	Detail of certificates attached	**Free sale:** Registered in Vietnam **for export use only** **GMP certificate:** For Non-Betalactam solutions (injection and Oral) and powder for oral use Issued by Ministry of Agriculture & Rural Development, Socialist Republic of Vietnam No. 17/16/GCN-GMP dt. **20-12-2016** Validity: 5 years (Copy attested by MOFA, Vietnam and Embassy of Pakistan, Vietnam) **Sole Distributor Contract/Agreement**

		Between the applicant & the **exporter**, M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. (Copy attested by MOFA, Vietnam and Embassy of Pakistan, Vietnam) Dt. 24-09-2020 Validity: 5 years **Contract Agreement:** Confirmation letter No. CL/HT-THQ/2021 dt. 19-02-2021 between the trading company/exporter, M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam & manufacturer, M/s ThienQuan Joint Stock Company, 39 Nguyen Huu Cau, Con Khuong, Cai Khe Ward, Ninh Kieu District, Can Tho City, Vietnam that all products of the exporter shall be produced by the manufacturer. (Scanned copy attached)
	Remarks of the Evaluator[xxiii]	• Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the provided FSC states that the applied product is registered in Vietnam for export use only. • Valid legalized GMP certificate of the manufacturer is required. • The address of manufacturer (M/s ThienQuan Joint Stock Company) mentioned on FSC and GMP certificate is different from the address given on Form 5A & contract agreement ((No. THQ-HT/2019 dt 13-12-2019) between manufacturer and distributor abroad (M/s HT Pharma Veterinary Import Export Ltd Liability Company); address of marketing authorization holder in the country of origin needs to be clarified. • Accelerated and Real time stability studies of applied formulation according to Zone IV-A are required • Finished Product Specifications are not provided. • Label is not in accordance with The Drugs (Labelling and Packing) Rules, 1986. • Differential fee of Rs. 75,000 is required. The afore-mentioned shortcomings were communicated to the applicant vide letter No. F.2-1/2023/PEC-DRAP (DD-PEC-XXIII) dated 17-07-2023. The reply of the firm was submitted vide Letter No. AHA/22-23/PEC-DRAP/001 dated 20-07-2023 whereby the applicant has submitted the following: • Clarification on their letterhead that the manufacturer abroad has informed them "that applied products are registered in Vietnam for their local and export business". • Scanned, non-legalized copy of valid GMP certificate of the manufacturer dated 28-04-2022 having validity for five years from the date of approval, *for production lines of Non-Beta Lactam in the forms of powder, granule for oral; liquid for oral; solution for injection and production line of Beta lactam in the forms of powder, granule for oral use.* • Clarification that the addresses of manufacturer i.e. M/s ThienQuin Joint Stock Company on GMP and Free Sales Certificate is the factory address whereas the address on Form 5A and contract agreement is the office address of

		the manufacturer abroad. Further, the applicant has clarified that the name & address of exporter/distributor abroad/marketing authorization holder i.e. M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. • Accelerated and long term stability studies report from the manufacturer. However, the reports are not signed by the manufacturer's representatives/qualified persons. • Finished product specifications containing reference (In-house or pharmacopoeial) for each parameter such as pH, assay etc. However, the applicant has not submitted the final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. • Revised label • Differential fee of Rs.75000 vide Deposit slip No. 09219320350. Following are still required from the applicant: • Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate. • Legalized copy of valid GMP certificate of the manufacturer. • Signed copy of stability study report of the applied formulation/product • Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc.
	Decision: Deferred for submission of the following: • **Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate.** • **Legalized copy of valid GMP certificate of the manufacturer.** • **Signed copy of stability study report of the applied formulation/product** • **Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. (Product monograph is available in USP).** **The Board further decided that the applicant shall submit the response within 1 month after publication of the minutes, .**

(Scanned copy attached)

	Remarks of the Evaluator[xxiii]	• Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the provided FSC states that the applied product is registered in Vietnam for export use only. • Valid legalized GMP certificate of the manufacturer is required. • The address of manufacturer (M/s ThienQuan Joint Stock Company) mentioned on FSC and GMP certificate is different from the address given on Form 5A & contract agreement ((No. THQ-HT/2019 dt 13-12-2019) between manufacturer and distributor abroad (M/s HT Pharma Veterinary Import Export Ltd Liability Company); address of marketing authorization holder in the country of origin needs to be clarified. • Accelerated and Real time stability studies of applied formulation according to Zone IV-A are required • Finished Product Specifications are not provided. • Label is not in accordance with The Drugs (Labelling and Packing) Rules, 1986. • Differential fee of Rs. 75,000 is required. The afore-mentioned shortcomings were communicated to the applicant vide letter No. F.2-1/2023/PEC-DRAP (DD-PEC-XXIII) dated 17-07-2023. The reply of the firm was submitted vide Letter No. AHA/22-23/PEC-DRAP/001 dated 20-07-2023 whereby the applicant has submitted the following: • Clarification on their letterhead that the manufacturer abroad has informed them "that applied products are registered in Vietnam for their local and export business". • Scanned, non-legalized copy of valid GMP certificate of the manufacturer dated 28-04-2022 having validity for five years from the date of approval, *for production lines of Non-Beta Lactam in the forms of powder, granule for oral; liquid for oral; solution for injection and production line of Beta lactam in the forms of powder, granule for oral use.* • Clarification that the addresses of manufacturer i.e. M/s ThienQuin Joint Stock Company on GMP and Free Sales Certificate is the factory address whereas the address on Form 5A and contract agreement is the office address of the manufacturer abroad. Further, the applicant has clarified that the name & address of exporter/distributor abroad/marketing authorization holder i.e. M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. • Accelerated and long term stability studies report from the manufacturer. However, the reports are not signed by the manufacturer's representatives/qualified persons. • Finished product specifications containing reference (In-house or pharmacopoeial) for each parameter such as pH, assay etc. However, the applicant has not submitted the final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. • Revised label

		• Differential fee of Rs.75000 vide Deposit slip No. 528225379. Following are still required from the applicant: • Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate. • Legalized copy of valid GMP certificate of the manufacturer. • Signed copy of stability study report of the applied formulation/product • Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc.
	Decision: Deferred for submission of the following: • **Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country as the initially provided FSC states that the applied product is registered in Vietnam for export use only. 		No. 17/16/GCN-GMP dt. **20-12-2016** Validity: 5 years (Copy attested by MOFA, Vietnam and Embassy of Pakistan, Vietnam) **Sole Distributor Contract/Agreement** Between the applicant & the **exporter**, M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. (Copy attested by MOFA, Vietnam and Embassy of Pakistan, Vietnam) Dt. 24-09-2020 Validity: 5 years **Contract Agreement:** Confirmation letter No. CL/HT-THQ/2021 dt. 19-02-2021 between the trading company/exporter, M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam & manufacturer, M/s ThienQuan Joint Stock Company, 39 Nguyen Huu Cau, Con Khuong, Cai Khe Ward, Ninh Kieu District, Can Tho City, Vietnam that all products of the exporter shall be produced by the manufacturer. (Scanned copy attached)
	Remarks of the Evaluator[xxiii]	• Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the provided FSC states that the applied product is registered in Vietnam for export use only. • Valid legalized GMP certificate of the manufacturer is required *for the relevant section/production line i.e. Cephalosporin Injectables* • The address of manufacturer (M/s ThienQuan Joint Stock Company) mentioned on FSC and GMP certificate is different from the address given on Form 5A & contract agreement ((No. THQ-HT/2019 dt 13-12-2019) between manufacturer and distributor abroad (M/s HT Pharma Veterinary Import Export Ltd Liability Company); address of marketing authorization holder in the country of origin needs to be clarified. • Accelerated and Real time stability studies of applied formulation according to Zone IV-A are required • Finished Product Specifications are not provided. • Label is not in accordance with The Drugs (Labelling and Packing) Rules, 1986. • Differential fee of Rs. 75,000 is required. The afore-mentioned shortcomings were communicated to the applicant vide letter No. F.2-1/2023/PEC-DRAP (DD-PEC-XXIII) dated 17-07-2023. The reply of the firm was submitted vide Letter No. AHA/22-23/PEC-DRAP/001 dated 20-07-2023 whereby the applicant has submitted the following: • Clarification on their letterhead that the manufacturer abroad has informed them "that applied products are registered in Vietnam for their local and export business". • Scanned, non-legalized copy of valid GMP certificate of the manufacturer dated 28-04-2022 having validity for five years from the date of approval, *for production lines of Non-Beta Lactam in the forms of powder, granule for oral; liquid for oral; solution for injection and production*

		line of Beta lactam in the forms of powder, granule for oral use. • Clarification that the addresses of manufacturer i.e. M/s ThienQuin Joint Stock Company on GMP and Free Sales Certificate is the factory address whereas the address on Form 5A and contract agreement is the office address of the manufacturer abroad. Further, the applicant has clarified that the name & address of exporter/distributor abroad/marketing authorization holder i.e. M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. • Accelerated and long term stability studies report from the manufacturer. However, the reports are not signed by the manufacturer's representatives/qualified persons. • Finished product specifications containing reference (In-house or pharmacopoeial) for each parameter such as pH, assay etc. However, the applicant has not submitted the final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. • Revised label • Differential fee of Rs.75000 vide Deposit slip No. 5425865744. Following are still required: • Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate. • Legalized copy of valid GMP certificate of the manufacturer *for the relevant manufacturing facility/production line i.e. Cephalosporin Injectables*. • Signed copy of stability study report of the applied formulation/product • Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc.
	Decision: Deferred for submission of the following: • **Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate.** • **Legalized copy of valid GMP certificate of the manufacturer *for the relevant manufacturing facility/production line i.e. Cephalosporin Injectables*.** • **Signed copy of stability study report of the applied formulation/product** • **Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. (Product monograph is available in USP).** **The Board further decided that the applicant shall submit the response within 1 month after publication of the minutes, .**

		• Label is not in accordance with The Drugs (Labelling and Packing) Rules, 1986. • Differential fee of Rs. 75,000 is required. The afore-mentioned shortcomings were communicated to the applicant vide letter No. F.2-1/2023/PEC-DRAP (DD-PEC-XXIII) dated 17-07-2023. The reply of the firm was submitted vide Letter No. AHA/22-23/PEC-DRAP/001 dated 20-07-2023 whereby the applicant has submitted the following: • Clarification on their letterhead that the manufacturer abroad has informed them "that applied products are registered in Vietnam for their local and export business". • Scanned, non-legalized copy of valid GMP certificate of the manufacturer dated 28-04-2022 having validity for five years from the date of approval, *for production lines of Non-Beta Lactam in the forms of powder, granule for oral; liquid for oral; solution for injection and production line of Beta lactam in the forms of powder, granule for oral use.* • Clarification that the addresses of manufacturer i.e. M/s ThienQuin Joint Stock Company on GMP and Free Sales Certificate is the factory address whereas the address on Form 5A and contract agreement is the office address of the manufacturer abroad. Further, the applicant has clarified that the name & address of exporter/distributor abroad/marketing authorization holder i.e. M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. • Accelerated and long term stability studies report from the manufacturer. However, the reports are not signed by the manufacturer's representatives/qualified persons. • Finished product specifications containing reference (In-house or pharmacopoeial) for each parameter such as pH, assay etc. However, the applicant has not submitted the final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. • Revised label • Differential fee of Rs.75000 vide Deposit slip No. 2515097727. Following are still required: • Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate. • Legalized copy of valid GMP certificate of the manufacturer along with clarification from the issuing authority whether the facility for manufacturing Beta Lactam drugs is dedicated for the manufacturing of penicillins, as required under The Drugs (L,R,A) Rules, 1976.

		• Signed copy of stability study report of the applied formulation/product • Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc.
	Decision: Deferred for submission of the following: • **Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate.** • **Legalized copy of valid GMP certificate of the manufacturer along with clarification from the issuing authority whether the facility for manufacturing Beta Lactam drugs is dedicated for the manufacturing of penicillins, as required under The Drugs (L,R,A) Rules, 1976.** • **Signed copy of stability study report of the applied formulation/product** • **Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. (Product monograph is available in USP).** **The Board further decided that the applicant shall submit the response within 1 month after publication of the minutes, .**

	Detail of certificates attached	**Free sale:** Registered in Vietnam **for export use only**

		GMP certificate: For Non-Betalactam solutions (injection and Oral) and powder for oral use Issued by Ministry of Agriculture & Rural Development, Socialist Republic of Vietnam No. 17/16/GCN-GMP dt. **20-12-2016** Validity: 5 years (Copy attested by MOFA, Vietnam and Embassy of Pakistan, Vietnam) **Sole Distributor Contract/Agreement** Between the applicant & the **exporter**, M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. (Copy attested by MOFA, Vietnam and Embassy of Pakistan, Vietnam) Dt. 24-09-2020 Validity: 5 years **Contract Agreement:** Confirmation letter No. CL/HT-THQ/2021 dt. 19-02-2021 between the trading company/exporter, M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam & manufacturer, M/s ThienQuan Joint Stock Company, 39 Nguyen Huu Cau, Con Khuong, Cai Khe Ward, Ninh Kieu District, Can Tho City, Vietnam that all products of the exporter shall be produced by the manufacturer. (Scanned copy attached)
	Remarks of the Evaluator[xxiii]	• Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the provided FSC states that the applied product is registered in Vietnam for export use only. • Valid legalized GMP certificate of the manufacturer is required. • The address of manufacturer (M/s ThienQuan Joint Stock Company) mentioned on FSC and GMP certificate is different from the address given on Form 5A & contract agreement ((No. THQ-HT/2019 dt 13-12-2019) between manufacturer and distributor abroad (M/s HT Pharma Veterinary Import Export Ltd Liability Company); address of marketing authorization holder in the country of origin needs to be clarified. • Accelerated and Real time stability studies of applied formulation according to Zone IV-A are required • Finished Product Specifications are not provided. • Label is not in accordance with The Drugs (Labelling and Packing) Rules, 1986. • Differential fee of Rs. 75,000 is required. The afore-mentioned shortcomings were communicated to the applicant vide letter No. F.2-1/2023/PEC-DRAP (DD-PEC-XXIII) dated 17-07-2023. The reply of the firm was submitted vide Letter No. AHA/22-23/PEC-DRAP/001 dated 20-07-2023 whereby the applicant has submitted the following: • Clarification on their letterhead that the manufacturer abroad has informed them "that applied products are registered in Vietnam for their local and export business". • Scanned, non-legalized copy of valid GMP certificate of the manufacturer dated 28-04-2022 having validity for

		five years from the date of approval, *for production lines of Non-Beta Lactam in the forms of powder, granule for oral; liquid for oral; solution for injection and production line of Beta lactam in the forms of powder, granule for oral use.* • Clarification that the addresses of manufacturer i.e. M/s ThienQuin Joint Stock Company on GMP and Free Sales Certificate is the factory address whereas the address on Form 5A and contract agreement is the office address of the manufacturer abroad. Further, the applicant has clarified that the name & address of exporter/distributor abroad/marketing authorization holder i.e. M/s HT Pharma Veterinary Import Export Limited Liability Company, 69 Hung Vuong, Thoi Binh Ward, Ninh Kieu District, Can Tho City, Vietnam. • Accelerated and long term stability studies report from the manufacturer. However, the reports are not signed by the manufacturer's representatives/qualified persons. • Finished product specifications containing reference (In-house or pharmacopoeial) for each parameter such as pH, assay etc. However, the applicant has not submitted the final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. • Revised label • Differential fee of Rs.75000 vide Deposit slip No. 79682450386. Following are still required: • Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country is required, as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate. • Legalized copy of valid GMP certificate of the manufacturer. • Signed copy of stability study report of the applied formulation/product • Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. (Product monograph is available in USP)

	Decision: Deferred for review of Sub-committee on Veterinary Drugs regarding therapeutic requirement keeping in view safety, efficacy and quality parameters, and for submission of the following: • **Free Sales Certificate for the applied product in the country of origin attested by the Embassy of Pakistan in that country as the initially provided FSC states that the applied product is registered in Vietnam for export use only. Moreover, the clarification against the FSC is provided by the applicant whereas it should be provided by the issuing authority of the Free Sales Certificate.** • **Legalized copy of valid GMP certificate of the manufacturer.** • **Signed copy of stability study report of the applied formulation/product** • **Final specifications of the finished product i.e. whether the finished product conforms to In-house Specifications or USP, BP, JP Specifications etc. (Product monograph is available in USP).** **The Board further decided that the applicant shall submit the response within 1 month after publication of the minutes, .**

	The proposed proprietary name / brand name	SinaDoxosome 20mg/ 10ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	(Injectable Nanoliposomal Doxorubicin Hydrochloride) Each 10ml Vial Contains: Doxorubicin HCl…….20mg
	Pharmaceutical form of applied drug	Powder for injection
	Pharmacotherapeutic Group of (API)	L01DB01 — Anthracycline topoisomerase inhibitor
	Reference to Finished product specifications	United States Pharmacopeia
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Approved by US FDA
	For generic drugs (me-too status)	Doxulip 20mg Injection of M/s Revive Pharmakon, Lahore (Reg.087684)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	M/s Synbias Pharma ltd., Kreplischikov Street 181, 83085, Donetsk, Ukraine. Firm has submitted copy of GMP certificate (Certificate No. SD20150377) issued by Shandong Food and Drug Administration in the name of M/s Shandong Luoxin Pharmaceutical Group Hengxin Pharmaceutical Co., Ltd.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 25°C ± 2°C / 60 ± 5% RH for 24 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation report, control of excipients, control of

		drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Comparative analysis Studies against the reference product of Caelyx injection has been submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies of the drug product.
	Container closure system of the drug product	Type I glass vial
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 25ºC ±2ºC / 60% ± 5% RH for 6 months. The real time stability study data is conducted at 5ºC ±3ºC for 18 months.

Remarks of Evaluator:

Section#	Observations	Firm's response
	A contract agreement has been submitted b/w Nano Daru Pajuhan Pardis Iran and Genetech Laboratories Karachi. This need to be clarified because another sole agency authorization in your name has also been submitted by the manufacturer i.e. M/s Exirnanosina Company.	
1.3.5	Copy of valid DSL of the applicant shall be submitted.	
1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form in one of the reference regulatory authority specified by Registration Board shall be submitted.	
2.3	Information submitted in Table for literary references for drug product is not correct. Revised information shall be submitted along with reference from pharmacopoeia.	
3.2.S.2.1	Details of drug substance manufacturer declared in section 1.6.5 are different from that declared in section 3.2.S.2.1.	
3.2.S.4.1	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by M/s Exirnanosina shall be submitted.	
3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the M/s Exirnanosina) shall be submitted.	
3.2.S.4.4	Provide results of analysis of relevant batch(es) of Drug Substance performed by M/s Exirnanosina used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance /Active Pharmaceutical Ingredient manufacture.	
3.2.P.1	Qualitative composition of applied formulation is different from that of the innovator drug product. Clarification shall be submitted in this regard.	
3.2.P.2.2.1	Justification shall be submitted for the limit &	

	results of pH test applied in Pharmaceutical equivalence studies with reference to pharmacopoeial monograph.	
3.2.P.2.5	Submit compatibility studies with the proposed diluent for dilution.	
3.2.P.3.2	Qualitative composition of applied formulation is different from that of the innovator drug product. Clarification shall be submitted in this regard.	
3.2.P.5.1	• Justification need to be submitted for referring the USP monograph because the applied liposomal formulation is not available in the same. • Justification shall be submitted for the limit of pH test with reference to Innovator product • Justification shall be submitted for not including test of related substance in drug product specifications with reference to pharmacopoeial monograph. • Justification shall be submitted for variation of limit of Endotoxin test with reference to Innovator product .	
3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.	
3.2.P.8.3	• Justification shall be submitted for the limit & results of pH test reported in the stability studies. • Justification shall be submitted for not performing test of related substances in stability studies. • Significant change in the results of Assay test has been reported in the accelerated stability studies of batch no. SD00209601. Justification shall be submitted in this regard. • Out of specification results for of Assay test has been reported in the accelerated stability studies of batch no. SD00209602. Justification shall be submitted in this regard. • Long term stability studies of 18months has been submitted only whereas long term stability study shall be submitted till claimed shelf life.	

Decision: Deferred for submission of above cited shortcomings.

	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 12726 dated 23.05.2023
	Details of fee submitted	PKR /-: 75000/- dated 12.05.2023
	The proposed proprietary name / brand name	**TAGRISSO 80mg Film Coated Tablets**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Osemertinib as Mesylate …..80mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Antineoplastic agent: Protein Kinase Inhibitor ATC Code: L01EB04
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	Pack of 30's
	Proposed unit price	To be submitted at the time of price fixation
	The status in reference regulatory authorities	EMA (EEA), PMDA Japan, USFDA
	For generic drugs (me-too status)	Not available
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per Module II.
	Name, address of drug substance manufacturer	Lonza AG Lonzastrasse 3930 Visp Switzerland & Dottikon Exclusive Synthesis AG Hembrunnsstrasse 17

		5605 Dottikon Switzerland
	Module-III Drug Substance:	Firm has submitted drug substance data for sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, flow diagram of manufacturing process and controls, impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 commercial batches of API stored at long-term, accelerated and stressed (thermal and photolytic) storage conditions. The stability study data is till 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, method validation studies, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not applicable
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Type I Glass Vial 10ml Type I Glass Ampoule
	Stability study data of drug product, shelf life and storage conditions	Firm has stability data at following conditions: 25°C/60% RH real time for 36 months 30°C/75% RH real time for 36 months 40°C/75% RH accelerated conditions for 6 months Based on above 36-month, a shelf-life is applied by the firm for Tagrisso 80mg film-coated tablets when stored in Alu foil-foil blister packs. The following product labelling should be used: 'Store below 30°C'.

	Name of exporting country	Ireland
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized **copy** of CoPP certificate (No. 10/22/176156) dated 28-10-2022 issued by European Medicine Agency (EMA) for NURTEC Oral Lyophilisate (Rimegepant) 75mg. The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection on risk-based approach.
	Details of letter of authorization / sole agency agreement	Firm has submitted letter of authorization from MAH to register their products in Pakistan.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No.
	Details of fee submitted	PKR 75,000/-: 04-11-2022
	The proposed proprietary name / brand name	**NURTEC Oral Lyophilisate (Rimegepant) 75mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each oral lyophilizate contains Rimegepant sulfate, equivalent to 75mg Rimegepant
	Pharmaceutical form of applied drug	Oral Lyophilisate
	Pharmacotherapeutic Group of (API)	Analgesics, calcitonin gene-related peptide (CGRP) antagonists, ATC code: N02CD06
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	2x1 (unit dose), 8x1 (unit dose) & 16x1 (unit dose),

	Proposed unit price	To be submitted later to Pricing Section for fixation of prices.
	The status in reference regulatory authorities	NURTEC Oral Lyophilisate 75mg **(USFDA, EMA & MHRA** Approved).
	For generic drugs (me-too status)	Not Applicable – Originator Product
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product
	Name, address of drug substance manufacturer	Anthem Biosciences Private Limited (Unit-1) No. 49, F1 & F2 Canara Bank Road Bommasandra Industrial Area, Phase I Bommasandra, Bengaluru, Karnataka 560099 India
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. Based on the stability data available from long-term and accelerated storage and as per ICH Q1E, the proposed retest period for the drug substance is 48 months, when stored in the intended container closure system at 20 to 25 °C with excursions permitted from 15 to 30 °C.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not Applicable
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	The drug product container closure is a perforated unit dose blister system consisting of a five-layer blister film, heat-sealed with an aluminium lidding foil. Only the PVC (polyvinyl chloride) layer of the film and the heat seal layer of the foil come into direct contact with the dosage form. The aluminium layer of the foil prevents the printing ink from interacting with the

		dosage form.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted the stability protocol and testing regime for the GMP registration batches, and process validation batches. The stability studies include standard ICH conditions: 25 °C/60% RH, 30 °C/65% RH (optional, intermediate storage condition), 30 °C/75% RH, and 40 °C/75% RH. Based on the available long-term stability data on clinical and registration batches mentioned above, the Applicant proposes a shelf-life of 48 months.

Administrative Portion

	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate of Paracetamol No. 83/2020-DRAP(K) issued by DRAP Karachi valid till 23/06/2022. Copy of DML of Diphenhydramine HCl License No. 25-KD/129 issued by Food And Drug Administration Maharashtra valid till 31/03/2023.
	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted the following documents for the procurement of API with approval from DRAP. • **Paracetamol** Copy of commercial invoice No. PRT/2019/0179 dated 11/03/2019 is submitted. • **Diphenhydramine HCl** Copy of DML of Diphenhydramine HCl commercial invoice No. SLL/EXP/794/15-16 dated 06/11/2015 is submitted.
	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Decision: Approved

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 32071 dated 23.11.2021
	Details of fee submitted	PKR /-: 150000/- dated 02.11.2021
	The proposed proprietary name / brand name	**SALBIN INHALER**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	One metered dose contains: Salbutamol Sulpahte equivalent to 100 micrograms salbutamol.
	Pharmaceutical form of applied drug	Pressurized Inhalation Solution
	Pharmacotherapeutic Group of (API)	Selective beta 2 adrenoceptor agonists/ Bronchodilator
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	Pack of 1 Vial and 1ampoule of 10ml
	Proposed unit price	Rs. 268 for 1's
	The status in reference regulatory authorities	Salamol CFC-Free Inhaler (MHRA)
	For generic drugs (me-too status)	Ventolin Inhaler
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per Module II.
	Name, address of drug substance manufacturer	M/s Heilongjiang Province Fulekang Pharmaceutical Co., Ltd., No. 3 Yingbin St. NiuJia Industrial Park South Industrial City Harbin China.
	Module-III Drug Substance:	Firm has submitted drug substance data for sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, flow diagram of manufacturing process and controls, impurities,

		specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 25°C ± 2°C / 60 ± 5% RH for 60 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, method validation studies, batch analysis, justification of specifications, reference standard or materials, container closure system and stability. Further the firm has submitted the aerodynamic assessment studies as per BP monograph requirement by Anderson Cascade Impactor.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is performed with Chinese product manufactured by Shangdong Jewin Pharmaceutical Co., Ltd China.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Aluminum Aerosol Cans & Medicinal Aerosol Valve Package
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. Accelerated stability studies have been conducted at 40°C±2°C and 75%±5% RH for 6 months. Real time stability studies conducted at 30°C±2°C and 65% ± 5% for 36 months
	Decision in 323rd meeting: Deferred for submission of pharmaceutical equivalence with the Innovator.	
Remarks: The firm has submitted pharmaceutical equivalence studies with the Innovator i.e. Salbutamol Sulpahte Inhaler of GSK.		
Decision: Approved as per policy of inspections of manufacturer abroad.		

Agenda of Deputy Director (PE&R) (Mr. Salateen Waseem Philip)

	accelerated)	

Remarks of the Evaluator:

Observations	Reply of the firm
3.2.P.2.2.1 As per SPC of Latuda 40 mg tablet available on MHRA UK, each film-coated tablet contains lurasidone hydrochloride 40 mg equivalent to 37.2 mg lurasidone. Please justify that why the quantity of lurasidone hydrochloride 40.952mg / tablet in the composition of your applied formulation? Why carnuba wax is not in the composition of your product while it's available in the innovator product for film coating of tablets along with Opadry®?	There is a typographical error while mentioning the quantity of Lurasidone HCl in composition Section. The correct quantity has been used in the formulation with calculation as follows: **For 40mg eq. to 37.24 x 1.074 = 40 mg** Molecular weight of Lurasidone HCl is 529.14 Molecular weight of Lurasidone is 492.68 For coating, we have used the ingredients (PEG/Macrogol, HPMC & Titanium oxide) same as innovator brand available in UK with rand name of Latuda and the batch is pilot scale so we will use carnauba wax while manufacturing commercial batches. **Remarks of Evaluator:** The composition of applied formulation is same as per innovator brand composition provided on European medicine agency's assessment report **EMA/59804/2021 dated 23-07-2021.**
3.2.P.8 Please justify that why pharmaceutical equivalence studies and comparator dissolution profie have been done with local brand **Lurisa** instead of innovator brand **Latuda?**	Innovator brand **Latuda** is not available in Pakistan. Therefore, **Lurisa tablet** by M/s Helix, which is a registered drug product from DRAP, has been used for CDP and product development.

Decision: Approved with Innovator's specifications. Registration letter will be issued after submission of applicable fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Decision of Board in 322nd meeting:
Registration Board deferred the case for submission of reply to the shortcomings within six months.

Shortcomings highlighted in 322nd meeting of RB

Observation	Reply of firm
1.3.5 Firm has provided GMP certificate based on the inspection and evaluation conducted on 30-09-2019. Which is valid until 29-09-2021. Valid GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be provided.	GMP certificate valid up to 14th February 2025.
1.5.2. Firm has mentioned label claim Lurisadone Hydrochloride …85.904 mg (Equivalent to Lurisadone ….80 mg). However, Innovator is using Lurisadone Hydrochloride…. 80 mg. Justification required.	Firm has corrected the typographical mistake and submitted the label claim as product available in RRA as under: Each film coated tablet contains: Lurasidone Hydrochloride 80 mg Equivalent to Lurasidone ..…74.5mg
1.6.5 Provided GMP Certificates of Drug Substance manufacturer is not traceable. Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin shall be provided.	**Lurasidone HCl** M/s Jiangsu Yongan Pharmaceutical Co. Ltd. No. 18, 237 Provincial Road, Economic Development Zone, Huaian, Jiangsu, China **GMP Certificate valid till 14/01/2024**
3.2.P.2 As the qualitative composition of the formulation is not similar to innovator / reference product compatibility studies of the Drug Substance(s) with excipients shall be provided.	The composition of applied formulation is same as per innovator brand composition provided on European medicine agency's assessment report **EMA/59804/2021 dated 23-07-2021.**
3.2.S.4 In Analytical method of Drug Substance is missing along with Method Validation. Justification required for changing the method.	Submitted
3.2.S.4. Analytical Method validations studies for drug substances performed by Drug product manufacturer are missing.	Submitted
3.2.S.7. Data of real time stability of drug substances is provided for 12 months only. Whereas as per certificate of analysis firm is claiming shelf life of 02 years. Data for real time stability studies shall be submitted.	Submitted
3.2.P.2.2.1 Justification shall be submitted for not performing Pharmaceutical equivalence studies & CDP against the innovator product.	Innovator brand **Latuda** is not available in Pakistan. Therefore, **Lurisa tablet** by M/s Helix, which is a registered drug product from DRAP, has been used for CDP and product development.
• **3.2.P.8.1**In Stability Studies Batch size is 0.230 kg. Justification required. • In batch no. T-001, significant change of more than 5 % in assay has been observed in accelerated and real time stability data sheets.	Firm has re-submitted stability data sheet after correction of typographical error.
3.2.P.8.3 Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	Submitted. The firm has label claim of lurasidone HCl ……80mg

Decision: Approved with Innovator's specifications. Registration letter will be issued after submission

of applicable fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
1055.	**Contract Manufacturing**

	Name, address of Manufacturing site.	M/s Bio-Lab (Pvt) Ltd Plot # 145, Industrial triangle, kahuta road Islamabad Pakistan
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ **Is involved in none of the above (contract giver)**
	GMP status of the firm	GMP certificate of **M/s Bio-Lab (Pvt) Ltd** Valid up to 02-08-2023
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of section dated 24-03-2015 specifying Capsule (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ **Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ **Domestic and Export sales**
	Dy. No. and date of submission	dated 06-05-2021
	Details of fee submitted	**PKR 50,000/- Dated 18-05-2020**
	The proposed proprietary name / brand name	**Someper 20mg Capsules**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Esomeprazole magnesium trihydrate eq. to esomeprazole……..20mg
	Pharmacotherapeutic Group of (API)	Proton pump Inhibitor
	Pharmaceutical form of applied drug	White to off white enteric coated pellets filled in hard gelatin capsules
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	2 x 7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Esomeprazole Capsules (USFDA Approved)
	For generic drugs (me-too status)	Nexum Capsules of M/s Getz Pharma, Karachi (Reg.No. 033890)
	Name and address of API manufacturer.	**M/s Vision Pharmeuticals (Pvt) Ltd, Islamabad.**
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing

		process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Esocue 20mg manufactured by Sandoz Novartis (Pakistan) Ltd. Firm has submitted CDP results of their product against the innovator's product **Esocue 20mg** in 3 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last Product Specific Inspection of the firm was conducted for Biozodex Capsules for which the inspection was conducted on 11-03-2020 and the report was presented in 294th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Area, equipment , personnel & utilities are as per GMP Compliance
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. F.3-26/2019) dated 31-071-2019 issued by Drug Regulatory Authority of Pakistan. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared on 04-03-2018 specifying 50Kg of Esomeprazole Magnesium pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Shortcomings	Reply of firm
Copies of the Drug Substance specifications and analytical procedures used for routine testing of the drug substance by both drug substance & drug product manufacturers.	Submitted
Analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product Manufacturer for both compendial as well as non-compendial drug substance shall be submitted.	Submitted
Pharmaceutical equivalence Studies does not include complete testing of the drug product and the comparator product including the test recommended by innovator product as well as the tests recommended in general monographs of official pharmacopeia.	Submitted with complete tests as mentioned in monograph of USP specification.
Description of process validation including the proposed protocol shall be described in modules 2.3.P.3.5 and 3.2.P.3.5	Submitted
GMP inspection report of applicant	Submitted
Specification of drug product doesn't contain tests as recommended by USP monograph.	Submitted with complete testing

Justify analytical method based on UV spectrophotometric method for assay testing of omeprazole capsule while that mentioned in USP it is based on HPLC.	Data of chromatograms Submitted
Evidence of procurement of omeprazole pellets from local source required.	Submitted

Decision: Approved.

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last Product Specific Inspection of the firm was conducted for Biozodex Capsules for which the inspection was conducted on 11-03-2020 and the report was presented in 294th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Area, equipment , personnel & utilities are as per GMP Compliance
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. F.3-26/2019) dated 31-071-2019 issued by Drug Regulatory Authority of Pakistan. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared on 04-03-2018 specifying 50Kg of Esomeprazole Magnesium pellets.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Heb Name: Zhejiang Ruibang Pharmaceutical Co., Ltd. Address: No. 578 Binhai ten road, Economic and Technological Development Zone, Wenzhou, Zhejiang, China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 25 ℃±2. The stability study data is till 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence	submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	USP type-I glass ampoule
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30ºC ±2ºC / 65% ± 5% RH. The real time stability study data of 2 batches is for 12 months while the stability study data for 3rd batch is for 9 months only.
Evaluation by PEC:		
3.2.P.1 In the innovator product and other formulations approved in USFDA with BP specifications for FPP, each 10 ml of solution contains 940 or 950 mg of calcium gluconate, with an amount of calcium in		

the form of Calcium Saccharate, or other suitable calcium salts, for the purpose of stabilization. While in the formulation submitted by the manufacturer of applied drug product, each 10 ml of solution contains 1g of calcium gluconate and also containing calcium hydroxide. How will you justify the amount of calcium is not exceeding 1g in the formulation? What is the role of sodium gluconate in the formulation? Please also provide reference of product with same formulation and composition approved in countries with stringent regulatory control declared by WHO. **3.2.P.2.7** Please provide brand name of the medicinal product, formulation / composition and the address of manufacturer of the reference product used in Pharmaceutical equivalence studies.		
Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	Pharmacotherapeutic Group of (API)	Calcium Salt
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	05 ampoules per pack 10 ampoules per pack 50 ampoules per pack
	Proposed unit price	PKR 1162.55/- per pack of 05 ampoules. PKR 2235.096/- per pack of 10 ampoules. PKR 11,160.48/- per pack of 50 ampoules.
	The status in reference regulatory authorities	*USFDA* approved formulation
	For generic drugs (me-too status)	Formulation approved for M/s Surge
	GMP status of the Finished product manufacturer	**GMP certificate valid till 13-02-2025**
	Name and address of API manufacturer.	**Calcium Gluconate** M/s Lianyungang Zhonghong Chemical Co. Ltd. Area B, Guannan Economic Development Zone, Lianyungang, Jiangsu, China

		GMP Certificate valid till 23-07-2023
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Stability study conditions**: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the **comparator product i.e Calcium Gluconate injection** by performing quality tests (appearance, identification, pH , Assay, BET, Sterility test).
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	**Calcium Gluconate** M/s Lianyungang Zhonghong Chemical Co. Ltd. Area B, Guannan Economic Development Zone, Lianyungang, Jiangsu, China.		
API Lot No.	21051202		
Description of Pack (Container closure system)	Clear glass ampoule, with red printing and red ring, arrange in PVC tray and packed in Bleach card unit box with leaflet.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.	**CG-0121**	**CG-0221**	**CG-0321**

Batch Size	100 Ampoules	100 Ampoules	100 Ampoules
Manufacturing Date	12/2021	12/2021	12/2021
Date of Initiation	01/01/2022	01/01/2022	01/01/2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	3028/2021-DRAP dated 31-08-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Observations	Reply of the firm
1.3.4 Please submit latest inspection report conducted within last 03 years **OR** fresh / valid GMP certificate of your manufacturing unit which should be in force till date.	Submitted
3.2.P.1.2 The strength/amount of API mentioned in your applied formulation doesn't match with the reference product.	Firm has provided reference product (MHRA product) with same formulation.
3.2.P.2.3 Please submit in tabulated form the results of all the quality tests mentioned in **USP Specifications** for the Pharmaceutical equivalence studies of the applied drug established with the innovator / reference / comparator product.	Submitted
3.2.P.3.2 Please justify the use of overage of 3% of API in the drug product.	We hereby declare overage in documents is typo error. We are and will not use overage in trial batches as well commercial scale batches.

Decision: Approved.

• **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Shortcomings communicated to firm

Observations	Reply of the firm
1.5.6 The monograph of finished Pharmaceutical product is available in USP while firm has applied with Innovator specification. Therefore, firm is required to follow official pharmacopeia monograph ***(USP Specification)*** and submit the monograph accordingly along with requisite fee of PKR 7500/- for change of specifications.	Our product, Cholystyrene 4 gm Sachet (Cholestyramine), is developed according to the USP official Pharmacopeia monograph (the analytical procedure is attached for your reference), but in 1.5.6 there is a typo error, and moreover, we have submitted a deposit slip number of **866577032884** for an update of specification.

Remarks of the Evaluator:
The deposit slip number **866577032884** is a fee submission for Licensing Division dated 31-01-2022 while firm is required to submit a fresh fee for the purpose of change of specification of cholstyrene Sachet.

Observations	Reply of the firm
3.2.P.2.1.2 Please Justify that why Acacia,	In accordance with the public assessment report

Xanthan Gum & Propylene Glycol Alginate are not in the applied formulation while same are in the composition of the reference product **Questran.** The list of excipients in Questran are as follows: **Acacia, Citric acid anhydrous, Flavours, Polysorbate 80 Propylene glycol alginate & Sucrose.**	**(PL 18153/0004)** of cholstyramine 4g powder for oral suspension issued by the **Medical and Health Products Regulatory Agency, United Kingdom (UK)** the following excipients are recommended: aspartame, citric acid, silica, colloidal anhydrous, natural orange flavor, propylene glycol alginate, and xanthan gum. Moreover, we have selected these excipients after different trials, and it has been observed that trials with them produced the satisfactory physical and analytical results.

Remarks of the Evaluator:

It is pertinent to mention here that in **Section 1.5.9** of CTD, the applicant initially provided the reference product approved by USFDA for which, formulation / composition is totally different as compared to applied formulation of firm.

However, in the reply of the firm for the shortcomings, the reference product has been changed and now it is MHRA approved product. However, the formulation of applicant is still not matching with the formulation of reference product **(PL 18153/0004)** issued by MHRA. The details of the excipients in MHRA's approved reference product and applied formulation of firm are as under: -

Reference product	Applicant's product
Cholestyramine Aspartame Citric acid Silica, colloidal anhydrous Natural orange flavor Propylene glycol alginate Xanthan gum	Cholestyramine Sucrose 40 mesh Aspartame Citric Acid Anhydrous Orange flavor Colloidal Silicon Dioxide

During evaluation of **Section 3.2.P.2.2.1** of application for Formulation development, it has been observed that applicant manufactured two trials batches.

The trial batch with composition same as compared to **Questran** *(reference product)* was rejected by applicant due to high viscosity and pH. **Xanthan Gum** is the suspending agent in the formulation for viscosity.

While the batch selected by applicant to produce stability batches doesn't contain **Xanthan Gum** but contain **Aspartame** as a suspending agent to control viscosity. It is pertinent to mention here that **Aspartame** is used in Pharmaceuticals and Foods as a **Sweetener** while firm is claiming it as a suspending agent.

Applicant's formulation contains both **Sucrose and Aspartame.** Firm needs to clarify that

i. Why sucrose has been made part of formulation when Aspartame is 200 times more sweetener than sucrose?
ii. Please provide evidence and references for Aspartame to be used as suspending agent.
iii. Please justify how Aspartame can replace xanthan gum and Propylene glycol alginate to control viscosity?
iv. Why the rejected trial batch, whose composition was same as compared to **Questran** being not modified / revised to get formulation with preferred viscosity and pH?

Observations	Reply of the firm
3.2.P.7 QUESTRAN ® (Cholestyramine for Oral Suspension USP) is available as four grams of anhydrous cholestyramine resin contained in 9 grams of QUESTRAN Powder sachet **and include a 15 cc scoop**. Please clarify that why 15cc scoop has not been made part of your applied drug product?	**Questran** is available in four grams of anhydrous Cholestyramine resin contain nine grams of Questran Powder. Since this is a sachet, a scoop is not necessary.

Remarks of the Evaluator:
As per justification given by applicant it is clear that each sachet of 9gm contains one dose of cholestyramine resin 4 grams which was not reflected in **Section 1.5.3** of CTD for label claim. Therefore, scoop is not required.

Observations	Reply of the firm
3.2.P.8 please submit COA and documents for the procurement of API with approval from DRAP.	Submitted

Proceeding of the case:
During presentation of agenda, Evaluator informed that Firm has submitted the required fee for **Change in specification.** The reply of the firm was also discussed regarding composition of the product and clarification submitted by the firm.

Decision:
Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1064.	Name, address of Applicant / Marketing Authorization Holder	M/s Ophth Pharma Private Limited. **(DML # 000488)** Plot # 241, Sector 24, Korangi Industrial Area, Karachi.
	Name, address of Manufacturing site.	M/s Ophth Pharma Private Limited. **(DML # 000488)** Plot # 241, Sector 24, Korangi Industrial Area, Karachi.
	Status of the applicant	☒ **Manufacturer** ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ **Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ **Domestic and Export sales**
	Dy. No. and date of submission	Dy. No. 481 (dated: 05-01-2023)
	Details of fee submitted	PKR 30,000/-: dated: 02-12-2021 (Invoice # 19655239551)
	The proposed proprietary name / brand name	**PYLOCAR Eye Drops 2%w/v**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each unit contains: Pilocarpine HCl …… 20mg/ml (2% w/v)
	Pharmaceutical form of applied drug	Eye Drops
	Pharmacotherapeutic Group of (API)	Muscarinic Cholinergic agonist
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	1 x 5ml ampoules
	Proposed unit price	1 x 5ml ampoules = **PKR 225/-**

	The status in reference regulatory authorities	*MHRA* approved formulation
	For generic drugs (me-too status)	Same formulation Approved for Ethical Laboratories
	GMP status of the Finished product manufacturer	**GMP certificate valid up to 26-09-2023**
	Name and address of API manufacturer.	**Pilocarpine HCl** Manufacturer: **SOURCETECH Quimica LTDA** Rod. Veredor Abel Fabricio Dias, 3430. Pindamonhangaba –SP – 12402 – 020 Brazil. **GMP Certificate valid till 23-11-2024**
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Stability study conditions**: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the **comparator product i.e Pilocar Eye drops by M/s Ethical Laboratories** by performing quality tests (appearance, identification, pH , Assay & sterility test).
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA	
Manufacturer of API	**Pilocarpine HCl** Manufacturer: **SOURCETECH Quimica LTDA** Rod. Veredor Abel Fabricio Dias, 3430. Pindamonhangaba –SP – 12402 – 020 Brazil. **GMP Certificate valid till 23-11-2024**
API Lot No.	Not provided

Description of Pack (Container closure system)	Primary container made of plastic dropper bottle, packed in printed unit caryton along with the leaflet, further packe din master carton.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 24 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.			
Batch Size			
Manufacturing Date			
Date of Initiation			
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not provided
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

3.2.S.4.3 Drug Product manufacturer **(Ophth Pharma)** is required to perform system suitability test for API, as per the monograph of **USP 2023** and submit chromatogram along with calculation to confirm that, **Resolution** is NLT 1.5 between isopilocarpine & pilocarpine.

3.2.P.2.4 Please submit in tabulated form the results of **USP Specification's** quality control tests for the pharmaceutical equivalence report of applied formulation vs **Pilocar eye drops by ethical Laboratories.**

Please also justify that why pharmaceutical equivalence studies have been conducted against a local brand **Pilocar** instead of innovator brand.

3.2.P.8 Please submit results of three stability batches as per following template of DRAP CTD guidelines

Please submit COA of the API used in product development and manufacturing of three stability batches

along with documents of approval of procurement from DRAP in case of import. For the three stability batches, please submit chromatograms and their calculations sheets / results sheets along with calculation formulas separately for the interval of months (0, 3 & 6 month) both accelerated and real time studies. Please resubmit Chromatograms with report template **(Injection summary report)** which should contain following three boxes. i. "**Sample information window"** containing sample ID *(sample / standard)*, Batch #, User ID, Data Processed time, Data Acquisition time, Instrument No. Instrument monogram on top, flow rate, wavelength and all necessary information as per 21 CFR Part 11. ii. Chromatogram with peak table with area / width/ height of the peaks, tailing factor & theoretical plates. As primary container of your finished Pharmaceutical product is LDPE (semipermeable container), please submit results for water loss studies as per USP Chapter 671.
Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

New Section / New License

M/s AGM Pharmaceuticals **(DML # 000948)** Eminabad Road, G.T. Road, Gujranwala, Pakistan has submitted copy of letter of grant of section dated 10-11-2021 specifying Tablet (General) section, Capsule (General) and Dry Powder Injectable (Cephalosporin).

M/s Pharman Pharmaceuticals (Pvt) Ltd
Khewat No. 59, Khatooni No. 114-120, Tehsil Wazirabad, Gujranwala.

Central Licensing Board in its 286th meeting held on 11th May 2022 granted DML # 000958 (formulation) with following sections.

1. Tablet Section (General)
2. Capsule Section (General)
3. Oral Liquid Section (General)

1068.	Name, address of Applicant / Marketing Authorization Holder	**M/s Pharman Pharmaceuticals (Pvt) Ltd Khewat No. 59, Khatooni No. 114-120, Tehsil Wazirabad, Gujranwala. (DML # 000958)**
	Name, address of Manufacturing site.	M/s Pharman Pharmaceuticals (Pvt) Ltd Khewat No. 59, Khatooni No. 114-120, Tehsil Wazirabad, Gujranwala. **(DML # 000958)**
	Status of the applicant	☒ **Manufacturer** ☐ Importer ☒ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP)

		☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale **☒ Domestic and Export sales**
	Dy. No. and date of submission	Dy. No. 16138 (dated: 26-06-2023)
	Details of fee submitted	PKR 30,000/-: dated: 09-01-2023 (Invoice # 3839876908) & **PKR 30,000/-: dated: 04-07-2023** **(Invoice # 852093315515)**
	The proposed proprietary name / brand name	**Tablet Cipharm 250 mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Ciprofloxacin HCl eq. Ciprofloxacin …….. 250 mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Quinolone Antibiotics
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	10's, 20's, 30's, 100's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	*USFDA and MHRA* approved formulation
	For generic drugs (me-too status)	**Ciproxin®** by M/s Bayer
	GMP status of the Finished product manufacturer	Central Licensing Board in its 286th meeting held on 11th May 2022 granted DML # 000958 (formulation) with following sections. 1. Tablet Section (General) 2. Capsule Section (General) 3. Oral Liquid Section (General)
	Name and address of API manufacturer.	**Ciprofloxacin HCl** M/s Citi Pharma Limited 3.5 km, Head Baloki Road, Phool Nagar, Kasur. **GMP Certificate valid till 03/03/2026**
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Stability study conditions**: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months

	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the **comparator product i.e Novidat tablets** by M/s Sami performing quality tests (appearance, identification, average weight, Disintegration time, Assay, Dissolution).
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	**Ciprofloxacin HCl** M/s Citi Pharma Limited 3.5 km, Head Baloki Road, Phool Nagar, Kasur. **GMP Certificate valid till 03/03/2026**		
API Lot No.	CPH2205063		
Description of Pack (Container closure system)	Packed in ALU-ALU Blister and further packed in unit carton along with patient leaflet insert.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 24 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.	**CP22-001**	**CP22-002**	**CP22-003**
Batch Size	2000 Tablets	2000 Tablets	2000 Tablets
Manufacturing Date	05/2022	05/2022	05/2022
Date of Initiation	14/05/2022	14/05/2022	14/05/2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	API Locally manufactured
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Observations	Reply of the firm
1.1.b The fee submitted on 09th January 2023 is not acceptable for the dossier resubmitted for evaluation. Therefore, please deposit prescribed fee as per Schedule F of L R & A Rules 1976.	Firm has submitted prescribed fee of PKR 30,000/- vide deposit slip # 852093315515
1.3.1.a Please clarify that why the address of manufacturing site (Factory) mentioned on letter head of firm, is different from address of manufacturing site on DML # 000958 (Formulation).	The address mentioned on DML is as per land registry documents (Patwarkhana) while the address mentioned on letter head is the address that is commonly used by Courier companies / PTCL bills etc. for easy access and understanding.
1.6.5 Please submit fresh / valid GMP certificate of API supplier which should be in force till date.	Submitted
3.2.P.8 Please submit COA of API used in Product development and stability studies.	Submitted
Please justify that why pharmaceutical development studies and comparative dissolution studies have been performed against Local Brand i.e. **Tablet Novidat,** instead of innovator brand **Ciproxin.**	We have performed the Pharmaceutical Development and comparative dissolution studies against the leading brand locally available. As per CTD guidance document studies can be carried out against reference / innovator product. Novidat is a well-established brand in the market so that is why we choose Novidat.
Please submit data / chromatograms for the first interval (18-05-2022) of three stability batches.	Submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1069.	Name, address of Applicant / Marketing Authorization Holder	M/s Pharman Pharmaceuticals (Pvt) Ltd Khewat No. 59, Khatooni No. 114-120, Tehsil Wazirabad, Gujranwala. **(DML # 000958)**
	Name, address of Manufacturing site.	M/s Pharman Pharmaceuticals (Pvt) Ltd Khewat No. 59, Khatooni No. 114-120, Tehsil Wazirabad, Gujranwala. **(DML # 000958)**

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Nexium 20mg Hard gastro-resistant capsules (USFDA approved)
	For generic drugs (me-too status)	Nexum Capsules 20 mg by M/s Getz
	Name and address of API manufacturer.	**Source of Esomeprazole enteric coated pellets** M/s Vision Pharmaceuticals (Pvt.) Ltd. **(DML # 000806)** Plot No. 22-23, Industrial Triangle, Kahuta Road, Islamabad Pakistan. **GMP valid up to 13-06-2024**
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against **Esocue capsule 20mg** manufactured by M/s Sandoz by performing quality test (s) ***(Identification, Uniformity of dosage unit, dissolution time, and assay)*.** Firm has submitted CDP results of their product against the **Esocue capsule 20mg** manufactured by M/s Sandoz in 3 dissolution mediums. i.e Acidic

		media (pH 1.2), Acetate buffer (pH 4.5), Phosphate buffer (pH 6.8). The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product including accuracy, precision, specificity etc.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	M/s Vision Pharma , Islamabad
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Locally purchased with invoices of M/s Vison Pharma
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing. Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets is submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

3.2.P.8 Please justify that why pharmaceutical development studies and comparative dissolution studies have been performed against Local Brand, i.e. **Capsule Resocue 20 mg,** instead of innovator brand **Nexium** by Astrazeneca**.**
COA for the **Lot # EMZ046406 of API** used in product development and manufacturing of stability batches.

Proceeding of the case.

