	GMP status	The firm was inspected on 31-5-2021 with the following conclusion: Based on the above observation their current GMP compliance level is rated as good.
	Remarks of the Evaluator [X]	**Oral Liquid (Veterinary) Section** confirmed from panel inspection report conducted on 11-04-2015 for grant of DML.
	Decision: Approved.	
1202.	Name and address of manufacturer / Applicant	M/s Noble Pharma, B-1 Old Industrial Area, Mirpur, Azad Kashmir
	Brand Name +Dosage Form + Strength	Nobioxy-K Injection
	Composition	Each ml contains: Oxytetracycline HCl…20mg **Ketoprofen**……3mg
	Diary No. Date of R& I & fee	Dy.No 10157 dated 06-05-2020 Rs.20,000/- dated 06-05-2020
	Pharmacological Group	Antibacterial and anti-inflammatory
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	50ml, 100ml vial: Decontrolled
	Me-too status	**Could not be confirmed in the applied strength**
	GMP status	Panel inspection of M/s Noble Pharma, Azad Kashmir has been carried out on 09-02-2022. **It was observed to do a lot of improvements in HVAC, Pharmaceutical Quality systems including documentation and other quality related areas. The firm submitted improvements in these areas. A detailed report would be submitted later on after verification of same through onsite inspection.**
	Remarks of the Evaluator [X]	Approval of **Veterinary Liquid Vial injection (General)** section confirmed vide letter No.F. 5-2/2007-Lic dated 08-07-2015. **Shortcomings:** • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Separate registration is granted to separate pack size/fill volume of injectable dosage form. However, multiple pack sizes of injectable dosage form are demanded in a single application. So clarification is required for which pack size/ fill volume you want to apply this dossier.
	Decision: Referred to Expert working Group to review therapeutic requirement keeping in view safety, efficacy and quality parameters.

	Brand Name +Dosage Form + Strength	Vetzveta Injection 250ml
	Composition	Each ml Contains: Vitamin B1...4mg Vitamin B6...0.34mg Vitamin B2...0.17mg Vitamin C...4mg L-Arginine HCl...1.44mg L-Cystine HCl...3.2mg L-Glutamine HCl...3.2mg Glycin...3.2mg L-Histidine...1.32mg L-Isoleucine...3.6mg L-Leucine HCl...4.28mg L-Lysin HCl...5.44mg

		L-Methionine...3.2mg L-Threonine...3.2mg L-Trypton...0.86mg L-Valine...3.6mg Nicotinamide...8mg Glucose...21mg Magnesium Sulphate...0.08mg L-Phenylalanine...5mg
	Diary No. Date of R& I & fee	Dy.No 13139 dated 09-06-2020 Rs.20,000/- dated 09-06-2020
	Pharmacological Group	Amino acid/ Electrolytes/Vitamin
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	250ml: Decontrolled
	Me-too status	Vetzveta Injection **(100ml)** of M/s Vetz Pharmaceuticals (Private) Limited., Kotri Sindh. (Reg. No. 089860) **Could not be confirmed in the applied fill volume/pack size**
	GMP status	The firm was inspected on 31-5-2021 with the following conclusion: Based on the above observation their current GMP compliance level is rated as good.
	Remarks of the Evaluator [X]	**Sterile Liquid Injection (Veterinary) Section** confirmed from panel inspection report conducted on 11-04-2015 for grant of DML. **Shortcomings:** • Approval of required manufacturing facility of **"Liquid Injectable (LVP)- Veterinary Section"** by the Central Licensing Board. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) **with the applied fill volume/pack size** alongwith registration number, brand name and name of firm. • Evidence of availability of required testing facility for applied formulation along with drug product analytical procedure.
	Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.	
1228.	Name and address of manufacturer / Applicant	M/s Noble Pharma, B-1 Old Industrial Area, Mirpur, Azad Kashmir
	Brand Name +Dosage Form + Strength	Nobivec-C Injection
	Composition	Each ml Solution Contains: Ivermectin…20mg Clorsulon…10mg
	Diary No. Date of R& I & fee	Dy.No 8323 dated 20-04-2020 Rs.20,000/- dated 22-04-2020
	Pharmacological Group	Antiparasitic
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	50ml, 100ml vial: Decontrolled
	Me-too status	**Could not be confirmed in the applied strength**
	GMP status	Panel inspection of M/s Noble Pharma, Azad Kashmir has been carried out on 09-02-2022. **It was observed to do a lot of improvements in HVAC, Pharmaceutical Quality systems including documentation and other quality related areas. The firm submitted improvements in these**

		areas. A detailed report would be submitted later on after verification of same through onsite inspection.
	Remarks of the Evaluator [X]	Approval of **Veterinary Liquid Vial injection (General)** section confirmed vide letter No.F. 5-2/2007-Lic dated 08-07-2015. **Shortcomings:** • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Separate registration is granted to separate pack size/fill volume of injectable dosage form. However, multiple pack sizes of injectable dosage form are demanded in a single application. So clarification is required for which pack size/ fill volume you want to apply this dossier.
	Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Case No. 02 Registration applications of categories to be considered on priority

d. Export facilitation

Assistant Director PR-I/EFD vide letter NO.1-6/2019-PR-I (EFD) dated 29-12-2022 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the pharmaceutical i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision, **M/s Leads Pharma (Pvt.) Ltd, Islamabad** has achieved the benchmark of **134105.00 USD** during the fiscal Year **2019-2020** and **329260.00 USD** during the fiscal year **2020-2021.** Following applications submitted by the firm for priority consideration/ evaluation in lieu of export facilitation are submitted before the Board for its consideration please:

1254.	Name and address of manufacturer / Applicant	M/s Leads Pharma Pvt Ltd., Plot No. 81-A, Street # 6, I-10/3, Islamabad.
	Brand Name +Dosage Form + Strength	Til-Dox Powder
	Composition	Each 100gm contains: Doxycycline HCl…2000mg Tilmicosin Phosphate…2000mg

	Brand Name +Dosage Form + Strength	E.C Max Liquid
	Composition	Each 100ml Contains: Enrofloxacin…20gm Colistin Sulphate…50,000,000 IU
	Diary No. Date of R& I & fee	Dy.No 18242 dated 29-06-2021 Rs.30,000/- dated 28-06-2021
	Pharmacological Group	Antibacterial
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	100ml,500ml, 1000ml: Decontrolled
	Me-too status	Floxicol Oral Liquid of M/s Biogen Pharma Rawat. (Reg. No. 058966)
	GMP status	GMP of relevant section
	Remarks of the Evaluator [X]	**Oral Liquid section** confirmed vide panel inspection report for renewal of DML based on inspection conducted on 25-02-2020. **Shortcomings:** • Latest GMP inspection report (conducted within the period of last three years). • Provide conversion of Colistin Sulphate from IU to grams.
	Decision:	
1257.	Name and address of manufacturer / Applicant	M/s Leads Pharma Pvt Ltd., Plot No. 81-A, Street # 6, I-10/3, Islamabad.

	Brand Name +Dosage Form + Strength	Lefenac Injection
	Composition	Each ml Contains: Aceclofenac…25mg
	Diary No. Date of R& I & fee	Dy.No 18240 dated 29-06-2021 Rs.30,000/- dated 28-06-2021
	Pharmacological Group	NSAID
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	10ml,50ml, 100ml: Decontrolled
	Me-too status	**Registered with 10ml, 20ml and 50ml fill volume/pack sizes**
	GMP status	GMP of relevant section
	Remarks of the Evaluator [X]	**Liquid Injection Vet (General)** section confirmed vide panel inspection report for renewal of DML based on inspection conducted on 25-02-2020. **Shortcomings:** • Separate registration is granted to separate pack size/fill volume of injectable dosage form. However, multiple pack sizes of injectable dosage form are demanded in a single application. So clarification is required for which pack size/ fill volume you want to apply this dossier. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status), **with same fill volume/ pack size as applied,** alongwith registration number, brand name and name of firm
	Decision: Referred to Expert working Group to review therapeutic requirement keeping in view safety, efficacy and quality parameters.	

e. Import applications of priority categories defined by DRAP Authority in its 129th meeting

i. Veterinary

a. New cases:

Priority Registration Applications

Drug Regulatory Authority of Pakistan in its 129th meeting held on 17th February, 2022 discussed the case regarding **"Priority Consideration of Applications for Registration Submitted After Cancellation of Their Renewal of Registration" vide Agenda Item No.V:.** Wherein, the Authority decided as under;

"The Authority acceded to the request of firms for out-of-queue submission and consideration of registration dossiers on CTD Format (5F) in regard to cancelled products due to late submission of renewals."

Accordingly, M/s Ghani Brothers, 2nd Floor, Karimje Building, Opp. Habib Bank Limited, Napair Road, Karachi has requested for priority consideration of their following product due to invalid registration status of previously registered product **Streptocin 5gm Injection (Registration No. 039971):**

1258.	Name and address of Applicant	M/s Ghani Brothers, 2nd Floor, Karimje Building, Opp. Habib Bank Limited, Napair Road, Karachi.
	Detail of Drug Sale License	Name: M/s Ghani Brothers Address: 2nd Floor, Karimje Building, Opp. Habib Bank Limited, Napair Road, Karachi Validity: 28-04-2023. Status: Drug License by Way of Whole Sale (Form No.7).
	Name and address of manufacturer	M/s Hebei Yuanzheng Pharmaceutical Co., Ltd. China No.16 Liuyuan Road, Chang' an District, Shijiazhuang City Hebei Province.
	Name and address of marketing authorization holder	M/s Wuhan Yibao Meheco Trading Co. Ltd., room 1102 Kaimeng Building Xinhua Road, Wuhan China

Name of exporting country	Peoples Rpublic of China
Type of Form	Form-5A
Diary No. & Date of R& I	Dy.No 38208 Dated 28-12-2022
Fee including differential fee	Rs : 1,50,000 Dated 20-12-2022
Brand Name +Dosage Form + Strength	Streptocin 5gm Injection
Composition	Each vial Contains: Streptomycin Sulphate…5gm Procain Penicillin…1,500,000 IU Benzyl Penicillin…500,000 IU
Finished Product Specification	Inhouse
Pharmacological Group	Antibiotics
Shelf life	4 years
Demanded Price	As per brand leader
Pack size	10vials
International availability	**N/A**
Me-too status	Not provided
Detail of certificates attached	• Legalized original COPP issued by Ministry of Agriculture of People's Republic of China Animal husbandry and Aquatic Products Bureau of Shijiazhuang City confirms GMP status of the manufacturer but does not confirm free sale status of the product in exporting country. • Originally Legalized GMP certificate No. 03008 dated 08-02-2022 issued by Hebei Animal Husbandry and Veterinary Bureau. (Scope does not cover Penicillin production line) • Copy of agreement dated 07-11-2022 between the marketing authorization holder and applicant.

Remarks of the Evaluator [X]

Sr.	Shortcoming	Reply of firm
a.	In submitted GMP certificate, scope of inspection does not cover penicillin production line and also the same could not be reflected from site master file. Provide legalized relevant document.	Submitted GMP covers all aspects of the veterinary manufacturing scope i.e., Large Volume Injection / Small volume Injection / Powder for Injection. GMP Generally does not specify products or its generic.
b.	The submitted COPP does not reflect free sale status of the applied product in country of origin; provide original legalized valid Free sale certificate.	Veterinary CoPP submitted clearly states **YES** to the point 1: "Is this product licensed to be placed on the market for use in the exporting country?" As we have already submitted the original legalized CoPP, there is no need to request and submitted FSC.
c.	Provide legalized original valid Letter of Authorization/ Sole agency certificate since already submitted document is scanned copy.	Submitted
d.	Provide valid copy of DSL	Submitted valid till 28-04-2023
e.	Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.	Firm has submitted their previously granted registration letter of same product.
f.	In the finished product label the Urdu version of the following namely; (i) dosage; and (ii) Instruction is missing. Submit label in accordance with The Drugs (Labeling and Packing) Rules, 1986.	Firm submitted an undertaking stating that they will submit it soon
g.	The submitted 48 months real time stability study data of 03 batches is not as per zone IV-A/IV-B conditions,	Firm has now submitted 06 months accelerated and 48 months real time stability studies data as per Zone IV-A conditions.

		provide stability studies data of three batches upto claimed shelf life as per zone IV-A conditions.	
	Decision: Approved as per policy of inspection of manufacturer abroad.		

Case No. 03 Registration applications of import cases

a. New Cases (Veterinary)

Decision: Approved with Innovator's specifications. The firm shall submit fee of Rs. 75,00/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1308.	Name, address of Applicant / Marketing Authorization Holder	M/s Wimits Pharmaceuticals (Pvt.) Ltd., Plot #129 Sunder Industrial Estate, Lahore
	Name, address of Manufacturing site.	M/s Wimits Pharmaceuticals (Pvt.) Ltd., Plot #129 Sunder Industrial Estate, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted cGMP certificate issued on 08-09-2021 based on inspection conducted on 08-09-2021
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-51/2004-Lic dated 07-02-2014 which specifies Tablet (General Human) section

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No. 22954 dated 15-08-2022
	Details of fee submitted	PKR 30,000/-: dated 06/07/2022 (Slip#581425554830)
	The proposed proprietary name / brand name	Gabal 165mg ER tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended Release tablet contains: Pregabalin……....165mg
	Pharmaceutical form of applied drug	Extended Release Tablet
	Pharmacotherapeutic Group of (API)	Anticonvulsant
	Reference to Finished product specifications	In-house
	Proposed Pack size	3x10's, 1x10's, 2x10's, 2x7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR extended-release tablets (82.5mg, 165mg, 330 mg) by USFDA Approved.
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	M/s CTX Lifesciences Pvt. Ltd., Block No. 251-252 Sachin- Magdalla Road GIDC, Sachin, Surat – 394 230,Gujarat, INDIA
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 60 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (PG120001, PG120002, PG120003)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator Lyrica CR 165mg Tablet by performing quality tests (Description, Identification, Assay, Dissolution).

		CDP has been performed against a comparator product ***(name not mentioned)*** in Acid media pH 1.2, acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm have submitted method validation studies including linearity, range, accuracy, precision, specificity and robustness.

STABILITY STUDY DATA			
Manufacturer of API	M/s CTX Lifesciences Pvt. Ltd., Block No. 251-252 Sachin- Magdalla Road GIDC, Sachin, Surat – 394 230,Gujarat, INDIA		
API Lot No.	21PL000050		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	TPG001	TPG002	TPG003
Batch Size	2500 tablets	2500 tablets	2500 tablets
Manufacturing Date	12-2021	12-2021	12-2021
Date of Initiation	12-12-2021	14-12-2021	16-12-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted cGMP certificate No. 19061470 dated 02-07-2019 of M/s CTX Lifesciences Pvt. Ltd., Block No. 251/P, 252/P, 253 TO 255, 256/P, 258/P, 276/P, 277, 278/P, 279 TO 282, 283/P, 284/P, GIDC, City: Sachin, District; Surat – Gujarat state, INDIA issued by Commissioner, Food & Drugs Administration Gandhinaga India valid upto 01-07-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EI/3012100599 dated 19-11-2021 for import of 50kg of Pregabalin (Batch# 21PL000050) in name of M/s Wimits Pharmaceuticals (Pvt.) Ltd., attested by AD (I&E) DRAP Lahore dated 29-11-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

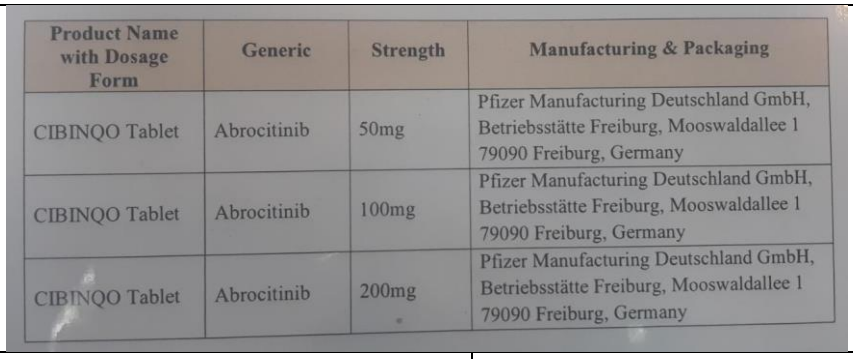
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guideline including information related to Drug Substance and Drug Product. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Firm has also summarized information related to composition, product development, manufacturing process, excipients, specifications, analytical methods, Reference standards or materials, container closure system and stability studies of Drug Product.
	Name, address of drug substance manufacturer	M/s Pfizer Ireland Pharmaceuticals Ringaskiddy API Plant, Ringaskiddy, County Cork, Ireland.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to general information nomenclature, structure, general properties, Manufacturer, description of manufacturing process and controls, critical steps, process validation, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated stability study is conducted at 40°C/75% RH for 06th months. The real time stability data is conducted at 30°C / 75% RH for 12th months. (Batches: 19-AP-00096, 19-AP-00101, 19-AP-00107)

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability studies.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not applicable.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Polyvinylchloride (PVC) / Polyvinylidene chloride (PVDC) foil blisters with aluminum foil lidding High-density polyethylene (HDPE) bottle and polypropylene closures with induction seal liners
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of three batches for 12 months long-term stability conditions of 30°C/75% RH and 25°C/60% RH. Stability study was also monitored at accelerated storage condition at 40 °C/75% RH for 6 months. (Batches: 19-PD-00050, 19-PD-00051, 19-PD-00052)

Remarks of Evaluator [XI]:



INDICATIONS AND USAGE:

CIBINQO is indicated for the treatment of adults with refractory, moderate-to-severe atopic dermatitis whose disease is not adequately controlled with other systemic drug products, including biologics, or when use of those therapies is inadvisable.

WARNING: SERIOUS INFECTIONS, MORTALITY, MALIGNANCY, MAJOR ADVERSE CARDIOVASCULAR EVENTS (MACE), and THROMBOSIS

- Increased risk of serious bacterial, fungal, viral and opportunistic infections leading to hospitalization or death, including tuberculosis (TB). Discontinue treatment with CIBINQO if serious or opportunistic infection occurs. Test for latent TB before and during therapy; treat latent TB prior to use. Monitor all patients for active TB during treatment, even patients with initial negative latent TB test.
- Higher rate of all-cause mortality, including sudden cardiovascular death, with another JAK inhibitor vs. TNF blockers in rheumatoid arthritis (RA) patients. CIBINQO is not approved for use in RA patients.
- Malignancies have occurred with CIBINQO. Higher rate of lymphomas and lung cancers with another JAK inhibitor vs.TNF blockers in RA patients.
- MACE has occurred with CIBINQO. Higher rate of MACE (defined as cardiovascular death, myocardial infarction, and stroke) with another JAK inhibitor vs. TNF blockers in RA patients.
- Thrombosis has occurred with CIBINQO. Increased incidence of pulmonary embolism, venous and arterial thrombosis with another JAK inhibitor vs. TNF blockers.

Section	Observations	Response
1.5.4	• Submit the proposed pack size as well as demanded price for each pack size.	• Polyvinylidene chloride (PVDC) blisters with aluminum foil lidding film containing 7 film coated tablets. Each pack contains 14, 28 or 91 film coated tablets • Demanded price will be submitted at the time of price fixation
1.3.4	• ***Query:*** Letter of authorization is from M/s Pfizer Europe MA EEIG Boulevard de la Plaine 17, 1050 Brussels, Belgium., while marketing authorization holder is Pfizer Limited., Ramsgate Road, Sandwich, Kent, CT13 9NJ, United Kingdom, clarify ***Response of firm:*** Original letter of authorization is submitted whereby M/s Pfizer Limited having principal place of business at Ramsgate Road, Sandwich, Kent, CT13 9NJ, United Kingdom., as the MA holder in the country of origin of following product hereby authorizes M/s Pfizer Pakistan Limited., located at B-2, S.I.T.E., Karachi - 75700 Pakistan to be the marketing authorization holder in Pakistan and be responsible for all matters pertaining to registration of this product in Pakistan.	

Product Name with Dosage Form	Generic	Strength	Manufacturing & Packaging
CIBINQO Tablet	Abrocitinib	50mg	Pfizer Manufacturing Deutschland GmbH, Betriebsstätte Freiburg, Mooswaldallee 1 79090 Freiburg, Germany
CIBINQO Tablet	Abrocitinib	100mg	Pfizer Manufacturing Deutschland GmbH, Betriebsstätte Freiburg, Mooswaldallee 1 79090 Freiburg, Germany
CIBINQO Tablet	Abrocitinib	200mg	Pfizer Manufacturing Deutschland GmbH, Betriebsstätte Freiburg, Mooswaldallee 1 79090 Freiburg, Germany

3.2.S.4	• Copies of the specifications and analytical procedures used for routine testing of the Drug substance by Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Provide certificate of analysis of Drug Substance performed by Drug Product manufacturer	• The drug product manufacturer, Pfizer Manufacturing Deutschland GmbH Freiburg, Germany, uses the drug substance specifications as listed in section 3.2.S.41. Pfizer Freiburg, tests the drug substance for identity and description (appearance), all other test results are taken from Pfizer Ringaskiddy certificate of analysis. A declaration from the drug product manufacturing site is provided with this response. • The firm submitted that as indicated above, Pfizer Frieberg tests the drug substance for identity and appearance only. Appearance and identity are common industry tests. Internal procedures or pharmacopeia test methods are currently followed for this confirmation testing. As appearance and identity are common tests performed per internal or pharmacopeia test methods, method validation and method transfer to the Pfizer drug product manufacturing site are not conducted as per standard Pfizer procedure • The fir submitted that certificate of analysis of three drug substance lots (EC9895, ED8499 and EE3296) manufactured and tested by Pfizer Ringaskiddy site were previously provided. As indicated above, drug substance batch analysis data from Pfizer Frieburg site is not available. Pfizer Frieburg tests the drug substance for identity and description (appearance), all other test results are taken from Pfizer Ringkaskiddy certificate of analysis.
3.2.S.7	• **Query:** Clarification is required for submitting stability study data of drug substance from Pfizer Limited., Sandwich, United Kingdom while drug substance manufacturer as per form 5F is M/s Pfizer Ireland Pharmaceuticals Ringaskiddy API Plant, Ringaskiddy, County Cork, Ireland. **Response of firm:** • Current drug substance (DS) stability data for abrocitinib API are from primary registration stability batches manufactured at Pfizer, Sandwich. The DS manufacturing process used at Pfizer, Sandwich is the same as the process used at the proposed commercial site at Pfizer Ireland Pharmaceuticals at Ringaskiddy, Ireland. Pfizer confirms that the abrocitinib DS primary registration stability batches meet the requirements of the ICH Q1A(R2) Guidance. • To date, data from the primary registration batches meet proposed abrocitinib specifications at release and stability. The 24 months long term (30°C/75%RH) stability data for batches 19-AP-00096, 19-AP-00101 and 19-AP-00107 are provided with this response. All lots continue to meet acceptance criteria with no trends. • Stability studies at Pfizer Ireland Pharmaceuticals (Ringaskiddy) are ongoing, and 12 months long-term at 30ºC/75%RH and 6 month accelerated stability data at 40ºC/75%RH storage conditions are provided for batches EC9895, ED8499, EE3296. • Primary Registration Stability Data declaration is also provided in Regional section of this response.	
3.2.P.7	• Specify container closure system in which the applied product will be marketed in Pakistan	Container closure system to be marketed in Pakistan is polyvinylidene chloride (PVDC) blister with an aluminum foil lidding.
3.2.P.8	**Query:**	

	Clarification is required for submitting stability study data of drug product from M/s Pfizer, Groton, CT USA while drug product manufacturer as per form 5F / CoPP is M/s Pfizer Manufacturing Deutschland GmbH Betriebsstätte Freiburg Mooswaldallee 1, 79090 Freiburg, Germany. **Response of firm:** • Current drug product (DP) stability data for abrocitinib 50,100 and 200 mg tablets are from primary registration stability batches manufactured at Pfizer Inc. clinical manufacturing site at Groton, CT USA. The DP manufacturing processes used at Groton site is the same as the processes to be used at the proposed Pfizer Inc. commercial site (Freiburg, Germany). The formulations, like-for-like manufacturing equipment and specifications are the same for drug product made at Freiburg and Groton. Pfizer confirms that the abrocitinib DP primary registration stability batches meet the requirements of the ICH Q1A(R2) Guidance. • To date, data from the primary registration batches meet proposed abrocitinib specifications at release and stability. Drug product stability data from the primary registration batches has been completed through 36 months for 3 batches of 100 and 200 mg strength tablets and 24 months for 3 batches of 50 mg strength tablets at the long term storage conditions of 25 °C/60% RH and 30 °C/75% RH, and 6 months for all strengths at the accelerated storage condition of 40 °C/75% RH.. All lots continue to meet acceptance criteria. Current long term stability data for primary registration batches has been provided in Section 3.2.P.8.1 Stability Summary and Conclusion and Section 3.2.P.8.3 Stability Data. • Stability studies at the commercial manufacturing site of Pfizer Manufacturing Deutschland GmbH in Freiburg, Germany are ongoing, and 12 month long-term at 30ºC/75%RH and 6 month accelerated stability data at 40ºC/75%RH storage conditions were provided for batches H000021926 EJ8432, H000021926 EJ8433, H000021926 EJ8434. • Primary Registration Stability Data declaration is also provided in Regional section of this response.

Decision: Approved as per policy of inspection of manufacturer abroad.

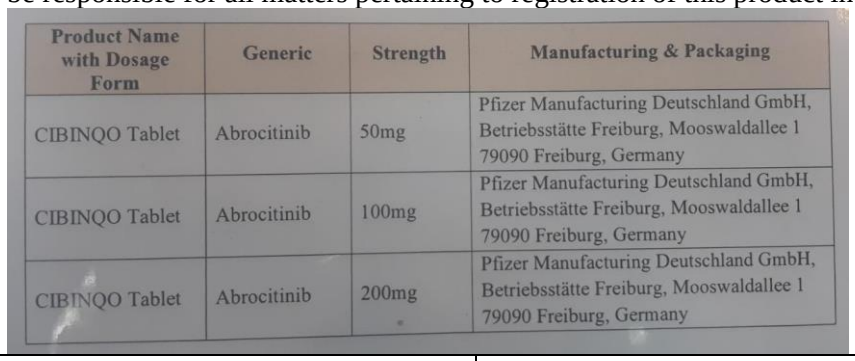
The proposed proprietary name / brand name	**CIBINQO Film Coated Tablets 100mg**
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Abrocitinib …… 100mg
Pharmaceutical form of applied drug	Film Coated Tablets
Pharmacotherapeutic Group of (API)	Other dermatological preparations, agents for dermatitis, excluding corticosteroids) ATC Code D11AH08
Reference to Finished product specifications	Pfizer Specs (Innovator)
Proposed Pack size	To be provided later
Proposed unit price	To be provided later
The status in reference regulatory authorities	Cibinqo 100mg film-coated tablets MHRA Approved CIBINQO (50mg, 100mg, 200mg) film-coated tablets USFDA Approved Cibinqo 100mg film-coated tablets Germany Approved
For generic drugs (me-too status)	Not Applicable
Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guideline including information related to Drug Substance and Drug Product. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

		Firm has also summarized information related to composition, product development, manufacturing process, excipients, specifications, analytical methods, Reference standards or materials, container closure system and stability studies of Drug Product.
	Name, address of drug substance manufacturer	M/s Pfizer Ireland Pharmaceuticals Ringaskiddy API Plant, Ringaskiddy, County Cork, Ireland.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to general information nomenclature, structure, general properties, Manufacturer, description of manufacturing process and controls, critical steps, process validation, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated stability study is conducted at 40°C/75% RH for 06th months. The real time stability data is conducted at 30°C / 75% RH for 12th months. (Batches: 19-AP-00096, 19-AP-00101, 19-AP-00107)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability studies.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not applicable.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Polyvinylchloride (PVC) / Polyvinylidene chloride (PVDC) foil blisters with aluminum foil lidding High-density polyethylene (HDPE) bottle and polypropylene closures with induction seal liners
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of three batches for 18 months long-term stability conditions of 30°C/75% RH and 25°C/60% RH. Stability study was also monitored at accelerated storage condition at 40 °C/75% RH for 6 months. (Batches: 19-PD-00012, 19-PD-00013, 19-PD-00014)

Remarks of Evaluator [XI]:



INDICATIONS AND USAGE:

CIBINQO is indicated for the treatment of adults with refractory, moderate-to-severe atopic dermatitis whose disease is not adequately controlled with other systemic drug products, including biologics, or when use of those therapies is inadvisable.

WARNING: SERIOUS INFECTIONS, MORTALITY, MALIGNANCY, MAJOR ADVERSE CARDIOVASCULAR EVENTS (MACE), and THROMBOSIS

- Increased risk of serious bacterial, fungal, viral and opportunistic infections leading to hospitalization or death, including tuberculosis (TB). Discontinue treatment with CIBINQO if serious or opportunistic infection occurs. Test for latent TB before and during therapy; treat latent TB prior to use. Monitor all patients for active TB during treatment, even patients with initial negative latent TB test.

- Higher rate of all-cause mortality, including sudden cardiovascular death, with another JAK inhibitor vs. TNF blockers in rheumatoid arthritis (RA) patients. CIBINQO is not approved for use in RA patients.
- Malignancies have occurred with CIBINQO. Higher rate of lymphomas and lung cancers with another JAK inhibitor vs.TNF blockers in RA patients.
- MACE has occurred with CIBINQO. Higher rate of MACE (defined as cardiovascular death, myocardial infarction, and stroke) with another JAK inhibitor vs. TNF blockers in RA patients.
- Thrombosis has occurred with CIBINQO. Increased incidence of pulmonary embolism, venous and arterial thrombosis with another JAK inhibitor vs. TNF blockers.

		results are taken from Pfizer Ringkaskiddy certificate of analysis.
3.2.S.7	***Query:*** Clarification is required for submitting stability study data of drug substance from Pfizer Limited., Sandwich, United Kingdom while drug substance manufacturer as per form 5F is M/s Pfizer Ireland Pharmaceuticals Ringaskiddy API Plant, Ringaskiddy, County Cork, Ireland. ***Response of firm:*** • Current drug substance (DS) stability data for abrocitinib API are from primary registration stability batches manufactured at Pfizer, Sandwich. The DS manufacturing process used at Pfizer, Sandwich is the same as the process used at the proposed commercial site at Pfizer Ireland Pharmaceuticals at Ringaskiddy, Ireland. Pfizer confirms that the abrocitinib DS primary registration stability batches meet the requirements of the ICH Q1A(R2) Guidance. • To date, data from the primary registration batches meet proposed abrocitinib specifications at release and stability. The 24 months long term (30°C/75%RH) stability data for batches 19-AP-00096, 19-AP-00101 and 19-AP-00107 are provided with this response. All lots continue to meet acceptance criteria with no trends. • Stability studies at Pfizer Ireland Pharmaceuticals (Ringaskiddy) are ongoing, and 12 months long-term at 30ºC/75%RH and 6 month accelerated stability data at 40ºC/75%RH storage conditions are provided for batches EC9895, ED8499, EE3296. • Primary Registration Stability Data declaration is also provided in Regional section of this response.	
3.2.P.7	• Specify container closure system in which the applied product will be marketed in Pakistan	Container closure system to be marketed in Pakistan is polyvinylidene chloride (PVDC) blister with an aluminum foil lidding.
3.2.P.8	***Query:*** Clarification is required for submitting stability study data of drug product from M/s Pfizer, Groton, CT USA while drug product manufacturer as per form 5F / CoPP is M/s Pfizer Manufacturing Deutschland GmbH Betriebsstätte Freiburg Mooswaldallee 1, 79090 Freiburg, Germany. ***Response of firm:*** • Current drug product (DP) stability data for abrocitinib 50,100 and 200 mg tablets are from primary registration stability batches manufactured at Pfizer Inc. clinical manufacturing site at Groton, CT USA. The DP manufacturing processes used at Groton site is the same as the processes to be used at the proposed Pfizer Inc. commercial site (Freiburg, Germany). The formulations, like-for-like manufacturing equipment and specifications are the same for drug product made at Freiburg and Groton. Pfizer confirms that the abrocitinib DP primary registration stability batches meet the requirements of the ICH Q1A(R2) Guidance. • To date, data from the primary registration batches meet proposed abrocitinib specifications at release and stability. Drug product stability data from the primary registration batches has been completed through 36 months for 3 batches of 100 and 200 mg strength tablets and 24 months for 3 batches of 50 mg strength tablets at the long term storage conditions of 25 °C/60% RH and 30 °C/75% RH, and 6 months for all strengths at the accelerated storage condition of 40 °C/75% RH.. All lots continue to meet acceptance criteria. Current long term stability data for primary registration batches has been provided in Section 3.2.P.8.1 Stability Summary and Conclusion and Section 3.2.P.8.3 Stability Data. • Stability studies at the commercial manufacturing site of Pfizer Manufacturing Deutschland GmbH in Freiburg, Germany are ongoing, and 12 month long-term at 30ºC/75%RH and 6 month accelerated stability data at 40ºC/75%RH storage conditions were provided for batches H000019421 EJ4550, H000019421 EJ4552, H000019421 EJ4553. • Primary Registration Stability Data declaration is also provided in Regional section of this response.

The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year. The CoPP is valid upto 27/04/2025. The name of importing country on CoPP is mentioned as Pakistan. **GMP:** Firm has submitted copy of GMP certificate (No. NEW-WHO-GMP/CERT/KD/111021/2022/11/40081 dated 28/04/2022 issued by Food and Drug Administration Mahrashtra Estate Mumbai India The GMP certificate is valid upto 27/04/2025.
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of authorization from Naprod Life Sciences Pvt. Ltd 304, Town Centre, Andheri Kurla Road, Andheri (East), Mumbai – 400 059 India. On request of facilitator M/s Miles International (Facilitator) 2/34, Tardeo Air-Conditioned Market, Tardeo Road, Mumbai-400034, India. The letter species that the facilitator appoints M/s Lab Diagnostic Systems (SMC) Pvt Ltd. to apply for registration of their product. The authorization letter is valid till 31/03/2027. ***However the product mentioned on letter of authorization is Gemcitabine HCl for Injection 200mg/vial while the applied product is Gemibine 1g injection***
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 27895 : dated: 03/10/2022
	Details of fee submitted	PKR 150,000/- dated 20/09/2022 Deposit Slip#398513572972)
	The proposed proprietary name / brand name	**Gemibine 1g**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Gemcitabine Hydrochloride USP 1g
	Pharmaceutical form of applied drug	IV Infusion
	Pharmacotherapeutic Group of (API)	N/A
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Gemcitabine 1 g Powder for Solution for Infusion Ireland Approved
	For generic drugs (me-too status)	Gemcitabin Ebewe 1g Injection by M/s Novartis Pharma (Pakistan) Limited (Reg. No# 066183)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	**DMF Holder:** M/s Mac Chem Products (India) Pvt. Ltd., 304, Town Centre, Andheri Kurla Road, Andheri (East), Mumbai – 400 059 India. **Manufacturing and Testing Facilities:** M/s Mac Chem Products (India) Pvt. Ltd., N-211/2/10. Tarapur M.I.D.C., Boisar, Distt – Palghar – 401506, Mahrashtra State India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated conditions (40±2°C/75± 5%RH) for 6 months as well as real time conditions. The real time stability data is conducted at 30±2°C /65±5%RH for 60 months.

		(Batches: GEM0210001, GEM0210002, GEM0210003)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the product Gemcitabine for Injection USP 200mg/vial manufactured by Hospira Inc. by performing quality tests (Description, Identification, pH, Assay, water content).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, precision, linearity and range, accuracy, solution stability and robustness for the applied product.
	Container closure system of the drug product	13mm/ 20mm neck size 2ml/ 3ml/ 4ml/ 5ml/ 10ml/ 15ml/ 20ml/ 25ml/ 30ml/ 50ml/ 100ml, molded/ Tubular, Flint/ Titanium amber vial made up of USP type-I glass with rubber stopper and aluminium flip off seal
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40° C ± 2° C / 75% ± 5% RH and real time stability study is conducted at 30° C ± 2° C / 75% ± 5% RH. The batch numbers and time duration for which stability study is conducted is presented in table given below:

Batches	**Real time**	**Accelerated**
NN1444-E	3 months (inverted)	3 months (inverted)
NN1445-A	3 months (inverted)	3 months (upright)
NN1259-A	6 months (inverted)	6 months (inverted)

Remarks of Evaluator [XI]:

Section	**Observations**	**Response**
1.3.4	• Submit product specific sole agency agreement / letter of authorization between applicant and marketing authorization holder	The firm again submitted the same sole agency agreement / letter of authorization as submitted above
1.5.2	• Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit shall be clearly mentioned. Submit correct label claim considering salt factor along with submission of applicable fee	Each vial contains: Gemcitabine HCl Equivalent to Gemcitabine USP……1000mg.
1.5.5	• Indicate Pharmacological class of the API (drug substance) with proper reference and WHO ATC code for each distinct therapeutic indication.	Pharmacological class of API (drug substance) is Pyrimidine analogue; cytotoxic and WHO ATC code is L01BC05
1.5.10	• Dosage form of applied drug shall be mentioned clearly, with complete description	It is a Lyophilized Injection and a white to off white lyophilized mass.
1.5.15-1.5.20	• Submit Commitments as per the CTD guidance document	**Submitted**
1.6.5	• Submit Name and address of API manufacturer.,	**DMF Holder:**

		M/s Mac Chem Products (India) Pvt. Ltd., 304, Town Centre, Andheri Kurla Road, Andheri (East), Mumbai – 400 059 India. **Manufacturing and Testing Facilities:** M/s Mac Chem Products (India) Pvt. Ltd., N-211/2/10. Tarapur M.I.D.C., Boisar, Distt – Palghar – 401506, Mahrashtra State India.
3.2.S.4	• Clarification is required for not including the sterility test in drug substance specification by drug substance manufacturer as recommended by USP • Copies of the specifications and analytical procedures used for routine testing of the Drug substance by Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Provide certificate of analysis of Drug Substance performed by Drug Product manufacturer	• We would like to inform that we are not procuring sterile material from API manufacturer, sterility test is applicable for sterile material. FPP manufacturer is performing MLT analysis for API material". • Copies of the specifications and analytical procedures used for routine testing of the Drug substance by Drug product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision), linearity and range, solution stability performed by the Drug Product manufacturer for drug substance(s) is submitted • Certificate of analysis of Drug Substance performed by Drug Product manufacturer is submitted
3.2.P.1	• Provide information including type of diluent, its composition, quantity or volume, specifications and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug	**For product development:** Type of diluent: water for injection Quantity: Quantity sufficient Specification: USP **For reconstitution:** 5ml of sodium chloride injection (0.9% w/v)
3.2.P.2	• The submitted pharmaceutical equivalence is of gemcitabine for injection 200mg strength while the applied product is gemcitabine for injection 1g. • Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the comparator product including the tests recommended by USP (Uniformity of dosage units, sterility, bacterial endotoxin, particulate matter in injections, clarity of solution)	• Pharmaceutical Equivalence have been established against the product Gemcitabine for Injection USP 01g/vial manufactured by Eli Lilly and Company by performing quality tests (Description, Identification, pH, Assay, water content, reconstitution time, osmolality and related substance). • **No justification given**
3.2.P.5.4	• In batch analysis the manufacturing date mentioned on COA of one batch is Jun 2021 and manufacturing date of two other batches is October 2021 while batch release date is 26/04/2022, clarify the gap between manufacturing date and batch release date.	• Please note that the release date is just after the manufacturing date but revised COA prepared dated 26.04.2022 to add Description of reconstituted solution test analysis result. You can see the same comment in the foot note of the attached COA also. However COA is not submitted
3.2.P.7	• Specify the container closure system in which the product will be marketed in Pakistan	• Each labelled vial of gemcitabine for injection is packed in Vial 10ml 20mm Flint Tubular type I vial plugged with 20mm Grey Bromo Butyl slotted Rubber stopper and sealed with 20mm flip off aluminium seal
3.2.p.8	• Batch release date mentioned in COA of drug product is subsequent to date of initiation of stability study mentioned stability summary sheets • *The manufacturing date mentioned on COA of batch No. NN1259 is Jun 2021 and release date is 26/04/2022 while date of initiation of stability study is 21-08-2021, clarify?* • *The manufacturing date mentioned on COA of batch No. NN12444 and NN1445 is October 2021 and release date is 26/04/2022 while date of initiation of stability study is 13-12-2021 and 16-12-2021, clarify?*	• Please note that the release date is just after the manufacturing date for finished product & stability date of initiation is 17.07.2021 which is inline. • Please note that we are submitting the stability data up to 12 months at real time conditions. In addition, we also share the declaration that the stability study is in process for further remaining time intervals. We will share the data once the study is completed up to 24 months. • However rea time data submitted is; **Batches** | **Real time** NN1444-E | 6 months (inverted)

	• Submit stability study data of drug product at accelerated conditions for six months and real time conditions till proposed shell life	NN1445-A	6 months (inverted)	
		NN1259-A	12 months (inverted)	

Decision: Approved as per Policy for inspection of manufacturer abroad with shelf life as per submitted long term stability studies data. Registration letter will be issued upon submission of Pharmaceutical equivalence studies against the innovator/reference product of same fill volume and strength including all tests recommended by USP monograph for applied formulation.

- **Furthermore, Registration Board was apprised regarding an e. mail received to Director PE&R Division from M/s Miles International India (authorized exclusive representative for the export of products manufactured by Naprod Life Sciences for the Pakistan region), wherein firm has requested to not consider any product registration applications made by any other party other than LDS as they will not be able to supply these products in the future.**
- **In context of above cited e.mail Registration Board decided that firm shall submit afresh notarized "Sole Agency Agreement" between M/s Lab Diagnostic System & M/s Naprod Life Sciences Pvt. Ltd before issuance of registration letter.**

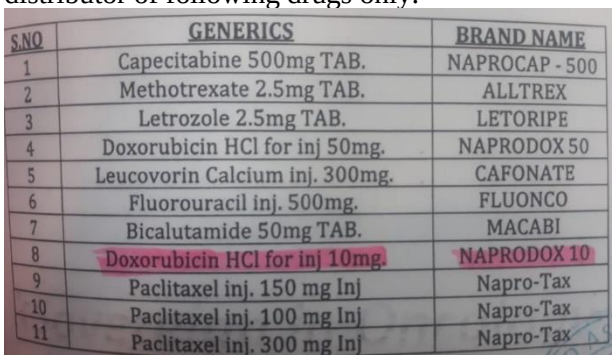
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities,

		specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Intas Pharmaceuticals Ltd., Plot No. 2702/A, GIDC Estate, Ankleshwar-393 002, District: Bharuch, Gujarat State India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated study is conducted at 40±2°C/75± 5%RH for 6 months and the real time stability study is conducted at 25 ± 2°C/ 60 ± 5 % RH till 24 months. (Batches: 71203715, 71204715, 71204915)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence has been established against the reference product ADRIAMYCIN RD 10 mg/vial injection by performing quality tests (Description, Identification, pH, Assay, particulate matter, reconstitution time).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, precision, linearity and range, accuracy and solution stability for the applied product.
	Container closure system of the drug product	5ml 20mm Flint Tubular-USP Type-I Glass vial with Rubber stopper 20mm Grey Bromo Butyl Slotted Siliconised by Silicon & Alu. Seal Lacq.20mm F/O Top Red Plain
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40° C ± 2° C / 75% ± 5% RH for 06 months and real time stability study is conducted at 30° C ± 2° C / 75% ± 5% RH for 36 months.

Batches	**Mfg date**	**Batch size**
NN7196	May 2017	18160 vials
NN7232	Jun 2017	18160 vials
NN7233	Jun 2017	18160 vials

Remarks of Evaluator [XI]:



<table>
<tr><th>Section</th><th>Observations</th><th>Response</th></tr>
<tr><td>1.3.3</td><td>• Submit valid Certificate of Pharmaceutical Product (CoPP) and GMP certificate of the drug product Manufacturer issued by relevant regulatory authority in the country of origin</td><td>• The firm submitted that the COPP that we submitted with CTD dossier has a validity till April 2022, as it gets expire during its period in R&I that's why as per the rule it will be considered as valid as we received R&I attested letter on 24th-Februray-2022.</td></tr>
<tr><td>1.3.4</td><td>• Submit copy of valid Drug Sale License (DSL) issued by relevant licensing authority</td><td>Firm has submitted valid copy of DSL.
DSL No.: 0230
Address: Al Habib Pharmaceuticals, 81-B, block B, S.M.C.H.S., Karachi.
Godown:
Plot No. 393/7 & 393/8 Sector 7-A KIA Karachi
Validity: 18/05/2024
Status: Drug License by way of wholesale</td></tr>
<tr><td>1.3.5</td><td>• Submit evidence of approval of manufacturing facility / Approved Section from Licensing Authority</td><td>Firm submitted cGMP certificate in name of Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, District Palghar–401506, Mahrashtra State India showing lyophilized / Powder injectable cytotoxic section</td></tr>
<tr><td>1.6.5</td><td>• Submit Name and address of API manufacturer.,
• Submit valid GMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.</td><td>• Firm has submitted details of API Manufacturer:
M/s Intas Pharmaceuticals Ltd., Plot No. 2702/A, GIDC Estate, Ankleshwar-393 002, District: Bharuch, Gujarat State India.
• Firm has submitted cGMP certificate in name of M/s Intas Pharmaceuticals Ltd., Plot No. 2702/A, GIDC Estate, Ankleshwar-393 002, District: Bharuch, Gujarat State India issued by Commissioner Food and Drug Administration Gandhinagar India valid upto 05-09-2025</td></tr>
<tr><td>3.2.S.4</td><td>• Justification is required for selecting different limits of specification of total impurities (Not more than 2.0%) by drug product manufacturer than drug substance manufacturer (Not more than 1.0%)</td><td>• Please note that we are following the BP monograph for analysis of finished product. BP Monograph of Doxorubicin for injection mentions limit of total impurities - Not more than 2.0%. BP monograph of finished product is submitted.</td></tr>
<tr><td>3.2.P.1</td><td>• Justify the role of methyl paraben in the applied formulation
<table>
<tr><th>Applied product</th><th>Reference product</th></tr>
<tr><td>Doxorubicin HCl</td><td>Doxorubicin HCl</td></tr>
<tr><td>Lactose monohydrate</td><td>Lactose Monohydrate</td></tr>
<tr><td>Methyl paraben</td><td></td></tr>
<tr><td>HCl</td><td></td></tr>
<tr><td>NaOH</td><td></td></tr>
<tr><td>Water for injection</td><td></td></tr>
</table>
• Provide information including type of diluent, its composition, quantity or volume, specifications and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug</td><td>• Methyl paraben is used as Solubilizing agent in the formulation of Doxorubicin for injection 10 mg.
• Methyl paraben occurs as colorless crystals or a white crystalline powder. It is odorless or almost odorless and has a slight burning taste. Methyl paraben is widely used as an antimicrobial preservative in cosmetics, food products, and pharmaceutical formulations. Aqueous solutions at pH 3–6 are stable The WHO has set an estimated total acceptable daily intake for methyl-, ethyl-, and propyl parabens at up to 10 mg/kg body weight and official monograph available in BP.
• However as per Innovator Literature, for Doxorubicin Hydrochloride for Injection particularly used as solubilizing agent which improved or give rapid dissolution of powder in final lyophilized product. Methyl paraben was used in formulation to improve solubilization by reducing the gel formation during reconstitution. Being generic drug of existing Innovator all excipients used as per Innovator and comply as per generic drug definition.
• No information provided</td></tr>
<tr><td>3.2.P.2</td><td>• Submit details of comparator product including name of manufacturer, Batch No#, manufacturing date, expiry date etc. against which pharmaceutical equivalence is submitted
• Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the innovator/comparator product</td><td>• Information not provided
• Pharmaceutical equivalence was proved on the basis of enclosed comparison of important physicochemical characteristic of innovator product and drug product. Also the proposed Drug product contains same active substance and excipient in similar quantity as that of innovator product. Complete testing as per the any specific pharmacopeia is not necessary during product development as we develop product for global supply with different pharmacopeia. As the results of critical Physicochemical</td></tr>
</table>

	including the tests recommended by BP (Bacterial endotoxin, Water)	parameters are similar and comparable, therefore both the drug product and innovator product are pharmaceutically equivalent. • Moreover Naprod ensure to perform complete analysis of drug product inline with the BP pharmacopoeia during release of every batch & Submitted stability study.
3.2.P.5.4	• In batch analysis the manufacturing date mentioned on COA of one batch No. NN7233 is Jun 2017 while batch release date is October 2017, clarify the gap between manufacturing date and batch release date.	• Please Note that the batch was manufactured in the end of June 2017. Subsequently the Mother batch was released in July-2017 as per the common pharmacopoeia grades (IP/BP). • Refer enclosed COA of mother batch with common IP/BP pharmacopoeia. Then this batch was charged on the stability study in August 2017. • Later as per export requirement, we have packed and released some quantity from same mother batch as per only BP specification in October-2017. • Since we are proposing the BP grade for finished product in Pakistan registration, we have submitted the same finished product COA which was released as per BP in October-2017 as per Pakistan requirement
3.2.P.8	• Batch release date mentioned in COA of drug product is subsequent to date of initiation of stability study mentioned in stability summary sheets, clarify • The manufacturing date mentioned on COA of batch No. NN7233 is Jun 2017and batch release date is October 2017 while date of initiation of stability study is 24-08-2017, clarify?	• Naprod had manufactured and initially released batch as per common pharmacopoeia (IP/BP) & then charged for stability study to meet domestic as well as export registration requirements. • Later as per Export requirement, we have released some quantity from these batches to export market as per BP pharmacopoeia grade. Since we are proposing the BP grade for finished product in Pakistan registration, we have submitted the same finished product COA which were released subsequently. • Hence COA of these batches have subsequent release date, after stability initiation date.

Remarks of Evaluator: Registration Board was apprised regarding an e. mail received to Director PE&R Division form M/s Miles International India (authorized exclusive representative for the export of products manufactured by Naprod Life Sciences for the Pakistan region), wherein firm has requested to not consider any product registration applications made by any other party other than LDS as they will not be able to supply these products in the future.

Decision: Deferred for the Verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Nantong Jinghua Pharmaceutical Co., Ltd., No.20, 3 Haibin Road, Yanhai Economic Development Zone, Rudong, Nantong, Jiangsu, China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated study is conducted at 40±2°C/75± 5%RH for 6 months and the real time stability study is conducted at 25 ± 2°C/ 60 ± 5 % RH till 48 months. (Batches: FLU2012001-RD, FLU2012002-RD, FLU2012003-RD)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence has been established against the reference product Fluorouracil Injection 50mg/ml by M/s Accord Pharmaceutical Ltd., by performing quality tests (Description, pH, Assay, particulate matter, bacterial endotoxin, test for urea, test for related substances).
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies including specificity, precision, linearity and range, accuracy for the applied product.
	Container closure system of the drug product	10ml 20mm Amber coloured Type-I vial with 20mm Grey Bromo Butyl Rubber stopper with aluminium seal
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40° C ± 2° C / 75% ± 5% RH for 06 months and real time stability

		study is conducted at 30° C ± 2° C / 75% ± 5% RH for 36 months. **Batches** / **Mfg date** / **Batch size** NN9308-B inverted…LT / Jul 2019 / 22828 vials NN9358-A upright….LT / Aug 2019 / 22828 vials NN9359-A inverted…..LT / Aug 2019 / 22828 vials Firm submitted accelerated stability study data at both orientation (inverted, upright)

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.3	• Submit valid Certificate of Pharmaceutical Product (CoPP) and GMP certificate of the drug product Manufacturer issued by relevant regulatory authority in the country of origin	• The firm submitted that the COPP that we submitted with CTD dossier has a validity till April 2022, as it gets expire during its period in R&I that's why as per the rule it will be considered as valid as we received R&I attested letter on 24th-Februray-2022. • Firm has submitted cGMP certificate of M/s Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, Dist. Palghar–401506, Mahrashtra State India issued by Comissioner Food and Drug Administration Maharashtra state India valid upto 27-04-2025
1.3.4	• Submit copy of valid Drug Sale License (DSL) issued by relevant licensing authority	• Firm has submitted valid copy of DSL. **DSL No**.: 0230 **Address**: Al Habib Pharmaceuticals, 81-B, block B, S.M.C.H.S., Karachi. **Godown:** Plot No. 393/7 & 393/8 Sector 7-A KIA Karachi **Validity:** 18/05/2024 **Status:** Drug License by way of wholesale
1.3.5	• Submit evidence of approval of manufacturing facility / Approved Section from Licensing Authority	Firm submitted cGMP certificate in name of Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, District Palghar–401506, Mahrashtra State India showing lyophilized / Powder injectable cytotoxic section
1.5.2	• Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit shall be clearly mentioned as per reference formulation along with submission of applicable fee	Fluorouracil injection BP 500mg/10ml (50mg/ml)
1.6.5	• Submit Name and address of API manufacturer.,	Nantong Jinghua Pharmaceutical Co., Ltd., No.20, 3 Haibin Road, Yanhai Economic Development Zone, Rudong, Nantong, Jiangsu, China.
3.2.P.1	• Justify the role of Tris Buffer (tromethamine) in the applied formulation **Applied product** / **Reference product** Fluorouracil / Fluorouracil Sodium Hydroxide / Sodium Hydroxide Tris Buffer (tromethamine) / Water for injection Water for injection /	Based on information and rationale; Tris Buffer used as buffering agent and Sodium Hydroxide as pH adjustifier along with Water for Injection. Selected excipients are very conventional and normally used in Injection manufacturing for their particular function like buffering agent and pH adjuster.
3.2.P.2	• Submit details of comparator product including name, manufacturing date, expiry date etc. against which pharmaceutical equivalence is submitted	• The firm submitted details of reference / comparator product. The details of reference product are: Name: Fluorouracil Injection 50mg/ml; B. No: N03889, Mfg Date: 16-06-2015, Expiry Date: 15-06-2017 Manufacturer by: Accord Pharmaceutical Ltd.
3.2.P.8	• Clarification is required as submitted long term stability summery sheets of drug product conclude as: the product meets the prescribed standards of quality after	• The firm submitted that 36 months stability data submitted but the proposed shelf life mentioned in Stability summary sheet is 24 months. (Stability summary sheet attached)

	completion of 18 months long term stability study as per stability indicating specifications, while stability study data upto 36 months is submitted. • The submitted long term stability summary sheets include both the conditions 40° C ± 2° C / 75% ± 5% RH and 30° C ± 2° C / 75% ± 5%, clarify?	• In the sheet three conditions and temperature are mentioned but the long term and only 30°C ± 2°C and 75% ± 5%RH is marked (✓) which clearly shows the long term stability conducted on 30°C ± 2°C and 75% ± 5%RH (Sheet attach for clarification)

Remarks of Evaluator: Registration Board was apprised regarding an e. mail received to Director PE&R Division form M/s Miles International India (authorized exclusive representative for the export of products manufactured by Naprod Life Sciences for the Pakistan region), wherein firm has requested to not consider any product registration applications made by any other party other than LDS as they will not be able to supply these products in the future.

Decision: Decision: Deferred for the Verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India.

Case No. 03; New application for registration of Human drugs with stability study data on Form 5D on export facilitation

Assistant director PR-I/EFD vide letter No.F.1-6/2019-PR-I (EFD dated 06-10-2022 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2021-2022** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents to Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	The firm has referred to previous inspection for authenticity of stability data of their product conducted by the panel on the basis of which Registration Board in 294th meeting dated 09th April, 2020 decided to approve registration of Movcol Paediatric Sachet. Inspection date: 07th February, 2020 The report shows that: • The HPLC software is 21 CFR compliant. • Audit Trail on the testing reports are available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software 21CFR compliance.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copy of COA (2KA0261119) of Racecadotril from M/s Symed Labs Limited., India and M/s Genix Pharma (Pvt.) Ltd is submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer is provided by the firm.
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone IV-A conditions. Stability study is conducted at Real time conditions; 30˚C ± 2˚C / 65% ± 5%RH for 36 months and at

		Accelerated conditions; 40°C ± 2°C / 75% ± 5%RH for 06 months. Batches: (RACL009, RACL010 & RACL011))
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Symed Labs Limited., Plot No. 25/B, Phase-III, IDA, Jeedimetla Village, Quthbullapur Mandal, Medchal - Malkajgiri District, Pincode 500005, Telangana State, India., issued by Deputy Director and Certifying Authority Drugs Control Administration Telangana State India valid upto 24-04-2023.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP/1334 dated 19-02-2020 for import of 0.85kg of Racecadotril (Batch#2KA0261119) in name of M/s Genix Pharma (Pvt.) Ltd.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	The firm submitted that they used the same excipient as that of innovator, hence Drug-excipients compatibility studies is not required
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** 20SB(A)-025-01 / 1500 Sachets / 12-2020 20SB(A)-026-02 / 1500 Sachets / 12-2020 20SB(A)-027-03 / 1500 Sachets / 12-2020
11.	Record of comparative dissolution data (where applicable)	Firm has submitted pharmaceutical equivalence report of applied product against the product Hidresac 10mg sachet by M/s Abbot by performing quality tests. (Appearance, Identification, average weight, assay)
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of 03 batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail reports on product testing is submitted upto 3 months.
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted upto 3 months only

Remarks of Evaluator [XI]

Deficiency/Observation	**Response by Firm**
• Submit readable copy of invoice attested by AD (I&E) DRAP field office • Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years • Raw data sheets at 6th month time point of real time and accelerated stability study is not submitted • Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing. • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 06th months	• Firm has submitted readable copy of invoice No. EXP/1334 dated 19-02-2020 for import of 0.85kg of Racecadotril (Batch#2KA0261119) in name of M/s Genix Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Karachi dated 17-03-2020. • Firm has submitted cGMP certificate issued on 07th October 2021 based on inspection conducted on 15th June 2021 • Raw data sheets at 6th month time point of real time and accelerated stability study is submitted

	• Firm has submitted audit trail reports on product testing • Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 06th months

Decision: Approved with Innovator's specification. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

1317	Name and address of manufacturer / Applicant	M/s Genix Pharma Private Limited., 44-45B Korangi creek road Karachi
	Brand Name +Dosage Form + Strength	Racetril sachet 30mg
	Composition	Each sachet contains: Racecadotril……..30mg
	Diary No. Date of R& I & fee	Dy. No. 1330 dated 13-01-2012, Fee Rs: 20,000/- dated 17-02-2014; Rs.30,000/- (Photocopy attached) 02-09-2015.
	Pharmacological Group	Anti-diarrheal
	Type of Form	Form 5D
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	Rs.800/10's, Rs.1120/14's
	Approval status of product in Reference Regulator Authorities	Hidrasec Children 30mg, Granules for oral suspension MHRA Approved
	Me-too status	Hidrasec 30mg Sachet by M/s Abbott Laboratories (Reg. No# 87517)
	GMP status	
	Remarks of the Evaluator	• Stability studies are required as per checklist of 251st meeting of DRB. • Clinical data/Justification required

Decision (268-DRB): Deferred for submission of stability study data as per guidelines of 251st DRB meeting

STABILITY STUDY DATA

Manufacturer of API	M/s Symed Labs Limited., Plot No. 25/B, Phase-III, IDA, Jeedimetla Village, Quthbullapur Mandal, Medchal - Malkajgiri District, Pincode 500005, Telangana State, India		
API Lot No.	2KA0261119		
Description of Pack (Container closure system)	Printed Auminium foil sachet		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5% RH Accelerated: 40 °C ± 2 °C / 75% ± 5%		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	20SB(A)-028-01	20SB(A)-029-02	20SB(A)-030-03

Manufacturing Date	12-2020	12-2020	12-2020
Date of Initiation	04-01-2021	04-01-2021	04-01-2021
No. of Batches	03		

Date of Submission	(13590 & 13592) 20-05-2021 & (3063) 19-11-2021

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents to Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	The firm has referred to previous inspection for authenticity of stability data of their product conducted by the panel on the basis of which Registration Board in 294th meeting dated 09th April, 2020 decided to approve registration of Movcol Paediatric Sachet. Inspection date: 07th February, 2020 The report shows that: • The HPLC software is 21 CFR compliant. • Audit Trail on the testing reports are available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software 21CFR compliance.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copy of COA (2KA0261119) of Racecadotril from M/s Symed Labs Limited., India and M/s Genix Pharma (Pvt.) Ltd is submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer is provided by the firm.
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone IV-A conditions. Stability study is conducted at Real time conditions; 30˚C ± 2˚C / 65% ± 5%RH for 36 months and at Accelerated conditions; 40˚C ± 2˚C / 75% ± 5%RH for 06 months. Batches: (RACL009, RACL010 & RACL011))
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Symed Labs Limited., Plot No. 25/B, Phase-III, IDA, Jeedimetla Village, Quthbullapur Mandal, Medchal - Malkajgiri District, Pincode 500005, Telangana State, India., issued by Deputy Director and Certifying Authority Drugs Control Administration Telangana State India valid upto 24-04-2023.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP/1334 dated 19-02-2020 for import of 0.85kg of Racecadotril (Batch#2KA0261119) in name of M/s Genix Pharma (Pvt.) Ltd.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	The firm submitted that they used the same excipient as that of innovator, hence Drug-excipients compatibility studies is not required
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** 20SB(A)-028-01 / 1500 Sachets / 12-2020 20SB(A)-029-02 / 1500 Sachets / 12-2020 20SB(A)-030-03 / 1500 Sachets / 12-2020
11.	Record of comparative dissolution data (where applicable)	Firm has submitted pharmaceutical equivalence report of applied product against the product Hidresac 30mg sachet

		by M/s Abbot by performing quality tests. (Appearance, Identification, average weight, assay)
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of 03 batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail reports on product testing is submitted upto 3 months.
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted upto 3 months only

REMARKS OF EVALUATOR [XI]

Deficiency/Observation	Response by Firm
• Same diary number and date of both applications • Submit readable copy of invoice attested by AD (I&E) DRAP field office • Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years • Raw data sheets at 6th month time point of real time and accelerated stability study is not submitted • Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing. • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 06th months	• Firm has submitted readable copy of invoice No. EXP/1334 dated 19-02-2020 for import of 0.85kg of Racecadotril (Batch#2KA0261119) in name of M/s Genix Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Karachi dated 17-03-2020. • Firm has submitted cGMP certificate issued on 07th October 2021 based on inspection conducted on 15th June 2021 • Raw data sheets at 6th month time point of real time and accelerated stability study is submitted • Firm has submitted audit trail reports on product testing • Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 06th months

Decision: Approved with Innovator's specification. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone IV-A conditions. Stability study is conducted at Real time conditions; 30˚C ± 2˚C / 65% ± 5%RH for 36 months and at Accelerated conditions; 40˚C ± 2˚C / 75% ± 5%RH for 06 months. Batches: (RACL009, RACL010 & RACL011))
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Symed Labs Limited., Plot No. 25/B, Phase-III, IDA, Jeedimetla Village, Quthbullapur Mandal, Medchal - Malkajgiri District, Pincode 500005, Telangana State, India., issued by Deputy Director and Certifying Authority Drugs Control Administration Telangana State India valid upto 24-04-2023.

6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP/1334 dated 19-02-2020 for import of 0.85kg of Racecadotril (Batch#2KA0261119) in name of M/s Genix Pharma (Pvt.) Ltd.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	No data submitted
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** 20SB-133-01 / 1500 capsule / 08-2020 20SB-134-02 / 1500 capsule / 08-2020 20SB-135-03 / 1500 capsule / 08-2020
11.	Record of comparative dissolution data (where applicable)	Firm has submitted CDP studies of applied product against the innovator's product Hidrasec 100mg capsule by M/s Abbot Laboratories Ltd in Acid media 0.1N HCl (pH 1.2), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f2 are in the acceptable range.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of 03 batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Not submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

REMARKS OF EVALUATOR [XI]

Deficiency/Observation	Response by Firm
• Submit readable copy of invoice attested by AD (I&E) DRAP field office • Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years • Drug excipient compatibility study is not submitted • Justification is required for not including test for water content of drug product as per reference product public assessment report • Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing. • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) • Submit latest inspection report for exemption of stability data conducted by the panel for authenticity of stability data (PSI)	• Firm has submitted readable copy of invoice No. EXP/1334 dated 19-02-2020 for import of 0.85kg of Racecadotril (Batch#2KA0261119) in name of M/s Genix Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Karachi dated 17-03-2020. • Firm has submitted cGMP certificate issued on 07th October 2021 based on inspection conducted on 15th June 2021 • The firm submitted that applied product is qualitatively similar to that of innovator/reference product, which is Hidrasec capsule 100mg, therefore drug-excipient compatibility studies were not performed • The firm submitted that product has been manufactured by dry blending method and there is no water used in the proess, therefore we did not include water content test • Firm has submitted audit trail reports on product testing • Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 06th months • The firm has referred to previous inspection for authenticity of stability data of their product conducted

	by the panel on the basis of which Registration Board in 281st meeting dated 11th-13th April, 2018 decided to approve registration of Lanzole-D capsule 30mg, Lanzole-D capsule 60mg. Inspection date: 09th April, 2018 The report shows that: • The HPLC software is 21 CFR compliant and having certificate of compliance by USFDA • The firm has audit trail reports on their testing. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software 21CFR compliance.

Decision: Approved with Innovator's specification. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

Case No. 04; New application for registration of Human drugs on Form 5-F on export facilitation

Assistant director PR-I/EFD vide letter No.F.1-6/2019-PR-I (EFD dated 06-10-2022 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2020-2021** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

1319.	Name, address of Applicant / Marketing Authorization Holder	M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.
	Name, address of Manufacturing site.	M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted cGMP certificate issued on 13-05-2019 based on inspection conducted on 30-04-2019
	Evidence of approval of manufacturing facility	Firm has submitted copy of DML renewal letter No.F.1-8/84-Lic(Vol-V) dated 08-06-2022 which specifies Tablet section (General).
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 1308 dated 14-01-2022
	Details of fee submitted	Rs.75,000/- dated 30-12-2021 (Slip#4452496739)
	The proposed proprietary name / brand name	Gablin CR 82.5mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Pregabalin……..…82.5mg
	Pharmaceutical form of applied drug	Pink colored, oblong biconvex film coated tablet
	Pharmacotherapeutic Group of (API)	Anti-epileptics
	Reference to Finished product specifications	Innovator's specifications

	Proposed Pack size	5's, 10's, 14's, 20's, 28's, 30's, 50's, 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR extended-release tablets (82.5mg, 165mg, 330 mg) by USFDA Approved.
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	M/s Kopran Research Laboratories Limited., K4/4, Additional MIDC, Post Birwadi, Tal. Mahad, District: Raigad, Raigad 402302, Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (PRG/P0904005, PRG/P0904006, PRG/P0904007)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator Lyrica CR 82.5mg Tablet distributed by M/s Parke-Davis Division of Pfizer Inc. NY, NY 10017, by performing quality tests (Description, Identification, Assay, Dissolution). CDP has been performed against the same brand that is Lyrica CR 82.5mg Tablet distributed by M/s Parke-Davis Division of Pfizer Inc. NY, NY 10017 in Acid media pH 1.2, acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Analytical method validation report is not submitted

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted License retention certificate dated 29-02-2020 of M/s Kopran Research Laboratories Limited., India., issued by Food & Drugs Administration Maharashtra State India valid upto 31-03-2025. Firm has submitted cGMP certificate dated 20-10-2020 of M/s Kopran Research Laboratories Limited., India., issued by Commissioner, Food & Drugs Administration Maharashtra State India valid upto 19-10-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP-393 dated 28-12-2020 for import of 100kg of Pregabalin (Batch# PRGH/P2012004D) in name of M/s CCL Pharmaceuticals (Pvt.) Ltd., attested by AD (I&E) DRAP Lahore dated 04-01-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted DML renewal Inspection report conducted on 14.09.2020, 15.09.2020 and 21.10.2020 and panel has recommended renewal of DML for following sections; Tablet (General), Capsule (General), Oral Liquid, Dry Powder Suspension, Liquid Injectable & Capsule section (Steroid). • Firm has submitted Letter No. 8194/2022-DRAP (Addl.Dire) dated 07.07.2022 from Additional Director DRAP Lahore which states that; "The Firm has applied for GMP Inspection. The application is under process at DRAP Office and inspection will be

		done as per availability of Area FID. The firm's last GMP status is Compliant / Good.
1.5.2	• Clarification is required as you have applied for film coated tablets while the reference formulation is film coated extended release tablets or revise your label claim as per reference formulation along with submission of applicable fee.	The firm submitted that applied formulation is as per reference formulation i.e., film coated extended release that is evident from dissolution results. Label claim for products is: Each film coated extended-release tablet contain: Pregabalin…….82.5mg.
3.2.S.4	• Justification is required for claiming in-house specifications for drug substance by drug substance manufacturer and drug product manufacturer as the monograph for applied drug substance is available in pharmacopeia (BP, USP) • Justification is required for using in-house analytical method for drug substance by drug substance manufacturer and drug product manufacturer as the analytical method for applied drug substance is available in pharmacopeia (BP, USP) • Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the COA of Reference Standards or Materials states that it is to be used before 19-03-2016, while manufacturing date of drug substance as per submitted COA is Dec 2020.	• The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house specs. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and drug product manufacturer are in process of shifting the specification as per USP Monograph. • The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house analytical method. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and Drug product manufacturer are in process of shifting the analytical method as per USP Monograph. • The firm submitted that provided COA of reference standard was taken from DMF. COA of working standard used for the analysis of drug substance is submitted which states that it is to be used before 11-07-2021.
3.2.P.2	• Submit evidence for storing samples prepared for compatibility study at 60°C ± 3°C / 75% ± 5%RH for 10 days	***The firm submitted record of data logger for temperature and humidity monitoring for sample prepared for compatibility study***
3.2.P.5	• Justification is required for changing wavelength during assay procedure in analytical method from 300nm to 210nm after 4.5 minutes • Submit analytical method validation report for the applied product	• The firm submitted that in product test method 300nm is used to suppress blank peak and the principal peak of pregabalin is around 5.1 that's why wavelength is changed at 210nm from 4.5min to onward. • Firm has submitted analytical method validation studies including specificity, linearity and range, accuracy, precision, LOD & LOQ, robustness and solution stability and system suitability studies.
3.2.P.6	• Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug product as the COA of Reference Standards or Materials states that it is to be used before 11-07-2021, while manufacturing date of drug product as per submitted COA is April 2021 and 3rd month time point and 6th month time stability study are due on July 2021 (07-2021) and October 2021 (10-2021).	• The firm submitted that same reference standard was used for analysis of drug product as the sequence / chromatograms against this standard was saved during trial analysis and same sequence / chromatograms of standard was used at 3rd and 6th Month stability study time point for analysis of drug product. It is to submit that the Reference Standards or Materials used for test and analysis of drug product was expired at 6th month time point (October 2021 (10-2021)) of stability study.
3.2.P.8	• The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required • Clarification is required for not including the results and calculation details for content uniformity test in raw data sheet at initial time point of stability study • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and	• The firm submitted that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. So in chromatogram starting wavelength is mentioned which is 300nm. • Firm has submitted results and calculation details for content uniformity test in raw data sheet at initial time point of stability study. • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula is submitted.

	standard potency in calculation formula shall be submitted • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Decision: Deferred for scientific justification of following points:

- **Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.**
- **Use of dual wavelengths for the analysis of single drug substance containing formulation.**
- **The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required**

1320.	Name, address of Applicant / Marketing Authorization Holder	M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.

	Evidence of approval of manufacturing facility	Firm has submitted copy of DML renewal letter No.F.1-8/84-Lic(Vol-V) dated 08-06-2022 which specifies Tablet section (General).
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 1309 dated 14-01-2022
	Details of fee submitted	Rs.75,000/- dated 30-12-2021 (Slip#20328944978)
	The proposed proprietary name / brand name	Gablin CR 165mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Pregabalin……..…165mg
	Pharmaceutical form of applied drug	Light brown colored, oblong biconvex film coated tablet
	Pharmacotherapeutic Group of (API)	Anti-epileptics
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	5's, 10's, 14's, 20's, 28's, 30's, 50's, 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR extended-release tablets (82.5mg, 165mg, 330 mg) by USFDA Approved.
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	M/s Kopran Research Laboratories Limited., K4/4, Additional MIDC, Post Birwadi, Tal. Mahad, District: Raigad, Raigad 402302, Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description

		of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (PRG/P0904005, PRG/P0904006, PRG/P0904007)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator Lyrica CR 165mg Tablet distributed by M/s Parke-Davis Division of Pfizer Inc. NY, NY 10017, by performing quality tests (Description, Identification, Assay, Dissolution). CDP has been performed against the same brand that is Lyrica CR 165mg Tablet distributed by M/s Parke-Davis Division of Pfizer Inc. NY, NY 10017 in Acid media pH 1.2, acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Analytical method validation report is not submitted

STABILITY STUDY DATA

Manufacturer of API	M/s Kopran Research Laboratories Limited., K4/4, Additional MIDC, Post Birwadi, Tal. Mahad, District: Raigad, Raigad 402302, Maharashtra India.		
API Lot No.	PRGH/P2012004D		
Description of Pack (Container closure system)	Printed Alu-Alu blister packed in bleach board unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	PGB T2-21	PGB T3-21	PGB T4-21
Batch Size	1000 tab	1000 tab	1000 tab
Manufacturing Date	04-2021	04-2021	04-2021

Date of Initiation	05-2021	05-2021	05-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted License retention certificate dated 29-02-2020 of M/s Kopran Research Laboratories Limited., India., issued by Food & Drugs Administration Maharashtra State India valid upto 31-03-2025. Firm has submitted cGMP certificate dated 20-10-2020 of M/s Kopran Research Laboratories Limited., India., issued by Commissioner, Food & Drugs Administration Maharashtra State India valid upto 19-10-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP-393 dated 28-12-2020 for import of 100kg of Pregabalin (Batch# PRGH/P2012004D) in name of M/s CCL Pharmaceuticals (Pvt.) Ltd., attested by AD (I&E) DRAP Lahore dated 04-01-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted DML renewal Inspection report conducted on 14.09.2020, 15.09.2020 and 21.10.2020 and panel has recommended renewal of DML for following sections; Tablet (General), Capsule (General), Oral Liquid, Dry Powder Suspension, Liquid Injectable & Capsule section (Steroid). • Firm has submitted Letter No. 8194/2022-DRAP (Addl.Dire) dated 07.07.2022 from Additional Director DRAP Lahore which states that; "The Firm has applied for GMP Inspection. The application is under process at DRAP Office and inspection will be done as per availability of Area FID. The firm's last GMP status is Compliant / Good.
1.5.2	• Clarification is required as you have applied for film coated tablets while the reference formulation is film coated extended release tablets or revise your label claim as per reference formulation along with submission of applicable fee.	The firm submitted that applied formulation is as per reference formulation i.e., film coated extended release that is evident from dissolution results. Label claim for product is: Each film coated extended-release tablet contain: Pregabalin…….165mg.
3.2.S.4	• Justification is required for claiming in-house specifications for drug substance by drug substance manufacturer and drug product manufacturer as the monograph for applied drug substance is available in pharmacopeia (BP, USP)	• The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house specs. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer

	• Justification is required for using in-house analytical method for drug substance by drug substance manufacturer and drug product manufacturer as the analytical method for applied drug substance is available in pharmacopeia (BP, USP) • Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the COA of Reference Standards or Materials states that it is to be used before 19-03-2016, while manufacturing date of drug substance as per submitted COA is Dec 2020.	and drug product manufacturer are in process of shifting the specification as per USP Monograph. • The firm submitted Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house analytical method. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and Drug product manufacturer are in process of shifting the analytical method as per USP Monograph. • The firm submitted that provided COA of reference standard was taken from DMF. COA of working standard used for the analysis of drug substance is submitted which states that it is to be used before 11-07-2021.
3.2.P.2	• Submit evidence for storing samples prepared for compatibility study at 60˚C ± 3˚C / 75% ± 5%RH for 10 days	***The firm submitted record of data logger for temperature and humidity monitoring for sample prepared for compatibility study***
3.2.P.5	• Justification is required for changing wavelength during assay procedure in analytical method from 300nm to 210nm after 4.5 minutes • Submit analytical method validation report for the applied product	• The firm submitted that in product test method 300nm is used to suppress blank peak and the principal peak of pregabalin is around 5.1 that's why wavelength is changed at 210nm from 4.5min to onward. • Firm has submitted analytical method validation studies including specificity, linearity and range, accuracy, precision, LOD & LOQ, robustness and solution stability and system suitability studies.
3.2.P.6	• Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug product as the COA of Reference Standards or Materials states that it is to be used before 11-07-2021, while manufacturing date of drug product as per submitted COA is April 2021 and 3rd month time point and 6th month time stability study are due on July 2021 (07-2021) and October 2021 (10-2021).	• The firm submitted that same reference standard was used for analysis of drug product as the sequence / chromatograms against this standard was saved during trial analysis and same sequence / chromatograms of standard was used at 3rd and 6th Month stability study time point for analysis of drug product. It is to submit that the Reference Standards or Materials used for test and analysis of drug product was expired at 6th month time point (October 2021 (10-2021)) of stability study.
3.2.P.8	• The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required • Clarification is required for not including the results and calculation details for content uniformity test in raw data sheet at initial time point of stability study • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula shall be submitted • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• The firm submitted that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. So in chromatogram starting wavelength is mentioned which is 300nm. • Firm has submitted results and calculation details for content uniformity test in raw data sheet at initial time point of stability study. • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula is submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Decision: Deferred for scientific justification of following points:

- **Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.**
- **Use of dual wavelengths for the analysis of single drug substance containing formulation.**
- **The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required**

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted DML renewal Inspection report conducted on 14.09.2020, 15.09.2020 and 21.10.2020 and panel has recommended renewal of DML for following sections; Tablet (General), Capsule (General), Oral Liquid, Dry Powder Suspension, Liquid Injectable & Capsule section (Steroid). • Firm has submitted Letter No. 8194/2022-DRAP (Addl.Dire) dated 07.07.2022 from Additional Director DRAP Lahore which states that; "The Firm has applied for GMP Inspection. The application is under process at DRAP Office and inspection will be done as per availability of Area FID. The firm's last GMP status is Compliant / Good.
1.5.2	• Clarification is required as you have applied for film coated tablets while the reference formulation is film coated extended release tablets or revise your label claim as per reference formulation along with submission of applicable fee.	The firm submitted that applied formulation is as per reference formulation i.e., film coated extended release that is evident from dissolution results. Label claim for products is: Each film coated extended-release tablet contain: Pregabalin…….330mg.
3.2.S.4	• Justification is required for claiming in-house specifications for drug substance by drug substance manufacturer and drug product manufacturer as the monograph for applied drug substance is available in pharmacopeia (BP, USP) • Justification is required for using in-house analytical method for drug substance by drug substance manufacturer and drug product manufacturer as the analytical method for applied drug substance is available in pharmacopeia (BP, USP) • Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the COA of Reference Standards or Materials states that it is to be used before 19-03-2016, while manufacturing date of drug substance as per submitted COA is Dec 2020.	• The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house specs. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and drug product manufacturer are in process of shifting the specification as per USP Monograph. • The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house analytical method. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and Drug product manufacturer are in process of shifting the analytical method as per USP Monograph. • The firm submitted that provided COA of reference standard was taken from DMF. COA of working standard used for the analysis of drug substance is submitted which states that it is to be used before 11-07-2021.

