Decision: **Registration Board noted the information and unanimously confirmed minutes of 332nd meeting of Registration Board.**

Item No. II Division of Pharmaceutical Evaluation & Registration

Pharmaceutical Evaluation Cell (PEC)

Sr. No	Name of Evaluator	Title	Case no.
1.	Mr. Ammar Ashraf Awan	Evaluator PEC-II	1 – 129
2.	Mr. Salateen Waseem Philip	Deputy Director (PE&R)	130 – 367
3.	Mr. Adil Saeed	Evaluator PEC-IX	268 – 320
4.	Ms. Najia Saleem	Evaluator PEC-X	321 – 407
5.	Dr. Farhadullah	Evaluator PEC-XI	408 – 416
6.	Ms. Saima Hussain	Evaluator PEC-XV	417 – 457
7.	Ms. Sana Kanwal	Evaluator PEC-XX	458 – 482
8.	Ms. Maham Misbah	Evaluator PEC-XXIII	483 – 504
9.	Mr. Shahid Nawaz	Evaluator PEC-XIII	505 – 529
10.	Mr. M. Tahir Waqas	Evaluator PEC-XXI	530 – 549
11.	Mst. Farzana Raja	Evaluator PEC-IV	550 – 572
12.	Dr. M. Haseeb Tariq	Evaluator PEC-III	573 - 664

Agenda of Evaluator PEC-II

Case no. 01 Registration applications for local manufacturing of (Human) drugs on Form 5F.

New cases

1.	**Deleted**
2.	**Deleted**
3.	**Deleted**
4.	**Deleted**

The cases sr. no. 1-4 were placed on agenda being the missed applications of the already addressed strengths of the firm under the chapter of Export facilitation. As no application of export facilitation was considered in current agenda so the board decided to delete these applications from this agenda and will be taken along with the applications of other firms under the export facilitation chapter when addressed.

5. `	**Name and address of manufacturer / Applicant**	**M/s PDH Pharmaceutical Pvt. Ltd., 19-Km, Ferozpur Road Lahore.**
	Brand Name + Dosage Form + Strength	Ferobion Drops
	Composition	Each ml Contins: Iron III Hydroxide Polymaltose Complex Eq. To Elemental Iron…50mg
	Diary No. Date of R& I & fee	Dy.No 13002 dated 06-04-2018 Rs.20,000/- dated 05-04-2018
	Pharmacological Group	Antianeamic
	Type of Form	Form-5 Duplicate dossier verified from R&I section
	Finished product Specifications	Manufacturer specifications
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	N/A
	Me-too status (with strength and dosage form)	Addfer Syrup 50mg/5ml of Acto Labs, Karachi
	GMP status	Panel inspection report dated 20-09-2017 recommends renewal of DML
	Remarks of the Evaluator II:	
	Decision: Approved with innovator's specification. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 before issuance of registration letter along with latest GMP inspection report conducted within last three years.	
6. `	**Name and address of manufacturer / Applicant**	**M/s PDH Pharmaceutical Pvt. Ltd., 19-Km, Ferozpur Road Lahore.**
	Brand Name + Dosage Form + Strength	Relieve 550mg Tablet
	Composition	Each Film Coated Tablet Contains: Naproxen Sodium…550mg
	Diary No. Date of R& I & fee	Dy.No 13001 dated 06-04-2018 Rs.20,000/- dated 05-04-2018
	Pharmacological Group	NSAID
	Type of Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Health Canada approved

	Me-too status (with strength and dosage form)	Fougera Tablet of M/s Hiranis Reg # 076489
	GMP status	Panel inspection report dated 20-09-2017 recommends renewal of DML
	Remarks of the Evaluator II:	
	Decision: Approved. The firm shall submit latest GMP inspection report conducted within last three years before issuance of registration letter.	
7. `	**Name and address of manufacturer / Applicant**	**M/s PDH Pharmaceutical Pvt. Ltd., 19-Km, Ferozpur Road Lahore.**
	Brand Name + Dosage Form + Strength	Montana 4mg Sachet
	Composition	Each Sachet Contains: Montelukast as Sodium…4mg
	Diary No. Date of R& I & fee	Dy.No 13000 dated 06-04-2018 Rs.20,000/- dated 05-04-2018
	Pharmacological Group	Leukotriene antagonist
	Type of Form	Form-5
	Finished product Specifications	USP
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Montelukast Sodium 4 mg Oral Granules by M/s Highnoon Laboratories, MHRA Approved.
	Me-too status (with strength and dosage form)	Aerotel Sachet of M/s Highnoon Laboratories. (Reg.#044768)
	GMP status	Panel inspection report dated 20-09-2017 recommends renewal of DML
	Remarks of the Evaluator II:	
	Decision: Approved. The firm shall submit latest GMP inspection report conducted within last three years before issuance of registration letter.	
8. `	**Name and address of manufacturer / Applicant**	**M/s PDH Pharmaceutical Pvt. Ltd., 19-Km, Ferozpur Road Lahore.**
	Brand Name + Dosage Form + Strength	Al-Zero 2.5mg/5ml Syrup
	Composition	Each 5ml Contains: Levocetirizine Dihydrochloride…2.5mg
	Diary No. Date of R& I & fee	Dy.No 12999 dated 06-04-2018 Rs.20,000/- dated 05-04-2018
	Pharmacological Group	Antihistamine
	Type of Form	Form-5
	Finished product Specifications	Manufacturer specification
	Pack size & Demanded Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Xyzal of (USFDA approved)
	Me-too status (with strength and dosage form)	Concidol-L Syrup of M/s Convell Laboratories
	GMP status	Panel inspection report dated 20-09-2017 recommends renewal of DML
	Remarks of the Evaluator II:	
	Decision: Approved with innovator's specification. The firm shall submit fee of Rs. 7500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 before issuance of registration letter along with latest GMP inspection report conducted within last three years .	

Contract manufacturing applications as per decision of 173rd meeting of Authority:

Authority in its 173rd meeting has decided as under:

"The Authority, in order to further enhance the working efficiency and quick disposal of pending registration applications, approved to create a separate queue for registration applications for contract manufacturing submitted on Form-5F in the order of date of submission. This Queue will be updated after each meeting of Registration Board."

Rule Position as per The Drugs (Licencing, Registering & Advertisement) Rules, 1976 is as under

"20A. Contract manufacture.- (l) Manufacture or analysis, through contract, either for local sale or export purpose, shall be permissible by contract giver if:-
a licenced pharmaceutical manufacturer having licence to manufacture by way of formulation: or
an importer for its already registered drug products in Pakistan for permission from finished drug product import to contract manufacturing by a licenced pharmaceuticalmanufacturer; or
a foreign pharmaceutical company (manufacturer or marketing authorization holder) having drug sale licence in Pakistan for their research, innovator, originator drug productsor drug products already registered for sale by any of reference regulatory authorities adopted by the Registration Board; or
licenced pharmaceutical manufacturing unit, which is granted a certificate by Registration Board to the effect that the unit is unable to maintain its production or output level due to reasons beyond its control, including but not limited to repair or upgradation requirements:

Provided that the contract manufacturing under this clause shall be for a period of thirty months extendable for a further period of twenty-four months by the Registration Board on valid grounds.

The Board considered the cases of contract manufacturing in the light of rule 20 A of the Drugs (Licencing, Registering & Advertisement) Rules, 1976 and discussed the application/implementation of said rules..

The member of registration board representing the Law and Justice Division, Governemnt of Pakistan opined that the sub Rule *a of the rule 20 (A)* is clear and does allow/permit to *manufacture or analysis, through contract, either for local sale or export purpose by* a licenced manufacturer from other licenced manufacturer and
all the sub rules i.e, a, b, c and d are independent clauses and does not bar each other on their applicability and
The proviso is only for the sub rule *d of the rule 20 (A)* and is not applicable to all sub rules.

Following registration applications of contract manufacturing are now presented for consideration of Registration Board

9.	Name, address of Applicant / Marketing Authorization Holder	**M/s CCL Pharmaceuticals Pvt Ltd. 62 Industrial Estate,Kot Lakhpat,Lahore**
	Name, address of Manufacturing site.	M/s Horizon Healthcare (Pvt.) Ltd. Plot no. 35-A, Small Industrial Estate, Taxila, Pakistan.
	GMP status of the manufacturer	cGMP certificate on the basis of evaluation conducted on dated 16.08.2022 and valid till 15-08-2024
	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 17-08-2022 specifying Dry Powder injection vial.section.
	Status of application	New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	Domestic sale Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission & Details of fee submitted	Dy.No 7488 dated 15-03-2023 Rs.75,000/- dated 21-12-2022

	The proposed proprietary name / brand name	**Festrant Injection 250mg/5ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each pre-filled syringe contains: Fulvestrant ……. 250mg/5ml
	Pharmaceutical form of applied drug	Solution for injection
	Pharmacotherapeutic Group of (API)	Estrogen receptor antagonists. (L02BA03) with following indications: Hormone receptor (HR)-positive, human epidermal growth factor receptor 2 (HER2)- negative advanced breast cancer in postmenopausal women not previously treated with endocrine therapy, or HR-positive advanced breast cancer in postmenopausal women with diseaseprogression following endocrine therapy.
	Reference to Finished product specifications	In house
	Proposed Pack size	2 single dose pre- filled syringe- 5 ml per unit carton.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**US FDA** Approved.

	For generic drugs (me-too status)	
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Sinopep-Allsino Biopharmaceutical Co., Ltd. No. 28, Linpu Road, Economic & Technological Development Zone, Lianyungang, Jiangsu Province, 222000, China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 25 ℃±2 / 60%± 5% RH. The stability study data is till 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has comparative studies gaianst Fulvestrant Injection of M/s Astrazeneca Pharmaceuticals LP.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	USP Type I glass type syringes Brominated Butyl Plunger Stopper /5mL
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 25ºC ±2ºC / 60% ± 5% RH for 6 months. The real time stability study data is conducted at 5ºC ±3ºC / The real time stability study data for 3 batches is for 18 months only.

Evaluation by PEC:

Section no.	Obsrvations	Firm's response

	• As per submitted COPP the market authorisation of the applied drug product is M/s HBT Labs, Inc., 536 Vanguard Way, Brea, CA 92821 United States of America, while the letter of Authporisation has been submitted form the drug product manufacturer i.e., M/s Nannjing King-friend Biochemical Pharmaceutical Co., Ltd. No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, shall be submitted in this regard. Clarifcation shall be submitted regarding the country of origin for the applied product i..e, drug product will be exported form which the submitted COPP has been issued from US FDA while the letter of authorisation has been granted by M/s Nannjing King-friend Biochemical Pharmaceutical Co., Ltd. China.	The country of origin for the applied product is China. M/s Nanjing King-friend Biochemical Pharmaceutical Co., Ltd., situated at No. 16 Xuefu Road, Nanjing, China, is the manufacturer of this drug product specifically intended for export to Pakistan. The aforementioned manufacturer, M/s Nanjing King-friend Biochemical Pharmaceutical Co., Ltd., in China, has furnished a letter of authorization to Lab Diagnostic Systems (SMC) Pvt Ltd for this purpose. A Certificate of Pharmaceutical Product (COPP) has been issued bythe US Food and Drug Administration (FDA) forthis product, validating its compliance with regulatory standards. M/s HBT Labs,Inc. is the market authorization for this product in United States of America.
Decision: Approved as per policy of inspection of manufacturer abroad. **Registration letter will be issued upon submission of clarification that weather the product will be imported from China or USA as according to submitted COPP the market authorisation of the applied drug product is M/s HBT Labs, Inc., 536 Vanguard Way, Brea, CA 92821 United States of America, while the letter of Authporisation has been submitted from the drug product manufacturer i.e., M/s Nannjing King-friend Biochemical Pharmaceutical Co., Ltd. No. 16 Xuefu Road, Nanjing High & New Technology Development Zone, Nanjing, China**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Prucalopride Succinate 1.32mg eq. to Prucalopride… 1mg
	Pharmacotherapeutic Group of (API)	Anti-constipating agent (Serotonin Type 4 (5-HT4) receptor agonist) WHO ATC code: A06AX05
	Pharmaceutical form of applied drug	Round shape pink color coated tablet plain from both sides, free from capping, chipping, mottling and black particles.
	Reference to Finished product specifications	Innovator's
	Proposed Pack size	**7's, 10's, 14's, 28's, 30's, 56's, 60's & 100's.**
	Proposed unit price	As per DPC/DPP 2018
	The status in reference regulatory authorities	Product is registered in **US FDA** with brand Name **"MOTEGRITY"** 1MG TABLET by **TAKEDA PHARMS USA**
	For generic drugs (me-too status)	**PRU-CIC 1mg** Tablet of Searle company Ltd**.** (Reg #116035)
	Name and address of API manufacturer.	**API manufacturer of Prucalopride Succinate** SYMED LABS LIMITED Unit –VI, Survey No. 744, 745, 750, 751, 752 & 753, Mandollagudem (Village), Choutuppal (Mandal), Yadadri Bhuvangiri (Dist) – 508 204, Telangana, INDIA.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls,

		specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of both API at accelerated as well as real time conditions. The real time stability data of Prucalopride conducted at 25±2°C, 60%±5% RH. The stability study data is till 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence and Comparative Dissolution Profile against Resolor 1 mg Tablet of Janssen-Cilag S.pA., Via C. Janseen, 04100 Borogo S. Michele, Latina, Italy
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA	
Manufacturer of API	**API manufacturer of Prucalopride Succinate** SYMED LABS LIMITED Unit –VI, Survey No. 744, 745, 750, 751, 752 & 753, Mandollagudem (Village), Choutuppal (Mandal), Yadadri Bhuvangiri (Dist) – 508 204, Telangana, INDIA.
API Lot No.	6PCS 0020121
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product SciAmpa M 5+850mg Tablets & SciAmpa-M 5+1000mg Tablets which was presented in 316th meeting of Registration Board held on 15nd - 18th March, 2022. According to the report following points were confirmed. □ The firm has 21 CFR compliant HPLC software □ The firm has audit trail reports available. □ The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Prucalopride** Copy of GMP certificate No. **L.Dis.No:98805/TS/ 2022** issued by DRUGS CONTROL ADMINISTRATION Government of Telangana valid till **01/01/2027**.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Prucalopride:** Firm has submitted copy of form 6, Computerized No.(# K-160544823612) issued by DRAP Dated: 11-03-2022, specifying import of 70gms Prucalopride (Batch# 6PCs 0020121)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section no.	Observations	Firm's response
3.2.P.7	Submitted long term stability studies data of drug substance is not as per Zone Iva.	
3.2.P.8.3	Submit clearance certificate issued by DRAP I&E Office Karachi, for import of Prucalopride.	

Decision of 331st meeting: Deferred for submission of reply to above cited shortcomings.

Firm's reply: Firm has cited the decision of 297th meeting of Registration Board and referrd to the impurity studies performed during drug product stability studies. Mporeover frim has again submitted copy of form 6, Computerized No.(# K-160544823612) issued by DRAP Dated: 11-03-2022, specifying 70gms Prucalopride (Batch# 6PCs 0020121)

Decision: Registration Board approved the applications of Constipas 1mg Tablet & Constipas 2mg Tablet.

	Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application. **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted the list of products previously approved with stability study data.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate valid till 23/08/2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of GMP Certificate issued on 24/08/2020 and valid till 23/08/23
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section no.	Observations	Firm's response
1.6.5	Submit valid DML/GMP certificate of the drug substance manufacturer issued by relevant regulatory authority of country of origin.	
3.2.S.4	Submit complete analytical method of both drug substances performed from drug product manufacturer.	
3.2.S.4.3	Submit complete analytical method verification study report of both drug substances performed by drug product manufacturer.	
3.2.S.4.4	Date of analysis of Ertugliflozin LPGA declared on COA from M/s Weatherfold is prior to the date of manufacturing of drug substance.	
3.2.P.2.2.1	Submitted Pharmaceutical equivalence report does not include tests of Assay & Dissolution. Detailed CDP report shall be submitted declaring the results for each tablet unit across different time points.	
3.2.P.5.2	Submit complete analytical procedure for dissolution test.	
3.2.P.5.3	Submit complete drug product analytical method validation studies.	
3.2.P.8.3	Submit raw data sheets for dissolution test performed during stability studies. Submit documents for the procurement of APIwith approval from DRAP (in case of import). Submitted HPLC chromatograms does not reveal the US detector wavelength at which the analysis has been performed. Submit audit trail reports of the stability studies performed in HPLC.	

Decision of 331st meeting: Registration Board deferred the cases for submission of reply to the above cited shortcomings.

Firm's reply:

Section no.	Observations	Firm's response
1.6.5	Submit valid DML/GMP certificate of the drug substance manufacturer issued by relevant regulatory authority of country of origin.	Firm has submitted copy of DML no. 20150233 valid till 20-12-2022.

	3.2.S.4	Submit complete analytical method of both drug substances performed from drug product manufacturer.	Submitted.	
	3.2.S.4.3	Submit complete analytical method verification study report of both drug substances performed by drug product manufacturer.	Submitted.	
	3.2.S.4.4	Date of analysis of Ertugliflozin LPGA declared on COA from M/s Weatherfold is prior to the date of manufacturing of drug substance.	Submitted	
	3.2.P.2.2.1	Submitted Pharmaceutical equivalence report does not include tests of Assay & Dissolution. Detailed CDP report shall be submitted declaring the results for each tablet unit across different time points.	Submitted	
	3.2.P.5.2	Submit complete analytical procedure for dissolution test.	Submitted	
	3.2.P.5.3	Submit complete drug product analytical method validation studies.	Submitted	
	3.2.P.8.3	Submit raw data sheets for dissolution test performed during stability studies. Submit documents for the procurement of APIwith approval from DRAP (in case of import). Submitted HPLC chromatograms does not reveal the UV detector wavelength at which the analysis has been performed. Submit audit trail reports of the stability studies performed in HPLC.	Firm has submitted following: Raw data sheets for stability studies. License to import Ertugliflozin LPGA (0.15Kg) & Sitagliptin 1Kg issued by AD I&E Peshawardated 22-10-2021. Audit trail reports.	

Decision: Registration Board approved the applications of Flopin 5/100 mg Tablet t & Flopin 15/100 mg Tablet.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submittedin the registration application.

	Name and address of API manufacturer.		**Empagliflozin** **Name:**RUYUAN HEC Pharm Co., Ltd. **Address**: Xiaba Development Zone, Ruyuan County, Shaoguan City, Guangdong Province, P.R.China	
			Linagliptin **Name:** Fuxin Long Rui Pharmaceutical Co.,Ltd **Address** Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province -123000, China	
			Metformin HCl **Name:**AARTI DRUGS LIMITED	

		Address: Mahendra Industrial Estate Plot No.211-213, Road No.2, G.I.D.C, Sarigam District, Valsad, Gujarat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurity and related substances, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Empagliflozin** Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months **Linagliptin** Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months **Metformin HCl** Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the innovator product i.e. **Trijardy XR(12.5/2.5/1000mg) Tablet** by **M/s. Boehringer Ingelheim** by performing quality tests (Appearance, Average weight, Water content, Identification, Impurity, Assay, Dissolution, Uniformity of dosage form, Arginine content, Organic impurities and Microbial limit test). CDP has been performed against the same brand that is **Trijardy XR(12.5/2.5/1000mg) Tablet** by **M/s. Boehringer Ingelheim** in 0.1N HCl (pH 1.2), Acetate media (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.

	Analytical method validation/verification of product	Method validation studies have submitted including linearity, accuracy, precision including repeatability & Intermediate repeatability, robustness & specificity.

No. of Batches	03		
Administrative Portion			
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has submitted reference of last onsite panel inspection for instant dosage form conducted during last two years i.e. EMPOLI (Empagliflozin) 10mg & 25mg Tablets which was presented in 290th meeting of the registration board & hence approved & registered by registration board Date of inspection: 13th June 2019. The inspection report confirms following points The HPLC software is 21CFR Compliant. Audit trail on the testing reports is available. Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Empagliflozin**: Copy of DML No. 20160622 issued by Guangdong Food and Drug Administration valid till 07-10-2026.	

		Linagliptin: Firm has submitted cipy of DML no. 20150233 issued by State Food and Drug Administration valid upto 17-11-2027. **Metformin HCl:** Copy of GMP certificate No. 23064344 issued by Food and Drug Administration Chandhinagar Gujarat state,India valid till 20-06-2026
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin**: Invoice no. WIS190069 (08/10/2019) with received quantity i.e. 500G) with attestation of DRAP dated 29-10-2019 **Linagliptin:** Invoice no.SY20060402-H (04/06/2020) with received quantity i.e. 0.5KG) with attestation of DRAP dated 25-06-2020 **Metformin HCl:** Invoice no. EXP/831AB/18-19 (23/07/2018) with received quantity i.e. 25KG) with attestation of DRAP dated 06-09-2018
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail record of product testing of HPLC for all test intervals.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator[II]:

Section#	Observations
	Empagliflozin
3.2.S.1.3	Justify the declaration of solubility of Empagliflozin as " very slightly soluble in water" with reference to the innovator drug product literature.
3.2.S.4.4	Justification shall be submitted for different Assay limits from that applied by drug substance manufacturer.
3.2.S.5	COA of working standard of Empagliflozin used for analysis of drug substance by M/s Sami Pharmaceuticals shall be submitted.
3.2.S.7	Stability summary in section 3.2.S.7.1 declares the long term conditions as 25°C ± 2°C / 60% ± 5%RH, whereas stability data submitted in section 3.2.S.7.3 is as per long term conditions of 30°C ± 2°C / 65% ± 5%RH. Justification shall be submitted for this disparity.
	Linagliptin
3.2.S.1.3	Submitted DMF declare the Polymorphic form as "Not reported", whereas Innovator drug product literature declares that Linagliptin is manufactured as a mixture of anhydrous form A and anhydrous form B. Justification shall be submitted in this regard. Clarification shall be submitted regarding the isomeric form of the drug substance.
3.2.S.4	Justification shall be submitted for not including test of "Enantiomeric purity" in the drug substance specifications.
3.2.S.4.4	Submitted COA of drug substance from both drug product and drug substance manufacturer does not confirm "Enantiomeric purity". Justification shall be submitted in this regard.
3.2.P.1	Justification shall be submitted for the seal coating applied on Metformin HCl core, while referring to the innovator drug product formulation. Justification shall be submitted for proposed quantity of Arginine in the formulation. Justification shall be submitted on basis of performance based evidence for adding 10% overage of "Empagliflozin" & "Linagliptin" in the applied batch formulation.

3.2.P.2	Justification shall be submitted for proposed quantity of Arginine in the formulation.	
3.2.P.3.5	Submitted process validation protocol does not include details of in-process test applied to confirm that desired content for Empagliflozin and Linagliptin has been achieved via active coating.	
3.2.P.6	Submit COAs of reference standards/working standards used for analysis of drug product stability batches.	
3.2.P.8.3	Documents confirming import of drug substance shall be submitted. Reconciliation record of drug imported drug substances shall be submitted considering the different combinations and strengths of products applied.	
2.3.R	Justification shall be submitted for the seal coating applied on Metformin HClcore, while referring to the innovator drug product formulation. Justification shall be submitted for proceeding for the final film coating step without establishing the content of Empagliflozin & Linagliptin at in process stage of active coating. Clarification shall be submitted for the test applied to confirm that desired content for Empagliflozin and Linagliptin has been achieved via active coating since submitted trial batch manufacturing record does not include any in process testing.	

Decision of 331st meetinig: Registration Board deferred the cases for submission of reply to above cited shortcomings.

Firm's reply:

Section#	Observations	Firm's response
	Empagliflozin	
3.2.S.1.3	Justify the declaration of solubility of Empagliflozin as " very slightly soluble in water" with reference to the innovator drug product literature.	Please refer to the attached reference for the solubility of Empagliflozin, which is noted as slightly soluble in water. It's important to note that this solubility information for Empagliflozin is available in the EMA public assessment report of Jardiance Tablet (Empagliflozin Tablet) and is not mentioned in the combination product.
3.2.S.4.4	Justification shall be submitted for different Assay limits from that applied by drug substance manufacturer.	The assay specification is the same for both SAMI and the drug substance manufacturer, which is set at 98 to 102%. Firm has submitted drug substance specificatons from both.
3.2.S.5	COA of working standard of Empagliflozin used for analysis of drug substance by M/s Sami Pharmaceuticals shall be submitted.	Submitted
3.2.S.7	Stability summary in section 3.2.S.7.1 declares the long term conditions as 25°C ± 2°C / 60% ± 5%RH, whereas stability data submitted in section 3.2.S.7.3 is as per long term conditions of 30°C ± 2°C / 65% ± 5%RH. Justification shall be submitted for this disparity.	The drug substance manufacturer initially conducted stability studies at both 25 ± 2°C/60% ±5% RH and 30°C ±2°C/65%±5% RH. Initially, they provided DMF with 25 ± 2°C/60% ±5% RH storage condition data, but upon inquiry, they provided the stability data at 30°C ±2°C/65%±5% RH. Unfortunately, the old data was submitted in section 3.2.S.7.1. Firm has submitted revised pages of DMF.
	Linagliptin	

	3.2.S.1.3	Submitted DMF declare thePolymorphic form as "Not reported", whereas Innovator drug product literature declares that Linagliptin is manufactured as a mixture of anhydrous form A and anhydrous form B. Justification shall be submitted in this regard. Clarification shall be submittedregarding the isomeric form of the drug substance.	Firm has submitted revised documents of DMF for all strengths. We are using the same polymorphic form as the one used by the innovator.	
	3.2.S.4	Justification shall be submitted fornot including test of "Enantiomeric purity" in the drug substance specifications.	Firm has submitted revised drug substance specifications and analytical procedure including test of Chiral purity.	
	3.2.S.4.4	Submitted COA of drug substance from both drug product and drug substance manufacturer does not confirm "Enantiomeric purity". Justification shall be submitted in this regard.	Firm has submitted revised COA of drug substance.	
	3.2.P.1	Justification shall be submitted for theseal coating applied on Metformin HCl core, while referring to the innovator drug product formulation. Justification shall be submitted for proposed quantity of Arginine in the formulation. Justification shall be submitted on basis of performance based evidence for adding 10% overage of "Empagliflozin" & "Linagliptin" in the applied batch formulation.	10% Excess quantity of both APIs (Empagliflozin & Linagliptin) were added in coating dispersion to compensate the process loss faced while the coating operation was being carried out. These extra quantities of API's do not become part of the final film coated tablet and the same is confirmed through the assay and content uniformity results of both APIs. The quantity of Arginine in formulation is concerned, the maximum allowed FDA safe limit of Arginine in oral tablet is 50mg/MDE. Whereas, the quantity of Arginine used in our formulation is 35mg/tablet which is well within the allowable limit. It is a common practice to take overages-of API for drug loading process because the losses are observed/experience during APl coating process, thus extra quantities are added to compensate the process losses Moreover, 10% overage is not fixed, this will be validated during manufacturing of commercial validation batches and the percentage of overage will be finalized based on the trend analysis of assay and content uniformity of validation batches.	

	3.2.P.3.5	Submitted process validation protocol does not include details of in-process test applied to confirm that desired content for Empagliflozin and Linagliptin has been achieved via active coating.	Firm has submitted re-designed protocol.	
	3.2.P.6	Submit COAs of reference standards/working standards used for analysis of drug product stability batches.	Submitted	
	3.2.P.8.3	Documents confirming import of drug substance shall be submitted. Reconciliation record of drug imported drug substances shall be submitted considering the different combinations and strengths of products applied.	Submitted	
	2.3.R	Justification shall be submitted for proceeding for the final film coating step without establishing the content of Empagliflozin & Linagliptin at in process stage of active coating. Clarification shall be submitted for the test applied to confirm that desired content for Empagliflozin and Linagliptin has been achieved via active coating since submitted trial batch manufacturing record does not include any in process testing.	Firm has submitted in-process testing report after active coating wherein content of Empagliflozin and Linagliptin has been determined by way of Content uniformity.	

Decision: Registration Board approved the applications of EMPOLI TRIO XR 25/5/1000mg Tablets, EMPOLI TRIO XR 12.5/2.5/1000mg Tablets, EMPOLI TRIO XR 10/5/1000mg Tablets & EMPOLI TRIO XR 5/2.5/1000mg Tablets.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	The proposed proprietary name / brand name	**Empagin-M Tablet 12.5mg+1000mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin… .....12.5mg Metformin HCl 1000mg
	Pharmacotherapeutic Group of (API)	Anti-Diabetic
	Pharmaceutical form of applied drug	Violet color oval shape film coated tablet
	Reference to Finished product specifications	Manufacturer's Specification
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Synjardy 12.5mg+500mg Tablets , Boehrimger Ingelhiem Pharmaceuticals
	For generic drugs (me-too status)	Diampa–M by M/s Getz Pharma (Pvt.) Limited (Reg.No. 093084)
	Name and address of API manufacturer. **Empagliflozin**	Century Pharmaceuticals Ltd. 103-106, G.I.D.C, Estate-Halol 389350 Dist.Panchmahals Gujrat India.
	Name and address of API manufacturer. **Metformin HCl**	Aarti Drugs Limited. Aarti Drugs Limited. Plot No.211-213,Road No 02 G.I.D.C Sarigam Dist Valsad
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance: **Empagliflozin**	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Module-III Drug Substance: **Metformin HCl**	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, control of materials, characterization, impurities specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies) **Empagliflozin**	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies) **Metformin HCl**	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Syngardy 12.5mg+500mg Tablet by Boehringer Ingelhiem Pharmaceuticals Firm has submitted CDP results of their product against the innovator's product Synjardy 5mg+500mg Tablet in 3 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. **Empagliflozin**	Firm has submitted copy of GMP Certificate (No. 20011803) dated 09-01-2022 issued by Food and Drugs Control Administration Gujrat State India. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. **Metformin HCl**	Firm has submitted copy of GMP Certificate (No. 20031933) dated 29-01-2022 issued by Food and Drugs Control Administration Gujrat State India. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import). **Empagliflozin**	Firm has submitted copy of commercial invoice cleared on 11-01-2019 BY AD I&E Karachi in name of M.s OBS Pakistan Pvt. (Ltd.) specifying 1.5 Kg of Empagliflozin. Firm has also submitted a letter issued by Deputy Director in name of M/s OBS Pakistan dated 28-02-2019 wherein request for one time transfer of materials (including Empagliflozin) from m/s OBS Pakistan to M/s Aspin Pharma.
	Documents for the procurement of API with approval from DRAP (in case of import). **Metformin HCl**	Firm has submitted copy of commercial invoice cleared on 17-12-2019 specifying 1500Kg of Metformin HCI. The invoice is cleared by AD (I&E) DRAP, Karachi.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section#	Observations
1.6.5	Name of the drug substance manufacturer of Metformin HCl declared in section 1.6.5 is different form that declared in the submitted GMP certificate. Submit valid GMP certificate/DML of the drug substance manufacturer of Metformin HCl.
3.2.S.4.1	Justification shall be submitted for not including test of "particle size", in the submitted drug substance specifications of Empagliflozin, as recommended by innovator literature.
3.2.S.4.2	Drug substance analytical procedure for Empagliflozin shall be submitted from both drug substance manufacturer and M./s Aspin Pharma.
3.2.S4.3	Analytical method verification studies performed by M./s Aspin pharma, shall be submitted for both drug substances.
3.2.S.4.4	COA of the relevant batch of Empagliflozin, used for manufacturing of trial bathes shall be submitted form Drug substance manufacturer. Drug substance manufacturer has declared metformin HCl as of BP grade whereas COA of Metformin HCl submitted from M.s Aspin Pharma reveals analysis as per USP. Justification shall be submitted in this regard.

	3.2.P.2.2.1	Justification shall be submitted for applying dissolution time limit of 30 minutes in Pharmaceutical equivalence studies since innovator drug product literature has recommended dissolution time of 20 minutes. Justification shall be submitted for applying "75rpm" speed for paddle apparatus for performing CDP studies, whereas innovator drug product literature has recommended speed of 50rpm.	
	3.2.P.3.3	Innovator drug product literature states as under: "To combine the low amount of empagliflozin with the relatively high quantity of metformin hydrochloride, a wet granulation process with granulation liquid containing empagliflozin was chosen." In contrast to above cited reference, applied formulation has been formulated by granulating dry mix of Metformin HCl & Empagliflozn with plain water only. Justification shall be submitted in this regard.	
	3.2.P.3.4	Unlike innovator drug product, particle size of Empagliflozin has not been identified as critical quality attribute for drug product. Justification shall be submitted in this regard.	
	3.2.P.3.5	Content uniformity test for Empagliflozin has not been included in the process validation protocol.	
	3.2.P.5.1	Justification shall be submitted for adopting dissolution time limit of 30 minutes whereas innovator drug product literature has recommended dissolution time limit of "20 minutes".	
	3.2.P.5.3	Justification shall be submitted that how the "specificity" of the applied method has been inferred without the performance of "Peak Purity Test (e.g., using diode array detector) to establish that analyte chromatographic peak is not attributable to more than one component".	
	3.2.P.8	Reconciliation record for the imported quantity of Empagliflozin shall be submitted against all the stability batches manufactured for different strengths and combinations.	

Decision pf 331st meeting: Registration Board deferred the cases for submission of reply to the above cited shortcomings.

Firm's reply:

Section#	Observations	Firm's response
1.6.5	Name of the drug substance manufacturer of Metformin HCl declared in section 1.6.5 is different form that declared in the submitted GMP certificate. Submit valid GMP certificate/DML of the drug substance manufacturer of Metformin HCl.	Firm has submitted revised details in section 1.6.5 along with copy of GMP Certificate (No. 23064344) dated 21-06-2023 issued by Food and Drugs Control Administration Gujrat State India valid till 20-06-2026 issued in name of Aarti Drugs Limited. UNIt-II, Plot No.211-213, Road No 02 G.I.D.C Sarigam Dist Valsad
3.2.S.4.1	Justification shall be submitted for not including test of "particle size", in the submitted drug substance specifications of Empagliflozin, as recommended by innovator literature.	Firm has submitted revised drug substance specifications including test for Particle size.
3.2.S.4.2	Drug substance analytical procedure for Empagliflozin shall be submitted from both drug substance manufacturer and M./s Aspin Pharma.	Submitted.
3.2.S4.3	Analytical method verification studies performed by M./s Aspin pharma, shall be submitted for both drug substances.	Submitted

	3.2.S.4.4	COA of the relevant batch of Empagliflozin, used for manufacturing of trial bathes shall be submitted form Drug substance manufacturer. Drug substance manufacturer has declared metformin HCl as of BP grade whereas COA of Metformin HCl submitted from M.s Aspin Pharma reveals analysis as per USP. Justification shall be submitted in this regard.	Submitted Specifications for chemical andphysical test for metformin HCl are merely identical for BP and USP. Moreover, Assay method in BP monograph is on titration method whereas USP monograph use HPLC method for Assay analysis which is more accurate and precise technique scientifically due to which USP method was selected for API testing. Additionally, AMV for Metformin HCl was performed on both Assay methods, after that we revised our specifications with claim BP/USP specification.	
	3.2.P.2.2.1	Justification shall be submitted for applying dissolution time limit of 30 minutes in Pharmaceutical equivalence studies since innovator drugproduct literature has recommended dissolution timeof 20 minutes. Justification shall be submitted for applying "75rpm" speed for paddle apparatus for performing CDP studies, whereas innovator drug product literature has recommended speed of 50rpm.	As per FDA guideline for Dissolution Testing of Immediate Release Solid Oral Dosage Forms, Approaches for Setting Dissolution Specifications for a New Chemical Entity, dissolution testing should be carried out under mild test conditions, either basket method at 50/100 rpm or paddle method at 50/75 rpm as well as for highly soluble and rapidly dissolving drug products (BCS classes 1 and 3), a single-point dissolution test specification of NLT 85% (Q=80%) in 60 minutes or less Is sufficient as a routine quality control test for batch-to-batch uniformity. On the basis of above guideline dissolution test of our product as well as innovator product performed during Pharmaceutical equivalence studies complies with following parameter i.e. 75rpm for 30 minutes for dissolution. Therefore, these parameters were finalized for testing of initial and stability batches.	
	3.2.P.3.3	Innovator drug product literature states as under: "To combine the low amount of empagliflozin with the relatively high quantity of metformin hydrochloride, a wet granulation process with granulation liquid containing empagliflozin was chosen." In contrast to above cited reference, applied formulation has been formulated by granulating dry mix of Metformin HCl & Empagliflozn with plain water only. Justification shall be submitted in this regard.	Empagin -M tablet was developed using traditional granulation method. This method resembles with the manufacturing method of a Chinese drug patent(CN104586834A). Using traditional manufacturing method, stability batches of Empagin-M were manufactured. Empagin -M tablet critical attributes like content uniformity , assay, dissolution are satisfactory and its all strengths have completed stability studies with no observation therefore this manufacturing method is satisfactory.	
	3.2.P.3.4	Unlike innovator drug product, particle size of Empagliflozin has not been identified as critical quality attribute for drug product.	As per ICH guideline Q6A, decision tree # 3 "SETTING ACCEPTANCE CRITERIA FOR DRUG SUBSTANCE	

		Justification shall be submitted in this regard.	PARTICLE SIZE DISTRIBUTION", particle size of Active Pharmaceutical Ingredients might be critical parameter when impacting dissolution profile, solubility, bioavailability, drug product process ability, content uniformity as well as product appearance. If no impact on mentioned product parameters and quality attributes, then there IS provision not to include acceptance criteria for particle size. (Decision Tree # 03 reference Attached) Moreover, aforesaid product parameters and quality attributes for Empain-M Tablet range having four different strengths with composition of Empagliflozin and Metformin as 5/1000mg, 12.5/500mg, 5/500mg and 12.5/1000mg respectively does not impacted. Therefore, particle size was not included in drug product as well as in drug substance.	
	3.2.P.3.5	Content uniformity test for Empagliflozin has not been included in the process validation protocol.	Submitted	
	3.2.P.5.1	Justification shall be submitted for adopting dissolution time limit of 30 minutes whereas innovator drug product literature has recommended dissolution time limit of "20 minutes".	As per FDA guideline for Dissolution Testing of Immediate Release Solid Oral Dosage Forms, Approaches for Setting Dissolution Specifications for a New Chemical Entity, dissolution testing should be carried out under mild test conditions, either basket method at 50/100 rpm or paddle method at 50/75 rpm as well as for highly soluble and rapidly dissolving drug products (BCS classes 1 and 3), a single-point dissolution test specification of NLT 85% (Q=80%) in 60 minutes or less Is sufficient as a routine quality control test for batch-to-batch uniformity. On the basis of above guideline dissolution test of our product as well as innovator product performed during Pharmaceutical equivalence studies complies with following parameter i.e. 75rpm for 30 minutes for dissolution. Therefore, these parameters were finalized for testing of initial and stability batches.	
	3.2.P.5.3	Justification shall be submitted that how the "specificity" of the applied method has been inferred withoutthe performance of "Peak Purity Test (e.g., using diode array detector) to establish that analyte chromatographic peak is not attributable to more than one component".	Specificity has been performed and no peak interference has been observec on define parameters. However, peak purity test had been conducted on Force degradation activity and found 0.990716 anc 1.0000 peak purity index for Metformin HCI and Empagliflozin respectively. This shows that analyte chromatographic peak is not attributable to any other component.	

