1.	Rs. 30,000/- for correction/pre-approval change in product label claim as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.	Rs. 30,000/- for correction/pre-approval change in product label claim is not submitted. However firm has again submitted copy of fee challan submitted along with initial application.
2.	Specifications and analytical procedures of the drug substance manufacturer in section 3.2.S.4.1 and 3.2.S.4.2.	Submitted
3.	Clarification for verification studies of the drug substance from drug product manufacturer which does not specify the exact concentration of solution used in system suitability, and precision studies. Moreover, the concentrations specified in linearity studies are different from the concentration of standard solution specified in USP monograph.	Submitted
4.	Result of stability studies as per the format specified in the CTD guidance document since submitted stability data summary sheets does not provide information including mfg date, exp date, container closure system, stability initiation date, API lot number used in manufacturing of batches etc.	Submitted
5.	Stability study data in section 3.2.P.8.3 as per the 6 points checklist provided in the CTD guidance document.	Submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

660.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Aspin Pharma (Pvt) Ltd. Plot No. 10 & 25, Sector 20, K.I.A., Karachi**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted by the firm
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 18101065) issued by Food and Drugs Control Administration Gujrat Estate India. The certificate is valid till 18-10-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice specifying purchase of 3Kg Ondansetron hydrochloride cleared dated 16-04-2019. The invoice is cleared by AD (I&E).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has performed stability studies using UV method.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

- Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Submit verification studies of the analytical method of drug substance in section 3.2.S.4.3.
- Provide stability studies of three batches of drug substance as per zone IV-A conditions.

• Your qualitative composition is different from that of the innovator product. Justification is required in this regard. • Innovator product has used ondansetron hydrochloride dehydrate while you are using ondansetron hydrochloride. Justification is required in this regard. • Provide details incuding batch number, exppiry date and manufacturer of the product against which pharmaceutical equivalence studies are conducted, since Zofran 4mg/2ml injection is not registered in Pakistan. • Justify the UV method as alternate method in the analytical procedure for assay test of your product, since no such test is specified in USP monograph. • Justify the analytical method validation studies performed on UV method while USP as well as your analytical procedure specifies HPLC test. • Justify the performance of assay method using UV method which is contrary to the USP method for your commercial batches. • Provide reference of previous approval of applications with stability study data of the firm (if any) / previous product specific inspection. • Submit Batch Manufacturing Record of three stability batches.
Decision of 323rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.
Response by the firm: Firm has submitted a request to change the contract manufacturer from Liven Pharma to AGP Limited Karachi. Firm has submitted following dcuments: • 75,000 fee for change of contract manufacturer • Module I, Module II and Module III including data from the new contract manufacturer.
Decision: Approved. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Date of Initiation	31-01-2019	31-01-2019	31-01-2019
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Additional Director DRAP, Karachi dated 23-06-2020. The GMP certificate was granted based on inspection dated 18-06-2020.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Evaluation by PEC:

Firm was communicated following shortcomings on 22nd October 2021.

- Submit module 1 as per the CTD guidance document approved by Registration Board by providing all the information and documents in relevant sections / sub-sections instead of referring to annexures.
- Submit label claim in module 1 as per the reference product along with submission of requisite fee.
- You have mentioned innovator's specification in section 1.5.6 in module 1 while the drug product monograph is available in USP. Revise the specifications along with submission of requisite fee.
- The drug substance manufacturer has claimed both BP and USP specifications for the drug substance, provide scientific justification in this regard.
- The drug substance manufacturer has claimed USP specifications for the assay method, while the submitted method is different from USP in terms of column specifications including column length and pore size. Justification is required in this regard.

- Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.
- Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture, since the submitted COA of three batches of API are of 2020 while the drug product batches were manufactured in 2019.
- Justify how your unit formula containing 0.685gm of drug substance is equivalent to 100mg cefixime base per 5ml after reconstitution. Further specify which is the unit which has been taken as reference for your formulation.
- Justify the formulation which is different in terms of qualitative composition from that of innovator product Suprax suspension.
- Innovator product has not used sodium citrate which is used in your formulation as preservative along with sodium benzoate. Justify the use of two different preservatives without determining the preservative effectiveness.
- The acceptance criteria for pH is 2.5 to 4.5 while your compatibility results specifies that after reconstitution with the recommended diluent / solvent, the pH is 5.08 which lies outside the acceptance criteria. Justify how you have passed this formulation and performed stability studies on the same formulation.
- The process validation studies have been conducted on three batches having 5000 bottles batch size. While the batch size of the commercial batches for which stability study data is submitted, ranges from as low as 7500 and as high as 60,000 bottles. Justification is required in this regard.
- Submit detailed method of analysis of the drug product in section 3.2.P.5.2 instead of submitting print of USP monograph.
- Submit exact details of the assay preparation since the words "*Reconstitute sample as directed n the labelling"* should not be used in the method adopted by a firm. Instead provide details about the exact diluent along with volume in which reconstitution is to be carried out.
- Justify the analytical method verification studies without performing test or specificity and precision. Further also specify the exact concentration of solutions of 50%, 100% and 150% solutions used in the analysis of accuracy and recovery test.
- Provide COA of the reference standard / working standard actually used in the analysis of drug product in section 3.2.P.6.
- You have provided batch release certificate for batch D-220, D-221 and D-222 in section 3.2.P.5.4 while provided stability study data for batch D-006, D-018 and D-022 in section 3.2.P.8.3. Clarification is required in this regard.
- Provide batch size of Batch D-006 in terms of number of bottles instead of providing batch size in terms of Kg.
- You have submitted that API lot used in manufacturing of stability batches is 18CF10035 while submitted COA of totally different batches in section 3.2.S.4.4. Justify why data was not submitted in line with the guidance document issued by Registration Board.
- Justify why only 3 chromatographs of the standard solution was run while USP General chapter <621> recommends that five replicates of standard solution should be used for system suitability studies.
- Provide raw data sheets showing calculation of the results during the stability studies for all batches.
- Justify why the stability study data is section 3.2.P.8.3 is not submitted as per the guidance document issued by Registration Board.
- Submit stability study data in section 3.2.P.8.3 as per the checklist approved by Registration Board in its 296th meeting and the CTD guidance document, which includes the following:
    - Reference of previous approval of applications with stability study data of the firm (if any)

- Documents for the procurement of API with approval from DRAP (in case of import).
- Compliance Record of HPLC software 21CFR & audit trail reports on product testing

- Justify why BMR of different batches is submitted than that for which stability studies were conducted.

The firm vide its reply dated 08-11-2021 have submitted stability study data of new batches. The response of the firm is as below:

We are submitting herewith the new batches stability data because from these batches we have streamlined the batch sizes. Therefore, kindly consider this stability data with all its supporting documents and disregard the previous submission. We are submitting process validation protocols and report of the same batches used in the stability studies. Please disregard the previous submission and consider this one as valid.

Firm has submitted data of new batches without justifying the queries raised in the letter of shortcomings and submitted data of new batches without fulfilling the requirements of Form 5F as per the guidelines approved by Registration Board.

Decision of 316th meeting of Registration Board:

Deferred for following:

- Submission of complete data of drug substance as well as drug product in module-2 and module-3 as per the Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.
- Submission of fee of Rs. 30,000 for revision in stability data, as per notification No.F.7-11/2012- B&A/DRAP dated 13-07-2021.

Response by the firm:

The applied product to be manufactured by M/s Bio-Labs (Pvt) Ltd. Plot No. 145, Industrial Triangle Kahuta Road Islamabad have already been approved by Registration Board in its 297th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product are as follows:

Applicant firm	M/s Variant Pharmaceuticals Pvt Ltd. Plot No. 5, M2-Pharma Zone Lahore, Sharikpur Road, Sheikhupura
Manufacturer firm	M/s Bio-Labs (Pvt) Ltd. Plot No. 145, Industrial Triangle Kahuta Road Islamabad.
Brand Name	VARICEF 100mg/5ml Dry Suspension

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

663.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Islam Pharmaceuticals, 7-km Pasrur Road Sialkot.**
	Name, address of Manufacturing site.	M/s Bio-Labs (Pvt) Ltd. Plot No. 145, Industrial Triangle Kahuta Road Islamabad.
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver) Firm has submitted copy of contract manufacturing agreement with applicant firm dated 15-06-2019.

	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 9701: 29-03-2021
	Details of fee submitted	PKR 50,000/-: 03-02-2021
	The proposed proprietary name / brand name	**CELAM 200mg/5ml Dry Suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml of reconstituted suspension Contains: Cefixime as trihydrate……200mg
	Pharmaceutical form of applied drug	Almost pink colored powder having strawberry flavour powder for reconstitution
	Pharmacotherapeutic Group of (API)	Cephalosporin Antibiotic
	Reference to Finished product specifications	USP
	Proposed Pack size	30 ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Cefixime suspension **(USFDA** Approved)
	For generic drugs (me-too status)	Cefim suspension by Hilton
	Name and address of API manufacturer.	Saakh Pharma (Pvt) Ltd. C-7/1, North Western Industrial Zone, Port Qasim, Karchi.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical

		development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted results of pharmaceutical equivalence for all the quality tests for their product against Cefspan dry suspension.
	Analytical method validation/verification of product	Firm has submitted verification studies of the drug substance and the drug product.

STABILITY STUDY DATA			
Manufacturer of API	Saakh Pharma (Pvt) Ltd. C-7/1, North Western Industrial Zone, Port Qasim, Karchi.		
API Lot No.	18CF10035		
Description of Pack (Container closure system)	Alu-alu blister		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	553	589	597
Batch Size	7500 packs	10000 packs	10000 packs
Manufacturing Date	05-2018	08-2018	09-2018
Date of Initiation	10-05-2018	31-08-2018	28-09-2018
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate issued by Additional Director DRAP, Karachi dated 23-06-2020. The GMP certificate was granted based on inspection dated 18-06-2020.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Evaluation by PEC:
Firm was communicated following shortcomings on 22nd October 2021.

- Submit module 1 as per the CTD guidance document approved by Registration Board by providing all the information and documents in relevant sections / sub-sections instead of referring to annexures.
- Submit label claim in module 1 as per the reference product along with submission of requisite fee.
- You have mentioned innovator's specification in section 1.5.6 in module 1 while the drug product monograph is available in USP. Revise the specifications along with submission of requisite fee.
- The drug substance manufacturer has claimed both BP and USP specifications for the drug substance, provide scientific justification in this regard.
- The drug substance manufacturer has claimed USP specifications for the assay method, while the submitted method is different from USP in terms of column specifications including column length and pore size. Justification is required in this regard.
- Submit data in section 3.2.S.4.1 as per the guidance document approved by Registration Board which specifies that "Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer is required."
- Submit data in section 3.2.S.4.3 as per the decision of 293rd meeting of Registration Board, which states that "Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted". Further justify how the analysis of drug substance was conducted without performing verification studies of the analytical method of drug substance.
- Submit data in section 3.2.S.4.4 as per the guidance document approved by Registration Board which specifies that "Provide results of analysis of relevant batch(es) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical Ingredient manufacture, since the submitted COA of three batches of API are of 2020 while the drug product batches were manufactured in 2019.
- Justify how your unit formula containing 1.368gm of drug substance is equivalent to 200mg cefixime base per 5ml after reconstitution. Further specify which is the unit which has been taken as reference for your formulation.
- Justify the formulation which is different in terms of qualitative composition from that of innovator product Suprax suspension.
- Innovator product has not used sodium citrate which is used in your formulation as preservative along with sodium benzoate. Justify the use of two different preservatives without determining the preservative effectiveness.
- The acceptance criteria for pH is 2.5 to 4.5 while your compatibility results specifies that after reconstitution with the recommended diluent / solvent, the pH is 5.08 which lies outside the acceptance criteria. Justify how you have passed this formulation and performed stability studies on the same formulation.
- The process validation studies have been conducted on three batches having 5000 bottles batch size. While the batch size of the commercial batches for which stability study data is submitted, ranges from as low as 3000 and as high as 10,000 bottles. Justification is required in this regard.
- Submit detailed method of analysis of the drug product in section 3.2.P.5.2 instead of submitting print of USP monograph.
- Submit exact details of the assay preparation since the words "*Reconstitute sample as directed n the labelling"* should not be used in the method adopted by a firm. Instead provide details about the exact diluent along with volume in which reconstitution is to be carried out.
- Justify the analytical method verification studies without performing test or specificity and precision. Further also specify the exact concentration of solutions of 50%, 100% and 150% solutions used in the analysis of accuracy and recovery test.
- Provide COA of the reference standard / working standard actually used in the analysis of drug product in section 3.2.P.6.
- You have provided batch release certificate for different batches in section 3.2.P.5.4 while the stability study data of different batches is submitted in section 3.2.P.8.3. Clarification is required in this regard.
- Provide batch size of Batch D-006 in terms of number of bottles instead of providing batch size in terms of Kg.

- You have submitted that API lot used in manufacturing of stability batches is 18CF10035 while submitted COA of totally different batches in section 3.2.S.4.4. Justify why data was not submitted in line with the guidance document issued by Registration Board.
- Justify why only 3 chromatographs of the standard solution was run while USP General chapter <621> recommends that five replicates of standard solution should be used for system suitability studies.
- Provide raw data sheets showing calculation of the results during the stability studies for all batches.
- Justify why the stability study data is section 3.2.P.8.3 is not submitted as per the guidance document issued by Registration Board.
- Submit stability study data in section 3.2.P.8.3 as per the checklist approved by Registration Board in its 296th meeting and the CTD guidance document, which includes the following:
    - Reference of previous approval of applications with stability study data of the firm (if any)
    - Documents for the procurement of API with approval from DRAP (in case of import).
    - Compliance Record of HPLC software 21CFR & audit trail reports on product testing
- Justify why BMR of different batches is submitted than that for which stability studies were conducted.
- Justify the criteria for selecting batch number and batch size of your product, since different format of batch numbers have been used for different batches, while significant difference in batch size also exist among various production scale batches.

The firm vide its reply dated 08-11-2021 have submitted stability study data of new batches. The response of the firm is as below:
We are submitting herewith the new batches stability data because from these batches we have streamlined the batch sizes. Therefore, kindly consider this stability data with all its supporting documents and disregard the previous submission. We are submitting process validation protocols and report of the same batches used in the stability studies. Please disregard the previous submission and consider this one as valid.
Firm has submitted data of new batches without justifying the queries raised in the letter of shortcomings and submitted data of new batches without fulfilling the requirements of Form 5F as per the guidelines approved by Registration Board.

Decision of 316th meeting of Registration Board:
Deferred for following:

- Submission of complete data of drug substance as well as drug product in module-2 and module-3 as per the Form 5-F guidance document (PE&R/GL/AF/004) approved by the Registration Board.
- Submission of fee of Rs. 30,000 for revision in stability data, as per notification No.F.7-11/2012- B&A/DRAP dated 13-07-2021.

Response by the firm:
The applied product to be manufactured by M/s Bio-Labs (Pvt) Ltd. Plot No. 145, Industrial Triangle Kahuta Road Islamabad have already been approved by Registration Board in its 297th meeting based on the data of same batches of drug product as submitted in the instant case. The details of the already approved product are as follows:

Applicant firm	M/s Variant Pharmaceuticals Pvt Ltd. Plot No. 5, M2-Pharma Zone Lahore, Sharikpur Road, Sheikhupura
Manufacturer firm	M/s Bio-Labs (Pvt) Ltd. Plot No. 145, Industrial Triangle Kahuta Road Islamabad.
Brand Name	VARICEF 200mg/5ml Dry Suspension

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

c. Deferred cases of Import

664.	**Name, address of Applicant / Importer**	**M/s Gene-Tech Laboratories B-246, Block 6,P.E.C.H.S, Karachi, Pakistan**
	Details of Drug Sale License of importer	**License No.: 0002** **Address:** 246-B, Block-6, PECHS, Karachi **Validity:** 15-08-2022 **Status:** License to sell drugs by way of Wholesale
	Name and address of marketing authorization holder (abroad)	M/s Shin Poong Pharmaceutical Co., Ltd. 7, Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do,Republic of Korea
	Name, address of manufacturer(s)	M/s Shin Poong Pharmaceutical Co., Ltd. 7, Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do,Republic of Korea
	Name of exporting country	South Korea
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized **copy** of CoPP certificate (No. 2020-D1-3552) dated 23-10- 2020 issued by Ministry of Food and Drug Safety, South Korea for Hyal Forte Injection. The CoPPconfirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every 3 years. **The name of importing country on CoPP is mentioned as Pakistan.** **GMP:** Firm has submitted legalized **GMP** certificate(No. 2020-D1-3554) dated 23-10-2020 issued by Ministry of Food and Drug Safety, South Korea in name of M/s Shin Poong Pharmaceutical Co., Ltd. 7,Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do, Republic of Korea wherein pre-filled syringe dosage form has not been mentioned.
	Details of letter of authorization / sole agency agreement	Firm has submitted Legalized NOC from M/s Shin Poong Pharmaceutical Co., Ltd. 7, Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do, Republic of Korea which authorises **M/s Gene-TechLaboratories B-246, Block 6, P.E.C.H.S, Karachi,Pakistan** to register their products in Pakistan. The authorization letter is valid till 09-11-2022.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for exportpurpose only

	Dy. No. and date of submission	Dy. No 10553 dated 06-04-2021
	Details of fee submitted	Rs.100,000/- dated 24-03-2021
	The proposed proprietary name / brand name	**Hyal Forte Pre Filled Syringe**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each pre-filled syringe (2ml) Contains 20mg of Sodium Hyaluronate
	Pharmaceutical form of applied drug	Pre-filled syringe
	Pharmacotherapeutic Group of (API)	Hyaluronic acid
	Reference to Finished product specifications	Innovator specifications
	Proposed Pack size	1's;AS per SRO
	Proposed unit price	AS per SRO
	The status in reference regulatory authorities	Hyalgan PFS 20mg/2ml approved by ANSM of France
	For generic drugs (me-too status)	Hyalgan PFS of M.s Matrix Pharma Reg.# 031340
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Shin Poong Pharmaceutical Co., Ltd. 7, Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do,Republic of Korea
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 30 ℃±2.The stability study data is till 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification ofspecifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence Euflexxa
	Analytical method validation/verification of product	Firm has submitted analytical method validationstudies for the applied product.
	Container closure system of the drug product	Pre-filled syringe
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batchesThe accelerated stability study data is conducted at
		25ºC ±2ºC / 60% ± 5% RH for 6 months. The real time stability study data is conducted at5ºC ±3ºC / 65% ± 5% RH. The real time stability study data for 3 batches is for 36 months only.

Evaluation by PEC:

- The submitted COPP does not clarify the description of applied product whether pre-filled syringe or otherwise. Also the strength is mentioned only as Each ml contains Sodium hyaluronate …. 10mg
- Valid authorisation letter from manufacturer s required since submitted NOC was valid till 09-11-2022.
- Firm has submitted legalized **GMP** certificate (No. 2020-D1-3554) dated 23-10-2020 issued by Ministryof Food and Drug Safety, South Korea in name of M/s Shin Poong Pharmaceutical Co., Ltd. 7, Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do, Republic of Korea wherein pre-filled syringe dosage form has not been mentioned.
- Justification shall be submitted for performing stability studies as per refrigerating conditions since the reference product Hyalgan approved by ANSM of France recommends storage condition of store below 25ºC.

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Submission by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	The submitted COPP does not clarify the description of applied product whether pre-filled syringe or otherwise. Also the strength is mentioned only as Each ml contains Sodium hyaluronate …. 10mg	Firm has submitted copy of CoPP certificate (No. 2024-D1-0199) dated 08-02- 2024 issued by Ministry of Food and Drug Safety, South Korea fo Hyal Forte Injection (pre-filled syringe). The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturin site through periodic inspection every 3 years.
2.	Valid authorisation letter from manufacturer s required since submitted NOC was valid till 09-11-2022.	Firm has submitted copy of NOC from M/s Shin Poong Pharmaceutical Co., Ltd. which authorises M/s Gene-Tech Laboratories B-246, Block 6, P.E.C.H.S, Karachi,Pakistan to register their products in Pakistan. The authorization letter is issued on 29-01-2024.
3.	Firm has submitted legalized **GMP** certificate (No. 2020-D1-3554) dated 23-10-2020 issued by Ministryof Food and Drug Safety, South Korea in name of M/s Shin Poong Pharmaceutical Co., Ltd. 7, Wonsi-ro, Danwon-gu, Ansan-si, Gyeonggi-do, Republic of Korea wherein pre-filled syringe dosage form has not been mentioned.	Firm has submitted copy of GMP certificate (No. 2024-D1-0201) dated 08-02-2024 issued by Ministry of Food and Drug Safety, South Korea in name of M/s Shin Poong Pharmaceutical Co., Ltd. Wonsi-ro,Danwon-gu, Ansan-si, Gyeonggi-do, Republic of Korea wherein pre-filled syringe dosag form has been mentioned in injections.
4.	Justification shall be submitted for performing stability studies as per refrigerating conditions since the reference product Hyalgan approved by ANSM of France recommends storage condition of store below 25ºC.	Firm has **not** submitted any written justification instead a chart is submitted which does not specify any product.

Decision: Deferred for following:

- **Justification for performing stability studies as per refrigerating conditions since the reference product Hyalgan approved by ANSM of France recommends storage condition of store below 25ºC.**

Composition	
Finished Product Specification	
Pharmacological Group	Gelatin agent
Shelf life	24 months
Demanded Price	As per SRO
Pack size	Cleat, Colorless PP Bottles with halogenated butyl rubber stopper for injection and is sealed with plastic infusion container with aluminium plastic composite cover.
International availability	Not provided
Me-too status	Not provided
Detail of certificates attached	•

Remarks of the Evaluator.

Sr. No	Shortcomings	Response by the firm
1.	Submit valid drug sale license, since the submitted DSL is expired.	
2.	The application on Form 5-A is filled and signed by Zhejiang Kangle Pharmaceutical instead of the applicant / importer. Furthermore the name and address of importer is mentioned as Neutro Pharma (Pvt) Ltd instead of mentioning complete name and address of Neutro Health Care. Correction in Form 5-A is required along with submission of requisite fee.	
3.	Submit complete label claim of the applied product since Gelatin 500ml:3.2g (3.5%, calculated by nitrogen) is mentioned which does not represent any label claim.	
4.	Submit evidence of approval of applied formulation in reference regulatory authorities which were adopted by Registration Board in its 275th meeting.	
5.	Submit evidence of me-too status	
6.	Submit evidence of finished product specifications.	
7.	Submit stability study data of 3 batches of drug product as per zone IV-A conditions since the submitted data is conducted as per the conditions which are not recommended by ICH or WHO.	

8.	Submit valid, original, legalized certificate of pharmaceutical product.	
9.	Submit notarized / legalized sole agency agreement.	

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

668.	**Name and address of Applicant**	**M/s Neutro Healthcare, 22-M, Gulberg III Lahore.**

Remarks of the Evaluator.

Sr. No	Shortcomings	Response by the firm
1.	Submit stability study data of 3 batches of drug product as per zone IV-A conditions since the submitted data is as per zone II.	
2.	Submit notarized / legalized sole agency agreement.	
3.	Submit original, legalized CoPP from the country of origin	

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Response by the firm:

Sr. No	Reason for deferment	Response by the firm
1.	Submit stability study data of 3 batches of drug product as per zone IV-A conditions since the submitted data is as per zone II.	Firm has now submitted submitted stability study report of three batches of drug product as per refrigerating conditions.
2.	Submit notarized / legalized sole agency agreement.	Firm has submitted copy of authorization letter.
3.	Submit original, legalized CoPP from the country of origin	Firm has submitted copy of CoPP (No 427/05/23-296) dated 22-02-2024 for Dacmed 200mg Injection which confirms free sale status as well as GMP status.

Decision: Approved as per Policy for inspection of Manufacturer abroad. Registration Board further decided that registration letter will be issued after submission of following:

- **Valid, Legalized CoPP.**
- **Valid, legalized / notarized letter of authorization.**

Case No. 05 Deferred Cases of Form 5

672.	Name and address of manufacturer/ Applicant	M/s Scilife Pharma Pvt Ltd., Plot # FD-57/58-A2, Korangi Creek Industrial Park, Karachi. (Contract giver) M/s Global Pharmaceuticals (Pvt.) Ltd., Plot # 204-205, Industrial Triangle, Kahuta Road, Islamabad. (contract acceptor) (Carbapenem section)
	Brand Name + Dosage Form + Strength	Penem 1g IV Injection.
	Composition	Each Vial Contains: Meropenem ……..…1gm.
	Diary No. Date of R & I & fee	Dy. No 16168 dated 07-03-2019; Rs.50,000/- dated 07-03-2019.
	Pharmacological Group	Other beta lactam antibacterial/carbapenems.
	Type of Form	Form-5.
	Finished product Specification	USP specifications.
	Pack size & Demanded Price	1's & as per DRAP Pricing Policy.
	Approval status of product in Reference Regulatory Authorities	MERREM® IV 1gm (meropenem for injection), USFDA approved.
	Me-too status	Noopem 1gm Injection IV, Nicholas Pharmaceuticals, Reg. No. 094313.
	GMP status	Global Pharma: GMP certificate issued on 24-12-2018 on the basis of inspection conducted on 24-10-2018. Scilife Pharma: GMP certificate issued on 17-06-2021 on the basis of inspection conducted on 01-03-2021.
	Remarks of the Evaluator	• M/s Scilife Pharma has 06 approved sections vide letter No. F. 2-4/2011-Lic (Vol-I) dated 18-06-2021. • M/s Scilife Pharma has also submitted that they have 09 approved products on contract basis.
	Decision of 312th meeting of Registration Board: Registration Board delibrated the case in detail and observed that the contract manufacturer has not performed complete product development studies, the specifications adopted by the manufacturer throughout stability studies were not according to USP and that the stability batches have also expired. Accordingly, the Board deferred for following submissions: • Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both Drug Product manufacturer. • Scientific justification for using flow rate of 1.0ml/min for assay testing of your commercial batches since USP recommends flow rate to be 1.5ml/min, • Scientific justification for having the method of sample solution preparation for the commercial batches which is entirely different from that specified in USP monograph. • Scientific justification for having analytical method of drug product without specifying that "*sample should be hold for 1-2 hours at 25± 1°C before testing*" which is recommended in USP monograph. • Scientific justification for releasing the commercial batch of drug product and during its stability studies even after having the value of tailing factor above 1.5, since USP monograph specifies tailing factor NMT 1.5 in the system suitability requirements. • Scientific justification for using different HPLC equipment and software for the standard solution and the sample solution analysis. • Scientific justification for HPLC testing of your commercial batches using UV detector at 220nm while the USP recommends that testing be performed at 300nm. • Scientific justification for using reference / working standard having a potency of 73.91% for the analysis of commercial batches. • Scientific justification for having a master formulation containing 707mg of meropenem trihydrate blended with sodium carbonate which is equivalent to 500mg meropenem. • Provision of details including batch number, expiry date and name of manufacturer of the innovator product along with pharmaceutical equivalence was performed.	

- Scientific justification why complete tests as mentioned in USP monograph were not performed in pharmaceutical equivalence studies.
- Scientific justification for not performing compatability studies of the drug product with the recommended diluent.
- Scientific justification for not performing the test of sodium content and loss on drying for the analysis of commercial batches of the drug product.
- Scientific justification for using an entirely different formula for calculation of assay resultsof commercial batches from that specified in USP monograph.
- Scientific justification for not performing test of content of sodium, completeness and clarity of solution, loss on drying and sterility test during the stability studies of the product.
- Scientific justification for the results of assay test of meropenem for the batch No. 17L078 which show upward trend (i.e. increase in assay values with time) throughout the stability studies (both accelerated and real time) keeping in view the fact that the testing method was not exactly as per USP monograph, the reference standard meropenem (trihydrate) for injection was used instead of meropenem (base), the contents of sodium, as well as sodium carbonate was not determined at any time point during stability studies and loss on drying is also not performed during the stability studies.
- Scientific justification how three batches have been manufactured using 5Kg containers while each batch required 5.4Kg drug substance.
- Evidence of purchase of atomic absorption spectrophotometer including commercial invoice and Installation Qualification (IQ) and Operational Qualification (OQ) of atomic absorption.
- Submission of fee for pre-registration changes in the drug product specifcations.

Keeping in view the above, the Board decided that the submitted stability study data is not acceptable and directed the manufacturer to either perform complete product development and stability studies or submit the aforementioned data as per USP specifications and submit data accordingly. The Board further directed the manufacturer to comply USP Specifications for already registered drug products.

Response by the firm:

The applied product to be manufactured by M/s Global Pharmaceuticals (Pvt) Ltd. Plot No. 204-205, Industrial Triangle Kahuta Road Islamabad has already been approved by Registration Board in its 320th meeting. The details of the already approved product are as follows:

Applicant firm	M/s Swiss Pharmaceuticals (Pvt) Ltd. A/159, SITE, Super Highway Karachi
Manufacturer firm	M/s Global Pharmaceuticals (Pvt) Ltd. Plot No. 204-205, Industrial Triangle Kahuta Road Islamabad.
Brand Name	**MEPEN 1g Injection IV**

Decision: Approved.

673.	**Name and address of manufacturer / Applicant**	**M/s Shaigan Pharmaceuticals (Pvt) Ltd. 14 KM Adyala Raod Post Office Daghal, Rawalpindi**
	Brand Name +Dosage Form + Strength	Taclorex Ointment 0.05mg/0.5mg
	Composition	Each Gram Contains: Calcipotriol as Monohydrate…0.05mg Batamethasone as Dipropionate Eq To Batamethasone…0.5mg
	Diary No. Date of R& I & fee	Dy No. 15206: 07-03-2019 PKR 20,000/-: 06-03-2019
	Pharmacological Group	Other antipsoriatics for topical use in combination
	Type of Form	Form 5
	Finished Product Specification	BP
	Pack size & Demanded Price	As per PRC
	Approval status of product in Reference Regulatory Authorities.	Could not be confirmed
	Me-too status	Caliros Ointment by Panacea Pharma
	GMP status	GMP certificate issued to the firm on 28-08-2020 based on

		inspection conducted on 25-09-2019.
	Remarks of the Evaluator[3].	• Latest GMP inspection report conducted within a period of last three years. • Evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting. • Revise your formulation as per the reference product along with submission of full fee of registration.
	Decision of 329th meeting of RB: Deferred for evidence of approval of applied formulation in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting. The Board further decided that the applicant shall submit the response within 1 month after publication of the minutes, otherwise the application shall be placed in the upcoming meeting of the Board for final decision.	
	Response by the firm: Firm has submitted reference of following product: Calcipotriol/Betamethasone Sandoz 50 micrograms per g / 500 micrograms per g Ointment **(MHRA Approved)**	
	Decision: Approved.	

674.	**Name and address of manufacturer / Applicant**	**M/s High-Q Pharmaceuticals, Plot No. 224, Sector 23, Korangi Industrial Area, Karachi.**

	Decision: Approved.

Case No. 06 Miscellaneous Cases

680. Case of M/s Nortech Pharmaceuticals, Islamabad.

M/s Nortech Pharmaceuticals Islamabad has applied for following products on Form 5 on 07-03-2019.

Sr. No	Name of applicant / manufacturer	Applied product (Brand name) and composition	Details of Dy and Fee
1.	M/s Nortech Pharmaceuticals. Plot #203, Sihala Industrial Triangle, Kahuta Road, Islamabad Contract manufactured By M/s Mediate Pharmaceutical Pvt Ltd. Plot No. 150-151, Sector 24, Korangi Industrial Area, Karchi, Pakistan	Norceff 1000mg Injection Each Vial Contains: Cefoperazone Sodium…500mg Sulbactam Sodium…500mg	**Form-5** Dy. No 16052 dated 07-03-2019 Rs.50,000/- dated 07-03-2019
2.	M/s Nortech Pharmaceuticals. Plot #203, Sihala Industrial Triangle, Kahuta Road, Islamabad Contract manufactured By M/s Mediate Pharmaceutical Pvt Ltd. Plot No. 150-151, Sector 24, Korangi Industrial Area, Karchi, Pakistan	Norceff 2000mg Injection Each Vial Contains: Cefoperazone Sodium…1000mg Sulbactam Sodium…1000mg	**Form-5** Dy. No 16053 dated 07-03-2019 Rs.50,000/- dated 07-03-2019

Later on the firm submitted application on Form 5F dated 02-09-2021 with same fee but with a different contract manufacturer i.e. M/s Cure Laboratories. The details of the application submitted on Form 5F are as under:

Sr. No	Name of applicant / manufacturer	Applied product (Brand name) and composition	Details of Dy and Fee
1.	M/s Nortech Pharmaceuticals. Plot #203, Sihala Industrial Triangle, Kahuta Road, Islamabad Contract manufactured By M/s Cure Laboratories. Plot # 11,12,NS-2 RCCI, Industrial Estate, Rawat, Islamabad	Norceff 1000mg Injection Each Vial Contains: Cefoperazone Sodium…500mg Sulbactam Sodium…500mg	**Form-5F** Dy. No 24218 dated 02-09-2021

2.	M/s Nortech Pharmaceuticals. Plot #203, Sihala Industrial Triangle, Kahuta Road, Islamabad Contract manufactured By M/s Cure Laboratories. Plot # 11,12,NS-2 RCCI, Industrial Estate, Rawat, Islamabad	Norceff 2000mg Injection Each Vial Contains: Cefoperazone Sodium…1000mg Sulbactam Sodium…1000mg	**Form-5F** Dy. No 24217 dated 02-09-2021

The application submitted on Form 5F was under evaluation while the previous application submitted on Form 5 was presented in 327th meeting of Registration Board, wherein the Board approved both products to be manufactured by M/s Mediate Pharmaceutical (Pvt.) Ltd. 150-151, Sector 24, Korangi Industrial Area, Karachi. Since, the initial application submitted on Form 5 has been considered and approved, while the application on Form 5F is still under evaluation therefore the case is presented before the Board for disposing off the application on Form 5F.
Submitted for consideration by the Board.

Decision: Registration Board decided to disposed off the following applications of the firm applied on Form 5F, since same formulation applied on Form 5 is already approved.

Sr. No	Name of applicant / manufacturer	Applied product (Brand name) and composition	Details of Dy and Fee
1.	M/s Nortech Pharmaceuticals. Plot #203, Sihala Industrial Triangle, Kahuta Road, Islamabad Contract manufactured By M/s Cure Laboratories. Plot # 11,12,NS-2 RCCI, Industrial Estate, Rawat, Islamabad	Norceff 1000mg Injection Each Vial Contains: Cefoperazone Sodium…500mg Sulbactam Sodium…500mg	**Form-5F** Dy. No 24218 dated 02-09-2021
2.	M/s Nortech Pharmaceuticals. Plot #203, Sihala Industrial Triangle, Kahuta Road, Islamabad Contract manufactured By M/s Cure Laboratories. Plot # 11,12,NS-2 RCCI, Industrial Estate, Rawat, Islamabad	Norceff 2000mg Injection Each Vial Contains: Cefoperazone Sodium…1000mg Sulbactam Sodium…1000mg	**Form-5F** Dy. No 24217 dated 02-09-2021

Agenda of Evaluator PEC-IV

Case no. 01 Registration applications for local manufacturing of (Human) drugs

a. New cases

681.	Name, address of Applicant / Marketing Authorization Holder	M/s Neutro Pharma (Pvt) Ltd. 9.5 KM, Sheikhupura Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd. 9.5 KM, Sheikhupura Road, Lahore
	Status of the applicant	☒Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm submitted cGMP certificate dated:30-06-2022 on the basis of evaluation conducted on 14-04-2022 and valid for 3 years.

	Evidence of approval of manufacturing facility	Firm submitted copy of grant of additional section dated:30-04-2022 in which Liquid Injectable (Ampoule General) section mentioned.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 27901 dated 03-10-2022
	Details of fee submitted	Rs.30,000/- Deposit slip # 429988899160
	The proposed proprietary name / brand name	Indrop D 300,000 IU Glass Ampoule Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 1ml Contains: Cholecalciferol……..300,000 IU
	Pharmaceutical form of applied drug	Light straw to yellow oily liquid free from extraneous matter filled in clear glass ampoule
	Pharmacotherapeutic Group of (API)	Vitamin D analogue
	Reference to Finished product specifications	BP
	Proposed Pack size	1 x 1ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Xarenel by Italfarmaco of (AIFA Italy Approved)
	For generic drugs (me-too status)	
	Name and address of API manufacturer.	M/s Xinchang Dado West Road, Qixing street, Xinchang Country, Zhejang Province, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5%RH RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5%RH for 12 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process

		and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the Xareneol 300,000IU/ml of Italfarmaco by performing quality tests Description, Identification, average fill volume, sterility, Assay)
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Xinchang Dado West Road, Qixing street, Xinchang Country, Zhejang Province, China.		
API Lot No.	01210302VD		
Description of Pack (Container closure system)	USP Type I glass ampoule		
Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	GAA_i T1-21	GAA_i T2-21	GAA_i T3-21
Batch Size	5 Liters	5 Liters	5 Liters
Manufacturing Date	08-2021	09-2021	09-2021
Date of Initiation	10-09-2021	24-09-2021	27-09-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of DML# Zhejiang 20030221 issued by NMPA dated: 14-07-2022 and valid till 13-07-2027
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy Commercial Invoice # 122070 + 122073, dated; 25-03-2021 cleared by DRAP (Lahore) dated: 08-04-2021 specifying Cholecalciferol batch # 01210302VD
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	UV method is applied as per BP monograph.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming	Reply
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	Submitted.
2.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer of drug substance(s) shall be submitted.	Analytical Method Verification of drug substance by drug product manufacturer is submitted.
3.	3.2.S.5	Submitted COA of working standard Complies with USP specification while drug substance specification Claimed Ph.EU. Clarification is required.	Mistakenly shared the working standard COA of different source, actual COA of working standard received from drug substance manufacturer is submitted.
4.	3.2.S.7.3	Submit drug substance stability studies of 3 batches.	Drug substance stability studies of 03 batches submitted.
5.	3.2.P.1	• Justify the applied formulation with BP specifications while using medium chain triglycerides oil, since BP monograph specifies ethyloleate. • Justify the use of Butylated hydroxyanisole (BHA)	• We have used ethyl oleate as recommended in BP monograph, Trial manufacturing record is submitted please verify. • We observed the color change that is why practically developed and stabilized it using BHA as anti-oxidant, Compatibility studies are also performed and product is stable.
6.	3.2.P.2.2.1	How pharmaceutical equivalence of Indrop D 300,000 IU Glass Ampoule Injection and Indrop D 300,000 IU LDPE Ampoule Injection can be same. Clarification is required.	Already submitted are the pharmaceutical equivalence specifications that looks same now pharmaceutical equivalence report is submitted.
7.	3.2.P.5.1	Particulate matter testing not the part of specifications. Clarification is required.	Particulate matter testing is included in the finish product specifications.
8.	3.2.P.5.2	Submit complete method of sterility testing.	Complete sterility testing method is submitted.
9.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided.	COA of primary/secondary reference standard including source & lot number is submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of GMP certificate #2020002 in name of M/s Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Jiangxi Province, P.R. China issued by ***Jiangxi API Engineering Technology Research Center*** valid upto 11-03-2025 Firm has submitted Copy of DML (No. 20160125) in name of M/s Jiangxi Synergy Pharmaceutical Co. Ltd., Jiangxi Fengxin Industrial Park, Fengxin, 330700, Jiangxi Province, P.R. China valid upto 26-11-2025
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy Commercial Invoice # jxsg200352, dated; 26-03-2020 cleared by DRAP (Peshawar) dated: 08-04-2020 specifying Vonoprazan fumarate batch # 20190802BD
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming	Reply
1.	2.3.R.1.1	In BMR during dispensing of vonoprazan fumarate potency is not adjusted as potency mentioned in COA is 98.58%.	Molecular weight of Vonoprazan Fumarate is 461.5 g/mol. The correlation factor is 1.336. Hence we have used 26.72mg of Vonoprazan Fumarate per tablet, which will give 20mg of Vonoprazan per tablet
2.	3.2.S.4.2	Injection volume in the assay test of the drug substance provided by the finished product manufacturer is 20µl while that of the drug substance manufacturer is 10 µl. clarify?	The Injection volumes is 20 ul is selected for analysis due to fixed loop of 20 ul is installed in manual rheodyne of HPLC. The same procedure with 20ul is validated and the validation data is submitted
3.	3.2.S.4.3	Submitted analytical method verification report by drug product manufacturer of drug substance shows different concentration for standard and sample preparation than submitted analytical testing method of assay of drug substance. Clarification is required.	The concentration of Standard and Sample used in analytical method & validation report is same as per submitted Stability Studies calculation sheets . Therefore it is requested to consider the typographical error in Analytical Method and validation report. Revised analytical method and validation report is enclosed for your kind consideration
4.	3.2.S.5	Submitted COA of working standard Complies with USP specification while drug substance specification Claimed Ph.EU	COA of working standard submitted.
5.	3.2.S.7.3	Submit drug substance stability studies of 3 batches till shelf life.	Drug substance stability studies of 3 batches till shelf life submitted.
6.	3.2.P.2.2.1	Details of product against which pharmaceutical equivalence and Comparative dissolution conducted.	Details of product against which pharmaceutical equivalence and Comparative dissolution conducted submitted.

7.	3.2.P.5.2	Justification to be provided for the selection of dissolution parameters including dissolution media buffer (6.8) volume of dissolution medium, rpm and type of USP apparatus.	Vonoprazan is a highly soluble drug substance based on ICH Q6A, which states that the drug substance should be considered highly soluble if it meets following two conditions: 1. The dissolution profile of all strengths of the dosage form should be rapid i.e. Dissolution >80 % in 15 minutes at pH 1.2, 4.5 & 6.8. 2. The highest drug product's strength is soluble in 250mL or less of aqueous media over the pH range of 1.2 to 6.8 at 37°C ± 1°C. As per ICH Q6A, for dosage forms having drug substances falls in above conditions will be considered as highly soluble drugs and do not require development of discriminatory dissolution method / parameters. Generally, a single time point with one medium is acceptable. Comparative Dissolution Study by Genome the 'P-CAB Tablets' against the Innovator Product 'Takecab Tablets' Vonoprazan release more than 85% in all three mediums within 15minutes at 50 RPM. Also, the solubility of Vonoprazan is very high throughout the physiological pH range (1.2 to 6.8). The lowest solubility of Vonoprazan is found to be in pH 6.8 as compared to solubility in pH 1.2 (about 16.5mg/ml) & pH 4.5 (8.1mg/ml) i.e. is about 4.7 mg/ml which is greater than the highest strength divided by 250 (20mg/250=0.08mg/ml), so we selected dissolution medium having pH 6.8 as a worst-case scenario. In light of above discussion and high solubility of drug substance, discriminatory dissolution parameters are not required for Vonoprazan Tablets 10mg and 20mg. Therefore, generalized lowest 50 RMP with 900ml medium (Most common volume as per USP <1092>) was selected for release and stability studies of the drug product. As per Comparative Dissolution Study by Genome the 'P-CAB Tablets' against the Innovator Product 'Takecab Tablets' Vonoprazan release more than 85% in all three mediums within 15minutes.

