MINUTES OF 326th MEETING OF REGISTRATION BOARD

HELD ON 14th to 16th March, 2023

Drug Regulatory Authority of Pakistan

T.F. Complex, Mauve Area, G-9/4

Islamabad.

326th meeting of Registration Board was held on 14th to 16th March, 2023 in the Committee Room, Drug Regulatory Authority of Pakistan, G-9/4, Islamabad.

The meeting was chaired by Dr. Muhammad Fakhruddin Aamir, Chairman, Registration Board, DRAP. The meeting started with recitation of the Holy Verses.

The Board under Rule 24 (6) of the Drugs (Licensing, Registering & Advertising) Rules, 1976 of the Drugs Act, 1976 decided to co-opt Mr. Iftikhar A. Chaudhary as member of the registration board on excellent performance during his tenure.

Following members attended the meeting:

1.	Ch. Zeeshan Nazir Bajar, Additional Director (PE&R), DRAP.	Member/ Secretary
2.	Lt. Gen.(R) Prof. Dr. Karamat A. Karamat (HI-M.SI-M), Former Surgeon General Pakistan (Online).	Co-opted Member
3.	Maj. Gen. (R) Dr. Tahir Mukhtar Sayed. Former Inspector General (Hospitals), Fauji Foundation, Rawalpindi.	Co-opted Member
4.	Mr. Iftikhar A. Chaudhary, Ex-Hospital Pharmacist, Lahore	Co-opted Member
5.	Dr. Qurban Ali, Ex-Director General, National Veterinary Laboratories, Islamabad	Co-opted Member
6.	Mr. Ali Ahmad Agha, Director. DTL Quetta Baluchistan	Member
7.	Dr. Muhammad Akram, Animal Husbandry Commissioner, M/o NFS&R	Co-opted Member
8.	Dr. Ayesha Yaqoob, Rep. of Director DTL Govt. of Punjab Rawalpindi	Member
9.	Mr. Muhammad Aslam, Additional Draftsman-I, Ministry of law & Justice, Islamabad.	Member
10.	Dr. Sartaj Khan, Drug Analyst. Rep. of Director, DTL, Peshawar	Member
11.	Mr. Ajmal Sohail Asif, Director, QA&LT Division	Member
12.	Mr. M. Ahsan Hafiz, Deputy Director, Rep of Division of BE&R	Member
13.	Ms. Sadaf Ahmad, Assistant Director, Rep. of Division of MD&MC	Member

Mr. Nadeem Alamgir (Pharma Bureau), Mr. Hamid Raza, & Mr. Jalal-ud-Din (PPMA) and Mr. Ziaulhaq & Mr. Amir Ilyas (PCDA) attended the meeting as observers.

Item No. I: Confirmation of Minutes of 325th meetings of Registration Board.

325th meeting of Registration Board was held on 1st March, 2023. Accordingly, draft minutes of 325th meeting of Registration Board were circulated among the members on same day for perusal/approval/comments (if any) by 1500 Hrs. General Tahir Mukhtar thorough email *"Recommended Approval please"*. Ms. Ayesha Ifran through email responded as *"The minutes are recommended for approval please".* Rest of the members did not pass any comment. Hence minutes of 325th meeting of RB stand approved.

Accordingly, fair minutes of 325th meeting of RB were processed for perusal/approval of Chairman, Registration Board. After approval from Chairman Registration Board, fair minutes of 325th meeting of Registration Board were circulated among relevant Divisions / Sections for implementation / compliance of decisions.

Decision: Registration Board noted the information and unanimously confirmed the minutes of 325th meeting of Registration Board.

Item No. II Division of Pharmaceutical Evaluation & Registration

Pharmaceutical Evaluation Cell (PEC)

Sr. No	Name of Evaluator	Title
1.	Mr. Ammar Ashraf Awan	Evaluator PEC-II
2.	Dr. Muhammad Haseeb Tariq	Evaluator PEC-III
3.	Mst. Farzana Raja	Evaluator PEC-IV
4.	Mst. Iqra Aftab	Evaluator PEC-V
5.	Mr. Adil Saeed	Evaluator PEC-IX
6.	Ms. Najia Saleem	Evaluator PEC-X
7.	Dr. Farhadullah	Evaluator PEC-XI
8.	Mr. Shahid Nawaz	Evaluator PEC-XIII
9.	Ms. Saima Hussain	Evaluator PEC-XV
10.	Ms. Sana Kanwal	Evaluator PEC-XX
11.	Mr. Tahir Waqas	Evaluator PEC-XXI
12.	Mr. Hafiz Sanaullah Babar	Evaluator PEC-XXII
13.	Mr. Muneeb Ahmed Cheema	Deputy Director (PE&R)
14.	Mr. Zia Ullah	Ex AD PEC
15.	Mr. Ishtiaq	Ex AD PEC

Case No. 01 Registration applications on Form 5F (Human)
a) New cases:

1.	Name, address of Applicant / Marketing Authorization Holder	**M/s Med Asia Pharmaceutical (Pvt) Ltd. Plot No. 7, Nowshera Industrial Estate, Risalpur**
	Name, address of Manufacturing site.	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Contract manufacturing agreement between both firms dated 05-01-2022 is provided)
	GMP status of the firm	**Seraph Pharmaceuticals:** GMP certificate issued on the basis of inspection conducted on 11/07/2019.
	Evidence of approval of manufacturing facility	Firm (M/s Seraph Pharmaceuticals) has submitted copy of Issuance of DML letter dated 12-06-2017 specifying Dry Vial Cephalosporin section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 1891 dated 20-01-2022
	Details of fee submitted	Rs.75,000/- dated 04-01-2022
	The proposed proprietary name / brand name	**Synec 500mg IV Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Ceftriaxone (as sodium)……500mg
	Pharmaceutical form of applied drug	Sterilized white to off white crystalline dry powder contained in a glass vial with sterilized rubber stopper & aluminium flip seal on it.
	Pharmacotherapeutic Group of (API)	Cephalosporin antibiotic
	Reference to Finished product specifications	USP specs
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ceftriaxone 500mg powder for solution for injection (MHRA Approved)
	For generic drugs (me-too status)	Droncef injection 500mg by Seraph Pharmaceuticals
	Name and address of API manufacturer.	Sinopharm Weiqida Pharmaceutical Co. Ltd. First Medical zone, Economic & technological development zone, Datong Shanxi China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general

		properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.		
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 48 months.		
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.		
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the innovator i.e. Rocephin Injection 500mg. The results of all the tests of both products falls within the specifications and are comparable. The firm has also performed compatibility studies of the product with recommended diluent i.e. sterile water for injection. Firm has performed comparative analysis with innovator product after reconstitution as well. The reconstitution studies also demonstrate comparable results with the innovator product.		
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for the drug substance.		
	STABILITY STUDY DATA			
	Manufacturer of API	Sinopharm Weiqida Pharmaceutical Co. Ltd. First Medical zone, Economic & technological development zone, Datong Shanxi China.		
	API Lot No.	Q011812004		
	Description of Pack (Container closure system)	Vials containing powder for reconstitution, packed in unit carton		
	Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
	Time Period	Real time: 6 months Accelerated: 6 months		
	Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
	Batch No.	001	002	003
	Batch Size	8389 vials	8389 vials	8389 vials
	Manufacturing Date	01-2019	01-2019	02-2019
	Date of Initiation	12-02-2019	14-02-2019	10-03-2019
	No. of Batches	03		
	DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA			

	1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to following product specific inspection reports • Dexpro (Dexlansoprazole) 30 and 60mg Capsule. PSI was conducted on 11-09-2018 and the product was approved in 285th meeting of Registration Board. • Neovel 800mg Tablet. Its PSI was conducted on 14-12-2018 and the product was approved in 288th meeting of Registration Board. • Serbica 20mg Capsule. Its PSI was conducted on 29-10-2018 and the product was approved in 290th meeting of Registration Board. Firm has further submitted that their product Neogene 2g Injection was approved in 293rd meeting of Registration Board. That product was applied by AGP and contract manufactured by Seraph and was submitted on Form 5F (CTD) along with complete data.
	2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate (No. SX20180229) issued by CFDA China is submitted by the firm. The certificate is valid till 05-06-2023
	3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice specifying import of 100Kg ceftriaxone sodium dated 08-01-2019. The invoice is signed by AD (I&E) DRAP Islamabad office.
	4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
	5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that since the stability study of this product was initiated 2 years ago, at that time our HPLC (Schimadzu) was not 21 CFR compliant. However now we have 21 CFR compliant (Perkin Elmer) HPLC system. We undertake that in future we will use 21 CFR compliant HPLC system for stability testing.
	6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- The applied product to be manufactured by M/s Seraph Pharmaceuticals Islamabad have already been approved by Registration Board in its 316th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product in 316th meeting are as follows:

Applicant firm	M/s Amson Vaccines and Pharma Pvt Ltd. Plot No. 154, Industrial Triangle Kahuta Road Islamabad.
Manufacturer firm	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
Brand Name	CESOD Injection 500mg IV
Batch No. of drug product	001, 002, 003
Case No.	784
RB meeting	316

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

2.	Name, address of Applicant / Marketing Authorization Holder	**M/s Med Asia Pharmaceutical (Pvt) Ltd. Plot No. 7, Nowshera Industrial Estate, Risalpur**
	Name, address of Manufacturing site.	M/s Seraph Pharmaceuticals Plot # 210, Industrial

		Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Contract manufacturing agreement between both firms dated 05-01-2022 is provided)
	GMP status of the firm	**Seraph Pharmaceuticals:** GMP certificate issued on the basis of inspection conducted on 11/07/2019.
	Evidence of approval of manufacturing facility	Firm (M/s Seraph Pharmaceuticals) has submitted copy of Issuance of DML letter dated 12-06-2017 specifying Dry Vial Cephalosporin section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 1890 dated 20-01-2022
	Details of fee submitted	Rs.75,000/- dated 04-01-2022
	The proposed proprietary name / brand name	**Synec 1g IV Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Ceftriaxone (as sodium)……1g
	Pharmaceutical form of applied drug	Sterilized white to off white crystalline dry powder contained in a glass vial with sterilized rubber stopper & aluminium flip seal on it.
	Pharmacotherapeutic Group of (API)	Cephalosporin antibiotic
	Reference to Finished product specifications	USP specs
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ceftriaxone 1g powder for solution for injection (MHRA Approved)
	For generic drugs (me-too status)	Droncef injection 1g by Seraph Pharmaceuticals
	Name and address of API manufacturer.	Sinopharm Weiqida Pharmaceutical Co. Ltd. First Medical zone, Economic & technological development zone, Datong Shanxi China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time

		conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the innovator i.e. Rocephin Injection 1g. The results of all the tests of both products falls within the specifications and are comparable. The firm has also performed compatibility studies of the product with recommended diluent i.e. sterile water for injection. Firm has performed comparative analysis with innovator product after reconstitution as well. The reconstitution studies also demonstrate comparable results with the innovator product.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for the drug substance.

	Evidence of approval of manufacturing facility	Firm (M/s Seraph Pharmaceuticals) has submitted copy of Issuance of DML letter dated 12-06-2017 specifying Dry Vial Cephalosporin section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 1887 dated 20-01-2022
	Details of fee submitted	Rs. 75,000/-: 07-03-2022
	The proposed proprietary name / brand name	**Unixime 100mg/5ml Dry Suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml of reconstituted suspension contains: Cefixime (as trihydrate)……100mg
	Pharmaceutical form of applied drug	Amber colored glass bottle containing white to off white powder for reconstitution volume 30ml (after reconstitution)
	Pharmacotherapeutic Group of (API)	Cephalosporin antibiotic
	Reference to Finished product specifications	USP specs
	Proposed Pack size	30ml bottle
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**(USFDA** Approved)
	For generic drugs (me-too status)	Tripsan 100mg/5ml dry suspension by Seraph Pharmaceuticals
	Name and address of API manufacturer.	Saakh Pharma (Pvt) Ltd. C-7/1, North Western Industrial Zone Port Qasim Karachi.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated and real time conditions. The real time stability data is conducted as per zone IV-A conditions till 12 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability. Firm has also submitted process validation report
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has performed comparative analysis of their developed formulation against the comparator product i.e. "Cefspan Dry powder for suspension 100mg/5ml". Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against the comparator product. The

		analysis of all quality tests were performed according to USP monograph. The results depicts that the developed formulation is comparable to the comparator product. The firm has also performed compatibility studies of the product with diluent i.e. purified (boiled and cooled water). Firm has performed testing of assay pH and other parameters for 7 days at room temperature and 14 days at 2 – 8 ºC and the results after reconstitution were within the acceptable range specified by the firm.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product. Firm has submitted report of verification studies of analytical method for the drug substance.

STABILITY STUDY DATA

Manufacturer of API	Saakh Pharma (Pvt) Ltd. C-7/1, North Western Industrial Zone Port Qasim Karachi.		
API Lot No.	17CF10172		
Description of Pack (Container closure system)	1's bottle of powder for suspension packed in unit carton		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	10,000 bottles	10,000 bottles	10,000 bottles
Manufacturing Date	01-2018	01-2018	03-2018
Date of Initiation	18-01-2018	19-01-2018	26-03-2018
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to following product specific inspection reports • Dexpro (Dexlansoprazole) 30 and 60mg Capsule. PSI was conducted on 11-09-2018 and the product was approved in 285th meeting of Registration Board. • Neovel 800mg Tablet. Its PSI was conducted on 14-12-2018 and the product was approved in 288th meeting of Registration Board. • Serbica 20mg Capsule. Its PSI was conducted on 29-10-2018 and the product was approved in 290th meeting of Registration Board. Firm has further submitted that their product Neogene 2g Injection was approved in 293th meeting of Registration Board. That product was applied by AGP and contract manufactured by Seraph and was submitted on Form 5F (CTD) along with complete data.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of DML of M/s Saakh Pharma is submitted by the firm. Copy of GMP certificate of M/s Saakh Pharma dated 15-01-2018 issued on the basis of inspection dated 16-10-2017 is submitted by the firm. The certificate is issued by Additional Director DRAP Karachi.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice dated 12-01-2018 specifying purchase of 50Kg cefixime from Saakh Pharma (Pvt) Ltd.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that since the stability study of this product was initiated 2 years ago, at that time our HPLC (Schimadzu) was not 21 CFR compliant. However now we have 21 CFR compliant (Perkin Elmer) HPLC system. We undertake that in future we will use 21 CFR compliant HPLC system for stability testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted that their stability chambers are supplied with uninterrupted power supply and have digital data logger for monitoring temperature and humidity. The digital data logger have been verified by the panel during our onsite inspection as well.

Evaluation by PEC:

- The applied product to be manufactured by M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad have already been approved by Registration Board in its 297th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product in 297th meeting are as follows:

Applicant firm	M/s Moringa Pharmaceuticals 35-A, Sunder Industrial Estate, Lahore.
Manufacturer firm	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
Brand Name	Saf-Xime 100mg/5ml Dry suspension
Batch No. of drug product	001, 002, 003
Case No.	279
BR Meeting	297

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

5.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Med Asia Pharmaceutical (Pvt) Ltd. Plot No. 7, Nowshera Industrial Estate, Risalpur**
	Name, address of Manufacturing site.	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Contract manufacturing agreement between both firms dated 05-01-2022 is provided)
	GMP status of the firm	**Seraph Pharmaceuticals:** GMP certificate issued on the basis of inspection conducted on 11/07/2019.
	Evidence of approval of manufacturing facility	Firm (M/s Seraph Pharmaceuticals) has submitted copy of Issuance of DML letter dated 12-06-2017 specifying Dry Vial Cephalosporin section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

	Dy. No. and date of submission	Dy.No 1888 dated 20-01-2022
	Details of fee submitted	Rs.75,000/- dated 04-01-2022
	The proposed proprietary name / brand name	**Unixime 200mg/5ml Dry Suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml of reconstituted suspension contains: Cefixime (as trihydrate)……100mg
	Pharmaceutical form of applied drug	Amber colored glass bottle containing white to off white powder for reconstitution volume 30ml (after reconstitution)
	Pharmacotherapeutic Group of (API)	Cephalosporin antibiotic
	Reference to Finished product specifications	USP specs

The digital data logger have been verified by the panel during our onsite inspection as well.

Evaluation by PEC:

- After the notification of monograph of Cefixime capsule by Registration Board, the manufacturer firm i.e. Seraph Pharmaceuticals has submitted product testing report of their batches which are tested as per the monograph approved vide No. F.14-1/2022-PEC dated 14th March 2022.
- The applied product to be manufactured by M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad have already been approved by Registration Board in its 297th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product in 297th meeting are as follows:

Applicant firm	M/s Moringa Pharmaceuticals 35-A, Sunder Industrial Estate, Lahore.
Manufacturer firm	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
Brand Name	Saf-Xime 400mg Capsule
Batch No. of drug product	001, 002, 003
Case No.	278
BR Meeting	297

Decision: Approved with manufacturer specifications as approved by Registration Board in its 313th meeting and notified vide letter No. F.14-I/2022-PEC dated 14th March 2022. Firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

7.	Name, address of Applicant / Marketing Authorization Holder	M/s Mass Pharma Pvt. Ltd. Lahore 17-Km Ferozpur Road, Lahore.
	Name, address of Manufacturing site.	M/s Mass Pharma Pvt. Ltd. Lahore 17-Km Ferozpur Road, Lahore.
	Status of the applicant	☒ **Manufacturer** ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ **Domestic and Export sales**
	Dy. No. and date of submission	Dy.No 23132 dated 08-11-2019
	Details of fee submitted	Rs.20,000 dated 08-11-2019
	The proposed proprietary name / brand name	**Aqua Pro 10ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ampoule contains; Sterilized water for Injection …….. 10 ml
	Pharmaceutical form of applied drug	Ampoule
	Pharmacotherapeutic Group of (API)	Diluent for Injections
	Reference to Finished product specifications	BP
	Proposed Pack size	1's , 10's 50's and 100's.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Water for Injection (HOSPIRA) USFDA Approved

	For generic drugs (me-too status)	Water for Injection by M/s. Healthtek Karachi; Reg. No. 076482
	GMP status of the Finished product manufacturer	The firm have submitted cGMP certificate issued on 14-12- 2020 based on inspection conducted on 23-09-2020.
	Name and address of API manufacturer.	Bulk water for Injection is manufactured In-House.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Bulk WFI is present in BP. The firm as submitted detail of nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, tests for impurity , specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	N/A. Bulk WFI is always prepared freshly before use.
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Water for Injection by Bosch Pharmaceuticals by performing quality tests (Apperance, Conductivity, TOC, Nitrates, Sulfates, Calcium& Magnesium, Sterility testing and BET).
	Analytical method validation/verification of product	N/A.

	Name, address of Manufacturing site.	M/s Himark Laboratories Private Limited Plot 37-A, Sundar Industrial Estate Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 24084 dated 01-09-2021
	Details of fee submitted	Rs.30,000/- dated 21-06-2021
	The proposed proprietary name / brand name	**Trox 5 mg / 5 mL oral solution**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5 mL contains: Cetirizine Dihydrochloride .... 5 mg
	Pharmaceutical form of applied drug	Clear & transparent, sweet with characteric flavor oral solu filled in 60 mL amber glass bottle sealed with pilfer proof aluminium caps
	Pharmacotherapeutic Group of (API)	Anti-histamine
	Reference to Finished product specifications	BP
	Proposed Pack size	1 ×60 mL

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Zirtek Allergy Solution 1 mg/ml oral solution by M/s UCB Pharma, MHRA Approved.
	For generic drugs (me-too status)	Avec 5 mg/ 5 mL oral solution by M/s Platinum Pharma, Reg. No. 025507
	GMP status of the Finished product manufacturer	New license granted on 26/09/2019 Oral Liquid Syrup section approved.
	Name and address of API manufacturer.	Supriya Life science Ltd., Mumbai, INDIA. A-5/2, Lote Parshuram Industrial Area, M.I.D.C Taluka – Khed, District – Ratnagiri, Maharashtra, India 415 722.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Cetirizine Dihydrochloride is present in BP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, Identification, Assay, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches:(SLL/CTR/0309047, SLL/CTR/0309048, SLL/CTR/0309047)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is ***Zyrtec oral solution*** by GSK Pharma by performing quality tests (Identification, Assay, pH, Uniformity of dosage form & related substances). CDP – Not applicable
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document. (New Section)
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Pyridoxine HCl and Thiamine HCl**: Copy of GMP certificate No. JX20170016 issued by PRC valid till 07/05/2022 **Cyanocobalamin:** Copy of GMP certificate No. HE20 190092M issued by PRC valid till 01/09/2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Copy of letter No.14850/2020/DRAP-AD-VIII (I&E) dated 16/10/2020 is submitted wherein the permission to import different APIs including Pyridoxine HCl, Thiamine HCl and Cyanocobalamin for the purpose of test/analysis and stability studies is granted. • DHL No.XMLPI 6.2/90-1604 dated 19/11/2020 & DHL No. V4955EL4OKM Dated: 18-12-2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Section#	Observations	Firm's response
3.2.P.1	• Submit the justification for including anti-microbial preservative in applied formulation. • Justify the quantities of each API mentioned in composition table against the label claim.	• Benzyl alcohol is also used as solvent to enhance the solubility of ingredients and it is used as solvent in our formulation. Mistakenly only one function (antimicrobial preservative) was written under section 3.2.P.1. • Quantities of each API is written per 3.15ml to achieve the volume NLT 3ml per unit. Quantities of API are corrected to per 3ml.
3.2.P.3.2	• Justify the quantities of each API mentioned in composition table against the label claim. • Submit the batch formulation for commercial batch size.	• Quantities of each API is written per 3.15ml to achieve the volume NLT 3ml per unit. Quantities of API are corrected to per 3ml. • Batch formulation for commercial batch size is submitted
3.2.P.3.3	Justification shall be submitted for applying UV spectrophotometric method for the analysis of Cyanocobalamin in the finished product.	As applied product is not available in official monographs and USP method of analysis for Cyanocobalamin API and injection is also by UV method, so in-house UV method was developed and validated for analysis of cyanocobalamin.
3.2. P.5.3	• Justify the performance of specificity parameter for cyanocobalamin, without analyzing the sample solution containing Pyridoxine HCl & Thiamine. • Justify the performance of specificity parameter for Pyridoxine HCl & Thiamine without analyzing the sample solution of injection.	Specificity parameter for cyanocobalamin was performed by preparing a placebo solution including Pyridoxine HCl & Thyamine HCl along with excipients. Specificity parameter for Pyridoxine HCl & Thyamine HCl was performed by preparing a placebo solution including cyanocobalamin along with excipients.
3.2. P.8	• Submit stability studies data till 6th month time point for both accelerated and long-term stability conditions. • Submitted stability studies data does not include test for "Antimicrobial effectiveness", as recommended by USP general chapter <51>. Justify this disparity since proposed formulation contains "benzyl alcohol" as an antimicrobial agent. •Justify the performance of terminal sterilization by autoclave method for the vitamin containing formulation.	6th month stability data has been submitted. Benzyl alcohol is used as solvent in applied product formulation, additionally the said test is recommended for multi dose sterile products while applied product is single dose solution for injection and not stored after opening so test was not performed. • The applied product was sterilized by filtration method and test of finish product and stability studies are concluded on product sterilized by filtration method, some portion was autoclaved to check the effect of autoclavation on pH and color of product. • Firm has submitted machine usage log book of terminal sterilizer wherein sample portion has been recorded as 25 ampoules for the batches of applied product. • Revised BMR for commercial manufacturing has been submitted.

Decision: Deferred for the scientific justification of the claimed role of Benzyl alcohol as solvent and not as preservative in the applied formulation.

Firm Response:

- In applied product benzyl alcohol was used to support the solubility of active ingredients (Pyridoxine Hydrochloride, Thiamine Hydrochloride and Cyanocobalamin) which are already soluble in water, so no need to use any additional solvent/solubilizing agent i-e benzyl alcohol.
- Applied product is single dose sterile solution for injection so use of preservative is also not required.
- As benzyl alcohol is not part of innovator formulation and as mentioned above do not have any significant role in applied product formulation so **we hereby undertake we will not use benzyl alcohol in our commercial batches formulation.**

Discussion: Registration Board deliberated that the firm has used benzyl alcohol as an excipient which is not used by the innovator drug product. The drug product is a single use sterile injection containing water soluble drug substances therefore the use of benzyl alcohol is not justified.

Decision of 317th meeting: Registration Board deferred the case for following:

- Submission of 3 months stability studies data with frequency of 0,1& 3 months, at both accelerated and long-term conditions, for three new batches, manufactured with revised formulation excluding benzyl alcohol.
- Full fee of registration i.e., Rs. 30,000 for for submission of new stability studies data, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Response by Firm: Firm has submitted following:

- Batch manufacturing record of three newly manufactured stability batches wherein Benzyl alcohol is not included in the formulation.
- Stability studies of three newly manufactured batches detailed hereafter, at both accelerated and long term conditions with testing frequency of 0,1& 3 months.
- Fee of Rs. 30,000/- vide deposit slip# 65483381838.

Batch No.	22ARn004	22ARn005	22ARn006
Batch Size	1200 ampoules	1200 ampoules	1200 ampoules
Manufacturing Date	07-2022	07-2022	07-2022

Decision of 326th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration Board further advised to send a reference to QA & LT Division for verification of the submitted data of applied formulation during any upcoming inspection of the firm.

Manufacturer of API	M/s PERKIN LABORATORIES, plot No. 94 TSIIC, Industrial estate, Medchal Dist. 501401, Telangana, INDIA	

API Lot No.	KM-1104620		
Description of Pack (Container closure system)	USP Type-I Glass ampoules in PVC Tray, packed in unit carton (1ml×5's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	21ARn033	21ARn034	21ARn035
Batch Size	2500 ampoules	2500 ampoules	2500 ampoules
Manufacturing Date	04-2021	04-2021	04-2021
Date of Initiation	11-05-2021	11-05-2021	11-05-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document. (New Section)
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 3879/Stores/2019 issued by DCA valid till 10/01/2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Copy of letter No.14850/2020/DRAP-AD-VIII (I&E) dated 16/10/2020 is submitted wherein the permission to import different APIs including Ketorolac Tromethamine for the purpose of test/analysis and stability studies is granted. • AirWay Bill No. 176-26046624 Dated: 21/12/2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator(II):

Section#	Observations	Firm's response
1.6.5	Valid GMP certificate issued by the relevant regulatory authority shall be submitted for the drug substance manufacturer.	Copy of GMP certificate No. 77981/TS/2022 issued by DCA Telangana valid till 02/01/2023 has been submitted.
3.2. S.4.1	Limits for the test of pH are different between the drug substance manufacturer & drug product manufacturer.	As per USP monograph of Ketorolac Tromethamine, Limit for pH is 5.7 – 6.7 which is mentioned in test method and specifications submitted by Drug product manufacturer. Drug substance manufacturer mentioned the pH limit 5.7-6.0 in his specification, however in CoA of drug substance and stability study data submitted by Drug substance manufacturer the limit for pH is mentioned 5.7 – 6.7 (as per USP), copy of CoA provided by Drug substance manufacturer for ketorolac

		Tromethamine having pH limit as per USP (5.7 – 6.7) is submitted
3.2. S.4.2	Sample and standard solution concentration mentioned in the Assay test method from drug substance manufacturer are different from that recommended by USP monograph of "Ketorolac tromethamine".	USP monograph of Ketorolac Tromethamine recommends concentration of reference and sample solution to be 0.4mg/ml for assay test. For Assay test Drug substance manufacturer referred to related substances sample and standard preparation which is 20mg sample dissolved in 50ml of solvent. The resultant concentration becomes 0.4mg/ml which is same as recommended by USP.
3.2.S.7	Long term stability conditions mentioned in summary & conclusion are different from that declared in the stability data submitted in section 3.2.S.7.3.	Long term stability conditions mentioned in summary and conclusion are different from declared in stability data because in DMF the manufacturer mentioned Zone II conditions and provided stability data for long term stability studies at 25ºC/60%RH. After receiving DMF we asked the drug substance manufacturer to provide Zone-IVA (30ºC/65%RH) stability data which is submitted under stability data in section 3.2.S.7.3.
3.2.P.1	• Justify the role of Ethyl alcohol as antimicrobial preservative in the applied formulation. • Reference for use of Citric acid as anti-oxidant in the innovator formulation shall be submitted.	Ethyl alcohol is also used as solvent and penetration enhancer to enhance the solubility of ingredients and it is used as solvent/solubility enhancer in our formulation. By mistake only one function of ethyl alcohol (antimicrobial preservative) was written under section **3.2.P.1** which is corrected and submitted.
3.2.P.2.2.1	Complete testing has not been performed during Pharmaceutical equivalence studies.	Complete testing was performed during Pharmaceutical equivalence studies (mentioned in finish product reports under batch analysis), sterility and endotoxin test were not reported in pharmaceutical equivalence report which is corrected and revised report containing all test and results are submitted.
3.2.P.3.2	Justify the proposed quantity of drug substance in mg/ml against the label claim.	The quantity of drug substance is written mg per 1.1ml to achieve the deliverable volume (NLT 1ml) per unit in section 3.2.P.3.2. However, to clear the ambiguity, quantity of drug substance is corrected to mg/1ml and submitted
3.2.P.3.3	Justify the performance of terminal sterilization by autoclave while ethyl alcohol is used in the formulation	Firm has referred to a patent wherein terminal sterilization has been performed for Ketorolac injection containing Ethyl alcohol.
2.3.R.1.1	• Justify the performance of terminal sterilization by autoclave while ethyl alcohol is used in the formulation. • Submit the minimum handling capacity of the mixing vessel used for the production of trial batches.	• Firm has referred to a patent wherein terminal sterilization has been performed for Ketorolac injection containing Ethyl alcohol. • Minimum handling capacity of mixing vessel used in production of trial batches is 1.5 liters.

Decision: Deferred for scientific rationale of performing terminal sterilization, with reference to the innovator product.

Firm Response: After extensive search at product development stage we did not found any innovator document either recommending terminal sterilization or prohibiting from it, so we chose a safe combination of sterilization procedure for applied product i-e **Terminal sterilization along with filtration**.

We performed sterilization of applied product by filtration before filling and sealing (mentioned in BMR provided in CTD) and then terminally sterilized it.

After manufacturing and sterilization of applied product by above mentioned procedure we performed finish product analysis and stability studies **(accelerated and long term)** for six months on filtered and terminally sterilized drug product and the results were satisfactory **(results provided in CTD under Batch analysis and Stability Studies).**

Discussion: Registration Board deliberated that the innovator product has not recommended terminal sterilization for the applied product and that it is also not recommended when volatile solvents like ethyl alcohol is used in the formulation.

Decision of 317th meeting: Registration Board deferred the case for following:

- Submission of 3 months stability studies data with frequency of 0,1& 3 months, at both accelerated and long-term conditions, for three new batches, manufactured without terminal sterilization.

- Full fee of registration i.e., Rs. 30,000 for for submission of new stability studies data, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Response by Firm: Firm has submitted following:

- Batch manufacturing record of three newly manufactured stability batches wherein terminal sterilisation has not been included in the manufacturing method.
- Stability studies of three newly manufactured batches detailed hereafter, at both accelerated and long term conditions with testing frequency of 0,1& 3 months.
- Fee of Rs. 30,000/- vide deposit slip# 92930916838.

Batch No.	22ARn001	22ARn002	22ARn003
Batch Size	1800 ampoules	1800 ampoules	1800 ampoules
Manufacturing Date	07-2022	07-2022	07-2022

Decision of 326th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration Board further advised to send a reference to QA & LT Division for verification of the sterilization procedure during any upcoming inspection of the firm.

12.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot**
	Name, address of Manufacturing site.	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F.1-19/2014-Lic. from Secretary CLB for issuance of DML, declaring availability of "tablet general section".
	Dy. No. and date of submission	Dy.No 23835 dated 31-08-2021
	Details of fee submitted	Rs.20,000/- dated 22-04-2021
	The proposed proprietary name / brand name	**Caltis 250mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated tablet Contains: Clarithromycin ……. 250mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Antibacterial
	Reference to Finished product specifications	USP
	Proposed Pack size	1×10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Clarithromycin 250mg tablet, Teva Pharmaceutical, MHRA Approved.
	For generic drugs (me-too status)	Rithmo 250mg tablet, Sami Pharmaceuticals (Pvt.) Limited.

	GMP status of the Finished product manufacturer	New DML was granted after inspection vide letter No. F. 1-19/2014-Lic (Vol-1) Dated: 29-08-2018, including Capsule general section
	Name and address of API manufacturer.	Zhejiang Better Pharmaceuticals Co., Ltd. Sanjiang Road, Paojiang Industrial Zone, Shaoxing, Zhejiang, P.R. China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, , specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5% RH for 48 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Klacid 250mg tablet by Abbvie S.r.l Italy by performing quality tests. CDP has been performed against the Klacid 250mg tablet by Aesica Queenborough UK in Acid media (pH 1.0-1.2) & Acetate buffer 4.5pH and Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	--

Remarks of Evaluator[II]:

Section#	Observations	Firm's response
1.1	Differential fee of Rs. 10,000/- shall be submitted as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.	Differential fee of Rs. 10,000/- has been paid vide deposit slip# 9995357177 dated 20-06-2022
1.6.5	Valid GMP certificate issued by the relevant regulatory authority shall be submitted for the drug substance manufacturer.	Firm has submitted a document for " Written confirmation for active substances exported to EU' instead of GMP certificate, Zheijiang Food & Drug Administration.
3.2.S.4.2	Submit drug substance analytical record performed by M/s Islam pharma.	Submitted
3.2.P.2.2.1	In Pharmaceutical equivalence studies dissolution test has not been performed as per the USP monograph of Clarithromycin tablets.	Firm has submitted Dissolution test performance in continuation to Pharmaceutical equivalence studies.
3.2.P.3.2	• Justify the proposed quantity of Clarithromycin of 257.334mg per tablet in the batch formula against the label claim of 250mg per tablet. • A batch formula for proposed commercial batch size shall be provided	• Firmhas justified proposed quantity against the actual potency of drug substance determined on as is basis. • Commerical batch formula is submitted.
3.2.P.3.5	Submitted process validation protocol does not include sampling plan.	Revised process valiation protocol has been submitted.
3.2.P.8.3	➢ Submitted chromatograms of initial time point analysis declares file created date i.e., 18-02-2021 which is subsequent to the acquired date mentioned on each chromatogram. Clarification shall be submitted in this regard. ➢ Justification shall be submitted for calculating dissolution results based upon one value for standard peak area. ➢ Following shall be submitted:	• Laptop attached to the HPLC stopped working due to some fault and its hard disc was corrupted in Feb-2021 due to which new laptop was installed with HPLC. Previous data was recovered and transferred on 18-02-2021 to new laptop.

		➢ Compliance Record of HPLC software 21CFR & audit trail reports on product testing ➢ Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated). Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted.	• A new set of chromatograms print out for DRAP submission was taken after above incident so the chromatograms are showing file created date as 18-02-2021 (which is date if saved data transfer to new laptop) after the acquired date • HPLC system digital log has been submitted excluding for the intial time point analysis. • Record of Digital data logger for temperature and humidity monitoring of stability chamber is submitted. • Firm has submitted copy of commercialinvice which is not attested by DRAP I&E office.

Previous Decision: Deferred for following:

- Submission of valid GMP certificate of the drug substance manufacturer issued by the relevant regulatory authority.
- Onsight verification for the claim of the firm regarding disparity between date of acquisition & date of file creation in the submitted chromatograms.

Firm's response:

Firm has submitted following:

- DML certificate# ZJ20050286 of M/s Zhejiang Better Pharmaceuticals Co., Ltd. Sanjiang Road, Paojiang Industrial Zone, Shaoxing, Zhejiang, P.R. China valid till 09-11-2025, issued by Zheijiang Drug Administration.
- As mentioned in previous reply to the deficiencies letter No. F. 1-1/2019/PEC-DRAP (AD PEC-II) dated: 08th June, 2022 that new set of chromatograms was printed for CTD submission which was taken after the laptop fault and reinstallation of recovered data to new laptop, we also printed the chromatograms on date of test for all analysis and are part of analytical record.
- Copy of chromatograms printed on date of analysis for initial time point analysis for applied product containing same acquisition and file creation date is submitted.

Decision of 326th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration Board further advised to send a reference to QA & LT Division for verification of the submitted data of applied formulation during any upcoming inspection of the firm.

	The status in reference regulatory authorities	Pepcid 40mg/5ml Dry Suspension by M/s Salix Pharms USA.
	For generic drugs (me-too status)	Famlet 40mg/5ml Dry Suspension By M/s Winlet Pharmaceuticals Pvt., Ltd. Reg. No. 098322

	GMP status of the Finished product manufacturer	GMP inspection report conducted on 29-12-2020 concluding acceptable level of GMP compliance.
	Name and address of API manufacturer.	M/s Rakshit Pharmaceuticals Limited Plot No.68/A, Jawaharlal Nehru Pharma City, Parawada Mandal, Visakhapatnam District, Andhra Pradesh India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Famotidine is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (FM/08/00/017, FM/08/00/018, FM/08/00/019)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Famlet Dry Suspension 100mg/5ml by Winlet Pharmaceuticals Pvt., Ltd by performing quality tests. As the dissolution of famotidine for oral suspension is not described in USP, hence dissolution comparison was not performed for the product with innovator/ reference product.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	M/s Rakshit Pharmaceuticals Limited Plot No.68/A, Jawaharlal Nehru Pharma City, Parawada Mandal, Visakhapatnam District, Andhra Pradesh India.
API Lot No.	FT/21/025
Description of Pack (Container closure system)	60ml amber colored glass bottle.
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months)

	Real Time: 0, 3, 6 (Months)		
Batch No.	21GT07	21GT08	21GT09
Batch Size	67 Bottles	67 Bottles	67 Bottles
Manufacturing Date	07-2021	07-2021	07-2021
Date of Initiation	10-08-2021	10-08-2021	10-08-2021
No. of Batches	03		

Administrative Portion		
	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. E-1555174/DD/DCA/VSP/2021 issued by DCA Andhra Pradesh valid till 21-11-2022 submitted.
	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of commercial invoice No. RLP3721E0145, dated 29-09-2021 Famotidine 50 kg imported from Rakshit Pharmaceuticals Limited, attested by AD I&E DRAP dated 20-10-2021 is submitted.
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers is submitted

Remarks of Evaluator:

Section#	**Observation**
1.6.5	Valid GMP certificate of the drug substance manufacturer shall be submitted.
3.2.S.7	Long term stability studies data of drug substance is not as per Zone IVa conditions.
3.2.P.1	Details of accompanying reconstitution diluent shall be submitted.
3.2.P.2.5	Submit data for test for content of antimicrobial preservative & efficacy of preservative, as recommended by ICH Q1 (R2) guidelines & USP chapter <51>.
3.2.P.2.6	Compatibility studies with reconstitution diluent shall be submitted.
3.2.P.5.1	Test for content of antimicrobial preservative & efficacy of preservative, as recommended by ICH Q1 (R2) guidelines & USP chapter <51>, has not been included in the finished product specifications. You are advised to submit justification in this regard. Justification shall be submitted for not including test of "Content uniformity" & "Microbial Enumeration Tests" in the drug product specifications as recommended by USP monograph. Elaborate the sample preparation method including procedure of reconstitution in the Assay test method.
3.2.P.5.4	Submitted drug product COAs & BMRs declare manufacturing date as of July, 2021, whereas the COA of Famotidine from drug substance manufacture mentions its date of manufacture as August 2021, while date of drug substance analysis in the COA from M/s Focus & Rulz declare date of analysis as 10-08-2021. Justification shall be submitted for the manufacturing of drug product stability batches prior to the date of manufacture of drug substance.
3.2.P.8	Submit justification for not performing tests of content of antimicrobial preservative, efficacy of preservative, "Content uniformity" & "Microbial Enumeration Tests" during stability studies. In-use stability studies of reconstitution diluent have not been submitted.