During presentation of agenda, the evaluator informed that firm has submitted reply of shortcomings and application is complete as per DRAP guidelines for CTD application.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

1072.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Trivista Pharmaceuticals **(DML # 000952)** 8-km, Taxila Khanpur Road, District Haripur, KPK.
	Name, address of Manufacturing site.	M/s Trivista Pharmaceuticals **(DML # 000952)** 8-km, Taxila Khanpur Road, District Haripur, KPK.
	Status of the applicant	☒ **Manufacturer** ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	New DML issued on 29-04-2022
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of section dated 29-04-2022 specifying Tablet (General) section, Capsule (General) approved in 285th CLB meeting dated 17th & a8th March 2022.
	Status of application	☐ New Drug Product (NDP) ☒ **Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☒ **Domestic sale** ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 14387 dated 08-06-2023
	Details of fee submitted	PKR 30,000/- Dated 30-05-2023 (Slip # 59430880)
	The proposed proprietary name / brand name	**Esovista 40mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Hard Gelatin capsule contains Esomeprazole Magnesium Trihydrate (enteric coated pellets) equivalent to Esomeprazole …….40mg
	Pharmacotherapeutic Group of (API)	Proton Pump Inhibitor
	Pharmaceutical form of applied drug	Capsules
	Reference to Finished product specifications	USP Specifications
	Proposed Pack size	2x7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Nexium 40mg Hard gastro-resistant capsules (USFDA approved)
	For generic drugs (me-too status)	Nexum Capsules 40 mg by M/s Getz
	Name and address of API manufacturer.	**Source of Esomeprazole enteric coated pellets** M/s Vision Pharmaceuticals (Pvt.) Ltd. **(DML # 000806)** Plot No. 22-23, Industrial Triangle, Kahuta Road, Islamabad Pakistan. **GMP valid up to 13-06-2024**
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD

		template. Firm has summarized information related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, Solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against **Esocue capsule 20mg** manufactured by M/s Sandoz by performing quality test (s) ***(Identification, Uniformity of dosage unit, dissolution time, and assay)*.** Firm has submitted CDP results of their product against the **Esocue capsule 40mg** manufactured by M/s Sandoz in 3 dissolution mediums. i.e Acidic media (pH 1.2), Acetate buffer (pH 4.5), Phosphate buffer (pH 6.8). The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product including accuracy, precision, specificity etc.

STABILITY STUDY DATA	
Manufacturer of API	**Source of Esomeprazole enteric coated pellets** M/s Vision Pharmaceuticals (Pvt.) Ltd. **(DML # 000806)** Plot No. 22-23, Industrial Triangle, Kahuta Road, Islamabad Pakistan. **GMP valid up to 13-06-2024**
API Lot No.	EMZ046406
Description of Pack	Blue/orange colored hard gelatin capsules shell size 2 filled with almost white

(Container closure system)	to off white colored round shaped enteric coated pellets.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	**PFT22E004**	**PFT22E005**	**PFT22E006**
Batch Size	5000 Capsules	5000 Capsules	5000 Capsules
Manufacturing Date	05/2022	05/2022	05/2022
Date of Initiation	20/05/2022	20/05/2022	20/05/2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	M/s Vision Pharma , Islamabad
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Locally purchased with invoices of M/s Vison Pharma
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing. Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets is submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

3.2.P.8 Please justify that why pharmaceutical development studies and comparative dissolution studies have been performed against Local Brand i.e. **Capsule Resocue 20 mg,** instead of innovator brand **Nexium** by Astrazeneca**.**
COA for the **Lot # EMZ046406 of API** used in product development and manufacturing of stability batches.

Proceeding of the case.

During presentation of agenda, the evaluator informed that firm has submitted reply of shortcomings and application is complete as per DRAP guidelines for CTD application.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

M/s Wezen Pharmaceuticals (DML # 000882)
Plot # 23 & 24, S-1, RCCI. Industrial Estate, Rawat.

Central Licensing Board in its 278th meeting held on 10th & 11th December 2020 granted DML # 000882 (formulation) with following sections.

1. Tablet Section (General)

		2. Capsule Section (General) 3. Sachet Section (General) 4. Ointment / Cream / Gel Section (General)
1073.	Name, address of Applicant / Marketing Authorization Holder	M/s Wezen Pharmaceuticals **(DML # 000882)** Plot # 23 & 24, S-1, RCCI. Industrial Estate, Rawat.

Batch Size	1200 Tablets	1200 Tablets	1200 Tablets
Manufacturing Date	05/2022	05/2022	05/2022
Date of Initiation	27/05/2022	27/05/2022	27/05/2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

3.P.1 In the master formulation of reference product **(Paraxyl by GSK)**, ingredients used in film Coating are Opadry ® while in the applied formulation contains **methanol** along with HPMC E5, Talcum, Tio2. How will you justify the use of methanol in film coating? As methanol is not the part of film coating of innovator / reference product therefore, please submit compatibility studies of methanol as an excipient in the applied formulation.

3.2.P.8.1 The test result submitted for dissolution are performed on UV spectrophotometry while the dissolution performance test in USP specification is to be performed on Chromatography system on LC mode with UV detector at 295 nm. Please follow method of USP pharmacopeia for dissolution performance test and submit results accordingly.

Please provide Lot # of API used in Product development and manufacturing of stability batches along with COA and documents for its clearance / approval from DRAP in case of import.

Decision:

Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Remarks of the Evaluator:

3.P.1 In the master formulation of reference product **(Paraxyl CR by GSK)**, ingredients used to form hydrophilic

matrix of tablet *(sustained release)* are **Glyceryl Behenate & HPMC** and for enteric coating layer Eudragit L 100 ® along with other ingredients.
While in the applied formulation of firm, there is nothing mentioned regarding formation of hydrophilic matrix of tablet. In the coating of applied formulation, **methanol** along with Eudragit L 00 ® has been used. Please justify the following points:

- the use of methanol in film coating/ enteric coating?
- As methanol is not the part of film coating / enteric coating of innovator / reference product therefore, please submit compatibility studies of methanol as an excipient in the applied formulation.
- Please also submit details for the ingredients / excipients used to form hydrophilic matrix tablet containing API.

3.2.P.8 In the 3rd month stability batch # **T-01** at **Accelerated conditions**, the results of dissolution of one (01) individual tablets at **2nd hour Buffer Stage** exceeds the limits **(15% - 35%)** of the labelled amount of paroxetine.
In the 3rd month stability batch # **T-02** at **Real time conditions**, the results of dissolution of all 02 tablets at **12th hour Buffer Stage** is below the limits **(NLT 80%)** of the labelled amount of paroxetine.
In the 3rd month stability batch # **T-03** at **Accelerated conditions**, the results of dissolution of all 01 tablet at **12th hour Buffer Stage** is below the limits **(NLT 80%)** of the labelled amount of paroxetine.
In the 6th month stability batch # **T-01** at **Real time conditions**, the results of dissolution of all 02 tablets at **04th hour Buffer Stage** is below the limits **(NLT 80%)** of the labelled amount of paroxetine.
Firm has been advised **to perform Level 2 of Dissolution test as per instructions given in Chapter <711> of USP Pharmacopoeia for *Extended Release Dosage form*** (table given below) and submit the reply along with documents / information / raw data sheets / calculation formulas etc.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Time Period	Real time: 6 months Accelerated: 24 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.	**T-10**	**T-011**	**T-12**
Batch Size	1200 Tablets	1200 Tablets	1200 Tablets
Manufacturing Date	05/2022	05/2022	05/2022
Date of Initiation	27/05/2022	27/05/2022	27/05/2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

3.P.1 In the master formulation of reference product **(Paraxyl CR by GSK)**, ingredients used to form hydrophilic matrix of tablet *(sustained release)* are **Glyceryl Behenate & HPMC** and for enteric coating layer Eudragit L 100 ® along with other ingredients.

While in the applied formulation of firm, there is nothing mentioned regarding formation of hydrophilic matrix of tablet. In the coating of applied formulation, **methanol** along with Eudragit L 100 ® has been used. Please justify the following points:

- the use of methanol in film coating/ enteric coating?
- As methanol is not the part of film coating / enteric coating of innovator / reference product therefore, please submit compatibility studies of methanol as an excipient in the applied formulation.
- Please also submit details for the ingredients / excipients used to form hydrophilic matrix tablet containing API.

3.2.P.8 Please provide Lot # of API used in Product development and manufacturing of stability batches along with COA and documents for its clearance / approval from DRAP in case of import.

In the stability batch # **T-10**, the results of dissolution of three individual tablets at **Acid stage** of ***Delayed release dosage form*** **(A1)** as sample no 01, sample no. 02 and sample no. 04 are 12.43%, 13.78% & 12.46% while the tolerance level at **acid stage** is **NMT 10%** of the labelled amount of paroxetine.

The drug product exceeds the 10% dissolved limit for individual tablet as per Dissolution USP <711>. Therefore, firm needs to perform analysis on further 06 tablets **(A2)** of stability batch # **T-10** and submit the results of average of the 12 units (*A1 + A2*) is NMT 10% dissolved, and no individual unit is >25% dissolved.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Registration-I Section

Case No.1. Request for Change in Registration Status of Pepcidine 20mg Tablets from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi to M/s Aspin Pharma Pvt Pharma Pvt Ltd., Korangi Industrial Area Karachi.

M/s. Aspin Pharma Pvt Pharma Pvt Ltd., Korangi Industrial Area Karachi has requested to change the product registration status of Pepcidine 20mg Tablets from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi, to their name.

The detail of cases is as following:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of DML (000045) of M/s Aspin Pharma (Pvt) Ltd, Karachi. Plot No. 10&25 Korangi Industrial Area, Karachi-Pakistan renewed w.e.f 31-03-2020.
ii. Copy of DML of M/s OBS Pakistan Pvt Ltd., (DML # 000012) renewed w.e.f. 26-10-2020.

iii. Copy of DRAP's letter dated 16th June, 2021 for renewal of DML of M/s Aspin Pharma Pvt Ltd, mentioning Tablet (General) among sections
iv. Copy of Approval letter dated 06-07-2022 for change in title of registration holder from M/s OBS Pakistan Pvt Ltd. Karachi to M/s. Searle Pakistan Ltd; Karachi
v. NOC from M/s. Searle Pakistan Ltd; Karachi for transfer of Pepcidine 20mg Tablets in the name of M/s. Aspin Pharma Pvt Ltd., Korangi Industrial Area, Karachi issued on 30-01-2023. Firm has also submitted fresh NOC dated 01-08-2023 (i.e., within 6months)
vi. Request dated 01-06-2023, submitted by M/s. Searle Pakistan Ltd; Karachi for withdrawal of Pepcidine 20mg Tablets
vii. Relevant undertakings & commitments.

Mr. Asadullah (DD-QMS)

	1.5.11-Proposed Label	Submitted
	Module-II (Quality Overall Summary)	The firm has summarized information related to DS and finished products. The official monograph of DS and FP is available in USP. QOS provides information of general properties including physical form, solubility profiles and polymorphic form (A & B) Form B is being produced by DS manufacturer and related impurities were listed. DS and finish product comply to USP specification. Brief information related to analytical procedures, specification, working standard, container closure system and stability studies of drug substance and drug product has been provided. Manufacturing process and critical process parameters were summarized for FP. The analytical method of USP for FP was verified by FP manufacturer. Batch analysis of 03 FP batches were provided in tabulated format. Stability data sheets of DS and DP were provided at the accelerated and long-term condition as per Zone IVb.
	Module-III Drug Substance:	The Firm has submitted Information for drug substance with related to nomenclature and structure, and provided list of general properties including solubility, polymorphic form. The DS was manufactured at SMS India as Form B of the polymorphic form. The manufacturing process was described along with the studies conducted for structural elucidation. The potential Impurities and residual solvent were studied in 03 batches of DS, which shows detection within limits. USP referenced analytical methods were verified by the DS manufacturer. CoA of DS lot from DS manufacturer and FP manufacturer was provided. CoA of working standards produced by DS manufacturers was submitted. Container closure system and analytical method for packaging material was provided. Degradation studies were also conducted during stability studies.

<table>
<tr><td></td><td>Stability Studies of Drug Substance (Conditions & duration of Stability studies)</td><td>Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data was conducted at 40ºC ± 2ºC / 75% ± 5% RH for 6 months and the long-term stability data is conducted at 30ºC ± 2ºC / 75% ± 5% RH for 36 months. The famotidine powder was placed in double poly bags and kept in an HDPE drum. The DS remain stable and no significant changes were observed during the stability studies.</td></tr>
<tr><td></td><td>Module-III Drug Product:</td><td>Firm has submitted data on drug product including its composition, pharmaceutical development, manufacture, manufacturing process, process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability. The Specifications and control tests are in compliance to USP. The manufacturing process of DP from mixing to film coating was elaborated and critical parameters were identified with control checks. Manufacturing protocol was also developed. Pharmacopeial grade excipients were used in the formulation and their analytical methods and CoAs were provided. The DP specification were assigned as per USP and accordingly analytical method was verified. Batch analysis of 03 stability batches were provided with their CoAs. Firm claimed that no impurities were detected in the drug product formulation. Working standard provided by the DS manufacturer were used as reference standard. CoA of reference standard was also submitted. BMR of stability batches was also submitted.</td></tr>
<tr><td></td><td>Pharmaceutical Equivalence and Comparative Dissolution Profile</td><td>The Pharmaceutical equivalence study was conducted to compare DP against the Nocid 20mg Tab manufactured by GSK Pakistan for Novartis (Batch 034K, Mfg date Mar 2021). The Comparative Dissolution Profile was also studied against the Nocid 20mg tablet in 03 different medium. The summary is tabulated as under:-
<table>

Evaluator Queries:

S.NO	Documents	Response
1	Clearance Certificate of DRAP Karachi for API procurement invoice of famotidine.	The commercial invoice for procurement of API with DRAP NOC was provided which shows that famotidine batch No. FMT 209 05 22 was cleared by DRAP Karachi Certificate No. E-1714628152716dated 22-Jun-2022.
2	Whether drug product manufacturers conducted verification or validation of an analytical method for famotidine DS.	The API analytical method (assay) was verified for four parameters suitability, specificity, accuracy, and precision by Ms. Aspin Pharma. Method protocol and report were submitted.
3	Batch Analysis summaries under 2.3.S.4 need to be resubmitted as it shows the data of drug product instead of DS.	The revised batch analysis summary under 2.3.S.4 was provided.
4	Why the API lot used in the manufacturing of stability batches is different from the batch number mentioned on the procurement document?	Firm stated that batch number was mistakenly mentioned and submitted in BMR and same reproduced in the Stability protocol and stability data sheets. Firm submitted corrected protocol and data sheets.
5	Why the identification test is not included in the stability studies of the first 03 months of accelerated and long-term studies?	The firm maintained that identification tests were part of the initial testing and not included in the stability protocol in light of WHO TRS 863.

Conclusive Remarks:

Application is complete as per SOP/ guidelines. Accordingly, the case is recommended for consideration of Registration Board.

Decision: Registration Board decided as under:

i. Cancelled registration of following product from the name of M/s Searle Pakistan Limited (Formerly: M/s OBS Pakistan Pvt. Ltd.), C-14, S.I.T.E, Karachi (DML No.000012).

S. No.	Reg. No.	Product Name & Composition
1.	**102826**	**Pepcidine Tablet 20mg** **Each film coated tablet contains:** **Famotidine……20mg** **(USP Specifications)**

ii. Approved registration of following product in the name of M/s. Aspin Pharma (Pvt.) Ltd., Plot No.10 & 25 Sector 20, Korangi Industrial Area, Karachi (DML No.000045).

a) Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

b) Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

S. No.	Product Name & Composition
i.	**Pepcidine 20 mg Tablet** **Each film coated tablet contains:** **Famotidine……..…20mg** **(USP Specifications)**

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).

Case No.02. Request for Change in Registration Status of Mepresor Tablet 100mg from M/s Novartis Pharma Pakistan Limited, 15 West wharf, Karachi to M/s Novartis Pharma (Pakistan) Limited, C-21, S.I.T.E. Area, Karachi.

M/s. Novartis Pharma (Pakistan) Limited C-21, S.I.T.E. Area, Karachi (DML No.000003) has requested to change the registration status of Mepresor Tablet 100mg from M/s Novartis Pharma Pakistan Limited, 15- West Wharf, Dockyard Road, Karachi (DML#000193) to M/s Novartis Pharma Pakistan Limited (Formerly M/s Bayer Pakistan (Pvt.) Ltd,), C-21, S.I.T.E, Area, Karachi (DML#000003). They have also requested for change in manufacturing site from M/s GSK CHC, Petaro Road, Jamshoro (DML No. 000010) (i.e., contract manufacturer) to M/s Novartis Pharma Pakistan Limited, C-21, S.I.T.E, Area, Karachi (i.e., self-manufacturing).

The detail of the case is as follows:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of GMP certificate on the basis of inspection conducted on 08-09-2021.
ii. Copy of DML of M/s Novartis Pharma Pakistan Limited (DML # 000003) renewed w.e.f. 18-09-2020.
iii. Copy of Tablet (General) section approval letter dated 28-12-2021 issued by Licensing Division in the name of M/s Novartis Pharma Pakistan Ltd, C-21, S.I.T.E Area Karachi (DML# 000003)
iv. NOC from M/s. Novartis Pharma Pakistan Limited, 15- West Wharf, Dockyard Road, Karachi (DML#000193) for transfer of Mepresor Tablet 100mg in the name of M/s. Novartis Pharma Pakistan Limited, C-21, S.I.T.E, Area, Karachi, issued on 17-07-2023
v. Request dated 17-07-2023 from M/s Novartis Pharma Pakistan Limited, 15- West Wharf, Dockyard Road, Karachi (DML#000193) for withdrawal/ cancellation of registration.
vi. Relevant undertakings & commitments.

Remarks of the Evaluator:

Observations	Reply of the firm
1.3.4(a) Please submit latest GMP certificate for applicant's facility at DML # 000193 which should be valid till date.	Since this is manufacturing site change from GSK Jomshoro DML # 000010 to Novartis Pharma (Pakistan) Ltd, C-21, S.I.T.E. Karachi DML # 000003, we are providing you GMP for both the DMLs. Kindly note that facility of DML # 000193 is neither current nor proposed manufacturer for Mepressor tablet.
1.4.3 No Objection certificate is required from previous contract manufacturer i.e. M/s GlaxoSmithKline Consumer Healthcare Pakistan Ltd. Petaro Road, Jamshoro **DML # 000010** for ending / terminating the contract manufacturing and confirming that all legal, financial and codal formalities have been fulfilled and there is nothing pending or in dispute between contract giver (Novartis) and contract acceptor (GSK) as per terms and conditions of contract agreement.	We have requested required NOC from current manufacturing site and will provide you as soon as available with us.
1.6.5 For DML # 000010 (GSK, Jamshoro), Please submit Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin which should be valid till date. For DML # 000003 (Novartis, C-21, S.I.T.E. Karachi), Please submit Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin which should be valid till date.	Kindly note that for DML # 000003 Drug substance manufacture is same. GMP attached .
3.2.S.4.3 For manufacturing facility with DML # 000003, Chromatograms and record required for system suitability confirming that relative retention times for metoprolol and oxprenolol are 0.8 & 1.0, respectively.	Submitted
3.2.S.4.5 COA of primary / secondary reference standard including source and lot number shall be provided.	Submitted
3.2.P.1(b) Please submit a comparison in tabulated form of drug product formulation at DML # 000003 (Novartis) and DML # 000010 (GSK) , if there is any change in inactive ingredients then provide justification of change.	Submitted
3.2.P.2 For DML # 000010 (GSK, Jamshoro), please submit details for Pharmaceutical	Submitted

equivalence and comparative dissolution profile established with innovator / comparator product.	
3.2.P.5.4 Please submit a comparison in tabulated form, for batch analysis reports of DML # 000003 and DML # 000193	Submitted
3.2.P.8 Please submit stability data for drug product **separately** for DML # 000003 & DML 000010	Submitted
3.2.P.8 Documents for the procurement of API used in stability batches along with COAs issued by drug substance manufacturer as well drug product manufacturer, with approval from DRAP (in case of import) for both DML # 000003 and DML # 000010.	Submitted

Decision: Registration Board decided as under:

i. Cancelled registration of following product from the name of M/s Novartis Pharma (Pakistan) Limited, 15- West Wharf, Dockyard Road, Karachi (DML No. 000193).

S. No.	Reg. No.	Product Name & Composition
1.	007823	**Mepresor 100mg Tablets** **Each tablet contains:** **Metoprolol..... 100mg** **(USP Specification)**

ii. Approved registration of following products in the name of M/s Novartis Pharma Pakistan Limited, C-21, S.I.T.E Area, Karachi (DML#000003).

a) Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

b) Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

S. No.	Product Name & Composition
1.	**Mepresor 100mg Tablets** **Each film coated tablet contains:** **Metoprolol Tartrate..... 100mg** **(USP Specification)**

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).

Case No.3. Request for Change in Registration Status of Products from M/s Getz Pharma Pvt. Ltd Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi to M/s. Getz Pharma Pvt. Ltd Plot No. 01, Sector 25, Korangi Industrial Area Karachi.

M/s. Getz Pharma Pvt. Ltd Plot No. 01, Sector 25, Korangi Industrial Area Karachi (DML No.000933) has requested for change in registration status of below mentioned products from M/s. Getz Pharma Pvt. Ltd Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi (DML No.000284) to their name.

Detail is as under:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of registration letter and last renewal status.
ii. Copy of DML of M/s. Getz Pharma Pvt. Ltd Plot No. 01, Sector 25, Korangi Industrial Area Karachi (Manufacturer) issued on 25-05-2021(DML No.000933)
iii. Copy of approval letter dated 27-02-2023 issued by Licensing Division, DRAP for grant of Additional Sections to M/s. Getz Pharma Pvt. Ltd Plot No. 01, Sector 25, Korangi Industrial Area Karachi. The letter confirms approval of "Dry Powder Vial Injection (Cephalosporin)" section.
iv. Copy of GMP certificate of M/s. Getz Pharma Pvt. Ltd Plot No. 01, Sector 25, Korangi Industrial Area Karachi based on evaluation conducted on 17-11-2021.
v. NOC dated 26-04-2023 from M/s. Getz Pharma Pvt. Ltd Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi for transfer of products in the name of M/s. Getz Pharma Pvt. Ltd Plot No. 01, Sector 25, Korangi Industrial Area Karachi.
vi. Request dated 17-07-2023 from M/s. Getz Pharma Pvt. Ltd Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi for withdrawal/ cancellation of registration.
vii. Application with Form-5F and required fee as per relevant SRO.
viii. Relevant undertakings & commitments.

Detail of submitted documents/ remarks of evaluators have been mentioned as under:

Evaluator: Mr. Salateen Waseem Philips (DD-PR)

	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Stability study conditions**: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the **comparator product i.e. Oxidil 250mg IV injection**

		by **M/s Sami** by performing quality tests (appearance, constituted solution, identification, Average weight of content, uniformity of dosage units by weight variations, pH, water content, Assay).
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	**Ceftriaxone Sodium** M/s Zhuhai United Laboratories Co., Ltd. No. 2428, Anji Road, Sanzao Town, Jinwan District, Zhuhai, Guangdong, China	
API LOT #	3052206016	
Description of Pack (Container closure system)	250mg, White to yellowish-orange crystalline powder, filled in a clear glass USP type II vial + 5 ml sterile water	
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH	
Time Period	Real time: 06 months Accelerated: 06 months	
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)	
Batch No.	**C006DS01**	**C006DS02**
Batch Size	2000 Vials	2000 vials
Manufacturing Date	19/09/2022	19/09/2022
Date of Initiation	08/10/2022	08/10/2022
No. of Batches	02	

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Invoice # K-7643522637624 dated 27-07-2022
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Query Items	Getz Pharma Response
Please provide comparative data of batch analysis of two production batches at new site vs the last three batches from the previous site.	Submitted
Please justify that why Pharmaceutical Equivalence studies have been conducted against **Oxidil IV 250mg Injection** while recommended comparator/innovator is Rocephin.	This is to bring to your kind information that as per DRAP guidelines "Guidance document for submission of application on Form 5-F (CTD) for registration of pharmaceutical Drug products for human use", to perform Pharmaceutical Equivalence *'The comparison of the developed formulation and the innovator / reference / comparator product including the results of all the quality tests shall be submitted and discussed'*. We have established Pharmaceutical Equivalence of **Getofin IV Injection 250mg** (Manufactured by M/s Getz Pharma Pvt. Ltd) with comparator product **Oxidil IV Injection 250mg** Manufactured by M/s Healthtek Pvt. Ltd as innovator brand is currently not available in Pakistan. Further, this is to inform you that Ceftriaxone for Injection is a pharmacopoeial product available in USP, and all the test parameters of Getofin IV Injection 250mg complies with USP Specification.
Source of API at previous site **(Novamed Pharma)** along with COA.	This is to inform you M/s Zhuhai United Laboratories Co., Ltd., China is the source of API at previous site (M/s Novamed Pharma). Please refer to **Annexure II** for the Certificate of Analysis (COA).

Query Items	Getz Pharma Response
Please provide comparative data of batch analysis of two production batches at new site vs the last three batches from the previous site.	Submitted
Please justify that why Pharmaceutical Equivalence studies have been conducted against **Oxidil IV 500mg Injection** while recommended comparator/innovator is Rocephin.	This is to bring to your kind information that as per DRAP guidelines "Guidance document for submission of application on Form 5-F (CTD) for registration of pharmaceutical Drug products for human use", to perform Pharmaceutical Equivalence *'The comparison of the developed formulation and the innovator / reference / comparator product including the results of all the quality tests shall be submitted and discussed'*. We have established Pharmaceutical Equivalence of **Getofin IV Injection 500mg** (Manufactured by M/s Getz Pharma Pvt. Ltd) with comparator product **Oxidil IV Injection 500mg** Manufactured by M/s Healthtek Pvt. Ltd as innovator brand is currently not available in Pakistan. Further, this is to inform you that Ceftriaxone for Injection is a pharmacopoeial product available in USP, and all the test parameters of Getofin IV Injection 250mg complies with USP Specification.
Source of API at previous site **(Novamed Pharma)** along with COA.	This is to inform you M/s Zhuhai United Laboratories Co., Ltd., China is the source of API at previous site (M/s Novamed Pharma). Please refer to **Annexure II** for the Certificate of Analysis (COA).

5.	**Getofin Injection 1gm (IV)** **Each vial contains:** **Ceftriaxone (as Sodium)……1g** **(USP Specifications)**

iii. Reference will be sent to Costing and Pricing Division for confirmation of maximum retail price (MRP).

Case No.4. Request of M/s Getz Pharma Pvt. Ltd., Karachi for Cancellation of Registration of Cefaloget Range

M/s Getz Pharma Pvt. Ltd Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi (DML No.000284) has requested for cancellation of registration of following products which are registered by way of contract manufacturing at M/s Novamed Pharmaceuticals (Pvt.) Ltd., 28-KM, Ferozpur Road, Lahore. Detail is given as under:

S/N	Reg. No.	Brand name and composition	Justification	Date of Reg.
I	**II**	**III**	**IV**	**VI**
1.	090844	Cefaloget 250mg Capsule Each Capsule contains: Cefaclor monohydrate eq. to Cefaclor….....250mg (USP Specification)	This is to inform you that we have established new Cephalosporin manufacturing facility Getz Pharma (Pvt) Limited situated at Plot No. 01, Sector 25, Korangi Industrial Area Karachi and we already have submitted Initial product registration applications of aforementioned products to PE& R Division of DRAP. Therefore, we intend to cancel the registration of said contract manufactured products.	30-07-2018
2.	090845	Cefaloget 500mg Capsule Each Capsule contains: Cefaclor monohydrate eq. to Cefaclor.....….500mg (USP Specification)		30-07-2018
3.	090846	Cefaloget Drops 50mg/ml Each ml contains: Cefaclor monohydrate eq. to Cefaclor.....….50mg (USP Specification)		30-07-2018
4.	090847	Cefaloget Suspension 125/5ml Each 5ml contains: Cefaclor monohydrate eq. to Cefaclor.....125mg (USP Specification)		30-07-2018
5.	090848	Cefaloget Suspension 250mg/5ml Each 5ml contains: Cefaclor monohydrate eq. to Cefaclor.....250mg (USP Specification)		30-07-2018

Documents submitted by the firm in the light of SOP approved vide 283rd meeting of Registration Board	a. Copy of Registration Letter. b. List of alternate brands available in the country. c. Justification. d. An Undertaking that: i. No case is pending at any forum/ court of law regarding above mentioned products. ii. Provided information/ documents are true/ correct.

Decision: **Keeping in view the justification submitted by the applicant, Registration Board acceded to the request of M/s Getz Pharma Pvt. Ltd Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi (DML No.000284) for cancellation of registration of following products:**

S/N	Reg. No.	Brand Name and Composition
I	II	III
1.	**090844**	**Cefaloget 250mg Capsule** **Each Capsule contains:** **Cefaclor monohydrate eq. to Cefaclor….....250mg** **(USP Specification)**

4.	**090847**	**Cefaloget Suspension 125/5ml** **Each 5ml contains:** **Cefaclor monohydrate eq. to Cefaclor.....125mg** **(USP Specification)**
5.	**090848**	**Cefaloget Suspension 250mg/5ml** **Each 5ml contains:** **Cefaclor monohydrate eq. to Cefaclor.....250mg** **(USP Specification)**

Case No.5. Request of M/s E-Pharm Laboratories, Karachi for Revision/ Change in Formulation of Epsaline Nasal Drops 0.9%w/v

Registration Board in its 285th meeting held on 03rd-04th October, 2018 approved application M/s E-Pharm Laboratories, A-40, Road No. 1, S.I.T.E, Super Highway Industrial Area, North Karachi for registration of Epsaline Nasal Drops 0.9% w/v. Detail is as under:

Table-I	
Name and address of manufacturer / Applicant	E- Pharm Laboratories, A-40, Road No. 1, S.I.T.E, Super Highway Industrial Area, North Karachi.
Brand Name +Dosage Form + Strength	Epsaline Nasal Drops 0.9% w/v
Composition	Each ml contains: Sodium Chloride ……..0.09g (0.9% w/v)
Diary No. Date of R& I & fee	Dy. No. 19713 ; 01-11-2017; Rs.20,000/- (31-10-2017)
Pharmacological Group	Sodium salt for nasal congestion
Type of Form	Form- 5
Finished product Specification	Manufacturers
Pack size & Demanded Price	1 x 30 ml & as per SRO
Approval status of product in Reference Regulatory Authorities.	Saline nasal drops of Sandoz (Health Canada)
Me-too status	Norsaline-P Nasal 9mg/ ml Drops of M/s Atco (Reg. # 053354)
GMP status	Last GMP inspection was conducted on 01-03-2018 and the report concludes satisfactory level of GMP compliance.

Remarks of the Evaluator	• The official monograph of the applied formulation is not available in USP and BP.
Decision of M-285: Approved with innovator's specifications.	

The firm has now requested for revision of formulation/ strength of above-mentioned product from Sodium Chloride 0.9%w/v to Sodium Chloride 0.65%w/v stating that Sodium Chloride 0.9%w/v has been discontinued from RRA (Health Canada). While, Sodium Chloride 0.65%w/v has been approved by USFDA. Detail of revised application is as under:

Table-II	
Name and address of manufacturer / Applicant	E- Pharm Laboratories, A-40, Road No. 1, S.I.T.E, Super Highway Industrial Area, North Karachi.
Brand Name +Dosage Form + Strength	Epsaline Nasal Drops 0.65% w/v
Composition	Each ml contains: Sodium Chloride ……..6.5mg (0.65% w/v)
Diary No. Date of R& I & fee	Dy. No. 14804 ; 12-06-2023; Rs.30,000/- (DS#54186431299)
Pharmacological Group	Sodium salt for nasal congestion
Type of Form	Form- 5
Finished product Specification	Manufacturers
Pack size & Demanded Price	1 x 30 ml & as per SRO
Approval status of product in Reference Regulatory Authorities.	Saline Nasal-Sodium Chloride 0.65% Spray of M/s Lee Pharmaceuticals verified from: https://dailymed.nlm.nih.gov/dailymed/drugInfo.cfm?setid=5a23325e-0521-4006-be73-586cb045df02 accessed on 17-07-2023
Me-too status	Xynosine Nasal spray 0.65% of M/s Zafa Pharma (R#082163)
GMP status	Copy of GMP certificate dated 20-06-2022 based on evaluation conducted on 30-12-2021.
Remarks of the Evaluator	• The official monograph of the applied formulation is not available in USP and BP.

Decision: **Registration Board approved the request of M/s E-Pharm Laboratories, A-40, Road No. 1, S.I.T.E, Super Highway Industrial Area, North Karachi for revision/ change in formulation of 'Epsaline Nasal Drops'. Revised composition is as under:**

"Epsaline Nasal Drops 0.65% w/v
Each ml contains:
Sodium Chloride ……..6.5mg (0.65% w/v)"

Case No.6. **Request for Change in Registration Status of Mezeron 30mg Tablet from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi to M/s Aspin Pharma Pvt Pharma Pvt Ltd., Korangi Industrial Area Karachi.**

M/s. Aspin Pharma Pvt Pharma Pvt Ltd., Korangi Industrial Area Karachi has requested to change the product registration status of Mezeron 30mg Tablet from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi, to their name.

The detail of cases is as following:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of DML (000045) of M/s Aspin Pharma (Pvt) Ltd, Karachi. Plot No. 10&25 Korangi Industrial Area, Karachi-Pakistan renewed w.e.f 31-03-2020.
ii. Copy of DML of M/s OBS Pakistan Pvt Ltd., (DML # 000012) renewed w.e.f. 26-10-2020.
iii. Copy of DRAP's letter dated 16th June, 2021 for renewal of DML of M/s Aspin Pharma Pvt Ltd, mentioning Tablet (General) among sections

iv.	Copy of Approval letter dated 25-04-2022 for change in title of registration holder from M/s OBS Pakistan Pvt Ltd. Karachi to M/s. Searle Pakistan Ltd; Karachi
v.	NOC from M/s. Searle Pakistan Ltd; Karachi for transfer of Mezeron 30mg Tablet in the name of M/s. Aspin Pharma Pvt Ltd., Korangi Industrial Area, Karachi issued on 01-06-2023
vi.	Request (dated 18-07-2023) for withdrawal of Mezeron 30mg Tablet submitted by M/s. Searle Pakistan Ltd; Karachi
vii.	Relevant undertakings & commitments.

I	II	III	IV
S.No.	**Reg. No.**	**Existing Product Name & Composition**	**Registration Trail**
1.	026397	Mezeron 30mg Tablet Each tablet contains: Mirtazapine …….30mg (USP Specification)	Initial date of Reg. in the name of **M/s Organon, Karachi. DATED:** 25-09-2001 **Renewal of Registration DATED:** 28-04-2006 **Transfer of Registration to** MSD of Pakistan, Karachi **DATED:** 13-12-2008 Transfer of Registration to **M/s OBS Pakistan Pvt. Ltd** C-14 Mangopir Road SITE Karachi. **DATED:** 09-07-2009 Transfer of plant & Registration to **M/s Searle Pakistan Limited (DML # 000012)** C-14 Mangopir Road SITE Karachi. **Dated: 25-04-2022** **Change of Brand Name DATED:** 26-08-2014 & Last Renewal **DATED:** 26-03-2019

History of the case:

Vide Dy.No. 357/DDC(Reg-I) dated 18-04-2019, Firm submitted application on Form 5F(CTD) for change in manufacturing site along with transfer of registration **from** M/s OBS Pakistan Pvt. Ltd C-14 Mangopir Road SITE Karachi, **To** M/s Aspin Pharma (Pvt) Ltd, Karachi. **(DML # 000012)** Plot No. 10&25 Korangi Industrial Area, Karachi-Pakistan. **(DML 000045)**.

The case was evaluated and accordingly presented in 307th meeting of Registration board wherein Board decided as under:

"Deferred for submission of stability studies of active substance (API) as per conditions of Zone IV-A or/otherwise submission of requisite information/ documents as already decided by the Board in its 290th meeting under *"Requirement of The Storage Conditions for The API Stability and FPP Stability".*

The firm vide letter no. ASP/RAL/04/03 dated April 05, 2022 has now submitted that:-

"This is with reference to the subject stated above. We Aspin Pharma (Pvt.) Ltd. would like to bring into your knowledge that the stability data of API i.e. Mirtazapine used in one of our products. Mezeron Tablet 30mg is according to zone II as provided by the API manufacturer.

We do understand that the requirement of submission of API long term stability data is 30ºC±2C/ 65%RH±5%RH. However, API is stored in our warehouse under controlled conditions till it is processed into finished product.

Besides that, API manufacturer has performed accelerated stability at 40'C±2"C/ 75%RH±5%RH for a total of six consecutive batches and tested for up to 6 months. the results of which are unchanged from the initial testing which shows the stable nature of API and its controlled manufacturing process

As WHO and ICH recommended the stability study storage condition for FPP to be determined according to climate zone and on that basis. Pakistan falls under zone IVA On the other hand. we are performing stability study on more stringent conditions i.e. 30ºC±2C/ 75%RH±5%RH and the results of accelerated and long term data shows that the product is stable. Please further note that the product is tested according to USP monograph and the results of assay is indicating the potency of API w1th1n the defined limit in Pharmacopoeia.

Therefore. we request the honorable DRAP to accept the stability study provided for API for climate condition 25ºC±2 C/ 60%RH±5%RH along with its six months accelerated stability at 40ºC±2ºC/ 75%RHx5%RH and the FPP stability on the recommended storage condition in the country of origin as an evidence that product is stable and in compliance with the specification and have no impact on product's quality parameters

We have already completed our stability studies for finished product for 21\ months at 30ºC±2'C/ 75%RH±5%RH as well as six months accelerated stability study at 40ºC±2ºC and 75%RH±5%RH. The results of which are satisfactory.

We commit & assure that we will follow the required storage condition of API throughout its transportation till its use in the finished product for all the future shipments.

In the view of above-mentioned justification. we do hope acceptance of the stability data of API and our Finished Product further for registration process."

As per the decision of the Registration Board aforementioned, the firm was required to submit followings information in accordance to the decision of the 290th meeting of the Registration Board: -

I. Data logger for the storage condition through the transportation of the API of Mezeron 30mg tablets imported in August, 2018 from M/s Zhejiang Liaoyuan Pharmaceutical Co. Ltd, Linhai City, China
II. Real time stability studies of the Mezeron 30mg Tab performed by the M/s Aspin Pharma, Karachi along with the degradation studies.

The firm has submitted stability data sheets for the real time stability studies performed for two years at 30ºC±2ºC, 75%RH±5% as well as accelerated stability of 6 months performed at 40ºC±2ºC and 75%RH±5%RH. However, the degradation studies data is not provided.

Decision of RB in its 317th meeting:

Registration Board deferred the case for submission of stability studies of active substance (API) as per conditions of Zone IV-A or/otherwise submission of following information/ documents as already decided by the Board in its 290th meeting under "Requirement of The Storage Conditions for The API Stability and FPP Stability":

i. Record of the data logger for the storage condition throughout the transportation of the API of Mezeron 30mg tablets imported in August, 2018 from M/s Zhejiang Liaoyuan Pharmaceutical Co. Ltd, Linhai City, China
ii. Real time stability studies of the Mezeron 30mg Tablet performed for at least 01 year along with the degradation studies by M/s Aspin Pharma, Karachi.

Current status of Application:

On 07th June 2023, Applicant has submitted revised application on Form 5F **with new source of API** along with prescribed fee of PKR 30,000/- dated 22-05-2023**.** This revision is in response to the decision of 317th DRB meeting which required the active Pharmaceutical stability data as per Zone IV-A for **Mezeron Tablet 30mg.** The reason for this change is the unavailability of stability data of the existing source of API as per Zone IV-A.

The details of previous and new source are given below

Previous API source	New API source
M/s Zhejiang Liaoyuan Pharmaceutical Co. Ltd. Zhejiang Provincial Chemical and Medical	**M/s Maithri Drugs Private Limited** Sy. No. 205,222 to 226, IDA Bonthapally (Village) Gummadidala (Mandal) Sangareddy

Raw Material Base Linhai Zone Duqiao Town, Linhai City, Zhejiang Province.	District Telgana, India.

Accordingly, application has been evaluated as under:-

Name, address of Applicant / Marketing Authorization Holder	M/s Aspin Pharma (Pvt) Ltd, **(DML 000045)**. Plot No. 10 & 25 Korangi Industrial Area, Karachi.
Name, address of Manufacturing site.	**Transfer of Registration:** **From** M/s Searle Pakistan Limited **(DML # 000012)** *Formerly (M/s OBS Pakistan Pvt. Ltd)* C-14 Mangopir Road S.I.T.E Karachi. *(NOC attached dated 1st June,2023)* **To** M/s Aspin Pharma (Pvt) Ltd, Karachi. **(DML 000045)**. Plot No. 10 & 25 Korangi Industrial Area, Karachi.
Status of the applicant	☒ **Manufacturer** ☐ Importer ☐ Is involved in none of the above (contract giver)
GMP status of the firm	Inspection report dated **13-06-2022** GMP compliance level **"A"**
Evidence of approval of manufacturing facility	Renewal of DML # 000045 dated 16th June 2021 with following sections i. Tablet (General) ii. Capsule (General) iii. Cream/Ointment/Gel (General) iv. Liquid Syrup (General)
Status of application	☐ New Drug Product (NDP) ☒ **Generic Drug Product (GDP)**
Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ **Domestic and Export sales**
Dy. No. and date of submission	Dy. No. 14289 dated 07-06-2023
Details of fee submitted	PKR 30,000/-: 22-05-2023 **(Slip # 695206250750)**
The proposed proprietary name / brand name	**Mezeron 30mg Tablets** *(Reg.No. 026397)*
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Mirtazapine ……. 30 mg
Pharmaceutical form of applied drug	Tan colored, oval shape, film coated tablets, upper side plain & score line on lower side.
Pharmacotherapeutic Group of (API)	Antidepressants
Reference to Finished product specifications	USP Specification
Proposed Pack size	As per registration letter
Proposed unit price	As per registration letter
The status in reference regulatory authorities	USFDA approved **Remeron®** 30mg Tablet, by Organon
For generic drugs (me-too status)	**Mirtazep®** by M/s Zafa
Name and address of API manufacturer.	**M/s Maithri Drugs Private Limited** Sy. No. 205,222 to 226, IDA Bonthapally (Village) Gummadidala (Mandal) Sangareddy District Telgana, India.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. & submitted summarized information related to general properties, physical form, specification, impurities & degradation products, specification, analytical procedures, batch analysis, working standards, container closure system and stability studies of drug substance & drug products.
	Module-III Drug Substance:	The firm has submitted data of drug substance related details of manufacturers, nomenclature, structure. general properties description of manufacturing process and controls, impurities, specifications, analytical procedure, CoAs , batch analysis and justification of specification, reference standards or materials , container closure system.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 6 batches (54.1 kg each) of drug substance at both accelerated as well as real time conditions. The accelerated stability data was conducted at 40oC ± 2°C / 75% ± 5% RH for 6 months and the real time stability data is conducted at 25oC ± 2oC / 60% ± 5% RH for 60 months. The Mirtazapine is packed in double-layer of polyethylene bags, tied with a nylon ribbon. Then the bags are put in fibre drum and labelled
	Module-III Drug Product:	Firm has submitted data of drug product including its composition, formulation development, manufacture, product, specifications, analytical procedures, verification of analytical procedures. However, following comments are submitted for consideration: Firm has not provided manufacturing process, in-process controls, and process validation protocol. Firm has not provided DS & excipients compatibility studies. Significant difference for the manufacturing process used for primary stability batch and process for commercial batches were not identified. Instead of pharmacopeia reference standards, firm used to work standards provided by DS manufacturer. Firm has not conducted Container Closure System suitability studies,
	Pharmaceutical Equivalence and Comparative Dissolution Profile	The comparative dissolution profiles for **Mezeron 30mg Tablets against Remeron 30mg Tablets (Italy)** were generated in different dissolution media i.e. HCl (pH 1.2), Phosphate buffer (pH 6.8), and Acetate buffer (pH 4.5). More than 85% of the labelled amount of the API released within 10 minutes from both products in pH 1.2 HCl buffer and phosphate buffer pH 6.8. F1 and f2 Factors were calculated and results were compliant. Following tests are mentioned in Pharmaceutical equivalence report of **Mezeron 30mg Tablets against Remeron 30mg Tablets (Italy)** i. Appearance ii. Identification iii. Weight variation iv. Disintegration test v. Assay vi. Dissolution vii. Organic impurities
	Analytical method validation/verification of product	Firm has USP specification and verification of analytical method for the drug product has been provided.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	K-896628153687 dated 29-08-2022 Invoice # 6500225060 dated 16-08-2022
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has provided a certificate for HPLC system as 21 CFR compliant.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation Remarks:

- The formulation of the drug product at new site, is same as in the previous site.
- Applicant submitted CDP & pharmaceutical equivalence studies against **Remeron®** by Organon.
- Source of API submitted stability data for both Zone II as well Zone IV-A.
- Firm submitted in tabulated form the results of quality tests for Mezeron 30mg tablet manufactured at new site vs previous site.

Case No.7: Request of M/s Akhai Pharmaceuticals (Pvt) Ltd., Balochistan for Manufacturing of Ketlar Injection 500mg/ml (Reg.No. 014966) to Consume the Available API

Registration Board in its 323rd meeting held on 06th – 08th December, 2022 considered application of M/s Akhai Pharmaceuticals (Pvt) Ltd., Balochistan for permission to consume the imported quantity of Ketamine Hydrochloride (i.e., 50kg) for production of Ketlar Injection 500mg/ml (Reg. No. 014966) (by way of contract manufacturing at M/s. Neutro Pharma (Pvt) Ltd.9.5 KM, Sheikhupura Road, Lahore). Detail is as under:

Proceedings of M-323:

M/s Akhai Pharmaceuticals (Pvt) Ltd., A-248 & A-256 to A-259, Hub Industrial Trading Estate Lasbella Balochistan has informed that they have contract manufacturing permission (valid till 30th June, 2025) of Ketlar Injection (Reg. No.014966) by M/s. Neutro Pharma (Pvt) Ltd. 9.5 KM, Sheikhupra Road, Lahore.

The firm has further informed that the contract manufacturer i.e. M/s Neutro Pharma had imported 50kg of Ketamine HCl on their behalf and for the exclusive manufacturing of their above stated product. Primary and secondary packaging materials are also available with them. However, Ketamine has recently been classified under controlled substances. Now there is acute shortage in the market and patient is suffering due to non-availability of this essential drug. Accordingly, the firm has requested for permission to consume the available quantity of Ketamine HCl in the best interest of patient.

In this context, it is submitted that Ketamine and its salts has been declared as "Psychotropic substances" vide SRO Number 1350(I)/2021 dated 15th October, 2021. Furthermore, as the existing contract manufacturing policy, notified vide SRO 1347(I)/2021, dated 15.10.2021, Rule 20 A 2(c):

"Contract manufacturing of controlled drugs (narcotic drug or psychotropic substances or precursor chemicals) shall not be allowed;"

However, the above referred product was granted registration for contract manufacturing well before classification of Ketamine under controlled substances.

Comments Received from Controlled Drugs Division:

The Committee for Allocation of Quota of Controlled Substances allocates the quota to those firms having valid drug manufacturing license and valid drug registration as per SOP.

Comments Received from QA&LT Division:

Consumption of any API is linked primarily to valid license to manufacture a drug and secondarily to valid registration of that drug. If as a consequence of any change in some rule/regulation or policy the status of both these prerequisite (DML and MA) for any drug becomes void/invalid, the consumption of respective APIs could not be allowed for that particular drug.

Decision of M-323:

Keeping in view the classification of "Ketamine and its salts" under psychotropic substances (vide SRO 1350(I)/2021 dated 15th October, 2021) and Rule 20A(2)(c) of Drugs (L, R & A), Rules, 1976, Registration Board decided as follows:

- ***Decided to issue show cause notice to the firm under Section 7 (11)(d) of the Drug Act, 1976 that why the registration of their product "Ketlar Injection (Reg. No. 014966)" may not be cancelled. Management of the firm shall also be given the opportunity of personal hearing in the forthcoming meeting of the Board under section 42 of the Drugs Act, 1976.***
- ***Recommended QA&LT Division to decided case for already imported material as per Drug (I&E) Rules, 1976.***

Accordingly, above-mentioned decision of Registration Board has been communicated to QA& LT Division for deciding fate of imported API "Ketamine'. Furthermore, M/s Akhai Pharmaceuticals (Pvt) Ltd., Balochistan has been issued show-cause along-with personal hearing notice to appear before the Registration Board on 25th July, 2023 at 2.00 P.M.

Decision of 330th Meeting:

Registration Board decided that the firm shall be provided one final opportunity of personal hearing in the next meeting.

Registration-II Section

Case No. 01: Decision of USFDA to Withdraw Approval of Makena (Hydroxyprogesterone Caproate Injection) and its Generics.

On April, 06, 2023, U.S. Food and Drug Administration announced the final decision to withdraw approval of Makena—a drug that had been approved under the accelerated approval pathway. This drug was approved to reduce the risk of preterm birth in women pregnant with one baby who have a history of spontaneous preterm birth. The decision was issued jointly by the FDA Commissioner and Chief Scientist. Effective today, Makena and its generics are no longer approved and cannot lawfully be distributed in interstate commerce.

2. In 2011, FDA approved Makena to reduce the risk of preterm birth in women with a singleton pregnancy who have a history of singleton spontaneous preterm birth. This accelerated approval was based

on a trial that showed the drug reduced deliveries before 37 weeks of pregnancy, an intermediate clinical endpoint that FDA determined was reasonably likely to predict clinical benefit to the newborn.

3. As a condition of Makena's accelerated approval, the sponsor was required to conduct a confirmatory clinical trial to verify and describe the predicted clinical benefit to newborns. This trial, which was nearly four times larger than the trial that supported Makena's approval, did not show improvement in the health of the babies born to mothers who were treated with Makena. Makena and its generics (i.e., generic versions of Makena) are not shown to be effective for reducing the risk of preterm birth in women with a singleton pregnancy who have a history of singleton spontaneous preterm birth. Nor have Makena and its generics been shown to be effective for any subgroup of this population, including in women at high risk of preterm birth. In addition, there are known risks associated with Makena. Accordingly, these drugs do not have benefits that outweigh their risks to patients.

4. Registration Board while considering the approval of Hydroxyprogesterone Injection in USFDA registered following drug products.

Sr. No.	Reg. No.	Product Name & Composition	Registration Holder / Manufacturer	Renewal Status
1.	096479	Nandrosol 250mg Injection Each ml contains: Hydroxyprogesterone caproate....……250mg	Pharmasol (Pvt) Ltd, Plot 549, Sunder Industrial estate, Lahore., Lahore	Renewal is not yet due
2.	094205	Hygest Injection Each ml contains: Hydroxyprogesterone caproate....……250mg	Shaigan Pharmaceuticals (Pvt) Ltd	Renewal is not yet due
3.	003531	Hydroxyprogesterone Injection Each ml contains: Hydroxyprogesterone caproate....……250mg	M/s. Zafa Pharmaceutical, Karachi.	Renewal is valid
4.	030526	Globinan 2Ml Injection Hydroxy Progesterone Caproate…. 250mg	Global Pharmaceuticals Pvt Ltd	Renewal Not Submitted
5.	030525	Globinan 1Ml Injection Hydroxy Progesterone	Global Pharmaceuticals Pvt Ltd	Renewal Not Submitted
6.	013624	VIO-DEPOT INJ Each ml contains: Hydroxyprogesterone caproate....……250mg	Venus Pharma, 23 Km Multan Road Lahore. , Lahore	Renewal Not Submitted
7.	003746	HYDROXYPROGESTRONE INJECTION Each ml contains: Hydroxyprogesterone caproate....……250mg	Haji Medicines, Rawalpindi	Renewal Not Submitted
8.	003833	HYDROXYPROGESTRONE Each ml contains: Hydroxyprogesterone caproate....……250mg		Renewal Not Submitted

5. Following combination drug products containing Hydroxyprogesterone were also registered by the Registration Board.

Sr. No.	Reg. No.	Product Name & Composition	Registration Holder / Manufacturer	Renewal Status
1.	103324	Kevi Injection Each ml contains: Hydroxyprogesterone caproate_ 250 mg Estradiol valerate _ 5 mg	Hansel Pharmaceuticals (Pvt) Ltd., Plot No 2 Pharma City 30-Km Multan Road Lahore. , Lahore	Renewal is not yet due
2.	084375	Contrex Injection Each ml contains:	Shaigan Pharmaceuticals (Pvt) Ltd	Renewal is valid

		Hydroxyprogesterone caproate_ 250 mg Estradiol valerate _ 5 mg		
3.	077108	Z-Bron Injection Each ml contains: Hydroxyprogesterone caproate_ 250 mg Estradiol valerate _ 5 mg	Pharma Health Pakistan (Pvt) Ltd.	Renewal is valid
4.	011155	VIO-DEPOT INJ HYDROXYPROGESTERONE CARPOATE 250MG QUESTRADIOL VALERATE 5MG SESAME OIL 693MG	Wilson's Pharmaceuticals	Renewal Not Submitted
5.	000798	GRAVIBINON INJECTION HYDROXY PROGESTERONE CAPROATE 250MG, , OESTRADIOL VALERATE IN OILY SOLUTION	Medipharm (Private) Limited,, 7-A, Gulberg II, Lahore, Lahore	Last renewal was submitted dated 02-10-2018

6. Sub-rule 10 (a) of Rule 30 of Drugs (L, R & A) Rules, 1976 narrates as under:

"(a) if that drug at any time, for safety reasons is withdrawn or banned or certain restrictions are imposed in any of the said countries, then it shall be the responsibility of the manufacturer in Pakistan or as the case may be, the indentors, to immediately withdraw the drug from the market in Pakistan or, as the case may be to impose similar restriction and to inform the registration Board within fourteen days of such an information having come to his knowledge and having taken the necessary action. The Registration Board after getting the said intimation shall take similar action for the same drug available from other sources within the shortest possible time;"

7. Decision of 327th Meeting:

Registration Board decided to issue show-cause notice to all registration holders having valid registration of Hydroxyprogesterone containing drug products under section 7(11) (d) read with section 42 of Drug Act 1976 that why the registration of their products may not be cancelled in the public interest. For products having in-valid registration, RRR-Section is advised to proceed for cancellation of registration.