	3.2.P.8	Reconciliation record for the imported quantity of Empagliflozin shall be submitted against all thestability batches manufactured for different strengths and combinations.	Submitted.	

Decision: Registration Board approved the applications of Empagin-M Tablet 12.5mg+1000mg, Empagin-M Tablet 12.5mg+500mg, Empagin-M Tablet 5mg+500mg, & Empagin-M Tablet 5mg+1000mg Tablet.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submittedin the registration application.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last Product Specific Inspection of the firm was conducted for Empagliflozin and Dapagliflozin Tablets, for which the inspection was conducted on 13-10-2022

		and the report was presented in 322nd meeting of Registration Board. The report confirms following points: The HPLC software is 21CFR compliant. Firm has demonstrated audit trail reports of testing.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	--
3.	Documents for the procurement of API with approval from DRAP (in case of import).	--
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section#	Observations	Firm's response
1.6.5	Submit valid GMP certificate/DML of the drug substance manufacturer of Metformin HCl. Submit valid GMP certificate/DML of the drug substance manufacturer of Empagliflozin, issued by the relevant regulatory authority.	Firm has submitted copy of DML no. Su 20160324 valid upto 06-12-2025 issued for M/s Jiangsu Yongan Pharmaceutical Co., Ltd. Firm has submitted License retention certificate for the period of 21-03-2019 to 0-03-2024 issued by Food & Drug Control Administration Gujarat for M.sAarti Drugs Ltd.
3.2.S.1.3	In contrary to the innovator drug product literature from the US FDA & EMA, the section declares the solubility of Empagliflozin in water as "practically insoluble". Justification shall be submitted in this regard.	This was the typo error mentioned by API manufacturer, Updated section 3.2.S.1.3 and COA is enclosed. Firm has declared as under: "Solubility is followed as per innovator and manufacturer specifcations. There wa a typographic error in solubiliy statement, which has been rectified now". Firm hassubmitted revised COA ofdrug substance.
3.2.S.4	Justification shall be submitted for declaring the solubility of Empagliflozin as "practically insoluble" in batch analysis COA from both Drug substance manufacturer and Drug product manufacturer with reference to the	Firm has submitted revised COA of Empagliflozin. British Pharmacopoeia have Potentiometric method which was already in use and verified. But then method was shifted to USP by HPLC. HPLC method verification

		Innovator drug product literature approved by US FDA & EMA. Drug substance analytical procedure for Assay test of Metformin HCl submitted by M/s Aarti Drugs, is based uponpotentiometric method whereas USP monograph recommends HPLC method for the Assay test for Metformin HCl. Drug substance analytical procedure for Assay test of Metformin HCl submitted by M/s Next pharmaceutical, is based upon HPLC method whereas analytical method verification report has been submitted for the potentiometric method.	also available but mistakenly provided the potentiometric verification.	
	3.2.S.5	COA of reference/working standard used to analyse the Empagliflozin by M/s Next Pharmaceutical shall be submitted.	Submitted	
	3.2.P.2.2.1	Pharmaceutical equivalence studies of applied formulation against the innovator/reference product shall be submitted. Justification shall be submitting for not performing CDP studies against the innovator drug product. Justification shall be submitted for applying "75rpm" speed for paddle apparatus for performing CDP studies, whereas innovator drug product literature has recommended speed of 50rpm. Submitted CDP studies for Empagliflozin in 0.1NHCl dissolution medium reveals descending results. Justification shall be submitted in this regard	Pharmaceutical equivalence and CDP studies of all strengths have been submitted, two strengths havebeen compared with Synjardy while other two strengths have been compared with Xanglumet because of unavailability of reference product. Firm has declared that it wasoverlooked that conditions for CDP are different, we will do the dissolution at 50rpm at commercial scale production. Results are decreased for bothreference and Next Pharma drug (EmpaMet 5/1000mg Tablet Verses Synjardy 5/1000mg Tablet) because in 10 minutes' drug is maximum dissolved and achieve 90.64 % for reference drug in 10 minutes so in next time points slight decrease in results observed only is due to analytical error i.e., 90.24% after 15 minutes, 89.92% after 20 minutes and 89.17% after 30 minutes which is 1.47% decrease after 30 minutes. Same in Next Pharmaceutical Product maximum dissolved and achieve 92.32 % in 10 minutes so in next time points slight decrease in results observed only is due to analytical error i.e. 91.72% after 15 minutes, 91.54% after 20 minutes	

<table>
<tr><td></td><td></td><td></td><td>and 91.19% after 30 minutes which is 1.13% decrease after 30 minutes.
•</td><td></td></tr>
<tr><td></td><td>3.2.P.3.3</td><td>Manufacturing process for the tablets of Sacubitril/valsartan is submitted instead of applied formulation.</td><td>Firm has ubmitted revised manufacturing process.</td><td></td></tr>
<tr><td></td><td>3.2.P.3.4</td><td>Unlike innovator drug product, particle size of Empagliflozin has not been identified as critical quality attribute for drug product. Justification shall be submitted in this regard.</td><td>There was no issue identified in compressibility and dissolution results and consistent results obtained during product development, so particle size was not considered.</td><td></td></tr>
<tr><td></td><td>3.2.P.5</td><td>Justification shall be submitted for adopting different dissolution parameter for Empagliflozin from that recommended by innovator drug product.
Justification shall be submitted for performing Dissolution test separately for each drug substance whereas innovator drug product literature has recommended simultaneous analysis of dissolution of both drug substances.</td><td>We followed the CDER Application No.: 206111Orig1s000 Clinical Pharmacology And Biopharmaceutics Review(S) FDA.
The reference cited by firm is no tapplicabel for applied formulation since it was for the single ingredient dryug products of Empagliflozin and Metformin while applied product is combination drug product.</td><td></td></tr>
<tr><td></td><td>3.2.P.6</td><td>COA of reference/working standard, used for analysis of drug product stability batches, shall be submitted.</td><td>Submitted.</td><td></td></tr>
<tr><td></td><td>3.2.P.8</td><td>Submit following:
Documents confirming import of drug substance, attested by DRAPI&E office.
Justification shall be submitted for significant change during accelerated stability studies of the following stability batches:
<table><tr><th>Strength</th><th>Batch#</th></tr><tr><td>Empamet 12.5mg/1000mg</td><td>T-0001TAJ</td></tr><tr><td>Empamet 12.5mg/500mg</td><td>T-0003TAK</td></tr></table></td><td>Firm has submnitted following:
Copy o fcommercial invoice no. ZY19101701G/W attested by AD I&E Lahore, dated 24-10-2019 for import of 500gm of Empagliflozin.
Copy of commercial invoice not attested by AD I&E, for 2000 Kg of Metformin HCl.
The significant change is not due todrug substance /drug formulation, because other batches also manufactured with same formulation. the variation in results is due to calculation error because weight of sample and average weight is not incorporated properly in calculations. Recalculation is attached with Raw data and calculations and there is no significant change after recalculations.</td><td></td></tr>
<tr><td></td><td colspan="2">Innovator drug product literature states as under:
“To combine the low amount of empagliflozin with the relatively high quantity of metformin hydrochloride, a wet granulation process with granulation liquid containing empagliflozin was chosen.”
In contrast to above cited reference, applied formulation has been formulated by granulating dry</td><td>Due to low quantity of Empagliflozin, Innovator add empagliflozin in granulating liquid for proper mixing of empagliflozin with metformin. We achieve this proper mixing by geometrical mixing of empagliflozin with metformin before wet granulation. With geometrical mixing, we achieve</td><td></td></tr>
</table>

	mix of Metformin HCl & Empagliflozin with binder solution. Justification shall be submitted in this regard.	the required results that are proven from content uniformity of the finished product (results mentioned in FG COA). Process sheet for geometrical mixing is also attached.	

Decision of 331st meeting: Registration Board deferred the applications of EmpaMet 12.5/1000mg Tablet, , EmpaMet 5/1000mg Tablet & EmpaMet 5/500mg Tablet for submission of dissolution testing as per innovator drug product's dissolution parameters recommended b US FDA, for all the trial batches at the next time point of long term stability studies.

Reply of Firm: Firm has submitted performance of stability studies of next time point for EmpaMet 12.5/1000mg Tablet, , EmpaMet 5/1000mg Tablet & EmpaMet 5/500mg Tablet, wherein dissolution testing has been performed as per innovator drug product's dissolution parameters recommended by US FDA

Decision: Registration Board approved the applications of EmpaMet 12.5/1000mg Tablet, EmpaMet 12.5/500mg Tablet, EmpaMet 5/1000mg Tablet & EmpaMet 5/500mg Tablet.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submittedin the registration application.

Evidence of approval of applied formulation in reference regulatory authorities/agencies whichwere adopted by the Registration Board in its 275th meeting.	
	Reply of Firm	Firm has submitted reply vide dairy No. 23931 dated 24-08-2022 along with checklist of form -5 dully signed and stamped and manufacturing method. Firm has also mentioned Combo pack with Diluent "Each ampoule of solvent Contain: Sterile water for Injection (B.P)..... 10 ml Firm has also submitted copy of GMP inspection conducted on 24-02-2022 conducted by FID, Khi concluded that firm is operating at satisfactory level of GMP compliance with positive intention of firm for further improvement in future. Firm has submitted Lay out plan approval letter of Cephalosporin section.
	Remarks of the Evaluator	Firm has not submitted form -5 as per prescribed formatof form-5 as per Drug Registering, Licensing & advertising rules 1976 along with undertaking at the end of form-5. Pre-registration variation fee challan is not provided. Section approval letter of Cephalosporin from CLB is not provided. Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting and me too/generic product registered in Pakistan is not provided.
	Decision of 321st meeting: Deferred for following shortcomings: Firm has not submitted form -5 as per prescribed format of form-5 as per Drug Registering, Licensing& advertising rules 1976 along with undertaking at the end of form-5. Pre-registration variation fee challan is not provided. Section approval letter from CLB is not provided	
	Firm's reply: Firm has submitted copy of letter from Secretary CLB dated 28-12-2005 for approval of Layout plan Expansion for sections including Dry powder injectable (Cephalosporin). Firm has also submitted GMP inspection report conducted by Area FID (III) dated 24-02-2022 declaring availability of Dry powder sterile injection (Cephalosporin).	
	Decision: Deferred for following as a last chance:	

	Form -5 as per prescribed format of form-5 as per Drug Registering, Licensing & advertising rules 1976 along with undertaking at the end of form-5. **Pre-registration variation fee.** **Evidence of approvcalof amnufcaturing facility i.e, Dry powder injectable (Cephalosporin) section from Central Licensig Board.**	
104.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ahad International Pharmaceuticals Ltd Dera Ismail Khan**
	Name, address of Manufacturing site.	M/s Ahad International Pharmaceuticals Ltd, 13 KM Gomal University Multan Road Dera Ismail Khan
	Status of the applicant	☒ Manufacturer Importer Is involved in none of the above (contract giver)
	Status of application	New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	Domestic sale Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 24365 dated 03-09-2021
	Details of fee submitted	PKR 30,000/-: vide deposit slip# 4953647152
	The proposed proprietary name / brand name	**Parasafe Infusion 1gm/100ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml infusion contains: Paracetamol ……. 1gm
	Pharmaceutical form of applied drug	Solution for infusion
	Pharmacotherapeutic Group of (API)	Analgesic and Antipyretic
	Reference to Finished product specifications	In house specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Paracetamol 10mg/ml solution for infusion (One 100ml vial contains 1000mg Acetaminophen) of M/s Accord-UK Ltd approved by MHRA of UK
	For generic drugs (me-too status)	Provas Infusion 1Gm/100ml by Sami Pharma
	GMP status of the Finished product manufacturer	Panel inspection report dated 09-07-2020 concludes satisfactory level of cGMP compliance.
	Evidence of manufacturing facility	Copy of panel inspection report dated 09-07-2020 has been submitted wherein availability of "Sterile Vial Infusion" & "Ampoule" section has been mentioned.
	Name and address of API manufacturer.	M/s Citi Pharma (Pvt) Ltd, 3KM Head Baloki Road Phool Nagar District Qasur
	Module-II (Quality3. Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Official monograph of Acetaminophen is present in USP and BP. The firm as submitted detail of

		nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence	Pharmaceutical Equivalence have been established against the Provas infusion 1Gm/100ml by Sami Pharma.
	Analytical method validation/verification of product	Method verification studies have submitted including linearity, range, accuracy, precision, specificty.

STABILITY STUDY DATA

Manufacturer of API	M/s Citi Pharma (Pvt) Ltd, 3KM Head Baloki Road Phool Nagar District Qasur		
API Lot No.	PGP20-423, PARA/AWAS-001/20-001		
Description of Pack (Container closure system)	Glass vial

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3,6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)		
Batch No.	001	002	003
Batch Size	400 vials	400 vials	400 vials
Manufacturing Date	09-2020	09-2020	09-2020
Date of Initiation	15-09-2020	16-09-2020	17-09-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not Submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc..	Not Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator[II]:

Section#	Observations	Firm's response
3.2.S.3.1	The said section declares M/s Hebei Jiheng Pharmaceutical Co. Ltd as producer of Acetaminophen instead of M/s Citi Pharma.	According to invoice Neon chemical is our indenter which deals both companies. Now we are performing all the procedure according to Hebei Jiheng Pharma.
3.2.S.4.2	Analytical procedure submitted by Drug substance manufacturer is as per USP monograph, whereas Drug product manufacturer has submitted analytical procedure as per BP monograph. Justification shall be submitted for this variation.	Drug substance manufacturer complies both BP & USP specifications. Now we adopt analytical procedure according to USP specification.
3.2.S.4.3	Clarification shall be submitted that whether submitted analytical method verification studies have been performed by M/s Citi Pharma or M/s Ahad International. Clarification shall be submitted that whether submitted analytical method verification studies have been performed as per USP or BP monograph.	Analytical method verification studies havebeen performed M/s Ahad International. Performed according ot USP monograph.
3.2.S.4.4	COA of Paracetamol submitted from M/s CITI Pharma declares it as "Analytical Working Standard", whereas results ofanalysis of relevant batch(es)of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis(CoA) of the same batch from Drug Substancemanufacturer shall be submitted. Submitted COA form M/s Citi Pharma & M/s Ahad International does not include test of sterility. Clarification shall be submitted in this regard, since the drug substance is to be used in the formulation of a sterile product.	Firim has submitted COA of drug substance from M/s Hebei Jiheng Pharmaceutical Co. Ltd. China for batch# COS012012049 which also includes sterility test.
3.2.S.4.5	The said section declares that the	Drug substance manufacturer complies both BP &

	specifications adopted are as per the monograph specified in USP while in section 3.2.S.4.2 analytical procedure as per BP monograph has been submitted.	USP specifications. Now we adopt analytical procedure according to USP specification.
3.2.P.3.5	Submitted process validation protocol mentions the strength as 1000mg/10ml whereas applied strength is 1000mg/100ml.	It is typographic mistake while the original strength is 1000mg/100ml.
3.2.P.5.1	Justification shall be submitted for the proposed pH range of 4.0 -7.0 for the drug product since the available literature of the reference product declares different pH range than that proposed by the applicant.	Actual pH range 5 – 7 for drug product according to USP specifications.
3.2.P.5.3	Performance of Linearity parameter shall be submitted in Analytical method validation studies.	Submitted.
3.2.P.5.4	The copies of complete analysis reports of all three trial batches shall be provided. Submitted analytical report of Trial-01 does not include test of Sterility & Endotoxin.	Firm has submitted copies of batch analysis reports fo all three stability bayches including results for sterility testing and endotoxin.
3.2.P.8	Submitted invoice from M/s Neon Chemicals declare quantity of Paracetamol as of 50gm. Justification shall be submitted for manufacturing of three trial batches of 400vials each with 50gm of API. Submitted stability summary sheets & reports declare condition of real time stability studies as 25˚C ± 2˚C / 60% ± 5%RH which is not as per Zone IVa. Submitted analytical record shows that Assay calculations for all three stability batches at each time point of both accelerated & long-term stability studies have been performed by applying same value of Standard peak area. Justification shall be submitted in this regard. Record of data logger of stability chambers shall besubmitted. Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin	Firm has submitted copy of letter from M/s Neon Chemicals, declaring submission of drug sample of 2Kg from M/s Hebei Jiheng Pharmaceutical Co., Ltd., China to M/s Ahad International. No document attested by AD I&E DRAP has been submitted in this regard. Firm has submitted revised stability summary sheets m conditions as per Zone Iva. Firm has submitted revised analytical record along with chromatograms. Record of digital data logger has beensubmitted. GMP certificate eof the drug substance manufacturer has not been submitted.

shall be submitted.

Decision of 323rd meeting: Deferred for clarification regarding manufacturer of drug substance along with documents confirming procurement of drug substance with approval of DRAP I&E office.

Firm's response: Firm has submitted documents for the procurement of Paracetamol from M/s Citi Pharma (Pvt.) Ltd., 3.5-km, head Baloki Road, Phool Nagar, Kasur-Pakistan including commercial invoice, COA of drug substance and copy of GMP certificate issued on basis of inspection conducted on 17-12-2020.

Decision of 330th meeting: Regsitration Board decided to defer the application for personal hearing of firm regarding the varied information submitted regarding the source of drug substance.

Evaluationby PEC: The form has been intimated for personal hearing.

Proceedings & Decision: Mr. Abid Khan, Director M/s Ahad International Pharmaceuticals Ltd. appeared before the Board and submitted that the documents of Chinese source for Paracetamol were submitted by mistake and they have manufactured stability batches of Paracetamol Infusion from the API procured form M/s Citi Pharma (Pvt.) Ltd., 3.5-km, head Baloki Road, Phool Nagar, Kasur-Pakistan. Mr. Abid also submitted an undertaking declaring as under:
"We the M/s Ahad International Pharmaceuticals undertake that we have not import/purchased the API (Paracetamol) from China. We have submitted the documents are true and best of our knowledge that we purchaw the API (Paracetamol) directly from M/s Citi Phamra, Kasur, Pakistan."

Registration Board while considerieng the submission from representative of M/s Ahad International Pharmaceuticals, decided to approve the application of "Parasafe Infusion 1gm/100ml" and further advised the firm to avoid such errors in future.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and product.
	Name, address of drug substance manufacturer	M/s Hebei Tiancheng Pharmaceutcal Co.,Ltd., east of Jingsi street, west area of Lingang economic & technological development zone, Canghzhou, Hebei province, China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Real time stability studies have been conducted at40oC±2 RH 75%±5 for 36 months of 3 batches Accelerated stability study is conducted at 30oC±2 and 65%RH±5% for 24 months of 3 batches Batches: 20171102, 20171103, 20171104
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of

		drug product, specifications, detail of impurities analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	
	Analytical method validation/verification of product	The firm has submitted analytical method validations/ verification studies for the drug substance as well as for the drug product including specificity, accuracy, precision, linearity, LOD / LOQ (for impurities), system suitability etc.
	Container closure system of the drug product	Low borosilicate glass vial s with Halogenated butyl rubber stopper
	Stability study data of drug product, shelf life and storage conditions	Real time stability studies have been conducted at 30oC±2 and 65%RH±5% for 24 months of 3 batches Batch numbers: F11812091, F11812101, F11812111 Accelerated stability studies is conducted at 40oC±2 and 75%RH±5% for 6 months of 3 batches Batches: 110331, 1103311, 1104011

Evaluation by PEC:

-

Sr. No.	Observations
1	Please provide evidence of approval of the applied in same strength is reference regulatory authorities as approved in 275th meeting of Registration Board.
2	Provide pharmaceutical equivalence studies for the applied product against the innovator's / reference product along with the detail of batch number, expiry, date of manufacturing, approval status if reference country etc.
3	Compatibility study of excipient with the drug substance are required.
4	Since the product is powder for injection and the detail of accompanying reconstitution diluents have not been provided. Please detail of method of administration along with the detail of all the diluents used for reconstitution along with the compatibility studies of the formulation with the diluents.
5	As per submitted dossier, the specifications for the drug product are BP while the product is not present in BP, please clarify and submit Rs. 7,500/- fee for revision of specifications as per notification number No.F.7-11/2021-B&A/DRAP dated 07-05-2021.
6	Provide product specific sole agency agreement for the applied product.
7	Provide evidence of applied formulation/drug already approved by DRAP (generic / me-too status) along with registration number, brand name and name of firm.
8	Provide original, legalized and valid CoPP confirming the free sale of the applied product in exporting country and GMP status of the manufacturing facility.

Decision: of 324th meeting: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Firm's response: Firm has submitted following:

Reference of approval of applied formulation by three European countries i.e., Romania, Slovakia & Poland for the brand of Neoton. Web links of said references are as under:

Romania: https://www.anm.ro/_/_RCP/RCP_6986_10.10.14.pdf

Slovakia: https://www.sukl.sk/hlavna-stranka-1/english-version/special-pages/medical-product-detail?page_id=842&lie_id=44895

Poland: https://rejestry.ezdrowie.gov.pl/api/rpl/medicinal-products/4685/characteristic

Pharmaceutical Equivalence studies against the Neoton Injection of Alfasigma, Poland.

Compatibility studies with the reconstitution diluent.

2.	1.3.5	Evidence of section approval letter of Biogen Life Sciences shall be submitted.	Firm has submitted copy of section approval vide letter No. F. 1-2/2019-Lic. Dated 14-02-2020 wherein they have cream general section.
3.	1.5.4	Proposed pack size for the applied formulation shall be submitted.	Firm has submitted that proposed pack size is 1's.
4.	1.6.5	Valid copy of GMP certificate of both the Drug Substance manufacturer shall be submitted.	**Gentamicin Sulfate:** Firm has once again submitted the same copy of GMP certificate No. SC20160076 issued by CFDA, dated 23-02-2017 valid till 22-02-2022. *Valid copy of GMP certificate shall be submitted.* **Betamethasone dipropionate:** No GMP certificate is submitted.
5.	3.2.S.4.1	Specification of drug substance i.e. betamethasone by drug product manufacturer shall be submitted. Specification of drug substance i.e. Gentamicin Sulfate by drug product manufacturer shall be submitted.	Submitted. Submitted.
6.	3.2.S.4.2	Analytical procedures of drug substance i.e. betamethasone by drug product manufacturer shall be submitted. Analytical procedures of drug substance i.e. Gentamicin Sulfate by drug product manufacturer shall be submitted.	Firm has submitted analytical procedures for both the drug substances i.e. betamethasone dipropionate and gentamicin sulfate as per USP specifications.
7.	3.2.S.4.3	Verification studies of the drug substance i.e. betamethasone performed by drug product manufacturer shall be submitted. Verification studies of the drug substance i.e. Gentamicin Sulfate	Submitted. Submitted.

			performed by drug product manufacturer shall be submitted.		
	8.	3.2.S.4.4	Batch analysis of the drug substance i.e. betamethasone provided by the drug substance manufacturer has assay test on UV while official monograph has mentioned HPLC. Clarification shall be submitted. COA for the drug substance Gentamicin Sulfate provided by the finished product manufacturer has not performed water content, Sulfate content and optical rotation test on the drug substance. Clarification shall be submitted. COA for drug substance i.e. Gentamicin Sulfate from drug substance manufacturer is overwritten with respect to mfg. date, release date & expiration date. Justification shall be submitted for this overwriting of COA.	*No justification submitted.* Firm has submitted new COA from both the drug substance manufacturer and drug product manufacturer for gentamicin sulfate (B. No. SC-GM-20200202, mfg. date 08-02-2020). *However, the batch No. and manufacturing date of the submitted COA are different from initially submittedCOA. No justification is submitted by the firm against this point.*	
	9.	3.2.S.4.5	Details and COA of the working standard of both the drug substances shall be submitted.	Firm has only submitted COA of the working standard for Betamethasone dipropionate. *No details and COA of the working standard for gentamicin sulfate is provided.*	
	10.	3.2.S.7.3	Stability for the drug substance i.e. Gentamicin Sulfate fromconcerned manufacturer shall be submitted as the submitted one is from Long March Pharm.	*Firm has once again submitted the same stability data.*	
	11.	3.2.P.5.1	Qualitative composition of the applied formulation is different from reference product.	Firm has submitted that formulation mentioned in CTD trial base. The actual formulation is mentioned in BMR. *However, no clear justification is provided by the firm.*	
	12.	3.2.P.2.2	Justification for not performing PE against the innovator product No details of the comparator product are submitted in PE.	Firm has submitted that Gentanix cream manufactured by Biogen pharma was easily available that's why they used the same in PE. Batch No. 2374, Mfg. date 11-2021 & Exp. date 11-2023.	
	13.	3.2.P.5.3	Complete validation/verification studies of the drug product performed by the drug product manufacturer shall be submitted.	Submitted.	
	14.	3.2.P.5.4	Submitted COAs have no pH test on the finished product. Justify.	*No justification is submitted by the firm.*	
	15.	3.2.P.8	Stability data sheets shall be as per decision of 293rd meeting with inclusion of API lot numberand batch size.	Firm has submitted stability data sheets as per decision of 293rd meeting with submission of batch size and API lot number (500 tubes each & 200507FB for	

			Justify the wave length applied in the submitted chromatograms with respect to the analytical procedures. Analytical procedures have mentioned 254nm while submitted chromatograms reflects 240nm.	betamethasone dipropionate & SC-GM-20200202 for gentamicin sulfate). *However, the newly provided stability data sheets have different values than the originally submitted. Furthermore, the API lot members mentioned are also different from the batch analysis provided in original dossiers.* *No justification submitted against this point.*	
	16.		Documents for the procurement of API with approval from DRAP for both the drug substances shall be submitted. Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	Firm has submitted copy of commercial invoice No. M/21-22/132 dated 03-03-2021 wherein M/s Biogen Life Sciences have imported 0.020kg of betamethasone dipropionate with batch No. 2005207 FB, mfg. date 12-2020. *However, in the submitted document invoice date, Consignee/buyer name, Batch number manufacturing date etc. all are over written and changed from original ones. Furthermore, DRAP attested clearance is not provided for the same.* Copy of commercial invoice No. 21584234 dated 12-24-2021 mentioning 0.5kg quantity of gentamicin Sulfate, batch No. SC-GM-20200202, mfg. date 02-08-2020 is submitted. *Similar to the above mentioned document, this document is also over written and no clearance certificate from DRAP is submitted.* *Not submitted.* *Submitted.*	
	17.	3.2.R	Blank master production document /batch manufacturing record to be used during the commercial manufacturing of the applied product along with copies of executed BMRs shall be submitted.	Submitted.	

Decision of 326 meeting of Registration Board: Deferred for following;

Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences.

Valid copy of GMP certificate of both the Drug Substance manufacturer shall be submitted.

Justification for the batch analysis of the drug substance i.e. betamethasone shall be submitted as drug substance manufacturer has assay test on UV while official monograph has mentioned HPLC.

Justification shall be submitted regarding the batch number and manufacturing date of the COA submitted initially and COA submitted in replies as both are different from each other.

Details and COA of the working standard i.e. Gentamicin sulfate drug substances shall be submitted.

Justification shall be submitted for difference in qualitative composition of the applied formulation from innovator product.

Pharmaceutical equivalence against the innovator product shall be submitted.

- Justification shall be submitted regarding the change in results of tests in stability data sheets that were initially submitted and that submitted in reply.
- Justification shall be submitted regarding the API lot number as the batch analysis has mentioned some other batch number while the newly submitted stability data sheets have some other lot number.
- Justify the wave length applied in the submitted chromatograms with respect to the analytical procedures. Analytical procedures have mentioned 254nm while submitted chromatograms reflects 240nm.
- Documents for the procurement of API with approval from DRAP for betamethasone dipropionate drug substances shall be submitted.
- Documents for the procurement of API with approval from DRAP for gentamicin Sulfate drug substances shall be submitted.

Reply Submitted by the Firm

Sr. No.	Reason for deferment	Reply submitted by the firm
1.	Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences.	***Not submitted.***
2.	Valid copy of GMP certificate of both the Drug Substance manufacturer shall be submitted.	Firm has submitted copy of License No. Chuan 20160171 valid till 25-10-2025 for M/s Sichuan Long March Pharmaceutical Co., Ltd., No. 448 Changqing Road, Central city district, Leshan Sichuan, Province, People's Republic of China. *However, no GMP certificate is provided for the other drug substance i.e Mahima Life Sciences Pvt. Ltd., BST Road, Ganaur District Sonepat, Haryana, India.*
3.	Justification for the batch analysis of the drug substance i.e. betamethasone shall be submitted as drug substance manufacturer has assay test on UV while official monograph has mentioned HPLC.	Firm has submitted that the raw material manufacturer has tested the raw material as per USP monograph.HPLC method given by USP 32 was employed for testing of the material. Firm has also submitted the SAPfor testing of the drug substance.
4.	Justification shall be submitted regarding the batch number and manufacturing date of the COA submitted initially and COA submitted in replies as both are different from each other.	***Not submitted.***
5.	Details and COA of the working standard i.e. Gentamicin sulfate drug substances shall be submitted.	Submitted.
6.	Justification shall be submitted for difference in qualitative composition of the applied formulation from innovator product.	Firm has submitted that most of the excipients used in the formulation are same as that of used by the innovator. Only few excipients are different from the innovator. However, the stability studies at accelerated as well as the real time condition of humidity and temperature depicts that both APIs are compatible with used excipients and the product is found physically and chemically stable.
7.	Pharmaceutical equivalence against the innovator product shall be submitted.	Firm has submitted that due to unavailability of innovator's product pharmaceutical equivalence was established against the DRAP approved competitor product. They further submitted pharmaceutical equivalence against Provate G cream, Batch No. 968, mfg. date 08-2023 manufactured by M/s Saffron pharmaceuticals.
8.	Justification shall be submitted regarding the change in results of tests in stability data sheets that were initially submitted and that submitted in reply.	Firm has submitted that during submission of reply to shortcoming letter, some chromatograms were misplaced from their proper position and mixed up, that's why the results were changed because of incorrect placement of relevant chromatograms with respect to their proper place.
9.	Justification shall be submitted regarding the API lot number as the batch analysis has mentioned some other batch number while the newly submitted stability data sheets have some other lot number.	Firm has submitted that it was a typographic mistake. The correct batch number and other information regarding the API are given in the COA of individual API and also submitted in 3.2.S.4 part of CTD.
10.	Justify the wave length applied in the submitted chromatograms with respect to the analytical procedures. Analytical procedures have mentioned	Firm has submitted that the wavelength at which the testing was performed is 240nm. The same wavelength is depicted in each and every chromatogram. However,

	254nm while submitted chromatograms reflects 240nm.	in standard analytical procedure of the drug product a typographic mistake occur i.e. instead of 240nm 245 was written. They further submitted corrected SAP.
11.	Documents for the procurement of API with approval from DRAP for betamethasone dipropionate drug substances shall be submitted.	***Not submitted.***
12.	Documents for the procurement of API with approval from DRAP for gentamicin Sulfate drug substances shall be submitted.	***Not submitted.***

Decision of 331st meeting: Deferred for following;

Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences.

Drug substance COA of relevant batches used for the manufacturing of trial batches, shall be submitted.

Documents for the procurement of API with approval from DRAP for Betamethasone dipropionate drug substances shall be submitted.

Documents for the procurement of API with approval from DRAP for Gentamicin sulfate drug substances shall be submitted.

Firm's response: Firm has submitted stability studies data of newly formulated trial batches as per following details:

Manufacturer of API	**Betamethasone dipropionate;** M/s Envee Drugs Pvt. Ltd.,Gujarat, India. **Gentamicin Sulfate:** M/s Fuan Pharmaceutical Group Yantai Justware Pharmaceutical, Shandong Province China
API Lot No.	**Betamethasone dipropionate;** EV/BD-231/20 **Gentamicin Sulfate:** 211011009
Documents for the procurement of API with approval from DRAP (in case of import).	**Betamethasone dipropionate:** Firm has submitted copy of license to import Betamethasone dipropionate (3Kg) issued by AD I&E Islamabad dated 11-12-2020. **Gentamicin Sulfate:** Firm has submitted copy of Loan letter from M/s Fynk Pharma in name of M/s Biogen Lifesciences for Gemtamicin sulfate along with clearance certificate issued in name of M.s Fynk Pharma for 32.46Kg of Gentamicin sulphate by AD I&E Lahore dated 05-07-2022.

However fee for submission of new stability studies dtata has not been submitted.

Decision: Approved. The firm shall submit fee of Rs. 30,000/- for correction/pre-approval change in stability studies data as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submittedin the registration application.

Case no. 02 Registration applications for local manufacturing of (Human) drugs of New DML

107.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Pasteur & Fleming Pharmaceuticals Plot # 70A , Phase -3, Road No-04, Industrial Estate Hattar, K.P.K. Pakistan**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP (Certificate No. 6109668) valid up to 02-11-2023 issued by Food and Drugs Administration Maharashtra- India.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted Loan letter form M.s Seraph pharma along with clearance certificate no. E-4204986527461 issued in name of M/s Seraph pharma by AD I&E Islamabad, for 50Kg of Pregabalin.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section no.	Observation	Firm's response
1.6.5	Valid DML/GMP certificate of drug substance manufacturer shall be submitted.	Submitted
2.3.R.1.1	Complete batch manufacturing record of drug product stability batches shall be submitted	Submitted
3.2.P.5.1	Firm shall submit fee of Rs. 7,500/- for pre-approval change/correction in drug product specifications, since Pharmacopoeial monograph is available while firm has applied innovator's specifications.	Submitted vide deposit slip# 090218981.