Decision of 324th meeting: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Evaluation by PEC:

Section#	Observation	Firm's response
1.6.5	Valid GMP certificate of the drug substance manufacturer shall be submitted.	• Firm has submitted GMP certificate valid till 21-11-2022 issued by Drug Control Administration Andhra Pradesh, India. • Firm has also submitted License Retention certificate declaring that license of firm has been retained for the period from 29-12-2020 to 28-12-2025 issued by Drug Control Administration Andhra Pradesh, India.
3.2.S.7	Long term stability studies data of drug substance is not as per Zone IVa conditions.	Submitted.
3.2.P.1	Details of accompanying reconstitution diluent shall be submitted.	Firm has stated water as the reconstitution diluent.
3.2.P.2.5	Submit data for test for content of antimicrobial preservative & efficacy of preservative, as recommended by ICH Q1 (R2) guidelines & USP chapter <51>.	Firm has submitted preservative efficacy report for 28 days.
3.2.P.2.6	Compatibility studies with reconstitution diluent shall be submitted.	Submitted.
3.2.P.5.1	Test for content of antimicrobial preservative & efficacy of preservative, as recommended by ICH Q1 (R2) guidelines & USP chapter <51>, has not been included in the finished product specifications. You are advised to submit justification in this regard. Justification shall be submitted for not including test of "Content uniformity" & "Microbial Enumeration Tests" in the drug product specifications as recommended by USP monograph. Elaborate the sample preparation method including procedure of reconstitution in the Assay test method.	Firm has submitted revised analytical method and specifications for drug product including test of "Content uniformity" & "Microbial Enumeration Tests".
3.2.P.5.4	Submitted drug product COAs & BMRs declare manufacturing date as of July, 2021, whereas the COA of Famotidine from drug substance manufacture mentions its date of manufacture as August 2021, while date of drug substance analysis in the COA from M/s Focus & Rulz declare date of analysis as 10-08-2021. Justification shall be submitted for the manufacturing of drug product stability batches prior to the date of manufacture of drug substance.	Famotidine (Ulfam 20mg registration No. 011003 and Ulfam 40mg Tablets Registration No. 011004) is our registered products and routine manufactured for market requirements. As evident from BMR submitted with stability studies the material for product development of famotidine dry suspension is used from the lot (QCNO.588RM21) imported for our registered products. GRN, COA, Test report ADC cleared from DRAP office Islamabad dated 20-1 1-2020, Airway bill, Invoice of Drug Substance is attached for your kind consideration We mistakenly enclosed the API data of famotidine of the recent lot that was imported later after the processing of the trial batches of famotidine dry suspension.

			We apologize for the mistake and the correct data of the respective lot used in the product development of famotidine dry is submitted.
	3.2.P.8	Submit justification for not performing tests of content of antimicrobial preservative, efficacy of preservative, "Content uniformity" & "Microbial Enumeration Tests" during stability studies. In-use stability studies of reconstitution suspension have not been submitted.	• Content uniformity of the product is performed during analysis of finished product and data of microbial enumeration test performed during stability studies is compiled separately and enclosed for your kind consideration. • In-use stability studies of reconstitution suspension have not been submitted.

Decision of 326th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of GMP certificate No. 1/151-2 Drug-1-2019/7839 issued by Food and Drug Administration Haryana Panchkula (India) valid till 22-10-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of letter No. 17133/2019/DRAP-AD-CD(I&E) dated 26-12-2019 is submitted wherein the permission to import different API Strontium Ranelate for the purpose of test/analysis and stability studies is granted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted data of stability batches alongwith chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	The firm has submitted record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).

Sr. No.	Observations	Response by the firm
1.	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance / Active Pharmaceutical Ingredient by both Drug substance & Drug Product.	The firm has submitted copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both Drug substance & Drug Product manufacturer.
2.	Analytical method verification reports of parameters like specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.	The firm has submitted analytical method verification parameter of drug substance performed by drug product manufacturer. However, the specificity results were not presented. The relevant chromatograms of tested parameter were not provided.
3.	Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture.	The firm has submitted analytical method verification parameter of drug substance performed by drug product manufacturer. However, the specificity results were not presented. The relevant chromatograms of tested parameters were not provided.
4.	The reference formulation states granules for oral suspension for applied formulation. Clarification is required in manufacturing process and process control whether granules will be prepared in-house or otherwise.	Granules are prepared in-house by sieving the materials from appropriate mesh.
5.	Pharmaceutical equivalence of the applied drug shall be established with the innovator product and results of all the quality tests of the developed formulation and the innovator product shall be submitted and discussed.	The firm has submitted pharmaceutical equivalence with comparator product Osstium Sachet of M/s Atco Labs.
6.	Details of batch numbers of applicant and comparator product in pharmaceutical equivalence are required to be provided.	Applicant batch no.: Oestolos 2g Sachet = T-100 Comparator batch no.: Osstium Sachet = UJ006FM1

7.	Control of excipients is missing.	The firm has submitted that excipients used in the formulation are of pharmacopoeial grade and we are using BP specifications
8.	Analytical method verification reports of each parameter like specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug product shall be submitted.	The firm has not submitted analytical method verification reports of parameters like specificity, accuracy and repeatability (method precision) for drug product.
9.	Provide raw data sheets wherein details of sample solution preparation and standard solution and calculation formula for the assay test shall be mentioned	The firm has submitted raw data sheets for the assay test.
10.	Submitted invoice for the procurement of drug substance is not attested by AD (I & E). Clarification is required.	The firm has not submitted invoice for the procurement of drug substance.
11.	Justification is required for submission of single chromatogram as test result of each batch at different time intervals.	The firm has not submitted chromatograms for real time and accelerated stability studies at different time intervals. Instead, single chromatogram for each test interval is submitted.

Deferred for submission of following:

Sr. No.	**Decision of 316th meeting of RB**	**Response by the firm**
1.	Analytical method verification report of drug substance performed by drug product manufacturer as per requirement of section 3.2.S.4.3 of Form-5F.	The firm has submitted analytical method verification reports of strontium ranelate by performing precision, linearity, accuracy, specificity and system suitability studies.
2.	HPLC chromatograms of all time points of real time and accelerated stability studies.	The firm has submitted HPLC chromatograms of real time and accelerated stability studies for 0, 3 and 6-month time point.
3.	Analytical method verification reports of drug product performed by drug product manufacturer.	Analytical method verification reports of strontium ranelate by performing precision, linearity, accuracy, and specificity have been submitted.
4.	Evidence of procurement of drug substance with approval from DRAP.	The firm has submitted copy of letter No. 17133/2019/DRAP-AD-CD(I&E) dated 26-12-2019 is submitted wherein the permission to import different API Strontium Ranelate for the purpose of test/analysis and stability studies is granted. The firm submitted that material was directly received at the plant. Import invoice is attached specifying import of Strontium ranelate 0.70 Kg (batch # STRHB200003).

Decision of 321st meeting: Deferred for submission of documents confirming import of API i.e., Goods declaration/ Airway bill/Courier receipt etc.

Firm's response: Firm has submitted copy of DHL Air Way Bill (9851092604) in name of M/s Himark Laboratories, declaring the contents as "Strontium ranelate".

Decision of 326th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

9.	Submitted invoice for the procurement of drug substance is not attested by AD (I & E). Clarification is required.	Not submitted.
10.	UV spectra of dissolution data are required to be provided.	Not submitted.
11.	Justification is required for submission of single chromatogram as test result for each batch at different time intervals.	The submitted chromatograms do not differentiate between real time or accelerated stability studies time points of different batches.

Deferred for submission of following:

Sr. No.	Decision of 316th meeting of RB	Response by the firm
1.	Analytical method verification report of drug substance performed by drug product manufacturer as per requirement of section 3.2.S.4.3 of Form-5F.	The firm has submitted analytical method verification reports of drug substance by performing precision, linearity, accuracy, specificity and system suitability studies.
2.	HPLC chromatograms of all time points of real time and accelerated stability studies.	The firm has submitted HPLC chromatograms of real time and accelerated stability studies for 0, 3 and 6-month time point.
3.	UV spectra of dissolution testing, as recommended by the BP monograph of applied formulation, at all time points of stability study data.	Our UV-spectrophotometer (Insmark 300/2) was not software base due to which prints cannot be taken. Now we have purchased new software of UV-spectrophotometer with print option. Now the firm has submitted UV spectra of dissolution testing of stability batches.
4.	Analytical method verification reports of drug product performed by drug product manufacturer.	Analytical method verification reports of drug product have been provided by performing precision, linearity, accuracy, specificity and system suitability studies.
5.	Evidence of procurement of drug substance with approval from DRAP.	The firm has submitted copy of letter No.17133/2019/DRAP-AD-CD(I&E) dated 26/12/2019 wherein the permission to import different APIs Cetirizine Dihydrochloride for the purpose of test/analysis and stability studies is granted. The firm submitted that material was directly received at the plant. Import invoice is attached specifying import of Cetirizine dihydrochloride 0.07 Kg (batch # CTZ/083/20-21).

Decision of 321st meeting: Deferred for submission of documents confirming import of API i.e., Goods declaration/ Airway bill/Courier receipt etc.

Firm's response: Firm has submitted copy of DHL Air Way Bill (4320168341) in name of M/s Himark Laboratories from M/s Supriya Lifesciences.

Decision of 326th meeting: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration Board further advised to send a reference to QA & LT Division for verification of the submitted data of applied formulation during any upcoming inspection of the firm.

Case No. 02 Registration applications submitted along with stability studies data

17.	Name and address of manufacturer / Applicant	M/s Genetics Pharmaceuticals (Pvt.) LTD. Plot No. 539-A Sunder Industrial Estate, Lahore.
	Brand Name +Dosage Form + Strength	LURAX 80mg Tab
	Composition	Each Film Coated Tablet contains: Lurasidone Hydrochloride …… 80 mg
	Diary No. Date of R& I & fee	Dy. No 464 dated 17-11-2016 Rs.50,000/- Dated 09-11-2016,
	Pharmacological Group	Atypical Antipsychotic
	Type of Form	Form 5D
	Finished product Specifications	Manufacturer specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Approved by USFDA

	Me-too status (with strength and dosage form)	
	GMP status	Last inspection conducted on 29-03-2019 concluded satisfactory level of GMP compliance.
	Remarks of the Evaluator[II]	
18.	Name and address of manufacturer / Applicant	M/s Genetics Pharmaceuticals (Pvt.) LTD. Plot No. 539-A Sunder Industrial Estate, Lahore.
	Brand Name +Dosage Form + Strength	LURAX 40mg Tab
	Composition	Each Film Coated Tablet contains: Lurasidone Hydrochloride …… 40 mg
	Diary No. Date of R& I & fee	Dy. No 468 dated 17-11-2016 Rs.50,000/- Dated 09-11-2016,
	Pharmacological Group	Atypical Antipsychotic
	Type of Form	Form 5D
	Finished product Specifications	Manufacturer specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Approved by USFDA
	Me-too status (with strength and dosage form)	
	GMP status	Last inspection conducted on 29-03-2019 concluded satisfactory level of GMP compliance.
	Remarks of the Evaluator[II]	

STABILITY STUDY DATA

Drug	Lurax Tablets		
Name of Manufacturer	M/s Genetics Pharmaceuticals (Pvt.) Ltd. Plot No. 539-A Sunder Industrial Estate, Lahore.		
Manufacturer of API	M/s MEGAFINE PHARMA (P) LTD. PLOT NO. 31 TO 35 & 48 TO 51, 5,26 & K/201, VILLAGE LAKHMAPUR TALUKA DINDORI, NASHIK 422202		
API Lot No.	LUR/A620/III/89		
Description of Pack (Container closure system)	Alu-Alu blisters packed in unit carton		
Stability Storage Condition	Real time : 30°C ± 2°C / 75% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0,1,3,6 months Real Time: 0,3,6 months		
Batch No.	Batch No	Batch Size	Manufacturing Date
Lurax 80mg tablet	T-LD-01, T-LD-02, T-LD-03	2500 tablets each	April-2019
Lurax 40mg tablet	T-LU-01, T-LU-02, T-LU-03	2500 tablets	April-2019
Date of Initiation	April-2019	April-2019	April-2019
No. of Batches	03		
Date of Submission	20-11-2019		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Documents To Be Provided	**Status**
COA of API	Yes
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has provided copy of GMP certificate issued by FDA Maharashtra in the name of M/s MEGAFINE PHARMA (P) LTD. PLOT NO. 31 TO 35 & 48 TO 51, 5,26 & K/201, VILLAGE LAKHMAPUR TALUKA DINDORI, NASHIK 422202 valid upto 12-02-2022.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested respective documents like chromatograms, laboratory reports, data sheets etc.	Yes

Documents confirming import of API etc.	• Copy of invoice (Invoice No. 2/ME/AP17180300) for 2.4Kg of Lurasidone HCl has been submitted attested by Assistant Director DRAP, Lahore dated 13-04-2018.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

- Firm had initially submitted stability studies data with sampling time of 30 minutes in dissolution test, while upon inquiring about variation form the reference product in this regard, firm has also submitted dissolution results at 20minutes sampling time, for the same stability studies.

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Lurax 40 mg (Lurasidone hydrochloride) Tablet and Lurax 80mg (Lurasidone hydrochloride) Tablet by M/s. Genetics Pharmaceuticals (Pvt.) ltd. Plot No. 539-A, Sunder Industrial Estate, Lahore.

Reference No: F.1-2/2020-PEC dated 6th July, 2019.
Investigation Date and Time: 21st- 22nd September, 2020.
Investigation Site: Factory premises of M/s. Genetics Pharmaceuticals (Pvt.) ltd. Plot No. 539-A, Sunder Industrial Estate, Lahore.

Composition of Panel:

1. Mr. Shaheen Iqbal, (Director, DTL Lahore)
2. Ms. Ayesha Irfan (FID, DRAP, Lahore).
3. Mr. Ammar Ashraf Awan, (Assistant Director (PEC) DRAP, Islamabad.)

Scope of investigation:

- Investigation of the authenticity / genuineness of data (import of raw material and stability data), manufacturing of stability batches and stability studies on these batches.
- Performance of dissolution test with sampling time of 20 minutes at every time point of stability studies for both Lurax 40mg & Lurax 80mg tablet.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation have been summarized as under:

Q.	Question	Observation by panel
1.	Do you have documents confirming the import of API?	Copy of invoice (Invoice No. 2/ME/AP17180300) for 2.4Kg of Lurasidone HCl from M/s MEGAFINE PHARMA (P) LTD. PLOT NO. 31 TO 35 & 48 TO 51, 5,26 & K/201, VILLAGE LAKHMAPUR TALUKA DINDORI, NASHIK 422202, attested by Assistant Director DRAP, Lahore dated 13-04-2018, was presented.
2.	What was the rationale behind selecting the particular manufacturer of API?	The firm submitted that the API manufacturer was selected based upon Desk evaluation wherein availability of the GMP certificate of API manufacturer, provision of DMG and working standards were considered.
3.	Do you have documents confirming the import of reference standard and impurity standards?	The firm has submitted AD I&E attested invoice (Invoice# 1819210038) dated 29-05-2018 for the procurement of reference standards.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has submitted certificates of analysis for API (batch# LUR/A620/III/89) and reference standards.
5.	Do you have any approval of API or GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has provided copy of GMP certificate issued by FDA Maharashtra in the name of M/s MEGAFINE PHARMA (P) LTD. PLOT NO. 31 TO 35 & 48 TO 51, 5,26 & K/201, VILLAGE LAKHMAPUR TALUKA DINDORI, NASHIK 422202 valid upto 12-02-2022.

6.	Do you use API manufacturer method of testing?	• Firm has applied API manufacturer's method for the analysis of Lurasidone HCl. • *From available record it was identified that in the API manufacturer's method of analysis of Lurasidone, the retention time of API peak was recommended at about 8.5 minutes but in Genetics Pharmaceutical Pvt. Ltd. analysis of Lurasidone, the retention time of the peak was about 11 minutes.*
7.	Do you have stability studies reports on API?	The firm has submitted stability studies reports for both Accelerated & Long term conditions (as per Zone IV-a) from pellet manufacturer.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The manufacturer of has quantified degradation productions during stability studies.
9.	Do you have method for quantifying the impurities in the API?	Firm has referred to API manufacturer's analytical method wherein procedure for quantification of impurities has been described but from the available analytical record it was identified that *there was difference of the relative retention times of impurities, between that mentioned in the API manufacturer's method and that performed by the applicant.*
10.	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Firm has some remaining quantity of API which was available in the raw material store. Firm has used working standard for stability trials testing and some quantity of it was still available.
11.	Have you used pharmaceutical grade excipient?	All the excipients used in the formulation of Lurax tablets were of Pharmaceutical grade.
12.	Do you have documents confirming the import of the used excipient?	Invoices for the procurement of used excipients were presented.
13.	Do you have test reports and other records on the excipient used?	Relevant analytical record was available for the analysis of excipients.
14.	Do you have written and authorized protocols for the development of product?	Firm has presented general SOP for product development (document # GP-IMS-ISP-019-A). *Firm was advised to develop product specific protocol in future.*
15.	Have you performed Drug-excipient compatibility studies?	Firm has submitted that their formulation is qualitatively similar to that of the innovator product hence Drug-excipient compatibility study was not performed.
16.	Have you performed comparative dissolution studies?	Firm has submitted comparative dissolution studies against the reference product for both 40 mg & 80 mg strengths. • Comparative dissolution studies have been performed in following mediums: a. pH 1.2 buffer of 0.1N HCl b. pH 4.5 acetate buffer. c. pH 6.8 phosphate buffer. • Firm has submitted results for the CDP study showing comparable dissolution profile.
17.	Do you have product development (R&D) section	Firm has research and development department.
18.	Do you have necessary equipments available in product development section for development of product?	Firm has performed mixing in the lab scale mixer installed in the R&D section, while compression was performed using the facility of "Tablet general section".
19.	Are the equipments in product development section qualified?	The equipments used in the trial work were qualified.
20.	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	Firm has established proper maintenance / calibration / re-qualification program for the equipments used in the manufacturing of trial batches.
21.	Do you have qualified staff in product development section with proper knowledge and training in product development?	Firm has qualified staff (4 members) in Research and development

22.	Have you manufactured three stability batches for the stability studies of product as required?	Firm manufactured three stability batches for the stability studies as per requirement.
23.	What were the criteria for fixing the batch size of stability batches?	Firm has manufactured stability batches considering the quantity of dosage units required to complete long term stability studies till claimed shelf life.
24.	Do you have complete record of production of stability batches?	Complete batch manufacturing record, including dispensing, mixing, compression and packaging was verified from the relevant log books. Batch details were same as submitted earlier by the firm.
25.	Do you have protocols for stability testing of stability batches?	Firm has presented SOP for stability study protocol: Lurasidone 40mg tablet (GP-RND-SSP-041) Lurasidone 80mg tablet (GP-RND-SSP-042) *Firm was advised to include product specifications in the stability study protocol.*
26.	Do you have developed and validated the method for testing of stability batches?	Firm has validated the method for Assay test used for the performance of stability studies.
27.	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable.
28.	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Firm has qualified equipments / instruments which were used for the testing of API and finished product. *Firm was advised to get instrument qualification studies from third party source having valid recognition for this purpose.*
29.	Do your method of analysis stability indicating?	Firm has referred to test of specificity & forced degradation, performed during method validation to establish that the Assay test method is stability indicating.
30.	Do your HPLC software is 21CFR compliant?	Firm has used two different Agilent HPLCs, for the performance of Raw material & stability studies analysis, details of which are as under: i. Agilent 1260 Infinity II (open lab) (Equipment ID: GP-QC-HPLC-035, used for raw material analysis) ii. Agilent 1260 Infinity II (open lab) (Equipment ID: GP-RND-HPLC-001, used for FPP analysis) Both the systems could not be rated as 21 CFR compliant because of the following reasons: a) Date & time of the system were not locked and could be changed without any administrative control. b) The rights of the manager and analyst were not defined. c) The audit trail feature could be activated or de-.activated prior to any analysis. d) There was no control applied on the deletion of any file.
31.	Can you show Audit Trail reports on product testing?	Firm has demonstrated audit trail reports for the submitted stability studies data. Also the relevant log books were verified for the performance of stability studies.
32.	Do you have some remaining quantities of degradation products and stability batches?	Firm have the remaining quantities of stability batches which were verified.
33.	Do you have commitment batches kept on stability testing?	The firm has kept the remaining quantities of all batches in stability chamber for on-going real time stability study, which were verified.
34.	Do you have valid calibration status for the equipments used in production and analysis of applied product?	The calibration status of the equipments used in the manufacturing and testing of the stability batches were checked and found within their due date. The equipments were properly labeled for the current status of calibration and maintenance.
35.	Do Proper and Continuous monitoring and control are available for stability chamber?	• The firm has stability chambers for carrying out accelerated and real time stability studies provided with uninterrupted power supply and digital data loggers. Records of digital data logger for both

		chambers used in accelerated and real time stability studies were demonstrated. • Details of capacity of each chamber are as under: Chamber volume: 749litre Max. no of sliding grids: 14 Max. load per appliance : 300 kg
36.	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	All related manufacturing area, equipment, personnel and utilities are as per cGMP compliance. Moreover firm was advised as under; a. To strengthen their in-process Quality Assurance System, especially for the Raw material store. b. To enhance their manufacturing capacity, considering the number of already registered products and those which have been applied for registration.
Additional Questions referred to panel		
37.	Performance of dissolution test with sampling time of 20 minutes at every time point of stability studies for both Lurax 40mg & Lurax 80mg tablet.	The firm could not establish the performance of dissolution test with sampling time of 20 minutes at every time point of stability studies for both Lurax 40mg & Lurax 80mg tablet and following was observed in this regard: • The finished product testing method does not mention the performance of dissolution test at 20minutes time point. • Firm could not establish the performance of said study at every time point, from the equipment log book of UV spectrophotometer. • When one of the UV spectrophotometer report, for the performance of dissolution analysis at 20 minutes time point, was evaluated from the computer system it was observed that the date of creation of that file was subsequent to the date of modification, which established the fact that the said performance report has been created by changing the time & date of system. • Also the UV spectrophotometer system had no control overtime & date and the UV spectrophotometer reports were editable for any sort of details.

Conclusion:

Based on the area inspected, the technical personnel met and the documents reviewed, and considering the findings of inspection, it is concluded that M/s. Genetics Pharmaceuticals (Pvt.) ltd. Plot No. 539-A, Sunder Industrial Estate, Lahore have conducted stability studies of the following products.

Lurax 40mg Tablet
Lurax 80mg Tablet

However, few points are being recorded for the kind perusal of the Drug Registration Board, against questions **6, 9** and **37** of the above check list.

Decision of 297th meeting: Registration Board deferred the applications of Lurax 40mg tablet & Lurax 80mg tablet and decided to verify of following by panel to be constituted by Chairman Registration Board:

- Performance of dissolution test with sampling time of 20 minutes at time points of 9th month & onward, of long-term stability studies.

Evaluation by PEC: With reference to above cited decision on site inspection of M/s Genetics Pharmaceuticals (Pvt.) Ltd. Plot No. 539-A, Sundar Industrial Estate, Lahore was conducted on 27-01-2023, report of which is presented below:

Report on Investigation of Authenticity / Genuineness of data submitted for registration of Lurax 40 mg (Lurasidone hydrochloride) Tablet and Lurax 80mg (Lurasidone hydrochloride) Tablet by M/s. Genetics Pharmaceuticals (Pvt.) Ltd. Plot No. 539-A, Sundar Industrial Estate, Lahore.

Reference No.: No. F.1-2/2020-PEC dated: 24th March, 2021.
Investigation Date and Time: 27th January, 2023
Investigation Site: Factory premises of M/s. Genetics Pharmaceuticals (Pvt.) Ltd. Plot No. 539-A, Sundar Industrial Estate, Lahore.

Composition of Panel:

1. Dr. Muhammad Munawar Hayat, (Director, DTL Lahore)
2. Mr. Sheikh Rasheed (FID, DRAP, Lahore).
3. Mr. Akbar Ali, (Deputy Director (PEC) DRAP, Islamabad.)

Scope of investigation:

- Performance of dissolution test with sampling time of 20 minutes at 9 months and onward of stability studies for both Lurax 40mg & Lurax 80mg tablet.

Tools for Investigation:

The investigation was conducted by using a structured questionnaire of DRAP. For objective evidence physical inspection of the facilities for manufacturing and quality control, material used and retained, personnel involved, ongoing studies, printed data and integrity and security of data in respective databases were also audited. The details of investigation have been summarized as under:

Q. No.	Question	Observation by panel
1.	Do you have documents confirming the import of API including approval from DRAP?	Copy of invoice (Invoice No. 2/ME/AP17180300) for 2.4Kg of Lurasidone HCl from M/s MEGAFINE PHARMA (P) LTD. PLOT NO. 31 TO 35 & 48 TO 51, 5,26 & K/201, VILLAGE LAKHMAPUR TALUKA DINDORI, NASHIK 422202, attested by Assistant Director DRAP, Lahore dated 13-04-2018, was presented
2.	What was the rationale behind selecting the particular manufacturer of API?	The firm submitted that the API manufacturer was selected based upon Desk evaluation wherein availability of the GMP certificate of API manufacturer, provision of DMG and working standards were considered.
3.	Do you have documents confirming the import of reference standard and impurity standards?	The firm has submitted AD I&E attested invoice (Invoice# 1819210038) dated 29-05-2018 for the procurement of reference standards.
4.	Do you have certificate of Analysis of the API, reference standards and impurity standards?	The firm has submitted certificates of analysis for API (batch# LUR/A620/III/89) and reference standards.
5.	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	The firm has provided copy of GMP certificate issued by FDA Maharashtra in the name of M/s MEGAFINE PHARMA (P) LTD. PLOT NO. 31 TO 35 & 48 TO 51, 5,26 & K/201, VILLAGE LAKHMAPUR TALUKA DINDORI, NASHIK 422202 valid upto: 26-5-2023.
6.	Do you use API manufacturer method of testing for testing API?	• Firm has applied API manufacturer's method for the analysis of Lurasidone HCl.
7.	Do you have stability studies reports on API?	The firm has submitted stability studies reports for both Accelerated & Long-term conditions (as per Zone IV-a) from API manufacturer.
8.	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The manufacturer of has quantified degradation productions during stability studies.

9.	Do you have method for quantifying the impurities in the API?	Firm has referred to API manufacturer's analytical method wherein procedure for quantification of impurities has been described and firm has performed the API impurities quantification as per reference method of quantification from the API manufacturer.	
10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	Firm has some remaining quantity of API which was available in the raw material store. Firm has used working standard for stability trials testing and some quantity of it was still available	
11	Have you used pharmaceutical grade excipients?	All the excipients used in the formulation of Lurax tablets were of pharmaceutical grade.	
12	Do you have documents confirming the import of the used excipients?	Invoices for the procurement of used excipients were presented	
13	Do you have test reports and other records on the excipients used?	Relevant analytical record was available for the analysis of excipients	
14	Do you have written and authorized protocols for the development of Lurax 40mg & 80mg tablets?	Firm has Product Specific Protocol for both Lurax 40mg and 80mg Tablet.	
15	Have you performed Drug-excipient compatibility studies?	Firm has submitted that their formulation is qualitatively similar to that of the innovator product hence Drug-excipient compatibility study was not performed.	
16	Have you performed comparative dissolution studies?	Firm has submitted comparative dissolution studies against the reference product for both 40 mg & 80 mg strengths. • Comparative dissolution studies have been performed in following mediums: a. pH 1.2 buffer of 0.1N HCl b. pH 4.5 acetate buffer. c. pH 6.8 phosphate buffer. d. pH 3.8 McLaren Buffer • Firm has submitted results for the CDP study showing comparable dissolution profile.	
17	Do you have product development (R&D) section?	Firm has research and development department.	
18	Do you have necessary equipments available in product development section for development of tablets?	Firm has performed mixing in the lab scale mixer installed in the R&D section, while compression was performed using the facility of "Tablet general section".	
19	Are the equipments in product development section qualified?	The equipments used in the trial work were qualified.	
20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	Firm has established proper maintenance / calibration / re-qualification program for the equipments used in the manufacturing of trial batches.	
21	Do you have qualified staff in product development section with proper knowledge and training in product development?	Firm has qualified staff (6 members) in Research and development	

	22	Have you manufactured three stability batches for the stability studies of tablets as required?	Firm manufactured three stability batches for the stability studies as per requirement
	23	Do you have any criteria for fixing the batch size of stability batches?	Firm has manufactured stability batches considering the quantity of dosage units required to complete long term stability studies till claimed shelf life.
	24	Do you have complete record of production of stability batches?	Complete batch manufacturing record, including dispensing, mixing, compression and packaging was verified from the relevant log books. Batch details were same as submitted earlier by the firm *Firm has performed disintegration time as not more than 30minutes whereas dissolution time was established as 20minutes, Firm was advised to revise the disintegration time in view of 20 minutes; Results are within the Range i.e. 6 minutes*
	25	Do you have protocols for stability testing of stability batches?	Firm has presented SOP for stability study protocol: Lurasidone 40mg tablet (GP-RND-SSP-041) Lurasidone 80mg tablet (GP-RND-SSP-042).
	26	Do you have developed and validated the method for testing of stability batches?	Firm has validated the method for Assay test used for the performance of stability studies.
	27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Not applicable
	28	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Firm has qualified equipments / instruments which were used for the testing of API and finished product.
	29	Do your method of analysis stability indicating?	Firm has referred to test of specificity & forced degradation, performed during method validation to establish that the Assay test method is stability indicating.
	30	Do your HPLC software 21CFR Compliant?	Firm has used two different Agilent HPLCs, for the performance of Raw material & stability studies analysis, details of which are as under: i. Agilent 1260 Infinity II (open lab) (Equipment ID: GP-QC-HPLC-035, used for raw material analysis) ii. Agilent 1260 Infinity II (open lab) (Equipment ID: GP-RND-HPLC-001, used for FPP analysis) Both the systems are 21 CFR compliant.
	31	Can you show Audit trail reports on testing	Firm has demonstrated audit trail reports for the submitted stability studies data. Also the relevant log books were verified for the performance of stability studies

32	Do you have some remaining quantities of degradation products and stability batches?	Firm have the remaining quantities of stability batches which were verified.
33	Do you have stability batches kept on stability testing?	The firm has completed stability studies (Both Accelerated and Real Time) up to Shelf Life of both Lurax 40mg & 80mg Tablet.
34	Do you have valid calibration status for the equipments used in tablets production and analysis?	The calibration status of the equipments used in the manufacturing and testing of the stability batches were checked and found within their due date. The equipments were properly labelled for the current status of calibration and maintenance.
35	Do proper and continuous monitoring and control are available for stability chamber?	• The firm has stability chambers for carrying out accelerated and real time stability studies provided with uninterrupted power supply and digital data loggers. Records of digital data logger for both chambers used in accelerated and real time stability studies were demonstrated. • Details of capacity of each chamber are as under: Chamber volume: 749litre Max. no of sliding grids: 164 Max. load per appliance: 300 kg
36	Do related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	All related manufacturing area, equipment, personnel and utilities are as per cGMP compliance.

Conclusion:
Based on the area inspected, the technical personnel met and the documents reviewed, and considering the findings of inspection, it is concluded that M/s. Genetics Pharmaceuticals (Pvt.) ltd. Plot No. 539-A, Sunder Industrial Estate, Lahore have conducted dissolution test with sampling time of 20 minutes at 9 months and onward of stability studies of both products i.e.;

i. Lurax 40mg Tablet
ii. Lurax 80mg Tablet

Decision of 326th meeting: Registration Board Approved the applications of LURAX 40mg Tab & LURAX 80mg Tab with Innovator's specifications. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications for each strnegth as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 03 Registration applications of newly granted DML or New section (Human)

New Section

M/s Wimits Pharmaceuticals (Pvt.) Ltd. Lahore. Plot #129 Sundar Industrial Estate, Raiwind road, Lahore The Central Licensing Board in its 286th meeting held on 11th May, 2022 has considered and approved the grant of Drug Manufacturing License to M/s Wimits Pharmaceuticals (Pvt.) Ltd. Lahore. Plot #129 Sundar Industrial Estate, Raiwind road, Lahore by way of Formulation vide approval letter No. F. 1-10/2012-Lic dated 7th June, 2022 with following (06) sections.

S No.	Section
1	Dry Powder Suspension (Cephalosporin) Section
2	Capsule (Cephalosporin) Section
3	Dry Powder Injection (Cephalosporin) Section

19.	Name, address of Applicant / Marketing Authorization Holder	M/s Wimits Pharmaceuticals (Pvt) Ltd. Lahore. Plot #129 Sundar Industrial Estate,Raiwind road,Lahore
	Name, address of Manufacturing site.	M/s Wimits Pharmaceuticals (Pvt) Ltd. Plot #129 Sundar Industrial Estate,Raiwind road,Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy.No 37580 dated 23-12-2022
	Details of fee submitted	Rs.30,000/- dated 15-12-2022
	The proposed proprietary name / brand name	**Welcef 250mg IM injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Ceftriaxone Sodium eq. to Ceftriaxone…250mg
	Pharmaceutical form of applied drug	Dry powder injection
	Pharmacotherapeutic Group of (API)	Cephalosporin Antibiotics
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Oxidil 250mg IM injection by M/s Sami Pharmaceuticals (Pvt.)Ltd, Reg. No. 023073
	For generic drugs (me-too status)	Rocephin injection 250mg IM by M/s F.Hoffman-La Roche Ltd. Basel, Switzerland, USFDA Approved.
	GMP status of the Finished product manufacturer	GMP Certificate No.70/2021-DRAP(FID/2061717-540) Dated 08-09-21
	Name and address of API manufacturer.	M/s. SinopharmWeiqida Pharmaceutical Co., Ltd. Pharmaceutical Industrial Park, Economic & Technological Development Zone, Datong, Shanxi, China 037300.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Ceftriaxone sodium is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical

		form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C /65% ± 5%RH for 48 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (Q012008048, Q012008049, Q012008050)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Oxidil 250mg IM Injection by Sami Pharmaceuticals (Pvt) Ltd. by performing quality tests (Identification, PH, Assay)
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s. Sinopharm Weiqida Pharmaceutical Co., Ltd. Address: Pharmaceutical Industrial Park, Economic & Technological Development Zone, Datong, Shanxi, China 037300.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks by the Evaluator:

- Justification for not performing PE against innovator product.

Firm's response:

Firm has submitted new Pharmaceutical equivalence studies against the Rocephin 500mg injection.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 129/2020-DRAP (AD/1998630-530) issued by Drug regulatory Authority of Pakistan(Government of Pakistan) valid till 26/06/2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	NA
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator: Firm has submitted stability studies as per the monograph approved by Registration Board in its 313th meeting and notified vide letter No. F.14-I/2022-PEC dated 14th March 2022.

Observations	**Firm's response**
Justification shall be submitted for not performing Pharmaceutical equivalence & CDP studies against the innovator product	Firm has submitted new Pharmaceutical equivalence and CDP studies against the Cefspan suspension for the 400mg strength.

Decision: Approved with manufacturer specifications as approved by Registration Board in its 313th meeting and notified vide letter No. F.14-I/2022-PEC dated 14th March 2022. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

Case no. 04 Registration Applications of Import drug products:

a. Deferred cases (Veterinary):

27.	**Name and address of Applicant**	M/s Atzan Pharmaceuticals, commercial area aziz Bhatti town Sargodha
	Detail of Drug Sale License	DSL No. 0011000 0001644 valid up 14-Apr-2020
	Name and address of manufacturer	M/s Vietnam Sakan Technology Development & Investment Joint Stock Company, Lot D1-D4 Dong Tho Industrial Complex, Yen Phong District, BAC Ninh Province, Vietnam.
	Marketing authorization holder	M/s Vietnam Sakan Technology Development & Investment Joint Stock Company, Lot D1-D4 Dong Tho Industrial Complex, Yen Phong District, BAC Ninh Province, Vietnam.
	Name of exporting country	Vietnam
	Type of Form	Form 5-A
	Diary No. & Date of R& I	Dy. No 23395 Dated 07-12-2017
	Fee including differential fee	Rs. 100,000/- Dated 07-12-2017
	Brand Name +Dosage Form + Strength	Cefquin 2.5 LA suspension for injection
	Composition	Each ml of suspension contains; Cefquinome as sulfate……..25mg
	Finished Product Specification	In-House
	Pharmacological Group	Antiobiotic
	Shelf life	24 months
	Demanded Price	Decontrolled.
	Pack size	1's (type I glass vial)
	Me-too status	COBACTAN 2.5% SUSPENSION FOR INJECTION (50mL), Reg. No. 078219

Stability studies	Firm has submitted long term (24 months) at 30ºC 65±5%RH & accelerated (06 months) stability data at 40ºC, 75±5% RH for three batches.
Detail of certificates attached	➢ Original Legalized Free Sale Certificate issued by Ministry of Agriculture and Rural Development, Department of Animal Health Vietnam (certificate no. 494/2017/QLT-CFS) dated 26/06/2017 is submitted. ➢ Copy of GMP certificate (No.23/22/GCN-GMP) dated 25/07/2022 issued by Ministry of Agriculture and Rural Development. The certificate is valid for 05 years. **As per copy of GMP certificate the manufacturer has production lines of Beta-Lactam in the form suspension for Injection.** ➢ Copy of authorization letter is submitted through which M/s Atzan Pharmaceuticals is appointed as agent for different products including the applied product.

Remarks of the Evaluator:

Observations	Response
Since registration of injections is granted with 01filled volume but you have applied for 03, therefore, select 01 filled volume of the applied product along with the stability study data conducted under the conditions of zone IV-A of 03 batches of relevant filled volume, please. Moreover, provide me-too status of the applied product in same filled volume as selected.	The firm has requested for 50mL filled volume. Me too: COBACTAN 2.5% SUSPENSION FOR INJECTION (50mL), Reg. No. 078219
Submit valid copy of drug sale license.	The firm has submitted receipt for renewal of DSL. Ref No. 384-11940097-2022 Add: 13-E, Commercial area, Aziz Bhatti Town, District Sargodha.
Detail of primary packaging material is required.	Type I glass vial, 50mL.

Decision of 320th meeting: The Board discussed that B-Lactam preparations include Penicillin as well as Cephalosporin and submitted copy of GMP certificate does not clarify that the production lines of manufacturer are for Penicillin or Cephalosporin. Keeping in view, the Board decided to defer the case for further clarification of availability of manufacturing facility for the applied product.

Firm's reply:

We would like to provide the response of manufacturer to the honorable authority which is as following:

According to the regulations of the Vietnam Department of Animal Health, the GMP Certificate in Vietnam has the same standard format. There is no division into Penicillin line or Cephalosporin line, which means that the certificated company is allowed to produce both Betalactam product lines on that same line

However, if there is such a specific division in your country regulation, we would like to point out our ideas:

1 - The GMP certificate in Vietnam cannot be divided into parts, if necessary, Sakan Vietnam would like to request a document from the Department of Animal Health that it is allowed to produce both products on the same Betalactam line.

2 - If you request to produce those Penicillin or Cephalosporin products separately (but not to the extent that we have to have two separate production lines for it). In this case; we carry out batch production. Each batch will continuously produce one of the Penicillin or Cephalosporin products then sterilize the whole production line before switching to the other product.

Decision: Registration Board after thorough deliberation decided to defer the application, for availability of separate manufacturing facility for the applied formulation with reference ot the provisions of Drug L, R&A rules, 1976.

Case No. 01 Registration applications of Export facilitation cases

a. New Cases

Case No. 1: M/s Nabiqasim Industries (Pvt) Ltd. The following case was referred to PEC from Assistant Director PR-I/EFD vide letter No. F.1-6/2019-PR-I (EFD) dated 28-02-2023.		
28.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Nabiqasim Industries (Pvt) Ltd. 17/24 Korangi Industrial Area Karachi.**
	Name, address of Manufacturing site.	M/s Nabiqasim Industries (Pvt) Ltd. 17/24 Korangi Industrial Area Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 28-05-2022 issued based on inspection dated 27-05-2022.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of DML dated 27-04-2020. The letter specifies Tablet (General) Section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 710 dated 09-01-2023
	Details of fee submitted	PKR 27,000/- Dated 08-12-2022 + PKR 48,000/- Dated 31-12-2022
	The proposed proprietary name / brand name	**AZILSAR 40mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Azilsartan medoxomil potassium eq to Azilsartan medoxomil…… 40mg
	Pharmacotherapeutic Group of (API)	Angiotensin Receptor Blocker
	Pharmaceutical form of applied drug	White to off white colored uncoated round shape core tablet plain from both sides
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	14's, 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Edarbi Tablet (**USFDA** Approved)
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	Ami Lifesciences Pvt Ltd. Block No.82/B, ECP Road, AT& Post: Karakhadi-391450, Taluka: Paura, District Vadodara. Gujarat, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification,

		reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 5°C ± 3°C for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Edarbi Tablet 40mg manufactured by Takeda Ireland Ltd.. Firm has submitted CDP results of their product against the innovator's product Edarbi Tablet 40mg in 4 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

Description of Pack (Container closure system)	Alu-alu Blister		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 1, 2, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	509DS01	509DS02	509DS03
Batch Size	1000 Tablet	1000 Tablet	1000 Tablet
Manufacturing Date	07-2022	07-2022	07-2022
Date of Initiation	08-08-2022	08-08-2022	08-08-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 22043267) dated 18-04-2022 issued by Food and Drugs Control Administration Gujrat State India. The certificate is valid till 17-04-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of License to import API Azilsartan medoxomil 0.5Kg dated 11-03-2022. Firm has also submitted copy of commercial invoice dated 25-02-2022 specifying 0.5Kg Azilsartan medoxomil, however the invoice is **NOT** cleared by AD (I&E) DRAP.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not available
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	The sample and standard solution concentration for assay test of drug substance is 0.1mg/ml while in accuracy test in method verification studies you have performed the accuracy test within a concentration range of 0.5mg/ml to 1.5mg/ml taking 1mg/ml as 100%. Clarify in the light of applicable guidelines.	• As per method verification protocol of drug substance in assay testing method of drug substance nominal concentration of Analyte for standard and sample preparation is 0.1mg/ml, same concentration was used as 100% while preparing samples for evaluation of method verification studies. • During report compilation 1mg/ml concentration mention as 100% in accuracy parameter is a typo-graphical error. We acknowledge that 0.1mg/ml as 100% concentration, 0.05mg/ml as 50% concentration and 0.15mg/ml as 150% concentration is used for sample preparation. Revised Analytical Method verification report is provided by the firm.
2.	Submit clearance certificate or copy of commercial invoice cleared by AD (I&E) DRAP, since the submitted commercial invoice is not cleared by AD (I&E) DRAP.	Firm has submitted copy of License to import API Azilsartan medoxomil 0.5Kg dated 11-03-2022. Firm has also submitted copy of commercial invoice dated 25-02-2022 specifying 0.5Kg Azilsartan medoxomil, however the invoice is **NOT** cleared by AD (I&E) DRAP.
3.	Submit stability study data till 6 months, since the submitted data is till 3 months only.	Firm has submitted 6th month stability study data along with analytical record.
4.	Submit copy of BMR of three stability batches.	Firm has submitted copy of BMR of three stability batches.