8. **(Hydroxyprogesterone Caproate)** With reference to above decision of 327th meeting of the Board, M/s. Bayer has submitted a request for reconsideration of Drug Registration Board (327th Meeting) decision for Proluton Depot Injection (Hydroxyprogesterone Caproate) in response of withdrawal of Makena by USFDA. Request of the firm is as under:

i. *Proluton Depot is Bayer's innovator product, registered in Pakistan since 1988. However, Makena was first approved by USFDA in 2012 under the accelerated approval pathway.*
ii. *It is important to note that approval of Makena was Withdrawn by USFDA due to lack of efficacy in approved indication i.e. To reduce the risk of preterm birth which is entirely different from approved indication of Proluton Depot i.e., Habitual and imminent abortion, infertility due to corpus luteum insufficiency, primary and secondary amenorrhea but not due to quality or safety reasons.*
iii. *Bayer is the manufacturer of Drug Substance i.e., Hydroryprogesterone caproate) used for the manufacturing of Proluton Depot.*
iv. *Proluton Depot is available in many countries across the World including Austria (SRA), Bahrain, Malaysia, Afghanistan, lran, Turkey, Qatar, Yemen, Lebanon, Oman, Thailand Argentina and Singapore.*
v. *Firm has also submitted snapshot of Austria's Official Health Authority Website confirming the approval of Proluton Depot indication which are reproduced as under:*
"After the ovulation of the woman, the follicles are transformed into the corpus luteum. The corpus luteum produces the hormone progesterone and inhibits thus the premature reduction of the endometrium and causes furthermore a thickening of the cervic mucus. Thus an implantation

of the fertilized egg is possible and favorable conditions for the maintenance of the pregnancy are secured.
lf your body is not producing enough progesterone (corpus luteum hormone) due to a low functioning during pregnancy, a miscarriage (abortion) may occur.
Proluton Depot contains the hormone hydroxyprogesterone caproate, comparable to the naturally produced corpus luteum, which the female body produces during pregnancy.
Proluton is used in case of repeated miscarriage (habitual abortion) due to corpus luteum deficiency."

9. Firm has further submitted a justification provided by Bayer AG, Germany, their ultimate parent company which outlines the differences between the products further and clearly sets out that the USFDA's Makena decision does not have any implication for Proluton Depot. Thus recall is not applicable.

10. **(Hydroxyprogesterone caproate + Estradiol valerate)** With reference to above decision of 327th meeting of the Board, M/s. Bayer has also submitted a request for reconsideration of Drug Registration Board (327th Meeting) decision for Gravibinan Injection (Estradiol Valerate + Hydroxyprogesterone Caproate) in response of withdrawal of Makena (Hydroryprogesterone caproate) and its generics by USFDA stating that Gravibinan, a combination product comprising Estradiol valerate and Hydroxyprogesterone caproate, should not be encompassed in the recent proceedings of the Drug Registration Board meeting regarding the decision of the USFDA to withdraw the approval of Makena (Hydroryprogesterone Caproate) and its generics due to lack of efficacy, i.e. Makena's, approved indication is to reduce the risk of preterm birth in women with a singleton pregnancy who have a history of singleton spontaneous preterm birth.

11. They have further submitted that Gravibinan should be excluded from the scope of this decision, and presented following points:

i. *Regarding Therapeutic Indication of Gravibinan Injection firm has submitted that Gravibinan is not only a distinct product as it is a combination of Estradiol valerate and Hydroxyprogesterone caproate but is also indicated for the prophylaxis of abortion and threatened abortion. Hence, its therapeutic use differs significantly from that of Makena. Furthermore, they have also enclosed a justification provided by Bayer AG, their parent company based in Germany, which outlines the differences between the products and stablishes that the USFDA's decision regarding Makena does not impact Gravibinan.*
ii. *Regarding need for Gravibinan Injection in Pakistan firm has submitted as under:*
    a. *Currantly there are no alternative options available in injectable form for the prophylaxis of abortion and threatened abortion.*
    b. *The prevalence of prophylaxis of abortion and threatened abortion is considerably high within our country.*
    c. *Gravibinan alone serves an annual patient turnover of 630,417.*

12. They have requested to reconsider the decision of 327th meeting of the Board regarding Hydroxyprogesterone caproate and Estradiol valerate + Hydroxyprogesterone caproate.

13. In USFDA, an NDA product DELALUTIN (Hydroxyprogesterone caproate) is discontinued with remarks that "***Federal Register determination that product was not discontinued or withdrawn for safety or effectiveness reasons***". Furthermore, one generic approval of Hydroxyprogesterone caproate Injection 250mg/ml is available as a status of prescription [Abbreviated New Drug Application (ANDA): 200271] with following indication and usage:

> **Hydroxyprogesterone Caproate Injection USP is indicated in non-pregnant women: for the treatment of advanced adenocarcinoma of the uterine corpus (Stage III or IV); in the management of amenorrhea (primary and secondary) and abnormal uterine bleeding due to hormonal imbalance in the absence of organic pathology, such as sub mucous fibroids or uterine cancer; as a test for endogenous estrogen production and for the production of secretory endometrium and desquamation.**

14. Moreover, approved indications of Makena (Hydroxyprogesterone Caproate) are as under:

> **Makena is a progestin indicated to reduce the risk of preterm birth in women with a singleton pregnancy who have a history of singleton spontaneous preterm birth. The effectiveness of Makena is based on improvement in the proportion of women who delivered < 37 weeks of gestation. There are no controlled trials demonstrating a direct clinical benefit, such as improvement in neonatal mortality and morbidity.**

15. Indication approved by Austria as claimed by M/s. Bayer are as under:

After the ovulation of the woman, the follicles are transformed into the corpus luteum. The corpus luteum produces the hormone progesterone and inhibits thus the premature reduction of the endometrium and causes furthermore a thickening of the cervic mucus. Thus an implantation of the fertilized egg is possible and favorable conditions for the maintenance of the pregnancy are secured.
lf your body is not producing enough progesterone (corpus luteum hormone) due to a low functioning during pregnancy, a miscarriage (abortion) may occur.
Proluton Depot contains the hormone hydroxyprogesterone caproate, comparable to the naturally produced corpus luteum, which the female body produces during pregnancy.
Proluton is used in case of repeated miscarriage (habitual abortion) due to corpus luteum deficiency.

Decision: **Registration Board decided that M/s Bayer shall be provided an opportunity of personal hearing in the next meeting to present their stance and brief the Board regarding approval status of their products in reference regulatory authorities.**

Case No. 02: Standardization/Correction of Label Claim as Per Reference / Innovator Product.

i. M/s Biogen Pharma 8-KM Rawat Chak Beli Road Rawat Rawalpindi.

Registration Board in its 295th approved following product of M/s Biogen Pharma 8-KM Rawat Chak Beli Road Rawat Rawalpindi. Firm has submitted request for standardization of label claim as per reference product Ketosteril Tablets approved in Germany. Firm has also submitted fee of Rs.30,000/-. Detail is as under:

Sr. No.	Name of Drug(s) & Composition	Label claim as per RRA (Germany)
1.	Keto Tablet Each film-coated tablet contains: (L-Isoleucine……67mg L-Leucine……. 101mg L-Phenylalanine… 68mg L-Valine ……86mg L-Methionine ……59mg Lysine Acetate ….105mg L-Threonine ……...53mg L-Tryptophan ……23mg L-Histidine ……38mg L-Tyrosine ……..30mg	**Each film-coated tablet contains:** **α-keto analogue of isoleucine, calcium salt…67mg** **α-keto analogue of leucine, calcium salt … 101mg** **α-keto analogue of phenylalanine, calcium salt…68mg** **α-keto analogue of valine, calcium salt …….. 86mg** **α-Hydroxy analogue of methionine, calcium salt…59mg** **Lysine acetate 105mg corresponding to lysine.…… 75mg** **Threonin …… 53mg** **Tryptophan …… 23mg** **Histidin ……... 38mg** **Tyrosin ……...…. 30mg** **Total nitrogen / tablet……...…36mg** **Calcium / tablet…1,25mmol = 50mg**

Decision of 323rd Meeting:

Registration Board decided to defer the case for evidence of availability of testing facility for drug product along with analytical procedure.

As per above decision of the Board, firm has submitted that testing method of Keto Tablet is on HPLC and they have facility of HPLC in their quality control laboratory. Firm has also submitted analytical procedure of Keto Tablet and drug substances.

Submitted for consideration of the Board.

Decision: **Registration Board acceded to the request of M/s Biogen Pharma, 8-KM Rawat, Chak Beli Road Rawat, Rawalpindi for standardization/ correction in label claim of 'Keto Tablet'. Correct label claim is as under:**

"Each film-coated tablet contains:
α-keto analogue of isoleucine, calcium salt…67mg
α-keto analogue of leucine, calcium salt … 101mg
α-keto analogue of phenylalanine, calcium salt…68mg
α-keto analogue of valine, calcium salt …….. 86mg
α-Hydroxy analogue of methionine, calcium salt…59mg
Lysine acetate 105mg corresponding to lysine.…… 75mg
Threonin …… 53mg
Tryptophan …… 23mg
Histidin ……... 38mg

Tyrosin ……..…. 30mg
Total nitrogen / tablet……..…36mg
Calcium / tablet…1,25mmol = 50mg"

ii. M/s Care Pharmaceuticals, 8Km, Thokor Raiwind Road, Lahore.

Registration Board in its 249th approved following product of M/s Care Pharmaceuticals, 8Km, Thokor Raiwind Road, Lahore. Firm has submitted request for correction of label claim as per reference regulatory authority as USFDA and MHRA approved strength is 0.25mg instead of 2.5mg. Firm has also submitted fee of Rs.30,000/- vide challan No. 97701652, verified from website. Detail is as under:

Sr. No.	Name of Drug(s) & Composition	Label claim as per RRA (USFDA)
1.	Sinocare Cream Each gm contains: Fluocinolone acetonide……...2.5mg (USP Specifications)	Sinocare Cream Each gm contains: Fluocinolone acetonide……0.25mg (0.025%) (USP Specifications)

Furthermore, Registration Board in 249th meeting has also decided as under:

Firm shall submit undertaking that they will arrange segregated dispensing booths, and will conduct cleaning validation and control studies for processes and adequate system to minimize the potential risk of cross contamination and authorized Chairman for issuance of registration letter.

As per above mentioned decision of the Board firm has submitted following:

i. GMP Inspection report confirms availability of separate dispensing booth for steroidal products.
ii. Undertaking regarding cleaning validation and control studies for processes and adequate system to minimize the potential risk of cross contamination.

Decision: Registration Board acceded to the request of M/s Care Pharmaceuticals, 8Km, Thokor Raiwind Road, Lahore for correction in label claim of 'Sinocare Cream'. Correct label claim is as under:

"Sinocare Cream
Each gm contains:
Fluocinolone acetonide……0.25mg (0.025%)
(USP Specifications)"

Case No.03: Registration of Drug M/s. Medisave Pharmaceuticals Plot No.578-579 Sundar Industrial Estate Lahore.

Registration Board in its 235th meeting approved following product of M/s. Medisave Pharmaceuticals Plot No.578-579 Sundar Industrial Estate Lahore. Registration letter was not issued and firm has requested for issuance of registration letter. Detail is as under;

Sr. No.	Name of Drug(s)	Demanded Pack Size/Price	Decision of M-235	Remarks
1.	Tisan Tablets Each tablet contains: Levosulpride……...25mg (As per Innovator's Specifications)	2x10's As per SRO	Approved subject to the satisfactory last GMP Inspection report.	Approved in Italy.

Firm has submitted following documents;

i. Form 5
ii. Evidence of submission of fee of Rs. 8,000/- and Rs. 12000/- (Photocopies). Firm has also deposited fresh submission of Rs.30000/- vide challan No. 996504344375, verified from website, in lieu of verification of fee challan.
iii. Firm has submitted GMP Certificate issued based upon evaluation conducted on 18-09-2021.

Decision: Registration Board acceded to the request of Medisave Pharmaceuticals, Plot No.578-579 Sundar Industrial Estate Lahore for registration of "Tisan (Levosulpiride) Tablet 25mg" as per following detail:

"Tisan Tablets
Each tablet contains:
Levosulpride……...25mg
(As per Innovator's Specifications)"

Case No. 04: Correction in Minutes of registration Board.

i. M/s Ameer Pharma 23 KM-Sheikhupura Road, Lahore.

Registration Board in its 321st meeting approved following registration application of M/s Ameer Pharma 23 KM-Sheikhupura Road, Lahore. Detail is under:

Name and address of manufacturer / Applicant	M/s Ameer Pharma 23 KM-Sheikhupura Road, Lahore
Brand Name +Dosage Form + Strength	Vastamer 40mg Tablet
Composition	Each Tablet Contains: Atorvastatin as calcium ……..…40mg
Diary No. Date of R& I & fee	Dy. No. 12801 dated 06.03.2019 Rs. 20,000/- dated 06.03.2019
Pharmacological Group	HMG CoA reductase inhibitors
Type of Form	Form 5
Finished Product Specification	The firm has claimed USP specifications.
Pack size & Demanded Price	10's; As per SRO
Approval status of product in Reference Regulatory Authorities.	ACH-ATORVASTATIN CALCIUM (film-coated) by Accord Healthcare Inc. **Health Canada** approved
Me-too status	Fatilor 40mg Tablet by Lisko Pakistan Ltd. Reg No. 58163 (does not depict film-coating)
GMP status	The firm was inspected on 09.12.2019 and 26.01.2020, wherein renewal of DML was recommended,
Remarks of the Evaluator.	• The firm's title is Ameer Pharma (Pvt) Limited in fee challan and GMP inspection report. • Had already adjusted the weight of API as per salt factor. The reference product in Health Canada contains Atorvastatin as calcium trihydrate. Revised the label claim from Atorvastatin as calcium to Atorvastatin as calcium trihydrate, and Atorvastatin calcium to Atorvastatin calcium trihydrate in the master formula. • Submitted Rs. 7500 (challan- 10165654)
Decision: Registration Board discussed the matter of the incomplete title of the firm declared in Form 5 and while acknowledging the fact that covering letter of firm's application declared full title of firm i.e., M/s Ameer Pharma (Pvt.), 23 KM-Sheikhupura Road, Lahore and also each page of Form 5 has been stamped with the title as "M/s Ameer Pharma Pvt. Ltd." decided to approve the product as per following label claim: **"Each film coated tablet Contains:** **Atorvastatin as calcium ……10mg"** **Firm shall submit revised label claim along with master formulation for film coated tablet along with fee of Rs. 7,500/- for correction/pre-approval change/ in product label claim from uncoated to film coated tablet, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**	

While processing registration letter it was transpired that applied strength of the product is 40mg while in decision of the Board it was mentioned as 10mg. Hence, correction ids required in decision of the Board. Firm has also submitted Firm has submitted revised label claim along with master formulation and fee of Rs.30,000/-", [Rs.7500/-, vide challan No. 666070574000 and Rs.22500/- vide challan No. 58992619140, verified from website. Accordingly, correct formulation is as under:

"Each Film Coated Tablet Contains:
Rosuvastatin (as calcium)..…40mg"

Decision of 326th meeting:

Registration Board decided to approve the correction in above product with following details.

"Each Film Coated Tablet Contains:
Rosuvastatin (as calcium)..…40mg"

In decision of 326th meeting, name of drug substance was mentioned as Rosuvastatin (as calcium) instead of Atorvastatin as Calcium trihydrate. Registration letter has been issued with correct formulation as

"Each film coated tablet Contains:
Atorvastatin as calcium trihydrate……40mg"

Submitted for information of the Board.

ii. M/s Briell Pharmaceutical (Pvt) Ltd. 538C Sundar Industrial Estate Multan Road, Lahore.

a. Zanaflex 4mg Tablet

Name and address of manufacturer / Applicant	M/s Briell Pharmaceutical (Pvt) Ltd. 538C Sundar Industrial Estate Multan Road, Lahore.
Brand Name + Dosage Form + Strength	Zanaflex 4mg Tablet
Composition	Each Film Coated Tablet Contains: Tizanidine Hydrochloride…4mg
Diary No. Date of R& I & fee	Dy.No 16037 dated 07-03-2019 Rs.20,000/- dated 07-03-2019
Pharmacological Group	Centrally acting agent; muscle relaxant
Type of Form	Form-5
Finished product Specifications	USP
Pack size & Demanded Price	1 x 10's; As per the brand leader
Approval status of product in Reference Regulatory Authorities	Approved by MHRA of UK
Me-too status (with strength and dosage form)	SN Skelax 4 mg Tablets by M/s SNB Pharma (Pvt) Ltd. (Reg#078413)
GMP status	GMP certificate issued on basis of inspection conducted on 20-10-22
Remarks of the Evaluator [II]: • Submit revised label claim as per innovator product declaring label claim in terms of Tizanidine, and dosage form as uncoated tablet along with master formulation and relevant fee as per Notification No. F.7-11/2012-B&A/DRAP dated 07th May, 2021. • Firm has submitted revised label claim as under along with submission of fee of Rs. 30,000/- vide deposit slip# 1604826473. "Each Tablet Contains: Tizanidine as HCl…..…125mg"	
Decision: Approved as per following label claim: **"Each Tablet Contains:** **Tizanidine as HCl…..…125mg"**	

While processing registration letter it was observed that in decision of the Board, strength was mentioned as 125mg instead of 4mg. With reference to fee challan No. 1604826473, verified from website [eDRAP - Portal] submitted for correction in label claim, firm has mentioned correct label claim with correct strength. While it is typo error in decision of the Board. Hence, registration letter has been issued with correct label claim as:

Each Tablet Contains:
Tizanidine as HCl…..…4mg

Submitted for information of the Board.

b. Zanaflex 2mg Tablet

Name and address of manufacturer / Applicant	**M/s Briell Pharmaceutical (Pvt) Ltd. 538C Sundar Industrial Estate Multan Road, Lahore.**
Brand Name + Dosage Form + Strength	Zanaflex 2mg Tablet
Composition	Each Film Coated Tablet Contains: Tizanidine Hydrochloride…2mg

Diary No. Date of R& I & fee	Dy.No 16037 dated 07-03-2019 Rs.20,000/- dated 07-03-2019
Pharmacological Group	Centrally acting agent; muscle relaxant
Type of Form	Form-5
Finished product Specifications	USP
Pack size & Demanded Price	As per SRO
Approval status of product in Reference Regulatory Authorities	Approved by MHRA of UK
Me-too status (with strength and dosage form)	SN Skelax 4 mg Tablets by M/s SNB Pharma (Pvt) Ltd.
GMP status	GMP certificate issued on basis of inspection conducted on 20-10-22

Remarks of the Evaluator [II]:

- Submit revised label claim as per innovator product declaring label claim in terms of Tizanidine, and dosage form as uncoated tablet along with master formulation and relevant fee as per Notification No. F.7-11/2012-B&A/DRAP dated 07th May, 2021.
- Firm has submitted revised label claim as under along with submission of fee of Rs. 30,000/- vide deposit slip# 27845250049.

"Each Tablet Contains:
Tizanidine as HCl…..…125mg"

Decision: Approved as per following label claim:
"Each Tablet Contains:
Tizanidine as HCl…..…125mg"

While processing registration letter it was observed that in decision of the Board, strength was mentioned as 125mg instead of 2mg. With reference to fee challan No. 1604826473, verified from website [eDRAP - Portal] submitted for correction in label claim, firm has mentioned correct label claim with correct strength. While it is typo error in decision of the Board. Hence, registration letter has been issued with correct label claim as:

Each Tablet Contains:
Tizanidine as HCl…..…2mg

Submitted for information of the Board.

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Cebac 2G injection IM/IV by M/s Bosch pharmaceutical (Pvt) Ltd., USFDA Approved. Reg. No.073420
	For generic drugs (me-too status)	Sulperazone 2g injection by M/s Pfizer
	GMP status of the Finished product manufacturer	GMP Certificate No.70/2021-DRAP(FID/2061717-540) Dated 08-09-21
	Name and address of API manufacturer.	M/s. Qilu Antibiotics Pharmaceutical Co. Ltd. 849 Dongjia Town, Licheng District Jinan City PR China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, , specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C /65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, process validation protocol, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against t Cebac 2Gm injection IM/IV by M/s Bosch pharmaceutical (Pvt) Ltd.
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	M/s. Qilu Antibiotics Pharmaceutical Co. Ltd. 849 Dongjia Town, Licheng District Jinan City PR China.

Administrative Portion		
37.	Reference of previous approval of applications	N/A

	with stability study data of the firm (if any)	
38.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	--
39.	Documents for the procurement of API with approval from DRAP (in case of import).	• Firm has submitted copy of letter from M/s Medisave Pharmaceuticals in name of M/s Wimits Pharmaceuticals for "Approval of Loan" of Cefoperazone sodium/Sulbactam sodium dated 18-03-2022. • Copy of commercial Invoice # JTRF210908-MQ in name of M/s Medisave Phamraceuticals, attested by AD I&E Lahore dated 01-10-2021 for import of 100 KG Cefoperazone sodium + Sulbactam sodium.
40.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
41.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
42.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator[II]:

Sr.#	Observations	Firm's response
1.5.6	The said section mentions the drug product specifications as "In-house" whereas section 3.2.P.5.1 declares the drug product specifications as per JP monograph. Clarification shall be submitted in this regard.	Firm has submitted revised section 1.5.6 declaring drug product specifications as per JP for both strengths.
1.6.5	Valid copy of GMP certificate/DML of the drug substance manufacturer issued by the relevant regulatory authority shall be submitted.	Firm has submitted copy of GMP certificate no. SD20180660 issued by CFDA valid till 008-02-2023
3.2.P.1	Details of accompanying reconstitution diluent shall be submitted.	Firm has referred to WFI as reconstitution diluent.
3.2.P.2.2.1	Justification shall be submitted for not performing test of pH and water Content in Pharmaceutical equivalence studies.	Firm has submitted performance of test of pH and water content in Pharmaceutical equivalence studies.
3.2.P.2.6	Compatibility studies with reconstitution diluent shall be submitted.	Compatibility studies with WFI has been submitted for both strengths.
3.2.P.5.2	The submitted analytical procedure does not mention use of internal standard solution in Assay test as recommended by JP monograph. Clarification shall be submitted in this regard.	It is submitted that the system suitability test has been performed during analytical method verification studies as per JP monograph wherein internal standard solution was used along with standard and sample solutions. Firm has also submitted revised analytical procedure.
3.2.P.6	COA of reference/working standard of "Sulbactam" shall be submitted.	Submitted.
3.2.P.8	Justification shall be submitted for manufacturing of trial batches sin April 2022, whereas section approval	Inspection was conducted on 21st March 2022 and sections were approved as per inspection report.

	was granted on 07-06-2022.	

Decision: Registration Board approved the applications of MAGNIX 2gm IV/IM injection & MAGNIX 1gm IV/IM injection. Registration letter will be issued after verification of the loan letter by M/s Medisave Pharmaceuticals and submission of fee of Rs. 75,000/- for each strength for correction/pre-approval change in stability data as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

As mentioned in remarks of evaluator, firm has submitted revised section 1.5.6 declaring drug product specifications as per JP for both strengths. Hence, it is a typo error in minutes of meeting that firm has submitted revised stability. Firm had submitted fee of Rs.7500/- for change of specification to "JP Specifications", vide challan No. 82736284, verified from website and registration letter was issued.

Decision: Registration Board noted the following information:

i. **Correction in minutes of 326th meeting of Registration Board with respect to "Vastamer 40mg Tablet" of M/s Ameer Pharma 23 KM-Sheikhupura Road, Lahore. Correct composition/ label claim is as under:**

"Each film coated tablet contains:
Atorvastatin as Calcium Trihydrate……40mg"

ii. **Correction in minutes of 323rd meeting of Registration Board with respect to "Zanaflex Tablet 4mg and 2mg" of M/s Briell Pharmaceutical (Pvt) Ltd. 538C Sundar Industrial Estate Multan Road, Lahore. Correct composition/ label claim of both products is as under:**

"Zanaflex Tablet 4mg
Each Tablet Contains:
Tizanidine as HCl…..…4mg

Zanaflex Tablet 2mg
Each Tablet Contains:
Tizanidine as HCl…..…2mg"

iii. **Correction in minutes of 323rd meeting of Registration Board with respect to "Magnix 2gm IV/IM Injection" and "Magnix 1gm IV/IM Injection" of M/s Wimits Pharmaceuticals (Pvt) Ltd., Plot #129 Sundar Industrial Estate, Raiwind road, Lahore. Correct decision is as under:**

Registration Board approved the applications of MAGNIX 2gm IV/IM injection & MAGNIX 1gm IV/IM injection. Registration letter will be issued after verification of the loan letter by M/s Medisave Pharmaceuticals and submission of fee of Rs.7,500/- for each strength for correction/pre-approval change in finished product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 05: Stability Data of Linagliptin + Metformin Tablet of M/s. CCL Pharmaceuticals (Pvt) Ltd. 62 Industrial Estate Kot Lakhpat Lahore.

Registration Board in its 243rd meeting approved following products in the name of M/s. CCL Pharmaceuticals (Pvt) Ltd. 62 Industrial Estate Kot Lakhpat Lahore. Detail of products is as under:

Sr. No.	Name of Drug	Demanded Pack Size / Price	Decision of 243rd DRB
1.	Lina-Met 2.5/500 Tablet Linagliptin …. 2.5mg Metformin HCl …. 500mg	14's As per brand leader	**The Board approved registration of above products.**
2.	Lina-Met 2.5/850 Tablet Linagliptin …. 2.5mg Metformin HCl …. 850mg	14's As per brand leader	
3.	Lina-Met 2.5/1000 Tablet Linagliptin …. 2.5mg Metformin HCl …. 1000mg	14's As per brand leader	

Being new molecule firm has submitted 6 Month accelerated and 24 Month real time stability studies data. Detail is as under:

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability GMP Inspection Report Date & Remarks
1.	M/s CCL Pharmaceuticals Pvt Ltd 6, Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore	Lina-Met 2.5/ 500 mg Tablet Each tablet contains: Linagliptin …… 2.5 mg Metformin HCL ….. 500 mg	Dy. No. 1100/R&I 12-01-2023 Rs. 30,000/- (Slip # 996179471)	

Remarks of Evaluator:

- The firm has submitted stability study data along with required documents as per checklist approved in 293rd meeting of Registration Board.

DOCUMENTS / DATA PROVIDED BY THE APPLICANT				
1.	Reference of previous approval of applications with stability study data of the firm	Last PSI was conducted for ErtuSita 15/100 mg, for which the inspection was conducted on 16-06-2021		
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Firm has submitted copy of COA of the drug substance from both API Manufacturer and Finished Product manufacturer.		
3.	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Firm has submitted copy of method used for analysis of API from both API Manufacturer and Finished Product manufacturer		
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 5°C ± 3°C for 24 months.		
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy **Metformin HCL**: M/s Wanbury Limited situated at Doctors Organic Chemicals Division, Iragavaram (M), K. illindalaparuu-534217, West Godavari Distric, Andhra Pardesh, India bearing License 107/WG/AP/95/B/R dated 19-05-1995, retained from 29-07-2018 to 28-07-2023 issued by DCA Govt of Andhra Pardesh, India **Linagliptin:** Fuxin Long Rui Pharmaceutical Co., Ltd, Flouride Industrial park, Fuxin city, Liaoning Province-123000 China issued by Food and Drug Administration of Liaoning Province valid until December 20,2022, issued date 21/2017		
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 28-12-2021 specifying 06 Kgs of Linagliptin. The invoice is cleared by AD (I&E) DRAP. Firm has submitted copy of commercial invoice cleared dated 21-01-2022 specifying 10,000 Kgs of Metformin HCl. The invoice is cleared by AD (I&E) DRAP.		
7.	Protocols followed for conduction of stability study	Firm has submitted protocols followed for conduction of stability study		
8.	Method used for analysis of FPP	Firm has provided detailed method for analysis of FPP		
9.	Drug-excipients compatibility studies (where applicable)	Firm has used same excipients as that of the innovator's product therefore compatibility studies are not required		
10.	Complete batch manufacturing record of three	Firm has provided Batch Manufacturing Record for		

	stability batches.	all the batches
11.	Record of comparative dissolution data (where applicable)	Firm has submitted CDP results of their product against the innovator's product Jentadueto 2.5/500 mg Tablets in 3 dissolution medias.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted documents like chromatograms, raw data sheets, COA, summary data sheets for the stability studies
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted certificate of 21 CFR compliance for the HPLC system
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for both stability chambers for accelerated as well as real time stability studies.

Sr. No.	Name & Address of Manufacturer / Applicant	Brand Name (Proprietary Name + Dosage Form + Strength), Composition, Pharmacological Group, Finished Product Specification	Type of Form, Initial Diary & Date, Fee (including differential fee), Demanded Price / Pack size	International Availability GMP Inspection Report Date & Remarks

Firm has submitted copy **Metformin HCL**: M/s Wanbury Limited situated at Doctors Organic Chemicals Division, Iragavaram (M), K. illindalaparuu-534217, West Godavari Distric, Andhra Pardesh, India bearing License 107/WG/AP/95/B/R dated 19-05-1995, retained from 29-07-2018 to 28-07-2023 issued by DCA Govt of Andhra Pardesh, India **Linagliptin:** Fuxin Long Rui Pharmaceutical Co., Ltd, Flouride Industrial park, Fuxin city, Liaoning Province-123000 China issued by Food and Drug Administration of Liaoning Province valid until December 20,2022, issued date 21/2017
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared dated 28-12-2021 specifying 06 Kgs of Linagliptin. The invoice is cleared by AD (I&E) DRAP. Firm has submitted copy of commercial invoice cleared dated 21-01-2022 specifying 10,000 Kgs of Metformin HCl. The invoice is cleared by AD (I&E) DRAP.
7.	Protocols followed for conduction of stability study	Firm has submitted protocols followed for conduction of stability study
8.	Method used for analysis of FPP	Firm has provided detailed method for analysis of FPP
9.	Drug-excipients compatibility studies (where applicable)	Firm has used same excipients as that of the innovator's product therefore compatibility studies are not required
10.	Complete batch manufacturing record of three stability batches.	Firm has provided Batch Manufacturing Record for all the batches
11.	Record of comparative dissolution data (where applicable)	Firm has submitted CDP results of their product against the innovator's product Jentadueto 2.5/500 mg Tablets in 3 dissolution medias.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted documents like chromatograms, raw data sheets, COA, summary data sheets for the stability studies
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Firm has submitted certificate of 21 CFR compliance for the HPLC system
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for both stability chambers for accelerated as well as real time stability studies.

Decision: **Registration Board deferred the case for submission of following information/ documents by the applicant:**

i. **Evidence for inclusion of Arginine in the drug product formulation.**
ii. **Analysis of Arginine content in the drug product.**
iii. **Analysis of Enantiomeric purity of Linagliptin.**

iv. Valid GMP Certificates of API manufacturer and stability data of API as per conditions of Zone-IV-A.

Case No. 06: Recommendation to Registration Board in Light of Decision of Meetings of Pharmacovigilance Risk Assessment Expert Committee.

Pharmacovigilance Risk Assessment Expert Committee (PAEC) of Pharmacy Services Division of DRAP has forwarded following recommendations to Registration Board.

A. RECOMMENDATIONS OF 1ST MEETING OF PAEC.

1. DOMESTIC SIGNALS

1.1 Anaphylactic Reaction with Diclofenac Sodium.

Decision of PRAEC:

i. The PRAEC after detailed deliberation and discussion decided to update the warning, precaution & contraindication sections of the prescribing information/ safety specification/ label of Diclofenac Sodium injection about the occurrence of anaphylactic reaction/ anaphylactic shock and its contraindication in a patient with a history of asthma, urticaria, or allergic-type reactions after taking aspirin or other NSAIDs.

ii. Furthermore, the PRAEC in light of Rule 10 (1) (e) of the Pharmacovigilance Rules, 2022 decided to recommend the Registration Board to update the safety specification/ label of Diclofenac Sodium Injection.

1.2 Infusion-related hypersensitivity reactions with Remdesivir

Decision of PRAEC

The PRAEC after detailed deliberation & discussion and in light of recommendations of the National Pharmacovigilance Centre decided as under:

i. To update the prescribing information/ safety specification/ label of Remdesivir with the inclusion of information related to infusion-related hypersensitivity reactions and its monitoring in the warning and precaution sections and onward recommendation to the Registration Board in light of Rule 10 (1) (e) of the Pharmacovigilance Rules, 2022. Furthermore, all the registration holders should also introduce educational training for healthcare professionals on proper preparation, administration and flow rate of Remdesivir, and monitoring of patients;

ii. To advise the Registration Board to review the grant of Emergency Use Authorization for the product Viso-Rem Solution for infusion in light of the investigation carried out by the panel of QA and LT Division of the DRAP; and

iii. Furthermore, to advise the QA and LT Division of the DRAP in light of Rule 10 (1) (e) of the Pharmacovigilance Rules, 2022 to strengthen its surveillance mechanism of registration holders of Remdesivir.

2. RELIANCE OF INTERNATIONAL SAFETY DECISIONS.

2.1. Clozapine: Risk of serious bowel complications

Decision of PRAEC

i. The PRAEC after detailed deliberation and discussion decided to update and strengthen the warning section of Clozapine with gastrointestinal side effects, including constipation and severe bowel problem in light of Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022.

ii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter.

2.2 Iodinated contrast media (ICM) injections: Risk of Hypothyroidism in babies and young children.

Decision of PRAEC

i. The PRAEC after detailed deliberation and discussion decided as per Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022 to update the warning and precaution section of the

prescribing information of the entire class of iodinated contrast media (ICM) that are used for radiological purposes to include risks of an underactive thyroid or a temporary decrease in thyroid hormone levels in children 3 years or younger i.e newborns, particularly those born premature, and children in their first 3 years with underlying conditions such as heart issues etc

ii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter.

2.3 Remdesivir: Risk of sinus bradycardia

Decision of PRAEC

i. The PRAEC after discussion decided as per Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022 to update the prescribing information (warning & adverse drug reactions sections) of Remdesivir to include the potential risk of sinus bradycardia.

ii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter.

2.4 Atezolizumab: Risk of severe cutaneous adverse reactions (SCARs)

Decision of PRAEC

i. The PRAEC after deliberation decided as per Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022 to update prescribing information of Atezolizumab (Tecentriq®) to include the risk of severe cutaneous adverse reactions (SCAR) including Stevens-Johnsons Syndrome (SJS) and Toxic Epidermal Necrolysis (TEN).

ii. Furthermore, it was decided that registration holders should issue direct healthcare professional communication in this regard.

iii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter.

2.5 Metformin and reduced vitamin B12 levels

Decision of PRAEC

i. The PRAEC after discussion decided as per Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022 to update prescribing information of Metformin and other medicines containing Metformin to state that vitamin B12 deficiency is an adverse drug reaction with Metformin use and the risk of this adverse reaction occurrence increases with increasing metformin dose and treatment duration and in patients with risk factors known to cause vitamin B12 deficiency.

ii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter.

2.6 Pregabalin: Risk of Major Congenital Malformations

Decision of PRAEC

i. The PRAEC after detailed deliberation and discussion decided as per Rule 10 (1) (h) (iv) and (vi) of Pharmacovigilance Rules, 2022 to update prescribing information of Pregabalin to include information from a new study that pregabalin may slightly increase the risk of major congenital malformations if used in pregnancy and include advise on effective contraception during treatment in pregnancy.

ii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter

2.7 Interaction between hydroxychloroquine or chloroquine, and macrolide antibiotics: increased risk of cardiovascular events with co-administration.

Decision of PRAEC

i. The PRAEC after discussion decided as per Rule 10 (1) (h) (iv) and (vi) of Pharmacovigilance Rules, 2022 to update prescribing information (warning and interaction sections) of hydroxychloroquine, chloroquine and macrolide antibiotics (azithromycin, erythromycin or clarithromycin excluding topical macrolides) about the potential interaction of increased risk of cardiovascular events and cardiovascular mortality if hydroxychloroquine or chloroquine is taken with a macrolide-antibiotic.

ii. It was decided to onward recommend/inform the Registration Board for necessary action in the matter.

2.8 Hydroxyethyl-starch solutions for infusion: risk of kidney injury and death

Decision of PRAEC

The PRAEC after detailed deliberation and discussion and as per Rule 10 (1) (h) (v) of Pharmacovigilance Rules, 2022 decided to recommend to the Registration Board to suspend the registration of Hydroxyethyl-Starch (HES) solutions in Pakistan subject to the availability of alternative treatment options.

B. RECOMMENDATIONS OF 2ND MEETING OF PAEC.

1. DOMESTIC SIGNALS

1.1 Hypersensitivity Reactions with Pegaspargase (Peg L Asparaginase).

Decision:

A. The PRAEC after detailed deliberation and discussion decided to recommend to the Registration Board of the DRAP as per Rule 10 (1) (e) of the Pharmacovigilance Rules, 2022 as follows:

1. To direct registration holders to change/update the prescribing information/safety specification of Pegaspargase by including the following information:

a. Information related to hypersensitivity reactions and its monitoring in the warning and precaution sections; and

b. Information on treatment modification as per the grade of hypersensitivity reactions in dosage and administration sections.

2. To direct registration holders to introduce an educational training programme for healthcare professionals on proper preparation, administration and monitoring of Pegaspargase and to ensure that resuscitation equipment and other appropriate means for the treatment of anaphylaxis/hypersensitivity reactions such as epinephrine, oxygen, intravenous steroids, etc. are available at the administrative sites.

3. The importer should establish an active pharmacovigilance system by appointing a Qualified Person for Pharmacovigilance (QPPV) within 15 days and regularly submit the data of collected ADRs to the National Pharmacovigilance Centre as per Pharmacovigilance Rules, 2022.

B. The PRAEC also decided to recommend to National Pharmacovigilance Centre (NPC), DRAP as per Rule 10 (1) (b) to issue an advisory to all hospitals where Pegaspargas is distributed in Pakistan to strictly follow standard chemotherapy protocol for preparation, administration and monitoring of Pegaspargas.

2. RELIANCE OF INTERNATIONAL SAFETY DECISIONS.

2.1. Buprenorphine: Risk of dental problems

Decision:

- *The PRAEC decided as per Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022 to update the prescribing information/safety specification of buprenorphine medicines that are dissolved in the mouth by including information related to the risk of dental issues, pre-prescribing assessment of patients and guidelines of taking extra steps after use in the warning and precaution section.*
- *To recommend Registration Board to update the prescribing information of buprenorphine-containing medicines that are orally dissolved in light of the PRAEC decision and as per the US-FDA label.*

2.2 **Benzodiazepines: Potential Risk of Abuse, Dependence and Withdrawal.**

Decision:

A. The PRAEC decided as per Rule 10 (1) (h) (iv) & (vi) of Pharmacovigilance Rules, 2022 as follows:

I. Registration holders of all benzodiazepines should update the prescribing information/safety specification by including information related to abuse, misuse, addiction and withdrawal in the warning and precaution section;

II. *Registration holders should create the boxed warning in the prescribing information/safety specification as per the below format;*

WARNING: RISKS FROM CONCOMITANT USE WITH OPIOIDS; ABUSE, MISUSE, AND ADDICTION; and DEPENDENCE AND WITHDRAWAL REACTIONS.
• Concomitant use of benzodiazepines and opioids may result in profound sedation, respiratory depression, coma, and death. Reserve concomitant prescribing for use in patients for whom alternative treatment options are inadequate. Limit dosages and durations to the minimum required. Follow patients for signs and symptoms of respiratory depression and sedation.
• The use of benzodiazepines, including **Drug X** exposes users to risks of abuse, misuse, and addiction, which can lead to overdose or death. Before prescribing **Drug X** and throughout treatment, assess each patient's risk for abuse, misuse, and addiction.

III. *Registration holders should also include information related to abuse, misuse, addiction and withdrawal of benzodiazepine in their educational training and promotional material for healthcare professionals.*

B. *To recommend Registration Board to update the prescribing information of all benzodiazepine-containing medicines as per the decision of PRAEC and as per US-FDA and MedSafe, Newzealand label/prescribing information.*

C. *Keeping in view the sale of benzodiazepine without a prescription (if any) at medical stores/pharmacies across Pakistan, that may further enhance the patient's risk of abuse, misuse and addiction and illicit use. The PRAEC decided to request the QA/LT Division of the DRAP to further coordinate with provincial drug control administrations including the drug control administration of Azad Jammu and Kashmir, Gilgit Baltistan and Islamabad to ensure strict control on the over-the-counter sale of benzodiazepine by medical stores/pharmacies and maintenance of sale records of all benzodiazepine sold through prescription.*

2.3 Janus Kinase (JAK) Inhibitors: Risk of serious heart-related events, blood clots, cancer and death.

Decision:

- *The PRAEC decided as per Rule 10 (1) (h) (iv) and (vi) of Pharmacovigilance Rules that registration holders should update prescribing information/safety specification of Xeljanz ® (tofacitinib) with the inclusion of information related to heart attack or stroke, cancer, blood clots, and death in the warning and precaution section and to create a Boxed warning as per below format:*

WARNING: SERIOUS INFECTIONS, MORTALITY, MALIGNANCY, MAJOR ADVERSE CARDIOVASCULAR EVENTS (MACE), AND THROMBOSIS
• Increased risk of serious bacterial, fungal, viral, and opportunistic infections leading to hospitalization or death, including tuberculosis (TB). Interrupt treatment with XELJANZ/XELJANZ XR/XELJANZ Oral Solution if serious infection occurs until the infection is controlled. Test for latent TB before and during therapy; treat latent TB prior to use. Monitor all patients for active TB during treatment, even patients with initial negative latent TB test.
• Higher rate of all-cause mortality, including sudden cardiovascular death with XELJANZ vs. TNF blockers in rheumatoid arthritis (RA) patients.
• Malignancies have occurred in patients treated with XELJANZ. Higher rate of lymphomas and lung cancers with XELJANZ vs. TNF blockers in RA patients.
• Higher rate of MACE (defined as cardiovascular death, myocardial infarction, and stroke) with XELJANZ vs. TNF blockers in RA patients.
• Thrombosis has occurred in patients treated with XELJANZ. Increased incidence of pulmonary embolism, venous and arterial thrombosis with XELJANZ vs. TNF blockers

in RA patients.

- *To recommend Registration Board to update the prescribing information of Xeljanz ® (tofacitinib) in light of the decision of PRAEC and as per the label/prescribing information of Health Canada, MHRA-UK, US-FDA and PMDA Japan.*

3.4 **Insomnia medicines: Risk of complex sleep behaviours.**

Decision:

- *The PRAEC decided as per Rule 10 (1) (h) (ii), (iv) and (vi) of Pharmacovigilance Rules, 2022 that registration holders should update the prescribing information/safety specification of zolpidem-containing drugs by including information related to complex sleep behaviour in the warning and precaution sections, information related to contraindications in patients who have experienced complex sleep behaviours after taking these drugs in the past, and to create a boxed warning as per the following format:*

WARNING: COMPLEX SLEEP BEHAVIORS
Complex sleep behaviors including sleep-walking, sleep-driving, and engaging in other activities while not fully awake may occur following use of ***zolpidem***. Some of these events may result in serious injuries, including death. Discontinue ***zolpidem*** immediately if a patient experiences a complex sleep behavior

- *To recommend Registration Board to update the prescribing of zolpidem-containing medicines in light of the decision of PRAEC and as per the label/prescribing information of US-FDA and PMDA Japan.*

3.5 Finasteride: Potential risk of suicidal ideation/thoughts & self-injury.

Decision:

- *The PRAEC decided as per Rule 10 (1) (h) (iv) of Pharmacovigilance Rules, 2022 that registration holders should update prescribing information/safety specification of Finasteride containing drugs by strengthening the warning statements on the risks of suicidal ideation and self-injury, and to include information about patient screening for psychiatric risk factors before starting treatment.*
- *To recommend Registration Board to update the prescribing information of Finasteride-containing medicines in light of the decision of PRAEC and as per the product monograph/prescribing information of Health Canada.*

3.6 Pholcodine: Potential risk of developing anaphylactic reactions to neuromuscular blocking agents (NMBA):

Decision:

The PRAEC deliberated the case in detail and considered that at present there is a lack of possibility to identify effective measures to minimize the risk of anaphylactic reactions to neuromuscular blocking agents (NMBAs) in patients with a previous history of Pholcodine use and also considered the free availability of alternative treatment options for the treatment of cough and flu/cold in the market of Pakistan. Accordingly, the PRAEC decided to recommend to the Registration Board as per Rule 10(1)(h)(v) of Pharmacovigilance Rules, 2022 to suspend the registrations of "Pholcodine" containing products till the final outcome or decision by the European Commission, following which the case will be reconsidered

Proceedings of 330th Meeting:

Registration Board was apprised that for all cases (including Domestic signals or Reliance on international safety decisions), recommendations of PRAEC to update the prescribing information/ safety specifications are based on updated SmPC of innovator's/ reference drug products. In this context, following links have also been shared by Pharmacy Services Division:

A. RECOMMENDATIONS OF 1ST MEETING OF PAEC.

1. DOMESTIC SIGNALS

1.1 Anaphylactic Reaction with Diclofenac Sodium.
Section 4.3, 4.4 and 4.8 of SmPC EMC-UK.
https://www.medicines.org.uk/emc/product/9399/smpc
Contraindication and adverse drug reaction section of FDA label.
https://www.accessdata.fda.gov/drugsatfda_docs/label/2014/022396lbl.pdf

1.2 Infusion-related hypersensitivity reactions with Remdesivir
US-FDA Label:
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/214787s019lbl.pdf
Section 4.4 and 4.8 of SmpC of UK
https://www.medicines.org.uk/emc/product/11597

2. RELIANCE OF INTERNATIONAL SAFETY DECISIONS.

2.1. Clozapine: Risk of serious bowel complications
Warning and Precaution sections of US-FDA Label Clozapine
https://www.accessdata.fda.gov/scripts/cder/daf/index.cfm?event=overview.process&ApplNo=019758

2.2 Iodinated contrast media (ICM) injections: Risk of Hypothyroidism in babies and young children.
Warning and Precaution sections of US-FDA Label of Omnipaque, Ultravist, Visipaque
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/018956s116,020608s049lbl.pdf
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/020220Orig1s055;021425Orig1s037lbl.pdf
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/020351s057,020808s035lbl.pdf

2.3 Remdesivir: Risk of sinus bradycardia
Section 4.8 of the product monograph of Canada:
https://pdf.hres.ca/dpd_pm/00071267.PDF
section of 4. 8 of EMC of MHRA UK
https://www.medicines.org.uk/emc/product/11597

2.4 Atezolizumab: Risk of severe cutaneous adverse reactions (SCARs)
Section 4.8 of EMC of UK
https://www.medicines.org.uk/emc/product/8442/smpc

2.5 Metformin and reduced vitamin B12 levels
Sections 4.4 and 4.8 of EMC of UK
https://www.medicines.org.uk/emc/product/987/smpc

2.6 Pregabalin: Risk of Major Congenital Malformations
Sections 4.4 and 4.6 of EMC of UK
https://www.medicines.org.uk/emc/product/10303/smpc

2.7 Interaction between hydroxychloroquine or chloroquine, and macrolide antibiotics: increased risk of cardiovascular events with co-administration.
Section 4.5 of Azithromycin and chloroquine
https://www.medicines.org.uk/emc/product/1073/smpc
https://www.medicines.org.uk/emc/product/5490/smpc

B. RECOMMENDATIONS OF 2ND MEETING OF PAEC.

1. DOMESTIC SIGNALS

1.1 Hypersensitivity Reactions with Pegaspargase (Peg L Asparaginase).
Warning and precaution sections and dosage and administration sections of the FDA label of Pegaspargase.
https://www.accessdata.fda.gov/drugsatfda_docs/label/2022/103411s5205lbl.pdf
EMC SmPC of UK.
https://www.medicines.org.uk/emc#gref.

2. RELIANCE OF INTERNATIONAL SAFETY DECISIONS.

2.1. Buprenorphine: Risk of dental problems
5.12 section of FDA label buccal tablets of Buprenorphine
https://www.accessdata.fda.gov/drugsatfda_docs/label/2022/207932s019s020lbl.pdf

3.2 Benzodiazepines: Potential Risk of Abuse, Dependence and Withdrawal.
A boxed warning, warning and precaution section and dosage and administration sections of FDA label of diazepam, lorazepam and alprazolam etc and all BZD
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/013263Orig1s098lbl.pdf
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/018276s059lbl.pdf
https://www.accessdata.fda.gov/drugsatfda_docs/label/2023/017794s049lbl.pdf

3.3 Janus Kinase (JAK) Inhibitors: Risk of serious heart-related events, blood clots, cancer and death.
Warning and Precautions section and Boxed warning of Xeljanz FDA label:
https://www.accessdata.fda.gov/drugsatfda_docs/label/2021/203214s028,208246s013,213082s003lbl.pdf
Section 4.4 and 4.8 of SmPC of Xeljanz of EMC-UK
https://www.medicines.org.uk/emc/product/9410/smpc

3.4 Insomnia medicines: Risk of complex sleep behaviours.
A boxed warning, warning and precaution section (5.1) and contraindication sections of the FDA label of zolpidem.
https://www.accessdata.fda.gov/drugsatfda_docs/label/2022/019908s40s044s047lbl.pdf

3.5 Finasteride: Potential risk of suicidal ideation/thoughts & self-injury.
Post-Market Adverse Drug Reactions (Psychiatric Disorders) of Product Monograph of Canada.
https://pdf.hres.ca/dpd_pm/00060780.PDF
https://pdf.hres.ca/dpd_pm/00060786.PDF

While, following two cases are based on reliance on the decisions taken by reference regulatory authorities:

Hydroxyethyl-starch solutions for infusion: risk of kidney injury and death
European Commission update:
https://www.ema.europa.eu/en/news/hydroxyethyl-starch-solutions-infusion-recommended-suspension-market#:~:text=Hydroxyethyl%2Dstarch%20solutions%20for%20infusion%20recommended%20for%20suspension%20from%20the%20market,-Share&text=Update%20as%20of%2026%20July,of%20HES%20solutions%20for%20infusion.
PRAEC recommendation:
https://www.ema.europa.eu/en/news/prac-recommends-suspending-hydroxyethyl-starch-solutions-infusion-market-0

Pholcodine: Potential risk of developing anaphylactic reactions to neuromuscular blocking agents (NMBA):
TGA suspension:
https://www.tga.gov.au/safety/information-about-specific-safety-alerts-and-recalls/about-pholcodine-cough-medicines-cancelled-tga-and-recalled-pharmacies-safety-reasons
PRAC, CMdH of EMA withdrawal:
https://www.ema.europa.eu/en/medicines/human/referrals/pholcodine-containing-medicinal-products
MHRA:

Decision:
Registration Board decided as under:

i. **Keeping in view the recommendations forwarded by PRAEC and updated SmPC of the innovator's/ reference drug products, all relevant registration holders/ manufacturers shall update the label/ prescribing information/ safety specification/ warning/ adverse drug reaction/ interaction/ precaution/ contraindication sections (whichever is applicable) of their**

registered products. For this purpose, a general advisory shall be issued to all registration/ marketing authorization holders for regular update/ revision in label/ prescribing information/ safety specifications of their registered products in line with SmPc of the innovator's/reference drug products. Furthermore, the advisory shall also include, introduction of educational training programs (where ever applicable) for Health care professionals.

ii. **Keeping in view the international practices with respect to emergency use authorizations of Remdesivir, relevant manufacturers shall be directed to apply for grant of registration/ full marketing authorization along-with submission of data/ studies as required for registration on Form-5F.**

iii. **QA & LT Division shall be advised to strengthen its surveillance mechanism with respect to registration/ emergency use authorization holders of Remdesivir.**

iv. **Following cases shall be further deliberated in the next meeting. For this purpose, the Board advised to present complete record and updated decisions taken by the reference regulatory authorities with respect to these cases:**

   a. **Review of grant of Emergency Use Authorization for the product "Viso-Rem Solution for infusion (of M/s Vision Pharmaceuticals, Islamabad)" in light of the investigation carried out by the panel of QA and LT Division of the DRAP**
   b. **Risk of kidney injury and death associated with Hydroxyethyl-starch solutions for infusion and recommendation of PRAEC to suspend the registration of Hydroxyethyl-Starch (HES) solutions in Pakistan subject to the availability of alternative treatment options.**
   c. **Potential risk of developing anaphylactic reactions to neuromuscular blocking agents (NMBA) in patients with a previous history of Pholcodine use and recommendations of PRAEC to suspend the registrations of "Pholcodine" containing products till the final outcome or decision by the European Commission, following which the case will be reconsidered.**

Post Registration-I Section

Case 1: Applications of M/s AGP Limited, Karachi for transfer of manufacturing of drug products from import to local manufacturing

M/s AGP Limited, Karachi had applied for transfer of manufacturing of their two (02) products form import to local manufacturing.

