Date of Submission	30-11-2021		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents to Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	N/A
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copies of COAs (Batch#21AP 000002) of API (Apixaban) from M/s M/s CTX Life Sciences Pvt. Ltd, India and M/s Wimits Pharmaceuticals (Pvt) Ltd. Lahore are submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer	Methods used for analysis of API from both API Manufacturer and Finished Product Manufacturer are provided by the firm.
4.	Stability study data of API from API manufacturer	Firm has submitted stability study data of API as per zone IV-A. Stability study is conducted at Real time conditions; 30˚C ± 2˚C / 65% ± 5%RH for 36 months and at Accelerated conditions; 40˚C ± 2˚C / 75% ± 5%RH for 6 months at intervals 0, 3, 6, 9, 12, 18, 24, 36 & 0, 1, 2, 3 & 6 months respectively. Batches: (AB200001, AB200002, AB200003)
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate no. 22063346 dated 30-05-2022 in the name of M/s CTX Life Sciences Pvt. Ltd Block NO. 251-252 Sachin Magdalla Road, GIDC, Sachin, Surat, Gujarat, India issued by Food & Drug Control Administration valid till 29/05/2025
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of Invoice Number EI/3002100696, dated 19/02/2021 cleared by AD(I&E) Lahore, dated 03-03-2021.

7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	N/A
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Batch Size** / **Mfg. Date** TAU001 / 2500 tablets / 04-2021 TAU002 / 2500 tablets / 04-2021 TAU003 / 2500 tablets / 04-2021
11.	Record of comparative dissolution data (where applicable)	Provided Comparative dissolution was performed against Apiban 5mg tablet (batch No. 202918) of M/s Highnoon Laboratories Ltd., Lahore.
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

REMARKS OF EVALUATOR

Sr. No.	Observation	Firm's response
i	Dissolution test parameters are mentioned as 45 minutes sampling time whereas the acceptance limit of innovator product is testing at 30 minutes, Justify.	At the time, when product was manufactured we did not know innovator's product dissolution test parameters. So we followed FDA dissolution test parameters that are mentioned as 45minutes sampling time but our results were more than 85% after 30 minutes. Now we revised FPP dissolution test parameters as per innovator's product where the acceptance limit of testing is at 30 minutes.

Decision: Registration Board approved registration of Apiban 5mg tablet with Innovator's specifications by M/s Wimits Pharmaceuticals (Pvt) Ltd. Raiwind Road, Lahore.
Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

1443.	Name and address of manufacturer / Applicant	M/s Wimits Pharmaceuticals (Pvt) Ltd. Plot #129 Sundar Industrial Estate,Raiwind Road, Lahore.

REMARKS OF EVALUATOR[X]

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Provide reference of previous approval of applications with stability study data of the firm.
- Method used for analysis of API from both API Manufacturer and Finished Product Manufacturer

- Submit stability study data of API from API manufacturer as per zone IV-A conditions.
- Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.
- Documents for the procurement of API with approval from DRAP.
- Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.
- Dissolution test parameters are mentioned as 30 minutes sampling time whereas the acceptance limit of innovator product is testing at 15 minutes. Justify.
- Dissolution test is performed on five (5) sample units at each time point, whereas as per USP Dissolution general chapter 6 or 12 units should be tested, justify.
- Record of comparative dissolution data
- Justification for using overage in master formula.
- Record of Digital data logger for temperature and humidity monitoring of stability chambers. (accelerated and real time).

Decision of 333rd meeting: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Updated status: The firm has submitted revised stability data along with chromatograms and digital data logger vide Dy. No. 5159 dated 20-05-2024.

Decision: Registration Board approved registration of Wenopaa 10mg Tablet with Innovator's specifications by Wenovo Pharmaceuticals, Taxila. Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

Registration letter shall be issued after submission of following:

- **Method used for analysis of API from API Manufacturer**
- **Stability study data of API from API manufacturer**
- **Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.**
- **Documents/evidence for the procurement of API.**
- **fee Rs. 7500/- for pre-approval change in FPP specifications prescribed vide S.R.O. 496(I)/2023 dated 17-04-2023**

REMARKS OF EVALUATOR[X]

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Submit Comparative dissolution profile for 2.5mg strength against innovator/reference product.
- Justification shall be submitted for not including test of "Uniformity of Dosage Unit" by way of "content Uniformity" in finished drug product specifications.

Decision of 333rd meeting: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Updated status: The firm has submitted the following:

Sr. No.	Observations	Firm's response
i	Latest GMP inspection report conducted within period of 3 years.	GMP inspection certificate dated 29-11-2022 based on evaluation conducted on 04-06-2022
ii	Submit Comparative dissolution profile for 2.5mg strength against innovator/reference product.	Submitted Comparative dissolution was performed against Apiban 2.5mg tablet of M/s Highnoon Laboratories in 0.1N HCl pH (1.2), Acetate buffer (pH 4.5), Phosphate buffer (pH 6.8) & Phosphate buffer (pH 6.8) with 0.05% SLS
iii	Justification shall be submitted for not including test of "Uniformity of Dosage Unit" by way of "content Uniformity" in finished drug product specifications.	We have performed the "Uniformity of dosage unit" by way of "content uniformity". It is included in finished product specifications. Copies of finished product specifications, related SOP and finished product analysis report for all stability batches are attached.

Decision: Registration Board approved registration of Apixacol 2.5mg tablet with Innovator's specifications by M/s McOlson Research Labs. (Pvt) Ltd. Sheikhpura.
Registration letter shall be issued after Fee verification as per procedure adopted by Registration Board.
Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

REMARKS OF EVALUATOR[X]

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Provide reference of previous approval of applications with stability study data of the firm.
- Provide Drug-excipients compatibility studies.
- Provide complete batch manufacturing record of three stability batches.
- Provide record of comparative dissolution data.
- Provide both accelerated and real time stability data summary sheets and COAs of all time points of three stability batches.
- In dissolution test, justify 30 minutes sampling time whereas the acceptance limit of innovator product is Q should release in 15 minutes.

Decision of 333rd meeting: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Updated status: The firm has submitted the following:

Sr. No.	Observations	Firm's response
i	Latest GMP inspection report conducted within period of 3 years.	GMP inspection report dated 13-06-2022 recommends good GMP compliance.
ii	Provide reference of previous approval of applications with stability study data of the firm.	N/A
iii	Provide Drug-excipients compatibility studies.	N/A
iv	Provide complete batch manufacturing record of three stability batches.	Submitted
v	Provide record of comparative dissolution data.	Provided Comparative dissolution was performed against Jardiance tablet (10mg) Batch No. 23C1344 in HCl pH (1.2), Acetate buffer (pH 4.5) & Phosphate buffer (pH 6.8)
vi	Provide both accelerated and real time stability data summary sheets and COAs of all time points of three stability batches.	Submitted
vii	In dissolution test, justify 30 minutes sampling time whereas the acceptance limit of innovator product is Q should release in 15 minutes.	As per FDA guidelines for Dissolution Testing for immediate release solid oral dosage form, approaches for setting Dissolution specification for a New Chemical Entity, Dissolution testing should be carried out under mild test condition. For highly soluble and rapidly dissolving drug products (BCS Class 1 & 3), a single-point dissolution test specification of NLT 85% (Q = 85%) in 60 minutes or less is sufficient as a routine quality control test for batch to batch uniformity. On the other basis of above guideline, dissolution test of our product as well as innovator product performed during Comparative Dissolution profile complies with following parameter. i.e. 75 rpm for 30 minutes for dissolution. Therefore, these parameters were finalized for testing of Empagliflozin 25mg Tablet as well as for Empagliflozin 10mg Tablet.

Decision: Registration Board approved registration of Emaxy 10mg Tablet by M/s Aspin Pharma (Pvt.) Ltd. Karachi.
Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.

- Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)

Decision of 333rd meeting: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Updated status: The firm has submitted the following:

Sr. No.	Observations	Firm's response
i	Latest GMP inspection report conducted within period of 3 years.	GMP certificate dated 10-01-2022 based on evaluation conducted on 17-06-2021
ii	Submit reference of previous approval of applications with stability study data of the firm	N/A
iii	Submit method used for analysis of API from finished product manufacturer also.	Submitted
iv	6 units of each of both test and reference product are used for CDP. Clarification is required in the light of FDA guidance for industry and EMA guidelines of comparative dissolution.	It is our mistake that we can't consult and follow guidelines at the time but now, 12 units each of test and reference product are used for CDP. It will take time as we are performing CDP as per guidelines and as soon as we get the whole data we will submit the data of CDP in Evaluation Cell.
v	Submit protocol followed for conduction of stability study	Submitted
vi	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
vii	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Decision: Registration Board approved registration of Lasogap-D Capsule 30mg with Innovator's specifications by M/s Glitz Pharma, Islamabad.
Manufacturer will place first three production batches of both products on long term stability studies throughout proposed shelf life and on accelerated studies for six months.
Registration letter shall be issued after submission of revised comparative dissolution data as per commitment of the firm

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate dated 28-12-2021/ based on inspection conducted on 24/11/2021
	Evidence of approval of manufacturing facility	Section approval letter No. 1-18/92-Lic (Vol-III) dated 27.02.2023 (Soft Gelatin Capsule-General New)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	24.10.2023
	Details of fee submitted	PKR 30,000/- Dated 10/10/2023
	The proposed proprietary name / brand name	**D-Cad 3 5000IU Soft Gel Capsule**
	Strength / concentration of drug of Active Pharmaceutical	Each capsule contains: Vitamin D3 (Cholecalciferol)…….…….5000IU

	ingredient (API) per unit	
	Pharmacotherapeutic Group of (API)	Vitamin D analog
	Pharmaceutical form of applied drug	Soft Gelatin capsule
	Reference to Finished product specifications	USP
	Proposed Pack size	3x10's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	EURO-PHARM INTERNATIONAL CANADA INC https://health-products.canada.ca/dpd-bdpp/info?lang=eng&code=85664
	For generic drugs (me-too status)	Not available
	Name and address of API manufacturer.	Sichuan Province Yuxin Pharmaceuticals Co.Ltd No 51,west section of Changjiang road, economic development district (south district) shifang city Sichuan province,China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against Euro D Capsules 5000IU of Euro Pharma Canada. The details of product are not submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

	The status in reference regulatory authorities	Smetcta 3g sachet Beaufour Ipsen Industrie France
	For generic drugs (me-too status)	DOCTILE 3g sachet Sami Pharmaceuticals Pvt. Ltd
	Name and address of API manufacturer.	Shandong Xianhe Pharmaceutical Co., Ltd. Xianhe Town, Hekou Country , Dongying City, Shandong Province 257231 China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities,

		physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against product, Smecta 3g Sachet
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Shandong Xianhe Pharmaceutical Co., Ltd.		
API Lot No.	X220502		
Description of Pack (Container closure system)	Aluminium Sachet		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	016NS02	069NS03	069NS04
Batch Size	500 Sachet	500 Sachet	500 Sachet
Manufacturing Date	12-2022	12-2022	12-2022
Date of Initiation	28/12/2022	28/12/2022	28/12/2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate issued by Food and Drugs Control Administration.The certificate specifies that the firm is operating at satisfactory level of GMP compliance.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared on 31 Aug-2022 specifying 5Kg.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DEFERRED CASES

1456.	**Name, address of Applicant / Importer**	**M/s Gene-Tech Laboratories. B-246, Block 6, P.E.C.H.S, Karachi, Pakistan**
	Details of Drug Sale License of importer	**License No:** 002 **Address:** 246-B, Block 6, P.E.C.H.S, Karachi, Pakistan **Validity:** 15-08-2022 **Status:** by way of wholesaler **Address of Godown:** N/A
	Name and address of marketing authorization holder (abroad)	M/s Exirnanosina, Unit 7, F1. 4, No. 94, Fathi Shaghagi St., Jahanmehr St., Shahid Gomnam Ave., Fatemi Sq., Tehran, Iran.
	Name, address of manufacturer(s)	M/s Exirnanosina, Pardis Science & Technology Park, Damavand Road, Tehran, I.R. Iran
	Name of exporting country	Iran
	Detail of certificates attached (CoPP, Free sale certificate, GMP certificate) • Original legalized COPP (Certificate# 665/113187) issued by Iran Food & Drug Administration dated 21-02-2021. • Free Sale status: The COPP endorses the free sale status of the applied product in Iran. • GMP status: The COPP endorses the GMP status of the manufacturer. • Firm has submitted Legalized GMP certificate (Certificate No. 665/44522) issued by Iran Food & Drug Administration dated 09-02-2022 for M/s Exirnanosina, Pardis Science & Technology Park, Damavand Road, Tehran, I.R. Iran	
	Details of letter of authorization / sole agency agreement • Original Legalized Sole Agency Declaration (NOC) issued dated 18-07-2021 by M/s Exirnanosina in name of M/s Gene-Tech Laboratories for SinaDoxosome Injection, has been submitted. • Another agreement between the M/s Zhejiang Hengdian Apeola I&E Co., & M/s Shandong Luoxin Pharmaceutical Group Stock Co; Ltd has also been submitted declaring M/s Zhejiang Hengdian Apeola I&E Co the formal sole distributor of the applied product in Pakistan	
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)

	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy.No 20055 dated 13-07-2022
	Details of fee submitted	Rs.150,000/- dated 27-06-2022
	The proposed proprietary name / brand name	SinaDoxosome 20mg/ 10ml
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	(Injectable Nanoliposomal Doxorubicin Hydrochloride) Each 10ml Vial Contains: Doxorubicin HCl…….20mg
	Pharmaceutical form of applied drug	Powder for injection
	Pharmacotherapeutic Group of (API)	L01DB01 — Anthracycline topoisomerase inhibitor
	Reference to Finished product specifications	United States Pharmacopeia
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Approved by US FDA
	For generic drugs (me-too status)	Doxulip 20mg Injection of M/s Revive Pharmakon, Lahore (Reg.087684)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	M/s Synbias Pharma ltd., Kreplischikov Street 181, 83085, Donetsk, Ukraine.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 25°C ± 2°C / 60 ± 5% RH for 24 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months.

Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation report, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
Pharmaceutical Equivalence and Comparative Dissolution Profile	Comparative analysis Studies against the reference product of Caelyx injection has been submitted.
Analytical method validation/verification of product	Firm has submitted analytical method verification studies of the drug product.
Container closure system of the drug product	Type I glass vial
Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 25°C ±2°C / 60% ± 5% RH for 6 months. The real time stability study data is conducted at 5°C ±3°C for 18 months.

The product was considered by the Registration Board in its 330th meeting and deferred for submission of reply for below mentioned shortcomings. The firm has now submitted the response which is tabulated below:

Remarks of Evaluator:

Section#	Observations	Firm's response
	A contract agreement has been submitted b/w Nano Daru Pajuhan Pardis Iran and Genetech Laboratories Karachi. This need to be clarified because another sole agency authorization in your name has also been submitted by the manufacturer i.e. M/s Exirnanosina Company.	Copy of letter by the M/s Exirnanosina, Unit 7, F1. 4, No. 94, Fathi Shaghagi St., Jahanmehr St., Shahid Gomnam Ave., Fatemi Sq., Tehran, Iran wherein they have submitted clarification that they are separate entity which specialize in the production and distribution of Doxorubicin whereas Nano Daru Pajuhan Pardis Iran is separate company and both of them have no connection and affiliation with each other.
1.3.5	Copy of valid DSL of the applicant shall be submitted.	Firm has submitted copy of DSL by way of whole sale vide No. 0311 dated 08.02.2023 issued on 31.01.2023 and is valid till 30.01.2028. New License has been issued to the firm.
1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form in one of the reference regulatory authority specified by Registration Board shall be submitted.	Firm has submitted reference of product of Janssen Inc., Canada (Caelyx (Pegylated Liposomal Doxorubicin Hydrochloride Injection) sterile aqueous suspension for intravenous infusion).
2.3	Information submitted in Table for literary references for drug product is not correct. Revised information shall be submitted along with reference from pharmacopoeia.	The firm has submitted the references of specifcations for the API and excipients.

	3.2.S.2.1	Details of drug substance manufacturer declared in section 1.6.5 are different from that declared in section 3.2.S.2.1.	The firm now submitted they are getting API from M/s Synbias Pharma AG Switzerland which is manufactured by M/s Gemini PharmChem Mannheim GmbH Germany. As evidence copy of GMP certificate issued by the German Authorities is submitted.
	3.2.S.4.1	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by M/s Exirnanosina shall be submitted.	The firm has submitted the required information
	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the M/s Exirnanosina) shall be submitted.	The firm has submitted the required information
	3.2.S.4.4	Provide results of analysis of relevant batch(es) of Drug Substance performed by M/s Exirnanosina used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance /Active Pharmaceutical Ingredient manufacture.	The firm has submitted the required information.
	3.2.P.1	Qualitative composition of applied formulation is different from that of the innovator drug product. Clarification shall be submitted in this regard.	The firm clarified that applied qualitative formulation is same as the Innovator product.
	3.2.P.2.2.1	Justification shall be submitted for the limit & results of pH test applied in pharmaceutical equivalence studies with reference to pharmacopoeial monograph.	The pH range is 6.0-6.8 as per specifcations and CoA certificate of analysis submitted by the firm which is same as reference product.
	3.2.P.2.5	Submit compatibility studies with the proposed diluent for dilution.	The firm submitted compatibility studies with dextrose 5% solution for injection which indicates that product is stable for 24 hrs after reconstitution when stored in refrigerator at 2-8 ^{o}C
	3.2.P.5.1	• Justification need to be submitted for referring the USP monograph because the applied liposomal formulation is not available in the same. • Justification shall be submitted for the limit of pH test with reference to Innovator product • Justification shall be submitted for not including test of related substance in drug product specifications with reference to pharmacopoeial monograph. • Justification shall be submitted for variation of limit of Endotoxin test with reference to Innovator product	The firm submitted the in house specifcations with pH limits, impurities and endotoxin limits in line with the reference product.

	.	
3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.	The firm has stability data sheets of three batches rather the batch analysis details.
3.2.P.8.3	• Justification shall be submitted for the limit & results of pH test reported in the stability studies. • Justification shall be submitted for not performing test of related substances in stability studies. • Significant change in the results of Assay test has been reported in the accelerated stability studies of batch no. SD00209601. Justification shall be submitted in this regard. • Out of specification results for of Assay test has been reported in the accelerated stability studies of batch no. SD00209602. Justification shall be submitted in this regard. • Long term stability studies of 18months has been submitted only whereas long term stability study shall be submitted till claimed shelf life.	❖ As liposomal doxorubicin hydrochloride is not in any pharmacopeia, the applied pH I in the limit of the innovator drugs product (Caelyx) and the method of analysis is form pharmacopeia general chapter. ❖ Since the updated reference method of the product is BP, the impurity test has been added to new specification. ❖ According to stability studies the product I stable for 3 months under accelerate conditions (25±3°C, %±5 R.H) due to reduction of assay in month 6. ❖ According to stability studies the product I stable for 3 months under accelerate condition (25±3°C, %±5 R.H) due to reduction of assay in month 6. ❖ The product shelf life is the same as innovator drug (Caelyx) which is 18 months.

Remarks:
As per innovator the identified CQAs of the finished product were appearance, identification of doxorubicin, identification of lipids, pH, osmolality, particulate matter, particle size distribution, zeta potential, assay, related substances, lipid content, lipid degradants, encapsulation efficiency, free drug, drug to lipid ratio, sulfate and ammonium ion concentration, colour, sterility and bacterial endotoxin.

Decision in 331st meeting:
Deferred for submission of following data:
Identification of lipids, osmolality, particle size distribution, zeta potential, lipid content, lipid degradants, encapsulation efficiency, free drug, drug to lipid ratio and sulfate and ammonium ion concentration.

Remarks of Evaluator:
The firm has now submitted revised specifications for the tests mentioned above required by the Board however Drug Product part of dossier is required to confirm the manufacturing and testing of the product as per submitted specifications.

Decision: Deferred for submission of product specifications data as per CTD section 3.2.P.5 (Proposed Specifications, Analytical Procedures, Analytical Method Validation Studies, Batch Analysis Data, Justification of Specifications).

Deputy Director (PEC) (Mr. Salateen Waseem Philip)

Item No. 01: Routine Cases.

Evaluation by DD-PE&R:		

Section	Observations

1.3.4	Please submit notarized copy of contract between contract giver and contract acceptor on stamp paper presenting the capacities of the contract acceptor for the manufacturing sections for whom the products have been applied. Affidavit on stamp paper (showing name, designation, CNIC number of contract giver) stating installed capacity of the contract acceptor for contract manufacturing. This affidavit should be signed by CEO/MD of contract acceptor.
	As CCL is a licensed pharmaceutical manufacturing unit, please provide reasons that why your manufacturing unit is unable to maintain its production or output level with reasons, including but not limited to repair or upgradation requirements?
	Please submit the inspection report conducted within last three years for the purpose of capacity assessment of manufacturing facility of M/s Horizon Pharmaceuticals.
3.2.S.7	Please submit the details regarding determination of polymorphic form of API by drug substance manufacturer. Please submit proof that drug substance manufacturer has a well-established and validated XRD method and testing facility for XRD.
3.2.P.2	Please provide invoice for procurement of reference product, batch #, manufacturer details. Is remaining quantity of reference product and the stability batches of your drug product still present in stability chamber?
3.2.P.8	Please submit stability summary sheets for the comparison of results between 0,3&6 months' stability studies as per format available on Page # 37-38 of **Guidance Document for Submission of Application On FORM 5-F (CTD) For Registration of Pharmaceutical Drug Products for Human Use available on official website of DRAP.** Please submit complete stability data of 6th months both for accelerated and real time climatic conditions. Please submit reference of choosing dissolution limits of both APIs in drug product.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

	For generic drugs (me-too status)	Tablet Panadol osteo by GSK

Evaluation by DD-PE&R:

Section	Observations
1.5.2	Please clarify in your label claim whether formulation is bilayer tablet or otherwise? Along with total amount API as 665 mg, Please also mention in your label claim the quantity of API in immediate and sustained release layers.
3.2.P.1	Please submit a comparison for the formulation of your drug product with reference product in tabulated form. Please justify that why carnuba wax being not used in your formulation while the reference product formulation uses it in coating.
3.2.P.2	Please clarify that how monograph of extended release tablet of acetaminophen in USP Pharmacopeia is applicable on dissolution and assay tests of bilayer tablet containing both immediate release and sustained release tablets of paracetamol ?
3.2.P.8	Please submit COA of API used in manufacturing of the stability batches issued by both drug substance manufacturer and drug product manufacturer. Please submit procurement documents of API.

Decision: approved. Keeping in view the approval status of product in different reference regulatory authorities, WHO maturity level-4 (ml-4) authorities and pics member countries, registration board approved the instant application along with following conditions as approved previously by registration board in its 331st meeting for applied formulation:

A) manufacturer will place first three production batches of the product on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

B) manufacturer will perform process validation of first three batches of the product as per the commitment submitted in the registration application.

C) complete finished product specifications (in tabulated form) will be annexed with the registration letter.

D) to mitigate the risk due to toxicity associated with overdose of paracetamol extend tablet 665mg, registration letter will be issued with following additional conditions/ statements:

"Following conditions should appear on label of the product in bold and conspicuous manner:

☐ for adults, the highest recommended dose of paracetamol extend tablet 665mg is 1.3 g and the Maximum daily dose is 4 g (i.e., 2 tablets 3 times a day with highest dose of 6 tablets a day).

Paracetamol extend tablet 665mg should not be used as an alternative to panadol/ paracetamol tablet 500mg without prior consultation with physician/ pharmacist."

E) above-mentioned conditions will also be included in advertisement of the product and for this purpose, recommendation will be forwarded to pharmacy services division, drap.

F) to ensure compliance with the above-mentioned conditions, the applicant will be advised to conduct training programmes for the health care providers and submit biannual compliance reports to pe&r division subsequent to issuance of registration.

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 4213: 14-02-2023
	Details of fee submitted	PKR 30,000/-: 14-02-2023 (Slip # 3221619684)
	The proposed proprietary name / brand name	**Savisca Shampoo 2% w/w**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each gram Contains: Ketoconazole …… 20 mg
	Pharmacotherapeutic Group of (API)	Imidazole Anti-fungal agent
	Reference to Finished product specifications	BP Specification
	Proposed Pack size	60ml, 90ml, 100 ml & 120 ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	MHRA UK approved formulation
	For generic drugs (me-too status)	Conaz Scalp lotion (Shampoo based)

Evaluation by DD-PE&R:

Section	Observations	Reply of the firm
1.5.8	Please clarify that formulation applied is in w/w % i.e. 20 mg/gm while the me too generic reference provided is in w/v % i.e. 20 mg / ml.	Our product is formulated with the same weight per weight (w/w) approach as the innovator brand Nizoral Shampoo with a claimed concentration of 20 mg per gram. However, the generic alternative is labeled using weight per volume (w/v) percentage, starting 20 mg per ml, which deviates from the innovator specification.

Decision: approved.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Tablet Contains: Delafloxacin meglumine equivalent 649 mg to Delafloxacin …… 450 mg
	Pharmacotherapeutic Group of (API)	Fluoroquinolones
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	5's, 10's & 100's.

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Baxdela ® - USFDA approved formulation
	For generic drugs (me-too status)	N/A

Evaluation by DD-PE&R:

Section	Observations	Reply of the firm
1.5.2	Please mention the quantity of salt and base per unit. Also elaborate about type of tablet (uncoated/film coated / sugar coated etc.).	Submitted
1.5.11	As delafloxacin is a member of the fluoroquinolone class of antibacterial drugs, please include safety issues related to the class in relevant sections of labelling including the Boxed warning and Precautions section.	Submitted
3.2.S.7	Please submit the details regarding determination of polymorphic form of API by drug substance manufacturer.	It is mentioned in section 3.2.S.1.3 of DMF that API by the manufacturer doesn't contain crystal water so its anhydrous crystal form compound which is consistent with anhydrous crystal form of U.S Patent.
3.2.P.1	Delafloxacin meglumine is a poorly soluble compound, please provide details for designing the proposed drug product to be a very rapidly disintegrating dosage form.	We have formulated our product as per the Innovator formula of Baxdela tablet. Innovators Formula contains Crospovidone (109mg/tab) as a disintegrant and solubility enhancer.
3.2.P.2	Please clarify your position for pasting results of assay and dissolution test of escitalopram in summary sheet of pharmaceutical equivalence of tablets containing delafloxacin meglumin.	Written Escitalopram in pharmaceutical equivalence summary of delafloxacin 450mg tablet is a typographic error. Corrected document of pharmaceutical equivalence summary of Delafloxacin 450mg tablet is attached
	Please provide invoice for procurement of Tablet Baxdela, batch #, manufacturer details.	Submitted
	Is remaining quantity of Tablet Baxdela and the stability batches of your drug product still present in stability chamber?	Stability batches remaining quantity still available while reference product sample not present.
	Please justify that how stability of comparator product equivalent to your drug product while the primary container of products is different.	Comparator product packed in HDPE bottles and applicant's ALU-ALU blister equivalent to each other. Manufcaturing of comparator product was 04-2021 while our product manufacture on 04-2022 but even after 12 months, applicant results are equivalent to reference product.
3.2.P.8	Please submit DRAP clearance documents for procurement of API.	Submitted
	Please submit GMP certificate of API manufacturer issued by regulatory authority of country of origin which should be valid till date.	Submitted

Decision: approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	**Tablet Etromo 25 mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet Contains: Etrombopag olamine equivalent to Etrombopag……25 mg
	Pharmacotherapeutic Group of (API)	Thrombopoietin Receptor Antagonist
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	28 tablets per pack.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Promacta ® USFDA approved formulation
	For generic drugs (me-too status)	N/A

Evaluation by DD-PE&R:

Section	Observations
1.1	Please submit remaining fee of PKR 45000/- for registration of New Drugs Application.
1.3.4	Please submit section approval letter issued by Licensing Division DRAP for manufacturing facility of Tablet (general) Section required for this dosage form.
1.5.2	Please mention the quantity of salt and base per unit. Also elaborate about type of tablet (uncoated/film coated / sugar coated etc.).
3.2.S.4	Please submit in detail for the procedures adopted by drug substance manufacturer to determine the polymorphic forms.
3.2.P.2	Please submit invoice for procurement of comparator product. Also submit details regarding Batch #, quantity purchased, mfg. and expiry date. Also submit details of quantity remaining of comparator product.
3.2.P.5	How will you justify the assay method on UV spectroscopy while innovator brands testing method is on HPLC? Please submit reference and validation data to proof that UV spectroscopy method is authentic and reliable than HPLC.
3.2.P.8	Please submit DRAP clearance documents for procurement of API. Please submit GMP certificate of API manufacturer issued by regulatory authority of country of origin which should be valid till date.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 5491: 27-02-2023
	Details of fee submitted	PKR 30,000/-: 10-02-2023 (Slip # 8379404741)
	The proposed proprietary name / brand name	**TABLET TAPENT 75 mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Tapentadol …… 75 mg
	Pharmacotherapeutic Group of (API)	Opioid analgesic
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	NUCYNTA® PMDA Japan approved formulation
	For generic drugs (me-too status)	Tablet Tapento 75 mg by Sami Pharmaceuticals.

Evaluation by DD-PE&R:

Tapentadol is a mu-opioid agonist and is a Schedule II controlled substance declared by USFDA. Such drugs are sought by drug abusers and people with addiction disorders. Diversion of Schedule II products is an act subject to criminal penalty.

Section	Observations	Reply of the firm
1.3.4	Please submit GMP certificate of the firm issued by DRAP which should be valid till date.	Expired, applied for the fresh.
1.6.5	Please submit GMP certificate of API manufacturer issued by the regulatory authority of country of origin which should be valid till date.	Submitted
3.2.S.4	Please submit documented evidence that drug substance manufacturer has established method and facility to determine enantiomeric purity.	Submitted
3.2.P.1	Please clarify that why methanol has been used as a solvent in coating of tablets while it is not part of the formulation of innovator brand?	The methanol is used as solvent in the coating solution. However, the methanol is evaporated while coating. The finished product doesn't contain methanol contents.
	Please clarify that why excipients of your formulation are different than the formulation of the innovator brand ?	The quaititative composition of the product is amost similar to that of innovator product, however few excipients used in the coatin of product are different. Stability

		studies depicts that these excipients are compatible with the API.
3.2.P.8	Please clarify that why analytical method has not been validated properly to remove the negative peaks (drifts) in the chromatograms of sample of drug products? The baseline is also not stable in your chromatograms ?	The method defined by the raw material manufacturer was adopted for the testing of product. As the API manufacturer has validated the method. So the Aulton Pharma being the finished product manufacturer has not validated instead verified the analytical procedure.

Comments of Evaluater: The firm is using methanol in coating of tablets while the formulations approved by RRA does not contains organic solvents or methanol as coating solvent. Product is also not light sensitive or moisture sensitive to be coated with any organic solvent.
Firm needs to provide evidence of testing facility of gas chromatography to test the product to be free from traces of methanol along with process validation.
GMP certificate of firm also expired.

Decision: Deferred for the submission of clarification of using methanol in coating of tablets against the practices of RRA and GMP certificate along with report showing the tsting facilities of the firm.

	Details of fee submitted	PKR 30,000/-: 22-12-2022 (Slip # 835612326247)
	The proposed proprietary name / brand name	**TABLET TAPONIX 75 mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contain-ns: Tapentadol …… 75 mg
	Pharmacotherapeutic Group of (API)	Opioid analgesic
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	NUCYNTA® PMDA Japan approved formulation
	For generic drugs (me-too status)	Tablet Tapento 75 mg by Sami Pharmaceuticals.

Evaluation by DD-PE&R:

Tapentadol is a mu-opioid agonist and is a Schedule II controlled substance declared by USFDA. Such drugs are sought by drug abusers and people with addiction disorders. Diversion of Schedule II products is an act subject to criminal penalty.

Section	Observations
1.6.5	Please submit GMP certificate of API manufacturer issued by the regulatory authority of country of origin which should be valid till date.
3.2.S.4	Please submit documented evidence that drug substance manufacturer has established method and facility to determine enantiomeric purity.
3.2.P.1	Please submit the details of excipients used in coating of the drug product ? also clarify thay why excipients used in reference product are not fully followed in your formulation ?
3.2.P.8	Please submit stability summary sheets for the comparison of results between 0,3&6 months' stability studies as per format available on Page # 37-38 of **Guidance Document for Submission of Application On FORM 5-F (CTD) For Registration of Pharmaceutical Drug Products for Human Use available on official website of DRAP.** https://www.dra.gov.pk/wp-content/uploads/2022/01/Guidance-Document-on-CTD-Doc-No.-PER-GL-AF-004.pdf.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

	Name, address of Manufacturing site.	**M/s Ophth-Pharma (Pvt) Ltd. (DML # 000488) Plot No. 241 Sector 24 Korangi Industrial Area Karachi.**
	Status of the applicant	☒ Manufacturer ☐ Importer

		☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 29752 : 20-10-2022
	Details of fee submitted	PKR 30,000/-: 23-09-2022 (Slip # 6913334188)
	The proposed proprietary name / brand name	**M-ZOL 0.75% Vaginal Gel**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each gram of gel contains: Metronidazole …….. 7.5 mg
	Pharmacotherapeutic Group of (API)	(Antifungals for dermatological/ topical use; imidazole derivative) ATC code: D01A C02.
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	15g tube
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Health Canada approved formulation
	For generic drugs (me-too status)	Locally registered

Evaluation by DD-PE&R:

Section	Observations
1.6.5	Please submit GMP certificate of API manufacturer issued by regulatory authority of country of origin which should be valid till date.
3.2.S.5	Please submit batch analysis report of API along with chromatograms and calculation sheets.
3.2.P.1	Please clarify that why formulation is not same as per the reference product? Please submit in tabulated form the comparison between your formulation and reference product. Please also clarify that why parabens has been used in formulation?
3.2.P.5	Please submit system suitability as per latest monograph USP specification and submit chromatograms to confirm the resolution between peaks are within the limits.
3.2.P.8	Please submit the DRAP clearance document for procurement of API. Please submit the calculation sheets which must contain formula used, weigh of standard samples in mg and the number of dilution for making final concentration in mg/ml. Please submit stability summary sheets for the comparison of results between 0,3&6 months' stability studies as per format available on Page # 37-38 of **Guidance Document for Submission of Application On FORM 5-F (CTD) For Registration of Pharmaceutical Drug Products for Human Use available on official website of DRAP.**

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Address: Block No. 251/P, 252/P, 253 to 255,256/P, 258/P, 276/P, 277,278/P,279 to 282,283/P,284/P GIDC, City-Sachin, Dist. Surat Gujarat Estate, India. GMP validity: 29-05-2025
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.

	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Amlodipine Beysalate** Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 60 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH **Valsartan** Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 36 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH **Hydrochlorothiazide** Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 72 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Brand Name:** Tablet ExForge-HCT **Manufacturer:** M/s Novartis, Spain **Testing Parameters:** USP Specifications **Comparative Dissolution Profile** Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

1507.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ferozsons Laboratories Limited (DML # 000038) Amangarh, Nowshera, Khyber Pakhtunkhwa.**
	Name, address of Manufacturing site.	M/s Ferozsons Laboratories Limited (DML # 000038) Amangarh, Nowshera, Khyber Pakhtunkhwa.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	GMP certificate issued on the basis of inspection report conducted on 10-08-2021.
	Evidence of approval of manufacturing facility	Central Licensing Board in its 277th meeting held on 15th-16th October 2020 approved the renewal of DML including Tablet (General) Section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 37083 dated 20-12-2022

	Details of fee submitted	PKR 30,000/-: Dated 07-12-2022 Slip # 001567623135
	The proposed proprietary name / brand name	Covance-H Tablet 5mg/160mg/25mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Amlodipine besylate equivalent to Amlodipine ……...……5 mg Valsartan ……160 mg Hydrochlorothiazide …… 25 mg
	Pharmaco-therapeutic Group of (API)	A combination of calcium channel blocker, ARB & Diuretics
	Pharmaceutical form of applied drug	Film Coated Tablet
	Reference to Finished product specifications	USP Specifications
	Proposed Pack size	7s, 10s, 14s, 20s, 28s & 30s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Exforge HCT, MHRA, USFDA, EMA & TGA approved formulation.
	For generic drugs (me-too status)	Brand Name: Avsar Plus Tablet Manufacturer: M/s PharmEvo Registration #: 076358
	Name and address of API manufacturer.	**Amlodipine Beysalate** Name: M/s Cadila Pharmaceuticals Ltd. Address: 294, G.I.D.C, Estate City, Anlleshwar-393002, Dist-Bharuch, Gujarat Estate, India. GMP validity: 20-10-2024 **Valsartan** Name: M/s Zhuhai Rundu Pharmaceutical Co. Ltd. Address: No. 06, North Airport Road, Sanzao Town, Jinwan, District, Zhuhai, Guangdong, China. GMP validity: 04-10-2024 **Hydrochlorothiazide** Name: M/s CTX LifeSciences Pvt. Ltd. Address: Block No. 251/P, 252/P, 253 to 255,256/P, 258/P, 276/P, 277,278/P,279 to 282,283/P,284/P GIDC, City-Sachin, Dist. Surat Gujarat Estate, India. GMP validity: 29-05-2025
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Amlodipine Beysalate** Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 60 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH **Valsartan** Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 36 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH **Hydrochlorothiazide** Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 72 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Brand Name:** Tablet ExForge-HCT **Manufacturer:** M/s Novartis, Spain **Testing Parameters:** USP Specifications **Comparative Dissolution Profile** Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	**Amlodipine Beysalate** Name: M/s Cadila Pharmaceuticals Ltd. Address: 294, G.I.D.C, Estate City, Anlleshwar-393002, Dist-Bharuch, Gujarat Estate, India. **Valsartan** Name: M/s Zhuhai Rundu Pharmaceutical Co. Ltd. Address: No. 06, North Airport Road, Sanzao Town, Jinwan, District, Zhuhai, Guangdong, China. **Hydrochlorothiazide** Name: M/s CTX LifeSciences Pvt. Ltd. Address: Block No. 251/P, 252/P, 253 to 255,256/P, 258/P, 276/P, 277,278/P,279 to 282,283/P,284/P GIDC, City-Sachin, Dist. Surat Gujarat Estate, India.		
API Lot No.	Amlodipine Besylate	Valsartan	Hydrochlorothiazide
	20ADL003	6781912601	20HZ00068
Description of Pack (Container closure system)	14 film coated tablets packed in ALU-ALU blister, packed in unit carton.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		

Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	CHTab-007	CHTab-008	CHTab-009
Batch Size	1500 tablets	1500 tablets	1500 tablets
Manufacturing Date	11-2020	11-2020	11-2020
Date of Initiation	07-12-2020	07-12-2020	07-12-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Amlodipine Besylate** **Quantity:** 30kg **Invoice:** 3202040334 **Dated:** 09-06-2020 **VALSARTAN** **Quantity:** 200 kg **Invoice:** RD2020032301-1 **Dated:** 01-04-2020 **Hydrochlorothiazide** **Quantity:** 125 kg **Invoice:** EI/3092100690 **Dated:** 12-02-2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1508.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Ferozsons Laboratories Limited (DML # 000038) Amangarh, Nowshera, Khyber Pakhtunkhwa.**

1514.	NEW SECTION THE CENTRAL LICENSING BOARD IN ITS 289TH MEETING HELD ON 23RD FEBRUARY, 2023 HAS CONSIDERED AND APPROVED THE GRANT OF ADDITIONAL SECTION OF DRY POWDER VIAL INJECTION (CEPHALOSPORIN) FOR DML # 000933 (FORMULATION)	
	NAME, ADDRESS OF APPLICANT / MARKETING AUTHORIZATION HOLDER	**M/S GETZ PHARMA (PVT.) LTD. - (UNIT I) (DML # 000933) PLOT NO. 1, SECTOR 25, KORANGI INDUSTRIAL AREA KARACHI.**
	NAME, ADDRESS OF MANUFACTURING SITE.	M/S GETZ PHARMA (PVT.) LTD. - (UNIT I) (DML # 000933) PLOT NO. 1, SECTOR 25, KORANGI INDUSTRIAL AREA KARACHI.
	STATUS OF THE APPLICANT	☒ **MANUFACTURER** ☐ **IMPORTER** ☐ **IS INVOLVED IN NONE OF THE ABOVE (CONTRACT GIVER)**
	APPLICATION FORM DY. NO / TRACKING ID & DATE OF SUBMISSION	**FORM 5F: TRACK ID: 5BH-V4D-M1P2 DATED: 24-04-2024**
	DETAILS OF FEE SUBMITTED	**PKR 30,000/-: 22-12-2023 (SLIP # 9219780181)**
	THE PROPOSED PROPRIETARY NAME / BRAND NAME	ASTOZIME POWDER FOR INJECTION 250MG
	STRENGTH / CONCENTRATION OF DRUG OF ACTIVE PHARMACEUTICAL INGREDIENT (API) PER UNIT	**EACH VIAL CONTAINS: *(POWDER FOR RECONSTITUTION)* CEFTAZIDIME PENTAHYDRATE EQUIVALENT TO CEFTAZIDIME ……. 250 MG**
	PHARMACOTHERAPEUTIC GROUP OF (API)	**CEPHALOSPORINS**
	REFERENCE TO FINISHED PRODUCT SPECIFICATIONS	**USP SPECIFICATION**
	PROPOSED PACK SIZE	**15 MLCLEAR GLASS VIAL USP-TYPE III**
	PROPOSED UNIT PRICE	**AS PER SRO**
	THE STATUS IN REFERENCE REGULATORY AUTHORITIES	**USFDA APPROVED FORMULATION**
	FOR GENERIC DRUGS (ME-TOO STATUS)	**FORTUM INJECTION**

EVALUATION BY DD-PE&R:

SECTION	OBSERVATIONS	STATUS

3.2.P.8	**PLEASE SUBMIT DRAP CLEARANCE DOCUMENTS FOR PROCUREMENT OF API.**	**SUBMITTED**
	PLEASE SUBMIT 06TH MONTH STABILITY STUDY DATA FOR BOTH ACCELERATED AND REAL TIME CLIMATIC CONDITIONS.	**SUBMITTED**

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application**.