Registration Board was apprised that the firm has also submitted copy of commercial invoice (No. EXP/1/21/-22/0727 dated 25-02-2022 along with copy of Goods Declaration with IGM No KPAF-1711-2022 dated 06-03-2022 and copy of airway bill number 176-3509 3914 dated 4th March 2022.

Decision:

Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

• **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
29.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Nabiqasim Industries (Pvt) Ltd. 17/24 Korangi Industrial Area Karachi.**
	Name, address of Manufacturing site.	M/s Nabiqasim Industries (Pvt) Ltd. 17/24 Korangi Industrial Area Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 28-05-2022 issued based on inspection dated 27-05-2022.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of DML dated 27-04-2020. The letter specifies Tablet (General) Section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 709 dated 09-01-2023
	Details of fee submitted	PKR 27,000/- Dated 08-12-2022 + PKR 48,000/- Dated 31-12-2022
	The proposed proprietary name / brand name	**AZILSAR 80mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Azilsartan medoxomil potassium eq to Azilsartan medoxomil…… 80mg
	Pharmacotherapeutic Group of (API)	Angiotensin Receptor Blocker
	Pharmaceutical form of applied drug	White to off white colored uncoated round shape core tablet plain from both sides
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	14's, 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Edarbi Tablet (**USFDA** Approved)
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	Ami Lifesciences Pvt Ltd. Block No.82/B, ECP Road, AT& Post: Karakhadi-391450, Taluka: Paura, District Vadodara. Gujarat, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form,

		manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 5°C ± 3°C for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Edarbi Tablet 80mg manufactured by Takeda Ireland Ltd. Firm has submitted CDP results of their product against the innovator's product Edarbi Tablet 80mg in 4 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

Registration Board was apprised that the firm has also submitted copy of commercial invoice (No. EXP/1/21/-22/0727 dated 25-02-2022 along with copy of Goods Declaration with IGM No KPAF-1711-2022 dated 06-03-2022 and copy of airway bill number 176-3509 3914 dated 4th March 2022.

Decision:

Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 2: M/s AGP Limited.

The following case was referred to PEC from Assistant Director PR-I/EFD vide letter No. F.1-6/2019-PR-I (EFD) dated 12-01-2023.

30.	Name, address of Applicant / Marketing Authorization Holder	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Contract manufacturing agreement between both firms dated 25-08-2020 is provided)
	GMP status of the firm	**Seraph Pharmaceuticals:** Firm has submitted copy of GMP certificate dated 11-11-2022 issued on the basis of inspection dated 11-10-2022.
	Evidence of approval of manufacturing facility	Firm (M/s Seraph Pharmaceuticals) has submitted copy of Issuance of DML letter dated 12-06-2017 specifying Dry Vial Cephalosporin section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 14295 dated 13-06-2022
	Details of fee submitted	PKR 75,000/- Dated 20-05-2022
	The proposed proprietary name / brand name	**CEBACTUM 1gm Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Vial Contains: Cefoperazone as Sodium…500mg Sulbactam as Sodium…500mg
	Pharmaceutical form of applied drug	Sterile white to almost white powder filled in transparent glass vials
	Pharmacotherapeutic Group of (API)	Cephalosporin antibiotic
	Reference to Finished product specifications	JP specs
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Sulperazone Intravenous Injection 1g (PMDA Japan Approved)
	For generic drugs (me-too status)	Cefbac injection by Seraph Pharmaceuticals
	Name and address of API manufacturer.	Qilu Antibiotics Pharmaceutical Co Ltd. No. 849, Dongia Town Licheng District Jinan City, Shandong Province China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing

		process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for their product against Cebac Injection of Bosch Pharm.
	Analytical method validation/verification of product	Firm has submitted report of verification studies of analytical method for the drug substance and product.

STABILITY STUDY DATA

Batch No.	T001	T002	T003
Batch Size	1000 vials	1000 vials	1000 vials
Manufacturing Date	02-2022	02-2022	02-2022
Date of Initiation	03-03-2022	03-03-2022	03-03-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to following product specific inspection reports • Dexpro (Dexlansoprazole) 30 and 60mg Capsule. PSI was conducted on 11-09-2018 and the product was approved in 285th meeting of Registration Board. • Neovel 800mg Tablet. Its PSI was conducted on 14-12-2018 and the product was approved in 288th meeting of Registration Board.

		• Serbica 20mg Capsule. Its PSI was conducted on 29-10-2018 and the product was approved in 290th meeting of Registration Board. Firm has further submitted that their product Neogene 2g Injection was approved in 293rd meeting of Registration Board. That product was applied by AGP and contract manufactured by Seraph and was submitted on Form 5F (CTD) along with complete data.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of GMP certificate (No. SD20190876) issued by CFDA China is submitted by the firm. The certificate is valid till 21-04-2024. Firm has also submitted copy of DML of the firm (No. Lu 20160006) issued by CFDA China. The license is valid till 03-11-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Firm has submitted copy of letter of loan and memorandum of understanding with M/s Swiss Pharma for getting 10Kg loan of Cefoperazone sodium and sulbactam sodium. • Firm has submitted copy of invoice specifying import of 40Kg Cefoperazone sodium and sulbactam sodium by M/s Swiss Pharma. The invoice is cleared by AD (I&E) DRAP dated 11-08-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that since the stability study of this product was initiated 2 years ago, at that time our HPLC (Schimadzu) was not 21 CFR compliant. However now we have 21 CFR compliant (Perkin Elmer) HPLC system. We undertake that in future we will use 21 CFR compliant HPLC system for stability testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Specify the brand name of the applied product, since Cebactum injection is mentioned in few section while Parabactum Injection is mentioned in other sections.	Cebactum Injection is our proposed brand name while Parabactum is typographic mistake. The registered brand of the manufacturer is Cefbac injection and the attached stability data is of cefbac injection.
2.	Specify the exact source of drug substance including complete address, since the submitted document is in chinese language and are not readable.	Qilu Antibiotics Pharmaceutical Co Ltd. No. 849, Dongia Town Licheng District Jinan City, Shandong Province China.
3.	Submit complete module 3.2.S as per CTD guidance document since the submitted documents are not aligned as recommended in the guidance document.	Firm has submitted complete module 3.2.S as per the guidance document approved by Registration Board.
4.	Submit data in section 3.2.S.4.1 and 3.2.S.4.2 as per the guidance document approved by Registration Board which specifies that "Copies of	Firm has submitted specifications of API and its analytical method from both API manufacturer as well as drug product manufacturer.

	the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	
5.	Submit data of verification of analytical procedure of drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".*	Firm has submitted API verification studies performed by drug product manufacturer.
6.	Submit COA of the relevant batch of API used in the development for three stability batches in section 3.2.S.4.4.	Firm has submitted COA of relevant batch of API from both API manufacturer as well as drug product manufacturer.
7.	Justification of specifications of drug substance specifies that the drug substance is developed as per in house specifications, justify since JP monograph is available for the applied drug product	The drug substance has been developed as per JP and Chinese specifications, however the limits of all tests as well as detailed specifications complies JP monograph as well.
8.	Submit COA of working standard of drug substance in section 3.2.S.5.	Firm has submitted COA of working standard.
9.	Submit complete stability study data of three batches of drug substance in section 3.2.S.7.3.	Firm has submitted complete stability data of API three batches as per zone IV-A conditions.
10.	Submit BMR of three stability batches.	Firm has submitted BMR of three stability batches.

Decision: Approved.

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

31.	Name, address of Applicant / Marketing Authorization Holder	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi, Pakistan**
	Name, address of Manufacturing site.	M/s Seraph Pharmaceuticals Plot # 210, Industrial Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) (Contract manufacturing agreement between both firms dated 25-08-2020 is provided)
	GMP status of the firm	**Seraph Pharmaceuticals:** Firm has submitted copy of GMP certificate dated 11-11-2022 issued on the basis of inspection dated 11-10-2022.
	Evidence of approval of manufacturing facility	Firm (M/s Seraph Pharmaceuticals) has submitted copy of Issuance of DML letter dated 12-06-2017 specifying Dry Vial Cephalosporin section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 14296 dated 13-06-2022

	Details of fee submitted	PKR 75,000/- Dated 20-05-2022
	The proposed proprietary name / brand name	**CEBACTUM 2gm Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Vial Contains: Cefoperazone as Sodium…1g Sulbactam as Sodium…1g
	Pharmaceutical form of applied drug	Sterile white to almost white powder filled in transparent glass vials

3.	Documents for the procurement of API with approval from DRAP (in case of import).	• Firm has submitted copy of letter of loan and memorandum of understanding with M/s Swiss Pharma for getting 10Kg loan of Cefoperazone sodium and sulbactam sodium.

		• Firm has submitted copy of invoice specifying import of 40Kg Cefoperazone sodium and sulbactam sodium by M/s Swiss Pharma. The invoice is cleared by AD (I&E) DRAP dated 11-08-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that since the stability study of this product was initiated 2 years ago, at that time our HPLC (Schimadzu) was not 21 CFR compliant. However now we have 21 CFR compliant (Perkin Elmer) HPLC system. We undertake that in future we will use 21 CFR compliant HPLC system for stability testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Specify the brand name of the applied product, since Cebactum injection is mentioned in few section while Parabactum Injection is mentioned in other sections.	Cebactum Injection is our proposed brand name while Parabactum is typographic mistake. The registered brand of the manufacturer is Cefbac injection and the attached stability data is of cefbac injection.
2.	Specify the exact source of drug substance including complete address, since the submitted document is in chinese language and are not readable.	Qilu Antibiotics Pharmaceutical Co Ltd. No. 849, Dongia Town Licheng District Jinan City, Shandong Province China.
3.	Submit complete module 3.2.S as per CTD guidance document since the submitted documents are not aligned as recommended in the guidance document.	Firm has submitted complete module 3.2.S as per the guidance document approved by Registration Board.
4.	Submit data in section 3.2.S.4.1 and 3.2.S.4.2 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted specifications of API and its analytical method from both API manufacturer as well as drug product manufacturer.
5.	Submit data of verification of analytical procedure of drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".*	Firm has submitted API verification studies performed by drug product manufacturer.

6.	Submit COA of the relevant batch of API used in the development for three stability batches in section 3.2.S.4.4.	Firm has submitted COA of relevant batch of API from both API manufacturer as well as drug product manufacturer.
7.	Justification of specifications of drug substance specifies that the drug substance is developed as per in house specifications, justify since JP monograph is available for the applied drug product	The drug substance has been developed as per JP and Chinese specifications, however the limits of all tests as well as detailed specifications complies JP monograph as well.
8.	Submit COA of working standard of drug substance in section 3.2.S.5.	Firm has submitted COA of working standard.
9.	Submit complete stability study data of three batches of drug substance in section 3.2.S.7.3.	Firm has submitted complete stability data of API three batches as per zone IV-A conditions.
10.	Submit BMR of three stability batches.	Firm has submitted BMR of three stability batches.

Decision: Approved.

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 3: M/s Bio-Labs(Pvt). Ltd.

The following case was referred to PEC from Assistant Director PR-I/EFD vide letter No. F.1-6/2019-PR-I (EFD) dated 28-02-2023.

32.	Name, address of Applicant / Marketing Authorization Holder	**M/s Bio-Labs(Pvt). Ltd Plot No. 145 Industrial Triangle Kahuta Road Islamabad**
	Name, address of Manufacturing site.	M/s Bio-Labs(Pvt). Ltd Plot No. 145 Industrial Triangle Kahuta Road Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 28-02-2022 issued on the basis of inspection dated 03-08-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of additional sections dated 24-03-2007 specifying Tablet (General) section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 3219 dated 03-02-2023
	Details of fee submitted	PKR 75,000/- Dated 18-01-2023
	The proposed proprietary name / brand name	**BIOXOVID 150/100 mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each combo pack contains**: Each film coated tablet contains: Nirmatrelvir ……..150mg Each film coated tablet contains: Ritonavir ……..100mg
	Pharmaceutical form of applied drug	**Nirmatrelvir**: Blue colored, oblong shaped film coated Tablets **Ritonavir:** White colored, oblong shaped film coated Tablets.
	Pharmacotherapeutic Group of (API)	Nirmatrelvir: Oral Protease inhibitor Ritonavir: CYP3A Inhibitor and antiretroviral oral Protease Inhibitor drug

	Reference to Finished product specifications	Nirmatrelvir: Innovator Specifications Ritonavir: USP Specification
	Proposed Pack size	30's Each Blister contains : 4 Blue colored, film coated Nirmatrelvir tablets……..150mg 2 white, film coated Ritonavir tablets……100mg Packed in Alu-PVC foil enclosed with leaflet.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Paxlovid 150 mg/100 mg film-coated tablets (MHRA granted its Conditional Marketing Authorisation)
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	**Nirmatrelvir**: Zenji Pharmaceuticals (Suzhou) Ltd. No. 122, Xuqing Road, Xuguan Town, Suzhou, Jiangsu China. **Ritonavir**: Shanghai Desano Chemical Pharmaceutical Co. Ltd. No. 417 Binhai Road,Laogang Town, Pudong New Area, Shanghai, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Nirmatrelvir**: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 24 months. **Ritonavir**: Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing

		process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for their product against Jupitavir Tablet of Incepta Pharmaceutical Ltd. Firm has submitted results of pharmaceutical equivalence for their product against Jupitavir Tablet of Incepta Pharmaceutical Ltd.
	Analytical method validation/verification of product	Firm has submitted report of verification studies of analytical method for the drug substance and product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Evaluation by PEC:

- As per MHRA Public Assessment Report, the innovator product Paxlovid has been granted a Conditional Marketing Authorisation (CMA) instead of complete marketing authorization, Justify how this reference can be used as evidence of approval of reference regulatory authorities for safety and efficacy.
- Submit data in section 3.2.S.4.1 and 3.2.S.4.2 for Nirmatrelvir drug substance as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Submit data of verification of analytical procedure of Nirmatrelvir drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".* Further justify how the analysis of drug substance was performed without performing verification studies.
- Submit COA of the relevant batch of Nirmatrelvir API used in the development for three stability batches in section 3.2.S.4.4.
- Submit COA of reference standard actually used in the analysis of Nirmatrelvir drug substance.
- Nirmatrelvir contained in Paxlovid Tablet was granted Conditional Marketing Authorisation by MHRA on 31-12-2021, while your drug substance manufacturer has submitted stability study data of 3 batches of drug substance which were manufacturer in January 2020. Clarification is required in this regard.
- Submit data in section 3.2.S.4.1 and 3.2.S.4.2 for Ritonavir drug substance as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Submit data of verification of analytical procedure of Ritonavir drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".* Further justify how the analysis of drug substance was performed without performing verification studies.
- Submit COA of the relevant batch of Ritonavir API used in the development for three stability batches in section 3.2.S.4.4.
- Submit COA of reference standard actually used in the analysis of Ritonavir drug substance.
- The applied product is a co-blister, while the blistering step is not included in the process validation protocols. Justify how these protocols will truly validate the process for the applied product.
- Justify the adaptation of dissolution parameters (i.e. dissolution medium, type of apparatus, RPM and time) for the Nirmatrelvir drug product, further justify how this method would be discriminatory in nature to avoid batch to batch variations as required under the applicable ICH and FDA guidelines as well as the guidelines approved by Registration Board in its 293rd meeting.
- Justify the dissolution acceptance criteria for Nirmatrelvir Tablet i.e. NLT 75%(Q) in 120 minutes, while the drug product is an immediate release product.
- The analytical procedure of Nirmatrelvir defined by the drug substance manufacturer specify two different mobile phase with a gradient elution over the period of 36 minutes to quantify the active substance, while in drug product your analytical method specify only single mobile phase with isocratic system. Clarification is required in this regard.
- Specify the diluent / blank and placebo used in specificity test of Nirmatrelvir Tablet.
- Specify the exact concentration of each test solution in linearity and range test, accuracy and recovery test of Nirmatrelvir Tablet.
- In robustness test, your have mentioned change in temperature, change in pH and change in sonication time. Specify the exact change in all these parameters and also specify whether this change was in pH, temperature of sample solutions, mobile phase, buffer or which particular parameter. Further justify the performance of this test as per ICH guidelines.
- Your sample and standard solution concentration is 0.1mg/ml, while in detection limit and quantitation limit test your results are NMT 3 and NMT 10 which does not specify any unit, furthermore justify the performance of this test as per ICH guidelines including interpretation of results of this test.

- The calculation formula for assay test mentioned in drug product specifications is different than the formula used in calculation of results of linearity, accuracy & recovery test etc. Clarification is required in this regard.
- The applied product is a co-blistered product while you have submitted seprate batch release certificate for both tablets. Clarification is required whether both tablets will be manufactured with different batch numbers and will be released separately or will be manufactured under a single batch number along with common batch release certificate.
- Provide details of the finally blistered and packed product which were kept on stability studies including picture of each blister and count of number of tablets in each blister and total number of blisters in a pack.
- Evidence of co-blister machine which is required for blistering of the applied product.
- Provide data of comparative dissolution profile of the applied product against the innovator / reference product.
- Submit BMR of three stability batches.
- Submit stability study data in section 3.2.P.8.3 as per the checklist approved by Registration Board in its 296th meeting and the CTD guidance document, which includes the following:
    - Reference of previous approval of applications with stability study data of the firm (if any)
    - Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
    - Documents for the procurement of API with approval from DRAP (in case of import).
    - Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
    - Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
    - Record of Digital data logger for temperature and humidity monitoring of both stability chambers.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Case No. 4: M/s Welmark Pharmaceuticals.

The following case was referred to PEC from Assistant Director PR-I/EFD vide letter No. F.1-6/2019-PR-I (EFD) dated 29-12-2022.

33.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Welmark Pharmaceuticals Plot # 122 Block-B, Phase-V, Industrial Estate Hattar.**
	Name, address of Manufacturing site.	M/s Welmark Pharmaceuticals Plot # 122 Block-B, Phase-V, Industrial Estate Hattar.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 23-11-2021 issued based on inspection dated 11-11-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of GMP certificate dated 23-11-2021 issued based on inspection dated 11-11-2021. The certificate specifies Tablet (General) Section.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 6127 dated 07-03-2022
	Details of fee submitted	PKR 75,000/- Dated 24-02-2022
	The proposed proprietary name / brand name	**ZILTAN 80mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Azilsartan medoxomil potassium eq to Azilsartan medoxomil…… 80mg

	Pharmacotherapeutic Group of (API)	Angiotensin Receptor Blocker
	Pharmaceutical form of applied drug	White to off white colored uncoated round shape core tablet plain from both sides
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	4 x 7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Edarbi Tablet (**USFDA** Approved)
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	CTX Lifesciences Pvt Ltd. Block No. 251-252, Sachin Magdalla Road G.I.D.C, Sachin Surat Gujrat India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 5°C ± 3°C for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Edarbi Tablet 80mg manufactured by Takeda Ireland Ltd.. Firm has submitted CDP results of their product against the innovator's product Edarbi Tablet 80mg in 3 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	CTX Lifesciences Pvt Ltd. Block No. 251-252, Sachin Magdalla Road G.I.D.C, Sachin Surat Gujrat India		
API Lot No.	19AK00006		
Description of Pack (Container closure system)	Alu-alu Blister

Manufacturing Date	03-2021	03-2021	03-2021
Date of Initiation	22-03-2021	24-03-2021	25-03-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last PSI was conducted for Dapzin Tablet, for which the inspection was conducted on 27-04-2021 and the report was presented in 307th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of Retention of License (No. G/25/1723) dated 29-01-2021 issued by Food and Drugs Control Administration Gujrat State India. The certificate specifies that the license to manufacture has been retained from 24/01/2021 to 23/01/2026.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 16-052-2019 specifying 0.540Kg Azilsartan medoxomil potassium. The invoice is cleared by AD (I&E) DRAP.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	The label claim of innovator's product specifies that each tablet contains 80mg of Azilsartan medoxomil as potassium salt, while your label claim specifies that each tablet contains 80mg of Azilsartan medoxomil potassium. Revise your	That was a typographic mistake that we have corrected the label claim that is Each tablet contains: Azilsartan Medoxomil as potassium …..80mg (Innovators spec) Firm has **not** submitted any fee

	label claim as per the innovator's product.	
2.	Analytical method for assay testing of drug substance specifies a gradient elution system with a run time upto 40 minutes, while the drug product manufacturer has specified isocratic elution with run time upto 10 minutes. Clarification is required how drug product manufacturer can use a different analytical method of the drug substance from that recommended by the drug substance manufacturer.	We have used gradient method of analysis for drug substance provided by the drug substances manufacturer with a run time upto 40 minutes. Although we have used isocratic method of analysis for drug product with run time of upto 10 minutes.
3.	Justify the performance of specificity test under verification studies of drug substance in the light of ICH guidelines, since you have specified that the test was performed by spiking blank sample with test sample and excipients. Justify what was the blank and test sample and how excipients were spiked in drug substance testing.	We have performed specificity test under verification studies of drug substance in the light of ICH guidelines. We run blank sample and standard dilution sample dilution and impurity standard but excipients are spiked during product method validation We use diluent as blank sample
4.	Specify the exact concentration of each solution studied at 80%, 100% and 120% in accuracy and recovery studies. Further specify the formula used to calculate accuracy and recovery results.	The exact concentration of 80% is 0.2mg/ml, 100% is 0.25mg/ml and 120 % is 0.3mg/ml. Accuracy should be assessed using a minimum of 9 determinations over a minimum of 3 concentration levels covering the specified range (e.g., 3 concentrations/3 replicates each of the total analytical procedure), Accuracy should be reported as percent recovery by the assay of known added amount of analyte in the sample or as the difference between the mean and the accepted true value together with the confidence intervals.
5.	Analysis of the drug substance lot number 19AK00006 was performed on 24-12-2020 while API verification studies were performed on 26-12-2020. Justify how the testing of drug substance was carried prior to verification studies.	We have retested the drug substance and verification studied according to ICH guideline lot number 19AK00006 was performed on March 2020. Again we have retested and reverification study performed. Intra- day precision was performed on next day
6.	The COA of API lot number 19AK00006 specifies the retest date as March 2020 while you have performed API testing on 24-12-2020 (almost 9 months after the API retest period). Justify how you have used an API which have exceeded its limit of use as specified by its manufacturer.	We have retested the drug substance lot number 19AK00006 was performed on March 2020. According to API stability study provided by manufacturer. This salt is stable for 2 year on basis of stability study. We have again retested the drug substance in December 2020 before manufacturing trial batches of Ziltan 40 and 80 mg tablet
7.	As per the product review documents issued by USFDA, the drug product is practically insoluble in acidic and neutral aqueous solutions and is unstable in aqueous solution between pH 1 and pH 7. Data from other manufacturers as well as innovator's product shows very less drug release in 0.1 N HCl as well as 4.5 phosphate acetate buffer. Justify your results showing more than 60% results at 10 minutes in both of these medias.	We have reviewed comparative dissolution profile. Azilsartan is unstable in 0.1 HCL solution and 4.5 acetate buffer the result in 0.1 N HCL solution 32 to 35% of both Welmark and innovator product and result were found 35 to 40% in 4.5 acetate buffer in 45 minutes

8.	Justify the dissolution specifications NLT 75% in 45 minutes without specifying the value of Q as well as adopting 45 minutes for dissolution test contrary to that recommended by USFDA for the innovator's product.	FDA has approved up to 45 minutes for dissolution but our product is dissolved before 30 min. We have reviewed time limit for dissolution. Our specification is the valu of (Q) NLT 75% in 30 minutes.
9.	Your sample and standard solution concentration is 0.25mg/ml, while in detection limit and quantitation limit test your results are 90% - 110% which does not specify result of this test, furthermore justify the performance of this test as per ICH guidelines including interpretation of results of this test.	The limit of detection (LOD) and limit of quantitation (LOQ) is 0.0155% and 0.0062% respectively
10.	Justify why the peak for fumaric acid is not observed during the stability studies since fumaric acid is included in the formulation.	We have used fumaric acid in very small quantity in formulation and very small peak observed in 3 minutes
11.	Azilsartan base is identified as an impurity in azilsartan medoxomil and the peak for azilsartan is also observed in HPLC analysis. Clarify why azilsartan base is not observed in any analysis during stability studies.	Azilsaratan base impurity is shown in our chromatogram and it lies with in the limits.
12.	Justify the dispensing of 85.360mg API in each tablet since each tablet is claimed to contain 80mg Azilsartan medoxomil.	Azilsartan Medoxomil as potassium …..80mg (Innovators spec) documents of formulation and calculation of potassium factor are submitted.

Decision: Deferred for following submissions:

- **Submission of full fee of registration for pre-approval change in label claim/ master formula as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Scientific justification for adapting isocratic elution with run time upto 10 minutes for analysis of drug substance, since the drug substance manufacturer has specified a gradient elution system with a run time upto 40 minutes.**
- **Justify the analysis of drug substance prior to the performance of verification studies of analytical method of drug substance.**
- **Scientific justification for the use of an API which have exceeded its limit of use as specified by its manufacturer, since you have used API lot number 19AK00006 on 24-12-2020, while the drug substance manufacturer has specified the retest date as March 2020.**
- **Scientific justification for the dissolution specifications NLT 75% in 45 minutes without specifying the value of Q as well as adopting 45 minutes for dissolution test contrary to that recommended by USFDA for the innovator's product.**

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability GMP Inspection Report Date & Remarks
34.	M/s Welmark Pharmaceuticals Plot # 122 Block-B, Phase-V, Industrial Estate Hattar. Remarks of Evaluator:

- The firm has submitted stability study data along with required documents as per checklist approved in 293rd meeting of Registration Board. Details of submitted data are as under:

(Dy.# 3623 dated 08-02-2022)

STABILITY STUDY DATA			
Manufacturer of API	CTX Lifesciences Pvt Ltd. Block No. 251-252, Sachin Magdalla Road G.I.D.C, Sachin Surat Gujrat India		
API Lot No.	19AK00006		
Description of Pack (Container closure system)	Alu-Alu blister foil with unit carton		
Stability Storage Condition	Accelerated: 40°C ± 2°C / 75% ± 5%RH Real Time: 30°C ± 2°C / 65% ± 5%RH		
Time Period	Accelerated: 6 Months Real Time: 6 Months		
Frequency	Real Time: 0,3 & 6 (months) Accelerated: 0,3, 6 (months)		
Batch No.	T022	T023	T024
Batch Size	1000 Tablet	1000 Tablet	1000 Tablet
Manufacturing Date	03-2021	03-2021	03-2021
Date of Initiation	15-03-2021	16-03-2021	17-03-2021
No. of Batches	03		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
1.	Reference of previous approval of applications with stability study data of the firm	Last PSI was conducted for Dapzin Tablet, for which the inspection was conducted on 27-04-2021 and the report was presented in 307th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Firm has submitted copy of COA of the drug substance from both API Manufacturer and Finished Product manufacturer.
3.	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Firm has submitted copy of method used for analysis of API from both API Manufacturer and Finished Product manufacturer
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 5°C ± 3°C for 24 months.
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of Retention of License (No. G/25/1723) dated 29-01-2021 issued by Food and Drugs Control Administration Gujrat State India. The certificate specifies that the license to manufacture has been retained from 24/01/2021 to 23/01/2026.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 16-052-2019 specifying 0.540Kg Azilsartan medoxomil potassium. The invoice is cleared by AD (I&E) DRAP.
7.	Protocols followed for conduction of stability study	Firm has submitted protocols followed for conduction of stability study

8.	Method used for analysis of FPP	Firm has provided detailed method for analysis of FPP
9.	Drug-excipients compatibility studies (where applicable)	Firm has used same excipients as that of the innovator's product therefore compatibility studies are not required
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the batches
11.	Record of comparative dissolution data (where applicable)	Firm has submitted CDP results of their product against the innovator's product Edarbi Tablet 40mg.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted documents like chromatograms, raw data sheets, COA, summary data sheets for the stability studies
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Audit trail report is not submitted by the firm.
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for both stability chambers for accelerated as well as real time stability studies.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	The COA of API lot number 19AK00006 specifies the retest date as March 2020 while you have performed API testing on 24-12-2020 (almost 9 months after the API retest period). Justify how you have used an API which have exceeded its limit of use as specified by its manufacturer.	We have retested the drug substance and verification studied according to ICH guideline lot number 19AK00006 was performed on March 2020. Again we have retested and reverification study performed. Intra- day precision was performed on next day
2.	Provide comparative dissolution profile of the applied product against the innovator's product.	Comparative dissolution profile of the applied drug product against the innovators product is submitted.
3.	Justify the dissolution specifications NLT 75% in 45 minutes without specifying the value of Q as well as adopting 45 minutes for dissolution test contrary to that recommended by USFDA for the innovator's product.	FDA has approved up to 45 minutes for dissolution but our product is dissolved before 30 min. We have reviewed time limit for dissolution. Our specification is the valu of (Q) NLT 75% in 30 minutes
4.	Justify why the peak for fumaric acid is not observed during the stability studies since fumaric acid is included in the formulation.	We have used fumaric acid in very small quantity in formulation and very small peak observed in 3 minutes
5.	Azilsartan base is identified as an impurity in azilsartan medoxomil and the peak for azilsartan is also observed in HPLC analysis. Clarify why azilsartan base is not observed in any analysis during stability studies.	Azilsaratan base impurity is shown in our chromatogram and it lies with in the limits
6.	Submit BMR of three stability batches.	Firm has submitted BMR of three stability batches.
7.	Provide audit trail report on product testing as compliance Record of HPLC software 21CFR compliance.	Audit trail report is not submitted by the firm.

Decision: Deferred for following submissions:

- **Submission of full fee of registration for pre-approval change in label claim/ master formula as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Scientific justification for adapting isocratic elution with run time upto 10 minutes for analysis of drug substance, since the drug substance manufacturer has specified a gradient elution system with a run time upto 40 minutes.**

- **Justify the analysis of drug substance prior to the performance of verification studies of analytical method of drug substance.**
- **Scientific justification for the use of an API which have exceeded its limit of use as specified by its manufacturer, since you have used API lot number 19AK00006 on 24-12-2020, while the drug substance manufacturer has specified the retest date as March 2020.**
- **Scientific justification for the dissolution specifications NLT 75% in 45 minutes without specifying the value of Q as well as adopting 45 minutes for dissolution test contrary to that recommended by USFDA for the innovator's product.**

Case No. 02 Registration applications of CTD cases

a. Deferred cases of local manufacturing

35.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Genetics Pharmaceuticals (Pvt) Ltd. 539-A, Sundar Industrial Estate, Raiwind Road Lahore.**
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Copy of agreement for contract manufacturing of pharmaceutical products between contract giver and acceptor dated 29-10-2020 is submitted.
	GMP status of the firm	**Genetics Pharmaceuticals:** Firm has submitted copy of GMP certificate issued on the basis of inspection dated 29-03-2019. **Stallion Pharmaceuticals:** Firm has submitted GMP certificate issued on the basis of inspection dated 22-09-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of Grant of additional section / amendment under DML No 000783 of M/s Stallion Pharma Islamabad dated 08-02-2016 specifying dry powder injection Vial (carbapenem) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 13638: 20-05-2021
	Details of fee submitted	PKR 50,000/-: 30-11-2020
	The proposed proprietary name / brand name	**MEROTOL 500mg Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Meropenem (as trihydrate)……500mg (blended with sodium carbonate)
	Pharmaceutical form of applied drug	White or almost white, hygroscopic, crystalline, powder filled in clear glass vials
	Pharmacotherapeutic Group of (API)	Carbapenem antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	Merrem Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Merrem Injection of Global Pharmaceuticals
	Name and address of API manufacturer.	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against Meronem 500mg Injection of Pfizer Pakistan Ltd.
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA	
Manufacturer of API	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
API Lot No.	1705205135 1705205096 1705203623

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Submit differential fee for the registration of applied product, since the notification for revision of fee vide SRO No. F.7-11/2012-B&A/DRA was published on 7th May 2021 while this application was received in R&I section of DRAP on 20th May 2021.	Firm has submitted copy of fee challan dated 28-10-2021 for 25,000/- vide slip number 08343787921
Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of analytical method of drug substance from the drug product manufacturer. The analytical method is issued on 20-07-2021.
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.	Firm has submitted report of verification studies of the analytical method of drug substance. However, the verification studies were conducted on 21-01-2021 while the analytical method of drug substance was issued by the drug product manufacturer on 20-07-2021.

Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture. A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)".	Firm has submitted COA of the drug substance generated by drug product manufacturer only, while the COA of drug substance manufacturer is not submitted.
Submit COA of reference standard / working standard including source and lot number which is actually used in the testing of drug substance and drug product.	Firm has submitted COA of working standard from drug substance manufacturer which has been standardized against USP reference standard. However drug product manufacturer is using working standard of meropenem Batch No. SI/MPM/00060120 manufactured by M/s Sterile India.
Justify the master formulation containing 570mg of meropenem trihydrate for manufacturing of 500mg meropenem for injection, since the drug substance contains meropenem blended with 15.10 to 16.50% w/w of sodium carbonate.	Firm has submitted calculation to justify the filled weight. As per calculations submitted by the firm the weight 570mg per vial is calculated on theoretical basis considering that the drug substance has 100% assay, while the actual dispensing is to be made on the basis of actual % assay of the meropenem.
Justify the use of 5% overage in the formulation, since the justification submitted in this regard is not supported by any guidelines.	We hereby justify that in development stage we added 5% extra meropenem sterile powder for injection in initial batches. After completion of stability study degradation is no more than 2 – 3% within the limit assay range is 90 – 120% so no more 5% meropenem sterile powder for injection is added.
Submit results of compatibility studies in section 3.2.P.2.6.	Firm has submitted result of compatibility studies of the drug product with WFI.
Justify how the time and temperature of sterilization cycle is directly selected without any protocols for its validation.	Firm has submitted summary report of autoclave machine re qualification instead of providing justification.
Provide detailed method of sample stock solution preparation instead of mentioning the general statement "Constitute a container of Meropenem for Injection with a volume of water, corresponding to the quantity of solvent specified in the labelling".	Firm has not submitted complete method of analysis of the drug product in which the method of sample solution preparation is explained.
Justify why the formula for calculation of assay contents of meropenem is different than that mentioned in USP monograph.	Firm has submitted that we are using potency of working standard as percentage. USP taking the potency in mg/mg which is converted into percentage by multiplying this ratio with 100. Firm has submitted calculation to justify that their formula is equivalent to USP. However, the USP formula used by the firm is different from that specified in USP.
Analytical method verification studies have not been conducted and evaluated in the light of USP general chapters and ICH guidelines.	Firm has submitted verification studies of the analytical method dated 21-01-2021, while the analytical method of the drug product was revised and updated on 12-07-2021.
Justify why the drug product specifications does not contain the test for sodium contents as recommended by USP.	In Meropenem trihydrate injection label claim is as meropenem while trihydrate and sodium considered as impurity. We are verifying the meropenem by HPLC and due to unavailability of the atomic absorption we were verifying the

	sodium content by titration method. Moreover, for verification purpose, we analysed sodium content from PCSI and Citi Pharma with atomic absorption. And now we have atomic absorption in our facility and we have changed our SOP accordingly and now we are conducting each and every analysis of sodium content in our facility as per USP monograph.
Justify the test of accuracy in analytical method validation without specifying the concentrations of the solution which are analysed for accuracy. Further justify the use of solutions having low, medium, and high concentration of sample without specifying their exact concentration. Such words are not recommended by any scientific guidelines.	Firm has submitted that we had performed the accuracy by making a concentration of standard preparation and three concentrations. The concentrations used by the firm for accuracy test is 0.16mg/ml, 0.20mg/ml and 0.24mg/ml. As per the analytical method the standard solution concentration is 0.11mg/ml and the concentration used by the firm to study accuracy does not include the said concentration.
Linearity and range have been studied from 70% to 120% of the solution wherein the area under curve for 100% solution was 4691449 while in accuracy studies in the same method none of the solution (either low, medium or high concentration) achieved such area although the concentration of the solution is expected to be the same. Justification is required in this regard.	Two different samples were prepared for linearity and accuracy parameter of analytical method verification, for linearity parameter from the first dilution 6 further second dilutions 70%, 80%, 90%, 100%, 110% and 120% were prepared while in accuracy 3 further second dilutions low, medium and high were prepared. Because the weights of the sample are different in linearity and accuracy parameters that's why the area achieved is different for both parameters.
In linearity studies the area under curve for 100% solution was 4691449, while in stability studies the area under curve of the sample solution having exactly same concentration is reported to be 11769485. Justification is required in this regard how such huge difference in area under the curve can exist in the analysis and how this method can be considered reliable and verified.	In linearity the sample solution preparation is different from the sample preparation of finished product. In linearity a concentration of standard taken to prepare first dilution then make second dilution by taking 7ml, 8ml, 9ml, 10ml, 11ml, 12ml from the first dilution, second dilution of 10ml is considered as 100% concentration while in finished good the dilution contain 100mg of sample that's why area under curve for 100% solution is different from the area of 100mg in finished product.
The analytical method verification studies have been conducted in January 2021 while the batches were manufactured in 2017. Justification is required in this regard.	In 2017, we had completed analytical method verification by performing three parameters which are linearity, system suitability and specificity while when we submit the CTD dossier we came to know the DRAP requirement of accuracy and repeatability, then we had complete the analytical method verification by performing five parameters which are linearity, system suitability, specificity accuracy and repeatability.
Justify the limit of sodium content in the in house generated COA of drug substance, in which limit of sodium content is taken as 6.0% to 9.3% and the drug substance was passed on the basis of results of 9.12%, while the drug substance manufacturer specifies the limit of sodium content as 6.56% to 7.20%. As per the submitted results of sodium content in meropenem injection by CITI Pharma, the results of % sodium content is 7.867%, while USP specifies the acceptance criteria to be 80%–120% of the labeled amount of sodium. Justify how your results complies USP specifications keeping in view the labelled amount of sodium in your product.	In past we were doing sodium content analysis by titration method (due to unavailability of AAS) the result was 9.12% limit of sodium content is 6.0% - 9.3% while the drug substance manufacturer specifies the sodium content as 6.65 to 7.20%. Now we are doing sodium content with AAS according to USP. Firm has not submitted any justification

Justify the use of commercial lot of meropenem for injection as working standard since USP recommends that reference standard should be pure meropenem trihydrate.	The assay of meropenem trihydrate USP reference standard lot# J0K434, is 87.3% meropenem. Similarly by comparing with reference standard we prepare our meropenem trihydrate working standard in which 82.12% is meropenem present. Actually the material used in USP Reference standard and the working standard is the same as meropenem trihydrate because the product label claim is meropenem, therefore we have to calculate the assay against the purity of material as meropenem which is 87.3% in USP Reference standard and 82.12% in working standard.
Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm has not submitted details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Further documents confirming import of these relevant batches are also required.
Provide data of stability batches properly arranged and supported by respective documents including analytical report / COA, raw data sheet and respective chromatograms separately for each time point, since the submitted chromatograms and analytical reports are without any proper sequence.	Firm has not yet submitted stability study data in proper sequence with COA for each time point, raw data sheets and chromatograms. Raw data sheets are not submitted. Further the calculation formula used for the calculation of assay result is also different from USP as well as the method of sample and standard solution preparation.
Provide Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
Provide compliance Record of HPLC software 21CFR & audit trail reports on product testing.	No response submitted by the firm
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	No response submitted by the firm

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.
- Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.
- Scientific justification for use of 5% overage in the formulation.
- Submission of complete protocols of process validation studies of the drug product.
- Submission of detailed method of analysis of the drug product with details of sample solution preparation.
- Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.
- Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.
- Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.	Firm has submitted COA of relevant batch of drug substance generated by drug substance manufacturer.

