	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Emtricitabine** Firm has submitted stability study data of 3 batches of API at accelerated, long term & alternative long-term conditions. Stability data for Mylan Laboratories Ltd (Unit-3) The Accelerated stability is conducted at 40°C ± 2°C / 75 + 5% RH for 06 months. The Long-term stability is conducted at 25°C ± 2°C / 60% ± 5 % RH for 60 months. (Batch No. EMT-III/003/06/U-III, EMT-III/004/06/U-III, EMT-III/005/06/U-III) Stability data for Mylan Laboratories Ltd (Unit-2) The Accelerated stability is conducted at 40°C ± 2°C / 75 + 5% RH for 06 months. Alternative Long-term stability is conducted at 30 ± 2°C / 75 ± 5% RH for 60 months. (Batch No. 25501697, 25501698, 25501699) Stability data for Mylan Laboratories Ltd (Unit-9) The Accelerated stability is conducted at 40 ± 2°C / 75% + 5% RH for 06 months. The Long-term stability is conducted at 25°C ± 2°C / 60% ± 5% RH for 36 months. (Batch No. 27060065, 27060066, 27060067) Stability data for Mylan Laboratories Ltd (Unit-7) The Accelerated stability is conducted at 40°C ± 2°C / 75% + 5% RH for 06 months. The Long term stability is conducted at 25°C ± 2°C / 60% ± 5% RH for 12 months. (Batch No. 25512756, 25512757, 25512758) **Tenofovir Disoproxil Fumerate;** Stability data for Mylan Laboratories Ltd (Unit-1) The stability studies conducted at 30 ± 2°C / 65 ± 5% RH for 06 months & at 25 ± 2°C / 60 ± 5% RH for 24 months. *(B. No. 25504422, 25504482, 25504429)*

		Stability data for Mylan Laboratories Ltd (Unit-8) The accelerated stability is conducted at 30 ± 2°C / 75 ± 5% RH for 6 months The real time stability is conducted at 25 ± 2°C / 60 ± 5% RH for 24 months. B. No. 25503327, 25503328, 25503329) Stability data for Mylan Laboratories Ltd (Unit-10) The stability is conducted at 30 ± 2°C / 65 ± 5% RH for 6 months. The real time stability is conducted at 25 ± 2°C / 60 ± 5% RH for 24 months. (B. No. 2550774, 25502808, 25502828)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted bioequivalence studies of their formulation (B. No. ETFA537002) with innovator product i.e. Truvuda 300/200mg tablets manufactured by Gilead Sciences, USA batch No. FDC065 Firm has also submitted CDP against innovator product i.e. Truvuda 300/200mg tablets manufactured by Gilead Sciences, USA batch No. FDC065 in three different mediums of 0.1N HCl (official release media), pH 4.5 acetate buffer & pH 6.8 phosphate buffer.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	HDPE bottle pack.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30°C ±2°C / 75% ± 5% RH for 36 months. (b. No. 3061657, 3061658, 3061659)

Evaluation by PEC:

Sr. No.	Section	Observation	Response by the firm
1	3.2.S.4.3 & 3.2.P.5.3	Analytical method validation reports for both the drug substances i.e. Emtricitabine tenofovir disoproxil fumarate and finished product are by matrix laboratories limited. Clarification shall be submitted regarding the matrix laboratories whether it is finished product manufacturer or verification studies of the drug substance by the finished	Firm has submitted that name of the company was changed from M/s Matrix Laboratories Limited to M/s Maylan Laboratories Limited on 5th October, 2011. Therefore, few documents with matrix header submitted in Ricovir-EM tablet dossier, as these were prepared/compiled before the change of company name from Matrix to Maylan. *Firm has submitted a notarized document from Government of India – Ministry of Corporate affairs Registrar of Companies,*

		product manufacturer shall be submitted.	*Andhra Pradesh wherein it is certified that Matrix laboratories limited which was originally incorporated on twenty ninth day of November nineteen hundred eighty four under the companied Act, 1956 (No. 1of 56) as Harren Drugs Private limited having dually passed the necessary resolution in term of section 21 of companies Act, 1956 and the approval of the central Government signified in writing having been accorded thereto under section 21 of the companies Act, 1956, read with Govt. of India, Department of company affairs, New Delhi, Notification No. G.S.R 507 (E) dated 24-06-1985 vide SRN B22016844 dated 05-10-211 the name of the said company in this day changed to Mylan Laboratories limited and this certificate is issued pursuant to section 23(1) of the said Act.*
2	3.2.S.7	Real time stability data and accelerated stability data of the drug substance for different drug substance manufacturers is not as per Zone IV. Justification is required.	Firm has submitted that Ricovir EM tablet is WHO prequalified product (Reference Number: HA417) and is manufactured under control conditions. The storage condition of the drug substance and drug product is approved and maintained throughout shelf life. They further stated that they have requested their principal for the stability data of the drug substance as per zine IV and will submit the data as received.
3	3.2.S.7	For both the drug substances different drug substance manufacturers are mentioned in the dossier. Justification is required or otherwise specify a drug substance manufacturer that shall be used in finished product.	Firm submitted that drug substance used in the manufacturing of the finished product will be from the below mentioned sites; **Tenofovir Disoproxil Fumerate;** Mylan Laboratories Limited (Unit-10) Plot No. 86, Ramky Pharma City (India) Ltd, SEZ, JN Pharma City, Parawada Mandal, Visakhapatnam – 531019 Andhra Pradesh, India. **Emtricitabine;** Mylan Laboratories Limited (Unit-9) Plot No. 5, Road No.12, J.N. Pharma City, Tadi Village, Parawada Mandal Visakhapatnam – 531021 Andhra Pradesh, India.

Decision: Registration Board approved the product subject to compliance of current Import Policy for Finished Drugs with innovator's specifications. Registration letter will be issued after submission of fee of Rs. 7,500/- for correction/pre-approval change in the method of manufacture/specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Case 04; Registration applications of Deferred locally manufactured (Human) drugs on Form 5 with stability data.

80.	Name and address of manufacturer / Applicant	M/s Wilson's Pharmaceuticals, 387-388, I-9, Industrial Area, Islamabad.
	Brand Name +Dosage Form + Strength	Coldene day Tablet
	Diary No. Date of R& I & fee	Dy. No. 16694, R&I Dated 02.10.2017, Rs. 20,000/- (02.10.2017)

	Composition	Each film-coated tablet contains: Acetaminophen ……. 500mg Phenylephrine HCl ……..…..... 5mg
	Pharmacological Group	Analgesic, Non-opioid/ Sympathomimetic Decongestants
	Type of Form	Form 5.
	Finished Product Specification	Manufacturers specification
	Pack size & Demanded Price	1x 10's, 10x 10's & as per SRO
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Could not be confirmed
	GMP status	The firm was inspected on 24-01-2018 and conclusion of inspection was: Overall the firm was found to be operating at a very good level of CGMP Compliance at the time of inspection."
	Previous remarks of the Evaluator.	The local and international availability of the applied formulation could not be confirmed.
	Previous decision	Deferred in 284th DRB meeting as the local and international availability of the applied formulation could not be confirmed.
	Evaluation by PEC- XIII	• International reference has been verified as Demazin Cold + Flu Relief tablet of iNova Pharmaceuticals (Australia) Pty Ltd TGA; Australia Approved. • Me- too submitted by the firm has been verified as: Panadol CF Day Caplet (Paracetamol 500mg and Phenylephrine HCl 5mg of M/s GSK, Karachi 094797. • The applied formulation is on stability so firm needs to submit stability studies data of at least three batches at accelerated and real time conditions.
	Decision of 296th meeting of Registration Board.	Registration Board deferred the case for submission of stability study data as per the guidelines provided in 293rd meeting of Registration Board.

STABILITY STUDY DATA			
Drug	Coldene day Tablet 500/5mg		
Name of Manufacturer	M/s Wilson's Pharmaceuticals, 387-388, I-9, Industrial Area, Islamabad.		
Manufacturer of API	Paracetamol: M/s Saakh Pharma (Pvt.) Ltd., C-7/1, NWIZ, Port Qasim Karachi.		
	Phenylephrine Hydrochloride. M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzin China.		
API Lot No.	Paracetamol: 19GN60173	Phenylephrine Hydrochloride. PEH-180101Y1	
Description of Pack (Container closure system)	Alu-Alu strip packed in card box unit carton of 30's.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Real time: 0,3,6 (months) Accelerated: 0,3,6 (months)		
Batch No.	Trial # 01	Trial # 02	Trial # 03

Batch Size	1500 Tablets	1500 Tablets	1500 Tablet
Manufacturing Date	08-2019	08-2019	08-2019
Date of Initiation	01-09-2019	01-09-2019	01-09-2019
No. of Batches	03		
Date of Submission	11-01-2021 (Dy. No. 1371)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT FOR EXEMPTION

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

S. No.	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	Firm has referred to their last inspection report for their product "saferon tablet" Registration Board in its 278th meeting decided to approve Registration of "Saferon (Sofosbuvir 400mg) tablets by M/s Wilson Pharmaceuticals, I-9 Industrial Area, Islamabad. Date of Inspection: 10-12-2015, 19-04-2017 & 20-01-2018 Software of HPLC present in the firm is 21CFR compliant and audit trail on the testing reports was available and confirmed.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	<u>Paracetamol:</u> Firm has submitted COA of Paracetamol (Batch # 19GN60173) from M/s Saakh Pharma (Pvt.) Ltd., C-7/1, NWIZ, Port Qasim Karachi. COA from Wilson pharma with Batch No. 19GN60173 has also been been submitted. <u>Phenylephrine Hydrochloride.</u> Firm has submitted COA of Phenylephrine Hydrochloride (Batch # PEH-180101Y1) from M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzin China. COA from Wilson pharma with Batch No. PEH-180101Y1 has also been submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Submitted.
4.	Stability study data of API from API manufacturer	The firm has submitted copy of accelerated, 12 Months (40°C ± 2°C & 75±5%RH) & long term, 18 Months (30°C ± 2°C & 65±5%RH) stability study reports of 03 batches. <u>Phenylephrine Hydrochloride.</u> The firm has submitted copy of accelerated, 06 Months (40°C ± 2°C & 75±5%RH) & long term, 48 Months (30°C ± 2°C & 65±5%RH) stability study reports of 03 batches (PEH-160404, PEH-160405 & PEH-160406).
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	<u>Paracetamol:</u> Firm has submitted copy of GMP certificate No. 83/2020-DRAP (K) dated 23-06-2020 of M/s Saakh Pharma (Pvt.) Ltd., C-7/1, NWIZ, Port Qasim Karachi. The certificate is valid till 22-06-2022. <u>Phenylephrine Hydrochloride.</u> Firm has submitted copy of GMP certificate No. GD20150448 of M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzin China issued by China Food and Drug Administration. The certificate is valid till 07-12-2020.

6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has provided copy of attested clearance certificate by AD (I&E), DRAP, Islamabad dated 10-05-2018 confirming import of 308.25gm of Phenylephrine Hydrochloride from M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzin China for Batch No. PEH-180101Y1
7.	Protocols followed for conduction of stability study	Submitted.
8.	Method used for analysis of FPP	Submitted.
9.	Drug-excipients compatibility studies (where applicable)	Firm has submitted that ingredients of Coldene day tablets and Panadol Sinus Pain & Congestion relief day & night (innovator brand) are same and no compatibilities of excipients observed with drug during accelerated and real time stability studies. However, in active ingredients of the applied formulation and Panadol Sinus Pain & Congestion relief day tablets are different from each other.
10.	Complete batch manufacturing record of three stability batches.	The firm has manufactured three stability batches of Paracetamol + Phenylephrine hydrochloride Tablets (500mg + 5mg) and has submitted copy of complete batch manufacturing. Details are as under: Coldene day Tablet 500/5mg. Batch No. Bach size Mfg. Date Trial # 01 1500 Tablets 08-2019 Trial # 02 1500 Tablets 08-2019 Trial # 03 1500 Tablets 08-2019
11.	Record of comparative dissolution data (where applicable)	Firm has submitted CDP against Panadol CF day caplet, Batch No. KU7Y in three different mediums i.e. 0.1N HCl, Acetate Buffer pH 4.5 & Phosphate Buffer pH 6.8 and F2 values for some other formulation have been submitted.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of stability chambers.

Remarks of the Evaluator:

Sr. No.	Observations	Submission by the firm.
1	Latest GMP certificate/inspection report conducted within last three years of the finished product manufacturer shall be submitted.	Firm has also submitted GMP inspection report dated 24-01-2018. ***Provided GMP inspection report is not within last three years.***
2	COA's of the drug substances by Wilson pharma shall be submitted.	Firm has submitted COA of paracetamol with Batch No. 19GN60173 manufacturing date 01-03-2019 manufactured by M/s Saakh Pharma. Firm also submitted COA of phenylephrine HCl with Batch No. PEH-180101Y1 manufacturing date 27-12-2017 manufactured by M/s Shenzhen Oriental Pharmaceutical Co., Ltd.

3	• Approval of API/ DML/ valid GMP certificate of drug substance manufacturer issued by concerned regulatory authority of country of origin for Phenylephrine hydrochloride shall be submitted. • Analytical method of drug substance from both drug substance manufacturer and Finished Product manufacturer shall be submitted. • Stability study data for Phenylephrine Hydrochloride from the concerned manufacturer shall be submitted.	• Firm has submitted Certificate No.GD190014 issued by Guangdong Food and Drug Administration Wherein M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzin, Guangdong, China complies with the requirements of the Chinees Good Manufacturing Practice (= GMP of EU, WHO/ICH Q7). Certificate is valid till 11-09-2022. **However, Title as per Online Link:** Shenzhen Woland Pharmaceutical Co., Ltd. No. 43, Dakeng Road, Tongle Community, Longgang Street, Longgang District, Shenzhen. **Title as per submitted GMP:** M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzin, Guangdong, China. Submitted. Submitted.
4	Starch pregelatinized maize, Talc purified and stearic acid are used by the innovator product while the applied formulation does not have the same. Innovator product has no sodium starch glycolate (Primojel) while the applied formulation has used Primojel. Clarification is required.	• Firm has submitted that stearic acid & Talcum is a lubricant/glidant and is used for enhancing the flow properties of the material. As our formulated material already had excellent flow properties so we didn't add any lubricant. • Our formulation contains sodium starch glycolate (Primojel) which is derivative of starch and it has excellent disintegrating properties as compared to starch so Primojel was preferred over starch. Moreover, our product is tested and found to be stable chemically and physically with existing formulation.
5	COA of paracetamol used in the stability studies by both the drug substance manufacturer and the finished product manufacturer shall be submitted.	Submitted.
6	Justification for selection of dissolution parameters including dissolution medium, apparatus, time and limits.	Firm has submitted that parameters for dissolution method were developed /selected for the applied formulation as per DRAP guidelines method mentioned in 293rd meeting of the Registration Board held on 06th – 08th January, 2020. Furthermore, dissolution method for above mentioned combination is not available in any pharmacopoeia nor it is available publicly. Therefore, in-house method for dissolution testing was developed and validated. All results observed in stability studies were within the limits.

7	F2 values in comparative dissolution profile for some other product have been submitted. Clarification is required.	Firm has submitted new sheets for the comparative dissolution profile wherein the F2 values for the applied product has been submitted.
8	Executed BMR's have shown three percent of overages of the active ingredients. Justification / Clarification is required.	Firm submitted that 3% overage is included to compensate process losses during manufacturing. The batch size is lab scale of 1500 tablets. The amount of active is paracetamol 500mg, and phenylephrine HCl 5mg and 3% overage cause an increase in amount to 515.0 mg and 5.15 mg respectively. The overage ensures a content uniformity within range as per USP 2018.
Decision of 317th meeting of Registration Board		Deferred for the following reasons; • GMP certificate/last inspection report conducted within last three years. • Scientific justification of 03% overage of the active ingredients in the applied formulation. • Justification for using different excipients from the innovator product.
Submission by the firm.		
GMP certificate/last inspection report conducted within last three years.		GMP certificate No.F.3-96/2022-Addl.Dir.(QA&LT-I) dated August, 2022 on the basis of inspection conducted on 28-07-2022 is submitted by the applicant.
Scientific justification of 03% overage of the active ingredients in the applied formulation.		Firm has submitted an undertaking that when we manufacture the commercial batches of the applied formulation before marketing, we will not add any overages.
Justification for using different excipients from the innovator product.		Firm has submitted an undertaking that when we manufacture the commercial batches of the applied formulation before marketing, we will follow the same formulation as per innovator's product.
Remarks of the Evaluator;		
Decision: Approved with innovator's specifications. • **Registration letter will be issued after submission of fee of Rs. 7,500/- for correction/pre-approval change in the method of manufacture/specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.** • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		

Agenda of Evaluator PEC-XVI

A : Human (Deferred)

81.	Name and address of manufacturer/ Applicant	Metro Pharmaceuticals, plot No. 14, Street No. SS-2, National Industrial Zone, Rawat, Islamabad.
	Brand Name + Dosage Form + Strength	PEDIATRO ORAL SOLUTION (Orange Flavor)
	Composition	Each 500 ml contains: Sodium Chloride……..…1.75 mg Trisodium Citrate Dihydrate…… 1.45 mg Potassium Chloride…….0.75 mg Glucose Anhydrous……10 mg

	Diary No. Date of R & I & fee	Dy. No 16491 dated 28-09-2017; Rs.20000/- dated 27-09-2017 ***Dy.NO 25001 dated 09-09-2021 (Duplicate Dossier)***	
	Pharmacological Group	Oral Rehydration Salt/ Electrolyte	
	Type of Form	Form-5	
	Finished product Specification	Manufacturer;s specifications	
	Pack size & Demanded Price	1's * 500 ml, As per SRO	
	Approval status of product in Reference Regulatory Authorities	WHO Standard ORS formulation Sodium Chloride …….3.5 g/ L Potassium Chloride ……1.5 g/L Trisodium Citrate, dihydrate…… 2.9 g/L Glucose Anhydrous …….20.0 g/L	
	Me-too status	Pedinex Oral Rehydration Solution by M/s Nexus Pharma (Pvt) Ltd (Reg#057883)	
	GMP status	Panel GMP inspection of firm was conducted on 21-08-2020 and 02-09-2020 with following conclusion "Keeping in view the above stated observation during inspection, areas visited, documents reviewed it is concluded that M/s Metro Pharmaceuticals, plot No.14, SS-2, National Industrial Zone, Rawat -is operating in compliance to the guidance on GMP as prescribed in the schedule B-II of the Drugs (LR&A) rules 1976 as of today."	
	Remark of the Evaluator [XVI]	Deficiency letter was issued to firm and asked to provide: 1. Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board 2. Evidence of facility for terminal sterilization as product is preservative free as per reference product and has a shelf life.	1. Firm has submitted section approval letter mentioning Liquid (Vial) and Liquid (Ampoule) as evidence of terminal sterilization facility and undertaking that they will perform terminal sterilization as per innovator product, along with fee challan No. 4164321868 dated 02/3/22 of 7500/= 2. Evidence of approval of applied formulation in reference regulatory authority/agencies which were adopted by the registration Board is not provided.
	Previous decision of 316th meeting: Deferred for verification of sterilization facility for 500 ml plastic bottle.		
	Reply of the firm	Firm has submitted an undertaking along with reply stating that, Metro Pharmaceuticals hereby declare that each batch of product will be sterilization through irradiation Via Authorized third party named Paras Radiation Company located at 18Km, Multan Road, Lahore. PARAS is providing Gamma Irradiation services to local and multi-national pharmaceutical companies and medical disposable manufacturing industries since 1988.irradiation services for preservation of foods, fruits, vegetables, medical devices, pharmaceutical products and a whole range of other products. The only cold – sterilization services providing and immediate, high degree of sterility and homogeneous penetration. Other Pharmaceutical companies like GSK, Remington, Abbott,	

		ICL, Barret Hodgson and Shiagan also use their facility of sterilization. For details kindly see the below link http://atcop.org.pk/paras/#:~:text+PARAS%20is%20providing%20gamma%irradiation,whole%20range%20of%20other%20products.	
	Remarks of evaluator		
	Decision :Deferred for provision of suitable sterilization facility as sterilization of 500 ml bottle at PARAS is not possible.		
82.	Name and address of manufacturer/ Applicant	Metro Pharmaceuticals, plot No. 14, Street No. SS-2, National Industrial Zone, Rawat, Islamabad.

		• Firm has submitted Lay out plan approval letter of Cephalosporin section.
	Remarks of Evaluator	• Firm has not submitted form -5 as per prescribed format of form-5 as per Drug Registering, Licensing & advertising rules 1976 along with undertaking at the end of form-5. • Pre-registration variation fee challan is not provided. • Section approval letter of Cephalosporin from CLB is not provided.
	Decision: Deferred for following shortcomings: • **Firm has not submitted form -5 as per prescribed format of form-5 as per Drug Registering, Licensing & advertising rules 1976 along with undertaking at the end of form-5.** • **Pre-registration variation fee challan is not provided.** • **Section approval letter from CLB is not provided**	
94.	Name and address of manufacturer/ Applicant	Macquin's International, F-2/H., P.T.C Industrial Complex,S.I.T.E,Karachi.
	Brand Name + Dosa5ge Form + Strength	Macopime Injection 250 Mg (I.V/I.M)
	Composition	Each vial Contain: Cefepime Hcl (with Sterile L-Arginine) eq.to Cefipime…….. 250 Mg
	Diary No. Date of R & I & fee	Dy. No 11995 dated 06-03-2019; Rs.20,000/- dated 05-03-2019.
	Pharmacological Group	Antibiotic
	Type of Form	Form-5
	Finished product Specification	U.S.P specification
	Pack size & Demanded Price	1's Glass Vial (USP type II), as per SRO
	Approval status of product in Reference Regulatory Authorities	Approval status of product in Reference Regulatory Authorities not confirmed.
	Me-too status	
	GMP status	Firm has not provided GMP within last 3 years.
	Remarks of the Evaluator	• GMP inspection report within last 3 years is required. • Form-5 as per prescribed format of Drug Registering, Licensing & advertising is required along with preregistration fee challan. • Complete method of manufacturing is required. • Section approval letter of Dry Powder Injection (cephalosporin) is required. • Approval status of product in Reference Regulatory Authorities not confirmed.
	Decision: Deferred for following shortcomings; **1.** GMP inspection report within last 3 years is required. **2.** Form-5 as per prescribed format of Drug Registering, Licensing & advertising is required along with preregistration fee challan. **3.** Complete method of manufacturing is required. **4.** Section approval letter of Dry Powder Injection (Cephalosporin) from CLB is required. **5.** Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.	
	Reply of Firm	• Firm has submitted reply vide dairy No. 23931 dated 24-08-2022 along with checklist of form -5 dully signed and stamped and manufacturing method. Firm has also mentioned Combo pack with Diluent "Each ampoule of solvent Contain: Sterile water for Injection (B.P) ……10 ml • Firm has also submitted copy of GMP inspection conducted on 24-02-2022 conducted by FID, Khi concluded that firm is operating at satisfactory level of GMP compliance with positive intention of firm for further improvement in future.

		• Firm has submitted Lay out plan approval letter of Cephalosporin section.
	Remarks of the Evaluator	• Firm has not submitted form -5 as per prescribed format of form-5 as per Drug Registering, Licensing & advertising rules 1976 along with undertaking at the end of form-5. • Pre-registration variation fee challan is not provided. • Section approval letter of Cephalosporin from CLB is not provided. • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting and me too/generic product registered in Pakistan is not provided.
	Decision: Deferred for following shortcomings: • **Firm has not submitted form -5 as per prescribed format of form-5 as per Drug Registering, Licensing & advertising rules 1976 along with undertaking at the end of form-5.** • **Pre-registration variation fee challan is not provided.** • **Section approval letter from CLB is not provided**

97.	Name and address of manufacturer/ Applicant	M/s A.H. Pharmaceuticals (Pvt) Ltd, 865/A. S.I.T.E, Sargodha Road, Faislabad
	Brand Name + Dosa5ge Form + Strength	Keachlor Syrup
	Composition	Each 5ml Contains: Chlorpheniramine maleate ……..2mg
	Diary No. Date of R & I & fee	Dy.No. 5731 dated 16-02-2018 Rs. 20,000/-
	Pharmacological Group	Anti-allergic
	Type of Form	Form-5
	Finished product Specification	Manufacturer's Specification
	Pack size & Demanded Price	120ml: As per SRO
	Approval status of product in Reference Regulatory Authorities	could not be confirmed
	Me-too status	Staiton Syrup of Standard Drug Company, Hyderabad.
	GMP status	GMP Inspection conducted on 04-07-2017 recommended renewal of DML by the way of formulation.
	Remarks of the Evaluator	Evidence of reference Product in plastic container is required.
	Previous Decision of 290th meeting	Registration Board in its 290th meeting decided as follow: • For evidence of approval of applied formulation in HDPE Bottle in reference agencies. • Evidence of applied formulation/drug already approved by DRAP (generic/me-too status) along with registration number, brand name and name of firm is required.
	Evaluation By PEC	Applicant has submitted the following: • We will use highly resistant amber glass bottles along with aluminum seal cap. • Evidence of Me too: • Evidence of International availability:
	Previous Decision of 292nd meeting	Deferred for the following: • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm is required.\ • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.
	Reply of firm	Firm has submitted reply vide Dairy No. 2097 PEC DRAP dated 14-09-2022 and refereed to • Reg 068446 Colen Syrup by Alliance Pharmaceuticals (Pvt) Ltd, 112-A, Hayatabad Industrial Estate Jamrud Road, Peshawar. • Piriton Syrup,MHRA Approved (150 ml amber glass and plastic bottle)
	Remarks of evaluator	• Current GMP status of firm • Innovator Specification • Reference product pack size is 150 ml whereas applied pack size is 120 ml.

	Decision: Approved with innovator specification. The firm shall submit valid GMP certificate/inspection before issuance of registration letter.The firm shall submit preregistration variation fee of 7500/= for revision of finished product specification as per SRO.No. F.7-11/2012-B&A/DRAP dated 13-07-2021

Agenda of Evaluator PEC-XII

98.	Name, address of Applicant / Marketing Authorization Holder	M/s StandPharm Pakistan (Pvt) Ltd, 20 Km, Ferozpur Road, Lahore
	Name, address of Manufacturing site.	M/s StandPharm Pakistan (Pvt) Ltd, 20 Km, Ferozpur Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 28327 dated 14/10/2021
	Details of fee submitted	PKR 30,000/-: dated 28/09/2021
	The proposed proprietary name / brand name	Riomed DS Suspension 250mg/5ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml (when reconstituted) contains: Clarithromycin (as taste masked granules 27.5%) ……..... 250mg
	Pharmaceutical form of applied drug	White to off-white granular powder packed in Plastic Bottle (HDPE)
	Pharmacotherapeutic Group of (API)	Macrolide antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1's (60 ml)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Clarithromycin 250mg/5ml granules for oral suspension by Abbott Laboratories Limited (UK) MHRA Approved.
	For generic drugs (me-too status)	Klaricid DS Suspension by Abbott Laboratories (Pakistan) Ltd. Reg. No. 076148
	GMP status of the Finished product manufacturer	StandPharm Pakistan (Pvt) Ltd: DML renewal inspection report conducted on 18-02-2020 recommending renewal of DML.
	Name and address of API manufacturer.	M/s Surge Laboratories (Pvt) Ltd. 10-KM, Faisalabad Road Bikhi, District Sheikhupura – Pakistan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard,

		container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Clarithromycin for oral suspension is present in USP. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: CTM-AB-001J, CTM-AB-002J, CTM-AB-003J
	Module-III (Drug Product):	The firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation, control of excipients, control of drug product. Specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted results of pharmaceutical equivalence for their product against the Klaricid DS Suspension by Abbott Laboratories (Pakistan) Ltd. The results of all the tests of both products falls within the specifications and are comparable.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity, repeatability, linearity.

STABILITY STUDY DATA

Manufacturer of API	M/s Surge Laboratories (Pvt) Ltd. 10th KM, Faisalabad Road Bikhi, District Sheikhupura – Pakistan.		
API Lot No.	CTM-1-566		
Description of Pack (Container closure system)	Plastic Bottle (HDPE) 100ml with spoon, leaflet and unit carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 26 weeks Accelerated: 26 weeks		
Frequency	Accelerated: 0,1,2,3,4,6,8,12,16,20,24, 26 weeks Real Time: 0,1,2,3,4,6,8,12,16,20,24, 26 weeks		
Batch No.	TRLRS-001	TRLRS-002	TRLRS-003
Batch Size	200 vials	200 vials	200 vials
Manufacturing Date	05-2019	05-2019	05-2019
Date of Initiation	03-05-2019	07-05-2019	08-05-2019
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Neon 2g IV Injection approved in 317th meeting of Registration Board (16-17 May 2022).

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 182/2019-DRAP (AD-823166-158) dated 04-07-2019 issued by DRAP, Lahore. DML No. 000649 renewed w.e.f. 12-12-2018.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of invoice No.19010534-SG dated 29-01-2019 Batch # CTM-1-5-66 specifying local purchase of 50 kg from surge laboratories.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

i. GMP inspection report/ GMP certificate issued within the last three years is not submitted. However, panel inspection report for renewal of DML conducted on 18-02-2020 is submitted.
ii. The firm has used batch size of only 200 Bottles in stability studies without any justification.
iii. Frequency of testing is different (0,1,2,3,4,6,8,12,16,20,24, 26 weeks) from standard frequency (0,3,6 months) in stability studies.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Agenda of AD PE&R (Sarfraz Nawaz)

Registration applications for local manufacturing of (veterinary) drugs:

a) New/Additional Section(s)

M/s Farm Aid Group, Plot No. 3/2, Phase I & II, Hattar Industrial Estate, Haripur:

The Central Licensing Board in its 286th meeting held on 11th May, 2022 has considered and approved the following six (06) additional sections in the name of M/s M/s Farm Aid Group, Plot No. 3/2, Phase I & II, Hattar Industrial Estate, Haripur by way of Formulation under Drug Manufacturing License No. 000298 (Formulation):-

		Block-B	
S#	**Name of Section**	**S#**	**Name of Section**
1.	Oral Powder-II (General-Veterinary)- **Additional**	2.	Oral Powder Section-III (General-Veterinary)- **Additional**
3.	Oral Liquid-II (General-Veterinary)- **Additional**	4.	Steroid Injection (Veterinary)- **Additional**
5.	Oral Bolus-II (General-Veterinary)- **Additional**	6.	Liquid Injection Section (General-Veterinary)- **Additional**

Following applications have been submitted by the firm against above sections

Liquid Injection Section (General-Veterinary) (35 Products / 5 Molecules)		
99.	**Name and address of manufacturer / Applicant**	M/s Farm Aid Group, Plot No. 3/2, Phase I & II, Hattar Industrial Estate, Haripur.

	Decision: Approved with innovator's specifications.	

Agenda of Evaluator PEC-III

Case No. 01 Registration applications of New section / New License

Case No. 01: M/s Akhsah Pharmaceuticals (Pvt) Ltd, Rawat.

Firm has submitted copy of Drug Manufacturing License (DML No. 000943) issued dated 14-09-2021 along with letter of issuance of Drug Manufacturing License dated 14-09-2021. The letter specifies following section:
1. Tablet Section (General)
2. Capsule Section (General)
3. Cream/Ointmnt section (General)

Now the firm has submitted following applications as per the details mentioned in the table below:

Name of Section	No of molecules	No of products
Tablet Section (General)	02	04
Capsule Section (General)	05	08
Cream/Ointmnt section (General)	-	-

Capsule Section (General): 05 Molecules / 08 Products

211.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.**
	Name, address of Manufacturing site.	M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021. The letter specifies following section: 1. Tablet Section (General) 2. Capsule Section (General) 3. Cream/Ointmnt section (General)

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 18961: 29-06-2022
	Details of fee submitted	PKR 30,000/- : 27-06-2022
	The proposed proprietary name / brand name	**OMICA 20mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule Contains: Omeprazole (as enteric coated pellets)…..20mg
	Pharmaceutical form of applied drug	Off white spherical shaped enteric coated pellets filled in hard gelatin capsule
	Pharmacotherapeutic Group of (API)	PPI
	Reference to Finished product specifications	USP
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**USFDA Approved**
	For generic drugs (me-too status)	Risek Capsule by Getz
	Name and address of API manufacturer.	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification

		of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the comparator product Omega capsule of Feroesons Lab. Firm has submitted results of CDP for their product against the comparator product Omega capsule of Feroesons Lab.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.		
API Lot No.	OMP1131		
Description of Pack (Container closure system)	Alu-alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	CP-01/O20	CP-02/O20	CP-03/O20
Batch Size	5000 Capsule	5000 Capsule	5000 Capsule
Manufacturing Date	01-2022	01-2022	01-2022
Date of Initiation	22-02-2022	22-02-2022	22-02-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 4Kg 8.5% Omeprazole EC pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm

1.	Justify why the drug substance specifications of the drug substance manufacturer is different from USP monograph. Further justify performing assay test by HPLC method using different column, flow rate and injection volume from that specified in USP monograph.	We performed the assay of Omica 20mg Capsule by HPLC according to USP monograph, and our column was expired so that is why we change the old with new one having same specifications i.e dimension, length and pore size. **Firm has not submitted any revised analytical method and any relevant analytical record.**
2.	Justify why the drug substance specifications of the drug product manufacturer are different from the specifications of drug substance manufacturer as well as USP pharmacopoeia. Your specifications do not include analytical method for dissolution test.	We performed dissolution according to USP monograph and we must have revised our SAP and dissolution method according to USP monograph. **The submitted dissolution specification by the firm are different from USP.**
3.	Provide verification studies of drug substance from drug product manufacturer.	As omeprazole 8.5% pellets are ready to fill capsule and we performed analytical method verification at drug product stage so please consider it.
4.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number OMP1131 from both API manufacturer as well as drug product manufacturer
5.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
6.	Your CDP results show that the average drug release at 30-minute time point in 6.8pH phosphate buffer is 59.31%, and at 60 minutes is 74.39% while as per USP monograph the drug product should exhibit more than 75%(Q) drug release in 30 minutes at 6.8 pH phosphate buffer in test-1. Justify how your product can comply USP specifications and can have comparable drug release as that of innovator drug product.	We showed the comparison of our product which are released in 30 minutes, in 6.8 phosphate buffer is 59.31% and reference product at same condition released 60.26% so the similarity factors between reference product and sample product are in limit and comply the USP specification. **Innovator product, USP as well as API manufacturer specify that the drug should exhibit more than 75%(Q) drug release in 30 minutes at 6.8 pH phosphate buffer.**
7.	Specify the exact dissolution test for your drug product specifications, since USP has mentioned two different tests for dissolutionin which acceptance criteria as well as analytical methods are different.	We followed the USP monograph dissolution method Test 2 for omica 20mg capsules. **The details of analytical method submitted by the firm were different from USP test-2.**
8.	You have mentioned dissolution test acceptance criteria as NLT 75%(Q) in 30 minutes, while in stability studies you have mentioned the dissolution acceptance criteria as NLT75% in 45 minutes.	The acceptance criteria for dissolution is NLT 75% (Q) in 45 minutes according to USP monograph test-2. **The provided analytical method by the firm was not as per USP test-2.**
9.	Your analytical method submitted in section 3.2.P.5.2 has provided dissolution test method and formula for HPLC while in stability studies you have perfomed dissolution test using UV	The assay of omica 20mg capsule are performed by HPLC according to USP monograph and acid stage dissolution is also performed by recovery method on HPLC and buffer stage is performed on UV.

	method. Clarification is required in this regard.	**Firm has performed dissolution test as per UV method in the stability studies.**
10.	Provide details about the HPLC system, total number of HPLC system along with details of its software and model.	We have total 2 HPLC systems. One is Perkin Elmer Series 200 from start of the day which is American made, auto sampler, quaternary gradient, 21st CFR compliance and can accommodate 100sample/vials at a time having UV detector and operate by Total Chrome software. After some times we purchase another HPLC unit i.e Water Alliance separation module model 2695, American made, auto sampler ,quaternary gradient, 21st CFR compliance having the capacity of 120 samples /vials at a time, equipped with Photodiode Array detector and operate by Empower 2 software.
11.	Provide details about the stability chambers, total number of chambers including details of the model and capacity for each.	We have total 4 stability chambers 2 are made by Galvano Scientific model STC-SS-400-LAC having capacity of 250 liters. 2 are made by Varoline Intercooler model SSS-15R having capacity of 500 liters.
12.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 4Kg 8.5% Omeprazole EC pellets.

Decision: Approved. Registration Board decided as follows:

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter shall be issued upon submission of following documents:**
  - **a. Results of pharmaceutical equivalence and Comparative Dissolution Profile (CDP) against the innovator's product i.e. Losec 20mg Capsule.**
  - **b. Performance of dissolution test as per USP test-2 method at next time point of Long term stability studies.**
  - **c. Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

212.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.**
	Name, address of Manufacturing site.	M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021. The letter specifies following section: 1. Tablet Section (General) 2. Capsule Section (General) 3. Cream/Ointmnt section (General)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 19519: 04-07-2022
	Details of fee submitted	PKR 30,000/- : 27-06-2022
	The proposed proprietary name / brand name	**OMICA 40mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule Contains: Omeprazole (as enteric coated pellets)…..40mg
	Pharmaceutical form of applied drug	Off white spherical shaped enteric coated pellets filled in hard gelatin capsule
	Pharmacotherapeutic Group of (API)	PPI
	Reference to Finished product specifications	USP
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**USFDA Approved**
	For generic drugs (me-too status)	Risek Capsule by Getz
	Name and address of API manufacturer.	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the comparator product Omega capsule of Feroesons Lab. Firm has submitted results of CDP for their product against the comparator product Omega capsule of Feroesons Lab.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.		
API Lot No.	OMP1141		
Description of Pack (Container closure system)	Alu-alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	CP-01/40	CP-02/O20	CP-03/O20
Batch Size	5000 Capsule	5000 Capsule	5000 Capsule
Manufacturing Date	02-2022	02-2022	02-2022
Date of Initiation	22-02-2022	22-02-2022	22-02-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 3Kg 22.5% Omeprazole EC pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Justify why the drug substance specifications of the drug substance	We performed the assay of Omica 40mg Capsule by HPLC according to USP monograph, and our column

	manufacturer is different from USP monograph. Further justify performing assay test by HPLC method using different column, flow rate and injection volume from that specified in USP monograph.	was expired so that is why we change the old with new one having same specifications i.e dimension, length and pore size. **Firm has not submitted any revised analytical method and any relevant analytical record.**
2.	Justify why the drug substance specifications of the drug product manufacturer are different from the specifications of drug substance manufacturer as well as USP pharmacopoeia. Your specifications do not include analytical method for dissolution test.	We performed dissolution according to USP monograph and we must have revised our SAP and dissolution method according to USP monograph. **The submitted dissolution specification by the firm are different from USP.**
3.	Provide verification studies of drug substance from drug product manufacturer.	As omeprazole 22.5% pellets are ready to fill capsule and we performed analytical method verification at drug product stage so please consider it.
4.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number OMP1141 from both API manufacturer as well as drug product manufacturer
5.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
6.	Justify how exactly same results of CDP studies are reported for both 20mg capsule and 40mg capsule when tested against omega capsule of Ferozesons Laboratories.	Onward we performed the CDP studies carefully according to DRAP guideline as well as FDA. **Firm has not submitted complete results of CDP studies.**
7.	Specify the exact dissolution test for your drug product specifications, since USP has mentioned two different tests for dissolutionin which acceptance criteria as well as analytical methods are different.	We followed the USP monograph dissolution method Test 2 for omica 20mg capsules. **The details of analytical method submitted by the firm were different from USP test-2.**
8.	You have mentioned dissolution test acceptance criteria as NLT 75%(Q) in 30 minutes, while in stability studies you have mentioned the dissolution acceptance criteria as NLT75% in 45 minutes.	The acceptance criteria for dissolution is NLT 75% (Q) in 45 minutes according to USP monograph test-2. **The provided analytical method by the firm was not as per USP test-2.**
9.	Your analytical method submitted in section 3.2.P.5.2 has provided dissolution test method and formula for HPLC while in stability studies you have perfomed dissolution test using UV method. Clarification is required in this regard.	The assay of omica 20mg capsule are performed by HPLC according to USP monograph and acid stage dissolution is also performed by recovery method on HPLC and buffer stage is performed on UV. **Firm has performed dissolution test as per UV method in the stability studies.**
10.	Provide details about the HPLC system, total number of HPLC system along with details of its software and model.	We have total 2 HPLC systems. One is Perkin Elmer Series 200 from start of the day which is American made, auto sampler, quaternary gradient, 21st CFR compliance and can accommodate 100sample/vials at a time having UV detector and operate by Total Chrome software.

		After some times we purchase another HPLC unit i.e Water Alliance separation module model 2695, American made, auto sampler ,quaternary gradient, 21st CFR compliance having the capacity of 120 samples /vials at a time, equipped with Photodiode Array detector and operate by Empower 2 software.
11.	Provide details about the stability chambers, total number of chambers including details of the model and capacity for each.	We have total 4 stability chambers 2 are made by Galvano Scientific model STC-SS-400-LAC having capacity of 250 liters. 2 are made by Varoline Intercooler model SSS-15R having capacity of 500 liters.
12.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 3Kg 22.5% Omeprazole EC pellets.

Decision: Approved. Registration Board decided as follows:

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter shall be issued upon submission of following documents:**
  - **a. Results of pharmaceutical equivalence and Comparative Dissolution Profile (CDP) against the innovator's , /comparator product.**
  - **b. Performance of dissolution test as per USP test-2 method at next time point of Long term stability studies.**
  - **c. Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 4Kg 8.5% esomeprazole EC pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Provide verification studies of drug substance from drug product manufacturer.	As esomeprazole 8.5% pellets are ready to fill capsule and we performed analytical method verification at drug product stage so please consider that.
2.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number EMZ046406 from both API manufacturer as well as drug product manufacturer

3.	Justify how 1.178mg of esomeprazole magnesium trihydrate 8.5% EC pellets are equivalent to 20mg esomeprazole.	Theoretical filled weight of esox 20mg capsule is 235.29mg which are equivalent to 20mg of esomeprazole magnesium trihydrate. Our batch size is 5000 capsules, so for such batch size we need 1.176 kg of esomeprazole. **Firm has not justified fill weight per capule.**
4.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
5.	Your CDP results show that the average drug release at 30-minute time point in 6.8pH phosphate buffer is 59.31%, while as per USP monograph the drug product should exhibit more than 75%(Q) drug release in 30 minutes at 6.8 pH phosphate buffer. Justify how your product can comply USP specifications and can have comparable drug release as that of innovator drug product.	We showed the comparison of our product which are released in 30 minutes, in 6.8 phosphate buffer is 59.31% and reference product at same condition released 60.26% so the similarity factors between reference product and sample product are in limit and comply the USP specification. **As per Innovator product, USP as well as API manufacturer the drug should exhibit more than 75%(Q) drug release in 30 minutes at 6.8 pH phosphate buffer, but the CDP results of the firm are contrary to this.**
6.	Justify the drug product specifications submitted in section 3.2.P.5.2 in which you have performed dissolution testing in acid stage using UV method, while USP monograph specifies that dissolution testing to be performed using HPLC method.	On 6th month stability we performed proper testing according to USP monograph on HPLC. **Firm has not submitted revised analytical method as well as analytical record for dissolution testing through HPLC.**
7.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 4Kg 8.5% esomeprazole EC pellets.

Decision: Approved. Registration Board decided as follows:

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **For commerical batches, manufacturer shall apply the actual potency determined by drug substance analysis for the calculation of fill weight of Esomeprazole pellets per capsule**
- **Registration letter shall be issued upon submission of following documents:**
  a. **Results of pharmaceutical equivalence and Comparative Dissolution Profile (CDP) against the innovator's/comparator product.**
  b. **Performance of dissolution test as per USP monograph at next time point of Long term stability studies.**
  c. **Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 3Kg 22.5% esomeprazole EC pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm

		has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Provide verification studies of drug substance from drug product manufacturer.	As esomeprazole 22.5% pellets are ready to fill capsule and we performed analytical method verification at drug product stage so please consider that.
2.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number EMZ046404 from both API manufacturer as well as drug product manufacturer
3.	Justify how 177.7mg of esomeprazole magnesium trihydrate 22.5% EC pellets are equivalent to 40mg esomeprazole.	Theoretical filled weight of esox 40mg capsule are 177.77mg which are equivalent to 40mg of esomeprazole magnesium trihydrate and we have 22.5% pellet so 100/22.5 x 40 =177.77mg.  **The capsule shall contain 40mg of esomeprazole and the actual salt form is esomeprazole magnesium trihydrate. The API manufacturer has provided 22.5% esomeprazole magnesium. As evident from the structure, two molecules of esomeprazole are joined with a single magnesium to make esomeprazole magnesium. That's why calculation of fill weight shall take into consideration all these things before making the final formulation.**
4.	You have specified API lot number EMZ046406 as 8.5% EC pellets in ESOX 20mg Capsule application and also provided COA of the same lot of API i.e. EMZ046406 as 22.5% EC pellets in ESOX 40mg Capsule	API lot number for esomeprazole 8.5% pellets in esox 20mg capsules are EMZ046406 while for esomeprazole 22.5% pellets in esox 40mg Caps are EMZ046404.
5.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
6.	Your CDP results show that the average drug release at 30-minute time point in 6.8pH phosphate buffer is 67.59%, while as per USP monograph the drug product should exhibit more than 75%(Q) drug release in 30 minutes at 6.8 pH	We showed the comparison of our product which are released in 30 minutes, in 6.8 phosphate buffer is 67.59% and reference product at same condition released 68.12% so the similarity factors between reference product and sample product are in limit and comply the USP specification.

	phosphate buffer. Justify how your product can comply USP specifications and can have comparable drug release as that of innovator drug product.	**As per Innovator product, USP as well as API manufacturer the drug should exhibit more than 75%(Q) drug release in 30 minutes at 6.8 pH phosphate buffer, but the CDP results of the firm are contrary to this.**
7.	Justify the drug product specifications submitted in section 3.2.P.5.2 in which you have performed dissolution testing in acid stage using UV method, while USP monograph specifies that dissolution testing to be performed using HPLC method.	On 6th month stability we performed proper testing according to USP monograph on HPLC. **Firm has not submitted revised analytical method as well as analytical record for dissolution testing through HPLC.**
8.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 26-11-2021 specifying purchase of 3Kg 22.5% esomeprazole EC pellets.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **For commerical batches, manufacturer shall apply the actual potency determined by drug substance analysis for the calculation of fill weight of Esomeprazole pellets per capsule**
- **Registration Board further decided that registration letter shall be issued upon submission of following:**

i. **Results of pharmaceutical equivalence and Comparative Dissolution Profile (CDP) against the innovator's/comparator product.**
ii. **Performance of dissolution test as per USP monograph at next time point of Long term stability studies.**
iii. **Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

215.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.**
	Name, address of Manufacturing site.	M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021. The letter specifies following section: 1. Tablet Section (General) 2. Capsule Section (General) 3. Cream/Ointmnt section (General)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

	Dy. No. and date of submission	Dy. No. 10886: 29-04-2022
	Details of fee submitted	PKR 30,000/- : 28-04-2022
	The proposed proprietary name / brand name	**DENSA 30mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule Contains: Dexlansoprazole (as dual delayed release pellets)…..30mg
	Pharmaceutical form of applied drug	White to off white spherical pellets filled in hard gelatin capsule
	Pharmacotherapeutic Group of (API)	PPI
	Reference to Finished product specifications	USP
	Proposed Pack size	30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**USFDA Approved**
	For generic drugs (me-too status)	Razodex Capsule by Getz
	Name and address of API manufacturer.	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product

		against the comparator product Delanzo capsule of Sami Pharmaceuticals. Firm has submitted results of CDP for their product against the comparator product Delanzo capsule of Sami Pharmaceuticals.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.		
API Lot No.	DSL825		
Description of Pack (Container closure system)	Alu-alu blister

Manufacturing Date	12-2021	12-2021	12-2021
Date of Initiation	21-01-2022	21-01-2022	21-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 29-11-2021 specifying purchase of 7Kg 22.5% dexlansoprazole DDR pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance	Submission of data in section 3.2.S.4.1 as per DRAP guideline which specifies that copies of drug substance specification and analytical procedure used for routine

	specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	testing of drug substance by both drug substance and drug product manufacturer is provided.
2.	Provide verification studies of drug substance from drug product manufacturer.	As we have used ready to fill pellets and has same specification of raw material and filled capsule and we have performed verification in product stage so please consider it as verification.
3.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number DSL825 from both API manufacturer as well as drug product manufacturer
4.	Justify why pharmaceutical equivalence studies does not include dissolution test.	In pharmaceutical equivalence study we have performed dissolution but mistakenly not include in the report, now the firm has submitted the report.
5.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
6.	The innovator product is available as dual delayed release pellets in HPMC capsule shells while your product is in hard gelatin capsule shells. Justification is required in this regard.	The innovator product is available as delay released pellets in HPMC capsule shell while our product is in hard gelatin capsule shell we have performed stability studies there is no effect of capsule shell in stability study
7.	The drug substance manufacturer specifies that dissolution testing in buffer stage is to be carried out at 284nm, while you have specified dissolution testing in buffer at 292nm. Justification is required in this regard.	According to drug substance manufacturer the wavelength of dissolution of dexlansoprazole in buffer stage at about 284nm we revised our SAP as per drug substance manufacturer and set wavelength about 292nm in our revised SAP but next time we change our revised SAP about 284nm. **Firm has not submitted revised analytical method or relevant analytical record.**
8.	You have used a different HPLC column for assay testing of the drug product from that recommended by drug substance manufacturer. Justification is required in this regard.	We performed the assay of Densa 30mg Capsule by HPLC according to **USP monograph**, and our column was expired so that is why we change the old with new one having same specifications i.e dimension, length and pore size. **USP monograph for the applied product does not exist, moreover no analytical record is submitted which shows that the HPLc column have been changed. Moreover the verification studies are performed at old column.**
9.	Provide stability data sheets for accelerated and real time stability studies results for the three batches, since your results sheets are not properly arranged.	Firm has submitted stability data sheets for accelerated and real time stability studies results for the three batches
10.	Justify the assay testing of drug product using UV method, since the innovator product as well as drug substance manufacturer specifies HPLC method for assay testing.	We performed the assay on UV method according to drug substance manufacturer UV method. Drug substance manufacturer specifies HPLC method as well as UV method for assay which is already provided.
11.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 29-11-2021 specifying purchase of 7Kg 22.5% dexlansoprazole DDR pellets.

Decision: Deferred for following: • **Submission of stability study data of the drug product at next time on revised specifications and analytical method in which assay test is performed using HPLC method since applied poduct is non pharmacopoeial and drug substance manufacturer has applied HPLC method for the Assay test of Dexlansoprazole pellets.** • **Submission of 7500/- fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**		
216.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.**

Manufacturing Date	01-2022	01-2022	01-2022
Date of Initiation	28-01-2022	28-01-2022	28-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 13-12-2021 specifying purchase of 7Kg 22.0% Itraconazole IR pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm

1.	Provide verification studies of drug substance from drug product manufacturer.	Itraconazole pellets are ready to fill and drug substance specification is same as drug product, we have performed on drtug product stage.
2.	Provide stability study data of three batches of drug substance as per zone IV-A conditions, since the submitted real time stability study data is only for 6 months.	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
3.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number ICZ1489 from both API manufacturer as well as drug product manufacturer
4.	Your CDP results submitted for itraconazole capsule is exactly same as that submitted in omeprazole 20mg and omeprazole 40mg capsule application.	Onward we performed the CDP studies carefully according to DRAP guideline as well as FDA. **Firm has not submitted complete results of CDP studies.**
5.	Specify the exact dissolution test for your drug product specifications, since USP has mentioned two different tests for dissolutionin which acceptance criteria as well as analytical methods are different.	For itraconazol capsule we have performed dissolution test 1.
6.	Your analytical method specfies that dissolution test is through UV method while in stability studies you have performed dissolution test at HPLC.	According to USP dissolution method of itraconazol is on UV method but we have performed it on HPLC using same parameters followed in assay.
7.	Justify how same standard solution chromatograms are used for dissolution and assay test in stability studies.	We performed dissolution and assay on HPLC makes same concentration for assay as well as dissolution.
8.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 13-12-2021 specifying purchase of 7Kg 22.0% Itraconazole IR pellets.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **For commerical batches, manufacturer shall apply the actual potency determined by drug substance analysis for the calculation of fill weight of Esomeprazole pellets per capsule.**
- **Registration Board further decided that registration letter shall be issued upon submission of following:**

a. Results of Comparative Dissolution Profile (CDP) against the innovator's/comparator product.
b. Performance of dissolution test as per USP monograph at next time point of Long term stability studies.
c. Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

		☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manufacturing License (DML No. 000943) dated 14-09-2021. The letter specifies following section: 1. Tablet Section (General) 2. Capsule Section (General) 3. Cream/Ointmnt section (General)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 12816: 25-05-2022
	Details of fee submitted	PKR 30,000/- : 12-05-2022
	The proposed proprietary name / brand name	**LANSA 30mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule Contains: Lansoprazole…..30mg
	Pharmaceutical form of applied drug	Off white spherical shaped enteric coated pellets filled in hard gelatin capsule
	Pharmacotherapeutic Group of (API)	PPI
	Reference to Finished product specifications	USP
	Proposed Pack size	14’s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**USFDA Approved**
	For generic drugs (me-too status)	Selanz SR Capsule by Searle
	Name and address of API manufacturer.	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the comparator product QPro capsule of Bosch Pharma. Firm has submitted results of CDP for their product against the comparator product QPro capsule of Bosch Pharma.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	Vision Pharmaceuticals (Pvt) Ltd Plot No. 22-23 Industrial Traingle Kahuta Road, Islamabad.		
API Lot No.	LPS0379		
Description of Pack (Container closure system)	Alu-alu blister		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	CP-01/L30	CP-02/L30	CP-03/L30
Batch Size	5000 Capsule	5000 Capsule	5000 Capsule
Manufacturing Date	01-2022	01-2022	01-2022
Date of Initiation	28-01-2022	28-01-2022	28-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 31-07-2019 based on the inspection dated 11-02-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 10-12-2021 specifying purchase of 6Kg 8.5% Lansoprazole EC pellets.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Justify why the drug substance specifications of the drug substance manufacturer is different from USP monograph. Further justify the assay test using UV method while USP recommends HPLC assay for assay test.	Specification of drug substance manufacture are provided and we will also must be followed the USP monograph as we followed in 6th month stability studies. **The submitted specifications are not as per USP. No revised specifications are submitted by the firm.**
2.	Justify why the drug substance specifications of the drug product manufacturer are different from the specifications of drug substance manufacturer as well as USP pharmacopoeia. Your specifications do not include dissolution test at buffer stage, clarification is required in this regard.	We revised our testing method according to USP monograph and we have performed buffer stage dissolution in 6th month stability. **The submitted specifications are not as per USP. No revised specifications are submitted by the firm.**
3.	Provide verification studies of drug substance from drug product manufacturer.	As lansoprazole enteric coated pellets are ready to fill capsule and we performed analytical method verification at drug product stage so please consider him.
4.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number LPS0379 from both API manufacturer as well as drug product manufacturer
5.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
6.	Your CDP results show that the average drug release at 60-minute time point in 6.8pH phosphate buffer is 78.46%, while as per USP monograph the drug product should exhibit more than 80% drug release in 60 minutes at 6.8 pH phosphate buffer. Justify how your product can comply USP specifications and can have comparable drug release as that of innovator drug product.	The comparison of our product which are released in 60 minutes, in 6.8 phosphate buffer is 78.46% and reference product at same condition released 78.53% so the similarity factors between reference product and sample product are in limit and comply the USP specification. **As per Innovator product, USP as well as API manufacturer the drug should exhibit more than 80% drug release in 60 minutes at 6.8 pH phosphate buffer, but the CDP results of the firm are contrary to this.**
7.	Justify the drug product specifications submitted in section 3.2.P.5.2 in which you have performed dissolution testing	According to USP monograph the wavelength of lansoprazole buffer stage dissolution is about 286 and

	in buffer stage using UV method at 306nm, while USP monograph specifies that testing to be performed using UV method at about 286 and 650 nm.	650 nm we revised our SAP as per USP monograph and set wavelength about 332 nm in our revised SAP. **Firm has not submitted revised analytical method as well as analytical record for dissolution testing through HPLC.**
8.	Justify why you have used different HPLC column for product testing than that specified in USP monograph.	On 6th month stability we used specific column described in USP monograph and also revised our method. **Firm has not submitted revised analytical method as well as analytical record for dissolution testing through HPLC.**
9.	You have specified dissolution acceptance criteria as NLT 80% in 60 minutes in buffer stage, while in stability studies you have specified acceptance criteria as NLT 80% in 30 minutes. Justification is required in this regard.	We revised our method according to USP monograph and also performed dissolution according to pharmacopeia on 6th month. **Firm has not submitted revised analytical method as well as analytical record for dissolution testing through HPLC.**
10.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 10-12-2021 specifying purchase of 6Kg 8.5% Lansoprazole EC pellets.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **For commerical batches, manufacturer shall apply the actual potency determined by drug substance analysis for the calculation of fill weight of Esomeprazole pellets per capsule.**
- **Registration Board further decided that registration letter shall be issued upon submission of following:**

a. Results of Comparative Dissolution Profile (CDP) against the innovator's/comparator product.
b. Performance of dissolution test as per USP monograph at next time point of Long term stability studies.
c. Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 02-09-2020 based on the inspection dated 22-06-2020.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 20-12-2021 specifying purchase of 8Kg moxifloxacin hydrochloride.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures	Submission of data in section 3.2.S.4.1 as per DRAP guideline which specifies that copies of drug substance specification and analytical procedure used for routine testing of drug substance by both drug substance and drug product manufacturer is provided.

	used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	
2.	Provide verification studies of drug substance from drug product manufacturer.	Verification study of drug substance for drug product manufacturer are attached.
3.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number 00510711/008/2021 from both API manufacturer as well as drug product manufacturer
4.	Justify why your formulation is qualitatively different from the innovator product.	We follow innovator formulation, only two different inactive like polyvinylpyroliodne K-30 use for binding of tablet, make the paste of PVP-30 in isopropylalcohol, this paste is used for binding purpose and silicon dioxide is used for powder flow from hopper to disc. Our product Moxip 400mg Tablet is stable after checking of 3rd month stability and 6th month stability studies. **The formulation of the firm is qualitatively different from the innovator's product.**
5.	Justify why you have not performed pharmaceutical equivalence and CDP studies against innovator product.	We have tried to find innovator product but we can not found so that is why we purchase product of national pharma and performed CDP and pharmaceutical equivalence against that product.
6.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
7.	Provide analytical method for the testing of drug product in section 3.2.P.5.2.	**Firm has not submitted analytical method for the testing of drug product**
8.	Justify why your analytical method for drug product is different from USP in terms of column and calculation formula.	**No response submitted by the firm.**
9.	Justify how same results of dissolution and assay test is received at 3rd month time point for accelerated and real time stability studies for Batch TB-01/M400.	By mistakenly we write same result, actual result are attached along with chromatoghram which are not same. **Firm has not submitted any new analytical record.**
10.	Justify the significant change in assay result i.e. from 106.91% to 99.49% in accelerated stability study for batch TB-01/M400.	**Significant change occur in assay result of accelerated study for batch TB-01-M400 is due to some technical issue in our accelerated stability chamber, now it is in good working condition and such kinds of issue will not be repeated.**
11.	Justify the significant change in assay result i.e. from 106.00% to 99.75% in accelerated stability study for batch TB-02/M400.	**Significant change occur in assay result of accelerated study for batch TB-02-M400 is due to some technical issue in our accelerated stability chamber, now it is in good working condition and such kinds of issue will not be repeated.**
12.	Justify the significant change in assay result i.e. from 106.79% to 98.77% in accelerated stability study for batch TB-03/M400.	**Significant change occur in assay result of accelerated study for batch TB-03-M400 is due to some technical issue in our accelerated stability chamber, now it is in good working condition and such kinds of issue will not be repeated.**

13.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 20-12-2021 specifying purchase of 8Kg moxifloxacin hydrochloride.

Decision: Deferred for following submissions:

- **Report of drug-excipient compatibility studies, since the qualitative compositions is different from the innovator's product.**
- **Complete results of pharmaceutical equivalence and Comparative Dissolution Profile (CDP) studies against the innovator's product i.e. Avelox Tablet.**
- **Analytical method for testing of drug product.**
- **Scientific justification how same results of assay and dissolution test is received at 3rd month time point at both accelerated and real time stability studies.**
- **Explanation of the technical issues in the accelerated stability chambers which leads to significant change in the results along with submission of report of digital data logger of the relevant accelerated stability chamber to support the explanation.**
- **Submission of 7500/- fee for revision of specifications to USP as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

220.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Akhsah Pharmaceuticals (Pvt) Ltd. Plot No 47, Street No. S-10, RCCI Industrial Estate, Rawat.**

Batch Size	5000 Tablet	5000 Tablet	5000 Tablet
Manufacturing Date	02-2022	02-2022	02-2022
Date of Initiation	23-02-2022	23-02-2022	23-02-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 02-09-2020 based on the inspection dated 22-06-2020.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 06-12-2021 specifying purchase of 25Kg ciprofloxacin hydrochloride.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Justify how drug substance manufactured by Pharmagen complies both USP as well as BP specs.	As ciprofloxacin are given in BP I-590 and also in USP NF43 volume I that is why pharmagen complies both USP as well as BP specification.
2.	Provide verification studies of drug substance from drug product manufacturer.	Verification study of drug substance for drug product manufacturer are provided.
3.	Provide stability study data of 3 batches of drug substance as per zone IV-A conditions, since the submitted real time stability data is only till 12 months.	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 36 months.
4.	Justify why your formulation is qualitatively different from the innovator product.	Innovator used croscormilose sodium for disintegration purpose and we AKHSAH pharma used sodium starch glycolate for such purpose, both material are used as disintegrent in pharmaceuticals. Innovator used Povidone and we AKHSAH pharma used polyvinylpyrolidine K-30 for binding purpose both are same materials. Innovator used hypromellose, macrogyl 400 and titanium dioxide for coating purpose and we AKHSAH pharma used Newcoat white ready to used material which contain above three materials so both have same role. Our product Zipro 250mg tablet is stable after checking of 3rd month and 6th month stability studies.

		The formulation of the firm is qualitatively different from the innovator's product.
5.	Justify why you have not performed pharmaceutical equivalence and CDP studies against innovator product.	As innovator product was not available at that time in market so we performed pharmaceutical equivalence and CDP aginst Novidate 250mg tablets of Sami Pharma. Onward we used a register innovator product in Pakistan if exist.
6.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
7.	Provide analytical method for the testing of drug product in section 3.2.P.5.2.	Firm has submitted specifications of the finished product. **However, the calculation formula for assay testing is different from that specified in USP.**
8.	Justify why you are using UV method for testing drug product while USP recommends HPLC method.	We follow USP monograph for testing of drug product , according USP monograph assay of ciprofloxacin is on HPLC and dissolution on UV.
9.	The analytical method of assay test of drug product submitted in verification studies is different from USP in terms of column, injection volume and calculation formula. Justification is required in this regard.	The chromatoghrapic condition written in verification studies are mistakenly type, we must follow conditions and calculation of assay and dissolution according to USP monograph onward.
10.	The retention time of the ciprofloxacin peak during stability studies varied from 2.09 minuts to over 5 minutes. Justification is required in this regard.	Due to column efficiency it was occuered, now we arranged recommend columns for each product and such situation will not be repeated in onward. **The firm have changed the column.**
11.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 06-12-2021 specifying purchase of 25Kg ciprofloxacin hydrochloride.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **For commerical batches, manufacturer shall apply the actual potency determined by drug substance analysis for the calculation of fill weight of Esomeprazole pellets per capsule.**
- **Registration Board further decided that registration letter shall be issued upon submission of following:**

a. Results of Comparative Dissolution Profile (CDP) against the innovator's product.

b. Performance of dissolution test as per USP monograph at next time point of Long term stability studies.

c. Fee of Rs. 7500/- for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

Batch Size	5000 Tablet	5000 Tablet	5000 Tablet
Manufacturing Date	01-2022	01-2022	01-2022
Date of Initiation	28-01-2022	28-01-2022	28-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on 02-09-2020 based on the inspection dated 22-06-2020.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 06-12-2021 specifying purchase of 25Kg ciprofloxacin hydrochloride.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of compliance of 21 CFR.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Justify how drug substance manufactured by Pharmagen complies both USP as well as BP specs.	As ciprofloxacin are given in BP I-590 and also in USP NF43 volume I that is why pharmagen complies both USP as well as BP specification.
2.	Provide verification studies of drug substance from drug product manufacturer.	Verification study of drug substance for drug product manufacturer are provided.
3.	Provide stability study data of 3 batches of drug substance as per zone IV-A conditions, since the submitted real time stability data is only till 12 months.	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
4.	Justify why your formulation is qualitatively different from the innovator product.	Innovator used croscormilose sodium for disintegration purpose and we AKHSAH pharma used sodium starch glycolate for such purpose, both material are used as disintegrent in pharmaceuticals. Innovator used Povidone and we AKHSAH pharma used polyvinylpyrolidine K-30 for binding purpose both are same materials. Innovator used hypromellose, macrogyl 400 and titanium dioxide for coating purpose and we AKHSAH pharma used Newcoat white ready to used material which contain above three materials so both have same role. Our product Zipro 250mg tablet is stable after checking of 3rd month and 6th month stability studies. **The formulation of the firm is qualitatively different from the innovator's product.**
5.	Justify why you have not performed pharmaceutical equivalence and CDP studies against innovator product.	As innovator product was not available at that time in market so we performed pharmaceutical equivalence and CDP aginst Novidate 250mg tablets of Sami Pharma. Onward we used a register innovator product in Pakistan if exist.
6.	Provide detailed results of Comparative Dissolution Profile (CDP) since you have only provided average results at each time point instead of providing result of individual tablet release.	We performed detail result of comparative dissolution profile according to FDA next time and revised our method as per DRAP guideline. As we mention only the similarity factor of reference product and sample product in our CDP. **Firm has not submitted complete results of CDP studies.**
7.	Ciprofloxacin 250mg tablet shows more than 80% release in 30 minutes in acidic medium, while Ciprofloxacin 500mg tablet shows 6.07% release in 120 minutes. Justification is required in this regard.	Refrence sample released 5.41% and our sample zipro 500mg tablet release 6.07% in 120minutes in acidic medium is the average values of comparison. Onward we performed comparative dissolution profile studies for each tablet individually as per DRAP guideline as well as FDA guideline. **Firm has not justified this significant difference in drug release.**
8.	Provide analytical method for the testing of drug product in section 3.2.P.5.2.	Firm has submitted specifications of the finished product.

		However, the calculation formula for assay testing is different from that specified in USP.
9.	Justify why you are using UV method for testing drug product while USP recommends HPLC method.	We follow USP monograph for testing of drug product, according USP monograph assay of ciprofloxacin is on HPLC and dissolution on UV.
10.	The analytical method of assay test of drug product submitted in verification studies is different from USP in terms of column, injection volume and calculation formula. Justification is required in this regard.	The chromatoghrapic condition written in verification studies are mistakenly type, we must follow conditions and calculation of assay and dissolution according to USP monograph onward.
11.	The retention time of the ciprofloxacin peak during stability studies varied from 2.09 minuts to over 9 minutes. Justification is required in this regard.	Due to column efficiency it was occuered, now we arranged recommend columns for each product and such situation will not be repeated in onward. **The firm have changed the column.**
12.	Submit evidence of procurement of drug substance incuding copy of commercial invoice.	Firm has submitted copy of commercial invoice dated 06-12-2021 specifying purchase of 25Kg ciprofloxacin hydrochloride.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Provide analytical method for water for injection in bulk in section 3.2.S.4.2, since the submitted method is not as per latest edition of BP monograph.	We have submitted the method for water for injection in bulk in section 3.2.S.4.2 that we have considered Pharmacopeia latest edition BP 2022.
2.	Justify why validation of analytical procedure of drug substance and drug product is not performed	The testing of drug substance or drug product do not involve any analytical testing like HPLC or UV analysis. The testing only involves Impurities, pH, conductivity, microbiological sterility & Endotoxin etc which only requires a calibrated equipment and does not require performing validation or verification studies.
3.	Provide details about the container closure system in which water for injection in bulk will be stored.	The container closure system in which water for injection in bulk will be stored in stainless steel container (316L).
4.	Justify why you have mentioned "not applicable" against the stability studies of drug substance in section 3.2.S.7.	Not applicable since it is explained in we have submitted that as Distilled water Manufacturing facilities are in-house.
5.	Define the maximum time period for which the bulk water for injection (drug substance) can be stored before filling in ampoule.	We use freshly prepared Distilled water just before batch manufacturing. We will not store Distilled water more than 2 hours.
6.	Justify why the test of residue on evaporation, Particulate contamination: sub-visible particles and sterility is not performed in pharmaceutical evaluation although these tests are specified in BP monograph.	We are performing these test regularly &will continuously in future also. Residue on evaporation Maximum 4 mg (0.004 per cent) for containers with a nominalvolume of 10 mL or less; maximum 3 mg

		(0.003 per cent) for containers with a nominalvolume greater than 10 rnL Evaporate 100 mL to dryness on a water-bath and dry in an oven at 100-105 ·C. Particulate contamination: sub-visible particles (2.9.19) It complies with test A or test B, as appropriate. Sterility (2.6.1)
7.	Justify why the test of residue on evaporation and Particulate contamination: sub-visible particles is not included in your drug product specifications although these tests are specified in BP monograph.	We are performing these test regularly &will continuously in future also. Residue on evaporation Maximum 4 mg (0.004 per cent) for containers with a nominalvolume of 10 mL or less; maximum 3 mg (0.003 per cent) for containers with a nominalvolume greater than 10 rnL Evaporate 100 mL to dryness on a water-bath and dry in an oven at 100-105 ·C. Particulate contamination: sub-visible particles (2.9.19) It complies with test A or test B, as appropriate. Sterility (2.6.1)
8.	Provide analytical method for sterile water for injection in section 3.2.P.5.2, since the submitted method is not as per latest edition of BP monograph.	Firm has submitted detailed analytical method for water for injection as per BP.
9.	Justify how initial stability study results are different for accelerated and real time stability studies.	We are submitted initial stability study result are different accelerated and real time stability studies. But minor change in results according to 2 different analyst testing variation. But results are in range according to BP. Then we have change the practice. We performed the test of same batch on zero month time point.

Discussion: Registration Board was apprised of the inspection report of the firm for the purpose of grant of new license. The report specifies the following facilities:

Formulations	Pharmacological category	Activities
Small volume Parenterals (SVP)	General	Solution preparation tanks (02 in number) with mixers, Circulation Pump, Filtration Assembly, Ampoule Rommelage Blow Fill Seal Machine.
Large volume Parenterals (LVP)	General	Hot runner molds (02 in number), injection molding machine for pre-form, Euro-cap mold, injection molding machine, for Weuro-cap, Solution preparation tanks (02 in number) with mixers, Circulation Pump, Filtration Assembly, Bottle Blowing machine, Bottle Filling Machine, Bottle Capping Machine.

Decision: Approved with change in brand name.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	NA
3.	Documents for the procurement of API with approval from DRAP (in case of import).	NA
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Provide analytical method for water for injection in bulk in section 3.2.S.4.2, since the submitted method is not as per latest edition of BP monograph.	We have submitted the method for water for injection in bulk in section 3.2.S.4.2 that we have considered Pharmacopeia latest edition BP 2022.

2.	Justify why validation of analytical procedure of drug substance and drug product is not performed	The testing of drug substance or drug product do not involve any analytical testing like HPLC or UV analysis. The testing only involves Impurities, pH, conductivity, microbiological sterility & Endotoxin etc which only requires a calibrated equipment and does not require performing validation or verification studies.
3.	Provide details about the container closure system in which water for injection in bulk will be stored.	The container closure system in which water for injection in bulk will be stored in stainless steel container (316L).
4.	Justify why you have mentioned "not applicable" against the stability studies of drug substance in section 3.2.S.7.	Not applicable since it is explained in we have submitted that as Distilled water Manufacturing facilities are in-house.
5.	Define the maximum time period for which the bulk water for injection (drug substance) can be stored before filling in ampoule.	We use freshly prepared Distilled water just before batch manufacturing. We will not store Distilled water more than 2 hours.
6.	Justify why the test of residue on evaporation, Particulate contamination: sub-visible particles and sterility is not performed in pharmaceutical evaluation although these tests are specified in BP monograph.	We are performing these test regularly &will continuously in future also. Residue on evaporation Maximum 4 mg (0.004 per cent) for containers with a nominalvolume of 10 mL or less; maximum 3 mg (0.003 per cent) for containers with a nominalvolume greater than 10 rnL Evaporate 100 mL to dryness on a water-bath and dry in an oven at 100-105 ·C. Date of Initiation	21-01-2022	21-01-2022	21-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. HE20180030) issued by China Food and Drug Administration. The certificate is valid till 22-04-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 04-01-2022. The invoice declare purchase of 25Kg sodium chloride (Batch No. 210909). Firm has submitted copy of License to import on Form 6 dated 03-12-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Specify the fill volume of applied product, since you have mentioned 100ml on covering	The fill volume in section 1.5.3 is corrected SAFESOL-NS infusion 100ml in place of 500ml.

	letter and fee challan while 500ml in section 1.5.3.	
2.	Specify finished product specification in section 1.5.6 along with submission of applicable fee.	Finished product specification in section 1.5.6 according to BP 2022. Firm has not submitted fee for revision of specifications.
3.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted specifications of drug substance from both Drug substance & Drug Product manufacturer.
4.	Provide verification studies of drug substance from drug product manufacturer.	Firm has submitted report f verification studies of the analytical method of drug substance performed by drug product manufacturer.
5.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch 21104 from both API manufacturer as well as drug product manufacturer.
6.	Provide COA of reference standard actually used in the analysis of drug substance and drug product.	Firm has submitted copy of COA of reference standard from the API supplier which was standardized against the BP reference standard.
7.	Provide actual signed data sheets for three batches of the drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	Firm has submitted signed and stamped stability data sheets as per zone IV-A in which real time stability data is conducted till 60 months.
8.	Clarify the specifications and analytical method used to perform pharmaceutical equivalence studies.	Firm has submitted specifications and analytical method as per BP used to perform pharmaceutical equivalence studies.
9.	Justify the finished product specification, because your specifications and analytical procedures are different from both BP as well as USP monograph.	Firm has submitted specifications as per BP monograph. However firm has not submitted any fee for revision of specs.
10.	Justify your pH range acceptance criteria because this range is different from that specified in any official monograph as well as reference product.	Firm has submitted that we will follow BP specificatiosn for pH as well.
11.	Justify the in house specifications on which you have performed validation studies.	We are the following BP monograph but performed completely analytical method validation.
12.	Provide stability study data of three batches, since stability data of only 1 batch is submitted.	Firm has submitted stability data sheets for three batches.
13.	You have specified that drug substance manufacturer is M/s Hebei Huachen Pharmaceutical Co. Ltd. Huanghua Economic Development Zone, Hebei PR China while the commercial invoice is from Zhejiang Top Hankook Biopharm Co. Ltd. Justification is required in this regard.	M/s Hebei Huachen Pharmaceutical Co. Ltd. Huanghua Economic Development Zone, Hebei PR China Is the manufacturing company. While Zhejiang Top Hankook Biopharm Co. Ltd china Is the Exporter trader.
14.	Describe your container closure system in detail whether it contains Eurocap or not along with evidence of this facility (if applicable).	firm has single facilities to manufacture the Simple caps to seals the bottles through sealing machine.