			Therefore, we selected the time point i.e. 15 minutes for dissolution ***However as per USFDA review report Medium used for dissolution medium is Acetate buffer pH 4.5 while firm used phosphate buffer pH 6.8***
8.	3.2.P.8	Initiation date of stability studies not mentioned.	Submitted.

Decision: Deferred for clarification of use of phosphate buffer i.e pH 6.8 as dissolution medium while from Innovator product review documents it is evident that Acetate buffer pH 4.5 is used as dissolution medium

	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40˚C ± 2˚C / 75% ± 5%RH RH for 6 months. The real time stability data is conducted at 30˚C ± 2˚C / 65% ± 5%RH for 72 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the Zofran 8mg Tablets of by M/s Novartis Pharma. performing quality tests Identification, Appearance, Disintegration test, Dissolution, Assay. CDP has been performed against the Zofran 8mg Tablets of by M/s Novartis Pharma in Acidic media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The f2 values are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for as drug product.

	The status in reference regulatory authorities	Kerendia Tablet (Finerenone) 10mg is registered and being marketed by Bayer AG, Germany (EMA and FDA Approved).
	For generic drugs (me-too status)	Not available in Pakistan.
	Name and address of API manufacturer.	M/s Kaifeng Pharmaceutical (Group) Company Limited. Address: No. 1, Yunan Street, Kaifeng, Henan Province, CN-475003, China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Long term: 30˚C ± 2˚C / 65% ± 5% for 24 months Accelerated: 40˚C ± 2˚C / 75% ± 5% for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the Kerendia Tablet 10mg (Finerenone) is being marketed by Bayer AG, Germany by performing quality tests Description, Identification, Assay, Disintegration, Dissolution,). CDP has been performed against the same brand that is Kerendia Tablet 10mg (Finerenone) is being marketed by Bayer AG, Germany in Acid media (pH 1.0-1.2) 0.01N HCl & Acetate buffer 4.5pH and Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug product.

STABILITY STUDY DATA			
Manufacturer of API	M/s Kaifeng Pharmaceutical (Group) Company Limited. Address: No. 1, Yunan Street, Kaifeng, Henan Province, CN-475003, China.		
API Lot No.	HF220120		
Description of Pack (Container closure system)	Alu-alu Blister		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	587DS01	587DS02	587DS03
Batch Size	2000 tablets	2000 tablets	2000 tablets
Manufacturing Date	06-2022	06-2022	06-2022
Date of Initiation	09-07-2022	09-07-2022	09-07-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product Sofosbuvir 400mg tablets which was conducted on 26th October , 2020 and was presented in 297th meeting of Registration Board held on 12-15th January, 2021. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has also submitted copy of GMP certificate of the firm (No. HA20190069 issued by NMPA china issued dated:29-09-2019 and valid till 28-09-2024.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of form 3, form 7 and Form 6 [License to Import Drug(s) for Clinical Trial, Examination, Test or Analysis no. K-286489875364 issued on 06/04/2022 by Drug Regulatory Authority of Pakistan, Karachi valid till 05/04/2024 was provided.

		Firm has submitted Commercial Invoice # IN20220311A02 dated: 11-03-2022 specifying 250g of Finerenone batch # HF220120.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.No	Section	Shortcoming	Reply
1.	3.2.S.4.4	• Specification by drug substance manufacturer for particle size in 3.2.S.4.1 and COA are different. Justify. • In COA of drug substance by drug product manufacturer limits for particle size should be mentioned instead of complies.	• We have set limit of particle size distribution for product development i.e. D90<30 micron. We also receive particle size report prior to shipment of sample from manufacturer having psd of D90: 25.364µm. Same is enclosed. Revise MOA by drug substance manufacturer for particle size having acceptance limit of D90<30 micron is enclosed. • Revise COA with results of particle size and particle size report is enclosed.
2.	3.2.P.2.2.1	Justification shall be submitted for not performing Uniformity of dosage units in pharmaceutical equivalence.	• We have done uniformity of dosage unit for reference product to incorporate in Pharmaceutical Equivalence Report. • Revise Pharmaceutical Equivalence Report ,Raw Data/Chromatograms, Audit Trail reports are enclosed
3.	3.2.P.8	Commercial Invoice for the procurement of API with approval from DRAP.	Form 6 (License to import Drugs for clinical Trial, Examination, Tests or Analysis submitted

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Evaluation by PEC (No. IV):

S.No	Section	Shortcoming	Reply
1.	1.6.5	In translation of DML Orient Pharmaceutical Co., Ltd. is mentioned while in your certificate Aurisco Pharmaceutical Co., Ltd is mentioned.	Please refer to Annexure 1 for copy of DML of Aurisco Pharmaceutical Co., Ltd., China with its translation.
2.	3.2.S.4.3	Accuracy parameter is not performed in analytical method verification of drug substance by drug product manufacturer.	Analytical Method Verification studies as per BP monograph including system suitability, specificity, linearity, repeatability and range performed by the Drug Product manufacturer. Further, with reference to ICH Guidelines "VALIDATION OF ANALYTICAL PROCEDURES: TEXT AND METHODOLOGY Q2 (R1)" it is mentioned in section 4.1.1 Drug Substance "accuracy may be inferred once precision, linearity and specificity have been established". This is bring to your kind attention that since we have performed method verification studies as per ICH Q2 (R1) therefore, requirement of accuracy is not applicable. ***Firm said that at the time of stability batch manufacturing, our specification for Pregabalin API was In-house. Stability manufacturing done in November and December 2019 while they are submitting Analytical method verification as per BP of July 2019 and***

			specification of drug substance pregabalin as per BP submitted on which mentioned effective date 14-02-2024
3.	3.2.S.4.4	Pregabalin drug substance is available in pharmacopeia than how inhouse specifications are applied on drug substance by drug product manufacturer.	This is to bring to your kind information that at the time of stability batch manufacturing, our specification for Pregabalin API was In-house. Now, we have revised the specifications of Pregabalin API from In-house to BP. Please refer to updated Pregabalin API specifications as per BP monograph. Please note that at the time of commercialization of Gabica CR Tablets, we will use BP specifications for testing of Pregabalin API. ***However pregabalin Drug substance is available in BP 2017 and stability batches manufacture in 2019 No testing of drug substance as per BP submitted.***
4.	3.2.P.2.2.1	Results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted.	Results of quality tests (mentioned in Section 3.2.P.5.1) are provided in tabular form in comparison with innovator products for 'Pregabalin CR Tablets 82.5mg & 165mg'.

Justification by firm: This is to bring to your kind information that the lot of Pregabalin API used in manufacturing of stability batches was received in October 2019. At that time, our commercial specification for testing of Pregabalin API was In-House and accordingly we have submitted complete drug substance part as per In-House Specifications.

API Method Verification studies were performed in July 2019 & after that TAP (Transfer of Analytical Procedure) was performed from our R&D Lab to QC Lab. Currently, we are using BP Specification for Pregabalin API.

We hope that the above provided justification will suffice the requirement of your good office and we look forward for your kind consideration and early approval of our applied products '**Gabica CR Tablets 82.5mg & 165mg'**.

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Analytical procedures used for routine testing of the Drug substance/Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer are submitted**.**
8.	3.2.S.4.3	Detailed Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted	Analytical procedures used for routine testing of the Drug substance/Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer are submitted.
9.	3.2.S.4.4	Provide Certificate of Analysis (CoA) of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / /Active Pharmaceutical ingredient manufacture	Certificate of Analysis (COA) of Drug Substance by Drug Product manufacturer along with Certificate of Analysis (COA) of the same batch from Drug Substance Active Pharmaceutical ingredient manufacturer are submitted.
10.	3.2.S.5	Submitted COA of working standard is from M/s Changzhou Pharmaceutical Factory while details of drug substance submitted from M/s Nantong Chanyoo Pharmatech.	M/s Changzhou Pharmaceutical Factory and M/s Nantong Chanyoo Pharmatech are the same entity; therefore, the provided working Standard COA of the drug substance for the respective batch of API is correct. Statement of Owner ship and Working Standard COA of Drug Substance manufacturer are attached

11.	3.2.S.7	Justification shall be submitted for declaring stability conditions of room temperature as per zone IV-A for drug substance, while innovator product literature has recommended storage conditions of 5°C ± 3°C for drug substance	Stability studies at recommended storage conditions of 5°C ± 3°C for drug substance submitted.
12.	3.2.P.2.2.1	• Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the reference product including the tests recommended by innovator product review document. • Clarification shall be submitted for the reported results of CDP studies without the aid of surfactant in the dissolution mediums while referring to the innovator drug product literature wherein the drug substances have been reported as BCS Class II drug substances and the recommended dissolution medium contains surfactant polysorbate 80.	• The Pharmaceutical Equivalence study include complete testing of drug product and Reference Product. Pharmaceutical Equivalence report is submitted. • According USFDA Guideline the medium used for Obeticholic Acid Tablets is "0.08% polysorbate 80 in 50mM sodium phosphate dibasic buffer, pH 6.8". and the same is used by drug Product Manufacture. Polysorbate is used by drug product manufacturer in composition of phosphate buffer which is evident from the method of dissolution submitted under 3.2.P.5.1
13.	3.2.P.3.4	Particle size distribution is not conducted by bot drug substance manufacturer and drug product manufacturer and Particle size distribution plays a critical role in the content uniformity and dissolution of the tablets, so what steps has been taken by Drug product manufacturer to confirm the **"**Particle size control**"** of active substance in formulation.	Particle size distribution data will be obtained from the drug substance manufacturer for commercial imports. Furthermore, the dissolution test is an important control for particle size distribution. For commercial batches, we will conduct comparative dissolution tests for control purposes. Additionally, a third-party particle size test can be included for commercial batches
14.	3.2.P.5.1	Please justify that why test for water content and microbial limits form have not been included in stability studies while it is included in innovator product specification	Water Content and Microbial limits has been updated in Analytical method.
15.	3.2.P.5.2	Clarify sample preparation in analytical testing method of assay.	Take NLT 20 Tablets weigh them crush them and pick weight equivalent to 50mg in a 100ml volumetric flask and add sufficient quantity of diluent to dissolve the powder. Shake for 30min and dilute with diluent to volume. Pass the sample through a syringe tip filer of 0.45 µg pore size The concentration of the above sample is 0.5mg/ml
16.	3.2.P.5.3	Standard and sample preparation in Analytical testing method are different than submitted in analytical testing method of assay. Calrification is required.	The Final Concentration for both sample and standard preparation is same i.e 0.5mg/5ml Standard Preparation: 50mg/5ml = 0.5mg/ml Sample Preparation: 50mg/5ml = 0.5mg/ml
17.	3.2.P.8	• Submit legible commercial invoice attested by DRAP	• Commercial Invoice attested by DRAP is attached.

		• Reference of previous approval of applications with stability study data of the firm	• Reference of previous approval of applications with stability study data of the firm is submitted.

Decision: Approved with Innovator specification. Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021 before issuance of Registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Previous Decision (M-330): Deferred for following clarifications:

- Manufacturing facility along with details of equipment's wherein the trial batches have been manufactured along with evidence of approval of required manufacturing facility from CLB.
- Scientific rationale for selecting the batch size of 40 bottles for manufacturing of trial batches, along with the submission of complete record of no. of bottles used in analytical testing of trial batches of finished product at different time points of stability studies.

- Equipment list along with Syrup Section approval from CLB submitted.
- Firm submitted stability data of 03 new batches.

Batch No.	T-10	T-11	T-12
Batch Size	10 Liters	10 Liters	10 Liters
Manufacturing Date	January 2023	January 2023	January 2023
Date of Initiation	07-01-2023	07-01-2023	07-01-2023

Evaluation by PEC:

- Registration Board in its 330th meeting held on 24th July to 26th July 2023 deferred your product for following
  "Scientific rationale for selecting the batch size of 40 bottles for manufacturing of trial batches, along with the submission of complete record of no. of bottles used in analytical testing of trial batches of finished product at different time points of stability studies." However, no clarification/justification of above has been provided.

- 330th meeting of Registration Board was held on 24th July to 26th July 2023 wherein, above Clarification/justification was asked, however, you have manufactured new batches in January-2023. Justification is required.
- Details of equipment's along with their capacity wherein new trial batches have been Manufactured.
- Submit details of drug substance used for manufacturing of new stability batches, including batch Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided.
- Compliance Record of HPLC software 21CFR & audit trail reports on new batches of product testing..

Previous Decision (M-333): Registration Board deferred the case for submission of reply to the above cited shortcomings and evaluation by PE&R Division.

S.No	Reason of deferment	Reply
1.	Registration Board in its 330th meeting held on 24th July to 26th July 2023 deferred your product for following "Scientific rationale for selecting the batch size of 40 bottles for manufacturing of trial batches, along with the submission of complete record of no. of bottles used in analytical testing of trial batches of finished product at different time points of stability studies." However, no clarification/justification of above has been provided.	It is submitted that, Earlier, trials of the product were manufactured with batch size 2.40 Liters in November 2021 and stability studies were submitted in the dossiers accordingly. Afterwards, we have manufactured new trials with Batch size 10 Liters to re-assure the compliance and stability. Hence, we have submitted the data for newly manufactured batches for consideration. In both cases, out product found to be stable.
2.	330th meeting of Registration Board was held on 24th July to 26th July 2023 wherein, above Clarification/justification was asked, however, you have manufactured new batches in January-2023. Justification is required.	The dossier was under evaluation since February 2023, and we have submitted the 12 months' real-time stability study data with the dossier. The new trials were manufactured in January 2023 and six months' accelerated stability study was completed in July 2023. As per DRAP CTD guidelines, six months' accelerated stability study data is required for evaluation, so before that we could not submit the stability data of newly manufactured batches.
3.	Details of equipment's along with their capacity wherein new trial batches have been Manufactured.	Equipment list submitted Mixing tank of 150L Capacity used. Firm submitted Calibration certificate which shows capacity from 10L to 150L and also submitted Performance qualification protocol and report for 150L mixing tank with working Range from 10L to 100L.
4.	Submit details of drug substance used for manufacturing of new stability batches, including batch Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided	Details of drug substance and copy of Batch Manufacturing Record (BMR) are attached
5.	Compliance Record of HPLC software 21CFR & audit trail reports on new batches of product testing..	Submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module III (Drug Substance)	Official monograph of Paracetamol(Actaminophen) is present in USP. The firm as submitted detail of nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, tests for

		impurity, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 18 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (21GN60001, 21GN60002, 21GN60003)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the brand that is Calpol 6 Plus Suspension by M/s GSK Batch # 372R by performing quality tests (description, Identification, pH, Deliverable Volume, Viscosity, Microbial Enumeration, Assay)
	Analytical method validation/verification of product	Method verification studies have submitted including accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Saakh Pharma (Pvt) Ltd Address: C-7/1, Nwiz, Port Qasim Karachi.		
API Lot No.	21GN60187		
Description of Pack (Container closure system)	Clear, viscous liquid light orange to orange colour sweet in taste filled in ambered glass bottle of USP type III sealed with Aluminium cap, neatly labelled and packed in a unit carton with insertion of a leaflet		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-007	T-008	T-009
Batch Size	40 bottles	40 bottles	40 bottles
Manufacturing Date	06-2022	06-2022	06-2022
Date of Initiation	20-06-2022	22-06-2022	24-06-2022
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of cGMP certificate on the basis of evaluation conducted on 07-10-2022 and valid for 02 years.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	The firm has submitted Data of stability batches supported by attested respective documents like chromatograms, raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	The firm has submitted Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated).

Remarks of Evaluator:

S.No	Section	Shortcomings Communicated
1.	3.2.S.4.3	In Drug substance Precision parameter of Analytical method verification is not conducted as per ICH Q2(R1) guidelines. Which states "a minimum of 9 determinations covering the specified range for the procedure (e.g., 3 concentrations/3 replicates each) while you have used 6 determinations (3 concentrations /2 replicates each).
2.	3.2.P.2.2.1	In Pharmaceutical Equivalence Test product is tested on USP specifications while GSK product (Reference/Comparator) tested on BP Specifications. Clarify why different specifications are used.
3.	3.2.P.5.3	In Drug Product Precision parameter of Analytical method verification is not conducted as per ICH Q2(R1) guidelines. Which states "a minimum of 9 determinations covering the specified range for the procedure (e.g., 3 concentrations/3 replicates each) while you have used 6 determinations (3 concentrations /2 replicates each).
4.	3.2.P.8	Purchase Documents for Paracetamol. Compliance Record of HPLC software 21CFR & audit trail reports on product testing

Previous Decision (M-327): Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Evaluation:

S.No	Section	Shortcomings Communicated	Reply
1.	3.2.S.4.3	In Drug substance Precision parameter of Analytical method verification is not conducted as per ICH Q2(R1) guidelines. Which states "a minimum of 9 determinations covering the specified range for the procedure (e.g., 3 concentrations/3 replicates each) while you have used 6 determinations (3 concentrations /2 replicates each).	The revised precision parameter of analytical method verification of drug substance is attached.
2.	3.2.P.2.2.1	In Pharmaceutical Equivalence Test product is tested on USP specifications while GSK product (Reference/Comparator) tested on BP Specifications. Clarify why different specifications are used.	The testing of reference product was performed as per claimed product specifications (BP Specs). Temol suspension was built on USP specifications during the product development phase. However revised pharmaceutical

			equivalence according USP specifications is submitted.
3.	3.2.P.5.3	In Drug Product Precision parameter of Analytical method verification is not conducted as per ICH Q2(R1) guidelines. Which states "a minimum of 9 determinations covering the specified range for the procedure (e.g., 3 concentrations/3 replicates each) while you have used 6 determinations (3 concentrations /2 replicates each).	The revised precision parameter of analytical method verification of drug product is submitted.
4.	3.2.P.8	• Purchase Documents for Paracetamol. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing	• The API was locally purchased. Purchased documents of paracetamol are attached.(Invoice #PRT/2021/0185 dated: 29-07-2021) • Compliance record of HPLC software 21 CFR & audit trail reports on product testing

Previous Decision (M-330): Deferred for following clarifications:

- Manufacturing facility along with details of equipment's wherein the trial batches have been manufactured along with evidence of approval of required manufacturing facility from CLB.
- Scientific rationale for selecting the batch size of 40 bottles for manufacturing of trial batches, along with the submission of complete record of no. of bottles used in analytical testing of trial batches of finished product at different time points of stability studies.

- Equipment list along with Syrup Section approval from CLB submitted.
- Firm submitted stability data of 03 new batches.

Batch No.	T-11	T-12	T-13
Batch Size	10 Liters	10 Liters	10 Liters
Manufacturing Date	January 2023	January 2023	January 2023
Date of Initiation	14-01-2023	14-01-2023	14-01-2023

Evaluation by PEC:

- Registration Board in its 330th meeting held on 24th July to 26th July 2023 deferred your product for following
- "Scientific rationale for selecting the batch size of 40 bottles for manufacturing of trial batches, along with the submission of complete record of no. of bottles used in analytical testing of trial batches of finished product at different time points of stability studies." However, no clarification/justification of above has been provided.
- 330th meeting of Registration Board was held on 24th July to 26th July 2023 wherein, above Clarification/justification was asked, however, you have manufactured new batches in January-2023. Justification is required.
- Details of equipment's along with their capacity wherein new trial batches have been
- Manufactured.
- Submit details of drug substance used for manufacturing of new stability batches, including batch Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided.
- Compliance Record of HPLC software 21CFR & audit trail reports on new batches of product testing..

Previous Decision (M-333): Registration Board deferred the case for submission of reply to the above cited shortcomings and evaluation by PE&R Division.

S.No	Reason of deferment	Reply

1.	Registration Board in its 330th meeting held on 24th July to 26th July 2023 deferred your product for following "Scientific rationale for selecting the batch size of 40 bottles for manufacturing of trial batches, along with the submission of complete record of no. of bottles used in analytical testing of trial batches of finished product at different time points of stability studies." However, no clarification/justification of above has been provided.	It is submitted that, Earlier, trials of the product were manufactured with batch size 2.40 Liters in November 2021 and stability studies were submitted in the dossiers accordingly. Afterwards, we have manufactured new trials with Batch size 10 Liters to re-assure the compliance and stability. Hence, we have submitted the data for newly manufactured batches for consideration. In both cases, out product found to be stable.
2.	330th meeting of Registration Board was held on 24th July to 26th July 2023 wherein, above Clarification/justification was asked, however, you have manufactured new batches in January-2023. Justification is required.	The dossier was under evaluation since February 2023, and we have submitted the 12 months' real-time stability study data with the dossier. The new trials were manufactured in January 2023 and six months' accelerated stability study was completed in July 2023. As per DRAP CTD guidelines, six months' accelerated stability study data is required for evaluation, so before that we could not submit the stability data of newly manufactured batches.
3.	Details of equipment's along with their capacity wherein new trial batches have been Manufactured.	Equipment list submitted Mixing tank of 150L Capacity used. Firm submitted Calibration certificate which shows capacity from 10L to 150L and also submitted Performance qualification protocol and report for 150L mixing tank with working Range from 10L to 100L.
4.	Submit details of drug substance used for manufacturing of new stability batches, including batch Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided	Details of drug substance and copy of Batch Manufacturing Record (BMR) are attached
5.	Compliance Record of HPLC software 21CFR & audit trail reports on new batches of product testing..	Submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

M/s Medevo (Private) Ltd. . **(New DML)**
CLB in its 288th meeting held on 18th October 2022 has considered and approved the grant of Drug Manufacturing License by way of formulation with following Two (02) sections to M/s Medevo (Private) Ltd.

1) Eye Drops (General)
2) Eye Ointment (General)

Eye Drops (General)		
713.	Name, address of Applicant / Marketing Authorization Holder	M/s Medevo (Private) Ltd. Plot No # 94 sundar industrial Estate Raiwind Lahore.
	Name, address of Manufacturing site.	M/s Medevo (Private) Ltd. Plot No # 94 sundar industrial Estate Raiwind Lahore
	Status of the applicant	☒Manufacturer

		☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	New DML issued dated: 08-11-2022
	Evidence of approval of manufacturing facility	Firm has submitted copy of Issuance of DML letter dated 08-11-2022 specifying EYE Drops (General) Section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy No. 23152 dated 20-09-2023
	Details of fee submitted	Rs.30,000/- Deposit slip # 10783694194
	The proposed proprietary name / brand name	Surgilot Eye Drops (0.5% Ophthalmic Suspension)
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Loteprednol Etabonate……5mg
	Pharmaceutical form of applied drug	Milky white Ophthalmic Suspension
	Pharmacotherapeutic Group of (API)	Corticosteroid
	Reference to Finished product specifications	Innovator
	Proposed Pack size	5ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LOTEMAX ophthalmic suspension/drops; of USFDA Approved
	For generic drugs (me-too status)	Lotepred forte Ophthalmic suspension of M/s of Sante private limited Reg# 0674458
	Name and address of API manufacturer.	M/s Flax Laboratories B-29/1, MIDC Mahad, birvadi village, Dist, raigad, Maharashtra, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6

		months. The real time stability data is conducted at 30°C ± 2°C / 65 ± 5% RH for 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the Lotepred Forte of M/s Sante Pharmaceuticals by performing quality tests Identification, pH, Assay, and Sterility Test,).
	Analytical method validation/verification of product

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 6111950) issued by Food and Drugs Administration Maharashtra state, dated 14-03-2023 and valid till 13-03-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	An agreement of API's Loan between Medevo (Pvt) Limited and Innovotek pharmaceuticals submitted. Firm has submitted copy of Drugs import License # K-987059032758, dated; 29-09-2022 specifying Loteprednol Etabonate.(Innovotek pharmaceuticals)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming
1.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required.
2.	3.2.S.4.2	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.
3.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.
4.	3.2.P.1	Innovator product add Hydrochloric acid/ or Sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.
5.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.
6.	3.2.P.5.3	Analytical method validation protocol and report for drug product shall be performed.
7.	3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.
8.	3.2.P.8	• Stability studies are conducted at Real time : 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH but water loss test calculation is not done as per ICH guidelines. • Water loss test submitted for only 3 months. Clarify. • Submit complete raw data of stability studies. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing

Previous Decision (M-333): Registration Board deferred the case for submission of reply to the above cited shortcomings and evaluation by PE&R Division.

S.No	Section	Shortcoming	Reply
1.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required.	Copies of the Drug substance specifications by Drug Product manufacturer submitted.
2.	3.2.S.4.2	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer submitted.
3.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance manufacturer submitted.
4.	3.2.P.1	Innovator product add Hydrochloric acid/ or Sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.	HCl solution is used to adjust the pH and evident from batch manufacturing record.
5.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.	Preservative effectiveness studies submitted.
6.	3.2.P.5.3	Analytical method validation protocol and report for drug product shall be performed.	Analytical method validation protocol and report are submitted.

7.	3.2.P.5.4	The copies of complete analysis of at least two batches shall be provided.	Certificate of analysis of 3 batches submitted.
8.	3.2.P.8	• Stability studies are conducted at Real time : 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH but water loss test calculation is not done as per ICH guidelines. • Water loss test submitted for only 3 months. Clarify. • Submit complete raw data of stability studies. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing	• As per ICH an alternative approach to study at the reference relative humidity (for either long term or accelerated testing) is perform the stability studies under higher relative humidity and derive the water loss rate at the reference relative humidity is to multiply the water loss rate measured at an alternative relative humidity at the same temperature by a water loss rate ratio shown in the table below

Alternative relative humidity	Reference relative humidity	Ratio of water loss rates at a given temperature
65% RH	35% RH	1.9
75% RH	25% RH	3.0

And our water loss is less than 5% from initial value.

- Water loss test for 6th months submitted.
- Complete raw data of stability studies submitted.
- Compliance Record of HPLC software submitted.

Decision: Approved with innovator's specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Date of Initiation	30-11-2022	30-11-2022	30-11-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	No inspection of Next Pharmaceuticals have been conducted on the basis of stability study data.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. HE2021010F) issued by NMPA, dated 30-11-2019 and valid till 29-11-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	An agreement of API's Loan between Medevo (Pvt) Limited and Innovotek pharmaceuticals submitted. Firm has submitted copy of Clearance certificate # specifying Invoice #PHL206738, dated; 10-03-2020 specifying Tobramycin base Batch #.08191203-U (Innovotek pharmaceuticals)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming
1.	1.6.5	Submitted GMP certificate for drug substance could not be verified from NMPA site. Clarify.
2.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required.
3.	3.2.S.4.2	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.
4.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer both drug substance(s) shall be submitted.
5.	3.2.S.7	Submit stability studies of drug substance as per zone IV-A/B
6.	3.2.P.1	Innovator product add Sulfuric acid/ or Sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.
7.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.
8.	3.2.P.5.2	Detailed analytical procedures used for testing the drug product shall be provided.
9.	3.2.P.5.3	Analytical method validation protocol and report for drug product shall be performed.
10.	3.2.P.8	• Stability studies are conducted at Real time : 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH but water loss test calculation is not done as per ICH guidelines. • Water loss test submitted for only 3 months. Clarify. • Submit complete raw data of stability studies. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Previous Decision (M-333): Registration Board deferred the case for submission of reply to the above cited shortcomings and evaluation by PE&R Division**.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate (No. 6109110) issued by Food & Adminstration Maharashtra state India, (for Precise Biopharma Pvt Ltd) dated 19-09-2022 and valid till 15-09-2023 (Firm submitted Decleration from drug substance manufacturer that their company name change from Precise chemipharm Pvt Ltd to Precise Biopharma pvt Ltd.)
3.	Documents for the procurement of API with approval from DRAP (in case of import).	An agreement of API's Loan between Medevo (Pvt) Limited and Innovotek pharmaceuticals submitted. Firm has submitted copy of form 5 and Clearance certificate specifying Invoice #EXPI/00055/20-21, dated; 08-07-2020 specifying Olopatadine Hcl Batch #.055008062020 (Innovotek pharmaceuticals)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin
2.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer both drug substance(s) shall be submitted.
3.	3.2.P.1	Innovator product add Hydrochloric acid/ or Sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.
4.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.
5.	3.2.P.5.3	Analytical method validation protocol and report for drug product shall be performed.
6.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided.
7.	3.2.P.8	• Stability studies are conducted at Real time : 30˚C ± 2˚C / 65% ± 5%RH and Accelerated: 40˚C ± 2˚C / 75% ± 5%RH but water loss test calculation is not done as per ICH guidelines.

		• Water loss test submitted for only 3 months. Clarify. • Submit complete raw data of stability studies. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Previous Decision (M-333): Registration Board deferred the case for submission of reply to the above cited shortcomings and evaluation by PE&R Division.

S.No	Section	Shortcoming	Reply
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	Firm has submitted copy of GMP certificate (No. 6115332) issued by Food & Adminstration Maharashtra state India, (for Precise Biopharma Pvt Ltd) dated 20-09-2023 and valid till 19-09-2024
2.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer both drug substance(s) shall be submitted.	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance manufacturer submitted.
3.	3.2.P.1	Innovator product add Hydrochloric acid/ or Sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.	Hydrochloric acid is used to adjust the pH and evident from batch manufacturing record.
4.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.	Preservative effectiveness studies submitted.
5.	3.2.P.5.3	Analytical method validation protocol and report for drug product shall be performed.	Analytical method verification protocol and report are submitted.
6.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided.	Certificate of analysis of working standard submitted.
7.	3.2.P.8	• Stability studies are conducted at Real time : 30°C ± 2°C / 65% ± 5%RH and Accelerated: 40°C ± 2°C / 75% ± 5%RH but water loss test calculation is not done as per ICH guidelines. • Water loss test submitted for only 3 months. Clarify. • Submit complete raw data of stability studies. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	• As per ICH an alternative approach to study at the reference relative humidity (for either long term or accelerated testing) is perform the stability studies under higher relative humidity and derive the water loss rate at the reference relative humidity is to multiply the water loss rate measured at an alternative relative humidity at the same temperature by a water loss rate ratio shown in the table below

Alternative relative humidity	Reference relative humidity	Ratio of water loss rates at a given temperature
65% RH	35% RH	1.9
75% RH	25% RH	3.0

And our water loss is less than 5% from initial value.

			• Water loss test for 6th months submitted. • Complete raw data of stability studies submitted. • Compliance Record of HPLC software submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of

		specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the Surgicain injection manufactured by Harmann Pharmaceutical Laboratories Pvt. Ltd by performing quality tests Identification, Description/Appearance, pH, Assay, and Sterility Test,).
	Analytical method validation/verification of product

Manufacturer of API	Gufic Biosciences Limited. N,H. No. 8 Near Grid, At &PO kabilpore-396 424 Navsari India		
API Lot No.	API/LIH/202161		
Description of Pack (Container closure system)	2ml x 100's Ampoules		
Stability Storage Condition	Real time : 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	LT-001	LT-002	LT-003
Batch Size	500 Ampoules	500 Ampoules	500 Ampoules
Manufacturing Date	03-2023	03-2023	03-2023
Date of Initiation	21-03-2023	21-03-2023	21-03-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No.20081523) dated 07-08-2020 issued by Food and Drugs Control Administration Gujrat State India. The certificate is valid till 06-08-2023

3.	Documents for the procurement of API with approval from DRAP (in case of import).	An agreement of API's Loan between M/s DS pharma and M/s NS pharma submitted. Firm has submitted copy of form 5 and Commercial Invoice #NBEXBD2021000224, dated; 10-12-2020 cleared by DRAP (Lahore) dated: 19-01-2021 specifying. Lidocaine HCL Batch # API/LIH/202161 (M/s NS pharma)
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted the audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming	Reply
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	Firm has submitted copy of GMP Certificate (No.22093515) dated 05-09-2022 issued by Food and Drugs Control Administration Gujrat State India. The certificate is valid till 04-09-2025
2.	2.3.R.1.1	• Overage is used in stability batches. Reference product specify Each 1 ml contains 20.0 mg of lidocaine hydrochloride, corresponding to 16.2 mg lidocaine while your product contains Each ml contains 21.28mg. Clarify. • How pH is adjusted without Hydrochloric Acid & Sodium Hydroxide.	• As our label claim is Lidocain as HCl and the factor of lidocaine hydrochloride is 1.064. So by applying factor (20 × 1.064 = 21.28 mg) . here potency of HCl salt is adjusted. ***(As per reference product 20mg lidocaine Hydrochloride* corresponding to 16.2 mg lidocaine. Lidocaine as HCl is not available in RRA.)** • The pH of the injection is adjusted with 1M HCl or 1M NaOH when necessary. Revised formulation mentioning this is attached.
3.	3.2.S.4.3	• In analytical Method Verification studies in accuracy and precision what concentrations is used. • In analytical Method Verification studies specificity of drug substance which Placebo is used.	• Revised method verification is attached. • Placebo term here represent diluent/medium in specificity of drug substance method verification.
4.	3.2.S.4.4	Drug substance manufacturer applied on BP monograph while you have mentioned on USP monograph.	We have applied USP method for drug substance and also verified it and submitted its record.
5.	3.2.P.1	In reference product Hydrochloric Acid & Sodium Hydroxide are used for pH adjustment while in your product these are not added than how pH adjustment is done.	The pH of the injection is adjusted with 1M HCl or 1M NaOH when necessary. Revised formulation mentioning this is attached.
6.	3.2.P.2.5	Preservative effectiveness studies to be performed as per recommendations of pharmacopoeia) shall be provided.	No preservative is used in the formulation so preservative effectiveness studies is not applicable. effectiveness study

7.	3.2.P.5.1	Bacterial Endotoxin test and particulate matters are not part of specification as specified in USP monograph. Clarify.	We have performed Bacterial endotoxin and particulate matter test. Revised specifications is attached.
8.	3.2.P.5.3	Analytical Method Verification studies Concentrations are not as per USP monograph concentrations.	Revised method Verification documents are attached.
9.	3.2.P.7	Submit details of primary Container Closure System.	Filled in 2cc amber colored Type-1 glass.
10.	3.2.P.8	• Sterility test and Bacterial Endotoxin test are not part of stability studies. • Submit complete Raw data for stability studies . • Submit 6th month stability studies data.	• We have performed sterility test and bacterial endotoxin test during stability studies. • Raw data for stability studies is not submitted**.** • 6th month stability studies data submitted

Previous Decision (M-333): Registration Board deferred the case for following:

- Revision of label claim as per reference product along with submission of fee of Rs:30000/- for preregistration correction/changes of label claim as per notification 7-11/2012-B&A/DRAP dated 07.05.2021 and 13.07.2021.
- Submission of complete Raw data for stability studies of 03 batches.

S.No	Reason of deferment	Reply
1.	Revision of label claim as per reference product along with submission of fee of Rs:30000/- for pre registration correction/changes of label claim as per notification 7-11/2012-B&A/DRAP dated 07.05.2021 and 13.07.2021.	We are going to change our salt from Lidocain as HCl to Lidocain HCl Label claim is changed as per reference product without submission of fee that is**:** Each 2ml Ampoule Contains: Lidocaine HCl……..…...40 mg
2.	Submission of complete Raw data for stability studies of 03 batches.	Complete Raw data for stability studies of 03 batches submitted.

Decision: Approved. Firm shall submit the fee of Rs. 30,000 for correction/pre-approval change in composition (correction/change of Label claim), as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021 before issuance of Registration letter.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has referred to onsite inspection report of their product Dascot 30mg & 60mg Tablet which was conducted on 26-01-2018 and was presented in 278th meeting of Registration Board held on 29-31st January, 2018. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software. • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of form 6 specifying Amikacin sulphate 3Kg, Dated: 13-10-2020
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.No	Section	Shortcoming
1.	1.5.9	Evidence of approval / registration / marketing status of the applied formulation in the same fill volume i.e 1ml in one of the reference regulatory authority specified by Registration Board

Previous Decision (M-331): Deferred for evidence of approval of applied formulation in the same fill volume i.e 1ml in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.

S.No	Reason of deferment	Reply
1.	Deferred for evidence of approval of applied formulation in the same fill volume i.e 1ml in reference regulatory authorities / agencies which were adopted by the Registration Board in its 275th meeting.	With reference to the subject cited above, our product Amicable Injection 500mg (Each ml contains: Amikacin as sulfate 250mg) was evaluated and required justification of filled volume 1 ml We conducted a stability study with a 1 ml filled volume, whereas the innovator product has a filled volume of 2 ml. However, the concentration of amikacin sulfate of innovator product is 250mg per 1 ml. The label claim for the mentioned product aligns with that of the Innovator's products Therefore, we request you to kindly grant us approval of the aforementioned product in the upcoming meeting of the Drug Registration Board (DRB) at your earliest convenience as the filled volume does not affect the quality of the product.

Remarks of Evaluator:

S.No	Section	Shortcoming
1.	1.3.5	GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted.
2.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin
3.	2.3.R.1.1	In batch manufacturing record of 3 batches dispensing sheets are not submitted.
4.	3.2.S.4.1	Copies of the Drug substance specifications Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.
5.	3.2.S.4.2	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient Drug Product manufacturer is required
6.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.

	7.	3.2.S.4.4	• Certificate of Analysis (CoA) of the same batch of drug substance from Drug Substance / /Active Pharmaceutical Ingredient manufacture which are used during product development and stability studies by drug product manufacturer. • As per BP monograph sulfate content deducted which is not done by you. Justification is required.
	8.	3.2.S.4.5	Justification of specification are as per USP monograph while BP monograph is used by drug product manufacturer for drug substance., Clarify
	9.	3.2.P.2.2.1	Provide details of product against which Pharmaceutical Equivalence conducted.
	10.	3.2.P.5.2	BP monograph specify detection wavelength 340nm while your analytical method specify detection wavelength 200nm. Clarify how on 200nm detection done.
	11.	3.2.P.8	Documents for the procurement of API with approval from DRAP

Proceedings of 336th meeting; In 331st meeting, the produt was deferred for one point i.e, availability of 2 ml volume in RRA and it was afound that the said volume is approved by MHRA/EMA and available in EMC.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application**

Manufacturing Date	11-2022	11-2022	11-2022
Date of Initiation	11-2022	11-2022	11-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

Reference of previous approval of applications with stability study data of the firm (if any)	
Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
Documents for the procurement of API with approval from DRAP (in case of import).	
Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.

Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system
Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC (No.IV):

S.No	Section	Shortcoming
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.
2.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required for both Propylene Glycol and Polyethylene Glycol
3.	3.2.S.4.2	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required for both Propylene Glycol and Polyethylene Glycol
4.	3.2.S.4.4	Submit COA of both drug substances by drug substance manufacturer and drug product manufacturer with batch No used during product development and stability studies
5.	3.2.P.1	Reference product add hydrochloric acid and/or sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.
6.	3.2.P.5.1	Submit specification of applied product.
7.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided for both Propylene Glycol and Polyethylene Glycol.
8.	3.2.P.8	Documents for the procurement of API with approval from DRAP

Previous Decision (335): Registration Board deferred the case for submission of reply to the above cited shortcomings and evaluation by PE&R Division.

S.No	Section	Shortcoming	Reply
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin submitted.
2.	3.2.S.4.1	Copies of the Drug substance specifications by Drug Product manufacturer is required for both Propylene Glycol and Polyethylene Glycol	Copies of the Drug substance specifications by Drug Product manufacturer is required for both Propylene Glycol and Polyethylene Glycol are submitted.
3.	3.2.S.4.2	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required for both Propylene Glycol and Polyethylene Glycol	Detailed analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required for both Propylene Glycol and Polyethylene Glycol are submitted.
4.	3.2.S.4.4	Submit COA of both drug substances by drug substance manufacturer and drug product manufacturer with batch No used during product development and stability studies	COA of both drug substances by drug substance manufacturer and drug product manufacturer submitted.

5.	3.2.P.1	Reference product add hydrochloric acid and/or sodium hydroxide to adjust pH while in your formulation these are not included than how pH is adjusted.	HCl solution is used to adjust the pH and evident from batch manufacturing record.
6.	3.2.P.5.1	Submit specification of applied product.	Specifications of applied product submitted.
7.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided for both Propylene Glycol and Polyethylene Glycol.	COA of primary / secondary reference standard including source and lot number shall be provided for both Propylene Glycol and Polyethylene Glycol submitted.
8.	3.2.P.8	Documents for the procurement of API with approval from DRAP	Documents for the procurement of API with approval from DRAP submitted.

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application**

REQUEST OF EXEMPTION FROM ON SITE INSPECTION		
The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.		
Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate (Certificate No.INS-480019-0063-011) for M/s Fresenius Kabi Austria GmbH Estermannstraße 17 4020 Linz issued by Austria on the basis of Inspection conducted on 24-09-2018 and, valid for three Year.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Evaluation:

S.No	Section	Shortcomings Communicated
1.	1.1	In covering letter label claim is 33.5 gm. Clarification is required in this regard.
2.	1.5.2.	Strength of API is 3.35mg. Clarification is required in this regard.
3.	3.2.S.4	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer of drug substance before initiation of stability studies and manufacturing however you are performing after completion of 6 month of stability studies. Clarification is required.
4.	3.2.P.3	A flow diagram shall be presented giving the steps of the process and showing where materials enter the process. The critical steps and points at which process controls, intermediate tests or final product controls are conducted shall be identified shall be submitted by Drug product manufacturer.
5.	3.2.P.3.3	Tests and acceptance criteria shall be provided (with justification, including experimental data) performed at the critical steps identified in 3.2.P.3.3 of the manufacturing process, to ensure that the process is controlled , shall be submitted by Drug product manufacturer.
6.	3.2.P.5	Provide Evidence of RI detector
7.	3.2.P.5	As per relevant guidelines & structure of Form 5F Analytical test method validation has to be performed at the time of formulation development, while according to your submitted data, Analytical test method validation protocols has been approved after commencement of stability studies as well as Analytical test method validation have been performed on 29-10-2020 while stability studies started on 02-2020. Justification shall be submitted in this regard.
8.	3.2.P.8	• Documents for the procurement of API with approval from DRAP. • Stability initiation date mentioned is 02-2020 while initial testing conducted in march

Previous Decision (M-324): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months**.**

Evaluation:

S.No	Section	Shortcomings Communicated	Reply
1.	1.1	In covering letter label claim is 33.5 gm. Clarification is required in this regard.	In covering letter, it was typographic error, correct strength is 3.35gm

2.	1.5.2.	Strength of API is 3.35mg. Clarification is required in this regard.	Strength of API is 3.35g, same is mentioned in Application form (Copy of form is enclosed), However 1.5.2 referred section mentioned strength is due to typographical error
3.	3.2.S.4	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer of drug substance before initiation of stability studies and manufacturing however you are performing after completion of 6 month of stability studies. Clarification is required.	• Validation of analytical procedure for detection of Lactulose as per USP was already performed by Drug Substance manufacturer (DMF attached) and this product is ready to fill product and we have only filled the product in bottles and there was no formulation and mixing. • As this product is only ready to fill and no additional excipients which could interfere with detection of API, therefore. Analytical method validation done by drug substance manufacturer is deemed valid. • As this is a United States Pharmacopeia method which is not required method validation hence only verification is done. Furthermore, this is only ready to fill product and validation of testing method is also done by drug product manufacturer which has been provided with dossier
4.	3.2.P.3	A flow diagram shall be presented giving the steps of the process and showing where materials enter the process. The critical steps and points at which process controls, intermediate tests or final product controls are conducted shall be identified shall be submitted by Drug product manufacturer.	Submitted
5.	3.2.P.3.3	Tests and acceptance criteria shall be provided (with justification, including experimental data) performed at the critical steps identified in 3.2.P.3.3 of the manufacturing process, to ensure that the process is controlled , shall be submitted by Drug product manufacturer.	Submitted.
6.	3.2.P.5	Provide Evidence of RI detector	Calibration certificate of RI detector along with pictures of RI detector showing serial no. is attached
7.	3.2.P.5	As per relevant guidelines & structure of Form 5F Analytical test method validation has to be performed at the time of formulation development, while according to your submitted data, Analytical test method validation protocols has been approved	We have performed some pre-validation studies which includes limited parameters (Linearity, accuracy and specificity) at the time of method development activity to assure that the method is capable of its intended purpose, however the complete validation will be conducted later on, In case of Laxocare syrup 3.35g/5ml, pre-validation activity found satisfactory results.

		after commencement of stability studies as well as Analytical test method validation have been performed on 29-10-2020 while stability studies started on 02-2020. Justification shall be submitted in this regard.	
8.	3.2.P.8	• Documents for the procurement of API with approval from DRAP. • Stability initiation date mentioned is 02-2020 while initial testing conducted in march	• Firm submitted Loan agreement from Rasco Pharma. • Firm has submitted copy Commercial Invoice # 1370054582, dated; 03-12-2019 cleared by DRAP (Lahore) dated: 24-12-2019 specifying Cholecalciferol batch # 17190532. • This Product is ready to fill product which does not involve any additional excipient and mixing, and drug product was tested before filling operation. Hence quality of drug product was already confirmed, therefore stability studies initiated just after filling operation in February 2020 and just confirmation testing of filled samples was done in March 2020 which is considered as Initial testing.

