Andong-si Gyeongsangbuk-do, Republic of Korea.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	The firm has submitted stability data of drug substance/ bulk at accelerated and real time conditions. The real time stability data conducted at 2^0C-8^0C is for 12 months for 3 batches.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted Validation & verification of Analytical Procedures.
	Container closure system of the drug product	Glass vial Colorless Type II glass 30mm Chlorobutyl rubber type I stopper 12.5mm, flip-off seal; Polypropylen (PP), Aluminum
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 25±2^{O}C/RH 60±5% for 6 months. The real time stability study data is conducted at 2^OC-8^0C for 24 months.
	Module-IV	No non-clinical studies are performed.
	Module-V	• A multicenter, Open-Label, Phase III Study to evaluate the efficacy and safety of Liv-Gamma SN Inj. in primary Immune Thrombocytopenia (ITP) • Observational study to evaluate the efficacy and safety of Liv-Gamma SN Injection in primary immunodeficiency disease (PID).

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	The firm has submitted stability data of drug substance/ bulk at accelerated and real time conditions. The real time stability data conducted at 2^0C-8^0C is for 12 months for 3 batches.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted Validation & verification of Analytical Procedures.
	Container closure system of the drug product	Glass vial Colorless Type II glass 30mm Chlorobutyl rubber type I stopper 12.5mm, flip-off seal; Polypropylen (PP), Aluminum
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 25±2^{O}C/RH 60±5% for 6 months. The real time stability study data is conducted at 2^OC-8^0C for 24 months.
	Module-IV	No non-clinical studies are performed.
	Module-V	• A multicenter, Open-Label, Phase III Study to evaluate the efficacy and safety of Liv-Gamma SN Inj. in primary Immune Thrombocytopenia (ITP)

		• Observational study to evaluate the efficacy and safety of Liv-Gamma SN Injection in primary immunodeficiency disease (PID).

Remarks of the evaluator:

The firm has submitted single CoPP for both strengths and submitted that as per Regulation on Pharmaceuticals Approval standard unit of raw material is 1ml for liquid injections which is mentioned in authorization certificate and CoPP is also issued with the same contents.

Decision: Registration Board deferred the case for submission of following by the firm:

i. No non-clinical studies

ii. Submission of screenshots of available packs in country of origin.

C: Miscellaneous/ Deferred Cases

1. Imported Human Biological applied by M/s Pfizer Pakistan Limited, Karachi deferred in 316th meeting of RB.

Following product of M/s Pfizer Pakistan Limited, Karachi was deferred in 316th meeting of Registration Board:

Name, address of Applicant / Importer	**M/s Pfizer Pakistan Limited,** **B-2, S.I.T.E., Karachi.**
Details of Drug Sale License of importer	**License No:** 1258 **Address:** B-2, S.I.T.E., Karachi. **Address of go-down:** 12 Dockyard Road West Wharf, Karachi. **Validity: 21-04-2022** Status: License to sell drugs by way of Whole sale.
Name and address of marketing authorization holder (abroad)	M/s Pfizer AG, Scharenmoosstrasse 99, 8052 Zurich, Switzerland.
Name, address of manufacturer(s)	M/s Catalent Indiana, LLC 1300 South Patterson Dr. Bloomington, Indiana (IN) 47403, USA
Name of exporting country	Switzerland
Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted original, legalized CoPP (No. 20005811) dated 22-12-2020 issued by Swissmedic. The CoPP specifies that the product is licensed for sale in country of origin but actually not available. • Firm has submitted copy of Eudra GMP certificate No. NL/H 17/1013621a dated 07-06-2017 of said manufacturer.
Details of letter of authorization / sole agency agreement	Firm has submitted notarized copy of Letter of product specific authorization from Head Regulatory Affairs Switzerland of *M/s Pfizer AG, Scharenmoosstrasse 99, 8052 Zurich, Switzerland*. According to the letter, the firm *M/s Pfizer AG* authorizes "Pfizer Pakistan Limited" to be Market Authorization Holder in Pakistan and to be responsible for all matters pertaining to the regulation of this product in Pakistan. The letter was issued on 25-01-2021.

Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
Intended use of pharmaceutical product	Domestic and Export sales
For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
Dy. No. and date of submission	Dy. No. 9811 (R&I) Dated 29-03-2021
Details of fee submitted	PKR 100,000/-: 29-03-2021
The proposed proprietary name / brand name	Abrilada 40mg/0.8mL
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (0.8mL) contains: Adalimumab ……40mg
Dosage form of applied drug	Solution for Injection in Pre-filled Syringe
Pharmacotherapeutic Group of (API)	TNF Blocker
Reference to Finished product specifications	As per Innovator.
Proposed Pack size	1's PFS
Proposed unit price	Not Provided.
Shelf Life	36 months
Storage Conditions	2^0C-8^0C
The status in reference regulatory authorities	Abrilada 40mg/0.8mL PFS, USFDA
For generic drugs (me-too status)	Not Available
Module-II (Quality Overall Summary)	Firm has submitted QOS on WHO Template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and

	clinical overviews and summaries.
Name, address of drug substance manufacturer	M/s Wyeth BioPharma Division of Wyeth Pharmaceuticals LLC. One Burtt Road, Andover, MA 01810, USA
Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at accelerated and real time conditions. The real time stability data conducted at --20^0C±5^0C is for 60 months for 4 batches and for 36 months for 03 batches. The accelerated stability data conducted at 5^0C±3^0C is for 6 months for 4 batches and for 9 months for 03 batches.
Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
Analytical method validation/verification of product	Firm has submitted that Validation of test methods performed to ensure the quality, identity, potency, purity, and safety of PF-06410293 drug product have been performed. The suitability of methods for their intended use was performed by assessment of all relevant validation elements described in International Conference on Harmonization (ICH) Guidelines on Validation of Analytical Procedures: Text and Methodology Q2 and the current USP <1225> Validation of Compendial Methods.
Container closure system of the drug product	• 1 mL BD Hypak Type I Borosilicate glass with 29 gauge, ½ inch, thin-walled stainless steel staked needle, and thermoplastic elastomer (TPE) elastomeric needle shield that is not manufactured from natural rubber (latex) within a non-product contact rigid polypropylene cover. • 1mL West Pharmaceutical chlorobutyl elastomeric closure Plunger stopper
Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 process validation batches. The accelerated stability study data is conducted at 25±2^0C /60±5%RH for 6 months. The real time stability study data is conducted at 5±3^0C for 36 months. The batches are not stable at accelerated conditions.
Module-IV Non-Clinical	Summarized in Biosimilarity data.
Module-V Clinical	Summarized in Biosimilarity data.

Bio similarity data as per WHO guidelines submitted by the firm is as follows:

WHO Biosimilarity Guidelines	Data Submitted by the firm
Quality Comparison • Physicochemical Characterization	• Primary Structure and Posttranslational Modifications a. Establishment and Verification of Adalimumab Amino Acid Sequence b. Characterization of Molecular Mass, Primary Structure and Posttranslational Modifications c. HILIC/MS - N-Linked Glycan Mapping d. N-LINKED GLYCAN STRUCTURE - SIALIC ACID ANALYSIS • Charge Heterogeneity a. Heightened Characterization of Charge Isoforms b. LC/MS Characterization of Charge Isoforms c. Characterization by Carboxypeptidase B Treatment d. Biological Activity of Charge Isoforms • **Disulfide Bonds** a. Characterization of Disulfide Bonds b. Sulfhydryl Analysis • **Higher order structure** a. Secondary Structure Characterization – Far-UV CD Spectroscopy b. Secondary Structure Characterization – FTIR Spectroscopy c. Tertiary Structure by Near-UV CD Spectroscopy d. Tertiary Structure Characterization – Intrinsic Fluorescence Emission Spectroscopy e. Thermal Stability Characterization – DSC f. Higher Order Structure - X-ray crystallography
Biological Activity & Immunochemical properties	• **Functional Characterization of the Fc domain** i. Characterization of Antibody-Dependent Cellular Cytotoxicity (ADCC) Function a. Primary NK Cell ADCC Assay b. PBMC ADCC Assay (FcɣRIIIa 158 V/F donor genotype) c. PBMC ADCC Assay (Fc□RIIIa 158 F/F donor genotype) d. FcγRIIIa Reporter Gene Assay (FcγRIIIa RGA) e. Binding to FcɣRIIIa by SPR Analysis ii. Characterization of Complement Dependent Cytotoxicity (CDC) Function a. CDC Assay b. C1q Binding ELISA c. CDC Effector Function Conclusion d. Mixed Lymphocyte Reaction (MLR) Assay e. Additional Fcɣ Receptor Binding SPR Assays f. FcRn Binding SPR Assay • **Functional Characterization of The Fab Domain** i. Functional Assays Demonstrating Blockade of sTNF a. Inhibition of Apoptosis Assay b. Inhibition of ELAM-1 Expression Assay c. Binding to sTNF Target Antigen by ELISA ii. Functional Assays Demonstrating mTNF Binding Activity a. Binding to mTNF Target Antigen on NS0 Cells b. Reverse Signaling

	iii. Lymphotoxin alpha (LT-a) Binding Activity
Impurities	• Product Purity a. HMMS and Monomer – Size Exclusion HPLC b. Fragments and Heavy Chain + Light Chain - Capillary Gel Electrophoresis (Reducing) c. Intact IgG - Capillary Gel Electrophoresis (Non-Reducing)
Stability Studies	**Forced Degradation** Confirmation of similar degradation profiles forced degradation conditions of Elevated temperature, Light exposure, Forced deamidation and Forced oxidation with peracetic acid.
Non-clinical Comparison	**Primary Pharmacodynamic Studies** Already recorded in Biological Activity **Pharmacokinetic Studies** a. Quantitation of PF-06410293 and Adalimumab-EU in Cynomolgus Monkey Serum. b. Detection of Anti-PF-06410293 and Adalimumab-EU Antibodies in Cynomolgus Monkey Serum. c. Repeat-Dose Toxicokinetics
Clinical Comparison	i. A double-blind (Sponsor-open), randomized (1:1:1), parallel-group, 3-arm, single-dose, PK similarity study of PF-06410293 and adalimumab sourced from the US and EU administered SC in the lower abdomen by a PFS to healthy adult. ii. A double-blind (Sponsor-open), randomized (1:1:1), parallel-group, 3-arm, single-dose, definitive PK similarity study of PF-06410293 and adalimumab sourced from the US and EU administered SC in the lower abdomen by a PFS to healthy adult subjects. iii. An open-label, randomized (1:1), parallel-group, 2-arm, single-dose PK comparability study to assess the PK of PF-06410293 following SC administration in the lower abdomen or upper anterior thigh (alternative assignment in each device weight group) using a PFS or a PFP in healthy adult subjects iv. A multi-national, 2-arm, randomised (1:1), double-blind, parallel-group study designed to evaluate the safety, efficacy, population PK, and immunogenicity of PF-06410293 versus adalimumab-EU administered SC in the abdomen or thigh by a PFS, both in combination with methotrexate (MTX) to treat subjects with moderately to severely active RA who had an inadequate response to MTX therapy.
Decision of RB in 316th Meeting: *Registration Board deferred the product for submission of following by the firm:* *i. Valid legalized CoPP indicating product availability in country of origin.* *ii. Regulatory Guidelines from country of origin confirming that product stability at accelerated conditions is not necessary.*	

The firm has now submitted the valid legalized CoPP No. 22001795 dated 06-05-2022 issued by Swissmedic indicating product availability in country of origin. Moreover, the firm has submitted the following reference of ICH Q1A (R2):
"if significant change occurs between 3 and 6 months' testing at the accelerated storage condition, the proposed shelf life should be based on the real time data available from the long term storage condition."

Decision: Keeping in view legalized CoPP and approval of Swissmedic (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

2. Imported Human Biologicals applied by M/s BF Biosciences Limited, Lahore deferred in 317th meeting of Registration Board.

Following products of M/s BF Biosciences Limited, Lahore were deferred in 317th meeting of Registration Board:

1.	**Name, address of Applicant / Importer**	**M/s BF Biosciences Limited,** **5-KM Sunder Raiwind Road, Raiwind, Lahore.**
	Details of Drug Sale License of importer	**License No:** 05-352-0066-034461D **Address:** 5-KM Sunder Raiwind Road, Raiwind, Lahore. **Address of go-down:** 5-KM Sunder Raiwind Road, Raiwind, Lahore. **Validity: 29-06-2022** **Status:** License to sell drugs as a distributor.
	Name and address of marketing authorization holder (abroad)	M/s Sinergium Biotech S.A., Route 9 Km 38.7, of the City of Garin, Province of Buenos Aires, Argentine Republic
	Name, address of manufacturer(s)	M/s Sinergium Biotech S.A., Route 9 Km 38.7, of the City of Garin, Province of Buenos Aires, Argentine Republic
	Name of exporting country	Argentina
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. CE-2021-13181178-APN-DECBR#ANMAT) dated 15-02-2021 valid for two years issued by Argentina. The CoPP specifies free sale status of the product in country of origin along with its availability. The certificate also specifies the GMP status of the manufacturer.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Sole Agent Authorization from Attorney of Sinergium Biotech. According to the letter, the firm *M/s Sinergium Biotech* authorizes "BF Biosciences Limited" to apply for registration. The letter was issued on 04-03-2021 and valid for one year.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 18230 & 9560 (R&I) Dated 29-06-2021 & 14-04-2022
	Details of fee submitted	Rs. 75,000/- dated 09-06-2021

	The proposed proprietary name / brand name	**Viraflu**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each dose (0.5ml) contains: A/Victoria/2570/2019 (H1N1)-(like strain: A/Victoria/2570/2019, IVR-215)……..15 micrograms HA* A/Hong Kong/2671/2019 (H3N2) - (like strain: A/Hong Kong/2671/2019, IVR-208)…….15 micrograms HA* B/Washington/02/2019 - (B/ Victoria lineage) (like strain: B/Victoria/705/2018, BVR-11)…….15 micrograms HA* *viral haemagglutinin
	Dosage form of applied drug	Suspension for Injection
	Pharmacotherapeutic Group of (API)	Seasonal Influenza Vaccine
	Reference to Finished product specifications	As per Innovator.
	Proposed Pack size	1's PFS, 10's PFS
	Proposed unit price	Rs. 870/PFS
	Shelf Life	12 months
	Storage Conditions	2^0C-8^0C
	The status in reference regulatory authorities	Agriflu of M/s Seqirus Inc., FDA.
	For generic drugs (me-too status)	Agrippal S1 vaccine M/s Novartis Pharma.
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Seqirus Vaccines Ltd., Gaskill Road, Speke Liverpool, L24 9GR, UK.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 9 batches of Drug Substance at accelerated (25 ± 2^0C) and real time conditions. The real time stability data conducted at $5^0C\pm2^0$C is for 6 months.

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted Validation of Analytical Procedures.
	Container closure system of the drug product	• Syringe barrel Neutral clear glass, type I, colorless, single dose with a total volume of 1 ml. Syringe barrels are ethylene oxide sterilized. • Silicone Oil The Silicone oil covers the inside barrel surface, to provide easy and smooth plunger stopper motion and the needle, to reduce needle penetration drag force. • Needle Metal needle of 25G 5/8". Metal needle is ethylene oxide sterilized. • Needle shield (component not in contact with the product) The needle shield is a grey colour silicone-butyl protection which function is to protect the needle tip, to seal the cannula opening and maintain sterility. • Stopper The rubber stopper for plunger used with the Nuova Ompi and BD syringes, is made of grey colour butyl. It seals the flange end of the barrel and functions as a piston to deliver the drug and maintain sterility. □□Plunger Rod (component not in contact with the product) Plunger rod is made of plastic material and its function is to impart the movement to the plunger
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 25±2°C for 6 months. The real time stability study data is conducted at 5±3°C for 36 months.
	Module-IV Non-Clinical	**Primary Pharmacodynamics** • Immunogenicity testing of influenza antigens in mice (Study No. KOE 050601). • Study of antibody response with influenza vaccines in young and old mice (Study No. 94-0184). • Study of lymphoproliferative response with influenza vaccines in young and old mice (Study No. 94-0184). • Study of the antibody response in young and old seropositive mice (Study No. 93-847). • Studies of antibody response to various doses of influenza vaccine in mice (Study Nos. 94-0307, 94-0214, and 94-0215).

		• Dose-response Study of Agrippal in 8-week-old and 18-month-old female BALB/c mice (Study No. MF-1/MF-2 2003/04). • Study of the relative post-exposure viral load in the lungs of immunized mice (Study Nos. 94-0307, 94-0214 and 94-0215). • Mouse exposure model • Immunogenicity in rabbits • Intramuscular toxicity study of two doses of influenza vaccine formulation in New Zealand White rabbits (Study No. 191-44). • Reproductive and developmental intramuscular toxicity study of Agrippal vaccine in rabbits, including a post-natal evaluation (Study No. UBA00040). • Reproductive and developmental intramuscular toxicity study of Agrippal vaccine in rabbits, including a post-natal evaluation (Study No. UBA00043). • Immunogenicity and exposure in ferrets • Determination of the efficacy of an influenza vaccine in the experimental exposure model in ferrets (Study No. CBI-PCS-007) **Repeat Dose Toxicity Studies** • 30-Day subacute toxicity study in rabbits by intramuscular route (Study No. 940292).
	Module-V Clinical	• Safety and immunogenicity study of two influenza vaccines in healthy subjects aged 3 to 64 years • Safety and immunogenicity of three commercial lots of influenza vaccines in children aged 6-36 months • Safety and immunogenicity of three lots of cell-derived subunit influenza vaccines compared with 1 lot of egg-derived subunit influenza vaccine in healthy adults • Safety and immunogenicity of influenza vaccine in healthy adults and > older adults • Comparison of the safety, tolerability and immunogenicity of influenza vaccines in adults and the elderly • To evaluate the safety and immunogenicity of Agrippal without thimerosal and Agrippal authorized without preservatives, when administered to subjects aged 3-60 years, stratified into four age groups (3-5 years, 6-11 years, 12-17 years, 18-60 years) • To test the non-inferiority of the immune response to Agrippal with traces of thimerosal (no preservatives) compared to the conventional formulation (i.e. formulation with preservatives, or full formulation with thimerosal) • To test the non-inferiority of the immune response after complete removal of residual thimerosal (Agrippal without thimerosal) to Agrippal with traces of thimerosal. The study was conducted in elderly patients. • To evaluate the safety and immunogenicity of Fluad and other vaccine formulations with MF59 adjuvant when administered to adult patients aged 50-64 years

		• To evaluate the safety and immunogenicity of Fluad and other vaccine formulations with MF59 adjuvant when administered to adult patients aged 18-64 years with renal transplantation • To evaluate the immunogenicity and safety of Agrippal in adults aged 18-60 and elderly > 60 years. • Open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of trivalent influenza virus vaccine (surface antigen, inactivated) AGRIPPAL S1®, formulation 2005-2006, when administered to adults and older adults. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1® surface antigen, inactivated, influenza vaccine, Formulation 2006-2007, when administered to adults and the elderly. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1® surface antigen, inactivated, influenza vaccine, Formulation 2007-2008, administered to adults and the elderly. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1, inactivated surface antigen influenza vaccine, 2008-2009 formulation, when administered to adult and elderly adult subjects. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL® S1 inactivated surface antigen influenza vaccine, Formulation 2009-2010, when administered to adults and older adults. • Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1®, trivalent influenza virus vaccine (surface antigen, inactivated), 2010-2011 formulation, when administered to adults and older adults.
	Remarks of Evaluator	• The firm has not analyzed all the parameters as per monograph of the product in accelerated stability studies for which the firm submitted that accelerated stability data is conducted to test if accidental exposures to conditions other than proposed can affect stability of product, leading to loss of potency, hence, only potency test is performed. • The product gets out of specifications at 1st and 2nd month of accelerated stability studies for which the firm submitted that accelerated stability studies are conducted only for information purpose, hence, an "out of specification" does not require analysis of it.

It seals the flange end of the barrel and functions as a piston to deliver the drug and maintain sterility. • Plunger Rod (component not in contact with the product) Plunger rod is made of plastic material and its function is to impart the movement to the plunger.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 25±2oC for 6 months. The real time stability study data is conducted at 5±3oC for 36 months.
	Module-IV Non-Clinical	Primary Pharmacodynamics • Immunogenicity testing of influenza antigens in mice (Study No. KOE 050601). • Study of antibody response with influenza vaccines in young and old mice (Study No. 94-0184). • Study of lymphoproliferative response with influenza vaccines in young and old mice (Study No. 94-0184). • Study of the antibody response in young and old seropositive mice (Study No. 93-847). • Studies of antibody response to various doses of influenza vaccine in mice (Study Nos. 94-0307, 94-0214, and 94-0215). • Dose-response Study of Agrippal in 8-week-old and 18-month-old female BALB/c mice (Study No. MF-1/MF-2 2003/04). • Study of the relative post-exposure viral load in the lungs of immunized mice (Study Nos. 94-0307, 94-0214 and 94-0215). • Mouse exposure model • Immunogenicity in rabbits • Intramuscular toxicity study of two doses of influenza vaccine formulation in New Zealand White rabbits (Study No. 191-44).

		• Reproductive and developmental intramuscular toxicity study of Agrippal vaccine in rabbits, including a post-natal evaluation (Study No. UBA00040). • Reproductive and developmental intramuscular toxicity study of Agrippal vaccine in rabbits, including a post-natal evaluation (Study No. UBA00043). • Immunogenicity and exposure in ferrets • Determination of the efficacy of an influenza vaccine in the experimental exposure model in ferrets (Study No. CBI-PCS-007) Repeat Dose Toxicity Studies • 30-Day subacute toxicity study in rabbits by intramuscular route (Study No. 940292).
	Module-V Clinical	• Safety and immunogenicity study of two influenza vaccines in healthy subjects aged 3 to 64 years • Safety and immunogenicity of three commercial lots of influenza vaccines in children aged 6-36 months • Safety and immunogenicity of three lots of cell-derived subunit influenza vaccines compared with 1 lot of egg-derived subunit influenza vaccine in healthy adults • Safety and immunogenicity of influenza vaccine in healthy adults and > older adults • Comparison of the safety, tolerability and immunogenicity of influenza vaccines in adults and the elderly • To evaluate the safety and immunogenicity of Agrippal without thimerosal and Agrippal authorized without preservatives, when administered to subjects aged 3-60 years, stratified into four age groups (3-5 years, 6-11 years, 12-17 years, 18-60 years) • To test the non-inferiority of the immune response to Agrippal with traces of thimerosal (no preservatives) compared to the conventional formulation (i.e. formulation with preservatives, or full formulation with thimerosal) • To test the non-inferiority of the immune response after complete removal of residual thimerosal (Agrippal without thimerosal) to Agrippal with traces of thimerosal. The study was conducted in elderly patients. • To evaluate the safety and immunogenicity of Fluad and other vaccine formulations with MF59 adjuvant when administered to adult patients aged 50-64 years • To evaluate the safety and immunogenicity of Fluad and other vaccine formulations with MF59 adjuvant when administered to adult patients aged 18-64 years with renal transplantation • To evaluate the immunogenicity and safety of Agrippal in adults aged 18-60 and elderly > 60 years. • Open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of trivalent influenza virus vaccine (surface antigen,

		inactivated) AGRIPPAL S1®, formulation 2005-2006, when administered to adults and older adults. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1® surface antigen, inactivated, influenza vaccine, Formulation 2006-2007, when administered to adults and the elderly. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1® surface antigen, inactivated, influenza vaccine, Formulation 2007-2008, administered to adults and the elderly. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1, inactivated surface antigen influenza vaccine, 2008-2009 formulation, when administered to adult and elderly adult subjects. • A Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL® S1 inactivated surface antigen influenza vaccine, Formulation 2009-2010, when administered to adults and older adults. • Phase II, open-label, uncontrolled, multi-site study to evaluate the safety and immunogenicity of AGRIPPAL S1®, trivalent influenza virus vaccine (surface antigen, inactivated), 2010-2011 formulation, when administered to adults and older adults.
	Remarks of Evaluator	• The firm has not analyzed all the parameters as per monograph of the product in accelerated stability studies for which the firm submitted that accelerated stability data is conducted to test if accidental exposures to conditions other than proposed can affect stability of product, leading to loss of potency, hence, only potency test is performed. • The product gets out of specifications at 1st and 2nd month of accelerated stability studies for which the firm submitted that accelerated stability studies are conducted only for information purpose, hence, an "out of specification" does not require analysis of it.

Decision of RB in 317th meeting:

"Registration Board deferred the product for submission of details of WHO recommended strains of

seasonal Influenza vaccines for Northern Hemisphere for year 2021-2022."

Now the firm has submitted the WHO recommended composition of influenza virus vaccines for use in the 2021-2022 northern hemisphere influenza season which indicates the following strains for trivalent vaccine:

i. an A/Victoria/2570/2019 (H1N1) pdm09-like virus
ii. an A/Cambodia/e0826360/2020 (H3N2)-like virus
iii. a B/Washington/02/2019 (B/Victoria lineage)-like virus

Decision: Keeping in view legalized CoPPs indicating products availability in country of origin; Registration Board approved the products subject to compliance of current Import Policy for finished drugs.

3. Emergency Use Authorizations granted in name of M/s AGP Limited, Karachi for Sputnik Vaccine.

Following Emergency Use Authorizations (EUAs) were granted to M/s AGP Limited, Karachi for COVID-19 vaccines imported from Russia:

Sr. No.	Reg. No.	Name of Product	Name of Manufacturer	Pack Size
1.	107881	Gam-COVID-Vac Combined vector vaccine for the prevention of coronavirus infection caused by the SARS-CoV-2 virus Solution for Intramuscular Injection	M/s Medgamal Branch, FSBI N.F. Gamaleya"National Research Center for Epidemiology and Microbiology"of the Ministry of Health of the Russian Federation, 18 Gamalei Street, Moscow 123098, Russia.	1's (1 Vial of Component I + 1 Vial (3.0ml) of Component II)
2.	107888		**Product License Holder & Quality Control Site:** M/s Medgamal Branch, FSBI N.F. Gamaleya"National Research Center for Epidemiology and Microbiology"of the Ministry of Health of the Russian Federation, 18 Gamalei Street, Moscow 123098, Russia. **Manufacturer:** M/s Generium Joint-Stock Company (Generium JSC), 601125, Vladimir Oblast, Petushky District, Volginsky, ul. Zavodskaya, bld. 263, Russia	1's (1 Vial (3.0ml) of Component I + 1 Vial (3.0ml) of Component II)
3.	107889		**Product License Holder & Quality Control Site:** M/s Medgamal Branch, FSBI N.F. Gamaleya "National Research Center for Epidemiology and Microbiology" of the Ministry of Health of the Russian Federation, 18 Gamalei Street, Moscow 123098, Russia. **Drug Substance Manufacturer:** M/s Generium Joint-Stock Company (Generium JSC), 601125, Vladimir Oblast, Petushky District, Volginsky, ul. Zavodskaya, bld. 263, Russia. **Finished Product Manufacturer:** M/s Closed Joint Stock Company "Pharmaceutical Company" LEKKO, 601125, Vladimir Oblast, Petushky District, Volginsky, ul. Zavodskaya, bld 277, 279, Russia.	1's (1 Vial (3.0ml) of Component I + 1 Vial (3.0ml) of Component II)
4.	107890		**Product License Holder & Quality Control Site:** M/s Medgamal Branch, FSBI N.F. Gamaleya "National Research Center for Epidemiology and Microbiology" of the Ministry of Health of the Russian	1's (1 Vial (3.0ml) of Component I +

			Federation, 18 Gamalei Street, Moscow 123098, Russia. **Drug Substance Manufacturer:**	1 Vial (3.0ml) of Component II)
5.	107891		M/s Generium Joint-Stock Company (Generium JSC), 601125, Vladimir Oblast, Petushky District, Volginsky, ul. Zavodskaya, bld. 263, Russia. **Finished Product Manufacturer:** M/s Open Joint Stock Company Pharmastandard-UfaVITA Plant, Republic of Bashkortostan, Ufa, Khudayberdina, Street 28, Russia.	5's (5 Ampoules (0.5ml) of Component I + 5 Ampoules (0.5ml) of Component II)

It is pertinent to mention that all the above EUAs were valid till 01-04-2022 as agency authorization of M/s AGP issued by Russian Direct Investment Fund was valid till 01-04-2022. Accordingly, the firm was asked to submit the updated Letter of Authorization. The firm submitted the following:

"We would like to inform you that Emergency Use Authorization (EUA) for Gam-Covid-Vac (Sputnik V) granted by RDIF to AGP has lapsed/ expired on April 1, 2022. Please note that no further authorization has been granted to AGP by RDIF"

Decision: Registration Board decided to give personal hearing to the firm to explain their position why not the Emergency use Authorizations of aforesaid products be revoked with immediate effect due to expiry of agency agreement which provokes the provisions of Section 7 (11) (b) and 42 of the Drug Act, 1976 and Rule 24 (17) of Drugs (Licensing, Registering & Advertising) Rules, 1976.

4. Likang 10µg/0.5ml PFS applied for export registration by M/s Nextar Pharma (Pvt.) Ltd., Karachi.

Name of Local Manufacturer	Bulk Concentrate Manufacturer	Brand Name & Composition	Local & International Availability	Dy. No., Date of Application & Fee Status
M/s Nextar Pharma (Pvt.) Ltd., Plot No. E-58, North Western Industrial Zone, Port Qasim, Karachi.	M/s Livzon Mabpharm Inc., No. 38 Chuangye north Road, Jinwan District, China.	Likang 10µg/0.5mL Each PFS (0.5ml) contains: Recombinant SARS-CoV-2 Fusion Protein (V-01)…… 10µg	No Available	Dy. No. 11705 (R&I) dated 14-05-2022 Rs. 75000/- dated 09-05-2022.

The firm has submitted the following documents as per SOPs of 283rd meeting of Registration Board**:**

Sr. No.	Documents as per SOPs	Documents Submitted by the firm
1.	Application with required fee as per relevant SRO	Application on Form-5D. Fee Challan of Rs. 75000/-
2.	Copy of approved section from CLB	Copy of Pre-filled Syringes (Biological) section renewal dated 22-09-2021.

3.	Copy of last inspection report conducted by DRAP within last 12 months	Copy of GMP Certificate dated 03-06-2021 issued by DRAP valid for two years.
4.	An undertaking that applied registration is exclusively for export purpose and will not be sold in Pakistan	Submitted
5.	Evidence of generic / approval status by Reference Regulatory Authorities for applied formulation. In cases where the formulations are neither generic nor approved by Reference Regulatory Authorities, applicant will provide evidence of approval status of applied formulation by regulatory authority of importing country.	Not Available locally & in reference authorities.
6.	Copy of DML along with its renewal status.	Copy of DML No. 000777 dated 15-03-2018.
7.	An undertaking that the proposed names/ label/ color do not resemble with already registered brands in importing country. In case of resemblance/similarity with already registered drug product in importing country, the applicant will be liable to change immediately.	Submitted.

The firm has also submitted the copy of GMP compliance letter dated 23-08-2021 issued by Guangdong Provincial Medical Products Administration. The firm has submitted export order of Myanmar. Moreover, the firm has the section approval of Biological r-DNA PFS while the instant product is recombinant vaccine.

Decision:

Registration Board deferred the case for submission of following clarifications by the firm:

iii. **The product is not registered in country of origin**
iv. **The formulation is not registered in any of the reference regulatory authorities.**
v. **The applied product is vaccine while the available section of the firm is Biological r-DNA PFS.**

5. Imported Human Biological applied by M/s Biotech Pakistan, Karachi approved in 308th meeting of Registration Board.

Following product of M/s Biotech Pakistan, Karahi was approved in 308th meeting of Registration Board:

5.	**Name, address of Applicant / Importer**	**M/s BIOTECH PAKISTAN** Suit No. 302 Third Floor Tahir Plaza KCHS Karachi
	Details of Drug Sale License of importer	**License No: 0049** **Address:** Suit No. 302 Third Floor Tahir Plaza KCHS Karachi **Validity:** 14-11-2022 **Status:** DSL by way of wholesale.

		of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Baxter AG Benatzkygasse 2-6 A–1221 Vienna Baxter AG Lange Allee 24 A A–1221 Vienna Baxter AG Lange Allee 24 A A–1221 Vienna Baxter AG Uferstrasse 15 A-2304 Orth/Donau, Austria.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of APIs real time and accelerated have been submitted.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not Applicable
	Analytical method validation/verification of product	Process validation, batch analysis and stability studies have been performed.
	Container closure system of the drug product	**Aprotinin Concentrate:** surface treated, sodalime silica glass vial, hydrolytic type II, manufactured by SGD Kipfenberg Stopper: 20 mm halogenobutyl rubber stopper, pink, manufactured by West Pharmaceuticals Services Crimp Cap: Silver 1676luminium cap, pink polypropylene disk, manufactured by Datwyler **Thrombin: Vial** Neutral glass 6R, hydrolytic type I, manufactured by ISO – Gesellschaft für Arzneiverpackungen mbH **Stopper:** 19 mm fluoro-resin laminated butyl rubber stopper, grey, manufactured by Daikyo Seiko Ltd. **Crimp Cap**: Black aluminum cap, white polypropylene disk, manufactured by Datwyler **Calcium Chloride Solution:** colorless glass vials, hydrolytic type I, with a nominal volume of 6 ml, ISO 8362-1. The pertinent stoppers are bromobutyl rubber stopper, 20 mm that are secured onto the vials with crimp caps.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted long term stability study data of 3 batches at 2-8^{o}C. The accelerated stability study data is conducted at 40^{o}C ±2^{o}C / 75% ± 5% RH for 12 months.