Decision: Approved with BP specifications

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

3.2.S.3.1	Copies of the IR spectrum of drug substance, performed by M/s AGM pharmaceuticals shall be submitted.	
3.2.S.4.2	Analytical procedure from drug substance ,manufacturer shall be submitted.	
3.2.S.4.3	Clarification shall be submitted regarding the"placebo solution" used in the performance of specificity parameter in analytical method verification studies of drug substance. Submitted analytical method verification studies declare the concentration of Ciprofloxacin in performance of accuracy parameter. Justification shall be submitted in this regard.	
3.2.S.4.4	Submitted COA of drug substance from M/s AGM Pharmaceuticals is not signed.	
3.2.S.5	Submitted COA of working standard is not fromthe same drug substance manufacturer.Justification shall be submitted in this regard. Submitted CA of working standard does not declare the Assay value.	
3.2.S.7.3	Submitted stability reports shall be signed and stamped form drug substance manufacturer.	
3.2.P.2.2.1	Justification shall be submitted for not performing CDP and Pharmaceutical Equivalence studies against the innovator drug product. Summited results of CDP shall be justified against the solubility profile of Levofloxacin across the physiological pH range along with literary reference.	
3.2.P.3.5	Limits of dissolution test presented in process validation protocol are different form that recommended by USP monograph.	
3.2.P.5.4	Submitted COAs of drug product trial batches from M/s AGM Pharmaceuticals are not signed.	

	• Documents confirming import of drug substancewith approval of DRAP I&E office shall be submitted. Run time of submitted chromatograms for Assay analysis shall be justified against the recommendations of USP monograph. Raw data sheet for dissolution test performed during stability studies, shall be submitted. Complete batch ,manufacturing record for stability batches shall be submitted.	
Decision: Registration Board deferred the applications of AG-FLOX 500mg Tablet & AG-FLOX 250mg Tablet for submission of reply to above cited shortcomings.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	--
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of import invoice having batch number DC-004-2009013 and Invoice number LEV201103-L specifying 200Kg of Levofloxacin Hemihydrate attested by AD I&E DRAP dated 25-11-2020 in name of M/s Fahmir Pharma. Firm has also submitted loan letter from M/s Batala Pharma for 5 Kg of Levofloxacin.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing. Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets is submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section no.	Observations	Firm's response
1.6.5	Submit valid DML/GMP certificate issued by the relevant regulatory authority of country of origin.	
•	Reference shall be submitted for the limits for testof optical rotation. Justification shall be submitted for not includingtest of Ethanol in drug substance specifications by M.s AGM Pharmaceuticals.	
•	Clarification shall be submitted regarding the "placebo solution" used in the performance of specificity parameter in analytical method verification studies of drug substance. Submitted COA of drug substance from M/s AGM Pharmaceuticals is not signed.	
•	Submitted COA of working standard is not from the same drug substance manufacturer. Justification shall be submitted in this regard. Submitted CA of working standard does not declare the Assay value.	
•	Justify the limits of dissolution test applied in Pharmaceutical Equivalence studies. Summited results of CDP shall be justified against the solubility profile of Levofloxacin	

	across the physiological pH range along with literary reference. • Limits of Assay test presented in process validation protocol are different form that recommended by USP monograph. Submitted process validation protocol does not include Dissolution test at any stage of sampling. • Limits of dissolution test shall be justified against the USP monograph of Doxycycline hyclate capsule. UV spectrophotometric parameter applied for dissolution test shall be justified against the USP monograph of Doxycycline hyclate capsule. Dissolution parameters applied for dissolution test shall be justified against the USP monographof Doxycycline hyclate capsule. Submitted analytical procedure for Assay testshall be justified against the USP monograph of Doxycycline hyclate capsule. • Analytical method verification studies for Assay test shall be submitted as per USP monograph ofDoxycycline hyclate capsule. • Run time of submitted chromatograms for Assayanalysis shall be justified against the recommendations of USP monograph. Raw data sheet for dissolution test performed during stability studies, shall be submitted. Complete batch ,manufacturing record for stability batches shall be submitted.	
Decision: Deferred for submission of reply to above cited shortcomings.

Certificate of analysis of API.	The firm has submitted copy of certificate of analysis of pellets (Batch # PDL/DEF-1-060419B) as well asworking standard (Batch# WS/DEX/19/03) from pellet manufacturer.
Approval of API by regulatory authority of country of origin or GMP certificate of API manufacturer issued by regulatory authority of country of origin.	The firm has submitted copy of GMP Certificate for M/s Murli Krishna Pharma Pvt Ltd, India issued by Food and Drugs Administration, Maharashtra state, India. It is valid till 07-03-2020.
Protocols followed for conduction of stability study and details of tests.	Yes
Data of 03 batches will be supported by attested	Yes

respective documents like chromatograms, laboratory reports, data sheets etc.	
Documents confirming import of API etc.	The firm has submitted copy of invoice for the purchase of Dexlansoprazole pellets (batch # PDL/DEF-1-060419B, 2.5Kg), attested by Assistant Director (I & E) DRAP, Karachi dated 21-06-2019 has been submitted.
All provided documents will be attested (name, sign and stamp) for ensuring authenticity of data / documents.	Yes
Commitment to continue real time stability study till assigned shelf life of the product.	Yes
Commitment to follow Drug Specification Rules, 1978.	Yes

REMARKS OF EVALUATOR

The firm has submitted 06 months Accelerated and 06 months Real Time Stability Data for 03 Batches.

Sr. No.	Observations	Response of the firm
	The submitted copy of GMP certificate of M/s Murli Krishna Pharma Pvt Ltd, India is expired, you are required to submit updated copy of GMP issued by Food and Drugs Administration, Maharashtra state, India. It is valid till 03-04-2022.	The firm has submitted copy of GMP Certificate API certificate.
	Certificate of analysis of pellets from drug product manufacturer is required.	The firm submitted its certificate of analysis of Dexlansoprazole DDR pellets 23% and from drug substance manufacturer.
	Submit methods used for analysis of pellets from drug product manufacturer.	The firm has submitted its methods used for analysis of Dexlansoprazole pellets 23% w/w and from drug substance manufacturer.
	Drug product specification(s) including acceptance criteria and reference to specifications including tests and acceptance analytical procedure should be provided. criteria.	The firm has provided copy of drug product tests,
	Justify the dissolution limits of pellets The firm has submitted that 75% is the Q value wherein the value of Q has been set below and accordingly finished product specifications 75% after 120 min which is not are revised and Q value also specified in the recommended in any pharmacopoeia or finished product specification. guidance document of any reference regulatory authority.	

INSPECTION REPORT OF M/s PHARMASOL (PVT.) LTD, LAHORE

General Information

Name of Manufacturer	M/s Pharmasol (Pvt.) Ltd.
Physical Address	Plot No. 549, Sundar Industrial Estate, Raiwind Road, Lahore
DML No.	DML by way of formulation. No. 000872
Date of Inspection	04-09-2023
Purpose of Inspection	Panel inspection for verification of authenticity of stability data for purpose of registration of drugs with reference to DRAP Islamabad letter No. F.15-1/2022-PEC dated 2nd August, 2023
Name of Inspectors	Mr Muhammad Tariq, Director DTL, Lahore Ms Uzma Barkat, Deputy Director, DRAP, Islamabad
Name of firm representatives accompanying during inspection	Ms Tallat , R&D Manager Ms Saira Afzal, Regulatory Affairs Manager Mr Muhammad Naeem, R&D Analyst Mr Muhammad Shoaib, Deputy Manager, Quality Control Mr Kamal Subhani, Manager, Quality Control

Focus of Inspection

The inspection of M/s Pharmasol (Pvt.) Ltd., Lahore was conducted with reference to DRAP Islamabad letter No. F.15-1/2022-PEC dated 2nd August, 2023, for verification of authenticity of stability data of products namely Dexprazol Capsule 30mg, Dexprazol Capsule 30mg and Cinacalsol Tablet 30mg. The panel evaluated the relevant documentation and also visited the R&D facility and quality control laboratory of the company. The data of all three products was evaluated in accordance with the questionnaire provided as given below.

Details of Investigation

Product Name / Composition

Dexprazol Capsule 30mg

Each capsule contains:
Dexlansoprazole dual delayed release pellets.....30mg

Dexprazol Capsule 60mg

Each capsule contains:
Dexlansoprazole dual delayed release pellets.....60mg

S. No	Question	Observation by Panel
Q.No.1	Do you have documents confirming the import of API including approval from DRAP?	The firm had approval letter of DRAP (Ref. No. 15954/2018/DRAP-AD-III (I & E)) for import of API from M/s Murli Krishna, India. Relevant import documents like commercial invoice No. MKPPL/004/19-20, Forms 7, Form 3, goods

			declaration, COAs, airway bill and customs clearance documents were available.	
	Q.No.2	What was the rationale behind selecting the particular manufacturer of API?	The firm has selected the API source as per their defined procedure for vendor qualification and evaluation "SOP # PPL/QC/SOP/037". The firm has developed a vendor evaluationform "FQC.043-00" but the evaluation data checklist was filled by the vendor only and no further assessment/evaluation was done by the firm. The firm was advised to do the final evaluation themselves after the principal/vendor provides the filled checklist.	
	Q.No.3	Do you have documents confirming the import of reference standard and impurity standards?	The firm had imported the working standard and impurity standards. Working standard was imported in the consignment having Dexlansoprazole dual delayed release pellets. Import documents were available.	
	Q.No.4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	Yes, the COAs of pellets and working standards were available. COA of pellets Batch No. PDL/DEF-1-060419B, working standard Batch No. WS/DEX/19/03, impurity 6 standard Batch No. VSLS/OS/DEX-071/23/093 and impurity 9 standard Batch No. VSLS/OS/DEX-074/23/094 was available.	
	Q.No.5	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Yes, GMP certificate of the principal manufacturer was available.	
	Q.No.6	Did you use API manufacturer method of testing for testing API?	Yes, the firm used principal manufacturer's method of analysis for testing of pellets. The firm documented the method on internal SOP PPL/QC/B2/RMA/037 as well.	
	Q.No.7	Do you have stability studies reports on API?	The firm had the stability study data and reports as provided by the principal manufacturer The Stability study data of Batch Nos. PSL/DEF/1-180914, PDL/DEF-1-100117, PSL/DEF-1-100119 was checked.	
	Q.No.8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	Yes. The stability study of pellets had been performed by the principal manufacturer as per validated method and quantification of degradation product had been performed.	
	Q.No.9	Do you have method for quantifying the impurities in the API?	The firm was using principal manufacturer's validated method No. "MKPPL/RM/SPC/DXL/066" for testing of pellets. Impurity testing method of analysis was also given. But impurity testing had not been performed by the firm during method validation and initial testing of pellets. The firm informed later that Dexlansoprazole impurities 6 and 9 were not available with the principal at the time of import of pellets.	
	Q.No.10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm had some quantity of API pellets and impurity standards as informed by the R&D team.	

	Q.No.11	Have you used pharmaceutical grade excipients?	The pellets were directly filled in hard gelatin capsules. The firm used VCAPS Plus white capsules Size 2 (for Dexprazol Capsule 60mg) and Size 3 (for Dexprazol Capsule 30mg) from Capsugel, Thailand (A Lonza Company). COA of used capsules shells was available.	
	Q.No.12	Do you have documents confirming the import of the used excipients?	The firm has imported VCAPS Plus capsule shells Size 2 (for Dexprazol Capsule 60mg) and Size 3 (for Dexprazol Capsule 30mg) from Capsugel, Thailand (A Lonza Company), through DHL. Copy of proforma invoice dated 25-09-2019 was available.	
	Q.No.13	Do you have test reports and other records on the excipients used?	COA of VCAPS Plus capsule shells Size 2 (for Dexprazol Capsule 60mg) and Size 3 (for Dexprazol Capsule 30mg) used in the trial batches was available. The firm also tested the capsules and COA of Batch No. 35009401, having QC No. RE10-19-295-A Size 3 (for Dexprazol Capsule 30mg) and COA of Batch No. 35268271, having QC No. RE10-19-292-A Size 2 (for Dexprazol Capsule 60mg) was available.	
	Q.No.14	Do you have written and authorized protocols for the development of applied product?	Yes, written and authorized protocol for product development was available. The record PPL/RD/PD/004 (Dexprazol Capsule 30mg) and PPL/RD/PD/003 (for Dexprazol Capsule 60mg) was available.	
	Q.No.15	Have you performed Drug-excipients compatibility studies?	In case of Dexlansoprazole capsules, the hard gelatin capsule shells were considered as excipient. The drug-excipient compatibility study had been performed on the basis of physical appearance only.	
	Q.No.16	Have you performed comparative dissolution studies?	The firm had performed comparative dissolution study against Dexilant 30 mg Delayed release capsules Batch No. 507726 for Dexprazol Capsule 30mg capsules and Dexilant 60mg capsules Batch No. 504739 for Dexprazol Capsule 60mg. The comparative study had been performed in 0.1N HCl, pH 5.5 buffer and pH 7.0 buffer.	
	Q.No.17	Do you have product development (R&D) section?	The firm had established R&D department for product development purpose.	
	Q.No.18	Do you have necessary equipment's available in product development section for development of applied product?	The firm had availability of required equipment in product development section, however some equipment of Production section was utilized for product development purpose.	
	Q.No.19	Are the equipment's in product development section qualified?	Two equipment from Capsule Section of General production area i.e., Capsule Filling semi-automatic machine and blistering machine were used for product development process were qualified in the year 2020 and not at the time of product development. The qualification reports of capsule filling semi-automatic machine "PPL/QA/PQ/GEN/014R dated 21-02-2020" and Blister packing Machine	

<table>
<tr><td></td><td></td><td></td><td>“PPL/QA/PQ/GEN/012R dated 15-06-2020” were available.</td><td></td></tr>
<tr><td></td><td>Q.No.20</td><td>Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?</td><td>The Firm has defined a procedure for proper maintenance and calibration of equipment used in PD section. The Firm also defined a maintenance plan “PPL/FNG/SOP/09” onyearly basis. The maintenance plan was available, but the calibration/ requalification
plan was not available. Calibration certificates were available.</td><td></td></tr>
<tr><td></td><td>Q.No.21</td><td>Do you have qualified staff in product development section with proper knowledge and training in product development?</td><td>Currently there was total staff of 07 persons working in R & D department. 05 are technical personnel and 02 are supportive staff. The staff was trained on the activities being performed in R&D department. Training record of R&D officer Mohsin Raza was checked and found satisfactory.</td><td></td></tr>
<tr><td></td><td>Q.No.22</td><td>Have you manufactured three stability batches for the stability studies of applied product as required?</td><td>The firm had manufactured three trial batches for the stability studies of Dexprazol Capsule 30mg and Dexprazol Capsule 60mg</td><td></td></tr>
<tr><td></td><td>Q.No.23</td><td>Do you have any criteria for fixing the batch size of stability batches?</td><td>The firm had manufactured 3 trial batches having batch size of 2000 capsules. The firm calculated the batch size by considering the quantity required for in-process testing, finished product testing, and stability study testing. .</td><td></td></tr>
<tr><td></td><td>Q.No.24</td><td>Do you have complete record of production of stability batches?</td><td>The firm had record of production of three stability batches.
<table>

<tr><td></td><td>Q.No.25</td><td>Do you have protocols for stability testing of stability batches?</td><td>Lab defined protocol Nos. PPL/RD/ST/004 dated 20-10-2019 (for Dexprazol Capsule 30mg) and PPL/RD/ST/003 (Dexprazol Capsule 60mg) for stability testing were available.</td><td></td></tr>
<tr><td></td><td>Q.No.26</td><td>Do you have developed and validated the method for testing of stability batches?</td><td>The firm has validated the assay method of analysis as per defined. Validation protocol No. DEX-MV-20-002, dated 24-07-2020 and report No. DEX-MVR-20-002 date 03-08-2020 record was verified.
Obs. However, the impurity testing was not performed during method validation and initial stability study of the stability batches. The firm informed later that Dexlansoprazole impurities 6 and 9 were not available with the principal at the time of import of pellets.</td><td></td></tr>
</table>

	Q.No.27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	The firm used method of analysis provided by the principal manufacturer of pellets. The firm had method validation study provided by the principal manufacturer. The firm had validated the method "DEX-MV-20-001" as per internal defined procedure. Method transfer protocol was not available.	
	Q.No.28	Do you have documents confirming the qualification of equipment's / instruments being used in the test and analysis of API and the finished drug?	Qualification documents for the equipment used for testing of pellets and finished product were available. All equipment was calibrated from the ISO 17025 accredited laboratory. However, the qualification of Dissolution apparatus had not been performed as per USP protocol (i.e., using Prednisone tablets) and the firm was advised to perform the same. The management informed that the process for procurement of standard tablets had been initiated. The firm later on, on 12-10-2023 submitted through email, the qualification protocol and report of the dissolution apparatus in the R&D department.	
	Q.No.29	Is your method of analysis stability indicating?	The firm had validated the method of analysis as per defined procedure for testing of stability batches. Validation record was available. However, impurity testing and forced degradation studies had not been done by the firm. The same was performed by the principal manufacturer of pellets.	
	Q.No.30	Is your HPLC software is 21CFR compliant?	The laboratory had HPLC systems of Waters company (E2695). Empower software was used for operating the system. The software is in compliance with 21 CFR Part 11. 21CFR compliance checklist from Kamstec (Waters HPLC Service Provider) was available. They had defined user login ids for all users and audit trail was active. List is attached.	
	Q.No.31	Can you show Audit Trail reports on stability studies testing?	The stability testing of stability study batches had been performed on Waters HPLC system. Audit trail is available and was verified for random stability time points in the system.	
	Q.No.32	Do you have some remaining quantities of degradation products and stability batches?	The firm had completed 24 months stability study. Some of each batch manufactured for stability study were available that expired in 2021. The impurity standards of degradation products were also available but were expired.	
	Q.No.33	Do you have stability batches kept on stability testing?	No, 24 months stability study had been completed in November, 2021.	
	Q.No.34	Do you have valid calibration status for the equipment's used in production and analysis?	Yes. Equipment were calibrated and calibration certificates were available.	
	Q.No.35	Is proper and continuous monitoring and control are available for stability chamber?	Two stability chambers with data loggers connected with computer systems were provided in R&D laboratory. UPS was installed for uninterrupted power supply. It was advised to get the alarm system checked to get it effectively functional.	

		Complete list of stability chambers with capacity details as provided by the firm is **attached**.
Q.No.36	Can related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Valid GMP certificate No. 140/2022-DRAP (AD-084433115014) dated 26-8-2022 issued by DRAP was available.

Product Name / Composition

3. Cinacalsol Tablet 30mg

Each film coated tablet contains:
Cinacalcet (as hydrochloride)…..... 30mg

S. No	Question	Observation by Panel
Q.No.1	Do you have documents confirming the import of API including approval from DRAP?	The firm imported Cinacalcet HCl from Fuan Pharmaceutical Group Chongqing Bosen Pharmaceutical, China and had permission letter from DRAP for import of raw material for stability studies Reference No. 15954/2015/DRAP AD-III (I&E) dated 10-12-2018 and invoice clearance No. 6330/2019-DRAP dated 06-05-2019. Other import documents were also available.
Q.No.2	What was the rationale behind selecting the particular manufacturer of API?	The firm selected the API manufacturer based on the GMP status of the principal and evaluation as per the firm's SOP for Vendor Qualification. Moreover, the firm was purchasing other APIs from the same principal.
Q.No.3	Do you have documents confirming the import of reference standard and impurity standards?	The firm informed that the working standard was received from the principal along with the consignment of the API. Import documents were not available. The firm also informed that impurity standards were not imported.
Q.No.4	Do you have certificate of Analysis of the API, reference standards and impurity standards?	COAs of the API Cinacalcet HCl and working standard were available.
Q.No.5	Do you have GMP certificate of API manufacturer issued by regulatory authority of country of origin?	Yes, GMP certificate of API manufacturer was available.
Q.No.6	Did you use API manufacturer method of testing for testing API?	The firm used API manufacturer's method of testing.
Q.No.7	Do you have stability studies reports on API?	The firm had stability studies reports of API as provided by raw material manufacturer.
Q.No.8	If yes, whether the stability testing has been performed as per SIM method and degradation products have been quantified?	The API manufacturer had performed stability as per SIM method. Method validation study report was also available.

	Q.No.9	Do you have method for quantifying the impurities in the API?	The firm had testing method to quantify the impurities and related substances as provided by API manufacturer. However, Related substances and Isomer testing had not been done by the firm.	
	Q.No.10	Do you have some remaining quantities of the API, its reference standard and impurities standards?	The firm had some remaining quantity of the API.	
	Q.No.11	Have you used pharmaceutical grade excipients?	The firm had used pharmaceutical grade excipients.	
	Q.No.12	Do you have documents confirming the import of the used excipients?	The firm had used both locally purchased excipients. None of them were locally manufactured as per the available documents.	
	Q.No.13	Do you have test reports and other records on the excipients used?	The firm had certificates of analysis of the excipients used.	
	Q.No.14	Do you have written and authorized protocols for the development of applied product?	The firm had written and authorized protocol No. PPL/RD/PD/001 dated 25-7-2019 for the development Cinacalsol Tablet 30mg. Documents were verified	
	Q.No.15	Have you performed Drug-excipients compatibility studies?	The firm informed that Drug-excipient compatibility studies were not performed as the excipients were qualitatively same as mentioned in the Reference Listed Drug MIMPARA 30 (approved in MHRA). Document of Standard Product Characteristics of innovator was available.	
	Q.No.16	Have you performed comparative dissolution studies?	The firm had performed comparative dissolution studies for Cinacalsol Tablet 30mg (Batch No.: AJ001) against Mimpara 30mg tablets (Batch No: B1066858) in pH 1.2 dissolution media, pH 4.5 buffer and pH 6.8 buffer.	
	Q.No.17	Do you have product development (R&D) section?	The firm had product development (R&D) section.	
	Q.No.18	Do you have necessary equipments available in product development section for development of applied product?	Product development section had necessary equipment to develop Cinacalsol Tablet 30mg. However, the firm's team informed that the machinery in the general production section was utilized for compression, coating and blistering of these trial batches in 2019. This production section machinery was not qualified in 2019. Equipment qualification was done in 2020.	
	Q.No.19	Are the equipments in product development section qualified?	Yes, the equipment in product development section were qualified. However, the firm's team informed that the machinery in the general production section was utilized for compression, coating and blistering of these trial batches in 2019. This production section machinery was not	

			qualified in 2019. Equipment qualification was done in 2020.
	Q.No.20	Do you have proper maintenance / calibration / re-qualification program for the equipment used in PD section?	The Firm has defined a procedure for proper maintenance and calibration of equipment used in PD section. The Firm also defined a maintenance plan "PPL/FNG/SOP/09" on yearly basis. The maintenance plan was available, but the calibration/ requalification plan was not available. Calibration certificates were available.
	Q.No.21	Do you have qualified staff in product development section with proper knowledge and training in product development?	Currently there was total staff of 07 persons working in R & D department. 05 were technical personnel and 02 were supportive staff. Training record of the R&D team for product development and analytical development was available. The staff was trained on the activities being performed in R&D department. Training record of R&D officer Mohsin Raza was checked and found satisfactory.
	Q.No.22	Have you manufactured three stability batches for the stability studies of applied product as required?	The firm had manufactured three trial batches for the stability studies of Cinacalsol Tablet 30mg.
	Q.No.23	Do you have any criteria for fixing the batch size of stability batches?	The criteria for fixing the batch size was based on DRAP's guidelines for submission of scientifically rational lab scale data and number of samples required to conduct stability study.
	Q.No.24	Do you have complete record of production of stability batches?	The firm had record of production of three stability batches. **Batch No.** / **Mfg. Date** / **Exp. Date** AJ001 / 07-2019 / 06-2021 AJ002 / 07-2019 / 06-2021 AJ003 / 07-2019 / 06-2021
	Q.No.25	Do you have protocols for stability testing of stability batches?	Yes, stability study protocol No. PPL/RD/ST/001 dated 27-07-2019 was available.
	Q.No.26	Do you have developed and validated the method for testing of stability batches?	Finished product testing method No. PPL/RD/PTM/001 Issue date: 25-7-2019 was available and assay method validation had been done. The firm was advised to perform impurity, related substances and isomer testing also.
	Q.No.27	Do you have method transfer studies in case when the method of testing being used by your firm is given by any other lab?	Testing method was developed in-house as informed by the firm.
	Q.No.28	Do you have documents confirming the qualification of equipments / instruments being used in the test and analysis of API and the finished drug?	Yes, qualification documents were available. However, the qualification of Dissolution apparatus had not been performed as per USP protocol (i.e., using Prednisone tablets) and the firm was advised to perform the same. The management informed that the process for procurement of standard tablets had

		been initiated. The firm later on, on 12-10-2023 submitted through email, the qualification protocol and report of the dissolution apparatus in the R&D department.
Q.No.29	Is your method of analysis stability indicating?	No. It was advised to perform forced degradation studies and perform impurity, related substances and isomer testing also
Q.No.30	Is your HPLC software is 21CFR compliant?	(Details of Model, software, description/version (i.e. software validation report for 21 CFR Part 11 compliance including audit trail, password protection, date & time lock and user authorizations shall also be reported.)) The laboratory had HPLC systems of Waters company (E2695). Empower software was used for operating the system. The software is in compliance with 21 CFR Part 11. 21CFR compliance checklist from Kamstec (Waters HPLC Service Provider) was available. They had defined user login ids for all users and audit trail was active. List of HPLCs is attached.
Q.No.31	Can you show Audit Trail reports on stability studies testing?	Audit trail reports were available. The stability testing of stability study batches had been performed on Waters HPLC system. Audit trail was available and was verified for random stability time points in the system
Q.No.32	Do you have some remaining quantities of degradation products and stability batches?	Stability studies of the three batches were completed in July 2021. Some packs of stability batches were available in the R&D department.
Q.No.33	Do you have stability batches kept on stability testing?	No, the stability studies for 24 months were completed for the three trial batches in July, 2021.
Q.No.34	Do you have valid calibration status for the equipments used in production and analysis?	Yes. Equipment were calibrated and calibration certificates were available.
Q.No.35	Is proper and continuous monitoring and control are available for stability chamber?	(Number and utilized/available capacity of stability chambers shall also be reported.) Two stability chambers with data loggers connected with computer systems were provided in R&D laboratory. UPS was installed for uninterrupted power supply. It was advised to get the alarm system checked to get it effectively functional. Complete list of stability chambers with capacity details as provided by the firm is **attached**.
Q.No.36	Can related manufacturing area, equipment, personnel and utilities be rated as GMP compliant?	Valid GMP certificate No. 140/2022-DRAP (AD-084433115014) dated 26-8-2022 issued by DRAP was available.

CONCLUSION

Based on the documents reviewed, areas inspected and technical personnel met, and considering the findings of the inspection, the panel is of the view that stability studies were conducted by the firm M/s Pharmasol (Pvt.) Ltd., Lahore, and relevant data of the products Dexprazol Capsule 30mg, Dexprazol Capsule 60mg and Cinacalsol Tablet 30mg provided by the firm was verified as elaborated in the report above. The performance of dissolution test of Dexlansoprazole pellets in media of pH 5.5 and pH 7.0 to check dual delayed release action of the pellets was also confirmed from the available record and log books. Furthermore, in response to the query of the inspection panel regarding impurity testing, the firm has submitted a letter through email to the panel members on 12-10-2023 and other response on 26-10-2023. The response stated that "…we will perform Cinacalcet Isomer Test in Cinacalcet API and finished product before commercialization of the product." And "…we will test the Dexlansoprazole imprutities in Dexlansoprazole pellet before commercialization of the product".
Decision: Registration Board approved the applications of Dexprazol Capsule 30mg, Dexprazol Capsule 60mg and Cinacalsol Tablet 30mg. **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.** **Manufacturer will perform test as per commitment.**

Case no. 05 Miscellaneous cases
Registrationof Glutathione Injection.

	Details of fee submitted	PKR 75,000/-:Slip # 944857553239 10-08-2021
	The proposed proprietary name / brand name	**TAD 600mg dry powder injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Glutathione as sodium …….600mg
	Pharmaceutical form of applied drug	White lyophilized powder packed in moulded clear type-3 vials along with 4ml solvent
	Pharmacotherapeutic Group of (API)	Antidote ATC Code: V03AB32
	Reference to Finished product specifications	European Pharmacopoeia
	Proposed Pack size	10 vials with 10 (4ml) solvent ampoules (WFI)
	Proposed unit price	As per pricing committee.
	The status in reference regulatory authorities	TAD **(AIFA** Approved) complies EU Pharmacopoeia.
	For generic drugs (me-too status)	N/A
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls,

		impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Biomedica Foscama Industria Chimico-Farmaceutica S.P.A (Italy)
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API for accelerated at 40^{o}C ±2^{o}C / 75% ± 5% RH for 6 months as well as Long term testing which is conducted at 25^{o}C ± 2^{o}C / 65% ± 5% RH. The stability study data is till 36 months at ≤ 25°C.
	Module-III Drug Product:	Firm has submitted data of drug product and solvent (WFI) separately, including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Not applicable being the innovator product
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	API: Type III glass vials with chlorobutyl stoppers Aluminium oversealed Solvent: Type-I glass ampoules
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40^{o}C ±2^{o}C / 75% ± 5% RH for 6 months. The Long-term stability study data is conducted at 25^{o}C ±2^{o}C / 65% ± 5% RH for 36 months. Now the firm has submitted 18 months long term stability studies data as per Zone IVb conditions, detailed as under:

Batch#	**Initial date**	**Duration**
201007	07-2020	18 months
201008	07-2020	18 months
201009	07-2020	18 months

		Firm has claimed 36 months shelf life on basis of above submitted data.
	Details of diluent:	**Composition:** Water for injection **Container closure:** 4ml Type I glass ampoule. **Manufacturer:** BIOMEDICA FOSCAMA Industria Chimico-Farmaceutica, S.p.A. Via Morolense n.87, 03013 Ferentino (FR) Italy. **Stability data:** Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The Long-term stability study data at 30°C ±2°C / 75% ± 5% RH has been submitted for 9 months only.

Evaluation by PEC[II]:
Clinical profile of the applied product is as under:

Therapeutic indications:
Prophylaxis of neuropathy following chemotherapy treatment with cisplatin or analogue.
Pharmacotherapy category:
Antidotes, ATC code: V03AB32
Dosage:
The generally recommended daily dose of TAD in patients receiving cisplatin or analogue chemotherapy is 1.5 g / m2 (corresponding to 2.5 g) administered slowly intravenously.
Contraindications:
Hypersensitivity to the active ingredient.
Pharmaceutical description:
The drug substance is lyophilised in bulk form and then the bulk lyophilised powder is filled in glass vials.

Section#	Observation	Firm's response
1.5.2	Strength per unit is mentioned as Glutathione powder 600mg instead of Glutathione sodium.	Firm has corrected label claim without submission of fee.
1.5.6	Pharmacopoeial reference for applied product is stated as European Pharmacopeia, whereas European monograph is not available for applied product.	Firm has submitted statement from M/s Biomedica Foscama that the TAD 600mg/4ml powder and solvent for infusion state that the product is contained in packaging in compliance with European Pharmacopoeia.

3.2.P.2.6	Compatibility studies shall be performed with the diluent specified in individual label of the drug product.	Firm has submitted stability study of 8hours after reconstitutiton at 25±2ºC.
Diluent		
3.2.P.3.1	Details of the manufacturer of diluent shall be submitted.	
3.2.P.8.3	Long term stability studies data of diluent shall be submitted as per Zone Iva conditions till claimed shelf life i.e., 60 months.	Firm has submitted long term stability studies data of three batches as per Zone IVa for 18 months.

Decision of 320th meeting: Deferred for regulatory status of applied formulation in other reference regulatory authorities alongwith its indications, precautions, contra indications etc.

Frim's response:

Attached summary of product characteristics (SmPC) authorized by AIFA (Italian medicine agency) and that you can find on the official website of AIFA

Link: farmaci.agenziafarmaco.gov.it/bancadatifarmaci/farmaco?farmaco=027154

Being sold in Europe upon physician's prescription as TAD is registered in AIFA

Attached relevant section of Official Gazette of the Italian Republic in which decrees and lawsare published which are effective from date of publication

Excerpt according to MHRA Section 9: Unlicensed medicines and sub section 9.3 "ExpandedAccess/ Compassionate Use/ Named patient supply programmes – Guidance notes"

Evidence of sales in Europe are attached (Delivery note and CMR – Transport documents)

Attached Periodic safety update reports (PSUR) submitted to AIFA, according to the EuropeanUnion Reference Dates (EURD) list published on European Medicine Agency (EMA) website

3- Registration letters of TAD in countries, Kyrgyztan, O'zbekiston, Georgia, Azerbaijan, Kazakhstan, Laos, Philippines, China & Kuwait.

Proceedings & Decision of 323rd meeting: The Board was appriosed that in 291st meeting application of M/s Friends Pharma, Lahore was approved on basis of international reference of AIFA of Italy. The application was submitted on Form 5D, whereas the firm didn't submit product development and stability studies data as required by the Board for such applications. Moreover, reference was also forwarded to the pricing division for MRP fixation. The Board deliberated the matter in detail and decided as follows:

To refer the case to "Society of Oncology, Pakistan" for expert opinon regarding therapeutic use andneed of applied formulation.

To advise M/s Friends Pharma, Lahore to submit the stability studies data as per checklist approvedby Board in its 293rd meeting and case will be considered by the Board after above opinion.

Evaluation by PEC: During subsequent tprocessinig of the cse it has been identified that more than one society of oncology are existing e.g *Society* of Medical *Oncology Pakistan* (SMOP), Pakistan Society of Clinical Oncology, Surgical Oncology Society Pakistan, etc. Case is submitted from which expert opinion to be taken regarding therapeutic use and need of applied formulation.

Decision: Deferred for further deliberation.

Following case was considered in 323rd meeting of Registration Board, wherein the decisioncould not be recorded. Case is presented for re-consideration of Board.

	Details of fee submitted	PKR 30,000/-: Dated 16-08-2023 Slip # 57348255
	The proposed proprietary name / brand name	Hidroxil dry suspension 125mg/5ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: *(after reconstitution)* Cefadroxil as monohydrate .....125 mg
	Pharmacotherapeutic Group of (API)	Cephalosporin Antibiotics
	Pharmaceutical form of applied drug	Powder for reconstitution for oral suspension
	Reference to Finished product specifications	USP Specifications
	Proposed Pack size	1 x 1's (60ml Amber PET bottle)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Biodroxil 125mg/5ml by Sandoz GMBH, Austria Listed in European Medicine Agency (EMA)
	For generic drugs (me-too status)	**Brand Name:** Duricef 125mg/5ml. **Manufacturer:** M/s GSK
	Name and address of API manufacturer.	Name: M/s Pharmagen Limited. Address: Kot Nabi Baksh Wala, 34-km Ferozpur Road, Lahore. GMP Validity: 17-11-2024
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications,

		analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability Data for 6 months. Temperature: 40°C ± 2°C Humidity: 75% ± 5% RH Real time stability data for 36 months. Temperature: 30°C ± 2°C Humidity: 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Reference product:** Duricef 125mg/5ml **Manufactured by:** GSK Pakistan **Testing Parameters:** USP Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Name: M/s Pharmagen Limited. Address: Kot Nabi Baksh Wala, 34-km Ferozpur Road, Lahore.		
API Lot No.	002240/22-12/010		
Description of Pack (Container closure system)	White to slightly yellow powder containing cefadroxil filled in amber glass bottle packed in a bleach board unit carton as (1 x1's).		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	Trial-01	Trial-02	Trial-03
Batch Size	1000 bottles	1000 bottles	1000 bottles
Manufacturing Date	06-02-2023	06-02-2023	06-02-2023
Date of Initiation	30-01-2023	30-01-2023	30-01-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not required

3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 10kg **DN #** 1618 **Dated:** 13-01-2023
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Remarks of Evaluator:

Section	Observations	Reply of the firm
3.2.P.5	Please provide the details along with documented evidence about the edition of USP pharmacopeia for analytical method of Cephradine capsule. How will you justify the analytical method of USP specifications for drug product while the monograph of Cephradine capsule has been removed from latest edition of USP pharmacopeia 2023?	We developed our formulation and make trial batches for Hidine 250 mg capsules in February 2023 and then there was available edition of Pharmacopeia was USP 2021 and analytical method of Cephradine is available in USP 2021 which is attached.