2. The dossier of the product was submitted on Form-5F (CTD).

6.	Name, address of Applicant / Marketing Authorization Holder	M/s AGP Limited. B-23-C, S.I.T.E, Karachi

45.	Documents for the procurement of API with approval from DRAP (in case of import).	K-632264687816 dated 23-06-2022
46.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
47.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted

48.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Initial Shortcomings in applications and reply of the firm:

Observations	Reply of firm
1.4.3 Please submit following information related to Asset purchase agreement (APA) made between OBS &Viatris.	
i. Description of assets to be sold, including tangible and intangible assets, real estates, intellectual property and contracts	Only brands with their complete drug product dossiers have been acquired along with their intellectual property rights and Marketing Authorization [MA]. List of acquired brands is **enclosed as Annex-I**
ii. Closing conditions of the agreement.	Approval from Competition Commission of Pakistan and State Bank of Pakistan, which have been duly obtained. OBS Pakistan shall initiate the process to deliver funds or cause to be delivered to Viatris.
iii. Indemnification conditions regarding who is responsible for any liabilities arising from the sold assets.	The company who has sold the product and issued the warranty will be responsible until its shelf life. Similarly, OBS Pakistan will be responsible for those batches which will be supplied by it after the closing /MA transfer of these products.
iv. Details of transfer of Intellectual property including patents, trademarks, copyrights etc.	We have acquired the trademarks of products.
1.4.4 Please submit the following	
legalized copy of No Objection Certificate issued by Viatris for allowing OBS to use brand name "Clozaril".	The No objection Certificate [NOC] is under legalization process, and we will submit the legalized NOC before issuance of the transfer letter.
1.6.5 Please submit details of the following:	
i. Are API supplier and Excipient suppliers of Viatris for the proposed drug product, part of Asset purchase agreement?	Yes, Viatris has transferred complete and up-to-date drug product dossiers concerning the **"Clozaril Tablet"** to the OBS. It is a documentation based **"Product Knowledge transfer"**. The details of drug substance and excipients & packing included in the technical dossier submitted in DRAP for approval of local manufacturing in Pakistan, has been finalized after comparing with drug product dossier provided by Viatris for Clozaril Tablets. The specifications and relevant functional characteristics of the starting materials (APIs and excipients) to be used at AGP are consistent with materials used at the Viatris. The formulation of the drug product for local manufacturing is same as compared with formulation of Clozaril manufactured by Viatris.
ii. Drug Substance manufacturer and excipients manufacturer for the drug product **"Clozaril "** used by Viatris.	Currently, Clozaril is manufactured in Germany. Therefore, they are using the drug substance complied with Eur. Phr. The monograph of Eur. Phr. Is enclosed as **Annex-II**
iii. Please justify that API supplier chosen by OBS has same impurity profile of API and	We have selected the drug substance that complies with USP because of the following factors: -

bioequivalence to the API supplier of Viatris.	• The specifications and relevant functional characteristics of the starting materials (APIs and excipients) to be used in local manufacturing in Pakistan are consistent with materials used at the Viatris. • Technology transferhas been made with documented evidence that OBS can manufacture the Clozaril, with same processesand methodsas per set of specifications as agreed with the Viatris. • The limits of impurities are same in USP and Eur. Phr. While USP also required to perform test for residual solvents as well as the particle size of our API is D (90) less than 10 microns which will also enhance the dissolution & improve the bioavailability, **enclosed in Annex-II.** • The finished product is currently registered with USP specs. The manufacturing process and excipients recommended in the dossier are same used in our Drug Product formulation **(Annex-IV)**. • We have done the pharmaceutical equivalence study and comparative dissolution test with Clozaril and submitted with the dossier.
iv. Submit COA of API supplier of Viatris.	The COA of API supplier of Viatris submitted.

Formulation & Process Equivalence Summary

S#	Components	Clozaril by Madaus GmbH	Clozaril by AGP
1.	Composition	Clozapine, Lactose, Starch Maize, Talc, PVP, Colloidal silicon Dioxide, Magnesium Sterate.	Clozapine, Lactose monohydrate, Starch Maize, Talc, PVP, Colloidal silicon Dioxide, Magnesium Sterate.
2.	Process Flow Chart	Dry mixing → wet granulation → drying → crushing → blending → lubrication → compression	Dry mixing → wet granulation → drying → crushing → blending → lubrication → compression
3.	Physical Parameters	25 mg Tablets ---- round flat shape 100 mg Tablets --- round biconvex shape	25 mg Tablets ---- round flat shape 100 mg Tablets --- round biconvex shape

Pharmaceutical Equivalence Summary

<tr><td colspan="2">Decision of 94th PRV</td><td colspan="4">The Chairman Registration Board on the recommendation of the Committee defer the case for confirmation of Innovator's formulation along with clarification as BP monograph mentions Alginate while instant formulation has 02 APIs.</td></tr>
<tr><td colspan="2">Fresh Reply</td><td colspan="4">Reg.: LAGITA ADVANCE Suspension Regn. No. 076759
Ref.: Your Letter No. F.94-PRVC/2023 (PR-I) dated 13th January, 2023

In response to your above referred letter, we are respectfully submitting hereunder point wise reply to each query

1. <u>Using 02 APIs:</u>

• Product title as per British Pharmacopoeia 2023 is "Compound Alginate Antacid Oral Suspension" and product description is as under
"Compound Alginate Antacid Oral Suspension is a suspension containing an alginate in a suitable flavored vehicle.<u>The suspension has an acid neutralizing capacity</u>." (Annex I)

• As per Handbook of Excipients "Salts of alginate do not have pH neutralizing capacity"
(Annex II)
• Potassium Bicarbonate is used in medicines as an antacid. It has been registered by FDA under the section of "suitable, safe and effective ingredients for OTC antacids."(Annex III)
• Alginate-based formulations either contain alginate as the principle active agent or combine the alginate with antacid (a type of medicine that is alkaline in nature and works by neutralizing excess acid)
• Secondly it is also evident, according to the definition and testing requirement of BP, that the product should contain more than one API:
"Content of aluminum, Al; calcium; Cal magnesium, Mg; potassium, K; sodium, Na, as appropriate 84.0 to 116.0% of requisite amount, this being calculated from the stated amounts of the relevant constituents"
(Annex I)
• Sodium Alginate itself does not contain any of the above constituent except Sodium

2. <u>Confirmation of Innovator formulation:</u>

• As per Public Assessment Report of GAVISCON ADVANCE SUSPENSION:</td></tr>
</table>

	▪ *Gaviscon Advance contains the ingredients sodium alginate and potassium bicarbonate, and belongs to a group of medicines known as "reflux suppressants".* ▪ *Reflux is a process in which the acid stomach juices flow back up into the food pipe.* ▪ *Unlike the stomach, the food pipe is not resistant to acid so that when reflux occurs, it causes pain and discomfort commonly known as heartburn.* ▪ *Gaviscon Advance forms a protective layer that floats on top of the stomach contents and keeps the stomach contents away from the lining of the food pipe to relieve the symptoms of heartburn and acid indigestion* **(Annex IV)** . • *As per a* ***Review article****:* ***Alginate-raft formulations in the treatment of heartburn and acid reflux*** ▪ *"Alginate-based formulations also contain antacid components, which can provide significant* ***acid neutralization capacity****, the efficacy of these formulations to reduce heartburn symptoms does not appear to be totally dependent on the neutralization of bulk gastric contents."* ▪ *"Alginate-based raft-forming formulations usually contain sodium or potassium bicarbonate"* **(Annex V)** **Conclusion:** Based on above-stated references, it is evident that: • BP monograph is for the more than one API and not for Sodium Alginate only • Our product does comply with BP and Innovator Specs both
Decision of 102 PR-I	*The Chairman Registration Board on recommendation of committee decided to refer the complete case to Registration Board.*
Remarks	
Decision	**Registration Board considered the data submitted by firm and acceded to request of firm for change in finished product specifications from "Manufacturer's Specifications" to "BP Specifications".**

Export Facilitation Desk

Case No.01: Registration of Drug (s) of M/s NabiQasim Industries (Pvt.) Ltd, 17/24, Korangi Industrial Area, Karachi, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from letter No. F 2-20/85-Lic dated 27-04-2020
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from Inspection report renewal of DML dated 27-05-2022
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Irpo Syrup Each 5ml contains: Iron (III) hydroxide polymaltose complex equivalent to Elemental Iron.....125mg	Purchase order from Kenya	Dy. No. 533(02.06.2023) Rs.75,000/- (23.02.2023) Registration status of formulation in country of import is required.

Decision:

Registration Board deliberated that although the aforementioned formulation is neither a me-too formulation nor available in any RRA. However, the said formulation does not require special manufacturing conditions and the firm has purchase order from Kenya. Hence, to increase the export revenue of the country, Registration Board approved above product exclusively for export purpose only.

Case No.02: Registration of Drug (s) of M/s Glitz Pharma, Plot No. 265, Industrial Triangle, Kahuta Road Islamabad, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from letter No. F 1-35/2003-Lic dated 22-09-2021
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from Inspection report renewal of DML dated 17-06-2021
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Ferilitz Plus Syrup Each 5ml contains: Ferric ammonium citrate.....45mg Folic acid BP.....0.5mg Vitamin B1 BP.....1mg Vitamin B6 BP.....2mg Vitamin B12 BP.....18mcg Nicotinamide.....10mg	Purchase order from Burundi	Dy. No. 499(31.06.2023) Rs.75,000/- (23.02.2023) Registration status of formulation in country of import is required.

Decision: Registration Board deliberated that although the aforementioned formulation is neither a me-too formulation nor available in any RRA. However, based on purchase order from Burundi & to increase the export revenue of the country, Registration Board approved above product exclusively for export purpose only.

Case No.03: Registration of Drug (s) of M/s ISIS Pharmaceuticals & Chemical Works, 25/1-3, Sector 12-C, North Karachi Industrial Area Karachi, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from letter No. F 2-11/2005-Lic dated 15-06-2021
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from Inspection report renewal of

	DML dated 12-02-2020
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Infacolic Drops Each ml contains: Simethicone.....40mg Dill Oil.....0.005ml Fennel oil.....0.0007ml	Purchase order from Yaman	Dy. No. 545(06.06.2023) Rs.30,000/- (29.06.2023) Rs.45,000/- (29.06.2023) Registration status of formulation in country of import is required.
2.	Fero B Syrup Each 5ml contains: Green iron (ferric ammonium citrate) BPc.....200mg Thiamine HCl BP.....2mg Riboflavin BP.....0.5mg Cyanocobalamin BP.....2.5mcg Nicotinamide BP.....5mg	Ero B Syrup by M/s Eros	Dy. No. 546(06.06.2023) Rs.30,000/- (13.05.2023) Registration status of formulation in country of import is required. Differential fee of Rs. 45000/- is required.

Decision:

Registration Board deliberated that although the aforementioned formulations are neither me-too formulations nor available in any RRA. However, the said formulations are simple formulations which do not require special manufacturing conditions and the firm has purchase order from Yaman. Therefore, to increase the export revenue of the country, Registration Board decided as follows:

- **Approved the product at Sr. No. 1 exclusively for export purpose only.**
- **Approved the product at Sr. No. 2 exclusively for export purpose only subject to submission of differential fee of Rs. 45000/-.**

Case No.04: Registration of Drug (s) of M/s Winlet Pharmaceuticals (Pvt.) Ltd, 30-Km, Lahore Sargodha Road, Sargodha, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;
Copy of DML (Renewal status) along with approval of relevant sections verified by licensing Division or inspection report for renewal of DML before 2005.	Copy of DML provided Approval of relevant section verified from cGMP Certificate dated 25-11-2022
GMP Status. Copy of Inspection report/GMP certificate.	GMP status verified from Inspection report renewal of DML dated 25-11-2022
Undertakings that the applied product is exclusively for export purpose and the proposed names/ label/ colour do not resemble with already registered brands in importing country.	Provided

Detail of the products is given below:

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(EFD)/Fee with date
I	II	III	IV
1.	Kofrelax-D EXP Syrup Each 5ml Syrup contains:	Purchase order from Senegal	Dy. No. 563(08.06.2023) Rs.30,000/- (11.05.2023)

	Guaiphenesin.....50mg Phenylephrine HCl.....5mg Chlorpheniramine Maleate.....2mg Ammonium Chloride.....100mg		Rs.45,000/- (02.06.2023) Registration status of formulation in country of import is required.
2.	Maxiglobin FA Syrup Each 5ml syrup contains: Iron-III-Hydroxide polymatose complex eq to Elemental Iron.....125mg Folic acid.....0.35mg	Purchase order from Senegal	Dy. No. 564(08.06.2023) Rs.30,000/- (11.05.2023) Rs.45,000/- (02.06.2023) Registration status of formulation in country of import is required.

Decision:

Registration Board deliberated that although the aforementioned formulations are neither me-too formulations nor available in any RRA. However, the said formulations are simple formulations which do not require special manufacturing conditions and the firm has purchase order from Senegal. Therefore, to increase the export revenue of the country, Registration Board approved above products exclusively for export purpose only.

Case No.05: Registration of Drug (s) of M/s Davis Pharmaceutical Laboratories, Plot No. 121, Industrial Triangle, Kahuta Road, Islamabad, for export purposes only.

Firm has applied for registration of drug(s) only for export purpose as per following details:

Requirements As Per SOP	Submitted Documents
Application on Form-5/ Form 5-D with required fee as per relevant SRO.	Form5;

Sr.#	Name of Drug(s) with composition	Generic/RRA Status	Dy.No.(R&I)/Fee with date
I	II	III	IV
1.	Ferroplex 40mg Injections Each ml contains: Activated Vitamin B12 (injectable raw liver, N.F. 2mcg/ml) Equivalent to Cyanocobalamin……...…….0.20mcg Vitamin C……...……5.00mg Vitamin B12 (Cyanocobalamin)……500.00mcg	Mexico Approved Formulation	Dy. No.7578/22 (07.04.2022) Rs.75,000/- (11.03.2022)

	Ferrous Citrate…….....….0.02g Panthenol (B5)……...…….3.00mg Thiamine HCl (B1)……..……..50.00mg Riboflavin (B2)……...……0.60mg Pyridoxine HCl (B6)……..……3.00mg Niacinamide (B3)…….…….45.00mg Choline Chlorhydrate…….……6.00mg Inositol…….……..6.00mg		

Decision of 323rd RB:

"*The Registration Board approved the request of the firm for registration of product for Export Purpose Only."*

At the time of issuance of registration letter, it was observed that Injectable raw liver is mentioned along with activated Vitamin B12, so it was decided to ask the firm for clarification of said formulation for which the firm has submitted the following response:

"It is stated that Activated Vitamin B12 are vitamins in their most active form, meaning that they are more bioavailable for immediate absorption into your system.

When given via the parenteral route, it reaches the blood immediately, In the blood, it attaches itself to plasma proteins. Tissues absorb vitamin B12 by specific B12 binding proteins, transcobalamin 1 and, II, allowing it to enter the cells. Most of the vitamin is stored in the liver. Vitamin B12 is essential for DNA synthesis and energy production. VitaminB12 is necessary for the growth and reproduction of many cells, which is especially critical for DNA repair and fetal development, Other useful function include maintaining the nervous system and aiding sheep in the production of wool."

Remarks:

The firm has not submitted any clarification of injectable raw liver mentioned in the composition of product.

Decision:

Registration Board deferred the case for clarification regarding using injectable raw liver in formulation.

Import & Vet-I Section

Case No. 01: Registration of Drugs under the Drugs Act, 1976-Virtual Inspection Report of Manufacturer Abroad.

Following imported product approved in 321st meeting of Registration Board subject to inspection of manufacturer abroad as per import policy.

S. No.	Name of Importer/ Manufacturer & meeting number	Name of Drug/ Composition/	Panel of Inspector(s)/ Date of inspection
1.	M/s. Medi Mark Pharmaceuticals, Liaqat Chowk, Sahiwal./ M/s. Shanghai Starry Pharmaceutical Co., Ltd., No. 500, Maoye Road, Jinshan Industrial Zone, Shanghai, China	Hexol Injection 100ml Each 100ml contain:- 75.5gm of Iohexol equivalent to 35gm of Iodine (350mg Iodine/ml)	(i) Mr. Abdullah Abro, Deputy Director (CD), Drug Regulatory Authority of Pakistan, Islamabad. (ii) Syed Zia Husnain, Federal Inspector of Drugs, Drug Regulatory Authority of Pakistan, Islamabad.

Accordingly, inspection was carried out by inspection panel dated 21st & 22nd March, 2023 and final remarks of the panel are as under:-

FINAL REMARKS:

Based on the proceedings of virtual inspection, documents reviewed and videos of the unit seen, the panel has reached to the conclusion that there are certain observations regarding GMP as mentioned above in the report. Moreover, the firm finished product specifications were as per Chinese pharmacopeia instead of BP or USP. Initially firm was reluctant to show the retained sample room, however same was shown after about one hour. Firstly, firm also claimed that their product is also registered in other countries, however during verification it was revealed the product is only registered in China with Chinese Pharmacopeia Specifications. Stability data for Pakistan market is also required.

Under the explained circumstances panel is of the view that re-verification requires to be done after developing of process validations of product under reference as the USP, stability testing with proper documentation as well as submission of CAPA by the manufacturer on observations mentioned above in the report.

Panel also strongly recommends on-site inspection in order to verify/ascertain the Good Manufacturing Practices (GMP) of the firm with one year of re-verification as virtual inspection can never replace physical/in-person inspection. Moreover, detailed and systematic evaluation of mechanical operations of production and QC equipment, documents, SOPs, Log book etc. and respective cross discussion with the technical and operational staff can only be done through on-site inspection.

Decision: -

Registration Board deliberated the matter and decided to remand back the case to inspecting panel for clear and candid recommendation regarding the grant of registration as per law.

Case No. 02: Registration of Drugs under the Drugs Act, 1976-Virtual Inspection Report of Manufacturer Abroad.

Following imported product approved in 297th meeting of Registration Board subject to inspection of manufacturer abroad as per import policy.

S. No.	Name of Importer/ Manufacturer & meeting number	Name of Drug/ Composition/	Panel of Inspector(s)/ Date of inspection
1.	M/s. HealthBee Projects Pvt. Ltd. 65-S Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore./ M/s. Shandong Luoxin Pharmaceutical Group Stock Co., Ltd Luoqi Road, High & New Technology Industries Development Zone Linyi City, Shandong Province, PR China.	Gemcitabee for injection 0.2g Each vial contains:- Gemcitabine as Hydrochloride…..0.2g	(i) Mr. Abdullah Abro, Deputy Director (MD&MC), Drug Regulatory Authority of Pakistan, Islamabad. (ii) Malik Muhammad Asad, Deputy Director (Pharmacy Services), Drug Regulatory Authority of Pakistan, Islamabad.

Accordingly, inspection was carried out by inspection panel dated 01st & 10th March, 2023 and final remarks of the panel are as under:-

FINAL REMARKS:

Based on the proceedings of virtual inspection, documents reviewed and videos of the unit seen, the panel has reached to the conclusion that the firm has basic systems to manufacture drugs and appeared to comply the GMP requirements. Hence, the panel recommends that the Registration Board may grant the registration of applied product namely Injection Gemcitabine 0.2g (Gemcitabine as Hydrochloride) of M/s. HealthBee Projects Pvt. Ltd. 65-S Quaid-e-Azam Industrial Estate,
Kot Lakhpat, Lahore.

Panel further strongly recommends on-site inspection in order to verify/ascertain the Good Manufacturing Practices (GMP) of the firm within one year as virtual inspection can never replace physical/in-person inspection.

Decision: -

Registration Board deliberated the matter and decided to remand back the case to

inspecting panel for clear and candid recommendation regarding the grant of registration as per law.

Case No. 03: Registration of Drugs under the Drugs Act, 1976.

Registration Board in its 324th meeting approved following drugs as per policy of inspection of manufacturer abroad of below mentioned products in the name of /s. Better Traders International, 23-Z, Saifullah Shaheed Road, Madina Town, Faisalabad subject to submission of full fee of registration for correction/pre-approval change in DSL address as per notification No.F.7-11/2012B&A/DRAP dated 07-05-2021 before issuance of registration letter.

M/s. Better Traders International, 23-Z/E, Saifullah Shaheed Road, Madina Town, Faisalabad./ **Manufacturer & marketing authorization holder** M/s. Kepro B.V. Maagdenburgstraat 17, 7421 ZA Deventer, Holland.	Doxyvet 200 Water Soluble Powder Each gam contains:- Doxycycline Hyclate…200mg
	Oxy 200 Water Soluble Powder Each gram contains:- Oxytetracycline HCl…….200mg
	Vit AD3E 300 Injection Each ml contains:- Vitamin A……...300,000 IU Vitamin D3……..…100,000 IU Vitamin E……..…...50mg
	Vitaflash Injection Each ml Contains: Vitamin A……..…50,000 IU Vitamin D3……...25,000 IU Vitamin E……..….4mg Vitamin B1 HCl……..……2.5mg Vitamin B2 Phosphate Sodium….2mg Vitamin B3……...….12.5mg Vitamin B6 HCl……1.25mg Vitamin B12……...…..30µg Vitamin C……...……2mg D-Panthenol……...……3mg

		Each gm contains:- Doxycycline as Hydrochloride…500mg	500g 1000g 3 years	per policy of inspection of manufacturer abroad.

(i) The firm has submitted application with a fee of Rs.7500/- for each product for exemption of inspection abroad in the light of Circular No.F.3-2/2005-Reg-I (Vol-II) dated 10th September 2021 on the basis of CoPP issued by **PIC/S** participating authority i.e. Malaysia.

(ii) Firm has submitted email/documents which shows that manufacturer have no dedicated section for penicillin containing products and follow campaign basis manufacturing followed by decontamination and cleaning procedures.

As per DRUGS (LICENSING, REGISTERING AND ADVERTISING) RULES, 1976 SCHEDULE-B
5.2 Dedicated Facilities for Production
Dedicated and self-contained facilities for the production of particular drugs shall be provided in addition to the general facilities such as highly sensitizing materials **(e.g., penicillin)** or Biological preparation…. cytotoxic substances or radiopharmaceuticals or veterinary immunological preparation….

Firm reply against query:
Penicillin containing products should be manufactured on a campaign basis and should be followed by appropriate validated decontamination and cleaning procedures.
Attached documents:

1. **European Union:**

Official website of the European Union shows that
EudraLex - Volume 4 - Good Manufacturing Practice (GMP) guidelines
Manufacture of Veterinary Medicinal Products Other Than Immunological Veterinary Medicinal Products
Manufacture of veterinary medicinal products containing penicillins
7. The use of penicillins in veterinary medicine does not present the same risks of hypersensitivity in animals as in humans. Although incidents of hypersensitivity have been recorded in horses and dogs, there are other materials which are toxic to certain species, e.g. the ionophore antibiotics in horses. Although desirable, the requirements that such products be manufactured in dedicated, self-contained facilities (point 3.6) may be dispensed with in the case of facilities dedicated to the manufacture of veterinary medicinal products only. However, all necessary measures should be taken to avoid cross contamination and any risk to operator safety in accordance with the guide. In such circumstances, penicillin-containing products should be manufactured on a campaign basis and should be followed by appropriate, validated decontamination and cleaning procedures.

2. **Australian:**

Australian code of GMP practice for veterinary chemical products:
Products containing penicillins and other highly sensitising antibiotics The use of penicillins and other highly sensitising antibiotics in veterinary medicines does not present the same risks of hypersensitivity in animals as in humans. Nevertheless, when veterinary products containing penicillins and other highly sensitising antibiotics are not manufactured in dedicated facilities all necessary measures should be taken to avoid cross-contamination and any risk to operator safety

3. **Canada**

Good Manufacturing Practices Guidelines – Veterinary Drugs, Canada
Premises C.02.004 11.1 Campaign production can be accepted on a product by product basis where proper justification is provided, validation is conducted, and validated controls and monitoring are in place to minimize any risk of cross-contamination. In the case of facilities producing other veterinary drugs, campaign production of veterinary drugs containing penicillin is considered acceptable provided that the following conditions are met: • non-penicillin drug products for human use are not fabricated, packaged/labelled or stored in the same facility; and • validated decontamination and cleaning procedures are in place to minimize any risk of crosscontamination.

4. **PIC/S Guide**

i. PIC/S Guide to GMP for medicinal products 2021:

THE MANUFACTURE OF VETERINARY MEDICINAL PRODUCTS CONTAINING PENICILLINS 7. The use of penicillins in veterinary medicine does not present the same risks of hypersensitivity in animals as in humans. Although incidents of hypersensitivity have been recorded in horses and dogs, there are other

materials which are toxic to certain species, e.g. the ionophore antibiotics in horses. Although desirable, the requirements that such products be manufactured in dedicated, self-contained facilities (point 3.6) may be dispensed with in the case of facilities dedicated to the manufacture of veterinary medicinal products only. However, all necessary measures should be taken to avoid cross contamination and any risk to operator safety in accordance with the guide. In such circumstances, penicillin-containing products should be manufactured on a campaign basis and should be followed by appropriate, validated decontamination and cleaning procedures.

Decision: -

Registration Board deliberated the matter and decided to refer the case to Authority for guidance in the matter.

Case No. 07:- Registration of Drugs under the Drugs Act, 1976/Issuance of Registration Letter.

Registration Board in its 324th meeting approved following imported veterinary drug of M/s Ghazi Brothers, D-35, KDA Scheme No.1, Miran Muhammad Shah Road, Karachi as per decision mentioned alongside.

S. No.	Name of Importer/ Manufacturer	Name of Drug(s) & Composition	Approved Packs Size/ Shelf Life	Decision
1.	M/s. Ghazi Brothers, D-35, KDA Scheme No.1, Miran Muhammad Shah Road, Karachi./ Manufacturer & Marketing Authorization Holder:- M/s. Richter Pharma AG, Feldgasse 19 4600 Wels, Austria.	Butomidor 10mg/ml Solution for Injection Each ml contains:- Butorphanol Tartrate.....14.58mg eq.to Butorphanol..10mg	Not mentioned As per Form-5A the pack size mentioned 10ml 5x10ml 10x10ml 50ml 3 years	Approved as per policy of inspection of manufacturer abroad.

During process for issuance of registration letter the manufacturer and market authorization holder mentioned in minutes are same but as per CoPP both are different. The details are as under:-

S. No.	Name of Importer/ Manufacturer mentioned in Minutes	Product License Holder & Manufacturer as per CoPP
	M/s. Ghazi Brothers, D-35, KDA Scheme No.1, Miran Muhammad Shah Road, Karachi./ Manufacturer & Marketing Authorization Holder:- M/s. Richter Pharma AG, Feldgasse 19 4600 Wels, Austria.	**Product License Holder** M/s. Richter Pharma AG, Feldgasse 19 4600 Wels, Austria. **Manufacturer:** M/s. Richter Pharma AG., DurisolstraBe 14, 4600 Wels, Austria.

Accordingly, registration letter issued to M/s. Ghazi Brothers, Karachi as per CoPP.

Decision: -

Registration Board noted the information.

Case No. 08:- Registration of Drugs under the Drugs Act, 1976/Issuance of Registration Letter.

4.		Doxy 50% Gold Oral Water Soluble Powder Each 100g contains:- Doxycycline HCl…50g Bromhexine HCl……250mg **(M-312)**	20g 50g 100g 2 years
Approved with Innovator' specifications as per policy of inspection of manufacturer abroad.			

Virtual inspection of the manufacturer abroad M/s. Vietnam Sakan Technology Development & Investment Joint Stock Company. Lot D1–D4 Dong Tho Industrial Complex, Yen Phong District BacNinh Province, Veitnam was carried out by the nominated panel comprising Dr. Ghazanfar Ali Khan, Additional Director (QA&LT), Drug Regulatory Authority of Pakistan, Islamabad & Mr. Ayaz Ahmad, Deputy Director (HOTC), Drug Regulatory Authority of Pakistan, Islamabad on 28th February, 3023 and **the panel rated the manufacturing facility as "good" and recommended for betalactams and non- betalactams oral powder.**

Accordingly, registration letter issued to M/s. Atzan Pharmaceuticals, Sargodha for product at Sr.No.4. Remaining product at Sr.No.1-3 of above mentioned products are not recommended by the panel of inspector's.

Decision: -

Registration Board deliberated the matter and decided to remand back the case, limited to the products at sr. no. 1-3, to inspecting panel for clear and candid recommendation regarding the grant of registrations of the said remaining products.

Import & Vet-II Section

Case No. 1 REGISTRATION OF DRUGS UNDER DRUG ACT, 1976.

M/s Martin Dow Limited Submitted a request with reference to the decision of 324th meeting of registration board held on 24th to 26th January 2023 regarding registration of Alvosuni Capsule 50mg (Sunitinib)

imported in Finished Pharmaceutical Product from Lotus Pharmaceutical Co., Ltd., Taiwan.
Decision of M-324;

Approved as per policy of inspection of manufacturer abroad and according to Authority's (DRAP) decision regarding Import of finished drug product from Taiwan.

• Firm shall submit full fee of registration as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter since firm had initially applied fee from the head of DML instead of DSL.

Firm request is reproduced as under:

We M/s Martin Dow Limited, License No 000267 would like to inform your good self that we have submitted our application on DSL License No # 565 issued for the premises situated at Plot No. 37 Sec 19 Korangi Industrial Area Karachi, as per the CTD guidance document PE&R/GL/AF/004 dated 1st October 2020 Section 1.3.4. Only the challan generated as per the Online Challan & Fee Submission procedure via portal is on DML. Therefore, DML number is mentioned on deposit slip while the application for product registration was applied on DSL and rest of the details are same as mentioned above.

Meanwhile, the same case was addressed in 307th. Drug Registration Board meeting held on 8-10th June 2021. via short coming on M/s Pfizer Pakistan Limited, where the applicant also clarified that the application was filed on DSL and only the fee challan was on DML while maintaining that both licenses belong to the same factory. This response considered to be justified by the board in 313th Meeting of DRB held on 16- 18 November 2021 and subsequent approval was granted to the applicant.
With reference to the above justification and the provided documents, we would like to request you to please consider our case on the same ground and issue us the registration letter with the following details and proposed brand name as per COPP to avoid any delay in this life-saving drug (chemotherapeutic agent) used for the treatment of renal cell carcinoma (RCC) and imatinib-resistant gastrointestinal stromal tumor (GIST) to be marketed in Pakistan.

Decision: -

Registration Board deliberated the matter and decided to refer the case to Authority for decision/guidance.

Case No.02: REQUEST OF M/S GLAXOSMITHKLINE PAKISTAN LIMITED FOR CANCELLATION OF REGISTRATION OF IMPORTED DRUGS.

M/s GlaxoSmithKline Pakistan Limited, 35 West Wharf, Dockyard Road, Karachi has submitted request for cancellation of registration of imported drugs as per following details.

Justification.	As mentioned above.
List of alternatives brands/ FPPs available in the country.	As mentioned above.
An undertaking that: No case is pending at any forum / court of law regarding this product. Provided information/ documents are true/ correct.	Provided by the firm.

Decision: -

Registration Board deliberated the matter and decided to refer the case to Authority for guidance.

Case No.03: SANDOSTATIN (OCTREOTIDE) 0.1MG, 0.2MG, 0.5MG & 0.05MG INJECTION REGISTRED IN NAME OF M/S NOVARTIS PHARMA KARACHI

M/s Novartis Pharma Pakistan Limited Karachi holds the registrations of octreotide containing products used for symptomatic control and reduction of growth hormone (GH) and IGF-1 plasma levels in patients with acromegaly who are inadequately controlled by surgery or radiotherapy.
The firm has applied for change of manufacturing site on **10.03.2022** of product at Sr. No 1 & 2 from M/s Novartis Pharma AG Basle, Switzerland to M/s Delpharm Dijon 6 boulevard de l'Europe 21800 Quetigny France.:

Sr. No.	**Product Name and Reg. Number**	**Date of Reg**	**Manufacturer**
1.	Sandostatin 0.1mg 013472	19-01-1993	M/s Sandoz Pharma Switzerland.
2.	Sandostatin 0.05mg 013473	19-01-1993	**-do-**
3.	Sandostatin 0.2mg 086485	12-02-2018	M/s Novartis Pharma Stein AG, Schaffhausertasse, 4332 Stein Switzerland

During scrutiny of the documents it was observed that firm does not possess the approval of change of title from M/s Sandoz Pharma AG Basle, Switzerland to M/s Novartis Pharma AG Basle, Switzerland and then change of manufacturing site to M/s Novartis Pharma Stein AG, Schaffhausertasse, 4332 Stein Switzerland for the products mentioned in sr. no. 1 &2.

However, the firm submitted following document in the past.

i. The firm submitted a letter, for information and record, dated 25.04.1997 for change of name of parent company from M/s Sandoz Pharma AG Basle, Switzerland to M/s Novartis Pharma AG Basle, Switzerland for the products mentioned in sr. no. 1 &2.

ii. Subsequently, on 12.06.1998 the firm submitted a letter for shifting of Sandostatin from M/s Novartis Pharma AG Basle, Switzerland to M/s Novartis Pharma AG Stein, Switzerland but release and shipment point will remain as M/s Novartis Pharma AG Basle, Switzerland for the products mentioned in sr. no. 1 &2. No approval under rule 30 (2) was sought by the company/granted by the registration board.

iii. Renewal applications for year 2013 and 2023, wherein the manufacturing site submitted by the firm is M/s Novartis Pharma AG Stein, Switzerland, have been submitted within time.

The request of the firm for change of Mfg. site was considered in 79th & 80th meeting of Post Registration Variation Committee (PRVC) and referred to Registration Board. The Board in its 323rd meeting held on 6-8th December, 2022 deferred the case to seek legal opinion on above facts regarding change of manufacturing site from M/s Novartis Pharma AG Basle, Switzerland to M/s Novartis Pharma AG Stein, Switzerland without approval of DRAP.

Legal Opinion in the matter;

The company applied for change of manufacturing site earlier only to the extent for one strength. The remaining two said strengths were never applied by the company to the Registration board for change in manufacturing site. Therefore, these two strength becomes invalid to this extent. Further, if the company file application for change in manufacturing site afresh, the same may be processed in accordance with law.

As the Legal opinion has been received, hence the case is placed in the meeting of Registration Board for consideration of approval of new manufacturing facility i.e. M/s Delpharm Dijon 6 Boulevard de Europe 21800 Quetigeny France in light of following documents:

a. Full dossier on Form-5F (CTD) for new manufacturing site i.e., M/s Delpharm Dijon 6 Boulevard de Europe 21800 Quetigeny France.
b. Fee Rs. 150000/-
c. Renewal submission for year 2018 and 2023 (which are within time as required under the rules).
d. Legalized approval/CoPP by Swissmedic Switzerland for authorization of above-mentioned applied facility.
e. Legal opinion by Legal Affairs Division:

Decision:

Registration Board after deliberation and keeping in view the legal opinion of Legal Affairs Division these registration of the firm M/s Novartis Pharma Pakistan Limited Karachi become invalid. Registration Board decided as follows:

i. To refer back case to the legal affairs division for consolidated decision on the registration status of the products in question.

ii. **To approve the application submitted afresh and issue new registration certificates to the importer as per newly submitted CoPP accordingly.**

RRR Section

Dy. No. and date of submission	Dy. No. 8142 dated 22-03-2023	
Details of fee submitted	PKR 150,000/-: dated 03/02/2023 Deposit Slip No. 02835880	
The proposed proprietary name / brand name	**INSULATARD® HM 100 IU/ml, 10 ml Vial** Suspension for injection	
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Active ingredient(s)** Insulin Human (rDNA) Ph.Eur. [Suspension of isophane (NPH) insulin] **Quantity/100ml** 383.142 mg (Eq. to 350.000 mg as 100% potency eq. to 10000 IU of Human insulin) **Human insulin is produced in Saccharomyces cerevisiae by recombinant DNA technology*	
Dosage form of applied drug	Suspension for injection	
Pharmacotherapeutic Group of (API)	Drugs used in diabetes. Insulins and analogues for injection, Intermediate-acting, insulin (human). ATC code: A10AC01	
Reference to Finished product specifications	Ph. Eur Specs	
Proposed Pack size	Each Pack contains: 1 x 10ml Vial®	
Proposed unit price	MRP already available Insulatard® HM Vial Reg.No.010205	
Shelf Life	30 Months	
Storage Conditions	Store in refrigerator (2°C – 8°C).	
The status in reference regulatory authorities	Novo Nordisk A/S holds registration in Reference Authorities. Eg: EMA & FDA Novo Nordisk A/S, Denmark. According to the letter, the firm Novo Nordisk A/S, Denmark has a contract manufacturing site in Bangladesh in name of Eskayef Pharmaceuticals. Further, Novo Nordisk	

	A/S has provided sole authorization to Novo Nordisk Pharma (Private) Limited" to import, Distribute and sale the registered product Insulatard®. The letter was issued on 07-February-2023		
For generic drugs (me-too status)	Not Applicable		
Module-II (Quality Overall Summary)	Firm has submitted QOS as per ICH guidelines. Firm has summarized information related to nomenclature, structure, general properties, manufacturer, description of the manufacturing process and process controls, control of materials, control of critical steps and intermediates, process validation and/or evaluation, manufacturing process development, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard or material, container closure system and stability studies of drug substance and drug product. The firm has also submitted non-clinical and clinical overviews and summaries		
Name, address of drug substance manufacturer	**Address**	**Activity**	
	M/s Novo Nordisk A/S, Novo Allé, DK-2880 Bagsværd, Denmark.	Production of Master cell bank and working cell bank. Storage of Master Cell Bank and Working Cell Bank.	
	Novo Nordisk A/S Hallas Allé 4400 Kalundborg Denmark	Storage and stability testing of Master Cell Bank and Working Cell Bank. Recovery from fermentation broth. Purification of insulin human Quality control of in-process samples and drug substance.	
Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical state, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard or material, container closure system and stability studies of drug substance.		
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at long term and accelerated time conditions. The long-term stability data is conducted at -18°C±2°C for 60 months with 3 batches as per claim shelf life of 60 months. The accelerated study conducted at +5 °C±3°C for 12 months.		
Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical		

	development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.	
Analytical method validation/verification of product	The firm has submitted analytical methods as per specifications/Ph. Eur. The methods are validated as per SOPs. The Analytical methods are listed below • Macroscopy (Ph. Eur.) • Microscopy (Ph. Eur.) • Identity of Human insulin (Ph. Eur.) • Assay of insulin (Ph. Eur.) • pH (Ph. Eur. / USP / JP) • Insulin in the supernatant (Ph. Eur.) • High molecular weight proteins (Ph. Eur. / USP) • A21 Desamido insulin (Ph. Eur.) • Other related impurities (Ph. Eur.) • Zinc total (Ph. Eur. / USP / JP) • Bacterial endotoxins (Ph. Eur. Method D) • Sterility (Ph. Eur. / USP / JP) • Total dissolved insulin (A2619a) • Isophane confirmation (A2361a) • Identity of preservatives (A2461a) • Phenol (A2461a) • Metacresol (A2461a) • Particulate matter (Ph. Eur. / USP / JP)	
Container closure system of the drug product	The vial is made of colorless glass with a hydrolytic resistance as defined in Ph Eur and USP (type I glass). The plunger is made of bromobutyl rubber.	
Stability study data of drug product, shelf life and storage conditions	Firm has submitted comparability report for 3 PPQ batches of stability manufactured at site Chartres and at Contract Manufacturing Site Eskayef stored for 30 months at long term conditions at 5°C±3°C.	
Module 4 & Module 5 (Non-Clinical & Clinical Documentation)	No change Statement concerning to Module 4 and Module 5.	

Decision: Registration Board after thorough deliberation decided to defer the case for following:

- **Legal provision regarding grant of additional manufacturing site.**
- **Evidence of approval of product in Reference countries manufactured in the proposed manufacturing site i.e, M/s Eskayef Pharmaceuticals Limited, 400 Squibb Road, Tongi Industrial Area, Tongi, Ghazipur 1711, Bangladesh**

CASES OF DD-II (MS. HALEEMA SHAREEF)

Imported Veterinary Biologicals from Non-Reference Countries:

3.	**Name and address of Importer**	**M/s. Jovac Global-PAK,** Plot No. 17, Block D, EME, DHA Phase 12, Lahore
	Detail of DSL	M/s. Jovac Global-PAK Address: 4th floor, Plot No.17, Block D, EME DHA, Phase 12 Lahore.

		Valid up to:15.06.2023
	Name and address of Manufacturer	M/s. Jordan Bio Industries Center (Jovac). Address: Amman, Yajouz road, near Yajouz Agriculture Nursery Amman, Jordan.
	Name of exporting country	Jordan
	Brand Name +Dosage Form + Strength	Poultry Eye drop Vaccine solvent
	Diary No. Date of R& I & fee	Dy. No. 13029 R&I Dated 28-05-2022 Rs. 150,000/- (Slip No. 3016579226)
	Composition	Each ml contains: Active ingredient ... none. Sodium chloride…8mg Potassium chloride… 0.2mg Potassium dihydrogen phosphate…0.35mg Disodium hydrogen phosphate…1.15mg Brilliant Blue strain…0.2mg EDTA….0.2mg Water for injection q.s……1ml
	Pharmacological Group	Veterinary sterile vaccine solvent for eye drop

	Diary No. Date of R& I & fee	Dy. No. 31262 Dated 24-11-2020 (Rs. 100,000/- Dated 24-11-2020)
	Composition	Each 0.5ml PFS contains: Hemagglutinin of Influenza A Virus (H1N1) ..... 15µg HA Hemagglutinin of Influenza A Virus (H3N2) ..... 15µg HA Hemagglutinin of Influenza B Virus (Yamagata lineage)….15µg HA Hemagglutinin of Influenza B Virus (Victoria lineage) ….15µg HA
	Pharmacological Group	Human Influenza Vaccine
	Type of Form	Form-5F
	Finished Product Specification	EUR. Ph. JP and CP
	Shelf Life	24 months (2°C-8°C)
	Document Details	i. CoPP No. 080558 dated 13-10-2020 (Notarized but not legalized)ii.GMP valid till 5-9-2021(Notarized but not legalized) ii. Copy of Sole Agency Agreement
	Pack size/ Price	1's PFS/ As per SRO.
	International Availability	Vaxigrip Tetra of M/s Sanofi Pastures France
	Products already registered inPakistan	Vaxigrip Tetra of M/s Sanofi Aventis Pakistan Ltd.
	Initial Remarks of Evaluator (Khurram Khalid)	i. Notarized copy of Sole Agency/ Market Authorization certificate. ii. CoPP and GMP certificates are not legalized. iii. In stability data, following tests have not been performed in long termstability data; a. Fractionation test b. Test for freedom from Ether c. Test for freedom from abnormal toxicity d. Identity test e. Overall albumin content test. While accelerated studies of only one batch has been provided. iv. Clinical Trial Data a. Phase II: A Phase II, One arm, Single dose, Open label, Single center study, in120 subjects b. Phase III: As Phase III, Single Dose, Randomized Double blind, Multiple-centerStudy. in 710 subjects. c. Phase III: Open label, Multiple-center Study, 174 subjects.
	Decision of Registration Board (297th meeting) Registration Board deferred the product for submission of following by the firm: a. Valid legalized Certificate of Pharmaceutical Product (CoPP) OR valid legalized GMP Certificate & valid legalized Free Sale Certificate. b. Original or Notarized copy of sole Agency Authorization. c. Pharmacopoieal monograph of the product. d. Clarification regarding not performing Fractionation test, Test for freedom from Ether, Test for freedom from abnormal toxicity, Identity test, Overall albumin content test in	

	stability data. e. Accelerated stability data of three batches.

Evaluation by DBE&R for 308th Reg. Board meeting

It is submitted that It is submitted that in context to the decision of Reg. Board the firm replied on 08-06-2021. The case was evaluated and is summarized as under;

Document required as per decision of RB	***Response submitted by the firm***	***Remarks of Evaluator***
Valid legalized Certificate of Pharmaceutic8al Product (CoPP) OR valid legalized GMP Certificate & valid legalized Free Sale Certificate.	Manufacturer, has submitted that CoPP and GMP were notarized and legalized from notary public and ministry of foreign affairs of Taiwan.	The firm has not submitted any document regarding the legalization by the Pakistan embassy.
Original or Notarized copy of Sole Agency Authorization.	Provided	Provided
Pharmacopoieal monograph of the product.	The firm has submitted that they follow Chinese Pharmacopoeia in Taiwan which is the same as European Pharmacopeia. However, pH Value, Test for freedom from ether and Formaldehyde complies with JPXVII Influenza HA vaccine. Furthermore, all other have been referred to European Pharmacopoeia for which the firm has also submitted the monograph. The firm has also submitted the Japanese monograph which is not for the applied product.	No single Pharmacopeia is being followed. The reason for following two different standard pharmacopeias is not mentioned.
Clarification regarding not performing Fractionation test, Test for freedom from Ether, Test for freedom from abnormal toxicity, Identity test, Overall albumin content test in stability data.	These are the parameters that do not decrease and increase over time. All the results complied with specifications; therefore, they were only tested at release.	The firm has provided following tests in stability data; 1. Appearance 2. pH Value 3. Potency test 4. Sterility test 5. Bacterial endotoxin.
Accelerated stability data of three batches.	We only have one batch for accelerated stability data. Generally, we do not have accelerated stability as regular items, which also do not necessary in Taiwan, so we do not have the accelerated stability data for three batches.	Accelerated stability data of three batches is not available.

The firm was asked to provide following documents through letter dated 15th June 2021:

1. The CoPP is not legalized by Embassy of Pakistan.
2. Regarding specifications
   a. A comparative summary of specifications of Chinese and European Pharmacopeia in tabulated form to assess similarity.
   b. Why two different standard pharmacopeias are being followed i.e. Japanese & European Pharmacopeia for different tests.
   c. The provided Japanese Pharmacopeia monograph is not for the applied product.
3. Any documental evidence that accelerated stability data of only one batch is required.

The complete response by the firm is pending and the firm has only responded to query raised at Sr. No.1. The firm has submitted that there is no embassy of Pakistan in Taiwan, hence the documents are only legalized and Notarized by the Notary Public.

Decision of Reg. Board in its 308th Meeting

"Registration Board deferred the products for submission of following by the firm:
a. Tabulated comparison of finished product specifications with pharmacopoeia monograph.
b. Accelerated stability data of three batches for 06 months."

Evaluation by DBE&R for 313th Reg. Board meeting

The firm has submitted the following:

a. *Tabulated comparison of finished product specifications with pharmacopoeia monograph indicating that the product complies with Ph. Eur. Specifications.*
b. *The firm has submitted accelerated stability data of 3 months for 1 batch and 02 months for 02 batches and informed that they don't have 6 months data.*

Decision of Reg. Board in its 313th Meeting:

The case was deferred in 313th meeting of Registration Board as per following details:
Registration Board deferred the case in its 313th meeting for following:

i. *Confirmation from Ministry of Commerce regarding Trade of vaccines from Taiwan.*
ii. *Submission of valid CoPP legalized from Embassy of Pakistan by the firm.*
iii. *Submission of 6 months accelerated stability data of 03 batches by the firm.*

Evaluation by DBE&R for 316th Reg. Board meeting

In this context, it is submitted that in response following letter has been received from Ministry of Commerce:

3. According to Policy Guidelines on Taiwan, there are no restrictions on trade with Taiwan subject to the following conditions:

- Trade is conducted strictly on un-official basis and through private sector only.
- No direct contacts to be made with the Taiwan authority agencies.
- No Pakistan government functionary can visit Taiwan.
- No Taiwan authority functionary can visit Pakistan.
- Government/official investment from Taiwan is not allowed into Pakistan.
- Exchange of delegation(s) is not allowed.
- Holding of trade exhibitions, establishment of display is not allowed.
- No publicity is given to Pakistan's trade or commercial contacts with Taiwan.
- Private businessmen can, technically, interact with Taiwan parties.
- No Pakistan government functionary can visit Taiwan.

Moreover, the firm has not yet submitted any response.

Decision of Reg. Board in its 316th Meeting:

Keeping in view response from M/o commerce, Registration Board referred the case to DRAP Authority for seeking guidance whether to proceed with grant of registration of finished drugproduct from Taiwan or otherwise.

Evaluation by DBE&R for 328th Reg. Board meeting:

A. *The Authority, after detailed deliberations and discussions decided as under:*

1. *Approved following guidelines regarding import of therapeutic goods from Taiwan:*

i. *The consignments of raw materials imported from Taiwan will be cleared by the DRAP*

Field offices subject to fulfilment of requisite codal formalities.

ii. *Registration/Enlistment of finished therapeutic goods from Taiwan will be granted, subject to fulfilment of conditions of registration/enlistment, except those requiring mandatory inspections by government functionaries (through physical presence).*

2. *The decision of the Authority will be shared with MOFA / Ministry of Commerce for their input and advice to further refine / modify or change if required under the prevailing policy dealing with Taiwan for private business activity.*

B. *Firm has submitted 6 months accelerated stability data of 03 batches however SRD value (potency) is not within specification limits i.e.12µg HA/0.5ml dose from 2 months to onward in accelerated stability studies.*

C. *Firm has not yet submitted valid CoPP legalized from Embassy of Pakistan for which the firm has already submitted in their reply that Embassy of Pakistan does not exist in Taiwan.*

Decision in 329th Registration Board meeting: *Registration Board deferred the case for submission of legalized CPP either attested from the embassy of Pakistan in China or by Ministry of foreign Affairs of Taiwan or any web link to verify the approval of subject product in any reference regulatory authority.*

Evaluation by DBE&R:
Firm has submitted notarized CoPP No. 080558 dated 13-10-2020 and now the firm has also provided a weblink of Ministry of Foreign affairs of Taiwan for verification of document Authentication. It is submitted that the certificate is verifiable from the website. The weblink is given below. (https://docauth.boca.gov.tw/BOCAWeb/index4/detail) (accessed on 25/07/2023 at 11:06am)

Decision: Keeping in view submitted notarized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance to current import policy for finished drugs.

Miscellaneous/ Deferred Cases:

Application for change in title of Importer from M/s. ICI Pakistan Limited to M/s. Lucky Core Industries Limited.

M/s. ICI Pakistan Limited has applied for change in title of importer.

The firm has applied for the change in title of importer and submitted following with their application:

a. Fee of 150,000/- for each product
b. Apostille letter of authorization with new title M/s. Lucky Core Industries Limited for products at serial No. 1-7 and notarized letter of authorization for product at serial No. 8 but letter of authorization with new title is yet not submitted by firm for product at serial No. 9.
c. Previous DSL
d. New DSL valid

The details of previous and new DSLs are as under;

DSL	Title of the firm	Address
Previous	M/s. I-C-I Pakistan Limited.	5 West Wharf Karachi
New	M/s. Lucky Core Industries Limited.	5 West Wharf Karachi

It is submitted that firm has provided apostille letter of authorization with new title M/s. Lucky Core Industries Limited. and for acceptance of apostille documents following opinion of Legal affairs division is received:

The following Press Release (53/2023) has been issued by the Ministry of Foreign Affairs on 09.03.2023 regarding Pakistan's Accession to Apostille Convention which is available on its official website https://mofa.gov.pk/pakistans-accession-to-apostille-convention/

> ***"****Government of Pakistan has acceded to The Hague Convention Abolishing the Requirement of Legalization for Foreign Public Documents (Apostille Convention) of 1961. The convention shortens the public document authentication process to a single formality i.e. issuance of an authentication certificate called as 'Apostille' by the designated authority of the country where the document was issued. Thus Foreign public documents authenticated by Apostille can be directly presented to the concerned authorities without any other attestation requirement. In line with the obligations as contracting state of the Convention, concerned authorities of Pakistan will now accept the Foreign Apostille Certificates issued by the members/contracting States of the convention from the date of entry into force i.e. 9th March 2023, without any requirement of attestation from Ministry of Foreign Affairs or Pakistan Missions abroad. [...]"*

As per reservation / declaration of the Government of Pakistan while acceding the Convention, it shall not apply to ***India****, and/or entities not recognized by Pakistan* ***(like Israel).***

Furthermore, Article 12 of the Convention stipulates that any State not referred to in Article 10 may accede to the Convention after it has entered into force in accordance with the first paragraph of Article 11. Such accession shall have effect only as regards the relations between the acceding State and those Contracting States which have not raised an objection to its accession in the six months after the receipt of the notification referred to in sub-paragraph (d) of Article 15.