	Module 4	**Pharmacodynamics** (Studies in Rat and Rabbits have been provided) **Toxicology** (Studies in Rat and Rabbits have been provided) **Genotoxicity** The assay was performed in two independent experiments, both with and without liver microsomal activation. The items were tested in triplicate at six predefined concentrations up to a maximum dose of 100 microliters **Pharmacokinetics** (FS VH S/D (frozen and lyophilized) is intended for local application only, therefore systemic exposure or distribution to other organs and tissues is not expected and Pharmacokinetic Studies were not conducted. Nevertheless, in order to demonstrate the bioequivalence of bovine and synthetic aprotinin, a pharmacokinetic study in mice was performed and bio-equivalence of bovine and synthetic aprotinin could be demonstrated
	Module 5	**Safety** of FS was demonstrated in 10 clinical studies including a total of 931 subjects in the IP treatment groups. Study **550904** is a randomized, controlled, subject-blinded multicenter Phase II study to evaluate the efficacy and safety of FS VH S/D 500 s apr for hemostasis in subjects undergoing hepatic resection. (Patients: 35) Study **550701** had a lower age limit of ≥3 years. Age ranged from 4 to 76 years in subjects in the FS VH S/D 500 s-apr group and a total of 14 pediatric subjects aged <18 years received FS VH S/D 500 s-apr, of which 11 were included in the ITT analysis. Study **550602** is a Phase II, prospective, randomized, controlled, subject-blinded, multicenter study that was designed to evaluate the efficacy and safety of FS VH S/D 500 s-apr for hemostasis. Study **125** was a Phase IIIb, prospective, open-label, non-controlled multi-center study to monitor the efficacy and safety of low FXIII (≤10 IU/mL) FS VH for hemostasis in cardiac patients undergoing re-operative cardiovascular surgery or resternotomy. (Patients: 27) Study **550003** is a pivotal, comparative, Phase III, prospective, parallel design, randomized (1:1), double-blind, multicenter clinical study to evaluate the efficacy of FS VH S/D in subjects undergoing cardiac surgery requiring CPB. (Patients: 288) Study **014/016**, a randomized, controlled multicenter Phase III study in subjects undergoing repeated cardiac surgery or emergency resternotomy, demonstrated the efficacy of FS VH in this patient population in comparison to conventional topical agents. (Patients: 490) Study **550801** is a pivotal, confirmatory, Phase III, prospective, controlled, randomized, subject-blinded, multicenter study in 2 parallel, equal-sized treatment arms. (Patients: 70) Study **550002** is a prospective, randomized, controlled, parallel group, single-blind, multinational, multicenter Phase III study investigating the

		safety of FS VH S/D and its efficacy in the reduction of lymphatic leakage by sealing axillary lymphatics in subjects with breast cancer undergoing lumpectomy and level I and II axillary lymph node dissection with two separate incisions. In the control group, conventional surgical procedures alone were applied to reduce lymphatic leakage. (Patients: 50) Comparison of comorbidity (hepatic disease, coagulopathy, renal disease, and other signs of morbidity) showed no difference between the FS HT and control groups. (Patients: 60)

As multiple manufacturing sites were mentioned for each component, hence, the firm was asked to confirm one site for each product. The firm then submitted a new CoPP wherein the name of manufacturing site of solvent of component II was changed from "Hamlen Pharmaceutical GmbH" to "Siegfried Hameln GmbH". Moreover, batch release site was also mentioned in new CoPP. Hence, the firm submitted the fee challan of Rs. 75000/- and confirmed the following sites for each component:

Sr. No.	**Component**	**Manufacturing Site**
1.	Human Fibrinogen (Component I)	M/s Baxter AG., Lange Allee 24 A, 1221 Wien, Austria
2.	Human Thrombin (Component II)	M/s Baxter AG. Uferstraβe 15, 2304 Orth/Donau, Austria
3.	Aprotinin Soln. Solvent for Component I	M/s Baxter AG., industriestraβe 72, 1221 Wien, Austria
4.	Calcium Chloride Soln. (Solvent for Component II)	M/s Siegfried Hameln GmbH, Langes Feld 13, 31789 Hameln, Germany
Batch Release Site		M/s Baxter AG., industriestraβe 67, 1221 Wien, Austria

Decision: Keeping in view legalized CoPP and approval of Austria (Reference Regulatory Authority); Registration Board approved above manufacturing & batch release sites for the product.

6. Change in nomenclature of Erythropoietin from "Recombinant Human Erythropoietin" to "Human Erythropoietin for approve products of M/s AJ Mirza Pharma (Pvt.) Ltd., Karachi.

Following products of M/s AJ Mirza Pharma (Pvt.) Ltd., Karachi were approved in 313th meeting of Registration Board:

Sr. No.	**Name of Manufacturer**	**Brand Name & Composition**	**Document Details**	**Decision of RB in 313th Meeting**
1.	M/s Shenyang Sunshine Pharmaceutical Co. Ltd., No. 3 A1, Road 10, Econ & Tech Development Zone, Shenyang 110027, China.	EPIAO 2000IU Injection Each 1ml vial contains: Recombinant Human Erythropoietin…2000IU BP Specifications	Legalized CoPP No. 2017.79 dated 26-12-2017	*Keeping in view legalized CoPPs indicating products availability in country of origin and NOC submitted by M/s AA Pharma, Karachi; Registration Board cancelled the registration of Epiao 2000IU (Reg. No. 047578), Epiao 4000IU (Reg. No.*
2.		EPIAO 4000IU Injection Each 1ml vial contains: Recombinant Human Erythropoietin…4000IU BP Specifications		

3.		EPIAO 10000IU Injection Each 1ml vial contains: Recombinant Human Erythropoietin…10000IU BP Specifications		*047579) & Epiao 10000IU (Reg. No. 047580) from M/s AA Pharma, Karachi and granted in name of M/s A.J. Mirza Pharma (Pvt.) Ltd., Karachi subject to the compliance of current Import Policy for Finished Drugs, confirmation of latest MRP of the products from Costing & Pricing Division and verification of cold storage facility.*

During processing the case for issuance of registration letter, the firm submitted that the generic name of Recombinant Human Erythropoietin has been changed in country of origin to Human Erythropoietin. The firm requested to issue registration letter with revised nomenclature. The firm submitted the following for this request:

i. Fee challan of Rs. 7500/- for each product
ii. Valid Legalized CoPPs for all the products indicating changed nomenclature
iii. Weblink of official website of NMPA indicating the following:
"ACCORDING TO THE 2020 EDITION OF THE CHINESE PHARMACOPOEIA, THE GENERIC NAME OF THE DRUG FOR RECOMBINANT HUMAN ERYTHROPOIETIN INJECTION (CHO CELLS) WAS CHANGED, AND THE GENERIC NAME OF THE VARIETY WAS CHANGED FROM "RECOMBINANT HUMAN ERYTHROPOIETIN INJECTION (CHO CELL)" TO "HUMAN ERYTHROPOIETIN INJECTION". THE APPROVAL NUMBER OF THE ORIGINAL DRUG REMAINS UNCHANGED, AND PLEASE MAKE CORRESPONDING MODIFICATIONS TO THE INSTRUCTIONS AND PACKAGING LABELS."

Decision: Keeping in view legalized CoPP and BP monograph of Erythropoietin Injection; Registration Board approved the change in nomenclature from "Recombinant Human Erythropoietin" to "Human Erythropoietin" for above products.

	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No.9371 dated 24-03-2021, Dy. No.13918 dated 08-06-2022
	Details of fee submitted	PKR 100,000/-: 24-03-2021 and PKR 50,000/- on 27-07-2022 (total PKR 150,000/-)
	The proposed proprietary name / brand name	**KRABEVA 100** mg/4 mL single-dose vials
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Biocon's Bevacizumab is developed in 100 mg/4 mL single-dose vials.
	Pharmaceutical form of applied drug	Concentrate for solution for intravenous infusion
	Pharmacotherapeutic Group of (API)	ATC code: L01X C07 Anticancer MAB

	Reference to Finished product specifications	In house
	Shelf life & storage condition	24 months (2-8^{o}C)
	Proposed Pack size	100 mg/4 mL single-dose vials
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Avastin **(EU, USA,** Approved).
	For generic drugs (me-too status)	Avastin 100mg available in Pakistan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification studies of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability
	Name, address of drug substance manufacturer	Biocon Biologics India Limited, Block No. B1, B2, Q13 of Q1 and W20 & Unit S18, 1st Floor, Block B4, Special Economic Zone, Plot No. 2, 3, 4 & 5 Phase-IV, Bommasandra-Jigani Link Road, Bommasandra Post, Bengaluru 560099, India
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated stability study data is conducted at **5°C ± 3°C up to 6 months.** The real time stability data is conducted at-**20°C ± 5°C up to 48 months**
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	The Biocon's Bevacizumab DP is filled in 6R, Type-I clear glass vial (USP/Ph.Eur) for 100 mg presentation. 6R vial closed with 20mm flurotec coated, chlorobutyl serum stoppers. The rubber stoppers are sealed with an aluminium seal with plastic flip-off cap component. The seal and cap do not come into contact with the drug product.
	Stability study data of drug product, shelf life and storage conditions	The accelerated stability study data is conducted at 25°C ± 2°C / 60% RH ± 5% RH up to 6 Months. The real time stability study data is conducted at 5°C ± 3°C up to 24 months3 **commercial scale batches.** The real time stability study data is conducted at 5°C ± 3°C up to 36 months for three **developmental batches**. The real time stability study data is conducted at 5°C ± 3°C up to 36 months for three **consistency batches.**
2.	**Name, address of Applicant / Importer**	**M/s Gene-Tech Laboratories** **246-B, Block-6, P.E.C.H.S, Karachi, 75400, Pakistan**
	Details of Drug Sale License of importer	License No: 0002 Address: 246-B, Block-6, P.E.C.H.S, Karachi, 75400, Pakistan Address of Godown: : 246-B, Block-6, P.E.C.H.S, Karachi Validity: 15-08-2022. Status: Drug License by way of wholesale Renewal: N/A
	Name and address of marketing authorization holder (abroad)	M/s Gene-Tech Laboratories 246-B, Block-6, P.E.C.H.S, Karachi, 75400, Pakistan

The real time stability study data is conducted at 5°C ± 3°C up to 36 months for three **consistency batches.**
Biosmilarity Data evaluation: Biocon's Bevacizumab, a proposed biosimilar to reference drug product Avastin is produced in a Chinese Hamster Ovary (CHO) mammalian cell expression system. The US-Licensed Avastin and EU-Approved Avastin are available in two single dose presentations, 100 mg/vial (4 mL of 25 mg/mL) and 400 mg/vial (16 mL of 25		

mg/mL). Proposed biosimilar Biocon's Bevacizumab has also been developed for both presentations with identical formulation buffer. The DS is manufactured as ready-to-fill bulk formulation at the required concentration of 25 mg/mL. Therefore, from a DP manufacturing perspective, the same DS batch can be used to prepare either of these presentations (100 mg or 400 mg).

WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	**a)** Protein concentration by Ultra-violet 280 Absorption **b) Primary Structure-:** i. Amino acid sequence by Peptide Mass fingerprint ii. Amino acid sequence by Intact Mass iii. Amino acid sequence by Light Chain and Heavy Chain Mass iv. Amino acid sequence by cIEF (capillary isoelectric focusing) **c) Secondary Structure & high order Structure by** i. Far UV Circular Dichroism ii. Fourier transform infrared spectroscopy iii. Free Cysteine iv. Disulphide Bridging v. Near UV Circular Dichroism vi. Differential scanning calorimetry vii. Intrinsic Fluorescence viii. Hydrophobic Interaction Chromatography **d) Aggregates by:** i. Size Exclusion Chromatography -UV ii. Analytical Ultra Centrifugation (AUC) iii. Size Exclusion iv. Chromatography –MALS **e) Glycoform variants-** i. % Afucosylation with and without high mannose by Normal Phase HPLC ii. % High Mannose by Normal Phase HPLC iii. % Galactosylation mannose by Normal Phase HPLC iv. Sialic acid by reverse Phase HPLC
Biological Activity	**Biological activity was carried by:** • Fab mediated by VEGF165 Binding Assay ELISA • Fab mediated by Inhibition of VEGF165 induced HUVEC Proliferation • Fc mediated by FcγRIIIa-V158 binding kinetics assay (SPR) • Fc mediated by FcγRIIIa-F158 binding kinetics assay (SPR) • Fc mediated by FcRn binding kinetics assay (SPR) • Fab mediated by Inhibition of VEGF121 induced HUVEC Proliferation • Fab mediated by Inhibition of VEGF165 induced VEGFR-2 phosphorylation • Fab mediated by VEGF165 binding kinetics assay • Fab mediated by VEGF121 binding kinetics assay
Impurities	**Purity and impurities**: Size Variants/Aggregates by • Size Exclusion Chromatography (SEC) • Non-Reduced CE-SDS (nrCE-SDS) • Reduced CE-SDS (rCE-SDS)

Stability Studies		Stability studies are provided.
Non-clinical Studies		**Repeat dose toxicity study:** • Repeated Dose Four Week Intravenous Comparative Toxicity Study of Humanized Monoclonal Antibody – Bevacizumab (Biocon Ltd) and Avastin (Genentech) with Toxicokinetics in Swiss Albino Mice. • 28-day Repeat-Dose Toxicity study in the Cynomolgus monkey intravenously administered Biocon's Bevacizumab and Avastin
Clinical Studies		• A double-blind, single-dose, three-treatment, parallel group, pharmacokinetic comparability study of Biocon's Bevacizumab manufactured by Biocon compared to US-Avastin and EU-Avastin in healthy adult male volunteers. • A double blind, randomized, active controlled, parallel design, comparative PK, efficacy, safety and immunogenicity study of Bmab-100 and Avastin, both in combination with XELOX (oxaliplatin and capecitabine) chemotherapy in patients with metastatic colorectal cancer. • A multicenter, double-blind, randomized, parallel-group study to assess the efficacy and safety of Biocon's Bevacizumab compared with Avastin, in the first-line treatment of patients with Stage IV Non-Squamous Non-Small Cell Lung Cancer (NSCLC).
Decision: Keeping in view legalized CoPPs indicating products availability in country of origin and biosimilarity data submitted in light of decision of 297th meeting of Registration Board; Registration Board approved the products subject to compliance of current Import Policy for finished drugs.		
3.	**Name, address of Applicant / Importer**	**M/s Himmel Pharmaceuticals (Pvt.) Ltd, 793-D, Block 'C', Faisal Town, Lahore-54000, Pakistan**

Bio-similarity studies:	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	**a) Primary Structure:** i. Amino acid sequence by LC-MS & MS/MS ii. N-terminal sequence by LC-MS. iii. C-terminal lysine by LC-MS. iv. N-glycosylation site by Liquid Chromatography with tandem mass spectrometry (LC-MS-MS) **b) Secondary Structure & high order Structure**

	i. Intact mass by LC-MS ii. Disulfide bond by LC-MS iii. Free thiol (Ellman's) iv. Circular Dichroism (Secondary Structure) by Far spectrogram. v. Thermostability by differential fluorimetry (DSF) **c) Heterogenicity** i. Glycan by LC-MS ii. Heterogenicity of glycosylation by FLD-HPLC iii. Isoelectric point by CIEF iv. Charge variant (CEX-HPLC
Biological Activity	Biological activity by: • PD-I binding activity by ELISA
Impurities	• Purity by SEC-HPLC • Purity by CE-SDS • Protein A by ELISA • DNA residual by qPCR • Host cell protein by ELISA
Stability Studies	Stability studies are provided.
Non-clinical Studies	Primary pharmacodynamics by: • Binding to PD-I • Inhibitory effect against binding of PD-I to PD-L1 or PD-L2 • One month repeated doses toxicity study in monkeys • Six months repeated doses toxicity study in monkeys
Clinical Studies	Comparative clinical study has not been submitted.
Remarks of Evaluator: i. **T**he firm has not submitted non-clinical & clinical study data from its finish product manufacturer (Exporter M/s Beacon Pharmaceuticals Limited Bangladesh) instead all non-clinical & clinical study conducted by the bulk manufacturer (Geneway Bio-Technology co., Ltd China) have been submitted. **ii.** Comparative clinical trial data has not been submitted.	

Decision: Registration Board deferred the case for submission of following by the firm:

i. Clarification of label claim (composition).

ii. Comparative clinical trial data with innovator drug.

iii. Regulatory Guidelines of country of origin (Bangladesh) indicating that the registration of above products was granted in exporting country on the basis of non-clinical & clinical trial data of bulk manufacturer of China.

	Brand Name +Dosage Form + Strength	Protexin Concentrate
	Composition	Contents per kg *Enterococcus faecium* NCIMB1 30183 PXN® 33 *Streptococcus thermophilus* NCIMB 30189 PXN® 66 *Lactobacillus rhamnosus* NCIMB 30188 PXN® 54 *Lactobacillus acidophilus* NCIMB 30184 PXN® 35 *Lactobacillus bulgaricus* NCIMB 30186 PXN® 39™ Bifidobacterium bifidum NCIMB 30179 PXN® 23™ *Lactobacillus plantarum* NCIMB 30187 PXN® 47™
	Finished product specifications	Innovator' Specifications
	Pharmacological Group	Veterinary feed additive (Probiotic)
	Shelf life	24 months (2 Co -8 Co)
	Products already registered in Pakistan	The product is already registered in 100 gm
	Type of Form Dy No & Date of application, Fee submitted	Form-5A Dy. No. 21689 Dated 9th August 2021, Dy. No.10629 Dated 26th April 2022 Rs. 7500/- date 04-08-2021, Rs. 67500/- date 19-04-2022
	Demanded Price / Pack size	Decontrolled/ 1000 gm (one Kg)
	General documentation	Original Legalized Free Sale Certificate (FSC): Issued by: Rural Payments Agency UK. Issued on: 27-05-2021 Copy of GMP Certificate: • Issued by: Medicines & Health Products Regulatory Agency (MHRA), UK Online verified on 25 August 2022 vide below link https://cms.mhra.gov.uk/mhra/gmp/uk-gmp-40676-insp-gmp-406765124258-0008-v
	Remarks	In specification only viable count (potency test) has been mentioned & analytical method of this test has been submitted. In stability study only this one test i.e. viable count (potency test) has been performed & submitted. Justification submitted by the firm: Justification has been su bmitted from the manufacturer that product is animal feed additive & regulated in country of origin (UK) with different regulation with respect to other pharmaceutical/Biological Drugs. And the said test has been performed as per ISO standard.
Decision: Registration Board deliberated that the instant molecule is a veterinary probiotics which come under the purview of Health &OTC division hence the Board referred the case to Committee on Placement of Therapeutic goods falling in Grey area for their recommendation.		

C: Imported Veterinary Biologicals from Non-Reference Countries:

1.	**Name of Importer**	**M/s Huzaifa International,**

		Address: Commercial Area, Aziz Bhatti Town, Sargodha, Pakistan
	DSL details	Copy of DSL Address:M/s Huzaifa International, Commercial Area, Aziz Bhatti Town, Sargodha, Pakistan. Validity : 20th November-2023 Status: License to sell drugs as Distributor
	Name of Manufacturer	M/s Komipharm International Co., Ltd. Address:17, Gyeongje-Ro, Siheung-Si, Gyeonggi-Do, South Korea [Before Address System CHange: 1236-6, Chongwang-Dong, Shihung-Si, Kyonggi-Do, South Korea]
	Brand Name +Dosage Form + Strength	**Pro-Vac AB**
	Composition	Each 2ml dose contains: Anthrax (Stern Strain) spore...: ≥ 0.8 X $I0^7$ CFU Blackleg spore------ ≥ 0.8 X $I0^7$ CFU
	Finished product specifications	Ph. Eu specifications
	Pharmacological Group	Poultry Vaccine
	Shelf life	24 months (When stored at 2-8 C^o at the Dark place)

	Remarks of Evaluator	
Decision: Registration Board referred the case to Expert Working Group on Veterinary Drugs for their comments regarding immunological relevance and need of applied strain in Pakistan. Registration Board further advised DBE&R to take the comments of Expert Working Group on Veterinary Drugs for all the veterinary vaccines having new strains, before placing the case in Registration Board.		

D: Miscellaneous/ Deferred Cases

1. Local human Biological applied for registration by M/s Hilton Pharma Karachi.

The following product for the local manufacturing biological drug was considered in 262nd Meeting of Registration Board held on 20-21stOctober, 2016 and the Board decided as under;

Central Licensing Board has approved the manufacturing facility for rDNA products, As product is also of rDNA origin, which is evident from the provided certificate of analysis and other documents, thus Registration Bard approved Gluwell- Base 3ml Cartridge (Insulin Glargine 100IU). Insulin glargine will be imported in crystalline form from M/s Biocon India and will be formulated locally at M/s Hilton Pharma Karachi.

But later on the Registration Board in its 270th meeting advise the division of Biological drugs to come up with working paper in the next meeting. The final guidelines regulatory requirements of Biological drugs using rDNA technology was approved in 278th meeting of Registration Board and it was mentioned in the Guidelines that "***For the already registered drugs for local manufacturing the current guidelines shall apply".***

And the firm was advised to submit Biosmilarity data in light of decision of 278th meeting of Registration Board. The data submitted by the firm was taken up in 296th meeting of Registration board wherein the Board deferred by deciding as under;

Registration Board referred the case to Committee on Biological Drugs constituted in 273rd
meeting of Registration Board for its recommendations on the requirements of toxicity studies and abnormal toxicity studies. Moreover, Registration Board nominated Lt. Gen. (R) Prof. Dr. Karamat Ahmed Karamat (HI-M, SI-M) as Chairman of said committee. However, following documents need to be submitted by the firm:

i. Legalized GMP certificate of drug substance manufacturer abroad.
ii. Legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.
iii. Data of sterility test performed locally on finished drug.
iv. An agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.

The detail of the product as under;

Name of Manufacturer	M/s Hilton Pharma (Pvt.) Ltd. 13, sector 15, Korangi Industrial Area, Karachi.
Manufacturing site of Bulk.	M/s Biocon Biologics Limited, Block No. M1, M2 and M6, Q1 (QC3 and QC10) & W3, 20th km Hosur Road, Electronics City, Bengaluru, 560100, India
Brand Name +Dosage Form + Strength	Gluwell-Base 3ml Cartridge Insulin glargine (100IU/ml)
Composition	Each ml cartridge contains: Insulin glargine ……100IU
Finished product specifications	USP Specification
Pharmacological Group	Therapeutic Protein
Shelf life	2 years when stored at 2-8 ^{O}C
Products already registered in Pakistan	Lantus by Sanofi

Type of Form Dy No & Date of application, Fee submitted	Form-5, Dy No & Date of initial Application. Dy No.2924/2016(R&I) dated 27-06-2016, Dy No.4814(R&I) dated 21-02-2022, Dy No.5672(R&I) dated 01-03-2022, Dy No.19367(R&I) dated 01-07-2022, Dy No.22963(R&I) dated 15-08-2022 Rs. 20,000 dated 27-06-2016
Demanded Price / Pack size	Price: As per DPC 3ml Cartridge Pack of 1's ,3's & 5's

The *Committee on Biological Drugs* revised the Biosmilarity guidelines which was approved in 297th meeting of Registration board. And the firm submitted data as per above mentioned decision of the Board which was evaluated tabulated below;

Documents required as per 278th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	**Documents submitted by firm**
The firms shall provide legalized GMP certificate (issued by relevant regulatory authority) of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin. Submission of valid GMP is exempted, if valid GMP status is evident from official website of regulatory authority of country of origin.	The firm has submitted legalized copy of GMP issued by Drug Control Department, Govt of Karnataka. The same site also indicated on Eudra GMP for Active Substance (Drug substance) of INSULIN GLARGINE along with others APIs.
The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority (or its website) as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.	The firm has submitted that the bulk manufacturing site of the firm is "*Block No. M1, M2 and M6, Q1 (QC3 and QC10) & W3, 20th km Hosur Road, Electronics City, Bengaluru*" while finished products are manufactured from the same bulk on other site of the company i.e. "*M/s Biocon Biologics Limited, Block B1,B2,B3,B4 Q13 of Q1 And W20, & Unit S18, 1st Floor, Block B4, Special Economic Zone, Plot No 2,3,4 And 5 Phase IV Bommasandra Jigani Link Road, Bengaluru, 560099, India*." Instead of Free Sale Certificate of finish product manufactured from the same bulk the firm has submitted DML. The firm has submitted legalized copy of Drug Manufacturing License (DML) of the M/s Biocon Biologics Limited India with list of products attached wherein Insulin Glargine 3ml,5ml,10ml vials, 3ml Cartridge & 3ml Prefilled Pen are mentioned in permitted to manufacture for domestic purpose & in the same list the export purpose only list is separately mentioned.
The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk	Provided & Evaluated below

concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the biosimilarity. However, it will not be required if the finished drug product was approved before implementation of biosimilarity in the said country and finished drug product is still freely available and the firm shall provide the safety, efficacy data of finished drug product as per applicable regulatory requirements at that time.	
The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	The firm informed that no Lot release certificate is required for such types of product in India. (The letter is from the importer side)
The firm shall provide the 6 months accelerated and real time stability studies for drug substance & drug product manufactured locally.	Provided
The local manufacturer shall manufacture three trial batches (quantity sufficient to meet the complete testing up to the assigned shelf life both for real time and accelerated stability studies) of the finished biological product to finalize the formulation and then perform tests as per following order: i. Latest Pharmacopoeia ii. Innovator Product iii. Reference Biotherapeutic Product iv. In case aforementioned tests are not available then tests as adopted by drug substance manufacturer shall be followed.	Provided results for the following tests: Appearance, Identification, PH, Product related substances and impurities, Limit of High Molecular weight proteins, m-cresol Content, Assay (Insulin Glargin), Zinc determination, Bacterial Endotoxin test & sterility test. Test result of Abnormal toxicity study conducted from HEJ Research institute is also submitted.
The manufacturer shall perform all tests locally as mentioned on Certificate of analysis of finished product of drug substance supplier in case of non-pharmacopoeial product.	Submitted as mentioned above
The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Provided
The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	Submitted.
Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	The firm has provided SOP for Pharmacovigilance Surveillance. The firm has also provided Commitment on its letter head mentioning the said statement.
The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of	Commitment provided on the letter head

manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	
If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Commitment provided on the letter head
All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	Commitment provided on the letter head
For the already registered drugs for local manufacturing, the current guidelines shall apply at the time of renewal of product.	

Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	**d)** Protein Content at UV 280 (by RP-HPLC method) **e) Primary Structure:** v. Intact Mass determination by Liquid Chromatography-mass spectrometry (LC-MS) i. Molecular Mass (Reduced mass) determination by LC-MS i. Peptide Mapping (Reduced) by LC-MS i. Peptide sequencing by Liquid Chromatography with tandem mass spectrometry (LC-MS-MS) **f) Secondary Structure & high order Structure** vi. Peptide mass fingerprinting under non –reducing conditions for confirmation of disulfide linkage by LC-MS vii. Disulfide linkage by 2D NMR viii. Secondary Structure by FT-IR spectroscopy ix. Circular Dichroism (Secondary Structure) by Far spectroscopy. x. Circular Dichroism (Tertiary Structure) by Near spectroscopy. xi. Determination of thermal stability by mean of Differential scanning calorimetry DSC xii. Determination of Isoelectric point (pI) by means of capillary isoelectric focusing (cIEF)
Biological Activity	Biological activity was carried out for insulin glargine injections by means of four different methods:. • Cell bases metabolic assay, • Cell bases proliferation assay (Mitogenic assay) • Insulin receptor binding assay • IGF-1 receptor binding assay. Additionally in vivo bioassay /Insulin assay (USP 121 & USP 111) : Rabbit blood sugar method
Impurities	Determination of product related substances (Glycosylated species precursor, Sequence species Deamidation/Acetylation by mean of RS method
Stability Studies	Stability studies are provided.

Non-clinical Studies	**Repeat dose toxicity study:** A comparative 90-day toxicity study with recombinant Insulin Glargine (Biocon Ltd) and Lantus (Aventis Pharma) in Wistar Rats by subcutaneous route (Study no. G4668)
Clinical Studies	Phase-I study: A Single dose, randomized, double-blind, 3- way crossover, euglycemic clamp study to measure relative PK & PD of Biocon's insulin glargine (vials) with Lantus-EURP (cartrdges) and Lantus-USRLD (disposable Pens). Clinical Pharmacology Study of FFP-112 in Healthy Male Adults by Glucose Clamp Procedure-Pharmacokinetic and Pharmacodynamic Analyses. (Comparative with Lantus) Open Label, Randomized, Multicentric Study to Establish Safety and Efficacy of Recombinant Insulin Glargine Manufactured by Biocon Ltd Compared to Lantus TM in Type 1 Diabetes Mellitus Patients. **(Total 226 evaluable patients)**
Remarks of Evaluator: Instead of Free Sale Certificate of finish product manufactured from the same bulk the firm has submitted legalized copy of DML. The firm has submitted legalized copy of Drug Manufacturing License (DML) of the M/s Biocon Biologics Limited India with list of products attached wherein Insulin Glargine 3ml,5ml,10ml vials, 3ml Cartridge & 3ml Prefilled Pen are mentioned in permitted to manufacture for domestic purpose & in the same list the export purpose only list is separately mentioned.	

Decision: Registration Board deferred the case for submission of following by the firm:

i. **Valid legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority (or its website) as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.**
ii. **Justification of performing open label safety and efficacy study instead of double-blind study.**

2. Deferred case of M/s Huzaifa International, Sargodha deferred in 264th meeting of Registration Board.

The following veterinary vaccine was deferred in 264th meeting of Registration board;

Name of Importer	M/s Huzaifa International, Address: Commercial Area, Aziz Bhatti Town, Sargodha, Pakistan
DSL details	Copy of DSL Address:M/s Huzaifa International, Commercial Area, Aziz Bhatti Town, Sargodha, Pakistan. Validity : 20th November-2023 Status: License to sell drugs as Distributor
Name of Manufacturer	M/s Komipharm International Co., Ltd. Address:17, Gyeongje-Ro, Siheung-Si, Gyeonggi-Do, South Korea [Before Address System CHange: 1236-6, Chongwang-Dong, Shihung-Si, Kyonggi-Do, South Korea]
Brand Name +Dosage Form + Strength	**PRO-VAC^{TM} IBD Plus**
Composition	Each dose contains Infectious Bursal Disease Virus (K7 strain)……. Min. $10^{2.5}EID_{50}$
Finished product specifications	Ph. Eu specifications
Pharmacological Group	Poultry Vaccine
Shelf life	15 months (When stored at 2 C^o -8 C^o)

Products already registered in Pakistan	
Type of Form Dy No & Date of application, Fee submitted	Form 5-A DyNo.4914 date 05-08-2015 Rs.100,000 05-08-2015
Demanded Price / Pack size	Decontrolled/ 1000 doses vial
General documentation	***Original Legalized Free Sale Certificate (FSC):*** **Issued by:**Animal and Plant Quarantine Agency of the Ministry for Agriculture Food and Rural Affairs of the Republic of Korea **Issued on:** 30-09-2014 **valid upto** 30-09-2019 ***Original Legalized GMP Certificate:*** • **Issued by:** As mentioned above **Issued on:**19-06-2018.

The case was deferred in 264th meeting of Registration Board & the board decided as under;

Deferred for evaluation by Dr. Qurban Ali, Member Registration Board.

Now the expert opinion of Dr. Qurban Ali, member Registration Board has been received on **17-08-2022** to the Director Biological Drugs via email which is reproduced as under;

Infectious bursal disease (IBD), also known as Gumboro disease is a highly contagious, immunosuppressive disease of young chickens and is responsible for major economic losses in the poultry industry worldwide. IBD virus (IBDV) is a double-stranded RNA virus, having two serotypes (1 and 2) with only serotype 1 causing the disease in young chickens. The virus infects the bursa of Fabricius causing immunosuppression that enhances the susceptibility of chicken to other infections and interferes with vaccination against other diseases.

The IBDV is highly resistant virus and tends to persist in the farm environment despite strict hygiene measures. Therefore immunization is considered the most important measure to control IBD; where protective immunity in birds depends on inducement of both humoral and cell-mediated immune responses; however, rampant usage of live vaccines worldwide has resulted in the evolution of new strains antigenic variants and very virulent strains (vvIBDV) resulting into significant losses and high mortality in chicken, and virus continuously evolving in the field with changes in antigenicity and virulence necessitating the development and use of newer vaccines with improved efficacy.

Most commercially available conventional live IBDV vaccines are based on classical virulent strains. Those classified as mild, intermediate and ''intermediate plus (or hot) vaccines. IBD-K7 was isolated in 2007 from Seonghwan, Chungnam, Korea, which was later fully characterized, sequenced, patented and deposited in 2013 with the accession number KCTC 12376BP to the Gene Bank of Korea Biotechnology Institute (Yeoseong-gu, Daejeon, Korea) as an international depositing institution. The virus was taken as vaccine candidate and translated into live intermediate IBD Vaccine fulfilling all requirements of production and testing. Studies found IBD K7 as a novel recombinant virus compared to existing viruses with some of the virogenic viral antigen properties, besides showing better immunogenicity than the mid-dose vaccine D-78 and no significant difference from the mid-dose plus vaccine of Winterfield strain. The product is lyophilized, dispensed with adjuvant, stabilizers, preservatives and diluent for use. The product can be administered as injection (i/m or s/c) or use in drinking water/ spray vaccination from at day one; where virus strain used has low virulence and higher immunogenicity than intermediate IBD vaccines.

*From afore going, vaccine **from IBD K7 strain is recommended for registration** to enhance repertoire of veterinarians for control of a difficult disease of IBD.*

Remarks of Evaluator: Free Sale certificate is expired on 30-09-2019 which was valid at the time of submission.

Decision: Registration Board referred the case to Animal Husbandry Commissioner for comments regarding immunological relevance and need of applied strain in Pakistan.

3. Deferred case of M/s Huzaifa International, Sargodha deferred in 316th meeting of Registration Board.

The following veterinary vaccine was deferred in 316th meeting of Registration board;

Name of Importer	M/s Huzaifa International, Address: Commercial Area, Aziz Bhatti Town, Sargodha, Pakistan
DSL details	Copy of DSL Address:M/s Huzaifa International, Commercial Area, Aziz Bhatti Town, Sargodha, Pakistan. Validity : 20th November-2019 Status: License to sell drugs as Distributor
Name of Manufacturer	M/s Komipharm International Co., Ltd. Address:17, Gyeongje-Ro, Siheung-Si, Gyeonggi-Do, South Korea [Before Address System Change: 1236-6, Chongwang-Dong, Shihung-Si, Kyonggi-Do, South Korea]
Brand Name +Dosage Form + Strength	**Pro-VacChek ND** (Lyophilized Newcastle Disease Virus Live Vaccine)
Composition	Active Ingredient (s) and Amount (s) per unit dose: Newcastle Disease Virus (Ulster 2C strain) $\geq 10^{5.0} EID_{50}$ **Excipient:** LPGG ……40% **Composition of LPGG:** Lactose……74.62g Monopotasium phosphate ……..0.53g Dipotasium phosphate……1.25g Monopotasium L-glutamate……0.83g Gelatin…….10g Distilled water……..1000mL
Finished product specifications	Ph. Eu specifications
Pharmacological Group	Poultry Vaccine
Shelf life	24 months (When stored at 2-8 C° at the Dark place)
International availability	Not Provided.
Products already registered in Pakistan	The strain Ulster 2C is available by Lachman which is inactivated virus vaccine as per our record while applied vaccine is Live virus vaccine.
Type of Form Dy No & Date of application, Fee submitted	Form-5A Dy. No. 27460(R&I) Dated 9th August 2018 Rs. 100,000/- 2nd August, 2018
Demanded Price / Pack size	Decontrolled/ 1000 doses
General documentation	***Original Legalized Free Sale Certificate (FSC):*** **Issued by:**Animal and Plant Quarantine Agency of the Ministry for Agriculture Food and Rural Affairs of the Republic of Korea

	• **Issued on:** 12-01-2018 ***Original Legalized GMP Certificate:*** • **Issued by:** As mentioned above **Issued on:**19-06-2018.

The case was deferred in 316th meeting of Registration Board & the board decided as under;

Registration Board deferred the case for expert opinion of Dr. Qurban Ali, member Registration Board regarding the need of product (Live Newcastle Disease vaccine) and for submission of evidence of availability of formulation in RRAs by the firm.

Now the expert opinion of Dr. Qurban Ali, member Registration Board has been received on **17-08-2022** to the Director Biological Drugs via email which is reproduced as under:

Newcastle Disease (ND) is an important disease of poultry causing devastating losses with disease control presenting significant challenge to poultry industry worldwide. One of the hallmarks for ND-prevention was the discovery of lentogenic NDV viruses in America. The subsequent development of the vaccine-strains namely La Sota and B1 with derivatives like e.g. clone30 thereafter became the basis for the majority of ND vaccines. Efforts for ND prophylaxis should normally therefore aim at active immunization using combinations of live and killed lentogenic virus based vaccines. The virus strains most commonly used in vaccines are La Sota, and B1 strains as well as viruses from the asymptomatic enteric patho-types which are usually based on the V4, VG-GA or Ulster 2C viruses. These viruses are selected by manufacturers in order to improve vaccine immunogenicity while reducing the vaccine reactions. Ulster 2C strain is known to stimulate immunity in the intestinal loop rather than in the respiratory tract and does not give abnormal side effects to the vaccinated chicks. ***The product based on Ulster 2C strain is therefore recommended for registration to enable users for availability of variety of safer vaccines for their ND control plan****; which otherwise remain a national challenge for food security in the country.*

The firm also submitted evidence of ***availability of formulation in RRAs*** is product Poulvac NDW (Live Newcastle Disease Virus, strain Ulster 2C) by Zoetis UK Limited approved in Veterinary Medicines Directorate UK and same was confirmed from below mentioned link.