Proceedings of the case:

The Board discussed in detail about the status of drug products (FPP) with cephradine as active ingredient and applied with USP specifications available in USP21 edition or previous versions and meanwhile removal of monograph in latest edition of USP Pharmacopeia. The marketing status / prescription medicine status of drug products containing cephradine in USFDA has been discontinued *(without any safety & efficacy issues)* and this is the reason of removal of monograph from USP Pharmacopeia both for API & FPP because a USP monograph is a written document that details the quality standards needed by the USFDA.

The inaccessibility of reference standard of API cephradine USP due to removal of monograph of API from USP Pharmacopeia was also considered for the FPP adopting USP21. The Board was apprised by Observer from Pharma Bureau that USP will continue developing reference standards for API cephradine USP for the use of countries other than USFDA. The Board is also of point of view that firms can adopt API specifications from other official Pharmacopeia (BP/EP) in the light of the policy under USFDA's Document No. MAPP 5310.7 Rev. 1 effective from 13th October 2017 (https://www.fda.gov/media/72412/download) issued by Office of Pharmaceutical Quality (OPQ), which is a manual of policy and procedures regarding Acceptability of Standards from Alternative Compendia (BP/EP/JP), the policy has been explained as under.

> It is reasonable to accept an applicant's proposal to use a quality standard from theBP, EP, or JP as part of the specifications for an excipient, drug substance, or drug product in the drug application, if the standard in the BP, EP, or JP is equivalent to or better than the corresponding standard in the USP/NF. Equivalent standards have the same acceptance criteria and make use of analytical procedures based on similar principles (e.g., chromatographic, spectroscopic, titration) and performance characteristics (e.g., specificity, accuracy, precision).
>
> A standard can be considered better than a corresponding standard for a number of reasons, including narrower ranges for acceptance criteria or superior performance of the analytical procedure (e.g., improved specificity, greater accuracy).

	Although specifications (i.e., test, analytical procedure, and acceptance criteria) inthe General Chapters of the USP/NF are applicable only if there is a monograph in the USP/NF for the excipient, drug substance, or drug product being tested; these specifications may be accepted, if appropriate, in the absence of a monograph. In such cases, if the applicant proposes to use an analytical procedure from the BP, EP, or JP in lieu of the corresponding analytical procedure in the General Chapters of the USP/NF, the procedure is considered an alternative analytical procedure and may be used provided it is equivalent to or better than the corresponding analytical procedure in the USP/NF. In this circumstance, the acceptance criteria in the BP, EP, or JP monograph should be accepted only if deemed appropriate for the product under review. The Board considered the FPP with USP21*(latest and last)* testing specification that ensures that the substance is, indeed, the medicine that it claims to be.	
Decision: Approved with specifications as per USP 21st edition. **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.** **The applicant may apply as per the specification guidance document approved in 331st meeting of Registration Board.**

3.2.P.5	Please provide the details along with documented evidence about the edition of USP pharmacopeia for analytical method of Cephradine capsule. How will you justify the analytical method of USP specifications for drug product while the monograph of Cephradine capsule has been removed from latest edition of USP pharmacopeia 2023?	We developed our formulation and make trial batches for Hidine 250 mg capsules in February 2023 and then there was available edition of Pharmacopeia was USP 2021 and analytical method of Cephradine is available in USP 2021 which is attached.

Proceedings of the case:

The Board discussed in detail about the status of drug products (FPP) with cephradine as active ingredient and applied with USP specifications available in USP21 edition or previous versions and meanwhile removal of monograph in latest edition of USP Pharmacopeia. The marketing status /

prescription medicine status of drug products containing cephradine in USFDA has been discontinued *(without any safety & efficacy issues)* and this is the reason of removal of monograph from USP Pharmacopeia both for API & FPP because a USP monograph is a written document that details the quality standards needed by the USFDA.

The inaccessibility of reference standard of API cephradine USP due to removal of monograph of API from USP Pharmacopeia was also considered for the FPP adopting USP21. The Board was apprised by Observer from Pharma Bureau that USP will continue developing reference standards for API cephradine USP for the use of countries other than USFDA. The Board is also of point of view that firms can adopt API specifications from other official Pharmacopeia (BP/EP) in the light of the policy under USFDA's Document No. MAPP 5310.7 Rev. 1 effective from 13th October 2017 (https://www.fda.gov/media/72412/download) issued by Office of Pharmaceutical Quality (OPQ), which is a manual of policy and procedures regarding Acceptability of Standards from Alternative Compendia (BP/EP/JP), the policy has been explained as under.

It is reasonable to accept an applicant's proposal to use a quality standard from theBP, EP, or JP as part of the specifications for an excipient, drug substance, or drug product in the drug application, if the standard in the BP, EP, or JP is equivalent to or better than the corresponding standard in the USP/NF. Equivalent standards have the same acceptance criteria and make use of analytical procedures based on similar principles (e.g., chromatographic, spectroscopic, titration) andperformance characteristics (e.g., specificity, accuracy, precision).

A standard can be considered better than a corresponding standard for a number of reasons, including narrower ranges for acceptance criteria or superior performance of the analytical procedure (e.g., improved specificity, greater accuracy).

Although specifications (i.e., test, analytical procedure, and acceptance criteria) inthe General Chapters of the USP/NF are applicable only if there is a monograph in the USP/NF for the excipient, drug substance, or drug product being tested; these specifications may be accepted, if appropriate, in the absence of a monograph.

In such cases, if the applicant proposes to use an analytical procedure from the BP, EP, or JP in lieu of the corresponding analytical procedure in the General Chapters of the USP/NF, the procedure is considered an alternative analytical procedure and may be used provided it is equivalent to or better than the corresponding analytical procedure in the USP/NF. In this circumstance, the acceptance criteria in the BP, EP, or JP monograph should be accepted only if deemed appropriate for the product under review.

The Board considered the FPP with USP21*(latest and last)* testing specification that ensures that the substance is, indeed, the medicine that it claims to be.

Decision: Approved with Specifications as per USP 21st edition.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: *(Powder for injection)* Cefepime HCl equivalent to Cefepime .....500 mg
	Pharmacotherapeutic Group of (API)	Cephalosporin Antibiotics
	Pharmaceutical form of applied drug	Sterile powder for solution of Intravenous injection.
	Reference to Finished product specifications	USP Specifications

	Proposed Pack size	1 x 1's (10ml clear glass vial)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA approved formulation **Brand Name:** Maxipime 500 mg Injection **Manufacturer:** Hospira, Inc Lake Forest II, 60045, USA.
	For generic drugs (me-too status)	**Brand Name:** Cefstar 500 mg **Manufacturer:** M/s Barrett Hodgson
	Name and address of API manufacturer.	**Sterile mixture of Cefepime HCl & L-arginine** **Name:** M/s Kopran Research Laboratories. **Address:** K-4/4 Additional MIDC, Post Birwadi, TAL. MAHAD, Dist. Raigad, Raigad, 402302, Maharashtra, India. **GMP Validity: 19-10-2023**
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Accelerated stability Data for 6 months.** **Temperature: 40°C ± 2°C** **Humidity: 75% ± 5% RH** **Real time stability data for 36 months.** **Temperature: 25°C ± 2°C** **Humidity: 60% ± 5% RH**
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Reference product:** Cefstar injection 500mg **Manufactured by:** Barrett Hodgson Pakistan **Testing Parameters:** USP Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.
STABILITY STUDY DATA		

Manufacturer of API	**Sterile mixture of Cefepime HCl & L-arginine** **Name:** M/s Kopran Research Laboratories. **Address:** K-4/4 Additional MIDC, Post Birwadi, TAL. MAHAD, Dist. Raigad, Raigad, 402302, Maharashtra, India.		
API Lot No.	CEIV/B2205067		
Description of Pack (Container closure system)	White to pale yellow powder filled in 10 ml vial and packed in a bleach board unit carton as (1 x 1's)		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	Trial-01	Trial-02	Trial-03
Batch Size	1000 packs	1000 packs	1000 Packs
Manufacturing Date	22-02-2023	22-02-2023	22-02-2023
Date of Initiation	22-02-2023	22-02-2023	22-02-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not required
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 70kg **Invoice #** EXP-2223-297 **Dated**: 06-01-2023
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.6.5	Please submit the GMP certificate of API manufacturer which should be inforce till date.	Firm has submitted same GMP certificate as previously submitted which was expired on 19-10-2023.
3.2.S.7	Please submit long term stability data for mixture of cefepime HCl & L-arginine according to stability conditions of Zone IV-A (**Temperature: 30°C ± 2°C & Humidity: 60% ± 5% RH**)	Submitted
3.2.P.8	Please justify that why sterility testing & bacterial endotoxins test not being part of your stability studies?	Revised stability data sheets submitted with all required information.

		Please submit COA of API Lot # CEIV/B2205067 issued by drug substance manufacturer.	Submitted	
		Please submit evidence of DRAP clearance for procurement of API.	Submitted	

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

New License

M/s May & Baker (Private) Limited (DML # 000953) Multan Road, Lahore.

Central Licensing Board in its 285th meeting held on 17th & 18th March 2023 approved the grant of DML # 000953 for following five (05) sections of dosage forms.

Ampoule of sterile Liquid for Injection Section (General).
Capsule Section (General).
Oral Dry Powder Suspension Section (General).
Sachet (General) Section.
Vials of Sterile powder for injection (General)

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities,

		physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability Data for 6 months. Temperature: 40°C ± 2°C Humidity: 75% ± 5% RH Real time stability data for 36 months. Temperature: 30°C ± 2°C Humidity: 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Reference product:** Capsule Azomax 250 mg **Manufactured by:** M/s Novartis **Testing Parameters:** Innovator Specifications **Comparative Dissolution Profile** Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Material Loan from Global Pharma **Quantity:** 100 kg **Invoice #** HBGL-2104282045 **Clearance Date:** 21-06-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.5.6	Please justify that why Innovator specifications have been chosen while the monograph of Capsule Azithromycin is available in pharmacopoeias.	It was a typo error USP monograph has been adopted for the testing of finished Pharmaceutical product.
3.2.P.8	Please clarify that why run time of injection in HPLC, for standards and samples, is not 1.5 times of the retention time of the peak for complete elution of the analytes?	Run time is not specifically mentioned 1.5 time as per USP monograph because no analytes are there to interfere results so we are justifying it by referring it to USP monograph. if complete elution does not occur, extra peak interferes to next chromatogram, but we don't have such phenomena in our chromatograms.
	Please clarify that why sample name/ID has been mention "**UNKNOWN**" instead of *(reference standard OR sample's batch #)* in the sample information window?	Since, the HPLC software has been set on default by the engineer of the supplier. Now we have recently make changes in SOPs for control of documentation and accordingly, the name of analyst will appear at the place of name/ID. SOP along with sample chromatogram submitted as Annex-II.
	Please submit chromatograms which should properly represent the numbers of reference standards injected, sample of drug product with batch # & dissolution samples.	Submitted

		Please submit complete stability data for the minimum 0,3,6 month interval of minimum 03 stability batches.	Submitted	

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Remarks of Evaluator:

Section	Observations	Reply of the firm
3.2.S.7	Please clarify that why primary container (vial) mentioned in the stability data sheet of drug substance, is different than the aluminium container mentioned in **Section 3.2.S.6** as container closure system?	We have used glass vial as primary container for stability study, instead of Aluminium container as specified in section 3.2.S.6 (container Closure System), to verify its long term behaviour in final fill container. Retained samples of each lot kept in aluminium container. Evidence picture attached.
	Please submit quantitative details (volume of the vials & quantity of drug substance per vial) as well as (volume of the aluminium container & quantity of drug substance per vial) used for storage of intermediate (pantroprazole : mannitol 36:64).	30gm sample powder is filled per 10cc glass vial. It fills almost ¾ of glass vial, whereas Aluminum container is of 1 kg fill weight and it also almost ¾ of container capacity.
3.2.P.2.2.1	Please clarify that why completeness and clarity of solution, uniformity of dosage units, absorbance, transmittance, reconstitution time has not been made part of Pharmaceutical equivalence studies while same are the testing parameters of innovator product?	All test has been performed by our laboratory staff however, we have previously included results of only those parameters considered as critical tests to ensure quality of product. Now we have submitted stability sheets with results of all the tests mentioned in the monograph.
3.2.P.2.6	Please submit the stability	Submitted

		details of the powder for solution for injection after reconstitution with documented evidence.		
	3.2.P.5	Please clarify that why completeness and clarity of solution, uniformity of dosage units, absorbance, transmittance, reconstitution time has not been made part of analytical testing parameters while same are the testing parameters of innovator product?	All test has been performed by our laboratory staff however, we have previously included results of only those parameters considered as critical tests to ensure quality of product. Now we have submitted stability sheets with results of all the tests mentioned in the monograph.	
	3.2.P.8	Please clarify that why sample name/ID has been mention "**UNKNOWN**" instead of *(reference standard OR sample's batch #)* in the sample information window?	Since, the HPLC software has been set on default by the engineer of the supplier. Now we have recently make changes in SOPs for control of documentation and accordingly, the name of analyst will appear at the place of name/ID. SOP along with sample chromatogram submitted as Annex-II.

	The status in reference regulatory authorities	MHRA approved formulation
	For generic drugs (me-too status)	**Brand Name:** Famot 40 mg Tablet **Manufacturer:** M/s Shaigan Pharmaceuticals
	Name and address of API manufacturer.	**Name:** M/s Vaasavaa Pharmaceuticals (Pvt.) Ltd **Address:** Plot No. C-216 & 217, MIDC ,Chincholi, Solapur-413 255, Maharashtra, INDIA. **GMP Validity**: ***expired on 14-07-2021***
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (**Drug Substance)**:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Accelerated stability Data for 6 months.** Temperature: 40°C ± 2°C Humidity: 75% ± 5% RH **Real time stability data for 48 months**. Temperature: 30°C ± 2°C Humidity: 65% ± 5% RH
	Module-III (**Drug Product)**:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Reference product:** Tablet Ulcenil 40 mg **Manufactured by:** Siza Pharma **Testing Parameters:** USP Specifications

		Comparative Dissolution Profile Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	**Name:** M/s Vaasavaa Pharmaceuticals (Pvt.) Ltd **Address:** Plot No. C-216 & 217, MIDC,Chincholi, Solapur-413 255, Maharashtra, INDIA.		
API Lot No.	***Not provided***		
Description of Pack (Container closure system)	Parrot green, round biconvex tablet embossed with PHARMAN on one side and other side is plane.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	FM22-001	FM22-002	FM22-003
Batch Size	2000 Tablets	2000 Tablets	2000 Tablets
Manufacturing Date	05-2022	05-2022	05-2022
Date of Initiation	12-05-2023	12-05-2023	12-05-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	***Not provided***
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations
1.6.5	Please submit the GMP certificate of API manufacturer issued by regulatory authority of country of origin and should be in force till date.
3.2.P.1	In Section 1.5.2 of Module I, the label claim describes drug product as **film coated tablet** while in the formulation / pharmaceutical developmentof drug product, ingredients for film coating are not present. You are

		therefore required to submit evidence approval of uncoated tablet of famotidine in reference regulatory authority and also in Pakistan. You are required to submit batch manufacturing record of three stability batches along with Master formula record.	
	3.2.P.8	Please submit DRAP clearance documents for procurement of API.	

Decision:
Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	**Amoxicillin Tri-hydrate** **Name:** M/s Pharmagen Limited. **Address:** Kot Nabi Baksh Wala, 34-km Ferozpur Road, Lahore. **Potassium Clavulanate: Syloid (1:1)** **Name:** M/s Sino Pharm Weiqida Pharmaceutical **Address:** Economic & Technological Development Zone, First Medical Zone, Datong, Shanxi, China.	
API Lot No.	**Amoxicillin Tri-hydrate**	**Potassium Clavulanate : Syloid (1:1)**
	00130/601/2021	08NB2205007
Description of Pack (Container closure system)	Flementin Suspension is packed in Amber Glass Bottle, further packed in unit carton along with patient leaflet insert.	
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH	
Time Period	Real time: 06 months Accelerated: 06 months	
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)	

Batch No.	T-001	T-002	T-003
Batch Size	400 bottles	400 bottles	400 bottles
Manufacturing Date	11-2022	11-2022	11-2022
Date of Initiation	19/11/2022	19/11/2022	19/11/2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Potassium Clavulanate: Syloid (1:1)** **Dated:** 14-09-2022 **Quantity:** 7 KG Amoxicillin Tri-hydrate has been procured from Pharmagen Limited licensed by DRAP.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Status
1.6.5	Please submit GMP certificate of both API manufacturers issued by regulatory authority of country of origin and should be in force till date.	Submitted
3.2.P.2	Please submit results of analytical testing in tabulated form for a comparison of pharmaceutical equivalence between test product and reference product.	Submitted

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

153.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Fleming Pharmaceutical (DML # 000936), 23-km Lahore – Sheikhupura Road, Lahore.**
	Name, address of Manufacturing site.	M/s Fleming Pharmaceutical (DML # 000936) 23-km Lahore – Sheikhupura Road, Lahore.
	Status of the applicant	☒ Manufacturer Importer Is involved in none of the above (contract giver)
	GMP status of the firm	new DML
	Evidence of approval of manufacturing facility	New Section granted by CLB
	Status of application	New Drug Product (NDP)

		☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	Domestic sale Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 27157 dated 17-11-2023
	Details of fee submitted	PKR 30,000/-: Dated 25-09-2023 Slip # 219479025585
	The proposed proprietary name / brand name	Flementin Suspension 312.50 mg / 5 ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml of reconstituted suspension contains: Amoxicillin tri-hydrate equivalent to Amoxicillin .....250 mg Potassium Clavulanate equivalent to Clavulanic Acid..... 62.5 mg
	Pharmacotherapeutic Group of (API)	Combinations of penicillin & beta-lactamase inhibitors
	Pharmaceutical form of applied drug	Oral Powder for reconstitution to form suspension
	Reference to Finished product specifications	BP Specifications
	Proposed Pack size	1's (90ml amber colored glass bottle)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	MHRA approved formulation (PL 25298/0123)
	For generic drugs (me-too status)	**Brand Name:** Augmentin DS 312.5mg/5ml **Manufacturer:** M/s GSK
	Name and address of API manufacturer.	**Amoxicillin Tri-hydrate** **Name:** M/s Pharmagen Limited. **Address:** Kot Nabi Baksh Wala, 34-km Ferozpur Road, Lahore. **GMP Validity:** 17-11-2024 **Potassium Clavulanate : Syloid (1:1)** **Name:** M/s Sino Pharm Weiqida Pharmaceutical **Address:** Economic & Technological Development Zone, First Medical Zone, Datong, Shanxi, China. **GMP Validity:** 05-06-2024
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Amoxicillin Tri-hydrate** Accelerated stability Data for 6 months. Temperature: 40°C ± 2°C Humidity: 75% ± 5% RH Real time stability data for 48 months. Temperature: 30°C ± 2°C Humidity: 75% ± 5% RH **Potassium Clavulanate: Syloid (1:1)** Accelerated stability Data for 6 months. Temperature: 25°C ± 2°C Humidity: 60% ± 5% RH Real time stability data for 36 months. Temperature: 5°C ± 3°C
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Reference product: Augmentin DS Suspension Manufactured by: GSK Pakistan Testing Parameters: BP Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

Manufacturing Date	11-2022	11-2022	11-2022
Date of Initiation	28/11/2022	28/11/2022	28/11/2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Potassium Clavulanate: Avicel (1:1)** **Dated:** 14-09-2022 **Quantity:** 7 KG Amoxicillin Tri-hydrate has been procured from Pharmagen Limited licensed by DRAP.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity

		monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Status
1.6.5	Please submit GMP certificate of both API manufacturers issued by regulatory authority of country of origin and should be in force till date.	Submitted
3.2.P.2	Please submit results of analytical testing in tabulated form for a comparison of pharmaceutical equivalence between test product and reference product.	Submitted

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

157.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Fleming Pharmaceutical (DML # 000936), 23-km Lahore – Sheikhupura Road, Lahore.**

Remarks of Evaluator:

The API in the drug product belongs to immunosuppressant class of drugs which is allowed to be manufactured in General facility with precautionary measures while the manufacturing facility of drug product manufacturer is for dosage forms of oncology (Tablet & capsules).

Registration Board was apprised that drugs products falling in WHO ATC code L04 were being allowed to be manufactured in general section with precautionary measures, and accordingly, the firm has already installed additional precautionary measures including installation of isolators, personal protective equipment (PPE) and proper cleaning validation processes etc.

Decision: Registration Board after thorough deliberation, while considering the fact that the firm has already installed additional precautionary measures including installation of isolators, personal protective equipment (PPE) and proper cleaning validation processes etc, decided to approve the product.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application. **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Section	Observations	Status
1.6.5	Please submit within use-by date / valid GMP certificate of API manufacturer issued by regulatory authority of country of origin.	Submitted
3.2.P.8	Please submit the stability data along with required documents/information for the interval of 06th month of stability for both accelerated and long term storage conditions.	Submitted

Decision: Approved with Innovator Specifications.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Description of Pack (Container closure system)	Clear Glass vial 100 ml infusion
Stability Storage Condition	Real time: 30°C ± 2° C / 65% ± 5% RH Accelerated: 40 °C ± 2 °C / 75% ± 5%
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (months)

Batch No.	**TR-054-21**	**TR-055-21**	**TR-056-21**
Batch Size	100 vials	100 vials	100 vials
Manufacturing Date	05-2021	05-2021	05-2021
Date of Initiation	12-05-2021	12-05-2021	12-05-2021
No. of Batches	03		
Date of Submission	08-11-2021 (Dy. # 30566)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. #	Documents to Be Provided	Status
i.	Reference of previous approval of applications with stability study data of the firm	Not required
ii.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Submitted
iii.	Method used for analysis of API fromboth API Manufacturer and Finished Product Manufacturer	Submitted
iv.	Stability study data of API from API manufacturer	**Accelerated stability Data for 6 months.** Temperature: 40°C ± 2°C Humidity: 75% ± 5% RH **Real time stability data for 72 months**. Temperature: 30°C ± 2°C Humidity: 75% ± 5% RH
v.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Name:** Hubei Granules Bio-cause Phrmaceutical company **Address:** 122 Yamgwan Road, Jingmen Hubei China. **GMP Validity:** 28-08-2022
vi.	Documents for the procurement of API with approval from DRAP (in case of	**Quantity:** 420 gm **Form 6 issuance date:** 20-11-2020

	import).	
vii.	Protocols followed for conduction of stability study	Submitted
viii.	Method used for analysis of FPP	Submitted
ix.	Drug-excipients compatibility studies (where applicable)	Not required
x.	Complete batch manufacturing record of three stability batches.	Submitted
xi.	Record of comparative dissolution data (where applicable)	Not required
xii.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
xiii.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
xiv.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

REMARKS OF EVALUATOR:

S #	Observations	Reply of the firm
i.	GMP certificate of API manufacturer issued by regulatory authority of country of origin which should be in force till date.	Submitted
ii.	Stability data of three batches along with chromatograms and raw data for the 06th month interval.	Submitted

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

167.	**Name and address of manufacturer / Applicant**	**M/s S.J & G. Fazul Ellahie (Pvt) Ltd. E/46 S.I.T.E Karachi (DML # 000083)**
	Diary No. Date of R& I & fee	Dy.No. 19298, Dated:27-10-2017, Rs.50,000/- Dated :28-10-2017.
	Brand Name +Dosage Form + Strength	Ates Injection 400mg/4ml
	Composition	Each ml vial contains: Ibuprofen..... 100mg
	Pharmacological Group	Analgesic & Antipyretic
	Type of Form	Form-5D
	Finished product Specifications	Innovator's Specification
	Pack size & Demanded Price	1's & 5's : As per SRO
	Approval status of product in Reference Regulator Authorities	TGA Australia approved
	Me-too status	Xaleve 400mg/4ml of M/s Hudson Pharma (Reg # 093088)
	GMP status	Last GMP inspection conducted on 25-08-2023 and

		report concludes firm was considered to be operating at an acceptable of compliance with GMP."

REMARKS OF EVALUATOR:

Please submit following shortcomings for further evaluation of your application.

Inspection report of drug product manufacturing facility conducted by DRAP within last three (03) years **OR** GMP certificate issued by DRAP which should be valid till date.

GMP certificate of API manufacturer issued by regulatory authority of country of origin which should be in force till date.

Please submit stability data sheet containing information about three stability batches regarding Batch #, Batch size, details of primary container of the drug product, stability storage conditions of drug product, manufacturing date, expiry date, API Lot # used in manufacturing of drug product, date of initiating testing, comparison of results of testing along with limits in tabulated form for 0,3,6-month interval.

Calculation sheets for assay and dissolution tests of drug products.

Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer.

Stability study data of API from API manufacturer.

Protocols followed for conduction of stability study.

Method used for analysis of FPP.

Drug-excipients compatibility studies (where applicable)

Complete batch manufacturing record of three stability batches.

Record sheets of comparative dissolution data along with information regarding batch #, manufacturing date, expiry date of innovator /reference product used for comparison of dissolution profile in three mediums.

Decision:

Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Reference to Finished product specifications	Manufacturer's Specification
	Proposed Pack size	1's (1ml vial)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**Bortezomib Ever Pharma 2.5mg/ml** MHRA approved (PL 46654/0011)
	For generic drugs (me-too status)	N/A
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	**Name:** Teva Czech Industries s.r.o (TCI) **Address:** TAPI Division, Teva Group Ostravska 305/29 Komaro, 747 70 Opava, Czech Republic.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API **At accelerated** 5ºC ± 3°C for 06 months. **Real time:** -20 ± 5°C for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Name:** Brotezomib STADA 2.5 mg /1.0ml *(solution for injection)* **Manufacturer**: Thornton & Ross Ltd, UK
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.

	Container closure system of the drug product	Colorless glass 6R vial, hydrolytic class type I, closed with a suitable rubber stopper and an aluminum crimp cap with a plastic flip off.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches **Accelerated Storage Conditions:** **Duration:** 06 months **Temperature:** 25ºC ±2ºC **Relative Humidity:** 60% ± 5%. **Long term Storage Conditions:** **Duration:** 24 months **Temperature:** 2ºC – 8ºC

Evaluation by PEC:

The drug product is an aqueous, clear solution for injection presented in 1.0 ml 6R vial *(readyto use)*. Its Pharmaceutical equivalence has been established with Innovator product **Valcade®** powder for solution for injection and also with competitor product **Bortezomib STADA 2.5mg/ml** solution for injection *(ready to use)*.

The drug product of the same manufacturer is approved by MHRA, UK **with a shelf life of 18 months only,** approved by TGA Australia **with a shelf life of 12 months only,** approved by EMAE **with a shelf life of 12 months only.**

In the stability studies of the drug product, significant change is observed at accelerated conditions as under.

Testing parameters	**Limits**	**At 06 month interval – Batch #**		
		C3PMM2	**C3PRM2**	**D3LPM1**
Total Impurities	≤ 4.0%	7.6%	11.4%	3.8%
Assay	95.0 to 105.0%	93.0%	88.4%	100.3%

During real time storage conditions, a slight increase in impurities has been observed but found within the limits.

As per ICH guidelines Q1 A (R2) for drug product intended for storage in a refrigerator, if significant change occurs between 3 and 6 months' testing at the accelerated storage condition, the proposed shelf life should be based on the real time data available from the long term storage condition.

Chemical & Physical in-use stability after first opening and/or dilution has been demonstratedfor 35 days at 2-8ºC protected from light, 35 days at 25ºC protected from light or 24 hours at 25ºC in normal indoor lighting conditions when stored in the original vial and/or a polypropylene syringe.

During initial scrutiny, following observations / shortcomings were observed:

Section	**Observations**	**Reply of the firm**
3.2.P.8	For the claim of 24-months shelf life of Bortezomib Ever Pharma 3.5mg/1.4ml & 2.5mg/1.0ml, please submit evidence of approval of 24 months of shelf life allowed for Bortezomib Ever Pharma 3.5mg/1.4ml & 2.5mg/1.0ml, by regulatory authority of country of origin.	Bortezomib Ever Pharma 2.5mg/ml recently got registration on 14-11-2022, with shelf life of 24 months in United Arab Emirates. Product marketing authorization approval from UAE is attached herewith. It is to inform that storage conditions for both UAE and Pakistan falls under Zone IV—A (30^{O}C ± 2 ^{O}C / RH 65% ± 5%). The stability data submitted in UAE for drug product registration is same as submitted in DRAP. We have also attached herewith stability data of accelerated condition for our refrigerated product as per room temperature conditions of Zone IV-A (30^{O}C ± 2 ^{O}C / RH 65% ± 5%)

		and it shows that our product is stable for shelf life of 24 months

Proceedings of the case:
The case was discussed in detail regarding the stability data of 24 months submitted for registration **while the shelf life of the drug product of the manufacturer in the country of origin / manufacturer (Germany) is 18 months only**.
The Board also noticed that this formulation in solution form of injection, manufactured by other manufacturer has got approval of shelf life of 24 months as well as 36 months in MHRA, UK as well as in EMAE and TGA Australia.
The Board directed to advise firm to submit approval of shelf life of 24 months of this drug product of the manufacturer from the regulatory authority of country of origin / manufacturer (Germany).

Decision: Approved with Innovator's specifications and shelf life of 18 months as per Policy for inspection of Manufacturer abroad and verification of local storage facility.
The Board directed to advise the firm to submit approval of shelf life of 24 months of this drug product of the manufacturer from the regulatory authority of country of origin / manufacturer (Germany) for consideration of stability data, in case of claim of shelf life of 24 months.

	For generic drugs (me-too status)	N/A
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications,

		analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	**Name:** Teva Czech Industries s.r.o (TCI) **Address:** TAPI Division, Teva Group Ostravska 305/29 Komaro, 747 70 Opava, Czech Republic.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API **At accelerated** 5ºC ± 3°C for 06 months. **Real time:** -20 ± 5°C for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Name:** Bortezomib STADA® 3.5mg/1.4ml *(Solution for injection)* **Manufacturer**: Thornton & Ross Ltd, UK
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Colorless glass 6R vial, hydrolytic class type I, closed with a suitable rubber stopper and an aluminum crimp cap with a plastic flip off.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches **Accelerated Storage Conditions:** **Duration:** 06 months **Temperature:** 25ºC ±2ºC **Relative Humidity:** 60% ± 5%. **Long term Storage Conditions:** **Duration:** 24 months **Temperature:** 2ºC – 8ºC
Evaluation by PEC:		

The drug product is an aqueous, clear solution for injection presented in 1.0 ml 6R vial. Its Pharmaceutical equivalence has been established with Innovator product **Valcade®**, powder for solution for injection as well as with competitor product Bortezomib STADA 3.5mg/1.4ml.

The drug product of the same manufacturer is approved by MHRA, UK **with a shelf life of 18 months only,** approved by TGA Australia **with a shelf life of 12 months only,** approved by EMAE **with a shelf life of 12 months only.**

As per ICH guidelines Q1 A (R2) for drug product intended for storage in a refrigerator, if significant change occurs between 3 and 6 months' testing at the accelerated storage condition, the proposed shelf life should be based on the real time data available from the long term storage condition.

Chemical & Physical in-use stability after first opening and/or dilution has been demonstratedfor 35 days at 2-8ºC protected from light, 35 days at 25ºC protected from light or 24 hours at 25ºC in normal indoor lighting conditions when stored in the original vial and/or a polypropylene syringe.

During initial scrutiny, following observations / shortcomings were observed:

Section	Observations	Reply of the firm
3.2.P.8	Regarding the 24-months stability data submitted for the shelf life of Bortezomib Ever Pharma 2.5mg/1.0ml, it has been observed that the shelf life approved by EMAE for the Bortezomib vide AT/H/1124/001/DC dated 21st September 2021 is **12 months only.** Please submit updated status or reference of approval of 24 months of shelf life allowed for drug product Bortezomib Ever Pharma 2.5mg/1.0ml, by EMAE or other stringent regulatory authorities considered by WHO.	Bortezomib Ever Pharma 2.5mg/ml recently got registration on 14-11-2022, with shelf life of 24 months in United Arab Emirates. Product marketing authorization approval from UAE is attached herewith. It is to inform that storage conditions for both UAE and Pakistan falls under Zone IV—A ($30^{O}C \pm 2\ ^{O}C$ / RH 65% ± 5%). The stability data submitted in UAE for drug product registration is same as submitted in DRAP. We have also attached herewith stability data of accelerated condition for our refrigerated product as per room temperature conditions of Zone IV-A ($30^{O}C \pm 2\ ^{O}C$ / RH 65% ± 5%) and it shows that our product is stable for shelf life of 24 months

Proceedings of the case:

The case was discussed in detail regarding the stability data of 24 months submitted for registration while the shelf life of the drug product of the manufacturer in the country of origin / manufacturer (Germany) is 18 months only.

The board also noticed that this formulation in solution form of injection, manufactured by other manufacturer has got approval of shelf life of 24 months as well as 36 months in MHRA, UK as well as in EMAE and TGA Australia.

The Board directed to advise firm to submit approval of shelf life of 24 months of this drug product of the manufacturer from the regulatory authority of country of origin / manufacturer (Germany).

Decision:

Approved with Innovator's specifications and shelf life of 18 months as per Policy forinspection of Manufacturer abroad and verification of local storage facility.

The Board directed to advise firm to submit approval of shelf life of 24 months of this drug product of the manufacturer from the regulatory authority of country of origin / manufacturer (Germany) for consideration of stability data in case of claim of shelf life of 24 months.

Evaluation by PEC:

The details of qualitative-quantitative composition of test and reference products are as under:

-

Name of Ingredients	Reference Product	Test Product
	VELCADE ® mg/ml	**Veltezo ® mgml**
Bortezomib	1.0	1.0
D-mannitol	10.0	10.0
Tetra Butyl alcohol*	+	-
Acetone*	-	+
WFI*	Q.S	Q.S
Total	1ml	1ml

**not included in finished product, removed by sublimation during process.*

In order to protect the bulk product from oxidation, tetra-butyl alcohol was used as an organic solvent in the reference product. For this reason, development studies were started with tatra-

butyl alcohol. However, due to the impurity caused by the esterification reaction between tera-butyl alcohol and boronic acid, it was decided to use ketone group ICH Class II organic solvents. In the final formulation, acetone was used as the organic solvent. Intravenous in-use stability after first opening and/or dilution has been demonstrated for 08 hours at 25°C ± 2°C/ 60% ±5RH protected from light.
Decision: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility

Please submit GMP certificate of WorldBiz Pharmaceuticals to confirm the validity of the Drug Manufacturing License.	Submitted	

Decision: Approved with Innovator Specifications.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Manufacturing Date	10-2021	12-2021	01-2022
Date of Initiation	08-10-2021	20-12-2021	05-01-2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 15kg Locally procured from Citi pharma
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit	Submitted

	trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Section	Observations	Status
1.3.4	For the manufacturing of drug product in facility of Oral dry powder suspension (Cephalosporin) of Aulton Pharma, please submit section approval letter issued by Licensing Division DRAP.	Submitted
	Please submit evidence for GMP compliance status of Athan Pharma.	Submitted

Decision: Approved in the light of legal opinion of the member registration board representing the Division of Law and Justice, Government of Pakistan.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

181.	**Contract Giver** **Name, address of Applicant / Marketing Authorization Holder**	**M/s Athan Pharmaceuticals (DML # 000900)** **Plot No. 84/1 Block-B Phase V Industrial Estate Hattar.**
	Contract Acceptor **Name, address of Manufacturing site.**	**M/s Aulton Pharmaceuticals. (DML # 000828) Plot No. 84/1 Block-A Phase V Industrial Estate Hattar.**
	Status of the applicant	Manufacturer Importer ☒ Is involved in none of the above (contract giver)
	Status of application	New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	Domestic sale Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 6414 (dated: 07-03-2023)
	Details of fee submitted	PKR 75,000/-: dated: 09-02-2023 (Invoice # 81452254803)
	The proposed proprietary name / brand name	Ceftrix 250 mg Injection IM
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: *(Powder for reconstitution)* Ceftriaxone Sodium equivalent to Ceftriaxone .....250 mg
	Pharmaceutical form of applied drug	Sterile Powder for reconstitution for IM injection.
	Pharmacotherapeutic Group of (API)	Cephalosporin
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA approved product by Qilu

	For generic drugs (me-too status)	Oxidil by Sami Pharma
	Section Approval Letter from Licensing Division of DRAP	Central Licensing Board in its 252nd meeting held on 15th March 2017 approved grant of additional section **Sterile Powder vials (Cephalosporin) Section.**
	GMP status of the Finished product manufacturer	**Acceptor:** GMP certificate valid up to 10-12-2023
	Name and address of API manufacturer.	**Name:** M/s Henan Kangda Pharmaceutical Co. Ltd. **Address:** No. 66 Jing Wu Road, Xiang Cheng City, China **GMP Validity:** 01-12-2023
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies (Drug Substance)	Stability study conditions: **Real time:** 30˚C ± 2˚C / 65% ± 5% RH for 36 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5% RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Name:** Oxidil Injection 250mg **Manufacturer:** M/s Sami **Testing parameters:** USP Specifications
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA	
Manufacturer of API	**Name:** M/s Henan Kangda Pharmaceutical Co. Ltd. **Address:** No. 66 Jing Wu Road, Xiang Cheng City, China
API Lot No.	YK20021909
Description of Pack (Container closure system)	Sterile white to off white / yellowish crystalline powder filled in transparent type II glass vials with grey rubber stopper with a flip-off seal.
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH

	Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24, 36 (Months)

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 100 kg **Invoice #** 2122/SL/032 **Dated:** 05-08-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Section	Observations	Status
1.3.4	Please submit evidence for GMP compliance status of Nicholas Pharma. Please submit GMP certificate of Caliph Pharma **OR** inspection report conducted within last 03 years for confirmation of GMP compliance status of the Cream/Ointment/Lotion section of manufacturing facility	Submitted
1.6.5	Please submit GMP Certificate of API supplier which should bein force till date.	Submitted

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Remarks of the Evaluator:

Section	Observations
1.3.4	Please submit evidence for GMP compliance status of Wallace Pharma.
1.6.5	Please submit GMP Certificate of API suppliers for Vonoprazan and Aspirin which should be in force till date.
3.2.P.2	Please justify that why drug coating method of tablet has been chosen instead of bilayer tablets which is a recommended method for tablet formulation for combination of two incompatible APIs? Please submit evidence that innovator brand **"Cabpirin combination tablet"** by Otsuka, Japan, is a vonoprazan coated tablet and not a bilayer tablet of two APIs. Since Vonoprazan has a bitter taste, what steps have been taken to mask the bitter taste of API coating? Please clarify whether in process test for Vonoprazan containing drug coating

	suspension has been performed? If yes, then submit validation data as well as anaylytical testing parameters with reference of testing. Please submit data regarding weight gain of enteric coated tablet of Aspirin before and after spraying the drug coating suspension containing Vonoprazan. Please submit documented evidence that the coating machine used for drug coating suspension contains Human machine interface (HMI) to control the opening and closing of the exhaust during coating time.	
3.2.P.5	Please submit detailed procedure regarding disintegration time requirement for drug coating of vonoprazan and then disintegrating time of enteric coated aspirin. Please submit detailed dissolution procedure along with reference.	