3.2.P.2	• Submit evidence for storing samples prepared for compatibility study at 60˚C ± 3˚C / 75% ± 5%RH for 10 days	***The firm submitted record of data logger for temperature and humidity monitoring for sample prepared for compatibility study***
3.2.P.5	• Justification is required for changing wavelength during assay procedure in analytical method from 300nm to 210nm after 4.5 minutes • Submit analytical method validation report for the applied product	• The firm submitted that in product test method 300nm is used to suppress blank peak and the principal peak of pregabalin is around 5.1 that's why wavelength is changed at 210nm from 4.5min to onward. • Firm has submitted analytical method validation studies including specificity, linearity and range, accuracy, precision, LOD & LOQ, robustness and solution stability and system suitability studies.
3.2.P.6	• Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug product as the COA of Reference Standards or Materials states that it is to be used before 11-07-2021, while manufacturing date of drug product as per submitted COA is April 2021 and 3rd month time point and 6th month time stability study are due on July 2021 (07-2021) and October 2021 (10-2021).	• The firm submitted that same reference standard was used for analysis of drug product as the sequence / chromatograms against this standard was saved during trial analysis and same sequence / chromatograms of standard was used at 3rd and 6th Month stability study time point for analysis of drug product. It is to submit that the Reference Standards or Materials used for test and analysis of drug product was expired at 6th month time point (October 2021 (10-2021)) of stability study.
3.2.P.8	• The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required • Clarification is required for not including the results and calculation details for content uniformity test in raw data sheet at initial time point of stability study • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula shall be submitted • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• The firm submitted that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. So in chromatogram starting wavelength is mentioned which is 300nm. • Content uniformity for Gablin CR Tablet 330mg is performed by weight variation as per <USP 905>. • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula is submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Decision: Deferred for scientific justification of following points:

- **Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.**
- **Use of dual wavelengths for the analysis of single drug substance containing formulation.**
- **The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required**

Case No. 05; Routine Registration application of Human drugs on Form 5F (Import) whose Replies are not received

1322.	Name, address of Applicant / Importer	M/s Genome Pharma, House no. 166-A St. # 9, Chaklala Scheme III, Rawalpindi-PAKISTAN.

The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every three year. The name of importing country on CoPP is mentioned as Islamic Republic of Pakistan.
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of Sole Agency authorization letter No.6-30/852 dated 16.10.2020 from Deputy General Director for quality M.V. Bespolova, of M/s Republican Unitary Production Enterprise "Belmedpreparaty", 30 Fabritsius St., 220007, Minsk, Republic of Belarus wherein the firm has authorized M/s Genome Pharma, Head office House no. 166-A Street # 9, Chaklala Scheme III, Rawalpindi-PAKISTAN and store office C-19, Main Commercial, Access Road, RCCI Industrial estate Rawat, Rawalpindi Pakistan to act as agent for registration, sale, marketing and tender business of their 15 products including Cybine 1000mg Injection in Islamic republic of Pakistan. The Sole agent letter will be effective for first five years from date of issuance of this letter. ***The firm submitted that original sole agency agreement is attached with Belklasta 5mg infusion***
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 11564: 16-04-2021

	Details of fee submitted	PKR 100,000/-: 24-12-2020
	The proposed proprietary name / brand name	Cybine-1000mg Lyophilized Powder for Solution for Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Cytarabine……..1000mg
	Pharmaceutical form of applied drug	Lyophilized powder for solution for injection SC/IV/IT
	Pharmacotherapeutic Group of (API)	Antimetabolite
	Reference to Finished product specifications	EP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	CYTOSAR-U 1gm/Vial Injection USFDA Approved **(Discontinued)**
	For generic drugs (me-too status)	Cytabine 1000mg injection By M/s AJM Pharma (Reg No#072596)…..*the liquid or lyophilize injection status couldn't be confirmed*
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study of drug product
	Name, address of drug substance manufacturer	Manufacturing site: M/s Zhejiang Hisun Pharmaceutical Co., Ltd, 56 Binhai Road, Jiaojiang District Taizhou city, Zhejiang Province 318000 People's republic of China. Quality control site: M/s Zhejiang Hisun Pharmaceutical Co., Ltd, 46 Waisha Road, Jiaojiang District Taizhou city, Zhejiang Province 318000 People's republic of China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard,

		container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	***Firm has submitted 09 months' real time stability data at 30°C ± 2°C / 75% ± 5%RH of 03 batches*** **and** 06 month accelerated stability data 40°C ± 2°C / 75% ± 5%RH of 03 batches Batches (1036-A190101, 1036-A190102, 1036-A190103) ***Firm has submitted 36 months' real time stability data at 30°C ± 2°C / 75% ± 5%RH of 03 different batches*** ***Batches (A130206, A130207, A130208)***
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study of drug product.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence performed aginst Cytosar, Lyphilizate for solution for injection, 1000mg, Actavis, Italy. *However, both the product are tested against different pharmacopieas i.e. EU and USP*
	Analytical method validation/verification of product	Analytical method validation studies including specificity, linearity and range, repeatability, intermediate precision, accuracy, is submitted. ***Method validation for UV method is submitted***
	Container closure system of the drug product	Glass vial with nominal capacity of 20ml sealed with rubber stopper along with aluminum caps packed in cardboard package.
	Stability study data of drug product, shelf life and storage conditions	• The firm submitted real time stability data conducted at 25°C ± 2°C / 60% ± 5%RH of 03 batches for 36 months. Batches: (010914, 020914, 031014) • The firm submitted accelerated stability data at 40°C ± 2°C / 75% ± 5%RH of 03 batches 06 month. Batches: (010914, 020914, 030914)

Evaluation by PEC[XI]:

Section	Observations	Response
1.3	• Details of applicant is not mentioned in form 5F. Provided form 5F is from the manufacturer / Marketing authorization holder side while it should be from the applicant holding the Drug sale license. • Submit correct relevant information in subsection 1.3.1 to 1.3.4 of form 5-F as per guidance document. • Correct the Name, address and contact details of Applicant / Marketing Authorization Holder along with submission of applicable fee. (*Name of and address of product license holder is written instead of applicant, status of applicant mentioned as manufacturer instead of importer*)	
1.3.4	Submit valid readable copy of Drug Sale License (DSL) issued by relevant licensing authority	

1.5.6	You have mentioned EUP specification for the product under section 1.5.6. However, official monograph is not available in EUP. Justification is required.	
1.5.9	Provide evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.	
1.5.15–1.5.20	Submit commitments as per guidance documents	
1.6.5	• Submit valid GMP certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	
3.2.S.7	Real time stability data and accelerated stability data of 03 different batches are submitted at 30°C ± 2°C / 75% ± 5%RH	
3.2.P.1	• Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug	
3.2.P.2	• In pharmaceutical equivalence the applied product is tested as per EUP while official monograph is not available in EUP and innovator product is tested as per USP, clarify.	
3.2.P.2.6	Compatibility studies of the applied product with reconstituted diluent is not submitted	
3.2.P.5	• Clarification is required since firm claimed for EUP specification for applied drug product while the official monograph is not available in EUP. Official monograph available in BP and USP.	
3.2.P.8	• Clarification is required as Real time stability data of drug product is not performed as per zone IV-A. Real time stability data of drug product performed at 25°C ± 2°C / 60% ± 5%RH (zone II climatic conditions) of 03 batches • Real time and accelerated stability data of one different batch is submitted	

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

a.

Case No. 06; Deferred Registration application of Human Drugs on form 5F (Local):

Date of Initiation	28-07-2020	28-07-2020	28-07-2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP certificate for M/s Zhejiang Haisen Pharmaceutical Co., Ltd., Xiangtan Village, Liushi Street, Dongyang City, Zhejiang Province, China issued by China Food & Drug Administration. The certificate is valid till 21-08-201. Firm has submitted copy of Drug Manufacturing License (DML # ZHE20000394) of M/s Zhejiang Haisen Pharmaceutical Co., Ltd., China issued by State Food & Drug Administration, China. The certificate is valid till 24-09-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm have submitted Data of stability batches supported by attested respective documents like chromatograms and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.3	In status of applicant you have mentioned "Is involved in none of the above (contract giver)", clarify?	
2.3.R.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	
3.2.S.4	• Test for enantiomeric purity is not included in specifications although given in USP monograph of drug substance, clarify? • Copies of analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	
3.2.P.2.1.1	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product. (**Composition of Applied Formulation**: Atorvastatin calcium, Microcrystalline cellulose (avicel 200), Magnesium stearate, Sodium starch glycolate (Primogel), silica dioxide) • You have not performed Pharmaceutical equivalence of the applied drug with the innovator / reference / comparator product, justify?	
3.2.P.5	• In given specification of drug product, in identification test you have mentioned "identification for cefixime" while the applied product is atorvastatin calcium, clarify? • Test for uniformity of dosage unit (content uniformity) is not included in specifications and not performed in batch analysis although given in USP monograph of drug product, clarify?	
3.2.P.8	• Stability data reflect that dissolution test has not been performed after initial time point throughout stability studies at both accelerated and real time conditions, justify? • Submit COA, Raw data sheets & analytical record of stability studies containing calculation formula for both assay & dissolution test • Submit documents for the procurement of API with approval from DRAP.	

Previous Decision (322nd-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of the firm:

Section	Observations	Response
1.3.3	In status of applicant you have mentioned "Is involved in none of the above (contract giver)", clarify?	The firm submitted that it was a typographical mistake, we have corrected the status as "Manufacturer" and revised document is submitted
2.3.R.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	Firm has submitted copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Test for enantiomeric purity is not included in specifications although given in USP monograph of drug substance, clarify? • Copies of analytical procedures used for routine testing of the Drug	• The firm submitted that all testing is done as per USP specifications as enantiomeric purity is not mentioned in specifications. Firm has submitted revised specifications and SOP of drug substance

	substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	• Firm has submitted copies of analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	Firm has submitted COA of working standard from Ind-Swift Laboratories Limited Derabassi India while drug substance manufacturer is M/s Zhejiang Haisen Pharmaceutical Co., Ltd., China
3.2.P.2.1.1	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product. (**Composition of Applied Formulation**: Atorvastatin calcium, Microcrystalline cellulose (avicel 200), Magnesium stearate, Sodium starch glycolate (Primogel), silica dioxide) • You have not performed Pharmaceutical equivalence of the applied drug with the innovator / reference / comparator product, justify?	• Firm has submitted compatibility studies of drug substance with excipients by storing samples at 40°C ± 2°C / 75% ± 5%RH for 01 month • Firm has submitted pharmaceutical equivalence of applied product against Lipitor tablet 40mg of M/s Pfizer Pharmaceuticals (Pvt) Ltd by performing quality tests (Description, identification, weight variation, dissolution, disintegration, uniformity of dosage units, assay)
3.2.P.5	• In given specification of drug product, in identification test you have mentioned "identification for cefixime" while the applied product is atorvastatin calcium, clarify? • Test for uniformity of dosage unit (content uniformity) is not included in specifications and not performed in batch analysis although given in USP monograph of drug product, clarify?	• The firm submitted that it was a typographical mistake and submitted revised specifications. • The firm submitted that as uniformity of dosage unit test was performed but didn't mention in the specifications, please find the revised batch analysis reports of Cholein tablets as per USP monograph.
3.2.P.8	• Stability data reflect that dissolution test has not been performed after initial time point throughout stability studies at both accelerated and real time conditions, justify? • Submit COA, Raw data sheets & analytical record of stability studies containing calculation formula for both assay & dissolution test • Submit documents for the procurement of API with approval from DRAP.	• Firm submitted that dissolution test is being performed at all the stability months. The firm submitted revised stability summary sheets. ***However, it is to mention that results of disintegration test and assay test are different than the original dossier.*** • Firm has submitted Raw data sheets & analytical record of stability studies containing calculation formula for both assay & dissolution test. However, COA of stability study is not submitted • The firm submitted Letter No. 633/2020/DRAP-AD-CD(I&E) dated 13-01-2020 for "permission to Import API as per guidelines for import of pharmaceutical raw material for the purpose of test/analysis and stability studies" containing Choline Tablets "Atorvastatin Calcium Trihydrate 300gm issued by AD (I&E) DRAP Lahore. ***However, the firm has not submitted any documents confirming import of API.***

Decision: Deferred for following:

- **Performance of drug substance analysis by M/s Jawa Pharmaceuticals Private Limited as per USP monograph.**
- **Firm has submitted COA of working standard from Ind-Swift Laboratories Limited Derabassi India while drug substance manufacturer is M/s Zhejiang Haisen Pharmaceutical Co., Ltd., China.**
- **Analytical record for the performance of content uniformity test as per the revised drug product batch analysis COAs.**

• **Clarification of the fact that results for Assay & Disintegration test presented in the revised stability summary sheets are different from that presented in initial submission.** • **Documents confirming import of drug substance including approval from DRAP I&E office.** • **Verification of the submitted "Letter No. 633/2020/DRAP-AD-CD(I&E) dated 13-01-2020" for the inclusion of "Atorvastatin" from the DRAP , Lahore I&E office.**

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Remarks of Evaluator [XI]:

Section	Observations	Response
1.5.4	• Pack size mentioned in module 1 is 10ml while pack size mentioned in module 3 section 3.2.P.1 & 3.2.P.7 is -5ml in 10ml bottle, clarify?	
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	
2.3.	• Submit module II as per WHO QOS-PD template	
3.2.S.4	• Specifications and analytical procedure of drug substance by drug substance manufacturer are provided as per USP monograph while specification provided by drug product manufacturer are as per BP. Clarification is required. Furthermore, Batch analysis of drug substance by drug substance manufacturer show tests as per BP monograph • BP monograph uses HPLC method for assay test while drug product manufacturer uses uv method for assay test clarify?	
3.2.P.2	• Submit Pharmaceutical equivalence of the applied product against the innovator product • Sterilization by gama radiation in microbial attributes while by filtration in manufacturing process 3.2.P.3.3, clarify?	
3.2.P.5	• In batch analysis in assay test "assay for gentamycin is written while the applied product is chloramphenicol, clarification is required	
3.2.P.8	• In stability study protocols you have mentioned stability storage conditions as Real time: 30˚C ± 2˚C / 35% ± 5%RH and Accelerated: 40˚C ± 2˚C / 25% ± 5%RH and submit stability study at Real time: 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH, clarification is required • Initial page of stability summary sheet containing batch No. of FPP, API, storage conditions, date of manufacturing, date of initiation of stability study is not submitted • Clarification is required since the limits for assay test mentioned in stability summary sheet for all three batches is 98-102% which is not as per pharmacopeia. • Submit documents for the procurement of API with approval from DRAP (in case of import). • Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing • COA and raw data sheets of stability batches is not submitted	

	• The submitted chromatograms at initial time point does not contain batch no of applied product. • Submit data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	

Previous Decision (322nd-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of the firm:

Section	Observations	Response
1.5.4	• Pack size mentioned in module 1 is 10ml while pack size mentioned in module 3 section 3.2.P.1 & 3.2.P.7 is 5ml in 10ml bottle, clarify?	The firm submitted that it was a typographical mistake. The pack size for drops is 10ml
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	Firm has submitted copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
2.3.	• Submit module II as per WHO QOS-PD template	Firm has submitted module II as per WHO QOS-PD template
3.2.S.4	• Specifications and analytical procedure of drug substance by drug substance manufacturer are provided as per USP monograph while specification provided by drug product manufacturer are as per BP. Clarification is required. Furthermore, Batch analysis of drug substance by drug substance manufacturer show tests as per BP monograph • Clarification is required since the BP monograph states the use of HPLC method for assay test while drug product manufacturer uses UV method.	• Firm submitted that we have revised our method according to USP specifications. Firm has also submitted revised method as per USP specifications. ***However, it is to submit that the tests given in the specifications are according to BP analytical method of some tests are given both as per USP and BP*** • The firm submitted that it was a typographic, error and submitted revised assay method as per USP specifications.
3.2.P.2	• Submit Pharmaceutical equivalence of the applied product against the innovator product • Sterilization by gama radiation in microbial attributes while by filtration in manufacturing process 3.2.P.3.3, clarify?	• Firm has submitted pharmaceutical equivalence of applied product against chloroptic 0.5% eye drops and phenoptic 0.5% eye drops by performing quality test appearance, identification, pH, extractible volume, sterility assay. It is to clarify that tests are performed as per USP monograph while firm applied for BP specifications. Furthermore, firm has not stated the name of reference product manufacturer in pharmaceutical equivalence report. • The firm submitted that it was a typographic mistake. Sterilization is done by filtration and submitted a general SOP for filtration.
3.2.P.5	• In batch analysis in assay test "assay for gentamycin is written while the applied product is chloramphenicol, clarification is required	The firm submitted that it was a typographical mistake and submitted corrected COAs.
3.2.P.8	• In stability study protocols you have mentioned stability storage conditions as Real time: 30˚C ± 2˚C / 35% ± 5%RH and Accelerated: 40˚C ± 2˚C / 25% ± 5%RH and submit stability study at Real time: 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH, clarification is required	• The firm submitted that stability has been performed as per zone IV-A conditions (Real time: 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH). But to counter the humidity condition we have performed the potential water loss studies and results are within range. The results of water loss test is submitted.

	• You have not calculated the potential water loss during stability study as mentioned in ICH Q1A (R2) (2.2.7.3 for drug products packed in semipermeable containers). Justification is required • Initial page of stability summary sheet containing batch No. of FPP, API, storage conditions, date of manufacturing, date of initiation of stability study is not submitted • Clarification is required since the limits for assay test mentioned in stability summary sheet for all three batches is 98-102% which is not as per pharmacopeia. • Submit documents for the procurement of API with approval from DRAP (in case of import). • Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing • COA and raw data sheets of stability batches is not submitted • The submitted chromatograms at initial time point does not contain batch no of applied product. • Submit data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	• The firm submitted that we have performed potential water loss studies and results are within the range. • The firm submitted that it was typographical error, since assay limit is 90-110% and results are within range and revised summary sheet is submitted • The firm submitted Letter No. 4233/2020/DRAP-AD-CD(I&E) dated 20-03-2020 for *"permission to Import API as per guidelines for import of pharmaceutical raw material for the purpose of test/analysis and stability studies"* containing Phencol Opthalmic solution 0.5% w/v (chloramphenicol) 45gm issued AD (I&E) DRAP Lahore. *The firm has also submitted unattested copy of invoice No. ZHI-CI/5340/1020 dated 20-10-2020 in name of M/s Jawa Pharmaceuticals (Pvt.) Ltd for chloramphenicol (Batch No.LT-OCHL/016/20-21) 45gm*. ***However, the firm has not submitted any documents confirming import of API.*** • Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets etc. *Firm has not submitted summary sheets and COAs of stability studies.*

Decision: Deferred for following:

- **Clarification of performance of Pharmaceutical equivalence studies as per USP monograph whereas firm has claimed drug product specifications as per BP.**
- **Details of reference product against which pharmaceutical equivalence studies have been submitted including name of manufacturer, batch no. manufacturing and expiry date.**
- **Documents confirming import of drug substance including approval from DRAP I&E office.**
- **Verification of the submitted "Letter No. 4233/2020/DRAP-AD-CD(I&E) dated 20-03-2020" for the inclusion of "Chlormaphenicol" from the DRAP , Lahore I&E office.**

Case No. 07; Deferred Registration application of Human Drugs on form 5F (Import):

1325.	Name, address of Applicant / Importer	M/s AMB HK ENTERPRISES (PVT) LTD., 2nd Floor, Plaza 60, Commercial, Block-K, Phase 1 DHA Lahore
	Details of Drug Sale License of importer	**License No:** 05-352-0058-066904D **Address:** 2nd Floor, Plaza 60, Commercial Block-K, Phase 1 DHA Lahore **Address of Godown:** NA **Validity:** 24-02-2023. **Status:** License to sell drugs as distributor **Renewal:** NA
	Name and address of marketing authorization holder (abroad)	Reyoung Pharmaceutical Co., Ltd., No.1 Ruiyang Road, Yiyuan County, Shandong Province, China
	Name, address of manufacturer(s)	Reyoung Pharmaceutical Co., Ltd., No.1 Ruiyang Road, Yiyuan County, Shandong Province, China
	Name of exporting country	China
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original legalized CoPP certificate (No. 201910005) issued by Yiyuan Market

		Supervision Administration of P.R China for vitamin C Injection 500mg/5ml. The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year. The name of importing country on CoPP is mentioned as Pakistan. Furthermore, the CoPP is valid till 23-10-2021.
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of Registration & Distribution agreement dated 29-08-2019 from M/s Reyoung Pharmaceutical Co., Ltd. The letter species that the manufacturer appoints **M/s AMB HK ENTERPRISES Pvt Ltd, Lahore** to register and develop pharmaceutical market of their products in Pakistan. The authorization letter remains valid for 05 years from the date of product registration certificate. The letter issued for vitamin C injection 500mg/5ml in addition to 08 other product.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 26417: 23-09-2021
	Details of fee submitted	PKR 150,000/-: 26-05-2021 (Slip#1272535835)
	The proposed proprietary name / brand name	VITA-C INJECTION 500mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Ascorbic Acid 10.0% w/v.
	Pharmaceutical form of applied drug	Solution for Injection
	Pharmacotherapeutic Group of (API)	Ascorbic acid (vitamin C), plain ATC Code: A11GA
	Reference to Finished product specifications	BP
	Proposed Pack size	5ml type I glass ampoule; 10 ampoules/tray,10trays/boxes*12boxes/carton
	Proposed unit price	PKR 21.35/unit
	The status in reference regulatory authorities	Ascorbic Acid Injection BPC 500mg/5ml MHRA Approved.
	For generic drugs (me-too status)	Ascorbic Acid Injection 500mg by M/s Enam Ellahie Karachi (Reg# '004784)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	CSPC Weisheng Pharmaceutical (Shijiazhuang) Co., Ltd., No. 236 Huanghe Street High-tech Industrial Development Zone, Shijiazhuang City, Hebei Province, China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 30 ºC ± 2ºC / 65 ± 5% RH for 36 months while accelerated stability study is conducted at 40 ºC ± 2ºC / 75 ± 5% RH for 06 months. Batch No# (1150452001, 1150452002, 1150452003)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study of drug product.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence against the reference product acido Ascorbico labesfal injection 500mg by performing quality test (identification, Acidity, Oxalic acid, Bacterial Endotoxin, Sterility, Visible particle, content of ascorbic acid).
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies for the applied product.
	Container closure system of the drug product	USP type-I glass ampoule (5ml)
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30ºC ±2ºC / 75% ± 5% RH. The real time stability study data is submitted for 36 months only.

Batch No.	**Mfg. date**	**Date of initiation**
173212044	03-2017	03-2017
173212045	03-2017	03-2017
173212046	03-2017	03-2017

Remarks of Evaluator [XI]:

Section	**Observations**	**Response**
1.3.3	Submit valid CoPP certificate for the applied product	Firm has submitted original legalized CoPP certificate (No. 2021120004) issued by Yiyuan Market Supervision Administration of P.R China for vitamin C Injection 500mg/5ml. The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year. The name of importing country on CoPP is mentioned as Pakistan. Furthermore, the CoPP is valid till 06-12-2023.

1.5.2	Strength of Active ingredient shall be stated clearly. In case API is in the form of salt / hydrate, specify the equivalent strength of the base e.g., AAA sodium 50 mg (equivalent to AAA) etc.	Each 5ml ampoule contains: Ascorbic acid …….500mg
1.5.15-1.5.20	Commitments must be submitted by applicant (marketing authorization Holder) instead of manufacturer	Firm has submitted commitments as per guidance document
1.6.5	• The drug substance manufacturer as per section 3.2.S.2 is CSPC Weisheng Pharmaceutical (Shijiazhuang) Co., Ltd., No. 236 Huanghe Street High-tech Industrial Development Zone, Shijiazhuang City, Hebei Province, China while you have written Reyoung Pharmaceutical Co., Ltd., No.1 Ruiyang Road, Yiyuan County, Shandong Province, China in this section, clarify? • Submit GMP certificate of drug substance manufacturer	• The firm submitted that drug substance manufacturer is CSPC Weisheng Pharmaceutical (Shijiazhuang) Co., Ltd., No. 236 Huanghe Street High-tech Industrial Development Zone, Shijiazhuang City, Hebei Province, China and it was a mistake at their end by writing wrong name of manufacturer • The firm has submitted copy of GMP certificate No. HE20150023 in the name of M/s CSPC Weisheng Pharmaceutical (Shijiazhuang) Co., Ltd., No. 236 Huanghe Street High-tech Industrial Development Zone, Shijiazhuang, China valid upto 14/02/2020
3.2.S.4	• The specifications and analytical procedure of the drug substance provided is according to Chinese pharmacopeia while the product is available in BP. Justify that specification of drug substance are equivalent to BP specifications (the number and limits of tests are within range of BP.) • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	• The firm submitted that specifications of drug substance provided according to Chinese pharmacopeia is from API manufacturer, the finished product manufacturer test the API according to BP. Now the finished product manufacturer have supplemented the standards for raw material • Firm have submitted copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer. • The firm submitted that vitamin C produced by CSPC WEISHENG is tested in strict accordance with Chinese Pharmacopoeia, ***there is not need to verify the analytical method.***
3.2.S.5	COA of primary / secondary reference standard including source and lot number shall be provided	The firm stated that the primary reference standard is from EDQM and government sector, hence no COA is submitted.
3.2.P.2.1.1	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to reference product. • Applied product: Ascorbic acid, Sodium bicarbonate, Sodium metabisulfite, cysteine HCl, Disodium edetate, water for injection • Reference product: Ascorbic Acid, Sodium Bicarbonate, Sodium Metabisulphite Hydrochloric acid Water for injections • Details of reference / comparator product including batch numbers, manufacturing & expiry date in pharmaceutical equivalence are required to be provided • Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product?	• Firm have submitted Compatibility studies of the Drug Substance(s) with excipients and observe the colour change and change in ph during the study • Firm have provided details of reference / comparator product including batch numbers, expiry date in pharmaceutical equivalence • The firm submitted that at that time innovator product has been delisted

Previous Decision (321-DRB): Deferred for submission of following documents:

- Pharmaceutical equivalence against innovator drug product.
- Verification studies of analytical method of drug substance by drug product manufacturer.

Response of the firm:

• Firm has submitted Pharmaceutical Equivalence against the product vitC CARE (Vitamin c injection) 500mg /5ml by M/s Advacare International Limited by performing quality tests (Description, Identification, Assay, Dissolution). • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision), linearity and range, solution stability performed by the Drug Product manufacturer for drug substance is submitted
Decision: Approved as per policy of inspection of manufacturer abroad.

Case No. 08; Deferred Registration applications of New DML of human drugs on Form 5F
M/s Biogen Pharmaceuticals, 8-km Chakbeli Road Rawat Rawalpindi.

The Central Licensing Board in its 273rd meeting held on 15th January, 2020 has considered and approved the grant of Drug Manufacturing License by way of formulation with following sections of **M/s Biogen Pharmaceuticals, 8-km Chakbeli Road Rawat Rawalpindi** under Drug Manufacturing License No. 000911 by way of Formulation vide approval letter No. F. 1-2/2019-Lic dated 14th February 2020.

	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 28774 dated 11-10-2022
	Details of fee submitted	Not submitted
	The proposed proprietary name / brand name	**Fusigen-H 15gm Cream**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each gram cream contains: Fusidic Acid (BP)……..….20mg (2% w/w) Hydrocortisone Acetate……10mg (1% w/w)
	Pharmaceutical form of applied drug	White to off white color cream.
	Pharmacotherapeutic Group of (API)	Antibiotics & corticosteroid For Topical Use

	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Fucidin H cream MHRA approved
	For generic drugs (me-too status)	Fusimax-H 2%+1% Cream by M/s Maxitech Pharma (Reg# 83733)
	GMP status of the Finished product manufacturer	New license granted on 13/02/2020
	Name and address of API manufacturer.	**Fusidic Acid**: Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China **Hydrocortisone Acetate:** Henan Lihua Pharmaceutical Co Ltd., Middle of Huanghe Street, Anyang Hi-Tech Industry Development Zone, Henan China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities impurities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Fusidic Acid:** Firm has submitted stability study data of fusidic acid. Stability study is conducted Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months and at Accelerated conditions 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (121002FA, 121003FA, 121004FA) Batches: (150501FB, 150502FB, 150503FB) **Hydrocortisone Acetate:** Firm has submitted stability study data of Hydrocortisone acetate. Stability study is conducted Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months and at Accelerated conditions 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (160801, 160802, 160803)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand Genidic-H Cream by performing quality tests (Identification, Assay, Uniformity of dosage, pH).
	Analytical method validation/verification of product	Method verification studies have submitted including specificity, repeatibility, recovery and accuracy.

STABILITY STUDY DATA

Manufacturer of API	**Fusidic Acid**: Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China **Hydrocortisone Acetate:** Henan Lihua Pharmaceutical Co Ltd., Middle of Huanghe Street, Anyang Hi-Tech Industry Development Zone, Henan China

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Fusidic Acid:** Firm has submitted GMP certificate No#CQ20180013 in the name of M/s Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China issued by Chonging Food and Drug administration China valid upto 06-06-2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Fusidic Acid:** Firm has submitted copy of invoice No# 00025096 dated 02-04-2020 in name of M/s Biogen Pharmaceuticals for import of 1.5kg of Fusidic Acid. ***However, the invoice is not attested by AD (I&E) DRAP Field office.***
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.1	• Fee for registration of applied product is not submitted	
1.6.5	• Details of each drug substance manufacturer should be provided in this section separately • Valid GMP certificate / DML of drug substance manufacturer for hydrocortisone acetate issued by relevant regulatory authority of country of origin is required	
1.3.2	• The name of applicant as per form 5F is Biogen Life sciences while name mentioned on DML is Biogen Pharmaceuticals. Clarification is required	
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient fusidic acid by Drug product manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient hydrocortisone acetate by both drug substance and Drug product manufacturer is required • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) i.e. fusidic acid and hydrocortisone acetate shall be submitted.	
3.2.P.2	• Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, name of manufacturer in pharmaceutical equivalence • Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product?	
3.2.P.3	• Description of manufacturing process does not include the step in which the hydrocortisone is added in the formulation in manufacturing process, clarification is required	
3.2.P.8	• Documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Previous Decision (322nd–DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of the Firm:

Section	Observations	Response
1.1	• Fee for registration of applied product is not submitted	Firm has submitted challan No. 78950080271 dated 07-11-2022 for registration fee of Rs.

		30000/- submitted for applied product Fusigen H Cream
1.6.5	• Details of each drug substance manufacturer should be provided in this section separately • Valid GMP certificate / DML of drug substance manufacturer for hydrocortisone acetate issued by relevant regulatory authority of country of origin is required	• Firm has submitted details of each drug substance manufacturer in this section **Fusidic Acid**: Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China **Hydrocortisone Acetate:** Henan Lihua Pharmaceutical Co Ltd., Middle of Huanghe Street, Anyang Hi-Tech Industry Development Zone, Henan China • Firm has submitted GMP certificate No. HA20170054 of M/s Henan Lihua Pharmaceutical Co Ltd., Middle of Huanghe Street, Anyang Hi-Tech Industry Development Zone, Henan China issued by Henan Province Food and Drug Administration for hydrocortisone acetate ***valid upto 26-10-2022*** • Firm has also submitted DML No. Yu 20150014 of M/s Henan Lihua Pharmaceutical Co Ltd., Middle of Huanghe Street, Anyang Hi-Tech Industry Development Zone, Henan China valid upto 31-12-2025. •
1.3.2	• The name of applicant as per form 5F is Biogen Life sciences while name mentioned on DML is Biogen Pharmaceuticals. Clarification is required	The firm submitted letter No. 1-2/2019-Lic dated 18th March 2021 for change of title of the firm from M/s Biogen Pharmaceuticals to Biogen Lifesciences.
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	Firm has submitted copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient fusidic acid by Drug product manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient hydrocortisone acetate by both drug substance and Drug product manufacturer is required • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) i.e. fusidic acid and hydrocortisone acetate shall be submitted.	• Firm has submitted copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance fusidic acid by Drug product manufacturer • Firm has submitted copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance hydrocortisone acetate by both drug substance and Drug product manufacturer • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) i.e. fusidic acid and hydrocortisone acetate is submitted.

3.2.P.2	• Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, name of manufacturer in pharmaceutical equivalence • Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product?	• The firm submitted details of reference / comparator product. The details of comparator product are: Name: Genidic-H Cream; B. No: 2204, Mfg Date: 05-21, Expiry Date: 05-23 Manufacturer by: Biogen Pharma., 8-Km chakbeli Road Rawat Rawalpindi • The firm submitted that due to Easley Access of comparator *(Genidic-H manufacturer by Biogen pharma)* that's why perform pharmaceuticals equivalence study.
3.2.P.3	• Description of manufacturing process does not include the step in which the hydrocortisone is added in the formulation in manufacturing process, clarification is required	The firm submitted that due to Typographically mistake hydrocortisone acetate was not mentioned. The firm has submitted revised manufacturing process
3.2.P.8	• Documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• The firm has submitted copy of invoice No. 2021LH-0785 dated 29-07-2021 in name of M/s Biogen Lifesciences *Plot No. 260, Industrial Triangle, Kahuta Road, Islamabad for* Hydrocortisone Acetate (Batch No. K06M20210604) 10kg. *The invoice is not attested by AD (I&E) Field office. Further the address of firm mentioned in invoice is different from the actual address of the firm* • The firm has submitted copy of invoice No. 00025096 dated Apr 02-2020 in name of M/s Biogen Pharmaceuticals 8-km Chakbeli Road Rawat Rawalpindi for Fusidic Acid (Batch No. 190713FB) 1.5kg. *The invoice is not attested by AD (I&E) Field office. The batch No. of drug substance mentioned in invoice is different from that mentioned in batch analysis* • Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Decision: Deferred for Documents for procurement of drug substance with approval from DRAP I&E office.

	Details of fee submitted	Rs.30,000/- dated 14-07-2022

		(Deposit Slip#86318672487)
	The proposed proprietary name / brand name	**Fusigen-B Cream**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tube contains: Fusidic Acid……..….20mg Betamethasone (as valerate)……1mg
	Pharmaceutical form of applied drug	Cream.
	Pharmacotherapeutic Group of (API)	Antibiotics & corticosteroid For Topical Use
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Fusidic acid/Betamethasone 20 mg/g + 1 mg/g cream MHRA approved
	For generic drugs (me-too status)	Fudic-B Cream by M/s Shaigan Pharmaceutical (Reg# 83599)
	GMP status of the Finished product manufacturer	New license granted on 13/02/2020
	Name and address of API manufacturer.	**Fusidic Acid**: Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China **Betamethasone valerate:** Envee Drugs Pvt. Ltd., N. H. No. 8, Dumral-387 355, Ta. Nadiad, Dist: Kheda, Gujarat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities impurities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Fusidic Acid:** Firm has submitted stability study data of fusidic acid. Stability study is conducted Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months and at Accelerated conditions 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (121002FA, 121003FA, 121004FA) Batches: (150501FB, 150502FB, 150503FB) **Betamethasone Valerate:** Firm has submitted stability study data of Betamethasone Valerate. Stability study is conducted Real time: 30˚C ± 2˚C / 65% ± 5%RH

		for 48months and at Accelerated conditions 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (EV/00808, EV/06308, EV/10507)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand Fuciden cream Cream by performing quality tests (Identification, Assay, pH, average weight).
	Analytical method validation/verification of product	Method validation studies have been submitted including accuracy, repeatability (method precision), linearity and range, specificity, system suitability.

STABILITY STUDY DATA

Manufacturer of API	**Fusidic Acid**: Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China **Betamethasone valerate:** Envee Drugs Pvt. Ltd., N. H. No. 8, Dumral-387 355, Ta. Nadiad, Dist: Kheda, Gujarat, India		
API Lot No.	**Fusidic Acid:** ~~200507 FB~~ **Betamethasone Valerate:** EV/BV-256/20		
Description of Pack (Container closure system)	Cream filled in Aluminium pre-printed tube packed in unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	**T#2004FB**	**T#2005FB**	**T#2006FB**
Batch Size	500 tubes	500 tubes	500 tubes
Manufacturing Date	10-2021	10-2021	10-2021
Date of Initiation	12-10-2021	12-10-2021	12-10-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Fusidic Acid:** Firm has submitted GMP certificate No#CQ20180013 in the name of M/s Joyang Laboratories., Haidu North Road, Sheyang Economic Development Zone, Jiangsu, China issued by Chonging Food and Drug administration China valid upto 06-06-2023 **Betamethasone valerate:**

		Firm has submitted GMP certificate No#S-GMP & GLP / 21072790 in the name of Envee Drugs Pvt. Ltd., N. H. No. 8, Dumral-387 355, Tal. Nadiad, Dist: Kheda, Gujarat, India issued by Food and Drugs control administration Gandinagar, Gujarat State India valid upto 06-07-2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Fusidic Acid:** Firm has submitted copy of invoice No# 00025096 dated 02-04-2020 in name of M/s Biogen Pharmaceuticals for import of 1.5kg of Fusidic Acid. ***However, the invoice is not attested by AD (I&E) DRAP Field office.*** **Betamethasone valerate:** Firm has submitted copy of invoice No# 93 dated 02-11-2020 in name of M/s Biogen Life sciences for import of 03kg of Betamethasone valerate. ***However, the invoice is not attested by AD (I&E) DRAP Field office.***
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.2	• The name of applicant as per form 5F is Biogen Life sciences while name mentioned on DML is Biogen Pharmaceuticals. Clarification is required	
1.5.2	• Revise label claim as per reference formulation along with submission of applicable fee	
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	
3.2.S.4	• Copies of the analytical procedures used for routine testing of the Drug substance fusidic acid by both drug substance manufacturer and Drug product manufacturer is required. • Copies of the Drug substance specifications of drug substance fusidic acid by Drug product manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance Betamethasone Valerate by Drug product manufacturer is required • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) i.e. fusidic acid and betamethasone valerate shall be submitted. • Certificate of Analysis of the same batch of fusidic acid used during product development and stability studies from Drug Substance manufacturer is required.	

3.2.P.2	• Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, name of manufacturer in pharmaceutical equivalence	
3.2.P.6	• Submit readable copy of reference standard of fusidic acid and betamethasone valerate	
3.2.P.8	• Submit stability summary sheet of batch #2006FB at accelerated conditions • Documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Previous Decision (322nd–DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of the Firm:

Section	Observations	Response
1.3.2	• The name of applicant as per form 5F is Biogen Life sciences while name mentioned on DML is Biogen Pharmaceuticals. Clarification is required	The firm submitted letter No. 1-2/2019-Lic dated 18th March 2021 for change of title of the firm from M/s Biogen Pharmaceuticals to M/s Biogen Lifesciences.
1.5.2	• Revise label claim as per reference formulation along with submission of applicable fee	The firm has submitted revised label claim as per reference formulation. The revised label claim is: Each gram Contains: Fusidic Acid…….20mg (2 % w/w) Betamethasone as valerate…1mg (0.1%w/w)
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	Firm has submitted copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the analytical procedures used for routine testing of the Drug substance fusidic acid by both drug substance manufacturer and Drug product manufacturer is required. • Copies of the Drug substance specifications of drug substance fusidic acid by Drug product manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance Betamethasone Valerate by Drug product manufacturer is required • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) i.e. fusidic acid and betamethasone valerate shall be submitted. • Certificate of Analysis of the same batch of fusidic acid used during product development and stability studies from Drug Substance manufacturer is required.	• Copies of the analytical procedures used for routine testing of the Drug substance fusidic acid by both drug substance manufacturer and Drug product manufacturer is not submitted • Copies of the Drug substance specifications of drug substance fusidic acid by Drug product manufacturer is submitted. • Firm has submitted copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance betamethasone valerate by Drug product manufacturer. *However, the limits of LOD (1.4% to 2%) mentioned in specifiations is different than USP (NMT 0.5%).* • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) i.e. fusidic acid and betamethasone valerate is submitted. • Certificate of Analysis of the same batch of fusidic acid used during product development and stability studies from Drug Substance manufacturer is not submitted

3.2.P.2	• Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, name of manufacturer in pharmaceutical equivalence	• The firm submitted details of reference / comparator product. The details of comparator product are: Name: Genidic-G Cream; B. No: 2212, Mfg Date: 05-21, Expiry Date: 05-23 Manufacturer by: Biogen Pharma., 8-Km chakbeli Road Rawat Rawalpindi
3.2.P.6	• Submit readable copy of reference standard of fusidic acid and betamethasone valerate	• Firm has submitted readable copy of reference standard of fusidic acid and betamethasone valerate
3.2.P.8	• Submit stability summary sheet of batch #2006FB at accelerated conditions • Documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• Stability summary sheet of batch #2006FB at accelerated conditions is not submitted • The firm has submitted copy of invoice No. 00025096 dated Apr 02-2020 in name of M/s Biogen Pharmaceuticals 8-km Chakbeli Road Rawat Rawalpindi for Fusidic Acid (Batch No. 190713FB) 1.5kg. *The invoice is not attested by AD (I&E) Field office. The batch No. of drug substance mentioned in invoice is different from that mentioned in batch analysis* • The firm has submitted copy of invoice No. 10 dated 03-08-2019 in name of M/s Biogen Pharma 8-km Chakbeli Road Rawat Rawalpindi for Betamethasone valerate (Batch No. EV/BV-060/19) 03kg. *The invoice is not attested by AD (I&E) Field office. The batch No. of drug substance mentioned in invoice is different from that mentioned in batch analysis* • Firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)
Decision: Deferred for Documents for procurement of drug substance with approval from DRAP I&E office.		

Case No. 09: Deferred Registration applications of New Section of Human drugs on Form 5-F (Local)

1328.	Name, address of Applicant / Marketing Authorization Holder	M/s Titlis Pharma (Pvt.) Limited., 528-A, Sunder Industrial Estate, Raiwind Road, Lahore.

</table>

INDICATIONS AND USAGE

JENTADUETO is indicated as an adjunct to diet and exercise to improve glycemic control in adults with type 2 diabetes mellitus.

Limitations of Use

JENTADUETO should not be used in patients with type 1 diabetes.

JENTADUETO has not been studied in patients with a history of pancreatitis. It is unknown whether patients with a history of pancreatitis are at an increased risk for the development of pancreatitis while using JENTADUETO

2 DOSAGE AND ADMINISTRATION

2.1 Recommended Dosing

The dosage of JENTADUETO should be individualized on the basis of both effectiveness and tolerability, while not exceeding the maximum recommended dose of 2.5 mg linagliptin/1000 mg metformin hydrochloride (HCl) twice daily. JENTADUETO should be given twice daily with meals. Dose escalation should be gradual to reduce the gastrointestinal (GI) side effects associated with metformin use.

Recommended starting dose:

- In patients currently not treated with metformin HCl, initiate treatment with 2.5 mg linagliptin/500 mg metformin HCl twice daily.
- In patients already treated with metformin HCl, start with 2.5 mg linagliptin and the current dose of metformin HCl taken at each of the two daily meals (e.g., a patient on metformin HCl 1000 mg twice daily would be started on 2.5 mg linagliptin/1000 mg metformin HCl twice daily with meals).
- Patients already treated with linagliptin and metformin HCl individual components may be switched to JENTADUETO containing the same doses of each component.

Previous Decision (323-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of the Firm:

Section	Observations	Response
1.1	• Submit differential fee as the applied product is new drug molecule	• Differential fee for the applied product is not submitted (as applied product is new drug molecule)
1.3.2	• The name of applicant as per form 5F is M/s Titlis Pharma (Pvt.) Limited., while name mentioned on DML is M/s Titlis Pharma., Clarification is required	The firm submitted that the title of our company has been changed in 279th meeting of Central Licensing Board held on 18th February 2021, and the new approved title is "Titlis Pharma (Private) Limited". The change of title approval letter No. F. 1-11/2009-Lic (Vol-I) from Central Licensing Board in the name of "Titlis Pharma (Private) Limited" is submitted.
1.4	• Clarification is required as the applied drug product is a New Drug Product while you have applied for generic drug product	The firm submitted that we have applied for New Drug Product but Generic Drug Product was mentioned by typographic error.
1.6.5	• Submit valid GMP certificate / Drug Manufacturing License of the Drug Substance manufacturer for Linagliptin issued by relevant regulatory authority of country of origin	The firm have submitted written confirmation for active substances exported to EU to M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China for Active substance Linagliptin by Deputy General Director confirming that the manufacturing plant complies with requirement of Chinese Good Manufacturing practices. This certificate is valid till 25-05-2024
3.2.S.4	• Justification is required for not including the test for sulphated ash in drug substance specification of drug substance metformin by drug product manufacturer as recommended by BP. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) linagliptin and Metformin HCl shall be submitted. • Clarification is required as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method as per BP while drug product manufacturer has performed assay of drug substance Metformin HCl by titrimetric method. • Justification is required for not performing test for appearance of solution and sulphated ash test in batch analysis of drug substance metformin by drug product manufacturer as recommended by BP.	• The firm submitted that we have revised our testing method and now performing testing of Metformin HCL by HPLC method as per USP43 monograph and test for sulphated ash is not mentioned in USP monograph. • The testing and COA of most recent batch of metformin HCL (Batch no; MEF/12051645) as per USP Method is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) linagliptin and Metformin HCl is submitted. • The firm submitted that previously, we were performing the assay of Metformin HCL on titrimetric method. However, we have revised our testing method and now performing testing of Metformin HCl by HPLC method as per USP43 monograph. The testing and COA of most recent batch of metformin HCL (Batch no; MEF/12051645) as per USP Method is submitted. • The firm submitted that previously, we were performing the analysis of Metformin HCl by BP method. However, we have revised our

• CDP of the applied product has not been submitted.
• Only protocol for CDP is submitted</td><td>• The firm submitted that as per literature review and study of Hand Book for Pharmaceutical Excipients, it is notable that all the excipients used in our formulation are inert, and are compatible with active pharmaceutical ingredient of Linet tablet 2.5mg/1000mg. Moreover, their safety and compatibility have also been established as no harsh / adverse effect has been observed in our stability studies.
• The firm further stated that we have also performed Drug Excipients Compatibility studies. However, no compatibility studies is submitted
• CDP has been performed against the brand Jentadueto 2.5/1000mg tablet by M/s Boehringer Ingelhem Pharma Germany in Acid media pH 1.2, acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The values for f2 are in the acceptable range.</td></tr>
<tr><td>3.2.P.4</td><td>• The specifications, Analytical procedures and Validation of analytical procedures for excipients shall be provided as the firm have stated that excipient specifications follow in-house or manufacturer specifications</td><td>The firm submitted that all the excipients used in our formulation, follow pharmacopoeial specifications and submitted pharmacopoeial monographs of all the excipients.</td></tr>
<tr><td>3.2.P.5</td><td>• Justification is required for setting dissolution specification of NLT 75% in 45 minutes while innovator product review document recommends NLT Q in 30 minutes
• Justification is required since composition of dissolution media and rotation (0.03M Potassium dihydrogen phosphate and 75rpm) mentioned in dissolution method for applied drug product is different than that recommended by innovator product review document (0.1N HCl and 50 rpm)
• Justification is required for not including test for identification test active substances and uniformity of dosage units in finished product specification as recommended by innovator product review document.</td><td>• The firm submitted that initially we performed dissolution by using following parameters:
Media: 0.03 M Potassium Dihydrogen phosphate
RPM: 75 rpm
Apparatus: II (Paddle)
Time 45 min.
• It is notable that the data of comparative dissolution profile report for Linet 2.5mg/1000mg tablet is remarkable and recognizes that the product is highly soluble and dissolves not less than 75% after 45 minutes in all three media (0.1 N HCl pH 1.2, Acetate buffer pH 4.5 and Phosphate buffer pH 6.8) at all seven sampling points. Therefore, it is ascertained that dissolution studies of test and reference products are almost similar in all three prescribed dissolution mediums including Acetate buffer pH 4.5. Moreover, f2 values comply with the acceptance criteria.
• Stability batches were analyzed at 0 & 3 months on in house testing but after innovator's product literature review, we revised our testing method and performed 6th month stability studies (accelerated + long run) as per innovator's specifications with below parameters.
Media: 0.1M HCl
RPM: 50 rpm
Apparatus: II (Paddle)
Time 30 min.</td></tr>
</table>

		• Moreover, we manufactured 3 new batches (Batch numbers: LP-28, LP-29 and LP-30) for performance of accelerated and long run stability testing as per innovator's specifications / dissolution parameters and "0", & 3rd month testing has been completed and results are complying with innovator specification. (Reports and chromatogram are attached for kind perusal). **CONCLUSION:** Therefore, we have performed 0, 3, & 6th month stability studies as per innovator's specifications / dissolution parameters and the results are complying with innovator's specifications. • The firm submitted that we have revised the specification and included the test for identification test for active substance, uniformity of dosage units in finished product specification as recommended by innovator product review document and submitted revised specifications
3.2.P.8	• Justification is required since composition of dissolution media (0.03M Potassium dihydrogen phosphate) mentioned in dissolution test for applied drug product in stability summary sheets is different than that recommended by innovator product review document (0.1N HCl) • Justification is required for setting dissolution specification NLT 75% in 45minutes in stability study summary sheets instead of NLT 75% in 30minutes as recommended by innovator product review document. • Accelerated stability study of Batch No#LP-12 at 3rd month time point is not submitted • Submit documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) • Submit compliance Record of HPLC software 21CFR & audit trail reports on product testing	• The firm submitted that initially we performed dissolution by using following parameters: Media: 0.03 M Potassium Dihydrogen phosphate RPM: 75 rpm Apparatus: II (Paddle) Time 45 min. • Stability batches were analyzed at 0 & 3 months on in house testing but after innovator's product literature review, we revised our testing method and performed 6th month stability studies (accelerated + long run) as per innovator's specifications with below parameters. (Revised stability study summary sheets are attached) **Media: 0.1M HCl** **RPM: 50 rpm** **Apparatus: II (Paddle)** **Time 30 min.** • Moreover, we manufactured 3 new batches (Batch numbers: LP-28, LP-29 and LP-30) for performance of accelerated and long run stability testing as per innovator's specifications / dissolution parameters and "0", & 3rd month testing has been completed and results are complying with innovator specification. • Accelerated stability study of Batch No#LP-12 at 3rd month time point is submitted • The firm has submitted copy of invoice No. EXP/321/20-21 dated 18-05-2020 in name of M/s Titli Pharma for import of Metformin HCl (Batch No. MEF/10041416) 1000kg attested by AD (I&E) DRAP Lahore. • Firm has submitted copy of Form 6 for import of 0.220kg of Linagliptin from M/s Fuxin Long Rui Pharmaceutical Co., Ltd., China attested by AD (I&E) DRAP Lahore dated 09-08-2021. • Firm has also submitted copy invoice No. HN210713-J dated 13-07-2021 for import of 0.22kg Linagliptin in name of M/s Titlis Pharma attested AD (I&E) DRAP Lahore dated 09-08-2021. • Record of Digital data logger for temperature and humidity monitoring of stability chambers is submitted at accelerated conditions only

		• Submit compliance Record of HPLC software 21CFR & audit trail reports on product testing is not submitted

Decision: Approved with Innovator's specifications. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1329.	Name, address of Applicant / Marketing Authorization Holder	M/s Titlis Pharma (Pvt.) Limited., 528-A, Sunder Industrial Estate, Raiwind Road, Lahore.
	Name, address of Manufacturing site.	M/s Titlis Pharma (Pvt) Limited., 528-A, Sunder Industrial Estate, Raiwind Road, Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 12952 dated 27/05/2022
	Details of fee submitted	PKR 30,000/-: dated 28/03/2022 (Slip#4224820319)
	The proposed proprietary name / brand name	Linatit 5mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Linagliptin ……. 5mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Dipeptidyl peptidase-4 (DPP-4) inhibitor (antidiabetic)
	Reference to Finished product specifications	Manufacturer's Specifications
	Proposed Pack size	1x10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Tradjenta 5mg film coated tablets USFDA Approved.
	For generic drugs (me-too status)	Linvesta 5mg Tablet by M/s Wilshire Laboratories (Reg#110608)
	GMP status of the Finished product manufacturer	New section granted on 17th & 18th March, 2022 and letter issued on 10th May, 2022
	Name and address of API manufacturer.	Fuxin Long Rui Pharmaceutical Co. Ltd., Fluoride Industrial park, Fuxin city, Liaoning province, 123000, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference

		standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (L-20170429-D01-L9-01, L-20170604-D01-L9-02, L-20170604-D01-L9-03)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Trajenta 5mg tablet of West-Ward Columbus USA by performing quality tests (Disintegration time, weight variation, Dissolution, Assay) and results are within specifications and comparable with Tradjenta 5mg Tablet.
	Analytical method validation/verification of product	Firm has submitted method validation studies including linearity, range, accuracy, precision, specificity, LOD, LOQ, solution stability and robustness.

STABILITY STUDY DATA			
Manufacturer of API	Fuxin Long Rui Pharmaceutical Co. Ltd., Fluoride Industrial park, Fuxin city, Liaoning province, 123000, China.		
API Lot No.	L-20210123-D01-L09-02		
Description of Pack (Container closure system)	ALU-ALU blister packed in cardboard unit carton.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	LP-01	LP-02	LP-03
Batch Size	1000 Tablets	1000 Tablets	1000 Tablets
Manufacturing Date	Nov-2021	Nov-2021	Nov-2021
Date of Initiation	20-12-2021	20-12-2021	20-12-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm have submitted written confirmation for active substance exported to EU to M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China for Active substance Linagliptin by Deputy General Director confirming that the manufacturing plant complies with requirement of Chinese Good Manufacturing practices. This certificate is valid till 25-05-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.2	• The name of applicant as per form 5F is M/s Titlis Pharma (Pvt.) Limited., while name mentioned on DML is M/s Titlis Pharma., Clarification is required	
1.6.5	• Submit valid GMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	
3.2.S.4	• Justification is required for not including the test for water content, melting temperature and enantiomeric purity in drug substance specification by drug substance manufacturer as recommended by innovator's product review document. • Copies of the specifications and analytical procedures used for routine testing of the Drug substance by Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	
3.2.P.2	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product.	

Applied product	**TRADJENTA tablet**
Linagliptin	Linagliptin
Lactose	Mannitol
Avecil PH 102	Pregelatinized starch
Ac-Di-Sol	Corn Starch
Aerosil 200	Copovidone
PVP K30	Magnesium Stearate
Magnesium stearate	
Purified water	

• Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the innovator/comparator product including the tests recommended by innovator product (identification, loss on drying, uniformity of dosage units).
• Submit details of innovator / reference product including batch numbers, manufacturing & expiry date, name of manufacturer in pharmaceutical equivalence
• (manufacturer of tradjenta 5mg tablet is Boehringer Ingelheim Pharmaceuticals while firm stated West-Ward Columbus USA)

	• CDP of the applied product has not been submitted. • Only protocol for CDP is submitted	
3.2.P.4	• The specifications, Analytical procedures and Validation of analytical procedures for excipients shall be provided as the firm have stated that excipient specifications follow in-house or manufacturer specifications	
3.2.P.5	• Justification is required for setting dissolution specification of NLT 75% in 45 minutes while innovator product review document recommends NLT Q in 30 minutes • Justification is required for not including test for identification of active substances, loss on drying and uniformity of dosage units in finished product specification as recommended by innovator product review document. • Justification is required since dissolution apparatus, composition of dissolution media and rotation speed (rpm) (Apparatus II, 0.03M Potassium dihydrogen phosphate and 75rpm) mentioned in dissolution method for applied drug product is different than that recommended by innovator product review document (Apparatus I (Basket), 01N HCl and 50 rpm)	
3.2.P.8	• Justification is required since composition of dissolution media (0.03M Potassium dihydrogen phosphate) mentioned in dissolution test for applied drug product in stability summary sheets is different than that recommended by innovator product review document (1N HCl) • Justification is required for setting dissolution specification NLT 75% in 45minutes in stability study summary sheets instead of NLT Q in 30minutes as recommended by innovator product review document. • The submitted chromatograms show that the detection wavelength used during dissolution test of stability study of all the batches at initial time point is different than that given in analytical procedure, clarification is required (275nm used instead of 267nm) • Submit documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Previous Decision (323-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of the firm:

Section	Observations	Response
1.3.2	• The name of applicant as per form 5F is M/s Titlis Pharma (Pvt.) Limited., while name mentioned on DML is M/s Titlis Pharma., Clarification is required	The firm submitted that the title of our company has been changed in 279th meeting of Central Licensing Board held on 18th February 2021, and the new approved title is "Titlis Pharma (Private) Limited". The change of title approval letter No. F. 1-11/2009-Lic (Vol-I)from Central Licensing Board in the name of "Titlis Pharma (Private) Limited" is submitted.
1.6.5	• Submit valid GMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	The firm have submitted written confirmation for active substances exported to EU to M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China for Active substance Linagliptin by Deputy General Director confirming that the manufacturing plant complies with requirement of Chinese Good Manufacturing practices. This certificate is valid till 25-05-2024
3.2.S.4	• Justification is required for not including the test for water content, melting temperature and enantiomeric purity in drug substance specification by drug substance manufacturer	• The firm submitted that Test for water content, melting temperature and Enantiomeric purity in drug Substance specification by drug substance manufacturer has been added as recommended by

<table>

• (manufacturer of tradjenta 5mg tablet is Boehringer Ingelheim Pharmaceuticals while firm stated West-Ward Columbus USA)
• CDP of the applied product has not been submitted.
• Only protocol for CDP is submitted</td><td>• The firm submitted that as per literature review and study of Hand Book for Pharmaceutical Excipients, it is notable that all the excipients used in our formulation are inert, and are compatible with active pharmaceutical ingredient of Linet tablet 5mg. Moreover, their safety and compatibility have also been established as no harsh / adverse effect has been observed in our stability studies.
• The firm further stated that we have also performed Drug Excipients Compatibility studies. However, no compatibility studies is submitted
• Firm has submitted pharmaceutical equivalence of applied product against innovator product Trajenta 5mg tablet by M/s West Ward Columbus USA by performing quality tests (identification, disintegration time, weight variation, content uniformity, Dissolution and assay test).
• Firm has submitted details of innovator / reference product.
Name: Trajenta 5mg tablet, Batch No; AB3469B
Mfg date; 01-2021, Expiry date; 12-2023
Manufacturer: West-Ward Columbus USA
• CDP has been performed against the brand Trajenta 5mg tablet by M/s West-Ward Columbus USA in Acid media pH 1.2, acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The values for f2 are in the acceptable range.</td></tr>
<tr><td>3.2.P.4</td><td>• The specifications, Analytical procedures and Validation of analytical procedures for excipients shall be provided as the firm have stated that excipient specifications follow in-house or manufacturer specifications</td><td>The firm submitted that all the excipients used in our formulation, follow pharmacopoeial specifications and submitted pharmacopoeial monographs of all the excipients.</td></tr>
<tr><td>3.2.P.5</td><td>• Justification is required for setting dissolution specification of NLT 75% in 45 minutes while innovator product review document recommends NLT Q in 30 minutes
• Justification is required since dissolution apparatus, composition of dissolution media and rotation speed (rpm) (Apparatus II, 0.03M Potassium dihydrogen phosphate and 75rpm) mentioned in dissolution method for applied drug product is different than that recommended by innovator product review document (Apparatus I (Basket), 01N HCl and 50 rpm)
• Justification is required for not including test for identification of active substances, loss on drying and uniformity of dosage units in finished product specification as</td><td>• Firm submitted that Initially we performed dissolution by using following parameters:

Media: 0.03 M Potassium Dihydrogen phosphate
RPM: 75 rpm
Apparatus: II (Paddle)
Time 45 min.
• It is notable that the data of comparative dissolution profile report for Linatit 5mg tablet is remarkable and recognizes that the product is highly soluble and dissolves not less than 75% after 45 minutes in all three media (0.1 N HCl pH 1.2, Acetate buffer pH 4.5 and Phosphate buffer pH 6.8) at all seven sampling points. Therefore, it is ascertained that dissolution studies of test and reference products are almost similar in all three prescribed dissolution mediums including Acetate buffer pH 4.5. Moreover, f2 values comply with the acceptance criteria.</td></tr>
</table>

	recommended by innovator product review document.	• Stability batches were analyzed at 0 & 3 months on in house testing but after innovator's product literature review, we revised our testing method and performed 6th month stability studies (accelerated + long run) as per innovator's specifications with below parameters. Media: 0.1M HCl RPM: 50 rpm Apparatus: II (Paddle) Time 30 min. • Moreover, we manufactured 3 new batches (Batch numbers: LP-19, LP-20 and LP-21) for performance of accelerated and long run stability testing as per innovator's specifications / dissolution parameters and "0", & 3rd month testing has been completed and results are complying with innovator specification. (Reports and chromatogram are attached for kind perusal). **CONCLUSION:** Therefore, we have performed 0, 3, & 6th month stability studies as per innovator's specifications / dissolution parameters and the results are complying with innovator's specifications. • The firm submitted that we have revised the specification and included the test for identification test for active substance, uniformity of dosage units in finished product specification as recommended by innovator product review document.
3.2.P.8	• Justification is required since composition of dissolution media (0.03M Potassium dihydrogen phosphate) mentioned in dissolution test for applied drug product in stability summary sheets is different than that recommended by innovator product review document (1N HCl) • Justification is required for setting dissolution specification NLT 75% in 45minutes in stability study summary sheets instead of NLT Q in 30minutes as recommended by innovator product review document. • The submitted chromatograms show that the detection wavelength used during dissolution test of stability study of all the batches at initial time point is different than that given in analytical procedure, clarification is required (275nm used instead of 267nm) • Submit documents for procurement of API with approval from DRAP • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• The firm submitted that initially we performed dissolution by using following parameters: Media: 0.03 M Potassium Dihydrogen phosphate RPM: 75 rpm Apparatus: II (Paddle) Time 45 min. • Stability batches were analyzed at 0 & 3 months on in house testing but after innovator's product literature review, we revised our testing method and performed 6th month stability studies (accelerated + long run) as per innovator's specifications with below parameters. (Revised stability study summary sheets are attached). Media: 0.1M HCl RPM: 50 rpm Apparatus: II (Paddle) Time 30 min. • Moreover, we manufactured 3 new batches (Batch numbers: LP-19, LP-20 and LP-21) for performance of accelerated and long run stability testing as per innovator's specifications / dissolution parameters and "0", & 3rd month testing has been completed and results are complying with innovator specification. • The detection wavelength used during dissolution test of stability studies is λmax 267nm but by mistakenly it was set as λmax 275nm at initial time point (analyzed on 20-12-2021). Therefore, it was mentioned as λ275 in chromatograms. • However, we had already performed analysis on all batches (analyzed on 24-12-2021) at initial stage with proper λmax 267nm.

		• Moreover, we manufactured 3 new batches (Batch numbers: LP-19, LP-20 and LP-21) for performance of accelerated and long run stability testing as per innovator's specifications / dissolution parameters and "0", & 3rd month testing has been completed and results are complying with innovator specification. • Firm has submitted copy of Form 6 for import of 0.220kg of Linagliptin from M/s Fuxin Long Rui Pharmaceutical Co., Ltd., China attested by AD (I&E) DRAP Lahore dated 09-08-2021. • Firm has also submitted copy invoice No. HN210713-J dated 13-07-2021 for import of 0.22kg Linagliptin in name of M/s Titlis Pharma attested AD (I&E) DRAP Lahore dated 09-08-2021. • Record of Digital data logger for temperature and humidity monitoring of stability chambers at accelerated conditions is submitted only

Decision: Approved with Innovator's specifications. The firm shall submit fee of Rs. 30,000/- for submission of revised stability studies data, as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 10; Deferred Registration Application of Human Drugs on form 5:

1330.	Name and address of manufacture / Applicant	M/s Paramount Pharmaceuticals., Plot No. 36, Industrial Triangle, Kahuta Road, Islamabad ***Contract Manufactured By:*** M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name + Dosage Form and Strength	Colistacin 1 M IU Injection
	Composition	Each Vial Contains: Colistimethate Sodium eq. to Colistimethate Lyophilized Powder…….1MIU
	Dairy No. date of R &I fee	Form-5 Dy.No 13002 dated 05-03-2019 Rs.20,000/- dated 04-03-2019
	Pharmacological Group	other antibacterials (polymyxins)
	Type of form	Form 5
	Finished product specifications	USP
	Pack size and Demand Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Colistimethate Sodium 1 Million I.U. Powder for Solution for Injection MHRA Approved
	Me-too-status	Colicraft Injection by Biolabs (Pvt) Ltd. (Reg# 082407)
	GMP Status	The firm M/s Paramount Pharmaceuticals was inspected on 08-02-2019 and conclusion of inspection was: During review of approval of above-mentioned sections/manufacturing facilities, it was assessed that following two sections needs regularization from Licensing Division: 1- Cream/Ointment 2- Tablet (General) The firm has applied for the regularization of same in Licensing Division. Keeping in view the observations noticed during inspection as narrated above, the panel is of the opinion that the firm may be allowed to start manufacturing in the light of GMP guidelines. The panel further recommended granting the GMP certificate for export purpose.

		Certificate of GMP Issued to M/s Bio Labs Pvt on 25-05-2019.
	Previous Remark of the Evaluator [XI]	• The firm have submitted differential fee Rs. 55000/- on deposit slip No# 873385180685 for contract manufacturing. • Form 5 is submitted by the applicant i.e. M/s Paramount Pharmaceuticals duly signed by the applicant • The firm submitted list of 08 approved sections of applicant. i.e. M/s Paramount Pharmaceuticals • The firm submitted list of 11 products registered/approved on contract manufacturing in name of applicant. i.e. M/s Paramount Pharmaceuticals • The firm submitted list of 14 products applied for contract manufacturing by the applicant. • The firm submitted copy of contract manufacturing agreement between M/s Paramount Pharmaceuticals and M/s Bio Labs Pvt Ltd • The firm have not revised the label claim as per reference formulation without considering the salt factor. The submitted label claim is as under: Each Vial Contains: Colistimethate Sodium eq. to Colistimethate …….1MIU Lyophilized Powder
	Previous Decision (316-DRB)	Deferred for following: • Confirmation of method of manufacturing of applied formulation whether by lyophilization or otherwise. • Further deliberation for revision of label claim as per reference formulation and pharmacopoeial specifications.
	Evaluation by PEC	• The firm have submitted revised form 5 and revised label claim as per reference formulation without submission of applicable fee. The revised label claim is as under: Each Vial Contains: Colistimethate Sodium …….1MIU (Lyophilized Powder) • Firm has submitted revised form 5 and revised manufacturing method and stated that the product is manufactured by lyophilization. • Registration Board in its 293rd meeting held on 06-08th January 2020 allowed contract manufacturing from M/s Bio-Labs (Pvt) Ltd. Plot No.145 Industrial Triangle, Kahuta Road, Islamabad for following sections: Dry Suspension (Cephalosporin) Capsule (Cephalosporin) Dry vial injectable (Cephalosporin) lyophilized vial injectable (General)
	Previous Decision (321-DRB)	Registration Board deferred for following reasons: • Submission of batch manufacturing details of most recent commercial batch from M/s Bio Labs Pvt Ltd., for applied formulation to confirm the fact whether Colistimethate injection is formulated from pre-lyophilised drug substance or otherwise. • Firm shall submit fee of Rs.7,500/- for correction/pre-approval change in the method of manufacture, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021. • Submission of GMP audit report for both M/s Paramount Pharmaceuticals and M/s Bio Labs Pvt Ltd from QA&LT Division, valid within last three years

	Evaluation by PEC	• The firm submitted batch manufacturing details (Mfg. date 09-18) for applied product demonstrating that the applied product is formulated through lyophilisation process. • The firm has submitted Rs. 7500/- on deposit slip No. 586746982449 for change in the method of manufacture of applied product.
	Decision of 324th meeting: Deferred for the submission of data by M/s Bio-Labs against the Form 5F applications of applied formulation, presented in instant meeting.	

1331.	Name and address of manufacture / Applicant	M/s Global Pharmaceuticals Pvt Ltd., Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad
	Brand Name + Dosage Form and Strength	Dulic Capsule 500mg
	Composition	Each Capsule Contains: Ursodeoxycholic Acid……500mg
	Dairy No. date of R &I fee	Form-5 Dy.No 13013 dated 05-03-2019 Rs.20,000/- dated 04-03-2019
	Pharmacological Group	Bile acids and derivatives
	Type of form	Form 5
	Finished product specifications	BP
	Pack size and Demand Price	10's; As per SRO
	Approval status of product in Reference Regulatory Authorities	
	Me-too-status	Vdoxyl 500mg Capsule by M/s EG Pharmaceuticals (Reg#095838)
	GMP Status	The firm was inspected on 11 & 24-10-2018 and conclusion of inspection was: On the basis of findings, panel unanimously decided to recommend the issuance of GMP certificate.
	Previous Remark of the Evaluator [XI]	• The firm provided evidence of RRA. Ursochol 500mg capsule Swedish Medical Product Agency approved. However, the product is Deregistered or temporarily recalled drugs
	Previous Decision (307-DRB)	• Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.
	Evaluation by PEC	• The firm submitted evidence of applied formulation in Reference Regulatory Authorities. Bilheptil 500mg hard capsules MHRA Approved
	Decision: Approved.	

Item No. 15: Agenda of Evaluator PEC-VIII (Mr. Muhammad Usman)

1. Cases of Export Facilitation:

1332.	**Name, address of Applicant / Marketing Authorization Holder**	M/s FYNK Pharmaceuticals, 19 km, GT Road, Kalashah Kaku, Lahore
	Name, address of Manufacturing site.	M/s FYNK Pharmaceuticals, 19 km, GT Road, Kalashah Kaku, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the drug product manufacturer	Copy of current GMP certificate dated 08-08-2019 is provided.
	Evidence of approval of manufacturing facility	Firm has submitted copy of covering letter for renewal of DML and approval letters of licensed sections.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale

		☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 11091 Date: 07/5/2022
	Details of fee submitted	PKR 30000 Slip No. 8036710392
	The proposed proprietary name / brand name	TENDOL TABLET 50mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each immediate release Film Coated tablet contains: Tepentadol as Hydrochloride… 50mg
	Pharmaceutical form of applied drug	Tablet (General)
	Pharmacotherapeutic Group of (API)	Opioid Analgesic (ATC code : N02AX06)
	Reference to Finished product specifications	Innovator Specifications
	Proposed Pack size	10's,20's & 30's (Alu-Alu Blister)
	Proposed unit price	Rs.300 for 10's
	The status in reference regulatory authorities	USFDA Approved NUCYNTA 50mg (Tepentadol HCL) Tablet manufactured by Janssen Ortho, LLC, gurabo,
	For generic drugs (me-too status)	Plaxodol Tablet 50mg (M/s Jenner Pharma, Skeikhupura) Registration No. 109504
	Name and address of API manufacturer.	**Tapentadol Hydrochloride:** M/s Ami Life Sciences Private Limited, Block No. 82/B, ECP Road, Taluka Padra, Gujrat, India. **Certificate No. 19041306 dated 25-04-2019.**
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. Not Provided on relevant format and date of initiation
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures,

		validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence study is not performed against the innovator / Reference Product **CDP has been performed against the same brand that is** Plaxodol Tablet 50mg (M/s Jenner Pharma, Skeikhupura) **instead of Innovator / Reference Product of same strength**.in Acid media (0.1N HCl), acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The F2 values are found satisfactory(>50%).
	Analytical method validation/verification of product	Firm has submitted report of validation studies of analytical method of drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA			
Manufacturer of API	**Tapentadol Hydrochloride:** M/s Ami Life Sciences Private Limited, Block No. 82/B, ECP Road, Taluka Padra, Gujrat, India.		
API Lot No.	**Not Provided**		
Description of Pack (Container closure system)	The proposed pack size is 10's,20's & 30's Alu-Alu Blister.		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 75% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, (Months) Real Time: 0, 3, (Months)		
Batch No.	Not Provided	Not Provided	Not Provided
Batch Size	Not Provided	Not Provided	Not Provided
Manufacturing Date	Not Provided	Not Provided	Not Provided
Date of Initiation	Not Provided	Not Provided	Not Provided
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	• Not Provided
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Tapentadol Hydrochloride:** M/s Ami Life Sciences Private Limited, Block No. 82/B, ECP Road, Taluka Padra, Gujrat, India. **Certificate No. 19041306 dated 25-04-2019.**
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The document regarding import of Tramadol HCL is **not Provided.**
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	**Submitted. However needs to be evaluated in the light of date of initiation till completion of stability**

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	**Submitted.**
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	**Submitted. However needs to be evaluated in the light of date of initiation till completion of stability**

Evaluation by PEC:

Following Documents are found deficient:

1. Provide copy of valid DML.
2. Provide analytical method verification Protocol and test reports for API Tepentadol Hydrochloride as performed by Drug Product manufacturer.
3. CDP studies are performed against Plaxodol Tablet 50mg (M/s Jenner Pharma, Skeikhupura manufactured by instead of Innovator / Reference Product of same strength.
4. RSD is not calculated for Robustness , Precision in method validation test reports.
5. Test of accuracy is not performed in method validation of Product development.
6. Provide stability studies summary sheets on Prescribed format as recommended by the DRB in its 293rd meeting including batch No, batch size, manufacturing date, date of initiation, API lot No and storage conditions etc.
7. Documents for the procurement of API with approval from DRAP (in case of import) along with COA of relevant batch needs to be submitted.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months

Firm has submitted following reply/documents :

1. Firm has submitted copy of valid DML No. 000494 valid till 10-10-2023.
2. Firm has Provided analytical method verification Protocol and test reports for API Tepentadol Hydrochloride as performed by Drug Product manufacturer.
3. Firm has stated that the innovator Product is Nucynta film coated tablet which is a controlled drug and is only available on prescription , therefore, locally manufactured Topentadol tablet manufactured by Jenner Pharma, Sheikhupura is used for CDP studies.
4. Test reports for Robustness , Precision and accuracy in method validation are submitted.
5. Documents for the procurement of API with approval from DRAP (in case of import) along with COA of relevant batch is submitted.
6. Stability studies summary sheets on Prescribed format as recommended by the DRB in its 293rd meeting including batch No, batch size, manufacturing date, date of initiation, API lot No and storage conditions etc are submitted.

Decision of 324th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Evaluation by PEC:

Following Documents are found deficient:

1. Fee submitted is 30,000 therefore submit remaining 45,000 fee for new drug molecule.
2. Provide copy of valid DML along with approval letter of licensed sections.
3. The strength of Proposed Product is different from Tapento Tablet 75mg (M/s Sami Pharmaceuticals (Pvt) Ltd, Karachi)
4. Provide analytical method verification Protocol and test reports for API Tepentadol Hydrochloride as performed by Drug Product manufacturer.
5. Pharmaceutical equivalence and CDP studies are performed against Tapento 75mg Tablets manufactured by M/s Sami Pharmaceuticals (Pvt) Ltd, Karachi instead of Innovator / Reference Product of same strength.
6. RSD is not calculated for Robustness , Precision in method validation test reports.
7. Test of accuracy is not performed in method validation of Product development.
8. Provide stability studies summary sheets on Prescribed format as recommended by the DRB in its 293rd meeting including batch No, batch size, manufacaturing date, date of initiation, API lot No and storage conditions etc.
9. Documents for the procurement of API with approval from DRAP (in case of import).

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Firm has submitted following reply/documents :

1. **Firm has not submitted the required 30,000 fee and has stated that TENDOL TABLET 100mg is not a new drug molecule as the **Tapendol 100mg tablet is approved by the DRB in its 289th meeting of M/s The Searle Company Limited, Karachi**.
2. **Firm has submitted copy of valid DML No. 000494 valid till 10-10-2023.**
3. Firm has Provided analytical method verification Protocol and test reports for API Tepentadol Hydrochloride as performed by Drug Product manufacturer.
4. **Firm has stated that the innovator Product is Nucynta film coated tablet which is a controlled drug and is only available on prescription, therefore, locally manufactured Topentadol tablet manufactured by Jenner Pharma, Sheikhupura is used for CDP studies.**
5. **Test reports for Robustness , Precision and accuracy in method validation are submitted.**
6. Documents for the procurement of API with approval from DRAP (in case of import) along with COA of relevant batch is submitted.