		Firm has not specified whether they are using Eurocap or not.
15.	Provide details regarding the method of sterilization of the drug product.	Our Sterilizers/ autoclave are PLC controlled with Automatic additional time selection in Sterilization cycle. Details of sterilization process is provided by firm.
16.	Justify the performance of stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container, while ICH guidelines recommend performing stability studies at 30°C ± 2°C / 35% ± 5%RH and 40°C ± 2°C / NMT 25% RH for products packed in semi permeable containers.	Stability study Performed at 30°C ± 2°C at 65% + 5%RH, and at 40°C + 2°C at 75% + 5%RH additional water loss study was performed as per ICH guidelines and the data for water loss was submitted.
	Justify why you have not perfoemed test of water loss during the stability studies.	Firm has submitted that they have performed additional water loss study as per ICH guidelines and the data for water loss was submitted.
17.	The BMR shows that manufacturing of batches started on 21-01-2022, and in your stability data sheets you have specified that stability studies was initiated on 21-01-2022. Justification is required in this regard.	The firm has manufactured the All batches (T-001/T-002/T-003) for stability studies only. Firm has not submitted any justification against this query.
18.	Describe the minimum and maximum filling capacity of the manufacturing and filling facility.	Our approved Facilities consist of IV infusion section which includes all volume. Detailed capacity was mentioned in attached list (3.2.A Production Machine List). The details of the simple cap machine are provided below simple cap Machine. No. Made Capacity Pac Size Machine

Machine	Made	Capacity	Pack Size
simple Cap Welding Machine	ISBM CHINA	50,000 Bottle/day	100 mL/ 500mL / 1000mL

Decision: Approved with change in brand name.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm will specify whether the product is with Eurocap or without before issuance of Registration Letter.**
- **Registration Board further decided that registration letter will be issued after submission of applicable fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 4, 5, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	250 liters	250 liters	250 liters
Manufacturing Date	01-2022	01-2022	01-2022
Date of Initiation	22-01-2022	22-01-2022	22-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. HE20180030) issued by China Food and Drug Administration. The certificate is valid till 22-04-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 04-01-2022. The invoice declare purchase of 25Kg sodium chloride (Batch No. 210909). Firm has submitted copy of License to import on Form 6 dated 03-12-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Specify the fill volume of applied product, since you have mentioned 100ml on covering letter and fee challan while 500ml in section 1.5.3.	The fill volume in section 1.5.3 is corrected SAFESOL-NS infusion 100ml in place of 500ml.
2.	Specify finished product specification in section 1.5.6 along with submission of applicable fee.	Finished product specification in section 1.5.6 according to BP 2022. Firm has not submitted fee for revision of specifications.
3.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted specifications of drug substance from both Drug substance & Drug Product manufacturer.
4.	Provide verification studies of drug substance from drug product manufacturer.	Firm has submitted report f verification studies of the analytical method of drug substance performed by drug product manufacturer.
5.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch 21104 from both API manufacturer as well as drug product manufacturer.
6.	Provide COA of reference standard actually used in the analysis of drug substance and drug product.	Firm has submitted copy of COA of reference standard from the API supplier which was standardized against the BP reference standard.
7.	Provide actual signed data sheets for three batches of the drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	Firm has submitted signed and stamped stability data sheets as per zone IV-A in which real time stability data is conducted till 60 months.
8.	Clarify the specifications and analytical method used to perform pharmaceutical equivalence studies.	Firm has submitted specifications and analytical method as per BP used to perform pharmaceutical equivalence studies.
9.	Justify the finished product specification, because your specifications and analytical procedures are different from both BP as well as USP monograph.	Firm has submitted specifications as per BP monograph. However firm has not submitted any fee for revision of specs.
10.	Justify your pH range acceptance criteria because this range is different from that specified in any official monograph as well as reference product.	Firm has submitted that we will follow BP specificatiosn for pH as well.
11.	Justify the in house specifications on which you have performed validation studies.	We are the following BP monograph but performed completely analytical method validation.
12.	Provide stability study data of three batches, since stability data of only 1 batch is submitted.	Firm has submitted stability data sheets for three batches.

Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	10.5 liters	10.5 liters	10.5 liters
Manufacturing Date	01-2022	01-2022	01-2022

Date of Initiation	15-01-2022	15-01-2022	15-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. SD20180787) issued by China Food and Drug Administration. The certificate is valid till 14-10-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of License to import on Form 6 dated 03-12-2021. Firm has submitted copy of commercial invoice cleared dated 04-01-2022. The invoice declare purchase of 50Kg Dextrose anhydrous.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Provide evidence of applied formulation as dextrose anhydrous in reference regulatory authorities.	Dextrose and glucose are used in the same meanings. Baxter UK manufacture glucose 5% From glucose monohydrate that means dextrose monohydrate; is utilized by Baxter UK which is same as dextrose anhydrous with one additional molecule of water and approved by US FDA.
2.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted specifications of drug substance from both Drug substance & Drug Product manufacturer.
3.	Provide verification studies of drug substance from drug product manufacturer.	Firm has submitted report f verification studies of the analytical method of drug substance performed by drug product manufacturer.
4.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch 202112028 from both API manufacturer as well as drug product manufacturer.
5.	Provide COA of reference standard actually used in the analysis of drug substance and drug product.	Firm has submitted copy of COA of reference standard from the API supplier which was standardized against the BP reference standard.
6.	Provide actual signed data sheets for three batches of the drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is	Firm has submitted signed and stamped stability data sheets as per zone IV-A in which real time stability data is conducted till 36 months.

<table>
<tr><td></td><td>placed instead of being signed and stamped by drug substance manufacturer.</td><td></td></tr>
<tr><td>7.</td><td>The submitted specifications in section 3.2.P.5.1 contains test of physical appearance, pH, volume variation limit, identification and assay, while further tests are also specified in pharmaceutical equivalence and analytical procedures in section 3.2.P.5.2.</td><td>Firm has submitted specifications and analytical method as per BP used to perform pharmaceutical equivalence studies.</td></tr>
<tr><td>8.</td><td>Provide verification studies of the analytical method of drug product in section 3.2.P.5.3 instead of providing process validation report.</td><td>Firm has submitted verification studies of the analytical method of drug product.</td></tr>
<tr><td>9.</td><td>Describe your container closure system in detail whether it contains Eurocap or not along with evidence of this facility (if applicable).</td><td>Firm has both facilities of manufacturing the Simple caps & Eu ro cap.
Firm has not specified whether they are using Eurocap or not.</td></tr>
<tr><td>10.</td><td>Provide details regarding the method of sterilization of the drug product.</td><td>Our Sterilizers/ autoclave are PLC controlled with Automatic additional time selection in Sterilization cycle. Details of sterilization process is provided by firm.</td></tr>
<tr><td>11.</td><td>Justify the performance of stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container, while ICH guidelines recommend performing stability studies at 30°C ± 2°C / 35% ± 5%RH and 40°C ± 2°C / NMT 25% RH for products packed in semi permeable containers.</td><td>Stability study Performed at 30°C ± 2°C at 65% + 5%RH, and at 40°C + 2°C at 75% + 5%RH additional water loss study was performed as per ICH guidelines and the data for water loss was submitted.</td></tr>

15.	Provide raw data sheet for calculation of results of stability studies at each month time point.	Firm has submitted raw data sheets for results of stability studies at each time point.
16.	Justify how results of initial stability studies are different at accelerated and real time conditions.	We have submitted initial stability result are different accelerated and real time stability studies. But minor change in results according to two different analysts testing variation. But results are in range according to BP. Then we have changed the practice. We performed the test of same batch on zero month time point.
17.	Submit evidence of import including copy of commercial invoice cleared by AD (I&E) DRAP for the import of dextrose batch number 202112028.	Firm has submitted copy of commercial invoice cleared dated 04-01-2022. The invoice declare purchase of 50Kg Dextrose anhydrous.

Decision: Approved with change in brand name.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm will specify whether the product is with Eurocap or without before issuance of Registration Letter.**

Date of Initiation	19-01-2022	19-01-2022	19-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Glucose Anhydrous: Firm has submitted copy of GMP certificate (No. SD20180787) issued by China Food and Drug Administration. The certificate is valid till 14-10-2023. Sodium Chloride: Firm has submitted copy of GMP certificate (No. HE20180030) issued by China Food and Drug Administration. The certificate is valid till 22-04-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Glucose Anhydrous: Firm has submitted copy of License to import on Form 6 dated 03-12-2021. Firm has submitted copy of commercial invoice cleared dated 04-01-2022. The invoice declare purchase of 50Kg Dextrose anhydrous. Sodium Chloride: Firm has submitted copy of commercial invoice cleared dated 04-01-2022. The invoice declare purchase of 25Kg sodium chloride (Batch No. 210909). Firm has submitted copy of License to import on Form 6 dated 03-12-2021.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Provide reference of finished product specifications in module 1 along with submission of fee for revision of specifications.	Firm has submitted reference of finished product specifications as BP without submission of fee.
2.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted specifications of drug substance from both Drug substance & Drug Product manufacturer.
3.	Provide verification studies of drug substance from drug product manufacturer.	Firm has submitted report f verification studies of the analytical method of drug substance performed by drug product manufacturer.
4.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch 202112028 from both API manufacturer as well as drug product manufacturer.
5.	Provide COA of reference standard actually used in the analysis of drug substance and drug product.	Firm has submitted copy of COA of reference standard from the API supplier which was standardized against the BP reference standard.
6.	Provide actual signed data sheets for three batches of the drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	Firm has submitted signed and stamped stability data sheets as per zone IV-A in which real time stability data is conducted till 36 months.
7.	The submitted specifications in section 3.2.P.5.1 contains test of physical appearance, pH, volume variation limit, identification and assay, while further tests are also specified in pharmaceutical equivalence and analytical procedures in section 3.2.P.5.2.	Firm has submitted specifications and analytical method as per BP used to perform pharmaceutical equivalence studies.
8.	Provide verification studies of the analytical method of drug product in section 3.2.P.5.3 instead of providing process validation report.	Firm has submitted verification studies of the analytical method of drug product.
9.	Describe your container closure system in detail whether it contains Eurocap or not along with evidence of this facility (if applicable).	Firm has both facilities of manufacturing the Simple caps & Eu ro cap. Firm has not specified whether they are using Eurocap or not.
10.	Provide details regarding the method of sterilization of the drug product.	Our Sterilizers/ autoclave are PLC controlled with Automatic additional time selection in

<table>
<tr><td></td><td></td><td>Sterilization cycle. Details of sterilization process is provided by firm.</td></tr>
<tr><td>11.</td><td>Justify the performance of stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container, while ICH guidelines recommend performing stability studies at 30°C ± 2°C / 35% ± 5%RH and 40°C ± 2°C / NMT 25% RH for products packed in semi permeable containers.</td><td>Stability study Performed at 30°C ± 2°C at 65% + 5%RH, and at 40°C + 2°C at 75% + 5%RH additional water loss study was performed as per ICH guidelines and the data for water loss was submitted.</td></tr>
<tr><td>12.</td><td>Justify why you have not perfoemed test of water loss during the stability studies.</td><td>Firm has submitted that they have performed additional water loss study as per ICH guidelines and the data for water loss was submitted.</td></tr>
<tr><td>13.</td><td>The BMR shows that manufacturing of batches started on 19-01-2022, and in your stability data sheets you have specified that stability studies was initiated on 19-01-2022. Justification is required in this regard.</td><td>The Product was found completely STERILE after 02 to 03 times B.E.T. Testing further the batches were completely manufactured for stability studies and sterility Process was done two times at 03 months and at 06 months That is why batches were transferred to stability chambers after complete testing and performing B.E.T. Testing. Two to three times.</td></tr>
<tr><td>14.</td><td>Describe the minimum and maximum filling capacity of the manufacturing and filling facility.</td><td>Our approved Facilities consist of IV infusion section which includes all volume. Detailed capacity was mentioned in attached list (3.2.A Production Machine List). The details of the simple cap machine are provided below simple cap Machine.

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	(**MHRA** Approved)
	For generic drugs (me-too status)	Protium Tablet 40mg of M/s Abbott Laboratories (Reg # 021039)
	Name and address of API manufacturer.	M/s Metrochem API Private imited Unit-I, Plot No. 62/C/6, Pipeline Road, Phase-I, I.D.A. Jeedimetla,

		Quthbullapur (M), Medchal-Malkajgiri (Dist), Telangana State, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the reference product i.e. Protium tablet of M/s Abbott Laboratories. Firm has submitted results of CDP for their product against the reference product i.e. Protium tablet of M/s Abbott Laboratories.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA	
Manufacturer of API	M/s Metrochem API Private imited Unit-I, Plot No. 62/C/6, Pipeline Road, Phase-I, I.D.A. Jeedimetla, Quthbullapur (M), Medchal-Malkajgiri (Dist), Telangana State, India.
API Lot No.	PSS/2106041
Description of Pack (Container closure system)	Alu-Alu blister
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH

	Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	2000 Tablet	2000 Tablet	2000 Tablet
Manufacturing Date	09-2021	09-2021	09-2021
Date of Initiation	26-09-2021	27-09-2021	28-09-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Nagarsons Pharmaceutical is a new license facility hence no such inspection has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 36935/TS/2020) issued by Drugs Control Administration Government of Telangana. The certificate is valid till 22-04-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying purchase of 10Kg Pantoprazole sodium sesquihydrate cleared dated 23-08-2021. The invoice is cleared by AD (I&E).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with UV spectra, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable. Our HPLC systems are not 21 CFR compliant
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings Communicated	Response by the firm
1.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of specifications and analytical method of drug substance from both Drug substance & Drug Product manufacturer.
2.	Submit verification studies of the analytical method of drug substance in section 3.2.S.4.3.	Firm has submitted verification studies of the drug substance performed by drug product manufacturer.
3.	Provide COA of reference standard / working standard actually used in the analysis of drug substance and drug product.	Firm has submitted copy of COA of working standard of drug substance.
4.	Justify the comparative dissolution profile studies in which dissolution studies at phosphate buffer pH 6.8 are carried out only at 60 minutes.	**Firm has not submitted any response.**
5.	Specify the type of coating for the applied product since the innovator product specify seal coating and enteric coating.	**Firm has not submitted any response.**

6.	Specify the type of dissolution test for the drug product since USP specifies 4 different type of dissolution tests.	Firm has submitted that they have performed dissolution tests as per USP Test-2 Procedure.
7.	Provide raw data sheets for the analysis of results of assay and dissolution during stability studies.	Firm has submitted analytical record for dissolution and assay testing.
8.	Submit batch manufacturing record for three stability batches.	Firm has submitted copy of BMR of three stability batches.
9.	Submit valid GMP certificate of API manufacturer, since the submitted GMP certificate was valid till 22-04-2021.	Firm has submitted copy of License Retention Certificate dated 27-09-2019. The certificate specify that the license of M/s Metrochem to be retained till 29-09-2024.

Decision: Approved.

- **Registration letter will be issued upon submission of Comparative Dissolution Profile (CDP) studies against the innovator's product.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **For commercial batch manufacturing firm shall use coating materials with similar qualitative composition as per the innovator's product.**

Case No. 02 Registration applications of Form 5Fcases

a. Routine cases of local manufacturing

235.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Quaper (Pvt) Ltd. 26-A, Small Industrial Estate, Lahore Road Sargodha.**
	Name, address of Manufacturing site.	M/s Quaper (Pvt) Ltd. 26-A, Small Industrial Estate, Lahore Road Sargodha.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	The firm has submitted copy of GMP certificate issued on the basis of inspection dated 28-01-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of additional section dated 29-09-2020. The letter specifies following sections: • Tablet (General) (Revised) • Capsule (General) section (New) • R&D Laboratory (New) • Sachet (General) (New)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23832: 31-08-2021
	Details of fee submitted	PKR 30,000/-: 25-08-2021
	The proposed proprietary name / brand name	**DEXIMAX 30mg Capsule**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Dexlansoprazole (as dual delayed release pellets)…….30mg
	Pharmaceutical form of applied drug	Small white round enteric coated pellets encapsulated in hard gelatin capsule
	Pharmacotherapeutic Group of (API)	PPI
	Reference to Finished product specifications	Manufacturer's specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Dexilant capsule **USFDA** Approved.
	For generic drugs (me-too status)	Razodex Capsule by Getz Pharma
	Name and address of API manufacturer.	Vision Pharmaceuticals, Plot No. 22-23, Industrial Triangle Kahuta Road Islamabad.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against Dudex 30mg Capsule of Global Pharmaceuticals. Firm has submitted results of CDP for their product against Dudex 30mg Capsule of Global Pharmaceuticals.

	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

Manufacturing Date	01-2021	01-2021	01-2021
Date of Initiation	18-01-2021	18-01-2021	18-01-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to previous inspection report for their product Kaymax tablet containing diclofenac potassium 75mg tablet. The inspection was conducted on 10-03-2021 verification of product development data and confirmation of CAPA. The report was considered by the Board in its 307th meeting.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Additional Director DRAP, Islamabad dated 31-07-2019. The GMP certificate was granted based on inspection dated 11-02-2019. The GMP certificate is valid till 10-02-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 07-01-2021 specifying purchase of 2Kg dexlansoprazole pellets
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm submitted that their HPLC system is not 21 CFR compliant therefore the audit trail reports are not applicable.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC[3]:

Sr. No	Shortcomings communicated	Response by the firm
1.	Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug	Firm has submitted specifications and analytical method of drug substance from drug product manufacturer as well.

	substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	
2.	Provide verification studies of drug substance from drug product manufacturer.	Firm has submitted that since the product contains ready to fill pellets therefore the validation studies of drug product can also be considered for the drug substance as well since both have same analytical method.
3.	Provide COA of relevant batch of drug substance from both API manufacturer as well as drug product manufacturer which is used in the manufacturing of batches of drug product.	Firm has submitted COA of batch number DLP723 from both API manufacturer as well as drug product manufacturer
4.	Justify why pharmaceutical equivalence and CDP studies were performed against Dudex Capsule of Global Pharmaceuticals instead of innovator's product.	Firm has submitted that since innovator product is not registered in Pakistan therefore they have used comparator product to perform testing as per DRAP guidelines.
5.	The innovator product is available as dual delayed release pellets in HPMC capsule shells while your product is in hard gelatin capsule shells. Justification is required in this regard.	The firm has submitted that we have performed product development and stability studies with hard gelatin capsule and found our product stable as well. Moreover, all comparator products in Pakistan are also available in hard gelatin capsule.
6.	Justify the dissolution testing of drug product using UV method.	We performed the assay on HPLC method according to drug substance manufacturer and performed dissolution on UV method. Our methods are as per the method of Vision Pharmaceuticals.
7.	Submit Batch Manufacturing Record of three batches.	Firm has submitted batch manufacturing record of three stability batches.

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of applicable fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	21 CFR status and audit trail reports on testing of product were not available.

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Registration Board in its 291st meeting held on 02-04th September 2019 allowed contract manufacturing from M/s. English Pharmaceutical Industries, Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore for the following sections:

i. Dry powder Injectable (Penicillin)
ii. Liquid ampoule Injectable (General)
iii. Dry powder Lyophilized Injectable (General)
iv. Large Volume Vial Injectable (General)

Decision: Approved.

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

238.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Horizon Healthcare (Pvt) Ltd. Plot No.35-A, Small Industrial Estate, Taxila**
	Name, address of Manufacturing site.	M/s English Pharmaceuticals Industries. Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the firm	**English pharmaceuticals:** Firm has submitted copy of GMP certificate dated 17-08-2022. The certificate was issued based on the inspection dated 14-07-2022. The certificate specifies dry powder injection penicillin section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of GMP certificate dated 17-08-2022. The certificate was issued based on the inspection dated 14-07-2022. The certificate specifies dry powder injection penicillin section..
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 25534: 14-09-2021
	Details of fee submitted	PKR 75,000/-: 06-09-2021
	The proposed proprietary name / brand name	**ARDCIL Injection 4.5g Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Piperacillin as sodium……4g Tazobactam as sodium …….0.5g
	Pharmaceutical form of applied drug	White to off white powder filled in clear glass vials
	Pharmacotherapeutic Group of (API)	Penicillin antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Piperacillin and tazobactam Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Tazop Injection of Global Pharmaceuticals

	Name and address of API manufacturer.	M/s Sterile India Pvt Ltd. Plot No. 100& 118-G, Phase-IV, Sector-56, HSIIDC, Industrial Estate Kundli District Sonepat Haryana India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against Tazocin Injection of Pfizer.
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Sterile India Pvt Ltd. Plot No. 100& 118-G, Phase-IV, Sector-56, HSIIDC, Industrial Estate Kundli District Sonepat Haryana India.
API Lot No.	SI/ PPT /00170120
Description of Pack (Container closure system)	Glass vial
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)

Batch No.	VZI041	VZI042	
Batch Size	12,394 vials	12,394 vials	
Manufacturing Date	08-2020	08-2020	
Date of Initiation	15-08-2020	15-08-2020	
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 12/80-2Drug1-2019/3739 issued by Food and Drugs Administration Haryana dated 21-05-2019. The certificate is valid till 2 years from the date of issue.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying purchase of 600Kg piperacillin sodium and tazobactam sodium sterile from Sterile India dated 19-02-2020. The invoice is cleared by AD (I&E) DRAP.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	21 CFR status and audit trail reports on testing of product were not available.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Registration Board in its 291st meeting held on 02-04th September 2019 allowed contract manufacturing from M/s. English Pharmaceutical Industries, Link Kattar Bund Road, Thokar Niaz Baig, Multan Road, Lahore for the following sections:

i. Dry powder Injectable (Penicillin)
ii. Liquid ampoule Injectable (General)
iii. Dry powder Lyophilized Injectable (General)
iv. Large Volume Vial Injectable (General)

Decision: Approved.

- **Manufacture process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 03 Registration applications of Form-5 cases

a) Deferred cases

239.	Name and address of manufacturer / Applicant	M/s Wilson's Pharmaceuticals, 387-388, I-9, Industrial Area, Islamabad.
	Brand Name +Dosage Form + Strength	Balance H Tablets 40 mg+12.5mg
	Composition	Each tablet contains: Telmisartan …..40mg Hydrochlorthiazide…..12.5mg
	Diary No. Date of R& I & fee	Dy. No. 10711; 02-10-2017; Rs.20,000/- (02-10-2017)
	Pharmacological Group	Antihypertensive Angiotensin II Receptor Antagonist, Thiazide Diuretic
	Type of Form	Form-5
	Finished product Specification	USP

	Pack size & Demanded Price	14's, 28's 2x7;s 4x7's As per PRC
	Approval status of product in Reference Regulatory Authorities.	Micardis HCT (USFDA Approved)
	Me-too status	Registration Number: 073592 Brand Name: Telzimed Manufacturer Name: Mediate
	GMP status	Last inspection report conducted on 24-01-2018 concluding a very good level of GMP compliance.
	Remarks of the Evaluator. AD PEC V	In reference regulatory authorities like in EMA and USFDA the approved drug is multilayered film coated tablet, while the applied drug is single layered uncoated tablet. Approved in USFDA with box warning. Warning: Fetal Toxicity

Decision of 284th meeting of Registration Board:
Deferred for clarification since the applied formulation is approved in reference regulatory authorities as multilayered film coated tablet, while the applied drug is single layered uncoated tablet.

Response by the firm:

Firm has submitted that the approved drug formulation in RRA is multilayered uncoated tablets rather than multilayered film coated tablets. The detail of approved formulation is appended below:

Sr.No	Reference Regulatory Authority	Brand Name	Link
1	USFDA	Micardis HCT	https://www.accessdata.fda.gov/drugsatfda_docs/label/2016 1162s032lbl.pdf
2	EMA	Actelsar HCT	https://www.ema.europa.eu/en/documents/product-information/actelsar-hct-epar-product-information_en.pdf
3	TGA	Micardis Plus	https://www.ebs.tga.gov.au/ebs/picmi/picmirepository.nsf/p OpenAgent&id=CP-2010-CMI-02483-3

USFDA label specifies that ***MICARDIS HCT is available in three strengths as biconvex two-layered, oblong-shaped, uncoated tablets containing telmisartan and hydrochlorothiazide***:

Accordingly, the firm has submitted revised formulation along with Form 5 and its annexures as per USFDA along with submission of fee 30,000/- vide slip number 84073693357 dated 26-08-2022. The revised label claim of the firm is as follows:

Each uncoated bilayer tablet contains:
Telmisartan……40mg
Hydrochlorthiazide…..12.5mg

- Firm has also submitted copy of GMP certificate issued on the basis of inspection dated 28-07-2022.
- The evidence of availability of bilayered tablet machine is already considered by the Board while considering the other strength of the same product i.e. Balance-H tablets 80/12.5mg in 296th meeting of Registration Board.

Decision: Approved with following label claim:
Each uncoated bilayer tablet contains:
Telmisartan……40mg
Hydrochlorthiazide…..12.5mg

240.	Name and Address of Manufacturer / Applicant	**M/s Wilson's Pharmaceuticals,** 387-388, I-9, Industrial Area, Islamabad.
	Brand Name + Dosage Form + Strength	**Wiltide Plus 50mcg+100mcg Rotacaps**
	Diary No. Date of R & I & fee	Diary No:15455, 18/09/2017, Rs: 20,000/-

	Composition	Each Rotacap contains: Fluticasone propionate …100mcg Salmeterol (as xinafoate) …50mcg
	Pharmacological Group	Adrenergics, Inhalants (Adrenergics in combination with corticosteroids or other drugs, excl. anticholinergics)
	Type of Form	Form-5
	Finished Product Specification	BP
	Pack Size & Demanded Price	28's, 60's/ As per SRO
	Approval Status of Product in Reference Regulatory Authorities.	Seretide Accuhaler 50 microgram /100 microgram /dose inhalation powder, predispensed. by M/s Glaxo Wellcome UK Ltd (MHRA Approved)
	Me-too Status	Not confirmed.
	GMP Status	Last inspection report conducted on 24-01-2018 concluding a very good level of GMP compliance.
	Remarks of the Evaluator.	• Evidence of rotacaps is not found in Reference Regulatory Authorities. This formulation is available as, metered dose dry powder inhaler. • Evidence of rotacaps is not found in available me-too database.
	Decision of 283rd meeting of Registration Board: Deferred for following: • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board	
	Response by the firm: Firm has submitted following documents: • Evidence of Seretide 100 Diskus 50 microgram/100 microgram / dose inhalation powder, pre-dispensed approved in HPRA Ireland. • Me-too status: Seretide Diskus 50/100mcg by GSK • Section approval letter dated 15-09-2021 specifying Dry powder inhaler capsule (Steroidal)-New section. • DPI device: eziHaler (Trademark number 519711) • Delivered dose label claim as: Each delivered dose contains: Salmeterol (as salmeterol xinafoate)……. 47 micrograms Fluticasone propionate……92 micrograms	
	Decision: Approved.	
241.	Name and Address of Manufacturer / Applicant	**M/s Wilson's Pharmaceuticals,** 387-388, I-9, Industrial Area, Islamabad.
	Brand Name + Dosage Form + Strength	**Wiltide Plus 50mcg+250mcg Rotacaps**
	Diary No. Date of R & I & fee	Diary No:15462, 18/09/2017, Rs: 20,000/-
	Composition	Each Rotacap contains: Fluticasone propionate …25mcg Salmeterol (as xinafoate) …50mcg
	Pharmacological Group	Adrenergics, Inhalants (Adrenergics in combination with corticosteroids or other drugs, excl. anticholinergics)
	Type of Form	Form-5
	Finished Product Specification	BP
	Pack Size & Demanded Price	28's, 60's/ As per SRO
	Approval Status of Product in Reference Regulatory Authorities.	Seretide Accuhaler 50 microgram /250 microgram /dose inhalation powder, predispensed. by M/s Glaxo Wellcome UK Ltd (MHRA Approved)
	Me-too Status	Not confirmed.
	GMP Status	Last inspection report conducted on 24-01-2018 concluding a very good level of GMP compliance.
	Remarks of the Evaluator.	• Evidence of rotacaps is not found in Reference Regulatory Authorities. This formulation is available as, metered dose dry powder inhaler.

		• Evidence of rotacaps is not found in available me-too database.
	Decision of 283rd meeting of Registration Board: Deferred for following: • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board	
	Response by the firm: Firm has submitted following documents: • Evidence of Seretide 250 Diskus 50 microgram/250 microgram/dose inhalation powder, pre-dispensed approved in HPRA Ireland. • Me-too status: Seretide Diskus 50/250mcg by GSK • Section approval letter dated 15-09-2021 specifying Dry powder inhaler capsule (Steroidal)-New section. • In the minutes of 283rd meeting of Registration Board, the strength of Fluticasone propionate was inadvertently mentioned as 25mcg instead of 250mcg. • DPI device: eziHaler (Trademark number 519711) • Delivered dose label claim as: Each delivered dose contains: Salmeterol (as salmeterol xinafoate)……. 47 micrograms Fluticasone propionate……231 micrograms	
	Decision: Approved.

	• Delivered dose label claim as: Each delivered dose contains: Salmeterol (as salmeterol xinafoate)……. 47 micrograms Fluticasone propionate……460 micrograms
	Decision: Approved.

Veterinary deferred cases

243.	**Name and address of manufacturer / Applicant**	**M/s Intervac (Pvt) Ltd., 18-Km, Lahore Sheikhupura Road, Sheikhupura, Pakistan**
	Brand Name +Dosage Form + Strength	Oxytofas- DS Injection
	Composition	Each 100ml contains: Oxytocin (Synthetic)…….2000IU
	Diary No. Date of R& I & fee	Dy.No.8144; 10-07-2017; Rs.20,000/- (10-07-2017)
	Pharmacological Group	Hormone
	Type of Form	Form 5
	Finished product Specifications	USP
	Pack size & Demanded Price	100ml; Decontrolled
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status (with strength and dosage form)	Oxytovet Injection Of M/S International Pharma Labs.
	GMP status	Last inspection conducted on 28-02-2017 & 17-03-2017 and report concludes that panel recommend the renewal of injectable section (veterinary) and vaccines section (veterinary).
	Remarks of the Evaluator	
	Decision of 288th meeting of Registration Board: Deferred for the clarification of manufacturing outline as its not inline with the product approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm	
	Response by the firm: Firm has submitted me-too status along with print out from DRAP website database of registered drugs as follows Name: Oxytovet Injection Manufacturer: International Pharma Registration Number: 074756	
	Decision: Deferred for confirmation of required manufacturing facility / section from Licensing Division.	

Agenda of Evaluator PEC-I:

Case No. I: Registration applications submitted on Form 5F (Local Manufacturing)
New Cases:

244.	Name, address of Applicant / Marketing Authorization Holder	M/s Scotmann Pharmaceuticals, 5-D, I-10/3, Industrial Area Islamabad.
	Name, address of Manufacturing site.	M/s Scotmann Pharmaceuticals, 5-D, I-10/3, Industrial Area Islamabad.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale

		☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1025 dated 05-10-2021
	Details of fee submitted	PKR 30,000/-: dated 03-06-2021
	The proposed proprietary name / brand name	Sunny D PFS 5mg/mL Pre-Filled Syringe
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (1mL) contains: Cholecalciferole……..5mg
	Pharmaceutical form of applied drug	Clear and sterile Solution for IM injection in Pre-Filled Syringe
	Pharmacotherapeutic Group of (API)	Vitamin
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	1's, 3's, 5's, 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	1. Vitamin D3 Bon 200000 IU /1mL Solution for injection, ANSM France Approved.
	For generic drugs (me-too status)	Indrop D Injection M/s Neutro Pharmaceutical Pvt Ltd Pakistan., Reg. No. 023170
	GMP status of the Finished product manufacturer	Copy of GMP certificate No. F.3-14/2018-Addl.Dir.(QA&LT-I) (for Government supply/Institution only) issued on the basis of inspection conducted on 09/11/2020. The firm has stated the applied product is being manufactured in General ampoule section.
	Name and address of API manufacturer.	M/s Fermenta Biotech Limited Z-109 B&C, SEZ II, Dahej Taluka, Vagara Dist: Bharuch 392130 Gujarat India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 25°C ± 2°C / 60% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months B: CLC0416005, CLC0416006, CLC0416007
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and

		justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence is established against Indrop D Batch : HP813 by performing all the quality tests.
	Analytical method validation/verification of product	Method validation studies are submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Fermenta Biotech Limited Z-109 B&C, SEZ II, Dahej Taluka, Vagara Dist: Bharuch 392130 Gujarat India.

No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted that in 278th meeting, the panel constituted for verification of authenticity of stability data submitted the report and the board approved the case of Dascot 30mg & 60mg (Daclatasvir) tablets.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 2062043 valid till 17/06/2023 is submitted issued by Food & Drugs Control Administration Gujarat India.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of attested invoice Dy. No. 2166 dated 19/07/2019 is submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
Remarks of Evaluator-I:		

Sr. No.	Observations	Response
1	Provide analytical method validation/verifications studies including specificity, precision and accuracy for Drug substance along with the method of analysis used for routine analysis of drug substance.	The firm has submitted verification studies for drug substance and submitted detail of analytical method.
2	Since the excipients used in the formulation are different from the innovator's product therefore, compatibility studies of excipients with drug substance is required.	Drug-Excipient compatibility studies are not submitted.
3	The product approved in reference country is Ampoule while the applied product is PFS. Keeping in view, please provide justification or otherwise provide any reference product in PFS dosage form.	The firm has stated that Pahramceutical Equivalence is established against Indrop-D whereas the dosage form, strength and route of administration are same.
4	Please provide GMP certificate / drug manufacturing license of drug substance manufacturer.	Copy of GMP certificate No. 2062043 valid till 17/06/2023 is submitted issued by Food & Drugs Control Administration Gujarat India.
5	Provide analytical method validation / verifications studies performed by drug product manufacturer for analysis of drug substance including specificity, linearity and precision.	Analytical method verification studies are submitted.
6	Submit the documents (Invoice etc) confirming the procurement of drug substance with approval from DRAP since you have submitted the required documents (invoice, airway bill, form 5 etc) of M/s DSM Nutritional products France while the manufacturer of drug substance is M/s Fermenta Biotech Limited Z-109 B&C, SEZ II, Dahej Taluka, Vagara Dist: Bharuch 392130 Gujarat India.	*"We are importing the vitamin D3 from DSM and as well as Fermenta for manufacturing of our registered products Sunny D Absorba and Sunny d Insta Ampoule containing vitamin D3. We had mistakenly submitted the DSM invoices instead of Fermenta one. Now we are submitting the Fermenta documents".* Copy of attested invoice Dy. No. 2166 dated 19/07/2019 is submitted.
7	Submit COA of drug substance from drug product manufacturer as well as from the drug substance manufatcurer along with the calculations for potency adjustment considering the assay value.	The firm has submitted COAs from drug substance manufacturer and drug product manufacturer for Lot no. CLC0419050 along with the calculations for potency adjustment.

Decision: The Board discussed that the container closure for the applied product is Pre-Filled Syringe (PFS) which is different from the innovator's product which is Glass ampoule. Since container closure for the applied product as well as the innovator's product is Type I glass Ampoule and the product development / stability studies of the applied product demonstrated that there is no incompatibility between the material of container and the formulation, therefore, the Board decide to approve the case.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Manufacturer will submit the compatibility studies of the excipients with the drug substance before the issuance of registration letter.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Zoledronic acid is non-pharmacopoeial drug susbance.Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities (A &B), residual solvents, specifications, analytical procedures and its complete validation studies, batch analysis and justification of specification, details of reference standards (Empagliflozin RS and impurities), container closure system and stability studies of drug substance.

	Stability studies	• Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months • Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (502170801, 502170901, 502170902)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Phamaceutical equivalence testing is performed against Zometa 4mg/5mL Injection by M/s Novartis by performing quality tests.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy/recovery, precision, specificity, LOD/LOQ, Robustness, Solution stability, system suitability

STABILITY STUDY DATA

Manufacturer of API	M/s Shandong New Time Pharmaceutical Co., Ltd., No. 1 north outer ring road, Feixian, Shandong china.		
API Lot No.	502190795		
Description of Pack (Container closure system)	1x5ml Glass Vial packed in bleach board Unit carton with leaflet. COAs & Analytical methods of Packaging Materials are Enclosed.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	1000	1000	1000
Manufacturing Date	09/20	09/20	09/20
Date of Initiation	04-09-2020	04-09-2020	04-09-2020
No. of Batches	03		

Administrative Portion

2.	Reference of previous approval of applications with stability study data of the firm (if any)	No response is submitted by the firm.
3.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. SD2015021 valid till 12/07/2020.
4.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of invoice No. HH-92-01-07 dated 27/02/2020 dy. No. 3455/2020-DRAP dated 05/03/2020.
5.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted

6.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
7.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator-I:

Observations	**Response**
Provide latest GMP inspection report / GMP certificate not older than 3 years.	Copy of GMP certificate No. 144/2022-DRAP(AD-4119611790) issued on the basis of inspection conducted on 14/09/2022.
Analytical method verification studies for drug substance performed by drug product manufacturer including specificity, accuracy and precision.	The firm has submitted Analytical method verification studies for drug substance performed by drug product manufacturer.
The submitted COA of the drug substance from drug product manufacturer concludes that the sample complies with BP specifications while the DS is not present in any pharmacopoeia, please clarify.	Drug substance complies with In-House specification & B.P. Mentioned on COA is due to Typographical Mistake.
As per COA of drug substance from the manufacturer, the product complies with USP pending monograph. Pending monograph is not usually final according to which the product is developed, please provide scientific rationale for selecting pending monograph instead of developing in-house specifications.	The firm has stated that the specification were developed keeping in view the pending USP monograph of USP and the product is developed according to In-House specifications.
Provide batch number, manufacturing date and expiry date of Zometa 4mg/5mL injection against which the pharmaceutical equivalence is established.	Pharmaceutical equivalence testing is performed against Zometa 4mg/5mL Injection by M/s Novartis USFDA approved by performing quality tests.
Please provide justification of specifications for drug product.	The firm has submitted the justification of specifications.
Details of section 3.2.P.6 and 3.2.P.7 are not provided in the submitted dossier, please submit relevant details under relevant sections.	Submitted.
Analytical method validation studies for drug product are not provided in the submitted dossier, please submit relevant data.	The firm has submitted analytical method validation studies including system suitability, precision, accuracy, robustness linearity, filter compatibility, specificity etc for drug product.
Provide complete batch manufacturing record for the applied product.	Submitted.
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted.

Decision: Approved with innovator's specifications.

- **Registration Board further decided that registration letter will be issued after submission of applicable fee that is Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Details of fee submitted	PKR 100,000/-: 13-08-2018
	The proposed proprietary name / brand name	Abiraterone Acetate Tablet 250mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Abiraterone acetate……..250mg
	Pharmaceutical form of applied drug	Immediate release tablet
	Pharmacotherapeutic Group of (API)	Drugs for endocrine therapy
	Reference to Finished product specifications	USP
	Proposed Pack size	120tablets per bottle
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	Zytiga (250mg & 500mg) tablet, USFDA Approved.
	For generic drugs (me-too status)	Could not be confirmed
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Name, address of drug substance manufacturer	M/s Shandong Anhong Pharmaceutical Co., Ltd., No. 29 Huayuan street Linyi County. Dezhou, Shandong 251500 China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months of 3 batches Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months of 3 batches Batches: (7001BL71B, 7002BL71B, 7003CL71B)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Comparative dissolution profile is submitted against the reference product Zytiga 250mg tablet, USFDA (B:HAZSK00) approved in all the 03 media that is 0.1N HCl, Phosphate buffer (4.5pH and 6.8pH). F2 values are in the limit.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	HDPE bottle (150cc) with 38mm child resistant cap (CRC) containing 120 tablets.
	Stability study data of drug product, shelf life and storage conditions	Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months of 3 batches Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months of 3 batches Batches: (17F0053DD9, 17H0073DD9, 17H0093DD9)

Evaluation by PEC-I:
Indications:
It is a CYP17 inhibitor indicated in combination with prednisone for the treatment of patients with

• metastatic castration-resistant prostate cancer (CRPC).
• metastatic high-risk castration-sensitive prostate cancer (CSPC)

Sr. no.	Observations	Response
1	For Abiraterone drug substance, the assay is calculated by the drug substance manufacturer by taking the assay value of Abiraterone (DS) on Anhydrous basis while the drug product manufacturer has used the assay value on As-Is basis, please provide scientific rational for the difference in the analytical methods used.	*"The assay test of pharmaceutical used substance is being performed without rendering to anhydrous state. The result of assay is termed as assay on as-is basis. The water present in a pharmaceutical used substance is not considered as an impurity and hence the result of water content test in accounted in the result of assay on as-is basis. The water content is accounted in assay on as-is basis mathematically by using industry-accepted formula for assay on anhydrous basis. The industry-accepted formula is written as (assay on as-is basisxl00)/(100-%water) and outcome of formula is termed as assay on anhydrous basis".*
3	Provide pharmaceutical equivalence studies performed against reference product along with the batch number, expiry and manufacturing date of the reference product.	Pharmaceutical equivalence conducted against reference listed drug ZYTIGA having following details, Testing Results for RLD and Generic Drug Product is also attached Lot#: YGWS Exp.: May, 2019 Mfg Date :April, 2017
4	In CDP, Phosphate Buffer with 4.5 pH and 6.8 pH is used as dissolution media. Usually for dissolution media of lower pH, Acetate Buffer is used. Please provide scientific justification for not using Acetate Buffer (4.5) and selecting Phosphate Buffer of 4.5pH. Provide reference of relevant guidelines if any.	*"For phosphate buffer 4.5 over acetate buffer: that is because the QC release medium is 0.25% SLS in 56.5 mM phosphate buffer, pH 4.5. So for pH 4.5 buffer, we also use the phosphate buffer"* The firm has provided following weblink frpm USFDA Dissolution data base where Phosphate Buffer with 4.5pH has been used for dissolutn testing. *https://www.accessdata.fda.gov/ scripts/cder/dissolution/dsp_SearchResults.cfm*
5	The acceptance criteria for accuracy parameter of analytical method validation studies for drug product is 95%-105%. Please provide the reference.	*"For acceptance limit selected for validation study: According to USP <1092> The dissolution procedure: development and validation Item 5.3 Accuracy/Recovery, "The measured recovery is typically 95%-105% of the amount added."*
6	Provide real time stability studies conducted under the conditions of Zone IV-A for 03 batches till claimed shelf life of 2 years.	*"In support of our proposed expiration date, stability data was generated for up to 24 months storage under long term conditions (30 ± 2°C/65±5% RH), and 6 months storage under accelerated conditions (40 ± 2°C/75 ± 5% RH). Documents for your reference attached in which the results of stability testing performed on following batches are summarized"* Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months of 3 batches Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months of 3 batches Batches: (17F0053DD9, 17H0073DD9, 17H0093DD9)

Decision: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

	Name of exporting country	Iran
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate) • Firm has submitted original, legalized COPP certificate (No. 665/101696) dated 20/01/2021 issued by Fodd and Drug Adminsitration, Iran. The applied product is available for free sale in the market of exporting country. The facilities and operations conform to WHO-GMP. • Embassy attested translated copy of free sales certificate (No. 129800) is attached. Authorization for Distribution and sale at selected pharmacy is granted. • Copy of GMP certificate No. 665/58453 dated 10/09/2020 on the basis of inspection conducted on August, 2020. Validity: 1 year Activity: Manufacturing of cytotoic product Manufacturing operations include	
	Details of letter of authorization / sole agency agreement: • The applicant has submitted NOC from the product license holder to register, import and market the applied product that is Palbocap in the favour of M/s Gene Tech Laboratories Pakistan. • Copy of contract agreement between the applicant and product license holder (abroad) is also submitted.	
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 1082 dated 02-12-2021
	Details of fee submitted	PKR 100,000/-: dated 24-03-2021 PKR 50,000/- dated 28/06/2021.
	The proposed proprietary name / brand name	Palcocap 125mg Capsule
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Palbociclib…….125mg
	Pharmaceutical form of applied drug	Immediate release capsule
	Pharmacotherapeutic Group of (API)	Anti-neoplastic / Protein kinase Inhibitor
	Reference to Finished product specifications	Innovator's specs
	Proposed Pack size	Pack of 21 capsule

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ibrance Capsule (75mg, 100mg, 125mg), USFDA Approved.
	For generic drugs (me-too status)	N/A
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and product.
	Name, address of drug substance manufacturer	M/s Acebright (India) Pharma Private Limited, No. 77D & 116/1117, KIADB Industrial Area, Jigani, Banglore – 560 105 Karnataka India.
	Module-III Drug Substance:	The drug substance belongs to BCS class II drugs. Crystalline anhydrous form A is the most thermodynamically stable form used in the manufacturing. Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	• Real time stability studies have been conducted at 25°C±2 and 60%RH±5% for 12 months of 3 batches • Accelerated stability study is conducted at 40°C±2 and 75%RH±5% for 6 months of 3 batches Batches: PBCA18003, PBCA18004, PBCA18005
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Comparative dissolution profile is submitted against Ibrance 125mg Capsule, USFDA Approved. F2 and F1 values are within the limits (Batch Number; EF1902). Pharmaceutical quivalenc is established agains the reference product (Ibrance 125mg Capsule).
	Analytical method validation/verification of product	Analytical validations studies for drug substance as well as for drug product are submitted.
	Container closure system of the drug product	White HDPE bottle containing 21 capsule and a paper filter bad of Silca Gel.

	Stability study data of drug product, shelf life and storage conditions	• Real time stability studies have been conducted at 30oC±2 and 65%RH±5% for 18 months of 03 batches • Accelerated stability studies is conducted at 40oC±2 and 75%RH±5% for 6 months of 03 batches B: 0006, 0007, 0008

Evaluation by PEC-I:
The firm has submitted real time stability data of 18 months for drug product.

Sr. No.	Observations	Response
1	Please provide analytical method verification studies including specificity, accuracy and precision performed by drug product manufacturer.	The firm has submitted analytical method validation studies for drug substance from finished product manufacturer including specificity, precision and accuracy.
2	Justify the dissolution specification with special reference to Q value which should be achieved in 30 minutes (sampling time) as per available literature of the innovator's product but for the applied product the more than 85% of drug should be released in 45 minutes.	*The dissolution method is selected based on FDA Dissolution Method. Although the release profile of Palbocap is equal to IBRANCE, which, both of them have been released over 85% in 15 minutes.*
3	Please provide pharmaceutical equivalence studies against the innovator's / reference product by performing all the quality tests.	The firm has submitted bioequivalence data against Ibrance 125mg Capsule.
4	Since the concentration range of 0.025mg/mL to 0.15mg/mL is selected for testing the Accuracy and linearity parameters of analytical method validations studies for drug product while 0.5mg/mL solution is prepared for analysis, please justify the amount used for preparation of sample solution.	*The concentration of prepared solution for assay analysis is 0.125 mg/mL (500 mg of weighted powder is equivalent to 125 mg palbociclib), we prepare 25% - to 150% (0.0312-0.187 mg/mL) of this concentration for accuracy and linearity analysis.*
5	Please justify the limit of moisture content which in NMT 5% for drug product whereas the specification for drug substance include loss on drying with a limit of NMT 1%.	*This percentage justified because of production limitation and we have stability data of product in this situation*

Decision: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

- **Registration Board decided that the applicant shall revise the dissolution specifications from "NLT 85% in 45 minutes" to "NLT 85% in 30 minutes" as per the reference product.**
- **Registration Board further decided that registration letter will be issued after submission of applicable fee that is Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.**

Case No. III: Registration applications submitted on Form 5 (Local manufacturing)
Deferred Cases:

250.	Name and address of manufacturer / Applicant	"M/s Medicon Pharmaceuticals Pvt Ltd. Industrial Estate, Jamrud Road, Peshawar, Pakistan"
	Brand Name +Dosage Form + Strength	Medisartan 5/80 mg Tablet
	Composition	Each Film Coated Tablet Contains: Amlodipine Besylate……5mg Valsartan……..80mg
	Diary No. Date of R& I & fee	Form-5 Dy.No 38248 dated 20-11-2018 Rs.20,000/- Dated 20-11-2018 (Slip# 0749867)
	Pharmacological Group	Calcium channel blocker/Angiotensin-II receptor antagonists
	Type of Form	Form-5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	1x14's As per SRO

	Approval status of product in Reference Regulatory Authorities	Exforge Approved by MHRA of UK
	Me-too status	Exforge Tablet of M/s Novartis Pharma (Reg.#047569)
	GMP status	Last GMP inspection report dated 03-10-2017 indicating "Satisfactory" level.
	Remarks of the Evaluator	
	Previous decision (M293)	Deferred for clarification of Salt form API.
	Submission by the firm: The firm has submitted: • The firm has revised the formulating from "Amlodipine Besylate 5mg to Amlodipine As Besylate 5mg" as per the reference product and submitted Rs. 7,500/- vide challan number 84040225 dated 29/08/2022. Each Film Coated Tablet Contains: Amlodipine as Besylate…..5mg Valsartan……..…80mg • Copy of last GMP inspection report dated 14/12/2020, Satisfactory level of GMP compliance.	
	Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of remaining fee for pre-registration variation that is Rs. 22,500/- for revision of formulation and revision of specifications as per the innovator's product as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.	
251.	Name and address of manufacturer / Applicant	Moon Pharmaceuticals, Plot # 05, SS4, National Industrial Zone RCCI Rawat, Islamabad
	Brand Name +Dosage Form + Strength	Hb-Ron Syrup 60 ml, 120 ml
	Composition	Each 5 ml contain: Iron (III) hydroxide polymaltose complex eq. to elemental iron…….50mg Folic acid…….0.35mg
	Diary No. Date of R& I & fee	Dy No. 1683: 17.10.2016 PKR 20,000/-: 17.10.2016
	Pharmacological Group	Iron in combination with folic acid
	Type of Form	Form 5
	Finished product Specification	The firm has claimed manufacturer's specifications
	Pack size & Demanded Price	60mL, 120mL, as per SRO
	Approval status of product in Reference Regulatory Authorities	NA
	Me-too status	054851; Bioron F Syrup 120ml M/s Shaheen Pharmaceuticals,Swat
	GMP status	The firm was inspected on 18.09.2018 with the following conclusion: Keeping in view the above stated observations during inspection, areas visited, documents reviewed it is concluded that M/s Moon Pharma Islamabad has not made adequate arrangements for rectification of the observations from inspection dated 19-10-2017. The undersigned has taken 04 samples on prescribed Form-3. The batch of product Mondison 4mg/5ml (50ml) Syrup, Batch no.S-66, 5200 Bottles was "Ordered not to dispose off" due to poor anitation & hygiene conditions in the oral liquid filling area.
	Remarks of the Evaluator	
	Previous decision (M287)	Deferred for the following: i) Updated status of GMP of the firm form QA & LT division as inspection report submitted by firm does not conclude GMP compliant status. ii) Submission of fee for revision of formulation.
	Submission by the firm: • Copy of last GMP inspection report dated 14/12/2020, Satisfactory level of GMP compliance. • The firm has submitted Rs. 7,500/- vide challan number 965174160117 dated 11/02/2022 for revision of formulation from Folic Acid 0.5mg to 0.35mg. Each 5 ml contain: Iron (III) hydroxide polymaltose complex eq. to elemental iron…….50mg Folic acid…….0.35mg	

	Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of remaining fee for pre-registration variation that is Rs. 22,500/- for revision of formulation and revision of specifications as per the innovator's product as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.	
252.	Name and address of manufacturer / Applicant	Moon Pharmaceuticals, Plot # 05, SS4, National Industrial Zone RCCI Rawat, Islamabad
	Brand Name +Dosage Form + Strength	Metasone GM/Metacort Plus Cream
	Composition	Each gram cream contains: Betamethasone (as valerate)……1.2mg Gentamycin (as sulfate)…….1mg Miconazole (as nitrate)……20mg
	Diary No. Date of R& I & fee	Dy No. 1686: 17.10.2016 PKR 20,000/-: 17.10.2016
	Pharmacological Group	Corticosteroids, potent, combinations with antibiotics and antifungal
	Type of Form	Form 5
	Finished product Specification	The firm has claimed manufacturer's specifications
	Pack size & Demanded Price	20g; As per SRO
	Approval status of product in Reference Regulatory Authorities	Could not be confirmed
	Me-too status	Could not be confirmed
	GMP status	The firm was inspected on 18.09.2018 with the following conclusion: Keeping in view the above stated observations during inspection, areas visited, documents reviewed it is concluded that M/s Moon Pharma Islamabad has not made adequate arrangements for rectification of the observations from inspection dated 19-10-2017. The undersigned has taken 04 samples on prescribed Form-3. The batch of product Mondison 4mg/5ml (50ml) Syrup, Batch no.S-66, 5200 Bottles was "Ordered not to dispose off" due to poor anitation & hygiene conditions in the oral liquid filling area.
	Remarks of the Evaluator	□ The firm was asked to submit complete finished product specifications and testing methods. However, the firm submitted specifications without complete testing method. □ The brand name shall be changed
	Previous decision (M287)	Decision: Deferred for the following: □ Updated status of GMP of the firm form QA & LT division as inspection report submitted by firm does not conclude GMP compliant status. □ Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting. □ Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
	Submission by the firm: • Copy of last GMP inspection report dated 14/12/2020, Satisfactory level of GMP compliance. The firm has revised the formulation from Betamethasone as Valerate 1.2mg/g to Betamethosone as valerate 1mg/g and submitted rs. 7,500/- vide challan number 26027666328 dated 11/02/2022. Each gram cream contains: Betamethasone (as valerate)……1.2mg Gentamycin (as sulfate)…….1mg Miconazole (as nitrate)……20mg • Generic status: Mycona-GB cream by M/s Valor Pharmaceuticals, Reg. No. 066358 • RRA Status: could not be confirmed **Decision: Deferred for:** • **Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.** • **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.**	

253.	Name and address of manufacturer / Applicant	M/s Vega Pharmaceuticals (PVT) LTD. Plot No.4, Pharma city Sunder 30KM Multan road Lahore.
	Brand Name +Dosage Form + Strength	MOMAT Nasal spray (50mcg/spray)
	Diary No. Date of R& I & fee	Dy.No. 33945 dated 12/10/2018 PKR 20,000/-
	Composition	Each spray contains: Mometasone furoate…… 50mcg
	Pharmacological Group	Corticosteroid
	Type of Form	Form 5
	Finished Product Specification	BP
	Pack Size & Demanded Price	Price Rs.300/- per bottle of 20ml
	Approval Status of Product in Reference Regulatory Authorities	APO-MOMETASONE aqueous nasal spray by M/s Apotex Inc. Health Canada approved
	Me-too Status	Memocart nasal spray by M/s Platinum Pharma Karachi, Reg no. 36585
	GMP Status	Last inspection report dated 17/07/2017 concluded that the firm has maintained good level of GMP compliance. The firm has Eye Drops (Steroidal) Section.
	Remarks of the Evaluator.	
	Decision of 293rd meeting: Deferred for confirmation of required manufacturing facility / section Nasal Spray from Licensing Division. Submission by the firm: • The firm has been granted change of title from "Eye Drops (Steroid) section" to Eye/Ear Drops & Nasal Spray (Steroid) Section" vide letter No. F.1-22/2001-Lic(Vol-II) dated 19/05/2022.	
	Decision: Approved. The Board further decided that the registration letter will be issued after submission of latest inspection report valid within the last three years.	

254.	Name and address of manufacturer / Applicant	**Applicant:** M/s Jinnah Pharmaceuticals Pvt Ltd. 13 km, Lahore Road, Multan **Manufactured By:** M/s Aventek Pharmaceuticals. 44-C, Sundar Industrial Estate, Lahore
	Brand Name +Dosage Form + Strength	Jizdime 1gm IV Dry Powder Injection
	Diary No. Date of R& I & fee	Form-5 Dy.No 16256 dated 07-03-2019 Rs.50,000/- Dated 06-03-2019
	Composition	Each Vial Contains: Ceftazidime as Pentahydrate…1gm
	Pharmacological Group	Cephalosporin
	Type of Form	Form-5
	Finished Product Specification	USP
	Pack Size & Demanded Price	As per SRO

Covid Cases:

269	M/s Xenon Pharmaceutical Pvt Ltd. 9.5 Km, Sheikhupura Road, Lahore	Azocin 250 mg Tablet	Each Film Coated Tablet Contains: Azithromycin as Dihydrate…250mg	Dy.No. 11720 dated 21/05/2020 Rs. 20,000/- dated 21-05-2020 Form 5 USP Specs	As per decision of DPC of DRAP 3's 6's 10's 30's	Last inspection report is older than 3 Years.	Deferred for updated status of GMP from QA & LT.	The firm was inspected on 13-02-2020 concluding firm was advised to overcome the shortcomings and submit the compliance report to competent authorities, so that

								the inspection of the unit could be conducted accordingly for the purpose of verification thereof.

Decision of 297th meeting:
Deferred for updated status of GMP of the firm from QA & LT division as inspection report submitted by firm does not conclude GMP compliant status.
Submission by the firm:

- Copy of GMP certificate No. 66/222-DRAP(AD-021423103) dated 02-06-2022 issued on the basis of inspection conducted on 11-02-2022.
- The firm has provided alternate brand name "XEEAZO 250mg tablet".

Decision: Registration Board approved the registration of the applied product. Conditions regarding validity of registration and data requirement will be same as decided by the Board in its general decision recorded in its 295th meeting.

Case No. IV: Capacity assessment

Name of Firm	M/S Welmark Pharmaceuticals
Physical Address:	Plot No.122 Block B phase v industrial estate hattar pakistan
Drug Manufacturing license No.	000614 Valid till 11-04-2022
Contact	info@welmarkpharma.com 0992617660
Date of inspection:	17th June, 2021
Purpose of inspection:	Assessment And Confirmation Of Manufacturing Capacity
Names of inspectors	1. Mr.Faisal Shehzad, Additional Director, DRAP Peshawar. 2. Mr.Atiq Ul Bari, FID DRAP Peshawar.
Names of firm's representatives:	1. Ashfaq ur Rahman (Production Manager) 2. Hamid shah (Quality Control Manager) 3. Mr.Waheed Anjum (Quality Assurance Incharge)

7. BRIEF ABOUT FIRM:

Ms. Welmark Pharmaceuticals situated at Plot No.122 Block B phase v industrial estate hattar pakistan. Was visited and inspected as per instructions contained in referred DRAP letter for the assessment of and confirmation of manufacturing surplus capacity in the following manufacturing sections:

1. Liquid Injection (General)
2. Dry Powder Injectable (General)
3. Dry Powder Injectable (Cephalosporin)

The firm was inspected in detail as per scope and relevant manufacturing; packaging and quality control records etc. for the last year were reviewed in detail and concluded accordingly. Manufacturing record/data was evaluated from January 2020 to December 2020 for the said purpose.

REGISTERED PRODUCTS		**Annexure**
Total registered products:	**349**	**A**
Registered products in aforementioned sections	**97**	**B**
Existing contract manufactured products in aforementioned sections	**36**	**C**
Registered products (Export) in aforementioned sections	**14**	

The details of Capacity calculations are as under:

Liquid Injection (General)	
Step wise capacity of General Liquid Ampoule Injection manufacturing	Capacity
Semi Auto Ampoule Washing:	
• **Per single shift** of 7 working hours (Load per Day)	**56,000 amps**

• **Per month** (23 working Days) with single shift of 7 working hours	**1,288,000 amps**
Depyrogenation Capacity (Dryer) :	
• **Per single shift** of 7 working hours (2Load per Day)	**60,000 amps**
• **Per month** (23 working Days) with single shift of 7 hours	**1,380,000 amps**
Ampoule Filling:	
• **Per single shift** of 7 working hours (Load per Day)	**52,500 amps**
• **Per month** (23 working Days) with single shift of 7hours	**1,207,500 amps**
Auto Clave:	
• **Per single shift** of 7 working hours (2Load per Day)	**50,000 amps**
• **Per month** (23 working Days) with single shift of 7 hours	**1,150,000 amps**
Packing Capacity:	
• **Per single shift** of 7 working hours (13 workers)	**28,000 amps**
• **Per month** (23working Days) with single shift of 7 hours	**644,000 amps**
Note: Limiting step in this process is Packing process for calculation Utilized Capacity	

Quarter Wise capacity utilized in General Liquid Injection Section

Quarter	Actual Production (Amps)	Capacity (Amps)	Capacity utilized in %
1st – 2020	721,500	1,932,000	37.34%
2nd – 2020	552,000	1,932,000	28.57%
3rd – 2020	1,272,600	1,932,000	65.86%
4th – 2020	910,500	1,932,000	47.12%
Total	3,456,600	7,728,000	.....
Average per Quarter	864,150	1,932,000	44.72%
Manufacturing Capacity Utilized (Average) =			***44.72%***
Manufacturing Capacity Available (Average) =			***55.28%***

SECTION WISE CAPACITY CALCULATION

Dry Powder Injectable (Cephalosporin)

Step wise capacity of General Dry Powder Injection manufacturing	Capacity
Rotary vial Washing Machine:	
• **Per single shift** of 7 working hours (Load per Day)	**14,000 Vials**
• **Per month** (23 working Days) with single shift of 7 working hours	**322,000 Vials**
Depyrogenation Capacity (Dryer):	
• **Per single shift** of 7 working hours (2Load per Day)	**28,000 Vials**
• **Per month** (23 working Days) with single shift of 8 hours	**644,000 Vials**
Dry Powder Filling Machine:	
• **Per single shift** of 7 working hours (Load per Day)	**14,000 Vials**
• **Per month** (23 working Days) with single shift of 7 hours	**322,000 Vials**
Vial Sealing Machine:	

• **Per single shift** of 7 working hours (Load per Day)	**14,400 Vials**
• **Per month** (23 working Days) with single shift of 7 hours	**331,200 Vials**
Packing Capacity:	
• **Per single shift** of 7 working hours (with 13 Workers)	**25,900 Vials**
• **Per month** (23 working Days) with single shift of 7 hours	**595,700 Vials**
Note: Limiting step in this process is Filling process for calculation Utilized Capacity	

Quarter Wise capacity utilized in Cephalosporin Powder Injectable Section

Quarter	Actual Production (Vials)	Capacity (Vials)	Capacity utilized in %
1st – 2020	141,350	966,000	14.632%
2nd – 2020	23,761	966,000	2.50%
3rd – 2020	171,319	966,000	17.7%
4th – 2020	187,676	966,000	19.43%
Total	524,106	3,864,000	54.262%
Average per Quarter	131,026	966,000	13.563%
Manufacturing Capacity Utilized (Average) =			***13.563%***
Manufacturing Capacity Available (Average) =			***86.427%***

SECTION WISE CAPACITY

Dry Powder Injectable (General)

Step wise capacity of General Infusion Injectable manufacturing	Capacity
Rotary vial Washing Machine:	
• **Per single shift** of 7 working hours (Load per Day)	**14,000 Vials**
• **Per month** (26 working Days) with single shift of 8 working hours	**322,000 Vials**
Depyrogenation Capacity (Dryer):	
• **Per single shift** of 7 working hours (2Load per Day)	**28,000 Vials**
• **Per month** (23working Days) with single shift of 7 hours	**644,000 Vials**
Dry Powder Filling Machine:	
• **Per single shift** of 7 working hours (Load per Day)	**14,000 Vials**
• **Per month** (23 working Days) with single shift of 7 hours	**322,000 Vials**
Vial Sealing Machine:	
• **Per single shift** of 7 working hours (Load per Day)	**14,400 Vials**
• **Per month** (23 working Days) with single shift of 7 hours	**331,200 Vials**
Packing Capacity:	
• **Per single shift** of 7 working hours (with 13 Workers)	**25,900 Vials**
• **Per month** (23 working Days) with single shift of 7 hours	**595,700 Vials**

Note: Limiting step in this process is Filling process for calculation Utilized Capacity

16.	Weighing balance	55.65

Based on the people met, documents reviewed and observations made during the detailed inspection, M/S Welmark Pharmaceuticals situated at Plot No.122 Block B phase v industrial estate hattar pakistan, has **ample surplus capacity** in the manufacturing and quality control laboratory for the purpose of manufacturing on contract basis as summarized above.

11. SIGNATURES OF INSPECTORS

FIRM'S REPRESENTATIVES	INSPECTOR
Mr. Ashfaq ur Rahman (Production Manager)	**Mr. Faisal Shehzad,** Additional Director, DRAP Peshawar.
Mr. Hamid Shah (Quality Control Manager)	**Mr. Atiq Ul Bari** FID DRAP, Peshawar.
Mr. Waheed Anjum (QualityAssurance In-Charge)	

Decision: Registration Board deliberated upon the above presented capacity assessment report of M/s Welmark Pharmaceuticals and referred the case back to the panel for confirmation of follwoing from the firm:

i. **No. of registered products of M/s Welmark Pharmaceuticals being analysed on HPLC.**
ii. **No. of registered products of M/s Welmark Pharmaceuticals having pharmacopoeial monographs but are being tested on in-house methods.**

Moreover, Keeping in view already registered products and present testing capacity, the Board directed M/s Welmark Pharmaceuticals to add 02 more HPLC systems in their Quality Control laboratory.

Registration Board deferred following cases of contract manufacturing from M/s Welmark Pharmaceuticals. Plot #122 Phase 5, Block B, Industrial Estate, Hattar, Pakistan till compliance of above cited points.

270.		
	Name and address of manufacturer / Applicant	M/s Roryan Pharmaceuticals Pvt Ltd. 85/B-Hayatabad Industrial Estate, Peshawar, kpk, Pakistan By M/s Welmark Pharmaceuticals. Plot #122 Phase 5, Block B, Industrial Estate, Hattar, Pakistan
	Brand Name +Dosage Form + Strength	Anmol 40mg Injection
	Composition	Each Vial Contains: Omeprazole sodium (Iyophilized powder) …40mg
	Diary No. Date of R& I & fee	Dy. No. 40718: 06.12.2018 Rs. 50,000: 06.12.2018
	Pharmacological Group	Proton pump inhibitors
	Type of Form	Form 5
	Finished product Specification	The firm has claimed in-house specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	OMEPRAZOLE SANDOZ IV omeprazole (as sodium) 40mg powder for injection vial. TGA approved
	Me-too status	Somezol Injection. Reg. No. 45386
	GMP status	**Applicant**: could not be confirmed. **Manufacturer**: The firm was inspected on 04.09.2018 and 26.09.2018, wherein the renewal of DML was recommended.
	Remarks of the Evaluator	• The firm has applied for Omeprazole as sodium (as per master formula). The firm revised Omeprazole to Omeprazole sodium in the label claim. • The firm submitted list of 10 approved sections of M/s Roryan Pharmaceuticals. • The firm submitted list of 11 approved products of M/s Roryan Pharmaceuticals for contract manufacturing. • Latest GMP inspection report of M/s Roryan Pharmaceuticals is required.
	Previous decision	The Board in its 295th meeting deferred the case for submission of fee for revision of formulation and capacity assessment of m/s welmark.
	Evaluation by PEC	• The firm submitted the capacity assessment report as presented above. • The firm did not submit the fee for revision of formulation.
	Decision of 312th Meeting: deferred for the following: • latest gmp inspection report of m/s roryan pharmaceuticals conducted in the last three years. • latest gmp inspection report of m/s welmark pharmaceuticals conducted in the last three years. • capacity assessment of m/s welmark pharmaceuticals on the prescribed proforma. • submission of fee for revision of salt form. **submission by the firm:** • copy of GMP certificate of m/s Roryan pharmaceuticals pvt ltd. no. f.11-52/2022-drap-71 dated 17th June 2022 issued on the basis of inspection conducted on 13/01/2022. • copy of GMP certificate no. f.11-96/2021-drap-97 dated 23/11/2021 issued on the basis of inspection conducted on 11/11/2021. • the firm has submitted full fee Rs. 75,000/- for revision of formulation from omeprazole sodium 40mg to omeprazole as sodium 40mg vide challan number 29997310489 dated 04/07/2022. Label claim: Each Vial Contains: Omeprazole sodium …40mg	

	(Iyophilized powder)	
271.	Name and address of manufacturer / Applicant	M/s Roryan Pharmaceuticals Pvt Ltd. 85/B-Hayatabad Industrial Estate, Peshawar, kpk, Pakistan By M/s Welmark Pharmaceuticals. Plot #122 Phase 5, Block B, Industrial Estate, Hattar, Pakistan
	Brand Name +Dosage Form + Strength	Irosuc 20mg/ml Injection
	Composition	Each injection contains: Iron sucrose …20mg
	Diary No. Date of R& I & fee	Dy. No. 40713: 06.12.2018 Rs. 50,000: 06.12.2018
	Pharmacological Group	Iron preparations
	Type of Form	Form 5
	Finished product Specification	USP
	Pack size & Demanded Price	5ml ampule x 5's, As per SRO
	Approval status of product in Reference Regulatory Authorities	VENOFER iron 100mg/5mL (as iron(III) hydroxide sucrose complex) injection ampoule. TGA approved
	Me-too status	Orsec Injection 100mg/5ml. Reg. No.82559
	GMP status	**Applicant**: could not be confirmed. **Manufacturer**: The firm was inspected on 04.09.2018 and 26.09.2018, wherein the renewal of DML was recommended.
	Remarks of the Evaluator	• The firm revised 'iron sucrose' to 'iron (III)-hydroxide-sucrose eq. to elemental iron' without submission of applicable fee. • Adjustment of weight of API as per salt factor is required in master formula. • Proof of international availability of same formulation, same strength and same filled volume in reference regulatory authorities as defined in 275th meeting of the registration board is required. Otherwise, revise the strength in line with the reference product along with submission of applicable fee. • The firm submitted list of 10 approved sections of M/s Roryan Pharmaceuticals. • The firm submitted list of 11 approved products of M/s Roryan Pharmaceuticals for contract manufacturing. • Latest GMP inspection report of M/s Roryan Pharmaceuticals is required.
	Previous decision	The Board in its 295th meeting deferred the case for; • Submission of fee for revision of formulation • Adjustment of weight of API in the master formulation • capacity assessment of m/s Welmark
	Evaluation by PEC	• The firm submitted the capacity assessment report as presented above. • The TGA Australia has mentioned iron sucrose as synonym for iron (III)-hydroxide-sucrose. The board may look into the matter of fee. • Adjustment of weight of API as per salt factor is required in master formula.
	Decision of 312th meeting: Deferred for the following • Latest GMP inspection report of M/s Roryan Pharmaceuticals conducted in the last three years. • Latest GMP inspection report of M/s Welmark Pharmaceuticals conducted in the last three years. • Capacity assessment of M/s Welmark Pharmaceuticals on the prescribed proforma. • Adjustment of weight of API as per salt factor is required in master formula along with submission of applicable fee. submission by the firm: • copy of GMP certificate of m/s Roryan pharmaceuticals pvt ltd. no. f.11-52/2022-drap-71 dated 17th June 2022 issued on the basis of inspection conducted on 13/01/2022. • copy of GMP certificate no. f.11-96/2021-drap-97 dated 23/11/2021 issued on the basis of inspection conducted on 11/11/2021.	

	• The firm has submitted full fee Rs. 75,000/- for revision of formulation from Iron Sucrose to Iron (III) hydroxide Sucrose Eq. to elemental Iron 100mg per ampoule (5mL) vide challan number 94055850266 dated 04/07/2022 along with the revised master formula. Label Claim: Each Ampoule (5mL) contains: Iron (III) hydroxide sucrose complex Eq. to Elemental Iron……100mg

Agenda of Evaluator PEC-II

Case no. 01 New Registration applications on Form 5F (Human)
a. New Cases (Human)

274.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Caraway Pharmaceuticals. Plot # 12, Street N-3, National industrial Zone, Rawat, Islamabad**
	Name, address of Manufacturing site.	M/s Caraway Pharmaceuticals. Plot # 12, Street N-3, National industrial Zone, Rawat, Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	GMP certificate issued on basis of inspection conducted on 09-03-2020
	Evidence of approval of manufacturing facility	GMP certificate issued on basis of inspection conducted on 09-03-2020 declares availability of Liquid injection ampoule section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 32574 dated 30-11-2021
	Details of fee submitted	Rs.30,000/- dated 17-11-2021
	The proposed proprietary name / brand name	**Cara-C 10mg/5ml IV Injection**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml Contains: Cisatracurium Besylate Eq. to Cisatracurium…2mg
	Pharmaceutical form of applied drug	Solution for Injection
	Pharmacotherapeutic Group of (API)	Neuromuscular blocking agent
	Reference to Finished product specifications	USP specification
	Proposed Pack size	5's
	Proposed unit price	--
	The status in reference regulatory authorities	"NIMBEX Injection" Approved by US FDA
	For generic drugs (me-too status)	CIS-CURON 2mg/ml Injection (Reg.# 088248) of m/s Brookes Pharma
	Name and address of API manufacturer.	M/s Lianyungang Guike Pharmaceutical, nO. 1, Xianfeng road, Dapu industry zone, Economic & Technical Devleopment area, Lianyugang city, Jiangsu, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 6°C ± 2°C for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence Studies against the comparator product of Cis-Curon injection of M/s Brookes Pharma
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions.

STABILITY STUDY DATA	
Manufacturer of APIs	M/s Lianyungang Guike Pharmaceutical, nO. 1, Xianfeng road, Dapu industry zone, Economic & Technical Devleopment area, Lianyugang city, Jiangsu, China

Description of Pack (Container closure system)	5ml, Type I , transparent glass ampoule.		
Stability Storage Condition	Real time: 5°C ± 3°C Accelerated: 25°C ± 2°C / 60% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-014	T-015	T-016a
Batch Size	213 ampoules	213 ampoules	213 ampoules
Manufacturing Date	April-2021	April-2021	April-2021

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

#	Documents to Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate (Certificate# JS20160594) issued by China Food & Drug Administration valid upto 12-01-2026.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice attested by AD I&E DRAP, Islamabad, has been submitted dated 04-03-2021for import of 10.0gm of Cisatracurim besylate..
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record and analytical record.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
6.	Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of Evaluator:

Section#	Observtaion	Firm's response
3.2.S.4.3	Performance of precession parameter shall be submitted in analytical method verification studies.	• Submitted
3.2.P.2.2.1	Submit details i.e., brand name, manufacturer, of the reference product against which Pharmaceutical equivalence has been performed.	• Firm has submitted following detail of reference product used against pharmaceutical equivalence having following information: • Brand Name: CIS-CURON INJECTION • Manufacturer: M/s Brooks Pharmaceuticals Labs (pvt) Karachi. • Reg# 088248
3.2.P.8	• Valid GMP certificate of drug substance manufacturer issued by the relevant regulatory authority shall be submitted. • Submit details of minimum handling capacity of compounding vessel used for manufacturing of stability batches.	Firm has submitted DML# 20160305 issued by NMPA valid upto 26-09-2025. Conical flask having capacity of 2.0 litrs with graduation marks was used during manufacturing of stability batches having minimum capscity of 0.1Ltr. Firm has submitted details of no. of samples required for each time point of stability studies

	• Justify the proposed batch size against the no. of units required to complete accelerated stability studies (6 months) and long term stability studies till claimed shelf life.	wherein batch size has been justified for the performance of complete long term stability studies.	