2.	Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.	This firm has submitted that the assay of Meropenem Trihydrate USP reference standard lot # J0k434 is 87.3%. Therefore, we used sterile India material as working Standard having potency 82.02% by using standardization procedure with USP reference standard. Material used for batch manufacturing is from Aurobindo China and working standard prepared is of Sterile India having Potency 82.02% COA's for Reference standard & working standard along with standardization procedure is submitted by the firm.
3.	Scientific justification for use of 5% overage in the formulation.	Firm has submitted that an overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
4.	Submission of complete protocols of process validation studies of the drug product.	Firm has submitted general protocols for process validation. **Firm has not submitted specific protocols for the process validation of applied product.**
5.	Submission of detailed method of analysis of the drug product with details of sample solution preparation.	Firm has submitted detailed method of analysis of the drug product, **However in the submitted method, sample solution preparation method is still not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions.** Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
6.	Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.	Firm has submitted that they are using the potency of working standard as percentage. USP taking the Potency into mg/mg which is covered into percentage multiplying the ratio with 100 so there is no difference between the USP formula & our standard operating formula further more we have amended our SOP with respect to the formula given in USP. **However, the newly used calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard. The new formula is also not exactly as per USP monograph.**
7.	Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product	Firm has now added sodium content test in their specifications. Firm has also submitted fee 7,500/- vide slip number 212267176 dated 20-05-2022.

	specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	**However, no data regarding the sodium content testing during stability studies is provided.**
8.	Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.	Firm has not justified the previous validation reports, instead the firm has submitted new report in which the analysis is carried out on July 2022. The new report was performed in line with ICH recommendations.
9.	Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.	Firm has submitted data in section 3.2.P.8.3. The evaluation os submitted data is as under:

Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
Documents for the procurement of API with approval from DRAP (in case of import).	**1705205135, 1705205096:** Firm has submitted copy of commercial invoice cleared dated 19-10-2017 specifying import of 20Kg meropenem for lot number 1705205135, 1705205096. The invoice is cleared by AD (I&E) DRAP. **1705203623:** Firm has submitted copy of commercial invoice cleared dated 12-09-2017 specifying import of 15Kg meropenem for lot number 1705203623. The invoice is cleared by AD (I&E) DRAP.
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of product testing including HPLC chromatogram and raw data sheets
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for stability chambers for accelerated and real time stability study.

Decision of 320th meeting of Registration Board:

Deferred for following:

- Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.
- Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
- Submission of specific protocols for the process validation of applied product.
- Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
- Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.	An overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
2.	Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.	Capacity assessment report is not yet received.
3.	Submission of specific protocols for the process validation of applied product.	Firm has submitted process validation protocols
4.	Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.	Firm has submitted revised testing method and specifications.
5.	Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.	Firm has submitted revised testing method and specifications

Evaluation by PEC[3]:

Registration Board in its 323rd meeting was apprised that the applied formulation has already been approved in 312th meeting of Registration Board for contract manufacturing from M/s Stallion Pharmaceuticals Pvt Ltd. on basis of Form 5F (CTD) of M/s Healthtek (Pvt) Ltd., Karachi as applicant, wherein following submission had also been made by the firm and above mentioned points have been addressed and responded:

- Evidence for purchase of atomic absorption spectrophotometer in the form of purchase order dated 14-06-2021, deliver challan dated 19-06-2021 & invoice No. 06/3029 dated 18-06-2021.
- Installation and operational qualification reports of atomic absorption spectrophotometer.
- Analysis report of Sodium Content in Mopen (Meropenem) Injection by M/s Stallion Pharmaceuticals (Pvt) Ltd., 581- Sundar Industrial Estate, Lahore.

The applied formulation of contract manufacturer is already previously approved by the Registration Board. The details of already approved product of same formulation of the contract manufacturer is provided below:

Applicant firm	M/s Aspin Pharma (Pvt) Ltd. Plot No. 10 & 25 Sector 20, Korangi Industrial Area Karachi
Manufacturer firm	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore
Brand Name	ASPINEM 500 mg Injection
Batch No. of drug product	T7003,T7004,T7005
Case No.	747
Registration Board meeting	323rd meeting of DRB

Decision: Approved. Registration Board further authorized its Chairman for issuance of registration letters upon satisfactory capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd., 581- Sundar Industrial Estate, Lahore wherein panel shall also review the testing of drug substance and drug product of applied formulation as per pharmacopoeial requirements.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall state the quantity, in mg, of sodium (Na) in a given dosage of Meropenem, on the label claim, as recommended by the USP monograph of "Meropenem for injection".**

36.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Genetics Pharmaceuticals (Pvt) Ltd. 539-A, Sundar Industrial Estate, Raiwind Road Lahore.**
	Name, address of Manufacturing site.	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Copy of agreement for contract manufacturing of pharmaceutical products between contract giver and acceptor dated 29-10-2020 is submitted
	GMP status of the firm	**Genetics Pharmaceuticals:** Firm has submitted copy of GMP certificate issued on the basis of inspection dated 29-03-2019. **Stallion Pharmaceuticals:** Firm has submitted GMP certificate issued on the basis of inspection dated 22-09-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of Grant of additional section / amendment under DML No 000783 of M/s Stallion Pharma Islamabad dated 08-02-2016 specifying dry powder injection Vial (carbapenem) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 16253: 11-06-2021
	Details of fee submitted	PKR 50,000/-: 30-11-2020
	The proposed proprietary name / brand name	**MEROTOL 1g Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Meropenem (as trihydrate)……1g (blended with sodium carbonate)
	Pharmaceutical form of applied drug	White or almost white, hygroscopic, crystalline, powder filled in clear glass vials
	Pharmacotherapeutic Group of (API)	Carbapenem antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Merrem Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Merrem Injection of Global Pharmaceuticals

	Name and address of API manufacturer.	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against Meronem 1g Injection of Pfizer Pakistan Ltd.
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Aurobindo Pharma Limited Unit-V, Plot No. 68-70, 73-91, 95, 96, 260, 261 I.D.A Chemical Zone, Pashamylaram, Patancheru Mandal, Sanga Reddy District Telangana, India.
API Lot No.	1705205135 1705205096 1705203623
Description of Pack (Container closure system)	Glass vial
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	U7003	U7004	U7005
Batch Size	3900 vials	7600 vials	3780 vials
Manufacturing Date	09-2017	10-2017	11-2017
Date of Initiation	04-10-2017	14-11-2017	17-11-2017
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Evaluation by PEC:

Shortcomings communicated	**Response by the firm**
Submit differential fee for the registration of applied product, since the notification for revision of fee vide SRO No. F.7-11/2012-B&A/DRA was published on 7th May 2021 while this application was received in R&I section of DRAP on 11th June 2021.	Firm has submitted fee challan dated 28-12-2021 for 25,000/- vide slip number 16540367178
Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."	Firm has submitted copy of analytical method of drug substance from the drug product manufacturer. The analytical method is issued on 20-07-2021.
Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.	Firm has submitted report of verification studies of the analytical method of drug substance. However, the verification studies were conducted on 21-01-2021 while the analytical method of drug substance was issued by the drug product manufacturer on 20-07-2021.
Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of	Firm has submitted COA of the drug substance generated by drug product manufacturer only,

relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture. A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification)".	while the COA of drug substance manufacturer is not submitted.
Submit COA of reference standard / working standard including source and lot number which is actually used in the testing of drug substance and drug product.	Firm has submitted COA of working standard from drug substance manufacturer which has been standardized against USP reference standard. However drug product manufacturer is using working standard of meropenem Batch No. SI/MPM/00060120 manufactured by M/s Sterile India.
Justify the master formulation containing 1140mg of meropenem trihydrate for manufacturing of 1g meropenem for injection, since the drug substance contains meropenem blended with 15.10 to 16.50% w/w of sodium carbonate.	Firm has submitted calculation to justify the filled weight. As per calculations submitted by the firm the weight 1140mg per vial is calculated on theoretical basis considering that the drug substance has 100% assay, while the actual dispensing is to be made on the basis of actual % assay of the meropenem.
Justify the use of 5% overage in the formulation, since the justification submitted in this regard is not supported by any guidelines.	We hereby justify that in development stage we added 5% extra meropenem sterile powder for injection in initial batches. After completion of stability study degradation is no more than 2 – 3% within the limit assay range is 90 – 120% so no more 5% meropenem sterile powder for injection is added.
Submit results of compatibility studies in section 3.2.P.2.6.	Firm has submitted result of compatibility studies of the drug product with WFI.
Justify how the time and temperature of sterilization cycle is directly selected without any protocols for its validation.	Firm has submitted summary report of autoclave machine re qualification instead of providing justification.
Provide detailed method of sample stock solution preparation instead of mentioning the general statement "Constitute a container of Meropenem for Injection with a volume of water, corresponding to the quantity of solvent specified in the labelling".	Firm has not submitted complete method of analysis of the drug product in which the method of sample solution preparation is explained.
Justify why the formula for calculation of assay contents of meropenem is different than that mentioned in USP monograph.	Firm has submitted that we are using potency of working standard as percentage. USP taking the potency in mg/mg which is converted into percentage by multiplying this ratio with 100. Firm has submitted calculation to justify that their formula is equivalent to USP. However, the USP formula used by the firm is different from that specified in USP.
Analytical method verification studies have not been conducted and evaluated in the light of USP general chapters and ICH guidelines.	Firm has submitted verification studies of the analytical method dated 21-01-2021, while the analytical method of the drug product was revised and updated on 12-07-2021.
Justify why the drug product specifications does not contain the test for sodium contents as recommended by USP.	In Meropenem trihydrate injection label claim is as meropenem while trihydrate and sodium considered as impurity. We are verifying the meropenem by HPLC and due to unavailability of the atomic absorption we were verifying the sodium content by titration method. Moreover, for verification purpose, we analysed sodium content from PCSI and Citi Pharma with atomic

	absorption. And now we have atomic absorption in our facility and we have changed our SOP accordingly and now we are conducting each and every analysis of sodium content in our facility as per USP monograph.
Justify the test of accuracy in analytical method validation without specifying the concentrations of the solution which are analysed for accuracy. Further justify the use of solutions having low, medium, and high concentration of sample without specifying their exact concentration. Such words are not recommended by any scientific guidelines.	Firm has submitted that we had performed the accuracy by making a concentration of standard preparation and three concentrations. The concentrations used by the firm for accuracy test is 0.16mg/ml, 0.20mg/ml and 0.24mg/ml. As per the analytical method the standard solution concentration is 0.11mg/ml and the concentration used by the firm to study accuracy does not include the said concentration.
Linearity and range have been studied from 70% to 120% of the solution wherein the area under curve for 100% solution was 4691449 while in accuracy studies in the same method none of the solution (either low, medium or high concentration) achieved such area although the concentration of the solution is expected to be the same. Justification is required in this regard.	Two different samples were prepared for linearity and accuracy parameter of analytical method verification, for linearity parameter from the first dilution 6 further second dilutions 70%, 80%, 90%, 100%, 110% and 120% were prepared while in accuracy 3 further second dilutions low, medium and high were prepared. Because the weights of the sample are different in linearity and accuracy parameters that's why the area achieved is different for both parameters.
In linearity studies the area under curve for 100% solution was 4691449, while in stability studies the area under curve of the sample solution having exactly same concentration is reported to be 11769485. Justification is required in this regard how such huge difference in area under the curve can exist in the analysis and how this method can be considered reliable and verified.	In linearity the sample solution preparation is different from the sample preparation of finished product. In linearity a concentration of standard taken to prepare first dilution then make second dilution by taking 7ml, 8ml, 9ml, 10ml, 11ml, 12ml from the first dilution, second dilution of 10ml is considered as 100% concentration while in finished good the dilution contain 100mg of sample that's why area under curve for 100% solution is different from the area of 100mg in finished product.
The analytical method verification studies have been conducted in January 2021 while the batches were manufactured in 2017. Justification is required in this regard.	In 2017, we had completed analytical method verification by performing three parameters which are linearity, system suitability and specificity while when we submit the CTD dossier we came to know the DRAP requirement of accuracy and repeatability, then we had complete the analytical method verification by performing five parameters which are linearity, system suitability, specificity accuracy and repeatability.
Justify the limit of sodium content in the in house generated COA of drug substance, in which limit of sodium content is taken as 6.0% to 9.3% and the drug substance was passed on the basis of results of 9.12%, while the drug substance manufacturer specifies the limit of sodium content as 6.56% to 7.20%.	In past we were doing sodium content analysis by titration method (due to unavailability of AAS) the result was 9.12% limit of sodium content is 6.0% - 9.3% while the drug substance manufacturer specifies the sodium content as 6.65 to 7.20%. Now we are doing sodium content with AAS according to USP.
As per the submitted results of sodium content in meropenem injection by CITI Pharma, the results of % sodium content is 7.867%, while USP specifies the acceptance criteria to be 80%–120% of the labeled amount of sodium. Justify how your results complies USP specifications keeping in view the labelled amount of sodium in your product.	Firm has not submitted any justification
Justify the use of commercial lot of meropenem for injection (batch number SI/MPM/00060120) manufactured by sterile India as working standard	The assay of meropenem trihydrate USP reference standard lot# J0K434, is 87.3% meropenem. Similarly by comparing with reference standard we

since USP recommends that reference standard should be pure meropenem trihydrate.	prepare our meropenem trihydrate working standard in which 82.12% is meropenem present. Actually the material used in USP Reference standard and the working standard is the same as meropenem trihydrate because the product label claim is meropenem, therefore we have to calculate the assay against the purity of material as meropenem which is 87.3% in USP Reference standard and 82.12% in working standard.
Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm has not submitted details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Further documents confirming import of these relevant batches are also required.
Provide data of stability batches properly arranged and supported by respective documents including analytical report / COA, raw data sheet and respective chromatograms separately for each time point, since the submitted chromatograms and analytical reports are without any proper sequence.	Firm has not yet submitted stability study data in proper sequence with COA for each time point, raw data sheets and chromatograms. Raw data sheets are not submitted. Further the calculation formula used for the calculation of assay result is also different from USP as well as the method of sample and standard solution preparation.
Provide Reference of previous approval of applications with stability study data of the firm (if any)	No response submitted by the firm
Provide compliance Record of HPLC software 21CFR & audit trail reports on product testing.	No response submitted by the firm
Provide Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	No response submitted by the firm

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.
- Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.
- Scientific justification for use of 5% overage in the formulation.
- Submission of complete protocols of process validation studies of the drug product.
- Submission of detailed method of analysis of the drug product with details of sample solution preparation.
- Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.
- Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
- Scientific justification for the analytical method verification studies of the drug product which is not performed as per ICH guidelines.
- Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submission of COA of relevant batch of drug substance from drug substance manufacturer used in the manufacturing of batches for which stability study data is submitted.	Firm has submitted COA of relevant batch of drug substance generated by drug substance manufacturer.
2.	Scientific justification for using commercial batch manufactured by M/s Sterile India as working standard.	This firm has submitted that the assay of Meropenem Trihydrate USP reference standard lot # J0k434 is 87.3%. Therefore, we used sterile India material as working Standard having

		potency 82.02% by using standardization procedure with USP reference standard. Material used for batch manufacturing is from Aurobindo China and working standard prepared is of Sterile India having Potency 82.02% COA's for Reference standard & working standard along with standardization procedure is submitted by the firm.
3.	Scientific justification for use of 5% overage in the formulation.	Firm has submitted that an overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
4.	Submission of complete protocols of process validation studies of the drug product.	Firm has submitted general protocols for process validation. **Firm has not submitted specific protocols for the process validation of applied product.**
5.	Submission of detailed method of analysis of the drug product with details of sample solution preparation.	Firm has submitted detailed method of analysis of the drug product, **However in the submitted method, sample solution preparation method is still not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions.** Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
6.	Scientific justification for using calculation formula for assay testing which is different from that specified in USP monograph.	Firm has submitted that they are using the potency of working standard as percentage. USP taking the Potency into mg/mg which is covered into percentage multiplying the ratio with 100 so there is no difference between the USP formula & our standard operating formula further more we have amended our SOP with respect to the formula given in USP. **However, the newly used calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard. The new formula is also not exactly as per USP monograph.**
7.	Revision of drug product specifications in the light of USP monograph and inclusion of test for sodium content along with submission of fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has now added sodium content test in their specifications. Firm has also submitted fee 7,500/- vide slip number 45752149528 dated 20-05-2022. **However, no data regarding the sodium content testing during stability studies is provided.**
8.	Scientific justification for the analytical method verification studies of the drug	Firm has not justified the previous validation reports, instead the firm has submitted new report in which the analysis is carried out on July 2022.

	product which is not performed as per ICH guidelines.	The new report was performed in line with ICH recommendations.
9.	Submission of stability study data of three commercial batches in section 3.2.P.8.3 as per the 6-points checklist provided in Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.	Firm has submitted data in section 3.2.P.8.3. The evaluation os submitted data is as under:

Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 3298/E1/2019) issued by Drugs Control Administration, Government of Telangana dated 11-02-2020. The certificate is valid till 3 years from the date of issue.
Documents for the procurement of API with approval from DRAP (in case of import).	**1705205135, 1705205096:** Firm has submitted copy of commercial invoice cleared dated 19-10-2017 specifying import of 20Kg meropenem for lot number 1705205135, 1705205096. The invoice is cleared by AD (I&E) DRAP. **1705203623:** Firm has submitted copy of commercial invoice cleared dated 12-09-2017 specifying import of 15Kg meropenem for lot number 1705203623. The invoice is cleared by AD (I&E) DRAP.
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record of product testing including HPLC chromatogram and raw data sheets
Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for stability chambers for accelerated and real time stability study.

Decision of 320th meeting of Registration Board:

Deferred for following:

- Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.
- Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.
- Submission of specific protocols for the process validation of applied product.
- Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.
- Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Clarification for use of 5% overage in sterile products and specifications of the manufactured products in the light of approved specifications and pharmacopoeial monographs.	An overage is used to cover losses during manufacturing. Initially we used extra 5% of Meropenem to deliver our product with exact quantity of API in injection, the idea behind was to

		deliver exact quantity of the active substance. After that our product was stable throughout its shelf life so no need to add extra 5% overage. In general, use of an overage of a drug substance to compensate for degradation during manufacture or a product's shelf life, or to extend shelf life, is discouraged. Overages are nothing but the extra quantity of material taken, which is lost during process stage.ICH Q8 guide line, provide a structured way to define product critical quality attributes. We are not using any overage in the manufacturing of Meropenem injection
2.	Capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore.	Capacity assessment report is not yet received.
3.	Submission of specific protocols for the process validation of applied product.	Firm has submitted process validation protocols
4.	Submission of preparation sample solution is required since it is not clear in terms of exact volume of water used to reconstitute the contents of vial and then how to make further dilutions. Furthermore, the calculation formula use weight of sample and standard while USP recommends to use concentration of sample and standard.	Firm has submitted revised testing method and specifications.
5.	Clarification regarding use of formula which is different from the formula as recommended by USP for calculation of assay.	Firm has submitted revised testing method and specifications

Evaluation by PEC[3]:

Registration Board in its 323rd meeting was apprised that the applied formulation has already been approved in 312th meeting of Registration Board for contract manufacturing from M/s Stallion Pharmaceuticals Pvt Ltd. on basis of Form 5F (CTD) of M/s Healthtek (Pvt) Ltd., Karachi as applicant, wherein following submission had also been made by the firm and above mentioned points have been addressed and responded:

- Evidence for purchase of atomic absorption spectrophotometer in the form of purchase order dated 14-06-2021, deliver challan dated 19-06-2021 & invoice No. 06/3029 dated 18-06-2021.
- Installation and operational qualification reports of atomic absorption spectrophotometer.
- Analysis report of Sodium Content in Mopen (Meropenem) Injection by M/s Stallion Pharmaceuticals (Pvt) Ltd., 581- Sundar Industrial Estate, Lahore.

The applied formulation of contract manufacturer is already previously approved by the Registration Board. The details of already approved product of same formulation of the contract manufacturer is provided below:

Applicant firm	M/s Aspin Pharma (Pvt) Ltd. Plot No. 10 & 25 Sector 20, Korangi Industrial Area Karachi
Manufacturer firm	M/s Stallion Pharmaceuticals (Pvt) Ltd. 581, Sundar Industrial Estate, Raiwind Road Lahore
Brand Name	ASPINEM 1g Injection
Batch No. of drug product	U7003, U7004, U7005
Case No.	748
Registration Board meeting	323rd meeting of DRB

Decision: Approved. Registration Board further authorized its Chairman for issuance of registration letters upon satisfactory capacity assessment of manufacturing and testing facility of M/s Stallion Pharmaceuticals (Pvt) Ltd., 581- Sundar Industrial Estate, Lahore wherein panel shall also review the testing of drug substance and drug product of applied formulation as per pharmacopoeial requirements.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall state the quantity, in mg, of sodium (Na) in a given dosage of Meropenem, on the label claim, as recommended by the USP monograph of "Meropenem for injection".**

37.	Name, address of Applicant / Marketing Authorization Holder	M/s Scotmann Pharmaceuticals, 5-D, I-10/3, Industrial Area, Islamabad, Pakistan
	Name, address of Manufacturing site.	M/s Scotmann Pharmaceuticals, 5-D, I-10/3, Industrial Area, Islamabad, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 26123 Dated 21-09-2021
	Details of fee submitted	PKR 30,000/- Dated 06-09-2021
	The proposed proprietary name / brand name	Fitbit PFS 20mg/2ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 2ml of pre-filled syringe contains: Sodium hyaluronate……20mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Anti-Inflammatory, Anti-arthritis
	Reference to Finished product specifications	Manufacturer's specification
	Proposed Pack size	1's, 2's, 5's, 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	HYALGAN Injection 20mg/2ml by Fidia Farmaceutici S.p.A (AIFA Approved)
	For generic drugs (me-too status)	HYALGAN Injection Manufacture by *Fidia Farmaceutici S.p.A* Imported by: Liakat Pharma, Karachi Marketed by: Matrix Pharma Karachi DRAP Registration no. 031340
	GMP status of the Finished product manufacturer	The firm has submitted copy of GMP certificate based on inspection conducted on 09-11-2020. The firm has provided Biotech (Pre-filled syringe) section.
	Name and address of API manufacturer.	**Name:** M/s Contipro a.s., **Address:** Dolni Dobrouc 401 561 02 Dolni Dobrouc Czech Republic.
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of sodium hyaluronate is not present in any Pharmacopeia. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies of drug substance	Stability study conditions: Long term: 5°C ± 3°C for 36 months Accelerated: 25°C ± 2°C/65% ± 5%RH for 6 months Batches: (071114, 111207, N120815)
	Module-III (Drug Product):	The firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence has been established against the reference product HYALGAN PFS Injection 20mg/2ml (Batch # D01240) of Matrix Pharma, Karachi by performing quality tests (Identification, Endotoxin test, Assay. pH). CDP is not required.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, Robustness, accuracy, precision (Repeatability), specificity.

STABILITY STUDY DATA

Manufacturer of API	**Name:** M/s Contipro a.s. **Address:** Dolni Dobrouc 401 561 02 Dolni Dobrouc Czech Republic.		
API Lot No.	SH-200129-F3		
Description of Pack (Container closure system)	Sterile prefilled syringe with Luer Lock System (Rigid cap), highly resistant borosilicate tubing glass (Type I) (1's, 2's ,5's,10's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: Initial, 3, 6 (Months) Real time: Initial, 3, 6 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	500 PFS	500 PFS	500 PFS
Manufacturing Date	12-2020	12-2020	12-2020
Date of Initiation	01-01-2021	01-01-2021	01-01-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has referred to onsite inspection report of their product DASCOT 30mg & 60mg Tablet which was

		conducted on 26-01-2018, and was presented in 278th meeting of Registration Board. Following was reported in the report: • The HPLC software is 21CFR Compliant. • Audit trail reports were available and physically checked. The firm has data loggers for recording of temperature and humidity.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. sukls72897/2019 issued by Ministerstvo spravedlnosti CR Ministry of Justice of the Czech Republic. Issue & Valid Upto Dt: 15-07-2019 – 15-07-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of invoice specifying import of 0.15 kg of sodium hyaluronate attested by Assistant Director (I & E) dated 08-11-2020.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	The firm has submitted audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Record of data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) was submitted.

Remarks of Evaluator:

Sr. No.	Observations	Response by the Firm
1.	Submit valid copy of GMP certificate of the drug substance manufacturer issued by relevant regulatory authority of country of origin.	Copy of GMP certificate (No. sukls72897/2019) issued by Ministerstvo spravedlnosti CR Ministry of Justice of the Czech Republic has been submitted. Issue & Valid Upto Dt: 15-07-2019 – 15-07-2022.
2.	Confirmation of manufacturing facility / section for the applied formulation.	
3.	Copies of the drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required.	The firm has submitted copies of the Drug substance specifications and analytical procedures for drug substance by drug product manufacturer.
4.	Analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.	The firm has submitted analytical method verification protocol and report of the test method for determination of sodium hyaluronate by performing specificity, linearity, accuracy and precision.
5.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	The firm has submitted copies of batch manufacturing record of stability batches of drug product.
6.		

Decision of 321st meeting of Registration Board:

Deferred for following submissions:

- Confirmation of required manufacturing facility / section from Licensing Division.
- Evidence of approval of applied formulation either as pharmaceutical drug product or medical device in reference regulatory authorities/agencies which were adopted by the Registration Board.
- Clarification of source of drug substance whether Biological or synthetic.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Confirmation of required manufacturing facility / section from Licensing Division.	Firm has submitted copy of inspection report dated 17-10-2018 and 22-11-2018 which specifies Ampoule (General) section. Firm further submitted that our Injectable Ampoule General section was approved by the CLB and it consist of 2 separate assembly lines for manufacturing of Ampoules and Prefilled syringe, Moreover, one our product Sunny D Pre-filled Syring was recently approved in 321st meeting by the DRB-DRAP with the same dosage form.
2.	Evidence of approval of applied formulation either as pharmaceutical drug product or medical device in reference regulatory authorities/agencies which were adopted by the Registration Board.	The product HYALGAN 20 mg/2ml PFS approved by French Public Health Agency. HYALGAN 20 mg/2 ml, solution for injection for intra-articular route in pre-filled syringe is approved by ANSM France.
3.	Clarification of source of drug substance whether Biological or synthetic. Response by the firm: Sodium hyaluronate is a pure chemical substance with de For characterisation of sodium hyaluronate (pure chemical substance) is necessary *only* physico-chemical-biological testing in accordance with European pharmacopoeia. Parametric release is not necessary, but of course the production process and its control is in accordance with GMP. Moreover, the substance (or its characteristics) is not mention in the list of the products to be considered as biological medicinal products. For our Sodium hyaluronate is a Certificate of Suitability (CEP) granted. CEP is not granted for biologicals fined chemical structure, characteristics and properties. Firm has further submitted copy of a letter from Contipro, Czech Republic dated 25-01-2023. The letter specifies the following: *Sodium hyaluronate is a pure chemical substance with defined chemical structure, characteristics and properties. Despite it is of biotechnological origin manufactured by classical fermentation of bacteria Streptococcus sp. And sometimes referenced in the scientific literature as a biological substance (meaning that the substance is a naturally produced in living organisms), it is not considered as biological substance in accordance with the directive 2001/83/EC, Annex I, Part 1, Module 3, chapter 3.2.1. Active substance(s),* *subchapter 3.2.1.1., letter b)* *A biological substance is a substance that is produced by or extracted from a biological source and that needs for its characterisation and the determination of its quality a combination of physico-chemical-biological testing, together with the production process and its control. The following shall be considered as biological medicinal products: immunological medicinal products and medicinal products derived from human blood and human plasma as defined, respectively in paragraphs (4) and (10) of Article 1; medicinal products falling within the scope of Part A of the Annex to Regulation (EEC) No 2309/93; advanced therapy medicinal products as defined in Part IV of this Annex.* *Explanation: For characterisation of sodium hyaluronate (pure chemical substance) is necessary only physico-chemical-biological testing in accordance with European pharmacopoeia. Parametric release is not necessary. But, of course, the production process and its control are in accordance with GMP.* *Moreover, the substance (or its characteristics) is not mentioned in the list of the products to be considered as biological medicinal products.*	

Decision: Approved with Innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit 7,500/- fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of Registration letter.**

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

Sr.#	Section	Observation	Response of firm
2	**3.2.S.4.1**	Copies of the Drug substance specifications and analytical procedures used for routine testing of the drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer are required.	Copies of the Drug substance specifications and analytical procedures used for routine testing of the drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer have been submitted.
3	**3.2.S.4.3**	Analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.	Analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer have been submitted.
4.	**3.2.S.4.4**	• The submitted COA of drug substance manufacturer is of Cefadroxil as monohydrate while identification shows Cefixime reference standard. Moreover, text editing in the COA is evident which is creating doubt. • The limits of water contents of drug substance are different from USP monograph. • The tests of optical rotation, crystallinity are not performed by drug substance manufacturer as recommended by Pharmacopoeia.	As per firm 'Mistakenly the COA of Cefixime compacted was submitted. However, in provided COA limits/tests are not in accordance with USP monograph'.
5	**3.2.S.4.5**	This section mentions that cefixime is a pharmacopoeial product. Clarification is required.	As per firm "Due to a typographic mistake cefixime is written instead of cefadroxil.
6	**3.2.S.5**	Provide COAs of reference standards used in the analysis of drug substance including source and lot number.	Firm has provided working standard COA of Batch no.: 002200/06/2021.
7	**3.2.P.1**	• Submit master formulation including theoretical fill weight per capsule alongwith details of equivalency factor for cefadroxil monhydrate. • List all components of the dosage form, and their amount on a per unit basis (including overages*, if any), the function of the components, and a reference to their quality standards (e.g. compendial monographs or manufacturer's specifications).	• Firm has Submitted master formulation including theoretical fill weight per bottle alongwith details of equivalency factor for cefadroxil monohydrate.
8	**3.2.P.2.2.1**	• Justify why pharmaceutical equivalence and CDP studies have not been performed against innovator product. • Justify how same results are obtained for pharmaceutical equivalence and CDP studies for both Cefadroxil 250mg Capsule and Cefadroxil 500mg Capsule.	• Due to un availability of innovator pack. • Firm has stated that CDP esults of both products are different.
9	**3.2.P.2.2.2.4**	Justify why the tests of reconstitution time, clarity and color after reconstitution are included in this section. Moreover, flow chart of manufacturing also showed the process for dry powder for suspension.	Firm has stated that both reconstitution test and test for clarity of solution are for Ceftriaxone injection, while drafting these test appeared in these section. Firm has

			provided revised specifications
10	**3.2.P.3**	• A batch formula for proposed commercial batch size shall be provided that includes a list of all components of the drug product to be used in the manufacturing process, their amounts on a per batch basis, and a reference to their quality standards.	Submitted
11	**3.2.P.5.1**	• The submitted specification does not include test for dissolution, uniformity of dosage units and water determination as recommended by USP. Moreover, justify the addition of tests of pH, loss on drying, weight variation, BET and sterility test in the specifications of Cefadroxil capsule.	Firm has submitted revised specification. However, fee for such change has not been submitted.
12	**3.2.P.5.2**	Submit analytical procedures of Cefadroxil capsule stating actual concentrations of sample and standard instead of submitting USP monograph.	Submitted
13	**3.2.P.5.3**	• Provide standard and sample preparation methods used in analytical method verification studies. • Justify method verification studies of drug without performance of specificity test. Specify the details of the accuracy and specificity test including the details of concentration of 80%, 100% and 120% solutions.	Submitted
14	**3.2.P.6**	Provide COA of reference standard used in the analysis of drug product including source and lot number.	Form has provided COA of Cefadroxil (compacted), Batch no. 002201/07/2021.
15	**3.2.P.8**	• The results of batch analysis and stability data reflect that tests of uniformity of dosage units, water contents, dissolution have not been performed throughout stability studies. Justify your stability study data without performance of tests recommended by pharmacopoeia. • Justify the addition of test of pH in stability studies of cefadroxil capsule which is not present in USP monograph of applied product. • Provide raw data sheets to justify the calculation of results for assay testing at each time point during the stability testing of each batch. • Submit copy of invoice for evidence of purchase of drug substance used in the development of analysis of each batch of drug product. • Provide copy of Batch Manufacturing Record (BMR) for the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3. • Submit compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Not submitted Not submitted Data sheets are missing. Firm has provided Performa Invoice of procurement of 25 kg Cefadroxil (Micronized) and 25 kg Cefadroxil (compacted). Submitted. Not submitted

Decision of 322nd meeting of Registration Board:
Deferred the case for following submissions:
• COA from drug substance and drug product manufacturer in accordance with pharmacopoeia.

- Submission of the valid copy of GMP Certificate of Drug substance manufacturer.
- Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets involving the performance of all pharmacopoeial tests.
- Submission of fee of Rs. 7,500/- for pre-registration variation (specifications) as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	COA from drug substance and drug product manufacturer in accordance with pharmacopoeia.	Firm has submitted COA of API from API manufacturer.
2.	Submission of the valid copy of GMP Certificate of Drug substance manufacturer.	Firm has submitted copy of GMP certificate of API manufacturer issued on the basis of inspection dated 08-01-2019.
3.	Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets involving the performance of all pharmacopoeial tests.	Firm has submitted stability data of 3 batches along with raw data sheets and chromatograms.
4.	Submission of fee of Rs. 7,500/- for pre-registration variation (specifications) as per notification No.F.7-11/2021-B&A/DRAP dated 13-07-2021.	Firm has submitted 7,500 fee vide slip number 61268061 dated 22-02-2023.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of clearance certificate and invoice cleared by AD (I&E) specifying import of 3Kg lansoprazole powder.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted by the firm
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted by the firm

Evaluation by PEC:

The application for contract manufacturing from M/s Bio-Labs (Pvt) Ltd. Islamabad is not submitted as per the guidance document approved by Registration Board. The submitted application is in variation to the guidance document in module 1 and various sections of module 3. The submitted COA of drug substance, batch analysis report of drug product and stability study data of drug product is not in line with the recommendations of Registration Board and as per the guidance document. Furthermore, it is also pertinent to mention that the drug product testing has been carried out using specifications which are not in line with the recommendations of the general monographs of the official pharmacopoeia and the analytical method of the assay test is based on UV method contrary to the method of analysis of the drug substance manufacturer and innovator's product.

Therefore, you are advised to resubmit your application compiled in the light of the guidance document approved by Registration Board and also justifying the specifications of the drug product so that further evaluation of your application could be carried out.

Firm has now submitted application as per guidance document. However, the following observations are still not addressed.

- Verification studies of the analytical method of drug substance since the API used is non-lyophilized powder.
- pH of reference product is 9 – 10.5 while the limit set by firm is 9 – 12 and results are above 11.0
- Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
- Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Decision of 323rd meeting of Registration Board:
Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Verification studies of the analytical method of drug substance since the API used is non-lyophilized powder.	Firm has submitted verification studies of the analytical method of drug substance.
2.	pH of reference product is 9 – 10.5 while the limit set by firm is 9 – 12 and results are above 11.0	Firm has submitted copy of USFDA label for Prevacid IV 30mg/vial which specifies that the solution prevacid has a pH of approximately 11 following the first reconstitution with sterile water for injection and approximately 10.2, 10 or 9.5 afer dilution with either 0.9% NaCl, lactated ringer of 5% dextrose injection respectively.
3.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate of API manufacturer valid till 22-01-2023.
4.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted compliance record of HPLC system.

Decision: Approved with Innovator's specifications.

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit 7,500/- fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of Registration letter.**

40.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Davis Pharmaceuticals Laboratories, Plot # 121 Industrial Triangle Kahuta Road Islamabad.**
	Name, address of Manufacturing site.	M/s Bio-Labs (Pvt) Ltd. Plot No. 145, Industrial Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Firm has submitted copy of contract manufacturing agreement with applicant firm dated 15-12-2020.
	GMP status of the firm	Firm has submitted copy of GMP certificate of M/s Bio-Labs dated 21-05-2019 based on the inspection dated 23-04-2019. The certificate is valid till 22-04-2022.

		The GMP certificate specifies Lyophilized vial (General) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of GMP certificate of M/s Bio-Labs dated 21-05-2019 based on the inspection dated 23-04-2019. The certificate is valid till 22-04-2022. The GMP certificate specifies Lyophilized vial (General) section. Firm has also submitted copy of letter for grant of additional section dated 23-07-2012 specifying Lyophilized vial (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 19156: 08-07-2021
	Details of fee submitted	PKR 50,000/-: 26-01-2021
	The proposed proprietary name / brand name	**ZOLARD Injection 30mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Vial Contains: Lansoprazole……30mg
	Pharmaceutical form of applied drug	Almost white coloured lyophilized hygroscopic powder contained in glass vial
	Pharmacotherapeutic Group of (API)	PPI
	Reference to Finished product specifications	In house
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Lansoprazole Injection **(USFDA** Approved)
	For generic drugs (me-too status)	Qpro injection by Bosch Pharma
	Name and address of API manufacturer.	Rajasthan Antibiotics Ltd. Plot No. 619 & 630 RIICO Industrial Area Bhiwadi – District Alwar Rajasthan India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for both drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated

		stability data is conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30ºC ± 2ºC / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the comparator i.e. Selanz 30mg Injection.
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	No PSI of the firm has been conducted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 6099317) issued by Food & Drugs Administration (Maharashtra State) India. The certificate is valid till 29-04-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice from Globe Chemicals GmbH cleared by AD (I&E) DRAP dated 22-04-2021. The invoice declare purchase of 300Kg Tramadol HCl.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches along with water loss test at each time point. Firm has submitted analytical report at each stability testing interval.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	HPLC system is not 21 CFR compliant
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Firm has submitted initial application on Form 5F on 20-11-2019 before the start of process of CTD pre-submission screening. The initial application was without any product development or stability study data. Later in response to the letter of shortcoming the firm submitted product development and stability study data on 05-10-2021.
- The real time stability study data of API is till 12 months only.
- GMP certificate of API was valid till 29-04-2022.
- Real time stability study data was conducted at 0, 6, 12, 18, 24 month and does not include testing at 3 and 9 months.

Decision of 323rd meeting of Registration Board: Registration Board observed that the firm has submitted various documents at different time intervals and that completely compiled application is not submitted. The Board after thorough deliberation decided to defer the case for submission of complete application on Form 5-F as per the guidance document approved by Registration Board.
Response by the firm: The firm vide its reply Dy No. 4877 dated 20-02-2023 submitted complete application / dossier on Form 5-F (CTD) as per the CTD guidance document in a single submission in 2 volume dossiers. Firm has requested to consider this application.
Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

42.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ashrafsons Pharmaceuticals (Pvt) Ltd. Plot No. 40, Road R-2, Industrial Estate, Gadoon Amazai District Swabi.**
	Name, address of Manufacturing site.	M/s Ashrafsons Pharmaceuticals (Pvt) Ltd. Plot No. 40, Road R-2, Industrial Estate, Gadoon Amazai District Swabi.