Decision:
Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies (Drug Substance)	Stability study conditions: **Real time:** 30˚C ± 2˚C / 65% ± 5% RH for 36 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5% RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Name:** Capsule Risek 40mg **Manufacturer:** M/s Getz **Testing parameters:** USP Specifications
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	**Omeprazole E.C Pellets 10%** **Name:** Metrochem API Private Limited **Address:** Plot # D-69, Phase I, IDA Jeedimetla, Hyderabad, India.
API Lot No.	OMP/P/2/2021040658
Description of Pack (Container closure system)	Capsule 40mg packed in ALU-ALU blister, further packed in unit carton.
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH

	Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.	021C081	022C081	023C081
Batch Size	300000 Capsules	300,000 Capsules	300000 Capsules
Manufacturing Date	11-2019	02-2020	06-2020
Date of Initiation	06-12-2019	06-03-2020	06-07-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Quantity:** 150 kg **Invoice #** BE/18/157 **Dated:** 07-02-2019
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Section	Observations	Status
1.3.4	• Please submit evidence for GMP compliance status of Daneen Pharma. • Please submit GMP certificate of Genix Pharma which should be valid till date **OR** submit inspection report of the firm conducted within last three (03) years for confirmation of GMP compliance status of manufacturing facility for Capsule (General) Section. • Letter issued by Licensing Division DRAP for Approval of manufacturing facility of Tablet (General) Section by Central Licensing Board. • Please submit Contract agreement between two parties for the manufacturing of **Omzole Capsule 40 mg.**	All documents have been submitted by firm.
1.6.5	• Please submit GMP Certificate of API suppliers for Vonoprazan and Aspirin which should be in force till date.	Submitted
3.2.P.8	• Please submit clearance document from DRAP for procurement of API.	Submitted

Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Local procurement
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Section	Observations	Status
1.3.4	• Please submit Section approval letter issued by Central Licensing Board for Capsule (General) Section of Global Pharmaceuticals	Submitted

Decision: Approved in the light of legal opinion of the member registration board representing the Division of Law and Justice, Government of Pakistan.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	The proposed proprietary name / brand name	Sante Insta 20mg Sachet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Sachet contains: Omeprazole ..... 20 mg Sodium Bicarbonate .....1680 mg
	Pharmaceutical form of applied drug	Oral powder for reconstitution packed in Sachet
	Pharmacotherapeutic Group of (API)	A combination of PPI & antacid
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA approved **Zegerid®**
	For generic drugs (me-too status)	Risek Insta 20 mg Sachet by Getz
	Section Approval Letter from Licensing Division of DRAP	Letter of Renewal of DML dated 07-06-2021 **Sachet (General) Section** Renewal approved in 278th meeting of Central Licensing Board dated 10th & 11th December 2020.
	GMP status of the Finished product manufacturer	**Acceptor:** GMP certificate valid up to 12-01-2025
	Name and address of API manufacturer.	**<u>Omeprazole: sodium carbonate</u>** ***MANUFACTURING FACILITY (UNIT I – API)*** **Name:** Metrochem API Private Limited **Address:** Plot No.62/C/6. Pipe Line Road, Phase 1, IDA, Jeedimetla, Hyderabad, Rangareddy, Telangana State 500055, India. **GMP Validity:** 07-05-2027
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**<u>Omeprazole</u>** Stability study conditions: **Real time:** 30˚C ± 2˚C / 65% ± 5%RH for 60 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Name:** Risek insta Sachet 20 mg **Manufacturer:** M/s Getz **Testing parameters:** In-House Specifications
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	**<u>Omeprazole: Sodium Bicarbonate</u>** ***MANUFACTURING FACILITY (UNIT I – API)*** **Name:** Metrochem API Private Limited **Address:** Plot No.62/C/6. Pipe Line Road, Phase 1, IDA, Jeedimetla, Hyderabad, Rangareddy, Telangana State 500055, India. **GMP Validity:** 07-05-2027		
API Lot No.	**Sodium Bicarbonate**	**Omeprazole**	
	2020050911	2106R0079	
Description of Pack (Container closure system)	Packed in Sachet made of aluminium foil.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.	21M023	21M024	21M037
Batch Size	2000 sachets	2000 sachets	2000 sachets
Manufacturing Date	12-2021	12-2021	12-2021
Date of Initiation	20-12-2021	20-12-2021	22-12-2021
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**<u>Omeprazole: Sodium Bicarbonate</u>** **Invoice #** AE/21-22/0087 **Clearance date:** 16-06-2021 **Quantity:** 500kg **Invoice #** 2101-000008 **Dated:** 04-01-2021 **Quantity:** 300kg
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Section	Observations	Status
1.6.5	• Please submit GMP certificate of both API manufacturer of sodium bicarbonate issued by regulatory authority of country of origin and should be inforce till date.	Submitted
1.3.4	• Please submit GMP certificate of Contract giver Macter International Limited.	Submitted
3.2.P.3.2	• Please justify that why Caster sugar has been chosen instead of Xylitol.	Submitted

Decision: Approved with Innovator Specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last Product Specific Inspection of the firm was conducted for Promig Plus 500mg/20mg Tablet and Promig Plus 375mg/20mg Tablet, for which the inspection was conducted on 14-03-2019 and the report was presented in 289th meeting of Registration Board. The report confirms following points: The HPLC software is 21CFR compliant. Firm has demonstrated audit trail reports of testing.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of	**Quantity:** 5 KG **Dated:** 04-11-2020

	import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.3.4	Please submit inspection report of manufacturing unit conducted within last 03 years and a readable photocopy for issuance/grant of sections for manufacturing of dosage form(s) by Central Licensing Board.	Submitted
3.2.P.8	Please submit stability data of the interval **"06th month"** for both accelerated and real time storage conditions.	Submitted
	Please submit GMP certificate of API supplier which should be in force till date.	Submitted
	Please submit COA of API used in product development and manufacturing of stability batches.	Submitted
	Please submit DRAP Clearance document for procurement of API.	Submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.6.5	Please submit valid GMP Certificate of API supplier issued by regulatory authority of country of origin and should be in force till date.	Submitted along with prescribed fee of PKR 30,000/- *(Slip #)*
3.2.P.2	Innovator specifications are not acceptable after publication of monograph in official Pharmacopeia. Please submit Pharmaceutical equivalence studies as per testing procedure provided in monograph of official Pharmacopeia.	Submitted
3.2.P.8	Please submit DRAP clearance documents for procurement of API.	Submitted
	Innovator specifications are not acceptable after publication of monograph in official Pharmacopeia. Please submit stability data for the three batches for all the test mentioned in monograph of official pharmacopeia and perform assay of drug product on HPLC and submit data accordingly.	• Firm clarified that the results of analysis using HPLC & UV spectrophotometer are comparable with RSD = 0.329. • They also mentioned that all the results mentioned in previously submitted report with innovator specifications falls under the limits defined in USP specifications and accordingly submitted stability sheets of 03 batches with limits of testing parameters as per USP specifications. • They have submitted the batch analysis data of the above mentioned stability which has been recently tested now on HPLC and chromatograms have been submitted along with calculation sheets ensuring that product is stable even after 24 months. • Now they requested to considerthe approval of their formulation on the basis of the batch analysis report recently conducted on stability batches as per USP pharmacopeia and submitted undertaking that they will follow HPLC method of USP pharmacopeia for onward testing of their drug product for commercial batches.

Decision: Deferred for submission of stability study data of three batches of drug product as per the analytical testing method & specifications provided monograph of drug product in the latest edition of USP pharmacopeia.

Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Name: Bachem S.A. Address: Route Du Simplon 22, 1895 Vionnaz, Switzerland.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Recommended EDQM storage conditions for unopened container: 5 ^{o}C ±3^{o}C
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients,control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Name: Diprivan® Manufacturer: Aspen Pharma Trading Ltd Ireland.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Glass ampoule
	Stability study data of drugproduct, shelf life and storageconditions	*Firm has submitted stability data both of vials and ampoule dosage form (20ml ampoules, 20ml vials & 100 ml vials) both at accelerated as well as long term stability conditions.* Accelerated Stability conditions: (06 months) Temperature: 40 ± 2ºC Relative Humidity: 75 ± 5% Long term stability conditions (12 months) Temperature: 30 ± 2ºC Relative Humidity: 75 ± 5%

Evaluation by PEC:

Section	Observations	Status
1.5.4	Please mention a single dosage form along with single pack size i.e. **Ampoule OR vial.** Multiple dosage form and multiple pack size of Ampoule and vials cannot be allowed in a single registration letter.	20 ml vials has been selected with a single pack size.
3.2.S.7	Please submit stability data of minimum 03 commercial scale batches of API conducted by drug substance manufacturer at Zone IV-A storage conditions.	Certificate of suitability submitted for API issued by EDQM.
3.2.P.2	Please justify that how the Pharmaceutical equivalence studies of your drug product packed in vials and ampoule, a different primary container of drug product than prefilled syringes of **Diprivan 1% manufactured by Aspen Ireland.**	For pharmaceutical equivalence studies **Dprivan 1% & Diprivan2%** have been used as reference products. For our selected volume of 20ml vial, Disoprivan 1% 20ml vial Batch # RC20003C & Batch # RC 20007A Germany.
3.2.P.8	Please submit stability data of minimum 03 commercial scale batches of drug product with one dosage form **(vial OR ampoule)** with single pack size (20ml OR 50ml).	Firm has submitted only 12-month data for long term storage conditions for ZONE IV-A with explaination as under:

Explanation Letter

We, JSC «FARMAK» with legal address 63, Kyrylivska street, Kyiv, 04080, Ukraine would like to express our respect and to inform you about the stability studies of our product Diprofol EDTA 10 mg/mL or 20 mg/mL emulsion for injection/infusion.

We kindly confirm that the stability study of the drug product is performed in accordance with ICH Guideline Q1A (R2) Stability Testing of New Drug Substances and Products. Initial Long term stability studies were conducted under the conditions 30 ± 2 ºC / 75 ± 5% RH and at the time of the dossier submission to the Regulatory Authority of Pakistan, the product complied with all test parameters.

Later, it was discovered that in T18 the product does not meet the requirements according to the "Free fatty acids" indicator. Therefore, we provide information about 24 months of Diprofol

	EDTA 10 mg/mL or 20 mg/mL emulsion for injection/infusion stability studies under the conditions 25 ± 2°C / 60 ± 5 % RH. Based on the obtained stability study results, the following storage conditions of the product were established "Do not store above 25 °C, do not freeze" with proposed shelf life 2 years. This corresponds to the storage conditions of the reference product Diprivan, emulsion for injection or infusion.	

Decision in 331st meeting of Drug Registration Board:
Registration Board deferred the case for clarification of applied container closure system.

Proceeding of the case:
Firm has submitted reply with respect to observations of the DRB in 331st meeting, as under: -
"For submitted Section 1.5.4, 20 ml ampoules (05 ampoules in a pack) has been selected, the shift in packing of product from vials to ampoules has been made owing to stability data. The product in ampoules packing is stable and T18 as compared with drug product in vial packing.
Long term stability data of diprofol 1% for 24 months has been attached herewith "
Evaluator remarks:
The stability data submitted for propofol in ampoule packing for 24 month of shelf life has been found satisfactory. Now firm requested to consider ampoule packing for registration instead of vials.

Case is accordingly submitted before the Board for consideration.

Decision: Approved with 20ml ampoule (05 ampoules in a pack) as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

Explanation Letter

We, JSC «FARMAK» with legal address 63, Kyrylivska street, Kyiv, 04080, Ukraine would like to express our respect and to inform you about the stability studies of our product Diprofol EDTA 10 mg/mL or 20 mg/mL emulsion for injection/infusion.

We kindly confirm that the stability study of the drug product is performed in accordance with ICH Guideline Q1A (R2) Stability Testing of New Drug Substances and Products. Initial Long term stability studies were conducted under the conditions 30 ± 2 ºC / 75 ± 5% RH and at the time of the dossier submission to the Regulatory Authority of Pakistan, the product complied with all test parameters.

Later, it was discovered that in T18 the product does not meet the requirements according to the "Free fatty acids" indicator. Therefore, we provide information about 24 months of Diprofol EDTA 10 mg/mL or 20 mg/mL emulsion for injection/infusion stability studies under the conditions 25 ± 2°C / 60 ± 5 % RH. Based on the obtained stability study results, the following storage conditions of the product were established "Do not store above 25 °C, do not freeze" with proposed shelf life 2 years. This corresponds to the storage conditions of the reference product Diprivan, emulsion for injection or infusion.

Decision in 331st meeting of Drug Registration Board:

Registration Board deferred the case for clarification of applied container closure system.

Proceeding of the case:

Firm has submitted reply with respect to observations of the DRB in 331st meeting, as under: -

"For submitted Section 1.5.4, 20 ml ampoules (05 ampoules in a pack) has been selected, the shift in packing of product from vials to ampoules has been made owing to stability data. The product in ampoules packing is stable and T18 as compared with drug product in vial packing.

Long term stability data of diprofol 1% for 24 months has been attached herewith "

Evaluator remarks:

The stability data submitted for propofol in ampoule packing for 24 month of shelf life has been found satisfactory. Now firm requested to consider ampoule packing for registration instead of vials.

Case is accordingly submitted before the Board for consideration.

Decision: Approved with 20ml ampoule (05 ampoules in a pack) as per Policy for inspection of Manufacturer abroad and verification of local storage facility.

Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	The firm has submitted results of pharmaceutical equivalence for all the quality tests for their product as per specification and comparative study against the comparator product i.e Ketaral injection by M/s Par Pharmaceuticals by performing quality tests (appearance, identification, pH , Assay & sterility test).
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	Ketamine HCl M/s Supriya Life Science Ltd. A-5/2, Lote Parshuram Industrial Area, M.I.D.C Taluka – khed, District – Ratnagiri, Maharashtra, India. GMP Certificate valid till 23-11-2024		
API Lot No.	SLL/KH/0619026		
Description of Pack (Container closure system)	Clear colorless and sterile solution for injection is supplied in USP type I 2ml clear amber glass ampoule.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 24 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	20000 ampoules	20000 ampoules	20000 ampoules
Manufacturing Date	02/2021	02/2021	02/2021
Date of Initiation	17/05/2021	17/05/2021	17/05/2021
No. of Batches	03		
Administrative Portion			
i.	Reference of previous approval of applications with stability	Not applicable	

	study data of the firm (if any)	
ii.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
iii.	Documents for the procurement of API with approval from DRAP (in case of import).	Ref. # 13452/2021/DRAP-AD-VI (I & E) **Dated** 20-01-2021 **Quantity:** 3000 gm
iv.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
v.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
vi.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Decision of 330th meeting of DRB:

Registration Board deferred the case for opinion of Division of Control Drugs, DRAP regarding:

i. Legal status for API (Ketamine HCl) imported before declaration as controlled drug and afterwards its consumption by Drug Product Manufacturer for Pharmaceutical Development & stability batches.

ii. Requirement of manufacturing area whether segregated Psychotropic facility required or not.

Remarks of the Evaluator:

- The firm has imported the ketamine API (03 kg) as per provided invoice, for production of three (03) trial batches on 20th January 2021. Trial batches were manufactured in 02/2021.
- Ketamine and its salts have been declared as "Psychotropic" vide SRO No. 1350(I)/2021 dated 15-10-2021.
- Liquid Injectable ampoule (psychotropic) section was granted by 30-05-2022 vide Letter No F. 1-38-91-Lic (Vol-II).
- Trial batch sizes needs clarification from firm.

Decision: Deferred for following:

- **Justify that 03 kgs of API is sufficient for the manufacturing of 03 batches of 20000 ampoules each**
- **Submission of BMRs for the said manufactured batches.**
- **Submission of No Objection Certificate from Ministry of Narcotics Control**

vi.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Observations	Reply
3.2.P.2.3 Please justify that why Pharmaceutical	Ketasol has been chosen because it is a

	equivalence studies have been performed against a local brand **Ketasol** instead of Innovator brand	registered brand in Pakistan by DRAP. This was also supported by "WHO Annexure 8 ; guidance for the selection of comparator pharmaceutical product for equivalence assessment of interchangeable multisource"
	Please submit COA and approval documents of API import from DRAP for API LOT# SLL/KH/0618040.	Submitted

Decision of 330th meeting of DRB:

Registration Board deferred the case for opinion of Division of Control Drugs, DRAP regarding:

i. *Legal status for API (Ketamine HCl) imported before declaration as controlled drug and afterwards its consumption by Drug Product Manufacturer for Pharmaceutical Development & stability batches.*
ii. *Requirement of manufacturing area whether segregated Psychotropic facility required or not.*

Remarks of the Evaluator:

- The firm has imported the ketamine API (03kg) as per provided invoice vide Invoice # SLL/E/18-19/868 Dated 6/11/2018
- Trial batches were manufactured in 11/2020, 01/2021 & 06/2021.
- Ketamine and its salts have been declared as "Psychotropic" vide SRO No. 1350(I)/2021 dated 15-10-2021.
- Firm possess Liquid Injectable (psychotropic) section.
- Firm already possess registration of ketamine in 10 ml ampoule.

Decision: Approved subject to submission of No objection Certificate issued by Ministry of Narcotics Control

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Item No. 06: Priority as per 257th meeting of Drug Registration Board

	Remarks of the Evaluator[3].	Inspection report required
	Decision: The Board decided to refer the case to sub committee for pharmaceuticals.	

Agenda of Evaluator PEC-IX

Case no. 01 Registration applications of newly granted DML

268.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Biogen Life Sciences, 8-Km, Chakbeli Road, Rawat.**
	Name, address of Manufacturing site.	M/s Biogen Life Sciences, 8-Km, Chakbeli Road, Rawat. DML No. 000911
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	New DML/Section
	Evidence of approval of manufacturing facility	Copy of grant of DML letter vide No. 1-2/2019-Lic dated 14.02.2023 is submitted. Dry Vial Injection (General)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 26294 dated 31.10.2023
	Details of fee submitted	PKR 30,000/- Slip No. 646535107796 dated 10.10.2023
	The proposed proprietary name / brand name	**GENTHATE 4.5M.I.U Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Colistimethate sodium (4.5MIU) eq to Colistin base activity 150mg
	Pharmacotherapeutic Group of (API)	Polymyxins ATC Code: J01XB01
	Pharmaceutical form of applied drug	Glass vial filled with white to off-white colored lyophilized powder.
	Reference to Finished product specifications	USP Specifications.
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	COLISTIMETHATE SODIUM EQ 150MG BASE/VIAL USFDA Approved.
	For generic drugs (me-too status)	CBA 150 Injection Reg. No. 103783 Imported by Biocare Pharma Lahore.
	Name and address of API manufacturer.	M/s Xellia Pharmaceuticals ApS Dalslandsgade 11 DK-2300 Copenhagen S. Denmark.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. A1600307
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. Batch No. A1680475, A1680476, A1680477
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against comparator product **COlETIC 4.5MIU Inj Batch no. ____ exp. _____. manufactured by _____.** **Tests:** Description, identification, LOD, pH, uniformity of dosage, particulate matter, sterility, BET, Assay.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Xellia Pharmaceuticals ApS Dalslandsgade 11 DK-2300 Copenhagen S. Denmark.		
API Lot No.	A1600307		
Description of Pack (Container closure system)	Power for solution for injection in Type- I glass vial.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T001	T002	T003
Batch Size	250 vials	250 vials	250 vials

Manufacturing Date	10.2022	10.22	10.22
Date of Initiation	04.10.2022	04.10.2022	04.10.2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section, NA
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Verifiable from EudraGMP DUNS No. 305814345 & 401172630
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Colistimethate sodium (USP)** Batch No.: Mfg date: Exp date: Quantity: Invoice No.: Invoice date: Cleared by AD I&E
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Coletic) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required.
2.	3.2.P.8	Copy of executed BMRs of trial batches are required.
3.	-	Copy of purchase documents of Drug Substance are required. (AD attested invoice or clearance certificate)

Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

269.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Biogen Life Sciences, 8-Km, Chakbeli Road, Rawat.**
	Name, address of Manufacturing site.	M/s Biogen Life Sciences, 8-Km, Chakbeli Road, Rawat. DML No. 000911

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted. 1 product
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of Eudra GMP certificate No. IT-API-249/H/2022 valid till 01.10.2023 is submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Taken Loan from M/s Valor Pharma** **Triamcinolone Acetonide USP** Batch No.: 2196NM0152221 Mfg date: 01.08.2022 Exp date: 01.08.2027 Quantity: 150g Invoice No.: 474 Invoice date: 20.03.2023 Cleared by AD I&E DRAP Islamabad on 19.04.2023

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1	3.2.P.2.2	In manufacturing method given, it's not mentioned that at which step drug substance will be incorporated in the formulation. Provide clear detailed manufacturing method.	The firm vide letter No. Nil dated 25.11.2023 has submitted detailed manufacturing method. As per manufacturing method, polyethylene will be dissolved in mineral oil and then triamcinolone is added in this mixture.
2	3.2.P.2.2	Pictorial evidence of reference product (Kenalog) is required.	The pictorial evidence is submitted. Batch No. 5M3H
3	3.2.P.8	Copy of executed BMRs of trial batches are required.	Copies of BMR of batch Nos. T001, T002 & T003 are submitted.
4	-	The product applied has word "ointment" in its name. The RRA reference submitted is of oral paste (discontinued). Formulation adopted also does not indicate it to be a conventional ointment. The description of the product also mentions it as a dental paste. The monograph present in pharmacopoeia is also of a dental paste. Clarification regarding name of product is required and valid RRA reference is also required.	The firm has submitted that local brand leader's product name is orabase ointment. Formulation description applied is of emollient dental paste. The firm has submitted RRA evidence of "Oralone 0.1% dental paste", as per FDA database, the product is discontinued. No reason of discontinuation is mentioned. The product is approved in TGA Australia as "KENALOG IN ORABASE triamcinolone acetonide 1 mg/g paste tube" ARTG ID 19205

Decision: Approved. The registration letter shall be issued after submission of fee of Rs. 7500/- as per SRO 496(I)/2023 for change of name of product.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Batch No. CEIV/B2107059
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for

		36 months. Batch No. CEIV/b1203011, CEIV/b1203012, CEIV/b1203013
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against comparator product **Maxipime 1g Injection batch no._____exp. _____. manufactured by_____.** Pictorial evidence is not submitted. **Tests:** Description, identification, particulate matter, pH, Assay.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	M/s Kopran Research Laboratories Limited, K4/4, Additional MIDC, At & Post Birwadi, Taluka Mahad, District Raigad Maharashtra, India.		
API Lot No.	CEIV/B2107059		
Description of Pack (Container closure system)	White to pale yellow powder filled in glass vial with flip-off seal.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T001	T002	T003
Batch Size	500 vials	500 vials	500 vials
Manufacturing Date	09.2022	09.2022	09.2022
Date of Initiation	16.09.2022	16.09.2022	16.09.2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. NEW-WHO-GMP/CERT/KD/26116/2015/11/10947 dated 15.06.2015 valid till 14.04.2017, issued FDA Maharashtra India.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	_____ Batch No.: Mfg date: Exp date:

		Quantity: Invoice No.: Invoice date: Cleared by AD I&E
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Maxipime) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required.
2	3.2.P.8	Copy of executed BMRs of trial batches are required.
3	-	Copy of purchase documents of Drug Substance are required. (AD attested invoice or clearance certificate)
4	-	The batch numbering used for trail batches is same for all products. Batch No. should be unique for trial batches of different batches.

Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (ciproxin) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required
2.	3.2.P.5.2	In dissolution, wavelength for analysis is mentioned as 282nm, USP monograph mentions that it should be 276nm. Justify this difference.
3.	3.2.P.5.3	In system suitability, it is mentioned that it was performed using replicate injections (n=6). As per USP monograph it should be done by ensuring resolution of NLT 6 between the ciprofloxacin ethylenediamine analog and ciprofloxacin, System suitability solution. Why system suitability is not done as per USP monograph?
4.	3.2.P.8	Submit copy of executed BMRs of trial batches
5.	3.2.P.8	The chromatogram of system suitability done as per USP monograph is required. Further in every chromatogram there is a minor unidentified peak at RT 4.2. There is no chromatogram of blank/ mobile phase injection either for comparison. Justify.

Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. HB00U2107001
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months. Batch No. HA00N110913, HA00N110914, HA00N110915.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch

		analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Forcip 750mg Tablet. **Reference product:** Hiflox 750 Tablet, Batch No._____. mfg.:_____, Exp. _____ manufactured by M/s Bayer Pakistan Pictorial evidence not submitted. **Tests done:** Appearance, Identification, Weight variation, DT, Uniformity of dosage unit, Dissolution, Assay. **CDP:** **pH 1.2:** F2 98.61 **pH 4.5:** F2 97.71 **pH 6.8:** F2 97.81
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Zhejiang Langhua Pharmaceutical Co. Ltd., No. 7, Donghai 3rd Avenue, Zhejiang provincial chemical and medical materials base Linhai Zone, Linhai City, Zhejiang Province, China.		
API Lot No.	HB00U2107001		
Description of Pack (Container closure system)	White to off-white, oblong scored on one side, biconvex, film coated tablet in alu-alu blister		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date	12.2021	12.2021	12.2021
Date of Initiation	05.12.2021	06.12.2021	07.12.2021
No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	New DML
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. ZJ20190157 dated 30.11.2019 valid till 29.11.2024 issued by National Medical products Administration China
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Ciprofloxacin HCl** Batch No.: HB00U2107001 Mfg date: 08.07.2021 Exp date: - Quantity: 10kg Invoice No.: KF2810210186 Invoice date: 28.10.2021

		Cleared by: AD I&E DRAP Karachi on 18.11.21
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Hiflox) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required
2.	3.2.P.5.2	In dissolution, wavelength for analysis is mentioned as 282nm, USP monograph mentions that it should be 276nm. Justify this difference.
3.	3.2.P.5.3	In system suitability, it is mentioned that it was performed using replicate injections (n=6). As per USP monograph it should be done by ensuring resolution of NLT 6 between the ciprofloxacin ethylenediamine analog and ciprofloxacin, System suitability solution. Why system suitability is not done as per USP monograph?
4.	3.2.P.8	Submit copy of executed BMRs of trial batches
5.	3.2.P.8	The chromatogram of system suitability done as per USP monograph is required. Further in every chromatogram there is a minor unidentified peak at RT 4.2. There is no chromatogram of blank/ mobile phase injection either for comparison. Justify.

Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	DESLORATADINE 5 MG FILM-COATED TABLETS MHRA Approved.
	For generic drugs (me-too status)	Alenor 5mg Tablet Reg. No. 053481 M/s Macter International Karachi.
	Name and address of API manufacturer.	M/s Meropen Laboratories Ltd. Village Masulkhana Parwanoo Distt, Solan India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. DSL/002/21
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months.

		The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. Batch No. DH-1501, DH-1502, DH-1503.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Deslo. **Reference product:** Neo-Antial, Batch No. 003H ___. mfg.: ___, Exp. manufactured by M/s Sami Pictorial evidence not submitted. **Tests done:** Description, dissolution, DT, Average weight, Uniformity of dosage unit & Assay. **CDP:** **pH 1.2:** F2 dissolution above 85% in 15min **pH 4.5:** F2 dissolution above 85% in 15min **pH 6.8:** F2 51%
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

	Details of fee submitted	PKR 30,000/- Slip No. 83217485702 dated 02.10.2023
	The proposed proprietary name / brand name	**OMIRIN Insta 40mg/1680mg Sachet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each sachet contains contains; Omeprazole…..... 40mg Sodium bicarbonate 1680mg
	Pharmacotherapeutic Group of (API)	Proton pump inhibitors ATC Code: A02BC01
	Pharmaceutical form of applied drug	Powder in unit pack sachet for oral suspension.
	Reference to Finished product specifications	**Innovator Specifications.**
	Proposed Pack size	1x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Zegerid OTC 40mg Sachet USFDA Approved.
	For generic drugs (me-too status)	Risek Insta sachet 40mg Reg. No. 058548 M/s Getz Pharma Karachi.
	Name and address of API manufacturer.	**Omeprazole** M/s Tagoor Laboratories Pvt. Ltd. Unit-1, Sy. No. 29 Tupakulagudem, Pochvaram Panchayat, Tallpudi Mandal, East Godavari, Andhra Pradesh India. **Sodium Bicarbonate** M/s Emmennar Pharma Provate Limited, Plot No. A-4, Industrial Estate, Sanath Nagar, Hyderabad Telangana India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of

		manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. OPZ-I/00103/22 SBC-20020
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. (60 months for sodium bicarbonate) OPZ-0010619, OPZ-0020619, OPZ-0030619. SBC-1703002, SBC-1703003, SBC-1703004.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Omirin 40/1680 Sachet Batch No. **Reference product:** Risek isnta 40mg Sachet, Batch No._____. mfg.:_____, Exp. _____manufactured by M/s Getz Pharma Pictorial evidence is not submitted. **Tests done:** physical characteristics before and after reconstitution, Identification, General tests for sodium, pH, Loss on Drying, Uniformity of dosage units, dissolution test, Assay. **CDP:** Not submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.
STABILITY STUDY DATA		

Manufacturer of API	**Omeprazole** M/s Tagoor Laboratories Pvt. Ltd. Unit-1, Sy. No. 29 Tupakulagudem, Pochvaram Panchayat, TallpudiMandal, East Godavari, Andhra Pradesh India. **Sodium Bicarbonate** M/s Emmennar Pharma Provate Limited, Plot No. A-4, Industrial Estate, Sanath Nagar, Hyderabad Telangana India.		
API Lot No.	OPZ-I/00103/22 SBC-20020		
Description of Pack (Container closure system)	White to off white powder in aluminium foil sachet.

No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Omeprazole** . **Sodium Bicarbonate** .
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Omperazole** Batch No. OPZ-1/00103/22 Mfg: 03.2022 Exp: 08.2024 Invoice No.: EXP/102 (22-23) Dated: 29.07.2022 Cleared by:
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	3.2.P.2	In pharmaceutical equivalence, batch No. mfg date and exp date of reference product (risek) is required.	The firm vide letter No. nil dated 13.12.2023 has submitted pictorial

		Pictorial evidence of reference product is also required. CDP is not performed, justify.	evidence of reference product Risek insta 40mg along with details. CDP has also been performed at 3 physiological pH. The results of both test and reference product are comparable.
2.	3.2.P.8	Batch numbers of different strengths should not be identical. Batch numbers need to be unique.	The firm has stated that they have revised their batch number system and in future all batch numbers will be unique.
3.	-	Submitted copies of AD attested invoices of both drug substances or their clearance certificates issued by DRAP.	The firm has submitted NOC for import of Raw material dated 26.12.2019 issued by AD I&E DRAP Lahore. The material was cleared by DHL and delivered directly to the Firm. The firm has submitted copies DHL bill receipts.
4.	-	Copy of GMP certificate of drug product manufacturer is required for both drug substances.	Submitted. Cetificate No. HM07-15030/45/2023-DD-DDCA dated 15.05.2023. Valid till 14.05.2024. Issued by Drug Control Administration Andhra Pradesh India.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.S	The S part in Module 3 is not provided. It is required for both drug substances.	The firm vide letter No. nil dated nil has submitted that *"S part has already been submitted and approved in 323rd meeting of Registration Board for JHK-Sol DS 500ml & 100ml, JHK Sol-NS, JHK-Sol 5% & 10%. However copy of DMF has been enclosed for kind reference"*

			The firm has only submitted a single page reply. No DMF is submitted with the letter	
2.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Unisol-Peads) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required	The firm vide letter No. nil dated nil has submitted following details along with pictorial evidence; Unisol peads, Batch No. 2081076 Mfg date 08.2022, EXP 07.2024 Manifacturer: Unisa Pharma.	
3.	3.2.P.5.3	Verification of analytical procedures is not submitted.	The firm has submitted that they have already submitted it dossiers of JHK Sol DS 500ml & 1000ml and is attached for reference. The reply is a single page only, the firm has not submitted the verification studies of analytical procedures.	
4.	3.2.P.8	Submit studies conducted for potential water loss from your primary container (semipermeable LDPE container) as per ICH guidelines [ICH Q1A(R2)].	The firm has stated that for test of water loss, fill volume test has been relied upon since applied product has same solutes as already approved for JHK-SOL-DS	
5.	3.2.P.8	Submitted copies of executed BMRs of trial batches.	Submitted.	
6.	3.2.P.8	The copy of invoice of Sodium chloride is not readable. Its clear copy is required.	Submitted.	

Decision: The board deliberated on the matter and keeping in view the fact that products of the firm have already been approved in 323rd meeting of RB on basis of data submitted in S part of the dossier, the Board approved the application of "JHK-Sol Peads 500ml IV Infusion.".

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Time Period	Real time: 6 months

		Accelerated: 6 months		
Frequency		Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.		Trial 1	Trial 2	Trial 3
Batch Size		500 bottles	500 bottles	500 bottles
Manufacturing Date		04.2022	04.2022	04.2022
Date of Initiation		21.04.2022	21.04.2022	21.04.2022
No. of Batches		3		
DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New DML		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Dextrose;** Copy of certificate No. SD20170644 dated 12.01.2018 valid till 11.01.2023 issued by National Medical Product Administration is submitted. **Sodium Chloride;** Copy of certificate No. TT60-565-16-3 dated 28.07.2021 valid till 28.01.2023 issued by MEDSAFE New Zealand is submitted.		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Dextrose anhydrous;** Taken loan from M/s Atlantic Pharmaceutical Laboratories Peshawar. Batch No.: 202106156 Quantity: 48000Kg Invoice No.: KF2105111A Invoice date: 23.06.2021 Cleared by: AD I&E DRAP Peshawar **Sodium Chloride;** Taken loan from M/s Atlantic Pharmaceutical Laboratories Peshawar. Batch No. Mfg date: Exp date: Quantity: 24 metric tons Invoice No.: Invoice date: Cleared by:		
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.		
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.		
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.		