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

275.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot**
	Name, address of Manufacturing site.	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F.1-19/2014-Lic. from Secretary CLB for issuance of DML, declaring availability of "tablet general section".
	Dy. No. and date of submission	Dy.No 33039 dated 16-12-2021
	Details of fee submitted	Rs.30,000/- dated 01-12-2021
	The proposed proprietary name / brand name	**Celezib 100mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Capsule Contains: Celecoxib ……100mg
	Pharmaceutical form of applied drug	Clear and colorless solution filled in clear glass ampoules with red and blue ACF rings and blue color OPC mark
	Pharmacotherapeutic Group of (API)	Non-steroidal Anti inflammatory (NSAID)
	Reference to Finished product specifications	BP
	Proposed Pack size	20's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Celecoxib 100 mg capsules, hard by M/s Macleods Pharma UK Limited, approved by MHRA of UK.
	For generic drugs (me-too status)	Celbex 100mg capsule by M/s Getz Pharma (Pvt) Limited Reg. No. 028694
	GMP status of the Finished product manufacturer	New DML was granted after inspection vide letter No. F. 1-19/2014-Lic (Vol-1) Dated: 29-08-2018, including Capsule general section

	Name and address of API manufacturer.	M/s AARTI DRUGS LIMITED, Plot No. E-21/22, M.I.D.C, Tarapur, Maharashtra, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5% RH for 60 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 06 months Batches:(KM-1102215, KM-1102315, KM-1102415)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Comparative dissolution profile has been established against the Clebex capsule of M/s Getz Pharma in three buffer mediums i.e., ph1.2, pH 4.5 & ph 6.8 with acceptable results.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document. (New Section)
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	--
3	Documents for the procurement of API with approval from DRAP (in case of import).	• Copy of letter No.14850/2020/DRAP-AD-VIII (I&E) dated 16/10/2020 is submitted wherein the permission to import different APIs including for the purpose of test/analysis and stability studies is granted. • AirWay Bill No. 176-26046624 Dated: 21/12/2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	• HPLC system digital log has been submitted excluding for the intial time point analysis.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Section#	Observations	Firm's response
1.6.5	Valid GMP certificate issued by the relevant regulatory authority shall be submitted for the drug substance manufacturer.	Submitted GMP certificate is of another site of AARTI drugs ltd (PLOT NO. W-60(B)W-61(B)W-62(B)W-71(B)W-72(B)W-73(B),MIDC, Tarapur Thane, India), instead of the site (Plot No. E-21/22, M.I.D.C, Tarapur, Maharashtra, India) from which drug substance has been imported.
3.2.S.6	Drug substance is of USP standard whereas reference standard of BP grade has been submitted.	As the drug substance is available in both USP and BP and have same specifications and analytical procedure. Drug product is available only in BP so we chosen BP standard and used it for analysis.
3.2.P.2.2.1	Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted.	• Firm has submitted Pharmaceutical equivalence report against the Celebrex capsule of M/s Getz, wherein instead of dissolution test of batch release, CDP study results have been submitted.
3.2.P.3.5	Submitted process validation protocol does not include sampling plan.	Process validation protocol including sampling plan has been submitted.
3.2.P.8.3	• Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted.	• Firm has submitted copy of commercial invoice# SAMP/1002//20-21-23/10/2020

		• Raw data sheets for complete stability studies shall be submitted. • Submitted analytical record does not reflect the performance of system suitability test during Assay analysis as recommended by BP monograph of Celcoxib capsules.	frrom M/s AARTI drugs ltd., in the name of islam Pharma for the 2.5 Kg of Celecoxib. The submitted invoice is not attested by DRAP I&E office. • Firm has also submitted copy of Air WayBill. • Firm has performed system suitability test by establishing the RSD of standard replicates, while BP monograph recommends performance of system suitability with the help of impurity standards.

Decision: Deferred for submission of valid GMP certificate issued by the relevant regulatory authority for the drug substance manufacturer.

	For generic drugs (me-too status)	Tonoflex 50mg Capsule of M/s Sami pharma
	GMP status of the Finished product manufacturer	The firm is granted GMP certificate based on inspection conducted on 09-06-2020.
	Name and address of API manufacturer.	M/s Supriya Life science Ltd, A-5/2 Lote parshuram Industrial Area, M.I.D.C, Tal-khed, Dist, Ratnigiri 415772, Maharashtra state, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to

		nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted details of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C±2°C/65% ± 5%RH for 24 months Accelerated:40°C±2°C/75% ± 5%RH for 6 months Batches: T-001, T-002, T-003.
	Module-III (Drug Product):	The firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence has been established against the comparator product Tonoflex capsule 50mg (Batch # 007F) by M/s Sami Pharmaceuticals by performing Moisture content, Disintegration time, dissolution, Assay. CDP has been performed against the same brand that is in Acid media (pH 1.0-1.2), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	M/s Supriya Life Science Ltd, A-5/2 Lote parshuram Industrial Area, M.I.D.C, Tal-khed, Dist, Ratnigiri 415772, Maharashtra state, India.
API Lot No.	SLL/TDM/0120001
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (2×10's)
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 06 months Accelerated: 06 months
Frequency	Accelerated: 0, 2, 4, 6 (Months) Real Time: 0, 3, 6 (Months)

Batch No.	T-001	T-002	T-003
Batch Size	5000 capsules	7500 capsules	7500 capsules
Manufacturing Date	11-2020	11-2020	11-2020
Date of Initiation			
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP certificate issued by Food and Drug Administration, Maharashtra state, India valid 04-10-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of invoice specifying import of 200Kgs of Tramadol hydrochloride cleared by Assistant Director (I & E), Lahore dated 07-02-2020.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.	The firm has submitted data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm has submitted record of data logger for temperature and humidity monitoring of stability chambers.

Remarks of Evaluator:

Section#	Observations	Firm's response
1.6.5	Valid GMP certificate of the drug substance manufacturer shall be submitted.	The firm has submitted copy of GMP certificate# NEW-WHO-GMP/CERT/KD/103995/2021/11/38094 issued by Food and Drug Administration, Maharashtra state, India valid 23-11-2024.
3.2.S.8.3	Complete raw data sheets for the performance of dissolution test during stability studies shall be submitted.	Firm has submitted analytical record including raw data sheets for the performance of dissolution test.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

277.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Pacific Pharmaceuticals Limited 30 km, Multan Road, Lahore, Pakistan**
	Name, address of Manufacturing site.	M/s Pacific Pharmaceuticals Limited. 30 km, Multan Road, Lahore, Pakistan

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	--
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Digital data logger record has been submitted for temperature & humidity conditions of both accelerated and long-term stability chambers.

Remarks of Evaluator[II]:

Section#	Observations	Firm's response
1.3	Valid GMP inspection report shall be submitted for M/s Pacific Pharmaceuticals, 30-Km, Multan Road, Lahore.	GMP certificate submitted issued on basis of inspection conducted on 14-09-2021
1.6.5	Valid GMP certificate of M/s Auro laboratories, shall be submitted.	Firm has submitted Certificate No: ES/083/15 issued by AEMPS of Spain, valid upto April, 2017. Submitted GMP certificate is still not valid.
3.2.S.4.1	Justification shall be submitted for the test of optical rotation of Empagliflozin.	It is tested as per supplier specifications.
3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer shall be submitted for Empagliflozin & Linagliptin.	Submitted.
3.2.P.2.1	• Innovator product has used Polyethylene oxide as extended release polymer, whereas you have used HPMC 15000 for the same purpose. Justification shall be submitted for this variation along with drug excipient compatibility study. • Dissolution limits defined in the "Quality Target product Profile" are different from that recommended by US FDA for the Innovator product i.e., Trijardy XR tablets.	• Composition is according to innovator, Product is stable, no variations in result observed were found during all study. • Compatibility study report has been submitted. • Dissolution Limits in CDP are updated according to USFDA and updated Protocol, Report has been submitted.
3.2.P.5.1	• Submitted drug product specifications does not include test for "Uniformity of Dosage Unit" by way of content uniformity for Empagliflozin & Linagliptin. • Dissolution time points for metformin HCl & Linagliptin are not as recommended by US FDA for the	Firm has submitted revised drug product specification including test of content uniformity whereas the dissolution specifications for Empagliflozin & Linagliptin are still not as recommended by US FDA for innovator product. Firm has proposed dissolution limits of

	innovator product i.e., Trijardy XR tablets.	NLT Q in 60 minutes for both Empagliflozin & Linagliptin whereas US FDA has recommended 45 minutes & 30 minutes time point for Empagliflozin & Linagliptin respectively.
3.2.P.5.2	• Submitted analytical procedure for dissolution test does not mention details for standard solution preparation. • Standard concentration for each API does not equate with the sample concentrations in the analytical procedure of Assay test.	Firm has revised analytical procedure for the details of standard solution preparation and concentration of standard and sample solution, whereas the stability data had been submitted as per previous method.
3.2.P.5.3	The concentration range applied for the linearity test of Linagliptin, does not cover the specified concertation for Assay test.	Revised method validation report has been submitted.
3.2.P.5.4	Submitted Batch analysis COA does not include test of content uniformity for Empagliflozin & Linagliptin. Dissolution time points for Linagliptin & Metformin HCl are not as recommended by US FDA for the innovator product i.e., Trijardy XR tablets.	Firm has submitted revised drug product specification including test of content uniformity whereas the dissolution specifications for Empagliflozin & Linagliptin are still not as recommended by US FDA for innovator product. Firm has proposed dissolution limits of NLT Q in 60 minutes for both Empagliflozin & Linagliptin whereas US FDA has recommended 45 minutes & 30 minutes time point for Empagliflozin & Linagliptin respectively.
3.2.P.6	• Submitted COA of working standard of Metformin HCl declares retest date as May 2021, whereas stability studies have also been performed subsequent to this date. • Submitted COA of working standard of Empagliflozin declares retest date as March 2021, whereas stability studies have also been performed subsequent to this date.	No justification has been submitted.
3.2.P.8.3	• Documents confirming import of Metformin HCl shall be submitted. • Analytical record i.e., raw data sheets, chromatograms & COAs shall be submitted for complete stability studies at both accelerated and long-term conditions. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	• Firm has submitted commercial invoice attested by AD DRAP I&E, Lahore 11-12-2018 for import of 1000Kg Metformin HCl. • Firm has submitted raw data sheet for the stability studies. • Audit trail reports on product testing have not been submitted. • Details of data logger have been submitted.
• Submit clarification regarding not ensuring the dissolution profile at in-process stage of Metformin		Not replied.

HCl extended release core prior to proceeding for Active coating of other drug substances. • Submitted BMR declare dispensing of Empagliflozin & Linagliptin as per 100% content of desired label claim. Justification shall be submitted that how dispensed quantity will produce 100% content of Empagliflozin & Linagliptin, when both APIs are being included by way of Active coating and how the wastage of coating solution will be compensated.	Firm has submitted a document titled "Additional Raw/Packaging materials Requisition Form" 01-10-2020 wherein dispensing of Empagliflozin & Linagliptin for batch# 00110P,00210P,003 has been declared with the reason as "To produce 100% content of Empagliflozin & Linagliptin, overages required for coating solution.

Decision: Registration Board deferred the applications of Trilin 12.5/2.5/1000 mg Tablet, Trilin 25/5/1000 mg Tablet, Trilin 10/5/1000 mg Tablet & Trilin 5/2.5/1000 mg Tablet for following:

- **Valid GMP certificate of M/s Auro Laboratories Ltd., K-56, MIDC tarapur, Boiser, Dist, Thane, Maharashtra, India, shall be submitted.**
- **Dissolution specifications for Empagliflozin & Linagliptin are not as recommended by US FDA for innovator product. Firm has proposed dissolution limits of NLT Q in 60 minutes for both Empagliflozin & Linagliptin whereas US FDA has recommended 45 minutes & 30 minutes time point for Empagliflozin & Linagliptin respectively. Justification shall be submitted in this regard.**
- **Submitted COA of working standard of Metformin HCl declares retest date as May 2021, whereas stability studies have also been performed subsequent to this date. Justification shall be submitted in this regard.**
- **Submitted COA of working standard of Empagliflozin declares retest date as March 2021, whereas stability studies have also been performed subsequent to this date. Justification shall be submitted in this regard.**
- **Submit clarification regarding not ensuring the dissolution profile at in-process stage of Metformin HCl extended release core prior to proceeding for Active coating of other drug substances.**
- **Submit batch wise details of each strength for the dispensing of Linagliptin & Empagliflozin for ensuring the 100% content as per label claim.**
- **HPLC chromatograms shall be submitted for complete stability studies of each strength.**
- **Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.**

Remarks of EvaluatorII:

Section#	**Observation**	**Firm's response**
3.2. S.4.1	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer shall be submitted.	Submitted.

3.2.S.4.3	Analytical method verification studies from the drug product manufacturer shall be submitted.	Submitted.
3.2. S.4.4	Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance manufacturer.	Submitted.
3.2.P.2.2.1	Pharmaceutical equivalence studies against the innovator product shall be submitted.	Pharmaceutical equivalence has been submitted against the Tanzo Injection of M/s Bosch.
3.2.P.2.6	Compatibility studies with the reconstitution diluent shall be submitted.	Compatibility studies with water for injection have been submitted.
3.2.P.5.3	Test of specificity parameter has not been submitted in the analytical method verification studies.	Submitted.
3.2.P.8.3	Significant change i.e., more than 5% in the Assay results of Tazobactam has been reported in the accelerated stability studies data of batch# N5001 & N5002 of "2.25gm Injection." Firm has submitted following justification: We placed three consecutive batches of Talzon Sterile Dry Powder Injection 2.25g N500 I, N5002 and N5003 in 2015 from the respective supplier Shandlong, Pharmaceutical Co. Ltd. (Previously Qilu) for accelerated stability study at 40°C ± 2°C temperature and 75% ± 5% humidity and shelf life stability study at 30°C ± 2°C temperature and 65% ± 5%, humidity in which a slightly significant change was observed in N5001 and N5002 which might vary from analyst to analyst etc. Due to this significant change, we re-placed three consecutive batches of Talzon Sterile Dry Powder Injection 2.25g N900 I, N9002 and 1 9003 in 2019 from Shandong, Pharmaceutical Co. Ltd. (Previously Qilu) in which the results of the accelerated stability study and the shelf life stability are within limits and were found to be satisfactory. In addition, we are then placed one batch from the same supplier each year and-the results of all batches are within limits and deemed satisfactory. The details of new stability studies data submitted by firm for 2.25gm strength is as under:	

Description of Pack (Container closure system)	Glass Vial with rubber stopper sealed with flip off seal and packed in unit carton (1×1's)		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 6 months		
Frequency	Accelerated: 0, 2, 4, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	N9001	N9002	N9001
Batch Size	8,330 vials	8,330 vials	12,500 vials
Manufacturing Date	01-2019	04-2019	10-2019
Date of Initiation	23-01-2019	23-04-2019	08-11-2019

Documents submitted along with stability data.	
Reference of previous approval of applications with stability study data of the firm (if any)	--
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 2018001 issued by Shandong Food and Drug Administration valid till 24/07/2023.

Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted for the relevant batch of API used for preparation of newly submitted drub product stability batches.
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted for time duration of newly submitted stability batches.

- Firm has not submitted following for new stability studies data:
  i. Fee for revision of stability studies data.
  ii. COA of relevant batch of API used for preparation of newly submitted stability batches.
  iii. Complete batch manufacturing record.
  iv. Submitted stability studies record does not show performance of sterility testing.

Decision: Registration Board deferred the applications of Tazit 2.25gm Sterile Dry Powder for Injection & Tazit 4.5gm Sterile Dry Powder for Injection for submission of following:

i. Full fee of Rs. 75,000/- for revision of stability studies data as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021
ii. COA of relevant batch of API used for preparation of newly submitted stability batches.
iii. Complete batch manufacturing record.
iv. Microbial reports for performance of sterility testing during stability studies.

1.	Reference of previous approval of applications with stability study data of the firm (if any)	--
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. ZJ20180112 issued by Shandong Food and Drug Administration valid till 04/09/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice GBPH2020 attested by AD DRAP I&E, Karachi dated 07-09-2020 for import of 100Kg of Azithromycin dihydrate (batch# 103-200642-21)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	N/A

Remarks of Evaluator[II]:

Firm had initially submitted trial batches data, while subsequently firm has submitted stability studies data of three commercial batches detailed as below:

Description of Pack (Container closure system)	Glass Vial with rubber stopper sealed with flip off seal and packed in unit carton (1×1's)		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 6 months		
Frequency	Accelerated: 0, 2, 4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	RYD001	RYD002	
Batch Size	20,300 vials	20,300 vials	
Manufacturing Date	04-2021	10-2021	
No. of Batches	03		

- Firm has not submitted following for new stability studies data:
  i. Fee for revision of stability studies data.
  ii. COA of relevant batch of API used for preparation of newly submitted stability batches.
  iii. Complete batch manufacturing record.
  iv. Details of drug substance used for the preparation of stability batches including evidence of procurement of Drug substance.
  v. Digital data logger record for stability chambers.

Decision: Deferred for submission of following:

i. Full fee of Rs. 75,000/- for revision of stability studies data as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021
ii. COA of relevant batch of API used for preparation of newly submitted stability batches.
iii. Complete batch manufacturing record.
iv. Details of drug substance used for the preparation of stability batches including evidence of procurement of Drug substance.

Case no. 02 Registration applications of newly granted DML or New section (Human)

New DML

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 72 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Venofer 100mg/5ml injection by RG Pharmaceuticals

	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	M/s CHEMIWORLD (Pvt.) Ltd Plot No. 97-J Hayatabad Industrial estate Peshawar Pakistan.		
API Lot No.	E19ISC128		
Description of Pack (Container closure system)	Glass ampoule		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 2, 4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	2500 ampoules	2500 ampoules	2500 ampoules
Manufacturing Date	09-2021	09-2021	09-2021
Date of Initiation	18-09-2021	18-09-2021	18-09-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of letter of secretary CLB to M/s Chemiworld Pvt Lt. dated 18-02-2020 for grant of additional API i.e. Iron Sucrose Complex.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Local Purchase from CHEMIWORLD (Pvt) Ltd Plot No. 97-J Hayatabad Industrial estate Peshawar Pakistan.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable. Applied BP monograph states titration method fro Assay.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of Evaluator[II]:

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

M/s Enzon Pharma Labs Pvt Ltd. 5km Off Raiwind Manga Road, Lahore

CLB in its 273 meeting held on 15th January 2020 has considered and approved the grant of DML by way of Formulation. Now firm has applied for following products against each approved section

Section	**No of products applied**	**No of molecules applied**

Large Volume parenteral (IVP) General section	02	01
Small Volume parenteral (IVP) General section	01	01
Ampoule LDPE General	01	01

The firm applied following products previously which were considered in different meetings of RB as mentioned against each:

S.no	Brand Name	Generic Name	Composition	Meeting No and Registration status
1.	Ensol-NS 0.9% Infusion 500ml	Sodium Chloride	Each ml of the solution Contains: Sodium Chloride…9mg	M-307 Reg No: 110592
2.	Ensol-NS 0.9% Infusion 1000ml	Sodium Chloride	Each ml of the solution Contains: Sodium Chloride…9mg	M-307 Reg No: 110593
3.	Ensol-NS 0.9% Infusion 100ml	Sodium Chloride	Each ml of the solution Contains: Sodium Chloride…9mg	M-307 Reg No: 110591
4.	Ensol-NS 0.9% Infusion 25ml	Sodium Chloride	Each ml of the solution Contains: Sodium Chloride…9mg	M-307 Reg No: 109437
5.	Ensol-WFI 10ml	Water for Injection	Each 10ml Contains: Water for Injection…BP	M-307 Reg No: 109438
6.	Ensol-WFI 5ml	Water for Injection	Each 5ml Contains: Water for Injection…BP	M-307 Reg No: 109439
7.	Ensol-WFI 20ml	Water for Injection	Each 20ml Contains: Water for Injection…BP	M-307 Reg No: 109440
8.	Ensol-RL Compound Sodium Lactate IV Infusion 500ml	Sodium Chloride Potassium Chloride Calcium Chloride Dihydrate Sodium Lactate	Each 100ml Contains: Sodium Chloride…0.6% w/v Potassium Chloride…0.04% w/v Calcium Chloride Dihydrate…0.027% w/v Sodium Lactate…0.32% w/v	M-313 Reg No: 111623
9.	Ensol-RL Compound Sodium Lactate IV Infusion 1000ml	Sodium Chloride Potassium Chloride Calcium Chloride Dihydrate Sodium Lactate	Each 100ml Contains: Sodium Chloride…0.6% w/v Potassium Chloride…0.04% w/v Calcium Chloride Dihydrate…0.027% w/v Sodium Lactate…0.32% w/v	M-313 Reg No: 111624
10.	Ensol-Kcl 7.46% 20ml IV Injection	Potassium Chloride	Each ml contains: Potassium Chloride ..74.6mg	M-316 Registration letter under process
11.	Ensol-10% IV Infusion 1000ml	Glucose	Each 100ml Contains: Glucose Anhydrous…10gm	M-316 Reg No: 112895
12.	Ensol-5% IV Infusion 500ml	Glucose	Each 100ml Contains: Glucose Anhydrous…5gm	M-313 Reg No: 111628
13.	Ensol-5% IV Infusion 1000ml	Glucose	Each 100ml Contains: Glucose Anhydrous…5gm	M-313 Reg No: 111629
14.	Ensol-5% IV Infusion 100ml	Glucose	Each 100ml Contains: Glucose Anhydrous…5gm	M-313 Reg No: 111627

15.	Ensol-25% IV Injection 25ml	Glucose	Each ml Contains: Glucose Anhydrous…250mg	M-316 Reg No: 112896
16.	Ensol-10% IV Infusion 500ml	Glucose	Each 100ml Contains: Glucose Anhydrous…10gm	M-316 Reg No: 112894
17.	Ensol-25% IV Infusion 1000ml	Glucose	Each ml Contains: Glucose Anhydrous…250mg	Considered in M-320
18.	Ensol-Paed's IV Infusion 500ml	Glucose Anhydrous Sodium Chloride	Each 100ml Contains: Glucose Anhydrous…4.3g Sodium Chloride…0.18gm	M-316 Registration letter to be issued
19.	Ensol-DS 1000ml	Glucose Anhydrous Sodium Chloride	Each 100ml Contains: Glucose Anhydrous…5% w/v Sodium Chloride…0.9% w/v	M-313 Reg No: 111626
20.	Ensol-DS½ 500ml	Glucose Anhydrous Sodium Chloride	Each 100ml Contains: Glucose Anhydrous…5% w/v Sodium Chloride…0.45% w/v	M-316 Reg No: 112893
21.	Ensol-DS 500ml	Glucose Anhydrous Sodium Chloride	Each 100ml Contains: Glucose Anhydrous…5% w/v Sodium Chloride…0.9% w/v	M-313 Reg No: 111625
22.	Ensol-Metro 0.5% IV Infusion 100ml	Metronidazole	Each 100ml Contains: Metronidazole…0.5% w/v	Considered in M-320
23.	Ensol-RLD 500ml IV Infusion	Sodium Chloride Potassium Chloride Calcium Chloride Sodium Lactate Dextrose Anhydrous	Each 100ml Contains: Sodium Chloride…0.6% w/v Potassium Chloride…0.03% w/v Calcium Chloride**…**0.02% w/v Sodium Lactate…0.31% w/v Dextrose Anhydrous…5% w/v	To be considered in upcoming meeting
24.	Ensol-Cipro IV 0.2% Infusion	Ciprofloxacin	Each 100ml Contains: Ciprofloxacin as Ciprofloxacin Lactate…0.2% w/v	Considered in M-320

Summary of above molecules applied against each section is as below:

LVP GENERAL (above 100ml)	**SVP GENERAL (upto 100ml)**	**LDPE AMPOULE**
Sodium Chloride infusion	Sodium Chloride infusion	Water for Injection
Ringer Lactate infusion	Potassium Chloride injection	
Glucose infusion	Glucose infusion	
Glucose and sodium Chloride infusion	Metronidazole infusion	
Ringer Lactate and Dextrose infusion	Ciprofloxacin infusion	
Total molecules= 05	**Total molecules= 05**	**Total molecules = 01**

Now the firm has again applied 4 molecules (13 products) on 2nd August, 2022 with same formulation and same product development data but without **Eurocap packing.**

LVP GENERAL	**SVP GENERAL**	**LDPE AMPOULE**

(above 100ml)	**(upto 100ml)**	
Sodium Chloride infusion	Sodium Chloride infusion	
Ringer Lactate infusion	Glucose infusion	
Glucose infusion		
Glucose and sodium Chloride infusion		
Total molecules= 04	**Total molecules= 02**	**Total molecules = 00**

Now the firm has submitted following new applications of the same formulations previously approved with desired container closure system of without Euro cap, while referring to the product development data & stability studies data of previously submitted applications of same formulations approved by the Registration Board since the construction material of both packaging is same i.e., LDPE Bottles.

289.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Enzon Pharma Labs Pvt Ltd. 5km off Raiwind Manga Road, Lahore.**
	Name, address of Manufacturing site.	Enzon Pharma Labs Pvt Ltd 5km off Raiwind Manga Road, Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 21849 dated 02-08-2022
	Details of fee submitted	Rs.30,000/- dated 25-07-2022
	The proposed proprietary name / brand name	**Ensaline-NS 100ml 0.9% Infusion**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml Contains: Sodium Chloride…0.9gm
	Pharmaceutical form of applied drug	Intravenous Infusion
	Pharmacotherapeutic Group of (API)	Other mineral supplements ATC CODE: (A12CA01)
	Reference to Finished product specifications	BP
	Proposed Pack size	100mL
	Proposed unit price	As per S.R.O.
	The status in reference regulatory authorities	Sodium Chloride 0.9% Intravenous Infusion BP of Baxter Healthcare Ltd. UK
	For generic drugs (me-too status)	Sterifluid-NS of M/S Frontier Dextrose Limited (Reg# 056330)
	GMP status of the Finished product manufacturer	Last inspection conducted on 15 &16-10-2020 and report concludes that overall evaluation of inspection report rating is Good
	Name and address of API manufacturer.	Nanchang Baiyun Pharmaceutical Co., Ltd Address: Yangzizhou Forest Farm, Qingshanhu District, Nanchang city, Jiangxi province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS details as per WHO QOS PD template.

	Module-III (Drug Product):	Firm has submitted relevant information against the Module III, including, Process validation protocol, Finished product analytical method validation report & stability studies data.
	Description of Pack (Container closure system)	LDPE bottle without Eurocap.

Remarks of Evaluator:

- The applied formulation to be manufactured by **M/s Enzon Pharma Labs Pvt Ltd. 5km off Raiwind Manga Road, Lahore** has already been considered & granted approval by Registration Board in its 307th meeting with container closure system of "LDPE bottles with Eurocap" based on the data of same batches of drug product as submitted in the instant application. The details of the already considered product in 307th meeting are as follows:

Applicant firm	M/s Enzon Pharma Labs Pvt Ltd. 5km off Raiwind Manga Road, Lahore.
Manufacturer firm	M/s Enzon Pharma Labs Pvt Ltd. 5km off Raiwind Manga Road, Lahore.
Brand Name	Ensol- NS 0.9% Infusion (100ml)
Dy. No. and date of submission	Dy. No. 12118: 22-04-2021
Batch No. of drug product	A, B, C
Case No.	91
Registration Board meeting	307th meeting of Registration Board held on 8th, 9th & 10th June 2021

Decision: Approved with container closure of "LDPE bottle without Eurocap."

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Brand Name +Dosage Form + Strength	Dexireg 60mg capsule
	Composition	Each Delayed Release capsule contains:- Dexlansoprazole (as enteric coated pellets) ….. 60mg
	Diary No. Date of R& I & fee	Dy. No 997 dated 26-11-2015 Rs.50,000/- Rs. 50,000/- dated 14-05-2020 vide deposit slip# 1984373
	Pharmacological Group	PPI
	Type of Form	Form 5
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	Rs.2100 /14's Rs.4200/28's
	Approval status of product in Reference Regulatory Authorities	Approved by USFDA
	Me-too status (with strength and dosage form)	
	GMP status	Last inspection report dated 16th-28th Aug, 2018 concludes as under: "The firm has complied and addressed all the observations as advised in the last inspection. Overall found satisfactory and progressive towards good level of GMP compliance."
	Remarks of the Evaluator[II]	

STABILITY STUDY DATA	
Drug	Dexireg capsules
Name of Manufacturer	M/s Barret Hodgson, Karachi
Manufacturer of API	M/s Murli Krishna Pharma Pvt. Ltd., Maharashtra, India
API Lot No.	MKPPLR-DLF-18022
Description of Pack	Alu-Alu blister

(Container closure system)		
Stability Storage Condition	Accelerated: 40˚C ± 2˚C & 75±5%RH Real Time: 30˚C ± 2˚C & 65±5%RH	
Time Period	Accelerated: 6 months Real Time: 6 months	
Frequency	Accelerated: 0,1,2,3,4,6 (Months) Real Time: 0,3,6 (Months)	
Product	Dexireg 30	Dexireg 60
Batch#	EXP-C-157,PLT-C-021,PLT-C-022	EXP-C-158,PLT-C-024,PLT-C-023
Batch Size (No. of capsules)	500,1000,1000	500,1000,1000
Manufacturing Date	11-10-2018,08-11-2018,08-11-2018	110-2018, 11-2018, 08-11-2018

DOCUMENTS / DATA PROVIDED BY THE APPLICANT	
Documents To Be Provided	**Status**
COA of API	• Copy of COA from M/s Murli Krishna Pharma Pvt. Ltd., Maharashtra, India has been submitted.
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate (NEW-WHO-GMP/CERT/PD/80503/2019/11/27529) for the M/s Murli Krishna Pharma Pvt. Ltd., Maharashtra, India, issued valid upto 03-04-2022.
Protocols followed for conduction of stability study and details of tests.	+Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
Documents confirming import of API etc.	Form 6 issued by the AD I&E DRAP Karachi dated 12-10-2018 has been submitted for the procurement of 5gm Dexlansoprazole DDR pellets 23% from M/s Murli Krishna Pharma Pvt. Ltd., Maharashtra, India.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- The submitted Import license mentions procurement of 5gm of Dexlansoprazole 23% pellets. Justify the manufacturing of 3 batches each of Dexireg 30mg & Dexireg 60mg capsules with this imported quantity of pellets.
- **Firm's response:**
  "We would like to inform you that we procured API i.e., Dexlansoprazole (23% pellets) in quantity of 1.2 Kg for manufacturing of stability batches on 08-06-2018 for which we have by mistake, missed to apply for DIL/form-6. However, we later procured further Dexlansoprazole (23% pellets) on 17-07-2018 with its proper DIL/Form 6 on 12-10-2018.
  We further undertake that we will in future comply all the requirements as laid down in given DRAP's procedure/SOP."

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Dexireg (Dexlansoprazole) 30mg and Dexireg (Dexlansoprazole) 60mg Capsules by M/s Barrett Hudson Pharma, Pvt. Ltd, Karachi.

Reference No: F.1-2/2020-PEC dated 03rh November, 2020.
Investigation Date and Time: 01st September, 2022.
Investigation Site: Factory premises of M/S. Barrett Hudson Pharma Pvt. Ltd., Karachi.
Background:

Chairman Registration Board considered the applications of M/S. Barrett Hudson Pharma Pvt. Ltd., Karachi for registration of Dexireg (Dexlansoprazole) 30mg & Dexireg (Dexlansoprazole) 60mg Capsules and constituted a three member panel to investigate the authenticity / genuineness of data (import of raw material and stability data). Panel was advised to conduct inspection of the firm and to submit report for further consideration.

Composition of Panel:

1. Prof. Dr. Rafeeq Alam Khan, Dean. Faculty of Pharmacy, Ziauddin University, Karachi (Member Registration Board).
2. Dr. Saif-ur-Rehman Khattak, Director/ FGA, CDL, Karachi.
3. Mr. Kirshan Das, Assistant Director, DRAP Office Karachi (Who could not joined the inspection due to his transfer to Quetta, Baluchistan).

Sr. No.	Question	Observation by panel
1.	Do you have documents confirming the import of API?	The firm has imported 1.2 Kg (23% w/w, batch No. MKPPLR-DLF-18022) Dexlansoprazole dual delayed release pellets from M/S. Murli Krishna Pharma (Pvt.) Ltd., India on 08-06-2018 and used in stability batches of 30 mg and 60mg Dexireg Capsules.
2.	What was the rationale behind selecting the particular manufacturer of API?	An SOP for induction and approval of new vendors is in place and implemented. The SOP include requirement like GMP certificate, capability of providing reference standards, proper QMS etc.
3.	Do you have documents confirming the import of API reference standard and impurity standards?	The firm has documents confirming the import of reference standard of API & two impurities (Sulphone & Sulfide).
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has certificate of analysis of the API, working standard of the API and impurity standards.
5.	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has GMP certificate issued by the concerned government.
6.	Do you use API manufacturer method of testing?	The firm has used the API manufacturer method for testing of the API after proper validation.
7.	Do you have stability studies reports on API?	The firm has stability study (accelerated and real time) reports on the three batches of the API.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The stability studies have been performed as per stability indicating method and major degradation products (sulphide and sulphone) have been quantified.
9.	Do you have method for quantifying the impurities in the API?	The firm has method for quantifying the impurities in the API.
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm has remaining quantities of the API, reference standards of the API and impurities (Sulphone and Sulphide).
11.	Have you used pharmaceutical grade excipients?	Not applicable, as no excipient is added before encapsulation i.e., the API is received as dual delayed release pellets and are filled in capsule shells as such.

<table>
<tr><td></td><td></td><td>However the capsules shells used were of pharmaceutical grade.</td></tr>
<tr><td>12.</td><td>Do you have documents confirming the import of the used excipients?</td><td>Local gelatine shells have been used by the firm for which there are proper documents of purchase available with the firm.</td></tr>
<tr><td>13.</td><td>Do you have test reports and other records on the excipients used?</td><td>Test reports and other documents are available for empty gelatine capsules.</td></tr>
<tr><td>14.</td><td>Do you have written and authorized protocols for the development of API tablets / capsules?</td><td>The firm has written and authorized protocol for development of Dexireg 30mg / 60mg capsules.</td></tr>
<tr><td>15.</td><td>Have you performed Drug-excipient compatibility studies?</td><td>Not applicable, as no excipients are added before encapsulation.</td></tr>
<tr><td>16.</td><td>Have you performed comparative dissolution studies?</td><td>The firm has performed comparative dissolution studies on their capsules with Razodex (Getz Pharma) Capsules. The results of dissolution are comparable. Since there is only use of gelatine capsules in addition to the pellets whose effect on dissolution is negligible, therefore, the study can be warranted as ok, however, it is advised that for other products innovator brands should be used.</td></tr>
<tr><td>17.</td><td>Do you have product development (R&D) section?</td><td>The firm has product development (R&D) section with requisite manufacturing and testing facilities.</td></tr>
<tr><td>18.</td><td>Do you have necessary equipment available in product development section for development of Dexlansoprazole Capsules?</td><td>All the necessary equipment are available in product development section however, the encapsulation is done in production area using qualified encapsulation machine.</td></tr>
<tr><td>19.</td><td>Are the equipment in product development section qualified?</td><td>The equipment in product development section (R&D) are qualified.</td></tr>
<tr><td>20.</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>PD equipment are included in site equipment maintenance, calibration and qualification program.</td></tr>
<tr><td>21.</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>The firm has adequately qualified and trained staff in product development section.</td></tr>
<tr><td>22.</td><td>Have you manufactured three stability batches for the stability studies of capsules as required?</td><td>The firm has manufactured three stability batches each for 30mg and 60mg capsules.
<table>
<tr><th colspan="3">Dexireg 30mg capsules</th></tr>
<tr><th>Batch No.</th><th>Date of Mfg</th><th>Batch Size</th></tr>
<tr><td>EXP-C-157</td><td>11-10-2018</td><td>500 capsules</td></tr>
<tr><td>PLT-C-021</td><td>08-11-2018</td><td>1000 capsules</td></tr>
<tr><td>PLT-C-022</td><td>08-11-2018</td><td>1000 capsules</td></tr>
<tr><th colspan="3">Dexireg 60mg capsules</th></tr>

<tr><td>EXP-C-158</td><td>12-10-2018</td><td>500 capsules</td></tr>
<tr><td>PLT-C-023</td><td>09-11-2018</td><td>1000 capsules</td></tr>
<tr><td>PLT-C-024</td><td>09-11-2018</td><td>1000 capsules</td></tr>
</table></td></tr>
<tr><td>23.</td><td>What was the criteria for fixing the batch size of stability batches?</td><td>The criteria for fixing the batch size of stability batches was the number of capsules used per test and frequency of testing along with smooth operation on the capsule filling machine.</td></tr>
</table>

24.	Do you have complete record of production of stability batches?	The firm has complete record of production of stability batches.
25.	Do you have protocols for stability testing of stability batches?	The firm has detailed protocols for stability testing of stability batches.
26.	Do you have developed and validated the method for testing of stability batches?	The firm has validated HPLC methods provided by manufacturer of the API with the necessary force depredation studies.
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Full validation studies are performed.
28.	Do you have documents confirming the qualification of equipment / instruments being used in the test and analysis of product's API and the finished drug?	The firm has documents confirming the qualification of equipment / instruments being used in the test and analysis of Dexlansoprazole API and the finished product.
29.	Do your method of analysis stability indicating?	Analytical method used in stability studies is stability indicating as evidenced by force degradation studies.
30.	Do your HPLC software is 21CFR compliant?	HPLC software is 21CFR compliant.
31.	Can you show Audit Trail reports on API testing?	Audit Trail reports of API (Dexlansoprazole pellets) and Dexireg Capsules are available.
32.	Do you have some remaining quantities of degradation products and stability batches?	The firm has remaining quantities of stability batches and the degradation products.
33.	Do you have commitment batches kept on stability testing?	The firm has completed accelerated (six months) and real time (24 months) studies on their stability batches with satisfactory results.
34.	Do you have valid calibration status for the equipment used in API tablets production in analysis?	The firm has valid calibration status for the equipment used in production and analysis of Dexlansoprazole Capsules**.**
35.	Do proper and continuous monitoring and control are available for stability chamber?	The firm has adequate monitoring and control available for stability chambers.
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Related manufacturing area, equipment, personnel and utilities are GMP compliant
37.	**<u>Specific Queries by PEC/Board</u>** Verify the record of purchase of 1.2 Kg of Dexlansoprazole (23% pellets), from relevant log book?	The record of purchase of Dexlansoprazole (23% pellets) was verified from the relevant record book.

Conclusions:

3. On the basis of risk-based approach the genuineness / authenticity of stability data submitted by the firm for registration of Dexireg 30mg and Dexireg 60mg (Dexlansoprazole) Capsules are verifiable to satisfactory level.

4. The related manufacturing area, equipment, personnel and utilities are GMP compliant and suited for the manufacturing of Dexireg 30mg and Dexireg 60mg (Dexlansoprazole) Capsules.

Decision: Registration Board approved the applications of o Dexireg 30mg capsule & Dexireg 60mg capsule with Innovator's specifications.

- **The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications of each strength as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Evaluation by PEC:

Observations	Response by the firm
Analytical method verification studies including specificity, accuracy and precision for drug substance are required and relevant information should be presented in section 2.3.S.5 and 3.2.S.5 under control of Drug Substance.	Submitted from M/s Sichuan Huiyu Pharmaceutical Company Limited, Building 3, No. 333 Hanyang road, Shizhong District Neijang, Sichuan, CN-641000, China.
Pharmaceutical equivalence studies are not provided with the relevant details. Provide the required data of pharmaceutical equivalence along with details of manufacturer, approval status in reference countries, batch number, date of manufacturing and expiry date of the reference product against which the pharmaceutical equivalence has been established.	Firm has submitted following details of reference product against which Pharmaceutical equivalence has been performed. Innovator: Eloxatin® Manufacturer: Sanofi Aventis Approval status: Approved in the European community since 1996 Batch number: D8A696 Expiry data: 01/2011
Real time stability studies of the drug product are performed at 25ºC±2 and 60%RH±5% while the said study should be performed according to zone IV-A conditions that is 30ºC±2 and 65%RH±5% of 03 batches till claimed shelf life.	Firm has submitted new stability studies data of three batches of both filled volumes as below: • Real time stability studies have been conducted at 30ºC±2 and 65%RH±5% for 24 months of 3 batches • Accelerated stability study is conducted at 40ºC±2 and 75%RH±5% for 6 months of 3 batches Fee for revision of stability studies data shall be submitted.

Decision: Registration Board approved applications of Oxaliplatin 5mg/ml concentrate for solution for infusion (20ml) & Oxaliplatin 5mg/ml concentrate for solution for infusion (10ml) as per policy of inspections of manufacturer abroad.

		Firm has submitted one batche long term stability data of 24 months (time points 0,6,9,12,18 & 24 Months) at 300C±65%RH and two batches stability data of 12 months (time points 0,6,9 & 12Months) at 300C±65%RH and 6 months at 400C±75%RH for three batches.
Remarks of evaluator: Firm has submitted one batches long term stability data of 24 months (time points 0,6,9,12,18 & 24 Months) at 30^0C±65%RH and two batches stability data of 12 months (time points 0,6,9 & 12Months) at 300C±65%RH and 6 months at 40^0C±75%RH for three batches.		

Original Legalized COPP issued by concern regulatory body of exporting country show that applied product is not in free sale in exporting country. **Decision of 293rd meeting:** Deferred for clarification regarding non availability of applied product in country of origin as per submitted CoPP.
Firm's response: Firm has submitted Original Legalized COPP (Certificate no. 2022/49) valid till 06-01-2024, issued by Ministry of Health, Turkish Medicines and medical Devices Agency, for Neuair Discair 50/500mcg Inhalation Powder declaring following details: **Product License Holder:** M/s Neutec Ilac, San. Tic. A.S. , Yildiz Teknik Universitesi Davutpasa Kampusu Teknoloji gelistirme Bolgesi D1 Blok kat: 3 Esenler/Istanbul/Turkey **Manufacturer:** M/s Neutec Inhaler Ilac San. Ve Tic. A.S, Sakarya 1. Organize sanayo Bolgesi 2. Yol No.3 Artifiyes/ Sakarya/ Turkey **Free Sale status:** Available in country of origin i.e., Turkey. **GMP status of Manufacturer:** Yes
Decision: Approved as per policy of inspections of manufacturer abroad.

327. Neuair Discair Fluticasone Propionate 500mcg & Salmeterol (Eq. to Salmeterol xinafoate) 50mcg Inhalational powder by M/s The Searle company Limited Karachi

MODULE 1: ADMINISTRATIVE

Section	Sub-Section	Heading
1.1		Covering Letter and Fee Deposit Slip Submitted Dy. No 12001 Dated 16-07-2019 (Rs. 100,000/- Dated 12-07-2019)
1.2		Table of Contents (From Module 1 to Module 5) Submitted
1.3		Applicant Information Submitted
	1.3.1	Name, address and contact details of Applicant / Marketing Authorization Holder: M/s The Searle company Limited, 1st floor N.I.C.L Building Abbasi Shaheed Road off: Shahrah-E-Faisal Karachi-75530
	1.3.2	Name, address and contact details of Manufacturing site. M/s Neutec Inhaler Ilac San. Ve Tic. A.S, Sakarya 1. Organize sanayo Bolgesi 2. Yol No.3 Artifiyes/ Sakarya/ Turkey
	1.3.3	Specify whether the Applicant is: □ Importer
	1.3.4	Drug Sale License M/s The Searle company Limited, suit no. 101 1st floor N.I.C Building Abbasi Shaheed Road Karachi Godowns address: F-2/Q SITE Karachi Drug License by way of Wholesale No. 0591 valid upto 03-05-2020
	1.3.8	Manufacturer's Site Master File and Credential (for importer) Submitted
1.4		Type of Application Submitted
	1.4.1	Application is for the registration of: Generic Drug Product
	1.4.1	Pharmaceutical product is intended for: □ Domestic sale
	1.4.2	For imported products, please specify one of following: □ Finished Pharmaceutical Product Import
1.5		Detailed Information of Drug, Dosage From & Labelling Claims Submitted
	1.5.1	Generic name with chemical name & synonyms of the applied drug. Salmeterol / Fluticasone Propionate
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit Each dose contains: Fluticasone Propionate 500mcg & Salmeterol (Eq. to Salmeterol xinafoate) 50mcg
	1.5.3	The proposed proprietary name / brand name under which the drug is intended to be sold with trademark certification / clearance. Neuair Discair

	1.5.4	Proposed Pack size and Proposed unit price of drug e.g., per tablet / capsule. Maximum Retail Price (MRP) per pack shall also be mentioned. 1's (60 Doses)
	1.5.5	Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) Bronchodilator+ Corticosteroids
	1.5.6	Pharmacopoeial reference / Status of applied formulation USP
	1.5.7	Route of administration Oral Inhalation
	1.5.8	For Generic Drug Product, reference of other similar approved medicines with information pertaining to Manufacturer name, brand name, strength, composition, registration number & dosage form, Pack size and Price. Not submitted
	1.5.9	The registration status of applied drug in same molecule and salt, strength, dosage form, container closure system, indications and route of administration etc. in other countries. The status in reference regulatory authorities is mandatory to mention. Seretide Accuhaler 50 microgram/500 microgram/ dose inhalation powder, pre-dispensed
	1.5.10	Dosage form of applied drug Oral Inhalation
	1.5.11	Proposed label (outer (secondary) & inner (primary)) & colour scheme in accordance with Drug (Labelling & Packing) Rules, 1986 along with specimens Submitted
	1.5.12	Description of Batch numbering system
	1.5.14	Summary of Product Characteristics (SmPC) including Prescribing Information (PI) along with Patient information Leaflet (PIL) of the Finished Pharmaceuticals Product (FPP). Submitted
	1.5.15	Commitment / Undertaking that after registration of applied drug, the Pharmacovigilance department of the applicant / manufacture is liable to impose similar restrictions, addition of any clinical information (like in Indications, Contra-indications, Side effects, Precautions, Dosage & Adverse Drug Reactions etc. in Summary of Product Characteristics (SmPC), Labelling & Promotional material) or withdraw the drug from market in Pakistan within fourteen days after knowing that such information (which was not available or approved by the DRAP at the time of registration) / actions taken (for safety reasons) by any reference / stringent drug regulatory agency / authority & also inform the DRAP (Drug Regulatory Authority of Pakistan) for further action in this regard. Submitted
	1.5.16	Commitment / Undertaking that the applicant shall recall the defective Finished Pharmaceutical Products (FPP) and notify the compliance to the authority along with detail of actions taken by him as soon as possible but not more than ten days. The level of recall shall also be defined. Submitted
	1.5.17	Commitment / Undertaking that in case of any false claim / concealing of information, the DRAP has the right to reject the application at any time, before and even after approval or registration of the product in case if proved so. Submitted
	1.5.18	Commitment / Undertaking that the firm shall follow the official pharmacopoeia specifications for product / substance as published in the latest edition & shall update its specification as per latest editions of the same. In case, the specifications of product / substance not present in any official pharmacopoeia the firm shall establish the specifications. In both cases, the validation of specifications shall be done by the applicant. Submitted
	1.5.19	Commitment / Undertaking that in case of any post approval change, the applicant shall ensure that the product with both approvals shall not be available in the market at the same time. And the product with new approvals shall be marketed only after consumption / withdrawal of stock with previous approvals. The company shall be liable to inform the same regarding marketing status of product to the DRAP after getting such post-registration approvals. Submitted
	1.5.20	Other commitment e.g., regarding stability studies etc.

	1.5.21	Protocols along with the commitment to follow Good Laboratory Practices (GLP) by the Manufacturer.
	1.5.22	Protocols to implement Good Pharmacovigilance Practice by the Pharmacovigilance department/section of the Manufacturer / Company.
1.6		Miscellaneous Information Submitted
	1.6.1	Information on Prior-related Applications
	1.6.2	Appendix
	1.6.3	Electronic Review Package
	1.6.4	QIS (Quality Information Summary)
	1.6.5	Drug Substance related Document including following: Name and address of API manufacturer. Salmeterol API Manufacturer: Inke, S.A. Address: C/ Argent, 1 Area Industrial Del Llobregat Spain-08755 Castellbisbal, Barcelona. Fluticasone Propionate API Manufacturer: M/s Sterling S.P.A, Via Della Carboneria 30 Italy- 06073 Solomeo Di Corciano, Perudia
	Original Legalized CoPP (Certificate#. 2018/3234) issued on 18-09-2018 by Republic of Turkey Ministry of Health Turkish Medicines and Medical Devices Agency and applied product is not in free sale in exporting country but GMP status of manufacturer i.e., M/s Neutec Inhaler Ilac San. 	Dy. No. and date of submission	Dy.No 26925 dated 29/09/2021
	Details of fee submitted	PKR 30,000/-: dated 11/08/2021
	The proposed proprietary name / brand name	Logican Capsule 200mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Fluconazole ……200mg
	Pharmaceutical form of applied drug	Capsule
	Pharmacotherapeutic Group of (API)	Anti-Fungal
	Reference to Finished product specifications	BP
	Proposed Pack size	4's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Diflucan Capsule 200mg M/s Pfizer Laboratories MHRA Approved.
	For generic drugs (me-too status)	Diflucan Capsule 200mg; Reg. No. 011829 by M/s Pfizer
	GMP status of the Finished product manufacturer	DML by way of formulation No. 000785 dated 03-02-2019
	Name and address of API manufacturer.	**Fluconazole** M/s. Pioneer Laboratories India Pvt. Ltd. Address: 94A, 95B & 96A Industrial Area No.1, A.B. Road Dewas (M.P.) India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The official monograph is present in United States Pharmacopeia. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity D, G & related substances (impurity A & unspecified), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: **Fluconazole:** Real time: 30°C ± 2°C / 65% ± 5%RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: **Fluconazole:** FLC/FD/01/0004-05, FLC/FD/02/0004-05, FLC/FD/03/0004-05.
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure

		(including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been established against the brand leader that is **Diflucan 200mg Capsule** by **M/s Pfizer Laboratories** CDP has been performed against the same brand that is **Diflucan 200mg Capsule** by **M/s Pfizer Laboratories** in Acid media (0.1 N HCL) & Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). F_1 & F_2 values both are within the range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	**Fluconazole** M/s. Pioneer Laboratories India Pvt. Ltd. Address: 94A, 95B & 96A Industrial Area No.1, A.B. Road Dewas (M.P.) India.		
API Lot No.	**Fluconazole:** FLC/FD/29/02/18-19		
Description of Pack (Container closure system)	Alu-PVC blister packed in unit carton (1×4's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	**TF-070819**	**TF-080819**	**TF-090819**
Batch Size	1000 Capsules	1000 Capsules	1000 Capsules
Manufacturing Date	08-2019	08-2019	08-2019
Date of Initiation	07-08-2019	07-08-2019	07-08-2019
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Etoxib 90mg Tablet Etoxib 120mg Tablet Approved in 294th minutes of meeting of DRB
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Fluconazole:** Copy of DML No. 25/5/2010 issued by Food and Drugs Administration Madhya Pradesh
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Attested invoice from ADC attached for Fluconazole Invoice No. RPLPL/18-19/0277
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.
Remarks of Evaluator:		
Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		

346.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s AGP Limited B-23-C, S.I.T.E., Karachi-75700, Pakistan.**
	Name, address of Manufacturing site.	M/s AGP Limited B-23-C, S.I.T.E., Karachi-75700, Pakistan.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 24845 dated 08-09-2021
	Details of fee submitted	PKR 30,000/-: dated 24/05/2021
	The proposed proprietary name / brand name	**Rigix Oral Solution (Banana flavor)**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Cetirizine HCl…….5mg
	Pharmaceutical form of applied drug	Clear colorless liquid with characteristic Banana flavor and odor.
	Pharmacotherapeutic Group of (API)	Antihistamine for systemic use
	Reference to Finished product specifications	BP Specification Shelf life claimed is 24months.
	Proposed Pack size	60ml and 120ml
	Proposed unit price	Rs. 78.09/- for 60ml Rs. 124.17/- for 120ml
	The status in reference regulatory authorities	Cetirizine Hydrochloride 5mg/5ml by Chain Drug Consortium LLC (Premier Value), USA.
	For generic drugs (me-too status)	Zyrtec 5mg/5ml Oral Solution by M/s GlaxoSmithKline. Reg. No. 016937
	GMP status of the Finished product manufacturer	Renewal of GMP on 17-06-2021. Renewal of DML on 30-06-2020. Firm has Oral Liquid (general) section.

	Name and address of API manufacturer.	**Cetirizine Hydrochloride:** M/s PRAVEEN LABORATORIES PVT. LTD, India, Block No. 206, Village: Jolwa, Taluka: Palsana Dist.: Surat, Gujarat, INDIA.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Cetirizine Hydrochloride is present in BP. Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The board approved Glyzia-XR Tablet 50/500m of M/s AGP limited B-23, SITE, Karachi in 285th meeting held in October 2018. As per minutes, HPLC is 21 CFR compliant and have audit trails.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Cetirizine Hydrochloride:** Copy of GMP certificate No. SGMP/21092927 issued by Food and Drug Control Administration, India, valid till 09th Oct 2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	ADC Attested Karachi invoice no Ex/060 date 1-1-2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Data of 3 batches with raw data sheets, COA, and chromatograms have been submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing was submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) was submitted

Remarks of Evaluator:

Short coming	**Replies**
a) 2.3.P.8/ 3.2.P.8 Stability. The storage condition "Do not store above 25C°" does not meet zone IV a condition. Please Justify.	• The storage conditions will be "Do not store above 30C°". • We have conducted stability studies of our product on Zone IV-A (30°C ± 2°C / 65 ± 5% RH) and by mistake we have skipped 3rd month stability testing point but we have performed 6th month, 9th month and 12th months and 18th month stability studies and results shows that the product is stable. • We have also performed accelerated stability studies for 0, 3 & 6 months, the results are also in compliance with specifications. • We assure you that we will continue the stability studies up to the shelf life of 24 months and submit the data at DRAP. • Valid copy of GMP certificate of API manufacturer i.e. M/s PRAVEEN

b) Approval of valid API/DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin is required.	LABORATORIES PVT. LTD, India, Block No. 206, Village: Jolwa, Taluka: Palsana Dist.: Surat, Gujarat, INDIA. Valid till 19-9-2023. Certificate is issued by Food and Drug Control Administration.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, assay, tests for related substance and specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of

		drug substance.
	Stability Studies	Stability study conditions: **Sitagliptin phosphate Monohydrate:** Real time: 30°± 2°C &65± 5% RH for 18 months Accelerated: 40°± 2°C & 75± 5% RH for 6 months Batches: (12300-160101, 12300-160102, 12300-160103) **Metformin HCl:** Real time: 30°± 2°C &65± 5% RH for 60 months Accelerated: 40°± 2°C & 75± 5% RH for 6 months Batches: (MET099/13 MET100/13, MET101/13)
	Module-III (Drug Product)	Firm has submitted relevant information against the Module III, including Comparative Dissolution Profile studies, Pharmaceutical Equivalence Process validation protocol, Finished product analytical method validation report & stability studies data.
	Pharmaceutical equivalence and CDP	Pharmaceutical Equivalence has been established against the Brand Leader Janumet XR Tablets 100/1000mg Batch No. RO28366 by Merck & CO. USA by performing quality tests (Identification, Assay, and Dissolution). CDP has been performed against the same brand that is Janumet XR Tablets 100/1000mg by Merck & CO. USA in Phosphate Buffer (pH 6.8), Acetate Buffer (pH 4.5) &Acid media (0.1N HCl).
	Analytical method validation/verification of product	Method Validation studies have submitted including System suitability, specificity, linearity, limit of detection (LOD) and limit of quantification (LOQ), accuracy, precision and robustness.

STABILITY STUDY DATA

Manufacturer of API **Sitagliptin (as Phosphate monohydrate)**: **Metformin HCl**:	M/s Zhejiang Tianyu Pharmaceuticals Co. Ltd No.15, Dongai 5th Avenue, Zhejiang Provincial chemical and Medical Raw Materials Base Linhai Zone , Taizhou City, Zhejiang Province, China. M/s Abhilasha Pharma Pvt. Ltd Plot# 1408, 1409 G.I.D.C Estate Ankleshwar—393002 Gujarat, India		
API Lot No.	Sitagliptin (as Phosphate monohydrate):12301-17030101 Metformin HCl: MET121/16		
Description of Pack (Container closure system)	Alu-Alu Blister Strip packed in card box of unit carton of 14's Tablets 500U/C further packed in corrugated box		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 12 months Accelerated: 6 months		
Frequency	Accelerated: 0,1,2,3,4, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)

Batch Size	1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date	09-2018	09-2018	09-2018
Date of Initiation	25-09-2018	26-09-2018	27-09-2018
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Registration Board decided to approve registration of Wardy Tablets 25mg (Empagliflozin)of M/s. Werrick Pharmaceuticals in 316th meeting. According to the report following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Sitagliptin (as Phosphate monohydrate)**: GMP Certificate for M/s Zhejiang Tianyu Pharmaceuticals Co. Ltd, China issued by China Food & Drug Administration valid Up to 28-03-2022. **Metformin HCl**: GMP Certificate no. 19081546. for M/s Abhilasha Pharma Pvt. Ltd, India issued by India Food & Drug Administration valid Up to 25-08-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Invoice **Sitagliptin (as Phosphate monohydrate)**: Invoice No. TY117434 dated: 05-06-2017 cleared by DRAP Islamabad office dated: 23-06-2017 specifying import. 2Kg Sitagliptin (Batch # 12301-17030101). **Metformin HCl**: Invoice No. Exp-023/2016-17 dated: 08-12-2016 cleared by DRAP Islamabad office dated: 27-12-2016 specifying import 500 kg Metformin HCl (Batch # MET 121/16).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance Record of HPLC software 21CFR & Audit trail on testing reports of product submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers

Remarks of the Evaluator:

Sr.#	Section#.	Observations/Deficiencies/Short-comings	Remarks of the firm
A.	1.6.5	Valid GMP certificate of M/s Abhilasha Pharma Ltd. India is required.	GMP Certificate for M/s Abhilasha Pharma Pvt. Ltd, India issued by India Food & Drug Administration valid Up to **25-08-2022**.
B.	3.2.S.4	Copies of Drug Substance specifications and analytical procedures used for routine testing of Drug Substance (API) by Drug Product manufacturer is required. Validation of analytical procedures, Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non- compendial Drug Substance(s) shall be submitted.	The firm has submitted Drug Substance specifications and analytical procedures used for routine testing of Drug Substance (API) by the firm. Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the firm for both compendial Drug Substance(s) are supported by attested respective including chromatograms, Method verification report, and summary data sheets.
C.	3.2.S.4.4	A discussion and justification should be provided for any incomplete analyses of the drug substances / API by Drug Product manufacturer	For **Metformin HCl B.P**& **Sitagliptin** (as Phosphate monohydrate) **USP** all tests including impurities are performed as per

			British Pharmacopeia and United States Pharmacopeia, respectively by the Drug product manufacturer.
E.	3.2.S.7	Metformin HCL: The results of the accelerated and long- term stability studies should be summarized. Proposed storage conditions / statement and re-test period (or shelf-life, as appropriate) shall also be submitted.	The firm has submitted summarized results of the accelerated and long-term stability studies. Storage condition for long-term stability studies are 30°C ± 2°C / 65% ± 5%RH& for accelerated stability studies are 40°C ± 2°C / 75% ± 5%RH.
F.	3.2.P.5.3	Specificity parameter has been performed by injecting the blank and standard solution. Whereas USP chapter < 1225>&ICH Q2 (R1) guidelines suggests spiking the drug substance with appropriate levels of impurities. Justification shall be submitted for this variation.	The firm has submitted justification for Specificity parameter according to USP chapter < 1225>&ICH Q2 (R1) guidelinesby spiking the drug substance with appropriate levels of impurities supported by attested chromatograms.
L.	Record of Digital Data Logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required.		Submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

350.	Name, address of manufacture/ Applicant	M/s Werrick Pharmaceuticals, Plot # 216-217, Sector I-10/3 Industrial Area ,Islamabad
	Brand Name +Dosage Form+ Strength	Sotalo Tablets 160mg
	Composition	Each Tablet Contains: Sotalol as HCl …….. 160mg
	Diary No. Date of R& I & fee	Dy. No 3444 dated 07-09-2017 (form 5 D) Rs.50,000/- (Exemption date)dated: 29/01/2021 ,

Date of Submission	Exemption date : 29/01/2021		

DOCUMENTS/DATA PROVIDED BY THE APPLICANT

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Registration Board decided to approve registration of Wardy Tablets 25mg (Empagliflozin) of M/s. Werrick Pharmaceuticals in 316th meeting. According to the report following points were confirmed. • The firm has 21CFR compliant HPLC software. • The firm has audit trail reports available.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	**Sotalol HCl:** **API:** Copy of COA (Batch#SH11117091) From Neuland Laboratories Ltd. Banjara Hills, Hyderabad-500034, Telangana, India. **FPP:** Copy of COA submitted
3.	Method used for analysis of API from both API Manufacturer & Finished Product Manufacturer	Method used for analysis of API from both API Manufacturer & Finished Product Manufacturer has been submitted.
4.	Stability study data of API from API manufacturer	Real time data submitted at 30 and 65 for 60months and Accelerated time :- 40 and 75% for 6 months.
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 1199/E1/2019 issued by WHO valid till 30/06/2022.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of invoice No. NEU/UI/EXP/00430/ Dated 19-02-2018
7.	Protocols followed for conduction of stability studies.	Protocols followed for conduction of stability studies was submitted
8.	Method used for analysis of FPP	The firm has submitted photocopies of following: FPP Test/Analysis Method & FPP Specifications
9.	Drug-excipients compatibility studies (where applicable)	Drug-excipients compatibility studies were not performed as the firm has used the same excipients as of innovator.
10.	Complete batch manufacturing record of three stability batches	BMR was provided.
11.	Record of comparative dissolution data (where applicable)	Exemption claimed as Reference product is not available in Pakistan.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted photocopy of Batch Manufacturing Record of three stability batches such as. Sotalo Tablets 160mg Batch No. | Date of Mfg. | Batch Size T-01 | 04-2018 | 1500 Tablets

		T-02 | 04-2018 | 1500 Tablets T-03 | 04-2018 | 1500 Tablets
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
Remarks of Evaluator:		
Decision: Approved. • **Registration Board further decide that registration letter will be issued upon submission of CDP studies against the innovator drug product.** • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Dy. No. and date of submission	Dy.No 23843 dated 31-08-2021
	Details of fee submitted	Rs.30,000/- dated 12-08-2021 Slip no. 2710858202
	The proposed proprietary name / brand name	**Curin 97mg/103mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Sacubitril…….97mg Valsartan….103mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	neprilysin inhibitors / angiotensin receptor blockers (ARBs)
	Reference to Finished product specifications	Innovator specs
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Entresto 97mg/103mg Tablet of Novartis Europharm limited. (EMA approved)
	For generic drugs (me-too status)	Sacvin 97mg/103mg Tablet of Pharm Evo Pvt Ltd.

	GMP status of the Finished product manufacturer	The firm is granted GMP certificate based on inspection conducted on 11-02-2019, was valid till 09-02-2022. Request for GMP inspection R&1 date: 22-12-2021 is provided.
	Name and address of API manufacturer.	**Sacubitril/Valsartan:** SHANDONG BOYUAN PHARMACEUTICA; CO., LTD MANUFACTURING FACILITY Qiangjin street , jibei economic development zone, jinan city, Shandong province, china, 250101
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C, RH: 65% ± 5% for 24 months Accelerated: 40°C ± 2°C, RH: 75% ± 5% for 6 months Batches: (16091301, 16091801, 16092501)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The Firm has performed pharmaceutical equivalence and comparative dissolution profile of their developed formulation Curin 97mg/103mg Tablet (B # NDP-223) with reference product Entresto 97mg/103mg Tablet (B #TCL-04) of M/s Novartis pharmaceutical Pvt. Ltd. in pH 1.2, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The results of CDP showed that release profile of both test and comparator products were comparable. The values for f2 factor are in the acceptable range.

	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance

	Stability studies	Stability study conditions: Real time: 30°C ± 2°C, RH: 65% ± 5% for 24 months Accelerated: 40°C ± 2°C, RH: 75% ± 5% for 6 months Batches: (16091301, 16091801, 16092501)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The Firm has performed pharmaceutical equivalence and comparative dissolution profile of their developed formulation Curin 24mg/26mg Tablet (B # NDP-218) with reference product Entresto 24mg/26mg Tablet (B #TCR-37) of M/s Novartis pharmaceutical Pvt. Ltd. in pH 1.2, acetate buffer pH 4.5 and phosphate buffer pH 6.8. The results of CDP showed that release profile of both test and comparator products were comparable. The values for f2 factor are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	**<u>Sacubitril/Valsartan:</u>** SHANDONG BOYUAN PHARMACEUTICA; CO., LTD MANUFACTURING FACILITY Qiangjin street , jibei economic development zone, jinan city, Shandong province, china, 250101

Batch Size	1500 tab	1500 tab	1500 tab
Manufacturing Date	12-2020	12-2020	12-2020
Date of Initiation	02-01-2021	02-01-2021	02-01-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has referred to previous inspection of stability data of the same dosage form on the basis of which Registration Board

		in 286th meeting decided to approve registration of Sofovir-V 400mg/100mg Tablet. Inspection date: 5 & 15 October, 2018 The report shows that: The HPLC software is 21 CFR compliant. The firm has provided data loggers with stability chambers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted GMP certificate for M/s Shandong Boyuan Phar Shandong Boyuan Pharmaceutica; Co., Ltd, China issued by Food and Drug Administration China. The certificate is valid till 18-05-2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of ADC for the import of Sacubitril/Valsartan (2.5 Kg, dated 08-07-2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & Audit trail on testing reports of product submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks OF Evaluator:

Sr. No.	Queries	Response submitted
1.	It shall justify the dissolution specification NLT 80%(Q) after 45 minutes, and using USP basket apparatus(I) at 75 rpm, since the USFDA review document of the innovator product specify dissolution specification i.e. NLT (Q) after 25 minutes using USP basket apparatus(II) at 50 rpm	FDA dissolution test Method applied on the product  Drug Name | Dosage Form | USP Apparatus | Speed (RPMs) Sacubitril/Valsartan | Tablet | I (Basket) | 75 Medium | Volume (mL) | Recommended Sampling Times (minutes) Phosphate Buffer, pH 6.8[degassed] | 900 | 10, 15, 20, 30 and 45
2.	Valid GMP certificate of API Manufacturer is required.	The firm has submitted GMP certificate for M/s Shandong Boyuan Phar Shandong Boyuan Pharmaceutical; Co., Ltd, China issued by Food and Drug Administration China. The certificate is valid till **18-05-2023**
3.	You have submitted only 3 month real and accelerated time stability data	Stability Data of 6th month was submitted
4.	Whether the reference standard exist as co-crystal complex sacubitril/valsartan or both are separate, provide COA of reference standard. Need detail of reference standard used for the performance of identification tests by comparing the IR spectra of the API shall be submitted	The working standard was provided by the supplier in Co-crystals complex sacubitril/Valsartan. The peaks of both the APIs were identified, by injecting pure USP Valsartan primary standard in to the chromatogram the retention time is 7.0 minute (chromatogram attached for reference) and also in LCZ 696 compound we have a peak on the same retention time which shows that this first peak is of valsartan, while the second peak is for sacubitril.

Decision: Registration Board approved the applications of Curin 97mg/103mg Tablet, Curin 49mg/51mg Tablet & Curin 24mg/26mg Tablet with Innovator's specifications.

- **Registration Board further decided that registration letter will be issued after submission of dissolution studies of three batches of each strength as per recommendations of US FDA at next time point of long term stability studies.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Miscellaneous Case

Case No. 01: Request of M/s Al-Habib Agencies for registration of applied poultry products (imported).

M/s Al-Habib Agencies, Rawalpindi vide its letter dated 24-08-2022 has requested for registration of applied poultry products for import from Vietnam. The request of the firm is placed below:

Dear Sir,

We, M/s. AL-HABIB AGENCIES is leading marketing company for the supply of Poultry & Livestock Medicine in Pakistan.

Unfortunately, in current circumstance of Flood in our Country, Viral Disease & Infections in Poultry & Livestock is increasing on Serious Alarming Level. Standard requirement and procedure for

registration of DRAP may be challenge to fulfil the need of such drugs in the country at this distasting situation.

M/s. AL-HABIB AGENCIES had applied for the registration of (15) imported products from Vietnam according to the criteria and mechanism for registration obtained by Drug Regulatory Authority of Pakistan (DRAP). These (15) applied products can easily control & counter against these life threatening diseases (Product details enclosed).

We are requesting that our application may kindly be consider and register our applied imported products so that we can help our farmers to protect their Livestock from Lumpy Skin Disease. We make sure to make immediate availability of applied products in our local market. We ensure that safe, effective and quality drug products will be made available to the citizen on immediate basis.

The list of the products for which firm has requested is as under:

Importer: M/s Al-Habib Agencies. Flat # 11, 2nd Floor, Kala Khan Shopping Center, Shamshabad, Murree Road, Rawalpindi

MA Holder Abroad: M/s HT Pharma Veterinary Import Export Liability Company. 69 Hung Vuong, Thoi Binh Ward, Ninh kieu District, Can Tho City, Vietnam

14.	Pro-Timi C		
15.	Pro-Cefo Injection	23-11-2021	Each ml Contains: Ceftiofur as Hcl…50mg

Decision: Registration Board considering the fact that generic products are available for the formulations requested by firm for priority consideration hence Board decided to consider the above referred applications on their turn.

Case No.01. Requests for Procurement of Controlled Drug Substance for Trial/ Development & Stability Purposes.

M/s Aspin Pharma (Pvt) Ltd. Plot No.10 & 25 Sector 20 Korangi Industrial Area Karachi has informed that OBS Group has entered into an agreement to acquire certain pharmaceutical brands currently being marketed by Pfizer Pakistan Limited. Amongst the brands being acquired, Xanax (Alprazolam) is a controlled product. Its existing commercial quota is expiring in May 2023, after which Pfizer will discontinue its manufacturing and Aspin Pharma Pvt. Ltd., will be responsible for manufacturing this product subject to the transfer of marketing authorization and approval of the commercial quota. Considering the stringent timelines, M/s Aspin is making efforts to expedite the process for the commencement of manufacturing of Xanax to prevent product shortages. Moreover, to ensure readiness to manufacture this drug M/s Aspin has submitted the psychotropic/ Narcotic section layout approval request to DRAP on 02-09-2022 which is currently under review.

In this regard, M/s Aspin has requested for permission to purchase controlled substance "Alprazolam" for trial, development and stability determination of following products. In this regard, the firm has also submitted fee of Rs.7500 per product. Detail is as under:

S. No.	Product Name/ Controlled Drug Substance/ Fee detail	Quantity Required for trial/ stability batches	Source

In this context, the Board is further informed that M/s AGP Limited B-23-C, S.I.T.E., Karachi (DML No.000348) also submitted an application vide letter No. RA/DRAP/0147/2022 received dated 14-09-2022 for permission to purchase "Alprazolam" for product development on same grounds i.e., acquiring "Xanax" from M/s Pfizer Pakistan Limited, however, the firm vide their letter No. RA/DRAP/0149/2022 received dated 16-09-2022 informed regarding withdrawal of their initial application.

Decision: **Registration Board approved the allocation of controlled drug substances i.e. Alprazolam for trial, development & stability batches of above mentioned products. The Board advised the firm to maintain records of used substances and waste materials having above APIs will be destroyed after approval of Controlled Drug Division, DRAP. The Board further decided that Marketing Authorization to M/s Aspin Pharma (Pvt) Ltd. Plot No.10 & 25 Sector 20 Korangi Industrial Area Karachi shall be granted as per applicable policy regarding Psychotropic / Narcotic sections.**

Case No.02: Change in Registration status of Products from M/s OBS Pakistan (Pvt) Ltd., Karachi to M/S Aspin Pharma (Pvt.) Ltd. Karachi

Registration Board in its 317th meeting held on 16-17th May 2022 deferred following products due to the reasons mentioned in the last column below:

S.No	Reg.No	Name of the Product	Decision of Registration Board in 317th meeting
1.	081780	Anvol 2.5 mg Tablet Each tablet contains: Nebivolol (as HCl) … 2.5 mg (Manufacturer's Specification)	Registration Board deferred the case for submission of justification regarding un-even trends of dissolution profile of both the products i.e., Anvol Tablet 5 mg & 2.5 mg
2.	081069	Anvol 5 mg Tablet Each tablet contains: Nebivolol (as HCl) … 5 mg (Manufacturer's Specification)	---as above----

Now the firm has submitted their reply vide Diary Number 21691 dated 01 August 2022. The firm has submitted as below:

"In this regard, it is stated that; As per Dissolution profile guidelines of US FDA (enclosed herewith, pls. refer to Page 11, Section V), for comparison of dissolution, Dissimilarity factor (f1) and Similarity factor (f2) are calculated for different buffers at different time points and the f1 should be less than 15 while f2 should be greater than 50."

"In CDP of our products both f1 and f2 are within limits of US FDA guidelines and hence considered comparable for dissolution of Anvol 2.5mg & 5mg in comparison with its innovator product."

Decision: Registration Board deferred the case for further deliberation.

Registration-II Section

Case No.01 Registration for the drug(s) of M/s. Allmed (Private) Limited. Lahore.

Registration Board in 237th meeting considered the products of M/s. Allmed (Private) Limited Lahore. as per detailed below:-

S.No	Name of the drugs with composition	Pack Size	Proposed Price	Date of Submission	Remarks
1.	Isoflo Oral Solution Each 100ml contains:- Isoflurane…....100ml (Anesthesia)	100ml	As per SRO	10-11-2011 Fee.8000 11-10-2012 Fee.12000 Fast track fee submission Fee.40000	USFDA approved formulation is intended for inhalation route *Firm has clarified that applied formulation is as per reference product approved by USFDA with strength Isoflurane 99.9%* ***Also corrected brand name as Isoflo Solution***
2.	Sevoflo Solution Each ml contains:- Sevoflurane.....250ml (anesthesia)	250ml	-do-	10-11-2011 Fee.8000 11-10-2012 Fee.12000 Fast track fee submission Fee.40000	USFDA approved formulation is intended for inhalation route *Firm has clarified that applied formulation is as per reference product approved by USFDA with strength sevoflurane 100%*

Firm has submitted following documents:-

i. Application for this purpose.
ii. Copy of GMP conducted on 12.11.2018 (panel recommends DML renewal)
iii. Evidence of section (inhalants) approval by CLB not provided by the firm

Registration Board in its 287th meeting decided to confirm manufacturing facility for above mentioned formulations from Licensing division.

Accordingly Licensing Division was requested to confirmed the manufacturing facility of the above said product. Licensing Division has forwarded a letter of concerned FID which states that;

> "The representative of the firm informed that they will be manufacturing these products in syrup section (General) (Already Approved). However, a vessel in syrup manufacturing section was dedicated for these anesthetic inhalants. A separate syrup filling machine was also installed in a separate room for filling of these inhalant anesthetics. The filling machine was covered to avoid the accumulation of fumes in the room. The room had HVAC facility with separate AHU for this area. For the purpose of testing of these solutions, the firm had purchased GC apparatus of Agilent company."

Decision of 295th Meeting:

> Registration Board rejected the application as firm does not have approved section for manufacturing of anesthetic inhalants.

Accordingly, above decision of the Board was communicated to the firm vide letter No. 5-3/2020-Reg-II (M-295) dated 01-06-2022.

Firm has submitted appeal before Appellate Board against above decision of Registration Board and decision of Appellate Board is as under;

> **The Board after hearing the arguments, perusal of the record and getting the update about the availability of approved section by the Central Licensing Board decided to remand back the case to Registration Board for re-consideration of already decided applications in its next meeting.**

Now firm has requested to change fill volume of Isoflo Solution from 100ml to 250ml with submission of fee of Rs.30,000/- and submitted justification as under;

i. All the private and public institutions prefer / demand 250ml volume over 100ml due to convenience in usage and Patient compliance.
ii. Further 250ml fill volume is also approved by reference regulatory authority.

Firm has also submitted following;

i. Form-5 of Sevoflo Solution along with photocopy of fee challan of Rs.8000/-, Rs.12,000/- and Rs.40,000/-
ii. Revised Form-5 of Isoflo Solution along with photocopy of fee challan of Rs.8000/-, Rs.12,000/- and Rs.40,000/-
iii. Section approval of Liquid Solution for Inhalation (General) Section.
iv. GMP Certificate issued based upon evaluation conducted dated 11-06-2021.

Decision:

a. Registration Board approved the registration of above products in the name of M/s. Allmed (Private) Limited. Lahore as per following details:

i. Isoflo Solution
Each Vial contains:-
Isoflurane…....250ml

ii. Sevoflo Solution
Each Vial contains:-
Sevoflurane.....250ml

b. Fee shall be verified as per decision of 285th meeting of Registration Board.

c. Registration Board further decided that firm shall perform pharmaceutical equivalence study against the innovator drug product before commercialization of products.

Case No.02 Correction in Minutes of Registration Board Meetings.

i. M/s Aptcure Pvt Ltd; 8- Pharma City, 30 km Multan Road, Lahore

Registration Board in its 295th meeting approved following product of M/s Aptcure Pvt Ltd; 8-Pharma City, 30 km Multan Road, Lahore. Registration letter was not issued as there is some typo error in strength of formulation. Details are as under;

Sr. No.	Name of Approved Drug(s) & Composition	Corrected Name of Drug(s) & Composition	Remarks
1.	Laget 200mg Capsule Each Capsule Contains: **Fenofibrate…..20mg** USP	Laget 200mg Capsule Each Capsule Contains: **Fenofibrate…..200mg** USP	Registration letter not yet issued

Firm has submitted receiving of registration application which reveals that stance of the firm is justified.