The invoice declare purchase of 10Kg Sodium lactate.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Revise your label claim as per the innovator's product along with submission of full fee since innovator product specifies clalcium chloride dihydrate 0.027g/100ml while you have mentioned calcium chloride 0.027g/100ml.	*Applied formulation contains calcium chloride dihydrate as per BP innovator product also contains calcium chloride dihydrate. In master formulation typographic error found. New master formulation has been submitted.* **Firm has not revised the label claim nor submitted any fee.**
2.	Evidence of me-too status of the applied product since the submitted me-too contains sodium lactate 0.31g while your applied formulation contains 0.32g sodium lactate.	*our main competitor is FRONTIER DEXTROSE LIMITED PHARMA HATTAR having formulation sodium lactate 0.32g/100 ml which is same as our formulation 0.32g/100 ml.* **The available data base shows that Sterifluid RL Infusion (Reg # 052739) of M/s Frontier Dextrose Ltd contains Sodium Lactate 0.31gm**
3.	Provide reference of finished product specifications in module 1 along with submission of fee for revision of specifications.	*Typographic error found. Our product is BP Specifications.* **Firm has not submitted any fee**
4.	Submit verification studies of the Calcium chloride drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
5.	Provide actual signed data sheets for three batches of the calcium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer. Furthermore, the submitted stabilility sheets does not specify any batch number, manufacturing or expiry date etc.	**Firm has not submitted stability study data sheets for API from API manufacturer.**
6.	Submit verification studies of the Potassium chloride drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
7.	Submit verification studies of the Sodium chloride drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**

8.	Provide actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	**Firm has not submitted stability study data sheets for API from API manufacturer.**
9.	Submit verification studies of the sodium lactate drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
10.	Provide actual signed data sheets for three batches of the Sodium lactate drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	**Firm has not submitted stability study data sheets for API from API manufacturer.**
11.	The innovator's product is using 0.027g/100ml of clalcium chloride dihydrate while your formulation contains 0.027g/100ml of calcium chloride. Justify how your formulation is similar to that of innovator's product.	*Our formulation is similar to that of innovators product that is 0.027g/100ml of clacium chloride dihydrate.* **The submitted formulation as well as BMR shows that firm is using 0.027g/100ml of calcium chloride.**
12.	Justify why pharmaceutical equivalence is conducted against a comparator product instead of performing against the innovator's product.	*Because they have the same active ingredients, the same dosage form and are identical in strength, quality, purity, and identity as the brand-name product.* **Firm has not submitted any relevant response.**
13.	Justify why complete tests as mentioned in BP monograph is not performed in pharmaceutical equivalence studies.	*Skip testing is the performance of specified tests at release on pre-selected batches and / or at predetermined intervals, rather than on a batch-to-batch basis with the understanding that those batches not being tested still must meet all acceptance criteria established for that product. This represents a less than full schedule of testing and should therefore be justified and presented to and approved by the regulatory authority prior to implementation.* **Firm has not submitted any relevant response.**
14.	Justify how you can perform pharmaceutical equivalence against a product which have different quantitative composition as compared to your product.	*We cannot perform pharmaceutical equivalence against a product which has different quantitative composition to our product.* **Firm has not submitted any relevant response.**
15.	Provide microbiological attributes of the drug product in section 3.2.P.2.5.	*Our product is compatible with drug container made of polypropylene of pharmaceutical grade and heat resistant and we can easily sterilize our product at 121°C for 30 minutes to make our product properly sterile.* **Firm has not submitted any relevant response.**
16.	Provide details how terminal sterilization method was validated for PP bottles.	***Terminal sterilization method was validated for PP bottles was validated from external agency.***
17.	Justify why the drug product specifications does not contain test of particulate matter.	*Product specification concentrate on quality of product till expiry with 100% efficiency .detail is given by literature support.*

		Firm has not submitted any relevant response.
18.	Justify why the acceptance criteria of all assay tests in pharmaceutical equivalence is not as per BP monograph.	*All the test acceptance criteria of all assay tests in pharmaceutical complies BP 2022.* **The acceptance criteria of all tests is not as per the BP monograph.**
19.	Justify why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	*All the test acceptance criteria of all assay tests in pharmaceutical complies BP 2022.* **The tests is not as per the BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
20.	Justify why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	*Potassium test is according to BP 2022.* **The tests is not as per the BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
21.	Justify why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.	*The method of sodium lactate is HPLC method in BP 2022. We give the HPLC print is attached with the file.* **Firm has used titration method as submitted in the application.**
22.	Provide verification studies of the analytical method of drug product in section 3.2.P.5.3 instead of providing process validation report.	*We have submitted verification studies.* **Firm has submitted process validation report instead of analytical method verification.**
23.	Provide details of the container closure system of the applied product.	*Our sterile product is filled in polypropylene container properly sealed and sterilized. Polypropylene plastic is of pharmaceutical grade and provide strength to the container and .polypropylene is heat resistant and we can easily sterilize our product at 121c. to make our product sterile*
24.	Describe your container closure system in detail whether it contains Eurocap or not along with evidence of this facility (if applicable).	*Firm has both facility of manufacturing the simple cap & Eurocap.*
25.	Specify whether the bottles placed in stability chambers were with Europcap or not.	*At present we are using simple cap to reduce cost of our product but we have the facility of Eurocap machine facility.*
26.	Provide total capacity of each stability chamber and details of number of bottles of each product placed in the stability chambers. Also provide details how many bottles of the applied product are placed in real time and accelerated stability chamber.	*40 bottles in real stabilty chamber.* *60 bottles in accelerated stabilty chamber.*
27.	Justify why the stability studies have been performed using method and acceptance criteria which is completely different from that specified in BP monograph.	*All the test acceptance criteria of all assay tests in pharmaceutical complies BP 2022.* **The acceptance criteria of all tests is not as per the BP monograph.**
28.	Justify the performance of stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container, while ICH guidelines recommend performing stability studies at 30°C ± 2°C / 35% ± 5%RH and 40°C ± 2°C / NMT 25% RH for products packed in semi permeable containers.	*We have submitted the stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container.* **Firm has not submitted any relevant response.**
29.	Justify why you have not perfoemed test of water loss during the stability studies.	**Firm has not submitted any response.**

30.	The analytical method in section 3.2.P.5.2 specifies titration method for analysis of lactate while in stability studies you have provided single HPLC chromatogram for analysis in which the UV wavelength is also different from that specified in BP monograph.	*we have sumbitted the sodium lactate method on hplc according to BP2022.* **Firm has not submitted any relevant response.**
31.	Justify how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.	**Firm has not submitted any response.**
32.	Provide details of the HPLC system, model along with details of the software available in your QC lab and status of its 21 CFR compliance.	*Our HPLC is LAB SOLUTION 21CFR software in our labortaory.*
33.	Provide evidence of atomic emission spectroscopy required for analysis of drug product as per BP monograph.	**Firm has not submitted any response.**
34.	Provide analysis report for all the testing performed through atomic emission spectroscopy.	**Firm has not submitted any response.**

Decision of 323rd meeting of Registration Board:

Deferred for following submissions:

- Revision of label claim of the applied product as per the innovator's product along with submission of full fee of registration.
- Evidence of me-too status of the applied product since the submitted me-too contains sodium lactate 0.31g while your applied formulation contains 0.32g sodium lactate.
- Report of verification studies of the Calcium chloride drug substance.
- Submission of actual signed data sheets for three batches of the calcium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.
- Report of verification studies of the Potassium chloride drug substance.
- Report of verification studies of the Sodium chloride drug substance.
- Submission of actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.
- Report of verification studies of the sodium lactate drug substance.
- Submission of actual signed data sheets for three batches of the Sodium lactate drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.
- Scientific justification for having the formulation containing 0.027g/100ml of calcium chloride while the innovator's product is using 0.027g/100ml of clalcium chloride dihydrate.
- Pharmaceutical equivalence studies against the innovator's product.
- Submission of microbiological attributes of the drug product in section 3.2.P.2.5.
- Scientific justification for performing validation studies of terminal sterilization procedure from external agency only.
- Scientific justification for the drug product specifications which does not contain test of particulate matter.
- Scientific justification for having different acceptance criteria of all assay tests in specifications as compared to that specified in BP monograph.
- Scientific justification why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.
- Scientific justification why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.
- Scientific justification why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.
- Report of verification studies of the analytical method of drug product.
- Scientific justification why the test of water loss is not performed during the stability studies.
- Scientific justification how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.

- Evidence of atomic absorption and atomic emission spectroscopy required for analysis of drug product as per BP monograph along with IQ, OQ and PQ of both equipments.
- Submission of analysis report and raw data sheets for all the testing performed through atomic emission spectroscopy.
- Batch size of drug product stability batches in terms of no. of units.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Revision of label claim of the applied product as per the innovator's product along with submission of full fee of registration.	Firm has revised the label claim as per innovator's product
2.	Evidence of me-too status of the applied product since the submitted me-too contains sodium lactate 0.31g while your applied formulation contains 0.32g sodium lactate.	Our me-too competitor is FDL which have 0.32g/100ml
3.	Report of verification studies of the Calcium chloride drug substance.	Not submitted
4.	Submission of actual signed data sheets for three batches of the calcium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.	Firm has initially submitted data sheets without any sign and stamp of the API manufacturer, later the firm submitted signed data sheets.
5.	Report of verification studies of the Potassium chloride drug substance.	Not submitted
6.	Submission of actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.	Firm has initially submitted data sheets without any sign and stamp of the API manufacturer, later the firm submitted signed data sheets.
7.	Report of verification studies of the sodium lactate drug substance.	Not submitted
8.	Submission of actual signed data sheets for three batches of the Sodium lactate drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.	Firm has initially submitted data sheets without any sign and stamp of the API manufacturer, later the firm submitted signed data sheets.
9.	Scientific justification for having the formulation containing 0.027g/100ml of calcium chloride while the innovator's product is using 0.027g/100ml of clalcium chloride dihydrate.	Our formulation is similar to that of innovator's product
10.	Pharmaceutical equivalence studies against the innovator's product.	Not submitted againt the innovator's product
11.	Submission of microbiological attributes of the drug product in section 3.2.P.2.5.	Not submitted.
12.	Scientific justification for performing validation studies of terminal sterilization procedure from external agency only.	No justification is submitted by the firm.
13.	Scientific justification for the drug product specifications which does not contain test of particulate matter.	Not submitted.
14.	Scientific justification for having different acceptance criteria of all assay tests in specifications as	No justification is submitted.

	compared to that specified in BP monograph.	
15.	Scientific justification why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	No justification submitted.
16.	Scientific justification why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	No justification submitted.
17.	Scientific justification why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.	No justification submitted.
18.	Report of verification studies of the analytical method of drug product.	Not submitted.
19.	Scientific justification why the test of water loss is not performed during the stability studies.	Submitted by the firm.
20.	Scientific justification how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.	No justification submitted.
21.	Evidence of atomic absorption and atomic emission spectroscopy required for analysis of drug product as per BP monograph along with IQ, OQ and PQ of both equipments.	Not submitted.
22.	Submission of analysis report and raw data sheets for all the testing performed through atomic emission spectroscopy.	Not submitted.
23.	Batch size of drug product stability batches in terms of no. of units.	100 bottles

Decision: Deferred for following submissions:

- **Revision of label claim of the applied product as per the innovator's product and labelling requirements of BP monograph along with submission of full fee of registration.**
- **Protocol and report of verification studies of the Calcium chloride drug substance as per the ICH Q2 Guidelines.**
- **Scientific justification for initial submission of stability study data of the calcium chloride drug substance without signatures of responsible personnel, later the same data was presented as signed data sheets but without any details of the batches on which stability was performed.**
- **Protocol and report of verification studies of the Potassium chloride drug substance as per the ICH Q2 Guidelines.**
- **Protocol and report of verification studies of the Sodium chloride drug substance as per the ICH Q2 Guidelines.**
- **Scientific justification for initial submission of stability study data of the sodium chloride drug substance without signatures of responsible personnel, later the same data was presented as signed data sheets but without any details of the batches on which stability was performed.**
- **Protocol and report of verification studies of the sodium lactate drug substance as per the ICH Q2 Guidelines.**

- **Scientific justification for initial submission of stability study data of the Sodium lactate drug substance without signatures of responsible personnel, later the same data was presented as signed data sheets but without any details of the batches on which stability was performed.**
- **Scientific justification for having the formulation containing 0.027g/100ml of calcium chloride while the innovator's product is using 0.027g/100ml of clalcium chloride dihydrate.**
- **Submission of picture / image of the innovator's product against which Pharmaceutical equivalence studies have been performed.**
- **Submission of microbiological attributes of the drug product in section 3.2.P.2.5.**
- **Scientific justification for performing validation studies of terminal sterilization procedure from external agency only.**
- **Scientific justification for the drug product specifications which does not contain test of particulate matter.**
- **Scientific justification for having different acceptance criteria of all assay tests in specifications as compared to that specified in BP monograph.**
- **Scientific justification why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
- **Scientific justification why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
- **Scientific justification why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.**
- **Protocol and report of verification studies of the analytical method of drug product as per the ICH Q2 Guidelines.**
- **Scientific justification how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.**
- **Evidence of atomic absorption and atomic emission spectroscopy required for analysis of drug product as per BP monograph along with IQ, OQ and PQ of both equipments.**
- **Submission of analysis report and raw data sheets for all the testing performed through atomic emission spectroscopy.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Sodium Chloride:** Not submitted. **Calcium chloride:** Not submitted. **Potassium chloride:** Firm has submitted stability data of 3 batches of API as per zone IV-A conditions. **Sodium lactate:** Not submitted.

	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for the quality tests for their product against the comparator product 'Sterifluid-RL Infusion by M/s FDL Pharma."
	Analytical method validation/verification of product	Firm has submitted report of verification of analytical method for the drug substance. Firm has submitted report of verification of analytical method for the drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable since it is a newly established license.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Sodium Chloride:** Firm has submitted copy of GMP certificate (No. HE20180030) issued by China Food and Drug Administration. The certificate is valid till 22-04-2023. **Calcium chloride:** Firm has submitted copy of GMP certificate (No. HE20180030) issued by

		China Food and Drug Administration. The certificate is valid till 22-04-2023. **Potassium chloride:** Firm has submitted copy of GMP certificate (No. HE20180030) issued by China Food and Drug Administration. The certificate is valid till 22-04-2023. **Sodium lactate:** Firm has submitted copy of GMP certificate (No. HA20190099) issued by China Food and Drug Administration. The certificate is valid till 29-11-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Sodium Chloride:** Firm has submitted copy of commercial invoice cleared by AD (I&E) DRAP dated 04-01-2022. The invoice declare purchase of 25Kg sodium chloride (Batch No. 210909). **Calcium chloride:** Firm has submitted copy of commercial invoice cleared by AD (I&E) DRAP dated 04-01-2022. The invoice declare purchase of 5Kg calcium chloride. **Potassium chloride:** Firm has submitted copy of commercial invoice cleared by AD (I&E) DRAP dated 04-01-2022. The invoice declare purchase of 5Kg potassium chloride. **Sodium lactate:** Firm has submitted copy of commercial invoice cleared by AD (I&E) DRAP dated 04-01-2022. The invoice declare purchase of 10Kg Sodium lactate.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted stability study data of 3 batches
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	NA
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

Sr. No	Shortcomings communicated	Response by the firm
1.	Revise your label claim as per the innovator's product along with submission of full fee since innovator product specifies clalcium chloride dihydrate 0.027g/100ml while you have mentioned calcium chloride 0.027g/100ml.	*Applied formulation contains calcium chloride dihydrate as per BP innovator product also contains calcium chloride dihydrate. In master formulation typographic error found. New master formulation has been submitted.* **Firm has not revised the label claim nor submitted any fee.**
2.	Evidence of me-too status of the applied product since the submitted me-too contains sodium lactate 0.31g while your applied formulation contains 0.32g sodium lactate.	*our main competitor is FRONTIER DEXTROSE LIMITED PHARMA HATTAR having formulation sodium lactate 0.32g/100 ml which is same as our formulation 0.32g/100 ml.* **The available data base shows that Sterifluid RL Infusion (Reg # 052739) of M/s Frontier Dextrose Ltd contains Sodium Lactate 0.31gm**
3.	Provide reference of finished product specifications in module 1 along with submission of fee for revision of specifications.	*Typographic error found. Our product is BP Specifications.* **Firm has not submitted any fee**
4.	Submit verification studies of the Calcium chloride drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
5.	Provide actual signed data sheets for three batches of the calcium chloride drug substance in which accelerated and real	**Firm has not submitted stability study data sheets for API from API manufacturer.**

	time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer. Furthermore, the submitted stabilility sheets does not specify any batch number, manufacturing or expiry date etc.	
6.	Submit verification studies of the Potassium chloride drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
7.	Submit verification studies of the Sodium chloride drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
8.	Provide actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	**Firm has not submitted stability study data sheets for API from API manufacturer.**
9.	Submit verification studies of the sodium lactate drug substance in section 3.2.S.4.3	**Firm has not submitted verification studies for the drug substance.**
10.	Provide actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions, since you have submitted unsigned data sheets on which stamp of Ashrafsons Pharmaceuticals is placed instead of being signed and stamped by drug substance manufacturer.	**Firm has not submitted stability study data sheets for API from API manufacturer.**
11.	The innovator's product is using 0.027g/100ml of clalcium chloride dihydrate while your formulation contains 0.027g/100ml of calcium chloride. Justify how your formulation is similar to that of innovator's product.	*Our formulation is similar to that of innovators product that is 0.027g/100ml of clacium chloride dihydrate.* **The submitted formulation as well as BMR shows that firm is using 0.027g/100ml of calcium chloride.**
12.	Justify why pharmaceutical equivalence is conducted against a comparator product instead of performing against the innovator's product.	*Because they have the same active ingredients, the same dosage form and are identical in strength, quality, purity, and identity as the brand-name product.* **Firm has not submitted any relevant response.**
13.	Justify why complete tests as mentioned in BP monograph is not performed in pharmaceutical equivalence studies.	*Skip testing is the performance of specified tests at release on pre-selected batches and / or at predetermined intervals, rather than on a batch-to-batch basis with the understanding that those batches not being tested still must meet all acceptance criteria established for that product. This represents a less than full schedule of testing and should therefore be justified and presented to and approved by the regulatory authority prior to implementation.* **Firm has not submitted any relevant response.**
14.	Justify how you can perform pharmaceutical equivalence against a product which have different quantitative composition as compared to your product.	*We cannot perform pharmaceutical equivalence against a product which has different quantitative composition to our product.*

		Firm has not submitted any relevant response.
15.	Provide microbiological attributes of the drug product in section 3.2.P.2.5.	*Our product is compatible with drug container made of polypropylene of pharmaceutical grade and heat resistant and we can easily sterilize our product at 121°C for 30 minutes to make our product properly sterile.* **Firm has not submitted any relevant response.**
16.	Provide details how terminal sterilization method was validated for PP bottles.	***Terminal sterilization method was validated for PP bottles was validated from external agency.***
17.	Justify why the drug product specifications does not contain test of particulate matter.	*Product specification concentrate on quality of product till expiry with 100% efficiency .detail is given by literature support.* **Firm has not submitted any relevant response.**
18.	Justify why the acceptance criteria of all assay tests in pharmaceutical equivalence is not as per BP monograph.	*All the test acceptance criteria of all assay tests in pharmaceutical complies BP 2022.* **The acceptance criteria of all tests is not as per the BP monograph.**
19.	Justify why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	*All the test acceptance criteria of all assay tests in pharmaceutical complies BP 2022.* **The tests is not as per the BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
20.	Justify why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	*Potassium test is according to BP 2022.* **The tests is not as per the BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
21.	Justify why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.	*The method of sodium lactate is HPLC method in BP 2022. We give the HPLC print is attached with the file.* **Firm has used titration method as submitted in the application.**
22.	Provide verification studies of the analytical method of drug product in section 3.2.P.5.3 instead of providing process validation report.	*We have submitted verification studies.* **Firm has submitted process validation report instead of analytical method verification.**
23.	Provide details of the container closure system of the applied product.	*Our sterile product is filled in polypropylene container properly sealed and sterilized. Polypropylene plastic is of pharmaceutical grade and provide strength to the container and .polypropylene is heat resistant and we can easily sterilize our product at 121c. to make our product sterile*
24.	Describe your container closure system in detail whether it contains Eurocap or not along with evidence of this facility (if applicable).	*Firm has both facility of manufacturing the simple cap & Eurocap.*
25.	Specify whether the bottles placed in stability chambers were with Europcap or not.	*At present we are using simple cap to reduce cost of our product but we have the facility of Eurocap machine facility.*
26.	Provide total capacity of each stability chamber and details of number of bottles of each product placed in the stability chambers. Also provide details how many bottles of the applied product are placed in real time and accelerated stability chamber.	*40 bottles in real stabilty chamber.* *60 bottles in accelerated stabilty chamber.*

27.	Justify why the stability studies have been performed using method and acceptance criteria which is completely different from that specified in BP monograph.	*All the test acceptance criteria of all assay tests in pharmaceutical complies BP 2022.* **The acceptance criteria of all tests is not as per the BP monograph.**
28.	Justify the performance of stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container, while ICH guidelines recommend performing stability studies at 30°C ± 2°C / 35% ± 5%RH and 40°C ± 2°C / NMT 25% RH for products packed in semi permeable containers.	*We have submitted the stability studies at 30°C ± 2°C / 65% ± 5%RH and 40°C ± 2°C / 75% ± 5%RH being a product packed in PP (semi permeable) container.* **Firm has not submitted any relevant response.**
29.	Justify why you have not perfoemed test of water loss during the stability studies.	**Firm has not submitted any response.**
30.	The analytical method in section 3.2.P.5.2 specifies titration method for analysis of lactate while in stability studies you have provided single HPLC chromatogram for analysis in which the UV wavelength is also different from that specified in BP monograph.	*we have sumbitted the sodium lactate method on hplc according to BP2022.* **Firm has not submitted any relevant response.**
31.	Justify how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.	**Firm has not submitted any response.**
32.	Provide details of the HPLC system, model along with details of the software available in your QC lab and status of its 21 CFR compliance.	*Our HPLC is LAB SOLUTION 21CFR software in our labortaory.*
33.	Provide evidence of atomic emission spectroscopy required for analysis of drug product as per BP monograph.	**Firm has not submitted any response.**
34.	Provide analysis report for all the testing performed through atomic emission spectroscopy.	**Firm has not submitted any response.**

Decision of 323rd meeting of Registration Board:

Deferred for following submissions:

- Revision of label claim of the applied product as per the innovator's product along with submission of full fee of registration.
- Evidence of me-too status of the applied product since the submitted me-too contains sodium lactate 0.31g while your applied formulation contains 0.32g sodium lactate.
- Report of verification studies of the Calcium chloride drug substance.
- Submission of actual signed data sheets for three batches of the calcium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.
- Report of verification studies of the Potassium chloride drug substance.
- Report of verification studies of the Sodium chloride drug substance.
- Submission of actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.
- Report of verification studies of the sodium lactate drug substance.
- Submission of actual signed data sheets for three batches of the Sodium lactate drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.
- Scientific justification for having the formulation containing 0.027g/100ml of calcium chloride while the innovator's product is using 0.027g/100ml of clalcium chloride dihydrate.
- Pharmaceutical equivalence studies against the innovator's product.
- Submission of microbiological attributes of the drug product in section 3.2.P.2.5.
- Scientific justification for performing validation studies of terminal sterilization procedure from external agency only.
- Scientific justification for the drug product specifications which does not contain test of particulate matter.

- Scientific justification for having different acceptance criteria of all assay tests in specifications as compared to that specified in BP monograph.
- Scientific justification why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.
- Scientific justification why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.
- Scientific justification why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.
- Report of verification studies of the analytical method of drug product.
- Scientific justification why the test of water loss is not performed during the stability studies.
- Scientific justification how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.
- Evidence of atomic absorption and atomic emission spectroscopy required for analysis of drug product as per BP monograph along with IQ, OQ and PQ of both equipments.
- Submission of analysis report and raw data sheets for all the testing performed through atomic emission spectroscopy.
- Batch size of drug product stability batches in terms of no. of units.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Revision of label claim of the applied product as per the innovator's product along with submission of full fee of registration.	Firm has revised the label claim as per innovator's product
2.	Evidence of me-too status of the applied product since the submitted me-too contains sodium lactate 0.31g while your applied formulation contains 0.32g sodium lactate.	Our me-too competitor is FDL which have 0.32g/100ml
3.	Report of verification studies of the Calcium chloride drug substance.	Not submitted
4.	Submission of actual signed data sheets for three batches of the calcium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.	Firm has initially submitted data sheets without any sign and stamp of the API manufacturer, later the firm submitted signed data sheets.
5.	Report of verification studies of the Potassium chloride drug substance.	Not submitted
6.	Submission of actual signed data sheets for three batches of the Sodium chloride drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.	Firm has initially submitted data sheets without any sign and stamp of the API manufacturer, later the firm submitted signed data sheets.
7.	Report of verification studies of the sodium lactate drug substance.	Not submitted
8.	Submission of actual signed data sheets for three batches of the Sodium lactate drug substance in which accelerated and real time stability study is conducted as per zone IV-A conditions.	Firm has initially submitted data sheets without any sign and stamp of the API manufacturer, later the firm submitted signed data sheets.
9.	Scientific justification for having the formulation containing 0.027g/100ml of calcium chloride while the innovator's product is using	Our formulation is similar to that of innovator's product

	0.027g/100ml of clalcium chloride dihydrate.	
10.	Pharmaceutical equivalence studies against the innovator's product.	Not submitted againt the innovator's product
11.	Submission of microbiological attributes of the drug product in section 3.2.P.2.5.	Not submitted.
12.	Scientific justification for performing validation studies of terminal sterilization procedure from external agency only.	No justification is submitted by the firm.
13.	Scientific justification for the drug product specifications which does not contain test of particulate matter.	Not submitted.
14.	Scientific justification for having different acceptance criteria of all assay tests in specifications as compared to that specified in BP monograph.	No justification is submitted.
15.	Scientific justification why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	No justification submitted.
16.	Scientific justification why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.	No justification submitted.
17.	Scientific justification why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.	No justification submitted.
18.	Report of verification studies of the analytical method of drug product.	Not submitted.
19.	Scientific justification why the test of water loss is not performed during the stability studies.	Submitted by the firm.
20.	Scientific justification how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.	No justification submitted.
21.	Evidence of atomic absorption and atomic emission spectroscopy required for analysis of drug product as per BP monograph along with IQ, OQ and PQ of both equipments.	Not submitted.
22.	Submission of analysis report and raw data sheets for all the testing performed through atomic emission spectroscopy.	Not submitted.
23.	Batch size of drug product stability batches in terms of no. of units.	100 bottles
Decision: Deferred for following submissions:		

- **Revision of label claim of the applied product as per the innovator's product and labelling requirements of BP monograph along with submission of full fee of registration.**
- **Protocol and report of verification studies of the Calcium chloride drug substance as per the ICH Q2 Guidelines.**
- **Scientific justification for initial submission of stability study data of the calcium chloride drug substance without signatures of responsible personnel, later the same data was presented as signed data sheets but without any details of the batches on which stability was performed.**
- **Protocol and report of verification studies of the Potassium chloride drug substance as per the ICH Q2 Guidelines.**
- **Protocol and report of verification studies of the Sodium chloride drug substance as per the ICH Q2 Guidelines.**
- **Scientific justification for initial submission of stability study data of the sodium chloride drug substance without signatures of responsible personnel, later the same data was presented as signed data sheets but without any details of the batches on which stability was performed.**
- **Protocol and report of verification studies of the sodium lactate drug substance as per the ICH Q2 Guidelines.**
- **Scientific justification for initial submission of stability study data of the Sodium lactate drug substance without signatures of responsible personnel, later the same data was presented as signed data sheets but without any details of the batches on which stability was performed.**
- **Scientific justification for having the formulation containing 0.027g/100ml of calcium chloride while the innovator's product is using 0.027g/100ml of clalcium chloride dihydrate.**
- **Submission of picture / image of the innovator's product against which Pharmaceutical equivalence studies have been performed.**
- **Submission of microbiological attributes of the drug product in section 3.2.P.2.5.**
- **Scientific justification for performing validation studies of terminal sterilization procedure from external agency only.**
- **Scientific justification for the drug product specifications which does not contain test of particulate matter.**
- **Scientific justification for having different acceptance criteria of all assay tests in specifications as compared to that specified in BP monograph.**
- **Scientific justification why the test for sodium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
- **Scientific justification why the test for potassium content in the drug product is different from that mentioned in BP monograph in terms of concentration of standard solution and specification parameters of atomic emission spectrophotometry.**
- **Scientific justification why the test for lactate content in the drug product is different from that mentioned in BP monograph, since HPLC test is specified in BP monograph while you have specified titration method.**
- **Protocol and report of verification studies of the analytical method of drug product as per the ICH Q2 Guidelines.**
- **Scientific justification how a single chromatogram of HPLC run at 210nm UV wavelength be used to determine assay of lactate for the applied product.**
- **Evidence of atomic absorption and atomic emission spectroscopy required for analysis of drug product as per BP monograph along with IQ, OQ and PQ of both equipments.**
- **Submission of analysis report and raw data sheets for all the testing performed through atomic emission spectroscopy.**

Case No. 03 Registration applications of Form-5 cases

a) New cases

44.	**Name and address of manufacturer / Applicant**	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
	Brand Name +Dosage Form + Strength	Prokin Tablet 1mg
	Composition	Each Tablet Contains:

	Cinitapride…1mg
Diary No. Date of R& I & fee	Dy No. 14091: 07-03-2019 PKR 20,000/-: 07-03-2019
Pharmacological Group	Propulsives
Type of Form	Form 5
Finished Product Specification	Firm has claimed in-house specifications
Pack size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities.	Spain Approved
Me-too status	Cidine 1mg Tablet by Highnoon Laboratories
GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
Remarks of the Evaluator[3].	• Revise your label claim along with submission of full fee as per the innovator's product as per following: Each Tablet Contains: Cinitapride as Hydrogen Tartrate……1mg

Decision: Approved with Innovator's specifications and with following label claim:
Each Tablet Contains:
Cinitapride as Hydrogen Tartrate……1mg

- **The firm shall submit fee of Rs. 30,000/- for correction/pre-approval change in product label claim as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.**

45. Name and address of manufacturer / Applicant	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
Brand Name +Dosage Form + Strength	Zeto Tablet 50mg
Composition	Each Tablet Contains: Itopride HCl…50mg
Diary No. Date of R& I & fee	Dy No. 14088: 07-03-2019 PKR 20,000/-: 07-03-2019
Pharmacological Group	Antiemetics
Type of Form	Form 5
Finished Product Specification	Firm has claimed in-house specifications
Pack size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities.	PMDA Japan Approved
Me-too status	Ganaton Tablet by Abbott
GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
Remarks of the Evaluator[3].	• Revise your label claim to film coated tablet along with submission of 7,500 fee as per the innovator's product as per following: Each Film Coated Tablet Contains: Itopride HCl……50mg

Decision: Approved with Innovator's specifications and with following label claim:
Each Film Coated Tablet Contains:
Itopride HCl……50mg
Firm shall submit 7,500/- fee for revision of formulation from uncoated tablet to film coated tablet as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

46. Name and address of manufacturer / Applicant	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
Brand Name +Dosage Form + Strength	Zeto Tablet 150mg
Composition	Each Tablet Contains: Itopride HCl…150mg
Diary No. Date of R& I & fee	Dy No. 14089: 07-03-2019 PKR 20,000/-: 07-03-2019
Pharmacological Group	Antiemetics
Type of Form	Form 5
Finished Product Specification	Firm has claimed in-house specifications
Pack size & Demanded Price	As per SRO

Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
Me-too status	Ganaton OD Tablet by Abbott
GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
Remarks of the Evaluator[3].	• Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.

Decision: Deferred for evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.

47. Name and address of manufacturer / Applicant	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
Brand Name +Dosage Form + Strength	Synleo Tablet 2.5mg
Composition	Each Tablet Contains: Letrozole…2.5mg
Diary No. Date of R& I & fee	Dy No. 14085: 07-03-2019 PKR 20,000/-: 07-03-2019
Pharmacological Group	Aromatase inhibitors
Type of Form	Form 5
Finished Product Specification	USP
Pack size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities.	USFDA Approved
Me-too status	Femara Tablet by Novartis
GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
Remarks of the Evaluator[3].	• Revise your label claim to film coated tablet along with submission of 7,500 fee as per the innovator's product as per following: Each Film Coated Tablet Contains: Letrozole…2.5mg

Decision: Approved with following label claim:
Each Film Coated Tablet Contains:
Letrozole…2.5mg
Firm shall submit 7,500/- fee for revision of formulation from uncoated tablet to film coated tablet as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

48. Name and address of manufacturer / Applicant	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
Brand Name +Dosage Form + Strength	Synpride 50mg Tablet
Composition	Each Tablet Contains: Levosulpride…50mg
Diary No. Date of R& I & fee	Dy No. 14090: 07-03-2019 PKR 20,000/-: 07-03-2019
Pharmacological Group	Antipsychotic
Type of Form	Form 5
Finished Product Specification	Firm has claimed in-house specifications
Pack size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities.	AIFA Italy approved.
Me-too status	Levide tablet by Swiss Pharma
GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
Remarks of the Evaluator[3].	•

Decision: Approved with Innovator's specifications.

49. Name and address of manufacturer / Applicant	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
Brand Name +Dosage Form + Strength	Synman 10mg Tablet
Composition	Each Tablet Contains: Memantine HCl…10mg

Diary No. Date of R& I & fee	Dy No. 14078: 07-03-2019 PKR 20,000/-: 07-03-2019
Pharmacological Group	Other anti-dementia drugs
Type of Form	Form 5
Finished Product Specification	USP
Pack size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities.	MHRA Approved
Me-too status	Afdol Tablet by AGP
GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
Remarks of the Evaluator[3].	•

Decision: Approved.

50.	**Name and address of manufacturer / Applicant**	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**
	Brand Name +Dosage Form + Strength	Malphine Injection 22.75mg
	Composition	Each ml Contains: Pheniramine Maleate…22.75mg
	Diary No. Date of R& I & fee	Dy No. 14094: 07-03-2019 PKR 20,000/-: 07-03-2019
	Pharmacological Group	Antihistamines for systemic use
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Amrovil Injection by Amros
	GMP status	Firm has submitted copy of GMP certificate issued on the basis of inspection dated 22-01-2021.
	Remarks of the Evaluator[3].	• Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.

Decision: Deferred for evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.

51.	**Name and address of manufacturer / Applicant**	**M/s Synchro Pharmaceuticals 77-Industrial Estate, Kot Lakhpat, Lahore**

Me-too status	Could not be confirmed
GMP status	
Remarks of the Evaluator[3].	• Latest GMP inspection report conducted within a period of last three years. • Revise your label claim as per the innovator's product along with submission of full fee of registration. • Provide evidence of required manufacturing technology (OROS Push-Pull Technology) as per reference product. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm or else application on Form 5D along with differential fee and stability study data of three batches as per the guidelines and checklist approved by Registration Board in its 312th meeting.

Decision: Deferred for following:

- **Latest GMP inspection report conducted within a period of last three years.**
- **Revision of the label claim as per the innovator's product along with submission of full fee of registration.**
- **Evidence of required manufacturing technology i.e. OROS Push-Pull Technology which is required for manufacturing of applied product as evident from the review report of the innovator's product.**
- **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm or else application on Form 5D along with differential fee and stability study data of three batches as per the guidelines and checklist approved by Registration Board in its 312th meeting.**

a) Deferred cases

290.	**Name and address of manufacturer / Applicant**	**M/s Intervac (Pvt) Ltd., 18-Km, Lahore Sheikhupura Road, Sheikhupura, Pakistan**
	Brand Name +Dosage Form + Strength	Oxytofas- DS Injection
	Composition	Each 100ml contains: Oxytocin (Synthetic)…….2000IU
	Diary No. Date of R& I & fee	Dy.No.8144; 10-07-2017; Rs.20,000/- (10-07-2017)
	Pharmacological Group	Hormone
	Type of Form	Form 5
	Finished product Specifications	USP
	Pack size & Demanded Price	100ml; Decontrolled
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status (with strength and dosage form)	Oxytovet Injection Of M/S International Pharma Labs.
	GMP status	Last inspection conducted on 28-02-2017 & 17-03-2017 and report concludes that panel recommend the renewal of injectable section (veterinary) and vaccines section (veterinary).
	Remarks of the Evaluator	
	Decision of 288th meeting of Registration Board: Deferred for the clarification of manufacturing outline as its not inline with the product approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm	
	Response by the firm: Firm has submitted me-too status along with print out from DRAP website database of registered drugs as follows Name: Oxytovet Injection Manufacturer: International Pharma Registration Number: 074756	
	Decision of 321st meeting of Registration Board: Deferred for confirmation of required manufacturing facility / section from Licensing Division.	
	Response by the firm: Firm has submitted copy of letter of grant of amendments / additional section approval dated 11-04-2017 specifying Veterinary Liquid Vials Injection (Hormone) section.	
	Decision: Registration Board decide do defer the instant application while referring to its 313th meeting wherein Board endorsed the following recommendations of Expert Working group on Veterinary Drugs: **"The Expert Working Group on Veterinary Drugs deliberate the case and decided to allow for granting multidose vials for Oxytocin as per following details:** • **Oxytocin .... 10 UI upto 500ml as per Spanish authority approval or any pack size available in any other RRA.** • **Oxytocin .... 20 UI upto 50ml as per Australian Pesticides and Veterinary Medicine Authority approval or any pack size available in any other RRA."**	

291.	**Name and address of manufacturer / Applicant**	**M/s High-Q Pharmaceuticals B-64, KDA, Scheme No. 1, Main Karsaz Road, Karachi, Pakistan**
	Brand Name + Dosage Form + Strength	Orphesic Forte 650/50mg
	Composition	Each Tablet Contains: Paracetamol…….650mg Orphenadrine Citrate…….50mg
	Diary No. Date of R& I & fee	Dy. No 14697 dated 07-03-2019 Rs.20,000/- dated 06-03-2019
	Pharmacological Group	Narcotic analgesic combination
	Type of Form	Form-5
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status (with strength and dosage form)	Orthoflex-D 50mg Tablet of M/s Noa Hemis Karachi (Reg.# 075984)

	GMP status	GMP inspection dated 10-8-2022, concluding good level of compliance.
	Remarks of the Evaluator [II]:	
	Decision of 321st and 323rd meeting of Registration Board: Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.	
	Response by the firm: Firm has revised the formulation as per the innovator's product along with submission of 30,000 fee vide slip number 6187383799 dated 20-07-2022. The revised formulation is approved by TGA Australia and its me-too status is also available in Pakistan. The revised formulation is as under: Each Tablet Contains: Paracetamol…….450mg Orphenadrine Citrate…….35mg	
	Decision: Approved with Innovator's specifications and with following label claim: **Each Tablet Contains:** **Paracetamol…….450mg** **Orphenadrine Citrate…….35mg**	

292.	Name and address of manufacturer / Applicant	Moon Pharmaceuticals, Plot # 05, SS4, National Industrial Zone RCCI Rawat, Islamabad
	Brand Name +Dosage Form + Strength	Metasone GM/Metacort Plus Cream
	Composition	Each gram cream contains: Betamethasone (as valerate)……1.2mg Gentamycin (as sulfate)…….1mg Miconazole (as nitrate)……20mg
	Diary No. Date of R& I & fee	Dy No. 1686: 17.10.2016 PKR 20,000/-: 17.10.2016
	Pharmacological Group	Corticosteroids, potent, combinations with antibiotics and antifungal
	Type of Form	Form 5
	Finished product Specification	The firm has claimed manufacturer's specifications
	Pack size & Demanded Price	20g; As per SRO
	Approval status of product in Reference Regulatory Authorities	Could not be confirmed
	Me-too status	Could not be confirmed
	GMP status	The firm was inspected on 18.09.2018 with the following conclusion: Keeping in view the above stated observations during inspection, areas visited, documents reviewed it is concluded that M/s Moon Pharma Islamabad has not made adequate arrangements for rectification of the observations from inspection dated 19-10-2017. The undersigned has taken 04 samples on prescribed Form-3. The batch of product Mondison 4mg/5ml (50ml) Syrup, Batch no.S-66, 5200 Bottles was "Ordered not to dispose off" due to poor anitation & hygiene conditions in the oral liquid filling area.
	Remarks of the Evaluator	□ The firm was asked to submit complete finished product specifications and testing methods. However, the firm submitted specifications without complete testing method. □ The brand name shall be changed
	Previous decision (M287)	Decision: Deferred for the following: □ Updated status of GMP of the firm form QA & LT division as inspection report submitted by firm does not conclude GMP compliant status. □ Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting. □ Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
	Submission by the firm: • Copy of last GMP inspection report dated 14/12/2020, Satisfactory level of GMP compliance.	

	The firm has revised the formulation from Betamethasone as Valerate 1.2mg/g to Betamethosone as valerate 1mg/g and submitted rs. 7,500/- vide challan number 26027666328 dated 11/02/2022. Each gram cream contains: Betamethasone (as valerate)……1.2mg Gentamycin (as sulfate)…….1mg Miconazole (as nitrate)……20mg • Generic status: Mycona-GB cream by M/s Valor Pharmaceuticals, Reg. No. 066358 • RRA Status: could not be confirmed **Decision of 321st meeting of Registration Board:** Deferred for: • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
	Response by the firm: Firm vide its letter dated 03-11-2022 has requested to revise their formulation as under: Each Gram of Cream Contains: Betamethasone as Dipropionate…0.5mg (0.05%w/w) Gentamicin as sulphate…1mg (0.1%w/w) **RRA Status:** Diprogenta cream by MSD, (Germany Approved) **Me-too status:** Effigenta Cream by Mass Pharma However, the firm has not submitted any fee.
	Registration Board was apprised that the firm has submitted another request that the revised formulation requested by them vide their letter dated 03-11-2022 is already registered with them. **Decision: Deferred for:** • **Evidence of approval of applied formulation in reference regulatory authorities/agencies which were declared/approved by the Registration Board in its 275th meeting.** • **Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.**

Agenda of Evaluator PEC-IV

Case no. 01 Registration applications for local manufacturing of (Human) drugs

a. Deferred cases

I. Form 5-F Cases

293.	Name, address of Applicant / Marketing Authorization Holder	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Name, address of Manufacturing site.	M/s Islam Pharmaceuticals 7KM Pasrur Road Sialkot
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23834 dated: 31-08-2021
	Details of fee submitted	PKR 20,000/- dated: 08/03/2021 PKR 10,000/- dated: 11/05/2020
	The proposed proprietary name / brand name	**Montisim 5mg tablet**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each chewable tablet contains: Montelukast as sodium…….5mg
	Pharmaceutical form of applied drug	Red colored, Round shaped, chewable tablet
	Pharmacotherapeutic Group of (API)	Leukotriene receptor antagonist
	Reference to Finished product specifications	USP
	Proposed Pack size	2×7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Montelukast 5mg chewable tablet, Accord Healthcare Limited, United Kingdom, MHRA Approved.
	For generic drugs (me-too status)	Montiget 5mg chewable tablet, Getz Pharma (Pvt) Ltd. Reg# 034837
	GMP status of the Finished product manufacturer	Copy of cGMP issued on 23-07-202 on the basis of evaluation conducted on 09-07-2020
	Name and address of API manufacturer.	ZHEJIANG TIANYU PHARMCEUTICALS CO., LTD. No. 15, Donghai 5th Avenue, Zhejiang Provincial chemical and medical Raw Materials Base Linhai Zone, Taizhou City.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of montelukast sodium is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for related substances (Sulfoxide impurity, Cis Isomer, methylketone, methylstyrene and total impurities), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (201310301, 201310302, 201310303)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Singulair 5mg tablet Batch No# S018860 by Merck Sharp & Dohme limited UK by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Singulair 5mg tablet by Merck Sharp & Dohme limited UK in Acid media (pH 1.0-1.2) & Acetate buffer 4.5pH

		and Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision and specificity.