EVALUATION BY DD-PE&R:

Section	Observations	Reply of the firm
3.2.p.2	Please mention the critical process parameters and quality attributes necessary to focus during manufacturing of tablets.	Particle size distribution controlled by api manufacturer.
	Please explain the procedure of manufacturing for confirmation of good flow characteristics and good uniformity of formulation.	Submitted
	Since the drug product consists of less than 2% active substance, please submit sop and results of in process tests and parameters adopted for quality by design so that manufacturing process confirms that every unit of product possess exactly the same amount of the active ingredient?	Content uniformity test Sop submitted Inprocess test submitted
3.2. P.5.2	Please submit batch analysis report of three batches which must contain results along with chromatograms, raw data, calculation sheets for content uniformity test, assay of api in drug product, disslotion test with relvant chromatograms.	Submitted
3.2.p.8	Please submit drap clearance documents for active ingredient procured by hansel pharma.	Submitted

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Name and address of API manufacturer.	**<u>Brivaracetam</u>** Name: M/s LEE Pharma Limited Address: SY NO. 10/G-1, GADDAPOTHARAM (V), JINNARAM (M), SANGAREDDY (D)TELANGANA State, GADDAPOTHARAM VILLAGE, JINNARAM MANDAL, SANGAREDDY DISTRICT, TELANGANA, INDIA. GMP validity: 13-09-2025
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation,

		batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 12 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	BRAND NAME: **INJECTION BRIVLERA IV 50 MG/5ML** MANUFACTURER: **M/S UCB CANADA** TESTING PARAMETERS: **INNOVATOR SPECIFICATIONS**
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

NO. OF BATCHES	**03**		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted

3.	Documents for the procurement of API with approval from DRAP (in case of import).	**QUANTITY: 4KG** **INVOICE: 1225/LP/2021-22** **DATED: 11-09-2021**
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Details of fee submitted	PKR 30,000/-: Dated 22-07-2022 Slip # 65968156
	The proposed proprietary name / brand name	BRIVAGET Tablet 75 mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Brivaracetam …… 75 mg
	Pharmaco-therapeutic Group of (API)	Anticonvulsant Activity

	Pharmaceutical form of applied drug	Film Coated Tablet
	Reference to Finished product specifications	Innovator Specifications
	Proposed Pack size	10's & 14's Tablets
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	BRIVIACT® 75mg Tablets, USFDA approved formulation.
	For generic drugs (me-too status)	Brand Name: Cubriva 75mg Tablets Manufacturer: M/s Genix
	Name and address of API manufacturer.	Brivaracetam Name: M/s LEE Pharma Limited Address: SY NO. 10/G-1, GADDAPOTHARAM (V), JINNARAM (M), SANGAREDDY (D)TELANGANA State, GADDAPOTHARAM VILLAGE, JINNARAM MANDAL, SANGAREDDY DISTRICT, TELANGANA, INDIA. GMP validity: 13-09-2025
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 12 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Brand Name: Tablet Brivatam 75 mg Manufacturer: M/s CCL Pharmaceuticals Testing Parameters: Innovator Specifications Comparative Dissolution Profile Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Name: M/s LEE Pharma Limited Address: SY NO. 10/G-1, GADDAPOTHARAM (V), JINNARAM (M), SANGAREDDY (D)TELANGANA State, GADDAPOTHARAM VILLAGE, JINNARAM MANDAL, SANGAREDDY DISTRICT, TELANGANA, INDIA.		
API Lot No.	RIP0321020		
Description of Pack (Container closure system)	75mg, Dark orange colored, round shaped film coated tablet, plain on both sides, packed in ALU-ALU Blister, further packed in secondary carton.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 60 months Climatic conditions: 30°C ± 2°C / 75% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical

		procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Brand Name: Zometa IV infusion Manufacturer: Novartis Pharma Testing Parameters: Innovator Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Name: M/s Ultratech India Ltd. Address: New Chemical Zone, M.I.D.C. Taloja, Tal. Panvel, Dist. Raigad, Maharashtra, India.		
API Lot No.	UT2181007		
Description of Pack (Container closure system)	100 ml clear glass vial moduled USP Type-II		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	ZAI-4-003	ZAI-4-004	ZAI-4-005
Batch Size	20 Vials	20 Vials	20 Vials
Manufacturing Date	04-2020	04-2020	04-2020
Date of Initiation	04-2020	04-2020	04-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Quantity: 30 gm Clearance Date: 30-11-2018
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deputy Director (PRV/EFD) vide letter No. F.1-6/2019-PR-I (EFD) dated 20th July 2023 informed that, in compliance to the decision of 133rd meeting of the authority held on 13th April 2022, **M/s Shaigan Pharmaceuticals Private Limited (DML # 000333) 14-km Adyala Road, Post Office Dahgal, Rawalpindi**, has achieved the benchmark of more than **100,000 USD** worth of export of medicines during the **fiscal year 2022-2023** and requested for priority consideration of following molecule.

1549.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Shaigan Pharmaceuticals Private Limited. (DML # 000333) 14-km Adyala Road, Post Office Dahgal, Rawalpindi.**
	Name, address of Manufacturing site.	**M/s Shaigan Pharmaceuticals Private Limited. (DML # 000333) 14-km Adyala Road, Post Office Dahgal, Rawalpindi.**
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	GMP certificate issued on the basis of inspection report dated 04-11-2021
	Evidence of approval of manufacturing facility	Central Licensing Board in its 272nd meeting held on 17th October 2019 approved the renewal of DML including Tablet (General).
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

Manufacturer of API	Empagliflozin Name: M/s Jiangsu Yongan Pharmaceutical. Address: No. 18, 237 provincial Road, Economic Development Zone, Huaian, Jiangsu China. Metformin HCl Name: M/s Smruthi Organics Limited Address: A-27, M.I.D.C. Chincholi, Tal-Mohol Solapur, Maharashtra India.		
API Lot No.	Empagliflozin	Metformin HCl	
	EPG-201901001	MFH-110/18	
Description of Pack (Container closure system)	White colored labeled cardboard box contains brown color, oblong biconvex plain on both side film coated tablets.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	1000 Tablets	1000 Tablets	1000 Tablets
Manufacturing Date	02-2020	02-2020	02-2020

Date of Initiation	02-2020	02-2020	02-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Empagliflozin Quantity: 2 kg Clearance Date: 07-03-2019 Metformin HCl Quantity: 2000 kg Clearance Date: 04-03-2018
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.6.5	Please submit GMP certificate of both API manufacturers (Empagliflozin & Metformin HCl) issued by regulatory authority of the country and should be in force till date.	Submitted
1.3.4	Please submit section approval letter of Tablet (General) Section approved by Central Licensing Board.	Submitted
3.2.P.5	Please specify the tests performed for solution of coating containing drug substance Empaglifozin.	Submitted

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deputy Director (PRV/EFD) vide letter No. F.1-6/2019-PR-I (EFD) dated 02nd June 2023 informed that, in compliance to the decision of 133rd meeting of the authority held on 13th April 2022, **M/s Vision Pharmaceuticals (Pvt.) Ltd (DML # 000517) Plot No. 22-23, Industrial Triangle, Kahuta Road, Islamabad**, has achieved the benchmark of more than **100,000 USD** worth of export of medicines during the **fiscal year 2021-2022** and requested for priority consideration of following molecule.

1553.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Vision Pharmaceuticals (Pvt.) Ltd. (DML # 000517) Plot No. 22-23, Industrial Triangle, Kahuta Road, Islamabad.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Quantity: 1.5 kg Clearance Date: 05-07-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.3.4	Please submit evidence of approval of manufacturing facility of Tablet (General) Section of your firm by Central Licensing Board.	Submitted
3.2.S.4	As per the claim of drug substance manufacturer, please submit documents / information for confirmation that there is no Polymorph A but only Polymorph-B of drug substance Ibandronate Sodium is present.	We do hereby confirm that polymorph A is not present and for this the manufacturer has also conducted different testing i.e. IR, X-Ray diffraction, Differential scanning calorimetry, thermo Gravimetrical analysis on their experimental batches. Evidences of Chromatograms were also attached in already submitted dossier in Module 3 Section 3.2.S.3.1.2, Page No: 26 to Page No: 44.

3.2.S.7	Please submit stability data of drug substance according to the climatic condition of Pakistan (Zone-IV).	Submitted
3.2.P.2	Please justify the slower release profile of your drug product than Dissolution profiles of the Bondronat® and Bonviva® tablets avaialble in the public assessment report of EMA wherein release media and at different pH, the innovator / reference products were proved to be pH independent and all samples dissolved faster that 85% in 15 minutes in all pH's.	In pH 1.2, more than 85% of the labeled amount of Ibandronic acid was released in 15 minutes both for sample product and innovator product. The dissolution test in pH 1.2 simulates the acidic environment of the stomach, where Ibandronic acid is highly soluble and rapidly dissolves. In pH 4.5 and 6.8, the dissolution profile of the test product is similar to that of the reference product (Bonviva 150 mg tablets) using the similarity factor (f2). The dissolution test in pH 4.5 and 6.8 simulates the alkaline environment of the lower part of the small intestine and the colon, where Ibandronic acid is poorly soluble and slowly dissolves. The dissolution similarity between the test and reference products ensures that the drug release and bioavailability are comparable and consistent in these regions
3.2.P.8	Please provide the details of relevant manufacturing instrument / equipment of R&D used for manufacturing of batch size of 1000 tablets.	Submitted

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Valsartan Quantity: 12 kg Clearance Date: 21-06-2021 Amlodipine Besylate

		Quantity: 0.7 kg Clearance Date: 21-06-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
3.2.S.4	In the Batch analysis report of Herbion, please justify that why assay limits of amlodipine Besylate has been mentioned as 98% - 102% while USP specification limits are 97% -102%?	Please accept our sincerest apologies for any confusion or inconvenience this may have caused. Rest assured, we have rectified the issue and prepared an updated batch analysis report with the correct assay limits, aligning them with the USP monograph standards.
	Please justify that why the value of results of absorbance of valsartan in drug manufacturer batch analysis report is too far from the absorbance value of valsartan in drug substance manufcaturer's report?	Although our obtained absorbance result of 0.018 falls comfortably within the defined limit in accordance with the specifications outlined in United states Pharmacopeia (USP), where the limit for specific test, Absorbance is Not More Than (NMT) 0.02, and the difference in absorbance results from manufacturer is may be due to difference in handling, equipment and lab to lab variation but it is not having impact on our product quality.
3.2.S.7	Please submit stability data of drug substance (Amlodipine Besylate) according to the climatic condition of Pakistan (Zone-IV).	Submitted
3.2.P.8	Please provide the details of relevant manufacturing instrument / equipment of R&D used for manufacturing of batch size of 1000 tablets. Please submit COAs of APIs used in manufacturing of stability batches. Please submit DRAP clearance documents & evidence of quantity of APIs imported. Please submit stability data of three batches for the last interval (6^{th} month) both for accelerated and long term conditions.	Submitted

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Address: No. 15, Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone,Taizhou City, China. GMP validity: 28-01-2025
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container

		closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Amlodipine Besylate Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 36 months Climatic conditions: 25°C ± 2°C / 60% ± 5% RH Valsartan Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 36 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Brand Name: Tablet Exforge 5/160 Manufacturer: Novartis Testing Parameters: USP Specification **Comparative Dissolution Profile** Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA		
Manufacturer of API	Amlodipine Besylate Name: Cadila Pharmaceuticals Limited. Address: 294, G.I.D.C. Industrial Estate Ankleshwar, Gujarat, India. Valsartan Name: Zhejiang Tianyu Pharmaceutical Co. Ltd. Address: No. 15, Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone,Taizhou City, China.	
API Lot No.	Valsartan	Amlodipine Besylate
	10252-210205	21ADL006
Description of Pack (Container closure system)	ALU-ALU Blister of 2 x 7s packed in packed in unit carton.	
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH	
Time Period	Real time: 06 months Accelerated: 06 months	

Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	VOL(5/160)-ST-001	VOL(5/160)-ST-002	VOL(5/160)-ST-003
Batch Size	1000 Tablets	1000 Tablets	1000 Tablets
Manufacturing Date	05-2022	05-2022	05-2022
Date of Initiation	27-08-2022	27-08-2022	27-08-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Valsartan Quantity: 12 kg Clearance Date: 21-06-2021 Amlodipine Besylate Quantity: 0.7 kg Clearance Date: 21-06-2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
3.2.S.4	In the Batch analysis report of Herbion, please justify that why assay limits of amlodipine Besylate has been mentioned as 98% - 102% while USP specification limits are 97% -102%?	Please accept our sincerest apologies for any confusion or inconvenience this may have caused. Rest assured, we have rectified the issue and prepared an updated batch analysis report with the correct assay limits, aligning them with the USP monograph standards.
	Please justify that why the value of results of absorbance of valsartan in drug manufacturer batch analysis report is too far from the absorbance value of valsartan in drug substance manufcaturer's report?	Although our obtained absorbance result of 0.018 falls comfortably within the defined limit in accordance with the specifications outlined in United states Pharmacopeia (USP), where the limit for specific test, Absorbance is Not More Than (NMT) 0.02, and the difference in absorbance results from manufacturer is may be due to difference in handling, equipment and lab to lab variation but it is not having impact on our product quality.
3.2.S.7	Please submit stability data of drug substance (Amlodipine Besylate) according to the climatic condition of Pakistan (Zone-IV).	Submitted
3.2.P.8	Please provide the details of relevant manufacturing instrument / equipment of R&D	Submitted

	used for manufacturing of batch size of 1000 tablets. Please submit COAs of APIs used in manufacturing of stability batches. Please submit DRAP clearance documents & evidence of quantity of APIs imported. Please submit stability data of three batches for the last interval (6th month) both for accelerated and long term conditions.	

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
3.2.S.4	Please submit documented evidence for determination of iron colloid characteristics.	Firm submitted COA mentioning test for Molecular weight determination for which analytical method along

		with proof of availability of required equipment submitted.
	Please submit quantity of water in API.	Firm needs to submit analytical method long with proof of required equipment / instrument.
3.2.S.7	Please justify your stability studies data of ferric carboxymaltose conducted at long term conditions (25^{O}C/RH 60%) while the storage condition mentioned on material safety data sheet is (2-8°C)?	Submitted
	Please submit stability data of drug substance according to the climatic condition of Pakistan (Zone-IV).	Firm again submitted stability data for long term conditions at 30^{O}C / RH 65% while the MSDS requires refrigeration temperature 2^{O}C -8^{O}C.
3.2.P.3	Please justify for not including steam sterilization / terminal sterilization after filling of drug product in vials while it is a critical process parameter in the manufacturing of innovator product.	Submitted
3.2.P.5	Please submit report along with raw data / documents for all the quality control tests as per innovator specification (colour of content, appearance of content, identification (by infrared, by X-ray powder diffraction), total iron content, total and unbound carboxymaltose content, average molecular mass, particle size, foreign visible particles, particulate matter, pH, degradation products, osmolality, density, iron(II) content, free iron content, uniformity of dosage units, extractable volume, bacterial endotoxins, sterility, relative labile iron content and iron reduction kinetics.)	Firm submitted the COA of drug product containing information of all the result.
3.2.P.8	Please submit report along with raw data / documents for all the quality control tests as per innovator specification (colour of content, appearance of content, identification (by infrared, by X-ray powder diffraction), total iron content, total and unbound carboxymaltose content, average molecular mass, particle size, foreign visible particles, particulate matter, pH, degradation products, osmolality, density, iron(II) content, free iron content, uniformity of dosage units, extractable volume, bacterial endotoxins, sterility, relative labile iron content and iron reduction kinetics.)	Firm submitted the COA of drug product containing information of all the results.

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Please submit stability data of drug substance according to the climatic condition of Pakistan (Zone-IV).	Firm again submitted stability data for long term conditions at $30^{O}C$ / RH 65% while the MSDS requires refrigeration temperature $2^{O}C$ -$8^{O}C$.
3.2.P.3	Please justify for not including steam sterilization / terminal sterilization after filling of drug product in vials while it is a critical process parameter in the manufacturing of innovator product.	Submitted
3.2.P.5	Please submit report along with raw data / documents for all the quality control tests as per innovator specification (colour of content, appearance of content, identification (by infrared, by X-ray powder diffraction), total iron content, total and unbound carboxymaltose content, average molecular mass, particle size, foreign visible particles, particulate matter, pH, degradation products, osmolality, density, iron(II) content, free iron content, uniformity of dosage units, extractable volume, bacterial endotoxins, sterility, relative labile iron content and iron reduction kinetics.)	Firm submitted the COA of drug product containing information of all the result.
3.2.P.8	Please submit report along with raw data / documents for all the quality control tests as per innovator specification (colour of content, appearance of content, identification (by infrared, by X-ray powder diffraction), total iron content, total and unbound carboxymaltose content, average molecular mass, particle size, foreign visible particles, particulate	Firm submitted the COA of drug product containing information of all the results.

	matter, pH, degradation products, osmolality, density, iron(II) content, free iron content, uniformity of dosage units, extractable volume, bacterial endotoxins, sterility, relative labile iron content and iron reduction kinetics.)	

Decision: approved with innovator specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 24 months Climatic conditions: 25°C ± 2°C / 60% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Brand Name: FCM Injection Manufacturer: Genix Pharma Testing Parameters: Innovator Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Name: Chongqing Carelife Pharmaceutical Co. Ltd. Address: No. 02, The Third Branch Road, Huanan Road, Yanjia, Changshou, District Changqing, China.		
API Lot No.	FCM-211204		
Description of Pack (Container closure system)	20ml clear glass vials covered with rubber stopper and sealed with flip off seal.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	250 vials	250 vials	250 vials

Manufacturing Date	09-2022	09-2022	09-2022
Date of Initiation	26-09-2022	26-09-2022	26-09-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Quantity: 10 kg Clearance Date: 18-04-2022
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
3.2.S.4	Please submit documented evidence for determination of iron colloid characteristics.	Firm submitted COA mentioning test for Molecular weight determination for which analytical method along with proof of availability of required equipment submitted.
	Please submit quantity of water in API.	Firm needs to submit analytical method long with proof of required equipment / instrument.
3.2.S.7	Please justify your stability studies data of ferric carboxymaltose conducted at long term conditions (25^{O}C/RH 60%) while the storage condition mentioned on material safety data sheet is (2-8°C)?	Submitted
	Please submit stability data of drug substance according to the climatic condition of Pakistan (Zone-IV).	Firm again submitted stability data for long term conditions at 30^{O}C / RH 65% while the MSDS requires refrigeration temperature 2^{O}C -8^{O}C.
3.2.P.3	Please justify for not including steam sterilization / terminal sterilization after filling of drug product in vials while it is a critical process parameter in the manufacturing of innovator product.	Submitted
3.2.P.5	Please submit report along with raw data / documents for all the quality control tests as per innovator specification (colour of content, appearance of content, identification (by infrared, by X-ray powder diffraction), total iron content, total and unbound carboxymaltose content, average molecular mass, particle size, foreign visible particles, particulate matter, pH, degradation products, osmolality, density, iron(II) content, free iron	Firm submitted the COA of drug product containing information of all the result.

	content, uniformity of dosage units, extractable volume, bacterial endotoxins, sterility, relative labile iron content and iron reduction kinetics.)	
3.2.P.8	Please submit report along with raw data / documents for all the quality control tests as per innovator specification (colour of content, appearance of content, identification (by infrared, by X-ray powder diffraction), total iron content, total and unbound carboxymaltose content, average molecular mass, particle size, foreign visible particles, particulate matter, pH, degradation products, osmolality, density, iron(II) content, free iron content, uniformity of dosage units, extractable volume, bacterial endotoxins, sterility, relative labile iron content and iron reduction kinetics.)	Firm submitted the COA of drug product containing information of all the results.

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deputy Director (PRV/EFD) vide letter No. F.1-6/2019-PR-I (EFD) dated 22nd January 2024 informed that, in compliance to the decision of 133rd meeting of the authority held on 13th April 2022, **M/s Hilton Pharma (Pvt) Ltd. (DML # 000136)**, has achieved the benchmark of more than 100,000 USD worth of export of medicines during the fiscal year 2021-2022 and requested for priority consideration of following molecules.

1565.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Hilton Pharma (Pvt) Ltd. (DML # 000136) Plot No. 13 & 14 Sector 15 Korangi Industrial Area Karachi.**
	Name, address of Manufacturing site.	**M/s Hilton Pharma (Pvt) Ltd. (DML # 000136) Plot No. 13 & 14 Sector 15 Korangi Industrial Area Karachi.**

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.6.5	Please submit list of APIs manufactured by drug substance manufacturer issued by regulatory authority of country of origin.	Submitted
3.2.S.3	Please submit documented evidence for control on following critical process steps based on their impact on critical quality attributes (CQAs) Enantiomeric separation. Final crystallization. Micronisation of the active substance.	Letter of access (LOA) of API manufacturer submitted.
3.2.S.4	Please justify that why water content test has not been made part of your specifications while it is a critical process parameter in drug substance profile of innovator product?	Loss on Drying (LOD) test is API manufacturer specification and same is followed by Hilton Pharma. LOD covers all type of solvents including water content in the API.
	As per the batch analysis report for API submitted by drug product manufacturer (Hilton), please submit inspection report of your firm mentioning following QC instruments, required for the following tests. X-Ray Powder Diffraction (XPRD) for identity of polymorphic form (Modification I). Malvern master sizer for determination of particle size.	Polymorphic form is Form I. Inspection report of firm submitted.

	Chromatographic column, Chiralpak ID for determination of R-isomer.	
3.2.P.8	Please submit DRAP clearance documents for procurement of API.	Submitted
	Please justify that why test of uniformity of dosage form has not been made part of your stability studies while it is major test for determination of factors impacting CQAs.	Submitted

Decision: approved wth innovator specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Quantity: Clearance Date:
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.6.5	Please submit list of APIs manufactured by drug substance manufacturer issued by regulatory authority of country of origin.	Submitted
3.2.S.3	Please submit documented evidence for control on following critical process steps based on their impact on critical quality attributes (CQAs) Enantiomeric separation. Final crystallization. Micronisation of the active substance.	Letter of access (LOA) of API manufacturer submitted.
3.2.S.4	Please justify that why water content test has not been made part of your specifications while it is a critical process parameter in drug substance profile of innovator product?	Loss on Drying (LOD) test is API manufacturer specification and same is followed by Hilton Pharma. LOD covers all type of solvents including water content in the API.
	As per the batch analysis report for API submitted by drug product manufacturer (Hilton), please submit inspection report of your firm mentioning following QC instruments, required for the following tests. X-Ray Powder Diffraction (XPRD) for identity of polymorphic form (Modification I). Malvern master sizer for determination of particle size. Chromatographic column, Chiralpak ID for determination of R-isomer.	Polymorphic form is Form I. Inspection report of firm submitted.
3.2.P.8	Please submit DRAP clearance documents for procurement of API.	Submitted
	Please justify that why test of uniformity of dosage form has not been made part of your	Submitted

	stability studies while it is major test for determination of factors impacting CQAs.	

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA approved formulation.
	For generic drugs (me-too status)	Brand Name: Gabica 75 mg Capsule Manufacturer: Getz Pharma
	Name and address of API manufacturer.	Name: Atlas Life Sciences Private Limited. Address: C-1/360-361, G.I.D.C. Estate, Odhav, Ahmedabad, Gujarat, India. GMP validity: 01-12-2024
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 60 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Brand Name: Gabica Capsule 75 mg Manufacturer: Getz Testing Parameters: BP Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.
STABILITY STUDY DATA		

Manufacturer of API	Name: Atlas Life Sciences Private Limited. Address: C-1/360-361, G.I.D.C. Estate, Odhav, Ahmedabad, Gujarat, India.		
API Lot No.	PG-PI-4000922		
Description of Pack (Container closure system)	Hard gelatin capsule No. 03 with dark purple opaque cap and rich yellow opaque body both imprinted with black color NQ logo containing white to off white colored dry granular powder.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	PCE007	PCF001	
Batch Size	200,000 Capsules	200,000 Capsules	
Manufacturing Date	12/2022	01/2023	
Date of Initiation	18-01-2023	17-01-2023	
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Quantity: 150 kg Clearance Date: 30-09-2022
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Status
1.3.4	Please submit Section approval letter / last renewal letter issued by Secretary, Central Licensing Board, for the manufacturing facility of Capsule (General) Section of the NabiQasim Pharma.	Submitted
	Please submit original contract agreement between the two parties.	Submitted
	Please submit the information/documents related to last inspection of Nabi Qasim Pharma, conducted for the purpose of capacity assessment of Capsule (General) Section.	Inspection for the purpose of capacity assessment of Nabiqasim Industries (Pvt) Ltd. has not been conducted but firm has submitted the capacityof manufacturing and testing on stamp paper.

3.2.P.8	Please submit summary of stability data of three batches of drug product as per format provided in guidelines for submission of FORM 5F-CTD on official website of DRAP and make sure to mention properly, the Batch #, Batch size, Mfg. date, Expiry date, Description of the primary packaging/container, API LOT#, Date of initiation of studies, accelerated or long term conditions etc.	Submitted
	Please submit in tabulated form, the comparison of results of stability data of three batches for all the test mentioned in BP monograph.	Submitted

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1573.	**Contract Manufacturing**

Remarks of Evaluator:

On initial evaluation, following observations were communicated to the firm.

Section	Observations	Status
1.3.4	Please submit Section approval letter / covering letter issued along with Drug Manufacturing License to confirm the approval of Tablet	Submitted

	(General) Section of your firm by Central Licensing Board.	
3.2.P.5.1	Please provide reference for speed of 50RPM for dissolution test while USFDA dissolution database specify Speed of 75RPM for dissolution test.	It was a typographical mistake. The required RPM for dissolution test is 75 RPM while 50 RPM is for our dispersible tablets whose dossiers are also submitted.
3.2. P.5.4	Please clarify the status of batch analysis report of drug products either film coated or dispersible tablets?	Film coated Rectified & attached
3.2.P.8	Please clarify the reason of negative peak in the chromatograms.	The appearance of negative peak in some of the chromatogarms may be due to presence of air bubbles in the coulmn. However, the validation data of analytical method is an evidence that we have no negative peaks during method validation. We have repeated our SOP to confirm the system before start of analysis for any peaks other than the peaks of interest.
	Please include in calculation sheets, the number of dilution of sample and standard solution to get final concentration mg/ml.	Attached as reference
	Please submit chromatograms for dissolution tests and calculation sheets.	Attached

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 60 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Reference product: Oleptiss Film Coated Tablet 180mg Manufactured by: NOVARIS PHARMA Testing Parameters: Innovator Specifications

		Comparative Dissolution Profile Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Name: SYMED LABS LIMITED Unit VI Address: SY: 744,745,750,751,752,753, Mandollagudem Village, Choutuppal Village, Choutuppal Mandal, Yadadri Bhuvanagiri District,Pincode 508204, Telangana State, India.		
API Lot No.	4DFX0040622		
Description of Pack (Container closure system)	The primary container is Alu Alu Blister and the packed in unit Carton as secondary container. (Packs of 30s' 3x10s')		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	TODI – 180 – 001	TODI – 180 – 002	TODI – 180 – 003
Batch Size	5000 Units	5000 Units	5000 Units
Manufacturing Date	December -2022	December -2022	December -2022
Date of Initiation	08-12-2022	08-12-2022	08-12-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Material Loan from Allmed (DML #000645) Loan Quantity: 14 kg Allmed Clearance data: Clearance date: 16-06-2022 Quantity: 50 kg
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Status
1.3.4	Please submit Section approval letter / covering letter issued along with Drug Manufacturing	Submitted

	License to confirm the approval of Tablet (General) Section of your firm by Central Licensing Board.	
3.2.P.5.1	Please provide reference for speed of 50RPM for dissolution test while USFDA dissolution database specify Speed of 75RPM for dissolution test.	It was a typographical mistake. The required RPM for dissolution test is 75 RPM while 50 RPM is for our dispersible tablets whose dossiers are also submitted.
3.2. P.5.4	Please clarify the status of batch analysis report of drug products either film coated or dispersible tablets?	Film coated Rectified & attached
3.2.P.8	Please clarify the reason of negative peak in the chromatograms.	The appearance of negative peak in some of the chromatogarms may be due to presence of air bubbles in the coulmn. However, the validation data of analytical method is an evidence that we have no negative peaks during method validation. We have repeated our SOP to confirm the system before start of analysis for any peaks other than the peaks of interest.
	Please include in calculation sheets, the number of dilution of sample and standard solution to get final concentration mg/ml.	Attached as reference
	Please submit chromatograms for dissolution tests and calculation sheets.	Attached

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	ODIROX DISPERSIBLE TABLET 250 mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each dispersible tablet contains: Deferasirox ……. 250 mg
	Pharmaco-therapeutic Group of (API)	Iron chelators. Deferasirox is in a class of medications called iron chelators. It works by attaching to iron in the body so that it can be excreted (removed from the body) in feces. ATC Code V03AC03
	Pharmaceutical form of applied drug	Dispersible tablets
	Reference to Finished product specifications	Innovator Specifications
	Proposed Pack size	30s (5 x 6)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	ANSM /MHRA/FDA approved JADENU 250 mg Tablet

	For generic drugs (me-too status)	AsunraTablet 250 mg Manufactured by: Novartis Pharma
	Name and address of API manufacturer.	Name: SYMED LABS LIMITED Unit VI Address: SY: 744,745,750,751,752,753, Mandollagudem Village, Choutuppal Village, Choutuppal Mandal, Yadadri Bhuvanagiri District,Pincode 508204, Telangana State, India. GMP validity : 01-01-2027
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 60 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Reference product: Asunra Dispersible Tablet 250 mg Manufactured by: NOVARIS PHARMA Testing Parameters: Innovator Specifications **Comparative Dissolution Profile** Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA	
Manufacturer of API	Name: SYMED LABS LIMITED Unit VI Address: SY: 744,745,750,751,752,753, Mandollagudem Village, Choutuppal Village, Choutuppal Mandal, Yadadri Bhuvanagiri District,Pincode 508204, Telangana State, India.
API Lot No.	4DFX0040622
Description of Pack (Container closure system)	A White HDPE bottle with induction seal containing 30s' tablets with printed adhesive label Packs of 30s'
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH

Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	TODI – 250 – 001	TODI – 250 – 002	TODI – 250 – 003
Batch Size	1500 Units	1500 Units	1500 Units
Manufacturing Date	November -2022	November -2022	November -2022
Date of Initiation	10-11-2022	10-11-2022	10-11-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Material Loan from Allmed (DML #000645) Loan Quantity: 14 kg Allmed Clearance data: Clearance date: 16-06-2022 Quantity: 50 kg
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Status
1.3.4	Please submit Section approval letter / covering letter issued along with Drug Manufacturing License to confirm the approval of Tablet (General) Section of your firm by Central Licensing Board.	Submitted
3.2.P.5.1	Please provide reference for speed of 50RPM for dissolution test while USFDA dissolution database specify Speed of 75RPM for dissolution test.	It was a typographical mistake. The required RPM for dissolution test is 75 RPM while 50 RPM is for our dispersible tablets whose dossiers are also submitted.
3.2. P.5.4	Please clarify the status of batch analysis report of drug products either film coated or dispersible tablets?	Film coated Rectified & attached

3.2.P.8	Please clarify the reason of negative peak in the chromatograms.	The appearance of negative peak in some of the chromatogarms may be due to presence of air bubbles in the coulmn. However, the validation data of analytical method is an evidence that we have no negative peaks during method validation. We have repeated our SOP to confirm the system before start of analysis for any peaks other than the peaks of interest.
	Please include in calculation sheets, the number of dilution of sample and standard solution to get final concentration mg/ml.	Attached as reference
	Please submit chromatograms for dissolution tests and calculation sheets.	Attached

Decision: approved with bp specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Registration board further decided that registration letter will be issued after submission of applicable fee for revision of specifications as per notification no.f.7-11/2012-b&a/drap dated 07-05-2021.

	Pharmaco-therapeutic Group of (API)	Iron chelators. Deferiprone is in a class of medications called iron chelators. It works by attaching to iron in the body so that it can be excreted (removed from the body) in feces. ATC Code V03AC03
	Pharmaceutical form of applied drug	Film coated Tablets
	Reference to Finished product specifications	BP Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA approved Ferriprox ® syrup
	For generic drugs (me-too status)	N/A
	Name and address of API manufacturer.	Name: AARTI PHARMALABS LIMITED Address: Plot # D-53, Phase II, M.I.D.C Kalyanshil RD Dombivali (East) Thane 421204 Maharashtra State, India. GMP validity : 13-12-2025
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 24 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Reference product: Ferriprox Oral Solution Manufactured by: Cheisi USA Testing Parameters: Innovator Specifications
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA	
Manufacturer of API	Name: AARTI PHARMALABS LIMITED Address: Plot # D-53, Phase II, M.I.D.C Kalyanshil RD Dombivali (East) Thane 421204 Maharashtra State, India.

API Lot No.	DFN/2302/001/034		
Description of Pack (Container closure system)	ALU-ALU blister further packed in unit carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	DFS-001	DFS-002	DFS-003
Batch Size	400 Bottles	400 Bottles	400 Bottles
Manufacturing Date	08 -2023	08 -2023	08 -2023
Date of Initiation	07-08-2023	07-08-2023	07-08-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Clearance date: 06-07-2023 Quantity: 06 kg
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.3.4	Please submit Section approval letter / covering letter issued along with Drug Manufacturing License to confirm the approval of Tablet (General) Section of your firm by Central Licensing Board.	Submitted
3.2.S.5	Please submit system suitability report along with chromatograms as per BP specification wherein resolution should be minimum 5.0 between the peaks due to impurity B and deferiprone & to ensure that retention time of deferiprone is about 12 minutes.	Submitted
3.2.P.2	Please submit details for source of Ferriprox tablet for manufacturer, batch # and date of purchase of sample.	Submitted
3.2.P.8	Please submit stability data (chromatograms, calculation sheets, raw data) for the last interval of 06 month for both accelerated and long term climatic conditions.	Submitted

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Accelerated stability data for 06 months Climatic conditions: 40°C ± 2°C / 75% ± 5% RH. Real time stability data for 36 months Climatic conditions: 30°C ± 2°C / 65% ± 5% RH
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Reference product: Onset 8mg Tablets Manufactured by: Pharmedics, Lahore Batch # 325 | Mfg. date: 04/2021 Testing parameters: USP Specifications. **Comparative Dissolution Profile** Comparative dissolution profiles were provided, showing similarity between the manufacturer's product and the reference products. Onset® has been used as comparator product because it is well established brand in Pakistan approved by DRAP.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Name: M/s Anugraha Chemical, India Address: D-47, D48, D49, D50, C-62 & C-63, KSSIDC Industrial Estate, Doddaballapur Benglaru, Dist Benglaru, Rural 561203, India

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last Product Specific Inspection of the firm was conducted for Promig Plus 500mg/20mg Tablet and Promig Plus 375mg/20mg Tablet, for which the inspection was conducted on 14-03-2019 and the report was presented in 289th meeting of Registration Board. The report confirms following points: The HPLC software is 21CFR compliant. Firm has demonstrated audit trail reports of testing.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Invoice Clearance Date: 26-02-2021 Quantity: 5KG Invoice No: EXP-22
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of the Evaluator:

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Item No. 06: Deferred cases of Form 5 / Form 5-D with stability studies.

1591.	**Name and address of manufacturer / Applicant**	**M/s Fynk Pharmaceuticals (DML # 000494)** **19Km GT Road, Kalashah Kaku, Lahore**
	Diary No. Date of R& I & fee	Dy. No:2354; Rs. 20,000/- Dated: 30-05-2016
	Brand Name +Dosage Form + Strength	E-Rox Tablet 500mg/20mg
	Composition	Each film coated tablet contains: Naproxen (enteric coated core) …… 375 mg Esomeprazole as magnesium trihydrate (immediate release coat)…… 20 mg
	Pharmacological Group	Antiinflammatory And Antirheumatic Products, Non Steroids - Priopionic Acid Derivatives

	Pack size & demanded price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Not verified
	Me-too status	Registered in Pakistan
	GMP status	GMP certificate issued by DRAP Validity: not provided
	Remarks of the Evaluator.	Firm has changed the dosage form of applied formulation from capsule to tablet by submitting differential fee of PKR 20000/- on 27-01-2020 however, the complete fee of PKR 20000/- required for FORM 5 application is still deficient of PKR 12000/- while the differential fee is also PKR30000/- Formulation in film coated not verified from RRA countries. USP specification not found for this dosage form as claimed by the firm.
	Decision in 333rd meeting of DRB: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.	
	Remarks of the Evaluator: Firm has re-submitted Form-5 and explained that the formulation changed after submission of fee was applied as under Each sugar coated tablet contains Mecobalamin ……....500 mcg (JP Specification) The formulation now submitted by firm is justified and available in RRA and me-too status also confirmed.	
	Decision: Approved as under **Each sugar coated tablet contains** **Mecobalamin ……....500 mcg** **(JP Specification**) •	
1594.	**Name and address of manufacturer / Applicant**	**M/s Werrick Pharmaceuticals, 216-217, I-10/3, Industrial Area, Islamabad**
	Brand Name +Dosage Form + Strength	Frecid plus liquid 500mg/267mg
	Composition	Each 10ml liquid suspension contains: Sodium alginate…….500mg Sodium bicarbonate…….267mg
	Diary No. Date of R& I & fee	Dy No.1614; 30-11-2016; Rs. 20000/-
	Pharmacological Group	Haemostatic agent/Alkalizing agent
	Type of Form	Form 5
	Finished Product Specification	Manufacturer's Specifications
	Pack size & demanded price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	France approved formulation

	Me-too status	Registered in Pakistan
	GMP status	GMP inspection conducted on 07-12-2017 shows that firm is operating at good level of GMP compliance.
	Remarks of the Evaluator.	
	Decision of 297th meeting of DRB: Deferred for evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.	
	Decision: Approved

	Approval status of product in Reference Regulatory Authorities.	MHRA approved formulation
	Me-too status	Transamin by Hilton
	GMP status	Latest GMP status required
	Remarks of the Evaluator[3].	Decision of 333rd meeting of DRB:

		"Deferred for the submission section approval from Licensing Division and the GMP certificate or GMP inspection report during the last 3 years. Board further decided that verification of fee challan will be done as per decision of 285th meeting of Registration Board." Remarks: GMP Validity of the firm: 13-09-2022 Section Approval: Tablet (General) Section included in renewal of DML in 275th meeting of Central Licensing Board. Verification of fee challan: not yet done.
	Decision: Approved subject to verification of challan.	
1599.	**Name and address of manufacturer / Applicant**	**M/s McOlson Research Laboratories (Pvt) Ltd. (DML # 0000664)** **26-Km Lahore Sharakpur Road District Sheikhupura.**
	Brand Name +Dosage Form + Strength	Tablet Koncept 20 mg
	Composition	Each Enteric Coated tablet contains Esomeprazole Magnesium Tri-hydrate equivalent to Esomeprazole …… 20 mg
	Diary No. Date of R& I & fee	*Duplicate Dossier* Dy. No. 1420 dated 15-01-2011 Rs.8000/- dated 13-01-2011 (photocopy) Rs.12000/- dated 24-11-2014 (photocopy)
	Pharmacological Group	Antianaemics
	Type of Form	Form 5
	Finished Product Specification	Manufacturer Specifications
	Pack size & demanded price	As per SRO
	Approval status of product in Reference Regulatory Authorities.	Nexium Control 20 mg by AstraZeneca
	Me-too status	Fasteso 20 mg Tablet by PharmEvo (Reg # 33721)
	GMP status	GMP Certificate validity: 03-06-2024
	Decision of 333rd meeting of DRB: *Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.* *Please submit details of manufacturing process keeping in view the flow, lubrication, disintegration, organoleptic properties, compressibility & compatibility.* *Please justify that why methyelene chloride has been part of your coating tablet while ICH guidelines categorically advise to avoid use of organic solvent in formulation.* *Also provide evidence of methyelene chloride being part of any same formulation approved in countries with reference regulatory authorities declared by DRAP.* *Please submit details of the testing parameters and its reference pharmacopeia / specifications*	
	Remarks of the Evaluator. Firm has submitted undertaking that they will not use the Methyelene Chloride in coating formulation. Firm replaced methylene chloride with IPA & Methanol. However, it is pertinent to mention here that innovator product use opadry film coating technique instead of organic solvents. Firm submitted Fee of PKR 7500/- for change in formulation. Firm submitted the specification which contains all the test as per innovator specification.	
	Decision: Approved **The firm will make sure to observe personal protective parameters provided under MSDS of IPA to be used in coating of drug product.** **The QA/LT division is requested to monitor this direction through its field offices and report in the next GMP inspection of the firm.**

	Evidence of approval of manufacturing facility	Central Licensing Board in its 283rd meeting approved the "Dry Powder Cephalosporin Injection section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales

	Dy. No. and date of submission	Dy. No. 9668 dated 15/04/2022
	Details of fee submitted	PKR 30,000/-: dated 30-03-2022
	The proposed proprietary name / brand name	Cefbo Injection 1gm IM/IV
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Vial contains: Cefoperazone as Sodium……. 500mg Sulbactam as Sodium.....500mg
	Pharmaco-therapeutic Group of (API)	Sterile powder for solution for injection
	Pharmaceutical form of applied drug	Cephalosporin Antibiotic
	Reference to Finished product specifications	JP (Japanese Pharmacopoeia)
	Proposed Pack size	1×1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Pharmaceuticals and Medical Devices Agency (PMDA) of Japan.
	For generic drugs (me-too status)	Sulzone 1.0gm Injection M/s Biocare Pharmaceutical by Dawnrays Pharmaceutical Co,Ltd., Reg. No. 028468
	Name and address of API manufacturer.	Qilu Antibiotics Pharmaceutical CO, Ltd NO.849 DongJia Town Licheng District, Jinan, Shandong, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module-III (Drug Substance):	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24s months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches:(9001HK81NG,9002HK81NG, 9003HK81NG)
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence has been established against the Sulzone 1.0gm Injection M/s Biocare Pharmaceutical by Dawnrays Pharmaceutical Co, Ltd., by performing quality tests

		(Identification, Assay, Dissolution, Uniformity of dosage form etc). (B:210312101)
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Qilu Antibiotics Pharmaceutical CO, Ltd NO.849 DongJia Town Licheng District, Jinan , Shandong, China		
API Lot No.	9001HK81NG		
Description of Pack (Container closure system)	Type I 15mL glass vial with fluorobutyl rubber stopper and green color flip off aluminum seal.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 06 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12 (Months)		
Batch No.	LD 01	LD 02	LD 03
Batch Size	100Vials	100Vials	100Vials
Manufacturing Date	02-10-2021	02-10-2021	02-10-2021
Date of Initiation	18-10-2021	18-10-2021	18-10-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	ADC attested Invoice NO JTRF210911-MQ Diary No. 14373/204DRAP Dated 24-09-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S#	Observations	Reply of the firm
i.	Please provide valid copy of GMP certificate of manufacturer of Drug substance.	GMP Validity: 25-06-2025
ii.	Provide Analytical method verification studies performed by drug product manufacturer for drug substance.	Submitted

iii.	Pharmaceutical equivalence should be established against the Refrence innovator's product while you performed the studies against mee-too product.	No product of Refrence innovators was availabe in pakistan. Sulzone Brand approved by DRAP is the Brand leader in pakistan by Suzhou Dawnrays Pharmaceutical Co, LTD and Biocare Pharmaceutica import it. so we have established equivalence testing against this brand.
iv.	As per specifications of drug substance and COA from the drug substance manufacturer, the water content must be less than 4% and 1.9% water content has been determined while according to the specifications as provided by J.P o f finished product , the water content should be less than 1%.Keeping in view the allowed percentage of water content , please clarify that how would the finished product comply with the specification as described for JP for water content determination if the drug substance has a content higher than 1%.	In stability studies data the three batches namely 9001HK81NG, 9001HK81NG and9001HK81NG are used. The Batch No 1088 E J 81 N E used for drug product manufacturing has the moisture content 0.9%. We have used this drug substance for drug product manufacturing. Documents are attached for your kind considration.
v.	The stability data is submitted till 3rd month time point. Please provide stability studies till 6th month time point.	Submitted
vi.	Please justify the stability studies without the performance of sterility and bacterial endotoxins.	Submitted
vii.	Provide and justify the quantity of drug substance used for potency adjustment and also provide complete calculations.	Assay on anhydrous basis Cefoparazone =48.25% Sulbactam =48.16% Assay on as is basis Cefoparazone =47.82% Sulbactam =47.73% Calculation for subactam Factor =50/47.73=1.047 Quantity=500X1.047=523.78 mg As sulbactam is on lower side so cefoparazone would be same as =523.78 mg Total quantity for one vial is=1047.56 mg Or 1048 mg Quantity for 100 vials =0.1048 kg.
viii.	Compliance record of HPLC software 21CFR and audit trail reports on product testing.	We are using EZE chrome HPLC software which is 21CFR compliance audit trail is attached.