Decision: **Registration Board decided to approve the correction in above product as per following details.**

"Laget 200mg Capsule
Each Capsule Contains:
Fenofibrate…..200mg"

ii. M/s Carer Pharmaceuticals Plot # 27, Main Road, Rawat Industrial Estate Rawat.

Registration Board in its 317th meeting approved following product of M/s Carer Pharmaceuticals Plot # 27, Main Road, Rawat Industrial Estate Rawat by way of contract manufacturing from M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad. Registration letter was not issued as there is some typo error in strength of formulation. Details are as under;

Sr. No.	Name of Approved Drug(s) & Composition	Corrected Name of Drug(s) & Composition	Remarks
1.	BRIAR 200mg/5ml suspension Each 5ml of reconstituted suspension contains: **Cefixime (as trihydrate)……100mg** USP specs	BRIAR 200mg/5ml suspension Each 5ml of reconstituted suspension contains: **Cefixime (as trihydrate)……200mg** USP specs	Registration letter not yet issued

Firm has submitted receiving of registration application which reveals that stance of the firm is justified.

Decision: **Registration Board decided to approve the correction in above product with following details.**

"BRIAR 200mg/5ml suspension
Each 5ml of reconstituted suspension contains:
Cefixime (as trihydrate)……200mg"

Case No.03: M/s. Medisave Pharmaceuticals Plot No: 578-579 Sundar Industrial Estate, Sundar Raiwind Road, Lahore

Registration Board in 312th meeting approved following product of M/s. Medisave Pharmaceuticals Plot No: 578-579 Sundar Industrial Estate, Sundar Raiwind Road, Lahore. Deatil is as under;

Sr. No.	Name of Approved Drug(s) & Composition	Demanded Pack size & Price	Decision of 312th meeting
1.	Amisave Injection 250mg /2ml Each ampoule 2ml contains:- Amikacin sulphate ….. 250mg USP	2ml, As per SRO	**Approved.** **Registration Board further decided that registration letter will be issued after submission of applicable fee for revision of equivalency factor in composition as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021**

While issuance of registration letter, it was transpired that Amikacin 250mg/2ml is not available in any of reference regulatory authorities while RRA approved formulation is Amikacin 250mg/ml.

Now firm has submitted fee of Rs.30,000/- for correction for formulation in line with RRA as

"Amisave Injection 250mg /ml
Each ml ampoule contains:
Amikacin sulphate eq. to Amikacin….250mg"

Decision: **Registration Board decided to approve the change in formulation of above product with following details.**

"Amisave Injection 250mg /ml
Each ml ampoule contains:
Amikacin sulphate eq. to Amikacin….250mg"

Case No.04: M/s Ameer & Adnan Pharmaceutical Pvt Ltd. Plot No.47, Sundar Industrial Estate, Lahore.

Registration Board in 297th meeting approved following product of Registration Board in 312th meeting approved following product of M/s. Medisave Pharmaceuticals Plot No: 578-579 Sundar Industrial Estate, Sundar Raiwind Road, Lahore. Deatil is as under;

Sr. No.	Name of Approved Drug(s) & Composition	Demanded Pack size & Price	Decision of 297th meeting

1.	Norline 1mg/ml Injection Each ml Contains: Noradrenaline Acid Tartrate (eq to Noradrenaline 1mg/ml)…….2mg BP	2ml x5's , 2ml x10's: As per SRO	**Approved**

While issuance of registration letter, it was transpired that mee-too of Noradrenaline injection with fill volume of 2ml is not available.

Now firm has submitted fee of Rs.30,000/- for correction for fill volume from 2ml to 4ml.

Accordingly, label claim has also been standardized as per reference MHRA as

"Norline 1mg/ml Concentrate for Solution for Infusion (4ml)
Each ml Contains:
Noradrenaline Tartrate 2mg eq. to Noradrenaline …… 1mg"

Decision: **Registration Board decided to approve the change in fill volume of above product with following details.**

"Norline 1mg/ml Concentrate for Solution for Infusion (4ml)
Each ml Contains:
Noradrenaline Tartrate 2mg eq. to Noradrenaline …… 1mg"

Export Facilitation Desk

Case No.01: Registration of Drug (s) of M/s Caraway Pharmaceuticals, Plot No. 12, Street No. N-3, National Industrial Zone (RCCI) Rawat, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from letter No. F 1-9/2004-Lic dated 04-07/2022
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based / on inspection dated 09-03-2020
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Sodium Adenosine Triphosphate Injection 1% Each 1ml contains: ATP disodium salt (adenosine triphosphate disodium salt).....1%	Purchase order from Tajikistan	Dy. No. 8187 (26.08.2022) Rs.75,000/- (25.08.2022) Adenosine 3mg/ml is approved in USFDA ATP 10mg/ml injection is available in Ukarine
2.	Nicotinic Acid Injection 1% Each ampoule contains: Nicotinic Acid.....1%	Purchase order from Tajikistan	Dy. No. 8188 (26.08.2022) Rs.75,000/- (25.08.2022) NICOTINIC ACID Tablet is approved in USFDA as 500mg to 2000mg extended release form
3.	Levomecytin Tablet Each tablet contains: Chloramphenicol.....500mg	Purchase order from Tajikistan	Dy. No. 8189 (26.08.2022) Rs.75,000/- (25.08.2022) Chloramphenicol 500mg capsule is included in National Drug Formulary Philippine Chloramphenicol 250mg tablet is approved in USFDA

Decision: Registration Board considered the case and decided as follows:

a) **Approved products at Sr No 1 and 3 for export purpose. Since applied formulations are neither registered for local use nor approved by any RRA (as adopted by Registration Board in 275th meeting) hence manufacturer and importing country shall be responsible for safety, efficacy and quality of drug product.**
b) **Deferred product at Sr No 2 for confirmation of availability of Nicotinic Acid injection internationally and its intended use in importing country.**

Case No.02: Registration of Drug (s) of M/s Bio-Labs (Pvt.) Ltd, Plot No. 145, Industrial Triangle Kahuta Road Islamabad, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents

Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from letter No. F 1-12/89-Lic dated 23-07/2012
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based / on inspection dated 03-08-2021
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Morbis Infusion 42mg/ml (100ml) Each ml contains: L-Arginine HCl.....42mg	Purchase order from Uzbekistan	Dy. No. 8215 (02.09.2022) Rs.75,000/- (01.09.2022) **Remarks** L-Arginine HCl 10% injection is approved in USFDA

Decision: Registration Board approved above mentioned product of M/s Bio-Labs (Pvt.) Ltd, Plot No. 145, Industrial Triangle Kahuta Road Islamabad, since applied formulation is neither registered for local use nor approved by any RRA (as adopted by Registration Board in 275th meeting) hence manufacturer and importing country shall be responsible for safety, efficacy and quality of drug product

Case No.03: Registration of Drug (s) of M/s MTI Medical (Pvt.) Ltd, Plot No. 586-587, Sunder Industrial Estate, Raiwind Road, Lahore, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from letter No. F 1-39/2005-Lic dated 11-04/2017
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based / on inspection dated 09-02-2022
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Gluto Lyophilized Injection 2500mg/vial Each lyophilized vial contains: L-Glutathione.....2500mg	Purchase order from Kazakhstan	Dy. No. 8244 (15.09.2022) Rs.75,000/- (08.09.2022) Glutathione 600mg is available in AIFA rather than L-Glutathione

Decision: Registration Board deferred the above mentioned product for approval / regulatory status of applied formulation in importing country.

Case No.03: Registration of Drug (s) of M/s Pacific Pharmaceuticals Ltd, 30-Km, Multan Road, Lahore, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents

Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from Inspection report renewal of DML dated 13-04/2017
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based / on inspection dated 14-09-2021
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	**II**	**III**	**IV**
1.	Aspirin EC 80mg Tablets Each Enteric coated tablet contains: Aspirin.....80mg	Purchase order from Philippines	Dy. No. 8255 (16.09.2022) Rs.75,000/- (22.08.2022)

Decision: Registration Board approved above mentioned product of M/s Pacific Pharmaceuticals Ltd, 30-Km, Multan Road, Lahore since applied formulation is neither registered for local use nor approved by any RRA (as adopted by Registration Board in 275th meeting) hence manufacturer and importing country shall be responsible for safety, efficacy and quality of drug product

Deferred CASE of 85th PRVC

Case No.04: Registration of Drug (s) of M/s. Danas Pharmaceuticals (Pvt.)Ltd, 312, Industrial Triangle Kahuta Road, Islamabad, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5; (Pages 40-68/C)
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided (Page-71/C). Approval of relevant section verified from letter No. F 1-44/2003-Lic dated 15-06-2011 (Page 69/C).
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based / on inspection dated **30-10-2017** (Page 72-75 -/C).**The firm has also submit request for renewal of DML /cGMP inspection at Page 70-75/C**
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided (Pages.76/C)

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy. No.(EFD)/Fee with date
I	**II**	**III**	**IV**
1.	Oxydan 10IU/ml Injection Each Ampoule (1ml) contains: Oxytocin.....10IU	Oxydan Injection by M/s Amros	Dy. No. 8192/22 (29.08.2022) Rs.30,000/- (01.08.2022)
Remarks: We hereby hormone categorically undartake that we will produce above said product in our dedicated Steroidal Section facility. We hereby solemnly affirm and declared that we will not produce any steroidal product during the manufacturing period of our applied product Oxydan 10IU Injection (Oxytocin) in that area			

Decision 85 PRVC : The Committee considered the case and referred it to Registration Board.

Decision: Registration Board deferred the above mentioned product for section approval/manufacturing facility of hormonal (non-steroidal) injectable section.

Case No:01 Change of formulation of registered product of M/s Werrick Pharmaceuticals, Plot # 216-217, Sector I-10/3 Industrial Area ,Islamabad

1.	Name, address of Applicant / Marketing Authorization Holder	M/s Werrick Pharmaceuticals, Plot # 216-217, Sector I-10/3 Industrial Area ,Islamabad
	Name, address of Manufacturing site.	M/s Werrick Pharmaceuticals, Plot # 216-217, Sector I-10/3 Industrial Area , Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 26523 dated: 24/09/2021
	Details of fee submitted	PKR 30,000/-: dated: 17/09/2021
	The proposed proprietary name / brand name	Peptiban Dry Suspension 40mg/5ml **Reg No. 025037** Renewal submitted on 04.07.2019 (**within due date)**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5 ml (After reconstitution) Contains: Famotidine…….. 40mg
	Pharmaceutical form of applied drug	Dry Suspension
	Pharmacotherapeutic Group of (API)	Histamine -2 (H_2) Receptor antagonist
	Reference to Finished product specifications	USP
	Proposed Pack size	60 ml suspension after reconstitution
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Pepcid for Oral dry suspension USFDA Approved.
	For generic drugs (me-too status)	Sofem dry suspension 40mg by M/s Roryan Pharmaceuticals Reg. No. 082573
	GMP status of the Finished product manufacturer	Last GMP conducted on on 09/11/2018
	Name and address of API manufacturer.	M/s Vaasavaa Pharmaceuticals(Pvt) Ltd. India Plot # C-216 & 217 Maharashtra- 413 255, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Famotidine is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for related compound D,C, F, B, E and Famotidine cyanomide & Famotidine amidine related compound, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions:

		Real time: 30°C ± 2°C / 65% ± 5% RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (FM-IV/05/001, FM-IV/05/002, FM-IV/05/003)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (Pharmaceutical equivalence for assay and pH) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence	Pharmaceutical Equivalence have been established against the competitor Product Sofem dry suspension 40mg per 5ml by Roryan Pharma by performing quality tests (Identification, Assay, pH).
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s Vaasavaa Pharmaceuticals(Pvt) Ltd. India Plot# C-216 & 217 Maharashtra- 413 255, India.		
API Lot No.	FAM-0120013		
Description of Pack (Container closure system)	Amber colored Bottle with white pilfer proof cap (60ml suspension after reconstitution in 90ml bottle)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9,12, 18, 24 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	200 Bottles	200 Bottles	200 Bottles

Date of Initiation	25-02-2021	26-02-2021	01-03-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted the document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 6100728 issued by FDA (Maharashtra State) valid till 19/07/2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of invoice No. EP-20-21/089 Dated 13-06-2020 wherein the permission to import Famotidine USP for the purpose of test/ analysis / stability studies and manufacturing is granted. Copy of letter No. 2110/2020-/AD (I&E) dated 17-08-2020. Batch No. FAM-0120013
4.	Data of stability batches will be supported by attested respective documents like chromatograms,	Submitted

	Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

- Firm applied for change of already registered formulation i.e Peptiban Suspension (Famotidine 10mg/5ml) Reg No. 025037 into Peptiban Dry Suspension (Famotidine 40mg/5ml) in line with USFDA approved formulation i.e Pepcid oral dry suspension (40mg/5ml)
- **Dry powder section (General) has not been approved by CLB.**
- **Last GMP conducted on 09/11/2018**
- **Volume of diluent for reconstitution is not been provided by firm along with justification (weight/ml calculation) with reference to innovator/reference product.**
- **Stability data of reconstituted suspension up to proposed shelf life is not provided by the firm**

Decision 313th meeting: Registration Board deferred the request of firm for following requirements:

a) Confirmation of updated GMP status
b) Submission of evidence for section approval i.e Dry powder section (General) by CLB
c) Submission of Volume of diluent for reconstitution along with justification (weight/ml calculation) with reference to innovator/reference product.
d) Submission of Stability data of reconstituted suspension up to proposed shelf life

Reply (dated 07.02.2022):

S.No	Observation	Reply	Remarks
1.	Confirmation of updated GMP status	Panel has been constituted dated 03.01.2022 however Inspection yet to be conducted	GMP status yet to be verified.
2.	Submission of evidence for section approval i.e Oral Dry powder section (General) by CLB	Panel has been constituted dated 03.01.2022 however Inspection yet to be conducted	Oral Dry powder section (General) not approved yet.
3.	Submission of Volume of diluent for reconstitution along with justification (weight/ml calculation) with reference to innovator/reference product.	Firm has submitted required volume of diluent for reconstitution i.e 40ml moreover weight/ml calculation has been justified against reference product i.e **Sofem Dry Suspension (Reg No 082573) by Roryan Pharmaceutical.**	Weight/ml quantity of applied formulation (1.17g/ml) found comparable to reference product (1.16g/ml)
4.	Submission of Stability data of reconstituted suspension up to proposed shelf life	Firm has submitted in use shelf life data of 3 batches as follows: **Batch No**. Trial no 01 Trial no. 02 Trial no. 03 **Batch size**: 200 bottles **Testing interval:** 0, 7th day, 14th day, 21st day and 30th day. **Parameters:** Physical appearance, taste, pH, Assay.	Complies ***Note for Guidance on in use stability testing of human medicinal products (EMA)*** ***WHO technical report series No 953.2009*** ***Stability testing of new Drug Substances and Products ICH Q1A(R2)***

		Date of initiation 22.11.2021	

Decision 316th meeting:

Registration Board deferred the request for following requirements:

a) Confirmation of updated GMP status
b) Submission of evidence for section approval i.e Dry powder section (General) by CLB

Updated status:

Firm has submitted following requirements:

a) Updated GMP inspection report dated 5th, 11th and 12th August 2022.
b) Evidence of section approval i.e Oral Dry Powder Suspension (General) based on DML Renewal Inspection report dated 5th, 11th and 12th August 2022.

Decision: Registration Board decided as follows:

a. **Acceded to request of M/s Werrick Pharmaceuticals, Plot # 216-217, Sector I-10/3 Industrial Area ,Islamabad for change of formulation of Peptiban Dry Suspension (Famotidine 10mg/5ml) Reg No. 025037 into Peptiban Dry Suspension (Famotidine 40mg/5ml) in line with USFDA approved formulation i.e Peptiban oral dry suspension (40mg/5ml).**
b. Manufacturer shall place first three production batches on real time stability studies throughout the proposed shelf life and on accelerated stability studies for six months.
c. Manufacturer will perform process validation of first three batches as per commitment submitted in registration application.
d. Firm shall perform concurrent stability (on commercial batches) of re-constituted drug product to ensure that quality of ready to use product will remain within accepted specification limits.
e. Reference will be send to Cost & pricing Division for MRP of new drug product.

Referred cases of 85th PRVC

Case No. 02 Applications of M/s Seraph pharmaceuticals, Kahuta road Islamabad for change of contract manufacturer from M/s Rotex pharma (Pvt) Ltd, Islamabad to M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP.

M/s Seraph Pharmaceuticals, Plot No 210, Industrial triangle Kahuta road Islamabad has submitted following application on Form 5F for change of contract manufacturer as follows:

Sr No	Reg No. / date of Reg.	Product name with composition	Existing contract manufacturer	Proposed contract manufacturer	Date of submission
1.	110932 29.12.2021	Empro 40mg Injection Each vial contains: Esomeprazole as sodium……40mg	M/s Rotex pharma (Pvt) Ltd, Plot No 206-207 Industrial triangle, kahuta road Islamabad	M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP	22.06.2022 DRAP (R&I) Rs 75,000/- dated 11.05.2022

Above mentioned formulations on Form 5F applications have already been approved by Registration Board in **312th meeting** at the same manufacturing site i.e. **M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP** as per following details:

Sr No	Reg. No.	Product name with composition	Applicant/manufacturer
1.	111031	Aegis 40mg injection Each vial contains: Esomeprazole as sodium……..40mg	M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP
Remarks:- Firm has submitted stability data of trial / lab scale batches. Registration Board in 312th Meeting decided that the permission for contract manufacturing is usually granted for the products which are already manufactured by the contract manufacturer, therefore, the Board decided that the permission for contract manufacturing shall be granted on the basis of stability study data of commercial batches			
***Decision 85 PRVC : The committees considered the case and referred to Registration Board*.**			

Decision: Registration Board deliberated the matter in detail and decided to also accept product development data / stability data of trial batches manufactured by contract manufacturer. Hence

Registration Board approved instant case of change of contract manufacturing site of Empro 40mg Injection from M/s Rotex pharma (Pvt) Ltd, Plot No 206-207 Industrial triangle, kahuta road Islamabad to M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP.

Case No. 3 Applications of M/s. Hoover pharmaceuticals Lahore for change of contract manufacturer from M/s Mass Pharma(Pvt) Ltd Lahore to M/s Biogen Life Sciences 8Km Chakbeli Road, Rawat, RWP.

M/s Hoover pharmaceuticals Lahore has submitted following application on Form 5F for change of contract manufacturer as follows;

Sr No	Reg No. / date of Reg.	Product name with composition	Existing contract manufacturer	Proposed contract manufacturer	Date of submission
1.	099921 09.12.2019	Tretigen 20mg soft gelatin capsule Each soft gelatin capsule contains: Isotretinoin……..20mg	M/s Mass Pharma(Pvt) Ltd, 17 km Ferozepur Road, Lahore	M/s Biogen Life Sciences, 8Km 8KmChakbeli Road, Rawat, RWP	08.09.2021 DRAP (R&I) Rs 50,000/- dated 26.04.2021 Rs 25000/- dated 06/04/2022

Above mentioned formulations on Form 5F applications have already been approved by Registration Board in **312th Meeting** at the same manufacturing site i.e. **M/s Biogen Life Sciences,8Km Chakbeli Road, Rawat, RWP** as per following details:

Sr No	Reg. No.	Product name with composition	Applicant/manufacturer
1.	111034	Altrezam 20mg capsule Each soft gelatin capsule contains: Isotretinoin……..20mg	M/s Biogen Life Sciences 8Km Chakbeli Road, Rawat, RWP
Remarks:- Firm has submitted stability data of trial / lab scale batches. ***Registration Board in 312th Meeting decided that the permission for contract manufacturing is usually granted for the products which are already manufactured by the contract manufacturer, therefore, the Board decided that the permission for contract manufacturing shall be granted on the basis of stability study data of commercial batches***			
Decision 85 PRVC : The committees considered the case and referred to Registration Board.			

Decision: Keeping in view decision in case No.03, Registration Board approved change of contract manufacturing site of Tretigen 20mg soft gelatin capsule from M/s Mass Pharma(Pvt) Ltd, 17 km Ferozepur Road, Lahore to M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, Rawalpindi.

Case No. 04: Applications of M/s Biogen Pharma 8Km Chakbeli Road Rawat, Rwp for change of contract manufacturer from M/s Valor Pharmaceuticals 124/A, Industrial Area, Kahuta Road, Islamabad to M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP.

M/s Biogen Pharma 8Km Chakbeli Road Rawat, Rwp has submitted following application on Form 5F for change of contract manufacturer as follows;

Sr No	Reg No. /date of registration	Product name with composition	Existing contract manufacturer	Proposed contract manufacturer	Date of submission
2.	113104 22.07.2022	Isotone 20mg capsule Each soft gelatin capsule contains: Isotretinoin……..20mg	M/s Valor Pharmaceuticals 124/A, Industrial Area ,Kahuta Road, Islamabad	M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP.	05.08.2022 DRAP (R&I) Rs 75000/- dated 22.07.2022
3.	113103 22.07.2022	Isotone 10mg capsule Each soft gelatin capsule contains: Isotretinoin……..20mg			05.08.2022 DRAP (R&I) Rs 75000/- dated 22.07.2022

Above mentioned formulations on Form 5F applications have already been approved by Registration Board in **312th meeting** at the same manufacturing site i.e **M/s Biogen Life Sciences**, **8Km Chakbeli Road, Rawat, RWP** as per following details:

Sr No	Registration No.	Product name with composition	Applicant/manufacturer
1.	111034	Altrezam 20mg capsule Each soft gelatin capsule contains: Isotretinoin……..20mg	M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP.
2.	111033	Altrezam 10mg capsule Each soft gelatin capsule contains: Isotretinoin……..10mg	
Remarks:- Firm has submitted stability data of trial / lab scale batches. ***Registration Board in 312th Meeting decided that the permission for contract manufacturing is usually granted for the products which are already manufactured by the contract manufacturer, therefore, the Board decided that the permission for contract manufacturing shall be granted on the basis of stability study data of commercial batches***			
Decision 85 PRVC : The committees considered the case and referred to Registration Board.			

Decision: Keeping in view decision in Case No.03, Registration Board approved change of contract manufacturing site of Isotone 20mg capsule and Isotone 10mg capsule from M/s Valor Pharmaceuticals 124/A, Industrial Area ,Kahuta Road, Islamabad to M/s Biogen Life Sciences, 8Km Chakbeli Road, Rawat, RWP.

Case No. 05: Application for Extension of Shelf life of M/s Bayer Pakistan (Pvt) Ltd, Lahore.

a) Product name: Baycuten N cream (Reg No. 111897)
(Clotrimazole……1%w/w Dexamethasone 0.4%w/w)
Current shelf life: 2 years
Proposed shelf life: 3 years

Proposed shelf-life, justification & data of long-term stability testing (as per conditions of zone IV-A) including chromatograms for a minimum of 3 commercial scale batches or development scale batches as set by Registration Board in 276th meeting up to the proposed shelf-life.	**Accelerated studies** (Temp 40◦C±2◦C/ RH 75%±5%) Interval:0,3 and 6 months **Long term studies** (Temp 25◦C±2◦C /RH 60%±5%) **Interval**: 0,12,24 and 36 months **Study period**: Sep 2014-August 2017 **Testing parameters**: appearance, identification, pH. Degradation products, Assay **Reference: manufacturer specification** **Batch size**: 14,492 packs **Batch no**: KH02014, KH02015, KH02016 **Type of container:** Aluminum tubes
4.	□n undertaking that□□ • No change to the primary packaging type that is in direct contact with the FPP and to the recommended conditions of storage • No change in formulation and specification either of finished product, API and excipients etc.	Provided

	• In case both the above conditions are involved then manufacturer will submit complete requisite information as per procedure • In case of any quality complaint/ OOS result observed by the marketing authorization holder as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately.		
5.	**Remarks:**	Baycute-N is also approved in DIMDI (Germany) wherein approved shelf life is 3 years and storage is below or at 25◦C	

Firm has submitted documents as follows:

S. No	Document submitted	Remarks
1.	Stability protocol	Information provided about: stability study requirement, batch size, batch information, storage condition and testing interval, sampling plan, testing parameter and acceptance criteria,
2.	Stability data	Firm has submitted chromatograms, certificate of analysis and raw data sheet for each time interval along with stability data sheets
3.	Validation studies	Analytical method validation studies (specificity, accuracy, precision, linearity and LOD/LOQetc) has been performed

Remarks:

1) Testing frequency was 0,12,24 and 36 months, firm was of opinion that study was conducted in year 2014 at that time stability studies were not performed with such time interval i.e 0,3,6,9,12,18,24 however Baycute-N cream is well established product. Furthermore, firm has referred to

Annex 5 Guidelines for stability testing of pharmaceutical products containing well established drug substances in conventional dosage forms as under:

For on-going studies, samples may be tested at 6-month intervals for the confirmation of the provisional shelf-life, or every 12 months for well-established products. Highly stable formulations may be tested after the first 12 months and then at the end of the shelf-life.

2) Firm performed studies at Temp 25◦C±2◦C /RH 60%±5%, firm submitted justification of not performing stability studies at Zone IV-A condition was as under:

Dexamethasone acetate content remain within specification limit after 36months storage at Temp 25◦C±2◦C /RH 60%±5% and 6 months storage at 40◦C±2◦C/ RH 75%±5% for all batches tested. Out of specification results for 2 of the batches tested (X001 and X002) were observed after 36months storage at Temp 30◦C±2◦C /RH 65%±5%, these results are covered by storage recommendation given for the finished product i.e "Do not store above 25◦C".

Decision 85 PRVC: ***The committee considered the case and referred it to Registration Board.***

Decision: **Registration Board considered the case and acceded to request of M/s Bayer Pakistan (Pvt) Ltd, Lahore for extension of shelf life of Baycuten N cream (Reg No. 111897) from 2 years to 3 years. Furthermore, firm was advised to ensure adherence to storage conditions throughout the supply process i.e storage and transportation.**

VETERINARY

Case No.01:- DEFERRED FOR DISCUSSION REGARDING REQUIREMENT FOR STEROIDAL MANUFACTURING FACILITY.

Registration Board in its 308th meeting deferred products for discussion regarding requirement for steroidal manufacturing facility of M/s. Vetz Pharmaceuticals (Pvt) Ltd., Kotri, Sindh of below mentioned drugs. The details are as under:-

1.	Name and address of manufacturer / Applicant	M/s. Vetz Pharmaceutical (Pvt) Ltd Plot # Q-1, S.I.T.E, Kotri, Sindh
	Brand Name +Dosage Form+ Strength	Progevet Injection (10ml)
	Composition	Each ml contains:- Progestrone (USP)……..25mg
	Diary No. Date of R& I & fee	Dy.No 14577 dated 28-05-2021 PKR 30,000/- : 25-05-2021
	Pharmacological Group	Hormones
	Type of Form	Form-5
	Finished product Specifications	USP Specification
	Pack size & Demanded Price	10ml/Decontrolled
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status	Pregtone Injection of M/s. Star Labs. (Reg.#058711)
	GMP status	The firm was inspected on 31-5-2021 with the following conclusion: Based on the above observation their current GMP compliance level is rated as good.
	Remarks of the Evaluator	
	Decision: Deferred for discussion regarding requirement for steroidal manufacturing facility.	
2.	Name and address of manufacturer / Applicant	M/s. Vetz Pharmaceutical (Pvt) Ltd Plot # Q-1, S.I.T.E, Kotri, Sindh
	Brand Name +Dosage Form+ Strength	Progevet Injection (50ml)
	Composition	Each ml contains:- Progestrone (USP)……..25mg
	Diary No. Date of R& I & fee	Dy.No 14578 dated 28-05-2021 PKR 30,000/- : 25-05-2021
	Pharmacological Group	Harmones
	Type of Form	Form-5
	Finished product Specifications	USP Specification
	Pack size & Demanded Price	50ml/Decontrolled
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status (with strength and dosage form)	Progestone Injection of M/s. Symans Pharmaceuticals (Pvt) Ltd., Lahore Registration No 063695
	GMP status	The firm was inspected on 31-5-2021with the following conclusion: Based on the above observation their current GMP compliance level is rated as good.
	Remarks of the Evaluator	
	Decision: Deferred for discussion regarding requirement for steroidal manufacturing facility.	
3.	Name and address of manufacturer / Applicant	M/s. Vetz Pharmaceutical (Pvt) Ltd Plot # Q-1, S.I.T.E, Kotri, Sindh
	Brand Name +Dosage Form+ Strength	Cyclovet Injection (2ml)
	Composition	Each ml contains:- Cloprostenol Sodium 263mcg (B.P Vet) equivalent to Cloprostenol…….250mcg
	Diary No. Date of R& I & fee	Dy.No 14573 dated 28-05-2021 PKR 30,000/- : 25-05-2021
	Pharmacological Group	Harmones
	Type of Form	Form-5

	Finished product Specifications	BP -Vet Specification
	Pack size & Demanded Price	2ml/Decontrolled
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status	Cyclomate Injection (2.0 ml) M/s. Star Labs. Reg.No 012877
	GMP status	The firm was inspected on 31-5-2021with the following conclusion: Based on the above observation their current GMP compliance level is rated as good.
	Remarks of the Evaluator	
	Decision: Deferred for discussion regarding requirement for steroidal manufacturing facility.	
4.	Name and address of manufacturer / Applicant	M/s. Vetz Pharmaceutical (Pvt) Ltd Plot # Q-1, S.I.T.E, Kotri, Sindh
	Brand Name +Dosage Form+ Strength	Cyclovet Injection (10ml)
	Composition	Each ml contains:- Cloprostenol Sodium 263mcg (B.P Vet) (equivalent to cloprostenol)…….250mcg
	Diary No. Date of R& I & fee	Dy.No 14574 dated 28-05-2021 PKR 30,000/- : 25-05-2021

	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status (with strength and dosage form)	Dprost Injection (5.0ml) M/s. Selmore Laboratories Registration No 088647
	GMP status	The firm was inspected on 31-5-2021 with the following conclusion: Based on the above observation their current GMP compliance level is rated as good.
	Remarks of the Evaluator	
	Decision: Deferred for discussion regarding requirement for steroidal manufacturing facility.	

(i) We are going to submit comprehensive reply on our 6 products namely (i) Progevet Injection 10ml (ii) Progevet Injection 20ml (iii) Cylovet Injection 2ml (iv) Cylovet Injection 10ml (v) Lecivet Injection 2ml (vi) Lecivet Injection 10ml & Dinopevet Injection 5ml. We desire the manufacturing facility for hormones.

(ii) Here we desire the condition in which production dedicated area clearly mentioned to hormone according to Schedule-B Drug Licensing and Registering and Advertising Rule in 1976. Keeping in this view we prepared separate and dedicated area's for hormone section. We apply 14 products for registration, so we request the Registration Board that all applied products in hormone section should be granted, if all products are being registered so the products containing oxytocin hormone should be suspended till we prepare new area and rest deferred products should be allotted because only two products does not meet expense of the area. We hope that above narrator will satisfy you.

The details of already registered hormone products are as under:-

S. No.	Reg. No.	Name of Drug(s) & Composition.	Packing	Maximum Retail Price.	Approved Shelf Life.
1.	109960	Buserovet Injection Each ml contains:- Buserelin Acetae…….0.0042mg equivalent to Buserelin…..0.004mg (As per Innovator's Specification)*	2.5ml	De-controlled	02 years
2.	109961	Buserovet Injection Each ml contains:- Buserelin Acetae..……...….0.0042mg (equivalent to Buserelin.....0.004mg (As per Innovator's Specification)*	5ml	De-controlled	02 years
3.	111468	Oxytovetz Injection Each ml contains:- Oxytocin (USP)……..10 IU (USP Specifications)	50ml	De-controlled	02 years

4.	111469	Oxytovetz Injection Each ml contains:- Oxytocin (USP)…..….10 IU (USP Specifications)	100ml	De-controlled	02 years
5.	111470	Oxytovetz Injection Each ml contains: Oxytocin (USP)……..10 IU (USP Specifications)	250ml	De-controlled	02 years
6.	111471	Oxytovetz Injection Each ml contains:- Oxytocin (USP)……..10 IU (USP Specifications)	500ml	De-controlled	02 years
7.	111472	Oxytovetz Injection Each ml contains:- Oxytocin (USP)……20 IU (USP Specifications)	100ml	De-controlled	02 years

Decision: Registration Board considered and deferred for further deliberation.

Import & Vet-II Section

HUMAN IMPORT

Case No.01:- Registration of Imported Drugs

M/s AGP Limited, B-23, C S.I.T.E, Karachi has submitted the applications dated 06th August 2021 of below mentioned four products on form-5F for registration to their name from M/s Galaxay Pharma (Private) Limited Karachi

Sr.#	Reg.#	Name of Product	Manufacturer & Product License Holder	Manufacturer & Product License Holder as per CoPP
1.	066122	Ostrodose Gel in Canister with Metering Pump	M/s Besins Manufacturing Belgium S.A., Belgium. Registered (Dated 28-10-2010, renewal dated 24-08-2020)	**Manufacturer: -** M/s Delpharm Drogenbos SA Address: Groot Bijgaardenstraat 128, Drogenbos, 1620, Belgium **Product License Holder: -** M/s Besins Healthcare Benelux S.A, Address: Avenue Louise 287-1050 Brussels, Belgium.
2.	066123	Ostrogel Gel in Tube		
3.	062214	Utrogestan 100mg Capsules (Initial Registered Dated 27-04-2010, renewal dated 10-03-2020)	Manufacturer:- M/s Cyndea Pharma, S.L., Poligono Industrial Emiliano Revilla Sanz, Avenida de Agreda, 31, Olvega 42110 (Soria) Spain Product License Holder: - M/s Besins Healthcare Benelux 287, Avenue Louise 1050 Bruxelles (Belgium) Change of manufacturing site dated 18-05-2020	**Manufacturer: -** M/s Cyndea Pharma S.L. Address: Poligono Industrial Emiliano Revilla Sanz Avenida de Agreda, 31 Olvega 42110 (Soria), Spain **Product License Holder: -** M/s Besins Healthcare S.A, Address: Avenue Louise 287-1050 Brussels, Belgium
4.	059079	Utrogestan 200mg Capsule (Registered Dated 16-10-2009, renewal dated 25-03-2019)		

M/s AGP Limited submit following documents:

i. Application on form-5F along with fee Rs 150,000 for each product.
ii. M/s. AGP Limited, B-23 S.I.T.E, Karachi submit **termination letter** from M/s Besins Healthcare Benelux 287, Avenue Louise 1050 Bruxelles (Belgium) Dated 25th May 2021.

iii. M/s. AGP Limited, B-23 S.I.T.E, Karachi submitted **authorization letter** from M/s Besins Healthcare Benelux 287, Avenue Louise 1050 Bruxelles (Belgium) for above mentioned product.

Suit No. 2707 of 2021
M/s AGP Limited & Others Versus M/s Galaxy Pharma (Private) Limited & Others
In view of above facts and circumstances, allow the application under consideration as under:

I) That the defendant No.1, its officers, employees, agents and every person working through or under it, or on his behalf from representing or claiming themselves as partners, distributors, affiliates or representatives of plaintiff No.2 and is restrained from claiming any rights in the products, i.e.,
   a) Utrogestan 100 mg soft capsule
      (Micronized Progesterone 100mg)
      (For Oral or Vaginal use)
   b) Utrogestan 200 mg soft capsule
      (Micronized Progesterone 200mg)
      (For Oral or Vaginal use)
   c) Oestrogel Gel (in Tube)
      (Estradiol 0.6 mg/g)
   d) Oestrodose Gel
      (in Canister with metering pump)
      (Estradiol 0.6 mg/g)
   or utilizing the registration certificate of these products in any manner whatsoever.

II) As far as the importing of subject goods are concerned since it is an independent issue not arising out of the arguments, as raised, if otherwise prohibited, I am not inclined to pass any such order in this regard unless argued independently.

III) That the Drug Regulatory Authority within 15 days from the date of this order shall decide about the fate of registration of the above drugs in favour of defendant No.1 under the above facts and circumstances without asking for any NOC from defendant No.1 and submit report in this regard before this Court.

IV) In case they (Drugs Regulatory Authority) reaches to a conclusion that on account of severance of the contract, defendant No.1 is no more entitled to retain the registration of the aforesaid drugs and consequently cancel all such registrations, the application of the Besins Healthcare Distribution FZ-LLC and that of its principal be taken into consideration with immediate effect and an order be passed in this regard at the earliest with report to this Court.

Remarks:
The initial registration letter does not shows about the usage form of capsule but M/a AGP submit CoPP for both Oral and Vagianl Capsule for the product Utrogestan 100mg and 200mg Capsules.

Proceedings: -

Mr. Saif-ur-Rehman Director Marketing Business Development of M/s. Galaxy Pharma Karachi appeared before the Board and submitted interim order of Honourable High Court of Sindh at Karachi in HCA No.313 of 2022 dated 21.09.2022. He also provided a copy of termination of agreement issued by M/s. BESINS Health Care Benelux, Belgium wherein M/s. BESINS Health Care, Belgium has informed that M/s Besins Healthcare (Hong Kong) Ltd has terminated the distribution agreement with M/s Galaxy Pharma (Pvt Ltd) Karachi. M/s. BESINS Health Care Benelux, Belgium further added that they have a new distribution agreement with M/s. AGP limited B-23-C SITE, Karachi.
Registration Board raised query regarding product license holder of the products in question. Mr. Saif responded that Product License Holder of said product is M/s. BESINS Health Care Belgium. However, they made a contract with M/s Besins Healthcare (Hong Kong) Ltd. So, M/s Basin Healthcare Belgium has no right to cancel the distribution agreement made between M/s Galaxy Pharma Karachi and M/s Besins Healthcare (Hong Kong). The Board further inquired about the current status of agreement between Basin Healthcare Belgium and Besins Healthcare (Hong Kong) to which Mr Saif could not responded.

Registration Board after deliberation and keeping in view the above discussion decided to send an email to M/s Basin Healthcare Belgium, Product License Holder (as per CoPP) of the below mentioned products for following clarifications:

a) **Updated status of agreement between M/s Basin Healthcare, Belgium and M/s Besins Healthcare (Hong Kong) and to provide any documentary evidence if M/s Basin Heathcare Belgium has cancelled the authorization of M/s Basin Healthcare Hongkong.**
b) **Present authorized agent in Pakistan by the Product license holder i.e. M/s Basin Healthcare Belgium for following products:**
   a) **Utrogestan 100 mg soft capsule**
      (Micronized Progesterone 100mg)
      (For Oral or Vaginal use)
   b) **Utrogestan 200 mg soft capsule**
      (Micronized Progesterone 200mg)
      (For Oral or Vaginal use)
   c) **Oestrogel Gel (in Tube)**
      (Estradiol 0.6 mg/g)
   d) **Oestrodose Gel**
      (in Canister with metering pump)
      (Estradiol 0.6 mg/g)

Case No. 2. Guidance required regarding compliance with pharmacopeial specifications

Director Drug Testing Laboratory Faisalabad vide letter on subject "Guidelines Required regarding compliance with Pharmacopeial specifications" dated 06-09-2022, in which he has informed that the timeline given by the Registration Board has been ended on 26th April 2022. In the light of the decision of the Registration Board DTL Faisalabad requested the guidance on following:

Sr.#	DTL Faisalabad guidance requested points
1.	Manufacturers/ Registration holders of drug products that are still (May, 2022 onward) manufacturing their products as per Manufacturer's /Innovator's Specifications despite the availability of the monographs in Pharmacopoeia and are unable to provide DRAP's approval shall be Misbranded?
2.	If product specifications mentioned on the label are MS/Innovator's Specs and DRAP has not yet granted the approval though monograph is available in official pharmacopeias, which specifications would be opted to test/analyze the said product?
3.	In United States Pharmacopeia (USA), several tests are mentioned in dissolution test of various monographs and USP stated that except the test I, the Dissolution test number should be mentioned on the label of the product, If dissolution test no. is not printed on the label and manufacturer specify USP test 2 or test 3 in its method of analysis, on which dissolution test, the said product should be tested. And whether product would be declared misbranded or not.

Registration Board in its 317th meeting held on 16-17th May 2022 decided not to further extend timelines for compliance with pharmacopeial specifications.
Pharmaceuticals firms started to apply for specifications as per decision of Registration Board and PE&R division processed many of these applications and a number of applications are still under the process of evaluation and final approval.

Proceedings:
The Board was appraised that PE&R Division has already decided/disposed of cases applied for the change in specifications as per direction of the Board.

Decision: **Keeping in view above proceedings, Registration Board decided to advise the DTL Faisalabad to proceed in accordance with Drug Specification Rules 1978 for queries at S.No.1 and 2 while query at SNo.3 will be deliberated in the forthcoming meeting of Registration Board.**

Case No. 3. **<u>Eli Lilly Pakistan's request to make Labeling website Live with their current approved Leaflets/Prescribing Information</u>**

Eli Lilly Pakistan submitted application on 25-Aug-2022 for approval to make the website (www.mealabels.lilly.com) live and accessible to public/HCPs having their current approved Leaflets/Prescribing Information of their products:
E-Labeling is the dissemination of approved product information, via an electronic method (such as through a machine-readable QR code or URL) to the healthcare providers and patients.
With e-labeling, public/HCPs will have access to the most updated product information immediately after DRAP's approval/Notification.

In the below table, they further elaborated the benefits of e-labeling when it comes to patients, pharmacists and doctors:

Patient	Pharmacist	Doctor
❖ Access to the latest product information immediately after DRAP approval/Notification ❖ Product in the market will include the latest information	❖ Ability to access the locally approved product information without having to open the pack with the QR Code	❖ Providing a repository for doctors to reach local approved product information
Better readability and searchability of information		

Eli Lilly is implementing e-labeling across the Middle East countries through the addition of a QR code and a website URL to the product outer pack and physical leaflet.
Accordingly, once they got this 'website go live' approval, they will start notifying to DRAP artworks of their products by adding the QR codes and the website URL on the outer packs and leaflets.
Recently they have received approval to make their website Live from Lebanon and UAE Health Authorities.
They will not be eliminating the physical leaflet at this stage. The website will be updated right after new product information is approved by DRAP, allowing immediate implementation of label updates.
It is confirmed by the company that the website will only hold product information on the Pakistan pages that are already approved/Notified to DRAP.
Website layout also submitted with relevant pages to Pakistan.
Submitted for the recommendation of the Board for approval to make www.mealabels.lilly.com Labeling website Live with their current approved Leaflets/Prescribing Information.

Decision: Registration Board considered and deferred for further deliberation.

Case No. 4 <u>Request of M/S Bayer Pakistan (Pvt) Limited for Issuance of Formal Letter for Cancellation of Registration of Qlaira Tablet Due to Divestment of Licensed Facility</u>

M/s Bayer Pakistan (Pvt) Ltd, Korangi Industrial Area, Plot No. 23, Sector No.22, Karachi has submitted request for Issuance of Formal Letter for Cancellation of Registration of Qlaira Tablet Due to Divestment of Licensed Facility.
Details are as follows:

S. No	Product(s) Name	Reg. No.	Reason for De-Reg. (stated by firm)	Alternative registered product
1.	Qlaira Tablet Each wallet (28 film coated tablets) contains: - Part I (2 dark yellow film coated tablets-Core) Estradiol valerate...3.0mg. Part II (5 medium red film-coated tablets-Core) Estradiol valerate...2.0mg. Dienogest....2.0 mg. Part III (17 light yellow film-coated tablets-Core) Estradiol valerate...2.0mg. Dienogest....3.0 mg. Part IV (2 dark red film-coated tablets-Core) Estradiol valerate...1.0mg. Part V (2 white film-coated tablets-Core)	088370	**Registration of Qlaira (oral contraceptive) is already not valid considering Licensed facility where Qlaira was registered *(i.e. C-21, S.I.T.E., Karachi, Pakistan)* had already been divested to Novartis in 2020-21 and transfer of Product (Qlaira) registration was not processed/requested since than by either Bayer Pakistan or Novartis. Further, Manufacturing site will not be able to produce and provide supplies for Pakistan.**	Famila, Desofam, (Zafa), Hytrade-C (Hygeia), Geogynon (Geofman Pharma)

	Placebo			

SOP Requirement	Firms Response
a) Application. b) Copy of registration letter. c) List of alternatives brands/ FPPs available in the country. d) An undertaking that: i. No case is pending at any forum / court of law regarding this product. ii. Provided information/ documents are true/ correct.	a. Application with a fee Rs.10,000/- b. Copy of registration letter (Reg. Letter date 28-02-2018). c. Above d. Provided by the firm.

Decision: Registration Board considered and referred the case to availability committee.

	Pharmacotherapeutic Group of (API)	Anti-retroviral
	Reference to Finished product specifications	Manufacturer's specs
	Proposed Pack size	2 strips (Combipack) Each strip contains 2 light pink colour film coated tablets of Nirmatrelvir INN 150 mg each and 1 white colour film coated tablet of Ritonavir USP 100 mg.
	Proposed unit price	As per current pricing policy of DRAP
	The status in reference regulatory authorities	PAXLOVID 150 mg/100mg Film-Coated Tablets (UK)
	For generic drugs (me-too status)	PAXLOVID 150 mg/100mg Film-Coated Tablets of M/s Pfizer
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability the studies of the drug substance.
	Nirmatrelvir	
	Name, address of drug substance manufacturer	KAIFENG Pharmaceutical (Group) Company Limited Head Office:No.1, Yunan Street, Kaifeng, Henan Province, China Manufacturing Site: No.1, Yunan Street, Kaifeng, Henan Province, China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is

		conducted at 30°C ±2°C / 65% ± 5% The stability study data is till 12 months.
	Ritonavir	
	Name, address of drug substance manufacturer	M/s Arene Life Sciences Private Limited Plot No. 48, 49 &50, 209, 210 & 211 Phase-II, IDA, Pashamylaram Sangareddy PIN code -502 307 Telangana, India
	Module-III Drug Substance:	The firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 25°C ±2°C / 60% ± 5% RH. The stability study data is till 24 months.
	Nirmatrelvir Film Coated Tablets	
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	PE and Comparative analysis Studies against the reference product Nirmatrelvir (Paxlovid) of Pfizer Limited have been submitted
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	PAXOVIR Film Coated Tablets Blister Foil Alu Alu Bottom foil 164 mm
	Stability study data of drug product, shelf life and storage conditions	The accelerated stability study data at 40°C ±2°C / 75% ± 5% RH for 6 months and real time stability study data at 30°C ±2°C / 65% ± 5% RH for 12 months.
	Ritonavir Film Coated Tablets	
	Module-III Drug Product:	The firm has submitted data on drug products including its description, composition, pharmaceutical development, manufacture, manufacturing process, and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation

		of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	PE and Comparative analysis Studies against the reference product Norvir of AbbVie Inc. have been submitted
	Analytical method validation/verification of product	The firm has submitted analytical method validation studies for the applied product.
	The container closure system of the drug product	PAXOVIR Film Coated Tablets Blister Foil Alu Alu Bottom foil 164 mm
	Stability study data of drug product, shelf life, and storage conditions	The firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real-time stability study data is conducted at 30ºC ±2ºC / 65% ± 5% RH. The real-time stability study data of 3 batches for 12 months.

Evaluation by PEC:

Decision of M-320: Registration Board considered and deferred for following:

i. Container closure system of the co-pack.

ii. Pharmaceutical Equivalence and Comparative Dissolution Profile with the innovator.

Firm Reply:

i. Firm has submitted comparative dissolution of Ritonavir with (Paxlovid) of Pfizer.

ii. Pack size showing 2 strips (Combipack)

Each strip contains 2 light pink colour film coated tablets of Nirmatrelvir INN 150 mg each and 1 white colour film coated tablet of Ritonavir USP 100 mg.

Decision: Approved with innovator's specifications and as per import policy. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

Case No: 1 Renewal of Nitrofurantoin Tablet (038568) applied by M/s M/s Glitz Pharma, 265 Industrial Estate Kahuta Triangle Islamabad

M/s Glitz Pharma, 265 Industrial Estate Kahuta Triangle Islamabad has informed that their import consignment for 150 Kg Nitrofurantoin vide Application No. E-2421332694917 is held by Import & Export section as they are asking to provide evidence of regularization of registration of Nitrofurantoin Tablets. The Firm has requested to issue renewal of registration because they are suffering heavy demurrages at sea port. The product registration and renewal details are as under:

Reg. No.	Brand name and composition	Date of Reg.	Renewal submission details
038568	Nitrofurantoin Tablet Each tablet contains: Nitrofurantoin……...100mg (BP Specifications)	30.06.2009	Rs.10000/- dated 30.06.2014 Rs.10000/- dated 04.09.2018 (differential fee for year 2014) Rs.20000/- dated 05.11.2019 Rs.30000/- dated 01.02.2021 (differential fee for year 2019)

Submitted for consideration for regularization of registration under SRO 1005(I)/ 2017.

Decision: Registration Board regularized the renewal of Nitrofurantoin Tablet (038568) for the year 2014 and year 2019 and granted renewal w.e.f. 30.06.2021 to 29.06.2026

Case No: 2 Contract Manufacturing of Registered Products of M/s. Novartis Pharma (Pakistan) Ltd., 15-West Wharf Dockyard Road, Karachi at M/s GlaxoSmithKline Consumer Healthcare Pakistan Ltd., Petaro Road Jamshoro.

M/s. Novartis Pharma (Pakistan) Ltd., 15-West Wharf Dockyard Road, Karachi has submitted request for extension in contact manufacturing of below mentioned products registered in their name manufactured at M/s GlaxoSmithKline Consumer Healthcare Pakistan Ltd., Petaro Road Jamshoro. The firm has submitted following documents:

i. Fee deposit slip of 75000/- each product.
ii. Copies of DML
iii. Copies of registration letter
iv. GMP certificate of M/s GlaxoSmithKline Consumer Healthcare Pakistan Ltd., Petaro Road Jamshoro.
v. Contract agreement.

The permission was valid for the period of 30months from the date of issuance of registration. The case was discussed in 317th meeting of Registration Board and deferred for following:

i. Clarification for non-compliance of timelines granted by Registration Board i.e. 30months
ii. Status of products not applied for extension in contact manufacturing in registration letter dated: 22.01.2020 and 13.02.2020

Details of the products are as under:

Sr. No.	Reg. No.	Brand Name & Composition	Initial date of Registration PRV (If any)	Date of application (R&I) Fee submitted	Validity
1.	007823	Mepresor 100mg tablets Each tablet contains: Metoprolol……100mg (Manufacturer Specification)	22.01.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
2.	006144	Mosegor sugar coated tablet Each tablet contains: Pizotifen……...0.5mg (Manufacturer Specification)	22.01.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
3.	021529	Tegral 200mg tablets Each tablet contains: Carbamazepine……200mg (Manufacturer Specification)	22.01.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
4.	041184	Trioptal 300mg tablet Each film coated tablet contains: Oxcarbazepin……300mg (Manufacturer Specification)	22.01.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027

5.	041185	Trioptal 600mg tablet Each film coated tablet contains: Oxcarbazepin……600mg (Manufacturer Specification)	22.01.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
6.	006282	Mosegor Syrup Each 5ml contains: Pizotifen…….0.25mg (Manufacturers Specification)	22.01.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
7.	021528	Caflam 50mg Tablets Each tablet contains: Diclofenac Potassium……..…50mg (Manufacturer's Specification)*	13.02.2020	75000/- dated 21.02.2022	As per decision recorded below.
8.	021525	Voltral 50 Tablets Each enteric coated tablet contains: Diclofenac sodium…..50mg (Manufacturer's Specification)*	13.02.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
9.	021524	Voltral 25 Tablets Each enteric coated tablet contains: Diclofenac sodium….25mg (Manufacturer's Specification)*	13.02.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
10.	021526	Voltral SR 100mg Tablets Each tablet contains: Diclofenac Sodium…….100mg (Manufacturer's Specification)*	13.02.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
11.	036125	Mepresor SR 200mg Tablets Each sustained release tablet contains: Metoprolol Tartrate…….200mg (Manufacturer's Specification)*	13.02.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027
12.	070803	Tegral Suspension Each 5ml contains: Carbamazepine……100mg (BP Specification)	13.02.2020	75000/- dated 21.02.2022	Renewal is granted w.e.f. 22.06.2022 to 21.06.2027

The firm addressed the above queries as under:

Clarification for non-compliance of timelines given by the company and approved by Registration Board i.e., 30months:

With reference to earlier approval granted, we would like to share summary of progress in compliance of said decision as follows:

- Novartis has acquired a manufacturing plant, Drug Manufacturing License 000003, the approval letter of same was issued by DRAP in October 2020 (Attached Annexure 1).
- As per commitment, we have applied products for transfer of manufacturing site, to our newly acquired site, which we shared as "Wave 1" products in our undertaking. Approval of transfer is awaited.
- Further to our commitment, we have already started validation process and stability of Wave 2 products. Application of transfer will be applied as soon as all documentation are available mandatory to secure approval.
- We acknowledge that timelines of overall project have been delayed due to challenging situations of COVID in year 2020 and 2021. We have communicated same in our first quarterly report submitted to your kind office after approval granted by Drug Registration Board, however, it will not lead to any non-compliance to prevailing contract manufacturing when approval was granted nor with new contract manufacturing policy.

Status of products not applied for extension in contact manufacturing in registration letter dated: 22.01.2020 and 13.02.2020:

With reference to above query, we would like to update authorities' status of remaining products as follows which has not been applied for contract manufacturing:

- Products applied for transfer of registration as "Wave 1", in our undertaking, i-e Lamisil 250mg Tablet, Lamisil 125mg Tablet and Annuva Dispersible Tablet doesn't require said approval.
- Attached (Annexure 2), list of products, which we have divested to local pharmaceutical company "AGP Pharma", transfer of same has been submitted and many given approvals in registration board, therefore, approval of contract manufacturing is no longer relevant for Novartis to apply.
- Other products in the list, applied for contract manufacturing as per contract manufacturing policy.

The case was placed in 320th meeting of Registration Board wherein the Board decided as under:

"Registration Board discussed that initially M/s. Novartis Pharma (Pakistan) Ltd., 15-West Wharf Dockyard Road, Karachi was given contract manufacturing approval for thirty-nine products for a period of thirty months in 2017 and 2018 under Rule of 20A of Drug (LR&A) Rules 1976. The firm was again granted an extension for a period of 30 months vide DRAP letter dated 13.02.2020 with the condition to comply the aforesaid timelines, however same was not complied by the firm as per stance narrated above. Hence the Board directed the firm to provide timelines regarding the transfer of registration of above products to their own facility".

As per above decision of the Board, the firm submitted as under:

"Novartis Pharma (Pakistan) Ltd. have submitted its case of Contract Manufacturing Extension in 2019 where registration board acceded our application and granted approval for 30 months while NVS has made following commitments

1. Novartis will setup local footprint in compliance with prevailing contract policy at that time.
2. Novartis will not request further exceptional approval and will comply with policy.

With reference to our commitments with DRAP, we would like to inform again that:

- Novartis has acquired a manufacturing plant, Drug Manufacturing License 000003, the approval letter of same was issued by DRAP in October 2020.
- As per commitment, we have applied products for transfer of manufacturing site, to our newly acquired site, depending upon production capacity, and secured approval of three products.
- Furthermore, another application of transfer is already submitted for Caflam 50mg Tablet to your office.
- We acknowledge that timelines of overall project have been delayed because of the challenging situations of COVID in year 2020 and 2021. We have communicated same in our first quarterly report submitted to your kind office after approval granted by Drug Registration Board.

Kindly refer below status summary of 39 products approved in 2020 for contract manufacturing:

- We have already received approval of 3 products i.e., Lamisil 250mg tablet, Lamisil 125mg Tablet and Annuva Dispersible Tablet which now onwards will be manufactured at Novartis plant.
- Another 2 products, Caflam 50mg is already submitted for transfer to DRAP while second Product Mepressor Tablet is on product development & stability stage at Novartis plant and will be submitted as soon as required documentation is completed.
- 17 products, which we have divested to local pharmaceutical company "AGP Pharma", transfer of same has been submitted and many given approvals in registration board, therefore, approval of contract manufacturing is no longer relevant for Novartis to apply.
- De-registration of 6 products applied, as same are divested globally.

For remaining 12 products, we request DRAP to grant us approval of contract manufacturing with GSK Jamshoro for period of 5 years, as per new contract manufacturing policy, as we would like to leverage benefit of new policy which include cost effectiveness and effective utilization of capacities".

Decision: **Registration Board considered and deliberated stance of the firm as per Rule 20-A of Drug (Licensing, Registering & Advertising) Rules, 1976 and decided as under:**

i. Granted the renewal of contract manufacturing of above products (Sr. No. 1-6 & 8-12) registered in name of M/s. Novartis Pharma (Pakistan) Ltd., 15-West Wharf Dockyard Road, Karachi from M/s GlaxoSmithKline Consumer Healthcare Pakistan Ltd., Petaro Road Jamshoro with the validity period mentioned against each.

ii. **The request of M/s. Novartis Pharma (Pakistan) Ltd., 15-West Wharf Dockyard Road, Karachi for registration of Caflam 50mg Tablets (021528) at Sr. No. 7 above at their own facility shall be processed by the concerned registration section.**

Cases of AD-I (Mr. Hafiz Ahsan)

A: Imported Human Biological product from Non-reference countries:

1.	**Name, address of Applicant / Importer**	**M/s The Searle Company Limited, F-319, S.I.T.E. Karachi, Pakistan**
	Details of Drug Sale License of importer	**License No:** 029 **Address:** Plot No. F-319 SITE, Karachi. **Validity: 08-01-2023** **Status:** License to sell drugs as a distributor.
	Name and address of marketing authorization holder (abroad)	M/s PT. Sanbe Farma (Sterile Preparation Plant), Jl. Industri Cimareme No. 8, Desa Cimareme, Kecamatan Ngamprah, Kabupaten Bandung Barat, Indonesia.
	Name, address of manufacturer(s)	M/s PT. Sanbe Farma (Sterile Preparation Plant), Jl. Industri Cimareme No. 8, Desa Cimareme, Kecamatan Ngamprah, Kabupaten Bandung Barat, Indonesia.
	Name of exporting country	Indonesia
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	The Firm has submitted legalized copy of CoPP (No. RG.01.05.32.321.01.21.2365) dated 22-01-2021 issued by National Agency of Drug and Food Control, JI. Percetakan No. 23, Jakarta, Indonesia for HEPAGUSAN solution for injection. The CoPP confirms free sale status of the product in the exporting country as well as conformance of facilities and operations to GMP as recommended by WHO through periodic inspection every year.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Coordinator of International Regulatory Affairs of PT Sanbe Farma, Indonesia. According to the letter, the firm *M/s PT Sanbe Farma* authorizes "The Searle Company Limited" as exclusive partner for the said product and officially authorized to submit application to Drug Regulatory Authority of Pakistan. The letter was issued on 16-10-2019.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 20903 (R&I); Dated 25-07-2022
	Details of fee submitted	Rs. 150,000/-; Dated 22-04-2021
	The proposed proprietary name / brand name	**Hepagusan Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Heparin Sodium……5000 IU
	Dosage form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Finished product specifications	BP specifications
	Proposed Pack size	Box of 10 Vials @ 5 ml /vial
	Proposed unit price	As per DPC
	Shelf Life	02 Years
	Storage Conditions	≤ 30 °C
	The status in reference regulatory authorities	Heparin Panpharma 5000 IU / ml solution for injection of M/s Panpharma, (MHRA approved).
	For generic drugs (me-too status)	Vaxcel Heparin Sodium Injection of M/s Ghazali Brothers (Reg. No. 088528).
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols and validation, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Name, address of drug substance manufacturer	M/s Syntex S.A.Luis de Sarro 501 (B1838DOK) Luis Guillon, Provincia de Buenos Aires – Rep. Argentina.
	Module-III Drug Substance:	Firm has submitted details drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of Drug Substance at Zone II conditions. The real time stability data conducted at 25°C ± 2°C/60% ± 5% RH is for 48 months. HBH1909, HBH1910, HBH1911
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted analytical method validation report of Heparin sodium injection Assay.
	Container closure system of the drug product	Type I glass vial 5ml clear, print "SANBE" Ethical red Rubber stopper Siliconized 20 mm Grey prewashed Alucap vial dia 20 mm silver embossed "SANBE".
	Stability study data of drug product	Firm has submitted stability study data of 3 batches as per Zone IV-B. The accelerated stability study data is conducted at 40°C ± 2°C/75% ±5% RH for 6 months. The real time stability study data is conducted at 30°C ± 2°C/75% ± 5% RH for 18 months. AF3404, AF3408, AF3409
	Remarks of Evaluator	
Decision: Keeping in view the availability of product in country of origin as per submitted CoPP and Heparin injection being non-rDNA pharmacopoeial product; Registration Board approved the product as per current Import Policy for finished drugs.		

B. Locally manufactured Enoxaparin Injections (Form-5)

2.	**Name of Manufacturer**	**M/s Nextar Pharma (Pvt) Ltd** **Plot No. E-58. North Western, Industrial Zone, Port Qasim Karachi.**

	Demanded Price / Pack size	ml Pre-Filled Syringe / As per DPC 1
	General Documentation	The formulation in 1 ml PFS is available in reference country.

Data as per guidelines of 289th meeting of Registration Board;

For Bulk Concentrate Import, Local formulation Filling:

i.	The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	Legalized Copy of GMP Certificate No.SD 20180757 dated 30-08-2018 issued by Shandong Food and Drug Administration, China. Manufacturer and its address: Dongying Tiandong Pharmaceutical Co., Ltd. No.1236, Nan-er Road, Dongying City, Shandong Province, China
ii.	The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished	Legalized Copy of FSC Certificate No.: 2018-001 dated 01-08-2018 issued by Shandong Food and Drug Administration of People's Republic of China.

	product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	
iii.	The firm shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the similar efficacy and safety to innovator product covering following requirements:	
	a) The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	The firm has submitted physicochemical Characterization performed by the bulk manufacturer. The comparison has not been performed with innovator. 1.Molecular mass and molecular mass distribution. 2.HPLC-MS 3.NMR • ^{1}H NMR: • ^{13}C NMR: 4.UV: 5.Sodium content 6. Molar ratio of sulfate ions to carboxylate ions
	b) The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of its variability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	**Equivalence of heparin source material:** R: The starting material of generic Enoxaparin (manufactured by Tiandong) is porcine crude heparin, and no ruminant gene is detected as per qPCR.
	c) The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	**Not submitted**
	d) The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	**Not submitted.**
	e) The fifth criterion for establishing sameness of enoxaparin is equivalence of in-vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.	**Not submitted.**
iv.	The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	NA

v.	The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	48 months real time stability study data at 25°C ± 2°C, 60%RH ± 5% RH & 6 months accelerated stability study at 40°C ± 2°C, 75% RH ± 5% RH of drug substance from bulk manufacturer.
vi.	The local manufacturer shall perform all the tests on Enoxaparin Sodium bulk as detailed in Pharmacopoeial monograph of Enoxaparin Sodium.	The firm has performed the tests on Enoxaparin sodium bulk as per pharmacopoeia.
vii.	The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform the six months stability data on all the batches along with all the tests as detailed in Pharmacopoeial monograph of Enoxaparin Sodium Injection.	The firm has submitted stability study data sheets of three batches of enoxaparin sodium injection PFS for the all applied strengths as per Zone IV-A conditions.
viii.	The local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The following techniques may be used: SDS-PAGE for individual proteins GC-MS for lipid impurities Threshold ® Total DNA Assay System for DNA content.	**Not submitted**
ix.	The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	**Not submitted**
x.	Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	Commitment of company letter has been submitted.
xi.	The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Commitment of company letter has been submitted.
xii.	If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	**Not submitted**
xiii.	All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	**Not submitted**

Remarks of Evaluator:

- Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species.
- Equivalence of *in-vitro* biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time
- Equivalence of in-vivo pharmacodynamic (PD) profile in human volunteers based on measurements of in vivo anti-Xa and anti-IIa profiles.
- Performance of suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc.
- Agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.
- Relevant commitments as required by Registration Board in its 281st meeting.

Proceedings: **Registration Board was apprised that application is still deficient for submission of following points:**

i. **The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).**

ii. **The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph**

standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of its variability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.

iii. **The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.**

iv. **The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.**

v. **The fifth criterion for establishing sameness of enoxaparin is equivalence of in-vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.**

Decision: Registration Board decided as follows:

i. **Submission of relevant documents as mentioned in above 5 points. Moreover, local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The techniques may be used like SDS-PAGE for individual proteins, GC-MS for lipid impurities, Threshold ® Total DNA Assay System for DNA content.**

ii. **Agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.**

iii. **Commitment that "If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect".**

iv. **Commitment that "All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to".**

Cases of AD-II (Saadat Ali Khan)

A. Imported Human Biological from Non-reference countries

7	**Name of Manufacturer**	**M/s Macter International Limited.** **F- 216, S.I.T.E, Karachi 75700, Pakistan.**

	Bulk Manufacturer	M/S Sunshine Guojian Pharmaceutical (Shanghai) Co., Ltd. No 399 Libing Road China (Shanghai) and pilot free trade zone (Formulation (**dilution), filling, testing & packing**)
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

	For imported products, specify one the these	☐ Finished Pharmaceutical product import ☒ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Form 5-F Dy. No 13133 Dated 06-05-2021
	Details of fee submitted	Fee Submitted: Rs.20,000/- dated 26-03-2021.
	Brand Name + Dosage Form + Strength	**Momentum** Solution for Injection
	Composition	Each vial after reconstitution contains 50 mg of etanercept in 1 ml.
	Dosage form of applied drug	Lyophilized powder for injection
	Pharmacotherapeutic Group of (API)	Act as IMMUNO SUPPRESSANT Tumor necrosis factor receptor fusion protein
	Reference to Finished product specifications	As per innovator's specification
	Proposed Pack size Proposed unit price	1's Vial /As per DPC
	Shelf Life	24 Months
	Storage Conditions	(2^0C-8^0C)
	The status in reference regulatory authorities	"Enbrel" registered product of Immunex Corporation (Amgen) in USA approved by FDA
	For generic drugs (me-too status)	Enbrel (062228) Wyeth (Pfizer) Pakistan Momentum in 25mg (091268) Macter International ltd.
	Module-II (Quality Overall Summary	Firm has submitted QOS as per WHO. Firm has summarized information related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, Characterization (Elucidation of Structure and Other Characteristics), impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis an justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches at long term conditions at -20 ℃ for 36months. The accelerated stability data is conducted at 30℃ ± 2 ℃ /60% ± 5%RH for 10 days for accelerated conditions.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	USP type-I clear glass Vials with 13mm single slit butyl grey rubber stopper & 13mm Flip off aluminum caps.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches (two pilot scale & one lab scale) at long term conditions at 5±3°C for 06 months. The accelerated stability data is conducted at 25±2°C 60±5%RH for 6 months

Documents required as per 297th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	**Documents submitted by firm**

The firms shall provide legalized GMP certificate (issued by relevant regulatory authority) of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin. Submission of valid GMP is exempted, if valid GMP status is evident from official website of regulatory authority of country of origin.	Legalized copy of GMP in case of its already registered product Momentum 25mg but it has been expired on 29-09-2021. Now the firm has submitted copy of new GMP along with verification link which was verified on 19th September, 2022. https://www.nmpa.gov.cn/datasearch/search-info.html?nmpa=aWQ9MTQ3MzkmaXRlbUlkPTJjOWJhMzg0NzU5Yzk1NzcwMTc1OWNjMjcxNmMwMjMw
The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority (or its website) as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.	Legalized CoPP of 25mg was already submitted by the firm in case of its already registered product Momentum 25mg but the CoPP expired on December, 2018. Now the firm has submitted copy of new CoPP which can be verified online on the official website of NMPA china by the given link was verified on 19th September, 2022. https://www.nmpa.gov.cn/datasearch/en/search-info-en.html?nmpa=aWQ9Nzk0MiZpdGVtSWQ9MmM5YmEzODE3OWQwOGY0ZjAxNzlkMGYyZmRhMjAwMzU=
The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the biosimilarity. However, it will not be required if the finished drug product was approved before implementation of biosimilarity in the said country and finished drug product is still freely available and the firm shall provide the safety, efficacy data of finished drug product as per applicable regulatory requirements at that time.	Provided & Evaluated below
The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	The firm has submitted that lot release is not required in country of orgin (BulK provided country).
The firm shall provide the 6 months accelerated and real time stability studies for drug substance & drug product manufactured locally.	Provided
The local manufacturer shall manufacture three trial batches (quantity sufficient to meet the complete testing up to the assigned shelf life both for real time and accelerated stability studies) of the finished biological product to finalize the formulation and then perform tests as per following order: i. Latest Pharmacopoeia ii. Innovator Product iii. Reference Biotherapeutic Product iv. In case aforementioned tests are not available then tests as adopted by drug substance manufacturer shall be followed.	Provided results for the following tests with comparative with Enbrel (Wyeth Pakistan Ltd.) : • Identification and purity by SDS-PAGE, • Purity by Gel Filtration Chromatography • Potency (Protein Concentration) by bicinchoninic acid assay (BCA) Method. • Biological Activity by Cytotoxicity Inhibition assay. • Endotoxin Test by Gel Clot Method • Sterility Test by Membrane Filtration Technique The following tests are also performed: Physical appearance (before & after re-constitution), Reconstitution Time, Particulate Matter (After Reconstitution) Moisture Content (by Karl Fischer), PH, Protein content by BCA Method, Specific Bioactivity, lmmuno identification Western Blotting, Molecular weight identification by SOS-PAGE (Reducing, silver Staining), Purity by SOS- PAGE (Reducing, Silver Staining), Purity by Gel Filtration-HP LC, Bacteria Endotoxin, sterility test.

The manufacturer shall perform all tests locally as mentioned on Certificate of analysis of finished product of drug substance supplier in case of non-pharmacopoeial product.	Submitted as mentioned above
The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Provided
The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	The firm has submitted copy of supply agreement wherein it has been mentioned that any changes in the process shall be communicated to DRAP. However, the name of bulk manufacturer mentioned is "**Shanghai CP** Guojian Pharmaceutical co. ltd. 399 Libing Road, **Zhangjiang Hi-tech Park**, Shanghai P.R. China" while in provided GMP/FSC the name & address of Bulk manufacturer is "**Sunshine** Guojian Pharmaceutical (Shanghai) co. ltd. 399 Libing Road, China (Shanghai) **Pilot Free Trade Zone**, China" **The firm has submitted clarification letter from its manufacturer where it has been mentioned that manufacturer name has been changed & nomenclature of the adrres has been also changed while the site remain the same.**
Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	The firm has provided SOP for Pharmacovigilance Surveillance. The firm has also provided Commitment on on stamp paper mentioning the said statement.
The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Commitment provided on stamp paper by the applicant.
If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Commitment provided on stamp paper by the applicant.
All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	Commitment provided on stamp paper by the applicant.
For the already registered drugs for local manufacturing, the current guidelines shall apply at the time of renewal of product.	

Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.	
WHO Bio-similarity guidelines	**Data submitted by the firm**

Quality Comparison Physicochemical characterization	**Physicochemical Characterization** **<u>Structure Characterization</u>** i) Primary Structure ii) Relative Molecular Weight by Electrophoresis iii) Molecular Weight by SEC-DLS iv) Peptide Mapping BY HPLC v) Peptide Mass Mapping vi) N-terminal Amino Acid Sequence vii) C-terminal Amino Acid Sequence by LC-MS/MS **Secondary Structure** by Far UV CD Spectrum by Near UV CD Spectrum) **Posttranslational Modification** i) N-glycan Analysis ii) Content of Sialic Acid
Biological Activity & Immunochemical properties	Biological activity in vitro for Yisaipu and Enbrel is tested by TNFα neutralization killing test based on L929 cell with the active reference produced. **Receptor Binding Activity** ELISA Test **Affinity Analysis:** Binding of rhTNFR Affinity with antigen TNF- α **Affinity with Fc segment key receptor** Affinity with FcRn receptor Affinity with FcγRIa receptor Affinity with FcγRIIa receptor Affinity with FcγRIIb receptor Affinity with FcγRIIIa receptor Binding activity with complement C1q **Antibody-dependent cell-mediated cytotoxicity (ADCC)** **Complement dependent cytotoxicity (CDC)** **C-terminal lysine charge variants analysis**

Stability Studies	Stability studies are provided.
Non-clinical Studies i. In-vitro Studies ii. In-vivo Studies	**Pharmacology** <u>In-vitro Studies</u>: Comparative Primary Pharmacodynamics i. Murine L929 cells ii. Biacore T100 **Secondary Pharmacodynamics** (**In-vivo Studies.)** -Collagen-induced arthritis (CIA)model in mice -Adjuvant-induced arthritis (AA)model in rats -Dalactos amine-induced neutralizing model in mice **Safety Pharmacology** **Pharmacokinetics** Toxicology studies **i) Single Dose Toxicity (Kunming mice)** **ii) Repeated Dose Toxicity (rhesus model)** **iii) Local Tolerance**
Clinical Studies	**Phase I Clinical Study** Compare the pharmacokinetic properties and tolerability of two formulations of Etanercept in Mexican healthy volunteers to establish biocomparability and non-biocomparability between both. **Phase II Clinical Study** i. Observe the safety and efficacy of rhTNFR: Fc (INN: ETANERCEPT) after administration in the patients with moderate or severe active rheumatoid arthritis (RA).' ii. Randomized double blind, placebo parallel control multi-center clinical trial for the efficacy and safety of treating ankylosing spondylitis with Yisaipu **Phase III Clinical Study** An open label, prospective, non-comparative, multicentre study to assess the safety and efficacy of Etanercept for injection 25mg in patients with moderate to severe active rheumatoid arthritis.

	Phase IV Clinical Study A multi-center and open study to evaluate the safety and efficacy of the recombinant human tumor necrosis factor receptor II antibody fusion protein for injection in the treatment of active rheumatoid arthritis (RA).
Remarks	Phase I is submitted comparative while phase-III clinical study is non-comparartive. However, its already registered strength of the same product i.e. Momentum 25mg was approved & registered on the basis of the same data. And M/s Getz Pharma also imported the same molecule from the same manufacturer which was also approved & registered on the basis of the same clinical trial data.
Decision: Keeping in view the data submitted by the firm in light of guidelines of 297th meeting Registration Board approved the product.	