STABILITY STUDY DATA

Manufacturer of API	ZHEJIANG TIANYU PHARMCEUTICALS CO., LTD. No. 15, Donghai 5th Avenue, Zhejiang Provincial chemical and medical Raw Materials, Base Linhai Zone, Taizhou City.		
API Lot No.	11001-181210		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (2×7's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	20TRn006	20TRn009	20TRn010
Batch Size	2000 tab	2000 tab	2000 tab
Manufacturing Date	10-2020	11-2020	11-2020
Date of Initiation	23-11-2020	23-11-2020	23-11-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No . ZJ20180033 issued by China food and Drug Control administration valid until 14.03.2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of form 3, form 7 and commercial invoice (Invoice# TY119146 Dated: 28-02-2019 with received quantity i.e. 15 kg) of Montelukast Batch No# 11001-181210 with attestation of DRAP Lahore dated: 11-03-2019
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.1	Differential fee according to as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2012	Differential fee of Rs:10000/- deposit slip # 34803402245 dated: 11-05-2022 submitted

2.	1.3.5.	GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted.	Latest cGMP certificate submitted
3.	1.5.15 – 1.5.20	Submit Original Commitment	Signed original commitments submitted.
4.	2.3.R.1.1	Assay of Drug substance mentioned is 94.24% while in Certificate of Analysis of Drug substance Assay is 99.39%. Clarification is required.	Assay result 94.24% is result of montelukast on as is basis (the content of montelukast in montelukast sodium API), while the result 99.39% in Certificate of analysis of Drug substance under assay is result on dried basis.
5.	3.2.S.4.2	USP specify montelukast dicyclohexylamine as reference standard in drug substance assay testing while you have used montelukast sodium as reference standard. Clarification is required.	We used montelukast sodium as working standard which was standardized against Montelukast dicyclohexylamine CRS Lot#Y0001436 B#2. CoA of montelukast dicyclohexylamine Reference standard is given under section 3.2.P.6 Reference standard or materials and also attached (As the primary reference standards are costly and have small quantities, reference standards used in routine test of batch/product analysis are made in-house against primary reference standard. The in-house reference standards are working/secondary reference standards).
6.	3.2.P.5.2	• USP specify montelukast dicyclohexylamine as reference standard in drug product analytical testing method while you have used montelukast sodium as working standard. Clarification is required.	We used montelukast sodium as working standard which was standardized against Montelukast dicyclohexylamine CRS Lot#Y0001436 B#2. CoA of montelukast dicyclohexylamine Reference standard is given under section 3.2.P.6 Reference standard or materials and also attached (As the primary reference standards are costly and have small quantities, reference standards used in routine test of batch/product analysis are made in-house against primary reference standard. The in-house reference standards are working/secondary reference standards).
7.	3.2.P.8	• Reference of previous approval of applications with stability study data of the firm (if any). • Compliance Record of HPLC software 21CFR & audit trail reports on product testing. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) • Documents for the procurement of API with approval from DRAP (in case of import).	• NA • Real time stability data summary sheets are attached. • Compliance record of HPLC Software 21CFR and audit trail reports on product testing are attached. • Record of digital data logger for temperature and humidity monitoring of stability chambers is attached. • Import documents submitted.

Previous Decision (M-320) : Registration Board deferred the case for Scientific justification for use of montelukast sodium as working standard instead of montelukast dicyclohexylamine specified by USP monograph.

Reply: We performed analysis of montelukast sodium drug substance against **Montelukast dicyclohexylamine CRS Lot#Y0001436 B#2** as recommended in USP monograph of montelukast

sodium. CoA of montelukast dicyclohexylamine CRS and pictures of Reference standard vial and label are attached. Analytical report of drug substance containing HPLC spectra of montelukast dicyclohexylamine CRS and FTIR identification Scan of drug substance against montelukast dicyclohexylamine CRS is attached As per USP monograph for montelukast sodium tablet, percentage of labeled amount of montelukast is to be calculated in tablet for which we used montelukast sodium working standard with known percentage of montelukast (94.24%) calculated against montelukast dicyclohexylamine CRS. Certificate of working standard attached.		
Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.** • **Manufacturer will perform analysis of finished product with montelukast dicyclohexylamine as reference standard as specified by USP monograph for the commercial batches.**

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Manufacturer will perform analysis of finished product with montelukast dicyclohexylamine As reference standard as specified by USP monograph for the commercial batches.**

II. Form 5 Cases:

295.	**Name and address of manufacturer / Applicant**	**M/s High-Q Pharmaceuticals B-64, KDA, Scheme No. 1, Main Karsaz Road, Karachi, Pakistan**
	Brand Name +Dosage Form + Strength	**Tramax 100mg SR Capsule**

	Composition	Each Sustained Release Capsule Contains: Tramadol Hcl…100mg
	Diary No. Date of R& I & fee	Dy.No. 41495 dated 07-12-2018 Rs.20,000/- Dated 07-12-2018
	Pharmacological Group	Narcotic analgesic
	Type of Form	Form 5
	Finished product Specification	BP
	Pack size & Demanded Price	10's, 20's, 30's: As per SRO
	Approval status of product in Reference Regulatory Authorities	CONZIP 100mg Capsules of (USFDA approved)
	Me-too status	Zultra SR 100mg of M/s. Wilshire Laboratories
	GMP status	Last GMP inspection conducted on 10-04-18, and the report concludes that the firm was considered to be operating at an acceptable level of compliance with good manufacturing practices
	Remarks of the Evaluator	Submit Master formula, manufacturing method, analytical method CIP-TRAMADOL ER (tramadol hydrochloride) extended-release) capsules are a new formulation of tramadol HCl for analgesia. The drug product consists of extended release film coated white beads and an immediate release tablet encapsulated in white opaque, size 1, 0 and 00, hard gelatin capsules

Dosage	Immediate release	Extended release
100 mg	25 mg	75 mg

Previous Decision (M-322): Deferred for review of formulation against the innovator product.

Reply by firm: We want to inform you that we had applied for Tramadol HCl 100mg as "Tablet". There was typographical error in the last reply sent in response to letter number F.1-1/2019/PEC-DRAP (AD PEC-IV) dated: 7th September, 2022. R & I copy of product is attached for reference.

We are also applying for the change in the label claim of the product

Name of Drug with Applied label claim	**Name of Drug with Proposed label claim**	**Fee for change in label claim**
Tramax 100mg SR Tablet Each Sustained Release Tablet Contains: Tramadol Hcl…100mg	Tramax 100mg SR Tablet Each Extended release Film Coated Tablet Contains: Tramadol Hcl…100mg	Deposit slip No# 50754384014 Rs:7500/- Dated: 23-01-2023

Approval status of product in Reference Regulatory Authorities	ULTRAM ER of USFDA

Remarks: Film coating is not mentioned in ULTRAM ER
Master formula and manufacturing method is not submitted.

Decision: Registration Board deferred the case for submission of Master formula and manufacturing method of the applied formulation.

296.	Name and address of manufacturer / Applicant	M/s High-Q Pharmaceuticals B-64, KDA, Scheme No. 1, Main Karsaz Road, Karachi, Pakistan
	Brand Name +Dosage Form + Strength	Orofit Capsule 120mg
	Composition	Each capsule contains: Orlistat…..120mg
	Diary No. Date of R& I & fee	Dy. No. 39, 03-11-2016 , Rs.20,000/- (31-10-2016)
	Pharmacological Group	Peripherally acting antiobesity products
	Type of Form	Form 5
	Finished product Specification	USP
	Pack size & Demanded Price	14's, As per leader price
	Approval status of product in Reference Regulatory Authorities	USFDA Approved
	Me-too status	Registration Number: 068689 Brand Name: Orly Capsules 120 mg

		Manufacturer Name: Rotex Medica
	GMP status	Last GMP inspection of M/s High-Q Pharmaceuticals was conducted on 19-07-2017 and the report shows grant of GMP certificate.
	Remarks of the Evaluator	In reference regulatory authority the orlistat is approved in the form of pellets while the firm has applied for orlistat in the form of powder.
	Previous Decision (M-283): Deferred for the submission of Form 5 of applied formulation in line with the innovator product.	
	Reply by firm: Firm submitted form 5 with following label claim: Each Capsule Contains: Orlistat (as 50% w/w pellets) ……. 120mg (High Q specifications) **Source of pellets:** M/s Alphamed formulations, Pvt. Ltd, Sy. No.225, Sampanbole Village, Medchal-Malkajgiri District, Telangana, India. Firm submitted: • Certificate of analysis of pellets • GMP certificate #.Dis.No: 93420/TS/2022 of pellets manufacturer valid till 15-08-2023 • Long term stability data at Zone IVa till 24 months, wherein test for related substances have been performed. ***Fee for imported pellets not submitted***	
	Decision: Approved with USP specifications as per following label claim: **Each Capsule Contains:** **Orlistat (as 50% w/w pellets) ……. 120mg** **Registration letter will be issued after submission of fee for imported pellets as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**	

Case no. 02 Registration applications of newly granted DML or New section (Human)

a. New DML

M/s AGM Pharmaceuticals **. (New DML)**
CLB in its 283rd meeting held on 28th October 2021 has considered and approved the grant of Drug Manufacturing License by way of formulation with following five (03) sections to M/s AGM Pharmaceuticals

1.	Tablet (General)
2.	Capsule (General)
3.	Dry Powder Injectable (Cephalosporin)

Accordingly, firm has applied for following products for consideration by Drug Registration Board

Capsule (General)
02 Molecules/ 02 Products

297.	Name, address of Applicant / Marketing Authorization Holder	M/s AGM Pharmaceuticals Eminabad Road, G.T. Road, Gujranwala, Pakistan
	Name, address of Manufacturing site.	M/s AGM Pharmaceuticals Eminabad Road, G.T. Road, Gujranwala, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 195 dated 03-01-2022
	Details of fee submitted	PKR 30,000/-: Deposit slip # 94816553563
	The proposed proprietary name / brand name	**Pirogm 20mg Capsule**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Hard gelatin capsule contains: Piroxicam…….20mg
	Pharmaceutical form of applied drug	Capsule
	Pharmacotherapeutic Group of (API)	NSAID
	Reference to Finished product specifications	USP
	Proposed Pack size	2×10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Feldene 20 mg Capsule by M/s Pfizer of USFDA Approved
	For generic drugs (me-too status)	Feldene 20 mg Capsule by M/s Pfizer Reg#006349
	GMP status of the Finished product manufacturer	New DML issued on 10/11/2021
	Name and address of API manufacturer.	Alcon Biosciences Pvt Ltd. A-1/2104, Phase-III, GIDC, VAPI, 396195, District Valsad, Gujrat India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Piroxicam is present in BP. The firm as submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 60 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (ALC/PCM/131205, ALC/PCM/131206, ALC/PCM/131207)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is Feldene capsule 20mg by Pfizer by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Feldene capsule 20mg by Pfizer in Acid media (pH 1.0-1.2) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	Alcon Biosciences Pvt Ltd. A-1/2104, Phase-III, GIDC, VAPI, 396195, District Valsad, Gujrat India.		
API Lot No.	PCM-22041		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (2×10's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	TRC001	TRC002	TRC003
Batch Size	1500	2000	2000
Manufacturing Date	27-11-21	29-11-21	30-11-21
Date of Initiation	30-11-21	30-11-21	30-11-21
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No# S-GMP/20102297 issued by Food and Drug Control Administration Gandhinagar, Gujrat state India. issued on 22-10-2020 and valid until 21-10-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form invoice (invoice# AV/I/00062/22-23) dated: 13-11-2021 specifying import 200gm Piroxicam (Batch# PCM-22041)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted Data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).

Remarks of Evaluator: During Evaluation it was observed that AGM pharmaceuticals, Gujranwala and Pharman Pharmaceutical, Gujranwala DML have same Name of Production in charge.

S.No	Section	Shortcomings Communicated	Reply
1.	1.6.5	Valid Drug Manufacturing License Or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Not submitted.
2.	3.2.S.4.3	Analytical Method Verification studies Submitted by HPLC while B.P specifications are claimed by drug product manufacturer.	USP specifications was applied for API testing that's why HPLC AMV studies were submitted. **Evaluation: Firm claimed BP specification in COA of drug substance and limits are also according to BP i.e Assay limits applied are 98.5% to 101.0% which are according to BP specifications while USP specifications for Assay are 97.0% to 103.0%**

3.	3.2.P.1	DC granular used as excipient in formulation. Explain what is DC granular.	DC lactose granular was used but lactose word was skipped. It is a typographical error. Revised documents submitted.
4.	3.2.P.5.1	Submit complete Specifications as per USP monograph.	Specification as per USP monograph are attached
5.	3.2.P.5.2	Submit analytical testing method of drug product instead of USP monograph presentation.	Analytical testing method of drug product submitted.
6.	3.2.P.5.4	Water content as per USP monograph not Performed. Clarification is required.	Water content is tested on next time point and report is attached.
7.	3.2.P.8	Documents for the procurement of API with approval from DRAP.	Commercial invoice without DRAP approval submitted.

Decision: Deferred for following:

- **Submission of valid Drug Manufacturing License or valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.**
- **Justification for applying USP monograph for the drug substance analysis and analytical method verification studies whereas drug product manufacturer has claimed BP specifications for the drug substance.**
- **Documents for the procurement of API with approval from DRAP.**

Registration Board was further apprised that during evaluation it was identified that "Production In charge" of two firms i.e., M/s AGM Pharmaceuticals Eminabad Road, G.T. Road, Gujranwala & M/s Pharman Pharmaceuticals 6 Km, Bohmaan Bath Road, Kalasky, Gujranwala, was same, as evident form submitted documents. Hence Registration Board advised PE&R Division to refer the case to Licensing Division for clarification/necessary action.

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate issued by DRAP on the basis of Evaluation conducted on 17-12-2020 and valid for 2 years.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted Data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated
1.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required.
2.	3.2.S.4.2	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.
3.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.
4.	3.2.S.4.4	In COA by drug product manufacturer result for water content shows comply instead of value. Justify
5.	3.2.S.2.2.1	In CDP time points are up to 5,10,15,20,25,30 minutes while in calculation of F1 and F2 up to 5,10,15,20,25, 45 minutes are mentioned. Clarify. .
6.	3.2.P.5.3	Submit Protocols of Analytical method verifications.
7.	3.2.P.	COA of reference standard Ciprofloxacin Ethylenediamine Analoge
8.	3.2.P.8	Purchase documents for Ciprofloxacin HCl. COA's of all time points does not match with stability summary sheets and raw data. Clarification is required. In raw data sheets Batch NO TRC-019, TRC-020, TRC-021 while in all other documents Batch no # TRT-019, TRT-020, TRT-021. Clarify

Decision: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Registration Board was further apprised that during evaluation it was identified that "Production In charge" of two firms i.e., M/s AGM Pharmaceuticals Eminabad Road, G.T. Road, Gujranwala & M/s Pharman Pharmaceuticals 6 Km, Bohmaan Bath Road, Kalasky, Gujranwala, was same, as evident form submitted documents. Hence Registration Board advised PE&R Division to refer the case to Licensing Division for clarification/necessary action.

301.	Name, address of Applicant / Marketing Authorization Holder	M/s AGM Pharmaceuticals Eminabad Road, G.T. Road, Gujranwala, Pakistan

	Name, address of Manufacturing site.	M/s AGM Pharmaceuticals Eminabad Road, G.T. Road, Gujranwala, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 374 dated 04-01-20223
	Details of fee submitted	PKR 30,000/-: Deposit slip # 434526355
	The proposed proprietary name / brand name	**G-Mol 500mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Paracetamol…500mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Analgesic and anti pyretic
	Reference to Finished product specifications	USP
	Proposed Pack size	20×10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Not found
	For generic drugs (me-too status)	Not available
	GMP status of the Finished product manufacturer	New DML issued on 10/11/2021
	Name and address of API manufacturer.	Citi Pharma (Pvt.) Ltd. 3.5 Kilometer, Head Balloki Road, Phool Nagar, Kasur -55050 Punjab, Pakistan.

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form (Film coated Tablet) in any one of the reference regulatory authority specified by Registration Board in its 275th meeting for further evaluation of application.	Firm submitted now Composition as core tablet without film coating excipients and also change label claim in section in 1.5.2 as Each tablet contains: Paracetamol….500mg **Evaluation: Firm applied in all application as film coated and also manufacturing of stability batches is done as film coated and stability studies conducted on film coated tablet.**

Decision: Registration Board deferred the application for submission of Product development, Pharmaceutical Equivalence ,CDP, Batch manufacturing record and complete stability studies for revised formulation of "uncoated tablet".

New/Additional section(s)

M/s Jaskan Pharmaceuticals (Pvt) Ltd.50-Sundar Industrial Estate, Lahore, Pakistan.

1.	1.6.5	Valid Drug Manufacturing License Or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin submitted.
2.	2.3.R.1.1	In manufacturing of stability batches production Overage of Cetirizine 2HCl is Used. Clarification is required.	Overage was not used in stability batches. There was a calculation error observed in the manufacturing order. Revised document is attached.
3.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the British Pharmaceuticals for drug substance(s) instead of drug product shall be submitted.	Analytical Method Verification studies including accuracy and repeatability performed by the British Pharmaceuticals for drug substance(s) are submitted. But specificity not submitted.
4.	3.2.S.4.4	In COA of drug substance by drug product manufacturer Residue on ignition and loss on drying are mentioned as complies and ok. Clarify.	Revised COA is attached with values of Residue on ignition and loss on drying.
5.	3.2.P.5.2	The manufacturer shall mention dissolution test No as per requirement of USP monograph.	Dissolution Test 1 was used for testing of the product.
6.	3.2.P.5.3	Performance of accuracy & precision parameter during analytical method verification studies has not been conducted as per recommendations of ICH Q2 (R1) guidelines. Specificity is not done for drug product	**No reply submitted.**

Decision: Deferred for submission of following:

- **Performance of Specificity parameter in the analytical method verification studies of drug substance by drug product manufacturer.**
- **Analytical method verification studies of drug product** .

M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2,Phase 3,Industrial estate, Hattar,Haripur.

CLB in its 274th meeting held on 07th April 2020, has approved the following 01 additional sections of M/s Sayyed Pharmaceutical (Pvt) Ltd

1.Tablet Section (Psychotropic)

Sr. No	Section	Molecules considered in 326th meeting	Products considered in 326th meeting
1	Tablet Section (Psychotropic)	01	01

305.	Name, address of Applicant / Marketing Authorization Holder	M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2,Phase 3,Industrial estate,hattar,Haripur.
	Name, address of Manufacturing site.	M/s Sayyed Pharmaceutical (Pvt) Ltd,67/2,Phase 3,Industrial estate,hattar,Haripur.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP)

		☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 24206 dated 26-08-2022
	Details of fee submitted	PKR 30,000/-: Deposit slip # 1459901525
	The proposed proprietary name / brand name	**Phenosyd 30mg tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Phenobarbital…….30mg
	Pharmaceutical form of applied drug	White, Round shaped, bisect tablet
	Pharmacotherapeutic Group of (API)	Barbiturates
	Reference to Finished product specifications	USP
	Proposed Pack size	3×10's and 10 x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	(MHRA Approved).
	For generic drugs (me-too status)	Lenton 30 mg Tablet by M/s Valor Pharma Reg#063353
	GMP status of the Finished product manufacturer	New Section approved on 09/04/2020 Tablet (Psychotropic)
	Name and address of API manufacturer.	M/s Nantong Jinghua Pharmaceutical Co.,Ltd No.20,3 Haibin road,Yanhai Economic development zone, Rudong,Nantong,Jiangsu,China, 226407
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Phenobarbital is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 72 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches:(BBT72012001-RD,BBT72012002-RD BBT72012003-RD)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Comparator product that is Phenobarb 30mg tablet by M/S Star Laborotories (Pvt) Ltd by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Phenobarb 30mg tablet by M/S Star Laborotories (Pvt) Ltd in Acid media (pH 1.2) (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s Nantong Jinghua Pharmaceutical Co.,Ltd No.20,3 Haibin road,Yanhai Economic development zone, Rudong,Nantong,Jiangsu,China, 226407	
API Lot No.	BBT2021056	
Description of Pack (Container closure system)	Alu-PVC blister packed in unit carton (3×10's)	
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH	
Time Period	Real time: 6 months Accelerated: 6 months	
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)	
Batch No.	Trial-01	Trial-02
Batch Size	5000 tab	5000 tab
Manufacturing Date	04-2022	04-2022
Date of Initiation	19-04-2022	19-04-2022
No. of Batches	03	

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No# JS20180829 issued by China Food and Drug Administration issued on 01-06-2018 and valid until 31-05-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Import Authorization No# P.No.99/2021-CD dated 04-03-20216 & Form 6 and invoice (invoice# NTJH N4835) dated: 13-07-2021 cleared by DRAP Peshawar office dated 29-07-2021 specifying import 1Kg Phenobarbitone (Batch# BBT2021056)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted Data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.4	Certificate of Analysis (CoA) of the same batch from Drug	Certificate of Analysis (CoA) of the same batch from Drug Substance /Active Pharmaceutical

		Substance /Active Pharmaceutical Ingredient manufacture for drug substance used during product development and stability studies	Ingredient manufacture for drug substance used during product development and stability studies is submitted.
2.	3.2.P.5.4	Batch analysis of Clonazepam submitted. Clarification is required.	Batch analysis of Clonazepam was mistakenly submitted. Batch analysis of Phenobarbital tablet is Attached.
3.	3.2.P.8	• Documents for the procurement of API with approval from DRAP. • Submit Stability studies of 6 months.	• Form 6, Commercial Invoice and import Authorization from Controlled drugs submitted. • Stability studies of 6th months submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

M/s Citi Pharma Private Limited. 3 K.M, Head Balloki Road, phool Nagar Distt, Kasur CLB in its 282nd meeting held on 31st August 2021, has approved the following three (03) additional sections of M/s Citi Pharma Private Limited

1.Capsule (Cephalosporin) Section
2.Oral Dry Powder Suspension (Cephalosporin)
3.Dry Powder Injection (Cephalosporin)

Sr. No	Section	Molecules considered in 326th meeting	Products considered in 326th meeting
1	Dry Powder Injection (Cephalosporin)	01	03

306.	Name, address of Applicant / Marketing Authorization Holder	M/s Citi Pharma Private Limited
	Name, address of Manufacturing site.	M/s Citi Pharma Private Limited Address: 3 K.M, Head Balloki Road, phool Nagar Distt, Kasur
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 34504 dated 29-11-2022
	Details of fee submitted	PKR 30,000/-: Deposit slip # 78974267
	The proposed proprietary name / brand name	Citzadime Injection 250mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Vial contains: Ceftazidime……. 250mg (with Sodium carbonate)
	Pharmaceutical form of applied drug	Parenteral
	Pharmacotherapeutic Group of (API)	Cephalosporin
	Reference to Finished product specifications	USP

	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ceftazidime 250 mg powder for solution for injection by Sandoz Limited of MHRA approved
	For generic drugs (me-too status)	Cefcom 250mg of M/s Barrett Hodgson
	GMP status of the Finished product manufacturer	Last GMP inspection conducted on 07-06-2022 and report concludes that firm has currently fair compliance of GMP.
	Name and address of API manufacturer.	Harbin Pharmaceutical Group Co., Ltd General Pharm. Factory No. 109 Xuefu Road Nanang District Harbin People Republic of China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Ceftazidime is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C/65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C/75% ± 5%RH for 6 months Batches: (A20021202, A20021203, A20021204)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the Cefcom 250mg Injection IV/IM by M/s BARRETT HODGSON . Pakistan performing quality tests (Identification, Assay, Constituted Solution, pH, Sterility, BET).
	Analytical method validation/verification of product

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.5.6	Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin. ii. Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	**Firm submitted Request for Hold/Withdrawal of Dossier:** **"**We the Citi (Pvt) Ltd. Lahore wish to hold and withdraw our Registeration dossier of Ceftazidime Injection (250mg, 500mg, and 1g) submitted due to some technical issues in dossier compilation."
2.	2.3.A.1	Provide evidence of atomic absorption spectrophotometer	
3.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	
4.	3.2.S.4.2	Detailed analytical procedures for the testing of drug substance by drug product manufacturer shall be provided.	
5.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	
6.	3.2.S.4.4	• Provide Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture used during product development and stability studies.	

		• Justification of not performing content of Sodium carbonate as recommended by USP monograph.	
7.	3.2.P.1	Applied formulation does not show eq of pentahydrate	
8.	3.2.P.3.3	In Manufacturing method solution form of injection is prepared . Clarify. Flow diagram for manufacturing of Ceftriaxon submitted.	
9.	3.2.P.2.6	Compatibility with diluent of Cefuroxime submitted. Clarify.	
10.	3.2.P.5.1	Your drug product specifications are not as per USP since many tests recommended by USP are not performed	
11.	3.2.P.5.2	Analytical testing method of different product submitted which are different from USP monograph. Justify why contents of sodium carbonate is not performed in the drug product also	
12.	3.2.P.5.3	Analytical method verification submitted by UV method while USP monograph specify by HPLC.	
13.	3.2.P.5.4	COA's of drug product show different specification than USP and different bacth No than mentioned in stability studies.	
14.	3.2.P.6	Provide COA and evidence of import of Ceftazidime, Delta-3-Isomer RS which is used in the analysis of drug product	
15.	3.2.P.8	• Data of stability batches will be supported by attested respective documents like chromatograms, • Initiation date of stability studies not mentioned • Drug product specifications are not as per USP Specification in stability studies. • Justify how initial testing results of Assay for Real time studies and Accelerated studies are different. • Justify how results in Accelerated stability studies same for 03 batches are same. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Decision: Registration Board acceded the firm's request of withdrawal and declared the instant application as disposed off. Registration Board further noted that firm's quota of priority consideration against the new sections will also be deducted keeping the fact of the consideration of instant application.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Form 6 for Ceftazidime specifying quantity 5Kg from Harbin Pharmaceutical Group Co., Ltd No. 109 Xuefu Road Nanang District Harbin People Republic of China submitted dated: 03-06-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated	Reply

1.	1.5.6	Valid Drug Manufacturing License issued by the relevant regulatory authority of country of origin. ii. Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	**Firm submitted Request for Hold/Withdrawal of Dossier:** **"**We the Citi (Pvt) Ltd. Lahore wish to hold and withdraw our Registeration dossier of Ceftazidime Injection (250mg, 500mg, and 1g) submitted due to some technical issues in dossier compilation."
2.	2.3.A.1	Provide evidence of atomic absorption spectrophotometer	
3.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	
4.	3.2.S.4.2	Detailed analytical procedures for the testing of drug substance by drug product manufacturer shall be provided.	
5.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	
6.	3.2.S.4.4	• Provide Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture used during product development and stability studies. • Justification of not performing content of Sodium carbonate as recommended by USP monograph.	
7.	3.2.P.1	Applied formulation does not show eq of pentahydrate	
8.	3.2.P.2.2.1	Justify How Pharmaceutical equivalence results are same for 1gm and 250gm	
9.	3.2.P.3.3	In Manufacturing method solution form of injection is prepared . Clarify. Flow diagram for manufacturing of Ceftriaxon submitted.	
10.	3.2.P.2.6	Compatibility with diluent of Cefuroxime submitted. Clarify.	
11.	3.2.P.5.1	Your drug product specifications are not as per USP since many tests recommended by USP are not performed	
12.	3.2.P.5.2	Analytical testing method of different product submitted which are different from USP monograph. Justify why contents of sodium carbonate is not performed in the drug product also	

13.	3.2.P.5.3	Analytical method verification submitted by UV method while USP monograph specify by HPLC.	
14.	3.2.P.5.4	COA's of drug product show different specification than USP and different bacth No than mentioned in stability studies.	
15.		Provide COA and evidence of import of Ceftazidime, Delta-3-Isomer RS which is used in the analysis of drug product	
16.		• Justify how stability results of 03 batches of Accelerated stability studies and real time studies of 1gm and 250mg are same • Compliance Record of HPLC software 21CFR & audit trail reports on product testing • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Registration Board acceded the firm's request of withdrawal and declared the instant application as disposed off. Registration Board further noted that firm's quota of priority consideration against the new sections will also be deducted for the consideration of instant application.

Case no. 05 Registration applications of categories to be considered on priority

a. Export facilitation

Export Facilitation: Applications was received through letter No.F.1-6/2019-PR-I (EFD) "M/s Genix Pharma Private Limited , Karachi have achieved benchmark OF USD 1,042,800 as defined in the Board's decision during fiscal year 2021-2022. In this regard, please find the (1 molecule) 04 products applications submitted by the firm."

309.	Name, address of Applicant / Marketing Authorization Holder	M/s Genix Pharma Private Limited 44-45B Korangi creek road Karachi
	Name, address of Manufacturing site.	M/s Genix Pharma Private Limited 44-45B Korangi creek road Karachi
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 17605 dated 16-06-2022
	Details of fee submitted	PKR 30,000/-: Deposit slip # 586401314610
	The proposed proprietary name / brand name	AMPRID Tablets 50mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Amisulpride ……..50mg (BP Specification)

	Pharmaceutical form of applied drug	White color, Round shape, Biconvex, Core tablet engraved "GENIX" on one side and break line on other side.
	Pharmacotherapeutic Group of (API)	Antipsychotic
	Reference to Finished product specifications	BP Specification
	Proposed Pack size	7's, 10's, 12's, 14's, 20's & 30's
	Proposed unit price	As per PRC
	The status in reference regulatory authorities	AMISULPRIDE 50mg TABLETS by Accord-UK Ltd (MHRA Approved)
	For generic drugs (me-too status)	Ampisol Tablets 50mg by Sami Pharmaceutical private limited.
	GMP status of the Finished product manufacturer	cGMP certificate on the basis of evaluation conducted on 15-06-2021 and valid for two (02) years.
	Name and address of API manufacturer.	M/s.Sun Pharmaceutical Industries Ltd **Address:** Sathammai Village, Karunkuzhi Post, Madhuranthagam Taluk, Kancheepuram District, TamilNadu - 603303, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Amisulpride is present in BP. The firm as submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: **Real time:** 30°C ± 2°C / 65% ± 5%RH for 72 months **Accelerated:** 40°C ± 2°C / 75% ± 5%RH for 6 months **Batches:** (PDNAMSFL017, PDNAMSFL018 & PDNAMSFL019)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is SOLIAN tablet 50mg (Batch no: 9SS0014) by SANOFI by performing quality tests (Identification, average weight Assay, Disintegration, Dissolution) CDP has been performed against the same brand that

		is SOLIAN tablet 50mg (Batch no: 9SS0014) by SANOFI in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The f2 value was in acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

	Name and address of API manufacturer.	M/s.Sun Pharmaceutical Industries Ltd **Address:** Sathammai Village, Karunkuzhi Post, Madhuranthagam Taluk, Kancheepuram District, TamilNadu - 603303, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of **Amisulpride** is present in BP. The firm as submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: **Real time:** 30°C ± 2°C / 65% ± 5%RH for 72 months

		Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months **Batches:** (PDNAMSFL017, PDNAMSFL018 & PDNAMSFL019)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand leader that is SOLIAN tablet 400mg (Batch no: 5Q0035) by SANOFI by performing quality tests (Identification, average weight Assay, Disintegration, Dissolution) CDP has been performed against the same brand that is SOLIAN tablet 400mg (Batch no: 5Q0035) by SANOFI in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The f2 value was in acceptable range.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s. Sun Pharmaceutical Industries Ltd		
API Lot No.	AMRNF20062		
Description of Pack (Container closure system)	Alu/Alu blister		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	21SB(A)-038-01	21SB(A)-039-02	21SB(A)-040-03
Batch Size	1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date	04-2021	04-2021	04-2021
Date of Initiation	23-06-2021	23-06-2021	23-06-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No# /K Dis. No: 16478/D1/4/2021 issued by Department of Food Safety and Drug Control Administration Government of Tamilnadu India. issued and valid until 31-12-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form invoice (invoice# 7000058840) dated: 28-01-2021 cleared by DRAP Karachi office dated 17-02-2021 specifying import 5Kg of Amisulpride (Batch# AMRNF20062)

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated	Reply
1.	1.6.5	Valid Drug Manufacturing License Or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Submitted.
2.	3.2.S.4.3	Analytical Method Verification studies Submitted by HPLC while B.P specifications are claimed by drug product manufacturer.	Analytical method verification studies are submitted for related substances via HPLC. However the assay testing is carried via Titrimetric method, both by the API manufacturer and finished product manufacturer.
3.	3.2.P.5.1	Specification mentioned for Assay is 90% - 110% while specification claimed are BP which states Assay limits 95%-105%	The Specifications are updated as per B.P i.e 95%- 105%.Specification are attached along with the updated Product Development Document as Annexure
4.	3.2.P.5.2	Analytical testing method mentioned for Assay is 90% - 110% while specification claimed are BP which states Assay limits 95%-105%	The Specifications are updated as per B.P i.e 95%- 105%.Specification are attached along with the updated Product Development Document as Annexure
5.	3.2.P.8	Specifications for Dissolution in section 3.2.P.5.1 are NLT 85% (Q) while in stability studies data specifications are NLT 75% (Q). Clarify	Revise SOP provided in Annexure

Decision: Approved with BP specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**

b. Import applications of priority categories defined by Registration Board in its 257th meeting

i. Human

a) Deferred case:

313.	Name, address of Applicant / Importer	M/s Schazoo Pharmaceuticals Laboratories (Pvt) Ltd., Sheikhupura.

	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Original legalized COPP (Certificate# MFG/WHO-COPP/BDR Pharma/2021/069340) Valid up to 15-12-2022 by , Food and Drug control administration Gujrat state india **Free sale:** Free sale of the product in exporting country: Yes confirms from COPP GMP certificate: Yes confirms as recommended by WHO confirms from COPP and Periodicity of inspections is mentioned Yearly. Section of Tablet Cytotoxic mentioned in Eudra GMP certificate
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of authorization certificate from M/s BDR Pharmaceuticals International Private Limited 407/408, Sharda Chambers, New Marine Lines Mumbai., Maharashtra, India. The letter specifies that the manufacturer appoints M/s Schazoo Pharmaceuticals Laboratories (Pvt) Ltd., Sheikhupura to register their products in Pakistan. Issued on 23-08-2021
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 10475 dated: 25-04-2022
	Details of fee submitted	PKR 150,000/- deposit Slip # 81027502940
	The proposed proprietary name / brand name	Kapcitabine Tablet 500mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated Tablet contains: Capecitabine USP…… 500mg
	Pharmaceutical form of applied drug	Film coated Tablet
	Pharmacotherapeutic Group of (API)	Anti-Neoplastic (Colorectal) WHO ATC code: (L01BC06) (capecitabine) is a nucleoside metabolic inhibitor with antineoplastic activity indicated for: • Adjuvant Colon Cancer – Patients with Dukes' C colon cancer. • Metastatic Colorectal Cancer– First-line as monotherapy when treatment with fluoropyrimidine therapy alone is preferred

		• Metastatic Breast Cancer– In combination with docetaxel after failure of prior anthracyclinecontaining therapy – As monotherapy in patients resistant to both paclitaxel and an anthracycline-containing regimen
	Reference to Finished product specifications	USP
	Proposed Pack size	12 Alu PVC blisters of 10 tablets each packed in a monocarton along with pack insert.
	Proposed unit price	30,000/Pack
	The status in reference regulatory authorities	XELODA® 500mg of USFDA approved.
	For generic drugs (me-too status)	NA
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance..
	Name, address of drug substance manufacturer	BDR Life Sciences Private Limited Address: R.S.No.578, Near Effluent Channel At & post- Luna, Taluka-padra, City- Luna 391 440 Dist. Vadodara, Gujrat Stat, India
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 30°C ± 2°C / 75 ± 5% RH for 12 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months Batches: (CPZO17001M, CPZO17002M, CPZO17003M)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	The firm has submitted CDP with of XELODA (Reference Drug Product)
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies for the applied product.
	Container closure system of the drug product	Alu-PVC blister

	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. Accelerated stability studies have been conducted at 40°C±2°C and 75%±5% RH for 6 months. Real time stability studies conducted at 30°C±2°C and 75% ± 5% for 12 months. Batches:((ECKAN2117, ECKAN2217, ECKAN0418)

Remarks of Evaluator: Fee submitted on DML

S.No	Section	Shortcomings Communicated
1.	1.3.4	• Address on DSL mentioned is M/s Schazoo Pharmaceuticals (Pvt) Ltd., Sheikhupura while, address in section 1.3.1 and on letter of Authorization, M/s Schazoo Pharmaceuticals Laboratories (Pvt) Ltd mentioned. Clarification is required. • Submit Valid DSL.
2.	3.2.P.2.2.1	• Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed. • Submit CDP in details with details of Reference product against which CDP was conducted and its origin.

Previous Decision (M-324): Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Reply :

S.NO	Section	Shortcomings Communicated	Reply
1.	1.3.4	• Address on DSL mentioned is M/s Schazoo Pharmaceuticals (Pvt) Ltd., Sheikhupura while, address in section 1.3.1 and on letter of Authorization, M/s Schazoo Pharmaceuticals Laboratories (Pvt) Ltd mentioned. Clarification is required. • Submit Valid DSL.	The correct/complete name of the applicant is M/s The Schazoo Pharmaceutical Laboratories (Pvt) Ltd. Kapecitabine Tablet dossier is imported product and it is applied on the basis of DSL. The name of applicant is M/s The Schazoo Pharmaceutical Laboratories (Pvt) Ltd. Copy of renewal of DSL receipt attached.
2.	3.2.P.2.2.1	• Pharmaceutical equivalence of the applied drug shall be established with the innovator / reference / comparator product and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed. • Submit CDP in details with details of Reference product against which CDP was conducted and its origin.	• Pharmaceutical Equivalence against Xeloda 500mg of F.Hoffmann-La Roche Ltd, Switerzerland conducted and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product are submitted. • CDP in Water,).1 N HCl pH (1.0-1.2) & Acetate buffer 4.5pH and Phosphate Buffer (pH 6.8) with Xeloda manufactured by Roche Germany

Decision: Approved with USP specifications as per Policy for inspection of Manufacturer abroad. Firm shall submit full fee of registration for application on DSL, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

314.	Name, address of Applicant / Importer	M/s Hakimsons Private Limited., Hakimsons House, A-58/B, S.I.T.E, Manghopir Road, Karachi-75700, Pakistan.

	Pharmaceutical form of applied drug	Soft gelatin capsule (Anti-neoplastic Agent)
	Pharmacotherapeutic Group of (API)	L02BB ; Anti-androgens XTANDI is an androgen receptor inhibitor indicated for the treatment of patients with: • castration-resistant prostate cancer. • Metastatic castration-sensitive prostate cancer.
	Reference to Finished product specifications	In house
	Proposed Pack size	4 x 28's
	Proposed unit price	As per PRC
	The status in reference regulatory authorities	XTANDI (enzalutamide) capsules 40mg **(USFDA** Approved).
	For generic drugs (me-too status)	----
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Name, address of drug substance manufacturer	M/s Laurus Labs Limited, Plot No. 21, Jawaharlal Nehru Pharma City, Parawada, Visakhapatnam-531021 Andhra Pradesh, India Tel: +91-891-3061222 Fax: +91-891-3061270
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing

		process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 03 batches of API at accelerated as well as real time conditions 40 ± 2° C / 75 ± 5% RH . The real time stability data is conducted at 25 ± 2° C/60 ± 5%RH. The stability study data is till 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	The firm has submitted physicochemical evaluation of **XTANDI 40 mg Capsules manufactured by Astellas Pharma, Europe B.V, Netherlands (Reference Drug Product)** and also submitted finished product evaluation of Enzalutamide Capsules 40 mg by **Eugia Pharma Specialties Limited (Proposed Generic Product) (B.No: EN4017003-B)**
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	PVC/PVDC/Aluminum foil blister pack
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 03 batches The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 06 months. The real time stability study data is conducted at 30ºC ±2ºC / 75% ± 5% RH. The real time stability study data of 03 batches is for 24months.