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration board further decided that registration letter will be issued after submission of applicable fee for revision of specifications as per notification no.f.7-11/2012-b&a/drap dated 07-05-2021 and latest GMP certificate / inspection report conducted within a period of last 3 years**

Remarks of Evaluator: *(deferred in 322nd meeting of DRB)*

S#	Observations	Reply of the firm
	Clarification is needed since the UV-spectrophotometric method of analysis is used for testing of drug substance as well as for drug product while the method from drug substance is HPLC method.	We have analysed the drug substance by HPLC method under your guidance (USP Specification). Documents are attached.
	Submit the analytical method verification studies including specificity, accuracy and precision for drug substance performed by drug product manufacturer. Furthermore, provide the analytical method for drug substance used for routine testing.	Attached
	Provide valid copy of GMP/DML of drug substance manufacturer.	DML. Valid till 02/06/2025 GMP. Valid
	Please provide detail calculations for quantity to be dispensed per vial considering the actual potency of Linezilod since "loss on drying has not been considered nor the percentage for LOD is mentioned in COA of relevant batch used for development.	Since the LOD is 0.08% Potency of the drug substance is on anhydrous basis 99.53% Potency of the drug substance as is basis is 99.45% As is basis= anhydrous basis (100−LOD) 100 So the quantity per batch is 0.060kg That is as in our BMR. COA attached.
	The stability data is submitted till 3rd month time point, please provide stability studies till 6th month time point.	Attached
	Provide documents confirming import of the drug substance used in the manufacturing of trial batches.	Invoice NO 0914010646 DRAP NO.13174/2021/DRAP dated 01-09-2021 Copy Attached
	Clarification is required since pharmaceutical equivalence is established against Nezkil 600mg Infusion By M/s S.J &G Fazul Ellahie Pvt Ltd while the studies should be carried out against the reference innovator's product.	Zyvox infusion by Pfizer is not available in market ,we established pharmaceutical equivalence against Nezkil 600mg Infusion By M/s S.J &G Fazul Ellahie Pvt Ltd.Approved by DRAP

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Date of Initiation	05-07-2021	05-07-2021	05-07-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not required.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of attested invoice (vide diary No. 12780 dated 31/08/2021) No. 21220T135/EXP dated 27/08/2021 is submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator: *(deferred in 322nd meeting of DRB)*

S#	Observations	Reply of the firm
	Submit complete analytical method for routine analysis of drug substance by drug product manufacturer	Submitted
	Analytical method verification/validation studies including specificity, precision and accuracy performed by drug product manufacturer.	Submitted
	It is not clear from the COA of Levofloxacin Hemihydrate drug substance used for development of the applied product whether the assay value is calculated on as Is basis or it is on anhydrous basis. Please clarify.	Submitted
	COA of reference standard used is required.	Submitted
	Since the real time stability studies have not been conducted according to the conditions of zone IV-A. Therefore real time stability studies according to zone IV-A is required or otherwise submission of record of data logger for monitoring of temperature and humidity during transportation and stability studies of finished product for 6 months along with the impurity testing.	stability studies of both drug substance and drug product have been conducted according to the conditions of zone IV-A. Data Attached
	The official monograph of levofloxacin hemidrate drug substance is available is USP and it describes HPLC method for analysis while UV-visible spectroscopic method is developed for analysis of drug product. Please provide justification for adopting UV method for analysis instead of HPLC method keeping in view that the HPLC can be developed in accordance with available USP monograph of drug substance.	HPLC method is revised instead of U V method Data is attached.
	The Submitted stability study data is of 3 months please submit stability data including accelerated and real time for 6 months.	Submitted
	Provide justify the quantity of drug substance used for potency adjustment and also provide complete calculations.	Potency of levofloxacin hemihydrate as is basis=98.35 Factor for potency =1.0167 Factor for levofloxacin hemihydrate=1.0249

		levofloxacin hemihydrate =500X1.0167X1.0249=521.00 mg In BMR it was written 0.050kg instead of 0.052.we regret for the mistake.
	Provide documents for procurement of drug substance along with the API manufacturing approval/GMP of drug Substance manufacturer	Submitted

DECISION: APPROVED WITH INNOVATOR SPECIFICATION.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deferred in 333rd meeting of Drug Registration Board

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Section	Observations	Reply of the firm
1.6.5	Please submit valid GMP Certificate of API supplier issued by regulatory authority of country of origin and should be in force till date.	Submitted
3.2.P.2	Innovator specifications are not acceptable after publication of monograph in official Pharmacopeia. Please submit Pharmaceutical equivalence studies as per testing procedure provided in monograph of official Pharmacopeia.	Submitted
3.2.P.8	Please submit DRAP clearance documents for procurement of API.	Submitted
	Innovator specifications are not acceptable after publication of monograph in official Pharmacopeia. Please submit stability data for the three batches for all the test mentioned in monograph of official pharmacopeia and perform assay of drug product on HPLC and submit data accordingly.	• Firm clarified that the results of analysis using HPLC & UV spectrophotometer are comparable with RSD = 0.329. • They also mentioned that all the results mentioned in previously submitted report with innovator specifications falls under the limits defined in USP specifications and accordingly submitted stability sheets of 03 batches with limits of testing parameters as per USP specifications. • They have submitted the batch analysis data of the above mentioned stability which has been recently tested now on HPLC and chromatograms have been submitted along with

		calculation sheets ensuring that product is stable even after 24 months. • Now they requested to consider the approval of their formulation on the basis of the batch analysis report recently conducted on stability batches as per USP pharmacopeia and submitted undertaking that they will follow HPLC method of USP pharmacopeia for onward testing of their drug product for commercial batches.

Decision of 333rd meeting of Drug Registration Board: Deferred for submission of stability study data of three batches of drug product as per the analytical testing method & specifications provided monograph of drug product in the latest edition of USP pharmacopeia.

Remarks of the Evaluator:

Firm has now submitted stability data of 06th month for accelerated as well as real time climatic condtions, as per requirement of monograph of USP Pharmacoeia which has been evaluated as under:

Decision of 333rd meeting of DRB

Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Remarks of the Evaluator:

Section	Observations	Status
1.3.4	• Please submit evidence for GMP compliance status of Wallace Pharma.	Submitted
1.6.5	• Please submit GMP Certificate of API suppliers for Vonoprazan and Aspirin which should be in force till date.	Submitted
3.2.P.2	• Please justify that why drug coating method of tablet has been chosen instead of bilayer tablets which is a recommended method for tablet formulation for combination of two incompatible APIs?.	As one salt is enteric coated and other is immediate release so we chose drug coating method. The same formulation has been already approved by DRB.

	• Since Vonoprazan has a bitter taste, what steps have been taken to mask the bitter taste of API coating?	The formulation is in tablet dosage form and the dual coating will prevent the bitter taste
	• Please clarify whether in process test for Vonoprazan containing drug coating suspension has been performed? If yes, then submit validation data as well as anaylytical testing parameters with reference of testing.	Report submitted
	• Please submit data regarding weight gain of enteric coated tablet of Aspirin before and after spraying the drug coating suspension containing Vonoprazan.	Master formulation along with weight gains at each step Submitted
	• Please submit detailed procedure regarding disintegration time requirement for drug coating of vonoprazan and then disintegrating time of enteric coated aspirin.	Automatic exhaust system in lab scale coating pan
	• Please submit documented evidence that the coating machine used for drug coating suspension contains Human machine interface (HMI) to control the opening and closing of the exhaust during coating time.	Submitted
3.2.P.5	• Please submit detailed dissolution procedure along with reference.	Submitted

Decision: approved with innovator specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: **Real time:** 30°C ± 2°C / 75% ± 5%RH for 60 months **Accelerated:** 40°C ± 2°C / 75% ± 5%RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Name:** Flixonase Nasal Spray **Manufacturer:** M/s GSK **Testing parameters:** BP Specifications
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA	
Manufacturer of API	**Name:** M/s Aurisco Pharmaceutical Co. Ltd. **Address**: Badu Industrial Park Zone, Tiantai, Zheijiang Province, China.
API Lot No.	AF-B200701, AF-B-210503
Description of Pack (Container closure system)	Spray will be filled in amber colored spray bottle with actuator, packed din card board carton.
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH
Time Period	Real time: 6 months Accelerated: 6 months
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18 & 24 (Months)

Batch No.	B # 052	B # 053	B # 054
Batch Size	200 kg	200 kg	200 kg
Manufacturing Date	11-2021	01-2022	12-2021
Date of Initiation	19-11-2021	26-02-2022	15-01-2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Invoice #** 18885/2020-DRAP **Dated:** 24-12-2020 **Quantity:** 1.5 kg **Invoice #** 14797/2021-DRAP **Dated:** 05-10-2021 **Quantity:** 1.5 kg
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Decision of 333rd meeting of DRB: Deferred for confirmation of required manufacturing facility / section approval from Licensing Division.

Remarks of the Evaluator:

Section	Observations	Status
1.3.4	• Please submit Section approval letter for **Topical Spray (Steroid) Section** of Saffron Pharma approved in meeting of Central Licensing Board.	Firm has submitted copy of letter for renewal of DML dated 16-05-2024. The letter specifies regularization of Nasal Spray Section (Steroidal) - Regularization

Decision: approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

1610.	**Contract Manufacturing *(Case deferred in 333rd meeting of DRB)***	
	Contract Giver Name, address of Applicant / Marketing Authorization Holder	**M/s Getz Pharma (Pvt.) Ltd. (DML # 000284) Plot No. 29-30, Sector 27, Korangi Industrial Area Karachi.**

Decision of 330th meeting of DRB:
Registration Board deferred the case for opinion of Division of Control Drugs, DRAP regarding:

i. Legal status for API (Ketamine HCl) imported before declaration as controlled drug and afterwards its consumption by Drug Product Manufacturer for Pharmaceutical Development & stability batches. *ii. Requirement of manufacturing area whether segregated Psychotropic facility required or not*.
Remarks of the Evaluator: • The firm has imported the ketamine API (03 kg) as per provided invoice, for production of three (03) trial batches on 20th January 2021. Trial batches were manufactured in 02/2021. • Ketamine and its salts have been declared as "Psychotropic" vide SRO No. 1350(I)/2021 dated 15-10-2021. • Liquid Injectable ampoule (psychotropic) section was granted by 30-05-2022 vide Letter No F. 1-38-91-Lic (Vol-II). • Trial batch sizes needs clarification from firm.
Decision of 333rd meeting of DRB: Deferred for following: • **Justify that 03 kgs of API is sufficient for the manufacturing of 03 batches of 20000 ampoules each** • **Submission of BMRs for the said manufactured batches.** • **Submission of No Objection Certificate from Ministry of Narcotics Control**

1613.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Brookes Pharma Private Limited.** **58-59 Sector 15, Korangi Industrial Area, Karachi** **(DML # 000275)**

Administrative Portion		
i.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
ii.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
iii.	Documents for the procurement of API with approval from DRAP (in case of import).	Invoice # SLL/E/18-19/868 Dated 6/11/2018 Quantity : 3 kg
iv.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
v.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
vi.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Observations	**Reply**
3.2.P.2.3 Please justify that why Pharmaceutical equivalence studies have been performed against a local brand **Ketasol** instead of Innovator brand	Ketasol has been chosen because it is a registered brand in Pakistan by DRAP. This was also supported by "WHO Annexure 8 ; guidance for the selection of comparator pharmaceutical product for equivalence assessment of interchangeable multisource"
Please submit COA and approval documents of API import from DRAP for API LOT# SLL/KH/0618040.	Submitted

Decision of 330th meeting of DRB:

Registration Board deferred the case for opinion of Division of Control Drugs, DRAP regarding:

i. Legal status for API (Ketamine HCl) imported before declaration as controlled drug and afterwards its consumption by Drug Product Manufacturer for Pharmaceutical Development & stability batches.

ii. Requirement of manufacturing area whether segregated Psychotropic facility required or not.

Remarks of the Evaluator:

- The firm has imported the ketamine API (03kg) as per provided invoice vide Invoice # SLL/E/18-19/868 Dated 6/11/2018
- Trial batches were manufactured in 11/2020, 01/2021 & 06/2021.
- Ketamine and its salts have been declared as "Psychotropic" vide SRO No. 1350(I)/2021 dated 15-10-2021.
- Firm possess Liquid Injectable (psychotropic) section.
- Firm already possess registration of ketamine in 10 ml ampoule.

Decision of 333rd meeting of DRB: Approved subject to submission of No Objection Certificate issued by Ministry of Narcotics Control

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Brief History of the case:

The case was considered by the Authority in its 181st meeting. Openion of concerned Divisons and decision of Authority is narrated below:

Controlled Drugs Division:

The comments from the CD Division are as under:

"Reference Para 64/N, as discussed, it is submitted that Ketamine was included in the list of Controlled Drugs/substances in the year 2022 through S.R.O. 1350(I)/2021 dated 15th October 2021. Afterwards, the Pharmaceutical firms have been allocated quota of Ketamine HCl by the CAQCS.

Before the promulgation of the SRO, the matter regarding import and export of ketamine and ketamine containing Pharmaceutical Products was dealt by the QA&LT, Division, DRAP.

Moreover, the matter regarding requirement of segregated Psychotropic facility/section is a policy matter and pertains to the Licensing Division, DRAP."

The case was forwarded to the Licensing Division of DRAP for comments.

Division of Licensing DRAP:

The Comments from the Division of Licensing DRAP are as follows:

"Reference pre-paras it is submitted that the PE&R Division may proceed in the light of the decision by the DRAP Authority taken in its 73rd meeting as reproduced below:

The condition of dedicated section / facility for manufacturing of Ketamine shall not be applicable until declaration of Ketamine as a controlled substance by INCB."

Controlled Drugs Division

In exercise of its power conferred by the Control of Narcotic Substances Act, 1997, the Federal Government has declared Ketamine and its salts as Psychotropic substances. Copy of the notification is attached. Statement given at para 92/N, being contrary to the fact and law, is withdrawn. The matter may be dealt accordingly.

The matter was referred to the Division of Legal Affairs for comments in order to finalize the subject matter.

Legal Affairs Division:

The comments of the Legal Affairs Division are reproduced as under:

"Reference para 64/N onward. The views are sought by the Registration Board on the following two queries:

1. Legal status for API (Ketamine HCl) imported before declaration as controlled drug and afterwards its consumption by Drug Product Manufacturer for Pharmaceutical Development & stability batches.
2. Requirement of manufacturing area whether segregated Psychotropic facility required or not."

In this regard, it is submitted that the Federal Government has declared Ketamine and its salts as a Psychotropic substance vide S.R.O. 1350(I)/2021 dated 15.10.2021. Hence, after such a declaration, its use by the drug product manufacturer for pharmaceutical development and stability batches shall be regulated at par with other Psychotropic substances. The Division may proceed with the case as per requirements of manufacturing area for such substances given in Schedule B-II of the Drugs (Licensing, Registering and Advertising) Rules, 1976 and the SOPs of the Central Licensing Board."

Decision of the Authority:

The Authority decided that the case be processed considering the opinion of Legal Affairs Division that the Federal Government has declared Ketamine and its salts as a Psychotropic substance vide S.R.O. 1350(I)/2021 dated 15.10.2021. Ketamine and its salts shall be regulated at par with other Psychotropic substances.

Decision: Registration Board decided to take opinion of the Licencing division regardimng the requirement of dedicated psychotropic inj section. in the light of legal opinion

Agenda of Assistant Director (PE&R) (Mr. Sarfraz)

	Status of the applicant	Manufacturer
	GMP status of the firm	Firm has submitted copy of letter of Issuance of New DML No. 000973 (Formulation) dated 18-10-2023 specifying Eye/Ear Drops(General) section.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of Issuance of New DML No. 000973 (Formulation) dated 18-10-2023 specifying Eye/Ear Drops(General) section.
	Status of application	Generic Drug Product (GDP)
	Intended use of pharmaceutical product	Domestic and Export sales
	Dy. No. and date of submission	January 12th, 2024, 7:34 am
	Details of fee submitted	PKR 30,000/- Dated 19-12-2023 Challan No. 8734923126
	The proposed proprietary name / brand name	Alcipro Eye Drop 0.3%
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Ciprofloxacin Hydrochloride as Ciprofloxacin 3mg
	Pharmacotherapeutic Group of (API)	Antibiotic
	Pharmaceutical form of applied drug	Eye Drops Solution, A clear and Colourless to pale yellow Solution
	Reference to Finished product specifications	USP
	Proposed Pack size	5 ml Drop-Tainer LDPE bottle and plug with a polystyrene or polypropylene cap.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**CILOXAN** (USFDA Approved)
	For generic drugs (me-too status)	Rocip Eye Drop 0.3% of Remington Pharmaceutical Industries (Reg.No. 015693)
	Name and address of API manufacturer.	Zhejiang Xinhua Pharmaceutical Co., Ltd Zhejiang Provincial chemical and medical materials base linhai zone, linhai, Zhejiang, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard,

		container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence	Firm has submitted pharmaceutical equivalence of their product against Rocip Eye Drop 0.3% of Remington Pharmaceutical Industries.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not Applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice DC No. 00036/0922 dated 20-09-2022 for API Loan received from M/s Newton Health Care Pvt. Ltd Karachi.

4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Submit DRAP Clearance from M/s Newton Health Care Pvt. Ltd Karachi for requisite API.
Submit copy of GMP certificate from API manufacturer abroad.

Firm Reply:

Dear Sir

M/S Zenith Chemical Industries (Pvt) Ltd, is local Lahore based manufacturer. There is no any need of clearance required from DRAP, while we are enclosing the GMP Certificate of M/S Zenith Chemical Industries (Pvt) Ltd attached.

Remarks of Evaluator:

Manufacturer of Drug Substance as per Form-5F and firm reply are as under:

Manufacturer of DS as per Form-5F	**As per query reply Manufacturer of DS**
Zhejiang Xinhua Pharmaceutical Co., Ltd Zhejiang Provincial chemical and medical materials base linhai zone, linhai, Zhejiang, China	M/S Zenith Chemical Industries (Pvt) Ltd, Lahore Pakistan

Decision M-335:

Registration Board deferred the case for submission of reply to the above cited shortcomings.

Firm reply:

Firm submitted requisite information.

Decision: Approved

Remarks of Evaluator:

i. In Form 5-F, you mentioned that the API was obtained as a loan from Bosch Pharmaceutical Pvt. Ltd. However, the attached receipt is from M/s Newton Health Care Pvt. Ltd. in Karachi. Provide clarification with supporting documents, and include DRAP clearance for the API importer.

ii. Submit copy of GMP certificate from API manufacturer abroad.

Firm Reply:

This is to inform you that in the CTD Dossier Alcipro Infusion 200mg/100ml, we received API as loan from Indus Pharmaceuticals (Pvt) Ltd. It is an extra page added during the scanning of dossier. We are enclosing the supporting documents of API attached.
As per Document (GMP copy) manufacturer of API is as under:
M/s Shangyu Jingxin Pharmaceutical Co., Ltd. No. 31 Weisan Road, Hangzhou Bay, Shangyu, Shangyu Economic and Technological Development Area, China.

Remarks of Evaluator:
Manufacturer of Drug Substance as per Form-5F and firm reply are as under:

Manufacturer of DS as per Form-5F	**As per query reply Manufacturer of DS**

Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis

		and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence	Firm has submitted pharmaceutical equivalence of their product against Cyanocobalmin Injection of M/a Amaan Pharma Lahore
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Hebei Huarong Pharmaceutical Co., Ltd. East Road, North Circle, Shijiazhuang, Hebei, China Secondary ref. standard use from this.		
API Lot No.	C210806F		
Description of Pack (Container closure system)	Amber colour glass ampoule 1ml		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	VT-TB-001	VT-TB-002	VT-TB-003
Batch Size	3000 Ampoule	3000 Ampoule	3000 Ampoule
Manufacturing Date	05-2023	05-2023	05-2023
Date of Initiation	15-05-2023	15-05-2023	15-05-2023
No. of Batches	03		
DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA			

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not Applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	API received as loan from M/s Ahsons Drug Company Tando Adam firm submitted copy of Drud Import License No. K-1490452716974 API manufacturer M/s M/s Yuxing Bio-Technology (Group) Co., Ltd. Xicheng, Distric, Ningjin county, Xing Tai City, Hebei Province, China
3.	Documents for the procurement of API with approval from DRAP (in case of import).	API received as loan from M/s Ahsons Drug Company Tando Adam firm submitted copy of Drud Import License No. K-1490452716974 API manufacturer M/s M/s Yuxing Bio-Technology (Group) Co., Ltd. Xicheng, Distric, Ningjin county, Xing Tai City, Hebei Province, China
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	As per USP Monograph analysis was performed using UV Spectrophotometer.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Shortcomings/Clarification	**Firm response**
Module 1 states that the API manufacturer is M/s Yuxing Bio-Technology (Group) Co., Ltd., located in Xicheng District, Ningjin County, Xing Tai City, Hebei Province, China. The Certificate of Analysis (COA) for the Drug Substance (DS) is obtained from this manufacturer. According to Module 2, the API manufacturer is M/s Hebei Huarong Pharmaceutical Co., Ltd., situated on East Road, North Circle, Shijiazhuang, Hebei, China, and the secondary reference standard is sourced from this manufacturer. In Module 3, the API manufacturer is M/s Sichuan Province Yuxin Pharmaceutical Co., Ltd., located at No. 51, West Section of Changjiang Road, Shifang Economic Development Zone (Southern District), Sichuan. You are advised to clarification with supporting documents regarding the API manufacturer used for product development.	This is to inform you that the API Manufacturer of Vitamin B12 (Cyanocobalamin) is M/s. Yuxing Biotechnology (Group) Co. Ltd. The certificate of analysis COA for the Drug Substance is also same as M/s. Yuxing Biotechnology (Group) Co. Ltd. The drug product manufactured from same manufacturer M/s. Yuxing Biotechnology (Group) Co. Ltd. We are enclosing the supporting documents also.
The stability data for batch no. VT-TB-001 indicates an initiation date of 15-05-2023, but within the same dataset, the initiation date is mentioned as 12-05-2023. Similarly, for Batch no. VT-TB-002, the initiation date is stated as 15-05-2023, while in the table, it is documented as 13-05-2023. Please provide clarification on this discrepancy.	The stability data for batch No. VT-TB-001 indicates an initiation date of 15/05/2023 while the 12/05/2023 is the analysis date of batch No. VT-TB-001, Similarly batch No. VT-TB-002 indicates an initiation date of 15/05/2023 while the 13/05/2023 is the analysis date of batch No. VT-TB-002.

Decision M-335:
The board deferred for submission of following:

1. Details of drug substance manufacturer along with evidence of procurement attested by AD I&E DRAP.
2. Clarification regarding dates of manufacturing and initial analysis of batch release of stability trial batches along with relevant manufacturing and analytical record.

Firm Reply:
(i)This is to inform you that the API Manufacturer of Vitamin B12 (Cyanocobalamin) is M/s. Yuxing Biotechnology (Group) Co. Ltd. The certificate of analysis COA for the Drug Substance is also same as M/s. Yuxing Biotechnology (Group) Co. Ltd. The drug product manufactured from same manufacturer M/s. Yuxing Biotechnology (Group) Co. Ltd. We are enclosing the supporting documents also.
(ii)The stability data for batch No. VT-TB-001 indicates an initiation date of 15/05/2023 while the 12/05/2023 is the analysis date of batch No. VT-TB-001, Similarly batch No. VT-TB-002 indicates an initiation date of 15/05/2023 while the 13/05/2023 is the analysis date of batch No. VT-TB-002.

Decision: Approved

Decision of M-333rd meeting of RB	**Firm reply**
Latest GMP inspection report conducted within period of 3 years	GMP inspection report submitted. Date of inspection 04-06-2022
Submit valid approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin	Firm submit copy of GMP from **Nantong chemical & Medical Industry Association** valid until 21-02-2026
6 units of each of both test and reference product are used for CDP. Clarification is required in the light of FDA guidance for industry and EMA guidelines of comparative dissolution.	CDP is performed on 12 unites for both test and reference product. It is performed in 2 stages, 6 unites are used in stage-1 and 6 unites are used in stage-2 for each dissolution medium. Data for 12 unites is submitted.

Decision: Approved

1621.	Name and address of manufacturer / Applicant	M/s McOlson Research Labs. (Pvt) Ltd. Plot No.2 26th km Lahore Shariqpur Road Sheikhpura

</table>

- Accelerated and real time stability studies data is submitted till 3rd month time point, provide both accelerated and real time data upto 06 months.
- Provide reference of previous approval of applications with stability study data of the firm.
- Provide stability study data of API from API manufacturer as per zone IV-A conditions as the provided data is at 25˚C ± 2˚C / 60% ± 5%RH condition. In case where the real time stability data of drug substance is not available at 30˚C ± 2˚C / 65% ± 5%RH conditions, submit long term stability studies data of the drug product for 6 months along with degradation studies in the finished pharmaceutical product.
- Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.
- Justify as PVP is used in formulation while in innovator product, Hydoxy Propyl Cellulose is used. Also provide Drug-excipients compatibility studies.
- Justification for using overage in master formula.
- Dissolution test parameters are mentioned as 20 minutes sampling time and 50rpm whereas the acceptance limit of innovator product is testing at 15 minutes and 75rpm. Justify.
- Justification for using acetate buffer (pH 4) as medium for CDP, instead of acetate buffer pH 4.5?
- Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time).
- Justification of performing 3rd point time test in January instead of December.

Decision 333:
Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply of the Firm:

Shortcomings	**Response of the Firm**
Latest GMP inspection report conducted within period of 3 years.	GMP inspection report dated 19-08-2022 & 22-08-2022
Accelerated and real time stability studies data is submitted till 3rd month time point, provide both accelerated and real time data upto 06 months.	Submitted
Provide reference of previous approval of applications with stability study data of the firm.	Onsite inspection was conducted on 04-09-2023 for cinacalcet (as HCL) 30mg and Dexlansoprazole 30mg & 60mg by constituted panel of DRAP
Provide stability study data of API from API manufacturer as per zone IV-A conditions as the provided data is at 25˚C ± 2˚C / 60% ± 5%RH condition. In case where the real time stability data of drug substance is not available at 30˚C ± 2˚C / 65% ± 5%RH conditions, submit long term stability studies data of the drug product for 6 months along with degradation studies in the finished pharmaceutical product.	Submitted
Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.	Online DML of API manufacturer from official website of NMPA China dated 14-02-2024 valid 2027-11-17, scope of production shows applied molecule.
Justify as PVP is used in formulation while in innovator product, Hydoxy Propyl Cellulose is used. Also provide Drug-excipients compatibility studies.	Hydroxypropyl cellulose was not available at the time of the development of the Empagliflozin 10mg tablet therefore PVP was used as a binder. PVP is most widely used in tablet as a binder. There found no incompatibility with Empagliflozin and any other excipient used. Compatibility report submitted.
Justification for using overage in master formula.	The overage was using to compensate the process loss during the manufacturing process. As the geometrical mixing was used for the batch manufacturing and quality of the API is in small therefore overage was used. However the batch results and the 6th month accelerated 24 months real time stability data shows that the selected manufactured process and the formulation is robust and there is no need of the overage to compensate the process loss. Therefor we

	commit that the commercial batches will be manufactured without overage.
Dissolution test parameters are mentioned as 20 minutes sampling time and 50rpm whereas the acceptance limit of innovator product is testing at 15 minutes and 75rpm. Justify	For dissolution parameters of empagliflozin 10mg USFDA Dissolution data base was consulted. In USFDA dissolution data base for the Empagliflozin they refer to FDA's Dissolution guidance, 2018, where 50rpm and 30minutes is recommended but we used 20minutes sampling time.
Justification for using acetate buffer (pH 4) as medium for CDP, instead of acetate buffer pH 4.5?	It was a typographic mistake. Acetate buffer of pH 4.5 buffer was used for the CDP.
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time).	Submitted
Justification of performing 3rd point time test in January instead of December	Empazin 10mg 3rd time point stability study was due in Decemer 2020, the testing at the due time was missed inadvertently and then performed on January 2021. The stability was continued and tested as per the due time points till 6th months accelerated and 24 months real time.

</table>

REMARKS OF EVALUATOR[X]

Initially applied with brand name "Empazin" while submitted stability data with brand name "Empaken".

Shortcomings:

- Latest GMP inspection report conducted within period of 3 years.
- Accelerated and real time stability studies data is submitted till 3rd month time point, provide both accelerated and real time data upto 06 months.
- Provide reference of previous approval of applications with stability study data of the firm.
- Provide stability study data of API from API manufacturer as per zone IV-A conditions. In case where the real time stability data of drug substance is not available at 30˚C ± 2˚C / 65% ± 5%RH conditions, submit long term stability studies data of the product for 6 months along with degradation studies in the finished pharmaceutical product.
- Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.
- Justify as PVP is used in formulation while in innovator product, Hydoxy Propyl Cellulose is used. Also provide Drug-excipients compatibility studies.
- Dissolution test parameters are mentioned as 20 minutes sampling time and 50rpm whereas the acceptance limit of innovator product is testing at 15 minutes and 75rpm. Justify.
- Justification for using acetate buffer (pH 4) as medium for CDP, instead of acetate buffer pH 4.5
- Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time).
- Justification of performing 3rd point time test in January instead of December.

Decision 333: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply of the Firm:

Shortcomings	Response of the Firm
Latest GMP inspection report conducted within period of 3 years.	GMP inspection report dated 19-08-2022 & 22-08-2022

Accelerated and real time stability studies data is submitted till 3rd month time point, provide both accelerated and real time data upto 06 months.	Submitted
Provide reference of previous approval of applications with stability study data of the firm.	Onsite inspection was conducted on 04-09-2023 for cinacalcet (as HCL) 30mg and Dexlansoprazole 30mg & 60mg by constituted panel of DRAP
Provide stability study data of API from API manufacturer as per zone IV-A conditions as the provided data is at 25˚C ± 2˚C / 60% ± 5%RH condition. In case where the real time stability data of drug substance is not available at 30˚C ± 2˚C / 65% ± 5%RH conditions, submit long term stability studies data of the drug product for 6 months along with degradation studies in the finished pharmaceutical product.	Submitted
Submit valid copy of GMP certificate of API manufacturer issued by the concerned regulatory authority of country of origin.	Online DML of API manufacturer from official website of NMPA China dated 14-02-2024 valid 2027-11-17, scope of production shows applied molecule.
Justify as PVP is used in formulation while in innovator product, Hydoxy Propyl Cellulose is used. Also provide Drug-excipients compatibility studies.	Hydroxypropyl cellulose was not available at the time of the development of the Empagliflozin 10mg tablet therefore PVP was used as a binder. PVP is most widely used in tablet as a binder. There found no incompatibility with Empagliflozin and any other excipient used. Compatibility report submitted.
Dissolution test parameters are mentioned as 20 minutes sampling time and 50rpm whereas the acceptance limit of innovator product is testing at 15 minutes and 75rpm. Justify	For dissolution parameters of empagliflozin 10mg USFDA Dissolution data base was consulted. In USFDA dissolution data base for the Empagliflozin they refer to FDA's Dissolution guidance, 2018, where 50rpm and 30minutes is recommended but we used 20minutes sampling time.
Justification for using acetate buffer (pH 4) as medium for CDP, instead of acetate buffer pH 4.5?	It was a typographic mistake. Acetate buffer of pH 4.5 buffer was used for the CDP.
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time).	Submitted
Justification of performing 3rd point time test in January instead of December	Empazin 10mg 3rd time point stability study was due in Decemer 2020, the testing at the due time was missed inadvertently and then performed on January 2021. The stability was continued and tested as per the due time points till 6th months accelerated and 24 months' real time.

Case no. 05 Routine Registration applications

i. Human

1674.	Name, address of Applicant / Marketing Authorization Holder	M/s Ferozsons Laboratories Limited, P.O. Ferozsons, Amangarh, Nowshera, Khyber Pakhtunkhwa-Pakistan
	Name, address of Manufacturing site.	Ferozsons Laboratories Limited P.O. Ferozsons, Amangarh, Nowshera, Khyber Pakhtunkhwa - Pakistan
	Status of the applicant	☒ Manufacturer
	GMP status of the firm	Firm has submitted copy of GMP Certificate No. F.11-6/2021-DRAP-65, dated 25-08-2021 based on inspection conducted on 10-08-2021.
	Evidence of approval of manufacturing facility	Capsule (General) section confirmed vide letter No. F. 3-14/2004-Lic (Vol-I), dated: 26-10-2020.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 34820 dated 01-12-2022
	Details of fee submitted	PKR 30,000/- Dated 31-10-2022 Slip No. 10293836409
	The proposed proprietary name / brand name	**LIGAB CAPSULES 75mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Pregabalin ….75mg
	Pharmacotherapeutic Group of (API)	Pregabalin is antiepileptic drug and an analogue of the neurotransmitter gamma-aminobutyric acid (GABA)

	Pharmaceutical form of applied drug	White cap and white body EHGC shell size "3" filled with white color powder.
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	7's, 10's, 14's, 20's, 28's and 30's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Lyrica Capsules (Approved by USFDA)
	For generic drugs (me-too status)	Gabica 75mg Capsules of M/s Getz Pharma (Pvt) Limited, Karachi.
	Name and address of API manufacturer.	CTX Lifesciences (P) Ltd Address: Block No. 251-252 Sachin- Magdalla Road GIDC-Sachin, Dist: Surat (Gujarat), India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Pregabalin is B.P. grade, the firm submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance Pregabalin at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 72 months. Batches: (PG163006, PG163007, PG163008)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence of their product against the Innovator product Lyrica 75mg Capsules (Batch No. EP0926) manufactured by M/s Pfizer Germany. Firm has submitted Comparative Dissolution Profile of their product against the Innovator product Lyrica 75mg Capsules (Batch No. EP0926) manufactured by M/s Pfizer Germany.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study report for drug substance as well as analytical method validation study report for drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Last Product Specific Inspection of the firm was conducted for Empagen Tablets 10mg & Empagen Tablets 25mg, for which the inspection was conducted on 25-10-2019 and the report was presented in 294th meeting of Registration Board. The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP issued dated 30-05-2022 valid up to 29-05-2025 issued by Food & Drugs Control Administration, Block No. 8, 1st floor, Dr. Jivraj Mehta Bhavan, Gandhinagar, Gujarat State, India.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 # 00833/2020-DRAP(P)/3568 for 2.000 Kg Pregabalin cleared on 23-09-2020 by AD (I&E) DRAP, Peshawar.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.
Remarks of Evaluator: monograph is available in BP Submitted for consideration of the Board		
Decision: Approved		

1675.	Name, address of Applicant / Marketing Authorization Holder	M/s Ferozsons Laboratories Limited, P.O. Ferozsons, Amangarh, Nowshera, Khyber Pakhtunkhwa-Pakistan
	Name, address of Manufacturing site.	Ferozsons Laboratories Limited P.O. Ferozsons, Amangarh, Nowshera, Khyber Pakhtunkhwa - Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP Certificate No. F.11-6/2021-DRAP-65, dated 25-08-2021 based on inspection conducted on 10-08-2021.
	Evidence of approval of manufacturing facility	Capsule (General) section confirmed vide letter No. F. 3-14/2004-Lic (Vol-I), dated: 26-10-2020.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 34821 dated 01-12-2022
	Details of fee submitted	PKR 30,000/- Dated 31-10-2022 Slip No. 408868180
	The proposed proprietary name / brand name	**LIGAB CAPSULES 150mg**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Pregabalin ….150mg
	Pharmacotherapeutic Group of (API)	Pregabalin is antiepileptic drug and an analogue of the neurotransmitter gamma-aminobutyric acid (GABA)
	Pharmaceutical form of applied drug	White cap and white body EHGC shell size “2” filled with white color powder.
	Reference to Finished product specifications	Innovator’s specifications
	Proposed Pack size	7’s, 10’s, 14’s, 20’s, 28’s and 30’s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Lyrica Capsules (Approved by USFDA)
	For generic drugs (me-too status)	Gabica 150mg Capsules of M/s Getz Pharma (Pvt) Limited, Karachi.
	Name and address of API manufacturer.	CTX Lifesciences (P) Ltd Address: Block No. 251-252 Sachin- Magdalla Road GIDC-Sachin, Dist: Surat (Gujarat), India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Pregabalin is B.P. grade, the firm submitted detail of

		nomenclature, structure, general properties, solubility, physical form, manufacturers, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance Pregabalin at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 72 months. Batches: (PG163006, PG163007, PG163008)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence of their product against the Innovator product Lyrica 150mg Capsules (Batch No. FF1126) manufactured by M/s Pfizer Germany. Firm has submitted Comparative Dissolution Profile of their product against the Innovator product Lyrica 150mg Capsules (Batch No. FF1126) manufactured by M/s Pfizer Germany.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study report for drug substance as well as analytical method validation study report for drug product.

Remarks of Evaluator:

Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
3.2.P.5.2	US FDA review document of the Innovator product, specifies the dissolution limit as "NLT Q in 15 minutes" whereas submitted specifications declare the dissolution limits as "NLT 75% in 20 minutes, justify.	It is to inform you that while assigning limits for dissolution we consult USFDA dissolution database instead of US FDA review document of innovator's product. As per USFDA dissolution data base recommended time points for drug release are 10min, 15min, 20min, 30min and 45min whereas more than 85% release was also observed at 15min and more than 90% release was observed at 20 minutes that's why as per our practice we declare the dissolution limits as NLT 75% in 20 minutes. Furthermore, now drug product covered in B.P. and as per B.P. monograph dissolution limit is NLT 80 (Q) after 30 minutes which is more broader than our assigned limit .

The report confirms following points: • The HPLC software is 21CFR compliant. • Firm has demonstrated audit trail reports of testing.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of DML issued dated 27-11-2020 valid up to 26-11-2025 issued by Jiangxi Provincial Medical Products Administration.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 # 001054/2020-DRAP(P)/4433 for 0.25 Kg Rivaroxaban cleared on 16-11-2020 by AD (I&E) DRAP, Peshawar.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
3.2.P.5.2	US FDA review document of the Innovator product, specifies the dissolution limit as "NLT Q in 15 minutes" whereas submitted specifications declare the dissolution limits as "NLT 75% in 20 minutes, justify.	It is to inform you that while assigning limits for dissolution we consult USFDA dissolution database instead of US FDA review document of innovator's product. As per USFDA dissolution data base recommended time points for drug release are 10min, 15min, 20min, 30min and 45min whereas more than 85% release was also observed at 15min and more than 90% release was observed at 20 minutes that's why as per our practice we declare the dissolution limits as NLT 75% in 20 minutes. Furthermore, now drug product covered in B.P. and as per B.P. monograph dissolution limit is NLT 80 (Q) after 30 minutes which is more broader than our assigned limit .

Decision: Approved

	Remarks of the Evaluator X	Provided 06 months accelerated and 36 months long term stability studies data as per zone-IV-B conditions **Shortcomings:** i. Provide original legalized valid GMP certificate and Power of attorney/sole distributor agreement since the already submitted are scanned copies. **ii.** Provide original legalized valid Free Sale certificate since the already submitted FSC is **expired now but valid upon submission.** iii. Evidence of applied formulation/drug already approved by DRAP **with same pack size as applied** (generic / me-too status) alongwith registration number, brand name and name of firm. iv. Separate registration is granted to separate pack size/fill volume of injectable dosage form. However, multiple pack sizes of injectable dosage form are demanded in a single application. So clarification is required for which pack size/ fill volume you want to apply this dossier.

Decision of 329th meeting of RB	**Firm reply**
Original legalized valid GMP certificate and Power of attorney/sole distributor agreement since the already submitted are scanned copies.	Submitted
Original legalized valid Free Sale certificate since the already submitted FSC is expired now but valid upon submission.	Submitted
Evidence of applied formulation/drug already approved by DRAP with same pack size as applied (generic / me-too status) alongwith registration number, brand name and name of firm.	Zoloxy Injection (Reg. 109924) 50ml
Choice of only one pack size	100ml

Decision: Approved. The firm shall submit fee Rs. 7500/- for change in finished product specifications prescribed vide S.R.O. 496(I)/2023 dated 17-04-2023 before issuance of registration letter.

"AVICO" P.O Box 150906 Amman 11115- Jordan & U.M. Enterprises, 18 C 3rd Floor Dolmen Estate Block-7, Shaheed e Millat Road, Karachi. Issued on: **12th of June, 2012**
	Remarks of the Evaluator [X]	• The submitted photocopy of letter of Authorization (LOA) and GMP certificate are expired now, but valid upon submission, Provide legalized valid original LOA and GMP certificate. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Provide evidence of pharmacopoeial reference of finished product specification. In case, the product is non pharmacopoeial, submit product specification in the light of decision taken in 267th meeting of Registration Board. • Submit Rs.7500/- for revision of finished product specifications. • Provide 06 months accelerated and real time stability studies data upto claimed shelf life of three batches at zone IV-A conditions as per requirement of 278th meeting of Registration Board.
	Decision of 322nd meeting: Deferred for following: • Legalized valid original LOA and GMP certificate. • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Finished product specifications in the light of decision taken in 267th meeting of Registration Board. • Submit Rs.7500/- for revision of finished product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021. • 06 months accelerated and real time stability studies data upto claimed shelf life of three batches at zone IV-A conditions	
	Updated status: The firm has submitted its reply dated 22-02-2023 and 07-08-2023 • Original legalized LOA for the applied product dated 11-11-2022, from Huang Gang Animal Medicine Factory of China Animal Husbandry Industry Co. Ltd. No. 395, Lukou Industrial, Huangzhou Industrial Area, huang Gang City, Hubei Province, China valid for 5 years • Originally legalized GMP certificate No. (2021) S.Y.GMP Z.Zi, No.17001 dated 05-08-2021, issued by Department of Agriculture and Rural Affairs of Hubei Province valid till 28-01-2026	

- Rs.7500/- vide challan No. 611886556467 for revision of finished product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.
- Submitted 06 months accelerated and 24 months' real time stability studies data of three batches at zone IV-A conditions
- The applied formulation/drug is not already registered in Pakistan. The firm has submitted reference of **Aivlosin 17%** approved in Canada

The reference product for Tylvalosin tatrate 20% is Aivlosin 17% (Reference product Canada) both are the same products, the calculation method (of why **Aivlosin 17%** is same assay as **Tylvalosin Tartrate Premix 20%**):

Molecular weight of **Tartrate**: 150.09
Molecular weight of **Tylvalosin tartrate**: 1192.34002

$$\left(1 - \frac{150.09}{1192.34002}\right) \times 20\% \approx \mathbf{17\%}$$

which means:
Assay of Tylvalosin tartrate premix 20% ≈ Assay of Aivlosin 17% (Tylvalosin 17%)

Decision M-331:
The registration Board after detail delebrations decided to defer the case for International reference of applied formulation as in Canada it is available for only swine use and not for poultry and the applicant's target specie is poultry.