Veterinary Medicines Directorate

Decision: Keeping in view the legalized GMP, legalized FSC indicating product availability in country of origin, recommendation of veterinary expert and availability of formulation in UK; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

4. Request of M/s ICI Pakistan Limited, Karachi for issuing Registration letter with innovator's Specification for the below mentioned Pharmacopeial product.

The following veterinary product of M/s ICI Pakistan Limited, Karachi was approved in 282nd meeting of Registration Board as per following detail.;

Name of Manufacturer	**Brand Name & Composition**	**Documents details**	**Decision of 282nd Meeting of RB**
M/s Intervet Inc. 411 West Delaware Avenue Millsboro, Delaware 19966 USA.	**Fortegra Vaccine** (Coccidiosis Vaccine Live Oocysts) The amount of antigenic material per dose in the final	Certificate of License and Inspection; Certificate no. 1800442	Keeping in view latest valid legalized CoPP and approval of USFDA (Reference Regulatory

	container:- Minimum of sporulatedoocysts throughout dating: *Eimeriaacervulina*……..600 *Eimeria maxima*……. 200 *Eimeria maxima* MFP… 100 *Eimeriamivati*…….. 400 *Eimeriatenella*…… 200	(P. 227-229/Corr.) **Shelf life** 12 Months (2-7^{0}C) **Pack size** 10x1,000Vial	Authority); Registration Board approved the product as per current Import Policy for Finished Drugs.

It is submitted that M/s ICI Limited submitted a letter in which they informed that the product Fortegra is a live vaccine against coccidiosis in chickens for which a Ph. Eur. monograph exist and because this product was developed in US and not sold in EU it is not developed/tested according to this European monograph stated from principal. As the product is not included in respective country's Pharmacopoeia therefore, we request the issuance of registration letter by mentioning "innovator specification"

As per above decisions of the Board that innovator specification can only be given if the product is not included in any of the official Pharmacopoeia. Therefore, the request of the firm for issuance of registration letter by mentioning "innovator specification" was not entertained and same was communicated to the firm.

In response the firm has submitted clarification letter wherein the firm narrated that they are providing clarification letter provided by the manufacturer wherein the manufacturer has informed that Coccidiosis live vaccine is described in the European Pharmacopoeia (monograph 2326). However Fortegra (Coccidiosis vaccine) is developed in US and according to US guidelines. The product is not registered in Europe and therefore won't comply in all aspect with the Ph. Eur. monograph. The firm has submitted the following documents.

- Statement from Manufacturer
- Specification comparison of manufacturer's specs with Ph. Eur. monograph

The comparison is reproduced as under.

Final Product Control Tests according to Coccidiosis Monograph 2326	**Requirement according to Coccidiosis monograph 2326**	**Fortegra as approved by the USDA**	**Remarks**
Identification (confirmation of Eimeria species)	Microscope/ potency test	See Part II.D.2 code 112	For Fortegra the identity is performed on each antigen batch and during lesion scoring in the potency test identification of the species is also confirmed
Sterility test/campylobacter	Ph. Eur. 0062/2.6.1 including campylobacter selective medium	9CFR 113.27[1](e)	In addition, each antigen is treated with beta-propiolactone
Mycoplasma test	Ph. Eur. 2.6.7	Not tested	Antigens treated with beta-propiolactone

Extraneous agents testing	Ph. Eur. 2.6.25 (section 1 to 6)	Method as described in part 2.E.1 of the dossier. Salmonella 9CFR 113.30, see part II.D.2 code 108	Antigens treated with beta-propiolactone
Sporulatedoccysts count (to ensure correct formulation)	Not less than minimum on the label and not more than maximum on the label	See Part II.D. code 109	For Fortegra the number of occysts is determined on each antigen batch to formulate the vaccine correctly. The potency test ensures that the final vaccine is correctly formulated.
Potency test	Immunogenicity test described in 2326 (including Johnson and Reid Lesions scoring)	Method as described in part 2.E.1 code 208 of the dossier (Johnson and Reid Lesions scoring)	Lesion scoring system on a scale of 0-4 from Johnson and Reid is used to justify the lesion score claim in the SPC.*
		Safety test described in part 2.E.1 code 207 of the dossier	Safety test is not required according to Ph. Eur.

The case was deferred in 393rd meeting of Registration Board & the Board decided as under;

Registration Board deferred the case for further clarification by the firm as the European Pharmacopoeia specifications are stricter than that of manufacturer's specifications.

Now the firm has submitted veterinary Drugs is a separate class under the Drugs (Specifications) Rules,1978. The firm requested to issue registration letter of Fortegra Coccivac-D2 with innovator's specifications may be issued as a similar case of ICI's product Coccivac D2 was discussed and approved in 316th meeting of the Registration Board.

Decision: Registration Board deliberated that the product is manufactured in USA and is not exported to Europe, hence, manufacturer is not following Ph. Eur. Specifications. Registration Board approved the above "Innovator Specifications" for the product.

5. Locally Manufactured Veterinary Vaccines applied by M/s Grand Pharma Pvt Ltd, Lahore and deferred in 316th meeting of Reg. Board.

Following products of M/s Grand Pharma Pvt Ltd, Lahore was deferred in 316th meeting of RB as per following details;

1.	**Name and address of product manufacturer (Applicant)**	**M/s Grand Pharma Pvt Ltd** Plot # 5-A, Street No.N-5, RCCI Estate, Rawat, Islamabad
	Brand Name +Dosage Form + Strength	Vaxi-drop 1000ml
	Type of Form, Diary No. Date of R& I & fee	Form-5 Dy. No.20999 Date:21-8-2020 Rs. 20,000/- Date: 19-8-2020
	Composition	Each ml contains: Monobasic Potassium Phosphate : 0.37 mg Disodium Phosphate Dihydrate : 0.72 mg

		Sodium Chloride : 7.65mg
	Pharmacological Group	Diluent for live avian vaccines
	Finished Product Specification	Manufacturer' Spec
	Shelf Life	2 Years (15^0C -25^0C)
	Document Details	All the undertaking has been submitted by the firm. Copy of DML Copy of inspection report for GMP for viral vaccines section (killed) & Bacterial killed vaccine section.
	Pack size & Demanded Price	0.30ml per bird **Decontrolled**
	Products already registered in Pakistan	*MS Bac* (M/s Hi-Tech Pharma, Lahore.0
	Remarks of Evaluator	

Reg. Board in its 313th meeting decided as under;
"Registration Board deferred the product for submission/ confirmation of following:
i. Method of administration of vaccine
ii. Container Closure System of diluent."

It is submitted that the firm has submitted in their reply that diluent under consideration an additional packaging (in 1000 ml) of their already registered product (diluent in 36 ml packing) vide Registration # 087070 dated 28-05-2018. And the VAXI-DROP is used to dilute live avian vaccines through spray or Eye drop. *Container Closure System of diluent* is "Autoclavable plastic bottles having rubber caps with aluminum seals"

The case was taken up in 316th meeting of Registration Board & the Board deicded as under:

*Registration Board deferred for confirmation of manufacturing facility for the above diluent (pharmaceutical**)***

The firm has submitted reply that the product Vaxidrop has already been registered vide Reg No. 078070 in 36ml packing with DRAP which has been manufactured in killed Bacterial vaccine section & in the instant case 1000ml packing has been applied for registration which will also be manufactured in the same section where a filling line bottles already exist.
The firm has submitted copy of Renewal of DML issued on 29-09-2021 wherein following sections are mentioned.
1.Oral Liquid section (Vet) 2. Viral vaccine Section (Live) 3. Viral Vaccine Section (Killed) 4. **Bacterial killed vaccine section** 5. Bolus Section (General) (Veterinary) 6. Oral Powder Section (General) (Veterinary) 7. Oral Liquid Section (General)(Veterinary) 8. Oral Powder Section (Penicillin)(Veterinary) 9. Dry Powder Injection Section vials (Penicillin)(Veterinary) 10. Liquid Injection Section vials (Penicillin)(Veterinary)
Decision: Registration Board deferred the case for confirmation of International practices regarding the manufacturing section requirement for manufacturing of vaccine diluent.

6. Imported Veterinary Biological deferred in 312th meeting of RB applied by M/s Hipra Pakistan (Private) Limited, Karachi.

Name of Importer & Address	**M/s Hipra Pakistan (Private) Limited,** 3rd floor, plot no 8, block CCA, Phase 6-C, DHA, Lahore **Go down** 2nd Warehouse on Left side, Street no 5, Gajjumata Nadir Chowk, Hazara Chowk, Industrial Area Ferozpur Road, Distt Lahore
DSL Details	License to sell drug as distributor No. 0011000 0004579 valid till

	19-Feb-2022
Name of Manufacturer & Address	Laboratorios HIPRA, S.A, Avda. La Selva, 13517170 Amer (Girona) Spain
Brand Name/Dosage Form	**Avian Solvent** 1000 ml dose
Composition	Each 0.03ml dose contains: Disodium phosphate dodecahydrate.....0.087mg Potassium dihydrogen phosphate.....00006mg Sodium chloride.....0.24mg Potassium chloride.....0.006mg Patent blue (E-131).....0.003mg Water for injection.....0.03ml q.s.ad.
Finished Product Specifications	Innovator's Specifications
Pharmacological Group	Solvent for avian vaccines (to be use: Ocular-nasal,oral or spray)
Shelf Life & Storage	60 Months (Below 25^{o} C)
International Availability	Spain
Products already Registered in Pakistan	
Type of Form, Dy. No & Date of Application Fee Submitted	Form – 5A Dy. No 7602 Dated 23-03-2021 Rs. 100,000.00 dated 23-03-2021
Demanded Price&Pack Size	Decontrolled 1000 dose (30ml) Vial
General Documentation	No Separate Free Sale Certificate has been provided rather the firm has provided certificates of five different live viral vaccines (Freely authorized to sale in country of origin) wherein the diluent has been mentioned & Freely available in the
Remarks:	The firm has not submitted separate CoPP or FSC for diluent and applied for separate registration.

The firm din't submit separate CoPP or FSC for diluent and applied for separate registration & board in 312th meeting deferred the case for submission of valid legalized CoPP. The decision is reproduced as under:

> ***Registration Board deferred the product for submission of valid legalized CoPP of the product.***

In response the firm has submitted that "The CoPP clearly explains that the product is registered with the vaccine as **there is no such procedure to register solvent separately in the country of origin** and its solvent is a registered product." The firm also submitted that there is demand of the solvent here in Pakistan the complete statement of the firm is reproduced as under;

"AVIAN SOLVENT is used with live vaccines. The administration routes of live vaccines are Spray, Eye drop, mouth drop, and drinking water. The solvent is required for Eye dropping and mouth drop routes. Many breeder and layer farmers use the Eye drop or Mouth drop route to administer live vaccines, for which a solvent is required in which the vaccine is mixed and then administered to the birds, as the vaccine is in the freeze-dried tablet form. Almost 100 % of the breeder and layer farmers need solvents for the administration of some live vaccines and some broiler farmers prefer to use the eye drop method.

As the demand for the solvent is higher in the market and we cannot import a larger amount of solvent which affects our business."

Decision: Keeping in view the non-availability of diluent as separate product in country of origin; Registration Board did not accede to the request of the firm.

Cases of AD-III (Haleema Shareef)

A: Imported Veterinary Biologicals from Reference Countries.

1.	**Name and address of Importer**	**M/s Saadat International, 117 Habitat Flat Shadman II, Jail Road, Lahore.**

Query	Response
Clarification regarding difference in address of manufacturer on CoPP (Veterinarski Zavod Subotica d.o.o Beogradski put 123, 24106 Subotica, Srbija) and on distribution agreement and form 5A (Beogradski put 123, 24000 Subotica, Srbija) is required.	Firm has submitted that "24106 is a special postal code of the part of town of Subotica where Veterinarski Zavod Subotica is located, while 2400 is the overall postal code of the entire town of Subotica. Using one or another is exactly the same. The important part of the address is the name of street, Beogradski put 123.
Clarification regarding difference in name of manufacturer on COPP (Veterinarski Zavod Subotica d.o.o) and on Letter of marketing authorization in country of origin (Veterinary institute Subotica JSC) is required.	Firm has submitted that Veterinary Institute Subotica is the English translation of the name of the company in Serbian language Veterinarski Zavod Subotica. The difference in suffix of the name d.o.o and JSC is due to the fact that the company changed its legal form in December 2020 from JSC-Joint stock company (in Serbian language AD) to limited, in Serbian language d.o.o. Letter of Decision change JSC (AD) to d.o.o is submitted.

Decision: Registration Board referred the case to Expert Working Group on Veterinary Drugs for their comments regarding immunological relevance and need of applied strain in Pakistan. Registration Board further advised DBE&R to take the comments of Expert Working Group on Veterinary Drugs for all the veterinary vaccines having new strains, before placing the case in Registration Board.

Name and address of Manufacturer	**Marketing Authorization Holder:** M/s Boehringer Ingelheim Vetmedica GmbH Binger Strabe 173, 55216 Ingelheim am Rhein, Germany.

	Manufacturer of Drug: M/s Boehringer Ingelheim Animal Health Rue De L aviation, 69800 ST PRIEST-France
Name of exporting country	France
Brand Name +Dosage Form + Strength	**Gallimune H9+ND**
Diary No. Date of R& I & fee	Dy. No. 19297 R&I Dated 09-07-2021 Rs. 150,000/- (Slip No. 07658493298)
Composition	Each 0.3 ml dose contains: Inactivated Avian Influenza Virus, H9N2 (iraq)strain at least7log2HI.U. Inactivated Newcastle Disease Virus, Ulster 2C strain at least 16HI.Ufr
Pharmacological Group	Vaccine
Type of Form	Form-5A
Finished Product Specification	Manufacturer's Specifications
Shelf Life	24months----(2-8^{o}C) Stability studies for 27 months at 2-8 ^{o}C
Document Details	**GMP certificate (Original Legalized):** Certificate No. 20/265668 Issued to: M/s Boehringer Ingelheim Animal Health Rue De L aviation, 69800 ST PRIEST-France (Manufacturer) Issued by: French agency for veterinary medicinal products. Validity: Three years from the date of inspection (conducted on February 17th 2020 to February 20th 2020). **Sole Agency Agreement:** **Boehringer Ingelheim Vetmedica GmbH** (the marketing authorization holder of the product), a company incorporated under the laws of Germany, with its principal office at Binger Strabe 173, 55216 Ingelheim am Rhein, Germany (BIV GmbH) herewith appoints; Saadat International 117 Habitat Flat Shadman II Jail Road Lahore our sole agent in Pakistan for Gallimune H9+ ND, the product is manufactured and supplied to Saadat International by BIV GmbH affiliated company: Boehringer Ingelheim Animal Health France. **COPP (Original Legalized):** Certificate No. 20-268470
Pack size	300ml bottle
Reference Regulatory Authority Availability	N/A
Products already registered in Pakistan	Gallimune 208 ND+Flu H9 M.E. Emelsion For Injection. [Each Dose Of Vaccine Contains: - Inactivated Avian Influenza Virus H9N2 Strain Minimum Titer Before Inactivation...108 EID50. Inactivated Newcastle Disease Virus, Ulster 2c Strain Minimum Titer Before Inactivation 1068 EID50].
Remarks of Evaluator	In response to this division's letter dated 12th January 2022 applicant has submitted following documents: Field trial data. Finished Product Specifications: Manufacturer. Following justification regarding this statement on the COPP that product is not licensed to be placed in the market of country of origin is required. "Gallimune H9+ND is not licensed to be placed in the France market because avian influenza caused by H9N2 subtype is not present in poultry farms of this country. Therefore:

	No Free certificate could be obtained for any H9 vaccine. All the H9 vaccines manufactured in France are for exportation purpose only for the countries that have the H9 as endemic disease, so the authority can only provide certificate of origin and/or Certificate of Pharmaceutical product". Following documents are still required: Finished product specifications in light of 267th RB meeting.
Previous Decision (M-316)	Registration Board deferred the product for submission of evidence of availability of formulation in reference regulatory authorities.
Evaluation by BE&R Division	*The firm has submitted that Gallimune H9+ND is not registered in reference regulatory authorities (same as all the vaccines contain H9N2 formulations) because avian influenza caused by the H9N2 subtype is not present in poultry farms of these countries.*
Decision: Registration Board deferred the product for submission of evidence of availability of formulation in country of origin or in any other reference regulatory authorities.	

3. Request for Withdrawal of diluent by M/s Better Traders International, 24-Z, Saifullah Shaheed Road, Madina Town, Faisalabad.

Following six products of M/s. Better Traders International are approved as combo pack with diluent subject to the conditions that firm shall submit valid legalized FSC indicating diluent in combo pack before issuance of registration letter.
Now the firm vide their letter dated 10-05-2022 requested for withdrawal of the diluent and issuance of registration letters without diluent for the following products approved by Board in its 313th and 316th Registration Board meeting as per following details:

Sr. No.	Name of Importer and Manufacturer	Brand name and Composition	Decision
1.	**Importer:** M/s Better Traders International, 24-Z/E, Saifullah Shaheed Road, Madina Town, Faisalabad. **Manufacturer:** M/s AVAC Vietnam Co., Ltd. Address: Highway A, Ngoc Lick, Trung Tac Province, Hung Yen City Veitnam	**AVAC IB- H120** Infectious Bronchitis Vaccine, Live Each dose contains: - Attenuated IB Virus strain H120 and stabilizers …. Not less than 10^2 EID_{50}	**Decision M-313** Keeping in view legalized GMP and FSC indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs. The firm shall submit valid legalized FSC indicating diluent in combo pack before issuance of registration letter. Chairman Registration Board is authorized for issuance of letter.
2.		**AVAC ND- Lasota** Live vaccine Each dose contains: - Newcastle Virus strain Lasota…. Not less than 10^6 EID_{50}	
3.		**AVAC GUMBORO PLUS** Newcastle Disease Vaccine. Each dose contains not less than 10^2 EID_{50} attenuated infectious Bursal Disease(IBD)Virus strain intermediate Plus and Stabilizers	
4.		**Avac ND -IB Live**	**Decision M-316**

		Live Each dose contains not less than 10^6 EID_{50} Hitchner B1 of Newcastle Disease Virus and 10^2 EID_{50} H120 strain of infectious Bronchitis Virus.	Keeping in view legalized GMP and FSC indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs. The firm shall submit valid legalized Free Sale Certificate indicating diluent in combo pack before issuance of registration letter. Chairman Registration Board is authorized for issuance of letter after submission of said FSC.
5.		**Avac ND -IB K** Inactivated. Each dose contains not less than 10^6 EID_{50} Lasota of Newcastle Disease Virus and 10^2 EID_{50} H120 strain of infectious Bronchitis Virus and oily emulsion adjuvant.	
6.		**Avac Gumboro INT** Live vaccine Each dose contains not less than 10^3 $TCID_{50}$ attenuated Infectious Bursal (IBD) Disease Virus strain W2512.	

Decision: Registration Board acceded to the request of the firm for registration of products without diluent.

4. Request for change in address of manufacturer for Product Inactivated FM D virus antigen of strains of one or more types A, O, Asia- 1 approved in 288th meeting by M/s. Orion Group, Faisalabad.

Following product of M/s. Orion Group, Faisalabad is approved in 288th Registration Board meeting as per following details:

Sr. No.	Name of Manufacturer	Brand Name & Composition	Packing, Demanded Price, Shelf Life & Specifications	Decision (M-288th):
1.	M/s Federal State Enterprise "Shchelkovo biokombinant", Biokombinant Township, Shelkovskii district, Moscow region, 141142, Russian Federation.	Each 2ml of vaccine contains: Inactivated FM D virus antigen of strains of one or more types A, O, Asia-1…….1ml Adjuvant Montanide ISA 206……..1ml	50ml (25 doses) Bottle Decontrolled 18 months (2°C – 8°C) Ph. Eur. Specs.	Keeping in view the valid legalized GMP certificate and valid legalized FSC indicating product availability in country of origin; Registration Board approved the above product subject to compliance of current Import policy for finished drugs. Registration Board advised DBER to send an email to Federal Service for Veterinary and Phytosanitary Surveillance, Russia regarding verification of authorization of All-Russian Scientific and Research Institute for Certification (JSC"VNIIS") for issuance of GMP certificate. The firm will submit

				revised valid legalized FSC with correct brand name and composition before issuance of registration letter. The same will also be verified during inspection of manufacturer abroad. Registration Board has authorized its Chairman for issuance of registration letter after said verification.

For composition The Board decided that ***the firm will submit revised valid legalized FSC with correct brand name and composition before issuance of registration letter*** and now the firm has submitted new FSC in line with decision of Board with following name and composition*:*

Composition discussed in Board	**Composition on newly submitted FSC**
The cultural monovalent and polyvalent emulsified inactivated vaccine against foot-and-mouth disease Each 2ml of vaccine contains: Inactivated FM D virus antigen of strains of one or more types A, O, Asia-1…….1ml Adjuvant Montanide ISA 206……..1ml	**Emulsified Inactivated Vaccine against Foot-and-Mouth Disease containing serotypes A, O, Asia-l** Each 2 ml of the vaccine contains: Inactivated FMD virus antigen (not less than 6PD50 for each serotype A, O, ASIA-I)…. 1 ml. adjuvant Montanide ISA 206….. 1 ml.

Now firm M/s. Orion Group, Faisalabad, has applied for exemption from inspection of manufacturer abroad (Russia) for product approved in 288th RB meeting as the manufacturer "M/s. Federal State Enterprise "Shchelkovo biokombinant, Biokombinant Township, Shelkovskii district, Moscow region, 141142, Russian Federation" is issued with Eudra GMP.
For above manufacturer when the EUDRA-GMDP website is checked for confirmation, a difference in the name and address of manufacturer abroad is observed between what is approved in 288th meeting minutes and what is present on EUDRA-GMPD website which is recorded in the table below:

In 288th meeting minutes	**In Eudra GMDP**
M/s Federal State Enterprise "Shchelkovo **biokombinant**", **Biokombinant Township, Shelkovskii district, Moscow region, 141142, Russian Federation.**	M/s. Federal State Enterprise Shchelkovo **Biocombinat** **Biocombinat, Losino-Petrovsky, 141142, Russian Federation**

For a difference in spellings of name of manufacturer firm has informed that this might happen because of translation from Russian to English language.

It is further submitted that address of manufacturer is checked from website of manufacturer and it is observed that address of the manufacturer is same to that present on EUDRA-GMDP certificate which could be perused on following web link (https://biocombinat.ru/en/contacts/).

Now the firm has applied for change in address of manufacturer and submitted following:

i. A Fee challan of Rupee 7500/- (Slip No. 4209186338).
ii. A copy of letter from manufacturer stating that M/s. Federal State Enterprise Schelkovo Biocombinat is working under the same name and in the same manufacturing facility since the year 1924. The observed difference in the address previously as BIOCOMBINAT TOWNSHIP, SHELKOVSKII DISTRICT, MOSCOW REGION 141142 and currently as BIOCOMBINAT LOSINO-PETROVSKY, 14112, RUSSIAN FEDERATION, is only as the address details has been renamed recently.

Decision:

Keeping in view GMP certificate available on official website of EUDRA; Registration Board approved the change in address of manufacturer from M/s Federal State Enterprise "Shchelkovo biokombinant", Biokombinant Township, Shelkovskii district, Moscow region, 141142, Russian Federation to M/s. Federal State Enterprise Shchelkovo Biocombinat, Biocombinat, Losino-Petrovsky, 141142, Russian Federation subject to compliance of current Import Policy for finished drugs and submission of either of following by the firm:

i. Valid legalized GMP certificate from country of origin indicating new address of manufacturer abroad.
ii. Approval of new address issued by municipal authority of country of origin indicating that only address is changed while site remains the same.

5. Imported Veterinary Biologicals applied by M/s Bromed Animal Health, Lahore deferred in 313th meeting of Registration Board.

Following products of M/s Bromed Animal Health, Lahore were deferred in 296th meeting of Registration Board as per following details:

i.	**Name of Importer**	**M/s. Bromed Animal Health 246-A, West Wood Colony, Lahore.**

Note: MEVAC ND7 strain used in MEVAC ND7 Plus and MEFLUVAC H9+ND7 has shown highest identity with Pakistani isolates reported recently.					
Evaluation by DBE&R: *For product at serial i & ii virus strain on FSC is NDV2 and the firm claimed in their letter that it is NDV2-NDV60 strain.*					

Decision;

Registration Board referred the case to Expert Working Group on Veterinary Drugs for comments regarding immunological relevance and need of applied strains in Pakistan.

6. Issuance of Registration letter to Al-Asar Enterprises with corrected composition for Product MYVAC IBD V877 (2000 doses).

Following product of M/s Al-Asar Enterprises is approved in 312th Registration Board meeting however there was typographic error in composition:

Sr. No.	Approved composition in 312th Registration Board meeting	Corrected Composition	Remarks
1.	**MYVAC IBD V877** Freeze dried live vaccine containing Infectious bursal disease V877 strain ≥ **$20^{2.5}$** EID_{50} per bird dose in 2000 dose for active immunization of Infectious Bursal Disease.	**MYVAC IBD V877** Freeze dried live vaccine containing Infectious bursal disease V877 strain ≥ **$10^{2.5}$** EID_{50} per bird dose in 2000 dose for active immunization of Infectious Bursal Disease.	Approved by the Chairman Registration Board in the light of delegation of powers in line with FSC. Accordingly Registration letter with correct composition is issued.

Decision:

Registration Board noted the above information.

7. Issuance of Corrigendum to Al-Asar Enterprises with corrected composition for Product MYVAC IBD V877 (1000 doses).

Following product of M/s Al-Asar Enterprises is approved in 260th Registration Board meeting however there was typographic error in composition:

Sr. No.	Approved composition in 260th Registration Board meeting	Corrected Composition	Remarks
1.	**MYVAC IBD V877** (Infectious Bursal Disease V877 vaccine) Each dose contains: Infectious **bronchitis** virus strain V877 ……..$10^{2.5}EID_{50}$	**MYVAC IBD V877** (Infectious Bursal Disease V877 vaccine) Each dose contains: Infectious **bursal** virus strain V877 ……..$10^{2.5}EID_{50}$	Approved by the Chairman Registration Board in the light of delegation of powers in line with FSC. Accordingly, corrigendum with correct composition has been issued to the firm.

Decision:

Registration Board noted the above information.

Cases of AD-IV (Kashif Mehsud)

A: Miscellaneous/ Deferred Cases

1. Extension in labeling exemption for Vaxigrip Tetra (Reg. No. 105066)

M/s Sanofi Aventis Pakistan Limited, Karachi submitted that Annual Influenza vaccination is considered to date as the most effective method for preventing seasonal flu and its complications. The firm further submitted that vaccines by Sanofi Pasteur are manufactured globally at a single source to fulfill the requirement of the whole world. Therefore, it is not possible for manufacturer to follow the packaging and labeling rules of every country at the time of export

plus production, packaging, quality controls of these sterile and temperature sensitive products require specialized methods and techniques of handling under highly controlled environment. The firm requested to extend the exemption of Urdu Text, Registration number and MRP on packs of Vaxigrip Tetra. The firm has submitted the following documents:

i. Fee Challan of Rs. 7500
ii. Copy of SOPs for control of local repacking operations.
iii. An undertaking that to print the Registration Number and Maximum Retail Price (MRP) on each pack of above product at their Karachi site bearing DML No. 000007, before releasing the goods into the market.
iv. Copy of registration letter dated 07-10-2020.
v. Copy of permission of Extension in labeling exemption for Vaxigrip Tetra (Reg. No. 105066) vide letter No. F.3-5/2014-DDC(BD)(Vol-VII) (M-316) dated 02-06-2022.

In this context, it is submitted that the initial request of the firm for exemption of labeling text for Vaxigrip Tetra (Reg. No. 105066) was approved by Registration Board in its 295th meeting for one year from the date of issuance of registration letter. The registration letter was issued on 07-10-2020, hence, the permission was valid till 07-10-2021 and again exemption of labeling text for Vaxigrip Tetra (Reg. No. 105066) was approved by Registration Board in its 316th meeting for one year from the expiry of the permission i.e 7-10-2021 which is valid till 06-10-2022.
It is suggested to grant two to three years permission if agreed to avoid unnecessary workload.

Decision:

Registration Board acceded to the request of the firm and extended the permission, for one year from the date of expiry of previous permission i.e. 06-10-2022, to import Vaxigrip Tetra (Reg. No. 105066) in Standard Export Packs and to locally print MRP and Registration Number along with Urdu Text and other parameters as per Drugs (Labelling & Packing) Rules, 1978 before sale of drug at M/s Sanofi Aventis, Plot 23, sector 22, Korangi Industrial area, Karachi to comply the requirement as per Drugs (Labelling & Packing) Rules, 1986. This permission shall be valid for one (01) year only after issuance of registration letter.

Registration Board further advised DBE&R to prepare agenda for next meeting regarding time span for such permissions.

2. M/s Saadat International, Lahore has applied for change of name of manufacturer (Site remains the same) of their already registered biological product Aftovaxpur (Reg. No. 018499).

M/s Saadat International, Lahore has applied for change in name of manufacturer (Site remains the same) of their already registered biological product as per following details:

Sr. No.	Reg. No.	Brand Name	Existing Name of Manufacturer	Demanded Name of Manufacturer
1.	018499	Aftovaxpur (Foot & Mouth Disease inactivated Vaccine)	M/s Merial Animal Health Ltd. United Kingdom	M/s Boehringer Ingelheim Animal Health Ltd. Ash Road, Pirbright Surrey GU24 ONQ, United Kingdom.

Decision of 316th R.B Meeting:

"Registration Board deferred the case for verification of approval status of product in reference regulatory authorities."

The firm has submitted legalized copy of registration letter of the stated product in Germany and legalized copy of renewal of Registration letter of the stated product in France.

Decision:

Registration Board approved the change of name of manufacturer from M/s Merial Animal Health Ltd. United Kingdom to M/s Boehringer Ingelheim Animal Health Ltd. Ash Road, Pirbright Surrey GU24 ONQ, United Kingdom for the above mentioned product subject to submission of valid legalized Free Sale Certificate from any of reference regulatory authority and the Chairman Registration board is authorized to issue PRV letter.

3. Extension in shelf life of Emergency Use Authorized product Convidecia Vaccine in Vial applied by Mis AJM Pharma deferred in 317th meeting.

M/s AJM Pharma has applied for extension in shelf life of their already Emergency Use Authorized product Convidecia Vaccine in Vial as per following details:

Reg. No.	Brand Name	Existing shelf life	Demanded shelf life
107886	Convidecia Vaccine in vial	6 months (2°C to 8°C)	12months (2°C to 8°C)

Decision of 317th R.B Meeting:

"Registration Board deferred the case and advised the firm to submit the import data of the product since its Emergency Use Authorization."

The Firm has submitted invoices endorsed by DRAP (I & E) Karachi and WHO approval for the above stated product with 12 months of shelf life which has been verified online.

Decision;

Keeping in view the approval of WHO; Registration Board approved the extension in shelf life of Convidecia Vaccine in vial (Reg. No. 107886) from 6 months to 12 months.

4. Delegation of Functions:

Registration Board, in its various meetings (262,276,277,284,288,290,292,295,296,297,307 and 316) has authorized its Chairman for certain functions, under Rule 24(10) of Drugs (Licensing, Registering & Advertising) Rules, 1976, in order to facilitate timely disposal of various cases / post-registration variation cases/ contravention of various provisions of the Drugs Act, 1976.

Following functions are hereby reframed and compiled as follows:

23.	Change of contract manufacturer/ manufacturing site of already registered products.
24.	Issuance of show cause notice for cancellation of registration after termination of agency authorization by Manufacturer / Product License Holder.
25.	Issuance of show cause notice for cancellation of registration after cancellation of DML
26.	Approval of product license holder/Market Authorization Holder including incorporation of exporter (if required) by the firm.

The above-mentioned functions of post registration variations and pre-registration variations may be delegated to the Director Biological Drugs to avoid un-necessary delays and for timely disposal of the cases if agreed please.

Decision:

Registration Board constituted the following Committee to formulate recommendations on functions of Registration Board to be delegated to Director Biological Drugs.

1. **The Director Biological Drugs.**
2. **The Secretary Registration Board**
3. **Mr. Manzoor Ali Bozdar Additional Director PE&R**

AGENDA ITEM NO.I: PERSONAL HEARING CASES

CASE No. 01: MANUFACTURE & SALE OF MISBRANDED DEX-NEO CREAM REG. NO. 067664, BATCH NO. 299 MANUFACTURED BY M/S. ZANCTOK PHARMACEUTICAL LABS, HYDERABAD.

The Federal Inspector of Drugs-IV, DRAP inspected the premises of M/s. Zanctok Pharmaceuticals Karachi dated 18-11-2021 and following sample of drug taken on Form-3 for the purpose of test/analysis. Details are:

S. No.	Product Name	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	Remarks of CDL
01	Dex-Neo cream	M/s. Zanctok Pharmaceutical Labs, Hyderabad	067664	299	11-2021	10-2023	The inner most label (tube) does not contain date of expiry as required under rule 3 of the Drugs (labelling & Packing) Rules 1986. Hence, sample is declared **"Misbranded"** under the Drug Act, 1976.

The sealed sample of above drugs was sent by FID to Federal Government Analyst, Central Drugs Laboratory, Karachi for the test/analysis vide this office memorandum No. SHM-NTF-64-66/2021-FID(K)-IV dated 19-11-2021.

The sealed portion of sample was also sent by FID to Chairman, Drug Registration Board, DRAP, Islamabad vide office letter of even number dated 19-11-2021.

The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the sample as Misbranded under the Drugs Act, 1976, vide test report No.KQ.348/2021 dated 25-01-2022.

In the light of above test report of Federal Government Analyst, Central Drugs Laboratory, Karachi, FID issued an explanation letter of even number dated 31-01-2022 to M/s. Zanctok Pharmaceuticals Hyderabad to explain their position in the matter for manufacturing/selling of above-mentioned Misbranded drug.

M/s. Zanctok Pharmaceuticals Hyderabad explained their position vide letter dated 07-02-2022. The firm's stance was reproduced as:

> "Keeping in view all the above-mentioned facts, it is stated that we owe to rectify the improper labeling (i.e no expiry date mentioned on primary packaging which was missed during engraving labeling on tubes due to machine problem) of our product Dex-Neo cream from the very next following batch with immediate effect."

In light of FGA report, M/s Zanctok Pharmaceuticals Hyderabad involved in manufacturing and selling of Misbranded drug Dex Neo cream Batch no. 299 and violated section 23(1)(a)(iii) of the Drugs Act 1976 and rules framed under.

Further, FID recommended that action under section 42 of the Drugs Act, 1976.

Section 42 of the Drugs Act 1976 reproduced as:

> "Where any person has been found to have contravened any of the provisions of this Act or the rules in respect of any registered drug, the Registration Board may, after giving such person an opportunity of being heard, cancel the registration of such drug or suspend such registration for a specified period."

Decision of 316th Meeting of Registration Board.

> "The Board after thorough deliberations, considering the facts of the case, decided to issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Zanctok Pharmaceuticals Hyderabad and called them for personal hearing before Registration Board."

Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.

Firm has replied vide Ref No. ZPL/046/2022 dated 30-05-2022 where in firm agreed for personal hearing.