C. Imported Veterinary Biologicals from Reference Countries:

8	**Name of Importer &** Address	**M/s Hipra Pakistan (Private) Limited,** 3rd floor, plot no 8, block CCA, Phase 6-C, DHA, Lahore **Go down** 2nd Warehouse on Left side, Street no 5, Gajjumata Nadir Chowk, Hazara Chowk, Industrial Area Ferozpur Road, Distt Lahore
	DSL Details	License to sell drug as distributor No. 0011000 0004579 valid till 19-Feb-2022
	Name of Manufacturer & Address	Laboratorios HIPRA, S.A, Avda. La Selva, 13517170 Amer (Girona) Spain
	Brand Name/Dosage Form	**Evant 10,000 dose** Suspension and Solvent for oral spray
	Composition	Each dose of vaccine contains: Eimeria acervulina, strain 003……332-450 Eimeria maxima, strain 013…….196-265 Eimeria mitis, strain 006…….293-397 Eimeria praecox, strain 007…….293-397 Eimeria tenella, strain 004……..276-374 **Composition of Solvent (Hipramune T):** Montanide IMS (**Adjuvant)** Blue coloring Agent Red coloring Agent Vanillin
	Finished Product Specifications	European Pharmacopeia
	Pharmacological Group	Live attenuated vaccine, avian coccidiosis
	Shelf Life & Storage	10 months at 2-8ºC
	Products already Registered in Pakistan	The product already registered in 1000 & 5000 doses
	Type of Form, Dy. No & Date of Application Fee Submitted	Form – 5A Dy. No 20523 Dated 28-07-2021 Fee Submitted: Rs. 150,000 /- dated 09-07-2021
	Demanded Price&Pack Size	Decontrolled 10,000 dose Vial
	General Documentation	Legalized Certificate of Pharmaceutical Product (CoPP) No 05/20/150457 dated 19-10-2020 issued by EMA.
	Decision	**Keeping in view legalized CoPP indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.**

D. Imported Veterinary Biologicals from Non-Reference Countries:

9	**Name of Importer**	**ICI Pakistan Limited** **ICI House, 5 West Wharf Karachi-Pakistan**
	DSL details	License to sell drug as distributor No.020 valid till10-03-2023

	Name of Manufacturer	M.s.Choong Ang Vaccine Laboratories Co., Ltd. 1476-37 Yuseong-daero, Yuseong-gu, Daejeon, 34055, Korea
	Brand Name + Dosage Form + Strength	PoulShot® LaSota
	Composition	Each dose contains: Newcastle disease virus (NDV, LaSota strain) ..... $\geq 10^{6.0}EID_{50}$
	Finished product specifications	Ph. Eur. Specifications
	Pharmacological Group	Live Veterinary Vaccine
	Shelf life	24 Months (Store at 2°C -8°C)
	Products already registered in Pakistan	Medivac ND Lasota 2000 (Imported by Hilton)
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A Dy No. 8381 Dated: 15.03.2021, Dy No. 26224 dated 16-09-2022 Fee Submitted: Rs. 100000/- dated 24.02.2021
	Demanded Price / Pack size	2000 Doses Vials
	General Documentation	• Legalized FSC having Certificate No. M2100613 issued by Animal & Plant Quarantine Agency of the Ministry for Agriculture Food & Rural Affairs of Korea dated 02.02.2021. • Legalized GMP Certificate issued by Animal & Plant Quarantine Agency of Korea dated 02.02.2021.
	Decision:	**Keeping in view legalized GMP and Free Sale Certificate indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.**

	Module-II (Quality Overall Summary	**QOS is not as per WHO**. Firm has summarized only information related to general properties, name of manufacturers for drug substance part. Composition of Drug product, description of manufacturing process and controls, specifications analytical procedures and justification of specification, reference standard, container closure system of drug product.

	Name, address of drug substance manufacturer	Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd.MA010-1, Nanjing High & Ne Technology Development Zone, Nanjing, China, 210061 Tel: 86-25-86992106 Fax: 86-25-86990701
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis an justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches at long term conditions. The real time stability data is conducted at 5 ℃ ±3 ℃ RH 60%±10% for 12 months of 03 batches and 25 ± 2 ℃ /60% ± 5%RH for 06 months for accelerated conditions.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	A proposed container closure system including Glass meeting the requirements of "Type I glass" as defined in the USP <660> was deemed to be adequate for the product. USP Type I Borosilicate glass container. **In packaging configuration & sizes only following packing are mentioned; 1000 IU/ ml (2ml vial), 10,000/ 10ml (10ml vial),** **30,0000 IU/ 30ml (30ml), 5000 IU/ ml (2ml vial), 50,000 IU/ 10ml,** **10,000 IU/ 1ml, 40,000 IU/ 4ml (5ml vial)**
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches at real time conditions. The real time stability data is conducted at 30± 2C & 60 ±5% RH for 6 months. A statement for availability of 24 months data is provided. The accelerated stability data provided is of 03 batches and is conducted at 40± 2C & 75 ±5% RH for 06 months.
	Module-IV Non-Clinical	N/A
	Module-V Clinical	N/A
	Remarks of Evaluator	i. For point No. 3.2.S.2.2, 3.2.S.2.3, 3.2.S.2.4, 3.2.S.2.5 & 3.2.S.2.6 of CTD, the firm referred to DMF but DMF has not been provided. ii. The product is from China but the firm has submitted copy of CoPP from USFDA. And regarding China CoPP it has been mentioned that product is under registration in China. And the firm has also submitted statement from their manufacturer that legalized CoPP will be submitted by end of October, 2022. iii. In the copy of USFDA-CoPP , **the importing country Israel has been mentioned.** iv. The firm has submitted copy of CoPP issued by USFDA which can be verified by the QR code mentioned on the CoPP. However, CoPP only mentioned "***Active Ingredient (s) and amount (s) per unit dose: heparin sodium usp 5000 Units***" total number of ml (volume) is not mentioned. The same was searched on USFDA official website wherein under the **Abbreviated New Drug Application (ANDA)**: 211007 (mentioned on the submitted CoPP), three products are mentioned HEPARIN SODIUM (1,000 UNITS/ML) HEPARIN SODIUM (5,000 UNITS/ML) HEPARIN SODIUM (10,000 UNITS/ML) But total number of ml (volume) was not mentioned there as well, and no other information is available on USFDA website. https://www.accessdata.fda.gov/scripts/cder/daf/index.cfm?event=overview.process&ApplNo=211007 v. The firm has mentioned (demanded) 5000Units/5ml vial packing in their CTD dossier i.e. covering letter, labeling information, fee receipt, QOS, point no. 1.5.2 of Module-I in all these document the firm has demanded 5000 Units/5ml but in distribution agreement, the firm has been authorized for 5000Units/mL (5ml vial).

		vi. In CTD dossiers under the packaging & container closure system neither 5000units/5ml vial nor 25000units/5mL vial is mentioned. (Already described in container closure system) vii. The firm has submitted stability study data (real time stability data) for 5000units/ml (5ml vial) is conducted at 30± 2C & 60 ±5% RH for 6 months. A statement from their manufacturer that they will submit complete stability study data once completed.

The case was deferred in 320th meeting of RB for following:

- **i.** Data related to Section 3.2.S.2.2, 3.2.S.2.3, 3.2.S.2.4, 3.2.S.2.5 & 3.2.S.2.6 of CTD.
- **ii.** Valid legalized CoPP issued by USFDA indicating demanded strength & pack size.
- **iii.** Clarification regarding difference in strength in dossier and distribution agreement.
- **iv.** Real time stability study data up to the demanded shelf life.

Reply submitted by the firm:

- Now the firm has submitted data related to S part against the mentioned sections.
- **Regarding the valid legalized CoPP issued by USFDA, the firm has submitted that it will be available by the end of October, 2022.**
- While the registration status of the product in country of orgin i.e. China, the firm has submitted that said product is only registered in USFDA, not yet registered in China.
- Regarding the difference in strength in dossier & distributor agreement, the firm has submitted the dossier documents provided for Heparin sodium dossier is uniform/same for all the strengths specially for Heparin Sodium 5000IU/ml- 5mL vial. And the applied strength of the product is Hepalid 5000IU/ml-5mL Injection (25000IU/5mL vial)
- **Regarding real time stability study data, the firm has submitted the study is ongoing & they will provide 24 months' stability data of intermediate condition of 3 commercial batches with passage of time.**

Decision: Keeping in view the approval of USFDA (Reference Regulatory Authority), Registration Board approved the product subject to compliance of current Import Policy for finished drugs & submission of valid legalized CoPP issued by USFDA.

The firm shall submit the real time stability data before issuance of Registration letter & shelf life will be granted as per the submitted real time stability study data. The Chairman Registration Board is authorized for issuance of letter after submission of said document & data.

In the copy of USFDA-CoPP , **the importing country Israel has been mentioned.** iii. The firm has submitted copy of CoPP issued by USFDA which can be verified by the QR code mentioned on the CoPP. However, the same was searched on USFDA official website wherein the products are available. https://www.accessdata.fda.gov/scripts/cder/daf/index.cfm?event=overview.process&ApplNo=211007 iv. Data as per guideline approved in 289th meeting of Registration Board as regulatory requirements for registration of Enoxaparin Injections, not submitted.

Decision:

Registration Board deferred the case for submission of following by the firm:

i. Valid legalized CoPP issued by USFDA.

ii. Data of Enoxaparin Sodium equivalence in light of guidelines of 289th meeting of Registration Board.

Reply submitted by the firm:

- Regarding the valid legalized CoPP issued by USFDA, the firm has submitted that it will be available by the end of October, 2022.
- While the registration status of the product in country of orgin i.e. China, the firm has submitted that said product is only registered in USFDA as well as registered in China. Copy of Chinese CoPP is also submitted.
- Regarding data of Enoxaparin Sodium equivalence in light of guidelines of 289th meeting of Registration Board, the firm has submitted the following data.

The firm has submitted the following data as per requirements of 289th meeting of Registration Board:

Required Documents	**Documents Provided by the Firm**
Equivalence of physicochemical properties, such as:	
a. Molecular weight distribution using size exclusion chromatography	i. Molecular mass distribution and proportion ii. %1, 6-anhydro derivatives iii. Ratio of sulfate ions to carboxylate ions iv. UV Absorption and specific absorbance at 231 nm
b. Chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	i. Chain mapping by Gel Filtration Chromatography (GFC) ii. Chain mapping by strong anion exchange HPLC (SAX-HPLC) iii. Proton nuclear magnetic resonance (1H-NMR) iv. Heteronuclear single quantum coherence (HSQC) v. Intact chain mapping by LCMS
Equivalence of heparin source material (i.e. heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	• Fresh pig's small intestine is collected and squeezed to get porcine intestinal mucosa. Porcine intestinal mucosa is then digested and heparin is adsorbed on an ion exchange resin (Intermediate A). • After the washing and elution of the resin, further steps of precipitation and drying lead to crude heparin (Intermediate B). • Crude heparin (Intermediate B) is dissolved in water, submitted to enzymolysis and then purified on resins. Heparin sodium (Intermediate C) is obtained after several steps including oxidation, ultra-filtration, fractionation and a final precipitation in ethanol.

	• Enoxaparin sodium is manufactured in three stages, starting from the heparin sodium which undergoes a step of salification to get the quaternary ammonium salt of heparin (Intermediate I). The salification step is followed by an esterification step to form the ester salt of heparin (Intermediate II). Enoxaparin sodium is finally isolated after depolymerization and purification steps.
Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by following: a. Capillary Electrophoresis (CE) b. Reverse phase high-performance liquid chromatography (RP-HPLC) c. Strong anion exchange HPLC (SAX-HPLC) d. Mass spectroscopy e. Nuclear magnetic resonance (NMR) spectroscopy. f. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	i. Disaccharide building block by strong anion exchange HPLC (SAX-HPLC) ii. Fragment mapping (Heparinase I/II/III) by strong anion exchange HPLC (SAX-HPLC) iii. Fragment mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) iv. Dp6 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) v. Nitrous acid (HONO) depolymerisation disaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) vi. Tetrasaccharides (dp4) analysis by strong anion exchange HPLC (SAX-HPLC) vii. Tetrasaccharides (dp4) sequences by reversed-phase ion-pair liquid chromatography- electrospray ionization - mass spectrometry (RPIP-ESI-MS and RPIP-ESI-MS/MS) viii. Oligosaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) (dp6/8/10)
Equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	i. Anti-factor Xa & Anti-factor IIa activity by using Biophen Heparin Anti-Xa (2 Stages) and Biophen Heparin Anti-IIa (2 Stages) commercial kits. ii. The anticoagulant activity of the biosimilar enoxaparin drug product is analysed and compared with Lovenox®/Clexane® based on aPTT (Activated Partial Thromboplastin Time) and Heptest prolongation time
Equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.	A monocentric, randomized, open-label, single-dose, two-period, crossover study to assess the pharmacokinetic and pharmacodynamic equivalence of Reference Product Lovenox® 10000 IU/1 mL solution for injection in prefilled syringe and test formulation of Enoxaparin Ledraxen 10.000 IE (100 mg)/1 ml Injektionslösung in einer Fertigspritze following subcutaneous administration in healthy subjects in fasting conditions
Remarks of Evaluator:	
Decision: Keeping in view the approval of USFDA (Reference Regulatory Authority), Registration Board approved the product subject to compliance of current Import Policy for finished drugs & submission of valid legalized CoPP issued by USFDA. The Chairman Registration Board is authorized for issuance of letter after submission of said document.	

Cases of AD-III (Haleema Shareef)

B; Imported Veterinary Biologicals from Non-Reference Countries:

15	**Name and address of Importer**	**M/s. Brand Station, 89 A2, Wapda Town Extension, Lahore, Pakistan**
	Detail of DSL	Address: M/s. Brand Station 69 Wocland villas Lahore, near raiwind road, Lahore. Valid till: 10-08-2027

	Name of exporting country	China

	Brand Name +Dosage Form + Strength	Yevac ND vaccine 500ml
	Diary No. Date of R& I & fee	Dy. No. R&I Dated 24-01-2022 Rs. 150,000/- (Slip No. 5830267467)
	Composition	Each dose (0.5ml) contains: Newcastle Disease Virus Strain Lasota $\geq 10^{8.1}$ EID_{50} before inactivation.
	Pharmacological Group	Vaccine
	Type of Form	Form-5A
	Finished Product Specification	Manufacturer's specifications
	Shelf Life	24months----(2-8°C)
	Document Details	Firm has submitted following: Original legalized FSC Original legalized GMP Original legalized sale agency agreement: it is expired now
	Pack size & Price	500ml: Decontrolled
	Reference Regulatory Authority Availability	N/A
	Products already registered in Pakistan	Reg. No. 89766 Al-Asar Enterprises, Multan MYVAC K811 (Inactivated Newcastle disease vaccine B1 Type LaSota) Each dose contains: Inactivated New castle disease virus LaSota strain $\geq 10^{8.5} EID_{50}$
	Remarks of Evaluator	1. Firm has submitted application for change in address and fee on 19.09.2022. **2. Sale agency agreement was valid at the time of submission and get expired now.** 3. In Labelling and Prescribing Information New Castle disease virus Lasota strain (CVCC AV 1615) is written. What does this number (CVCC AV 1615) indicate, is it a name of strain or otherwise? **Firm has submitted that labeling of Yevac ND vaccine contain the word CVCC AV1611 which is Newcastle disease virus Beijing strain.*
	Decision: Keeping in view legalized GMP and Free Sale Certificate indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs & submission of valid Sole agency agreement/authorization letter.	

B: Miscellaneous/ Deferred Cases

Case No. 16 Imported Veterinary Biological applied by M/s Vet Line International, Lahore deferred in 316th meeting of Registration Board.

Name and address of Importer	**M/s Vet Line International,** 939-A, Block-J, Phase-1, LDA Avenue-1, Lahore.
Detail of DSL	**M/s Vet Line International,** Address: Basement & Ground, Floor 939-A, Block J, Phase 1, LDA Avenue-1, District Lahore Valid till: 09-Feb-2023
Name and address of Manufacturer	**Manufacturer of Drug:** Nanjing Bio-Pharmaceutical Factory of QYH BIOTECH Co., LTD No. 33 Xiaohang Road, Yuhuatai District, Nanjing City, Jiangsu Province, P.R China
Name of exporting country	China
Brand Name +Dosage Form + Strength	**Newcastle disease virus vaccine (Inactivated)**
Diary No. Date of R& I & fee	Dy. No. 8032 R&I Dated 11-03-2021 Rs. 100,000/- Dated 11-03-2021

Composition	(Inactivated vaccine) Each 0.1ml contains: Newcastle disease virus A-VII Strain $\geq 10^8$ EID_{50} before inactivation.
Pharmacological Group	Biologicals
Type of Form	Form-5A
Finished Product Specification	Manufacturers Specifications
Shelf Life	24months----(2-8°C) Stability studies for 27months at 2-8 °C are submitted.
Document Details	**COPP (Original Legalized):** Certificate of veterinary pharmaceutical product having following information on it: **Composition**: The vaccine contains inactivated Newcastle disease virus A VII strain $\geq 10^8$ EID_{50}/0.1ml before inactivation. Product is licensed to be used in exporting country and manufacturer comply with veterinary medicine GMP. **Certifying authority**: Veterinary Bureau of Agriculture and Rural affairs Department of Jiangsu Province. **Stamp and date:** 11/02/2022 **Sole Agency Agreement:** **China Animal Husbandry industry vs Vet line international.** and a letter of statement affirming that Nanjing Bio-Pharmaceutical Factory of QYH Biotech Company Limited is a subordinate factory of QYH Biotech Company Limited. Nanjing Bio-Pharmaceutical Factory Is responsible to manufacture products only,. All the products are registered, commercialized, sold and distributed by QYH Biotech Company Limited. QYH Biotech Company Limited is also the firm under China Animal Husbandry Industry Co., Ltd (CAHIC) and CAHIC is the control shareholder of QYH. CAHIC is responsible for the export of QYH's products and for receiving the related payments.
Pack size	500ml/bottle
Reference Regulatory Authority Availability	N/A
Products already registered in Pakistan	Could not be confirmed
Remarks of Evaluator	Applied formulation is present in European Pharmacopoeia.
Previous Decision (M-316)	*Registration Board deferred the product for expert opinion of Dr. Qurban Ali, member Registration Board regarding immunological relevance of applied strain to Pakistan.*

Evaluation by DBER:

Now the expert opinion of Dr. Qurban Ali, member Registration Board has been received wherein he has recommended for registration the inactivated ND vaccine A-VII Strain from M/s Nanjing Biopharmaceutical, Jiangsu, China for use in Pakistan to minimize the genotype VII outbreaks in poultry birds and its consequent losses.

Expert opinion by Dr. Qurban Ali, Member Registration Board is as under:

Newcastle Disease (ND) is an important disease of poultry causing devastating losses, where disease control presents significant challenge to the poultry industry worldwide. ND is member of transboundary animal diseases (TADs) list of OIE, signifying it a most contagious and infectious disease of economic significance. Therefore, efforts to control ND anywhere aims at active immunization using combinations of live and killed virus vaccines to reduce (i) clinical signs, (ii) reduce virus shedding and (iii) protecting birds from the virus causing the disease.

NDV genome is non-segmented, single stranded RNA; where strains are classified as highly virulent (valogenic), intermediate (mesogenic) and non-virulent (lentogenic) pathotypes depending on their pathogenicity to chickens. Apart from pathotypes, NDVs could also be grouped into different genotypes based on genomic sequence and phylogenetic analysis of F gene. Majority of current ND

vaccines are live or inactivated genotype I and/or II NDVs, while virulent NDVs are grouped into genotype III to X. In 1990s two novel NDV genotypes VII and VIII were reported in Asia, South Africa and several European countries. Studies indicated presence of genotype VII with sub-genotypes (e, b and f) in Pakistan since 2011. Although intensive vaccination program runs in Pakistan, genotype VII outbreaks do occur sporadically even on vaccinated farms. Immunological studies elsewhere have shown that the genotype-matched vaccines provide better protection against challenge with the virulent genotype VII NDV and significantly reduce virus shedding compared to LaSota vaccine. Keeping in view the afore said, we may register the inactivated ND vaccine A-VII Strain from M/s Nanjing Biopharmaceutical, Jiangsu, China for use in Pakistan to minimize the genotype VII outbreaks in poultry birds and its consequent losses. ----- Sd ---- Dr. Qurban Ali Member Drug Registration Board
Decision: Keeping in view the legalized GMP, legalized FSC indicating product availability in country of origin, recommendation of veterinary expert; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

Case No.17 Imported Veterinary Biological applied by M/s Snam Pharma, Lahore deferred in 316th meeting of Registration Board.

Name and address of Importer	**M/s Snam Pharma 61-G, Phase-1, Commercial Area, DHA, Lahore**
Detail of DSL	M/s Snam Pharma, Address: 61-Block G, Phase-I, DHA, Lahore Cannt, District Lahore. Valid till: 14 November, 2022.
Name and address of Manufacturer	M/s Sante Animale Lot 157, zone industrielle Sud
Name of exporting country	Morroco
Brand Name +Dosage Form + Strength	Bovivax LSD-N Vaccine (50 doses)
Diary No. Date of R& I & fee	Dy. No. 8315R&I Dated 30-03-2022 Rs. 75,000/- (Slip No. 10439736)
Composition	**Lyophilizate:** Each dose contains: Attenuated live LSD virus, Neethling strain $\geq 10^{3.5}$ $TCID_{50}$ **Solvent:** Calcium chloride dihydrate… 0.132mg Disodium phosphate dihydrate…1.441mg Sodium chloride…8mg Potassium chloride….0.2mg Monopotassium phosphate…0.2mg Magnesium chloride….0.1mg Water for Injection ….s.q.f…1ml
Pharmacological Group	Vaccine
Type of Form	Form-5A
Finished Product Specification	Manufacturer's specifications
Shelf Life	24months (2^0C-8^0C) Stability studies of three batches at (2^0C-8^0C) for 30months.
Document Details	Copy of FSC for Bovivax LSD -N lyophilizate and copy of FSC for MCI solvent. Notarized copy of marketing authorization letter showing sale of Bovivax LSD-N-Lyophilizate vials of 10,25,50 and100 doses of freeze-dried vaccine+ bottle of 20,50,100 and 200ml of MCI Solvent for live vaccines respectively. For GMP of manufacturer firm has referred to Eudra GMP Certificate No. 118/2020/GMP. Which is verifiable from the site.
Pack size	50 doses 50ml solvent

Reference Regulatory Authority Availability	N/A
Products already registered in Pakistan	Mevac LSD of Bromed
Remarks of Evaluator	In response to this division's letter firm has submitted following: i. Notarized copy of product specific sole agency agreement. ii. Stability studies of diluent for 20ml and 200ml bottles is submitted. For FSC indicating diluent firm has submitted following: a. Notarized copy of marketing authorization letter showing sale of Bovivax LSD-N-Lyophilizate vials of 10,25,50 and100 doses of freeze-dried vaccine+ bottle of 20,50,100 and 200ml of MCI Solvent for live vaccines respectively in Morocco. b. Copy of registration license of biological product for Bovivax LSD-N with following pack vial 10 doses+20ml diluent, 25doses+50ml diluent, 50doses+100ml diluent and 100doses+200ml diluent (MCI sterile diluent) in Egypt. Document still required: i. FSC indicating free sale status of product in country of origin.
Previous Decision (M-317)	*Registration Board deferred the product for submission of valid legalized Free Sale Certificate indicating product availability in country of origin.*
Evaluation by DBER	*Firm has submitted original legalized FSC which does not indicate product availability in country of origin.*
Decision: Registration Board deferred the case for submission of evidence of approval of applied product in other countries including reference regulatory authorities.

Decision: The registration Board deferred the case for following points: **a. submission of real time stability study data on three commercial scale batches up the demanded shelf life.** **b. Refrred to DRAP Authority for decision regarding the importability of the product from India being non-WHO PQ product.**		

Case No. 19 EXEMPTION OF DRUG (LABELLING AND PACKAGING) RULES, 1986 AND PERMISSION FOR LOCAL PRINTING OF LABELLING PARTICULARS ON OUTER BOX ON IMPORT OF REGISTERED BIOLOGICAL PRODUCTS.

M/s Novartis Pharma (Pakistan) has applied for exemption of two of their biological products i.e., Simulect 20mg Injection (Reg. # 025218) and Xolair 150mg Powder for Solution for Injection (Reg. # 047599). The firm states that these products have very specific and limited usage in Pakistan and due to the production constraints. They are unable to supply these imported products in the country specific packs in low volumes.

Novartis Pharma (Pakistan) Limited wants for exemption of drug (labelling and packaging) rules, 1986 and permission for local printing of labelling particulars of the **following components** on **outer box** of imported products at their licensed premises situated at C-21, S.I.T.E Area, Karachi-75700 (DML # 000003) before sale/release into the market in compliance to Drug (Labeling and Packaging) Rules, 1986:

- Urdu Text
- Registration Number
- Maximum Retail Price
- Name and Address of the sole agent
- Other Information (as per labelling requirements)

The firm has submitted following documents:

a) Application.
b) Total Fee of Rs. 20,000/- (Rs. 10,000 each).
c) Copy of registration letters along with renewal letters.

d) Copy of valid DML # 000003.

Decision: Registration Board acceded to the request of the firm for import of Simulect 20mg Injection (Reg. # 025218) and Xolair 150mg Powder for Solution for Injection (Reg. # 047599) in Standard Export Packs. The Board advised the firm to locally print Urdu version, MRP, Registration Number and other parameters as per Drugs (Labelling & Packing) Rules, 1986 before sale of drug at M/s Novartis Pharma (Pakistan), C-21, S.I.T.E Area, Karachi-75700 (DML # 000003). This permission shall be valid for two (02) years only. The firm shall submit the future plan regarding the import of products in compliance with Drugs (Labelling & Packing) Rules, 1986.

Case No. 20. Request for incorporation of additional changes in renewal of registration certificate for polyvalent anti snake venum serum/Immunoglobulins.

M/s National Institute for Health, Islamabad (NIH) has applied vide letter No. NIH-ISB-CBPD/69/Reg/2022 dated Nill from Ghazala Parveen Chief Biological Production division, NIH, Islamabad. M/s NIH states as under:

"This is with reference to DRAP's letter F-9-33/2022 AD(BD)(PRV)(M-318) dated 7th July 2022 on above subject. Please find enclosed herewith the copy for your ready reference at (Flag-A). Sera lab is under process of product sample testing for independent product Risk assessment by WHO. In this regard samples along with relevant documentation has to be submitted to NCLB for release at the earliest.
In this regard the essential product information for renewal of registration of drugs under drugs act 1976 and rules framed thereunder is required by NCLB on registration renewal letter/certificate.

Registra-tion number	Product name name/brand name	Composition	Packing	Storage conditions & shelf life	Maximum retail price.
003846	Polyvalent Snake Antivenom immunoglobulins	Liquid Purified Equine Immunoglobulins	10ml vial	+2 to 8 ℃	
	B.P specifications	Each 1ml of Antivenom neutralizes not less than 3LD50 challenge venom dose of following snakes: 1.Russell's viper (*Daboia russellii*) 2.Pakistani Cobra species (*Naja naja*) 3. Common krait (*Bungarus caeruleus*) 4.Saw-scale viper (*Echis carinatus*).		2 years from date of manufacturing.	Current Price Rs.1651.46/- As per SRO.

Case History:

Proceedings of 318th Registration Board Meeting:

M/s NIH Islamabad vide letter dated 09th June 2022 & 5th July, 2022 has requested for issuance of duplicate registration certificate including changes incorporated for Polyvalent Anti-Snake Venom Serum (003846). The firm has requested for standardized formulation & description of container closure to submit the same to National Control Laboratory for Biologicals for lot release and the same certificate will assist NIH for making correspondence with WHO and other international agencies for collaboration and Joint Ventures; for this NIH has submitted revised label having following standardized formulation and requested for approval of the same. The firm M/s NIH, Islamabad verified that, as per WHO newly published guidelines 2010 & 2016, both descriptions as per their initial registration letter and requested standardized formulation for potency are equally acceptable.

Reg. No.	Product Name	Description of container closure
003846	Polyvalent Anti-Snake Venom Each ml neutralizes: 0.6mg of Russel's Viper (Daboia russelii) venom 0.6mg of Balck Cobra (Naja naja) venom 0.45mg of saw Scaled Viper (Echis carinatus) venom 0.45m of Common Krait Bun arus caeruleus venom	USP Type I Glass Vial of 10ml

It is submitted that National Institute of Health (NIH) Islamabad was granted registration of Polyvalent Anti-Snake Venom Serum as per following details:

Reg. No.	Product Name of Product	Description	Date of Registration	Renewal trail
003846	Polyvalent Anti-Snake Venom	Each ml of anti-snake venom serum neutralizes 2LDso of Cobra, Russell's viper, Krait, and Echis venom 10ml vial	April, 1977	• Renewal granted by erstwhile MOH vide letter No. F.3-3/2004-Reg-11 (M-184) dated 02.09.2004. • Renewal granted by erstwhile MOH vide letter No. F.11-19/2007-RRR dated 16.09.2008 valid till 02.09.2014 • Renewal for year 2014 was submitted on 26.08.2014, which is within time w.r.t approval dated 02.09.2004. • Renewal for the year 2019 was submitted on 17.09.2019 which is after due date but within sixty days. This requires submission of differential fee and Regularization by the Reg Board.

Keeping in view above it is submitted that the last renewal of the product was submitted on 17.09.2019, which is sixteen days late after due date, but within sixty days. Under Rule 27 of the Drugs {LRA) Rules, 1976 under Drugs Act, 1976 late renewals (within Sixty days) require regularization by Registration Board. The firm Mis NIH, Islamabad in this regard has deposited the requisite fee Rs. 10,000/- vide challan No. 9543242776 dated 06.07.2022.

The case is placed before the Registration Board for

i. Consideration of regularization of renewal of registration for product Polyvalent Anti-Snake Venom Serum (003846) ofM/s NIH, Islamabad.

ii. The renewal letter may be issued to the firm with revised nomenclature formulation as mentioned per details given below.

Decision of 318th meeting of RB:

Keeping in view position narrated above, Registration Board regularized the registration of above product w.e.f. 01-09-2019 to 31-08-2024 and advised DBE&R to issue renewal letter with following formulation and container closure description:

Reg. No.	Product Name	Description of container closure
003846	Polyvalent Anti-Snake Venom Each ml neutralizes: 0.6mg of Russel's Viper (Daboia russelii) venom 0.6mg of Black Cobra (Naja naja) venom 0.45mg of saw Scaled Viper (Echis carinatus) venom 0.45mg of Common Krait (Bungarus caeruleus) venom BP Specifications	USP Type I Glass Vial of 10ml

It was further decided to issue above letter today without waiting for the minutes as the lot release is pending at NCLB due to this regularization.

Accordingly, Renewal of Registration Letter No. 9-33/2022-AD(BD)(PRV)(M-318) dated 07-07-2022 was issued.

The evaluation is tabulated as under;

S. No	Reg. No.	Current parameters as per 318th R.B Meeting	Demanded parameters	Remarks of evaluators/Documents required as per approved SOPs
1.	003846	Polyvalent Anti Snake venom	Polyvalent Snake Antivenom immunoglobulins	**a) Application with required fee as per relevant SRO (in case of similarity / resemblance with drug, fee will not be required).** **b) Copy of registration letter and last renewal status.** **c) Justification for proposed change.** **d) Information regarding previous change of brand name since registration of drug.** **e) Details (batch number, date of manufacture, quantity and stock position) regarding last batch imported.** **f) An undertaking that the proposed names do not resemble with already registered brands. In case of resemblance/similarity with already registered drug, the applicant will be liable to change**

				immediately. Moreover, no case is pending at any forum / court of law regarding this matter. **g) Original and legalized Certificate of Pharmaceutical Product as per WHO format for new brand name OR Original and legalized GMP certificate of new brand name with free sale certificate from regulatory body of country of origin.** **h) Undertaking that the provided information/ documents are true/ correct.**
2.		Nill	2 years from date of manufacturing.	**a) Application with required fee as per relevant SRO.** **b) Copy of registration letter and last renewal status.** **c) Proposed shelf-life, justification & data of long-term stability testing (as per conditions of zone IV-A) including chromatograms for a minimum of 3 commercial scale batches or development scale batches upto the proposed shelf-life.** **d) Approval of regulatory body of country of origin or Original and legalized Certificate of Pharmaceutical Product as per WHO format.** **e) Undertaking that:** **i. Provided information is true & correct.**
3.		Nill	(+2 to 8 ℃)	**a) Application with required fee as per relevant SRO.** **b) Copy of registration letter and last renewal status.** **c) Undertaking that:** **i. The change is in accordance with innovator's product/ Reference Regulatory Authorities** **ii. Provided information is true & correct.** **iii. The change is not necessitated by failure to meet specifications or resulting from unexpected events arising during manufacture.** **iv. If the change is necessitated because of stability concerns, declaration of reason for change in storage condition.**
4.		USP Type-I Glass vial of 10ml	10ml vial	**Clarification is required regarding inclusion of 10ml vial instead of USP Type-I Glass vial of 10ml.**
5.		Each 1ml neutralizes: 0.6mg of Russel's viper (Daboia russellii) venom 0.6mg of Black Cobra (Naja naja) venom 0.45mg of saw Scale Viper (Echis carinatus) venom 0.45mg of Common krait (Bungarus caeruleus) venom	Liquid Purified Equine Immunoglobulins. Each 1ml of Antivenom neutralizes not less than 3LD50 challenge venom dose of following snakes: 1.Russell's viper (*Daboia russellii*) 2.Pakistani Cobra species (*Naja naja*) 3. Common krait (*Bungarus caeruleus*) 4.Saw-scale viper (*Echis carinatus*).	**1. Clarification/justification is required regarding $3LD_{50}$ as in 318th R.B $2LD_{50}$ has already been changed to the current composition if the composition is changed the firm will have to apply for new registration.** **2. Clarification is also required for inclusion of "Liquid Purified Equine Immunoglobulins and Pakistani Cobra" in composition in any reference country and also any compendial reference**

As per direction of the Chairman Registration Board the case is placed for deliberation before the Registration Board.

Decision: Registration Board deferred the case for clarification from the applicant regarding the demanded parameters.

Case No. 21. <u>Deferred of M/s M/s Amson Vaccines & Pharma (Pvt.) Ltd deferred in 317th Registration Board meeting:</u>

21.	**Name, address of Applicant / Importer**	**M/s Amson Vaccines & Pharma (Pvt.) Ltd., Plot No. 115, Industrial Triangle, Kahuta Road, Islamabad.**
	Details of Drug Sale License of importer	License No: 920-ICT/2013 Address Plot No. 115, Industrial Triangle, Kahuta Road, Islamabad. Validity: 01-08-2022
	Name and address of marketing authorization holder (abroad)	M/s Green Cross Corporation, 40 Sandan-gil, Hwasun-eup, Hwasun-gun, Jeollanam-do, Republic of Korea
	Name, address of manufacturer(s)	M/s Green Cross Corporation, 40 Sandan-gil, Hwasun-eup, Hwasun-gun, Jeollanam-do, Republic of Korea
	Name of exporting country	Republic of Korea
	Detail of certificates attached (CoPP, Free Sale certificate, GMP certificate)	• Firm has submitted Legalized CoPP (No. 2021-A1-0638) dated 12-04-2022 issued by Ministry of Food and Drug Safety, Korea. The COPP specifies that the product is licensed for sale but not available in country of origin. The COPP also specifies the GMP ststua of manufacturer. • Firm has submitted Legalized FSC (No. 2020-A1-0504) dated 24-03-2022 issued by Ministry of Food and Drug Safety, Korea. The FSC specifies that the product is permitted to be freely sold in country of origin. • Firm has submitted legalized GMP certificate (No. 2021-F1-0184) dated 18-05-2021 valid till 25-02-2024 issued by Ministry of Food and Drug Safety, Korea.
	Details of letter of authorization / sole agency agreement	Firm has submitted legalized Sole Agency Certificate from General Manager of M/s Green Cross Corporation. According to the letter, the firm M/s Green Cross Corporation exclusively authorizes "M/s Amson Vaccines & Pharma (Pvt.) Ltd. for the purpose of registration, import, promotion and marketing of the product.
	Status of the applicant	☐Manufacturer ☒Importer ☐Is involved in none of the above (contract giver)
	Status of application	☐New Drug Product (NDP) ☒Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒Domestic sale ☐Export sale ☐Domestic and Export sales
	For imported products, specify one the these	☒Finished Pharmaceutical product import ☐Buk import and local repackaging ☐Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	32870 & 11223 Dated: 15-12-2021 & 10-05-2022
	Details of fee submitted	Rs: 150,000/- Dated: 11-11-2021 Deposit Slip No. 1882973539
	The proposed proprietary name / brand name	BARYCELA Inj.
	Strength / concentration of drug of Active	**Powder Vial:** Each vial contains:

	Pharmaceutical ingredient (API) per unit	Live attenuated varicella virus (strain: MAV/06, cell line : MRC-5)….≥3800PFU **Solvent Vial:** Each vial contains: Sterile Water for Injection…….0.7ml
	Dosage form of applied drug	Powder & Solvent for Intramuscular Injection
	Pharmacotherapeutic Group of (API)	Human Vaccine
	Reference to Finished product specifications	Not Provided
	Proposed Pack size	1's Vial (Powder) + 1's Vial (Solvent) 10's Vials (Powder) + 10's Vials (Solvent)
	Proposed unit price	As per SRO
	Shelf Life	24 months
	Storage Conditions	2 ˚C -8˚C
	The status in reference regulatory authorities	The firm has submitted Varivax as RRA status
	For generic drugs (me-too status)	Varicella vaccine with this strain is not registered.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines. Firm has summarized information related to general properties, manufacturers, description of manufacturing process and controls, characterization, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Green Cross Corp., 586, Gwahaksaneop 2-ro, Ochang-eup, Cheongwon-gu, Cheongju-si, Chungcheongbuk-do, South Korea
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of Varicella vaccine bulk at real time conditions. The real time stability data is conducted at -80 ± 10˚C for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	Powder Vial: • Borosilicate (Type I) Glass Vial • Butyl Rubber Stopper • Aluminum cap

		Solvent Vial: • Borosilicate (EP Type I) Glass Vial • Chlorobutyl Rubber Stopper • Aluminum cap
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of Barycela Inj. at accelerated and real time conditions. The real time stability data is conducted at 5 ± 3˚C for 24 months and accelerated stability is conducted at 25±2˚C for 06 months. Firm has submitted stability study data of 3 batches of Diluent at real time conditions. The real time stability data is conducted at 5 ± 3˚C for 36 months.
	Module-IV Non-Clinical	**Primary Pharmacodynamics** • Immune response comparison study by animal species (rabbit, rat, and guinea pig) • Efficacy comparison study in rabbits and guinea pigs • Efficacy comparison study with commercial vaccines in rabbits and guinea pigs • Preliminary local tolerance and efficacy study in rabbits **Repeat-dose Toxicity** • Repeated Subcutaneous Dose Toxicity Study of VZV Vaccine (MG1111) with a Recovery Period in Rabbits. **Other Toxicity Study** • A Neurovirulence Test of Attenuated Varicella-Zoster Virus (VZV) in Male Cynomolgus Monkeys
	Module-V Clinical	• A Single-center, Dose Block-randomized, Single-blind, Active-controlled, Dose Escalation Phase 1 Clinical Trial to Evaluate the Safety and Efficacy (Immunogenicity) of MG1111 in Healthy Adults • A Phase II/III, Single-blind (Stage 1), Double-blinded (Stage 2), Randomized, Active-controlled, Dose-escalation (Stage 1), Non-inferiority (Stage 2) Study to Evaluate Immunogenicity and Safety of MG1111 in Healthy Children
	Remarks of Evaluator	i. The submitted legalized **FSC** issued on **24-03-2022** specifies that the product is permitted to be freely sold in country of origin, however, legalized **CoPP** issued on **12-04-2022** indicates that the product is not actually available in the market in country of origin. ii. RRA status submitted by the firm is of OKA strain while the instant product has a different strain. iii. The instant strain is not registered in Pakistan. iv. pH is not tested in real time stability studies for which the firm has submitted that initially pH was not included in the studies and later Ministry of Food and Drug Safety, Korea (MFDS) advised them to include. The revised stability studies are not yet complete. v. Limits of virus concentration is different in Specifications (3800-38000PFU) and stability data (2530-25298PFU) for which the firm submitted that clinical trial was conducted with target virus concentration of 8000PFU but at the time of review by MFDS, the target virus concentration was 12000PFU, therefore, the final virus concentration limit is also changed from 2530-25298 PFU to 3800-38000PFU.

Decision: Registration Board deferred the product for submission of following by the firm:

i. Clarification regarding non-availability of product in country of origin as per submitted CoPP.
ii. Evidence of availability of Varicella vaccine with MAV/06 strain in Reference Regulatory Authorities.
iii. Immunological relevance of MAV/06 strain with circulating strains of Pakistan.
iv. Real time stability data including all parameters as per finished product specifications.

The firm has submitted following Documents and clarification:

i. New CoPP submitted by the firm shows the availability of the product in country of origin.
ii. The firm has submitted 28 days stress stability data of finished product with statement that after 02-03-2020.
iii. Regarding Immunological relevance of MAV/06 strain with circulating strains of Pakistan the firm has submitted

"Report on the Results of Immunogenic Cross-Reactivity Assessment on Attenuated Vaccine Strain and Wild-Type Varicella Viruses in the Serum of Children Administered Varicella Vaccines"

Conclusion of the study:

"-The serum samples of the MG1111 vaccination group did not show any statistically significant difference in the antibody titers analyzed with the FAMA antigens of 6 VZV strains regardless of clades or attenuation.

- *The serum samples of the Varivax vaccination group showed a statistically significant difference in the antibody titers analyzed with the FAMA antigens of 6 VZV strains. Specifically, when MAV06 and Jena 26 were used as antigens, the antibody titer was statistically significantly lower than the values measured using Varivax_Oka or YC03 as antigens.*
- *When FAMA analysis was performed with the same strain for 6 FAMA antigen strains, there was no difference in antibody titers between the MG1111 and Varivax vaccination groups.*

iv. Evidence of availability of Varicella vaccine with MAV/06 strain in Reference Regulatory Authorities is not provided.

Decision: Registration Board deferred the case for seeking expert opinion from EPI regarding immunological relevance and need of applied strains / vaccine for use in Pakistani population.

AGENDA ITEM NO. 01
PERSONAL HEARING CASES

CASE No. 01: MANUFACTURE & SALE OF MISBRANDED DEX-NEO CREAM REG. NO. 067664, BATCH NO. 299 MANUFACTURED BY M/S. ZANCTOK PHARMACEUTICAL LABS, HYDERABAD.

The Federal Inspector of Drugs-IV, DRAP inspected the premises of M/s. Zanctok Pharmaceuticals Karachi dated 18-11-2021 and following sample of drug taken on Form-3 for the purpose of test/analysis. Details are:

S. No.	Product Name	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	Remarks of CDL
01	Dex-Neo cream	M/s. Zanctok Pharmaceutical Labs, Hyderabad	067664	299	11-2021	10-2023	The inner most label (tube) does not contain date of expiry as required under rule 3 of the Drugs (labelling & Packing) Rules 1986. Hence, sample is declared **"Misbranded"** under the Drug Act, 1976.

The sealed sample of above drugs was sent by FID to Federal Government Analyst, Central Drugs Laboratory, Karachi for the test/analysis vide this office memorandum No. SHM-NTF-64-66/2021-FID(K)-IV dated 19-11-2021.
The sealed portion of sample was also sent by FID to Chairman, Drug Registration Board, DRAP, Islamabad vide office letter of even number dated 19-11-2021.
The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the sample as Misbranded under the Drugs Act, 1976, vide test report No.KQ.348/2021 dated 25-01-2022.
In the light of above test report of Federal Government Analyst, Central Drugs Laboratory, Karachi, FID issued an explanation letter of even number dated 31-01-2022 to M/s. Zanctok Pharmaceuticals Hyderabad to explain their position in the matter for manufacturing/selling of above-mentioned Misbranded drug.
M/s. Zanctok Pharmaceuticals Hyderabad explained their position vide letter dated 07-02-2022. The firm's stance was reproduced as:

> "Keeping in view all the above-mentioned facts, it is stated that we owe to rectify the improper labeling (i.e no expiry date mentioned on primary packaging which was missed during engraving labeling on tubes due to machine problem) of our product Dex-Neo cream from the very next following batch with immediate effect."

In light of FGA report, M/s Zanctok Pharmaceuticals Hyderabad involved in manufacturing and selling of Misbranded drug Dex Neo cream Batch no. 299 and violated section 23(1)(a)(iii) of the Drugs Act 1976 and rules framed under.
Further, FID recommended that action under section 42 of the Drugs Act, 1976.
Section 42 of the Drugs Act 1976 reproduced as:

> "Where any person has been found to have contravened any of the provisions of this Act or the rules in respect of any registered drug, the Registration Board may, after giving such person an opportunity of being heard, cancel the registration of such drug or suspend such registration for a specified period."

Decision of 316th Meeting of Registration Board.

> "The Board after thorough deliberations, considering the facts of the case, decided to issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Zanctok Pharmaceuticals Hyderabad and called them for personal hearing before Registration Board."

Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.
Firm has replied vide Ref No. ZPL/046/2022 dated 30-05-2022 where in firm agreed for personal hearing.
Firm has been called for Personal hearing.
Procedings and Decision of 320th Meeting of Registration Board.
M/s Zanctok Pharmaceutical Laboratories submitted vide Ref No. ZPL/117/2022 dated 30-08-2022 that:

> "[…] Unfortunately, we have received the above subject letter on 30-08-2022 in afternoon through Whats App. We still have not received the letter through Pakistan post/courier. We believe due to heavy rain and flood in Hyderabad, no post was received to the factory. Due to receiving of the letter in late hours (Last Day), we are not getting flight for tomorrow to Islamabad. Therefore, we request you to move the hearing date to next month […]"

Decision: *"The Board after considering the facts of the case, request of the firm to grant another opportunity of personal hearing and after thorough deliberations acceded the request and provide them another opportunity of personal hearing."*

In view of decision of 320th meeting, they have been called for personal hearing.
Proceedings and Decision of 321st Meeting of Registration Board.
Ms. Almas Saeed, QA Manager appeared before the Board on behalf of M/s Zanctok Pharmaceutical Laboratories Hyderabad. She admitted that they have rectified the problem and expiry date has been printed on the tubes.
Registration Board after detailed discussion and thorough deliberations decided as follows:

a. **to issue warning letter to the firm in the matter.**
b. **directed the firm to further improve / strengthen quality assurance system by hiring qualified persons and review existing processes by incorporating more quality checks. Report for aforementioned action shall be submitted to QA&LT Division within 1 month time for appraisal of Registration Board.**

CASE NO. 02: MANUFACTURE & SALE OF ADULTERATED & SUB-STANDARD STERILE WATER FOR INJECTION REG. NO. 000040, BATCH NO. 799

MANUFACTURED BY M/S. ZAFA PHARMACEUTICAL LABORATORIES (PVT.) LTD., KARACHI.

The Federal Inspector of Drug-III / Assistant Director-XII, DRAP, Karachi inspected the premises of M/s. National Institute of Child Health (NICH) Rafeeqi Shaheed Road Karachi. on 28-05-2021 wherein the sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3.
The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the above said sample as "Adulterated and Sub-Standard" quality vide their test report No.KQ.134/2021 (Initial) dated 11th June 2021 and test report No. KQ.134/2021 (Final) dated 30th, July 2021.

S. No.	Name of Drug	Reg; No	Batch No.	Mfg. Date	Exp. Date	Mfg.by	Result of CDL	Basis of Result
01	Zafixime 500mg Injection	027228	440	01-2021	01-2023	M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Karachi.	Standard	-
-	Strile Water for Injection 5ml Ampoule	030217	799	12-2020	12-2025	---do---	Adulterated & Substandard	**Containing white fibers visible to the naked eye.**

In the light of above test reports of Federal Government Analyst, Central Drug Laboratory, Karachi an explanation letter of even number dated 11th June 2021 and 02nd, August 2021 issued by FID to M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Plot No. B-10, Block-B, S.I.T.E. North Karachi, for explaining their position in the matter of manufacturing/selling of above mentioned Adulterated and Sub-Standard drug.
M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Plot No. L-1/B, block 22, Federal "B", Area Karachi, 75950 vide their letter No. Nil dated 23th August,2021 requesting for retesting of Drug Zafixime 500mg Injection Batch No. 440, from NIH Islamabad. under section 22(5) of the drug Act 1976 for testing.
FID submitted the request of firm for retesting dated 25-08-2021.
M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, again requested for Appellate testing dated 07-10-2021.
Proceedings and Decision of 313th Meeting of Registration Board.
The Board after thorough deliberations and considering the facts of the case decided to ask/request Federal Government Analyst, Karachi to provide OOS investigation and complete testing record on which the product is declared as of Adulterated and Substandard quality.
The decision of Board has been communicated dated 16-12-2022 after approval of minutes.
M/s. Zafa Laboratories replied dated 11-01-2022, the conclusion of firm is reproduced as:

"In light of above investigation, product Water for Injection 5ml, Batch no. 799 was found as per specification. Therefore, OOS is not required against complaint."

Response received from Central Drugs Laboratory, Karachi received through WhatsApp dated 14-03-2022 wherein the remarks of OOS Investigation Form are reproduced as:

"Containing white fibers (WFI) visible to the naked eyes. The sample is of adulterated and substandard quality.

Technical Evaluation of the case:

- Water for injection was declared adulterated and substandard, containing white fibers visible to the naked eyes.
- Defects may not be equally distributed over the batch that's why it is not necessary for a Board or retention portion to be defective. Allowing retesting may result in false negative results and pose the risk to patient which can be avoided otherwise.
- Moreover, the remarks of CDL may be considered for further investigation of quality defect considering the statistical validity of sample size.

Proceedings and Decision of 316th Meeting of Registration Board.
The Board after thorough deliberations and considering the facts of the case decided:

i. To issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Zafa Pharmaceutical Laboratories (Pvt.) Ltd., Karachi and called them for personal hearing before Registration Board.

Mr. Adnan Rizvi, Member of Board has recorded his note of dissent i.e. the sample should be sent to NIH for appellate testing.

Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.

Firm has replied vide letter Nil dated 02-06-2022 wherein they again requested to send sample for appellate testing to NIH for physical testing.

Firm has been called for personal hearing.

Proceedings and Decision of 320th Meeting of Registration Board.

M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Karachi submitted vide Ref No. Nil dated 29-08-2022 that the concerned technical person was not available to attend the hearing due to unavoidable circumstances (rain and flood). They further requested for personal hearing in next meeting.

Decision: "The Board after considering the facts of the case, request of the firm to grant another opportunity of personal hearing and after thorough deliberations acceded the request and provide them another opportunity of personal hearing."

In view of decision of 320th meeting, they have been called for personal hearing.

Procedings and Decision of 321st Meeting of Registration Board.

Mr. Aquil Ahmed Rizvi, QA Manager and Mr. Ikram Habib, Manager Regulatory appeared before the Board. They inform that they have tested the retained sample of product and found it satisfactory and request to send the Board's portion for Appellate testing.

Registration Board after detailed discussion and considering the facts of the case decided:

"Sample of Sterile Water for Injection Batch No. 799 manufactured by M/s. Zafa Pharmaceutical Laboratories (Pvt) Limited, Plot No. B-10, Block-B, S.I.T.E. North Karachi will be sent to appellate lab for testing of visible particulate matter, on which the sample was declared as Adulterated and Substandard by CDL, Karachi."

CASE NO. 03: MANUFACTURE & SALE OF ADULTERATED & SUBSTANDARD ABEX INJECTION, REG. NO. 086072, BATCH NO. 21AL2, MFG. DATE 02-21, EXP. DATE 02-23, MANUFACTURED BY M/S. SEMOS PHARMACEUTICALS (PVT.) LTD., KARACHI.

FID, DRAP, Karachi inspected the premises of M/s. JPMC, (Central Pharmacy) Rafeeqi Shaheed Road Karachi. on 23-04-2021, wherein following sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3.

The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the above said sample as "Adulterated and Sub-Standard" quality vide their test report No.KQ.100/2021 (Initial) and (Final) dated 26th May 2021 and 15th June 2021**.**

S. No.	Name of Drug	Reg. No	Batch No.	Mfg. Date	Exp. Date	Mfg. By	Result of CDL	Basis of Result
01	Injection Abex	086072	21AL2	02/2021	02/2023	M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector 121-A, North Karachi. Industrial Area, Karachi.	Adulterated & Sub-standard	**After reconstitution, containing black particles visible to naked eye.**
02	Ampoule of Water for Injection	026762	WF2-243C	JAN-2021	JAN-2026	M/s. Surge Labortories (Pvt) Ltd. 10th Km, Faisalabad Road, Bikhi, District Sheikhupura	Standard	-

In the light of above test report KQ.100/2021 (Initial) dated 26th May 2021 of Federal Government Analyst, Central Drug Laboratory, Karachi an explanation letter of even number dated 27th May 2021 and 17th June 2021 were accordingly issued to M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector 121-A, North

Karachi. Industrial Area, Karachi. for explaining their position in the matter of manufacturing/selling of above mentioned Adulterated and Sub-Standard drug

M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector 121-A, North Karachi. Industrial Area, Karachi vide their letter No. SP/L TR047 dated 28th June 2021 requesting for retesting of Drug Abex Injection Batch No. 21AL2 from NIH Islamabad.

FID stated that in the light of above, portion of sample lying with the Board may be got retested from Appellate Laboratory National Institute of Health (N.I.H) Islamabad.

Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided to ask/request Federal Government Analyst, Karachi to provide OOS investigation and complete testing record on which the product is declared as of Adulterated and Substandard quality.

The decision of Board has been communicated dated 16-12-2022 after approval of minutes.

M/s. Semos Pharmaceuticals, Pvt Ltd., Karachi dated 27-12-2021, the firm mentioned that they have checked retention samples and recall samples as described process but didn't see any particles after reconstitution.

Firm also highlighted the remarks of CDL report reproduced as:

- As per requirements of USP general chapter <790> additional units may be inspected (As per ANSI/ASQ Z 1.4 or ISO 2859-1 standard for sampling) to gain further information on the risk of particulates in the batch.
- It is also mentioned in USP <790> that because of complaint and regulatory concern inspect 20 units, but they have received 10 units only. That's why they have requested to inspect more samples as per CDL remarks.

For the greater public interest and precautionary measures, they revalidated the Cephalosporin sterile area after replacing the filters where necessary i.e. HEPA filters for tunnel sterilization etc and other HEPA filters were also re-validated where necessary. They conducted DOP test on the filters. They further requested for appellate testing under section 22(4) of the Drugs Act 1976.

Response received from Central Drugs Laboratory, Karachi dated 14-03-2022 wherein wherein the remarks of OOS Investigation Form are reproduced as : "Adulterated and Substandard".

Technical Evaluation of the case:

- Product is declared as adulterated and substandard after reconstitution, containing black particles visible to naked eyes.
- Firm has conducted risk assessment however the risks are defined by firm in low to moderate range. DOP test was also conducted but no remarks was mentioned in the report.
- Defects may not be equally distributed over the batch that's why it's not necessary for a Board portion or retention portion to be defective. Allowing retesting may result in false negative results and pose the risk to patient which can be avoided otherwise.
- Moreover, the remarks of CDL may be considered for further investigation of quality defect.

Decision of 316th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided:

i. To issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Semos Pharmaceuticals (Pvt.) Ltd., Karachi and called them for personal hearing before Registration Board

Mr. Adnan Rizvi, Member of Board has recorded his note of dissent i.e. the sample should be sent to NIH for appellate testing.

Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.

Firm has replied vide Ref. No. SP/LTR/062 dated 01-06-2022 wherein they again requested to send sample for appellate testing to NIH for physical testing and ready to appear before the Board.

Firm has been called for personal hearing.

Proceedings and Decision of 320th Meeting of Registration Board.

M/s. Semos Pharmaceuticals, Pvt Ltd., Karachi submitted vide Ref No. SP-LTR/065 dated 31-08-2022 that their flight had been delayed at the last moment and no other flight was available in short span of time. They further requested for another date for personal hearing.

Decision: "The Board after considering the facts of the case, request of the firm to grant another opportunity of personal hearing and after thorough deliberations acceded the request and provide them another opportunity of personal hearing."

In view of decision of 320th meeting, they have been called for personal hearing.

Proceedings and Decision of 321st Meeting of Registration Board

Mr. Mutti-Ur-Rehman, Director and Mr. Waqas Kamil, QA Manager appeared before the Board. They inform that they have tested the retained sample of product and found it satisfactory and request to send the Board's portion for Appellate testing.

Registration Board after detailed discussion and considering the facts of the case decided:

"Sample of Abex Injection Batch No. 21AL2 M/s. manufactured by Semos Pharmaceuticals (Pvt.) Ltd., Karachi will be sent to appellate lab for testing of visible particulate matter on which the sample was declared as adulterated and substandard by CDL, Karachi."

Case No. 04: MANUFACTURE & SALE OF SUB-STANDARD INDOBID CAPSULE, REG. NO. 007106, BATCH NO. 386, MANUFACTURED BY M/S ADAMJEE PHARMACEUTICALS (PVT) LTD., KARACHI.

FID Karachi vide letter No. F.ARS-107-109/2021-FID-II (K) dated 02nd August 2021 wherein the FID Karachi has informed that the sample was received in CDL, Karachi wherein, the Federal Government Analyst has declared following samples of Indobid Capsule as of "Substandard quality".

Name of Product	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	CDL Remarks
Indobid Capsule	M/s Adamjee Pharmaceuticals (Pvt) Ltd., Karachi	007106	386	01-2021	01-2025	Substadard on basis of Dissolution.

Results of CDL on the basis of which sample under reference has been declared as Sub-Standard quality are reproduced as under:-

S.No.	Test	Specification	Result	Reference
1	Description	Hard gelatin capsules consist of white body and blue coloured cap, containing off white powder.	Complies	Mfg. Specs.
2	Identification	The identification test must identify Indomethacin.	Complies	BP 2020
3	Dissolution	Each unit is not less than 70%	**Does not Comply.**	BP 2020
4	Assay Indomethacin (Lebel claim 25mg/ capsule)	90.0% to 110.0%	103.2%-Complies	BP 2020

Remarks: The sample is "Sub-Standard" quality under the Drugs Act, 1976.

The FID Karachi has further informed that the firm has sent the explanation letter to explain their position dated 13th July 2021 regarding the violation of Drug Act 1976 and DRAP Act 2012.

The firm has submitted their reply dated 30th July 2021, wherein they requesting for retesting of Drug Indobid Capsules B.No.386 from NIH Islamabad.

In light of Supreme Court judgement of "C.P.1692-L/2020, C.P.1792-L/2020 and C.P.5-L/2021" and firm's request for appellate testing, the case is submitted for consideration of Board.

Proceedings and Decision of 312th Meeting of Registration Board.

The case has been deferred till the finalization of Appellate Testing Guidance Document/Protocol.

The agenda of "Handling requests of Appellate Testing- Guidance document for registration Board" was discussed in 313th meeting of Registration Board. The Board after thorough deliberations and considering the facts of the case decided as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.
ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.
iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case.

OOS investigation was asked by firm and CDL vide office letter dated 23-12-2021.

The firm submitted the response dated 16-02-2022. They provided the results of initial test, Keeping sample and warrantor portion and request for appellate testing. However, OOS investigation was not provided.

CDL submitted the response dated 15-03-2021 wherein they mentioned: OOS is validated.

Technical Evaluation of the case:

i. The product was declared substandard on dissolution.
ii. CDL performed the test as per BP 2020 while firm performed on manufacturer specs.
iii. Audit trail was not provided by firm.
iv. Data is not time stamped hence data integrity cannot be verified.

Proceedings and Decision of 317th Meeting of Registration Board:

Out of Specification (OOS) investigations and testing records submitted by M/s. Adamjee Pharmaceuticals (Pvt) Ltd., Karachi and CDL, DRAP Karachi was presented before Registration Board. The Board deliberated the case in detail as follows:

i. M/s. Adamjee Pharmaceuticals (Pvt) Ltd., Karachi requested for Appellate testing. In compliance to the decision of 313th meeting of Registration Board firm and CDL were asked to submit Out of specification (OOS) investigation vide office letter dated 23-12-2021. The firm submitted the response dated 16-02-2022. They provided the results of initial test, Keeping sample and warrantor portion and request for appellate testing. However, OOS investigation was not provided. While CDL submitted the response dated 15-03-2022 wherein they mentioned that OOS is validated.

ii. Review of documents revealed that the product "Indobid Capsule" (Reg# 007106) was registered vide letter No.F.3-4/83-Reg(M-51) dated 16-01-1984 and no specification was mentioned in registration letter. Later on the subject product was included in BP specifications Minutes of 317th meeting of Registration Board (16-17 May, 2022) | 877 while the firm is still manufacturing and testing the product per manufacturer specifications. Further in 197th meeting of Registration Board held on 3-4 th May 2006, the Board decided as:

"All the firms shall adopt the specifications mentioned in the official pharmacopoeias for all the formulation except those drugs not included in the official pharmacopoeias. For these drugs manufacturers may adopt their own specifications till the inclusion of that formulation in the official pharmacopoeias. after this decision firms will not be allowed to adopt their own specifications for the drugs, which are included in any of the official pharmacopoeias, listed in the Section 3 of Drugs Act, 1976."

Decision: Keeping in view position narrated above, the Board concluded that the firm is still manufacturing/testing the said product as per manufacturer specifications despite of the fact that it is included in the official pharmacopoeia (BP). Therefore, Board did not accede the firm's request of appellate testing. Thus, the Board decided to issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Adamjee Pharmaceuticals (Pvt) Ltd., Karachi and called them for personal hearing before Registration Board.

Decision of 317th meeting of Registration Board has been communicated vide letter No. F.03-30/2022-QC (317-RB) dated 21-06-2022.

Firm has replied vide Ref. No. Nil dated 28-06-2022 wherein they mentioned that they are the only company in Pakistan manufacturing Indomethacin capsule. They further said that they already imported a huge quantity of the said product foil, therefore they will change it to official pharmacopeia after consumption of the present foil.

Firm has been called for personal hearing.

Procedings and Decision of 320th Meeting of Registration Board.

M/s. Adamjee Pharmaceuticals, Pvt Ltd., Karachi submitted vide Ref No. Nil dated 31-08-2022 that their flight had been delayed. They further requested for personal hearing in next meeting.

Decision: "The Board after considering the facts of the case, request of the firm to grant another opportunity of personal hearing and after thorough deliberations acceded the request and provide them another opportunity of personal hearing."

In view of decision of 320th meeting, they have been called for personal hearing.

Proceedings and Decision of 321st Meeting of Registration Board.

Mr. Asim Kamal Ansari, QC Manager appeared before the Board on behalf of M/s. Adamjee Pharmaceuticals, Pvt Ltd., Karachi. He reiterated the same stance submitted earlier that they have tested the retained sample of product and found it satisfactory and requested to send the Board's portion for Appellate testing.

Decision: Registration Board after considering the facts of the case and after thorough deliberations decided:

i. Immediate suspension of the registration of Indobid capsule (Registration No. 007106) for a period of six months from the date of communication of decision.

ii. Submission of Root Cause Analysis (RCA) and Corrective and Preventive Action (CAPA) by the firm and its verification by following panel.

- **Mr.Abdur Rasool Shaikh, Additional Director, DRAP, Karachi.**

- **Mr.Affan Ali, Assistant Director, CDL, Karachi.**

iii. **Recommendations of panel will be placed before Registration Board for decision.**

Name:	Diagyl Suspension 60ml
composition	Each 5ml contain 200mg Metronidazole
Registration No:	020229
Batch No:	162
Manufacturing Date:	06-2018
Expiry Date:	06-2021
Manufactured By:	M/s Swiss Pharmaceuticals (Pvt) Ltd., A/159 SITE, Karachi

02. The FID-VI, Karachi has forwarded one sealed portion of sample to Central Drugs Laboratory, Karachi vide memorandum No.ARS-57-59/2018-FID-VI (K) dated 12-06-2018 as required under Section 19(3)(i) of the Drugs Act, 1976.

03. The Federal Government Analyst, CDL, Karachi declared the sample as of Sub-standard quality on the basis of Assay content (Percentage determined: 208.2%, Limit: 95.0%- 105.0%) vide test/analysis report No.R.KQ. 468/2018 dated 20th July, 2018.

04. In light of the above said test report; the FID served an explanation letter vide reference No. ARS-57-59/2018-FID-VI (K) dated 26-07-2018 to M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Super Highway, Karachi for explaining their position in the matter of manufacturing, selling and distributing of above mentioned substandard drug with direction to recall the above said batch from the market. The FID-VI inspected the premises as the results were very alarming and could be lethal if the drug under reference was distributed to masses. The stock were fresh and present at their nation wise distributor so the firm quarantined it till further investigation.

05. In response M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Super Highway, Karachi submitted their reply vide reference No. Nil dated 08-08-2018 wherein they submitted that the same out of specification assay results were due to **Mixing Error.** They also submitted that the whole batch quantity is lying under their quarantine and they want to destroy it under the supervision of FID. However they didn't apply for retesting from Appellate laboratory, NIH, Islamabad.

06. The FID-VI, Karachi provided the names of responsible persons which are as under:

S.No.	Name	Designation	CNIC
1	Muhammad Umair Feroz	Director	42000-0375898-3
2	Zahid Hussain Khan	Quality Control Incharge	42401-7324156-3
3	Munawar Sultana	Production Incharge	42101-2796675-4

07. The Division of Drug Licensing, DRAP Islamabad was requested to verify the names provided by the FID-VI, Karachi and provided the following names being responsible persons and technical persons.

M/s Swiss Pharmaceuticals (Pvt) Ltd., A/159 SITE, Karachi.	Hafiz Ferozuddin (Director/Chief Executive) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.
Hafiz Muhammad Umair, (Director) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.	Hafiz Muhammad Aamir, (Director) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.
Hafiz Muhammad Saad, (Director) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi.	Ms. Munawar Sultana (Production Incharge) (42101-2796675-4) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi
Zahid Hussain (Quality Control Incharge) (42401-7324156-3) M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi	

08. The FID has provided that M/s Swiss Pharmaceuticals (Pvt) Ltd, Karachi has violated the section 23(1) (a) (v) of the Drugs Act, 1976 and rules framed there under and recommended to the Board that the recalled stocks is ordered to be incinerated and firm may be issued warning to uplift the GMP standards so that such failures may satisfactory be mitigated/addressed in future.

09. Show cause notice has been issued to the technical staff/management of the firm – responsible persons U/S 7(11) of the Drugs Act, 1976 vide letter no. 3-59/2018-(QC) dated 19-11-2018 that why the following action(s) should not be initiated against you:

i. Prosecution in the Drug Court.
ii. Cancellation/Suspension of Drug Registration.
iii. Any other action the Board may deem fit.

10. The show cause notice was served to the firm and accused persons but the firm did not submit their reply in response to show cause notice.

Proceeding and Decision of the 287th Meeting of Registration Board.

Mr. Hafiz Muhammad Umair (Director) and Mr. Zahid Hussain (Quality Control Incharge) of M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi appeared on behalf of M/s Swiss Pharmaceuticals (Pvt.) Ltd., A/159 SITE, Karachi to plead instant case of Substandard drug Sub-Standard Diagyl Suspension, Batch No. 162 before the Board in its 287th meeting on 04th January, 2019. Representatives of firm informed that problem occurred due to improper mixing during manufacturing operation. The Board after hearing the accused deliberated the

matter in depth in the light of available record/ investigation report of FID decided as under:

I. Submission of product development data by the firm.

II. Product Specific Inspection including verification of product development data by the following panel:

- Director, Drug Testing Laboratory, Karachi.
- Area Federal Inspector of Drugs.

III. Suspension of the Registration of the said product for six (06) months or till the verification of product development data and satisfactory report by the panel whichever is later.

The decision of Registration Board had been communicated vide letter No. 03-92/2018-QC (287-RB) dated 28-02-2019.

FID-VI, DRAP, Karachi vide reference No.F.07-10/2020-FID-VI (K) dated 24th February, 2020 addressed to the Director QA&LT, DRAP, Islamabad regarding the subject of *"INSPECTION OF M/S HANDS PAKISTAN PLOT NO. 158, GADAP ROAD, MALIR KARACHI- STOCK ORDERED NOT OT DISPOSE OF ON FORM-1"* wherein ha has submitted that during the inspection of M/S Hands Pakistan Plot No. 158, Gadap Road, Malir Karachi on 24-02-2020 he recovered the stocks of Suspension Diagyl (R. No. 020229) for which the registration Board in its 287th meeting had suspended the registration of the said product for six months or till the verification of product development data and satisfactory report by the panel whichever is earlier. The available stocks of the suspended drug product were ordered "Not to dispose of on Form-1" under Section 18(1) of the Drugs Act, 1976 and violations of Board's decision.

S. No.	Name of Drug	Batch No.	Quantity	Mfg. Date	Exp. Date	Mfg. by
01	Susp. Diagyl 60ml	166 to 181	1 x 60ml x 134 x 100	10-2019	10-2022	M/s Swiss Pharmaceuticals (Pvt.) Ltd., Karachi.

Furthermore, samples of the said product along with other drugs were also drawn for test/analysis purpose on prescribed Form-3 and sent to the Federal Government Analyst, CDL, Karachi.

FID, DRAP, Karachi requested the permission for extension in the period of order made "Not to dispose of" on form-1 under the Drugs Act, 1976/DRAP Act, 2012. The permission was granted by Chairman, Registration Board and communicated to FID vide office letter F.No.3-59/2018-(QC) dated 08-05-2020 with directions to submit the complete case.

FID-VI, DRAP, Karachi vide reference No.F.07-10/2020-FID-VI (K) dated 04th March, 2020 addressed to the Director QA&LT, DRAP, Islamabad regarding the subject of "SURPRISED "INSPECTION OF M/S SWISS PHARMACEUTICALS PVT LTD, A -159,SITE SUPER HIGHWAY KARACHI STOCK ORDER NOT TO DISPOSE OF ON FORM I" wherein he has submitted that he was directed to inspect an unauthorized premises alleged to store expired drugs/ medicines and selling those after re labeling. Accordingly, the undersigned along with Dr. Waqar Ahmed Assistant Director DRAP Karachi proceeded for visit and reached at Plot No. C-36 SITE-II Super Highway Karachi. The alleged Plot was found owned by M/s Swiss Pharmaceutical (Pvt.) Ltd., and was very adjacent to their registered plot No. A/159 SITE Super Highway Karachi. The said plot is declared as their ware house on Drug Sale license and used for storage of expired goods and same was seen stored there. This plot is connected to their main plot No. A/159 through ill-defined stores where firm had stored some chemicals, packing materials and finished goods. Among the finished good panel found fresh stock of syrup Diagyl, B.No.170 and 171, the registration of which was suspended by the Board for six months are till the verification of product development data by the nominated panel vide DRAP Islamabad letter No.F.03-92/2018-QC (287-RB) dated 28th February 2019. But instead of complying the decision of the board concerned, the firm resumed the manufacturing of suspended drug. The suspected stocks were ordered not to dispose of initially for 28 days under section 18(1) of the Drug Act 1976.

S. No.	Name of Drug	Batch No.	Quantity	Mfg. Date	Exp. Date	Mfg. by
01	Susp. Diagyl 60ml	170	1 x 60ml x 100 x 110	12-2019	12-2022	M/s Swiss Pharmaceuticals (Pvt.) Ltd., Karachi.
02	Susp. Diagyl 60ml	171	1 x 60ml x 100 x 174	01-2020	01-2023	-do-

M/s Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway Karachi was directed to explain their position for manufacturing and selling of above suspended product vide this office letter of even number dated 24th February 2020. M/s Swiss Pharmaceutical (Pvt.) Ltd A-159 SITE Super Highway Karachi submitted their reply vide letter dated 03-03-2020 admitting their mistake and seeking further instruction

FID, DRAP, Karachi recommended that the registration of the alleged product may be cancelled after necessary legal procedure in this connection. The complete case is forwarded to your good office for further necessary action/instruction into the matter, please.

The permission was granted by Chairman, Registration Board and communicated to FID vide office letter F.No.3-59/2018-(QC) dated 08-05-2020 with directions to submit the complete case.
Reminder-I issued dated 15-06-2020.

FID-VI, DRAP, Karachi vide reference No.F.ARS-07-10/2020-FID-VI (K) dated 25-06-2020 regarding the subject of "Manufacture and sale of substandard drugs by M/s Swiss Pharmaceuticals (Pvt.) Ltd. Karachi" Wherein he has stated that he inspected M/s. Swiss Pharmaceutical (Pvt.) Ltd., A-159, SITE Super Highway, Karachi on 17-02-2020 and on 24-02-2020 FID, DRAP, Karachi inspected M/s. HANDS Pakistan, Plot No. 15, Gadap Road, Malir, Karachi.
During the inspections of both premises, following suspected samples were drawn along with other samples on prescribed Form-3 for test/analysis purpose:

S. No.	Name of Drug	Batch No.	Mfg Date	Exp. Date	Mfg by	Taken From	Result of CDL
01.	Susp. Diagyl 60ml	170	12-2019	12-2022	M/s. Swiss Pharmaceuticals (Pvt.) Ltd.,	M/s. Swiss Pharmaceuticals (Pvt.)	Substandard
02.	-do-	171	01-2020	01-2023	-do-	-do-	
03.	-do-	167	10-2019	10-2022	-do-	M/s. HANDS Pakistan, Malir, Karachi	

In the light of above test report of Government Analyst, Central Drugs Laboratory, Karachi an explanation letters of even numbers dated 09th March 2020 and 06th April 2020 were accordingly issued to M/s. Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway, Karachi
M/s. Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway, Karachi has submitted unsatisfactory reply and did not challenge the reports vide their letter dated 01th April 2020.
FID recommended that the firm has violated Section 23(1) (a) (v) and 23(l)(a)(x) of Drugs Act, 1976 for manufacturing and selling of Substandard and Suspended drug, which is punishable under Section 27 of Drug Act, 1976 and rules framed there under therefore, it is recommended that:-

1. The Drug Manufacturing License No. 000438 of M/s. Swiss Pharmaceuticals (Pvt.) Ltd., Karachi may be suspended/cancelled for certain period after due deliberation of Registration Board/Licensing Board.
2. The registration of the alleged product **(Suspension Diagyl)** may be cancelled for violation of decision of Registration Board
3. Through panel GMP inspection may be conducted.

Names of Responsible persons along with copies of CNICs as provided by the firm;

i. M/s. Swiss Pharmaceuticals (Pvt.) Ltd., A-159 SITE Super Highway, Karachi
ii. Muhammad Umair Feroze, Director (42000-0375898-3)
iii. Munnawar Sultana, Production Incharge (42101 -2796675-4)
iv. Safdar Khan Kayani, QC Incharge (42401-1779995-5)

M/s Swiss Pharmaceuticals (Pvt.) Ltd., vide reference No. nil dated 22-07-2020 received on 10-08-2020 addressed to the Chairman, Registration Board wherein M/s Swiss Pharmaceuticals has submitted that due to pandemic of COVID-19 and lockdown situation in Karachi, their staff were not able to attend office and due to this, they were inept to join office to respond your letters. Now we therefore, confirm through this letter to challenge the testing report of Central Drug testing Laboratory, Karachi in Appellate laboratory. Their request for retesting of the said product, which is not within the prescribed period under the law so their request was not acceded.
PSI report in compliance to 287th meeting:
FID inspected M/s. Swiss Pharma dated 01-02-2021 w.r.t. decision of 287th meeting of Registration Board communicated vide letter No. 03-92/2018-QC (287-RB) dated 28-02-2019.
The observation, findings and conclusion of report submitted by FID reproduced as:

"OBSERVATIONS OF CURRENT INSPECTION:
During the current inspection the panel inspected in details the respective production areas and QC Lab. The panel also reviewed in details the following documents.
1. The root cause analysis (RCA) carried out by the firm after failure of the product.
2. The Corrective and preventive action (CAPA) taken to avoid the occurrence and recurrence of such failures in future.

3. Respective utility which might be the possible source of failure.
4. SOP relating to QA and QC system and quality manual were also checked in detail.
FINDING OF THE PANEL:
After thorough inspection, people meet, documents reviewed the panel observed as follows:
1. In compliance to the directions contained in afore-mentioned DRAP Islamabad letter the firm started to investigate the root-cause of the failure against their approved SOP.
2. The firm had found during the detailed RCA that it was propeller/stirrer that was stopped in holding vessel during the filling operation that actually affected in the variation of in potency of the Diagyl Suspension 200mg/5mL, Batch Number 162.
3. After assessing the RCA of the failure the firm had taken CAPA for better product and process performance in the light of their approved SOP for Change Control Management. At present physical indicator with the tank is installed i.e. light system indication with the holding vessel propeller /mixer that indicates any type of malfunctioning propeller/mixer either mechanical or electrical failure during operation. (RCA attached
4. The firm also revised their Sampling procedure c f QA that will indicate any process failure during operation and incorporated in sampling SOP (SOP attached)
5. Re-trained their staff/operator (Training record checked and found satisfactory).
6. During suspension period three trial batches were also manufactured with revised formulation to further assess the product stability during its shelf-life. The respective data was reviewed in detail and found satisfactory results. (Copy annexed)
7. Overall the panel found that necessary RCA has been carried out by the firm and appropriate CAPA have been taken to avoid such failures again. Moreover stability trend of said product also found satisfactory during inspection. The Panel also found GMP conditions appropriate during the inspection.
8. The panel has checked the physical stock of Diagyl Suspension Batch No. 162 and found with the Firm, also the firm is agreed to incinerate the whole batch in the presence of DRAP Representative by third party and will submit the certificate of incineration to the DRAP Office.
Conclusion: Based on the above stated facts the panel concluded that the failure in assay was because of the utility failure and found other documents satisfactory, also firm did not utilize the stock of Diagyl Suspension B# 162 and is agreed to incinerate in the presence of DRAP representative, thus recommends the resumption of production of Diagyl Suspension."