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.S	The S part in Module 3 is not provided. It is required for both drug substances.	The firm vide letter No. nil dated nil has submitted that *"S part has already been*

			submitted and approved in 323rd meeting of Registration Board for JHK-Sol DS 500ml & 100ml, JHK Sol-NS, JHK-Sol 5% & 10%. However copy of DMF has been enclosed for kind reference" The firm has only submitted a single page reply. **No DMF is submitted with the letter**	
2.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Unisol-DS1/2 Infusion) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required	The firm vide letter No. nil dated nil has submitted following details along with pictorial evidence; Unisol DS1/2, Batch No. 3011039 **Mfg: 01.2023**, EXP 12.2025 Manufacturer: Unisa Pharma.	
3.	3.2.P.5.3	Verification of analytical procedures is not submitted.	The firm has submitted that they have already submitted it dossiers of JHK Sol DS 500ml & 1000ml and is attached for reference. The reply is a single page only, the firm has not submitted the verification studies of analytical procedures.	
4.	3.2.P.8	Submit studies conducted for potential water loss from your primary container (semipermeable LDPE container) as per ICH guidelines [ICH Q1A(R2)].	The firm has stated that for test of water loss, fill volume test has been relied upon since applied product has same solutes as already approved for JHK-SOL-DS	
5.	3.2.P.8	Submitted copies of executed BMRs of trial batches.	Submitted	
6.	3.2.P.8	The copy of invoice of Sodium chloride is not readable. Its clear copy is required.	Submitted	

Decision: The board deliberated on the matter and keeping in view the fact that products of the firm have already been approved in 323rd meeting of RB on basis of data submitted in S part of the dossier, the board approved the application of "JHK-Sol DS1/2 500ml IV Infusion.".

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

4.	3.2.P.5	The monograph of drug product is available in British Pharmacopoeia and specifications of applied product are innovator. Justify.	No response submitted.

5.	3.2.P.8	Copies of executed BMRs of trial batches are required.	Copies of BMR of trial batches T001, T002 & T003 are submitted.	

Decision: Keeping in view the guidance issued vide letter No. 9-2/2022-PEC dated 18.12.2023, the board approved the application of "PRENAG 100mg Capsule" with innovator specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case no. 02 Registration applications of contract manufacturing

293.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s CCL Pharmaceutical (Pvt.) Ltd. 62-Industrial estate, Kot Lakhpat, Lahore. (DML No. 000052)**
	Name, address of Manufacturing site.	M/s Bio-Mark Pharmaceuticals, Plot No. 527, Sunder Industrial Estate, Lahore. DML No. 000863.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the firm	Copy of GMP certificate No. 47/2020-DRAP (AD-849966-789) dated 26.02.2020 valid till 12.02.2022 issued by DRAP Lahore in favour of M/s Bio-Mark is provided. (Firm has applied for new GMP certificate) Copy of GMP certificate No. 118/2019-DRAP (AD-789112-762) dated 13.05.2019 valid till 29.04.2022 issued by DRAP Lahore in favour of M/s CCL is provided.
	Evidence of approval of manufacturing facility	Not submitted
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 3220 dated 03.02.2023
	Details of fee submitted	PKR 75,000/- Slip No. 40961161 dated 19.12.2022
	The proposed proprietary name / brand name	**MITZAP 15mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains; Mirtazapine…….15mg
	Pharmacotherapeutic Group of (API)	Other antidepressants. ATC Code: N06AX11
	Pharmaceutical form of applied drug	Film coated tablet
	Reference to Finished product specifications	**USP Specifications.**
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	Mirtazapine 15 mg, 30 mg and 45 mg film-coated tablets - PL 28444/0097-9 MHRA Approved.
	For generic drugs (me-too status)	Mirtazep 15mg tablet Reg. No. 024215 M/s Zafa Pharmaceutical Labs Karachi.
	Name and address of API manufacturer.	M/s Maithri Drugs Pvt. Ltd. Sy. No. 205, 222 to 226, IDA Bonthapally, Bonthapally(village) Gummadidala (Mandal) Sangareddy District, Telangana India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. MZ0090521
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. Batch No. MZ0010118, MZ0020118, MZ0030118
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Mtpine 15mg Batch No. PTLAM-001 mfg 02-2020. **Reference product:** Mirtazep 15mg Tablets, Batch No. ZFM/117. mfg.: -, Exp. 05.2023 manufactured by M/s Zafa Karachi. Pictorial evidence is submitted. **Tests done:** physical characteristics, Identification, weight variation, DT, uniformity of dosage unit, dissolution and assay **CDP:** **At pH 1.2:** F2 = more than 85% in 15 min **At pH 4.5:** F2 = more than 85% in 15 min

		At pH 6.8: F2 = 69
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	M/s Glen Mark Life Sciences Limited (701214), A-80,, MIDC, Kurkumbh, Tal, D/UND-413802, Dist-Pune Zone 4, Maharashtra India.		
API Lot No.	83220730		
Description of Pack (Container closure system)	A film coated pink colour oval shaped, tablet, plain on both sides, packed in alu-alu blister, packed in unit carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	AMM-001	AMM-002	-
Batch Size	5000 tablets	5000 tablets	-
Manufacturing Date	06.2022	06.2022	-
Date of Initiation	01.07.2022	01.07.2022	-
No. of Batches	2		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. 6104231 dated 25.01.2022 valid till 24.01.2023 issued by FDA Maharashtra India is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Apremilast** Batch No.: 83220730 Mfg date: Exp date: Quantity: 700gm Invoice No.: 8009/SR/ROW/22-23 Invoice date: 18.01.2022 Cleared by: AD I&E DRAP Lahore.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	-	The copy of manufacturing license of drug substance manufacturer does not list Apremilast. Clarify.	The firm vide letter No. CCL/23/R-189 dated 13.12.2023 has submitted theirreply. Copy of License No. 1098963 dated 14.08.2022 issued by FDA Maharashtra is

			submitted. In license Apremilast is mentioned.
2.	3.2.P.2.2	The manufacturer of reference product used in pharmaceutical equivalence (Otezla) is not mentioned. Further pictorial evidence of reference product is also required.	Submitted. Otzela, product of Amgen GmbH Netherlands. Batch No. F2684A Same pack contains multiple strengths that's why batch No. of multiple strengths are same.
3.	3.2.P.2.2	In comparative dissolution profile, F2 factor calculation at pH 4.5 is not submitted.	Submitted. Results are comparable with reference product.
4.	3.2.P.8	Accelerated and real time stability studies data of drug product at 3rd time point (6th month) are not submitted.	Complete stability data for 6 months is submitted.

Decision: Approved in the light of legal opinion of the member registration board representing the Division of Law and Justice, Government of Pakistan.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

297.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s CCL Pharmaceutical (Pvt.) Ltd. 62-Industrial estate, Kot Lakhpat, Lahore. (DML No. 000052)**
	Name, address of Manufacturing site.	M/s Horizon Healthcare (Pvt.) Ltd. Plot no. 33, Sunder Industrial Estate Lahore. DML No. 000782.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the firm	Copy of GMP certificate No. 37/2022-DRAP(AD-98034851686) dated 28.03.2022 valid till 14.10.2023 issued by DRAP Lahore in favour of M/s Horizon is provided. Copy of GMP certificate No. 118/2019-DRAP (AD-789112-762) dated 13.05.2019 valid till 29.04.2022 issued by DRAP Lahore in favour of M/s CCL is provided.
	Evidence of approval of manufacturing facility	Copy of approval of Tablet (General) vide letter No. 1-51/2004-Lic (Vol-I) dated 07.06.2022 issubmitted.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)

	The proposed proprietary name / brand name	**APLAST 30mg Tablet**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains; Apremilast..... 30mg
	Pharmacotherapeutic Group of (API)	Selective immunosuppressants ATC Code: L04AA32
	Pharmaceutical form of applied drug	Film coated tablet
	Reference to Finished product specifications	**Innovator Specifications.**
	Proposed Pack size	Two weeks' starter pack; 13 Tablet blister pack containing 10mg 4 tablets 20mg 4 tablets 30mg 5 tablets 28 days' starter pack; 13 Tablet blister pack containing 10mg 4 tablets 20mg 4 tablets 30mg 5 tablets Additional 30mg tablets: 42 tablets. **28's, 60's, 500's,**
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Otezla 30 mg film-coated tablets MHRA Approved.
	For generic drugs (me-too status)	NA
	Name and address of API manufacturer.	M/s Glen Mark Life Sciences Limited (701214), A-80, MIDC, Kurkumbh, Tal, D/UND-413802, Dist-Pune Zone 4, Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. 83220730
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. Batch No. 83151223, 83151300, 83151315
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process

		and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Aprimelast 30mg Tablet Batch No. PTAMH-001 mfg 06-2022. **Reference product:** Otezla 30mg tablets, Batch No. F2663AA. mfg.: -, Exp. 05.2023anufactured by M/s Pictorial evidence not submitted. **Tests done:** physical characteristics, Identification, weight variation, DT, uniformity of dosage unit, dissolution and assay **CDP:** **At pH 1.2:** F2 = 88 **At pH 4.5:** F2 = 98 **At pH 6.8:** F2 = 72
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

2.	-	The list of API for which drug substance manufacturer is authorized is not attached with copy of its manufacturing authorization.	Copy of permission to manufacture Elagolix Sodium for export to Pakistan is submitted. Issued by Drugs Control Administration Andhra Pradesh.
3.	3.2.P.2.2	The manufacturer of reference product used in pharmaceutical equivalence (Orilissa) is not mentioned. Further pictorial evidence of reference product is also required.	Submitted. Orilissa 200mg, product of M/s Abbvie Inc North Chicago USA. Batch No. 100038816
4.	3.2.P.8	Accelerated and real time stability studies data of drug product at 3rd time point (6th month) are not submitted.	Complete stability data for 6 months is submitted.

Decision: Approved in the light of legal opinion of the member registration board representing the Division of Law and Justice, Government of Pakistan.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	4WD100	4WD101	4WD102
Batch Size	6666 bottles	6666 bottles	6666 bottles
Manufacturing Date	04.2022	04.2022	04.2022
Date of Initiation	04.2022	04.2022	04.2022
No. of Batches	3		
DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA			

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Local purchase
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	-	Copy of section approval letter of drug product manufacturer is required.
2.	-	Copy of GMP certificate of drug substance manufacturer is required.
3.	3.2.P.2	Pictorial evidence of the reference product used in pharmaceutical equivalence is required.
4.	3.2.P.8	Chromatograms submitted are not visible. Clear copies of chromatograms are required.
5.	3.2.P.8	Audit trail of HPLC is required.

Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. AOND-17002, AOND-17003 AOND-17004.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** VOMFRAN 8mg/4ml Injection Batch No. 01 **Reference product:** Zofran 8mg Injection, Batch No. TA9B. mfg.:04.2020, Exp. 05.2023

		manufactured by M/s GSK Pakistan Pictorial evidence is not submitted. **Tests done:** physical characteristics, Identification, pH, Assay.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Anugraha Chemicals, D-47, D-48, D-49, D-50 & C-62 KSSIDC, Industrial Estate Doddaballapur India.		
API Lot No.	AOND20003		
Description of Pack (Container closure system)	Clear, almost colourless solution, free from any visible particle filled in amber glass ampoule.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	01	2	3
Batch Size	18410 ampoules	23463	22236 ampoules
Manufacturing Date	09.2020	11.2020	10.2021
Date of Initiation	10.09.2020	30.12.2020	29.10.2021
No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. DCD/SPL-1/CR-1733/2021-22 dated 31.01.2022 valid till 30.01.2023 issued by Drug Control department Karnataka state India is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Ondensetron HCL Injection grade** Batch No. AOND20003 Mfg: 02.2020 Exp: 01.2025 Invoice No.: PCI/CI20/06002 Dated: 15.06.2020 Cleared by AD I&E DRAP Karachi
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	-	Layout approval letter is provided. Section Approval letter is required.

2.	3.2.P.5	The specifications claimed for the drug product are USP specifications. As per USP monograph, for system suitability and verification of chromatographic system ondansetron related compound A is required to be used. The submitted method does not indicate system suitability as per USP monograph. Justify.	
Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.			

Case no. 03 Registration applications to be considered on Priority as per 257th meeting of Registration Board

The board in its 257th meeting decided that drugs for treatment of cancer, viral diseases, thalassemia, immunosuppressant, vaccine and sera, new molecules / formulations, blood factors and bags will be given priority consideration.

	Name, address of manufacturer(s)	**M/s Cipla Ltd.** S-103 to S-105, S-107 to S-112, L-138, L-147, L-147/1 to L-147/3 & L-147/A, Verna Industrial Estate, Verna, Goa, India.
	Name of exporting country	India
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized CoPP (No. 789/MFG/WHO-GMP/DFDA/2022/71) dated 22.06.2022 issued by **Directorate of Food & Drugs Administration, Govt of Goa, India**. Name and dosage form on the CoPP certificate mentioned is "PICICLIB 75 capsules" and name of the product license holder is M/s Cipla Ltd. S-103 to S-105, S-107 to S-112, L-138, L-147, L-147/1 to L-147/3 & L-147/A, Verna Industrial Estate, Verna, Goa, **India.** The certificate also confirms that the applied formulation is actually on the market in the exporting country. Pakistan is mentioned in list of importing countries on CoPP. **GMP:** Applicant has submitted copy of GMP certificate No. 789/MFG/WHO-GMP/DFDA/2022/886 dated 22.06.2022 issued by **Directorate of Food & Drugs Administration, Govt of Goa, India** in the name of M/s Cipla Ltd. S-103 to S-105, S-107 to S-112, L-138, L-147, L-147/1 to L-147/3 & L-147/A, Verna Industrial

		Estate, Verna, Goa, **India.** having its manufacturing site at same address. As per certificate, last inspection of the manufacturer was conducted on 25th & 26th April, 2022.
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of Letter of Authorization. The letter specifies that product license holder i.e. M/s Cipla Ltd. S-103 to S-105, S-107 to S-112, L-138, L-147, L-147/1 to L-147/3 & L-147/A, Verna Industrial Estate, Verna, Goa, India authorizes M/s A.J. Mirza Pharma (Pvt.) Ltd. 1st Floor Shafi Court, Civil Lines, Merewether Road, Karachi to import below mentioned products for the territory of Pakistan. *PICICLIB 75mg Capsule* *PICICLIB 100mg Capsule* *PICICLIB 125mg Capsule* *Enzalutamide 40mg Capsule* *Nilotinib 150mg Capsules* *Nilotinib 150mg Capsules*
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 21293 dated 29-08-2023.
	Details of fee submitted	PKR 150,000/- vide slip No. 38927334 Dated: 10.04.2023
	The proposed proprietary name / brand name	**PICICLIB 75mg Capsules**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each capsule contains:** Palbociclib……75mg.
	Pharmaceutical form of applied drug	Hard gelatin capsules in HDPE containers.
	Pharmacotherapeutic Group of (API)	Cyclin-dependent kinase (CDK) inhibitors. ATC Code: L01EF01
	Reference to Finished product specifications	**Manufacturer's Specifications.**
	Proposed Pack size	21's.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	IBRANCE 75mg, 100mg & 125mg Capsules USFDA Approved.
	For generic drugs (me-too status)	Ibrance 75mg Reg. No. 103786 M/s Pfizer Karachi.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities,

		specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s MSN Laboratories Pvt. Ltd. Sy. No. 50, Kardanur (Village) Patancheru (mandal) Sangareddy District Telangana, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (0000693819, 0000693821, 0001190410) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40±2 ℃ 75%±5 RH: 6 months (Accelerated) 25 ºC±2℃ 65%±5% RH: 24 months (Real time) Batch No. ZP0020618, ZP0030618, ZP0040618
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis (GJ20380)
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Ibrance capsules 75mg Lot No. R93133 manufactured by Pfizer exp date: 08.2018, by performing following tests; Average weight, DT, Assay, water content, total degradation products, CDP at pH 1.2 only with Ibrance 75mg. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	HDPE bottle with child resistant cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. **The real time stability study data is conducted at 30℃ ± 2℃, 75% ± 5% for 24 months**. Accelerated at 40±2°C/75±5%RH for 6 months. Batch No. GJ80697, GJ80698, GJ80699.
	Therapeutic indications in USFDA.	IBRANCE is a kinase inhibitor indicated in combination with letrozole for the treatment of postmenopausal women with estrogen receptor (ER)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer as initial endocrine-basedtherapy for their metastatic disease. This indication is approved under accelerated approval based on

		progression-free survival (PFS). Continued approval for this indication may be contingent upon verification and description of clinical benefit in a confirmatory trial.

Evaluation by PEC:

Sr. No.	Section	Observation
1.	-	Letter of authorization submitted is a photocopy. Notarized copy of Letter of Authorization is required.
2.	3.2.P.2	For 75mg strength, CDP with Ibrance is done only at pH 1.2. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8.

Decision: The Registration board deferred the case for submittion of

1. **comparative dissolution profile (CDP) studies of the applied product with relevant strength of innovator/comparator product at pH 4.5 & 6.8 as CDP at only pH 1.2 with Ibrance 75mg has been performed.**
2. **The documents as required under the approved Guidance Document Regarding Application of Drug Product Specifications vide no. No.9-2/2022-PEC dated 18th December, 2023 for the claim of manufacturers specifications.**

The stability conditions with time durations are; 40±2 ℃ 75%±5 RH: 6 months (Accelerated) 25 ºC±2℃ 65%±5% RH: 24 months (Real time) Batch No. ZP0020618, ZP0030618, ZP0040618
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis (GJ80651, GJ80652, GJ80657)
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Ibrance capsules 125mg Lot No. S95591, DF8414 & R64950 manufactured by Pfizer by performing following tests; Average weight, DT, Assay, water content, total degradation products, CDP at pH 1.2, 4.5 & 6.8. Results of test and reference product are comparable.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	HDPE bottle with child resistant cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. **The real time stability study data is conducted at 30℃ ± 2℃, 75% ± 5% for 24 months**. Accelerated at 40±2℃/75±5%RH for 6 months. Batch No. GJ80668, GJ80671, GJ80672.
	Therapeutic indications in USFDA.	IBRANCE is a kinase inhibitor indicated in combination with letrozole for the treatment of postmenopausal women with estrogen receptor (ER)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer as initial endocrine-basedtherapy for their metastatic disease. This indication is approved under accelerated approval based on progression-free survival (PFS). Continued approval for

		this indication may be contingent upon verification and description of clinical benefit in a confirmatory trial.

Batch No.	1	2	3
Batch Size	100 bottles	100 bottles	100 bottles
Manufacturing Date	06.12.2021	08.12.2021	09.12.2021
Date of Initiation	14.12.2021	16.12.2021	17.12.2021
No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of license No. ZHE 20000292 dated 09.02.2021 valid till 29.06.2025 issued by Zhejiang FDA China is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Carbamazepine** Batch No. 200100A220131 Mfg: Exp: Invoice No.: Dated:

		Cleared by:
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
2.	-	As per submitted data it is perceived that the drug product applied is 50% granules of carbamazepine, which will be packed in bottles having fill weight 10g, 20g, 50g, 100g, which then will be used for preparation of oral suspension. How volume will be made up to adjust same strength in 10g, 20g, 50g and 100g packs? Please clarify how this product will be used by the patients and how dose will be adjusted?
3.	-	Copy of clearance certificate or AD attested invoice of drug substance is required.
4.	1.5.11 & 3.2.P.5	In artwork, the specifications are mentioned as USP Specifications, in 3.2.P part, the specifications mentioned are innovator specs. Please clarify. Further if end product is an oral suspension then why USP monograph is not followed?
5.	3.2.S.7	Stability studies data of only one batch is provided. Real time and accelerated stability data of 3 batches of drug substance is required.
6.	3.2.P.2	The batch number, manufacturing date and manufacturer of reference product (Tegretol granules) are not mentioned. Further pictorial evidence of reference product is required.
7.	3.2.P.5.1	Why dissolution test is not part of specifications? Justify.
8.	3.2.P.8	It is not clarified that what was pack size of the drug product that was placed on stability.
9.	3.2.P.8	Copies of executed BMRs are required.
10.	3.2.P.8	If the product is intended for preparation of oral suspension, then why in-use stability is not performed?

Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Nanjing Hencer Pharmaceutical Co. Ltd. No. 18 Jichang Road, Lishui Economic & Technological Development Zone Nanjing City, Jiangsu Province, China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (180602-Tq, 180603-Tq, 7W1797-Tq) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40 ^{o}C± 2°C 75% ±5% RH: 6 months 30 ^{o}C± 2°C 65% ±5% RH: 48 months Batch No. 180601, 180602, 180603
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Renvela batch No. 9W3530, 7W1797, 7W2712 and 7W2714 manufactured by_____ exp date:_____, by performing following tests; Appearance, identification, weight variation, disintegration, total titratable amines, LOD, limit of soluble oligomers, Limit of Allylamine, **Phosphorus binding rate**, microbial limit assay and elemental impurities.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	80mL HDPE white bottle with child resistant screw can and A1 induction seal and bottles are placed into small carton with a patient insert.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. The real time stability study data is conducted at 30 ºC± 2ºC 65% ±5% RH: for 48 months Accelerated stability studies are conducted at 40 ºC± 2ºC 75% ±5% RH: for 6 months 30 ºC± 2ºC 65% ±5% RH: In use stability for 10 days. Batch No. 191201, 191202, 191203
	Therapeutic indications in USFDA.	Renvela is a phosphate binder **Indications and Usage** Renvela (sevelamer carbonate) is indicated for the control of serum phosphorus in 3 patients with chronic kidney disease (CKD) on dialysis. The safety and efficacy of Renagel in CKD patients who are not on dialysis have not been studied.

Evaluation by PEC:

Sr. No.	Section	Observations

2.	-	Notarized copy of distribution agreement is required.
3.	-	Copy of GMP certificate of drug substance manufacturer is required. (is drug substance manufacturer same as drug product manufacturer? The drug substance is not mentioned in GMP certificate of M/s Nanjing Hencer Pharmaceutical Co. Ltd.
4.	3.2.P.2	• Why CDP is not performed. • Manufacturer, manufacturing date and expiry date of Reference product (Renvela) is not mentioned.
5.	3.2.P.5	Why dissolution testing of drug product is not performed.

Decision of 331st meeting of the Board: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings.

Evaluation by PEC:

Sr. No.	Section	Observations	Reply of Firm
1.	-	Copy of DSL submitted is in name of M/s MED-X Pharmacy and it's to sell	The firm vide letter No. nil dated nil has submitted copy of valid

			drugs in a Pharmacy. Copy of valid DSL of applicant is required.	DSL vide No. 05-352-0058-104514D valid till 08.05.2028	
	2.	-	Notarized copy of distribution agreement is required.	Legalized Exclusive Distribution Agreement is submitted. Product listed is only Sevelamer Carbonate 800mg Tablet 30 tablets/bottle M/s Nanjing Hencer Pharmaceutical Co Ltd has exclusively authorized M/s AMB HK Enterprises (Pvt.) Ltd. for sale of only this product in territory of Pakistan.	
	3.	-	Copy of GMP certificate of drug substance manufacturer is required. (is drug substance manufacturer same as drug product manufacturer? The drug substance is not mentioned in GMP certificate of M/s Nanjing Hencer Pharmaceutical Co. Ltd.	The firm has stated that Drug substance manufacturer is same as drug product manufacturer. The firm has submitted copy of GMP Compliance Inspection Results wherein it is mentioned that M/s Nanjing Hencer Pharmaceuticals Co ltd was inspected from 07.08.2020 to 09.08.2020 for API Sevelamer Carbonate and it conforms to GMP requirements.	
	4.	3.2.P.2	• Why CDP is not performed. • Manufacturer, manufacturing date and expiry date of Reference product (Renvela) is not mentioned.	The firm has submitted a statement of Drug product manufacturer that is reproduced below; "We, Nanjing Hencer Pharmaceutical Co. ltd. Declare that the dissolution test are not applicable for sevelamer carbonate tablets for following reasons; First drug substance of sevelamer carbonate is highly cross linked polymer with large molecular weight, which could not be absorbed by human body. Phosphate in GI tract will be absorbed to decrease phosphorus absorption and reduce the serum phosphate concertation. Second, based on guidelines by USFDA for sevelamer carbonate, dissolution test method is not applicable. Please check annex 1 for details. In the conclusion, dissolution is not applicable for sevelamer carbonate tablets 800mg,	
	5.	3.2.P.5	Why dissolution testing of drug product is not performed.		

				therefore it is not necessary to conduct CDP." The manufacturer of RLD Renvela is submitted as M/s Genzyme Europe BV, batch Nos 7W1797 (mfg 07.2017, Exp. 06.2020), 7W2712 (mfg 09.2017, Exp. 08.2020) 7W2714 (mfg 09.2017, Exp. 08.2020) against which comparative studies are done.	
Decision: Approved as per policy of inspection of manufacturer abroad.

Manufacturing Date	08-2020	08-2020	08-2020
Date of Initiation	05-09-2020	05-09-2020	05-09-2020
No. of Batches	03		
Date of Submission	09-06-2021		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents to Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	Last Product Specific Inspection of the firm was conducted for Gencox 90mg Tablet, for which the inspection was conducted on 31-12-2020 and 11-01-2021, the report was presented in 312th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copies of COAs of Obeticholic Acid (Batch# JZ191101-1) from M/s Nantong Chanyoo Pharmatech Co; Ltd. No.2 Tonghai Si Road , Yangkou Chemical Industrial Park, Rudong Coastal Economic Development Zone, Nantong, Jiangsu Province 226407,P.R.China and M/s McOlson Laboratories (Pvt) Ltd;26-km,Lahore Sharikpur Road, District Sheikhpura-Pakistan are submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Methods used for analysis of APIs from both API Manufacturers and Finished Product Manufacturer are provided by the firm.
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone IV-A. Stability study is conducted at Real time conditions; 30°C ± 2°C / 65% ± 5%RH for 12 months and at Accelerated conditions; 40°C ± 2°C / 75% ± 5%RH for 6 months at intervals 0, 3, 6, 9, 12, & 0, 1, 2, 3 & 6 months respectively. Batches:(201612001, 201612002, 201612003)
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate dated May,06,2019 in the name of M/s Nantong Chanyoo Pharmatech Co;Ltd, Address: No.2 Tonghai Si Road ,Yangkou Chemical Industrial Park , Rudong Coastal Economic Development Zone ,Nantong , jiangsu Province 226407,P.R.China issued by Nantong Chemical Medical Industry Association. **Valid until May,05,2022**
6.	Documents for the procurement of API with approval from DRAP (in case of import).	**Not submitted**

7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	NA
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** CLT-PB-01 / 900 tablets / 08-2020 CLT-PB-02 / 900 tablets / 08-2020 CLT-PB-03 / 900 tablets / 08-2020
11.	Record of comparative dissolution data (where applicable)	**Not Provided.** The firm has requested to exempt the study of CDP as Innovator or competitor product is not available in Pakistan.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted **except** COAs of all time points.
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

REMARKS OF EVALUATOR[X]

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Submit documents for the procurement of API with approval from DRAP.
- Submit valid approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin
- Submit record of comparative dissolution data
- Provide COAs of all time points of three stability batches for both accelerated and real time stability studies.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of DML no. 20160138 issued by Jiangsu Food and Drug Administration valid until 24-09-2025.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of invoice No. CY119238B dated MAR.06, 2020 from exporter M/s Changzhou Pharmaceutical Factory, No.518, Laodong East Road, Changzhou, Jiangsu 213018, China, for import of 33 grams of Apixaban (Batch No. ZSAP200101) in name of M/s McOlson Research Labs. (Pvt) Ltd Lahore attested by AD (I&E) DRAP Lahore dated 11-03-2020.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	NA

10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** AXT-PB-01 / 1000 tablets / 06-2020 AXT-PB-02 / 1000 tablets / 06-2020 AXT-PB-03 / 1000 tablets / 06-2020
11.	Record of comparative dissolution data (where applicable)	**Not Provided**
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator [X]:

- Latest GMP inspection report conducted within period of 3 years.
- Submit Comparative dissolution profile for 2.5mg strength against innovator/reference product.
- Justification shall be submitted for not including test of "Uniformity of Dosage Unit" by way of "content Uniformity" in finished drug product specifications.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

REMARKS OF EVALUATOR[X]

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Submit valid approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin
- 6 units of each of both test and reference product are used for CDP. Clarification is required in the light of FDA guidance for industry and EMA guidelines of comparative dissolution.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Comparative dissolution was performed against Jardy tablet (10mg) of M/s CCL Pharmaceuticals</td></tr>
</table>

		Pvt. Ltd. Batch No. RJ 62 in 0.1N HCl, Acetate buffer (pH 4.5) & Phosphate buffer (pH 6.8)
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

REMARKS OF EVALUATOR[X]

Sr.#	Observations	Firm's response
1.	Provide import documents (Bills of lading; packing lists; batch certificate – Form7) of API bearing Batch number of API.	Submitted
2.	Provide reference of previous approval of applications with stability study data of the firm.	Last Product Specific Inspection of the firm was conducted for Nuvaldi 400mg Tablet, for which the inspection was conducted on 06-04-2018, the report was presented in 281st meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
3.	Provide stability study data of API from API manufacturer as per zone IV-A conditions as the provided data is at 25˚C ± 2˚C / 60% ± 5%RH condition. In case where the real time stability data of drug substance is not available at 30˚C ± 2˚C / 65% ± 5%RH conditions, submit long term stability studies data of the drug product for 6 months along with degradation studies in the finished pharmaceutical product.	Firm has submitted stability study data of API as per zone IV-A conditions. Stability study is conducted at Real time conditions; 30˚C ± 2˚C / 65% ± 5%RH for 36 months and at Accelerated conditions; 40˚C ± 2˚C / 75% ± 5%RH for 6 months at intervals 0, 3, 6, 9, 12, 18, 24 & 36 & 0, 1, 2, 3 & 6 months respectively. Batches:(L-E-20200409-D01-E06-02, L-E-20200409-D01-E06-03, L-E-20200409-D01-E06-04)
4.	Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.	Submitted

Decision: Approved with Innovator's specifications.
Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

395.	Name and address of manufacturer / Applicant	M/s Neutro Pharma (Pvt) Ltd., 9.5 Km, Sheikhupura Road, Lahore.
	Brand Name +Dosage Form + Strength	Glifzin 25mg Tablet
	Composition	Each film coated tablet contains: Empagliflozin…25mg

	Diary No. Date of R& I & fee	Dy. No.41299 dated 07-12-2018; Fee Rs: 50,000/- dated 07-12-2018
	Pharmacological Group	Antidiabetic
	Type of Form	Form 5D
	Finished product Specifications	Innovator's specifications
	Pack size & Demanded Price	Packed in a unit carton in a box of 2 x 10's; As per SRO
	Approval status of product in Reference Regulator Authorities	Jardiance tablets (USFDA Approved)
	Me-too status	Emsyn 25mg tablets of M/s The Searle Company Limited, Karachi. (Reg. No. 093090)
	GMP status	GMP certificate issued based upon inspection conducted in 14-04-2022
	Remarks of the Evaluator

REMARKS OF EVALUATOR[X]

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Provide reference of previous approval of applications with stability study data of the firm.
- Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer
- Submit stability study data of API from API manufacturer as per zone IV-A conditions.
- Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
- Documents for the procurement of API with approval from DRAP.
- Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.
- Dissolution test parameters are mentioned as 30 minutes sampling time whereas the acceptance limit of innovator product is testing at 15 minutes. Justify.
- Dissolution test is performed on five (5) sample units at each time point, whereas as per USP Dissolution general chapter 6 or 12 units should be tested, justify.
- Record of comparative dissolution data
- Justification for using overage in master formula.
- Record of Digital data logger for temperature and humidity monitoring of stability chambers. (accelerated and real time).

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

The firm has submitted copy of invoice No. HY201202-1 dated 21-12-2020, for import of 1.0 Kg of Empagliflozin in name of M/s Wimits Pharmaceuticals (Pvt.) Ltd., Lahore attested by AD (I&E) DRAP Lahore dated 18-01-2021.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	N/A
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** TEM-001 / 2500 tablets / 03-2021 TEM-002 / 2500 tablets / 03-2021 TEM-003 / 2500 tablets / 03-2021
11.	Record of comparative dissolution data (where applicable)	Provided Comparative dissolution was performed in acidic buffer pH 1.2, Acetate buffer (pH 4.5) & Phosphate buffer (pH 6.8)
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted except summary data sheets
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

REMARKS OF EVALUATOR[X]

Initially applied with brand name "Glifloz" while submitted stability data with brand name "Empacor".

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Provide reference of previous approval of applications with stability study data of the firm.
- Specify comparator brand against which comparative dissolution has been performed.
- Record of Digital data logger for temperature and humidity monitoring of stability chambers. (accelerated and real time).

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

1.	Reference of previous approval of applications with stability study data of the firm	Last Product Specific Inspection of the firm was conducted for Glyzia-XR 50mg/500mg, 50mg/1000mg, & 100mg/1000mg tablets for which the inspection was conducted on 26-09-2018, the report was presented in 285th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copies of COAs (Batch# YF20190409) of API (Apixaban) from M/s. Jiangxi synergy Pharmaceutical Co., Ltd. Jiangxi Fengxin industrial park Jiangxi Province China. and AGP Limited B-23-C, S.I.T.E., Karachi are submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Methods used for analysis of APIs from both API Manufacturers and Finished Product Manufacturer are provided by the firm.
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone II-A. Stability study is conducted at Real time conditions; 25°C ± 2°C / 60% ± 5%RHfor 24 months and at Accelerated conditions;40°C ± 2°C / 75% ± 5%RH for 6 months at intervals 0, 3, 6, 9, 12, 18, 24 & 0, 1, 2, 3 & 6 months respectively.
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate dated 20-01-2022 in the name of M/s. Jiangxi synergy Pharmaceutical Co., Ltd., Jiangxi Fengxin industrial park Jiangxi Province China issued by Jiangxi CCD Valid till 19-01-2027.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm has submitted copy of invoice No. JXSG10425 dated 23-04-2019 from M/s. Jiangxi synergy Pharmaceutical Co., Ltd. for import of 0.125kgs of Apixaban (Batch No. YF20190409) in name of M/s AGP Limited Karachi attested by AD (I&E) DRAP Karachi dated 23-04-2019.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	Submitted
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of 03 Batches.
	Record of comparative dissolution data (where applicable)	Comparative dissolution was performed against Eliquis 2.5mg & Eliquis 5mg in HCl buffer (pH

		1.2), Acetate buffer (pH 4.5) & Phosphate buffer (pH 6.8)
11.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
12.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
13.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator [X]:

Sr.#	Observations	Firm's response
1.	Provide stability study data of API from API manufacturer as per zone IV-A conditions as the provided data is at 25˚C ± 2˚C / 60% ± 5%RH condition. In case where the real time stability data of drug substance is not available at 30˚C ± 2˚C / 65% ± 5%RH conditions, submit long term stability studies data of the drug product for 6 months along with degradation studies in the finished pharmaceutical product.	Firm has submitted stability study data of API as per zone IV-B conditions. Stability study is conducted at Real time conditions; 30˚C ± 2˚C / 75% ± 5%RH for 60 months and at Accelerated conditions; 40˚C ± 2˚C / 75% ± 5%RH for 6 months at intervals 0, 3, 6, 9, 12, 18, 24, 36, 48 & 60 & 0, 1, 2, 3 & 6 months respectively. Batches:(20180201Y, 20180202Y, 20180203Y)

Decision: Registration Board approved registration of Pixaban Tablet 5mg with Innovator's specifications by M/s AGP Limited, B-23-C, S.I.T.E., Karachi. The firm shall submit fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter.