Firm has been called for Personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

M/s Zanctok Pharmaceutical Laboratories submitted vide Ref No. ZPL/117/2022 dated 30-08-2022 that:

> "[…] Unfortunately, we have received the above subject letter on 30-08-2022 in afternoon through Whats App. We still have not received the letter through Pakistan post/courier. We believe due to heavy rain and flood in Hyderabad, no post was received to the factory. Due to receiving of the letter in late hours (Last Day), we are not getting flight for tomorrow to Islamabad. Therefore, we request you to move the hearing date to next month […]"

Decision: **Registration Board after considering the facts of the case and request of the firm to grant another opportunity of personal hearing and acceded to the request and provide them another opportunity of personal hearing.**

CASE NO. 02: MANUFACTURE & SALE OF ADULTERATED & SUB-STANDARD STERILE WATER FOR INJECTION REG. NO. 000040, BATCH NO. 799 MANUFACTURED BY M/S. ZAFA PHARMACEUTICAL LABORATORIES (PVT.) LTD., KARACHI.

The Federal Inspector of Drug-III / Assistant Director-XII, DRAP, Karachi inspected the premises of M/s. National Institute of Child Health (NICH) Rafeeqi Shaheed Road Karachi. on

28-05-2021 wherein the sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3.

The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the above said sample as "Adulterated and Sub-Standard" quality vide their test report No.KQ.134/2021 (Initial) dated 11th June 2021 and test report No. KQ.134/2021 (Final) dated 30th, July 2021.

S. No.	Name of Drug	Reg; No	Batch No.	Mfg. Date	Exp. Date	Mfg.by	Result of CDL	Basis of Result
01	Zafixime 500mg Injection	027228	440	01-2021	01-2023	M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Karachi.	Standard	-
-	Strile Water for Injection 5ml Ampoule	030217	799	12-2020	12-2025	---do---	Adulterated & Substandard	**Containing white fibers visible to the naked eye.**

In the light of above test reports of Federal Government Analyst, Central Drug Laboratory, Karachi an explanation letter of even number dated 11th June 2021 and 02nd, August 2021 issued by FID to M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Plot No. B-10, Block-B, S.I.T.E. North Karachi, for explaining their position in the matter of manufacturing/selling of above mentioned Adulterated and Sub-Standard drug.

M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Plot No. L-1/B, block 22, Federal "B", Area Karachi, 75950 vide their letter No. Nil dated 23th August,2021 requesting for retesting of Drug Zafixime 500mg Injection Batch No. 440, from NIH Islamabad. under section 22(5) of the drug Act 1976 for testing.

FID submitted the request of firm for retesting dated 25-08-2021.

M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, again requested for Appellate testing dated 07-10-2021.

Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided to ask/request Federal Government Analyst, Karachi to provide OOS investigation and complete testing record on which the product is declared as of Adulterated and Substandard quality.

The decision of Board has been communicated dated 16-12-2022 after approval of minutes.

M/s. Zafa Laboratories replied dated 11-01-2022, the conclusion of firm is reproduced as:

"In light of above investigation, product Water for Injection 5ml, Batch no. 799 was found as per specification. Therefore, OOS is not required against complaint."

Response received from Central Drugs Laboratory, Karachi received through WhatsApp dated 14-03-2022 wherein the remarks of OOS Investigation Form are reproduced as:

"Containing white fibers (WFI) visible to the naked eyes. The sample is of adulterated and substandard quality.

Technical Evaluation of the case:

- Water for injection was declared adulterated and substandard, containing white fibers visible to the naked eyes.
- Defects may not be equally distributed over the batch that's why it is not necessary for a Board or retention portion to be defective. Allowing retesting may result in false negative results and pose the risk to patient which can be avoided otherwise.
- Moreover, the remarks of CDL may be considered for further investigation of quality defect considering the statistical validity of sample size.

Proceedings and Decision of 316th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided:

i. To issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Zafa Pharmaceutical Laboratories (Pvt.) Ltd., Karachi and called them for personal hearing before Registration Board.

Mr. Adnan Rizvi, Member of Board has recorded his note of dissent i.e. the sample should be sent to NIH for appellate testing.

Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.

Firm has replied vide letter Nil dated 02-06-2022 wherein they again requested to send sample for appellate testing to NIH for physical testing.

Firm has been called for personal hearing.

Proceedings and Decision of 320th Meeting of Registration Board.

M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Karachi submitted vide Ref No. Nil dated 29-08-2022 that the concerned technical person was not available to attend the hearing due to unavoidable circumstances (rain and flood). They further requested for personal hearing in next meeting.

Decision: **Registration Board after considering the facts of the case and request of the firm to grant another opportunity of personal hearing and acceded to the request and provide them another opportunity of personal hearing.**

CASE NO. 03: MANUFACTURE & SALE OF ADULTERATED & SUBSTANDARD ABEX INJECTION, REG. NO. 086072, BATCH NO. 21AL2, MFG. DATE 02-21, EXP. DATE 02-23, MANUFACTURED BY M/S. SEMOS PHARMACEUTICALS (PVT.) LTD., KARACHI.

FID, DRAP, Karachi inspected the premises of M/s. JPMC, (Central Pharmacy) Rafeeqi Shaheed Road Karachi. on 23-04-2021, wherein following sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3.

The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the above said sample as "Adulterated and Sub-Standard" quality vide their test report No.KQ.100/2021 (Initial) and (Final) dated 26th May 2021 and 15th June 2021**.**

S. No.	Name of Drug	Reg. No	Batch No.	Mfg. Date	Exp. Date	Mfg. By	Result of CDL	Basis of Result
01	Injection Abex	086072	21AL2	02/2021	02/2023	M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector 121-A, North Karachi. Industrial Area, Karachi.	Adulterated & Sub-standard	**After reconstitution, containing black particles visible to naked eye.**
02	Ampoule of Water for Injection	026762	WF2-243C	JAN-2021	JAN-2026	M/s. Surge Labortories (Pvt) Ltd. 10th Km, Faisalabad Road, Bikhi, District Sheikhupura	Standard	-

In the light of above test report KQ.100/2021 (Initial) dated 26th May 2021 of Federal Government Analyst, Central Drug Laboratory, Karachi an explanation letter of even number dated 27th May 2021 and 17th June 2021 were accordingly issued to M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector 121-A, North Karachi. Industrial Area, Karachi. for explaining their position in the matter of manufacturing/selling of above mentioned Adulterated and Sub-Standard drug

M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector 121-A, North Karachi. Industrial Area, Karachi vide their letter No. SP/L TR047 dated 28th June 2021 requesting for retesting of Drug Abex Injection Batch No. 21AL2 from NIH Islamabad.

FID stated that in the light of above, portion of sample lying with the Board may be got retested from Appellate Laboratory National Institute of Health (N.I.H) Islamabad.

Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided to ask/request Federal Government Analyst, Karachi to provide OOS investigation and complete testing record on which the product is declared as of Adulterated and Substandard quality.
The decision of Board has been communicated dated 16-12-2022 after approval of minutes.

M/s. Semos Pharmaceuticals, Pvt Ltd., Karachi dated 27-12-2021, the firm mentioned that they have checked retention samples and recall samples as described process but didn't see any particles after reconstitution.

Firm also highlighted the remarks of CDL report reproduced as:

- As per requirements of USP general chapter <790> additional units may be inspected (As per ANSI/ASQ Z 1.4 or ISO 2859-1 standard for sampling) to gain further information on the risk of particulates in the batch.
- It is also mentioned in USP <790> that because of complaint and regulatory concern inspect 20 units, but they have received 10 units only. That's why they have requested to inspect more samples as per CDL remarks.

For the greater public interest and precautionary measures, they revalidated the Cephalosporin sterile area after replacing the filters where necessary i.e. HEPA filters for tunnel sterilization etc and other HEPA filters were also re-validated where necessary. They conducted DOP test on the filters. They further requested for appellate testing under section 22(4) of the Drugs Act 1976.

Response received from Central Drugs Laboratory, Karachi dated 14-03-2022 wherein wherein the remarks of OOS Investigation Form are reproduced as : "Adulterated and Substandard".

Technical Evaluation of the case:

- Product is declared as adulterated and substandard after reconstitution, containing black particles visible to naked eyes.
- Firm has conducted risk assessment however the risks are defined by firm in low to moderate range. DOP test was also conducted but no remarks was mentioned in the report.
- Defects may not be equally distributed over the batch that's why it's not necessary for a Board portion or retention portion to be defective. Allowing retesting may result in false negative results and pose the risk to patient which can be avoided otherwise.
- Moreover, the remarks of CDL may be considered for further investigation of quality defect.

Decision of 316th Meeting of Registration Board.
The Board after thorough deliberations and considering the facts of the case decided:

i. To issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Semos Pharmaceuticals (Pvt.) Ltd., Karachi and called them for personal hearing before Registration Board

Mr. Adnan Rizvi, Member of Board has recorded his note of dissent i.e. the sample should be sent to NIH for appellate testing.

Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.

Firm has replied vide Ref. No. SP/LTR/062 dated 01-06-2022 wherein they again requested to send sample for appellate testing to NIH for physical testing and ready to appear before the Board.

Firm has been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

M/s. Semos Pharmaceuticals, Pvt Ltd., Karachi submitted vide Ref No. SP-LTR/065 dated 31-08-2022 that their flight had been delayed at the last moment and no other flight was available in short span of time. They further requested for another date for personal hearing.

Registration Board after considering the facts of the case and request of the firm to grant another opportunity of personal hearing and acceded to the request and provide them another opportunity of personal hearing.

Case No. 04: MANUFACTURE & SALE OF SUB-STANDARD INDOBID CAPSULE, REG. NO. 007106, BATCH NO. 386, MANUFACTURED BY M/S ADAMJEE PHARMACEUTICALS (PVT) LTD., KARACHI.

FID Karachi vide letter No. F.ARS-107-109/2021-FID-II (K) dated 02nd August 2021 wherein the FID Karachi has informed that the sample was received in CDL, Karachi wherein, the Federal Government Analyst has declared following samples of Indobid Capsule as of **"Substandard quality"**.

Name of Product	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	CDL Remarks
Indobid Capsule	M/s Adamjee Pharmaceuticals (Pvt) Ltd., Karachi	007106	386	01-2021	01-2025	Substadard on basis of Dissolution.

Results of CDL on the basis of which sample under reference has been declared as Sub-Standard quality are reproduced as under:-

S.No.	Test	Specification	Result	Reference
1	Description	Hard gelatin capsules consist of white body and blue coloured cap, containing off white powder.	Complies	Mfg. Specs.
2	Identification	The identification test must identify Indomethacin.	Complies	BP 2020
3	Dissolution	Each unit is not less than 70%	**Does not Comply.**	BP 2020
4	Assay Indomethacin (Lebel claim 25mg/ capsule)	90.0% to 110.0%	103.2%-Complies	BP 2020

Remarks: The sample is "Sub-Standard" quality under the Drugs Act, 1976.

The FID Karachi has further informed that the firm has sent the explanation letter to explain their position dated 13th July 2021 regarding the violation of Drug Act 1976 and DRAP Act 2012.
The firm has submitted their reply dated 30th July 2021, wherein they requesting for retesting of Drug Indobid Capsules B.No.386 from NIH Islamabad.
In light of Supreme Court judgement of "C.P.1692-L/2020, C.P.1792-L/2020 and C.P.5-L/2021" and firm's request for appellate testing, the case is submitted for consideration of Board.
Proceedings and Decision of 312th Meeting of Registration Board.

The case has been deferred till the finalization of Appellate Testing Guidance Document/Protocol.

The agenda of "Handling requests of Appellate Testing- Guidance document for registration Board" was discussed in 313th meeting of Registration Board. The Board after thorough deliberations and considering the facts of the case decided as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.
ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.
iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case.

OOS investigation was asked by firm and CDL vide office letter dated 23-12-2021.

The firm submitted the response dated 16-02-2022. They provided the results of initial test, Keeping sample and warrantor portion and request for appellate testing. However, OOS investigation was not provided.

CDL submitted the response dated 15-03-2021 wherein they mentioned: OOS is validated.

Technical Evaluation of the case:

i. The product was declared substandard on dissolution.
ii. CDL performed the test as per BP 2020 while firm performed on manufacturer specs.
iii. Audit trail was not provided by firm.
iv. Data is not time stamped hence data integrity cannot be verified.

Proceedings and Decision of 317th Meeting of Registration Board:

Out of Specification (OOS) investigations and testing records submitted by M/s. Adamjee Pharmaceuticals (Pvt) Ltd., Karachi and CDL, DRAP Karachi was presented before Registration Board. The Board deliberated the case in detail as follows:

i. M/s. Adamjee Pharmaceuticals (Pvt) Ltd., Karachi requested for Appellate testing. In compliance to the decision of 313th meeting of Registration Board firm and CDL were asked to submit Out of specification (OOS) investigation vide office letter dated 23-12-2021. The firm submitted the response dated 16-02-2022. They provided the results of initial test, Keeping sample and warrantor portion and request for appellate testing. However, OOS investigation was not provided. While CDL submitted the response dated 15-03-2022 wherein they mentioned that OOS is validated.
ii. Review of documents revealed that the product "Indobid Capsule" (Reg# 007106) was registered vide letter No.F.3-4/83-Reg(M-51) dated 16-01-1984 and no specification was mentioned in registration letter. Later on the subject product was included in BP specifications Minutes of 317th meeting of Registration Board (16-17 May, 2022) | 877 while the firm is still manufacturing and testing the product per manufacturer specifications. Further in 197th meeting of Registration Board held on 3-4 th May 2006, the Board decided as:

"All the firms shall adopt the specifications mentioned in the official pharmacopoeias for all the formulation except those drugs not included in the

official pharmacopoeias. For these drugs manufacturers may adopt their own specifications till the inclusion of that formulation in the official pharmacopoeias. after this decision firms will not be allowed to adopt their own specifications for the drugs, which are included in any of the official pharmacopoeias, listed in the Section 3 of Drugs Act, 1976."

Decision: Keeping in view position narrated above, the Board concluded that the firm is still manufacturing/testing the said product as per manufacturer specifications despite of the fact that it is included in the official pharmacopoeia (BP). Therefore, Board did not accede the firm's request of appellate testing. Thus, the Board decided to issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Adamjee Pharmaceuticals (Pvt) Ltd., Karachi and called them for personal hearing before Registration Board.

Decision of 317th meeting of Registration Board has been communicated vide letter No. F.03-30/2022-QC (317-RB) dated 21-06-2022.

Firm has replied vide Ref. No. Nil dated 28-06-2022 wherein they mentioned that they are the only company in Pakistan manufacturing Indomethacin capsule. They further said that they already imported a huge quantity of the said product foil, therefore they will change it to official pharmacopeia after consumption of the present foil.

Firm has been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

M/s. Adamjee Pharmaceuticals, Pvt Ltd., Karachi submitted vide Ref No. Nil dated 31-08-2022 that their flight had been delayed. They further requested for personal hearing in next meeting.

Decision: Registration Board after considering the facts of the case and request of the firm to grant another opportunity of personal hearing and acceded to the request and provide them another opportunity of personal hearing.

Case No. 05: MANUFACTURE & SALE OF SUB-STANDARD LEFIN PEDIATRIC SUSPENSION, REG. NO. 000404, BATCH NO. 332V, MANUFACTURED BY M/S. LEAMA CHEMI PHARMA (PVT) LTD. PESHAWAR.

The Federal Inspector of Drug Peshawar inspected the premises of M/s. Leama Chemi Pharma (Pvt) Ltd. Peshawar on 12-08-2021 wherein the sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3.

Name of Product	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	CDL Results
Lefin Pediatric Suspension	M/s. Leama Chemi Pharma (Pvt) Ltd. Peshawar.	000404	332V	06/21	05/23	Sub-Standard on the basis of Assay.

02. Results of CDL on the basis of which samples under reference has been declared as Substandard quality are reproduced as under:-

S.No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Pink coloured suspension in ambered glass bottles.	Complies.	Mfg. Specs.
2.	Identification	The identification test must identify Paracetamol.	Complies.	BP 2020
4.	**Assay** Paracetamol. (Label Claim 120mg/5ml)	95.0% to 105.0%	**70.45%-** **Does not comply.**	BP 2020

Remarks: *The sample is of "Sub-Standard" quality under the Drugs Act, 1976.*

FID has sent the explanation letter to explain their position dated 26-10-2021 regarding the violation of Drug Act 1976 and DRAP Act 2012.

The firm has submitted their reply dated 29-11-2021, wherein they requesting for retesting of product Lefin Pediatric Suspension Batch no. 332V.

The agenda of "Handling requests of Appellate Testing- Guidance document for registration Board" was discussed in 313th meeting of Registration Board. The Board after thorough deliberations and considering the facts of the case decided as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.
ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.
iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case.

The firm's response received dated 14-02-2022. Firm has submitted testing method on UV and it seems that assay method on HPLC was added afterwards as document show doesnot show serial No. on HPLC method.

CDL submitted the response dated 15-03-2021 wherein they mentioned: OOS is validated.

Technical Evaluation of the case:

i. The product was declared substandard by CDL on the basis of assay.
ii. CDL performed the test as per BP 2020.
iii. Testing method of firm was not a control document.
iv. HPLC was not standard method, they mentioned UV for assay in testing method.
v. Firm performed assay on HPLC dated 10-12-2021 while the parameters i.e mobile phase, standard preparation, sample preparation, wavelength, flow rate were not as per BP 2020.

Parameters	BP Parameters	CDL parameters	Firm's Parameters
Flow rate	1.5ml/min	1.5ml/min	1ml/min
Column temperature	35	35	-

Detection wavelength	245nm	245nm	256nm
Inject volume	50ul	50ul	10ul

vi. Audit trail was not provided by firm.
vii. Data is not time stamped hence data integrity cannot be verified.

Proceedings of 317th Meeting of Registration Board.

Out of Specification (OOS) investigations and testing records submitted by M/s. Leama Chemi Pharma (Pvt) Ltd. Peshawar and CDL, DRAP Karachi was presented before Registration Board. The Board deliberated the case in detail as follows:

i. Registration Board considered the case of M/s. Leama Chemi Pharma (Pvt) Ltd. Peshawar requested for Appellate testing. In compliance to the decision of 313th meeting of Registration Board, the firm and CDL were asked to submit Out of specification (OOS) investigation vide office letter dated 23-12-2021. The firm submitted the response dated 14-02-2022. Firm has submitted testing method on UV and it seems that assay method on HPLC was added afterwards as document does not show serial No. on HPLC method. While CDL submitted the response dated 15-03-2022 wherein they mentioned: OOS is validated.
ii. Review of documents revealed that the product "Lefin Pedriatic Suspension" (Reg# 015203) was registered vide letter No.F.3-3/97-Reg.II(M-125) dated27th June 1997 and no specification was mentioned in registration letter. Later on the subject product was included in BP specifications while the firm is still manufacturing and testing the product per manufacturer specifications. Further in 197th meeting of Registration Board held on 3-4th May 2006, the Board decided as:

> "All the firms shall adopt the specifications mentioned in the official pharmacopoeias for all the formulation except those drugs not included in the official pharmacopoeias. For these drugs manufacturers may adopt their own specifications till the inclusion of that formulation in the official pharmacopoeias. after this decision firms will not be allowed to adopt their own specifications for the drugs, which are included in any of the official pharmacopoeias, listed in the Section 3 of Drugs Act, 1976."

Decision: Keeping in view position narrated above the Board concluded that the firm is still manufacturing/testing the said product as per manufacturer specifications despite of the fact that it is included in the official pharmacopoeia (BP). Therefore, Board did not accede the firm's request of appellate testing. Thus, the Board decided to issue show cause notice for

suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Leama Chemi Pharma (Pvt) Ltd. Peshawar.and called them for personal hearing before Registration Board.

Decision of 317th meeting of Registration Board has been communicated vide letter No. F.03-30/2022-QC (317-RB) dated 21-06-2022.

Firm has replied vide Ref. No. Nil dated 30-06-2022 wherein they provided HPLC analysis and requested to accept the same.

Firm has been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

Mr. Irfan Wahid, QCM (CNIC# 17301-1469985-7) and M. Ibrar Khalid, Production Incharge (CNIC# 17301-1666657-5) appeared before the Board. They said that they performed the assay by UV spectroscopy and after the substandard report received they performed the assay by HPLC method.

Decision: **Registration Board after considering the facts of the case and thorough deliberations decided to suspend the registration of the said product for six (06) months or till the verification of root cause analysis, Corrective and preventive action (CAPA) by the firm and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.**

- **Director DTL Peshawar.**
- **Additional Director, DRAP, Peshawar**

Case No. 06: MANUFACTURE & SALE OF SUBSTANDARD CIPRACEPT 250MG TABLET, REG. NO. 096357, BATCH NO. TCA-103, MFG. DATE 01-2021, EXP. DATE 01-2023, MANUFACTURED BY M/S. MISSION PHARMACEUTICALS, KARACHI.

FID, DRAP, Karachi inspected M/s. Mission Pharmaceuticals (Pvt.) Ltd., A-94, SITE Super Highway, Karachi on 25-02-2021 to check the GMP compliance level of the firm, wherein following sample of drugs along with other drugs were taken for the purpose of test/analysis on prescribed Form-3:

Name of Drug	Reg; No	Batch No.	Mfg. Date	Exp. Date	Mfg. By	Result of CDL
Cipracept 250mg Tablet (R. No. 096357)	TCA-103	TCA-103	01-2021	01-2023	M/s. Mission Pharmaceuticals (Pvt.) Ltd., Karachi.	Sub-Standard on the basis of Dissolution

FID sent sealed samples of above drug was sent to Federal Government Analyst, Central Drugs Laboratory, Karachi for the test/analysis vide this office memorandum No. ARS-69-70/2021-FID-II (K) dated 26-02-2021

The Government Analyst, Central Drugs Laboratory, Karachi vide test report No.KQ.51/2021 dated 23rd April, 2021 declared the sample of the above-named drug as **"Sub-Standard"** quality under the Drugs Act, 1976, which is violation of Section 23(1) (a) (v) of Drugs Act, 1976 and rules framed there under.

FID issued an explanation letter of even numbers dated 28th April, 2021 and 24th May, 2021 to M/s. Mission Pharmaceuticals (Pvt.) Ltd., A-94, SITE Super Highway, Karachi for explaining their position in the matter for manufacturing, selling & distributing of above-mentioned substandard drug with the directions to recall the above batch from the market.

FID submitted that M/s. Mission Pharmaceuticals (Pvt.) Ltd., Karachi did not challenge the test report of CDL, Karachi. Firm mentioned that they checked dissolution test and found it well in limits as specified by USP.

FID submitted that M/s. Mission Pharmaceuticals (Pvt.) Ltd., Karachi has violated the Section 23(1) (a) (v) of Drugs Act, 1976, and recommended that:

i. Registration of their under-reference product may kindly be suspended/cancelled for a certain period.
ii. PSI may be carried out by panel of inspectors.
iii. Recalled stock should be destroyed as per SOP.

FID further submitted the name of MD and technical persons as provided by the firm:

i. Muhammad Aleem Mirza, Managing Director (CNIC No. 42201-7437635-3)
ii. Pahlwan Tanwari, Production Incharge (CNIC No. 42201-1989136-9)
iii. Jubair Ali Watio, Manager Quality Control (CNIC No. 45208-8699076-5)

The names provided by firm have been verified by Licensing Division. A show cause has been issued to following dated 07-01-2022.

M/s Mission Pharmaceuticals, S.I.T.E Super Highway, Karachi.	Mr. Muhammad Aleem Mirza, Managing Director M/s Mission Pharmaceuticals, Karachi.
Pahlwan Tanwari, Production Incharge, M/s Mission Pharmaceuticals, Karachi	Jubair Ali Watio, Manager Quality Control, M/s Mission Pharmaceuticals, Karachi.

M/s. Mission Pharmaceuticals, Karachi replied vide letter: MP/C-005/22 dated 03-03-2022. They mentioned that

> *"[…] they found that this batch was over wet mixing due to this reason although tablet passes in disintegrator test but in dissolution test is not released in given time period. Normal wet mixing time is 10-15 minutes but by operator mistake has run the mixer for 35 minutes. Granules become dense and after finding the blend all in process test hadness, disintegration test and friability was found in limit […]."*

Firm further requested to be heard in person to share investigation and CAPA.

Firm has been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

M/s. Mission Pharmaceuticals, Karachi submitted vide Ref No. MP/08/026/22 dated 29-08-2022 that they requested to extend the date as they received letter dated 29-08-2022, unable to reach on time due to flood in Sindh.

Decision: **Registration Board after considering the facts of the case and request of the firm to grant another opportunity of personal hearing and acceded to the request and provide them another opportunity of personal hearing.**

CASE NO. 07: MANUFACTURE & SALE OF SUB-STANDARD DIAGYL SUSPENSION, BATCH NO. 162 BY M/S SWISS PHARMACEUTICALS (PVT) LTD, KARACHI.

FID-VI, Karachi visited the premises of premises of M/s Swiss Pharmaceuticals (Pvt) Ltd., A/159 SITE, Super Highway, Karachi on 12-06-2018 and taken the following sample U/S 18(1) (c) of the Drugs Act, 1976 for the purpose of test/analysis on prescribed Form-3:

Name:	Diagyl Suspension 60ml
composition	Each 5ml contain 200mg Metronidazole
Registration No:	020229
Batch No:	162
Manufacturing Date:	06-2018
Expiry Date:	06-2021
Manufactured By:	M/s Swiss Pharmaceuticals (Pvt) Ltd., A/159 SITE, Karachi

02. The FID-VI, Karachi has forwarded one sealed portion of sample to Central Drugs Laboratory, Karachi vide memorandum No.ARS-57-59/2018-FID-VI (K) dated 12-06-2018 as required under Section 19(3)(i) of the Drugs Act, 1976.

03. The Federal Government Analyst, CDL, Karachi declared the sample as of Sub-standard quality on the basis of Assay content (Percentage determined: 208.2%, Limit: 95.0%- 105.0%) vide test/analysis report No.R.KQ. 468/2018 dated 20th July, 2018.

04. In light of the above said test report; the FID served an explanation letter vide reference No. ARS-57-59/2018-FID-VI (K) dated 26-07-2018 to M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Super Highway, Karachi for explaining their position in the matter of manufacturing, selling and distributing of above mentioned substandard drug with direction to recall the above said batch from the market. The FID-VI inspected the premises as the results were very alarming and could be lethal if the drug under reference was distributed to masses. The stock were fresh and present at their nation wise distributor so the firm quarantined it till further investigation.

05. In response M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Super Highway, Karachi submitted their reply vide reference No. Nil dated 08-08-2018 wherein they submitted that the same out of specification assay results were due to **Mixing Error.** They also submitted that the whole batch quantity is lying under their quarantine and they want to destroy it under the supervision of FID. However they didn't apply for retesting from Appellate laboratory, NIH, Islamabad.

06. The FID-VI, Karachi provided the names of responsible persons which are as under:

S.No.	Name	Designation	CNIC
1	Muhammad Umair Feroz	Director	42000-0375898-3
2	Zahid Hussain Khan	Quality Control Incharge	42401-7324156-3
3	Munawar Sultana	Production Incharge	42101-2796675-4

07. The Division of Drug Licensing, DRAP Islamabad was requested to verify the names provided by the FID-VI, Karachi and provided the following names being responsible persons and technical persons.

M/s Swiss Pharmaceuticals (Pvt) Ltd., A/159 SITE, Karachi.	Hafiz_Ferozuddin (Director/Chief Executive) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.
Hafiz Muhammad Umair, (Director) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.	Hafiz Muhammad Aamir, (Director) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.
Hafiz Muhammad Saad, (Director) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.	Ms. Munawar Sultana (Production Incharge) (42101-2796675-4) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi
Zahid Hussain (Quality Control Incharge) (42401-7324156-3) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi	

08. The FID has provided that M/s Swiss Pharmaceuticals (Pvt) Ltd, Karachi has violated the section 23(1) (a) (v) of the Drugs Act, 1976 and rules framed there under and recommended to the Board that the recalled stocks is ordered to be incinerated and firm may be issued warning to uplift the GMP standards so that such failures may satisfactory be mitigated/addressed in future.

09. Show cause notice has been issued to the technical staff/management of the firm – responsible persons U/S 7(11) of the Drugs Act, 1976 vide letter no. 3-59/2018-(QC) dated 19-11-2018 that why the following action(s) should not be initiated against you:

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

10. The show cause notice was served to the firm and accused persons but the firm did not submit their reply in response to show cause notice.

Proceeding and Decision of the 287th Meeting of Registration Board.

Mr. Hafiz Muhammad Umair (Director) and Mr. Zahid Hussain (Quality Control Incharge) of M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi appeared on behalf of M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi to plead instant case of Substandard drug Sub-Standard Diagyl Suspension, Batch No. 162 before the Board in its 287th meeting on 04th January, 2019. Representatives of firm informed that problem occurred due to improper mixing during manufacturing operation. The Board after hearing the accused deliberated the matter in depth in the light of available record/ investigation report of FID decided as under:

I. Submission of product development data by the firm.

II. Product Specific Inspection including verification of product development data by the following panel:

- Director, Drug Testing Laboratory, Karachi.

- Area Federal Inspector of Drugs.

III. Suspension of the Registration of the said product for six (06) months or till the verification of product development data and satisfactory report by the panel whichever is later.

The decision of Registration Board had been communicated vide letter No. 03-92/2018-QC (287-RB) dated 28-02-2019.

FID-VI, DRAP, Karachi vide reference No.F.07-10/2020-FID-VI (K) dated 24th February, 2020 addressed to the Director QA&LT, DRAP, Islamabad regarding the subject of *"INSPECTION OF M/S HANDS PAKISTAN PLOT NO. 158, GADAP ROAD, MALIR KARACHI- STOCK ORDERED NOT OT DISPOSE OF ON FORM-1"* wherein ha has submitted that during the inspection of M/S Hands Pakistan Plot No. 158, Gadap Road, Malir Karachi on 24-02-2020 he recovered the stocks of Suspension Diagyl (R. No. 020229) for which the registration Board in its 287th meeting had suspended the registration of the said product for six months or till the verification of product development data and satisfactory report by the panel whichever is earlier. The available stocks of the suspended drug product were ordered "Not to dispose of on Form-1" under Section 18(1) of the Drugs Act, 1976 and violations of Board's decision.

S. No.	Name of Drug	Batch No.	Quantity	Mfg. Date	Exp. Date	Mfg. by
01	Susp. Diagyl 60ml	166 to 181	1 x 60ml x 134 x 100	10-2019	10-2022	M/s Swiss Pharmaceuticals (Pvt.) Ltd., Karachi.

Furthermore, samples of the said product along with other drugs were also drawn for test/analysis purpose on prescribed Form-3 and sent to the Federal Government Analyst, CDL, Karachi.

FID, DRAP, Karachi requested the permission for extension in the period of order made "Not to dispose of" on form-1 under the Drugs Act, 1976/DRAP Act, 2012. The permission was granted by Chairman, Registration Board and communicated to FID vide office letter F.No.3-59/2018-(QC) dated 08-05-2020 with directions to submit the complete case.

FID-VI, DRAP, Karachi vide reference No.F.07-10/2020-FID-VI (K) dated 04th March, 2020 addressed to the Director QA&LT, DRAP, Islamabad regarding the subject of "SURPRISED "INSPECTION OF M/S SWISS PHARMACEUTICALS PVT LTD, A -159,SITE SUPER HIGHWAY KARACHI STOCK ORDER NOT TO DISPOSE OF ON FORM I" wherein he has submitted that he was directed to inspect an unauthorized premises alleged to store expired drugs/ medicines and selling those after re labeling. Accordingly the undersigned along with Dr. Waqar Ahmed Assistant Director DRAP Karachi proceeded for visit and reached at Plot No. C-36 SITE-II Super Highway Karachi. The alleged Plot was found owned by M/s Swiss Pharmaceutical (Pvt.) Ltd., and was very adjacent to their registered plot No. A/159 SITE Super Highway Karachi. The said plot is declared as their ware house on Drug Sale license and used for storage of expired goods and same was seen stored there. This plot is connected to their main plot No. A/159 through ill defined stores where firm had stored some chemicals, packing materials and finished goods. Among the finished good panel found fresh stock of syrup Diagyl, B.No.170 and 171, the registration of which was suspended by the Board for six months are till the verification of product development data by the nominated panel vide DRAP Islamabad letter No.F.03-92/2018-QC (287-RB) dated 28th February 2019. But instead of complying the decision of the board concerned, the firm resumed the manufacturing of suspended drug. The suspected stocks were ordered not to dispose of initially for 28 days under section 18(1) of the Drug Act 1976.

S. No.	Name of Drug	Batch No.	Quantity	Mfg. Date	Exp. Date	Mfg. by

01	Susp. Diagyl 60ml	170	1 x 60ml x 100 x 110	12-2019	12-2022	M/s Swiss Pharmaceuticals (Pvt.) Ltd., Karachi.
02	Susp. Diagyl 60ml	171	1 x 60ml x 100 x 174	01-2020	01-2023	-do-

M/s Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway Karachi was directed to explain their position for manufacturing and selling of above suspended product vide this office letter of even number dated 24th February 2020. M/s Swiss Pharmaceutical (Pvt.) Ltd A-159 SITE Super Highway Karachi submitted their reply vide letter dated 03-03-2020 admitting their mistake and seeking further instruction

FID, DRAP, Karachi recommended that the registration of the alleged product may be cancelled after necessary legal procedure in this connection. The complete case is forwarded to your good office for further necessary action/instruction into the matter, please.

The permission was granted by Chairman, Registration Board and communicated to FID vide office letter F.No.3-59/2018-(QC) dated 08-05-2020 with directions to submit the complete case. Reminder-I issued dated 15-06-2020.

FID-VI, DRAP, Karachi vide reference No.F.ARS-07-10/2020-FID-VI (K) dated 25-06-2020 regarding the subject of "Manufacture and sale of substandard drugs by M/s Swiss Pharmaceuticals (Pvt.) Ltd. Karachi" Wherein he has stated that he inspected M/s. Swiss Pharmaceutical (Pvt.) Ltd., A-159, SITE Super Highway, Karachi on 17-02-2020 and on 24-02-2020 FID, DRAP, Karachi inspected M/s. HANDS Pakistan, Plot No. 15, Gadap Road, Malir, Karachi.

During the inspections of both premises, following suspected samples were drawn along with other samples on prescribed Form-3 for test/analysis purpose:

S. No.	Name of Drug	Batch No.	Mfg Date	Exp. Date	Mfg by	Taken From	Result of CDL
01.	Susp. Diagyl 60ml	170	12-2019	12-2022	M/s. Swiss Pharmaceuticals	M/s. Swiss Pharmaceuticals	Substandard
02.	-do-	171	01-2020	01-2023	-do-	-do-	
03.	-do-	167	10-2019	10-2022	-do-	M/s. HANDS Pakistan, Malir, Karachi	

In the light of above test report of Government Analyst, Central Drugs Laboratory, Karachi an explanation letters of even numbers dated 09th March 2020 and 06th April 2020 were accordingly issued to M/s. Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway, Karachi

M/s. Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway, Karachi has submitted unsatisfactory reply and did not challenge the reports vide their letter dated 01th April 2020.

FID recommended that the firm has violated Section 23(1) (a) (v) and 23(l)(a)(x) of Drugs Act, 1976 for manufacturing and selling of Substandard and Suspended drug, which is punishable under Section 27 of Drug Act, 1976 and rules framed there under therefore, it is recommended that:-

1. The Drug Manufacturing License No. 000438 of M/s. Swiss Pharmaceuticals (Pvt.) Ltd., Karachi may be suspended/cancelled for certain period after due deliberation of Registration Board/Licensing Board.
2. The registration of the alleged product **(Suspension Diagyl)** may be cancelled for violation

of decision of Registration Board
3. Through panel GMP inspection may be conducted.