The names provided by FID have been sent to the Division of Drugs Licensing to verify/provide the names for the period of October, 2019 for further processing of the case vide letter F.No.3-59/2018-QC dated 24-07-2020 with subsequent reminders dated 18-08-2020, 21-09-2020, 09-02-2021 and 06-12-2021. After verification of names from Licensing Division, a Show cause has been issued to firm dated 12-04-2022.

M/s. Swiss Pharmaceuticals (Pvt.) Ltd., Karachi replied vide ref no. nil dated 27-04-2022 wherein they requested to include their case in upcoming DRB meeting with PSI report for removal of suspension and approval to resume production as per the Drugs Act, 1976.

Evaluation of case:

Initially one sample was declared as Substandard which was discussed in 287th meeting of Registration Board held on 04-01-2019 where Board decided as under:

I. Submission of product development data by the firm.

II. Product Specific Inspection including verification of product development data by the following panel:

- Director, Drug Testing Laboratory, Karachi.
- Area Federal Inspector of Drugs.

III. Suspension of the Registration of the said product for six (06) months or till the verification of product development data and satisfactory report by the panel whichever is later.

Meanwhile, FID further submitted that he inspected:

1. M/S HANDS PAKISTAN PLOT NO. 158, GADAP ROAD, MALIR KARACHI dated 24-02-2020 and recovered the stocks of Suspension Diagyl (R. No. 020229) for which the registration Board in its 287th meeting had suspended the registration of the said product for six months or till the verification of product development data and satisfactory report by the panel whichever is earlier.

2. Plot No. C-36 SITE-II Super Highway Karachi. The alleged Plot was found owned by M/s Swiss Pharmaceutical (Pvt.) Ltd., and was very adjacent to their registered plot No. A/159 SITE Super Highway Karachi. The said plot is declared as their ware house on Drug Sale license and used for storage of expired goods and same was seen stored there. This plot is connected to their main plot No. A/159 through ill-defined stores where firm had stored some chemicals, packing materials and finished goods. Among the finished good panel found fresh stock of syrup Diagyl, B.No.170 and 171, the registration of which was suspended by the Board.

FID also sampled 03 Batches (167, 170, 171) of Diagyl suspension for test/analysis from above mentioned premises which were also declared Substandard by CDL, Karachi.

The PSI was conducted after 2 years of the decision of Board only for Batch no 162 and panel recommended for resumption despite of that firm has not comply with the decision of Board and manufactured multiple batches of the product after suspension. Further, 03 more batches have been declared Substandard on assay.

The firm representatives have been called for personal hearing.

Proceedings and Decision of 320th Meeting of Registration Board.

No person appeared before the Board on behalf of M/s. Swiss Pharmaceutical (Pvt.) Ltd., Karachi. Therefore, to meet the ends of justice, the Board decided to give one final opportunity of personal hearing to management of M/s. Swiss Pharmaceutical (Pvt.) Ltd., Karachi in its forthcoming meeting.

In view of decision of 320th meeting, they have been called for personal hearing.

Proceedings and Decision of 321st Meeting of Registration Board.

Mr. Huzaifa Umer, Director and Mr. Rashid Mureed, Lawyer appeared before the Board on behalf of M/s. Swiss Pharmaceutical (Pvt.) Ltd., Karachi. They reiterated the same stance submitted earlier. The Board after detailed discussion and thorough deliberations decided:

i. **Cancellation of the Registration of product namely Diagyl Suspension (Registration No. 020229).**
ii. **To prosecute the management of the firm, QCM, Production Manager through M/s Swiss Pharmaceutical (Pvt.) Ltd., Karachi, in the Drug Court, Karachi for manufacturing of substandard products during suspension period.**

Case No. 08: NON-SUBMISSION OF METHOD OF TESTING OF SASTALKA LIQUID BY M/S. SWAT PHARMACEUTICALS, SAIDU SHARIF SWAT

FID I Peshawar has submitted a letter vide No. F. 3-20/2021-DRAP-4842 dated 16-12-2022 wherein he said that he received test report (Form-6) from the Federal Government Analyst, Central Drugs Laboratory with the following remarks;

- Sample could not be tested due to non-receipt of method of testing.

Details are:

Name of Product	Reg No.	Batch No.	Mfg. Date	Exp. Date	Claimed to be manufactured by	Report No. and Date	Remarks of CDL
Sastalka Liquid	003048	L017	06-21	06-23	M/s. Swat Pharmaceuticals, Saidu Sharif Swat.	IP.59/2021 dated 27-08-2021	Sample could not be tested due to non-receipt of method of testing.

FID also seek further course of action in such matters to finalize the case.

The case has been reviewed and a show cause has been issued to M/s. Swat Pharmaceuticals, Saidu Sharif Swat after approval from Chairman, Registration Board to explain the position vide F.No.13-27/2022-QC dated 14-03-2022. No reply received.

Firm has been called for personal hearing.

Proceedings and Decision of 320th Meeting of Registration Board.

No person appeared before the Board on behalf of M/s. Swat Pharmaceuticals, Swat. Therefore, to meet the ends of justice, the Board decided to give one final opportunity of personal hearing to management of M/s. Swat Pharmaceuticals, Swat in its forthcoming meeting.

In view of decision of 320th meeting, they have been called for personal hearing.

Proceedings and Decision of 321st Meeting of Registration Board.

Mr. Fayaz Khan, QC Manager appeared before the Board on behalf of M/s. Swat Pharmaceuticals, Swat. They submitted method of test/analysis of the product before the board.

The Board directed the firm to submit method of analysis to Federal Government Analyst, Central Drugs Laboratory, Karachi and submit a copy along with dispatch receipt to Division of QA&LT, DRAP, Islamabad for record. Furthermore, the Board advised the Federal Government Analyst, Central Drugs Laboratory, Karachi to test the sample within 60 days.

Case No. 09: STOCKS OF DRUGS SEIZED UNDER SECTION 18 (1) OF THE DRUGS ACT, 1976 - M/S, PAK RISEN PHARMACEUTICALS, HATTAR.

FID-I Peshawar vide letter No. F. 3-20/2021-PakRisen-DRAP-3242 dated 12-08-2021 informed regarding the inspection of the firm M/s. Pak Risen Pharmaceuticals, Plot No. 3, Phase-I-II, Industrial Estate, Hattar on 06-08-2021 and has requested for the permission to continue the safe custody of seized stocks till the decision of case.

02. Details of stocks are given as under:

s. No.	Name of item	Reg. No.	B. No.	Mfg. date	Exp. date	Mfg. by	Qty.
1	Pakcezone 250mg inj	040388	DV-2I08	06/21	05/23	M/s Pak Risen Pharmaceuticals, Plot No. 3, Phase I II, Industrial Estate, Hattar.	1 Pack
2	Metrozine 100ml infusion alongwith Original Batch manufacturing record (36 pages)	040412	LV-2125	06/21	05/23	-do-	1 Pack
3	Metrozine 100ml Infusion alongwith Original Batch manufacturing record (36 pages)	040412	LV-21I0	03/21	02/23	-do-	1 Pack

02. The same was granted to FID-I Peshawar vide letter F. No. 13-43/2021-QC dated 21-10-2021. Furthermore, FID I Peshawar was instructed to provide complete investigation of case for further processing of the matter.

03. FID I Peshawar has submitted following reason to declare the sample of product Pakcezone 250 inj and Metrozine 100ml Infusion as misbranded product:

S. No.	Product name	Mfg date	Exp date	Mfg by	Reason to declare subject sample as Misbranded
1	Pakcezone 250mj Injection B. No. DV-2I08	06/21	05/23	M/s Pak Risen Pharmaceuticals, Plot No. 3, Phase I II, Industrial Estate, Hattar.	The product Pakcezone (Reg. No. 040388) is Ceftriaxone 250mg Injection while one side of packing (where MRP & Mfg. License No. is printed) bears Pakcezone Injection as 500mg.
2	Metrorize 100ml Infusion B. No. LV-2125	06/21	05/23	-do-	The batch record and all the documents indicate that product is manufactured in the month of July 2021 as mfg. date. However label bears manufacturing date as 06/2021. The record reveals that preprinted labels with old mfg. date i.e., 06/2021 were used and besides misbranded, its deliberate manipulation of documents and data integrity is deliberately breached.
3	Metrorize 100ml Infusion B. No. LV-2110	03/21	02/23	-do-	The batch record and all the documents indicate that product is manufactured in the month of April 2021 as mfg. date. However, label bears manufacturing date as 03/2021. The record reveals that preprinted labels with old mfg. date i.e., 03/2021 were used and besides misbranded, its deliberate manipulation of documents and data integrity is deliberately breached

03. FID I Peshawar vide letter No. 11-53/2005-PakRisen-DRAP 4690 dated 06-12-2021 submitted the complete case and recommended as under:

"Recommendations

Based on conclusion of the cases vide column 10 above, there is sufficient evidence to believe that the drug product namely;

1. *Packzone 250mg Injection (040388), Batch No. DV-2108 Mfg. date 06/21 and expiry date 05/23*
2. *Metrorize 100ml Infusion (040412), Batch No. LV-2125, Mfg. date 06/21 and expiry date 05/23 &*
3. *Metrorize 100ml Infusion (040412), Batch No. LV-2110, Mfg. date 03/21 and expiry date 02/23*

are misbranded under Section 3 (s)(iv) of the Drugs Act, 1976, prohibited under section 23(a)(iii) and is punishable under section 27(2)(b) of the Drugs Act, 1976 of the DRAP Act, 2012. The case of the firm regarding GMP noncompliance was discussed in 283rd meeting of Central Licensing Board (CLB). The board suspended the production of the firm and constituted three member's panel for the inspection of the firm for rectifications of reported GMP noncompliance (Annex-V). It is proposed that the direction may be issued to the firm for avoiding above referred violations and to submit CAPA in this regard, to be verified by already constituted panel by the CLB n its 283rd Meeting. In case, firm fails to comply and reported by the panel, matter may be treated under the above referred provisions of the Drugs Act, 1976/ DRAP Act, 2012."

04. in the light of investigations of the FID-I Peshawar, show-cause notice was issued accordingly to following:

i) M/s. Pak risen Pharmaceuticals, Plot No. 3, Block B, Phase I-II, Industrial Estate, Hattar through its Proprietor

ii) Sabir Khan S/o Nannay Khan (Proprietor), M/s. Pak risen Pharmaceuticals, Plot No. 3, Block B, Phase I-II, Industrial Estate, Hattar.

05. In response to the show cause notice issued to the management of firm, reply received is given as under:

> *"It is stated with great concern that we have received Show cause NoticefF.No.13-43/2021- QC) on dated 8th Feb 2022 regarding sales of Misbranded Drugs.*
>
> *Dear Sir, we have gone through this case (sample seized by the Honorable FID) in detail and conducted a proper and deep investigation and we found a conclusion that at the time of Honorable FID Sir's inspection the collection of seized sample were done by our store attendant (non technical) as responsible technical persons were accompanying the honorable FID in inspection at that situation of stampede as finished goods store & other storage places & areas were empty (as wittiness by the FID) those samples were collected from controlled shelf of Q.C retain sample room where we use to keep misprinted and faulty/rejected stuff (one sample each) just to study and training of our Q.A/Q.C Staff & Those samples were not to be meant for market dispatch/ For sale by any means at all.*
>
> *The actual position is that the Batch of Pakcezone 250mg Batch # DV-2108 sent to market for sale was truly proof readed and checked and then released. The false/misprinted was caught at the spot and was discrded in the presence of QC staff. The production department was intimated on time.*
>
> *In addition to that in Ser.No.2 & Ser.No.3 Metrorise Case (Batch # LV-2125, LV-2110) we have not increased rather decreased their expiry by one month because of the shortage of labels and extreme demand in market, in effort not to effect market demand (human health) and customer's need for their patients we did So, but honorable FID has recognized us that it's too against the law so, we assure you/him that we will not repeat this practice in future again.*
>
> *Moreover we have written about all the in-questioned (Claimed Misbranded) Products to our sole distributor Lyall Pur Pharma (Detail Enclosed) just on FID's Direction and advice for their recall But we are informed that they have zero stock of these Products.*
>
> *Still we apologizes you for this staff negligence work. We expect and request you for not being harsh and show a kind response please."*

06. The accused are called before the Board for personal hearing.

Proceedings and Decision of 320th meeting:

No person appeared before the Board on behalf of M/s. Pak Risen Pharmaceuticals, Hattar. Therefore, to meet the ends of justice, the Board decided to give one final opportunity of personal hearing to management of M/s. Pak Risen Pharmaceuticals Hattar in its forthcoming meeting.

In view of decision of 320th meeting, they have been called for personal hearing.

Proceedings and Decision of 321st Meeting of Registration Board.

Mr. Shoaib Khan, Admin and Mr. Asif Khan, Production Incharge appeared before the Board on behalf of M/s. Pak Risen Pharmaceuticals, Hattar. They reiterated the same stance submitted earlier and mentioned that their firm is under renovation. The Board after detailed discussion and thorough deliberations decided:

i. **Recommendations to the Central Licensing Board for suspension of sterile area (Dry powder Injection Cephalosporin and Large Volume parenteral) section.**
ii. **Suspension of the Registration of product namely Packzone 250mg Injection (Registration No. 040388) and Metrorize 100ml Infusion (Registration No. 040412) till resumption of production by CLB and submission of Root Cause Analysis and submission of CAPA in QA&LT Division for consideration of Registration Board.**

AGENDA ITEM NO. 02
APPELLATE TESTING CASES

Case No. 10: MANUFACTURE & SALE OF SUB-STANDARD PANTOLOON TABLET, REG. NO. 095091, BATCH NO. 5602 MANUFACTURED BY M/S. ROCK PHARMACEUTICAL LABORATORIES (PVT) LTD., RISALPUR.

2.	Dissolution (Acid Stage)	**Stage 1**: Each unit is not less than Q=%% i.e. 75+5+80%. **Stage 2**: Average of 12 units (S1+S2) is equal to or greater than Q (75%) and no unit is less than Q-15% (75-15=60%). **Stage 3**: Average of 24 units (S1+S2+S3) is equal to or greater than Q (75%). Not more than 2 units are less than Q-15% (75-15=60%) and no unit is less than Q-25% (75-25=50%).	**Stage 1** Tablet no. / (%) age. 1 / 1.01 2 / 1.73 3 / 1.72 4 / 1.72 5 / 2.96 6 / 1.32 **Does not comply.**	USP 43
3.	**Assay** Pantoprazole. (Label Claim 20mg/tablet)	90.0% to 110.0%	107.9% Complies.	USP 43

Remarks: 1) *The sample is of **"Sub-Standard"** quality under the Drugs Act, 1976.*

FID has sent the explanation letter to explain their position dated 20-01-2022 regarding the violation of Drug Act 1976 and DRAP Act 2012.

The firm has submitted their reply dated 25-01-2022, wherein they requesting for retesting of product.

After receiving letter from firm, FID asked the firm to provide data/ information for Appellate testing as per decision of Drugs Registration Board's 313th meeting. The decision of the Board reproduced as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.
ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.
iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case.

Firm submitted the OOS investigation dated 14-03-2022 to FID. CDL submitted the response dated 26-08-2022. The final decision of investigation is OOS valid. The remarks of Lab Manager:

"As the buffer stage results are not within the specification of any three stages of dissolution defined by USP. Hence no need of re-test."

Technical Evaluation of the case:

i. The product is available in USP 43
ii. The product was declared substandard on dissolution.
iii. CDL performed the test as per USP 43 Dissolution Test 1 while firm performed on USP 43 Dissolution Test 2.
iv. The requirement /condition to performed Test 2 is:
"If the product complies with this test, the labelling indicates that the product meets USP Dissolution Test 2."
v. There is no specific test mentioned on certificate of analysis nor on pack of the product. Therefore, as per USP 43, Dissolution Test 1 is performed by CDL.

Proceedings and Decision of 321st Meeting of Registration Board.

The OOS investigations and testing records submitted by M/s. Rock Pharmaceutical Laboratories (Pvt) Ltd., Risalpur and CDL, DRAP Karachi in compliance to decision of 313th meeting of Registration Board was discussed. Registration Board after detailed discussion and considering the facts of the case decided:

> "The sample of Pantoloon Tablets Batch No. 5602 will be sent to appellate lab for dissolution test, on the basis of which the sample was declared as Substandard by CDL, Karachi."

Case No. 11: MANUFACTURE & SALE OF SUB-STANDARD BIOFEN SUSPENSION, REG. NO. 046094, BATCH NO. SP-167, MANUFACTURED BY M/S. BIO-LABS PRIVATE LIMITED, ISLAMABAD.

The Federal Inspector of Drugs-I, DRAP Islamabad sampled Biofen Suspension from the premises of M/s. Bio-Labs Pvt. Ltd. Islamabad dated 03-08-2021. Details are:

Name of Product	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	Remarks of CDL
Biofen Suspension	M/s. Bio-Labs (Private) Limited, Islamabad.	046094	SP-167	06/21	05/23	Substandard on the basis of Bio-Burden.

S.No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Pink coloured suspension in ambered plastic bottles.	Complies.	Mfg. Specs.
2.	Identification	The identification test must identify Ibuprofen.	Complies.	USP 43
3.	**Bio-Burden (TAMC)**	**Not exceed 100 cfu/ml. (General chapter<61>.**	**1.5 x 103 cfu/ml Does not comply.**	**USP 43**
3.	pH	3.6 to 4.6	4.3-Complies	USP 43
4.	**Assay** Ibuprofen. (Label Claim 100mg/5ml)	90.0% to 110.0%	95.7%- Complies.	USP 43

Remarks: *The sample is of **"Sub-Standard"** quality under the Drugs Act, 1976.*

The sample of drugs sent to Government Analyst, CDL for test and analysis on form-4 dated 05-08-2021. Federal Govt. Analyst CDL Karachi vide report No.R.IP.70/2021 dated 06-10-2021 has declared the sample as "Sub-standard.

In the light of above test report of Federal Government Analyst, Central Drugs Laboratory, Karachi, FID directed firm to stop the sale and recall the said drug and explain their position.

M/s. Bio-Labs replied to FID dated 11-11-2021 where in they requested for retesting to Appellate Lab NIH Islamabad.

As per decision of 313th meeting of Registration Board regarding appellate testing, firm and Federal Government Analyst, CDL Karachi has been asked to submit OOS investigation dated 23-12-2021.

M/s. Bio-Labs replied dated 06-01-2022 that no deviation has been observed during the testing of this batch. They mentioned in their OOS investigation report that:

> *"As per investigation of Stage-I and Stage-II and detailed review of BMR, the product is found ok with respect to bioburden test."*

Federal Government Analyst, CDL, Karachi submitted OOS investigation. The result of sample does not comply to the specification. Final decision is OOS is valid.

Firm has directed to submit method of testing and records vide office letter of even number dated 08-09-2022. Firm replied dated 10-09-2022 that they provided SOP for Microbiological limit test and test reports. As per documents submitted by firm, they performed the test by pour plate method and there results were in defined limits.

Technical Evaluation of the case:

7. The product was declared sub-standard on the basis of failure of Bio-Burden (TAMC) results.
8. Firm claimed that they performed Bio-Burden test as per USP and results are as per specification. CDL performed test as per USP 43. The limit of test as per USP is "Not exceed 100 cfu/ml". Result of CDL is 1.5 x 103 cfu/ml.
9. The method is based on visual inspection of the sample

Procedings and Decision of 321st Meeting of Registration Board.

Out of Specification (OOS) investigations and testing records submitted by M/s. Bio-Labs (Private) Limited, Islamabad and CDL, DRAP Karachi was presented before Registration Board. The Board deliberated the case in detail as follows:

i. M/s. M/s. Bio-Labs (Private) Limited, Islamabad requested for Appellate testing. In compliance to the decision of 313th meeting of Registration Board firm and CDL were asked to submit Out of specification (OOS) investigation vide office letter dated 23-12-2021. The firm submitted the response dated 06-01-2022; provided OOS investigation and method of testing dated 08-09-2022. They mentioned that no deviation has been observed during the testing of this batch. While CDL submitted the response dated 15-03-2022 that the result of sample does not comply to the specification. Final decision is OOS is valid.

ii. Review of documents revealed that firm has performed the bioburden test by pour plate method. Moreover, FID mentioned remarks on Form-4 to perform Bioburden of sample.

Decision:

Keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice to M/s. Bio-Labs (Private) Limited, Islamabad on manufacturing and sale of substandard "Biofen Suspension (Reg. No. 046094)" under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug and called them for personal hearing before Registration Board."

Case No. 12: MANUFACTURE & SALE OF SUB-STANDARD MAPARIX INFUSION, REG. NO. 050695, BATCH NO. L-21019 MANUFACTURED BY M/S. S.J.&G. FAZUL ELLAHIE (PVT.) LTD., KARACHI.

The Federal Inspector of Drug Karachi inspected the premises of M/s. National Institute of Child Health (NICH) Rafeeqi Shaheed Road Karachi. on 23-04-2021 wherein the sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3.

S. No.	Name of Drug	Reg; No	Batch No.	Mfg. Date	Exp. Date	Mfg.by	Result of CDL
01	Maparix Infusion (Vancomycin HCL)	050695	L21019	02/2021	11/2022	M/s. S.J&G Fazul Ellahi (Pvt) Ltd, Plot No. E-46, S.I.T.E. Karachi.	Standard

The sealed sample of above drug was sent to Federal Government Analyst, Central Drugs Laboratory, Karachi by FID for the purpose of test/analysis vide memorandum No. NO. DHB-06/2021 to 13/2021-FID-III (K) dated 26th, April, 2021.

Portion of Sealed sample was sent to Chairman, Registration Board, DRAP Islamabad by FID vide office letter of even number dated 26th, April, 2021.

A portion of sealed sample was sent to M/s. S.J&G Fazul Ellahi (Pvt) Ltd, Plot No. E-46, S.I.T.E. Karachi by FID vide office letter of even number dated 26th April 2021.

Pharmacist, National Institute of Child Health, (NICH) Rafeeqi Shaheed Road Karachi vide office letters of even number dated 26th April 2021 was asked by FID to provide bill warranty in connection with the purchase of above said drug.

Pharmacist, National Institute of Child Health, (NICH) Rafeeqi Shaheed Road Karachi vide their letter No.nil dated 07th June 2021 Provided the warranty of M/s. Parras Enterprises Flat No. 08, P.I.A. Shower Land, Block 01, Gulshan-e-Jauhar Karachi. in connection with the purchase of above said drug.

FID vide office letter of even number dated 07th June 2021, was asked M/s. Parras Enterprises Flat No. 08, P.I.A. Shower Land, Block 01, Gulshan-e-Jauhar Karachi. to verify the same and provide subsequent bill warranty in connection with purchase of above said drug.

3.	pH	2.5 to 4.5	2.64-Complies.	USP 43
4.	Bacterial Sterility	Must be sterile.	Complies.	USP 43
5.	Bacterial Endotoxin	NMT 0.33 USP Endotoxin unit/mg of Vancomycin	**Does not comply**	USP 43
6.	Assay Vancomycin (Label claim 500mg/vial)	90.0 to 115.0%	103.7% Complies.	USP 43

Remarks: The sample is of **"Sub-Standard"** quality under the Drugs Act, 1976.

FID issued an explanation letter of even number dated; 11th June 2021 to M/s. S.J&G Fazul Ella1hi (Pvt) Ltd, Plot No. E-46, S.I.T.E. Karachi for explaining their position in the matter of manufacturing/selling of above-mentioned Sub-Standard drug.

M/s. S.J&G Fazul Ellahi (Pvt) Ltd, Plot No. E-46, S.I.T.E. Karachi. vide their letter No. SJG/REG/0858/2021 dated 29th June 2021 requesting for retesting of Drug Maparix Infusion Batch No. L21019 from National Institute of Health (NIH) Islamabad.

FID stated that in the light of above, submission portion of sample lying with the Board may be got retested from Appellate Laboratory National Institute of Health (N.I.H) Islamabad.

In light of Supreme Court judgement of "C.P.1692-L/2020, C.P.1792-L/2020 and C.P.5-L/2021" and firm's request for appellate testing, the case is submitted for consideration of Board.

Proceedings and Decision of 312th Meeting of Registration Board.

The case has been deferred till the finalization of Appellate Testing Guidance Document/Protocol.

The agenda of "Handling requests of Appellate Testing- Guidance document for registration Board" was discussed in 313th meeting of Registration Board. The Board after thorough deliberations and considering the facts of the case decided as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.
ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.
iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case.

OOS investigation was asked by firm and CDL vide office letter dated 23-12-2021.

The firm submitted the response dated 29-12-2021. They provided the SOPs and records but did not provide OOS investigation claiming they did not find any OOS.

CDL submitted the response dated 15-03-2021 wherein they mentioned : OOS is validated.

Technical Evaluation of the case:

- The product was declared sub-standard on the basis of results of Bacterial endotoxin.
- Endotoxin test performed by Gel Clot method both by firm and CDL as given in USP 43.
- The method is based on visual inspection of the sample after incubation for presence of gel or otherwise.

Proceedings and Decision of 317th Meeting of Registration Board.

Out of Specification (OOS) investigations and testing records submitted by M/s. S.J&G Fazul Ellahi (Pvt) Ltd, Karachi and CDL, DRAP Karachi was presented before Registration Board. After thorough deliberations and considering the facts of the case, the Board decided and allowed to perform appellate test/analysis of sample (Maparix Infusion Batch no. L21019) to the extent of only that particular test (Endotoxin test) on basis of which the product was declared sub-standard by CDL, Karachi"

The sample of Maparix Infusion Batch no. L21019 has been sent to NIH as per the Board's decision.

Test report from NIH has been received dated 18-08-2022 with the conclusion:

"The sample is of standard quality on the basis of test performed."

Proceedings and Decision of 321st Meeting of Registration Board.

Report of NIH was presented before the Board. The Board directed QA&LT Division to forward the report to area FID for compliance (if any) and the firm M/s. S.J&G Fazul Ellahi (Pvt) Ltd, Karachi for their record.

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(K)/2021-CDL/S-1468 dated 03-12-2021 it was informed that the sample of product "25% Dextrose Infusion" Batch No. A042C21 (Mfg. date 31-03-2021, Exp date 30-03-2024) sent to CDL Karachi by FID-II Karachi has been declared as of substandard quality on the basis on non-compliance of pH specifications. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Identification	The identification test must identify Glucose (Dextrose)	Complies	BP 2020
2.	pH	3.5 to 6.5	**2.73 – Does not comply**	BP 2020
3.	Bacterial Sterility	Must be sterile	Complies	BP 2020
4.	Endotoxin	The Endotoxin limit concentration is 0.25 IU/ml	Complies	BP 2020
2.	Assay Glucose (Dextrose), (Label claim 250mg/ml)	95.0% to 105.0%	96.80% Complies	BP 2020

02. FID-III Karachi vide letter No. F. ARS-19-25/2021-FID-III (K) dated 28-12-2021 forwarded the request of M/s. Otsuka Pakistan, Hub dated 23-12-2021 for appellate testing of their sample of product namely "25% Dextrsoe Infusion" batch No. A042C21 declared substandard by CDL Karachi on 03-12-2021.

03. It is submitted the Registration Board in its 313th meeting decided as under:

"Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided as:

i. The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.

ii. Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.

iii. Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case."

04. Therefore, in the light of decision of Registration Board, a letter vide No. F. 03-48/2021-QC dated 27-01-2021 was issued to M/s. Otsuka Pakistan, Hub for submission of OOS investigation and complete testing record of the concerned batch of product 25% Dextrose Infusion along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976 and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-1486 dated 03-12-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Otsuka Pakistan Limited, Hub vide letter dated 15-02-2022 and CDL Karachi vide letter No.1-1/2013-SRK/CDL/-1069 dated 15-03-2022 provided OOS investigation. Comparison of the investigation is given as under:

S.	**Laboratory**	**Test Performed**	**Results**	**Standard Value**	**Remarks**
01	CDL Karachi	pH (BP 2020)	2.73	3.5 – 6.5	-
02	M/s Otsuka	pH (BP)	At the time of batch release: 5.38 **Retesting:** Sample 1:- 3.58 Sample 2:- 3.54 Sample 3:- 3.58	-do-	The results of retesting performed by the firm show a decline in pH value from 5.38 to 3.58 over a period on 10 months. Moreover, the value 3.58 is also very close to the lower acceptance criteria i.e. 3.5

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.
In view of decision of 320th meeting, they have been called for personal hearing.

Proceedings and Decision of 321st Meeting of Registration Board.

Out of Specification (OOS) investigations submitted by M/s. Otsuka Pakistan Limited, Hub and CDL, DRAP Karachi was presented before Registration Board. The Board deliberated the case in detail as follows:

i. M/s. Otsuka Pakistan Limited, Hub requested for Appellate testing. In compliance to the decision of 313th meeting of Registration Board firm and CDL were asked to submit Out of specification (OOS) investigation vide office letter dated 27-01-2022. The firm submitted the response dated 15-02-2022 while CDL submitted the response dated 15-03-2022.

ii. Review of documents revealed that the results of retesting performed by the firm show a decline in pH value from 5.38 to 3.58 over a period on 10 months. Moreover, the value 3.58 is also very close to the lower acceptance criteria i.e. 3.5.

Decision:

Keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice to M/s. Otsuka Pakistan, Hub on manufacturing and sale of substandard product "25% Dextrose Infusion" Batch No. A042C21under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Otsuka Pakistan Limited, Hub and called them for personal hearing before Registration Board.

Case No. 14: SUBSTANDARD NYLOZ CAPSULE MANUFACTURED BY M/S. ZEPHYR PHARMATEC (PVT) LTD. KARACHI.

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(K)/2021-CDL/S-870 dated 30-07-2021 wherein it was informed that the sample of product "Nyloz capsule (Esomeprazole 20mg)" Batch No. C01358 (Mfg. date 05-2021, Exp date 04-2023) sent to CDL Karachi by FID-II Karachi has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Hard gelatin capsule consist of yellow coloured body and green coloured cap containing white enteric coated pellets	Complies	Mfg. Specs
2.	Identification	Identification test must identify Esomeprazole Magnesium	Complies	USP 43
3.	Dissolution	Each unit is not less than 80%	Complies	USP 43
4.	Uniformity of dosage units by content uniformity	Acceptanc value of the 30 dosage units is less or equal L1% and no individual content of "any" dosage unit is less than [1-(0.01)(L2)]M not more than [1+(0.01(L2)]M	**L1=22.24 – Does not comply.**	USP 43
5.	**Assay.** Esomeprazole. (Label claim20mg/cap)	90.0% to 110.0%	Complies	USP 43

02. FID-II Karachi vide letter No. F. 000403/2018-FID-II (K) (Zephyr) dated 07-09-2021 forwarded the request of M/s. Zephyr Pharmatec (Pvt.) Ltd., Karachi dated 11-08-2021 for appellate testing of Board's portion of sample of their product namely "Nyloz capsule" batch No. C01358 declared substandard by CDL Karachi on 30-07-2021.

03. It is submitted the Registration Board in its 313th meeting decided as under:

*"**Proceedings and Decision of 313th Meeting of Registration Board.***

The Board after thorough deliberations and considering the facts of the case decided as:

i. *The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.*

ii. *Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.*

iii. *Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case."*

04. Therefore, in the light of decision of Registration Board, a letter vide No. F. 03-28/2021-QC dated 31-12-2022 was issued to M/s. Zephyr Pharmatech Karachi for submission of OOS investigation and complete testing record of the concerned batch of product Nyloz capsule along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976 and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-870 dated 30-07-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Zephyr Pharmaceuticals Karachi vide letter ZP/0398/2022 dated 05-01-2022 provided the OOS investigation report. On technical evaluation of CDL Karachi OOS investigation report and OOS investigation report provided by manufacturer it was observed that both have performed the content uniformity test according to USP 43 specifications. However, the manufacturer claims the product to be of standard quality while CDL Karachi has reported the product to be substandard.

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

Out of Specification (OOS) investigations submitted by M/s. Zephyr Pharmaceuticals Karachi and CDL, DRAP Karachi was presented before Registration Board. The Board after discussion and considering the facts of the case and nature of test failed, decided as follows:

"Not to accede the firm's request of appellate testing and issue show cause notice to M/s. Zephyr Pharmaceuticals Karachi on manufacturing and sale of substandard product "Nyloz capsule (Esomeprazole 20mg)" Batch No. C01358 under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug and called them for personal hearing before Registration Board."

Case No. 15: SUBSTANDARD DELMOL SUSPENSION MANUFACTURED BY M/S. DELTA PHARMA (PVT.) LTD., NOWSHERA.

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(P)/2021-CDL/S-967 dated 17-08-2021 wherein it was informed that the sample of product "Delmol Suspension (Paracetamol 120mg/5ml)" Batch No. 151 (Mfg. date 05-2021, Exp date 05-2023) sent to CDL Karachi by FID-I Peshawar has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Pink colored suspension in amber color glass bottle	Complies	Mfg. specs
2.	Identification	The identification test must identify Acetaminophen (Paracetamol)	Complies	USP 43
3.	pH	4.0 to 6.9	Complies	USP 43
4.	**Assay** Acetaminophen (Paracetamol) (Label claim 120mg/5ml)	90.0% to 110.0%	**74.1% - Does not comply**	USP 43

02. FID-II Karachi vide letter No. F. 10-7/2021-Delta-DRAP-3665 dated 21-09-2021 forwarded the request of M/s. Delta Pharma (Pvt.) Ltd., Nowshera dated 27-08-2021 for appellate testing of Board's portion of sample of their product namely "Delmol suspension" batch No. 151 declared substandard by CDL Karachi on 17-08-2021.

03. It is submitted the Registration Board in its 313th meeting decided as under:

"Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided as:

i. *The firm will provide OOS investigation and complete testing record of the concerned batch along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976.*

ii. *Federal Government Analyst, Karachi will provide OOS investigation and complete testing record of such reports.*

iii. *Registration Board advised QA&LT Division to present all cases of Appellate Testing with these both set of documents along with technical report of the case."*

04. Therefore, in the light of decision of Registration Board, a letter vide No. F. 03-32/2021-QC dated 22-12-2022 was issued to M/s. Delta Pharma (Pvt.) Ltd., Nowshera for submission of OOS investigation and complete testing record of the concerned batch of product Delmol suspension along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976 and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-870 dated 30-07-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Delta Pharma Nowshera vide letter No. 22/DP/2021 dated 22-12-2021 provided OOS investigation report wherein they provided a non-pharmacopeial UV Photometric test report, manufacturing process of product and sample preparation method for test/analysis. Moreover, the report provided was not a controlled document and no reference for testing method were provided.

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Procedings and Decision of 321st Meeting of Registration Board.

Out of Specification (OOS) investigations submitted by M/s. Delta Pharma Nowshera and CDL, DRAP Karachi was presented before Registration Board. The Board deliberated the case in detail as follows:

i. M/s. Delta Pharma Nowshera requested for Appellate testing. In compliance to the decision of 313th meeting of Registration Board firm and CDL were asked to submit Out of specification (OOS) investigation vide office letter dated 30-07-2021. The firm submitted the response dated 22-12-2021 and CDL submitted their response.

ii. Review of documents revealed that firm was performed the assay test on non-pharmacopeial method while CDL performed as per USP 43.

Decision:

"Keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice to M/s. Delta Pharma Nowshera on manufacturing and sale of substandard product "Delmol Suspension (Paracetamol 120mg/5ml)" Batch No. 151 under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug and called them for personal hearing before Registration Board."

Note:- The product is included in USP 32 now; therefore, PharmEvo Specs. Should be removed as printed on the label.

Remarks: *The sample is **"Sub-Standard"** under the Drugs Act, 1976.*

FID has been asked to submit complete case vide office letter of even number dated 04-05-2021. The recall alert to manufacturer issued dated 04-05-2021.

M/s. PharmEvo (Private) Limited, Karachi submitted that the product is registered with Manufacturer Specification (MS) while CDL declared the product as of substandard quality on USP specification. They further said that as DRAP has under circular no. F.3-5/2020-I&VII (M-297) dated 27-01-2021; the board allowed 6-month time for implementation of the decision. They also requested to withdrawn the Drug recall from website of DRAP.

Registration division confirmed that product is registered on MS and renewed on 06-08-2020. Firm has not applied for change of specification of subject drug till date. Further, Firm has been manufacturing product under consideration with manufacturer's specification despite of inclusion of said formulation in USP which is against the decision of Registration Board and Central Licensing Board communicated vide letter no. F.3-2/2006-Reg-II-South (M-197) dated 05-06-2006 where in it was decided that firms may adopt their own specifications for the drugs which are not included in the official Pharmacopeias, till the inclusion of these formulations in the official pharmacopeias listed in Section-3 of Drug Act 1976. Furthermore, letter No.F.3-5/2020-I&VII(M-297) dated 27-01-2021 is issued in the context of labeling of specification due to which DTLs/QCLs declaring the products as "Misbranded" after deliberations/ discussion regarding the matter and does not apply if product is declared as Sub-Standard on being tested on official Pharmacopeia.

A letter has been issued to firm w.r.t. above decisions dated 02-08-2022.

M/s. PharmEvo Private Limited, Karachi submitted their reply in response to office letter dated 02-08-2021 wherein firm has mentioned that:

"The instructions of MOH/DRAP with regards to pharmacopoeial specifications stand suspended and have been held in abeyance by DRAP till January 26, 2022 vide notification circular No. F.3-5/2020-I&VII (M-297) dated 26-07-2021."

They further requested to withdraw the Medical product alert from DRAP website.

FID, DRAP, Karachi submitted the case details and recommended that:

> "As per Federal Government Analyst, CDL Karachi test report No KQ-57/2021 dated 20-04-2021, M/s. PharmEvo Private Limited, Karachi violated the Section 23(1)(a)(v) of the Drugs Act 1976 and rules framed there under."

The case has been submitted for consideration in light of above-mentioned decision of Registration Board.

Proceedings and Decision of 317th Meeting of Registration Board

Registration Board deferred the case and directed to present with the registration status of the product i.e. Klevra Oral Solution (Registration No. 066831) including approved specification of finished product for consideration of firm's request in next meeting.

Registration status was asked from Registration Division and following points have been revealed:

- The product was initially registered with the name of Equip Oral Solution Reg No. 066831vide letter No.F.3-6/2010 Reg-II (M-227) dated 08-10-2010 in name of M/s PharmEvo Pvt Limited Karachi.
- The brand name was changed to Klevera Oral Solution vide letter No.F.6-1/2011-Reg-II dated 10-02-2011.
- The finished product specifications of "Klevra Oral Solution" were changed from "Manufacturer's Specification" to "USP Specification" vide approval issued dated 19-11-2021

- The renewal for year 2015 was received on 19.08.2015 and for year 2020 was received on 06.08.2020. Both of aforesaid renewals are within time w.r.t date of registration.

Decision of 320th meeting of Registration Board

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

The Registration Board after discussion and by considering the facts of the case decided to issue show cause notice to M/s. PharmEvo Private Limited, Karachi on manufacturing and sale of substandard product "Klevra Oral Solution" under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug and called them for personal hearing before Registration Board.

Case No. 17: MANUFACTURE & SALE OF SUB-STANDARD MELOVETZ INJECTION, REG. NO. 102021, BATCH NO. 2199017 MANUFACTURED BY M/S. VETZ PHAARMACEUTICALS (PVT.) LTD., KOTRI,

The Federal Government Analyst, Central Drugs Laboratory, Karachi declared the above said sample as "Sub-Standard" quality under the Drugs Act 1976 vide their test report No.KQ.161/2021 dated 27-07-2021**.**

Results of CDL on the basis of which sample under reference has been declared as Sub-Standard quality are reproduced as under:-

S.No.	Test	Specification	Result	Reference
1	**Description**	Yellow colored oily solution in ambered glass vial.	Complies	BP Vet. 2020
2	**Identification**	The identification test must identify Meloxicam.	Complies	BP Vet. 2020
3	**pH**	7.5 to 9.1	**13.45%** **``Does not Comply.**	BP Vet. 2020
4	**Assay** Meloxicam (Lebel claim 10mg/ml)	95.0% to 105.0%	99.8%-Complies	BP Vet. 2020

Remarks: The sample is **"Sub-Standard"** quality under the Drugs Act, 1976.

FID sent an explanation letter of even number dated 03rd August 2021 to M/s. Vetz Pharmaceuticals (Pvt) Ltd., Q-1, S.I.T.E, Kotri, Sindh for explain their position in the matter of manufacturing/selling of above-mentioned Sub-Standard drug. M/s Vetz Pharmaceuticals (Pvt) Ltd:, Q-1, S.I.T.E, Kotri, Sindh vide their letter No.Ref-DV- 002dated 16th August 2021 explain their position.

FID submitted that in the light of Federal Government Analyst, CDL, Karachi test report No.KQ.161/2021 dated 27th July 2021 M/s Vetz Pharmaceuticals (Pvt) Ltd:, Q-1, S.I.T.E, Kotri, Sindh involved in manufacturing & selling of Substandard drug Melovetz 10 Injection batch No.2199017 and violated the section 23(1)(a)(v) of the Drugs Act 1976 and rules framed thereunder.

FID recommended action under section 42 of the Drugs Act 1976; reproduced as: -

> "Where any person has been found to have contravened any of the provisions of this Act, or the rules in respect of any registered drug, the registration Board may, after

giving such person an opportunity of being heard, cancel the registration of such drug or suspend such registration for a specified period"

The firm submitted recall log which was sent to area FID for verification and reconcillation of stock. FID submitted the response dated 02-12-2021 where in he verified the stock i.e. 16 cartons each containing 120 injections corresponded to 1920 total quantity as mentioned in reconciliation form by firm.

FID submitted the names of responsible persons dated 20-01-2022 along with the reply of firm dated 10-08-2021 where in firm has mentioned that their product has in-house specifications while CDL test on pharmacopeial specification. The firm submitted to check their product by the method provided by manufacturer.

In view of firm's request of appellate testing and notification issued by Registration Division on subject "Compliance with Pharmacopial Specification" dated 07-02-2022, the case is submitted for consideration of Board.

Proceedings and Decision of 317th Meeting of Registration Board

Registration Board deferred the case and directed to present with the registration status of the product i.e. Melovetz 10 Injection (Registration No. 102021) including approved specification of finished product for consideration of firm's request in next meeting.

Registration status was asked from Registration Division and following points have been revealed:

- The product was registered with the name of Melovetz 10 Injection, Registration No. 102021vide letter No.F.7-1/2020-I&V-I (M-293) (Vet) dated 30-04-2020 in name of M/s Vetz Pharmaceuticals (Private) Limited, Kotri, Sindh.
- The finished product specifications of "Melovetz 10 Injection" are Innovator's Specification.
- Further registration letter condition xv shows that: "The innovator's specifications, however, are valid only till inclusion of the product in the official pharmacopoeia of reference countries as specified by the Registration Board"
- Since the product is available in official pharmacopoeia i.e. BP 2020, the tests performed as per BP 2020 by CDL Karachi.

Decision of 320th meeting of Registration Board

The case has been deferred due to paucity of time.

18. Moreover, FID-IV Karachi has submitted report in compliance to the decision of Board. Details of proceedings of inspection area given under:

"Focus of inspection:

Risk based product specific inspection in compliance to DRAP, Islamabad letter No. F. 4-18/2006-QA dated 30th June, 2021.

Proceedings of current inspection:

The panel during the inspection reviewed the available documents of the product Batch in question and interviewed the technical staff. Related documents and traceability was established with the log books and the practices being followed in manufacturing and testing of the product.

Production Premises:

Firm has provided properly maintained visitors change room, male and females staff change room along with a buffer before entrance into the production premises. Material receiving bays, quarantine area, storage, dispensing areas were visited and their log documents were reviewed at the work stations.

Quality Control Laboratory

The laboratory is equipped with necessary equipments for carrying out test/ analysis of the focused Dosage form i.e. Tablet. Hardness tester, Disintegration apparatus, dissolution apparatus, analytical weighing Balance, pH meter, UV-Spectrophotometer, HPLC and other facilitating equipments required for test/ analysis of the product were seen available and utilized for investigation at time of inspection.

Quality Assurance/ Documentation System:

Firm has basic documentation system in place. Batch Manufacturing record of the product and batch in question was reviewed and it reveals that most parameters are not defined in details although followed/ are in practice.

Technical Areas:

The HVAC units of this section are placed on the rooftop. Since, production in this section is suspended therefore, was not in operation at the time of inspection, However, supply and exit ducts were seen properly installed.

Observations/ Findings:

Process validation and stability, studies as per requirements were not satisfactory.

Recommendation and Conclusion:

Based on the areas visited, processes reviewed and technical people interviewed, the panel is of the view to recommend resumption of suspension of product "Temprin 500mg" subjected to submission and verification of process re-validation studies and stability data of 3 Batches upon resumption of production by the area FID."

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

The Registration Board deferred the case for further deliberation in next meeting.

Case No. 22: CASE REFERED BY PQCB, PUNJAB REGARDING REGULATORY METHOD OF ANALYSIS OF HEMOROSE-F TABLETS SUBMITTED BY M/S NEOMEDIX PHARMA.

01. The Secretary, Provincial Quality Control Board, Punjab vide reference No. PQCB/F-Isu-Bwp-05/06/19 dated 20-02-2019 has informed that Director DTL Faisalabad vide letter no. 8054/DTL/FSD dated 26-01-2019 stated that the lab has received sample of Tab. Hemorose-F (iron polymaltose complex + Folic acid) manufactured by M/S Neomedix bearing batch No. 484 from Drug Inspector Aziz Bhatti Shaheed Teaching Hospital Gujrat on 27-12-2018.

02. That requests for the provision of method was sent to manufacturer vide letter no. 6007/DTL/FSD dated 29-12-2018 and 23-01-2019 respectively. The method of analysis was found to be not workable for folic acid as the mentioned concentration (0.00007 mg/ml) for both sample and standard was below the limit of identification and quantification on UV at 280nm.

PROCEEDINGS AND DECISION:

03. Subject issue was considered by the Committee of the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 6th meeting held on 20-02-2019. Secretary PQCB apprised the Committee about background of the subject matter which was discussed at length and directed Drugs Testing Laboratory, Faisalabad to file the above-mentioned case. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specification and method of analysis to the Government analyst/Drug Testing Laboratories. The need for product specifications /method of analysis becomes more critical when the drug is not available in official pharmacopoeias and/or the manufacturer has its own customized specifications/method for analysis. In such circumstances it becomes quite challenging and almost impossible for a Government Analyst to conduct testing of the drug sample on such method provided by the firm on which sample as well as standard is not responding. The Board expressed its serious concerns over casual behavior on the part of the firms in this regard.

04. The Committee after due discussion and deliberation unanimously decided to recommend DRAP for the cancellation of registration of the above-mentioned product as the manufacturer ignored the dissolution criteria of the official monograph and also provided a method to the Govt. Analyst which is full of mistakes.

Proceeding and Decision of 291st meeting of Registration Board.

05. The case was presented before the Registration Board in its 291st meeting held on 04th September, 2019 and the Board after detailed discussion decided as under:

"To issue the show cause notice and personal hearing to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Lahore. You failed to fulfill the condition of registration as prescribed under the rules because the method of test/analysis method provided by you was non responsive for test analysis of Folic acid and is defective. (The method of analysis was found to be not workable for folic acid as the mentioned concentration (0.00007 mg/ml) for both sample and standard was below the limit of identification and quantification on UV at 280nm.). You are required to explain your position that why the registration of your product i.e. Tab. Hemorose-F (iron polymaltose complex + Folic acid) should not be suspended/cancelled."

06. Show cause notice was served to the firm as per decision of the Registration Board vide No.F.03-41/2019-QC (291st RB) dated 25-10-2019.

07. M/s Neomedix Pharma, Islamabad submitted their reply vide reference No. nil dated 06-11-2019 addressed to the Secretary, Registration Board regarding the subject of RE: Letter No.03-41/2019-QC Dated 25th October, 2019 wherein they have stated that "we would like to thank you for offering us the opportunity to be heard in person. Kindly give us a suitable date and time so we pay appear to your kind office and explain our case in detail."

Proceedings of 293rd meeting of the Registration Board.

08. Malik Shahid GM, (37405-4576435-1) and Ghulam of M/s Neomedix Pharma appeared on behalf of M/s Neomedix Pharma for instant case and stated that Quality Control Manager of the firm at that time submitted the method of analysis to the Provincial Quality Control Board which was not was not working/responding. Later on they submitted a new & validated method to the Provincial Quality Control Board but they told that it's too late now.

Decision of 293rd meeting of Registration Board.

09. Registration Board in its 293rd meeting after detailed discussion decided as under:

i. Suspension of the Registration of the said product for six (06) months or till the verification of root cause analysis, Corrective and preventive action (CAPA) by the firm, product development data and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.
   - Dr. Qurban Ali, Member Registration Board
   - Area Federal Inspector of Drugs.
   - Mr. Haseeb Tariq AD PEC

10. The decision of the Board was communicated to the panel vide letter No. 03-65/219-QC-(293rd RB) dated 21-04-2020 wherein the Federal Inspector of Drugs-II Islamabad submitted as under:

"Kindly refer to the subject cited above and letter No.03-65/2019-QC- (293rd RB) dated 21-04-2020. It is submitted that a panel comprising of following members namely Dr. Qurban Ali Member Registration Board area FID and Mr. Haseeb Tariq AD, PEC was constituted with a direction to area FID-II implement the decision of the in letter in spirit and delivery of letter to the firm.

02. The letter has been delivered to the firm and case was discussed with members of the panel who opined that if the firm provides the CAPA then inspection may not be necessary. The firm on 07-08-2020 provided a CAPA report along with all Batch history of batch No. 484 in 2018 and 2020 and same has been forwarded to members with the points raised for PSI. The firm complied with the documentary evidence of CAPA and batch record. The members of the panel in consonance with the member registration Board (Dr. Qurban Ali). The panel in the light of evaluation of submitted documents (CAPA) by the firm is of opinion that the inspection may not be necessary for the said product. The same copy of the CAPA has already been submitted AD QC-II. The firm provided the report (BMR) and the test analysis reports dated May 2020 July 2020 same has been provided and sent to the members for perusal and directions. No directions/comments received from the members so letter is being sent to the Secretary Registration Board for record please."

11. In the above-mentioned reply, FID-II Islamabad has stated that the firm submitted CAPA to the panel members. The panel members were of opinion that in the light of submitted CAPA, the inspection may not be necessary.

12. Contrary to the statement of FID-II Islamabad, no such reply/comment/consonance has been received from the other panel members and also as per available record in the section no CAPA has been received from neither the firm nor FID-II Islamabad.

13. FID-II Islamabad vide letter No. F. 03-13/2005-FID-I(Isd) dated 14-06-2021 submitted the request of firm for resumption of production as under:

"In continuation of this office letter of even No. dated 20th August 2020 (Copy enclosed). The subject matter has been discussed with the members of panel, regarding the product namely Hemorose-F Tablet which had been suspended since more than six months as per decision of Registration Board taken before in its 293rd meeting held on 06-08th January 2020 (Copy enclosed). The firm had not manufactured the subject product since more than six months (copy enclosed).

02. In view of directions of the Registration Board the firm had complied with the decision of the Board and now requesting for resumption of production of Hemorose-F Tablet (Copy enclosed) which had been suspended. The panel members had also been kept on Board and agreed to the decision/ directions of Registration Board."

Proceedings and Decision of 312th meeting:

14. The Board after thorough deliberations and considering the reply of area Federal Inspector of Drugs discussed the matter with the other panel members i.e. Dr. Qurban Ali and Mr. Haseeb Tariq. Both members were unaware of such communication as stated by area Federal Inspector of Drugs. The Board showed serious concern over the reply of area Federal Inspector of Drugs and decided as under:

i. Suspension of the Registration of the said product till the verification of root cause analysis, Corrective and preventive action (CAPA) by the firm, product development data and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.
    a. Dr. Qurban Ali, Member Registration Board
    b. Ms. Mehwish Tanveer, Assistant Director QA&LT
    c. Mr. Haseeb Tariq Assistant Director PEC

ii. Refer the case to Chief Executive Officer DRAP for taking disciplinary action against the area FID Islamabad for not complying Registration Board directions and mis-quoting other members of Registration Board.

15. In compliance to the decision of Registration Board, panel mentioned in para. 14 (i) visited the premises of M/s. Neomedix Pharmaceuticals Islamabad on 06-04-2022 for the purpose of verification of Root cause analysis, Corrective and preventatinve action and product development data for Hemorose-F tablet. Details of report as under:

"DETAILS OF INSPECTION

The firm was informed about the schedule of the inspection vide letter No. F. 15-1/2022-PRC dated 1st April 2022 by Assistant Director (PEC-III) after coordination with other panel members.

The panel visited the factory premises of M/s Neomedix located at Plot No. 05, N/5 National Industrial Zone, Islamabad on 06-04-2022. The following representatives / management of the firm were present at the premises:

1. *Mr. Faisal Muzamal (Partner)*
2. *Mr. Syed Talib Hussain Hashmi (Partner)*
3. *Ghulam Ghaus (QC Manager)*
4. *Muhammad Shoaib (Production Manager)*

The management of the firm informed the panel that they have recently purchased this unit and applied for change of management in Licensing Division DRAP in January 2022. The management informed that they have not yet got the complete possession of this unit and therefore no production activities are carried out. The firm also presented copy of letter for change of management of M/s Neomedix dated 4th July 2022 submitted to the Secretary Licensing Board (Annexure-I). The management further informed that since they have recently purchased the unit therefore they have not completed Root Cause Analysis, Corrective and Preventive Action (CAPA) and product development data for Hemorose-F tablets.

The management submitted a written request for provision of some time for performing Root Cause Analysis, Corrective and Preventive Action (CAPA) and product development data for Hemorose-F tablets (Annexure-II). The written request of the firm is as below:

Dear sir,

Referring to your letter No. F.15-1/2022-PEC dated 1st April 2022 and visit of inspection panel on 6th April, 2022, it is submitted that we have purchased this premises and submitted the letter of change of management in Licensing Division DRAP, in first week of January (Letter attached) and according to agreement, we will get complete possession of Neomedix in May 2022.

It is submitted that due to change of management and that till date we have not received full possession of premises, we have not completed Root Cause Analysis, CAPA and product development.

Kindly grant us 90 days after the full possession, so we could complete RCA, CAPA and product development in a better way.

Thanks and best regards,

For Neomedix,

Faisal Muzamal *Syed Talib Hussain*

(Partner) *(Partner)*

The management of the firm showed positive attitude for performing Root Cause Analysis, Corrective and Preventive Action (CAPA) and product development data for Hemorose-F tablets. The request of the firm is submitted for consideration by the Registration Board."

16. Proceedings and Decision of 317th Meeting of Registration Board.

Registration Board after thorough discussion and deliberations and considering the report of PSI and firm's request decided to advise panel for inspection of the firm in June 2022 for verification of CAPA and submit a report for consideration of the Board.

17. In compliance to the decision of the Board, the panel once again visited M/s Neomedix Pharma, Islamabad and submitted the report as under:

"DETAIL OF INSPECTION

The panel visited the factory premises of M/s Neomedix located at Plot No. 05, N/5 National Industrial Zone, Islamabad on 30-06-2022. The following representatives / management of the firm were present at the premises:

1. *Mr. Faisal Muzamal (Partner)*
2. *Mr. Syed Talib Hussain Hashmi (Partner)*
3. *Ghulam Ghaus (QC Manager)*
4. *Muhammad Shoaib (Production Manager)*
5. *Tauqeer Zehra (QA Manager)*

The management of the firm informed the panel that they have not yet conducted the Root Cause Analysis, Corrective and Preventive Action (CAPA) and performed product development and stability studies, because they have got the complete possession in May 2022 and afterwards they have started to upgrade the QC lab and have placed an order for the purchase of new HPLC system. The firm's management informed that they have received HPLC which needs commissioning and training which may take 15 days, after which they will perform product development studies.

Since the firm had not yet conducted the Root Cause Analysis, Corrective and Preventive Action (CAPA), product development and stability studies therefore the panel could not verify any performance of above stated studies."

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

The Registration Board after discussion, considering the facts of the case decided:

"To issue show cause notice to M/s. Neomedix Pharma, National Industrial Zone, Rawat under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug and called them for personal hearing before Registration."

Case No. 23: NOT TO DISPOSE OF UNDER SECTION 18(1)(I) OF DRUGS ACT, 1976 – M/S. HAWK BIO PHARMACEUTICALS PVT LTD, PLOT NO.10, STREET NO. S-6, NATIONAL INDUSTRIAL ESTATE, RCCI RAWAT.

01. 6. Submitted for perusal under Section 19(7) to the competent authority as desired, please."

03. The case was presented before the Board in its **297th meeting** wherein it was decided as under:

"The Board after detailed deliberations and considering the facts of the case decided to issue show cause notice for cancelation/suspension of products to the accused."

04. In compliance to the decision of Registration Board, the accused was issued a show-cause notice vide No. F. 03-56/2021-QC (Pt-I) (297-RB) dated 05-04-2021. The accused has replied vide ref. No. HBP 4 / 2021 dated 15-04-2021 which is given as under:

"This refer to your letter no. F.03-56/2021-QC(Pt-I) (297-RB) dated April 05,2021 via ums services, which we received on dated April 12,2021 on Subject cited above.

- *Please provide us an opportunity to be heard in person in response to above show cause notice.*
- *We want to submit justification / clarification in person."*

05. Keeping in view of above-mentioned reply, the representatives of the firm are called before the Board for personal hearing.

06. Proceedings and decision of 307th meeting of Registration Board:

Dr. Javed Saeed (CEO M/s. Hawk Bio Pharma, Islamabad) along with QC Manager, Mr. Ajmal and Production Manager, Mr. Zia Hussain appeared before the Board for Personal hearing. They pleaded that they have submitted evidence to FID that their imports were done as per legal procedures. They submitted a written reply and supporting documents. The Board after considering the facts of the case and thorough deliberations decided as follows:

i. Refer the case back to area FID for complete investigation.
ii. Suspend all registered products of the firm (as identified by area FID) that were manufactured by the raw materials in question.

07. In compliance to the decision of 307th meeting of the Registration Board, letter vide No. No.F.03-15/2021-QC (307-RB) (Pt-I) dated 03-08-2021 was issued to M/s. Hawk Bio Pharma Islamabad and area FID Islamabad for submission of complete investigation report. Area FID Islamabad vide letter No. F. 2-10/2011-FID-II (ISD) dated 05-01-2021 submitted as under:

*"The then FID-III inspected the premises of M/s Hawk Bio Pharmaceuticals (Pvt) Ltd, Plot No.10, S-6, NIZ, RCCI Rawat, Islamabad on 10th October, 2019. During inspection following drugs/materials were present in warehouse/RMS of the firm's premises. FID when asked about import authorization/clearance documents of these materials, the firm could not provide the same. The FID hence on contravention of DRAP Act, 2012 under Drug Act, 1976 and rules framed thereunder ordered Not to dispose of these materials under section schedule –V Section (1)(i) of DRAP Act, 2012 read with section (18)(1)(i) of the Drugs Act, 1976 (**Annex-A**).*

S.#	***Name of Drug***	***Batch & Quantity***	***Manufacturer***	***Reason***
1	*Invermectin*	*201808021 1.7Kg*	*Unknown*	*The firm's management is unable to provide the import authorization/ clearance documents*

				of material issued by (I&E) DRAP.
2	*Bismuth Subnitrate*	*19030211 4.1Kg.*	*-do-*	*-do-*
3	*Ferrous Sulphate*	*00118-060 22.250Kg*	*-do-*	*-do-*

7	*Manganese Sulphate*	*10819-019 2.4Kg*	*-do-*	*-do-*

*2. The case was submitted for the grant of permission for extension in period of ordered not to dispose of under schedule–V Section (1)(i) of DRAP Act, 2012 read with section (18)(1)(i) of the Drugs Act, 1976. The necessary approval of the competent forum regarding extension for further period under clause (i) of section (1) of schedule (V) read with section (18)(1)(i) of the Drug Act, 1976 was granted till 09th January 2020 and conveyed vide letter No. 13-195/2019-QC dated 30-12-2019 (**Annex-B**).*

*3. M/s Hawk Bio Pharmaceuticals (Pvt) Ltd, Plot No.10, S-6, NIZ, RCCI Rawat, Islamabad was directed vide letter of even number dated 14-10-2019, subsequent reminder dated 02-01-2020 under drugs Act, 1976 and rules framed there under, as required under section 32(3)(b)(i)(ii) of Drug Act, 1976 under DRAP Act, 2012 for the provision of following **(Annex-C).***

i. Import document.
ii. Clearance of Assistant Director I&E.
iii. Import License &
iv. Record about source of import including test analysis.

*4. M/s Hawk Bio Pharmaceuticals (Pvt) Ltd, Plot No.10, S-6, NIZ, RCCI Rawat, Islamabad submitted on 10.01.2020 that they purchased quantity of 2 Kg of Ivermectin and 25 Kg of Bismuth subnitrate from local market to fulfill some urgent supply and presented their or clarification about other drugs (**Annexed-D**).*

5. While investigation, the firm failed to provide any evidence regarding quires mentioned in the para 3/N hence the firm contravened Section 23(1)(d)(e)read with Section 27(1) (C) and 27(4) of the Drug act, 1976 and rule 7 & 15(1) of drug import and Export Rules, 1976. Following persons were involved in the said contravention and following actions were purposed:-

i. Prosecution in the Drug Court.
ii. Cancellation/ suspension of registration of all the product where the said illegal raw material used.
iii. Cancellation/ suspension of DML of all the sections where the said illegal raw material used.

S.#	***Name***	***CNIC#***	***Designation***
1	*Dr. Javed Saeed*	*37405-0357375-7*	*Chief Executive of the firm.*
2	*Mr. Zia Hussain*	*37406-5184938-7*	*Production incharge.*
3	*Mr. Ajmal Zaman*	*37405-0438707-1*	*QC incharge.*

6 The case was presented before the Board in its 297th meeting, wherein it was decided as under:

"The Board after detailed deliberations and considering the facts of the case decided to issue show cause notice on violation of Rule 7 and 15(1) of Drug (Import &Export) Rules, 1976 relevant provision of law for cancelation/suspension of products."

7. In compliance to the decision of Registration Board, the accused was issued a show-cause notice vide No. F.03-56/2021-QC (pt-I) (297-RB) dated 05-04-2021. In response, the accused replied vide reference No. HBP 4/2021 dated 15.04.2021 which is given as under:

"This refer to your letter no. F.03-56/2021-QC (Pt-I) (297-RB) dated April 05,2021 via ums services which was received on dated April 12,2021.

- *Please provide us an opportunity to be heard in person in response to above show cause notice.*
- *We want to submit justification/clarification in person"*

8. Keeping in view of above-mentioned reply, the representatives of the firm were called before the Registration Board in its 307th meeting of Registration Board on 10.06.2021 for personal hearing. The proceedings and decision of 307th meeting of Registration Board was as under:

"Dr. Javed Saeed (CEO M/s. Hawk Bio Pharma, Islamabad) along with QC Manager, Mr. Ajmal and Production Manager, Mr. Zia Hussain appeared before the Board for Personal hearing. They pleaded that they have submitted evidence to FID that their imports were done as per legal procedures. They submitted a written reply and supporting documents. The Board after considering the facts of the case and after thorough deliberations decided as follows:

i. Refer the case back to area FID for complete investigation.
ii. Suspend all registered products of the firm (as identified by area FID) that were manufactured by the raw materials in question.

10. In response to the decision of Registration Board taken in it's 307th meeting, the firm was called for investigation of case.

Investigation of Case:

The firm was asked to submit the evidence of loan & proof of import clearance by DRAP. In response they submitted the loan request applications alongwith inward, outward Gate Pass & GRN of Ivermectin & Bismuth Subnitrate alongwith import clearance documents & COAs of both loaned & self-imported materials ***(Annex-E)****. However, they could not provide the evidence of import of loaned material of Bismuth subnitrate. For which they have submitted that since they loaned it from M/s Mansoor Chemicals, Karachi who have informed them the given material was expired during 2020. Hence, they have disposed off the documents after expiry period* ***(Annex-F)****. Regarding Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Magnesium Sulphate and Manganese Sulphate, they have submitted clarification that these are considered as excipients. Hence no need of import authorization required. They have further informed that all the materials (except Magnesium Sulphate) have now been expired as details mentioned on COAs as per following details and they have hence requested for destruction of materials since the materials have been expired now and they shall be careful in future* ***(Annex-G)****:*

S.#	***Name of Drug***	***Batch & Quantity***	***Date of Expiry (As mentioned on COA)***	***Manufacturer***
1.	*Invermectin*	*201808021 1.7Kg*	*17th August 2020*	*Unknown*
2.	*Bismuth Subnitrate*	*19030211 4.1Kg.*	*27th October 2020*	*-do-*
3.	*Ferrous Sulphate*	*00118-060 22.250Kg*	*12th April 2018*	*-do-*
4.	*Copper Sulphate*	*RLFX-873-18*	*11th November 2020*	*-do-*

		19.90Kg		
5.	*Zinc Sulphate*	*JXBHB2019-014 17.7Kg*	*11th January 2021*	*-do-*
6.	*Magnesium Sulphate*	*Not mentioned on COA 50Kg*	*Not mentioned on COA*	*-do-*
7.	*Manganese Sulphate*	*10819-019 2.4Kg*	*11th May 2021*	*-do-*

11. In the light of above, it is concluded that the firm was involved in loaning practices which has no legal coverage. Regarding Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Magnesium Sulphate and Manganese Sulphate their clarification is not justified on scientific & legal grounds. The investigation of case and the request of firm for destruction of materials is submitted before Registration Board."

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

The Registration Board deferred the case for further deliberation in next meeting.

Case No. 24: IMPORT OF REGISTERED PRODUCTS THROUGH FAKE/FORGED INVOICES BY M/S. BIOCURE PHARMACEUTICALS, LAHORE.

01. Assistant Director (I&E), Lahore vide letter No.5247/2019/DRAP(AD-CD)(I&E) dated 15-04-2019 informed that Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi has asked for the verification of genuineness of following ADC invoices;

Sr. No	Invoice No. & Date	Diary No. & date	Dispatch No. & Date
1	SBF/EXP/23-2019, dated 21-02-2019	4699/2019 DRAP dated 15-03-2019	3769/2019-DRAP, dated 19-03-2019
2	SBF/EXP/24-2018, dated 15-03-2018	4569 dated 26-03-2018	4451/2018-DRAP, dated 29-03-2018
3	SBF/EXP/28-2017, dated 29-03-2017	5982 dated 27-04-2017	5647/2017-DRAP, dated 28-04-2017
4	SBF/EXP/127-2015, dated 28-10-2015	13579 dated 23-11-2015	18835/2015-DRAP, dated 26-11-2015
5	SBF/EXP/128-2016, dated 27-12-2016	1524 dated 26-01-2017	1396/2017-DRAP, dated 27-01-2017

02. AD (I&E), DRAP, Lahore further informed that the genuineness of the endorsement of said invoices is not verified from the office record. In response to the submission of AD (I&E), DRAP, Lahore the division of QA&LT directed the Area FID vide letter F. No.13-125/2019-(QC) dated 16-05-2019 to investigate the matter and after completing all the legal formalities, submit a comprehensive report including all the requisite documents along with documents from custom authorities, highlighting the nature of violation, fixing the responsibility (Names, Designations, complete addresses and copies of CNIC of accused person(s)) and comments/views on the response of accused, if any, on priority basis for consideration of the Board.

03. Area Federal Inspector of Drugs Lahore vide letter No.7011/2021-DRAP (L-IV) dated 07-05-2021 submitted the complete investigation report and the reply of accused as under:

"Please refer to Drug Regulatory Authority of Pakistan, Islamabad letter No. F. No. 13-125/2019 (QC) dated 16-05-2019 on the subject cited above, (copy attached Annex-1), and Model Custom Collectorate of Appraisement-West Custom House, Karachi letters Nos. SI/Misc/157/2017 Group-II dated 22-03-2019 and SI/Misc/157/2017 Group-II dated 01-04 2019 on the subject cited above (copies attached Annex-2&3), wherein it was informed that genuineness of the endorsement of commercial invoices (detail of which are below) was not verified from the office record of DRAP, Lahore (Copies of invoices are attached annex 4,5,6,7&8).

S. No.	*Invoice No & Date*	*Diary No. & date*	*Dispatch No, & Date*
1	*SBF/EXP/23-2019, dated 21-02-2019*	*4699/2019 DRAP dated 15-03-2019*	*3769/2019-DRAP, dated 19-03-2019*

2	*SBF/EXP/24-2018, dated 15-03-2018*	*4569 dated 26-03-2018*	*4451/2018-DRAP, dated 29-03-2018*
3	*SBF/EXP/28-2017, dated 29-03-2017*	*5982 dated 27-04-2017*	*5647/2017-DRAP, dated 28-04-2017*
4	*SBF/EXP/127-2015, dated 28-10-2015*	*13579 dated 23-11-2015*	*18835/2015-DRAP, dated 26-11-2015*
5	*SBF/EXP/128-2016, dated 27-12-2016*	*1524 dated 26-01-2017*	*1396/2017-DRAP, dated 27-01-2017*

2 Letter No. 12040/2019-DRAP (L-VI) dated, 17-09-2019, was sent from this office to M/s. Biocure Pharmaceuticals, Suite No. 211, 2nd Floor Khaleej Town, 38-A, Jail Road, Lahore, informing that genuineness of endorsement of said invoices was not verified from the office record and the firm was directed to explain their position in this regard (copy attached annex-9).

3 Reply received from M/s. Biocure Pharmaceuticals, Suite No. 211, 2nd Floor Khaleej Town, 38-A, Jail Road, Lahore vide letter No. Nil, dated Nil received office on 02-10-2019 (copy attached annex-10), wherein they have informed that after coming to know of the above they launched FIR against the clearing agent, whom they had hired some time ago (copy attached annex-11) The CEO of the firm further informed that he was shaken after knowing about this matter which caused severe tension, heart attack and cardiogenic shock. He has further requested that he may be granted relief on humanitarian basis. Previous import history of the firm as per this office record showing clearance certificates obtained from this office previously is also attached (copy attached annex-12). But as per available record of this office the above said invoices were not cleared by this office.

4 The available data of this office reveals that the firm did not get prior clearance to import their products Eridoksin Registration No. 059185 and Roxine 25% Registration No. 059186 which is the violation of the Drugs Act 1976/DRAP Act 2012, so, it is recommended that the registration of the drugs / product in question may be suspended or cancelled or any other action may be taken as deemed fit by the Competent Authorities.

Submitted for information and further necessary action please."

04. Area FID Lahore in the above-mentioned report has recommended the cancellation/suspension of registration of products namely Eridoksin powder containing Erythromycin 40mg and Doxycycline 20mg (Reg. No. 059185) and Roxine 25% oral solution containing Enrofloxacin 250g (Reg. No. 059186) or any other action as may deem fit by the Board.

Proceedings and Decision of 312th meeting:

05. The Board after thorough deliberations and considering the facts of the case and recommendations of the area Federal Inspector of Drugs decided to issue show cause notice to firm for cancellation/suspension of their registered product.

06. In compliance to the decision of 312th meeting of the Registration Board, the firm was issued show cause notice vide F.No.03-33/2021-QC (312-RB) dated 28-10-2021. Till date no reply has been received from the firm.

07. The representatives of the firm are called before the Board for personal hearing.

Proceedings and Decision of 313th meeting:

08. Jawad Ahmed (CEO) of M/s. Biocure Pharmaceuticals, Suite No. 211, 2nd Floor Khaleej Town, 38-A, Jail Road Lahore appeared before the Board and informed the Board that he had hired a clearing agent namely Muhammad Sadiq S/o Abdul Aziz R/o House No. 49-A, Street No. 139-C, Ittefaq street, Ghulam road, Ichhra Lahore who was responsible for submitting fake invoices to the custom authorities. Moreover, Mr. Jawad Ahmed also informed the Board that he was unaware of these illegal activities being carried out by his clearing agent and he also had lodged FIR against that clearing agent in Litton road Police Station Lahore.

09. The Board after thorugh deliberations, considering the facts of the case and submission of CEO of M/s. Biocure Pharmceuticals Lahore decided as under:

i. Suspend the Registration of the products namely Eridoksin Powder (Reg. No. 059185) and Roxine 25% oral solution (Reg. No. 059186) for (06) months.
ii. The division of QA&LT will conduct a detailed investigation of the matter and submit a comprehensive report before the Board within (02) months.

10. In the light of the decision of Registration Board, the accused were issued a letter for suspension of their products vide letter F. No. 03-43/2021-QC (313-RB) dated 16-12-2021. Moreover, brief facts of the case is given as under:

- Assistant Director (I&E), Lahore vide letter No.5247/2019/DRAP(AD-CD)(I&E) dated 15-04-2019 informed that Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi has asked for the verification of genuineness of ADC invoices as mentioned in table of para 01.
- The division of QA&LT directed the Area FID vide letter F. No.13-125/2019-(QC) dated 16-05-2019 to investigate the matter and submit a comprehensive report of the matter.
- Area FID Lahore informed that the invoices provided by the Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi are forged and the firm did not get prior clearance to import their products and recommended that the registration of the drugs / product in question may be suspended or cancelled.
- The Registration Board in its 312th meeting decided to issue Show cause notice and personal hearing to the management of M/s. Biocure Pharmaceuticals Lahore.
- Jawad Ahmed (CEO) of M/s. Biocure Pharmaceuticals of the firm appeared before the Board in its 312th meeting and submitted that he had hired a clearing agent namely Muhammad Sadiq S/o Abdul Aziz R/o House No. 49-A, Street No. 139-C, Ittefaq street, Ghulam road, Ichhra Lahore and the fake invoices were submitted by him. The said person is not traceable and Jawad Ahmad (CRO) of M/s. Biocure Pharmaceuticals Lahore had lodged FIR against that person in Litton road Police Station Lahore. A Copy of FIR is also submitted by the CEO of M/s. Biocure Pharmaceuticals Lahore.
- The invoices provided by Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi are dated 26-11-2015, 27-01-2017, 28-04-2017, 29-03-2018 and 19-03-2019 in her letter dated 15-04-2019 whereas the accused had lodged the FIR against his clearing agent on 22-06-2019.

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

The Registration Board deferred the case for further deliberation in next meeting.

Case No. 25: ILLEGAL IMPORT OF RAW MATERIAL WITHOUT CLEARANCE FROM DRAP BY M/S. EG PHARMCEUTICALS 13-A INDUSTRIAL TRIANGLE, KAHUTA ROAD, ISLAMABAD.

Federal Inspector of Drugs-I Islamabad inspected the premises of M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad on 25th January 2022 to investigate PM portal complaint regarding the import of illegal raw material, lack of qualified persons and non-compliance of GMP by M/s. EG Pharmaceuticals Islamabad. During the inspection following Raw Material was recovered from the Raw Material Store (RMS) of the M/s EG Pharmaceutical Islamabad without import documents/NOCs issued by DRAP R&I Section as well as evidence of purchase:

S.	Name of Drug	Batch No.	Quantity	Mfg. by
01.	Amlodipie Besylate powder	AMB/057/03/21	0.29kg	M/s. Prudunce Chemical
02.	Diclofenac Potassium	20190810	109.125	M/s. Zanghai Gindjiuzhou Pharma Henan Dongtai Pharma Co Ltd
03.	Diclofenac Sodium	20200520	3.135	N/A
04.	Tizanodium powder	N/A	2.50	N/A
05.	Ketorolac Trtonetamol/ Tronethamine	0361220	0.800	M/s. Satyalidivis Pharma
06.	Lidocaine HCl	N/A	0.804	N/A
07.	Metronidazole		13.000	N/A
08.	Paroxetine Calcium		1.000	N/A
09.	Rosuvastatine Calcium		36.0 gm	N/A
10.	Vitamin B3		3.10gm	N/A
11.	Valsartan		0.36	N/A
12.	Metformin	MEF/1010233	598.950	AARTI Begus Ltd India
13.	Loratidine	NRHB0534	5.000	Morepan Lab India
14.	Sitagliptin		3.734	N/A

02. The mentioned raw materials were ordered "Not to Dispose of' on Form-1 dated 25-01-2022 under schedule-V Section (l)(i) of DRAP Act 2012. Permission in order not to dispose of was granted to FID I Islamabad vide letter F.03-05/2021-QC dated 21st February 2022.