Firm reply:
Importer submit reference from EMA which shows centralized approval of Tylvalosin with Brand name Aivlosin showing indication in Chickens,Turkeys with following strengths:

EU Number	Invented name	Strength	Pharmaceutical Form	Target species	Route of administration	Packaging	Content	Package size	Withdrawal Period
EU/2/04/044/001	Aivlosin	42.5 mg/g	Premix for medicated feeding stuff	Pigs	In-feed use	Aluminium foil laminated bags	42.5 mg/g	20 kg	Meat and offal 2 days

	Remarks of the Evaluator [X]	Firm has provided 24-month real time stability studies data of three batches at conditions **30ºC, 60% RH**. **Target species:** Heifer **Shortcomings:** • Evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm. • Both 06-month accelerated and real time stability studies data upto claimed shelf life, of three batches at zone IV-A conditions.

Decision 334:
Deferred for following:

- Choice of only one pack size/ fill volume
- evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.
- Both 06-month accelerated and real time stability studies data upto claimed shelf life, of three batches at zone IV-A conditions.

Firm reply is as under:

Decision of 334th meeting of RB	Firm Reply
Choice of only one pack size/ fill volume	Since product is oral powder hence the one pack size policy is not applicable here.
Evidence of applied formulation/drug already approved by DRAP (generic / me-too status)	Not available

	alongwith registration number, brand name and name of firm	
	Both 06-month accelerated and real time stability studies data upto claimed shelf life, of three batches at zone IV-A conditions.	Firm has submitted Real time 24 months and accelerated 6 months stability data as per zone-iva.

Decision: Deferred for evidence of applied formulation/drug already approved by DRAP (generic / me-too status) alongwith registration number, brand name and name of firm.

Evaluation by PEC-IX

S. No.	Section	Observation	Reply
1	3.2.P.8	The batch size mentioned in stability data sheets is 1L. As per bill of material in BMR, volume per bottle is 100ml, It makes total batch size of 10 units each. Justify how this small batch can be used in stability studies over whole proposed shelf life.	The firm vide letter No. RA/DRAP/708/2024 dated 24.05.2024 has stated that stability batch size is 10 units, One bottle was consumed in initial testing. 6 were placed on real time stability. 2 were placed on accelerated stability study.

Decision: The board deferred the case for clarification of the firm that how batch of 1 litre was manufactured and in which facility. Further the firm should justify how stability of such a small batch will represent the stability of commercial scale batches.

1	3.2.P.5	Under the heading of system suitability tests, its mentioned that its done by calculating symmetry factor and RSD for 5 replicate injections of standard preparations. As per USP monograph it is required to be assessed by using Citalopram Related Compound C. Please justify this deviation from USP monograph and clarify whether USP allow such deviations from pharmacopoeial methods or otherwise.	The firm has submitted their response vide letter No. nil dated nil. The firm has stated that they have revised the method of analysis to comply with the USP monograph. But even in revised method there is no mentioning of Compound C for assessing system suitability.
2	-	Copy of clearance certificate or AD attested invoice of drug substance is required.	Firm has submitted clearance certificate of batch No. AE-084/22 cleared in 2023. Trial batches were manufactured by batch No. EO-108/20 in 2021 & 2022

Decision: The board deferred the case for submission of;

i. Clarification of submission of clearance of different batch of drug substance

ii. Justification of deviating from official monograph of drug product.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains; Escitalopram oxalate eq. to Escitalopram…..5mg
	Pharmacotherapeutic Group of (API)	Selective serotonin reuptake inhibitors ATC Code: N06AB10
	Reference to Finished product specifications	**USP Specifications.**
	Proposed Pack size	10's 20's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Cipralex 5mg Film coated tablet MHRA Approved.
	For generic drugs (me-too status)	Depsit 5mg Tablets M/s Genix Pharma.

Evaluation by PEC-IX

S. No.	Section	Observation	Reply
1	3.2.P.5	Under the heading of system suitability tests, its mentioned that its done by calculating symmetry factor and RSD for 5 replicate injections of standard preparations. As per USP monograph it is required to be assessed by using Citalopram Related Compound C. Please justify this deviation from USP monograph and clarify whether USP allow such deviations from pharmacopoeial methods or otherwise.	The firm has submitted their response vide letter No. nil dated nil. The firm has stated that they have revised the method of analysis to comply with the USP monograph. But even in revised method there is no mentioning of Compound C for assessing system suitability.
2	-	Copy of clearance certificate or AD attested invoice of drug substance is required.	Firm has submitted clearance certificate of batch No. AE-084/22 cleared in 2023. Trial batches were manufactured by batch No. EO-108/20 in 2021 & 2022

Decision: The board deferred the case for submission of;

iii. Clarification of submission of clearance of different batch of drug substance

i. Justification of deviating from official monograph of drug product.

	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	caspofungin 50 mg and 70 mg powder for concentrate for solution for infusion PL 1311/0605-0606 MHRA Approved.
	For generic drugs (me-too status)	Caspogin 50mg Reg. No. 106828 M/s AJM Pharma Karachi.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s DSM Sinochem Pharmaceuticals India (Pvt.) Ltd. Bhai Mohan Singh Nagar, Village Toansa, Distt. Ropar, Punjab, India. M/s Arch Pharmalabs Ltd. H Wing 4th Floor, Tex Centre Off Saki Vihar Road, Chandivali Andheri Mumbai.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (3141400239, 3141400256, 3141400258) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40 °C 75% RH: 16 days (degradation: 5% per day) 25 °C 65% RH: 2months (degradation: 16% per month) 5 °C : : 6 months(degradation: 3% per month) -18 °C : : 6 months (degradation: 1.6% per month)

		-70 ºC : : stability done upto 36 months The stability study is conducted at -70 ºC ± 5ºC. Batch No. 3141400239, 3141400256, 3141400258
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis [(ACR501, ACR502, ACR5030)Teva API], [(ATC601)DSP API], justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Cancidas Lot No. 2100510 manufactured by Merck UK exp date: 03.2015, by performing following tests; Appearance, water content, pH, dissolution rate, Completeness and clarity of solution, assay, , impurity A, impurity B and unknown impurities.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies for the applied product.
	Container closure system of the drug product	White to off-white lyophilized powder or cake, filled in type I glass vial with butyl stopper and an aluminium seal with red plastic flip-off cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 4 batches of drug product. **The real time stability study data is conducted at 2ºC - 8º C for 48 months**. Accelerated at 25±2°C/60±5%RH for 6 months. Batch No. [(ACR501, ACR502, ACR503) Teva API], [(ATC601) DSP API]. In use stability study of 24 hours is also submitted. Conducted at 18-25°C. Test points are at 12h and 24h.
	Therapeutic indications in USFDA.	CANCIDAS is a sterile, lyophilized product for intravenous (IV) infusion that contains a semisynthetic lipopeptide (echinocandin) compound synthesized from a fermentation product of *Glarea lozoyensis*. CANCIDAS is the first of a new class of antifungal drugs (glucan synthesis inhibitors) that inhibit the synthesis of β (1,3)-d-Glucan, an integral component of the fungal cell wall. **Indications and Usage** CANCIDAS is indicated for the treatment of invasive aspergillosis in patients who are refractory to or intolerant of other therapies (i.e. amphotericin B, lipid formulations of amphotericin B and/or itraconazole) CANCIDAS has not been studied as initial therapy for invasive aspergillosis.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm

1.	**-**	Notarized copy of letter of authorization/sole agency agreement is required.	Copy is submitted vide letter no. 26082023/01-RH dated 26.08.2023. Original is also seen. Firm will submit original at time of issuance of Registration letter.
2.	**-**	The country of origin of drug product appears to be India. The market authorization holder is of Spain and COPP submitted is of Malta. Clarification is required why COPP from country of origin is not submitted and why marketing authorization of Spain is not submitted when marketing authorization holder is in Spain.	The firm has submitted a declaration letter from M/s Galenicum Ecosystem (MA holder) stating the following; *"We would like to clarify that Galenicum's main business in Europe is to develop generic products and license them to third-party companies.* *Due to this, Galenicum usually does not commercialize under its own brand name or does not own the products in Europe. Even though we are the owners of the intellectual property, our products are commercialized in Europe under customer's brand name and ownership.* *Galenicum's product has been submitted in several EU countries by Decentralise Procedure (DCP), therefore the dossier submitted in all these countries is the same in terms of qualitative composition and quantitative proportional composition and are manufactured by the same process.* *Even though Galenicum does not normally register under its name nor commercialize under its ownership, in the case of Caspofungin we have an exception and one of the licenses in Malta and Spain are under Galenicum's name, having the product marketed only in Malta."*
3.	**-**	GMP certificate of drug substance manufacturer is required.	Submitted vide letter no. 26082023/01-RH dated 26.08.2023. M/s TEVA API India Pvt Ltd. M/s TEVA Pharmaceuticals Ltd. Hungary.
4.	**3.2.S**	Some testing documents attached are of M/s M/s Arch Pharmalabs Ltd. H Wing 4th Floor, Tex Centre Off Saki Vihar Road, Chandivali Andheri Mumbai. Clarification is required regarding that is drug product manufacturer sourcing API from multiple sources or otherwise. What is role of M/s Arch Pharmalabs in processing of drug substance.	The firm has submitted a declaration letter from M/s Galenicum Ecosystem (MA holder) stating the following; *"Please note that the question mentions an API source that was discontinued due to commercial reasons. The API source that must be considered for Caspofungin 50mg and 70mg powder for concentrate for solution for*

			infusion, is TEVA Pharmaceutical Industrial Ltd. (TAPI)"
5.	3.2.P.5.4	In batch analysis of 3 batches it is stated that API used was manufactured by Teva and for one batch it was manufactured by DSM. The S part is required from all API manufacturers (prequalified suppliers) who's API will be used to manufacture the drug product.	The vide letter no. 26082023/01-RH dated 26.08.2023 has submitted S part of module 3 for drug substance from M/s TEVA Pharmaceutical Industries. Two manufacturing sites are mentioned; TEVA API India and TEVA Hungary. Stability studies data of Indian site is submitted only.

Decision of 331st Meeting of the Board: The Board deferred the case for further clarification regarding free sale status of the applied product in country of origin and registration status in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.

Remarks of Evaluator:

The firm vide letter No. 04032024/01-RH dated 04.03.2024 has requested for change of address to Ground Floor 6-Judicial Colony, Phase 1 (Ext) Shahrah Nazaria e Pakistan Lahore. Firm has submitted copy of new DSL along with fee of Rs 7500/- vide slip No. 93004893767 and revised Form-5F

The firm vide letter No. 07032024/01-RH dated 07.03.2024 has submitted a legalized COPP having following details;

Issuing Agency: Spanish Agency for Medicines and Medical Devices (AEMPS)
Number of Certificate: 2023/03577
Date of issue: 27.09.2017 (very old)
CSV for verification at link of AEMPS https://localizador.aemps.es : TGPCQ2Q2E3

In submitted certificate, the last page is legalized, rest of the pages are pinned separately so they were not sealed with last page at time of legalization.
Further at page 2 of 6, at serial No. 1.4 in front of statement "***Is this product actually on the market in the exporting country***" word "***YES***" is mentioned.
When the same certificate is verified from online database of AEMPS Spain, word ***"NO"*** is mentioned in front of this statement which indicates tempering of original document to change the word "**NO"** to "**Yes".**

Decision: The Registration Board took serious notice of the matter of submission of document having different text than the one available on official website of AEMPS Spain and deferred the case for submission of clarification by the firm regarding the difference of text as mentioned.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (3141400239, 3141400256, 3141400258) and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40 ºC 75% RH: 16 days (degradation: 5% per day) 25 ºC 65% RH: 2months (degradation: 16% per month) 5 ºC : : 6 months(degradation: 3% per month) -18 ºC : : 6 months (degradation: 1.6% per month) -70 ºC : : stability done upto 36 months The stability study is conducted at -70 ºC ± 5ºC. Batch No. 3141400239, 3141400256, 3141400258
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis [(ACS501, ACS502)Teva API], [(ACU601)DSP API], justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Cancidas Lot No. 2081510 manufactured by Merck UK exp date: 10/2014, by performing following tests; Appearance, water content, pH, dissolution rate, Completeness and clarity of solution, assay, , impurity A, impurity B and unknown impurities.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies for the applied product.
	Container closure system of the drug product	White to off-white lyophilized powder or cake, filled in type I glass vial with butyl stopper and an aluminium seal with red plastic flip-off cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 4 batches of drug product. **The real time stability study data is conducted at 2ºC - 8º C for 48 months**. Accelerated at 25±2°C/60±5%RH for 6 months. Batch No. [(ACS501, ACS502)Teva API], [(ACU601)DSP API]. In use stability study of 24 hours is also submitted. Conducted at 18-25°C. Test points are at 12h and 24h.
	Therapeutic indications in USFDA.	CANCIDAS is a sterile, lyophilized product for intravenous (IV) infusion that contains a semisynthetic lipopeptide (echinocandin) compound synthesized from a fermentation product of *Glarea lozoyensis*. CANCIDAS is the first of a new class of antifungal drugs (glucan synthesis inhibitors) that inhibit the synthesis of β (1,3)-d-Glucan, an integral component of the fungal cell wall. **Indications and Usage** CANCIDAS is indicated for the treatment of invasive aspergillosis in patients who are refractory to or

		intolerant of other therapies (i.e. amphotericin B, lipid formulations of amphotericin B and/or itraconazole) CANCIDAS has not been studied as initial therapy for invasive aspergillosis.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
1.	-	Notarized copy of letter of authorization/sole agency agreement is required.	Copy is submitted vide letter no. 26082023/01-RH dated 26.08.2023. Original is also seen. Firm will submit original at time of issuance of Registration letter.
2.	-	The country of origin of drug product appears to be India. The market authorization holder is of Spain and COPP submitted is of Malta. Clarification is required why COPP from country of origin is not submitted and why marketing authorization of Spain is not submitted when marketing authorization holder is in Spain.	The firm has submitted a declaration letter from M/s Galenicum Ecosystem (MA holder) stating the following; *"We would like to clarify that Galenicum's main business in Europe is to develop generic products and license them to third-party companies.* *Due to this, Galenicum usually does not commercialize under its own brand name or does not own the products in Europe. Even though we are the owners of the intellectual property, our products are commercialized in Europe under customer's brand name and ownership.* *Galenicum's product has been submitted in several EU countries by Decentralise Procedure (DCP), therefore the dossier submitted in all these countries is the same in terms of qualitative composition and quantitative proportional composition and are manufactured by the same process.* *Even though Galenicum does not normally register under its name nor commercialize under its ownership, in the case of Caspofungin we have an exception and one of the licenses in Malta and Spain are under Galenicum's name, having the product marketed only in Malta."*
3.	-	GMP certificate of drug substance manufacturer is required.	Submitted vide letter no. 26082023/01-RH dated 26.08.2023. M/s TEVA API India Pvt Ltd. M/s TEVA Pharmaceuticals Ltd. Hungary.
4.	**3.2.S**	Some testing documents attached are of M/s M/s Arch Pharmalabs Ltd. H Wing 4th Floor, Tex Centre Off Saki	The firm has submitted a declaration letter from M/s Galenicum Ecosystem (MA holder) stating the following;

		Vihar Road, Chandivali Andheri Mumbai. Clarification is required regarding that is drug product manufacturer sourcing API from multiple sources or otherwise. What is role of M/s Arch Pharmalabs in processing of drug substance.	*"Please note that the question mentions an API source that was discontinued due to commercial reasons. The API source that must be considered for Caspofungin 50mg and 70mg powder for concentrate for solution for infusion, is TEVA Pharmaceutical Industrial Ltd. (TAPI)"*
5.	3.2.P.5.4	In batch analysis of 2 batches it is stated that API used was manufactured by Teva and for one batch it was manufactured by DSM. The S part is required from all API manufacturers (prequalified suppliers) who's API will be used to manufacture the drug product.	The vide letter no. 26082023/01-RH dated 26.08.2023 has submitted S part of module 3 for drug substance from M/s TEVA Pharmaceutical Industries. Two manufacturing sites are mentioned; TEVA API India and TEVA Hungary. Stability studies data of Indian site is submitted only.

Decision of 331st Meeting of the Board: The Board deferred the case for further clarification regarding free sale status of the applied product in country of origin and registration status in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.

Remarks of Evaluator:
The firm vide letter No. 04032024/02-RH dated 04.03.2024 has requested for change of address to **Ground Floor 6-Judicial Colony, Phase 1 (Ext) Shahrah Nazaria e Pakistan Lahore**. Firm has submitted copy of new DSL along with fee of Rs 7500/- vide slip No. 811303363 and revised Form-5F

The firm vide letter No. 07032024/02-RH dated 07.03.2024 has submitted a legalized COPP having following details;
Issuing Agency: Spanish Agency for Medicines and Medical Devices (AEMPS)
Number of Certificate: 2023/03578
Date of issue: 27.09.2017 (very old)
CSV for verification at link of AEMPS https://localizador.aemps.es : YRFXQA47B1

In submitted certificate, the last page is legalized, rest of the pages are pinned separately so they were not sealed with last page at time of legalization.
Further at page 2 of 6, at serial No. 1.4 in front of statement "***Is this product actually on the market in the exporting country***" word "***YES***" is mentioned.
When the same certificate is verified from online database of AEMPS Spain, word ***"NO"*** is mentioned in front of this statement which indicates tempering of original document to change the word "**NO"** to "**Yes".**

Decision: The Registration Board took serious notice of the matter of submission of document having differen than the one available on official website of AEMPS Spain and deferred the case for submission of clarificatio the firm regarding the difference of text as mentioned.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Adrenaline** Batch No. : IF-AD-181120 Quantity: 500gm Mfg: 11.2020 Exp. 19.11.2021 Invoice No. SIFI 190201-1 Invoice Date: 12.03.2019 Cleared by AD I&E DRAP Karachi on 28.13.2019 **Lignocaine HCl BP** Batch No.: Not mentioned Quantity: 25kg Mfg: Not mentioned Exp. Not mentioned Invoice No. NBEXBD2223000249 Invoice Date: 03.03.2020 Cleared by AD I&E DRAP Karachi on 20.05.2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted. The hand written COA date of October 2017. Manufacturing date is also mentioned as October 2017, but chromatograms are dated as July 2017 and stability testing is also initiated from July 2017.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	-	Copy of section approval (Cartridge or PFS or vial section) is required.	Firm has submitted reply vide letter No. nil dated 24.08.2023 copy of section approval letter No. 2-4/98-Lic(Pt-I) dated 07.06.2022. The firm has Liquid Injection Vial/Amoule (General) section.

			The firm does not have the required section for the applied product (Dental Cartridge)
2.	-	The RRA reference submitted is discontinued. Valid evidence of RRA approval is required.	The applied product is 1.8ml dental cartridge with label of Lignocaine HCl (BP) 36mg & Adrenaline (equivalent to base) 0.018mg. Firm has submitted reference of health Canada approved product having strength of Epinephrine 0.01mg/ml and Lidocaine HCl 20mg/ml Valid RRA reference is not submitted.
3.	-	• AD Attested invoices and clearance documents of both drug substances are required. • GMP certificate and manufacturing authorization of both API manufacturers is required.	Copies of invoices are submitted. Invoices are dated 2019 and 2020 while trial batches were manufactured in 2017. Copies of GMP certificates are submitted.
4.	3.2.P.2	• With Adrenaline words 'equivalent to base' are mentioned, is it being used as a salt in the formulation? The COA and details submitted for drug substance indicate that material used is not a salt and is in base form. Clarification is required why equivalent to base is mentioned when salt is not used. • Also a comparison of applied formulation with innovator is required along with justification of any deviation. (The innovator uses tartrate salt of adrenaline in their formulation) • In comparative analysis of Ph, p-kort Injection is mentioned as reference product where in tabulated data Medicaine Injection is mentioned. • Detailed procedure of drug release profiling test is required. How it was done, in what media it was done and justification is required that why drug is being released in to something upto 50 minutes in a liquid injection formulation. **(the firm has submitted comparison of drug release profile of their product with Medicaine injection over a time period of 50 minutes. Such comparison in liquid injections is not possible and indicate)** • Details of reference product including batch No. mfg date, exp date, manufacturer and pictorial evidence of product is required.	The firm has not submitted clarification of any point. The firm has resubmitted similar data with multiple discrepancies that was initially submitted. Further firm has submitted a copy of invoice of DVAGO Pakistan regarding purchase of Xylocaine injection as reference product from local market. This product cannot be a reference product for a dental cartridge. In all documents submitted, adrenaline base is mentioned, innovator uses tartrate salt of adrenaline.

		• In drug release certificate, Primla Topical cream is mentioned. What is its use in drug release of L-Caine Injection.	
5.	3.2.P.3.5	Refer to SOP No. OPL/PD/SOP-050 titled Operation of cartridge filling machine: Point 17: "*Unload one box of sterilized cartridge in feeding hopper and check the alignment of the needles and neck of the cartridges*" Detailed description of product is required that whether it is a cartridge vial to be used in a dental syringe or is it a pre-filled syringe ready to use?	The firm has not submitted clarification of any point. The firm has resubmitted similar data with multiple discrepancies that was initially submitted.
6.	3.2.P.3.5	In manufacturing details and BMRs it is not mentioned how cartridges will be sterilized, detailed description of manufacturing process is required covering every step. (how are cartridges sterilized, if needle are also used, how are they sterilized and handled?)	The firm has not submitted clarification.
7.	3.2.P.5	In analytical method validation, general procedures and few summary tables are submitted only. Performance data of method validation studies is required for every test being done on drug product.	The firm has submitted copies of calculation sheet and chromatograms. The chromatograms are clearly pasted over page having header of firm as images of chromatograms are stretched to fit the page.
8.	3.2.P.7	In packing material inspection report, why registration No. 029118 is written when its of opth-Cyclovir Ophthalmic Ointment.	No clarification is submitted, again same copy of packing material inspection report having registration No. 029118 is submitted.
9.	3.2.P.8	• Number of units in each trial batch is required along with justification that they are sufficient for all tests conducted during stability studies. • Clear description of drug product is required, including pharmaceutical form, appearance etc. • The manufacturing date and testing as per hand written COA indicate batches were manufactured in October 2017 whereas chromatograms are dated as of July 2017 and stability studies are also mentioned from July 2017. • Further the product record submitted on BMR like sheets indicate manufacturing of batches in June 2020.	The firm has not submitted any clarification. Same old data sheets are submitted in reply.
10.		**General Remarks:** The issues in submitted data, then not providing clarification of any query and resubmitting data full of discrepancies does not support scientifically the manufacturing, testing and performance of stability studies of trial batches.	

Decision of 331st RB: The board discussed and deliberated on the case and decided to defer the case and give a final chance for submission of clear and candid reply against the deficiencies

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	-	Copy of section approval (Cartridge or PFS or vial section) is required.	The firm has submitted revised reply vide letter No. nil dated 07.12.2023. As per submitted reply, **the firm does not have required section for applied product.**
2.	-	The RRA reference submitted is discontinued. Valid evidence of RRA approval is required.	The firm has submitted reference of 2% NUROCAIN DENTAL WITH ADRENALINE 1:100,000 2.2mL injection cartridge, approved in TGA Australia. The formulation is; adrenaline (epinephrine) acid tartrate 18.2 microgram/mL Equivalent: adrenaline (epinephrine) 10 microgram/mL lidocaine hydrochloride monohydrate 21.3 mg/mL Equivalent: lidocaine hydrochloride 20 mg/mL Salt of adrenaline is different than the applied product. As per BMR the firm is using Adrenaline base.
3.	-	• AD Attested invoices and clearance documents of both drug substances are required. • GMP certificate and manufacturing authorization of both API manufacturers is required.	The firm has stated that incorrect invoice was attached by mistake. Their trial batches were manufactured by using Lignocaine HCl imported for their registered product ANSCON Jelly.
4.	3.2.P.2	• With Adrenaline words 'equivalent to base' are mentioned, is it being used as a salt in the formulation? The COA and details submitted for drug substance indicate that material used is not a salt and is in base form. Clarification is required why equivalent to base is mentioned when salt is not used. • Also a comparison of applied formulation with innovator is required along with justification of any deviation. (The innovator uses tartrate salt of adrenaline in their formulation) • In comparative analysis of Ph, p-kort Injection is mentioned as reference product where in tabulated data Medicaine Injection is mentioned. • Detailed procedure of drug release profiling test is required. How it was done, in what media it was done and justification is required	The firm has stated that all these issues are typographic errors.

		that why drug is being released in to something upto 50 minutes in a liquid injection formulation. **(the firm has submitted comparison of drug release profile of their product with Medicaine injection over a time period of 50 minutes. Such comparison in liquid injections is not possible and indicate)** • Details of reference product including batch No. mfg date, exp date, manufacturer and pictorial evidence of product is required. • In drug release certificate, Primla Topical cream is mentioned. What is its use in drug release of L-Caine Injection.	The firm has submitted a copy of invoice dated 16.09.2016 for purchase of 2% Nurocain dental 1 unit only.
5.	3.2.P.3.5	Refer to SOP No. OPL/PD/SOP-050 titled Operation of cartridge filling machine: Point 17: "*Unload one box of sterilized cartridge in feeding hopper and check the alignment of the needles and neck of the cartridges*" Detailed description of product is required that whether it is a cartridge vial to be used in a dental syringe or is it a pre-filled syringe ready to use?	The firm has stated that it was a typographic mistake and copy of revised SOP is submitted.
6.	3.2.P.3.5	In manufacturing details and BMRs it is not mentioned how cartridges will be sterilized, detailed description of manufacturing process is required covering every step. (how are cartridges sterilized, if needle are also used, how are they sterilized and handled?)	The firm has stated that supplied cartridges are sterilized by autoclaving before manufacturing process.
7.	3.2.P.5	In analytical method validation, general procedures and few summary tables are submitted only. Performance data of method validation studies is required for every test being done on drug product.	The firm has submitted performance data od method validation, but chromatograms appear edited.
8.	3.2.P.7	In packing material inspection report, why registration No. 029118 is written when its of opth-Cyclovir Ophthalmic Ointment.	The firm has stated that it was by mistake.
9.	3.2.P.8	• Number of units in each trial batch is required along with justification that they are sufficient for all tests conducted during stability studies. • Clear description of drug product is required, including pharmaceutical form, appearance etc. • The manufacturing date and testing as per hand written COA indicate batches were manufactured in	The firm has stated that batch size is of 1 litre and it produces 500 units. 20 units are required for testing at one time point, from 500 units, testing upto 36 months is possible. In clear description the firm has stated that its "clear colorless solution", again the firm has not informed that it's a vial or cartridge.

		October 2017 whereas chromatograms are dated as of July 2017 and stability studies are also mentioned from July 2017. • Further the product record submitted on BMR like sheets indicate manufacturing of batches in June 2020.	The firm has stated that batches were manufactured in july 2017, the date on COA are typographic error. Copies of detailed BMR are submitted. But again as per BMR, the firm is using adrenaline base in their formulation, and its not clear what will be the container closure system of the product.
10.	**General Remarks:** The reply of the firm is not satisfactory.		

Decision: The board deferred the case for

- **opinion of licensing division for manufacturing of dental cartridges in vial section and**
- **submission of justifiable response to above deficiencies by the firm.**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	A copy of registration letter is submitted where K-Cort 40mg/ml injection is registered vide Reg. No. 034395 having triamcinolone acetonide as its active.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not Submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	-	Copy of section approval (steroid injection vial) is required.	Firm has submitted copy of renewal letter wherein Injection Vial/Ampoule (Steroid) section is mentioned.
2.	-	• AD Attested invoices and clearance documents of both drug substances are required. • GMP certificate and manufacturing authorization of API manufacturer is required.	Clearance certificate or AD attested invoice is not submitted. Copy of GMP certificate is submitted.
3.	3.2.S.4.3	In testing method validation, under heading of detection of impurities of methyl prednisolone, the chromatogram time stamped as 9.01.2020 3:34:38 pm is exactly same as the one given in real time stability studies of batch T-101 acquired for Standard M.kort TB101, TB102, TB103.	No clarification is submitted. Firm has resubmitted documents which were initially submitted in dossier.

		Why your own chromatogram is copy pasted on a paper having letter head of drug substance manufacturer (M/s Farmabios Italy) Actual data of impurity profiling and drug substance analysis by the drug substance manufacturer is required.	
4.	3.2.P.2	• The drug substance is tested on 05.09.2021 and batches are manufactured in 2020. • What is use of finished drug product in comparative analysis of calibration curve? Why a calibration curve generated by using test product and reference product? How assay values of finished products are ranged from 0 to 203.72? • A figure of drug release profile comparison is submitted. Detailed procedure and media used for drug release profile comparison is required. • Details of reference product including batch No. mfg date, exp date, manufacturer and pictorial evidence of product is required.	No clarification is submitted regarding any point only a copy of invoice of purchase of Depo Medrol Injection dated 07.09.2019 is submitted.
5.	3.2.P.2	As per drug release certificate, following tests are not performed; i. Uniformity of dosage units ii. Particle size iii. Sterility iv. BET v. Assay Why drug release is mentioned in drug release certificate with range of 75%-133%, and result of your product is 112%. The assay range as per USP is 90%-110%, your product is out of specs if its assay value.	No clarification is submitted. Firm has again submitted same Drug Release Certificate with Drug release value of 75%-133%. It is not clarified how drug release will be assessed. This test is also not mentioned in USP monograph of the product.
6.	3.2.P.3.5	Why batch numbers are same as that of product L-Caine? Why unique batch numbers are not allotted to each product?	No justification is provided. All documents are resubmitted by addition of suffix –MK by hand in batch numbers.
7.	3.2.P.5	The analytical methods (assay and other tests) are totally different from USP. The solvent system, method of preparation of sample, column etc are all different. The assay range is between 90-115%, pH range is between 3.0-7.5, In USP these ranges are 90-110% and 3.0-7.0. Why USP monograph is not followed.	No clarification is submitted. Revised specs and testing method as per USP us submitted. Performance data is not submitted.
8.	3.2.P.8	• Clear description of drug product is required, including pharmaceutical form, appearance etc.	Description of container closure system is submitted. No clarification is submitted for difference of pH values. New sheets with initial pH

		• The initial pH of Batch T-101 in real time studies is 5.8 and in accelerated is 4.1, why this value is different? Is there such large pH variation between vials of same batch? Similar issue is observed in stability summary sheets of batches T-102 and T-103. And pH values are exactly same for every batch, are they copy pasted on summary sheets? • The assay values on accelerated and real time stability sheets are totally same, it indicates that these are also copy pasted and not based on performed tests.	value of 5.6 are submitted. This value is again completely different from previously submitted data.
9.		**General Remarks:** The issues in submitted data, then not providing clarification of any query and resubmitting data full of discrepancies does not support scientifically the manufacturing, testing and performance of stability studies of trial batches.	

Decision of 331st meeting of RB: The board discussed and deliberated on the case and decided to defer the case to give a final chance for submission of clear and candid reply against the deficiencies.

Sr. No.	Section	Observation	Reply by the firm
1.	-	Copy of section approval (steroid injection vial) is required.	The firm vide letter No. nil dated 30.11.2023 has submitted revised reply. Copy of section approval letter No. 2-4/98-Lic(Pt-I) dated 07.06.2022 I submitted wherein Injection vial/ampoule (steroid) section is mentioned.
2.	-	• AD Attested invoices and clearance documents of both drug substances are required. • GMP certificate and manufacturing authorization of API manufacturer is required.	Copy of GMP certificate is submitted. Copies of invoices are submitted but are not attested by AD I&E. It is submitted that material was received through DHL.
3.	3.2.S.4.3	In testing method validation, under heading of detection of impurities of methyl prednisolone, the chromatogram time stamped as 9.01.2020 3:34:38 pm is exactly same as the one given in real time stability studies of batch T-101 acquired for Standard M.kort TB101, TB102, TB103. Why your own chromatogram is copy pasted on a paper having letter head of drug substance manufacturer (M/s Farmabios Italy) Actual data of impurity profiling and drug substance analysis by the drug substance manufacturer is required.	The firm has stated that *"During making copy of documents printer take multiple pages and printed the content of pages on one page. That is why data of one page printed on other page"* Validation data of method of analysis done by drug substance manufacturer is submitted.
4.	3.2.P.2	• The drug substance is tested on 05.09.2021 and batches are manufactured in 2020. • What is use of finished drug product in comparative analysis of	The firm has stated that drug substance was purchased in September 2019. Similar material was again purchased in 2021 and by mistake its COA was enclosed.

		calibration curve? Why a calibration curve generated by using test product and reference product? How assay values of finished products are ranged from 0 to 203.72? • A figure of drug release profile comparison is submitted. Detailed procedure and media used for drug release profile comparison is required. • Details of reference product including batch No. mfg date, exp date, manufacturer and pictorial evidence of product is required.	The firm has stated that new updated test reports for drug release are attached in dossier. Copy of invoice for purchase of ten units of Depo Medrol Injection, dated 07.09.2019 is submitted.
5.	3.2.P.2	As per drug release certificate, following tests are not performed; i. Uniformity of dosage units ii. Particle size iii. Sterility iv. BET v. Assay Why drug release is mentioned in drug release certificate with range of 75%-133%, and result of your product is 112%. The assay range as per USP is 90%-110%, your product is out of specs if its assay value.	Updated product analysis report is submitted.
6.	3.2.P.3.5	Why batch numbers are same as that of product L-Caine? Why unique batch numbers are not allotted to each product?	
7.	3.2.P.5	The analytical methods (assay and other tests) are totally different from USP. The solvent system, method of preparation of sample, column etc are all different. The assay range is between 90-115%, pH range is between 3.0-7.5, In USP these ranges are 90-110% and 3.0-7.0. Why USP monograph is not followed.	The firm has stated that they have updated analytical methods as per USP. Corrected documents with same old date (i.e. 10-2017) are again submitted. Indicating changing of document content without properly following principles of QMS.
8.	3.2.P.8	• Clear description of drug product is required, including pharmaceutical form, appearance etc. • The initial pH of Batch T-101 in real time studies is 5.8 and in accelerated is 4.1, why this value is different? Is there such large pH variation between vials of same batch? Similar issue is observed in stability summary sheets of batches T-102 and T-103. And pH values are exactly same for every batch, are they copy pasted on summary sheets? • The assay values on accelerated and real time stability sheets are totally	Container closure system is mentioned as 1ml glass vial. The firm has stated that the typist did this by mistake, the typist did not compile the real data of the analysis.

		same, it indicates that these are also copy pasted and not based on performed tests.	
9.		**General Remarks:** The chromatograms submitted with the reply appear edit. The reply of the firm is not satisfactory.	

Decision: The board deferred the case for submission of candid and justifiable response by the firm for mentioned observations.

1773.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s. Ophth Pharma (Pvt.) Ltd. Plot No. 241, Sector 24, Korangi Industrial Area, Karachi.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	A copy of registration letter is submitted where K-Cort 40mg/ml injection is registered vide Reg. No. 034395 having triamcinolone acetonide as its active.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not Submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	-	Copy of section approval (steroid injection vial) is required.
2.	-	The RRA reference mentioned is discontinued. Valid RRA reference is required.
3.	-	• AD Attested invoices and clearance documents of both drug substances are required. • Valid GMP certificate and manufacturing authorization of API manufacturer issued by relevant regulatory body is required.
4.	3.2.S.4.3	In testing method validation, under heading of detection of impurities of prednisolone, the chromatogram time stamped as 1.2.2019 12:33:56 pm is exactly same as the one given in real time stability studies of batch T-101 acquired for Standard P. kort TB101, TB102, TB103. Why your own chromatogram is copy pasted on a paper having letter head of drug substance manufacturer (M/s Farmabios Italy) whose raw material is not even used in this drug product. Actual data of impurity profiling and drug substance analysis by the drug substance manufacturer is required.
5.	3.2.P.2	• What is use of finished drug product in comparative analysis of calibration curve? Why a calibration curve generated by using test product and reference product? • A figure of drug release profile comparison is submitted. Detailed procedure and media used for drug release profile comparison is required. • Details of reference product including batch No. mfg date, exp date, manufacturer and pictorial evidence of product is required.
6.	3.2.P.2	As per drug release certificate, following tests are not performed; i. Uniformity of dosage units

		ii. Particle size iii. Sterility iv. BET v. Assay Why drug release is mentioned in drug release certificate? Justify
7.	3.2.P.3.5	Why batch numbers are same as that of product L-Caine and M-kort? Why unique batch numbers are not allotted to each product?
8.	3.2.P.5	The analytical methods (assay and other tests) are totally different from USP. The solvent system, method of preparation of sample, column etc are all different. Justify why USP monograph is not followed.
9.	3.2.P.8	• Clear description of drug product is required, including pharmaceutical form, appearance etc. • The values of pH measured on different time points for all three trial batches are same. Justification is required. • Accelerated stability data is not submitted.
10.		**General Remarks:** The discrepancies in submitted data does not support scientifically the manufacturing, testing and performance of stability studies of trial batches.

Decision of 331st RB: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings.

Sr. No.	Section	Observation	Reply
1.	-	Copy of section approval (steroid injection vial) is required.	The firm has submitted their response vide letter No. nil dated 18.12.2023 Copy of section approval letter No. 2-4/98-Lic(Pt-I) dated 07.06.2022 I submitted wherein Injection vial/ampoule (steroid) section is mentioned.
2.	-	The RRA reference mentioned is discontinued. Valid RRA reference is required.	Firm has not submitted valid RRA reference. Reference of product of M/s DMS Chemical Pharmaceutical Inc Ltd Shanghai China is submitted.
3.	-	• AD Attested invoices and clearance documents of both drug substances are required. • Valid GMP certificate and manufacturing authorization of API manufacturer issued by relevant regulatory body is required.	Copy of invoice No. XJWH181002OPLPK dated 02.10.2018 attested by AD I & E DRAP Karachi on 23.10.2018 is submitted. Copy of GMP certificate of M/s Zhejiang Xianju Taizhou Zhejiang China is submitted.
4.	3.2.S.4.3	In testing method validation, under heading of detection of impurities of prednisolone, the chromatogram time stamped as 1.2.2019 12:33:56 pm is exactly same as the one given in real time stability studies of batch T-101 acquired for Standard P. kort TB101, TB102, TB103. Why your own chromatogram is copy pasted on a paper having letter head of drug substance manufacturer (M/s Farmabios Italy) whose raw material is not even used in this drug product.	The firm has stated that *"During making copy of documents printer take multiple pages and printed the content of pages on one page. That is why data of one page printed on other page"*

		Actual data of impurity profiling and drug substance analysis by the drug substance manufacturer is required.	
5.	3.2.P.2	• What is use of finished drug product in comparative analysis of calibration curve? Why a calibration curve generated by using test product and reference product? • A figure of drug release profile comparison is submitted. Detailed procedure and media used for drug release profile comparison is required. • Details of reference product including batch No. mfg date, exp date, manufacturer and pictorial evidence of product is required.	**No response is submitted for first 2 points in 3.2.P.2** The firm has submitted copy of invoice of product Prednisolone Deltalab injection Imported 5 ampoules. Purchased from kausar medico Karachi.
6.	3.2.P.2	As per drug release certificate, following tests are not performed; i. Uniformity of dosage units ii. Particle size iii. Sterility iv. BET v. Assay Why drug release is mentioned in drug release certificate? Justify	The firm has stated that "The reference product and the drug product in pharmaceutical equivalence has been tested as per USP monograph. The drug release certificate include all the tests included uin USP monograph. Copy of USP monograph is attached as reference.".
7.	3.2.P.3.5	Why batch numbers are same as that of product L-Caine and M-kort? Why unique batch numbers are not allotted to each product?	The firm has stated that they have corrected the batch numbers.
8.	3.2.P.5	The analytical methods (assay and other tests) are totally different from USP. The solvent system, method of preparation of sample, column etc are all different. Justify why USP monograph is not followed.	The firm has stated that they have updated the method of analysis as per USP monograph. The chromatograms submitted again appear edited and copy pasted.
9.	3.2.P.8	• Clear description of drug product is required, including pharmaceutical form, appearance etc. • The values of pH measured on different time points for all three trial batches are same. Justification is required. • Accelerated stability data is not submitted.	The firm has stated that product is made of 1ml printed glass vail packed in printed unit carton. The firm has state that, *"During compilation of CTD by mistake the pH of the drug product was forgotten to set the entries according to the analytical reports of the drug product"*
10.		**General Remarks:** The chromatograms submitted with the reply appear edit. The reply of the firm is not satisfactory.	

Decision: The board deferred the case for submission of candid and justifiable response by the firm for mentioned observations.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of License to manufacture drugs for the purpose of examination test and analysis is submitted, valid till three years from 2.07.2020
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Upadacitinib** Batch No.: UDT/21/0017/172/03 Mfg date: 06.2021 Exp date: 06.2022 Quantity: 236 grams Invoice No.: - Invoice date: 23.08.2021 Cleared by AD I&E Karachi.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	-	GMP certificate of drug substance is not submitted. Further the copy of License of drug substance manufacturer mentions that it's for manufacturing of drugs for the purpose of examination, test and analysis. Does drug substance manufacturer not hold license to manufacture upadacitinib for commercial use ?	The firm vide letter No. RAQR/ 447/1023 dated 18.10.2023 has stated that M/s Mankind is R&D facility of Shree Jee Laboratories Pvt. Ltd. The commercial manufacturing of APIs, developed by M/s Mankind will be carried out at M/s Shree Jee Laboratories Pvt. Ltd. Located at C-24 & 25, RIICO Industrial Area, Sotanala, Behror district, Alwar, Rajasthan. India The firm has submitted copy of valid GMP certificate of M/s Shree Jee Laboratories Pvt. Ltd. India.

Decision of 331st meeting of the RB: The Board deferred the case for resubmission of complete data of stability and Product development based on data of batches manufactured by using drug substance from GMP certified source, which can be used in commercial batches, along with fee for registration of new drug product.

The firm M/s Getz Pharma (Pvt) Ltd. has submitted their response vide letter No. RA-PV/559/1223 dated 28.12.2023 in compliance to the decision of 331st meeting of the Registration board. The firm has submitted revised Module 3. The details are given below;

Fee and Date of Submission of Reply	Dy No. 108 dated 01.01.2024. Fee Rs. 75000/- submitted vide slip No. 642856928782 dated 29.12.2023
Name and address of API manufacturer.	M/s Jiangxi LongLife Bio-Pharmaceutical Co. Ltd. 198 Industrial Avenue, Jinxian Industrial Park, Nanchang, Jiangxi China.
Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. Z835-13-220801
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 18 months. Batch No. TP-20200423-D01-TP05-01, TP-20200423-D01-TP05-02, TP-20200423-D01-TP05-03
Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Upadaget ER Tablets 15mg Batch No. 059DS03 Mfg. 11.04.2023 Exp. 11.04.2025 **Reference product:** Rinvoq Tablets 15mg, Batch No. 1171955. mfg.: 22.03.2022, Exp. 22.05.2025 manufactured by M/s AbbVie, Ireland. Pictorial evidence is submitted. **Tests done**: physical characteristics, Hardness, average weight, Identification, Assay, dissolution, uniformity of dosage unit, total impurities. **CDP:** **At pH 1.2**: F2 = 63 **At pH 4.5:** F2 = 67 **At pH 6.8:** F2 = 64 The dissolution profile of both test and reference product are comparable in 3 above mentioned simulated physiological buffer systems.
Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA	
Manufacturer of API	M/s Jiangxi LongLife Bio-Pharmaceutical Co. Ltd. 198 Industrial Avenue, Jinxian Industrial Park, Nanchang, Jiangxi China.
API Lot No.	Z835-13-220801
Description of Pack (Container closure system)	Alu-Alu blister packed in a unit carton.