Names of Responsible persons along with copies of CNICs as provided by the firm;

i. M/s. Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway, Karachi
ii. Muhammad Umair Feroze, Director (42000-0375898-3)
iii. Munnawar Sultana, Production Incharge (42101 -2796675-4)
iv. Safdar Khan Kayani, QC Incharge (42401-1779995-5)

M/s Swiss Pharmaceuticals (Pvt.) Ltd., vide reference No. nil dated 22-07-2020 received on 10-08-2020 addressed to the Chairman, Registration Board wherein M/s Swiss Pharmaceuticals has submitted that due to pandemic of COVID-19 and lockdown situation in Karachi, their staff were not able to attend office and due to this, they were inept to join office to respond your letters. Now we therefore, confirm through this letter to challenge the testing report of Central Drug testing Laboratory, Karachi in Appellate laboratory. Their request for retesting of the said product, which is not within the prescribed period under the law so their request was not acceded.

PSI report in compliance to 287th meeting:

FID inspected M/s. Swiss Pharma dated 01-02-2021 w.r.t. decision of 287th meeting of Registration Board communicated vide letter No. 03-92/2018-QC (287-RB) dated 28-02-2019. The observation, findings and conclusion of report submitted by FID reproduced as:

"OBSERVATIONS OF CURRENT INSPECTION:
During the current inspection the panel inspected in details the respective production areas and QC Lab. The panel also reviewed in details the following documents.
1. The root cause analysis (RCA) carried out by the firm after failure of the product.
2. The Corrective and preventive action (CAPA) taken to avoid the occurrence and recurrence of such failures in future.
3. Respective utility which might be the possible source of failure.
4. SOP relating to QA and QC system and quality manual were also checked in detail.
FINDING OF THE PANEL:
After thorough inspection, people meet, documents reviewed the panel observed as follows:
1. In compliance to the directions contained in afore-mentioned DRAP Islamabad letter the firm started to investigate the root-cause of the failure against their approved SOP.
2. The firm had found during the detailed RCA that it was propeller/stirrer that was stopped in holding vessel during the filling operation that actually affected in the variation of in potency of the Diagyl Suspension 200mg/5mL, Batch Number 162.
3. After assessing the RCA of the failure the firm had taken CAPA for better product and process performance in the light of their approved SOP for Change Control Management. At present physical indicator with the tank is installed i.e. light system indication with the holding vessel propeller /mixer that indicates any type of malfunctioning propeller/mixer either mechanical or electrical failure during operation. (RCA attached
4. The firm also revised their Sampling procedure c f QA that will indicate any process failure during operation and incorporated in sampling SOP (SOP attached)

5. Re-trained their staff/operator (Training record checked and found satisfactory).
6. During suspension period three trial batches were also manufactured with revised formulation to further assess the product stability during its shelf-life. The respective data was reviewed in detail and found satisfactory results. (Copy annexed)
7. Overall the panel found that necessary RCA has been carried out by the firm and appropriate CAPA have been taken to avoid such failures again. Moreover stability trend of said product also found satisfactory during inspection. The Panel also found GMP conditions appropriate during the inspection.
8. The panel has checked the physical stock of Diagyl Suspension Batch No. 162 and found with the Firm, also the firm is agreed to incinerate the whole batch in the presence of DRAP Representative by third party and will submit the certificate of incineration to the DRAP Office.
Conclusion: Based on the above stated facts the panel concluded that the failure in assay was because of the utility failure and found other documents satisfactory, also firm did not utilize the stock of Diagyl Suspension B# 162 and is agreed to incinerate in the presence of DRAP representative, thus recommends the resumption of production of Diagyl Suspension."

The names provided by FID have been sent to the Division of Drugs Licensing to verify/provide the names for the period of October, 2019 for further processing of the case vide letter F.No.3-59/2018-QC dated 24-07-2020 with subsequent reminders dated 18-08-2020, 21-09-2020, 09-02-2021 and 06-12-2021. After verification of names from Licensing Division, a Show cause has been issued to firm dated 12-04-2022.

M/s. Swiss Pharmaceuticals (Pvt.) Ltd., Karachi replied vide ref no. nil dated 27-04-2022 wherein they requested to include their case in upcoming DRB meeting with PSI report for removal of suspension and approval to resume production as per the Drugs Act, 1976.

Evaluation of case:
Initially one sample was declared as Substandard which was discussed in 287th meeting of Registration Board held on 04-01-2019 where Board decided as under:

I. Submission of product development data by the firm.
II. Product Specific Inspection including verification of product development data by the following panel:
- Director, Drug Testing Laboratory, Karachi.
- Area Federal Inspector of Drugs.

III. Suspension of the Registration of the said product for six (06) months or till the verification of product development data and satisfactory report by the panel whichever is later.

Meanwhile, FID further submitted that he inspected:

1. M/S HANDS PAKISTAN PLOT NO. 158, GADAP ROAD, MALIR KARACHI dated 24-02-2020 and recovered the stocks of Suspension Diagyl (R. No. 020229) for which the registration Board in its 287th meeting had suspended the registration of the said product for six months or till the verification of product development data and satisfactory report by the panel whichever is earlier.
2. Plot No. C-36 SITE-II Super Highway Karachi. The alleged Plot was found owned by M/s Swiss Pharmaceutical (Pvt.) Ltd., and was very adjacent to their registered plot

No. A/159 SITE Super Highway Karachi. The said plot is declared as their ware house on Drug Sale license and used for storage of expired goods and same was seen stored there. This plot is connected to their main plot No. A/159 through ill-defined stores where firm had stored some chemicals, packing materials and finished goods. Among the finished good panel found fresh stock of syrup Diagyl, B.No.170 and 171, the registration of which was suspended by the Board.

FID also sampled 03 Batches (167, 170, 171) of Diagyl suspension for test/analysis from above mentioned premises which were also declared Substandard by CDL, Karachi.

The PSI was conducted after 2 years of the decision of Board only for Batch no 162 and panel recommended for resumption despite of that firm has not comply with the decision of Board and manufactured multiple batches of the product after suspension. Further, 03 more batches have been declared Substandard on assay.

The firm representatives have been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

No person appeared before the Board on behalf of M/s. Swiss Pharmaceutical (Pvt.) Ltd., Karachi. Therefore, to meet the ends of justice, the Board decided to give one final opportunity of personal hearing to management of M/s. Swiss Pharmaceutical (Pvt.) Ltd., Karachi in its forthcoming meeting.

Case No. 08: NON-SUBMISSION OF METHOD OF TESTING OF SASTALKA LIQUID BY M/S. SWAT PHARMACEUTICALS, SAIDU SHARIF SWAT

FID I Peshawar has submitted a letter vide No. F. 3-20/2021-DRAP-4842 dated 16-12-2022 wherein he said that he received test report (Form-6) from the Federal Government Analyst, Central Drugs Laboratory with the following remarks;

- Sample could not be tested due to non-receipt of method of testing.

Details are:

Name of Product	Reg No.	Batch No.	Mfg. Date	Exp. Date	Claimed to be manufactured by	Report No. and Date	Remarks of CDL
Sastalka Liquid	003048	L017	06-21	06-23	M/s. Swat Pharmaceuticals, Saidu Sharif Swat.	IP.59/2021 dated 27-08-2021	Sample could not be tested due to non-receipt of method of testing.

FID also seek further course of action in such matters to finalize the case.

The case has been reviewed and a show cause has been issued to M/s. Swat Pharmaceuticals, Saidu Sharif Swat after approval from Chairman, Registration Board to explain the position vide F.No.13-27/2022-QC dated 14-03-2022. No reply received.

Firm has been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

No person appeared before the Board on behalf of M/s. Swat Pharmaceuticals, Swat. Therefore, to meet the ends of justice, the Board decided to give one final opportunity of personal hearing to management of M/s. Swat Pharmaceuticals, Swat in its forthcoming meeting.

Case No. 09: CASE REFERED BY PQCB, PUNJAB REGARDING SUBMISSION OF FAULTY METHOD OF ANALYSIS OF PRODUCT CIFEROL TABLET SUBMITTED BY M/S MEDISAVE PHARMACEUTICALS, LAHORE.

Assistant Director (Lic), vide letter No. F. 1-88/2005-Lic (Vol-I) dated 10-08-2021 forwarded the subject mentioned case to the division of QA&LT DRAP, Islamabad.

In the subject mentioned case, Secretary, PQCB, Punjab vide letter No. PQCB/F-DRAP/229/21 dated 15-03-2021 has submitted as under:

"Provincial Inspector of Drugs, Kot Khawaja Saeed Teaching Hospital Lahore vide letter no. 662 DI/MMS dated 20-1-2021 requested guidance regarding test/analysis of below mentioned drug, for which case was filed by DTL Lahore vide letter no.01-143004811/11919/DTL dated 13-08-2020.

Sr no	*DI Area*	*DTL Letter No. and Date*	*Manufacturer*	*Product Name & Batch No.*	*Mfg & Expiry Date*	*Reason*
1.	*Kot Khwaja Saeed Teaching Hospital, Lahore*	*01 14300481 1/11919/ DTL dated 1308-2020*	*Medisave Pharmaceuticals*	*Ciferol Tablet (70mg + 70mcg) (Alendronate Sodium & Cholecalciferol) Batch no. 20E158*	*05-20 & 05-22*	*Method of analysis Alendronate Sodium and Cholecalciferol is not aavailable in any compendia and Product specification mentioned on label is MS. But manufacturer method of assay is not working properly.*

2. As method Is not specific and does not give reproduceable results therefore, the case is being file / disposed of.

PROCEEDINGS & DECISION BY THE BOARD;

Subject issue was considered by the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 220 meeting held on 02-02-2021.

Secretary PQCB apprised the Board about background of the subject matter which was discussed at length. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specification and method of analysis to the Government analyst/Drug Testing Laboratories, as when required. Decided by Registration Board In its 290 Meeting held on 3 and 4 July 2019, disseminated vide letter No. F. No 3- 37/2019-QC (290RB) dated 26th September, 2019. The need for product specifications /method of analysis become more critical when the drug is not available in official pharmacopoeias and/or the manufacturer has its own customized specifications/method for analysis.

In continuation of the above firm provides the in-house method of subject drug. However. Government Analyst of DTL-Lahore found that the given method of firm is not workable (faulty) and under such circumstances It is not possible to analyse the sample and therefore the case is filed.

The Board expressed its serious concerns over casual behavior on the part of the firms in this regard. Furthermore, the Board decided to recommended the Drug Regulatory Authority of Pakistan (DRAP) Islamabda for cancellation of registration of the above-mentioend drug, in the best public interest."

Proceedings and Decision of 312th meeting:

The Board after thorough deliberations and considering the recommendations of Secretary, PQCB, Punjab decided as under:

i. Issue Show cause notice firm for cancellation /suspension of their registered product.

In compliance to the decision of 312th meeting of the Registration Board, the firm was issued show cause notice vide F.No.03-33/2021-QC (312-RB) dated 28-10-2021. Till date no reply has been received from the firm.

The representatives of the firm are called before the Board for personal hearing.

Proceedings and Decision of 313th meeting:

The firm was called for personal hearing but no one appeared before the Board. The Board decided to grant M/s. Medisave Pharmaceuticals Lahore one final opportunity of personal hearing before the Board in its forthcoming meeting.

The representatives of firm are called before the Board for personal hearing.

Proceedings and Decision of 320th meeting:

Mr. Tariq Mahmood (Plant Manager) appeared on behalf of M/s. Medisave Pharmaceuticals, Lahore and submitted that M/s. Medisave Pharmaceuticals Lahore has provided correct testing method to DTL Lahore and the same has already been communicated to PQCB Lahore also. The Board keeping in view the details of case as provided by Secretary PQCB Lahore and reply of the firm decided as under:

i. **Area FID Lahore to conduct sampling of product Ciferol Tablet 70mg + 70mcg (Alendronate Sodium & Cholecalciferol) for the purpose of test/analysis by CDL Karachi.**

ii. **The firm will provide method of testing along with reference standard to CDL Karachi for testing of said product.**

Case will be placed before Registration Board after receiving above report from CDL Karachi

Case No. 10: **STOCKS OF DRUGS SEIZED UNDER SECTION 18 (1) OF THE DRUGS ACT, 1976 - M/S, PAK RISEN PHARMACEUTICALS, HATTAR.**

FID-I Peshawar vide letter No. F. 3-20/2021-PakRisen-DRAP-3242 dated 12-08-2021 informed regarding the inspection of the firm M/s. Pak Risen Pharmaceuticals, Plot No. 3, Phase-I-II, Industrial Estate, Hattar on 06-08-2021 and has requested for the permission to continue the safe custody of seized stocks till the decision of case.

02. Details of stocks are given as under:

s. No.	Name of item	Reg. No.	B. No.	Mfg. date	Exp. date	Mfg. by	Qty.
1	Pakcezone 250mg inj	040388	DV-2I08	06/21	05/23	M/s Pak Risen Pharmaceuticals, Plot No. 3, Phase I II, Industrial Estate, Hattar.	1 Pack
2	Metrozine 100ml infusion alongwith Original Batch manufacturing record (36 pages)	040412	LV-2125	06/21	05/23	-do-	1 Pack
3	Metrozine 100ml Infusion alongwith Original Batch manufacturing record (36 pages)	040412	LV-21I0	03/21	02/23	-do-	1 Pack

02. The same was granted to FID-I Peshawar vide letter F. No. 13-43/2021-QC dated 21-10-2021. Furthermore, FID I Peshawar was instructed to provide complete investigation of case for further processing of the matter.

03. FID I Peshawar has submitted following reason to declare the sample of product Pakcezone 250 inj and Metrozine 100ml Infusion as misbranded product:

S. No.	Product name	Mfg date	Exp date	Mfg by	Reason to declare subject sample as Misbranded
1	Pakcezone 250mj Injection B. No. DV-2I08	06/21	05/23	M/s Pak Risen Pharmaceuticals, Plot No. 3, Phase I II, Industrial Estate, Hattar.	The product Pakcezone (Reg. No. 040388) is Ceftriaxone 250mg Injection while one side of packing (where MRP & Mfg. License No. is printed) bears Pakcezone Injection as 500mg.
2	Metrorize 100ml Infusion B. No. LV-2125	06/21	05/23	-do-	The batch record and all the documents indicate that product is manufactured in the month of July 2021 as mfg. date. However label bears manufacturing date as 06/2021. The record reveals that preprinted labels with old mfg. date i.e., 06/2021 were used and besides misbranded, its

					deliberate manipulation of documents and data integrity is deliberately breached.
3	Metrorize 100ml Infusion B. No. LV-2110	03/21	02/23	-do-	The batch record and all the documents indicate that product is manufactured in the month of April 2021 as mfg. date. However, label bears manufacturing date as 03/2021. The record reveals that preprinted labels with old mfg. date i.e., 03/2021 were used and besides misbranded, its deliberate manipulation of documents and data integrity is deliberately breached

03. FID I Peshawar vide letter No. 11-53/2005-PakRisen-DRAP 4690 dated 06-12-2021 submitted the complete case and recommended as under:

"Recommendations

Based on conclusion of the cases vide column 10 above, there is sufficient evidence to believe that the drug product namely;

1. *Packzone 250mg Injection (040388), Batch No. DV-2108 Mfg. date 06/21 and expiry date 05/23*
2. *Metrorize 100ml Infusion (040412), Batch No. LV-2125, Mfg. date 06/21 and expiry date 05/23 &*
3. *Metrorize 100ml Infusion (040412), Batch No. LV-2110, Mfg. date 03/21 and expiry date 02/23*

are misbranded under Section 3 (s)(iv) of the Drugs Act, 1976, prohibited under section 23(a)(iii) and is punishable under section 27(2)(b) of the Drugs Act, 1976 of the DRAP Act, 2012. The case of the firm regarding GMP noncompliance was discussed in 283rd meeting of Central Licensing Board (CLB). The board suspended the production of the firm and constituted three member's panel for the inspection of the firm for rectifications of reported GMP noncompliance (Annex-V). It is proposed that the direction may be issued to the firm for avoiding above referred violations and to submit CAPA in this regard, to be verified by already constituted panel by the CLB n its 283rd Meeting. In case, firm fails to comply and reported by the panel, matter may be treated under the above referred provisions of the Drugs Act, 1976/ DRAP Act, 2012."

04. in the light of investigations of the FID-I Peshawar, show-cause notice was issued accordingly to following:

i) M/s. Pak risen Pharmaceuticals, Plot No. 3, Block B, Phase I-II, Industrial Estate, Hattar through its Proprietor

ii) Sabir Khan S/o Nannay Khan (Proprietor), M/s. Pak risen Pharmaceuticals, Plot No. 3, Block B, Phase I-II, Industrial Estate, Hattar.

05. In response to the show cause notice issued to the management of firm, reply received is given as under:

> *"It is stated with great concern that we have received Show cause NoticefF.No.13-43/2021- QC) on dated 8th Feb 2022 regarding sales of Misbranded Drugs.*
>
> *Dear Sir, we have gone through this case (sample seized by the Honorable FID) in detail and conducted a proper and deep investigation and we found a conclusion that at the time of Honorable FID Sir's inspection the collection of seized sample were done by our store attendant (non technical) as responsible technical persons were accompanying the honorable FID in inspection at that situation of stampede as finished goods store & other storage places & areas were empty (as wittiness by the FID) those samples were collected from controlled shelf of Q.C retain sample room where we use to keep misprinted and faulty/rejected stuff (one sample each) just to study and training of our Q.A/Q.C Staff & Those samples were not to be meant for market dispatch/ For sale by any means at all.*
>
> *The actual position is that the Batch of Pakcezone 250mg Batch # DV-2108 sent to market for sale was truly proof readed and checked and then released. The false/misprinted was caught at the spot and was discrded in the presence of QC staff. The production department was intimated on time.*
>
> *In addition to that in Ser.No.2 & Ser.No.3 Metrorise Case (Batch # LV-2125, LV-2110) we have not increased rather decreased their expiry by one month because of the shortage of labels and extreme demand in market, in effort not to effect market demand (human health) and customer's need for their patients we did So, but honorable FID has recognized us that it's too against the law so, we assure you/him that we will not repeat this practice in future again.*
>
> *Moreover we have written about all the in-questioned (Claimed Misbranded) Products to our sole distributor Lyall Pur Pharma (Detail Enclosed) just on FID's Direction and advice for their recall But we are informed that they have zero stock of these Products.*
>
> *Still we apologizes you for this staff negligence work. We expect and request you for not being harsh and show a kind response please."*

06. The accused are called before the Board for personal hearing.

Proceedings and Decision of 320th meeting:

No person appeared before the Board on behalf of M/s. Pak Risen Pharmaceuticals, Hattar. Therefore, to meet the ends of justice, the Board decided to give one final opportunity of personal hearing to management of M/s. Pak Risen Pharmaceuticals Hattar in its forthcoming meeting.

AGENDA ITEM NO. II: APPELLATE TESTING CASES

Case No. 11: **SUBSTANDARD MECONOR INJECTION MANUFACTURED BY M/S. NORTECH PHARMACEUTICALS (PVT.) LTD., ISLAMABAD.**

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(I)/2021-CDL/S-803 dated 02-07-2021 it was informed that the sample of product "MecoNor Injection" Batch No. A-003 (Mfg. date 11-2020, Exp date 10-2022) sent to CDL Karachi by FID-I Islamabad has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Reddish pink coloured solution in amber glass ampoule.	Complies	Mfg. Specs.
2.	Identification	The identification test must identify Mecobalamin.	Complies	Mfg. Specs.
3.	pH	5.5 to 6.5	**4.98** **Does not comply**	Mfg. Specs.
4.	Bacterial Sterility	Must be sterile	Complies	BP 2020
5.	**Assay.** Mecobalamin. (Label claim 500mcg/ampoule)	92.5% to 108.5%	106.2% Complies	Mfg. Specs.

02. FID-I Islamabad vide letter No. F. 3-4/2011-FID-I dated 23-09-2021 forwarded the request of M/s. Nortech Pharmaceuticals (Pvt.) Ltd., Islamabad dated 15-09-2021 for appellate testing of their sample of product namely "MecoNor Injection" batch No. A-003 declared substandard by CDL Karachi on 02-07-2021 (Report received by firm on 07-09-2021).

03. It is submitted the Registration Board in its 313th meeting decided as under:

*"**Proceedings and Decision of 313th Meeting of Registration Board.***

The Board after thorough deliberations and considering the facts of the case decided as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.

ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.

iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case."

04. Therefore, in the light of decision of Registration Board, a letter vide No. F. 03-27/2021-QC dated 22-12-2022 was issued to M/s. NorTech Pharmaceuticals (Pvt.) Ltd., Islamabad for submission of OOS investigation and complete testing record of the concerned batch of product MecoNor Injection along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976 and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(I)/2021-CDL-S-803 dated 02-07-2021.

Technical evaluation of OOS report by QC section:

05. M/s. NorTech Pharmaceuticals Islamabad vide letter dated 03-01-2022 provided OOS investigation wherein they submitted the following:

- Testing method for pH of injection MecoNor (Mecobalamin) is non-pharmacopeial and the same was provided to CDL Karachi 23-06-2021.
- CDL Karachi concluded the test report while referring the controlled limits 5.5-6.5 of pH instead to limits provided by the firm i.e. 5.0-7.0.

06. However, on evaluation of the OOS report provided by the firm, it was observed that in Analysis report (Finished product) dated 24-12-2020, the pH of the batch in question of product Meconor injection was found to be 6.00 whereas in Analysis report (Finished product) dated 07-09-2021, the pH was found to be 5.7.

07. It seems that product is not stable as evident from the variation of more than ±0.1 in pH values as determined by the manufacturer itself.

Proceedings and Decision of 320th meeting:

The OOS investigation submitted by the firm and CDL Karachi were placed before the Board. The Board after thorough discussion and evaluation of the provided OOS investigation reports decided to accede with the request of M/s. Nortech Pharmaceuticals Islamabad to perform appellate test/analysis of Board's portion of sample for parameters that have been reported out of specifications (i.e. pH) by CDL Karachi of their product Meconr Injection Batch No. A-003 from NIH Islamabad.

Case No. 12: **MANUFACTURE AND SALE OF SUBSTANDARD REM-D 100MG/20ML IV INFUSION MANUFACTURED BY M/S. LIVEN PHARMACEUTICALS, KASUR.**

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(LHR)/2021-CDL/S-1304 dated 03-11-2021 wherein it was informed that the sample of product "REM-D Infusion (Remdesivir 100mg/20ml)" Batch No. RD109 (Mfg. date 09-2021, Exp date 09-2022) sent to CDL Karachi by FID-II Lahore has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Clear, colorless solution in glass vial	Complies	Innovator's Specs.
2.	Identification	The identification test must identify Remdisivir	Complies	Innovator's Specs.
3.	pH	3.0 to 4.0	4.0 Complies	
4.	Bacterial Sterility	Must be sterile	**Does not comply**	Innovators Specs.
5.	Bacterial Endotoxin	Not more than 1.0 E.U per mg	Complies	USP 43
6.	**Assay** Remdesivir, (Label claim 5mg/ml)	90.0% to 110.0%	97.4% Complies	USP 43 Innovator's Specs.

02. FID-II Lahore vide letter No. 17406/2021-DRAP(L-II) dated 19-11-201 forwarded the request of M/s. Liven Pharmaceuticals Kasur dated 05-11-2021 for appellate testing of Board's portion of sample of their product namely "REM-D Infusion" batch No. RD109 declared substandard by CDL Karachi on 03-11-2021.

03. It is submitted the Registration Board in its 313th meeting decided as under:

"Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided as:

i. *The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.*
ii. *Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.*
iii. *Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case."*

04. In the light of decision of Registration Board, a letter vide No. F. 03-42/2021-QC dated 23-12-2021 was issued to M/s. Liven Pharmaceuticals Kasur for submission of OOS investigation and complete testing record of the concerned batch of product REM-D Infusion along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976 and to Federal Government Analyst CDL Karachi for submission of OOS

investigation and complete testing record of report vide No. F. 5-3(LHR)/2021-CDL-S-1304 dated 03-11-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Liven Pharmaceuticals Kasur vide letter dated 29-12-2021 provided OOS investigation repot of their product REM-D Infusion (Batch No. RD109). On evaluation of OOS investigation provided by Firm and CDL it was observed that CDL Karachi has performed Sterility testing as per USP 43. USP 43 method advises to use 2% or 20 (Whichever is less) containers if batch size is more than 500 units. The batch size of product is question is 1000 units. However, the firm has not provided the reference of method for sterility testing and has not provided the information regarding the numbers of units used for sterility testing.

Proceedings and Decision of 320th meeting:

The OOS investigation submitted by the firm and CDL Karachi were placed before the Board. The Board after thorough discussion and evaluation of the provided OOS investigation reports concluded that the firm is conducting bacterial sterility of the products on a non-pharmacopoeial method which is not validated therefore, the Board did not acceded the firm's request of appellate testing and decided to issue show cause notice for suspension/cancellation of the product namely Rem-D 100mg/20ml infusion manufactured by M/s. Liven Pharmaceuticals Kasur and call them for personal hearing before Registration Board in its forthcoming meeting.

Additional Agenda:

ii. Albumin bound Paclitaxel Injection
iii. Heparin and Enoxaprin Injection

PE&R and BE&R Divisions are advised to process the cases of abovementioned drugs without waiting for formal approval of minutes.

A: Paracetamol:

Applications submitted on Form 5:

1.	Name and address of manufacturer/ Applicant	Quaper Pvt.Ltd.,26-A small Industrial Estate, Lahore road, Sargodha.
	Brand Name + Dosage Form + Strength	Q-DOL CF TABLET
	Composition	Each Tablet Contains: Paracetamol…….…….500 mg Pseudoephedrine HCl……60 mg Chlorpheniramine Maleate…….4 mg
	Diary No. Date of R & I & fee	Dy. No 11792 dated 06-03-2019; Rs.20,000/- dated 06-03-2019.
	Pharmacological Group	NSAID, Antihistamine, Decongestant
	Type of Form	Form-5
	Finished product Specification	BP
	Pack size & Demanded Price	10*10's, As per SRO
	Approval status of product in Reference Regulatory Authorities	Not Confirmed
	Me-too status	Panadol CF Tablet by GSK (Reg# 013113)
	GMP status	Firm was granted GMP certificate dated 19-06-2019 on the basis of GMP inspection conducted on 28-01-2019 for Tablet (General). Panel inspection of firm for grant of additional sections was also conducted on 16-06-2020 & 18-06-2020 and firm was recommended for grant of following additional sections as per approved layout plan: 1. Tablet (General) section 2. Capsule (general) section 3. R&D laboratory 4. Sachet (general)

	Remarks of the Evaluator	Deficiency letter was issued to the firm and asked to provide evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.	Firm has submitted reply vide dairy No 22716 dated 11-08-2022 for standardization of their formulation and submitted revised Form-5 along with master formulation and outline of manufacturing method with revised label claim as under: Each Tablet Contains: Paracetamol……500 mg (B.P Specification) Me Too: Paracetamol 500mg tablet of M/s Siza, (Reg# 008731) RRA: MHRA Approved
	Decision: Approved. Registration Board further decided that registration letter will be issued after submission of applicable fee that is Rs. 30,000/- for revision of formulation as per reference product as per notification No.F.7-11/2021-B&A/DRAP dated 07-05-2021.		
2.	Name and address of manufacturer / Applicant	M/s Radiant Pharma Pvt Ltd. 43-E, Sundar Industrial Estate, Lahore	
	Brand Name +Dosage Form + Strength	Molpa 665mg Tablet	
	Diary No. Date of R& I & fee	Form-**5D** Dy.No 16118 dated 07-03-2019 Rs.50,000/- dated 07-03-2019	
	Composition	Each XR Film Coated Tablet Contains: Paracetamol…665mg	
	Pharmacological Group	Analgesics and antipyretics anilide Paracetamol (Acetaminophen) ATC code: N02B E01	
	Form	Form-5D	
	Finished product Specifications	USP	
	Pack size & Demanded Price	14, 28, 56, 98's As per SRO	
	Approval status of product in Reference Regulatory Authorities	Paracetamol 665mg MR tablet (approved by TGA of Australia)	
	Me-too status	Panadol Extend by GSK (097070)	
	GMP status	GMP certificate dated 31-07-2018 Valid till 2 years	
	Remarks of the Evaluator.	stability data is needed	
	Decision: Deferred for submission stability study data as per the guidelines provided by the Board in its 293rd meeting.		
3.	Name and address of manufacturer / Applicant	M/s Neutro Pharma (Pvt) Ltd. Sheikhupura Road,Lahore	
	Brand Name +Dosage Form + Strength	Molta Injection 300mg/2ml	
	Diary No. Date of R& I & fee	Form-5 Dy.No 13992 dated 07-03-2019 Rs.20,000/- dated 07-03-2019

	Pharmacological Group	Analgesics and antipyretics anilide Paracetamol (Acetaminophen) ATC code: N02B E01
	Form	Form-5
	Finished product Specifications	Neutro Specifications
	Pack size & Demanded Price	2 ml glass ampoule 5's As SRO
	Approval status of product in Reference Regulatory Authorities	Paracare by M/S Advacare Pharma (USFDA) (Not verifiable from USFDA site)
	Me-too status	Panum injection by M/S English pharma (040140)
	GMP status	GMP certificate dated 14-04-2022 valid till 2 year
	Remarks of the Evaluator.	RRA not verified
	Decision: Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board	
4.	Name and address of manufacturer / Applicant	M/s Neutro Pharma (Pvt) Ltd. Sheikhupura Road, Lahore
	Brand Name +Dosage Form + Strength	Molta Tablets 665mg
	Diary No. Date of R& I & fee	Dy.No 13997 dated 07-03-2019 Rs.50,000/- dated 07-03-2019
	Composition	Each XR Film Coated Tablet Contains: Paracetamol…665mg
	Pharmacological Group	Analgesics and antipyretics anilide Paracetamol (Acetaminophen) ATC code: N02B E01
	Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	14, 28, 56, 98's As per SRO
	Approval status of product in Reference Regulatory Authorities	Paracetamol 665mg MR tablet (approved by TGA of Australia)
	Me-too status	Panadol Extend by GSK (097070)
	GMP status	GMP certificate dated 14-04-2022 valid till 2 year
	Remarks of the Evaluator.	stability data is needed
	Decision: Deferred for submission stability study data as per the guidelines provided by the Board in its 293rd meeting.	
5.	Name and address of manufacturer / Applicant	M/s GT Pharma Pvt Ltd. 23km, Raiwind Road, Lahore
	Brand Name +Dosage Form + Strength	Paramol 1000mg Injection
	Diary No. Date of R& I & fee	Form-5 Dy.No 15050 dated 07-03-2019 Rs.20,000 dated 07-03-2019
	Composition	Each 100ml Vial Contains: Paracetamol … 1000mg / 100ml Vial (10mg /ml)
	Pharmacological Group	Analgesics and antipyretics anilide Paracetamol (Acetaminophen) ATC code: N02B E01
	Form	Form-5
	Finished product Specifications	GT Specifications

	Pack size & Demanded Price	1's As per SRO (Glass vial with stopper)
	Approval status of product in Reference Regulatory Authorities	Paracetamol 10mg/ml Solution for Infusion of MHRA approved
	Me-too status	Paedal Infusion of M/S Regal Pharmaceutical (082000)
	GMP status	GMP certificate dated 13-10-2021 valid till 2 years
	Remarks of the Evaluator.	Liquid injectable liquid ampoule section present
	Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of applicable fee of Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021	
6.	Name and address of manufacturer / Applicant	M/s Amros Pharmaceuticals A-96, S.I.T.E, Super Highway, Karachi
	Brand Name +Dosage Form + Strength	Amrocetal Infusion 1000mg/100ml
	Diary No. Date of R& I & fee	Form-5 Dy.No 15369 dated 07-03-2019 Rs.20,000/- dated 07-03-2019
	Composition	Each 100ml Contains: Paracetamol…1000mg
	Pharmacological Group	Analgesics and antipyretics anilide Paracetamol (Acetaminophen) ATC code: N02B E01
	Form	Form-5
	Finished product Specifications	Manufacturer specifications
	Pack size & Demanded Price	3x10's As per SRO 100 ml glass vial with Bromo butyl stopper
	Approval status of product in Reference Regulatory Authorities	Paracetamol 10mg/ml Solution for Infusion of MHRA approved (100 ml glass vial with Bromo butyl stopper)
	Me-too status	Paedal Infusion of M/S Regal Pharmaceutical (082000)
	GMP status	13-10-2020 GMP certificate valid till 2 year is provided section available are • injectable section (general and cephalosporin) • injectable section (Veterinary)
	Remarks of the Evaluator.	injectable section (general and cephalosporin) present
	Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of applicable fee of Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021	

Applications Submitted on Form 5F:

7.	Name, address of Applicant / Marketing Authorization Holder	M/s British Pharmaceuticals. 23-Km Sheikhupura Road, Lahore
	Name, address of Manufacturing site.	M/s British Pharmaceuticals. 23-Km Sheikhupura Road, Lahore

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

Manufacturing Date	04-2021	04-2021	04-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	• --
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of certificate of Good Manufacturing Practices (GMP) issued by Hebei Food and Drug Administration. (valid till 08-07-2023).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record, analytical record
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Section #.	Deficiencies
3.2.S.4	• Drug substance analytical method verification studies shall be submitted by M/s British pharmaceuticals.
3.2.P.1	Drug product description declares it as film coated tablet whereas submitted composition is for uncoated tablet.
3.2.P.2.2.1	Clarification shall be submitted for reporting f2 factor value as 100 for CDP studies in three dissolution mediums of pH 1.2,4.5 & 6.8.
3.2.P.5.3	Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.
3.2.P.8.3	• Document for the procurement of drug substance shall be submitted. • Complete analytical record for the performance of dissolution test during stability studies shall be submitted. • Complete raw data sheets wherein details of sample solution preparation, standard solution preparation, weight of standard & sample and calculation formula applied for the test Assay & Dissolution test shall be submitted for complete stability studies.

Decision: Deferred for;

- **Submission of drug substance analytical method verification studies by M/s British pharmaceuticals.**
- **Clarification since drug product description declares it as film coated tablet whereas submitted composition is for uncoated tablet.**
- **Clarification shall be submitted for reporting f2 factor value as 100 for CDP studies in three dissolution mediums of pH 1.2,4.5 & 6.8.**
- **Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.**
- **Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.**
- **Submission of document for the procurement of drug substance shall be submitted.**
- **Submission of complete analytical record for the performance of dissolution test during stability studies.**
- **Submission of complete raw data sheets wherein details of sample solution preparation, standard solution preparation, weight of standard & sample and calculation formula applied for the test Assay & Dissolution test for complete stability studies.**

13.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product for Estine (Ebastine) Tablets 10mg & 20mg on 6th May, 2019. Further, the said panel inspection report was discussed in 289th Drug Registration Board meeting held on 14th – 16th May 2019. The

<table>
<tr><td></td><td></td><td>case was approved and the inspection report confirms following points:
The HPLC software is 21CFR Compliant as per record available with the firm.
Audit trail on the testing reports is available.
Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
Related manufacturing area, equipment, personnel and utilities are GMP compliant.</td></tr>
<tr><td>14.</td><td>Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.</td><td>Firm has submitted copy of certificate of Good Manufacturing Practices (GMP) issued by Hebei Food and Drug Administration. (valid till 08-07-2023).</td></tr>
<tr><td>15.</td><td>Documents for the procurement of API with approval from DRAP (in case of import).</td><td>Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.
<table>
<tr><th>Batch No.</th><th>Invoice No.</th><th>Quantity Imported</th><th>Date of approval by DRAP</th></tr>
<tr><td>31909052</td><td>1909ZP24</td><td>500kg</td><td>25-10-2019</td></tr>
</table></td></tr>
<tr><td>16.</td><td>Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.</td><td>Firm has submitted data of stability batches along with batch manufacturing record, analytical record and attested documents like chromatograms, Raw data sheets, COA, summary data sheets etc.</td></tr>
<tr><td>17.</td><td>Compliance Record of HPLC software 21CFR & audit trail reports on product testing</td><td>Firm has submitted compliance certificate of HPLC software and audit trail reports on product testing.</td></tr>
<tr><td>18.</td><td>Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)</td><td>Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)</td></tr>
<tr><td colspan="3">Remarks of Evaluator:
<table>
<tr><th>Section #.</th><th>Deficiencies</th><th>Firm’s response</th></tr>
<tr><td>3.2.S.4</td><td>Chromatographic conditions for the performance of Assay test, in the analytical procedure submitted from drug substance manufacturer, are different form that recommended by USP monograph of “Acetaminophen”.
Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for shall be submitted.</td><td>This is to bring to your kind attention that API manufacturer has made minor adjustment in the test procedure for Assay as described in USP monograph. The adjustment is made to make analytical method simpler and efficient. The analytical method is further validated that confirms that proposed method is suitable for intended use. Moreover, M/s Getz Pharma has developed test procedure for Acetaminophen in accordance with USP monograph and Analytical Method Verification studies have been performed accordingly.