7. Stability studies summary sheets on Prescribed format as recommended by the DRB in its 293rd meeting including batch No, batch size, manufacturing date, date of initiation, API lot No and storage conditions etc are submitted. 8. Pharmaceutical equivalence and CDP studies **are performed against Tapento 75mg Tablets** manufactured by M/s Sami Pharmaceuticals (Pvt) Ltd, Karachi instead of Innovator / Reference Product of same strength.
Decision of 324th meeting: Deferred for following: • **Submission of differential fee of Rs. 45,000/- since applied formulation is not previously registered in Pakistan.** • **Submission of Pharmaceutical equivalence & CDP studies against the relevant strength of innovator/reference product.**

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Dapagliflozin Propanediol Monohydrate :** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for **36 months for Batch No. 130401, 130401, & 130501.** **Metformin HCL :** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for **60 months for Batch No. A-71411106004, A-71411106005, A-71411106006.**
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the Daplozmat-Met XR 5mg/850mg by M/s Highnoon Laboraotires Ltd ,Lahore by performing quality tests including Identification, water content, Assay, Dissolution, Disintegration. CDP has been performed against the same brand that is Daplozmat-Met XR 5mg/850mg by M/s Highnoon

		Laboraotires Ltd ,Lahore in Acid media (0.1N HCl), acetate buffer pH 4.5 & Phosphate Buffer pH 6.8.
	Analytical method validation/verification of product	Not submitted

STABILITY STUDY DATA

Manufacturer of API	**Metformin HCL (USP):** M/s Shouguang Fukang Pharmaceutical Co., Ltd, North East of Dongwaihuan Province, China. Certificate No. SD20190888 valid till 12-03-2024. **Dapagliflozin :** Jiangsu Yongan Pharmaceutical Co., Ltd, No. 18, 237 Provincial Road, Economic Development Zone, Huaian Jiangsu, China GMP Certificate valid till 14-01-2024

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to panel inspection report of their product for EMPAGMIN XR Tablets 5/1000 mg, 10/1000 mg, 12.5/1000 mg, 25/1000 mg (Empagliflozin 5mg & Metformin HCL 1000mg) on 6th May 2019. Further, the said panel inspection report was discussed in 293rd Drug Registration Board meeting held on 6th, 7th & 8th January 2020. The case was approved by the Drug Registration Board.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Metformin HCL (USP):** M/s Shouguang Fukang Pharmaceutical Co., Ltd, North East of Dongwaihuan Province, China. Certificate No. SD20190888 valid till 12-03-2024. **Dapagliflozin :** Jiangsu Yongan Pharmaceutical Co., Ltd, No. 18, 237 Provincial Road, Economic Development Zone, Huaian Jiangsu, China GMP Certificate valid till 14-01-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Dapagliflozin Propanediol :** Commercial Invoice No. HN200109-F

		Dated 16-01-2020 **Metformin-HCL :** **The invoice of relevant batch** 0187504 **used in Product Development is not provided.**
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Evaluation by PEC:

Following Documents are found deficient:

1. Provide analytical method for Assay of API namely Metformin and Dapagliflozin along with analytical method verification test reports
2. Provide analytical method for Assay of Drug Product along with test reports regarding validation of analytical method.
3. Submit revised label claim as per innovator Product.
4. Submit Pharmaceutical Equivalence and Comparative Dissolution studies along with test results of Drug Product with innovator Product.
5. Submit API Lot No. of API used in stability study batch(s) production and Submit BMR of stability study batches of Drug Product.
6. Provide stability studies summary sheets on Prescribed format as recommended by the DRB in its 293rd meeting including batch No, batch size, manufacturing date, date of initiation, API lot No and storage conditions etc.
7. Submit Documents for the procurement of API with approval from DRAP (in case of import) of relevant batches of API(s) used in stability study batches.

Reply of the firm :

1. Firm has submitted analytical method for Assay of API namely Metformin and Dapagliflozin along with analytical method verification test reports
2. Firm has submitted analytical method for Assay of Drug Product along with test reports regarding validation of analytical method.
3. **Firm has submitted** Pharmaceutical Equivalence and Comparative Dissolution studies along with Daplozmet 5/850 of M/s Highnoon Laboratories , Lahore **instead of with innovator Product.**
4. Firm has submitted documents confirming import of dug substance detailed as follows

Dapagliflozin:
Copy of letter No.2042/19/DRAP/K dated 22/10/2019 is submitted wherein the permission to import API for the purpose of test/analysis and stability studies is granted.
Metformin HCl:
Copy of letter No.263/19/DRAP/K dated 02/10/2019 is submitted wherein the permission to import API for the purpose of test/analysis and stability studies is granted.

Decision of 324th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Item No. 16: Agenda of AD PE&R (Mr. Muhammad Zubair Masood)

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Copy of letter No.17133/2019/DRAP-AD-CD(I&E) dated 26/12/2019 is submitted wherein the permission to import different APIs including Paroxetine HCl for the purpose of test/analysis and stability studies is granted. • DHL No.XMLPI6.2/90-1504 dated 22/07/2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

Observations	Response
• Submit valid GMP certificate as provided is expired.	Submitte
• Clarification regarding mentioning Route of administration as oral instead of topical.	Correcte

• Approval/ GMP Certificate of API manufacturing facility issued by relevant regulatory authority.	**Submitted.**
• Reference of public assessment report is not provided while it is mandatory for non-pharmacopoeial products.	**Submitted**
• API specifications provided by drug substance manufacturer are not readable.	**Provided**
• Summary of verification of analytical procedures for drug substance is not provided.	**Provided**
• Container closure system is indicating 15 g Cream while applied product is 60g cream.	**Corrected**
• Section 1.5.10 indicates pre-printed Aluminum tube while container closure system in 3.2.P.1 (d) indicates polypropylene dispenser tube.	**Pre-printed Aluminium Tube is confirmed.**
• Cetyl Alcohol, All-rac-α-tocopherol, liquid paraffin, White soft paraffin and Potassium Sorbate are indicated as excipients while these excipients are not mentioned in 2.3.P.1(b).	**Corrected as Typo error**
• Formulation Development is not provided.	**Submitted.**
• Maximum holding time of bulk before final packing is not submitted	**Submitted.**
• **In process validation protocol, Appearance is mentioned as Off white to light yellow cream while in product specification appearance is as Clear Colourless cream.**	**Corrected in Specifications.**
• **Test to check the amount of S enantiomer is not included in drug product specifications while it is being performed by the Innovator.**	**Not Performed.**
• **Justification of non-applicability of Characterization of Impurities.**	**Not Provided.**
• **Justification of specifications is not provided.**	**Not Provided.**
• Clarification of different Drug substance manufacturer in Module-II & Module-III.	**Corrected**
• COA of drug substance from drug substance manufacturer is not provided.	**Provided report indicates results from both API manufacturer & FPP manufacturer.**
• Stability data of drug substance is not readable.	**Provided.**
• pH, Viscosity and **Particulate Matter** is not tested during Pharmaceutical Equivalence.	**pH & Viscosity tests are provided.**
• Provided data is for oral dosage form instead of topical dosage form.	**Provided**
• **Information regarding Physicochemical and Biological properties is not provided**	**Not Provided**
• Justification of critical steps of manufacturing process is not provided.	**Provided**
• Process Validation protocol indicates Sifting, Melting, Milling, Congealing & Cooling as processing steps while these steps are not indicated in description of manufacturing process & flow diagram.	**Revised flow diagram is provided**
• **Justification of not performing Identification & Particulate matter tests during stability studies.** • **Compliance record of HPLC software 21CFR & audit trail reports on product testing.** • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated). • **Clarification of 24 months demanded shelf life while Innovator has shelf life of 18 months.**	**The firm submitted that HPLC is not 21CFR compliant. Record of digital data logger is provided. Rest are not provided.**

Decision: Deferred for submission of reply to below mentioned shortcomings within six months:

- **Test for the amount of S enantiomer is not included in drug product specifications while it is being performed by the Innovator.**
- **Justification of specifications is not provided.**
- **COA of drug substance from drug substance manufacturer is not provided.**
- **pH, Viscosity and Particulate Matter is not tested during Pharmaceutical Equivalence.**
- **Information regarding Physicochemical and Biological properties is not provided**
- **Justification of not performing Identification & Particulate matter tests during stability studies.**
- **Compliance record of HPLC software 21CFR & audit trail reports on product testing.**

Case No.01. Recommendation of Provincial Quality Control Board, Punjab Regarding Cancellation of Muscadol Tablet (R.No.067173)

Provincial Quality Control Board in its 251st meeting held on 20th October, 2022 considered the following case under section 11 of the Drugs Act, 1976 on grounds that Drug Testing Laboratory showed inability for the test/ analysis of the following sample:

S/N	DTL Letter No. & Date	Product Name & Batch No.	DTL	Manufacturer	Area DI	Memo No. & Date	Reason of FNA rom DTL
1	DPN/17350/ DTL Dated 18-03-2022	Muscadol Film Coated Tablet (Paracetamol: 450mg Orphenadrine Citrate USP: 35mg) Batch No. T-052	Lahore	Lisko	Sir Ganga Raam Hospital	0000117776 dated 03-02-2022	Due to provision of wrong method of analysis from manufacturer

In this context, it has been communicated that PQCB after deliberation and discussion decided to recommend the Drug Regulatory Authority of Pakistan (DRAP) for cancellation of registration of drug in best of public interest.

Decision: Registration Board decided to issue show cause notice to M/s Lisko Pakistan (Pvt) Ltd., L-10/D, Block 21, Federal B Industrial Area, Karachi (DML No.000110) under Section 7 (11)(c) of the Drug Act, 1976 that why the registration of their drug product 'Muscadol Tablet (Reg.No.067173)' may not be cancelled for violation of the conditions subject to which the drug product was registered. The Board also decided to provide an opportunity of personal hearing to the management of the firm under section 42 of the Drugs Act, 1976.

Case No.02. Request for Change in Registration Status of Testiva Gel from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi (DML No. 000012) to M/s Aspin Pharma Pvt Ltd., Korangi Industrial Area Karachi (DML No. 000045), through contract manufacturing.

M/s. Aspin Pharma (Pvt.) Ltd., Plot No.10 & 25 Sector 20, Korangi (DML No.000045) Industrial Area Karachi has requested to change the product registration status of Testiva Gel from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi (DML No.000012) to their name. However, the product will continue to be manufactured at the manufacturing site of M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi through contract manufacturing.

The detail of cases is as following:

	Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i.	GMP certificate of M/s Searle Pakistan Ltd (Formerly OBS Pakistan (Pvt Ltd, C-14, Manghopir Road, S.I.T.E, Karachi, issued on 15-02-2022 based on an inspection conducted on 08.10.2021.
ii.	Copy of DML of M/s OBS Pakistan Pvt Ltd., (DML # 000012) renewed w.e.f. 26-10-2020 and M/s Aspin Pharma Pvt Ltd, (DML# 000045) renewed w.e.f. 31-03-2020.
iii.	Copy of Panel Inspection Report of M/s Searle Pakistan Ltd (Formerly OBS Pakistan (Pvt Ltd, C-14, Manghopir Road, S.I.T.E, Karachi confirming "Sachet (Hormones) Soft Gel" section and approval letter issued on 26-10-2020 for renewal of DML confirming "Sachet (Hormone) Section".
iv.	NOC from M/s. The Searle Company Ltd; Karachi for transfer of Testiva Gel in the name of M/s. Aspin Pharma Pvt Pharma Pvt Ltd., Korangi Industrial Area, Karachi issued on 26th September 2022.
v.	Relevant undertakings & commitments.
vi.	Contract Agreement between M/s Aspin Pharma Pvt Ltd, and M/s OBS Pharma.

The cases were referred to Pharmaceutical Evaluation Cell / QMS for scrutinization/evaluation. Detail of submitted documents remarks of evaluators have been mentioned as under:

Evaluator: Mr. Abdul Mughees Mudassir (AD to CEO)

Remarks	M/s Searle Pakistan Limited, through their letter pad, has given the NOC for the transfer of registration of Testiva Gel 1% sachet from Searle Pakistan Limited (Formerly OBS Pakistan (Pvt.) Limited) to Aspin Pharma (Pvt) Ltd. dated 26th September 2022. Testiva Gel 50mg / 5g (Testosterone) is presented as a clear colourless to translucent gel packed in an Aluminium base foil sachet.

Decision: **Registration Board decided as under:**

i. Cancelled registration of following product from the name of M/s Searle Pakistan Limited (Formerly OBS Pakistan Private Limited), C-14, Manghopir Road, S.I.T.E, Karachi (DML # 000012).

S. No.	Reg. No.	Product Name & Composition
1.	097085	**Testiva Gel 1% Sachet** **Each 5gm contains: -** **Testosterone…….50mg** **(As per Innovator's Specifications)**

ii. Approved registration of following product in the name of M/s Aspin Pharma (Pvt.) Ltd., Plot No.10 & 25 Sector 20, Korangi Industrial Area Karachi (DML No.000045) by way of contract manufacturing at M/s Searle Pakistan Limited (Formerly OBS Pakistan Private Limited), C-14, Manghopir Road, S.I.T.E, Karachi (DML # 000012).

S. No.	Product Name & Composition
1.	**Testiva Gel 1% Sachet** **Each 5gm contains: -** **Testosterone…….50mg** **(As per Innovator's Specifications)**

a) **Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

b) **Manufacturer will perform process validation of first three batches of both products as per the commitment submitted in the registration application.**

iii. **Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP) without waiting for confirmation of minutes of 324th meeting.**

Case No.03. Request for Change in Registration Status of Tamiso MR 0.4mg Capsules from M/s Sami Pharmaceuticals Pvt Ltd, F-95, off Hub, River Road, S.I.T.E, Karachi (DML #000072) to M/s Sami Pharmaceuticals Pvt Ltd., F -140/A, S.I.T.E, Karachi (DML#000938).

M/s. Sami Pharmaceuticals Pvt Ltd. Karachi has requested to change the manufacturing site for their product Tamiso MR 0.4mg Capsules (Reg. No 081091) from M/s Sami Pharmaceuticals Pvt Ltd, F-95, off Hub, River Road, S.I.T.E, Karachi (DML #000072) to M/s Sami Pharmaceuticals Pvt Ltd., F -140/A, S.I.T.E, Karachi (DML#000938).

The detail of case is as under:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting

i.	Copy of registration letters and last renewal status.
ii.	Copy of DML of M/s Sami Pharmaceuticals Pvt Ltd., F -140/A, S.I.T.E, Karachi (DML#000938) issued on 13-09-2021.
iii.	Copy of approval letter (dated 13-09-2021) for issuance of DML (No.000938; by way of formulation) confirming "Spansules (General)" Section.
iv.	NOC from M/s. M/s Sami Pharmaceuticals Pvt Ltd, F-95, off Hub, River Road, S.I.T.E, Karachi (DML #000072) to the M/s Sami Pharmaceuticals Pvt Ltd., Plot No. F-140/A, S.I.T.E, Karachi (DML#000938) issued on 23-08-2022
v.	Relevant undertakings & commitments.

The cases were referred to Pharmaceutical Evaluation Cell / QMS for evaluation. Detail of submitted documents and remarks of evaluators have been mentioned as under:

Evaluator: Mr. Asadullah (AD-QMS)

	The proposed proprietary name / brand name	Tamiso MR 0.4mg Capsules (Reg. No. 081091)
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Modified released pellets Tamsulosin Hydrochloride equivalent to Tamsulosin Hydrochloride 0.4mg
	Pharmaceutical form of applied drug	Hard Gelatin capsule Size No. 3 Brown Pink Opaque shell with TAMISO MR Printed on Cap and sami logo printed on body 3 time, containing white to off white coloured spherical pellets.
	Pharmacotherapeutic Group of (API)	Alpha adrenoceptor antagonist
	Reference to Finished product specifications	USP Specifications
	Proposed Pack size	10's
	Proposed unit price	Already registered product
	The status in reference regulatory authorities	Flomax 0.4mg Cap, FDA approved NDA 020579
	For generic drugs (me-too status)	Tamsolin 0.4mg Capsules, manufactured by Getz Pharma, Karachi (Reg# 050392)
	Name and address of API manufacturer.	RA Chem Pharma Limited Address: Plot No A-19/C, A-23A & A-23B, Road No, 18, IDA Nacharam, Nacharam village, Telangana, INDIA
	1.5.11-Proposed Label	Same as already registered
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Monograph of Tamsulosin hydrochloride (DS)a and capsule (FPP) is available in USP. Firm has summarized information of Tamsulosin (DS) for its nomenclature, structure, physical properties, solubility, polymorphism facts and other general properties. The DS is tamsulosin pellets was manufactured by RA Chem Phrama is GMP certified and is responsible for all steps of manufacturing, packing and quality testing. Characterization elucidation studies was conducted using IR, NMR mass spectrum, XRD and elemental analysis. Potential impurities related to API was listed with their acceptance criteria. DS manufacturers followed in-house specification and accordingly analytical methods were developed and verified. DS lot procured was analyzed by DP manufacturer. Working standards, container closure and stability studies summaries of 03 batches were provided under Zone IV-b. Similarly, information summaries for drug product related to its description, composition, formulation development, manufacturing process, pharmaceutical equivalence and comparative dissolution profile against Flomax capsules manufactured by Astellas Pharma Europe were provided. Development of manufacturing process and in-process controls, batch formula, DP

<table>
<tr><td></td><td></td><td>specification based on USP specification, analytical procedure and its verification, batch analysis, reference/working standard, container closure system and stability studies has been provided. BMR of three stability batches were also provided.</td></tr>
<tr><td></td><td>Module-III Drug Substance:</td><td>Firm has submitted data for drug substance related to nomenclature, structure, general properties, solubilities, Character elucidation using spectroscopy IR and NMR, physical form, polymorphism (Tamsulosin anhydrous crystalline form is used), structure elucidation using UV, NMR, etc. were provided. DS specifications were based on the inhouse method and accordingly analytical method were developed and its verification studies were performed. DP manufacturer also performed analytical method validation of Tamsulosin pellets. Certificate of analysis of DS lot, batch analysis, reference/working standard and its CoA, container closure system, its specification and test methods for packing materials were provided. stability studies sheets were also provided.</td></tr>
<tr><td></td><td>Stability Studies of Drug Substance (Conditions & duration of Stability studies)</td><td>Firm has submitted stability study data of 3 batches of drug substance accelerated and 3 batches at real time conditions. The accelerated stability data was conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months and the long-term stability data was conducted at 30ºC ± 2ºC / 75% ± 5% RH for 36 months. DS was packed in a double line black coloured polyethylene bags in HDPE container. The DS, remained stable and within specified limits as tested on defined intervals.</td></tr>
<tr><td></td><td>Module-III Drug Product:</td><td>Firm has submitted data of drug product including its qualitative and quantitative composition, formulation development, manufacturing process development and in-process control, manufacturing process validation protocol and report, excipients testing methods based on pharmacopeia references with analysis reports, pharmaceutical equivalence and comparative dissolution profile, specifications and analytical procedures developed on the basis of USP monograph and its verification studies were performed, batch analysis, reference standard, container closure system and stability studies.</td></tr>
<tr><td></td><td>Pharmaceutical Equivalence and Comparative Dissolution Profile</td><td>Pharmaceutical equivalence was performed against Flomax 0.4mg Capsule manufactured by Astellas pharma Europe which shows comparable results within specified limits.
The comparative dissolution profile was performed of the stability batch against the Flomax 0.4mg Capsule (Batch 21C2341). Comparison was performed using 12 samples at pH 1.2, 7.2 and 7.5 for more than 8 hours. Calculation of value is as under:

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	-

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate No. 85956/TS/2022 issued by Drug Control Administration, Government of Telangana issued on 15-07-22 and valid till 13-07-2025
3.	Documents for the procurement of API with approval from DRAP (in case of import).	API was purchased from RA Chem Pharma, India, invoice dated 29-05-2018, cleared on 05-06-2018 from DRAP, Karachi.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail of stability batches.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Decision: **Registration Board decided as under:**

i. Cancelled registration of following product from the name of M/s Sami Pharmaceuticals Pvt Ltd, F-95, off Hub, River Road, S.I.T.E, Karachi (DML #000072).

S. No.	Reg. No.	Product Name & Composition
1.	**081091**	**Tamiso MR 0.4mg Capsules** **Each capsules contains: -** **Modified released pellets Tamsulosin Hydrochloride equivalent to Tamsulosin hydrochloride……0.4mg** **(USP Specification)**

ii. Approved registration of following product in the name of M/s Sami Pharmaceuticals Pvt Ltd., F -140/A, S.I.T.E, Karachi (DML#000938)

S. No.	Product Name & Composition
1.	**Tamiso MR 0.4mg Capsules** **Each capsule contains:** **Modified Released Pellets Tamsulosin Hydrochloride Equivalent to Tamsulosin Hydrochloride……..0.4mg** **(USP Specifications)**

a) Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

b) Manufacturer will perform process validation of first three batches of both products as per the commitment submitted in the registration application.

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP)

Case No.04: Conditions of Registration

Registration Board in its 322nd meeting held on 08th-10th November, 2022 considered an agenda item regarding conditions of registration, however, relevant detail and decision of Registration Board could not be included in minutes of 322nd meeting. Accordingly, the same has been reproduced as under:

Proceedings of 322nd Meeting:

Under Rule 30 of Drugs (Licensing, Registering & Advertising) Rules, 1976, conditions of registration are mentioned on all letters issued for communicating registration of drug products. Previously, Registration Board in its 273rd meeting held on 28th-29th August, 2017 decided as under:

> "Registration Board deliberated that in 251st meeting it was advised to take commitments from applicants for recommended clinical use, route of administration, dosage, shelf life, storage conditions of finished product, composition, Drug Specification Rules, 1978 and labeling & prescribing information. The Board decided that for better regulatory compliance aforementioned particulars shall be part of condition of registration instead of taking commitments."

For better compliance, PE&R Division has incorporated a few changes in registration letters as per following details and are submitted for consideration of Registration Board.

A. Registration letter/ file number has been added as watermark on each page of registration letter to avoid any misuse in cases where registration of a number of products is issued on a single letter.
B. Conditions of registration have been updated (where required).

Decision of 322nd Meeting:

Registration Board endorsed addition of following information/ conditions on the registration letters:

Information to be included:

i. **"Form-6" shall be mentioned on registration letter/certificate under rule 28 of Drugs (L, R & A) Rules, 1976.**
ii. **Registration letter/ certificate shall be issued stating following 'SUBJECT' (mentioned in 'CAPITAL' letters):**

    "REGISTRATION OF DRUGS UNDER SECTION 7 OF THE DRUGS ACT, 1976 AND RULES 27, 28, 29 AND 30 OF THE DRUGS (LICENSING, REGISTERING AND ADVERTISING) RULES, 1976."

iii. **Inclusion of file/ registration letter number in the form of watermark on each page of registration letter.**
iv. **Copies of registration letter shall be distributed as per following detail for information of all concerned:**

1. **Provincial Health Secretaries of Khyber Pakhtunkhwa, Punjab, Sindh, Balochistan, Gilgit Baltistan, Azad Jammu Kashmir & Senior Drug Inspector, Islamabad.**
2. **Master file.**
3. **Reference letter No…… Islamabad, the…Name of Month, Year.**

Through E-Office

1. **The Additional Director, DRAP, Field Office (with the request to provide copy of this letter to area FID.)**
2. **The Deputy Director (Costing & Pricing), DRAP, Islamabad.**
3. **The Deputy Director (RRR), DRAP, Islamabad.**
4. **The Additional Director (Controlled Drugs), DRP, Islamabad** (where applicable)
5. **In-charge (DMC), DRAP, Islamabad.**

Conditions:

In addition to existing conditions of registration, Registration Board also endorsed to include/ update the conditions of registration as under:

i. **One copy of the complete method of testing of the finished drug(s) (containing full details of all minor and major steps and protocols along with specifications, (lower and upper limits) shall be submitted to the following institutions within a period of one month: -**

- **Chief, Drugs Control & Research Division, National Institute of Health, Islamabad.**
- **Director, Central Drug Laboratory, Building NO.4 (WFP), SMCHS, Block –B, Karachi – 74400.**

- ➢ **Director, Drugs Testing Laboratory, Lahore, Faisalabad, Bahawalpur, Multan & Rawalpindi.**
- ➢ **Director, Drugs Testing Laboratory, Mirpur Azad Jammu Kashmir.**
- ➢ **Director, Drugs Testing Laboratory, Gilgit Baltistan.**
- ➢ **Director, Drugs Testing Laboratory, Sindh, Karachi.**
- ➢ **Director, Drugs Testing Laboratory, Khyber Pakhtunkhwa, Peshawar.**
- ➢ **Director, Drugs Testing Laboratory, Balochistan, Brewery Road, Quetta.**

ii. **One copy of the master formula (of all registered drugs) containing the names of active materials (s) and inactive material(s)/ excipient(s) along with the quantities shall be furnished to the Assistant Director (I&E) concerned within a period of one month for which a receipt shall also be obtained.**

iii. **WHO Specifications shall be followed for the drug products, where such products are not included in the official pharmacopoeia of reference countries as specified by the Registration Board.**

iv. **For products registered on contract manufacturing basis (contract manufacturer and contract giver) shall follow Rule 20-A and Schedule H of the Drugs (Licensing, Registering & Advertising) Rules, 1976 under the Drugs Act, 1976.**

v. **Since, submission of stability data is a pre-requisite of all applications submitted for registration of drug products intended to be imported in finished form, therefore, following condition will be omitted from registration letter of drug products imported in finished form:**

"Other conditions as contained under the Drugs Act 1976 and rules framed thereunder including stability studies shall be strictly adhered to."

vi. **Every drug shall be manufactured/ imported** (mention whichever is applicable) **in sufficient quantity so as to ensure its regular and adequate supply in the market**

Registration Board advised to implement above instructions without waiting for approval of minutes.

Registration-II Section

Case No.01: Transfer of Registration from M/s. Wnsfield, Hattar to M/s. Horizon Pharma Lahore.

Registration Board in its 287th meeting cancelled the registration of following 16 products from the name of M/s. WnsField Pharmaceuticals, Hattar and registered in the name of M/s. Horizon Healthcare (Pvt.) Ltd; Plot No. 33, Sundar Indusrial Estate, Lahore on contract manufacturing by M/s. WnsField Pharmaceuticals, Hattar.

S.#	Reg. No.	Brand Name with Generic
1.	083140	Ridomide 50mg Tablet Each film coated tablet contains:- Lacosamide 50mg
2.	083142	Ridomide DS 100mg Tablet Each film coated tablet contains:- Lacosamide 100mg
3.	084220	Profitam 250mg Tablet Each film coated tablet contains:- Levetiracetam ..... 250mg (USP Specification)
4.	084221	Profitam 500mg Tablet Each film coated tablet contains:- Levetiracetam ..... 500mg (USP Specification)

5.	084227	Delpoflex 4mg tablet Each tablet contains:- Tizanidine as HCl ..... 4mg (USP Specification)
6.	064337	Endtron Injection Each 4ml contains:- Ondansetron (as HCl) ..... 8mg (USP Specification)
7.	064338	Respivant 1mg Tablet Each tablet contains:- Risperidone ..... 1mg (USP Specification)
8.	064339	Respivant 2mg Tablet Each tablet contains:- Risperidone ..... 2mg (USP Specification)
9.	064340	Moxofin 400mg Tablet Each tablet contains:- Moxifloxacin (as HCL)..... 50mg
10.	080877	Moxofin 400mg Infusion Each 250ml vial contains:- MoxifloxacinHCleq to:- Moxifloxacin 400mg
11.	087031	Mytodone 4mg Tablet Each film coated tablet contains:- Risperidone ..... 4mg (USP Specification)
12.	046813	Delpoflex Tablet Each tablet contains:- Tizanidine as HCl 2mg
13.	060052	Lewdes 5mg tablet Each tablet contains:- Desloratadine 5mg
14.	075596	Endtron 8mg tablet Each tablet contains:- Ondansetron (as HCldihydrate) ..... 8mg (USP Specification)
15.	075577	Zolfenac 50mg tablet Each coated tablet contains:- Diclofenac Sodium ..... 50mg Misoprostol ..... 200µg (USP specification)
16.	080244	Olaway tablet 8mg Each film coated tablet contains:- Lornoxicam 8mg

It was observed that M/s. Horizon Healthcare (Pvt.) Ltd; Plot No. 33, Sundar Indusrial Estate, Lahore has 03 approved section and they can avail registration of 15 products as per Rule 20(a) of Drugs (Licesing, Registering & Advertising) Rules, 1976. M/s. Horizon healthcare (Pvt.) Ltd; Lahore intended to withdraw following 04 products for which registration has already been cacncelled from the name of M/s. Wnsfield, Hattar.

Sr. No.	Reg. No.	Brand Name with Generic
1.	064338	Respivant 1mg Tablet Each tablet contains:- Risperidone ..... 1mg (USP Specification)
2.	064339	Respivant 2mg Tablet Each tablet contains:- Risperidone ..... 2mg (USP Specification)

3.	080877	Moxofin 400mg Infusion Each 250ml vial contains:- MoxifloxacinHCleq to:- Moxifloxacin 400mg
4.	087031	Mytodone 4mg Tablet Each film coated tablet contains:- Risperidone ..... 4mg (USP Specification)

Furthermore, M/s. Wnsfield, Hattar has submitted a letter stating that;

"We have withdrawn 04 products (mentioned above) from transferring to Horizon Pharma. So, it is requested to your good self to please cancel the transfer of registartion of these 04 products."

Decision of 295th meeting of Registration Board

Registration Board deferred the case and decided to discuss case in the presence of Representative of Ministry of Law & Justice.

Now firm has submitted that as per SRO 1347(I)/2017 dated 15-10-2021 the policy of 5 toll products per section has been changed. So, they would like to request to please don't consider their withdrawal request and issue them the transfer of registration letter.

Decision of 316th Meeting of RB.

Registration Board deferred the case for opinion of Legal Affair's Division.

As per above decision of The Board following was referred to Legal Affair's Division for their opinion:

a. Application submitted by M/s. Winsfield Pharmaceuticals, Hattar for withdrawal of application for registration in the name of M/s Horizon Healthcare (Pvt) limited, Lahore can be withdrawn by the M/s Winsfield Pharmaceuticals, Hattar, as already considered by Registration Board.

b. If it can be considered, then whether NOC from M/s Winsfield is required or otherwise.

c. Applicability of fee in case of re-consideration by Registration Board.

Accordingly, opinion of the Legal Affair's Division is as under:

Foregoing in view, reply to first query is given in detail at para 3 of this opinion, as the Registration Board in its 287th meeting has already approved cancellation of registration of 16 products from M/s WnsField Pharmaceuticals, Hattar and granted registration of the same in favaour of M/s Horizon healthcare (pvt) Limited, Lahore. Therefore, the second query above at para (b) referred by the Registration Board became irrelevant. Moreover, as for as applicability of fee for Contract manufacturing, the scheme of law regarding contract manufacturing has been changed vide SRO 1347 (I)/2021 dated 15.10.2021. The updated provision is given here for ready reference:

5. Miscellaneous.-

5.1 Fee for grant, renewal/extension and pre and post registration variation in contract manufactured products shall be applicable as determined by Authority with the approval of Policy Board.

As discussed in the previous paras, the scheme of law has been changed, wherein the limitation on contract manufacturing i.e 5 product per section has been removed, therefore, contract manufacturing by M/s Horizon healthcare (pvt) Limited, Lahore may also be allowed under new scheme of law and the new fee is applicable for contract manufacturing which is 75000 rupees per product. It should be done after transfer of the registration of products from M/s WinsField Pharmaceuticals, Hattar and granted registration of the same in favor of M/s Horizon healthcare (pvt) Limited, Lahore. After this the request of M/s Horizon healthcare (pvt) Limited, Lahore for contract manufacturing shall become valid, and the Registration Board may process it in accordance with law.

Decision: **Registration Board after through deliberation decided to process the case as per decision of 287th meeting. Registration letter shall be issued after submission of fee as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021. The Board further decided to seek opinion from legal Affair's Division regarding fee requirement for cases in which applications have been submitted before said notification while applications are under process of evaluation.**

Case No.02: Correction in Minutes of Registration Board Meetings.

i. M/s Horizon Healthcare (Pvt) Ltd. Plot No. 33, Sundar Industrial Estate, Lahore

Registration Board in its 320th meeting approved following product of M/s Horizon Healthcare (Pvt) Ltd. Plot No. 33, Sundar Industrial Estate, Lahore. There is some typo error in strength of formulation as well as in decision of said meeting. Detail is as under;

Sr. No.	Name of Approved Drug(s) & Composition	Name of Drug(s) & Corrected Composition	Decision of 320th Meeting
1.	Elmet XR 25/25/1000mg Tablet Each film-coated extended-release tablet contains: Empagliflozin …… 25mg **Linagliptin …….. 25mg** (as immediate release coating) Metformin HCl…… 1000mg	Elmet XR 25/5/1000mg Tablet Each film-coated extended-release tablet contains: Empagliflozin …… 25mg **Linagliptin …….. 5mg** (as immediate release coating) Metformin HCl…… 1000mg	**Registration Board approved Elmet XR 25/25/1000 mg Tablet, Elmet XR 10/5/1000 mg Tablet & Elmet XR 12.5/2.5/1000 mg Tablet with Innovator's specifications.**

It is confirmed from initial registration application that applied strength of Linagliptin is 5mg instead of 25mg. Furthermore, innovator product Trijardy XR is also od 25/5/1000.

Decision: **Registration Board decided to approve the correction in composition of above product as per following details.**

"Elmet XR 25/5/1000mg Tablet
Each film-coated extended-release tablet contains:
Empagliflozin …… 25mg
Linagliptin ……. 5mg
(as immediate release coating)
Metformin HCl…… 1000mg"

Case No.03: **Transfer of Registration from M/s. Pacific Pharma 30-Km Multan Road Lahore to M/s Pacific Pharmaceuticals Ltd Ravi Lane, Plot No. 384, Sundar Industrial Estate, raiwind Lahore by way of contract manufacturing from M/s. Pacific Pharma 30-Km Multan Road Lahore.**

China" has been issued with certificate no SC20190121 by China Food and Drug Administration issued date 10/12/2024. GMP certificate of API Simethicone manufacturer " Basildon Chemical Co. Ltd., Kimber Road, Abingdon, Oxfordshire, United Kingdom bearing certificate number 10336 Insp GMP/GDP 10336/1297-0011 issued by MHRA, UK on basis of inspection conducted on 18/02/2019. GMP certificate of API Sodium dehydrocholate manufacturer " ICE- Industria Chimica Emiliana S.p.A, Italy" bearing certificate number IT-API/184/H/2018 issued by Agenzia Italiana Del Farmaco, Italy based on inspection conducted on 15/06/2018. GMP certificate of claimed manufacturer of API Bromelain is not attached. The claimed manufacturer in the Substance part is 'Great Food (Bio Chem) Co. Ltd, 1168/64 Lumpini Tower Bldg Khwang Thung Maha Maek Khet Sathon Bangkok. GMP certificate of API metoclopramide Hcl manufacturer is not attached
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Material for Testosterone Gel is formulated at the manufacturing site of M/s Ipca Laboratories, India & summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of the manufacturing process, and controls, impurities, specifications, analytical procedures, and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module-III Drug Substance:	The firm has submitted data for drug substance related to nomenclature, structure, general properties, solubility, physical form, DS and raw material specifications, manufacturers, the quantitative composition of Testosterone Gel manufacturing process & tests for impurities & residual solvents, Analytical procedures, CoAs, specifications, Standard testing procedures. Reference standard or materials & container closure system.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months For APIs.
	Module-III Drug Product:	The firm has submitted detail of manufacturers, a description of the manufacturing process and controls, impurities, specifications, analytical procedure, and its validation studies, batch analysis and justification of specification, reference standard, container closure system, and stability studies of the drug product.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence has been established against their own product.
	Analytical method validation/verification of product	Method validation studies have been submitted including linearity, range, accuracy, precision, specificity & robustness

STABILITY STUDY DATA

Manufacturer of API	GMP certificate of API metoclopramide Hcl manufacturer is not attached. GMP certificate of API Pancreatin manufacturer "Sichuan Biosyn Pharmaceuticals Co., Ltd. Duanjiaba, Deyang City, Sichuan Province P.R. China" has been issued with certificate no SC20190121 by China Food and Drug Administration issued date 10/12/2024. GMP certificate of API Simethicone manufacturer " Basildon Chemical Co. Ltd., Kimber Road, Abingdon, Oxfordshire, United Kingdom bearing certificate number 10336 Insp GMP/GDP 10336/1297-0011 issued by MHRA, UK on basis of inspection conducted on 18/02/2019. GMP certificate of API Sodium dehydrocholate manufacturer " ICE-Industria Chimica Emiliana S.p.A, Italy" bearing certificate number IT-API/184/H/2018 issued by Agenzia Italiana Del Farmaco, Italy based on inspection conducted on 15/06/2018. GMP certificate of claimed manufacturer of API Bromelain is not attached. The claimed manufacturer in the Substance part is 'Great Food (Bio Chem) Co. Ltd, 1168/64 Lumpini Tower Bldg Khwang Thung Maha Maek Khet Sathon Bangkok.
API Lot No.	----
Description of Pack Container closure system)	Shiny, dark brown round biconvex sugar coated tablets

Date of Initiation	21-02-2020	21-02-2020	21-02-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	GMP certificate of API metoclopramide Hcl manufacturer is not attached. GMP certificate of API Pancreatin manufacturer "Sichuan Biosyn Pharmaceuticals Co., Ltd. Duanjiaba, Deyang City, Sichuan Province P.R. China" has been issued with certificate no SC20190121 by China Food and Drug Administration issued date 10/12/2024. GMP certificate of API Simethicone manufacturer " Basildon Chemical Co. Ltd., Kimber Road, Abingdon, Oxfordshire, United Kingdom bearing certificate number 10336 Insp GMP/GDP 10336/1297-0011 issued by MHRA, UK on basis of inspection conducted on 18/02/2019. GMP certificate of API Sodium dehydrocholate manufacturer " ICE-Industria Chimica Emiliana S.p.A, Italy" bearing certificate number IT-API/184/H/2018 issued by Agenzia Italiana Del Farmaco, Italy based on inspection conducted on 15/06/2018. GMP certificate of claimed manufacturer of API Bromelain is not attached. The claimed manufacturer in the Substance part is 'Great Food (Bio Chem) Co. Ltd, 1168/64 Lumpini Tower Bldg Khwang Thung Maha Maek Khet Sathon Bangkok.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted a copy of the commercial invoices.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted the data of stability batches supported by respective documents like chromatograms, Raw data sheets, COA, summary data sheets, etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted the Compliance Record of HPLC software 21CFR & audit trail reports on product testing
6	Record of Digital data logger for temperature and humidity monitoring of stability chamber (Real time & Accelerated)	The firm has submitted a Record of the Digital data logger for temperature and humidity monitoring of the stability chamber (Real-time & Accelerated)
Remarks	The firm has submitted a fee of 30,000/- only. COA of metoclopramide by the FPP manufacturer mentions "Deafarma Italy" as supplier where as in QOS they have claimed the manufacturer of DS metoclopramide HCl to be "Vaikunth Chemicals (Pvt.) Ltd. 408/4 &, GIDC, Nr. Fire Station Panoli-394116, Ta Ankleshwar, Dist. Bharuch." They have not mentioned the name of the country but the address indicates that it is located in Gujrat, India.

1.	056361	Panagestic Tablets Each tablet contains: Paracetamol……..650mg Orphenadrine Citrate……..50mg (USP Specification)	Paramed Forte tablet	26.03.2009 14.03.2019	Fee Deposited Rs.30000/- Dated 08.11.2022 Dy.No.32229 dated 08.11.2022 **Justification:** As per local market demand.
Decision of PRVC 94		*The Chairman Registration Board on the recommendation of the Committee referred the case to Registration Board as the said formulation is not registered in RRAs.*			
Decision: Registration Board deferred the case for evidence of availability of formulation in Reference Regulatory Authorities.					

	The firm has provided name of manufacturer for "Bromelain Enzyme" as Great Food (Bio Chem) Co., Ltd., 1168/64 Lumpini Tower Bldg Khwang Thung Maha Maek Khet Sathon Bangkok 10120 where as GMP Certificate has been provided of "PT Bromelain enzyme, JL Raya Terbanggi Besar KM 77 Lampung Tengah". Pharmaceutical Equivalence has been established against their own product, Plasil with Enzyme Tablets batch BK2009R with expiry of Aug, 2024.

Decision: Registration Board deferred the case for following:

i. **Submission of COA of metoclopramide and Bromelain drug substance from the sources mentioned in QOS.**
ii. **Submission of Pharmaceutical equivalence study with innovator drug product.**
iii. **Submission of differential fee of Rs.45000/- as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Post Registration-I Section

Case No. 01: Change of Brand Name

Case No.02: Resemblance of brand names.

i.		M/s. Webros Pharmaceuticals Plot No.1 Street No.10 National Industrial Zone Rawat, Islamabad.		
S. No	**Reg.No.**	**Name of product of** M/s. Webros Pharmaceuticals	**Name of drug(s) having similarity**	**Name of firm having similar brand name**
1.	056852	Krestor 5 mg tablets	Kestore 5mg tablet, (Reg No.066798) Kestore 10mg tablet (Reg. No.066798) & Kestore 20mg tablets (Reg.No.066799)	**M/s. Scilife Pharma (Pvt) Ltd. Plot No.FD-57/58-A2 Korangi Creek Industrial Park (KCIP) Karachi**
2.	056853	Krestor 10 mg tablets		
3.	056854	Krestor 20 mg tablets		

Remarks: Accordingly, Letter No.1288/2022-PR-I(PE&R) dated 26.10.2022 was issued to M/s. Scilife Pharma (Pvt) Ltd. Plot No.FD-57/58-A2 Korangi Creek Industrial Park (KCIP) Karachi to change the brand name.

Reply of the firm is as under:

"We have checked the similarity factor and identify that both the brand didn't have similarity in terms of factors like first three letter nor phonetic. It may also be noted that there will be no safety and efficacy concern lies at end of patient and end user since both the brands have the same active Pharmaceutical ingredients that is Rosuvastatin.

For your information and record we are marketing this brand Kestore since more than 10 Years in below mentioned strength

Please also note that the brand name Kestore was initially registered in the name of Opal Laboratories, Karachi whose marketing rights were held by Scilife Pharma Pvt Ltd,.

Later, Upon commissioning of its own state of the art manufacturing facility Scilife Pharma Purchased and get the said brands transferred on its own facility as mentioned in DRAP letter No. F-3-9/2017 Reg-II (M-272) Dated 12-02-2018

The said products has been continuously manufactured and marketing by Scilife Pharma, with it being prescribed by thousands of Physicians throughout Pakistan in both government and private hospital and at present there are millions of patients who takes Kestore as their medicine every day with confidence and trust.

It is therefore submitted that any change in the brand name of the products would cause confusion at physicians level, as well as it may cause distress to innumerable patients who are users of the brand.

Furthermore, it would be appropriate to mentioned that the brand Kestore is Protected by the Intellectual property Organization (IPO) Trade Mark Registry and carries valid Trademark Certificate.

Referring to the above point and interest of the prescribed and patients who are associated with Kestore considering a brand of Scilife with promise to provided quality medicines at affordable price, you are requested to kindly accept our response and close the case positively.

Decision of 94th PRVC:

"The Chairman Registration Board on the recommendation of the Committee referred the case to Registration Board for consideration."

Decision: Registration Board advised M/s Scilife Pharma Pvt. Ltd., Karachi to propose brand names of their products Kestore 5mg tablet, (Reg No.066798), Kestore 10mg tablet (Reg. No.066798) & Kestore 20mg tablets (Reg.No.066799) for consideration of PRVC.

Case No. 03: Change in specifications.

Decision of 94th PRVC		*The Chairman Registration Board on the recommendation of the Committee decided as follows:* • *Referred the product to Registration Board as the said formulation is not registered in RRAs.*			
Decision: Registration Board deferred the case for evidence of availability of formulation in Reference Regulatory Authorities.					

Case No. 04: Change in Specifications of products applied by M/s Sanofi Aventis Pakistan Limited, Karachi.

i. Products available in RRAs but not in Pharmacopoeia:

M/s Sanofi Aventis Pakistan Limited, Karachi applied for Innovator/ Sanofi Specifications for their following product which is not available in any pharmacopoeia:

Haemaccel Infusion (Reg No. 003382)

TEST	SPECIFICATIONS	REMARKS
Appearance	Clear, yellowish solution.	Haemaccel Infusion is available in UK. It was acquired by Piramal from Hoechst (so basically both of these are same products with same Trademark)
Identification		
a) Test 1	A distinct Violet coloration will appear	
b) Test 2	A Yellowish precipitate should produce.	
pH	7.00 – 7.60	
Viscosity (relative)	1.70 – 1.80	
Sodium Ion	139 – 152 m. mol /L	
Potassium Ion	4.6 – 5.6 m. mol /L	
Calcium Ion	5.5 – 7.0 m. mol /L.	
Chloride	130 – 160 m. mol / L.	
Free Amino Group	0.50-0.65ml 1 N NaOH / 40 ml of Haemaccel.	
Heavy Metals	≤ 1µg/ml.	
Total Nitrogen	6.0-6.6 mg Nitrogen /ml.	
Residual solvent	Not more than 20 ppm.	
Bacterial Endotoxins	< 0.5 EU/ml	
Sterility	Must be Sterile	

Decision: Registration Board approved the Innovator's/ Sanofi Aventis Specifications for above product.

ii. Products neither available in RRAs nor in Pharmacopoeia:

M/s Sanofi Aventis Pakistan Limited, Karachi applied for Innovator/ Sanofi Specifications for their following product which are not available in any pharmacopoeia:

i. Avil 25 Tablet (Reg. No 000224)

TEST	INNOVATOR SPECIFICATIONS	REMARKS
Appearance	Flat bisected round white to off white tablets, one side coded with 11AV & other side with a break-line.	Product not available in any official pharmacopeia.
Disintegration time	NMT 15 minutes	
Identification of Pheniramine Maleate	BY HPLC: Retention time of Pheniramine Maleate peak in sample solution should corresponds to the standard solution Pheniramine Maleate peak.	
Assay content of Pheniramine Maleate	21.30– 23.80 mg/tablet (93.83 – 104.85 % of stated)	
Related Substances		
Impurity A	NMT 1.0%	
Impurity B	NMT 1.0%	
Uniformity of Content	NMT 15	
Microbiological testing		
Total aerobic microbial count	NMT 2000 CFU/G	
Total yeast & mould count	NMT 200 CFU/G	
E. Coli	Must be absent	

ii. Avil Syrup (Reg No. 005323)

TEST	SPECIFICATIONS	REMARKS
Appearance	A clear colorless to pale yellow syrup.	Withdrawn from Australia due to commercial reason (Notification issued by TGA and declaration from Sanofi Australia submitted)
Odour	Of Pharma Aroma	
pH	4.00 – 5.50 at 20ºC.	
Identification by HPLC Pheniramine Maleate Methyl 4- hydroxy benzoate Propyl 4- hydroxy benzoate	Retention time in sample preparation of assay test corresponds to the retention time in standard preparation.	
Assay of Pheniramine Maleate	13.50 – 16.50 mg/5ml 90.00 - 110.00 % of stated	

Microbial limit test		
Total Aerobic Microbial count	Less than 200 CFU/ ml	
Total Yeast & Mould Count	Less than 20 CFU/ ml	
E. Coli	Absent / ml	

iii. Avil Injection (Reg No. 000226)

TEST	SPECIFICATIONS	REMARKS
Appearance	Clear colorless solution	Product not available in any official pharmacopeia.
pH	4.50 – 5.50	
Identification of Pheniramine Maleate	The absorbance maximum at about 265nm±2nm obtained in the assay is used as a mean of identification in 0.1M HCl.	
Assay of Pheniramine Maleate	21.60 – 23.90 mg/ml 95.15 - 105.28 %	
Bacterial Endotoxins	NMT 1.57 USP EU / mg	
Sterility test	Complies test	
Liquid Particulate Matter	NMT 6000 Particles/container of 10µ or above NMT 600 Particles/container of 25µ or above	

iv. Secnidal Forte Tablets (Reg No. 016061)

TEST	SPECIFICATIONS	REMARKS
Appearance	Greenish yellow capsule shaped film coated tablet, 126AV on one side & break line on the other side. No irregularities on surfaces, no capping or lamination, not unduly colored or chipped.	This strength is not available in any official pharmacopeia.
Uniformity of dosage units - Weight Variation	NMT 15.0	
Disintegration test	NMT 30 Minutes	
Identification of Secnidazole	The retention time of the major peak in the chromatogram of the Assay preparation corresponds to that in the chromatogram of the Standard preparation, as obtained in the assay	
Assay content of Secnidazole	950.00 – 1050.00 mg/tablet (95.00 – 105.00 %)	
Microbiological Testing		
Total Aerobic Microbial Count	NMT 2000 CFU/g	
Total Yeast & Mould Count	NMT 200 CFU/g	
E. Coli	Absent/g	

v. Amaryl M SR 1mg Tablet (Reg No. 050372)

TEST	SPECIFICATIONS	REMARKS
Appearance	Oval shaped uncoated biconvex bilayer tablet, plain on both sides, one thick layer is white & other thin layer is pink in color.	Product not available in any official pharmacopeia.
Uniformity of Dosage Form – Weight Variation of Metformin	NMT 15.0	
Identification		
a) Glimepiride	Retention time of the major peak in chromatogram of the assay preparation corresponds to that in the chromatogram of the standard preparation as obtained in assay of Glimepiride.	
b) Metformin HCl	Retention time of the major peak in chromatogram of the assay preparation corresponds to that in	

	the chromatogram of the standard preparation as obtained in assay of Metformin HCl.	
Assay		
a) Glimepiride (LC) (Label Claim: 1mg/tablet)	0.95 – 1.05 mg/tablet (95.00 – 105.00 %)	
b) Metformin HCL (LC) (Label Claim: 500mg/tablet)	475.0 – 525.00 mg/tablet (95.00 – 105.00 %)	
Uniformity of content Glimepiride (LC)	NMT 15.0	
Related substances		
a) Glimepiride (LC) Glimepiride sulfonamide (Impurity B)	NMT 2.5%	
Individual unknown impurity	NMT 0.5%	
Total unknown impurities (Including Impurity B)	NMT 3.5%	
b) Metformin HCl (LC)		
Individual unknown impurity	NMT 0.1%	
Dissolution		
Glimepiride (LC)	NLT 75%	
Metformin HCl (UV)		
After 01 hour	22 – 42%	
After 04 hours	54 – 74%	
After 08 hours	75 – 95%	
After 12 hours	NLT 80%	
Microbial Limit Test		
Total Aerobic Microbial Count	NMT 2000CFU/g	
Total Yeast & Mould Count	NMT 200CFU/g	
E. Coli	Must be absent	

vi. Amaryl M SR 2mg Tablet (Reg No. 050373)

TEST	SPECIFICATIONS	REMARKS
Appearance	Oval shaped uncoated biconvex bilayer tablet, plain on both sides, one thick layer is white & other thin layer is green in color.	Product not available in any official pharmacopeia.
Uniformity of Dosage Form – Weight Variation of Metformin	NMT 15.0	
Identification		
a) Glimepiride	Retention time of the major peak in chromatogram of the assay preparation corresponds to that in the chromatogram of the standard preparation as obtained in assay of Glimepiride.	
b) Metformin HCl	Retention time of the major peak in chromatogram of the assay preparation corresponds to that in the chromatogram of the standard preparation as obtained in assay of Metformin HCl.	
Assay		
a) Glimepiride (LC) *(Label Claim: 2mg/tablet)*	1.90 – 2.10 mg/tablet (95.0 – 105.0 %)	
b) Metformin HCl (LC) *(Label Claim: 500mg/tablet)*	475.00 – 525.00 mg/tablet (95.0 – 105.0 %)	
Uniformity of content Glimepiride (LC)	NMT 15.0	
Related substances		
a) Glimepiride (LC) Glimepiride sulfonamide (Impurity B)	NMT 2.5%	

Individual unknown impurity	NMT 0.5%	
Total unknown impurities (Including Impurity B)	NMT 3.5%	
b) Metformin HCl (LC)		
Individual unknown impurity	NMT 0.1%	
Dissolution		
Glimepiride (LC)	NLT 75%	
Metformin HCl (UV)		
After 01 hour	22 – 42%	
After 04 hours	54 – 74%	
After 08 hours	75 – 95%	
After 12 hours	NLT 80%	
Microbial Limit Test		
Total Aerobic Microbial Count	NMT 2000CFU/g	
Total Yeast & Mould Count	NMT 200CFU/g	
E. Coli	Must be absent	

vii. Tixylix Cough Linctus (Reg No. 001238)

TEST	**SPECIFICATIONS**	**REMARKS**
1. Appearance	A brown colored syrup.	Withdrawn from Australia due to commercial reason (Notification issued by TGA and declaration from Sanofi Australia submitted)
2. Odor	Blackcurrant	
3. pH at 20^0C	4.25 – 4.75	
4. Weight per ml at 20^0C	1.100 – 1.140	
5. Identification of Promethazine HCl and Pholcodine	The Retention times for Promethazine HCl and Pholcodine in the sample chromatogram & in the test for Assay must have similar values within ± 3% as in standard chromatogram.	
6. Assay content of Promethazine HCl	1.35 – 1.65 mg/5ml 90.0 – 110.0 %	
7. Assay content of Pholcodine	1.35 – 1.65 mg/5ml 90.0 – 110.0 %	
8. Related substances		
Promethazine sulphoxide	NMT 0.5% with reference to the nominal Promethazine HCl content (Equivalent to 0.025mg/5ml of Promethazine HCl)	
Other Impurities	No impurities present at a level greater than 0.5% expressed as a % of Promethazine HCl.	
9. Microbial limit test		
Total Aerobic Microbial count	Less than 200 CFU/ ml	
Total Yeast & Mould Count	Less than 20 CFU/ ml	
E. Coli	Absent / ml	

Decision: Registration Board deferred the case for submission of evidence of availability of product in Reference Regulatory Authorities.

Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
1.	Ginkolitz Capsule Each capsule contains: Ginkobiloba.....120mg Ginseng.....120mg	Purchase order from Cambodia	Dy. No. 8699 (29.12.2022) Rs.75,000/- (28.09.2022)

Decision:

Registration Board referred the case to H&OTC Division.

Deferred case 94th PRVC

Case No.01: Registration of Drug (s) of M/s Getz Pharma (Pvt.) Ltd, Plot No. 29-30, Sector 27 Korangi Industrial Area Karachi, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5; (Pages. 974-1008/C)
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided (Page-136/C). Approval of relevant section verified from letter No. F 2-5/86 dated 30-10-2019 (Page 137/C).

GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from GMP certificate based / on inspection dated 13-01-2022 (Page 138-/C).
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided (Pages. 1001/C)

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
1.	Vilflumec 25mcg+100mcg+62.5mcg DPI Capsule Each capsule contains: Vilanterol Trifenatate equivalent to Vilanterol.....25mcg Fluticasone furoate.....100mg Umeclidinium bromide equivalent to Umeclidinium.....62.5mcg	Trelegy Ellipta, USFDA	Dy. No. 8767/22 (06.01.2023) Rs.75,000/- (22.11.2022)

Remarks:

USFDA approved product is in two separate blisters. One contains fluticasone furoate while the other blister contains blend of micronized umeclidinium bromide and micronized vilanterol trifenatate. But in product at sr. no. 1, the firm has encapsulated all the three components in single hard gelatin capsule. The firm has submitted the following:

"Nonetheless, data from stability studies have shown that all the quality indicating chemical and physical parameters including appearance, assay, disposition of emitted dose and uniformity of delivered dose are in compliance with specifications and no degradation have been reported which further proves that all the three API's (Vilanterol + Fluticasone Furoate + Umeclidinium) are compatible with each other and no physical interaction takes place."

Decision of 94th PRVC:

The Chairman Registration Board on the recommendation of the Committee considered the case and referred the case at sr. no. 1 to Registration Board for deliberation.

Decision:

Registration Board deferred the case for submission of evidence of availability of formulation in RRAs.

Export Registrations of Tramadol Containing Formulations

DRAP Authority in its 115th meeting while considering the matter of issuance of NOC to Tramadol containing formulations decided as follows:

"Authority advised to assure that following additional prerequisites are also verified before issuance of NOC for export of Tramadol containing products:

i. Registration of Tramadol containing products of exporter in importing country.
ii. Legal status of Tramadol in importing country whether controlled under INCB or otherwise.
iii. *In case of any already exported consignment, clearance documents of customs and regulatory authority of country of origin."*

Export Facilitation desk has received following applications for export registration of Tramadol containing formulations which are not registered in any RRAs:

Deferred case 94th PRVC

ii. M/s. AGP Limited, B-23 S.I.T.E, Karachi submit **termination letter** from M/s Besins Healthcare Benelux 287, Avenue Louise 1050 Bruxelles (Belgium) Dated 25th May 2021.
iii. M/s. AGP Limited, B-23 S.I.T.E, Karachi submitted **authorization letter** from M/s Besins Healthcare Benelux 287, Avenue Louise 1050 Bruxelles (Belgium) for above mentioned product.

2. Suit No. 2707 of 2021

M/s AGP Limited & Others Versus M/s Galaxy Pharma (Private) Limited & Others
In view of above facts and circumstances, allow the application under consideration as under:

I) That the defendant No.1, its officers, employees, agents and every person working through or under it, or on his behalf from representing or claiming themselves as partners, distributors, affiliates or representatives of plaintiff No.2 and is restrained from claiming any rights in the products, i.e.,

a) Utrogestan 100 mg soft capsule
(Micronized Progesterone 100mg)
(For Oral or Vaginal use)
b) Utrogestan 200 mg soft capsule
(Micronized Progesterone 200mg)
(For Oral or Vaginal use)
c) Oestrogel Gel (in Tube)
(Estradiol 0.6 mg/g)

d) Oestrodose Gel
(in Canister with metering pump)
(Estradiol 0.6 mg/g)

or utilizing the registration certificate of these products in any manner whatsoever.

II) As far as the importing of subject goods are concerned since it is an independent issue not arising out of the arguments, as raised, if otherwise prohibited, I am not inclined to pass any such order in this regard unless argued independently.

III) That the Drug Regulatory Authority within 15 days from the date of this order shall decide about the fate of registration of the above drugs in favour of defendant No.1 under the above facts and circumstances without asking for any NOC from defendant No.1 and submit report in this regard before this Court.

IV) In case they (Drugs Regulatory Authority) reaches to a conclusion that on account of severance of the contract, defendant No.1 is no more entitled to retain the registration of the aforesaid drugs and consequently cancel all such registrations, the application of the Besins Healthcare Distribution FZ-LLC and that of its principal be taken into consideration with immediate effect and an order be passed in this regard at the earliest with report to this Court.

Remarks:
The initial registration letter does not shows about the usage form of capsule but M/a AGP submit CoPP for both Oral and Vagianl Capsule for the product Utrogestan 100mg and 200mg Capsules.

Proceedings: -

Mr. Saif-ur-Rehman Director Marketing Business Development of M/s. Galaxy Pharma Karachi appeared before the Board and submitted interim order of Honourable High Court of Sindh at Karachi in HCA No.313 of 2022 dated 21.09.2022. He also provided a copy of termination of agreement issued by M/s. BESINS Health Care Benelux, Belgium wherein M/s. BESINS Health Care, Belgium has informed that M/s Besins Healthcare (Hong Kong) Ltd has terminated the distribution agreement with M/s Galaxy Pharma (Pvt Ltd) Karachi. M/s. BESINS Health Care Benelux, Belgium further added that they have a new distribution agreement with M/s. AGP limited B-23-C SITE, Karachi.
Registration Board raised query regarding product license holder of the products in question. Mr. Saif responded that Product License Holder of said product is M/s. BESINS Health Care Belgium. However, they made a contract with M/s Besins Healthcare (Hong Kong) Ltd. So, M/s Basin Healthcare Belgium has no right to cancel the distribution agreement made between M/s Galaxy Pharma Karachi and M/s Besins Healthcare (Hong Kong). The Board further inquired about the current status of agreement between Basin Healthcare Belgium and Besins Healthcare (Hong Kong) to which Mr Saif could not responded.

Registration Board after deliberation and keeping in view the above discussion decided to send an email to M/s Basin Healthcare Belgium, Product License Holder (as per CoPP) of the below mentioned products for following clarifications:

a) Updated status of agreement between M/s Basin Healthcare, Belgium and M/s Besins Healthcare (Hong Kong) and to provide any documentary evidence if M/s Basin Heathcare Belgium has cancelled the authorization of M/s Basin Healthcare Hongkong.
b) Present authorized agent in Pakistan by the Product license holder i.e. M/s Basin Healthcare Belgium for following products:
   a) Utrogestan 100 mg soft capsule
   (Micronized Progesterone 100mg)
   (For Oral or Vaginal use)
   b) Utrogestan 200 mg soft capsule
   (Micronized Progesterone 200mg)
   (For Oral or Vaginal use)
   c) Oestrogel Gel (in Tube)
   (Estradiol 0.6 mg/g)
   d) Oestrodose Gel

(in Canister with metering pump)
(Estradiol 0.6 mg/g)

3. As per director of the Registration Board email was sent to the official email (info@besins-healthcare.be) address of M/s Basin Healthcare, Belgium but the Undelivered Mail was Returned to Sender, again email was sent to another official email (information@besins-healthcare.com) address of M/s Besin Healthcare UK, which reply is awaited.

Further M/s Galaxy appealed in the Honorable High Court of Sindh at Karachi vide H.C.A 313/22 against Suit No. 2707 of 2021 for the transfer of registration of products from their name. The Honorable High Court of Sindh at Karachi vide order dated 11-10-2022 has directed DRAP to provide the opportunity of being heard to all concerned parties. Accordingly, letters for a personal hearing were issued to concerned parties dated 01-11-2022.

Proceedings of 322nd Registration Board meeting:

Mr. Shaheer Roshan Advocate counsel of M/s. Galaxy Pharma Karachi appeared before the Board. Registration Board advised to provide any document about status of current authorization from M/s Basin Healthcare Belgium (Product License Holder) in favor of M/s. Galaxy Pharma Karachi but representative of the firm was unable to provide any sort of agreement with Product License Holder. The Board further inquired about the current status of agreement between Basin Healthcare Belgium and Besins Healthcare (Hong Kong) to which Mr.Shaheer Roshan should inability to respond.

Mr. Mamoon Ch. Advocate counsel of M/s AGP Limited, Karachi and M/s Basin Healthcare Belgium informed the Board that M/s Basin Healthcare Belgium (Product License Holder) is product licensed holder for all four products and has revoked the power of attorney earlier granted to Galaxy Pharma (PVT) Ltd and has authorized M/s AGP Limited, Karachi to represent them in Pakistan as their sole authorized agent for all four products and submitted documents for consideration of Registration Board.

MARC R. FERNANDES Legal Counsel Besins Healthcare Holding Ltd. 32/F, Unit 3202, Tower 1, Enterprise Square 5, 38 Wang Chiu Road, Kowloon Bay, Hong Kong sent an email to DRAP on 05.11.2022 as follows:

First of all, our apologies for the delay response, as your e-mail got caught by an overzealous spam filter. At any rate, please be advised with regards to the matter under consideration in the email below, I am responding on behalf of Mr. Francois Brault, as I am the Vice-Present of Legal Affair incharge of ASPAC Region. I am also a director of Besins Healthcare Holding Ltd, the ultimate holding of the group.

Firstly, we do confirm that the Distribution Agrement with Galaxy Pharma Private Limited was validly terminated by our letter dated 21May 2021, as confirmed by the evidence deposed by AGP limited.

Secondly, pursuant on an internal reorganization, Besin Healthcare (Hong Kong) Ltd. No longer exercises any trading responsibility within the company and is scheduled to be liquidated pending resolution of some outstanding issues.

We do confirm that Besins Healthcare S.A., our Belgian subsidiary which holds the regulatory authorizations for the captioned products in your email, has indeed revoked the power of attorney granted to Galaxy Pharma (PVT) Ltd. and granted a new power of attorney to AGP Limited to represent it in Pakistan who is the sole authorized agent to represent Besins Healthcare S.A. in Belgium. The full details of our authorized agent for regulatory matters and distributor are:

AGP Limited, registered under number 0088506, B-23-C,SITE, Karachi

The submissions and letters by Galaxy Pharma PVT Ltd with regards to a possible conflict around the termination of their distribution agreement are purely frivolous and aim purely at delaying the regulatory processes. The Besin Healthcare Group reserve all rights to claim compensation and seek any legal redress available against Galaxy Pharma PVT Ltd for these acts of nuisance.

Decision M-322:

Registration Board after detailed deliberation and keeping in view the above discussion decided as follows:

- To cancel the registration of below mentioned products from M/s Galaxy Pharma (Private) Limited Karachi:
  a. Ostrodose Gel in Canister with Metering Pump, Registration No. 066122.
  b. Ostrogel Gel in Tube, Registration No. 066123

c. Utrogestan 100mg Capsules, Registration No.062214
d. Utrogestan 200mg Capsule, Registration No.059079

Advised to evaluate cases of registration of above products submitted by M/s AGP Limited and present for consideration of the Board.

M/s AGP Limited, B-23, C S.I.T.E, Karachi applications are complete as per form-5F and detail mentioned in above para 1.

Decision: Keeping in view the above position, Registration Board decided as follow;

a. Approved the registration of above product in the name of M/s AGP Limited, Karachi as per policy for imported finished drug registration (in accordance with details of composition and manufacturer as per CoPP).

b. A reference shall be sent to Costing & Pricing Division for their comments regarding MRP of the said product.

Decision of 291st meeting: Registration Board advised QA/LT Division to finalize the case and inform PE&R Division for further processing of case.

Updated Status: -

Area FID-IV has submitted vide letter No.F.4-5/2021-FID(IV) dated 29-07-2022 as under: -

I have honor to refer to the letter No. F- 3-312021-l & VII (M312) there dated 25ft Nov. 2021, which is in continuation to the previous letter No.F.l-lll2}20 (I & VII) Human Import dated 23'd December,2020 on the subject cited above. The detail of the matter /case after scrutiny of the documents is as under:

The Registration Board in its 312 meeting refers the case to QA < Division. The firm has submitted documents which have been reviewed in light of decision of Registration Board which indicted the following details for consideration;

i. The firm has applied for the registration of Product namely "Hemosol BO solution for Heamodialysis/Flaemofiltration in 2016. the case was first presented before Registration Board in its 279th meeting.
ii. The case has finally decided by the Registration Board in its 291't meeting as under approved as per policy by the manufacture observed " (copy attached)
iii. Accordingly, Chairman Registration Board constituted the panel for verification of local storage facility comprising of
    a) Assistant Director (I&V)
    b) Assistant Director (Reg-II)

The panel conducted inspection on 24-09-2020 and observed series of shortcoming along with the observation that 10 carton of the same product (viz under registration) was present there but didn't refer the same in the shortcoming for clarification.(copy attached/. The case was referred to QA< Division on 23'd December 2020, (copy attached) mentioning that they have forwarded the pictures of the same to the predecessor FID ,which she explain that information was received on 30-09-2020 (after a weak of inspection) & no written complaint provided with detail so action can't initiated (copy attached). The letter was again received on 25th November 2021 (after laps of almost one year).

The undersigned scrutinized the available documents and Board meetings which indicate that product is categorized as medical Devices in Italy (where actually manufacturing takes place) and referred as medicinal product in Sweden (actual maker authorization holder) (copy attached). The documents further indicate that product actually imported in the year of 2018 &2019 for Shaukat Khanum Hospital (institutional supply (copy attached/ and since its fate at that time was not decided/declare whether it is medical devices or otherwise the firm thus avails the opportunity of

category of Medical Devices (as in Italy) and Rules 52 of MEDICAL Device Rules 2018 provide exemption to these class of products which is further amended vide SRO526(1) 12021 and exemption is extended S.R.O NOC not proceeded.(copy attached)

In the light of above in is worth mentioning here that no action from QA&LT Division at this point is required and case may please be processed at the end of Registration Division in the light of provided documents.

Decision M-320:

Decision: Registration Board decided to seek legal opinion from Legal Affair Division on the matter.

Legal Opinion:

After perusal of the correspondence of the FID and QA& LT Division with PE&R Division, it has been revealed that the product ***HEMOSOL*** (hereinafter referred to as the ***product***)which is under registration before the Registration Board is categorized as medical Devices in Italy (where actually manufacturing takes place) and referred as medicinal product in Sweden (actual maket authorization holder). Furthermore, product was imported in the year of 2018 &2019 for Shaukat Khanum Hospital (institutional supply) since its fate at that time was not decided/declare whether it is medical devices or any other therapeutic goods, therefore, the firm thus avails the opportunity of category of Medical Devices (as it is a Medical Device in Italy) and took the advantage of exemption from registration under ***Rule 52*** of Medical Device Rules 2017. Therefore, details may be obtained from the importer regarding the NOC issued either by Medical Devices Division or by the I&E Section of the Head Office or regional offices. Thus the situation shall become clear before the Registration Board whether import of the product was legal or illegal. Moreover, Registration Board is a competent forum to decide fate of the product either to register it as Drug or to refer it to MD&MC division in case if it is a medical device.

QA & LT Division:

As per record received from Field office Lahore and Islamabad, no NOC was issued for the referred product to Shaukat Khanum Hospital or any other by Division of QA &LT during the period 2018-2019.

Decision: **Keeping in view position narrated above, Registration Board decided to refer the matter to the DRAP's Grey molecule committee to review the status of product and then submit its recommendations to relevant statutory forum.**

Item No. IV Division of Biological Evaluation & Research

Sr. No.	Details of application	No. of Cases
A.	Imported Human Biologicals from Reference Countries	5
B.	Imported Human Biologicals from Non-Reference Countries	5
C.	Local Human Biologicals	6
D.	Local Veterinary Biologicals	4
E.	Imported Veterinary Biologicals from Reference Countries	4
F.	Imported Veterinary Biologicals from Non-Reference Countries	20

3.	Mr. Saadat Ali Khan	AD-II	9
4.	Ms. Haleema Sharif	AD-III	7

Cases of DD (Mr. Muhammad Kashif)

Cases deferred in 322 & 323 Registration Board Meeting.

1. Case: Change in Expression of Titer

M/s Hilton Pharma (Pvt.) Ltd has applies for change in Expression of Titer of their already registered biological product as per following details.

Reg. No. and date	Brand Name and Composition	Existing Expression of Titer	Demanded Expression of Titer
084989 dated 30-10-2017	Medivac ND G7 Emulsion (Inactivated vaccine) Each dose (0.5ml) of vaccine contains: Inactivated Newcastle disease virus, MD15 strain…at least 50 PD_{50}	Each dose (0.5ml) of vaccine contains: Inactivated Newcastle disease virus, MD15 strain…at least 50 PD_{50}	Each dose (0.5ml) of vaccine contains: Inactivated Newcastle disease virus, MD15 strain ……at least10^7 EID_{50}

The case was placed in 322 & 323 Registration Board meetings and after deliberation the Board decided as under:

Decision: Registration Board deferred the case for provision of any reference product with requisite expression of titer.

The Firm has submitted list of products of reference regulatory authorities i.e Hipraviar-BPL 2 by Laboratorios Hipra, S.A, (Spain) and Volvac ND KV by Boehringer Ingelheim Vetmedica, (Germany) having the same expression of titer.

Decision: Registration Board approved the change in Expression of Titer as detailed below:

Reg. No. and date	Brand Name and Composition	Existing Expression of Titer	New approved Expression of Titer
084989 dated 30-10-2017	Medivac ND G7 Emulsion (Inactivated vaccine) Each dose (0.5ml) of vaccine contains: Inactivated Newcastle disease virus, MD15 strain…at least 50 PD_{50}	Each dose (0.5ml) of vaccine contains: Inactivated Newcastle disease virus, MD15 strain…at least 50 PD_{50}	Each dose (0.5ml) of vaccine contains: Inactivated Newcastle disease virus, MD15 strain ……at least10^7 EID_{50}

2. Case: Change in Expression of Titer.

M/s Hilton Pharma (Pvt.) Ltd has applies for change in Expression of Titer of their already registered biological product as per following details.

Reg. No. and date	Brand Name and Composition	Existing Expression of Titer	Demanded Expression of Titer
084988 dated 30-10-2017	Medivac ND Gumboro Emulsion vaccine (Freeze Dried Live Vaccine) Each dose (0.5ml) contains: Inactivated Newcastle Disease Virus, LaSota Strain..at least …….50 PD_{50} Inactivated infectious bursal disease virus, winterfield 2512 strain…at least 800 serum neutralization (SN).	Each dose (0.5ml) contains: - Inactivated Newcastle Disease Virus, LaSota Strain..at least …….50 PD_{50} Inactivated infectious bursal disease virus, winterfield 2512 strain…at least 800 serum neutralization (SN).	Each dose (0.5ml) contains: - Inactivated Newcastle Disease Virus, LaSota Strain..at least …….10^7 EID_{50} Inactivated infectious bursal disease virus, winterfield 2512 strain…at least $10^{4.5}$ EID_{50}.

The case was placed in 322 &323 Registration Board meetings and after deliberation the Board decided as under:

Decision: Registration Board deferred the case for provision of any reference product with requisite expression of titer.

The Firm has submitted list of products of reference regulatory authorities i.e Hipraviar-BPL 2 by Laboratorios Hipra, S.A, (Spain) and Volvac ND KV by Boehringer Ingelheim Vetmedica, (Germany) having the same expression of titer.

Decision: Registration Board approved the change in Expression of Titer as detailed below:

	Details of fee submitted	PKR 100,000/, deposit slip no. 2004107, dated 09-09-2020
	The proposed proprietary name / brand name	BTXA 50 Units Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Botulinum Toxin Type A…….50 Units
	Pharmaceutical form of applied drug	IM Injection
	Pharmacotherapeutic Group of (API)	Other muscle relaxants, peripherally acting agents (ATC group: M03AX01)

	Reference to Finished product specifications	Chinese Pharmacopoeia
	Proposed Pack size	1×1's
	Proposed unit price	As per SRO
	Shelf life	36 months
	The status in reference regulatory authorities	**Reference Regulatory Authority:** EMA Botox 50U **of Allergan Pharmaceuticals**
	For generic drugs (me-too status)	**MAH in Pakistan:** Sante (Pvt) Ltd. **Brand name:** BTXA **Strength:** 50 IU **Composition:** Botulinum Toxin Type A **Dosage form:** Intramuscular
	GMP status of the Finished product manufacturer	GMP Certificate is Valid till: 25-07-2023 DML Validity: 10-06-2023
	Name and address of API manufacturer.	**API:** Botulinum Toxin Type A **Name**: M/s Lanzhou Biotechnique Development Co., Limited., **Address:** 888 Yanchang Road, Lanzhou, Gansu, People's Republic of China.
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity D, G & related substances (impurity A & unspecified), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance (Botulinum Toxin type A).
	Stability studies of Drug Substance	Stability study conditions: This study was conducted to investigate the stability of bulk at 2 ~ 8°C on Day 0, 15, 25, 30, 35, 40 and 50. Three batches of bulk were under studied. Tests performed include toxicity, purity and A260/A280. According to the result showed in section 3.2.S.7.3, the toxicity of bulk - active ingredient of BTXA was stable for at least 45 days at 2 ~ 8°C. The shelf life of bulk is then considered for 45 days at 2 ~ 8°C. Batches: (B-20141007, B-20141001, and B-20141002)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Analytical method validation/verification of product	Method validation studies have submitted including sterility, moisture, identity, potency, endotoxin and pH.
	Description of Pack (Container closure system)	The primary packaging material in contact with product of BTXA is 2mL glass vial and butyl rubber stopper. The packaging materials, which are not in contact with the product, are Aluminum-plastic combined cap, inner label, inner plastic box, package insert and paper box.

	Stability Storage Condition	Three consecutive batches of finished product of botulinum toxin type A 50U were selected for the tests. All finished products are kept in the final packaging material. Numbers of batches under examination are: 50U: 20101202, 20110305, 20110503 **Long term test conditions:** Temperature: 2°C－8°C Testing frequency: 3, 6, 12, 18, 24, 36 months **Accelerated test conditions:** Temperature: 25°C ± 2°C Humidity: 60%RH ± 5%RH Testing frequency: Initial, 3, 6 months **High temperature test conditions:** Temperature: 35°C ± 2°C Testing frequency: 15 days **Test conditions after reconstitution:** Temperature: 2°C － 8°C Testing frequency: Initial and 4 hours after product reconstitution with normal saline
Non-Clinical and Clinical data		
Module IV		The firm has submitted the Non-Clinical Studies of BTXA (Botulinum Toxin Type A). -Toxicity test on Animal model (monkey) experiments indicated that the LD_{50} of monkey was close to 50 LD_{50} (mouse)/Kg. -Toxicity Test: 0.2 LD_{50} (mouse) Kg was effective for making an artificial antagonistic extraocular muscle in proper order and time. An amount of toxin 10 LD_{50} (mouse) Kg, was given to monkeys, they were still healthy and did not occur any systemic symptom of botulism. So, it could be concluded that the products were good in quality, if a suitable amount were applied under control, they should be very effective preparation for treating some diseases of muscular spasm in human.
Module V		Clinical study including bio-similarity, toxicity and safety in human use, bioavailability study, results of clinical trials and literature references has been submitted. **A Double-blind, Randomized, Crossover Study of Prosigne (BTXA) Versus Botox in Patients with Blepharospasm and Hemifacial Spasm.** **BTXA which has been produced since 1988 by Lanzhou Biological Products Institute, was approved in 1996 for commercial use in China, It was registered in Brazil in 2003, and is provided through the Brazilian High-Cost Drugs Dispensing Program. Treatment of CD burdens the public health system with considerable expenses, and therefore the comparison of the efficacy and safety of the drugs available is of utmost importance.** Phase I, II and III Clinical Study of Treatment of Strabismus, Entropion, Blepharospasm and Hemi-facial Spasm with BTXA (Botulinum Toxin Type A) for Injection has been performed. **Phase I Study:** Phase I Clinical Study for Treatment of Strabismus, Entropion, Blepharospasm and Hemi-facial Spasm with BTXA (Botulinum Toxin Type A) for Injection i**. Strabismus:** **Efficacy result** This evaluation of efficacy was performed in 10 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye ball positions. According to efficacy assessment criteria, the total efficacy is 100%.