Decision: Approved. The firm shall submit fee of Rs. 7,500/- for correction of label claim, as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021, before issuance of registration letter

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

M/s Qadir Pharmaceuticals**. (New DML)**

CLB in its 282nd meeting held on 31st August 2021 has considered and approved the grant of Drug Manufacturing License by way of formulation with following seven (07) sections to M/s Qadir Pharmaceuticals

1. Tablet (General)
2. Capsule (General)
3. Oral Liquid (General)
4. Liquid Injectable – Vial & Ampoule (General)
5. Capsule (Cephalosporin)
6. Dry Powder Injectable (Cephalosporin)
7. Oral Dry Powder Suspension (Cephalosporin)

Accordingly, firm has applied for following products for consideration by Drug Registration Board

Tablet Section (General)		
725.	Name, address of Applicant / Marketing Authorization Holder	M/s Qadir Pharmaceuticals Veerum Fateh Garh Sahuwala road, Sialkot-Pakistan
	Name, address of Manufacturing site.	M/s Qadir Pharmaceuticals Veerum Fateh Garh Sahuwala road, Sialkot-Pakistan
	Status of the applicant	☒Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	

	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of DML dated 14-02-2020 specifying Cream Section (General).
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Tracking Id: M1Y-QNY-T2R6 Application No. 1498 dated 16-01-2024
	Details of fee submitted	Rs.30,000/- Deposit slip # 3150282053
	The proposed proprietary name / brand name	Epilept 100mg Tablets
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Lacosamide…….…….100mg
	Pharmaceutical form of applied drug	Antiepileptic agent
	Pharmacotherapeutic Group of (API)	white color round shape film coated tablet, plain on both sides.
	Reference to Finished product specifications	USP
	Proposed Pack size	14’s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Vimpat 100mg tablets by UCB Pharma Limited of (MHRA Approved)
	For generic drugs (me-too status)	Lacolep of M/s Hilton Pharma (Reg# 073858)
	Name and address of API manufacturer.	M/s Raghava Life Sciences Private Limited, Sy.No.888 &901, Jangampally Village, Bhiknoor Mandal, Kamareddy Dist,
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubility’s, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40˚C ± 2˚C / 75% ± 5%RH RH for 6 months. The real time stability data is conducted at 30˚C ± 2˚C / 65% ± 5%RH for 36 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its

		description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the LACOLEP 100mg of Hilton Pharma Pakistan by performing quality tests Physical appearance, Identification, Disintegration time , Uniformity of dosage units, , Assay, Dissolution) CDP has been performed against the 'LACOLEP 100mg of Hilton Pharma Pakistan in Acidic media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The f2 values are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for as drug product.

STABILITY STUDY DATA

Manufacturer of API	M/s Raghava Life Sciences Private Limited, Sy.No.888 &901, Jangampally Village, Bhiknoor Mandal, Kamareddy Dist,		
API Lot No.	LE2210006

Manufacturing Date	02-2023	02-2023	02-2023
Date of Initiation	15-02-2023	15-02-2023	15-02-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	COPY of DML (form 25) No # TS/KRY/2019-53805 issued by DRUGS CONTROL ADMINISTRATION Government of Telangana dated: 15-11-2019 and valid till 14-11-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of form 6, [License to Import Drug(s) for Clinical Trial, Examination, Test or Analysis no. K-K-1458307553412 issued on 12/01/2023 by Drug Regulatory Authority of Pakistan, Karachi valid till 11/01/2025 specifying LACOSAMIDE was provided. Firm has submitted copy of form 3, form 7 and Commercial Invoice # 22-23/U-l/E-030, dated; 23-12-

		2023 not cleared by DRAP specifying 1.5Kg of Lacosamide batch # LE2210006
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Audit trail report for product testing submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming	Reply
1.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	The copy of batch manufacturing record (BMR) for all the batches of drug products for witch stability study data is provided are attached.
2.	3.2.S.4.1	Copies of the Drug substance specifications of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Specifications of the drug substance/Active pharmaceutical ingredient by drug product manufacturer is attached.
3.	3.2.S.4.2	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Analytical procedure used for routine testing of drug substance /Active pharmaceutical ingredient by drug product manufacturer is attached. ***Firm claimed Ph. Eur while submitted method is as per USP monograph of drug product also Detection is at 215nm which is used for drug product (tablet) while drug substance Detection is at 258nm and concentration of standard and sample preparation are change from pharmacopeia.***
4.	3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	Analytical method verification studies including specificity, accuracy and repeatability (method precision) of drug substance performed by the drug product manufacturer. ***Verification studies of previously submitted for drug product is submitted for drug substance***.
5.	3.2.S.4.4	Certificate of Analysis (CoA) of the same batch of Drug Substance by both Drug substance manufacturer and Drug Product manufacturer used during product development and stability studies.	Certificate of analysis (COA) of the same batch of drug substance by both drug substance manufacturer and drug product manufacturer used during product development and stability studies are attached.

6.	3.2.S.5	Submitted COA of working standard shows validity up to 06-11-2022 while import documents shows manufacturing of drug substance Lacosamide in November, 2022. Justification is required how that working standard used.	Submitted COA of working standard shows validity up to January 2024 and Mfg. date is march 2021. For justification COA of working standard used.
7.	3.2.S.7.3	Submit drug substance stability studies till shelf life for 3 batches.	Drug substance stability studies till shelf life for three batches is attached.
8.	3.2.P.2.1.1	Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product	Compatibility studies of the drug substance(s) with excipients is attached
9.	3.2.P.5.3	Concentration of sample and standard solution in analytical testing method verification are not as per USP monograph.	Concentration of sample and standard solution in analytical testing method verification are not as per USP but rest of parameter is same so this has not affected the result at the end. ***Method in verification studies submitted as per USP monograph . Concentrations of sample and standard are also as per USP monograph that is 1mg/ml but in performance concentration for 100 % in accuracy and precision is 0.02mg/ml which is different from their method.***
10.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided.	COA of primary/secondary reference standard including source and Lot number is attached.
11.	3.2.P.8	Documents for the procurement of API with approval from DRAP	Documents for the procurement of API are attached.

Previous Decision(M-335): Deferred for submission of following:

- Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer.
- Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance.
- Justify for using different concentrations of sample and standard solution from that recommended by USP Monograph while performing the verification studies of assay method**.**

Evaluation:

S.No	Reason of deferment	Reply
1.	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer.	Revised analytical method as per USP monograph submitted.
2.	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance.	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance submitted.

3.	Justify for using different concentrations of sample and standard solution from that recommended by USP Monograph while performing the verification studies of assay method.	Revised analytical method verification submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Stability Storage Condition	Real time : 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	TTR043	TTR044	TTR045

Batch Size	1008 (Tablet)	1008 (Tablet)	1008 (Tablet)
Manufacturing Date	02-2023	02-2023	02-2023
Date of Initiation	14-02-2023	14-02-2023	14-02-2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	COPY of DML (form 25) No # TS/KRY/2019-53805 issued by DRUGS CONTROL ADMINISTRATION Government of Telangana dated: 15-11-2019 and valid till 14-11-2024
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of form 7 and Commercial Invoice # 22-23/U-l/E-030, dated; 23-12-2023 not cleared by DRAP specifying 1.5Kg of Lacosamide batch # LE2210006
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted complete record of testing of all batches, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Audit trail report for product testing submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Evaluation by PEC:

S.No	Section	Shortcoming	Reply
1.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3	The copy of batch manufacturing record (BMR) for all the batches of drug products for witch stability study data is provided are attached.
2.	3.2.S.4.1	Copies of the Drug substance specifications of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Specifications of the drug substance/Active pharmaceutical ingredient by drug product manufacturer is attached.
3.	3.2.S.4.2	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Analytical procedure used for routine testing of drug substance /Active pharmaceutical ingredient by drug product manufacturer is attached. ***Firm claimed Ph. Eur while submitted method is as per USP monograph of drug product also Detection is at 215nm which is used for drug product (tablet) while drug substance Detection is at 258nm and concentration of standard and sample preparation are change from pharmacopeia.***
4.	3.2.S.4.3	Analytical Method Verification studies including specificity,	Analytical method verification studies including specificity, accuracy and

		accuracy and repeatability (method precision) performed by the Drug Product manufacturer drug substance(s) shall be submitted.	repeatability (method precision) of drug substance performed by the drug product manufacturer. ***Verification studies of previously submitted for drug product is submitted for drug substance***.
5.	3.2.S.5	Submitted COA of working standard shows validity up to 06-11-2022 while import documents shows manufacturing of drug substance Lacosamide in November, 2022. Justification is required how that working standard used.	Submitted COA of working standard shows validity up to January 2024 and Mfg. date is march 2021. For justification COA of working standard used.
6.	3.2.S.7.3	Submit drug substance stability studies till shelf life for 3 batches.	Drug substance stability studies till shelf life for three batches is attached.
7.	3.2.P.2.1.1	Compatibility studies of the Drug Substance(s) with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product	Compatibility studies of the drug substance(s) with excipients is attached
8.	3.2.P.2.2.1	2 different buffers and pH i.e Citrate buffer with pH 6.6 & Phosphate buffer with pH 6.8 are mentioned in Comparative dissolution profile . Clarify which buffer is used in Comparative dissolution profile. Clarification is required.	Phosphate buffer with pH 6.8 is used in comparative dissolution profile. May be there is some mistake in writing the correct CDP is attached.
9.	3.2.P.5.3	Concentration of sample and standard solution in analytical testing method verification are not as per USP monograph.	Concentration of sample and standard solution in analytical testing method verification are not as per USP but rest of parameter is same so this has not affected the result at the end. ***Method in verification studies submitted as per USP monograph . Concentrations of sample and standard are also as per USP monograph that is 1mg/ml but in performance concentration for 100 % in accuracy and precision is 0.02mg/ml which is different from their method.***
10.	3.2.P.6	COA of primary / secondary reference standard including source and lot number shall be provided.	COA of primary/secondary reference standard including source and Lot number is attached.
11.	3.2.P.8	Documents for the procurement of API with approval from DRAP	Documents for the procurement of API are attached.

Previous Decision(M-335): Deferred for submission of following:

- Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer.
- Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance.
- Justify for using different concentrations of sample and standard solution from that recommended by USP Monograph while performing the verification studies of assay method**.**

Evaluation:

S.No	Reason of deferment	Reply
4.	Analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer.	Revised analytical method as per USP monograph submitted.
5.	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance.	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance submitted.
6.	Justify for using different concentrations of sample and standard solution from that recommended by USP Monograph while performing the verification studies of assay method.	Revised analytical method verification submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	Epilept 150mg Tablets
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Lacosamide…….…….150mg
	Pharmaceutical form of applied drug	white color round shape film coated tablet, plain on both sides.

	Pharmacotherapeutic Group of (API)	Antiepileptic agent
	Reference to Finished product specifications	USP
	Proposed Pack size	14's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Vimpat 150mg tablets by UCB Pharma Limited of (MHRA Approved)
	For generic drugs (me-too status)	Lacolep of M/s Hilton Pharma (Reg# 073859)
	Name and address of API manufacturer.	M/s Raghava Life Sciences Private Limited, Sy.No.888 &901, Jangampally Village, Bhiknoor Mandal, Kamareddy Dist,
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed data for drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40˚C ± 2˚C / 75% ± 5%RH RH for 6 months. The real time stability data is conducted at 30˚C ± 2˚C / 65% ± 5%RH for 12 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the LACOLEP 150mg of Hilton Pharma Pakistan by performing quality tests Physical appearance, Identification, Disintegration time , Uniformity of dosage units, , Assay, Dissolution) CDP has been performed against the 'LACOLEP 150mg of Hilton Pharma Pakistan in Acidic media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The f2 values are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for as drug product.

728.	**Name and address of manufacturer / Applicant**	**M/s Rogen Pharmaceuticals (Pvt.) Ltd. Plot #: 30, Street No. S-4, National Industrial Zone, Rawat, Islamabad**
	Brand Name +Dosage Form + Strength	Omegen Sachet 20mg
	Composition	Each Sachet contains: Omeprazole……20mg
	Diary No. Date of R& I & fee	DyNo.19812; 30-05-2018; Rs. 20,000/-
	Pharmacological Group	Proton Pump inhibitor
	Type of Form	Form 5
	Finished product Specifications	Manufacturer's Specifications
	Pack size & Demanded Price	10's ; As per SRO

	Approval status of product in Reference Regulatory Authorities	Could not be confirmed
	Me-too status	Could not be confirmed
	GMP status	New Section (Issuance Date: 19th December 2017)
	Remarks of the Evaluator	
	Previous Decision	Registration Board in its 283rd meaning deferred the case for following reasons: For Submission Of Fee For Revision Of Formulation From Omeprazole 20mg To Omeprazole 20mg & Sodium Bicarbonate 1100mg Sachet
	Evaluation by PEC (AD PEC-VIII)	Applicant has submitted required fee of Rupee Rs 20,000 dated 04-09-18 for the change in formulation which is in line with reference Now. New composition is as follow: Each Sachet contains: Omeprazole……20mg Sodium bicarbonate……1680mg RRA Reference: Approved in USFDA (ZEGERID (omeprazole and sodium bicarbonate) for oral suspension) Me Too: Risek Insta Sachet 20mg + 1680mg of Getz Pharma
	Previous Decision (287-DRB)	Deferred for further deliberation upon consideration of revision of formulation with addition of API, against the queue of previously submitted application
	Evaluation by PEC	
	Previous Decision (M-307): Deferred for updated status of GMP of the firm from QA & LT division	
	Firm submitted last Inspection report of dated: 28 & 30/05/2022 for renewal of DML and report concludes that based on areas inspected and considering the findings of inspection, it is concludes that firm may be considered to be operating at an acceptable.	
	Decision: Approved with innovator's specification. Firm shall submit the fee of Rs. 7,500 for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021 before issuance of Registration letter. • **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**	

Case no. 03 Registration applications of categories to be considered on priority

a. Export facilitation

DD (PRV/EFD) vide letter No. F.1-6/2019-PR-I(EFD). dated 28-02-2023 has informed that The M/s Nabiqasim Industries has achieved benchmark of USD 1433148.8 during fiscal year 2020-2021 and requested for priority consideration of following molecule the (1 molecule) 03 products:.		
729.	Name, address of Applicant / Marketing Authorization Holder	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan
	Name, address of Manufacturing site.	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of cGMP dated 28-05-2022 on the basis of evaluation conducted on 27-05-2022.

	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of DML dated 27-04-2020 specifying Tablet General section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 32615 dated 14-11-2022
	Details of fee submitted	PKR 75,000/- Deposit Slip# 0320515010
	The proposed proprietary name / brand name	Preneu CR 82.5mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended Release Film Coated Tablet Contains: Pregabalin…….82.5mg
	Pharmacotherapeutic Group of (API)	Extended Release film coated tablets
	Pharmaceutical form of applied drug	Antiepileptic
	Reference to Finished product specifications	Innovator specification
	Proposed Pack size	14's, 20's, 28's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR Extended Release, USFDA Approved.
	For generic drugs (me-too status)	
	Name and address of API manufacturer.	Atlas Life Sciences Private limited C-1/360-361, G.I.D.C. Estate, Ahmedabad- Gujrat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Long term: 30°C ± 2°C / 65% ± 5% for 36 months Accelerated: 40°C ± 2°C / 75% ± 5% for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials,

		container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the LYRICA CR Tablet by Pfizer pharma singapore by performing quality tests (Identification, Assay, Disintegration, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is LYRICA CR Tablet by Pfizer pharma Singapore . in Acid media (pH 1.0-1.2) 0.06N HCl & Acetate buffer 4.5pH and Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug product.

STABILITY STUDY DATA		
Manufacturer of API	Atlas Life Sciences Private limited C-1/360-361, G.I.D.C. Estate, Ahmedabad- Gujrat, India	
API Lot No.	PG-1021119	
Description of Pack (Container closure system)	Alu-Alu blister	
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH	
Time Period	Real time: 6 months Accelerated: 6 months	
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)	
Batch No.	572DS01	572DS02
Batch Size	5000 Tablets	5000 Tablets
Manufacturing Date	12-2021	12-2021
Date of Initiation	31-12-2021	31-12-2021
No. of Batches	03	

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product Sofosbuvir 400mg tablets which was conducted on 26th October , 2020 and was presented in 297th meeting of Registration Board held on 12-15th January, 2021. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has also submitted copy of GMP certificate of the firm (No. S-GMP & GLP/24044908) issued by Food & Drug Control Administration Gujrat state India. issued dated:03-04-2024 and valid till 02-04-2026.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy form 7, and Commercial Invoice # 044 dated: 23-11-2019 cleared by DRAP (Karachi) on 18-12-2019 specifying 150Kg of Pregabalin batch # PG-1021119.
4.	Data of stability batches will be supported by attested respective documents like	Firm has submitted analytical record for product testing.

	chromatograms, Raw data sheets, COA, summary data sheets etc.	
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.No	Section	Shortcoming	Reply
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	submitted.
2.	3.2.S.4.2 & 3.2.S.4.3	In analytical testing method of assay for drug substance wavelength is not mentioned.	In analytical testing method of assay for drug substance the wavelength is mentioned under heading Parameters, mention on page no. 10 of monograph is enclosed.
3.	3.2.S.5	Submit COA of Pregabalin Related compound A used in enantiomeric purity	Submitted.
4.	3.2.P.2.2.1	Submitted CDP data is in 0.06N HCl instead of 0.1 N HCl. Justification is required.	Reference to WHO Technical Report Series No. 1003,2017 studies should be performed in at least three media covering the physiological range including pH 1.2 HCl, pH 4.5 buffer and pH 6.8 buffers. We have selected QC release media 0.06N HCl whose pH is also equivalent to pH 1.2 fulfilling the pH range of physiological buffers to conduct CDP studies.
5.	3.2.P.5.2	In analytical testing method of assay for drug product wavelength is not mentioned.	In drug product testing method, for assay test the wavelength is mentioned under heading Chromatographic condition mention on page no. 4 of monograph is enclosed .
6.	3.2.P.5.3	Submit complete report of Accuracy parameter in analytical method validation.	Submitted.

Decision: Approved with innovator's specification.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Pharmaceutical form of applied drug	Antiepileptic
	Reference to Finished product specifications	Innovator specification
	Proposed Pack size	14's, 20's, 28's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR Extended Release, USFDA Approved.
	For generic drugs (me-too status)	
	Name and address of API manufacturer.	Atlas Life Sciences Private limited C-1/360-361, G.I.D.C. Estate, Ahmedabad- Gujrat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Long term: 30°C ± 2°C / 65% ± 5% for 36 months Accelerated: 40°C ± 2°C / 75% ± 5% for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process

		control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the LYRICA CR Tablet by Pfizer pharma singapore by performing quality tests (Identification, Assay, Disintegration, Dissolution, Uniformity of dosage form). CDP has been performed against the same brand that is LYRICA CR Tablet by Pfizer pharma Singapore . in Acid media (pH 1.0-1.2) 0.06N HCl & Acetate buffer 4.5pH and Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug product.

STABILITY STUDY DATA		
Manufacturer of API	Atlas Life Sciences Private limited C-1/360-361, G.I.D.C. Estate, Ahmedabad- Gujrat, India	
API Lot No.	PG-1021119	
Description of Pack (Container closure system)	Alu-Alu blister	
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH	
Time Period	Real time: 6 months Accelerated: 6 months	
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)	
Batch No.	573DS01	573DS02
Batch Size	5000 Tablets	5000 Tablets
Manufacturing Date	12-2021	12-2021
Date of Initiation	03-01-2021	03-01-2021
No. of Batches	03	

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to onsite inspection report of their product Sofosbuvir 400mg tablets which was conducted on 26th October , 2020 and was presented in 297th meeting of Registration Board held on 12-15th January, 2021. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has also submitted copy of GMP certificate of the firm (No. S-GMP & GLP/24044908) issued by Food & Drug Control Administration Gujrat state India. issued dated:03-04-2024 and valid till 02-04-2026.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy form 7, and Commercial Invoice # 044 dated: 23-11-2019 cleared by DRAP (Karachi) on 18-12-2019 specifying 150Kg of Pregabalin batch # PG-1021119.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted certificate of 21 CFR compliance for the HPLC system along with audit trail report for product testing.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator:

S.No	Section	Shortcoming	Reply
1.	1.6.5	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Submitted.
2.	3.2.S.4.2 & 3.2.S.4.3	In analytical testing method of assay for drug substance wavelength is not mentioned.	In analytical testing method of assay for drug substance the wavelength is mentioned under heading Parameters, mention on page no. 10 of monograph is enclosed
3.	3.2.S.5	Submit COA of Pregabalin Related compound A used in enantiomeric purity	Submitted
4.	3.2.P.2.2.1	Submitted CDP data is in 0.06N HCl instead of 0.1 N HCl. Justification is required.	Reference to WHO Technical Report Series No. 1003,2017 studies should be performed in at least three media covering the physiological range including pH 1.2 HCl, pH 4.5 buffer and pH 6.8 buffers. We have selected QC release media 0.06N HCl whose pH is also equivalent to pH 1.2 fulfilling the pH range of physiological buffers to conduct CDP studies.
5.	3.2.P.5.2	In analytical testing method of assay for drug product wavelength is not mentioned.	In drug product testing method, for assay test the wavelength is mentioned under heading Chromatographic condition mention on page no. 4 of monograph.
6.	3.2.P.5.3	• In analytical method validation protocol test solution preparation how 1 tablet weight is equivalent to 82.5mg while applied strength is 165mg. • Submit complete report of Accuracy parameter in analytical method validation.	• We have incorporated sample preparation method for 165mg tablet strength in analytical method validation protocol. • Submitted**.**

Decision: Approved with innovator's specification.

• **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
731.	Name, address of Applicant / Marketing Authorization Holder	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan
	Name, address of Manufacturing site.	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of cGMP dated 28-05-2022 on the basis of evaluation conducted on 27-05-2022.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of renewal of DML dated 27-04-2020 specifying Tablet General section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 31580 dated 03-11-2022
	Details of fee submitted	PKR 75,000/- Deposit Slip# 4452187896
	The proposed proprietary name / brand name	Preneu CR 330mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended Release Film Coated Tablet Contains: Pregabalin…….330mg
	Pharmacotherapeutic Group of (API)	Extended Release film coated tablets
	Pharmaceutical form of applied drug	Antiepileptic
	Reference to Finished product specifications	Innovator specification
	Proposed Pack size	14’s, 20’s, 28’s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	LYRICA CR Extended Release, USFDA Approved.
	For generic drugs (me-too status)	
	Name and address of API manufacturer.	Atlas Life Sciences Private limited C-1/360-361, G.I.D.C. Estate, Ahmedabad- Gujrat, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility’s, physical form, manufacturers, description

		of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Long term: 30˚C ± 2˚C / 65% ± 5% for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5% for 6 months
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against the LYRICA CR Tablet by Pfizer pharma singapore by performing quality tests (Identification, Assay, Disintegration, Dissolution, Uniformity of dosage form). S.No	Section	Shortcoming	Reply
1.	2.3.R.1.1	Potency of Vonoprazan Fumarate mentioned in BMR is 74.85%. while potency in COA is 99.01%.	In BMR 74.85% is not the potency of Vonoprazan fumarate. It is the base activity of Vonoprazan in Vonoprazan Fumarate which is adjusted in formulation as per label claim while 99.01% is the assay of drug substance Vonprazan Fumarate.
2.	3.2.S.7	Submit drug substance stability studies till claimed shelf life.	Submitted
3.	3.2.P.4.4	You have not performed uniformity of dosage unit by content uniformity. Justification shall be submitted in this regard.	Submitted

Decision: Approved with innovator's specification..

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case no. 04 Registration applications of import cases

c. Deferred cases

i. Human

734.	Name, address of Applicant / Importer	M/s. Al Habib Pharmaceuticals, **Address:** Plot # 81, Block B, SMCHS, Karachi – Pakistan
	Details of Drug Sale License of importer	**License No:** 0230 **Address:** Plot # 81, Block B, SMCHS, Karachi – Pakistan

		Address of Godown: NA **Validity:** 18-05-2024 **Status:** License to sell drugs as distributor
	Name and address of marketing authorization holder (abroad)	NAPROD LIFE SCIENCES PVT. LTD. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, INDIA

	Name of exporting country	India
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Original legalized COPP (Certificate# COPP/CERT/KD/100457/2021/11/34994/172799) Valid up to 03-04-2022 by , Food and Drug control administration Gujrat state india **Free sale:** Free sale of the product in exporting country: Yes confirms from COPP GMP certificate: Yes confirms as recommended by WHO confirms from COPP and Periodicity of inspections is mentioned Yearly. (Section of Tablet cytotoxic mentioned in GMP certificate)
	Details of letter of authorization / sole agency agreement	Firm has submitted copy of letter of authorization certificate from NAPROD LIFE SCIENCES PVT. LTD. (304, Town Center-1 Andheri Kurla Road, Andheri , Mumbai.The letter specifies that the manufacturer appoints M/s. Al Habib Pharmaceuticals to register their products in Pakistan.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy. No. 5226 dated: 24-02-2022
	Details of fee submitted	PKR 150,000/- deposit Slip # 47789098702
	The proposed proprietary name / brand name	NAPROCAP Tablet 500mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated Tablet contains: Capecitabine USP…… 500mg
	Pharmaceutical form of applied drug	Film coated Tablet
	Pharmacotherapeutic Group of (API)	Anti-Neoplastic (Colorectal) WHO ATC code: (L01BC06) (capecitabine) is a nucleoside metabolic inhibitor with antineoplastic activity indicated for:

		• Adjuvant Colon Cancer – Patients with Dukes' C colon cancer. • Metastatic Colorectal Cancer– First-line as monotherapy when treatment with fluoropyrimidine therapy alone is preferred • Metastatic Breast Cancer– In combination with docetaxel after failure of prior anthracyclinecontaining therapy – As monotherapy in patients resistant to both paclitaxel and an anthracycline-containing regimen
	Reference to Finished product specifications	USP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	XELODA® 500mg of USFDA approved.
	For generic drugs (me-too status)	NA
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance..
	Name, address of drug substance manufacturer	Mac- Chem Products (India) Pvt. Ltd. N-211/2/10. MIDC, Boisar, District- Thane, Pin - 401 506, Maharashtra, India
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubility's, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted long term stability study data of 3 batches of drug substance at 25°C ± 2°C / 60 ± 5% RH for 12 months. The accelerated stability data is conducted at 40°C ± 2°C / 75 ± 5% RH for 6 months Batches: (CAP0210002, CAP0210001, CAP0210003)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence have been established against XELODA Tablet 500mg manufactured by Hoffmann-La-Roche Inc. USA by performing quality tests (Identification, Assay, Dissolution, Hardness, Disintegration Time). The firm has submitted CDP with of XELODA Tablet 500mg manufactured by Hoffmann-La-Roche Inc. USA (Reference Drug Product) in in water, Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies for the applied product.
	Container closure system of the drug product	PVC film coated with PVDC and printed Aluminium foil
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. Accelerated stability studies have been conducted at 40°C±2°C and 75%±5% RH for 6 months. Real time stability studies conducted at 30°C±2°C and 65% ± 5% for 24 months. Batches:(NT1131, NT1132, NT1133)

Remarks of Evaluator:

Previous Decision(M-324): Deferred for the Verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India.

Firm has submitted Original Notarized Authorization Letter Dated: 14th July, 2023

"We (NAPROD LIFE SCIENCES PVT LTD, India) having address at (304. Town Center-1, Andheri Kurla Road, Andheri (E), Mumbai) do hereby authorize M/s Al Habib Pharmaceuticals having address at Plot following 81, BLOCK B SMCHS, 74400, Karachi Pakistan, As a sole agent and distribution of following drugs only.

Regarding our email Dated June 6th 2023 about about the Clarification of Mile International India as an exporter of Naprod Life Sciences Pvt ltd beside the below mentioned products.

We are again giving a firm undertaking that Al-Habib Pharmaceuticals, Karachi is an Authorize Distributor and sole agent for the following Drugs.

S.No	Generics	Brand Name
1.	Capecitabine 500mg TAB	NAPROCAP -500
2.	Methotrexate 2.5mg TAB	ALLTREX
3.	Doxorubicin HCl for inj 50mg	NAPRODOX 50
4.	Leucovorin Calcium inj. 300mg	CAFONATE
5.	Fluorouracil inj. 500mg	FLUONCO
6.	Bicalutamide 50mg TAB	MACABI
7.	Doxorubicin HCl for inj 10mg	NAPRODOX 10

Decision: Deferred for the Verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India through email.

Case no. 05 Registration applications of drugs for which stability study data is submitted

Export facilitation:

DD (PRV/EFD) vide letter No. F.1-6/2019-PR-I(EFD). dated 28-02-2023 has informed that M/S The M/s Nabiqasim Industries has achieved benchmark of USD 1433148.8 during fiscal year 2020-2021 and requested for priority consideration of following molecule the (2 molecule) 02 products:.

735.	Name and address of manufacturer / Applicant	M/s Nabiqasim Industries Pvt Ltd. 17/24, Korangi Industrial Area, Karachi, Pakistan

Manufacturing Date	1-2022	1-2022	1-2022
Date of Initiation	17-01-2022	17-01-2022	17-01-2022
No. of Batches	03		
Date of Submission	14-11-2022 (32614)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

Sr. No.	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	Specific dosage form inspection was not conducted
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Copies of COAs (Batch# PG- 1021119) of API (Pregabalin) from M/s. Atlas Life science limited. Gujarat, INDIA and M/s NABIQASIM INDUSTRIES (PVT) LTD., Karachi are submitted.

3.	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Methods used for analysis of APIs from both API Manufacturers and Finished Product Manufacturer are provided by the firm
4.	Stability study data of API from API manufacturer	The firm has submitted copy of **accelerated, 06 Months** (40°C ± 2°C & 75±5%RH) & **long term, 36 Months** (30°C ± 2°C & 65±5%RH) stability study reports of 03 batches
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has also submitted copy of GMP certificate of the firm (No. S-GMP & GLP/24044908) issued by Food & Drug Control Administration Gujrat state India. issued dated:03-04-2024 and valid till 02-04-2026.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy form 7, and Commercial Invoice # 044 dated: 23-11-2019 cleared by DRAP (Karachi) on 18-12-2019 specifying 150Kg of Pregabalin batch # PG-1021119.
7.	Protocols followed for conduction of stability study	Submitted
8.	Method used for analysis of FPP	Submitted
9.	Drug-excipients compatibility studies (where applicable)	Same excipients used as used by innovator.
10.	Complete batch manufacturing record of three stability batches.	The firm has submitted Batch Manufacturing record of following 03 Batches: **Batch No.** / **Bach size** / **Mfg. Started** 108DS04 / 2.50 Liter / 01-2022 108DS05 / 2.50 Liter / 01-2022 108DS06 / 2.50 Liter / 01-2022
11.	Record of comparative dissolution data (where applicable)	N/A
12.	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
13.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Submitted
14.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

REMARKS OF EVALUATOR

Firm initially applied brand name Preka oral solution 20mg/ml but in stability studies submission they requested for grant of Registration with Brand name Preneu Oral solution 20mg/ml .

Specification of stability studies are BP

S.No	Shortcomings	Reply
1.	• Pack size applied in form 5D is 60ml while in Stability studies is 50ml. Clarify which is actual pack size. • Provide reference of 50ml fill volume while the Label of innovator product available on	• We have pack size of 50ml and have performed stability studies on 50ml bottle pack size. Revised Form 5-D is attached **(No fee submitted for Revise form 5D)** • 50mL filled volume was used in trial batch studies and the container used for trial batch studies is same as of innovator.

	the USFDA website specifies that the product available in 16 fl oz (473 ml) volume size.	• For commercial product we will use same filled volume as of innovator, we are having provision of filling 500mL volume in our facility.
2.	Valid Drug Manufacturing License or Valid Good Manufacturing Practice (GMP) certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	Valid DML & GMP certificate is submitted.
3.	In analytical testing method of assay for drug substance wavelength is not mentioned.	In analytical testing method of assay for drug substance the wavelength is mentioned under heading Parameters, mention on page no. 10 of monograph is enclosed.
4.	Details of equipment's used in the trial batches manufacturing	Below is list of equipment's used in the manufacturing of trial batches of Preka Oral solution. 1. EZ Stir, Direct driven Stirrer, Model: HS120A 2. SS Container, 5 Liters 3. Filtration Assembly.
5.	Justification is required for selecting the batch size of 2.5liters for manufacturing of trial batches, along with the submission of complete record of no. of bottles manufactured (batch wise) and no of bottles used for analytical testing of trial batches of finished product at different time points of stability studies.	We have selected the batch size of 2.5 liters for manufacturing of trial batches. Each batch of 2.5 liters consists of 50 bottles containing 50mL of oral solution in each bottle. **No details submitted about utilization**
6.	In analytical testing method of assay for drug product wavelength is not mentioned	In drug product testing method, for assay test the wavelength is mentioned under heading Chromatographic condition mention on page no. 4 of monograph is enclosed.
7.	According to the innovator review report stability of innovator drug product has been performed at the ICH alternative storage conditions of 30°C ± 2°C (at 35% relative humidity, ± 5%), justify for not performing the stability of applied drug product at the alternative storage condition as per the ICH guideline since the drug product packaged in HDPE bottles.	• Justification for conducting stability studies of Preka Oral Solution 20mg/mL conducted at ICH Zone IVA condition (Long term: 30°C±2°C/ 65%RH±5% & Accelerated: 40°C±2°C/ 75%RH±5%) while the product packaged in HDPE bottles **(impermeable container**) is as follows: • HDPE container is not a semi-permeable container according to definition mention in Glossary section of ICH Q1A(R2) enclose for Reference, which states that "Containers that allow the passage of solvent, usually water, while preventing solute loss. The mechanism for solvent transport occurs by absorption into one container surface, diffusion through the bulk of the container material, and desorption from the other surface. Transport is driven by a partial-pressure gradient. Examples of semipermeable containers include plastic bags and semi-rigid, low-density polyethylene (LDPE) pouches for large volume parenteral (LVPs), and LDPE ampoules, bottles, and vials." • Similarly, as per "Asean Guideline On stability of Drug Product" (R1) section 4.7.2 (enclose for

		reference) it is stated as: Generally considered moisture-impermeable containers include glass ampoules, aluminum/aluminum blisters, **High Density Polyethylene (HDPE)** or glass bottles fitted with metal or HDPE closures. Sensitivity to moisture or potential for solvent loss is not a concern for drug products packaged in impermeable containers that provide a permanent barrier to passage of moisture or solvent. Thus stability studies for products stored in impermeable containers can be conducted under any controlled or ambient relative humidity condition. On the basis of above cited references we have conducted stability studies according to ICH Zone – IVA condition and stability data represents that product is stable.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Firm shall submit fee of Rs:7500/-for revision of form 5D.**

	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	Topamax Tablet (USFDA Approved)
	For generic drugs (me-too status)	Registration Number:042824 Brand Name: Topeera 25mg Tablet
	Proposed Pack size	3x10s

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.5.	Evidence of approval of relevant section from Licensing Division is required.
2.	3.2.S.4.2	The flow rate for assay determination by API manufacturer is not as per USP .Justification is required for change of flow rate from 0.6 ml /min to 1.5 ml/min on the scientific basis.
3.	3.2.S.4.3	The injection volume on chromatograms of method verification is 10µl whereas, in drug substance analytical test method is 20µl.Justification is required for change in injection volume on the basis of scientific rationale.
4.	3.2.P.2.2.1	The pharmaceutical equivalence report is ambiguous it mentions innovator product "Diamox". Furthermore, there are two documents for comparison with RLD .Submit the relevant document.
5.	3.2.P.2.1.2	Justify the excipient ranges included in the batch formula (3.2.P.3.2) as it is a CQA.
6.	3.2.P.4.1	The specifications for excipients shall be provided.
7.	3.2.P.5.1	a) Justification is required for not performing specific tests for sulfamate and sulfate as required by USP. b) Provide detailed specifications instead of mentioning such terminologies "as per USP" and "meets requirements". Provide justification if certain tests are excluded from specification.
8.	3.2.P.5.2	Clarification is required which dissolution USP test you have adopted Test 1, Test 2 or Test 3 and provide dissolution specifications, accordingly.
9.	3.2.P.5.3	The injection volume on chromatograms of method verification is 10µl whereas, in drug product analytical test method is 100µl.Justification is required for change in chromatographic conditions on the basis of scientific rationale.
10.	3.2.P.8.3	Provide the following supporting documents of stability: ✓ Reference of previous approval of applications with stability study data of the firm (if any)

		✓ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. ✓ Documents for the procurement of API with approval from DRAP (in case of import). ✓ Data of stability batches will be supported by attested respective documents like **chromatograms, COAs** at each time point, as both are missing. ✓ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
11.	3.2.P.8.3	a) The batch number of drug substance mentioned on stability summary data sheets is BB/TOP/B/1600 whereas, COA provided in section 3.2.S.4.4 is of BB/TOP/B/6001. b) The manufacturing and expiry dates mentioned on stability summary data sheets are different then dates as provided in section 3.2.P.8.1.Moreover, stability initiation dates are not provided on stability summary data sheets.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

738.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Jawa Pharmaceuticals (Pvt) Ltd Company Address: 112/10 Quaid-e-Azam Industrial Area, Kot Lakhpat, Lahore**
	Name, address of Manufacturing site.	M/s Jawa Pharmaceuticals (Pvt) Ltd Company Address: 112/10 Quaid-e-Azam Industrial Area, Kot Lakhpat, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 36508: 15-12-2022
	Details of fee submitted	Slip No:5309817601 PKR 30,000/-
	The proposed proprietary name / brand name	Topamate Tablet 100mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each film coated tablet contains: Topiramate….100mg**
	Pharmacotherapeutic Group of (API)	Antiepileptic; ATC Code: N03AX11
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	Topamax Tablet (USFDA Approved)
	For generic drugs (me-too status)	Product Name: Piralep 100mg Tablet Registration No: 114468
	Proposed Pack size	3x10s

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.5.	Evidence of approval of relevant section from Licensing Division is required.
2.	3.2.S.4.2	The flow rate for assay determination by API manufacturer is not as per USP .Justification is required for change of flow rate from 0.6 ml /min to 1.5 ml/min on the scientific basis.

3.	3.2.S.4.3	The injection volume on chromatograms of method verification is 10µl whereas, in drug substance analytical test method is 20µl.Justification is required for change in injection volume on the basis of scientific rationale.
4.	3.2.P.2.1.2	Justify the excipient ranges included in the batch formula (3.2.P.3.2) as it is a CQA.
5.	3.2.P.2.2.1	The pharmaceutical equivalence report is ambiguous it mentions innovator product "Diamox". Furthermore, there are two documents for comparison with RLD .Submit the relevant document.
6.	3.2.P.4.1	The specifications for excipients shall be provided.
7.	3.2.P.5.1	c) Justification is required for not performing specific tests for sulfamate and sulfate as required by USP. d) Provide detailed specifications instead of mentioning such terminologies "as per USP" and "meets requirements". Provide justification if certain tests are excluded from specification.
8.	3.2.P.5.2	Clarification is required which dissolution USP test you have adopted Test 1, Test 2 or Test 3 and provide dissolution specifications, accordingly.
9.	3.2.P.5.3	The injection volume on chromatograms of method verification is 10µl whereas, in drug product analytical test method is 100µl.Justification is required for change in chromatographic conditions on the basis of scientific rationale.
10.	3.2.P.8.3	Provide the following supporting documents of stability: ✓ Reference of previous approval of applications with stability study data of the firm (if any) ✓ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. ✓ Documents for the procurement of API with approval from DRAP (in case of import). ✓ Data of stability batches will be supported by attested respective documents like **chromatograms, COAs** at each time point, as both are missing. ✓ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
11.	3.2.P.8.3	c) The batch number of drug substance mentioned on stability summary data sheets is BB/TOP/B/1600 whereas, COA provided in section 3.2.S.4.4 is of BB/TOP/B/6001. d) The manufacturing and expiry dates mentioned on stability summary data sheets are different then dates as provided in section 3.2.P.8.1.Moreover, stability initiation dates are not provided on stability summary data sheets.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 32620: 14-11-2022
	Details of fee submitted	Slip No:861661442 PKR 30,000/-

	The proposed proprietary name / brand name	Lipikan Tablet 10mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each film coated tablet contains: Atorvastatin as atorvastatin calcium trihydrate…….10mg**
	Pharmacotherapeutic Group of (API)	HMG CoA reductase inhibitor ATC Code: C10AA05
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	Lipitor USFDA Approved.
	For generic drugs (me-too status)	Registration Number:023620 Brand Name:Lipitor Tablet 10mg
	Proposed Pack size	As per SRO.