Eight contracting States including, ***Germany, Czech Republic, Poland, Austria, Finland, Netherland, Denmark, Hellenic Republic*** *have submitted objections to the accession of Pakistan in accordance with second paragraph of Article 12 of the Convention which means that Pakistan's accession to the Convention shall not have effect to the extent of these countries.*

In view of the above, DRAP may accept the Foreign Apostille Certificates issued by the members/contracting States of the convention (except those referred above) without any requirement of attestation from Ministry of Foreign Affairs or Pakistan Missions abroad.
The process of issuance of 'Apostille Certificates' by Pakistan (for export products) will commence upon completion of necessary legislation. In a proposed bill, the Ministry of Foreign Affairs is being authorized to issue Apostille Certificate from Pakistan.

Decision: Registration Board acceded to the request of firm for change of title from previous "M/s. I-C-I Pakistan Limited" to New title "M/s. Lucky Core Industries Limited subject to decision of Authority regarding acceptance of apostille documents."

Imported Veterinary Biological applied by M/s Niraav Pharma (Pvt). Ltd deferred in 317th meeting of Registration Board.

	Composition	Each dose contains: Fowl pox virus strain quail attenuated (CVCC AV 1003)$\geq 10^3$ $ELD_{50.}$
	Pharmacological Group	Vaccine
	Type of Form	Form-5A
	Finished Product Specification	As per innovator's specifications
	Shelf Life	12 months (2^0C-8^0C)
	Document Details	Following documents are submitted: a. Original legalized CoPP dated 12-01-2022. Original legalized Sole agency agreement (validity was five years it is not valid now).
	Pack size	1000 doses vial
	Reference Regulatory Authority Availability	N/A
	Products already registered in Pakistan	Not verifiable with this strain
	Remarks of Evaluator	In response to this division's letter dated 2nd November 2021 firm has submitted following: i. Clarification regarding difference in address on sole agency agreement DSL that sole agency agreement address of head office is mentioned. ii. Finished product Specifications; As per Innovator's. iii. Safety and efficacy data. Following documents are still required: i. Evidence of locally registered product for applied product is required. ii. Sole agency agreement is not valid now.
	Decision in 317th RB meeting.	*Registration Board deferred the product for submission of following by the firm:* • *Immunological relevance of CVCC AV 1003 strain with circulating strains of Pakistan.* • *Valid Sole Agency Agreement.*

	Evaluation by DBE&R	• Firm has submitted original valid Sole agency agreement. • Firm has not submitted immunological relevance data rather submitted clarification that CCV AV1003 is the reference catalogue number of official Chinese veterinary culture used as reference for testing in Chinese pharmacopoeia. • For evidence of Me Too firm has submitted following product: **Registration No.** 007511 **Product Name:** Fowl Pox Antigen
	Decision: Registration Board referred the case to Ministry of National Food Security and Research for comments regarding immunological relevance and need of applied strain in Pakistan as well as for comments on No. CCV AV1003 whether it is Lab No. or strain type.	

CASES OF DD-III (MR. HAFIZ AHSAN)

16. M/s Hilton Pharma Pvt Ltd, Karachi – Request for Deregistration of Product "*Protexin Concentrate*" (Reg. No. 019907).

The firm has requested for deregistration of the product "**Protexin Concentrate**" via Letter No. MA/MN/230605-01 dated 05th June 2023. The composition of the product is as below:

Contents per kg

Enterococcus faecium	NCIMB1 30183 PXN® 33
Streptococcus thermophilus	NCIMB 30189 PXN® 66
Lactobacillus rhamnosus	NCIMB 30188 PXN® 54
Lactobacillus acidophilus	NCIMB 30184 PXN® 35
Lactobacillus bulgaricus	NCIMB 30186 PXN® 39™
Bifidobacterium bifidum	NCIMB 30179 PXN® 23™
Lactobacillus plantarum	NCIMB 30187 PXN® 47™

Summary of submitted are as follows:

a) Copy of initial Registration letter dated 18th September 1996.
b) Approval letter for Change of Brand name dated 08th January 2020.
c) Last Renewal dated 26th Feb 2020.
d) Approval letter for updating Nomenclature of two strains dated 17th April 2020.
e) Approval letter for change in company name of Manufacturer dated 05th October 2020.
f) Approval letter for change in company name of Manufacturer dated 11th September 2020.
g) Minutes of 320th meeting of Registration Board dated 29th-31st August 2022.
h) Copy of receiving of letter for deregistration letter No. MA/MN/230605-01 dated 05th June 2023 to The Chairman Registration Board, The Director Biological and The Secretary Registration Board.

The firm stated that in Europe the status of registration of "Protexin" was changed and the product is classified as a complimentary feed. Due to the change in classification, this product also does not require a marketing authorization within Europe. The firm further submitted that the application for the grant of additional pack size of Protexin Concentrate 1 Kg was applied vide letter no MN/MA/220307-01 dated 10th March 2022.

The above case was discussed in 320th meeting of Registration Board dated 29th-31st August 2022 and as per decision of registration board in Minutes of 320th meeting ***Protexin is a veterinary probiotic which does not come under the purview of Pharma Division.***

Decision: Registration Board after discussion on the matter decided to call the management of the firm for personal hearing under section 42 of the Drugs Act, 1976 of schedule VI of DRAP Act 2012 before cancellation of the above said product.

17. M/s Hipra Pakistan Pvt Ltd, Lahore – Request for Withdrawal of Product "*Toxipra S7".*

We M/S HIPRA Pakistan (Private) Limited had applied for the Registration of our product TOXIPRA S-7 (250 ml) and has been deferred in 323rd Registration Board Meeting on the basis of Stability Data. We were unable to provide the required information requested by DRAP.

The details of the product are as below:

Name of Importer	M/s Hipra Pakistan (Private) Limited, 3rd floor, plot no 8, block CCA, Phase 6-C, DHA, Lahore Go Down: 2nd Warehouse on Left side, Street no 5, Gajjumata Nadir Chowk, Hazara Chowk, Industrial Area Ferozpur Road, Distt Lahore
DSL details	License to sell the drug as distributor No. 05-352-0058-050528D valid till 19-Feb-2024
Name of Manufacturer	Laboratorios HIPRA, S.A, Avda. La Selva, 135 17170 Amer (Girona) Spain.
Brand Name + Dosage Form + Strength	TOXIPRA S-7, suspension for Injection (250 ml)
Composition	Composition per 2ml dose □□*toxoid of type B,C and D Clostridium perfingens.....≥ 10 IU □ *toxoid of type B,C and D Clostridium perfingens.....≥ 5 IU □ * toxoid of type B Clostridium novyi.....≥ 3.5 IU * Toxoid □□of Clostridium septicum.....≥ 2.5 IU ** Anaculture of Clostridium chauvoei.....100 % protection ** Toxoid of Clostridium sordellii.....100% protection International Units (antitoxin per ml of serum)* Protection level in guinea pig**
Finished product specifications	European Pharmacopeia specifications
Pharmacological Group	Inactivated vaccine against Enterotoxaemia Sudden Death, Black leg and Black Disease
Shelf life	24 Months (Store at 2°C - 8°C)
International availability	Spain
Products already registered in Pakistan	TOXIPRA S-7 (100 ml)
Dy. No. Date of Application, Fee submitted	Dy No. 20522 Dated: 28-07-2021 Fee Submitted: Rs. 150,000 /- dated 09-08-2021
Demanded Price / Pack size	250 ml/ Decontrolled
General Documentation	• Legalized Certificate of Pharmaceutical Product (CoPP) issued by Agencia Espanola de Medicamentos y productos sanitarios dated: 12-12-2017.

Decision: Registration Board acceded to the request of the firm and the application *"Toxipra S7 (250ml)"* of M/s Hipra Pakistan Pvt Ltd. stands withdrawn.

Case: Priority / Out of Queue consideration of Heparin & Enoxaparin Injections

DRAP Authority in its 144th meeting held on 26-08-2022 while considering the shortage of Heparin & Enoxaparin injections decided as follows:

"The Authority, as a one time exercise, approved out of queue consideration of submitted registration applications of following drugs in order to ensure their smooth and continuous supply in the market:

i. Paracetamol (Tablets, lnfusion and Syrup / Suspension)
ii. Albumin bound Paclitaxel lnjection
iii. Heparin and Enoxaprin lnjection

PE&R and BE&R Divisions are advised to process the cases of abovementioned drugs without waiting for formal approval of minutes."

Imported Heparin Injection from non-Reference countries:

18.	Name, address of Applicant / Importer	**M/s Fizon Pharma,** Akhai Arcade, 103-K, Block -2,

		P.E.C.H.S., Shahra-e-Qaideen, Karachi.
	Details of Drug Sale License of importer	License No: 0319 Address: Akhai Arcade, 103-K, Block -2, P.E.C.H.S., Shahra-e-Qaideen, Karachi. Validity: 22-02-2028
	Name and address of marketing authorization holder (abroad)	**M/s Kilitch Drugs (India) Ltd.** C-301/2, T.T.C Industrial area, M.I.D.C, Pawane, Navi Mumbai- 400 705, Maharashtra, INDIA.
	Name, address of manufacturer(s)	**M/s Kilitch Drugs (India) Ltd.** C-301/2, T.T.C Industrial area, M.I.D.C, Pawane, Navi Mumbai- 400 705, Maharashtra, INDIA.
	Name of exporting country	India
	Detail of certificates attached (CoPP, Free Sale certificate, GMP certificate)	**CoPP:** The firm has submitted original, legalized CoPP (COPP/CERT/KD/123926 / 2023 / 11/44374 / 215403) issued by Food & Drug Administration Maharashtra State, Mumbai 400 051. The certificate confirm that the product is actually on the market in the exporting country and facilities and operations conform to GMP as recommended by WHO. The certificate is valid till 06-10-2024.
	Details of letter of authorization / sole agency agreement	Notarized copy of product specific sole agency agreement from manufacturer abroad hereby authorizes M/s Fizon Pharma to act as authorized representative to conduct all the formalities related to import, sell, distribute in the territory of Pakistan.
	Status of the applicant	☐Manufacturer ☒Importer ☐Is involved in none of the above (contract giver)
	Status of application	☐New Drug Product (NDP) ☒Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
	Dy. No. and date of submission	Diary No. 12110, Dated: 17-05-2023
	Details of fee submitted	Rs: 150,000/- Dated: 06-03-2023 Deposit Slip No. 23019263264
	The proposed proprietary name / brand name	KARIN INJECTION 5000 IU/ml
	Strength / concentration of drug of Active Pharmaceutical ingredient per Unit	Each ml contains: Heparin Sodium……..5000 IU
	Dosage form of applied drug	Liquid Injection
	Pharmacotherapeutic Group of (API)	Anticoagulant agents
	Finished product specifications	BP specifications
	Proposed Pack size	1 × 5 ml vial

	Proposed unit price	As per SRO
	Shelf Life	24 months
	Storage Conditions	Store at 20°C – 25°C
	Reference Regulatory Authorities	Heparin sodium Injection, USFDA Approved.
	For generic drugs (me-too status)	Heparin Injection 25000 IU/ 5ml of M/s Leo/ Zam Zam Pharma
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO. Firm has summarized information related to nomenclature, structure, general properties, manufacturers, description of manufacturing process and controls, Characterization (Elucidation of Structure and Other Characteristics), impurities, specifications, analytical procedures, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	M/s Gland Chemicals Limited, Plot No. 42-B, 2nd phase, KIADB Industrial area, Malur-563160, Kolar Dist, Karnataka , India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance	Firm has submitted stability study data of 3 batches at long term conditions at 25°C ± 2°C / 60% RH ± 5% RH for 60 months. The accelerated stability data is conducted at 40°C±2°C / 60%±5%RH for 06 months for accelerated conditions.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method Validation / verification of the product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	5ml flint vial USP Type-I, 20 mm. Grey Bromobutyl Rubber Plugs, Flip off seal.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of Karin Injection at accelerated and real time conditions. The real time stability data conducted at 30°C ± 2°C / 65% RH ± 5%RH for 24 months and accelerated stability data conducted at 40°C ± 2°C/75% RH ± 5%RH for 06 months for 3 batches. KLRC9001 KLRC9002 KLRC9003
	Module-IV Non-Clinical	Published literature covering following aspects: Primary Pharmacodynamics

		Secondary Pharmacodynamics Safety pharmacology Pharmacodynamic interaction Pharmacokinetics Toxicity Single Dose toxicity Repeat dose toxicity Carcinogenicity
	Module-V Clinical	Reports of efficacy and Safety studies
	Remarks of Evaluator	Non- clinical and Clinical trial data are not submitted by the firm. Registration Board in its 271st meeting considered that Heparin Sodium Injection is non-rDNA pharmacopoeial product hence, revised its decision of 260th meeting and granted the approvals on the basis of valid legalized CoPP & availability in country of origin.
Decision: Keeping in view legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance to current import policy for finished drugs. **The Board also directed the division of BE&R to process the case without waiting for the formal approval of the minutes.**		

Imported human biological product from Non-reference countries:

19.	**Name, address of Applicant / Importer**	M/s RA Healtchare (SMC-Pvt) Ltd, 2nd Floor, Building # 50, Mir Arcade, Mini Commercial, Phase 7, Bahria Town, Rawalpindi.
	Details of Drug Sale License of importer	RA Healtchare (SMC-Pvt) Ltd Address: 2nd Floor, Building # 50, Mir Arcade, Mini Commercial, Phase 7, Bahria Town, Rawalpindi. License No.: 01-374-0176-99719D Valid till: 11-11-2027
	Name and address of marketing authorization holder (abroad)	Name: TOT BioPharma Co., LTD Address: No.120, Changyang Street, Industrial Park, Suzhou 215024, CHINA.
	Name, address of manufacturer(s)	Name: TOT BioPharma Co., LTD Address: No.120, Changyang Street, Industrial Park, Suzhou 215024, CHINA.
	Name of exporting country	China
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP:** Firm has submitted original legalized CoPP certificate (No. JS20220005) valid till 23.01.2024 issued by Jiangsu Drug Administration situated at No.5 Gulou Street Nanjing, Jiangsu Province China. The CoPP specifies that the product is licensed to be placed for use in the exporting country as well as the product is actually in the market in exporting country. The CoPP confirms the GMP status of the manufacturing site through periodic inspection every 6 Months.
		DML: Firm has submitted original legalized drug Manufacturing Licence of manufacturer (No. Su 20160196) issued by JIANGSU DRUG ADMINITRATION situated at NO.5 GULOU STREET NANJING, JIANGSU PROVINCE CHINA. The certificate is valid till 16-12-2025.
	Details of letter of authorization / sole agency agreement	Firm has submitted Original legalized letter of authorization from Associate Director of TOT

		BIOPHARM CO., LTD., According to the letter, the firm TOT BIOPHARM CO., LTD., authorizes "RA HEALTHCARE (SMC-Pvt.) Limited with its place of business at 2nd Floor building # 50, Mir Arcade, Mini Commercial Phase 7, Bahria Town Islamabad, Pakistan as their business representative with undisputed powers authorized to deal with the product registration of Bevacizumab Injection in Pakistan as per mutually agreed terms and conditions by both companies. The letter was issued on April 26th, 2022. (Valid for 5 Years)
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales

				assay
			Secondary, tertiary and quaternary structures	Far/Near-CD, fluorescence spectroscopy
		Charge heterogeneity	Charge variant	IEC-HPLC
		Hydrophobicity heterogeneity	Hydrophobic variants	Hydrophobic interaction chromatography
		Size heterogeneity	LMW and HMW impurities	Size exclusion chromatography coupled with multi-angle light scattering (SEC-MALS)
		In-solution stability	T_m	Differential scanning calorimetry (DSC)
		In-solution particle size homogeneity	Average size	Dynamic light scattering (DLS)
		In-Vitro Biofunctionality	Receptor binding assay	Surface Plasmon Resonance (SPR)
			Cell-based bioactivity assay	INSR/IGF-1R receptor phosphorylation assay
	Biological Activity	Cell based Bioactivity Assay – IEC-HPLC Method Bevacizumab injection is a therapeutic monoclonal antibody product that can achieve anti-tumor effect by specifically binding to vascular endothelial growth factor (VEGF) and blocking the biological activity of VEGF to inhibit angiogenesis. IEC-HPLC method was used to analyze acidic peaks, main peak and basic peaks of ARKETIN (bevacizumab) and reference Avastin. The results show that: (1) Main Peak of P2.0~P4.0 ARKETIN (bevacizumab) are consistent to reference Avastin, Content of acidic peaks are lower than Avastin, and basic peaks are larger than Avastin. Compare with P2.0~P3.0, P4.0 ARKETIN (bevacizumab) quality range is more closer to reference Avastin. (2) The content of basic peak 1 for ARKETIN (bevacizumab) in each stage of P2.0 to P4.0 is higher than reference Avastin. (3) In order to further understand the characteristics of basic peak 1, acidic peaks, basic peaks (total peak) and main peak, as well as the effects on biological activity, a semi preparative column Dionex Propac wcx-10 semi preparative column, 9×250 (ID×L mm), was used to collect peaks in P2 0-P4.0 ARKETIN (bevacizumab). The components of ARKETIN (bevacizumab) were collected, and analyzed by IEC, mass spectrometry, cell proliferation inhibition activity and antigen antibody		

		binding activity. See section 3.4.5.1~3.4.5.3.
	Immunochemical properties	In the below mentioned study immunochemical properties of ARKETIN (bevacizumab) are compared with the reference Aventis: Tissue Cross-Reactivity Study of Monoclonal Antibody ARKETIN (bevacizumab) Injection in Normal Human Tissues. Study Number: 013-47-lQT
	Impurities	**Product-related Impurities** Monomer and polymer content SEC-HPLC method was used to analyze monomer and polymer content of TAB008(P2.0~P4.0) and Avastin. Molar mass of monomer and polymer(SEC-MALLS) The mean square rotation radius, molecular weight and distribution of different components are measured by SEC-MALLS. Reduced CE-SDS Reduced CE-SDS were used to analyze NGHC, LMW+MMW and LC+HC for TAB008 and Avastin. Non-reduced CE-SDS Non-reduced CE-SDS were used to analyze low molecular weight and main peak for TAB008 and Avastin. IEC-HPLC IEC-HPLC method was used to analyze acidic peaks, main peak and basic peaks of TAB008(P2.0~P4.0) and Avastin. **Process-related Impurities** The below mentioned impurities were measured and compared: CHO host cell proteins(HCP) Protein A Host cell DNA Bacteria endotoxin
	Stability Studies	The firm has submitted stability studies of drug product.
	Non-clinical Comparison I. *In-vitro* Studies II. *In-vivo* Studies a) Biological / Pharmacodynamic activity b) Non- clinical Studies	Primary Pharmacodynamics: 1- Summary of Nonclinical Primary Pharmacodynamic Studies 2- Study on In Vitro Biological Activities and Mechanisms. Safety Pharmacology: A 4-Week Repeated Intravenous Infusion Toxicity Study in Cynomolgus Monkeys with A 4-week Recovery Period – Toxicokinetics Study Report CRO Study No.: D4101 Tissue Cross-Reactivity Study of ARKETIN (bevacizumab) Monoclonal Antibody Injection in Normal Human Tissues. In this study, immunohistochemical method was used to detect specific binding of ARKETIN (bevacizumab) monoclonal antibody injection with normal human tissues, and compared with the marketed

		comparator AVASTIN.
	Clinical Studies	To compare the pharmacokinetic and pharmacodynamic properties of ARKETIN (bevacizumab) with reference Avastin in healthy subjects. **Phase I**, single dose, Randomized, double-blind, parallel controlled study to compare the similarity in pharmacokinetics and safety of ARKETIN (bevacizumab) Monoclonal Antibody Injection with AVASTIN injection in healthy Chinese male subjects. (400 subjects consented to participate). **100 subjects** A randomized, double-blind, positive parallel controlled, nationwide, multi-centered, and equivalent **phase III** clinical study with a primary objective to determine the best objective response rate (ORR) within 6 treatment cycles by an Independent Review Committee and secondary objectives of comparing efficacy, safety, immunogenicity and pharmacokinetics. **Phase III** clinical Study of ARKETIN (bevacizumab) Monoclonal Antibody Combined with Paclitaxel and Carboplatin Versus Bevacizumab (Avastin®) Combined with Paclitaxel and Carboplatin in the First-line Treatment of Advanced or Recurrent Non-Squamous Non-Small Cell Lung Cancer. **548 patients**
	Decision: Keeping in view legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance to current import policy for finished drugs.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	The firm has submitted long term Stability data for three batches conducted at 5°C ± 3°C for the period of 48 months. KC151001 KC151002 KC151003
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Injection vials made of low borosilicate glass tubing, Halogenated butyl rubber plugs for freeze-drying for injection.
	Stability study data of drug product, shelf life and storage conditions	• The firm has submitted stability study data of three batches: 170404 170405 170406 Long term stability at 30°C ± 2°C / 65% ± 10% RH for 24 months Accelerated stability at 40°C ± 2°C / 75% ± 5% RH for 06 months
	Module-IV Non-Clinical	**4.2.1 Pharmacology** **4.2.1.1 Primary Pharmacodynamics** • Diagnosis and treatment of cryptorchiasis before adolescence. • Male sterility caused by hypophysis can be used in combination with gonadotropin. • Patient s with long term low gonadotropin function should also be supplemented with testosterone; • The female anovulatory infertility due to the deficiency of the pituitary gonadotropins is often used in combination with the postmenopausal gonadotropin to

		promote ovulation after the treatment with clomiphene is ineffective • It is used in vitro to obtain multiple oocytes and needs to be used in combination with postmenopausal gonadotropin.; • hCG promotes testicular testosterone that acts on muscles to promote growth and anabolism in men. Interestingly, injections of hCG do not promote significant testosterone production in women. **4.2.2 Pharmacokinetics** **4.2.2.1 Analytical Methods and Validation Reports** • T1/2 is two phase,11 and 23 hours, respectively, and the plasma concentration reaches a peak of about 12 hours, and then drops to a stable low concentration at the time of 120 hours, and is ovulated for 32 36 hours. • Tissue distribution of exogenous HCG was studied in adult female mice injecting the animals with HCG I125, BSA I125, and I125 and determining in a scintillation counter the tissue radioactivity at various time intervals. The radioactive materials were extracted from the tissues and mixed with excess anti HCG serum. It was found that the exogenous human chorionic gonadotropin concentrates preferentially in the ovarian tissues of nonhypophysectomized mice, the maximum concentration occurring at 2 to 4 hours after injection. Ovar ies in hypophysectomized mice lack the ability to concentrate exogenous HCG to the same extent as the ovaries of nonhypophysectomized mice. • Within 24 hours, 10% of the prototype was excreted with urine through the kidney. **4.2.2.2 Other Pharmacokinetic Studies** • A Single Dose Pharmacokinetic and Pharmacodynamic Study of BTCT4465A Administered by Intravenous Injection to Male Cynomolgus Monkeys • A Single Dose Pharmacokinetic Comparability Study of BTCT4465A via Intravenous Administration to Male • Cynomolgus Monkeys with a 11-Day Observation Period **4.2.3 Toxicology** **4.2.3.1 Single-Dose Toxicity (in order by species, by route)** • HCG treatment at different concentrations and time points activated JNK pathway and significantly increased its endogenous kinase activity along with up-regulated expression of steroidogenic enzymes (stAR, 3β-HSD) in a dose-dependent manner in the luteal GCs. **4.2.3.2 Repeat-Dose Toxicity (in order by species, by route, by duration, including supportive toxicokinetics evaluations)** • A rat seminal vesicle weight bioassay with repeated intragastric adminisrations of Human Chorionic Gonadotrophin at a total dose of 20IU/rat was nagative.Since only one dose level was tested in a limited number of animals a NOVEL could not be derived • single intraperitoneal injection of 20-40 IU HCG (5-40 IU) on the first day of pregnancy caused almost total fetal loss, with 20 IU being the most severe. Given on Day 2, embryo loss was reduced. On the 3rd, 4th and 5th

		day, no embryo toxicity was observed. Study of embryo death before implantation, at implantation or after implantation, found that 20 IU on the first day of pregnancy, embryo survival on the 4th and 5th days almost reduced to zero, the impact began to occur before implantation. At the same time, serum estradiol concentration increased significantly and progesterone concentration decreased to a lesser extent. The results showed that the toxicity of HCG to embryo was time- and dose-dependent, mainly occurred before implantation, and the serum estradiol level increased significantly. **4.2.3.5 Reproductive and Developmental Toxicity (including range-finding studies and supportive toxicokinetics evaluation) (If modified study designs are used, the following subheadings should be modified accordingly.)** **4.2.3.5.2 Embryo-fetal development** • Human chorionic gonadotropin (HCG), a polypeptide hormone produced by the human placenta. Endogenously produced HCG interacts with the LHCG receptor of the ovary and promotes the maintenance of the corpus luteum during the beginning of pregnancy. This allows the corpus luteum to continuously secrete the hormone progesterone during the first trimester, which is required for maintenance of the l uterus and prevents menstruation. In males, HCG also stimulates the production of gonadal steroid hormones by stimulating the interstitial cells (Leydig cells) of the testis to produce androgens, so HCG has no Genotoxicity. **4.2.3.7 Other Toxicity Studies (if available)** **4.2.3.7.7 Other** • There have been sporadic reports of testicular tumors in otherwise healthy young men receiving HCG for secondary infertility. A causative relationship between HCG and tumor development in these men has not been established. Defects of for elimbs and of the central nervous system, as well as alterations in sex ratio, have been reported in mice on combined gonadotropin and HCG regimens. The dose of gonadotropin used was intended to induce superovulation. No mutagenic effect has been clearly established in humans.
	Module-V Clinical	• A single-centre, randomized, single-dose, three-way cross-over study in healthy female volunteers to compare the bioavailability of SC and IM administration of human chorionic gonadotrophin (HCG; Pregnyl®). 18 healthy pituitary suppressed volunteers were assigned to single HCG Injections of 5000 and 10,000 IU IM and 10,000 IU SC. Rate (Cmax, tmax) and extent [area under curve from zero to infinity (AUC0–∞`)] of absorption of HCG were determined. Intramuscular doses of 5000 IU and 10, 000 IU HCG were dose-proportional. • **Polycystic ovary syndrome: Seventy-two** polycystic ovary syndrome patients were randomly divided into the observation group (N = 36) and the control group (N = 36). The control group was treated with clomiphene citrate, and the observation group was treated with clomiphene citrate and chorionic gonadotropin. **Results:**

		The endometrial thickness was (5.26 ± 1.46) mm in follicular phase and (10.91 ± 2.65) mm in luteal phase in the Observation Group, which was significantly higher than that in the control group (4.60 ± 1.31) mm and (9.34 ± 2.01) mm, the difference was statistically significant ($p < 0.05$). **Conclusion:** The number of ovulation, dominant follicles and mature follicles in the observation group were less than those in the control group, but the incidence of follicles in the observation group (63.89%) was significantly higher than that in the control group (38.89%)($p < 0.05$). • A prospective, multicenter, randomised, investigator-blind, controlled, clinical study on the clinical efficacy and tolerability of two highly purified human menopausal gonadotrophin preparations administered subcutaneously in women undergoing IVF. **One hundred fifty-seven patients** were randomised in two parallel groups: 78 started COS with Merional-HG and 79 with Menopur. In conclusion, the results of this study support the efficacy and safety of Merional-HG administered subcutaneously for assisted reproduction techniques. Efficiency of Merional-HG appears to be higher due to reduced quantity of drug used and the higher yield of mature oocytes retrieved.

Remarks of Evaluator:

Sr. No.	Observations	Response by the Firm
1.	Submit valid copy of drug sale license since already submitted copy is expired on 24-02-2023.	The firm has submitted copy of DSL valid till 08-05-2028 with following details: **License No:** 05-352-0058-104514D **Address:** 2nd Floor Plaza 60, Commercial Block K, Phase-1, DHA, Lahore. **Address of Godown:** House 27, Street 4-A, Sanda Bhatian Wala Gulshan Ravi, Lahore.
2.	Submit valid original legalized copy of CoPP issued by concerned regulatory authority of country of origin.	The firm has submitted Original legalized copy of CoPP for Chorionic Gonadotrophins, 2000 Units issued by Shandong Provincial Medical Products Administration. The CoPP confirms free sale status of the product in the country of origin and the facilities and operations as recommended by the World Health Organization.
3.	Submit details of letter of authorization / sole agency agreement for applied product.	The firm has submitted product specific sole agency agreement in which M/s Qingdao Guanlong Biopharmaceutical Co., Ltd referred to as Manufacturer authorizes Jilin North Biotech Pharma IMP & EXP Co. Ltd to Export the products listed in Annexure 1. The Jilin North Biotech pharma IMP & EXP CO., Ltd referred to as exporter hereby appoints AMB HK Enterprises (Private) Limited as agent to market, sell and distribute the Products.
4.	You have mentioned Chinese pharmacopoeia specifications (3.2.P.5.1) while the product gonadotropin for injection is present in USP. Clarification is required.	The firm has revised the specifications to USP and requested to grant Registration as per USP specifications for the applied product.
5.	Significant change in the assay results of	The firm has submitted that significant change in

	accelerated stability study data of different was observed. Clarification is required in this regard.	the assay results of accelerated stability data were observed however, the change was within the specification limits. Moreover, the shelf life of the product is assigned based on long term stability study data which shows the product is stable till shelf life.

Decision: Registration Board deferred the case for following:

- **Evidence of approval of applied formulation in reference regulatory authorities/agencies adopted by Registration Board in its 275th meeting.**
- **Evidence of applied formulation already approved by DRAP (generic/me-too) alongwith registration number, brand name and name of the firm.**

21.	**Name, address of Applicant / Importer**	**M/s AMB HK Enterprises (Pvt.) Ltd,** **2nd Floor Plaza 60, Commercial Block-K, Phase-1, DHA, District Lahore.**

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Analytical method validation/verification of product	Firm has submitted the details of analytical method validation.
	Container closure system of the drug product	• Sp. 5.14-01-140 Clear glass ampoules, 2 mL • Sp. 5.14-01-141 2 mL ampoules of glass USP-1, NS-3
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study testing carried out on pilot-scale batches during 12 months under the long-term storage conditions at a temperature of (5 ± 3) ºC and non-rated relative air humidity, and under the accelerated storage conditions for 6 months at a temperature of (25 ± 2°C) and relative air humidity of (60 ± 5) %.
	Module IV	Non clinical study In order to confirm the safety profile of the product, Reproductive Toxicity Study of Tri-n-butyl Phosphate + Polysorbate 80 After Intravenous Administration in Laboratory rats. Reproductive Toxicity Study of Tri-n-butyl Phosphate + Polysorbate 80 After Intravenous Administration in Laboratory rabbits
	Module V	A clinical trial of Rh prevention (300 µg of anti-Rh Ig was administered at weeks28 and 34 of gestation) reduced the development of Rh immunization during pregnancy from 1.8 to 0.14 %. The next single-dose studies (300 µg of IM or IV anti-Rh Ig at week 28) were also successful.

Company has submitted the followings on 24th November 2022 in reply of short coming letter dated 23rd September 2020:

S.No.	Observations	Response of the firm
Module-I		
i.	Site master file of manufacturer abroad is not submitted (1.3.8)	There is a change in company's structure and due to expansion plan, manufacture has separated the manufacturing sites and their activities and submitted updated SMF of the manufacturer in ANNEX I (1.3.8).
ii.	Clarification is required regarding two secondary packaging and batch certification sites mentioned on CoPP (1.3.2)	Company has already submitted manufacturer's clarification for two sites and activities there duly notarized on 15-11-2018 in reply of another products' query and copy of acknowledgement is

		provided in ANNEX II (1.3.2).
iii.	Copy of valid Drug Sale License (1.3.4)	Valid attested copy of DSL is provided in ANNEX III (1.3.4).
iv.	Intended market for the said product is not provided (1.4.1)	Intended market for the said product is "Domestic as well as for Exports (1.4.1)".
v.	Clarification is required regarding different route of administration of applied product from submitted pharmacopeial monograph (1.5.6 & 1.5.7)	Clarification letter from the manufacturer is enclosed in ANNEX IV (1.5.6 & 1.5.7).
Module-II		
i.	Quality over all summary (QOS) on template approved in 293rd meeting is required (2.3).	QOS (2.3) as per WHO format is provided in ANNEX V.

Moreover, the firm submitted Pre-Registration variation application of "Change in the name and address of the manufacturer" along with the short coming reply and provided the following details of pre-registration variation**:**

- First firm submitted Pre- Registration Variation Fee of Rs. 7,500/- deposit slip no. 8774928436 dated 22.11.2022 then submitted differential fee on 01st December 2022 by challan no. 05695820480 dated 30.11.2022 for Rs. 142,500/- (Total fee firm deposited to the DRAP i.e. Rs. 150,000/- by two challans as mentioned above).
- Revised FORM-5F in ANNEX VII and according to revised Form, the name and address of the manufacturer are as below:

Name and address of marketing authorization holder (abroad)	**Name: LLC BIOPHARMA PLASMA** **Legal Address:** 37-V, Street Kyivska., Bila Tserkva, Kyiv region, 09100, Ukraine.
Name, address of manufacturer(s)	**Name: LLC BIOPHARMA PLASMA** **Legal Address:** 37-V, Street Kyivska., Bila Tserkva, Kyiv region, 09100, Ukraine. **Address of the place of activity:** **Production, primary packaging:** 9, street M. Amosova., Kyiv, 03680, Ukraine. **Production, primary and Secondary packaging, Release of Series:** 37-V, Street Kyivska., Bila Tserkva, Kyiv region, 09100, Ukraine. **Quality Control:** 37, Street Kyivska., Bila Tserkva, Kyiv region, 09100, Ukraine.
Name of exporting country	Ukraine.
Detail of certificates attached (CoPP, Free Sale certificate, GMP certificate)	Firm has submitted legalized CoPP (No. CPP/UA/215/21) dated 16-11-2021, issued by State Service of Ukraine on Medicines and Drug Control, CoPP specifies free sale status of the product in country of origin alongwith its availability. The CoPP also confirms the GMP status of manufacturer.
Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
For imported products, specify one	☒ Finished Pharmaceutical product import

the these	☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
Dy. No. and Date of submission	Dy. No. 34806, Dated: 24-11-2022
Details of fee submitted	Rs.7,500/- slip no. 8774928436 dated 22.11.2022 on 24-11-2022 & differential fee slip no. 05695820480 dated 30.11.2022 for Rs.142,500/- on 01st December 2022 (Total fee deposited Rs.150,000/- by two slips).
The proposed proprietary name / brand name	RHESOGLOBIN, solution for injection, 1500 IU (300 mcg of immunoglobulin)
Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	1 ampoule (1ml) contains: Specific antibodies to anti-Rh0 (D)…….……1500 IU (300 µg of immunoglobulin)
Pharmaceutical form of applied drug	Solution for injection
Pharmacotherapeutic Group of (API)	Biological Product / (Blood derivative)
Reference to Finished product specifications	European Pharmacopoeia
Proposed Pack size	• 1 mL [specific antibodies to anti-Rho (D) — 1,500 IU (300 µg of immunoglobulin)] per ampoule. • Box of 1 or 3 or 5 ampoules in a pack with a package insert.
Proposed unit price	MRP per 1 Amp. As per the DRUG Pricing Policy 2018.
Shelf Life	2 Years
Storage Condition	2°C - 8 °C
The status in reference regulatory authorities	Rhophylac IM/IV Injection 300mcg CSL Behring – USA
For generic drugs (me-too status)	Rhophylac IM/IV Inj 300mcg Reg. No. 041161 Marketed by Hakimsons (Impex) Pvt. Ltd.

- Updated valid legalized original CoPP with the new name and address of the company in ANNEX VIII.
- Approval of change in manufacturer's name and address in the country of origin, original legalized copy in ANNEX IX.
- Site master file of the new manufacturing site in ANNEX I.

Later, following document also submitted by the firm on 22-03-2023:

- Description and Justification of changes in RHESOGLOBIN (Production Site) including the details of Comparative Manufacturing Process at two sites and Batch analysis and Comparative data including the following details:
    1. Introduction of new manufacturing site
    2. Purpose
    3. Description of the changes to be made with all details of current and proposed edition.
        3.1 Product of API
        3.2 Finished Drug product production
    4. Analysis of possible impacts on the target product
        4.1 Production of active substance (API)
        4.2 Finished drug product
    5. Production technology scheme

5.1. Technological schemes of production of active substance (API)
5.2. Technological schemes of finished drug product production

6. Equipment details
7. Premises details
8. Validation of the technological process of API as well as FDP
9. Quality Control of intermediate product, unpacked product as well as finished product including comparative data of analysis of bulks and the drug product "RHESOGLOBIN" batches on current and proposed production sites.
10. Stability data

In conclusion, manufacturer claimed that in introduction of an additional production site and technology transfer for the drug product «**RHESOGLOBIN, solution for injections 1500 IU (300 µg of immunoglobulin)**» was carried out without changes in the manufacturing technology: the sequence of technological operations, process parameters, specifications for intermediate, bulk, finished products have not changed, which is confirmed by comparing the data of analyzes of intermediate products, bulk products, finished drug product at the ***current production site*** (Kyiv) and the ***proposed production site*** (Bila Tserkva) and tables of stability studies of validation batches. The introduction of an additional production site did not affect the quality, efficacy and safety of the finished drug product «RHESOGLOBIN, solution for injections 1500 IU».

Deliberation: Registration Board was apprised that as per CoPP the firm claimed two production sites for the applied product "RHESOGLOBIN, solution for injections 1500 IU". The Board discussed the matter and directed the firm to select one manufacturing site for the instant product. Accordingly, the firm clarified that *LLC BIOPHARMA PLASMA* have three manufacturing sites with the below cited activities:
Production, primary packaging: *9, M. Amosov St., Kyiv, 03680, Ukraine.*
Secondary packaging and Batch certification: *37-V, Street Kyivska., Bila Tserkva, Kyiv region, 09100, Ukraine.*
Quality control: *37, Kyivska St., Bila Tserkva, Kyiv region, 09100, Ukraine.***"**

Decision: Keeping in view legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance to current import policy:

Case: Application of Ready to Fill Bulk Import, Local formulation, filling by M/s Sami Pharmaceuticals (Pvt.) Ltd, Karachi.
DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, export facilitation desk vide letter No. F.1-6/2019-PR-I (EFD) dated 2nd June, 2023 informed that the following firm has achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2020-2021** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board, please.

23.	Name, address of Applicant / Importer	**M/s. SAMI Pharmaceuticals (Pvt.) Ltd. F-95, Off Hub River Road, S.I.T.E. Karachi.**
	Name and address of marketing authorization holder (abroad)	**BIOTON S.A.** Macierzysz, 12 Poznańska Street 05-850 Ożarów Mazowiecki, Poland.
	Name, address of manufacturer(s)	**BIOTON S.A.** Macierzysz, 12 Poznańska Street 05-850 Ożarów Mazowiecki, Poland.
	Name of exporting country	Poland
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP:** Firm has submitted original legalized CoPP certificate (No. 716/22) issued by Ewa Krajewska, Chief Pharmaceutical Inspector, 12 Senatorska street, 00-082

		Warsaw, Poland. The CoPP specifies that the product is licensed to be placed for use in the exporting country as well as the product is actually in the market in exporting country. The CoPP confirms the GMP status of the manufacturing site through periodic inspection in every 3 year.
		GMP: Firm has submitted Copy of legalized GMP certificate issued by Chief Pharmaceutical Inspector, competent authority of Poland, valid till 14-03-2024.

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	For imported products, specify one the these	☐ Finished Pharmaceutical product import ☒ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
	Dy. No. and Date of submission	Dy.No. 14911 Dated 06-06-2023
	Details of fee submitted	PKR 30,000/- Dated 24-02-2023
	The proposed proprietary name / brand name	**SAMULIN R 100 IU/ml Injection (rDNA origin)**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Human Insulin ……..……100IU (rDNA origin)
	Pharmaceutical form of applied drug	Colorless liquid, free from turbidity and foreign matter, during storage traces of very fine sediments may be deposited.
	Pharmacotherapeutic Group of (API)	Insulin and analogues for injection, fast acting ATC: A10AB01
	Reference to Finished product specifications	Ph. Eur. Specifications
	Proposed Pack size	10 ml vial × 1's
	Proposed unit price	As per DPC
	Shelf Life	3 years
	Storage Condition	Store between 2°C to 8°C
	The status in reference regulatory authorities	Humulin® R [REGULAR insulin human Injection, USP (rDNA origin)] 100 units/ml (U-100) by Lilly USA, LLC, Indianapolis, USA
	For generic drugs (me-too status)	Insuget R by M/s Getz Pharma, Reg. No. 050647
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Name, address of drug substance manufacturer	**BIOTON S.A.,** Macierzysz, 12 Poznańska Street 05-850 Ożarów Mazowiecki, Poland.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its complete verification studies, batch analysis and justification of specification, details of reference standards, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: -20°C ± 5°C for 60 months Accelerated: 5°C ± 3°C for 6 months Batches: (12-07-022G, 12-07-023G, 12-07-024G, 14-07-086G, 14-07-087G, 14-07-088G, 19-07-014G, 19-07-015G, 19-07-016G).
	Module-III Drug Product:	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, accuracy, precision, intermediate precision, solution stability, specificity.
	Container closure system of the drug product	The primary packaging is 10ml clear glass vial, bromo-butyl rubber stopper and aluminum seal with secondary packaging unit carton.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 03 batches. The accelerated stability study data is conducted at 25±2°C/ 60%±5% RH for 6 months. The real time stability study data is conducted at 5±3°C for 6 months. Lab-01 Lab-02 Lab-03
	Module IV	Detailed in Biosimilarity data mentioned below
	Module V	Detailed in Biosimilarity data mentioned below
	The firm has submitted Biosimilarity data as per following details:	

<table>
<tr><th>WHO Biosimilarity Guidelines</th><th>Data Submitted by M/s SAMI Pharmaceutical (Pvt) Ltd.</th></tr>
<tr><td>Quality Comparison
2. Physicochemical Characterization</td><td>Regular Human Insulin produced by Bioton S.A. has been compared with the reference drug, Humulin® R, produced by Eli Lilly and Company
<table>
<tr><th>Category</th><th>Quality Attributes</th><th>Analytical methods</th></tr>
<tr><td rowspan="2">Primary structure</td><td rowspan="2">Amino acid sequence</td><td>Peptide mapping</td></tr>
<tr><td>Edman method of the peptide N-terminal sequencing</td></tr>
<tr><td>Higher order structure</td><td>Secondary, tertiary and quaternary</td><td>Far UV Circular Dichroism spectra (far UV CD)</td></tr>
</table></td></tr>
</table>

		structures	Fourier Transformed Infra-Red spectra (FTIR) Near UV Circular Dichroism (near UV CD) Nuclear Magnetic Resonance analysis (NMR)
	Hydrophobicity	Hydrophobic variants	Near UV Circular Dichroism (near UV CD) Nuclear Magnetic Resonance analysis (NMR)
	Size heterogeneity	HMW impurities	Size exclusion chromatography
	In-solution particle size homogeneity	Average size	Laser diffraction
	In-Vitro Biofunctionality	Receptor binding assay	Surface Plasmon Resonance (SPR)
		Cell-based bioactivity assay	INSR/IGF-1R receptor phosphorylation assay
Biological Activity	Cell based Bioactivity Assay – Surface Plasmon Resonance (SPR) Receptor binding studies were carried out on IR-A and IR-B insulin receptors with the use of SPR method. First level of biological activity studies was executed by the assessment of tyrosine phosphorylation and dephosphorylation of IR-A and IR-B insulin receptors. The second level of biological activity studies was achieved in three studies on metabolic activity in mouse 3T3-L1 cells: measuring of glycogen formation in adipocytes, measuring of lipolysis rate and pharmacodynamic evaluation of glucose uptake.		
Immunochemical properties	For determination of HCP a specific ELISA method was developed using antibodies obtained by the immunogenization of rabbits by *E. coli* strain used during the drug substance manufacturing process. The application of specific antibodies ensured the selectivity of the method. During the validation process, the LOQ and LOD were set to 1.25 ppm and 0.625 ppm respectively. Analysis of samples revealed that HCP levels in the final drug substance were, in most cases, bellow the limit of detection. In 9 out of 101 cases, results were higher than 1.0 ppm and the highest value equals 1.7 ppm. We have set an upper limit for HCP at 10 ppm for dry substance.		
Impurities	Process-related impurities/Product-related impurities: • E. coli proteins (HCP) from the host cells • Residual DNA from the host cells • Carboxypeptidase B (specific enzyme used for insulin precursor digestion) • Zinc (used in the insulin precipitation step) • Inorganic residues determined by Sulphated ash method • Related proteins – insulin derivatives formed as side-products or degradation products during manufacture, determined by HPLC according to Ph. Eur. • HMWP include insulin oligomers and protein impurities with molecular masses greater than that of insulin determined by HPLC in accordance with Ph. Eur.		

	• A21-desamido insulin – product-related substance identified in the chromatogram in the system for related proteins and human insulin assay based on the Ph. Eur. • Single chain precursor – residual protein that has not undergone the enzymatic digestion, specific to the particular step
Stability Studies	The firm has submitted stability studies.
Non-clinical Comparison III. *In-vitro* Studies IV. *In-vivo* Studies c) Biological / Pharmacodynamic activity d) Non- clinical Studies	The principles of pharmacodynamic in vitro studies on insulin products are set out in ICH guidelines2,3. Considering these guidelines, the following set of *in-vitro* pharmacodynamic studies was adopted for comparison of Biological Product with Comparator: • Binding to IR-A and IR-B (SPR) • Tyrosine phosphorylation/dephosphorylation of IR-A and IR-B • Glycogen formation in adipocytes • Lipolysis rate • Glucose uptake An indirect evaluation of Biological Product vs. Comparator was performed including the recommended in vitro studies. Receptor binding studies were carried out on IR-A and IR-B insulin receptors with the use of SPR method. First level of biological activity studies was executed by the assessment of tyrosine phosphorylation and dephosphorylation of IR-A and IR-B insulin receptors. The second level of biological activity studies was achieved in three studies on metabolic activity in mouse 3T3-L1 cells: measuring of glycogen formation in adipocytes, measuring of lipolysis rate and pharmacodynamic evaluation of glucose uptake. Evaluation of Biological Product and Comparator biological attributes was indirect in such a way that instead of the composite products, their particular components were used for comparison. Both Biological Product and Comparator are biphasic isophane insulin injections including human insulin and protamine sulphate complex suspended in a solution of insulin of the same species. Reasoning on the Biological Product and Comparator similarity of the kinetics of binding to IR-A and IR-B is based on the comparison of their components represented by Gensulin N and Humulin N (isophane insulin) and Gensulin R and Humulin R (soluble insulin). The same set of products represented Biological Product and Comparator in the tyrosine phosphorylation and dephosphorylation.
Clinical Studies	A double blind, mono-centric, randomized crossover clinical trial with administration of a single subcutaneous dose to compare the pharmacokinetics (PK) and pharmacodynamics (PD) of two recombinant regular human insulins, the test drug being the Regular Human Insulin produced by Bioton S.A. and the reference drug, Humulin® R, (produced by Eli Lilly and Company, packaged and registered by Eli Lilly do Brasil Ltda) in patients with Type 1 Diabetes using euglycemic and hyperinsulinemic CLAMP technique. From the results obtained with this study, it is concluded that the test treatment : Regular Human Insulin produced by Bioton S.A. and the comparator treatment : Humulin ® R – Regular Human Insulin (produced by Eli Lilly and Company, packaged and registered by Eli Lilly do Brasil Ltda) are bioequivalent when considering the pharmacokinetics and pharmacodynamic parameters.

Discussion:

Registration Board was apprised that the bulk concentrate manufacturer submitted the in-vitro pharmacodynamics studies rather than in-vivo animal studies. Accordingly, the firm was asked to provide clarification on the matter. In response, the firm submitted rationale for waiving off in-vivo animal studies

taking the support of guidelines of WHO, FDA and MHRA. The detailed response is as below:

Recent changes in global regulatory guidelines, such as those issued by the World Health Organization (WHO), FDA and the United Kingdom's Medical and Healthcare products Regulatory Agency (MHRA), have recognized the potential to waive in-vivo animal studies for biosimilar approval.

WHO:
Guidelines on evaluation of Biosimilars
Replacement of Annex 2 of WHO Technical Report Series, No. 977
"If the quality comparability exercise and the nonclinical in vitro studies have shown high similarity and the level of residual uncertainty is considered acceptable to move to the clinical phase of the similarity exercise then an additional in vivo animal study is not considered necessary."
https://cdn.who.int/media/docs/default-source/biologicals/bs-documents-(ecbs)/annex-3---who guidelines-on-evaluation-of-biosimilars_22-apr-2022.pdf
MHRA:
Guideline on similar biological medicinal products containing biotechnology-derived proteins as active substance: non-clinical and clinical issues
EMEA/CHMP/BMWP/42832/2005 Rev1 4.
Non-clinical studies
….In vitro pharmacotoxicological studies should be conducted first and a decision then made as to the extent of what, if any, in vivo work in animal studies will be required….. (page 5 of 13)
https://www.ema.europa.eu/en/documents/scientificguideline/guideline-similar-biological-medicinalproducts-containing-biotechnology-derived-proteins-active_en-2.pdf
FDA:
S.5002 - FDA Modernization Act 2.0
S.5002 — 117th Congress (2021-2022)
"(z) NON CLINICAL TEST DEFINED.—For purposes of this section, the term 'nonclinical test' means a test conducted in vitro, in silico, or in chemico, or a non-human in vivo test that occurs before or during the clinical trial phase of the investigation of the safety and effectiveness of a drug, and may include animal tests, or non-animal or human biology-based test methods, such as cell-based assays, microphysiological systems, or bioprinted or computer models.".
https://www.congress.gov/bill/117th-congress/senate-bill/5002/text

Decision: Keeping in view the Biosimilarity data submitted by the bulk concentrate manufacturer (Poland) in the light of guidelines of 297th meeting, Registration Board approved the registration of SAMULIN R 100 IU/ml Injection (rDNA origin).

Imported veterinary Biologicals from Non-Reference countries:

24.	**Name of Importer**	**M/s Huzaifa International, Commercial area, Aziz Bhatti Town, Sargodha**

CASES OF DD-IV (MR. ANUM SAEED)

33. Imported veterinary biological applied by M/s Snam Pharma, Lahore deferred in 323rd meeting of Registration Board.

Following product of M/s Snam Pharma, Lahore was deferred in 323rd meeting of Registration Board as per following details:

Name and address of Importer	**M/s Snam Pharma 61-G, Phase-1, Commercial Area, DHA, Lahore**
Detail of DSL	M/s Snam Pharma, Address: 61-Block G, Phase-I, DHA, Lahore Cannt, District Lahore. Valid till: 14 November, 2022.
Name and address of Manufacturer	M/s Sante Animale, Lot 157, zone industrielle Sud-Ouest B.P.278- C.P 28 810 Mohammedia-Morocco.
Name of the exporting country	Morocco.
Brand Name +Dosage Form + Strength	Bovivax LSD-N Vaccine (10 doses)
Diary No. Date of R& I & fee	Dy. No. 9929R&I Dated 19-04-2022 Rs. 75,000/- (Slip No. 6035676445)
Composition	**Lyophilizate:** Each dose contains: Attenuated live LSD virus, Neethling strain ≥ $10^{3.5}$ TCID50 **Solvent:** Calcium chloride dihydrate… 0.132mg Disodium phosphate dihydrate…1.441mg Sodium chloride…8mg Potassium chloride….0.2mg Monopotassium phosphate…0.2mg Magnesium chloride….0.1mg Water for Injection …s.q.f…1ml
Pharmacological Group	Vaccine
Type of Form	Form-5A
Finished Product Specification	Manufacturer's specifications
Shelf Life	24months (2^0C-8^0C) Stability studies of three batches at (2^0C-8^0C) for 30months.
Document Details	Copy of FSC for Bovivax LSD -N lyophilizate and copy of FSC for MCI solvent.
Pack size	10 doses 20ml solvent
Reference Regulatory Authority Availability	N/A

Products already registered in Pakistan	Mevac LSD of Bromed
Remarks of Evaluator	In response to this division's letter firm has submitted following: Notarized copy of product specific sole agency agreement. Stability studies of diluent for 20ml and 200ml bottles is submitted. For FSC indicating diluent firm has submitted following: Notarized copy of marketing authorization letter showing sale of Bovivax LSD-N-Lyophilizate vials of 10,25,50 and100 doses of freeze-dried vaccine+ bottle of 20,50,100 and 200ml of MCI Solvent for live vaccines respectively in Morocco. Copy of registration license of biological product for Bovivax LSD-N with following pack vial 10 doses+20ml diluent, 25doses+50ml diluent, 50doses+100ml diluent and 100doses+200ml diluent (MCI sterile diluent) in Egypt. Document still required: i. FSC indicating free sale status of product in country of origin.
Previous Decision (M-317)	*Registration Board deferred the product for submission of valid legalized Free Sale Certificate indicating product availability in country of origin.*
Evaluation by DBER	Firm has submitted original legalized FSC which does not indicate product availability in country of origin.
Previous Decision in 321st RB meeting	*Registration Board deferred the case for submission of evidence of approval of applied product in other countries including reference regulatory authorities.*
Evaluation by DBER	Firm has submitted that Bovivax LSD-N vaccine is registered and exported to in following countries: Bulgaria Kenya Egypt UAE To support above statement firm has also submitted copies of registration letters of subject product in Bulgaria, Kenya, Egypt and UAE. The firm has further submitted that the manufacturer of Bovivax LDS-N vaccine ca also be verified from the site of FAO (Food and Agriculture Organization of United Nations) and shared following link: https://www.fao.org/3/cb1892en/cb1892en.pdf
Previous Decision in 323rd RB meeting	*Registration Board deferred the case for further deliberation as FAO is not a regulatory organization and advised to confirm free sale status in reference / non-reference regulatory authorities.*
Evaluation by DBER	The firm has submitted a letter from "The Moroccan Food Safety Office" (ONSSA) who is responsible for veterinary medicine registration and animal health surveillance in Morocco. According to the letter "Bovivax LSD-N" vaccine was registered in Morocco mainly to prevent the risk of an LSD outbreak in the country, which would require a rapid response. However, there have been no cases reported of LSD in Morocco or North African Region. The firm has also submitted a letter from the manufacturer which states that their product "Bovivax LSD-N Vaccine" is sold in following countries: • BULGARIA

	• SERBIA • UKRAINE • BANGLADESH • MALAYSIA • EGYPT • UAE • KENYA • OMAN
Decision: Registration Board deferred the case for submission of free sale in the country of origin or in RRA or in any three European countries.