	Safety result No general side effect was observed. Ophthalmic side effects were spontaneously normalized after 1 week. ii**. Entropion:** **Efficacy result** This evaluation of efficacy was performed in 2 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye lid positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No any local or general side effect was observed. iii. **Blepharospasm and Hemi-facial Spasm:** **Efficacy result** This evaluation of efficacy was performed in 21 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit relief of spasm. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No serious general side effect was observed. Mild side effects occur at eyes and faces in 4 cases but spontaneously normalized within 1 to 3 weeks. **Phase II Study:** The Study of evaluation of the efficacy and safety of BTXA (Botulinum Toxin Type A) injection therapy in patients with strabismus, entropion, blepharospasm and hemifacial spasm. i. **Strabismus:** **Efficacy result** This evaluation of efficacy was performed in 27 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye ball positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized after 4-8 weeks. ii. **Entropion:** **Efficacy result**: This evaluation of efficacy was performed in 30 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye lid positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized after 1-3 weeks. iii. **Blepharospasm and Hemi-facial Spasm:** **Efficacy result** This evaluation of efficacy was performed in 112 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit relief of spasm. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No serious general side effect was observed. Mild side effects occur at eyes and faces in 4 cases but spontaneously normalized within 2 to 8 weeks. **Phase III Study:** Clinical Study of Treatment of Blepharospasm, Hemi-facial Spasm and Strabismus with BTXA (Botulinum Toxin Type A) for Injection. **i. Strabismus:** **Efficacy result** This evaluation of efficacy was performed in 35 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye ball positions. According to efficacy assessment criteria, the total efficacy is 97.14**%.** **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized within 2-4 weeks. **ii. Blepharospasm and Hemi-facial Spasm:** **Efficacy result** This evaluation of efficacy was performed in **465 study subjects,** who were injected the study drug, within the guideline set in

	the protocol, and were observed to elicit relief of spasm. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No serious general side effect was observed. Mild side effects occur at eyes and faces in 314 cases but spontaneously normalized within 2 or 3 weeks.

Remarks of Evaluator:

The firm has submitted termination of distribution agreement with Sante Distribution (Pvt) Limited as Follows:

"We, Lanzhou Biotechnique Development Co., Ltd, the manufacturer of BTXA (Botulinum Toxin Type A for Injection), hereby declare to terminate any distribution agreements signed with Sante Distribution (PVT) Limited. Sante Distribution (PVT) Limited is no longer authorized to import, sell, market and follow up registration of BTXA (Botulinum Toxin Type A for Injection) in Pakistan."

The evaluation of deficiencies is as under:

Modules	Sr. No.	Deficiencies / Short-comings	Reply to Deficiencies / Short-comings
		Justify how applied product is similar to innovator product (Botox) which is Onabotulinum approved by USFDA.	• BTXA contains Clostridium Botulinum Toxin Type A. • Clostridium Botulinum Toxin Type A is manufactured by Lanzhou Institute of Technology, China. (3rd in the world after UK & USA manufacturing Therapeutic Botulinum Toxin A i.e. Onabotulinum Toxin A. • Clostridium Toxin Type A (Onabotulinum Toxin A) manufactured by Lanzhou China has similar nomenclature as of Botox manufactured by Allergen Inc, Ireland. • Different comparison of Lanzhou's Clostridium Toxin Type A and Allergen's "Botox" with respect to Similarity, Efficacy and Safety is Available Internationally *(References Attached).*

	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted details of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity D, G & related substances (impurity A & unspecified), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance (Botulinum Toxin type A).
	Stability studies of Drug Substance	Stability study conditions: This study was conducted to investigate the stability of bulk at 2 ~ 8°C on Day 0, 15, 25, 30, 35, 40 and 50. Three batches of bulk were under studied. Tests performed include toxicity, purity and A260/A280. According to the result showed in section 3.2.S.7.3, the toxicity of bulk - active ingredient of BTXA was stable for at least 45 days at 2 ~ 8°C. The shelf life of bulk is then considered for 45 days at 2 ~ 8°C. Batches: (B-20141007, B-20141001, and B-20141002)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Analytical method validation/verification of product	Method validation studies have submitted including sterility, moisture, identity, potency, endotoxin and pH.
	Description of Pack (Container closure system)	The primary packaging material in contact with product of BTXA is 2mL glass vial and butyl rubber stopper. The packaging materials, which are not in contact with the product, are Aluminum-plastic combined cap, inner label, inner plastic box, package insert and paper box.
	Stability Storage Condition	Three consecutive batches of finished product of botulinum toxin type A 50U were selected for the tests. All finished products are kept in the final packaging material. Numbers of batches under examination are: 100U: 20110102, 20110103, 20110104 **Long term test conditions:** Temperature: 2°C－8°C Testing frequency: 3, 6, 12, 18, 24, 36 months **Accelerated test conditions:** Temperature: 25°C ± 2°C Humidity: 60%RH ± 5%RH Testing frequency: Initial, 3, 6 months **High temperature test conditions:**

		Temperature: 35°C ± 2°C Testing frequency: 15 days **Test conditions after reconstitution:** Temperature: 2°C ─ 8°C Testing frequency: Initial and 4 hours after product reconstitution with normal saline
Non-Clinical and Clinical Data:		
Module IV		The firm has submitted the Non-Clinical Studies of BTXA (Botulinum Toxin Type A). -Toxicity test on Animal model (monkey) experiments indicated that the LD50 of monkey was close to 50 LD50 (mouse)/Kg. -Toxicity Test: 0.2 LD50 (mouse) Kg was effective for making an artificial antagonistic extraocular muscle in proper order and time. An amount of toxin 10 LD50 (mouse) Kg, was given to monkeys, they were still healthy and did not occur any systemic symptom of botulism. So, it could be concluded that the products were good in quality, if a suitable amount were applied under control, they should be very effective preparation for treating some diseases of muscular spasm in human.
Module V		Clinical study including biosimilarity, toxicity and safety in human use, bioavailability study, results of clinical trials and literature references has submitted in CTD Dossier. A Double-blind, Randomized, Crossover Study of Prosigne (BTXA) Versus Botox in Patients with Blepharospasm and Hemifacial Spasm. BTXA which has been produced since 1988 by Lanzhou Biological Products Institute, was approved in 1996 for commercial use in China, It was registered in Brazil in 2003, and is provided through the Brazilian High-Cost Drugs Dispensing Program. Treatment of CD burdens the public health system with considerable expenses, and therefore the comparison of the efficacy and safety of the drugs available is of utmost importance. Phase I, II and III Clinical Study of Treatment of Strabismus, Entropion, Blepharospasm and Hemi-facial Spasm with BTXA (Botulinum Toxin Type A) for Injection has performed. **Phase I Study:** Phase I Clinical Study for Treatment of Strabismus, Entropion, Blepharospasm and Hemi-facial spasm with BTXA (Botulinum Toxin Type A) for Injection i**. Strabismus:** **Efficacy result** This evaluation of efficacy was performed in 10 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye ball positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized after 1 week. ii**. Entropion:** **Efficacy result** This evaluation of efficacy was performed in 2 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye lid positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No any local or general side effect was observed. iii. **Blepharospasm and Hemi-facial Spasm:**

	Efficacy result This evaluation of efficacy was performed in 21 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit relief of spasm. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No serious general side effect was observed. Mild side effects occur at eyes and faces in 4 cases but spontaneously normalized within 1 to 3 weeks. **Phase II Study:** The Study of evaluation of the efficacy and safety of BTXA (Botulinum Toxin Type A) injection therapy in patients with strabismus, entropion, blepharospasm and hemifacial spasm. i. **Strabismus:** **Efficacy result** This evaluation of efficacy was performed in 27 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye ball positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized after 4-8 weeks. ii. **Entropion:** **Efficacy result**: This evaluation of efficacy was performed in 30 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye lid positions. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized after 1-3 weeks. iii. **Blepharospasm and Hemi-facial Spasm:** **Efficacy result** This evaluation of efficacy was performed in 112 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit relief of spasm. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result** No serious general side effect was observed. Mild side effects occur at eyes and faces in 4 cases but spontaneously normalized within 2 to 8 weeks. **Phase III Study:** Treatment of Blepharospasm, Hemi-facial Spasm and Strabismus with BTXA (Botulinum Toxin Type A) for Injection. **i. Strabismus:** **Efficacy result** This evaluation of efficacy was performed in 35 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit correction of eye ball positions. According to efficacy assessment criteria, the total efficacy is 97.14**%.** **Safety result** No general side effect was observed. Ophthalmic side effects were spontaneously normalized within 2-4 weeks. **ii. Blepharospasm and Hemi-facial Spasm:** **Efficacy result** This evaluation of efficacy was performed in 465 study subjects, who were injected the study drug, within the guideline set in the protocol, and were observed to elicit relief of spasm. According to efficacy assessment criteria, the total efficacy is 100%. **Safety result:** No serious general side effect was observed. Mild side effects occur at eyes and faces in 314 cases but spontaneously normalized within 2 or 3 weeks.

Remarks of Evaluator:

The firm has submitted notarized Termination of Distribution agreement with Sante Distribution (Pvt) Limited as Follows:

"We, Lanzhou Biotechnique Development Co., Ltd, the manufacturer of BTXA (Botulinum Toxin Type A for Injection), hereby declare to terminate any distribution agreements signed with Sante Distribution (PVT) Limited. Sante Distribution (PVT) Limited is no longer authorized to import, sell, market and follow up registration of BTXA (Botulinum Toxin Type A for Injection) in Pakistan."

The evaluation of deficiencies is as under:

Modules	Sr. No.	Deficiencies / Short-comings	Reply to Deficiencies / Short-comings
		Justify how applied product is similar to innovator product (Botox) which is Onabotulinum approved by USFDA.	• BTXA contains Clostridium Botulinum Toxin Type A. • Clostridium Botulinum Toxin Type A is manufactured by Lanzhou Institute of Technology, China. (3rd in the world after UK & USA manufacturing Therapeutic Botulinum Toxin A i.e. Onabotulinum Toxin A. • Clostridium Toxin Type A (Onabotulinum Toxin A) manufactured by Lanzhou China has similar nomenclature as of Botox manufactured by Allergen Inc, Ireland. • Different comparison of Lanzhou's Clostridium Toxin Type A and Allergen's "Botox" with respect to Similarity, Efficacy and Safety is Available Internationally *(References Attached).*
Module I	i.	Valid Legalized CoPP or Valid legalized FSC + GMP Certificate	**CoPP:** The firm has submitted valid legalized CoPP (No. Gansu 20220041) issued on 29-09-2022. The CoPP confirms free sale status of the product in the country of origin. GMP Certificate is Valid till: 25-07-2023 DML Validity: 10-06-2023
	ii.	Table of Contents (From Module 1 to Module 5) with page numbering	Table of Contents (From Module 1 to Module 5) is **Enclosed.**
	iii.	Valid Drug Sale License (DSL)	**License No.:** 05-352-0065-03297D **Address of go-down:** 522 Sundar Industrial Estate, Lahore Pakistan **Validity:** 12-Dec-2023
	iv.	Incorrect information against point "Proposed label (outer(secondary) & inner (Primary) & color scheme in accordance with Drug (Labelling & Packing Rules, 1986 along with specimens" as per Section 1.5.7 of Form 5-F	Labelling and Packing of BTXA 50IU in accordance with Drug (Labelling & Packing Rules, 1986 along with specimens" as per Section 1.5.7 of Form 5-F.
Module II	i.	Identification of potential and actual impurities arising from the synthesis, manufacture and/or degradation as per Section 2.3.S.3.2 (a) of Form 5-F	Identification of potential and actual impurities arising from the synthesis, manufacture and/or degradation as per Section 2.3.S.3.2 (a) of Form 5-F is Submitted.
	ii.	Summary of the analytical procedures (e.g. key method parameters, conditions, system suitability testing) as per Section 2.3.S.4.2 (a) of Form 5-F	Summary of the analytical procedures (e.g. key method parameters, conditions, system suitability testing) as per Section 2.3.S.4.2 (a) of Form 5-F is Submitted.
	iii.	Summary of the validation information (e.g. validation parameters and results) As per Section 2.3.S.4.3 (a) of Form 5-F	Summary of the validation information (e.g. validation parameters and results) As per Section 2.3.S.4.3 (a) of Form 5-F is submitted

	iv.	Reference Standards or Materials as per Section 2.3.S.5 of Form 5-F	Reference Standards or Materials as per Section 2.3.S.5 of Form 5-F is Submitted.

Decision: Deferred for following clarification:

- **Approval status of applied product in reference regulatory authorities as adopted by Registration Board in its 275th meeting.**
- **Whether applied product falls in Biological or Medical Device Division in the light of DRAP Act, 2012.**

• **Indications proposed for the applied product.**		
5.	Name, address of Applicant / Importer	M/s AMGOMED, Office # 4, First Floor Ghausia Plaza, Jinnah Avenue Blue arejn a Islamabad Pakistan
	Details of Drug Sale License of importer	License No: DSL-002-ICT/2013 Address: Amgomed office # 4, First floor Ghausia Plaza, Jinnah Avenue Blue area Islamabad Address of Godown: Office number 5, First floor Rose-I plaza, I-8 Markaz Islamabad. Validity: 30-01-2024 Status: Drug License by way of Wholesale
	Name and address of marketing authorization holder (abroad)	M/s Gennova Biopharmaceuticals Limited, Block No.1, Plot No. P-1 and P-2, ITBT Park, Phase II, MIDC, Hinjawadi, Pune 411057 Maharashtra state, India.
	Name, address of manufacturer(s)	M/s Gennova Biopharmaceuticals Limited, Block No.1, Plot No. P-1 and P-2, ITBT Park, Phase II, MIDC, Hinjawadi, Pune 411057 Maharashtra state, India.
	Name of exporting country	India
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP**: Firm has submitted original CoPP certificate (CoPP/CERT/PD/110860/2022/11/39406/ 191298) dated 02-07-2015 issued by Food & Drug Administration, M.S. Bandra-Kurla Complex, Bandra (E), Mumbai – 400 051, Maharashtra, India. The applied product is available for free sale in the market of exporting country. The facilities and operations conform to WHO-GMP. The CoPP is valid till 14-07-2022.
	Details of letter of authorization / sole agency agreement	The firm submitted notarized letter of authorization whereby M/s Gennova Biopharmaceuticals Limited, India authorized M/s Amgomed to apply for registration, for marketing, distribution and sale of below mentioned product; Hamsyl 3750 IU / 5ml Injection Each 5 ml vial contains: Pegasparagase (Pegylated L-Asparaginase) HIS 3750 IU The authorization letter is valid till 06-05-2022.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 26085 Dated: 30-07-2018
	Details of fee submitted	PKR 100,000 (Slip number : 0778294)
	Proposed proprietary name / brand name	Hamsyl 3750 IU / 5ml Injection

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5 ml vial contains: Pegaspargase (Pegylated L-Asparginase)……..3750 IU
	Pharmaceutical form of applied drug	Solution for IV / IM Administration
	Pharmacotherapeutic Group of (API)	Antineoplastic agents ATC-code: L01XX24
	Finished product specifications	In-house
	Proposed Pack size	1's vial
	Proposed unit price	As per SRO
	Shelf Life	24 months
	Storage Conditions	Store at 2 °C to 8 °C
	The status in reference regulatory authorities	Oncaspar Injection 3,750 IU / 5ml vial of M/s Sigma Tau (USFDA approved).
	For generic drugs (me-too status)	Pegaspargase (Peg-L-Asparaginase of LDS (Reg#105067)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	DMF Holder Address: M/s Chanzhou Qianhong Bio-Pharma Co, Ltd., No.192, Huanghe West Road, Xinbei District, Changzhou, Jiangsu, China. Name and Address of the manufacturer: M/s Chanzhou Qianhong Bio-Pharma Co, Ltd., No.192, Huanghe West Road, Xinbei District, Changzhou, Jiangsu, China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Gennova Biopharmaceuticals limited do not intend to store the API manufactured. It is immediately transfer for fill finish activities. Hence formal stability study for Pegaspargase Bulk is not intended as there is no change in the composition of Bulk and Finished product. Its only containerization process. Hence, we have carried out hold time study for bulk and finished product stability study is reflective for API stability as well.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted data of Pharmaceutical Equivalence: Hamsyl 3750 IU /5ml Injection and reference product Oncaspar by Sigma Tau Corporation, USA.
	Analytical method validation / verification of product	The firm has submitted relevant data including analytical method validation for the drug product including the impurities.
	Container closure system of the drug product	Pegaspargase Injection is filled in USP Type I Glass vial. One such labelled vial is placed in Plastic Tray and which is packed in Monocarton along with leaflet. Primary packaging materials conform to specifications.
	Stability study data of drug product, shelf life and storage conditions	Real time stability (Long term) studies have been conducted at 5°C ± 3°C for 24 months of 3 batches. Accelerated stability studies is conducted at 25 °C ± 2 °C / 60% ± 5% RH for 6 months of 3 batches. 431401H01 431402H02 431403H03
	Non-Clinical (Module IV)	**Single dose toxicity** Acute Intravenous toxicity study in Swiss Albino mice Acute Intravenous toxicity study in Sprague Dawley rat **Multiple Dose** Subchronic intravenous toxicity study in the Swiss Albino Mouse Subchronic intra venous toxicity study in the Sprague Dawley Rat
	Module V	• A prospective, open label, randomized, active control, parallel design, comparative pharmacokinetics study of intramuscular pegaspargase (Hamsyl) of M/s Gennova Biopharmaceuticals Ltd versus intramuscular Oncaspar in pediatric patients with **relapsed cases** of Acute Lymphoblastic Leukemia (ALL). **Twenty-four** (24) Pediatric patients diagnosed with Acute Lymphoblastic Leukemia (ALL) in relapsed stage enrolled in 1:1 ratio in two arms randomly. • To demonstrate the pharmacokinetic comparability of Hamsyl® (Pegaspargase) compared to Oncaspar® (Pegaspargase) given intramuscularly during induction in patients with ALL therapy. • To compare the immunogenicity and toxicity of Hamsyl® (Pegaspargase) compared to Oncaspar® (Pegaspargase).

Remarks of Evaluator:
The submitted original CoPP is not legalized however, the firm has submitted undertaking that we will submit legalized original copy of CoPP after attestation. Meanwhile, we request you to please include our product in DRB meeting.

Decision: Deferred for following:

- **Submission of Phase I, II, III clinical study data for the proposed indication since already submitted study is a pharmacokinetic comparison of applied product with reference product.**
- **Details of pharmaceutical comparison with reference product Oncaspar Injection 3750 IU / 5ml.**
- **Legalization of CoPP**

Deferred cases:

	DML and last GMP details	DML No. 000777 Address: Plot No. E-58. North Western, Industrial Zone, Port Qasim Karachi. **Evidence of section:** Injectable Ampoule and Pre-filled Syringe (biological) section dated 3rd June, 2021

		GMP: Last GMP conducted on 20th-05-2021 valid up to 19th-05-2023
	Bulk Manufacturer	DONGYING TIANDONG PHARMACEUTICAL CO., LTD. No.1236, Nan-er Road, Dongying City, Shandong Province, China (Small-Volume Injection **(Injection workshop, pre-fill production line**)
	Brand Name + Dosage Form + Strength	**Clotenox Injection 100mg PFS**
	Composition	Each Pre-Filled Syringe contains: Enoxaparin Sodium……100mg
	Finished product specifications	BP Spec
	Pharmacological Group	Antithrombotic agent
	Shelf life	24 Months (Store below 25^0C)
	International availability	Lovenox the product is available in PFS in the said strength & volume.
	Products already registered in Pakistan	Clexane 100mg/1ml but the product is available in PFS
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5 Dy.No. dated 13-12-2018. Fee Submitted: Rs.20,000/- dated 06-11-2018.
	Demanded Price / Pack size	ml Pre-Filled Syringe / As per DPC 1
	General Documentation	The formulation in 1 ml PFS is available in reference country.

Data as per guidelines of 289th meeting of Registration Board;

i) For Bulk Concentrate Import, Local formulation Filling:

i.	The firms shall provide legalized GMP certificate of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin.	Legalized GMP Certificate No.SD 20180757 dated 30-08-2018 issued by Shandong Food and Drug Administration, China valid till 29-08-2023. Manufacturer and its address: Dongying Tiandong Pharmaceutical Co., Ltd. No.1236, Nan-er Road, Dongying City, Shandong Province, China.
ii.	The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk after submission of data to the concerned regulatory authority.	Legalized FSC (Certificate No.: 2018-001) dated 01-08-2018 issued by Shandong Food and Drug Administration of People's Republic of China.
iii.	The firm shall provide the complete data as adopted for imported Enoxaparin injections in 281st meeting of Registration Board of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the similar efficacy and safety to innovator product covering following requirements:	
	a) The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	The firm has submitted physicochemical Characterization performed by the bulk manufacturer. The comparison has not been performed with innovator. 1.Molecular mass and molecular mass distribution. 2.HPLC-MS 3.NMR • 1H NMR: • 13C NMR: 4.UV: 5.Sodium content 6. Molar ratio of sulfate ions to carboxylate ions
	b) The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (i.e., heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester	**Equivalence of heparin source material:** R: The starting material of generic Enoxaparin (manufactured by Tiandong) is porcine crude heparin, and no ruminant gene is detected as per qPCR.

	derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of its variability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	
	c) The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	**Not submitted**
	d) The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	**Not submitted**
	e) The fifth criterion for establishing sameness of enoxaparin is equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and Anti-IIa profiles.	**Not submitted**
iv.	The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	Not Applicable
v.	The firm shall provide the 6 months accelerated and real time stability studies for drug substance.	The stability studies performed by API manufacturer for drug substance for 24months real time stability study data at 25°C±2°C, 60%RH±5% RH & 6 months accelerated stability study at 40°C±2°C, 75%RH ±5% RH and the results found satisfactory against the specified specification limits.
vi.	The local manufacturer shall perform all the tests on Enoxaparin Sodium bulk as detailed in Pharmacopoeial monograph of Enoxaparin Sodium.	Testing of Enoxaparin sodium was performed as per pharmacopeial method and results complies with specifications and the data has been submitted. i.e. • Identification by: - Size-Exclusion Chromatography (RP-HPLC) - Ratio of anti-factor Xa activity to anti-factor IIa activity - Sodium salt Assay: - Anti-factor Xa Activity - Anti-factor IIa Activity • Clarity and colour of solution • Acidity or alkalinity • Light absorption • Related Substances by HPLC

		• Sodium • Bacterial Endotoxins
vii.	The local manufacturer shall manufacture three trial batches of the finished biological product to finalize the formulation and then perform the six months stability data on all the batches along with all the tests as detailed in Pharmacopoeial monograph of Enoxaparin Sodium Injection.	The firm has submitted three trial batches for each strength i.e. 20mg, 40mg, 60mg, 80mg, 100mg conducted at 30°C ± 2°C/65% ± 5%RH for the finished biological product. The stability studies have performed till shelf life stability (24 months) as per pharmacopoeial monograph of enoxaparin sodium injection and results found within the specified limits.
viii.	The local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The following techniques may be used: a. SDS-PAGE for individual proteins b. GC-MS for lipid impurities c. Threshold ® Total DNA Assay System for DNA content.	Related substances by HPLC: Purity of LMWHs have been demonstrated by using Anion Exchange chromatography based test in comparison with innovator product i.e. Clexane Injections.
ix.	The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	Not Submitted
x.	Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	The firm has submitted undertakings as detailed in 289th meeting of Registration Board by the local manufacturer.
xi.	The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Firm has submitted undertaking if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.
xii.	If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Firm has submitted undertaking If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.
xiii.	All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	Firm have submitted undertakings All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.

Remarks of Evaluator:

Sr. No.	Decision of 321st meeting of RB	Response by the firm
1.	The first criterion for demonstrating sameness of enoxaparin is equivalence of physicochemical properties, such as molecular weight distribution using size exclusion chromatography, chain mapping by cetyltrimethyl ammonium-coated strong anion exchange chromatography, matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	**Physicochemical Characterization performed with innovator product by the bulk manufacturer:** 1. **Molecular mass and molecular mass distribution**. Size exclusion chromatography is used to detect molecular mass, characterizing the distribution and proportion of enoxaparin sodium oligosaccharide chain length and data is comparable between Lovenox (Branded) and generic Enoxaparin Sodium (Manufactured by Tiandong). 2. **HPLC-MS**

		MS spectra of generic Enoxaparin and branded Lovenox are submitted. The retention time and mass to charge ratio are comparable to oligosaccharide peak and oligosaccharide sequence. 3. **NMR** • ^{1}H NMR: Spectra obtained are similar to that obtained with Enoxaparin Sodium reference standard • ^{13}C NMR: Spectra obtained are similar to that obtained with Enoxaparin Sodium reference standard 4.**UV:** The maximum UV absorption wavelength of both generic Enoxaparin and brand Lovenox is 232 nm, and specific absorption coefficient falls within specified range. 5. **Sodium content** The sodium content of generic Enoxaparin (Manufactured by Tiandong) and branded Lovenox are within 11.3% to 13.5%. 6. **Molar ratio of sulfate ions to carboxylate ions** The molar ratio of sulfate ions to carboxylate ions of generic Enoxaparin and branded Lovenox are no less than 1.8.
2.	The second criterion for demonstrating the sameness of enoxaparin is equivalence of heparin source material (ie, heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (ie, cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of its variability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	Enoxaparin sodium is the sodium salt of a low-molecular-mass heparin that is obtained by alkaline depolymerization of the benzyl ester derivative of heparin from porcine intestinal mucosa. Enoxaparin consists of a complex set of oligosaccharides that have not yet been completely characterised. Based on current knowledge, the majority of the components have a 4-enopyranose uronate structure at the non-reducing end of their chain. 15 per cent to 25 per cent of the components have a 1,6-anhydro structure at the reducing end of the chain. The mass-average relative molecular mass ranges between 3,800 and 5,000, with a characteristic value of about 4,500. The degree of sulfation is about 2 per disaccharide unit. The potency is not less than 90 IU and not more than 125 IU of anti-Factor Xa per milligram, calculated with reference to the dried substance. The anti-factor IIa activity is not less than 20.0 IU and not more than 35.0 IU per milligram, calculated with reference to the dried substance. First, crude heparin (i.e., the starting material) through enzymolysis, centrifugation and then, following a series of purification processes, is purified to obtain heparin sodium (i.e., Intermediate I). After that, through salification, the Intermediate I is converted to benzethonium heparinate (i.e., Intermediate II). After that, through esterification, the Intermediate II is converted to heparin benzyl ester (i.e., Intermediate III), then, Enoxaparin sodium is formed by alkaline degradation. Following a series of purification process (filtering, precipitating, decoloring, filtering, lyophilizing, milling and blending, packaging, and examining), the final product (Enoxaparin sodium API) is obtained.

		The starting material of generic Enoxaparin (manufactured by Tiandong) is porcine crude heparin, and no ruminant gene is detected as per qPCR.
3.	The third criterion for demonstrating the sameness of enoxaparin is equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by capillary electrophoresis (CE), reverse phase high-performance liquid chromatography (RP-HPLC), strong anion exchange HPLC (SAX-HPLC), mass spectroscopy, and nuclear magnetic resonance (NMR) spectroscopy. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	- Size exclusion chromatography is used to detect the molecular mass, characterizing the distribution and proportion of Enoxaparin sodium oligosaccharide chain length. - Oligosaccharide sequence determined by HPLC-MS. - Sulfated disaccharide structure by ^{1}H NMR, ^{13}C NMR. - Specific absorption coefficients by UV. - Molar ratio of sulfate ions to carboxylate ions by titration. - Sodium content by Atomic Absorption. Via above provided tests, equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species have been submitted.
4.	The fourth criterion for establishing sameness of enoxaparin is equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	**APTT test:** The APTT value is related to the Enoxaparin sodium concentration, the higher the concentration, the longer the APTT value. There is no significantly difference of the APTT value between generic Enoxaparin (manufactured by Tiandong) and brand LOVENOX. **Anti-Xa activity and Anti-IIa activity test**: The Anti-Xa activities and Anti-IIa activity of generic Enoxaparin (manufactured by Tiandong) and brand LOVENOX are within the specification range of 90 IU/mg~125 IU/ mg (dry basis) and 20 IU/mg~35 IU/mg (dry basis) respectively; Anti-Xa/ Anti-IIa value of Generic Enoxaparin (manufactured by Tiandong) and brand LOVENOX are also within the specification range of 3.3~5.3.
5.	The fifth criterion for establishing sameness of enoxaparin is equivalence of *ex-vivo* pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of *in vivo* anti-Xa and Anti-IIa profiles	The firm has Submitted bioequivalence study reports Open, Randomized, Single Dose, two period crossover bioequivalence trial under fasting conditions on healthy subjects. 24 subjects enrolled in the group according to the screening number of the subjects in ascending order. The statistician provides a random allocation table and randomly allocates the subjects to one of the two dosing sequence A (T-R) group or the B (R-T) group in a 1:1 ratio, with the same number of subjects in each dosing sequence. Test preparation: Enoxaparin sodium Injection 0.6 mL: 6000 AxaIU; Reference preparation: Enoxaparin sodium Injection 0.6 mL: 6000 AxaIU. The test preparation Enoxaparin sodium injection (0.6 mL: 6000 AxaIU) developed and produced by Dongying Tiandong Pharmaceutical Co., Ltd. and the brand reference preparation Clexane® (Enoxaparin sodium injection, 0.6 mL: 6000 AxaIU) were found bioequivalent in Chinese healthy subjects under fasting subcutaneous injection.

6.	The local manufacturer shall perform suitable tests to evaluate the product and process related impurities both in their product and in Innovator product e.g. Total proteins, Individual proteins, Lipids and DNA content etc. The following techniques may be used: a. SDS-PAGE for individual proteins b. GC-MS for lipid impurities c. Threshold ® Total DNA Assay System for DNA content.	The firm has submitted that comparative impurity testing for enoxaparin has been performed as per British Pharmacopoeia. Tests of related substances by HPLC has been submitted in comparison with innovator product i.e. Clexane Injections.
7.	Agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	The firm has submitted process change declaration from source (Dongying Tiandong Pharmaceutical Co. Ltd) stating that we would inform for the critical process changes related to the product and implement only after approval.
8.	Commitment that "If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Submitted.
9.	Commitment that "All the provisions as contained in the Drugs Act, 1976 and rules made thereunder including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to".	Submitted.

Remarks of Evaluator:
The firm has provided Pre-filled syringe Biological Section. Already registered products are as under:
1. Nexfil 300 (Filgrastim)
2. Pegaron Inj. (Pagylated Interferon alpha 2a)
3. NP-POETIN (Erythropoietin)

Previous Decision: Registration Board deferred the case for submission of section wise details of products of M/s Nextar Pharma (Pvt) Ltd., Karachi in the biological facility **(M-323)**.
Evaluation by BE&R: The firm submitted details of registered products section wise in Biological Premises of M/s Nextar Pharma Pvt. Ltd as stated below:

Sr#	Name of Section	Sr#	Name of Section
1.	Pre-Filled Syringes (Biological)	2.	Injectable Ampoule Section (Biological)

PFS Biological Section:

S/#	Reg. No.	Product Name (Local)	Composition	Pack Size	Date of Registration	Shelf Life
1	095293	NP-Poetin 10000 Pre-filled Syringe (Epoein alpha)	Each Prefilled syringe contains: - Erythropoietin……..…10000I (BP Specifications)	1's PFS	28-02-2019	2 Years (2-8°C)
2	077536	NP-Poetin 2000 Inj	Each Prefilled syringe contains: - Erythropoietin……2000IU (BP Specifications)	1's PFS	30-08-2019	2 Years (2-8°C)
3	077537	NP-Poetin 4000 Inj	Each Prefilled syringe contains: - Erythropoietin……4000IU (BP Specifications)	1's PFS	30-08-2019	2 Years (2-8°C)
4	077534	Nexfil Injection 300 mcg	Solution for injection in prefilled syringe (0.5mL) contains: Filgrastim……..…300mcg (Ph.Eur.Specifications)	1's PFS	30-08-2019	24 months (2-8°C)
5	077535	Pegaron Inj	Each Prefilled Syringe Contains; Pegylated Interferon alpha 2a…….. 180mcg/ml	1's PFS	08-12-2014	24 months (2-8°C)

Injectable Ampoule section:
N/A

Furthermore, we would also like to communicate, As per Annex-2 of WHO good manufacturing practices for biological products Replacement of Annex 1 of WHO Technical Report Series, No. 822 Section 9.3 i.e. *''Killed vaccines, antisera and other biological products – including those made by rDNA techniques, toxoids and bacterial extracts – may, following inactivation, be manufactured on the same premises provided that adequate decontamination and cleaning measures are implemented on the basis of QRM''.* (Reference Attached Page 20 of WHO good manufacturing practices for biological products Replacement of Annex 1 of WHO Technical Report Series, No. 822 Section 9.3).
Decision: Keeping in view the data submitted by the firm in light of guidelines of 289th meeting, Registration Board approved the registrations of Clotenox Injection 20mg PFS, 40mg PFS, 60mg PFS & 80mg PFS (Enoxaparin 20mg PFS, 40mg PFS, 60mg PFS, 80mg PFS and 100mg PFS).

Imported Veterinary Biologicals from Non-Reference Countries:

11.	**Name and address of Importer**	**M/s Al-Asar Enterprises,** Gulshan-e- Ghulab Colony Behind, Abdullah Heart Care Pul wasll Suraj Miani Road, Multan.
	Detail of DSL	License to sell drugs as distributor License No: 04-361-0159-96972D valid upto: 05-08-2027.
	Name and address of Manufacturer	M/s BIOCAMP LABORATORIES LTDA, Rua Rui IIdefonso Martins Lisboa, nº 601 Campo dos Amarais Campanies, Sao Paulo, Brazil, Zip Code: 13082-020.
	Name of exporting country	Brazil
	Brand Name +Dosage Form + Strength	**CAMPVAC MG-F** Lyophilized, live vaccine
	Diary No. Date of R& I & fee	Dy. No. 20526 R&I Dated 28-07-2021 Rs. 150,000/- (Slip No. 50757616929)
	Composition	Each ml of vaccine contains: Mycoplasma gallisepticum with a minimum title of $10^{5.0}$ CCU…….0.5ml Stabilizer……..0.5 ml Each ml of diluent contains: Sodium chloride……..…8.5mg Monobasic potassium phosphate……0.16mg Tribasic sodium phosphate dodecahydrate……1.36mg Blue aniline dye……....8 µL Deionized water qs……...……1 mL
	Pharmacological Group	Immunological
	Type of Form	Form-5A
	Finished Product Specification	Manufacturer's specifications
	Shelf Life	24 months (2°C - 8°C)
	Pack size & Price	1000 doses: Decontrolled
	Reference Regulatory Authority Availability	N/A
	Products already registered in Pakistan	N/A
	Stability data of finished product	The firm has submitted stability study data of 24 months conducted at 2°C to 8°C for three commercial batches as below: 001/20 002/20 003/20
	Document Details	**<u>Free Sale Certificate (Original Legalized):</u>** Legalized free sale certificate indicates that the product CampVac MG-F is legally registered with the Ministry of Agriculture,

		Livestock and Supply (MAPA) of Brazil valid until 27-05-2024 for marketing and Export purposes. The certificate was issued by Ministry of Agriculture, livestock and Food Supply, Federative Republic of Brazil. **Legalized GMP Certificate:** Legalized GMP certificate issued by Ministry of Agriculture, Livestock and Supply (MAPA) of Brazil dated 02-September, 2020. **Sole Agency Agreement:** Legalized sole agency agreement indicates Al-ASAR enterprises to be his sole agent in Pakistan to register, import and commercialize the products.

Remarks of Evaluator:

Sr. No.	Observations	Response by the firm
1.	Valid copy of DSL	License to sell drugs as distributor License No: 04-361-0159-96972D valid upto: 05-08-2027.
2.	Finished product specifications in the light of 267th Registration Board meeting.	The firm has submitted certificate of analysis.
3.	Original or notarized copy of Sole agency agreement.	The firm has submitted original sole agency agreement.
4.	Provide original legalized FSC issued by concerned regulatory authority.	Original legalized free sale certificate issued by Federative republic of Brazil, Ministry of Agriculture, Livestock and Supply (MAPA) of Brazil. The certificate is valid until 27-05-2024.
5.	Provide original legalized GMP certificate, issued by concerned regulatory authority.	Legalized GMP certificate issued by Ministry of Agriculture, Livestock and Supply (MAPA) of Brazil dated 02-September, 2020.
6.	Evidence of locally registered product for applied products.	Not submitted
7.	Submit stability data of three batches in line with ICH guidelines on all stability indicating parameters as recommended by guidelines.	The firm has submitted stability study data of 24 months conducted at 2°C to 8°C for three commercial batches as below: 001/20 002/20 003/20
8.	Large Scale Clinical Data/Field Trial Data.	Submitted
9.	Mention name of exporting country on Form 5A.	Brazil
10.	Clarification is required regarding applied formulation would it be imported in combo pack & clarification for not performing the terminal sterilization of diluent.	• 500 doses is accompanied by 15ml of sterile diluent • 1000 doses is accompanied by 1 vial of 30ml of sterile diluent • 2000 doses is accompanied by 2 vials of 30ml of sterile diluent The sterilization of diluent solution is performed in the filter cartridge with membrane of 0.20 µm (microns) before the potting as described in production method and manufacturing process flow chart.
11.	Mention unit of virus dose as it is CCU in packaging & labelling and CFU on Form 5A.	Not specified.
12.	Mention desired pack size of applied formulation.	Not specified .

- Clarification of composition on free sale certificate in terms of dose / ml of vaccine is required.
- Evidence of locally registered product for applied product could not be verified.
- Clarification of virus dose as it is CCU in packaging & labelling and CFU on Form 5A.
- Desired pack size for applied formulation is required since multiple pack sizes are mentioned on FSC.

Decision: Deferred for following:

	• **Clarification of composition on free sale certificate in terms of dose / ml of vaccine** • **Evidence of locally registered product for applied product.** • **Clarification of virus dose as it is CCU in packaging & labelling and CFU on Form 5A.** • **Desired pack size for applied formulation since multiple pack sizes are mentioned on FSC.**

	Name of exporting country	Turkey
	Brand Name +Dosage Form + Strength	BASILAX Vaccine (live spore culture vaccine for Anthrax disease)
	Diary No. Date of R& I & fee	1455 (R&I); Dated 04-06-2021 Rs.100,000 (Slip No.0735199)

	Composition	Bacillus anthracis (Sterne Strain $34F_2$) Spores…….$1x10^7$ CFU Excipients: Physiological saline –Glycerin…… 50% Saponin……0,1 %
	Pharmacological Group	live spore culture veterinary vaccine
	Type of Form	Form-5A
	Finished Product Specification	European Pharmacopoeia specifications
	Shelf Life	24 months (2°C-8°C)
	Pack size and demanded price	50 ml per vial / Decontrolled
	International availability	Anthrax spore vaccine, Live culture, Manufactured by Colorado Serum Company USA (USDA Reg # 188, 1011.00).
	Products already registered in Pakistan	N/A
	Stability data of finished product	The firm has submitted stability study data of 24 months conducted at 2°C to 8°C for three consecutive batches as below: 04/BS/02 05/BS/02 06/BS/02
	Document Details	• Original Legalized Free sale certificate issued by General Directorate of food and control, Ministry of Agriculture and Forestry, Turkey confirms that product is on free sales in the market of Turkey. • Legalized GMP certificate issued by The Ministry of Food and Agriculture livestock of Turkey. Certificate no. GMP/TR/V/YI/ S0092/2018. • Original product specific sole agency agreement
	Remarks of Evaluator: The claimed shelf life and stability study data are of 24 months however, on Free sale certificate it is stated that the valid shelf life is 12 months from date of manufacturing.	
	Decision: Registration Board deferred the case for following: • **Referred the case to Animal Husbandry Commissioner for comments regarding immunological relevance and need of applied strain in Pakistan.** • **Manufacturing requirements and handling of live spore culture vaccine due to its use as dangerous biological agents.**	
24.	**Name of Importer**	**ICI Pakistan Limited** **ICI House, 5, West Wharf, Karachi-Pakistan**
	DSL details	License to sell drug as distributor No.020 valid till11-07-2023
	Name of Manufacturer	**Manufactured by:** Brugwedel Biotech GmbH Im Langen Felde 5 30938 Burgwedel, Germany.
	Brand Name + Dosage Form + Strength	ROTAVEC® CORONA Emulsion for injection for cattle 50 Doses 100ml
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A Dy No. 18554 Dated: 28-07-2020 Fee Submitted: Rs. 100, 000/- dated 27-07-2020
	Composition	Each 2ml Dose contain: Bovine rotavirus strain UK-Compton, Serotype G6 P5…….$10^{7.6}$-$10^{7.9}$ $TCID_{50}$ Bovine coronavirus, Strain Mebus (Inactivated)…...150-230ELISA units. E.Coli F5 (K99) adhesion…….100-200 Units.
	Finished product specifications	Innovator's Specifications

	Pharmacological Group	Veterinary Vaccine
	Shelf life	24 Months (Store at +2°C -+8°C), Do not freeze
	Demanded Price / Pack size	50 Doses 100ml
	Products already registered in Pakistan	N/A
	General Documentation	• Legalized Certificate of Pharmaceutical Product (CoPP) No 008/BBG/2019 issued by Lower Sexony State Office for Consumer Protection and Food Safety, Wadenburg, Germany dated: 03-07-2019. The submitted CoPP confirms free sale status in the country of origin as well as conformance of facilities and operations to GMP as recommended by WHO.

Remarks of Evaluator:

Sr. No.	Observations	Response by the firm
1.	Separate Registration fee along with application with relevant data for each pack size	Pack Size: 50 Doses vial, 100ml
2.	Clarification is required why the Product license holder is different in CoPP & Form 5-A.	This is to clarify that the product license holder as per CoPP **"**M/s. Intervet Deutschland GmbH. Feldstr. 1a, D-85716, Unterschleissheim" The firm revised FORM 5-A as per CoPP alongwith submission of fee Rs: 7,500/-. Fee Challan No. 8055251203 Date. 13.10.2022
3.	Original product specific sole authorization letter.	Original Submitted
4.	lnformation against point "Persons under whose direct supervision and control the drug applied for registration shall be manufactured." of Form 5A. lnformation against point "Name of equipment that will be used in the manufacture of the applied drug." of Form 5-A Information against point "Production capacity of the manufacturer per shift for the drug applied." of Form 5-A Information against point "Name, qualification and designation of the persons who will be responsible for the quality control of the drug" of Form lnformation against point "Description of the equipment to be used for the quality control of the active raw material and the finished products." of Form lnformation against point "Facility of the water processing, with specifications" of Form 5-A lnformation against point "Environment control processing with details" of Form 5-A	Submitted

Remarks of Evaluator:
The claimed shelf life and stability study data are of 24 months however, on Free sale certificate it is stated that the valid shelf life is 12 months from date of manufacturing.

Decision: Keeping in view the legalized CoPP indicating product availability in the country of origin, Registration Board approved the product with shelf life of 12 months subject to compliance of current Import Policy for finished drugs.

25.	**Name of Importer**	ICI Pakistan Limited, ICI House, 5 West Wharf Karachi-Pakistan
	DSL details	License to sell drug as distributor No.020 valid till11-07-2023
	Name of Manufacturer	Manufactured by: Schering-Plough Animal Health Limited

		33Whakatiki Street Upper Hutt, NewZealand	
	Brand Name + Dosage Form + Strength	COVEXIN™ 8 Clostridial vaccine (40ml)	
	Type of Form Dy. No. Date of Application, Fee submitted	Form 5-A Dated: Fee Submitted: Rs. 100,000/- dated 27-07-2020	
	Composition	Each ml contains: C. chauvoei whole culture ……sufficient to provide the required immunogenic activity per recommended animal dose C. haemolyticum toxoid and cells……. ≥10U/mL C. novyi toxoid and cells……≥3.5 IU/mL C. perfringens type B toxoid and cells and Type C toxoid……≥10IU/mL β C. perfringens type D toxoid…….. ≥5IU/mL Ɛ C. septicum toxoid ……≥2.5IU/mL C. tetani toxoid…….. ≥2.5IU/mL	
	Finished product specifications	Innovator's Specifications	
	Pharmacological Group	Veterinary Vaccine	
	Shelf life	24 Months (Store at +2°C -+8°C) Do not freeze	
	Demanded Price / Pack size	40ml, Decontrolled	
	Products already registered in Pakistan	N/A	
	General Documentation	• Legalized Certificate of Pharmaceutical Product (CoPP) dated 17th February 2022 issued by Ministry of Primary Industries NewZealand.	
	Evaluation by DBE&R	Observation	Response
		Separate Registration fee along with application with relevant data for each pack size.	Pack size = 40ml Proposed Label (Submitted)
		Valid legalized Free Sale Certificate (FSC)/CoPP with complete composition and pack size of the product. wherein the free sale status of the product in the country of origin has been clearly mentioned.	Original Submitted
		Original product specific sole authorization letter	Original Submitted
		Complete Stability study data on three commercial scale batches as per ICH guidelines for each pack size of the product	Submitted
	Decision: Keeping in view the legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance of current Import Policy for finished drugs.		

Miscellaneous cases:

The following products of M/s Hipra Pakistan were approved in 307th meeting of Registration Board. Now the firm has submitted that EMA has decided to change the titer specifications of the composition from $10^{1.48}$ – $10^{2.80}$ PU to $10^{1.18}$ – $10^{2.80}$ PU. Accordingly, the firm has applied fresh dossiers with revised specifications as below:

26.	Name of Importer	M/s Hipra Pakistan (Private) Limited, 3rd floor, plot no 8, block CCA, Phase 6-C, DHA, Lahore Go Down: 2nd Warehouse on Left side, Street no 5, Gajjumata Nadir Chowk, Hazara Chowk, Industrial Area Ferozpur Road, Distt Lahore
	DSL details	License to sell drug as distributor No. 05-352-0058-050528D valid till 19-Feb-2024.

	Marketing authorization holder	M/s Laboratorios HIPRA, S.A., Avda. la Selva, 135, 17170 Amer (Girona) Spain.
	Name of Manufacturer	Laboratorios HIPRA, S.A., Carretera C-63, Km 48, 300, Poligono Industrial El Rieral, 17170 Amer (Girona), Spain (Responsible for primary packaging). Laboratorios HIPRA, S.A., Avda. la Selva, 135, 17170 Amer (Girona) Spain. (Responsible for batch release in the EU, quality control and Secondary packaging).
	Name of exporting country	Spain
	Brand Name +Dosage Form + Strength	GUMBOHATCH, Lyophilisate and solvent for suspension for injection 2000 dose
	Diary No. Date of R& I & fee	Dy. No. 1333 (R&I); Dated 16-01-2023 Rs. 75,000 (Slip No.275750752891) Rs.75,000 (Slip No. 127496746)
	Composition	Each dose of reconstituted vaccine contains Live attenuated infectious bursal disease virus, strain 1052…….....$10^{1.18}$-$10^{2.80}$ *PU PU: Potency Units* Solvent: Phosphate buffer solution
	Pharmacological Group	Live attenuated vaccine against Infectious Bursal Disease
	Type of Form	Form-5A
	Finished Product Specification	Innovator's Specifications
	Shelf Life	24 months (2°C-8°C)
	Pack size and demanded price	2000 dose vial, Decontrolled
	International availability	Spain
	Products already registered in Pakistan	Gumbohatch 5000 dose
	Stability data of finished product	The firm has submitted stability study data of 3 batches conducted at 2°C - 8°C for 24 months: P.4D62 P.4S19 P.4T71
	Document Details	The firm has submitted copy of certificate of veterinary medicinal product (Certificate No. 05/21/160295) issued by European Medicines Agency, Domenico Scarlattilaan 6, 1083 HS Amsterdam, The Netherlands on 19-07-2021. The certificate confirms fee sale status of the product in the country of origin as well as GMP status of the manufacturer.
	Remarks of Evaluator:	
	Decision: Keeping in view the legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance of current Import Policy for finished drugs.	
27.	**Name of Importer**	M/s Hipra Pakistan (Private) Limited, 3rd floor, plot no 8, block CCA, Phase 6-C, DHA, Lahore. Go Down: 2nd Warehouse on Left side, Street no 5, Gajjumata Nadir Chowk, Hazara Chowk, Industrial Area Ferozpur Road, Distt Lahore

	Decision: Keeping in view the legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance of current Import Policy for finished drugs.	

Locally manufactured veterinary vaccines:

28.	Name and address of product manufacturer (Applicant)	M/s Intervac Pvt. Ltd., 18 Km Lahore Sheikhupura Road , Sheikhupura Pakistan
	Brand Name +Dosage Form + Strength	INTERVAC 2 COMBO VACCINE
	Composition	Each Dose Contains: Inactivated Newcastle Disease (ND)-Virus $\geq 10^{9.0}EID_{50}$ Inactivated Avian Infectious Bronchitis (IB)- Virus$\geq 10^{6.5}EID_{50}$
	Pharmacological Group	Veterinary vaccine
	Finished Product Specification	Manufacturer's Specs
	Type of Form, Diary No. Date of R& I & fee	Dy no. 25861 Dated: 17-09-2021 Rs. 30,000/- (Slip # 20154971088)
	Shelf Life	Shelf-life: 12 months (2-8^{0}C)
	Document Details	Copy of GMP certificate on 26-01-2021 wherein the panel rated the facility good and GMP

		Copy of Panel inspection for DML renewal on 19-06-2019 & 28-05-2019 wherein the panel rated the facility good and GMP has been recommended for following Biological sections: Vaccine Section
	Pack size & Demanded Price	500, 1000, 2000, 5000, Dose each vial Decontrolled
	Products already registered in Pakistan	GALLIMMUNE 204 ND+IB SAADAT INTRNATIONAL
	Remarks of Evaluator: The virus strains are not specified in applied vaccine composition.	
	Decision: Deferred for confirmation of viral strain in applied vaccine composition.	
29.	Name and address of product manufacturer (Applicant)	M/S Intervac Pvt. Ltd 18 Km Lahore Sheikhupura Road , Sheikhupura Pakistan
	Brand Name +Dosage Form + Strength	INTERVAC 3 COMBO OIL BASED VACCINE
	Composition	Each 0.3ml Contains: Inactivated Newcastle disease virus, strain Lasota, at least….$10^{7.0}$ EID_{50} (Embryo infectious dose 50%). Inactivated Infectious Bronchitis virus, strain H 120, at least.$10^{5.0}$ EID_{50} (Embryo infectious dose 50%). Inactivated Egg Drop Syndrome (EDS) at Least.$10^{9.0}$ EID_{50} (Embryo infectious dose 50%).
	Pharmacological Group	Veterinary vaccine
	Finished Product Specification	Manufacturer's Specs
	Type of Form, Diary No. Date of R& I & fee	Dy no. 25860 Dated: 17-09-2021 Rs. 30,000/- (Slip # 3566017876)
	Shelf Life	Shelf-life: 12 months (2°C-8°C)
	Document Details	Copy of GMP certificate on 26-01-2021 wherein the panel rated the facility good and GMP Copy of Panel inspection for DML renewal on 19-06-2019 & 28-05-2019 wherein the panel rated the facility good and GMP has been recommended for following Biological sections: Vaccine Section
	Pack size & Demanded Price	300 ml Bottle, Decontrolled
	Products already registered in Pakistan	GALLIMUNE 302 ND+IB+EDS SAADAT INTRNATIONAL
	Remarks of Evaluator: Evidence of already registered product for applied product could not be confirmed. The strain of Egg Drop syndrome is not mentioned.	
	Decision: Deferred for following: • **Evidence of already registered product for applied product.** • **Confirmation of strain of Egg Drop Syndrome in applied vaccine composition.**	
30.	Name and address of product manufacturer (Applicant)	M/S Intervac Pvt. Ltd 18 Km Lahore Sheikhupura Road , Sheikhupura Pakistan
	Brand Name +Dosage Form + Strength	INTERVAC ND+IB+IBD OIL BASED VACCINE
	Composition	Each 0.3ml Contains: Inactivated Newcastle disease virus, strain LaSota, at least….$10^{7.0}$ EID_{50} (Embryo infectious dose 50%). Inactivated Infectious Bronchitis virus, strain H 120, at least...$10^{5.0}$ EID_{50} (Embryo infectious dose 50%). Inactivated Infectious Bursal Disease (IBD)- Virus$\geq 10^{4.0}EID_{50}$ (Embryo infectious dose 50%).
	Pharmacological Group	Veterinary vaccine

	Pack size & Demanded Price	300 ml Bottle, Decontrolled
	Products already registered in Pakistan	BIGOPEST ND+IB+IBD of SAADAT INTRNATIONAL
	Remarks of Evaluator: Evidence of already registered product for applied product could not be confirmed. The strain of Avian Infectious Bursal Disease is not mentioned.	
	Decision: Deferred for following: • **Evidence of already registered product for applied product.** • **Confirmation of strain of Avian Infectious Bursal Disease in applied vaccine composition.**	
31.	Name and address of product manufacturer (Applicant)	M/S Intervac Pvt. Ltd 18 Km Lahore Sheikhupura Road , Sheikhupura Pakistan
	Brand Name +Dosage Form + Strength	INTERVAC SHEEP POX VACCINE
	Composition	Each Dose Contains: Freeze-dried attenuated sheep pox virus strain RM/65……. not less than $10^{2.5}$ $TCID_{50}$ The contents of the vials are lyophilized and vacuum packed.
	Pharmacological Group	Veterinary vaccine
	Finished Product Specification	Manufacturer's Specs
	Type of Form, Diary No. Date of R& I & fee	Dy no. 25858 Dated: 17-09-2021 Rs. 30,000/- (Slip #5102768612)
	Shelf Life	Shelf-life: 2 years (2°C-8°C)
	Document Details	Copy of GMP certificate on 26-01-2021 wherein the panel rated the facility good and GMP Copy of Panel inspection for DML renewal on 19-06-2019 & 28-05-2019 wherein the panel rated the facility good and GMP has been recommended for following Biological sections: Vaccine Section
	Pack size & Demanded Price	50, 100, 200, 500, 1000 doses per vial Decontrolled
	Products already registered in Pakistan	JOVIVAC JOVAC (Jordan Bio Industry Centre)
	Remarks of Evaluator: Evidence of already registered product for applied product could not be confirmed.	
	Decision: Deferred for following: • **Evidence of already registered product for applied product.** • **Confirmation of lyophilized facility for manufacturing of applied vaccine.**	

Cases of AD-II (Mr. Saadat Ali Khan)

B: Imported Human Biologicals from Reference countries/WHO PQ.

32.	**Name, address of Applicant / Importer**	**M/s Pfizer Pakistan Limited,** **12 Dockard Road West Wharf Karachi.**
	Details of Drug Sale License of importer	**License No:** 029 **Address:**

		12 Dockard Road West Wharf Karachi. **Validity: 25-02-2023** Status: License to sell drugs by way of Whole sale.
	Name and address of marketing authorization holder (abroad)	M/s Pfizer Canada ULC, 17300 Trans-Canada Highway Kirkland, QC Canada, H9J 2M5.
	Name, address of manufacturer(s)	M/s Catalent Indiana, LLC 1300 South Patterson Drive Bloomington, Indiana (IN) 47403, USA
	Name of exporting country	Canada
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted original, legalized CoPP (No. 78703) dated 21-12-2021 issued by Health Canada. The CoPP specifies that the product is licensed for sale in country of origin but actually not available.
	Details of letter of authorization / sole agency agreement	Firm has submitted notarized copy of Letter of product specific authorization from Manager Regulatory Affairs Canada of *M/s Pfizer Canada ULC, Canada*. According to the letter, the firm *M/s Pfizer Canada ULC, Canada* authorizes "Pfizer Pakistan Limited" to be Market Authorization Holder in Pakistan and to be responsible for all matters pertaining to the regulation of this product in Pakistan. The letter was issued on 25-02-2022.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 766 (R&I) Dated 16-05-2022
	Details of fee submitted	PKR 150,000/-: 25-03-2022
	The proposed proprietary name / brand name	Abrilada 20mg/0.4mL
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (0.4mL) contains: Adalimumab ……20mg
	Dosage form of applied drug	Solution for Injection in Pre-filled Syringe
	Pharmacotherapeutic Group of (API)	TNF Blocker
	Reference to Finished product specifications	As per Innovator.
	Proposed Pack size	1's PFS

	Proposed unit price	Not Provided.
	Shelf Life	36 months
	Storage Conditions	2^0C-8^0C
	The status in reference regulatory authorities	HUMIRA® (adalimumab) injection 20 mg/0.4 mL in a single-use prefilled glass syringe.
	For generic drugs (me-too status)	The product in **40mg/0.8ml PFS** is already approved by the RB & under process for price fixation.
	Module-II (Quality Overall Summary)	Firm has submitted QOS on WHO Template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Wyeth BioPharma Division of Wyeth Pharmaceuticals LLC. One Burtt Road, Andover, MA 01810, USA
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at accelerated and real time conditions. The real time stability data conducted at --20^0C±5^0C is for 60 months for 4 batches and for 36 months for 03 batches. The accelerated stability data conducted at 5^0C±3^0C is for 6 months for 4 batches and for 9 months for 03 batches.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted that Validation of test methods performed to ensure the quality, identity, potency, purity, and safety of PF-06410293 drug product have been performed. The suitability of methods for their intended use was performed by assessment of all relevant validation elements described in International Conference on Harmonization (ICH) Guidelines on Validation of Analytical Procedures: Text and Methodology Q2 and the current USP <1225> Validation of Compendial Methods.
	Container closure system of the drug product	• 1 mL BD Hypak Type I Borosilicate glass with 29 gauge, ½ inch, thin-walled stainless steel staked needle, and

		thermoplastic elastomer (TPE) elastomeric needle shield that is not manufactured from natural rubber (latex) within a non-product contact rigid polypropylene cover. • 1mL West Pharmaceutical chlorobutyl elastomeric closure Plunger stopper
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 process validation batches. The accelerated stability study data is conducted at 30 ± 2^0C /60±5%RH for 6 months. The real time stability study data is conducted at 5 ± 3^0C for 36 months. The batches are not stable at accelerated conditions.
	Module-IV Non-Clinical	Summarized in Biosimilarity data.
	Module-V Clinical	Summarized in Biosimilarity data.

Bio similarity data as per WHO guidelines submitted by the firm is as follows:

WHO Biosimilarity Guidelines	**Data Submitted by the firm**
Quality Comparison • Physicochemical Characterization	• <u>Primary Structure and Posttranslational Modifications</u> a. Establishment and Verification of Adalimumab Amino Acid Sequence b. Characterization of Molecular Mass, Primary Structure and Posttranslational Modifications c. HILIC/MS - N-Linked Glycan Mapping d. N-LINKED GLYCAN STRUCTURE - SIALIC ACID ANALYSIS • <u>Charge Heterogeneity</u> a. Heightened Characterization of Charge Isoforms b. LC/MS Characterization of Charge Isoforms c. Characterization by Carboxypeptidase B Treatment d. Biological Activity of Charge Isoforms • **Disulfide Bonds** a. Characterization of Disulfide Bonds b. Sulfhydryl Analysis • **Higher order structure** a. Secondary Structure Characterization – Far-UV CD Spectroscopy b. Secondary Structure Characterization – FTIR Spectroscopy c. Tertiary Structure by Near-UV CD Spectroscopy d. Tertiary Structure Characterization – Intrinsic Fluorescence Emission Spectroscopy e. Thermal Stability Characterization – DSC f. Higher Order Structure - X-ray crystallography
Biological Activity & Immunochemical properties	• **Functional Characterization of the Fc domain** i. Characterization of Antibody-Dependent Cellular Cytotoxicity (ADCC) Function a. Primary NK Cell ADCC Assay

	b. PBMC ADCC Assay (FcγRIIIa 158 V/F donor genotype) c. PBMC ADCC Assay (Fc□RIIIa 158 F/F donor genotype) d. FcγRIIIa Reporter Gene Assay (FcγRIIIa RGA) e. Binding to FcγRIIIa by SPR Analysis ii. Characterization of Complement Dependent Cytotoxicity (CDC) Function a. CDC Assay b. C1q Binding ELISA c. CDC Effector Function Conclusion d. Mixed Lymphocyte Reaction (MLR) Assay e. Additional Fcγ Receptor Binding SPR Assays f. FcRn Binding SPR Assay • **Functional Characterization of the Fab Domain** i. Functional Assays Demonstrating Blockade of sTNF a. Inhibition of Apoptosis Assay b. Inhibition of ELAM-1 Expression Assay c. Binding to sTNF Target Antigen by ELISA ii. Functional Assays Demonstrating mTNF Binding Activity a. Binding to mTNF Target Antigen on NS0 Cells b. Reverse Signaling iii. Lymphotoxin alpha (LT-a) Binding Activity
Impurities	• <u>Product Purity</u> a. HMMS and Monomer – Size Exclusion HPLC b. Fragments and Heavy Chain + Light Chain - Capillary Gel Electrophoresis (Reducing) c. Intact IgG - Capillary Gel Electrophoresis (Non-Reducing)
Stability Studies	**Forced Degradation** Confirmation of similar degradation profiles forced degradation conditions of Elevated temperature, Light exposure, Forced deamidation and Forced oxidation with peracetic acid.
Non-clinical Comparison	**Primary Pharmacodynamic Studies** Already recorded in Biological Activity **Pharmacokinetic Studies** a. Quantitation of PF-06410293 and Adalimumab-EU in Cynomolgus Monkey Serum. b. Detection of Anti-PF-06410293 and Adalimumab-EU Antibodies in Cynomolgus Monkey Serum. c. Repeat-Dose Toxicokinetics
Clinical Comparison	i. A double-blind (Sponsor-open), randomized (1:1:1), parallel-group, 3-arm, single-dose, PK similarity study of PF-06410293 and adalimumab sourced from the US and EU administered SC in the lower abdomen by a PFS to healthy adult. ii. A double-blind (Sponsor-open), randomized (1:1:1), parallel-group, 3-arm, single-dose, definitive PK similarity study of PF-06410293 and adalimumab sourced from the US and EU administered SC in the lower abdomen by a PFS to healthy adult subjects.

	iii. An open-label, randomized (1:1), parallel-group, 2-arm, single-dose PK comparability study to assess the PK of PF-06410293 following SC administration in the lower abdomen or upper anterior thigh (alternative assignment in each device weight group) using a PFS or a PFP in healthy adult subjects iv. A multi-national, 2-arm, randomised (1:1), double-blind, parallel-group study designed to evaluate the safety, efficacy, population PK, and immunogenicity of PF-06410293 versus adalimumab-EU administered SC in the abdomen or thigh by a PFS, both in combination with methotrexate (MTX) to treat subjects with moderately to severely active RA who had an inadequate response to MTX therapy.

Remarks:
The CoPP submitted by the firm indicates that the product is licensed but not available in country of origin. The firm has submitted that Pfizer is currently preparing to launch **Abrilada** 20mg PFS in Canada & they will submit a marketed CoPP to DRAP as soon as possible following the launch in Canada. The firm has also submitted the **Abrilada** 20mg PFS product has not yet been launched in any country.

Decision: Registration Board deferred the case for submission of valid legalized CoPP / Free Sale Certificate from country of origin or any other reference regulatory authority wherein the product marketed/on free sale.

33.	**Name, address of Applicant / Importer**	M/s Novo Nordisk Pharma (Private) Limited, 113, Shahra-e-Iran, Clifton, Karachi.
	Details of Drug Sale License of importer	113, Shahra-e-Iran, Clifton, Karachi. Address of go-down: 208/1, Sector 23, KIA, Karachi Validity: 09-04-2023 Status: License to sell drugs by way of Wholesale.
	Name and address of marketing authorization holder (abroad)	M/s Novo Nordisk A/S, Novo Allé, DK-2880 Bagsværd, **Denmark**.
	Name, address of manufacturer(s)	Novo Nordisk Producão Farmacêutica do Brasil Ltda. AvenidaC, 1413 Distrito Industrial Minas Gerais, 39404-004 Montes Claros **Brasil.**
	Name of exporting country	**Denmark**
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** • Firm has submitted legalized copy of CoPP (No. 2022063130) dated 22-06-2022 issued by Danish Medicine Agency. The CoPP specifies free sale status of the product in EU with its availability. The CoPP also confirms the GMP status of the firm. • Periodicity of routine inspections: Every two years, but not exceeding three years.
	Details of letter of authorization / sole agency agreement	Firm has submitted attested and legalized letter of product specific authorization from Senior Vice President (Submissions and Life Cycle Management) of Novo Nordisk A/S, Denmark. According to the letter, the firm Novo Nordisk A/S, Denmark authorizes "M/s Novo Nordisk Pharma (Private) Limited" to be their wholly owned subsidiary and sole importer in Pakistan

		and to import, distribute & sale the product. The letter was issued on 21-06-2022.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒Domestic sale ☐ Export sale ☐Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 21524 dated 29 July-2022
	Details of fee submitted	PKR 75,000/-: dated 20/07/2022 Deposit Slip No. 28708777526
	The proposed proprietary name / brand name	**NovoMix® 30 Penfill® 100 U/ml** 3 ml Cartridge Suspension for injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Active Ingredient(s) Insulin aspart Biphasic (recombinant DNA) Each ml of suspension contains: 100 units soluble aspart*/protamine-crystallized insulin aspart* in the ratio 30/70 (equivalent to 3.5mg) 1 cartridge contains 3ml equivalent to 300 units. *Insulin aspart is produced in *Saccharomyces cerevisiae* by recombinant DNA technology
	Dosage form of applied drug	Suspension for injection (in Cartridge)
	Pharmacotherapeutic Group of (API)	Drugs used in diabetes. Insulins and analogues for injection, intermediate or long acting combined with fast acting. ATC code: A10AD05
	Reference to Finished product specifications	In-House/Innovator Specifications
	Proposed Pack size	Pack size of 5 and 10 cartridges
	Proposed unit price	To be submitted later
	Shelf Life	2 years
	Storage Conditions	Store in refrigerator (2°C – 8°C).
	The status in reference regulatory authorities	The product is registered in EMA.
	For generic drugs (me-too status)	The same product in Pre-filled pen is already registered.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries
	Name, address of drug substance manufacturer	M/s Novo Nordisk A/S, Novo Allé, DK-2880 Bagsværd, **Denmark**. (Preparation of master cell banks & working cell banks. M/s Novo Nordisk A/S, Novo Allé, 4400 Kalundborg, Denmark.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at long term and accelerated time conditions. The long term stability data is conducted at -20°C±5°C for 60 months with 3 batches as per claim shelf life of 60 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation /verification of product	Firm has submitted specification, analytical methods along with method validation.
	Container closure system of the drug product	The container closure system consists of four parts: 1. The closure system, consisting of a rubber closure with a cap. 2. The glass container, cartridge 3ml 3. The rubber plunger 4. The glass bead Both the cartridge and glass bead are produced from glass type I, colourless. The plunger is made of bromobutyl rubber. The rubber closure is sealed with a cap made of aluminium.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted 3 production scale batches stability study data biphasic insulin aspart 30, cartridge 3ml, 100 U/ml. The accelerated stability study data is conducted at 25°C±2°C for 6 months. The real time stability study data is conducted at 5°C±3°C for 24 months. Based on the stability results evaluated in this report, a shelf life

		of 24 months at 5°C ± 3°C is supported for biphasic insulin aspart 30 cartridge 3 ml, 100 U/ml.
	Module-IV Non-Clinical	The Firm has submitted following non-clinical studies: • Pharmacokinetics of BIAsp 30 and BHI 30 after s.c. Injection – Pigs. • Pharmacodynamics Studies of BIAsp 30 injected SC in the Pig. • Single Dose Toxicity Test in the Rat. • Immunogenicity of Fresh and Aged BIAsp 30 and Other Insulins in the Rabbit.. • Local Toxicity Tests in the Pig.
	Module-V Clinical	The Firm has submitted following clinical studies: • Long-term, multi-centre, multi-national, randomised (1:1) double blind, placebo controlled, two arm, parallel group • Randomised, multi centre, open label, two arm parallel group treat to target trial • Randomised, multi centre, open label, three arm parallel group treat to target trial • Non-randomised, multi-centre, one arm, three-period, observational, treat to-target trial • Randomised, multi-centre, open label two arm parallel group trial • Randomised, single centre, open-label 4 period cross over trial • A randomised, four period crossover trial in healthy subjects investigating the pharmacodynamics and pharmacokinetics of biphasic insulin aspart 30, biphasic insulin aspart 50, biphasic insulin aspart 70 and soluble insulin aspart. • Amended extension trial to: A randomised, four period crossover trial in healthy subjects investigating the pharmacodynamics and pharmacokinetics of biphasic insulin aspart 30, biphasic insulin aspart 50, biphasic insulin aspart 70 and soluble insulin aspart. A Multinational, Randomised, Open-labelled, Parallel Group Four Months Comparison of Twice Daily Biphasic Human Insulin 30 and Thrice Daily Biphasic Insulin Aspart in Subjects with Type 1 or Type 2 Diabetes. • An International, Randomised, Open-labelled Parallel Group Four Months Comparison of Basal Bolus treatment with Insulin Aspart Including NPH and Biphasic Insulin Aspart Formulations in Subjects with type 2 Diabetes • A Single-centre, Randomised, Open-labelled, Four-period Crossover Trial to Compare the Effect of Different Injection Times of s.c. Biphasic Insulin Aspart 30 and s.c. Biphasic Human Insulin 30 on Glucose Excursions after a Standard Mixed Meal in Subjects with Type 2 Diabetes • A Randomised, Double-blind, Single-centre, Two-Period Crossover Trial Investigating the

		Pharmacokinetics and Pharmacodynamics of NN-X14Mix30 and NN-X14Mix50 in Type 2 Diabetic Patients • Randomised, multi-centre, open-label, two arm, parallel, group treat to target trial • Randomised, multi-centre, open-label, three-arm, parallel group treat to target trial • Non-randomised, multi-centre, one arm, three period, observational, treat to target trial • Randomised, multi centre, two-arm, parallel group treat to target trail
Remarks of Evaluator:		
Decision: Keeping in view legalized CoPP issued by Danish Medicine Agency (reference regulatory authority); Registration Board approved the products subject to compliance of current Import Policy for finished drugs.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at long term and accelerated time conditions. The long term stability data is conducted at -20°C±5°C for 60 months with 3 batches as per claim shelf life of 60 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation /verification of product	Firm has submitted specification, analytical methods along with method validation.

	Container closure system of the drug product	The container closure system consists of four parts: 5. The closure system, consisting of a rubber closure with a cap. 6. The glass container, cartridge 3ml 7. The rubber plunger 8. The glass bead Both the cartridge and glass bead are produced from glass type I, colourless. The plunger is made of bromobutyl rubber. The rubber closure is sealed with a cap made of aluminium.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data for three process performance qualification (PPQ) batches of Biphasic insulin aspart 50, 100 U/ml, 3 ml cartridge manufactured at Site Tianjin, China have been stored for 9 months at long term storage conditions (5°C ± 3°C) and for 6 months at accelerated storage conditions (25°C $\pm 2^0$C). The long-term stability study stored at 5°C ± 3°C will continue until end of shelf life, 24 months. The accelerated stability study stored at 25°C ± 2°C has been completed.
	Module-IV Non-Clinical	The firm has submitted that BIAsp 50 and 70 are from a safety point of view an extension of BIAsp 30 (NovoMix 30: EMEA/H/C/308 and NovoLog Mix 70/30: NDA 21-172), which can be regarded as based on two mixing ratios of a soluble formulation of IAsp (50 and 70% respectively) and an NPH precipitation of IAsp (50 and 30% respectively). Based on these previous assessments, no further nonclinical studies for the BIAsp 50 and BIAsp 70 products have been conducted and the nonclinical evaluation shall refer to the previously conducted studies provided in prior applications. • Pharmacokinetics of BIAsp 30 and BHI 30 after s.c. Injection – Pigs. • Pharmacodynamics Studies of BIAsp 30 injected SC in the Pig. • Single Dose Toxicity Test in the Rat. • Immunogenicity of Fresh and Aged BIAsp 30 and Other Insulins in the Rabbit.. • Local Toxicity Tests in the Pig.
	Module-V Clinical	The Firm has submitted following clinical studies: • A Randomised, Double Blind, Single Centre, Three Period Crossover Trial Testing the Bioequivalence of Two Formulations of Biphasic Insulin Aspart 70 and Characterising the Pharmacokinetics of Biphasic Insulin Aspart 50 in Healthy Male • A single-centre, randomised, balanced, double-blind, cross-over trial investigating the

		bioequivalence of two formulations of Biphasic Insulin Aspart 50 in healthy male subjects • Single-Centre, Randomised, Balanced, Double-Blind, Cross-Over Trial Investigating the Bioequivalence of Formulation 2 and Formulation 4 of Biphasic Insulin Aspart 50 in Healthy Male subjects • A randomised, four period crossover trial in healthy subjects investigating the pharmacodynamics and pharmacokinetics of biphasic insulin aspart 30, biphasic insulin aspart 50, biphasic insulin aspart 70 and soluble insulin aspart. • Amended extension trial to: A randomised, four period crossover trial in healthy subjects investigating the pharmacodynamics and pharmacokinetics of biphasic insulin aspart 30, biphasic insulin aspart 50, biphasic insulin aspart 70 and soluble insulin aspart • Amended extension trial to: A randomised, four period crossover trial in healthy subjects investigating the pharmacodynamics and pharmacokinetics of biphasic insulin aspart 30, biphasic insulin aspart 50, biphasic insulin aspart 70 and soluble insulin aspart • A Stratified, Randomised, Double-Blind, Two-Period Crossover Trial Comparing the Pharmacodynamics and Pharmacokinetics of BIAsp 50 and BIAsp 70 in Non-obese and Obese Subjects with Type 2 Diabetes. • A Randomised, Double-blind, 4-week, Crossover Trial on two Treatment Regimens with Biphasic Insulin Aspart 70 and 50 in Patients with Type 2 Diabetes. • A Randomised, Open-labelled, Single-centre, Two-period Crossover Trial Characterizing the Pharmacokinetics and Pharmacodynamics of NN-X14Mix50 and NN-X14Mix70 in Healthy Male Subjects • An open-labelled, randomised, parallel group, multicentre, safety and efficacy study of NNX14Mix50 (BIAsp50) in a twice daily regimen in Type 2 diabetic subjects • A Randomised, Double-blind, Single-centre, Two-Period Crossover Trial Investigating the Pharmacokinetics and Pharmacodynamics of NN-X14Mix30 and NN-X14Mix50 in Type 2 Diabetic Patients • A Randomised, Double-blind, Single-centre, Two-Period Crossover Trial Testing the Bioequivalence of Two Formulations of NN-X14Mix50 in Healthy Japanese Subjects

Remarks of Evaluator:		
Decision: Keeping in view legalized CoPP issued by Danish Medicine Agency (reference regulatory authority); Registration Board approved the products subject to compliance of current Import Policy for finished drugs.		
35.	**Name, address of Applicant / Importer**	**M/s Novartis Pharma (Pakistan) Limited, 15 West Wharf, Karachi, Pakistan.**

	The proposed proprietary name / brand name	**Fraizeron** Solution for Injection 300mg/2ml in Pre-filled Pen
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each pre-filled Pen contains: Secukinumab.....300mg
	Dosage form of applied drug	Solution for Injection in Pre-filled Pen
	Pharmacotherapeutic Group of (API)	Interleukin Inhibitors
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	1's Pre-filled Pen
	Proposed unit price	Proposed MRP per pack shall be furnished later
	Shelf Life	24 Months
	Storage Conditions	2-8°C
	The status in reference regulatory authorities	Product is approved in EU, Switzerland & Australia
	For generic drugs (me-too status)	Product in 150mg Pre-filled Pen with brand name of **Cosentyx** is already registered.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Secukinumab: M/s Novartis Pharma S.A.S., Centre de Biotechnologie 8 rue de I'Industrie 68330 Huningue, France.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API on accelerated conditions conducted on 5 ± 3°C for 6 months duration and long-term conditions conducted on ≤ -60°C for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	To support development and establish the shelf-life of Fraizeron 300 mg/2 mL Solution for injection in auto-injector, a comparability assessment was performed between the 2 mL prefilled syringe assembled in auto-injector (Process A) and the 2 mL pre-filled syringe assembled in needle safety device along with marketed Cosentyx (Fraizeron) 150 mg/1 mL pre-filled syringe assembled in needle safety device and auto-injector.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	The container closure system for Fraizeron 300 mg/2 mL Solution for injection in pre-filled autoinjector consists of a sterile, single use, pre-filled syringe (PFS) as the primary packaging component and auto-injector; a device constituent that is used in combination with the PFS for drug delivery.
	Stability study data of drug product, shelf life and storage conditions.	Firm has submitted the long-term stability study data at 5 ± 3°C for the duration of 24 months. The accelerated stability study is conducted at 25 ± 2°C / 60 ± 5 % RH and intermediate (30°C/75%RH) storage conditions. Additionally, stress storage (40°C/75%RH) conditions are tested to support comparability studies during development.
	Module – IV Non-Clinical	Characterize the primary pharmacological properties of secukinumab and a mouse anti-mouse IL-17A surrogate antibody BZN035. Characterize the comparative pharmacology and biology of secukinumab and BZN035 Establish a pharmacological basis for the intended clinical use. Develop a suite of bioanalytical, pharmacodynamic, and immunogenicity assays in order to understand drug disposition and exposure effect relationships in in vivo studies.