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.5	Provide GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
2.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.
3.	3.2.S.1.1	Clarification is required whether its atorvastatin calcium or atorvastatin calcium trihydrate as the chemical name and structural formula does not mention trihydrate.
4.	3.2.S.1.3	Provide the polymorphic form of the drug substance.
5.	3.2.S.4.1	a) The reference for drug substance manufacturer mentions both USP and in house. Clarification is required. b) Submit whether propylene glycol has been used as a solvate in manufacturing of API. If yes, then assay specs. should be as per USP. c) The acceptance criteria for assay as per USP is "**98.0%–102.0% on the anhydrous and solvent-free basis**" whereas, your specifications do not mention solvent free. Clarification is required. d) Submit specification of drug substance by drug product manufacturer.
6.	3.2.S.4.2	Submit analytical method of drug substance by drug product manufacturer.
7.	3.2.S.4.3	Submit analytical method verification report performed by drug product manufacturer.
8.	3.2.S.4.4	a) The manufacturing date of drug substance is different on COA of drug substance (24-06-2021) and COA of drug product manufacturer (March 2021). b) Justification is required for not performing test of calcium (by AAS) and enantiomeric purity by drug product manufacturer. c) Justification is required for performance of LOD instead of water content.
9.	3.2.S.7.3	The stability data of drug substance is of 36 months whereas, retest date is of 4 years. Submit stability data of 48 months at long term condition as per Zone IVa/IVb.
10.	3.2.P.2.1	a) The innovator product applied the factor on the basis of anhydrous drug substance 10.36 mg whereas, you have applied 10.84mg which is trihydrate form. Justification is required. b) Clarification is required for addition of three diluents in the formulation.

		c) Submit compatibility studies of the Drug Substance(s) with excipients as composition of the formulation is not similar to innovator / reference product. Provide the reference product details, if the excipients are similar. d) Provide the average weight of core and coated tablet.
11.	3.2.P.2.2.1	a) Submit CDP at three pH 1.2, pH 4.5 and pH 6.8.
12.	3.2.P.4	Provide control of excipients as per DRAP CTD guidance document.
13.	3.2.P.5.1	a) Submit copy of the drug product specification(s) including tests, acceptance criteria and reference to analytical procedure as per USP, instead of providing analytical test method with it.
14.	3.2.P.5.2	a) Submit detailed analytical procedures used for testing the drug product in relevant section. b) Clarification is required which dissolution USP test firm has adopted Test 1, Test 2 ,Test 3,Test 4 ,Test 5 or Test 6.
15.	3.2.P.6	Submit COA of primary reference standard.
16.	3.2.P.8.3	a) Submit date of initiation of stability on stability summary data sheets. b) Submit stability summary data sheets as per DRAP CTD guidance document. c) Provide following supporting documents along with stability data sheets ✓ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. ✓ Documents for the procurement of API with approval from DRAP (in case of import). ✓ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
17.	3.2.P.8.3	a) Provide supporting documents of stability for initial testing. b) Submit justification for not performing system suitability before assay at each time point.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each Tablet Contains: Paracetamol…325mg Tramadol…37.5mg**
	Pharmacotherapeutic Group of (API)	Opioids in combination with non-opioid analgesics ATC Code:N02AJ13
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	MHRA Approved(film coated)
	For generic drugs (me-too status)	Registration Number:077129 Brand Name:Tramal Plus Tablet Market Authorisation Holder:The Searle Company Limited
	Proposed Pack size	1x10’s

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.4	Submit copy of valid Drug Manufacturing License (DML) issued by Licensing Division, DRAP.
2.	1.3.5	Submit valid GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
3.	1.5.4	Provide proposed pack size as it varies from section 3.2.P.7.
4.	1.5.15 – 1.5.20	Submit signed undertakings.
5.	1.6.5	Submit valid DML issued by the relevant regulatory authority of country of origin or valid Good Manufacturing Practice (GMP) certificate of the Tramadol Hydrochloride manufacturer issued by relevant regulatory authority of country of origin.
6.	2.3.R.1.1	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.
Tramadol Hydrochloride		
7.	3.2.S.1.1	Provide which isomer of tramadol HCl has been used, as chemical name mentions trans and structural formula is of cis.
8.	3.2.S.4.1 3.2.S.4.2	Submit drug substance specifications and analytical procedures used for routine testing of the drug substance by drug product manufacturer.
9.	3.2.S.4.3	Submit analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer.
10.	3.2.S.4.4	a) Provide results of analysis of relevant batch of drug substance performed by drug product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from drug substance manufacture. b) Submit justification for any incomplete analyses of the drug substance by drug product manufacturer. c) The assay limit of drug substance submitted by drug product manufacturer is NLT 90% which is not as per Ph Eur.
	Paracetamol	
11.	3.2.S.4.1	Submit justification for test of related substances that includes: a) impurity K: maximum 50 ppm; b) impurity J: maximum 10 ppm; c) unspecified impurities: for each impurity, maximum0.05 per cent; d) total: maximum 0.2 per cent; e) reporting threshold: 0.03 per cent, except for impurities J and K.
12.	3.2.S.4.2	Submit analytical procedures used for routine testing of the drug substance by drug product manufacturer.
13.	3.2.S.4.3	Submit analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer.
14.	3.2.S.4.4	Provide results of analysis of relevant batch of drug substance used during product development and stability studies. Moreover, submit justification for any incomplete analyses of the drug substance by drug product manufacturer as per requirements of BP.
15.	3.2.S.4.5	The justification of specifications mentions all the specs are from USP whereas,3.2.S.4.1 mentions BP.
16.	3.2.P.1	a) Clarification is required for use of tramadol instead of Tramadol Hydrochloride. b) Provide function of the components(excipients) with percentage.

17.	3.2.P.2.1.1	Submit compatibility studies of the Drug Substance(s) with excipients if the qualitative composition of the formulation is not similar to innovator / reference product.
18.	3.2.P.2.2.1	a) Provide the weight of core and coat tablet in formulation development. Moreover, formulation development does not provide any information about coating material. b) Submit proper results /values instead of mentioning complies in pharmaceutical equivalence report. c) Submit CDP protocol and supporting documents .
19.	3.2.P.3.2	A batch formula for proposed commercial batch size shall be provided that includes a list of all components of the drug product to be used in the manufacturing process, their amounts on a per batch basis.
20.	3.2.P.3.5	Provide process validation protocol of commercial batches.
21.	3.2.5.1	Provide the details specs. for dissolution whether Test 1 or Test 2 has been adopted. The average weight of tablet in specifications is 400mg whereas, in batch formula is 447.5mg.Justification is required.
22.	3.2.P.5.2	Submit detailed analytical procedures for testing of drug product.
23.	3.2.P.5.3	a) Provide method verification protocol of applied product as provided report is of Askprol Extra 500mg tablet also provide supporting documents. b) The assay method as per USP is on HPLC whereas, method verification is on UV spectrophotometer.
24.	3.2.P.5.4	Submit copies of complete analysis of at least two batches.
25.	3.2.P.5.5	This section mentions "our production doesnot create impurities". Clarification/justification is required whether test of impurities have been performed.
26.	3.2.P.5.6	This section mentions BP whereas, section 3.2.P.5.1 states USP.
27.	3.2.P.6	Submit COA of primary / secondary reference standard including source and lot number.
28.	3.2.P.8	a) The format of stability summary data sheet is not as per guidance documents. b) The stability summary data sheets specs. are not as per 3.2.P.5.1 for appearance, dissolution. c) The assay mentions API paracetamol, caffeine and aspirin. d) Some chromatograms are of cefepime. e) Documents / Data to be provided along with stability study data: ➢ Reference of previous approval of applications with stability study data of the firm (if any). ➢ Approval of API/ DML/GMP certificate of both API manufacturers issued by concerned regulatory authority of country of origin. ➢ Documents for the procurement of tramadol HCl with approval from DRAP (in case of import).

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	Pharmacotherapeutic Group of (API)	Antiepileptic;ATC Code: N03AG04
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	SABRIL 500 mg, granules for oral solution in sachet-dose ANSM Approved.
	For generic drugs (me-too status)	Registration Number:070474 Brand Name: Vlep Sachet
	Proposed pack size	60 Sachet.

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.5	Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted.
2.	2.3.R.1.1	The quantity of povidone in BMR is different than mentioned in batch formula 3.2.P.3.2.
3.	3.2.S.1	Submit general information as per DRAP CTD guidance document.
4.	3.2.S.3	Submit characterization as per CTD guidance document providing details of potential for isomerism and identification of stereochemistry, studies performed to identify potential "**polymorphic form"** and particle size distribution of the Drug substance.
5.	3.2.S.4.2	Submit detailed analytical procedures for the testing of drug substance by drug product manufacturer.
6.	3.2.S.4.4	a) Provide results of analysis of relevant batch of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis (CoA) of the same batch from Drug Substance / Active Pharmaceutical Ingredient manufacture. b) Submit discussion and justification for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification).
7.	3.2.P.1 3.2.P.2	Submit description and composition of the drug product as per guidance document addressing all the sub sections.

8.	3.2.P.2.2.1	Submit the details of the product against which Pharmaceutical equivalence has been performed. Moreover, the report does not include all the tests as per USP, submit justification.
9.	3.2.P.2.6	Submit compatibility studies for the dry powder for solution as per the instructions provided in individual label of the drug product.
10.	3.2.P.3.2	Submit batch formula for commercial batches. Also justify the role of povidone as disintegrant in the formulation.
11.	3.2.P.5.1	The specifications does not include the details of impurities (as applicable) as per guidance document.
12.	3.2.P.8.3	a) Submit summary of additional stability studies i.e. in-use studies for drug products which are to be reconstituted before use, along with proposed in-use storage statement and in-use shelf-life. b) Submit date of API lot No/batch no., initiation of stability in stability summary data sheets. c) Submit system suitability report of assay for each time point. d) Provide the weight of powder to prepare 2mg/ml concentration solution. e) The peak areas provided in chromatograms are different then peak areas in raw data sheets. f) Provide COAs of drug product at each time point. g) Submit documents for the procurement of API with approval from DRAP (in case of import). h) Submit compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	The proposed proprietary name / brand name	Voricol Tablet 50mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each film coated tablet contains: Voriconazole …50mg**
	Pharmacotherapeutic Group of (API)	Antiepileptic ATC Code: N03AX11
	Reference to Finished product specifications	JP
	The status in reference regulatory authorities	(USFDA Approved)
	For generic drugs (me-too status)	Registration Number:069764 Brand Name: Vorif Tablet 50mg
	Proposed Pack size	10s

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.5	Submit valid GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
2.	2.3.R.1.1	a) The quantity of drug substance in drug product should be on "as is" basis instead of anhydrous.
3.	3.2.S.4.2	Provide the specifications of stationary phase for related substances and enantiomeric purity.
4.	3.2.S.4.3	Clarification is required for use of placebo in specificity test of method verification studies of drug substance.
5.	3.2.S.4.4	a) Submit discussion and justification for incomplete analyses of the drug substance, as per BP by Drug Product manufacturer. b) Provide assay of voriconazole on "as is" basis. c) The water content of drug substance manufacturer is 0.12 % whereas, the water content of same batch in COA of drug substance by drug product manufacturer is 0.3%.Justification is required for variation in water content.
6.	3.2.P.1	a) Provide the quantity of API on "as is" basis. b) Submit reference to the quality standards for all components.
7.	3.2.P.2.2.1	a) The quality tests specification for pharmaceutical equivalence should be similar as specified in section 3.2. P.5.1. b) Submit CDP protocol and formula for calculations of release of voriconazole from drug product. c) Submit CDP profile showing the release patterns. d) Justify the release patterns of applied product,as EPAR of voriconazole tablets(mentions comparable dissolution (i.e. >85% within 15 min) for all 3 pH.
8.	3.2.P.3.2	a) Submit batch formula for proposed commercial batch size that includes a list of all components of the drug product to be used in the manufacturing process, their amounts on a per batch basis, and a reference to their quality standards. b) Provide the quantity of API on "as is" basis.
9.	3.2.P.5.2	a) Provide the volume of dissolution medium. b) Provide the retention time of voriconazole and flow rate ,as specified in JP.
10.	3.2.P.8.3	a) The system suitability has not been performed before assay at each time point. Justification is required. b) Clarification is required for use of placebo in specificity test of method verification studies for drug product. c) The method validation report mentions test of specificity of molnupiravir. d) The retention time of voriconazole is not as per JP i.e. 9 minutes. Justification is required. e) Submit valid Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

745.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Aptcure (PVT.) Ltd** **Company Address: 8th Pharma city , 30-km, Multan Road, Lahore**
	Name, address of Manufacturing site.	M/s Aptcure (PVT.) Ltd Company Address: 8th Pharma city , 30-km, Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer

		☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 5102: 22-02-20223
	Details of fee submitted	Slip No: 332449563405 PKR 30,000/-
	The proposed proprietary name / brand name	Deslora Tablet 5mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Desloratadine…5mg
	Pharmacotherapeutic Group of (API)	Antihistamine R06AX27
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	MHRA Approved.
	For generic drugs (me-too status)	Product Name:: Deslavid Tablet 5mg Registration No: 041011 Company Name: Martin Dow Limited
	Proposed Pack size	10s

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.5	Submit valid GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
2.	2.3.R.1.1	a) The batch size in BMR is 1945 tablets whereas, in stability summary datasheet is 1666 tablets. The qty. of coating material in BMR is 12.26 mg whereas, in 3.2.P.1.2 is 10mg.Justification is required. b) The potency adjustment of API has not been done in BMR. Clarification is required.
3.	3.2.S.3.2	Submit list of Drug Substance / API-related impurities and process-related impurities with acceptance limits.
4.	3.2.S.4.1 3.2.S.4.2	Submit reference for drug substance specifications and analytical procedures used for routine testing of the drug substance by drug product manufacturer.
5.	3.2.S.4.3	Submit proper report for analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer.
6.	3.2.S.4.4	a) Provide results of assay as both anhydrous and as is basis. b) A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (e.g. results not tested according to the proposed specification).
7.	3.2.P.1.1	Submit description of the dosage form as per guidance document.
8.	3.2.P.1.2	a) Justify the batch size of 16 kg as total sum leads to 32kg. b) Submit the container-closure used for the Drug Product.
9.	3.2.P.2	a) Correct the sequence of documents as per DRAP CTD guidance document and resubmit. b) Submit compatibility studies of the Drug Substance(s) with excipients if the qualitative composition of the formulation is not similar to innovator / reference product or provide the reference product which has similar formulation.

		c) The test method is not as per USP, justify the pharmaceutical equivalence studies. d) Submit following documents for CDP: ✓ Using the mean dissolution values from both curves at each time interval, calculate the difference factor (f1) and similarity factor (f2) . ✓ One more measurement should be made after 85% dissolution of both the products.
10.	3.2.P.3.2	a) A batch formula for proposed commercial batch size. b) Provide the details of coating material.
11.	3.2.P.5.1	a) The dissolution medium volume and rpm is not as per USP. b) Specifications shall also include the details of impurities
12.	3.2.P.5.2	The analytical method like assay ,content uniformity is not as per USP. Clarification is required.
13.	3.2.P.5.3	Submit method verification as per USP.
14.	3.2.P.5.4	Submit complete analysis of at least two batches.
15.	3.2.P.8.3.	a) The date of clearance of desloratadine is 21-10-21 whereas, the data of manufacturing of batches in BMR is 08-10-21. Justification is required. b) Submit data logger record at long term condition. c) Submit Compliance Record of HPLC software 21CFR & audit trail reports on product testing. d) Submit valid Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. e) Submit dissolution supporting data for stability at each time point.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

746.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Weather Folds Pharmaceuticals Company Address: Plot no. 69/2, Phase II, Industrial Area, Hattar, Pakistan.**
	Name, address of Manufacturing site.	Weather Folds Pharmaceuticals Company Address: Plot no. 69/2, Phase II, Industrial Area, Hattar, Pakistan.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 35679: 08-12-2022
	Details of fee submitted	Slip No:9368077181 PKR 30,000/-
	The proposed proprietary name / brand name	Rold Tablet 5mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each orodispersible tablet contains: Desloratadine…5mg
	Pharmacotherapeutic Group of (API)	Antihistamine R06AX27
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	USFDA Approved.
	For generic drugs (me-too status)	Product Name: DES-OD 5mg Tablet Registration No: 072947
	Proposed Pack Size	As per SRO

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.4	Submit copy of valid Drug Manufacturing License (DML) issued by Licensing Division, DRAP.
2.	1.3.5	Submit valid GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
3.	3.2.S.4.1 3.2.S.4.2	Submit reference for drug substance specifications and analytical procedures used for routine testing of the drug substance by drug product manufacturer.
4.	3.2.S.4.3	Submit proper report for analytical method verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer.
5.	3.2.S.4.4	Provide reference of specifications for evaluation of COA's of both drug substance and drug product manufacturer.
6.	3.2.P.2	Provide how your qualitative composition of the formulation is similar to innovator / reference product. Also submit justification for the quantities of excipients used in the formulation as they are CQAs specifically for xanthan gum which as per FDA inactive database exceeds the potency per unit i.e. 0.15mg. The quantities of all APIs should be in line with "Hand Book of Pharmaceutical Excipients".
7.	3.2.P.2.2.1	a) The assay has not been performed for pharmaceutical equivalence studies. b) Provide the details of product against which pharmaceutical equivalence has been performed. c) Provide comparison of dissolution as per test method of USP. d) Submit proper results /values instead of mentioning complies in pharmaceutical equivalence report. e) Submit CDP protocol and supporting documents .
8.	3.2.P.2.4	Submit discussion of the suitability of the container closure system (described in 2.3.P.7) used for the storage, transportation (shipping) and use of the FPP (e.g. choice of materials, protection from moisture and light, compatibility of the materials with the FPP) .
9.	3.2.P.3.2	a) A batch formula for proposed commercial batch size shall be provided that includes a list of all components of the drug product to be used in the manufacturing process, their amounts on as per batch basis.
10.	3.2.P.3.3to 3.2.P.8.3	The application will be assessed further on clarification of qualitative and quantitative composition of formulation. Moreover, whether applied product is film coated or uncoated tablets as process validation and critical steps and intermediates mentions step of coating whereas, section 3.2.P.2 does not provide any information about coating material.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

747.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Wezen Pharmaceuticals, Plot 23, 24, S 1, RCCI, Industrial Estate, Rawat.**
	Name, address of Manufacturing site.	M/s Wezen Pharmaceuticals, Plot 23, 24, S 1, RCCI, Industrial Estate, Rawat.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

	The proposed proprietary name / brand name	Find Tablet 60mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Fexofenadine Hydrochloride…..60mg.
	Pharmacotherapeutic Group of (API)	Antihistamine R06AX26
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	USFDA Approved. ALLEGRA Tablets
	For generic drugs (me-too status)	Product Name: Fexocare 60mg Tablet Registration No: 062860
	Proposed Pack size	As per SRO

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.4	Submit copy of valid Drug Manufacturing License (DML) issued by Licensing Division, DRAP.
2.	1.3.5	Provide GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
3.	3.2.S.1	The chemical name and CAS number of drug substance is different then as provided in USP.
4.	3.2.S.4.3	Submit method verification report with supporting data.
5.	3.2.S.7.3	The stability summary data sheets mentions (Ph. Eur), whereas specifications are of USP. Clarification is required. Moreover, the specifications of water content are different then USP i.e. NMT 2 %.
6.	3.2.P.2.1	The composition of the drug product mentions pharmacopeia reference as BP ,whereas section 3.2.S.4.1 references USP.
7.	3.2.P.2.2.1	a) The CDP report is of desloratadine. Provide the details of the product against which pharmaceutical equivalence has been performed. b) Submit CDP protocol , report and supporting documents. c) Provide dissolution specifications as per applied test.
8.	3.2.P.3.2	Provide batch formula for proposed commercial batch, as the provided batch size is 0.402kg. The batch formula mentions reference of drug substance as BP, whereas section 3.2.S.4.1 references USP.
9.	3.2.P.3.5	Provide process validation protocol of commercial batches.
10.	3.2.P.4	The control of excipients is not as per DRAP CTD guidance document.
11.	3.2.P.5.1	Submit specifications as per USP. Provide which test of dissolution has been used.
12.	3.2.P.5.2	Submit analytical procedures used for testing the drug product.
13.	3.2.P.5.4	a) The dissolution specifications are not as per USP. b) The dissolution results of each unit should be provided separately.
14.	3.2.P.6	Submit COA of primary reference standard.
15.	3.2.P.7	A detail of the container closure systems, description of the primary container closure systems, including materials of construction, unit count or fill size, container size or volume shall be provided.
16.	3.2.P.8.3	Provide supporting documents along with stability data sheets for all tests: ✓ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

		✓ Documents for the procurement of API with approval from DRAP (in case of import). ✓ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
17.	3.2.P.8.3	a) Submit batch size of tablets in stability summary datasheets. b) The dissolution results of each unit should be provided separately. c) Provide the formula on the basis of which dissolution has been calculated. d) The system suitability for assay has not been performed before each time point which is mandatory as per monograph.
18.	3.2.R.1	a) Submit the BMRs of stability batches F-01, F-02, F-03. (Find 60mg).

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.4	Provide valid DML.
2.	3.2.S.1	The chemical name and CAS number of drug substance is different than as provided in USP.
3.	3.2.S.4.3	Submit method verification report with supporting data.
4.	3.2.S.4.4	The assay analysis is not as per USP as the method determines both fexofenadine and fexofenadine related compound A.
5.	3.2.S.7.3	The stability summary data sheets mentions (Ph. Eur) whereas, specifications are of USP. Clarification is required. Moreover, the specifications of water content are different then USP i.e. NMT 2 %.
6.	3.2.P.2.1	e) The composition of the drug mentions pharmacopeia reference BP ,whereas section 3.2.S.4.1 mentions USP.
7.	3.2.P.2.2.1	The CDP report is of desloratadine. Provide the details of the product against which pharmaceutical equivalence has been performed.
8.	3.2.P.3.2	Provide batch formula for proposed commercial batch, as the provided batch size is 0.402kg. Moreover, the batch formula mentions reference of drug substance as BP.
9.	3.2.P.3.5	Provide process validation protocol of commercial batches.
10.	3.2.P.4	The control of excipients is not as per DRAP CTD guidance document.
11.	3.2.P.5.1	Submit specifications as per USP .Provide which test of dissolution has been used.
12.	3.2.P.5.2	The analytical test method is not as per USP .

13.	3.2.P.5.4	The dissolution specifications are not as per USP.
14.	3.2.P.6	Submit COA of primary reference standard.
15.	3.2.P.7	Provide details of the container closure systems, description of the primary container closure systems, including materials of construction, unit count or fill size, container size or volume.
16.	3.2.P.8.3	Provide supporting documents along with stability data sheets for all tests: ✓ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. ✓ Documents for the procurement of API with approval from DRAP (in case of import). ✓ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
17.	3.2.P.8.3	a) The dissolution results of each unit should be provided separately. b) Provide the formula on the basis of which dissolution has been calculated. c) The system suitability for assay has not been provided.
18.	3.2.R (T07,T08,T09)	a) The quantity of Fexofenadine in BMR is 600mg. Clarification is required. b) In standard manufacturing procedure of tablet core start time and complete time has not been mentioned. c) Provide trail reconciliation sheet.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	The proposed proprietary name / brand name	Fexin Tablet 180mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each film coated tablet contains:** **Fexofenadine Hydrochloride…..180mg.**
	Pharmacotherapeutic Group of (API)	Antihistamine R06AX26
	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	USFDA Approved.
	For generic drugs (me-too status)	Product Name: **Fexocare 180mg Tablet** Registration No: **062862**
	Proposed Pack size	As per SRO

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.4	Provide valid DML.
2.	3.2.S.1	The chemical name and CAS number of drug substance is different than as provided in USP.
3.	3.2.S.4.3	Submit method verification report with supporting data.
4.	3.2.S.4.4	The assay analysis is not as per USP as the method determines both fexofenadine and fexofenadine related compound A.
5.	3.2.S.7.3	The stability summary data sheets mentions (Ph. Eur) whereas, specifications are of USP. Clarification is required. Moreover, the specifications of water content are different then USP i.e. NMT 2 %.
6.	3.2.P.2.1	f) The composition of the drug mentions pharmacopeia reference BP ,whereas section 3.2.S.4.1 mentions USP.
7.	3.2.P.2.2.1	The CDP report is of desloratadine. Provide the details of the product against which pharmaceutical equivalence has been performed.
8.	3.2.P.3.2	Provide batch formula for proposed commercial batch, as the provided batch size is 0.402kg which is not commercial. The batch formula mentions reference of drug substance as BP.
9.	3.2.P.3.5	Provide process validation protocol of commercial batches.
10.	3.2.P.4	The control of excipients is not as per DRAP CTD guidance document.
11.	3.2.P.5.1	Submit specifications as per USP .Provide which test of dissolution has been used.
12.	3.2.P.5.2	The analytical test method is not as per USP many details have been skipped.
13.	3.2.P.5.4	The dissolution specifications are not as per USP.
14.	3.2.P.6	Submit COA of primary reference standard.
15.	3.2.P.7	A detail of the container closure systems, description of the primary container closure systems, including materials of construction, unit count or fill size, container size or volume shall be provided.
16.	3.2.P.8.3	Provide supporting documents along with stability data sheets for all tests: ✓ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. ✓ Documents for the procurement of API with approval from DRAP (in case of import). ✓ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.
17.		a) The dissolution results of each unit should be provided separately. b) Provide the formula on the basis of which dissolution has been calculated. c) The areas of 3 months dissolution testing vary from 0 month.Justify. d) System suitability for assay has not been provided. e) There is overwriting in chromatograms by changing 120mg into180mg.
18.	3.2.R (T10,T11,T12)	a) In standard manufacturing procedure of tablet core start time and complete time has not been mentioned. b) Provide trail reconciliation sheet. c) The COA of tablet mentions specs reference as Innovators.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	Pharmacotherapeutic Group of (API)	Osmotically acting laxatives. ATC Code: A06AD11
	Reference to Finished product specifications	BP

	The status in reference regulatory authorities	MHRA Approved.
	For generic drugs (me-too status)	Product Name: Duphalac Syrup Registration No: 006655
	Proposed Pack size	60ml, 120ml, 400ml.

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section..

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.1	Submit fee of import as you have imported lactulose bulk .
2.	2.3.R.1.1	a) Submit the formula used to calculate quantity of lactulose syrup per bottle. b) Provide number of bottles used for in process testing.
3.	3.2.S.4.1 3.2.S.4.2	a) Submit copies of the Drug substance specifications by drug substance manufacturer. Also provide reference for both specifications. b) Submit clarification for applicability of BP monograph of Lactulose solution on Lactulose syrup. c) Submit analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both Drug substance & Drug Product manufacturer. d) Provide the specs. of antimicrobial preservative used in the syrup.
4.	3.2.S.4.3	Submit method verification report with supporting data .
5.	3.2.S.4.4	a) Submit results of analysis of relevant batch(es) of Drug substance performed by Drug Product manufacturer used during **product development and stability studies**, along with **Certificate of Analysis (CoA) of the same batch** from Drug Substance / /Active Pharmaceutical Ingredient manufacture. b) A discussion and justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer.
6.	3.2.S.7.3	a) Provide the batch size ,volume of container. b) Clarify how stability has been conducted on bulk containers.
7.	3.2.P.2.2.1	a) Submit pharmaceutical equivalence including all the tests as per BP.
8.	3.2.P.5.1 3.2.P.5.2	a) The reference of dug product is BP but you have not included all the tests as per BP. b) The analytical test method is also not as per BP. c) Provide the specs. of antimicrobial preservative used in the syrup.
9.	3.2.P.5.3	a) Submit evidence of differential refractometer and Head-space gas chromatography.
10.	3.2.P.5.4	a) Justify the batch size of 100 bottles. b) Justify the honey flavor .
11.	3.2.P.8.3	a) The test method is not as per BP. The stability testing should be conducted as per BP test method. b) Justify the batch size of 100 bottles, it should be sufficient enough to perform complete testing till the claimed shelf life. c) Submit ADC attested commercial invoice. d) Reference of previous approval of applications with stability study data of the firm (if any). e) Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each 5ml suspension contains** **Trimethoprim…80mg** **Sulfamethoxazole…..400mg**
	Pharmacotherapeutic Group of (API)	Antibacterial for systemic use; J01EE01
	Reference to Finished product specifications	BP
	The status in reference regulatory authorities	MHRA Approved.
	For generic drugs (me-too status)	Product Name: Septran DS Suspension Registration No: 008752
	Proposed Pack size	50ml,400ml.

Evaluation by PEC-V:

The application has been evaluated in the light of CTD guidance document and found deficient for information/ documents as mentioned against each section.

S. No	Sections	Observations/Deficiencies/ Short-comings
1.	1.3.4	Submit copy of valid Drug Manufacturing License (DML) issued by Licensing Division, DRAP.
2.	1.3.5	a) The manufacturing of batches (09-2021) is before the grant of section (11-2021). b) Submit GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years.
3.	1.5.9	a) Submit evidence of approval / registration / marketing status of the applied formulation in the same composition, salt form and dosage form in one of the reference regulatory authority specified by Registration Board.
Trimethoprim		
4.	3.2.S.1.3	Provide polymorphic form of Trimethoprim.
5.	3.2.S.4.1	a) Submit copies of the Drug substance specifications by both Drug substance & Drug Product manufacturer is required.
6.	3.2.S.4.1 3.2.S.4.2	a) Submit copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance manufacturer. b) Submit evidence of electrometer.
7.	3.2.S.4.3	Submit method verification report with supporting data .

8.	3.2.S.4.4	Clarify whether all the tests of BP for testing of API has been performed by drug product manufacturer if not submit discussion and justification for any incomplete analyses of the drug substance / API by Drug Product manufacturer.
Sulfamethoxazole		
9.	3.2.S.4.1	Submit copies of the Drug substance specifications by both Drug substance & Drug Product manufacturer is required.
10.	3.2.S.4.1 3.2.S.4.2	a) Submit copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug substance manufacturer. b) The assay limit of drug product manufacturer is 98.5% -- 101.0% whereas in BP is 99%-101%. Justification is required. c) Submit evidence of loop injector,gas chromatograph and potentiometer.
11.	3.2.4.4	The test of solubility has not been performed by both API and drug product manufacturer. Justification is required.
12.	3.2.S.5	Submit COA of primary / secondary reference standard including source and lot number.
13.	3.2.P.1	a) The applied formulation does not contains ethanol 96 % whereas innovator/reference product contains 17.8 µL of ethanol per 5 ml.Justification is required. b) Justify the quantity of flavours used in the formulation. c) Justify the use of sulfamethoxazole micronized in your formulation.
14.	3.2.P.2	a) Submit compatibility studies of the Drug Substance(s) with excipients shall be provided if the qualitative composition of the formulation is not similar to innovator / reference product. b) Submit preservative test, w/ml and contents of APIs per volume as per BP for pharmaceutical equivalence.
15.	3.2.P.3.2	Submit batch formula for commercial batches.
16.	3.2.P.5.1	Submit specifications for non-compendial excipients i.e. flavors.
17.	3.2.P.5.2	a) Submit the weight of sample and standard, dilution of sample and standard,weight /ml calculation. b) Submit formula for determination of content of APIs, weight in volume.
18.	3.2.P.5.3	Submit supporting data of method verification studies.
19.	3.2.P.5.4	a) Justify the batch size of 100 bottles, on the basis of inprocess control, used in testing and required for analysis at each time point. b) Calculate the content of APIs, weight in volume. c) Clarification is required for not determining amount of preservative in the suspension and microbiological stability.
20.	3.2.P.8.3	a) The applied container is amber PET bottle, but water loss studies have not been performed. Clarification is required. b) Content of preservatives should be determined. c) **Documents / Data to be provided along with stability study data:** ➢ Reference of previous approval of applications with stability study data of the firm (if any). ➢ Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. ➢ Documents for the procurement of API with approval from DRAP (in case of import). ➢ Data of stability batches will be supported by attested respective documents like spectras, Raw data sheets. ➢ Compliance Record of HPLC software 21CFR & audit trail reports on product testing.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Agenda Item No. 02:
Short Molecules priority application as per 178th meeting of the Authority:

757.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Siam Pharmaceutical, Plot # 217, Industrial Triangle, Kahuta Road, Islamabad**
	Name, address of Manufacturing site.	M/s Siam Pharmaceutical, Plot # 217, Industrial Triangle, Kahuta Road, Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: WR7-7MN-E5EZ: 12-03-2024
	Details of fee submitted	PKR 30,000/- : 29-12-2023
	The proposed proprietary name / brand name	CellCar Tablets 200mg
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each film coated tablet contains:** **Carbamazepine….200mg**
	Pharmacotherapeutic Group of (API)	Antiepileptic:N03AF01
	Reference to Finished product specifications	BP
	The status in reference regulatory authorities	USFDA Approved.(uncoated tablet)
	For generic drugs (me-too status)	Product Name: **Tegral Tablets** Registration No: **021529**
	Proposed Pack size	As per SRO.

Evaluation by PEC-V:

S. No	Sections	Observations/Deficiencies/ Short-comings	Firms Response	Evaluator Remarks
1.	1.5.9	Submit evidence of approval of the applied formulation as **"film coated tablets"** in one of the reference regulatory authorities specified by Registration Board in its 275th Meeting. The application shall be further evaluated on the provision of evidence as film coated tablets.	The CTD and testing documents were according to innovator's specification, claim as uncoated tablet. Mistakenly we put "film coated tablet" instead of uncoated tablet. Hence we did go through our CTD and replaced statement 'film coated" to "Uncoated".	The firm has replaced film coated with uncoated in the entire CTD. The pharmaceutical equivalence, CDP and stability results are same in both the modules.

Decision: The Board deferred the case for submission Module 2 and Module 3 "Drug product part" for revised formulation as per innovator drug product i.e., uncoated tablet along with full fee of registration as per SRO 496(I)/2023 dated 17.04.2023.

758.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Siam Pharmaceutical, Plot # 217, Industrial Triangle, Kahuta Road, Islamabad**
	Name, address of Manufacturing site.	M/s Siam Pharmaceutical, Plot # 217, Industrial Triangle, Kahuta Road, Islamabad
	Status of the applicant	☒ Manufacturer

		☐ Importer ☐ Is involved in none of the above (contract giver)

	Details of fee submitted	PKR 30,000/- : 29-12-2023
	The proposed proprietary name / brand name	EpiCell 500mg Tablets
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each sustain release tablet contains: Divalproex sodium equivalent to valproic acid…500mg**
	Pharmacotherapeutic Group of (API)	Antiepileptic:N03AG01

	Reference to Finished product specifications	USP
	The status in reference regulatory authorities	USFDA Approved.
	For generic drugs (me-too status)	Product Name: **Epival 250mg Tablet** Registration No: **007160** (Incorrect me too submitted by the firm).
	Proposed Pack size	As per SRO.

Evaluation by PEC-V:

Sections	Observations/Deficiencies/ Short-comings	Firms Response	Evaluator remarks
1.5.9	Submit clarification regarding formulation/composition whether it is sustain release or delayed release due to variation in composition mentioned in label claim and section 1.5.2. The application shall be further evaluated on the provision of aforesaid clarification.	EpiCell SR 500mg is Sustained Release. In Section 1.5.2 there is a typographical mistake as has been written enteric coat.	The firm has stated that their tablet is sustain release. However, Product development ,formulation development, CDP studies, PV protocol, Specifications including stability mentions enteric coated tablet.

Decision: The Board deferred the case for submission of Module 2 and Module 3 "Drug product part" for sustain release formulation along with full fee of registration as per SRO 496(I)/2023 dated 17.04.2023.

Agenda of Evaluator PEC-XI

Case No. 01; Routine registration applications of Human Drugs on Form 5F

761.	Name, address of Applicant / Marketing Authorization Holder	M/s Weather Folds Pharmaceuticals., Plot # 69/2, Phase-II, Industrial Estate, Hattar, Haripur
	Name, address of Manufacturing site.	M/s Weather Folds Pharmaceuticals., Plot # 69/2, Phase-II, Industrial Estate, Hattar, Haripur
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Not submitted
	Evidence of approval of manufacturing facility	Not submitted
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 27903 dated 03-10-2022
	Details of fee submitted	Rs.30,000/- dated 28-09-2022 (Deposit slip#338309749)

	The proposed proprietary name / brand name	**Lefylo 10mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Leflunomide……..10mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Immunosuppressant; Dihydroorotate dehydrogenase (DHODH) inhibitors WHO ATC Code; L04AK
	Reference to Finished product specifications	USP
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	ARAVA Film Coated tablets (10mg, 20mg, 100mg) USFDA Approved. Arava 10 mg film-coated tablets MHRA Approved
	For generic drugs (me-too status)	Legona 10 Tablet by M/s Akson Pharmaceuticals (Reg# 101792)
	Name and address of API manufacturer.	M/s Changzhou Yabang Pharmaceutical Co., Ltd., No. 6 Liangchang East Road, Jintan City., Jiangsu Province China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months.
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability

		studies of drug product.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Lefora 10mg tablets. CDP has been performed against a comparator product ***(name not mentioned)*** in Acid media pH 1.2, acetate buffer pH 4.5, Phosphate Buffer pH 6.8 and water USP. The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Firm have submitted method verification studies including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Changzhou Yabang Pharmaceutical Co., Ltd., No. 6 Liangchang East Road, Jintan City., Jiangsu Province China		
API Lot No.	M200701		
Description of Pack (Container closure system)	Leflunomide is available as 1x30's tablet further packed in bleechboard box along with leaflet		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-01	T-02	T-03
Batch Size	1200 tablets	1200 tablets	1200 tablets
Manufacturing Date	02-2022	02-2022	02-2022
Date of Initiation	15-02-2022	15-02-2022	15-02-2022
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of form 6 dated 25-01-2022 for import of 01kg of Leflunomide in name of M/s Weatherforlds Pharmaceuticals., attested by AD (I&E) DRAP Peshawar dated 25-01-2022
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's Response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Firm has submitted copy of application applied for renewal of DML dated 18-09-2018 and 21-09-2023 in Licensing Division DRAP
1.3.5	• Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority. • Submit copy of cGMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of change of section letter dated 05-05-2010 specifying Tablet (General) • Firm has submitted copy of cGMP certificate of the firm based on inspection dated 27-01-2022.
1.6.5	• Submit valid copy of cGMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	• Not submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies performed by the Drug Product manufacturer for drug substance is submitted.
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided. • The submitted COA of working Standards states that it is valid upto 10-01-2013. Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the manufacturing date of drug substance is 15-11-2021	• The firm submitted that mistakenly that COA was submitted. The firm has submitted COA of primary / secondary reference having validity upto 21-08-2023
3.2.P.2	• Manufacturer details of comparator product against which pharmaceutical equivalence studies is performed shall be submitted • Details of comparator product including brand name, manufacturer, batch number, manufacturing date, expiry date against which CDP studies is performed shall be submitted	• Firm has submitted details of comparator product Name of product: Lefora 10mg tablet Manufacturer: M/s Hilton Pharma Batch No#142298 Mfg date: 02-2022 Exp date: 02-2025 • The firm submitted that assay test was mistakenly not added and revised

	• Results of assay test are not reported in pharmaceutical equivalence studies • The results of content uniformity test are not reported as per the recommendations of USP <905> (reported as 98.41% for applied product and 100.25% for reference product in pharmaceutical equivalence studies)	pharmaceutical equivalence report is submitted • Content uniformity test results were included
3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units (content uniformity) in finished product specifications as per USP monograph • Detailed analytical procedures used for testing of the drug product shall be provided. • Justification shall be submitted for not performing the test for uniformity of dosage units (content uniformity) in batch analysis of finished product as per USP monograph	• The firm has revised finished product specifications in which test for uniformity of dosage units (content uniformity) has been included • Detailed analytical procedures used for testing of the drug product is submitted. • The firm submitted that content uniformity test was performed but mistakenly not included in batch analysis and submitted revised batch analysis report
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of primary / secondary reference standard is submitted
3.2.P.7	• Details of the container closure systems shall be provided	• Alu alu blister packed in unit carton
3.2.P.8	• Submit AD (I&E) DRAP attested commercial invoice or clearance certificate for the procurement of API. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted copy of form 6 issued dated 25-01-2022 specifying 1Kg Leflunomide. The invoice is issued by AD (I&E) DRAP. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that Registration letter will be issued after submission of following:**
  - **i. Valid copy of cGMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin**
  - **ii. Fee Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Clarification is required whether the same Reference Standards or Materials was used for test and analysis of drug substance as the manufacturing date of drug substance is 15-11-2021	• The firm submitted that mistakenly that COA was submitted. The firm has submitted COA of primary / secondary reference having validity upto 21-08-2023
3.2.P.2	• Manufacturer details of comparator product against which pharmaceutical equivalence studies is performed shall be submitted • Details of comparator product including brand name, manufacturer, batch number, manufacturing date, expiry date against which CDP studies is performed shall be submitted • Justify the results of dissolution studies in Water USP without use of surfactant in CDP studies as water USP is not the dissolution medium in USP monograph (Water containing 0.6% of polyoxyethylene (23) lauryl ether) • Results of assay test are not reported in pharmaceutical equivalence studies	• Firm has submitted details of comparator product Name of product: Lefora 100mg tablet Manufacturer: M/s Hilton Pharma Batch No#142455 Mfg date: 02-2022 Exp date: 02-2025 • The firm submitted that assay test was mistakenly not added and revised pharmaceutical equivalence report is submitted • Content uniformity test results were included
3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units in finished product specifications as per USP monograph • Detailed analytical procedures used for testing of the drug product shall be provided. • Justification shall be submitted for not performing the test for uniformity of dosage units in batch analysis of finished product as per USP monograph	• The firm has revised finished product specifications in which test for uniformity of dosage units (content uniformity) has been included • Detailed analytical procedures used for testing of the drug product is submitted. • The firm submitted that content uniformity test was performed but mistakenly not included in batch analysis and submitted revised batch analysis report
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of primary / secondary reference standard is submitted
3.2.P.7	• Details of the container closure systems shall be provided	• Alu alu blister packed in unit carton
3.2.P.8	• The dissolution medium mentioned in stability summary sheet is water which is different than USP monograph (Water	• Firm has submitted copy of form 6 issued dated 25-01-2022 specifying 1Kg

	containing 0.6% of polyoxyethylene (23) lauryl ether) • Submit AD (I&E) DRAP attested commercial invoice or clearance certificate for the procurement of API. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	Leflunomide. The invoice is issued by AD (I&E) DRAP. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that Registration letter will be issued after submission of following:**
  - **i. Valid copy of cGMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin**
  - **ii. Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of cGMP certificate of M/s CTX Lifesciences Pvt. Ltd., Block No. 251/P, 252/P, 253 TO 255, 256/P, 258/P, 276/P, 277, 278/P, 279 TO 282, 283/P, 284/P, GIDC, City: Sachin, District; Surat – Gujarat state, INDIA issued by Food & Drugs Control Administration Gujarat State India valid upto 29-05-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	The firm submitted copy of Letter No. 633/2020/DRAP-AD-CD(I&E) dated 13-01-2020 for "permission to Import API as per guidelines for import of pharmaceutical raw material for the purpose of test/analysis and stability studies" containing Acetazolamide 1.6gm issued by AD (I&E) DRAP Lahore
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of

		stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)
1.3.5	• Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority. • Submit copy of cGMP certificate / GMP inspection report of manufacturing unit conducted with in last three years
3.2.S.4	• Clarification shall be submitted for not selecting the test for residue on ignition, chloride and sulphate by drug product manufacturer as per drug substance manufacturer specifications and USP monograph
3.2.P.5	• Clarification is required for not mentioning the limits of dissolution test in finished product specifications • Clarification is required for not selecting the test for uniformity of dosage units in finished product specifications as per USP monograph • Analytical method for dissolution test is not submitted • Numerical values of dissolution test shall be mentioned in batch analysis of finished product instead of complies.
3.2.P.8	• Submit commercial invoice or clearance certificate for procurement of API attested by AD (I&E) DRAP • Results of dissolution test are not reported in the submitted stability study • In stability study, chromatograms for standard solutions are not submitted. Furthermore, chromatograms for batch # T01 are submitted only

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings

Remarks of Evaluator [XI]:

Section	Observations	Response
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Justification is required for not including test for fumaric acid content in drug substance specification by drug product manufacturer as per drug substance manufacturer	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • As per USP monograph of Quetiapine drug substance, USP not mention to perform fumaric acid content test but as per drug substance manufacturer specifications fumaric acid content test is provided additionally, we have revised our API release specifications which include test for fumaric acid content for QC release.
3.2.P.2	• Justification is required for not performing uniformity of dosage units test in pharmaceutical equivalence as per USP	• Previously test for uniformity of dosage unit was not performed in pharmaceutical equivalence studies at the time of dossier submission, afterward reference to CTD guidance document and Query received on same point for product "Quetiapine XR Tablet 200mg", We have conducted uniformity of dosage unit test for pharmaceutical equivalence studies for "Quetiapine XR Tablet 50mg" and incorporate results in Pharmaceutical Equivalence Studies Report against reference sample. Updated Pharmaceutical Equivalence report is submitted
3.2.P.8	• Submit audit trail reports on product testing	• Submitted

Decision: Approved.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Naproxen:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. **Esomeprazole:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Vimovo 375mg/20mg Tablet by M/s Astrazeneca Sweden. CDP has been performed against the same product Vimovo 375mg/20mg Tablet by M/s Astrazeneca Sweden in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values of f2 factor calculated in phosphate buffer are in acceptable range. The values of f2 factor are not calculated for esomeprazole as it is unstable in acidic media and acetate buffer. The values of f2 factor are not calculated for naproxen as it is enteric coated and not tablet ruptured in acidic media and acetate buffer.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, system suitability, linearity and range, accuracy, precision, detection limit, quantitation limit and robustness.