Stability Storage Condition	Real time: 30˚C ± 2˚C / 75% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	059DS04	059DS03	-
Batch Size	5000 Tablets	5000 Tablets	-
Manufacturing Date	11.04.2023	11.04.2023	-
Date of Initiation	20.04.2023	20.04.2023	-
No. of Batches	02		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of license No. Gan20200011 dated 02.04.2022 valid till 06.09.2025, issued by Jiangxi Drug Administration China is submitted.
3	Documents for the procurement of API with approval from DRAP (in case of import).	**Upadacitinib hemihydrate** Batch No.: Z835-13-220801 Mfg date: 26.12.22 Exp date: 25.12.24 Quantity: 300grams Invoice No.: 23ATGZ011-012 Invoice date: 23.03.2023 Cleared by AD I&E Karachi.
4	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Decision: Approved.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

1775.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Pearl Pharmaceuticals Plot No. 204, St. No. 1, I-10/3, Islamabad**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New Section
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. 3-26/2019-Addl. Dir (QA&LT-I)-56 dated 22.08.2022 issued by DRAP Islamabad is submitted. Valid till 13.06.2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	NA Locally purchased from M/s Vision Pharma
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	3.2.S.6 & 3.2.S.7	In container closure system of drug substance, it mentioned that it is of Aluminium. In stability studies summary sheets, glass vial with rubber stopper and aluminium seal is mentioned. Clarify this difference between container closure system of drug substance.
2.	3.2.S.5	Why test of liquid particle count neither included in specifications of drug product nor performed on finished drug product? justify
3.	3.2.P.8	Stability studies data of only 3 months is submitted, complete stability studies data of 6 months is required.

Decision of 331st RB: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.S.6 & 3.2.S.7	In container closure system of drug substance, it mentioned that it is of Aluminium. In stability studies summary sheets, glass vial with rubber stopper and aluminium seal is mentioned. Clarify this difference between container closure system of drug substance.	The firm vide letter No. nil dated 13.12.2023 has provided response of drug substance manufacturer i.e. M/s Vision Pharmaceuticals. The drug substance manufacturer has submitted following statement; *"We have used glass vial as primary container for stability study, instead of aluminium container as specified in section 3.2.S.6 (container Closure System), to verify its long term behaviour in final fill container. Retained samples of each lot kept in aluminium container."*
2.	3.2.S.5	Why test of liquid particle count neither included in specifications of drug product nor performed on finished drug product? justify	The firm vide letter No. nil dated 13.12.2023 has stated that they have performed liquid particle count test on drug substance, as it is only ready to fill. The firm has further stated that from now on they will perform this test on finished product regularly. Report of latest test is attached.

3.	3.2.P.8	Stability studies data of only 3 months is submitted, complete stability studies data of 6 months is required.	6th Month stability data is provided.

Decision: Approved.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

1776.	Name, address of Applicant / Marketing Authorization Holder	M/S Herbion Pakistan Pvt Ltd Islamabad.

	Name and address of API manufacturer.	**Sacubitril & Valsartan:** Zhejiang Tianyu Pharmaceutical Co., Ltd. Address No.15, Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone, Taizhou City, Zhejiang Province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	**Sacubitril sodium:** Official monograph of sacubitril sodium does not exist so firm has followed in house specifications. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity SCB-4-Imp-1, SCB-5-Imp-2, SCB-5-I Sodium (chiral isomer, SCB-5-II Sodium (chiral isomer SCB-5-III Sodium (chiral isomer) specifications, analytical procedures and its validation , batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance **Valsartan:** Official monograph of valsartan exists in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity Valsartan Related Compound A: Not more than (NMT) 1.0% Valsartan Related Compound B: Not more than (NMT) 0.2% Valsartan Related Compound C: Not more than (NMT) 0.1% Any other individual impurity: Not more than (NMT) 0.1% Total impurities: Not more than (NMT) 0.3%, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	**Sacubitril Sodium:** Stability study conditions (Zone IVb). Real time: 30˚C ± 2˚C / 75% ± 5%RH for 24

		months 0, 3, 6, 9, 12, 18, 24 months. Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months at 0, 1, 2, 3, 6 months Batches: (13700-181001, 13700 -181002, 13700-181003) **Valsartan:** Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months 0, 3, 6, 9, 12, 18, 24, 36 months. Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months. Batches: (201207301, 201207302, 201207303)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Savesto 50mg tablet of Getz Pharma, Karachi by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is Savesto 50 mg tablet, batch No. 007FB2 by Getz Pharma in Acid media (pH 1.0-1.2), Acetate buffer (PH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	**Sacubitril Sodium:** Method validation studies including linearity, range, accuracy, precision, intermediate precision, repeatability, robustness, specificity, LOD and LOQ. **Valsartan:** Verification studies for valsartan including Linearity, range, accuracy, precision (repeatability) and specificity along with chromatograms and raw data sheets submitted.

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 201904044 issued by Zhejiang Medicine Center for Economic Development valid till 02/06/2022. Scope of inspection include (Sacubitril Sodium Valsartan).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. TY121266 dated 19-03-2021 for import of 1.6kg Sacubitril Sodium and 1.7kg Valsartan USP from Zhejiang Tianyu Pharmaceutical Co., Ltd. Jiangkou Development Zone Huangyan Taizhou, Zhejiang, China, attested by AD (I & E), DRAP Islamabad.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Submitted

Remarks of Evaluator:-(PEC-XVII)

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.S.4.4	Peak areas given for replicates 2-5 of standard injections for assay determination of Sacubitril sodium are different than those mentioned in corresponding chromatograms (sample information).	Revised calculation sheet submitted vide letter No. HB/0039/DRAP/PEC/23
2.		The assay calculation formula as given in the analytical procedure by the drug product manufacturer is different than that given in analytical method validation protocol/data of the drug product manufacturer. Moreover, the assay calculation formula as mentioned in the analytical method of the drug substance manufacturer and that given	Corrected formula submitted vide letter No. HB/0039/DRAP/PEC/23

		in the analytical method of the drug product manufacture are not the same.	
3.	3.2.P.2.2.1	In the procedure for CDP, the time point for sample withdrawal mentioned as 45 minutes, while in dissolution parameters for CDP and raw data sheets, the time points mentioned as 10, 15, 20, 30, 45 and 60 minutes.	Firm has stated that it was a mistake and has submitted correct report vide letter No. HB/0039/DRAP/PEC/23
4.	3.2.P.5.2	Wavelength mentioned as 267nm under chromatographic conditions, however, as per reference/innovator's product dissolution method/parameters, the detection wavelength (HPLC/UV) given as 255 nm.	Firm has stated that it is their in-house method and is validated.
5.		The flow rate in analytical method of drug product given as 1ml/min however, in method validation protocol for the drug product the flow rate given as 0.8ml/min.	Firm has stated that it is a typographic error and has been corrected to 0.8ml/min.
6.		As per various documents such as CoA of APIs from substance manufacturer and drug product manufacturer, import invoice, AD (I & E) clearance certificate, product development data, trial batch manufacturing record and separate stability summary data sheets for Sacubitril sodium and Valsartan by the drug substance manufacturer reflect that Sacubitril sodium and Valsartan used as separate materials, while the innovator product is designed as a combination of sacubitril and valsartan in a co-crystal, is a salt complex comprising LCZ696 (Sacubitril/Valsartan anionic moieties), sodium cations, and water molecules. Please justify how the applied formulation is in line with innovator's product.	**The firm has stated that they have developed product 'Estresto tablet' with claims as Sacubitril/Valsartan 24mg/26 mg, Sacubitril/Valsartan 49mg/51mg and Sacubitril/Valsartan 97mg/103 mg.** **This happened only because of availability of Raw materials at the time of development which was the peak era of Covid-19 and there were lot of issues in importing raw materials.** **Now their R&D team has started product development using Sacubitril valsartan complex, its trial batch is under development please** **They will also share the initial data as it will be charged on stability** **Form 6 of Sacubitril valsartan complex is also provided.**
7.		Most recent GMP compliance inspection report conducted within last three years.	Firm has submitted GMP certificate valid till 03.07.2024

Decision of 324th RB meeting: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Remarks of Evaluator: The firm has submitted reply in compliance to decision of 324th meeting of RB but they will require more time to submit stability data of batches manufactured from Sacubitril valsartan complex. The firm has submitted initial data in which product is placed on stability in July 2023.

Decision of 330th RB meeting: Keeping in view the request of the firm, the Registration Board further extended time for submission of shortcomings within a period of 6 months of finalization of minutes of this meeting.

Remarks of Evaluator;

The firm vide letter No. HB/007/DRAP/PEC/24 dated 22.01.2024 has submitted revised information in compliance to decision of 330th meeting of the Registration Board along with new fee. The evaluation of submitted data is given below;

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system

		and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. 12211-221202
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. Batch No. 12200-180402, 12200-180403, 12200-180404
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	**Test product:** Estresto 50mg Tablets, batch No. ST-004, Mfg 05.2023, exp 05.2025. **Reference product:** Savesto 50mg Tablets, Batch No. 068FB2, manufactured by M/s Getz Pharma Pakistan. **Tests done:** Description, identification, DT, Assay, Dissolution, Impurities. **CDP:** **F2 at pH 1.2:** 73.21, 86.22 **F2 at pH 4.5:** 88.63, 72.94 **F2 at pH 6.8:** 73.61, 91.84
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA	
Manufacturer of API	M/s Zhejiang Tianyu Pharmaceutical Co., Ltd. China.
API Lot No.	12211-221202
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH

	Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	EST-50-ST-004	EST-50-ST-005	EST-50-ST-006
Batch Size	1000 tab	1000 tab	1000 tab
Manufacturing Date	05.2023	05.2023	05.2023
Date of Initiation	14.07.2023	14.07.2023	14.07.2023
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of license No. Zhe 20050431 dated 17.06.2020 valid till 16.06.2025 issued by FDA Zhejiang China is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Valsartan-Sacubitril Sodium** **Batch No.:** 12211-221202 **Mfg Date:** 22.12.2022 **Quantity:** 3.5Kg **Invoice No.:** 20230320-1 **Invoice Date:** 20.03.2023 **Cleared by:** AD I&E DRAP Islamabad.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Submitted

Decision: Approved.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

1777.	Name, address of Applicant / Marketing Authorization Holder	M/S Herbion Pakistan Pvt Ltd Islamabad.
	Name, address of Manufacturing site.	M/s Herbion Pakistan Pvt Ltd Industrial Triangle Kahuta road, Islamabad. (DML No. 000795)
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1306-R & I, Dated 14/01/2022
	Details of fee submitted	PKR 30,000/- vide online deposit slip No.6954377589 Dated 27/12/2021
	The proposed proprietary name / brand name	Estresto 100 mg tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Sacubitril ---------- 48.6 mg Valsartan ----------51.4 mg
	Pharmaceutical form of applied drug	Oval shaped, pale-yellow colored, film coated tablet, plain on both sides.
	Pharmacotherapeutic Group of (API)	Sacubitril, a neprilysin inhibitor, and valsartan, an angiotensin II receptor blocker indicated: to reduce the risk of cardiovascular death and hospitalization for heart failure in patients with chronic heart failure (NYHA Class II-IV) and reduced ejection frac
	Reference to Finished product specifications	As per Innovator's specifications
	Proposed Pack size	1* 14's (14's) 2*14's (28's)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Entresto tablets 100 mg Novartis Pharmaceuticals (FDA Approved)
	For generic drugs (me-too status)	Savesto 49/51mg tablet of M/s Getz Parma, Karachi. Registration No.093111
	GMP status of the Finished product manufacturer	Most recent GMP inspection report conducted within last three years required.
	Name and address of API manufacturer.	**Sacubitril Sodium & Valsartan:** Zhejiang Tianyu Pharmaceutical Co., Ltd. Address No.15, Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone, Taizhou City, Zhejiang Province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	**Sacubitril sodium:** Official monograph of sacubitril sodium does not exist so firm has followed in

		house specifications. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity SCB-4-Imp-1, SCB-5-Imp-2, SCB-5-I Sodium (chiral isomer, SCB-5-II Sodium (chiral isomer SCB-5-III Sodium (chiral isomer) specifications, analytical procedures and its validation , batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance **Valsartan:** Official monograph of valsartan exists in USP. The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity Valsartan Related Compound A: Not more than (NMT) 1.0% Valsartan Related Compound B: Not more than (NMT) 0.2% Valsartan Related Compound C: Not more than (NMT) 0.1% Any other individual impurity: Not more than (NMT) 0.1% Total impurities: Not more than (NMT) 0.3%, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	**Sacubitril Sodium:** Stability study conditions (Zone IVb). Real time: 30˚C ± 2˚C / 75% ± 5%RH for 24 months 0, 3, 6, 9, 12, 18, 24 months. Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months at 0, 1, 2, 3, 6 months Batches: (13700-181001, 13700 -181002, 13700-181003) **Valsartan:** Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months 0, 3, 6, 9, 12, 18, 24, 36 months. Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months. Batches: (201207301, 201207302, 201207303)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical

		procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against Uperio 100mg tablet (Batch No. TAY84) of Novartis Pharma (Pakistan), Karachi by performing quality tests (Identification, Assay, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand in Acid media (pH 1.0-1.2), Acetate buffer (PH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	**Sacubitril Sodium:** Method validation studies including linearity, range, accuracy, precision, intermediate precision, repeatability, robustness, specificity, LOD and LOQ. **Valsartan:** Verification studies for valsartan including Linearity, range, accuracy, precision (repeatability) and specificity along with chromatograms and raw data sheets submitted.

STABILITY STUDY DATA			
Manufacturer of API	Zhejiang Tianyu Pharmaceutical Co., Ltd. China.		
API Lot No.	Sacubitril Sodium (222920-210103) & Valsartan (10252-210201)		
Description of Pack (Container closure system)	Alu-Alu blister packed in unit carton (1×14's) (2×14's)

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	EST-100-ST-001	EST-100-ST-002	EST-100-ST-003
Batch Size	1000 tab	1000 tab	1000 tab
Manufacturing Date	07-2021	07-2021	07-2021
Date of Initiation	3-08-2021	3-08-2021	3-8-2021
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 201904044 issued by Zhejiang Medicine Center for Economic Development valid till 02/06/2022. Scope of inspection include (Sacubitril Sodium Valsartan).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. TY121266 dated 19-03-2021 for import of 1.6kg Sacubitril Sodium and 1.7kg Valsartan USP from Zhejiang Tianyu Pharmaceutical Co., Ltd. Jiangkou Development Zone Huangyan Taizhou, Zhejiang, China, attested by AD (I & E), DRAP Islamabad.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:-(PEC-XVII)

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.S.4.4	Peak areas given for replicates 2-5 of standard injections for assay determination of Sacubitril sodium are different than those mentioned in corresponding chromatograms (sample information).	Revised calculation sheet submitted vide letter No. HB/0039/DRAP/PEC/23
2.		The assay calculation formula as given in the analytical procedure by the drug product manufacturer is different than that given in analytical method validation protocol/data of the drug product manufacturer. Moreover, the assay calculation formula as mentioned in the analytical method of the drug substance manufacturer and that given in the analytical method of the drug product manufacture are not the same.	Corrected formula submitted vide letter No. HB/0039/DRAP/PEC/23
3.	3.2.P.2.2.1	In the procedure for CDP, the time point for sample withdrawal mentioned as 45 minutes, while in dissolution parameters for CDP and raw data sheets, the time points mentioned as 10, 15, 20, 30, 45 and 60 minutes.	Firm has stated that it was a mistake and has submitted correct report vide letter No. HB/0039/DRAP/PEC/23
4.	3.2.P.5.2	Wavelength mentioned as 267nm under chromatographic conditions, however, as per reference/innovator's product dissolution method/parameters, the detection wavelength (HPLC/UV) given as 255 nm.	Firm has stated that it is their in-house method and is validated.
5.		The flow rate in analytical method of drug product given as 1ml/min however, in method validation protocol for the drug product the flow rate given as 0.8ml/min.	Firm has stated that it is a typographic error and has been corrected to 0.8ml/min.

6.		As per various documents such as CoA of APIs from substance manufacturer and drug product manufacturer, import invoice, AD (I & E) clearance certificate, product development data, trial batch manufacturing record and separate stability summary data sheets for Sacubitril sodium and Valsartan by the drug substance manufacturer reflect that Sacubitril sodium and Valsartan used as separate materials, while the innovator product is designed as a combination of sacubitril and valsartan in a co-crystal, is a salt complex comprising LCZ696 (Sacubitril/Valsartan anionic moieties), sodium cations, and water molecules. Please justify how the applied formulation is in line with innovator's product.	**The firm has stated that they have developed product 'Estresto tablet' with claims as Sacubitril/Valsartan 24mg/26 mg, Sacubitril/Valsartan 49mg/51mg and Sacubitril/Valsartan 97mg/103 mg.** **This happened only because of availability of Raw materials at the time of development which was the peak era of Covid-19 and there were lot of issues in importing raw materials.** **Now their R&D team has started product development using Sacubitril valsartan complex, its trial batch is under development please** **They will also share the initial data as it will be charged on stability** **Form 6 of Sacubitril valsartan complex is also provided.**
7.		Most recent GMP compliance inspection report conducted within last three years.	Firm has submitted GMP certificate valid till 03.07.2024

Decision of 324th RB meeting: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Remarks of Evaluator: The firm has submitted reply in compliance to decision of 324th meeting of RB but they will require more time to submit stability data of batches manufactured from Sacubitril valsartan complex. The firm has submitted initial data in which product is placed on stability in July 2023.

Decision of 330th RB meeting: Keeping in view the request of the firm, the Registration Board further extended time for submission of shortcomings within a period of 6 months of finalization of minutes of this meeting.

Remarks of Evaluator;

The firm vide letter No. HB/007/DRAP/PEC/24 dated 22.01.2024 has submitted revised information in compliance to decision of 330th meeting of the Registration Board along with new fee. The evaluation of submitted data is given below;

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 201904044 issued by Zhejiang Medicine Center for Economic Development valid till 02/06/2022. Scope of inspection include (Sacubitril Sodium Valsartan).
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. TY121266 dated 19-03-2021 for import of 1.6kg Sacubitril Sodium and 1.7kg Valsartan USP from Zhejiang Tianyu Pharmaceutical Co., Ltd. Jiangkou Development Zone Huangyan Taizhou,

		Zhejiang, China, attested by AD (I & E), DRAP Islamabad.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:-(PEC-XVII)

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.S.4.4	Peak areas given for replicates 2-5 of standard injections for assay determination of Sacubitril sodium are different than those mentioned in corresponding chromatograms (sample information).	Revised calculation sheet submitted vide letter No. HB/0039/DRAP/PEC/23
2.		The assay calculation formula as given in the analytical procedure by the drug product manufacturer is different than that given in analytical method validation protocol/data of the drug product manufacturer. Moreover, the assay calculation formula as mentioned in the analytical method of the drug substance manufacturer and that given in the analytical method of the drug product manufacture are not the same.	Corrected formula submitted vide letter No. HB/0039/DRAP/PEC/23
3.		The run time for Valsartan USP given as 40 minutes in analytical method by the drug substance manufacturer, while the chromatograms for method verification data showed run time around 15-20 minutes. Moreover, retention time of valsartan in method verification chromatograms/data is about 5.5 minutes while the chromatograms for assay determination of valsartan (Batch No.10252-210201) has Retention time of 13.1 minutes.	Firm has stated vide letter No. HB/0039/DRAP/PEC/23 dated 22.06.2023 that analysis was performed according to USP; drug substance manufacturer method claims 40 minutes but USP does not recommend 40 minutes The standard retention time in verification studies is 5.5 minutes updated analysis is attached having same retention time i.e. 5.5 minutes While previous submitted analysis having 13.1 retention time was due to human error & instrumental error. Although both reports having same and satisfactory results.
4.	3.2.P.2.2.1	In the procedure for CDP, the time point for sample withdrawal mentioned as 45 minutes, while in dissolution parameters for CDP and raw data sheets, the time points mentioned as 10, 15, 20, 30, 45 and 60 minutes.	Firm has stated that it's a typographic error and has been corrected

4.	3.2.P.5.2	Wavelength mentioned as 267nm under chromatographic conditions, however, as per reference/innovator's product dissolution method/parameters, the detection wavelength (HPLC/UV) given as 255 nm.	Firm has stated that it is their in-house method and is validated.
5.		The flow rate in analytical method of drug product given as 1ml/min however, in method validation protocol for the drug product the flow rate given as 0.8ml/min.	Firm has stated that it is a typographic error and has been corrected to 0.8ml/min.
6.		As per various documents such as CoA of APIs from substance manufacturer and drug product manufacturer, import invoice, AD (I & E) clearance certificate, product development data, trial batch manufacturing record and separate stability summary data sheets for Sacubitril sodium and Valsartan by the drug substance manufacturer reflect that Sacubitril sodium and Valsartan used as separate materials, while the innovator product is designed as a combination of sacubitril and valsartan in a co-crystal, is a salt complex comprising LCZ696 (Sacubitril/Valsartan anionic moieties), sodium cations, and water molecules. Please justify how the applied formulation is in line with innovator's product.	**The firm has stated that they have developed product 'Estresto tablet' with claims as Sacubitril/Valsartan 24mg/26 mg, Sacubitril/Valsartan 49mg/51mg and Sacubitril/Valsartan 97mg/103 mg.** **This happened only because of availability of Raw materials at the time of development which was the peak era of Covid-19 and there were lot of issues in importing raw materials.** **Now their R&D team has started product development using Sacubitril valsartan complex, its trial batch is under development please** **They will also share the initial data as it will be charged on stability** **Form 6 of Sacubitril valsartan complex is also provided.**
7.		Most recent GMP compliance inspection report conducted within last three years.	Firm has submitted GMP certificate valid till 03.07.2024

Decision of 324th RB meeting: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Remarks of Evaluator: The firm has submitted reply in compliance to decision of 324th meeting of RB but they will require more time to submit stability data of batches manufactured from Sacubitril valsartan complex. The firm has submitted initial data in which product is placed on stability in July 2023.

Decision of 330th RB: Keeping in view the request of the firm, the Registration Board further extended time for submission of shortcomings within a period of 6 months of finalization of minutes of this meeting.

Remarks of Evaluator;

The firm vide letter No. HB/007/DRAP/PEC/24 dated 22.01.2024 has submitted revised information in compliance to decision of 330th meeting of the Registration Board along with new fee. The evaluation of submitted data is given below;

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

1780	Name, address of Applicant / Marketing Authorization Holder	M/S Herbion Pakistan Pvt Ltd Islamabad.
	Name, address of Manufacturing site.	M/s Herbion Pakistan Pvt Ltd Industrial Triangle Kahuta road, Islamabad. (DML No. 000795)
	Status of the applicant	☒ Manufacturer ☐ Importer

		☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 1318-R & I, Dated 22.01.2024
	Details of fee submitted	PKR 30,000/- vide online deposit slip No.0799363203 Dated 01.02.2024
	The proposed proprietary name / brand name	Estresto 200 mg tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Sacubitril ---------- 97 mg Valsartan ----------103 mg
	Pharmaceutical form of applied drug	Oblong shaped, light-pink colored, film coated tablet, break-line on one side, other side plain, no irregularity.
	Pharmacotherapeutic Group of (API)	Angiotensin II receptor blockers (ARBs), other combinations ATC Code: C09DX04
	Reference to Finished product specifications	As per Innovator's specifications
	Proposed Pack size	1* 14's (14's) 2*14's (28's)
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Entresto tablets 200 mg Novartis Pharmaceuticals (FDA Approved)
	For generic drugs (me-too status)	Savesto 97/103mg tablet of M/s Getz Parma, Karachi. Registration No.093112
	GMP status of the Finished product manufacturer	Firm has submitted GMP certificate valid till 03.07.2024
	Name and address of API manufacturer.	M/s Zhejiang Tianyu Pharmaceutical Co., Ltd. Address No.15, Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone, Taizhou City, Zhejiang Province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure,

		general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. 12211-221202
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. Batch No. 12200-180402, 12200-180403, 12200-180404
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	**Test product:** Estresto 200mg Tablets, **Reference product:** Savesto 200mg Tablets, Batch No. 028FB3, manufactured by M/s Getz Pharma Pakistan. **Tests done:** Description, identification, DT, Assay, Dissolution, Impurities. **CDP:** **F2 at pH 1.2:** 79.843, 75.557 **F2 at pH 4.5:** 78.329, 75.138 **F2 at pH 6.8:** 77.40, 89.919
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

	Reference to Finished product specifications	**USP Specifications.**
	Proposed Pack size	1's.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	DOCETAXEL 20MG/ML KABI MHRA Approved.
	For generic drugs (me-too status)	Mebrexel 20mg Inj Reg. No. 045608 M/s CCL Pharma Lahore
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Shanghai Jinhe Bio-Pharmaceutical Co. Ltd. No. 508, Maodian Road, Qingpu District Shanghai, China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (DXT201904027, DXT201906036, DXT201906037, DXT201907038) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40±2 ℃ 75%±5 RH: 6 months (Accelerated) 25 ºC±2℃ 65%±5% RH: 24 months (Real time) Batch No. DCA201411002, DCA201411003, DCA201411004
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols,

		control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis (NN0058,NN0059, NN0060.)
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Docetaxel Injection 20mg/ml Batch No. 6F286A manufactured by Sanofi exp____date:____, by performing following tests; pH, Assay, Particulate matter.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies for the applied product.
	Container closure system of the drug product	Type-I glass vials with rubber stopper, aluminium and plastic flip-off seals.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. The real time stability study data is conducted at 30°C ± 2°C, 75% ± 5% for 12 months. Accelerated at 40±2°C/75±5%RH for 6 months. Batch No. NN0058, NN0059, NN0060. NN1195-A,
	Therapeutic indications in USFDA.	Docetaxel Injection is a microtubule inhibitor indicated for: • **Breast Cancer (BC):** single agent for locally advanced or metastatic BC after chemotherapy failure; and with doxorubicin and cyclophosphamide as adjuvant treatment of operable node-positive BC (1.1) • **Non-Small Cell Lung Cancer (NSCLC):** single agent for locally advanced or metastatic NSCLC after platinum therapy failure; and with cisplatin for unresectable, locally advanced or metastatic untreated NSCLC (1.2) • **Hormone Refractory Prostate Cancer (HRPC):** with prednisone in androgen independent (hormone refractory) metastatic prostate cancer (1.3) • **Gastric Adenocarcinoma (GC):** with cisplatin and fluorouracil for untreated, advanced GC, including the gastroesophageal junction (1.4) • **Squamous Cell Carcinoma of the Head and Neck Cancer (SCCHN):** with cisplatin and fluorouracil for induction treatment of locally

Evaluation by PEC:

Sr. No.	Section	Observation
1.	-	Notarized Letter of Authorization is required.
2.	3.2.P.2	In pharmaceutical equivalence only pH, Assay & Particulate matter tests are done for comparison. Why all pharmacopoeial tests are not performed for establishing pharmaceutical equivalence. The Reference product specifications mentioned are IP, why comparison is not done with a product having USP specifications as your product are as per USP specifications. Further address of manufacturer and expiry date of reference product are also required.
3.	3.2.P.8	Stability studies data for full shelf life claimed is required.
4.	3.2.P.8	Supporting data [Chromatograms(assay run, system suitability, standard run, impurities etc), HPLC log, evidence of CFR-21 compliance, spectra etc] of testing of Trial batches is required.

Decision of 333rd meeting: Deferred for submission of reply to above cited shortcomings.

Sr. No.	Section	Observation	Reply
1.	-	Notarized Letter of Authorization is required.	The firm vide letter No nil dated 19.12.2023 has submitted copy of notarized Authorization letter.
2.	3.2.P.2	In pharmaceutical equivalence only pH, Assay & Particulate matter tests are done for comparison. Why all pharmacopoeial tests are not performed for establishing pharmaceutical equivalence. The Reference product specifications mentioned are IP, why comparison is not done with a product having USP specifications as your product are as per USP specifications. Further address of manufacturer and expiry date of reference product are also required.	The firm has submitted results of Pharmaceutical equivalence studies with product Taxotere Batch No. 6F286A manufactured by M/s Sanofi Aventis Deutschland GmbH Germany. Now firm has submitted comparison of impurities also.
3.	3.2.P.8	Stability studies data for full shelf life claimed is required.	Stability studies data for shelf life upto 24 months is submitted.
4.	3.2.P.8	Supporting data [Chromatograms(assay run, system suitability, standard run, impurities etc), HPLC log, evidence of CFR-21 compliance, spectra etc] of testing of Trial batches is required.	Supporting data is submitted.

Decision: Approved as per policy of inspection of manufacturer abroad.

	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. **The real time stability study data is conducted at 30℃ ± 2℃, 75% ± 5% for 12 months**. Accelerated at 40±2℃/75±5%RH for 6 months. Batch No. NN0061, NN0062, NN0063. NN2152-B,
	Therapeutic indications in USFDA.	Docetaxel Injection is a microtubule inhibitor indicated for: • **Breast Cancer (BC):** single agent for locally advanced or metastatic BC after chemotherapy failure; and with doxorubicin and cyclophosphamide as adjuvant treatment of operable node-positive BC (1.1) • **Non-Small Cell Lung Cancer (NSCLC):** single agent for locally advanced or metastatic NSCLC after platinum therapy failure; and with cisplatin for unresectable, locally advanced or metastatic untreated NSCLC (1.2) • **Hormone Refractory Prostate Cancer (HRPC):** with prednisone in androgen independent (hormone refractory) metastatic prostate cancer (1.3) • **Gastric Adenocarcinoma (GC):** with cisplatin and fluorouracil for untreated, advanced GC, including the gastroesophageal junction (1.4) • **Squamous Cell Carcinoma of the Head and Neck Cancer (SCCHN):** with cisplatin and fluorouracil for induction treatment of locally

Evaluation by PEC:

Sr. No.	Section	Observation
1.	-	Notarized Letter of Authorization is required.
2.	3.2.P.2	Pharmaceutical equivalence of product having strength 20mg/ml is submitted. Same is submitted in dossier of product having strength of 20mg/1ml. Proper pharmaceutical equivalence studies are required.
3.	3.2.P.3.5	Process validation of strength 120mg/6ml is submitted. Validation studies of 80mg/4ml strength are required.
4.	3.2.P.8	Stability studies data for full shelf life claimed is required.
5.	3.2.P.8	Supporting data [Chromatograms(assay run, system suitability, standard run, impurities etc), HPLC log, evidence of CFR-21 compliance, spectra etc] of testing of Trial batches is required.

Decision of 333rd meeting: Deferred for submission of reply to above cited shortcomings.

Sr. No.	Section	Observation	Reply
1.	-	Notarized Letter of Authorization is required.	The firm vide letter No nil dated 19.12.2023 has submitted copy of notarized Authorization letter.
2.	3.2.P.2	Pharmaceutical equivalence of product	The firm has stated that product is

		having strength 20mg/ml is submitted. Same is submitted in dossier of product having strength of 20mg/1ml. Proper pharmaceutical equivalence studies are required.	same for all strengths, only fill volume is different that's why they have performed pharmaceutical equivalence with one strength only. The firm has requested to consider the same.
3.	3.2.P.3.5	Process validation of strength 120mg/6ml is submitted. Validation studies of 80mg/4ml strength are required.	The firm has stated that same testing method is used for analysis of different strengths that's why same process validation studies are submitted in dossiers of different strengths.
4.	3.2.P.8	Stability studies data for full shelf life claimed is required.	Stability studies data for shelf life up to 24 months is submitted.
5.	3.2.P.8	Supporting data [Chromatograms(assay run, system suitability, standard run, impurities etc), HPLC log, evidence of CFR-21 compliance, spectra etc] of testing of Trial batches is required.	Supporting data is submitted.

Decision: Approved as per policy of inspection of manufacturer abroad.

	Container closure system of the drug product	Diatrizoate meglumine and diatrizoate sodium injection USP in colorless 20 ml USP type I vial with 20 mm bromobutyl rubber stopper and 20 mm aluminium flip off hook seal of navy blue color labeled in unit carton.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. The real time stability study data is

		conducted at 30°C ± 2°C, 75% ± 5% for 36 months. Accelerated at 40±2°C/75±5%RH for 6 months. Batch No. 0223C1801, 0223C1901, 0223B2001,
	Therapeutic indications in USFDA.	Diatrizoate Meglumine and Diatrizoate Sodium Solution is indicated for radiographic examination of segments of the gastrointestinal tract (esophagus, stomach, proximal small intestine, and colon). The preparation is particularly indicated when a more viscous agent such as barium sulfate, which is not water-soluble, is not feasible or is potentially dangerous. Diatrizoate Meglumine and Diatrizoate Sodium Solution may also be used as an adjunct to contrast enhancement is computed tomography of the torso (body imaging); the preparation is indicated, in conjunction with intravenous administration of a radiopaque contrast agent, when unenhanced imaging may not provide sufficient definition in distinguishing normal loops of bowel from adjacent organs or areas of suspected pathology

	Container closure system of the drug product	100 ml amber colour pet bottle
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. The real time stability study data is conducted at 30℃ ± 2℃, 65% ± 5% for 36 months. Accelerated at 40±2℃/75±5%RH for 6 months. Batch No. 0067A1601, 0067A1701, 0067A1801.
	Therapeutic indications in USFDA.	Diatrizoate Meglumine and Diatrizoate Sodium Solution is indicated for radiographic examination of segments of the gastrointestinal tract (esophagus, stomach, proximal small intestine, and colon). The preparation is particularly indicated when a more viscous agent such as barium sulfate, which is not water-soluble, is not feasible or is potentially dangerous. Diatrizoate Meglumine and Diatrizoate Sodium Solution may also be used as an adjunct to contrast enhancement is computed tomography of the torso (body imaging); the preparation is indicated, in conjunction with intravenous administration of a radiopaque contrast agent, when unenhanced imaging may not provide sufficient definition in distinguishing normal loops of bowel from adjacent organs or areas of suspected pathology

Evaluation by PEC:

Sr. No.	Section	Observation

1.	-	Notarized Letter of Authorization is required.
2.	-	COPP is required to be legalized.
3.	1.5.9	The label applied does not indicate sodium salt. The innovator product uses both sodium salt and meglumine. Label needs to be revised as per innovator product along with submission of fee for pre-registration variation.
4.	3.2.P.2	Batch No. expiry date and mfg date of reference product (Gastrografin) is required. The picture submitted is generic picture of the product, pictorial evidence of actual pack used in pharmaceutical equivalence is required.
5.	3.2.P.8	The batches whose stability data is submitted, their executed BMRs are also required.

Decision of 333rd meeting of the board: Deferred for submission of reply to above cited shortcomings.

Sr. No.	Section	Observation	Reply
1.	-	Notarized Letter of Authorization is required.	Copy is uploaded on eApp by the firm.
2.	-	COPP is required to be legalized.	Copy is uploaded on eApp by the firm.
3.	1.5.9	The label applied does not indicate sodium salt. The innovator product uses both sodium salt and meglumine. Label needs to be revised as per innovator product along with submission of fee for pre-registration variation.	The firm has stated that the product is DIATRIZOATE SODIUM AND DIATRIZOATE MEGLUMINE SOLUTION USP 370 mg I/ml – 100 ml mentioned on form 5-F as well as on covering letter. In the submitted application and Form 5F, firm has given following label; Diatrizoic acid USP – 632.3 mg Meglumine USP – 159.4 mg
4.	3.2.P.2	Batch No. expiry date and mfg date of reference product (Gastrografin) is required. The picture submitted is generic picture of the product, pictorial evidence of actual pack used in pharmaceutical equivalence is required.	Submitted. Trazogastro Batch No. ATB23007
5.	3.2.P.8	The batches whose stability data is submitted, their executed BMRs are also required.	Submitted.

Decision: Approved as per policy of inspection of manufacturer abroad with following label claim;
Each ml contains:
Diatrizoate meglumine…….660 mg
Diatrizoate sodium ……. 100 mg
Equivalent to Iodine 370 mg/ml
Letter shall be issued after submission of fee of Rs. 300,000/- for preregistration variation as per SRO 496(I)/2023 read with SRO 1872(I)/2023 dated 29.12.2023.

Date of Initiation	05.2022	05.2022	-
No. of Batches	2		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New DML

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. S-GMP & GLP/21092920 valid till 14.09.2023 issued by Food and drug control administration Gujrat state India is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Nalbuphine Hydrochloride** Batch No.: MO/NBP/2101 Mfg date: 03.2021 Exp date: 01.2024 Quantity: 0.25kg Invoice No.: EX/RU/031/21-22 Invoice date: 25.10.2021 Cleared by: AD I&E DRAP Karachi on 22.11.2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	-	The product mentioned on fee slip is Relief injection 10mg/ml, applied product is NALFORT 10mg/ml injection. Clarify.
2.	-	The reference of USFDA given is discontinued. Provide valid reference of RRA approval.
3.	3.2.P.2.2	Origin of reference product in pharmaceutical equivalence (Nubain injection) is not clearly mentioned. Further the pictorial evidence does not indicate the batch No.
4.	3.2.P.8	The fill volume applied is 1ml, in stability studies the size of ampoules mentioned is 5ml. Clarify.
5.	3.2.P.8	Submit copy of executed BMRs of trial batches

Decision of 333rd meeting of RB: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	-	The product mentioned on fee slip is Relief injection 10mg/ml, applied product is NALFORT 10mg/ml injection. Clarify.	The firm vide letter No. nil dated 31.01.2024 has submitted that fee voucher was generated by name of Relief injection whereas trial batches were developed by name of Nalfort injection. The firm has requested to consider the brand name as Nalfort Injection.
2.	-	The reference of USFDA given is discontinued. Provide valid reference of RRA approval.	The firm has provided evidence of NUBAIN 10.0mg/ml 1ml ampoule Approved by health Canada.
3.	3.2.P.2.2	Origin of reference product in pharmaceutical equivalence (Nubain injection) is not clearly mentioned.	The firm has submitted that origin of reference product is of Canada.

		Further the pictorial evidence does not indicate the batch No.	
4.	3.2.P.8	The fill volume applied is 1ml, in stability studies the size of ampoules mentioned is 5ml. Clarify.	The firm has stated that fill volume of ampoule is 1.1ml and it was a typographic mistake.
5.	3.2.P.8	Submit copy of executed BMRs of trial batches	Copies are submitted.

Decision: Approved.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	The status in reference regulatory authorities	Could not be verified for 40mg strength.
	For generic drugs (me-too status)	Artem 40mg Injection Reg. No. 050689 M/s Hilton Pharma Karachi.
	Name and address of API manufacturer.	M/s Calyx Chemicals and Pharmaceutical Limited, P-III and P-IV N-102/91/90 M.I.D.C. Tarapur Boisar Dist. Palghar Maharashtra India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Batch No. AM4N/20210919
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. Batch No. AM2/20130710, AM2/20130711, AM2/20130712
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	**Test product:** Artofer Inj. **Reference product:** Misomal Inj, Batch No. ____. mfg.: _____, Exp. _____manufactured by M/s

		Pfizer Pakistan Pictorial evidence not submitted. **Tests done:** Appearance, Identification, Content uniformity, clarity of solution, particulate matter, Assay, BET and sterility.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	M/s Calyx Chemicals and Pharmaceutical Limited, P-III and P-IV N-102/91/90 M.I.D.C. Tarapur Boisar Dist. Palghar Maharashtra India.		
API Lot No.	PGB03521AL		
Description of Pack (Container closure system)	Clear, colourless or almost colourless oily solution filled in glass ampoule.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	B#A004	B#A005	B#A006
Batch Size	1000 Ampoules	1000 Ampoules	1000 Ampoules
Manufacturing Date	12.2021	12.2021	12.2021
Date of Initiation	26.12.2021	27.12.2021	28.12.2021
No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New DML
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. 25-KD/352 dated 15.12.2021 valid till 31.12.2025 issued by FDA Maharashtra is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Artemether** Batch No.: AM4N/20210919 Mfg date: 09.2021 Exp date: 08.2025 Quantity: 2kg Invoice No.: EXP/090018-21 Invoice date: 25.10.2021 Cleared by: AD I&E DRAP Karachi.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.
Remarks of Evaluator:		

Sr. No.	Section	Observation
1.		Valid and verifiable evidence of RRA approval of applied formulation is required.
2.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Misomal) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required
3.	3.2.P.5.2	As per Ph. Int. monograph of the applied product, detector wavelength could be 216nm (Method A) or 254nm (Method B) for assay. The wavelength mentioned in submitted method of assay is 370nm. Justify.

Decision of 333rd meeting of RB: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.		Valid and verifiable evidence of RRA approval of applied formulation is required.	The firm has submitted reference of Switzerland. **It is not verifiable** Available as additional strength in monograph of International Pharmacopoeia.
2.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Misomal) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required	The firm has submitted following details of reference product; Misomal Injection, manufactured by Tabros Pharma. Batch No. 236P. Exp date 04.2023
3.	3.2.P.5.2	As per Ph. Int. monograph of the applied product, detector wavelength could be 216nm (Method A) or 254nm (Method B) for assay. The wavelength mentioned in submitted method of assay is 370nm. Justify.	Firm has stated that it was a typographic error. Testing was done at 216nm wavelength.

Decision: Approved.
Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (ciproxin) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required
2.	3.2.P.5.2	In dissolution, wavelength for analysis is mentioned as 282nm, USP monograph mentions that it should be 276nm. Justify this difference.
3.	3.2.P.5.3	In system suitability, it is mentioned that it was performed using replicate injections (n=6). As per USP monograph it should be done by ensuring resolution of NLT 6 between the ciprofloxacin ethylenediamine analog and ciprofloxacin, System suitability solution. Why system suitability is not done as per USP monograph?
4.	3.2.P.8	Submit copy of executed BMRs of trial batches
5.	3.2.P.8	The chromatogram of system suitability done as per USP monograph is required. Further in every chromatogram there is a minor unidentified peak at RT 4.2. There is no chromatogram of blank/ mobile phase injection either for comparison. Justify.

Decision of 333rd RB: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (ciproxin) used in pharmaceutical equivalence are not provided.	Firm has submitted following details Ciproxin Tablet Batch No KH06590 Mfg 10.2019

		Further pictorial evidence of reference product is also required	Exp 09.2024 Pictorial Evidence is also submitted.
2.	3.2.P.5.2	In dissolution, wavelength for analysis is mentioned as 282nm, USP monograph mentions that it should be 276nm. Justify this difference.	The firm has stated that it was due to wrong entry in SAP system. Analysis was done at 276nm wavelength.
3.	3.2.P.5.3	In system suitability, it is mentioned that it was performed using replicate injections (n=6). As per USP monograph it should be done by ensuring resolution of NLT 6 between the ciprofloxacin ethylenediamine analog and ciprofloxacin, System suitability solution. Why system suitability is not done as per USP monograph?	The firm has stated that according to USP tailing factor and relative standard deviation can also be used for system suitability so they have used these 2 parameters for performance of system suitability.
4.	3.2.P.8	Submit copy of executed BMRs of trial batches	Submitted.
5.	3.2.P.8	The chromatogram of system suitability done as per USP monograph is required. Further in every chromatogram there is a minor unidentified peak at RT 4.2. There is no chromatogram of blank/ mobile phase injection either for comparison. Justify.	The firm has stated that it is peak of diluent. As evidence firm has provided chromatogram of blank run wherein same peak is present.

Decision: The board deferred the case for submission of justification for deviating from monograph of drug product, comply with the monograph and submit data of test and analysis accordingly.