Evaluation by PEC:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	Submitted
2.	3.2.P.3.5	process validation reports including the protocols and results for critical process steps mentioned in 2.3.P.3.4 / 3.2.P.3.4 shall be provided.	All critical quality attributes mentioned in 2.3.P.3.4/3.3.P.3.4 are covered in process validation reports except "Gelatin shell weight and Gelatin gross weight of capsule" are not covered in process validation report. However, these are regularly monitored as in process checks at initial and every 30 minutes and results are reported in batch manufacturing record.
3.	3.2.P.5.2	US FDA review document of the Innovator product, specifies the dissolution limit as "NLT Q in 15 minutes" 0.1N HCl/ 0.3% CTAB,	Our product is a dosage form of soft gelatin capsule formulation. Gelatin cross-linking is a common problem of gelatin capsule, which is typically triggered by catalytic amounts of aldehydes and /or from exposure to high temperature and humidity. This impact is

<table>
<tr><td></td><td></td><td>whereas submitted specifications declare the dissolution limits as “NLT 75% in 30 minutes” . Justify the variation in time point of dissolution.</td><td>commonly seen in stability testing and results in lower and/or incomplete dissolution invitro. Enzymes like pepsin and pancreatin act by cleavage of peptide bonds present in cross- linked gelatin and there by resulting in release of content from capsule
Dissolution method for drug product (Enzalutamide capsule 40mg) includes both Tier-I media (with out enzymes) and Tier-II media [ith inclusion of enzymes i.e., Pepsin added in 0.3% CTAB(cetyl trimethyl ammonium bromide) in 0.1N HCl]. In the instance of drug product failing to meet the acceptance criteria in Tier-I due to gelatin cross-linking , Tier-II method would be adopted.
Since the test product shows the cross linking tendency, we have adopted the dissolution method bot Tier-I and Tier-II in the analytical testing methodology.. The tier-II dissolution testing for cross-linked capsules involves two steps:
1) Pre-treatment
2) After Pre-treatment (main treatment)
In first step pre-treatment the cross-linked capsules were subjected to exposure (pre-soaking) to pepsin enriched media (450ml)for 10 minutes . After pre-treatment remaining pre-warmed plain 0.1N HCl/ 0.3% CTAB (without any pepsin) is added to makeup the final volume to 900ml. therefore the representation of dissolution time point [Q time point in Tier-I media is 30 minutes, which includes 10 minutes of pre-treatment step and remaining 20 minutes of main treatment in final volume.
Hence based on the above dissolution testing discussion and considering the higher disintegration time allowed for soft gelatin capsule, the following dissolution limits are proposed for release and stability shelf life testing of Enzalutamide capsule.
<table><tr><td rowspan="2">Test</td><td colspan="2">Adopted dissolution Limits</td></tr><tr><td>Release</td><td>Shelf life</td></tr><tr><td>Dissolution (%)</td><td>NLT 75% Q in 30 minutes</td><td>NLT 75% Q in 30 minutes</td></tr></table></td></tr>
<tr><td>4.</td><td>3.2.P.8</td><td>From submitted stability data for product it is not evident that dissolution testing conducted either on Tier-1, or Tier-2 or both.</td><td>All batches were tested with Tier-1 method up to 12 months and from 18 months station batches are tested with Tier-2 method. Stability data results with note “ Results pass at Tier-2 stage” are enclosed.</td></tr>
<tr><td colspan="4">Previous Decision: Deferred for following:
• Details of Reference Drug Product against which pharmaceutical equivalence and CDP studies were performed.
• Clarification that Gelatin shell weight and Gelatin gross weight of capsule” are not monitored in process validation. (M- 317 RB)</td></tr>
<tr><td colspan="4">Response of firm:</td></tr>
<tr><td colspan="2">Details of Reference Drug Product against which pharmaceutical equivalence and CDP studies were performed.</td><td colspan="2">The details of reference used against pharmaceuticals equivalence and CDP studies are:
XTANDI 40 mg Capsules

	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of authorization certificate from BDR Pharmaceuticals international Pvt. Ltd. The letter species that the manufacturer appoints M/s The Schazoo Pharmaceutical Laboratories Pvt Ltd. to register their products in Pakistan.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 3891 dated: 10-02-2022
	Details of fee submitted	PKR 75,000/- deposit Slip # 067677943
	The proposed proprietary name / brand name	ENZALUTA Capsules 40mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each hard gelatin capsule contains: Enzalutamide…….....40mg
	Pharmaceutical form of applied drug	Hard Gelatin capsule
	Pharmacotherapeutic Group of (API)	Androgen receptor inhibitors
	Reference to Finished product specifications	Manufacturer's Specification
	Proposed Pack size	Enzalutamide Capsules 40 mg packed in Alu-PVC blister containing 28 capsules each as primary pack. One such blister packed in a carton along with pack insert.
	Proposed unit price	12 x 10's :As per SRO
	The status in reference regulatory authorities	Not found
	For generic drugs (me-too status)	…
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	BDR Life Sciences Private Limited R.S.No.578, Near Effluent Channel, At & Post - Luna, Taluka - Padra, City – Luna 391 440 Dist. Vadodara, Gujarat State, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 30°C ± 2°C / 75 ± 5% RH for 12 months. The accelerated stability data is conducted at 40°C±2°C and 75%±5% for 6 months Batches: (EZZN170001, EZZN170002, EZZN170003)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Comparison have been established against **XTANDI 40mg Soft Gelatin Capsule** by performing quality tests (Identification, Assay, Uniformity of dosage units, Dissolution, , Disintegration Time).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Alu-Pvc Blisters
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. Accelerated stability studies have been conducted at 40°C±2°C and 75%±5% RH for 6 months. Real time stability studies conducted at 30°C±2°C and 75% ± 5% for 36months. Batches: (BENAN0217, BENAN0317, BENAN0417)

Remarks of Evaluator: Fee submitted on DML

S.No	Section	Shortcomings Communicated	
1.	1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form (Hard gelatin Capsule) in any one of the reference regulatory authority specified by Registration Board in its 275th meeting, for further Evaluation of application.	Firm submitted Bioequivalence study in reply against XTANDI 40mg Soft Gelatin Capsule of Astellas Pharma US,

Comparison		
S.NO	**XTANDI 40mg Soft Gelatin Capsule of Astellas Pharma US,**	**ENZALUTA Capsules 40mg of Bdr Pharmaceutical International Pvt.Ltd**

1.	**Description:** XTANDI is provided as liquid-filled soft gelatin capsules	White to off white Granular Powder filled in Hard gelatin Capsule shell
2.	**Compostion:** Caprylocaproyl Polyoxylglycerides NF Butylated Hydroxyanisole NF Butylated Hydroxytoluene	**Compostion:** Acetone Caprylocaproyl Polyoxyl- 8 glycerides (Labrasol ALF) Colloidal silicon Dioxide Microcrystalline cellulose
3.	**Analytical testing method:** **Dissolution:** USP Apparatus II Paddle speed: 50 rpm Volume/Temp: 900 ml / 37o C Tier-1: 0.1N HCl/0.3% CTAB, Tier-2: 0.1N HCl/ 0.3% CTAB/pepsin; Q= % at 15 minutes	**Dissolution:** USP Apparatus II Paddle speed: 50 rpm Volume/Temp: 900 ml / 37o C .1N HCl/0.3% CTAB, Additional test : Tier-2: 0.1N HCl/ 0.3% CTAB/pepsin; Q= % at 30 minutes

Previous Decision (M-324): Deferred for evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form (Hard gelatin Capsule) in any one of the reference regulatory authority specified by Registration Board in its 275th meeting.

Reply: We, BDR Pharmaceutical International Pvt. Ltd, inform that Enzalutamide Capsules 40mg, is registered by us in the following countries. In addition, we also hold a valid manufacturing and marketing authorization in the country of origin (India).

Sr No.	Generic Name of the Product	Country	Issued	Expires	Registration No.	Type
1	Enzalutamide Capsules 40mg	Bolivia	03-02-2020	02-02-2025	II-72783/2020	Initial
2	Enzalutamide Capsules 40mg	Sri Lanka	29-04-2019	28-04-2021	M005794	Initial
3	Enzalutamide Capsules 40mg	Kazakhstan	05-06-2021	05-06-2026	RK-LS-5# 025030	Initial
4	Enzalutamide Capsules 40mg	Ecuador	18-03-2021	18-03-2026	6037-MEE-0321	Initial
5	Enzalutamide Capsules 40mg	Kenya	19-04-2021	19-04-2022	H2021/CTD5995 /1872ER	Initial
6	Enzalutamide Capsules 40mg	Philippines	18-02-2022	18-02-2027	DRP-11260	Initial

(***However these are not reference agencies specified by Registration Board in its 275th meeting.)***

Decision: Deferred for evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form (Hard gelatin Capsule) in any one of the reference regulatory authority specified by Registration Board in its 275th meeting.

Agenda of Evaluator PEC-IX

New Cases of Form-5

316.	Name and address of manufacturer/ Applicant	M/s. Rakaposhi Pharmaceutical (Pvt.) Ltd. 97-K, industrial estate, Hayatabad, Peshawar (contract giver) (DML No.000386) Contract with M/s. Agenda of Evaluator PEC-XI

Case No. 01: Routine Registration application of Human Drugs on Form 5F (Local)

890.	Name, address of Applicant / Marketing Authorization Holder	M/s Nabiqasim Industries (Pvt.) Ltd., 17 / 24, Korangi Industrial Area, Karachi – Pakistan.
	Name, address of Manufacturing site.	M/s Nabiqasim Industries (Pvt.) Ltd., 17 / 24, Korangi Industrial Area, Karachi – Pakistan.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

	GMP status of the Finished product manufacturer	Firm has submitted cGMP certificate issued on 06-10-2020 based on inspection conducted on 19-09-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-20/85-Lic (Vol-V) dated 27-04-2020 which specifies Tablet (General) section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy No. 2808 dated 28-01-2022
	Details of fee submitted	Rs. 30,000/- dated 29-11-2021 (Deposit silp#3175710812)
	The proposed proprietary name / brand name	Nubaquel XR 150mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended Release film coated tablet contains: Quetiapine Fumarate USP equivalent to Quetiapine……....150mg
	Pharmaceutical form of applied drug	Film coated tablet for oral use
	Pharmacotherapeutic Group of (API)	Antipsychotics; Diazepines, oxazepines, thiazepines and oxepines.
	Reference to Finished product specifications	USP
	Proposed Pack size	10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	SEROQUEL XR (50mg, 150mg, 200mg, 300mg, 400mg) film coated extended-release tablets USFDA approved.
	For generic drugs (me-too status)	Qutyl XR 150mg Tablet by M/s CCL Pharmaceuticals, (Reg. No. 097647)
	Name and address of API manufacturer.	M/s ZCL Chemicals Ltd., Plot No. 3102/B, GIDC Estate Ankleshwar-393002 Dist.-Bharuch, Gujarat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 75% ± 5%RH for 48 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (QTP4200316, QTP4200416, QTP4200516)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification,

		reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Qutyl XR tablets 150mg by performing quality tests (Description, Identification, Dissolution and Assay) CDP has been performed against the same brand that is Qutyl XR Tablet 150mg by M/s CCL Pharmaceuticals, in Acid media (pH 1.2), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8) and QC release media. The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted method verification studies including range, accuracy, precision, specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s ZCL Chemicals Ltd., Plot No. 3102/B, GIDC Estate Ankleshwar-393002 Dist.-Bharuch, Gujarat, India

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s ZCL Chemicals Ltd., 3102/B, GIDC Industrial Estate Ankleshwar-393002 Dist.-Bharuch, Gujarat, India issued by Commissioner Food & Drug Control Administration Gujarat State India valid upto 06-07-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. 2220191 dated 23-10-2020 for import of 100Kg of Quetiapine Fumarate USP (Batch No# QTP4207520) from M/s ZCL Chemicals Ltd., India in name of M/s Nabiqasim Industries (Pvt.) Ltd., attested by AD (I&E) DRAP Karachi dated 03-12-2020.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Certificate for HPLC software 21CFR compliance is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Response

3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Justification is required for not including test for fumaric acid content in drug substance specification by drug product manufacturer as recommended by drug substance manufacturer	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance by drug product manufacturer is submitted. • As per USP monograph of Quetiapine drug substance, USP does not mention to perform fumaric acid content test. But as per drug substance manufacturer specifications fumaric acid content test is provided additionally, we have revised our API release specifications which include test for fumaric acid content for QC release. The firm has submitted revised drug substance specifications
3.2.P.2	• Justification is required since pharmaceutical equivalence and CDP have not been conducted against the innovator product. • Justification is required for not performing uniformity of dosage units test in pharmaceutical equivalence as recommended by USP • Firm shall submit the image/picture/snapshot of innovator/reference/comparator pack against which pharmaceutical equivalence/comparative dissolution profile studies have been performed and shall reveal the details of brand name, manufacturer, batch No# and expiry date of innovator/reference/comparator product in the section 3.2.P.2.2.1 (Formulation Development) of form 5F	• The firm submitted that Reference to CTD guidance document pharmaceutical equivalence and CDP studies can be perform against reference/ comparator sample. • The firm submitted that we have conducted uniformity of dosage unit test by mass variation as on today basis against reference sample and submitted the comparative results. • The firm has submitted Image picture/snapshot of reference pack against which pharmaceutical equivalence/comparative dissolution profile studies were performed.
3.2.P.7	• You have given specifications HDPE Jars while manufactured formulation in Alu-Alu packing, justify?	• The firm submitted that we acknowledge it was a mistake, our manufactured formulation is in Alu-Alu packaging. Specification for primary packaging is submitted.
3.2.P.8	• Submit audit trail reports on product testing	• Audit trail reports on product testing is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration letter will be issued after submission of:

- **Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Pharmaceutical equivalence and CDP studies against the innovator product.**

	Dy. No. and date of submission	Dy. No. 1198 dated 13/01/2022

	Details of fee submitted	PKR 75,000/- dated 13/12/2021 (Deposit slip#6303718587)
	The proposed proprietary name / brand name	**Tedizol 200mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Tedizolid Phosphate……200mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Oxazolidinone Antibiotics
	Reference to Finished product specifications	Not in pharmacopeia
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Sivextro 200mg film coated Tablet USFDA Approved. Sivextro 200mg film-coated tablets MHRA Approved Sivextro 200mg film-coated tablets Health Canada Approved
	For generic drugs (me-too status)	N/A
	Name and address of API manufacturer.	M/s Yibin Hongguang Pharmaceutical Co. Ltd., Luolong County Nanxi District, Yibin City, Sichuan Province 644100, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: **Real time:** 30˚C ± 2˚C / 65% ± 5%RH for 24 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (MS102302-180101, MS102302-180102, MS102302-180103)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator brand Sivextro 200mg Tablet by M/s PatheonInc, Canada by performing quality tests (Identification, disintegration time, Assay, Dissolution, average weight). CDP has been performed against the same brand that is Sivextro 200mg Tablet by M/s PatheonInc, Canada in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). It was found that both reference & test products were not soluble in 0.1N HCl buffer till 180 minutes therefore similarity and difference factors f2 were calculated which is greater than 50. The

		dissolution of both the innovator product and test product is more than 85% in the acetate buffer and phosphate buffer so values of f2 is not calculated.
	Analytical method validation/verification of product	Firm has submitted method validation studies including linearity, range, accuracy, precision, specificity, system suitability, robustness, LOD and LOQ.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has referred to previous inspection for authenticity of stability data of their product conducted by the panel on the basis of which Registration Board in 294th meeting dated 09th April, 2020 decided to approve registration of Etoxib 90 & 120mg tablet. Inspection date: 29th October, 2019 (Morning) The report shows that: • The HPLC software is 21 CFR compliant as per record available with the firm. • Audit Trail on the testing reports are available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of GMP certificate in name of M/s Yibin Hongguang Pharmaceutical Co. Ltd., Luolong County Nanxi District, Yibin City, Sichuan Province China issued by ***Yibin Association for Pharmaceutical Industry*** valid upto 16-03-2025. Firm has submitted Copy of DML (No. 20170447) in name of M/s Yibin Hongguang Pharmaceutical Co. Ltd., Luolong County Nanxi District, Yibin City, Sichuan Province China valid upto 29-12-2025
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. MCI20210108-002 dated 08-01-2021 for import of 01kg of Tedizolid Phosphate (Batch No# MS102302-201101) in name of M/s Hiranis Pharmaceuticals (Pvt) Ltd attested by AD (I&E) DRAP Karachi dated 02-02-2021. Firm has also submitted copy of form 6 dated 02-02-2021 for import of 01kg of Tedizolid Phosphate in name of M/s Hiranis Pharmaceuticals (Pvt) Ltd attested by AD (I&E) DRAP Karachi dated 02-02-2021.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

INDICATIONS AND USAGE

Acute Bacterial Skin and Skin Structure Infections

SIVEXTRO® is an oxazolidinone-class antibacterial indicated in adult and pediatric patients 12 years of age and older for the treatment of acute bacterial skin and skin structure infections (ABSSSI) caused by susceptible isolates of the following Gram-positive microorganisms: Staphylococcus aureus (including methicillin-resistant [MRSA] and methicillin-susceptible [MSSA] isolates), Streptococcus pyogenes, Streptococcus agalactiae, Streptococcus anginosus Group (including Streptococcus anginosus, Streptococcus intermedius, and Streptococcus constellatus), and Enterococcus faecalis.

Section	Observations	Response
3.2.S.4	• Justification is required for not including test for residue on ignition, bacterial endotoxins and microbial limits in drug substance specifications by drug substance manufacturer and drug product manufacturer as recommended by innovator product review document.	The firm submitted that our proposed product is film-coated tablet, therefore test for Bacterial endotoxin and microbial limit is not the part of Drug substance specifications. Test for residue on ignition is not included in routine testing of Drug substance manufacturer but it was addressed as in-organic impurities during product development with less than 0.2% limit and not included in routine testing based on process validation and submitted documents from drug substance manufacturer as evidence. The firm further stated that drug product manufacturer did not include above tests based on drug substance manufacturer specifications and intended used of drug substance.
3.2.P.2	• Justify the difference in time point in CDP studies in three physiological medias. (180 min in Acid media, 15 min acetate buffer and 30 min phosphate buffer)	The firm submitted that we have conducted CDP in three recommended dissolution medium and difference in time point is due to API solubility behavior at different pH. In acetate buffer pH 4.5 and phosphate buffer pH 6.8, drug release found more than 85% in 15 minutes, while in 0.1N HCl, we observed a plateau of drug release around 8% until 180 minutes. In the case where 85% dissolution cannot be reached owing to poor solubility of the API or the release mechanism of the dosage form, the dissolution should be conducted until an asymptote (plateau) has been reached.
3.2.P.5	• Justification is required for selecting dissolution specification NLT Q in 30 minutes instead of NLT Q in 20 minutes as recommended by innovator product review document • Justification is required for not including the test for water content in finished product specification as recommended by innovator product review document	• The firm submitted that we have selected dissolution time point 30minutes considering BCS class II of tedizolid phosphate and sampling time recommended in FDA dissolution database. In case when drug product dissolution test in not available in any official pharmacopoeia, but all or some details of dissolution parameters are publicly available at FDA dissolution database, FDA CMC review, PAR of reference regulatory authority, review report of PMDA Japan. It is recommended to follow the dissolution

		parameters if provided in FDA dissolution methods database. ***However, the innovator product review document recommends dissolution specification NLT Q in 20 minutes instead of NLT Q in 30 minutes*** • The firm submitted that since Tedizolid phosphate is non-hygroscopic anhydrous solid, we have control the water/moisture content during manufacturing of drug product with specification between 1-2% and same was tested during in-process control.
	3.2.P.8 • The submitted chromatograms shows that different column oven temperature and flow rate (45ºC and 0.6ml/min) was used in analysis than that mentioned in analytical procedure (30ºC and 0.8ml/min), justify	• The firm submitted that the submitted chromatograms & related analysis is done in-accordance to parameters defined in analytical method validation i.e. flow rate 0.6ml/min & column temperature 45°C. • The old version of analytical method submitted in registration dossier by mistake. The firm submitted that we are enclosing revised method in accordance to AMV studies and submitted revised complete analytical method.

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Manufacturer will adopt dissolution specifications of "NLT Q in 20minutes", for commercial batches.**

Registration letter will be issued after submission of fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has referred to previous inspection for authenticity of stability data of their product conducted by the panel on the basis of which Registration Board in 293rd meeting dated 6th-8th January, 2020 decided to approve registration of Empagin XR Tablets 5/1000mg, Empagin XR Tablets 10/1000mg, Empagin XR Tablets 12.5/1000mg, Empagin XR Tablets 25/1000mg. Inspection date: 05th December, 2019 The report shows that: • The HPLC software is 21 CFR compliant as per record available with the firm. • Audit Trail on the testing reports are available. • The firm has 16 stability chambers, 02 for accelerated and 14 for real time stability testing. All chambers are properly qualified. All chambers are provided with continuous power supply and data loggers for continuous monitoring.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	• Firm has submitted copy of GMP certificate in the name of M/s Jiangsu Yongan Pharmaceutical Co., Ltd., No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu China ***issued by Huaian Pharmaceutical Industry Association No. 168, West Chaoyang Road, Qingpu Industrial Park, Huaian, Jiangsu*** valid upto 14-01-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. ZY18083101G/W dated 31-08-2018 for import of 900g of Vortioxetine Hydrobromide (Batch No# 3804-201807001) in name of M/s PharmEvo (Pvt) Ltd attested by AD (I&E) DRAP Karachi dated 24-09-2018. Firm has also submitted copy of form 6 dated 24-09-2018 for import of 900g of Vortioxetine Hydrobromide in name of M/s PharmEvo (Pvt.) Ltd attested by AD (I&E) DRAP Karachi dated 24-09-2018.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Fir has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

WARNING: SUICIDAL THOUGHTS AND BEHAVIORS

Antidepressants increased the risk of suicidal thoughts and behavior in pediatric and young adult patients in short-term studies. Closely monitor all antidepressant-treated patients for clinical worsening, and for emergence of suicidal thoughts and behaviors. TRINTELLIX is not approved for use in pediatric patients.

Section	Observations	Response
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer for issued by relevant regulatory authority of country of origin is required	• The firm has submitted DML # (Su 20160324) of M/s Jiangsu Yongan Pharmaceutical CO., Ltd., No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu China valid upto December 06, 2025.
3.2.S.4	• Justification is required for not including test for polymorph confirmation (β-polymorph), particle size distribution and microbial contamination in drug substance specification by drug substance manufacturer as recommended by innovator product review document although results for polymorph confirmation and particle size distribution submitted in batch analysis • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	• The firm has submitted revised drug substance specifications containing tests for polymorph confirmation and particle size distribution by drug substance manufacturer • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance by drug product manufacturer is submitted • Analytical Method Verification studies including selectivity, linearity, repeatability (method precision), accuracy, system suitability and robustness performed by the Drug Product manufacturer for drug substance(s) is submitted.
3.2.P.2	• Justify why Pharmaceutical equivalence and CDP of the applied product is not performed against the innovator product • Firm shall submit the image/picture/snapshot of innovator/reference/comparator pack against which pharmaceutical equivalence/comparative dissolution profile studies have been performed and shall reveal the details of brand name, manufacturer, batch No# and expiry date of innovator/reference/comparator product in the section 3.2.P.2.2.1 (Formulation Development) of form 5F	• The firm submitted that as per the guidance document for submission of applications on Form 5-F (CTD) for registration of pharmaceutical drug products for human use, pharmaceutical equivalence and CDP of the applied drug shall be established with the innovator, reference, or comparator product, since the innovator product i.e. Trintellix Tablet was not readily available in the market therefore comparator product was used to established Pharmaceutical Equivalence Studies and CDP. • Firm has submitted the image/picture/snapshot of innovator/reference/comparator pack against which pharmaceutical equivalence/comparative dissolution profile studies have been performed.
3.2.P.5	• Justification is required for dissolution specifications NLT 80% (Q); (Q+5=85%) in 30min instead of NLT Q in 20min as recommended by innovator product review document • Justification is required since the limit of assay test in batch analysis of Batch No# 19PD-2769-02-T is out of specifications 140.33% (Limits 90-110%)	• The firm submitted that the Center for Drug Evaluation and Research recommends dissolution specifications of NLT 80% (Q); (Q+5=85%) in 30 minutes based on the chemistry review. • The firm submitted that we would like to inform your kind authority that there is a typographical error in the batch analysis; the correct result of the assay is 104.33%

		(limit 90–110%), which is within a limit. A COA is attached for confirming a result.

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration letter will be issued after submission of fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

BOX WARNING: SUICIDAL THOUGHTS AND BEHAVIORS

Antidepressants increased the risk of suicidal thoughts and behavior in pediatric and young adult patients in short-term studies. Closely monitor all antidepressant-treated patients for clinical worsening, and for emergence of suicidal thoughts and behaviors. TRINTELLIX is not approved for use in pediatric patients.

	Name, address of Manufacturing site.	M/s Dyson Research Laboratories Pvt. Ltd., 28-km, Ferozepur Road, Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-7/2003-Lic (Vol-IV) dated 08-06-2021 which specifies Tablet (General) section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1892 dated 20/01/2022
	Details of fee submitted	PKR 50,000/-: dated 09/12/2020
	The proposed proprietary name / brand name	**Dyzan 10mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Vonoprazan as fumarate……..10mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Proton Competitive acid blocker (P-CAB)
	Reference to Finished product specifications	Innovator
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Takecab 10mg tablet by M/s Takeda Pharmaceutical Company Limited, PMDA Japan Approved.
	For generic drugs (me-too status)	Vocinti Tablet 10mg by M/s The Searle Company Limited, (Reg. No. 108835)
	Name and address of API manufacturer.	M/s Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Fengxin, 330700, Jiangxi Province, P.R. China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and

		controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Not submitted
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator brand that is Takecab 10mg Tablet by M/s Takeda Pharmaceutical Company Limited, Japan, by performing quality tests (Identification, Assay, Dissolution, average weight). CDP has been performed against the same brand that is Takecab 10mg Tablet, by M/s Takeda Pharmaceutical Company Limited, Japan, in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted method validation studies including linearity, range, accuracy, precision, specificity, LOD & LOQ, robustness.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of GMP certificate in name of M/s Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Jiangxi Province, P.R. China issued by ***Jiangxi API Engineering Technology Research Center*** valid upto 11-03-2025. Firm has submitted Copy of DML (No. 20160125) in name of M/s Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Fengxin, 330700, Jiangxi Province, P.R. China valid upto 26-11-2025
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. JXSG190952 dated 16-10-2019 for import of 0.11kg of Vonoprazan Fumarate (Batch No# 20190801BD) in name of M/s Dyson Research Laboratories. However, the invoice is not attested by AD (I&E) DRAP filed office.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.1	• Clarification is required as the fee is submitted almost 1 year and 1 month before the R&I date of submitted application. Furthermore, Fee challan is not endorsed by AD budget and accounts division DRAP	• The firm has submitted new fee of Rs. 30,000/- as the fee for registration of generic drug, on deposit slip no. 110777790, dated 03-03-2023.
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	Firm has submitted cGMP certificate issued on 16-01-2023 based on inspection conducted on 03-11-2021.
3.2.S.2	• You have submitted details of manufacturer of drug substance as M/s Fuxin Long Rui Pharmaceutical Co. Ltd., Flouride industrial Park, Fumeng County, Fuxin City, Liaoning Province China instead of M/s Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Fengxin, 330700, Jiangxi Province, P.R. China as provided in section 1.6.5, clarify	• The firm submitted that the manufacturer of Drug substance is M/s. Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Fengxin, 330700, Jiangxi Province, P.R. China. And all the related documents including GMP, Invoice, etc. are of the above mentioned company. M/s. Fuxin Long Rui Pharmaceutical Co. Ltd., in section 3.2.S.2 is written by mistake and is a typographic error.
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required.	• Copies of Drug substance specifications and analytical procedures used for routine testing of the Drug Substance by Drug substance manufacturer is submitted.
3.2.S.8	• Submit stability study data of drug substance from drug substance manufacturer till claimed shelf life	• Stability data of drug substance till claimed shelf life is submitted: Stability study conditions: Real time: 30˚C ± 2˚C / 75% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (20190801BD, 20190802BD, 20190803BD).
3.2.P.2	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product.	• ***Compatibility study of Drug substance along with excipients is not submitted***

	Applied product	**TAKECAB OD Tablets 10mg**
	Vonoprazan Fumarate	Vonoprazan Fumarate
	Mannitol, Microcrystalline cellulose (Avicel Ph 102), hydroxypropyl cellulose, Cross carmeloose sodium, magnesium stearate, new coat white, tartarizne lake color, purified water	D-mannitol, crystalline cellulose, croscarmellose sodium, hydroxypropyl cellulose, fumaric acid, magnesium stearate, hypromellose, macrogol 6000, titanium oxide, iron sesquioxide
3.2.P.5	• Justification to be provided for the selection of dissolution parameters including dissolution media buffer (6.8):water (1:1), volume of dissolution medium, rpm and type of USP apparatus	The dissolution parameters are established as per ICH Q6A guidelines following the guidance of USP chapter <1092>. • The dissolution profile of dosage form is rapid i.e., Dissolution >80% in 15 minutes at pH 1.2, 4.5 and 6.8. • Also the dose solubility ratio remains very high throughout the physiological buffer range i.e., 5.2mg/ml in pH 6.8 buffer, 18.3mg/ml in pH 1.2 buffer and 10.4 mg/ml in pH 4.5 buffer. • Therefore, we have selected dissolution medium having pH 6.8. Since the water ratio is in equal proportion i.e., buffer (6.8) : water (1:1), it has no effect on the pH and it remain same as 6.8. • The selected rpm is 50 with 900ml medium and 15 minutes sampling time with apparatus II, as per guidelines of USP chapter
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP.	Firm has submitted copy of invoice No. JXSG190952 dated 16-10-2019 for import of 0.11Kg of Vonoprazan Fumarate (Batch No# 20190801BD) in name of M/s Dyson Research Laboratories Lahore., attested by AD (I&E) DRAP Lahore dated 31-10-2019.

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration letter will be issued after submission of:

- **Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Compatibility studies of the Drug Substance with excipients**

3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required.	• Copies of Drug substance specifications and analytical procedures used for routine testing of the Drug Substance by Drug substance manufacturer is submitted.
3.2.S.8	• Submit stability study data of drug substance from drug substance manufacturer till claimed shelf life	• Stability data of drug substance till claimed shelf life is submitted: Stability study conditions: Real time: 30°C ± 2°C / 75% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (20190801BD, 20190802BD, 20190803BD).
3.2.P.2	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product.	• ***Compatibility study of Drug substance with excipients is not submitted***
3.2.P.5	• Justification to be provided for the selection of dissolution parameters including dissolution media buffer (6.8):water (1:1), volume of dissolution medium, rpm and type of USP apparatus	The dissolution parameters are established as per ICH Q6A guidelines following the guidance of USP chapter <1092>. • The dissolution profile of dosage form is rapid i.e., Dissolution >80% in 15 minutes at pH 1.2, 4.5 and 6.8. • Also the dose solubility ratio remains very high throughout the physiological buffer range i.e., 5.2mg/ml in pH 6.8 buffer, 18.3mg/ml in pH 1.2 buffer and 10.4 mg/ml in pH 4.5 buffer.

Applied product	**TAKECAB Tablets 20mg**
Vonoprazan Fumarate	Vonoprazan Fumarate
Mannitol, Microcrystalline cellulose (Avicel Ph 102), hydroxypropyl cellulose, Cross carmeloose sodium, magnesium stearate, new coat white, tartarizne lake color, purified water	D-mannitol, crystalline cellulose, croscarmellose sodium, hydroxypropyl cellulose, fumaric acid, magnesium stearate, hypromellose, macrogol 6000, titanium oxide, iron sesquioxide

		• Therefore, we have selected dissolution medium having pH 6.8. Since the water ratio is in equal proportion i.e., buffer (6.8) : water (1:1), it has no effect on the pH and it remain same as 6.8. • The selected rpm is 50 with 900ml medium and 15 minutes sampling time with apparatus II, as per guidelines of USP chapter
3.2.P.8	• You have mentioned packing of applied product in ALU-PVC blister packing in section 3.2.P.7 while Alu-Alu blister packing in stability summary sheet of this section, clarify • Submit documents for the procurement of API with approval from DRAP.	• The firm submitted that we have followed the packaging of innovator brand that is Takecab 20mg tablet with Alu-PVC blister pack. Alu-Alu blister in stability summary sheet is a typographic error, we have revised the sheets and submitted revised summary sheets. The firm has also submitted specifications of container closure system in section 3.2.P.7. • Firm has submitted copy of invoice No. JXSG190952 dated 16-10-2019 for import of 0.11Kg of Vonoprazan Fumarate (Batch No# 20190801BD) in name of M/s Dyson Research Laboratories Lahore., attested by AD (I&E) DRAP Lahore dated 31-10-2019.

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration letter will be issued after submission of:

- **Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Compatibility studies of the Drug Substance with excipients**

896.	Name, address of Applicant / Marketing Authorization Holder	M/s Genix Pharma (Pvt.) Ltd., 44-45B Korangi Creek Road Karachi
	Name, address of Manufacturing site.	M/s Genix Pharma (Pvt.) Ltd., 44-45B Korangi Creek Road Karachi
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-12/93-Lic (Vol-V) dated 20-09-2021 which specifies Liquid Injection (Ampoule, Vial, Infusion) (General) section
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1013 dated 11-01-2022
	Details of fee submitted	PKR 75,000/-: dated: 23-12-2021 (Deposit sip#8155830888)
	The proposed proprietary name / brand name	**Genfer Injection 100mg/2ml**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 2ml ampoule contains: Ferric hydroxide polymaltose complex equivalent to Iron(III)……100mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Use to treat Iron deficiency
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	5's x2ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ferrosig Injection 100mg/2ml by M/s Sigma Company Limited., TGA Approved
	For generic drugs (me-too status)	N/A
	Name and address of API manufacturer.	Biofer S.p.A. Legal headquarters and manufacturing site: Via Canina, 2 - 41036 MEDOLLA (MO), Italy
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30 ± 2°C / 65 ± 5% RH) for 36 months Accelerated: 40 ± 2°C / 75 ± 5% RH for 6 months Batches: (FPJ 002 FP 01, FPJ 003 FP 01, FPJ 004 FP 01)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Hemafer 100mg/2ml Injection by M/s UNI-PHARMAKLEON LAORATORIES S.A by performing quality tests (Identification, pH, Assay)
	Analytical method validation/verification of product	Firm has submitted method validation studies including Specificity, Linearity, Accuracy, Precision-Repeatability, Intermediate Precision, Robustness.

STABILITY STUDY DATA	
Manufacturer of API	Biofer S.p.A. Legal headquarters and manufacturing site: Via Canina, 2 - 41036 MEDOLLA (MO), Italy
API Lot No.	FPJ014FV20
Description of Pack	Amber glass Type I ampoule

(Container closure system)			
Stability Storage Condition	Real time: 30°C ± 2°C /65%± 5%RH Accelerated: 40°C ± 2°C / 75%± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	21SB(A)-098-01	21SB(A)-099-02	21SB(A)-100-03
Batch Size	500ampoules	500ampoules	500ampoules
Manufacturing Date	06-2021	06-2021	06-2021
Date of Initiation	15-07-2021	15-07-2021	15-07-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of GMP certificate in name of Biofer S.p.A. Legal headquarters and manufacturing site: Via Canina, 2 - 41036 MEDOLLA (MO), Italy issued by Italian Medicines Agency valid upto three years from the date of inspection (date of inspection 28/06/2019)
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) for three months is submitted

Remarks of Evaluator [XI]:

THERAPEUTIC INDICATIONS

FERROSIG is indicated for the treatment of iron deficiency anaemia in the following circumstances:

- When oral therapy is contraindicated.
- When enteric absorption of iron is defective.
- When patient non-compliance or persistent gastrointestinal intolerance makes oral therapy impractical.

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted copy of cGMP certificate issued on 07-10-2021 based on inspection conducted on 15-06-2021.
1.5.5	• Submit correct Pharmacological class of the drug substance with proper reference	• Parenteral iron preparations. Anti-anaemic
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer issued by relevant regulatory authority of country of origin is required	The firm submitted clarification from AIFA Italy stating that due to restrictions caused by covid-19, the period of validity of the GMP certificate is automatically extended until the end of 2023. Onsite inspections will resume as soon as there is a consensus that the period of public health crisis has passed
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required.	• Not submitted

3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	According to Biofer MOA no working standard are required for release analysis of the API Ferric Hydroxide Polymaltose Complex so, we cannot provide any CoA.
3.2.S.7	• Results of Assay test for iron is not submitted in stability study of drug substance, clarify	Firm submitted revised real time stability study data of drug substance wherein Assay test for iron and polymaltose has been performed. However, time point of stability study as per ICH guideline is not submitted. Furthermore accelerated stability study data is not submitted.
3.2.P.1	• Justification is required for not using hydrochloric acid or sodium hydroxide for pH adjustment in formulation	• In development of Genfer Injection 100mg/2ml, the active substance (Ferric Hydroxide Polymaltose Complex Inj.Grade) is dissolved in water for injection and mix until homogenization of solution will be formed. Then Check the pH of the solution. pH limit = 5.2 – 6.50. • The pH of the solution observed in the range as described above therefore no need to the addition of HCl or NaOH for pH adjustment in the formulation. • The product kept on stability and no changes observed in pH of the formulation and any other physical and chemical parameters. • Stability studies also demonstrated that the formulation is stable without the addition of pH adjusting agents.
3.2.P.2	• Submit details of country of origin of reference product against which pharmaceutical equivalence studies have been performed. • Justification is required for not performing test for bacterial endotoxin and particulate matter in pharmaceutical equivalence as submitted in finished product specifications	• The firm submitted details of country of origin: UNI-PHARMA KLEON TSETIS Pharmaceutical Laboratory S.A 14Km National Road 1, GR-145 64K, Kifissia GREECE • The firm has submitted revised pharmaceutical equivalence report wherein results of test for bacterial endotoxin and particulate matter has been submitted
3.2.P.5.2	• You have applied for innovator specifications in module 1 section 1.5.6 while in-house specification in this section, justify?	The firm submitted that this is typographic error and submitted revise specification stating innovator specifications
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	We have conducted assay of Iron by complexometric titration, in this method working standard is not required.
3.2.P.8	• You have written liraglutide on initial page of summary sheet while applied product is ferric hydroxide polymaltose complex, clarify? • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is required • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 6th months is required • Submit documents for the procurement of API with approval from DRAP (in case of import). • Submit 6th month stability data of applied product	• The firm submitted that this is typographic error and submitted corrected summary reports. • Audit trial is not applicable as product testing is carried out via titration method • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted • Firm has submitted copy of invoice for import of 01Kg of Ferric Hydroxide Polymaltose Complex (Batch No# FPJ014FV20) in name of M/s Genix Pharma (Pvt.) Ltd., attested by AD (I&E) DRAP Karachi dated 26-04-2021.

	• 6th month stability data of applied product is submitted
Decision: Deferred for submission of following: • **Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required.** • **Stability study data of drug substance as per zone IV-A conditions till claimed shelf life.** • **Pharmaceutical equivalence of applied product against innovator product** • **Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**	

Case No. 02; Routine Registration application of Human drugs on Form 5F (Local) whose Replies are not received

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	• Not submitted

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	• Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. 0057/U2/E/19-20 dated 17-02-2020 for import of 0.8725Kg of Ketorolac Tromethamine (Batch No# KTT/1002501) from M*/s Vasudha Pharma Chem Limited, Unit-I Plot No. 37/A, 38, 39 A&B, Phase-I IDA Jeedimetla Hyderabad-500055 Telangana India* in name of M/s Wilshire Laboratories (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 28-02-2020. ***Address of* M*/s Vasudha Pharma Chem Limited is different from that given in section 3.2.S.2***
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations
1.2	• The firm submitted photocopy of receipt of fee ***Rs. 20,000/-*** submitted ***dated 24-04-2019*** • Submit evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm or Submit differential fee as the applied product is a new formulation (strength)
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted
1.5.5	• Submit correct Pharmacological class of the drug substance with proper reference
1.6.5	• Submit Name and address of drug substance manufacturer • Valid GMP certificate / DML of drug substance manufacturer issued by relevant regulatory authority of country of origin is required
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) ketorolac trimethylamine is submitted. • Clarification is required as drug substance manufacturer has mentioned the name of drug substance in batch analysis as ketorolac tromethamine while you have mentioned ketorolac triethylamine • Drug product manufacturer has not performed the Tromethamine Test for drug substance in batch analysis as recommended by USP • COA of drug substance from drug substance manufacturer is submitted from *M/s Vasudha Pharma Chem Limited, unit-I Plot No. 39, A&B, Phase-I IDA Jeedimetla Hyderabad-500055 Telangana India* while drug substance manufacturer details provided in section 3.2.S.2 is *M/s Vasudha Pharma Chem Limited, Unit-III Plot No. 23&24, Jawaharlal Nehru Pharma City, Parawada, Visakhapatnam-531019, Andra Pradesh, India, clarify*
3.2.P.2	• Justify the role of Ethyl alcohol as preservative in the applied formulation. • Firm shall submit the image/picture/snapshot of innovator/reference/comparator pack against which pharmaceutical equivalence/comparative dissolution profile studies have been performed and shall reveal the details of brand name, manufacturer, batch No# and expiry date of innovator/reference/comparator product in the section 3.2.P.2.2.1 (Formulation Development) of form 5F
3.2.P.3.3	• Justify the performance of terminal sterilization by autoclave since reference product review document does not recommend terminal sterilization.
3.2.P.5	• Justification is required for preparing different concentration of stock solution and standard solution in assay analytical method from that recommended by USP.