		Characterize the nonclinical disposition properties of secukinumab and BNZ035. Conduct a series of safety pharmacology and toxicology studies adhering to international guidelines, and establish a thorough understanding of the potential toxicities of secukinumab for the intended clinical use. Establish the comparability of the drug product produced during the course of the development program through repeated testing. Ensure compliance to globally accepted GLP regulations where applicable.
	Module-V Clinical	The clinical development program supporting the registration of the new dosage forms for secukinumab 300 mg/2 mL s.c. injection included three studies: A Phase I pharmacokinetics (PK)/tolerability study of six different injection methods including the approved 1 mL PFS and 1 mL AI in healthy subjects. A Phase III efficacy, PK, safety and tolerability study of 2 mL PFS in moderate to severe plaque psoriasis patients. A Phase III efficacy, PK, safety and tolerability study of 2 mL AI in moderate to severe plaque psoriasis patients.
	Remarks:	
	Decision: Keeping in view legalized CoPP issued by Swissmedic Switzerland (reference regulatory authority); Registration Board approved the products subject to compliance of current Import Policy for finished drugs.

	Storage Conditions	2°C to 8°C
	The status in reference regulatory authorities	**WHO Prequalified**
	For generic drugs (me-too status)	**SKY Varicell Inj. 0.5mL/ dose/ vial** **Each dose of 0.5mL of reconstituted vaccine contains:** Live attenuated varicella-zoster virus (virus strain: Oka/SK, Cell line: MRC_5) ≥2400 PFU Pack size: 5's, Price: 5,8880/dose, Reg. No.111109
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO Format. Firm has summarized information related to nomenclature, structure, general properties, manufacture, characterization, control of the API, Justification of specifications, Reference standard or materials, Container Closure System, Stability of drug substance. The firm has also summarized information of drug product including description and composition, pharmaceutical development, manufacture, control of excipients, control of Finished Pharmaceutical Product, reference standard or materials, container closure system and stability.
	Name, address of drug substance manufacturer	Sinovac (Dalian) Vaccine Technology Co., Ltd. No. 36, 2nd Life Road, DD Port, Economic and Technical Development Zone, Dalian, Liaoning Province, P.R. China
	Module-III Drug Substance:	Firm has submitted drug substance related data containing: General Information, Manufacture, Characterization, Control of Drug Substance, Reference Standards or Materials, Container Closure System, Stability
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of three batches. The stability of single virus harvest of Varicella Vaccine, Live stored in stainless-steel bottles below -60°C for 35 days, and the shelf life of the single virus harvest is 30 days. And the stability of bulk of Varicella Vaccine, Live stored in stainless-steel bottles below -60°C for 13 months.

	Module-III Drug Product	Firm has submitted drug product related date including Description and Composition, Pharmaceutical Development, Manufacture, Control of Excipients, Control of Drug Product, Reference Standard or Materials, Container Closure System and Stability.
	Analytical method validation/verification of product	Firm has submitted analytical procedures along with validation.
	Container closure system of the drug product	Primary packaging is Injection Vial (2mL tubing made of neutral borosilicate glass) with Stopper for Injection Vial (Brominated butyl rubber stopper) Cap (Cap made of aluminum-plastics combinations)
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability studies performed on the product for real time storage conditions +5˚C ± 3˚C for 24 months, accelerated condition 25˚C ± 2˚C for 6 months.
	Module-IV	• Single-dose toxicity was studied through Acute Toxicity Test of Subcutaneous Injection of Varicella Vaccine, Live in Mice. • Repeat-dose toxicity was carried out by Toxicity Test of Repeated Subcutaneous Injection of Varicella Vaccine, Live in Macaca fascicularis for 6 Weeks Followed by a 6-week Recovery Period.
	Module-V	• Randomized, double blind, controlled design to emonstrate the safety of varicella vaccine in population of different age groups. (**Phase-I**) • Randomized, double blind, placebo- controlled design to Evaluate the efficacy, immunogenicity and safety of Varicella Vaccine in healthy children (**Phase-III**) • Randomized, double blind, bridging design, Evaluate the lot consistency of the three consecutive lots of vaccine in commercial scale among healthy children. (**Phase-III**)
	Remarks	
	Decision: Keeping in view legalized CoPP and WHO Prequalification (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.	

B. Human Biological from Non-Reference

37.	**Name, address of Applicant / Importer**	M/s Himmel Pharmaceuticals (Pvt.) Ltd. 793-D, Block ‘’C’’, Faisal Town Lahore.
	Details of Drug Sale License of importer	License No: 05-352-0065-016174-D Address: 793-D, Block-C, Faisal Town Lahore Address of Godown: NA Validity: 06.Feb.2024 Status: License to sell drugs as distributor

	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP:** Original legalized COPP (Certificate# DA/6-110/2016/3353 issued on 04-06-2020 by Government of the people's republic of Bangladesh, Ministry of Health & Family welfare, Directorate General of Drug Administration, Oushad Bhaban, Mohkhali Dhaka-1212, Bangladesh. **GMP:** Firm has submitted Legalized GMP certificate (Certificate No. DA/6-110/06/10002) issued by M/s Beacon Pharmaceuticals limited. Also Renewal certificate is submitted (Certificate No. DA/6-110/06/4950).
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of distribution certificate from Beacon Pharmaceuticals limited. The letter specifies that the manufacturer appoints M/s Himmel Pharmaceuticals Pvt. Ltd. to register their products in Pakistan. The authorization letter is valid till June, 2025.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No32920 Dated 10.12.2020 Dy. No.8733 Dated 05.04.2022, Dy. No 1531 Dated 17.01.2023
	Details of fee submitted	PKR: 50,030/- Date: 10-12-2021
	The proposed proprietary name / brand name	Pembroxim Injection 100mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 4 ml contains Pembrolizumab INN….100mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anti-cancer
	Reference to Finished product specifications	In house
	Proposed Pack size	1 s
	Proposed unit price	As per current pricing policy of DRAP
	The status in reference regulatory authorities	Keytruda 100mg
	For generic drugs (me-too status)	NA
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and

		controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Geneway Bio-Technology co., Ltd Address: No. 6 Anmin Road, Huangdai Town, Xiangcheng, Suzhou, Jiangsu China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 25°C ± 2°C / 60 ± 5% RH for 12 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Comparative analysis Studies against the reference product Keytruda (Merck sharp & Dohme, B.V Netherlands) has been submitted
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Type 1 Glass Vial
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. Accelerated stability studies have been conducted at 40°C±2°C and 75%±5% RH for 6 months. Real time stability studies conducted at 2 °C -8 °C and 65% ± 5% for 24 months

Bio-similarity studies:

WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	**a) Primary Structure:** i. Amino acid sequence by LC-MS & MS/MS ii. N-terminal sequence by LC-MS. iii. C-terminal lysine by LC-MS. iv. N-glycosylation site by Liquid Chromatography with tandem mass spectrometry (LC-MS-MS) **b) Secondary Structure & high order Structure** i. Intact mass by LC-MS ii. Disulfide bond by LC-MS iii. Free thiol (Ellman's) iv. Circular Dichroism (Secondary Structure) by Far spectrogram.

	v. Thermostability by differential fluorimetry (DSF) **c) Heterogenicity** i. Glycan by LC-MS ii. Heterogenicity of glycosylation by FLD-HPLC iii. Isoelectric point by CIEF iv. Charge variant (CEX-HPLC
Biological Activity	Biological activity by: • PD-I binding activity by ELISA
Impurities	• Purity by SEC-HPLC • Purity by CE-SDS • Protein A by ELISA • DNA residual by qPCR • Host cell protein by ELISA
Stability Studies	Stability studies are provided.
Non-clinical Studies	Primary pharmacodynamics by: • Binding to PD-I • Inhibitory effect against binding of PD-I to PD-L1 or PD-L2 • One month repeated doses toxicity study in monkeys • Six months repeated doses toxicity study in monkeys
Clinical Studies	Comparative clinical study has not been submitted.

Evaluation:
The firm has not submitted non-clinical & clinical study data from its finish product manufacturer (Exporter M/s Beacon Pharmaceuticals Limited Bangladesh) instead all non-clinical & clinical study conducted by the bulk manufacturer (Geneway Bio-Technology co., Ltd China) have been submitted. Comparative clinical trial data has not been submitted.

The firm has submitted guidelines of the country of origin (Bangladesh) wherein it has been mentioned in Annexure 1 that clinical trial report from bulk manufacturer may also be submitted instead of clinical trial report conducted in Bangladesh. For the regulatory (free sale) status of the finished product the has submitted a statement/declaration wherein it has been mentioned that
"Nivolumab drugs are covered under the patent rules in China, that's why these generic products Cannot be registered in NMPA (National Medical Product Administration) China, till the expiry of patent. As per China drug regulation we can perform clinical trials of Nivolumab and Pembrolizumab which are not registered in China."

Decision: Registration Board deferred the case for the following clarification /data/information:

a) Regulatory status of products in various countries where the bulk of the product is exported.
b) Publication of clinical trial in any peer reviewed journal.
c) Data of Periodic Safety Updated report of applied formulation marketed in Bangladesh.

Case: Deferred case of Nivolunix 40mg Injection applied by M/s Himmel Pharmaceuticals (Pvt) Ltd Lahore.

The following products of M/s Himmel Pharmaceuticals (pvt) Ltd Lahore was deferred in 32^{3rd} meeting of Registration Board as per following details.

38.	**Name, address of Applicant / Importer**	**M/s Himmel Pharmaceuticals (Pvt.) Ltd, 793-D, Block 'C', Faisal Town, Lahore-54000, Pakistan**
	Details of Drug Sale License of importer	**License No:** 05-352-0065-0016174D **Address:** 793-D, Block 'C', Faisal Town, Lahore-54000, Pakistan **Address of go-down: N/A** **Validity: 06-02-2022** **Status:** License to sell drugs by way of Distributor

	Name and address of marketing authorization holder (abroad)	M/s Beacon Pharmaceuticals Limited **Plant address**: Kathali Bhaluka Mymensingh **Bangladesh.** **Office Address**: 9/B/2 Toyenbee Circular Road Motijheel, Dhaka 1223 Bangladesh
	Name, address of manufacturer(s)	-do-
	Name of exporting country	Bangladesh
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP:** Firm has submitted original legalized COPP (DA/6-110/2016/3355) issued on 4-June-2020 **by** Directorate General of Drug Administration Ministry of Health & Family welfare Government of the people's republic of Bangladesh. The CoPP specifies free sale status of the product in country of origin along with its availability. The CoPP also confirms the GMP status of the firm. (Periodicity of routine inspection:2years)
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific letter of authorization dated 02-06-2020 from Beacon Pharmaceuticals limited. The letter specifies that the manufacturer appoints M/s Himmel Pharmaceuticals Pvt. Ltd. to register & sell their products in Pakistan.

Registration board in it 323rd meeting deferred the case as per following details.
Registration Board deferred the case to confirm the relevant guidelines and regulatory (free sale) status of the finished product manufactured by the same bulk in China.

The firm has submitted guidelines of the country of origin (Bangladesh) wherein it has been mentioned in Annexure 1 that clinical trial report from bulk manufacturer may also be submitted instead of clinical trial report conducted in Bangladesh. For the regulatory (free sale) status of the finished product the has submitted a statement/declaration wherein it has been mentioned that
"Nivolumab drugs are covered under the patent rules in China, that's why these generic products Cannot be registered in NMPA (National Medical Product Administration) China, till the expiry of patent. As per China drug regulation we can perform clinical trials of Nivolumab and Pembrolizumab which are not registered in China."

Decision: Registration Board deferred the case for the following clarification /data/information:

a) **Regulatory status of products in various countries where the bulk of the product is exported.**
b) **Publication of clinical trial in any peer reviewed journal.**
c) **Data of Periodic Safety Updated report of applied formulation marketed in Bangladesh.**

40. Case No. Local human Biological applied for registration by M/s Hilton Pharma Karachi deferred in 320th meeting of RB.

The following product for the local manufacturing biological drug was considered in 262nd Meeting of Registration Board held on 20-21stOctober, 2016 and the Board decided as under;

Central Licensing Board has approved the manufacturing facility for rDNA products, As product is also of rDNA origin, which is evident from the provided certificate of analysis and other documents, thus Registration Bard approved Gluwell- Base 3ml Cartridge (Insulin Glargine 100IU). Insulin glargine will be imported in crystalline form from M/s Biocon India and will be formulated locally at M/s Hilton Pharma Karachi.

But later on the Registration Board in its 270th meeting advise the division of Biological drugs to come up with working paper in the next meeting. The final guidelines regulatory requirements of Biological drugs using rDNA technology was approved in 278th meeting of Registration Board and it was mentioned in the Guidelines that "***For the already registered drugs for local manufacturing the current guidelines shall apply".***
And the firm was advised to submit Biosmilarity data in light of decision of 278th meeting of Registration Board. The data submitted by the firm was taken up in 296th meeting of Registration board wherein the Board deferred by deciding as under;

Registration Board referred the case to Committee on Biological Drugs constituted in 273rd meeting of Registration Board for its recommendations on the requirements of toxicity studies and abnormal toxicity studies. Moreover, Registration Board nominated Lt. Gen. (R) Prof. Dr. Karamat Ahmed Karamat (HI-M, SI-M) as Chairman of said committee. However, following documents need to be submitted by the firm:

i. Legalized GMP certificate of drug substance manufacturer abroad.
ii. Legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.
iii. Data of sterility test performed locally on finished drug.

iv. An agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.

The detail of the product as under;

41.	Name of Manufacturer	M/s Hilton Pharma (Pvt.) Ltd. 13, sector 15, Korangi Industrial Area, Karachi.
	Manufacturing site of Bulk.	M/s Biocon Biologics Limited, Block No. M1, M2 and M6, Q1 (QC3 and QC10) & W3, 20th km Hosur Road, Electronics City, Bengaluru, 560100, India
	Brand Name +Dosage Form + Strength	Gluwell-Base 3ml Cartridge Insulin glargine (100IU/ml)
	Composition	Each ml cartridge contains: Insulin glargine ……100IU
	Finished product specifications	USP Specification
	Pharmacological Group	Therapeutic Protein
	Shelf life	2 years when stored at 2-8 ^{O}C
	Products already registered in Pakistan	Lantus by Sanofi
	Type of Form Dy No & Date of application, Fee submitted	Form-5, Dy No & Date of initial Application. Dy No.2924/2016(R&I) dated 27-06-2016, Dy No.4814(R&I) dated 21-02-2022, Dy No.5672(R&I) dated 01-03-2022, Dy No.19367(R&I) dated 01-07-2022, Dy No.22963(R&I) dated 15-08-2022 Rs. 20,000 dated 27-06-2016
	Demanded Price / Pack size	Price: As per DPC 3ml Cartridge Pack of 1's ,3's & 5's

The *Committee on Biological Drugs* revised the Biosmilarity guidelines which was approved in 297th meeting of Registration board. And the firm submitted data as per above mentioned decision of the Board which was evaluated tabulated below;

Documents required as per 297th RB decision for Biological Drugs (Concentrated Form/Ready to fill Form)	**Documents submitted by firm**
The firms shall provide legalized GMP certificate (issued by relevant regulatory authority) of biological drug substance manufacturer abroad (who will provide concentrate / ready to fill bulk of biological drug to Pakistani manufacturers for further processing) as an evidence that the manufacturer is an authorized manufacturer of biological drug in the country of origin. Submission of valid GMP is exempted, if valid GMP status is evident from official website of regulatory authority of country of origin.	The firm has submitted legalized copy of GMP issued by Drug Control Department, Govt of Karnataka. The same site also indicated on Eudra GMP for Active Substance (Drug substance) of INSULIN GLARGINE along with others APIs.
The firms shall provide legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority (or its website) as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.	The firm has submitted that the bulk manufacturing site of the firm is "*Block No. M1, M2 and M6, Q1 (QC3 and QC10) & W3, 20th km Hosur Road, Electronics City, Bengaluru*" while finished products are manufactured from the same bulk on other site of the company i.e. "*M/s Biocon Biologics Limited, Block B1,B2,B3,B4 Q13 of Q1 And W20, & Unit S18, 1st Floor, Block B4, Special Economic*

	Zone, Plot No 2,3,4 And 5 Phase IV Bommasandra Jigani Link Road, Bengaluru, 560099, India." Instead of Free Sale Certificate of finish product manufactured from the same bulk the firm has submitted DML. The firm has submitted legalized copy of Drug Manufacturing License (DML) of the M/s Biocon Biologics Limited India with list of products attached wherein Insulin Glargine 3ml,5ml,10ml vials, 3ml Cartridge & 3ml Prefilled Pen are mentioned in permitted to manufacture for domestic purpose & in the same list the export purpose only list is separately mentioned.
The firm shall provide the complete Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured either from country of origin or by any reference regulatory authority as adopted by Registration Board to demonstrate the biosimilarity. However, it will not be required if the finished drug product was approved before implementation of biosimilarity in the said country and finished drug product is still freely available and the firm shall provide the safety, efficacy data of finished drug product as per applicable regulatory requirements at that time.	Provided & Evaluated below
The firm shall provide the lot release certificate of the finished product manufactured by same bulk concentrate/ ready to fill from country of export (If applicable).	The firm informed that no Lot release certificate is required for such types of product in India. (The letter is from the importer side)
The firm shall provide the 6 months accelerated and real time stability studies for drug substance & drug product manufactured locally.	Provided
The local manufacturer shall manufacture three trial batches (quantity sufficient to meet the complete testing up to the assigned shelf life both for real time and accelerated stability studies) of the finished biological product to finalize the formulation and then perform tests as per following order: i. Latest Pharmacopoeia ii. Innovator Product iii. Reference Biotherapeutic Product iv. In case aforementioned tests are not available then tests as adopted by drug substance manufacturer shall be followed.	Provided results for the following tests: Appearance, Identification, PH, Product related substances and impurities, Limit of High Molecular weight proteins, m-cresol Content, Assay (Insulin Glargin), Zinc determination, Bacterial Endotoxin test & sterility test. Test result of Abnormal toxicity study conducted from HEJ Research institute is also submitted.
The manufacturer shall perform all tests locally as mentioned on Certificate of analysis of finished product of drug substance supplier in case of non-pharmacopoeial product.	Submitted as mentioned above
The firm shall also provide the list of finished products being manufactured from same bulk concentrate or ready to fill form in any country of the world (if available).	Provided
The firm shall provide the agreement with the source (of bulk concentrate/ready to fill) that if there shall be any critical change in manufacturing process, biological systems used to manufacture, etc. the firm shall inform DRAP immediately along with relevant documents.	Submitted.

Regular monitoring through pharmacovigilance reporting system shall be observed through proper pharmacovigilance cell of the manufacturer and report will be forwarded to the National Pharmacovigilance Centre, Division of Pharmacy Services and Biological Division of DRAP. In case of any severe adverse event, immediate mandatory reporting procedure shall be followed.	The firm has provided SOP for Pharmacovigilance Surveillance. The firm has also provided Commitment on its letter head mentioning the said statement.
The firm shall inform DRAP if there shall be any adverse event or ADR reporting from the country of manufacture of concentrate/ready to fill bulk and finished product as required vide Rules 30 of Drug (LR&A) Rule.	Commitment provided on the letter head
If any of the conditions is not fulfilled or public health risk reported at any stage, the drug registration shall stand cancelled with immediate effect.	Commitment provided on the letter head
All the provisions as contained in the Drugs Act, 1976 and rules made there under including provisions of Lot Release certification from National Control Laboratory for Biologicals shall be strictly adhered to.	Commitment provided on the letter head
For the already registered drugs for local manufacturing, the current guidelines shall apply at the time of renewal of product.	

Bio-similarity studies of the finished product of same source (bulk concentrate or ready to fill) manufactured from country of origin.	
WHO Bio-similarity guidelines	**Data submitted by the firm**
Quality Comparison Physicochemical characterization	**d)** Protein Content at UV 280 (by RP-HPLC method) **e) Primary Structure:** v. Intact Mass determination by Liquid Chromatography-mass spectrometry (LC-MS) vi. Molecular Mass (Reduced mass) determination by LC-MS vii. Peptide Mapping (Reduced) by LC-MS viii. Peptide sequencing by Liquid Chromatography with tandem mass spectrometry (LC-MS-MS) **f) Secondary Structure & high order Structure** vi. Peptide mass fingerprinting under non –reducing conditions for confirmation of disulfide linkage by LC-MS vii. Disulfide linkage by 2D NMR viii. Secondary Structure by FT-IR spectroscopy ix. Circular Dichroism (Secondary Structure) by Far spectroscopy. x. Circular Dichroism (Tertiary Structure) by Near spectroscopy. xi. Determination of thermal stability by mean of Differential scanning calorimetry DSC xii. Determination of Isoelectric point (pI) by means of capillary isoelectric focusing (cIEF)
Biological Activity	Biological activity was carried out for insulin glargine injections by means of four different methods:. • Cell bases metabolic assay, • Cell bases proliferation assay (Mitogenic assay) • Insulin receptor binding assay • IGF-1 receptor binding assay. Additionally in vivo bioassay /Insulin assay (USP 121 & USP 111) : Rabbit blood sugar method
Impurities	Determination of product related substances (Glycosylated species precursor, Sequence species Deamidation/Acetylation by mean of RS method
Stability Studies	Stability studies are provided.

Non-clinical Studies	**Repeat dose toxicity study:** A comparative 90-day toxicity study with recombinant Insulin Glargine (Biocon Ltd) and Lantus (Aventis Pharma) in Wistar Rats by subcutaneous route (Study no. G4668)
Clinical Studies	Phase-I study: A Single dose, randomized, double-blind, 3- way crossover, euglycemic clamp study to measure relative PK & PD of Biocon's insulin glargine (vials) with Lantus-EURP (cartrdges) and Lantus-USRLD (disposable Pens). Clinical Pharmacology Study of FFP-112 in Healthy Male Adults by Glucose Clamp Procedure-Pharmacokinetic and Pharmacodynamic Analyses. (Comparative with Lantus) Open Label, Randomized, Multicentric Study to Establish Safety and Efficacy of Recombinant Insulin Glargine Manufactured by Biocon Ltd Compared to Lantus TM in Type 1 Diabetes Mellitus Patients. **(Total 226 evaluable patients)**

The case was deferred in 320th meeting Registration Board as per following:

i. Valid legalized free sale certificate/CoPP either from country of origin or by any reference regulatory authority (or its website) as adopted by Registration Board of finished product as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.
ii. Justification of performing open label safety and efficacy study instead of double-blind study.

The firm has submitted copy of Free Sale Certificate (FSC) along with under taking that they will submit the legalized Free Sale Certificate once received. For justification of open label safety and efficacy study instead of double-blind study the firm has submitted the following which is reproduced as under;
"According to FDA Guideline "Clinical Immunogenicity consideration for biosimilar and interchangeable insulin products" and updated recommendation from the European medicines' agency, which published revised guideline in 2015, A comparative clinical study immunogenicity study generally would be unnecessary to support a demonstration of bio similarity or interchangeability. Guideline attached as Annex-I.
Furthermore, European Medicine Agency (EMA) no longer recommends a clinical immunogenicity study to support a bio-similar marketing application.

As per Minutes of 323rd Meeting of Drug Registration Board the same product of "Recombinant Insulin Glargine" (of M/s Getz Pharma) has been approved on the basis Clinical Studies "Open label, comparative, randomized, multicenter clinical study", Minutes of 323rd Meeting of Drug Registration Board attached as Annex-II**."**

Decision: Keeping in view the Biosmilarity data submitted by the firm in light of guidelines approved in 297th meeting of Registration Board, the Board approved the product subject to submission of valid legalized free sale certificate/CoPP either from country of origin as evidence that the final product has been manufactured by same concentrate/ready to fill bulk.

Cases of AD-III (Ms. Haleema Sharif)

Case No. 1: Imported Veterinary Biologicals from Non-Reference Countries:

42.	**Name and address of Importer**	**M/s Orient traders international,** CM-10, Block A, Kazimabad, Model Colony, Karachi.
	Detail of DSL	**M/s Orient traders international** Address: CM-10 Block -A, Kazimabad, Model Colony, Karachi. Valid till: 25-07-2022
	Name and address of Manufacturer	**Manufacturer of Drug:** **/Marketing Authorization Holder:** Pharmagal-Bio, spol. s.r.o. Murgasova 5, 949 Nitra Slovak Republic.
	Name of exporting country	EU-Slovak Republic
	Brand Name +Dosage Form + Strength	Avipharm ND
	Diary No. Date of R& I & fee	Dy. No. 22598 R&I Dated 17-08-2021 Rs. 150,000/- (Slip No. 9176574968)

	Composition	Lyophilizate for suspension Each dose contains: Newcastle disease Virus, live strain Lasota min. 10^6 EID_{50} – 10^7 EID_{50}
	Pharmacological Group	Veterinary Vaccine
	Type of Form	Form-5A
	Finished Product Specification	Ph. Eur. specifications
	Shelf Life	24months----(2-8ºC)
	Document Details	**i. <u>Certificate of Pharmaceutical Products (Original Legalized):</u>** Certificate of Pharmaceutical Product confirming Free sale Status and GMP is submitted by firm. Certificate No.3057/I/2021 Manufacturer/Product License Holder: Pharmagal-Bio, spol. s.r.o. Murgasova 5, 949 Nitra Slovak Republic. Issued by: Institute for State Control of Veterinary Biologicals and Medicaments. **ii. Original legalized Product Specific Sole Agency Agreement made on March 01, 2022 is submitted by the firm.**
	Pack size & Price	5000doses per Vial: Decontrolled
	Reference Regulatory Authority Availability	N/A
	Products already registered in Pakistan	Avipharm ND (1000 doses) is already registered Reg No. 107934. Pestikal LaSota® (Lyophilisate for suspension) Reg No. 088663 Each single dose vaccine contains: Lentogenic live Newcastle disease virus, LaSota strain…..≥106.0EID50)
	Remarks of Evaluator	
	Decision: Keeping in view the legalized COPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance of current Import Policy for finished drugs.	
43.	**Name and address of Importer**	**M/s Orion Group, Faisalabad,** 97 Commercial Area, Usman Block, Muslim Town No. 1 Sargodha Road, Faisalabad
	Detail of DSL	**M/s Orion Group, Faisalabad,** Address: 97 Commercial Area, Usman Block, Muslim Town No. 1 Sargodha Road, Faisalabad Valid till: 22-Jan-2023
	Name and address of Manufacturer	**Manufacturer of Drug:** M/s. DOLLVET VETERINER ASI Ilac Madde Uretim Sanayi Ve Ticaret A.S. Address: Oragnize Sanayi Bolgesi Kocoren OSB Mahallesi. 106. Cad. No:6 Eyyubiye / SANLIURFA/TURKY
	Name of exporting country	Republic of Turky
	Brand Name +Dosage Form + Strength	TAYLEDOLL INJECTABLE
	Diary No. Date of R& I & fee	Dy. No. 17000 R&I Dated 14-07-2020 Rs. 100,000/- 14-07-2020
	Composition	Each dose contains: Lymphoid cell infected by living attenuated Theileria annulata macroschizoids… at least 1×10^7 lymphoid cells.

	Pharmacological Group	Vaccine
	Type of Form	Form-5A
	Finished Product Specification	Manufacturer's Specifications
	Shelf Life	3years
	Document Details	**Original Legalized Free Sale Certificate:** Manufacturer: M/s. DOLLVET BIYOTTNOLOGI A.S. **Original Legalized Free Sale Certificate:** Issued to: M/s. DOLLVET BIYOTTNOLOGI A.S. Valid till 23 May 2023. **Original Legalized Free Sale Certificate:** Product specific Sole agency agreement dated 15th June, 2021 is submitted by the firm.
	Pack size & Price	10ml
	Reference Regulatory Authority Availability	N/A
	Products already registered in Pakistan	
	Remarks of Evaluator	In response to this division's letter dated13th July 2021 firm has submitted following: i. Copy of valid DSL ii. Original Legalized GMP certificate and Original Legalzed Free sale certificate indicating diluent. iii. Stability studies for diluent. iv. For already registered product firm has referred to the decision of Registration Board taken in its 313th meeting wherein the Board approved ***Teylovac Vaccine of M/s. Huzaifa International*** from Turkey with following composition: Brand Name:Teylovac Vaccine Composition: Live Attenuated Freez Dried Theileria Annulata Cells Based Vaccine with Diluent Each Dose of Vaccine Contains: Theileria Annulata…. 1×10^7 Cells. *Following documents are still required by firm.* *i. Stability studies of lyophilized part of product at appropriate time intervals 0,3,6,9, … for three batches is required.* *ii. Title of firm on Submitted GMP and FSC are different then Form 5A so firm may be advised to apply for change in title of manufacturer.*
	Decision: Registration Board deferred the case for the following: **i. Submit Stability studies of lyophilized part of product at appropriate time intervals 0,3,6,9, … for three batches.** **ii. Apply for change in title of manufacturer as Title of firm on Submitted GMP and FSC are different then Form 5A.** **iii. Submit evidence of required manufacturing facility i.e. protozoal vaccine section of manufacturer.**	

Case No. 2: Imported Human Biological applied by M/s Dow Institute of Life sciences deferred in 323rd meeting of Registration Board.

44.	**Name, address of Applicant / Importer**	**M/s Dow Institute of Life sciences,** **Ojha Campus, Suparco Road, off main University road, Gulza-e-Hijri, Scheme 33, Karachi**
	Details of Drug Manufacturing License	**License No: 000915** **Address:** Ojha Campus, Suparco Road, off main University road, Gulza-e-Hijri, Scheme 33, Karachi

		Status: License to manufacture by way of formulation.
	Name and address of marketing authorization holder (abroad)	Bulk manufacture: M/s. Changchun Zhuoyi Biological Co., Ltd Address: No.2 Yongxin Road, Economic Development Zone, Shuangyang district, Changchun City Jilin Province, China.
	Name, address of manufacturer(s)	(Bulk Import Local Repack) M/s Dow Institute of Life sciences, Ojha Campus, Suparco Road, off main University road, Gulza-e-Hijri, Scheme 33, Karachi
	Name of exporting country	China (bulk import local repack)
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	Original Legalized CoPP No. 20220002 is submitted by the firm.
	Details of letter of authorization / sole agency agreement	N/A Bulk import local repack
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	For imported products, specify one the these	☐ Finished Pharmaceutical product import ☒ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No.24366 (R&I) Dated 22.09.2020
	Details of fee submitted	Rs. 100,000/-
	The proposed proprietary name / brand name	**Dow-RAB Lyophilized Powder for Injection** **Rabies Vaccine(Vero Cell) for Human Use**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Lyophilized Part:** Each dose of lyophilized vaccine for immunizing dose(0.5ml) contains: Purified, Inactivated Rabies Virus ….2.5IU (Prepared on Vero cells CTN IV strain of Rabies virus) **Diluent Part:** Each ampule contains: Sterile water for injection…. 0.5ml
	Dosage form of applied drug	Powder for Injection
	Pharmacotherapeutic Group of (API)	Viral Vaccines
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	USP type I clear transparent glass vial, 1's vial with 0.5ml diluent
	Proposed unit price	As per SRO/DPC

	Shelf Life	24 months
	Storage Conditions	2-8 ºC
	The status in reference regulatory authorities	WHO Prequalified Product VERORAB (Inactivated Rabies Virus, Wistar Rabies PM/WI38 1503-3M strain)
	For generic drugs (me-too status)	**VaxiRan-N Rabies Vaccine of Hakimsons (Impex) (Private) Limited,** Each vial of lyophilized powder contains: Inactivated rabies virus (Pitman Moore Strain) Potency: ≥ 2.5 IU; Sterilized water for Injection for VaxiRab-N: one ampoule of 1ml sterilized water for Injections **Chirorab of StratHealth Pharma Pvt Ltd** Each dose of 1ml contains: Inactivated rabies virus (Flury LEP strain), (inactivated by ß-propiolactone), potency: ≥ 2.5 I.U (propagated in primary chick fibrolast cell cultures); Sterile water for injection (as solvent): 1ml (ampoule) **Rabies Vaccine (Vero Cell) Human Use of National Institute of Health (NIH).** Each single 0.5ml dose of vaccine contains: Protective activity of Rabies Antigen: ≥2.5IU (Inactivated Rabies Virus PV2061 strain)
	Module-II (Quality Overall Summary)	Firm has submitted QOS. Firm has summarized information related to general properties, manufacturers, description of manufacturing process, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Changchun Zhouyi Biological Co., Ltd. No.2 Yongxin Road, Shuangyang economic Development Area, Changchun, Jilin Province, China.
	Module-III Drug Substance:	Firm has submitted drug substance data related to nomenclature, structure, manufacturers, description of manufacturing process, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and real time stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability studies at 2-8ºC of three batches of drug substance for six months is submitted.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Rabies Virus Assay.
	Container closure system of the drug product	USP Type I
	Stability study data of drug product	Stability Studies of three batches both Real time (2-8ºC) and Accelerated (25 ºC±2/60%RH±5) for 3 months is submitted by the firm

	Module-IV Non-Clinical	The firm has also submitted the non-clinical overviews.
	Module-V Clinical	The firm has also submitted the clinical overviews and summaries.
	Remarks of Evaluator	i. Stability data is only for three months. ii. Applied vaccine strain is CTN 1V as per documents and clarification submitted by the firm and it has not been confirmed from Reference Regulatory Authorities and also from locally registered product and name of strain is also not mentioned on CoPP.
	Decision of 323rd Registration Board meeting	Registration Board advised to seek following information before approval of minutes: • Seek information from CDC, NIH regarding circulating strains of Rabies virus in Pakistan and need of Inactivated Rabies virus CTN 1V strain vaccine in Pakistan. • Seek information from NIH regarding strain of their registered rabies virus vaccine. • Advised Dow Institute to submit 6 months' real time and accelerated stability studies for consideration by Registration Board. The Board further advised to process case for consideration of registration Board after submission of 6 months stability data.
	Evaluation by BE&R Division: Following is submitted for consideration of the Board: • CDC, NIH vide their letter dated 2nd January 2023 informed that NIH Rabies vaccine is manufactured from PV2061 of fixed rabies virus. The virus strain was isolated by Pasteur in 1882. It has been continuously passaged in rabbit brain until 1983 and named as PV2061. The PV2061 of Rabies virus was adapted in Vero cell for 14 passages and then cryopreserved as the primary seed lot of rabies virus. • In a meeting with senior scientific officer at CDC NIH it was discussed that Rabies virus is quite stable virus as its genome is non-segmented, and Origin of CTN 1V strain is old Louis Pasteur strain of rabies virus which was isolated in 1880s and since then this virus shows little mutations, different countries name this virus based on passages. and CTN 1V strain vaccine due to its origin in old Louis Pasteur strain is equally effective in preventing disease like other vaccines strains of rabies virus e.g. PM, PV2061, etc. • Firm has submitted six month accelerated (25 °C±2/60%RH±5) and real time (2-8°C) stability studies of three batches of product "**Dow-RAB Lyophilized Powder for Injection Rabies Vaccine (Vero Cell) for Human Use".**	
	Decision: Keeping in view the approval status of product in country of origin and clarifying remarks of CDC NIH Registration Board approved the product. The Board further advised BE&R division to process letter for cold storage facility verification of firm without waiting for formal approval of minutes.	

Case No. 3: Imported Human Biological applied by M/s Calory Pharma deferred in 320th meeting of Registration Board.

45.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,** **75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.**
	Details of Drug Sale License of importer	License No: 110 Address:

		75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi. Validity: 06-07-2023 Status: License to sell drugs by way of whole sale.
	Name and address of marketing authorization holder (abroad)	M/s 8161429 Venipharm, 422, Bureaux de la Colline F-92213 Saint-Cloud, France.
	Name, address of manufacturer(s)	M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France.
	Name of exporting country	Germany
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. VEN/270521/10) dated 23-06-2021 issued by Authority for Justice and Consumer Protection of the Free and Hanseatic City of Hamburg. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Qualified Person of M/s Venipharm. According to the letter, the firm M/s Venopharm authorizes "Calory Pharma Private Limited" to register, renew and to get the registration certificate for the product. The letter was issued on 17-12-2021 and valid for five years.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3894 (R&I) Dated 10-02-2022
	Details of fee submitted	Rs. 150,000/- dated 04-01-2022
	The proposed proprietary name / brand name	Enoxaparin Ledraxen 4000IU (40mg)/0.4mL
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (0.4ml) contains: Enoxaparin Sodium……4000IU (equivalent to 40mg)
	Dosage form of applied drug	Solution for Injection in PFS
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	10's PFS

	Proposed unit price	As per SRO/DPC
	Shelf Life	24 Months
	Storage Conditions	$\leq 25^0$C
	The status in reference regulatory authorities	The product is itself approved in Germany.
	For generic drugs (me-too status)	Noxane of M/s BF Biosciences (Reg. No. 107948).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at real time conditions for 36 months, 01 batch for 12 months, 01 batch for 09 months & 01 batch for 03 months. The real time stability data conducted at 25^0C$\pm 2^0$C/60±5%RH is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor Xa activity, Anti-factor IIa Activity, Free sulfate content, Protein content, Bacterial Endotoxin, Sterility.
	Container closure system of the drug product	• A pre-filled syringe consisting of a 1-mL long barrel of type I glass with a fixed 27-gauge ½ inch stainless steel needle and a needle shield made of bromobutyl rubber • A 1-mL plunger rod made of polypropylene (which does not come directly in contact with the finished product) • A plunger stopper consisting of bromobutyl rubber
	Stability study data of drug product	Firm has submitted stability study data of 03 batches of 2000IU & 02 batches of 10000IU at real time, intermediate (Zone IVB) & conditions. The accelerated stability study data is conducted

		at 40±2^{0}C/75%RH±5% for 6 months. The real time stability study data is conducted at 25±2^{0}C/60%±5RH. The intermediate stability study data is conducted at 30±2^{0}C/65%±5RH.
46.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,** **75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.**

	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	10's PFS
	Proposed unit price	As per SRO/DPC
	Shelf Life	24 Months
	Storage Conditions	$\leq 25^0$C
	The status in reference regulatory authorities	The product is itself approved in Germany.
	For generic drugs (me-too status)	Noxane of M/s BF Biosciences (Reg. No. 107949).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at real time conditions for 36 months, 01 batch for 12 months, 01 batch for 09 months & 01 batch for 03 months. The real time stability data conducted at 25^0C$\pm 2^0$C/60±5%RH is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor Xa activity, Anti-factor IIa Activity, Free sulfate content, Protein content, Bacterial Endotoxin, Sterility.
	Container closure system of the drug product	• A pre-filled syringe consisting of a 1-mL long barrel of type I glass with a fixed 27-gauge ½ inch stainless steel needle and a needle shield made of bromobutyl rubber

		• A 1-mL plunger rod made of polypropylene (which does not come directly in contact with the finished product) • A plunger stopper consisting of bromobutyl rubber
	Stability study data of drug product	Firm has submitted stability study data of 03 batches of 2000IU & 02 batches of 10000IU at real time, intermediate (Zone IVB) & conditions. The accelerated stability study data is conducted at 40±2^{0}C/75%RH±5% for 6 months. The real time stability study data is conducted at 25±2^{0}C/60%±5RH. The intermediate stability study data is conducted at 30±2^{0}C/65%±5RH.
47.	**Name, address of Applicant / Importer**	**M/s Calory Pharma,** **75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi.**
	Details of Drug Sale License of importer	License No: 110 Address: 75-B, Circular Street No. 13, Central Lane, Phase-II, DHA, Karachi. Validity: 06-07-2023 Status: License to sell drugs by way of whole sale.
	Name and address of marketing authorization holder (abroad)	M/s 8161429 Venipharm, 422, Bureaux de la Colline F-92213 Saint-Cloud, France.
	Name, address of manufacturer(s)	M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France.
	Name of exporting country	Germany
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	• Firm has submitted legalized CoPP (No. VEN/270521/12) dated 23-06-2021 issued by Authority for Justice and Consumer Protection of the Free and Hanseatic City of Hamburg. The certificate specifies the GMP status of the manufacturer. The certificate specifies the Free Sale status of the product in country of origin.
	Details of letter of authorization / sole agency agreement	Firm has submitted product specific Letter of Authorization from Qualified Person of M/s Venipharm. According to the letter, the firm M/s Venopharm authorizes "Calory Pharma Private Limited" to register, renew and to get the registration certificate for the product. The letter was issued on 17-12-2021 and valid for five years.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3896 (R&I) Dated 10-02-2022
	Details of fee submitted	Rs. 150,000/- dated 04-01-2022

	The proposed proprietary name / brand name	Enoxaparin Ledraxen 8000IU (80mg)/0.8mL
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each PFS (0.8ml) contains: Enoxaparin Sodium……8000IU (equivalent to 80mg)
	Dosage form of applied drug	Solution for Injection in PFS
	Pharmacotherapeutic Group of (API)	Anticoagulant
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	10's PFS
	Proposed unit price	As per SRO/DPC
	Shelf Life	24 Months
	Storage Conditions	$\leq 25^0$C
	The status in reference regulatory authorities	The product is itself approved in Germany.
	For generic drugs (me-too status)	Noxane of M/s BF Biosciences (Reg. No. 107950).
	Module-II (Quality Overall Summary)	Firm has submitted ICH QOS. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. The firm has also submitted the non-clinical and clinical overviews and summaries.
	Name, address of drug substance manufacturer	M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process, Characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 7 batches of Drug Substance at real time conditions for 36 months, 01 batch for 12 months, 01 batch for 09 months & 01 batch for 03 months. The real time stability data conducted at $25^0C \pm 2^0C/60 \pm 5\%RH$ is for 18 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Analytical method validation/verification of product	Firm has submitted validation of Analytical methods of Anti-factor Xa activity, Anti-factor IIa Activity, Free sulfate content, Protein content, Bacterial Endotoxin, Sterility.
	Container closure system of the drug product	• A pre-filled syringe consisting of a 1-mL long barrel of type I glass with a fixed 27-gauge ½ inch stainless steel needle and a needle shield made of bromobutyl rubber • A 1-mL plunger rod made of polypropylene (which does not come directly in contact with the finished product) • A plunger stopper consisting of bromobutyl rubber
	Stability study data of drug product	Firm has submitted stability study data of 03 batches of 2000IU & 02 batches of 10000IU at real time, intermediate (Zone IVB) & conditions. The accelerated stability study data is conducted at 40 ± 2^0C/75%RH±5% for 6 months. The real time stability study data is conducted at 25 ± 2^0C/60%±5RH. The intermediate stability study data is conducted at 30 ± 2^0C/65%±5RH.

The firm has submitted the following data as per requirements of 289th meeting of Registration Board:

Sr. No.	Required Documents	Documents Provided by the Firm
1.	Equivalence of physicochemical properties, such as:	
	a. Molecular weight distribution using size exclusion chromatography	i. Molecular mass distribution and proportion ii. %1, 6-anhydro derivatives iii. Free sulphate content iv. Ratio of sulfate ions to carboxylate ions v. UV Absorption and specific absorbance at 231 nm
	b. Chain mapping by cetyltrimethylammonium-coated strong anion exchange chromatography matrix-assisted laser desorption ionization mass spectrometry (MALDIMS), gel permeation chromatograph—electro spray ionization mass spectroscopy (GPC-ESI-MS), or reverse phase ion pair—electro spray ionization mass spectroscopy (RPIPESI-MS).	i. Chain mapping by Gel Filtration Chromatography (GFC) ii. Chain mapping by strong anion exchange HPLC (SAX-HPLC) iii. Proton nuclear magnetic resonance (1H-NMR) iv. Heteronuclear single quantum coherence (HSQC) v. Intact chain mapping by LCMS
2.	Equivalence of heparin source material (i.e. heparin that is derived from porcine intestinal mucosa and that meets USP monograph standards for heparin sodium USP) and mode of depolymerization (i.e. cleavage by alkaline b-elimination of the benzyl ester derivative of heparin). The equivalent heparin source material should have at least a similar distribution of natural disaccharide building block sequences (within the context of itsvariability). If an equivalent mode of depolymerization is used, the generic drug products should be at least similar.	• Fresh pig's small intestine is collected and squeezed to get porcine intestinal mucosa. Porcine intestinal mucosa is then digested and heparin is adsorbed on an ion exchange resin (Intermediate A). • After the washing and elution of the resin, further steps of precipitation and drying lead to crude heparin (Intermediate B). • Crude heparin (Intermediate B) is dissolved in water, submitted to enzymolysis and then purified on resins. Heparin sodium (Intermediate C) is obtained after several steps including oxidation, ultra-filtration, fractionation and a final precipitation in ethanol. • Enoxaparin sodium is manufactured in three stages, starting from the heparin sodium which undergoes a step of salification to get the quaternary ammonium salt of heparin (Intermediate I). The salification step is followed by an esterification step to form the ester salt of heparin (Intermediate II). Enoxaparin sodium is

		finally isolated after depolymerization and purification steps.
3.	Equivalence in disaccharide building blocks, fragment mapping, and sequence of oligosaccharide species. This can be achieved by exhaustive digestion of enoxaparin with purified heparin digesting enzymes (heparinases I, II, and III) and nitrous acid, among other means, to yield the constituent disaccharide building blocks comprising enoxaparin. These individual disaccharide building blocks can be quantified by following: a. Capillary Electrophoresis (CE) b. Reverse phase high-performance liquid chromatography (RP-HPLC) c. Strong anion exchange HPLC (SAX-HPLC) d. Mass spectroscopy e. Nuclear magnetic resonance (NMR) spectroscopy. f. Chemical approaches such as analysis with modifying reagents (e.g. sodium borohydride, nitrous acid) or modifying enzymes (eg, 2-0-sulfatase, 6-0-sulfatase, and 5-glucuronidase) can be included.	i. Disaccharide building block by strong anion exchange HPLC (SAX-HPLC) ii. Fragment mapping (Heparinase I/II/III) by strong anion exchange HPLC (SAX-HPLC) iii. Fragment mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) iv. Dp6 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) v. Dp8 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) vi. Dp10 mapping (heparinase I/II/III) by liquid chromatography – mass spectrometry (LC-MS) vii. Nitrous acid (HONO) depolymerisation disaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) iii. Tetrasaccharides (dp4) analysis by strong anion exchange HPLC (SAX-HPLC) ix. Tetrasaccharides (dp4) sequences by reversed-phase ion-pair liquid chromatography- electrospray ionization - mass spectrometry (RPIP-ESI-MS and RPIP-ESI-MS/MS) x. Oligosaccharide mapping by liquid chromatography – mass spectrometry (LC-MS) (dp6/8/10)
4.	Equivalence of in vitro biological and biochemical assay results using activated partial thromboplastin time (aPTT) and Heptest prolongation time. The equivalence in anti-Xa activity, anti-IIa activity, and anti-Xa/anti-IIa ratio between the generic LMWHs should be provided.	i. Anti-factor Xa & Anti-factor IIa activity by using Biophen Heparin Anti-Xa (2 Stages) and Biophen Heparin Anti-IIa (2 Stages) commercial kits. ii. The anticoagulant activity of the biosimilar enoxaparin drug product is analyzed and compared with Lovenox®/Clexane® based on aPTT (Activated Partial Thromboplastin Time) and Heptest prolongation time iii.
5.	Equivalence of ex vivo pharmacodynamic (PD) profile in human volunteers. The comparison of in vivo PD profiles is based on measurements of in vivo anti-Xa and anti-IIa profiles.	A monocentric, randomized, open-label, single-dose, two-period, crossover study to assess the pharmacokinetic and pharmacodynamic equivalence of Reference Product Lovenox® 10000 IU/1 mL solution for injection in prefilled syringe and test formulation of Enoxaparin Ledraxen 10.000 IE (100 mg)/1 ml Injektionslösung in einer Fertigspritze following subcutaneous administration in healthy subjects in fasting conditions

Remarks of Evaluator	• The address of product license holder is different on CoPP from SmPC available on official website of Germany & letter of authorization. • The batch release site is different in dossier from Public Assessment Report available on official website of Germany & from Form-5F. • The manufacturer as per submitted CoPP is **M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France** while as per submitted dossier manufacturer is **M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China**. • Firm has not submitted the verification of compendial analytical methods of drug product. • Firm has not submitted the real time and accelerated stability data of applied strengths. However, stability data of lower (2000IU) & higher strengths (10000IU) is provided.

	• Stability study data of only 02 batches of higher strength i.e. 10000IU is provided. • Related substances are not tested in real time, intermediate & accelerated stability data while 1,6-anhydro derivatives, Average Mass & Sodium content are only tested for 01 batch of each strength. • **The provided intermediate/ Zone IVB stability data is for 36 months for two batches of lower strength & one batch of higher strength and 12 months of one batch each of lower & higher strength**. • **All the batches of both strengths get out of specifications after 12 months at intermediate/ Zone IVB conditions.**

Decision: Registration Board deferred the products at S.No. 2,3 & 4 for submission of following by the firm:

i. Difference in address of product license holder on CoPP from SmPC available on official website of Germany & letter of authorization.
ii. Difference in batch release site in dossier from Public Assessment Report available on official website of Germany & from Form-5F.
iii. Any legalized evidence issued by regulatory authority of country of origin indicating that the manufacturer of product registered in Germany is M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China while M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France is only batch release site.
iv. Verification reports of compendial analytical methods of drug product.
v. Real time & Accelerated stability data of three commercial batches of 2000IU & 10000IU upto the shelf life including all parameters as per finished product specification.
vi. Clarification is required as all the batches of both strengths get out of specification after 12 months of storage at $30\pm2^0C/65\%\pm5RH$.

Evaluation by DBE&R:

Reply of firm against each query is summarized in table below for consideration of the Board.

Queries	**Response by the firm**
Difference in address of product license holder on CoPP from SmPC available on official website of Germany & letter of authorization.	The address for Venipharm (product License Holder) mentioned in CoPP is ***422 Bureaux de la Colline F-92213 Saint-Cloud France*** and address mentioned in LoA & SmPC is ***4 Bureaux de la Colline 92210 Saint-Cloud France*.** We confirmed that these both addresses are well correct for Venipharm's (Product License Holder) office. The address on CoPP (***422 Bureaux de la Colline F-92213 Saint-Cloud France*** is more detailed version)
Difference in batch release site in dossier from Public Assessment Report available on official website of Germany & from Form-5F.	In PAR available on MHRA website, no information regarding batch release site is available. Also we would like to inform one change that was approved by BfARM, Germany. At time of our registration in EU first, the batch release site was **Melbourn Scientific Limited (United Kingdom)**. *Due to Brexit, we had to change the batch release site from* ***Melbourn Scientific Limited (United Kingdom)*** *to* ***Centre Specialites Pharmaceutiques (France)*** *via a dedicated variation submission.* May be the website you are checking may still not be updated and you may still see Melbourn Scientific Limited (United Kingdom). We confirm that there is only one batch release site for our products which is Centre Specialites Pharmaceutiques (France). For your reference we have attached cop of variation approval letter received from Bfarm.
Any legalized evidence issued by regulatory authority of country of origin indicating that the manufacturer of product registered in Germany is M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16	Firm has submitted a copy of CoPP issued to Israel showing manufacturer responsible for manufacturing and packaging M/s Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd (NKF), No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China

Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China while M/s Centre Specialites Pharmaceutiques ZAC des Suzots 35 rue de la Chapelle F-63450 Saint-Ament Tallende, France is only batch release site.	
Verification reports of compendial analytical methods of drug product.	We confirm that validation study for Compendial Analytical methods (Appearance, Clarity, Coloration, UV absorption, Identification, assay of sodium, molecular mass distribution and mass-average relative molecular mass, determination of the pH, related substances, extractable volume, particulate matter and Specific absorbance) were NOT performed as the principal of these analytical methods are Exactly same as described in the Ph. Eur. General monographs. Moreover, if any adjustment done according to Ph.Eur. 2.2.46, No Analytical validation study is required.
Real time & Accelerated stability data of three commercial batches of 2000IU & 10000IU up to the shelf life including all parameters as per finished product specification.	Firm has referred to bracketing design of ICH guidelines and submitted stability studies of three batches of 2000IU two batches of 10000 IU both real time and accelerated at 25±2^{0}C/60%±5RH & 40±2^{0}C/75%±5RH.
Clarification is required as all the batches of both strengths get out of specification after 12 months of storage at 30±2^{0}C/65%±5RH.	After storage of the finished product at 30^{0}C/65% RH, **the major change is for the Color which is out of specification after 12 months**. *If we consider the results of the forced degradation study in heat conditions (after one day or after 10 days at 80^{0}C). Change of color of solution was considered as Stability Indicator. So result of ICH stability at intermediate temperature (30^{0}C) are confirming the results obtained during the forced degradation study in heat conditions.* *The conclusion is that Enoxaparin sodium, solution for injection is NOT stable at 30^{0}C/65% RH. All the available results got at 25^{0}C/60% RH after 36 months are compliant with the specifications. Hence, a shelf life of 36 months is claimed with a temperature restriction for the finished product packaged in prefilled syringes Do not store above 25^{0}C.* *A commitment is also attached defining the temperature restriction.*

For stability studies firm has referred to bracketing design as per ICH guidelines which is as follow:

2.3 Bracketing

Bracketing is the design of a stability schedule such that only samples on the extremes of certain design factors (e.g., strength, container size and/or fill) are tested at all-time points as in a full design. The design assumes that the stability of any intermediate levels is represented by the stability of the extremes tested.

The use of a bracketing design would not be considered appropriate if it cannot be demonstrated that the strengths or container sizes and/or fills selected for testing are indeed the extremes.

2.3.1 Design Factors

Design factors are variables (e.g., strength, container size and/or fill) to be evaluated in a study design for their effect on product stability.

2.3.1.1 Strength

Bracketing can be applied to studies with multiple strengths of identical or closely related formulations. Examples include but are not limited to (1) capsules of different strengths made with different fill plug sizes from the same powder blend, (2) tablets of different strengths manufactured by compressing varying amounts of the same granulation, and (3) oral solutions of different strengths with formulations that differ only in

minor excipients (e.g., colorants, flavorings). With justification, bracketing can be applied to studies with multiple strengths where the relative amounts of drug substance and excipients change in a formulation. Such justification can include a demonstration of comparable stability profiles among the different strengths of clinical or development batches. In cases where different excipients are used among strengths, bracketing generally should not be applied.

2.3.1.2 Container Closure Sizes and/or Fills

Bracketing can be applied to studies of the same container closure system where either container size or fill varies while the other remains constant. However, if a bracketing design is considered where both container size and fill vary, it should not be assumed that the largest and smallest containers represent the extremes of all packaging configurations. Care should be taken to select the extremes by comparing the various characteristics of the container closure system that may affect product stability. These characteristics include container wall thickness, closure geometry, surface area to volume ratio, headspace to volume ratio, water vapor permeation rate or oxygen permeation rate per dosage unit or unit fill volume, as appropriate. With justification, bracketing can be applied to studies for the same container when the closure varies. Justification could include a discussion of the relative permeation rates of the bracketed container closure systems.

2.3.2 Design Considerations and Potential Risks

If, after starting the studies, one of the extremes is no longer expected to be marketed, the study design can be maintained to support the bracketed intermediates. A commitment should be provided to carry out stability studies on the marketed extremes post-approval. Before a bracketing design is applied, its effect on the retest period or shelf life estimation should be assessed. If the stability of the extremes is shown to be different, the intermediates should be considered no more stable than the least stable extreme (i.e., the shelf life for the intermediates should not exceed that for the least stable extreme).

Example of bracketing design as per ICH is as under:

This example is based on a product available in three strengths and three container sizes. In this example, it should be demonstrated that the 15 ml and 500 ml high-density polyethylene container sizes truly represent the extremes. The batches for each selected combination should be tested at each time point as in a full design.

Strength		**50mg**			**75mg**			**100mg**		
Batch		1	2	3	1	2	3	1	2	3
Container size	**15ml**	T	T	T				T	T	T
	100ml									
	500ml	T	T	T				T	T	T

In case of firm submitted stability studies is as follow:

Strength		**20mg/0.2ml (2000IU/ml)**			**40mg/0.4ml (4000IU/ml)**			**60mg/0.6ml (6000IU/ml)**			**80mg/0.8ml (8000IU/ml)**			**10mg/1ml (10,000IU/ml)**		
Batch		1	2	3	1	2	3	1	2	3	1	2	3	1	2	3
Container size	**1ml(0.2ml)**	T	T	T										T	T	---
	1ml(0.4ml)															
	1ml(0.6ml)															
	1ml(0.8ml)															
	1ml (1ml)	T	T	T										T	T	---

Firm has further submitted data of following commercial batches as per following details:

Strength	**Data**	**Conditions**
4000IU	36 months Real time/6 month Accelerated	25 ± 2^0C/60%±5RH. 40 ± 2^0C/75%±5RH.
2000IU	18 months Real time/6 month Accelerated	25 ± 2^0C/60%±5RH. 40 ± 2^0C/75%±5RH.
10000IU	18 months Real time/6 month Accelerated	25 ± 2^0C/60%±5RH.

Decision of RB in its 321st meeting.

i. Submission of real time stability data of three commercial batches up to the demanded shelf life as per ICH guidelines.
ii. Submission of valid legalized CoPP indicating actual product License Holder, manufacturer and batch release site.

Evaluation by DBE&R: Now the firm has submitted following: i. Real time stability studies data of three commercial batches of 2000IU and 10,000IU at 25±2^{0}C/60%±5RH. Stability data of two batches of both strengths is for 36 months and one batch of both strengths for 24 months. ii. Legalized CoPP for Enoxaparin Ledraxen 4000IU, 6000IU, 8000IU indicating actual product License Holder, manufacturer and batch release site. **Product License Holder**: *M/s Venipharm, 422, Bureaux de la Colline F-92213 Saint-Cloud, France.* **Manufacturer:** *M/s. Nanjing King-Friend Biochemical Pharmaceutical Co, Ltd, No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, 210061 Nanjing, China.* **Batch Release Site:** M/s. Centre Specialities Pharmaceutiques ZAC Suzots 35 rue de la chapelle F-63450 Saint-Amant Tallende France.
Decision: Keeping in view the legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

Case No. 4: Imported Veterinary Biological applied by M/s Pharmakon International Enterprises Shamsabad deferred in 320th meeting of Registration Board.

48.	**Name and address of Importer**	**M/s Pharmakon International Enterprises,** Office No. 26, 2nd Floor, Aries Plaza, Murree Road, Shamsabad.
	Detail of DSL	**M/s Pharmakon International Enterprises,** Address: Valid till:
	Name and address of Manufacturer	**Manufacturer of Drug:** M/s JinyuBaoling Bio-Pharmaceutical Co., Ltd. No. 1 Jinyu street, Shaerqin Industrial park, Economic and tecnological Development zone, Hohhot, inner Mongolia, China.
	Name of exporting country	Peoples Republic of China.
	Brand Name +Dosage Form + Strength	Goat Pox Vaccine, Live
	Diary No. Date of R& I & fee	Dy. No. 25395 R&I Dated 13-09-2021 Rs. 150,000/- (Slip No. 33810920261)
	Composition	Each inoculation dose of vaccine contains: Attenuated Goat Pox Virus (Strain CVCC AV41) … $10^{3.5}$ $TCID_{50}$
	Pharmacological Group	Biological
	Type of Form	Form-5A
	Finished Product Specification	Manufacturer's Specifications
	Shelf Life	24months----(-15^{o}C)
	Document Details	**<u>Free Sale Certificate (Original Legalized):</u>** Manufacturer: M/s Jinyu Baoling Bio-Pharmaceutical Co., Ltd Issued by: Department Of Agriculture and Animal Husbandry Of Inner Mongolia Autonomous Region, P.R.China Issue date: 09/03/2020 **<u>GMP Certificate (Original Legalized):</u>** Issued to: M/s JinyuBaoling Bio-Pharmaceutical Co., Ltd. Issued by: Administrative unit: Department Of Agriculture And Animal Husbandry Of Inner Mongolia Autonomous Region, P.R.China Validity: 05-03-2021-04-03-2026 **<u>Sole Agency Agreement:</u>** Product specific Sole agency agreement dated 15th June, 2021 is submitted by the firm
	Pack size & Price	25doses per Vial: Decontrolled

	Reference Regulatory Authority Availability	N/A
	Products already registered in Pakistan	Could not be confirmed (no any registered product)
	Remarks of Evaluator	Currently there is no any registered Goat pox vaccine. Firm has submitted application for renewal of DSL.
	Decision in 320th Registration Board meeting	Registration Board referred the case to Animal Husbandry Commissioner for comments regarding immunological relevance and need of applied strain in Pakistan.
	Evaluation of DBE&R Division	• *Assistant Animal Husbandry Commissioner vide their letter dated 11th January 2023 submitted following response:* *I am directed to refer to the Drug Regulatory Authority of Pakistan (DRAP) letter No. F.l-15/2018-AD(BD) Vol-I dated 22nd December, 2022 regarding the subject noted above and to say that this Ministry recommends import of Goat Pox Vaccine (Strain CVCC AV41 $10^{3.5}$ $TCID_{50}$) by M/s Pharmakon International Enterprises from china to cater the national needs subject to fulfillment of all codal formalities.* • *Firm has also applied for change in DSL address from office No.23 and 26, second floor, Aries Tower, Shamsabad Murree road, Rawalpindi, Previous DSL No.01-374-0177-0486990 to the new address at:* *First floor Hum Height service road, East near Sohan Interchange, Islamabad and submitted a Fee challan of rupees 7500/-*
Decision: Registration Board referred the case to Animal Husbandry Commissioner for comments regarding need of applied vaccine/strain in Pakistan.

Case No. 1: SUBSTANDARD 25% DEXTROSE INFUSION B. NO. A042C21 MANUFACTURED BY M/S. OTSUKA PAKISTAN LTD., HUB, BALOCHISTAN.

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(K)/2021-CDL/S-1468 dated 03-12-2021 informed that sample of product "25% Dextrose Infusion" Batch No. A042C21 (Mfg. date 31-03-2021, Exp date 30-03-2024) sent to CDL Karachi by FID-II Karachi has been declared as of substandard quality on the basis on non-compliance of pH specifications. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Identification	The identification test must identify Glucose (Dextrose)	Complies	BP 2020
2.	pH	3.5 to 6.5	**2.73 – Does not comply**	BP 2020
3.	Bacterial Sterility	Must be sterile	Complies	BP 2020
4.	Endotoxin	The Endotoxin limit concentration is 0.25 IU/ml	Complies	BP 2020
5.	Assay Glucose (Dextrose), (Label claim 250mg/ml)	95.0% to 105.0%	96.80% Complies	BP 2020

02. FID-III Karachi vide letter No. F. ARS-19-25/2021-FID-III (K) dated 28-12-2021 forwarded the request of M/s. Otsuka Pakistan, Hub dated 23-12-2021 for appellate testing of their product namely "25% Dextrsoe Infusion" batch No. A042C21 declared substandard by CDL Karachi on 03-12-2021.

03. Registration Board in its 313th meeting decided to fulfill the codal formalities. Therefore, in the light of decision of Registration Board, a vide letter No. F. 03-48/2021-QC dated 27-01-2021 issued to M/s. Otsuka Pakistan, and to FGA CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-1486 dated 03-12-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Otsuka Pakistan Limited, Hub vide letter dated 15-02-2022 and CDL Karachi vide letter No.1-1/2013-SRK/CDL/-1069 dated 15-03-2022 provided OOS investigation. Comparison is given as under:

S.	**Laboratory**	**Test Performed**	**Results**	**Standard Value**	**Remarks**
01	CDL Karachi	pH (BP 2020)	2.73	3.5 – 6.5	-
02	M/s Otsuka	pH (BP)	At the time of batch release: 5.38 **Retesting:** Sample 1: - 3.58 Sample 2: - 3.54 Sample 3:- 3.58	-do-	The results of retesting performed by the firm show a decline in pH value from 5.38 to 3.58 over a period on 10 months. Moreover, the value 3.58 is also very close to the lower acceptance criteria i.e. 3.5

06. The case has been deferred due to paucity of time in 320th meeting

In view of decision of 320th meeting, they have been called for personal hearing.

07. Decision of 321st meeting Keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice and called them for personal hearing before Registration Board.

08. In compliance to the decision of RB show cause was issued to firm vide letter No. 03-45/2022-QC dated 21-Nov-22 to which the firm replied and again called for appellate testing of their product namely "25% Dextrose Infusion" batch No. A042C21 declared substandard by CDL Karachi on 03-12-2021 and briefed that due to temperature issue pH decreased but still remained within limits and submitted CAPA in which they manufacture 3 trial batches i.e bulk manufacturing at 80&100^{o} & with addition of stabilizers that is showing stability after 8 months passed and they are going to change its label with indication "*Store below 25 degrees centigrade*".

Proceedings and Decision of 324th Meeting of Registration Board.

Decision:

Keeping in view position of firm narrated above, the Board decided that

i. **Risk based sampling of all the batches of said formulationwill be done.**

ii. **Call the firm for personal hearing under section 42 due to violation of Drug Act, 1976 and rules made thereunder.**

iii. **Product registration of 25% Dextrose Infusion Mfg by M/s. Otsuka Pakistan ltd., hub, Balochistan will remain suspended till personal hearing before next meeting of Registration Board and decision by the Board.**

Case No. 2: SUBSTANDARD NYLOZ CAPSULE MANUFACTURED BY M/S. ZEPHYR PHARMATEC (PVT) LTD. KARACHI.

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(K)/2021-CDL/S-870 dated 30-07-2021 informed that the sample of product "Nyloz capsule (Esomeprazole 20mg)" Batch No. C01358 (Mfg. date 05-2021, Exp date 04-2023) sent to CDL Karachi by FID-II Karachi has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Hard gelatin capsule consist of yellow coloured body and green coloured cap containing white enteric coated pellets	Complies	Mfg. Specs
2.	Identification	Identification test must identify Esomeprazole Magnesium	Complies	USP 43
3.	Dissolution	Each unit is not less than 80%	Complies	USP 43
4.	Uniformity of dosage units by content uniformity	Acceptanc value of the 30 dosage units is less or equal L1% and no individual content of "any" dosage unit is less than [1-(0.01)(L2)]M not more than [1+(0.01(L2)]M	**L1=22.24 – Does not comply.**	USP 43
5.	**Assay.** Esomeprazole. (20mg/cap)	90.0% to 110.0%	Complies	USP 43

02. FID-II Karachi vide letter No. F. 000403/2018-FID-II (K) (Zephyr) dated 07-09-2021 forwarded the request of for appellate testing of Board's portion of sample of their product namely "Nyloz capsule" batch No. C01358 declared substandard by CDL Karachi on 30-07-2021.

03. Registration Board in its 313th meeting decided to fulfill the codal formalities. In complianceLetter vide No. F. 03-28/2021-QC dated 31-12-2022 was issued to M/s. Zephyr Pharmatech Karachi for submission of OOS investigation and complete testing record of the concerned batch and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-870 dated 30-07-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Zephyr Pharmaceuticals Karachi vide letter ZP/0398/2022 dated 05-01-2022 provided the OOS investigation report. On technical evaluation of CDL Karachi OOS investigation report and OOS investigation report provided by manufacturer it was observed that both have performed the content uniformity test according to USP 43 specifications. However, the manufacturer claims the product to be of standard quality while CDL Karachi has reported the product to be substandard.

The case has been deferred due to paucity of time in 320th meeting

06. Decision of 321st meeting Keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice and called them for personal hearing before Registration Board.

07. In compliance to the decision of RB show cause was issued to firm vide letter No. 03-45/2022 QC dated 21-nov-22 to which M/s. Zephyr Pharmaceuticals Karachi vide letter ZP/0435/2022 dated 22-11-2022 has requested for personal hearing

Proceedings and Decision of 324th Meeting of Registration Board.

Mr Asif Khitab (Sr. Manager Regulatory Affairs) along with QC Manager, Mr Zubair Ahmed Khushhali appeared before the Board for Personal hearing. They reiterated the same stance submitted earlier and requested to send the Board's portion for Appellate testing The Board after considering the facts of the case and thorough deliberations decided as follows:

i. **Registration of "Nyloz capsule (Esomeprazole 20mg)" Mfg by M/s. Zephyr Pharmatec (pvt) ltd. Karachi shall remain suspended for a period of six months or till satisfactory Product Specific Inspection report and verification of CAPA by panel (constituted by Director QA&LT) whichever is later.**

Case No. 3: SUBSTANDARD DELMOL SUSPENSION MANUFACTURED BY M/S. DELTA PHARMA (PVT.) LTD., NOWSHERA.

FGA CDL Karachi vide test report No. F. 5-3(P)/2021-CDL/S-967 dated 17-08-2021 sample of product "Delmol Suspension (Paracetamol 120mg/5ml)" Batch No. 151 (Mfg. date 05-2021, Exp date 05-2023) sent to CDL Karachi by FID-I Peshawar has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Pink colored suspension in amber color glass bottle	Complies	Mfg. specs
2.	Identification	The identification test must identify Acetaminophen (Paracetamol)	Complies	USP 43
3.	pH	4.0 to 6.9	Complies	USP 43
4.	**Assay** Acetaminophen (Paracetamol) (Label claim 120mg/5ml)	90.0% to 110.0%	**74.1% - Does not comply**	USP 43

02. FID-II Karachi vide letter No. F. 10-7/2021-Delta-DRAP-3665 dated 21-09-2021 forwarded the request of M/s. Delta Pharma (Pvt.) Ltd., Nowshera dated 27-08-2021 for appellate testing of Board's portion of sample of their product namely "Delmol suspension" batch No. 151 declared substandard by CDL Karachi on 17-08-2021.

03. Registration Board in its 313th meeting decided to fulfill the codal formalities In complianceLetter vide No. F. 03-32/2021-QC dated 22-12-2022 was issued to M/s. Delta Pharma (Pvt.) Ltd., Nowshera for submission of OOS investigation and complete testing record of the concerned batch & to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-870 dated 30-07-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Delta Pharma Nowshera vide letter No. 22/DP/2021 dated 22-12-2021 provided OOS investigation report wherein they provided a non-pharmacopeial UV Photometric test report, manufacturing process of product and sample preparation method for test/analysis. Review of documents revealed that firm had performed the assay test on non-pharmacopeial method while CDL performed as per USP 43. Moreover, the report provided was not a controlled document and no reference for testing method were provided.

06. The case has been deferred due to paucity of time in 320th meeting

07. Decision of 321st meeting Keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice and called them for personal hearing before Registration Board."

08. In compliance to the decision of RB show cause was issued to firm vide letter No. 03-45/2022 QC dated 21-nov-22 to which M/s. Delta Pharma (Pvt.) Ltd., Nowshera vide letter 999/Q.C/DRAP dated 23-11-2022 has requested for personal hearing and briefed that their sample was also tested by DTL KPK and their assay in that report was 92.6%. However when that report was analyzed it was found that DTL KPK has also declared that product Sub-Standard on presence of visible crystals.

Proceedings and Decision of 324th Meeting of Registration Board.

Mr Ashfaq parveiz (C.E.O) along with QC Manager, Mr kashif Ali appeared before the Board for Personal hearing. They reiterated the same stance submitted earlier that their product is also tested by DTL Peshawar

and although declared substandard but assay was 92.6% in that particular report and requested to send the Board's portion for Appellate testing. The Board after considering the facts of the case and thorough deliberations decided as follows:

ii. **Registration of "Delmol Suspension (Paracetamol 120mg/5ml)" Mfg by M/s. Delta Pharma (pvt.) Ltd., Nowshera shall remain suspended for a period of six months or till satisfactory Product Specific Inspection report and verification of CAPA by panel (constituted by Director QA&LT) whichever is later.**

Case No. 4: **MANUFACTURE AND SALE OF SUBSTANDARD REM-D 100MG/20ML IV INFUSION MANUFACTURED BY M/S. LIVEN PHARMACEUTICALS, KASUR.**

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(LHR)/2021-CDL/S-1304 dated 03-11-2021 wherein it was informed that the sample of product "REM-D Infusion (Remdesivir 100mg/20ml)" Batch No. RD109 (Mfg. date 09-2021, Exp date 09-2022) sent to CDL Karachi by FID-II Lahore has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Clear, colorless solution in glass vial	Complies	Innovator's Specs.
2.	Identification	The identification test must identify Remdisivir	Complies	Innovator's Specs.
3.	pH	3.0 to 4.0	4.0 Complies	Innovators Specs.
4.	Bacterial Sterility	Must be sterile	**Does not comply**	USP 43
5.	Bacterial Endotoxin	Not more than 1.0 EU per mg	Complies	USP 43
6.	**Assay** Remdesivir, (Label claim 5mg/ml)	90.0% to 110.0%	97.4% Complies	Innovator's Specs.

02. FID-II Lahore vide letter No. 17406/2021-DRAP(L-II) dated 19-11-201 forwarded the request of M/s. Liven Pharmaceuticals Kasur dated 05-11-2021 for appellate testing of Board's portion of sample of their product namely "REM-D Infusion" batch No. RD109 declared substandard by CDL Karachi on 03-11-2021.

03. Registration Board in its 313th meeting decided to fulfill the codal formalities. In the light of decision of Registration Board, a letter vide No. F. 03-42/2021-QC dated 23-12-2021 was issued to M/s. Liven Pharmaceuticals Kasur for submission of OOS investigation and complete testing record of the concerned batch of product REM-D Infusion along with scientific justifications/grounds with the request of Appellate testing under section 22(4) of the Drugs Act 1976 and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(LHR)/2021-CDL-S-1304 dated 03-11-2021.

Technical evaluation of OOS report by QC section:

05. M/s. Liven Pharmaceuticals Kasur vide letter dated 29-12-2021 provided OOS investigation repot of their product REM-D Infusion (Batch No. RD109). On evaluation of OOS investigation provided by Firm and CDL it was observed that CDL Karachi has performed Sterility testing as per USP 43. USP 43 method advises to use 2% or 20 (Whichever is less) containers if batch size is more than 500 units. The batch size of product is question is 1000 units. However, the firm has not provided the reference of method for sterility testing and has not provided the information regarding the numbers of units used for sterility testing.

06. Decision of 320th meeting Keeping in view position narrated above, the Board did not accede the firm's request, as the firm is conducting bacterial sterility of the products on a non-pharmacopoeial method which is not validated and decided to issue show cause notice and called them for personal hearing before Registration Board in its forthcoming meeting.

07. In compliance to the decision of RB show cause was issued to firm vide letter No. 03-43/2022 QC dated 6th-Oct-22 to which M/s. Liven Pharmaceuticals Kasur vide letter dated 12-10-2022 has requested for personal hearing.

Proceedings and Decision of 324th Meeting of Registration Board.

Mr Kashif Hussain (C.E.O) appeared before the Board for Personal hearing. He pleaded that firm has performed testing as per USP 43, however he could not present the data of out of specification investigation details regarding batch size and other requirements as mentioned in USP 43 he failed to present the evidence The Board after considering the facts of the case and thorough deliberations decided as follows:

i. **Registration of "REM-D Infusion (Remdesivir 100mg/20ml)" mfg by M/s. Liven Pharmaceuticals, Kasur shall remain suspended for a period of six months or till satisfactory report of Product Specific Inspection and verification of CAPA by panel (constituted by Director QA&LT) whichever is later.**

Case No. 5: CANCELLATION/SUSPENSION OF REGISTRATION OF WATER FOR INJECTION 2ml (REGISTRATION NO. Q24873) MANUFACTURED BY M/S AMSON VACCINES PHARMA (PVT) LTD, PLOT #154, INDUSTRIAL TRIANGLE KAHUTA ROAD, ISLAMABAD.

FID I Islamabad along-with Assistant Director QA-I, inspected the premises of M/s Amson Vaccines & Pharma (Pvt)Ltd 113 Industrial Triangle Kahuta Road Islamabad on 16th June 2022 to review the GMP compliance of the firm. During the course of inspection, the panel came to know that the firm is carrying out manufacturing of the subject mentioned product whereas they do not have approved section for manufacturing of the said item i.e. Liquid Injectable Vial-SVP (general) from the CLB. Chairman CLB vide letter no. F.l-26/94-Lic(PtVol-I) dated 30th June allowed renewal of tablet section (General), Capsule section (General), Oral Liquid section (General), Liquid Ampoule injection (vaccine), Liquid vial injection (Vaccine / Sera) Dry powder injection (Steroid), Quality control Laboratory and warehouse.

02. FID I reported that the firm is currently manufacturing their Water for Injection in the Vaccine facility. Moreover, the filling of WFI is being done on the same filling machine as their other vaccines without undertaking Cleaning validation as for all of these vaccines limit of detectability is not available.

03. The firm is utilizing their water for Injection only for inclusion as reconstitution medium in their product Inj. Hyzonate (powder for reconstitution) whereas the Registration letter of Inj. Hyzonate does not specifically mention that only WFI manufactured by M/s Amson Vaccines & Pharma has to be included.