No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	New DML
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. ZJ20190157 dated 30.11.2019 valid till 29.11.2024 issued by National Medical products Administration China
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Ciprofloxacin HCl** Batch No.: HB00U2107001 Mfg date: 08.07.2021 Exp date: - Quantity: 10kg Invoice No.: KF2810210186 Invoice date: 28.10.2021

		Cleared by: AD I&E DRAP Karachi on 18.11.21
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Hiflox) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required
2.	3.2.P.5.2	In dissolution, wavelength for analysis is mentioned as 282nm, USP monograph mentions that it should be 276nm. Justify this difference.
3.	3.2.P.5.3	In system suitability, it is mentioned that it was performed using replicate injections (n=6). As per USP monograph it should be done by ensuring resolution of NLT 6 between the ciprofloxacin ethylenediamine analog and ciprofloxacin, System suitability solution. Why system suitability is not done as per USP monograph?
4.	3.2.P.8	Submit copy of executed BMRs of trial batches
5.	3.2.P.8	The chromatogram of system suitability done as per USP monograph is required. Further in every chromatogram there is a minor unidentified peak at RT 4.2. There is no chromatogram of blank/ mobile phase injection either for comparison. Justify.

Decision of 333rd meeting of RB: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Hiflox) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required	The firm has submitted following details Hiflox Tablet manufactured by M/s Hilton Pharma. Batch No. 1730 Exp 05.2023
2.	3.2.P.5.2	In dissolution, wavelength for analysis is mentioned as 282nm, USP monograph mentions that it should be 276nm. Justify this difference.	The firm has stated that it was due to wrong entry in SAP system. Analysis was done at 276nm wavelength.
3.	3.2.P.5.3	In system suitability, it is mentioned that it was performed using replicate injections (n=6). As per USP monograph it should be done by ensuring resolution of NLT 6 between the ciprofloxacin ethylenediamine analog and ciprofloxacin, System suitability solution. Why system suitability is not done as per USP monograph?	The firm has stated that according to USP tailing factor and relative standard deviation can also be used for system suitability so they have used these 2 parameters for performance of system suitability.
4.	3.2.P.8	Submit copy of executed BMRs of trial batches	Submitted.
5.	3.2.P.8	The chromatogram of system suitability done as per USP monograph is required.	The firm has stated that it is peak of diluent.

		Further in every chromatogram there is a minor unidentified peak at RT 4.2. There is no chromatogram of blank/ mobile phase injection either for comparison. Justify.	As evidence firm has provided chromatogram of blank run wherein same peak is present.

Decision: The board deferred the case for submission of justification for deviating from monograph of drug product, comply with the monograph and submit data of test and analysis accordingly.

API Lot No.	CEIV/B2107059		
Description of Pack (Container closure system)	White to pale yellow powder filled in glass vial with flip-off seal.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T001	T002	T003
Batch Size	500 vials	500 vials	500 vials
Manufacturing Date	09.2022	09.2022	09.2022
Date of Initiation	15.09.2022	15.09.2022	15.09.2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	New section.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. NEW-WHO-GMP/CERT/KD/26116/2015/11/10947 dated 15.06.2015 valid till 14.04.2017, issued FDA Maharashtra India.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Cefipime HCl Sterile USP L-Arginine** Batch No.: CEIV/B2008086 Mfg date: 08.2020 Exp date: 07.2023 Quantity: 100kg Invoice No.: EXP-373 Invoice date: 17.12.2020 Cleared by AD I&E DRAP Islamabad, Material is imported by M/s Shawan Pharmaceuticals and taken loan.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted log for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Maxipime) used in pharmaceutical equivalence are not provided.

		Further pictorial evidence of reference product is also required.
2	3.2.P.8	Copy of executed BMRs of trial batches are required.
3	-	Copy of purchase documents of Drug Substance are required. (AD attested invoice or clearance certificate)
4	-	The batch numbering used for trail batches is same for all products. Batch No. should be unique for trial batches of different batches.

Decision of 333rd meeting of Registration Board: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1	3.2.P.2.2	Batch No. mfg date, exp date and manufacturer of reference product (Maxipime) used in pharmaceutical equivalence are not provided. Further pictorial evidence of reference product is also required.	The firm has submitted response vide letter dated 19.04.2024 Product Biopime 500mg injection batch No. 113 manufactured by M/s Biorex Pharmaceuticals. As per data submitted in dossier, pharmaceutical equivalence was established against product Maxipime, now firm is claiming that they had performed pharmaceutical equivalence studies against product Biopime.
2	3.2.P.8	Copy of executed BMRs of trial batches are required.	Submitted.
3	-	Copy of purchase documents of Drug Substance are required. (AD attested invoice or clearance certificate)	Submitted vide letter No. nil dated 19.04.2024. The material is taken loan from M/s Shawan Pharma. The batch No. of drug substance used for manufacturing the trial batches as per submitted dossier was CEIV/B2107059. Now the firm has submitted documents for drug substance having batch No. CEIV/B2008086.
4	-	The batch numbering used for trail batches is same for all products. Batch No. should be unique for trial batches of different batches.	The firm has stated that in future they will use different batch Numbers.

Decision: The Board deferred the case for clarification of difference in data submitted in the application dossier and their response dated 19.04.2024

1798.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Biogen Life Sciences, 8-Km, Chakbeli Road, Rawat.**

	Dy. No. and date of submission	Dy. No. 21293 dated 29-08-2023.
	Details of fee submitted	PKR 150,000/- vide slip No. 38927334 Dated: 10.04.2023
	The proposed proprietary name / brand name	**PICICLIB 75mg Capsules**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each capsule contains:** Palbociclib……75mg.
	Pharmaceutical form of applied drug	Hard gelatin capsules in HDPE containers.
	Pharmacotherapeutic Group of (API)	Cyclin-dependent kinase (CDK) inhibitors. ATC Code: L01EF01
	Reference to Finished product specifications	**Manufacturer's Specifications.**
	Proposed Pack size	21's.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	IBRANCE 75mg, 100mg & 125mg Capsules USFDA Approved.
	For generic drugs (me-too status)	Ibrance 75mg Reg. No. 103786 M/s Pfizer Karachi.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s MSN Laboratories Pvt. Ltd. Sy. No. 50, Kardanur (Village) Patancheru (mandal) Sangareddy District Telangana, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility,

		appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (0000693819, 0000693821, 0001190410) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40±2 ℃ 75%±5 RH: 6 months (Accelerated) 25 ºC±2℃ 65%±5% RH: 24 months (Real time) Batch No. ZP0020618, ZP0030618, ZP0040618
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis (GJ20380)
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Ibrance capsules 75mg Lot No. R93133 manufactured by Pfizer exp date: 08.2018, by performing following tests; Average weight, DT, Assay, water content, total degradation products, CDP at pH 1.2 only with Ibrance 75mg. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	HDPE bottle with child resistant cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. **The real time stability study data is conducted at 30℃ ± 2℃, 75% ± 5% for 24 months**. Accelerated at 40±2°C/75±5%RH for 6 months. Batch No. GJ80697, GJ80698, GJ80699.
	Therapeutic indications in USFDA.	IBRANCE is a kinase inhibitor indicated in combination with letrozole for the treatment of postmenopausal women with estrogen receptor (ER)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer as initial endocrine-based therapy for their metastatic disease. This indication is approved under accelerated approval based on progression-free survival (PFS). Continued approval for this indication may be contingent upon verification and description of clinical benefit in a confirmatory trial.

Evaluation by PEC:

Sr. No.	Section	Observation
1.	-	Letter of authorization submitted is a photocopy. Notarized copy of Letter of Authorization is required.

2.	3.2.P.2	For 75mg strength, CDP with Ibrance is done only at pH 1.2. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8.

Decision of 333rd meeting of RB: The Registration board deferred the case for submission of
1. comparative dissolution profile (CDP) studies of the applied product with relevant strength of innovator/comparator product at pH 4.5 & 6.8 as CDP at only pH 1.2 with Ibrance 75mg has been performed.
2. The documents as required under the approved Guidance Document Regarding Application of Drug Product Specifications vide no. No.9-2/2022-PEC dated 18th December, 2023 for the claim of manufacturers specifications.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply
1.	-	Letter of authorization submitted is a photocopy. Notarized copy of Letter of Authorization is required.	Copy of Notarized letter of authorization is submitted.
2.	3.2.P.2	For 75mg strength, CDP with Ibrance is done only at pH 1.2. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8.	The firm has submitted CDP at 3 physiological pH values. The CDP is done with Ibrance 75mg mfg by Pfizer Australia, Batch No. DC5128. Results are comparable with the innovator product.
3.	-	The documents as required under the approved Guidance Document Regarding Application of Drug Product Specifications vide no. No.9-2/2022-PEC dated 18th December, 2023 for the claim of manufacturers specifications.	The firm has stated that their specifications are equivalent or more stringent then innovator's specifications.

Decision: Approved as per policy of inspection of manufacturer abroad.

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, appearance, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (0000693819, 0000693821, 0001190410) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches for drug substance at accelerated as well as real time conditions. The stability conditions with time durations are; 40±2 ℃ 75%±5 RH: 6 months (Accelerated) 25 ºC±2℃ 65%±5% RH: 24 months (Real time) Batch No. ZP0020618, ZP0030618, ZP0040618
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis (GJ80653)
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted Pharmaceutical Equivalence for the applied product against the reference product i.e. Ibrance capsules 100mg Lot No. R72228 manufactured by Pfizer exp date: 04.2018, by performing following tests; Average weight, DT, Assay, water content, total degradation products, CDP at pH 1.2 only with Ibrance 100mg. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and

		100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	HDPE bottle with child resistant cap.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches of drug product. **The real time stability study data is conducted at 30°C ± 2°C, 75% ± 5% for 24 months**. Accelerated at 40±2°C/75±5%RH for 6 months. Batch No. GJ80674, GJ80675, GJ80676.
	Therapeutic indications in USFDA.	IBRANCE is a kinase inhibitor indicated in combination with letrozole for the treatment of postmenopausal women with estrogen receptor (ER)-positive, human epidermal growth factor receptor 2 (HER2)-negative advanced breast cancer as initial endocrine-based therapy for their metastatic disease. This indication is approved under accelerated approval based on progression-free survival (PFS). Continued approval for this indication may be contingent upon verification and description of clinical benefit in a confirmatory trial.

Evaluation by PEC:

Sr. No.	Section	Observation
1.	-	Letter of authorization submitted is a photocopy. Notarized copy of Letter of Authorization is required.
2.	3.2.P.2	For 75mg strength, CDP with Ibrance is done only at pH 1.2. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8.

Decision of 333rd RB: The Registration board deferred the case for submission of
1. comparative dissolution profile (CDP) studies of the applied product with relevant strength of innovator/comparator product at pH 4.5 & 6.8 as CDP at only pH 1.2 with Ibrance 100 mg has been performed
2. The documents as required under the approved Guidance Document Regarding Application of Drug Product Specifications vide no. No.9-2/2022-PEC dated 18th December, 2023 for the claim of manufacturers specifications.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply
1.	-	Letter of authorization submitted is a photocopy. Notarized copy of Letter of Authorization is required.	Copy of Notarized letter of authorization is submitted.
2.	3.2.P.2	For 75mg strength, CDP with Ibrance is done only at pH 1.2. The firm has done in-vivo bioequivalence of 125mg strength product and then have done CDP of 75mg and 100mg strength against 125mg strength at pH 1.2, 4.5 & 6.8.	The firm has submitted CDP at 3 physiological pH values. The CDP is done with Ibrance 100mg mfg by Pfizer Australia, Batch No. DD6319. Results are comparable with the innovator product.
3.	-	The documents as required under the approved Guidance Document Regarding Application of Drug Product Specifications vide no. No.9-2/2022-PEC dated 18th December, 2023 for the claim of manufacturers specifications.	The firm has stated that their specifications are equivalent or more stringent then innovator's specifications.

Decision: Approved as per policy of inspection of manufacturer abroad.

Manufacturing Date	05.2022	05.2022	05.2022
Date of Initiation	05.2022	05.2022	05.2022
No. of Batches	3		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Local Purchase
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	-	Copy of section approval letter of drug product manufacturer is required.
2.	-	Copy of GMP certificate of drug substance manufacturer is required.
3.	1.4.3.3	Copy of latest and valid GMP certificate of drug product manufacturer is required.
4.	-	The applied label is of Cefixime compacted 400mg. The salt or hydrate form is not mentioned. Label claim needs to be revised as per innovator product along with requisite fee.
5.	3.2.P.2	CDP is done at pH 1.2, 4.5 and 7.2. Justify doing CDP at pH 7.2 instead 6.8.
6.	3.2.P.2	Batch No and expiry date of reference product (Cefiget) is not mentioned. Also provide pictorial evidence of the reference product.
7.	3.2.P.5	Specifications of JP are applied.

8.	3.2.P.8	Audit trail of HPLC is required.

Decision of 333rd RB: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	-	Copy of section approval letter of drug product manufacturer is required.	The firm vide letter No. nil dated 15.03.2024 has submitted their response. Copy of section approval letter No. 2-36/85-Lic dated 30.10.2008 is submitted wherein Capsule (Cephalospsorin) Section is mentioned.
2.	-	Copy of GMP certificate of drug substance manufacturer is required.	Copy of certificate issued by DRAP Lahore, valid till 18.11.2024 is submitted (M/s Pharmagen)
3.	1.4.3.3	Copy of latest and valid GMP certificate of drug product manufacturer is required.	Copy of GMP certificate issued on basis of inspection conducted on 20.02.2024 is submitted.
4.	-	The applied label is of Cefixime compacted 400mg. The salt or hydrate form is not mentioned. Label claim needs to be revised as per innovator product along with requisite fee.	Fee of Rs. 7500/- is submitted vide slip No. 07150773861 for revision of label.
5.	3.2.P.2	CDP is done at pH 1.2, 4.5 and 7.2. Justify doing CDP at pH 7.2 instead 6.8.	The firm has stated that as per specifications issued by DRAP, dissolution of capsule is to be done at pH 7.2, that's why they replaced pH 6.8 with 7.2 in CDP studies.
6.	3.2.P.2	Batch No and expiry date of reference product (Cefiget) is not mentioned. Also provide pictorial evidence of the reference product.	Firm has submitted following details; Cefiget 400mg Capsule, batch No. 354 Pictorial evidence is submitted.
7.	3.2.P.5	Specifications of JP are applied.	The firm has attached Notification No. 14-1/2022-PEC dated 14.03.2022 wherein Specifications for specifications of Cefixime capsule were issued as per decision of 313rd meeting of the board.
8.	3.2.P.8	Audit trail of HPLC is required.	The firm has stated that their HPLC software is not CFR 21 compliant. The firm has quoted a case of 307th meeting of Registration board and have stated that a case was approved when the applicant has stated that their HPLC software was not CFR-21 compliant

Decision: Approved with Manufacturers Specification. Letter shall be issued after submission of fee of Rs. 7500/- for revision of specifications.

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Local purchase
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

Sr. No.	Section	Observation
1.	-	Copy of section approval letter of drug product manufacturer is required.
2.	-	Copy of GMP certificate of drug substance manufacturer is required.
3.	3.2.P.2	Pictorial evidence of the reference product used in pharmaceutical equivalence is required.
4.	3.2.P.8	Chromatograms submitted are not visible. Clear copies of chromatograms are required.
5.	3.2.P.8	Audit trail of HPLC is required.

Decision of 333rd RB: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply
1.	-	Copy of section approval letter of drug product manufacturer is required.	The firm vide letter No. nil dated 15.03.2024 has submitted their response. Copy of section approval letter No. 2-36/85-Lic dated 30.10.2008 is submitted wherein dry powder (Cephalospsorin) Section is mentioned.
2.	-	Copy of GMP certificate of drug substance manufacturer is required.	Copy of certificate issued by DRAP Lahore, valid till 18.11.2024 is submitted (M/s Pharmagen)
3.	3.2.P.2	Pictorial evidence of the reference product used in pharmaceutical equivalence is required.	Not submitted.
4.	3.2.P.8	Chromatograms submitted are not visible. Clear copies of chromatograms are required.	Clear copies of chromatograms are submitted.
5.	3.2.P.8	Audit trail of HPLC is required.	The firm has stated that their HPLC software is not CFR 21 compliant. The firm has quoted a case of 307th meeting of Registration board and have stated that a case was approved when the applicant has stated that their HPLC software was not CFR-21 compliant

Decision: Approved

Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.

Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

	Decision: Approved.	

Case No. 1: Registration of formulations containing Vitamins / Minerals

Deputy Director HOTC Division has forwarded the decision of 116th meeting of Enlistment Evaluation Committee (EEC) held on 23rd May 2023 vide its letter dated 3rd January 2024. As per the letter, EEC issued show cause notice to the firms / companies having enlistment of Vitamin D3 above RDA upto 200,000IU. In response to show cause, various companies submitted their replies / written statement along with documentary evidence in support of their claim, subsequently personal hearing was afforded to such firms. EEC after due deliberation considering the submissions decided to refer back the case to Registration Board for consideration of its decision in the light of publications / submissions made by various firms. Accordingly, submissions of following companies are hereby forwarded for the consideration of RB.

Accordingly, the letter along with submissions of various firms has been forwarded to PE&R Division.

PE&R Division has reviewed the submissions of the firms and no submission contains any evidence of approval in reference regulatory authorities. Moreover, PE&R Division has also checked the status of reference product i.e. Vitamin D3 (cholecalciferol) 200,000IU Capsule in the below mentioned RRA and found that the same is not included as drug.

Now, M/s Webros Pharmaceuticals, Rawat has requested to issue letter for de-registration (cancellation) of products mentioned vide *column II* (with their registration numbers in *column III*) of above table stating that these products have already been registered (dated 13-10-2017) in favour of M/s Bloom Pharmaceuticals, Hattar.

Decision: Registration Board acceded to request of M/s Webros Pharmaceuticals, Rawat for De-Registration of above mentioned products (Sr. No 1-7 vide column no. II).

Case No.02. Request of M/s Akhai Pharmaceuticals (Pvt) Ltd., Balochistan for Consumption of Imported Controlled Drug Substance 'Ketamine Hydrochloride'

Registration Board in its 323rd meeting held on 06th-08th December, 2022 considered the subject mentioned request of M/s Akhai Pharmaceuticals (Pvt) Ltd., A-248 & A-256 to A-259, Hub Industrial Trading Estate Lasbella Balochistan wherein the firm informed that they have been granted registration of **Ketlar (Ketamine) Injection; Reg. No.014966 (valid till 30th June, 2025)** by way of contract manufacturing **at M/s. Neutro Pharma (Pvt) Ltd. 9.5 KM, Sheikhupra Road, Lahore**. The registration was granted for contract manufacturing well before classification of Ketamine under controlled drug substances

Furthermore, M/s Neutro Pharma had imported 50kg of Ketamine Hydrochloride on their behalf and for the exclusive manufacturing of their above stated product. Primary and secondary packaging materials are also available with them. In this context, the firm requested for permission to consume the available quantity of Ketamine Hydrochloride.

However, Ketamine and its salts have been declared as "Psychotropic substances" vide SRO Number 1350(I)/2021 dated 15th October, 2021. Furthermore, as per existing contract manufacturing policy, notified vide SRO 1347(I)/2021, dated 15.10.2021, Rule 20 A 2(c) states that:

"Contract manufacturing of controlled drugs (narcotic drug or psychotropic substances or precursor chemicals) shall not be allowed;"

In this context, following comments were also received:

Comments Received from Controlled Drugs Division:

The Committee for Allocation of Quota of Controlled Substances allocates the quota to those firms having valid drug manufacturing license and valid drug registration as per SOP.

Comments Received from QA&LT Division:

Consumption of any API is linked primarily to valid license to manufacture a drug and secondarily to valid registration of that drug. If as a consequence of any change in some rule/regulation or policy the status of both these prerequisite (DML and MA) for any drug becomes void/invalid, the consumption of respective APIs could not be allowed for that particular drug.

Foregoing in view, Registration Board decided as under:

"Keeping in view the classification of "Ketamine and its salts" under psychotropic substances (vide SRO 1350(I)/2021 dated 15th October, 2021) and Rule 20A(2)(c) of Drugs (L, R & A), Rules, 1976, Registration Board decided as follows:

- *Decided to issue show cause notice to the firm under Section 7 (11)(d) of the Drug Act, 1976 that why the registration of their product "Ketlar Injection (Reg. No. 014966)" may not be cancelled. Management of the firm shall also be given the opportunity of personal hearing in the forthcoming meeting of the Board under section 42 of the Drugs Act, 1976.*

- *Recommended QA&LT Division to decided case for already imported material as per Drug (I&E) Rules, 1976."*

Accordingly, show cause and personal hearing notice was issued dated 18-07-2023 and QA&LT Division was communicated the above-mentioned decision, in response to which, Deputy Director (QA/LT) Division has stated as under:

> *"It is pertained to mention that Division of QA & LT is helpless to implement and comply the above decision of Board as Drugs (Import & Export) rules 1976 are silent regarding disposal of this API Ketamine Hcl being Psychotropic material. The import, export, trans-shipment and disposal/destruction of Narcotic/Psychotropic material is governed under Control of Narcotic Substances Act, 1997 in collaboration with Controlled Drug Division of DRAP. It is therefore requested to reconsider the decision and matter may be referred to concerned division for implementation."*

In this context, it is submitted that the field force is under the administrative control of QA&LT Division and regulatory actions could not be carried out without the filed force. Furthermore, Assistant Director (I&E) is also under the administrative control of QA&LT, which is working as Licensing Authority on behalf of CEO, DRAP after delegation of power. Therefore, the fate of imported controlled drug substance "Ketamine" may be decided by QA&LT Division in consultation with Controlled Drugs Division, DRAP and Ministry of Narcotics Control.

Keeping in view the above-mentioned stance of PE&R and QA & LT Division, the case was referred for collective wisdom of the Authority on the matter, please.

DRAP's **Authority in its 173rd meeting held on 10th October, 2023** considered and decided the case as under:

> ***"The request of M/s Akhai Pharmaceuticals was not acceded to as the Drugs (Licensing, Registering & Advertising) Rules, 1976 does not contain the enabling provision to allow contract manufacturing of controlled substance."***

Furthermore, with respect to the show-cause along-with personal hearing notice issued to the firm to appear before the Registration Board on 25th July, 2023 at 2.00 P.M., the case was considered by the Board in its 330th meeting held on 24th-26th July, 2023 wherein no one appeared on behalf of the firm. Accordingly, the Board decided as under:

> ***"Registration Board decided that the firm shall be provided one final opportunity of personal hearing in the next meeting."***

In line with the above-mentioned decision, the firm has been called for personal hearing on 20th December, 2023 at 3:00 P.M.

Proceedings of 333rd Meeting of Registration Board:

While, the meeting was in process, M/s Akhai Pharmaceuticals (vide letter dated 19-12-2023) informed that on 19th December, 2023, they came to know that the case regarding Ketlar Injection has been included in agenda of 333rd meeting. They did not receive the notice of personal hearing yet and no flight is available from Karachi to Islamabad on 20-12-2023. Accordingly, the firm requested to give time for hearing in the next meeting of Registration Board.

Furthermore, Mr. Haroon Dugal, Advocate Supreme Court, as counsel for M/s Akhai Pharmaceuticals also submitted an application for adjournment (received on 20-12-2023) stating that the counsel is representing petitioner in the titled case for which no personal hearing notice has been duly received so far. Furthermore, petitioner's daughter wedding has been scheduled for the same date as the hearing. Accordingly, the petitioner is unable to travel to attend the hearing scheduled on 20-12-2023 as no flight is available from Karachi to Islamabad on the afore mentioned date. Due to the foregoing circumstances, the petitioner will be unable to appear before this Honourable Court. Hence, it is respectfully requested that the case may kindly be adjourned to a date convenient to this Honourable Court in the interest of justice, equity and fair play.

Decision of 333rd Meeting of Registration Board:

Registration Board acceded to the above-mentioned request of M/s Akhai Pharmaceuticals, Balochistan and decided that the firm shall be provided one final opportunity of personal hearing in the next meeting of Registration Board.

In line with the above-mentioned decision, the firm has been called for personal hearing on 06th June, 2024 at 12:00 P.M.

Proceeding 336th meeting:

Mr. Umer Hameed Khan (Advocate High Court) as counsel for M/s Akhai Pharmaceuticals appeared before Registration Board. He admitted the fact that firm has no manufacturing facility of

Psychotropic/narcotic drugs till date, however he requested Board to not cancel the registration of said product till the firm establish its own manufacturing facility.

Registration Board deliberated the matter and opined that firm can't be allowed to continue contract manufacturing of "*Ketlar Injection (Reg. No. 014966)"* in the light of DRAP authority's decision and as per existing contract manufacturing policy, notified vide SRO 1347(I)/2021, dated 15.10.2021, since the firm has no own manufacturing facility for Psychotropic drugs hence registration of said drug deemed cancelled. Moreover, Board has already decided that QA&LT Division in consultation with Controlled Drugs Division, DRAP and Ministry of Narcotics Control will dispose of/destroy already imported API (Ketamine hydrochloride).

Decision: Keeping in view the contract manufacturing policy, notified vide SRO 1347(I)/2021, dated 15.10.2021 and in the light of DRAP authority's decision, Registration Board has decided to cancel the registration of *Ketlar Injection (Reg. No. 014966*) by M/s Akhai Pharmaceuticals and advised QA&LT Division to dispose of/destroy the already imported API (Ketamine hydrochloride) in consultation and coordination with Controlled Drugs Division, DRAP and Ministry of Narcotics Control.

Case No.03. Cancellation of Registrations of Drugs on account of Cancellation of Drug Manufacturing Licenses by Central Licensing Board.

Central Licensing Board in its 293rd meeting held on 20th November, 2023 cancelled the Drug manufacturing licences of following firms:

Sr. No.	Name of Firm	DML No.
1.	M/s Novae Pharmaceuticals, Haripur, Hazara	DML No. 000771 (Formulation)
2.	M/s Swat Pharmaceuticals, Saidu Sharif, Swat	DML No. 000035 (Formulation)
3.	M/s Wahabsons Pharma (Pvt) Ltd., Plot No.402, 4km Bunir Road, Bairkot Swat	DML No. 000533 (Formulation)

In this context, Registration Board in its 307th meeting (held on 08th-10th June, 2021) delegated the function regarding *"Issuance of show cause notice for cancellation of registration after cancellation of DML"* to Chairman Registration Board.

Keeping in view that Chairman Registration Board has been delegated the function regarding *"Issuance of show cause notice for cancellation of registration after cancellation of DML"* as per decision of 307th meeting of Registration Board (held on 08th-10th June, 2021).

Accordingly, show cause notices were issued on 24-01-2024 regarding cancellation of registration in lieu of cancellation of DMLs.

In this regard, following responses have been received from relevant manufacturers:

Name of Registration Holders	Response to Show cause notice issued on 24-01-2024	Dy. No. & Date
M/s Novae Pharmaceuticals, Haripur Hazara (DML No. 000771)	a) Director CLB in 293rd meeting of CLB held on 20-11-2023 directed us to submit shortcomings to Licensing Division within seven days (27-11-2023) b) Detail of shortcomings was: i. Detail of management at the time of previous and present renewal ii. Notarized copy of partnership deed along-with copy of CNICs of all partners iii. Up to date Nothing Due Certificate (CRF) from STO DRAP, Islamabad. c) M/s Novae Pharmaceuticals, Hattar deposited CRF for years 2020,21,22& 23 and applied for issuance of Nothing Due Certificate (CRF) from STO DRAP on 24-11-2023. d) Shortcomings mentioned in para 1b(i-ii) and R&I copy of application submitted for NDC(CRF) along-with deposited slips of respective years were submitted to Secretary, CLB on 25-11-2023.	Dy.No. 2174 dated 31-01-2024

	e) We had received Nothing Due Certificate (CRF) upto year 2023 on 24-01-2024 and the same had been submitted to Secretary, CLB on 30-01-2024 with request for constitution of panel of inspection for renewal of DML at earliest as all the shortcoming have been fulfilled. f) After receiving orders form Dir, QA&LT, DRAP, we M/s Novae Pharmaceuticals had immediately stopped production activities and are preparing for renewal inspection. We M/s Novae Pharmaceuticals hereby undertake and assure your honor that we shall resume production activities after restoration/renewal of DML. Above in view, **it is requested that registration of drugs granted under DML # 000771 may not be cancelled. Moreover, if an opportunity for personal hearing is granted by Registration Board, evidence required if any can be provided at the time of hearing.**	
M/s Swat Pharmaceuticals, Saidu Sharif, Swat (DML No. 000035)	We have challenged the decision (cancellation of DML No 000035) of CLB in Appellate Board. Therefore, **we are requesting to leave our case pending up to the final decision of appellate board.**	Dy.No. 2318 dated 02-02-2024
M/s Wahabsons Pharma (Pvt) Ltd., Barikot Swat (DML No. 000533)	It is stated that the cancellation is unlawful and is done in a completely arbitrary, unjustified and irrational manner and without any lawful authority. Furthermore, it is pertinent to mention here that **there is no section of law in the DRUG Act 1976 and rules framed thereunder which refers that cancellation of Drug Manufacturing License will result in cancellation of the registered products/ Drugs of the company. The entire Drug Act 1976, DRAP Act 2012 and Rules framed thereunder are completely silent regarding this matter.** In the light of above mentioned facts, it is most humbly requested the registration of our products should not be cancelled.	Received via TCS 4765836257

Keeping in view the responses submitted by the firms and in line with section 42 of the Drugs Act, 1976, the relevant firms have been called for personal hearing before the Registration Board on 06th June, 2024 at 12:00 P.M.

Proceeding 336th meeting:

Mr. Umer Hameed Khan (Advocate High Court) as counsel for Swat Pharmaceuticals, Saidu Sharif, Swat. He apprised Registration Board that The Appellate Board in 164th meeting held on 28-03-2024 allowed Swat Pharmaceutical's appeal and constituted a Panel of Inspectors. The Panel inspection yet to be conducted however cancellation of DML has been set aside by the Appellate Board. The DML will be reinstated after the inspection takes place.

Similarly, Mr. Arshad Riaz (CEO) and Zeeshan Ahmad (Regulatory Manager) from M/s Wahabsons Pharma (Pvt) Ltd.,Barikot Swat appeared before the Board. They stated that *The Appellate Board in 164th meeting held on 28-03-2024 created Panel of Experts to inspect the premises of manufacturing facility to ensure all GMPs and other requirements of the Drug Act , Rules and Regulations etc have been complied.*

M/s Novae Pharmaceuticals submitted their stance in writing (without physical appearance before the Board). Wherein they informed that The Appellate Board in 164th meeting held on 28-03-2024 converted cancellation of DML into suspension of DML and directed relevant division to inspect the premises. Accordingly, QA&LT division has constituted panel for inspection and they requested to schedule the inspection visit in the next week.

Decision*:* **Since The Appellate Board in its 164th sitting dated 28th March, 2024 directed to inspect the manufacturing facility of above mentioned firms to ensure all GMPs and other requirements of the Drug Act, Rules and Regulations Hence Board decided to suspend**

the registration of products of above mentioned firms till the final order by CLB or the Appellate Board.

Case No.04. Cancellation/ Revocation of Approval Granted to M/s Mission Pharmaceuticals Pvt Ltd. Karachi for Registration of Elvox Tablet 250mg & Elvox Tablet 500mg

Registration Board in its 327th meeting, held on 13th April, 2023, approved following products in favor of M/s Mission Pharmaceuticals, Plot No. A-94, S.I.T.E. Super Highway Karachi (DML No. 000809):

Table-I

S. No.	Product Name & Composition	Diary No. & Date	Decision of M-327
1.	Elvox Tablet 250mg Each film coated tablet contains: Levofloxacin Hemihydrate Eq. to Levofloxacin Base…250mg	Dy No. 15135: 07-03-2019	**Approved.**
2.	Elvox Tablet 500mg Each film coated tablet contains: Levofloxacin Hemihydrate Eq. to Levofloxacin Base….500mg	Dy No. 15146: 07-03-2019	**Approved.**

While processing for issuance of registration letter, it was identified that the firm has already been issued registrations of same formulations in same strength and dosage form. Detail is as under:

Table-II

S. No.	Reg. No.	Name of Drug(s) & Composition
1.	112661	Hemlevo Tablet 250mg Each film coated tablet contains: Levofloxacin Hemihydrate Eq. to Levofloxacin ……250mg (USP Specifications)
2.	112662	Hemlevo Tablet 500mg Each film coated tablet contains: Levofloxacin Hemihydrate Eq. to Levofloxacin ……500mg (USP Specifications)

Accordingly, the case has been placed before the Board for declaring the approvals of 327th meeting as mentioned in Table-I above as redundant/ disposed of.

Decision: Registration Board considered the case and declared approvals of Elvox Tablet 250mg & Elvox Tablet 500mg (327th meeting) as redundant/ disposed of.

Case No.05. Cancellation/ Revocation of Approval Granted to M/s Medicraft Pharmaceuticals (Pvt) Ltd., Peshawar for Registration of Qutimed 100mg Tablet

Registration Board in its 329th meeting, held on 06th-08th June, 2023, approved following product in favor of M/s Medicraft Pharmaceuticals (Pvt) Ltd., 126-B, Industrial Estate, Hayatabad, Peshawar (DML No. 000390)

Table-I

S. No.	Product Name & Composition	Diary No. & Date	Decision of M-329
1.	Qutimed 100mg Tablet Each film coated tablet contains: Quetiapine As Fumarate……100mg	Dy No. 16332: 07-03-2019	Approved.

While processing for issuance of registration letter, it was identified that the firm has already been issued registration of same formulation in same strength and dosage form. Detail is as under:

Table-II

S. No	Reg. No.	Name of Drug(s) & Composition
1.	108754	Med-Qpin Tablet 100mg Each film coated tablet contains: Quetiapine as Fumarate……100mg (USP Specifications)

Accordingly, the case has been placed before the Board for declaring the approval of 329th meeting as mentioned in Table-I above as redundant/ disposed of.

Decision: Registration Board considered the case and declared approval of Qutimed 100mg Tablet (329th meeting) as redundant/ disposed of.

Case No. 06 Request for De-Registration of Syrup Products of M/s Maxitech Pharma Private (Ltd), Karachi.

M/s Maxitech Pharma Private (Ltd), Karachi has requested to de-register syrup products. The firm has informed that in 296th meeting of CLB they surrendered their syrup section, in order to fulfill their market demand, they intend to expand their Tablet and Lotion section.

Decision: Registration Board not acceded to request of the firm since request of surrendering/withdrawing "oral liquid/syrup section" has not been acceded to by CLB (296th meeting).

Case No. 07. Request of M/s Faas Pharmaceuticals (Pvt) Ltd, Karachi for Cancellation of Toll Manufacturing Agreement from M/s Nabiqasim Industries Private Limited, Karachi.

Registration board in its 331st meeting considered following application of M/s **Faas Pharmaceuticals** as under:

	Table-I			
S. No.	**Product Name & Composition**	**Contract manufacturer**	**Diary No. & Date**	**Decision of M-327**
1.	**Nomizil 40mg IV injection** Each Lyophilized Vial contains: Omeprazole as sodium"	M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad	Dy.No 9443 dated 13-04-2022 Rs.75,000/- dated 27-10-2021	**Approved.**

While processing registration letter it came to know that same formulation of firm has already been registered with same brand name as per following details:

S. No	**Reg. No.**	**Name of Drug(s) & Composition**	**Contract manufacturer**	**Registration letter details**
1	096351	Nomizil Injection 40mg IV Each vial contains: Omeprazole Sodium eq. to Omeprazole…….40mg	M/s Nabiqasim Industries Private Limited, Karachi	letter No. No.F.3-3/2019-Reg-I (M-288) dated 19-06-2019

Now the firm requested to cancel registration of above mentioned product since they have canceled contract manufacturing agreement from M/s Nabiqasim Industries Private Limited, Karachi, due to market comparative rates.

Decision: Registration Board called the firm for personal hearing regarding its request.

Case No 08: Show Cause Notice to M/s Lisko Pakistan Ltd for Submitting Application of Zinkrol Syrup (Zinc Sulphate Monohydrate Eq To Elemental Zinc….20mg) Twice

M/s Lisko Pakistan Ltd, L-10-D Block 21, Industrial Federal B Area, Karachi has applied two applications for registration of same product which were considered in different meetings details as under:

Extract of M-276	
Name and address of manufacturer / Applicant	M/s Lisko Pakistan, Karachi

			Average capacity available:	**88.74%**

Ms. Maria Burki Plant Manager/ Production Incharge, Mr. Tasawar Hussain Shah QC Manager and Mr. Umair Aslam QA Manager assisted during the inspection. The details are given below;

1. Raw Material Store:

The raw material store of cephalosporin facility was inspected in detail and following observations were noted.

i. Humidity of RMS at time of inspection was 64% and HVAC system was not operational, which was turned on during inspection.

ii. Boxes of some materials were checked randomly (e.g. Cefixime micronized batch CFEM220042, Cefixime compacted batch CFEC220097 and Magnesium stearate) and it was observed that the poly bags were not sealed to protect the material from environmental factors.

iii. Containers of Cefixime micronized (batch CFEM220042, analysis No. RM0024/QC/API/23 GRN No. 01278) and Cefixime compacted (batch CFEC220097, analysis No. RM0023/QC/API/23 GRN No. 01278) did not contain label of manufacturer. In QC their analysis documents were checked and found that they both were released for use on UV analysis rather HPLC testing which is pharmacopoeial requirements. The firm produced a COA of M/s Covalent Laboratories India of aforesaid API's but couldn't provide their clearance documents.

iv. There was discrepancy between entries of dispensing log book and raw materials stock registers. Some entries in dispensing log book were missing. The storage and documentation practices of the firm for raw materials were found very poor.

2. Production Area:

a. Dry Powder Injection:

The section was not operational at the time of inspection. The production Incharge described the manufacturing process which includes:

i. Vial washing with de-ionized water.
ii. Loading in DHS for sterilization. After sterilization they were
iii. Transfer to filling line through HEPA fitted trolley for filling and capping.

It was noted that firm is using deionized water for final rinsing of vials rather WFI. Moreover, the batch size was not standardized and it was observed that the firm is manufacturing multiple strengths of finished product having different batch numbers and batch sizes as per market demand while using single API container.

b. Dry Suspension:

The section was not operational at the time of inspection. In dry suspension area 200kg mixer was present and again it was observed that batch size was not standardized. Biodroxil 125mg batch No. 23010 was of 7734 units and batch No. 22029 was of 3703 units. Some batches were so small that their mixing in a 200kg mixer is not possible. Humidity of the area was not controlled.

c. Capsule:

The section was not operational at the time of inspection. There was no hygrometer in mixing area. The capacity of mixer in capsule section was 100kg. Again the batch size was not standardized. Roxykef 500mg Capsule batch 22023 had a size of 5607 capsules and batch No. 22003 of same product had a size of 47546 capsules. The mixture to fill 5607 capsules was approximately equal to 3.3kg. Mixing of material of 3.3kg in 100kg mixer is not possible and when it was inquired during inspection the firm informed that they are performing manual mixing in poly bags for such small batches.

There was only one pharmacist looking after all 3 sections of cephalosporin facility and also dispensing of raw materials.

3. In-process quarantine:

There was no in-process quarantine area in cephalosporin manufacturing facility. Quarantine area was established in Finished Goods Store (FGS). In quarantine area following observations were noted;

i. Unlabelled filled vials were present in various boxes. The boxes had labels indicating Vakxon 500mg IM injection batch No. 22115 manufactured in November 2022.
ii. Unlabelled filled vials were also present in other boxes which even did not bear labels. The firm claimed that these are ceftriaxone vials of above batch however they couldn't establish their identity.
iii. Unlabelled dry suspension bottles were also present in boxes having aluminium caps mentioning Herbion. The boxes had labels indicating Biodroxil Suspension 200mg/5ml

Upon inquiry the firm informed that above mentioned unlabelled filled products were placed in quarantine due to the shortage of labelling and packaging material. However as per QC record these batch were passed for release to the market.

4. Finished Goods Store:

The FGS was located in basement of the manufacturing facility. It was common for whole facility.

5. Packing material store:

The foils used for blistering were placed in uncontrolled environment and their polybags were not closed.

6. Quality Control:

a. Main Quality Control Lab:

The firm had 2 HPLC systems and one UV-Vis spectrophotometer. The firm did not had following instruments which are necessary for testing of products being manufactured:

i. FTIR
ii. Liquid particle Counter (LPC)
iii. TOC analyser

b. Microbiology Lab:

The firm had an established microbiology laboratory. Betalactamase enzyme, ATCC strains, LAL test lysate etc were present. Air particle counter was also available.

It was also noted that firm was releasing the API for manufacturing and finished products in the market on UV testing only. Two stability chambers were available for accelerated and real time stability studies of finished products. In accelerated stability chamber, samples of Biodroxil 200mg/5ml were available, the aforesaid product was registered in year 2022 in name of M/s Herbion Pharma Islamabad for contract manufacturing by the firm. The firm informed that they are conducting the accelerated and real time stability on request of registration holder, however on the other side without completion of study for six months the

same product was manufactured on continuous basis and huge stock for market release was available in FGS.

7. Water System:

The firm had double RO system connected with ion exchange cartridges. Firm also had water distillation system but it was not functional. Firm was using deionized water for washing of vials and final rinse of equipment used in sterile manufacturing. Hot loop was not present.

Recommendations & Conclusion:

Keeping in view the above practices, following is being recommended by the panel;

i. Immediate sampling of finished products specifically cephalosporin injectable products available with the firm and released in market.
ii. Panel GMP inspection as it was observed that since grant of DML in 2019, no panel GMP inspection has been conducted so far.
iii. Improvement in raw material storage and documentation practices.
iv. Standardization of batch sizes with process validations.
v. Hiring of at least three more pharmacists to supervise manufacturing and dispensing activities.
vi. Installation of water distillation system for bulk WFI.
vii. Provision of in-process quarantine area in cephalosporin manufacturing facility
viii. Installation of FTIR, TOC analyzer and LPC in QC lab.
ix. Installation of hygrometers and improvement of environmental controls.

Despite of the fact firm possess sufficient manufacturing and testing capacity, however keeping in view the storage, documentation, production and testing practices of the firm recorded above, the panel **DO NOT RECOMMEND** to allow contract manufacturing till the compliance of above recommendations and their verification.

Decision of 329th meeting:

Registration Board on basis of the findings of above presented inspection report decided to defer the registration applications of contract manufacturing from M/s. Cure Laboratories (Pvt) Ltd, Plot No. 11-12, Street No. NS-2 RCCI, Rawat till any further decision. Moreover, Registration Board decided to refer the above inspection report to QA&LT Division for further necessary action.

As per above decision of the Board, above mentioned capacity assessment report of M/s. Cure Laboratories was referred to QA &LT Division and said Division has forwarded GMP Inspection report conducted on 23-09-2023 with conclusion as under:

The establishment M/s Cure Laboratories Pvt Ltd situated at Plot No. 11 & 12 Street No. NS-2, RCCI, Rawat was inspected in the light of Schedule B-II of the Drugs (Licensing, Registering & Advertising) Rules, 1976 and GMP guidelines QALT/GL/MP/004.

In view of above stated facts and observations; by adopting the risk-based approach, it has been unanimously concluded by the panel that GMP is a continual process of improvements and some areas of improvements have been described in the above report. The firm should submit a comprehensive CAPA to the division of Quality Assurance and Lab Testing followed by the verification of CAPA by panel of inspector/experts to ensure the implementations. Overall rating of the firm was concluded to be at a Good level of GMP compliance as of today.