(b) Copy of registration license of biological product for Bovivax LSD-N with following pack vial 10 doses+20ml diluent, 25doses+50ml diluent, 50doses+100ml diluent and 100doses+200ml diluent (MCI sterile diluent) in Egypt. Document still required: i. FSC indicating free sale status of product in country of origin.
Previous Decision (M-317)	*Registration Board deferred the product for submission of valid legalized Free Sale Certificate indicating product availability in country of origin.*
Evaluation by DBER	Firm has submitted original legalized FSC which does not indicate product availability in country of origin.
Previous Decision in 321st RB meeting	*Registration Board deferred the case for submission of evidence of approval of applied product in other countries including reference regulatory authorities.*
Evaluation by DBER	Firm has submitted that Bovivax LSD-N vaccine is registered and exported to in following countries: Bulgaria Kenya Egypt UAE To support above statement firm has also submitted copies of registration letters of subject product in Bulgaria, Kenya, Egypt and UAE. The firm has further submitted that the manufacturer of Bovivax LDS-N vaccine ca also be verified from the site of FAO (Food and Agriculture Organization of United Nations) and shared following link: https://www.fao.org/3/cb1892en/cb1892en.pdf
Previous Decision in 323rd RB meeting	*Registration Board deferred the case for further deliberation as FAO is not a regulatory organization and advised to confirm free sale status in reference / non-reference regulatory authorities.*
Remarks of Evaluator	The firm has submitted a letter from "The Moroccan Food Safety Office" (ONSSA) who is responsible for veterinary medicine registration and animal health surveillance in Morocco. According to the letter "Bovivax LSD-N" vaccine was registered in Morocco mainly to prevent the risk of an LSD outbreak in the country, which would require a rapid response. However, there have been no cases reported of LSD in Morocco or North African Region. The firm has also submitted a letter from the manufacturer which states that their product "Bovivax LSD-N Vaccine" is sold in following countries: • BULGARIA

	• SERBIA • UKRAINE • BANGLADESH • MALYSIA • EGYPT • UAE • KENYA • OMAN
Decision: Registration Board deferred the case for submission of free sale in the country of origin or in RRA or in any three European countries.	

35. Imported veterinary biological applied by M/s Vet Line International, Lahore deferred in 317th meeting of Registration Board.

Following product of M/s Vet Line International, Lahore was deferred in 317th meeting of Registration Board as per following details:

Name and address of Importer	M/s Vet Line International, Plot No. 939-A,Block-J, Phase-I,LDA Avenue, Lahore
Detail of DSL	No. 05-352-0066-040712D dated 09-02-2019 renewed upto 09-02-2021
Name and address of Manufacturer	**Product License Holder:** M/s Laprovet Hungary Veterinary Pharmaceuticals Ltd., 1107 Budapest Horog u. 32-34. Hungary (the wholly owned subsidiary of Laprovet S.A.S. 7 rue du Tertreau, Arched'Oe 2,37390, Notre Dame D' Oe, France. **Contract Manufacturer:** M/s Ceva-Phylaxia Veterinary Biologicals Co. Ltd., 1107 Budapest, Szallass u.5. Hungary.
Brand Name +Dosage Form + Strength	ITA New Flu H9
Diary No. Date of R& I & fee	Dy. No. 23585(R&I) dated 09-07-2018 Rs. 100000/- dated 09-07-2018
Composition	Each dose (0.2mL) of vaccine contains: Inactivated Avian Influenza virus, type A, sub-type H9N2…. min. 8log2 HI Inactivated Newcastle disease virus, LaSota strain…. min. 5log2 HI
Pharmacological Group	Veterinary Vaccine
Type of Form	Form-5A
Finished Product Specification	As per Innovator.
Shelf Life	24 months (2^0C-8^0C)
Document Details	i. Valid Legalized GMP certificate of M/s Ceva-Phylaxia Veterinary Biologicals Co. Ltd., Hungary No. 02.2/3807-2/2017 dated 17-07-2017 issued by Directorate of ii). Veterinary Medicinal Products, Hungary ii. Valid Legalized FSC No. 02.2/2397-2/2018 dated 20-04-2018 issued by Directorate of **iii).** Veterinary Medicinal Products, Hungary iii. Contract manufacturing certificate No. 02.2/3281-2/2018 dated 13-06-2018 issued by Directorate of Veterinary Medicinal Products, Hungary
Pack size	500ml(2000 doses)
International Availability	UEMOA (West African community including 8 countrie)
Products already registered in Pakistan	AI-OLVAC of M/s Forward Solutions.
Decision of RB in 313th meeting	*Registration Board deferred the case for confirmation of Influenza disease status in country of origin and reference regulatory authorities.*

Remarks of evaluator	The firm submitted the references from UK, European Union & Hungary along with weblinks of official websites. **UK:** In UK, the vaccination against Avian Influenza is not permitted. Stamping out is the most effective means of controlling an outbreak. In England vaccination is only available for zoo birds. Vaccination of zoo birds against avian influenza is currently not permitted in Scotland or Wales. **European Union & Hungary:** Vaccination against Avian Influenza is prohibited on their territory, except for following: **a. Emergency Vaccination:** A Member state may introduce emergency vaccination in poultry or other captive birds as a short-term measure to contain an outbreak when a risk assessment indicates there is a significant and immediate threat of avian influenza spreading within or into the Member State concerned. **b. Preventive Vaccination:** Member States may introduce preventive vaccination in poultry or other captive birds as a long-term measure in accordance with this Section where they deem that on the basis of a risk assessment certain areas of their territory, type of poultry husbandry or certain categories of poultry or other captive birds or the poultry or other captive birds' compartments are exposed to the risk of avian influenza.
Decision of RB in 316th meeting	*"Registration Board deferred the case for further deliberation in next meeting as neither product is on Free Sale in country of origin nor formulation is available in RRAs"*
Remarks of evaluator	The firm has now submitted that vaccines manufactured in reference countries only for export are registered & marketed in Pakistan and the firm requested that if DRAP can't allow them to register their product on the point of non-availability in country of origin & RRAs, DRAP kindly cancel all registration of same products.
Decision of RB in 317th meeting	*Registration Board deferred the product for submission of following by the firm:* **i.** *Valid legalized CoPP OR Free Sale Certificate issued by regulatory authority of country of origin indicating reason of non-availability of product in country of origin* **ii.** *Details of last usage of the product in country of origin or in any reference regulatory authority.*
Remarks of evaluator	The firm has submitted FSC which states that the product "ITA NEW FLU H9" vaccine is licensed for manufacture in the country of origin i.e. Hungary, without being used on the Hungarian market. However, it can be sold freely in the countries where the vaccine has valid marketing authorization. The firm has also submitted the references from UK and European Union along with web-links of official websites which show that vaccination against Avian Influenza is prohibited on their territory.
Decision: Deferred for submission of free sale in the country of origin or in RRA or in three European countries.	

36. Imported veterinary biological applied by M/s Vety Care (Pvt.) Ltd. Islamabad deferred in 323rd meeting of Registration Board.

Following product of M/s Vety Care (Pvt.) Ltd. was deferred in 323rd meeting of Registration Board as per following details:

Name and address of Importer	**M/s Vety Care (Pvt.) Ltd.** **Plot No. 77, Street No.6, I-10/3 Islamabad.**
Detail of DSL	DSL No. DSL-156 ICT/2013 dated 31-12-2014 valid till 30-12-2018.

	Copy of Renewal receipt dated 26-12-2018
Name and address of Manufacturer	M/s Intervet International B.V. Wim de Korverstraat, 5831 AN Boxmeer, The Netherlands
Brand Name +Dosage Form + Strength	**Nobilis IB Primo QX** Lyophilisate for suspension for spray
Composition	Each dose of reconstituted vaccine contains: Live attenuated avian infectious bronchitis virus, strain D388…$10^{4.0}$105.5 EID50* *50% egg infective dose
Finished Product Specification	Innovator Specs
Pharmacological Group	Veterinary Vaccine
Shelf Life	15 months (2^0C-8^0C)
International availability	Not Provided.
Products already registered in Pakistan	Not Available as per record.
Type of Form Dy. No. & Date of application, Fee submitted	Form-5A Dy. No. 5721(R&I) Dated 16-02-2018 Rs. 100000/- 16-02-2018
Demanded Price / Pack size	10Cups x 10000 doses
General documentation	Valid legalized CoPP No. 01/17/113770 dated 13-10-2017 issued by EMA indicating product availability in exporting region.
Remarks of Evaluator	Real time stability data provided is of 0, 6, 11, 18 months instead of appropriate time intervals and only **titer and residual humidity** are tested instead of all controls of finished product. The firm submitted that according to Ph. Eur. Monograph 0062, the test should be performed at regular intervals until 3 months beyond the end of shelf life. For veterinary vaccines the intervals at which the vaccines are tested for stability evaluation are not defined within European legislation. The monograph includes following tests in stability studies:
	Virus titrations, bacterial counts or potency tests carried out at regular intervals until 3 months beyond the end of the shelf life on not fewer than 3 representative consecutive batches of vaccine kept under recommended storage conditions together with results from studies of moisture content (for freeze-dried products), physical tests on the adjuvant, chemical tests on substances such as the adjuvant constituents and preservatives, and pH, as appropriate
Decision of RB in 288th meeting:	*"Registration Board deferred the case for submission of complete stability data indicating all the parameters tested in COA.*
Evaluation by DBER	The firm has now submitted that as per Intervet the stability data already provided as per European Union Guidelines and is being accepted all over the world.
Decision of RB in 292nd meeting:	*Registration Board decided to refer the case to expert working group on veterinary drugs regarding the prevalence of strains and advised the firm to submit valid legalized CoPP indicating product availability in country of origin and European Union Guidelines regarding stability studies.*
Evaluation by expert working group on veterinary drugs	*Referred the case for expert opinion from Ministry of National Food Security & Research, Islamabad.*
Decision of RB in 313th meeting:	*Deferred for expert opinion from Ministry of National Food Security & Research, Islamabad.*
Evaluation of DBE&R	*Expert opinion from Ministry of National Food Security & Research, Islamabad placed in 317th RB meeting:* *Already D274 strain is present which gives protection against D388 because* *D388 is IB variant equal to QX virus it may be recommended for import*

	but in killed form not in live form.
Decision of RB in 317th meeting:	As the firm had not submitted valid legalized CoPP indicating product availability in country of origin and European Union Guidelines regarding stability studies till 317th RB meeting so the Registration Board in its 317th decided as under: ***Deferred the product for submission of valid legalized CoPPs indicating products availability in country of origin and European Union Guidelines regarding stability studies.***
Evaluation by DBE&R	***Now the firm has submitted following:*** *Original legalized COPP indicating product availability in country of origin. (firm has applied for approval of lyophilized part of product but product is supplied with diluent as per CoPP).* *European Union Guidelines regarding stability studies of veterinary vaccine wherein time interval for stability studies is 0,3,6, 9… months but stability studies of applied formulation* are at *0, 6, 11, 18 months' time intervals*
Decision of RB in 323rd meeting:	Deferred for the following: For submission of complete stability data indicating all the parameters tested in COA and on all time points as recommended by European Union Guidelines. For clarification regarding status of product would it be in combo pack or otherwise as firm has applied for approval of lyophilized part of product but product is supplied with diluent as per CoPP.
Evaluation by DBE&R	The firm has submitted that stability data already provided is according to European Pharmacopeia and demonstrate adequate stability of the product. While EU guidelines state that products with expected shelf life of greater than one year, the studies should be conducted every three months during the first year of storage, every six months during the second year, and annually thereafter. So, the testing frequency should have been 0,3,6,9,12,18,24…..months but the stability data provided by the firm is at 0,6,11,18 months. Moreover, the stability data does not include all parameters tested in COA. (only titer and residual humidity are tested as per data). The firm further submitted that the product Nobilis IB Primo QX is not a combo pack and they need approval of lyophilized part only. However, the CoPP is for lyophilisate and solvent both.
Decision: Deferred for the following; **i. Clarification on the point that the CoPP is of combo pack (Lyophilisate and solvent both) but the firm has applied for registration of lyophilized part only.** **ii. The stance of the firm on the expert opinion of Ministry of National Food Security and Research which is as; *"Already D274 strain is present which gives protection against D388 because D388 is IB variant equal to QX virus it may be recommended for import but in killed form not in live form."***	

37. Imported veterinary biological applied by M/s Vety Care (Pvt.) Ltd. Islamabad deferred in 312th meeting of Registration Board.

Following product of M/s Vety Care (Pvt.) Ltd. was deferred in 312th meeting of Registration Board as per following details:

Name of Applicant	**M/s Vety Care (Pvt.) Ltd., Plot #77, St#6, I-10/3, Islamabad.**
DSL details	DSL No. 156 ICT/2013 dated 31-12-2014 valid till 20-12-2022.
Name of Manufacturer	**Product License Holder:** M/s Intervet Nederland B.V. Wim de Korverstraat 35 5831, AN Boxmeer, The Netherlands Manufacturer: M/s Intervet International B.V. Wim de Korverstraat 35 5831, AN Boxmeer, Netherland
Brand Name +Dosage Form + Strength	Nobilis Rismavac

Composition	Each dose contains: Live Chicken Herpes Virus, Strain CVI988……at $3.0 \log_{10} TCID_{50}$
Finished product specifications	Ph. Eur. Specifications
Pharmacological Group	Veterinary Vaccine
Shelf life	60 months (Liquid Nitrogen □□-100°C)
International availability	Netherland
Alternate Products already registered in Pakistan	Cevac MD Rispens (Reg. No. 077532)
Type of Form Dy. No. Date of Application, Fee submitted	Form-5A Dy. No. 17772 (R&I) Date: 15-01-2020 &24-06-2021 Rs. 100000/-
Demanded Price /Pack size	1000 Doses Ampoule/ De-controlled
General documentation	Legalized COPP No. 251446 dated 28-05-2019
Evaluation by DBER	i. Only Virus Titer has been performed in stability studies. The manufacturer has submitted that they only virus titration might change during stability studies therefore only one test is performed. ii. The firm has applied for two pack sizes against one CoPP while pack sizes are not mentioned on CoPP. The firm was asked for evidence and the firm submitted that product is available in country of origin. iii. No. of doses/ pack is not mentioned in stability studies. iv. Stability study data provided is of only last time point.
Decision of RB in 312th meeting:	Registration Board deferred the product for submission of following by the firm: *a. Stability data indicating pack size of the product including all parameters as mentioned in finished product specifications for appropriate time intervals i.e. 0, 3, 6, 9, 12, 18…….months.* *b. Valid Legalized CoPP indicating desired pack sizes as two different pack sizes are applied.*
Evaluation by DBER	**1.** The firm has now provided the stability data of 3 random batches of 2000 doses at following time intervals and only virus titration and identification tests are performed; Batch A2904: 0,9,15,21,27,33,35,42 months Batch A760A: 0,24,36,48,60 months Batch A8584: 0,12,24,36,48 months. **However, stability data of 3 commercial batches of 1000 doses pack size, including all parameters as mentioned in Finished Product Specifications for appropriate time intervals, is still not provided.** **2.** Regarding CoPP, the firm informed that the COPP is on WHO approved format and pack sizes are not mentioned in COPP. The firm has submitted valid legalized COPP No. 258907 dated 1st March,2023.
Decision: **Deferred for submission of stability data of 03 commercial batches of applied pack size indicating all parameters as mentioned in Finished Product Specifications and on all time points as recommended by the European Union guidelines.**	

38. Imported veterinary biological applied by M/s Vety Care (Pvt.) Ltd. Islamabad deferred in 312th meeting of Registration Board.

Following product of M/s Vety Care (Pvt.) Ltd. was deferred in 312th meeting of Registration Board as per following details:

Name of Applicant	**M/s Vety Care (Pvt.) Ltd., Plot #77, St#6, I-10/3, Islamabad.**

Remarks of Evaluator:

All the four above mentioned applications are incomplete and the enclosures/documents required under Form-5 of DRUGS (LICENSING, REGISTERING AND ADVERTISING) RULES, 1976 are not attached with the dossiers. Details of the documents required under Form 5 are as under;

ENCLOSURES OF THE APPLICATION FOR REGISTRATION OF A DRUG FOR LOCAL MANUFACTURE

Dosage Form: ----------

i). Name and address of the manufacturer (applicant).
ii). Brand (Proprietary) name of Drug.
iii). The chemical name(s) and, as appropriate and available the established (generic) names and synonyms of the drug.
iv). Strength of active ingredient(s) per unit, e.g. each tablet or 5 ml, etc. contains.
v). Pharmacological group.
vi). Recommended clinical use.
vii). Proposed route of administration.
viii). Proposed dosage.
ix). Proposed shelf life of the drug.
x). Proposed storage conditions of finished product.
xi). Unit price of the drug, e.g. per tablet, per capsule, per 5ml, etc.
xii). In case of international availability, provide the following information, namely: -
   a. name of the drug;
   b. country where sold/registered; and
   c. name of the company selling the drug or having registration to manufacture (include supporting documents/proof of international registration.
xiii). Brand name(s) of drug available in Pakistan.
xiv). Name(s) of company(s) manufacturing in Pakistan.
xv). Composition (actives &excipients) including statement of the quantitative composition, giving the weight or measure for each active substance used in the manufacture of the dosage form.
xvi). Outline of the method of manufacture.
xvii). Persons under whose direct supervision and control the drug is manufactured with the following details, namely:-
   a. total number of technical staff; and
   b. name, qualification, and designation of the persons directly supervising the manufacture of the drug applied for registration, and any change shall be properly documented and record maintained by the manufacturer.
xviii). Name of equipment that will be used in the manufacture of the drug applied for registration:

	cGMP compliant	
1. _____	Yes	No
2. _____	Yes	No
3. _____	Yes	No
4. _____	Yes	No

xix). Full descriptions of the specifications and analytical methods necessary to assure the identity, strength, quality, purity and homogeneity throughout the shelf life of the drug product.
xx). Name, qualification and designation of the persons who will be responsible for the quality control of the drug.
xxi). Description of the equipment to be used for the quality control of the active raw material and the finished products.
xxii). Labeling and prescribing information (to be mentioned on the pack/leaflet) specimen or draft shall be submitted for the following class as of drugs, namely: -
   a. C.N.S. stimulants;
   b. drugs affecting uterine motility;
   c. drugs inhibiting hormonal production;
   d. hormones and other steroidal preparation excluding preparations for external and topical use;
   e. narcotic drugs as per Single Convention on Narcotic Drugs 1961; and

f. psychotropic substances mentioned as per convention on psychotropic substances, 1971.
(Specimen of label to be submitted as soon as production starts)

xxiii). Facility of water processing with specifications.
xxiv). Environment control processing with details.
xxv). Type of container/packaging.
xxvi). A copy of last Inspection Report conducted by the Ministry of Health.

Decision: Products from Serial No. 39-42 are deferred for submission of documents/enclosures required under Form-5 of Drugs (Licensing, Registering And Advertising) Rules, 1976.

43. Imported veterinary biological applied by M/s Vety Care (Pvt.) Ltd. Islamabad deferred in 323rd meeting of Registration Board.

Following product of M/s Vety Care (Pvt.) Ltd. was deferred in 323rd meeting of Registration Board as per following details:

Name and address of Importer	**M/s Vety Care (Pvt.) Ltd.** **Plot No. 77, Street No.6, I-10/3 Islamabad.**
Detail of DSL	DSL No. DSL-156 ICT/2013 dated 31-12-2014 valid till 30-12-2018. Copy of Renewal receipt dated 26-12-2018
Name and address of Manufacturer	M/s Intervet International B.V. Wim de Korverstraat, 5831 AN Boxmeer, The Netherlands.
Brand Name +Dosage Form + Strength	**Nobivac Tricat Trio** Lyophilisate and solvent for suspension for injection
Composition	After Freeze-drying Each dose contains: Live FCV strain F9……at least 4.6 log10 PFU Live FVR strain G2620A……at least 5.2 log10 PFU Live FPLV strain MW-1……at least 4.3 log10 TCID50 Nobivac Solvent: Each ml contains: Disodium phosphate dihydrate.....0.31mg Potassium dihydrogen Phosphate ….0.21mg Water for injections to 999.16 mg
Finished Product Specification	Innovator Specs
Pharmacological Group	Veterinary Vaccine
Shelf Life	33 months (2-8^{0}C)
International availability	Not Provided.
Products already registered in Pakistan	Not Available as per record.
Type of Form Dy. No. & Date of application, Fee submitted	Form-5A Dy. No. 11336(R&I) Dated 28-03-2018 Rs. 100000/- 28-03-2018
Demanded Price / Pack size	1's Vial Powder 1's Vial Solvent
General documentation	Valid legalized CoPP No. 249028 dated 21-03-2018 issued by Ministry of Agriculture Nature and Food, the Netherlands.
Remarks of Evaluator	The product is not registered in country of origin. The firm submitted that some registrations in the Netherlands differ from the standard registration for a product. This does not mean that the product is in principle not registered or marketed in the Netherlands, but only with a deviation to the standard registration. Real time stability data provided is of 0,9,15,21,27,36 months instead of appropriate time intervals and only titer and residual moisture is tested instead of all controls of finished product. The firm submitted that according to Ph. Eur. Monograph 0062, the test should be performed at

	regular intervals until 3 months beyond the end of shelf life. For veterinary vaccines the intervals at which the vaccines are tested for stability evaluation are not defined within European legislation. The monograph includes following tests in stability studies: Virus titrations, bacterial counts or potency tests carried out at regular intervals until 3 months beyond the end of the shelf life on not fewer than 3 representative consecutive batches of vaccine kept under recommended storage conditions together with results from studies of moisture content (for freeze-dried products), physical tests on the adjuvant, chemical tests on substances such as the adjuvant constituents and preservatives, and pH, as appropriate.
Decision of RB in 288th meeting:	*"Registration Board deferred the case for submission of following by the firm:* *Approval status of above product registration by reference regulatory authorities.* *Complete stability data indicating all the parameters tested in COA."*
Evaluation by DBER	*The firm has now submitted the following:* *Copy of modification approval in Nobivac Tricat Trio indicating registration number of said product issued by Ministry of Economic Affairs, Chief Veterinary Officer of The Netherlands, The Hague. However, as per submitted CoPP the product is not registered in country of origin.* *As per Intervet the stability data already provided as per European Union Guidelines, and is being accepted all over the world.*
Decision of RB in 292nd meeting:	*Registration Board decided to refer the case to expert working group on veterinary drugs regarding the prevalence of strains and advised the firm to submit valid legalized CoPP indicating product availability in country of origin and European Union Guidelines regarding stability studies.*
Evaluation by expert working group on veterinary drugs	*Referred for expert opinion from Ministry of National Food Security & Research, Islamabad.*
Decision of RB in 313th meeting:	*Deferred for expert opinion from Ministry of National Food Security & Research, Islamabad.*
Evaluation of DBE&R	*Expert opinion from Ministry of National Food Security & Research, Islamabad placed in 317th RB meeting:* *Feline (cat)vaccine.* *It is a routine combination, already many companies have this combination, therefore, may be recommended for import.*
Decision of RB in 317th meeting:	As the firm had not submitted valid legalized CoPP indicating product availability in country of origin and European Union Guidelines regarding stability studies till 317th RB meeting so the Registration Board in its 317th decided as under: *Deferred the product for submission of valid legalized CoPPs indicating products availability in country of origin and European Union Guidelines regarding stability studies.*
Evaluation by DBE&R	***Now the firm has submitted following:*** *Original legalized COPP indicating product availability in country of origin, but the word "live" is missing in it however it is live as per information available on following web link* https://db.cbg-meb.nl/marketedauth/v10471-90wr-29012014.pdf *European Union Guidelines regarding stability studies of veterinary vaccine wherein time interval for stability studies is 0,3,6, 9… months but stability studies of applied formulation* are at *0,9,15,21,27,36 months' time intervals.*
Decision of RB in 323rd meeting:	Deferred for submission of complete stability data indicating all parameters tested in COA and on all time points as recommended by European Union Guidelines.

Evaluation by DBE&R	Now the firm has submitted the stability data of Nobivac Tricat Trio and the parameters tested are Appearance, Residual moisture, Assay, Virus content (FCV), Virus content (FVR), Virus content (FPLV) and Container closure test at time intervals 0,12,24and 33 months. While EU guidelines state that products with expected shelf life of greater than one year, the studies should be conducted every three months during the first year of storage, every six months during the second year, and annually thereafter. So, the testing frequency should have been 0,3,6,9,12,18,24…..months.
Decision: Keeping in view legalized CoPP indicating product availability in the country of origin, Registration Board approved the product subject to compliance to current import policy for Finished Drugs.	

Miscellaneous Cases:

Exemption of Drugs (Labelling and Packaging) Rules, 1986 and permission for Local Printing of Labelling Particulars of imported Registered Biological Products.

Following product of M/S Lab Diagnostic SMC Pvt. Ltd. Rawalpindi was approved in 321st meeting of Registration board and Registration Letter was issued vide Letter# F.3-88/2015-DDC(BD)V-II(M-321) dated 02nd December,2022 as per detail mentioned below:

Sr. No.	Registration No.	Name of Drug(s) and composition	Packing	MRP	Approved Shelf life
44.	115087	Vinox 40mg Each 0.4ml Pre-filled syringe contains 40mg enoxaparin sodium injection **Ph.Eur. Specification**	2's PFSs	Rs. 813.67/-	36 months (Below 30^0C)
45.	115088	Vinox 60mg Each 0.6ml Pre-filled syringe contains 60mg enoxaparin sodium injection **Ph.Eur. Specification**	2's PFSs	Rs. 1044.46/-	36 months (Below 30^0C)

(**Product License Holder and Manufacturer**: Nanjing King-Friend Biochemical Pharmaceutical co. ltd. located at No. 16 Xuefu Road, Nanjing High and New Technology Development Road, Nanjing, China.)

On request of the firm, a corrigendum letter was issued vide Letter# F.3-88/2015-DDC(BD)V-II dated 11th January,2023 for correction in Specification from **Ph.Eur. Specification** to **USP Specification** after approval by the Chairman Registration Board.

Now, M/S Lab Diagnostic Systems SMC (Pvt.) Ltd has applied for exemption of Drugs (labelling and packaging) Rules, 1986 and permission for local printing of labelling particulars of following batches at the licensed premises M/S NovaMed Pharmaceuticals 28-KM, Ferozepur Road Lahore (DML # 000590).

Batch details as per COAs are as;

i. **Product Name**: Enoxaparin Sodium Injection 40mg/0.4mL
Batch No. A1F2110V3 **Mfg date** 26-02-2023 **Exp date** 31-01-2026

ii. **Product Name**: Enoxaparin Sodium Injection 60mg/0.6mL
Batch No. A1A0310K1 **Mfg date** 23-02-2023 **Exp date** 31-01-2026

The firm further stated that "*The product is currently unavailable in market and to meet the patient need, we will import it from China. As the product is newly registered, the packs with information according to Drugs Labelling and Packaging Rules is not ready. Given the current situation, we request you to kindly exempt the labelling & packaging requirement for the batches mentioned above for one time only and allow us to get the batch printed locally from a DML Holder".*

Accordingly, the firm has submitted following documents:

a) Application for exemption of Drugs Labelling Rules, 1986.
b) Copy of registration letter.

c) Copy of agreement with M/s NovaMed Pharmaceuticals, 28-Km, Ferozepur Road Lahore (DML # 000590) for local printing of MRP and Drug Registration Number.
d) Copy of valid DML # 000590 of M/S NovaMed Pharmaceuticals 28-KM, Ferozepur Road Lahore.
e) Original fee challan No. 76775487045 of Rs 7,500/-

Evaluation by DBER:

- Total quantity for which one-time exemption is required is not mentioned anywhere in the application.
- Brand name is not mentioned on COAs rather generic name is written.
- Fee challan of only Rs 7500/- is attached while the firm is seeking exemption approval for two products.

Decision: Registration board acceded to the request of the firm for one time import permission of Vinox 40mg (Enoxaparin sodium), Batch No. A1F2110V3, Mfg date: 26-02-2023, Exp date: 31-01-2026 and Vinox 60mg, Batch No. A1A0310K1, Mfg date: 23-02-2023, Exp date: 31-01-2026 and local printing of MRP, Registration No. and other parameters, as per Drugs (Labelling & Packing) Rules, 1986 before sale in market, at the premises of M/s Novamed Pharmaceuticals, 28-km Ferozpur Road, Lahore having DML # 000590 subject to the submission of Fee required for exemption.

46. Virtual GMP Inspection Report of M/s Virchow Biotech Private Limited India for Imported Human Biological (Rasburant 1.5mg/vial)

Following biological product approved in 312th meeting of Registration Board subject to the inspection of manufacturer abroad as per import policy.

Name of Importer/ Manufacturer & meeting number	**Name of Drug &Composition**	**Panel of Inspector(s)/ Date of inspection**
M/s Lab Diagnostic Systems (SMC) Pvt Ltd Rawalpindi. **Manufacturer:** Virchow Biotech Private Limited, Survey No. 172 Parts, Gagillapur (V) Dundigal–Gandimaisamma (M), Medhchal–Malkajgiri (D), Telangana (State) – 500043, INDIA **(M-312).**	Rasburant 1.5mg/vial (Lyophilized Powder for Injection) Each vial contains; Rasburicase (r-DNA origin)…..1.5mg	i Mr. Muhammad Kashif, Deputy Director (BE&R) ii Mr. Abdullah Abro, Deputy Director (CD) **31-01-2023 and 11-04-2023**

Accordingly, an inspection was carried out by inspection panel dated 31-01-2023 & 11-04-2023 and final remarks of the panel are as under: -

Recommendations of the panel:

Based on the proceedings of virtual inspection, documents reviewed and videos of the unit seen, and considering the fact it's a urate oxidase enzyme (no killed/attenuated organism in final product), the panel has come to the conclusion that the firm has adequate systems to manufacture **Rasburant** and appeared to comply the GMP requirements. Hence, the panel recommends the grant of registration of the applied product namely **Rasburant 1.5mg/vial (Lyophilized powder for injection)** to **M/s Lab Diagnostic Systems (SMC) Pvt. Ltd.**

However, the panel strongly recommends **on-site inspection** in order to verify/ascertain the Good Manufacturing Practices (GMP) of the firm **within one year** as virtual inspection can never replace physical/ in-person inspection.

Decision: Registration Board decided to refer back the case to the panel for clear and candid recommendations regarding registration of the product "Rasburant 1.5mg/vial (Lyophilized Powder for Injection)".

Miscellaneous Cases:

47. Personal hearing of M/s Lab Diagnostic Pvt. Ltd. Rawalpindi and M/s Hakimsons (Impex) Pvt Ltd. Karachi regarding Biofactor Streptokinase 15,00,000 Powder for infusion

The following product of M/s Lab Diagnostic Pvt. Ltd. Rawalpindi was approved by the Registration Board in its 295th meeting as per following details;

Manufacturer	Brand Name & Composition	Documents details	Decision
Manufacturer: M/s Lyocontract GMBH Pulverwiese, Trift, Ilsenburg, D-38871, Germany **Marketing Authorization Holder:** M/s Karma-Medica, GMBH Emil-Von-Behring Strasse 76, Marburg, D-35041, Germany	Biofactor Streptokinase 15,00,000 Powder for infusion Each vial contains: Streptokinase...15, 00,000 IU	COPP No. PP10161996 dated 22 July 2019 issued by MHRA UK legalized from Germany Price / Pack size: 1's vial	**M-295:** Keeping in view the valid legalized CoPP indicating product availability in country of origin & approval of MHRA (Reference Regulatory Authority); Registration Board approved the product subject to compliance of current Import Policy for finished drugs.

a) During processing for issuance of Registration Letter to the firm, it was noted that in the COPP provided for the product, it was clearly mentioned that name of the product for United Kingdom is Biofactor Streptokinase 1500,000 powder for infusion & name of the product for Pakistan is Streptofactor 1500,000 powder for infusion.

b) The firm i.e. M/s Lab Diagnostic Pvt. Ltd. Rawalpindi had applied for registration of the product with brand name Biofactor Streptokinase 1500,000 powder for infusion which is the brand name for United Kingdom as per COPP while the product with brand name for Pakistan is Streptofactor 1500,000 powder for infusion as per COPP which is already registered in the name of M/s Hakimsons (Impex) Pvt Ltd. Karachi with registration number 028474.

c) The firm was asked vide Letter# F.No.3-88/2015DDC(BD)V-I dated 8th November,2021 to clarify whether the applied product is the same as registered in the name of M/s Hakimsons (Impex) Pvt Ltd. Karachi or otherwise and clarification regarding the brand name i.e. Biofactor Streptokinase which is the name of the product for UK as per provided COPP was also sought.

d) The firm vide letter No. Nil dated 10th November,2021 and Letter No. Nil dated 28th December,2021 submitted that the applied product is same which is already registered in the name of M/s Hakimsons (Impex) Pvt. Ltd, Karachi. The firm also stated that the Marketing Authorization has been transferred from M/s Biofactor GmbH, Germany to current MAH Karma Pharmatech, Germany. As the previous company, M/s Biofactor GmbH, no longer has the marketing rights of this product, the authorizations issued by them cannot be considered valid any longer. Regarding clarification on brand name, the firm informed that they have been authorized by the new MAH on Brand name "Streptokinase Karma 1,500,000 Powder for Infusion" as mentioned in Letter of Authorization (LOA). So the firm requested to keep the brand name as mentioned in LOA and COPP.

e) The firm i.e. M/s Hakimsons (Impex) Pvt Ltd. Karachi was asked vide letter# F.No.3-48/2014DDC(BD)(Vol-IV) dated 15th April,2022 to submit valid sole agency agreement & valid COPP/evidence of registration of their registered product i.e. Streptofactor 1500,000 powder for infusion registration number 028474 manufactured by M/s Biofactor GmbH Pharmaceutical Import-Export, Germany. A reminder was also issued on 16th June,2022 in order to expedite the process but the firm did not submit any reply.

f) A **Show Cause Notice** was issued to the firm M/s Hakimsons (Impex) Pvt Ltd. Karachi vide Letter# F.No.3-48/2014DDC(BD)Vol-IV) dated 27th July 2022 as per approval by the Chairman Registration Board.

g) M/s Hakimsons (Impex) Pvt Ltd. Karachi submitted reply of the Show Cause vide Letter No. Nil dated 01-08-2022 received on 05-08-2022 and the firm did not provide valid Free Sale Certificate/COPP and valid sole agency agreement.

h) M/s Hakimsons (Impex) Pvt Ltd. Karachi and M/s Lab Diagnostic Pvt. Ltd. Rawalpindi were called for **personal hearing** in 323rd meeting of Registration Board vide Letter # F.No.3-48/2014-DDC(BD)V-IV dated 18th November,2022. However, the case was not discussed in the said meeting as per available record.

i) Now both the parties are again called for personal hearing after approval by the Chairman Registration Board.

Decision: Registration Board decided that the product "Streptofactor" of M/s Hakimsons (Impex) Pvt Ltd. Karachi and the product "Biofactor Streptokinase" of M/s Lab Diagnostic Pvt. Ltd. Rawalpindi, which was approved in 295th meeting of Registration Board, are having different Marketing Authorization Holders with different brand names and manufacturing sites. Thus, the Board decided to process registration of "Biofactor Streptokinase" of M/s Lab Diagnostic Pvt. Ltd. Rawalpindi in the light of decision of 295th meeting of Registration Board.

48. One Time Approval of International Pack for Life Saving Drug Heparin Leo Injection 5000IU Reg#000854 with exemption of Urdu text and printing of MRP and Registration Number in local facility

M/s Zam Zam Corporation, Karachi has requested for "One Time Import Approval" of International UK pack of following product with exemption of Urdu text and printing of MRP and registration number in local facility.

Brand Name	Pack size	Manufacturer
Heparin (Mucous) Injection BP 5000 Units/ml Heparin Sodium Solution for Injection	10 vials of 5ml	Leo Pharma A/S DK 2750, Ballerup, Denmark.

The firm further stated that they are unable to import their registered product Heparin Leo Injection 5000 IU Registration No. 000854 from Denmark because the supplier has refused to supply stock in Pakistan due to unstable currency and volatile market and low pricing factor. However, keeping in view the importance of Drug availability, the supplier is agreed to supply UK International Packs in Pakistan on a "One Time Basis Deal".

Evaluation by DBER:

M/s Zam Zam Corporation has registration of Heparin Injection 5000IU/ml as per following details;

Reg #	Brand Name	Pack size	Manufacturer
000854	Heparin Injection 5000 IU/ml **Brand Name on renewal applications:** "Heparin Leo Injection"	1's	M/s Leo Pharmaceutical products, Denmark

The label specimen attached with the case shows the product is of "**Leo Laboratories Limited Hurley, Berkshire SL6 6RJ, UK**"; which is not registered with DRAP.

Clarification required for;

- Brand name
- Manufacturer name
- Pack size of 10's
- Quantity details to be imported.
- Premises where printing as per LRA Rules will be performed locally.

Decision: Registration Board deferred the case for submission of evidence whether the applied product and manufacturer is same as registered with the DRAP and further clarification for following particulars of the product:
Brand Name, Manufacturer's Name, Pack size, Details of DML holder for local printing

AGENDA ITEM NO. 01 - PERSONAL HEARING CASES

CASE NO. 01: MANUFACTURE & SALE OF ADULTERATED & SUBSTANDARD ABEX INJECTION, REG. NO. 086072, BATCH NO. 21AL2, MFG. DATE 02-21, EXP. DATE 02-23, MANUFACTURED BY M/S. SEMOS PHARMACEUTICALS (PVT.) LTD., KARACHI.

FID, DRAP, Karachi inspected the premises of M/s. JPMC, (Central Pharmacy) Rafeeqi Shaheed Road Karachi. on 23-04-2021, wherein following sample of drug along with other drugs were taken for the purpose of test/analysis on prescribed Form-3. Federal Government Analyst, CDL, Karachi declared the above said sample as "Adulterated and Sub-Standard" quality vide their test report No.KQ.100/2021 (Initial) and (Final) dated 26th May 2021 and 15th June 2021**.** Details are**:**

S. No.	Name of Drug	Reg. No	Batch No.	Mfg. Date	Exp. Date	Mfg. By	Result of CDL	Basis of Result
01	Injection Abex	086072	21AL2	02/2021	02/2023	M/s. Semos Pharmaceuticals (Pvt) Ltd. Plot #11, Sector	Adulterated & Sub-standard	**After reconstitution, containing black**

						121-A, North Karachi. Industrial Area, Karachi.		**particles visible to naked eye.**
02	Ampoule of Water for Injection	026762	WF2-243C	JAN-2021	JAN-2026	M/s. Surge Labortories (Pvt) Ltd. 10th Km, Faisalabad Road, Bikhi, District Sheikhupura	Standard	-

02. M/s. Semos Pharmaceuticals (Pvt) Ltd., Karachi requested for retesting of Drug Abex Injection Batch No. 21AL2 from NIH Islamabad.

03. Proceedings and Decision of 313th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided to ask/request Federal Government Analyst, Karachi to provide OOS investigation and complete testing record on which the product is declared as of Adulterated and Substandard quality.

04. The decision of Board has been communicated dated 16-12-2022 after approval of minutes.

05. M/s. Semos Pharmaceuticals, Pvt Ltd., Karachi dated 27-12-2021, the firm mentioned that they have checked retention samples and recall samples as described process but didn't see any particles after reconstitution.

Firm also highlighted the remarks of CDL report reproduced as:

- As per requirements of USP general chapter <790> additional units may be inspected (As per ANSI/ASQ Z 1.4 or ISO 2859-1 standard for sampling) to gain further information on the risk of particulates in the batch.
- It is also mentioned in USP <790> that because of complaint and regulatory concern inspect 20 units, but they have received 10 units only. That's why they have requested to inspect more samples as per CDL remarks.

For the greater public interest and precautionary measures, they revalidated the Cephalosporin sterile area after replacing the filters where necessary i.e. HEPA filters for tunnel sterilization etc and other HEPA filters were also re-validated where necessary. They conducted DOP test on the filters. They further requested for appellate testing under section 22(4) of the Drugs Act 1976.

06. Response received from Central Drugs Laboratory, Karachi dated 14-03-2022 wherein the remarks of OOS Investigation Form are reproduced as : "Adulterated and Substandard".

07. Technical Evaluation of the case:

- Product is declared as adulterated and substandard after reconstitution, containing black particles visible to naked eyes.
- Firm has conducted risk assessment however the risks are defined by firm in low to moderate range. DOP test was also conducted but no remarks was mentioned in the report.
- Defects may not be equally distributed over the batch that's why it's not necessary for a Board portion or retention portion to be defective. Allowing retesting may result in false negative results and pose the risk to patient which can be avoided otherwise.
- Moreover, the remarks of CDL may be considered for further investigation of quality defect.

08. Decision of 316th Meeting of Registration Board.

The Board after thorough deliberations and considering the facts of the case decided:

i. To issue show cause notice for suspension/cancellation/ prosecution in Drug Court of the subject cited drug to M/s. Semos Pharmaceuticals (Pvt.) Ltd., Karachi and called them for personal hearing before Registration Board

Mr. Adnan Rizvi, Member of Board has recorded his note of dissent i.e. the sample should be sent to NIH for appellate testing.

09. Decision of 316th meeting of Registration Board has been communicated vide letter No. F.03-11/2022-QC (316-RB) dated 27-05-2022.

10. Firm has replied vide Ref. No. SP/LTR/062 dated 01-06-2022 wherein they again requested to send sample for appellate testing to NIH for physical testing and ready to appear before the Board.

11. Firm has been called for personal hearing.

12. Proceedings and Decision of 320th Meeting of Registration Board.

M/s. Semos Pharmaceuticals, Pvt Ltd., Karachi submitted vide Ref No. SP-LTR/065 dated 31-08-2022 that

their flight had been delayed at the last moment and no other flight was available in short span of time. They further requested for another date for personal hearing.

Decision: "The Board after considering the facts of the case, request of the firm to grant another opportunity of personal hearing and after thorough deliberations acceded the request and provide them another opportunity of personal hearing."

13. In view of decision of 320th meeting, they have been called for personal hearing.

14. Proceedings and Decision of 321st Meeting of Registration Board

Mr. Mutti-Ur-Rehman, Director and Mr. Waqas Kamil, QA Manager appeared before the Board. They inform that they have tested the retained sample of product and found it satisfactory and request to send the Board's portion for Appellate testing.

15. Registration Board after detailed discussion and considering the facts of the case decided: "Sample of Abex Injection Batch No. 21AL2 M/s. manufactured by Semos Pharmaceuticals (Pvt.) Ltd., Karachi will be sent to appellate lab for testing of visible particulate matter on which the sample was declared as adulterated and substandard by CDL, Karachi."

16. As per Board's decision, sample has been sent to NIH, Islamabad after approval of minutes vide letter no. F.03-17/2021-QC dated 28-11-2022. NIH Islamabad vide letter No.F.1-20/04-M/2-22-DC&TMD dated 24-01-2023 submitted the test report No. 04-M/2022 of Abex Injection batch no 2IAL2 and declared the sample as substandard.

17. In view of NIH report, a show cause notice has been issued to Ms. Semos Pharmaceuticals Pvt Ltd., Karachi vide office letter of even numbers dated 16-05-2023. Ms. Semos Pharmaceuticals Pvt Ltd., Karachi replied dated 25-05-2023 that sample was tested just before 14 days of expiry and only 10 samples are inspected whereas criteria is of 20 packs, and no black particles present as per previous CDL report but fibers have seen which may be expected due to syringe used for reconstitution or water used for reconstitution. They requested actions such as cancellation, prosecution in drug court and other action should not be taking against them.

18. Firm has been called for personal hearing.

19. Proceedings and Decision of 330th Meeting of Registration Board

M/s. Semos Pharmaceuticals Pvt Ltd., Karachi submitted their reply vide letter no SP-LTR/101 dated 25-05-2023 that their representative was not well and unable to appear before the Board. They further requested for another date for personal hearing.

Registration Board considered request of the firm and decided to provide last chance of personal hearing to the firm M/s. Semos Pharmaceuticals Pvt Ltd., Karachi.

Case No. 02: MANUFACTURE & SALE OF SUB-STANDARD MEFCO SUSPENSION BATCH NO. 21053 MANUFACTURED BY M/S EROS PHARMACEUTICALS (PVT) LTD., KARACHI.

The Federal Inspector of Drug, DRAP, Karachi inspected M/s Sindh Government Children Hospital, North Nazimabad, Karachi on 14-11-2022 wherein following sample along with other drugs were taken for the purpose of test/analysis on prescribed Form-3. Details are:

Name of Product	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	CDL remarks
MEFCO suspension	Ms. Eros Parmaceuticals (Pvt.) Ltd., Karachi	067106	21053	09-2022	09-2024	Substandard on the basis of pH.

02. CDL Karachi declared MEFCO suspension as of substandard quality vide report No. KQ.11-22-000222 dated 19-01-2023. Results of CDL on the basis of which sample under reference has been declared as Substandard are reproduced as under:-

S.No.	Test	Aceptance creteria	Result	Reference
1	**Description**	White to off white viscous suspension	Complies	Mfg. Specs.
2	**Identification**	The identification test must identify Mefenamic acid.	Complies	Mfg. Specs.
3	pH	4.5 to 6.5	**3.7-Does not comply.**	Mfg. Specs.

4	**Assay** Mefenamic acid. (Label claim 50mg/5ml)	95.0% to 105.0%	96.52% complies	Mfg. Specs.

Remarks: 1) The sample is **"Sub-Standard"** quality under the Drugs Act, 1976.
2) The sample could not be tested in the initial sixty days due to non-reproducibility of the test results during method validation. Additional period for testing (as required undersection 22 (2) of the Drugs Act, 1976) was requested from concerned quarter vide letter No.5-3(K)/2023-CDL/S-75 dated 12-01-2023.

03. FID, DRAP, Karachi informed that the firm did not request for retesting. In view of CDL report, a show cause notice has been issued to the firm vide office letter of even numbers dated 01-06-2023.

04. Ms. Eros Parmaceuticals (Pvt.) Ltd., Karachi replied vide letter no nil dated 05-06-2023 wherein they submitted that sample in question declared substandard on the basis of very meager difference in pH and found in accordance with the standard. They also requested for personal hearing.

05. In addition, another sample of MEFCO suspension batch no. 2J041 has also been declared substandard on the basis of pH by CDL, Karachi. A show cause notice has been issued to the firm vide office letter of even numbers dated 19-07-2023.

06. Firm was called for personal hearing.

07. Proceedings and Decision of 330th Meeting of Registration Board.

No one appeared before the Board on behalf of M/s. Eros Pharmaceuticals Pvt Ltd., Karachi.
Registration Board decided to provide last chance of personal hearing to the firm M/s. Eros Pharmaceuticals Pvt Ltd., Karachi.

AGENDA ITEM NO. 02- ROUTINE CASES

CASE NO. 03: MANUFACTURE & SALE OF SUB-STANDARD WATER FOR INJECTION, BATCH NO. LI-961 MANUFACTURED BY M/S. SAFE PHARMACEUTICAL PAKISTAN LTD. KARACHI.

FID, DRAP, Karachi inspected M/s. Safe Pharmaceuticals Pvt Ltd., Karachi on 14-01-2022; wherein following sample of drugs along with other drugs were taken for the purpose of test/analysis on prescribed Form-3:

Name of Product	Manufactured by	Reg. no.	Batch no.	Mfg. Date	Exp. Date	Result of CDL
Noran-40 Injection (vial)	M/s. Safe Pharmaceuticals Pvt Ltd., Karachi.	093293	LP-255	09-21	09-23	Standard
Water for injection (ampuole)	M/s. Safe Pharmaceuticals Pvt Ltd., Karachi.	020632	LI-961	03-21	03-24	Sub-Standard

02. The Government Analyst, Central Drugs Laboratory, Karachi vide test report No.KQ-1-22-000016 dated 28-02-2022 declared the sample of water for injection as **"Sub-Standard"** quality under the Drugs Act, 1976, which is violation of Section 23(1) (a) (v) of Drugs Act, 1976 and rules framed there under.

03. FID issued an explanation letter of even numbers dated 08-03-2022 and reminder dated 19-04-2022. No reply received. Afterwards, FID-II Karachi vide letter No.F.000349/2018-FID-II (K) dated 26-05-2022 submitted names of technical persons and reply of M/s. Safe Pharma where firm challenged the test report of CDL and requested for retesting of sample.

04. It is observed that no date was mentioned on firm's letter, however, the diary No 999 of Karachi office nd date 26-05-2022 mentioned on the letter. As per Section 22 (4) of Drugs Act 1976, the firm should apply within 30 days of the receipt of a copy of the report. The firm's request was not acceded.

05. A show cause notice has been served after approval dated 25-08-2022. Firm had been called for personal hearing in 321st meeting of Registration Board.

06. Proceedings and Decision of 321st Meeting of Registration Board.

Mr. Muhammad Shahid, Regulatory Manager appeared before the Board on behalf of M/s. Safe Pharmaceuticals Private Limited, Karachi. He submitted that technical persons were coming but their flight

was delayed and requested to provide some time as they reached by 4:00 PM. The Board after discussion allowed them to be appeared by 4 PM or ex-parte decision will be taken. No one appeared before the board till end of the meeting.

07. Decision: Registration Board after considering the facts of the case and after thorough deliberations decided:

i. Immediate suspension of the registration of Water for injection (ampoule) (Registration No. 020632) for a period of six months from the date of communication of decision.

ii. Submission of Root Cause Analysis (RCA) and Corrective and Preventive Action (CAPA) by the firm and its verification by following panel.

- Mr.Abdur Rasool Shaikh, Additional Director, DRAP, Karachi.
- Mr. Awais Ahmad, Assistant Director, CDL, Karachi.

iii. Recommendations of panel will be placed before Registration Board for decision.

08. Decision was communicated vide letter No. F.03-45/2022-QC (321-RB) dated 23-11-2022.

09. Additional Director Karachi submitted Product Specific Inspection report vide letter No. F.000349/2018-FID-II (K) dated 08-06-2023. Conclusion of the report is

" After in depth evaluation of the above mentioned documents, interviews of the technical staff, root cause analysis, and trend history, panel could not identify any potential discrepancy of WFI failure or OOS of any other sterile injection manufactured by M/s. Safe Pharma, however, some minor documentation errors were identified and recorded to the management and firm showed commitment for an earlier compliance. Keeping in view above mentioned facts *"The panel is of the opinion that, no potential risk for said product failure could be identified, hence recommended that their suspended registration of WFI 5ml may be resumed with the condition to retest their first batch of WFI again for better safety and quality of the products manufactured by the firm".*

10. Proceedings and Decision of 330th Meeting of Registration Board.

Registration Board after deliberation, considering facts of the case and report of PSI conducted by Additional Director, Karachi decided to revoke the orders of suspension of registration of product Water for injection (ampoule), Registration No. 020632. However, the firm shall submit validation report of water system from a certified source. The Area FID shall take samples of first three batches of WFI for the purpose of test / analysis.