04. After the subject mentioned inspection, the firm submitted letter No. F. l-26/94-Lic(Pt-l) dated 14th December 2021 regarding Approval of layout plan for regularization/revised/new sections under DML No. 000393 (Formulation) issued by the Licensing wherein approval for Tablet (Psychotropic), Liquid injectable Vial-SVP, Dry powder for injection (Steroid), Quality control lab and Warehouse. Additionally, the firm submitted an undertaking that they will finish construction of Liquid Injectable Vial-SVP (general) within one year which clearly indicates without a doubt that as of right now the firm does not have approved section for manufacturing of Water for injection 2ml registration No.024873.

05. FID I reported that the panel advised the firm that they should get Approval of Liquid Injectable Vial-SVP (general) for manufacturing of Water for Injection in the existing facility in the interim period till construction/completion of the new building, the feasibility of which had been pointed/laid out to the firm in the closing meeting of the inspection. The firm however, point blank refused to consider the possibility even though it was made clear to the firm that they are undertaking an illegal activity. Furthermore, the firm was verbally directed to immediately stop production until the approval of Liquid Injectable Vial-SVP (general) from CLB, the firm however, adamantly and willfully refused to comply with the instructions and insisted on illegal manufacturing whereby, the firm stands in obstruction of Power of the Inspector granted under Section 18(l)(j) & punishable under Section 27(3) of Drugs Act,1976 read with Schedule-Ill (3) of DRAP Act, 2012

06. Keeping in view the above-mentioned facts of the case, FID I has recommended following actions against M/s. Amsons Vaccine and Pharma Islamabad:

i. Cancellation/Suspension of Registration of Water for injection 2ml registration No.024873 until the firm either completes the new building or gets section approval from CLB in the existing facility since as of today the firm M/s Amson Vaccines & Pharma (Pvt) l td do not have the requisite section approval from CLB

ii. Permission for prosecution against M/s Amson Vaccines & Pharma (Pvt) Ltd plot# 154 Industrial TriabngleKahuta Road, Islamabad through its management Mr. Abbas Khan S/O Dilawar Khan, Mr. Shamim Ahmad S/O Abdul Majeed. Mr. Saleem Asghar S/O Ali Sagheer, its Plant Manager Mr. Amanullah Sial, its Production In-charge Mr. Sajjad Hussain S/O M. Bashir & bits QC Incharge Mr. MuammadMuddassir S/O Noor Muhammad under Section 27(3) of Drugs Act, 1976 read with Schedule-Ill (3) of DRAP Act, 2012.

07. Proceedings and Decision of 320th meeting, "The case has been deferred due to paucity of time".

08. Decision of 321st meeting Keeping in view position narrated above. Board decided: "To issue show cause notice to M/s. Amson Vaccines & Pharma (Pvt) Ltd, Islamabad for suspension/cancellation/ prosecution in Drug Court, Islamabad for manufacturing of Water for injection 2ml registration No.024873

in vaccine manufacturing facility and called them for personal hearing before Registration Board as per clause 5.2 of Schedule B under Drugs (L, R & A) Rules, 1976.& Advised to proceed as per Section 27 (3) of Drugs Act, 1976 regarding obstruction in official duties as it does not pertain to Registration Board."

09. In compliance to the decision of RB show cause was issued to firm vide letter No. 03-45/2022 QC dated 15-11-22 to which M/s. Amsons Vaccine and Pharma Islamabad vide letter AVP/1222/WFI02 dated 23-12-2022 & letter AVP/1222/WFI01 dated 13-12-2022 has briefed that their layout for aseptic filling activity for WFI in vacant room in this sterile section has been approved and they need 4-6 months for its operation and till then aseptic filling of WFI 2ml after appropriate decontamination, cleaning, and on basis of cleaning validations may please be allowed in existing area.

Proceedings and Decision of 324th Meeting of Registration Board.

Registration Board after discussion, considering the facts of the case decided:

i. **"Suspension of Registration of "Water for injection 2ml registration No.024873" of M/S Amson Vaccines Pharma till establishment and approval of separate section by Licensing Division, DRAP for manufacturing of this product with immediate effect."**

Case No. 06: CASE REFERED BY PQCB, PUNJAB REGARDING REGULATORY METHOD OF ANALYSIS OF HEMOROSE-F TABLETS SUBMITTED BY M/S NEOMEDIX PHARMA.

01. The Secretary, Provincial Quality Control Board, Punjab vide reference No. PQCB/F-Isu-Bwp-05/06/19 dated 20-02-2019 has informed that Director DTL Faisalabad vide letter no. 8054/DTL/FSD dated 26-01-2019 stated that the lab has received sample of Tab. Hemorose-F (iron polymaltose complex + Folic acid) manufactured by M/S Neomedix bearing batch No. 484 from Drug Inspector Aziz Bhatti Shaheed Teaching Hospital Gujrat on 27-12-2018.

02. That requests for the provision of method was sent to manufacturer vide letter no. 6007/DTL/FSD dated 29-12-2018 and 23-01-2019 respectively. The method of analysis was found to be not workable for folic acid as the mentioned concentration (0.00007 mg/ml) for both sample and standard was below the limit of identification and quantification on UV at 280nm.

PROCEEDINGS AND DECISION:

03. Subject issue was considered by the Committee of the Provincial Quality Control Board, under section 11 of the Drugs Act 1976 in its 6th meeting held on 20-02-2019. Secretary PQCB apprised the Committee about background of the subject matter which was discussed at length and directed Drugs Testing Laboratory, Faisalabad to file the above-mentioned case. The Board observed that all the manufacturers/ drug registration certificate holders are legally bound to provide product specification and method of analysis to the Government analyst/Drug Testing Laboratories. The need for product specifications /method of analysis becomes more critical when the drug is not available in official pharmacopoeias and/or the manufacturer has its own customized specifications/method for analysis. In such circumstances it becomes quite challenging and almost impossible for a Government Analyst to conduct testing of the drug sample on such method provided by the firm on which sample as well as standard is not responding. The Board expressed its serious concerns over casual behavior on the part of the firms in this regard.

04. The Committee after due discussion and deliberation unanimously decided to recommend DRAP for the cancellation of registration of the above-mentioned product as the manufacturer ignored the dissolution criteria of the official monograph and also provided a method to the Govt. Analyst which is full of mistakes.

Proceeding and Decision of 291st meeting of Registration Board.

05. The case was presented before the Registration Board in its 291st meeting held on 04th September, 2019 and the Board after detailed discussion decided as under:

"To issue the show cause notice and personal hearing to the firm/ responsible persons as provided by the provincial quality control board (PQCB), Lahore. You failed to fulfill the condition of registration as prescribed under the rules because the method of test/analysis method provided by you was non responsive for test analysis of Folic acid and is defective. (The method of analysis was found to be not workable for folic acid as the mentioned concentration (0.00007 mg/ml) for both sample and standard was below the limit of identification and quantification on UV at 280nm.). You are required to explain your position that why the registration of your product i.e. Tab. Hemorose-F (iron polymaltose complex + Folic acid) should not be suspended/cancelled."

06. Show cause notice was served to the firm as per decision of the Registration Board vide No.F.03-41/2019-QC (291st RB) dated 25-10-2019.

07. M/s Neomedix Pharma, Islamabad submitted their reply vide reference No. nil dated 06-11-2019 addressed to the Secretary, Registration Board regarding the subject of RE: Letter No.03-41/2019-QC Dated 25th October, 2019 wherein they have stated that "we would like to thank you for offering us the opportunity to be heard in person. Kindly give us a suitable date and time so we pay appear to your kind office and explain our case in detail."

Proceedings of 293rd meeting of the Registration Board.

08. Malik Shahid GM, (37405-4576435-1) and Ghulam of M/s Neomedix Pharma appeared on behalf of M/s Neomedix Pharma for instant case and stated that Quality Control Manager of the firm at that time submitted the method of analysis to the Provincial Quality Control Board which was not was not working/responding. Later on they submitted a new & validated method to the Provincial Quality Control Board but they told that it's too late now.

Decision of 293rd meeting of Registration Board.

09. Registration Board in its 293rd meeting after detailed discussion decided as under:

i. Suspension of the Registration of the said product for six (06) months or till the verification of root cause analysis, Corrective and preventive action (CAPA) by the firm, product development data and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.
   - Dr. Qurban Ali, Member Registration Board
   - Area Federal Inspector of Drugs.
   - Mr. Haseeb Tariq AD PEC

10. The decision of the Board was communicated to the panel vide letter No. 03-65/219-QC-(293rd RB) dated 21-04-2020 wherein the Federal Inspector of Drugs-II Islamabad submitted as under:

> *"Kindly refer to the subject cited above and letter No.03-65/2019-QC- (293rd RB) dated 21-04-2020. It is submitted that a panel comprising of following members namely Dr. Qurban Ali Member Registration Board area FID and Mr. Haseeb Tariq AD, PEC was constituted with a direction to area FID-II implement the decision of the in letter in spirit and delivery of letter to the firm.*
>
> *02. The letter has been delivered to the firm and case was discussed with members of the panel who opined that if the firm provides the CAPA then inspection may not be necessary. The firm on 07-08-2020 provided a CAPA report along with all Batch history of batch No. 484 in 2018 and 2020 and same has been forwarded to members with the points raised for PSI. The firm complied with the documentary evidence of CAPA and batch record. The members of the panel in consonance with the member registration Board (Dr. Qurban Ali). The panel in the light of evaluation of submitted documents (CAPA) by the firm is of opinion that the inspection may not be necessary for the said product. The same copy of the CAPA has already been submitted AD QC-II. The firm provided the report (BMR) and the test analysis reports dated May 2020 July 2020 same has been provided and sent to the members for perusal and directions. No directions/comments received from the members so letter is being sent to the Secretary Registration Board for record please."*

11. In the above-mentioned reply, FID-II Islamabad has stated that the firm submitted CAPA to the panel members. The panel members were of opinion that in the light of submitted CAPA, the inspection may not be necessary.

12. Contrary to the statement of FID-II Islamabad, no such reply/comment/consonance has been received from the other panel members and also as per available record in the section no CAPA has been received from neither the firm nor FID-II Islamabad.

13. FID-II Islamabad vide letter No. F. 03-13/2005-FID-I(Isd) dated 14-06-2021 submitted the request of firm for resumption of production as under:

> *"In continuation of this office letter of even No. dated 20th August 2020 (Copy enclosed). The subject matter has been discussed with the members of panel, regarding the product namely Hemorose-F Tablet which had been suspended since more than six months as per decision of Registration Board taken before in its 293rd meeting held on 06-08th January 2020 (Copy enclosed). The firm had not manufactured the subject product since more than six months (copy enclosed).*
>
> *02. In view of directions of the Registration Board the firm had complied with the decision of the Board and now requesting for resumption of production of Hemorose-*

F Tablet (Copy enclosed) which had been suspended. The panel members had also been kept on Board and agreed to the decision/ directions of Registration Board."

Proceedings and Decision of 312th meeting:

14. The Board after thorough deliberations and considering the reply of area Federal Inspector of Drugs discussed the matter with the other panel members i.e. Dr. Qurban Ali and Mr. Haseeb Tariq. Both members were unaware of such communication as stated by area Federal Inspector of Drugs. The Board showed serious concern over the reply of area Federal Inspector of Drugs and decided as under:

i. Suspension of the Registration of the said product till the verification of root cause analysis, Corrective and preventive action (CAPA) by the firm, product development data and verification of aforementioned points and Product Specific Inspection by following panel whichever is later.
   a. Dr. Qurban Ali, Member Registration Board
   b. Ms. Mehwish Tanveer, Assistant Director QA&LT
   c. Mr. Haseeb Tariq Assistant Director PEC

ii. Refer the case to Chief Executive Officer DRAP for taking disciplinary action against the area FID Islamabad for not complying Registration Board directions and mis-quoting other members of Registration Board.

15. In compliance to the decision of Registration Board, panel mentioned in para. 14 (i) visited the premises of M/s. Neomedix Pharmaceuticals Islamabad on 06-04-2022 for the purpose of verification of Root cause analysis, Corrective and preventatinve action and product development data for Hemorose-F tablet. Details of report as under:

"DETAILS OF INSPECTION

The firm was informed about the schedule of the inspection vide letter No. F. 15-1/2022-PRC dated 1st April 2022 by Assistant Director (PEC-III) after coordination with other panel members.

The panel visited the factory premises of M/s Neomedix located at Plot No. 05, N/5 National Industrial Zone, Islamabad on 06-04-2022. The following representatives / management of the firm were present at the premises:

1. *Mr. Faisal Muzamal (Partner)*
2. *Mr. Syed Talib Hussain Hashmi (Partner)*
3. *Ghulam Ghaus (QC Manager)*
4. *Muhammad Shoaib (Production Manager)*

The management of the firm informed the panel that they have recently purchased this unit and applied for change of management in Licensing Division DRAP in January 2022. The management informed that they have not yet got the complete possession of this unit and therefore no production activities are carried out. The firm also presented copy of letter for change of management of M/s Neomedix dated 4th July 2022 submitted to the Secretary Licensing Board (Annexure-I). The management further informed that since they have recently purchased the unit therefore they have not completed Root Cause Analysis, Corrective and Preventive Action (CAPA) and product development data for Hemorose-F tablets.

The management submitted a written request for provision of some time for performing Root Cause Analysis, Corrective and Preventive Action (CAPA) and product development data for Hemorose-F tablets (Annexure-II). The written request of the firm is as below:

Dear sir,

Referring to your letter No. F.15-1/2022-PEC dated 1st April 2022 and visit of inspection panel on 6th April, 2022, it is submitted that we have purchased this premises and submitted the letter of change of management in Licensing Division DRAP, in first week of January (Letter attached) and according to agreement, we will get complete possession of Neomedix in May 2022.

It is submitted that due to change of management and that till date we have not received full possession of premises, we have not completed Root Cause Analysis, CAPA and product development.

Kindly grant us 90 days after the full possession, so we could complete RCA, CAPA and product development in a better way.

Thanks and best regards,

For Neomedix,

Faisal Muzamal *Syed Talib Hussain*

(Partner) *(Partner)*

The management of the firm showed positive attitude for performing Root Cause Analysis, Corrective and Preventive Action (CAPA) and product development data for Hemorose-F tablets. The request of the firm is submitted for consideration by the Registration Board."

16. Proceedings and Decision of 317th Meeting of Registration Board.

Registration Board after thorough discussion and deliberations and considering the report of PSI and firm's request decided to advise panel for inspection of the firm in June 2022 for verification of CAPA and submit a report for consideration of the Board.

17. In compliance to the decision of the Board, the panel once again visited M/s Neomedix Pharma, Islamabad and submitted the report as under:

"DETAIL OF INSPECTION

The panel visited the factory premises of M/s Neomedix located at Plot No. 05, N/5 National Industrial Zone, Islamabad on 30-06-2022. The following representatives / management of the firm were present at the premises:

1. *Mr. Faisal Muzamal (Partner)*
2. *Mr. Syed Talib Hussain Hashmi (Partner)*
3. *Ghulam Ghaus (QC Manager)*
4. *Muhammad Shoaib (Production Manager)*
5. *Tauqeer Zehra (QA Manager)*

The management of the firm informed the panel that they have not yet conducted the Root Cause Analysis, Corrective and Preventive Action (CAPA) and performed product development and stability studies, because they have got the complete possession in May 2022 and afterwards they have started to upgrade the QC lab and have placed an order for the purchase of new HPLC system. The firm's management informed that they have received HPLC which needs commissioning and training which may take 15 days, after which they will perform product development studies.

Since the firm had not yet conducted the Root Cause Analysis, Corrective and Preventive Action (CAPA), product development and stability studies therefore the panel could not verify any performance of above stated studies."

Proceedings and Decision of 320th meeting:

18. The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

19 The Registration Board after discussion, considering the facts of the case decided:

"To issue show cause notice to M/s. Neomedix Pharma, National Industrial Zone, Rawat under clause (c) and (d) of sub section 11 of section 7 of the Drugs Act 1976 for suspension/cancellation/ prosecution in Drug Court of the subject cited drug and called them for personal hearing before Registration."

20 In compliance to the decision of RB show cause was issued to firm vide letter No. 03-45/2022 QC dated 15-11-22 to which M/s. Neomedix Pharma, National Industrial Zone, Rawat vide letter dated 06-12-2022

21 M/s. Neomedix Pharma, National Industrial Zone, Rawat vide letter dated 06-12-2022 has briefed that previous management was responsible for manufacture and sale of this substandard drug they are under process of purchasing the firm but still are not the legal owner of firm, future management is under process of changing which still is awaited by honorable drug court and CLB. The matter of sub-standard drug is pending adjunction before the honorable drug court Rawalpindi and responsibility falls to previous management so new management may be exonerated.

Proceedings and Decision of 324th Meeting of Registration Board.

Registration Board after discussion, considering the facts of the case decided:

i. **"Cancellation of Registration of Tab. Hemorose-F (iron polymaltose complex + Folic acid manufactured by M/S Neomedix Pharma), Registration number Reg No. 043985 ."**

AGENDA ITEM NO. 02 (ROUTINE CASES)

18. Moreover, FID-IV Karachi has submitted report in compliance to the decision of Board. Details of proceedings of inspection area given under:

"Focus of inspection:
Risk based product specific inspection in compliance to DRAP, Islamabad letter No. F. 4-18/2006-QA dated 30th June, 2021.

Proceedings of current inspection:

The panel during the inspection reviewed the available documents of the product Batch in question and interviewed the technical staff. Related documents and traceability was established with the log books and the practices being followed in manufacturing and testing of the product.

Production Premises:

Firm has provided properly maintained visitors change room, male and females staff change room along with a buffer before entrance into the production premises. Material receiving bays, quarantine area, storage, dispensing areas were visited and their log documents were reviewed at the work stations.

Quality Control Laboratory

The laboratory is equipped with necessary equipments for carrying out test/ analysis of the focused Dosage form i.e. Tablet. Hardness tester, Disintegration apparatus, dissolution apparatus, analytical weighing Balance, pH meter, UV-Spectrophotometer, HPLC and other facilitating equipments required for test/ analysis of the product were seen available and utilized for investigation at time of inspection.

Quality Assurance/ Documentation System:

Firm has basic documentation system in place. Batch Manufacturing record of the product and batch in question was reviewed and it reveals that most parameters are not defined in details although followed/ are in practice.

Technical Areas:

The HVAC units of this section are placed on the rooftop. Since, production in this section is suspended therefore, was not in operation at the time of inspection, However, supply and exit ducts were seen properly installed.

Observations/ Findings:

Process validation and stability, studies as per requirements were not satisfactory.

Recommendation and Conclusion:

Based on the areas visited, processes reviewed and technical people interviewed, the panel is of the view to recommend resumption of suspension of product "Temprin 500mg" subjected to submission and verification of process re-validation studies and stability data of 3 Batches upon resumption of production by the area FID."

19. The case has been deferred due to paucity of time.in 320th meeting.
20. The Registration Board deferred the case for further deliberation in next meeting.in 321st meeting.

Proceedings and Decision of 324th Meeting of Registration Board.

03. The case was presented before the Board in its **297th meeting** wherein it was decided as under:

"The Board after detailed deliberations and considering the facts of the case decided to issue show cause notice for cancelation/suspension of products to the accused."

04. In compliance to the decision of Registration Board, the accused was issued a show-cause notice vide No. F. 03-56/2021-QC (Pt-I) (297-RB) dated 05-04-2021. The accused has replied vide ref. No. HBP 4 / 2021 dated 15-04-2021 which is given as under:

> *"This refer to your letter no. F.03-56/2021-QC(Pt-I) (297-RB) dated April 05,2021 via ums services, which we received on dated April 12,2021 on Subject cited above. Please provide us an opportunity to be heard in person in response to above show cause notice. We want to submit justification / clarification in person."*

05. Keeping in view of above-mentioned reply, the representatives of the firm are called before the Board for personal hearing.

06. Proceedings and decision of 307th meeting of Registration Board:

Dr. Javed Saeed (CEO M/s. Hawk Bio Pharma, Islamabad) along with QC Manager, Mr. Ajmal and Production Manager, Mr. Zia Hussain appeared before the Board for Personal hearing. They pleaded that they have submitted evidence to FID that their imports were done as per legal procedures. They submitted a written reply and supporting documents. The Board after considering the facts of the case and thorough deliberations decided as follows:

i. Refer the case back to area FID for complete investigation.
ii. Suspend all registered products of the firm (as identified by area FID) that were manufactured by the raw materials in question.

07. In compliance to the decision of 307th meeting of the Registration Board, letter vide No. No.F.03-15/2021-QC (307-RB) (Pt-I) dated 03-08-2021 was issued to M/s. Hawk Bio Pharma Islamabad and area FID Islamabad for submission of complete investigation report. Area FID Islamabad vide letter No. F. 2-10/2011-FID-II (ISD) dated 05-01-2021 submitted as under:

08. In response to the decision of Registration Board taken in it's 307th meeting, the firm was called for investigation of case.

Investigation of Case:

*The firm was asked to submit the evidence of loan & proof of import clearance by DRAP. In response they submitted the loan request applications alongwith inward, outward Gate Pass & GRN of Ivermectin & Bismuth Subnitrate alongwith import clearance documents & COAs of both loaned & self-imported materials **(Annex-E)**. However, they could not provide the evidence of import of loaned material of Bismuth subnitrate. For which they have submitted that since they loaned it from M/s Mansoor Chemicals, Karachi who have informed them the given material was expired during 2020. Hence, they have disposed off the documents after expiry period **(Annex-F)**. Regarding Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Magnesium Sulphate and Manganese Sulphate, they have submitted clarification that these are considered as excipients. Hence no need of import authorization required. They have further informed that all the materials (except Magnesium Sulphate) have now been expired as details mentioned on COAs as per following details and they have hence requested for destruction of materials since the materials have been expired now and they shall be careful in future **(Annex-G)**:*

S.#	***Name of Drug***	***Batch & Quantity***	***Date of Expiry (As mentioned on COA)***	***Manufacturer***
1.	*Invermectin*	*201808021 1.7Kg*	*17th August 2020*	*Unknown*
2.	*Bismuth Subnitrate*	*19030211 4.1Kg.*	*27th October 2020*	*-do-*

3.	*Ferrous Sulphate*	*00118-060 22.250Kg*	*12th April 2018*	*-do-*

Regarding Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Magnesium Sulphate and Manganese Sulphate their clarification is not justified on scientific & legal grounds. The investigation of case and the request of firm for destruction of materials is submitted before Registration Board."

Proceedings and Decision of 320th meeting:

The case has been deferred due to paucity of time.

Proceedings and Decision of 321st Meeting of Registration Board.

The Registration Board deferred the case for further deliberation in next meeting.

Proceedings and Decision of 324th Meeting of Registration Board.

Registration Board after discussion, considering the facts of the case decided as under:

i. **Import and export of raw materials does not fall under the mandate of Registration Board. Hence, the case is referred back to QA&LT Division to decide the case under the Drugs (import & Export) Rules, 1976 under Drugs Act, 1976. Till that decision, registration of all products shall remain suspended as per decision of the 307th meeting of Registration Board communicated vide letter No. No.F.03-15/2021-QC (307-RB) (Pt-I) dated 03-08-2021.**

Case No. 9: IMPORT OF REGISTERED PRODUCTS THROUGH FAKE/FORGED INVOICES BY M/S. BIOCURE PHARMACEUTICALS, LAHORE.

01. Assistant Director (I&E), Lahore vide letter No.5247/2019/DRAP(AD-CD) (I&E) dated 15-04-2019 informed that Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi has asked for the verification of genuineness of following ADC invoices;

Sr. No	Invoice No. & Date	Diary No. & date	Dispatch No. & Date
1	SBF/EXP/23-2019, dated 21-02-2019	4699/2019 DRAP dated 15-03-2019	3769/2019-DRAP, dated 19-03-2019
2	SBF/EXP/24-2018, dated 15-03-2018	4569 dated 26-03-2018	4451/2018-DRAP, dated 29-03-2018
3	SBF/EXP/28-2017, dated 29-03-2017	5982 dated 27-04-2017	5647/2017-DRAP, dated 28-04-2017
4	SBF/EXP/127-2015, dated 28-10-2015	13579 dated 23-11-2015	18835/2015-DRAP, dated 26-11-2015
5	SBF/EXP/128-2016, dated 27-12-2016	1524 dated 26-01-2017	1396/2017-DRAP, dated 27-01-2017

02. AD (I&E), DRAP, Lahore further informed that the genuineness of the endorsement of said invoices is not verified from the office record. In response to the submission of AD (I&E), DRAP, Lahore the division of QA&LT directed the Area FID vide letter F. No.13-125/2019-(QC)dated 16-05-2019 to investigate the matter and after completing all the legal formalities, submit a comprehensive report including all the requisite documents, if any, on priority basis for consideration of the Board.

03. Area Federal Inspector of Drugs Lahore vide letter No.7011/2021-DRAP (L-IV) dated 07-05-2021 submitted the complete investigation report and the reply of accused as under:

S.No.	Invoice No & Date	Diary No. & date	Dispatch No, & Date

1	SBF/EXP/23-2019, dated 21-02-2019	4699/2019 DRAP dated 15-03-2019	3769/2019-DRAP, dated 19-03-2019
2	SBF/EXP/24-2018, dated 15-03-2018	4569 dated 26-03-2018	4451/2018-DRAP, dated 29-03-2018
3	SBF/EXP/28-2017, dated 29-03-2017	5982 dated 27-04-2017	5647/2017-DRAP, dated 28-04-2017
4	SBF/EXP/127-2015, dated 28-10-2015	13579 dated 23-11-2015	18835/2015-DRAP, dated 26-11-2015
5	SBF/EXP/128-2016, dated 27-12-2016	1524 dated 26-01-2017	1396/2017-DRAP, dated 27-01-2017

2 Letter No. 12040/2019-DRAP (L-VI) dated, 17-09-2019, was sent from this office to M/s. Biocure Pharmaceuticals, to explain their position in this regard (copy attached annex-9).

3 Reply received from M/s. Biocure Pharmaceuticals, Jail Road, Lahore vide letter No. Nil, dated Nil received office on 02-10-2019 (copy attached annex-10), wherein they have informed that after coming to know of the above they launched FIR against the clearing agent, whom they had hired some time ago .The CEO of the firm further informed that he was shaken after knowing about this matter which caused severe tension, heart attack and cardiogenic shock. He has further requested that he may be granted relief on humanitarian basis. Previous import history of the firm as per this office record showing clearance certificates obtained from this office previously is also. But as per available record of this office the above said invoices were not cleared by this office.

4 The available data of this office reveals that the firm did not get prior clearance to import their products Eridoksin Registration No. 059185 and Roxine 25% Registration No. 059186 which is the violation of the Drugs Act 1976/DRAP Act 2012, so, it is recommended that the registration of the drugs / product in question may be suspended or cancelled or any other action may be taken as deemed fit by the Competent Authorities.

Submitted for information and further necessary action please."

04. Area FID Lahore in the above-mentioned report has recommended the cancellation/suspension of registration of products namely Eridoksin powder containing Erythromycin 40mg and Doxycycline 20mg (Reg. No. 059185) and Roxine 25% oral solution containing Enrofloxacin 250g (Reg. No. 059186) or any other action as may deem fit by the Board.

05. The Board in its 312th meeting decided to issue show cause notice to firm for cancellation/suspension of their registered product.

06. In compliance to the decision of 312th meeting of the Registration Board, the firm was issued show cause notice vide F.No.03-33/2021-QC (312-RB) dated 28-10-2021. Till date no reply has been received from the firm.

07. The representatives of the firm are called before the Board for personal hearing.

Proceedings and Decision of 313th meeting:

08. Jawad Ahmed (CEO) of M/s. Biocure Pharmaceuticals, Suite No. 211, 2nd Floor Khaleej Town, 38-A, Jail Road Lahore appeared before the Board and informed the Board that he had hired a clearing agent namely Muhammad Sadiq S/o Abdul Aziz R/o House No. 49-A, Street No. 139-C, Ittefaq street, Ghulam road, Ichhra Lahore who was responsible for submitting fake invoices to the custom authorities. Moreover, Mr. Jawad Ahmed also informed the Board that he was unaware of these illegal activities being carried out by his clearing agent and he also had lodged FIR against that clearing agent in Litton road Police Station Lahore.

09. The Board after thorugh deliberations, considering the facts of the case and submission of CEO of M/s. Biocure Pharmceuticals Lahore decided as under:

i. Suspend the Registration of the products namely Eridoksin Powder (Reg. No. 059185) and Roxine 25% oral solution (Reg. No. 059186) for (06) months.
ii. The division of QA&LT will conduct a detailed investigation of the matter and submit a comprehensive report before the Board within (02) months.

10. In the light of the decision of Registration Board, the accused were issued a letter for suspension of their products vide letter F. No. 03-43/2021-QC (313-RB) dated 16-12-2021. Moreover, brief facts of the case are given as under:

1) Assistant Director (I&E), Lahore vide letter No.5247/2019/DRAP(AD-CD)(I&E) dated 15-04-2019 informed that Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi has asked for the verification of genuineness of ADC invoices as mentioned in table of para 01.

2) The division of QA&LT directed the Area FID vide letter F. No.13-125/2019-(QC)dated 16-05-2019 to investigate the matter and submit a comprehensive report of the matter.
3) Area FID Lahore informed that the invoices provided by the Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi are forged and the firm did not get prior clearance to import their products and recommended that the registration of the drugs / product in question may be suspended or cancelled.
4) The Registration Board in its 312th meeting decided to issue Show cause notice and personal hearing to the management of M/s. Biocure Pharmaceuticals Lahore.
5) Jawad Ahmed (CEO) of M/s. Biocure Pharmaceuticals of the firm appeared before the Board in its 312th meeting and submitted that he had hired a clearing agent namely Muhammad Sadiq S/o Abdul Aziz R/o House No. 49-A, Street No. 139-C, Ittefaq street, Ghulam road, Ichhra Lahore and the fake invoices were submitted by him. The said person is not traceable and Jawad Ahmad (CRO) of M/s. Biocure Pharmaceuticals Lahore had lodged FIR against that person in Litton road Police Station Lahore. A Copy of FIR is also submitted by the CEO of M/s. Biocure Pharmaceuticals Lahore.
6) The invoices provided by Assistant Collector-II, Model Customs Collectorate of Appraisement-West, Karachi are dated 26-11-2015, 27-01-2017, 28-04-2017, 29-03-2018 and 19-03-2019 in her letter dated 15-04-2019 whereas the accused had lodged the FIR against his clearing agent on 22-06-2019.

10. The case has been deferred due to paucity of time in 320th meeting.
11. The Registration Board deferred the case in 321st meeting for further deliberation in next meeting

Proceedings and Decision of 324th Meeting of Registration Board.

Registration Board after discussion, considering the facts of the case decided as under:

i. **"To refer the case to Legal Affairs Division for their opinion on the case."**

Case No. 10: **MANUFACTURE & SALE OF SUB-STANDARD BLOMOX FORTE SUSPENSION, REG. NO. 026072, BATCH NO. PF-045, MANUFACTURED BY M/S. BLOOM PHARMACEUTICALS (PVT) LTD., HATTAR.**

Details of sample:

Blomox Forte Suspension	Bloom Pharmaceutical (Pvt.) Ltd. Hattar	026072	PF-045	03-2021	02-2023	Substandard on the basis of Deliverable volume.

Details of CDL report:

S.No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Off white which reconstitute into off white suspension on mixing with water.	Complies.	Mfg. Specs.
2.	Identification	The identification test must identify Amoxicillin.	Complies.	USP 43
3.	**Deliverable Volume**	**Meets the requirement of general chapter <698>**	**Does not comply.**	**USP 43**
3.	pH	5.0 to 7.5	5.79-Complies	USP 43
4.	**Assay** Amoxicillin (Label Claim 250mg/5ml)	90.0% to 120.0%	113.74%- Complies.	USP 43

Remarks:*The sample is of **"Sub-Standard"** quality under the Drugs Act, 1976.*

Summary of the case:

i. Federal Inspector of Drugs-IV, DRAP Islamabad was taken the sample of Blomox forte suspension manufactured by Ms. Bloom Pharmaceuticals Pvt. Ltd., Hattar from the premises of M/s. Federal Government Polyclinic Hospital, Islamabad on 06-08-2021.

ii. FID also ordered not to dispose of the stock (3565 bottles) of Blomox forte suspension subject to report of test and analysis of the product for volume and content uniformity under clause (i) of section 18.

iii. The sample of drugs sent to Government Analyst, CDL for test and analysis on form-4 dated 09-08-2021. Federal Govt. Analyst CDL Karachi vide report No.R.IP.66/2021 dated 22-09-2021 has declared the sample as "Sub-standard" quality under the Drugs Act, 1976.

iv. FID directed firm to stop the sale and recall the said drug and explain their position.

v. Recall of product was initiated and reconciled by FID, it was revealed that batch size of product was 9300 packs and actual yield was 9010 packs+100 packs utilized by QC department. Ms. Bloom Pharma issued stock of 9000 bottles to its distributor Ms. Chaudhary Pharma, Rawalpindi which they issued to Ms. Biocare Enterprises and they supplied 9000 bottles to Polyclinic Hospital, Islamabad.

vi. M/s. Bloom Pharmaceutical Pvt. Ltd., Hattar replied to FID dated 21-10-2021 wherein they requested for retesting on the ground that

> ***"as per in-house testing performed by the Quality Control Department, the product complies all test specifications. Their Quality Control Department released the product for market after thorough tests and all specifications of the product were within limits and found no contravention of Drug Act, 1976."***

vii. Firm has been directed to submit scientific justification/evidence for retesting dated 25-11-2021.

viii. Firm replied dated 31-10-2021 where in their results of finished product and retained sample were as per specification. Firm has performed test on 10 containers which are in specification as per their documents

ix. As per decision of 313th meeting of Registration Board regarding appellate testing, CDL was asked for OOS investigation.

x. Federal Government Analyst, CDL Karachi submitted that

> ***"The sample in question was tested for Deliverable volume along with other quality test as per USP General Chapter<698> and as desired by the FID. The sample was declared as of substandard quality on the basis of the test performed. It is submitted that the test of deliverable volume requires thirty (30) containers and the quantity submitted to CDL, Karachi by the FID vide memorandum No. F.7-2/2011-FID-I (Vol-I) dated 09-08-2021, was only fifty (50) containers, therefore, No Systematic Out of Specification Investigation could be made for this sample."***

Proceedings and Decision of 324th Meeting of Registration Board.

The Registration Board deferred the case for further deliberation along with confirmation of Dry Powder Suspension (penicillin)

AGENDA ITEM NO. 03
APPELLATE TESTING CASES REPORTS FROM NIH

Case No. 12: **SUBSTANDARD MECONOR INJECTION MANUFACTURED BY M/S. NORTECH PHARMACEUTICALS (PVT.) LTD., ISLAMABAD.**

Federal Government Analyst CDL Karachi vide test report No. F. 5-3(I)/2021-CDL/S-803 dated 02-07-2021 it was informed that the sample of product "MecoNor Injection" Batch No. A-003 (Mfg. date 11-2020, Exp date 10-2022) sent to CDL Karachi by FID-I Islamabad has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Reddish pink coloured solution in amber glass ampoule.	Complies	Mfg. Specs.
2.	Identification	The identification test must identify Mecobalamin.	Complies	Mfg. Specs.
3.	pH	5.5 to 6.5	**4.98** **Does not comply**	Mfg. Specs.
4.	Bacterial Sterility	Must be sterile	Complies	BP 2020
5.	**Assay.** Mecobalamin.	92.5% to 108.5%	106.2% Complies	Mfg. Specs.

	(Label claim 500mcg/ampoule)			

02. FID-I Islamabad vide letter No. F. 3-4/2011-FID-I dated 23-09-2021 forwarded the request of M/s. Nortech Pharmaceuticals (Pvt.) Ltd., Islamabad dated 15-09-2021 for appellate testing of their sample of product namely "MecoNor Injection" batch No. A-003 declared substandard by CDL Karachi on 02-07-2021 (Report received by firm on 07-09-2021).

03. Registration Board in its 313th meeting decided to fulfill the codal formalities. In complianceLetter vide Therefore, in the light of decision of Registration Board, a letter vide No. F. 03-27/2021-QC dated 22-12-2022 was issued to M/s. NorTech Pharmaceuticals (Pvt.) Ltd., Islamabad for submission of OOS investigation and complete testing record of the concerned batch and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(I)/2021-CDL-S-803 dated 02-07-2021.

Technical evaluation of OOS report by QC section:

04. M/s. NorTech Pharmaceuticals Islamabad vide letter dated 03-01-2022 provided OOS investigation wherein they submitted the following:

- Testing method for pH of injection MecoNor (Mecobalamin) is non-pharmacopeial and the same was provided to CDL Karachi 23-06-2021.
- CDL Karachi concluded the test report while referring the controlled limits 5.5-6.5 of pH instead to limits provided by the firm i.e. 5.0-7.0.

06. However, on evaluation of the OOS report provided by the firm, it was observed that in Analysis report (Finished product) dated 24-12-2020, the pH of the batch in question of product Meconor injection was found to be 6.00 whereas in Analysis report (Finished product) dated 07-09-2021, the pH was found to be 5.7. It seems that product is not stable as evident from the variation of more than ±0.1 in pH values as determined by the manufacturer itself.

07. The matter was discussed in 320th meeting OOS investigation submitted by the firm and CDL Karachi were placed before the Board. The Board after thorough discussion and evaluation of the provided OOS investigation reports decided to accede with the request of M/s. Nortech Pharmaceuticals Islamabad to perform appellate test/analysis of Board's portion of sample for parameters that have been reported out of specifications (i.e. pH) by CDL Karachi of their product Meconr Injection Batch No. A-003 from NIH Islamabad**.**

08. In compliance to the decision of RB where board allowed appellate test for the said product so letter No. F.03-27/2021-QC dated 01-09-22 in compliance of which NIH has sent its report No 03-M/2022-DC&TMD dated 28-oct-22

PH TEST	Determined amount	Limits
Nomenclature Inj Meconor 500mcg **Batch No** A-003 **Mfg date** 11-20 **Exp date** 10-2022	5.4	5.0-7.0
Conclusion	The sample is of standard quality on basis of test performed	

Proceedings and Decision of 324th Meeting of Registration Board.

Registration Board after discussion, considering the facts of the case decided as under:

i) **Advised QA&LT Division, DRAP to approach NIH and CDL for provision of specifications of the said product as provided by the firm for further consideration by Registration Board.**

Item No.VI Additional Agenda

A. Pharmaceutical Evaluation & Registration Division:

Pharmaceutical Evaluation Cell (PEC)

Item No. I: Agenda of Evaluator PEC-X (Mst Najia Saleem)

Case No. 01: Registration applications of newly granted DML or New section (Veterinary)

a. New DML

New cases

I. **M/s Suave Pharmaceuticals Pvt. Ltd., Faisalabad. (New DML)**

CLB in its 288th meeting held on 18th October, 2022 has considered and granted approval for DML by way of formulation with the following sections.

Oral Powder (Penicillin)-Veterinary
Oral Liquid (General/ Antibiotic)-Veterinary
Oral Powder (General/ Antibiotic)-Veterinary
Liquid Injection (General/ Antibiotic)-Veterinary

Accordingly, firm has applied for following products for consideration by the Registration Board.

Section	No. of Products applied	No. of Molecules applied
Oral Powder (Penicillin)-Veterinary	03	02
Oral Liquid (General/ Antibiotic)-Veterinary	08	07
Oral Powder (General/ Antibiotic)-Veterinary	13	10
Liquid Injection (General/ Antibiotic)-Veterinary	08	08

Oral Powder (Penicillin)-Veterinary

(02 Molecules/ 03 products)

1.	Name and address of manufacturer / Applicant	M/s Suave Pharmaceuticals Pvt. Ltd. Plot No. 2-C, Value Addition City, Khurianwala, Faisalabad

	The proposed proprietary name / brand name	Linvesta-M 2.5/500mg Film Coated Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated Tablet contains: Linagliptin …….2.5mg Metformin HCl …….500mg
	Pharmaceutical form of applied drug	Yellow colored, biconvex oval shaped film coated tablet.
	Pharmacotherapeutic Group of (API)	Anti-Diabetic (Type-II)
	Reference to Finished product specifications	Manufacturer's Specifications
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	JENTADUETO 2.5/500mg Film Coated Tablet by Boehringer Ingelheim International GmbH (USFDA approved)
	For generic drugs (me-too status)	Not Available
	GMP status of the Finished product manufacturer	cGMP certificate based on inspection conducted on 14-09-2022 and valid for two years.
	Name and address of API manufacturer.	Linagliptin: M/s Lee Pharma Limited, Survey No. 10/G-1, Gadda Potharam (Village) Jinnaram (Mandal), Sangareddy (District) Telangana, 502319, INDIA. Metformin HCl: M/S Ipca Laboratories Limited, H-4, M.LD.C., Waluj, Aurangabad (Maharashtra) Pin: 431 136, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Linagliptin is not available in any official Pharmacopoeia & Official monograph of Metformin HCl is available in British Pharmacopoeia as well as in United States Pharmacopoeia. The API Manufacturer of Metformin HCl used B.P. Specifications & Manufacturer of Linagliptin used In-house Specifications. The firm as submitted both APIs details of nomenclature, structure, general properties, Solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of both drug substances.
	Stability studies of Drug substance	Linagliptin:

		Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (LI0316005, LI0316006, LI0316007) Metformin HCl: Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (9002ML2RMl, 9003ML2RMl, 9004ML2RMl)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is JENTADUETO 2.5/500mg Tablets by Boehringer Ingelheim International GmbH by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Tragenta Duo 2.5/500mg Tablet by Boehringer Ingelheim International GmbH in Acid media (0.1N HCl) & Buffer (pH 4.5 & 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	Linagliptin: M/s Lee Pharma Limited, Survey No. 10/G-1, Gadda Potharam (Village) Jinnaram (Mandal), Sangareddy (District) Telangana, 502319, INDIA. Metformin HCl: M/S Ipca Laboratories Limited, H-4, M.LD.C., Waluj, Aurangabad (Maharashtra) Pin: 431 136, India.

Date of Initiation	22-01-2022	22-01-2022	22-01-2022
No. of Batches	03		

Administrative Portion

	Reference of previous approval of applications with stability study data of the firm (if any)	
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Linagliptin: Copy of GMP certificate No. L. Dis.No: 86097/TS/2022 issued by DRUGS CONTROL ADMINISTRATION, Government of Telangana valid till 08/05/2023. Metformin HCl: Copy of GMP certificate No. No.: NEW-WHO-GMP/CERT/AD/104179/2021/11/37725 issued by Food & Drugs Administration Maharashtra, India valid till 27/10/2024.
	Documents for the procurement of API with approval from DRAP (in case of import).	Linagliptin: Firm has submitted copy of Form 6 from & invoice (invoice# 1269/LP/2021-22) Dated: 07-10-2021 cleared by DRAP Lahore office dated 13-10-2021 specifying import 4Kg Linagliptin (Batch# LIFP21012). Metformin HCl: Firm has submitted copy of Form 6 from & invoice (invoice# SMP2122/1630075) Dated: 25-08-2021cleared by DRAP Lahore office dated 02-09-2021.specifying import of Metformin HCl 25Kg (Batch# 21296ML2ARMI).
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted.
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated	Reply
	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	Copies of Batch Manufacturing Record (BMR) for following 03 trial batches have already been provide Dossier:

Batch No	NPD-PR21-039-T1S1	NPD-PR21-039-T1S2	NPD-PR21-039-T1S3
Batch Size	2000 Tab.	2000 Tab.	2000 Tab.
Mfg. Date	01-2022	01-2022	01-2022

	3.2.S.4.4	The submitted COA of drug substance (Linagliptin) by drug substance manufacturer does not declare Enantiometric Content of S-Isomer.	According to Section S1 & Section S2 Version 1.0 Applicant part of Drug Master File (DMF) of Linagliptin, R-Enantiomer is the Drug substance which is being used in Drug Product. The same is recommended by "European Medicines Agency" for Innovator Brand manufactured by "Boehringer Ingelheim". All the intermediate related Compounds are also R-Intermediates either Carbamates or Dione.
	3.2.P.2.1.1	Justify the proposed quantity of Arginine in applied formulation	According to application filed by "Boehringer Ingelheim" vide application No. PCT/EP 2012/053910, equal ratio of Linagliptin with basic amino acid Arginine is effective and stable one. Therefore, in our formulation we stabilize Linagliptin component of our product by using 1:1 of Linagliptin and Arginine. Moreover, Stability studies up till now also showing & strengthening effectiveness of this ratio.
	3.2.P.2.2.1	Pharmaceutical equivalence and Comparative dissolution profile are performed against 2 different products. Justification is required.	Linvesta-M 2.5/500mg Film Coated Tablet is non-Pharmacopial product. The brand used in Comparative Dissolution Profile USP<1090> is from the innovator "Boehringer Ingelheim" under brand name "Trajenta Duo 2.5/500mg Tablet". The other brand of this formulation i.e. "Jentadueto 2.5/500mg" is manufactured by same innovator "Boehringer Ingelheim". The Comparative Dissolution Profile was performed as per the availability of the Boehringer Ingelheim product. Reference is as under: https://cdn.who.int/media/docs/default-source/medicines/norms-and-standards/guidelines/regulatory-standards/trs992-annex8-who-comparators-multisource.pdf?sfvrsn=c5116e6_2&download=true
	3.2.P.5.1	Test for Quantification of Arginine by way assay as recommende by innovator product literature is not included in drug product specification. Justification shall be submitted.	We performed analytical Procedure for Linagliptin & Metformin through a single Test method but the procedure for Arginine is different & performed separately. COA is attached indicating quantification of Arginine. (However testing method for Arginine not submitted)

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration letter will be issued upon submission of fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

	Dy. No. and date of submission	Dy. No. 842 dated :10-01-2023
	Details of fee submitted	PKR 75,000/-: Deposit slip # 386416818
	The proposed proprietary name / brand name	Linvesta-M XR 2.5/1000mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended Release Tablet contains: Linagliptin ……2.5mg Metformin HCl …….1000mg
	Pharmaceutical form of applied drug	Blue colored biconvex Oblong Extended Release Tablet
	Pharmacotherapeutic Group of (API)	Anti-Diabetic (Type-II)
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	JENTADUETO XR 2.5/1000mg Tablet by Boehringer Ingelheim International GmbH (USFDA approved)
	For generic drugs (me-too status)	Not Available
	GMP status of the Finished product manufacturer	cGMP certificate based on inspection conducted on 14-09-2022 and valid for two years.
	Name and address of API manufacturer.	Linagliptin: M/s Lee Pharma Limited, Survey No. 10/G-1, Gadda Potharam (Village) Jinnaram (Mandal), Sangareddy (District) Telangana, 502319, INDIA. Metformin HCl: M/S Ipca Laboratories Limited, H-4, M.LD.C., Waluj, Aurangabad (Maharashtra) Pin: 431 136, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls,

		impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Linagliptin is not available in any official Pharmacopoeia & Official monograph of Metformin HCl is available in British Pharmacopoeia as well as in United States Pharmacopoeia. The API Manufacturer of Metformin HCl used B.P. Specifications & Manufacturer of Linagliptin used In-house Specifications. The firm as submitted both APIs details of nomenclature, structure, general properties, Solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of both drug substances.
	Stability studies of Drug substance	Linagliptin: Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (LI0316005, LI0316006, LI0316007) Metformin HCl: Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (9002ML2RMl, 9003ML2RMl, 9004ML2RMl)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is JENTADUETO XR 2.5/1000mg Tablets by Boehringer Ingelheim International GmbH by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is JENTADUETO XR 2.5/1000mg Tablet by Boehringer Ingelheim International GmbH in Acid media (0.1N HCl) & Buffer (pH 4.5 & 6.8). The values for f1 and f2 are in the acceptable range.

	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
	3.2.S.4.4	The submitted COA of drug substance (Linagliptin) by drug substance manufacturer does not declare Enantiometric Content of S-Isomer.	According to Section S1 & Section S2 Version 1.0 Applicant part of Drug Master File (DMF) of Linag R-Enantiomer is the Drug substance which is being in Drug Product. The same is recommended by "European Medicines Agency" for Innovator Brand manufactured by "Boehringer Ingelheim". All the intermediate related Compounds are also R-Interme either Carbamates or Dione as shown in Attachment
	3.2.P.2.1.1	Justify the proposed quantity of Arginine in applied formulation	According to application filed by "Boehringer Ingel vide application No. PCT/EP 2012/053910, equal ra Linagliptin with basic amino acid Arginine is effect and stable one. Therefore, in our formulation we sta Linagliptin component of our product by using 1:1 Linagliptin and Arginine. Moreover, Stability studie till now also showing & strengthening effectiveness this ratio.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Me-too status	050392: Brand Name: Tamsolin 0.4mg Capsule Manufacturer Name: Getz Pharma, Karachi
	GMP status	26-06-2019 Conclusion: The company is working at good level of GMP and record of raw material was found maintained along with SOP's the clearance of API's for imported sources are attached as of today. GMP is a continuous process of up gradation, the firm the advise to continue with up gradation and purchase the desired equipments are advised.
	Remarks of the Evaluator (V)	The strength on Form 5 mentions "Each tablet Contains:Tamsulosin 0.4mg" whereas, rest of the dossier mentions capsule. Source of pellets, along with stability studies data, GMP certificate of supplier and differential fee in case of import of pellets shall be submitted.
	Decision of 295th Meeting: Deferred for the following: Submit COA, GMP of pellets manufacturer and stability studies of three batches of pellets conducted in accordance with zone IV-A conditions. Submit fee challan for relevant formulation.	
	Remarks of Evaluator: The source of pellets is M/s Vision Pharmaceuticals. Firm has submitted fee of Rs, 7500/-. vide deposit slip# 268335179124	
	Decision: Approved.	

Item No. III: Agenda of Evaluator PEC-VI (Mr. Ishtiaq Shafique)

CASE NO. 1: M/S NABIQASIM INDUSTRIES (PVT) LTD., 17 / 24, KORANGI INDUSTRIAL AREA, KARACHI.

Assistant Director PR-I / EFD vide its letter No. F.1-6/2019-PR-I (EFD) dated 6th October 2022 informed that as per decision of 133rd meeting of DRAP Authority wherein it was decided to grant registration on priority basis to the pharmaceutical i.e. one molecule for each 100,000 USD worth of export of medicine (to a maximum of 15 such molecules) during a financial year.

In compliance to the above decision M/s NABIQASIM INDUSTRIES (PVT) LTD. 17 / 24, Korangi Industrial Area, Karachi – Pakistan. have achieved benchmark of more than 100,000 USD and submitted their applications for priority consideration including following application:

38.	Name, address of Applicant / Marketing Authorization Holder	M/s NABIQASIM INDUSTRIES (PVT) LTD. 17 / 24, Korangi Industrial Area, Karachi – Pakistan. (DML No. 000105)
	Name, address of Manufacturing site.	M/s NABIQASIM INDUSTRIES (PVT) LTD. 17 / 24, Korangi Industrial Area, Karachi – Pakistan.

S. No.	Observations	Response of firm
01	Justification required for not including system suitability parameter in assay of drug substance i.e. Correlation factor (the correlation between two standards should be in the range of 0.98 to 1.02), in accordance with the analytical method of drug substance manufacturer)	Correlation factor between two standards is used to evaluate standard recovery (accuracy) between two standards. We have revised our API specifications for QC release, and incorporated correlation factor in accordance with the analytical method of drug substance manufacturer. We also conducted Analytical method verification studies of API, perform system suitability testing with only one standard and results of our verification parameters i.e. (specificity, accuracy, precision) found to meet the stated acceptance criteria.
02	Innovator has used 0.1 N HCl as disintegration medium of Brivaracetam tablet. However, in analytical method of drug product manufacturer it is water. Justification required.	While setting FP specifications, we follow general medium as water for Disintegration testing, however as your good-self inform us about innovator disintegration test medium as 0.1 N HCl media, we have revised our FP specifications of Brivaracetam Tablet Range for disintegration test and updated 0.1 N HCl as disintegration medium. Firm has submitted revised analytical method. However, fee for change in specifications not submitted. We have conducted Disintegration test using 0.1 N HCl medium on today basis, results are as follows:

Product Name	Disintegration Test (0.1 N HCl medium)specs.	Batch No.	Results

		Britam Tablet 10mg	NMT 10 minutes	558DS01	5 minutes	
		Britam Tablet 25mg	NMT 10 minutes	559DS01	5 minutes 30 sec.	
		Britam Tablet 50mg	NMT 10 minutes	560DS01	5minutes 21 sec	
		Britam Tablet 100mg	NMT 10 minutes	562DS01	5 mins 45 sec.	
03	Justification required for not including bioburden test in Brivaracetam tablet drug product specification and stability studies in accordance with the innovator.	We have revised our FP specifications for QC release commercial batches of Britam Tablet Range in accordance with innovator literature for microbiological limit test. However, fee for change in specifications not submitted.				
04	Justification required for not including absence of Salmonella Species test in specification of oral liquid dosage in accordance with the innovator.	Britam 10mg/mL oral solution have tested against USP General Chapter <1111> MICROBIOLOGICAL EXAMINATION OF NONSTERILE PRODUCTS. According to this, for Oral aqueous solution, only the test of E. coli is recommended. (Enclosed for Ready Reference in Annexure-C) However, we have included the test of salmonella species in our revised specification to meet the innovator criteria for QC commercial release batches. However, fee for change in specifications not submitted.				
05	Justification of pH of oral solution (4.90-5.90) in light of the innovator product.	pH range of oral solution (4.90-5.90) is adapted from Australian Public Assessment Report for Biviact (Brivaracetam)Oral Solution, reference of same is submitted				
06	Provide the stability batch size of oral solution in terms of packs (i.e. amber glass bottles).	Britam 10mg/ml oral solution have batch size of 15.0 liters, in terms of packs the standard batch size is 125 packs containing 120 ml per bottle. The actual yield achieve on filling of britam 10 mg/ml oral solution is 97.0% in terms of packs it is 121 packs				

Decision: Approved. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Remarks of Evaluator:

S. No.	Observations	Response of firm
01	Justification required for not including system suitability parameter in assay of drug substance i.e. Correlation factor (the correlation between two standards should be in the range of 0.98 to 1.02), in accordance with the analytical method of drug substance manufacturer)	Correlation factor between two standards is used to evaluate standard recovery (accuracy) between two standards. We have revised our API specifications for QC release, and incorporated correlation factor in accordance with the analytical method of drug substance manufacturer. We also conducted Analytical method verification studies of API, perform system suitability testing with only one standard and results of our verification parameters i.e. (specificity, accuracy, precision) found to meet the stated acceptance criteria.
02	Innovator has used 0.1 N HCl as disintegration medium of Brivaracetam tablet. However, in analytical method of drug product manufacturer it is water. Justification required.	While setting FP specifications, we follow general medium as water for Disintegration testing, however as your good-self inform us about innovator disintegration test medium as 0.1 N HCl media, we have revised our FP specifications of Brivaracetam Tablet Range for disintegration test and updated 0.1 N HCl as disintegration medium. Firm has submitted revised analytical method. However, fee for change in specifications not submitted. We have conducted Disintegration test using 0.1 N HCl medium on today basis, results are as follows:

Product Name	Disintegration Test (0.1 N	Batch No.	Results

			HCl medium)specs.		
		Britam Tablet 10mg	NMT 10 minutes	558DS01	5 minutes
		Britam Tablet 25mg	NMT 10 minutes	559DS01	5 minutes 30 sec.
		Britam Tablet 50mg	NMT 10 minutes	560DS01	5minutes 21 sec
		Britam Tablet 100mg	NMT 10 minutes	562DS01	5 mins 45 sec.
03	Justification required for not including bioburden test in Brivaracetam tablet drug product specification and stability studies in accordance with the innovator.	We have revised our FP specifications for QC release commercial batches of Britam Tablet Range in accordance with innovator literature for microbiological limit test. However, fee for change in specifications not submitted.			
04	Justification required for not including absence of Salmonella Species test in specification of oral liquid dosage in accordance with the innovator.	Britam 10mg/mL oral solution have tested against USP General Chapter <1111> MICROBIOLOGICAL EXAMINATION OF NONSTERILE PRODUCTS. According to this, for Oral aqueous solution, only the test of E. coli is recommended. (Enclosed for Ready Reference in Annexure-C) However we have included the test of salmonella species in our revised specification to meet the innovator criteria for QC commercial release batches. However, fee for change in specifications not submitted.			
05	Justification of pH of oral solution (4.90-5.90) in light of the innovator product.	pH range of oral solution (4.90-5.90) is adapted from Australian Public Assessment Report for Biviact (Brivaracetam)Oral Solution, reference of same is submitted			
06	Provide the stability batch size of oral solution in terms of packs (i.e. amber glass bottles).	Britam 10mg/ml oral solution have batch size of 15.0 liters, In terms of packs the standard batch size is 125 packs containing 120 ml per bottle. The actual yield achieve on filling of britam 10 mg/ml oral solution is 97.0% in terms of packs it is 121 packs			

Decision: Approved. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Dy. No. and date of submission	Dy. No. 29744 dated 20/10 /2022
	Details of fee submitted	PKR 75,000/-: dated 16/08/2022(150691247)
	The proposed proprietary name / brand name	Britam Oral Solution 10mg / ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Brivaracetam ……..…10mg
	Pharmaceutical form of applied drug	Slightly viscous, clear and colorless to yellowish liquid.
	Pharmacotherapeutic Group of (API)	Antiepileptics, other antiepileptics.
	Reference to Finished product specifications	Innovator's Specs.
	Proposed Pack size	Packed in 120ml amber glass bottle
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	BRIVIACT 10mg / ml Oral Solution (Brivaracetam) UCB Pharma Limited., United Kingdom (Approved by US FDA and MHRA).
	For generic drugs (me-too status)	Not available in Pakistan
	GMP status of the Finished product manufacturer	New GMP Certificate granted based on evaluation conducted on 27-05-2022, valid till 26-05-2024. Liquid syrup section(General) approved vide letter no. F.2-20/85-Lic(Vol-V),dated 27-04-2020.
	Name and address of API manufacturer.	M/s JPR Labs Private Limited, situated at Plot No. 74/A, J.N Pharma City, Thanam (V), Parwada(M), Visakhapatnam District-531019, Andhra Pradesh, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification / validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Monograph of Brivaracetam is present is as per In-house (Manufacturer's) specifications. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for related substances [Individual impurity, Total impurities, Enantiomeric purity (RS 01, RS 02, RS 03)], specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (BRMVS001, BRMVS002, BRMVS003)

	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Briviact 10mg/ml Oral Solution is being marketed by M/s UCB Pharma S.A., Belgium by performing quality tests (Description, Identification, pH, Assay and Microbial Tests)
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

Evaluation by PEC:

Sr. No.	Sections	Observations	Response of firm
1.	1.3.3	Provide original, legalized notarized countersigned by embassy of Pakistan, Certificate of Pharmaceutical Product (CoPP) / Free Sale certificate and GMP certificate of the Manufacturer issued by relevant regulatory authority in the country of origin and name of exporting country. Provide original, notarized , sole agency agreement.	Firm has provided copy of COPP legalized notarized countersigned by embassy of Pakistan. Firm has provided copy of letter of authorization, which is not notorized.
2.	1.6.5	Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Firm has provided GMP certificate of Neuland Laboratories Limited. Address: Unit-I, Sy. No.: 347, 473,474,490/2, Veerabhadraswamy, Temple road, Bothapally Village, Gummadidala Mandal, Sangareddy District-502313 Telangana, India valid till 19-06-2025
3.	2.3.R.1.1	In BMR it is mention Posaconazole injection IH (For export) justification required.	The Posaconazole injection is meant for export in other countries as well as in Pakistan. The BMR provided is for the batch prepared for export purpose (to other country).
5.	3.2.S.4	Control of Drug Substance Specification Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required. Analytical procedures Detailed analytical procedures for the testing of drug substance	Firm has provided documents of Drug substance manufacturer. However, Documents of drug product manufacturer are required.

		performed by Drug Product manufacturer shall be provided. Validation of analytical procedures Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.	
6.	3.2.P.2	Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference/ comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed.	Firm has submitted Pharmaceutical equivalence against Noxafil:
7	3.2.P.8	Provide accelerated stability data of batch number NP0163.	Firm has submitted stability data of batch number NP0163

Decision: Approved as per policy of inspection of manufacturer abroad with innovator's specifications.

- **Firm shall submit documents for the drug substance specifications, analytical procedure and analytical method verification studies from the drug product manufacturer before issuance of registration letter.**
- **Furthermore, Registration Board was apprised regarding an e. mail received to Director PE&R Division from M/s Miles International India (authorized exclusive representative for the export of products manufactured by Naprod Life Sciences for the Pakistan region), wherein firm has requested to not consider any product registration applications made by any other party other than LDS as they will not be able to supply these products in the future.**
- **In context of above cited e.mail Registration Board decided that firm shall submit afresh notarized "Sole Agency Agreement" between M/s Lab Diagnostic System & M/s Naprod Life Sciences Pvt. Ltd before issuance of registration letter.**

D. Item No. IV: Agenda of Evaluator PEC-XI (Dr. Farhad Ullah)
Case No. 01: New application for registration of Human drugs on Form 5-F on export facilitation

Assistant director PR-I/EFD vide letter No.F.1-6/2019-PR-I (EFD) dated 12-01-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the pharmaceutical i.e. one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than 100,000 USD during the fiscal Year 2021-2022 and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference

		standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Dapagliflozin propanediol monohydrate: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40 O ± 2 O C /75% ± 5% RH for 6 months. The real time stability data is conducted at 30OC ± 2 O C / 65% ± 5% RH for 36 months (Batches: 130401, 130402, 130501) Metformin Hydrochloride; Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40 O ± 2 O C /75% ± 5% RH for 6 months. The real time stability data is conducted at 30OC ± 2 O C / 65% ± 5% RH for 48 months (Batches; MEF/1410027, MEF/1410028, MEF/1410029)
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been established against innovator product Xigduo 5/1000mg Tablet of M/s AstraZeneca AB SE-151 85 Sodertalje - Sweden by performing quality tests (Description, identification, uniformity of dosage unit, Dissolution and Assay). CDP has been performed against the same brand that is Xigduo 5/1000mg Tablet of M/s AstraZeneca AB SE-151 85 Sodertalje - Sweden in Acid media (pH 1.2), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values of f2 are in acceptable range.
	Analytical method validation/verification of product	Firm has submitted method validation studies including specificity, accuracy, precision,

		linearity & range, system suitability, ruggedness, LOD, LOQ.		
STABILITY STUDY DATA				
Manufacturer of API		Dapagliflozin: M/s Jiangsu Yungan Pharmaceutical CO., Ltd., No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu China Metformin HCl: Aarti Drugs Limited., Plot No. 211 - 213, Road No.2 G.I.D.C., Sarigam, Dist.: Valsad, Gujarat India.

Date of Initiation		02-05-2020	02-05-2020	02-05-2020
No. of Batches		03		
Administrative Portion				
	Reference of previous approval of applications with stability study data of the firm (if any)	N/A		
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Dapagliflozin propanediol monohydrate: The firm has submitted cGMP certificate to M/s Jiangsu Yongan Pharmaceutical Co., Ltd., China issued by Jiangsu Food and Drug Administration valid upto 03-03-2021 Metformin HCl: The firm has submitted GMP certificate for Aarti Drugs Limited India issued by Food & Drug Maharashtra State India. The certificate is valid till 01-11-2021		
	Documents for the procurement of API with approval from DRAP (in case of import).	Dapagliflozin propanediol monohydrate: Firm has submitted copy of Form 6 for import of 200g of Dapagliflozin propanediol Monohydrate in name of M/s Bio-Labs (Pvt.) Ltd. attested by AD (I&E) DRAP Islamabad dated 01-04-2019. Firm has submitted copy of invoice for import of 200g of Dapagliflozin propanediol Monohydrate (Batch No. DGF-201902001) in name of M/s Bio-Labs (Pvt.) Ltd. attested by AD (I&E) DRAP Islamabad dated 01-04-2019. Firm has also submitted copy of clearance certificate for import of 200g of Dapagliflozin		

		propanediol Monohydrate in name of M/s Bio-Labs (Pvt.) Ltd. attested by AD (I&E) DRAP Islamabad dated 01-04-2019. Metformin HCl: Firm has submitted copy of invoice No. EXP/2411/18-19 dated 21-02-2019 for import of 25kg of Metformin HCl (Batch No. MEF/18122462) in name of M/s Bio-Labs (Pvt.) Ltd., attested by AD (I&E) DRAP Islamabad dated 27-03-2019. Firm has submitted copy of clearance certificate for import of 25kg of Metformin HCl in name of M/s Bio-Labs (Pvt.) Ltd., attested by AD (I&E) DRAP Islamabad dated 27-03-2019.
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail reports on product testing.
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).

Remarks of Evaluator XI:

Section	Observations	Response
1.3.5	Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years	
1.6.5	Submit valid GMP certificate / Drug Manufacturing License of the Drug Substance manufacturer for dapagliflozin propanediol monohydrate and Metformin HCl issued by relevant regulatory authority of country of origin	
3.2.S.4	Justification is required for including assay test for metformin on titration method by drug product manufacturer and potentiometric method by drug substance manufacturer in analytical procedure instead of HPLC as recommended by USP. Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) Metformin HCl for titration method is submitted. Clarification is required as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead of HPLC as recommended by USP.	
3.2.P.2	Justification is required for not considering one time-point after 85% dissolution has been reached in CDP studies or the dissolution should be conducted until an asymptote (plateau) has been reached	
3.2.P.5	Justification is required for not including test for disintegration test in finished product specification as recommended by innovator product review document. Submit numerical results for uniformity of dosage unit test in batch analysis for dapagliflozin and metformin. Clarification is required as you have mentioned innovator specification in module 1 section 1.5.6 while bio labs	

	specification in module 3 section 3.2.P.5 drug product specification		

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

No. of Batches	03		
Administrative Portion			
	Reference of previous approval of applications with stability study data of the firm (if any)	The firm submitted that Quaper Pvt. Ltd is a new license facility hence no such inspection has been conducted	
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	GMP cetificate of M/s Zhejiang Huahai Pharmaceutical Co., Ltd Xunqiao, Linhai, Zhejiang is submitted while manufacturer is M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China	
	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted	
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm have submitted data of stability batches along with respective documents like chromatograms, COA, summary data sheets etc.	
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable. Our HPLC system are not 21CFR compliant	
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm have submitted record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Remarks of Evaluator XI:

Section	Observations	Response
1.5.15-1.5.20	Commitments not submitted as per the CTD guidance document	Commitments are not submitted
1.6.5	Drug Manufacturing License (DML) / Good Manufacturing Practice (GMP) certificate of the Drug Substance / API manufacturer issued by concerned regulatory authority of country of origin shall be submitted as the submitted GMP certificate is of different manufacturing site	Firm has submitted GMP certificate No. ZJ201 of M/s Zhejiang Huahai Pharmaceutical Co., Lt Xunqiao, Linhai, Zhejiang China valid upto 25- 2023 instead of M/s Zhejiang Huahai Pharmace Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China The submitted GMP certificate of the drug subs manufacturer of different manufacturing site.
3.2.S.4.2	Copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance manufacturer is required. In analytical procedure in assay test you have mentioned the conc. Of standard and sample solution as 2mg/ml while in validation of analytical procedure you have mentioned the conc. Of standard and sample solution as 1mg/ml, justify?	Copies of the Drug substance analytical procedu used for routine testing of the Drug substance /A Pharmaceutical Ingredient by Drug substance manufacturer is not submitted. The firm submitted that the concentration of 1m is to cover the lower range of assay.
3.2.S.4.3	Results for specificity of drug substance not given by drug product manufacturer	Firm has submitted result of specificity test in analytical method verification studies for drug substance
3.2.S.5	The Retest Date Mentioned on COA of Reference Standards or Materials is 07.2018, clarify whether the same was used for test and analysis?	Firm has not submitted clarification regarding r date of Reference Standards or Materials. Howe firm has submitted COA of USP reference stan catalog No. 1559618.

3.2.P.2	Justification is required as Phosphate buffer ph 4.5 was used instead of acetate buffer ph 4.5 in CDP studies	The firm submitted that it was a typographical error, CDP was performed in Acetate buffer of pH 4.5 in addition to pH 1.2 and pH 6.8 buffers.
3.2.P.5.1	You have mentioned innovators specifications in module I section 1.5.6 while in house specifications in control of drug product section 3.2.P.5.1 and 3.2.P.5.4, clarify? Justify the acceptance criteria of dissolution test NLT Q in 45min in product specifications since FDA review documents specifies that dissolution criteria shall be NLT Q in 30 min for the applied product Justification is required as the registration board in its 293rd meeting decided that For rapidly dissolving as well as immediate release drug products, wherein the stability batches will be manufactured after 01-06-2020, variation from innovator /reference product with reference to dissolution specification will not be acceptable.	Te firm submitted that since the applied product was non pharmaopeial at the time of development at the time of development hence, we had applied for "innovator's specifications" as mentioned in section 1.5.6. The firm submitted that for dissolution test we adopted the general provision for immediate release dosage forms and both 30min and 45mn time point are admissible for immediate release dosage form. The firm submitted that we have revised the drug product specification as per latest BP monograph for "Pregabalin capsule" and same will be adopted for commercial batches and submit BP monograph for applied product.
3.2.P.5.2	Details of analytical method for drug substance has been submitted against the drug product. Justify the adoption of dissolution parameters including dissolution media (0.06N HCl)	Analytical method for drug product is not submitted. Te firm submitted that since the applied product was non pharmaopeial at the time of development at the time of development hence, we had applied for "innovator's specifications" but now on the issuance of BP monograph for "Pregabalin capsule" in latest edition, the same has been adopted. Same dissolution media (0.06M HCl) is mentioned in BP monograph.
3.2.P.5.3	Results for specificity of drug product not given by drug product manufacturer	Firm has submitted results of specificity test in method validation studies for applied product
3.2.P.5.4	In batch analysis acceptance criteria set for average weight of Batch No. T-05 is 225.00mg±7.5% while the results are 201.00mg, justify your results?	The firm submitted that it was a typographical error, the actual average weight is 200mg and limit for weight variation as 200.00mg±7.5 (Limit: 185mg-215mg) as evident from section 3.2.P.2.and COAs of other trial batches.
3.2.P.8	Submit Raw data sheets of stability studies containing calculation formula for both assay & dissolution test In COA for stability study acceptance criteria set for average weight of Batch No. T-04 is 225.00mg±7.5% (Limit; 208.125mg-241.875mg) while the results are 203.00mg at initial time point, 202.00mg at 3rd month time point of real time stability study, 200.00mg at 6th month time point real time stability study, justify your results? Furthermore, the acceptance criteria set for average weight of other batches are 200.00mg±7.5% (Limit; 185mg-215mg) The injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram, clarify?	The firm submitted that same calculation formulas have been applied in calculation of assay and dissolution results as given in drug product test method. However, Raw data sheets of stability studies containing calculation formula for both assay & dissolution test is not submitted The firm submitted that it was a typographical error, the actual average weight is 200mg and limit for weight variation as 200.00mg±7.5 (Limit: 185mg-215mg) as evident from section 3.2.P.2.and COAs of other trial batches. The firm submitted that change in injection volume is within permissible limits of USP general chapter <621> Firm has submitted copy of invoice No# HH20200723R1 dated 12th December 2020 in name of M/s Quaper Pvt Ltd from M/s Zhejiang Huahai Pharmaceutical Co., Ltd for import of 1.114kg Pregabalin batch No#D5248-19-069. However, the invoice not attested by AD (I&E) DRAP field office.

	Submit documents for the procurement of API with approval from DRAP	The firm also submitted copy of goods decalaration certificate.

Previous Decision (323rd-DRB): Deferred for following:
Submission of commitments as per the Form5F guidance document
Submission of GMP certificate / Drug Manufacturing License (DML) of the Drug Substance manufacturer issued by concerned regulatory authority of country of origin
250/100

Clarification whether the same Reference Standards or Materials was used for test and analysis of drug substance as the Retest Date Mentioned on COA of Reference Standards or Materials is 07.2018, while manufacturing date of drug substance was 23-02-3019.
Submission of complete analytical method for applied drug product
Submission of raw data sheets of stability studies containing calculation formula for both assay & dissolution test
Clarification since the injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram.
Submission of copy of invoice attested by AD (I&E) DRAP field office.

Response of the firm:

Observations	Firm's response
Submission of commitments as per the Form5F guidance document	Firm has submitted commitments as per the Form 5F guidance document
Submission of GMP certificate / Drug Manufacturing License (DML) of the Drug Substance manufacturer issued by concerned regulatory authority of country of origin	Firm has submitted Eudra GMP of M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China valid up to three years for date o inspection (date of inspection 30-09-2021)
Submission of copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer	Firm has submitted copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer
The firm stated that the COA of reference standard or materials with retest date of 07-2018 was erroneously submitted as it was part of the DMF, whereas COA of primary reference standard actually used for analysis is submitted.	The firm stated that the COA of reference standard or materials with retest date of 07-2018 was erroneously submitted as it was part of the DMF, whereas COA of primary reference standard actually used for analysis is submitted.
Submission of complete analytical method for applied drug product	Firm has submitted complete analytical method for applied drug product as per BP Monograph
Submission of raw data sheets of stability studies containing calculation formula for both assay & dissolution test	Firm has submitted raw data sheets of stability studies. However, calculation formula for both assay & dissolution test is not submitted
Clarification since the injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram.	The firm submitted that change in injection volume is within permissible limits of USP general chapter <621> and it does not impact the result
Submission of copy of invoice attested by AD (I&E) DRAP field office.	The firm has submitted GD copy for procurement of Pregabalin

Decision: Approved with BP specifications. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, along with calculation formula for both Assay and dissolution test of drug product, before issuance of registration letter.

• **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
47.	Name, address of Applicant / Marketing Authorization Holder	M/s Quaper (Pvt) Ltd. 26-A, Small Industrial Estate, Lahore Road, Sargodha.

Date of Initiation	04-02-2021	04-02-2021	04-02-2021
No. of Batches	03		
Administrative Portion			

	Reference of previous approval of applications with stability study data of the firm (if any)	The firm submitted that Quaper Pvt. Ltd is a new license facility hence no such inspection has been conducted
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	GMP certificate of M/s Zhejiang Huahai Pharmaceutical Co., Ltd Xunqiao, Linhai, Zhejiang is submitted while manufacturer is M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China
	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm have submitted data of stability batches along with respective documents like chromatograms, COA, summary data sheets etc.
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not applicable. Our HPLC system are not 21CFR compliant
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm have submitted record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Remarks of Evaluator XI:

Section	Observations	Response
1.5.15-1.5.20	Commitments not submitted as per the CTD guidance document	Commitments are not submitted
1.6.5	Drug Manufacturing License (DML) / Good Manufacturing Practice (GMP) certificate of the Drug Substance / API manufacturer issued by concerned regulatory authority of country of origin shall be submitted as the submitted GMP certificate is of different manufacturing site	Firm has submitted GMP certificate No. ZJ20180073 of M/s Zhejiang Huahai Pharmaceutical Co., Ltd Xunqiao, Linhai, Zh China valid upto 25-06-2023 instead of M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016 China The submitted GMP certificate of the drug substance manufacturer of different manufact site.
3.2.S.4.2	Copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance manufacturer is required. In analytical procedure in assay test you have mentioned the conc. Of standard and sample solution as 2mg/ml (as per USP) while in validation of analytical procedure you have mentioned the conc. Of standard and sample solution as 1mg/ml, justify?	Copies of the Drug substance analytical proce used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance manufacturer is not submitted. The firm submitted that the concentration of 1mg/1ml is to cover the lower range of assay.
3.2.S.4.3	Results for specificity of drug substance not given by drug product manufacturer	Firm has submitted result of specificity test in analytical method verification studies for drug substance
3.2.S.5	The Retest Date Mentioned on COA of Reference Standards or Materials is 07.2018, clarify whether the same was used for test and analysis?	Firm has not submitted clarification regarding date of Reference Standards or Materials. Ho firm has submitted COA of USP reference sta catalog No. 1559618.

3.2.P.2	Justification is required as Phosphate buffer ph 4.5 was used instead of acetate buffer ph 4.5 in CDP studies	The firm submitted that it was a typographical error, CDP was performed in Acetate buffer of pH 4.5 in addition to pH 1.2 and pH 6.8 buffers.
3.2.P.5.1	You have mentioned innovators specifications in module I section 1.5.6 while in house specifications in control of drug product section 3.2.P.5.1 and 3.2.P.5.4, clarify? Justify the acceptance criteria of dissolution test NLT Q in 45min in product specifications since FDA review documents specifies that dissolution criteria shall be NLT Q in 30 min for the applied product Justification is required as the registration board in its 293rd meeting decided that For rapidly dissolving as well as immediate release drug products, wherein the stability batches will be manufactured after 01-06-2020, variation from innovator /reference product with reference to dissolution specification will not be acceptable.	Te firm submitted that since the applied product was non pharmaopeial at the time of development at the time of development hence, we had applied for "innovator's specifications" as mentioned in section 1.5.6. The firm submitted that for dissolution test we adopted the general provision for immediate release dosage forms and both 30min and 45min time point are admissible for immediate release dosage form. The firm submitted that we have revised the drug product specification as per latest BP monograph for "Pregabalin capsule" and same will be adopted for commercial batches and submit BP monograph for applied product.
3.2.P.5.2	Details of analytical method for drug substance has been submitted against the drug product. Justify the adoption of dissolution parameters including dissolution media (0.06N HCl)	Analytical method for drug product is not submitted. Te firm submitted that since the applied product was non pharmaopeial at the time of development at the time of development hence, we had applied for "innovator's specifications" but now on the issuance of BP monograph for "Pregabalin capsule" in latest edition, the same has been adopted. Same dissolution media (0.06M HCl) is mentioned in BP monograph.
3.2.P.5.3	Results for specificity of drug product not given by drug product manufacturer	Firm has submitted results of specificity test in method validation studies for applied product
3.2.P.8	Submit Raw data sheets of stability studies containing calculation formula for both assay & dissolution test The injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram, clarify Submit documents for the procurement of API with approval from DRAP	The firm submitted that same calculation formulas have been applied in calculation of assay and dissolution results as given in drug product test method. However, Raw data sheets of stability studies containing calculation formula for both assay & dissolution test is not submitted The firm submitted that change in injection volume is within permissible limits of USP general chapter <621> Firm has submitted copy of invoice No# HH20200723R1 dated 12th December 2020 in name of M/s Quaper Pvt Ltd from M/s Zhejiang Huahai Pharmaceutical Co., Ltd for import of 1.114kg Pregabalin batch No#D5248-19-069. However, the invoice not attested by AD (I&E) DRAP field office. The firm also submitted copy of goods decalaration certificate.