Please refer to Annex 1 for Analytical Method Verification studies including specificity, linearity, repeatability and range performed by the Drug Product manufacturer.</td></tr>
</table></td></tr>
</table>

		This is to bring to your kind attention that we have used 100% API without any placebo in Analytical Method Verification Studies of Acetaminophen; therefore, requirement of accuracy is not applicable. Further, we have performed linearity to check area response of the sample as the concentration of the sample raised within working range of sample i.e., 50% - 150%.
3.2.S.5	COA of reference/working standard shall be submitted, used for the analysis of drug substance by M/s Getz pharma.	COA of reference/working standard used for the analysis of drug substance by M/s Getz Pharma has been submitted.
3.2.P.5	Submitted drug product specifications refer to USP, whereas the analytical procedure for Assay test is not as per USP monograph of "Acetaminophen tablets". Justification shall be submitted in this regard. Analytical method verification studies are not for the Assay method as recommended by USP monograph of "Acetaminophen tablets".	This is to inform you that the concentration of standard and sample solution preparation are exactly same as recommended in USP monograph of "Acetaminophen Tablets. However, we have modified chromatographic conditions for Assay method using chromatographic conditions for Related Substances since USP allows the use of alternate methods like in case of ease of testing. Therefore, we have adopted different chromatographic condition for Assay method. Further we have completely validated said Assay method and found to be accurate and precise that will produce equivalent results as USP. • In contrary to the claim of firm the alternate method adopted for Assay test is not as per method of related substances.
3.2.P.8.3	Assay test in the submitted stability studies have not been conducted as per analytical procedure recommended by "Acetaminophen tablets". Justification shall be submitted in this regard.	This is to inform you that for stability studies we have followed different Assay method from USP as discussed in point 3.2.P.5. Further, we have completely validated said Assay method and found to be accurate and precise that will produce equivalent results as USP.

Decision: The Board Deferred the case for scientific justification for performing assay testing during the stability studies using a different method than described by USP.

	Name and address of API manufacturer.	**Zenith chemical Industry Lahore** 16 km off Ferozpur Road, behind Wapda Grid Station 1 KM of Chandra Road, Lahore
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, impurity testing for impurity A-G, analytical procedure and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 75% ± 5%RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months B: P11-001, P11-002, P11-003
	Module-III (Drug Product):	The official monograph of the applied product is present in B.P. The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Panadol 500mg tablet by GSK Pharma by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form) (B:PPXI). CDP has been performed against the same brand that is Panadol 500mg Tablet by Fahmir Pharma in 0.1N HCl, Acetate buffer (4.5pH) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range (B:PPXI).

	Analytical method validation/verification of product	Method validation studies are submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s Zenith chemical Industry Lahore 16 km off Ferozpur Road, behind Wapda Grid Station 1 KM of Chandra Road, Lahore		
API Lot No.	ZPAR20-350		
Description of Pack (Container closure system)	Alu-Pvc blister packed in unit carton (1×10's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	Trail -1	Trail -2	Trail -3
Batch Size	1000 tab	1000 tab	1000 tab
Manufacturing Date	09-2021	09-2021	09-2021
Date of Initiation	08-09-2021	09-09-2021	10-09-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 141/2019-DRAP (AD-813875-228 issued by DRAP valid till 16-12-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Invoice No. 00011/0321 dated 05/03/2021 is submitted (Local)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The assay is performed by UV method as per BP.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Sr. No.	Observations	Response
1	Provide 6 months stability study data (Accelerated and Real time) according to the conditions of zone IV_A since 3 months data is submitted.	

2	Analytical method verification studies for drug substance performed by drug product manufacturer.	
3	The submitted process validation documents describe the process of film coating while the applied product is uncoated, please clarify. Moreover, as per the BMR provided in the submitted dossier, the applied product is film coated while as per the manufacturing method and master formula no step of film coating is involved.	
4	Please submit compatibility of excipients with the drug substance.	
5	Provide record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	
6	GMP certificate / Last inspection report of finished product manufacturer is required.	

Decision: Deferred for;

- **Submission of 6 month stability study data (Accelerated and Real time) according to the conditions of zone IV_A since 3 months data is submitted.**
- **Submission of analytical method verification studies for drug substance performed by drug product manufacturer.**
- **Clarification since the submitted process validation documents describe the process of film coating while the applied product is uncoated, please clarify. Moreover, as per the BMR provided in the submitted dossier, the applied product is film coated while as per the manufacturing method and master formula no step of film coating is involved.**
- **Submission of compatibility of excipients with the drug substance.**
- **Submission of record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).**
- **Submission of GMP certificate / Last inspection report of finished product manufacturer is required.**

11.	Name, address of Applicant / Marketing Authorization Holder	M/s Reliance Pharma Plot # 8, Street No. S-8, RCCI, Industrial Estate, Rawat Islamabad-Pakistan
	Name, address of Manufacturing site.	M/s Vision Pharmaceuticals (Pvt) Ltd Plot # 22-23, Industrial Triangle, Kahuta Road, Islamabad"
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.10339 dated 22/04/2022
	Details of fee submitted	PKR 75,000/-: dated 30/03/2022
	The proposed proprietary name / brand name	Relimol Infusion

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml Contains: Paracetamol …1000mg
	Pharmaceutical form of applied drug	Clear and colorless liquid filled in clear and colorless glass vials.
	Pharmacotherapeutic Group of (API)	Analgesics and antipyretics
	Reference to Finished product specifications	Innovator Specifications
	Proposed Pack size	1 glassVial (100ml)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Acetaminophen 1g/100ml Infusion by Baxter Healthcare Coporation (United states), FDA Approved.
	For generic drugs (me-too status)	Provas Infusion by Sami Pharmaceuticals (Pvt) Ltd. Reg No: 053223
	GMP status of the Finished product manufacturer	GMP certificate valid till 10/02/2022 New license Applied on 22/12/2021.
	Name and address of API manufacturer.	M/s HEBEI JIHENG PHARMACEUTICAL CO., LTD. No.1 Weiwu Street Industrial Park Hengshui City, Hebei Province, 053000 China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time 60months : 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated 6 months: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (011608001, 011608002 & 011608003)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (Liquid particle count) and its verification studies, batch analysis and justification of specification, reference standard,

		container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been established against the reference product OFIRMEV Infusion by Mallinckrodt Pharmaceuticals. Batch No 1019689 by performing quality tests (Physical appearance, pH, Liquid Particle count, Percent assay). CDP is not applicable
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	**M/s HEBEI JIHENG PHARMACEUTICAL CO., LTD.** No.1 Weiwu Street Industrial Park Hengshui City, Hebei Province, 053000 China.

No. of Batches	03		

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.

Administrative Portion

19.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A

20.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of drug production license certificate No. JI20150076 issued by Hebei Drug Administration valid till 30/08/2025 has been submitted.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of clearance certificate dated 31-05-2018 is submitted .
22.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
23.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted.
24.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
REMARKS OF EVALUATOR		

Sr. No.	Section	Observations/ Deficiencies	Response submitted by Firm and Evaluation
1	1.4.3	• Provide notarized copy of contract manufacturing agreement • Provide documents confirming number of approved sections of the applicant (DML holder) • Provide details of already registered drug products of contact giver on contract manufacturing,	• Notarized copy of Contact manufacturing agreement. Copy of agreement • Section approval letter of Applicant (DML holder) 4 sections • List of already registered drug products of contact giver on contract manufacturing. 6 Products
2	2.3.S.3.1	• Submit conclusion from the list of studies performed (e.g IR, UV, NMR, MS, Elemental analysis.)	• Based on the analysis of the Paracetamol samples produced in Hebei Jiheng Pharmaceutical Co. Ltd. , and with the comparison to results of the Paracetamol EP CRS (Batch No.: 4.1), we confirm that Paracetamol sample matches the chemical structure below,  which is defined as the structure of Paracetamol in EUR. Ph. 8. The crystal form of the product is identical with EP CRS Lot 4.1. the summary is provided in **ANNEXURE 2.**
3	2.3.S.4.4	• Submit discussion and justification for any incomplete	• Complete testing is performed and revised COA is attached in **ANNEXURE 3**

		analysis of the drug substance/API by drug product manufacturer. • The COA of API of DP manufacturer mentions reference of API manufacturer both USP and BP.	Evaluation The COA mentions supplier/manufacturer as M/s Global pharmaceuticals. • We use BP specification as reference for testing; USP was only referred for verification purpose.
4	2.3.P.1	• The quantity of API per unit is 1020mg per 100ml whereas the applied strength is 1000mg/100ml. clarification is required with respect to composition of FPP.	• As per Standard for fill volume we go for the upper limit therefore the fill volume of paracetamol infusion is 102ml for which we use 1020mg of paracetamol API. Evaluation Submit scientific rationale for batch formula. The BMR mentions the Quantity of API 1000mg/100ml. Potency adjustment has not been done.
5	2.3.P.2.2.1	The pharmaceutical equivalence studies of applied formulation is with Orfimex 100ml infusion whose marketing status is discontinued as per USFDA database.	As we have already approved paracetamol infusion Brand Name: ACETAMOL 100ml INFUSION- manufacturer Vision Pharmaceuticals Pvt. Ltd. We will submit pharmaceutical equivalence with Brand leader as soon as possible.
6	2.3.P.5.1	The specification of drug Product does not include the test of osmolality which has been both determined by innovator and generic product the pH of both generic and innovator product is between 5 – 7 whereas your claimed specification are pH 4 – 7.	We have now included the test for osmolality in our standard analytical procedures. The revised standard analytical procedure and COA is attached in **ANNEXURE 4**
7	2.3.P.5.6	Provide justification of specification of all the tests specified in section 2.3.P.5.1	Specification of product is as per Innovator specs.
8	3.2.S.4.2	Detailed analytical procedures for testing of drug substance shall be provided by the drug product manufacturer for API.	A detailed analytical procedure for testing of drug substance by the drug product manufacturer for API has been provided.
9	3.2.S.4.3	Analytical method verification studies including specificity, Accuracy and repeatability (method precision) performed by the drug product manufacturer shall be submitted for API.	Analytical method verification studies including specificity, Accuracy and repeatability (method precision) performed by the drug product manufacturer for API has been provided.
10.	3.2.S.4.4	A discussion and justification shall be provided for any incomplete analysis of the drug substance/ API by drug product manufacturer.	• Complete testing is performed and revised COA has been submitted. • We use BP specification as reference for testing; USP was only referred for verification purpose.
Decision: Deferred for; • **Justification for not performing pharmaceutical equivalence against the reference / innovator's product.**			

	• **Clarification regarding the specification of drug Product does not include the test of osmolality which has been both determined by innovator and generic product the pH of both generic and innovator product is between 5 – 7 whereas your claimed specification are pH 4 – 7.** • **Clarification since potency adjustment has not been made.** • **Submission scientific rationale for submitted batch formula.**	
12.	Name, address of Applicant / Marketing Authorization Holder	M/s. Saibins Pharmaceuticals, Islamabad. **Office Address:** House No.697 Street No.70 Sector I-8/3 Islamabad. **Factory Address:** Plot # No 316 Industrial Triangle Kahuta Road Islamabad.
	Name, address of Manufacturing site.	M/s Hamaz Pharmaceuticals (Pvt) Ltd. 13-KM Lutfabad, Bosan Road, Multan.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 8314 dated 30/03/2022
	Details of fee submitted	PKR 75,000/-: dated 22/10/2021
	The proposed proprietary name / brand name	Saimol Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml contains: Paracetamol ….1gm
	Pharmaceutical form of applied drug	Solution for infusion
	Pharmacotherapeutic Group of (API)	other analgesics and antipyretics, ATC Code: N02BE01
	Reference to Finished product specifications	Innovator Specifications
	Proposed Pack size	1’s, 10’s or 20’s
	Proposed unit price	Glass vial,As per SRO
	The status in reference regulatory authorities	Paracetamol …. NASID (Acetaminophen) Reference: USFDA,Reference ID: 3839318
	For generic drugs (me-too status)	Bofalgan 1g/100ml Infusion M/s Bosch Pharmaceuticals
	GMP status of the Finished product manufacturer	Last GMP inspection conducted on 13-04-2021, and the report concludes that “All the observations pointed out during inspection were discussed with the management of the firm and they were committed to overcome before next periodic inspection. Based on the above observations and keeping in view their attitude for better compliance, their current compliance level is rated as Good.”

	Name and address of API manufacturer.	M/s. Pharmagen Limited, Kot Nabi Bukshwala, 34 KM Ferozepur Road, Lal
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches:Lab.Exp.001/2016,lab.Exp.002/2016, Lab.Exp.003/2016
	Module-III (Drug Product):	The firm has submitted detail of manufacturer, description of manufacturing process and controls, specifications, analytical procedure batch analysis,container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Bofalgan Infusion 1g by Bosch pharmaceuticals performing quality tests (pH, Assay, Uniformity of dosage form).
	Analytical method validation/verification of product	Complete validation studies have not been performed.

STABILITY STUDY DATA

Manufacturer of API	M/s. Pharmagen Limited, Kot Nabi Bukshwala, 34 KM Ferozepur Road, Lahore.
API Lot No.	5301-20-029
Description of Pack (Container closure system)	100 ml Type II colorless glass vial with bromobutyl stopper and an aluminum cap
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 36 months Accelerated: 12 months
Frequency	Real Time: 0, 3,6,9,12,18,24months (Completed) Accelerated: 0, 1,2,3,4,5,6,12 months (Completed)

Batch No.	ET901	ET902	ET903
Batch Size	2500vials	2500vials	2500vials
Manufacturing Date	07.03.2019	12.03.2019	16.03.2019
Date of Initiation	13.05.2019	13.05.2019	13.05.2019
No. of Batches	03		

Administrative Portion

25.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted
26.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	GMP certificate No. 06/2019-DRAP (AD/607409-530) issued by DRAP.
27.	Documents for the procurement of API with approval from DRAP (in case of import).	• Local Manufacturer
28.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Analytical method is on HPLC supporting data is of UV.
29.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
30.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.4.3.	➢ Provide notarized copy of Contract manufacturing agreement. ➢ Provide documents confirming number of approved sections of the applicant (DML holder) and evidence of SVP section. ➢ Provide details of already registered drug products of contract giver on contract manufacturing.
	MODULE II	Correct all relevant details as mentioned in module III.
2.	3.2.S.3.2	Submit list of Drug Substance / API-related impurities and process-related impurities shall be submitted along with acceptance limits.
3.	3.2.S.4.2	Detailed analytical procedures for the testing of drug substance shall be provided by Drug product manufacture for API.
4.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer shall be submitted for API.
5.	3.2.S.4.4	A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer. Submit reference for Specifications of API tested by FPP manufacturer.
6.	3.2.S.4.5	Submit justification of specifications.
7.	3.2.S.7 Stability	The stability testing of API does not include all the tests of BP. The test of LOD has been changed to water content in specification as mentioned in 3.2.S.7.1. Justification is required with respect to incomplete testing of API.
8.	3.2.P.1	The quantity of the ingredients used in the applied formulation vary vastly from innovator i.e. 3850 mg mannitol has been used in the innovator

		product whereas, your formulation has 76.6 mg. Justification is required with respect to quantitative composition.
9.	3.2.P.2.3	Submit discussion of the parameters relevant to the performance of the Drug Product (e.g. pH, ionic strength, dissolution, particle size distribution, polymorphism, rheological properties).
10.	3.2.P.3.2	The batch formula mentioned in section 3.2.P.3.2 is different then 3.2.P.2.2.1 and BMR submitted in section 2.3.R.1.1.
11.	3.2.P.3.3	The manufacturing process does not mention the filtration step. Clarification is required.
12.	3.2.P.3.5	Submit process validation report for commercial batches.
13.	3.2.P.5.1	The specification does not include tests for extractable volume, osmolality and dissolved oxygen as paracetamol is known to be unstable in the presence of oxygen.(Apotel 10 mg/ml PAR) Submit acceptance criteria for all the tests of specifications as you have mentioned "should meet the requirements'. The pH of FDA innovator product is approximately 5.5 and generic product is pH 4.5 – 6.0 whereas, your limit is 3-7.5 .Justification is required. The range of assay is 100%-103%. Justifications is required.
14.	3.2.P.4.3	Analytical method validation should include all the steps of validation as only accuracy,linearity and precision has been discussed.
15.	3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.
16.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided.
17.	3.2.P.8.3	Submit stability data as per DRAP CTD guidance document. The testing of the drug product should be as per section 3.2.4.2 .The drug product testing is on UV as per submitted supporting documents whereas, as per method it was on HPLC.

Decision: The Board deferred the case for submission of documents and clarification of points mentioned above.

13.	Name, address of Applicant / Marketing Authorization Holder	M/s Getz Pharma (Pvt.) Limited 29-30/27, Korangi Industrial Area, Karachi.
	Name, address of Manufacturing site.	M/s Getz Pharma (Pvt.) Limited 29-30/27, Korangi Industrial Area, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.12950 dated 27/05/2022
	Details of fee submitted	PKR 30,000/-: dated 27/05/2022
	The proposed proprietary name / brand name	Acetaget Solution for IV Infusion 1g/100ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml contains: Paracetamol USP….1g
	Pharmaceutical form of applied drug	Clear colorless liquid, filled in clear glass vial.

	Pharmacotherapeutic Group of (API)	Analgesic
	Reference to Finished product specifications	Innovator's Specs.
	Proposed Pack size	100ml x 1's
	Proposed unit price	Rs. 240/-
	The status in reference regulatory authorities	Paracetamol Accord 10mg/ml Solution for Infusion by M/s Accord Healthcare Limited, UK. MHRA Approved.
	For generic drugs (me-too status)	Bofalgan Infusion 1g/100ml manufactured by M/s Bosch Pharmaceuticals (Pvt.) Ltd., Karachi. (Reg. No.: 070607).
	GMP status of the Finished product manufacturer	Last GMP Inspection dated 03-12-2021 concludes that M/s Getz Pharma Pvt. Ltd. is considered to be operating at an acceptable level of compliance of GMP requirements. Liquid Injectable (General) section approved.
	Name and address of API manufacturer.	**M/s HEBEI JIHENG (GROUP) PHARMACEUTICAL CO., LTD.,** No. 1, Weiwu Street, Hengshui Industrial Park, Hebei province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 75% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (31512021, 31512025, 31512026)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the comparator brand that is Bofalgan Infusion 1g/100ml by M/s Bosch Pharmaceuticals (Pvt.) Ltd.

		(Karachi) by performing quality tests (Appearance, Clarity of Solution, pH, Nominal Volume & Assay).		
	Analytical method validation/verification of product	Method validation studies have submitted including, system suitability, specificity, linearity, accuracy, precision repeatability, Intermediate precision, robustness, stability of solution and range.

31.	Reference of previous approval of applications with stability study data of the firm (if any)	Onsite inspection report of Getz Pharma product Emclide (Empagliflozin & Linagliptin) Tablets 10mg + 5mg was discussed and approved in 316th RB Meeting held on March 15-18, 2022. The inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. The firm have number of HPLC with Empower 3 and DB software having following features: ✓ Have Audit trail ✓ Have backup system ✓ Have Data traceability ✓ Have Data achieving system ✓ Have data integrity ✓ Have Data security ✓ System Security Policy • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. • Related manufacturing area, equipment, personnel and utilities are in compliance.		

32.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of Drug Manufacturing License (DML) no. JI20150076 issued by Hebei Drug Administration. (Valid till 30-08-2025).
33.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
012010134	Y2011ZP50	2 kg	11-11-2020

34.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record, analytical record and attested documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
35.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted compliance certificate of HPLC software and audit trail reports on product testing.
36.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks OF Evaluator:

Sr.no.	Observations/Deficiencies/ Short-comings	Reply of the Firm
1.	Justify why the pharmaceutical equivalence was studied against comparator product instead of using innovator / reference product.	Firm submitted the reply in which it is stated that "As per DRAP guidelines "Guidance document for submission of application on Form 5-F (CTD) for registration of pharmaceutical Drug products for human use", to perform Pharmaceutical Equivalence '*The comparison of the developed formulation and the innovator / reference / comparator product including the results of all the quality tests shall be submitted and discussed'.* We have established Pharmaceutical Equivalence of Acetaget Solution for IV Infusion 1g/100ml (manufactured by Getz Pharma) with Bofalgan Infusion 1g/100ml (manufactured by Bosch Pharmaceuticals (Pvt.) Ltd.) as innovator brand is currently not available in Pakistan".
2.	As per the CTD guidance document the minimum batch size for injectable should be at least 2 batches of minimum 2000 batch size OR At least 3 batches having scientifically rational batch size, sufficient enough to perform complete testing till the claimed shelf life, while you have manufactured three trial batches with batch size of 120 vial each. Justify, the batch size of trial batches in light of guidance document approved by DRAP. Firm in their reply submitted following information: This is to inform you that the batch size of 120 vials is sufficient for complete testing of stability studies of Acetaget Solution for IV Infusion 1g/100ml till 24 months. Please note that for each interval i.e. initial, 3, 6, 9, 12, 18 & 24 month, **2 vials** will be required for complete physical and chemical testing. For microbial testing **22 vials** are required for batch release.	

	For container closure integrity testing during accelerated and real time stability conditions **20 vials** are required. Details are as follows: For initial testing: 1 x 2 vials = 2 vials For accelerated studies at 3 & 6 month: 2 x 2 vials = 4 vials For real time studies at 3, 6, 9, 12, 18 & 24 month: 6 x 2 vials = 12 vials For Bacterial Endotoxin Test, Sterility Test and Particulate Matter Test at the time of Release: 1 x 22 vials = 22 vials For container closure integrity testing at initial testing: 1 x 10 vials = 10 vials For container closure integrity testing at 6 month accelerated studies: 1 x 10 vials = 10 vials For container closure integrity testing at 12 and 24 month real time studies: 2 x 10 vials = 20 vials **Total: 80 vials**	
3.	Scientific justification is required for not performing test of osmolality while batch release of trial batches of drug product, since the test has included in drug product specification of innovator brand.	Firm submitted the reply in which it is stated that "This is to inform you that during trial and development of Acetaget Solution for IV Infusion 1g/100ml, we have performed the osmolality test. Please refer to Annex – 1 for "Procedure for the determination of Osmolarity / Osmolality" for your record. However, said test was not incorporated in Finished Product Specifications of trial batches. We hereby commit that we will incorporate the test of osmolality in Finished Product Specifications of Acetaget Solution for IV Infusion 1g/100ml before commercialization".
4.	BMR formulation sheet and COA of drug product manufacturer reflect that you have used injectable grade paracetamol but the COA of API did not reveal that the paracetamol is of injectable grade, clarification is required in this regard.	This is to inform you that Paracetamol API used for our product Acetaget Solution for IV Infusion 1g/100ml is of injectable grade, API manufacturer has performed test for Bacterial Endotoxin test, Aerobic bacterial test & E. Coli test to ensure the sterility / quality of injectable grade material. Please refer to Annex - 2 for Certificate of Analysis of API manufacturer.

Decision: Approved.

- **The manufacturer shall incorporate the Osmolality test in finished product specifications and shall submit the results before issuance of registration letter.**
- **The manufacturer shall submit the applicable fee that is Rs. 7,500/- for revision of specifications as per reference product as per notification No.F.7-11/2021-B&A/DRAP dated 07-05-2021.**

14.	Name, Address Of Applicant / Marketing Authorization Holder	M/s Bio-Labs (Pvt). Ltd Plot No. 145industrial Triangle Kahuta road Islamabad.

	Details of fee submitted	PKR 30,000/-: dated 26-11-2021
	The proposed proprietary name / brand name	Cetol 100ml infusion
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Paracetamol ……..10mg
	Pharmaceutical form of applied drug	Infusion
	Pharmacotherapeutic Group of (API)	Analgesic
	Reference to Finished product specifications	In-House
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	US FDA
	For generic drugs (me-too status)	Provas infusion by sami Pharma.
	GMP status of the Finished product manufacturer	GMP certificate issued based upon inspection conduct 23-4-2019, valid upto 22-04-2022.
	Name and address of API manufacturer.	**Hebei jiheng (Group) Pharmaceutical Co.,Ltd** Xijingming Village Donganzhuang Township Shenzhou Country Hengshui City,Hebei Province,053800 China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed data of drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^{O} \pm 2^{O}$ C /75% ± 5% RH for 6 months. The real time stability data

		is conducted at 30^{O}C ± 2 ^{O} C / 65% ± 5% RH for 60 months. (31106015,31106016,31106017)
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the comparator i.e. Provas 100ml infusion.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product.

37.	Reference of previous approval of applications with stability study data of the firm (if any)	Empaglif 10mg tablet
38.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate.

39.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 "License to import drugs for clinical trial, examination, test or analysis. The license was issued on 20-03-20 with Invoice No. 2002ZP26.
40.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
41.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail and HPLC CFR Compliance record.
42.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr.no.	**Observations/Deficiencies/ Short-comings**	**Reply of the Firm**
1	Justify why the pharmaceutical equivalence was studied against comparator product instead of using innovator / reference product.	Firm in their reply stated that "As that Paracetamol infusion is short in the pharma market due to current pandemic situation of COVID-1& Dengue. So,innovator packs wasn't available in the local market of Pakistan. That is the reason the comparative study has been done against local leading brand".
2.	Submit COA of reference standard actually used in the analysis of drug substance in section 3.2. S.5.	The requisite documents regarding reference standard are attached.
3	Scientific justification is required for not using antioxidant in the applied formulation since the innovator brand used cysteine as an antioxidant because paracetamol is susceptible to degradation by oxidation.	In order to avoid degradation, bio-oxidation and to purging was done during manufacturing that reduces the oxidation and stabilize the formulation. However the executed BMR did not mentioned any kind of purging while filling of vials.
4	Scientific justification is required for not performing test of osmolality while batch release of trial batches of drug product, since the test has included in drug product specification of innovator brand. Justify the acceptance limit of pH below 5.5. ,since the innovator brand describe the pH value of infusion solution about 5.5.	Osmolarity test has been performed on the finished formulation, however, as it was additional test to check the stability of product. So it wasn't included in the final report.
5	As per the CTD guidance document the minimum batch size for injectable should be atleast 2 batches of minimum 2000 batch size OR At least 3 batches having scientifically rational batch size, sufficient enough to perform complete testing till the claimed shelf life, while you have manufactured three trial batches with batch size of 250 vial each. Justify, the batch size of trial batches in light of guidance document approved by DRAP.	The batch size was design to perform the stability testing as the batch size 250 infusion fulfil the requirement of samples for stability testing. So this was selected.

6	BMR formulation sheet reflect that you have used injectable grade paracetamol but the COA of API did not reveal that the paracetamol is of injectable grade, clarification is required in this regard.	The injectable grade of Paracetamol has been used in the formulation. However, it wasn't mentioned on the COA.

Decision: Deferred for;

- **Justification for the acceptance limit of pH below 5.5 for the applied product, since the innovator brand describe the pH value of infusion solution about 5.5.**
- **Submission of finished product specification mentioning Osmolality test.**
- **Scientific justification is required for not using antioxidant in the applied formulation since the innovator brand used cysteine as an antioxidant because paracetamol is susceptible to degradation by oxidation.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to

		nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40^{o}C ± 2^{o}C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30^{o}C ± 2^{o}C / 75% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the reference product i.e. PANADOL Actifast tablet of GSK Ireland. Firm has submitted results of CDP in three dissolution medium for their product against the reference product i.e. PANADOL Actifast tablet of GSK Ireland.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA	
Manufacturer of API	Hebei Jiheng (Group) Pharmaceutical Co. Ltd. Shenzhou Plant Southeast Xijingming Village Donganzhuang Township, Shenzhou County Henshui City, Hebei Province, China.
API Lot No.	31709016
Description of Pack (Container closure system)	Alu-PVC blister
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	Lab-01	Lab-02	Lab-03
Batch Size	1000 Tablet	1000 Tablet	1000 Tablet
Manufacturing Date	11-2020	11-2020	11-2020
Date of Initiation	21-12-2020	21-12-2020	21-12-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted reference of last onsite panel inspection for instant dosage form conducted during last two years i.e. EMPOLI (Empagliflozin) 10mg & 25mg Tablets which was presented in 290th meeting of the registration board & hence approved & registered by registration board Date of inspection: 13th June 2019. The inspection report confirms following points • The HPLC software is 21CFR Compliant. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. HE20180054 issued by China Food And Drug Administration valid till 08/07/2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice (Invoice# 1708ZP03 dated 19th October 2017 with received quantity i.e. 5000 kgs) for the purchase of Paracetamol from M/s Hebei Jiheng Shenzhou Pharmaceutical Co., Ltd. China with attestation of DRAP dated 01-11-2017
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete analytical record of product testing of all batches.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Qualitative composition is different from the reference product, since reference product has not used potassium sorbate and pregelatinized starch.
- Justify the use of preservative i.e. potassium sorbate in the applied formulation as tablet.
- Dissolution acceptance in USP is NLT 80% in 30 minutes while the firm has set acceptance criteria NLT 80% in 10 minutes.
- Disintegration test acceptance criteria is NMT 30 minutes, while dissolution criteria is NLT 80% in 10 minutes.

Decision: Deferred for the following;

- **Qualitative composition is different from the reference product, since reference product has not used potassium sorbate and pregelatinized starch.**
- **Justify the use of preservative i.e. potassium sorbate in the applied formulation as tablet.**
- **Dissolution acceptance in USP is NLT 80% in 30 minutes while the firm has set acceptance criteria NLT 80% in 10 minutes.**
- **Disintegration test acceptance criteria is NMT 30 minutes, while dissolution criteria is NLT 80% in 10 minutes.**

	Name, address of manufacturer(s)	M/s Jiangsu Hengrui Pharmaceuticals Co. Ltd. No. 38, Huanghe Road, Economic and Technolog Development Zone, Lianyungang, Jiangsu 222 P.R.China.
	Name of exporting country	China
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP:** The firm has submitted original, legal copy of CoPP certificate (No. JS20220254) d 2022-07-05 issued by Jiangsu Drug Administra No. 05 Gulou Street Nanjing Jiangsu Province C for Paclitaxel for Injection (Albumin Bound). The CoPP confirms free sale status of the produc the exporting country as well as GMP status of manufacturing site through periodic inspection e year.
	Details of letter of authorization / sole agency agreement	The firm has submitted original letter of distribu certificate from Jiangsu Hengrui Pharmaceuticals Ltd. The letter species that the manufacturer appo M/s Lab Diagnostic Systems (SMC) Pvt. Ltd register their products in Pakistan. The authoriza letter is valid till 15-08-2023.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract give
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for ex purpose only
	Dy. No. and date of submission	Dy. No. 20927 Dated: 25-07-2022
	Details of fee submitted	PKR 150,000/- Dated: 30-06-2022
	The proposed proprietary name / brand name	NAB Paclid 100mg Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Paclitaxel (albumin bound)……..100mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anti-neoplastic agent
	Reference to Finished product specifications	In-house
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	ABRAXANE® for Injectable Suspension (paclit protein-bound particles for injectable suspens (USFDA Approved).
	For generic drugs (me-too status)	Brand name: Nab-Xelpac Importer: Himmel Pharmaceuticals (Pvt) Ltd
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS template. Firm has summarized information relate nomenclature, structure, general proper solubilities, physical form, manufacturers, descrip of manufacturing process and controls, impuri specifications, analytical procedures and validation, batch analysis and justification specification, reference standard, container clo system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Shanghai Jinhe Biopharmaceutical Co., Ltd. Address: Maodian Road, Qingpu District, Shang China. Postal Code : 201716
	Module-III Drug Substance:	The firm has submitted detailed drug substance for both sources related to nomenclature, struct general properties, solubilities, physical fo manufacturers, description of manufacturing pro and controls, impurities, specifications, analy procedures and its validation, batch analysis justification of specification, reference stand container closure system and stability studies of substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batche API at accelerated as well as real time conditions. real time stability data is conducted at 5 ± 3 ℃. stability study data is till 12 months. The acceler

		condition is 25 ± 2 ℃ /60 ± 5%RH for 3 commer batches for 6 months. Lot No: ZSC202011174 Lot No: ZSC202011175 Lot No: ZSC202011176
	Module-III Drug Product:	Firm has submitted data of drug product includin description, composition, pharmaceu development, manufacture, manufacturing pro and process control, process validation protoc control of excipients, control of drug prod specifications, analytical procedures, validation analytical procedures, batch analysis, justificatio specifications, reference standard or mater container closure system and stability.
	Pharmaceutical equivalence	The firm has submitted pharmaceutical equivale with reference product Abraxane Injection () peforming Moisture, pH, residual organic solv and osmolality.
	Analytical method validation/verification of product	Firm has submitted analytical method valida studies for the applied product.
	Container closure system of the drug product	50ml Neutral borosilicate glass injection bottle.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 bat The accelerated stability study data is conducte 40℃±2℃/75 %±5%RH for 6 months. The real t stability study data is conducted at 30℃±2 65%±5%RH for 24 months for 3 batches. Lot No: 16033015 Lot No: 16042216 Lot No: 16051016

Evaluation by PEC:

ABRAXANE™ for Injectable Suspension (paclitaxel protein-bound particles for injectable suspension) is indic for the treatment of breast cancer after failure of combination chemotherapy for metastatic disease or relapse wi 6 months of adjuvant chemotherapy. Prior therapy should have included an anthracycline unless clinic contraindicated.

Sr. No.	Observations	Response by the firm
1.	Clarification is required regarding address of the product license holder since Jiangsu Hengrui Medicine Co., is mentioned on CoPP while Jiangsu Hengrui Pharmaceuticals Co. Ltd is mentioned on Form-5F.	The applicant has submitted that the manufacturer of the product has changed its name from Jiangsu Hengrui Medicine Co., Ltd to Jiangsu Hengrui Pharmaceuticals Co., Ltd. It is therefore requested to change the name of manufacturer in the original registration letter. Change approval statement has been submitted.
2.	Details of reference product including batch number, manufacturing date and expiry dates are required to be submitted.	The firm has submitted details of batch numbers of reference product. Batch no. 6101841 Batch no. 6109816 Batch no. 6109944
3.	Since the final product is lyophilized preparation therefore submit the details of reconstitution diluent alongwith compatibility studies for the dry powder for injection.	The product is first reconstituted with 0.9% sodium chloride solution, then stored in following: • Normal saline infusion bag • Non-PVC five-layer co-polymerized compound membrane infusion bag

		• Non-PVC three-layer co-polymerized compound membrane infusion bag
4.	Clarification is required regarding executive standard (pharmacopoeial standard) and enterprise control standard.	The firm has submitted that executive standard is a pharmacopoeial standard and enterprise control standard is in-house standard. However, the firm has claimed in-house standard.
5.	Submit in-use stability studies for drug product along with proposed in-use storage statement and in-use shelf-life.	The firm has submitted in-use stability studies. Shelf life in infusion bag is for 10 hours and shelf life in vial is for 24 hours.