Decision: **Registration Board, on the basis of GMP inspection report, decided to allow issuance of registration letters of all products approved by way of contract manufacturing from M/s. Cure Laboratories (Pvt) Ltd, Plot No. 11-12, Street No. NS-2 RCCI, Rawat.**

The Board further decided that QA & LT Division shall include the manufacturing & testing capacity of all sections approved by Central Licensing Board in the GMP inspection of the firms.

Case No. 02: M/s. Davis Pharmaceutical Laboratories, Islamabad

Registration Board in its 329th meeting has approved following drug product in the name of M/s Davis Pharmaceutical Laboratories, 121, Industrial Triangle Area, Kahuta Road, Islamabad,

Sr. No.	Name of Drug & Composition
1.	Davigest Tablet 10mg Each film coated tablet contains:

	Dydrogesterone……10mg USP Specification

While processing registration letter of above said product it is revealed that firm does not have approval of requisite manufacturing facility of Tablet (Hormone) Section. Accordingly, case was referred to Licensing Division for confirmation of approval status of Tablet (Hormone) section and said Division has replied that M/s. Davis does not possess formal approval of the Tablet (Hormone) Section.

Decision: **Registration Board decided to dispose of the said application of M/s Davis Pharmaceutical Laboratories, 121, Industrial Triangle Area, Kahuta Road, Islamabad for registration of Davigest Tablet 10mg (Dy. No. 15937 dated 04-03-2019) as not approved as firm does not possess approval of the Tablet (Hormone) Section by the Central Licencing Board.**

Case No. 03: M/s. Wilson's Pharmaceuticals 387-388 Sector I-9 Industrial Area Islamabad.

cGMP inspection of M/s. Wilson's Pharmaceuticals 387-388 Sector I-9 Industrial Area Islamabad was conducted dated 20-02-2024 to check manufacturing and testing facilities. Federal Inspector of Drugs-IV has referred following observations as mentioned in inspection report for immediate attention at the end of Registration Davison.

Since the renewal of DML does not have Penicillin and Cephalosporin section however the registration of these products either needs to be withdrawn by the management under intimation to this office / referred to the competent authority for its suspension / cancellation.

The establishment also didn't have hormonal section but hold the registration of Estrogen tablet 0.625mg (Reg. No. 011152) and Estrogen tablet 1.25mg (Reg. No. 011153). Which is need to be suspended till the establishment of section.

FID further stated that the case may please be considered for suspension / cancellation of registration of products in Cephalosporin, Penicillin and Hormone Oral Section due to non-availability of the sections.

It is submitted that as per available record of PE&R Division, firm holds registration of different products in following sections:

1. Penicillin Tablet Section.
2. Penicillin Capsule Section.
3. Penicillin Syrup Section.
4. Cephalosporin Tablet Section.
5. Cephalosporin Capsule Section.
6. Cephalosporin Syrup Section.
7. Hormonal Tablet Section.

Decision: **Registration Board after deliberation on the inspection report of FID, decide to issue a show cause notice as why the registrations granted in the following sections not be suspended under section 42 of the Drugs Act 1976, the DRAP Act 2012;**

1. Penicillin Tablet Section.
2. Penicillin Capsule Section.
3. Penicillin Syrup Section.
4. Cephalosporin Tablet Section.
5. Cephalosporin Capsule Section.
6. Cephalosporin Syrup Section.
7. Hormonal Tablet Section.

Case. No.04: Standardization/Correction of Label Claim as Per Reference / Innovator Product.

a. M/s. Care Pharmaceuticals 8-Km Thokar Raiwind Road Lahore

Registration Board in its 249th meeting approved following product of M/s. Care Pharmaceuticals 8-Km Thokar Raiwind Road Lahore. Registration letter was not issued for confirmation of product's approval status in Reference Regulatory Authorities as RRA approved formulation is Fluocinolone acetonide 0.25mg (0.025%w/w) instead of Fluocinolone acetonide 2.5mg (0.25%w/w). Firm has requested

to correct label claim as per RRA. Firm has also submitted fee of Rs.30,000/- vide challan No. 97701652 along with revised Form-5 for correction in strength of product. Detail is as under:

Sr. No.	Name of Approved Drug(s) & Composition	Corrected Name of Drug(s) & Composition	Remarks
1.	Sinocare Cream Each gm contains: Fluocinolone acetonide…2.5mg	Sinocare 0.025% Cream Each gm contains: Fluocinolone acetonide…0.25mg (USP Specifications)	**RRA:** MHRA Approved **Me-Too:** Flucinate Cream 0.025% w/w Reg. No. 094808 M/s. Atco

Decision: **Registration Board decided to approve the correction in above product with following details.**

"Sinocare 0.025%w/w Cream
Each gm contains:
Fluocinolone acetonide…0.25mg (0.025% w/w)
(USP Specifications)"

b. M/s. Skims Pharmaceuticals 10-B, Value Addition City Khurrianwala, Faisalabad.

Registration Board in its 283rd meeting approved following product of M/s. Skims Pharmaceuticals 10-B, Value Addition City Khurrianwala, Faisalabad. Registration letter was not issued due to correction in strength of formulation. Firm has also submitted fee of Rs.30,000/- vide challan No. 15038019969 along with revised Form-5 for correction in strength of product . Detail is as under:

Sr. No.	Name of Approved Drug(s) & Composition	Corrected Name of Drug(s) & Composition	Remarks
1.	Skinita Sachet 2gm Each Sachet contains **Strontium ranelate….2mg**	Skinita Sachet 2gm Each Sachet contains **Strontium ranelate….2gm** (As per Innovator's Specifications)	**RRA:** MHRA Approved **Me-Too:** Strebon Sachet 2gm Reg. No. 088263 M/s. Barrett Hodgson

Decision: **Registration Board decided to approve the correction in above product with following details.**

"Skinita Sachet 2gm
Each Sachet contains
Strontium ranelate….2gm
(As per Innovator's Specifications)"

c. M/s. Allmed (Pvt) Ltd. Plot No. 590 Sundar Industrial Estate Lahore.

Registration Board in its 257th meeting approved following product of M/s. Allmed (Pvt) Ltd. Plot No. 590 Sundar Industrial Estate Lahore and rregistration letter was not issued. Firm has submitted fee of Rs.30,000/- vide challan No. 623289154671 along with revised Form-5 for correction in strength and pack size of product as MHRA approved strength if 2mcg/ml instead of 1mcg/ml. Detail is as under:

Sr. No.	Name of Approved Drug(s) & Composition	Corrected Name of Drug(s) & Composition	Remarks
1.	A-Bone Injection IV 15ml Ampoule/Oral Ampoule Each ml contains **Alfacalcidol BP …. 1mcg** (BP Specification)	A-Bone Injection IV 1ml Ampoule/Oral Ampoule Each ml contains **Alfacalcidol BP …. 2mcg** (BP Specification)	**RRA:** MHRA Approved **Me-Too:** Calfram 2mcg/ml Injection Reg. No. 099691 M/s. Pharmasol

Decision: **Registration Board decided to approve the correction in above product with following details.**

"A-Bone Injection IV (1ml)
Ampoule/Oral Ampoule
Each ml contains
Alfacalcidol BP …. 2mcg

(BP Specification)"

Post Registration-I Section

M/s GlaxoSmithKline Pakistan Limited, Plot No.5, Sector 21, Korangi Industrial Area, Karachi has request for grant of Manufacturer's specification for the product "Chewcal Tablet Registration No. 019881"

1.		**M/s GlaxoSmithKline Pakistan Limited, Plot No.5, Sector 21, Korangi Industrial Area, Karachi.**			
1.	019881	Chewcal Tablet Each tablet contains: Elemental calcium BP……400mg Vitamin D……2.5mcg	Chewcal Tablet Each tablet contains: Elemental calcium BP……400mg Vitamin D……2.5mcg (Manufacturer's Specifications)	15/08/2016 05-09-2023	Fee Rs. 10,000/- Deposit Slip No. 99530146 R&I Dy. No. 21122 Dated: 28/08/2023
Remarks		The firm has submitted the case for change of specifications to Manufacturer's Specification.			
Decisions of 109th PRVC:-		The Chairman Registration Board on recommendation of committee defer request of firm for confirmation of RRA status of product.			
Justification submit by the firm		One of the core material i.e. Cholecalciferol, associated with preparation of Calcium and Cholecalciferol Chewable Tablet referred to BP Monograph, has appearance i.e. White or almost white crystals, however the material Cholecalciferol (Vit D3) being used in GSK formulation for the product chewable tablet has, Dry Vitamin D3 CWS/AM in the form of Beadlets. They contain Vitamin D3 in medium chain triglycerides finely dispersed in corn starch coated matrix of acacia gum, sucrose and dl-α- tocopherol and provide enhanced stability in formulation as compared to free vitamin D3. Furthermore, Vitamin D3 assay cannot be performed using BP monographs due to different nature of Vitamin D3 used in GSK Formulation			
Remarks		The case was again placed in 119th PRVC with justification submitted by firm.			
Decisions of 119th PRVC:-		Chairman Registration Board on recommendation of committee refer the case to Registration Board. The case was placed before 109th Meeting of PRVC. Firm has submitted evidence of MHRA, which is also chewable tablet with different strength. The firm could not provide any evidence of RRA for the applied formulation / strength. As per record the firm is holding registration of plain tablet, with following formulation: ➢ Elemental Calcium BP… 400mg Vitamin D… 2.5mcg While the MHRA reference provide by the firm is "Chewable Tablet" with following formulation: ➢ Calcium Carbonate… 1500mg Cholecalciferol… 400 IU Furthermore, British Pharmacopeia also described Calcium and Cholecalciferol as "Chewable Tablet".			
Remarks:-		The matter is placed before the Registration Board in light of decision of 104th PRVC meeting.			
Decision:-		**Deferred for the submission of following shortcoming:** • **Submit evidence of availability of applied formulation in the approved reference regulatory agencies. OR** • **In case of adopting Manufacturer's specification, firm has to provide the data as mentioned in the "*guidance document regarding application of Drug Product specification*" notified vide letter No.9-2/2022-PEC dated 18th December,2023.**			

Case No.2. Request for Change in Registration Status, MA holder of Invital D 5mg/5mL Injection from M/s Ray Pharma, Karachi to M/s Kaizen Pharmaceutical Pvt. Ltd., Karachi.

M/s. Kaizen Pharmaceutical Pvt Ltd, Karachi, E-127-129, North Western Industrial Zone, Bin Qasim Karachi has requested to change the product registration status of **Invital D 5mg/5mL injection** from M/s Ray Pharma (Pvt) Ltd, S-58 S.I.T.E, Karachi to their name. However, the product will continue to be manufactured at Ray Pharma (Pvt) Ltd, S-58 S.I.T.E, Karachi through contract manufacturing.

The details of the application is as follows:

Administrative Documents Submitted in the light of SOP approved by the Registration Board in its 283rd meeting
i. Copy of DML (000755) of Kaizen Pharmaceutical Pvt Ltd, Karachi, E-127-129, North Western Industrial Zone, Bin Qasim Karachi renewed w.e.f 24-09-2022.
ii. Copy of DML of Ray Pharma (Pvt) Ltd, S-58 S.I.T.E, Karachi (DML # 000642) renewed w.e.f. 05-09-2018 (renewal applied on 04 Sep 2023).
iii. Copy of DRAP's letter dated 14th Feb 2020 for renewal of DML of M/s Ray Pharma (Pvt) Ltd, Karachi mentioning Liquid Ampoule (General) among formulation sections
iv. NOC from M/s. Ray Pharma (Pvt) Ltd, S-58 S.I.T.E, Karachi for transfer of Invital D Inj on the name of M/s. Kaizen Pharmaceutical Pvt Ltd, Karachi, E-127-129, North Western Industrial Zone, Bin Qasim Karachi issued 25-01-2024
v. Relevant undertakings & commitments.

1.	**Name of Product and Composition (as per initial Registration letter)**	**Registration Trail**
	Genvit-D 5mg Injection Each ml Contains: Cholecalciferol……5mg (eq. to 200,000 IU of Vitamin-D) (Manufacturer's Specification) (Reg# 061284)	Initial Registration: **08-04-2010** Change of Brand Name to Invital D: **10-06-2010** Last Renewal Submitted on: **03-02-2020**

	Module-II (Quality Overall Summary)	The firm has summarized information related to DS and finished products. QOS provides information of DS manufacturer. Both DS and finish product comply to in-house specification. Brief information related to analytical procedures, specification, container closure system and stability studies of drug substance and drug product has been provided. Batch Analysis, manufacturing process and critical process parameters were summarized for FP. The analytical method of DS was verified by the FPP manufacturer. Stability data sheets of DS and DP were provided at the accelerated and long-term conditions.
	Module-III Drug Substance:	The Firm has submitted Information for drug substance with related to nomenclature and structure, and provided list of general properties including appearance, solubility, optical rotations, The DS was manufactured at Dishman Carbogen Amics India as crystal form. The manufacturing process was described briefly along with critical process steps and the studies conducted for structural elucidation using various analytical techniques. The potential Impurities were listed and residual solvent were studied in 03 batches of DS, which shows detection within limits.DS manufacturer defined inhouse specifications and CoA of DS lot from DS manufacturer and FP manufacturer was provided. Batch Analysis of 03 batches produced in 2018 was provided. CoA of working standards produced by DS manufacturers was submitted. Container closure system and specification for packaging material was provided.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of each 58 Kg drug substance at both accelerated as well as real time conditions. The accelerated stability data was conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months and the long-term stability data is conducted at 2-89°C for 60 months. The DS was placed in double poly bags and kept in an HDPE drum. The DS remain stable and no significant changes were observed during the stability studies.

		DS manufacturer has also conducted
	Module-III Drug Product:	Firm has submitted data on drug product including its description, composition,, manufacture, manufacturing process, process control, control of excipients, control of drug product, specifications, analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability. The Specifications and control tests are in compliance to manufacture's inhouse method. The manufacturing process of DP and critical parameters were identified with control checks. Manufacturing protocol was also developed. Pharmacopeial grade excipients were used in the formulation and their analytical methods and CoAs were provided. The DP specification were assigned as per inhouse method and accordingly analytical method was verified. Batch analysis of 03 stability batches were provided. Working standard provided by the DS manufacturer were used as reference standard. BMR of stability batches was also submitted.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	The Pharmaceutical equivalence study was conducted to compare DP against the Vitamin D3 Good Injection manufactured by Bouchara Recordati (Batch #ATRC14 , Exp 09-2010), which shows comparable results.
	Analytical method validation/verification of product	Firm has claimed in-house specifications for which a report of validation of analytical method for the drug substance and drug product.

STABILITY STUDY DATA			
Manufacturer of API	M/s Dishman Carbogen Amics Ltd, Paiki sub plot no 1 Village ladariyal, taluka sanad, Ahmmedabad, 38220 India		
API Lot No.	CWD1D15052		
Description of Pack (Container closure system)			
Stability Storage Condition	Real time: 30°C ± 2°C / 75% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Accelerated: 6 months Real time: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9,12,36 (Months)		
Batch No.	15l988	14l939	15l989
Batch Size	40 Litres	40 Litres	40 Litres
Manufacturing Date	01-2015	10-2014	01-2015
Date of Initiation	01-2015	01-2015	01-2015
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Food and Drug Control Administration, Gujrat State, India valid till 01-05-2024.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying import of 25Kg of Cholecalciferol dated 10-Feb-2016, .
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The data logger provided for accelerated and real-time stability studies of FPP does not correlate with the study period.

Evaluator Queries:

Section	Deficiencies	Comments/Reply
1.	Submit differential fee as applicable for change in Registration status and Contract Manufacturing of Pharmaceutical drug product.	Challan of differential fees PKR 30,000 Challan # is: 7851710960 deposited on 19-01-24.
2.	Provide complete registration renewal trail of product.	Registration trail was provided however
3.	Latest GMP Inspection report of M/s Ray Pharmaceutical Karachi.	GMP Inspection report of M/s Ray Pharma conducted on Jan-24 was provided.
4.	Valid Drug Manufacturing License of Applicant (M/s Kaizen Pharmaceuticals, Karachi)	Valid Drug Manufacturing License of M/s Kaizen Pharmaceuticals was provided.
5.	Fresh NOC from existing registration holder of Invital-D Injection with date and authorized signatures.	Fresh NOC from existing registration holder of Invital-D Injection i.e., Ray pharma was provided
6.	Submit relevant undertakings with dates and names of signatories.	Submitted
7.	Provide notarized copy of contract manufacturing agreement as per Rule 20-A of the Drug LRA Rules, 1976.	Notarized copy of contract manufacturing agreement as per Rule 20-A of the Drug LRA Rules, 1976 attached
8.	Documents for procurement of DS with approval from DRAP.	Attached.
9.	DS Monograph is available in Pharmacopeia (e.g. BP), Justify the use of in-house specification. Please provide comparison with monograph specifications.	Results of both methods i.e., pharmacopeial and in-house method are same. Our in-house method is also stability indicating method (SIM) as mentioned in section 21. The assay results obtained through both methodologies, along with the accompanying raw data, were provided.
10.	Stability studies of DS are not performed under Zone IV (a) conditions for at least 06 months at real time and accelerated conditions, please provide the same with data logger for entire transportation storage of DS, forced degradation studies of finished product with at least 01-year real time stability studies as per the decision of Registration Board.	Storage condition of Cholecalciferol is 2°C-8°C (refrigerator). As per ICH guideline Q1R2, section 2.1.7.2 long term stability studies for Drug substances intended for storage in a refrigerator shall be done at 2°C-8°C having no humidity requirements. And accelerated studies shall be done at 25°C ± 2°C/60% RH ± 5% RH.
11.	Justification for selection of excipient during pharmaceutical development?	Ethyle oleate is used as solvent for cholecalciferol in the manufacturing of injection during pharmaceutical

		development because (1) Cholecalciferol is much stable in ethyl oleate, (2) the same excipient has been used by the innovator and (3) As per the monograph of Cholecalciferol Injection in BP 2023, ethyl oleate shall be use as solvent for the manufacturing of cholecalciferol injection. Reference of BP-2023 is attached.
12.	Justification for using this much quantity of overages?	In the pharmaceutical development phase, due to the degradative nature of cholecalciferol, overages were initially incorporated to offset potential degradation. However, following a two-year stability assessment, the New Product Development department recommended to production that the overage be eliminated from the product formulation. Consequently, current manufacturing practices involve producing batches without any overage.
13.	It would be more appropriate to perform pharmaceutical equivalence studies against the reference product/innovator product and include all related parameters. Currently, only assay and physical appearance has been compared.	Pharmaceutical equivalence studies against the reference product is attached including physical test, identification test, assay test, sterility test and endotoxin test.
14.	Physical appearance of DP solution is mentioned as white to off white during formulation development, but it has been changed to pale yellow color during stability studies. Please explain.	The physical appearance of the drug product solution is consistently described as a pale-yellow color across all documents, including formulation development and stability studies. There have been no observed differences in the appearance of the solution in both sets of data.
15.	The acceptance range criteria for assay has been enhanced to 90-140% in specification, however, DP is not losing potency to this extent as evident from stability studies, please justify?	During the product development phase, overages were introduced to offset potential degradation of cholecalciferol due to its degradative nature. However, following a comprehensive two-year stability assessment, the New Product Development department recommended to production the removal of overages from the product formulation. Consequently, our current manufacturing practices involve producing batches without any overages.
16.	The master formula shows composition of DS as 6mg/ml but in the assay results it appear as more than 6mg till the 06 months of studies despite of its photolytic tendency.	After 6th month stability studies, there is no degradation observed despite photolytic tendency of the analyte. This is due to the stable formulation using ethyl oleate as solvent. Secondly the drug product solution is kept in amber glass ampoules and then packed in unit opaque unit carton to protect it from light. Slight increase in the assay results might be due to improper sample preparation during analysis.
17.	Valid GMP certificate of DS manufacturer issued by relevant regulatory authority.	Valid GMP certificate of DS manufacturer issued by relevant regulatory authority provided.
18.	Provide analytical method validation studies of DS performed by M/s Ray Pharmaceutical, Karachi.	Analytical method validation provided
19.	CoA of relevant batches of DS.	COA Provided
20.	Protocols for carrying out stability studies for trial batches.	Protocols for carrying out stability studies for trial batches provide
21.	Please justify your analytical method for drug product is stability indicating method (SIM).	To establish the method's stability indicating nature, a specificity test was conducted on the finished product

		through force degradation methodology. The report encompasses force degradation studies involving acid hydrolysis, basic hydrolysis, thermal degradation, oxidation reaction degradation, and photolytic degradation. The results demonstrate that the impurity formed due to the degradation of cholecalciferol is clearly distinguished from the analyte in terms of retention time. This separation confirms the method's capability to detect and quantify degradation products, validating it as a stability-indicating method (SIM).
22.	Why impurity testing is not performed during stability studies.	As our in-house testing method is SIM method, if any impurity formed during stability studies it will be observed in the chromatogram. Therefore, any separate impurity test was not performed.
23.	Why DS identification, optical rotation, sterility and microbial tests were not included in the stability studies.	Identification is verified by HPLC method for assay. Optical rotation property is not susceptible to change during storage condition, therefore not included in the stability studies. Sterility test is not performed on DS as the material is not sterile.
24.	Data loggers for temperature and humidity monitoring during stability studies.	Data from Data loggers for temperature and humidity monitoring during stability studies were provided.

Evaluator Remarks:

- The data logger attached in the response covers the years 2020 to 2022. However, the stability data of the FPP indicates that the stability study was conducted in 2015. Additionally, the chromatogram and CoAs of the stability testing have not been provided.

Decision: Registration Board acceded to the request of firm for change of market authorization of product Invital D injection (Reg.102826) from M/s Ray Pharma, Karachi to M/s Kaizen Pharmaceutical Pvt. Ltd., Karachi. However, the product will continue to be manufactured at Ray Pharma (Pvt) Ltd, S-58 S.I.T.E, Karachi through contract manufacturing.

Post Registration-II Section

Case No.01: Cases of Change of Manufacturer from Self Manufacturing to Contract Manufacturer

1.	Name, address of Applicant / Marketing Authorization Holder	**M/s. Vision Pharmaceuticals (Pvt.) Ltd. 22-23, Industrial Triangle Kahuta Road Islamabad.**
	Existing manufacturer	M/s. Vision Pharmaceuticals (Pvt.) Ltd. 22-23, Industrial Triangle Kahuta Road Islamabad.
	Name, address of Manufacturing site.	M/s. Global Pharmaceuticals (Pvt) Ltd. Plot No. 204-205, Industrial Triangle, Kahuta Road, Islamabad.
	Status of the applicant	☐Manufacturer ☐ Importer ☒Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 17641 (dated: 13-07-2023)

	Details of fee submitted	PKR75,000/-: dated: 12-07-2023 (Invoice # 060541871)
	The proposed proprietary name / brand name	**Doston 8mg Injection** (Reg.No.081892) Dated: 26-10-2016 Renewed till 25-10-2026
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 4ml ampoule contains:- Ondansetron hydrochloride equivalent to Ondansetron……8mg
	Pharmaceutical form of applied drug	Liquid injection.
	Pharmacotherapeutic Group of (API)	Anti-emetic.
	Reference to Finished product specifications	USP specification.
	Proposed Pack size	4ml x 5's
	Proposed unit price	As per S RO
	The status in reference regulatory authorities	MHRA approved.
	For generic drugs (me-too status)	Zofran 8mg Injection of M/s Novartis Pharma (Pakistan) Limited
	GMP status of the Finished product manufacturer	**Manufacturer:** M/s Global Pharmaceuticals (Pvt.) Ltd. (DML. No. 000417) Copy of GMP certificate No. 3-16/2018-Addl. Dir. (QA&LT-I)-1 dated 04-01-2022 valid till 02.01.2024.
	Evidence of section approval.	Liquid Injection (General) section (as per GMP Certificate).
	Name and address of API manufacturer.	M/s CTX Lifesciences Pvt. Ltd., Block No. 251-252 Sachin- Magdalla Road, GIDC, Sachin, Surat-394-230 Gujrat, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification / validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties (solubility & physical form), general properties of drug pellets., description of manufacturing process and controls, tests for related. Any other Individual unspecified impurity, Total Impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: **Real time**: 30˚C ± 2˚C / 65% ± 5%RH for 60 months **Accelerated**: 40˚C ± 2˚C / 75% ± 5%RH for 6 months **Batches**:ON130001, ON130002, ON130003
	Module-III (Drug Product):	The firm has submitted detail of the description and composition of the drug product, manufacturers, description of manufacturing process and controls, Process validation, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Test product:**Ondoglob 8mg/4ml Injection Batch No. ST22M020 byM/s Global Pharmaceuticals.

		Reference Product: Zofran 8mg/4ml Inejction (Batch No. HM5Y Mfg: 05.2021, Exp 04.2024) manufactured by M/s GSK Italy Pharmaceutical Equivalence is established against the comparator Zofran 8mg/4ml Inejction (Batch No. HM5Y Mfg: 05.2021, Exp 04.2024) manufactured by M/s GSK Italy by performing quality tests (Physical attributes, Identification, Assay and pH test). Results of both the products are comparable with each other.
	Analytical method validation/verification of product	Method validation studies are submitted including specificity, linearity and range, accuracy (recovery), repeatability, robustness and precision.

Administrative Portion		
19.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted.
20.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of manufacturing licence # G/25/1723 Valid till 23-01-2026 issued by Food & Drug Control Administration Ghandinagar 382 010, in the name of M/s CTX Lifesciences Pvt. Ltd., Block No. 251-252 Sachin- Magdalla Road, GIDC, Sachin, Surat-394-230 Gujrat, India is submitted.
21.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of Clearance certificate issued by DRAP Islamabad is submitted. As per clearance certificate material was cleared in name of M/s Vision pharmaceuticals. The firm has submitted a letter addressed to M/s Vision Pharmaceuticals for request of loan of API Ondansetron 100gm. The request is dated 06.12.2022.
22.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
23.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted.

24.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks oF Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	**3.2.S.5**	CoA of working standard for analysis of drug substance by Global Pharmaceuticals (Pvt) Ltd. shall be submitted.	Submitted.
2.	**3.2.P.3.3**	Justification shall be submitted for not performing terminal sterilization of applied product.	Firm has submitted that they are performing terminal sterilization of the product.
3.	**3.2.P.8.3**	Justification shall be submitted for not establishing system suitability as per USP monograph during drug product analysis.	Firm has submitted that system suitabilityhas been performed as per US monograph of Ondansetron injection.
4.	**2.3 .R.1.1**	Justify the dispensed weight of Ondansetron HCl for each batch.	Justification along with calculation has been submitted.

- The said product is already registered on the name of M/s Vision Pharmaceuticals (Pvt) Ltd. and they submitted the justification of manufacturing from M/s Global Pharmaceuticals (Pvt)Ltd. that their section is under renovation.
- As per attached clearance certificate the Drug substance was imported by M/s Vision pharmaceuticals (Pvt) Ltd. instead of M/s Global Pharmaceuticals (Pvt) Ltd. The contract acceptor has submitted that drug substance was taken as loan from M/s Vision pharmaceuticals (Pvt) Ltd. but such intimation is not submitted to DRAP.
- Capacity assessment of the firm M/s Global Pharmaceuticals Pvt. Ltd., (DML#000417) was conducted on 21-10-2022 for the following sections: -

Sr. #	Section	Capacity Available as per Report date 21-10-2022
i.	**Dry powder Injection (cephalosporin)**	**27.66%**
ii.	**Dry powder Injection (Penicillin)**	**78.88%**
iii.	**Dry powder Injection (Carbapenem)**	**83.28%**
iv.	**Liquid Injection ampoule (general)**	**42.35%**

The case was considered in 111th meeting of PRVC wherein following was decided:
"The Chairman Registration Board on recommendation of Committee advised to place the case before Registration Board after submission of justification for toll manufacturing of Doston 8mg/4ml Injection, as the firm M/s Vision Pharma has already approved Liquid Injection (General) section."
Now, the firm has submitted the following:
"This change has been made because of maintenance work at manufacturing facility. The decision has been taken to avoid the shortage of product in market which may cause patient inconvenience".

Decision:

Registration Board acceded to the request of the firm for contract manufacturing of their registered product Doston 8mg Injection (Reg. No. 081892) from M/s. Global Pharmaceuticals (Pvt) Ltd., Plot No. 204-205, Industrial Triangle, Kahuta Road, Islamabad under Rule 20A (1) (d) of the Drugs (Licensing, Registration & Advertising) Rules, 1976 for a period of thirty (30) months only subject to capacity assessment of M/s. Global Pharmaceuticals (Pvt) Ltd., Plot No. 204-205, Industrial Triangle, Kahuta Road, Islamabad.

Case No.02: Change of Brand Name Due to Similarity/Resemblance.

M/s. Abbott Laboratories Pakistan Limited, Karachi has informed that our product Duphaston Registration No.006654 resemblance with M/s. Lahore Chemical & Pharmaceutical Works (Pvt) Ltd. Lahore vide their product Efaston 10mg Tablets Registration No.064835. Accordingly, letter issued to M/s. Lahore Chemical & Pharmaceutical Works (Pvt) Ltd. Lahore to change of brand name. In response the firm has informed that;

It is very surprising that our product Efaston 10mg resemble with Duphaston. We investigate at our end and found following points for clarification.

- No resemblance pronunciation.
- No resemblance found in unit cartoon design/blister.
- No color resemblance.

Keeping in view the above in spite of marketing jealousy it has nothing to do with each other. But only the wish of Abbot Laboratories Pakistan Limited to address us for seen loss of marketing share.

The case was discussed in 114th meeting of Post Registration Variation Committee discussed the case and the Chairman Registration Board on the recommendation of the committee decided to place the case in forthcoming meeting of Registration Board.

Decision:

Registration Board deliberated that both brand names are not similar, hence, did no accede to the request of M/s Abbot Laboratories Pakistan Limited, Karachi.

Case No.03: Change of Brand Name Due to Similarity/Resemblance.

M/s. Neutro Pharma (Pvt) Ltd., Lahore had informed that their product Neupred Syrup, Registration No.044615 resemble with Neoprad 25mg & 50mg Tablet Registration No.060692 & 060693 of M/s. Mcolson Research Lab. (Pvt) Ltd., Sheikhupura. Accordingly, letter was issued to M/s. Mcolson Research Lab. (Pvt) Ltd., Sheikhupura to change the brand names. In response the firm has informed that;

- We got registration of Neoprad 25mg and 50mg Tablets via Registration No. 060692 & 060693 on 4th December 2009, and immediately started its commercial production. Renewal of registration for Neaprad has always been filed within due course of time. (Letter attached for your reference).
- As of today, Neoprad brand is being prescribed by the leading gastroenterologists and physicians across Pakistan and around 1 million patients per annum are getting benefits from this product.
- Faith of the healthcare professionals and patient's satisfaction has made Neoprad 3rd largest selling Levosulpiride brand in Pakistan.
- We have also got the trademark registration from Intellectual Property Organization of Pakistan via file number 324897 (Copy of the letter is attached).

The firm has requested to advise M/s Neutro Pharma Pvt. Ltd. to change their brand name.

The case was discussed in 115th meeting of Post Registration Variation Committee discussed the case and the Chairman Registration Board on recommendation of Committee decided to refer the case to Registration Board.

Now M/s Neutro Pharma (Pvt.) Ltd., Lahore vide letter dated 03-06-2024 submitted the following:

"With reference to the agenda for the 336th meeting of the Registration Board to be held on June 4-6, 2024, in which Post Registration II - Section Case No. 2, Page No. 2873 discussed our brand name resemblance case, we, M/s Neutro Pharma, would like to discuss a few points for your understanding:

1. Our brand name is Neupred, and the opposing brand from Mcolson Pharma is NeoPrad. According to the DRAP and Trademark rules regarding look-alike and sound-alike names, both names are distinctly different in pronunciation.
2. The first three letters and the last three letters of each brand name are not identical.
3. Both products hold a significant market share.
4. Both products serve different therapeutic markets.
5. We recommend that both products should continue with their current names, provided it is acceptable to your competent authority.
6. We have no objection to the continuation of M/s Mcolson Pharma's brand name "NeoPrad" as they are operating in a different therapeutic market.
7. If the competent authority decides that a name change is necessary, we, M/s Neutro Pharma, hereby declare our willingness to change our brand name from "Neupred" to "Neu-Pred" for the ease of the community."

Decision:

Registration Bard decided to ask M/s Neutro Pharma (Pvt.) Ltd., Lahore to change its brand name as per its willingness to change its brand name vide their letter dated 03-06-2024.

Case No. 04: Change of specifications applied by M/s Bayer Pvt. Ltd., Lahore deferred in 121st PRVC.

Sr. No.	Reg. No.	Brand Name & Composition	Proposed Speciications	Reg. & Renewal date	Fee status
1.	017864	**Progynova Tablet** Each Sugar-coated tablet Contains: - Estradiol valerate…….2mg	**Progynova tablet** Each Sugar-coated tablet Contains: - Estradiol valerate…….2mg (Bayer/Innovator Specification)	Reg.Date: - 27-09-1995 Renewal Date: - 26-09-2020 Submission Date: - 08-06-2020	Fee Rs 5,000 deposited date: 15-04-2021
2.	018207	**Climen Tablets** Calendar pack containing 11 tablets of 2mg estradiol valerate plus 10 tablets of 2mg estradiol valerate and1mg cyproterone acetate	**Climen Tablets** Calendar pack containing 11 tablets of 2mg estradiol valerate plus 10 tablets of 2mg estradiol valerate and 1mg cyproterone acetate (Bayer / Innovator's Specification)	Reg.Date: - 27-09-1995 Renewal Date: -26-09-2020 Submission Date: -08-06-2020	Fee Rs 5,000 deposited date: 15-04-2021
3.	024076	**Meliane Tablet** Each tablet Contains: - Gestodene…..0.075mg Ethinylestradiol..0.02mg	**Meliane Tablet** Each tablet Contains: - Gestodene……..0.075mg Ethinylestradiol….0.02mg (Bayer/Innovator's Specification)	Reg.Date: - 15-03-2002 Renewal Date: -14-03-2017 Submission Date: -23-01-2017	Fee Rs 5,000 deposited date: 15-04-2021
Decision of 85th PRVC:	*The Committee evaluated the case and approved the request of firm for grant of innovator's specifications for above mentioned products.*				
Remarks:	The cases were approved in 85th PRVC, however during issuance of approval letter it was observed that dissolution test limits of BP general monograph are stringent than of the firm's. Hence, letter was not issued and firm was asked for clarification. Now the firm has revised limits as per BP monograph.				
Decision of 121st PRVC	*The Chairman Registration Board on recommendation of Committee referred the cases to Registration Board.*				

Decision:

Registration Board acceded to the request of the firm for change in finished product specifications of above products to "Bayer/ Innovator's Specifications".

Case No. 5: M/s. OBS Pharma (Pvt.) Limited, 108-Quaid e Azam Industrial Estate, Kot Lakhpat, Lahore.

M/s. OBS Pharma (Pvt.) Limited, Lahore has requested for additional source of API for their registered drug (s). The details are as under:-

Sr.#	Reg. No.	Name of drug with composition& Reg. No.	Date of Initial Reg. & Renewal	Existing Source	Proposed Additional Source
I	II	III	IV	V	VI
1.	107221	Ciproxin 250mg Tablet	15-01-2023	M/s. Bayer AG, Wuppertal, Bayer AG, Werksteil Elberfeld Friedrich-Ebert-Straβe 217-333 42117, Wuppertal, Germany.	M/s. Zhejiang Guobang Pharmaceutical Co., Ltd., No. 6, Weiwu Road, Hangzhou Gulf Shangyu Economic and Technological

					Development Zone, Zhejiang, P.R. China.

The firm has submitted the following documents:

Sr.#	Required documents as per approved SOPs	Submission
1.	Application with required fee as per relevant SRO.	Rs. 75,000/- deposited (77457718823) datred 16-01-2024
2.	Complete CTD section S1-S7 as per DRAP guidance document on CTD (Form5F)	Provided
3.	Comparative tabulated format of the approved and proposed drug substance manufacture information (where applicable).	Provided
4.	Certificate of analysis and/or batch analysis data (in a comparative tabulated format) for at least two pilot batches of the drug substance from the approved and proposed manufacturing sites	Not Provided
5.	A letter of commitment from marketing authorization/ registration holder to conduct long term and accelerated stability studies for the drug product manufactured with the drug substance from the proposed manufacturing site, and report if any results fall outside shelf-life specifications (with proposed action) or when requested	Provided

Remarks:

Chairman Registration Board is not authorized for such cases by Registration Board.

Decision of 118th PRVC:

The Chairman Registration Board on the recommendation of the Committee advised to place the case before Registration Board after submission of following by the firm:

i. Differential fee of Rs. 225,000.
ii. Copy of Registration letter.
iii. Certificate of analysis and/or batch analysis data (in a comparative tabulated format) for at least two pilot batches of the drug substance from the approved and proposed manufacturing sites.
iv. Evidence of No objection for change in source of API from the MA Holder abroad & pre-qualification of new source by the MA Holder abroad.

Now, the firm has submitted the following documents:

i. Differential fee of Rs. 225000/- vide Challan No. 61278385
ii. Certificate of analysis for three batches of the drug substance from the approved and proposed API manufacturing sites.
iii. Copy of Authorization letter from M/s Bayer Pharma AG, Germany authorizing OBS Pharma to oversee the addition and change of API and excipient sources.
iv. Certificate of suitability (CEP) for Ciprofloxacin Hydrochloride issued in name of M/s Zhejiang Guobang Pharmaceutical Co., Ltd. Shangyu CN.

The firm has also submitted the application for above mentioned additional source of API for their registered product Ciproxin 500mg Tablet (Reg. No. 107222) and paid fee of Rs. 300000 vide challan no. 1144535068 & 30401165552.

Decision:

Registration Board acceded to the request of the firm for additional source of API from M/s. Zhejiang Guobang Pharmaceutical Co., Ltd., No. 6, Weiwu Road, Hangzhou Gulf Shangyu Economic and Technological Development Zone, Zhejiang, P.R. China for their already registered drugs Ciproxin 250mg Tablet (Reg. No. 107221) & Ciproxin 500mg Tablet (Reg. No. 107222).

PRVC CASES EVALUATED BY MR. SALATEEN WASEEM PHILLIP

Case No. 06: Change of Registration Holder (MA holder) along with Change in Manufacturing Site

1.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s The Searle Company Limited (DML # 000016) F-319, S.I.T.E. Karachi**

	Change of Registration Holder (MA Holder)	
	From M/s. Lucky Core Industries (formerly M/s ICI Pakistan Limited) **(DML # 000363)** 32-2A, Phase III, Industrial Estate, Hattar.	**To** **M/s The Searle Company Limited (DML # 000016)** **F-319, S.I.T.E. Karachi**
	Request of Contract Manufacturing	
	Contract Giver (Applicant) **M/s The Searle Company Limited (DML # 000016)** **F-319, S.I.T.E. Karachi**	**Contract Acceptor** M/s CSH Pharmaceuticals (Pvt.) Ltd. **(DML # 000737)** 32-km. Ferozepur Road Lahore.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ **Is involved in none of the above (contract giver)**
	Status of application	☐ New Drug Product (NDP) ☒ **Generic Drug Product (GDP)**
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ **Domestic and Export sales**
	Dy. No. and date of submission	Dy. No. 26191 dated 30-10-2023
	Details of fee submitted	PKR 75,000/-: dated: 23-10-2023 (Invoice # 11781477693)
	The proposed proprietary name / brand name	**Capsule Zeemox 250 mg *(Reg. # 015964)***
		Initial Registration: 20th September 1994
		Transfer of Registration: *(From Cirin to ICI Pakistan)* 03rd March 2020
		Transfer of Registration: *(From ICI to Lucky Core Industries)* 01st March 2023
		Renewal Status: Valid
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Amoxicillin Trihydrate Equivalent to Amoxicillin……...…..……..…250 mg
	Pharmaceutical form of applied drug	Oral Hard Gelatin Capsule
	Pharmacotherapeutic Group of (API)	Beta Lactam Inhibitor (Penicillin)
	Reference to Finished product specifications	BP Specification
	Proposed Pack size	20's & 100's
	Proposed unit price	20's → PKR 150 100's → PKR 650
	The status in reference regulatory authorities	USFDA approved formulation
	For generic drugs (me-too status)	**Amoxil ®** approved for M/s GSK
	GMP status of the Finished product manufacturer	cGMP Certificate valid till **29th November 2024**
	Name and address of API manufacturer.	**Amoxicillin Trihydrate Compacted** M/s Pharmagen Limited.

		Kot Nabi Bukshwala, 34-km Ferozepur Road, Lahore. **GMP valid till 17-11-2024**
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: **Real time:** 30°C ± 2°C / 65% ± 5% RH for 48 months **Accelerated:** 40°C ± 2°C / 75% ± 5%RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Comparator / Innovator Product:** AMOXIL® **Manufacturer: GSK** **Testing Parameters:** BP Specifications **Comparative Dissolution Profile** Comparative dissolution profiles were provided, showing similarity between the manufacturer's product and the reference product.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	**Amoxicillin Trihydrate Compacted** M/s Pharmagen Limited. Kot Nabi Bukshwala, 34-km Ferozepur Road, Lahore.		
API Lot No.	000120/439/2015		
Description of Pack (Container closure system)	ALU-PVC Blister pack		
Stability Storage Condition	Real time: 30°C ± 2°C / 75% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, (Months)		
Batch No.	**OX/CAP250/001**	**OX/CAP250/002**	**OX/CAP250/001**
Batch Size	16500 capsules	16500 capsules	16500 capsules

Manufacturing Date	26-12-2012	26-12-2012	13-01-2013
Date of Initiation	12-2012	12-2012	01-2013
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not applicable
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Amoxicillin Trihydrate** **Invoice #** 2430 **Dated:** 04-10-2012 **Quantity:** 1000 KG
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

- Firm has submitted Pharmaceutical Equivalence of their drug product for pervious and proposed manufacturing site and found satisfactory.
- The formulation of the drug product is same for both manufacturing sites (Previous & existing).
- Inspection of contract acceptor (CSH) for manufacturing/testing capacity assessment needs to be conducted because firm has not been inspected for such purpose for last three years.

Section	Observations	Status
1.1	• Affidavit on stamp paper (Showing name, designation, CNIC number of Contract Giver) **stating installed capacity of the contract acceptor for contract manufacturing.**	Submitted
	• Please repeat the format of Contract and submit legalized copy of contract between contract giver and contract acceptor on stamp paper presenting the capacities of the contract acceptor for the manufacturing sections for whom the products have been applied.	Submitted

Decision: Registration Board acceded to the request of the applicant for Change of Registration holder (MA holder) and change of manufacturing site as under

Capsule Zeemox 250 mg *(Reg. # 015964)*

(Existing)	**(Proposed)**
Drug Product Registration Holder along with manufacturing site M/s. 3.	Documents for the procurement of API with approval from DRAP (in case of import)	**Dated:** 18-11-2019 **Quantity:** 100 KG
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of the Evaluator:

Section	Observations	Status
1.1	• Affidavit on stamp paper (Showing name, designation, CNIC number of Contract Giver) **stating installed capacity of the contract acceptor for contract manufacturing.**	Submitted
	• Please repeat the format of Contract and submit legalized copy of contract between contract giver and contract acceptor on stamp paper presenting the capacities of the contract acceptor for the manufacturing sections for whom the products have been applied.	Submitted
1.6.5	• Please submit GMP certificate of API manufacturer issued by regulatory authority of country of origin and should be valid till date.	Submitted
3.2.P.8	• Please submit data regarding in-use stability of vial after reconstitution.	Submitted

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) and change of manufacturing site as under

Fortecin Powder for injection 1.2G *(Reg. # 015980)*

(Existing)	**(Proposed)**
Drug Product Registration Holder along with manufacturing site M/s. Lucky Core Industries (DML # 000363) (*formerly M/s ICI Pakistan Limited*) 32-2A, Phase III, Industrial Estate, Hattar.	**Drug Product Registration Holder** M/s The Searle Company Limited (DML # 000016) F-319, S.I.T.E. Karachi **Drug Product Manufacturing Site (Contract Basis)** M/s Stallion Pharmaceuticals (Pvt) Ltd. (DML # 000783) Plot No. 581 Sunder Industrial Estate Lahore.