Previous Decision (323rd-DRB): Deferred for following:
Submission of commitments as per the CTD guidance document
Submission of GMP certificate / Drug Manufacturing License (DML) of the Drug Substance manufacturer issued by concerned regulatory authority of country of origin
Submission of copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer

Clarification whether the same Reference Standards or Materials was used for test and analysis of drug substance as the Retest Date Mentioned on COA of Reference Standards or Materials is 07.2018, while manufacturing date of drug substance was 23-02-3019.
Submission of complete analytical method for applied drug product
Submission of raw data sheets of stability studies containing calculation formula for both assay & dissolution test
Clarification since the injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram.
Submission of copy of invoice attested by AD (I&E) DRAP field office.

Response of the firm:

Observations	Firm's response
Submission of commitments as per the Form5F guidance document	Firm has submitted commitments as per the Form 5F guidance document
Submission of GMP certificate / Drug Manufacturing License (DML) of the Drug Substance manufacturer issued by concerned regulatory authority of country of origin	Firm has submitted Eudra GMP of M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China valid up to three years for date o inspection (date of inspection 30-09-2021)
Submission of copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer	Firm has submitted copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer
The firm stated that the COA of reference standard or materials with retest date of 07-2018 was erroneously submitted as it was part of the DMF, whereas COA of primary reference standard actually used for analysis is submitted.	The firm stated that the COA of reference standard or materials with retest date of 07-2018 was erroneously submitted as it was part of the DMF, whereas COA of primary reference standard actually used for analysis is submitted.
Submission of complete analytical method for applied drug product	Firm has submitted complete analytical method for applied drug product as per BP Monograph
Submission of raw data sheets of stability studies containing calculation formula for both assay & dissolution test	Firm has submitted raw data sheets of stability studies. However, calculation formula for both assay & dissolution test is not submitted
Clarification since the injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram.	The firm submitted that change in injection volume is within permissible limits of USP general chapter <621> and it does not impact the result
Submission of copy of invoice attested by AD (I&E) DRAP field office.	The firm has submitted GD copy for procurement of Pregabalin

Decision: Approved with BP specifications. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, along with calculation formula for both Assay and dissolution test of drug product, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

Copies of the Drug substance analytical proce used for routine testing of the Drug substance / Pharmaceutical Ingredient by Drug substance manufacturer is not submitted. The firm submitted that the concentration of 1mg/1ml is to cover the lower range of assay.
3.2.S.4.3	Results for specificity of drug substance not given by drug product manufacturer	Firm has submitted result of specificity test in analytical method verification studies for drug substance
3.2.S.5	The Retest Date Mentioned on COA of Reference Standards or Materials is 07.2018, clarify whether the same was used for test and analysis?	Firm has not submitted clarification regarding date of Reference Standards or Materials. How firm has submitted COA of USP reference star catalog No. 1559618.
3.2.P.2	Justification is required as Phosphate buffer ph 4.5 was used instead of acetate buffer ph 4.5 in CDP studies Specify the batch number of innovator product against which pharmaceutical equivalence and CDP was performed	The firm submitted that it was a typographical CDP was performed in Acetate buffer of pH 4. addition to pH 1.2 and pH 6.8 buffers. The firm has not submitted Batch number of innovator product against which pharmaceutic equivalence and CDP
3.2.P.5.1	You have mentioned innovators specifications in module I section 1.5.6 while in house specifications in control of drug product section 3.2.P.5.1 and 3.2.P.5.4, clarify? Justify the acceptance criteria of dissolution test NLT Q in 45min in product specifications since FDA review documents specifies that	Te firm submitted that since the applied produ non pharmaopeial at the time of development a time of development hence, we had applied fo "innovator's specifications" as mentioned in se 1.5.6. The firm submitted that for dissolution test we adopted the general provision for immediate re dosage forms and both 30min and 45min time are admissible for immediate release dosage fo

	dissolution criteria shall be NLT Q in 30 min for the applied product Justification is required as the registration board in its 293rd meeting decided that For rapidly dissolving as well as immediate release drug products, wherein the stability batches will be manufactured after 01-06-2020, variation from innovator /reference product with reference to dissolution specification will not be acceptable.	The firm submitted that we have revised the drug product specification as per latest BP monograph for "Pregabalin capsule" and same will be adopted for commercial batches and submit BP monograph for applied product.
3.2.P.5.2	Details of analytical method for drug substance has been submitted against the drug product. Justify the adoption of dissolution parameters including dissolution media (0.06N HCl)	Analytical method for drug product is not submitted. Te firm submitted that since the applied product was non pharmaopeial at the time of development at the time of development hence, we had applied for "innovator's specifications" but now on the issuance of BP monograph for "Pregabalin capsule" in latest edition, the same has been adopted. Same dissolution media (0.06M HCl) is mentioned in BP monograph.
3.2.P.5.3	Results for specificity of drug product not given by drug product manufacturer	Firm has submitted results of specificity test in method validation studies for applied product
3.2.P.8	Submit Raw data sheets of stability studies containing calculation formula for both assay & dissolution test The injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram, clarify? Submit documents for the procurement of API with approval from DRAP	The firm submitted that same calculation formulas have been applied in calculation of assay and dissolution results as given in drug product test method. However, Raw data sheets of stability studies containing calculation formula for both assay & dissolution test is not submitted The firm submitted that change in injection volume is within permissible limits of USP general chapter <621> Firm has submitted copy of invoice No# HH20200723R1 dated 12th December 2020 in name of M/s Quaper Pvt Ltd from M/s Zhejiang Huahai Pharmaceutical Co., Ltd for import of 1.114kg Pregabalin batch No#D5248-19-069. However, the invoice not attested by AD (I&E) DRAP field office. The firm also submitted copy of goods decalaration certificate.

Previous Decision (323rd–DRB): Deferred for following:
Submission of commitments as per the CTD guidance document
Submission of GMP certificate / Drug Manufacturing License (DML) of the Drug Substance manufacturer issued by concerned regulatory authority of country of origin
Submission of copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer
Clarification whether the same Reference Standards or Materials was used for test and analysis of drug substance as the Retest Date Mentioned on COA of Reference Standards or Materials is 07.2018, while manufacturing date of drug substance was 23-02-3019.
Submission of details of innovator product including batch number against which pharmaceutical equivalence and CDP studies is performed
Submission of complete analytical method for applied drug product
Submission of raw data sheets of stability studies containing calculation formula for both assay & dissolution test
Clarification since the injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram.
Submission of copy of invoice attested by AD (I&E) DRAP field office.

Response of the firm:

Observations	Firm's response

Submission of commitments as per the Form5F guidance document	Firm has submitted commitments as per the Form 5F guidance document
Submission of GMP certificate / Drug Manufacturing License (DML) of the Drug Substance manufacturer issued by concerned regulatory authority of country of origin	Firm has submitted Eudra GMP of M/s Zhejiang Huahai Pharmaceutical Co., Ltd. Chuannan, Duqiao, Linhai, Zhejiang, 317016, China valid up to three years for date o inspection (date of inspection 30-09-2021)
Submission of copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer	Firm has submitted copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer
The firm stated that the COA of reference standard or materials with retest date of 07-2018 was erroneously submitted as it was part of the DMF, whereas COA of primary reference standard actually used for analysis is submitted.	The firm stated that the COA of reference standard or materials with retest date of 07-2018 was erroneously submitted as it was part of the DMF, whereas COA of primary reference standard actually used for analysis is submitted.
Submission of complete analytical method for applied drug product	Firm has submitted complete analytical method for applied drug product as per BP Monograph
Submission of raw data sheets of stability studies containing calculation formula for both assay & dissolution test	Firm has submitted raw data sheets of stability studies. However, calculation formula for both assay & dissolution test is not submitted
Clarification since the injection volume mentioned in the submitted analytical method is 20µl while 10µl in the submitted chromatogram.	The firm submitted that change in injection volume is within permissible limits of USP general chapter <621> and it does not impact the result
Submission of copy of invoice attested by AD (I&E) DRAP field office.	The firm has submitted GD copy for procurement of Pregabalin

Decision: Approved with BP specifications. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, along with calculation formula for both Assay and dissolution test of drug product, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

E. Item No. V: Agenda of Evaluator PEC-XIII (Mr. Shahid Nawaz)

Case No. 1: Priority Application as per 257th Registration Board Meeting

49.	Name, address of Applicant / Importer	M/s Graton Pharma, Office No. 501 & 502, 5th Floor Plot 42C/2 Lane No. 8 Bukhari commercial DHA Phase-6, Karachi.
	Details of Drug Sale License of importer	License No. 160 Address: Office no. 501 & 502, 5th floor Plot no 42C/2 Lane-08, Bukhari Commercial Phase-6, D.H.A Karachi, Pakistan. Address of Godown: NA Validity: 21-10-2023 Status: Drug License by way of whole sale.

	Name and address of marketing authorization holder (abroad)	M/s Jodas Expoim Pvt. Ltd., Plot No. 55, Phase-III, Biotech Park, Karkapatla (V), Markook (M), Siddipet (D) Telangana - 502279, India.
	Name, address of manufacturer(s)	M/s Jodas Expoim Pvt. Ltd., Plot No. 55, Phase-III, Biotech Park, Karkapatla (V), Markook (M), Siddipet (D) Telangana - 502279, India.
	Name of exporting country	India.
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	Detail of certificates attached (CoPP, GMP certificate) CoPP: Firm has submitted original, legalized copy of CoPP certificate (No: 1974295/TS/2021) dated 13-12-2021 issued by Drug Control Administration Government of Telangana, India for Doxorubicin hydrochloride for injection 10mg/vial (Lyophilized). The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year. The name of importing country on CoPP is mentioned as Pakistan. Furthermore, the CoPP is valid till 18-12-2023. GMP: Copy of GMP certificate No. L. Dis No. 1967/E1/2020 dated 30-06-2020 issued by Drugs Control Administration Government of Telangana in the name of M/s Jodas Expoim Pvt. Ltd., Plot No. 55, Phase-III, Biotech Park, Karkapatla (V), Markook (M), Siddipet (D) Telangana - 502279, India wherein it is stated that the firm is following Good Manufacturing Practices as stipulated under the provisions of Schedule "M" of the Drugs and Cosmetics Rules, 1945. The certificate is valid till 29-06-2021.
	Details of letter of authorization / sole agency agreement	Firm has submitted notarized Authorization letter from M/s Jodas Expoim Pvt. ltd., wherein M/s Jodas Expoim confirms that M/s Graton Pharma, Office No. 501 & 502, 5th Floor Plot 42C/2 Lane No. 8 Bukhari commercial DHA Phase-6, Karachi is their agent for their products in Pakistan and they are fully authorized to register, market and sell the products. The authorization letter is valid till 31-12-2025. List of product has mentioned total of 28 products which include Doxorubicin hydrochloride 10mg and Doxorubicin hydrochloride 50mg.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging

		☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 35493: dated 07-12-2022.
	Details of fee submitted	PKR 75,000/-: vide slip No. 0663149488 dated 15-06-2021.
	The proposed proprietary name / brand name	Cixadin Injection 10mg.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains; Doxorubicin hydrochloride …….. 10mg
	Pharmaceutical form of applied drug	Lyophilized Powder for solution for injection.
	Pharmacotherapeutic Group of (API)	Antimitotic and cytotoxic (L01DB01)
	Reference to Finished product specifications	USP Specification.
	Proposed Pack size	10ml is filled in 30ml USP type I clear glass tubular vial.
	Proposed unit price	Not mentioned.
	The status in reference regulatory authorities	Doxorubicin Hydrochloride10mg Powder for Injection, Hospira UK Limited, MHRA approved.
	For generic drugs (me-too status)	Adriblastina 10mg, Pfizer Pakistan, Reg. No. 002580.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Sterling Biotech Limited, Jambusar State Highway, Village: Masar-391 421, Ta: Padra, Dist. Vadodara, Gujrat, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data regarding nomenclature, structure, general properties, solubility, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification studies, batch analysis (061503018, 061503019 & 061503020) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	24 months' real time stability data at 25°± 2°C / 60% RH ± 5% RH of 03 batches (2705, 2805 & 2905). 06 month accelerated stability data 40°C ± 2°C / 75% RH ± 5% RH of 03 batches. Batches (061403010, 061403011 & 061403012)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, formulation development, pharmaceutical development, manufacturer, batch formula, manufacturing process and process control, process validation protocols/report, specifications, analytical procedures, validation of analytical procedures, batch analysis (0070717001, 0070717002

		& 0070817003), justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is established against Aderamycin by performing quality tests including identification, pH, Assay, water content & impurities. Results of both the applied as well as reference products are in acceptable range.
	Analytical method validation/verification of product	Submitted.
	Container closure system of the drug product	5ml clear tubular USP type I glass vial with 20mm bromobutyl rubber stoppers and 20mm aluminum flip off seals.
	Stability study data of drug product, shelf life and storage conditions	24-months real time stability data at 30°C ± 2°C / 75% ± 5% RH of 03 batches (0070817004, 0070817005 & 0070817006). 06-month accelerated stability data 40°C ± 2°C / 75% ± 5% RH of 03 batches (0070817004, 0070817005 & 0070817006).

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
		Valid notarized and legalized copy of GMP certificate for of the finished product manufacturer shall be submitted.	
	1.1	Differential fee of 75000/- shall be submitted.	
	1.4.1.1	Authorization letter has mentioned the territory of Pakistan, while in module one section 1.4.1.1 has mentioned domestic and export sales. Clarification shall be submitted.	
	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit shall clearly be mentioned as this section has only mentioned 10mg.	
	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer issued by the relevant/concerned regulatory authority shall be submitted.	
	3.2	Quality overall summary as per WHO QOS-PD template shall be submitted.	
	3.2.S.4.2	Chromatographic condition i.e. flow rate, injection volume, column temperature et. in the assay test by the drug substance manufacturer are different from USP while the specifications provided are as of USP. Clarification shall be submitted.	
	3.2.S.4.3	Analytical method verification studies performed by the drug product manufacturer shall be submitted.	
	3.2.S.4.4	COAs of the drug substance from drug product manufacturer shall be submitted.	
	3.2.S.7.3	Real time stability data of the drug substance as per Zone Iva or Zone IVb shall be submitted.	

	3.2.P.2.1	Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug.	
	3.2.P.2.2	Details of the reference product in CDP shall be submitted. i.e. firm name, batch number, mfg. Date & exp. Date etc.	
	3.2.P.5.4	COAs of the drug product for 10mg shall be submitted. COAs for 50mg is submitted instead of 10mg.	
	3.2.P.8.3	In use stability studies shall be submitted. Justification shall be submitted that submitted stability data is on solution form of powder form.	
		Justification shall be submitted whether finished Product shall be imported in combo pack or alone in powder form.	

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Details of fee submitted	PKR 75,000/-: dated 23/06/2022
	The proposed proprietary name / brand name	Eluxa Tablet 75mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Eluxadoline …….....75mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Anti-propulsive / Mixed mu opioid receptor agonist/delta opioid receptor antagonist Eluxadoline is a mu-opioid receptor agonist; eluxadoline is also a delta opioid receptor antagonist and a kappa opioid receptor agonist
	Reference to Finished product specifications	Manufacturer's Specification
	Proposed Pack size	5's, 10's, l4's, 20's, 28's, 30's, 50's and 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Viberzi Tablet by M/s Allergan Holdings USA. (USFDA Approved)
	For generic drugs (me-too status)	NA
	GMP status of the Finished product manufacturer	DML renewal Inspection conducted on 14.09.2020, 15.09.2020 and 21.10.2020. New DML granted on 08.06.2021 with effect from 21.07.2020. Tablet (General), Capsule (General), Oral Liquid, Dry Powder Suspension, Liquid Injectable & Capsule section (Steroid) approved. Ref. letter no. 819 4 /2022-DRAP (Addl.Dire) dated 07.07.2022 The Firm has applied for GMP Inspection. The application is under processes at DRAP Office and inspection will be done as per availability of Area FID. The firm's last GMP status is Compliant / Good.
	Name and address of API manufacturer.	M/s Jiangsu Yongan Pharmaceutical Co., Limited Address: No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu, China.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Eluxadoline is not present in Pharamcopoeia. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH (12 month) Accelerated: 40°C ± 2°C / 75% ± 5%RH (6 month) Batches: (20180101, 20180102, 20180201)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator Viberzi tablet 75mg (Batch no. 3180416, EXP date: Sep-22) manufactured by M/s Allergen Holdings, USA by performing quality tests (Identification, Assay, Dissolution etc.) CDP has been performed against the same brand that is Viberzi tablet 75mg manufactured by M/s Allergen Holdings, USA in Acid media & Phosphate Buffer. The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

Administrative Portion

	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted the list of products previously approved with stability study data.
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate of M/s. JIANGSU YONGAN PHARMACEUTICAL Co. Ltd. issued by Huai'an Pharmaceutical Industry Association, valid till 14/01/2024.
	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of Invoice having diary No.12869/2021/DRAP dated 27/08/2021 is submitted wherein the permission to import of API is granted.
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

S.no.	Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
	3.2.S.4.4	Justify for not including the test of particle size (laser diffraction) and steroisomeric purity (Chiral HPLC) in the release specification of drug substance since these tests are included in the specification of drug substance by innovator brand.	As per FDA chemistry review, particle size is not included in the drug substance specification. For purity, Drug substance and Drug product manufacturer have performed Assay by HPLC and Impurites testing for ensuring the quality. However, in the public assessment report of EMA approved innovator brand both of these test are included in the release specification of drug substance. Further, the drug substance used in applied formulation is different from the drug substance of innovator brand as evident from the chemical structure given in section 3.2.S.1.
	3.2.S.4.4	According drug substance documents α polymorphic form of drug substance is supplied by drug substance manufacturer while the review literature of innovator products reveal that Polymorphic form-I is the only non-solvated, crystalline form of the active substance which has been used in the formulation of innovator product, clarification is required either the Form α is similar to	Firm replied that "It is the same form, only notation is different i.e., Form 1 or Form Alpha".

		polymorphic Form-I of eluxadoline.	
	3.2.P.2.2.1	In compliance of notification no. 14-1/2022-PEC dated 16th January,2023 issued by DRAP, submit the image/picture/snapshot of innovator /reference/comparator pack against which Pharmaceutical equivalence/Comparative dissolution profile studies have been performed.	Submitted
	3.2.S.7	Justify for not including water content, stereoisomeric purity in the shelf life specification of the drug substance, since these tests are included in the shelf life specification of drug substance of innovator brand.	Firm replied that The API manufacturer (Vendor) claims that loss on drying test was run to determine the water content, in line with the instructions provided in the drug master file. For purity, Drug substance and Drug product manufacturer have performed Assay by HPLC and Impurites testing for ensuring the quality. Impurities testing mentioned in the stability data is not related to the chiral impurity testing of drug substance.
	3.2.S.7	Provide complete stability data of drug substance performed at both accelerated and long term condition till the claimed re-test date, since you have submitted real time data of only 12 month time period.	Submitted
	3.2.P.8	Justify for not including the test of water content and chiral purity in the shelf life specification of drug product ,since both of these critical test are included in the shelf life specification of innovator product.	As per US-FDA chemistry review, Life cycle management, these tests are not included in the Critical Quality Attributes. However, the tests are the part of shelf life specification of innovator brand as per the review literature.

Indication:
VIBERZI is a mu-opioid receptor agonist, indicated in adults for the treatment of irritable bowel syndrome with diarrhea (IBS-D).
DOSAGE AND ADMINISTRATION
The recommended dosage in adults is 100 mg twice daily taken with food.
The recommended dosage is 75 mg twice daily taken with food in patients
who do not have a gallbladder
are unable to tolerate the 100 mg dose
are receiving concomitant OATP1B1 inhibitors
have mild or moderate hepatic impairment
Discontinue VIBERZI in patients who develop severe constipation for more than 4 days.
If a dose is missed, take the next dose at the regular time; do not take 2 doses at once.

Decision: Deferred for scientific justification for following along with documented evidence:

- **Variation of the chemical structure of the drug substance, as evident from section 3.2.S.1, from that of the innovator.**
- **According drug substance documents α polymorphic form of drug substance is supplied by drug substance manufacturer while the review literature of innovator products reveal that Polymorphic form-I is the only non-solvated, crystalline form of the active substance which has been used in the formulation of innovator product, clarification is required either the Form α is similar to polymorphic Form-I of Eluxadoline.**

Remarks of Evaluator:

S.no.	Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
	3.2.S.4.4	Justify for not including the test of particle size (laser diffraction) and steroisomeric purity (Chiral HPLC) in the release specification of drug substance since these tests are included in the specification of drug substance by innovator brand.	As per FDA chemistry review, particle size is not included in the drug substance specification. For purity, Drug substance and Drug product manufacturer have performed Assay by HPLC and Impurites testing for ensuring the quality. However, in the public assessment report of EMA approved innovator brand both of these test are included in the release specification of drug substance. Further, the drug substance used in applied formulation is different from the drug substance of innovator brand as evident from the chemical structure given in section 3.2.S.1.
	3.2.S.4.4	According drug substance documents α polymorphic form of drug substance is supplied by drug substance manufacturer while the review literature of innovator products reveal that Polymorphic form-I is the only non-solvated, crystalline form of the active substance which has been used in the formulation of innovator product, clarification is required either the Form α is similar to polymorphic Form-I of eluxadoline.	Firm replied that "It is the same form, only notation is different i.e., Form 1 or Form Alpha".

	3.2.P.2.2.1	In compliance of notification no. 14-1/2022-PEC dated 16th January,2023 issued by DRAP, submit the image/picture/snapshot of innovator /reference/comparator pack against which Pharmaceutical equivalence/Comparative dissolution profile studies have been performed.	Submitted
	3.2.S.7	Justify for not including water content, stereoisomeric purity in the shelf life specification of the drug substance, since these tests are included in the shelf life specification of drug substance of innovator brand.	Firm replied that The API manufacturer (Vendor) claims that loss on drying test was run to determine the water content, in line with the instructions provided in the drug master file. For purity, Drug substance and Drug product manufacturer have performed Assay by HPLC and Impurites testing for ensuring the quality. Impurities testing mentioned in the stability data is not related to the chiral impurity testing of drug substance.
	3.2.S.7	Provide complete stability data of drug substance performed at both accelerated and long term condition till the claimed re-test date, since you have submitted real time data of only 12 month time period.	Submitted
	3.2.P.8	Justify for not including the test of water content and chiral purity in the shelf life specification of drug product ,since both of these critical test are included in the shelf life specification of innovator product.	As per US-FDA chemistry review, Life cycle management, these tests are not included in the Critical Quality Attributes. However, the tests are the part of shelf life specification of innovator brand as per the review literature.

Decision: Deferred for scientific justification for following along with documented evidence:

- **Variation of the chemical structure of the drug substance, as evident from section 3.2.S.1, from that of the innovator.**
- **According to drug substance documents α polymorphic form of drug substance is supplied by drug substance manufacturer while the review literature of innovator products reveal that Polymorphic form-I is the only non-solvated, crystalline form of the active substance which has been used in the formulation of innovator product, clarification is required either the Form α is similar to polymorphic Form-I of Eluxadoline.**

Item No. VII: Agenda of Evaluator PEC- XVII (Mr. Zia Ullah)

Case No.I Registration applications of locally manufactured (Human) drugs submitted on Form 5D (Requiring Stability data)

53.	Name and address of manufacturer / Applicant	M/s Werrick Pharmaceuticals, 216-217, I-10/3, Industrial Area, Islamabad.
	Brand Name +Dosage Form + Strength	LOXAM FLASH Tablets 8mg

Date of Submission	29-03-2019		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr. No.	Documents to Be Provided	Status
	Reference of previous approval of applications with stability study data of the firm.	Firm has referred to onsite inspection report of their product "Cell-Tab 400mg (Sofosbuvir) Tablets", which was presented initially in 256th subsequently in 269th &finally in 276th meeting of Registration board. Registration Board decided to approve registration of above stated drug product of M/s. Werrick Pharmaceuticals. According to the report following points were confirmed. ●The firm has 21CFR compliant HPLC software. ●The firm has audit trail reports available.
	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Firm has submitted copy of CoA for Lornoxicam. (Batch# LXM 180106P4) of M/s Pure Chem Pvt. Ltd. Plot # 4717, GIDC Estate, Ankleshwar 393 002 Gujrat, India. 4717, GIDC Estate, Ankleshwar 393 002 Gujrat, India.
	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Only assay method of API from Finished Product Manufacturer submitted.
	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone IV-a. Stability study is conducted at Real time conditions; 30°C ± 2°C / 65% ± 5%RH for 24 months and at Accelerated conditions; 40°C ± 2°C / 75% ± 5%RH for 6 months at intervals 0, 3, 6, 9, 12, 18, 24 & 0, 1, 2, 3 & 6 months respectively.

<tr><td>Provide valid GMP certificate of API manufacturer.</td><td>Firm has submitted copy of GMP certificate No. 21012385 issued to M/s. Pure Chem Pvt. Ltd. Plot # 4717, G.I.D.C Estate, Ankleshwar 393 002 Gujrat, India. Valid till 03-01-2024.</td></tr>
<tr><td>Justify the dispensing of drug substance for trial batch manufacturing without potency adjustment.</td><td>Firm submitted as:
Results for trial batches ranges from 100.89% - 103.36%, whereas the release limits for finished drug product are 90.0% - 110.0%. as per manufacturer’s specifications.
The firm undertakes that they will adjust the potency of drug substance in formulation of commercial batches before launching of the product.</td></tr>
<tr><td>Submit CoA of API by drug product manufacturer.</td><td>Firm submitted CoA of API Lornoxicam, Batch No. LXM180106P4 by the Drug Product manufacturer.</td></tr>
</table></td></tr>
</table>

Submit complete analytical methods/procedures of API as per specifications from drug substance and drug product manufacturers as only assay method of API by the drug product manufacturer submitted.	Firm submitted analytical methods/procedures of API from the drug product manufacture only. Complete analytical method from drug substance manufacturer has not been submitted.
Submit complete drug product specifications along with analytical methods/procedures as only assay and dissolution methods of finished drug product are submitted.	Submitted
Please justify why Assay determination is by HPLC method while for dissolution UV method employed.	The firm submitted as: UV method for Dissolution Testing as per USP <1092> Subsection 3.4: Analytical Procedure adopted because spectrophotometric determination is faster, analysis is simpler and easier with fewer solvents needed. UV Spectrophotometric dissolution method is validated with all necessary parameters including Specificity, Linearity, Accuracy and Method Precision.
In analytical method validation of FPP, the column specifications given as 150 × 4.6mm, while in finished drug product method, given as 4.6mm × 25cm. The mobile phase ratio given as buffer to methanol as 60:40 in method validation, while in analytical method as 50:50.	The chromatographic conditions mentioned in the submitted method of FPP and method validation are the same. The shortcoming/deficiency mentioned here has misunderstanding between the analytical method of finished product and method of API. The mobile phase ratio (Beffer:Methanol, 50:50) and column 4.6 × 25 cm corresponds to analytical method of API while (Buffer: Methanol, 60:40) and column 150 × 4.6 mm corresponds to FPP. The submitted record was rechecked/re-verified and found to be correct. The firm submission is justified.
Please clarify as to why the content uniformity tests have not been performed for the trial batches.	The firm undertakes that they will perform Content Uniformity Tests before launching of product.
Comparative dissolution studies/profile not submitted.	It is submitted that When the product was applied, no Reference Product was available in Pakistan. Now the Reference Product is available in Pakistan so the firm will perform Comparative Dissolution Profile (CDP) before launching of product. The firm has not mentioned the reference product. Moreover, it needs to be ascertained that the various generic products locally manufactured like Xikafast 8mg (Registration No. 086503) & Xikafast 4mg (Registration No. 086498) of M/s Inventor Pharma, Karachi and Xika Rapid Tablets 8mg film coated tablets (Registration No. 061612) & Xika rapid 4mg film-coated tablet (Registration No. 061611) of Hilton Pharma Karachi have been granted approved as per reference product that is Xefo Rapid Tablets 8mg film coated tablets (Austria) as in reference regulatory authorities only the 8mg strength available as rapid film-coated tablet.
Justify the applied product finished drug product specifications comply innovator's product specifications (dissolution parameters, dissolution limits etc).	Firm submitted as follow: The dissolution method of innovator/reference product is not available in any official pharmacopoeia or reference regulatory authority. The firm has established it dissolution method and parameters as per USP Chapter <1092> THE DISSOLUTION PROCEDURE. Dissolution Medium & Volume: Dose solubility ratio was performed in pH 1.2, 4.5, 6.8 and 7.4 Phosphate

	buffer. Dose solubility ratio was found high in the Phosphate Buffer pH 7.4. USP type II apparatus & agitation: As per USP chapter <1092> Dissolution Limit (Q) and Time (T): As per USP chapter <1092> The drug substances are found to be soluble in physiological buffer pH 7.4 i.e., it shows more than 85% release within specified limit (45 minutes). Furthermore, all the results observed during stability studies are within limits.
Please clarify as to how the applied formulation is different than your Loxam 8mg film-coated tablet, as approved in 297th meeting of Drug Registration Board, in terms of pharmacokinetic profiles and also elaborate the in-vitro tests applied for establishing the said difference.	The ingredients used in Loxam Flash 8mg film-coated tablets are according to innovators brand: Xifo Rapid 8mg and different from Loxam tablet 8mg film-coated tablets. In Loxam Flash tablet, Sodium bicarbonate is used for rapid release. The disintegration time for Loxam Flash tablet 8mg is NMT 3 minutes, while in case of Loxam tablet 8mg it is NMT 30min. Composition of Xefo rapid 8mg film-coated tablet and Xefo 8mg film-coated tablet provided for reference: Xefo rapid 8mg tablet Microcrystalline cellulose, Sodium hydrogen carbonate, Calcium hydrogen phosphate (anhydrous), Low substituted hydroxyl propyl cellulose, Hydroxypropylcellulose, Calcium stearate. Xefo 8mg tablet Lactose monohydrate, microcrystalline cellulose, Povidone K30, Crosscarmellose sodium, Magnesium stearate.
Decision: Deferred for following: • **Evidence of separate market authorizations, by any reference regulatory authority adopted by Registration Board in its 275th meeting, for the Lornoxiam 8mg plain tablet & Lornoxicam rapid tablet along with comparison of their pharmaceutical & pharmacokinetic particulars.** • **Detailed comparison of the pharmaceutical & pharmacokinetic particulars of the applied formulation and previously registered "Weramed 8mg film coated tablet (Reg.#107168)" in name of applicant and also .**	

Item No. VIII: Agenda of Evaluator PEC-XX (Mst. Sana Kanwal)

Following applications have been considered on priority in the light of decision of Registration Board, 257th meeting:

54.	Name, address of Applicant / Marketing Authorization Holder	M/s Horizon Healthcare (Pvt.) Ltd. Plot no. 33 Punjab Industrial Estate Lahore.
	Name, address of Manufacturing site.	M/s Horizon Healthcare (Pvt.) Ltd. Plot no. 33 Punjab Industrial Estate Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐Domestic and Export sales
	Dy. No. and date of submission	Dy. No 12205 dated 19-05-2022
	Details of fee submitted	Rs.75,000/- dated 11-05-2022
	The proposed proprietary name / brand name	Imeglu Tablet 500mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated tablet contains: Imeglimin Hydrochloride.....500mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Anti-Diabetic
	Reference to Finished product specifications	As Per Innovator's specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Twymeeg Tablet 500mg approved by (PMDA Japan)
	For generic drugs (me-too status)	Not available
	GMP status of the Finished product manufacturer	Last inspection report dated 18.06.2020. certificate issued on 06.07.2020 concluded good level of cGMP compliance. Valid for 2 years Evidence for section approval (Tablet General section) provided dated 07.02.2014
	Name and address of API manufacturer.	AMI Life Sciences Pvt Ltd. Block No.82/B, ECP Road, At & Post: Kararkhadi- Tal- Padra, Dist: Baroda Gujrat India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to structure, general properties, Manufacturers, description of manufacturing process and controls, Characterization, Impurities, Specifications, Analytical procedures, Validation of analytical procedure, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of General information, General properties, Manufacturers, description of manufacturing process and process controls, Characterization, Impurities, Control of drug substance, Reference standard or materials container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Imeglimin HCl: Batch No — Accelerated — Long Term IME/RD/30011221V — 6 Months — 60 Months IME/RD/30021221V — 6 Months — 60 Months IME/RD/30031221V — 6 Months — 60 Months

	Module-III (Drug Product):	The firm has submitted detail of Drug Products including Description and composition of drug product, Pharmaceutical Development, Manufacturing process development, Microbiological attribution, Manufacturer, Master formulations, Description of Manufacturing Process and Process Controls, Control of Critical Steps and Intermediates, Process Validation and/ or Evaluation, Control of Excipients with specification and Analytical methods, Control of Drug Products including Finished product specifications and test methods, validation of Analytical methods, Batch analysis , reference standard, Container closure and stabilities studies.	
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Twymeeg Tablets 500mg by BioPharma (Batch No 1001C) by performing quality tests (Identification, Assay, DT, Hardness, weight variation and Dissolution against test product Imeglimin HCl tablet (Batch No PTIM-001) CDP has been performed against the same brand that is in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.	
	Analytical method validation/verification of product	Method verification studies have submitted including Specificity, Accuracy, Precision, Linearity concentration and peak range.

	Details of fee submitted	PKR 75,000/- dated 21/06/2022
	The proposed proprietary name / brand name	MEGLIM Tablets 500mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet: Imeglimin Hydrochloride…..…500mg
	Pharmaceutical form of applied drug	White color oblong shape film coated tablet one side engraved NQ and other side is plain.
	Pharmacotherapeutic Group of (API)	Drugs used in diabetes, Other blood glucose lowering drugs, excl. insulins.
	Reference to Finished product specifications	Innovator's Specs.
	Proposed Pack size	10's, 14's, 20's,28's, 30's, 50's, 56's tablets
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	TWYMEEG Tablet 500mg (Imeglimin Hydrochloride) by Sumitomo Dainippon Pharma Co., Ltd., Japan (Approved by Pharmaceutical and Medical Devices Agency, Japan).
	For generic drugs (me-too status)	Not available in Pakistan
	GMP status of the Finished product manufacturer	GMP Certificate granted on 28/05/2022 based on inspection dated 19.09.2020. Evidence for Section approval is provided dated 27.04.2020. Tablet (General) section is approved.
	Name and address of API manufacturer.	M/s Anhui Haikang Pharmaceutical Co. Ltd. No. 21, Hauncheng West Road Anqing Anhui 246000, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification / validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official Monograph of Imeglimin Hydrochloride is not available hence In-house (Manufacturer's) specifications were adopted. The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, tests for related substances (Single impurity, Total impurities), specifications, analytical procedures and its verification,

		batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 9 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (21061501, 21062201, 21062901)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is TWYMEEG Tablet 500mg (Imeglimin Hydrochloride) is being marketed by Sumitomo Dainippon Pharma Co., Ltd., Japan, (Batch No 1004F) by performing quality tests (Description, Identification, Disintegration, Dissolution, Impurities and Assay) against Meglim tablet 500mg (Batch No 538DS01) CDP has been performed against the same brand that is TWYMEEG Tablet 500mg (Imeglimin Hydrochloride) by Sumitomo Dainippon Pharma Co., Ltd., Japan, in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.

Remarks of Assesor (AD-PEC XX):

<table>
<tr><th>Sr.#</th><th>Observation</th><th>Reply</th><th>Remarks</th></tr>
<tr><td>1.</td><td>The proposed specification of Drug Substance includes residue on ignition as per Report on deliberation results of Twymeeg Tablets 500 mg by PMDA, same has not been tested by Drug substance manufacturer. Justify it
API</td><td>Reference to the “Report on deliberation results of Twymeeg Tablets 500mg by PMDA, we have conducted Residue on Ignition Test on retention sample of API and found below results :
<table><tr><th>S.No</th><th>Specifications</th><th>Results</th></tr><tr><td>01</td><td>Residue on ignition (NMT 0.1%)</td><td>0.07%</td></tr></table>
Revise API specifications for QC release having Residue on ignition test is provided</td><td>Complied

Firm has submitted revised analytical testing method and CoA, wherein “Residue on ignition” is tested, by Finished product manufacturer.</td></tr>
<tr><td>2.</td><td>The proposed specification of Drug Product includes uniformity of dosage units (mass variation test) as per Report on deliberation results of Twymeeg Tablets 500 mg by PMDA same has not been tested by finished product manufacturer. Justify it</td><td>We have previously submitted COAs of Imeglimin HCl Tablets 500mg at Initial testing having uniformity of dosage units by mass variation test same enclose in for ready reference.

We also conducted weight variation test as on today basis, results of the same are enclose in Annexure-B.</td><td>Complied

Uniformity of dosage units was performed at initial testing in stability studies , same was mentioned in CoA (NMT 15)</td></tr>
<tr><td>3.</td><td>3% overage is added to compensate water content as</td><td>In formulation of Imeglimin HCl Tablet, there is no bulking agent used for potency adjustment so potency calculation is set on basis of results of water content as Drug substance having</td><td></td></tr>
</table>

		mentioned in batch formula, need further deliberation.	maximum limit of 5% water content , we have set median limit of 3% water content in our batch formula to comply the product assay results on QC release specifications i.e. 95% - 105% of label claim to assure product quality for patient compliance.	

Discussion & Decision: Registration Board was apprised regarding the CDP results of applied formulation from two different applicants i.e., M/s Horizon Healthcare and M/s Nabiqasim Industries wherein conflicting results were reported despite of using same reference product i.e TWYMEEG Tablet 500mg.
In the CDP data presented by M/s Horizon Healthcare maximum drug release was reported in phosphate buffer of pH 6.8 while the CDP data of M/s Nabiqasim Industries reported minimum drug release in phosphate buffer of pH 6.8.
On basis of above cited observation Board decided to defer the instant application for justification of the reported results of CDP studies, with reference to the innovator drug product literature along with scientific justification of using 3%overage of drug substance in the drug product formulation.

Item No. IX: Agenda of Evaluator PEC-II (Mr. Ammar Ashraf Awan)
Case no. 01 Priority consideration of registration applications:
M/s Focus & Rulz Pharmaceuticals Pvt., Ltd. 44-Indutrial Triangle Kahuta Road Islamabad Pakistan has achieved the benchmark of more than 100,000 USD during the fiscal Year 2019-2020 and requested for priority consideration of following molecules.

56.	Name, address of Applicant / Marketing Authorization Holder	M/s Focus & Rulz Pharmaceuticals Pvt., Ltd. 44-Indutrial Triangle Kahuta Road Islamabad Pakistan
	Name, address of Manufacturing site.	M/s Focus & Rulz Pharmaceuticals Pvt., Ltd. 44-Indutrial Triangle Kahuta Road Islamabad Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 12514 dated 23-05-2022
	Details of fee submitted	Rs.30,000/- dated 20-05-2022
	The proposed proprietary name / brand name	Ulfam dry Suspension 40mg/5ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Famotidine …… 40mg (USP Specifications)
	Pharmaceutical form of applied drug	Before Reconstitution: White to off-white granular powder. After Reconstitution: White colored thick suspension visually free from foreign particles.
	Pharmacotherapeutic Group of (API)	Histamine H2 receptor antagonist
	Reference to Finished product specifications	USP Spec's
	Proposed Pack size	60ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Pepcid 40mg/5ml Dry Suspension by M/s Salix Pharms USA.

	For generic drugs (me-too status)	Famlet 40mg/5ml Dry Suspension By M/s Winlet Pharmaceuticals Pvt., Ltd. Reg. No. 098322
	GMP status of the Finished product manufacturer	GMP inspection report conducted on 29-12-2020 concluding acceptable level of GMP compliance.
	Name and address of API manufacturer.	M/s Rakshit Pharmaceuticals Limited Plot No.68/A, Jawaharlal Nehru Pharma City, Parawada Mandal, Visakhapatnam District, Andhra Pradesh India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Famotidine is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (FM/08/00/017, FM/08/00/018, FM/08/00/019)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Famlet Dry Suspension 100mg/5ml by Winlet Pharmaceuticals Pvt., Ltd by performing quality tests. As the dissolution of famotidine for oral suspension is not described in USP, hence dissolution comparison was not performed for the product with innovator/ reference product.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.
STABILITY STUDY DATA

No. of Batches	03		

Administrative Portion

	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. E-1555174/DD/DCA/VSP/2021 issued by DCA Andhra Pradesh valid till 21-11-2022 submitted.
	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice No. RLP3721E0145, dated 29-09-2021 Famotidine 50 kg imported from Rakshit Pharmaceuticals Limited, attested by AD I&E DRAP dated 20-10-2021 is submitted.
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers is submitted

Remarks of Evaluator:

Section#	Observation	
1.6.5	Valid GMP certificate of the drug substance manufacturer shall be submitted.	
3.2.S.7	Long term stability studies data of drug substance is not as per Zone IVa conditions.	
3.2.P.1	Details of accompanying reconstitution diluent shall be submitted.	
3.2.P.2.5	Submit data for test for content of antimicrobial preservative & efficacy of preservative, as recommended by ICH Q1 (R2) guidelines & USP chapter <51>.	
3.2.P.2.6	Compatibility studies with reconstitution diluent shall be submitted.	
3.2.P.5.1	Test for content of antimicrobial preservative & efficacy of preservative, as recommended by ICH Q1 (R2) guidelines & USP chapter <51>, has not been included in the finished product specifications. You are advised to submit justification in this regard.	

	Justification shall be submitted for not including test of "Content uniformity" & "Microbial Enumeration Tests" in the drug product specifications as recommended by USP monograph. Elaborate the sample preparation method including procedure of reconstitution in the Assay test method.	
3.2.P.5.4	Submitted drug product COAs & BMRs declare manufacturing date as of July, 2021, whereas the COA of Famotidine from drug substance manufacture mentions its date of manufacture as August 2021, while date of drug substance analysis in the COA from M/s Focus & Rulz declare date of analysis as 10-08-2021. Justification shall be submitted for the manufacturing of drug product stability batches prior to the date of manufacture of drug substance.	
3.2.P.8	Submit justification for not performing tests of content of antimicrobial preservative, efficacy of preservative, "Content uniformity" & "Microbial Enumeration Tests" during stability studies. In-use stability studies of reconstitution diluent have not been submitted.	

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS –PD template
	Module-III Drug Substance:	Firm has submitted detailed drug substance data f related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability data of 3 batches of API at accelerated (6 months) and real time conditions (36 months) as per Zone IVa.
	Module-III Drug Product:	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence against the Ibuprofen infusion 600mg/100ml of B Braun has been submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation data.
	Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions

STABILITY STUDY DATA			
Manufacturer of API	M/s Zenith Chemical Industries (Pvt) Limited Moza Dhonday ,jia Baga Raiwind – Kahna Road Raiwind.		
API Lot No.	ZIBU19-014		
Description of Pack (Container closure system)	Type II Glass Vial		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0,1, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No	NUV-001	NUV-002	NUV-003
Batch Size	90 Vials	90 Vials	90 Vials
Manufacturing Date	06-2019	06-2019	06-2019

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
Sr.#	Documents To Be Provided	Status
1.	COA of API	Submitted
2.	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP certificate issued by the Additional director DRAP, Lahore based upon inspection conducted 06-12-2018.
3.	Protocols followed for conduction of stability study and details of tests.	Yes
4.	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
5.	Documents confirming import of API etc.	Copy of purchase order and delivery challan from M/s Zenith Chemical industries , Lahore has been submitted.
6.	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
7.	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
8.	Commitment to follow Drug Specification Rules, 1978.	Yes

Report on Verification of Authenticity of Stability Data submitted for Registration of Nufen 400mg/4ml, 400mg/100ml & 600mg/100ml injections

Name of Manufacturer	M/s Ameer & Adnan Pharmaceuticals Pvt Limited.
Physical Address	Plot no. 47, Sundar Industrial Estate, Lahore.
Drug Manufacturing License No. and validity	000787 by way of formulation Renewal date: 3-2-2019.
Date of Inspection.	23-11-2022
Purpose of Inspection	Verification of Authenticity of Stability Data for Purpose of Registration of Drugs with reference DRAP's letter No. F.15-1/2022-PEC dated 16-08-2022.
Name of Inspector	Mr. Iftikhar Ch. (Member, Registration Board Ms. Maham Misbah Assistant Director, DRAP, Lahore.
Name of firm Representatives present during the course of inspection	Mr. Adnan CEO. Mr. Hammad (R&D Manager) Mr. Adeel Akram(Production Incharge) Mr. Hafiz Umer Nisar (Quality Control Manager)

Sr. No.	Questions	Observations of the panel
	Do you have documents confirming the import of API including approval from DRAP?	Material was purchased locally from M/s Zenith Chemical Industries (Pvt.) Ltd, Jia Baga, Raiwind Road, Lahore. Pakistan.
	What was the rationale behind selecting the particular manufacturer of API?	The site had been visited and qualified by the firm. GMP certificate of the vendor was also available, as informed by the representative of the firm.
	Do you have documents confirming the import of reference standard and impurity standards?	Reference standards were not available. The firms management informed the panel that they had procured working standards from the vendor. Impurity standards were not available.
	Do you have certificate of Analysis of the API, reference standards and impurity standards?	COAs of API, Working Standards were available.
	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Yes
	Do you use API manufacturer method of testing for testing API?	API manufacturer had use phrmacopoeial method and same method used by the firm.
	Do you have stability studies reports on API?	Yes, stability studies reports were provided by the API manufacturer.

	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	No.
	Do you have method for quantifying the impurities in the API?	Available.
	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Remaining quantities of API and working standard were available.
	Have you used pharmaceutical grade excipients?	L-Arginine (analytical grade) excipient was used, according to documents shown to the panel. NaOH, HCl, Phosphate Buffer were also used as excipients and they were of analytical grade, according to the documents shown to the panel.
	Do you have documents confirming the import of the used excipients?	The firm had used locally purchased excipient.
	Do you have test reports and other records on the excipient used?	CoAs were available.
	Do you have written and authorized protocols for the development of applied product?	Yes
	Have you performed Drug-excipients compatibility studies?	No.
	Have you performed comparative dissolution studies?	Not Applicable
	Do you have product development (R&D) section	Firm did not have R&D section for injectables. Firm had used the commercial production area for manufacturing of product development and stability batches.
	Do you have necessary equipments available in product development section for development of applied product?	Commercial production facility was used.
	Are the equipments in product development section qualified?	Yes
	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	Available for the equipment used.
	Do you have qualified staff in product development section with proper knowledge and training in product development?	Yes
	Have you manufactured three stability batches for the stability studies of applied product as required?	Yes.
	Do you have any criteria for fixing the batch size of stability batches?	According to the management of the firm, Batch size was developed according to the size of the production equipment and samples required for stability testing.

	Do you have complete record of production of stability batches?	BMRs were available. It was recommended to make them more comprehensive to include step by step procedure.
	Do you have protocols for stability testing of stability batches?	Yes firm had protocols for stability testing of stability batches
	Do you have developed and validated the method for testing of stability batches?	Firm had developed the method and validated it In-house. Validation documents were shown to the panel.
	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not Applicable.
	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Calibration certificates of all testing equipments were available.
	Is your method of analysis stability indicating?	Yes.
	Is your HPLC software is 21CFR compliant? (Details of Model, software, description/version (i.e. software validation report for 21 CFR Part 11 compliance including audit trail, password protection, date & time lock and user authorizations shall also be reported.)	No. Password protected accounts were enabled, date and time lock were available.
	Can you show Audit Trail reports on stability studies testing?	No.
	Do you have some remaining quantities of degradation products and stability batches?	Yes.
	Do you have stability batches kept on stability testing?	None at the time of inspection as the firm had completed real time stability studies for two years.
	Do you have valid calibration status for the equipments used in production and analysis?	Yes.
	Do proper and continuous monitoring and control are available for stability chamber?	Data loggers were placed in the chambers for monitoring. Accelerated Stability Chamber: Company: Binder Capacity: 500L Real Time Stability Chamber: Company: Supico Capacity: 750L
	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Firm had GMP compliance certificate issue by DRAP.

Remarks:
In addition to the details given in table above, the panel was also advised to verify the performance of sterility test performed lately on retention batches. According to the documents shown to the panel, the materials and testing facilities available at the premises at the time of inspection and the personnel interviewed, it seemed that the firm had conducted sterility testing on the retention batches.
Submitted for consideration and necessary action, please.

Decision: Registration Board approved the applications of Nufen 600mg/100ml Infusion, Nufen 400mg/100ml Infusion & Nufen 400mg/4ml Infusion

• **Manufacturer will place first three production batches of each strength on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Ertugliflozin-LPGA & Sitagliptin are not present in any Pharmacopoeia and the firm has followed manufacturer's specification. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Ertugliflozin-LPGA: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 48 months Batches: (D84-161201, D84-161202, D84-170101) Sitagliptin: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH. The real time stability data is conducted at 30oC ± 2oC / 75% ± 5% RH. Batches: For Accelerated studies (M-20190127-D01-M06-06, M-20190316-D02-M06-07, M-20190127-D01-M06-08) For Real time studies (M-20190127-D01-M06-01, M-20181222-D06-M06-08, M-20181222-D06-M06-09)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard,

		container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	CDP studies against the reference product of Steglujan tablets, in three dissolution mediums has been submitted with acceptable level of f2 results (f2 ≥ 50).
	Analytical method validation/verification of product	Firm has submitted analytical method validation data

Remarks of EvaluatorII:

Sr.#	Section#	Observation	Firm's response
	1.6.5	Valid GMP certificate of the manufacturer of Ertugliflozin L-PGA shall be submitted.	Submitted from Changzhou Pharmaceutical Profession Association wghich is not relevant regulatory authority.
Ertugliflozin L-Pyroglutamic acid			
	3.2.S.4	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Pro duct manufacturer is required. Submitted specifications and analytical procedure by drug substance manufacturer describes the test for content of "Ertugliflozin L-pyroglutamic acid, whereas the Innovator's product literature recommends test of "Ertugliflozin potency" in the drug substance specifications. Analytical Method Verification studies including specificity, accuracy and repeatability (method precision)	Submitted. As per the manufacturer: Ertugliflozin potency = Ertugliflozin LPGA Assay - LPGA content. So, they have shown only two test results of them on the COA, instead of all three, because the third outcome can be calculated out. Analytical method verification report has been submitted. As per submitted analytical record various chromatograms have been analysed with retention time of 20 minutes whereas analytical procedure recommends gradient run time of 45 minutes. Submitted. Firm has submitted Revised CoA with Ertugliflozin content is submitted.

		performed by the Drug Product manufacturer shall be submitted. Analytical record i.e., Raw data sheet, FTIR spectrum, chromatograms etc., shall be submitted for the analysis of 'Ertugliflozin L-pyroglutamic Acid' performed by M/s High-Q Pharmaceuticals. COA from drug substance manufacturer does not declare the "Ertugliflozin potency" as recommended by the innovator product. COA from of drug substance from drug product manufacturer does not include test of L-Pyroglutamic acid content.	Revised CoA of material with test of L-pyroglutamic acid content is submitted. The test for L-PGA was performed after the submission, considering that theoretical factor calculated using molecular weights can serve the purpose for small size trial batches. This test has now been performed on the retention sample of API and included in the specification for routine testing of API for commercial batches of the product
	3.2. S.5	COA of reference standard of L-Pyroglutamic acid shall be submitted. Submitted COAs of reference standard of Ertugliflozin L-PGA does not mention any manufacturing date, validity date & batch no. Submitted COA of reference standard does not declare the content of L-pyroglutamic acid.	CoA of Reference standard of L-pyroglutamic acid is submitted. Updated CoA of Reference standard with L-pyroglutamic acid content is attached. Batch number: B34-191001 Mfg Date: Oct 26, 2019 Retest Date: Oct 25, 2021
	3.2. S.7	Justification shall be submitted for not performing test of L-PGA content throughout the stability studies.	Firm has submitted declaration from drug substance manufacturer: On the stability data of Ertugliflozin L-PGA, L-PGA content is only shown in month 0 and month 24, because L-PGA is very stable, and doesn't degrade within 3-4 years, so we tested it every two years in the stability studies initially. If customer insist to have L-PGA content data in each column, then we'll add the test results from next stability batch.
Sitagliptin phosphate monohydrate			
	3.2.S.4	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required. Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer shall be submitted. Analytical record i.e., Raw data sheet, FTIR spectrum, chromatograms etc., shall be submitted performed by M/s High-Q Pharmaceuticals. Provide Certificate of Analysis (CoA) of relevant batch(es) of Drug Substance performed by Drug substance manufacturer used during	Firm has submitted specifications, analytical procedure, analytical method verification report, analytical record for Drug substance analysis and COAs.

	product development and stability studies.	
3.2.S.5	Submitted COA of working standard declares the expire date as 24-07-2018, whereas the drug substance analysis has been performed subsequent to this date.	Revised COA of working standard has been submitted with expiry date of 14-02-2023.
3.2.S.7	Long term stability studies have been submitted for 6 months only.	Long term stability data as per Zone IVa conditions has been submitted for 24 months.
3.2.P.1	Excipients used in the proposed formulation are different form that used by the Innovator. Justification shall be submitted in this regard. Clarification shall be submitted regarding composition of "Quick tab" used in the formulation.	Firm has referred to drug excipient compatibility study as justification. Quick Tab is a pre-mix used as Binder, filler and disintegrant.
3.2.P.3.5	Sampling plan of compression stage, presented in the submitted process validation protocol, does not include test of content uniformity. Justification shall be submitted in this regard.	Revised Process validation protocol submitted.
3.2. P.5.1	Drug substance specifications have been submitted instead of the drug product specifications. Dissolution parameters of apparatus (paddle instead of basket), dissolution medium (0.1N HCl instead of pH 4.5acetate buffer) & dissolution volume (1000ml instead of 900ml), proposed in analytical procedure, are different from that recommended by the US FDA in the innovator's product literature review. Justifications shall be submitted in this regard. You have applied Paddle speed = 100 rpm in dissolution parameters. You are advised to justify the speed of paddle apparatus with reference to USP general chapter <1092> (The Dissolution Procedure; Development and Validation). Submitted analytical procedure does not include test of content uniformity.	Firm has submitted drug product specifications. There was a typo error; the actual paddle speed is 50 rpm as mentioned in Comparative Dissolution Profile documents (Biowaiver Studies Protocol), already submitted. The testing was done following that procedure. The medium (0.1N HCI pH 1.2) was selected as both ertugliflozin and sitagliptin meet the requirements of BCS Class I drug due to high solubility across physiological pH range and high permeability. Ertugliflozin / sitagliptin tablets display rapid in vitro dissolution characteristics over the pH range of 1.2 — 6.8. The control methods of Ertagsa 5mg/100 mg & Ertagsa 15 mg/100 mg have been corrected to show Paddle speed as 50 rpm and Dissolution volume as 500 ml. The analysis of commercial batches shall be carried out according to the revised methods for Ertagsa 5mg/100mg & 10mg/10mg Tablets. The actual testing of trial batches were carried out with 1000 ml dissolution volume instead of 500 ml but since both the APIs are high solubility and the Tablets have low disintegration time, therefore, it can be assumed that dissolution results would not be significantly impacted. Dissolution medium and volume in revised drug product method is still not as per US FDA.
3.2. P.5.4	Test of content uniformity by way of Assay has not been performed during batch analysis.	Firm has submitted performance on the retention samples of all the three trial batches for content uniformity. The CoAs along with related chromatograms and work sheets

3.2. P.6	Dates of standardization of working standard of Sitagliptin & Ertugliflozin are April & August 2020, whereas the product analysis has also been performed prior to these dates. Clarification shall be submitted regarding reference standards applied for the analysis of product samples, performed prior to the date of standardization of working standards. Submitted COA of working standard of Ertugliflozin-LPGA does not declare the content of LPGA and also the potency in terms of Ertugliflozin has not been determined.	Sitagliptin USP, batch no. M-20191228-D07-M06-04, was received with expiry date as 14/02/2023. Same was standardized on 16/03/2020 against USP Reference Standard (Lot # R07630) and declared as working standard since the results were comparable with the RS. The re-standardization date given was 15/03/2021. Same lot was again tested on 27/07/2020 due to malfunctioning of the refrigerator, in which reference and working standards are stored, and since no change in potency and water contents observed therefore its re-standardization date revised accordingly as 26/07/2021 with no change in potency. In the documents submitted, the revised CoA was attached, by mistake. Ertugliflozin, batch no. D-84-191001, was received on 29/10/2019. Same was standardized on 17/01/2020 against Working Standard (B34-191001) supplied by the manufacturer. This lot was also qualified as Working Standard with re-standardization date as 16/01/2021. Same lot was again tested on 17/08/2020 due to consumption of entire quantity of working standard retained. A fresh sample was taken from the available material of batch no. D-84-191001 and standardized with re-standardization date as 16/08/2021 with no change in potency. In the documents submitted, the revised CoA was attached, by mistake. Reviewed COA of working standard has been submitted.
3.2. P.8	Submitted commercial invoice for Sitagliptin phosphate monohydrate does not reveal the name of manufacturer, hence Form 3 & 7 shall be submitted. Justification shall be submitted for applying the theoretical factor of LPGA, instead of applying the actual potency of Ertugliflozin in working standard. You are advised to justify the quantity of "Ertugliflozin-LPGA" dispensed for formulation of each trial, with reference to the %age content of	Firm has submitted Form 3 & Form 7 for the imported batch of Sitaglitpin form M/s Fuxin Long Rui., China. Theoretical factor was used as the actual contents of L-pyroglutamic acid were not determined at that time. The API has been retested (on 15/02/2022) in order to determine the potencies of Ertugliflozin L-PGA, Ertugliflozin and L-PGA separately to see the impact on quantity of Ertuglifolzin L-PGA used in trial batches. The difference between the theoretical and actual L-PGA contents as declared in the CoA from the supplier, is not that much that could significantly impact the quantity of Ertugliflozin L-PGA dispensed for small size trial batches. In commercial batches the quantity of Ertugliflozin L-PGA per batch shall be calculated on the basis of actual %age of L-PGA content in the API According to the data of potency determined in COA of Ertugliflozin-LPGA, the difference between quantity dispensed and the actual quantity that should have been dispensed, is nominal, however in

	"Ertugliflozin" in the drug substance of "Ertugliflozin-LPGA".	commercial batches the quantity of Ertugliflozin L-PGA per batch shall be calculated on the basis of actual %age of L-PGA content in the API in order to achieve the desired label claim of Ertugliflozin.

Decision of 320th meeting: Registration Board deliberated that the selected dissolution parameters for the applied products including apparatus, dissolution medium, volume etc. are different from the parameters described in the literature review of the product approved by US FDA. Therefore, the Board decided to defer the applications for Ertagsa 15/100 mg Tablet & Ertagsa 5/100 mg Tablet for submission of stability studies data of two batches of each strength at accelerated and long term conditions for initial and 1 month time point, wherein dissolution tests shall be performed as per the dissolution parameters recommended by US FDA in the literature review of innovator drug product i.e., Steglujan tablet.

Firm's response: Firm has submitted data for two new batches of each strength wherein Dissolution test has been performed as per recommendations of US FDA for innovator product.

	Batch No.	Batch size	Date of Mfg.	Duration of study
Ertagsa 5/100 mg Tablet	5ESPD04/22	2500 tablets	09-2022	0 & 1st month (Both accelerated and Long term conditions)
	5ESPD05/22	2500 tablets	09-2022	0 & 1st month (Both accelerated and Long term conditions)
Ertagsa 15/100 mg Tablet	1ESPD05/22	2380 tablets	10-2022	0 & 1st month (Both accelerated and Long term conditions)
	1ESPD04/22	2380 tablets	10-2022	0 & 1st month (Both accelerated and Long term conditions)

Decision of 324th meeting: Registration Board approved the applications of Ertagsa 15/100 mg Tablet & Ertagsa 5/100 mg Tablet with innovator's specifications. The firm shall submit fee of Rs. 7,500/- for each strength for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	GMP status of the drug product manufacturer	Firm has submitted copy of GMP certificate dated 30-10-2019
	Evidence of approval of manufacturing facility	Firm has submitted copy of GMP certificate dated 30-10-2019 which specifies Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

	Dy. No. and date of submission	Dy. No. 29986 dated 3/11/2021
	Details of fee submitted	PKR 30,000/-: vide deposit slip# 6117667857
	The proposed proprietary name / brand name	NILAP 20mg/ml solution for Infusion and oral solution
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 1 ml ampoule contains; Caffeine Citrate 20 mg equivalent to Caffeine ……10mg
	Pharmaceutical form of applied drug	A clear colourless liquid, free from turbidity and foreign matter; filled in sterilized USP Type-1 ampoule.
	Pharmacotherapeutic Group of (API)	Anti-Hypertensive
	Reference to Finished product specifications	USP
	Proposed Pack size	1 ml x 1s, 1ml x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Peyona 20 mg/mL solution for infusion and oral solution (MHRA approved).
	For generic drugs (me-too status)	PEYONA SOLUTION FOR INFUSION. VIA ENRICO FERMI 1, 65020 ALANNO (PE), ITALY.
	Name and address of API manufacturer.	Hebei Guangxiang Pharmaceutical Co, Limited , Cangzhou City, Hebei Province, China by China Food and Drug Administration.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 6 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the comparator i.e. Peyona 20mg/ml solution for infusion and oral solution
	Analytical method validation/verification of product	Firm has submitted report of verification studies of analytical method of drug substance. Firm has submitted report of verification of analytical method for the drug product.

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product for Mirab (Mirabegron) Extended Release Tablets 25mg & 50mg on 12th December 2017. Further, the said panel inspection report was discussed in 277th Drug Registration Board meeting held on 27th – 29th December 2017. The case was approved and the inspection report confirms following points: The HPLC software is 21CFR Compliant as per record available with the firm. Audit trail on the testing reports is available. Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	GMP Certificate No. HE20190094 issued to manufacturer Hebei Guangxiang Pharmaceutical Co, Limited , Cangzhou City, Hebei Province, China by China Food and Drug Administration
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying import of 075 Kg Caffine Anhydrous . The invoice was signed by AD (I&E) DRAP field office Karachi dated 13-08-2020.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Query Items	Getz Pharma Response
Submit label claim as per innovator product declaring the equivalent content of Caffeine citrate in terms of the base per unit ml.	Below is the label claim as per innovator product declaring the equivalent content of Caffeine citrate in terms of the base per unit ml. Each 1ml ampoule contains: Caffeine Citrate… 20mg (equivalent to 10mg Caffeine) Please refer to Annexure-1 for the SmPC of innovator product for label claim.
Submit microbial reports for the sterility testing of drug product during stability studies.	We would like to inform you that we have performed Bacterial Endotoxin Test, Sterility Test and Particulate Matter Test at the time of Release in line with ICH Q6 requirements which shows that NILAP is sterile. As per ICH Q1A, stability studies should include testing of those attributes that are susceptible to change during storage and are likely to influence quality, safety and/or efficacy. Since aforementioned tests can be affected by any breach in container closure system, therefore, we have replaced said tests with container closure integrity test during stability studies. Further, this is in line with US-FDA Guidelines "Container and Closure System Integrity Testing in Lieu of Sterility Testing as a Component of the Stability Protocol for Sterile Products" which states in VI. IMPLEMENTATION as follows: A container and closure system integrity test may replace sterility testing in a stability program at time points other than the product sterility test prior to release Container and closure system integrity tests do not replace sterility testing methods for product sterility testing prior to release. Please refer to Annexure-2 for reports of Bacterial Endotoxin Test, Sterility Test, Particulate Matter Test conducted at batch release and Container Closure Integrity Test at initial stability study interval.
USP monograph of "Caffeine citrate injection" mandates use of Theophylline in the standard solution for Assay test, whereas submitted drug product test method form M/s Getz does not include any such details. Justification shall be submitted in this regard.	This is to bring to your kind attention that in USP monograph of "Caffeine Citrate Injection" Theophylline is used only for resolution purpose between Theophylline and Caffeine and not for the calculation purpose. As per USP Theophylline is categorized as dangerous goods, therefore, we are unable to procure it. Further, in USP monograph RRT (relative retention time) of Theophylline is given which is 0.70, consequently Theophylline can easily be identified & reported through its relative retention time (RRT). In sample solution, peak of Theophylline is observed but it is below the reporting threshold (i.e. less than 0.05%) while the resolution between Theophylline (observed at RRT 0.73) and Caffeine is 7.05 (Greater than 6) which fulfills the requirement of USP resolution criteria.

	Please refer to Annexure-3 for sample chromatogram on enhanced scale showing resolution of 7.05 between Theophylline and Caffeine.
It is evident from the submitted analytical record for stability studies that standard solution preparation & system suitability parameter for Assay test has not been performed as per the recommendations of USP monograph of "Caffeine citrate Injection".	Please refer to above point for system suitability parameter justification.

Decision in 322nd meeting :

Registration Board deferred for clarification of following points:

• USP monograph of "Caffeine citrate injection" mandates use of Theophylline in the standard solution for Assay test, whereas submitted drug product test method from M/s Getz does not include any such details.

• Non-performance of sterility testing at the start and end of stability studies.

• Submitted Pharmacological group of applied formulation as "Anti-hypertensive".

Reply of the firm:

	Remarks of the Evaluator :	
	Now the firm has submitted stability data detailed as under:	
STABILITY STUDY DATA		
Drug		LINA 5MG TABLET
Name of Manufacturer		M/s Pharmevo Private Limited., Plot # A-29, North Western Industrial Zone, Port Qasim, Karachi.
Manufacturer of API		M/s Beijing Huikang Boyuan Chemical Tech Co., Ltd., China.
API Lot No.		160108
Description of Pack (Container closure system)		Alu-Alu Blister
Stability Storage Condition		Accelerated: 40°C ± 2°C & 75±5%RH Real Time: 30°C ± 2°C & 75±5%RH
Time Period		Accelerated: 26 Weeks Real Time: 26 Weeks
Frequency		Accelerated: 0,1,2,3,4,6,8,10,12,14,16,18,20,22,24 (Week)

	Real Time:0,1,2,3,4,6 (Month)		
Batch No.	16PD-1824-01-T	16PD-1825-02-T	16PD-1825-03-T
Batch Size	2,500 Tablets	2,500 Tablets	2,500 Tablets
Manufacturing Date	May 2016	May 2016	May 2016
Date of Initiation	May 2016	May 2016	May 2016
No. of Batches	03		
Date of Submission	20-03-2017 (Dy. No. 775)		

Sr. No.	Documents To Be Provided	Status
	COA of API	Yes
	Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Copy of GMP Certificate is provided.
	Protocols followed for conduction of stability study and details of tests.	Yes
	Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes
	Documents confirming import of API etc.	Copy of License to Import API (Linagliptin) issued by ADC (Karachi) is provided.
	All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
	Commitment to continue real time stability study till assigned shelf life of the product.	Yes
	Commitment to follow Drug Specification Rules, 1978.	Yes

Remarks of Evaluator:
The firm has provided 6 Months Accelerated and 6 Months Real Time Stability Data for 03 batches.
The acceptance criteria for Avg. weight mentioned in stability data sheets is 130mg + 5% whereas the minimum result at any time point obtained for weight of tablet is 302.57mg per tablet.
Appearance of tablet is mentioned as:
a. Light pink colored square shaped film coated tablet having bisect line on one side and plain on other side.
b. Light Green Colored round biconvex shaped coated tablet plain from both sides.
c. Blue colored round shaped coated tablet plain from both sides.
Significant Change (6.12%) in assay results was obtained between Initial time point (101.99%) and 24th week (95.87%) for accelerated studies conducted at Batch No. 16PD-1825-02-T.
Significant Change (5.52%) in assay results was obtained between Initial time point (101.35%) and 24th week (95.83%) for accelerated studies conducted at Batch No. 16PD-1825-03-T.
Acceptance criterion for thickness is mentioned as 3.10mm – 3.60mm whereas the minimum result at any time point obtained for thickness of tablet is 4.46mm.
Description of tablet is provided in Stability Data Sheets rather than the description of container closure system.
Firm has claimed Mfg. Specs. Supporting documents in the light of 267th RB Meeting should be provided for Finished Product Specifications.

REQUEST OF EXEMPTION FROM ON SITE INSPECTION

Upon communication of above observations firm has submitted stability studies data of 3 new trial batches with revised source of drug substance as per checklist approved in 293rd meeting of Registration Board for exemption from onsite inspection report.

STABILITY STUDY DATA

Manufacturer of API	M/s Jiangsu Yongan Pharmaceutical Co., Ltd., l8, 237 Provincial Road, Economic Development Zone, Huai'an, Jiangsu,China.
API Lot No.	7700-20200501

Manufacturing Date		10-2020	10-2020	10-2020
Date of Initiation		11-2020	11-2020	11-2020
No. of Batches		03		
Date of Submission		06-08-2021		
Documents To Be Provided		Status		
1	Reference of previous approval of applications with stability study data of the firm	Firm has referred to onsite inspection report of their product Erli Plus XR Tablet 5/1000mg, 10/1000mg, 12.5/1000mg & 25/1000mg (Empagliflozin + Metformin HCl XR) which was conducted on 05th December, 2019 and were presented in 293rd meeting of Registration Board held on 6th -8th Jan, 2020. According to the report following points were confirmed. Firm has 21 CFR compliant HPLC software. Firm has audit trail reports available. Firm possesses stability chambers with digital data loggers.		
2	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copy of COA of Linagliptin: (Batch# 7700-20200501) from M/s. Jiangsu Yongan Pharmaceutical Co. Ltd. & M/s PharmEvo (private) Limited is submitted.		
3	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Method of analysis for drug substance has been submitted from both drug substance and drug product manufacturer.		
4	Stability study data of API from API manufacturer	Submitted as per following conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (20180201, 20180202, and 20180301)		
5	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of Drug Manufacturing License no. Su 20160324 issued by Jiangsu Drug Administration valid till 06-12-2025.		
6	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice No. ZY20060101G/W attested by AD I&E, DRAP dated 10-6-2020 for import of 500gm of Linagliptin along with license to Import drug from M/s Jiangsu Yongan Pharmaceutical Co., Ltd		
7	Protocols followed for conduction of stability study	Submitted		
8	Method used for analysis of FPP	Submitted.		
9	Drug-excipients compatibility studies (where applicable)	Same excipients used as used by innovator.		
10	Complete batch manufacturing record of three stability batches.	The firm has submitted copy of Trial batch manufacturing record. Details are as under: Batch no. — Batch Size — Mfg. date 20PD-3418-04-T — 2500 — 11-2020 20PD-3419-05-T — 2500 — 11-2020 20PD-3420-06-T — 2500 — 11-2020		
11	Record of comparative dissolution data (where applicable)	Firm has submitted Comparative dissolution study of their product with innovator product “TRADJENTA TABLET” The details are as follows: Feature — Reference Product — Product of PharmEvo Brand Name — TRADJENTA TABLET — LINA 5MG TABLET Batch No. — AB0294A — 20PD-3418-04-T Comparative dissolution studies have been performed in following mediums: 1. pH 1.2 HCl buffer		

		2. pH 4.5 Acetate buffer 3. pH 6.8 Phosphate buffer f2 factor not calculated since more than 85% dissolution achieved within 15 minutes in all time mediums.
12	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record including chromatograms, raw data sheets and COAs.
13	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted
Decision: Approved with innovator's specifications. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP . • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**		

Case no. 04 PIC/S approval priority as per 157th meeting of Authority.

Authority in its 157th meeting held on 20th January, 2022 decided as under:

"For pharmaceutical manufcaturers who acquire GMP certification from any PIC/S member country, the Authority as an incentive approved the out of queue consideration of registration of 05 molecules, on CTD per calendar year during the valididty of the PIC/S country's issues GMP certificate to boost the pharmaceutical exports."

Accordingly following applications are presented for consideration of Board:

63.	Name, address of Applicant / Marketing Authorization Holder	M/s Dynatis Pakistan (Pvt.) Ltd. Plot No. 710, Sunder Industrial Estate, Lahore
	Name, address of Manufacturing site.	M/s Dynatis Pakistan (Pvt.) Ltd. Plot No. 710, Sunder Industrial Estate, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 18751 dated 28/06/2022
	Details of fee submitted	PKR 30,000/-: dated 24/06/2022
	The proposed proprietary name / brand name	Gliflo-Met 12.5/500mg tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin…….12.5mg Metformin HCl……...500mg
	Pharmaceutical form of applied drug	Immediate release Film coated tablet
	Pharmacotherapeutic Group of (API)	Drugs used in diabetes (Combination of oral blood glucose lowering drugs)
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	As per SRO

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Synjardy (12.5/500mg, 12.5/1000mg, 5/1000mg, 5/500mg) tablet, USFDA Approved.
	For generic drugs (me-too status)	Empagen 12.5/500 tablet by M/s Ferozsons.
	GMP status of the Finished product manufacturer	Copy of GMP certificate No. 29/2021-DRAP(FID-2065251-174) issued on the basis of inspection conducted on 26/03/2021. Tablet General Sectin
	Name and address of API manufacturer.	Empagliflozin: M/s Anhui Haikang Pharmaceutical Co., Ltd., No. 21 Huancheng west road, Anqing city, Anhui Province, 246000 China Metformin HCl: M/s Shouguang Fukang Pharmaceutical Co., Ltd., North East of Dongwaihuan road, Dongcheng Industrial Area, Shouguang city, Shandong Province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its complete validation studies, batch analysis and justification of specification, details of reference standards container closure system and stability studies of drug substances.
	Stability studies	Empagliflozin: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (20160301, 20160302, 20160303) Metformin HCl: 48 months real time stability studies conducted at 30°C ± 2°C / 65% ± 5%RH of 03 batches. 06 months accelerated stability studies conducted at 40°C ± 2°C / 75% ± 5%RH of 03 batches Batches: A-71411106004, A-71411106005, A-71411106006
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Comparative dissolution profile is submitted against the reference product in all the three media that is

		0.1N HCl, Phosphate buffer and acetate buffer. Pharmaceutical Equivalence is established against the same product. Reference product: Synjardy 12.5/500mg tablet Bacth no.: C84684 Mfg by: Boehringer Ingelheim	
	Analytical method validation/verification of product	Method validation / verification studies have submitted including accuracy/recovery, precision, specificity etc for drug substance and drug product is submitted.	
STABILITY STUDY DATA			
Manufacturer of API		Empagliflozin: M/s Anhui Haikang Pharmaceutical Co., Ltd., No. 21 Huancheng west road, Anqing city, Anhui Province, 246000 China Metformin HCl: M/s Shouguang Fukang Pharmaceutical Co., Ltd., North East of Dongwaihuan road, Dongcheng Industrial Area, Shouguang city, Shandong Province, China.

Date of Initiation		30-10-2021	28-10-2021
No. of Batches		02	
Administrative Portion			
	Reference of previous approval of applications with stability study data of the firm (if any)	Strength of 5/500mg of the same formulation was approved in 322nd meeting.	
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Empagliflozin: Copy of drug manufacturing license no. 20190399 valid till 31/12/2025 is submitted. Metformin HCl: Copy of GMP certificate No. SD20190888 valid till 12/03/2024 is submitted by the applicant.	
	Documents for the procurement of API with approval from DRAP (in case of import).	Empagliflozin: Copy of attested invoice No. IND-19-0404, dy. No. 14544/2019DRAP dated 11-11-2019. Metformin HCl: Copy of attested invoice no. 419FK07Z057 dy. No. 11177/2019DRAP dated 22-08-2019.	
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted	

	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks oF Evaluator:

Sr. no.	Observations	Response
1	The official monograph of Metformin HCl (drug substance) is present in USP-43 wherein the HPLC method of analysis for assay of active has been described, whereas you have used titration method for the analysis. Therefore, a clarification is required for not performing the analysis by HPLC method or otherwise submit the said performance using HPLC method for analysis of Metformin drug substance.	The firm has stated that B.P monograph have been adopted for the said testing which is titration method by drug product manufacturer as well as by the drug substance manufacturer.
2	The test for specificity parameter of analytical method validation studies for drug product is performed by taking placebo solution while it should have been performed by spiking, please clarify.	We have done stressed studies using following conditions. Acid-Base Hydrolysis, oxidation and heat treatment If impurity or degradation product standards are not available, specificity testing may be demonstrated by comparing the test results of samples containing impurities or degradation products to a second well characterised procedure. This should include samples stored under relevant stress conditions that is light, heat, humidity, acid/base hydrolysis, oxidation (ICH Q1R2).
3	Provide the quantities (with rational) used for the preparation of 70%, 80%, 100%, 120% etc dilutions of sample solution for testing the accuracy/linearity parameters of validation studies for drug product.	

Empagliflozin (Linearity):

Concentration (%)	Concentration (ppm)
70	3.5
80	4
90	4.5
100	5
110	5.5
120	6
130	6.5

Metformin (Linearity):

Concentration (%)	Concentration (ppm)
70	700
80	800
90	900
100	1000
110	1100
120	1200
130	1300

Accuracy:

Concentration (%)	Concentration (mg) Empagliflozin	Concentration (mg) Metformin
80	4mg	800
100	5mg	1000
120	6mg	1200

*Each sample concentration was dissolved in 100mL of solvent.