Decision: Approved with innovator's specifications as per Policy for inspection of Manufacturer abroad verification of local storage facility. Registration Board further decided that registration letter will be iss after submission of applicable fee that is Rs. 7,500/- for revision of specifications as per notification No. 11/2021-B&A/DRAP dated 13-07-2021.

	For generic drugs (me-too status)	Paclixil Injection (Paclitaxel 100mg / 16.7ml) by M/ Mirza Pharma (Pvt) Ltd., (Reg# '045759)

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related nomenclature, structure, general properties, solubiliti physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validatio batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	M/s Mac-Chem Products (India) Pvt. Ltd., N-211/2/1 M.I.D.C, Boisar, District, Thane, Pin - 401 506, Maharashtra, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data rela to nomenclature, structure, general properties, solubilities, physical form, manufacturers, descriptio manufacturing process and controls, impurities, specifications, analytical procedures, batch analysis a justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches o API at accelerated as well as real time conditions. Th real time stability data is conducted at 25 ºC ± 2ºC / (± 5% RH for 48 months while accelerated stability study is conducted at 40 ºC ± 2ºC / 75 ± 5% RH for (months. Batch No# (PAT0217002, PAT0217003, PAT02170
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical developme manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, conta closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence aga the innovator product ABRAXANE by Celgene, US (RLD) by performing quality test (identification, pH Water Content, osmolality, Bacterial Endotoxin, Sterility, particle size, Assay).
	Analytical method validation/verification of product	Firm has submitted analytical method validation stud for the applied product including accuracy, precision specificity, linearity, range, robustness.
	Container closure system of the drug product	The finished product is packed into colorless Type I (60ml) , closed by bromobutyl rubber stopper and crimped by an aluminium flip-off system
	Stability study data of drug product, shelf life and storage conditions	Previous manufacturing site: 24 months long term stability studies have been done completely and 6 months accelerated stability have n been done due to experimental problem. New manufacturing site:

		After changing the construction site, accelerated stability studies were performed completely for three batches and long- term stability studies were done un 18th month on batches 20011, 20012 and until 9th month on batch 20038. Recontinue studies will be subjected for 24th month on batches 20011, 20012 a for 12th, 18th and 24th months on batch 20038.

Remarks of Evaluator [XI]:

Section	Observations	Response
	Fee deposited by M/s Martin Dow Limited Drug Manufacture License: 000267 instead by DSL **License No:** 565	
3.2.S.4	• Copies of specifications and the analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug product manufacturer is required • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. Firm has submitted method validation report of drug product instead of drug substance. Furthermore method validation report is submitted from Sobhan Oncology Co. Iran instead of drug product manufacturer	• Firm has submitted copies of specifications a Analytical procedure used for routine testing of Drug substance /Active Pharmaceutical Ingredient fr Drug Product manufacturer • Firm has submitted Analytical Method Verificat studies including specificity, accuracy and repeatabil (method precision) performed by the Drug Prod manufacturer for drug substance(s)
3.2.P.1.3	• Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug product.	• Firm submitted that PACLINAB® is supplied as a wh to off-white, sterile, lyophilized powder reconstitution with 20 mL of 0.9% Sodium Chlor Injection, prior to intravenous infusion. Further deta of diluent and its me-too status in Pakistan is provid as; **0.9% Sodium Chloride ampoule in 20ml volu available in Pakistan**

Brand Name	Manufacturer/registration Holder	Registratio Number
Sodium Chloride	Getz Pharma (Pvt) Ltd	050685
Normal Saline	Mehran International	072556
Zeesol NS	Shahzaib Pharmaceuticals (Pvt) Ltd	064326

• The firm submitted declaration that our applied prod is available in the country of origin in the form of v only as finished pack, without diluent. Hence, manufacturer is providing this product without dilu only.

• Moreover, the product will be administered as Infus in the Health care facility under the supervision of hea

		care practitioner. Hence, diluent is not required to provided with the finished product pack.
3.2.P.8	Submit stability study data of drug product till claimed shelf life from the manufacturing site which is provided in CoPP	Firm has submitted stability study data of 3 batches. T accelerated stability study data is conducted at 40°C ±2 / 75% ± 5% RH for 6 months. The real time stability stu data is conducted at 30°C ±2°C / 65% ± 5% RH for Months. ***However, the manufacturing site cannot confirmed from the submitted stability data.***

	Module-III Drug Substance:	Firm has submitted detailed drug substance data for l sources related to nomenclature, structure, gen properties, solubilities, physical form, manufactu description of manufacturing process and cont impurities, specifications, analytical procedures and validation, batch analysis and justification specification, reference standard, container clo system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batche API at accelerated for 06 months as well as real t conditions for 36 months. The real time stability da conducted at 25 ^{o}C ± 2^{o}C, RH 60% ± 5% and acceler stability data is conducted at 40^{o}C ± 2^{o}C, RH 75% ± (Batch No. 902-1612411, 902-1701401, 902-170140
	Module-III Drug Product:	Firm has submitted data of drug product including description, composition, pharmaceutical developm manufacture, manufacturing process and process con process validation protocols, control of excipie control of drug product, specifications, analy procedures, validation of analytical procedures, b analysis, justification of specifications, refere standard or materials, container closure system stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence has been established aga the reference product **Abraxane 100mg (Paclit Albumin Bound)** by Abraxis Biosciences for the qua test i.e. Identification, pH, Water content, Particu matter, Particle size & particle size distribution, Rel substances, Human albumen content, Paclitaxel bind rate, sterility, Bacterial endotoxin and assay.
	Analytical method validation/verification of product	Firm has submitted analytical method validation stu for the applied product.

	Container closure system of the drug product	Borosilicate glass vial 50ml. Brominated butyl rubber stopper Aluminum plastic combination caps for injection via
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 4 ±2°C / 75% ± 5% RH for 6 months both upright inverted orientation (Batch No. 1210101, 121010 1210103). The real time stability study data is conducted at 3 ±2°C / 75% ± 5% RH for 24 months (Batch No. 1210 1210102 & 1210103).

Evaluation by PEC:

Sr. No.	Section	Observation	Response by the firm
1	1.3.4	Valid and notarized copy of Drug Sale License of the applicant shall be submitted.	Attested copy of Drug Sale License No. 0230 dated 18-05-2022 in the name of Al Habib Pharmaceuticals 81-B Block B, S.M.C.H.S, Karachi is submitted by the firm. Validity is 18-05-2024. ***However, the address of the Godown mentioned on the DSL is changed from the previously submitted.*** ***Plot no. 393/7 & 393/8 Sector 7A KIA, Karachi.***
2		Justification shall be submitted regarding the statement on the CoPP certificate that the product is not registered in China and not authorized to be placed in china.	Firm has submitted a document from M/s Hebei Dawn Pharmaceutical wherein they have declared the following; "We, Hebei Dawn Pharmaceutical Co., Ltd., hereby state that we are exporting Paclitaxel for injection (albumin bound) to following countries as our Plant is exclusively for export to Foreign Countries and EU GMP Certified. i. Austria. ii. Norway. iii. Iran. iv. South Korea. v. Vietnam ***However, the firm has not produced any evidence of registration of their applied formulation in any of the Reference Regulatory Authorities as defined by the Registration Board.***
3		Valid, Notarized and legalized GMP certificate of the finished product manufacturer issued by the relevant regulatory authority shall be submitted.	Firm has submitted a copy of GMP certificate No. HE20170084 in the name of M/s Hebei Dawn Pharmaceutical Co., Ltd., Block 3 No. 51, Xingye Road, Economic Development Zone, Cangzhou China issued by the Hebei Drug Administration China dated 25-12-2017 valid till 24-12-2022.
4	3.2.P.1.1	• Innovator product has mentioned approximately 900 mg of human albumin while the applied formulation has mentioned 800 mg	Firm has submitted composition of formulation in different RRA as follows; • FDA 900 mg of Human Albumin. • NMPA 900 mg of Human Albumin. • PMDA 800mg of human albumin.

		of Albumen. Justification shall be submitted. • Qualitative composition of the drug product is changed from the innovator product. Innovator product has used sodium caprylate and sodium acetyl tryptophanate while the applied formulation has chloroform, anhydrous ethanol and WFI. Compatibility studies shall be submitted.	• EMEA 800mg of human albumin. Firm has submitted that applied medicine is developed as per the innovator product following the PMDA and EMEA Abraxane and both are included in RRA. ***However, the review report approved by Japan (Clinical Summary 2.7) has the following description;*** ***The dosage ratio of paclitaxel and human albumin in the original commercial batch prescription is 1:8 but due to the influence of the sterilization filtration process, the ratio of paclitaxel and human albumin become 1:9.*** ***While EPAR has not mentioned any ratio of paclitaxel and Albumin in the public assessment report.*** Firm has submitted that other excipients used in the manufacturing of Paclitaxel albumin bound i.e. chloroform, anhydrous ethanol, WFI will be removed finally and the finished product does not contain these excipients that why the end product is same as reference product. Firm has also submitted new composition for the applied formulation wherein they have included sodium caprylate and sodium acetyl tryptophanate in the composition. **However, these excipients are not mentioned in the original submitted CoPP nor in original dossier submitted.**
5	3.2.P.1.3	Since the final product is lyophilized preparation, therefor, submit the details of reconstitution diluent along with the compatibility studies for the dry powder for injection.	Firm has submitted the following; "Aseptically, reconstitute each vial by injecting 20 mL of 0.9% Sodium Chloride Injection, USP. Slowly inject the 20 mL of 0.9% Sodium Chloride Injection, USP, over a minimum of 1 minute, using the sterile syringe to direct the solution flow onto the inside wall of the Vial. The reconstituted suspension should be milky and homogenous without visible particulates. If particulates or settling are visible, the vial should be gently inverted again to ensure complete resuspension prior to use. Discard the reconstituted suspension if precipitates are observed. Discard any unused portion".
	3.2.P.2.2.1	Details of the innovator product including batch number, manufacturing date & Expiry date shall be submitted.	Firm has submitted the following; Batch No. 0F028C Exp. Date. 06-2023.
	3.2.P.8	Submit in use stability studies for drug product along with proposed in -use storage statement and in-use shelf life.	***Not submitted.*** Firm has submitted again the real time and accelerated stability studies that were submitted in the original dossier.

Decision: The Boar deferred the case for clarification of the following points;

- **The applied product is not present in the market of exporting country for free sale.**
- **The qualitative composition of the applied product is different from the innovator's product.**
- **In-use stability of the applied product is not submitted.**

C. ISOFLURANE

The Authority in its 143rd meeting, keeping in view the shortage of Isoflurane (essential medicine) as highlighted by the Government of Punjab through Additional Secretary Drugs Control and Chief Drugs Controller and also various media reports both electronic and print, decided to consider requests of registration of this salt through Registration Board om priority / out of queue.

Applications submitted on Form 5F:

21.	Name, address of Applicant / Importer	M/s AMB HK ENTERPRISES Pvt Ltd, Pakistan
	Details of Drug Sale License of importer	License No: 05-352-0058-066904D Address: 2nd floor plaza 60, commercial block K, phase 1 DHA, distt. Lahore Address of Godown: NA Validity: 24-02-2023. Status: License to sell drugs as distributor Renewal: NA
	Name and address of marketing authorization holder (abroad)	Hebei yipin pharmaceutical co. Ltd. Sanxia road, economy technology area of shijiahuang, china.
	Name, address of manufacturer(s)	Hebei yipin pharmaceutical co. Ltd. Sanxia road, economy technology area of shijiahuang, china.
	Name of exporting country	China
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized **copy** of CoPP certificate (No. 20220295) dated 10-08-2022 issued by CCPIT for isoflurane 100ml The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year. **The name of importing country on CoPP is mentioned as Pakistan. Furthermore the CoPP was valid till 09-08-2024.**
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of distribution certificate from Hebei yipin pharmaceutical Co., Ltd. The letter species that the manufacturer appoints **M/s AMB HK ENTERPRISES Pvt Ltd, Pakistan** to register their products in Pakistan.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales

	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 24078: 25-08-2022
	Details of fee submitted	PKR 150,000/-: 23-08-2022
	The proposed proprietary name / brand name	**EVORANE 100ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each pack contains: Isoflurane…….100ml
	Pharmaceutical form of applied drug	Liquid for inhalation
	Pharmacotherapeutic Group of (API)	General anaesthesia
	Reference to Finished product specifications	In house
	Proposed Pack size	1's
	Proposed unit price	USP
	The status in reference regulatory authorities	**USFDA** Approved.
	For generic drugs (me-too status)	FORANE liquid by Getz pharma
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Hebei yipin pharmaceutical co. Ltd. Sanxia road, economy technology area of shijiahuang, china.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 30 ℃±2. The stability study data is till 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control,

		process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	USP type-I glass ampoule (5ml)
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30°C ±2°C / 75% ± 5% RH. The real time stability study data of 2 batches is for 12 months while the stability study data for 3rd batch is for 9 months only.

Evaluation by PEC:

Section#	Observation	Firm's response
2.3	QOS shall be submitted as per WHO-QOS PD template.	Submitted.
3.2.P.5.1	Justification shall be submitted for claiming Drug product specifications & analytical procedure as per Chinese pharmacopoeia, whereas USP monograph is available for "Isoflurane".	Firm has submitted as under from M/s Hebei Yipin Pharmaceutical: "We would like to request to your good office to grant registration as per USP specification for regarding the below products under AMB HK enterprises (PVT.) Ltd.: "Isoflurane for Inhalation 100ml" We commit to provide product according to USP specifications."
3.2.P.5.4	Justification shall be submitted for performing Drug product batch analysis as per Chinese pharmacopoeia, whereas USP monograph is available for "Isoflurane".	
3.2.P.8.3	Justification shall be submitted for performing Drug product stability studies as per Chinese pharmacopoeia, whereas USP monograph is available for "Isoflurane".	
• Clarification shall be submitted for submitting copy of COPP instead of original Legalized COPP.		• Firm has submitted an undertaking that "original COPP is under legalization process to which copy has been submitted. We will submit original legalized COPP as soon as we will receive it."

Decision: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

	Module-III Drug Product:	The firm has submitted data on drug products including its description, composition, pharmaceutical development, manufacture, manufacturing process, and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications,

		reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	PE and Comparative analysis Studies against the reference product Norvir of AbbVie Inc. have been submitted
	Analytical method validation/verification of product	The firm has submitted analytical method validation studies for the applied product.
	The container closure system of the drug product	PAXOVIR Film Coated Tablets Blister Foil Alu Alu Bottom foil 164 mm
	Stability study data of drug product, shelf life, and storage conditions	The firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40^{o}C ±2^{o}C / 75% ± 5% RH for 6 months. The real-time stability study data is conducted at 30^{o}C ±2^{o}C / 65% ± 5% RH. The real-time stability study data of 3 batches for 12 months.
Evaluation by PEC:		
Decision: Deferred for submission of data regarding comparative pharmaceutical profiling and comparative dissolution with innovator drug product.		

Case No.01. Request of M/s Dynatis Pakistan (Pvt.) Ltd., Plot No. 710, Sundar Industrial Estate, Lahore (DML No. 000891) Lahore Regarding Contract Manufacturing & Analysis of Tofranil (Imipramine Hydrochloride) Tablet 25mg Under Rule 20A of Drugs (L, R, A) Rules, 1976

Registration Board in its 313th meeting held on 16th-18th November, 2021 approved the case regarding change in registration status of Tofranil (Imipramine Hydrochloride) Tablet 25mg from M/s Indus Pharma (Pvt) Ltd. Plot No. 26, 27, 63, 64, 65, 66 & 67 Sector 27 Korangi Industrial Area Karachi (DML No.000124) to M/s Dynatis Pakistan (Pvt) Ltd., Plot No. 710, Sundar Industrial Estate, Lahore and accordingly registration letter was issued dated 24-06-2022. Detail is as under:

S.No.	Reg. No.	Name of Drug(s) & Composition
1.	112932	Tofranil 25mg Tablets Each sugar coated tablet contains: Imipramine Hydrochloride …….. 25mg (USP Specifications)

M/s Dynatis Pakistan (Pvt) Ltd., Lahore has now informed regarding some operational challenges stating that their coating and packing equipment validation is in process and the delay is caused due to disruption in procurement and supply chain procedures, therefore, Dynatis Pakistan will not be able to completely manufacture the above-mentioned product for a certain period of time.

Since, tofranil is an antidepressant drug used for long-term treatment and also has a withdrawal effect, therefore, timely availability of this product is very crucial.

Keeping in view the above and in order to avoid patient's inconvenience, the firm has submitted fee of Rs 75000/- (Challan No: 1835657890 Dated 20-08-22) and requested under Rule 20A of the Drug (Licensing Registration and Advertising) Rules 1976 regarding grant of permission for 3 months to complete the manufacturing process i.e., coating and packaging (of tablets compressed at manufacturing facility of M/s Dynatis Pakistan) including the final QC release testing at the manufacturing facility of M/s Indus Pharma, Karachi.

Decision: Registration Board acceded to the request of M/s Dynatis Pakistan (Pvt.) Ltd., Plot No. 710, Sundar Industrial Estate, Lahore (DML No. 000891) Lahore as per following detail:

i. **Manufacturing of Tofranil (Imipramine Hydrochloride) Tablet 25mg till compression will be carried out at manufacturing facility of M/s Dynatis Pakistan (Pvt.) Ltd., Plot No. 710, Sundar Industrial Estate, Lahore (DML No. 000891) Lahore.**
ii. **Coating and packaging of compressed tablets and final QC release testing will be carried out on contract basis at the manufacturing facility of M/s Indus Pharma (Pvt) Ltd. Plot No. 26, 27, 63, 64, 65, 66 & 67 Sector 27, Korangi Industrial Area Karachi (DML No.000124) for a period of 3 months under of Rule 20A(1)(d) of Drugs (L, R, A) Rules, 1976.**

B. Biological Drug Division:

ADDITIONAL AGENDA

A: Priority/ Out of Queue consideration of Heparin & Enoxaparin Injections

DRAP Authority in its 144th meeting held on 26-08-2022 while considering the shortage of Heparin & Enoxaparin injections decided as follows:

"The Authority, as a one time exercise, approved out of queue consideration of submitted registration applications of following drugs in order to ensure their smooth and continuous supply in the market:

i. Paracetamol (Tablets, lnfusion and Syrup / Suspension)
ii. Albumin bound Paclitaxel lnjection
iii. Heparin and Enoxaprin lnjection

PE&R and BE&R Divisions are advised to process the cases of abovementioned drugs without waiting for formal approval of minutes."

Accordingly, DBE&R has evaluated all the new registration applications of Heparin & Enoxaparin Injections available in record and prepared the following agenda:

I: Imported Enoxaparin & Heparin Injections

	Name of exporting country	Turkey
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. 2021/1843) dated 10-06-2021 valid till 10-06-2023 issued by Turkish Medicines & Medical Devices Agency. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from General Manager of M/s Biem Ilac Sanayi ve Ticaret A.S. According to the letter, the firm *M/s Biem Ilac* authorizes "Calory Pharma" to promote, market, sell and perform the registration procedures for the product. The letter was issued on 01-12-2021.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale

		☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3272 (R&I) Dated 03-02-2022
	Details of fee submitted	Rs. 150,000/- dated 04-01-2022
	The proposed proprietary name / brand name	**Biemparin**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Heparin Sodium……5000IU
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	1's Vial (5mL)
	Proposed unit price	As per SRO/DPC
	Shelf Life	02 Years
	Storage Conditions	$\leq 30^0$C
	The status in reference regulatory authorities	Heparin Panpharma of M/s Panpharma, France.
	For generic drugs (me-too status)	Vaxcel Heparin Sodium Injection of M/s Ghazali Brothers (Reg. No. 088528).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Yino Pharma Ltd., 2 Cuiping Erxiang, Yubei District, Chongqing, 401120, China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of Drug Substance at real time conditions for 18 months. The real time stability data conducted at $25^0C \pm 2^0C/60 \pm 5\%RH$ is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Heparin Sodium Assay, benzyl Alcohol determination.
	Container closure system of the drug product	5mL Type I Colorless Glass vial, 20 mm gray brombutyl stopper, 20 mm blue flip-of cover.
	Stability study data of drug product	Firm has submitted stability study data of one commercial process validation batch. The accelerated stability study data is conducted at $40 \pm 2^0C/75\%RH \pm 5\%$ for 6 months. The real time stability study data is conducted at $25 \pm 2^oC/60\% \pm 5RH$ for 24 months.
	Remarks of Evaluator	• pH specification limits are different in Finished product specifications (5.5 to 7.0), in stability studies (5.0 to 7.5) and in European Pharmacopoeia (5.5 to 8.0) • Benzyl Alcohol specification limits are different in Finished product specifications (90% to 110%) and in stability studies (80% to 110%) • The firm has submitted stability study data of only one commercial Process Validation batch. • Non- clinical and Clinical trial data are not submitted by the firm. Registration Board in its 271st meeting considered that Heparin Sodium Injection is non-rDNA pharmacopoeial product, hence, revised its decision of 260th meeting and granted the approvals on the basis of valid legalized CoPP & availability in country of origin.
Decision:	**Registration Board deferred the case fo submission of following by the firm:** **i. Clarification of different pH specification limits in Finished product specifications (5.5 to 7.0), in stability studies (5.0 to 7.5) and in European Pharmacopoeia (5.5 to 8.0)** **ii. Clarification of different Benzyl Alcohol specification limits in Finished product specifications (90% to 110%) and in stability studies (80% to 110%)** iii. **Real time & Accelerated Stability study data of three commercial batches.**	
2.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,** **75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.**
	Details of Drug Sale License of importer	License No: 110 Address: 75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi. Validity: 06-07-2023 Status: License to sell drugs by way of whole sale.

	Name and address of marketing authorization holder (abroad)	M/s 8161429 Venipharm, 422, Bureaux de la Colline F-92213 Saint-Cloud, France.
	Name, address of manufacturer(s)	M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France.
	Name of exporting country	France
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. VEN/270521/10) dated 23-06-2021 issued by Authority for Justice and Consumer Protection of the Free and Hanseatic City of Hamburg. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Qualified Person of M/s Venipharm. According to the letter, the firm M/s Venopharm authorizes "Calory Pharma Private Limited" to register, renew and to get the registration certificate for the product. The letter was issued on 17-12-2021 and valid for five years.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3894 (R&I) Dated 10-02-2022
	Details of fee submitted	Rs. 150,000/- dated 04-01-2022
	The proposed proprietary name / brand name	Enoxaparin Ledraxen 4000IU (40mg)/0.4mL
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (0.4ml) contains: Enoxaparin Sodium……4000IU (equivalent to 40mg)
	Dosage form of applied drug	Solution for Injection in PFS
	Pharmacotherapeutic Group of (API)	Anticoagulant

	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	10's PFS
	Proposed unit price	As per SRO/DPC
	Shelf Life	24 Months
	Storage Conditions	$\leq 25^0$C
	The status in reference regulatory authorities	The product is itself approved in Germany.
	For generic drugs (me-too status)	Noxane of M/s BF Biosciences (Reg. No. 107948).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at real time conditions for 36 months, 01 batch for 12 months, 01 batch for 09 months & 01 batch for 03 months. The real time stability data conducted at 25^0C$\pm 2^0$C/60±5%RH is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor Xa activity, Anti-factor IIa Activity, Free sulfate content, Protein content, Bacterial Endotoxin, Sterility.
	Container closure system of the drug product	• A pre-filled syringe consisting of a 1-mL long barrel of type I glass with a fixed 27-gauge ½ inch stainless steel needle and a needle shield made of bromobutyl rubber • A 1-mL plunger rod made of polypropylene (which does not come directly in contact with the finished product)

		• A plunger stopper consisting of bromobutyl rubber
	Stability study data of drug product	Firm has submitted stability study data of 03 batches of 2000IU & 02 batches of 10000IU at real time, intermediate (Zone IVB) & conditions. The accelerated stability study data is conducted at 40 ± 2^0C/75%RH±5% for 6 months. The real time stability study data is conducted at 25 ± 2^0C/60%±5RH. The intermediate stability study data is conducted at 30 ± 2^0C/65%±5RH.
3.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,** **75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.**
	Details of Drug Sale License of importer	License No: 110 Address: 75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi. Validity: 06-07-2023 Status: License to sell drugs by way of whole sale.
	Name and address of marketing authorization holder (abroad)	M/s 8161429 Venipharm, 422, Bureaux de la Colline F-92213 Saint-Cloud, France.
	Name, address of manufacturer(s)	M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France.
	Name of exporting country	France
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. VEN/270521/11) dated 23-06-2021 issued by Authority for Justice and Consumer Protection of the Free and Hanseatic City of Hamburg. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Qualified Person of M/s Venipharm. According to the letter, the firm M/s Venopharm authorizes "Calory Pharma Private Limited" to register, renew and to get the registration certificate for the product. The letter was issued on 17-12-2021 and valid for five years.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)

	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities,

		specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at real time conditions for 36 months, 01 batch for 12 months, 01 batch for 09 months & 01 batch for 03 months. The real time stability data conducted at $25^0C \pm 2^0C/60 \pm 5\%RH$ is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor Xa activity, Anti-factor IIa Activity, Free sulfate content, Protein content, Bacterial Endotoxin, Sterility.
	Container closure system of the drug product	• A pre-filled syringe consisting of a 1-mL long barrel of type I glass with a fixed 27-gauge ½ inch stainless steel needle and a needle shield made of bromobutyl rubber • A 1-mL plunger rod made of polypropylene (which does not come directly in contact with the finished product) • A plunger stopper consisting of bromobutyl rubber
	Stability study data of drug product	Firm has submitted stability study data of 03 batches of 2000IU & 02 batches of 10000IU at real time, intermediate (Zone IVB) & conditions. The accelerated stability study data is conducted at $40 \pm 2^0C/75\%RH \pm 5\%$ for 6 months. The real time stability study data is conducted at $25 \pm 2^0C/60\% \pm 5RH$. The intermediate stability study data is conducted at $30 \pm 2^0C/65\% \pm 5RH$.

The firm has submitted the following data as per requirements of 289th meeting of Registration Board:

Sr. No.	Required Documents	Documents Provided by the Firm
1.	Equivalence of physicochemical properties, such as:	
	a. Molecular weight distribution using size exclusion chromatography	i. Molecular mass distribution and proportion ii. %1, 6-anhydro derivatives iii. Free sulphate content iv. Ratio of sulfate ions to carboxylate ions v. UV Absorption and specific absorbance at 231 nm
	b. Chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion	i. Chain mapping by Gel Filtration Chromatography (GFC) ii. Chain mapping by strong anion exchange HPLC (SAX-HPLC) iii. Proton nuclear magnetic resonance (1H-NMR) iv. Heteronuclear single quantum coherence (HSQC) v. Intact chain mapping by LCMS

	pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	
2.	Equivalence of heparin source material (i.e. heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	• Fresh pig's small intestine is collected and squeezed to get porcine intestinal mucosa. Porcine intestinal mucosa is then digested and heparin is adsorbed on an ion exchange resin (Intermediate A). • After the washing and elution of the resin, further steps of precipitation and drying lead to crude heparin (Intermediate B). • Crude heparin (Intermediate B) is dissolved in water, submitted to enzymolysis and then purified on resins. Heparin sodium (Intermediate C) is obtained after several steps including oxidation, ultra-filtration, fractionation and a final precipitation in ethanol. • Enoxaparin sodium is manufactured in three stages, starting from the heparin sodium which undergoes a step of salification to get the quaternary ammonium salt of heparin (Intermediate I). The salification step is followed by an esterification step to form the ester salt of heparin (Intermediate II). Enoxaparin sodium is finally isolated after depolymerization and purification steps.
3.	Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by following: a. Capillary Electrophoresis (CE) b. Reverse phase high-performance liquid chromatography (RP-HPLC) c. Strong anion exchange HPLC (SAX-HPLC) d. Mass spectroscopy e. Nuclear magnetic resonance (NMR) spectroscopy. f. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	i. Disaccharide building block by strong anion exchange HPLC (SAX-HPLC) ii. Fragment mapping (Heparinase I/II/III) by strong anion exchange HPLC (SAX-HPLC) iii. Fragment mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) iv. Dp6 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) v. Dp8 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) vi. Dp10 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) vii. Nitrous acid (HONO) depolymerisation disaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) iii. Tetrasaccharides (dp4) analysis by strong anion exchange HPLC (SAX-HPLC) ix. Tetrasaccharides (dp4) sequences by reversed-phase ion-pair liquid chromatography- electrospray ionization - mass spectrometry (RPIP-ESI-MS and RPIP-ESI-MS/MS) x. Oligosaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) (dp6/8/10)

4.	Equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	i. Anti-factor Xa & Anti-factor IIa activity by using Biophen Heparin Anti-Xa (2 Stages) and Biophen Heparin Anti-IIa (2 Stages) commercial kits. ii. The anticoagulant activity of the biosimilar enoxaparin drug product is analysed and compared with Lovenox®/Clexane® based on aPTT (Activated Partial Thromboplastin Time) and Heptest prolongation time iii.
5.	Equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.	A monocentric, randomized, open-label, single-dose, two-period, crossover study to assess the pharmacokinetic and pharmacodynamic equivalence of Reference Product Lovenox® 10000 IU/1 mL solution for injection in prefilled syringe and test formulation of Enoxaparin Ledraxen 10.000 IE (100 mg)/1 ml Injektionslösung in einer Fertigspritze following subcutaneous administration in healthy subjects in fasting conditions

Remarks of Evaluator	• The address of product license holder is different on CoPP from SmPC available on official website of Germany & letter of authorization. • The batch release site is different in dossier from Public Assessment Report available on official website of Germany & from Form-5F. • The manufacturer as per submitted CoPP is **M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France** while as per submitted dossier manufacturer is **M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China**. • Firm has not submitted the verification of compendial analytical methods of drug product. • Firm has not submitted the real time and accelerated stability data of applied strengths. However, stability data of lower (2000IU) & higher strengths (10000IU) is provided. • Stability study data of only 02 batches of higher strength i.e. 10000IU is provided. • Related substances are not tested in real time, intermediate & accelerated stability data while 1,6-anhydro derivatives, Average Mass & Sodium content are only tested for 01 batch of each strength. • **The provided intermediate/ Zone IVB stability data is for 36 months for two batches of lower strength & one batch of higher strength and 12 months of one batch each of lower & higher strength**. • **All the batches of both strengths get out of specifications after 12 months at intermediate/ Zone IVB conditions.**

Decision:

Registration Board deferred the products at S.No. 2,3 & 4 for submission of following by the firm:

i. Difference in address of product license holder on CoPP from SmPC available on official website of Germany & letter of authorization.

ii. Difference in batch release site in dossier from Public Assessment Report available on official website of Germany & from Form-5F.

iii. Any legalized evidence issued by regulatory authority of country of origin indicating that the manufacturer of product registered in Germany is M/s Nanjing King-Friend Biochemical

		Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China while M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France is only batch release site. iv. Verification reports of compendial analytical methods of drug product. v. Real time & Accelerated stability data of three commercial batches of 2000IU & 10000IU upto the shelf life including all parameters as per finished product specification. vi. Clarification is required as all the batches of both strengths get out of specification after 12 months of storage at 30±2^{0}C/65%±5RH.
5.	**Name, address of Applicant / Importer**	**M/s Safemed Technologies,** **APT, 3, 2nd Floor, Retoon Plaza, Mini Market, Sector G-15/1,** **Islamabad.**
	Details of Drug Sale License of importer	**License No:** DHO-ISB-333 **Address:** APT, 3, 2nd Floor, Retoon Plaza, Mini Market, Sector G-15/1, Islamabad. **Validity: 24-08-2024** **Status:** Distribution License
	Name and address of marketing authorization holder (abroad)	M/s Hebei Changshan Biochemical Pharmaceutical Co. Ltd., No. 71 Menglong Street, South District of Zhengding High-tech Industrial Development Zone, Zhengding Area of China (Hebei) Pilot Free Trade Zone (050800), China
	Name, address of manufacturer(s)	M/s Hebei Changshan Biochemical Pharmaceutical Co. Ltd., No. 71 Menglong Street, South District of Zhengding High-tech Industrial Development Zone, Zhengding Area of China (Hebei) Pilot Free Trade Zone (050800), China
	Name of exporting country	China
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. Hebei 20210440) dated 15-10-2021 valid till 14-10-2023 issued by Hebei Province Drug Administration. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Enterprise Legal Person of M/s Hebei Changshan Biochemical Pharmaceutical Co., Ltd., According to the letter, the firm *M/s Hebei Changshan* exclusively authorizes "Safemed Technologies" to register, sale and quote the product. The letter was issued on 06-04-2022 and valid till 30-03-2025.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only

	Dy. No. and date of submission	Dy. No. 14234 (R&I) Dated 13-06-2022
	Details of fee submitted	Rs. 150,000/- dated 02-06-2022
	The proposed proprietary name / brand name	**Metaparin Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial (5ml) contains: Heparin Sodium……25000IU
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	5's Vials
	Proposed unit price	Rs. 1600/Vial
	Shelf Life	03 Years
	Storage Conditions	25±2℃/60±5% RH
	The status in reference regulatory authorities	Heparin Panpharma of M/s Panpharma, France.
	For generic drugs (me-too status)	Vaxcel Heparin Sodium Injection of M/s Ghazali Brothers (Reg. No. 088528).
	Module-II (Quality Overall Summary)	Firm has submitted QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Hebei Changshan Biochemical Pharmaceutical Co. Ltd., No. 71 Menglong Street, South District of Zhengding High-tech Industrial Development Zone, Zhengding Area of China (Hebei) Pilot Free Trade Zone (050800), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance	Firm has submitted stability study data of 3 batches of Drug Substance at real time conditions for 36 months and accelerated conditions for 06 months. The real time stability data conducted at $25^0C \pm 2^0C/60 \pm 5\%RH$.

	(Conditions & duration of Stability studies)	
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor IIa Activity, Anti-factor Xa activity, Benzyl Alcohol determination & Sterility test. Firm has submitted verification of Analytical methods of Related substances & Bacterial Endotoxin test.
	Container closure system of the drug product	EP Type I Colorless Glass vial, Grey Halogenated Butyl Rubber stopper, Aluminum & Plastic combined caps.
	Stability study data of drug product	Firm has submitted stability study data of 03 batches. The accelerated stability study data is conducted at 40 ± 2^0C/75%RH±5% for 6 months. The real time stability study data is conducted at 25 ± 2^oC/60%±5RH for 36 months.
	Remarks of Evaluator	• Non- clinical and Clinical trial data are not submitted by the firm. Registration Board in its 271st meeting considered that Heparin Sodium Injection is non-rDNA pharmacopoeial product, hence, revised its decision of 260th meeting and granted the approvals on the basis of valid legalized CoPP & availability in country of origin.

Decision:

Keeping in view the availability of product in country of origin as per submitted CoPP and Heparin Injection being non-rDNA pharmacopoeial product; Registration Board approved the product as per current Import Policy for finished drugs.