Case No. 04: SEIZURE AND ORDER NOT TO DISPOSE OFF STOCK M/S ONCOLINK PHARMA DISTRIBUTOR. (F. No. 13-56/2022-QC)

01. Federal Inspector of Drugs Lahore-II Lahore vide letter No. 10350/2022-FID (L-II) dated 15-09-2022 inform regarding the "seizure" and "order not to dispose of" following stocks during his visit at M/s. Oncolink Pharma Distributor 216-A, New Muslim town Lahore on 14-09-2022 due to the reason that these stocks had "Government Property Not for Sale" stamp of M/s. Gulab Devi Teaching Hospital on their packs:

S. No.	Brand Name	Batch No.	Mfg. Date	Exp. Date	Mfg. by
01	Linox 400mg tab	(10)LND001	05-21	05-23	M/s. Nabiqasim industries (Pvt,) Ltd., Karachi
02	Lasoride tab	AA006	07-22	06-25	M/s. Sanofi Aventis Pakistan Ltd. Karachi
03	Cordarone 200mg tab	AA005	06-22	05-25	-do-

02. FID-II Lahore informed that investigation is under process and requested for grant of safe custody of seized stocks and extension in grant of permission of order not to dispose of vide letter No. 13-56/2022-QC on 04-10-2022.

03. FID-II Lahore vide letter No. 10751/2022-FID (L-II) dated 29-09-2022 provided initial investigation report wherein he presented the stance of M/s. Oncolink Pharma and submitted as under:

"[…] 4. Ms Oncolink Pharma distributor, submitted in the their clarification that tablet Linox 400mg has been mistakenly issued from Ms Nabi Qasim Karachi instead of stocks of Linox 600mg Tablet to be supplied to M/s Ghulab Devi Hospital. Lahore. M/s Nabi Qasim Karachi as per copy of letter enclosed also endorsed the same. M/s Ghulab Devi Hospital, Lahore issued purchase order of tablets Linezolid 600 mg, Tegzot 600 mg with delivery date 04-02-2022 to M/s M/s Oncolink

Pharma distributor.

5. M/s Oncolink Pharma distributor also submitted that PIC Pharmacy drugs are for sale from PIC Pharmacy and not meant as GOVT Property. They also submitted that they are authorized distributor of M/s Sanofi Aventis, Karachi and same fact was endorsed by the M/s Sanofi Aventis, Karachi as per copy of attached letter dated 19-09-2022 herewith. In contrast M/s Snaofi-Aventis Pakistan had issued invoice in the name of PIC Pharmacy instead of M/s. Oncolink Pharma. As submitted by M/s. Oncolink Pharma; due to non-printing of PIC Pharmacy on the blisters; PIC Pharmacy returned the stocks which was available at the warehouse of M/s Onclink Pharma. However, M/s Onclolink Pharma could not produces the warranty of said drugs. It is also mentioned that the purchase order of PIC pharmacy was directly to M/s Sanofi Aventis instead of any of their distributor including M/s Oncolink Pharma (Copies of all attested documents attached for perusal please).

6. The drugs mentioned above were stocked and being sold in violation of the DRAP Act, 2012 which is punishable under Schedule-Ill of DRAP Act. 2012.

7. Case is forwarded under section 19 (7) of Drugs Act 1976 and Schedule V of DRAP Act 2012 to seek further orders as to the action to be taken in respect of above mentioned contraventions against M/s. Oncolink Pharma Distributor 216-A, New Muslim Town, Lahore and following persons of said firm who were involved in above mentioned contraventions.

1. *Mr. Muhammad Sajid S/o Fazal Ahmad (35200-1411239-1) (Partnert)*
   Residence H. No. 79-80,
   Mohallah Nishter Colony, Data Nagar. Badmi Bagh, Lahore.
2. *Mr. Zaheer Ahmad s/o Fazai Ahmad (35202-3052710-9)) (Proprietor)*
   Residence House No. 80. Nishter Colony. Data Nagar. Badami Bagh. Lahore.
3. *Muhammad Haseeb ur Rehman s/o Muhammad Ikram Shehzad, (35202-9040202-7*
   Residence House No. 390. Block 4 Strcet-B 1, Township. Lahore (Qualified Person)."

04. In view of above mentioned report, FID-II Lahore was once again requested to provide detailed investigate the matter at hospital level and take the opinion of M/s. Gulab Devi hospital and M/s. PIC Lahore regarding the stance submitted by the firm and the distributor.

05. FID-II Lahore vide No. 1462/2023-DRAP (L-IV) dated 12-05-2023 submitted complete investigation of matter. In the instant report, FID provided reply of M/s. Oncolink Pharma Distributors Lahore, M/s. Sanofi Aventis Pakistan Karachi, and Medical Superintendent, Punjab Institute of Cardiology Lahore. In the said letter, FID Lahore endorsed the stance provided by the firm and distributor and confirmed that the products in question were supplied by the companies to their distributor and institutional business representatives. Firm has also explained in their replies that the stocks were supplied by the companies for onward delivery to M/s. PIC Model Pharmacy, Lahore as a result, M/s. PIC Model Pharmacy, Lahore is still waiting for the stocks therefore, the stocks may be released in the best interest of public or any other decision as the Board may deemed fit.

06. In the light of investigation report provided by FID Lahore, matter is submitted before the Board under Section 19 (5) (a) of the Drugs Act 1976 / Schedule-V, Section (5) (a) of the DRAP Act 2012 for further directions in the matter.

Proceedings and decision of the 330th meeting of Registration Board:

The Board thoroughly deliberated on the case and considered the investigation report submitted by FID Lahore vide No. 1462/2023-DRAP (L-IV) dated 12-05-2023. The Board noted the information and decided to direct the FID to proceed under Section 19(5)(a) of the Drugs Act, 1976 and Rules framed thereunder.

Case No. 05: SUBSTANDARD NYLOZ CAPSULE MANUFACTURED BY M/S. ZEPHYR PHARMATEC (PVT) LTD. KARACHI (03-28/2021-QC).

01. Federal Government Analyst CDL Karachi vide test report No. F. 5-3(K)/2021-CDL/S-870 dated 30-07-2021 informed that the sample of product "Nyloz capsule (Esomeprazole 20mg)" Batch No. C01358 (Mfg. date 05-2021, Exp date 04-2023) sent to CDL Karachi by FID-II Karachi has been declared as of substandard quality. Details of the test report are given as under:

S. No.	Test	Acceptance Criteria	Result	Reference
1.	Description	Hard gelatin capsule consist of yellow coloured body and green coloured cap	Complies	Mfg. Specs

		containing white enteric coated pellets		
2.	Identification	Identification test must identify Esomeprazole Magnesium	Complies	USP 43
3.	Dissolution	Each unit is not less than 80%	Complies	USP 43
4.	Uniformity of dosage units by content uniformity	Acceptanc value of the 30 dosage units is less or equal L1% and no individual content of "any" dosage unit is less than [1-(0.01)(L2)]M not more than [1+(0.01(L2)]M	**L1=22.24 – <u>Does not comply.</u>**	USP 43
5.	**<u>Assay.</u>** Esomeprazole. (20mg/cap)	90.0% to 110.0%	Complies	USP 43

02. FID-II Karachi vide letter No. F. 000403/2018-FID-II (K) (Zephyr) dated 07-09-2021 forwarded the request of for appellate testing of Board's portion of sample of their product namely "Nyloz capsule" batch No. C01358 declared substandard by CDL Karachi on 30-07-2021.
03. Registration Board in its 313th meeting decided to fulfill the codal formalities. In compliance Letter vide No. F. 03-28/2021-QC dated 31-12-2022 was issued to M/s. Zephyr Pharmatech Karachi for submission of OOS investigation and complete testing record of the concerned batch and to Federal Government Analyst CDL Karachi for submission of OOS investigation and complete testing record of report vide No. F. 5-3(K)/2021-CDL-S-870 dated 30-07-2021.

Technical evaluation of OOS report by QC section:

04. M/s. Zephyr Pharmaceuticals Karachi vide letter ZP/0398/2022 dated 05-01-2022 provided the OOS investigation report. On technical evaluation of CDL Karachi OOS investigation report and OOS investigation report provided by manufacturer it was observed that both have performed the content uniformity test according to USP 43 specifications. However, the manufacturer claims the product to be of standard quality while CDL Karachi has reported the product to be substandard.
The case was presented in the 320th meeting of the Registration Board but was deferred due to paucity of time.

05. The matter was placed before the Board in its 321st meeting. However, keeping in view position narrated above, the Board did not accede the firm's request of appellate testing and decided to issue show cause notice and called them for personal hearing before Registration Board.

06. In compliance to the decision of RB, show Cause notice was issued to firm vide letter No. 03-45/2022 QC dated 21-nov-22 to which M/s. Zephyr Pharmaceuticals Karachi vide letter ZP/0435/2022 dated 22-11-2022 requested for personal hearing.

<u>Proceedings and Decision of 324th Meeting of Registration Board.</u>
07. Mr Asif Khitab (Sr. Manager Regulatory Affairs) along with QC Manager, Mr Zubair Ahmed Khushhali appeared before the Board for Personal hearing. They reiterated the same stance submitted earlier and requested to send the Board's portion for Appellate testing The Board after considering the facts of the case and thorough deliberations decided as follows:

i. **Registration of "Nyloz capsule (Esomeprazole 20mg)" Mfg by M/s. Zephyr Pharmatec (pvt) ltd. Karachi shall remain suspended for a period of six months or till satisfactory Product Specific Inspection report and verification of CAPA by panel (constituted by Director QA&LT) whichever is later.**

08. In compliance to the above-stated decision of the Board, the Director QA&LT vide letter No. 03-04/2023-QC (234-RB) dated 03-04-2023 nominated Mr. Abdul Rasool Shaikh, Additional Director DRAP Karachi and Mst. Hira Bhutto, Assistant Director DRAP Karachi for PSI and CAPA verification of M/s. Zephyr Pharmatec (Pvt.) Ltd., Karachi.
10. The mentioned panel inspected the firm on 06-07-2023 and submitted the report vide No. F. 000403/2018-FID-II(K)(Zephyr) dated 14-07-2023. The panel verified the CAPA submitted by the firm and unanimously recommended the resumption of production of Nyloz 20mg capsule (Reg. No. 055013).

<u>Proceedings of the Board:</u>
10. In the light of decision of the 324th meeting of the Board, the report submitted by the panel was

discussed in detail. Mr. Aslam, Additional Draftsman M/o Law & Justice (Member Registration Board) was of the opinion that since the panel has unanimously recommended the resumption of production of product "Nyloz 20mg capsule", there is no requirement to further delay the resumption and the Board should accede with the recommendations of the panel and allow resumption of production of product namely "Nyloz 20mg" capsule manufactured by M/s. Zephyr Pharmatec (Pvt.) Ltd., Karachi.

Decision of the 330th meeting of Registration Board

The Board after deliberation decided to;

i. allow the resumption of production of product namely "Nyloz 20mg" capsule manufactured by M/s. Zephyr Pharmatec (Pvt.) Ltd., Karachi.

ii. Destroy stock of product *"Nyloz capsule (Esomeprazole 20mg) Batch No. C01358 (Mfg. date 05-2021, Exp date 04-2023) mfg by M/s. Zephyr Pharmatec (Pvt.) Ltd., Karachi"*, by area FID or any officer nominated by the Additional Director, DRAP, Karachi.

Case No. 06: ILLEGAL IMPORT OF RAW MATERIAL WITHOUT CLEARANCE FROM DRAP BY M/S. EG PHARMCEUTICALS 13-A INDUSTRIAL TRIANGLE, KAHUTA ROAD, ISLAMABAD.

BACKGROUND

Federal Inspector of Drugs-I Islamabad inspected the premises of M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad on 25th January 2022 to investigate PM portal complaint regarding the import of illegal raw material, lack of qualified persons and non-compliance of GMP by M/s. EG Pharmaceuticals Islamabad. During the inspection following Raw Material was recovered from the Raw Material Store (RMS) of the M/s EG Pharmaceutical Islamabad without import documents/NOCs issued by DRAP R&I Section as well as evidence of purchase:

S.	Name of Drug	Batch No.	Quantity	Mfg. by
01.	Amlodipie Besylate powder	AMB/057/03/21	0.29kg	M/s. Prudunce Chemical
02.	Diclofenac Potassium	20190810	109.125	M/s. Zanghai Gindjiuzhou Pharma Henan Dongtai Pharma Co Ltd
03.	Diclofenac Sodium	20200520	3.135	N/A
04.	Tizanidine powder	N/A	2.50	N/A
05.	Ketorolac Trometamol/ Tronethamine	0361220	0.800	M/s. Satyalidivis Pharma
06.	Lidocaine HCl	N/A	0.804	N/A
07.	Metronidazole		13.000	N/A
08.	Paroxetine Calcium		1.000	N/A
09.	Rosuvastatine Calcium		36.0 gm	N/A
10.	Vitamin B3		3.10gm	N/A
11.	Valsartan		0.36	N/A
12.	Metformin	MEF/1010233	598.950	AARTI Begus Ltd India
13.	Loratidine	NRHB0534	5.000	Morepan Lab India
14.	Sitagliptin		3.734	N/A

ACTION TAKEN BY QA&LT

2. The mentioned raw materials were ordered "Not to Dispose of' on Form-1 dated 25-01-2022 under Schedule-V Section (l)(i) of DRAP Act 2012. Permission in order not to dispose of was granted to FID I Islamabad vide letter F.03-05/2021-QC dated 21st February 2022.

3. M/s. EG Pharmaceuticals Islamabad was directed by FID I to submit import documents/NOCs issued by the DRAP I&E Department or as well as evidence of purchase of the above-mentioned raw materials vide letter No. F. 03-07/2004-FID-I(ISD) dated 31st January, 2022 with subsequent reminders on 17th March 2022 and 13th April 2022.

REPLY OF THE FIRM

4. The firm replied vide letter dated 12th April 2022 and admitted that they are obtaining raw material on loan from the local manufacturers/local markets as they are producing their products in small

quantities to fulfill institutional commitments and to avoid market shortage and hence small amount required did not warrant import. Furthermore, Reference to the letter No. F.03-07/2004-FID-1(ISD) dated 13th April 2022, M/s EG Pharmaceuticals through its letter dated 12th April 2022, stated, "we have to get locally either because of their equipment in very low quantity, hence not possible to import, or we had to get them to avoid shortage in the market. As you know that because of International scenario, consignments now a days are delayed and even cancelled. Almost all Pharmaceutical companies do this in Pakistan and Internationally."

CORRESPONDENCE BY QA&LT & ITS REPONSE

5. In light of the firm's response, FID I Islamabad directed the firm vide letter No. F.03-07/2004-FID-I(ISD) dated 25th April 2022 to disclose the sources from which they had procured the above-mentioned raw material on loan in order to identify the culprits & to discourage such practices since it is violation of Import & Export rules 1976 & Section 23(l)(e) and punishable under Section 27(c) of the Drugs Act, 1976. The firm was further directed to provide complete information regarding batch sizes of the aforementioned items as well as the institutional orders placed with the firm. The firm has failed to respond till date and verbally the representatives of the firm refused to provide further cooperation in this matter.

6. Considering the circumstances mentioned above, FID-I Islamabad has concluded that the firm is in violation of Import & Export rules 1976 & Section 23(1)(e) of the Drugs Act, 1976 read with Schedule-II(1)(A)(x)(e) punishable under Section 27(c) of the Drugs Act, 1976 read with Schedule-III(l)(c) of the DRAP Act, 2012 and cognizable under Section 30(1)(a) of Drugs Act,1976 read with Schedule-lV (l)(a) of the DRAP Act, 2012, and has requested as under:
   i. Cancellation of Registration of the above-mentioned products
   ii. Cancellation of DML of M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad
   iii. Grant permission for prosecution M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad through its CEO Mr. Shaukat Hayat Khan and its QC manager Mr. Ihtisham-ul-Haq.

7. In light of above the firm has violated Section 23(1) of Drug Act 1976 punishable under section 27 of Drug Act 1976 and violated the section 6 of Schedule B-II of Drugs (LR&A) rules 1976.

DECISION OF 289TH CLB MEETING

8. The case was discussed and deliberated in detail and the Central Licensing Board directed the Division of Quality Assurance & Laboratory Testing (QA&LT) to issue show cause notice and personal hearing to M/s EG Pharmaceutical, 13-A Industrial Triangle Kahuta Road Islamabad, regarding illegal import/storage of raw materials without Drug Import Licence (Form-5) and clearance certificate from DRAP.
9. In light of the decision of 289th CLB meeting, M/s EG Pharmaceutical 13-A Industrial Triangle Kahuta Road Islamabad was issued show cause notice and personal hearing.

RECOMMENDATIONS

10. In view of the scenario detailed above under rule **12 of the Drugs (Licensing Registering and Advertising) Rules 1976; the proceeding for Cancellation or Suspension of Licenses may be initiated under 12 (1)** *If licensee does not comply with any of the conditions of a license or violates any of the provisions of the Ordinance or the rules, …, the Central Licensing Board may, by an order in writing stating the reasons thereof, cancel a license or suspend it for such period as it thinks fit, either wholly or in respect of some of the drugs to which it relates*. **Through formal procedure under rule 12 (2)** *The Central Licensing Board shall, before cancelling or suspending a license under sub-rule (1), provide an opportunity of being heard to the licensee. Accordingly, the firm was informed to nominate a representative to appear in person before the Central Licensing Board on 28.04.2023*

DECISION OF 290TH MEETING OF CLB: -

11. The Board after thorough deliberation on the facts of the matter; after hearing the stance of Mr. Ihtischam-ul-haq (QC In-charge) on behalf of the firm concluded that firm has contravened the section 23(1)(b)of the Drug Act, 1976 read with DRAP Act, 2012 and Rules framed thereunder and decided as under :

i) Destruction of raw material, which were ordered not to dispose of on Form-2by the FID, as per guidelines issued by the Division of QA&LT.

ii) Refer the matter to the Registration Board with the recommendation to suspend the Registration of all the products, the formulation of which contains above-mentioned illegally procured raw materials, for a period of not less than 18months.

PROCEEDINGS FROM QA:

12. The matter was placed before the Registration Board with the recommendations made in 290th meeting of CLB.

Proceedings and Decision of 330th meeting of Registration Board:

The Registration Board as recommended by the Central Licensing Board in its 290th meeting decided to suspend the Registration of products (formulations) of M/s. EG Pharmaceuticals Islamabad containing below mentioned APIs for a period of 18 months from the date of communication of this decision. As area FID reported that the firm M/s. EG Pharmaceuticals, Islamabad was found involved in the procurement / purchase of said APIs without import documents /evidence of purchase andNOCs issued by DRAP:-

"Amlodipie Besylate, Diclofenac Potassium, Diclofenac Sodium, Tizanidine Hcl, Ketorolac Trometamol/ Tronethamine, Lidocaine HCl, Metronidazole, Paroxetine, Rosuvastatine Calcium, Vitamin B3, Valsartan, Metformin, Loratidine Hcl & Sitagliptin."

Case No. 07: ILLEGAL IMPORT OF RAW MATERIAL WITHOUT CLEARANCE FROM DRAP BY M/S HAWK BIO PHARMACEUTICALS (PVT) LTD, PLOT NO. 10, S-6, NIZ, RCCI RAWAT, ISLAMABAD.

BACKGROUND

1. M/s Hawk Bio Pharmaceuticals (Pvt) Ltd, Plot No. 10, S-6, NIZ, RCCI Rawat, Islamabad's Inspection was conducted by Federal Inspector of Drugs-III Islamabad on 14th October, 2019. The FID has reported that 07 raw materials stored in Raw Material Store were not purchased directly from producer or established supplier. The firm failed to produce any evidence for import or local purchase such as invoice or any other purchase documents for these raw materials. List of raw materials is as follows:

S.	Name of Drug	Batch No.	Quantity	Mfg. by
01.	Invermectin	201808021	1.7Kg	Unknown
02.	Bismuth Subnitrate	19030211	4.1Kg	-do-
03.	Ferrous Sulphate	00118-060	22.250Kg	-do-
04.	Copper Sulphate	RLFX-873-18	19.90Kg	-do-
05.	Zinc Sulphate	JXBHB2019-014	17.7Kg	-do-
06.	Magnesium Sulphate	Not know.	50Kg	-do-
07.	Manganese Sulphate MnSo4	10819-019	2.4Kg	-do-

ACTION TAKEN BY QA&LT

2. M/s Hawk Bio Pharmaceuticals (Pvt) Ltd, Plot No. 10, S-6, NIZ, RCCI Rawat, Islamabad's was issued show cause notice and personal hearing.

proceedings AND DECISION OF 297TH,307thand 324th MEETING OF REGISTRATION BOARD:

3. **Decision of 297th meeting of Registration Board**: -

"The Board after detailed deliberations and considering the facts of the case decided to issue show cause notice for cancelation/suspension of products to the accused."

4. In compliance to the decision of Registration Board, the accused was issued a show cause notice vide No. F. 03-56/2021-QC (Pt-I) (297-RB) dated 05-04-2021. The accused has replied vide ref. No. HBP 4 / 2021 dated 15-04-2021 which is given as under:

"This refer to your letter No. F.03-56/2021-QC(Pt-I) (297-RB) dated April 05,2021 via ums services, which we received on dated April 12,2021 on Subject cited above.

- Please provide us an opportunity to be heard in person in response to above show cause notice.
- We want to submit justification / clarification in person."

5. Keeping in view of above-mentioned reply, the representatives of the firm are called before the Board for personal hearing.

Decision of 307th meeting of Registration Board:

6. Dr. Javed Saeed (CEO M/s. Hawk Bio Pharma, Islamabad) along with QC Manager, Mr. Ajmal and Production Manager, Mr. Zia Hussain appeared before the Board for Personal hearing. They pleaded that they have submitted evidence to FID that their imports were done as per legal procedures. They submitted a written reply and supporting documents. The Board after considering the facts of the case and thorough deliberations decided as follows:
    i. Refer the case back to area FID for complete investigation.
    ii. Suspend all registered products of the firm (as identified by area FID) that were manufactured by the raw materials in question

Decision of 324th Meeting of Registration Board:

7. Registration Board after discussion, considering the facts of the case decided as under: i. Import and export of raw materials does not fall under the mandate of Registration Board. Hence, the case is referred back to QA< Division to decide the case under the Drugs (import & Export) Rules, 1976 under Drugs Act, 1976. Till that decision, registration of all products shall remain suspended as per decision of the 307th meeting of Registration Board communicated vide letter No.F.03-15/2021-QC (307-RB) (Pt-I) dated 03-08-2021.

RECOMMENDATIONS

8. In view of the scenario detailed above under rule **12 of the Drugs (Licensing Registering and Advertising) Rules 1976; the proceeding for Cancellation or Suspension of Licenses may be initiated under 12 (1)** *If licensee does not comply with any of the conditions of a license or violates any of the provisions of the Ordinance or the rules, …, the Central Licensing Board may, by an order in writing stating the reasons thereof, cancel a license or suspend it for such period as it thinks fit, either wholly or in respect of some of the drugs to which it relates*. **Through formal procedure under rule 12 (2)** *The Central Licensing Board shall, before cancelling or suspending a license under sub-rule (1), provide an opportunity of being heard to the licensee. Accordingly, the firm was informed to nominate a representative to appear in person before the Central Licensing Board on 28.04.2023*

9. Representative of the firm M/s. Hawk Bio Pharmaceuticals, National Industrial Zone Rawat, Islamabad was called upon for personal hearing.

DECISION OF 290TH MEETING OF CLB: -

10. The Board after hearing the stance of Dr. Javed Saeed (CEO) and Ms. Zia hussnain (Production In-charge) before the Board on behalf of the firm and thorough deliberation on the facts of the matter; concluded that the firm has contravened the Section 23(1)(4) of the Drug Act, 1976 read with DRAP Act, 2012 and the Rules framed thereunder and decided as under:
    i) Destruction of raw material, which were ordered not to dispose of on Form-2 by the FID, as per the guidelines issued by the Division of QA&LT.
    ii) Refer the matter to the Registration Board with the recommendation for revocation of Suspension of Registration of the suspended products issued vide letter dated i.e. 3rd August 2021.

Proceedings from QA:

11. The matter was placed before the Registration Board with the recommendations made in 290th meeting of CLB.

Proceedings and decision of 330th meeting of Registration Board:

The Registration Board deliberated on the matter. It was informed by the QA&LT Division that letter No.F.03-15/2021-QC (307-RB) was issued on 0.3.08.2021 for suspension of production for the products containing below mentioned APIs, which were procured illegally. The Board considered recommendations of 290th meeting of Central Licensing Board for revocation of Suspension of Registration of the suspended products issued vide letter dated 3rd August 2021. The Board decided to revoke the suspensions of registration orders of the products (formulations) containing following APIs:

"Invermectin, Bismuth Subnitrate, Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Magnesium Sulphate and Manganese Sulphate."

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 32414 Dated 29-11-2021
	Details of fee submitted	PKR 20,000/-: Dated 26-04-2021 PKR 10,000/- as differential fee: Dated 17-06-2021
	The proposed proprietary name / brand name	**Desvel 50mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each extended release film coated tablet contains: 72mg of Desvenlafaxine succinate equivalent to Desvenlafaxine……50mg
	Pharmaceutical form of applied drug	White colored, round, biconvex, extended release and film coated tablet bisecting line on one side and other side is plain.
	Pharmacotherapeutic Group of (API)	Selective serotonin and norepinephrine reuptake inhibitors (SNRIs).
	Reference to Finished product specifications	In-house specification
	Proposed Pack size	1 x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Pristiq Tablet 50mg by M/s Pfizer Pharmaceuticals U.S.A., Inc., (USFDA Approved).
	For generic drugs (me-too status)	Lafaxine 50mg Tablet by M/s Genix Pharma, Reg. No. 070458
	GMP status of the Finished product manufacturer	New License granted on 07/10/2020 Tablet (General & General Antibiotic) section approved
	Name and address of API manufacturer.	M/s Aurore Pharmaceuticals Pvt. Ltd., Plot # 68, 69, 2nd floor Jubilee Heights, Madhapur, Hyderabad, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Desvenlafaxine is present in USP.

		The firm has submitted details of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: T-001, T-002, T-003
	Module-III (Drug Product):	The firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical equivalence has been established against the comparator product Lafaxine 50mg Tablet by M/s Genix Pharma by performing quality tests (Identification, Assay, Dissolution, and Uniformity of dosage form). CDP has been performed against the said product in Acid media (pH 1.0-1.2), acetate buffer (pH 4.5) & phosphate buffer (pH 6.8). The values for f_1 and f_2 are in the acceptable range.
	Analytical method validation/verification of product	Method verification studies have been submitted including linearity, range, accuracy, precision, and specificity.

STABILITY STUDY DATA

Manufacturer of API	M/s Aurore Pharmaceuticals Pvt. Ltd., Plot # 68, 69, 2nd floor Jubilee Heights, Madhapur, Hyderabad, India.		
API Lot No.	DVSF190003		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (1×10's)		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 2, 4, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No. Accelerated	T-001	T-002	T-003
Batch Size	0.3Kg	0.3Kg	0.3Kg
Manufacturing Date	06-2020	07-2020	07-2020
Date of Initiation	07-07-2020	06-07-2020	06-07-2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of license (No: 99/RR /AP/B/C) for M/s Aurore Pharmaceutical (Pvt) Ltd, Telangana State, India. The license is valid till 29-10-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of invoice specifying the import of Desvenlafaxine 1kg (batch # DVSP190003) attested by Assistant Director (I & E) dated 24-04-2020.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.	Data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets have been submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	The firm has submitted audit trail reports on product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) has been submitted.

Remarks of Evaluator:

Sr.#	Section	Observation
1	1.5.2	The applied label claim shows 76mg of Desvenlafaxine succinate eq to 50mg of Desvenlafaxine while master formulation shows 72mg of Desvenlafaxine succinate eq. to 50mg of Desvenlafaxine. The applied label claim of Desvel 100mg Tablet shows 152mg of Desvenlafaxine succinate eq to 100mg of Desvenlafaxine while master formulation shows 144mg of Desvenlafaxine succinate eq. to 100mg of Desvenlafaxine.
2	1.5.3	The proposed brand name does not cover extended release pattern of applied formulation.
3.	3.2.S.4.1 & 3.2.S.4.2	Provide copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both Drug substance & Drug Product manufacturer.
4.	3.2.S.4.3	Analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.
5.	3.2.S.7.3	The storage conditions under which stability study data of drug substance conducted is not as per Zone-IVA conditions.
6.	3.2.P.2.2.1	• Provide results of pharmaceutical equivalence data by performing all the quality tests of developed formulation and the innovator / reference / comparator product. • Justify why pharmaceutical equivalence and CDP studies were not performed against innovator product. • Justify why comparative dissolution profile was not conducted in three BCS media across the physiological pH range.
7.	3.2.P.5.1	Justify the sampling time points for dissolution test which are not as per recommendations of FDA.
8.	3.2.P.6	Submit copy of COA of primary / secondary reference standard including source and lot number which is actually used in the testing of stability batches.
9.	3.2.P.8	• Specify the batch size of stability batches in terms of number of units produced. • Justify the significant change in assay value of real time and accelerated stability study data of batch no. T003. Reference of previous approval of applications with stability study data of the firm (if any).

Decision of 322nd meeting of RB: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Sr.#	Section	Observation	Reply
1	1.5.2	The applied label claim shows 76mg of	The firm vide letter No. nil dated

		Desvenlafaxine succinate eq to 50mg of Desvenlafaxine while master formulation shows 72mg of Desvenlafaxine succinate eq. to 50mg of Desvenlafaxine. The applied label claim of Desvel 100mg Tablet shows 152mg of Desvenlafaxine succinate eq to 100mg of Desvenlafaxine while master formulation shows 144mg of Desvenlafaxine succinate eq. to 100mg of Desvenlafaxine.	11.07.2023 has stated that applied label claim is; Each extended release tablet contains; 76mg of Desvenlafaxine succinate eq to 50mg of Desvenlafaxine. There was a typographic mistake in formulation which is not corrected. It is further observed that in the reply of the firm that they have used CoatDry HPMC K15DC (Coadry 8800) in their formulation, its function is mentioned as ER Coating. Issue with this is that for extended release formulation, polymer is incorporated in the core of tablet, it is not coated over it. Further the Coatdry premix appears to be a mixture for enteric coating of tablets.
2	1.5.3	The proposed brand name does not cover extended release pattern of applied formulation.	The firm has stated that brand name of the product shall be revised to; DESVEL 50mg XR Tablet.
3.	3.2.S.4.1 & 3.2.S.4.2	Provide copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both Drug substance & Drug Product manufacturer.	Copies are submitted
4.	3.2.S.4.3	Analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted.	The firm has submitted that drug substance is of USP specifications. The firm has submitted method verification report that includes; system suitability, specificity, accuracy, precision and repeatability.
5.	3.2.S.7.3	The storage conditions under which stability study data of drug substance conducted is not as per Zone-IVA conditions.	Stability data of drug substance as per Zone IVa is submitted for following batches; DSVF20054. DSVF20055. DSVF20056.
6.	3.2.P.2.2.1	• Provide results of pharmaceutical equivalence data by performing all the quality tests of developed formulation and the innovator / reference / comparator product. • Justify why pharmaceutical equivalence and CDP studies were not performed against innovator product. • Justify why comparative dissolution profile was not conducted in three BCS media across the physiological pH range.	• Results of pharmaceutical equivalence with Lafaxine ER 50mg tablet batch No. 011T064 are submitted. • For not using innovator product frim has stated that it was not available at time of performance of CDP. • The firm vide letter No. nil dated 20.07.2023 has submitted CDP in 0.1N HCl, Acetate buffer and phosphate buffer at all-time points of dissolution profile. The results of CDP are similar to Lafaxime ER Tablet 50mg.
7.	3.2.P.5.1	Justify the sampling time points for dissolution test which are not as per recommendations of	As per provided data, samples were taken at time periods of 1h

		FDA.	(27%). 2h (45%), 4h (68%), 8h (88%), 12h(90%), 16h (92%), 20h(98%), 24h(99%).
8.	3.2.P.6	Submit copy of COA of primary / secondary reference standard including source and lot number which is actually used in the testing of stability batches.	Submitted
9.	3.2.P.8	• Specify the batch size of stability batches in terms of number of units produced. • Justify the significant change in assay value of real time and accelerated stability study data of batch no. T003. • Reference of previous approval of applications with stability study data of the firm (if any).	• The firm vide letter No. nil dated 20.07.2023 has submitted revised stability sheets wherein size of each stability batch is mentioned as 1704 tablets. • Difference of assay value are stated by the firm as a typographic error.

Decision: Registration Board approved the application of DESVEL 50mg XR Tablet. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product name as per SRO 496(I)/2023, before issuance of registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Export Facilitation

M/s Remington Pharmaceutical Industries:

Deputy Director PRV/EFD vide his letter dated 20th July 2023 informed that in pursuance of decision of 133rd meeting of the Authority wherein it was decided that for each 100,000 USD worth of export during a fiscal year one molecule will be considered on priority basis. In compliance to this M/s Remington Pharmaceutical

Industries (Pvt) Ltd., 18 Km Multan Road, Lahore has achieved the benchmark of more than 100,000 USD during the financial year 2021-2022. Accordingly, the firm has requested for priority consideration of the following molecule		
3.	Name, address of Applicant / Marketing Authorization Holder	M/s Remington Pharmaceutical Industries (Pvt) Ltd., 18 Km Multan Road, Lahore.
	Name, address of Manufacturing site.	M/s Remington Pharmaceutical Industries (Pvt) Ltd., 18 Km Multan Road, Lahore. DML No. 000061
	Status of the applicant	☒Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1660 dated 04-07-2022.
	Details of fee submitted	PKR 30,000/- vide slip No.392742733 dated 26/05/2023.
	The proposed proprietary name / brand name	**ZOLOPAT 0.6% Nasal Spray**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100 microlitre spray contains; Olopatadine HCl 665mcg equivalent to Olopatadine……..600mcg
	Pharmaceutical form of applied drug	Solution for Nasal Spray
	Pharmacotherapeutic Group of (API)	Histamine H1 receptor antagonist ATC Code: R01AC08
	Reference to Finished product specifications	Innovator's Specifications.
	Proposed Pack size	15 mL
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Patanase Nasal Spray USFDA Approved
	For generic drugs (me-too status)	Olonase Nasal Spray of M/s Sante (Pvt) Ltd, Karachi (Reg. No. 097084)
	GMP status of the Finished product manufacturer	M/s Remington Pharmaceutical Industries (Pvt) Ltd., 18 Km Multan Road, Lahore. Copy of GMP certificate No.80/2021-DRAP (AD-2040452-634) dated 12-10-2021 issued on the basis of inspection conducted on 30.09.2021 is submitted.
	Evidence of section approval.	The firm has submitted copy of letter of layout approval for regularization vide No. F-147/84-Lic (Vol-I) dated 05.11.2020 wherein Nasal Spray section is mentioned. Same is also mentioned in GMP certificate.
	Name and address of API manufacturer.	**M/s Medigraph Pharmaceuticals Pvt. Ltd**. Plot No. J-46/57, M. I. D. C. Taloja, Dist. Raigad, Maharashtra INDIA Copy of GMP certificate (No. NEW-WHO-GMP/CERT/KD/88548/2020/11/31596) dated 11-04-2020 issued by Food and Drug Administration, M.S. Bandra- Kurla Complex Bandra (E), Mumbai-400 051 Maharashtra, India valid till 10.04.2023 is submitted.

		The certificate specifies that the site indicated on this certificate complies with Good Manufacturing Practices for the dosage forms, categories and activities listed in Tablet 1(attached)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification / validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties (solubility & physical form), general properties of drug pellets., description of manufacturing process and controls, tests for related. Any other Individual unspecified impurity, Total Impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: **Real time**: 30˚C ± 2˚C / 75% ± 5%RH for 48 months **Accelerated**: 40˚C ± 2˚C / 75% ± 5%RH for 6 months **Batches**: PB/OLOH/001/05/10, PB/OLOH/002/05/10, PB/OLOH/001/04/17, PB/OLOH/002/05/17, PB/OLOH/001/01/18, PB/OLOH/002/01/18
	Module-III (Drug Product):	The firm has submitted detail of the description and composition of the drug product, manufacturers, description of manufacturing process and controls, Process validation, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product. The firm has is performing tests for uniformity of delivered dose (within batch and within container)
	Pharmaceutical equivalence	**Test product: ZOLOPAT 0.6% Nasal Spray** Batch No. RND21075 Mfg 12.2021 Exp NA**.** **Reference Product:** Olonase Nasal Spray, Batch No. GE-013, Mfg date: 11.2021, Exp. Date: 11.2023. of M/s Sante (Pvt) Ltd. (Images of Pack are not provided) Pharmaceutical Equivalence is established against the comparator Olonase Nasal Spray, Batch No. GE-013, Mfg date: 11.2021, Exp. Date: 11.2023 of M/s Sante (Pvt) Ltd. by performing quality tests (Physical attributes, Identification, Assay, pH test and osmolarity). Results of both the products are comparable with each other.
	Analytical method validation/verification of product	Method validation studies have submitted including accuracy, precision, linearity& range, LOD, LOQ and robustness.
STABILITY STUDY DATA		
Manufacturer of API	M/s**.** Medigraph Pharmaceuticals Pvt. Ltd. Plot No. J-46/57, M. I. D. C. Taloja, Dist. Raigad, Maharashtra INDIA.	

API Lot No.	FP/OLOH/002/07/21		
Description of Pack (Container closure system)	5 ml clear colourless non-sterile aqueous solution in High density polyethylene (HDPE) bottle with meter dose manual pump and HDPE cap.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	E22010	E22011	E22012
Batch Size	133 units	133 units	133 units
Manufacturing Date	05.07.2022	05.07.2022	05.07.2022
Date of Initiation	07.07.2022	07.07.2022	07.07.2022
No. of Batches	03		

Administrative Portion

55.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
56.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate (No. NEW-WHO-GMP/CERT/KD/88548/2020/11/31596) dated 11-04-2020 issued by Food and Drug Administration, M.S. Bandra- Kurla Complex Bandra (E), Mumbai-400 051 Maharashtra, India. The certificate specifies that the site indicated on this certificate complies with Good Manufacturing Practices for the dosage forms, categories and activities listed in Tablet 1(attached).
57.	Documents for the procurement of API with approval from DRAP (in case of import).	**Drug Substance:** Olopatadine Hydrochloride USP **Quantity:** 1kg **Lot/ batch No.:** FP/OLOH/002/07/21 **Mfg date:** July 2021 **Invoice No.** MPPL/073/21-22 **Invoice date:** 25.01.2022 **Clearance date:** 09.02.2022
58.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
59.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
60.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Decision: Registration Board approved the application of ZOLOPAT 0.6% Nasal Spray.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deferred cases of Form-5

4.	Name and address of manufacturer/ Applicant	M/s Swan Pharmaceuticals, 11-E, Industrial triangle, Kahuta Road, Islamabad
	Brand Name + Dosage Form + Strength	Axoff 40mg tablet
	Composition	Each film coated tablet contains: Febuxostat……..40mg
	Diary No. Date of R & I & fee	Dy.2685; 15-06-2016; Rs.20,000/- (15-06-2016)
	Pharmacological Group	Anti-Gout
	Type of Form	Form-5
	Finished product Specification	Manufacturer specifications
	Pack size & Demanded Price	As per SRO.
	Approval status of product in Reference Regulatory Authorities	Approved by USFDA
	Me-too status	Febuxin by M/s AGP, Karachi (Reg. No. 081104)
	GMP status	Last inspection conducted on 21-12-2016.
	Remarks of the Evaluator	No official monograph is available for applied formulation in USP or BP.
	Previous decision(s)	Deferred for updated status of GMP from QA&LT Division **(M-275)**.
	Remarks of the Evaluator	GMP inspection dated 21-12-2016 concluded that the firm has to work very hard to improve and meet the GMP guidelines as per Drug Act, 1976 and rules framed thereunder. The company is advised to submit a comprehensive plan of rectification/improvements and then after rectifying the shortcomings submit compliance report.
	Decision of 288th meeting of RB	Deferred for updated status of GMP of the firm form QA & LT division as inspection report submitted by firm does not conclude GMP compliant status.
	Remarks of the Evaluator	The firm vide letter No. SW/Reg/188/03/23 dated 30.03.2023 has submitted inspection report for renewal of DML conducted on 13.12.2022. The panel has recommended renewal of DML.
	Decision: Approved with innovator's specification. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 before issuance of registration letter.	
5.	Name and address of manufacturer/ Applicant	M/s Swan Pharmaceuticals, 11-E, Industrial triangle, Kahuta Road, Islamabad
	Brand Name + Dosage Form + Strength	Axoff 80mg tablet
	Composition	Each film coated tablet contains: Febuxostat……..80mg
	Diary No. Date of R & I & fee	Dy.2690; 15-06-2016; Rs.20,000/- (15-06-2016)
	Pharmacological Group	Anti-Gout
	Type of Form	Form-5
	Finished product Specification	Manufacturer specifications
	Pack size & Demanded Price	As per SRO.
	Approval status of product in Reference Regulatory Authorities	Approved by MHRA of UK
	Me-too status	Febuxin by M/s AGP, Karachi (Reg. No. 081105)
	GMP status	Last inspection conducted on 21-12-2016.

	Decision: Approved	

Agenda of Evaluator PEC-X

Case no. 01 Registration applications for local manufacturing of (veterinary) drugs

a. New cases

11.	Name and address of manufacturer / Applicant	M/s Farm Aid Group, Plot # 3/2, Phase I & II, Hattar Industrial Estate, Haripur.
	Brand Name +Dosage Form + Strength	N-Tox Powder
	Composition	Each gram contains: Methenamine ……700mg Sodium Citrate ……..…100mg Citric Acid ……100mg Vitamin B1 ……..…8mg Vitamin B6 ……..…9.2mg Vitamin K3 ……..…2mg
	Diary No. Date of R& I & fee	Dy. No 25608 dated 30-09-2020 Rs.20,000/- dated 29-09-2020
	Pharmacological Group	Antibacterial, diuretic, **antifungal**
	Type of Form	Form 5
	Finished product Specification	Innovator's specifications
	Pack size & Demanded Price	50gm, 100gm, 250gm, 500gm, 1000gm, 5000gm, 10000gm, 15000gm, 20000gm, 25000gm: Decontrolled
	Me-too status	**Could not be confirmed**
	GMP status	cGMP certificate dated 14-10-2022 based on inspection conducted on 15-04-2022.
	Remarks of the Evaluator [X]	**Oral Powder General Veterinary** section confirmed from cGMP certificate dated 14-10-2022 based on inspection conducted on 15-04-2022. **Shortcomings:** • Firm shall submit fee of Rs.7,500/- for correction in pharmacological group, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.
	Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings	
12.	Name and address of manufacturer / Applicant	M/s Farm Aid Group, Plot # 3/2, Phase I & II, Hattar Industrial Estate, Haripur.

	Brand Name +Dosage Form + Strength	Try Tyl S Suspension
	Composition	Each ml contains: Trimethoprim…35mg Sulphadiazine…175mg Tylosin Tartrate…55mg
	Diary No. Date of R& I & fee	Dy.No 25609 dated 30-09-2020 Rs.20,000/- dated 29-09-2020
	Pharmacological Group	Antibiotic/ antibacterial/ **coccidiostat /antiprotozoal**
	Type of Form	Form 5
	Finished product Specification	Innovator's specifications
	Pack size & Demanded Price	50ml, 100ml, 200ml, 250ml, 500ml, 1000ml, 2500ml, 5000ml, 10000ml, 15000ml, 20000ml, 25000ml; Decontrolled
	Me-too status	Diatrim-T Oral Solution of M/s Fizi Pharmaceuticals and Chemical Laboratories, Lahore. (Reg. No. 103836)
	GMP status	cGMP certificate dated 14-10-2022 based on inspection conducted on 15-04-2022.
	Remarks of the Evaluator [X]	**Oral Liquid General Veterinary** section confirmed from cGMP certificate dated 14-10-2022 based on inspection conducted on 15-04-2022. **Shortcomings:** • Firm shall submit fee of Rs.30000/- for correction in formulation (salt form) and pharmacological group, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.
	Decision: Approved. Firm shall submit fee of Rs.30000/- for correction in formulation (salt form) and pharmacological group, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.	
13.	Name and address of manufacturer / Applicant	M/s Farm Aid Group, Plot # 3/2, Phase I & II, Hattar Industrial Estate, Haripur.
	Brand Name +Dosage Form + Strength	Para-20 Powder
	Composition	Each 100Gm Contains: **Paracetamol**…20Gm **Vitamin C**…5Gm Potassium Carbonate…12.5Gm Sodium Bicarbonate…12.5Gm Vitamin E…12.5Gm
	Diary No. Date of R& I & fee	Dy. No 24961 dated 24-09-2020 Rs.20,000/- dated 24-09-2020
	Pharmacological Group	Antioxidant, Analgesic, Antipyretic
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	10gm, 20gm, 30gm, 50gm, 100gm, 250gm, 500gm, 1000gm, 5000gm, 10000gm, 15000gm, 20000gm, 25000gm: Decontrolled
	Me-too status	Para CE Oral Powder of M/s Biogen Pharma, Rawat. (Reg. No. 063812)
	GMP status	cGMP certificate dated 14-10-2022 based on inspection conducted on 15-04-2022.
	Remarks of the Evaluator [X]	**Oral Powder General Veterinary** section confirmed from cGMP certificate dated 14-10-2022 based on inspection conducted on 15-04-2022. The firm had already applied for same formulation with same brand name **(vide Dy. No. 23816 dated 10-07-2018; Rs. 20,000/- 06-07-2018)** which was considered by the

		Registration Board in its **291st, 316th meetings** and the board referred the applied formulation to EWG on Veterinary Drugs for review. In **320th** meeting, Registration Board endorsed the following decision of EWG on Veterinary Drugs. ***"The EWGVD deliberated the cases of paracetamol with Vit C and similar combinations with their dosage form at length and decided to obtain scientific rationale of combination and pharmacokinetics with examples of such products registered at scientifically developed countries for use in variety of animal species as applied by the firms in their applications for product registration".***
	Decision: The board directed the PEC to deliberate the matter with scientific rationale keeping in view the International Practices .	
14.	**Deleted.**	

b. Deferred Cases.

15.	Name and address of manufacturer / Applicant	M/s International Pharma Labs, Raiwind Road, Bhobtian Chowk, Defence Road, 1-Km Towards Kahna, Lahore.
	Brand Name +Dosage Form + Strength	I-Enrocol B Solution
	Composition	Each 100ml contains: Enrofloxacin HCl…10gm Colistin Sulphate…5 MIU Bromhexine HCl…0.5%
	Diary No. Date of R& I & fee	Dy.No 11126 dated 08-07-2019 Rs.20,000/- dated 08-07-2019
	Pharmacological Group	Antibacterial/Mucolytic
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	100ml, 200ml, 250ml, 500ml, and 1000ml; As per DPC
	Me-too status	Could not be confirmed
	GMP status	cGMP certificate dated 13-04-2022 based on inspection conducted on 13-01-2022.
	Remarks of the Evaluator [X]	**Syrup General section** verified from panel inspection report for renewal of DML based on inspection dated 13-01-2022. • Firm has revised finished product specification from inhouse to **"as per innovator's specifications**" along with the fee of Rs. 7,500/- via deposit slip no 2060509181. • Provided conversion of Colistin Sulphate from MIU to grams Colistin Sulphate 10MIU= 500mg **Shortcomings:** • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
	Decision of 323rd meeting: Deferred for evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.	
	Updated status: The firm has now provided the following evidence of generic/metoo status. ➢ **Me too status:** Enrocoli Liquid of M/s Symans Pharmaceuticals (Pvt) Ltd Lahore. (Reg. No. 059167) Firm shall submit fee of Rs.30000/- for correction in formulation (salt form), as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.	
	Decision: Approved. Firm shall submit fee of Rs.30000/- for correction in formulation (salt	

	form), as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.	
16.	Name and address of manufacturer / Applicant	M/s Farm Aid Pharmaceuticals, Plot No3/2 Phase I & II, Hattar Industrial Estate, Haripur.
	Brand Name +Dosage Form + Strength	Doxy Plus Powder
	Composition	Each 1000gm contains: **Tylosin Tartrate**…100gm **Doxycycline HCl**…200gm Bromhexine HCl…5gm **Colistin Sulphate**…450 MIU **Streptomycin Sulphate**…36gm
	Diary No. Date of R& I & fee	Dy.No 24870 dated 23-09-2020 Rs.20,000/- dated 22-09-2020
	Pharmacological Group	Antibacterial, Anti-viral
	Type of Form	Form 5
	Finished product Specification	Innovator's specifications

	Decision: Approved. Firm shall submit fee of Rs.30000/- for correction in formulation (salt form), as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.	

Case no. 03 Registration applications of categories to be considered on priority

c. Export facilitation

i. Veterinary

Deputy Director PRV/EFD vide letter No.1-6/2019-PR-I (EFD) dated 26-05-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the pharmaceutical i.e. one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision, **M/s International Pharma Lab. Lahore** has submitted following application(s) for priority consideration/ evaluation in lieu of export facilitation, submitted before the Board for its consideration please:

37.	Name and address of manufacturer / Applicant	M/s International Pharma Labs, Raiwind Road, Bhobtian Chowk, Defence Road, 1-KM Towards Kahna, Lahore.
	Brand Name +Dosage Form + Strength	Power Drench
	Composition	Each ml Contains: Triclabendazole…12gm Ivermectin…0.2gm Albendazole…10gm
	Diary No. Date of R& I & fee	Dy. No 8508 dated 01-04-2022 Rs.30,000/- dated 28-03-2022
	Pharmacological Group	Anthelmintic
	Type of Form	Form 5
	Finished product Specification	Manufacturer's specifications
	Pack size & Demanded Price	100ml, 200ml, 250ml, 500ml, 1000ml, and 5000ml; As per DPC
	Me-too status	Thunder Drench of M/s Star Laboratories (Pvt) Ltd, Lahore. (Reg. No. 058941)
	GMP status	cGMP certificate dated 13-04-2022 based on inspection conducted on 13-01-2022.
	Remarks of the Evaluator [X]	**Syrup General section** verified from panel inspection report for renewal of DML based on inspection dated 13-01-2022. • Upon clarification regarding the applied formulation since same quantities of APIs are mentioned **per ml** in covering letter while **per 100ml** in Form-5 and throughout the dossier, the firm has submitted the correct formulation in line with above stated generic formulation as follows: **Each 100ml contains:** **Triclabendazole…12gm**

		Ivermectin…0.2gm **Albendazole…10gm**
	Decision: Approved with following label claim: **Each ml contains:** **Triclabendazole…120mg** **Ivermectin…2mg** **Albendazole…100mg** **Firm shall submit fee of Rs.30000/- for correction/pre-approval change in product label claim as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.**	

Case no. 04 Registration applications of import cases

a. Deferred cases (Veterinary)

38.	Name and address of Applicant	M/s Prix Pharmaceutica, 26 Abbot Road, Lahore, 54000, Pakistan
	Detail of Drug Sale License	Name: M/s Prix Pharmaceutica, Address: 26 Abbot Road, Lahore Validity: 12-06-2027. Status: License to sell drugs as Distributor (Form No.11).
	Name and address of manufacturer	M/s Eurovet Animal Health B.V., Handelsweg 25, PO Box 179, 5530 AD Bladel, The Netherlands
	Name and address of marketing authorization holder	M/s Eurovet Animal Health B.V., Handelsweg 25, PO Box 179, 5530 AD Bladel, The Netherlands
	Name of exporting country	The Netherlands
	Type of Form	Form-5A
	Diary No. & Date of R& I	Dy.No 33720 Dated 18-12-2020
	Fee including differential fee	Rs : 50,000 Dated 18-12-2020
	Brand Name +Dosage Form + Strength	Revozyn RTU 400mg/ml Suspension for Injection
	Composition	Each ml Contains: Penethamate Hydroiodide…400mg
	Finished Product Specification	Inhouse
	Pharmacological Group	Penicillin Antibiotic
	Shelf life	2 years
	Demanded Price	Decontrolled
	Pack size	50ml
	International availability	**Netherlands approved**
	Me-too status	N/A
	Detail of certificates attached	➢ Photocopy of Legalized COPP No. 253161 dated 09-03-2020 issued by Ministry of Agriculture, Nature and Food Quality of the Netherlands confirms the GMP status of the manufacturer as well as free sale status of the applied product in country of origin. ➢ Copy of distribution agreement/ letter of authorization **not provided**
	Remarks of the Evaluator [X]	6 months accelerated and 24 months long term stability studies data has been submitted as per zone-IV-A conditions. **Shortcomings:** • The already submitted COPP is **photocopy,** Provide legalized valid original COPP.