4	Provide batch manufacturing record for the applied product.	Submitted.

Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

We have done stressed studies using following conditions. Acid-Base Hydrolysis, oxidation and heat treatment If impurity or degradation product standards are not available, specificity testing may be demonstrated by comparing the test results of samples containing impurities or degradation products to a second well characterised procedure. This should include samples stored under relevant stress conditions that is light, heat, humidity, acid/base hydrolysis, oxidation (ICH Q1R2).
3	Provide the quantities (with rational) used for the preparation of 70%, 80%, 100%, 120% etc dilutions of sample solution for testing the accuracy/linearity parameters of validation studies for drug product. Empagliflozin (Linearity): Concentration (%) — Concentration (ppm) 70 — 3.5 80 — 4 90 — 4.5 100 — 5 110 — 5.5 120 — 6 130 — 6.5 Metformin (Linearity): Concentration (%) — Concentration (ppm) 70 — 700 80 — 800	

	90 900 100 1000 110 1100 120 1200 130 1300 Accuracy: Concentration (%) Concentration (mg) Empagliflozin Concentration (mg) Metformin 80 4mg 800 100 5mg 1000 120 6mg 1200 *Each sample concentration was dissolved in 100mL of solvent.	
4	Provide batch manufacturing record for the applied product.	Submitted.

Decision: Approved. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in pharmacological group as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case no. 05 Registration Applications of Import drug products:
Priority applications as per 257th meeting of RB

66.	Name, address of Applicant / Importer	M/s The Schazoo Pharmaceutical Laboratories (Pvt.) Ltd. Kalalwala Stop, 20Km Lahore- Jaranwala Road, District Sheikhupura, Pakistan.
	Details of Drug Sale License of importer	License No: 05-354-0076-059245D Address: Kalalwala Stop, 20Km Lahore- Jaranwala Road, District Sheikhupura, Pakistan. Validity: 25-09-2022 Status: License to sell drugs as distributor Renewal: Firm has submitted a receipt of renewal but it does not contain any date
	Name and address of marketing authorization holder (abroad)	M/s BDR Pharmaceuticals International Pvt. Ltd R.S.No. 578, Near Effluent Channel Road, Village: Luna, Ta: Padra, Dist : Vadodara– 391 440, (India).
	Name, address of manufacturer(s)	M/s BDR Pharmaceuticals International Pvt. Ltd R.S.No. 578, Near Effluent Channel Road, Village: Luna, Ta: Padra, Dist : Vadodara– 391 440, (India).
	Name of exporting country	India
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	CoPP: Firm has submitted original, legalized CoPP certificate (No. 022105) valid till 07-11-2019 issued by Food & Drugs Control Administration, Gujarat, India. The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year.
	Details of letter of authorization / sole agency agreement	Firm has submitted letter of authorization certificate from M/s BDR Pharmaceuticals International Pvt. Ltd
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP)

		☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 17603 dated 16-06-2022
	Details of fee submitted	PKR 75,000/- dated 13-04-2022
	The proposed proprietary name / brand name	Arbit Tablets USP 500mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Tablet Contains: Abiraterone acetate …… 500mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Other hormone antagonists and related agents
	Reference to Finished product specifications	USP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	ZYTIGA 500 mg Janssen-Cilag International NV USFDA Approved.
	For generic drugs (me-too status)	--
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	BDR Life Sciences Private Limited R.S.NO.578, Near Effluent, Channel Road, Village Luna – 391 440, Ta.Padra, Dist. VADODARA, India
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40oC ±2oC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30oC ±2oC / 75% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of

		drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence studies against the innovator product of Zytiga tablet 250mg while CDP studies have bene performed in three dissolution mediums of pH 1.2, 4.5 & 6.8 against the Zytiga 500mg tablet.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product as per USP monograph.
	Container closure system of the drug product	HDPE Container
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40oC ±2oC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30oC ±2oC / 75% ± 5% RH for 36 months.

Remarks of Evaluator:

Section#	Observation
1.1	Fee for registration has been submitted from header of DML instead of DSL. Submit valid copy of DSL.
1.3	Submit original legalized valid COPP since the submitted COPP was expired at the time of submission of registration application. Submit evidence of approval for the required manufacturing facility "Tablet (steroid)" for the applied formulation.
3.2.P.2.2.1	Submit justification for performing Pharmaceutical equivalence studies against the Zytiga 250mg tablet while the applied strength is 500mg.

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Deferred cases:

67.	Name, address of Applicant / Marketing Authorization Holder	M/s Martin Dow Marker Limited, 7-Jail Road, Quetta	
	Name, address of Manufacturing site.	M/s Martin Dow Marker Limited, F-126, S. I. T. E., Karachi, Pakistan	
	Status of the applicant	☐Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)	
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)	
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales	
	Dy. No. and date of submission	Dy.No 25930 dated 17/09/2021	
	Details of fee submitted	PKR 50,000/-: PKR 25,000/-:	dated 04/05/2020 dated 30/06/2021
	The proposed proprietary name / brand name	ADVITA 20,000 IU CAPSULES	

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Soft gel Capsule contains: Cholecalciferol…...20,000 IU
	Pharmaceutical form of applied drug	Clear light-yellow oily liquid
	Pharmacotherapeutic Group of (API)	Vitamin D analogs
	Reference to Finished product specifications	USP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Fultium 20,0000 IU Capsule by M/s Internis Pharmaceuticals Limited, MHRA Approved.
	For generic drugs (me-too status)	
	GMP status of the Finished product manufacturer	Certificate No: F.14-1/DRAP/GMP/MDM-2022 issued on 03rd Feb 2022 Soft Gelatin Capsule (General) Dispensing, Mixing, Drying, Granulation, Compression, Coating, Blistering & Packaging.
	Name and address of API manufacturer.	M/s DSM Nutritional Product, France
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 25°C ± 2°C / 60% RH ± 5% RH for 24 months Accelerated: 30°C ± 2°C / 65% RH ± 5% RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure, verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that Fultium 20,0000 IU Capsule by M/s Internis Pharmaceuticals Limited. Since Vitamin D3 capsules are Fat soluble in nature so the dissolution in not recommended by any Pharmacopoeia & FDA dissolution guideline.

	Analytical method validation/verification of product	Method validation studies have submitted including linearity, range, accuracy, precision, specificity.		
STABILITY STUDY DATA				
Manufacturer of API		M/s DSM Nutritional Product, France

Date of Initiation		02-2022	02-2022	02-2022
No. of Batches		03		
Administrative Portion				
	Reference of previous approval of applications with stability study data of the firm (if any)	Acidex 60mg Capsule Dexlansoprazole was approved in 312th Registration Board meeting. Compliance Record of HPLC software 21CFR & audit trail reports on product testing were present		
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	GMP Certificate No 18MPP077HFR02 issued by EUDRA . Period of validity is extended to 26.09.2023 in case of cholecalciferol .		
	Documents for the procurement of API with approval from DRAP (in case of import).	M/s DSM Nutritional Product, France ADC Invoice No: 2831239200, 29-08-2019		
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of batches along with chromatograms, raw data sheets, COA and summary data sheets		
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted compliance record of HPLC software 21 CFR and copies of audit trail on testing of drug product.		
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.		
Remarks OF Evaluator:				
Decision of 320th meeting: Deferred for following points: Clarification of conditions of stability studies of drug substance and drug product. Justification why comparative dissolution profile studies are not performed against the innovator drug product.				
Firm's response: Cholecalciferol is sensitive & not stable when exposed to high temperature condtion so in the light of above condition stability performed at 25oC +2oC/60% RH +5%RH. SmPc of innovator product "Fultium-D3 20,000IU capsules" clearly instructed to store the product below 25oC.				

As Choleclaciferol is present in USP and its nature is fat soluble. Therefore, its dissolution is not recommended in any Pharmacopoeia as well as FDA dissolution guideline. While complete comparative analysis & Pharmaceutical equivalence with innovator has already been submitted with initial dossier.

Decision of 323rd meeting: Deferred for following:
Scientific justification for performing drug product stability studies on storage conditons different from that required by ICH/WHO guidelines for Zone IVA.
Submission of reference from pharmacopoeia/ innovator drug product literature regarding non-performance of dissolution test for applied formulation.

Firm's response:

S. No	Observation	Reply
1.	Scientific justification for performing drug product stability studies on storage conditions different from that required by ICH/WHO guidelines for Zone IVA.	Cholecalciferol (Vitamin D3) is a sensitive vitamin & not stable when exposed to high temperature conditions so in the light of above condition stability performed at 25°C ± 2°C / 60% RH ± 5% RH. Leaflet (enclosed) of innovator product "Fultium 20,000 IU Capsule" clearly instructed to store the product below 25°C.
2.	Submission of reference from pharmacopoeia/ innovator drug product literature regarding nonperformance of dissolution test for applied formulation.	Cholecalciferol (Vitamin D3) is present in USP pharmacopeia & its nature is fat soluble. Therefore, its dissolution is not recommended in any pharmacopeia as well as FDA dissolution guideline. USP Monograph of Cholecalciferol Capsule attached for reference. While complete comparative analysis and pharmaceutical equivalence with innovator has been done and already submitted with initial dossier.

Decision: Deferred for submission of following:

- **Justification of not performing stability studies as per Zone-IV A conditions since the MHRA Public Assessment Report of the innovator product i.e., Fultium –D3 20,000 IU capsule recommends storage condition as "Do no store above 30oC".**
- **Justification on the basis of analytical record and stability studies that at what time point the product is unstable when stored at Zone IVA conditions for stability studies.**

Item No. X: Agenda of Evaluator PEC-III (Dr. Muhammad Haseeb Tariq)
PICs Approval Priority as per 157th meeting of authority

68.	Name, address of Applicant / Marketing Authorization Holder	M/s Dynatis Pakistan (Pvt) Ltd Plot No. 710, Sundar Industrial Estate Lahore.
	Name, address of Manufacturing site.	M/s CCL Pharmaceuticals (Pvt) Ltd 62-Industrial Estate, Kot Lakhpat, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Firm has submitted copy of contract manufacturing agreement dated 14-11-2022
	GMP status of the firm	Firm has submitted copy of GMP certificate of M/s CCL Pharmaceuticals issued on the basis of inspection dated 30-04-2019. Firm has also submitted a copy of letter from Additional Director DRAP Lahore dated 07-07-2022 that the firm has applied for GMP inspection and the application is under process and will be done as per availability of FID. The firm's last GMP status if compliant / Good.

	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of Drug Manufacturing License (No. 000052) dated 08-06-2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 33639: 22-11-2022
	Details of fee submitted	PKR 75,000/-: 10-11-2022
	The proposed proprietary name / brand name	DAPAZIN MET XR 5mg/500mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Dapagliflozin propanediol monohydrate eq to Dapagliflozin…….5mg Metformin HCl……500mg
	Pharmaceutical form of applied drug	Film coated double layer tablet
	Pharmacotherapeutic Group of (API)	Combination of oral blood glucose lowering drugs
	Reference to Finished product specifications	As per innovator's product
	Proposed Pack size	5's, 10's, 14's, 20's, 28's, 30's, 50's and 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA Approved
	For generic drugs (me-too status)	Xiga-Met XR Tablet of CCL
	Name and address of API manufacturer.	Dapagliflozin: M/s Fuxin Long Rui Pharmaceutical Co., Ltd., Flouride Industrial park, Fuxin City, Liaoning province, China. Metformin HCl: M/s Wanbury Limited., Doctor's Organic Chemical Division K Illindalaparru 534217 Iragavaram Mandal West Godavari District Andhra Pradesh, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Dapagliflozin: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 24 months. Metformin HCl: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 72 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence against Innovator's product Xigduo Tablet XR 5/5000mg. Firm has submitted Comparative Dissolution Profile studies against Innovator's product Xigduo Tablet XR 5/5000mg.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their previous PSI inspection conducted for the product Dexlan DR Capsule 30 and 60mg conducted on 26-08-2019 which was considered by Registration Board in its 294th meeting. The Board approved the case and following things were noted in the inspection report: HPLC used in the stability studies of current products was gradient and not 21CFR 11 compliant. The audit trail was not active on the testing reports and log of data was available in the HPLCs. The data was also confirmed through record, chromatograms and logbooks.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Dapagliflozin: Firm has submitted copy of DML of the firm (No. Liao 20150233) issued by NMPA China. The certificate is valid till 17-11-2027. The certificate is verified from official database of NMPA China. Metformin HCl: Firm has submitted copy of License Retention Certificate (No. 2683/Stores/2018) of the firm issued by Drugs Control Administration Government of Andhra Pradesh dated 25-07-2018. The certificate is valid till 28-07-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Dapagliflozin: Firm has submitted copy of invoice cleared by DRAP Lahore office dated 15-11-2019 specifying import 8 Kg Dapagliflozin propanediol monohydrate (batch# DG-20190727-D02-DG06-03). Metformin HCl: Firm has submitted copy of invoice cleared by DRAP Lahore office dated 22-07-2019 specifying import of 12000 Kg Metformin HCl (Batch number MT10890619).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of stability testing of 3 batches.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted by the firm
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted by the firm

Evaluation by PEC:

The applied product to be manufactured by M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore have already been approved by Registration Board (as a stability / exemption data case) in its 308th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product in 308th meeting are as follows:

Applicant firm	M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore
Manufacturer firm	M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore

	Brand Name	Xiga-Met 5/500 XR Tablet
	Registration Board meeting	308th meeting of Registration Board

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

69.	Name, address of Applicant / Marketing Authorization Holder	M/s Dynatis Pakistan (Pvt) Ltd Plot No. 710, Sundar Industrial Estate Lahore.
	Name, address of Manufacturing site.	M/s CCL Pharmaceuticals (Pvt) Ltd 62-Industrial Estate, Kot Lakhpat, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Firm has submitted copy of contract manufacturing agreement dated 14-11-2022
	GMP status of the firm	Firm has submitted copy of GMP certificate of M/s CCL Pharmaceuticals issued on the basis of inspection dated 30-04-2019. Firm has also submitted a copy of letter from Additional Director DRAP Lahore dated 07-07-2022 that the firm has applied for GMP inspection and the application is under process and will be done as per availability of FID. The firm's last GMP status if compliant / Good.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of Drug Manufacturing License (No. 000052) dated 08-06-2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 33640: 22-11-2022
	Details of fee submitted	PKR 75,000/-: 10-11-2022
	The proposed proprietary name / brand name	DAPAZIN MET XR 5mg/1000mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Dapagliflozin propanediol monohydrate eq to Dapagliflozin…….5mg Metformin HCl……1000mg
	Pharmaceutical form of applied drug	Film coated double layer tablet
	Pharmacotherapeutic Group of (API)	Combination of oral blood glucose lowering drugs

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their previous PSI inspection conducted for the product Dexlan DR Capsule 30 and 60mg conducted on 26-08-2019 which was considered by Registration Board in its 294th meeting. The Board approved the case and following things were noted in the inspection report: HPLC used in the stability studies of current products was gradient and not 21CFR 11 compliant. The audit trail was not active on the testing reports and log of data was available in the HPLCs. The data was also confirmed through record, chromatograms and logbooks.		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Dapagliflozin: Firm has submitted copy of DML of the firm (No. Liao 20150233) issued by NMPA China. The certificate is valid till 17-11-2027. The certificate is verified from official database of NMPA China. Metformin HCl: Firm has submitted copy of License Retention Certificate (No. 2683/Stores/2018) of the firm issued by Drugs Control Administration Government of Andhra Pradesh dated 25-07-2018. The certificate is valid till 28-07-2023.		

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Dapagliflozin: Firm has submitted copy of invoice cleared by DRAP Lahore office dated 15-11-2019 specifying import 8 Kg Dapagliflozin propanediol monohydrate (batch# DG-20190727-D02-DG06-03). Metformin HCl: Firm has submitted copy of invoice cleared by DRAP Lahore office dated 22-07-2019 specifying import of 12000 Kg Metformin HCl (Batch number MT10890619).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of stability testing of 3 batches.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted by the firm
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted by the firm

Evaluation by PEC:

The applied product to be manufactured by M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore have already been approved by Registration Board (as a stability / exemption data case) in its 308th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product in 308th meeting are as follows:

Applicant firm	M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore
Manufacturer firm	M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate, Kot Lakhpat, Lahore
Brand Name	Xiga-Met 5/1000 XR Tablet
Registration Board meeting	308th meeting of Registration Board

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

70.	Name, address of Applicant / Marketing Authorization Holder	M/s Dynatis Pakistan (Pvt) Ltd Plot No. 710, Sundar Industrial Estate Lahore.
	Name, address of Manufacturing site.	M/s CCL Pharmaceuticals (Pvt) Ltd 62-Industrial Estate, Kot Lakhpat, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Firm has submitted copy of contract manufacturing agreement dated 14-11-2022
	GMP status of the firm	Firm has submitted copy of GMP certificate of M/s CCL Pharmaceuticals issued on the basis of inspection dated 30-04-2019. Firm has also submitted a copy of letter from Additional Director DRAP Lahore dated 07-07-2022 that the firm has applied for GMP inspection and the application is under process

		and will be done as per availability of FID. The firm's last GMP status if compliant / Good.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of Drug Manufacturing License (No. 000052) dated 08-06-2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 33641: 22-11-2022
	Details of fee submitted	PKR 75,000/-: 10-11-2022
	The proposed proprietary name / brand name	DAPAZIN MET XR 10mg/1000mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Dapagliflozin propanediol monohydrate eq to Dapagliflozin…….10mg Metformin HCl……1000mg
	Pharmaceutical form of applied drug	Film coated double layer tablet
	Pharmacotherapeutic Group of (API)	Combination of oral blood glucose lowering drugs
	Reference to Finished product specifications	As per innovator's product
	Proposed Pack size	5's, 10's, 14's, 20's, 28's, 30's, 50's and 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA Approved
	For generic drugs (me-too status)	Xiga-Met XR Tablet of CCL
	Name and address of API manufacturer.	Dapagliflozin: M/s Fuxin Long Rui Pharmaceutical Co., Ltd., Flouride Industrial park, Fuxin City, Liaoning province, China. Metformin HCl: M/s Wanbury Limited., Doctor's Organic Chemical Division K Illindalaparru 534217 Iragavaram Mandal West Godavari District Andhra Pradesh, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container

		closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Dapagliflozin: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 24 months. Metformin HCl: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40oC ± 2oC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30oC ± 2oC / 65% ± 5% RH for 72 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence against Innovator's product Xigduo Tablet XR 5/5000mg. Firm has submitted Comparative Dissolution Profile studies against Innovator's product Xigduo Tablet XR 5/5000mg.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to previous inspection for their product Brofex IV Infusion for which PSI was conducted on 13-02-2020 and the report was presented in 295th meeting of RB. The reports confirms that the HPLc system was 21 CFR compliant and audit trail report was available.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Agency for medicinal products and medical devices of Croatia dated 23-08-2019 issued on the basis of inspection dated 10-05-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of stability testing of 3 batches.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted by the firm
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted by the firm

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Submit data in section 3.2.S.4.1 and 3.2.S.4.2 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copies of the Drug substance specifications and analytical procedures by both Drug substance & Drug Product manufacturer.
2.	Submit data of verification of analytical procedure of drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that "Analytical	Firm has submitted data of verification of analytical procedure of drug substance by drug product manufacturer.

	Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".	
3.	Submit COA of relevant batch of drug substance from API manufacturer as well as drug product manufacturer in section 3.2.S.4.4 which is actually used for manufacturing of three stability batches of drug product.	Firm has submitted COA of relevant batch of API
4.	Submit stability study data of the drug substance as per zone IV-A conditions.	Firm has submitted stability study data of drug substance as per zone IV-B conditions for 24 months.
5.	Provide details including the batch number, expiry date and manufacturer of the innovator's product against which pharmaceutical equivalence is conducted.	Firm has submitted picture of the vial of the innovator's product depicting details of lot number and expiry date.
6.	The applied brand name is Suga injection while the stability data of sudex injection is submitted. Clarification is required in this regard.	This is for your information that during the development stage of Sugammadex Injection 100mg/ml, the proposed brand name was previously selected as "Sudex Injection", hence few documents are with the name as "Sudex Injection (Sugammadex sodium eq. to sugammadex I00mg/ml)". However, due to resemblance of the name we have changed the proposed name of our product fom Sudex Injection in our submitted documents as "Suga Injection (Sugammadex sodium eq. to sugammadex l00mg/ml)".

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Cases of New DML

Case No. 04: M/s Lakhani Pharma Private Limited, Sheikh Zayed Road, Rahim Yar Khan

Firm has submitted copy of issuance of DML by way of formulation to M/s Lakhani Pharma Private Limited dated 07-06-2021 from Secretary Central Licensing Board. The letter specifies that CLB in its 279th meeting held on 18th February 2021 has approved the grant of DML in the name of M/s Lakhani Pharma Private Limited for following section:

1. IV Infusion section (General)

Now the firm has submitted following applications as per the details mentioned in the table below:

	Previously considered		Freshly applied		Total	
Name of Section	No of molecules	No of products	No of molecules	No of products	No of molecules	No of products
IV Infusion section (General)	09	27	01	01	10	28

IV Infusion section (General): 04 Molecules / 5 Products

72.	Name, address of Applicant / Marketing Authorization Holder	M/s Lakhani Pharma Private Limited Sheikh Zayed Road, Rahim Yar Khan
	Name, address of Manufacturing site.	M/s Lakhani Pharma Private Limited Sheikh Zayed Road, Rahim Yar Khan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	New license granted on 16/03/2021 (Inspection date 03/02/2021) IV Infusion section approved.
	Evidence of approval of manufacturing facility	Firm has submitted copy of issuance of DML by way of formulation to M/s Lakhani Pharma Private Limited dated 07-06-2021 from Secretary Central Licensing Board. The letter specifies that CLB in its 279th meeting held on 18th February 2021 has approved the grant of DML in the name of M/s Lakhani Pharma Private Limited for following section: 1. IV Infusion section (General)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 32156: 24-11-2021

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. ZJ20190157) issued by NMPA China. The certificate is issued on 30-11-2019. The certificate is valid till 29-11-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

The case was evaluated and the following observations were communicated to the firm vide letter dated 9th December, 2021.

Justify the manufacturing of batches before the issuance of Drug Manufacturing License.

Your label claim states that ciprofloxacin base is used while you have used ciprofloxacin lactate, revise your label claim along with submission of applicable fee.

You have submitted information regarding ciprofloxacin base in module 3 while the COA of API manufacturer states that the material is ciprofloxacin lactate.

Provide specifications and analytical method of drug substance manufacturer in section 3.2.S.4.1 and 3.2.S.4.2.

As per the COA of API submitted from API manufacturer, the material is not sterile and the test for bacterial endotoxin and sterility is also not performed. Justify how you have performed both of these tests.

Justify how the specification of USP have been applied for testing of drug substance while the API manufacturer has claimed in house specs. Furthermore, USP monograph is for ciprofloxacin base while the material is ciprofloxacin lactate.

As per the USP monograph the detector is UV 278nm with injection volume 10µL while as per your testing the analysis has been performed at UV 262nm with injection volume 5µL.

The innovator product as well as USP monograph specify that ciprofloxacin or ciprofloxacin hydrochloride could be used as starting material for the drug product and it should be prepared with the aid of lactic acid. Justify how you have prepared the formulation using ciprofloxacin lactate as starting material. The developed formulation does not fall in the definition of the generic drug.

Justify the pharmaceutical equivalence studies in which pH acceptance criteria is 4 to 5 while as per USP the pH should be 3.5 - 4.6. Justify how the results of pH above 4.6 in your pharmaceutical equivalence studies could be justified.

Justify the test of sodium chloride in your pharmaceutical equivalence studies since this test is only recommended when the injection is prepared in sodium chloride injection.

Justify why the test for lactic acid content is not performed in pharmaceutical equivalence studies.

Justify why the specifications applied in batch release are different from that mentioned in section 3.2.P.5.2.

Justify why the test of lactic acid content is not performed at batch release.

Provide CoA of reference standard / working standard used in the analysis of drug product and substance.
Describe the container closure system for applied product in detail, what is the exact material of construction, grade and density of the LDPE material along with its certificate of analysis. Also specify if the applied product is with Eurocap or not.
Submit evidence for the procurement of drug substances / API with approval from DRAP.
Submit raw data sheets including HPLC chromatograms for evidence of the product testing as per USP monograph.
Provide compliance Record of HPLC software including 21CFR & audit trail reports on product testing.
Provide record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)
The stability batches were released after sterility testing on 27-02-2021 while all the batches were manufactured on the same day as well. Justify how the batches were released and stability study was initiated before the result of sterility test.

The firm vide its letter Dy No. 32999 dated 17-11-2022 requests for inclusion of Lakadol 1g/100ml IV Infusion and withdrawl of Laksol-Cipro 200mg/100ml IV Infusion. The request of the firm is placed as under:

Sub: Inclusion (Lakadol 1g/100ml I.V. Infusion) and Withdrawal (Laksol-Cipro 200mg/100ml I.V. Infusion) Of Application (For Local Manufacturing).

Respected Sir/Madam,

We Lakhani Pharma (Pvt.) Limited, having our Registered Manufacturing Facility & Head office at Sheikh Zayed Road, Rahim Yar Khan, would like to grab your kind attention towards our already submitted application for Registration of following drug mentioned-below (For Local Manufacturing) on the basis of 10-Molecules per New Section Policy.

Product Name: Laksol-Cipro 200mg/100ml I.V. Infusion
Composition: Ciprofloxacin 200mg/100ml.
Pack Size: 100ml
Date of submission of application: 01-04-2021

Note: Copy of receiving is being enclosed for ready reference.
Sir, due to certain reason, we do request for withdrawal of submitted Application (Laksol- Cipro 200mg/100ml I.V. Infusion) out of 10-Molecules per New Section Policy.
Instead: We request you to kindly consider our submitted application for registration (Lakadol 1g/100ml I.V. Infusion) under 10-molecule Policy in place of above-mentioned application. Details are given below:
Product Name: Lakadol 1g/100ml I.V. Infusion
Composition: Paracetamol 1g/100ml
Pack Size: 100ml
Date of submission of application: 04-11-2022

The evaluation summary of the Lakadol 1g/100ml Infusion is placed below:

Name, address of Applicant / Marketing Authorization Holder	M/s Lakhani Pharma Private Limited Sheikh Zayed Road, Rahim Yar Khan
Name, address of Manufacturing site.	M/s Lakhani Pharma Private Limited Sheikh Zayed Road, Rahim Yar Khan
Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
GMP status of the firm	New license granted on 16/03/2021 (Inspection date 03/02/2021) IV Infusion section approved.

Evidence of approval of manufacturing facility	Firm has submitted copy of issuance of DML by way of formulation to M/s Lakhani Pharma Private Limited dated 07-06-2021 from Secretary Central Licensing Board. The letter specifies that CLB in its 279th meeting held on 18th February 2021 has approved the grant of DML in the name of M/s Lakhani Pharma Private Limited for following section: 1. IV Infusion section (General)
Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
Dy. No. and date of submission	Dy. No. 31971: 04-11-2022
Details of fee submitted	PKR 30,000/-: 27-10-2022
The proposed proprietary name / brand name	LAKADOL 1g/100ml IV Infusion
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml contains: Paracetamol…… 1g
Pharmaceutical form of applied drug	Sterile, Clear, Colorless or Slightly Yellowish, Non-Pyrogenic, Isotonic Solution, Practically Free from Particles Solution, in Low Density Polyethylene bottle.
Pharmacotherapeutic Group of (API)	Antipyretic / Analgesic
Reference to Finished product specifications	Manufacturer's Specs
Proposed Pack size	100ml
Proposed unit price	As per SRO
The status in reference regulatory authorities	USFDA Approved
For generic drugs (me-too status)	Provas 1g/100ml IV Infusion by Sami Pharma
Name and address of API manufacturer.	M/s Zenith Chemical Industries (Pvt.) Ltd. Moaza Dhonday, Jia Bagga, Raiwind Road, Lahore – Pakistan.
Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the comparator product Provas infusion by Sami Pharma.
Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

STABILITY STUDY DATA			
Manufacturer of API	M/s Zenith Chemical Industries (Pvt.) Ltd. Moaza Dhonday, Jia Bagga, Raiwind Road, Lahore – Pakistan.		
API Lot No.	ZPAR21-258		
Description of Pack (Container closure system)	Low Density Polyethylene bag		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 4, 5, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	P-001	P-002	P-003
Batch Size	500 bottles	500 bottles	500 bottles
Manufacturing Date	04-2022	04-2022	04-2022
Date of Initiation	08-04-2022	11-04-2022	15-04-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 06-12-2018. Firm has also submitted copy of DML of the firm for semi basic manufacturing (DML No. 000733) issued w.e.f. 15-06-2016 dated 07-05-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice dated 23-12-2021 specifying 25kg Paracetamol.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.
Evaluation by PEC:		
Firm has performed sterilization of the bottlepack product during manufacturing. Firm has also performed water loss testing of the drug product during stability studies which are performed as per zone IV-A conditions.		
Decision: Registration Board decided as follows: **Acceded to the firm's request of withdrawal and declared the application of LAKSOL-CIPRO IV Injection, submitted vide Dy. No. 32156 dated 24-11-2021 as disposed off.** **Approved LAKADOL 1g/100ml IV Infusion with Innovator's specifications. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.** • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		

Item No. XI: Agenda of Evaluator XVI (Mr. Akbar Ali)
Priority applications as per 257th meeting of RB

73.	Name, address of Applicant / Importer	M/s BF Biosciences Ltd 5-KM Sunder Raiwind Road, Raiwind, District Lahore – Pakistan, Pakistan
	Details of Drug Sale License of importer	License No:05-352-0066-034461D Address: 5-KM Sunder Raiwind Road, Raiwind, District Lahore – Pakistan. Address of Godown: NA Validity: 29-06-2027. Status: License to sell drugs as distributor Renewal: NA
	Name and address of marketing authorization holder (abroad)	Bioprofarma Bagó S.A. Terrada 1270 - Autonomous City of Buenos Aires, Argentine Republic.
	Name, address of manufacturer(s)	Laboratorio Kemex S.A. Nazarre 3446/54 - Autonomous City of Buenos Aires, Argentine Republic.
	Name of exporting country	Argentine Republic
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	CoPP: Firm has submitted original, legalized copy of CoPP certificate (No. IF-2022-09064835-APN-DFYGR#ANMAT) dated 04-01-2022 issued by National Institute of Drugs Avenida Caseros 2161 Ciudad Autonoma de Buenos Aires-Republica Argentina for Fulvestrant injection 250mg. The CoPP confirms free sale status of the product in exporting country as well as GMP status of the

		manufacturing site through periodic inspection every year.
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of distribution certificate from Bioprofarma Bagó S.A. The letter species that the manufacturer appoints M/s BF Biosciences Ltd. to register their products in Pakistan. The authorization letter is valid till 31-01-2023.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy.31009 dated No 01-11-2022
	Details of fee submitted	PKR 75,000/-:slip No. 04893286804 dated 25-04-2022
	The proposed proprietary name / brand name	DIMERE injection 250mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5 ml vial contains: Fulvestrant …….250mg
	Pharmaceutical form of applied drug	Solution for Injection
	Pharmacotherapeutic Group of (API)	oestrogen receptor antagonists (L02BA03)
	Reference to Finished product specifications	In house
	Proposed Pack size	2’s
	Proposed unit price	Rs 45,000 /- single dose vial
	The status in reference regulatory authorities	FASLODEX 250mg Injection (AstraZeneca UK Limited). (Pre Filled Syringe of 5 ml)
	For generic drugs (me-too status)	NA
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification,

		reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Farmabios S.p.A. Via Pavia, 1 27027 Gropello Cairoli, (PV) – Italy
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 5oC ± 3oC. The stability study data is till 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	USP type-I glass
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 25 °C ± 2ºC/ 60% ± 5% RH for 6 months. The real time stability study data is conducted at 5 °C ± 3ºC. The real time stability study data of 3 batches is for 24 months

Evaluation by PEC:

Sr. No	Observations
01	DSL of Importer /applicant is expired till 29-06-2022.
02	Provided copy of GMP certificate of API/Drug substance manufacturer, I-e M/s Farmabiosa S.P.A Italy, issued by AIFA, Italy vide certificate No. IT-API/167/H/2020 based on inspection conducted on 20-09-2019 was valid for 30 months, which has been expired.
03	Justification of applied container closer system of finished drug product as glass vial whereas the innovator product Faslodox is prefilled syringe.
04	Justification of overage of 0.4 ml excess filling in vial during filling process in line with innovator product which is prefilled syringe.

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.within six months		
74.	Name, address of Applicant / Importer	M/s Martin Dow Limited, Plot No. 37, Sector 19, Korangi Industrial Area, Karachi-74900, Pakistan.

Composition of Panel:

Mr. Muneeb Ahmed Cheema, Deputy Director PE&R, DRAP Islamabad.

Mr. Adil Saeed, Assistant Director PEC-IX, DRAP Islamabad.

Scope of Inspection:

The inspection was conducted for assessment and confirmation of manufacturing capacity of Dry Powder Injection (Carbapenem) Section of M/s Ipram International Plot No. 26, S.S. 3 national Industrial Zone Rawat.

Manufacturing record/data of 1 year (1st July, 2021 to 30th June, 2022) was evaluated for aforementioned purpose. The details of capacity calculations are as under:

Registered Products	
Total registered products of manufacturer	5
Registered products on contract from the manufacturer	0

CAPACITY OF DRY VIAL INJECTION (CARBAPENEM) SECTION.

Manufacturer's total Registrations	Manufacturer's Pending applications	Contract Products Registrations	Contract products Pending applications
5	Nil	Nil	2

G.

STEP WISE CAPACITY OF EACH PROCESS				
	Process/Step 1: Vial Washing -	Process/step 2: Depyrogenation Capacity-	Process / step 3: Filling and Sealing Capacity –	Process/ Step 4: Packing Capacity –
Per day (8 hours working shift)	24,000	18,200	57,600	24,000
Per month (26 working days)	624,000	473,000	1,497,600	624,000

Capacity calculated with respect to the depyrogenation being capacity limiting step

QUARTER WISE CAPACITY UTILIZED			
Quarter	Actual Production	Capacity w.r.t capacity limiting step	Capacity utilized in %
1st (1st July – 30th Sept 21)	35,200	1,310,400	2.68%
2nd (1st Oct – 31st Dec 21)	72,770	1,310,400	5.55%
3rd (1st Jan – 31st March 22)	137,995	1,310,400	10.53%
4th (1st Apr – 30th June 22)	29,905	1,310,400	2.28%
Average Capacity Utilized			

Manufacturing Capacity Utilized (average): 5.26%

Manufacturing Capacity Available (average): 94.74%

CAPACITY OF QUALITY CONTROL DEPARTMENT

Quality Control Equipment Details			
S.No	Equipment	Quantity	Capacity per day
	HPLC	1	02
	UV Spectrophotometer	1	15
	pH Meter	1	25
	Balance	1	30
	Cold Incubator	1	200L
	Hot Incubator	1	200L

	Liquid Particle Counter (LPC)	1	40
	Stability Chamber (Accelerated)	1	400L
	Stability Chamber (Real time)	1	400L

1. HPLC Capacity Calculation Quarter Wise(Maximum 2 tests/day/HPLC)TOTAL No of HPLC= 1

QUARTER	Average Capacity of HPLC	Performed	Capacity Utilized %	Capacity Available %
1st (1st July – 30th Sept 21)	132	63	47%	53%
2nd (1st Oct – 31st Dec 21)	132	65	49%	51%
3rd (1st Jan – 31st March 22)	132	109	82%	18%
4th (1st Apr – 30th June 22)	132	81	61%	39%
Average capacity Available:				40.25%

2. Capacity Calculation for sterility testing Quarter Wise (Average 2 tests/day)

Quarter	Capacity	Test Performed	Capacity Utilized %	Capacity Available %
1st (1st July – 30th Sept 21)	156	70	49%	69%
2nd (1st Oct – 31st Dec 21)	156	85	54%	64%
3rd (1st Jan – 31st March 22)	156	120	78%	68%
4th (1st Apr – 30th June 22)	156	95	61%	66%
Average capacity available:				66.75%

3. Bacterial Endotoxin Test Capacity Calculation Quarter Wise (Average 50 tests / day)

Quarter	Capacity	Test Performed	Capacity Utilized %	Capacity Available %
1st (1st July – 30th Sept 21)	1500	468	31%	69%
2nd (1st Oct – 31st Dec 21)	1500	540	36%	64%
3rd (1st Jan – 31st March 22)	1500	480	32%	68%
4th (1st Apr – 30th June 22)	1500	515	34%	66%
Average capacity available:				66.75%

4. HOT INCUBATOR CAPACITY AND USAGE.

Item	Media capacity at a time for incubation	Estimated Media capacity REQUIRED at Maximum production load	Estimated Capacity required (%)	Estimated Capacity Available for expansion(%)
Media bottles	40	80	200%	-100%
Media plates	60	360	600%	-500%
Pre-Incubated				

5. COLD INCUBATOR CAPACITY AND USAGE.

Item	Media capacity at a time for incubation	Estimated Media capacity used at Maximum production load	Estimated Capacity required (%)	Estimated Capacity Available for expansion(%)
Media bottles	40	80	200%	-100%
Media plates	60	360	600%	-500%

Mr. Anees ur Rahman, Production Manager and Mr. Rashid ullah Khan QC Manager assisted during inspection. The carbapenem manufacturing facility was not dedicated, it was segregated section which shared common corridor with cephalosporin and steroidal section before the change rooms. The brief of inspection is given below;

Primary Change room: The primary change room was leading to corridor which had secondary change room before filling area. The primary change room was not provided with requisite pressure differential to contain the internal environment. The material entry towards RMS was also through this change room.

Raw Material Store: At the time of inspection, 55kg meropenem with sodium carbonate was present in RMS. The RMS was extremely congested (approximately 6x6 feet in size), even 2 persons cannot stand properly in the RMS. The material transfer to filling area was through UV hatch. The store in-charge was a non-technical person having degree in Mass Communication.

Production Area: The production line was semi-automatic. Vials were washed and then transferred to hot air oven. After depyrogenation and sterilization, vials were claimed to be transferred to filling line by placing them in a HEPA fitted trolley. The space was so congested, that door of cool room could

not be closed when HEPA trolley was brought in filling room. It appeared impossible to power the HEPA trolley to switch it on while shifting it from cooling area to filling line. The space for filling machine was also very constrained, hopper was very close to top of the LFH, making it difficult to fill it directly from the canisters. After filling, vials were sealed and collected for optical checking before packaging. The packaging was manual. The pressure differential gauge of the filling area was not deflecting when door between cooling area and filling area was opened or closed, indicating issues with pressure differentials of the filling area.

Finished Goods Store: The Finished Goods(FGS) Store had few cartons of finished products.

Production Practices:

The manufacturing practices were evaluated by reviewing multiple log books and material ledgers. The firm was not performing sterility testing on API and the technical team stated that as they are checking sterility of finished product so there is no need of sterility testing of API.

The log books showed that batch size varied greatly and firm did not have any uniform batch size and they are manufacturing the products as per demand from market. The batches varied from 22000 vials (Cilipenem 1g batch 22CP-037) to 4447 vials (Cilipenem 1g batch No. 22CP-041).

It was further observed that firm was manufacturing different strengths of same products in one go increasing chances of mix up of multiple strengths. For such different batches, single 10kg canister was being dispensed that was divided based on size of demanded batch (Cilipenem 500mg Batch No. 22CP-040 & Cilipenem 1g Batch No. 22CP-041 was manufactured from single canister of 10kg. 4kg was used in batch No. 22CP-040 and 6kg was used in batch No. 22CP-041).

The firm was manufacturing own water for injection Ampoules but product was being marketed without WFI (diluent).

It was also observed that same product Cilipenem 1g and 500mg had different registration numbers on different unit cartons of finished products. (on some registration number was 047724 and on some it was 082371). The API clearance was obtained on new registration number (082371) and BMRs and majority of packing material had old registration numbers having unclear registration status. The firm failed to give any justification of aforesaid practice. The firm was also asked to provide the registration status of products bearing registration No. 047724 & 082370, the firm informed that the application was submitted to the DRAP for regularization of registration under SRO.1005(I)/2017 for regularization of registration due to non-submission of renewal. But the firm failed to provide any evidence regarding regularization of their old registration of Cilipenem 500mg & 1g issued by DRAP.

Quality Control:

Main Quality Control Lab: The quality control lab had following major equipments;

HPLC
UV/Vis Spectrophotometer
Liquid Particle counter.
pH Meter
Analytical balance
Moisture balance

The firm did not had following equipment;

FTIR
Karlfisher titrator.

The Atomic Absorption spectrophotometer placed in QC lab was not functional. It was a very old model refurbished with Chinese parts not compatible with original instrument. Further only Iron, Cadmium, lead, and chromium lamps were available. The instrument was not repairable. TOC analyser was also out of order. There were no primary or secondary reference standards available.

The firm was releasing Carbapenem products on UV analysis rather than HPLC method as recommended by USP Pharmacopoeia, for instance batch No. 22CP-039 was released without testing on HPLC.

Microbiology Lab: The firm had hired a fresh graduate as microbiologist who had no experience of testing. A pharmacist with experience of 6 months was performing all activities of microbiology laboratory. Technically firm did not had a proper Microbiologist at time of inspection. The firm has 3 sterile sections currently in working (Ceph dry powder vial, liquid ampoule & carbapenem dry vial) and have established 3 more sections (dry powder steroids, Liquid ampoule steroids & liquid vial General) awaiting inspection from licensing division, the microbiology lab is not sufficient to even carry out complete testing for area monitoring and finished product sterility of current running sections.

The portable air particle counter was out of order. Beta lactamases and cephalosporinases were out of inventory.

CONCLUSION:

After inspecting the manufacturing, testing and storage facility of the firm M/s Ipram International Plot No. 26, SS, National Industrial Zone, Rawat of Carbapenem Dry Powder Injection, the panel is of the opinion that firm needs to address following points before contract manufacturing;

Dedication of Carbapenem facility (currently its segregated from ceph and steroid facility).

Improvement of practices in manufacturing like fixation of batch size based on validation studies and proper line clearance before manufacturing different strengths at same time.

Increase in storage space of RMS.

Increase in space of filling area to mitigate congestion & provision of sufficient space for operators, transfer of material to hopper, proper air circulation over the filling line and for placement of HEPA trolley.

Upgradation of QC lab including;

Purchase of 2 or more CFR21 compliant HPLC systems to fully test all APIs and finished products as per pharmacopoeial methods.

Provision of functional atomic absorption spectrophotometer & TOC.

Provision of FTIR for identity testing of raw materials.

Provision of Karlfisher titrator.

Upgradation of Microbiology Lab including;

Appointment of a full time microbiologist having prescribed qualification and experience.

Enhancement in capacity of hot and cold incubators to perform microbiological testing of products and area monitoring of all sterile areas.

Purchase of beta-lactamases and cephalosporinases for sterility testing of beta-lactam antibiotics.

Functionalization of portable air particle counter.

As the firm holds two registrations for same products Cilipenem 500mg (047725 & 082371) and Cilipenem 1gm (047724 & 082370), hence the firm shall be advised to approach relevant section for resolution of this issue.

Although the mandate of panel was capacity verification of Carbapenem section, during inspection water system of the firm was also observed as firm was also manufacturing WFI ampoules. The capacity of present water system was not sufficient to meet the requirements of the firm. The heating element of bulk WFI tank was not functional. The firm had a new larger vessel ready to be installed but it was not sealed and its lid was just placed over the tank exposing it to external environment. There was no agitator in the tank neither spray ball. The firm needs to purchase a GMP compliant bulk WFI manufacturing system.

Production and QC capacity utilized and available is summarized as follow:

Section name	Manufacturer total Registrations	Pending application for registration	Contract Products Registrations	Contract products Pending applications	Manufacturing Capacity Utilized (average)	Manufacturing Capacity Available (average)
Dry powder for injection (carbapenem)	5	Nil	Nil	2	5.25%	94.75%

QC Department:

1. HPLC Average Capacity Available:

Could not be verified as the firm is not using HPLC for testing of all products.

2. STERILITY TESTING Average Capacity Available:

It could not be verified as does not have sufficient space to incubate exposed plates of all the sterile manufacturing sections.

Submitted for consideration of the Board.

Decision: Registration Board on basis of the findings of above presented inspection report decided to defer the registratiobn applications of contract manufacturing from M/s Ipram International, Plot no. 26, s.s. 3, National Industrial Zone, Rawat till any further decision. Moreover, Registration Board decided to refer the above inspection report to QA&LT Division for further necessary action.

Item No. XII: Priority as Per 147th meeting of Authority for distribution of 15,000 Packs of Paracetamol (200's) in the market.

Authority in its 157th meetig held on 20th of January, 2023 while considering the agenda of "Consideration of one molecule out of queue on immediate production and sale of 15,000 packs (200's) of Paracetamol" decided as under:

"The Authority clarified that in light of ots decision taken in 147th meeting, only those manufcaturers are entitled for out of queue consideration of one molecule who have fulfilled the condition of manufacturing and sale of 15000 packs (200 tablets per pack) of Paracetamol tablets before 3rd November, 2022."

Jinnah Pharma has requested for the priority consideration of the following application against the submitted details of production and distribution of more than 15,000 packs (200's) of Jetemol 500mg tablet (Paraectamol) distriubuted from 29-09-2022 to 27-10-2022.

76.	Name, address of Applicant / Marketing Authorization Holder	M/s Jinnah Pharmaceuticals Pvt Ltd. 13 km, Lahore Road, Multan
	Name, address of Manufacturing site.	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 37578 dated 23-12-2022
	Details of fee submitted	PKR 30,000/-
	The proposed proprietary name / brand name	Tycal-D 5mg Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 1ml ampoule contains: Cholecalciferol …….5mg
	Pharmaceutical form of applied drug	Liquid Injecatble
	Pharmacotherapeutic Group of (API)	Vitamin D
	Reference to Finished product specifications	Innovator
	Proposed Pack size	1ml×1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Vitamin D3 Good 200000 IU/ml (5mg/ml) by M/s Bouchara-Recordati, ANSM France Approved.
	For generic drugs (me-too status)	Indrop-D 5mg/ml by M/s Neutro Pharma (Pvt) Ltd. Reg. No. 023170
	GMP status of the Finished product manufacturer	New Section for liquid ampoule (SVP) General was granted after inspection vide letter No.F. 1-19/2014-Lic (Vol-1) Dated: 18/12/2020

Remarks of Evaluator:

Dissolution testing performed by finished product manufacturer on DDR pellets were as follows:

Dissolution parameters	Specification
Acid stage (Stage I)	
Apparatus	USP I
Medium	0.1N HCl
Volume	500ml
RPM	100
Sample interval	120 minutes
Analysis technique	UV
Limit	NMT 10%
Buffer stage (Stage II)	
Apparatus	USP I
Medium	pH 5.5
Volume	900ml
RPM	100
Sample interval	60 minutes
Analysis technique	UV
Limit	NMT 15-40%
Buffer stage (Stage II)	
Apparatus	USP I
Medium	pH 7.0
Volume	900ml
RPM	100
Sample interval	120 minutes
Analysis technique	UV
Limit	NLT 75%

Dissolution parameters of innovator product (Dexilant) are as follows:

Media	Acid Stage: 0.1 N HCl Buffer Stage 1: pH 6.0 Phosphate buffer with 5mM Sodium Lauryl Sulfate Buffer Stage 2: pH 7.4 Phosphate buffer with 5mM Sodium Lauryl Sulfate
Volume	Acid Stage: 500 mL Buffer Stage 1: 700 mL Buffer Stage 2: 900 mL
USP Apparatus	USP II (Paddle)
Speed	75 rpm
Specifications	Acid Stage: NMT (b)(4)% in 120 minutes Buffer Stage 1: NLT (b)(4)% in 30 minutes NMT (b)(4)% in 60 minutes Buffer Stage 2: NLT (b)(4)% in 60 minutes

Sr.#	Observations	Reply/Remark
1.	Justification to be provided for selection of dissolution parameters i.e dissolution medium, volume of dissolution medium, sampling interval and rpm etc.	We have selected dissolution parameters as per manufacturer specifications
	Detailed analytical procedures for the testing of drug substance (pellets) to be provided by Drug Product manufacturer	Provided
	Provide results of analysis of relevant batch(es) of Drug Substance (pellets) performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacture.	CoA of batch No DLP 793 from FPP manufacturer is submitted however CoA of same Lot No is not provided from pellets manufacturer.
	Approval of API/ DML/GMP certificate of API (pellet) manufacturer to be provided	Provided
	In CDP report differentiation factor/similarity factor (f1, f2) has not been calculated. Moreover, sampling interval for dissolution testing at acid stage has not been defined.	Complied f2 value has been calculated in each medium. which was within acceptable range. Sampling interval for dissolution testing at acid stage is 120 min
	Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc to be submitted at 6th month.	Complied
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not provided	Complied
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not provided.	Complied

Decision: Approved. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Manufcaturer shall adopt specifications for dissolution test as recommended by innovator drug product for commercial batches.**

78.	Name, address of Applicant / Marketing Authorization Holder	M/s Don Valley Pharmaceuticals (Pvt) Ltd 31 Km, Main Ferozepur Road, Lahore.
	Name, address of Manufacturing site.	M/s Don Valley Pharmaceuticals (Pvt) Ltd 31 Km, Main Ferozepur Road, Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 19358 (dated: 01-07-2022)
	Details of fee submitted	PKR 30,000/-: dated: 10-03-2022 (deposit slip# 23207259)
	The proposed proprietary name / brand name	Gutain capsules 30mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Dexlansoprazole…… 30 mg
	Pharmaceutical form of applied drug	Capsule
	Pharmacotherapeutic Group of (API)	Proton Pump Inhibitor
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	4x7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Dexilant capsules (USFDA approved).
	For generic drugs (me-too status)	Dexxoo 30mg capsule (M/s Weatherfold pharma) Reg No 088381
	GMP status of the Finished product manufacturer	Firm has submitted GMP certificate issued on dated 06-08-2019. Section approval letter issued on 23.06.2009
	Name and address of API manufacturer.	M/s Vision Pharmaceutical Industrial Triangle Islamabad.
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph for drug is not present in any pharmacopoeia. The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications,

		analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 18 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (DLP283, DLP284, DLP285)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the comparator product i.e. Dexilant 30mg capsule by Takeda Pharma (Batch No 507728) by performing quality tests (Average weight, content uniformity, Assay, Dissolution). CDP has been performed against the same brand that is Dexilant 30mg capsule by Takeda Pharma (Batch No 507728) in pH 1.2, pH 5.5, (after 1 hour), pH 7.0 (after 60 min, 105 min and 120min)
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, , repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA			
Manufacturer of API	M/s Vision Pharmaceutical Industrial triangle Islamabad Pakistan		
API Lot No.	Not provided		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 3 months Accelerated: 3 months		
Frequency	Accelerated: 0, 3 (Months) Real Time: 0, 3 (Months)		
Batch No.	T-HE-21-01	T-HE-21-02	T-HE-21-03
Batch Size	5000 caps.	5000 caps.	5000 caps.
Manufacturing Date	11 – 2021	11 – 2021	11 – 2021
Date of Initiation	13-11-2021	13-11-2021	13-11-2021

No. of Batches	03	
Administrative Portion		
	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not provided
	Documents for the procurement of API with approval from DRAP (in case of import).	Not provided
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not provided
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not provided

Remarks of Evaluator:

Dissolution testing performed by finished product manufacturer on DDR pellets were as follows:

Dissolution parameters	Specification
Acid stage (Stage I)	
Apparatus	USP I
Medium	0.1N HCl
Volume	500ml
RPM	100
Sample interval	120 minutes
Analysis technique	UV
Limit	NMT 10%
Buffer stage (Stage II)	
Apparatus	USP I
Medium	pH 5.5
Volume	900ml
RPM	100
Sample interval	60 minutes
Analysis technique	UV
Limit	NMT 15-40%
Buffer stage (Stage II)	
Apparatus	USP I
Medium	pH 7.0
Volume	900ml
RPM	100
Sample interval	120 minutes

Analysis technique	UV
Limit	NLT 75%

Dissolution parameters of innovator product (Dexilant) are as follows:

Media	Acid Stage: 0.1 N HCl Buffer Stage 1: pH 6.0 Phosphate buffer with 5mM Sodium Lauryl Sulfate Buffer Stage 2: pH 7.4 Phosphate buffer with 5mM Sodium Lauryl Sulfate
Volume	Acid Stage: 500 mL Buffer Stage 1: 700 mL Buffer Stage 2: 900 mL
USP Apparatus	USP II (Paddle)
Speed	75 rpm
Specifications	Acid Stage: NMT (b)(4)% in 120 minutes Buffer Stage 1: NLT (b)(4)% in 30 minutes NMT (b)(4)% in 60 minutes Buffer Stage 2: NLT (b)(4)% in 60 minutes

Sr.#	Observations	Reply/ Remark
1.	Justification to be provided for selection of dissolution parameters i.e dissolution medium, volume of dissolution medium, sampling interval and rpm etc	We have selected dissolution parameters as per manufacturer specifications
	Detailed analytical procedures for the testing of drug substance (pellets) to be provided by Drug Product manufacturer	Provided
	Provide results of analysis of relevant batch(es) of Drug Substance (pellets) performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (COA) of the same batch from Drug Substance / API manufacture.	CoA of batch No DLP 793 from FPP manufacturer is submitted however CoA of same lot No is not provided from pellets manufacturer.
	Approval of API/ DML/GMP certificate of API (pellet) manufacturer to be provided	Provided
	In CDP report differentiation factor/similarity factor (f1, f2) has not been calculated. Moreover, sampling interval for dissolution testing at acid stage has not been defined.	Complied f2 value has been calculated in each medium. which was within acceptable range. sampling interval for dissolution testing at acid stage is 120 min
	Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc to be submitted at 6th month.	complied
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not provided	complied
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not provided.	complied

Decision: Approved. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Manufcaturer shall adopt specifications for dissolution test as recommended by innovator drug product for commercial batches.**

Item No. XIII: Import of Finished Pharmaceutical Products.

Registration Board deliberated that registration of finished pharmaceutical drug products are done as per Drugs (L R & A) Rules, 1976 and Policy for Import of Finished product as approved by DRAP's Policy Board. As per aforementioned provisions, many drug products (human and veterinary) are being registered for finished import despite of the being manufactured locally by national pharmaceutical manufacturers. Registration Board deliberated the matter in detail and decided to seek guidance from Authority, regarding the imposition of any restriction or putting of technical barriers on the import of finished drugs (for human use and also for veterinary products), which are sufficiently produced by the local pharma companies in Pakistan.

Item No. XIV: Formulations containing Linagliptin & Metformin Hydrochloride

Linagliptin is available as fixed dose combination with metformin in following formulations:

i. Linagliptin + Metformin HCl Immediate release film coated tablet.
ii. Linagliptin + Metformin HCl + Empagliflozin modified release tablet wherein Metformin HCl is available as extended release core while Linagliptin and Empagliflozin are available as immediate release layer of active coating.

The Public assessment report from various reference regulatory authorities of innovator products have reported that initial compatibility studies with the active substances showed degradation of Linagliptin when combined with Metformin hydrochloride, hence Arginine is included in the formulation as stabilizer and test of "Arginine content" is also included in the drug product specifications.

Submitted drug product development and stability studies data of above cited formulations need to be evaluated for the inclusion Arginine in the drug product formulation and its analysis of its contents in drug product.

Decision: Registration Board considered the above presented information and advised PE&R Division to present an agenda for further deliberation and review of formulations of drug product containing Linagliptin & Metformin for the inclusion of Arginine along with its role, limits and analysis in finish drug product.

Item No. XV: Enantiomeric purity of Linagliptin.

Linagliptin is a selective, orally administered, xanthine-based DPP-4 inhibitor. GLP-1 lowers blood glucose levels by augmenting the glucose-stimulated insulin release. The EMA assessment report for innovator product i.e., Trajenta tablet has reported that Linagliptin has one chiral centre at the 3-aminopiperidine moiety. The public assessment reports of Innovator product i.e., Trajenta tablet of M/s Boehringer Ingelheim, from various reference regulatory authorities have reported that the active substance corresponds to the R-enantiomer and the S-isomer is controlled as an impurity. The drug substance specifications of innovator drug product literature have also included test of "Enantiomeric purity" to confirm the enantiomeric form of Linagliptin.

It has been observed during the review of applications of "Linagliptin containing formulations" that the various drug substance manufacturers have reported enantiomeric purity of Linagliptin in different manners, briefed as under:

i. Test of Enantiomeric purity.
ii. Test for S-isomer.
iii. Test for Isomer.

The particular tests and limits required to establish the "Enantiomeric form" of Linagliptin, needs to be identified yet.

Decision: Registration Board considered the above presented information and advised PE&R Division to present an agenda for the "tests and Limits for "Enantiomeric purity of Linagliptin" in upcoming Board meeting.

B. Biological Drugs Division.

Case No. 01: Products Lumpyvac vaccine and Teylovac vaccine applied by M/s Huzaifa International, Sargodha

The following products of M/s Huzaifa International, Sargodha were approved in various meetings of Registration Board. The details are as under:

Product name and composition	Document Details	Decisions of RB
Lumpyvac (Lumpy Skin Disease vaccine with Diluent) Each 2 ml Dose contains: Attenuated Lumpy skin disease virus (Neethling strain) …. $\geq 10^{3.5}$ $TCID_{50}$	• Original Legalized Free Sale certificate dated 24-02-2022 • Legalized copy of GMP certificate dated 12-02-2019	**Decision of 316th meeting:** Keeping in view legalized GMP certificate and Legalized Free Sale Certificate indicating product availability in country of origin; Registration Board approved the product with "As per Innovator Specifications" subject to compliance of current Import Policy for finished drugs.
TEYLOVAC Vaccine Live attenuated Freeze dried Theileria Annulata cells based vaccine with diluent Each dose of vaccine contains Theileria annulata…...…….$\geq 1x10^7$ cells	Legalized Certificate of Pharmaceutical Product (CoPP) NoB028634. issued by Ministry of Agriculture and Forestry, Turkey, dated.01-10-2019 valid till. 10-11-2024.	**Decision of 313th meeting** Registration Board approved the product namely TEYLOVAC Vaccine as product is highly needed for veterinary use in Pakistan.

The firm M/s Huzaifa International, Sargodha has already been granted registration of Lumpyvac Vaccine having Registration No.111128 vide letter No. F.1-5/2022-AD(BD)(M316) dated 25th March 2022, however as per decision of Policy Board in its 41st meeting, the inspection exemption of manufacturer abroad i.e., M/s Vetal Animal Health Products, Turkey was granted for six months to M/s Huzaifa International, Sargodha. The six months' time period has been completed, hence the virtual inspection was conducted.

The virtual inspection of manufacturing facility abroad namely M/s Vetal Hayvan Sagligi Urunleri A.S. Turkey was conducted on 3rd – 4th November, 2022 by the panel of inspectors vide DRAP's letter No. F.8-1/2022-(I&V-I) dated 24th October, 2022. The conclusion and recommendations are as under:

Conclusion

Keeping in view the proceedings of virtual inspection conducted by the panel of inspectors, it was observed that *due to inadequate communication/ weak tools such as internet connectivity, inappropriate cameras, as mostly mobile cameras were used. Proper inspection cameras, borescopes, fiberscopes (communicated vide DRAP letter No.F.3-2/2005-Reg-I(Vol-II) dated 27th September, 2022) were not utilized, hence on this remote virtual inspection the basic system such as manufacturing facility/ Q.C etc were seen but actual manufacturing proceeding, Q.C testing, HVAC system functioning etc could not be verified.*

Moreover, it was also observed that Mr. Asim Rauf, the then Additional Director (E&M) Lahore, DRAP and Mr. Abdullah, Additional Director (PE&R), DRAP (co-opted member) had visited the same unit from 24th to 26th September, 2018 when it was newly built, while on official inspection of another unit of M/s Vetal Animal Health Products in Turkey.

It was highlighted in that inspection report that the newly built unit was a state of the art facility in which trial batches were being manufactured and QC testing of vaccines were performed.

Recommendations:

Based on the proceedings of virtual inspection, documents reviewed and videos of the unit seen, the panel has reached to the conclusion that the firm has basic systems to manufacture veterinary vaccines and appeared to comply the GMP requirements. *Hence, the panel recommends that the Registration Board may grant the registration of applied products namely Teylovac and Lumpyvac vaccines to M/s Huzaifa International, Sargodha for six months. However, the panel strongly recommends on-site inspection in order to verify/ ascertain the Good Manufacturing Practices (GMP) of the firm within six months' time period.*

a. As per inspection report, the filling area of both Lumpyvac and Teylovac vaccine was same, as Teylovac is a live protozoal vaccine while Lumpyvac is a live viral vaccine. The firm informed that cleaning validation procedures are performed for same filling line.
The same was discussed and it was decided to send emails to EMA, FAO and USDA dated 29-11-2022 regarding manufacturing requirements of live viral and live protozoal vaccines to be manufactured for animals in the same filling line. Accordingly, emails were sent to relevant authorities and the responses received did not address the query so far, therefore the case may be submitted for further directions if any.
b. As per recommendation of the panel, the Registration of the products namely Teylovac and Lumpyvac vaccines may be granted for six months only (the details are given above).

Previous Decision: Registration Board after thorough deliberation decided to defer the case of Teylovac Vaccine and advised to seek following clarifications **(M-323)**:

- Manufacturing requirements of live protozoal and live viral vaccines in the same filling line as outlined in the inspection report of the firm and also send emails to Turkish veterinary authority i.e., Directorate-General for Animal Health and Veterinary Medicines and OIE –World Organization for Animal Health.
- Legal Affair Division regarding issuance of registration letter for 6 months' time till onsite inspection by the panel.

Evaluation by BE&R: Email for clarification of manufacturing requirements of live protozoal and live viral vaccines was sent to the manufacturer, Turkish veterinary authority and OIE. The response received from M/s Vetal Animal Health Inc. enclosed following documents:

- SOP for fumigation process procedure
- SOP for Teylovac formulation and filling procedures
- SOP for cleaning validation protocol for live filling machine
- SOP for Search of Mycoplasma in Bulk and final containers

Response also received from EMA is as below:
We advise you to have a look at annex 5 of the EU GMP guide which is dedicated to the manufacturing of immunological veterinary medicinal products (https://health.ec.europa.eu/system/files/2016-11/anx05en200408_en_0.pdf).
Also in general, the EU GMP Guide, Part I, mentions in Chapter 3 and 5 several requirements for having dedicated facilities and measures to avoid (cross-)contamination (https://health.ec.europa.eu/system/files/2016-11/chapter_3_0.pdf) and https://health.ec.europa.eu/system/files/2016-11/chapter_5_0.pdf). A risk assessment including the toxicological considerations as defined in the Guideline on setting health based exposure limits for use in risk identification in the manufacture of different medicinal products in shared facilities (https://www.ema.europa.eu/en/documents/scientific-guideline/guideline-setting-health-based-exposure-limits-use-risk-identification-manufacture-different_en.pdf) should evidence the absence of risks of cross-contamination.

Discussion: Registration Board discussed the manufacturing of immunological veterinary medicinal products in the light of response received from European Medicine Agency (EMA). EMA has referred to Annex 5 of EU GMP Guide (https://health.ec.europa.eu/system/files/2016-11/anx05en200408_en_0.pdf) wherein it is categorically mentioned regarding filling of live biological agents:

- With the exception of blending and subsequent filling operations (or when totally enclosed systems are used,) only one live biological agent may be handled within a production room at any given time. Production rooms must be effectively disinfected between the handling of different live biological agents.
- Careful consideration should be given to the validation of methods for sterilization, disinfection, virus removal and inactivation.
- Filling should be carried out as soon as possible following production. Containers of bulk product prior to filling should be sealed, appropriately labelled and stored under specified conditions of temperature.

Decision: Keeping in view above, Registration Board decided as under:

- **Approved the registration of TEYLOVAC Vaccine (Live attenuated Freeze dried Theileria Annulata cells based vaccine with diluent). Manufacturer will follow above mentioned guidelines for manufacturing of vaccines**
- **Recommended the conduction of virtual inspection again of the manufacturer abroad for further verification of *manufacturing procedures, Q.C testing, HVAC system functioning etc* which could not be verified due to inadequate communication/ weak tools such as internet connectivity, inappropriate cameras during previous virtual inspection.**

Case No. 02: Application for the grant of Additional Pack of 1000ml of Locally Manufactured Veterinary Vaccine diluent namely VAXI-DROP by M/s Grand pharma (Pvt). Ltd, Rawat.

Following product of M/s Grand Pharma Pvt Ltd, Lahore was deferred in various meetings of Registration Board in 313th, 316th, 320th meeting of RB as per following details;

1.	**Name and address of product manufacturer (Applicant)**	**M/s Grand Pharma Pvt Ltd** Plot # 5-A, Street No.N-5, RCCI Estate, Rawat, Islamabad
	Brand Name +Dosage Form + Strength	Vaxi-drop 1000ml
	Type of Form, Diary No. Date of R& I & fee	Form-5 Dy. No.20999 Date:21-8-2020 Rs. 20,000/- Date: 19-8-2020
	Composition	Each ml contains: Monobasic Potassium Phosphate: 0.37 mg Disodium Phosphate Dihydrate: 0.72 mg Sodium Chloride : 7.65mg
	Pharmacological Group	Diluent for live Avian vaccines
	Finished Product Specification	Manufacturer' Spec
	Shelf Life	2 Years (15°C -25°C)
	Document Details	All the undertaking has been submitted by the firm. Copy of DML Copy of inspection report for GMP for viral vaccines section (killed) & Bacterial killed vaccine section.
	Pack size & Demanded Price	0.30ml per bird **Decontrolled**
	Products already registered in Pakistan	*MS Bac* (M/s Hi-Tech Pharma, Lahore)
	Remarks of Evaluator	

Previous Decisions:

Decision of 313th Meeting:

Deferred for submission of method of administration of vaccine and container closer system of diluent.

Decision of 316th Meeting:

Deferred for confirmation of manufacturing facility for the diluents

Decision of 320th Meeting:

Deferred for confirmation of international practices regarding the manufacturing sections requirement for manufacturing of vaccine diluents

In response, the firm has submitted following:

a. The vaccines diluents are sterile water preparations used for diluting & dispensing live vaccines of poultry and livestock which are presented in lyophilized form in a vial of 12-5ml capacity, containing 1000-5000 doses of a live vaccine. The vaccines for livestock and poultry are available in multiple doses format, therefore, to dispense these live vaccines a sterile water-based Diluent preparation is required. These diluents are available in separate packing and already a number of imported and local products have been registered 36ml (1000 doses) for eye-drop usage or 25ml and 50ml (25-50 doses) for sub/ cut injection or 200ml (1000 doses) for sub/ cut injection.
b. The container closure system comprises of an autoclavable polypropylene bottle having rubber caps with aluminum seals.
c. The required equipment for producing and filling / packing of proposed 1000ml pack size is already available in the production facility of Grand Pharma.
d. The following vaccine diluents are already registered with DRAP:

Vaccine Type	Presentation of Approved Diluents	Administration Route	Doses per vaccine vial	Company
NDV/ IBD/ IBV Live	36ml	Eye Drop/ Spray Drinking water	1000	- Lead pharma (local) - MSD - Elanco
NDV/ IBDV/ IBV live	Bulk RO water	Drinking water	-	Normal Field practice
MD/ CAV Live	200ml	Sub-Cut	1000	- MSD

				- CEVA
LSD Live	50ml	Sub-Cut	25 & 50	- MSD - Arriah

e. Regarding international practices for the production of diluents, the firm submitted that as per literature, diluents are produced in injectable facilities of a Pharma or Biologics production unit.

Based on the above, it is pointed out that although all types of queries from DRAP in this case have been responded accordingly, however, it has taken more than 2 years to reach to any decision in this case. Such delays are badly affecting our production plans for this product. It is therefore requested that all the queries raised during its evaluation by the Drug Registration Board, so approval may please be granted at the earliest for production of VAXI-Drop (1000 ml pack size) at Grand Pharma (Pvt) Ltd., Rawat Islamabad, accordingly.

Previous Decision: Registration Board deferred the case and advised BE&R Division to compile data of all such registrations granted to M/s Grand Pharma and place before Registration Board for its consideration **(M-323)**.

Evaluation by BE&R: The firm has already registered product (diluent in 36 ml packing) vide Registration # 087070 dated 28-05-2018. And the VAXI-DROP is used to dilute live avian vaccines through spray or Eye drop.

Decision: Registration Board deferred the case and advised to deliberate the case with Licensing Division regarding manufacturing requirements of diluents for vaccine.

Item No VII. Miscellaneous cases:

Case No. 1: Request of PPMA for Extension in Time for Submission of Stability Data of Form 5

Registration Board in its 320th meeting considered the case of "Applications submitted on Form 5 / 5-D requiring submission of stability data" and decided as under:

> ***Registration Board deliberated the matter in detail and observed that these applications are pending for submission of stability data/product development data by the applicants since many years. Keeping in view the pendency, the Board deliberated the matter in detail and also took opinion of PPMA and then decided that the firms shall initiate the product development and stability studies of submitted applications and intimate to Pharmaceutical Evaluation Cell (PEC) regarding procurement of raw material, initiation of product development and initiation of stability studies, by 31st December 2022. For all those applications for which Pharmaceutical Evaluation Cell will not receive any intimation regarding initiation of product development and stability studies, will be placed before the Board for decision.***

The above decision of the Board was notified vide letter No. No. 320-DRB/ 2022(PE&R) dated 17-10-2022.

Now, Pakistan Pharmaceutical Manufacturers' Association through its Chairman (North) vide its letter No. PPMNAM-03312022 dated 30-12-2022 has requested for Extension in Time for Submission of Stability Data of Form 5. The request of PPMA is placed below:

> *Respected Sir,*
> *Please accept heartiest compliments and best wishes from Pakistan Pharmaceuticals Manufacturers' Association.*
> *This refer to the above subject that Drug Regulatory Authority of Pakistan has instructed that Pharma Manufacturer companies will submit Stability Data of Form 5 / Form 5-D Files till December 31,2022 to DRAP otherwise the Files shall be considered withdrawal. The decision was taken in 320th DRB Meeting held on 29th July to 1st August, 2022.*
> *In this regard, it is submitted that our member companies are requested that the time period for Submission of Stability Data of Form 5 (31.12.2022) is not enough in current circumstances as there are hindrances in Import of Materials due to current economic condition of country.*
> *Therefore, you are requested to* ***kindly extend the time for Six Months for the submission of Stability Data of Form 5*** *and oblige.*

Decision: Registration Board while considering the above cited request of PPMA reiterated that that the numerous applications are pending for submission of stability data/product development data

by the applicants since many years causing by an un due backlog for the PE&R Division. Board also discussed that previously, opinion of PPMA was also taken while giving an opportunity to the firms to submit an intimation regarding initiation of product development & stability studies had been given to firms for submission of any had already been given a time period till by 31st December 2022. Keeping in view the above deliberation Board decided to refer the case to Authority for seeking guidance regarding timelines for submission of Stability Data of Form 5 / Form 5-D Files.

Case No. 2: Request of PPMA for Registration of Semaglutide Tablet for export purpose only

PPMA vide its letter dated 16-01-2023 has submitted the following request.

"Our member companies are receiving inquiries for providing Semaglutide Tablets from various countries. PPMA is under discussion with DRAP for deliberation regarding registration of this important drug for local population. In meantime, it is being earnestly requested to please process export registrations of member companies so that they can start to export and earn valuable foreign exchange which is the dire need during current hard times."

Decision: Registration Board referred the case to the "Working Group for deliberation regarding Semaglutide" with advise to take up the matter in upcoming meeting of the working group.

Case No. 3: Regulatory submissions for registration of pharmaceutical drug products on Form 5F.

Registration Board discussed the following proposals in lieu of the existing procedure for dossier submission and deliberated that it will not only facilitate the registration applicants in submission of their applications on Form 5F but will also also streamline the assessment process without compromising on safety, efficacy and quality aspects of applied products. Registration Board decided that relevant guidelines be revised in light of the decisions made in instant cases.

Observers / stakeholders *viz.* Pakistan Pharmaceutical Manufacturers Association, Pharma Bureau and Pakistan Chemist & Druggist Association appreciated the proposals and decisions of Registration Board.

a. Submission of Form 5F (Hard copy and digital submission).

The pharmaceutical companies submit applications for registration of pharmaceuticals and biological products on Form 5F which usually contains large volume of technical data usually comprising of multiple volumes of papers. Internationally, due to enormous volume of data, most of such submissions have been shifted to online submission which is convenient both for applicant and regulatory authority.

In this regard, the main issues at the applicant's side are:

- Handling and Transportation of manual files through couriers or in-person submissions,
- Hefty printing and logistic cost,
- Compilation of data files, etc.

Similarly, at the side of DRAP which receives thousands of registration dossiers annually, challenges are:

- Human labour for handling and archiving of a large number of manual files,
- An unending need for vast space for storage management.

Goal:

Like all progressive organizations which are embracing new technologies and adopting modern "way of doing things", Drug Regulatory Authority of Pakistan (DRAP) has implemented technological approaches for its various regulatory processes including online fee challan generation system, PIRIMS, Online import export application system (OIES), E-Governance (e-Office) etc. With the deployment of all these technological systems, DRAP has made itself more visible for stakeholders, and also witnessed enhanced level of efficiency and effectiveness.

Similarly, in context to the current challenge, DRAP proposes a procedural shift from conventional method of dossier submission through manual files to electronic submission process. Keeping in view the practicality, usability and reliability, we hereby propose following procedure which also ensures the sanctity of the regulatory data.

Proposal:

DRAP proposes to add another option for regulatory submissions via hybrid mode, where minimum submission will be required in hard copy and all the scientific studies and related data may be submitted in the non-editable digital format. Applicants may submit application dossier for registration of drug in following manner:

Content of Form 5F	Type of Submission
i. Covering Letter ii. Signed Application on Form 5F iii. Fee Challan(s) iv. Module 1	Hard Copy
i. Module 1 ii. Module 2 iii. Module 3 iv. Module 4 v. Module 5	Non-Editable & Non printable Digital submission

DRAP also recommends that applicant shall use a watermark of their companies in page background to maintain the sanctity of the data. In addition, applicants will also maintain data repository of all regulatory submission at their premises.

Advantages:

- Efficient document management at the level of applicant and regulatory body.
- Economical and eco-friendly. (less paper consumption and printing).
- Reduced physical storage space and cost.
- Increased working quality and efficiency.

Decision: **Registration Board endorsed the above presented proposals for provisions of data submission on digital format for Form 5F of Pharmaceutical drug registration applications and recommended to proceed further for its notification by DRAP. However, applicant may use existing process of submission in hard format, if desired so.**

Case no. 04: Proposals for data requirements of Form 5-F:

a. Data requirements of Form 5-F for pharmaceutical drug products having multiple strengths / fill volumes.

Several drug products are available in multiple strengths or fill volumes and in such cases the drug substance part of Form 5F remains the same, if the source has not been changed between the strengths of fill volumes. For such cases the applicants had to submit volume of data comprising of same information of drug substance along with application of every strength.

Proposal: For such drug products, having multiple strengths multiple strengths or fill volumes complete Form 5F may be submitted for only one of the strength/fill volume or one of the strengths while for remaining strengths/fill volumes the 3.2.S part of CTD will be optional and applicant may refer to its complete dossier for this data.

Conditions:

i. All strengths/fill volumes shall be manufactured by same source of drug substance.

Decision: Registration Board decided to approve the proposal with following conditions and recommended to proceed further for its notification by DRAP.

i. An undertaking by the applicant that all strengths/fill volumes shall be manufactured by same source of drug substance.

ii. If different Lot/Batch no. of same source of drug substance has been used in manufacturing of various strengths/fill volumes of applied product, then Certificate of Analysis of such lots / batch nos. of drug substance (by drug substance and drug product manufacturers) will be submitted by the applicant.

b. Applications for contract manufacturing.

Applications of any drug product in particular strength and dosage form for contract manufacturing may require submission of complete dossier. If approved by the Registration Board, thereafter, only Module I may be required for the rest of the applicants who are willing to get registration of the same drug product from the same contract manufacturer following submission may be required only:

i. Covering Letter
ii. Signed Application on Form 5F
iii. Fee Challan(s)
iv. Module 1

Conditions:

i. Applicants shall submit declaration that they are willing to adopt the same source of drug substance, drug product formulation, specifications and container closure as approved in previous application of the contract manufacturer.

ii. Applicant shall refer along with extract of relevant minutes of Registration Board for the previous approval of the applied drug product on Form 5F from same manufacturer.

Decision: Registration Board decided that applicant may submit application of contract manufacturing of Human Pharmaceutical drug products with covering letter, fee challan, filled and signed Form 5F and Module 1. For remaining modules (2-5), the applicant instead of submission of data shall refer to previous approval of Registration Board (on Form 5F) of same formulation with the product development and stability studies data from same manufacturing site with the condition that:

- **Applicant shall submit declaration that they will adopt the same source of drug substance drug product formulation, specifications and container closure**
- **In case of any post-registration variation by contract manufacturer, same shall be immediately applied by applicant/ registration holder for requisite approval by Registration Board as per "Post Registration Variation Guideline for Pharmaceutical and Biological Products", available on DRAP's official website**
- **Applicant shall refer along with extract of relevant minutes of Registration Board for the previous approval of the applied drug product on Form 5F from same manufacturer.**

Meeting ended with vote of thanks to and from the chair.