03. M/s. EG Pharmaceuticals Islamabad was directed by FID I to submit import documents/NOCs issued by the DRAP I&E Department or as well as evidence of purchase of the above-mentioned raw materials vide letter No. F. 03-07/2004-FID-I(ISD) dated 31st January, 2022 with subsequent reminders on 17th March 2022 and 13th April 2022. The firm replied vide letter dated 12th April 2022 and admitted that they are obtaining raw material on loan from the local manufacturers/local markets as they are producing their products in small quantities to fulfill institutional commitments and to avoid market shortage and hence small amount required did not warrant import.

04. In light of the firm's response, FID I Islamabad directed the firm vide letter No. F.03-07/2004-FID-I(ISD) dated 25th April 2022 to disclose the sources from which they had procured the above-mentioned raw material on loan in order to identify the culprits & to discourage such practices since it is violation of Import & Export rules 1976 & Section 23(l)(e) and punishable under Section 27(c) of the Drugs Act, 1976. The firm was further directed to provide complete information regarding batch sizes of the aforementioned items as well as the institutional orders placed with the firm. The firm has failed to respond till date and verbally the representatives of the firm refused to provide further cooperation in this matter.

05. Considering the circumstances mentioned above, FID-I Islamabad has concluded that the firm is in violation of Import & Export rules 1976 & Section 23(1)(e) of the Drugs Act, 1976 read with Schedule-II(1)(A)(x)(e) punishable under Section 27(c) of the Drugs Act, 1976 read with Schedule-III(l)(c) of the DRAP Act, 2012 and cognizable under Section 30(1)(a) of Drugs Act,1976 read with Schedule-lV (l)(a) of the DRAP Act, 2012, and has requested as under:

i. Cancellation of Registration of the above-mentioned products
ii. Cancellation of DML of M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad
iii. Grant permission for prosecution M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad through its CEO Mr. Shaukat Hayat Khan and its QC manager Mr. Ihtisham-ul-Haq.

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

Registration Board after discussion and thorough deliberations decided as under:

i. **Import and export of raw materials does not fall under the mandate of Registration Board. Hence, the case is referred back to QA&LT Division to decide the case under the Drugs (import & Export) Rules, 1976 under Drugs Act, 1976.**
ii. **Recommendation of FID to cancel DML of M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad pertains to Licensing Division. Hence the QA&LT Division is advised to forward the case to Licensing Division.**

Case No. 26: CLUSTER OF SERIOUS ADRs REPORT BY USE OF VISO-REM (REMDESIVIR) INFUSION MFG BY M/S. VISION PHARAMCEUTICALS ISLAMABAD IN BAHRIA HOSPITAL LAHORE.

The Additional Director, Pharmacy Services Division, DRAP vide letter No. 9-1/2022 PV (PS) dated 15-02-2022 informed regarding the reports of serious ARDs (infusion related hypersensitivity reaction) by use of Viso-Rem (Remdesivir) injection 100mg/20ml manufactured by M/s. Vision Pharmaceuticals (Pvt.) Ltd., Plot No: 22-23, Kahuta Industrial Triangle, Kahuta Road, Islamabad from M/s. Bahria International Hospitals, Lahore.

02. The reported events by Bahria International Hospital include, tachycardia, fever, shivering, shortness of breath and flushing of the skin. As per the Food and Drug Administration's (FDA) label of Veklury (Remdesivir), hypersensitivity reactions, including infusion-related and anaphylactic reactions, have been observed during and following administration of Remdesivir; most of these occurred within one hour. These hypersensitivity reactions include all the instant reported events such as shivering, tachycardia, shortness of breath and fever that are reported by Bahria International Hospital. NPC has performed the causality assessment and classified these reactions to have possible relation with the drug.

03. Additional Director Pharmacy Services further added that infusion-related hypersensitivity reactions may provide a possible explanation: however, these reports are cluster in nature having similar adverse events, same drug and its batch and reported within a short period of time from the same place, which triggers suspicion of a quality problem therefore, a letter vide No. 13-25/2022-QC dated 15-03-2022 was issued to area FID Lahore and area FID Islamabad for sampling of batch in question of subject mentioned product for the purpose of test/analysis.

04. FID-I Islamabad vide file 3-4/2003-FID-I_(Vol-II)-P-001 dated 29-07-2022 forwarded the complete investigation and inspection report of M/s. Vision Pharmaceuticals Islamabad, details of which are as under:

"In compliance of letter F.No.9-1/2022 PV (PS) dated 15th February 2022 regarding cluster of ADRs reported with Inj. Viso-Rem (Remdesivir 100mg/20ml Batch # 21H032) from Bahria International Hospitals, Lahore, the following panel visited M/s Vision Pharmaceuticals Plot No. 22-23, Industrial Triangle Kahuta Road Islamabad DML No. 000517 by way of Formulation:

1. *Mr. Hasan Afzaal, Assistant Director, QA&LT Division, DRAP, Islamabad*
2. *Mr. Tahir Waqas, Assistant Director, I&E section QA&LT Division, DRAP, Islamabad*
3. *Ms. Saadia Mahwish Area FID-I, DRAP, Islamabad*

The focus of the inspection was to investigate probable cause of the ADR reported in Batch# 21H032 of product Inj. Viso-Rem 100mg/20ml (in solution form). During the visit following representatives of the firm were present during investigation

1.Mr. Waseem Shehzad, Head Quality Operations
2.Mr. Nadeem Panjatan Chief Operating Officer/ Production Incharge
3.Mr. Shaukat Iqbal Quality Control Manager
4.Col. (R) Naveed Akbar, Director Operations
5.And other technical personnel including the Microbiologist

Following are the observations made by the panel during the course of the investigation.

i. The document retrieval time as agreed by the firm at the start of the inspection was supposed to be 30 minutes. However, the firm could not abide by the agreed upon timeline, sometimes by a margin of several hours and in some cases, by failing to provide the requisite documents at all.
ii.The firm did not have a formal Pharmacovigilance program in place either in document form or in practice. The sole reliance of the firm was on feedback gathered by their marketing team, who had not been provided with appropriate documentation or any SOPs on gathering information on and reporting of ADRs to their management. This observation was corroborated by the fact that the firm had no knowledge or record of ADRs occurring in the Bahria International Hospital.
iii. The firm was asked to provide the distribution record as well as Batch manufacturing record (BMR) of Inj. Remdesivir Batch# 21H032 and it was observed that firm had distributed 1806 vials to their authorized distributors in various cities. However, when the BMR of the concerned batch was examined, the actual yield of the product was calculated to be 2844 vials. When the firm was asked to provide the distribution record for the rest of the vials it was discovered that they had supplied 1000 vials to D.Watson pharmacy which is a violation of conditions of Registration/Emergency Use Authorization (EUA) letter No.F.5-3/2020-Reg-II (M-295) dated 30th July 2020, the very first condition of which states that
"Registration of Remdesivir is authorized for emergency use only and for exclusive supply to healthcare facilities dealing with the COVID-19 patients under strict supervision of a qualified specialist physician"
iv. The firm was found to be in violation of other conditions of the above-mentioned letter of Registration/EUA as well namely:

a. *Viso-Rem Solution for Infusion had been granted Registration/EUA on Innovator's Specifications, however when the Certificate of Analysis of the product attached in the BMR of batch# 21H032 was studied, it was found that the testing had been carried out by the firm on in-house specifications, which is a violation of condition "x" of Registration/EUA letter. When the representatives of the firm were questioned regarding the matter, it appeared that the firm was under the impression that the terms "Innovator's Specifications" & "In-house Specifications" can be used interchangeably. The firm was unable to provide the CTD dossier for Inf. Viso-Rem nor did they provide any evidence of technology transfer from innovator. Henceforth, the panel could not determine the rationale behind the setting of specification limits*

for BET (Bacterial Endotoxin Test), pH, osmolarity, infusion volume and route of administration which may or may not have an association with the ADRs in question.

b. *As per condition "d" of above-mentioned Registration/EUA letter the firm was supposed to perform product development, process validation and concurrent real time & accelerated stability study of drug product for the first three commercial batches as per Zone IV-A climatic conditions. The testing frequency was supposed to be on monthly basis for the initial six months. On examination of the available record it was observed that the firm had not conducted stability studies on monthly basis, rather stability testing was carried out at 0, 3 & 6 months thus violating the condition of Registration/EUA. Furthermore, stability data sheet SOR 03644 states as a footnote that the product is stable for 06 months when kept at 2-8 °C, whereas the company is claiming shelf life of one year, when questioned, the Firm's representatives declared it to be a typographical error.*

c. *As per condition "h" of the Registration/EUA letter, although the firm had been submitting monthly reports to the National Pharmacovigilance Centre, in which they had been continually informing that there weren't any reports of occurrence of ADRs, however, this statement of the firm did not seem to be evidence based as they did not have any formal system of collecting information regarding ADRs also evidenced by the fact the firm was clueless about the ADRs reported from Bahria Hospital, Lahore.*

v. As stated previously regarding delay in document retrieval, the firm was unable to provide studies on the Qualification of area, equipment & personnel in support of the process validation studies shared with the panel. Furthermore, reference to the process validation the firm was unable to provide sufficient data/rationale in support of their use of non-sterile API as the process of sterilization relied only on one step Filtration for which the requisite Filter integrity test was only performed for product solution & not for filter cartridge used for double distilled water for vial washing & nitrogen used for purging. Additionally, the sterility test for Nitrogen is carried out on monthly basis & firm was unable to provide validation data for sterilization of compressed air. In addition to above, the area monitoring protocols require major revision as firm is performing reduced testing without any justification for area monitoring i.e., the frequency, exposure duration, incubation time & no of requisite plates/media is not in line with the acceptable International practices such as WHO TRS 961 in conjunction with ISO 14644. Also, inappropriate swabs were being utilized (not lint free) without swab recovery studies.

vi. The firm had conducted media fill trial of the facility once per annum (not-withstanding the guideline recommends bi-annual media fill trial). The incubator facility for media fill batch was not adequate hence the incubation was done at room temperature which did not suffice for the purposes of this test.

vii. During review of process validation studies, the panel was of the opinion that CPPs could have included critical points such as integrity test for filter at various steps, in-process sampling for BET, in process sterility testing for Bulk solution & post filling remnant solution, post filling swab test of contact parts as the firm had not deployed sterilization bags for detachable/sterilizable contact parts. Additionally, validation of disinfectant in conjunction with Bioburden profiling of the area was not shared with the panel despite request. The process capability index (CPI) for the validation process had not been calculated. To summarize the above observations pertaining to GMP, the sole reliance of the firm was on sterility testing of the finished product without scientific rationale of the sampling procedure i.e., identification of worst-case scenario such as collection of sample from identified cool points of the equipment as well as from beginning, middle, end etc. of the sterilization cycle. Additionally, the firm had failed to calculate the Sterility assurance level (SAL) of the sterilization process.

viii. Review of the Change control data showed that process validation studies had initially been carried out on 30L batch size. When the log of Change Control was examined it was found out that the firm had increased the batch size to 120L. However, according to document bearing Change Control No. CC/010/21 dated 12.08.2021 the description of the proposed change stated Viso-Rem Inj batch size increased from 60L to 120 L. No documentary record or change control procedure or scale-up study was however available for the increase of batch size from 30L to 60L. Furthermore., no risk analysis/impact analysis was performed in the change control document for increasing the batch size from 60L to 120L. The Change Control document also stated the process re-validation studies needed to be performed which till date had not been conducted by the firm.

ix. The firm has no system in place to review the data logged during cold chain transfer of Inj. Viso-Rem, hence temperature excursion/deviation can go unnoticed. No data logging review during cold chain transport was available for perusal.

x. The Certificate of Analysis (COA) of finished product in BMR of Inj. Viso-Rem did not record the results of Liquid Particle Counter (LPC) but when LPC log book was reviewed the test had been performed for the said batch. However, the exclusion of result of LPC test record from the BTR can lead to unnoticed deviation during batch release & exhibits poor documentary control for the firm.

xi. When the Batch processing record of Inj. Viso-Rem Batch# 21H032 was reviewed it was observed that the API (Remdesivir) utilized in the manufacturing was bearing Supplier batch #21051601 and the internal QC lot# 2106R0014. However, when the firm was asked to provide NOC for the said raw material issued by I&E department of DRAP, the firm provided documents of a different batch of same API i.e., Supplier batch #21041601 and the internal QC lot# 2105R0019 but the NOC issued by DRAP against this batch# was meant for semi basic manufacturing of Lyophilized Remdesivir and not for the manufacturing of the finished product. Later on, the firm provided documents including NOC issued by DRAP for batch# 21051601 QC lot# 2106R0014. When the certificates of Analysis of both batches were reviewed it was noticed that there was no difference in specifications and analytical results of both categories of APIs i.e. for semi basic manufacturing & for the manufacturing of finished product. Both batches had been manufactured and supplied by the same manufacturer i.e., Anhui Haikang Pharmaceutical Co., Ltd. The firm could not provide DMF on Remdesivir API. Therefore, the panel could not determine whether there is any significant difference in critical Quality Attributes including physical characteristics/composition between the Ready to Formulate API & the semi-basic raw material of Remdesivir. Furthermore, it could not be determined due to the reasons mentioned above whether mix-up between the two forms will impact the final finished product which may or may not reflect in batch testing report and also on patients' safety.

xii. The above-mentioned observations also point towards a total lack of Quality Management System in the firm including documentation control, Vendor Qualification & lack of User Specs/understanding of CQAs of raw materials to be procured for different manufacturing activities.

4. In pursuance of above-mentioned letter from Division of Pharmacy Services, samples of Viso-Rem Solution for Infusion were taken for the purpose of test/analysis on Form 3 including the batch in question i.e., 21H032 (copy attached). However, it is pertinent to mention that in accordance with WHO TRS 961 Annex 6 "Good Manufacturing Practices for Sterile Pharmaceutical Products" which states

"2.2 The sterility of the finished product is ensured by validation of the sterilization cycle in the case of terminally sterilized products, and by "media-fills" runs for aseptically processed products. Batch processing records and, in the case of aseptic processing, environmental quality records, should be examined in conjunction with the results of the sterility tests. The sterility test procedure should be validated for a given product. Pharmacopoeial methods must be used for the validation and performance of the sterility test.

2.3 For injectable products, the water for injection and the intermediate and finished products should be monitored for endotoxins, using an established pharmacopoeial method that has been validated for each type of product".

A standard test report cannot be a final determinant regarding quality of a product based on Quality by Design principle.

5. Based on the areas inspected, people met, the documents reviewed and considering the complete lack of Quality by design concept and the sole reliance of the firm on sterility & BET testing which itself does not comply with the International Guidelines in addition to other findings of the inspection team, i.e. failure of regulatory compliance & probability of mix up of raw material meant for semi-basic manufacturing with that of API meant for Finished product, it is the opinion of the panel that the absence of requisite validations & processes may have impacted the final product. The firm is hence liable to manufacture products which could have probably caused the observed ADRs. It is therefore recommended that RB may be requested to review the grant of Emergency use authorization for the product Viso-Rem Solution for Infusion manufactured by M/s Vision Pharmaceuticals Plot No. 22-23, Industrial Triangle Kahuta Road Islamabad and advise the firm to halt production of Viso-rem Injection till rectification of all the above-mentioned critical deficiencies.

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

Registration Board after discussion and thorough deliberations decided to refer the case to Pharmacy Services Division for reviewing the matter in Pharmacovigilance Risk Assessment Committee and submission of recommendations to Registration Board for its consideration and decision.

Case No. 27: CANCELLATION/SUSPENSION OF REGISTRATION OF WATER FOR INJECTION 2ml (REGISTRATION NO. Q24873) MANUFACTURED BY M/S AMSON VACCINES PHARMA (PVT) LTD, PLOT #154, INDUSTRIAL TRIANGLE KAHUTA ROAD, ISLAMABAD.

FID I Islamabad along-with Assistant Director QA-I, inspected the premises of M/s Amson Vaccines & Pharma (Pvt)Ltd 113 Industrial Triangle Kahuta Road Islamabad on 16th June 2022 to review the GMP compliance of the firm. During the course of inspection, the panel came to know that the firm is carrying out manufacturing of the subject mentioned product whereas they do not have approved section for manufacturing of the said item i.e. Liquid Injectable Vial-SVP (general) from the CLB. Chairman CLB vide letter no. F.l-26/94-Lic(PtVol-I) dated 30th June allowed renewal of tablet section (General), Capsule section (General), Oral Liquid section (General), Liquid Ampoule injection (vaccine), Liquid vial injection (Vaccine / Sera) Dry powder injection (Steroid), Quality control Laboratory and warehouse.

02. FID I reported that the firm is currently manufacturing their Water for Injection in the Vaccine facility. Moreover, the filling of WFI is being done on the same filling machine as their other vaccines without undertaking Cleaning validation as for all of these vaccines limit of detectability is not available.

03. The firm is utilizing their water for Injection only for inclusion as reconstitution medium in their product Inj. Hyzonate (powder for reconstitution) whereas the Registration letter of Inj. Hyzonate does not specifically mention that only WFI manufactured by M/s Amson Vaccines & Pharma has to be included.

04. After the subject mentioned inspection, the firm submitted letter No. F. l-26/94-Lic(Pt-l) dated 14th December 2021 regarding Approval of layout plan for regularization/revised/new sections under DML No. 000393 (Formulation) issued by the Licensing wherein approval for Tablet (Psychotropic), Liquid injectable Vial-SVP, Dry powder for injection (Steroid), Quality control lab and Warehouse. Additionally, the firm submitted an undertaking that they will finish construction of Liquid Injectable Vial-SVP (general) within one year which clearly indicates without a doubt that as of right now the firm does not have approved section for manufacturing of Water for injection 2ml registration No.024873.

05. FID I reported that the panel advised the firm that they should get Approval of Liquid Injectable Vial-SVP (general) for manufacturing of Water for Injection in the existing facility in the interim period till construction/completion of the new building, the feasibility of which had been pointed/laid out to the firm in the closing meeting of the inspection. The firm however, point blank refused to consider the possibility even though it was made clear to the firm that they are undertaking an illegal activity. Furthermore, the firm was verbally directed to immediately stop production until the approval of Liquid Injectable Vial-SVP (general) from CLB, the firm however, adamantly and willfully refused to comply with the instructions and insisted on illegal manufacturing whereby, the firm stands in obstruction of Power of the Inspector granted under Section 18(l)(j) & punishable under Section 27(3) of Drugs Act,1976 read with Schedule-Ill (3) of DRAP Act, 2012

06. Keeping in view the above-mentioned facts of the case, FID I has recommended following actions against M/s. Amsons Vaccine and Pharma Islamabad:

i. Cancellation/Suspension of Registration of Water for injection 2ml registration No.024873 until the firm either completes the new building or gets section approval from CLB in the existing facility since as of today the firm M/s Amson Vaccines & Pharma (Pvt) l td do not have the requisite section approval from CLB

ii. Permission for prosecution against M/s Amson Vaccines & Pharma (Pvt) Ltd plot# 154 Industrial TriabngleKahuta Road, Islamabad through its management Mr. Abbas Khan S/O Dilawar Khan, Mr. Shamim Ahmad S/O Abdul Majeed. Mr. Saleem Asghar S/O Ali Sagheer, its Plant Manager Mr. Amanullah Sial, its Production In-charge Mr. Sajjad Hussain S/O M. Bashir & bits QC Incharge Mr. MuammadMuddassir S/O Noor Muhammad under Section 27(3) of Drugs Act, 1976 read with Schedule-Ill (3) of DRAP Act, 2012.

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

Registration Board after discussion, considering the facts of the case decided:

i. "To issue show cause notice to M/s. Amson Vaccines & Pharma (Pvt) Ltd, Islamabad for suspension/cancellation/ prosecution in Drug Court,

Islamabad for manufacturing of Water for injection 2ml registration No.024873 in vaccine manufacturing facility and called them for personal hearing before Registration Board as per clause 5.2 of Schedule B under Drugs (L, R & A) Rules, 1976.

ii. Advised to proceed as per Section 27 (3) of Drugs Act, 1976 regarding obstruction in official duties as it does not pertain to Registration Board."

AGENDA ITEM NO. 04
CASES REFERED BY QCB ISLAMABAD

Case No. 28: SUBSTANDARD GENTAMYCIN EAR DROPS MANUFACTURED BY M/S. AMROS PHARMA KARACHI – QCB ISLAMABAD CASE.

01. Secretary Quality Control Board Islamabad vide letter vide F. No. 18(1)-QCB/ICT/2012/723 dated 22-02-2022 forwarded the case of manufacturing of Substandard Gentamycin 10ml Ear Drops Manufactured by M/s. Amros Pharmaceuticals Karachi. Brief facts of the case as under:

Case No. 33: SAMPLES NOT TESTED DUE TO TECHNICAL CONSTRAINTS

FID I Peshawar has submitted vide No. F. 3-20/2021-DRAP-4842 dated 16-12-2022:

" Kindly refer to above cited subject and to say that this office has received test report (Form-6) from the Federal Government Analyst, Central Drugs Laboratory with the following remarks;

i. Sample could not be tested due to technical constraint at present.

2. It is requested that the firms are directed to comply the requirements of CDL, Karachi as and when correspondence is received from CDL, Karachi in the said matter. However, after receipt of Form-6 with the above reffered remarks, further course of action is not defined/specified. It is requested that necessary directives/ guidlines may please be issued to undersigned for further course of action, in such matters to finalize the case."

Following are the details of reports provided by FID, Peshawar:

S. No.	Name of Product	Reg. No.	Batch No.	Mfg. Date	Exp. Date	Claimed to be manufactured by	Report No. and Date	Remarks of CDL
01	IB-Clar Suspension (Clarithromycin)	085051	D-335	06-21	06-23	M/s. Iceberg Pharmaceuticals, Pisalpur.	IP.65/2021 dated 10-09-2021	Sample could not be tested due to technical constraint at present.
02	Essonave Capsules (Esomeprazole Magnesium)	077407	508	05-21	04-23	M/s. Novae Pharmaceuticals, Hattar	IP.30/2021 dated 17-08-2021	Sample could not be tested due to technical constraint at present.
03	Zee-Met Infusion (Metronidazole)	076873	2106843	06-2021	05-2023	M/s. Shazeb Pharmaceutical Industries Ltd., District Haripur.	IP.52/2021 dated 17-08-2021	Sample could not be tested due to technical constraint at present.
04	Zolan Suspension (Metronidazole Diloxanide Furoate)	027683	L016	06-21	06-23	M/s. Swat Pharmaceuticals, Saidu Sharif Swat.	IP.60/2021 dated 10-09-2021	Sample could not be tested due to technical constraint at present.
05	CB-Get Suspension (Cefixime)	085224	D-346	06-21	06-23	M/s. Iceberg Pharmaceutical, Risalpur.	IP.64/2021 dated 10-09-2021	Sample could not be tested due to technical constraint at present.

A letter has been issued to Federal Government Analyst vide letter F.No.13-27/2022-QC dated 14-03-2022 to provide the reason of "Samples could not be tested due to technical constraint at present."

Federal Government Analyst vide No. 1-1/2013-SRK/CDL/-1120 dated 19-04-2022 submitted following reasons due to which samples could not be tested:

1. The laboratory staff was busy in preparation and conduct of WHO Pre-qualification audit.
2. The risk with not carrying the tests on the referred samples was low as these samples were not taken by the inspectors due to issues of compliance or reports of adverse effects or complaints.

Proceedings and Decision of 321st Meeting of Registration Board.

Registration Board after discussion and considering the facts of the case decided:

"To advise Federal Government Analyst, Central Drugs Laboratory, Karachi to test/analysis the samples in question and submit the report within 60 days to FID concerned for necessary action into the matter under intimation to QA&LT Division."

Item No. V: Additional Agenda

a. *Pharmaceutical Evaluation & Registration Division*

Item No. 1: Cases of Paracetamol containing formulations

DRAP Authority in its 147th meeting decided as under:

"In order to ensure the smooth and continuous supply of paracetamol tablets across Pakistan under prevailing circumstances, the Authority, as one-time exercise, approved incentivization to the manufacturers in the form of out-of-queue consideration of applications of registration of:

i) 01 generic (me-too) molecule on manufacturing and immediate distribution of at least 15,000 packs of paracetamol tablets with pack size of 200 tablets.

ii) *All dosage forms of paracetamol & its combination products with the condition of immediate manufacturing and distribution.*

Accordingly following cases have been evaluated and are placed before the Board

Cases of applications submitted on Form 5

Agenda of Evaluator PEC-III

1.	**Name and address of manufacturer / Applicant**	**M/s Amros Pharmaceuticals A-96, S.I.T.E, Super Highway, Karachi**
	Brand Name +Dosage Form + Strength	Saypol CF Tablet 500/60/4mg
	Composition	Each Tablet Contains: Paracetamol…500mg Pseudoephedrine HCl…60mg Chlorpheniramine Maleate…4mg
	Diary No. Date of R& I & fee	Dy No. 15335: 07-03-2019 PKR 20,000/-: 07-03-2019
	Pharmacological Group	Analgesic / Antipyretic
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Panadol CF Tablet by GSK
	GMP status	Last inspection dated 13-02-2018 confirms good level of GMP compliance.
	Remarks of the Evaluator[3].	• Evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting. • Evidence of required manufacturing facility / section from Licensing Division DRAP. • Last GMP inspection report of the firm conducted within a period of last 3 years.
	Decision: Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.	
2.	**Name and address of manufacturer / Applicant**	**M/s Nortech Pharmaceuticals Plot #203,Sihala Industrial Triangle, Kahuta Road, Islamabad**
	Brand Name +Dosage Form + Strength	Tetsin Plus Tablet 37.5/325mg
	Composition	Each Film Coated Tablet Contains: Tramadol HCl…37.5mg Paracetamol…325mg
	Diary No. Date of R& I & fee	Dy No. 15418: 07-03-2019 PKR 20,000/-: 07-03-2019
	Pharmacological Group	Opioids in combination with non-opioid analgesics
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	(**MHRA** Approved)
	Me-too status	Tramal Plus Tablet by Searle
	GMP status	Renewal of DML report dated 20-09-2021
	Remarks of the Evaluator[3].	• Firm has applied in house specs while product monograph is available in USP.

	Decision: Approved with USP specifications. Registration Board further decided that registration letter will be issued after submission of fee that is Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.	
3.	**Name and address of manufacturer / Applicant**	**M/s Davis Pharmaceuticals Laboratories. Plot No. 121, Industrial Triangle, kahuta Road, Islamabad**
	Brand Name +Dosage Form + Strength	Davigesic Tablet
	Composition	Each Film Coated Tablet Contains: Paracetamol…450mg Orphenadrine citrate……35mg
	Diary No. Date of R& I & fee	Dy No. 15877: 07-03-2019 PKR 20,000/-: 04-03-2019
	Pharmacological Group	Analgesic / Antipyretic
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	(**TGA Australia** Approved)
	Me-too status	Nuberol Tablet by Searle
	GMP status	Renewal of DML report dated 20-09-2021
	Remarks of the Evaluator[3].	• Firm has applied for film coated tablet while the reference product approved by TGA Australia is as uncoated tablet, revise your formulation as per reference product along with submission of requisite fee. • Last GMP inspection report of the firm conducted within a period of last 3 years.
	Decision: Approved with innovator's specifications as per following details: • **To revise the formulation from film coated to uncoated tablet alongwith submission of fee as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.** • **Submission of GMP inspection report valid within last three years.** • **Label claim:** **Each tablet contains:** **Paracetamol……..…450mg** **Orphenadrine citrate……35mg**	
4.	**Name and address of manufacturer / Applicant**	**M/s Epla Laboratories. D-12, Estate Avenue, S.I.T.E., Karachi, Pakistan**
	Brand Name +Dosage Form + Strength	Orphamol 650/50mg Tablet
	Composition	Each Film Coated Tablet Contains: Paracetamol…650mg Orphenadrine citrate……50mg
	Diary No. Date of R& I & fee	Dy No. 16368: 07-03-2019 PKR 20,000/-: 04-03-2019
	Pharmacological Group	Analgesic / Antipyretic
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Nuberol Forte Tablet by Searle
	GMP status	GMP certificate issued on 15-11-2019 on the basis of inspection conducted 15-11-2019.
	Remarks of the Evaluator[3].	• Evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting. • Last GMP inspection report of the firm conducted within a period of last 3 years.
	Decision: Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.	
5.	**Name and address of manufacturer / Applicant**	**M/s Trigon Pharmaceuticals Pvt Limited. 8 km, Thoker Raiwind Road, Lahore**
	Brand Name +Dosage Form + Strength	Tramacute P 37.5/325mg Tablet

	Composition	Each Tablet Contains: Tramadol HCl…37.5mg Paracetamol…325mg
	Diary No. Date of R& I & fee	Dy No. 16066: 07-03-2019 PKR 20,000/-: 07-03-2019
	Pharmacological Group	Opioids in combination with non-opioid analgesics
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	(**MHRA** Approved)
	Me-too status	Tramal Plus Tablet by Searle
	GMP status	The firm was inspected on 25-03-2019 and Conclusion of inspection was: Based on the areas inspected, the people met and the documents reviewed, and considering the findings of inspection M/s Trigon Pharmaceuticals Pvt Ltd Lahore was considered to be operating at a satisfactory level of GMP compliance with reference to GMP guidelines as per Dugs Act, 1976 and rules framed there under.
	Remarks of the Evaluator[3].	• Firm has applied in house specs while product monograph is available in USP, revise your specification along with submission of requisite fee. • Firm has applied for uncoated tablet while the MHRA approved reference product is available as film coated tablet, revise your formulation along with submission of requisite fee. • Last GMP inspection report of the firm conducted within a period of last 3 years.
	Decision: Approved with USP specifications as per following details: • **To revise the formulation from film coated to uncoated tablet alongwith submission of fee as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.** • **Submission of GMP inspection report valid within last three years.** • **Label claim:** **Each film coated tablet contains:** **Paracetamol……325mg** **Tramadol HCl……37.5mg**	
6.	**Name and address of manufacturer / Applicant**	**M/s Trigon Pharmaceuticals Pvt Limited. 8 km, Thoker Raiwind Road, Lahore**
	Brand Name +Dosage Form + Strength	Max care 250mg/37.5/5mg/5ml Oral Solution
	Composition	Each 5ml Contains: Paracetamol…250mg Dextromethorphan hydrobromide…37.5mg Promethazine HCl…5mg
	Diary No. Date of R& I & fee	Dy No. 16098: 07-03-2019 PKR 20,000/-: 07-03-2019
	Pharmacological Group	Analgesic / Antipyretic
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Could not be confirmed
	GMP status	The firm was inspected on 25-03-2019 and Conclusion of inspection was: Based on the areas inspected, the people met and the documents reviewed, and considering the findings of inspection M/s Trigon Pharmaceuticals Pvt Ltd Lahore was considered to be operating at a satisfactory level of GMP compliance with reference to GMP guidelines as per Dugs Act, 1976 and rules framed there under.

	Brand Name + Dosage Form + Strength	CO-CODAMOL tablet
	Composition	Each tablet contains: Paracetamol…...500mg Codeine phosphate…..15mg

	Diary No. Date of R & I & fee	Dy. No. dated, Rs. 8,000/- dated -04-2011 (Fee Challan copy provided) Dy. No.32397 dated 31-01-2020 Differential fee Rs. 12,000/- dated 30-01-2020 vide challan No.1953743 dated 29-01-2020. (original) (Duplicate dossier)
	Pharmacological Group	Opiate/analgesic/antipyretic
	Type of Form	Form 5
	Finished product Specification	USP specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	(MHRA approved, uncoated tablet) Co-codamol 15mg/500mg tablets, Each Co-codamol 15mg/500mg tablet contains paracetamol 500mg, codeine phosphate hemihydrate 15mg.
	Me-too status	Rakadine Tabletof M/s Rakaphoshi Pharmaceuticals, Peshawar. Registration No. 092822
	GMP status	Not provided
	Remarks of the Evaluator (PEC-XVII)	• Provide DRAP R & I stamped cover letter copy of **initial submission** of registration application in April, 2011. • Tablet (Psychotropic/narcotic) Section approved vide letter No.F.1-8/94-Lic (Vol-III) dated 14-06-2018. • Revise label claim as per reference product as: Each tablet contains: Paracetamol……500mg Codeine phosphate hemihydrate……15mg • Provide most recent/last GMP compliance inspection report. • For above revision, submit applicable fee as per notifications 7-11/2012-B&A/DRAP dated 07-05-2021 & 13-07-2021.
	Decision: Registration Board deferred the case for verification of R&I number of initially submitted application.	
41.	Name and address of manufacturer/ Applicant	M/s Convell Laboratories, Saidu Sharif, Swat.
	Brand Name + Dosage Form + Strength	Convidol tablet
	Composition	Each tablet contains: - Paracetamol…….500mg Caffeine…….65mg Chlorpheniramine maleate…….2mg
	Diary No. Date of R & I & fee	Dy. No.12 dated 14-02-2011, Rs. 8,000/- dated 14-02-2011 (Fee challan copy provided) Dy.No. dated 27-2-2017, Differential fee Rs. 12,000/- dated 27-02-2017 vide challan No.0603329 dated 27-02-2017. "Duplicate dossier, R & I verified"
	Pharmacological Group	Analgesic, antipyretic & anti-histamine
	Type of Form	Form 5
	Finished product Specification	Manufacturer specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	**Could not be confirmed**
	Me-too status	Hesmol Extra tablets of Wisodm pharmaceuticals, Peshawar. Registration No. 078571
	GMP status	**Not provided**
	Remarks of the Evaluator (PEC-XVII)	• Overages have been mentioned in master formulation. Provide justification for the added overages or else revise master formulation. • Provide list of machinery to be utilized in manufacturing of applied product/formulation.

		• Provide evidence of approval of applied formulation in reference regulatory authorities as approve by the Registration Board in its 275th meeting. • Provide most recent/last GMP compliance inspection report. • Drug manufacturing license validity status need to be verified from Licensing Division. • Provide evidence of relevant section approval by Licensing division, DRAP Islamabad. • For above revision, submit applicable fee as per notifications 7-11/2012-B&A/DRAP dated 07-05-2021 & 13-07-2021.
	Decision: Deferred for following points: • **Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.** • **Confirmation of current status of Drug Manufacturing License of the firm whether valid or otherwise.** • **Overages have been mentioned in master formulation. Provide justification for the added overages or else revise master formulation.** • **Provide list of machinery to be utilized in manufacturing of applied product/formulation.** • **Provide evidence of relevant section approval by Licensing division, DRAP Islamabad.**	
42.	Name and address of manufacturer/ Applicant	M/s English Pharmaceutical Industries, Link Kattar Bund road, Thokar Niaz Baig, Multan road, Lahore.
	Brand Name + Dosage Form + Strength	CAMRI-P TABLET
	Composition	Each tablet contains: - Lornoxicam……8mg Paracetamol…….500mg
	Diary No. Date of R & I & fee	Dy. No.5197 dated 12-06-2012, Rs. 8,000/- dated 12-06-2012 (Fee challan copy dated 08-06-2012 provided) Dy.No. dated, Differential fee Rs. /- dated vide challan No. dated. "Duplicate dossier, R & I verified"
	Pharmacological Group	Non-narcotic & analgesic combination
	Type of Form	Form 5
	Finished product Specification	Manufacturer specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Could not be confirmed
	Me-too status	Could not be confirmed
	GMP status	Not provided
	Remarks of the Evaluator (PEC-XVII)	• Provide DRAP R & I stamped cover letter copy of differential fee submission and differential fee challan copy. • Method of analysis provided is for tramadol HCl and Acetaminophen, while title given is of Tenofovir disoproxil fumarate. Please clarify and revise. • Provide evidence of approval of applied formulation in reference regulatory authorities as approve by the Registration Baord in its 275th meeting. • Provide evidence of drug already approved by DRAP (generic/me-too) with brand name, registration number and manufacturer. • Provide most recent/last GMP compliance inspection report. • Provide evidence of relevant section approval by Licensing division, DRAP Islamabad. • For above revision, submit applicable fee as per notifications 7-11/2012-B&A/DRAP dated 07-05-2021 & 13-07-2021.
	Decision: Deferred for: • **Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.**	

	• **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.** • **Evidence of submission of differential fee.** • **Method of analysis provided is for tramadol HCl and Acetaminophen, while title given is of Tenofovir disoproxil fumarate. Please clarify and revise.** • **Provide evidence of relevant section approval by Licensing division, DRAP Islamabad.**

Agenda of Evaluator PEC-XV

43.	Name and address of manufacturer / Applicant	M/s. WnsFeild Pharmaceuticals, Plot No. 122, Block A, Phase V, Industrial Estate, Hattar.
	Brand Name +Dosage Form+ Strength	Newbral tablets (450+35 mg)
	Diary No. Date of R& I & fee	(Original Dossier) Dy. No. 100 dated 16-04-2012 Rs. 8,000/- (Original) dated 06-03-2012 Differential fee (Original) Rs.12,000/- submitted on 14-10-2015
	Composition	Each tablet contains: Paracetamol.....450mg Orphenadrine Citrate.....35mg
	Pharmacological Group	Analgesic and antipyretic combination
	Type of Form	Form 5
	Finished Product Specification	Manufacturer's specifications
	Pack Size & Demanded Price	100's/ As per SRO
	Approval Status of Product in Reference Regulatory Authorities	Norgesic tablet (uncoated) 35mg/450mg TGA Approved
	Me-too Status	Nuberol 35/450mg Tablet by M/s Searle Pakistan (Reg. # 020373)
	GMP Status	10-12-2020 Conclusion: "As per findings of the inspection recorded on cGMP audit proforma and keeping in view the overall cGMP compliance status of the firm in terms of plant, premises, manufacturing, quality control, environmental facilities provided, documentation, qualified staff employed, validation and calibration record evaluation, the panel unanimously recommends the grant of cGMP certificate to the firm."
	Remarks of the Evaluator.	▪ 5% overage is mentioned in master formula, revised master formula is required. ▪ Official monograph of applied formulation is not available in available pharmacopoeias (USP, BP, IP, JP) ▪ Tablet (general) section confirmed vide Panel cGMP compliance inspection report dated 10-12-2020.
	Decision of 308th meeting of Registration Board	**Deferred for scientific justification for addition of 5% excess (overage).**
	Response of the Firm	Firm submitted the revised formulation with no overage, requisition submitted without fee.
	Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of fee that is Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.	

5 <u>Cases of applications submitted on Form 5-F</u>

Agenda of Evaluator PEC-III

44.	Name, address of Applicant / Marketing Authorization Holder	M/s World Biz Pharmaceutical Company, Plot No. 340, Multan Industrial Estate, Multan.
	Name, address of Manufacturing site.	M/s World Biz Pharmaceutical Company, Plot No. 340, Multan Industrial Estate, Multan.
	Status of the applicant	☒ Manufacturer

		☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of DML number 000942 issued on 13-09-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of DML dated 17-09-2021 specifying Oral liquid syrup section (General).
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 22536: 10-08-2022
	Details of fee submitted	PKR 30,000/-: 09-06-2022
	The proposed proprietary name / brand name	**Para Biz Suspension 120mg/5ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Paracetamol ……120mg
	Pharmaceutical form of applied drug	Oral suspension
	Pharmacotherapeutic Group of (API)	Analgesic / antipyretic
	Reference to Finished product specifications	BP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Junior Paracetamol Suspension (**MHRA** Approved)
	For generic drugs (me-too status)	Calpol suspension of M/s GSK Pakistan (Reg # 000354)
	Name and address of API manufacturer.	M/s Zenith Chemical Industries (Pvt) Limited. 16 Kilometer off Ferozepur-Road, Behind Wapda Grid station,1 kilometer of Chandrai Road Lahore - Pakistan
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40^{o}C ± 2^{o}C / 75% ± 5% RH for 6 months. The real time

		stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests defined in BP for their product against the reference product i.e. PANADOL suspension of GSK Pakistan (Pvt) Ltd.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Zenith Chemical Industries (Pvt) Limited. 16 Kilometer off Ferozepur-Road, Behind Wapda Grid station,1 kilometer of Chandrai Road Lahore - Pakistan		
API Lot No.	ZPAR20-350		
Description of Pack (Container closure system)	Amber color glass bottle		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	RD-AS-001	RD-AS-002	RD-AS-003
Batch Size	2000 Bottle	2000 Bottle	2000 Bottle
Manufacturing Date	11-2021	11-2021	11-2021
Date of Initiation	15-11-2021	15-11-2021	15-11-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate of M/s Zenith Chemical Industries is issued by DRAP on 22-05-2019. The certificate is issued based on the inspection dated 06-12-2018.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with UV spectra, raw data sheets, COA and summary data sheets.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable. Our HPLC systems are not 21 CFR compliant
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Provide verification studies of drug substance from drug product manufacturer.
- Specifications are mentioned as BP in some sections and USP in other sections.
- Assay method is based on HPLC while verification studies are conducted on UV method.
- Analytical method specifies HPLC method, while assay testing in stability studies is conducted on UV
- Provide copy of commercial invoice for evidence of purchase of the drug substance.

Decision of 320th meeting of Registration Board:

Deferred for;

- Submission of data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Submission of verification studies of drug substance from drug product manufacturer.
- Clarification since specifications are mentioned as BP in some sections and USP in other sections.
- Clarification regarding the assay method which is based on HPLC while verification studies are conducted on UV method.
- Clarification since analytical method specifies HPLC method, while assay testing in stability studies is conducted on UV
- Submission of copy of commercial invoice for evidence of purchase of the drug substance.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of specifications of the drug substance from drug product manufacturer as well.
2.	Submission of verification studies of drug substance from drug product manufacturer.	Firm has submitted report of verification studies of the analytical method of drug substance performed by drug product manufacturer.
3.	Clarification since specifications are mentioned as BP in some sections and USP in other sections.	Applied product is of BP specifications.
4.	Clarification regarding the assay method which is based on HPLC while verification studies are conducted on UV method.	We have adopted alternate method in which assay is based on UV method for stability of batches for CTD purpose. After registration we will adopt pharmacopoeia method and will verify it as per ICH guidelines.
5.	Clarification since analytical method specifies HPLC method, while assay testing in stability studies is conducted on UV	We have adopted alternate method in which assay is based on UV method for stability of batches for CTD purpose. After registration as per undertaking we will adopt pharmacopoeial method for process validation and both accelerated and long term stability studies of commercial batches.

6.	Submission of copy of commercial invoice for evidence of purchase of the drug substance.	Firm has submitted copy of commercial invoice dated 29-10-2021 specifying purchase of 10Kg paracetamol.

Decision: The Board discussed that the official monograph of the applied product is present in B.P whereas the firm has performed the testing according to In-House specifications. The Board decided to defer the case for submission of testing of the applied product according the monograph available in B.P along with the analytical method verification studies for the drug product on the next month time point of long term stability studies for all the 03 stability batches.

45.	Name, address of Applicant / Marketing Authorization Holder	M/s Magns Pharmaceutical. Plot No. 7B, Value Addition City, Sahianwala Road, Khurrianwala, Faisalabad.
	Name, address of Manufacturing site.	M/s Magns Pharmaceutical. Plot No. 7B, Value Addition City, Sahianwala Road, Khurrianwala, Faisalabad.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 22-03-2019 issued on the basis of inspection dated 01-03-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of issuance of Drug Manuacturing License (DML) dated 25-11-2016 specifying Tablet (General) Section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 11697: 14-05-2022

	The proposed proprietary name / brand name	**CETAMOL 500mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Paracetamol ……500mg
	Pharmaceutical form of applied drug	white color round uncoated tablet
	Pharmacotherapeutic Group of (API)	Analgesic / antipyretic
	Reference to Finished product specifications	BP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Paracetamol IPCA 500mg Tablet by IPCA Laboratories (**MHRA** Approved)
	For generic drugs (me-too status)	Panadol Tablet of M/s GSK Pakistan (Reg # 000817)
	Name and address of API manufacturer.	Pharmagen Limited. Kot Nabi Bukshwala, 34 Km, Ferozepur Road, Lahore.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of

		manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests defined in BP for their product against the reference product i.e. CALPOL tablet of GSK. Firm has submitted results of CDP in three dissolution medium for their product against the reference product i.e. CALPOL tablet of GSK.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable since testing method was UV based
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

- Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Provide verification studies of drug substance from drug product manufacturer.
- Provide COA of relevant batch of drug substance which is used in the manufacturing of batches of drug product.
- Justify why qualitative composition is different from the reference product.
- Provide reference of previous approval of applications with stability study data of the firm (if any)
- Provide evidence of approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
- Provide copy of commercial invoice for evidence of purchase of the drug substance.
- Provide record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Decision of 320th meeting of Registration Board:

Deferred for the following;

- Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Provide verification studies of drug substance from drug product manufacturer.
- Provide COA of relevant batch of drug substance which is used in the manufacturing of batches of drug product.
- Justify why qualitative composition is different from the reference product.
- Provide reference of previous approval of applications with stability study data of the firm (if any)
- Provide evidence of approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
- Provide copy of commercial invoice for evidence of purchase of the drug substance.
- Provide record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of specifications of the drug substance from drug product manufacturer as well.
2.	Submission of verification studies of drug substance from drug product manufacturer.	Firm has submitted report of verification studies of the analytical method of drug substance performed by drug product manufacturer.
3.	Provide COA of relevant batch of drug substance which is used in the manufacturing of batches of drug product.	Firm has submitted COA of API batch number 00510911/017/2020 from Pharmagen Ltd.
4.	Justify why qualitative composition is different from the reference product.	Qualitative composition is different from reference product because this is not innovator specifications but all parameters like assay, dissolution, disintegration etc are same and within specified limit as per BP.
5.	Provide reference of previous approval of applications with stability study data of the firm (if any)	No previous PSI inspection of the firm has been conducted
6.	Provide evidence of approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued dated 02-09-2020 based on the inspection dated 22-06-2020.
7.	Provide copy of commercial invoice for evidence of purchase of the drug substance.	Firm has submitted copy of commercial invoice dated 29-07-2020 specifying purchase of 40 Kg paracetamol from Pharmagen.
8.	Provide record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for accelerated and real time stability chambers.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Furthermore, the Board decided that the firm shall submit compatibility studies of excipients with the drug substance since the qualitative composition of the applied product is different from the reference product.**

	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical

		procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the reference product i.e. PANADOL Actifast tablet of GSK Ireland. Firm has submitted results of CDP in three dissolution medium for their product against the reference product i.e. PANADOL Actifast tablet of GSK Ireland.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA

Manufacturer of API	Hebei Jiheng (Group) Pharmaceutical Co. Ltd. Shenzhou Plant Southeast Xijingming Village Donganzhuang Township, Shenzhou County Henshui City, Hebei Province, China.		
API Lot No.	31709016		
Description of Pack (Container closure system)	Alu-PVC blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	Lab-01	Lab-02	Lab-03
Batch Size	1000 Tablet	1000 Tablet	1000 Tablet
Manufacturing Date	11-2020	11-2020	11-2020
Date of Initiation	21-12-2020	21-12-2020	21-12-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted reference of last onsite panel inspection for instant dosage form conducted during last two years i.e. EMPOLI (Empagliflozin) 10mg & 25mg Tablets which was presented in 290th meeting of the registration board & hence approved & registered by registration board Date of inspection: 13th June 2019. The inspection report confirms following points • The HPLC software is 21CFR Compliant. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. HE20180054 issued by China Food And Drug Administration valid till 08/07/2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice (Invoice# 1708ZP03 dated 19th October 2017 with received quantity i.e. 5000 kgs) for the purchase of Paracetamol from M/s Hebei Jiheng

		Shenzhou Pharmaceutical Co., Ltd. China with attestation of DRAP dated 01-11-2017
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete analytical record of product testing of all batches.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Qualitative composition is different from the reference product, since reference product has not used potassium sorbate and pregelatinized starch.
- Justify the use of preservative i.e. potassium sorbate in the applied formulation as tablet.
- Dissolution acceptance in USP is NLT 80% in 30 minutes while the firm has set acceptance criteria NLT 80% in 10 minutes.
- Disintegration test acceptance criteria is NMT 30 minutes, while dissolution criteria is NLT 80% in 10 minutes.

Decision of 320th meeting of Registration Board:

Deferred for the following;

- Qualitative composition is different from the reference product, since reference product has not used potassium sorbate and pregelatinized starch.
- Justify the use of preservative i.e. potassium sorbate in the applied formulation as tablet.
- Dissolution acceptance in USP is NLT 80% in 30 minutes while the firm has set acceptance criteria NLT 80% in 10 minutes.
- Disintegration test acceptance criteria is NMT 30 minutes, while dissolution criteria is NLT 80% in 10 minutes.

Response by the firm:

Firm vide its letter dated 13-09-2022 has submitted a request as follows:
Kindly note that we applied the dossier initially with the brand name of PROVAS ACTIFAST which was later on changed to PROVAS FASTIV vide our letter dated 03-05-2022.

Sr. No	Reason for deferment	Response by the firm
1.	Qualitative composition is different from the reference product, since reference product has not used potassium sorbate and pregelatinized starch.	We have used potassium sorbate and pregelatinized starch same as of innovator formulation. Firm has also submitted PIL of Panadol Actifast Tablets manufactured by GSK Ireland. However we have already submitted API-Excipient compatibility in our dossier for difference in other excipients, API –Excipient compatibility studies attached
2.	Justify the use of preservative i.e. potassium sorbate in the applied formulation as tablet.	We have used potassium sorbate in our formulation same as of innovator formulation
3.	Dissolution acceptance in USP is NLT 80% in 30 minutes while the firm has set acceptance criteria NLT 80% in 10 minutes.	With reference to our letter dated 22nd August 2022 is attached, we have revised our specifications from USP to Innovator's. Our specifications confirms to the Innovator's (GSK) specifications which are more stringent than USP specifications. Revised specifications and testing method (SPTM) and Pharmaceutical Equivalence is provided by the firm
4.	Disintegration test acceptance criteria is NMT 30 minutes, while dissolution criteria is NLT 80% in 10 minutes.	We set the disintegration specification according to USP general monograph for Disintegration <701> which specifies NMT 30 minutes for film coated tablets. Our product is fast dissolving with a dissolution specs of NLT 80% (Q) in 10 minutes and

		disintegration time of our product is also found within 01 minute which correlates with dissolution. We have revised the specification of DT from NMT 30 minutes to NMT 10 minutes. Revised specifications and testing method (SPTM) is provided by the firm.

Decision: Registration Board discussed that the applicant already has the registration of formulation containing Paracetamol 500mg as immediate release tablet whereas the firm has applied for the same formulation having different excipients and there is no change in strength, dosage form, salt form, drug delivery system etc. Considering the fact that different excipients are used in the applied product and already approved formulation, the Board deferred the case for clarification from applicant and then further deliberation.

Agenda of Evaluator PEC-XI

47.	Name, address of Applicant / Marketing Authorization Holder	M/s Bosch Pharmaceuticals (Pvt.) Ltd., Plot No. 209, Sector 23, Korangi Industrial Area, Karachi
	Name, address of Manufacturing site.	M/s Bosch Pharmaceuticals (Pvt.) Ltd., Plot No. 209, Sector 23, Korangi Industrial Area, Karachi
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 12642 dated 24/05/2022
	Details of fee submitted	PKR 50,000/-: dated 26/04/2021 PKR 25000/- dated 14/03/2022 (Slip#446590164659)
	The proposed proprietary name / brand name	Bofalgan Plus 1gm / 300mg infusion
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml vial contains: Paracetamol……..……..1000mg. Ibuprofen (as sodium dihydrate)…….300mg
	Pharmaceutical form of applied drug	Infusion
	Pharmacotherapeutic Group of (API)	Other Analgesics and Antipyretics
	Reference to Finished product specifications	Innovator's Specifications.
	Proposed Pack size	1's
	Proposed unit price	As per S.R.O
	The status in reference regulatory authorities	MAXIGESIC IV paracetamol 1000mg and ibuprofen (as sodium dihydrate) 300mg in 100mL solution for infusion vial TGA Approved
	For generic drugs (me-too status)	N/A
	GMP status of the Finished product manufacturer	GMP certificate issued to the firm on 17-07-2020 based on inspection conducted on 26-06-2019.
	Name and address of API manufacturer.	**Paracetamol:** Mallinckrodt Inc. Raleigh Pharmaceutical Plant 8801 Capital Boulevard Raleigh, North Carolina 27616 **Ibuprofen:** **Manufacturing Facility I:** Solara Active Pharma Sciences Limited., Mathur Road, periyakalapet Puducherry 605014, India

		Manufacturing Facility II: Solara Active Pharma Sciences Limited., AI/B, SIPCOT Industrial Complex, Kudikadu Village, Cuddalore 607005 Tamil Nadu India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	**Paracetamol:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months of following batches: Batches; 6088907C189, 0057907C398, 4814907C222 The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for following batches; 005712B026 for 02 years, 7637511C029 for 03years, 554210C126 for 04 years. **Ibuprofen:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. ***The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 18months at manufacturing facility I;*** Batches; 3ISH180001, 3ISH180002, 3ISH180003 Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. ***The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 09months at manufacturing facility II;*** Batches; CIBD19001V, CIBD19002V, CIBD19003V,
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that ***is Maxigesic IV Solution for Infusion by M/s AFT Pharmaceuticals New Zealand*** by

		performing quality tests (description, filled volume, particulate matter, Assay).		
	Analytical method validation/verification of product	Firm have submitted analytical method validation studies including accuracy, precision, specificity, linearity and robustness.

Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	No details of previous inspection submitted the firm		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm have submitted copy of CoPP certificate #01-0028-2016-02-ES dated 28/01/2016 of M/s Mallinckrodt Inc. Raleigh Pharmaceutical Plant 8801 Capital Boulevard Raleigh, North Carolina 27616 for Acetaminophen USP / Paracetamol Fine Powder issued by USFDA indicating the GMP compliant status of the manufacturer. The firm have submitted copy of GMP certificate #WC-0126 dated 26/07/2019 of M/s Solara Active Pharma Sciences Limited., R.S.No. 33& 34, Mathur Road, periyakalapet, Puducherry-605014, India ***(for Ibuprofen Sodium Dihydrate)*** issued by Central Drugs Standard Control Organization Ministry of Health and Family welfare India valid upto three years from date of issue. ***This certificate is being issued subject to condition that the firm shall obtain NOC from competent authority, case to case basis, to manufacturer the above mentioned active substance for purpose of export only, as above***		

		mentioned active substance are not approved for manufacturer for sale in India
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. 19075278 dated 17/02/2021 in the name of M/s Bosch Pharmaceuticals (Pvt.) Ltd., for import of 1500Kg Paracetamol Fine powder (Batch No 784520M020) from M/s Mallinckrodt Chemical Limited attested by AD (I&E) DRAP Karachi on 22/02/2021. Firm has submitted copy of commercial invoice No. 1107300837 dated 16/04/2021 in the name of M/s Bosch Pharmaceuticals (Pvt.) Ltd., for import of 05Kg Ibuprofen Sodium (Batch No CISH210013) from M/s Solara Active Pharma Sciences Limited manufacturing site II attested by AD (I&E) DRAP Karachi on 29/04/2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets is submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.1	• Submit original fee deposit slip of PKR 25000/-	
1.3.5	• Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years	
1.6.5	• Mention Name and address of API manufacturer (Both paracetamol and Ibuprofen) in this section • Submit Valid GMP certificate / DML of the Drug Substance manufacturer (for ibuprofen) issued by relevant regulatory authority of country of origin. • GMP certificate of manufacturing site I is submitted while API is imported from manufacturing site II	
3.2.S.4	• Copies of specifications and analytical procedure used for routine testing of drug substance paracetamol by drug product manufacturer is required • Analytical method verification studies for paracetamol drug substance by drug product manufacturer is required • Submit Certificate of Analysis (CoA) of the relevant batch used during product development and stability studies from Drug Substance manufacturer. • Copies of specifications and analytical procedure used for routine testing of drug substance Ibuprofen by drug product manufacturer is required • Analytical method validation studies for ibuprofen drug substance by drug product manufacturer is required • Some analytical procedure for ibuprofen drug substance given by drug substace manufacturer is from M/s Shasun chemicals and drugs, clarify? • Submit Certificate of Analysis (CoA) of the relevant batch used during product development and stability studies from Drug Substance manufacturer.	

3.2.S.6	• Reference standard of Ibuprofen drug substance if provided from M/s Shasun chemicals and drugs while Solara Active Pharma Sciences Limited is manufacturer of Ibuprofen, clarify?	
3.2.S.7	• Stability data of paracetamol of different batches at real time and accelerated conditions is submitted clarify?	
3.2.P.1	• Justification is required for not preforming pH test and sterility test in pharmaceutical equivalence as per submitted specification of drug product	
3.2.P.6	• Reference standard of Ibuprofen drug substance if provided from M/s Shasun chemicals and drugs while Solara Active Pharma Sciences Limited is manufacturer of Ibuprofen, clarify?	
3.2.P.8	• Submit 6th month stability study data at both real time and accelerated conditions • Initial page of stability summary sheet containing batch No. of FPP, API, storage conditions, date of manufacturing, date of initiation of stability study is not submitted • Stability data of different batches at real time conditions (TR-BFP-02, TR-BFP-03, TR-BFP-04) and Accelerated conditions (TR-BOINJ-02, TR-BOINJ-04, TR-BOINJ-03) is submitted clarify • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	
	•	

Decision: The Board deferred the case for clarification of the above mentioned points.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.

Administrative Portion

31.	Reference of previous approval of applications with stability study data of the firm (if any)	• Not provided
32.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Paracetamol** Copy of GMP certificate No. 23/2020-DRAP(K) in the name of Saakh Pharma (Pvt.) Ltd, Plot # C-7/1, North West Industrial Zone, Port Qasim, Karachi, Pakistan. issued by DRAP is provided by the applicant & Valid up to 17-06-2022. **Orphenadrine citrate** Copy of GMP certificate No. DCD/SPL-1/CR-1852/2020-21) in the name of R L Fine Chem Pvt. Ltd, Plot no. IP-27-29, KIADB Industrial area, 1st Phase , Kudumalakunte village, Gowribidanur -Taluk, Chikkaballapur Dist, Karnataka- 5612018, India.issued by Drug Control Department, Karnataka is provided by the applicant & Valid up to 31/03/2022.
33.	Documents for the procurement of API with approval from DRAP (in case of import).	Not provided
34.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has used UV spectrophotometer for dissolution and assay. Whereas in analytical method of Drug product manufacturer it's on HPLC.

35.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not provided
36.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not provided

Remarks OF Evaluator PEC-VI:

Sr.#	Section#	Observation
1.	**1.1**	• Firm has submitted 20,000 fee, dated 30-03-2020. Fee differential of R.s 10,000/- shall be submitted.
2.	**1.3.5**	• Approval letter of the section (Dosage form) in which manufacturing of the applied product is to be carried out needs to be submitted • GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted.
3.	**1.5.9**	Firm has provided approval of NORGESIC tablet approved by TGA, Australia, which is uncoated tablet. However, firm has applied for film coated tablet and perform the stability studies and CDP in film coated form. Justification required.
4.	**1.6.5**	Provided GMP certificates are expired for both drug substances(s) i.e. Paracetamol and Orphenadrine citrate.
5.	**3.2.S.4**	• Analytical Method verification studies for drug substance Paracetamol USP performed by Drug product manufacturer are missing. • Analytical Method verification studies for drug substance Orphenadrine citrate BP performed by Drug product manufacturer are missing. • **Batch analysis** Provide results of analysis of relevant batch(es) of both Drug Substance i.e Paracetamol + Orphenadrine citrate performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture.
6.	**3.2.S.5**	Traceability of working standard provided by Drug substance manufacturer of Paracetamol is missing.
7.	**3.2.S.7**	• In stability studies of Drug substance manufacturer of Paracetamol data for 2-year real time stability studies has been provided. However as per COA DS manufacturer is claiming 3 years shelf life. 3 years real time stability data is required. • In stability studies of Drug substance manufacturer of Paracetamol data for accelerated stability studies shall be provided.
8.	**3.2.P.2**	• Pharmaceutical Equivalence have been Performed against Nuberol forte, which is different in composition than applied product. • As qualitative composition of the formulation is not similar to innovator / reference product, the drug-excipient compatibility studies shall be provided
9.	**3.2.P.2.2.1**	Firm has performed Comparative dissolution profile with product Nuberol forte, which is different in composition than applied product. Justification required. In provided CDP profile results Paracetamol/ Orphenadrine dissolution is 0.01 -0.02 % after 60 minutes. Whereas in Pharmaceutical equivalence results dissolution is 98.28 % in 0.1 N HCl . Justification required.
10.	**3.2.P.5**	Analytical method validation for finished drug product shall be provided.
11.	**3.2.P.8.**	• Stability studies data sheets are not in accordance with the raw sheets of data. • Firm has used UV spectrophotometer for dissolution and assay. Whereas in analytical method of Drug product manufacturer it's on HPLC. • In raw data sheets of UV spectrophotometer parameters of testing's and results are missing. • Documents for the procurement of API with approval from DRAP (in case of import) of both API's. • In stability studies data sheets API lot no are 40000290161whereas COA of batch no. ORPC/191(Orphenadrine citrate) & 18GN60003(paracetamol) are attached. Justification required

12.	**3.2.P.8.3**	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.
Decision: The Board deferred the case for clarification of the above cited observations.		

Agenda of Evaluator PEC-VIII (Mr. Usman)

49.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Pharmadic Laboratories (Pvt) Ltd, 16 KM, Multan Road, Lahore
	Name, address of Manufacturing site.	M/s Pharmadic Laboratories (Pvt) Ltd, 16 KM, Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the drug product manufacturer	Firm has submitted copy of GMP certificate No. 93/2020-DRAP(AD-2003099-790) dated 09-06-2020
	Evidence of approval of manufacturing facility	Tablet General Section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 10710 dated 28-04-22
	Details of fee submitted	PKR30000 dated: 27.05.2022 bearing Deposit Slip No. 09713095356
	The proposed proprietary name / brand name	Darvin Forte 75mg/650mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Tramadol HCL … 75mg Paracetamol ….. 650mg
	Pharmaceutical form of applied drug	Film Coated Tablet
	Pharmacotherapeutic Group of (API)	Opioid & Non-Opioid Analgesic
	Reference to Finished product specifications	USP Specifications
	Proposed Pack size	1x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Tramadol/Paracetamol (uncoated tablet) 75 mg / 650 mg tablets is MHRA approved as an uncoated tablet. **Zentiva 75mg/650 mg, Tablet , Slovakia is mentioned as innovator/reference Product**
	For generic drugs (me-too status)	Tonoflex-P Forte (film coated) of M/S Sami Pharmaceuticals (Pvt) Ltd, Karachi
	Name and address of API manufacturer.	**Paracetamol (USP/BP):** M/s Saakh Pharma (Pvt) Ltd, Karachi. **GMP Certificate No. 83/2020-DRAP(K) dated 23-06-2022** **Certificate No. ZJ20170049**

		Tramadol HCL USP : M/s S.L.R. Pharma (Pvt) Limited, Situated at Plot No. A-69, API Estate Settipalli Post, Tirupati, Chittor District, Andhra Pradesh, India. License Retention Certificate dated 05-12-2019.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30ºC ± 2ºC / 65% ± 5% RH for 24 months for both API's namely **Paracetamol & Tramadol HCL USP .**
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the Tonoflex-P Forte Tablet 75/650 mg by M/s Sami Pharmaceuticals (Pvt) Ltd, Karachi by performing quality tests including Identification, water content, Assay, Dissolution, Disintegration. CDP has been performed against the same brand that is Tonoflex-P Forte Tablet 75/650 mg by M/s Sami Pharmaceuticals (Pvt) Ltd, Karachi in Acid media (0.1N HCl), acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. **The F2 values are not found satisfactory.**
	Analytical method validation/verification of product	Firm has submitted report of validation studies of analytical method of drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA	
Manufacturer of API	**Paracetamol (USP/BP):** M/s Saakh Pharma (Pvt) Ltd, Karachi. **GMP Certificate No. 83/2020-DRAP(K) dated 23-06-2022** **Certificate No. ZJ20170049**

	Tramadol HCL USP : M/s S.L.R. Pharma (Pvt) Limited, Situated at Plot No. A-69, API Estate Settipalli Post, Tirupati, Chittor District, Andhra Pradesh, India. License Retention Certificate dated 05-12-2019.		
API Lot No.	Paracetamol : ZPAR18-143 Tramadol HCL : TDH0480218		
Description of Pack (Container closure system)	The proposed pack size of Darvin Forte Tablet is 1x10's in Alu—PVC Blister.		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6(Months) Real Time: 0, 3, 6,9,12,18,24(Months)		
Batch No.	ACTD-TR001	ACTD-TR002	ACTD-TR003
Batch Size	1000 TABLETS	1000 TABLETS	1000 TABLETS
Manufacturing Date	10,2019	10,2019	10,2019
Date of Initiation	10-10-2019	10-10-2019	10-10-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	• **Not Provided**
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Paracetamol (USP/BP):** M/s Saakh Pharma (Pvt) Ltd, Karachi. **GMP Certificate No. 83/2020-DRAP(K) dated 23-06-2022** **Certificate No. ZJ20170049** **Tramadol HCL USP :** M/s S.L.R. Pharma (Pvt) Limited, Situated at Plot No. A-69, API Estate Settipalli Post, Tirupati, Chittor District, Andhra Pradesh, India. License Retention Certificate dated 05-12-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Paracetamol (USP/BP):** Not Required **Tramadol HCL USP :** **Not Provided**
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	**Not Provided.**
Evaluation by PEC:		

1. Evidence of approval of applied formulation in reference regulatory authorities as defined by the registration Board shall be submitted. As the applied formulation in reference regulatory authorities is approved as "uncoated" tablets while the applicant has applied as film coated tablets
2. Provide certificate of analysis of relevant batch(es) of Drug Substance(s) (Paracetamol & Tramadol HCL) used in product development (By both Drug Substance and Drug Product manufacturer.
3. As per submitted data of comparative dissolution profile following points have been observed:
   - For Paracetamol:
     - Value of F2 factor is 46% in Buffer Acetate pH 4.5
     - Value of F2 factor is 38% in Phosphate Buffer pH 6.8
   - For Tramadol HCl:
     - value of F2 factor is 44% in 0.1N HCL
     - Value of F2 factor is 46% in Phosphate buffer pH 6.8

   Please justify scientifically.
4. Specificity testing in Analytical method validation has not been performed for the applied Product.

Decision: Since the applied product is approved as "uncoated tablet" in reference regulatory authorities while the applicant has applied for film coated tablet. Therefore, Registration Board decided to defer the case for evidence of approval of applied formulation in reference regulatory authorities/agencies as "film coated tablet" which were declared/approved by the Registration Board in its 275th meeting.

Agenda of Evaluator PEC-XIII

50.	Name, address of Applicant / Marketing Authorization Holder	Wilson's Pharmaceuticals, Plot No. 387-388, Sector I-9, Industrial Area, Islamabad.
	Name, address of Manufacturing site.	Wilson's Pharmaceuticals, Plot No. 387-388, Sector I-9, Industrial Area, Islamabad.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales.
	Dy. No. and date of submission	Form-5F Dy. No. 3336 dated 03-02-2022.
	Details of fee submitted	PKR 75,000/-: dated 07-01-2022.
	The proposed proprietary name / brand name	Colynol Multi Symptom Severe Cold Sachet.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Sachet contains; Paracetamol …….. 500mg Phenylephrine HCl …… 10mg Dextromethorphan HBr ……. 20mg
	Pharmaceutical form of applied drug	Sachet.
	Pharmacotherapeutic Group of (API)	Cough Suppressants and expectorants. (R05FB02)
	Reference to Finished product specifications	Manufacturer specifications.
	Proposed Pack size	10's.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Theraflu Multi Symptom Severe Cold Sachet. However, the same could not be found in USFDA data. Daily med has the same product as OTC product with the following disclaimer:

		Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.
	For generic drugs (me-too status)	Could not be confirmed.
	GMP status of the Finished product manufacturer	Inspection report of 24-01-2018. Not valid.
	Evidence of section approval.	Tablet (general) section approved vide No. F. 1-19/92-Lic (P1) dated 27-07-2015.
	Name and address of API manufacturer.	**Paracetamol:** Saakh Pharma (Pvt.) Ltd., C-7/1, North Western Industrial Zone. Port Qasim, Karachi. Copy of GMP certificate No. 83/2020-DRAP(K) of M/s Saakh Pharma (Pvt.) Ltd., C-7/1, North Western Industrial Zone. Port Qasim, Karachi issued by DRAP Karachi valid till 18/06/2022. **Dextromethorphan hydro bromide:** Onerio Chemicals (Pvt.) Limited, S. No. 475/P, At & Po Ekalbara – 391 440, Ta. Padra, Distt. Vadodara, Gujrat, India. Firm has submitted license to manufacture for sale of drugs in the name of M/s Onerio Chemicals (Pvt.) Limited, issued by the Food & Drug Administration Gujrat State India valid till 13-07-2022. **Phenylephrine Hydrochloride.** M/s Shenzhen Oriental Pharmaceutical Co., Ltd., No. 43, Dakeng Road, Tongle village, Longgang District, Shenzhen China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, analytical procedures and its validation, batch analyses and justification of specification, reference standard, container closure system and stability studies of all the three drug substances and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Paracetamol (USP/BP/EP), Dextromethorphan HBr (USP/BP/EP) and Phenylephrine HCl (USP/BP/EP) is present respectively. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests impurities, specifications, analytical procedures and its validation, batch analyses and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Drug substance.)	Firm has submitted stability study data of 3 batches of the following drug substances as per Zone IV-a for both accelerated as well as real time conditions: **Paracetamol:** Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months. Accelerated: 40°C ± 2°C / 75% ± 5%RH for 12 months. (Batch No. 18GN60001, 18GN60002, and 18GN60003) **Dextromethorphan hydro bromide:** Real time: 30°C ± 2°C / 65% ± 5%RH for 72 months.

		Accelerated: 40°C ± 2°C / 75% ± 5%RH for 06 months. (Batch No. DX/B/054/12, DX/B/055/12 and DX/B/056/12) **Phenylephrine hydrochloride.** Not provided.
	Module-III (Drug Product):	The firm has submitted detail of description, composition, pharmaceutical development, manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been established against the innovator product that is Theraflu Multi symptom Severe Col Sachet by performing quality tests (Assay). Assay of both the products are in acceptable range. CDP has not been performed because our applied dosage form is powder (sachet).
	Analytical method validation/verification of product	Method validation studies have been submitted including: system suitability, accuracy, and precision.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.

Administrative Portion

37.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
38.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted GMP certificates of: Paracetamol: Copy of GMP certificate No. 83/2020-DRAP(K) of M/s Saakh Pharma (Pvt.) Ltd., C-7/1, North Western Industrial Zone. Port Qasim, Karachi issued by DRAP Karachi valid till 18/06/2022. Guaifenesin: Copy of GMP certificate No. ZJ20180122 of Zhejiang Haizhou Pharmaceutical Co., Ltd., Linhai Industrial Zone, Linhai city Zhejiang China issued by China food & Drug Administration valid until 09-25-2023. Phenylephrine Hydrochloride. Not provided.
39.	Documents for the procurement of API with approval from DRAP (in case of import).	• **Paracetamol;** Copy of commercial invoice No. PRT/2019/0208 dated 30/03/2019 is submitted. Copy of commercial invoice No. PRT/2019/0197 dated 25/03/2019 is submitted. • **Dextromethorphan HBr;** Clearance certificate No. 794 dated 14-03-2019 mentioning 300 gm quantity of Dextromethorphan HBr EP, batch No. DX/L/017/18 attested by Assistant Director I&E is submitted by the firm. • **Phenylephrine HCl** Copy of clearance certificate attested by AD (I&E) DRAP, Islamabad dated 10/05/2018 along with commercial invoice No. SZ-1803039 dated 12/04/2018 with quantity of 308.25 Gram is submitted.
40.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
41.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
42.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

Sr. No.	Section No.	Observation	Response by the firm
7.	1.3	Valid copy of DML and latest GMP certificate/inspection report conducted within last three years of the finished product manufacturer shall be provided.	
8.	1.6.5	• Valid copy of GMP certificate for drug substance manufacturer (Paracetamol) shall be submitted. • Valid copy of GMP certificate drug substance manufacturer (Phenylephrine Hydrochloride) shall be submitted. • Valid copy of manufacturing license or GMP certificate for the drug substance manufacturer (Dextromethorphan	

		HBr) issued by concerned regulatory authority shall be submitted.	
9.	2.3.R.1	• Provide blank master production document/batch manufacturing record to be used during the commercial manufacturing of the applied product. • Provide copy of Batch manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
10.	3.2.S.4.2	• Analytical method used for drug substance (Paracetamol) used by the drug Product manufacturer shall be submitted. • Analytical method used for drug substance (Dextromethorphan HBr) used by the drug Product manufacturer shall be submitted. • Analytical method used for drug substance (Phenylephrine hydrochloride) used by both the drug substance manufacturer and drug Product manufacturer shall be submitted.	
11.	3.2.S.4.3	• Verification studies of the drug substance (Paracetamol) performed by the drug product manufacturer shall be submitted. • Verification studies of the drug substance (Dextromethorphan HBr) performed by the drug product manufacturer shall be submitted. • Verification studies of the drug substance (Phenylephrine hydrochloride) performed by the drug product manufacturer shall be submitted.	
12.	3.2.S.4.4	Provide results of analysis of relevant batch(es) of all the three Drug Substances (Paracetamol, Dextromethorphan HBr & Phenylephrine hydrochloride) performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture.	
13.	3.2.S.8.3	Stability study data for the drug substance (Phenylephrine hydrochloride) from concerned manufacturer shall be submitted.	
14.	3.2.P.8.	Reference of previous approval of applications with stability study data of the firm shall be submitted.	

Decision: The Board deferred the case for the following:

- **Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.**
- **Submission of valid copy of DML and latest GMP certificate/inspection report conducted within last three years of the finished product manufacturer shall be provided.**
- **Submission of valid copy of GMP certificate for drug substance manufacturer (Paracetamol) shall be submitted.**
- **Submission of valid copy of GMP certificate drug substance manufacturer (Phenylephrine Hydrochloride) shall be submitted.**

- **Submission of valid copy of manufacturing license or GMP certificate for the drug substance manufacturer (Dextromethorphan HBr) issued by concerned regulatory authority shall be submitted.**
- **Submission of blank master production document/batch manufacturing record to be used during the commercial manufacturing of the applied product.**
- **Submission of copy of Batch manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.**
- **Submission of analytical method used for drug substance (Paracetamol) used by the drug Product manufacturer shall be submitted.**
- **Submission of analytical method used for drug substance (Dextromethorphan HBr) used by the drug Product manufacturer shall be submitted.**
- **Submission of analytical method used for drug substance (Phenylephrine hydrochloride) used by both the drug substance manufacturer and drug Product manufacturer shall be submitted.**
- **Verification studies of the drug substance (Paracetamol) performed by the drug product manufacturer shall be submitted.**
- **Verification studies of the drug substance (Dextromethorphan HBr) performed by the drug product manufacturer shall be submitted.**
- **Verification studies of the drug substance (Phenylephrine hydrochloride) performed by the drug product manufacturer shall be submitted.**
- **Submission of results of analysis of relevant batch(es) of all the three Drug Substances (Paracetamol, Dextromethorphan HBr & Phenylephrine hydrochloride) performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture.**
- **Submission of stability study data for the drug substance (Phenylephrine hydrochloride) from concerned manufacturer shall be submitted.**
- **Reference of previous approval of applications with stability study data of the firm shall be submitted.**

Agenda of Evaluator PEC-II

51.	Name, address of Applicant / Marketing Authorization Holder	**M/s SAMI Pharmaceuticals (Pvt) Ltd. F-95, Off Hub River Road, S.I.T.E. Karachi.**

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted reference of last onsite panel inspection for instant dosage form conducted during last two years i.e. EMPOLI (Empagliflozin) 10mg & 25mg Tablets which was presented in 290th meeting of the registration board & hence approved & registered by registration board Date of inspection: 13th June 2019. The inspection report confirms following points • The HPLC software is 21CFR Compliant. • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. HE20180054 issued by Hebei CHINA FOOD AND DRUG ADMINISTRATION valid till 08/07/2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice (Invoice# 1708ZP03 dated 19th October 2017 with received quantity i.e. 5000 kgs) for the purchase of Paracetamol from M/s Hebei Jiheng Shenzhou Pharmaceutical Co., Ltd. China with attestation of DRAP dated 01-11-2017
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator[II]:

- Regarding justification of specifications of drug product, firm has submitted as under:
  "The dissolution parameters and testing procedure is as per USP Pharmacopeia but as the Paracetamol is rapidly dissolving drug and falls in BCS Class I, we stringent the dissolution specifications from 30 minutes to 10 minutes
  The selection of specified time for Dissolution is based on the BCS classification of API, as the drug is independent over physiological pH range (i-e from 1.2 to 6.8) and ·as per USP General chapter <1092>, the dissolution of rapidly dissolving product is achieved within 15 minutes therefore we established our dissolution time within 10minutes."