STABILITY STUDY DATA			
Manufacturer of API	**Naproxen:** Dr. Reddy's Laboratories Limited., INDUSTRIAS QUIMICAS FALCON DE MEXICO S.A DE C.V km 4.5 Carretera Federal Cuernavaca-Cuautla 62578 Jiutepec Morelos Mexico **Esomeprazole:** M/s Metrochem API Private Limited., Unit-I Plot No. 62/C/6 Pipeline Road Phase – I, IDA, Jeedimetla, Quthbullapur (M), Medchal-Malkajgiri (Dist), Telangana (State) India

Manufacturing Date	02-2020	02-2020	02-2020
Date of Initiation	20-02-2020	20-02-2020	20-02-2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Esomeprazole:** The firm has submitted copy of cGMP certificate of M/s Metrochem API Pvt. Ltd.,

		Unit-I Plot No. 62/C/6 Pipeline Road Phase – I, IDA, Jeedimetla, Quthbullapur (M), Medchal-Malkajgiri (Dist), Telangana (State) India issued by Drugs Control Administration Government of Telangana India valid upto 26/10/2022
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Esomeprazole:** Firm has submitted copy of invoice for import of 35kg Esomeprazole Magnesium powder in name of M/s Hiranis Pharmaceuticals attested by AD (I&E) DRAP Karachi dated 25-10-2018 **Naproxen:** Firm has submitted copy of invoice for import of 175kg Naproxen in name of M/s Hiranis Pharmaceuticals attested by AD (I&E) DRAP Karachi dated 02-12-2019
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Firm has submitted copy of letter applied for renewal of DML in Licensing Division DRAP dated 01-02-2024
1.4	• You have applied for a new drug product while the applied product is a generic drug product, clarify	• The firm submitted that the application submitted as NCE product and fee submitted accordingly was an innocent mistake from our end since the applied formulation falls under generic category, we gravely regret the inconvenience caused
1.5.9	• The submitted evidence of Vimovo 20mg;375mg Tablet approved in USFDA is ***Discontinued.*** Provide evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting.	• Firm has submitted evidence of applied product in RRA. Naproxen And Esomeprazole Magnesium Eq 20mg Base;375mg delayed Release Tablet, USFDA Approved
1.6.5	• Valid GMP certificate / DML of both the Drug Substance manufacturer of Esomeprazole and Naproxen issued by relevant regulatory authority of country of origin is required	**Esomeprazole:** The firm has submitted copy of cGMP certificate of M/s Metrochem API Pvt. Ltd., Unit-I Plot No. 62/C/6 Pipeline Road Phase – I, IDA, Jeedimetla, Quthbullapur (M), Medchal-Malkajgiri (Dist), Telangana (State) India issued by Drugs Control Administration Government of Telangana India valid upto 12/07/2026

	• Address of manufacturing site of M/s Dr. Reddy's Laboratories Limited., shall be provided	**Naproxen:** Firm has submitted copy of cGMP certificate of M/s Industrias Químicas Falcon de México, S.A. de C.V Km. 4.5 Carretera Federal Cuernavaca-Cuautla, Civac, C.P. Jiutepec, Morelos, México valid upto 12-04-2026. • Address of the manufacturing site of M/s Dr. Reddy's Laboratories limited is as follows: Industrias Químicas Falcon de México, S.A. de C.V Km. 4.5 Carretera Federal Cuernavaca-Cuautla, 62578 Jiutepec, Morelos, México. • The firm submitted that Dr. Reddy's Laboratories limited is administrative headquarters and Industrias Quimicas Falcon de Mexico is their manufacturing site. This clarification is mentioned in the 3.2.S.2.1 of DMF. 3.2.S.2.1 of DMF has mentioned that Industrias Quimicas Falcon de Mexico, S.A. **.** de C.V is subsidiary of Dr. Reddy's Laboratories Limited.
3.2.P.2	• Justification shall be submitted for not performing the test for uniformity of dosage unit in pharmaceutical equivalence studies as recommended by innovator product	• The firm has submitted revised pharmaceutical studies in which test for uniformity of dosage unit has been performed.
3.2.P.5	• The dissolution time of naproxen at buffer phase (Q after 45min instead of Q at 60min) of finished product specification is different than that of innovator product review document, clarify • The dissolution parameters i.e. volume and rpm (1000ml and 50rpm instead of 475ml and 75rpm) for naproxen at acid stage is different than that of innovator product review document, clarify • The dissolution parameters i.e. volume, rpm and time (1000ml, 50rpm, 45min instead of 900ml, 75rpm and 60min) for naproxen at buffer stage is different than that of innovator product review document, clarify	• The firm submitted that we have used Q after 45 minutes instead of 60 minutes on the basis of USP dissolution chapter <711>, for delayed release dosage forms • The firm submitted that we have used the dissolution parameter for naproxen at acid and buffer stage as 1000ml,50 rpm on the basis of FDA updated dissolution information as per FDA dissolution database as innovator also approved by FDA. • https://www.accessdata.fda.gov/scripts/cder/dissolution/index.cfm
3.2.P.6	• COA of primary / secondary reference standard of naproxen including source and lot number shall be provided.	• Firm has submitted COA of primary reference standard of naproxen

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Proposed Pack size	20's
	Proposed unit price	As per SRO

Evaluation by PEC[XI]:

Section	Observations	Firm's response
3.2.S.4	• Copies of the Drug substance specifications of Drug substance manufacturer is required. • Clarification is required as the declared drug substance specifications is in-house while monograph for the drug substance is available both in USP and BP • The assay method of drug product manufacturer (isocratic method) is different than drug substance manufacturer (gradient method), clarify • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Submit readable copy of results of analysis of relevant batch of Drug Substance performed by Drug Product manufacturer used during product development and stability studies, along with Certificate of Analysis of the same batch from Drug Substance manufacture.	• Copies of the Drug substance specifications of Drug product manufacturer is submitted instead of drug substance manufacturer • The firm submitted that at the time of Product Development and Stability Studies API was not available in any pharmacopeia. However now Rivaroxaban API is available in BP pharmacopeia, we have revised our Method & Specifications accordingly. Also Analytical Method Verification has been performed and submitted. • As API was not available in Pharmacopoeia at the time of Product Development. The API testing method was developed according to the Article of Brazilian journal. Link is given below and for your reference documents of article are submitted https://www.scielo.br/j/bjps/a/p8RzWwkTsrMRwNGVZTcDdDg/ Now API is available in BP so, we have performed testing as per British Pharmacopoeia and revised method is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • Certificate of Analysis of the same batch of drug substance from Drug Substance manufacture is submitted. However, Readable copy of results of analysis of relevant batch of Drug Substance performed by Drug Product manufacturer used during product

		development and stability studies is not submitted.
3.2.P.5	• You have applied for in house specification in this section and innovator's specifications in section 1.5.6 while the monograph for the applied product is available both in USP and BP. Clarification is required	• The firm submitted that at the time of Product Development and Stability Studies rivaroxaban tablets were not available in any pharmacopeia. • However now it is available in BP & we have revised our Method of Analysis & Specifications accordingly. Also Analytical Method Verification of Rivaroxaban 2.5mg Tablet is submitted
3.2.P.8	• Raw data sheets of stability testing for applied product is not submitted	• Raw data sheets of stability testing for applied product is not submitted

Decision: Deferred for submission of following:

- **Copies of the Drug substance specifications of Drug substance manufacturer**
- **Readable copy of results of analysis of relevant batch of Drug Substance performed by Drug Product manufacturer used during product development and stability studies**
- **Raw data sheets of stability testing for applied product**
- **Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

771.	Name, address of Applicant / Marketing Authorization Holder	Martin Dow Marker Limited., 7, Jail Road, Quetta, Pakistan
	Name, address of Manufacturing site.	Martin Dow Marker Limited., 7, Jail Road, Quetta, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form-5F Dy.No 972 dated 11-01-2023
	Details of fee submitted	Rs.30,000/- dated 30-12-2022 (Deposit slip#85044256964)
	The proposed proprietary name / brand name	**Rixaban 2.5mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Rivaroxaban……..2.5mg
	Pharmacotherapeutic Group of (API)	Antithrombotic Agents, Direct factor Xa inhibitors
	Reference to Finished product specifications	Innovator's specifications
	The status in reference regulatory authorities	Xarelto (2.5 mg, 10 mg, 15 mg, or 20 mg) film-coated tablets USFDA Approved
	For generic drugs (me-too status)	Zonabax 2.5mg Tablet by M/s Horizon Healthcare (Reg# 108120)
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO

Evaluation by PEC[XI]:

Section	Observations	Firm's response
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate of the firm based on inspection dated 15th & 16th-01-2024.

3.2.S.4	• Description of test for identification and solubility test must be mentioned in drug substance specifications instead of writing passes test by drug product manufacturer • Clarification is required as the declared drug substance specifications by drug substance manufacturer is in-house while monograph for the drug substance is available both in USP and BP	• Description of test for identification and solubility test is mentioned and revised specifications for drug substance is submitted by drug product manufacturer • The firm has submitted clarification that the drug substance manufacturer has followed Ph.Eur monograph and in-house validated and stability indicative HPLC method for drug substance by drug substance manufacturer and submitted justification
3.2.P.5	• Clarification is required as you have claimed innovator's specifications is module 1 section 1.5.6 and BP specifications in this section • Justifications shall be submitted for using different column specifications for assay test than that recommended by BP • Justification shall be submitted for selecting the limit of assay test 90-110% in batch analysis of drug product instead of 95-105% as submitted in finished product specifications	• The firm submitted that due to typographical error innovator's specifications mentioned in section 1.5.6. Product comply BP. Specification, and revised form 5-F is submitted • The firm submitted that initially HPLC Column 0.055m x 4.0mm x 3µm as per BP Monograph was not available; therefore, alternate column i.e. 100mm x 4.0mm x 5µm was used. Further Verification was also performed on HPLC Column 100mm x 4.0mm x 5µm. Addition to this, Stability study from 12 months and onwards are performed on the HPLC Column 0.055m x 4.0mm x 3µm as mentioned in BP Monograph and results found satisfactory as per Specification. Revised Product specification also submitted. • The firm has submitted revised batch analysis report in which limits of assay test has been mentioned as per submitted specifications (95-105%)

Decision: Approved with BP specifications

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that Registration letter will be issued after submission of following:**
  - **i. Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Section	Observations	Response
1.3.4	• Submit Valid copy of Drug Manufacturing License (DML)	•
1.3.5	• Submit Evidence of approval of required manufacturing facility / Approved Section from Licensing Authority. • Submit valid copy of cGMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	•
1.6.5	• Valid copy of cGMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	•

2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	•
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Justification shall be submitted for not performing the test for chloride content and sulphated ash in batch analysis of drug substance by drug product manufacturer	•
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	•
3.2.P.2	• Details of marketing authorization holder of comparator product in pharmaceutical equivalence and CDP studies shall be submitted • Complete comparative dissolution studies shall be submitted	•
3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units in finished product specifications • Description of test for identification test in finished product specifications shall be submitted • Justification shall be submitted for not mentioning the time of dissolution test in finish product specifications • Analytical procedure for all the tests given in finished product specifications shall be submitted • Justification shall be submitted as you have submitted analytical method validation studies by HPLC method while analytical method for assay test by UV method. • Analytical method validation protocols shall be submitted	•
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	•
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP (in case of import). • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	•

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings

780.	Name, address of Applicant / Marketing Authorization Holder	M/s Nabiqasim Industries (Pvt.) Ltd., 17/24, Korangi Industrial Area, Karachi, Pakistan
	Name, address of Manufacturing site.	M/s Nabiqasim Industries (Pvt.) Ltd., 17/24, Korangi Industrial Area, Karachi, Pakistan
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form-5F Dy.No 4042 dated 13-02-2023
	Details of fee submitted	Rs.30,000/- dated 04-01-2023 (Deposit slip#46931188190)
	The proposed proprietary name / brand name	**Levonab 50mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Tablet Contains: Levosulpiride……50mg

	Pharmacotherapeutic Group of (API)	Antipsychotic
	Reference to Finished product specifications	Innovator's Specifications
	The status in reference regulatory authorities	Levosulpiride Aristo 50 mg tablets, AIFA Italy approved.
	For generic drugs (me-too status)	Levopaid 50mg Tablet by M/s Wimits Pharmaceuticals (Reg.No# 99724)
	Proposed Pack size	10's, 20's, 30's, 60's, 100's
	Proposed unit price	As per SRO

Evaluation by PEC[XI]:

Section	Observations	Response

3.2.P.5	• Justification shall be submitted for selection of dissolution parameters i.e. medium, volume, apparatus and rpm (phosphate buffer pH 6.8, 900ml, apparatus 2, 50rpm,)	• The rationale for selecting the dissolution medium/method is as per the recommendation of USP general chapter <1092>, European Medicine Agency Reflection paper on the dissolution specification for generic solid oral immediate release products with systemic action and ICH guidance document for "Dissolution Testing of Immediate Release Solid Oral Dosage Forms."
		• The dissolution characteristics of the drug product developed based on consideration of the pH solubility profile and pKa of the drug substance. The drug permeability or octanol/water partition coefficient measurement may be useful in selecting the dissolution methodology and specifications.
		  • The solubility of Levosulpiride drug product is highly soluble in 0.1 N HCl. pH 4.5 Buffer and pH 6.8 buffer (i.e. very rapid dissolution >85% release observed within 15 minutes) as observe in comparative dissolution profile and also mention in Public Assessment Report Scientific discussion of Levosulpiride Aristo tablet range from Aristo Pharma GmbH in pharmaceutical development section, that Levosulpiride exhibits high solubility in 0.1N HCl, pH 4.5 & pH 6.8 medium (very rapidly dissolving scenario).
		  • Rationale for selecting pH 6.8 media as QC release media is that Levosulpiride is S-enantiomer of Sulpride. Levosulpiride has a pKa value of 8.5 approximately near to sulpride pkA value 9.12 and partition coefficient of sulpride is 0.42.
		  • Sulpride tablet monograph is officially available in JP compendia. 2nd fluid is used as dissolution medium (pH 6.8 Buffer); however, we will adapt the proposed dissolution medium **(0.1N HCl)**

		as QC release media for our applied product Levosulpiride tablet Range on the basis of PAR of Reference product.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Evaluation by PEC[XI]:

Section	Observations	Response
1.5.2	• Revise the label claim as per reference formulation considering the hydrated form in case of carbidopa along with submission of applicable fee.	• The firm has revised the label claim as per reference formulation without submission of applicable fee. The revised label claim is as under: Each Tablet Contains: Carbidopa monohydrate equivalent to anhydrous carbidopa……25mg Levodopa……..100mg
1.5.5	• Indicate Pharmacotherapeutic Group of Active Pharmaceutical Ingredient (API) with proper reference	• The firm has submitted the Pharmacotherapeutic group of Carbidopa and Levodopa i.e. ATC: N04B DOPAMINERGIC AGENTS with reference.

1.6.5	• Valid copy of cGMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• Firm has submitted copy of Drug product License (license#ZHe20060667) of API manufacturer issued by Zhejiang Drug Administration valid upto 20-09-2025 • Firm has also submitted copy of cGMP certificate of API manufacturer issued by Zhejiang Medicine Health Administration valid upto 24-10-2026
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance Cabidopa and Levodopa by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance Carbidopa and Levodopa shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance Cabidopa and Levodopa by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance Carbidopa and Levodopa is submitted.
3.2.S.7	• Stability study data of carbidopa and levodopa at zone VI-A conditions till claimed shelf life shall be submitted	• Firm has submitted stability study data of 3 batches of drug substance as per zone IV-B conditions. • We submitted the stability data of Carbidopa and Levodopa as per zone IV-B conditions till the claim shelf life in accordance with the WHO Technical Report Series, No. 1010, 2018-Annex 10 which states that "Regulatory authorities in the ICH regions have agreed that the use of more stringent humidity conditions such as 30°C/75% RH will be acceptable".
3.2.P.5	• The concentration of levodopa in standard solution in assay method is less than that recommended in pharmacopeia and sample solution • Results of accuracy test are not submitted in analytical method verification studies	• The firm submitted that we have prepared the sample as per the average weight of the sample by targeting Carbidopa pharmacopoeial concentration, which is 125 mcg/mL, and having a lower label claim as compared to levodopa, which has a higher label claim. As per the target weight of the prepared sample, both actives were analysed in accordance with the USP Pharmacopoeia, which defines nominal or minimal concentrations for both APIs that are not fixed. Moreover we also perform analytical procedure verification which confirms that our procedure is suitable for its intended purposes and the results demonstrate the performance, consistency, and reliability of our analytical procedure. Additionally, we have performed a Linearity Test in analytical procedure verification that includes the Levodopa and Carbidopa concentration levels as per USP pharmacopoeia and also

		established that the results of the Line of Regression (R2) are satisfactory. • In analytical method verification studies results of accuracy test are submitted

Decision: Approved.

Evaluation by PEC[XI]:

Section	Observations	Response
1.3.5	• Submit copy of cGMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate of the firm based on inspection dated 24&25-05-2023.
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • Firm has submitted revised batch analysis report in test for residue on ignition and optical isomer

	Product manufacturer for drug substance shall be submitted. • Justification shall be submitted for not performing the test for residue on ignition and optical isomer in batch analysis of drug substance by drug product manufacturer	has been performed in batch analysis of drug substance
3.2.P.5	• Justification shall be submitted for selection of dissolution parameters i.e. medium, volume, apparatus, rpm, time and limits (0.1N HCl, 500ml, 50rpm and NLT 85% in 15min) • Analytical conditions for dissolution test (HPLC or UV) is not mentioned in submitted analytical method	• The firm submitted that Silodosin is a highly soluble drug substance (BCS –III) based on ICH Q6A, which states that the drug substance should be considered highly soluble if it meets following two conditions: 1. The dissolution profile of all strengths of the dosage form should be rapid i.e. Dissolution >80 % in 15 minutes at pH 1.2 to 6.8. 2. The highest drug product's strength is soluble in 250mL or less of aqueous media over the pH range of 1.2 to 6.8 at 37°C ± 1°C. • As per ICH Q6A, for dosage forms having drug substances falls in above conditions will be considered as highly soluble drugs and do not require development of discriminatory dissolution method / parameters. Generally, a single time point with one medium is acceptable. • Comparative Dissolution Study by Genome the 'Silosin 4mg Capsule' against the Innovator Product 'Rapaflo 4mg Capsules' Silodosin release more than 85% in three medium within 15minutes at 50 RPM. Also, the solubility of Silodosin is very high throughout the physiological pH range (1.2 to 6.8). The Highest solubility of Silodosin is found to be in pH 1.2 as compared to solubility in pH 4.5 & 6.8, so we selected dissolution medium having pH 1.2. • In light of above discussion and high solubility of drug substance, discriminatory dissolution parameters are not required for Silodosin Capsule. Therefore, generalized lowest 50 RMP with 500ml medium as selected for release and stability studies of the drug product. • As per Comparative Dissolution Study by Genome the 'Silosin 4mg Capsule" against the Innovator Product 'Rapaflo 4mg Capsules' Silodosin release more than 85% in all medium within 15minutes. Therefore, we selected the time point i.e. 15 minutes for dissolution. • The firm submitted that the Analytical Technique is used for Dissolution by the HPLC with the same Chromatographic Condition provided as per ASSAY.
3.2.P.8	• The submitted chromatograms in stability study does not show the batch number, storage conditions	• The firm submitted as Chromatogram is automatically generated by software, T001, T002, T003 are the batch number and Month 01, 02,03 are the time point of stability studies, while

	and time point of stability testing, clarify	Accelerated storage condition (AC) & Real term storage condition (RT) are mentioned on the stability sheets. Some chromatograms and Stability Sheets of three trails are submitted for kind consideration.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Evaluation by PEC[XI]:

Section	Observations	Firm's Response
1.6.5	• Valid copy of cGMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• Firm has submitted copy of written confirmation for active substance exported to EU of API manufacturer valid upto 17-04-2027 issued by Deputy General Director Liaoning Medical Product Administration China. The certificate states that manufacturing plant complies with the requirement of Chinese Good Manufacturing Practice.

3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Analytical Method Verification for drug product is submitted instead of drug substance. Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Justification shall be submitted for not performing the test for Enantiomeric purity in batch analysis of drug substance by drug product manufacturer as per submitted specifications • Submit certificate of analysis of relevant batch of Drug Substance from Drug Substance manufacture used during product development and stability studies.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • Firm has submitted revised batch analysis report of drug substance in which test for enantiomeric purity has been performed • Certificate of analysis of relevant batch of Drug Substance from Drug Substance manufacture is submitted
3.2.P.5	• Justification shall be submitted for not selecting specifications for dissolution test in finished product specifications • Justification shall be submitted for selecting different limit of assay test (90%-110%) in batch analysis of dug product than that submitted in finished product specifications (95%-105%)	• The firm submitted that sitagliptin tablet is pharmacopeial product. In USP Monograph of sitagliptin tablet dissolution test is not mentioned. For reference USP monograph of sitagliptin tablet is submitted • The firm submitted that it is a typographical error in assay limit of drug product i.e., (95%-105%). Revised report is submitted. Fee Rs. 7500/- has been submitted for typographical error vide challan No# 675799922791.
3.2.P.8	• Justify the delay between manufacturing of trial batches (04-2022) and initiation of stability studies (06-2022.). • The submitted commercial invoice and form 6 seems to have been overwritten. The submitted invoice and form 6 needs to be verified from concerned filed office	• The firm submitted that delay occurred due to unavailability of certain chemical reagents needed for testing the finished product while we conducted the testing step by step. Our product was manufactured on April 20, 2022. The assay was performed on May 09, 2022, the uniformity of dosage unit by content uniformity was carried out on June 1, 2022, and the product was placed on stability testing on June 8, 2022.

Decision: Deferred for verification of procurement document of API (commercial invoice and Form 6) from concerned field office DRAP

	For generic drugs (me-too status)	Renvela 800mg Tablets by M/s sanofi-aventis Pakistan Limited (Reg#85252)
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO

Evaluation by PEC[XI]:

Section	Observations	Firm's Response
1.3.4	• Submit Valid copy of Drug Manufacturing License (DML)	• Firm has submitted copy of application applied for renewal of DML dated 12-04-2022
1.3.5	• Submit Evidence of approval of required manufacturing facility / Approved Section from Licensing Authority. • Submit valid copy of cGMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate of the firm based on inspection dated 03-04-2023.
1.6.5	• Valid copy of cGMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• Firm has submitted copy of cGMP certificate of API manufacturer issued by Food and Drugs Control Administration Gujarat State India valid upto 05-05-2023
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Not submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Complete analytical procedure for all the tests by drug substance manufacturer for submitted specifications shall be submitted • Analytical Method Verification studies including specificity,	• Copies of the Drug substance specifications for drug substance by product manufacturer is submitted. However, analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is not submitted • Complete analytical procedure for all the tests by drug substance manufacturer for submitted specifications is not submitted • Analytical Method Verification studies for drug substance by drug product manufacturer is submitted

	accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Justification shall be submitted for not performing the test for total titratable amine, carbonate content, limit of soluble oligomers, limit of allylamine, residue on ignition, limit of chloride, swell index in batch analysis of drug substance by drug product manufacturer as per drug substance manufacturer • Submit certificate of analysis of relevant batch of Drug Substance from Drug Substance manufacture used during product development and stability studies.	• No justification is submitted • Certificate of analysis of relevant batch of Drug Substance from Drug Substance manufacture is submitted
3.2.P.2	• Pharmaceutical equivalence and CDP studies of the applied drug with the innovator / reference / comparator product shall be submitted	• Firm has submitted pharmaceutical equivalence of their product against the product Renvela 800mg Tablet by M/s Genzyme Ireland ltd. Waterford Ireland • The firm submitted that sevelamer carbonate 800mg tablets dissolution test can't be performed like the conventional film coated tablets. Because this product till now is not available in any official monograph like USP, BP, JP etc. furthermore, the afore said product dissolution in FDA dissolution guidance is mentioned to be done by disintegration method. • So the exemption of the dissolution and comparative dissolution may be granted for the product
3.2.P.5	• Justification shall be submitted for not including the test for loss on drying, uniformity of mass, disintegration, potency, microbial purity, titratable amines, soluble oligomers in finished product specifications as per innovator's product review document • Description of test for identification test in finished product specifications shall be submitted • Analytical procedure for all the tests given in finished product specifications shall be submitted • Justification shall be submitted for not performing the test for loss on drying, uniformity of mass, disintegration, potency, microbial purity, titratable amines, soluble oligomers in finished in batch analysis of drug product as per innovator's product review document	• The firm submitted that titratable amines and soluble oligomers test is done raw material and these are not required in finished product. • Description of test for identification test in finished product specifications is submitted • Analytical procedure for all the tests given in finished product specifications is submitted • Firm has submitted revised batch analysis report in which test for loss on drying, uniformity of mass, disintegration, potency has been performed. However test for titratable amines and soluble oligomers in finished product batch analysis is not performed and firm submit that titratable amines and soluble oligomers test is done raw material and these are not required in finished product.

3.2.P.8	• Submit documents for the procurement of API with approval from DRAP (in case of import). • Justification of applying UV Spectrophotometric method for Assay analysis of applied formulation in stability study instead submitted HPLC method. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted copy of form 6 issued dated 21-10-2021 specifying 03Kg Sevelamer Carbonate. The invoice is issued by AD (I&E) DRAP. • The firm submitted that HPLC method is not applicable for phosphate binding capacity so it is performed on UV. However no UV method has been submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not submitted

Decision: Deferred for submission of following:

- **Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>**
- **Analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer**
- **Complete analytical procedure for all the tests by drug substance manufacturer for submitted specifications**
- **Justification for not performing the test for total titratable amine, carbonate content, limit of soluble oligomers, limit of allylamine, residue on ignition, limit of chloride, swell index in batch analysis of drug substance by drug product manufacturer as per drug substance manufacturer**
- **Justification for not performing the test for microbial purity, titratable amines, soluble oligomers in finished in batch analysis of drug product**
- **Analytical method for applied drug product**

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of cGMP certificate of M/s Metrochem API Private Limited, Unit-I, Plot No. 62/C/6, Pipeline Road, Phase – I, IDA, Jeedimetla, Quthbullapur (M), Medchal –Malkajgiri (Dist) – Telangana State, India., issued by Drugs Control Administration, Telangana India valid upto 22-04-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Omeprazole: Firm has submitted copy of form 6 for import of 01kg Omeprazole in name of M/s Focus & Rulz Pharmaceutical Pvt. Ltd., attested by AD (I&E) DRAP Islamabad dated 30-03-2021.

		Firm has submitted copy of commercial invoice for import of 01kg Omeprazole in name of M/s Focus & Rulz Pharmaceutical Pvt. Ltd., attested by AD (I&E) DRAP Islamabad dated 30-03-2021
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective document like chromatograms, Raw data sheets COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Firm has submitted copy of DML renewal application dated 16-02-2023 applied before expiry of DML (18-06-2023)
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate dated 12-05-2023 based on inspection conducted on 12-05-2023.
1.5.6	• You have applied for USP specifications in this section while innovator specifications in section 3.2.P.5.1 of module 3. Clarification is required	• The firm submitted that referencing USP specifications in section 1.6.5 of module I was a typographical error. The firm submitted that actual product specification is innovator's specifications as outlined in section 3.2.P.5.1 of module 3.
1.6.5	• Valid GMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin is required	• Firm has submitted copy of cGMP certificate of M/s Metrochem API Pvt. Ltd, Unit-IV, Plot No.34B, 40B, & 60B, J.N. Pharma City, Thanam (V), Parawada (M), Visakhapatnam Dist-531021, Andhra Pradesh India., issued by Drugs Control Administration, Governemt of Andhra Pradesh India valid upto 13-11-2023. • The submitted GMP certificate is of different manufacturing site than that given in submitted dossier. • The firm submitted that we have purchased one of API i.e. Sodium Bicarbonate manufactured by ICI Pakistan Ltd., from local market for the purpose of trial batches. Vendor did not provide GMP nor DML. We look forward to your understanding and acceptance of information.

3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance sodium bicarbonate by Drug substance manufacturer is required. • Justification shall be submitted for selecting USP specifications for sodium bicarbonate by drug product manufacturer instead of BP specifications by drug substance manufacturer • Justification shall be submitted by selecting different limit of assay test of sodium bicarbonate by drug product manufacturer (98-102%) than drug substance manufacturer (99-101%) and USP monograph (99-100.5%) • Justification is required as in specificity test of analytical method verification for sodium bicarbonate, *" peak of interest contain no interference*, is mentioned while method of assay is titration • The manufacturing date mentioned on COA of sodium bicarbonate (batch#314) by drug substance manufacturer is 09/2010 and expiry date is 08/2015. Justification is required whether same drug substance was used in development of drug product or otherwise. • The date of analysis mentioned on COA of sodium bicarbonate (batch#030121-M) by drug product manufacturer is 01-03-2022 while manufacturing of trial batches is 01-2022. Justification is required whether analysis of sodium bicarbonate is performed subsequent to the manufacturing of trial batches	• Copies of the Drug substance analytical procedures for sodium bicarbonate by Drug product manufacturer is submitted instead of Drug substance manufacturer. • The firm submitted that we are using USP specifications for drug substance sodium bicarbonate. It was mistakenly mentioned in COA. We have submitted correct and revised COA. • The firm submitted that we are using assay limits of 99.0%-100.5% according to USP specifications. It was mistakenly mentioned in COA and revised COA is submitted. • The firm submitted that upon careful review, it has come to our attention that there was a typographical error on our part. We have performed Sodium carbonate Assay by Titrimetric method. But we mistakenly mentioned Peak of interest while discussing the method of analysis of sodium carbonate being titration. We have submitted correct and finalized analytical method validation report of sodium bicarbonate. • No justification is submitted • The firm submitted that we have received two lots from manufacturer. Drug manufacturer COA which was attached in the dossier by mistake was of next lot having manufacturing date 01-2022 while we used the previous lot (mfg date 03-03-2020) for trial batches. Corrected certificate of analysis is submitted
3.2.P.2	• Justification is required for including mannitol in formulation which is not included in reference product formulation	• The firm submitted that upon careful review, it has come to our attention that the inclusion of mannitol in the formulation in the referenced section of our submission was an oversight and purely a clerical mistake resulting from an internal working document prepared during the formulation development stage. Said trial batch, unfortunately, was not our finalized formulation but rather an in-house formulation working version that was not intended for further processing. • We acknowledge the importance of aligning our submission with the reference product formulation and appreciate your diligence in bringing this matter to our attention. • To address this concern, we have attached the correct and finalized formulation used for the trial batches,

		which accurately reflects the composition intended for the Omper Insta 20mg sachet. This formulation aligns with the reference product specifications and does not include mannitol as erroneously indicated in our earlier submission.
3.2.P.5	• Results of analytical method validation studies for sodium bicarbonate shall be submitted	• Results of analytical method validation studies for sodium bicarbonate is submitted
3.2.P.8	• The wavelength selected for analysis for omeprazole is 302nm in analytical method while submitted chromatogram shows 305nm, clarify? • Submit documents for the procurement of API (Sodium bicarbonate) with approval from DRAP (in case of import).	• The firm submitted that there was a typographical error in standard analytical procedure where wavelength is given as 302 while in chromatogram there was 305. To rectify this error, we have now corrected and revised the procedure and submitted revised procedure. • The firm informed that Sodium Bicarbonate was purchased locally from ICI Pakistan Ltd, Islamabad and submitted purchased order.

Decision: Deferred for submission of following:

- **Valid copy of cGMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin**
- **Copies of the Drug substance analytical procedures used for routine testing of the Drug substance sodium bicarbonate by Drug substance manufacturer**
- **Full fee of registration Rs. 30,000/- for typographical errors**

Sodium Bicarbonate: M/s ICI Pakistan Limited., JXM9+37J, H-13, Islamabad Capital territory, Islamabad		
API Lot No.	Omeprazole Powder: OMP/2102059 Sodium Bicarbonate: 314		
Description of Pack (Container closure system)	White to off white colored, fine free flowing powder visually free from foreign particles filled in aluminium foil sachets packed in unit carton		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	22AT05	22AT06	22AT07
Batch Size	2000 sachet	2000 sachet	2000 sachet

Manufacturing Date	01-2022	01-2022	01-2022
Date of Initiation	20-01-2022	20-01-2022	20-01-2022
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of cGMP certificate of M/s Metrochem API Private Limited, Unit-I, Plot No. 62/C/6, Pipeline Road, Phase – I, IDA, Jeedimetla, Quthbullapur (M), Medchal –Malkajgiri (Dist) – Telangana State, India., issued by Drugs Control Administration, Telangana India valid upto 22-04-2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Omeprazole: Firm has submitted copy of form 6 for import of 01kg Omeprazole in name of M/s Focus & Rulz Pharmaceutical Pvt. Ltd., attested by AD (I&E) DRAP Islamabad dated 30-03-2021. Firm has submitted copy of commercial invoice for import of 01kg Omeprazole in name of M/s Focus & Rulz Pharmaceutical Pvt. Ltd., attested by AD (I&E) DRAP Islamabad dated 30-03-2021
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective document like chromatograms, Raw data sheets COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Firm has submitted copy of DML renewal application dated 16-02-2023 applied before expiry of DML (18-06-2023)
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate dated 12-05-2023 based on inspection conducted on 12-05-2023.
1.5.6	• You have applied for USP specifications in this section while innovator specifications in section 3.2.P.5.1 of module 3. Clarification is required	• The firm submitted that referencing USP specifications in section 1.6.5 of module I was a typographical error. The firm submitted that actual product specification is innovator's specifications as outlined in section 3.2.P.5.1 of module 3.
1.6.5	• Valid GMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by	• Firm has submitted copy of cGMP certificate of M/s Metrochem API Pvt. Ltd, Unit-IV, Plot No.34B, 40B, & 60B, J.N. Pharma City, Thanam (V), Parawada (M),

	relevant regulatory authority of country of origin is required	Visakhapatnam Dist-531021, Andhra Pradesh India., issued by Drugs Control Administration, Governemt of Andhra Pradesh India valid upto 13-11-2023. • The submitted GMP certificate is of different manufacturing site than that given in submitted dossier. • The firm submitted that we have purchased one of API i.e. Sodium Bicarbonate manufactured by ICI Pakistan Ltd., from local market for the purpose of trial batches. Vendor did not provide GMP nor DML. We look forward to your understanding and acceptance of information.
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance sodium bicarbonate by Drug substance manufacturer is required. • Justification shall be submitted for selecting USP specifications for sodium bicarbonate by drug product manufacturer instead of BP specifications by drug substance manufacturer • Justification shall be submitted by selecting different limit of assay test of sodium bicarbonate by drug product manufacturer (98-102%) than drug substance manufacturer (99-101%) and USP monograph (99-100.5%) • Justification is required as in specificity test of analytical method verification for sodium bicarbonate, *" peak of interest contain no interference*, is mentioned while method of assay is titration • The manufacturing date mentioned on COA of sodium bicarbonate by drug substance manufacturer is 09/2010 and expiry date is 08/2015. Justification is required whether same drug substance was used in development of drug product or otherwise. • The date of analysis mentioned on COA of sodium bicarbonate (batch#030121-M) by drug product manufacturer is 01-03-2022 while manufacturing of trial batches is 01-2022. Justification is required whether analysis of sodium bicarbonate is performed subsequent to the manufacturing of trial batches	• Copies of the Drug substance analytical procedures for sodium bicarbonate by Drug product manufacturer is submitted instead of Drug substance manufacturer. • The firm submitted that we are using USP specifications for drug substance sodium bicarbonate. It was mistakenly mentioned in COA. We have submitted correct and revised COA. • The firm submitted that we are using assay limits of 99.0%-100.5% according to USP specifications. It was mistakenly mentioned in COA and revised COA is submitted. • The firm submitted that upon careful review, it has come to our attention that there was a typographical error on our part. We have performed Sodium carbonate Assay by Titrimetric method. But we mistakenly mentioned Peak of interest while discussing the method of analysis of sodium carbonate being titration. We have submitted correct and finalized analytical method validation report of sodium bicarbonate. • No justification is submitted • The firm submitted that we have received two lots from manufacturer. Drug manufacturer COA which was attached in the dossier by mistake was of next lot having manufacturing date 01-2022 while we used the previous lot (mfg date 03-03-2020) for trial batches. Corrected certificate of analysis is submitted
3.2.P.2	• Justification is required for including mannitol in formulation which is not included in reference product formulation	• The firm submitted that upon careful review, it has come to our attention that the inclusion of mannitol in the formulation in the referenced section of our submission was an oversight and purely a clerical mistake resulting from an

		internal working document prepared during the formulation development stage. Said trial batch, unfortunately, was not our finalized formulation but rather an in-house formulation working version that was not intended for further processing. • We acknowledge the importance of aligning our submission with the reference product formulation and appreciate your diligence in bringing this matter to our attention. • To address this concern, we have attached the correct and finalized formulation used for the trial batches, which accurately reflects the composition intended for the Omper Insta 40mg sachet. This formulation aligns with the reference product specifications and does not include mannitol as erroneously indicated in our earlier submission.
3.2.P.5	• Results of analytical method validation studies for sodium bicarbonate shall be submitted	• Results of analytical method validation studies for sodium bicarbonate is submitted
3.2.P.8	• The wavelength selected for analysis for omeprazole is 302nm in analytical method while submitted chromatogram shows 305nm, clarify? • Submit documents for the procurement of API (Sodium bicarbonate) with approval from DRAP (in case of import).	• The firm submitted that there was a typographical error in standard analytical procedure where wavelength is given as 302 while in chromatogram there was 305. To rectify this error, we have now corrected and revised the procedure and submitted revised procedure. • The firm informed that Sodium Bicarbonate was purchased locally from ICI Pakistan Ltd, Islamabad and submitted purchased order.

Decision: Deferred for submission of following:

- **Valid copy of cGMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin**
- **Copies of the Drug substance analytical procedures used for routine testing of the Drug substance sodium bicarbonate by Drug substance manufacturer**
- **Full fee of registration Rs. 30,000/- for typographical errors**

Case No. 02; Registration application of Human drugs with stability study data on Form 5D on export facilitation

Deputy Director PRV/EFD vide letter No.F.1-6/2019-PR-I (EFD) dated 28-02-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2021-2022** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

790.	Name and address of manufacturer / Applicant	M/s Tabros Pharma (Pvt.) Ltd., L-20/B, F.B. Industrial Area, Karachi
	Brand Name +Dosage Form + Strength	Lulucon Cream 1% w/w
	Composition	Each gram contains:

		Luliconazole…….10mg		
	Diary No. Date of R& I & fee	Dy. No. 320 dated 27/03/2014; PKR 50,000/- dated 27/03/2014 ***Duplicate Dossier (R&I verified)***		
	Pharmacological Group	Imidazole Anti-Fungal

Date of Submission		(Dy. No 24627) 31-08-2022		
DOCUMENTS / DATA PROVIDED BY THE APPLICANT				
1	Reference of previous approval of applications with stability study data of the firm	The firm has referred to previous inspection for authenticity of stability data of their product conducted by the panel on the basis of which Registration Board in 297th meeting dated 12th-15th January, 202 decided to approve registration of Baxib 2.5mg Tablets, Baxib 5mg Tablets. Inspection date: 05th January, 2021 The report shows that: • The HPLC software is 21 CFR compliant. • Audit Trail on the testing reports of Baxib tablet are available. • Adequate monitoring and control were available for stability chamber		
2	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Firm has submitted certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.		
3	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Firm has submitted method used for analysis of API from both API Manufacturer and Finished Product manufacturer		
4	Stability study data of API from API manufacturer	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C /		

		75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 75% ± 5% RH for 24 months.
5	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of cGMP certificate in the name of M/s Maithri Drugs Private Limited. Sy. No. 205, 222 to 226, IDA Bonthapally., Village, Gummadidala Mandal, Sangareddy District 502313, Telangana State India issued by Drug Control Administration Government of Telangana India valid upto 21-07-2023.
6	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice dated 11-10-2021 for import of 120g of Luliconazole in name of M/s Tabrose Pharma Pvt. Ltd attested by AD (I&E) DRAP Karachi dated 26-10-2021. Firm has also submitted copy of form 6 dated 26-10-2021 for import of 120g of Luliconazole in name of M/s Tabrose Pharma Pvt. Ltd attested by AD (I&E) DRAP Karachi dated 26-10-2021.
7	Protocols followed for conduction of stability study	Submitted
8	Method used for analysis of FPP	Submitted
9	Drug-excipients compatibility studies (where applicable)	The firm submitted that they used same excipients in their product as used by innovator product so compatibility study with excipients are not required
10	Complete batch manufacturing record of three stability batches.	The firm has submitted copy of Trial batch manufacturing record. Details are as under: Batch no. / Batch Size / Mfg. Started TR001/LUL / 200 Tubes / 01-2022 TR002/LUL / 200 Tubes / 01-2022 TR003/LUL / 200 Tubes / 01-2022
11	Record of comparative dissolution data (where applicable)	The firm submitted that it is not applicable
12	Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of 03 batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
13	Compliance Record of HPLC software 21CFR & audit trail reports on product testing.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
14	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Observations	Response
• Submit differential fee Rs. 25000/- as the applied product is a new drug molecule.	• Firm has submitted differential fee Rs. 25000/- deposit slip#0126697910 for applied product
• Valid copy of cGMP certificate / DML of Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required.	• The firm has submitted copy of cGMP certificate of M/s Maithri Drugs Private Limited. Sy. No. 205, 222 to 226, IDA Bonthapally., Bonthapally Village, Gummadidala Mandal, Sangareddy District 502313, Telangana State India issued by Drug Control Administration Government of Telangana India valid upto 19-06-2025
• Justify the batch size of trial batches against the number of units required for complete	• The firm has submitted complete breakup of samples required for complete testing of drug

testing of drug product during stability study including real time stability study till claimed shelf life	product during stability study including real time stability study till claimed shelf life. A total of 154 packs are required for complete testing of applied drug product during stability study till claimed shelf life

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Registration Board further decided that Registration letter will be issued after submission of following:**
  - **i. Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**

Case No. 03; Registration application of Human drugs on Form 5-F on export facilitation

Deputy Director PRV/EFD vide letter No.F.1-6/2019-PR-I (EFD) dated 02-06-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2021-2022** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

791.	Name, address of Applicant / Marketing Authorization Holder	M/s Atco Laboratories Limited., B-18, S.I.T.E. Karachi

	The proposed proprietary name / brand name	**Brimo-B Opthalmic Suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml Contains: Brimonidine Tartrate……..…2mg (0.2% w/v) Brinzolamide……..10mg (1% w/v)
	Pharmaceutical form of applied drug	Eye Drops

	Pharmacotherapeutic Group of (API)	Brimonidine Tartrate; alpha-adrenergic agonist Brinzolamide; Carbonic anhydrase inhibitors
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	2.5ml, 5ml, 8ml, 15ml, 20ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	SIMBRINZA (brinzolamide and brimonidine tartrate ophthalmic suspension) 1%/0.2%, for topical ophthalmic use USFDA Approved
	For generic drugs (me-too status)	Cobrinzo Eye Drops (Ophthalmic Suspension) by M/s Hudson Pharma (Reg# 110234)
	Name and address of API manufacturer.	**Brinzolamide:** M/s Henan Purui Pharmaceutical Co., Ltd., Yezhuang Bridge, Xihua County, Henan Province, China **Brimonidine Tartrate:** M/s Indoco Remedies Ltd., (KILO LAB). R-92/93, 1st floor, T.T.C., M.I.D.C Thane Belapur Road, Rabale, Navi Mumbai – 400701 Maharashtra State, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Brimonidine Tartrate:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. **Brinzolamide:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for

		36 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product SIMBRINZA Eye Drops Suspension by M/s Novartis Pharmaceuticals UK.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, linearity, range, Accuracy, Precision, robustness.