- **Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

<tr><td colspan="3">REMARKS OF EVALUATOR[X]
Initially applied with brand name "Empazin" while submitted stability data with brand name "Empaken".
Shortcomings:
• Latest GMP inspection report conducted within period of 3 years.
• Accelerated and real time stability studies data is submitted till 3rd month time point, provide both accelerated and real time data upto 06 months.
• Provide reference of previous approval of applications with stability study data of the firm.
• Provide stability study data of API from API manufacturer as per zone IV-A conditions as the provided data is at 25°C ± 2°C / 60% ± 5%RH condition. In case where the real time stability data of drug substance is not available at 30°C ± 2°C / 65% ± 5%RH conditions, submit long term stability studies data of the drug product for 6 months along with degradation studies in the finished pharmaceutical product.
• Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.
• Justify as PVP is used in formulation while in innovator product, Hydoxy Propyl Cellulose is used. Also provide Drug-excipients compatibility studies.
• Justification for using overage in master formula.</td></tr>
</table>

- Dissolution test parameters are mentioned as 20 minutes sampling time and 50rpm whereas the acceptance limit of innovator product is testing at 15 minutes and 75rpm. Justify.
- Justification for using acetate buffer (pH 4) as medium for CDP, instead of acetate buffer pH 4.5?
- Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time).
- Justification of performing 3rd point time test in January instead of December.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

- Protocols followed for conduction of stability study
- Method used for analysis of FPP
- Complete batch manufacturing record of three stability batches.
- Record of comparative dissolution data (where applicable)
- Data of 03 batches will be supported by attested respective documents like chromatograms, COA, etc.
- Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
- Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Agenda of Evaluator PEC-XI

Case No. 01; Deferred routine registration applications of Human Drugs on Form 5F

408.	Name, address of Applicant / Marketing Authorization Holder	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer

		☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 11-07-2019 specifying Injectable section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 8300 dated 30-03-2022
	Details of fee submitted	Rs.50,000/- dated 25-02-2021
	The proposed proprietary name / brand name	**Mek-Min 1ml Ampoule Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml Contains: Mecobalamin…..... 500mcg
	Pharmaceutical form of applied drug	IV/IM
	Pharmacotherapeutic Group of (API)	Vitamins
	Reference to Finished product specifications	Neutro's specifications
	Proposed Pack size	1mlx10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Methycobal injection 500µg PMDA Japan Approved
	For generic drugs (me-too status)	Mecovex 500mcg injection by M/s Novex Pharmaceuticals (Reg# 99639)
	Name and address of API manufacturer.	M/s Mahima Life Sciences Pvt. Ltd., BT Road, Ganaur-131101 Sonepat, Haryana India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturingprocess and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real

		time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months. (Batches; MLMCB-361113, MLMCB-381113, MLMCB-391213)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Methycobal Injection 1ml by M/s Hilton Pharma by performing quality tests (Description, identification, pH, sterility, BET and assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including precision (repeatability, intermediate), linearity, ruggedness, LOD, LOQ, robustness.

STABILITY STUDY DATA

Manufacturer of API	M/s Mahima Life Sciences Pvt. Ltd., BT Road, Ganaur-131101 Sonepat, Haryana India		
API Lot No.	MLMCB-050318		
Description of Pack (Container closure system)	A red to dark red color solution, filled in amber glass printed ampoule of USP type I/II, thermally sealed, placed in a honey comb tray as 1x10 ampoules and packed in a unit carton		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	5000 ampoules	5000 ampoules	5000 ampoules
Manufacturing Date	03-2020	03-2020	03-2020
Date of Initiation	02-03-2020	02-03-2020	02-03-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP M/s Mahima Life Sciences Pvt. Ltd., BT Road, Ganaur-131101 Sonepat, Haryana India issued by Food & Drugs Administration Haryana India valid upto two years from date of issue. (Date of issue;13-09-2019-8)

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. 163/MAH/19-20 dated 19-01-2020 for import of 01kg of Mecobalamin JP (Batch# MLMCB-030120) in name of M/s Neutro Pharma. *However the invoice is not attested by AD (I&E) field office. (mfg date of API; 01/2020)*
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 10th March 2022. (almost 1 year before R&I date) • Fee of only Rs. 50000/- is submitted for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.
3.2.P.2	• Submit results of drug excipient compatibility study as the qualitative composition of applied product is not similar to reference product (**reference product**; Mecobalamin, D-mannitol….. **Applied product;** Mecobalamin, Disodium Edetate, D-Mannitol, Phenyl Mercuric Nitrate, WFI**)**
3.2.P.3	• Calculation for dispensed quantity of API in master formulation shall be submitted
3.2.P.5	• Justification shall be submitted for selecting different limit of pH test (4.5-7.0) in finished product specifications than that recommended by innovator product review document (5.3-7.3). • Results of analytical method validation studies including accuracy and specificity shall be submitted

3.2.P.8	• Submit documents for procurement of API with approval from DRAP • The batch No. of API in batch analysis of drug substance (MLMCB-050318, mfg date 03-2018) is different from that submitted in commercial invoice (Batch# MLMCB-030120), clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferrement Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 10th March 2022. (almost 1 year before R&I date) • Fee of only Rs. 50000/- is submitted for contract manufacturing	• The firm submitted that fee is submitted on 25-12-2021 and R&I date of submitted application is 30-03-2022. There is only 3 months difference between fee submission date and R&I date, not 1 year. • The statement of firm is not according to submitted documents as fee submitted date is 25-02-2021. Furthermore firm has submitted only Rs. 50000/- fee for contract manufacturing.
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. Applicant details: M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore Manufacturer details: M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F we have mistakenly submitted that applicant is manufacturer, actually applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority(Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section

1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP M/s Mahima Life Sciences Pvt. Ltd., BT Road, Ganaur, Distt. Sonepat, (Haryana) India issued by Food & Drugs Administration Haryana India valid upto 12-09-2024
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 is submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performedby the Drug Product manufacturer for drug substance is submitted.
3.2.P.2	• Submit results of drug excipient compatibility study as the qualitative composition of applied product is not similar to reference product (**reference product**; Mecobalamin, D-mannitol…... **Applied product;** Mecobalamin, Disodium Edetate, D-Mannitol, Phenyl Mercuric Nitrate, WFI**)**	• Drug-Excipient compatibility study is submitted
3.2.P.3	• Calculation for dispensed quantity of API in master formulation shall be submitted	• Calculation for dispensed quantity of API in master formulation is submitted
3.2.P.5	• Justification shall be submitted for selecting different limit of pH test (4.5-7.0) in finished product specifications than that recommended by innovator product review document (5.3-7.3). • Results of analytical method validation studies including accuracy and specificity shall be submitted	• No justification is submitted, instead finished product specifications is submitted again in which limits of pH test has been revised as per innovator product review document (5.3-7.3). • Firm has submitted results of analytical method validation studies including specificity, accuracy, linearity and range, precision, robustness, LOD and LOQ.
3.2.P.8	• Submit documents for procurement of API with approval from DRAP • The batch No. of API in batch analysis of drug substance (MLMCB-050318, mfg date 03-2018) is different from that submitted in commercial invoice (Batch# MLMCB-030120), clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted copy of invoice No. 163/MAH/19-20 dated 19-01-2020 for import of 01kg of Mecobalamin JP (Batch# MLMCB-030120) in name of M/s Neutro Pharma. *However the invoice is not attested by AD (I&E) field office.* • No clarification is submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Differential fee of Rs. 25,000/- for contract manufacturer, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**

• **Documents for procurement of API with approval from DRAP** • **Clarification since the batch No. of API in batch analysis of drug substance (MLMCB-050318, mfg date 03-2018) is different from that submitted in commercial invoice (Batch# MLMCB-030120)**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturingprocess and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.

	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. (Batches; OT-LID-S2-002/16, OT-LID-S2-003/16, OT-LID-S2-004/16) The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 9 months. (Batches; OP-LNZ-A1-001/20, OP-LNZ-A1-002/20, OP-LNZ-A1-003/20)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Ecosil Infusion 300ml by M/s Sami Pharmaceutical by performing quality tests (Description, identification, pH, sterility, BET and assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including precision (repeatability, intermediate), linearity, and accuracy.

STABILITY STUDY DATA

Manufacturer of API	M/s Optrix Laboratories Pvt Ltd. Survey No. 145/A & 147, Ramalingampally (V), Bommalaramaram (M), Yadadri-Bhuvanagiri District Telangana India.		
API Lot No.	OT-LID/01/20/011		
Description of Pack (Container closure system)	A clear, an almost colorless to pale yellow color solution, filled in a clear glass/LDPE 100ml sterile bottle neatly labelled and packed in a unit carton with plastic hanger and a leaflet		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	500 packs	500 packs	500 packs

Manufacturing Date	03-2020	03-2020	03-2020
Date of Initiation	17-03-2020	17-03-2020	17-03-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP M/s Optrix Laboratories Pvt Ltd. Survey No. 145/A & 147, Ramalingampally (V), Bommalaramaram (M), Yadadri-Bhuvanagiri District Telangana India, issued by Drugs Control Administration Telangana India valid upto 14-09-2021
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. 1920OT135/EXP dated 20-01-2020 for import of 02kg of Linezolid (Batch# OT-LID/01/20/011) in name of M/s Neutro Pharma attested by AD (I&E) DRAP Lahore dated 27-01-2020. *(mfg date of API; Oct 2019)*
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 12-05-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 09 months before R&I date)
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.5.5	• Indicate Pharmacological class of the API (drug substance) with proper reference
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.

3.2.S.7	• Stability study data of drug substance at real time conditions till claimed shelf life shall be submitted
3.2.P.2	• Submit results of drug excipient compatibility study as the qualitative composition of applied product is not similar to reference product (**reference product**; dextrose monohydrate, sodium citrate dihydrate, citric acid anhydrous. Sodium hydroxide NF and/or hydrochloric acid NF **Applied product;** dextrose anhydrous, sodium citrate dihydrate, citric acid anhydrous, Sodium hydroxide, Sodium chloride, WFI**)**
3.2.P.3	• Clarification is required as you have mentioned the use of 1.1% overage in master formulation • Innovator drug product is using sodium hydroxide and/or hydrochloric acid for attaining the pH within a narrow range of 4.4-5.2 while your master formulation does not specify the use of hydrochloric acid. Justification is required in this regard.
3.2.P.5	• Justification shall be submitted as analytical procedure for assay test is submitted as per UV method while method validation studies is submitted as per HPLC method • Results of analytical method validation studies including Specificity, Limit of Detection, Limit of Quantitation, Range and robustness shall be submitted • Justification shall be submitted for not performing the test for filled volume and particulate matter in batch analysis of the finished product as per submitted specifications.
3.2.P.7	• The applied label claim is for 300ml while applied pack size is 100ml, clarify?
3.2.P.8	• The mobile phase ratio mentioned in raw data sheet is water;ACN (30;70) while water;ACN (50;50) in analytical method validation, clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferrement Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 12-05-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 09 months before R&I date)	• The firm submitted that fee is submitted on 12-05-2020 and R&I date of submitted application is 08-03-2022, because initially our file was R&I on 05-11-2020, but our file was deferred in pre submission screening of CTD. We again submitted our application on 08-03-2022 along with deficient documents and deficient fee Rs. 25000/- on deposit slip#421746134 date 04-02-2022.
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. Applicant details: M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore Manufacturer details: M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore

	1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F we have mistakenly submitted that applicant is manufacturer, actually applicant is contract giver. It might be a typographical error.	
	1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section and LVP section	
	1.5.5	• Indicate Pharmacological class of the API (drug substance) with proper reference	• Monoamine Oxidase Inhibitors (MAO Inhibitor). However, it belong to Other antibacterials group ATC Code; J01XX08	
	1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• Firm has not submitted valid copy of cGMP/DML of Drug substance manufacturer. • However the firm has submitted copy of letter for change of company name from M/s Optrix Laboratories Pvt Ltd. To M/s Optimus drugs Private Limited., Unit III, Survey No. 145/A & 147, Ramalingampally (V), Bommalaramaram (M), Yadadri-Bhuvanagiri District Telangana India, issued by Drugs Control Administration Telangana India in which it is stated that license is valid upto 02-06-2025

	3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted.	
	3.2.S.7	• Stability study data of drug substance at real time conditions till claimed shelf life shall be submitted	• Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.	
	3.2.P.2	• Submit results of drug excipient compatibility study as the qualitative composition of applied product is not similar to reference product (**reference product**; dextrose monohydrate, sodium citrate dihydrate, citric acid anhydrous. Sodium hydroxide NF and/or hydrochloric acid NF .....**Applied product;** dextrose anhydrous, sodium citrate dihydrate, citric acid anhydrous, Sodium hydroxide, Sodium chloride, WFI**)**	• Drug-Excipient compatibility study is submitted	
	3.2.P.3	• Clarification is required as you have mentioned the use of 1.1% overage in master formulation • Innovator drug product is using sodium hydroxide and/or hydrochloric acid for attaining the pH within a narrow range of 4.4-5.2 while your master formulation does not specify the use of hydrochloric acid. Justification is required in this regard.	• No clarification is submitted	
	3.2.P.5	• Justification shall be submitted as analytical procedure for assay test is submitted as per UV method while method validation studies is submitted as per HPLC method • Results of analytical method validation studies including Specificity, Limit of Detection, Limit of Quantitation, Range and robustness shall be submitted • Justification shall be submitted for not performing the test for filled volume and particulate matter in batch analysis of the finished product as per submitted specifications.	• Firm has submitted revised analytical method in which procedure of assay test is submitted as per HPLC method. • Results of analytical method validation studies including Specificity, linearity and range, robustness, Limit of Detection, Limit of and system suitability is submitted • Firm has submitted revised batch analysis report in which test for filled volume and particulate matter is performed	
	3.2.P.7	• The applied label claim is for 300ml while applied pack size is 100ml, clarify?	• The firm submitted that the applied pack size is 300ml	

	3.2.P.8	• The mobile phase ratio mentioned in raw data sheet is water;ACN (30;70) while water;ACN (50;50) in analytical method validation, clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• No justification is submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted	

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin**
- **Clarification as you have mentioned the use of 1.1% overage in master formulation**
- **Justification as innovator drug product is using sodium hydroxide and/or hydrochloric acid for attaining the pH within a narrow range of 4.4-5.2 while your master formulation does not specify the use of hydrochloric acid.**
- **Clarification as the mobile phase ratio mentioned in raw data sheet is water;ACN (30;70) while water;ACN (50;50) in analytical method validation**

410.	Name, address of Applicant / Marketing Authorization Holder	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 11-07-2019 specifying Injectable section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6130 dated 07-03-2022
	Details of fee submitted	Rs.50,000/- dated 27-11-2020
	The proposed proprietary name / brand name	**Klazol 500mg/100ml Infusion**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 100ml Contains: Metronidazole 500mg
	Pharmaceutical form of applied drug	IV Infusion
	Pharmacotherapeutic Group of (API)	Antiprotozoal
	Reference to Finished product specifications	BP specifications
	Proposed Pack size	1x100ml
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	METRONIDAZOLE NORIDEM, metronidazole 500mg/100mL solution for injection bottle TGA Approved
	For generic drugs (me-too status)	Macneda 500mg/100ml Infusion by M/s Searle IV Solutions (Reg# 105957)
	Name and address of API manufacturer.	M/s Hubei Hongyuan Pharmaceuticals Co., Ltd., No. 8 Fengshan Road, Industrial and Economic Development Zone Luotian County, Huanggang City, Hubei Province, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturingprocess and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. (Batches; 031201, 031202, 031203) The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. (Batches: 070101, 070102, 070103) *However the test sample is manufactured by Luotian Hongyuan Biochemical Co., Ltd*
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Flagyl infusion 100ml by M/s Sanofi Aventis Pakistan by performing quality tests (Description, identification, pH, B.E.T., Sterility, assay).
	Analytical method validation/verification of product	Firm has submitted method verification studies including Accuracy, precision (repeatability,

		intermediate), linearity, ruggedness.		
STABILITY STUDY DATA				
Manufacturer of API		M/s Hubei Hongyuan Pharmaceuticals Co., Ltd., No. 8 Fengshan Road, Industrial and Economic Development Zone Luotian County, Huanggang City, Hubei Province, China		
API Lot No.		20140149		
Description of Pack (Container closure system)		A clear, an almost colorless to pale yellow color, sterile solution filled in a clear glass vial of USP type I/II, sealed with rubber closure, neatly labelled		
Stability Storage Condition		Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period		Real time: 6 months Accelerated: 6 months		
Frequency		Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.		MET-INF-100-001-19	MET-INF-100-002-19	MET-INF-100-003-19
Batch Size		500 vials	500 vials	500 vials
Manufacturing Date		09-2019	09-2019	09-2019
Date of Initiation		01-10-2019	03-10-2019	07-10-2019
No. of Batches		03		
Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Hubei Hongyuan Pharmaceuticals Co., Ltd.,(**1.** No.126 Dabiseshan Road, Industrial and Economic Development Zone, Luotian County, Huanggang City, Hubei Province, China; **2**. No. 3 Hongyuan Road, Fengshan Town, Luotian County,Huanggang City, Hubei Province, China issued by Hubei Provincial Food and Drug Administration China valid upto 30-07-2023		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No#20LHY293 dated 13-05-2020 for import of 500kg of Metronidazole (Batch No#0182005170) in name of M/s Neutro Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 28-05-2020.		
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, UV spectra and summary data sheets etc.		
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted		
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted		

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 11month before R&I date)

	• Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.S.7	• Submit Stability study data of drug substance from drug substance manufacture till claimed shelf life
3.2.P.1	• In description and composition of drug product *each capsule contains; cefalexin as monohydrate…..500mg* while applied product is metronidazole infusion, clarify?
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation
3.2.P.5	• The concentration of sample solution (0.05 instead of 0.02mg/ml) and solvent used for dilution (water instead of 0.1M HCl) in assay test of finished product are different than that recommended by BP monograph. • Submit results for specificity test in method validation studies • Justification shall be submitted for selecting different limits of pH test 4.5-7.0 in batch analysis of finished product than that submitted in finished product specifications (4.5-6.0) as per BP monograph and results of batch No# MET-INF-100-003-19 is 6.86 which is out specifications • Justification shall be submitted for selecting different limits of endotoxin test NMT 0.7 IU/ml in batch analysis of finished product than that submitted in finished product specifications (NMT 3.5IU/ml) as per BP monograph
3.2.P.8	• *Clarification is required as the expiry date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 01-2018 which is prior to the manufacturing date (10-2019) of trial batches (as per submitted stability summary sheets)* • The batch No. of API in batch analysis is different from that submitted in commercial invoice, clarify • Batch No. of drug product mentioned on stability summary sheet is 001, 002, 003 instead of MET-INF-100-001-19, MET-INF-100-002-19 and MET-INF-100-003-19 as mentioned in batch analysis, clarify • Batch size of drug product mentioned in stability summary sheet is 4500 and 5000 vials instead of 500vials as mentioned in batch analysis, clarify • Manufacturing date of drug product mentioned in stability summary sheet is 10-2019 in all batches instead of 09-2019 as mentioned in batch analysis, clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required
Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings	

Response of the firm:		
Section	**Deferment Reason**	**Firm's Response**
1.1	• Clarification is required as the fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 11month before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021	• The firm submitted that fee is submitted on 27-11-2020 and R&I date of submitted application is 08-03-2022. • We initially submitted our application on 29-12-2020, but some deficiencies were found in pre submission screening of CTD. We re-submitted our application on 07-03-2022 along with deficient documents. That's why there is difference between fee submission date and R&I sate of document. • Firm has submitted fee Rs. 25000/- on deposit slip#1890069346 date 30-10-2023.
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. Applicant details: M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore Manufacturer details: • M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F it is mistakenly written while applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority(Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section) and LVP section (Blow, Fill, Seal)
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP certificate of M/s Hubei Hongyuan Pharmaceutical Technology Co., Ltd., No. 8 Hongyuan Road, Fengshan town Industrial and Economic Development Zone Luotian County, Huanggang City, Hubei Province, China issued by State Food & Drugs Administration China valid upto 01-01-2024

2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 is submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performedby the Drug Product manufacturer for drug substance is submitted.
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of secondary reference standard including source and lot number is submitted.
3.2.S.7	• Submit Stability study data of drug substance from drug substance manufacture till claimed shelf life	• Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 60 months. The stability study data is not as per zone VI-A conditions • Furthermore firm has submitted that manufacturer of test sample is manufactured by M/s Luotian Hongyuan Biochemical Co., Ltd.
3.2.P.1	• In description and composition of drug product *each capsule contains; cefalexin as monohydrate…..500mg* while applied product is metronidazole infusion, clarify?	• Firm has submitted details of applied product metronidazole infusion in description and composition of drug product
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation	• The firm has not submitted any clarification
3.2.P.5	• The concentration of sample solution (0.05 instead of 0.02mg/ml) and solvent used for dilution (water instead of 0.1M HCl) in assay test of finished product are different than that recommended by BP monograph. • Submit results for specificity test in method validation studies • Justification shall be submitted for selecting different limits of pH test 4.5-7.0 in batch analysis of finished product than that submitted in finished product specifications (4.5-6.0) as per BP monograph and results of batch No# MET-INF-100-003-19 is 6.86 which isout specifications • Justification shall be submitted for selecting different limits of endotoxin test NMT 0.7 IU/ml in batch analysis of finished product than that submitted in	• Firm has submitted revised analytical method in which the concentration of solution and solvent used for dilution in assay test of finished product is as per BP monograph • Firm has submitted results of specificity, accuracy and repeatability test in method verification studies • The firm has not submitted any justification. However, the firm has submitted revised batch analysis report of three batches of finished product in which the limits of pH test is as per BP monograph (4.5-6.0) and results of pH in all three batches are within limits. • The firm has not submitted any justification. However, the firm has submitted revised batch analysis report of three batches of finished product in which limits of endotoxin test of finished product is as per BP monograph (NMT 3.5IU/ml)

	finished product specifications (NMT 3.5IU/ml) as per BP monograph	
3.2.P.8	• *Clarification is required as the expiry date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 01-2018 which is prior to the manufacturing date (10-2019) of trial batches (as per submitted stability summary sheets)* • The batch No. of API in batch analysis is different from that submitted in commercial invoice, clarify • Batch No. of drug product mentioned on stability summary sheet is 001, 002, 003 instead of MET-INF-100-001-19, MET-INF-100-002-19 and MET-INF-100-003-19 as mentioned in batch analysis, clarify • Batch size of drug product mentioned in stability summary sheet is 4500 and 5000 vials instead of 500vials as mentioned in batch analysis, clarify • Manufacturing date of drug product mentioned in stability summary sheet is 10-2019 in all batches instead of 09-2019 as mentioned in batch analysis, clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• *No justification is submitted.* However the firm has submitted another COA from drug substance manufacturer (Batch#0182005170) in which the expiry date of drug substance is after manufacturing of trial batches and batch No. of API is different from that already submitted in dossier. • *No clarification is submitted.* However, Firm has again submitted copy of commercial invoice No#20LHY293 dated 13-05-2018 for import of 500kg of Metronidazole (Batch No#0182005170) in name of M/s Neutro Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 28-05-2018. The dates on the submitted invoice have been overwritten hence the actual date ofattestation could not be established. The manufacturing date of API mentioned in invoice in 14/May/2018 while date of invoice is 13/May/2018. • The firm has submitted revised batch analysis report in which Batch No. of drug product is mentioned as 001, 002, 003 as per stability summary sheet. • The firm has submitted revised batch analysis report in batch size of batch No#001 and 003 is 4500 vials while batch size of batch No#002 is 5000 vials • The firm has submitted revised batch analysis report in which manufacturing date of all batches is 10-2019 as per stability summary sheets • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Stability study data of drug substance from drug substance manufacture till claimed shelf life**
- **Clarification as you have mentioned the use of 1% overage in master formulation**
- **Clarification is required as the expiry date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 01-2018 which is prior to the manufacturing date (10-2019) of trial batches (as per submitted stability summary sheets)**
- **Clarification for submitting another COA from drug substance manufacturer (Batch#0182005170) in which the expiry date of drug substance is after manufacturing of trial batches and batch No. of API is different from that already submitted in dossier.**
- **Verification of commercial invoice No#20LHY293 dated 13-05-2018 for import of 500kg of Metronidazole (Batch No#0182005170) in name of M/s Neutro Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 28-05-2018. The dates on the submitted invoice have been overwritten hence the actual date of attestation could not be established.**

411.	Name, address of Applicant / Marketing Authorization Holder	M/s CCL Pharmaceuticals (Pvt.) Ltd., 65 Quaid-e-Azam Industrial Estate, Kot Lakhpat Lahore.
	Name, address of Manufacturing site.	M/s Dyson Research Laboratories (Pvt.) Ltd., 28-km, Ferozepur Road, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	**M/s CCL Pharmaceuticals:** Firm has submitted copy of cGMP certificate dated 13-05-2019 based on inspection conducted on 30-04-2019. **M/s Dyson Research Laboratories:** Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of DML (section approval) dated 08-06-2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales

	Details of fee submitted	PKR 75,000/- Dated 07-02-2022 (Deposit slip#98970448185)
	The proposed proprietary name / brand name	**Obeticholic 5mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Obeticholic Acid..... 5mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Farnesoid X receptor agonists
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	10's, 20's, 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	OCALIVA (5mg, 10mg) film coated tablets USFDA
	For generic drugs (me-too status)	Abeticholic 5mg Tablet of M/s Dyson Research laboratories (Reg. No. 109521)
	Name and address of API manufacturer.	M/s Nantong Chanyoo Pharmatech Co., Ltd, No. 2 Tonghai Si Road, Rudong Coastal Economic Development Zone, Nantong, Jiangsu Province China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.

	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 12 months. (Batches: 201612001, 201612002, 201612003)
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Ocaliva 5mg Tablet manufactured by M/s Intercept Pharma UK & Ireland by performing quality tests (Description, identification, dissolution, assay). Firm has submitted CDP results of their product against the innovator's product Ocaliva 5mg Tablet by M/s Intercept Pharma UK & Ireland in 0.1N HCl (pH 1.2) Acetate buffer (pH 4.5), & Phosphate Buffer (pH 6.8). The values of f2 factor are in acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including Linearity, Accuracy, Precision, Specificity, Repeatability, Robustness,

STABILITY STUDY DATA

Manufacturer of API	M/s Nantong Chanyoo Pharmatech Co., Ltd, No. 2 Tonghai Si Road,Rudong Coastal Economic Development Zone, Nantong, Jiangsu Province China

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Nantong Chanyoo Pharmatech Co., Ltd, No. 2 Tonghai Si Road, Yangkou Chemical Industrial Park, Rudong Coastal Economic Development Zone, Nantong, Jiangsu Province China issued by Nantong Chemical & Medical Industry Association valid upto 05-05-2022. Firm has also submitted copy of DML (License#Su20160512) of M/s Nantong Chanyoo Pharmatech Co., Ltd, No. 2 Tonghai Si Road, Rudong Coastal Economic Development Zone, Nantong, China issued by Jiangsu Drug Administration valid upto 02-12-2025
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) for 3 months is submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years	•
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	•
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Justification shall be submitted for not including the test for sulphated ash, palladium content, particle size distribution, and solid state form in drug substance specifications by drug product manufacturer	•
3.2.S.7	• Submit stability study data of drug substance at real time conditions till claimed shelf life • Justification shall be submitted for declaring stability conditions of room temperature as per zone IV-A for drug substance, while innovator product literature has recommended storage conditions of 5°C ± 3°C for drug substance	•
3.2.P.1	• Details of composition for 10mg strength is submitted	•
3.2.P.2	• Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the reference product including the tests recommended by innovator product review document (uniformity of dosage units and water content) • Details of innovator product i.e. manufacturer, batch number, manufacturing date and expiry date shall be submitted	•

	• Submitted CDP results in three dissolution media shall be justified against the solubility profile of drug substance with reference to innovator drug product literature	
3.2.P.5	• Justification shall be submitted for not including the test for water content in finished product specification as per innovator product review document • Justification shall be submitted for selecting the sampling time of 45min while dissolution specifications of NLT Q after 15min • Clarification is required as you have mentioned dissolution test (UV) in analytical method while provided chromatographic conditions for the same test	•
3.2.P.8	• Submit 6th month time point stability study data for the applied drug product • Submit documents for procurement of API with approval from DRAP • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	•

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of firm:

Section	Deferment Reason	Firm's Response
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years	• **M/s CCL Pharmaceuticals:** cGMP certificate of M/s CCL Pharmaceuticals is not submitted. • **M/s Dyson Research Laboratories:** Firm has submitted copy of cGMP certificate dated 16-01-2023 based on inspection conducted on 03-11-2022.
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• Firm has submitted copy of DML (License#Su20160512) of M/s Nantong Chanyoo Pharmatech Co., Ltd, No. 2 Tonghai Si Road, Rudong Coastal Economic Development Zone, Nantong, China issued by Jiangsu Drug Administration valid upto 02-12-2025
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Justification shall be submitted for not including the test for sulphated ash, palladium content, particle size distribution, and solid state form in drug substance specifications by drug product manufacturer	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is submitted. • Drug substance manufacturer has not mentioned these tests in specifications and analytical method of drug substance. That is why test for sulphated ash, palladium content, particle size distribution, and solid state form are not included in drug substance specifications.
3.2.S.7	• Submit stability study data of drug substance at real time conditions till claimed shelf life • Justification shall be submitted for declaring stability conditions of room temperature as per zone IV-A for drug substance, while innovator product literature has recommended storage conditions of 5°C ± 3°C for drug substance	• Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. • Drug substance manufacturer has conducted stability study as per zone IV-A for drug substance and the stability data shows that product is stable. Drug substance manufacturer has not recommended 5°C storage conditions.

3.2.P.1	• Details of composition for 10mg strength is submitted	• Revised details of composition for 5mg strength is submitted.
3.2.P.2	• Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the reference product including the tests recommended by innovator product review document (uniformity of dosage units and water content) • Details of innovator product i.e. manufacturer, batch number, manufacturing date and expiry date shall be submitted • Submitted CDP results in three dissolution media shall be justified against the solubility profile of drug substance with reference to innovator drug product literature	• Revised pharmaceutical equivalence after adding uniformity of dosage form and water content is submitted. • The firm submitted that we have performed studies against Dyson's own (as competitor) registered product Abeticholic Acid 5mg Tablet, registration no. 109521, Batch No. DY001, Mfg. Oct 2021, Expiry Oct 2023. • The firm submitted that we have performed studies against Dyson's own (as competitor) registered product Abeticholic Acid 5mg tablet, and as per that product complies with specifications.
3.2.P.5	• Justification shall be submitted for not including the test for water content in finished product specification as per innovator product review document • Justification shall be submitted for selecting the sampling time of 45min while dissolution specifications of NLT Q after 15min • Clarification is required as you have mentioned dissolution test (UV) in analytical method while provided chromatographic conditions for the same test	• Revised specifications after including test for water content in FP specifications is submitted. • The firm submitted that it was a typographic error as our specifications are as per innovator's product specifications. • The firm submitted that it was a typographic error.
3.2.P.8	• Submit 6th month time point stability study data for the applied drug product • Submit documents for procurement of API with approval from DRAP • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• 6th month time point stability data for drug product is submitted. • Firm has submitted copy of commercial invoice for import of Obeticholic acid quantity 3kg by M/s Dyson Research Laboratories Lahore attested by AD (I&E) DRAP Lahore dated 24-09-2021. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Decision: Deferred for submission of following:

- **Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s CCL Pharmaceuticals conducted with in last three years**
- **Pharmaceutical equivalence and CDP studies against the innovator/reference/comparator product**

412.	Name, address of Applicant / Marketing Authorization Holder	M/s CCL Pharmaceuticals (Pvt.) Ltd., 65 Quaid-e-Azam Industrial Estate, Kot Lakhpat Lahore.
	Name, address of Manufacturing site.	M/s Dyson Research Laboratories (Pvt.) Ltd., 28-km, Ferozepur Road, Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)

	GMP status of the Finished product manufacturer	**M/s CCL Pharmaceuticals:** Firm has submitted copy of cGMP certificate dated 13-05-2019 based on inspection conducted on 30-04-2019. **M/s Dyson Research Laboratories:** Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of DML (section approval) dated 08-06-2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 8632 dated 04-04-2022
	Details of fee submitted	PKR 75,000/- Dated 07-02-2022 (Deposit slip#59446592504)
	The proposed proprietary name / brand name	**Obeticholic 10mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Obeticholic Acid..... 10mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Farnesoid X receptor agonists
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	10's, 20's, 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	OCALIVA (5mg, 10mg) film coated tablets USFDA
	For generic drugs (me-too status)	Abeticholic 10mg Tablet of M/s Dyson Research laboratories (Reg. No. 109522)
	Name and address of API manufacturer.	M/s Nantong Chanyoo Pharmatech Co., Ltd, No. 2 Tonghai Si Road, Rudong Coastal Economic Development Zone, Nantong, Jiangsu Province China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 12 months. (Batches: 201612001, 201612002, 201612003)
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Ocaliva 10mg Tablet manufactured by M/s Intercept Pharma UK & Ireland by performing quality tests (Description, identification, dissolution, assay). Firm has submitted CDP results of their product against the innovator's product Ocaliva 10mg Tablet by M/s Intercept Pharma UK & Ireland in 0.1N HCl (pH 1.2) Acetate buffer (pH 4.5), & Phosphate Buffer (pH 6.8). The values of f2 factor are in acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including Linearity, Accuracy, Precision, Specificity, Repeatability, Robustness,

3.2.P.5	• Justification shall be submitted for not including the test for water content in finished product specification as per innovator product review document • Justification shall be submitted for selecting the sampling time of 45min while dissolution specifications of NLT Q after 15min	• Revised specifications after including test for water content in FP specifications is submitted. • The firm submitted that it was a typographic error as our specifications are as per innovator's product specifications.
3.2.P.8	• Submit 6th month time point stability study data for the applied drug product • Submit documents for procurement of API with approval from DRAP • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• 6th month time point stability data for drug product is submitted. • Firm has submitted copy of commercial invoice for import of Obeticholic acid quantity 3kg by M/s Dyson Research Laboratories Lahore attested by AD (I&E) DRAP Lahore dated 24-09-2021. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.
Decision: Deferred for submission of following: • **Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.** • **GMP certificate / GMP inspection report of applicant i.e. M/s CCL Pharmaceuticals conducted with in last three years** • **Pharmaceutical equivalence and CDP studies against the innovator/reference/comparator product**		

Case No# 02: Deferred Contract Manufacturing applications as per decision of 173rd meeting of Authority:

413.	Name, address of Applicant / Marketing Authorization Holder	M/s Asian Continental Pvt. Ltd., D-32, S.I.T.E. II, Super Highway, Karachi
	Name, address of Manufacturing site.	M/s Wimits Pharmaceuticals Pvt. Ltd., Plot No# 129, Sundar Industrial Estate, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	**M/s Wimits Pharmaceuticals:** Firm has submitted copy of cGMP certificate dated 08-09-2021 based on inspection conducted on 08-09-2021 **M/s AsianContinental Pharmaceuticals:** Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-51/2004-Lic dated 07-02-2014 which specifies Tablet (General Human) section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 31346 dated 02-11-2022
	Details of fee submitted	Rs.75,000/- dated 23-09-2022 (Deposit slip#94085008299)
	The proposed proprietary name / brand name	**Acvon 10mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Vonoprazan as Fumarate……10mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Potassium Competitive acid blocker (P-CAB)
	Reference to Finished product specifications	In house specifications
	Proposed Pack size	1x10's, 2x10's, 2x7's, 3x10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Takecab 10mg tablet by M/s Takeda Pharmaceutical Company Limited, PMDA Japan Approved.
	For generic drugs (me-too status)	Vocinti Tablet 10mg by M/s The Searle Company Limited, (Reg. No. 108835)
	Name and address of API manufacturer.	M/s Enantiotech Corporation Limited., No.6 Zhongjing RD, Zhongshan Torch Hi-Tech Industrial Development Zone, Guangdong Province, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.

	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the brand that is Vonnp 10mg Tablet, by performing quality tests (Identification, Assay, Dissolution). CDP has been performed against the comparator product vonoprazan 10mg Tablet in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including linearity and range, accuracy, precision (Repeatability, Intermediate), specificity, robustness and system suitability.

STABILITY STUDY DATA			
Manufacturer of API	M/s Enantiotech Corporation Limited., No.6 Zhongjing RD, Zhongshan Torch Hi-Tech Industrial Development Zone, Guangdong Province, China		
API Lot No.	TAK09-220101		
Description of Pack (Container closure system)	Alu-Alu Blister packed in unit carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 3 months Accelerated: 3 months		
Frequency	Accelerated: 0, 3 (Months) Real Time: 0, 3 (Months)

No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Enantiotech Corporation Limited., Zhongshan Torch Hi-Tech IndustrialDevelopment Zone, Guangdong Province, China issued by Zhongshan Medical Association China valid upto 30-12-2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted

4.	Data of stability batches will besupported by attested respective document like chromatograms, Raw datasheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s AsianContinental Pvt Ltd
1.3.3	• You have mentioned that applicant is manufacturer while applicant is contract giver, clarify
1.3.5	• Submit GMP certificate / GMP inspection report of applicant conducted with in last three years
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
3.2.S.4	• Justification shall be submitted for using different chromatographic conditions (wavelength, injection volume, mobile phase) for assay test by drug product manufacturer than that by substance manufacturer • Justification shall be submitted for not performing the test for fumaric acid content in batch analysis of drug substance by drug product manufacturer as recommended by drug substance manufacturer
3.2.P.2	• Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product.