- Firm has submitted following comparison between the applied formulation and conventional paracetamol tablet already available in market:

Parameters	**PROVAS Novo 500mg Tablet**	**Paracetamol 500mg Tablet**
Dosage Form	Tablet	Tablet
Dosage Design	Immediate release film coated tablet	Immediate release uncoated tablet
Route of Administration	Oral	Oral
Dosage Strength	500mg	500mg
Pharmacokinetics	The special technology allows **PROVAS Novo 500mg Tablet** to begin dissolving in 5 minutes and start to relieve pain within 15 minutes	Paracetamol is readily absorbed from the gastrointestinal tract with peak plasma concentrations occurring about 30 minutes to 2 hours after ingestion
Patient's Acceptance & Compliance	• Capsular shape makes it easy to swallow • Bitter taste of Paracetamol is masked through film coating • Quick & Effective Pain Relief Stomach Friendly	• Round shape makes it difficult to swallow • Bitter Taste Delayed Pain Relief
Technology Used	**PROVAS Novo 500mg Tablet** is a Paracetamol formulation that contains an advance technology to rapid the onset of action	**Paracetamol 500mg Tablet** formulated using a conventional wet granulation process
Key Features	• It has unique delivery system as **PROVAS Novo 500mg Tablet** is a Paracetamol formulation that contains a rapid dispersion and dissolution technology which breakdown Paracetamol tablets in the stomach so that the drug is absorbed fast and pain relief can start within 15 minutes after ingestion • The technology contains three main ingredients viz.: ○ **Alginic Acid** draws fluid from the stomach into the tablet causing it to swell and break apart ○ **Calcium Carbonate** works together with Alginic Acid to boost disintegration of the tablet ○ **Crospovidone** acts as a super-disintegrant due to its ability to dissolve well in water • The absorption of Paracetamol occurs in the small intestine and as such is dependent on the rate of emptying of stomach contents into the small intestine and is therefore not associated with gastric irritation. The technology used in **PROVAS Novo 500 mg** Tablet increases gastric emptying time of the drug. • **PROVAS Novo 500mg Tablet** with this advance technology disperses up to five times faster than standard paracetamol tablets Suitable for all such patients requiring low sodium content in their diet	Onset of action is slow, as peak plasma concentrations occurring about 30 minutes to 2 hours after ingestion

Section#	**Observations**	**Firm's response**

3.2.P.5.1	• Limits for disintegration test i.e., NMT 30 minutes are inconsistent with the limits of dissolution test i.e., NLT 80% (Q) in 10 minutes.	We set disintegration specification according to USP general monograph for Disintegration <701> which specifies NMT 30minutes for film coated tablets. Our product is fast dissoving with a dissolution specs of NLT 80% (Q) in 10 minutes and disintegration time of our product is also found within 01 minute which co relates with dissolution. We have revised the specification of DT from NMT 30 minmutes to NMT 10 minutes.
3.2.P.6	• Submitted COA of working standard declares the "Valid till" date as January 2021, whereas trial batches have been manufactured and analyzed subsequent to this date. • Submitted COA of working standard is of BP grade, whereas drug product specifications have been claimed as per USP monograph.	Firm has submitted new COA of working standard, which had been standardized in January 2021 having validity date as of Jan, 2022. Firm has submitted that the working standard complies with both & USP monograph of Paracetamol, since both the monographs are harmonized.

Decision of 320th meeting: The Board was apprised that the firm has applied for two products with the similar formulation that is Paracetamol, film coated tablet with slight difference in method of manufacturing and qualitative composition. The Board after due deliberation decided to defer the case for clarification whether an applicant can apply for registration of more than two products having same composition or otherwise.

Firm's response:

PANADOL Conventional Tablets	**PANADOL ADVANCE & PROVAS NOVO 500 mg Tablet**
1) Marketing Authorization Status:	
Panadol 500mg is marketed by GlaxoSmithKline Consumer Healthcare (UK) Trading Limited bearing **Marketing authorization number(s)** PL 44673/0081 **Reference attached** https://www.medicines.org.uk/emc/product/6474/smpc#gref	Panadol advance 500mg is marketed by GlaxoSmithKline Consumer Healthcare (UK) Trading Limited bearing **Marketing authorization number(s)** PL 44673/0080 **Reference attached** https://www.medicines.org.uk/emc/product/6512/smpc#gref
2) Pharmacokinetics	
-	• Human scintigraphy data demonstrate that Panadol Advance 500 mg Tablets generally start to disintegrate by 5 minutes post dose in the stomach • 37% faster compared to standard paracetamol tablets • It dissolves in 5 minutes and start to relieve pain within 15 minutes **Reference attached** https://www.medicines.org.uk/emc/product/6512/smpc#gref
3) Disintegration time	
Disintegration Time: within 15minutes	**Disintegration Time:** within 10minutes
Dissolution	
Dissolution Test: NLT 80% (Q) in 30minutes	**Dissolution Test: NLT 80% (Q)** in 10minutes
4) Technology/Formulation	

Standard Paracetamol tablet formulated using conventional wet granulation process	Optizorb technology is used to provide rapid onset of action and allows it to dissolve in 5minutes and start to relive pain with in 15minutes
5) Excipients	
-	• Contain a unique disintegrant system which consist on following three excipients: ▪ **Alginic acid** which draws fluid from the stomach into the tablet causing it to swell and break apart ▪ **Calcium Carbonate** works together with Alginic Acid to boost disintegration of the tablet **Crospovidone** acts as a super-disintegrate due to its ability to dissolve well in water

Decision:The Board discussed that the applicant already have the registration of formulation containing Paracetamol 500mg as immediate release tablet whereas the firm has applied for the same formulation having different excipients and there is no change in strength, dosage form, salt form, drug delivery system etc. Considering the fact that different excipients are used in the applied product and already approved formulation, the Board deferred the case for clarification from applicant and then further deliberation.

	For generic drugs (me-too status)	Panadol 500mg Tablets Manufactured by M/s Pharmatec Pakistan (Pvt) Ltd and marketed by M/s GlaxoSmithKline Pakistan. (Reg. No.: 101138)

	GMP status of the Finished product manufacturer	Renewal of DML granted dated 12-01-2022.
	Name and address of API manufacturer.	M/s Zenith Chemical industry Lahore.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 75% ± 5%RH for 48 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Paracetamol 500mg Tablets of M/s GlaxoSmithKline Pakistan.
	Analytical method validation/verification of product	Method validation studies have submitted including, system suitability, specificity, linearity, accuracy, precision repeatability, Intermediate precision and robustness.

STABILITY STUDY DATA

Manufacturer of API	M/s Zenith Chemical industry Lahore.		
API Lot No.	ZPAR20-350		
Description of Pack (Container closure system)	Alu-PVC blister packed		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 75% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 12 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9 & 12 (Months)		
Batch No.	B1	B2	B3
Batch Size	5000 Tablets	5000 Tablets	5000 Tablets
Manufacturing Date	04-2021	04-2021	04-2021

No. of Batches		03
Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	• --
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of certificate of Good Manufacturing Practices (GMP) issued by Hebei Food and Drug Administration. (valid till 08-07-2023).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches along with batch manufacturing record, analytical record
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Section #.	Deficiencies
3.2.S.4	Drug substance analytical method verification studies shall be submitted by M/s British pharmaceuticals.
3.2.P.1	Drug product description declares it as film coated tablet whereas submitted composition is for uncoated tablet.
3.2.P.2.2.1	Clarification shall be submitted for reporting f2 factor value as 100 for CDP studies in three dissolution mediums of pH 1.2,4.5 & 6.8.
3.2.P.5.3	Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.
3.2.P.8.3	• Document for the procurement of drug substance shall be submitted. • Complete analytical record for the performance of dissolution test during stability studies shall be submitted. • Complete raw data sheets wherein details of sample solution preparation, standard solution preparation, weight of standard & sample and calculation formula applied for the test Assay & Dissolution test shall be submitted for complete stability studies.

Decision of 320thmeeting: Deferred for;

- Submission of drug substance analytical method verification studies by M/s British pharmaceuticals.
- Clarification since drug product description declares it as film coated tablet whereas submitted composition is for uncoated tablet.
- Clarification shall be submitted for reporting f2 factor value as 100 for CDP studies in three dissolution mediums of pH 1.2,4.5 & 6.8.
- Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.
- Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.
- Submission of document for the procurement of drug substance shall be submitted.

- Submission of complete analytical record for the performance of dissolution test during stability studies.
- Submission of complete raw data sheets wherein details of sample solution preparation, standard solution preparation, weight of standard & sample and calculation formula applied for the test Assay & Dissolution test for complete stability studies.

Firm's response:

Section #.	Deficiencies	Firm's response
3.2.S.4	• Drug substance analytical method verification studies shall be submitted by M/s British pharmaceuticals.	• Submitted
3.2.P.1	Drug product description declares it as film coated tablet whereas submitted composition is for uncoated tablet.	Drug product is uncoated/core tablet. It is typographical error. Description is revised
3.2.P.2.2.1	Clarification shall be submitted for reporting f2 factor value as 100 for CDP studies in three dissolution mediums of pH 1.2,4.5 & 6.8.	Drug product is uncoated/core tablet and formulation is same as of innovator's product so dissolution behavior observed was similar to innovator's product and value of f2 factor observed was 100.
3.2.P.5.3	Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines.	Submitted
3.2.P.8.3	• Document for the procurement of drug substance shall be submitted. • Complete analytical record for the performance of dissolution test during stability studies shall be submitted. • Complete raw data sheets wherein details of sample solution preparation, standard solution preparation, weight of standard & sample and calculation formula applied for the test Assay & Dissolution test shall be submitted for complete stability studies.	• Copy of commercial invoice no. 00004/0421 dated 01-04-2021 for procurement of 500Kg of Paracetamol from M/s Zenith Chemical Industries. • Submitted.

Decision: Approved

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Furthermore, the Board decided that the manufacturer shall submit Comparative Dissolution Profile again against the innovator's product with the complete calculations for F2 and F1 factors before issuance of registration letter.**

Remarks OF Evaluator: Following deficiencies / Shortcomings were observed during the evaluation of Dossier, A deficiency letter dated 19-09-2022 is communicated to firm, Reply of which is still awaited.

1. GMP certificate of manufacturing site (API Manufacturer) for Tramadol Hcl is missing, which is required.
2. Firm has claimed that process of coating under controlled and sterile environment, which needs clarification whether sterile area is required for coating of this product or not.
3. COA of Paracetamol API batch No. 21GN60186 is submitted, COA conducted for same batch by Finished product manufacturer is required.
4. The stability data of Paracetamol API conducted by API manufacturer, M/s Saakh Pharma, Karachi for all three provided batches, (18GN60001,18GN60002,18GN60003) does not depict quantitative results of Test for organic impurities and related substance, i-e 4-amino phenol.
5. The comparative study results of applied product TP-DUX with comparator product Rama-D Tablet Mention Limit of salicylic acid as NMT 3.0 % which needs clarification as such impurity is not present in API specifications.
6. The applied Finished product specification is USP specification, the dissolution specification is given as NLT 80% (Q) of labeled amount in 30 minutes (USP) in 0.1 N HCl with analytical procedure with HPLC, however the comparative dissolution data provided, the analytical method used is Ultraviolet Spectroscopy, which needs clarification.
7. The apparatus mentioned for dissolution as per USP type II with 50 RPM whereas per submitted CDP firm has conducted on 100 RPM, Clarification is needed.
8. The CDP data/results of applied and comparator product does not qualify finished good specification for dissolution profile at 0.1 N CL medium within 30 minutes.
9. The results /data submitted by firm for manufacturing process validation does not specify the method of assay to determine Paracetamol and Tramadol Hcl during manufacturing process validation studies.
10. Stability study data of 3 months is provided for both accelerated and real time stability studies however 06-month stability study data is required.
11. The provided stability data for three batches T001, T002 and T003 depict assay of Finished drug product as whole instead of individual APIs within finish Product with their specific assay results of each API at each time point.
12. Firm has mentioned that they have attached GMP of SAAKH Pharma and Aurobindo Pharma, whereas per 3.2.S.2.1 the source of API mentioned for Tramadol is M/s Lucent Pharma, Hyderabad, India. Clarification is needed.
13. Import invoice of API, Tramadol Hcl (API) dully attested by DRAP is not provided.
14. GMP certificate of manufacturing site for Tramadol HCl is not provided.
15. Record of Digital Data logger for Temperature and humidity monitoring for stability chamber is not provided.
16. Firm has not provided chromatograms generated during the stability study testing (Assays and Dissolution testing) instead firm has provided UV graphs for absorption , which needs clarification whether firm has conducted assay as per USP monograph ,i-e HPLC method or UV method.

Decision: The Board deferred the case for clarification of above mentioned points.

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Sr. No.	Observations Communicated	Response by the applicant on WhatsApp
i.	Submit copy of valid DML	Copy of DML No. 000789 renewed w.e.f. 03-02-2019 is submitted. However, the name of manufacturer in previous DML was **M/s Wimits Pharmaceuticals** while in new DML, it is **M/s Wimits Pharmaceuticals (Pvt.) Ltd.**
ii.	Submit clarification regarding out of limit Relative Standard Deviation RSD of Accuracy testing in verification of analytical procedures for Tramadol HCl.	The firm has submitted the revised RSD limits for verification of analytical procedures.
iii.	Submit clarification as Assay specification limits used in drug substance analysis of Paracetamol performed by drug product manufacturer are in accordance with BP monograph (99-101%) while in stability study data Assay specification limits are as per USP monograph (98-102%).	The firm submitted that the supplier complies with both BP & USP monograph and they had followed more stringent limit for the analysis i.e. 99-101%.
iv.	Clarification of not submitting compatibility studies as there is difference in qualitative formulation of applied product and Innovator product.	The firm has submitted the tabulated results of compatibility studies.
v.	Submit Pharmaceutical Equivalence as per pharmacopoeia monograph of the product.	The submitted Pharmaceutical Equivalence does not include Uniformity of Dosage Unit Test.
vi.	Maximum holding time of bulk before final packing is not submitted.	The firm submitted that the batch is processed right after dispensing and the bulk is not held for too long and batch is completed in 24hrs.
vii.	APIs lot no. is not indicated in stability study data.	The firm has submitted the revised stability data sheet indicating API Lot No. However, the mentioned lot of Tramadol HCL is different from the lot tested by drug product manufacturer.
viii.	Submitted DRAP attested invoice of Tramadol HCl is from Chemo S.A. Lugano Branch, Via F. Pelli 17, P.O. Box 6901, Lugano, Switzerland while the manufacturer of Tramadol HCl as per dossier is M/s Proto Chemicals AG, Tschachen 2, 8756 Mitlödi (Glarus Süd), Switzerland.	The firm submitted that Chemo S.A. Lugano is trader while Proto Chemicals is API manufacturer.
ix.	API lot numbers are not mentioned on local sales invoice of Paracetamol.	The firm has submitted the revised sales tax invoice indicating batch number of API. However, the invoice indicates the manufacturing date of API as **09-12-2021** while the record of trial batch of drug product manufactured from this API indicates the manufacturing date as **November, 2021**.
x.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing are not submitted.	The firm has submitted the audit trail of 03 days for HPLC.

Decision: The Board deferred the case for following points;

- **Clarification since the firm has submitted the invoice indicating batch number of Paracetamol, however, the invoice indicates the manufacturing date of Paracetamol (drug substance) as 09-12-**

	2021 while the record of trial batch of drug product manufactured from this lot indicates that the manufacturing date is November, 2021. • **Clarification since the firm has submitted the revised stability data sheet indicating th Lot No of Tramadol HCl, however, the mentioned lot of Tramadol HCl is different from the lot used for the product development.**

Agenda of Evaluator PEC-IV

55.	Name, address of Applicant / Importer	M/s INAYA TRADERS Flat no. 1, 1st floor, Plot no. A-152 Block-8, KAECHS, Karachi.
	Details of Drug Sale License of importer	**License No:** 0238 **Address:** Flat no. 1, 1st floor, Plot no. A-152 Block-8, KAECHS, Karachi. **Validity:** 21-June-2024

	Details of fee submitted	PKR 150,000/- Deposit slip # 2179283144

	The proposed proprietary name / brand name	**PARACETAMOL 500MG Tablet B.P**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet Contains: Paracetamol…….500mg
	Pharmaceutical form of applied drug	Uncoated Tablet
	Pharmacotherapeutic Group of (API)	Non-steroidal anti-inflammatory drug (NSAID)
	Reference to Finished product specifications	B.P
	Proposed Pack size	20 x 10's & 1000's
	Proposed unit price	As per PRC
	The status in reference regulatory authorities	Paracetamol 500mg Tablets of Fourrts (UK) Pharmacare Ltd MHRA Approved Actavis Paracetamol 500mg Tablets of Fourrts (UK) Pharmacare Ltd MHRA Approved
	For generic drugs (me-too status)	Panadol 500mg of M/ GSK
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Hebei Jiheng Pharmaceuticals Co., LTD Address: No. 1Weiwu Street, Hengshui Industrial Park, Hebei Province, China.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 25°C ± 2°C / 60 ± 5% RH for 48 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months. Batches: (011608001, 011608002, 011608003)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation report, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against Paracetamol 500mg Tablet by GSK (190312) by performing quality tests (Identification, Average weight, related substances, microbial limit, Assay, Dissolution, Uniformity of weight). CDP has been performed against the same brand by in Acid media (pH 1.2) & Acetate buffer 4.5 pH and

		Phosphate Buffer (pH 6.8) . The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies of the drug product.
	Container closure system of the drug product	PVC and Aluminium foil
	Stability study data of drug product, shelf life and storage conditions	Accelerated stability studies have been conducted at 40 ^{o}C ±2 ^{o}C and 75%±5% RH for 06 months. Real time stability studies conducted at 30 ^{o}C±2 ^{o}C and 65% ± 5% RH for 36months. Batches: (180611, 180612, 180613)

Evaluation by PEC:

S.No	Section	Shortcoming communicated	
1.	1.3.1	Name and address of marketing authorization holder (abroad)	Submitted
2.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	Firm submitted analytical verification studies of of drug substance.
3.	3.2.S.4.4	Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture	Firm submitted Certificate of analysis by both drug substance manufacturer and drug product manufacturer.
4.	3.2.P.2.2.1	• Submit details of manufacturer, marketing authorization including country of origin of product against which pharmaceutical equivalence and Comparative dissolution profile conducted. • F1 or F2 calculation for comparative dissolution not submitted.	Paracetamol 500mg tablet manufactured by Accord Healthcare Ireland Ltd Batch No# 190312 Mfg date: 2019/04 Exp date: 2022/04 **(In initial dossier firm submitted that pharmaceutical equivalence and CDP was conducted against Product of GSK in reply they submitted that pharmaceutical equivalence and CDP was conducted against Paracetamol 500mg tablet manufactured by Accord Healthcare Ireland Ltd)** • F2 calculations submitted.

Decision: The Board deferred the case for clarification since in initial dossier firm submitted that pharmaceutical equivalence and CDP was conducted against Product of GSK in reply they submitted that

pharmaceutical equivalence and CDP was conducted against Paracetamol 500mg tablet manufactured by Accord Healthcare Ireland Ltd.		
56.	Name, address of Applicant / Marketing Authorization Holder	M/s Citi Pharma Private Limited

	Details of fee submitted	PKR 75000/- dated 07.07.2022
	The proposed proprietary name / brand name	COLDENOL COLD + FLU SEVERE TABLET
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Paracetamol….....325mg Dextromethorphan Hydrobromide….10mg Guaifenesin…….200mg Phenylephrine HCl….5mg
	Pharmaceutical form of applied drug	Film Coated Tablet
	Pharmacotherapeutic Group of (API)	Antipyretic/ Anti tussive/ Decongestant/ Expectorant
	Reference to Finished product specifications	As per Innovators Specifications
	Proposed Pack size	10's 20's & 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Tylenol Cold Plus Flu Severe Caplets of Johnson & Johnson USA
	For generic drugs (me-too status)	NA
	GMP status of the Finished product manufacturer	Copy of inspection report by area FID dated 24.01.2018 indicates good level of GMP.
	Name and address of API manufacturer.	**Paracetamol:** M/s Saakh Pharma Pvt Limited, C-7/1, North Western Industrial zone Port Qasim Karachi. **Dextromethorphan Hydrobromide** M/s Oneiro Chemicals Pvt Limited, S. No. 475/P, at & Post Ekalbara Tal- Padra District Vadodara 391440 Gujarat India. **Guaifenesin** M/s Zhejiang Haizhou Pharmaceuticals Co., Ltd Linhai Industrial Zone, Linhai Zhejiang 317016 China. **Phenylephrine HCl** M/s Shenzhen Oriental Pharmaceutical Co., Ltd, 43 Dakeng Road, Tongle Village Longgang Town, Longgang District Guangdong China

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurities specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 3 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 3 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure (including dissolution testing) and batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the USFDA OTC Product Tylenol Cold Plus Flu Severe Tablets. CDP has been performed against the aforesaid brand in three media. The f2 value are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies have been submitted.

STABILITY STUDY DATA	
Manufacturer of API	Paracetamol: M/s Saakh Pharma Pvt Limited, C-7/1, North Western Industrial Zone Port Qasim Karachi. Dextromethorphan Hydrobromide M/s Oneiro Chemicals Pvt Limited, S. No. 475/P, at & Post Ekalbara Tal- Padra District Vadodara 391440 Gujarat India. Guaifenesin M/s Zhejiang Haizhou Pharmaceuticals Co., Ltd Linhai Industrial Zone, Linhai Zhejiang 317016 China. Phenylephrine HCl M/s Shenzhen Oriental Pharmaceutical Co., Ltd, 43 Dakeng Road, Tongle Village Longgang Town, Longgang District Guangdong China

No. of Batches	03		

Administrative Portion		
49.	Reference of previous approval of applications with stability study data of the firm (if any)	Not provided by the firm
50.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Paracetamol:** GMP certificate issued by DRAP Karachi dated 23.06.2020. **Dextromethorphan Hydrobromide** Copy of DML issued by Commissioner Food & Drug Administration Gandhinagar India. **Guaifenesin** Copy of GMP certificate issued by CFDA China valid till 25.09.2023 **Phenylephrine** Copy of GMP certificate issued by Guangdong Food and Drug Administration China dated 12.09.2019
51.	Documents for the procurement of API with approval from DRAP (in case of import).	Not provided by the firm
52.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
53.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not provided
54.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Provided

Remarks of Evaluator:

The product (Tylenol Cold Plus Flu Severe Caplets of Johnson & Johnson USA) used for comparative dissolution is marketed as OTC (OTC Monograph Final) in USA. The label of the product contains a disclaimer which is as under:

***"DISCLAIMER:** Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies".*

Decision: Deferred for;

- **Evidence of approval of applied formulation as drug in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.**
- **Submission of documents for the procurement of API with approval from DRAP (in case of import).**
- **Submission of Compliance Record of HPLC software 21CFR & audit trail reports on product testing.**

Agenda of Evaluator PEC-I

Remarks OF Evaluator-I:

<table>
<tr><th>Observations</th><th>Response</th></tr>
<tr><td>Valid copies of GMP certificates of manufacturers of drug substance (Paracetamol + Diphenhydramine HCl).</td><td>Paracetamol: M/s Citi Pharma
Copy of GMP certificate No. 112021-DRAP (FID-2036001-5101) dated 06/01/2021..
Diphenhydramine hydrochloride:
Copy of GMP certificate No. IT-AP/28/H/2020 issued on the basis of inspection conducted on 21/06/2019 AIFA Italy.</td></tr>
<tr><td>Provide analytical method verification studies including specificity, accuracy and precision for drug substances (Paracetamol & Diphenhydramine HCl) performed by drug product manufacturer.</td><td>The firm has submitted analytical method verification studies for the drug substances performed by drug product manufacturer.</td></tr>
<tr><td>Provide documents for the procurement of API with approval from DRAP for Diphenhydramine HCl.</td><td>Copy of attested Invoice No. 6045000965 dated 21/10/2020.
Copy of Form 6 dated 09/11/2020</td></tr>
<tr><td>Provide batch size for all three stability batch size term of number of tablets and date of initiation of stability studies.</td><td><table><tr><td>4P4E</td><td>4P4F</td><td>4P4G</td></tr><tr><td>750,000 tabs</td><td>750,000 tabs</td><td>750,000 tabs</td></tr><tr><td>May, 2022</td><td>June, 2022</td><td>June, 2022</td></tr><tr><td>18/06/2021</td><td>18/06/2021</td><td>18/06/2021</td></tr></table></td></tr>
<tr><td>Significant change is observed in the assay results of Diphenhydramine HCL in:
Accelerated stability studies for Batch Number 4P4E and 4P4G
Real time stability studies for Batch Number 4P4F
Please justify.</td><td>The assay results for Diphenhydramine HCI are dropped, however these are still well within shelf life specification i.e. 92.5-107.5%. The minimum assay value at 6 months accelerated condition is 94.80% and this justifies 2 year shelf life of the product.
The degradation profile of these batches were reviewed at 6 months accelerated conditions and notice no significant change in degradation products hence this justifies product stability over the shelf life.
The real time stability studies are continued and we have 9months & 12 months stability results which shows increased assay value for Diphenhydramine HCI. This indicates that drop observed at 3 & 6 months time point might be due to sample to sample and analytical variation and practically there is no significant change in assay of Diphenhydramine HCI. The results are tabulated below:</td></tr>
</table>

Batch Number	Initial results	Real Time 3 Months	% change	Real Time 6 Months	% change	Real Time 9 Months	% change	Real Time 12 Months	% change
4P4E	102.33%	94.13%	8.0 %	98.69%	3.5 %	101.70%	0.6 %	100.49%	1.7 %
4P4F	100.84%	97.89%	2.9 %	94.95%	5.8 %	100.40%	0.4 %	102.93%	2.0 %
4P4G	101.29%	96.45%	4.7 %	96.96%	4.2 %	100.40%	0.8 %	102.64%	1.3 %

Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of applicable fee that is Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Remarks OF Evaluator-I:

Observations	**Response**
Valid copies of GMP certificates of manufacturers of drug substance (Paracetamol + Orphenadrine Citrate).	
Provide analytical method verification studies including specificity, accuracy and precision for drug substances (Paracetamol & Orphenadrine Citrate) performed by drug product manufacturer.	
Provide documents for the procurement of API with approval from DRAP for Orphenadrine Citrate.	
Justification is required for selection of dissolution parameter including type of apparatus, speed, medium (Phosphate buffer 5.8pH) and time (45mins-NLT75%(Q))	
Provide date of initiation of stability studies for all the three batches of the applied product.	
Clarification is required regarding the brand name of the applied product since you have provided two brand name that is Askprol CF Tablets and Panadol Muscle Relaxant Tablet.	
The submitted stability study data is till 3rd month time point. Please provide stability study data till 6th month time point for the applied product.	
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and	

accelerated) and Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	

Decision: The Board deferred the case for above mentioned points.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	**Ibuprofen:** Official monograph is present in United States pharmacopeia. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity D, G & related substances (impurity A & unspecified), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. **Paracetamol:** Official monograph is present in British pharmacopeia. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity D, G & related substances (impurity A & unspecified), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: **Ibuprofen:** **Real time:** 30˚C ± 2˚C / 65% ± 5%RH for 60 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH for 6 months **Batches:** C100-1507197M, C100-1507198M & C100-1507199M **Paracetamol:** **Real time:** 30˚C ± 2˚C / 65% ± 5%RH for 54 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH for 6 months **Batches:** 1331, 1332 & 1333
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is **Tachifene Tablet** by **M/s Angelini Francesco S.p.A (Lot no.021)** by performing quality tests (Identification, Assay, Dissolution, and Uniformity of dosage form). CDP has been performed against the same brand that is **Tachifene Tablet by M/s Angelini Pharma** in Acid media (0.1 N HCL) & Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). For **Ibuprofen**: •It was found that both reference & test product shows low solubility in 0.1N HCl but resemblance in dissolution profile, the similarity factor, f2 is 93 which is greater than 50 & the difference factor f1 is 6 which is less than 15. •It was found that both reference & test product show low solubility in acetate Buffer pH 4.5 but resemblance in dissolution profile, the profile similarity factor, f2 is 93 which is greater than 50 & the difference factor f1 is 4 which is less than 15. •It was found that both reference & test product show greater than 85% dissolution within 15 minutes in Phosphate Buffer pH 6.8, therefore they are considered as similar & f2 value calculation is not applicable. For **Paracetamol**: • It was found that both reference & test product shows 85% dissolution within 15 minutes in 0.1N HCl shows resemblance in dissolution profile, the profile similarity factor, f_2 value calculation is not applicable. • It was found that both reference & test product shows greater than 85% dissolution within 15 minutes in acetate Buffer pH 4.5, therefore they are considered as similar & f_2 value calculation is not applicable. • It was found that both reference & test product show 85% dissolution within 15 minutes in Phosphate Buffer pH 6.8 shows resemblance in dissolution profile, therefore they are considered as similar & f_2 value calculation is not applicable.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	**Ibuprofen** M/s Hubei Biocause Heilen Pharmaceutical Co., Ltd **Address:**122 Yangwan Road, Jingmen City, Hubei Province 448000, People's Republic of China **Paracetamol** M/s Zafa Chemie **Address**: Raiwind Manga Bypass, Near Sundar Industrial Estate, Mouza Bhaikot, Tehsil & District Lahore.

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 06/2019-DRAP (AD/607409-530) issued by DRAP valid till 08-01-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of letter No.12192/2021/DRAP-AD-VIII(I&E) dated 12/08/2021 is submitted wherein the permission to import different APIs including Paracetamol for the purpose of test/analysis and stability studies is granted. Invoice # 322 date 03-09-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.no.	**Sections**	**Observations/Deficiencies/ Short-comings**	**Reply of the Firm**
1.	**3.2. S.4.2**	Provide detailed analytical procedures used for the testing of drug substance by drug product manufacturer.	Firm submit the detailed analytical procedure used for testing of drug substance by drug product manufacturer.

2.	**3.2. S.4.3**	Provide analytical Method validation studies of drug substance performed by the drug product manufacturer.	Firm submit the analytical method verification report of drug substance performed by drug product manufacturer.
3.	**3.2. S.5**	Submit COA of reference standard actually used in the analysis of drug substance in section 3.2. S.5.	Firm submitted the COA of working standard of M/s. Pharmagen Limited which was expired on 18th August,2021.
4.	**3.2.S.7**	COA of drug substance reveal that the injectable grade drug substance has been procured for the manufacturing of drug product, while the stability data of drug substance was of simple paracetamol, clarification is required in this regard.	Firm submitted the revised stability data of paracetamol injectable grade. However, the batch size of stability batches was of lab scale. As evident from batch title which are Lab experiment/001/2016,Lab experiment/002/2016,Lab experiment/003/2016,batch size has not mentioned on stability data summary sheets.
5.	**3.2. P.3.2**	Scientific justification is required for not using antioxidant in the applied formulation since the innovator brand used cysteine as an antioxidant because paracetamol is susceptible to degradation by oxidation.	Firm in their reply stated that We are using sodium metabisulphite that has anti-oxidant and preservative properties and it is compatible with our formulation as the product is stable under the real time and accelerated stability conditions.
6.	**3.2.P.5.4**	Assay has been performed on UV method as evident from the submitted analytical procedure and validation report, justify for choosing the UV method over HPLC method for assay in light of review reports of innovator and reference product.	Firm in their reply stated that, we have now upgraded the method from UV to HPLC the newly HPLC testing data of retain samples and stability samples is attached with this letter. Furthermore we have validated the testing method on HPLC and the data is attached.
7.	**3.2.P.5.4**	Scientific justification is required for not performing test of osmolality while batch release of trial batches of drug product, since the test has included in drug product specification of innovator brand.	The Osmolarity testing is now included in product testing specification the newly testing data of retain samples and stability samples is attached with this letter.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Item No. 02 Registration applications of newly granted DML or New section (Human)

M/s May & Baker Pharmaceuticals (Pvt.) Ltd. 45 Km, Thokar Multan road, Lahore

The Central Licensing Board in its 285th meeting held on 17th & 18th March, 2022 has approved the grant of DML by way of formulation for sections of Injectable ampoule (General), Capsule section (general), Dry powder suspension section (general), Dry powder vial section (general), notified vide letter no. F.1-10/2019-Lic. Dated 29-04-2022

64.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s May & Baker Pharmaceuticals (Pvt.) Ltd. 45 Km, Thokar Multan road, Lahore**
	Name, address of Manufacturing site.	M/s May & Baker Pharmaceuticals (Pvt.) Ltd. 45 Km, Thokar Multan road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Evidence of Manufacturing facility	Issuance of DML vide letter no. F.1-10/2019-Lic. Dated 29-04-2022 for sections of Injectable ampoule (General), Capsule section (general), Dry powder suspension section (general), Dry powder vial section (general)
	Dy. No. and date of submission	Dy. No 26378 dated 19-09-2022
	Details of fee submitted	Rs.30,000/- dated 13-09-2022
	The proposed proprietary name / brand name	**Inset 8mg/4ml Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 4ml ampoule contains: Ondansetron as Hydrochloride dihydrate ……. 4mg
	Pharmaceutical form of applied drug	Clear and colorless solution filled in clear glass ampoules with blue color breaking ring
	Pharmacotherapeutic Group of (API)	Anti-emetics
	Reference to Finished product specifications	USP
	Proposed Pack size	4ml×1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	MHRA Approved.
	For generic drugs (me-too status)	ONSET Injection 4mg/2ml by M/s Pharmedic Laboratories (Pvt) Ltd.
	GMP status of the Finished product manufacturer	Issuance of DML vide letter no. F.1-10/2019-Lic. Dated 29-04-2022 for sections of Injectable ampoule (General), Capsule section (general), Dry powder suspension section (general), Dry powder vial section (general)
	Name and address of API manufacturer.	M/s Anugraha Chemicals, No. D-47 to D-50 & C-62 to C-63 KSSIDC INDUSTRIAL ESTATE, Doddabullapur, banghaluru rural District-561203, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and

		justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Onset injection by M/s Pharmedic.
	Analytical method validation/verification of product	Method validation studies have been submitted.

	Details of fee submitted	Rs.30,000/- dated 13-09-2022
	The proposed proprietary name / brand name	**Inset 4mg/2ml Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 2ml ampoule contains: Ondansetron as Hydrochloride dihydrate ……. 4mg
	Pharmaceutical form of applied drug	Clear and colorless solution filled in clear glass ampoules with blue color breaking ring
	Pharmacotherapeutic Group of (API)	Anti-emetics
	Reference to Finished product specifications	USP
	Proposed Pack size	2ml×1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	MHRA Approved.
	For generic drugs (me-too status)	ONSET Injection 4mg/2ml by M/s Pharmedic Laboratories (Pvt) Ltd.
	GMP status of the Finished product manufacturer	Issuance of DML vide letter no. F.1-10/2019-Lic. Dated 29-04-2022 for sections of Injectable ampoule (General), Capsule section (general), Dry powder suspension section (general), Dry powder vial section (general)
	Name and address of API manufacturer.	M/s Anugraha Chemicals, No. D-47 to D-50 & C-62 to C-63 KSSIDC INDUSTRIAL ESTATE, Doddabullapur, banghaluru rural District-561203, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and

		justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Onset injection by M/s Pharmedic.
	Analytical method validation/verification of product	Method validation studies have been submitted.

STABILITY STUDY DATA			
Manufacturer of API	M/s Anugraha Chemicals, No. D-47 to D-50 & C-62 to C-63 KSSIDC INDUSTRIAL ESTATE, Doddabullapur, banghaluru rural District-561203, INDIA		
API Lot No.	AOND/RD/20005		
Description of Pack (Container closure system)	Glass ampoules		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 03 months Accelerated: 03 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	Trial 01	Trial 02	Trial 03
Batch Size	1000 ampoules	1000 ampoules	1000 ampoules
Manufacturing Date	03-2022	03-2022	03-2022
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. DCD/SPL.CL-1/CR-1510/2020-21) issued by Drugs Control Department Government of Karnataka India dated 06-02-2021. The GMP certificate is valid for one year from the date of issue.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Section#	**Observations**	**Firm's response**

1.6.5	Name of Drug substance manufacturer is different form that mentioned in section 3.2.S.2.1	Firm has submitted that it was a drafting error and the drug substance manufacturer is same as mentioned in 3.2.S.2.1.
3.2. S.4.3	Analytical method verification studies for drug substance shall be submitted from drug product manufacturer.	Submitted.
3.2.P.5.1	Drug product specifications & analytical procedure shall be submitted.	Firm has referred to the USP monograph for "Ondansetron injection".
3.2.P.8	Documents confirming procurement of drug substance shall be submitted.	Firm has submitted "Loan Letter for API Ondansetron" from M/s Vision pharmaceuticals in the name of M/s M/s May & Baker

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

66.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s May & Baker Pharmaceuticals (Pvt.) Ltd. 45 Km, Thokar Multan road, Lahore**

Remarks of Evaluator:

Section#	Observations	Firm's response
1.5.1	Submitted brand name mentions strength as 500mg/ml instead of 500mcg/ml.	It was a drafting error the mentioned strength is 500mcg/ml.
1.5.6	Pharmacopoeial reference for applied formulation has been declared as JP specifications whereas no JP monograph is available for applied formulation.	JP reference was intended for API & Finished drug product specifications as per innovator specifications.
3.2. S.4.1	Drug Substance Specifications, Analytical Procedure & Analytical Method Verification Studies Shall Be Submitted from M/s May & Baker.	JP monograph is adopted.
3.2.S.4.4	COA of relevant batch of API from drug substance manufacturer shall be submitted used for manufacturing of drug product trial batches.	Submitted.
3.2.P.5	Drug product specifications and analytical procedure shall be submitted.	Submitted.
3.2.P.5.4	Submitted COA declares average volume as 5ml. Justification shall be submitted in this regard.	Average volume is mentioned for 5 no. of units.
3.2.P.6	COA of reference/working standard shall be submitted.	Submitted.
3.2.P.8	• Complete batch manufacturing record of three stability batches shall be submitted. • Documents confirming procurement of drug substance shall be submitted.	• Submitted. • The material was borrowed from Global pharmaceuticals for trial batches.

Decision: Approved with innovator's specifications. Registration Board further decided that registration letter will be issued after submission of applicable fee that is Rs. 7,500/- for revision of specifications as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

No. of Batches	03		

Administrative Portion

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	N/A
9.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	N/A
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Submitted

Remarks of Evaluator:

1. Firm has mentioned drug substance specification with acceptance criteria mentioning white or off-white, FTIR absorption, impurities and assay that does not corresponds to Claimed B.P & USP specifications., clarify.
2. Declared Pharmacopoeia specification in 1.5.6 are mentioned USP specification where in COA of Bulk water for injection mention BP. Clarify
3. Test for Total Organic Carbon is not mentioned in COA, same is required.
4. Container Closure mentioned as inner Packaging material: LDPE for medical packing, justification for this container closure is required.
5. The description of primary container is required along with justification.
6. Specification of bulk water testing does not mention Total Organic Carbon (TOC) and microbial testing.
7. Firm has mentioned sieving process through mechanical sifter under description of manufacturing process, which needs clarification and resubmission.
8. Under filling process, firm has mentioned “Dark green color vol. yellow color body injection containing off whit colour “Justification is required
9. The finished product specification is mentioned as BP whereas under 1.5.6 it is mentioned as USP, Clarification of applied specification of product is required
10. Complete testing specification of finished product is required including test for sub visible particle.
11. The declared B.P monograph is “sterilized water for injection” for finished drug product, whereas firm has adopted nomenclature 4for finish drug product as ‘water for injection’, therefore correction throughout module 2 & 3, (P part) is required
12. Firm has mentioned Inactive martial as Shell No.03, Which needs clarification.

	13. Required complete testing results conducted for stability studies data including PH/Alkalinity testing, Chloride, Ammonium, Calcium, Nitrate, sulphate, sub visible particles. TOC, conductivity test and, residue on evaporation for both real time and accelerated stability data for 6 months of trial batches.	
Decision: The Board deferred the case for the above mentioned points.		
69.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s May & Baker Pharmaceuticals (Pvt.) Ltd. 45 Km, Thokar Multan road, Lahore**

Container Closure mentioned as inner Packaging material: LDPE for medical packing, justification for this container closure is required. 5. The description of primary container is required along with justification. 6. Specification of bulk water testing does not mention Total Organic Carbon (TOC) and microbial testing. 7. The finished product specification is mentioned as BP whereas under 1.5.6 it is mentioned as USP, Clarification of applied specification of product is required 8. Complete testing specification of finished product is required including test for sub visible particle. 9. The declared B.P monograph is "sterilized water for injection" for finished drug product, whereas firm has adopted nomenclature for finish drug product as 'water for injection' , therefore correction throughout module 2 & 3, (P part) is required 10. Required complete testing results conducted for stability studies data including PH/Alkalinity testing, Chloride, Ammonium, Calcium, Nitrate, sulphate, sub visible particles. TOC, conductivity test and, residue on evaporation for both real time and accelerated stability data for 6 months of trial batches.
Decision: The Board deferred the case for the above mentioned points.

Agenda of Evaluator PEC-I

Cases of M/s Pinnacle Biotech (Pvt.) Ltd

M/s Pinnacle Biotech (Pvt.) Ltd. Plot No. FD-49-A8, FD-50-A8, FD-51-A8, Korangi Creek Industrial Park, Karachi is granted New license on 13/09/2021 and has applied for the following products/molecules;

Number of molecules		**Number of products**
02		**03**
70.	Name, address of Applicant / Marketing Authorization Holder	M/s Pinnacle Biotech (Pvt.) Ltd. Plot No. FD-49-A8, FD-50-A8, FD-51-A8, Korangi Creek Industrial Park, Karachi.
	Name, address of Manufacturing site.	M/s Pinnacle Biotech (Pvt.) Ltd. Plot No. FD-49-A8, FD-50-A8, FD-51-A8, Korangi Creek Industrial Park, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 25619 dated 12/09/2022
	Details of fee submitted	PKR 30,000/-: dated 17/08/2022
	The proposed proprietary name / brand name	Empaxo-M 12.5mg/ 500mg Tablets
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin……..….12.5mg Metformin HCl…….500mg
	Pharmaceutical form of applied drug	Blue, Oblong, Film Coated tablet, plain on both sides.
	Pharmacotherapeutic Group of (API)	Antidiabetics, Biguanides, Antidiabetics, SGLT2 Inhibitors

	Reference to Finished product specifications	Innovator's
	Proposed Pack size	2×7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	SYNJARDY 12.5 /500mg Tablet by BOEHRINGER INGELHEIM PHARMACEUTICALS INC, USFDA Approved.
	For generic drugs (me-too status)	Xenglu-Met 12.5mg/500mg Tablet by Hilton Pharma (Pvt.) Ltd.,
	GMP status of the Finished product manufacturer	New license granted on 13/09/2021 Tablet (general), Capsule (general), Sachet (general) and Research and Development Laboratory section is approved.
	Section approval	Tablet (general), Capsule (general), Sachet (general) and Research and Development Laboratory section is approved
	Name and address of API manufacturer.	**Empagliflozin** M/s. Fuxin Long Rui Pharmaceutical Co. Ltd. Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province -123000, China **Metformin Hcl.** M/s. Exemed Pharmaceuticals Co. Ltd. Block No. 628 (A & B) ECP Canal Road, Vill : Luna, Taluka: Padra, District: Vadodara – 391440, Gujarat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, residual solvents, specifications, analytical procedures and its complete validation studies, batch analysis and justification of specification, details of reference standards, container closure system and stability studies of drug substance.
	Stability studies	**Empagliflozin.** Firm has submitted signed and stamped stability data sheets as per zone IV-A in which real time stability data Real time: 30˚C ± 2˚C / 65% ± 5%RH for 12 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH 6 months Batches: L-E-20200409-D01-E06-02, L-E-20200409-D01-E06-03, L-E-20200409-D01-E06-04 **Metformin HCl** Firm has submitted signed and stamped stability data sheets as per zone IV-B in which real time stability data conditions are: Real time: 30˚C ± 2˚C / 75% ± 5%RH 72 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH 6 months Batches: MFH11001AFP, MFH11002AFP, MFH11003AFP
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities,

		specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.		
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence studies with reference product i.e., Xenglu-Met 12.5mg- 500mg Tablet whereby all the quality tests have been performed. CDP is submitted against the same brand and f2 values are in the acceptable range.		
	Analytical method validation/verification of product	Method validation studies have submitted including System Suitability, Linearity, Accuracy, precision, Specificity, Limit of Quantification, Limit of Detection, Robustness.		
STABILITY STUDY DATA				
Manufacturer of API		**Empagliflozin** M/s. Fuxin Long Rui Pharmaceutical Co. Ltd. Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province -123000, China **Metformin Hcl.** M/s. Exemed Pharmaceuticals Co. Ltd. Block No. 628 (A & B) ECP Canal Road, Vill : Luna, Taluka: Padra, District: Vadodara – 391440, Gujarat, India		
API Lot No.		Empagliflozin H-E-20210605-D01-E06-02 Metformin HCl MFH211237AFP		
Description of Pack (Container closure system)		Alu-Alu blister packed in unit carton (2×7's)		
Stability Storage Condition		Real time: 30°C ± 2°C / 65% ± 5% Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period		Real time: 6 months Accelerated: 6 months		
Frequency		Accelerated: 0, 2, 4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.		22TTEMM001	22TTEMM002	22TTEMM003
Batch Size		1500 tab	1500 tab	1500 tab
Manufacturing Date		02-2022	03-2022	03-2022
Date of Initiation		16-03-2022	16-03-2022	16-03-2022
No. of Batches		03		
Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	No response is submitted by the firm		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Empagliflozin: Copy of GMP certificate No. LN210011 dated26/05/2021 issued by Lioning Drug Administration. Metformin: Copy of GMP certificate No. 21082838 dated 07/08/2021 valid till 06/08/2024 issued by Food and Drugs Control Adminsitrtaion Gujarat India.		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Empagliflozin : Copy of Form 6 No. 942 dated 10/12/2021 and Copy of attested invoice No. HN20211027-A dated 30/11/2021.		

		Metformin: Copy of attested invoice no. GSTVAD2122427 dated 23/11/2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator-I:

Observations	**Response**
Valid copies of GMP certificates of manufacturers of drug substance (Empaglilozin+Metformin HCl).	Empagliflozin: Copy of GMP certificate No. LN210011 dated26/05/2021 issued by Lioning Drug Administration. Metformin: Copy of GMP certificate No. 21082838 dated 07/08/2021 valid till 06/08/2024 issued by Food and Drugs Control Adminsitrtaion Gujarat India.
Provide analytical method verification studies including specificity, accuracy and precision for drug substances (Empaglilozin+Metformin HCl) performed by drug product manufacturer.	The firm has submitted analytical method verification studies for stiagliptin and Metformin including accuracy, specificity and precision (inter day and Intra day).
Provide documents (invoice etc) for the procurement of API with approval from DRAP for Empgliflozin and Metformin HCl	Empagliflozin : Copy of Form 6 No. 942 dated 10/12/2021 and Copy of attested invoice No. HN20211027-A dated 30/11/2021. Metformin: Copy of attested invoice no. GSTVAD2122427 dated 23/11/2021.
Please provide pharmaceutical equivalence data and CDP for the applied product along with the details of the reference/innovator's product (Batch Number, expiry, manufacturing date etc) against which the said studies have been performed.	Pharmaceutical equivalence studies with reference product i.e., Xenglu-Met 12.5mg-500mg Tablet whereby all the quality tests have been performed. CDP is submitted against the same brand and f2 values are in the acceptable range.
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) and Compliance Record of HPLC software 21CFR & audit trail reports on product testing (soft copy).	Submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Agenda of Evaluator PEC-XV

Metformin: Copy of GMP certificate No. 21082838 dated 07/08/2021 valid till 06/08/2024 issued by Food and Drugs Control Adminsitrtaion Gujarat India.
Provide analytical method verification studies including specificity, accuracy and precision for drug substances (Sitagliptin+Metformin HCl) performed by drug product manufacturer.	The firm has submitted analytical method verification studies for stiagliptin and Metformin including accuracy, specificity and precision (inter day and Intra day).
Provide documents (invoice etc) for the procurement of API with approval from DRAP for Sitagliptin and Metformin HCl	Sitagliptin: Copy of attested invoice No. HN20211027-A dated 30/11/2021. Metformin: Copy of attested invoice no. GSTVAD2122427 dated 23/11/2021.
Please provide pharmaceutical equivalence data and CDP for the applied product along with the details of the reference/innovator's product (Batch Number, expiry, manufacturing date etc) against which the said studies have been performed.	Pharmaceutical Equivalence have been established against the brand leader that is JANUMET 50/ 500mg Tablets by MERCK SHARP AND DOHME CORP., performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is JANUMET 50/ 500mg Tablets by MERCK SHARP AND DOHME CORP., in Acid media (pH 0.1-1.2) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) and Compliance Record of HPLC software 21CFR & audit trail reports on product testing (soft copy).	Submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the**

commitment submitted in the registration application.

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Miscellaneous Cases:

M/s NABIQASIM submitted a letter on subject "Registration of Glem-Lin Tablets on Out-of-Que Basis in Light of Decision made in Authority Meeting dated 15th September 2022" which is reproduced as under:

This has reference to the aforementioned subject and decision made in the last Authority Meeting dated 15th September 2022, to ensure continuous supply of Paracetamol Tablets and to incentivize manufacturer thereon in form of out-of-queue consideration of application of 1 generic (Me-too) molecule on manufacturing and immediate distribution of atleast 15,000 packs of Paracetamol Tablets with pack size of 200 Tablets.

We in this regard, would like to inform that in light of the aforementioned decision of Authority we immediately started the manufacturing of our Registered Product Reliefal 500mg Tablets (Paracetamol) having Registration No. 002728 with pack size of 200s and we have supplied 15,000 packs to our Authorized Distributors across Pakistan (Details of stock dispatched and receiving thereon on delivery challan enclosed herewith).

In this regard, we would like to request you to kindly include our applied branded generic Empagliflozin + Metformin Tablets in the agenda of 321st DRB Meeting, for registration on out-of-queue basis, under the aforementioned Authority decision.

The firm has submitted copies of delivery challans in respect of its distributor mentioning 15,000 packs (pack size 200 tablets) dated 19-09-2022

Further details of aforementioned molecule (Me-too) are given below:

S.No	Proposed Brand Name	Composition	Pack Size	Date of Dossier Submission
1	GLEM-LIN TABLETS 10mg/5mg	Each film coated tablet contains: Empagliflozin……10mg Linagliptim……. 5mg	14's 28's	21-07-2022
2	GLEM-LIN TABLETS 25mg/5mg	Each film coated tablet contains: Empagliflozin……25mg Linagliptim……. 5mg	14's 28's	21-07-2022

	Name and address of API manufacturer.	**<u>Empagliflozin</u>** **Zhejiang Hongyuan Pharmaceuticals. Co.** Chem & API's Industrial Zone, Linhai, Zhejiang Province, China **<u>Linagliptin</u>** **Anhui Haikang Pharmaceutical Co., Ltd.** Add:No. 21 Huancheng West road, Anqing Anhui Provine 246000, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification/validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	**<u>Empagliflozin</u>** Monograph of Empagliflozin is present is as per In-house (Manufacturer's) specifications. The firm as submitted detail of nomenclature,

		structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for related substances (Impurity A, Impurity C, Any single impurity, Total impurities, Heavy metal, Chiral purity R-isomer), Residual solvent (Dichloromethane, Ethanol, Methanol, Ethyl acetate, Tetrahydrofuran, Toluene), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance **<u>Linagliptin</u>** Monograph of Linagliptin is present is as per In-house (Manufacturer's) specifications. The firm as submitted details of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for related substances (Single Impurity, Total impurity), residual solvent (Isopropanol, Dichloromethane, N, N-Dimethylacetamide), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	**Empagliflozin:** Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (Z1215-170601, Z1215-170602, Z1215-170603) **Linagliptin:** Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 4 Years Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (20150901, 20150902, 20150903)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Glyxambi Tablet 10mg/5mg tablet (Empagliflozin 10mg+ Linagliptin 5mg) is registered and being marketed by Boehringer Ingelheim Pharmaceuticals, Inc. by performing quality tests (Description, Disintegration, Identification, Dissolution and Assay). CDP has been performed against the same brand that is Glyxambi Tablet 10mg/5mg tablet (Empagliflozin 10mg+ Linagliptin 5mg) by Boehringer Ingelheim Pharmaceuticals, Inc., in Acid media (pH 1.2) & Phosphate Buffer (pH 4.5, 5.5 & 6.8).
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

Administrative Portion

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted.
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin:** Copy of GMP certificate no ZJ20180032 issued by Food and Drug Administration, China valid till 14/03/2023.

		Linagliptin: Copy of DML certificate no. 20190399 issued by Anhui Provincial Drug Administration valid till 31/12/2025.
9.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** Copy of invoice no HHSC-211025-1 dated 08-12-2021 duly attested by Assistant Director, DRAP, Karachi on 24-12-2021 was provide. **Linagliptin:** Copy of CI No. WD202105073 dated 29-10-2021 duly attested by Assistant Director, DRAP, Karachi on 12-11-2021 was provide.
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

Linagliptin:
Submitted Drug Manufacturing License of linagliptin access online dated 22-09-2022 from NMPA China official website which shows that:
production range (copy)
ganciclovir, valganciclovir hydrochloride, imatinib mesylate, repaglinide, sitagliptin phosphate, vipaglitin, cerrodoxine

Empagliflozin:
Submitted Drug Manufacturing License of Empagliflozin access online dated 22-09-2022 from NMPA China official website which shows that:
production range (copy)
atorvastatin calcium, azisartan

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

ADDITIONAL AGENDA

A. Imported Enoxaparin & Heparin Injections deferred in 320th Registration Board meeting.

1.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,** **75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.**
	Details of Drug Sale License of importer	**License No:** 110 **Address:** 75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi. **Validity: 06-07-2023** **Status:** License to sell drugs by way of whole sale.
	Name and address of marketing authorization holder (abroad)	M/s Biem Ilac San. Ve Tic. A.S, Turgut Reis Cad. No.: 21 06570 Tandogan/ Ankara, Turkey.
	Name, address of manufacturer(s)	M/s Mefar Ilac San. A.S., Ramazanoglu Mah. Ensar Cad No: 20 Kurtkoy-Pendik/ Istanbul, Turkey
	Name of exporting country	Turkey
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. 2021/1843) dated 10-06-2021 valid till 10-06-2023 issued by Turkish Medicines & Medical Devices Agency. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from General Manager of M/s Biem Ilac Sanayi ve Ticaret A.S. According to the letter, the firm *M/s Biem Ilac* authorizes "Calory Pharma" to promote, market, sell and perform the registration procedures for the product. The letter was issued on 01-12-2021.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3272 (R&I) Dated 03-02-2022
	Details of fee submitted	Rs. 150,000/- dated 04-01-2022
	The proposed proprietary name / brand name	**Biemparin**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Heparin Sodium……5000IU
	Dosage form of applied drug	Injection

	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	1's Vial (5mL)
	Proposed unit price	As per SRO/DPC
	Shelf Life	02 Years
	Storage Conditions	$\leq 30^0$C
	The status in reference regulatory authorities	Heparin Panpharma of M/s Panpharma, France.
	For generic drugs (me-too status)	Vaxcel Heparin Sodium Injection of M/s Ghazali Brothers (Reg. No. 088528).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Yino Pharma Ltd., 2 Cuiping Erxiang, Yubei District, Chongqing, 401120, China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of Drug Substance at real time conditions for 18 months. The real time stability data conducted at 25^0C$\pm 2^0$C/60±5%RH is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Heparin Sodium Assay, benzyl Alcohol determination.
	Container closure system of the drug product	5mL Type I Colorless Glass vial, 20 mm gray brombutyl stopper, 20 mm blue flip-of cover.
	Stability study data of drug product	Firm has submitted stability study data of one commercial process validation batch. The accelerated stability study data is conducted at 40 ± 2^0C/75%RH±5% for 6 months. The real time stability study data is conducted at 25 ± 2^oC/60%±5RH for 24 months.
	Remarks of Evaluator	• pH specification limits are different in Finished product specifications (5.5 to 7.0), in stability studies (5.0 to 7.5) and in European Pharmacopoeia (5.5 to 8.0) • Benzyl Alcohol specification limits are different in Finished product specifications (90% to 110%) and in stability studies (80% to 110%)

		• The firm has submitted stability study data of only one commercial Process Validation batch. • Non- clinical and Clinical trial data are not submitted by the firm. Registration Board in its 271st meeting considered that Heparin Sodium Injection is non-rDNA pharmacopoeial product, hence, revised its decision of 260th meeting and granted the approvals on the basis of valid legalized CoPP & availability in country of origin.
	Previous Decision(M-320)	*Registration Board deferred the case for submission of following by the firm:* *i. Clarification of different pH specification limits in Finished product specifications (5.5 to 7.0), in stability studies (5.0 to 7.5) and in European Pharmacopoeia (5.5 to 8.0)* *ii. Clarification of different Benzyl Alcohol specification limits in Finished product specifications (90% to 110%) and in stability studies (80% to 110%).* **iii.** *Real time & Accelerated Stability study data of three commercial batches.*

Evaluation by DBE&R:

Now the firm has submitted following response which is summarized in below table against each query:

Queries	Response
Clarification of different pH specification limits in Finished product specifications (5.5 to 7.0), in stability studies (5.0 to 7.5) and in European Pharmacopoeia (5.5 to 8.0)	*we would like to explain regarding your query for pH limit variations. Accordingly, we explain that in the stability studies data, the limit is shelf-life limit. It is determined according to Heparin Injection finished product monograph. The limit in the USP monograph is used as the shelf-life limit. The limit in the EP monograph is for API. Release limit of pH is 5.5 -7.0 and it is tighter than both USP and EP monographs. Therefore, there will be no risk to the quality of the finished product. For your review, the USP monograph is in attachment.* *We kindly request that our relevant cover letter and its attachments can be taken into your records and evaluated.*
Clarification of different Benzyl Alcohol specification limits in Finished product specifications (90% to 110%) and in stability studies (80% to 110%).	*we would like to explain regarding your query for Benzyl Alcohol Assay finish product specifications.* *Accordingly, we explain that, for our product, the standard function of Benzyl Alcohol is antimicrobial agent. According to the <341> Antimicrobial Agents – Content USP monograph, Benzyl Alcohol limits (both release and shelf-life) can be 80.0% - 120.0%.* *"At the time of its manufacture, the product should be containing the declared amount of antimicrobial preservative (within ± 20% to allow for manufacturing and analytical variations)."* *Benzyl Alcohol release and shelf-life limits are determined based on this monograph. Both release and shelf-life limits are tighter than the limits in the USP monograph.* *For you review, the USP monograph is in attachment.*
Real time & Accelerated Stability study data of three commercial batches.	*Firm has submitted stability studies data of 2 batches (Pilot scale) both real time and accelerated for 36 months at Zone II (25±2oC/60%±5RH, 40±2oC/75%±5RH) and zone IVb conditions.* *Firm has submitted stability study data of one batch (commercial scale) both real time and accelerated for 24 months at zone II (25±2oC/60%±5RH, 40±2oC/75%±5RH) conditions.*

Decision: Keeping in view legalized GMP and Free Sale Certificate indicating product availability in country of origin; Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

The firm shall submit the real time stability data on three commercial scale batches upto the demanded shelf life before issuance of Registration letter & shelf life will be granted as per the submitted real time stability study data. The Chairman Registration Board is authorized for issuance of letter after submission of said data.

2.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,**

		75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.
	Details of Drug Sale License of importer	License No: 110 Address: 75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi. Validity: 06-07-2023 Status: License to sell drugs by way of whole sale.
	Name and address of marketing authorization holder (abroad)	M/s 8161429 Venipharm, 422, Bureaux de la Colline F-92213 Saint-Cloud, France.
	Name, address of manufacturer(s)	M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France.
	Name of exporting country	France
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. VEN/270521/10) dated 23-06-2021 issued by Authority for Justice and Consumer Protection of the Free and Hanseatic City of Hamburg. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Qualified Person of M/s Venipharm. According to the letter, the firm M/s Venopharm authorizes "Calory Pharma Private Limited" to register, renew and to get the registration certificate for the product. The letter was issued on 17-12-2021 and valid for five years.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3894 (R&I) Dated 10-02-2022
	Details of fee submitted	Rs. 150,000/- dated 04-01-2022
	The proposed proprietary name / brand name	Enoxaparin Ledraxen 4000IU (40mg)/0.4mL
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (0.4ml) contains: Enoxaparin Sodium……4000IU (equivalent to 40mg)
	Dosage form of applied drug	Solution for Injection in PFS
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications

	Proposed Pack size	10's PFS
	Proposed unit price	As per SRO/DPC
	Shelf Life	24 Months
	Storage Conditions	$\leq 25^0$C
	The status in reference regulatory authorities	The product is itself approved in Germany.
	For generic drugs (me-too status)	Noxane of M/s BF Biosciences (Reg. No. 107948).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at real time conditions for 36 months, 01 batch for 12 months, 01 batch for 09 months & 01 batch for 03 months. The real time stability data conducted at 25^0C±2^0C/60±5%RH is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor Xa activity, Anti-factor IIa Activity, Free sulfate content, Protein content, Bacterial Endotoxin, Sterility.
	Container closure system of the drug product	• A pre-filled syringe consisting of a 1-mL long barrel of type I glass with a fixed 27-gauge ½ inch stainless steel needle and a needle shield made of bromobutyl rubber • A 1-mL plunger rod made of polypropylene (which does not come directly in contact with the finished product) • A plunger stopper consisting of bromobutyl rubber
	Stability study data of drug product	Firm has submitted stability study data of 03 batches of 2000IU & 02 batches of 10000IU at real time, intermediate (Zone IVB) & conditions. The accelerated stability study data is conducted at 40±2^0C/75%RH±5% for 6 months. The real time stability study data is conducted at 25±2^0C/60%±5RH. The intermediate stability study data is conducted at 30±2^0C/65%±5RH.

The intermediate stability study data is conducted at 30 ± 2^0C/65%±5RH.

The firm has submitted the following data as per requirements of 289th meeting of Registration Board:

Sr. No.	Required Documents	Documents Provided by the Firm
1.	Equivalence of physicochemical properties, such as:	
	c. Molecular weight distribution using size exclusion chromatography	v. Molecular mass distribution and proportion vi. %1, 6-anhydro derivatives vii. Free sulphate content viii. Ratio of sulfate ions to carboxylate ions ix. UV Absorption and specific absorbance at 231 nm
	d. Chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	vi. Chain mapping by Gel Filtration Chromatography (GFC) vii. Chain mapping by strong anion exchange HPLC (SAX-HPLC) viii. Proton nuclear magnetic resonance (1H-NMR) ix. Heteronuclear single quantum coherence (HSQC) x. Intact chain mapping by LCMS
2.	Equivalence of heparin source material (i.e. heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	• Fresh pig's small intestine is collected and squeezed to get porcine intestinal mucosa. Porcine intestinal mucosa is then digested and heparin is adsorbed on an ion exchange resin (Intermediate A). • After the washing and elution of the resin, further steps of precipitation and drying lead to crude heparin (Intermediate B). • Crude heparin (Intermediate B) is dissolved in water, submitted to enzymolysis and then purified on resins. Heparin sodium (Intermediate C) is obtained after several steps including oxidation, ultra-filtration, fractionation and a final precipitation in ethanol. • Enoxaparin sodium is manufactured in three stages, starting from the heparin sodium which undergoes a step of salification to get the quaternary ammonium salt of heparin (Intermediate I). The salification step is followed by an esterification step to form the ester salt of heparin (Intermediate II). Enoxaparin sodium is finally isolated after depolymerization and purification steps.
3.	Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by following: g. Capillary Electrophoresis (CE) h. Reverse phase high-performance liquid chromatography (RP-HPLC) i. Strong anion exchange HPLC (SAX-HPLC) j. Mass spectroscopy k. Nuclear magnetic resonance (NMR) spectroscopy. l. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-	ix. Disaccharide building block by strong anion exchange HPLC (SAX-HPLC) x. Fragment mapping (Heparinase I/II/III) by strong anion exchange HPLC (SAX-HPLC) xi. Fragment mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) xii. Dp6 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) xiii. Dp8 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) xiv. Dp10 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) xv. Nitrous acid (HONO) depolymerisation disaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) xvi. Tetrasaccharides (dp4) analysis by strong anion exchange HPLC (SAX-HPLC) vii. Tetrasaccharides (dp4) sequences by reversed-phase ion-pair liquid chromatography- electrospray ionization - mass spectrometry (RPIP-ESI-MS and RPIP-ESI-MS/MS) viii. Oligosaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) (dp6/8/10)

	sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	
4.	Equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	iii. Anti-factor Xa & Anti-factor IIa activity by using Biophen Heparin Anti-Xa (2 Stages) and Biophen Heparin Anti-IIa (2 Stages) commercial kits. iv. The anticoagulant activity of the biosimilar enoxaparin drug product is analyzed and compared with Lovenox®/Clexane® based on aPTT (Activated Partial Thromboplastin Time) and Heptest prolongation time v.
5.	Equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.	A monocentric, randomized, open-label, single-dose, two-period, crossover study to assess the pharmacokinetic and pharmacodynamic equivalence of Reference Product Lovenox® 10000 IU/1 mL solution for injection in prefilled syringe and test formulation of Enoxaparin Ledraxen 10.000 IE (100 mg)/1 ml Injektionslösung in einer Fertigspritze following subcutaneous administration in healthy subjects in fasting conditions

Remarks of Evaluator	• The address of product license holder is different on CoPP from SmPC available on official website of Germany & letter of authorization. • The batch release site is different in dossier from Public Assessment Report available on official website of Germany & from Form-5F. • The manufacturer as per submitted CoPP is **M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France** while as per submitted dossier manufacturer is **M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China**. • Firm has not submitted the verification of compendial analytical methods of drug product. • Firm has not submitted the real time and accelerated stability data of applied strengths. However, stability data of lower (2000IU) & higher strengths (10000IU) is provided. • Stability study data of only 02 batches of higher strength i.e. 10000IU is provided. • Related substances are not tested in real time, intermediate & accelerated stability data while 1,6-anhydro derivatives, Average Mass & Sodium content are only tested for 01 batch of each strength. • **The provided intermediate/ Zone IVB stability data is for 36 months for two batches of lower strength & one batch of higher strength and 12 months of one batch each of lower & higher strength**. • **All the batches of both strengths get out of specifications after 12 months at intermediate/ Zone IVB conditions.**

Decision: Registration Board deferred the products at S.No. 2,3 & 4 for submission of following by the firm:

i. Difference in address of product license holder on CoPP from SmPC available on official website of Germany & letter of authorization.
ii. Difference in batch release site in dossier from Public Assessment Report available on official website of Germany & from Form-5F.
iii. Any legalized evidence issued by regulatory authority of country of origin indicating that the manufacturer of product registered in Germany is M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China while M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France is only batch release site.
iv. Verification reports of compendial analytical methods of drug product.
v. Real time & Accelerated stability data of three commercial batches of 2000IU & 10000IU upto the shelf life including all parameters as per finished product specification.
vi. Clarification is required as all the batches of both strengths get out of specification after 12 months of storage at 30 ± 2^0C/65%±5RH.

Evaluation by DBE&R:

Reply of firm against each query is summarized in table below for consideration of the Board.

Queries	Response by the firm

	Difference in address of product license holder on CoPP from SmPC available on official website of Germany & letter of authorization.	The address for Venipharm (product License Holder) mentioned in CoPP is ***422 Bureaux de la Colline F-92213 Saint-Cloud France*** and address mentioned in LoA & SmPC is ***4 Bureaux de la Colline 92210 Saint-Cloud France.*** We confirmed that these both addresses are well correct for Venipharm's (Product License Holder) office. The address on CoPP (***422 Bureaux de la Colline F-92213 Saint-Cloud France*** is more detailed version)
	Difference in batch release site in dossier from Public Assessment Report available on official website of Germany & from Form-5F.	In PAR available on MHRA website, no information regarding batch release site is available. Also we would like to inform one change that was approved by BfARM, Germany. At time of our registration in EU first, the batch release site was **Melbourn Scientific Limited (United Kingdom)**. *Due to Brexit, we had to change the batch release site from **Melbourn Scientific Limited (United Kingdom)** to **Centre Specialites Pharmaceutiques (France)** via a dedicated variation submission.* May be the website you are checking may still not be updated and you may still see Melbourn Scientific Limited (United Kingdom). We confirm that there is only one batch release site for our products which is Centre Specialites Pharmaceutiques (France). For your reference we have attached cop of variation approval letter received from Bfarm.
	Any legalized evidence issued by regulatory authority of country of origin indicating that the manufacturer of product registered in Germany is M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China while M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France is only batch release site.	Firm has submitted a copy of CoPP issued to Israel showing manufacturer responsible for manufacturing and packaging M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China
	Verification reports of compendial analytical methods of drug product.	We confirm that validation study for Compendial Analytical methods (Appearance, Clarity, Coloration, UV absorption, Identification, assay of sodium, molecular mass distribution and mass-average relative molecular mass, determination of the pH, related substances, extractable volume, particulate matter and Specific absorbance) were NOT performed as the principal of these analytical methods are Exactly same as described in the Ph. Eur. General monographs. Moreover, if any adjustment done according to Ph.Eur. 2.2.46, No Analytical validation study is required.
	Real time & Accelerated stability data of three commercial batches of 2000IU & 10000IU up to the shelf life including all parameters as per finished product specification.	Firm has referred to bracketing design of ICH guidelines and submitted stability studies of three batches of 2000IU two batches of 10000 IU both real time and accelerated at 25 ± 2^0C/60%±5RH & 40 ± 2^0C/75%±5RH.
	Clarification is required as all the batches of both strengths get out of specification after 12 months of storage at 30 ± 2^0C/65%±5RH.	After storage of the finished product at 30^0C/65% RH, **the major change is for the Color which is out of specification after 12 months**. *If we consider the results of the forced degradation study in heat conditions (after one day or after 10 days at 80^0C). Change of color of solution was considered as Stability Indicator. So result of ICH stability at intermediate temperature (30^0C) are confirming the*

	results obtained during the forced degradation study in heat conditions. *The conclusion is that Enoxaparin sodium, solution for injection is NOT stable at 30^0C/65% RH. All the available results got at 25^0C/60% RH after 36 months are compliant with the specifications. Hence, a shelf life of 36 months is claimed with a temperature restriction for the finished product packaged in prefilled syringes Do not store above 25^0C.* *A commitment is also attached defining the temperature restriction.*

For stability studies firm has referred to bracketing design as per ICH guidelines which is as follow:

2.3 Bracketing

Bracketing is the design of a stability schedule such that only samples on the extremes of certain design factors (e.g., strength, container size and/or fill) are tested at all-time points as in a full design. The design assumes that the stability of any intermediate levels is represented by the stability of the extremes tested. The use of a bracketing design would not be considered appropriate if it cannot be demonstrated that the strengths or container sizes and/or fills selected for testing are indeed the extremes.

2.3.1 Design Factors

Design factors are variables (e.g., strength, container size and/or fill) to be evaluated in a study design for their effect on product stability.

2.3.1.1 Strength

Bracketing can be applied to studies with multiple strengths of identical or closely related formulations. Examples include but are not limited to (1) capsules of different strengths made with different fill plug sizes from the same powder blend, (2) tablets of different strengths manufactured by compressing varying amounts of the same granulation, and (3) oral solutions of different strengths with formulations that differ only in minor excipients (e.g., colorants, flavorings). With justification, bracketing can be applied to studies with multiple strengths where the relative amounts of drug substance and excipients change in a formulation. Such justification can include a demonstration of comparable stability profiles among the different strengths of clinical or development batches. In cases where different excipients are used among strengths, bracketing generally should not be applied.

2.3.1.2 Container Closure Sizes and/or Fills

Bracketing can be applied to studies of the same container closure system where either container size or fill varies while the other remains constant. However, if a bracketing design is considered where both container size and fill vary, it should not be assumed that the largest and smallest containers represent the extremes of all packaging configurations. Care should be taken to select the extremes by comparing the various characteristics of the container closure system that may affect product stability. These characteristics include container wall thickness, closure geometry, surface area to volume ratio, headspace to volume ratio, water vapor permeation rate or oxygen permeation rate per dosage unit or unit fill volume, as appropriate. With justification, bracketing can be applied to studies for the same container when the closure varies. Justification could include a discussion of the relative permeation rates of the bracketed container closure systems.

2.3.2 Design Considerations and Potential Risks

If, after starting the studies, one of the extremes is no longer expected to be marketed, the study design can be maintained to support the bracketed intermediates. A commitment should be provided to carry out stability studies on the marketed extremes post-approval. Before a bracketing design is applied, its effect on the retest period or shelf life estimation should be assessed. If the stability of the extremes is shown to be different, the intermediates should be considered no more stable than the least stable extreme (i.e., the shelf life for the intermediates should not exceed that for the least stable extreme).

Example of bracketing design as per ICH is as under:

This example is based on a product available in three strengths and three container sizes. In this example, it should be demonstrated that the 15 ml and 500 ml high-density polyethylene container sizes truly represent the extremes. The batches for each selected combination should be tested at each time point as in a full design.

Strength	**50mg**			**75mg**			**100mg**		
Batch	1	2	3	1	2	3	1	2	3

Container size	**15ml**	T	T	T				T	T	T
	100ml									
	500ml	T	T	T				T	T	T

In case of firm submitted stability studies is as follow:

Strength		**20mg/0.2ml (2000IU/ml)**			**40mg/0.4ml (4000IU/ml)**			**60mg/0.6ml (6000IU/ml)**			**80mg/0.8ml (8000IU/ml)**			**10mg/1ml (10,000IU/m**		
Batch		1	2	3	1	2	3	1	2	3	1	2	3	1	2	3
Container size	**1ml(0.2ml)**	T	T	T										T	T	--
	1ml(0.4ml)															
	1ml(0.6ml)															
	1ml(0.8ml)															
	1ml (1ml)	T	T	T										T	T	--

Firm has further submitted data of following commercial batches as per following details:

Strength	**Data**	**Conditions**
4000IU	36 months Real time/6 month Accelerated	25 ± 2^0C/60%±5RH. 40 ± 2^0C/75%±5RH.
2000IU	18 months Real time/6 month Accelerated	25 ± 2^0C/60%±5RH. 40 ± 2^0C/75%±5RH.
10000IU	18 months Real time/6 month Accelerated	25 ± 2^0C/60%±5RH.

Decision: Registration Board deferred the case for following points:

a. Submission of real time stability data of three commercial batches up to the demanded shelf life as per ICH guidelines.

b. Submission of valid legalized CoPP indicating actual product License Holder, manufacturer and batch release site.