	• Justification is required for using internal standard in assay method which is not recommended by USP • Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not included in specification • The manufacturing date of trial batches mentioned in batch analysis (13-08-2020, 20-08-2020, 25-08-2020) is different from that mentioned in submitted BMR (20-08-2020, 25-08-2020, 27-08-2020), clarify • Clarification is required as you have mentioned the generic name of drug substance in batch analysis as ketorolac triethylamine instead of ketorolac tromethamine.
3.2.P.7	• Applied product packed in ampoule while reference product packed in vial
3.2.P.8	• Justification shall be submitted as the date of initiation of stability study is before the manufacturing date of trial batches • The peak labelled in submitted chromatograms is vortioxetine while applied product is ketorolac tromethamine, clarification is required • As per submitted invoice drug substance is imported from M*/s Vasudha Pharma Chem Limited, Unit-I Plot No. 37/A, 38, 39 A&B, Phase-I IDA Jeedimetla Hyderabad-500055 Telangana India* while drug substance manufacturer details provided in section 3.2.S.2 is *M/s Vasudha Pharma Chem Limited, Unit-III Plot No. 23&24, Jawaharlal Nehru Pharma City, Parawada, Visakhapatnam-531019, Andra Pradesh, India, clarify*

Decision: Board deferred the case for submission of reply to the above cited shortcomings within six months as the board was apprised that the letter of shortcoming has been initially shared with the firm and waiting fir reply.

3.2.P.2	• Justify the role of Ethyl alcohol as preservative in the applied formulation.
	• Firm shall submit the image/picture/snapshot of innovator/reference/comparator pack against which pharmaceutical equivalence/comparative dissolution profile studies have

	been performed and shall reveal the details of brand name, manufacturer, batch No# and expiry date of innovator/reference/comparator product in the section 3.2.P.2.2.1 (Formulation Development) of form 5F
3.2.P.3.3	• Justify the performance of terminal sterilization by autoclave since reference product review document does not recommend terminal sterilization.
3.2.P.5	• Justification is required for preparing different concentration of stock solution and standard solution in assay analytical method from that recommended by USP. • Justification is required for using internal standard in assay method which is not recommended by USP • Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not included in specification • The manufacturing date of trial batches mentioned in batch analysis (11-08-2020, 25-08-2020, 25-08-2020) is different from that mentioned in submitted BMR (20-08-2020, 25-08-2020, 27-08-2020), clarify • Clarification is required as you have mentioned the generic name of drug substance in batch analysis as ketorolac triethylamine instead of ketorolac tromethamine.
3.2.P.8	• As per submitted invoice drug substance is imported from M*/s Vasudha Pharma Chem Limited, Unit-I Plot No. 37/A, 38, 39 A&B, Phase-I IDA Jeedimetla Hyderabad-500055 Telangana India* while drug substance manufacturer details provided in section 3.2.S.2 is *M/s Vasudha Pharma Chem Limited, Unit-III Plot No. 23&24, Jawaharlal Nehru Pharma City, Parawada, Visakhapatnam-531019, Andra Pradesh, India, clarify*

Decision: Board deferred the case for submission of reply to the above cited shortcomings within six months as the board was apprised that the letter of shortcoming has been initially shared with the firm and waiting fir reply.

899.	Name, address of Applicant / Marketing Authorization Holder	M/s Vega Pharmaceuticals (Pvt.) Ltd., Plot No. 4, Pharma City, 30-Km Multan Road, Lahore
	Name, address of Manufacturing site.	M/s Vega Pharmaceuticals (Pvt.) Ltd., Plot No. 4, Pharma City, 30-Km Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-22/2001-Lic (Vol-II) dated 07-06-2021 which specifies Eye Drops Section (General) and Eye Drops Section (Steroid)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No. 1895 dated 20-01-2022
	Details of fee submitted	Rs. 30,000/- dated 24-05-2021 (Deposit slip#3141834076)
	The proposed proprietary name / brand name	Venac Forte 0.3% Eye Drops
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml of Suspension Contains: Nepafenac…….3mg
	Pharmaceutical form of applied drug	Eye Drops suspension
	Pharmacotherapeutic Group of (API)	NSAIDs
	Reference to Finished product specifications	Manufacturer Specifications
	Proposed Pack size	3ml
	Proposed unit price	Rs 665.00/-

	The status in reference regulatory authorities	ILEVRO 0.3%, ophthalmic suspension, USFDA Approved.
	For generic drugs (me-too status)	Curanep Forte Eye Drops by M/s The Schazoo Pharmaceutical, (Reg. No. 107144)
	Name and address of API manufacturer.	M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, batch analysis and justification of specification, container closure system of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Not submitted
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Nepatek 0.3% eye drops by M/s Innvotek Pharmaceuticals Islamabad by performing quality tests (Physical appearance, pH, Assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including specificity, accuracy, linearity, precision, robustness, system suitability.

STABILITY STUDY DATA

Manufacturer of API	M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China		
API Lot No.	202080901		
Description of Pack (Container closure system)	LDPE bottles with nozzle and cap of 3ml		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 12 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	2000 bottles	2000 bottles	2000 bottles
Manufacturing Date	10-2020	10-2020	10-2020
Date of Initiation	20-10-2020	20-10-2020	20-10-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted only stability summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted almost 08 months before the R&I date of submitted application.
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted
1.6.5	• Valid GMP certificate of drug substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both drug substance manufacturer and Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Sterility test for drug substance is not performed in batch analysis by drug product manufacturer as recommended by drug substance manufacturer
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.S.8	• Stability study data of drug substance from drug substance manufacturer till claimed shelf life is not submitted
3.2.P.	• Submit module 3 drug product part section 3.2.P.1 and 3.2.P.2 as per CTD guidance document • Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, in pharmaceutical equivalence studies • Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product? • Justify why complete testing has not been performed in pharmaceutical equivalence studies as per finished product specifications
3.2.P.3	• Justification is required as the manufacturing procedure of the applied product does not contain sterilization process
3.2.P.5	• Justification is required for not including test for benzalkonium chloride identity, benzalkonium chloride assay, edetate disodium identity, edetate disodium assay, osmolality, redispersibility, viscosity, particle size distribution and endotoxin content in finished product specification as recommended by innovator product review document. • The limit of pH test (pH 7.0-8.0) is different than that recommended by innovator product review document (pH 6.8). • The results of assay test are more than that recommended by innovator product review document (7.75, 7.69, 7.72) • Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not included in specification

3.2.P.6	• COA of secondary reference standard is submitted from M/s Precise Chem Pharma Pvt. Ltd India while drug substance manufacturer as per section 3.2.S.2 is M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China, Clarify
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP • Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA is not submitted • Justification is required as the stability study has not been performed as per the stability conditions recommended by ICH Q1A (R2) 2.2.7.3. for Drug products packaged in semipermeable containers • Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not performed in stability studies • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not submitted

Decision: Board deferred the case for submission of reply to the above cited shortcomings within six months as the board was apprised that the letter of shortcoming has been initially shared with the firm and waiting fir reply.

	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-12/89-Lic (Vol-II) dated 23-07-2012 which specifies Lyophilized Vials (General) Section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 2523 dated 26-01-2022
	Details of fee submitted	PKR 30,000/-: dated 20-12-2021 (Deposit Slip#1799701158)
	The proposed proprietary name / brand name	Voricol 200mg Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Voriconazole lyophilized powder…….200mg
	Pharmaceutical form of applied drug	Lyophilized powder
	Pharmacotherapeutic Group of (API)	Antifungal
	Reference to Finished product specifications	In-House specifications
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	VFEND 200mg lyophilized powder for injection, USFDA approved
	For generic drugs (me-too status)	V.Zde 200mg/Vial Injection by M/s Neutro Pharma (Reg. No. 097657)

	Name and address of API manufacturer.	M/s Lee Pharma Limited., Survey No. 10/G-1, Gaddapotharam (Village), Jinnaram (Mandal), Sangareddy (District) Telangana State, 502319 India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation/verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Module III (Drug Substance)	Firm has submitted detailed data of drug substance related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $40^{O} \pm 2^{O}$ C /75% ± 5% RH for 6 months. The real time stability data is conducted at 30^{O}C ± 2^{O} C / 65% ± 5% RH for 60 months. (Batches: VR0411003, VR0411004, VR0411005)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Vfend injection by M/s Pfizer by performing quality tests (Identification, pH, Assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including linearity, range, accuracy, precision, specificity, robustness, LOD, LOQ, system suitability.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted

1.4.1.	• The applied drug product is a generic drug product while you have applied for a new drug product, clarify
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer for Empagliflozin and Metformin issued by relevant regulatory authority of country of origin is required • Address of M/s Aarti drugs Limited in submitted application is different than that mentioned in GMP certificate, clarify
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.3	• Details of Elucidation of Structure and other Characteristics for metformin HCl shall be submitted • List of Drug Substance / API-related impurities and process-related impurities metformin HCl shall be submitted along with acceptance limits
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Metformin HCl by both drug substance manufacturer and Drug Product manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Empagliflozin by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance Metformin HCl and Empagliflozin shall be submitted. • Clarification is required as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead of HPLC method as recommended by USP. • Justification is required for not performing test for identification (IR & Reaction of Chloride) and residue on ignition for drug substance metformin HCl in batch analysis by drug product manufacturer as recommended by USP • Justification is required for not performing test for identification and residue on ignition for drug substance empagliflozin by drug product manufacturer as recommended by drug substance manufacturer. • Unsigned copy of batch analysis of drug substance empagliflozin by drug product manufacturer is submitted
3.2.P.2	• Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product? • Submit detailed CDP studies including details of dissolution parameters, dissolution media, sampling time point and details of analytical parameters used and f2 factor calculation
3.2.P.5	• Justification is required for not including test for content uniformity for empagliflozin in finished product specifications as recommended by innovator product review document • Justification is required for not including the test for assay in finished product specifications • Justification is required for not mentioning the time for dissolution studies in finished product specifications as recommended by innovator product review document • Detailed analytical procedures used for testing the drug product shall be provided. • Results for specificity test is not submitted in method validation studies • Justification is required for not performing test for content uniformity in batch analysis as recommended by innovator product review document
3.2.P.6	• Detail of the container closure systems of drug substance is submitted instead of drug product
3.2.P.8	• Submit complete analytical record of stability study including summary data sheets, COA, Raw data sheets, and chromatograms • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not submitted
Decision: Board deferred the case for submission of reply to the above cited shortcomings within six months as the board was apprised that the letter of shortcoming has been initially shared with the firm and waiting fir reply.	

Case No. 03; New application for registration of Human drugs with stability study data on Form 5D on export facilitation

Assistant director PR-I/EFD vide letter No.F.1-6/2019-PR-I (EFD dated 06-10-2022 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis

to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2021-2022** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

902.	Name and address of manufacturer / Applicant	M/s Pharmevo Private Limited., Plot # A-29, North Western Industrial Zone, Port Qasim, Karachi
	Brand Name +Dosage Form + Strength	Velix 5mg Tablet
	Composition	Each film coated tablet contains: Vortioxetine hydrobromide eq. to Vortioxetine…….5mg
	Diary No. Date of R& I & fee	Dy. No. 4029 dated 21/04/2017; PKR 50,000/- dated 20/04/2017 ***Duplicate Dossier (R&I verified)***
	Pharmacological Group	Anti- Depression
	Type of Form	Form-5D
	Finished product Specifications	Manufacturer's specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	TRINTELLIX 5mg film coated tablet USFDA Approved.
	Me-too status (with strength and dosage form)	Vorneu Tablet 5mg by M/s Hilton Pharma (Reg. No#107776)
	GMP status	Firm has submitted cGMP certificate issued on 17th September, 2020 based on inspection conducted on 16th September 2020.
	Remarks of the Evaluator :	

STABILITY STUDY DATA			
Manufacturer of API	M/s Jiangsu Yongan Pharmaceutical Co., Ltd., No. 18, 237 Provincial Road, Economic Development Zone, Huainan, Jiangsu China		
API Lot No.	3804-201807001		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 75% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	19PD-2676-03-T	19PD-2677-04-T	19PD-2678-05-T
Batch Size	2500 tab	2500 tab	2500 tab
Manufacturing Date	05-2019	05-2019	05-2019
Date of Initiation	10-05-2019	10-05-2019	10-05-2019
No. of Batches	03		
Date of Submission	(Dy. No 10997) 09-04-2021		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT		
1	Reference of previous approval of applications with stability study data of the firm	The firm has referred to previous inspection for authenticity of stability data of their product conducted by the panel on the basis of which Registration Board in 293rd meeting dated 6th-8th January, 2020 decided to approve registration of Empagin XR Tablets 5/1000mg, Empagin XR Tablets 10/1000mg, Empagin XR Tablets 12.5/1000mg, Empagin XR Tablets 25/1000mg. Inspection date: 05th December, 2019 The report shows that: • The HPLC software is 21 CFR compliant as per record available with the firm. • Audit Trail on the testing reports are available. • The firm has 16 stability chambers, 02 for accelerated and 14 for real time stability testing. All chambers are properly qualified. All chambers are provided with continuous power supply and data loggers for continuous monitoring.

2	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Firm has submitted certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.
3	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Firm has submitted method used for analysis of API from both API Manufacturer and Finished Product manufacturer
4	Stability study data of API from API manufacturer	Firm has submitted stability study data of drug substance as per zone IV-A. Stability study is conducted at Real time conditions; 30°C ± 2°C / 65% ± 5%RH for 36 months and at Accelerated conditions; 40°C ± 2°C / 75% ± 5%RH for 06 months Batches: (X231303161, X231303231, X231303301)
5	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Jiangsu Yongan Pharmaceutical Co., Ltd., No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu China ***issued by Huaian Pharmaceutical Industry Association No. 168, West Chaoyang Road, Qingpu Industrial Park, Huaian, Jiangsu*** valid upto 14-01-2024.
6	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. ZY18083101G/W dated 31-08-2018 for import of 900g of Vortioxetine Hydrobromide (Batch No# 3804-201807001) in name of M/s PharmEvo (Pvt) Ltd attested by AD (I&E) DRAP Karachi dated 24-09-2018. Firm has also submitted copy of form 6 dated 24-09-2018 for import of 900g of Vortioxetine Hydrobromide in name of M/s PharmEvo (Pvt.) Ltd attested by AD (I&E) DRAP Karachi dated 24-09-2018.
7	Protocols followed for conduction of stability study	Submitted
8	Method used for analysis of FPP	Submitted
9	Drug-excipients compatibility studies (where applicable)	The firm submitted that they used same excipients in their product as used by innovator product.
10	Complete batch manufacturing record of three stability batches.	The firm has submitted copy of Trial batch manufacturing record. Details are as under: Batch no. / Batch Size / Mfg. Started 19PD-2676-03-T / 2500 / 05-2019 19PD-2677-04-T / 2500 / 05-2019 19PD-2678-05-T / 2500 / 05-2019
11	Record of comparative dissolution data (where applicable)	Firm has submitted Comparative dissolution study of their product with innovator Brand Brintellix 5 mg film-coated tablets by M/s H. Lundbeck A/S, Denmark. The details are as follows: Feature / Reference Product / Product of PharmEvo Brand Name / Brintellix 5 mg film-coated tablets / Velix 5mg Tablet Batch No. / 2584289 / 19PD-2676-03-T Comparative dissolution studies have been performed in following mediums: 1. pH 1.2 HCl buffer 2. pH 4.5 Acetate buffer 3. pH 6.8 Phosphate buffer The release of both the reference product and test product is more than 85% in in both acid media pH 1.2 and acetate media pH 4.5 so values of f2 is not calculated. The value of f2 factor calculated is more than 50% in phosphate buffer.
12	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of 03 batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
13	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted

14	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

WARNING: SUICIDAL THOUGHTS AND BEHAVIORS

Antidepressants increased the risk of suicidal thoughts and behavior in pediatric and young adult patients in short-term studies. Closely monitor all antidepressant-treated patients for clinical worsening, and for emergence of suicidal thoughts and behaviors. TRINTELLIX is not approved for use in pediatric patients.

Observations	Response
• Valid GMP certificate / DML of drug substance manufacturer issued by relevant regulatory authority of country of origin is required • Drug product manufacturer has not performed test for polymorph confirmation, particle size distribution, bromine content in COA although performed by drug substance manufacturer, clarify • Justify the hold time during different steps of manufacturing processes involved in applied formulation • Justification is required for dissolution specifications NLT 80% (Q); (Q+5=85%) in 30min instead of NLT Q in 20min as recommended by innovator product review document	• The firm has submitted copy of DML # (Su 20160324) of M/s Jiangsu Yongan Pharmaceutical CO., Ltd., No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu China valid upto December 06, 2025. • The firm has submitted specification and method of analysis, as well as certificate of analysis including the complete test (i.e., polymorph confirmation, particle size distribution and bromine content), of the drug substance manufacturer as well as finished product manufacturer. • The firm submitted that since all testing parameters were within the specifications at the time of the initial, 3rd and 6th month stability testing, it is evident that the product was kept in the recommended storage conditions during the manufacturing process • The firm submitted that the Center for Drug Evaluation and Research recommends dissolution specifications of NLT 80% (Q); (Q+5=85%) in 30 minutes based on the chemistry review.

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration letter will be issued after submission of Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Registration Board further decided to verify fee challan as per decision of 285th meeting of Registration Board.**

BOX WARNING: SUICIDAL THOUGHTS AND BEHAVIORS

Antidepressants increased the risk of suicidal thoughts and behavior in pediatric and young adult patients in short-term studies. Closely monitor all antidepressant-treated patients for clinical worsening, and for emergence of suicidal thoughts and behaviors. TRINTELLIX is not approved for use in pediatric patients.

Case No. 04; New application for registration of Human drugs on Form 5-F on export facilitation

Assistant director PR-I/EFD vide letter No.F.1-6/2019-PR-I (EFD) dated 29-12-2022 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2021-2022** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

903.	Name, address of Applicant / Marketing Authorization Holder	M/s Herbion Pakistan Pvt. Ltd., Industrial Triangle, Kahuta road, Islamabad, Pakistan
	Name, address of Manufacturing site.	M/s Herbion Pakistan Pvt. Ltd., Industrial Triangle, Kahuta road, Islamabad, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer

		☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted GMP certificate issued on 17-07-2019 based upon inspection conduct 21-05-2019, valid upto 20-05-2022.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-21/2012-Lic (Vol-I) dated 09-04-2020 which specifies Tablet Section (General)-Revised
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 17602 dated 16/06/2022
	Details of fee submitted	PKR 30,000/-: dated 31/05/2022 (Deposit slip#1655993562)
	The proposed proprietary name / brand name	**Moxilox 400 mg tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Moxifloxacin hydrochloride equivalent to moxifloxacin …….400 mg.
	Pharmaceutical form of applied drug	Film coated tablets
	Pharmacotherapeutic Group of (API)	Fluoroquinolones antibacterial
	Reference to Finished product specifications	USP
	Proposed Pack size	1 x 5's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Avelox 400mg film coated tablets USFDA Approved
	For generic drugs (me-too status)	Moxiget 400mg Tablet by M/s Getz Pharma (Reg#47117)
	Name and address of API manufacturer.	M/s Vital Laboratories Pvt. Ltd., Plant: II, Plot No. 1710 & A1/2208 , GIDC Estate, Phase III Vapi – 396 195 Gujarat, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (MOX1607001, MOX1608002, MOX1608003)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.

	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator brand that is Avelox 400mg tablets by performing quality tests (Appearance, Identification, Disintegration, Dissolution, Assay)., CDP has been performed against the same brand that is Avelox 400mg tablet by in Acid media (pH 1.2) acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f2 factor are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted method verification studies including linearity and range, accuracy and recovery, precision, specificity.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Vital Laboratories Pvt. Ltd., Plot No. 1710, GIDC Estate, Phase III Vapi – 396 195, District Valsad, Gujarat State, India issued by Food & Drugs Control Administration Gandhinagar India valid upto 16-03-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. HHM/2122/00063 dated 08-06-2021 for import of 2.5kg of Moxifloxacin HCl (Batch No# MOX2010021) in name of M/s Herbion Pakistan Pvt. Ltd., attested by AD (I&E) DRAP Islamabad dated 02-07-2021. Firm has submitted copy of clearance certificate including details of invoice No. HHM/2122/00063 dated 08-06-2021 for import of 2.5kg of Moxifloxacin HCl (Batch No# MOX2010021) in name of M/s Herbion Pakistan Pvt. Ltd., attested by AD (I&E) DRAP Islamabad dated 02-07-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing upto 03 months is submitted

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 03 months is submitted

Remarks of Evaluator [xi]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted GMP certificate issued on 17-11-2022 based upon inspection conduct 04-07-2022.
3.2.S.4	• Justification is required as drug substance manufacturer has submitted specifications as per EP while drug product manufacturer has submitted specification as per USP. • Justification is required for using different chromatographic (flow rate 0.9ml/min, injection volume 25ul, column 4mx25cm, 55-um packing L11) conditions than recommended by drug substance manufacturer (flow rate 1.3ml/min, injection volume 10ul, column 25cmx4m, 5-um) • Justification is required as the drug substance manufacturer and drug product manufacturer has not performed the test for enantiomeric purity in batch analysis • Drug product manufacturer has not performed the test for appearance of solution in batch analysis	• The specifications Doc. No. STM/RMS/160, effective date 09-11-2021, entitle as "Specification and Testing Method for Moxifloxacin Hydrochloride" is referenced as USP 2020 and the analysis is performed as per stated pharmacopoeia. Further to add the drug manufacturer may use specifications of raw materials as mentioned in any official monograph. https://www.ema.europa.eu/en/documents/scientific-guideline/ich-guideline-q7-good-manufacturing-practice-active-pharmaceutical-ingredients-questions-answers_en.pdf "As per ICH Guide lines, [ICH Q7, 7.31], A raw material supplier's Certificate of Analysis (CoA) may not necessarily align with the user's specifications and submitted referenced documents. • Since we have used specifications and testing method as per USP 2020, so all the chromatographic conditions are in compliance with mentioned pharmacopoeia. • The organic impurities including enantiomeric purity are performed as mentioned in USP 2020. The COA, raw data calculation sheet, chromatogram and audit trail is submitted. • The firm submitted that Since "test for appearance of solution" is not mentioned in USP 2020 and our analytical results are in compliance with above mentioned pharmacopoeia.
3.2.P.5	• Justification is required for not including the dissolution test in finished product specifications as recommended by USP. • Analytical method for dissolution test is not submitted • Justification is required for not mentioning the time point for dissolution test in batch analysis	• The firm submitted that although we have conducted dissolution test of finished product at all stages, where required and is part of our approved specifications and test method and submitted revised specification containing dissolution test • The signed and stamped document of Specifications & Testing Method for Moxifloxacin 400mg Tablets including Dissolution test is submitted • The firm submitted that sampling time point for dissolution test is 30 minutes, the same is mentioned in revised approved specification on page number 8 of 17 and in batch analysis report and as mentioned in USP 2020.
3.2.P.8	• Submit system generated UV spectra of dissolution test at all-time point of stability study wherein details of time and date shall be evident along with raw data sheets. • Submit stability study data of applied product at 6th month time point	• The individual system generated UV Spectra of each sample, showing sample name, analyst name, batch number, date and time is clearly mentioned along with already provided stacking format report. All UV Spectra (Individual spectra) for each time point

	• Compliance Record of HPLC software 21CFR & audit trail reports on product testing upto 06 months is not submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 06 months is not submitted	including initial, 3rd, 6th, 9th and 12th month is submitted. • The 6th month stability data of product is submitted. • The compliance record of HPLC Software 21CFR & Audit trail reports on product testing up to 06 months is submitted. • The record of digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) up to 6th months is submitted.

Decision: Approved. Registration letter will be issued after submission of Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	**Dapagliflozin:** Firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. **Metformin:** The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: **Dapagliflozin:** Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (160108, 160124, 160220) **Metformin HCl:** Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (9002ML2RMI, 9003ML2RMI, 9004ML2RMI)
	Module-III (Drug Product):	The firm has submitted detail of composition, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been established against the innovator brand that is XIGDUO XR 5/500mg Tablets by M/s Astra Zeneca USA by performing quality test (Identification, average weight, dissolution, assay) CDP has been performed against the same brand that is XIGDUO XR 5/500mg Tablets by M/s Astra Zeneca USA in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values of f2 factor are in acceptable range
	Analytical method validation/verification of product	Firm has submitted method validation studies including Specificity, Linearity, range, accuracy, precision, LOD, LOQ, Robustness, solution stability, System Suitability.
STABILITY STUDY DATA		
Manufacturer of API		**Dapagliflozin:** Fuxin Long Rui Pharmaceutical CO., Ltd. Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province -123000, China. **Metformin HCl:**

	Ipca Laboratories Limited., H-4, M.I.D.C., Waluj Aurangabad (Maharashtra) Pin: 431136, India		
API Lot No.	**Dapagliflozin:** L-DG-20210805-D02-DG06-01 **Metformin HCl:** 21023ML2AJMI		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 3 months Accelerated: 3 months		
Frequency	Accelerated: 0, 3 (Months) Real Time: 0, 3 (Months)		
Batch No.	RD-21320	RD-21321	RD-21305
Batch Size	4000 Tablets	4000 Tablets	4000 Tablets
Manufacturing Date	12-2021	12-2021	12-2021
Date of Initiation	08-01-2022	08-01-2022	08-01-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Dapagliflozin:** Firm has submitted copy of GMP certificate in the name of M/s Fuxin Long Rui Pharmaceutical CO., Ltd., issued by Fuxin Food and Drug administration, valid upto 16-11-2024 Firm has submitted copy of DML (Certificate# Liao20150233) in the name of M/s Fuxin Long Rui Pharmaceutical CO., Ltd., issued by Liaoning Medical Products Administration, valid upto 20-12-2022 **Metformin HCl:** Firm has submitted copy of GMP certificate in the name of M/s Ipca Laboratories Limited., India., issued by Food and Drug administration, Maharashtra State India, valid upto 27-04-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Dapagliflozin:** The firm has submitted a copy of invoice # HN210922-D) Dated 22-10-2021 for import of 15Kg of Dapagliflozin propanediol monohydrate (Batch# L-DG-20210805-D02-DG06-01) in name of M/s Highnoon Laboratories Ltd attested by AD (I&E) DRAP Lahore dated 12/11/2021. **Metformin HCl:** Firm has submitted copy of invoice# MEG2122/1630495 Dated 10-05-2021 for import of 6000Kg of Metformin HCl (Batch# 21023ML2AJMI, 21027ML2AJMI, 21116ML2AJMI, 21117ML2AJMI) in name of M/s Highnoon Laboratories Ltd attested by AD (I&E) DRAP Lahore 21-05-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing upto 03 months is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Fee challan for applied product is not submitted. Submit original fee challan submitted for applied product
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted
1.5.2 / 3.2.P.1	• Label claim of the applied formulation with reference to the innovator product shall be submitted along with submission of applicable fee
1.5.6	• Clarification is required as you have applied for Manufacturer's Specifications / Innovator specifications?
3.2.S.4	• Justification is required for not including the test for propylene glycol content in drug substance specifications (dapagliflozin) by drug substance manufacturer and drug product manufacturer as recommended by innovator product review document
3.2.P.2	• Justification is required for using 5% (0.307mg) overage in case of dapagliflozin propanediol monohydrated in applied formulation
3.2.P.5	• Justification is required for not performing the identification test in batch analysis as recommended by innovator product review document • Specify the mesh size used with USP type-I apparatus used in dissolution studies
3.2.P.8	• Submit stability study data of applied product at 6th month time point • Compliance Record of HPLC software 21CFR & audit trail reports on product testing upto 06 months is not submitted

Decision: Board deferred the case for submission of reply to the above cited shortcomings within six months as the board was apprised that the letter of shortcoming has been initially shared with the firm and waiting fir reply.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted DML renewal Inspection report conducted on 14.09.2020, 15.09.2020 and 21.10.2020 and panel has recommended renewal of DML for following sections; Tablet (General), Capsule (General), Oral Liquid, Dry Powder Suspension, Liquid Injectable & Capsule section (Steroid). • Firm has submitted Letter No. 8194/2022-DRAP (Addl.Dire) dated 07.07.2022 from Additional Director DRAP Lahore which states that; "The Firm has applied for GMP Inspection. The application is under process at DRAP Office and inspection will be done as per availability of Area FID. The firm's last GMP status is Compliant / Good.

1.5.2	• Clarification is required as you have applied for film coated tablets while the reference formulation is film coated extended release tablets or revise your label claim as per reference formulation along with submission of applicable fee.	The firm submitted that applied formulation is as per reference formulation i.e., film coated extended release that is evident from dissolution results. Label claim for products is: Each film coated extended-release tablet contain: Pregabalin…….82.5mg.
3.2.S.4	• Justification is required for claiming in-house specifications for drug substance by drug substance manufacturer and drug product manufacturer as the monograph for applied drug substance is available in pharmacopeia (BP, USP) • Justification is required for using in-house analytical method for drug substance by drug substance manufacturer and drug product manufacturer as the analytical method for applied drug substance is available in pharmacopeia (BP, USP) • Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the COA of Reference Standards or Materials states that it is to be used before 19-03-2016, while manufacturing date of drug substance as per submitted COA is Dec 2020.	• The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house specs. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and drug product manufacturer are in process of shifting the specification as per USP Monograph. • The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house analytical method. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and Drug product manufacturer are in process of shifting the analytical method as per USP Monograph. • The firm submitted that provided COA of reference standard was taken from DMF. COA of working standard used for the analysis of drug substance is submitted which states that it is to be used before 11-07-2021**.**
3.2.P.2	• Submit evidence for storing samples prepared for compatibility study at 60˚C ± 3˚C / 75% ± 5%RH for 10 days	***The firm submitted record of data logger for temperature and humidity monitoring for sample prepared for compatibility study***
3.2.P.5	• Justification is required for changing wavelength during assay procedure in analytical method from 300nm to 210nm after 4.5 minutes • Submit analytical method validation report for the applied product	• The firm submitted that in product test method 300nm is used to suppress blank peak and the principal peak of pregabalin is around 5.1 that's why wavelength is changed at 210nm from 4.5min to onward. • Firm has submitted analytical method validation studies including specificity, linearity and range, accuracy, precision, LOD & LOQ, robustness and solution stability and system suitability studies.
3.2.P.6	• Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug product as the COA of Reference Standards or Materials states that it is to be used before 11-07-2021, while manufacturing date of drug product as per submitted COA is April 2021 and 3rd month time point and 6th month time stability study are due on July 2021 (07-2021) and October 2021 (10-2021).	• The firm submitted that same reference standard was used for analysis of drug product as the sequence / chromatograms against this standard was saved during trial analysis and same sequence / chromatograms of standard was used at 3rd and 6th Month stability study time point for analysis of drug product. It is to submit that the Reference Standards or Materials used for test and analysis of drug product was expired at 6th month time point (October 2021 (10-2021)) of stability study.
3.2.P.8	• The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required	• The firm submitted that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. So in chromatogram starting wavelength is mentioned which is 300nm.

	• Clarification is required for not including the results and calculation details for content uniformity test in raw data sheet at initial time point of stability study • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula shall be submitted • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• Firm has submitted results and calculation details for content uniformity test in raw data sheet at initial time point of stability study. • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula is submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Previous Decision (324-DRB): Deferred for scientific justification of following points:

- Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.
- Use of dual wavelengths for the analysis of single drug substance containing formulation.
- The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required

Response of firm:

Sr#	Observations	Response
01	Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.	The firm submitted that we have also used the reference standard submitted as Annex-1 for the analysis of Drug product at 6th Month Stability study time point. Moreover, as we were in phase of shifting the Specs of Raw Material from In-house to USP so we have also used the Reference standard involved in Specification shifting attached as Annex-1. We are submitting the following Supporting documents. 1) Raw Material Test Method 2) COA of Raw Material 3) Verification of Analytical Method 4) COA of Reference Standard used in shifting the specification.
02	Use of dual wavelengths for the analysis of single drug substance containing formulation.	The firm submitted that in dissolution chromatograms you can see at 210nm is the main peak of pregabalin, 300nm wavelength is not interfaring with pregabalin response, specificity chromatogram is submitted in AMV report. Method trail is also attached.
03	The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required	The firm submitted that as already communicated that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. Method trail is also submitted. In Chromatograms starting wavelength is mentioned which is 300nm.

Decision: Deferred for scientific justification of following points:

- **Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.**
- **Use of dual wavelengths for the analysis of single drug substance containing formulation.**
- **The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required**

907.	Name, address of Applicant / Marketing Authorization Holder	M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.
	Name, address of Manufacturing site.	M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.
	Status of the applicant	☒ Manufacturer

		☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted cGMP certificate issued on 13-05-2019 based on inspection conducted on 30-04-2019
	Evidence of approval of manufacturing facility	Firm has submitted copy of DML renewal letter No.F.1-8/84-Lic(Vol-V) dated 08-06-2022 which specifies Tablet section (General).
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 1309 dated 14-01-2022
	Details of fee submitted	Rs.75,000/- dated 30-12-2021 (Slip#20328944978)
	The proposed proprietary name / brand name	Gablin CR 165mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Pregabalin……..…165mg
	Pharmaceutical form of applied drug	Light brown colored, oblong biconvex film coated tablet
	Pharmacotherapeutic Group of (API)	Anti-epileptics
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	5's, 10's, 14's, 20's, 28's, 30's, 50's, 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR extended-release tablets (82.5mg, 165mg, 330 mg) by USFDA Approved.
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	M/s Kopran Research Laboratories Limited., K4/4, Additional MIDC, Post Birwadi, Tal. Mahad, District: Raigad, Raigad 402302, Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (PRG/P0904005, PRG/P0904006, PRG/P0904007)

	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator Lyrica CR 165mg Tablet distributed by M/s Parke-Davis Division of Pfizer Inc. NY, NY 10017, by performing quality tests (Description, Identification, Assay, Dissolution). CDP has been performed against the same brand that is Lyrica CR 165mg Tablet distributed by M/s Parke-Davis Division of Pfizer Inc. NY, NY 10017 in Acid media pH 1.2, acetate buffer pH 4.5 & Phosphate Buffer pH 6.8. The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Analytical method validation report is not submitted

STABILITY STUDY DATA

Manufacturer of API	M/s Kopran Research Laboratories Limited., K4/4, Additional MIDC, Post Birwadi, Tal. Mahad, District: Raigad, Raigad 402302, Maharashtra India.		
API Lot No.	PRGH/P2012004D		
Description of Pack (Container closure system)	Printed Alu-Alu blister packed in bleach board unit carton		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	PGB T2-21	PGB T3-21	PGB T4-21
Batch Size	1000 tab	1000 tab	1000 tab
Manufacturing Date	04-2021	04-2021	04-2021
Date of Initiation	05-2021	05-2021	05-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted License retention certificate dated 29-02-2020 of M/s Kopran Research Laboratories Limited., India., issued by Food & Drugs Administration Maharashtra State India valid upto 31-03-2025. Firm has submitted cGMP certificate dated 20-10-2020 of M/s Kopran Research Laboratories Limited., India., issued by Commissioner, Food & Drugs Administration Maharashtra State India valid upto 19-10-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP-393 dated 28-12-2020 for import of 100kg of Pregabalin (Batch# PRGH/P2012004D) in name of M/s CCL Pharmaceuticals (Pvt.) Ltd., attested by AD (I&E) DRAP Lahore dated 04-01-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.

	data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted DML renewal Inspection report conducted on 14.09.2020, 15.09.2020 and 21.10.2020 and panel has recommended renewal of DML for following sections; Tablet (General), Capsule (General), Oral Liquid, Dry Powder Suspension, Liquid Injectable & Capsule section (Steroid). • Firm has submitted Letter No. 8194/2022-DRAP (Addl.Dire) dated 07.07.2022 from Additional Director DRAP Lahore which states that; "The Firm has applied for GMP Inspection. The application is under process at DRAP Office and inspection will be done as per availability of Area FID. The firm's last GMP status is Compliant / Good.
1.5.2	• Clarification is required as you have applied for film coated tablets while the reference formulation is film coated extended release tablets or revise your label claim as per reference formulation along with submission of applicable fee.	The firm submitted that applied formulation is as per reference formulation i.e., film coated extended release that is evident from dissolution results. Label claim for product is: Each film coated extended-release tablet contain: Pregabalin…….165mg.
3.2.S.4	• Justification is required for claiming in-house specifications for drug substance by drug substance manufacturer and drug product manufacturer as the monograph for applied drug substance is available in pharmacopeia (BP, USP) • Justification is required for using in-house analytical method for drug substance by drug substance manufacturer and drug product manufacturer as the analytical method for applied drug substance is available in pharmacopeia (BP, USP) • Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the COA of Reference Standards or Materials states that it is to be used before 19-03-2016, while manufacturing date of drug substance as per submitted COA is Dec 2020.	• The firm submitted that Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house specs. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and drug product manufacturer are in process of shifting the specification as per USP Monograph. • The firm submitted Pregabalin Monograph has become official as of 01-Nov-2020, and the substance lot being used in developmental studies, manufactured in Dec 2020, that's why API manufacturer used in house analytical method. Moreover, Pregabalin is already inducted material for CCL. Both Drug substance manufacturer and Drug product manufacturer are in process of shifting the analytical method as per USP Monograph. • The firm submitted that provided COA of reference standard was taken from DMF. COA of working standard used for the analysis of drug substance is submitted which states that it is to be used before 11-07-2021**.**
3.2.P.2	• Submit evidence for storing samples prepared for compatibility study at 60˚C ± 3˚C / 75% ± 5%RH for 10 days	***The firm submitted record of data logger for temperature and humidity monitoring for sample prepared for compatibility study***

3.2.P.5	• Justification is required for changing wavelength during assay procedure in analytical method from 300nm to 210nm after 4.5 minutes • Submit analytical method validation report for the applied product	• The firm submitted that in product test method 300nm is used to suppress blank peak and the principal peak of pregabalin is around 5.1 that's why wavelength is changed at 210nm from 4.5min to onward. • Firm has submitted analytical method validation studies including specificity, linearity and range, accuracy, precision, LOD & LOQ, robustness and solution stability and system suitability studies.
3.2.P.6	• Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug product as the COA of Reference Standards or Materials states that it is to be used before 11-07-2021, while manufacturing date of drug product as per submitted COA is April 2021 and 3rd month time point and 6th month time stability study are due on July 2021 (07-2021) and October 2021 (10-2021).	• The firm submitted that same reference standard was used for analysis of drug product as the sequence / chromatograms against this standard was saved during trial analysis and same sequence / chromatograms of standard was used at 3rd and 6th Month stability study time point for analysis of drug product. It is to submit that the Reference Standards or Materials used for test and analysis of drug product was expired at 6th month time point (October 2021 (10-2021)) of stability study.
3.2.P.8	• The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required • Clarification is required for not including the results and calculation details for content uniformity test in raw data sheet at initial time point of stability study • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula shall be submitted • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	• The firm submitted that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. So in chromatogram starting wavelength is mentioned which is 300nm. • Firm has submitted results and calculation details for content uniformity test in raw data sheet at initial time point of stability study. • Raw data sheet for assay test with real time values for average area of sample, average area of standard, conc. of standard, conc. of sample, average weight, label claim and standard potency in calculation formula is submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Previous Decision (324-DRB): Deferred for scientific justification of following points:

- Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.
- Use of dual wavelengths for the analysis of single drug substance containing formulation.
- The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required

Response of firm:

Sr#	Observations	Response
01	Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.	The firm submitted that we have also used the reference standard submitted as Annex-1 for the analysis of Drug product at 6th Month Stability study time point. Moreover, as we were in phase of shifting the Specs of Raw Material from In-house to USP so we have also used the Reference standard involved in Specification shifting attached as Annex-1. We are submitting the following Supporting documents. 1) Raw Material Test Method 2) COA of Raw Material 3) Verification of Analytical Method

		4) COA of Reference Standard used in shifting the specification.
02	Use of dual wavelengths for the analysis of single drug substance containing formulation.	The firm submitted that in dissolution chromatograms you can see at 210nm is the main peak of pregabalin, 300nm wavelength is not interfaring with pregabalin response, specificity chromatogram is submitted in AMV report. Method trail is also attached.
03	The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required	The firm submitted that as already communicated that in product test method wavelength started from 300nm and then changed to 210nm after 4.5min. Method trail is also submitted. In Chromatograms starting wavelength is mentioned which is 300nm.

Decision: Deferred for scientific justification of following points:

- **Use of sequence / chromatograms of standard saved during initial time point analysis for the drug product analysis of 3rd and 6th Month stability study time point.**
- **Use of dual wavelengths for the analysis of single drug substance containing formulation.**
- **The wavelength mentioned in analytical procedure is 210nm for assay test while submitted chromatograms of stability study show 300nm, justification is required**