Applied product	**TAKECAB Tablets 10mg**
Vonoprazan Fumarate	Vonoprazan Fumarate
Lactose monohydrate, Mannitol, Avicel Ph 101, Klucel, Cross carmellose sodium, sodium starch glycolate, magnesium stearate, Tabcoat white, isopropyl alcohol, purified water	D-mannitol, microcrystalline cellulose, croscarmellose sodium, hydroxypropyl cellulose, fumaric acid, magnesium stearate, hypromellose, macrogol 6000, titanium oxide, yellow ferric oxide

	• Details of reference product including manufacturer, batch number, manufacturing and expiry date used in pharmaceutical equivalence studies shall be submitted • Details of comparator product including brand name, manufacturer, batch number, manufacturing and expiry date used in CDP studies shall be submitted • Justification shall be submitted for not performing the tests in pharmaceutical equivalence studies including the tests recommended by innovator product review document (uniformity of dosage units) • Justification shall be submitted for not performing pharmaceutical equivalence and CDP studies against the innovator product
3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units in finished product specifications • Justify the variation of dissolution parameters i.e. dissolution medium and time from that recommended by USFDA for the vonoprazan tablets. (use of phosphate buffer pH 6.8 instead of 0.05M acetate buffer pH 4.5, and Q at 30 minutes instead on Q at 15 minutes)
3.2.P.8	• Submit stability study data of applied product at 6th month time point • Submit documents for procurement of API with approval from DRAP • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is required

	Ph 101, Klucel, Cross carmellose sodium, sodium starch glycolate, magnesium stearate, Tabcoat white, isopropyl alcohol, purified water croscarmellose sodium, hydroxypropyl cellulose, fumaric acid, magnesium stearate, hypromellose, macrogol 6000, titanium oxide, yellow ferric oxide • Details of reference product including manufacturer, batch number, manufacturing and expiry date used in pharmaceutical equivalence studies shall be submitted • Details of comparator product including brand name, manufacturer, batch number, manufacturing and expiry date used in CDP studies shall be submitted • Justification shall be submitted for not performing the tests in pharmaceutical equivalence studies including the tests recommended by innovator product review document (uniformity of dosage units) • Justification shall be submitted for not performing pharmaceutical equivalence and CDP studies against the innovator product	• Uniformity of dosage units is performed in the pharmaceutical equivalence studiesand submitted • The firm submitted that the innovator product is Takeda that is not easily available that why we use the local product which is easily available in the market.
3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units in finished product specifications • Justify the variation of dissolutionparameters i.e. dissolution medium and time from that recommended by USFDA for the vonoprazan tablets. (use of phosphate buffer pH 6.8 instead of 0.05M acetate buffer pH 4.5, and Q at 30 minutes instead on Q at 15 minutes)	• The firm has included the test for uniformity of dosage unit in finished product specifications • The firm submitted that we have considered PMDA Japan approved product as innovator wherein details of dissolution specifications have not been revealed hence we follow the general pharmacopeial guideline for dissolution specifications and parameters for immediate release tablets. Moreover the product approved by USFDA containing vonoprazan is a combo pack product while the applied product formulation is single unit tablet of vonprazan
3.2.P.8	• Submit stability study data of applied product at 6th month time point • Submit documents for procurement of API with approval from DRAP • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is required • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Stability study data of applied product at 6th month time point is submitted. • Firm has submitted copy of Form 6 dated 27-05-2022 for import of 500g Vonoprazan fumarate in name of M/s Wimits Pharmaceuticals Pvt. Ltd., Lahore attested by AD (I&E) DRAP Lahore dated 27-05-2022. *However copy of clearance certificate or ADC attested commercial invoice is not submitted. Furthermore the batch size is 100000 tablets while API imported is only 500gm.* • Compliance record of HPLC software 21CFR and audit trail reports on product is submitted. • Record of digital data logger of temperature and humidity monitoring of

		stability chambers (real time and accelerated) is submitted.

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin**
- **Reconciliation of the drug substance imported against the stability batches of drug product manufactured since batch size of applied product is 100,000 tablets (3 batches) while only 500gm of API imported.**

414.	Name, address of Applicant / Marketing Authorization Holder	M/s Asian Continental Pvt. Ltd., D-32, S.I.T.E. II, Super Highway, Karachi

	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-51/2004-Lic dated 07-02-2014 which specifies Tablet (General Human) section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 31344 dated 02-11-2022
	Details of fee submitted	Rs.75,000/- dated 23-09-2022 (Deposit slip#4040398176)
	The proposed proprietary name / brand name	**Acvon 20mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Vonoprazan as Fumarate……20mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Potassium Competitive acid blocker (P-CAB)
	Reference to Finished product specifications	In house specifications
	Proposed Pack size	1x10's, 2x10's, 2x7's, 3x10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Takecab 20mg tablet by M/s Takeda Pharmaceutical Company Limited, PMDA Japan Approved.

	For generic drugs (me-too status)	Vocinti Tablet 20mg by M/s The Searle Company Limited, (Reg. No. 108836)
	Name and address of API manufacturer.	M/s Enantiotech Corporation Limited., No.6 Zhongjing RD, Zhongshan Torch Hi-Tech Industrial Development Zone, Guangdong Province, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the brand that is Vonnp 20mg Tablet, by performing quality tests (Identification, Assay, Dissolution). CDP has been performed against the comparator product vonoprazan 20mg Tablet in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including linearity and range, accuracy, precision (Repeatability, Intermediate), specificity, robustness and system suitability.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Chifeng Addisun Pharmaceutical Co., Ltd., 3 Minsheng street, Economic development zone of Hongshan District , Chifeng, China issued by

		China Food and Drug Administration valid upto 21-02-2022. Firm has also submitted copy of DML (certificate No#Nei20160028) in in the name of M/s Chifeng Addisun Pharmaceutical Co., Ltd., 3 Minsheng street, Economic development zone of Hongshan District , Chifeng, China valid upto 27-12-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice dated 17-06-2021 for import of 300gm of Avibactam and Ceftazidim sterile (Batch#2105001) in name of M/s Surge Laboratories (Pvt) Ltd attested by AD (I&E) DRAP Lahore dated 09-07-2021. Firm has also submitted copy of form 6 dated 09-07-2021 for import of 300gm of Avibactam and Ceftazidim sterile powder (1:4) in name of M/s Surge Laboratories (Pvt) Ltd attested by AD (I&E) DRAP Lahore dated 09-07-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Manual data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Remarks of Evaluator [XI]: Letters of deficiency sent on 19th May 2023 and reminder on 25th August 2023 but no reply received

Section	Observations
1.5.10	• Clearly mention the dosage form of applied drug
1.6.5	• Valid GMP certificate of drug substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Justify the batch size of trial batches against the number of units required for complete testing of drug product during stability study including real time stability study till claimed shelf life • Justification shall be submitted for the dispensed quantity of drug substance against the label claim with reference to the potency of drug substance determined during drug substance analysis by M/s Surge Laboratories. • Justification shall be submitted as the content of sodium bicarbonate in premixed drug substance are different than that recommended by innovator product
3.2.S.4	• Justification is required for using different chromatographic conditions i.e. mobile phase composition (buffer: acetonitrile; 50;50), injection volume (20ul), isocratic method than that recommended by drug substance manufacturer for assay of avibactam drug substance • Justification is required for using different chromatographic conditions i.e. mobile phase composition, injection volume (20ul), flow rate than that recommended by drug substance manufacturer for assay of ceftazidime drug substance • Justification is required for not performing the test for reconstitutions, content uniformity, pyridine content, particulate matter, bacterial endotoxin and sterility in batch analysis of drug substance by drug product manufacturer as recommended by drug substance manufacturer
3.2.P.1	• Provide information including type of diluent, its composition, quantity or volume, specifications and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug.

3.2.P.2	• Justification is required since pharmaceutical equivalence study does not include complete testing of the drug product and the innovator product including the tests recommended by innovator product review document (description on reconstitution, reconstitution time, identification, pyridine content, uniformity of dosage unit, particulate matter, water content, and bacterial endotoxins
3.2.P.5	• Justification is required for not including the test for pyridine content and water content in finished product specification by drug product manufacturer as recommended by innovator product review document • The limits of pH test for drug substance by drug product manufacturer was 5.5-7.5 while limits of pH test for drug product by drug product manufacturer was 5-7.5, clarify • Justification is required for not performing the test for description on reconstitution, reconstitutions time, uniformity of dosage units, pyridine content, water content, particulate matter, bacterial endotoxin and sterility in batch analysis by drug product manufacturer as recommended by innovator product review document
3.2.P.8	• Justification is required for not performing the test for description on reconstitution, reconstitutions time, pyridine content, water content, particulate matter in stability study by drug product manufacturer as recommended by innovator product review document • Clarification is required as you have mentioned the manufacturing date of trial batches CFA-2.5-002 and CFA-2.5-003 as august instead of October in in-use stability study

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of firm:

Section	Deferment Reason	Response of Firm
1.5.10	• Clearly mention the dosage form of applied drug	• Corrected dosage form according to innovator literature as Intravenous injection in section 1.5.10.
1.6.5	• Valid GMP certificate of drug substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm submitted that after the amendment of the Drug Administration Law (DAL) of the People's Republic of China, the requirement for GMP has been abolished, and China no longer issues GMP certificates. The declaration by the National Medical Drugs Administration is submitted • Firm has also submitted copy DML# 20160028 of M/s Chifeng Addisun Pharmaceutical Co., Ltd., No. 3 Minsheng street, Economic development zone of Hongshan District , Chifeng, Inner Mongolia, China valid upto 27-12-2025
2.3.R.1	• Justify the batch size of trial batches against the number of units required for complete testing of drug product during stability study including real time stability study till claimed shelf life	• The firm submitted that Ceftazidime 2.0gm + Avibactam 0.5gm sterile ready-to-fill pre-mixed powder material provided by manufacturer to be filled in aseptic conditions and no formulation and manufacturing procedure (instead of aseptic filling) is involved, on the basis of this risk assessment we can rely on the stability studies (attached) provided by the manufacturer according to ICH Zone IVA conditions. • On the basis of above declaration, we have designed trials quantity as minimum as possible to do the necessary testing/studies. However, we commit to provide complete testing of Finished product till shelf life for commercial batches. • Three batches each of 15 vials were prepared to conduct testing upto 06 months for stability

		studies on the above mentioned rationale with necessary test studies. • Justification letter and Undertaking is submitted
	• Justification shall be submitted for the dispensed quantity of drug substance against the label claim with reference to the potency of drug substance determined during drug substance analysis by M/s Surge Laboratories.	• The firm submitted that as per manufacturerCOA of drug substance % potency of Ceftazidime as pentahydrate is 64.80% and Avibactum as sodium is 16.80% while on testing by Drug product manufacturer results obtained for Ceftazidime pentahydrate is 60.99% and Avibactum as sodium is 15.75% on as is basis. So the dispensed quantity of drug substance taken is 49.185gm/batch by considering 60.99% assay. • **<u>Calculation of proposed weight on the basis of Ceftazidime potency:</u>** Assay of Ceftazidime (On as is basis) = 60.99% Fill weight = label claim x 100/ Assay % (on as such basis) =2000x100/60.99 = 3279mg/vial • **<u>Calculation of proposed weight on the basis of Avibactum potency</u>** Assay of Avibactum on as is basis = 15.75% Fill weight = label claim x 100/ Assay % (on as such basis) =500 x 100/15.75 = 3174mg/vial • Fill weight of Ceftazidime + Avibactum injection has been selected 3279mg/vial to calculate the batch size which is maximum of both and have both API > 100%. • Justification letter is submitted
	• Justification shall be submitted asthe content of sodium bicarbonate in premixed drug substance are different than that recommended by innovator product	• Content of Sodium bi carbonate in premixed drug substance are not different as recommended by innovator product. Justification letter for the same is submitted**.**
3.2.S.4	• Justification is required for using different chromatographic conditions i.e. mobile phase composition (buffer: acetonitrile; 50;50), injection volume (20ul), isocratic method than that recommended by drug substance manufacturer for assay of avibactam drug substance • Justification is required for using different chromatographic conditions i.e. mobile phase composition, injection volume (20ul), flow rate than that recommended by drug substance	• The firm submitted that we have done analytical method validation on our In-House method as per ICH Q2(R1) guidelines use in API testing. Since the API is non–compendia so our In-House validated method is also applicable for testing of API • Changes are made due to better elution of both API's. • Justification letter is submitted

	manufacturer for assay of ceftazidime drug substance	
	• Justification is required for not performing the test for reconstitutions, content uniformity, pyridine content, particulate matter, bacterial endotoxin and sterility in batch analysis of drug substance by drug product manufacturer as recommended by drug substance manufacturer	• The firm submitted that test for particulate matter, bacterial endotoxin and sterility were performed on API but not reported in chemical test results. In-House COA as separate reports were generated by microbiology department which are submitted. • However, since this material was sterile ready to fill material and no addition of excipients or formulation has been carried at our site, so tests for content uniformity and pyridine content were performed on finished product testing. At API testing stage these tests were taken from API manufacturer COA. • Revise API COA is submitted.
3.2.P.1	• Provide information including type of diluent, its composition, quantity or volume, specifications and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug.	• The powder for Injection Ceftazidime 2gm+Avibactam 0.5gm is required to be reconstituted with 10ml of Water For Injection prior to mix with intravenous infusion. • **Type of Diluent Used for Reconstitution:** Water For Injection 10ml Filled in 10ml glass ampoule USP Type-I. • **Composition:** Each 10ml ampoule contains 10ml of Sterilized Water For Injection [BP Specs.] • **Regulatory Status in Pakistan:** This diluent (Water for Injection 10ml) having Drug Registration Number:026762 which will be provided with the applied drug product for registration.
3.2.P.2	• Justification is required since pharmaceutical equivalence study does not include complete testing of the drug product and the innovator product including the tests recommended by innovator product review document (description on reconstitution, reconstitution time, identification, pyridine content, uniformity of dosage unit, particulate matter, water content, and bacterial endotoxins	• The firm submitted that we have again conducted pharmaceutical equivalence studies including complete testing of drug product manufactured by us and the innovator product. • Updated Pharmaceutical Equivalence studies with complete testing is submitted
3.2.P.5	• Justification is required for not including the test for pyridine content and water content in finished product specification by drug product manufacturer as recommended by innovator product review document	• The firm submitted that we have previously revised Finished Product Specifications mentioning all test as per innovator product review document including test for pyridine content and water content. • Updated Finished Product Specifications are submitted**.**
	• The limits of pH test for drug substance by drug product manufacturer was 5.5-7.5 while limits of pH test for drug product by	• The firm submitted that the limits of pH for drug substance by API manufacturer was 5.5 – 7.5, while we have mentioned pH range 5.0 – 7.5 in submitted product specifications. It was a

<table>
<tr><td></td><td>drug substance manufacturer was 5-7.5, clarify</td><td>typographical error while compiling product specifications. The pH range 5.5 – 7.5 is the actual and all of our pH results provided in the submitted documents are in the range of 5.5 - 7.5. We have made necessary corrections in the specifications and related documents.

• pH Data of All Trial Batches of Ceftazidime 2gm + Avibactam 0.5gm Injection and Reference Product is given below:<table><tr><td>Batch</td><td>Results</td></tr><tr><td>Innovator Batch</td><td>6.46</td></tr><tr><td>Trial Batch CFA-2.5-001</td><td>6.45</td></tr><tr><td>Trial Batch CFA-2.5-002</td><td>6.60</td></tr><tr><td>Trial Batch CFA-2.5-003</td><td>6.51</td></tr><tr><td>Trial Batch CFA-2.5-004</td><td>6.72</td></tr></table>• Above data shows that pH of the trial samples and innovator sample is comparable and well within the range (5.5 – 7.5).</td></tr>
<tr><td></td><td>• Justification is required for not performing the test for description on reconstitution, reconstitutions time, uniformity of dosage units, pyridine content, water content, particulate matter, bacterial endotoxin and sterility in batch analysis by drug product manufacturer as recommended by innovator product review document</td><td>• The firm submitted that we have manufactured another trial batch, Batch No: CFA-2.5-004 and complete testing was performed on said batch.
• COA of said batch and justification letter is submitted.</td></tr>
<tr><td>3.2.P.8</td><td>• Justification is required for not performing the test for description on reconstitution, reconstitutions time, pyridine content, watercontent, particulate matter in stability study by drug product manufacturer as recommended by innovator product review document
• Clarification is required as you have mentioned the manufacturing date of trial batches CFA-2.5-002 and CFA-2.5-003 as august instead of October in in-use stability study</td><td>• Same justification letter as above.
• The firm submitted that manufacturing date of trial batches CFA-2.5-002 and CFA-2.5-003 was September 2021. Date mention on the report of In-Use stability studies as August is a typo- error. Corrected document /report is submitted</td></tr>
<tr><td colspan="3">Decision: Deferred for submission of following:
• Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.
• Justification of the batch size of trial batches against the number of units required for complete testing of drug product during stability study including real time stability study till claimed shelf life
• Justification for using different chromatographic conditions i.e. mobile phase composition, injection volume, isocratic method than that recommended by drug substance manufacturer for assay of avibactam drug substance
• Justification for using different chromatographic conditions i.e. mobile phase composition, injection volume, flow rate than that recommended by drug substance manufacturer for assay of ceftazidime drug substance
• Justification for not performing the test for description on reconstitution, reconstitutions time, uniformity of dosage units, pyridine content, water content, particulate matter, bacterial</td></tr>

endotoxin and sterility in batch analysis by drug product manufacturer as recommended by innovator product review document.

- **Justification for not performing the test for description on reconstitution, reconstitutions time, pyridine content, water content, particulate matter in stability study by drug product manufacturer as recommended by innovator product review document**

Case No. 04: Deferred Registration Application of Human Drugs on form 5F (import)

416.	Name, address of Applicant / Importer	M/s AMB HK ENTERPRISES (PVT) LTD., 2nd Floor, Plaza 60, Commercial, Block-K, Phase 1 DHA Lahore
	Details of Drug Sale License of importer	**License No:** 05-352-0058-066904D **Address:** 2nd Floor, Plaza 60, Commercial Block-K, Phase 1 DHA Lahore **Address of Godown:** NA **Validity:** 24-02-2023. **Status:** License to sell drugs as distributor **Renewal:** NA
	Name and address of marketing authorization holder (abroad)	Hainan Brilliant Pharmaceutical Co., Ltd., 4 Medicine Valley, No. 1 Road, Haikou National High-tech Development Zone, Haikou City, China.
	Name, address of manufacturer(s)	Hainan Brilliant Pharmaceutical Co., Ltd., No. 4 Fist Road of Yaogu, Haikou National High-tech Industrial Development Zone, Haikou City, Hainan Province, China.
	Name of exporting country	China
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original legalized CoPP certificate (No. 20210060) dated 16-04-2021 issued by Hainan Provincial Medical Products Administration China for azithromycin for injection 0.5g. The CoPP confirms that the product strength is not in market of exporting country as well as GMP status of the manufacturing site through periodic inspection every year. The name of importing country on CoPP is mentioned as Pakistan. Furthermore, the CoPP was valid till 15-04-2023.
	Details of letter of authorization / sole agency agreement	Firm has submitted notarized copy of agency agreement from M/s Hainan Brilliant Pharmaceutical Co., Ltd. The letter species that the manufacturer appoints **M/s AMB HK ENTERPRISES Pvt Ltd, Lahore** to register their products in Pakistan. The authorization letter is valid till 22-10-2024. The letter issued for azithromycin for injection 500mg.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 26416: 23-09-2021
	Details of fee submitted	PKR 150,000/-: 29-06-2021 (Slip#306286776760)
	The proposed proprietary name / brand name	**ZITHROBAR INJECTION 500mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Active ingredient Name; Azithromycin Strength; 500mg
	Pharmaceutical form of applied drug	Powder for injection (Lyophillized)
	Pharmacotherapeutic Group of (API)	Antibacterials for systemic use, Macrolides
	Reference to Finished product specifications	USP
	Proposed Pack size	1's
	Proposed unit price	Rs 215/-
	The status in reference regulatory authorities	ZITHROMAX 500mg for injection USFDA Approved.
	For generic drugs (me-too status)	Azineu 500mg Injection by M/s Neutro Pharma (Reg# 097656)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Zhejiang Goubang Pharmaceutical Co., Ltd., No.6, Weiwu Road, Hangzhou Gulf Shangyu Economic & Technological Development Zone, Zhejiang China
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 30 ºC ± 2ºC / 75 ± 5% RH for 24 months while accelerated stability study is

		conducted at 40 ºC ± 2ºC / 75 ± 5% RH for 06 months. Batch No# (103-180306-11, 103-180307-11, 103-180308-11)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence against the innovator product Zithromax 500mg Inj by performing quality test (pH, Water Content, Bacterial Endotoxin, Sterility, Visible particle, Assay).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Injection Vial made of Middle Borosilicate Glass tubing (10ml) with brominated rubber stopper and caps made of aluminium-polypropylene combinations
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40ºC ±2ºC / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30ºC ±2ºC / 65% ± 5% RH. ***The real time stability study data is submitted for 18 months only.***

Batch No.	**Mfg. date**	**Batch size**
1905051	05.05.2019	5000 vials
1905091	09.05.2019	5000 vials
1905131	13.05.2019	5000 vials

Remarks of Evaluator [XI]:

Section	**Observations**	**Response**
1.3.3	The submitted CoPP confirms that the product strength is not in market of exporting country, clarify?	The firm submitted clarification from Director Quality Department, Hainan Brilliant Pharmaceutical Co., Ltd and stated that the azithromycin for injection 0.5g has been marketed in China (Exporting Country). The person responsible for the application of CoPP misunderstood the exporting country was referring to Pakistan thus ticked wrong column in CoPP.
1.5.2	Strength of Active ingredient shall be stated clearly. In case API is in the form of salt / hydrate, specify the equivalent strength of the base e.g., AAA sodium 50 mg (equivalent to AAA) etc.	The firm have submitted the label claim as: Each vial contains: Azithromycin as dihydrate…….500mg
1.5.15-1.5.20	Commitments must be submitted by applicant (marketing authorization Holder) instead of manufacturer	The firm has submitted commitments as per guidance document

1.6.5	Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	The firm has submitted GMP certificate No. ZJ20190170 in the name of M/s Zhejiang Goubang Pharmaceutical Co., Ltd., No.6, Weiwu Road, Hangzhou Gulf Shangyu Economic & Technological Development Zone, Zhejiang China valid upto 29/11/2024
3.2.S.4	• Copies of the analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance manufacturer and drug product manufacturer is required • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	• Copies of the analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drugsubstance manufacturer and drug product manufacturer is submitted. • Analytical Method Verification studies including specificity, linearity range, precision, accuracy, solution stability and robustness performed by the Drug Product manufacturer for drug substance(s) is submitted.
3.2.P.5	• You have applied for USP specifications. However, the limits for assay test given in specifications is not according to USP monograph, clarify? ***Release specifications; (103%-113%)*** ***Shelf life specifications; (101%-115%)*** ***Monograph: (90%-110%)*** • Test for uniformity of dosage units is not included in specifications recommended by USP • The chromatographic conditions of the analytical method are different from the USP monograph (mobile phase, injection volume, lambda,	The firm submitted that specification applied for azithromycin for injection 0.5g is in-house specification rather than USP, so there is difference in specification, test items and chromatographic conditions compared to USP.
3.2.P.8	• Submit stability study data of drug product till the claimed shelf life	The firm have submitted stability study data of three batches. The accelerated stability study data is conducted at 40°C ±2°C / 75% ± 5% RH for 6 months. The real time stability study data is conducted at 30°C ±2°C / 65% ± 5% RH for 24 months

Previous Decision (321-DRB): Deferred for following points:

- Clarification for not complying USP specifications of finished drug product as USP specifications are more stringent to in-house specifications.
- Whether manufacturing has been done via lyophilization or dry powder filling and relevant manufacturing facility thereof.

Evaluation by PEC:

- The firm has submitted USP specifications for the applied product. The firm has also submitted commitment to provide product according to USP specifications.
- The firm submitted that manufacturing has been done by method of lyophilisation and submitted inspection report for relevant section of manufacturer. The firm has also submitted cGMP certificate No#HI20190027 in name of M/s Hainan Brilliant Pharmaceutical Co., Ltd., 4 Medicine Valley, No. 1 Road, Haikou National High-tech Development Zone, Haikou City, China for lyophilized powder for injection valid upto 28-05-2024

Previous Decision (M-322-DRB): Deferred for following:

- Clarification since the Chinese Pharmacopeia doesnot include the test for quantification of impurity E as recommended by USP monograph
- Clarification since the limits of assay test given in Chinese Pharmcoapeia i.e. 101-115% is different than that recommended by USP i.e. 90-110%.

Response of firm:

Deferrement Reason	Firm's Response
• Clarification since the limits of assay test given in Chinese Pharmcoapeia i.e. 101-115% is different than that recommended by USP i.e. 90-110%.	• The firm submitted that assay results of 30 batches of Azithromycin for Injection marketed in China (Exportin Country) are analyzed to compare the batch-to-batch assay difference, and the results show that all the assay results of 30 batches are within range of 105% to 108%, and most of batches are kept within the range of 106% to 107%. • In conclusion, it is estimated that the assay of final drug product produced by M/s Brilliant Pharma can comply with USP requirements of NLT 90.0% and NMT 110.0%.
• Clarification since the Chinese Pharmacopeia doesnot include the test for quantification of impurity E as recommended by USP monograph	• Impurity E difference in USP and ChP, primarily is due to difference in analytical methods employed. A table (attached) shows comparison between ChP and USP demonstrates that apparently Chinese Pharmacopeia is stringet than USP. Moreover Hainan Brilliant commits to provide product Azithromycin 500mg according to USP. Commitment letter is submitted
Decision: Appropved. The company will Submit original valid legalized COPP of applied drug product issued by relevant regulatory authority of country of origin.	

Agenda of Evaluator PEC-XV

Cases of New DML received on Form 5-F

417.	Name, address of Applicant / Marketing Authorization Holder	Carer Pharmaceuticals Industries. Plot NO 27 Main Road Industrial Estate Rawat.

	The proposed proprietary name / brand name	CARAMIC 250mg Capsules.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Tranexamic acid..... 250mg. (JP Specs)

	Pharmacotherapeutic Group of (API)	Antifibrinolytics
	Pharmaceutical form of applied drug	White to off white powder filled in white red capsules
	Reference to Finished product specifications	(JP Specs)
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Hexatron capsule 250mg PDMA Japan Approved.
	For generic drugs (me-too status)	M/s Hilton Pharma (Pvt) Ltd. Karachi. Transamine 250mg/capsule Reg. NO. 006524
	Name and address of API manufacturer.	Changzhou Yinsheng Pharmaceutical Co., Ltd. Manufacturing site address: Weitang Chemical Zone, Xinbei District, Changzhou, Jiangsu Province, 213033, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, generalproperties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence & CDP studies of their product against the Transamin 250mg capsule
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, generalproperties, solubilities, physical form, manufacturers, description of manufacturing process

		and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against Transamin 500mg/5ml Injection.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Changzhou Yinsheng Pharmaceutical Co., Ltd. Manufacturing site address: Weitang Chemical Zone, Xinbei District, Changzhou, Jiangsu Province, 213033, China		
API Lot No.	2112006		
Description of Pack (Container closure system)	5's,10's in PVC Tray		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T001	T002	T003
Batch Size	1000 Ampoules	1000 Ampoules	1000 Ampoules
Manufacturing Date	01-2023	01-2023	01-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	• N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. JS20170680) valid till 20-06-2022 issued by Jiangsu Food And Drug Administration
3.	Documents for the procurement of API with approval from DRAP (in case of import).	--

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	N/A
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section no.	Observation	Firm's response
1.6.5	Valid GMP certificate of drug substance manufacturer shall be submitted.	Submitted
3.2.S.5	COA of working standard used for analysis of drug substance shall be submitted.	Submitted
3.2.P.8.3	Documents confirming import of drug substance , with approval of DRAP shall be submitted.	Submitted
2.3.R.1.1	Submit complete batch manufacturing record of three stability batches.	Submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

419.	Name, address of Applicant / Marketing Authorization Holder	Carer Pharmaceuticals Industries. Plot NO 27 Main Road Industrial Estate Rawat.

	Module-III Drug Product:	Firm has submitted data of drug product including its

		description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Clarithromycin 250mg tablets manufactured by Sandoz S.R.L., Livezeni Street no. 7A, RO-540472, Targu Mures, Romania Sandoz GmbH, Biochemiestraße 10, 6050 Kundl, Austria Firm has submitted CDP results of their product against the innovator's product Klaricid 250mg tablets in 3 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 20073 dated 15/08/2023
	Details of fee submitted	PKR 30,000/-: dated 15/08/2023
	The proposed proprietary name / brand name	**Itopsar 50mg Tablets**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated tablet contains: Itopride hydrochloride …….50mg
	Pharmacotherapeutic Group of (API)	Gastro prokinetic
	Pharmaceutical form of applied drug	White to off white rounded film coated tablets packed in PVC blister
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	3 x 10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ganaton 50mg Tablets PMDA Japan
	For generic drugs (me-too status)	Ganaton 50mg Tablets by M/s Abbot Laboratories Pakistan Ltd Karachi. (Reg.No. 028429)
	Name and address of API manufacturer.	Vasudha Pharma Chem Limited, Unit-III, Plot No. 23&24, Jawaharlal Nehru Pharma City, Thanam (V), Parawada (M), Visakhapatnam- 531019, Andhra Pradesh, India, Phone: +91-8924-236 228
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the innovator's product Ganaton Tablet 50mg manufactured by Abbot Laboratories Pakistan Ltd. Firm has submitted CDP results of their product against the innovator's product Ganaton Tablet 50mg in 3 dissolution medias.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Vasudha Pharma Chem Limited, Unit-III, Plot No. 23&24, Jawaharlal Nehru Pharma City, Thanam (V), Parawada (M), Visakhapatnam- 531019, Andhra Pradesh, India, Phone: +91-8924-236 228

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 31/VP/AP/2012/B/R issued by DCA Chuutugunta Guntur valid till 13/12/2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared on 12-04-2022 of Itopride HCl. The invoice is cleared by AD (I&E) DRAP, Islamabad.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm is new DML. In nearby future we will put efforts to be 21 CFR complaint.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.no.	Section	Observations/Deficiencies/ Short-comings	Reply of the Firm
1.	3.2.P.5.2	Justify for keeping the wider acceptance criteria for dissolution of drug product, since more than 90% drug dissolved within 15 min as evident from submitted CDP report.	Firm replied that "The wider acceptance criteria for dissolution was kept as no data for dissolution is available in the reviews of the innovator product. Furthermore, wider acceptance criteria was also kept for the reason to be on the safe side as general chapters of pharmacopeia for dissolution of immediate release formulations recommend the criteria of 30 minutes with 80%(Q).

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. F.3-26/2019-Addl.Dir.(QA & LT1)-56) dated 22-08-2022 issued by Drug Regulatory Authority of Pakistan. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	NA
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm is new DML. In nearby future we will put efforts to be 21 CFR complaint.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.no.	Section	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	3.2.S.7	Submit readable copy of stability data of drug substance.	Firm submitted the stability data of drug substance.
2.	3.2.P.2.2.1	In compliance of notification no. 14-1/2022-PEC dated 16th January,2023 issued by DRAP, submit the image/picture/snapshot of innovator /reference/comparator pack against which Pharmaceutical equivalence/Comparative dissolution profile studies have been performed.	Firm submitted the picture of the innovator product against which the pharmaceutical equivalence/CDP has been performed is being submitted.
3.	3.2.P.2.2.1	Justify for not performing the content uniformity test while establishing the pharmaceutical equivalence against the innovator product.	Firm replied that content uniformity test is not applicable on the product having dose larger than 25mg as evident from USP pharmacopeial reference attached for your kind consideration. However, the dose uniformity test has been performed on the basis of weight variation. However the USP monograph of "Lansoprazole Delayed release capsule" includes the test of uniformity of dosage units

4.	3.2.P.5	Justify for not performing the dissolution test in accordance with USP monograph, since the wavelength and the formula used for calculation is different from that specified in USP monograph of Lansoprazole delayed release capsule.	Firm replied that the revised dissolution test report has been submitted, which is performed in accordance with USP monograph.	
5.	3.2.P.8	Justify for keeping the injection volume 20µl while performing the assay of drug product as evident from the submitted chromatogram, since the USP monograph recommends 10µl injection volume for assay of Lansoprazole delayed release capsule.	Firm replied that due to availability of 20 µl injector in our HPLC system they have use 20 µl injection volume.	
6.	2.3.R.1.1	Provide detailed calculation of dispensed weight of API (enteric coated pellets) per capsule considering the calculated potency of drug substance.	Submitted	

Decision: Deferred for the submission of performance of following tests as per USP monograph of "Lansoprazole Delayed-Release Capsules" at the next time point of long term stability studies:

- **Uniformity of Dosage Units.**
- **Dissolution**

	Name, address of Manufacturing site.	M/s. Safina Pharmaceuticals (Pvt.) Ltd. 17-Km, Lahore-Sheikhupura Road, District Shiekhupura.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	New license granted on 18/02/2021
	Evidence of approval of manufacturing facility	New license granted vide letter No. F. 1-43/2006-Lic (Vol-I) dated 10/06/2021. Tablet (general), Capsule (general),Topical/cream/ointment/gel (general), Oral dry powder suspension (Cephalosporin section) and Capsule (Cephalosprin) sections are approved.

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No.22771 dated 15-09-2023
	Details of fee submitted	Rs.30,000/- dated 15-05-2023
	The proposed proprietary name / brand name	Diclosaf 50mg Capsule
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Diclofenac sodium .....50mg.
	Pharmacotherapeutic Group of (API)	NSAIDS
	Pharmaceutical form of applied drug	White to off white enteric coated pellets filled in hard gelatin capsules
	Reference to Finished product specifications	BP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Voltaren 50mg Capsule USFDA Approved
	For generic drugs (me-too status)	Phologen 50mg Capsule (Reg.no.009128) of M/s. Brookes Pharma, Karachi
	Name and address of API manufacturer.	Vision Pharmaceuticals (Pvt.) Ltd. Plot # 22-23, Industrial Triangle, Kahuta Road, Islamabad-Pakistan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities,physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure

		system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence & CDP studies of their product against the Mobikare 50 Capsules of M/s. Barret & Hodgson Pakistan (Batch no. D3560)
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Vision Pharmaceuticals (Pvt.) Ltd. Plot # 22-23, Industrial Triangle, Kahuta Road, Islamabad-Pakistan. (Diclofenac sodium enteric coated pellets (33%)		
API Lot No.	DE617		
Description of Pack (Container closure system)	Alu-PVC Blister		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	TR025	TR026	TR027
Batch Size	1500 Capsules	1500 Capsules	1500 Capsules
Manufacturing Date	08-2022	08-2022	08-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. F.3-26/2019-Addl.Dir.(QA & LT1)-56) dated 22-08-2022 issued by Drug Regulatory Authority of Pakistan. The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	--
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.no.	Section	Observations/Deficiencies/ Short-comings
1.	1.5.2	Submit the correct label claim of applied product in accordance with the label claim of reference product along with the requisite fee.
2.	3.2.S.4.2	Submit specification and detailed analytical procedure of drug substance by drug product manufacturer.
3.	3.2.S.4.3	Submit analytical method verification report of drug substance performed by drug product manufacturer.
4.	3.2.P.1	Please explain the role of empty gelatin capsule in the potency of finished drug product, since you have mentioned in the master formulation that the quantity of

		diclofenac sodium EC pellets used 75.88% and 24.12% of empty gelatin shell has taken to make 100%.	
5.	3.2.P.5.2	Submit detailed procedure how you have performed uniformity of dosage unit test while quality analysis of drug product.	
6.	3.2.P.6	Justify of using USP complied working standard of diclofenac sodium for the analysis of BP complied drug product and how the drug substance manufacturer provide USP complied working standard when they are supplied in house specified diclofenac sodium pellets.	
7.	2.3.R.1.1	Provide detailed calculation of weight of pellet filled per capsule considering the potency of diclofenac pellets.	

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings