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Firm has submitted copy of Drug Manufacturing License (DML) of finished product manufacturer valid till 10th April, 2026.
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate dated 04-11-2022 based on inspection conducted on 03-11-2022.
1.6.5	Valid GMP certificate / DML of Drug Substance manufacturer for Brinzolamide and Brimonidine Tartrate issued by relevant regulatory authority of country of origin is required	**Brinzolamide:** Firm has submitted copy of DML No#20150195 of M/s Henan Purui Pharmaceutical Co., Ltd., Yezhuang Bridge, Xihua County, Henan Province, China issued by Food and Drug Administration of Henan Province China valid upto 31-12-2025. **Brimonidine Tartrate:** Firm has submitted copy of cGMP certificate of M/s Indoco Remedies Ltd., (KILO LAB). R-92/93, 1st floor, T.T.C., M.I.D.C Thane Belapur Road, Rabale, Navi Mumbai – 400701 Maharashtra State, India issued by Food and Drug Administration Maharashtra State India valid upto 18-12-2025.

3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance Brimonidine Tartrate and Brinzolamide by Drug product manufacturer is required. • Justification shall be submitted for not including the test for residue on ignition and loss on drying in drug substance specifications (Brinzolamide) by drug substance manufacturer as per USP monograph	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance Brimonidine Tartrate and Brinzolamide by Drug product manufacturer is submitted. • The test for residue on ignition and loss on drying in drug substance (DS) specifications (Brinzolamide) by drug substance manufacturer as per USP monograph in DMF relevant section has been added. The updated Drug Substance Specification is submitted.
3.2.S.5	• COA of primary / secondary reference standard for Brinzolamide including source and lot number shall be provided.	• COA of primary reference standard for Brinzolamide including source and lot number is submitted.
3.2.P.5	• Justification shall be submitted for not including the test for benzalkonium chloride identification, boric acid identification, boric acid assay, appearance of suspension, redispersibility and endotoxin content in finished product specifications as per innovator product review document • Justification is required for selecting limit of pH test in finished product specification as 6.0-7.0 instead of 6.5 as per innovator product review document	• The firm submitted that we have updated our specifications as per Innovator's report during routine Updation of specifications and included all the tests as mentioned in specifications of Innovator's review report and same have been adopted for analysis of onward stability batches. Updated specifications are submitted. • Innovator report mentions 6.5 pH as a set point and same pH is adopted during manufacturing of the product while 6.0 – 7.0 is the limit set for release and shelf-life specifications of our product on the basis of trend.
3.2.P.6	• COA of primary / secondary reference standard of Brinzolamide including source and lot number shall be provided.	• COA of secondary reference standard of Brinzolamide including source and lot number is submitted
3.2.P.8	• Justification is required for manufacturing of trial batches before the grant of additional / revised section approval letter • You have not calculated potential water loss during stability study as mentioned in ICH Q1A (R2) (2.2.7.3. for Drug products packaged in semipermeable containers). Justification is required.	• The firm submitted that we are advised for the clarification of manufacturing of batches before the grant of new additional section. This is because we already have approved manufacturing facility for ophthalmic section as per evidence of earlier GMP certificate (certificate No. 160/2020-DRAP(K) issued on 6th November, 2020, valid till 05th November 2022), indicating the satisfactory GMP status of "Eye Drops" manufacturing facility. • This can also be verified through the routine GMP inspection report dated 09/03/2021, clearly indicating the availability of adequate facility for manufacturing of "EYE DROPS" hence, it is justified that we have manufactured our batches in September, 2021 nevertheless the new additional section was approved later in July, 2022. • The firm submitted that determination of permeation coefficient for container closure system of Brimo-B Ophthalmic Suspension was performed as per ICH Q1A(R2) after successful development of formulation. Water

		loss studies protocol and report along with printed weights taken from analytical balance is being submitted.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of following:**
  - **i. Fee of Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Case No. 04; Registration application of Human drugs on Form 5-F on export facilitation

Deputy Director PR-II/EFD vide letter No.F.1-6/2019-PR-II (EFD) dated 13-09-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the *pharmaceutical* i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm have achieved the benchmark of more than **100,000 USD** during the **fiscal Year 2022-2023** and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.,

792.	Name, address of Applicant / Marketing Authorization Holder	M/s Pacific Pharmaceuticals Ltd., 30th Km Multan Road, Lahore
	Name, address of Manufacturing site.	M/s Pacific Pharmaceuticals Ltd., 30th Km Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted copy of cGMP certificate dated 01-11-2021 issued based on inspection conducted on 14-09-2021
	Evidence of approval of manufacturing facility	Not submitted
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 12723 dated 23-05-2023
	Details of fee submitted	Rs.30,000/- dated 02-05-2023 (Deposit slip#0923393542)
	The proposed proprietary name / brand name	**Sitagliptin Phosphate Monohydrate + Metformin HCl 50/500 mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Sitagliptin Phosphate Monohydrate eq. to Sitagliptin……50mg Metformin HCl…….500mg
	Pharmaceutical form of applied drug	Film Coated Tablet

	Pharmacotherapeutic Group of (API)	Combinations of oral blood glucose lowering drugs
	Reference to Finished product specifications	Inhouse specifications
	Proposed Pack size	2x7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	JANUMET (50/500mg, 50/1000mg) film-coated tablets, for oral use USFDA Approved
	For generic drugs (me-too status)	Jasitamet 50/500mg Tablet by M/s Jaskan Pharmaceuticals (Reg# 92511)
	Name and address of API manufacturer	**Sitagliptin Phosphate;** M/s Anhui Haikang Pharmaceutical Co., Ltd., No. 21 Huancheng West Road Anqing Anhui 246000 China **Metformin HCl;** M/s Auro Laboratories Ltd., K-56, MIDC Tarapur, Bioser, Dist, Thane, Maharashtra, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Sitagliptin Phosphate;** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. **Metformin HCl;** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition,

		pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Janumet 50/500mg tablets by M/s Merck Sharp & Dohme Limited UK. CDP has been performed against the same product Janumet 50/500mg tablets by M/s Merck Sharp & Dohme Limited UK in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values of f2 factor calculated in acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, linearity, range, Accuracy, Precision, LOD, LOQ, system suitability.

STABILITY STUDY DATA			
Manufacturer of API	**Sitagliptin Phosphate;** M/s Anhui Haikang Pharmaceutical Co., Ltd., No. 21 Huancheng West Road Anqing Anhui 246000 China **Metformin HCl;** M/s Auro Laboratories Ltd., K-56, MIDC Tarapur, Bioser, Dist, Thane, Maharashtra, India		
API Lot No.	**Sitagliptin Phosphate;** 22100601 **Metformin HCl;** 2018PC0633		
Description of Pack (Container closure system)	Alu-alu Blisters of 2x7's packed in a printed carton.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH

Date of Initiation	26-12-2022	26-12-2022	26-12-2022
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Sitagliptin Phosphate;** Firm has submitted copy of written confirmation for active substance exported to EU of M/s Anhui Haikang Pharmaceutical Co., Ltd., No. 21 Huancheng West Road Anqing Anhui 246000 China valid upto 25-04-2025. The certificate states that manufacturing plant complies with the requirement of Chinese Good Manufacturing Practice. **Metformin HCl:** Firm has submitted copy of cGMP certificate of M/s Auro Laboratories Ltd., K-56, MIDC Tarapur, Bioser, Dist, Thane, Maharashtra, India issued by Ministry of Health and Family Welfare India valid upto 07-07-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Sitagliptin Phosphate;** Firm has submitted copy of clearance certificate dated 14-12-2022 for import of 20kgm Sitagliptin Phosphate in name of M/s Pacific Pharmaceuticals Ltd., **Metformin HCl:** Firm has submitted copy of commercial invoice for import of 1000kg Metformin HCl in name of M/s Pacific Pharmaceuticals Ltd., attested by AD (I&E) DRAP Lahore dated 11-12-2018
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [xi]:

Section	Observations	Firm's Response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Firm has submitted copy of application submitted for renewal of DML dated 13-07-2020 (DML issue/renewal date 22-07-2015).
1.3.5	• Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority.	• Firm has submitted copy of cGMP certificate of M/s Pacific Pharnaceuticals Limited Lahore specifying Tablet general section.
1.6.5	• Valid copy of cGMP certificate / DML of Drug Substance manufacturer for Sitagliptin Phosphate and Metformin HCl issued by relevant regulatory authority of country of origin is required	**Sitagliptin Phosphate;** Firm has again submitted copy of written confirmation for active substance exported to EU of M/s Anhui Haikang Pharmaceutical Co., Ltd., No. 21 Huancheng West Road Anqing city, Anhui Province 246000 China valid upto 25-04-2025. The certificate states that manufacturing plant complies with the requirement of Chinese Good Manufacturing Practice. **Metformin HCl:**

		Firm has submitted copy of cGMP certificate of M/s Auro Laboratories Ltd., K-56, MIDC Tarapur, Thane 401506, Maharashtra state, India issued by Food and Drug Administration Maharashtra state India valid upto 26-12-2024.
3.2.S.4	• Provide COA of relevant batch of Drug Substance Metformin HCl from Drug substance manufacturer used during product development and stability studies.	• COA of relevant batch of Drug Substance Metformin HCl from Drug substance manufacturer used during product development and stability studies is submitted (Batch#2018MPC0633)
3.2.P.5	• Justification shall be submitted for selecting the value of Q NLT 70.0% in dissolution test in finished product specifications instead of NLT 75.0% (Q) as per the decision of registration Board • Justification shall be submitted for selecting limit of assay test as 90-110% instead of 95-105% as per EMA pubic assessment report	• The firm submitted that since no pharmacopeial monograph was available for applied formulation at the time of development, so we applied general limits of dissolution for immediate release oral solide dosage forms as per the provisions of British pharmacopeia. Our test results are also above 75%. We will change the specifications as per the latest monograph of British Pharmacopeia. • The firm submitted that since no pharmacopeial monograph was available for applied formulation at the time of development, so we applied general limits of assay. Our test results are also above 95%. We will change the specifications as per the latest monograph of British Pharmacopiea
3.2.P.6	• COA of primary / secondary reference standard of Metformin HCl and Sitagliptin phosphate including source and lot number shall be provided.	• COA of primary reference standard of Metformin HCl and Sitagliptin phosphate including source and lot number is submitted.
3.2.P.8	• Submit stability study data of applied product at 6th month time point • Raw data sheets at initial time point of stability testing is not submitted • Submit copy of clearance certificate or commercial invoice for Sitagliptin Phosphate attested by AD (I&E) DRAP. • The batch No# mentioned on the COA of drug substance Sitagliptin Phosphate and Metformin HCl in batch analysis is 22100601 and 2018PC0633 respectively while batch No# of drug substance Sitagliptin Phosphate and Metformin HCl mentioned in BMR is 22041301 and MEF/12051466. Clarification is required • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not submitted	• Stability study data of applied product at 6th month time point is submitted • Raw data sheets at initial time point of stability testing is submitted • Firm has submitted copy of clearance certificate dated 14-12-2022 for import of 20kgm Sitagliptin Phosphate in name of M/s Pacific Pharmaceuticals Ltd., • The firm submitted that it is human error and submitted revised pages of BMR and Drug substance COA's. • Audit trail reports on product testing is submitted

Decision: Approved with innovator's specifications

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of following:**
  - **i. Fee Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Case No. 05: Registration applications of New Section of Human drugs on Form 5-F (Local)

M/s Shaigan Pharmaceuticals (Pvt) Ltd., 14-Km Adyala Road Rawalpindi.
The Central Licensing Board in its 289th meeting held on 23rd January, 2023 has considered and approved the following revised section in name of M/s Shaigan Pharmaceuticals (Pvt) Ltd., 14-Km Adyala Road Rawalpindi.., under Drug Manufacturing License No. 000333 (Formulation) vide approval letter No. F. 1-18/92-Lic (Vol-III) dated 27th February 2023.

S No.	Section
1	Soft Gelatine Capsule (General)-New

Following applications have been submitted for registration by the firm.

793.	Name, address of Applicant / Marketing Authorization Holder	M/s Shaigan Pharmaceuticals (Pvt) Ltd., 14Km Adyala Road Post office Dahgal Rawalpindi.
	Name, address of Manufacturing site.	M/s Shaigan Pharmaceuticals (Pvt) Ltd., 14Km Adyala Road Post office Dahgal Rawalpindi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form-5F UM6-1B3-2QYX dated 23-04-2024
	Details of fee submitted	Rs.30,000/- dated 11-11-2023 (Deposit slip#74238026)
	The proposed proprietary name / brand name	Simalvia Soft Gelatin Capsule
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each capsule contains: Alverine citrate……..…..60mg Simethicone…….300mg
	Pharmacotherapeutic Group of (API)	Musculotropic Antispasmodics / Antiflatulents
	Reference to Finished product specifications	Innovator's specifications

Evaluation by PEC[XI]:

Section	Observations	Response
1.6.5	• Valid copy of cGMP certificate / DML of the Drug Substance manufacturer for both drug substances issued by relevant regulatory authority of country of origin is required	**Simethicone:** Firm has again submitted copy of cGMP certificate of different manufacturing site of API manufacturer issued by Food and Drugs Administration (Maharashtra State) India valid upto 23-11-2024. (Elkay Chemicals Pvt Ltd, Plot No. F-5, Lote MIDC Area., Lote , Tal-Khed, Ratnagiri - 415722 , Dist – Ratnagiri, District: Ratnagiri India) **Alverine citrate** • Firm has again submitted copy of cGMP certificate of API manufacturer issued by Italian Medicine Agency valid upto 2 end 2022
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability	• Submitted

	studies data is provided in Module 3 section 3.2.P.8.3>	
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance alverine citrate by Drug Product manufacturer is required. • Copies of the Drug substance specifications of the Drug substance simethicone by Drug substance manufacturer is required. • Certificate of Analysis (COA) of relevant batch of drug substance alverine citrate used in product development and stability study from drug substance manufacturer shall be submitted • Justification shall be submitted for not including the test for silicon dioxide content and defoaming activity in specification of drug substance by drug product manufacturer as per USP monograph	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance alverine citrate by Drug Product manufacturer is submitted. • Copies of the Drug substance specifications of the Drug substance simethicone by Drug substance manufacturer is submitted. • Certificate of Analysis (COA) of relevant batch of drug substance alverine citrate used in product development and stability study from drug substance manufacturer is not submitted • Firm has submitted revised batch analysis report of drug substance simethicone in which test for silicon dioxide content and defoaming activity has been performed
3.2.S.5	• COA of primary / secondary reference standard of alverine citrate including source and lot number shall be provided.	• COA of primary / secondary reference standard of alverine citrate is submitted
3.2.S.7	• Stability study data of simethicone at real time conditions till claimed shelf life shall be submitted	• Firm has submitted stability study data of 3 batches of drug substance as per zone IV-A conditions till 18 months only
3.2.P.5	• Analytical method validation study reports for simethicone in drug product shall be submitted.	• Analytical method validation study reports for simethicone in drug product is submitted.
3.2.P.6	• COA of primary / secondary reference standard of simethicone including source and lot number shall be provided	• COA of secondary reference standard of simethicone is submitted. However it mentioned on the COA that it is to be used before 12-10-2012
3.2.P.8	• Submit documents for the procurement of API Simethicone with approval from DRAP (in case of import).	• Firm has submitted copy of clearance certificate issued dated 21-07-2022 specifying 1000kg of Simethicone USP. The clearance certificate is issued by AD (I&E) DRAP.

Decision: Deferred for submission of following:

- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer for both drug substances issued by relevant regulatory authority of country of origin is required**
- **Certificate of Analysis (COA) of relevant batch of drug substance alverine citrate used in product development and stability study from drug substance manufacturer**
- **Stability study data of simethicone at real time conditions till claimed shelf life**
- **COA of primary / secondary reference standard of simethicone including source and lot number**

Case No. 06: Deferred Registration applications of Human Drugs on form 5F (New sections):

794.	Name, address of Applicant / Marketing Authorization Holder	M/s Curatech Pharma (Pvt.) Ltd., 12 Baqir Lane, Canal View Society Canal Road, Lahore
	Name, address of Manufacturing site.	M/s Curatech Pharma (Pvt.) Ltd., 35-Km, Multan Road, Lahore

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted copy of GMP certificate dated 08-04-2020 based on inspection conducted on 19-02-2020.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter of grant of additional section dated 22-12-2020 specifying dry powder for injection (Cephalosporin) New section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 12101 dated 17-05-2023
	Details of fee submitted	Rs.30,000/- dated 08-03-2023 (Deposit slip#2130984365)
	The proposed proprietary name / brand name	Bril 500mg Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Cefazolin (as Sodium)……..…...500mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Cephalosporin-Antibiotics
	Reference to Finished product specifications	USP specifications
	Proposed Pack size	1's vial of 500mg
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	SRATOP 0.5g cefazolin (as sodium) 0.5g powder for injection vial TGA Approved
	For generic drugs (me-too status)	Kefzol 500mg Inj of M/s AGP Limited (Reg# 3755)
	Name and address of API manufacturer.	M/s Shandong Lukang Pharmaceutical Co., Ltd., 88 Deyuan Road, High-Tech Zone, Jining City, Shandong Province, P.R. China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical

		procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. (Batches; 2061801001, 2061801002, 2061801003)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted pharmaceutical equivalence of their product against the product Kefzol 500mg Injection m by M/s AGP Limited by performing quality tests (Description, identification, clarity of solution, pH, B.E.T., Sterility, assay).
	Analytical method validation/verification of product	Firm has submitted method verification studies including Accuracy, precision (repeatability) and Specificity.

Remarks of Evaluator [XI]:

Section	Observations	Response
1.6.5	• Address of Drug substance manufacturer mentioned in submitted GMP certificate is different than that mentioned in form 5F section 1.6.5, clarify	•
1.3.5	• GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	•
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.	•
3.2.S.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	•
3.2.P.5	• Justification shall be submitted for not including the test for content uniformity and particulate matter in finished product specification as per USP monograph • Justification shall be submitted for not performing the test for content uniformity and particulate matter in batch analysis of finished product as per USP monograph	•
3.2.P.6	COA of primary / secondary reference standard including source and lot number used for the analysis for trial batches shall be provided.	•
3.2.P.8	Documents for procurement of API with approval from DRAP shall be submitted	•

Previous Decision (M-330-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings.

Firm's Response:

Section	Observations	Response
1.6.5	• Address of Drug substance manufacturer mentioned in submitted GMP certificate is different than that mentioned in form 5F section 1.6.5, clarify	Firm has revised details of drug substance manufacturer in form 5-F section 1.6.5 as per the submitted copy of cGMP certificate; M/s Shandong Lukang Pharmaceutical Co., Ltd., No. 88, Xinhua Road, Zoucheng Industrial Park, Zoucheng City, Shandong Province China
1.3.5	• GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• The firm has submitted the same previously submitted copy of cGMP certificate along with a copy of request letter dated 08-02-2022 made to area FID & Area Assistant Director (I&E) for renewal of cGMP and conduction of inspection.
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is submitted • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted.
3.2.S.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of primary / secondary reference standard is not submitted
3.2.P.5	• Justification shall be submitted for not including the test for content uniformity and particulate matter in finished product specification as per USP monograph • Justification shall be submitted for not performing the test for content uniformity and particulate matter in batch analysis of finished product as per USP monograph	• Firm has submitted revised finished product specifications in which test for content uniformity and particulate matter has been incorporated as per USP monograph • Firm has submitted revised COAs with inclusion of test results for content uniformity and particulate matter
3.2.P.6	COA of primary / secondary reference standard including source and lot number used for the analysis for trial batches shall be provided.	• COA of primary / secondary reference standard is not submitted
3.2.P.8	Documents for procurement of API with approval from DRAP shall be submitted	• Firm has submitted copy of invoice No. 2021G126 dated 28-06-2021 for import of 05kg of Cefazolin Sodium Sterile (Batch# 2062103004). *However, the invoice is not attested by AD (I&E) DRAP field office*

Previous Decision (M-331st): Deferred for submission of following:

- COA of primary / secondary reference standard including source and lot number used for testing of drug substance shall be provided.
- COA of primary / secondary reference standard including source and lot number used for the analysis for trial batches of drug product shall be provided.
- Documents for procurement of API with approval from DRAP shall be submitted

Firm's Response:

S No.	Deferment Reason	Firm's Response
1	• COA of primary / secondary reference standard including source and lot number used for testing of drug substance shall be provided.	• COA of primary / secondary reference standard including source and lot number is submitted
2	• COA of primary / secondary reference standard including source and lot number used for the analysis for trial batches of drug product shall be provided.	• COA of primary / secondary reference standard including source and lot number is submitted
3	• Documents for procurement of API with approval from DRAP shall be submitted	• Firm has submitted copy of invoice No. 2021G126 dated 28-06-2021 for import of 05kg of Cefazolin Sodium Sterile (Batch# 2062103004) attested by AD (I&E) DRAP Lahore.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of following:**
  - **i. Fee Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Case No. 07: Deferred Registration applications of Human Drugs on form 5F (New sections):

795.	Name, address of Applicant / Marketing Authorization Holder	M/s Shaigan Pharmaceuticals (Pvt) Ltd., 14Km Adyala Road Post office Dahgal Rawalpindi.
	Name, address of Manufacturing site.	M/s Shaigan Pharmaceuticals (Pvt) Ltd., 14Km Adyala Road Post office Dahgal Rawalpindi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted copy of cGMP certificate dated 28-12-2021 based on inspection conducted on 04-11-2021.
	Evidence of approval of manufacturing facility	**New Section** Firm has submitted copy of letter No. F. 1-18/92-Lic (Vol-III) dated 13th January 2022 specifying Oral Dry Powder Suspension (General)-New
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales

	Dy. No. and date of submission	UBX-W72-2JPB dated 08-01-2024
	Details of fee submitted	Rs.30,000/- dated 19-12-2023 (Slip# 3166615335)
	The proposed proprietary name / brand name	**Erywell 200mg/5ml Dry Suspension**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Erythromycin Ethylsuccinate equivalent to erythromycin……200mg
	Pharmaceutical form of applied drug	Oral Dry Suspension
	Pharmacotherapeutic Group of (API)	Macrolide Antibiotics
	Reference to Finished product specifications	USP specifications
	Proposed Pack size	30ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	E-MYCIN 200 erythromycin 200mg/5mL (as ethylsuccinate) powder for oral liquid bottle TGA Approved ERY-PED 200 (erythromycin ethylsuccinate) for oral suspension USFDA Approved
	For generic drugs (me-too status)	Erythrocin Granules 200mg by M/s Indus Pharma Pvt. Ltd. (Reg# 000244)
	Name and address of API manufacturer.	M/s Linaria Chemicals (Thailand) Ltd., 309, Bangpoo Industrial Estate Soi 6C, Sukhumvit Road, Moo 4, Tumbol Phraksa, Ampur Muangsamutprakan, Samutprakan, 10280, Thailand
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months.
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its

		verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted pharmaceutical equivalence of their product against the product Erythrocin 200mg/5ml dry suspension.
	Analytical method validation/verification of product	Not submitted

STABILITY STUDY DATA

Manufacturer of API	M/s Linaria Chemicals (Thailand) Ltd., 309, Bangpoo Industrial Estate Soi 6C, Sukhumvit Road, Moo 4, Tumbol Phraksa, Ampur Muangsamutprakan, Samutprakan, 10280, Thailand		
API Lot No.	EES/M-002/22		
Description of Pack (Container closure system)	White color labeled cardboard box contains labeled amber plastic bottle		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	015NS03	015NS04	015NS05
Batch Size	100 bottles	100 bottles	100 bottles
Manufacturing Date	12-2022	12-2022	12-2022
Date of Initiation			
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of cGMP certificate of M/s Linaria Chemicals (Thailand) Ltd., 309, Bangpoo Industrial Estate Soi 6C, Sukhumvit Road, Moo 4, Tumbol Phraksa, Ampur Muangsamutprakan, Samutprakan, 10280, Thailand., issued by Food & Drugs Administration, Ministry of Public Health Thailand. The certificate states that the manufacturing site should be relied upon to reflect the compliance status until 17th June 2022. The GMP certificate is further extended to 17th June 2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of clearance certificate dated 13-10-2023 for import of 10kg of Erythromycin USP in name of M/s Shaigan Pharmaceuticals. However the salt and batch No# of API is different than that given in submitted dossier (batch# EB/M-007/23).
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, summary data sheets etc.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Certificate of Compliance of HPLC software 21CFR is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [xi]:

Section	Observations	Firm's response
1.3.5	• Submit copy of cGMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of letter addressed to The Additional Director (QA&LT-I) DRAP Islamabad dated 13-10-2023 for issuance of cGMP certificate.
1.6.5	• Valid copy of cGMP certificate / DML of Drug Substance manufacturer issued by relevant regulatory authority of country of origin shall be submitted	• Firm has again submitted copy of cGMP certificate of M/s Linaria Chemicals (Thailand) Ltd., 309, Bangpoo Industrial Estate Soi 6C, Sukhumvit Road, Moo 4, Tumbol Phraksa, Ampur Muangsamutprakan, Samutprakan, 10280, Thailand., issued by Food & Drugs Administration, Ministry of Public Health Thailand. The certificate states that the manufacturing site should be relied upon to reflect the compliance status until 17th June 2022. The GMP certificate is further extended to 17th June 2023.
3.2.S	• Your applied formulation contains the salt form "Erythromycin Ethylsuccinate" while you have submitted data of "Erythromycin stearate" drug substance. Clarification is required for further processing of your application whether same salt form of drug substance was used in applied product or otherwise	• The firm submitted that by mistake wrong module was attached. Erythromycin Ethylsuccinate is used in applied formulation
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Justification shall be submitted for selecting BP specifications for drug substance by drug substance manufacturer and submitting batch analysis of drug substance as per USP specifications by both drug substance manufacturer and drug product manufacturer	• Submitted • There are no differences in the USP and BP/EP specifications of Erythromycin Ethylsuccinate for all major tests/parameters, including definition, description, solubility, assay, water content, and storage conditions. The drug substance manufacturer has conducted accelerated stability studies in accordance with BP/EP and USP 38. A copy of the studies is submitted. Additionally, the product specification for Erywell 200mg/5mL dry suspension complies with the USP.
3.2.P.2	• Compatibility studies of the Drug Substance with excipients shall be provided as the qualitative composition of the formulation is not similar to innovator / reference product. **Applied product** | **Ery-Ped 200** Erythromycin Ethyl Succinate | Erythromycin Ethyl Succinate	• The formulation of Erywell 200mg/5mL dry suspension is similar to reference formulation (Erythromycin ethyl succinate Granules for Oral Suspension by Pinewood Laboratories Limited, Ireland.) therefore compatibility studies is not required, comparison of formulations is given in Table#1 **Applied product** | **Erythromycin**

<table>
<tr><td></td><td><table><tr><td>Sodium carboxy methyl cellulose, Sodium citrate, Quinolone yellow colour, Icing sugar, Caster sugar, Sodium Saccharin</td><td>Caramel, polysorbate, sodium citrate, sucrose, xanthan gum and artificial flavors</td></tr></table></td><td><table><tr><td></td><td>ethyl succinate Granules for Oral Susp.</td></tr><tr><td>Erythromycin Ethyl Succinate</td><td>Erythromycin Ethyl Succinate</td></tr><tr><td>Sodium carboxy methyl cellulose, Sodium citrate, Quinolone yellow colour, Icing sugar, Caster sugar, Sodium Saccharin</td><td>Sodium carboxy methyl cellulose, Sodium citrate, Quinolone yellow color, Banana Flavor, Sucrose (Caster sugar), Sodium Saccharin,</td></tr></table>• However, the reference product has a different strength then the applied product. Primacine 250 mg/5 ml Granules for Oral Suspension Ireland approved</td></tr>
<tr><td>3.2.P.5</td><td>• Analytical method for assay test (microbial assay) for applied product is not submitted
• Analytical method verification report for assay test is not submitted</td><td>• Copy of Method of microbial assay for antibiotics is submitted
• Analytical method verification report of assay is submitted</td></tr>
<tr><td>3.2.P.8</td><td>• Date of initiation and implementation is mentioned as 27-12-2023 while manufacturing date of trial batches is mentioned as 12-2022 in stability summary sheets, clarify</td><td>• This is a typographical error in stability sample sheet. The date of initiation of stability was 27-12-2022 which is also mentioned on the stability summary sheets. A revised and updated copy of the stability sample sheet is submitted.</td></tr>
<tr><td></td><td>• Clarification is required since the import date of drug substance as per submitted clearance certificate (13-10-2023) is subsequent to the manufacturing date (12-2022) of trial batches (as per submitted batch analysis report, BMR and stability summary sheets)
• The batch number of API in clearance certificate is different than that given in submitted dossier, clarify</td><td>• By mistake wrong import invoice was attached that’s why there was difference in dates. New invoice is submitted.
• Firm has submitted copy of commercial invoice dated 01-09-2022 for import of 13kg of Erythromycin Ethyl succinate USP (Batch# EES/M-002/22) in name of M/s Shaigan Pharmaceuticals. However invoice is not attested by AD (I&E) DRAP.</td></tr>
<tr><td></td><td>• Raw data sheets including calculation details for assay test is not submitted</td><td>• Raw data sheets including calculation details for assay test is submitted</td></tr>
<tr><td></td><td>• Complete in-use stability study of batch No#015NS03 and 015NS04 shall be submitted</td><td>• In use stability summary sheets submitted</td></tr>
<tr><td></td><td>• Stability summary sheet of batch No#015NS05 at accelerated conditions shall be submitted</td><td>• Not submitted</td></tr>
<tr><td></td><td>• Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required</td><td>• Record of digital data logger is submitted</td></tr>
<tr><td colspan="3">Previous Decision (M-335th-DRB): Deferred for submission of following:
• Valid copy of cGMP certificate / DML of Drug Substance manufacturer issued by relevant regulatory authority of country of origin
• Compatibility studies of the Drug Substance with excipients as the qualitative composition of the formulation is not similar to innovator / reference product.</td></tr>
</table>

- Clearance certificate or commercial invoice attested by AD (I&E) DRAP
- Stability summary sheet of batch No#015NS05 at accelerated conditions

Firm's Response:

Section	Observations	Firm's response
1	• Valid copy of cGMP certificate / DML of Drug Substance manufacturer issued by relevant regulatory authority of country of origin	• Firm has submitted copy of cGMP certificate of M/s Linaria Chemicals (Thailand) Ltd., 309, Bangpoo Industrial Estate Soi 6C, Sukhumvit Road, Moo 4, Tumbol Phraksa, Ampur Muangsamutprakan, Samutprakan, 10280, Thailand., issued by Food & Drugs Administration, Ministry of Public Health Thailand. The certificate reflects the status of the manufacturing site at the time of inspection and should not be relied upon to reflect the compliance status until 23rd July 2026.
2	• Compatibility studies of the Drug Substance with excipients as the qualitative composition of the formulation is not similar to innovator / reference product.	• The firm has submitted compatibility studies of the Drug Substance with excipients
3	• Clearance certificate or commercial invoice attested by AD (I&E) DRAP	• Firm has submitted copy of form 6 issued dated 22-07-2022 specifying 13Kg Erythromycin Ethyl Succinate. The invoice is issued by AD (I&E) DRAP.
4	• Stability summary sheet of batch No#015NS05 at accelerated conditions	• Submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Remarks of Evaluator [XI]:

Section	Observations
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years
1.5.6	• You have applied for innovator's specifications while the applied product is available in USP, clarify
1.6.5	• Name and address of API manufacturer of sodium bicarbonate shall be submitted • Valid GMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin is required
3.2.S	• Submit complete drug substance part of module 3 for sodium bicarbonate used in the applied formulation
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance omeprazole by Drug substance manufacturer and drug product manufacturer is required. • Provide COA of relevant batch of Drug Substance omeprazole from Drug substance manufacturer used during product development and stability studies.
3.2.S.5	• COA of primary / secondary reference standard for omeprazole including source and lot number shall be provided.
3.2.P.1	• Justification is required as you have mentioned the use of sodium bicarbonate as inactive ingredient (buffer), while innovator product review document uses it as the active ingredient in the formulation
3.2.P.5	• Justification shall be submitted for selecting the dissolution specifications i.e. NLT Q in 30min in finished product specifications instead of NLT Q in 15min as per innovator product review document • Justification shall be submitted for selecting different limit of pH test (6.5-8.0)in finished product specifications than USP monograph (7.5-8.5) • Justification shall be submitted for using different chromatographic conditions (wavelength (280nm), flow rate (0.8ml/min), injection volume (20ul), column specifications (L7, 4.6mmx150umx5um) for assay test of omeprazole than USP monograph
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.P.8	• Detailed raw data sheet for stability testing is not submitted • UV absorbance value or spectra for dissolution testing is not submitted in stability study • Submit documents for the procurement of API with approval from DRAP (in case of import).

Previous Decision (M-335th-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Firm's Response:

Section	Observations	Firm's Response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Submitted
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate of the firm based on inspection dated 16-02-2024.
1.5.6	• You have applied for innovator's specifications while the applied product is available in USP, clarify	• We are following the innovator's specifications because the product monograph for omeprazole/sodium bicarbonate powder for oral suspension does not exist in the USP.
1.6.5	• Name and address of API manufacturer of sodium bicarbonate shall be submitted • Valid GMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin is required	**Sodium Bicarbonate:** TaTa Chemicals Europe Private Limited., Natrium House Winnington Lane, Northwich, Cheshire CW8 4GW Copy of GMP certificate / DML of Drug Substance manufacturer for sodium bicarbonate is not submitted **Omeprazole:** Firm has submitted copy of cGMP certificate of of API manufacturer issued by Drug Control Administration Government of Telangana India valid upto 12-07-2026
3.2.S	• Submit complete drug substance part of module 3 for sodium bicarbonate used in the applied formulation	• Sodium bicarbonate is used as buffer in applied formulation so drug substance part is N/A for this.
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance omeprazole by Drug substance manufacturer and drug product manufacturer is required. • Provide COA of relevant batch of Drug Substance omeprazole from Drug substance manufacturer used during product development and stability studies.	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance omeprazole by Drug substance manufacturer and drug product manufacturer is submitted. • Copy of Certificate of analysis for Omeprazole B# OME-P/22006 Metrochem API (Pvt) Ltd. is submitted.
3.2.S.5	• COA of primary / secondary reference standard for omeprazole including source and lot number shall be provided.	• Copy of Certificate of analysis for Omeprazole working standard submitted.

3.2.P.1	• Justification is required as you have mentioned the use of sodium bicarbonate as inactive ingredient (buffer), while innovator product review document uses it as the active ingredient in the formulation	• We have added sodium bicarbonate as a buffer because the stability of omeprazole is pH-dependent. It is rapidly degraded in acidic media but has acceptable stability under alkaline conditions. According to the FDA label of ZEGERID Powder for Oral Suspension (innovator) by Santarus, Inc., a wholly owned subsidiary of Salix Pharmaceuticals, sodium bicarbonate is described under buffer content in subsection 5.5* of the FDA label for ZEGERID Powder for Oral Suspension. https://www.accessdata.fda.gov/drugsatfda_docs/label/2014/021849s010021636s0161bl.pdf. Additionally, Risek Insta, a competitor product in Pakistan, has also mentioned sodium bicarbonate as a buffer. • However innovator's product uses it as active ingredient
3.2.P.5	• Justification shall be submitted for selecting the dissolution specifications i.e. NLT Q in 30min in finished product specifications instead of NLT Q in 15min as per innovator product review document • Justification shall be submitted for selecting different limit of pH test (6.5-8.0)in finished product specifications than USP monograph (7.5-8.5) • Justification shall be submitted for using different chromatographic conditions (wavelength (280nm), flow rate (0.8ml/min), injection volume (20ul), column specifications (L7, 4.6mmx150umx5um) for assay test of omeprazole than USP monograph	• According to guidelines provided by the Drug Registration Board in its 293rd meeting, the dissolution parameters (i.e., dissolution medium, volume of dissolution medium, dissolution apparatus, RPMs, and sampling time) are taken from the FDA dissolution method database. The FDA dissolution database specifies a 30-minute sampling time. However, during pharmaceutical equivalence studies, it has been observed that more than 90% dissolution is achieved in 15 minutes. We adopted the 30-minute sampling time from the FDA dissolution database for omeprazole/sodium bicarbonate powder for oral suspension. • We are following the innovator's specifications because the product monograph for omeprazole/sodium bicarbonate powder for oral suspension does not exist in the USP. pH limits are selected based on experimental data. Additionally, the product also shows maximum dissolution at pH 7.4, which is the recommended pH for the dissolution test in the FDA dissolution method database. All the results of trial batches lie near pH 7.4. • The product monograph for omeprazole/sodium bicarbonate powder for oral suspension is not included in the USP. A validated testing method (MVL-387 & MVL-387 A) is used for testing omeprazole in the omeprazole/sodium bicarbonate sachet. This method is available in the USP for testing omeprazole. A copy of the USP monograph for omeprazole is submitted for reference.

3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	• Submitted
3.2.P.8	• Detailed raw data sheet for stability testing is not submitted • UV absorbance value or spectra for dissolution testing is not submitted in stability study • Submit documents for the procurement of API with approval from DRAP (in case of import).	• Detailed raw data sheet for stability testing is submitted • UV absorbance value and spectra for dissolution testing is submitted • Firm has submitted copy of form 6 issued dated 19-04-2022 specifying Sodium Bicarbonate. The invoice is issued by AD (I&E) DRAP. • Documents for procurement of Omeprazole is not submitted

Decision: Deferred for submission of following:

- **Valid copy of cGMP certificate / DML of Drug Substance manufacturer for sodium bicarbonate issued by relevant regulatory authority of country of origin**
- **Complete drug substance part of module 3 for sodium bicarbonate used in the applied formulation**
- **Justification as you have mentioned the use of sodium bicarbonate as inactive ingredient (buffer), while innovator product review document uses it as the active ingredient in the formulation**
- **Justification for selecting the dissolution specifications i.e. NLT Q in 30min in finished product specifications instead of NLT Q in 15min as per innovator product review document**
- **Justification for selecting different limit of pH test (6.5-8.0) in finished product specifications than USP monograph (7.5-8.5)**
- **Documents for the procurement of API with approval from DRAP (in case of import).**

	The proposed proprietary name / brand name	**Vyber 40mg Sachet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Sachet Contains: Omeprazole……40mg Sodium Bicarbonate……..1680mg (as buffer)
	Pharmaceutical form of applied drug	Powder for oral suspension

	Pharmacotherapeutic Group of (API)	Proton Pump Inhibitor
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	1x10 sachet
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	ZEGERID OTC (20mg/packet ; 1.68gm/packet, 40mg/packet ; 1.68gm/packet) for Oral Suspension USFDA Approved
	For generic drugs (me-too status)	Risek Insta Sachet 40mg + 1680mg by M/s Getz Pharma (Reg# 58548)
	Name and address of API manufacturer.	**Omeprazole:** M/s Everest Organics limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist.-502291 Telangana India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	**Omeprazole:** Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 25°C ± 2°C / 60% ± 5% RH for 6 months. The real time stability data is conducted at 05 ± 3°C for 36 months.
	Module-III (Drug Product):	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Risek Insta 40mg sachet by M/s Getz Pharmaceuticals. CDP has been performed against the same product

		Risek Insta 40mg sachet by M/s Getz Pharmaceuticals in Acid media (0.1N HCl), acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values of f2 factor calculated in acceptable range.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, linearity, range, Accuracy, Precision, LOD, LOQ, robustness (Omeprazole).

STABILITY STUDY DATA			
Manufacturer of API	**Omeprazole:** M/s Everest Organics limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist.-502291 Telangana India		
API Lot No.	Omeprazole Powder: OME/E-347/18 (drug substance manufacturer, mfg date07-2018, exp date; 06-21) … OME-P/22006 (drug product manufacturer, mfg date01-2022, exp date; 12-26)		
Description of Pack (Container closure system)	White color labeled cardboard box contain 1x10 labeled aluminum sachet, filled with shite, mint flavored powder for oral suspension.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-00.3
Batch Size	500 sachet	500 sachet	500 sachet
Manufacturing Date	07-2022	07-2022	07-2022
Date of Initiation	26-07-2022	26-07-2022	26-07-2022
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Omeprazole:** Firm has submitted copy of cGMP certificate of M/s Everest Organics Limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist., 502291 Telangana India valid upto 01/08/2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective document like chromatograms, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

	stability chambers (real time and accelerated)	

Remarks of Evaluator [XI]:

Section	Observations
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years
1.6.5	• Name and address of API manufacturer of sodium bicarbonate shall be submitted • Valid GMP certificate / DML of Drug Substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin is required
1.5.6	• You have applied for innovator's specifications while the applied product is available in USP, clarify
3.2.S	• Submit complete drug substance part of module 3 for sodium bicarbonate used in the applied formulation
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance omeprazole by Drug substance manufacturer and drug product manufacturer is required. • Provide COA of relevant batch of Drug Substance omeprazole from Drug substance manufacturer used during product development and stability studies.
3.2.S.5	• COA of primary / secondary reference standard for omeprazole including source and lot number shall be provided.
3.2.P.1	• Justification is required as you have mentioned the use of sodium bicarbonate as inactive ingredient (buffer), while innovator product review document uses it as the active ingredient in the formulation
3.2.P.5	• Justification shall be submitted for selecting the dissolution specifications i.e. NLT Q in 30min in finished product specifications instead of NLT Q in 15min as per innovator product review document • Justification shall be submitted for selecting different limit of pH test (6.5-8.0)in finished product specifications than USP monograph (7.5-8.5) • Justification shall be submitted for using different chromatographic conditions (wavelength (280nm), flow rate (0.8ml/min), injection volume (20ul), column specifications (L7, 4.6mmx150umx5um) for assay test of omeprazole than USP monograph
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.P.8	• Detailed raw data sheet for stability testing is not submitted • Chromatograms for stability testing at 6th month time point is not submitted • UV absorbance value or spectra for dissolution testing is not submitted in stability study • Submit documents for the procurement of API with approval from DRAP (in case of import).