Case No. 07: <u>Cases of Change of Manufacturer from Self Manufacturing to Contract Manufacturer along with change of container Closure system (Primary packing)</u>

The firm M/s Martin Dow Marker Ltd. Quetta has submitted request for change of manufacturing site of their product Advit D Injection 200,000IU from own site to M/s Hudson Pharma Private Limited D-93, North Western Industrial Zone, Port Qasim, Karachi, Sindh 75350, Pakistan along with request to change container closure system from glass ampoule to LDPE ampoule manufactured by BFS technology. The evaluation of submitted dossier is given below;

5.	**From self-manufacturing to contract manufacturing Along with Change in Primary Packaging Material**	
	Name, address of Applicant / Marketing Authorization Holder	**M/s Martin Dow Marker Limited, 7-Jail Road, Quetta**
	Existing Manufacturer	M/s Martin Dow Marker Limited, 7-Jail Road, Quetta. (Self-manufacturing in glass ampoule)
	Name, address of Manufacturing site.	M/s Hudson Pharma Private Limited D-93, North Western Industrial Zone, Port Qasim, Karachi, Sindh 75350, Pakistan

	Status of the applicant	☐ Manufacturer ☐ Importer ☒ **Is involved in none of the above (contract giver)**
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 33666 dated 22-11-2022
	Details of fee submitted	PKR 75,000/- Dated 10-11-2022 Slip #703651794775
	The proposed proprietary name / brand name	**Advit D Injection 200,000IU** *(Reg. No. 93025)* dated: 31-12-2018 Renewed till 30-12-2028
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 1ml LDPE Ampoule contains: Cholecalciferol…….. 5mg (200,000 IU)
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of section dated 30-08-2016 specifying Plastic Ampoules (BFS Technology) section.
	GMP status of the firm	Certificate No:58/2022-DRAP (Q)/K issued on 4th April 2022 Plastic Ampoules (General), Cream/Ointment/Lotion/Gel (General), Capsule DPI (Steroidal), Capsule (General), Eye/Ear & Nasal Drops (General), Injectable Ampoule BF (Steroid)
	Pharmacotherapeutic Group of (API)	Vitamin D Analog
	Pharmaceutical form of applied drug	Pale Yellow oily liquid
	Reference to Finished product specifications	Innovator's Specification
	Proposed Pack size	As per DPC
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	RRA: France Product Name: Vitamin D3 B.O.N
	For generic drugs (me-too status)	Name: Indrop-D Manufacturer: LABORATORIES BOUCHARA RECORDATI Importer: Neutro Pharma Pvt. Ltd Composition: Each ml contains: Cholecalciferol…….. 5mg (200,000 IU) Pack size: 1Ampoule x1ml
	Name and address of API manufacturer.	**Cholecalciferol:** FERMENTIA BIOTECH LIMITED Z-109 B & C, SEZ II, Dahej Taluka – Vagara, Dist: Bharuch-392130 Gujarat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance

		and drug product is submitted.
	Module-III Drug Substance:	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Stability study conditions:** Real time: 5°C ± 3°C for 36 months Accelerated: 25°C ± 2°C / 60% ± 5%RH for 6 months **Batches:** Real Time: CLC0416005, CLC0416006, CLC0416007 Accelerated Time: CLC0416005, CLC0416006, CLC0416007
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against product Indrop-D (HP998) manufactured by LABORATORIES BOUCHARA RECORDATI France. CDP: **Not Applicable**.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	**Cholecalciferol:** FERMENTIA BIOTECH LIMITED Z-109 B & C, SEZ II, Dahej Taluka – Vagara, Dist: Bharuch-392130 Gujarat, India		
API Lot No.	**Cholecalciferol:** Invoice No: TM20190403A, Batch No**:** CLC0419019		
Description of Pack (Container closure system)	LDPE Ampoule		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 24 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9 ,12 & 24 (Months)		
Batch No.	B#20A003	B#20A004	B#20C009
Batch Size	100 Litres	100 Litres	100 Litres
Manufacturing Date	01-2020	01-2020	03-2020
Date of Initiation	01-2022	01-2022	03-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Cholecalciferol:** FERMENTIA BIOTECH LIMITED Z-109 B & C, SEZ II, Dahej Taluka – Vagara, Dist: Bharuch-392130 Gujarat, India Validity: 25-03-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice cleared on 18-11-2019. The invoice is cleared by AD (I&E) DRAP
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing along with chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.No	Query	Response
1	As per filling order (manufacturing order, of batch manufacturing record for commercial batches, both LDPE and HDPE are being dispensed. However, the container closure system described for the applied product is that of LDPE ampoule.	Firm has submitted that the container closure system is PE ampule and it was typographical error and written as HDPE instead of LDPE.
2	As per BP/Eu. Ph monograph for API Cholecalciferol, the storage conditions are given as "Under nitrogen, in an airtight container, protected from light, at a Temperature of 2 degree Celsius to 8 degrees Celsius. Provide evidence of availability of required storage facilities of Cholecalciferol.	Firm has submitted the evidence of storage facility of 2-8 ^{o}C and its log however, evidence of 'under Nitrogen' condition is not provided.
3	Provide evidence that the finished drug specification complies innovator specifications.	Firm has submitted that they have developed in-house specification from innovator's specifications, therefore, both are same and they changed product specifications from in-house specifications to innovator's specification and CoA also provided.
4	As per stability summary data sheet submitted for commercial batch No. 20A004, the date of initiation of stability studies given as 13-01-2020, while date of initial testing mentioned as 18-01-2020.	Firm has submitted that it was typographical error which they have corrected it and revised data sheet provided.
5	As per COA of finished product (Vydee injections) of contract acceptor, the product complies in-house specification. While for the applied product of contract giver, the innovator specifications mentioned.	Firm has submitted that they have developed in-house specification from innovator's specifications, therefore, both are same and they changed product specifications from in-house specifications to innovator's specification and CoA also provided.

6	As per in-process ampoule filling record, the fill volume given as 1.2ml, while strength/ concentration of applied product is Cholecalciferol… 5mg/ml. Justify excess filling volume since a 20% extra API (Cholecalciferol) as overage had also been added.	Firm has submitted a justification that the overage is in accordance with the limits mentioned in the general monographs of USP, however, USP limits for recommended excess volume for 1ml size injection is 0.10ml for Mobile liquids and 0.15ml for Viscous liquid and firm's excess volume does not fall in either of them.
7	Provide evidence of availability of reference product in LPDE ampoule.	Firm has submitted that the same product of contract acceptor has already been registered by the Registration Board in LDPE ampule i.e. Vydee Injection and for which they have submitted the relevant stability study data at the time of its registration.
8	Provide evidence of import/procurement of reference (Indrop-D) product claimed to be utilized for pharmaceutical equivalence studies.	Firm has submitted that they procured the marketed brand Indrop-D from market.
9	Provide evidence of generic/Me-too drug product with same container closure system (LDPE) as claimed for the applied product.	Vydee Injection manufactured by M/s Hudson Pharma Pvt. Ltd.

Decision of PRV meeting: -

The Chairman Registration Board on recommendation of Committee advised to place the case before Registration Board after submission of following by the firm:

S #	Observations	Reply of the firm
1.	Justification for change of container closure system from glass ampoule to LDPE.	The purpose of this change is to meet international standards as well as this change would be beneficial in transportation of material as LDPE (Low Density Polyethylene) ampoules are flexible & non-fragile. On the other hand, it would be better for patients compliance that minimize possible injuries or cuttings, unlike other materials like glass.
2.	Evidence of storage facility for drug substance 'under Nitrogen' condition.	API comes in pouches of 100 grams which usually fully utilized once opened. However, in case any pouch required to be re-sealed then it is done by performing nitrogen purging just after the dispensing procedure.
3.	Real time stability studies data of the registered product (Vydee Injection) of M/s Hudson Pharmaceuticals for its whole claimed shelf life.	Submitted .
4.	Justification of excess fill volume above the limits mentioned in USP general monograph.	A reference from USP CHAPTER 1151submitted wherein 2% excess volume is allowed for mobile liquids.
5.	Capacity Assessment report of contract acceptor M/s. Hudson Pharma Private Limited	The firm submitted Renewal of DML report and claiming it as capacity assessment report

Remarks: The case has been evaluated again and letter of shortcoming has been issued to firm for following points: -

Section	Observations	Reply of the firm
1.3.4	• The inspection report submitted cannot be considered as capacity assessment report. Please submit the capacity assessment report issued by DRAP Regional Office.	The contract acceptor "Husdon Pharma" arranging capacity inspection to their manufacturing facility soon, in the meanwhile we request you to please include our application in the coming DRB agenda.
3.2.P.8	• Please submit supporting data (chromatograms, raw	Submitted

	sheets, calculation sheet) for the stability data of Vyde Injection in LDPE packing.
Decision: Registration Board acceded to the request of the applicant for change in manufacturing site as contract manufacturing along with primary container of the drug product as under: -	
Advit D Injection 200,000IU *(Reg. No. 93025)*	
Existing manufacturing site	**Proposed manufacturing site (Contract Basis)**
M/s Martin Dow Marker Limited (DML# 000028) 7-Jail Road, Quetta. **Primary container:** Glass ampoule	M/s Hudson Pharma Private Limited (DML# 000842) D-93, North Western Industrial Zone, Port Qasim, Karachi, Sindh 75350, Pakistan **Primary container:** LDPE ampoules

Case No. 08: Change of Registration Holder (MA Holder)

6.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Indus Pharma (Pvt) Ltd. (DML # 000124) Plot No. 26, 27, 63, 64, 65, 66 & 67 Sector 27 Korangi Industrial Area Karachi.**
	Change of Registration Holder (MA Holder) along with manufacturing site	
	From M/s Dynatis Pakistan (Pvt) Ltd. (DML # 000891) Plot No. 710, Sunder Industrial Estate, Lahore	**To M/s Indus Pharma (Pvt) Ltd. (DML # 000124) Plot No. 26, 27, 63, 64, 65, 66 & 67 Sector 27 Korangi Industrial Area Karachi.**

	Dy. No. and date of submission	Dy. No. 27707 dated 27-11-2023
	Details of fee submitted	PKR 30,000/-: dated: 22-09-2023 (Invoice # 49347483459)
	The proposed proprietary name / brand name	**Tablet Tofranil 25 mg *(Reg. # 000644)***
		Transfer of Registration: *(From Indus to Dynatis)* 24th June 2022
		Renewal Status: Valid
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each sugar coated tablet contains: Imipramine HCl ……..…….……..…25 mg
	Pharmaceutical form of applied drug	Oral Tablet dosage form
	Pharmacotherapeutic Group of (API)	Tricyclic antidepressants
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	European Medicine Agency approved formulation
	For generic drugs (me-too status)	Imipramine Tablet 25 mg **by Delta Pharma.**
	GMP status of the Finished product manufacturer	**Section:** Tablet (General) Section. **Approval by CLB:** 275th meeting of CLB. **GMP Certificate** issued on the basis of inspection report dated 17th December 2021.
	Name and address of API manufacturer.	M/s Harika Drugs Private Limited. Sy.No.165/A & 165/E, Gummadidala Village, Sangareddy District, Telangana State, Gummadidala (Village), Gummadidala (Mandal), Sangareddy (Dist.), Telangana, India. **GMP valid till 21-11-2025**
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference

		standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Stability study conditions: **Real time:** 30˚C ± 2˚C / 65% ± 5% RH for 72 months **Accelerated:** 40˚C ± 2˚C / 75% ± 5%RH for 06 months
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Comparator / Innovator Product:** IMIPRAMINE TABLETS BP 25mg **Manufacturer:** Accord, Barnstaple, EX32 8NS, UK. **Testing Parameters:** USP Specifications **Comparative Dissolution Profile** Comparative dissolution profiles were provided, showing similarity between the manufacturer's product and the reference product.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

STABILITY STUDY DATA

Manufacturer of API	M/s Atlas Life Sciences (Private) Limited. C-1/360-361, G.I.D.C. ODHAV, Dist. Ahmedabad, India.		
API Lot No.	HIHCPN004, HIHCPN001,NIMP/523		
Description of Pack (Container closure system)	Packed in ALU-PVC Blister strips		
Stability Storage Condition	Real time: 30°C ± 2°C / 75% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 36 months Accelerated: 06 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 18, 36, (Months)		
Batch No.	**144**	**175**	**108**
Batch Size	750,000 Tablets	750,000 Tablets	750,000 Tablets
Manufacturing Date	11-2019	10-2020	09-2018
Date of Initiation	29-11-2019	13-10-2020	24-09-2018
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	provided	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Dated:**	**Quantity:**
		13-08-2018	250 KG
		03-09-2020	200 KG
		17-09-2019	100 KG
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.	

Remarks of the Evaluator:

Section	Observations	Status
3.2.P.2	• As per DRAP's Guidelines for Post Registration Variation (Ma V - I), please clarify whether there is change in source of API between existing and proposed site of drug manufacturer?	No change
	• As per DRAP's Guidelines for Post Registration Variation (Ma V - 3), please submit Revised drafts of the package insert and labelling incorporating the proposed variation (where applicable).	Submitted
	• Certificate of analysis and/or batch analysis data (in a comparative tabulated format) of drug product of at least two production batches from the proposed site and last three batches from the approved site.	Submitted

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

Tablet Tofranil 25 mg *(Reg. # 000644)*

Existing MAH & manufacturing site	Proposed MAH & manufacturing site

Manufacturing Date	06.10.2022	06.10.2022
Date of Initiation	20.10.2022	20.10.2022
No. of Batches	02	

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not Applicable as DRAP has granted new section approval of Cephalosporin Products (Tablets, Capsules, Dry Powder Suspension & Dry Powder Injection).
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate No. 204/2022-DRAP (AD/159531263130-530) dated 22.11.2022 issued by Drug Regulatory Authority of Pakistan (Valid upto 17.11.2024).

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Invoice No.: 75 dated 13-07-2022 for 14kg of Cefixime (Micronized) from API manufacturer.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).	Submitted

Remarks of Evaluator:

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

Cefiget Powder for Oral Suspension 100mg/5mL (Reg. # 045119)

Existing MAH	**Approved MAH & manufacturing site**
M/s Getz Pharma (Pvt.) Ltd **(DML # 000284)** Plot # 29 – 30, Sector 27, Korangi Industrial Area, Karachi.	M/s Getz Pharma (Pvt.) Ltd. (DML # 000933) Plot No. 01, Sector 25, Korangi Industrial Area, Karachi.

Contract manufacturing at: M/s Opal Laboratories (Pvt.) Ltd, LC-41., L.I.T.E, Landhi, Karachi.	**Change of Registration Holder (MA Holder) along with Change in Manufacturing site at:** M/s Getz Pharma (Pvt) Ltd **(DML # 000933)** Plot # 01, Sector 25, Korangi Industrial Area, Karachi
Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
GMP status of the firm	DRAP has granted new section approval for manufacturing of Cephalosporin products dated 27-02-2023.
Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of Cephalosporin section dated 27-02-2023 specifying

		Tablet (Cephalosporin), Capsules (Cephalosporin), Dry Powder Suspension (Cephalosporin) & Dry Powder Injection (Cephalosporin) sections.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 12964 dated 25-05-2023
	Details of fee submitted	PKR 30,000/- Dated 30.01.2023
	The proposed proprietary name / brand name	**Cefiget DS Powder for Oral Suspension 200mg/5mL**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each reconstituted 5mL contains: Cefixime USP … 200mg (As Cefixime trihydrate)
	Pharmacotherapeutic Group of (API)	Anti-infective for systemic use (Third-generation cephalosporins)
	Pharmaceutical form of applied drug	White to cream color free flowing granular powder filled in HDPE plastic bottle.
	Reference to Finished product specifications	USP Specification
	Proposed Pack size	30mL
	Proposed unit price	Rs. 349.12/- for 30mL
	The status in reference regulatory authorities	Cefixime Suspension 200mg/5mL by M/s Aurbindo Pharma Ltd., USA. **(USFDA Approved)**
	For generic drugs (me-too status)	Cefiget DS Powder for Oral Suspension 200mg/5mL by M/s Getz Pharma (Pvt.) Ltd., Pakistan. **(Reg.No. 045120)**
	Name and address of API manufacturer.	**M/s Pharmagen Ltd.** Kot Nabi Bukhsh Wala, 34-km, Ferozepur Road, Lahore – Pakistan.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence study of their product **Cefiget DS Powder for Oral Suspension 200mg/5mL** against the comparator product **Cefspan DS Suspension 200mg/5mL** by **M/s Barrett Hodgson Pakistan (Pvt.) Ltd.**
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Onsite inspection report of Getz Pharma product Emclide (Empagliflozin & Linagliptin) Tablets 10mg + 5mg was discussed and approved in 316th RB Meeting held on March 15-18, 2022. The inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. The firm have number of HPLC with Empower 3 and DB software having following features: ✓ Have Audit trail ✓ Have backup system ✓ Have Data traceability ✓ Have Data achieving system ✓ Have data integrity ✓ Have Data security ✓ System Security Policy • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. Related manufacturing area, equipment, personnel and utilities are in compliance.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Empagliflozin: Copy of Drug Manufacturing License no. Su 20160324 issued by Jiangsu Drug Administration (Huai'an Inspection Branch) valid till 06-12-2025. Metformin HCl: Copy of GMP Certificate No. SD20190888 issued by China food and Drug Administration (CFDA), China valid till 12-03-2024.

3. Documents for the procurement of API with approval from DRAP (in case of import).

Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.

Empagliflozin:

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP

4. Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.

   Firm has submitted data of stability batches along with attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets.

5. Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

   Firm has submitted compliance certificate of HPLC software.

6. Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

   Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of the Evaluator:

Firm has submitted the following documents as per WHO TRS 981,2013 (47th report, Annex 3) and SOP guidelines stated in 283rd DRB meeting minutes:

- Stability Data of 3 batches till shelf life manufactured at their existing facility located at Plot No. 29 – 30, Sector 27, Korangi Industrial Area.

- Stability Data of 2 stability batches at initial, 3rd month and 6th month time point have also been submitted by manufacturer from new facility located at Plot No. 01, Sector 25, Korangi Industrial Area as per Guidance Document for Submission of Application on Form 5-F (CTD) for registration of pharmaceutical drug products for human use issued in October, 2021.
- Comparative Dissolution Profile and Pharmaceutical Equivalence studies of the product with the innovator from existing manufacturing facility & also submitted Comparative Dissolution Profile against comparator product from new manufacturing facility.
- Comparative batch analysis data on two batches from the new facility and comparative data on three batches from the existing facility.
- Firm has submitted Executed Production document of stability batch.
- Firm has submitted Process Validation Protocol.
- Firm has submitted undertakings that process validation, accelerated and real time stability studies on 03 commercial batches at new manufacturing facility will be conducted & in case of any quality complaint / OOS result as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately.
- Analytical Method Verification / validation studies of API & Finished product.
- Valid GMP/DML of the API manufacturer submitted.

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

North-East of Dongwaihuan Road, Dongcheng Industrial Area, Shouguang City, Shandong Province, China.
Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
Module-III Drug Substance:	Empagliflozin: Official monograph of Empagliflozin is not present in any pharmacopeia. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Metformin HCl: Official monograph of Metformin HCl is present in USP. The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurities & related substances, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Empagliflozin: Real time: 30°C ± 2°C / 65% ± 5%RH for 18 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months

	Batches: (L-E-20200409-D01-E06-02, L-E-20200409-D01-E06-03, L-E-20200409-D01-E06-04) <u>Metformin HCl:</u> Real time: 30°C ± 2°C / 75% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (A-72611405016, A-72611405017,A-72611405018)
Module-III Drug Product:	Firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
Pharmaceutical Equivalence and Comparative Dissolution Profile	**Getz Pharma (Pvt.) Limited** **Plot no. 29-30, sector 27 Korangi Industrial Area, Karachi (Existing Facility)** Comparative Dissolution Profile studies of Diampa-M Tablets 12.5mg + 500mg against the reference product Jardiance Duo Tablets 12.5mg/500mg (M/s Boehringer Ingelheim Pharma GmbH & Co., Germany), in three dissolution mediums wherein more than 85% of drug is released in 15 minutes. Pharmaceutical Equivalence Studies of Diampa-M Tablets 12.5mg + 500mg against the reference product Jardiance Duo Tablets 12.5mg/500mg (M/s Boehringer Ingelheim Pharma GmbH & Co., Germany), by performing quality tests (Appearance, Assay, Dissolution, Identification & Related Substances). **Getz Pharma (Pvt) Limited** **Plot No. 01, Sector 25 Korangi Industrial Area, Karachi (New Facility)** Firm has also submitted the Comparative Dissolution Profile studies of Diampa-M Tablets 12.5mg + 500mg (new site) against the reference product Diampa-M Tablets 12.5mg + 500mg (existing site) in Routine Release Medium wherein more than 85% of drug is released in 15 minutes.
Analytical method validation/ verification of product	Firm has submitted verification studies of the drug substance and drug product.
Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long-term conditions form existing manufacturing site and stability studies of two batches from new manufacturing site.

STABILITY STUDY DATA (Plot No. 29-30, Sector 27, Korangi Industrial Area, Karachi)

Manufacturer of APIs	**Empagliflozin:** <u>Fuxin Long Rui Pharmaceutical Co., Ltd.</u> Fluoride Industrial Park, Fumeng County (Yi Ma Tu), Fuxin City, Liaoning Province -123000, China **Metformin HCl:** <u>Shouguang Fukang Pharmaceutical Co., Ltd.</u>

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Onsite inspection report of Getz Pharma product Emclide (Empagliflozin & Linagliptin) Tablets 10mg + 5mg was discussed and approved in 316th RB Meeting held on March 15-18, 2022. The inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. The firm have number of HPLC with Empower 3 and DB software having following features: ✓ Have Audit trail ✓ Have backup system ✓ Have Data traceability ✓ Have Data achieving system ✓ Have data integrity ✓ Have Data security ✓ System Security Policy • Audit trail on the testing reports is available. • Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well. Related manufacturing area, equipment, personnel and utilities are in compliance.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	<u>Empagliflozin:</u> Copy of Drug Manufacturing License no. LIAO 20150233 issued by Liaoning Medical Products Administration valid till 17-11-2027. <u>Metformin HCl:</u> Copy of GMP Certificate No. SD20190888 issued by China Food & Drug Administration (CFDA), China valid till 12-03-2024.

3. Documents for the procurement of API with approval from DRAP (in case of import).

Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.

Empagliflozin:

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
L-E-20200629-D02-E06-01	HN20201111-1	50kg	20-11-2020

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1. Reference of previous approval of applications with stability study data of the firm (if any)

Getz Pharma (Pvt.) Limited situated at Plot No. 01, Sector 25 Korangi Industrial Area, Karachi is a new License facility hence no such inspection has been conducted (existing inspection)

2. Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

Empagliflozin: Copy of Drug Manufacturing License no. LIAO 20150233 issued by Liaoning Medical Products Administration valid till 17-11-2027.

Metformin HCl: Copy of GMP Certificate No. SD20190888 issued by China Food & Drug Administration (CFDA),, China valid till 12-03-2024.

3. Documents for the procurement of API with approval from DRAP (in case of import).

Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.

Empagliflozin:

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
H-CP035220901C	HN20220818-E-1	32 Kg	17.10.2022

Metformin HCl:

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
A-22612205091-0150	JC202203068-1	2000 kg	28.07.2022

4. Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.

Firm has submitted data of stability batches along with attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets.

5. Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Firm has submitted compliance certificate of HPLC software.

6. Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of the Evaluator:

firm has submitted the following documents as per WHO TRS 981,2013 (47th report, Annex 3) and SOP guidelines stated in 283rd DRB meeting minutes:

- Stability Data of 3 batches till shelf life manufactured at their existing facility located at Plot No. 29 – 30, Sector 27, Korangi Industrial Area.
- Stability Data of 2 stability batches at initial, 3rd month and 6th month time point have also been submitted by manufacturer from new facility located at Plot No. 01, Sector 25, Korangi Industrial

Area as per Guidance Document for Submission of Application on Form 5-F (CTD) for registration of pharmaceutical drug products for human use issued in October, 2021.

- Comparative Dissolution Profile and Pharmaceutical Equivalence studies of the product with the innovator from existing manufacturing facility & also submitted Comparative Dissolution Profile against comparator product from new manufacturing facility.
- Comparative batch analysis data on two batches from the new facility and comparative data on three batches from the existing facility.
- Firm has submitted Executed Production document of stability batch.
- Firm has submitted Process Validation Protocol.
- Firm has submitted undertakings that process validation, accelerated and real time stability studies on 03 commercial batches at new manufacturing facility will be conducted & in case of any quality complaint / OOS result as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately.
- Analytical Method Verification / validation studies of API & Finished product.
- Valid GMP/DML of the API manufacturer submitted.

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

Diampa-M Tablets 12.5mg + 500mg (Reg. # 105551)

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1. Reference of previous approval of applications with stability study data of the firm (if any)

Onsite inspection report of Getz Pharma product Emclide (Empagliflozin & Linagliptin) Tablets 10mg + 5mg was discussed and approved in 316th RB Meeting held on March 15-18, 2022. The inspection report confirms following points:

- The HPLC software is 21CFR Compliant as per record available with the firm. The firm have number of HPLC with Empower 3 and DB software having following features:
  - ✓ Have Audit trail
  - ✓ Have backup system
  - ✓ Have Data traceability
  - ✓ Have Data achieving system
  - ✓ Have data integrity
  - ✓ Have Data security
  - ✓ System Security Policy
- Audit trail on the testing reports is available.
- Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.

Related manufacturing area, equipment, personnel and utilities are in compliance.

2. Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

Empagliflozin: Copy of Drug Manufacturing License no. LIAO 20150233 issued by Liaoning Medical Products Administration valid till 17-11-2027.

Metformin HCl: Copy of GMP Certificate No. SD20190888 issued by China Food & Drug Administration (CFDA), China valid till 12-03-2024.

3. Documents for the procurement of API with approval from DRAP (in case of import).

Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.

Empagliflozin:

Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of the Evaluator:

firm has submitted the following documents as per WHO TRS 981,2013 (47th report, Annex 3) and SOP guidelines stated in 283rd DRB meeting minutes:

- Stability Data of 3 batches till shelf life manufactured at their existing facility located at Plot No. 29 – 30, Sector 27, Korangi Industrial Area.
- Stability Data of 2 stability batches at initial, 3rd month and 6th month time point have also been submitted by manufacturer from new facility located at Plot No. 01, Sector 25, Korangi Industrial Area as per Guidance Document for Submission of Application on Form 5-F (CTD) for registration of pharmaceutical drug products for human use issued in October, 2021.
- Comparative Dissolution Profile and Pharmaceutical Equivalence studies of the product with the innovator from existing manufacturing facility & also submitted Comparative Dissolution Profile against comparator product from new manufacturing facility.
- Comparative batch analysis data on two batches from the new facility and comparative data on three batches from the existing facility.
- Firm has submitted Executed Production document of stability batch.
- Firm has submitted Process Validation Protocol.
- Firm has submitted undertakings that process validation, accelerated and real time stability studies on 03 commercial batches at new manufacturing facility will be conducted & in case of any quality complaint / OOS result as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately.

- Analytical Method Verification / validation studies of API & Finished product.
- Valid GMP/DML of the API manufacturer submitted.

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

Diampa-M Tablets 12.5mg + 850mg (Reg. # 105552)

Existing MAH & manufacturing site	**Proposed MAH & manufacturing site**
M/s Getz Pharma (Pvt.) Ltd **(DML # 000284)** Plot # 29 – 30, Sector 27, Korangi Industrial Area, Karachi.	M/s Getz Pharma (Pvt.) Ltd. (DML # 000933) Plot No. 01, Sector 25, Korangi Industrial Area, Karachi.

Case No. 11: Change of Registration Holder (MA Holder) <u>along with Change in Manufacturing Site for the registered drug product "Tablet Starcox" in strength of 60mg , 90mg & 120mg.</u>

16.	**Name of the Applicant /Market Authorization Holder**	**M/s Getz Pharma (Pvt) Ltd (DML # 000284)** **Plot # 29 – 30, Sector 27, Korangi Industrial Area, Karachi**
	Change of Registration Holder (MA Holder)	
	From	**To**
	M/s Getz Pharma (Pvt) Ltd (DML # 000284) **Plot # 29 – 30, Sector 27, Korangi Industrial Area, Karachi.**	**Change of Registration Holder (MA Holder) along with Change in Manufacturing site at:** **M/s Getz Pharma (Pvt) Ltd (DML # 000933)** **Plot # 01, Sector 25, Korangi Industrial Area, Karachi**
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 27291 (dated: 20-11-2023)
	Details of fee submitted	PKR 30,000/-: dated: 16-05-2022 (Invoice # 6975739482)
	The proposed proprietary name / brand name	Starcox Tablets 60mg **Registration No.:** 075969 **Initial registration:** 30th May 2013 **Renewal Status:** application submitted within time.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film-coated tablet contains: Etoricoxib… 60mg
	Pharmaceutical form of applied drug	Film-coated Tablets
	Pharmacotherapeutic Group of (API)	Anti-Inflammatory and Antirheumatic product, non-steroid, coxib
	Reference to Finished product specifications	Innovator's Specifications
	Proposed Pack size	10's
	Proposed unit price	Rs. 212.93 for 10's

	The status in reference regulatory authorities	Arcoxia (Etoricoxib) Tablets 60mg by Organon Pharma (UK) Limited UK **MHRA approved**
	For generic drugs (me-too status)	Starcox Tablets 60mg (Reg. No.: 075969) by M/s Getz Pharma (Pvt.) Limited
	GMP status of the Finished product manufacturer	Dry Powder injection (cephalosporin) Section granted in 289th meeting of Central Licensing Board held on 23-02-2023.
	Name and address of API manufacturer.	**M/s Glenmark Life Sciences Limited.** Plot no. 141-143, 160-165, 170-172, Chandramouli Sahakri Audyogik Vasahat Maryadit., Pune-Hyderabad Highway, Mohol Solapur - 413213, Maharashtra State, India.
	Module-II (Quality Overall Summary)	The firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 60 months. (Batch No.: 071400955, 071400969, 071400979)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	**Getz Pharma (Pvt) Limited** **Plot no. 29 – 30, sector 27 Korangi Industrial Area, Karachi (Existing Facility)** Comparative Dissolution Profile studies of Starcox Tablets 60mg against the reference product Arcoxia Tablets 60mg by M/s Merck Sharp & Dohme Greece, in three dissolution mediums has been submitted with acceptable level of f2 results. Pharmaceutical Equivalence Studies of Starcox Tablets 60mg against the reference product Arcoxia Tablets 60mg by M/s Merck Sharp & Dohme Greece, by performing quality tests (Appearance, Average weight, Assay and Dissolution).

		Getz Pharma (Pvt) Limited **Plot No. 01, Sector 25 Korangi Industrial Area, Karachi (New Facility)** Firm has also submitted the Comparative Dissolution Profile studies of Starcox Tablets 60mg (New Site) against the reference product Starcox Tablets 60mg (Existing Site) in routine release Medium.
	Analytical method validation/verification of product	Firm has submitted report of validation of analytical method for the drug product including system suitability, specificity, accuracy, repeatability, intermediate precision, linearity, range & robustness.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1. Reference of previous approval of applications with stability study data of the firm (if any) — NA
2. Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. — Firm has submitted copy of GMP certificate No.: **NEW-WHO-GMP/CERT/PD/104460/2021/11/36840** issued by Food and Drug Administration, Maharashtra State, India is valid till **29.07.2024.**
3. Documents for the procurement of API with approval from DRAP (in case of import). — Copy of invoice attested by AD I&E DRAP, Karachi, has been submitted.

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
85210041	F32200000766	125kg	21.10.2021

4. Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc. — Firm has submitted data of stability batches along with attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets.
5. Compliance Record of HPLC software 21CFR & audit trail reports on product testing. — Firm has submitted compliance certificate of HPLC software.
6. Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated) — Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of the Evaluator:

The firm has submitted the following documents as per WHO TRS 981,2013 (47th report, Annex 3) and SOP guidelines stated in 283rd DRB meeting minutes:

- Stability Data of 3 batches till shelf life manufactured at their existing facility located at Plot No. 29 – 30, Sector 27, Korangi Industrial Area.
- Stability Data of 2 stability batches at initial, 3rd and 6th time point have also been submitted by manufacturer from new facility located at Plot No. 01, Sector 25, Korangi Industrial Area as per Guidance Document for Submission of Application on Form 5-F (CTD) for registration of pharmaceutical drug products for human use issued in October, 2021.
- Comparative Dissolution Profile and Pharmaceutical Equivalence studies of the product with the innovator from existing manufacturing facility & also submitted Comparative Dissolution Profile against reference product from new manufacturing facility.
- Comparative batch analysis data on two batches from the new facility and comparative data on the last three batches from the existing facility.
- Firm has submitted Executed Production document of stability batch.
- Firm has submitted Process Validation Protocol.
- Firm has submitted undertakings that process validation, accelerated and real time stability studies on 03 commercial batches at new manufacturing facility will be conducted & in case of any quality complaint / OOS result as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately.
- Analytical Method Verification / validation studies of API & Finished product.
- Valid GMP Certificate of the API manufacturer submitted.

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

	Evidence of approval of manufacturing facility	Firm has been granted new License (DML 000933) by way of formulation dated 25-05-2021, with approved Tablets, Capsules & Dry Powder Suspension sections.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No.:
	Details of fee submitted	PKR 30,000/-: 17-05-2022
	The proposed proprietary name / brand name	**Starcox Tablets 120 mg** **Registration No.:** 105294 **Initial registration:** 19th October 2020 **Renewal Status:** not yet due
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film-coated tablet contains: Etoricoxib… 120mg

Pharmaceutical form of applied drug	Film-coated Tablets
Pharmacotherapeutic Group of (API)	Anti-Inflammatory and Antirheumatic product, non-steroid, coxib
Reference to Finished product specifications	Innovator's Specifications
Proposed Pack size	1's & 7's
Proposed unit price	Rs. 31.62 for 1's & Rs. 212.75 for 7's
The status in reference regulatory authorities	Arcoxia (Etoricoxib) Tablets 120mg by Organon Pharma (UK) Limited UK **MHRA approved**
For generic drugs (me-too status)	Starcox Tablets 120mg (Reg. No.: 105294) manufactured by M/s Getz Pharma (Pvt.) Limited Plot No. 29 -30, Sector 27, Korangi Industrial Area, Karachi
Name and address of API manufacturer.	**M/s Glenmark Life Sciences Limited.** Plot no. 141-143, 160-165, 170-172, Chandramouli Sahakri Audyogik Vasahat Maryadit., Pune-Hyderabad Highway, Mohol Solapur - 413213, Maharashtra State, India.
Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 60 months. (Batch No.: 071400955, 071400969, 071400979)
Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
Pharmaceutical Equivalence and Comparative Dissolution Profile	**Getz Pharma (Pvt) Limited** **Plot no. 29 – 30, sector 27 Korangi Industrial Area, Karachi (Existing Facility)** Comparative Dissolution Profile studies of Starcox Tablets 120mg against the reference product Arcoxia Tablets 120mg by M/s Merck Sharp & Dohme BV

	Netherland, in three dissolution mediums has been submitted with acceptable level of f2 results. Pharmaceutical Equivalence Studies of Starcox Tablets 120mg against the reference product Arcoxia Tablets 120mg by M/s Merck Sharp & Dohme BV Netherland, by performing quality tests (Appearance, Average weight, Assay and Dissolution). **Getz Pharma (Pvt) Limited** **Plot No. 01, Sector 25 Korangi Industrial Area, Karachi (New Facility)** Firm has also submitted the Comparative Dissolution Profile studies of Starcox Tablets 120mg (New Site) against the reference product Starcox Tablets 120mg (Existing Site) in routine release Medium.
Analytical method validation/ verification of product	Firm has submitted validation studies of the drug product.
Stability studies	Firm has submitted stability studies data of three batches at both accelerated and long term conditions.

STABILITY STUDY DATA (Plot No. 29-30, Sector 27, Korangi Industrial Area, Karachi)

	M/s. Glenmark Life Sciences Limited.		
Manufacturer of APIs	Plot no. 141-143, 160-165, 170-172, Chandramouli Sahakri Audyogik Vasahat Maryadit., Pune-Hyderabad Highway, Mohol Solapur - 413213, Maharashtra State, India.		
API Lot No.	Getz Pharma Batch No. 0000175902, 0000179975, 0000179979, 0000184315 & 0000184316		
	Glenmark Batch No. 85200001, 85200035, 85200030, 85200076, 85200077

Date of initiation	02-12-2020	12-02-2021	18-02-2021
No. of Batches		03	

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Onsite inspection report of Getz Pharma product Emclide (Empagliflozin & Linagliptin) Tablets 10mg + 5mg was discussed and approved in 316th RB Meeting held on March 15-18, 2022. The inspection report confirms following points: • The HPLC software is 21CFR Compliant as per record available with the firm. The firm have number of HPLC with Empower 3 and DB software having following features: ✓ Have Audit trail ✓ Have backup system ✓ Have Data traceability

- ✓ Have Data achieving system
- ✓ Have data integrity
- ✓ Have Data security
- ✓ System Security Policy

- Audit trail on the testing reports is available.
- Adequate monitoring and control are available for stability chamber. Chambers are controlled and monitored through software having alarm system for alerts as well.
- Related manufacturing area, equipment, personnel and utilities are in compliance.

2. Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

Firm has submitted copy of GMP certificate No.: **NEW-WHO-GMP/CERT/PD/104460/2021/11/36840** issued by Food and Drug Administration, Maharashtra State, India is valid till **29.07.2024.**

3. Documents for the procurement of API with approval from DRAP (in case of import).

Copy of commercial invoice attested by AD I&E DRAP, Karachi, has been submitted.

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
85200001	F30000001521	100.0kg	27-03-2020
85200035	F30000000298	125.0kg	20-07-2020
85200030	F30000000298	100.0kg	20-07-2020
85200076	F30000001194	75.0kg	10-12-2020
85200077	F30000001194	125.0kg	10-12-2020

4. Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.

Firm has submitted data of stability batches along with attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets.

5. Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Firm has submitted compliance certificate of HPLC software.

6. Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Batch No.	Invoice No.	Quantity Imported	Date of approval by DRAP
85210041	F32200000766	125kg	21.10.2021

4. Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc. — Firm has submitted data of stability batches along with attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets.

5. Compliance Record of HPLC software 21CFR & audit trail reports on product testing. — Firm has submitted compliance certificate of HPLC software.

6. Record of Digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated) — Firm has submitted record of digital data logger for temperature & humidity monitoring of stability chambers (real time and accelerated)

Remarks of the Evaluator:

firm has submitted the following documents as per WHO TRS 981,2013 (47th report, Annex 3) and SOP guidelines stated in 283rd DRB meeting minutes:

- Stability Data of 3 batches till shelf life manufactured at their existing facility located at Plot No. 29 – 30, Sector 27, Korangi Industrial Area.
- Stability Data of 2 stability batches at initial, 3rd and 6th time point have also been submitted by manufacturer from new facility located at Plot No. 01, Sector 25, Korangi Industrial Area as per Guidance Document for Submission of Application on Form 5-F (CTD) for registration of pharmaceutical drug products for human use issued in October, 2021.
- Comparative Dissolution Profile and Pharmaceutical Equivalence studies of the product with the innovator from existing manufacturing facility & also submitted Comparative Dissolution Profile against reference product from new manufacturing facility.
- Comparative batch analysis data on two batches from the new facility and comparative data on the last three batches from the existing facility.
- Firm has submitted Executed Production document of stability batch.
- Firm has submitted Process Validation Protocol.
- Firm has submitted undertakings that process validation, accelerated and real time stability studies on 03 commercial batches at new manufacturing facility will be conducted & in case of any quality complaint / OOS result as a result of this change, the same shall be reported to registration board and all the stock shall be recalled from the market immediately.
- Analytical Method Verification / validation studies of API & Finished product.
- Valid GMP Certificate of the API manufacturer submitted.

Decision: Registration Board acceded to the request of the applicant for Change of Registration Holder (MA Holder) along with change in manufacturing site as under: -

Starcox Tablets 120mg (Reg. # 105294)

Existing MAH & manufacturing site	Proposed MAH & manufacturing site
M/s Getz Pharma (Pvt.) Ltd **(DML # 000284)** Plot # 29 – 30, Sector 27, Korangi Industrial Area, Karachi.	M/s Getz Pharma (Pvt.) Ltd. (DML # 000933) Plot No. 01, Sector 25, Korangi Industrial Area, Karachi.

Case No. 12: Change of Registration Holder (MA Holder) along with Change in manufacturing site of Tablet PRAZ.

19.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Scilife Pharma (Pvt) Ltd. (DML # 000837) Plot No.FD-57/58-A2, KCIP, Karachi.**
	Change of Registration Holder (MA Holder) along with change of Manufacturing Site	
	From M/s Getz Pharma (Pvt) Ltd. (DML # 000284) 29-30 Sector 27 Korangi Industrial Area Karachi.	**To M/s Scilife Pharma (Pvt) Ltd. (DML # 000837) Plot No.FD-57/58-A2, KCIP, Karachi.**
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

EVALUATION OF DATA		
GMP status of the firm		**M/s Scilife Pharma (Pvt) Ltd. (DML # 000837)** Firm has submitted copy of GMP certificate of the firm based on inspection dated 22-02-2023.
Evidence of approval of manufacturing facility		**M/s Scilife Pharma (Pvt) Ltd. (DML # 000837)** Central Licensing Board in its 289th meeting held on 23rd January 2023 approved the grant of additional section **Tablet (Psychotropic) Section.**
Proposed Pack size		Proposed Pack size: 10's, 30's, 50's & 100's
Proposed unit price		As per SRO
The status in reference regulatory authorities		USFDA approved formulation
For generic drugs (me-too status)		Azolam 1 mg tablet by Martin Dow
Name and address of API manufacturer.		CAMBREX PROFARMACO MILANO S.R.L. Via Curiel, 34 - 20067 PAULLO (MI) – Italy.

Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template.
Module-III Drug Substance:	Firm has submitted detailed drug substance data as per module 3.2.S.
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 12 months.
Module-III Drug Product:	Firm has submitted data of drug product as per module 3.2.P.
Pharmaceutical Equivalence and Comparative Dissolution Profile	**Reference product:** Tablet PRAZ 1mg **Manufacturer:** Getz Pharma **Testing parameters:** USP specification **Comparative Dissolution Profile** Firm has submitted comparative dissolution profile in three mediums showing similarity between the manufacturer's product and the reference products.
Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.