6.	**Name, address of Applicant / Importer**	**Lab Diagnostic Systems (SMC) Pvt. Ltd. plot 36-A, PSIC SIE, Taxila Rawalpindi**
	Details of Drug Sale License of importer	License No: 01-374-0006-96845D **Address:** 36-A,PSIC,SIE,Taxila Rawalpindi Validity: 04/08/2024

	The proposed proprietary name / brand name	**Hepalid** 5000IU/5ml Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Heparin sodium: 5000 USP units
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulants
	Reference to Finished product specifications	USP
	Proposed Pack size	2's
	Proposed unit price	As per SRO
	Shelf Life	24 months
	Storage Conditions	Store at 20°C -- 25°C, excursions permitted between 15°C -- 30°C
	The status in reference regulatory authorities	Heparin Sodium Injection, USP FDA Approved
	For generic drugs (me-too status)	REGISTRATION NO: 066083 Brand Name: HEPARIN RAGALAB 5000 I.U. 5ML VIAL Importer Name: Kurative Pharma International
	Module-II (Quality Overall Summary	**QOS is not as per WHO**. Firm has summarized only information related to general properties, name of manufacturers for drug substance part. Composition of Drug product, description of manufacturing process and controls, specifications analytical procedures and justification of specification, reference standard, container closure system of drug product.
	Name, address of drug substance manufacturer	Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd.MA010-1, Nanjing High & Ne Technology Development Zone, Nanjing, China, 210061 Tel: 86-25-86992106 Fax: 86-25-86990701

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis an justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches at long term conditions. The real time stability data is conducted at 5 ℃ ±3 ℃ RH 60%±10% for 12 months of 03 batches and 25 ± 2 ℃ /60% ± 5%RH for 06 months for accelerated conditions.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	A proposed container closure system including Glass meeting the requirements of "Type I glass" as defined in the USP <660> was deemed to be adequate for the product. USP Type I Borosilicate glass container. **In packaging configuration & sizes only following packing are mentioned; 1000 IU/ ml (2ml vial), 10,000/ 10ml (10ml vial), 30,0000 IU/ 30ml (30ml), 5000 IU/ ml (2ml vial), 50,000 IU/ 10ml, 10,000 IU/ 1ml, 40,000 IU/ 4ml (5ml vial)**
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches at real time conditions. The real time stability data is conducted at 30± 2C & 60 ±5% RH for 6 months. A statement for availability of 24 months data is provided. The accelerated stability data provided is of 03 batches and is conducted at 40± 2C & 75 ±5% RH for 06 months.
	Module-IV Non-Clinical	N/A
	Module-V Clinical	N/A
	Remarks of Evaluator	i. For point No. 3.2.S.2.2, 3.2.S.2.3, 3.2.S.2.4, 3.2.S.2.5 & 3.2.S.2.6 of CTD, the firm referred to DMF but DMF has not been provided. ii. The product is from China but the firm has submitted copy of CoPP from USFDA. And regarding China CoPP it has been mentioned that product is under registration in China. And the firm has also submitted statement from their manufacturer that legalized CoPP will be submitted by end of October, 2022. iii. In the copy of USFDA-CoPP , **the importing country Israel has been mentioned.** iv. The firm has submitted copy of CoPP issued by USFDA which can be verified by the QR code mentioned on the CoPP. However, CoPP only mentioned "***Active Ingredient (s) and amount (s) per unit dose: heparin sodium usp 5000 Units***" total number of ml (volume) is not mentioned. The same was searched on USFDA official website wherein under the **Abbreviated New Drug Application (ANDA)**: 211007 (mentioned on the submitted CoPP), three products are mentioned HEPARIN SODIUM (1,000 UNITS/ML) HEPARIN SODIUM (5,000 UNITS/ML)

		HEPARIN SODIUM (10,000 UNITS/ML) But total number of ml (volume) was not mentioned there as well, and no other information is available on USFDA website. https://www.accessdata.fda.gov/scripts/cder/daf/index.cfm?event=overview.process&ApplNo=211007 v. The firm has mentioned (demanded) 5000Units/5ml vial packing in their CTD dossier i.e. covering letter, labeling information, fee receipt, QOS, point no. 1.5.2 of Module-I in all these document the firm has demanded 5000 Units/5ml but in distribution agreement, the firm has been authorized for 5000Units/mL (5ml vial). vi. In CTD dossiers under the packaging & container closure system neither 5000units/5ml vial nor 25000units/5mL vial is mentioned. (Already described in container closure system) vii. The firm has submitted stability study data (real time stability data) for 5000units/ml (5ml vial) is conducted at 30± 2C & 60 ±5% RH for 6 months. A statement from their manufacturer that they will submit complete stability study data once completed.
Decision: **Registration Board deferred the case for submission of following by the firm:** **i. Data related to Section 3.2.S.2.2, 3.2.S.2.3, 3.2.S.2.4, 3.2.S.2.5 & 3.2.S.2.6 of Form 5F.** **ii. Valid legalized CoPP issued by USFDA indicating demanded strength & pack size.** **iii. Clarification regarding difference in strength in dossier and distribution agreement.** **iv. Real time stability study data up to the demanded shelf life.**

Firm has summarized information related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, Characterization (Elucidation of Structure and Other Characteristics), impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Laboratories Pablo Cassara Carhue 1096 (C1408GBV) Autonomous City of Buenos Aires 54770, Republic of Argentina

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis an justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches at long term conditions. The real time stability data is conducted at 25 ℃ RH 60%±10% for 48months and at 40℃ ± 2 ℃ /60% ± 5%RH for 06 months for accelerated conditions.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	Type-I glass ampoule vial (5mL), injection-type opening, colorless. Bromobutyl stopper for injection-type vial, gray color with seal composed of an aluminum capsule with an aluminum cap that allows opening of its central section.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data: 3 **pilot scale batches** (1500 units each) at 25± 2C & 60 ±5% RH (real time conditions) for 24 months. One production scale batch (109.45 Lt) at 25± 2C & 60 ±5% RH (real time conditions) for 12 months. (ongoing) One production scale batch (109.45 Lt) at 30± 2C & 60 ±5% RH (real time conditions) for 12 months. (ongoing) One production scale batch (109.45 Lt) at 40± 2C & 75 ±5% RH (accelerated conditions) for 06 months.
	Remarks of Evaluator	i. In the submitted stability study data only one commercial scale batch data has been submitted. ii. The firm has submitted legalized CoPP wherein only mentioned "***Active Ingredient (s) and amount (s) per unit dose: sodium heparin 5000 Units***" total number of ml (volume) is one ml. iii. The firm has mentioned (demanded) Synteparin Injection 5000Units & proposed packing is 1's x5ml vial as per CTD dossier & proposed packaging. In stability 5ml vial data has been submitted while in CoPP one ml vial is indicated.
Decision: **Registration Board deferred the case for submission of following by the firm:** **i. Clarification regarding difference in pack size mentioned in dossier and proposed packing.** **ii. Real time stability data of 03 commercial batches up to the demanded shelf life.** **iii. Accelerated stability data of 03 commercial batches up to 06 months.** **iv. Evidence of availability of demanded pack size in country of origin.**		
11	**Name, address of Applicant / Importer**	**M/s Bajwa Sons,** **13-Muslim Street, House No. 3, 1st Floor & 2nd Floor, Mayo Hospital Road, Lahore.**
	Details of Drug Sale License of importer	**License No:** 05-352-0063-037644D **Address:** 13-Muslim Street, House No. 3, 1st Floor, Mayo Hospital Road, Lahore.

		Validity: 17-10-2022 **Status:** Distribution License
	Name and address of marketing authorization holder (abroad)	M/s Secondly Factory of Hainan Pharmaceutical Factory Co., Ltd., Linzohou Industrial Development Zone,
	Name, address of manufacturer(s)	M/s Secondly Factory of Hainan Pharmaceutical Factory Co., Ltd., Linzohou Industrial Development Zone,
	Name of exporting country	China
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted copy of CoPP (No. Henan20210095) dated 26-05-2021 valid till 31-12-2022 issued by Henan Medical Products Administration. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of 2mL (12500IU) Injection in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted legalized exclusive agency agreement signed by both firms valid for five years. There is no date mentioned on agreement.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 32984, 4795, 11480 (R&I) dated 03-12-2021, 21-02-2022 & 12-05-2022.
	Details of fee submitted	Rs. 150,000/- dated 02-06-2022
	The proposed proprietary name / brand name	**Heparin Sodium Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Heparin Sodium……25000IU
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	5's Ampoule
	Proposed unit price	Not Provided
	Shelf Life	36 months
	Storage Conditions	≤25℃

	The status in reference regulatory authorities	Monoparin of M/s Wockhradt UK Ltd.
	For generic drugs (me-too status)	Vaxcel Heparin Sodium Injection of M/s Ghazali Brothers (Reg. No. 088528).
	Module-II (Quality Overall Summary)	Firm has submitted QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, flow of manufacturing process, analytical procedures, justification of specification.
	Name, address of drug substance manufacturer	M/s Hebei Changshan Biochemical Pharmaceutical Co. Ltd., No. 71 Menglong Street, South District of Zhengding High-tech Industrial Development Zone, Zhengding Area of China (Hebei) Pilot Free Trade Zone (050800), China
	Module-III Drug Substance:	Firm has submitted drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures, batch analysis and justification of specifications.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Not Submitted.
	Module-III Drug Product:	Firm has summarized data of drug product including its composition, manufacturing process, control of drug product, process verification, specifications, batch analysis, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor IIa Activity, Anti-factor Xa activity, Benzyl Alcohol determination & Sterility test. Firm has submitted verification of Analytical methods of Related substances & Bacterial Endotoxin test.
	Container closure system of the drug product	5 mL Low Borosilicate Glass Ampoule.
	Stability study data of drug product	Firm has submitted stability study data of 03 batches. The accelerated stability study data is conducted at 40 ± 2^0C/75%RH±5% for 6 months. The real time stability study data is conducted at 25 ± 2^oC/60%±5RH for 36 months.
	Remarks of Evaluator	• Copy of CoPP is submitted. • Address of manufacturer is different on CTD and submitted CoPP. • Submitted CoPP is for 2ml (25000IU) Heparin Sodium while applied formulation is 25000IU/5mL. • No date is mentioned on Agency Agreement. • Undertakings at section 1.5.19, 1.5.20(a) & 1.5.20 (b) are not submitted. • The firm has not submitted the summaries of Characterization, Impurities, Analytical Procedures, Validation of analytical procedures, Reference Standards or Materials, Container Closure system & stability for drug substance in Modul-II. • The firm has not submitted the summaries of Pharmaceutical Development, manufacturing process control of critical steps & intermediates, Process Validation, Control of Excipients, Characterization of Impurities, Analytical Procedures, Validation of analytical procedures, Batch Analysis, Reference Standards or Materials for drug product in Module-II.

		• Characterization of structure, verification of analytical procedures, COAs of reference standards, Container closure system for drug substance is not submitted by the firm in Module-III. • Stability Data of Drug Substance is not submitted. • Label claim mentioned in Module-III is 125000Units/5ml while applied product is 25000IU/5mL. • Product specifications are mentioned as Chinese Pharmacopoeia in Module-III while in Module-I as BP specifications. • Description, Pharmaceutical Development, In-process Controls, Control of Excipients, Control of finished product, Analytical procedures, verification of analytical procedures and COAs of reference standards for drug product are not submitted by the firm in Module-III. • Non- clinical and Clinical trial data are not submitted by the firm. Registration Board in its 271st meeting considered that Heparin Sodium Injection is non-rDNA pharmacopoeial product, hence, revised its decision of 260th meeting and granted the approvals on the basis of valid legalized CoPP & availability in country of origin.

Decision:

Registration Board deferred the case for submission of following by the firm:

i. **Valid legalized CoPP of applied product.**
ii. **Clarification regarding difference in address of manufacturer in CTD and submitted CoPP.**
iii. **Clarification regarding not mentioning the date on Agency Agreement.**
iv. **Undertakings at section 1.5.19, 1.5.20(a) & 1.5.20 (b).**
v. **Summaries of Characterization, Impurities, Analytical Procedures, Validation of analytical procedures, Reference Standards or Materials, Container Closure system & stability for drug substance in Modul-II.**
vi. **Summaries of Pharmaceutical Development, manufacturing process control of critical steps & intermediates, Process Validation, Control of Excipients, Characterization of Impurities, Analytical Procedures, Validation of analytical procedures, Batch Analysis, Reference Standards or Materials for drug product in Module-II.**
vii. **Characterization of structure, verification of analytical procedures, COAs of reference standards, Container closure system for drug substance in Module-III.**
viii. **Stability Data of Drug Substance.**
ix. **Clarification regarding difference in Label claim mentioned in Module-III (125000Units/5ml) and applied product (25000IU/5mL).**
x. **Clarification regarding difference in Product specifications in Module-III (Chinese Pharmacopoeia) and in Module-I (BP specifications).**
xi. **Description, Pharmaceutical Development, In-process Controls, Control of Excipients, Control of finished product, Analytical procedures, verification of analytical procedures and COAs of reference standards for drug product.**

II. Locally Manufactured Heparin & Enoxaparin Injections.

	Brand Name + Dosage Form + Strength	**Hepanox** Solution for Injection
	Composition	One ml of solution for injection contains 5000 IU of heparin sodium. While 1 vial (5 ml) contains 25000 IU of heparin sodium.
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulants
	Reference to Finished product specifications	B.P
	Proposed Pack size Proposed unit price	1's, 2's, 5's, 10's & 25's vialAs per DPC/
	Shelf Life	24 Months
	Storage Conditions	(Store below 25^0C)
	The status in reference regulatory authorities	Heparin Sodium Injection, USP FDA Approved
	For generic drugs (me-too status)	Brand Name: Heparin Injection 25000 IU/ 5ml, 1's Pack Importer Name: M/s Leo/ Zam Zam Pharma
	Module-II (Quality Overall Summary	Firm has submitted QOS as per WHO. Firm has summarized information related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, Characterization (Elucidation of Structure and Other Characteristics), impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis an justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions &	Firm has submitted stability study data of 3 batches at long term conditions at 25 ℃ RH 60%±10% for 48months. The accelerated stability data

	duration of Stability studies)	is conducted at 40ºC ± 2 ℃ /60% ± 5%RH for 06 months for accelerated conditions.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	USP Type-I glass vial (5mL),13mm slit less butyl grey stopper 133 mm Flip off aluminum caps
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches (two pilot scale & one lab scale) at long term conditions at 25 ℃ RH 60%±10% for 06 months. The accelerated stability data is conducted at 40ºC ± 2 ℃ /75% ± 5%RH for 06 months for accelerated conditions.
	Remarks of Evaluator	The applicant i.e. M/s Macter International Limited. Karachi has section for **Liquid and Lyophilized recombinant DNA technology products (biological**) while the applied product is **non-rDNA Biological product**. The clarification was sought from Licensing division for the section requirement of local manufacturing non-rDNA Biological Drugs (i.e. Heparin) whether **such products can be manufactured in rDNA Biological section as per current rules/regulation/practice of licensing division or not?** But comment has not been received from Licensing division yet.
Decision; **Registration Board referred the case to Licensing Division for confirmation of manufacturing section for production of Heparin Sodium.**		
2.	**Name of Manufacturer**	**M/s Macter International Limited.** **F- 216, S.I.T.E, Karachi 75700, Pakistan.**
	DML and last GMP details	DML No. 000141 Address: F- 216, S.I.T.E, Karachi 75700, Pakistan. **Evidence of section:** Liquid and Lyophilized recombinant DNA technology products (biological) section dated 19th July, 2012 GMP: Last GMP conducted on 13-08-2020 valid up to 12-08-2022
	Bulk Manufacturer	Hubei Enoray Biopharmaceutical Co.,Ltd. No.108, Yanjiang Road, Xiaochi Town, Huangemei County, Hubei Province, China
	Brand Name + Dosage Form + Strength	**Inhixa 0.2ml vial**
	Composition	Each 0.2 ml vial contains Enoxaparin sodium 20 mg.
	Finished product specifications	Ph. Eur.
	Pharmacological Group	Antithrombotic agent
	Shelf life	24 Months (Store below 25^0C)
	International availability	Levenox the product is available in PFS in the said strenght & volume.
	Products already registered in Pakistan	Clexane 20mg/0.2ml but the product is available in PFS

	Type of Form Dy. No. Date of Application, Fee submitted	Form 5 Dy.No.32430 dated 29-11-2021. Fee Submitted: Rs.30,000/- dated 27-10-2021.
	Demanded Price / Pack size	s & 2's vial/As per SRO'1
	General Documentation	The formulation in 0.2ml vial is not available in reference country.
3.	**Name of Manufacturer**	**M/s Macter International Limited.** **F- 216, S.I.T.E, Karachi 75700, Pakistan.**
	DML and last GMP details	DML No. 000141 Address: F- 216, S.I.T.E, Karachi 75700, Pakistan. **Evidence of section:** Liquid and Lyophilized recombinant DNA technology products (biological) section dated 19th July, 2012 GMP: Last GMP conducted on 13-08-2020 valid up to 12-08-2022

	Demanded Price / Pack size	s & 2's vial/As per SRO'1
	General Documentation	The formulation in One ml vial is not available in reference country.

Data as per guidelines of 289th meeting of Registration Board;

i) For Bulk Concentrate Import, Local formulation Filling:

	Documents Required	Documents submitted by the firm
i.	The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	Copy of GMP No.2020-20 dated 07-09-2020 issued by Hubei Provincial Drug Administration, China. Copy of GMP issued by Mo Industry and trade of the Russian Federation. Manufactuerer and its address: Hubei Enoray Biopharmaceutical Co.,Ltd. No.108, Yanjiang Road, Xiaochi Town, Huangemei County, Hubei Province, China
ii.	The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	Not provided.
iii.	The firm shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the similar efficacy and safety to innovator product covering following requirements:	
	a) The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass	Heparin sodium is dissolved and through salification, esterification, it is converted to heparin benzyl ester, then, Enoxaparin sodium is formed by alkaline degradation. Following a series of purification process (filtration, oxidization, ultrafiltration, membrane filtration, lyophilization, grinding and mixing), the final product Enoxaparin sodium is obtained.

	spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	The structure & quality of Enoxaparin sodium has been compared with reference standard (Eu) & reference product**:**
	b) The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of its variability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	**a. Elucidation of Structure and other Characteristics:** i. Molecular weight distribution by LC & eighteen-angle laser scattering instrument, Electronic balance. ii. Quantitative analysis of uronic acid by Microplate reader. iii. Qualitative analysis of amino sugar by Ion chromatograph, ampere pulsed, electronic balance. iv. Qualitative analysis of free anions and combined sulfo groups by Ion chromatograph, Electrical conductivity Dectector. v. Nuclear Magnetic Resonance analysis by NMR analyzer. vi. Infrared analysis by Fourier transform infrared spectrometer. vii. Disaccharide composition analysis by HPLC viii. Reducing end content analysis by HPLC. ix. Oligosaccharide sequence LC-MS analysis by Superhigh pressure liquid chromatograph-mass spectrometer x. Fingerprinting analysis with 2D-LC-Q/Tof-MS
	c) The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	**b. Equivalence of heparin source material:** Based on USP monograph, the starting material of Enoxaparin sodium is from porcine intestinal mucosa & these are obtained from marketing authorization. CoA of crude Heparin Sodium has been submitted. Equivalence of Heparin degradation by chemical reaction (Benzethonium heparinate, nHeparin benzyl ester)
	d) The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	Invitro Bioequivalence study of Low molecular weight Heparins for comparison of the product on aPTT & FXa activity with that of reference drug by aPTT assay & Anti-FXa assay. Equivalence in Biological & Biochemical assays: Anti-factor Xa activity & Anti-factor IIa activity by potency test method of USP mpnograph.
	e) The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.	Single center, open, randomized, single dose, two cycle, two-sequence & cross pharmacodynamics bioequivalence study aims to pre-estimate the effects of subcutaneous injection of test preparation Enoxaparin Sodium Injection & reference preparation Clexane in Chinese healthy subject under fasting.
iv.	The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	NA

v.	The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	24months real time stability study data at 25°C±2°C, 60%RH±5% RH & 6 months accelerated stability study at 40°C±2°C, 75%RH ±5% RH of drug substance from API manufacturer.
vi.	The local manufacturer shall perform all the tests on Enoxaparin Sodium bulk as detailed in Pharmacopoeial monograph of Enoxaparin Sodium.	• Identification by Size-Exclusion Chromatography (GPC) • Anti-Factor Xa Activity Chromogenic assay • Anti-Factor Ila activity Chromogenic assay • Color & clarity of solution • Light Absorption • Sodium by Atomic Absorption Spectrophotometry • Related Substances by HPLC
vii.	The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform the six months stability data on all the batches along with all the tests as detailed in Pharmacopoeial monograph of Enoxaparin Sodium Injection.	The stability study has been submitted for lowest 20mg, middle 60mg & highest 100mg vial (as per bracketing) 6-months real time stability study data at 25°C±2°C, 60%RH±5% RH & 6 months accelerated stability study at 40°C±2°C, 75%RH ±5% RH.
viii.	The local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The following techniques may be used: a. SDS-PAGE for individual proteins b. GC-MS for lipid impurities c. Threshold ® Total DNA Assay System for DNA content.	Related Substances by HPLC: Purity of LMW heparins by using Anion Exchange Chromatography based test. Sodium by Atomic Absorption Spectrophotometry
ix.	The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	Not submitted
x.	Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	Submitted
xi.	The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Not submitted
xii.	If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Not submitted
xiii.	All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot	Not submitted

	Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	

Remarks of Evaluator:

i. **The applied products are in vial packing while in reference regulatory authority, the said formulations are only available in PFS.**

ii. The applicant i.e. M/s Macter International Limited. Karachi has section for **Liquid and Lyophilized recombinant DNA technology products (biological**) while the applied product is **non-rDNA Biological product**. The clarification was sought from Licensing division for the section requirement of local manufacturing non-rDNA Biological Drugs (i.e. Heparin) whether **such products can be manufactured in rDNA Biological section as per current rules/regulation/practice of licensing division or not?** But comment has not been received from Licensing division yet.

Decision:

Registration Board deferred the case for submission of following by the firm:

i. **Evidence of availability of formulations in vials in Reference Regulatory Authorities.**
ii. **Valid legalized Free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.**
iii. **Agreement with the source manufacturer (bulk concentrate) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.**
iv. **Referred the case to Licensing Division for confirmation of manufacturing section for production of Heparin Sodium.**
v. **An undertaking that the firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.**
vi. **An undertaking that if any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.**
vii. **An undertaking that all the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.**

7.	**Name of Applicant**	**M/s Genix Pharma Limited** **44, 45-B, Korangi Creek Road, Karachi-75190, Pakistan**
	DSL details	DSL License No.000351 valid upto 22-09-2015.
	Name of Manufacturer	M/s Genix Pharma Limited 44, 45-B, Korangi Creek Road, Karachi-75190, Pakistan
	Brand Name + Dosage Form + Strength	**HEPI** Solution for Injection/ Infusion 25000IU
	Composition	Each 5ml Contains: Heparin Sodium : 25000 IU
	Finished product specifications	British Pharmacopoeia (BP Specs)
	Pharmacological Group	Anti-thrombotic agent (ATC code : B01AB01)
	Shelf life	2 Years Store at 25^0C (after reconstitusion store at 2^oC to 8^oC & use within 24 hours)
	International availability	Multiparin 25000IU/ 5ml (*M/s Wokhardt, UK*)
	Alternate Products already registered in Pakistan	POLIPARIN 25000 IU/5ml Reg. No.089815 M/s Shamco Traders (Pvt) Ltd, Lahore

	Type of Form Dy. No. Date of Application, Fee submitted	Form 5 Dy.No.11970/2019-(R&I)DRAP 06-03-2019 Fee of 50,000/- dated 04-03-2019
	Demanded Price Pack size	As per PRC 5ml
	General documentation	i. Form-5 duly signed dated 04th March, 2019. ii. Photocopy of Licence to Manufacture vide No.000351 having date of renewal w.e.f. 22-09-2015 iii. Copy of section approval dated 23-07-2012. iv. Photocopy of Inspection Report dated 23-07-2018.
	Evaluator Comments	Following product of *M/s Genix Pharma Private Limited*, for Registration of Heparin Sodium on Form 5 for Local Manufacturing has been received from PE&R division on 26-08-2022. The firm has **Liquid Biotech (recombinant DNA technology products (biological**) Liquid section while the applied product is **non-rDNA Biological product**.
	Decision : **Registration Board deferred the case for following:** **i. Evidence of availability of manufacturing facility/ section.** **ii. Realtime & Accelerated stability data of 06 months for locally manufactured product.**	

B: Miscellaneous/ Deferred Cases

1. REQUEST OF M/S MARTIN DOW MARKER LIMITED, KARACHI FOR Transfer Of REGISTRATION OF DRUG - ACTILYSE (ALTEPLASE 50MG) POWDER AND SOLVENT FOR SOLUTION FOR INJECTION AND INFUSION.

M/s Martin Dow Marker Limited, Nice Trade Orbit Building, Shahrah-e-Faisal, Block 6, PECHS, Karachi has submitted an application for Registration of following already registered product from M/s Ali Gohar & Company (Pvt.) Ltd, B-23, SITE, Karachi to their name. Detail of proposed product as under:

Requirement as per SOP	**Document submitted**
Application on Form 5-F with required fee as per relevant SRO.	Application on Form-5-F (Covering letter) & Fee of 150,000/-
Copy of registration letter and last renewal status.	Copy of Registration Letter dated 28-10-2020
Termination letter (original) from manufacturer for previous importer.	Original legalized Termination letter.
Authority letter/sole agent letter (original) from manufacturer.	Original legalized Power of Attorney in the name of applicant.
Document confirming NOC (issued within last 6 Months) from existing registration holder permitting for registration of product to another importer.	Original NOC for transfer of registration from the previous importer i.e. AG&C pvt Ltd Karachi.
Original and legalized Certificate of Pharmaceutical Product as per WHO format for new manufacturer's name OR Original and legalized GMP certificate of new manufacturing site with free sale certificate from regulatory body of country of origin.	Legalized Certificate of Pharmaceutical Product (CoPP)
Undertaking that the provided information/ documents are true/ correct.	Undertaking provided on stamp paper.

	Name, address of Applicant / Importer	M/s Martin Dow Marker Limited, Nice Trade Orbit Building, 44-A, Block 6, P.E.C.H.S, Razi Road, Shahrah-e-Faisal, Karachi
	Details of Drug Sale License of importer	License No: 0188 Validity: 08-12-2023 Status: License to sell drugs by way of Wholesale.
	Name and address of marketing authorization holder (abroad)	M/s Boehringer Ingelheim Pharma GmbH & Co. KG Binger Strasse 173 55216 Ingelheim am Rhein, Germany.
	Name, address of manufacturer(s)	M/s. Boehringer Ingelheim Pharma GmbH & Co. KG **Production Site**: Birkendorfer Strasse 65 88397 Biberach/ Riss, Germany.
	Name of exporting country	Federal Republic of Germany
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	Firm has submitted legalized CoPP (No. 155/2022) dated 30-03-2022 issued by Rheinland Pfalz,Landesamt Fur Soziaies, Jugend Und Verorung, Germany. The CoPP specifies free sale status of the product in Germany with its availability. The CoPP also confirms the GMP status of the firm. Periodicity of routine inspection is 3 years. In CoPP it is mentioned that the applicant for the CoPP is M/s Boehringer Ingelheim Pharma GmbH & Co. Germany (MAH) on behalf of M/s Boehringer Ingelheim International GmbH Binger Strasse 173 55216 Ingelheim am Rhein, Germany. (who authorize M/s Martin Dow Marker Limited Karachi for this product)
	Details of letter of authorization / sole agency agreement	Firm has submitted notarized copy of letter of product specific Power of Attorney issued by ***Boehringer Ingelheim International GmbH Binger Strasse 173 55216 Ingelheim am Rhein, Germany.*** *According to the letter, the firm authorizes* ***"M/s Martin Dow Marker Limited, Nice Trade Orbit Building, Shahrah-e-Faisal, Block 6, PECHS, Karachi"*** to be their wholly owned subsidiary and sole importer in Pakistan and to import, distribute & sale the product. The letter was issued on 25-05-2022.
	Status of applicant	□ Manufacturer □ Importer □ Is involved in none of the above (contract giver)
	Status of application	□ New Drug Product (NDP) □ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	□ Domestic sale. □Export sale. □Domestic and Export sales.
	For imported products, specify one the these	□ Finished Pharmaceutical Product Import. □ Bulk Import and local repacking (specify status of bulk). □ Bulk Import Local Repacking for Export purpose only
	Dy. No., date of submission & details of fee submitted	Dy. No. 17536 15-06-2022, Dy. No. 23154 dated 16-08-2022 PKR 150,000/-: 10-06-2022
	The proposed proprietary name / brand name	**Actilyse (Alteplase 50mg)** Powder and solvent for solution for injection and infusion.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: - Alteplase ……50mg (corresponding to 29,000,000 IU)d **Solvent:** Sterile water for injection (50mL)
	Dosage form of applied drug	Injection and infusion
	Pharmacotherapeutic Group of (API)	**Pharmacologic Class:** a.Tissue plasminogen activator (tPA)

		Therapeutic Class: b.Thrombolytic
	Reference to Finished product specifications	Ph. Eur specifications
	Proposed Pack size	1's (One vial of powder drug plus one vial of 50ml Solvent)
	Proposed unit price	As per DPC/SRO/ 1's
	Shelf Life	3 Years
	Storage Conditions	Store below 30°C
	The status in reference regulatory authorities	**The product is from reference country i.e. Germany**
	For generic drugs (me-too status)	The same product is already registered (AG&C) & the current case is transfer of registration.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines. Firm has summarized information related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non- clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Boehringer Ingelheim Pharma GmbH & Co. KG Birkendorfer Str. 65 88397 Biberach Riss, Germany
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted real time stability study data of 5 batches of drug substance at -20°C & accelerated stability study data of 9 batches at 2-8°C for one months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted method validation studies including linearity, range, accuracy, precision, specificity.
	Container closure system of the drug product	Vial: The primary packaging used for the drug product is a colorless 50/60 mL tubing glass vial for pharmaceutical use" Type I glass container". Rubber Stopper: 20mm Chlorobutyl Formulation 1071 4432-50 grey, Flip-off Seal: 20mm Aluminum / polypropylene, West 3769, blue
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted real time stability study data of 3 production scale batches at 30°C/70%RH for 36 months. The accelerated stability study data is conducted at 40°C/75%RH for 12 months with two production scale batches. The firm has also submitted real time stability study data for four other batches as well which are on going & completed

		upto 30 months (one batch), 18 months (one batch) & 6 months (one batch).
	Module-IV Non-Clinical	The firm has submitted following non-clinical studies: • Comparative pharmacology of small & large scale aleplase in dogs, rabbits and monkeys. **(In vivo Pharmacology**) • Comparative pharmacokinetics of small scale & large scale aleplase in rabbits and primates. **(Pharmacokinetic**) • **SINGLE-DOSE TOXICITY** **SINGLE-DOSE TOXICITY STUDIES IN RATS** Intravenous single-dose toxicity study in rats [U84-0317] Intravenous single-dose toxicity study in rats [U85-0531] **SINGLE-DOSE TOXICITY STUDY IN MONKEYS** Intravenous single-dose toxicity study in monkeys [U84-0319] Intravenous single-dose toxicity study in monkeys [U85-0528] Intravenous single-dose toxicity study in monkeys [U85-0529] • **REPEAT-DOSE TOXICITY** **RODENT TOXICITY STUDIES** Intravenous repeat-dose toxicity studies with alteplase in rats Fourteen-day intravenous toxicity study in rats [U86-0302] Four-week intravenous study in rats [U87-0586, U88-0131] Thirteen-week intravenous toxicity study in rats [U90-0027] **NON-RODENT TOXICITY STUDIES** Intravenous repeat-dose toxicity studies with alteplase in non-rodents Fourteen-day intravenous toxicity study in dogs [U87-0928] Fourteen-day intravenous toxicity study in dogs [U86-0065] Fourteen-day intravenous toxicity study in marmosets [U87-0177, U88-0132] Four-week intravenous toxicity study in marmosets [U87-0201, U88-0132] **GENOTOXICITY** IN VITRO ASSAYS Ames test [U85-0322] Ames test [U86-0331] Chromosome aberration assay [U85-0569] Chromosome aberration assay [U86-0365] Unscheduled DNA synthesis assay [U87-0845] • **IN VIVO TESTS** Mouse bone marrow micronucleus test [U87-1009] **CARCINOGENICITY** ATG treated new-born rat assay [U85-0225] REPRODUCTIVE AND DEVELOPMENTAL TOXICITY **REPRODUCTIVE FUNCTION** Reproductive function intravenous toxicity study in rats [U90-0411] **EMBRYO-FETAL DEVELOPMENT** DRF embryo-foetal development intravenous toxicity study in rats [U86-0895]. Embryo-foetal development intravenous toxicity study in rats [U87-1019] DRF embryo-foetal development intravenous toxicity study in rabbits [U86-0894]

		Embryo-foetal development intravenous toxicity study in rabbits [U87-1020] **PERI- AND POSTNATAL DEVELOPMENT, INCLUDING MATERNAL FUNCTION** Peri- and postnatal toxicity study in rats by infusion [U90-0524] • **LOCAL TOLERANCE** **INTRA-ARTERIAL TOLERANCE** Intra-arterial tolerance study in the rabbit [U84-0916] Intra-arterial tolerance study in the rabbit [U86-0321] Local tolerance after single intra-arterial injection in rabbits [U98-2168] **INTRAVENOUS TOLERANCE** Intravenous tolerance study in rabbits [U84-0910] Intravenous tolerance study in rabbits [U86-0281] Local tolerance after single intravenous injection in rabbits [U98-2167] **PARAVENOUS TOLERANCE** Local tolerance after single paravenous injection in rats [U98-2169] **OCULAR TOLERANCE** Tolerability study after a single dose injection into the anterior chamber of rabbits [U97-2274] **OTHER TOXICITY STUDIES** • HEMOLYSIS • Haemolysis test with human blood • ANTIGENICITY • IMMUNOTOXICITY
	Module-V Clinical	**Phase III Trial:** **ECASS III Study [P08-12177]** **Objective:** To compare the safety and efficacy of alteplase vs. Placebo when administered between 3 and 4 hours 30 minutes after onset of stroke symptoms in patients with acute ischaemic stroke.(Randomized Placebo control) 821 Patients **ECASS III Study [P08-12177]** **Objective:** To compare the safety and efficacy of alteplase vs. Placebo when administered between 3 and 4 hours 30 minutes after onset of stroke symptoms in patients with acute ischaemic stroke. Patient Exposed to Alteplase: 406 Patient Exposed to Placebo: 390 **Pooled Analysis: 3-4.5 hr time window** Patient Exposed to Alteplase: 681 Patient Exposed to Placebo: 674 **Pooled Analysis: 0-6 hr time window** Patient Exposed to Alteplase: 1492 Patient Exposed to Placebo: 1470

Remarks of Evaluator: The firm also requested to grant permission for import of the product in international Export Pack & they will fulfil locally all mandatory packaging requirement as per Drug Labelling & Packaging Rule 1986 at their GMP compliant facility "Martin Dow Marker Limited, 7, Jail Road, Quetta, Pakistan" for 02 years (as already approved via letter F.No-3-175/2018-AD(BD)(M-307) for both registered pack sizes 1's & 2's. The firm has submitted fee of 7500/- & SOP for local printing of the information.
Decision: **Keeping in view valid legalized CoPP indicating product availability in country of origin, approval of Germany (Reference Regulatory Authorities) and NOC from M/s Ali Gohar & Company (Private) Limited, Karachi; Registration Board cancelled the registration of product from the name of M/s Ali Gohar & Company (Private) Limited, Karachi and granted the registration in the name of M/s Martin Dow Marker Limited, Karachi as per current Import policy for finished drugs subject to price confirmation from Costing & Pricing division and verification of cold storage facility.**

The Board deferred the rest of cases due to paucity of time.