Previous Decision (M-335th-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Firm's Response:

Section	Observations	Firm's Response
1.3.4	• Submit copy of valid Drug Manufacturing License (DML)	• Submitted
1.3.5	• Submit GMP certificate / GMP inspection report of manufacturing unit conducted with in last three years	• Firm has submitted copy of cGMP certificate of the firm based on inspection dated 16-02-2024.
1.6.5	• Name and address of API manufacturer of sodium bicarbonate shall be submitted • Valid GMP certificate / DML of Drug Substance manufacturer for omeprazole	**Sodium Bicarbonate:** TaTa Chemicals Europe Private Limited., Natrium House Winnington Lane, Northwich, Cheshire CW8 4GW

	and sodium bicarbonate issued by relevant regulatory authority of country of origin is required	Copy of GMP certificate / DML of Drug Substance manufacturer for sodium bicarbonate is not submitted **Omeprazole:** Firm has submitted copy of cGMP certificate of of API manufacturer issued by Drug Control Administration Government of Telangana India valid upto 12-07-2026
1.5.6	• You have applied for innovator's specifications while the applied product is available in USP, clarify	We are following the innovator's specifications because the product monograph for omeprazole/sodium bicarbonate powder for oral suspension does not exist in the USP.
3.2.S	• Submit complete drug substance part of module 3 for sodium bicarbonate used in the applied formulation	• Sodium bicarbonate is used as buffer in applied formulation so drug substance part is N/A for this.
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance omeprazole by Drug substance manufacturer and drug product manufacturer is required. • Provide COA of relevant batch of Drug Substance omeprazole from Drug substance manufacturer used during product development and stability studies.	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance omeprazole by Drug substance manufacturer and drug product manufacturer is submitted. • Copy of Certificate of analysis for Omeprazole B# OME-P/22006 Metrochem API (Pvt) Ltd. is submitted.
3.2.S.5	• COA of primary / secondary reference standard for omeprazole including source and lot number shall be provided.	• Copy of Certificate of analysis for Omeprazole working standard submitted.
3.2.P.1	• Justification is required as you have mentioned the use of sodium bicarbonate as inactive ingredient (buffer), while innovator product review document uses it as the active ingredient in the formulation	• We have added sodium bicarbonate as a buffer because the stability of omeprazole is pH-dependent. It is rapidly degraded in acidic media but has acceptable stability under alkaline conditions. According to the FDA label of ZEGERID Powder for Oral Suspension (innovator) by Santarus, Inc., a wholly owned subsidiary of Salix Pharmaceuticals, sodium bicarbonate is described under buffer content in subsection 5.5* of the FDA label for ZEGERID Powder for Oral Suspension. https://www.accessdata.fda.gov/drugsatfda_docs/label/2014/021849s010021636s0161bl.pdf. Additionally, Risek Insta, a competitor product in Pakistan, has also mentioned sodium bicarbonate as a buffer. • However innovator's product uses it as active ingredient
3.2.P.5	• Justification shall be submitted for selecting the dissolution specifications i.e. NLT Q in 30min in finished product specifications instead of NLT Q in 15min as per innovator product review document • Justification shall be submitted for selecting different limit of pH test (6.5-	• According to guidelines provided by the Drug Registration Board in its 293rd meeting, the dissolution parameters (i.e., dissolution medium, volume of dissolution medium, dissolution apparatus, RPMs, and sampling time) are taken from the FDA dissolution method database. The FDA dissolution database specifies a 30-minute

	8.0)in finished product specifications than USP monograph (7.5-8.5) • Justification shall be submitted for using different chromatographic conditions (wavelength (280nm), flow rate (0.8ml/min), injection volume (20ul), column specifications (L7, 4.6mmx150umx5um) for assay test of omeprazole than USP monograph	sampling time. However, during pharmaceutical equivalence studies, it has been observed that more than 90% dissolution is achieved in 15 minutes. We adopted the 30-minute sampling time from the FDA dissolution database for omeprazole/sodium bicarbonate powder for oral suspension. • We are following the innovator's specifications because the product monograph for omeprazole/sodium bicarbonate powder for oral suspension does not exist in the USP. pH limits are selected based on experimental data. Additionally, the product also shows maximum dissolution at pH 7.4, which is the recommended pH for the dissolution test in the FDA dissolution method database. All the results of trial batches lie near pH 7.4. • The product monograph for omeprazole/sodium bicarbonate powder for oral suspension is not included in the USP. A validated testing method (MVL-387 & MVL-387 A) is used for testing omeprazole in the omeprazole/sodium bicarbonate sachet. This method is available in the USP for testing omeprazole. A copy of the USP monograph for omeprazole is submitted for reference.
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	• Submitted
3.2.P.8	• Detailed raw data sheet for stability testing is not submitted • Chromatograms for stability testing at 6th month time point is not submitted • UV absorbance value or spectra for dissolution testing is not submitted in stability study • Submit documents for the procurement of API with approval from DRAP (in case of import).	• Detailed raw data sheet for stability testing is submitted • Chromatograms for stability testing at 6th month time point is submitted • UV absorbance value and spectra for dissolution testing is submitted • Firm has submitted copy of form 6 issued dated 19-04-2022 specifying Sodium Bicarbonate. The invoice is issued by AD (I&E) DRAP. • Documents for procurement of Omeprazole is not submitted

Decision: Deferred for submission of following:

- **Valid copy of cGMP certificate / DML of Drug Substance manufacturer for sodium bicarbonate issued by relevant regulatory authority of country of origin**
- **Complete drug substance part of module 3 for sodium bicarbonate used in the applied formulation**
- **Justification as you have mentioned the use of sodium bicarbonate as inactive ingredient (buffer), while innovator product review document uses it as the active ingredient in the formulation**
- **Justification for selecting the dissolution specifications i.e. NLT Q in 30min in finished product specifications instead of NLT Q in 15min as per innovator product review document**
- **Justification for selecting different limit of pH test (6.5-8.0)in finished product specifications than USP monograph (7.5-8.5)**

• **Documents for the procurement of API with approval from DRAP (in case of import).**

Case No. 08: Deferred Registration applications of Human drugs on Form 5-F (New Section)

798.	Name, address of Applicant / Marketing Authorization Holder	M/s Siam Pharmaceutical., Plot # 217, Industrial Triangle, Kahuta Road, Islamabad
	Name, address of Manufacturing site.	M/s Siam Pharmaceutical., Plot # 217, Industrial Triangle, Kahuta Road, Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's response
1.6.5	• Valid copy of cGMP certificate / DML of Drug Substance manufacturer issued by relevant regulatory authority of country of origin shall be submitted	• The firm has submitted copy of DML#Zhe 20050431 of M/s Zhejiang Tianyu Pharmaceutical Co., Ltd., No.15, Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw Materials Base Linhai Zone, Taizhou City, Zhejiang Province, China valid till 16-06-2025
3.2.S.4	• Clarification is required as drug product manufacturer has submitted specification of Vortioxetine HBr instead of Montelukast Sodium • The time point and ratio of mobile phase selected for gradient program in assay test of drug substance is different than USP monograph, clarify • Results of specificity test in analytical method verification studies is not submitted. • Submit Certificate of Analysis of the same batch of drug substance used during product development and stability studies from Drug Substance manufacturer.	• Firm has submitted specification of Montelukast Sodium • Firm has submitted revised analytical method for assay test as per USP monograph • Firm has submitted results of specificity test in analytical method verification studies • COA of relevant batch of drug substance from drug substance manufacturer is submitted
3.2.P.2	• Pharmaceutical equivalence studies against the innovator/reference product shall be submitted • Details of innovator/comparator product including batch number, manufacturing date, expiry date against which CDP studies is performed shall be submitted	• Firm has submitted pharmaceutical equivalence of their product against the product Myteka 4mg sachet by M/s Hilton Pharma. • Details of comparator product is submitted Btach#144293, Mfg date; 06-2022, Exp date; 06-2024

3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units in finished product specifications as per USP monograph	• Firm has submitted the results of uniformity of dosage units test
3.2.P.6	• Clarification is required since the submitted COA of reference / working standard states that it follows in house specifications while the product monograph is available in USP • You have submitted COA of Montelukast sodium working reference standard while USP monograph recommends the use of Montelukast Dicyclohexylamine as reference standard in analytical method, clarify	• Firm has submitted another COA of working reference standard and it follows USP specifications • The firm submitted that as per claimed composition we can use montelukast sodium as working reference standard because we are concerned about montelukast not sodium and dicyclohexylamine
3.2.P.8	• Stability study data at 6th month time point is not submitted • The batch number of API mentioned in stability summary sheets (11002-220305) is different than that submitted in batch analysis of drug substance (11031-220404) clarify • Documents for the procurement of API with approval from DRAP (in case of import).	• Stability study data at 6th month time point is submitted • Firm has submitted batch analysis of API batch# 11002-220305 • Firm has submitted copy of clearance certificate for import of 10kg Montelukast Sodium USP (Batch#11031-220404) in name of M/s Siam Pharmaceuticals., attested by AD (I&E) DRAP Islamabad dated 23-08-2022. Clearance certificate of different batch No. of API is submitted

Previous Decision (M-335th-DRB): Deferred for submission of following:

- Clarification for using Montelukast sodium working reference standard in analytical method instead of Montelukast Dicyclohexylamine as reference standard as recommended by USP monograph.
- Clearance certificate or commercial invoice attested by AD (I&E) DRAP of relevant batch of API

Firm's Response:

S No	Observations	Firm's response
1	• Clarification for using Montelukast sodium working reference standard in analytical method instead of Montelukast Dicyclohexylamine as reference standard as recommended by USP monograph.	• The firm submitted that we mistakenly attached the COA of Montelukast Sodium as reference standard due to availability of both reference standards COA's, now here is attached the correct COA of Montelukast Dicyclohexylamine as per USP monograph
2	• Clearance certificate or commercial invoice attested by AD (I&E) DRAP of relevant batch of API	• Firm has submitted copy of clearance certificate for import of 10kg Montelukast Sodium USP (Batch#11031-220404) attested by AD (I&E) DRAP Islamabad dated 23-08-2022. Firm has also submitted COA of the relevant batch of API. The firm has submitted revised stability summary sheets in which batch number of relevant batch of API is mentioned

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of following:**

i.	**Fee Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Case No. 09: Deferred Registration applications of Human drugs on Form 5-F (New Section)

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator [XI]:

Section	Observations
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Complete Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.S.7	• Submit stability study data of drug substance at real time conditions as per zone IV-A conditions till claimed shelf life
3.2.P.2	• Details of reference product including, manufacturing date and expiry date shall be provided
3.2.P.5	• The analytical method for sterility test is not submitted for the applied product • Numerical value of results shall be reported in the test for standard volume instead of writing complies in batch analysis

3.2.P.8	• Justify the quantity of API required for manufacturing of three batches of 1000 ampoules • Stability study data at 6th month time point for applied product is not submitted • Chromatograms of batch# D-T2 at 3rd month time point of stability testing (both accelerated and real time conditions) is not submitted

Previous Decision (M-335th-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Firm's Response:

Section	Observations	Firm's Response
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required. • Complete Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is submitted • Complete Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted.
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of working reference standard is submitted
3.2.S.7	• Submit stability study data of drug substance at real time conditions as per zone IV-A conditions till claimed shelf life	• Stability study data of drug substance at real time conditions as per zone IV-A conditions till claimed shelf life is not submitted
3.2.P.2	• Details of reference product including, manufacturing date and expiry date shall be provided	• Details of reference product including, manufacturing date and expiry date is submitted Product: Indrop-D Mfg date: 09/22 Exp date: 09/26
3.2.P.5	• The analytical method for sterility test is not submitted for the applied product • Numerical value of results shall be reported in the test for standard volume instead of writing complies in batch analysis	• The analytical method for sterility test is submitted • Numerical value of results is reported in the test for standard volume and submitted revised COA
3.2.P.8	• Justify the quantity of API required for manufacturing of three batches of 1000 ampoules • Stability study data at 6th month time point for applied product is not submitted • Chromatograms of batch# D-T2 at 3rd month time point of stability testing (both accelerated and real time conditions) is not submitted	• The firm submitted that we borrowed Cholecalciferol, totaling 24gm, from the bio lab on two separate occasions. While the first acquisition was documented in the CTD dossier, regrettably, the second one was omitted. We have now included both correspondences for your reference. Loan letter for borrowing of additional raw material (12gm) is submitted • Stability study data at 6th month is submitted. • Chromatograms of Batch# D-T2 at 3rd month time point of stability testing is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of following:**
  - **i. Stability study data of drug substance at real time conditions as per zone IV-A conditions till claimed shelf life**

Case No. 10: Deferred Registration applications of Human Drugs on form 5F (New DML):

800.	Name, address of Applicant / Marketing Authorization Holder	M/s Biogen Life Sciences, 8-km Chakbeli Road Rawat Rawalpindi
	Name, address of Manufacturing site.	M/s Biogen Life Sciences, 8-km Chakbeli Road Rawat Rawalpindi
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy.No 28775 dated 11-10-2022
	Details of fee submitted	Rs.30,000/- dated 14-07-2022 (Deposit Slip#01492435)
	The proposed proprietary name / brand name	OmeGen 20mg/1680mg Sachet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Sachet contains: Omeprazole……...20mg Sodium bicarbonate……1680mg
	Pharmaceutical form of applied drug	Immediate Release Powder for oral suspension
	Pharmacotherapeutic Group of (API)	Proton Pump Inhibitor
	Reference to Finished product specifications	Innovator Specefications
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	ZEGERID (20mg/packet ; 1.68gm/packet, 40mg/packet ; 1.68gm/packet) for Oral Suspension USFDA Approved
	For generic drugs (me-too status)	Risek Insta Sachet 20mg + 1680mg by M/s Getz Pharma (Reg# 58547)
	GMP status of the Finished product manufacturer	New license granted on 13/02/2020
	Name and address of API manufacturer.	**Omeprazole:** M/s Everest Organics limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist. Telangana India **Sodium Bicarbonate:**

		M/s United Chem., 18-Warlley Moor Lane Leeds West Workshire LS 12 4HX United Kingdom
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, tests for impurity D, G & related substances (impurity A & unspecified), specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability studies	**Omeprazole:** Firm has submitted stability study data of omeprazole. Stability study is conducted at accelerated conditions; ***25°C ± 2°C / 60% ± 5%RH for 06 months*** and at Real time conditions; ***2-8°C*** ± for 36 months Batches: OM/004/10, OM/005/10, OM/006/10)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedure (including dissolution testing at acidic and buffer medium) and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the product that is Zegerid 20mg IR Powder for oral suspension by M/s Santarus Inc. by performing quality tests (Identification, Assay, Dissolution, content uniformity). CDP has been performed against the same brand that is Zegerid 20mg IR Powder for oral suspension by M/s Santarus Inc. in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	In method Validation studies only results for accuracy, precision is submitted.
STABILITY STUDY DATA		
Manufacturer of API	**Omeprazole:** M/s Everest Organics limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist. Telangana India **Sodium Bicarbonate:** M/s United Chem., 18-Warlley Moor Lane Leeds West Workshire LS 12

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm has not submitted any document.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Omeprazole:** Firm has submitted GMP certificate No# L.Dis.No:64180/TS/2021 dated 09/08/2021 in name of M/s Everest Organics Limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist. Telangana India valid upto 08/08/2022. **Sodium Bicarbonate:** M/s United Chem., 18-Warlley Moor Lane Leeds West Workshire LS 12 4HX United Kingdom
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not Submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.2	• The name of applicant as per form 5F is Biogen Life sciences while name mentioned on DML is Biogen Pharmaceuticals. Clarification is required	
1.5.6	• You have applied for innovator specifications while the monograph for the applied product is available in USP. Revise your specification as per USP monograph along with submission of applicable fee	
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin is required	

2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient sodium bicarbonate by Drug substance manufacturer is required. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient sodium bicarbonate by Drug product manufacturer is required. • Results of specificity test for dug substance omeprazole is not submitted • Provide evidence of Atomic Absorption Spectroscopy used for analysis of calcium, mg, copper in sodium bicarbonate as per results given in batch analysis • The limits of assay test for sodium bicarbonate in USP is 99-100.5 while drug substance manufacturer and drug product manufacture have followed 99-101 in batch analysis	
3.2.S.7	• Submit stability study data of drug substance omeprazole and sodium bicarbonate as per zone IV-A conditions	
3.2.P.5	• Test for pH is not included in specification although recommended by USP monograph • Justification is required since limits of dissolution specification of applied drug product (Q 75 in 30 min) is different than that recommended by innovator product review document (Q 75 in 15min). • Justification is required for not included the limits of sodium bicarbonate in dissolution test in submitted specifications • Submit complete analytical procedure for applied product • Submit method verification studies for applied product	
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP. • Submit Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	

Previous Decision (M-332nd-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.

Firm's Response:

Section	Observations	Response
1.3.2	• The name of applicant as per form 5F is Biogen Life sciences while name mentioned on DML is Biogen Pharmaceuticals. Clarification is required	• The firm submitted that the name of applicant is Biogen Pharmaceuticals, while mentioning Biogen Lifesciences in section 1.3.1 & 1.3.2 is a drafting error
1.5.6	• You have applied for innovator specifications while the monograph for the applied product is available in USP. Revise your specification as per USP monograph along with submission of applicable fee	• The firm submitted that latest edition of USP does not include the monograph
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer for omeprazole and sodium bicarbonate issued by relevant regulatory authority of country of origin is required	• Firm has GMP certificate of drug substance manufacturer for omeprazole • **Omeprazole:** M/s Everest Organics limited., Aroor Village, Sadasivapet Mandal, Sangareddy Dist. Telangana State India Valid upto 14-08-2023 • Copy of cGMP certificate / DML for Sodium Bicarbonate is not submitted

2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches is submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient sodium bicarbonate by Drug substance manufacturer is required. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient sodium bicarbonate by Drug product manufacturer is required. • Results of specificity test for dug substance omeprazole is not submitted • Provide evidence of Atomic Absorption Spectroscopy used for analysis of calcium, mg, copper in sodium bicarbonate as per results given in batch analysis • The limits of assay test for sodium bicarbonate in USP is 99-100.5 while drug substance manufacturer and drug product manufacture have followed 99-101 in batch analysis	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance sodium bicarbonate by Drug substance manufacturer is submitted. • Copies of the Drug substance analytical procedures used for routine testing of the Drug substance sodium bicarbonate by Drug product manufacturer is submitted. • Results of specificity test for dug substance omeprazole is submitted • The firm submitted that the values for elemental metals were taken from manufacturer's COA. • The firm submitted that it was through your good office that we were able to know that there was a variation in acceptable limit of sodium bicarbonate i.e., 99 to 101, definitely there was a drafting error from supplier and eventually from Finished Product manufacturer. However it can be assured from 3.2.S.4.1 & 3.2.S.4.2 & 3.2.S.4.7 Sections that acceptance criteria was 99 to 100.5 as defined by USP.
3.2.S.7	• Submit stability study data of drug substance omeprazole and sodium bicarbonate as per zone IV-A conditions	• Firm has submitted stability study data of 3 batches of drug substance as per zone IV-A conditions.
3.2.P.5	• Test for pH is not included in specification although recommended by USP monograph • Justification is required since limits of dissolution specification of applied drug product (Q 75 in 30 min) is different than that recommended by innovator product review document (Q 75 in 15min). • Justification is required for not included the limits of sodium bicarbonate in dissolution test in submitted specifications • Submit complete analytical procedure for applied product • Submit method verification studies for applied product	• The firm submitted that latest edition of USP does not include the monograph • The firm submitted that as identified by your office, clinical Pharmacology & Biopharmaceutics review states dissolution time limit of 15 minutes, we hereby update our SAP with stated dissolution time & CDP studies makes it evident that our product release is 88% in 15 minutes. • No reply submitted • Complete analytical procedure for applied product is submitted • Method verification studies for applied product is submitted
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP. • Submit Record of Digital data logger for temperature and humidity	• Firm has submitted copy of commercial invoice specifying 250gm omeprazole powder. However, invoice is not cleared by AD (I&E) DRAP. Firm has submitted copy

	monitoring of stability chambers (real time and accelerated)	of goods declaration and courier documents for import of omeprazole • Firm has submitted copy of commercial invoice specifying 10Kg Sodium Bicarbonate. However, invoice is not cleared by AD (I&E) DRAP. Firm has submitted copy of goods declaration and courier documents for import of sodium bicarbonate • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Approved with innovator's specifications.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that Registration letter will be issued after submission of following:**
  - **i. Valid copy of cGMP certificate / Drug Manufacturing License of the Drug Substance manufacturer for sodium bicarbonate issued by relevant regulatory authority of country of origin**
  - **ii. Fee Rs. 30,000/- for correction/pre-approval change/ in name of applicant, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Case No. 11; Deferred Registration application of Human drugs on Form 5-F on export facilitation

801.	Name, address of Applicant / Marketing Authorization Holder	M/s Macter International Ltd., F-216, SITE, Karachi-Pakistan.
	Name, address of Manufacturing site.	M/s Macter International Ltd., F-216, SITE, Karachi-Pakistan.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Firm has submitted copy of GMP certificate dated 05-08-2022 based on inspection conducted on 04-08-2021
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-13/95-Lic (Vol-III) dated 10-12-2019 which specifies injectable section (ceph)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 843 dated 10-01-2023
	Details of fee submitted	Rs.30,000/- dated 10-10-2022 (Deposit slip#387617737581)
	The proposed proprietary name / brand name	Avicef 2.5gm Powder for Injection

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Ceftazidime as Ceftazidime pentahydrate……..…2g Avibactam as avibactam sodium ……0.5g
	Pharmaceutical form of applied drug	Sterile powder for injection
	Pharmacotherapeutic Group of (API)	Ceftazidime belongs to the group of antibiotics called "cephalosporin" Avibactam is "beta-lactamase inhibitor"
	Reference to Finished product specifications	Not submitted
	Proposed Pack size	1's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Zavicefta 2 g/0.5 g powder for concentrate for solution for infusion MHRA Approved Zavicefta 2 g/0.5 g powder for concentrate for solution for infusion TGA Approved AVYCAZ (ceftazidime/avibactam) 2g/0.5g for injection USFDA Approved
	For generic drugs (me-too status)	Zavicefta Injection 2g/0.5g Powder for Concentrate for Solution for Infusion by M/s Pfizer Pakistan Ltd (Reg#106848)
	Name and address of API manufacturer.	M/s Chifeng Addisun Pharmaceutical Co., Ltd., No. 3 Minsheng street, Economic development zone of Hongshan District , Chifeng, Inner Mongolia, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5%RH for 24 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (180601, 180602, 180603)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been established against the brand that is Avycaz 2.5g Powder for injection by M/s GSK Italy., by performing quality tests (Appearance, identification, average weight, pH, Assay

		and related substances).		
	Analytical method validation/verification of product	Firm has submitted method validation studies including linearity, accuracy, precision, specificity and robustness.

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate in the name of M/s Chifeng Addisun Pharmaceutical Co., Ltd., 3 Minsheng street, Economic development zone of Hongshan District , Chifeng, China issued by China Food and Drug Administration valid upto 21-02-2022.		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice dated 01-04-2020 for import of 1kg of Avibactam and Ceftazidime sterile (Working standard & Impurities) in name of M/s Macter International Limited. ***However, the invoice is not attested by AD (I&E) DRAP field office.***		
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.		
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted		
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted		
Remarks of Evaluator [XI]:				
Sectio	**Observations**	**Response**		

n		
1.5.6	• Mention the reference specifications of the finished product	• The firm has mentioned Innovator's specifications for applied product
1.6.5	• Valid GMP certificate of drug substance manufacturer issued by relevant regulatory authority of country of origin is required	Firm has submitted copy of DML (License#Nei20160028) in the name of M/s Chifeng Addisun Pharmaceutical Co., Ltd., 3 Minsheng street, Economic development zone of Hongshan District, Chifeng, China issued by Drug Administration of Nei Monggol China valid upto 27-12-2025.
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Justification is required for not performing the test for content uniformity and pyridine content in batch analysis of drug substance by drug product manufacturer as recommended by drug substance manufacturer	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug product manufacturer is submitted. • Firm has submitted analytical method validation studies including linearity, accuracy, precision, specificity and robustness performed by the Drug Product manufacturer for drug substance. • Test for content uniformity has been performed by drug product manufacturer and revised reports submitted. *However, test for pyridine content is not submitted.*
3.2.P.1	• Provide information including type of diluent, its composition, quantity or volume, specifications and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug.	• The firm submitted that sterile water for injection will be provided with applied drug product that is already registered with M/s Macter International
3.2.P.2	• Justification is required since pharmaceutical equivalence study does not include complete testing of the drug product and the innovator product including the tests recommended by innovator product review document (description on reconstitution, reconstitution time, pyridine content, uniformity of dosage unit, particulate matter, water content, bacterial endotoxins and sterility)	• Firm has submitted the justification on Pharmaceutical Equivalence included complete testing (Appearance, Identification, Avg. weight, pH, Assay, Related Substance, Any unspecified impurity, Total Impurity) of the drug product Avicef 2.5 g powder for injection and the innovator product recommended by the following guidelines, "Pharmaceutical equivalence – Drug products are considered pharmaceutical equivalents if they have the same active ingredients, the same dosage form and are identical in strength, quality, purity, and identity as the brand-name product [1, 2]".Report of pharmaceutical equivalence is submitted. • Also the equivalence relationships between brand name and generic drugs are the following parameters; (API, Dosage form, Dose, Route of Administration, Labeling. • The test parameters stated in query already performed in our in-house testing

		for finished product.
3.2.P.3	• Justify the batch size of trial batches against the number of units required for complete testing of drug product during stability study including real time stability study till claimed shelf life • Justification shall be submitted for the dispensed quantity of drug substance against the label claim with reference to the potency of drug substance determined during drug substance analysis by M/s Macter International Ltd. • Justification shall be submitted as the content of sodium bicarbonate in premixed drug substance are different than that recommended by innovator product	• No justification is submitted for batch size of trial batches against the number of units required for complete testing of drug product during stability study till claimed shelf life • The firm submitted that batch size was determined according to the standard mixture, which is 315.0g for 100vials. The firm further stated that batch was filled according to the potency of API, which was tested by M/s Macter International. • Firm has submitted that content sodium carbonate in premixed drug substance has been corrected and mentioned Certificate of Analysis for drug substance and stated that COA is submitted in dossier.
3.2.P.5	• Justification is required for not including the test for reconstitution time, pyridine content, uniformity of dosage unit and water content in finished product specification by drug product manufacturer as recommended by innovator product review document • Justification is required for not performing the test for reconstitutions time, uniformity of dosage units, pyridine content and water content in batch analysis by drug product manufacturer as recommended by innovator product review document	• Firm submitted that reconstitution time, uniformity of dosage unit and water content tests were already performed but didn't incorporated in the report and specifications, now mentioned in revised report, while pyridine content test performed and mentioned in revised report of the drug substance of Avicef 2.5 g powder for injection. *However results for uniformity of dosage unit is not submitted*
3.2.P.7	• Description of the primary container closure systems including the type of glass shall be submitted	• Clear glass vial 25cc
3.2.P.8	• Justification is required for not performing the test for reconstitutions time, uniformity of dosage units, pyridine content and water content in stability study by drug product manufacturer as recommended by innovator product review document • Submit document for procurement of API with approval from DRAP	• Firm submitted that test for reconstitution time, uniformity of dosage unit and water content were already performed but didn't incorporated in the report and specifications, now mentioned in revised report, while pyridine content test *will be perform in ongoing stability study of the drug substance Avicef 2.5 g powder for injection. However, no revised reports are submitted* • Firm has submitted copy of invoice dated 17-06-2021 for import of 1kg of Avibactam and Ceftazidime sterile (& Impurities) in name of M/s Macter International Limited attested by AD (I&E) DRAP Karachi dated 22-06-2021

Previous Decision (M-330th-DRB): Deferred for submission of following:

- Justification for not performing the test for pyridine content in batch analysis of drug substance by drug product manufacturer
- Justification as pharmaceutical equivalence study report does not include complete testing of the drug product and the innovator product including the tests recommended by innovator product

review document (description on reconstitution, reconstitution time, pyridine content, uniformity of dosage unit, particulate matter, water content, bacterial endotoxins and sterility)

- Justification for the batch size of trial batches against the number of units required for complete testing of drug product during stability study including real time stability study till claimed shelf life
- Justification for not including the test for reconstitution time, pyridine content, uniformity of dosage unit and water content in finished product specification by drug product manufacturer
- Results for uniformity of dosage unit in batch analysis of drug product
- Reports for reconstitution time, uniformity of dosage unit, water content in stability study
- Results for pyridine content in ongoing stability study

Firm's Response:

S No.	Deferment Reason	Firm's Response
1	• Justification for not performing the test for pyridine content in batch analysis of drug substance by drug product manufacturer	• The firm submitted that the test for content uniformity and pyridine content in the batch analysis of the drug substance of Avicef 2.5 g powder for injection has been performed, and the revised reports are submitted.
2	• Justification as pharmaceutical equivalence study report does not include complete testing of the drug product and the innovator product including the tests recommended by innovator product review document (description on reconstitution, reconstitution time, pyridine content, uniformity of dosage unit, particulate matter, water content, bacterial endotoxins and sterility)	• The firm submitted that pharmaceutical equivalence study included the complete testing (Appearance, Identification, Avg. weight, pH, Assay, Related Substance, Any unspecified impurity, Total Impurity) of the drug product Avicef 2.5 g powder for injection and the innovator product recommended by the following guidelines, • "Pharmaceutical equivalence - Drug products are considered pharmaceutical equivalents if they have the same active ingredients, the same dosage form and are identical in strength, quality, purity, and identity as the brand-name product [1, 2]". Report of pharmaceutical equivalence is submitted. • Also, the equivalence relationships between brand name and generic drugs are on the following parameters [3], [API, Dosage form, Dose, Route of administration, Labelling]. • The test parameters stated in query already performed in our in-house testing for finish product and CoA with method is submitted herewith.
3	• Justification for the batch size of trial batches against the number of units required for complete testing of drug product during stability study including real time stability study till claimed shelf life	• The firm submitted that the batch size of trial batches against the number of unit required for complete testing of drug product during stability has been mentioned "SOP for batch size selection criteria for injectable dosage form, DOC no. SUP/RND/PP/002" for drug substance of Avicef 2.5 g powder for injection". • As per the DRAP Guidance Document [I], the firm selected the scientifically justified batch size through thorough testing, as also outlined in Document No. SUP/RND/PP/002. • The firm submitted that a total of 85 vials are required for complete testing throughout proposed life while 10-15 vials are used in IPC

		for weight variation and vials for weight adjustments
4	• Justification for not including the test for reconstitution time, pyridine content, uniformity of dosage unit and water content in finished product specification by drug product manufacturer	• The firm submitted that the test for reconstitution time, uniformity of dosage unit and water content already performed but didn't incorporated in the report and specifications, now mentioned in revised report, while pyridine content test performed and mentioned in revised report of the drug substance of Avicef 2.5 g powder for injection
5	• Results for uniformity of dosage unit in batch analysis of drug product	• The firm submitted that the Uniformity of dosage unit was assessed during the filling process, and the corresponding In-Process Control (IPC) sheets are attached. Additionally, the uniformity of dosage units was evaluated by measuring the weight variations in all three batches, and the results have already been provided".
6	• Reports for reconstitution time, uniformity of dosage unit, water content in stability study	• The firm submitted that the test for reconstitution time, uniformity of dosage unit and water content already performed but didn't incorporated in the report and specifications, now mentioned in revised report, while pyridine content test has been performed in ongoing stability study of Avicef 2.5 g powder for injection".
7	• Results for pyridine content in ongoing stability study	• Results for pyridine content in ongoing stability study is submitted

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**
- **Registration Board further decided that registration letter will be issued after submission of following:**
  - **i. Fee Rs. 7,500/- for correction/pre-approval change/ in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021**

Case No. 12: Deferred routine registration applications of Human Drugs on Form 5F

802.	Name, address of Applicant / Marketing Authorization Holder	M/s Daneen Pharma (Pvt.) Ltd., 27-Sundar Industrial Estate, Sundar Raiwand RD Lahore
	Name, address of Manufacturing site.	M/s Genix Pharma (Pvt.) Ltd., 44-45B Korangi Creek Road Karachi
	Status of the applicant	☐ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-12/93-Lic (Vol-V) dated 20-09-2021 which specifies Liquid Injection (Ampoule, Vial, Infusion) (General) section

	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 3625 dated 08-02-2022
	Details of fee submitted	PKR 75,000/-: dated: 04-01-2022 (Deposit sip#98940276970)
	The proposed proprietary name / brand name	**Irfen Injection 100mg/2ml**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 2ml ampoule contains: Ferric hydroxide polymaltose complex equivalent to Iron(III)……100mg
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Use to treat Iron deficiency
	Reference to Finished product specifications	Innovator Specification
	Proposed Pack size	5's x2ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ferrosig Injection 100mg/2ml by M/s Sigma Company Limited., TGA Approved
	For generic drugs (me-too status)	N/A
	Name and address of API manufacturer.	Biofer S.p.A. Legal headquarters and manufacturing site: Via Canina, 2 - 41036 MEDOLLA (MO), Italy
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, specifications, analytical procedures and its verification, batch analysis and justification of specification, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30 ± 2°C / 65 ± 5% RH) for 36 months Accelerated: 40 ± 2°C / 75 ± 5% RH for 6 months Batches: (FPJ 002 FP 01, FPJ 003 FP 01, FPJ 004 FP 01)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification

		of specification, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Hemafer 100mg/2ml Injection by M/s UNI-PHARMAKLEON LAORATORIES S.A by performing quality tests (Identification, pH, Assay)
	Analytical method validation/verification of product	Firm has submitted method validation studies including Specificity, Linearity, Accuracy, Precision-Repeatability, Intermediate Precision, Robustness.

STABILITY STUDY DATA			
Manufacturer of API	Biofer S.p.A. Legal headquarters and manufacturing site: Via Canina, 2 - 41036 MEDOLLA (MO), Italy		
API Lot No.	FPJ014FV20		
Description of Pack (Container closure system)	Amber glass Type I ampoule		
Stability Storage Condition	Real time: 30˚C ± 2˚C /65%± 5%RH Accelerated: 40˚C ± 2˚C / 75%± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	21SB(A)-098-01	21SB(A)-099-02	21SB(A)-100-03
Batch Size	500ampoules	500ampoules	500ampoules
Manufacturing Date	06-2021	06-2021	06-2021
Date of Initiation	15-07-2021	15-07-2021	15-07-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted Copy of GMP certificate in name of Biofer S.p.A. Legal headquarters and manufacturing site: Via Canina, 2 - 41036 MEDOLLA (MO), Italy issued by Italian Medicines Agency valid upto three years from the date of inspection (date of inspection 28/06/2019)
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted

6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) for three months is submitted

THERAPEUTIC INDICATIONS

FERROSIG is indicated for the treatment of iron deficiency anaemia in the following circumstances:

- When oral therapy is contraindicated.
- When enteric absorption of iron is defective.
- When patient non-compliance or persistent gastrointestinal intolerance makes oral therapy impractical.

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted copy of panel inspection report of the applicant for renewal of DML dated 08-02-2021 & 27-10-2021 wherein panel recommends the grant of renewal of DML by way of formulation to M/s Daneen Pharma (Pvt.) Ltd., 27-Sundar Industrial Estate, Sundar Raiwand RD Lahore • *GMP inspection report/ GMP certificate of the manufacturing unit is not submitted*
1.5.5	• Submit correct Pharmacological class of the drug substance with proper reference	• Parenteral iron preparations. Anti-anaemic
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer issued by relevant regulatory authority of country of origin is required	The firm submitted clarification from AIFA Italy stating that due to restrictions caused by covid-19, the period of validity of the GMP certificate is automatically extended until the end of 2023. Onsite inspections will resume as soon as there is a consensus that the period of public health crisis has passed
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required.	• Not submitted
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	According to Biofer MOA no working standard are required for release analysis of the API Ferric Hydroxide Polymaltose Complex so, we cannot provide any CoA.
3.2.S.7	• Results of Assay test for iron is not submitted in stability study of drug substance, clarify	Firm submitted revised stability study data of drug substance wherein Assay test for iron has been performed. Stability study conditions: Real time: 30 ± 2°C / 65 ± 5% RH) for 60 months Accelerated: 40 ± 2°C / 75 ± 5% RH for 6 months Batches: (FPJ 001 FV 17, FPJ 005 FV 16, FPJ 006 FP 15)
3.2.P.1	• Justification is required for not using hydrochloric acid or sodium hydroxide for pH adjustment in formulation	• In development of Genfer Injection 100mg/2ml, the active substance (Ferric Hydroxide Polymaltose Complex Inj.Grade) is dissolved in water for injection and mix until homogenization of solution will be formed. Then Check the pH of the solution. pH limit = 5.2 – 6.50.