		• Provide legalized valid original letter of Authorization (LOA) • Confirmation of dedicated penicillin injectable section. • Submit label in accordance with The Drugs (Labeling and Packing) Rules, 1986.
	Decision of 326th meeting: Deferred for following • legalized valid original COPP • legalized valid original letter of Authorization (LOA) • Confirmation of dedicated penicillin injectable section • Submit label in accordance with The Drugs (Labeling and Packing) Rules, 1986.	
	The firm has submitted the following: ➢ Scanned copy of legalized COPP No. 259737 dated 16-06-2023 issued by Ministry of Agriculture, Nature and Food Quality of the Netherlands confirms the GMP status of the manufacturer as well as free sale status of the applied product in country of origin. ➢ copy of LOA dated 30-09-2020 **(not notarized/ legalized**). ➢ label in accordance with The Drugs (Labeling and Packing) Rules, 1986	
	Decision: Deferred for following: • **Consideration of case after the decision of the Authority regarding the manufacturing of Beta-lactum antibiotics and general products as per the International practices** • **Notarized Valid copy of Letter of Authorization.**	

Evaluator PEC-II

Case no. 01 Registration applications of newly granted DML or New section (Human)

c. **New DML**

CLB in its 253rd meeting held on 25th May, 2017 has approved grant of DML by way of formulation for M/s Curexa Health (Pvt.) Ltd. Plot 517, Sundar Industrial Estate, Raiwind Road, Lahore including section of Dry powder injection (Cephalosporin). Now the firm has applied for priority consideration of following two molecules against their available quota of priority consideration for 10 molecules per section.
Previously 6 molecules have been considered by Registration Board for Dry powder injection (Cephalosporin) section of M/s Curexa Health (Pvt.) Ltd. Plot 517, Sundar Industrial Estate, Raiwind Road, Lahore.

39.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Curexa Health (Pvt.) Ltd. Plot 517, Sundar Industrial Estate, Raiwind Road, Lahore**
	Name, address of Manufacturing site.	M/s Curexa Health (Pvt.) Ltd. Plot 517, Sundar Industrial Estate, Raiwind Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 11-07-2019 based on inspection conducted on 24-05-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of section dated 14-06-2017 specifying Dry Powder Injection (Cephalosporin) section, Dry Powder Suspension (Cephalosporin) section & Capsule (Cephalosporin) section
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

	Dy. No. and date of submission	Dy.No 22725 dated 11-08-2022
	Details of fee submitted	Rs.50,000/- dated 02-08-2022 & Rs.25,000/- dated 06-07-2022
	The proposed proprietary name / brand name	**Ceflaro 600mg Injection IV**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Ceftaroline Fosamil monoacetate monohydrate eq. to Ceftaroline Fosamil……. 600mg (With L-Arginine)
	Pharmacotherapeutic Group of (API)	Antibacterial for systemic use. Fifth-generation cephalosporin
	Pharmaceutical form of applied drug	Yellow-white to light yellow dry Powder for Injection
	Reference to Finished product specifications	Manufacturer's Specifications
	Proposed Pack size	1's & 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Teflaro 600mg Injection (US-FDA Approved) by M/s ALLERGAN Pharma
	For generic drugs (me-too status)	N/A
	Name and address of API manufacturer.	M/s Qilu Antibiotics Pharmaceutical Co., Ltd. No.849 Dongjia Town, Licheng District, Jinan, Shandong Province, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module-III Drug Substance:	Monograph of Ceftaroline Fosamil is not present in any Pharmacopoeia. The firm has submitted details of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of

		specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence with Innovator Brand Teflaro Injection 600mg IV has been submitted
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Qilu Antibiotics Pharmaceutical Co., Ltd. No.849 Dongjia Town, Licheng District, Jinan, Shandong Province, China		
API Lot No.	1003DJ87ZA		
Description of Pack (Container closure system)	1's (Blister of 1 filled vial & 1 WFI 20mL, LDPE ampoule), securely packed in carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	RD-CH-22004	RD-CH-22005	RD-CH-22006
Batch Size	180 Vials	180 Vials	180 Vials
Manufacturing Date	Feb-2022	Feb-2022	Feb-2022
Date of Initiation	08-Feb-2022	08-Feb-2022	08-Feb-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	• N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate No. SD20170569 issued by CFDA & Copy of DML certificate No. Lu 20160006 issued by CFDA valid till 25/06/2022 & 03/11/2025 respectively has been provided.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. A21229J dated 14/10/2021 (DRAP Approval Ref. No. 17934/2021-DRAP dated 24-11-2021) (Approval letter No. F.08-10/2021-I&E (QA&LT) from AD (I&E) Islamabad is also provided).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section#	Observations	Firm's response

1.3.5	Latest GMP inspection reports of drug product manufacturer, conducted within last three years, shall be submitted.	Copy of GMP certificate dated 11-07-2019 based on inspection conducted on 24-05-2019 is submitted
3.2.P.2.5	Compatibility study report mentions 0.9% NaCl solution and water for injection as reconstitution diluents, whereas innovator drug product literature only recommends water for injection as reconstitution diluent. Clarification shall be submitted in this regard.	Firm has referred to the unit carton label of the innovator pack wherein 0.9%NaCl is also recommended as reconstitution diluent.
3.2.P.5.1	• Firm has proposed limits for pH test as "4.8 - 6.5", whereas innovator drug product literature declares the pH of the reconstituted solution as "5.0 - 7.0" Justification shall be submitted for this variation. • Limits of water content declared in the drug product specifications are different from that declared in process validation protocol.	Firm has referred to the unit carton label of the innovator pack wherein pH range of 4.8-6.5 is declared. The in-process limits are kept tighter than the finish drug product specifications.

- Submitted trial mentions theoretical weight of 400mg as label claim for the calculation of dispensed quantity of drug substance per unit vial.

  Response: It is a typographical error. 400mg is mistakenly written instead of 600mg.

  Calculation of dispensed quantity of drug substance per unit vial of Ceflaro 600mg is as follows;

  Ceftaroline fosamil with arginine lot No: 2201000020

  Potency (on as is basis) = 56.8416%

  Formula for fill weight:

  Theoretical weight (mg) x Std. Assay % / Actual Assay %

  600 x 100 / 56.8416 = 1056mg per unit vial

- Value of as is potency of "56.8416%", used for the calculation of dispensed quantity of drug substance per unit vial, shall be justified against the results of drug substance analysis performed by M/s Curexa.

  Response:

  Potency from Manufacturer CoA calculated and used for target filled weight as follows:

  Assay = 99.2 %

  (Anhydrous, acetic acid and arginine free basis)

  Water = 0.5 %

  Acetic Acid = 5.3 %

  Arginine = 36.9 %

  Potency = (100 – 0.5 – 5.3 – 36.9)/100 x 99.2

  = 56.8416 % (as is basis)

Same Test Method with formula used for testing of RM as provided by manufacturer.

Ceftaroline Fosamil for Injection is supplied with L-Arginine as pre-mix blend. The value 56.8416% refers to API contents in portion of sample under analysis i.e., blend uniformity, not the potency which applies to pure API, the reason why Uniformity of Dosage Units by Weight Variation is performed for drug product. Further the value is not used to calculate the API required to prepare a bulk but used to calculate the target fill wight to ensure that Ceftaroline fosamil for injection meets the requirements of Uniformity of Dosage Units by Weight Variation.

- Justify the imported quantity of 1 kg of drug substance against the quantity required for the drug substance analysis and manufacturing of three trial batches of each strength i.e., 400mg & 600mg of applied formulation.

Response: Ceflaro 400mg Injection IV:

Quantity of API used per batch x Total No. of batches:

0.141 Kg x 3 = 0.423 Kg

Ceflaro 600mg Injection IV

Quantity of API used per batch x Total No. of batches

0.190 Kg x 3 = 0.57 Kg API

Total Quantity of Used = 0.57 Kg + 0.423 Kg = 0.993 Kg

- Justification shall be submitted for the manufacturing of trial batches before the sterility testing of drug substance.
  Response:
  Prior to procurement of trial material, source approval samples from three different batches evaluated for physical, chemical & microbiological attributes were found compliant. Keeping in view the risk associated with sampling, the sterile materials are supplied with separate sample portions for evaluation in routine but because of the high cost of material, the trial material was supplied without sample portion and the sterility test is performed on filled vials to mitigate the risk associated with sampling. The material is directly processed in sterile area and the sterility is evaluated in initial testing of drug product.

- Justification shall be submitted for initiating stability studies prior to the batch release of trial batches by QC.
  Response:
  Initial testing includes sterility testing which delayed batch release, all other applicable quality tests were conducted prior to initiating stability studies.

Curexa received the drug substance with manufacturing date of 29-Apr-2021. Material when received (25-Jan-2022) almost 9 months passed. So, drug product placed for stability study on same day of filling to avoid any further delay due to initial evaluation.

Decision: Deferred for submission of justification for:

- **Non-performance of drug substance analysis of the relevant batch used for manufacturing of drug product stability batches, by M/s Curexa Health (Pvt.) Ltd.**
- **Rationale of quantity of drug substance imported against the proposed batch size, considering the quantity required for the drug substance analysis and process loss during manufacturing for trial batches.**

40.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Curexa Health (Pvt.) Ltd. Plot 517, Sundar Industrial Estate, Raiwind Road, Lahore**

	For generic drugs (me-too status)	N/A
	Name and address of API manufacturer.	Name of Manufacturer: Chifeng Addisun Pharmaceutical Co., Ltd. Site address: No.3 Minsheng Street, Economic Development Zone of Hongshan District, Chifeng, Inner Mongolia, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module-III Drug Substance:	The firm has submitted details of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The intermediate stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. The long term stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 36 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence with Innovator Brand Avycaz 2.5g Injection IV has been submitted

		Comparative Dissolution Profile - NA
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Name of Manufacturer: Chifeng Addisun Pharmaceutical Co., Ltd. Site address: No.3 Minsheng Street, Economic Development Zone of Hongshan District, Chifeng, Inner Mongolia, China		
API Lot No.	2105001		
Description of Pack (Container closure system)	1's (Blister of 1 filled vial & 1 WFI 10mL, LDPE ampoule), securely packed in carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	RD-CH-21002	RD-CH-21003	RD-CH-21004
Batch Size	158 Vials	158 Vials	158 Vials
Manufacturing Date	July-2021	July-2021	July-2021
Date of Initiation	16-Aug-2021	16-Aug-2021	16-Aug-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	• Fortez Injection 2g IV CTD Dossier approved in 317th DRB Meeting held on 16th-17th May-2022 • Ceflaro 400mg Injection CTD Dossier approved in 329th DRB Meeting
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate valid till Dec-2022 & Copy of DML No. Inner 20160028 of Chifeng Addisun Pharmaceutical Co., Ltd. Valid till 27-12-2025 issued by Inner magnolia autonomous region drug administration is provided. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. IV21S002 dated 9th June, 2021 attested by DRAP dated 22-06-2021. The invoice is cleared by AD (I&E) DRAP, Lahore
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section#	Observations	Firm's response

1.3.5	The production scope mentioned in the submitted DML of drug substance manufacturer does not include "Ceftazidime/Aviabactam"	Firm has submitted GMP certificate and DML issued by CFDA, wherein scope of manufacturing does not include "Ceftazidime/Avibactam".
3.2.S.4.4	Analytical record for the drug substance analysis performed by M/s Curexa shall be submitted. Submitted batch COAs of drug substance does not elaborate about the declared Assay results, whether it is "on dried basis" or " as is basis".	Assay in the submitted batch CoAs of the drug substance is calculated on "as is basis"
3.2.P.5.1	• Justification shall be submitted for the proposed limits for pH test of drug product..	The proposed limits for pH test of drug product are as per API Manufacturer's CoA.

- Proposed weight of 3.15gm per unit vial shall be justified against the label claim of applied product and contents of sodium bicarbonate.

  Response:

  Firm has submitted justification for the filled weight per unit vial against the potency of Ceftazidime declared in drug substance batch analysis.

- Use of value of potency "64.8%" of Ceftazidime, for the calculation of dispensed quantity of drug substance per unit vial, shall be justified against the results of drug substance analysis performed by M/s Curexa wherein Assay results have been declared as 64.5% for Ceftazidime.

  Response:

  The value 64.8% refers to API contents in portion of sample under analysis (blend uniformity) not the potency which applies to pure API, the reason why Uniformity of Dosage Units by Content Uniformity is performed for drug substance to ensure blend uniformity

- Justify the imported quantity of 1.5 kg of drug substance against the quantity required for the drug substance analysis and manufacturing of three trial batches.

  Response:

  1.5 kg of drug substance (Ceftazidime and Avibactam sterile powder) was imported for manufacturing of trial batches. **(ADC Attested invoice is enclosed in Annexure-3)** Justification is as follows;

No. of Batches	3
Batch No.	RD-CH-21002, RD-CH-21003, RD-CH-21004
Batch size	0.500 Kg
No. of units (Vials) per batch	158 vials
Total No. of vials in 3 batches	158 x 3 = 474 vials
Quantity of API used per vial	3.15g = 0.00315kg
Total Quantity of API used in Ceftavi 2.5g Injection IV	Quantity of API used per vial x Total No. of vials = 0.00315 Kg x 474 = 1.49 Kg ≈ 1.50 Kg

- Justification shall be submitted for the manufacturing of trial batches before on 17-07-2021 whereas drug substance release was issued on 16-8-2021 by M/s Curexa.

  Response:

  The material is directly processed in sterile area and the Physical/Chemical/Microbial test are evaluated in initial testing of drug product.

  Details are as follows:

  RM received on 08-Jul-2021

RM and FP tests started on 31-Jul-2021. Physical/Chemical tests completed on 10-Aug-2021 and sterility test results reported on 16-Aug-2021. Product placed for stability study on same date i.e., 16-Aug-2021.

Decision: Deferred for submission of justification for:

- **Non-performance of drug substance analysis of the relevant batch used for manufacturing of drug product stability batches, by M/s Curexa Health (Pvt.) Ltd.**
- **Rationale of quantity of drug substance imported against the proposed batch size, considering the quantity required for the drug substance analysis and process loss during manufacturing for trial batches.**

Agenda of Evaluator (PEC-XI)

Case No. 01: Registration applications of Human Drugs on form 5F (New sections):
M/s Curatech Pharma Pvt. Ltd., 35-Km, Multan Road, Lahore

The Central Licensing Board in its 278th meeting held on 10th-11th December, 2020 has considered and approved the grant of following four additional sections to **M/s Curatech Pharma Pvt. Ltd.,** 35-Km, Multan Road, Lahore under Drug Manufacturing License No. 000619 (Formulation) vide approval letter No. F. 1-4/2002-Lic (Vol-I) dated 22nd December 2020.

S No.	Section
5.	Syrup/Suspension (General) Section (Revised New)
6.	Capsule (Cephalosporin) Section (New)
7.	Dry Powder for Suspension (Cephalosporin) Section (New)
8.	Dry Powder for Injection (Cephalosporin) Section (New)

Following applications have been submitted for registration by the firm.

41.	Name, address of Applicant / Marketing Authorization Holder	M/s Curatech Pharma (Pvt.) Ltd., 12 Baqir Lane, Canal View Society Canal Road, Lahore
	Name, address of Manufacturing site.	M/s Curatech Pharma (Pvt.) Ltd., 35-Km, Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted copy of cGMP certificate dated 08-04-2020 based on inspection conducted on 19-02-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of additional section dated 22-12-2020 specifying dry powder for injection (Cephalosporin) New section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 10844 dated 02-05-2023
	Details of fee submitted	Rs.30,000/- dated 10-01-2023 (Deposit slip#769650711)
	The proposed proprietary name / brand name	Combozon 1g Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Cefoperazone Sodium……..…...500mg Sulbactam Sodium…….……..…...500mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Cephalosporin-Antibiotics

	Reference to Finished product specifications	USP specifications
	Proposed Pack size	1's vial of 1g
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Sephon for intravenous injection 1g PMDA Japan Approved
	For generic drugs (me-too status)	Sulcef Injection 1gm IV/IM of M/s Lowitt Pharma (Reg#50990)
	Name and address of API manufacturer.	M/s Sinopharm Weiqida Pharmaceutical Co., Ltd., Economic & Technological Development Zone, Datong, Shanxi, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. (Batches; 1706405122, 1706405123, 1706405124)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted pharmaceutical equivalence of their product against the product 2Sum Injection 1g by M/s Healthtek (Pvt.) Ltd (Sami Pharma) by performing quality tests (Description, identification, clarity of solution, pH, water content, B.E.T., Sterility, assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including Accuracy, precision (repeatability), linearity, specificity, robustness, LOD and LOQ.
STABILITY STUDY DATA		
Manufacturer of API	M/s Sinopharm Weiqida Pharmaceutical Co., Ltd., Economic &	

	Technological Development Zone, Datong, Shanxi, China		
API Lot No.	2104405118		
Description of Pack (Container closure system)	A white to almost white slightly powder, filled in clear glass vial with rubber stopper and aluminium flip off seal.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 12 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 , 9, 12 (Months)		
Batch No.	TR-CEP-57	TR-CEP-58	TR-CEP-59
Batch Size	1027 vials	1027 vials	1027 vials
Manufacturing Date	09-2021	09-2021	09-2021
Date of Initiation	07-09-2021	07-09-2021	07-09-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Suzhou Dawnrays Pharmaceuticals Co., Ltd., No. 22 Tianling Road, Wuzhong Economic Development District, Suzhou, Jiangsu Province People's Republic of China issued by Jiangsu Drug Administration China valid upto 22-11-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. DRSZ21054 dated 17-06-2021 for import of Cefoperazone Sodium and Sulbactam Sodium Sterile 1:1 10kg (Batch#2104405118). *However, the invoice is not attested by AD (I&E) field office*
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years shall be submitted	•
1.5.2	• Submit your label claim as per reference formulation considering the salt factor along with submission of applicable fee	•
1.5.6	• You have claimed for USP specifications while the applied product monograph is not available in USP, clarify	•
1.6.5	• Name & Address of Drug substance manufacturer mentioned in submitted GMP certificate is different than that mentioned in form 5F section 1.6.5, clarify	•

3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Justification shall be submitted for not performing the test for particulate matter by drug product manufacturer as recommended by drug substance manufacturer	•
3.2.P.2	• Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product • Justification shall be submitted for not performing the test for uniformity of dosage units and particulate matter in pharmaceutical equivalence studies as recommended by JP monograph • Compatibility studies of the applied drug product with re constitution diluent shall be submitted.	•
3.2.P.5	• Justification is required since limit of pH (3.5-6.5) mentioned in finished product specifications is different than that recommended by JP monograph (4.5-6.5) • Justification is required since limit of water content (NMT 4%) mentioned in finished product specifications is different than that recommended by JP monograph (1%) • Justification is required since limit of sulbactam (90-110%) in assay test mentioned in finished product specifications is different than that recommended by JP monograph (95-110%) • The chromatographic conditions (Column dimensions; length 15cmx4.6mm, mobile phase ratio tetrabutyl ammonium hydroxide:Acetonitrile 500:180) mentioned in analytical procedure is different than that recommended by JP monograph (Column dimensions; length 30cmx3.9mm, mobile phase ratio tetrabutyl ammonium hydroxide:Acetonitrile 3:1) • JP monograph recommends the use of internal standard in chromatographic method while you have not used internal standard in chromatographic method, clarify	•
3.2.P.6	• Clarification is required whether the same Reference Standards or Materials of cefoperazone and sulbactam was used for test and analysis of drug product as the expiry date mentioned on the COA of Reference Standards or Materials was May 22, 2019 and June 3, 2019 while drug product stability testing has been performed subsequent to this date.	•
3.2.P.8	• Documents for procurement of API with approval from DRAP shall be submitted • Justification shall be submitted for the dispensed quantity (1.110kg) of Cefoperazone Sodium and Sulbactam Sodium Sterile 1:1 against the label claim with reference to the potency (determined 46.235%...batch size 1027vial) of Cefoperazone Sodium and Sulbactam Sodium Sterile 1:1 determined during drug substance analysis by M/s Curatech Pharma	•

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

42.	Name, address of Applicant / Marketing Authorization Holder	M/s Curatech Pharma (Pvt.) Ltd., 12 Baqir Lane, Canal View Society Canal Road, Lahore
	Name, address of Manufacturing site.	M/s Curatech Pharma (Pvt.) Ltd., 35-Km, Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

	Name and address of API manufacturer.	Fuan pharmaceutical group chomming Bosen Pharmaceuticals Co. Ltd. No. 01 Huanan Road, changshou distric Chongqing, 401254 China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 12 Months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 Months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the comparator product Tygacil 50mg Injection manufactured by Pfizer Pakistan.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Fuan pharmaceutical group chomming Bosen Pharmaceuticals Co. Ltd. No. 01 Huanan Road, changshou distric Chongqing, 401254 China.		
API Lot No.	TI210402		
Description of Pack (Container closure system)	USP Type-I glass vial		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 Months Accelerated: 6 Months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T001	T002	T003

Batch Size	500 vial	500 vial	500 vial
Manufacturing Date	04-2022	04-2022	04-2022
Date of Initiation	10-04-2022	10-04-2022	10-04-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted GMP Certificate No. CQ20180031 issued by CFDA, China.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Firm has not provided documents for the procurement of API having approval from DRAP.**
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	**Not Submitted. The Firm have mentioned that their HPLC system is not 21 CFR compliant.**
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

The following deficiencies / shortcomings have been communicated to the firm: -

i. Please confirm the name of your Firm (along with its supporting evidence) as the same has been mentioned as "M/s Biogen Life Sciences" whereas the name mentioned on submitted copy of DML is "M/s Biogen Pharmaceuticals".

ii. Please provide label claim as per the innovator's product. The mentioned label claim is not as per innovator's product.

iii. Please provide details of Column used for Analysis of Finished Pharmaceutical Product. Furthermore, the chromatographic conditions (specifically Injection volume and System Suitability) are not as per USP. Please justify.

iv. In Section 2.3.S.7.1, Please justify the stability studies of the drug substance conducted as per zone IV-A conditions, since as per API manufacturer as well as USP the storage conditions is to store the drug substance from 2℃ to 8℃.

v. In Section 2.3.S.7.1 (b), the proposed storage condition of API is mentioned as *"Store below 30℃"* and Expiry period as *"3 years"*, however the same has been mentioned as *"Store between 2℃ to 8℃"*and *"02 years"* by API Manufacturer in Section 3.2.S.7.1. Please justify.

vi. In Section 3.2.P.1, composition has been mentioned as Tigecycline only whereas list of excipients as per innovator include Lactose monohydrate, Hydrochloric acid and Sodium hydroxide (for pH adjustment) as well. Please justify the reason for not using the same in your formulation.

vii. Please provide details (along with supporting evidence) of Reference / Innovator's pack used for Pharmaceutical Equivalence.

viii. Section 3.2.P.8, please justify, with supporting evidence, the reason for not conducting Bacterial Endotoxin Test and Sterility Test at the end of 6th Month Accelerated & Real Time Stability Study Testing.

ix. Please provide documents for the procurement of API having approval from DRAP (for submitted copy of Invoice KSDS20210411 dated 10th September 2021).

x. Section 2.3.R.1.1 Please provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 Section 3.2.P.8.3.

xi. Please provide details of the lyophilizer installed in your premises including details of the minimum and maximum capacity of the equipment.

xii. Please provide evidence of availability of Auto sampler in HPLC, wherein 10℃ temperature conditions could be maintained.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Evaluator PEC-XX

A) Priority consideration on account of Export Facilitation:

In pursuance of decision of 133rd meeting of the Authority held on 13th April 2022, wherein it was decided that for each 100,000 USD worth of export of medicine during a fiscal year, one molecule will be considered on priority subject to fulfilment of all prescribed requirements

Following registration application of firm may be considered on priority in light of Export Facilitation Policy as communicated vide letter No.F.1-6/2019-PR-I (EFD) dated 20.07.2023:

44.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Abbott Laboratories Pakistan Ltd, opposite Radio Pakistan Transmission centre Hyderabad Road Karachi**
	Name, address of Manufacturing site.	**M/s Abbott Laboratories Pakistan Ltd, opposite Radio Pakistan Transmission centre Hyderabad Road Karachi**
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	GMP certificate based on Inspection dated 09.03.2023 valid till two years.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter for renewal of DML dated 15-06-2021 specifying Tablet (General) section..
	Status of application	☒ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 13177 dated 29-05-2023
	Details of fee submitted	PKR 30,000/- Dated 31/01/2023
	The proposed proprietary name / brand name	**Equasis Tablet 50mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each tablet contains: Vildagliptin……..50mg
	Pharmacotherapeutic Group of (API)	Anti hyperglycemic agent
	Pharmaceutical form of applied drug	Oral tablet
	Reference to Finished product specifications	Not provided
	Proposed Pack size	10’s , 28’s
	Proposed unit price	As per DPC
	The status in reference regulatory authorities	Galvus 50mg tablet by M/s Novartis Pharmaceutical UK Ltd MHRA Approved
	For generic drugs (me-too status)	Galvus 50mg tablet by M/s Novartis, Reg No 059038
	Name and address of API manufacturer.	M/s Lee Pharma Limited Survey No 30P, 31P,32P, 34P & 35P, Plot No 22A and 22B Denotified area-APSEZ, Lalam Koduru Village, Rambilli Mandal, Visakhapatnam District, Andhra Pradesh, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to

		nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance (VNFP17001, VNFP17002 and VNFP17003) at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence was determined against Galvus 50mg tablet by M/s Novartis Farmaceutica S.A Spain M.A Holder in Pakistan: Novartis Pharma Pakistan Limited Batch No BWY 84 Quality parameters such as Appearance, uniformity of dosage, water by KF, identification, disintegration time, dissolution assay, and related substances against Test product (Batch No 422004XZ) Firm has submitted CDP results of their product against the same innovator product Galvus 50mg tablet by M/s Novartis Farmaceutica S.A Spain in Acid media (pH 1.0-1.2) in Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The f2 value was not required since more than 85% drug release within 15 min.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not provided
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Provided
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Provided

Remarks of Assessor:

Sr.#	Observations
1.	Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance / API manufacturer issued by concerned regulatory authority of country of origin to be provided
2.	**2.3.R.1.1** Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2. P.8.3. Moreover, clarify stability batch size.
3.	**3.2.S.4** Method used for analysis of API from Finished Product Manufacturer to be provided along with analytical method validation studies.
4.	**3.2.P.4** Finished product specification to be mentioned on Form5F along with prescribed fee.
5.	**3.2.P.4** Analytical Method Validation studies was performed by Abbott HealthCare Pvt Ltd, Mumbai, although method has been test method has been transferred from Abbott HealthCare Pvt Ltd, Mumbai to Abbott Karachi Pakistan yet validation studies to be performed at manufacturing site.
6.	**3.2.P.8** Provide document for procurement of API with Clearance from DRAP.

7.	**3.2.P.8** Stability data including summary data sheet, COA, raw data sheet and chromatograms for 6th month and onward (both accelerated and real time) to be provided.	
Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.		

Evaluator PEC-III

M/s Pearl Pharmaceuticals, Islamabad.

M/s Pearl Pharmaceuticals Islamabad has informed that their following case was approved by the Board in its 324th meeting.

45.	**Name and address of manufacturer / Applicant**	**M/s Pearl Pharmaceuticals Plot No. 204, Street No.1, I-10/3, Islamabad**
	Brand Name +Dosage Form + Strength	Vildomin 50/500mg Tablets
	Composition	Each Tablet Contains: Vildagliptin…50mg Metformin Hydrochloride…500mg
	Diary No. Date of R& I & fee	Dy No. 16178: 07-03-2019 PKR 20,000/-: 06-03-2019
	Pharmacological Group	Antidiabetic
	Type of Form	Form 5
	Finished Product Specification	Firm has claimed in house specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	TGA Approved
	Me-too status	Galmet Tablet by Vision Pharma
	GMP status	The last inspection conducted on 03-11-2022, the panel recommended renewal of DML.
	Remarks of the Evaluator[3].	•
	Decision of 324th meeting: Approved with Innovator's specifcations. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.	

However, the firm informed that they have applied for 50/850mg strength while in agenda 50/500mg was mentioned. Upon verification from original dossier it is verified that the firm has applied for following brand name and label claim:

Brand Name +Dosage Form + Strength	Vildomin 50/800mg Tablets
Composition	Each Tablet Contains: Vildagliptin…50mg Metformin Hydrochloride…500mg
Diary No. Date of R& I & fee	Dy No. 16178: 07-03-2019 PKR 20,000/-: 06-03-2019

It is evident that 50/850mg strength was mentioned on fee challan as well as brand name, while the label claim is submitted for 50/500mg.

Submitted for consideration by the Board.

Decision of 330th meeting: Registration Board approved the application with following composition:
Vildomin 50/850mg Tablets
Each Tablet Contains:
Vildagliptin…50mg
Metformin Hydrochloride…850mg

The firm shall submit fee of Rs. 30,000/- for correction/pre-approval change in product label claim as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.		
6.	Record of Digital data logger for temperature and humidity	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability		

	monitoring of stability chambers (real time and accelerated)	chambers.

Remarks OF Evaluator:

Sections	Observations/Deficiencies/ Short-comings	Response
3.2.S.4.3	Justify for performing the validation studies of drug substance on assay method different from that given in section 3.2.S.4.2.	Firm has submitted revised analytical method verification studies.
3.2.S.7	Provide the stability data of long term till the claimed re-test date i.e. 60 month as per the submitted stability data sheet.	Submitted
3.2.P.5.3	Justify for submitting the same validation report for drug substance and drug product as well as the same report has been in the dossier of both strength.	Firm submitted analytical method validation report for drug product.
3.2.P.8	Submit the remaining stability data of drug product ,since you have submitted only three month stability data.	Firm has submitted stability data of 6thmonth time point

Decision: Registration Board approved the applications of "Vonoglob 10mg tablet" & "Vonoglob 20mg tablet".

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Mr. Salateen Waseem Philip

Case No. 01: <u>Export facilitation cases:</u>

Deputy Director (PRV/EFD) vide letter No. F.1-6/2019-PR-I (EFD) dated 20th July 2023 informed that, in compliance to the decision of 133rd meeting of the authority held on 13th April 2022, **M/s wnsfield Pharmaceuticals Plot # 122, Block –A, Phase V, Industrial Estate, Hattar. (DML # 000610)** has achieved the benchmark of more than **100,000 USD** worth of export of medicines during the **fiscal year 2020-2021** and requested for priority consideration of following molecule.

48.	Name, address of Applicant / Marketing Authorization Holder	M/s Wnsfield Pharmaceuticals Plot # 122, Block –A, Phase V, Industrial Estate, Hattar. **(DML # 000610)**
	Name, address of Manufacturing site.	M/s wnsfield Pharmaceuticals Plot # 122, Block –A, Phase V, Industrial Estate, Hattar. **(DML # 000610)**
	Status of the applicant	☒ **Manufacturer** ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☒ **New Drug Product (NDP)** ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ **Domestic and Export sales**

	Dy. No. and date of submission	Dy. No. 34956 (dated: 02-12-2022)
	Details of fee submitted	PKR 75,000/-: dated: 10-11-2022 (Invoice # 953987044)
	The proposed proprietary name / brand name	**Tablet Pruco 1 mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Prucalopride (as Succinate)……. 1 mg
	Pharmaceutical form of applied drug	Film coated Tablet
	Pharmacotherapeutic Group of (API)	Selective, high affinity serotonin (5-HT4) receptor agonist. (for constipation)
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	20's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	*EMAE* approved **Resolor®** by Takeda
	For generic drugs (me-too status)	**Not applicable**
	GMP status of the Finished product manufacturer	GMP Certificate valid up to 02-04-2025
	Name and address of API manufacturer.	**Prucalopride Succinate** M/s Kimia Biosciences Limited. *Formerly (M/s Laurel Organics Limited)* Village Bhondsi, Tehsil Sohna, District-Gurgaon 122102 Haryana, India. **GMP Certificate valid till 06/04/2027**
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Stability study conditions**: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the **comparator product i.e Resolor Tablet by M/s**

		Fabricado Pharmaceuticals Italy performing quality tests (appearance, identification, average weight, Assay, Dissolution).
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 0.020 kg Form 6 – 00697/2021-DRA dated 05-07-2021

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Observations	Reply of the firm
3.2.S.4 Please submit validation report of analytical method on HPLC, for **chemical assay of drug Substance /API**. Please submit complete analytical method for chemical assay with details of *Composition of mobile phase, standard / sample preparation, details of column used, wavelength of UV/PDA detector, flow rate, system suitability parameters,* ***complete calculation formula*** etc.	Validation report at **Annex – I** Complete analytical method submitted.
3.2.P.1 In the composition of film coating of tablets, applicant has used **isopropyl alcohol (solvent) with Colorcoat FC4S** *(Hydroxypropyl Methylcellulose, Polydextrose Sugar, Polyvinyl Alcohol)***.** While innovator product **(Resolor)** used **Water** as a solvent for film coating of the tablets including Hypromellose Lactose monohydrate Triacetin Titanium dioxide (E171) Macrogol. Please justify the difference in coating materials and use of IPA instead of water as solvent for coating?	Immediate release core tablet of Prucalopride is sensitive to moisture. Due to sensitivity of moisture, we have selected IPA as a solvent for coating instead of water. The relative humidity in Zone IV-A is much greater than the Relative humidity at Zone II where this innovator brand got approval. For the environmental condition of Zone IV – A, IPA is much better solvent for moisture sensitive formulation as compared to water. Furthermore, the coating compound **Colorcoat FC4S** has same physiochemical properties as the coating ingredients selected by innovator brand. The taste masking of tablet with **polydextrose** give it a pleasant smell and taste which is good for patient compliance. It is to also bring in knowledge that Innovator also allowed different coating powders commercially available mixtures mentioned in assessment report of European medicine agency.
3.2.P.2.3 In the assessment report of Committee for Medicinal product for human use **(CHMP)** of European Medicine Agency **(EMA)** for **Resolor Tablets**, during pharmaceutical development, it was observed that **wet granulation process** was replaced by **direct compression** due to the **formation of a lactose adduct induced by exposure to moisture**. Moisture was shown to induce the formation of a lactose adduct in the finished	We have also adopted the direct compression method for manufacturing of core tablet. It was by mistake that we have submitted manufacturing protocol with wet granulation method. We apologize for submission of protocol of manufacturing by wet granulation. Moreover, the tablet manufacturing by direct compression is more economical & time saving

product, which was confirmed in the stability studies. Please justify that i. why applicant is still following process of **wet granulation** process for manufacturing of core tablets instead of **Direct Compression** method? ii. Why are you declaring in **Section 3.2.P.2.2.1 (b)** that qualitative composition of your applied formulation is same as innovator product when both are using different method for manufacturing of core tablet? iii. Please submit report of Pharmaceutical equivalence in tabulated form, mentioning results of all the tests performed *(Identification, Description, Dissolution in 10 minutes, Assay, Content uniformity, microbial purity)* of your applied formulation vs **Resolor Tablet by M/s Fabricado Pharmaceuticals Italy**. iv. Submit Batch #, date of purchase for **Resolor Tablet by M/s Fabricado Pharmaceuticals Italy**.	than wet granulation. We hereby declare that we are using direct compression method for tablet manufacturing as per active and inactive ingredient mentioned in composition of our formulation. **It is also obvious from inactive ingredient of our formulation that we are not using wet granulation process but Direct compression method.** We are submitting our batch manufacturing record **(Annex-VIII)**, as an evidence for use of direct compression method for manufacturing of core tablet. **Reply for point (i),** We are also using Direct compression method for manufacturing of core tablet as per innovator brand. It was by mistake that we have submitted wrong manufacturing protocol. Now we have submitted manufacturing protocol of direct compression method along with BMR as an evidence of direct compression. **Reply for point (ii) & (iii),** We are submitting complete pharmaceutical equivalence report as **Annex – II** **Reply for point (iv) Annex-III**
3.2.P.5.3 Please submit validation report of analytical method on HPLC, for **chemical assay of drug product** containing Prucalopride. Please submit complete analytical method for chemical assay with details of *Composition of mobile phase, standard / sample preparation, details of column used, wavelength, flow rate, system suitability parameters, **complete calculation formula*** etc. The analytical method for testing dissolution samples of Innovator product is on **HPLC.** Submit complete testing method on HPLC with details of *Composition of mobile phase, standard / sample preparation, details of column used, wavelength of UV detector / PDA, flow rate, system suitability parameters **complete calculation formula for dissolution samples*** etc.	**Annex – IV** **Annex-V** **Annex-VI**
3.2.P.8 In the calculation sheets of dissolution test in the stability data (**R.T 06 month, B # PR-02**) The area of the peaks in calculation sheet are not matching with the areas mentioned on chromatograms.	All stability data sheets have been again submitted for accelerated and real time stability.

Please re-check your stability data for the three batches and submit calculation sheets for all three stability batches for both chemical assay and dissolution, mentioning the **Calculation formulas on the calculation sheets, potency of ref. std., weight of std / spl taken in mg or grams and its dilution in ml.** Make sure that data entered in the calculation sheet should match with the chromatograms.	
Please submit the COA for the API Lot # used in Pharmaceutical development and manufacturing of Stability batches. Also submit the approval documents from DRAP for procurement of API.	COA submitted **Annex-VII**
Submit BMR of stability batches.	BMR – **Annex-VIII**

Decision: Registration Board approved the applications of Tablet Pruco 1 mg & Tablet Pruco 2 mg.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 02: <u>Export facilitation cases:</u>

Deputy Director (PRV/EFD) vide letter No. F.1-6/2019-PR-I (EFD) dated 20th July 2023 informed that, in compliance to the decision of 133rd meeting of the authority held on 13th April 2022, **M/s Schazoo Pharmaceutical Laboratories (Pvt.) Ltd. (DML # 000019)Kalawala Stop, 20km Lahore – Jaranwala Road, District Sheikhupura, Pakistan** has achieved the benchmark of more than **100,000 USD** worth of export of medicines during the **fiscal year 2022-2023** and requested for priority consideration of following molecule.

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 0.130 kg Form 6 – 1314/2022-DRAP dated 25-01-2022 Invoice # MPPL/072/21-22 dated 13-01-2022
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Observations	Reply o the firm
1.3.5 Please submit fresh / valid GMP certificate of Drug Product Manufacturer **(Schazoo) OR** inspection report conducted within last three years.	Firm again submitted **GMP Certificate:** valid till 29-05-2022. **Last inspection report:** conducted on 13-05-2019 **Remarks of Evaluator:** Firm also submitted unclear and zoomed photocopy of request for inspection for renewal cGMP certificate however, dates are not visible.
1.6.5 Please submit fresh / valid GMP certificate of API supplier which should be in force till date.	Firm has submitted GMP certificate valid till 03-11-2023.
3.2.2.7. Please submit the details about the site where sterilization of the empty primary container of drug product takes place and also provide information if the facility of sterilization got certificate of compliance with **ISO 11137-1:2006/Amd 1:2013.**	Firm has submitted source of sterilization of primary container as under: - **Name of source:** PARAS FOODS PVT. LTD 18-km Multan Road LAHORE. **Radiation by:** M/s Pakistan Radiation Services **Certification: ISO9001:2008**
3.2.P.8 In the calculation sheet for the long term stability Raw data sheet at zero month for **Batch # OPD-T1-22**, The Q.C Laboratory of your firm submitted result for the assay of olopatadine, calculated as **100.84%** but as per the calculation formula and values mentioned on the calculation sheet, the result of assay is app. **104.41%.** please re-check the calculation sheet of **B# OPD-T2-22 (Accelerated – 03 month)** and for all three stability batches and clarify the difference in assay value mentioned by Q.C Laboratory vs actual assay values as per formula mentioned and values given in calculation sheet?	Raw data sheets and calculation sheets are thoroughly re-checked. Some errors in assay values in raw data sheets ***(transferred from excel calculation sheet)*** were observed due to typo mistakes. These mistakes have been removed now. Revised raw data sheets are attached for kind reference.
Please submit stability data along with raw data sheet and chromatograms for the **06th month accelerated and long term conditions.**	**Remarks:** Submitted, however stability conditions followed are not matching with the conditions mentioned for stability conditions of semi permeable containers as under: - **Long-term:** 25 °C ± 2 °C/40% RH ± 5% RH **OR** 30 °C ± 2 °C/35% RH ± 5% RH **Accelerated:** 25 °C ± 2 °C/40% RH ± 5% RH **OR** 30 °C ± 2 °C/35% RH ± 5% RH
Please also submit Stability studies conducted for potential water loss of your primary container **(semipermeable container)** as per ICH guidelines (ICH Q1A(R2).	**Remarks:** Submitted **on a single sheet without raw data and calculation sheets**, however stability conditions followed are not matching with the conditions mentioned for stability conditions of semi permeable containers as under: - **Long-term:** 25 °C ± 2 °C/40% RH ± 5% RH **OR**

	30 °C ± 2 °C/35% RH ± 5% RH **Accelerated:** 40 °C ± 2 °C/25 RH ± 25% RH

Decision: Deferred for following:

- **Justification of applying temperature and humidity conditions of accelerated and long term stability studies, other than those recommended by ICH guidelines, for semi permeable containers.**
- **Justification for not performing water loss studies during stability studies.**
- **Submission of raw data sheets aligned with the submitted analytical record for stability studies.**

Remarks of the Evaluator:

Decision: Registration Board approved the applications of Tablet Pranz 10 mg & Tablet Pranz 20 mg.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Item No. V Miscellaneous Cases

Case No. 1:- Sub-committee on Veterinary Drugs

Registration Board in its 281st meeting held on 11-13th April, 2018 has constituted expert working group on veterinary drugs regarding matters related to veterinary drugs.

Decision of 281st meeting of RB: -

The Board observed that the constitution of the veterinary expert Committee notified under Section 10 of Drugs Act, 1976 vide SRO No.81(I)/2015 dated 26-01-2015 needs to be revised for inclusion of relevant expert(s) member(s) of the Board etc. However, since process of revision of constitution may take some time as the approval of Federal Government and other relevant organizations are required before revised Gazette notification, so, in order to avoid pendency/delay in processing of issues relating to veterinary drugs requiring input/recommendation of pertinent veterinary expert, the Board decided to constitute an Expert Working Group on Veterinary Drugs having following composition: -

1.	*Dr. Qurban Ali, Ex-Director General* *National Veterinary Laboratory, Islamabad.* *Expert Member Veterinary Drugs*	*Chairman*
2.	*Animal Husbandry Commissioner or his representative,* *M/o National Food Security & Research, Islamabad.*	*Member*
3.	*Dr.Mazhar-ul-Haq* *Veterinary Pharmacologist* *Arid Agriculture University, Rawalpindi.*	*Member*
4.	*Any other relevant expert(s)*	*As Co-opted member(s)*
5.	*Deputy Director (Reg-I), DRAP*	*Member, Secretary*

The expert working group will provide expert advice / views and recommendations to the Registration Board on matters relating to veterinary drugs referred by the Board including review of existing/new veterinary drug formulations. The group can Co-opt any relevant expert(s) as Co-opted member(s).

The Board further advised that in order to avoid any pendency, the "expert working

group" needs be notified immediately without waiting till formal approval of the minutes of 281st meeting so that the meeting of the expert working group may be called earlier.

Accordingly, notification of expert working group was issued on 08th May 2018. Chairman of Expert working Group co-opted Dr. Shabnum Firdous, Secretary PVMC as a co-opted member, and letter for in this regard was issued on 16th June 2022.

After completion of 2nd term Dr. Qurban Ali, (Chairman EWG) was retired as member registration board [under Rule 24 (f) of Drugs (LR&A) Rules, 1976 (Expert Member for Veterinary Drugs)]. Accordingly, de-notification letter of EWG, after approval from Chairman, Registration Board, was issued on 24th February, 2023 vide letter No. 7-4/2018 (M-281) and endorsed in 325th meeting of Registration Board.

Decision of M-326: - *The Board observed that the constitution of the veterinary expert Committee notified under Section 10 of Drugs Act, 1976 vide SRO No.81(I)/2015 dated 26-01-2015 needs to be revised in order to avoid pendency/delay in processing of issues relating to veterinary drugs which require input/recommendation of pertinent veterinary expert, hence Board decided to constitute an Expert Working Group on Veterinary Drugs having following composition: -*

1.	*Dr. Qurban Ali,* *Ex-Director General,* *National Veterinary Laboratory, Islamabad.*	*Chairman*
2.	*Dr. Ayesha Yaqoob, Drug Testing Laboratory, Rawalpindi.*	*Member*
3.	*Mst. Najia Saleem, Deputy Director (PE&R), DRAP*	*Member*
4.	*Any other relevant expert(s)*	*As Co-opted member(s)*
5.	*Assistant Director (I&V-I), DRAP*	*Member, Secretary*

The expert working group will provide expert advice / views and recommendations to the Registration Board on matters relating to veterinary drugs referred by the Board including review of existing/new veterinary drug formulations. The group can Co-opt any relevant expert(s) as Co-opted member(s).
The Board further advised that in order to avoid any pendency, the "expert working group "needs be notified immediately without waiting till formal approval of the minutes of 281st meeting so that the meeting of the expert working group may be called earlier.

Decision 329th: - *The Board observed that the constitution of the veterinary expert Committee notified under Section 10 of Drugs Act, 1976 vide SRO No.81(I)/2015 dated 26-01-2015 needs to be revised in order to avoid pendency/delay in processing of issues relating to veterinary drugs which require input/recommendation of pertinent veterinary expert, hence Board decided to constitute an Expert Working Group on Veterinary Drugs having following composition: -*

1.	*Dr. Qurban Ali,* *Ex-Director General,* *National Veterinary Laboratory, Islamabad.*	*Chairman*
2.	*Dr. Ayesha Yaqoob, Drug Testing Laboratory, Rawalpindi.*	*Member*
3.	*Mst. Najia Saleem, Deputy Director (PE&R), DRAP*	*Member*
4.	*Dr. Irfan Yousaf* *Dean Faculty of Veterinary and Animal Sciences Pir Meher Ali Shah Arid Agriculture University, Rawalpindi*	*Member*
5.	*Any other relevant expert(s)*	*As Co-opted member(s)*
6.	*Assistant Director (I&V-I), DRAP*	*Member, Secretary*

Correction in decision of 329th meeting regarding EWG are as under:

The Board observed that the constitution of the veterinary expert Committee notified under Section 10 of Drugs Act, 1976 vide SRO No.81(I)/2015 dated 26-01-2015 needs to be revised for inclusion of relevant expert(s) member(s) of the Board etc. However, since process of revision of constitution may take some time as the approval of Federal Government. So, in order to avoid pendency/delay in processing of issues relating to veterinary drugs requiring input/recommendation of pertinent veterinary expert, the Board under Rule 24 (4) of the Drugs (L,R&A) Rules, 1976 decided to constitute sub-committee on Veterinary Drugs having

following composition: -

1.	*Dr. Qurban Ali,* *Co-opted Member* *Ex-Director General,* *National Veterinary Laboratory, Islamabad.*	*Chairman*
2.	*Dr. Ayesha Yaqoob, Drug Testing Laboratory, Rawalpindi.*	*Member*
3.	*Mst. Najia Saleem, Deputy Director (PE&R), DRAP*	*Evaluator*
4.	*Assistant Director (I&V-I), DRAP*	*Secretary*

The sub-committee on Veterinary Drugs will provide expert advice / views and recommendations to the Registration Board on matters relating to veterinary drugs referred by the Board including review of existing/new veterinary drug formulations.

Decision of 330th meeting:
The Board acceded to the request of correction in minutes as under;
The Board observed that the constitution of the veterinary expert Committee notified under Section 10 of Drugs Act, 1976 vide SRO No.81(I)/2015 dated 26-01-2015 needs to be revised for inclusion of relevant expert(s) member(s) of the Board etc. However, since process of revision of constitution may take some time for approval by Federal Government. So, in order to avoid pendency/delay in processing of issues relating to veterinary drugs requiring input/recommendation of pertinent veterinary expert, the Board under Rule 24 (4) of the Drugs (L, R&A) Rules, 1976 decided to constitute sub-committee on Veterinary Drugs having following composition: -

1.	Dr. Qurban Ali, Co-opted Member Ex-Director General, National Veterinary Laboratory, Islamabad.	Chairman
2.	Dr. Ayesha Yaqoob, Drug Testing Laboratory, Rawalpindi.	Member
3.	Mst. Najia Saleem, Deputy Director (PE&R), DRAP	Evaluator
4.	Assistant Director (I&V-I), DRAP	Secretary
5.	Any Co-opt member with the consent of Chairman/Secretary Registration Board	Member

In order to in time disposal of applied dossiers, the sub-committee on Veterinary Drugs will place its input/recommendations on the registration applications of veterinary drugs, including review of existing/new veterinary drug formulations for consideration/decision by the Registration Board.

Case No. 2:- Storage Facility Verification.

Verification of the cold storage facility/ room temperature storage facility is one of the prerequisites for grant of registration to imported products. As per decision of 278th meeting of Registration Board:

a. For imported Biological products stored at 2-8^{0}C, cold storage facility verification report shall be valid for 5 years provided that the address of Drug Sale License remains the same.
b. For imported biological products stored at room temperature, storage facility verification shall be conducted once provided that the address of Drug Sale License remains the same.

Decision of 330th meeting:

The Board after deliberation on the matter that registrations for import of products are granted to only those importers who have a valid DSL duly issued by the respective Provincial Health Department / Licensing Authority. The Board after detailed deliberation decided that storage facility verification shall be only conducted for those products, which requires storage at 2-8^{0}C or which requires special storage conditions. The inspection report in this case shall be valid for a period of (05) years, provided that the address of Drug Sale License shall remain same.

Case No. 3:- Correction of minutes of 329th meeting of Registration Board:

Following case of M/s Pinnacle Biotech (Pvt.) Ltd. was presented in 329th meeting of Registration Board, held on 6th – 8th June, 2023, wherein the Board had approved the case. However, during subsequent processing it has been identified that the decision of the case was not included in the minutes, hence the case is re produced here for recording of the decision and information of Board.

1.	Name, address of Applicant / Marketing Authorization Holder	M/s Pinnacle Biotech (Pvt.) Ltd., Plot No. FD-49-A8, FD-50-A8, FD-51-A8, Korangi Creek Industrial Park, Karachi.

	Details of fee submitted	PKR 30,000/- vide slip No. 22232543805 dated 16/11/2022.
	The proposed proprietary name / brand name	Gabstar 75mg Capsules
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Pregabalin ……75mg
	Pharmaceutical form of applied drug	Hard Gelatin Capsules.
	Pharmacotherapeutic Group of (API)	Analgesics and *Anticonvulsant drug.*
	Reference to Finished product specifications	BP Specification
	Proposed Pack size	As per SRO.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Lyrica (Pregabalin) 50mg, 75mg, 100mg, 150mg, 200mg Capsules, USFDA Approved.
	For generic drugs (me-too status)	Gabica 75mg Capsules, Getz Pharma Pakistan (Pvt.) Ltd., Reg. No. 047365
	GMP status of the Finished product manufacturer	New license granted on 13/09/2021 Tablet (general), Capsule (general), Sachet (general) and Research and Development Laboratory section is approved. GMP certificate No. 182/022-DRAP (K) dated 21-10-2022 issued on the basis of inspection conducted on 21-10-2022 is submitted.
	Evidence of section approval.	Capsule general section approved vide letter No. F. 2-10/2011-Lic(Vol-I) dated 13-09-2021.

	Name and address of API manufacturer.	M/s Almelo Private Limited. Unit-II Survey No. 227, 228 & 136, 137 Shabashpally (V), Shivampet (M) Medak District, Telangana-502334. India. Copy of GMP certificate No. L. Dis. No. 101460/TS/2022 dated 04-11-2022 issued by the DCA, Telangana State in the name of M/s Almelo Private Limited, Plot No. A-38 & 39, Road No.7, IDA Kukatpally, Gandhi Nagar, Hyderabad-500037., Balangar Village, Balangar Mandal, Medchal-Malkajgri District, Telangana State, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The official monograph of Pregabalin is present in USP & BP. Firm as submitted detail of the drug substance regarding its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (KBF/K/21/0014, mfg. date 15-11-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Drug substance.)	Firm has submitted stability data sheets for both real time and accelerated stability data as per zone IV-A for three batches. Stability study conditions: Real time: 30˚C ± 2˚C / 75% ± 5%RH for 24 months. Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 06 months. Batch No. (PEF/H/18/0003, PEF/H/18/0004 & PEF/H/18/0005)
	Module-III (Drug Product):	Firm has submitted detail of drug product regarding its description & composition, pharmaceutical development, Process validation protocol, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the innovator brand that is Lyrica 75mg Capsules, Batch No. EY7448, mfg. date 01-2021 manufactured by M/s Pfizer Pharma, Germany by performing quality tests (Identification, Average weight content, Disintegration time, Dissolution & Assay). Results of both the products are comparable.

		CDP is also performed against the same brand that is Lyrica 75mg Capsules, Batch No. EY7448, mfg. date 01-2021 manufactured by M/s Pfizer Pharma, Germany in Acid media (pH 1.2) & Phosphate Buffer (pH 6.8) and acetate Buffer (pH 4.5). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Analytical Method verification studies have submitted including Accuracy, Precision (Repeatability), specificity.