		• The pH of the solution observed in the range as described above therefore no need to the addition of HCl or NaOH for pH adjustment in the formulation. • The product kept on stability and no changes observed in pH of the formulation and any other physical and chemical parameters. • Stability studies also demonstrated that the formulation is stable without the addition of pH adjusting agents.
3.2.P.2	• Submit details of country of origin of reference product against which pharmaceutical equivalence studies have been performed. • Justification is required for not performing test for bacterial endotoxin and particulate matter in pharmaceutical equivalence as submitted in finished product specifications	• The firm submitted details of country of origin: UNI-PHARMA KLEON TSETIS Pharmaceutical Laboratory S.A 14Km National Road 1, GR-145 64K, Kifissia GREECE. • The firm submitted that we have also conducted pharmaceutical equivalence against Ferrosig 100mg/2ml injection by M/s Sigma Company Limited Rowville, VIC, 3176 Australia by performing quality test (Appearance, Identification, pH, Assay, BET, Particulate matter) • The firm has submitted revised pharmaceutical equivalence report wherein results of test for bacterial endotoxin and particulate matter has been submitted
3.2.P.5.2	• You have applied for innovator specifications in module 1 section 1.5.6 while in-house specification in this section, justify?	The firm submitted that this is typographic error and submitted revise specification stating innovator specifications
3.2.P.6	• COA of primary / secondary reference standard including source and lot number shall be provided.	The firm submitted that we have conducted assay of Iron by complexometric titration, in this method working standard is not required.
3.2.P.8	• You have written liraglutide on initial page of summary sheet while applied product is ferric hydroxide polymaltose complex, clarify? • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is required • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) upto 6th months is required • Submit documents for the procurement of API with approval from DRAP (in case of import). • Submit 6th month stability data of applied product	• The firm submitted that this is typographic error and submitted corrected summary reports. • Audit trial is not applicable as product testing is carried out via titration method • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted • Firm has submitted copy of invoice for import of 01Kg of Ferric Hydroxide Polymaltose Complex (Batch No# FPJ014FV20) in name of M/s Genix Pharma (Pvt.) Ltd., attested by AD (I&E) DRAP Karachi dated 26-04-2021. • Firm has also submitted copy of form 6 for import of 01Kg of Ferric Hydroxide Polymaltose Complex in name of M/s Genix Pharma (Pvt.) Ltd., attested by AD (I&E) DRAP Karachi dated 26-04-2021. • 6th month stability data of applied product is submitted

Previous Decision (M-329-DRB): Deferred for submission of following:

- Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer.
- GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years
- Fee of Rs. 7,500/- for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Firm's Response:

Section	Observations	Response
1	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is required.	• Copies of the Drug substance analytical procedures used for routine testing of the Drug substance by Drug substance manufacturer is submitted
2	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years	**M/s Genix Pharma** Firm has submitted copy of cGMP certificate of M/s Genix Pharma dated 13-06-2023 based on inspection conducted on 06-06-2023 **M/s Daneen Pharma** Firm has submitted copy of cGMP certificate of M/s Daneen Pharma dated 02-02-2022 based on inspection conducted on 27-10-2021
3	• Fee of Rs. 7,500/- for correction/pre-approval changes in specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	• Firm has submitted fee Rs. 7,500/- for correction/pre-approval changes in specifications vide deposit slip#38798134.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	**Faascef 250mg IV Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Ceftriaxone sodium 250mg
	Pharmaceutical form of applied drug	Dry powder Injection
	Pharmacotherapeutic Group of (API)	Antibacterial
	Reference to Finished product specifications	USP
	Proposed Pack size	1x250mg
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Rocephin 250mg Powder for solution for injection MHRA Approved
	For generic drugs (me-too status)	Arizon Injection 250mg IV by M/s Aries Pharmaceuticals (Reg.No# 100241)
	Name and address of API manufacturer.	M/s Sinopharm Weiqida Pharmaceutical Co., Ltd., First Medical Zone, Economic & Technological Development Zone, Datong, Shanxi, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. (Batches: 11302001, 11302002, 11302003)
	Module-III (Drug Product):	Firm has submitted data of drug product including

		its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Cefxone Injection 250mg by M/s Bosch Pharmaceutical Company by performing quality tests (Description, identification, water, pH, sterility test, BET, particulate matter, assay).
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies including Specificity, Linearity and range, system suitability

STABILITY STUDY DATA

Manufacturer of API	M/s Sinopharm Weiqida Pharmaceutical Co., Ltd., First Medical Zone, Economic & Technological Development Zone, Datong, Shanxi, China		
API Lot No.	Q011801001, Q011712039, ***Q011802027***		
Description of Pack (Container closure system)	White or almost white crystalline powder filled in clear glass vial of 10ml sealed with grey rubber stopper & AI/PI (dark blue) flap (5ml WFI is also supplied in white PVC tray) along with leaflet.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Sinopharm Weiqida Pharmaceutical Co., Ltd., Economic & Technological Development Zone, First Medical Zone, Datong, Shanxi, China issued by Shanxi Provincial Food and Drug Administration China valid upto 05-06-2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No#W180507 dated 07-05-2018 for import of 700kg of Ceftriaxone Sodium Sterile USP (Batch No#Q011802027, Q011802044, Q011802045) in

		name of M/s Safe Pharmaceuticals attested by AD (I&E) DRAP Karachi dated 28-06-2018. Firm has submitted copy of another commercial invoice No#W180347 dated 28-03-2018 for import of 500kg of Ceftriaxone Sodium Sterile USP (Batch No#Q011712037, ***Q011712039***, Q011712100, ***Q011801001***) in name of M/s Safe Pharmaceuticals. *However, the invoice is not attested by AD (I&E) DRAP office.*
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Remarks of Evaluator [XI]:

Section	Observations	Response
1.1	• Clarification is required as the fee Rs. 50,000/- is submitted on 28-04-2021while R&I date of submitted application is 26-04-2022. (almost 1 year before R&I date)	• The primary reason for the delayed submission of required documents was the discovery of a deficiency in the dossier during pre-screening process. Additionaly we acknowledge that the stability data provided in the initial submission was incomplete.
1.3.5	• Submit GMP certificate / GMP inspection report of the applicant conducted with in last three years	Firm has submitted cGMP certificate of applicant M/s Faas Pharmaceuticals: Details are: Firm has submitted copy of cGMP certificate date 08-05-2018 based on inspection conducted on 04-05-2018. However, the cGMP in not valid.
1.4.3	• The firm has submitted application to Deputy Director General (R-II) DRAP Islamabad for change of contract manufacturer from M/s PharmEvo (Pvt) Ltd to M/s Safe Pharmaceuticals (Pvt) Ltd. Clarification is required whether it is application for new registration or change of contract manufacturer	• The firm submitted that the application for this product from M/s Safe Pharmaceuticals is for new registration on contract manufacturing with M/s Faas Pharmaceuticals.
1.5.2	• Submit your label claim as per reference formulation along with submission of applicable fee	• Not submitted
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• Not submitted
3.2.S.4	• Justification shall be submitted for not including the test for constituted solution, particulate matter, bacterial endotoxin, sterility in drug substance specification by drug product manufacturer as recommended by drug substance manufacturer	• Firm has submitted revised drug substance specificatins in which test for particulate matter, bacterial endotoxin, sterility are included

	• Justification shall be submitted for selecting different limits of assay test by drug product manufacturer (≥79%) than drug substance manufacturer (NLT84%)	• The firm submitted that assay limit as specified by drug substance manufacturer NLT 84% is according to Chinese Pharmacopiea 2010 as provided by Sinopharm. While QC department of M/s Safe Pharmaceuticals has followed USP 36 which specifies assay limit NLT 79.5%
3.2.P.1	• You have submitted the use of 5ml sterile water for injection while innovator product recommends the use of 2.5ml water for injection, clarify	• Firm submitted that sterile WFI is complemenatry for parenteral products. We provide 5ml WFI ampoule with our product Faascef 250mg injection although the reconstitution volume required is 2.5ml to prepae the exact dose in accordance with innovator's product.
3.2.P.2	• Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product • Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the reference product including the tests recommended by USP monograph (uniformity of dosage unit and test for water determination)	• Firm has submitted pharmaceutical equivalence of their product against the product Rocephin 250mg Injection by M/s Roche Laboratories Inc. by performing quality tests (Description, identification, water, pH, uniformity of dosage unit, assay and reconstituted solution). However details of innovator product i.e batch No#, manufacturing date and expiry date is not provided. Furthermore, test for sterility test, BET, particulate matter are also not performed in pharmaceutical equivalence study.
3.2.P.5	• Justification shall be submitted for not including the test for uniformity of dosage units as per USP monograph • Justification shall be submitted using different length column in chromatographic method for assay test (15cm) than USP (25cm). • Results for accuracy and precision studies in analytical method verification for applied product shall be submitted	• Firm has submitted revised finished product specifications in which test for uniformity of dosage units are included. • Firm has submitted revised analytical method for assay test with column length 25cm as per USP • Results for accuracy and precision studies in analytical method verification for applied product is submitted
3.2.P.8	• Submit documents of relevant batches for procurement of API with approval from DRAP • As per submitted COA of API (***Q011712039,*** Q011801001) by drug product manufacturer the analysis date of API is subsequent to the manufacturing date of trial batches clarify • As per submitted stability summary sheet and commercial invoice the manufacturing date of trial batch DI-659 is prior to the import of API, clarify • Clarification shall be submitted as the brand name mentioned in BMR is Safetrazone 250mg injection while analytical record (raw data sheet, stability summary sheet, chromatograms) in batch	• Firm has submitted copy of another commercial invoice No#WQD201704114 dated 26-12-2017 for import of 300kg of Ceftriaxone Sodium Sterile USP (Batch No# *Q011801001, Q011802027, Q011712039*) in name of M/s Safe Pharmaceuticals. *However, the invoice is not attested by AD (I&E) DRAP office.* • No clarification is submitted • No clarification is submitted. However, another invoice is submitted and the invoice is not attested by AD (I&E) DRAP office. • No clarification is submitted. However, the firm has submitted new BMR with applied brand name of drug product i.e.

	analysis and stability study for Faascef injection 250mg is provided • Clarification shall be submitted as the submitted chromatograms does not show the batch number, sample number, standard or sample solution, time point or storage conditions of stability study and wavelength	Faascef 250mg injection and same batch number. • No clarification is submitted. However, the firm has submitted new chromatograms that contains the batch number, sample number, standard or sample solution, time point or storage conditions of stability study

Previous Decision (M-331st-DRB): Deferred for submission of following:

- Differential fee Rs. 25000/- for contract manufacturing application
- Submit your label claim as per reference formulation along with submission of applicable fee
- Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin
- Clarification for use of 5ml sterile water for injection while innovator product recommends the use of 2.5ml water for injection
- Complete testing of the applied drug product and the reference product in pharmaceutical equivalence including the tests recommended by USP monograph
- Documents of relevant batches for procurement of API with approval from DRAP
- Clarification as the analysis date of API by drug product manufacturer [COA of API (*Q011712039*, Q011801001)] is subsequent to the manufacturing date of trial batches
- Clarification as manufacturing date of trial batch DI-659 is prior to the import of API (as per submitted stability summary sheet and commercial invoice)
- Clarification for submission of new BMR with change of brand name

Response of firm:

S No.	Deferment Reason	Firm's Response
1	• Differential fee Rs. 25000/- for contract manufacturing application	• Firm has submitted differential fee Rs. 25000/- on deposit slip#240618745 for contract manufacturing
2	• Submit your label claim as per reference formulation along with submission of applicable fee	• The firm has revised the label claim as per reference formulation. The revise label claim is as under: Each vial of dry substance contains: Ceftriaxone sodium equivalent to ceftriaxone……250mg
3	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin	• Not submitted
4	• Clarification for use of 5ml sterile water for injection while innovator product recommends the use of 2.5ml water for injection	• I/we hereby justifies that the required volume to reconstitute Faascef (Ceftriaxone sodium) 250mg injection vial is 2.5ml. We provided 5ml water for injection instead of 3ml water for injection because we have not registered WFI with 3ml and it fulfils the requirement of reconstitution.
5	• Complete testing of the applied drug product and the reference product in pharmaceutical equivalence including the tests recommended by USP monograph	• Firm has submitted pharmaceutical equivalence of their product against the product Cefxone Injection 250mg by M/s Bosch Pharmaceutical
6	• Documents of relevant batches for procurement of API with approval from DRAP	• Firm has submitted copy of commercial invoice No#W180347 dated 28-03-2018 for import of 500kg of Ceftriaxone Sodium Sterile USP (Batch No#Q011712037,

		Q011712039, Q011712100, ***Q011801001***) in name of M/s Safe Pharmaceuticals. attested by AD (I&E) DRAP Karachi dated 09-04-2018.
7	• Clarification as the analysis date of API by drug product manufacturer [COA of API (*Q011712039*, Q011801001)] is subsequent to the manufacturing date of trial batches	• No clarification is submitted
8	• Clarification as manufacturing date of trial batch DI-659 is prior to the import of API (as per submitted stability summary sheet and commercial invoice)	• No clarification is submitted
9	• Clarification for submission of new BMR with change of brand name	• No clarification is submitted

Decision: Deferred for submission of following:

- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin**
- **Clarification as the analysis date of API by drug product manufacturer [COA of API (*Q011712039*, Q011801001)] is subsequent to the manufacturing date of trial batches**
- **Clarification as manufacturing date of trial batch DI-659 is prior to the import of API (as per submitted stability summary sheet and commercial invoice)**
- **Clarification for submission of new BMR with change of brand name**

804.	Name, address of Applicant / Marketing Authorization Holder	M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 11-07-2019 specifying Injectable section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6131 dated 07-03-2022
	Details of fee submitted	Rs.50,000/- dated 22-02-2021
	The proposed proprietary name / brand name	**K-Met 30mg/ml Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 1ml Contains: Ketorolac Tromethamine…….30mg
	Pharmaceutical form of applied drug	IV / IM Injection
	Pharmacotherapeutic Group of (API)	NSAIDs

	Reference to Finished product specifications	USP
	Proposed Pack size	1mlx5's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Toradol 30mg/ml Solution for Injection (1ml ampoule) MHRA Approved
	For generic drugs (me-too status)	Toradol Injection 30mg/ml by M/s Martin Dow Marker Limited (Reg# 108584)
	Name and address of API manufacturer.	M/s Saurav Chemicals Limited., 370, Industrial Area, Phase-II Panchkula, Haryana, 134109-India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. (Batches; KTM06180001, KTM06180002, KTM06180003)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Tecak Injection 1ml by M/s Sami Pharmaceuticals by

		performing quality tests (Description, identification, pH, B.E.T., Sterility, assay).		
	Analytical method validation/verification of product	Firm has submitted method verification studies including precision (repeatability, intermediate), linearity.		
STABILITY STUDY DATA				
Manufacturer of API		M/s Saurav Chemicals Limited., 370, Industrial Area, Phase-II Panchkula, Haryana, 134109 - India		
API Lot No.		KTM06180003		
Description of Pack (Container closure system)		A clear colorless to light straw color solution, filled in a clear glass printed ampoule of USP type I/II, thermally sealed, placed in plastic tray as 1x5 ampoules and packed in unit carton		
Stability Storage Condition		Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period		Real time: 6 months Accelerated: 6 months		
Frequency		Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.		001	002	003
Batch Size		5000 ampoule	5000 ampoule	5000 ampoule
Manufacturing Date		03-2020	03-2020	03-2020
Date of Initiation		10-03-2020	12-03-2020	16-03-2020
No. of Batches		03		
Administrative Portion				
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A		
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Saurav Chemicals Limited (Unit-III)., Village Bhagwanpura, Derabassi-Barwala Road, Tehsil Dera Bassi, District Mohali of Punjab state India issued by Directorate of Health and Family Welfare, Punjab, Pariwar Kalyan Bhawan, Sector 34-A, Chandigarh India valid upto two years from the date of issue of this certificate (date of issue of this certificate; 27-08-2010)		
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No#SCL/2020-21/056 dated 04-06-2020 for import of 5kg of Ketorolac Tromethamine USP (Batch No#KTM200004) in name of M/s Neutro Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 01-07-2020. Firm has also submitted copy of commercial invoice No#SCL/NPL/17-18/207 dated 31-01-2018 for import of 5kg of Ketorolac Tromethamine USP (Batch No#KTM170011) in name of M/s Neutro Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 20-08-2018.		

4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 07th March 2022. (almost 1 year before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin is required • Address of API manufacturer mentioned in section 1.6.5 is different than that given in submitted GMP certificate
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for not performing the test for loss on drying in batch analysis of drug substance as per BP monograph
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.P.2	• Justification shall be submitted for not performing the test for particulate matter in pharmaceutical equivalence as per USP monograph • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product
3.2.P.3	• Clarification is required as you have mentioned the use of 1.13% overage in master formulation • Justify the performance of terminal sterilization against the reference product literature (autoclave ampoules at 121ºC, 15lb for 20 minutes)
3.2.P.5	• Justification is required for using USP specification for drug product while drug substance is analyzed as per BP monograph by drug substance manufacturer and drug product manufacturer • Justification shall be submitted for not including the test for particulate matter in finished product specifications as per USP monograph

	• Results of analytical method verification studies including accuracy and specificity shall be submitted
3.2.P.7	• Clarification is required regarding the use of clear glass printed ampoule instead of light-resistant containers for finished drug product as per USP
3.2.P.8	• Clarification is required as API from which batch, was used in product development and stability studies as firm has submitted copies of two commercial invoices • The batch No. of API in batch analysis of drug substance is different from that submitted in commercial invoice, clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 07th March 2022. (almost 1 year before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021	• The firm submitted that fee is submitted on 25-02-2021 while R&I date of submitted application is 07th March 2022. The firm submitted that we initially submitted our application on 10-03-2021, but some deficiencies were found in pre submission screening of CTD. • We re-submitted the file on 07-03-2022 along with deficient documents, that's why there is difference between fee submission date and R&I date of application. • The firm has submitted differential fee Rs. 25000/- on deposit slip o#64480938 dated 30-10-2023 for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F it is mistakenly written while applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying

		Liquid Injection Ampoule / Vial (General Section), LVP section (Blow, Fill, Seal) and SVP section (Blow, Fill, Seal)
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin is required • Address of API manufacturer mentioned in section 1.6.5 is different than that given in submitted GMP certificate	• The firm has submitted copy of cGMP certificate of M/s Saurav Chemicals Limited., Barwala Road, Village Bhagwanpura, Tehsil Derabassi, District Sahibzada Ajit Singh Nagar, Punjab, India issued by Food and Drug Administration, Punjab, Ajit Singh Nagar India valid upto two years from the date of issue of this certificate (date of issue of this certificate; 14-06-2019) • No clarification is submitted for difference in address of API manufacturer mentioned in section 1.6.5 and GMP certificate
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for not performing the test for loss on drying in batch analysis of drug substance as per BP monograph	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • The firm has submitted revised batch analysis report of drug substance in which test for loss on drying has been performed
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of secondary reference standard including source and lot number is submitted.
3.2.P.2	• Justification shall be submitted for not performing the test for particulate matter in pharmaceutical equivalence as per USP monograph • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product	• Firm has submitted revised pharmaceutical equivalence report in which test for particulate matter has been performed. • No justification is submitted
3.2.P.3	• Clarification is required as you have mentioned the use of 1.13% overage in master formulation • Justify the performance of terminal sterilization against the reference product literature (autoclave ampoules at 121ºC, 15lb for 20 minutes)	• The firm has submitted revised master formulation containing no overage. • No justification is submitted

3.2.P.5	• Justification is required for using USP specification for drug product while drug substance is analyzed as per BP monograph by drug substance manufacturer and drug product manufacturer • Justification shall be submitted for not including the test for particulate matter in finished product specifications as per USP monograph • Results of analytical method verification studies including accuracy and specificity shall be submitted	• No justification is submitted. However, the firm has submitted COA of drug substance manufacturer and drug product manufacturer in which testing has been performed as per USP monograph. • Firm has submitted revised finished product specifications in which test for particulate matter has been included • Firm has submitted results of analytical method verification studies including accuracy and specificity.
3.2.P.7	• Clarification is required regarding the use of clear glass printed ampoule instead of light-resistant containers for finished drug product as per USP	• The firm has submitted details of packing material including amber glass ampoule
3.2.P.8	• Clarification is required as API from which batch, was used in product development and stability studies as firm has submitted copies of two commercial invoices • The batch No. of API in batch analysis of drug substance is different from that submitted in commercial invoice, clarify • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• No clarification is submitted. • Firm has again submitted copy of commercial invoice No#SCL/2020-21/056 dated 04-06-2020 for import of 5kg of Ketorolac Tromethamine USP (Batch No#KTM200004) in name of M/s Neutro Pharma (Pvt.) Ltd attested by AD (I&E) DRAP Lahore dated 01-07-2020. The firm has also submitted COA of same batch from drug substance manufacturer • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin**
- **Justification for using USP specification for drug product while drug substance is analyzed as per BP monograph by drug substance manufacturer and drug product manufacturer**
- **Clarification as API from which batch, was used in product development and stability studies as firm has submitted copies of two commercial invoices**

805.	Name, address of Applicant / Marketing Authorization Holder	M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.

	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 11-07-2019 specifying Injectable section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6375 dated 08-03-2022
	Details of fee submitted	Rs.50,000/- dated 27-11-2020 & Rs.25,000/- dated 04-02-2022
	The proposed proprietary name / brand name	**ISC-100 Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Ampoule of 5ml Contains: Iron Sucrose Complex ……..…100mg
	Pharmaceutical form of applied drug	IV Infusion
	Pharmacotherapeutic Group of (API)	Anti-anemic
	Reference to Finished product specifications	USP specifications
	Proposed Pack size	5mlx5's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	VENOFER iron 100mg/5mL (as iron(III) hydroxide sucrose complex) injection ampoule TGA approved
	For generic drugs (me-too status)	Venofer IV Injection by M/s OBS Pakistan Karachi. (Reg. No#085031)
	Name and address of API manufacturer.	M/s SNJ Labs Pvt. Ltd., Plot No. 7, Survey No. 137/2 Om Industrial, Padavala, Tal. Kotdasangani, Dist. Rajkot, Gujarat-India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated

		stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 09 months. (Batches; IS15001, IS15002, IS15003)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Venofer Injection by M/s Vifor Pharma by performing quality tests (Description, identification, pH, sterility, Endotoxin test and assay).
	Analytical method validation/verification of product	Firm has submitted method verification studies including precision (repeatability, intermediate), linearity, accuracy and ruggedness.

STABILITY STUDY DATA			
Manufacturer of API	M/s SNJ Labs Pvt. Ltd., Plot No. 7, Survey No. 137/2 Om Industrial, Padavala, Tal. Kotdasangani, Dist. Rajkot, Gujarat-India		
API Lot No.	ISC 190119P5		
Description of Pack (Container closure system)	Amber glass ampoule of 5ml having symmetrical shape, smooth surface, free from cracks and air bubble and practically free from foreign matters		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH

Manufacturing Date	12-2019	12-2019	12-2019
Date of Initiation	09-12-2019	20-12-2019	23-12-2019
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s SNJ Labs Pvt. Ltd., Plot No. 5 to 16, Survey No. 137 at & Post; Padavala, Ta. Kotda Sangani, Dist. Rajkot, India issued by

		Food & Drugs Control Administration Gujarat State India valid upto 21-01-2023
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of invoice No. EXP/005 (20-21) dated 06-07-2020 for import of 100kg of Iron Sucrose (Batch# P21S20011) in name of M/s M/s Neutro Pharma., attested by AD (I&E) DRAP Lahore dated 10-07-2020. *(mfg date of API; March 2020)*
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee Rs. 50,000/- is submitted on 27-11-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year and 03 months before R&I date)
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.5.3	• Revise the label claim as per reference formulation considering the complete salt form along submission of applicable fee
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required • Address of API manufacturer is slightly different than that given in GMP
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Clarification is required for submitting batch analysis of drug substance from M/s Pure Chem Pharma Limited and details of drug substance manufacturer in section 1.6.5 & 3.2.S.3 of M/s SNJ Labs Pvt. Ltd., • Justification shall be provided for incomplete analyses of the drug substance by Drug Product manufacturer (specific gravity, osmolarity, turbidity, limit test for Fe (II), chloride content, alkalinity)
3.2.S.7	• Submit stability study data of drug substance at real time conditions till claimed shelf life

3.2.P.1	• Details provided in description and composition of drug product is *each capsule contains; cefalexin as monohydrate…..500mg* while applied product is iron sucrose infusion, clarify?
3.2.P.2	• Justification shall be submitted for not performing the test for chloride content, turbidity, alkalinity, osmolality and osmolarity, specific gravity and particulate matter in pharmaceutical equivalence as per USP monograph
3.2.P.3	• Calculation for dispensed quantity of API in master formulation shall be submitted
3.2.P.5	• Evidence of availability of atomic absorption spectrophotometer as required by the USP monograph of applied formulation. • Justification is required for not including the test for assay of sucrose, content of chloride, alkalinity and absence of low-molecular weight iron [FE(II) AND FE(III)] complexes in finished product specifications • Submit complete analytical procedure for assay of sucrose and iron in analytical method • Justification is required for not performing the test for assay of sucrose, content of chloride, alkalinity, absence of low-molecular weight iron [FE(II) and FE(III)] complexes, particulate matter, osmolarity, turbidity and specific gravity in batch analysis of finished product as per USP monograph • Justification is required as in batch analysis the assay results states that 95-105 % of the stated amount (iron sucrose complex eq. to iron) and results accordingly while no limits and results for sucrose
3.2.P.8	• Justification is required as in stability studies the assay results states that 95-105 % of the stated amount (iron sucrose complex) and results accordingly while no limits and results for sucrose • The batch No. of API (ISC 190119P5) and manufacturer in batch analysis of drug substance is different from that submitted in commercial invoice, clarify • *Clarification is required as the manufacturing date of drug substance as per submitted commercial invoice March 2020 which is subsequent to the manufacturing date (12-2019) of trial batches (as per submitted batch analysis report and stability summary sheets)* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee Rs. 50,000/- is submitted on 27-11-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year and 03 months before R&I date)	• The firm submitted that fee is submitted on 27-11-2020 while R&I date of submitted application is 08th March 2022. The firm submitted that we initially submitted our application on 29-12-2020, but some deficiencies were found in pre submission screening of CTD. • We re-submitted the file on 08-03-2022 along with deficient documents, that's why there is difference between fee submission date and R&I date of application.
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore

1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F it is mistakenly written while applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section), LVP section (Blow, Fill, Seal) and SVP section (Blow, Fill, Seal)
1.5.3	• Revise the label claim as per reference formulation considering the complete salt form along submission of applicable fee	• No reply submitted
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required • Address of API manufacturer is slightly different than that given in GMP	• The firm has submitted copy of cGMP certificate of M/s Pure Chem Pvt. Ltd., plot No. 4717, Near Fikom Chowkadi, GIDC, Ankleshwar-393002, Dist. Bharuch India issued by Food and Drug Control Administration, Gujarat state India valid upto 19-10-2024. The copy of cGMP certificate from a different manufacturer is submitted than that given in form 5F.
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted

3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Clarification is required for submitting batch analysis of drug substance from M/s Pure Chem Pvt Limited and details of drug substance manufacturer in section 1.6.5 & 3.2.S.3 of M/s SNJ Labs Pvt. Ltd., • Justification shall be provided for incomplete analyses of the drug substance by Drug Product manufacturer (specific gravity, osmolarity, turbidity, limit test for Fe (II), chloride content, alkalinity)	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • No clarification is submitted. However firm has again submitted batch analysis of drug substance from M/s Pure Chem Pvt Limited and M/s Neutro Pharma • Firm has submitted revised batch analysis report of drug substance from drug product manufacturer in which test for specific gravity, osmolarity, turbidity, limit test for Fe (II), chloride content, alkalinity has been performed
3.2.S.7	• Submit stability study data of drug substance at real time conditions till claimed shelf life	• Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
3.2.P.1	• Details provided in description and composition of drug product is *each capsule contains; cefalexin as monohydrate…..500mg* while applied product is iron sucrose infusion, clarify?	• Firm has submitted details of applied product iron sucrose complex injection in description and composition of drug product
3.2.P.2	• Justification shall be submitted for not performing the test for chloride content, turbidity, alkalinity, osmolality and osmolarity, specific gravity and particulate matter in pharmaceutical equivalence as per USP monograph	• Firm has submitted revised pharmaceutical equivalence report in which test for chloride content, turbidity, alkalinity, osmolality and osmolarity, specific gravity and particulate matter has been performed
3.2.P.3	• Calculation for dispensed quantity of API in master formulation shall be submitted	• Calculation for dispensed quantity of API in master formulation is not submitted
3.2.P.5	• Evidence of availability of atomic absorption spectrophotometer as required by the USP monograph of applied formulation. • Justification is required for not including the test for assay of sucrose, content of chloride, alkalinity and absence of low-molecular weight iron [FE(II) AND FE(III)] complexes in finished product specifications	• Evidence of availability of atomic absorption spectrophotometer is not submitted • Firm has submitted revised finished product specifications in which the test for assay of sucrose, content of chloride, alkalinity and absence of low-molecular weight iron [FE(II) AND FE(III)] complexes is included. • Analytical procedure for assay of sucrose and iron in analytical method is submitted

	• Submit complete analytical procedure for assay of sucrose and iron in analytical method • Justification is required for not performing the test for assay of sucrose, content of chloride, alkalinity, absence of low-molecular weight iron [FE(II) and FE(III)] complexes, particulate matter, osmolarity, turbidity and specific gravity in batch analysis of finished product as per USP monograph • Justification is required as in batch analysis the assay results states that 95-105 % of the stated amount (iron sucrose complex eq. to iron) and results accordingly while no limits and results for sucrose	• Firm has submitted revised batch analysis report in which the test for assay of sucrose, content of chloride, alkalinity and absence of low-molecular weight iron [FE(II) AND FE(III)] complexes, particulate matter, osmolarity, turbidity and specific gravity is performed. • Revised batch analysis report submitted in which test and limits for sucrose have been included and performed
3.2.P.8	• Justification is required as in stability studies the assay results states that 95-105 % of the stated amount (iron sucrose complex) and results accordingly while no limits and results for sucrose • The batch No. of API (ISC 190119P5) and manufacturer in batch analysis of drug substance is different from that submitted in commercial invoice, clarify • *Clarification is required as the manufacturing date of drug substance as per submitted commercial invoice March 2020 which is subsequent to the manufacturing date (12-2019) of trial batches (as per submitted batch analysis report and stability summary sheets)* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted revised stability studies summary sheets in which test for iron and sucrose are reported separately. • Firm has submitted copy of invoice No. EXP/083/18-19 dated 09-02-2019 for import of 50kg of Iron Sucrose (Batch# ISC190119P5) from M/s Pure Chem Pvt Ltd., in name of M/s Neutro Pharma. However, the invoice is not attested by AD (I&E) DRAP field office. • The firm has submitted another invoice and COA of drug substance from M/s Pure Chem Pvt Ltd., India in which the manufacturing date of API is Jan 2019 which is before the manufacturing date (12-2019) of trial batches • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Revise the label claim as per reference formulation considering the complete salt form along submission of applicable fee**
- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin**
- **Clarification for submitting batch analysis of drug substance from M/s Pure Chem Pvt Limited and details of drug substance manufacturer in section 1.6.5 & 3.2.S.3 of M/s SNJ Labs Pvt. Ltd.,**
- **Calculation for dispensed quantity of API in master formulation**
- **Evidence of availability of atomic absorption spectrophotometer as required by the USP monograph of applied formulation.**
- **Clarification as the batch No. of API (ISC 190119P5) and manufacturer in batch analysis of drug substance is different from that submitted in commercial invoice**

806.	Name, address of Applicant / Marketing Authorization Holder	M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore

	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.30km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 11-07-2019 specifying Injectable section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6377 dated 08-03-2022
	Details of fee submitted	Rs.50,000/- dated 30-04-2020
	The proposed proprietary name / brand name	**Nal-B 10mg Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Ampoule Contains: Nalbuphine HCl……..…10mg/ml
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Opioid Analgesic (Morphinan derivatives)
	Reference to Finished product specifications	Neutro's specifications
	Proposed Pack size	1mlx10 ampoule
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	NUBAIN (10.0 mg/mL) 1mL Ampoule Health Canada Approved
	For generic drugs (me-too status)	Buphinal Injection 10mg/ml by Barrett Hodgson Pakistan (Reg# 102934)
	Name and address of API manufacturer.	M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical

		procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 18 months. (Batches: 0010919, 0020919, 0030919)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Kinz Injection 10mg by M/s Sami Pharma by performing quality tests (Description, identification, pH, B.E.T., Sterility, assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including Accuracy, precision (repeatability, intermediate), linearity, LOD, LOQ, ruggedness.

STABILITY STUDY DATA			
Manufacturer of API	M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic		
API Lot No.	0010919		
Description of Pack (Container closure system)	A clear to colorless to light straw color solution filled in clear glass printed ampoule of USP type I/ii thermally sealed, laced in plastic tray as 2x5 ampoule and packed in unit carton		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	N-002	N-003	N-004
Batch Size	1000 ampoule	1100 ampoule	1100 ampoule
Manufacturing Date	04-2019	05-2019	06-2019
Date of Initiation	28-03-2019	28-03-2019	28-03-2019
No. of Batches	03		
Administrative Portion			

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic., valid upto three years from date of inspection. (date of inspection 12-05-2017)
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 11month before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.1	• Details of drug substance specifications, analytical procedure and declaration from M/s Rusan Pharma Ltd, Plot No.6406, G.I.D.C., Ankleshawar Dist. Bharuch, Gujarat-393002, India is submitted while drug substance manufacturer is M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic., clarify
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for selecting limits of specific optical rotation test in batch analysis as +160.0 - +142.0 and results as +153.6 by drug product manufacturer instead of -160.0 - -142.0 by drug substance manufacturer • Justification shall be submitted for not performing the test for chloride assay in batch analysis by drug product manufacturer as recommended by drug substance manufacturer

3.2.S.7	• Stability study data of drug substance at real time conditions till claimed shelf life shall be submitted
3.2.P.2	• Justification shall be submitted for not performing the test for extractable volume and particulate matter in pharmaceutical equivalence as recommended by innovator product • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation • Justification is required for not performing terminal sterilization of applied product
3.2.P.5	• Justification shall be submitted for selecting the limits of pH 4-6 in finished product specifications instead of 3.5-3.7 as recommended by innovator product review document • Reference shall be submitted for selecting the limits of assay test 98-102% in finished product specifications • Justification shall be submitted for not including the test for extractable volume in finished product specifications • Justification shall be submitted for submitted analytical procedure of assay by UV and method validation studies by HPLC • Clarification shall be submitted as you have mentioned *"calculate the percentage of labelled amount of Omeprazole sodium taken by the formula"* in analytical procedure for nalbuphine • Submit results for specificity test in method validation studies • Justification shall be submitted for selecting different limits of pH test 3.0-4.5 in batch analysis of finished product than that submitted in finished product specifications (4-6)
3.2.P.7	• Details for container closure system of drug substance are submitted instead of drug product
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP (in case of import). • Batch No. of drug product mentioned on stability summary sheet is 001, 002, 003 instead of N-002, N-003 and N-004 as mentioned in batch analysis, clarify • Batch size of drug product mentioned in stability summary sheet is 2L instead of 1100 & 1000 ampoule as mentioned in batch analysis, clarify • Manufacturing date of drug product mentioned in stability summary sheet is 03-19 in all batches instead of 04-2019 for N-002, 05-2019 for N-003 and 06-2019 for N-004 as mentioned in batch analysis, clarify • Clarification is required as date of initiation of stability study i.e. 28-03-2019 is prior to the manufacturing of trial batches as per submitted batch analysis report • The mobile phase ratio mentioned in raw data sheet is buffer;ACN (70;30) while buffer;ACN (60;40) in analytical method validation, clarify • *Clarification is required as the manufacturing date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 03-10-2019 and receiving date is 04-12-2019 which is subsequent to the manufacturing date (3-2019) of trial batches (as per submitted stability summary sheets)* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March	• The firm submitted that fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022.

	2022. (almost 1 year & 11month before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021	• The gap between date of fee and application submitted is because initially our application was deferred in pre-submission screening of CTD. • The firm has not submitted differential for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F it is mistakenly written while applicant is contract giver.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section), LVP section (Blow, Fill, Seal) and SVP section (Blow, Fill, Seal)
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP certificate of M/s Rusan Pharma Ltd., Plot No# 6406, G.I.D.C. Estate, Ankleshwar, City; Ankleshwar, Dist., Bharuch-393002 Gujarat State India issued by Food and Drug Control Administration, Gujarat state India valid upto 04-11-2023. The copy of cGMP certificate from a different manufacturer is submitted than that given in form 5F.
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted. • However, the batch size of all batches is 2L (2000 ampoule) and the manufacturing date of all batches Batch#001, 002, 003 is

		03-2019 which is contrary to the already submitted data.
3.2.S.1	• Details of drug substance specifications, analytical procedure and declaration from M/s Rusan Pharma Ltd, Plot No.6406, G.I.D.C., Ankleshawar Dist. Bharuch, Gujarat-393002, India is submitted while drug substance manufacturer is M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic., clarify	• The firm submitted that API manufacturer is M/s Rusan Pharma Ltd, and again submitted details of drug substance specifications, analytical procedure from M/s Rusan Pharma Ltd.,
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for selecting limits of specific optical rotation test in batch analysis as +160.0 - +142.0 and results as +153.6 by drug product manufacturer instead of -160.0 - -142.0 by drug substance manufacturer • Justification shall be submitted for not performing the test for chloride assay in batch analysis by drug product manufacturer as recommended by drug substance manufacturer	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. However, in drug substance specifications, assay by HPLC is mentioned while method of assay by titrimetry is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • The firm has submitted revised batch analysis report of drug substance in which limits of specific optical rotation test has been revised -150.0 to 160.0 and results as -152.82º. • The firm has submitted revised batch analysis report of drug substance in which test for chloride assay has been performed. • COA of drug substance (batch#NLBX018005) from drug substance manufacturer M/s Rusan Pharma has also been submitted
3.2.S.7	• Stability study data of drug substance at real time conditions till claimed shelf life shall be submitted	• Stability study data of drug substance at real time conditions till claimed shelf life is not submitted
3.2.P.2	• Justification shall be submitted for not performing the test for extractable volume and particulate matter in pharmaceutical equivalence as recommended by innovator product • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product	• Firm has submitted revised pharmaceutical equivalence studies in which test for extractable volume and particulate matter has been performed. • The firm submitted that we perform pharmaceutical equivalence studies with innovator's product in Pakistan because of unavailability of international innovator's in local market.
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation • Justification is required for not performing terminal sterilization of applied product	• The firm has submitted revised master formulation containing no overage. • The firm has submitted revised manufacturing flow chart in which terminal sterilization step has been incorporated.

3.2.P.5	• Justification shall be submitted for selecting the limits of pH 4-6 in finished product specifications instead of 3.5-3.7 as recommended by innovator product review document • Reference shall be submitted for selecting the limits of assay test 98-102% in finished product specifications • Justification shall be submitted for not including the test for extractable volume in finished product specifications • Justification shall be submitted for submitted analytical procedure of assay by UV and method validation studies by HPLC • Clarification shall be submitted as you have mentioned *"calculate the percentage of labelled amount of Omeprazole sodium taken by the formula"* in analytical procedure for nalbuphine • Submit results for specificity test in method validation studies • Justification shall be submitted for selecting different limits of pH test 3.0-4.5 in batch analysis of finished product than that submitted in finished product specifications (4-6)	• No justification is submitted. However the firm has submitted revised finished product specifications in which the limits of pH test has been revised as 3.0 to 4.5. • The firm has submitted revised finished product specifications in which the limits of assay test has been revised as 90-110%. • The firm has submitted revised finished product specifications in which test for extractable volume has been included. • The firm has submitted revised analytical method of assay test by HPLC • The firm submitted that it is mistakenly written Omeprazole Sodium instead of Nalbuphine HCl labelled amount and updated analytical procedure is submitted. • Results for specificity test in method validation studies is submitted • The firm has submitted revised batch analysis of finished product in which limits of pH test is as per submitted specifications (3.0 to 4.5)
3.2.P.7	• Details for container closure system of drug substance are submitted instead of drug product	• Details for container closure system of drug product is submitted
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP (in case of import). • Batch No. of drug product mentioned on stability summary sheet is 001, 002, 003 instead of N-002, N-003 and N-004 as mentioned in batch analysis, clarify • Batch size of drug product mentioned in stability summary sheet is 2L instead of 1100 & 1000 ampoule as mentioned in batch analysis, clarify • Manufacturing date of drug product mentioned in stability summary sheet is 03-19 in all batches instead of 04-2019 for N-002, 05-2019 for N-003 and 06-2019 for N-004 as mentioned in batch analysis, clarify • Clarification is required as date of initiation of stability study i.e. 28-03-2019 is prior to the manufacturing of trial batches as per submitted batch analysis report	• Firm has submitted copy of invoice No. ANK/18-19/069 dated 12-12-2018 for import of 02kg of Nalbuphine HCl (Batch# NLBX018005) from M/s Rusan Pharma Ltd., in name of M/s Neutro Pharma attested by AD (I&E) DRAP Lahore dated 24-12-2018. • No clarification is submitted. However, revised batch analysis report (COA) of all batches is submitted. As per revised batch analysis report (COA) the batch No# of trial batches is 001, 002, 003, batch size is 2L and manufacturing date of trial batches is 03-2019. • The firm has submitted revised analytical method validation report in which the ratio of mobile phase has been changed as buffer;ACN (70;30). • Firm has submitted another COA of drug substance from drug substance manufacturer and drug product manufacturer in which the manufacturing date of drug substance is

	• The mobile phase ratio mentioned in raw data sheet is buffer;ACN (70;30) while buffer;ACN (60;40) in analytical method validation, clarify • *Clarification is required as the manufacturing date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 03-10-2019 and receiving date is 04-12-2019 which is subsequent to the manufacturing date (3-2019) of trial batches (as per submitted stability summary sheets)* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	09-2018 (batch#NLBXO18005) which is before the manufacturing of trial batches • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Decision: Deferred for submission of following:

- **Differential fee of Rs. 25,000/- for contract manufacturer, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin**
- **Clarification for difference in batch size and manufacturing date in BMR and already submitted data**
- **Clarification for mentioning assay by HPLC in drug substance specifications and submitted assay method by titrimetry.**
- **Stability study data of drug substance at real time conditions till claimed shelf life.**
- **Justification shall be submitted for selecting the limits of pH 3.0-4.5 in finished product specifications instead of 3.5-3.7 as per innovator product review document**

807.	Name, address of Applicant / Marketing Authorization Holder	M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.30km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of cGMP certificate dated 11-07-2019 specifying Injectable section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6378 dated 08-03-2022

	Details of fee submitted	Rs.50,000/- dated 30-04-2020
	The proposed proprietary name / brand name	**Nal-B 20mg Injection**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Ampoule Contains: Nalbuphine HCl……..…20mg/ml
	Pharmaceutical form of applied drug	Injection
	Pharmacotherapeutic Group of (API)	Opioid Analgesic (Morphinan derivatives)
	Reference to Finished product specifications	Neutro's specifications
	Proposed Pack size	1mlx10 ampoule
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	NUBAIN (20.0 mg/mL) 1mL Ampoule USFDA Approved **Discontinued **Federal Register determination that product was not discontinued or withdrawn for safety or effectiveness reasons****
	For generic drugs (me-too status)	Buphinal Injection 20mg/ml by Barrett Hodgson Pakistan (Reg# 102935)
	Name and address of API manufacturer.	M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 18 months. (Batches: 0010919, 0020919, 0030919)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation

		protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Kinz Injection 20mg by M/s Sami Pharma by performing quality tests (Description, identification, pH, B.E.T., Sterility, assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including Accuracy, precision (repeatability, intermediate), linearity, LOD, LOQ, ruggedness.

STABILITY STUDY DATA

Manufacturer of API	M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic		
API Lot No.	0010919		
Description of Pack (Container closure system)	A clear to colorless to light straw color solution filled in clear glass printed ampoule of USP type I/II thermally sealed, placed in plastic tray as 2x5 ampoule and packed in unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	N-003	N-004	N-005
Batch Size	1000 ampoule	1000 ampoule	900 ampoule
Manufacturing Date	04-2019	05-2019	06-2019
Date of Initiation	28-03-2019	28-03-2019	28-03-2019
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Saneca Pharmaceuticals a.s. Nitrianska 100 92027 Hlohovec Slovak Republic., valid upto three years from date of inspection. (date of inspection 12-05-2017)
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 11month before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for selecting limits of specific optical rotation test in batch analysis as +160.0 - +142.0 and results as +153.6 by drug product manufacturer instead of -160.0 - -142.0 by drug substance manufacturer • Justification shall be submitted for not performing the test for chloride assay in batch analysis by drug product manufacturer as recommended by drug substance manufacturer
3.2.S.7	• Stability study data of drug substance at real time conditions till claimed shelf life shall be submitted
3.2.P.2	• Justification shall be submitted for not performing the test for extractable volume and particulate matter in pharmaceutical equivalence as recommended by innovator product • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation • Justification is required for not performing terminal sterilization of applied product
3.2.P.5	• Justification shall be submitted for selecting the limits of pH 4-6 in finished product specifications instead of 3.5-3.7 as recommended by innovator product review document • Reference shall be submitted for selecting the limits of assay test 98-102% in finished product specifications • Justification shall be submitted for not including the test for extractable volume in finished product specifications

	• Justification shall be submitted for submitted analytical procedure of assay by UV and method validation studies by HPLC • Clarification shall be submitted as you have mentioned *"calculate the percentage of labelled amount of Omeprazole sodium taken by the formula"* in analytical procedure for nalbuphine • Submit results for specificity test in method validation studies • Justification shall be submitted for selecting different limits of pH test 3.0-4.5 in batch analysis of finished product than that submitted in finished product specifications (4-6)
3.2.P.8	• Documents for the procurement of API with approval from DRAP (in case of import). • Batch No. of drug product mentioned on stability summary sheet is 001, 002, 003 instead of N-003, N-004 and N-005 as mentioned in batch analysis, clarify • Batch size of drug product mentioned in stability summary sheet is 2L instead of 1000 & 900 ampoule as mentioned in batch analysis, clarify • Manufacturing date of drug product mentioned in stability summary sheet is 03-19 in all batches instead of 04-2019 for N-003, 05-2019 for N-004 and 06-2019 for N-005 mentioned in batch analysis, clarify • Clarification is required as date of initiation of stability study i.e. 28-03-2019 is prior to the manufacturing of trial batches as per submitted batch analysis report • The mobile phase ratio mentioned in raw data sheet is buffer;ACN (70;30) while buffer;ACN (60;40) in analytical method validation, clarify • *Clarification is required as the manufacturing date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 03-10-2019 and receiving date is 04-12-2019 which is subsequent to the manufacturing date (3-2019) of trial batches (as per submitted stability summary sheets)* • *Stability data and analytical record is same as presented for other applied strength of 10mg/ml. justification shall be submitted.* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022. (almost 1 year & 11month before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021	• The firm submitted that fee is submitted on 30-04-2020 while R&I date of submitted application is 08th March 2022. • The gap between date of fee and application submitted is because initially our application was deferred in pre-submission screening of CTD. • The firm has not submitted differential for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F it is mistakenly written while applicant is contract giver.

1.3.5	• GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section), LVP section (Blow, Fill, Seal) and SVP section (Blow, Fill, Seal)
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP certificate of M/s Rusan Pharma Ltd., Plot No# 6406, G.I.D.C. Estate, Ankleshwar, City; Ankleshwar, Dist., Bharuch-393002 Gujarat State India issued by Food and Drug Control Administration, Gujarat state India valid upto 04-11-2023. The copy of cGMP certificate from a different manufacturer is submitted than that given in form 5F.
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted. • However, the batch size of all batches is 2L (2000 ampoule) and the manufacturing date of all batches Batch#001, 002, 003 is 03-2019 which is contrary to the already submitted data.
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for selecting limits of specific optical rotation test in batch analysis as +160.0 - +142.0 and results as +153.6 by drug product manufacturer instead of -160.0 - -142.0 by drug substance manufacturer	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. However, in drug substance specifications, assay by HPLC is mentioned while method of assay by titrimetry is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted.

	• Justification shall be submitted for not performing the test for chloride assay in batch analysis by drug product manufacturer as recommended by drug substance manufacturer	• The firm has submitted revised batch analysis report of drug substance in which limits of specific optical rotation test has been revised -150.0 to 160.0 and results as -152.82º. • The firm has submitted revised batch analysis report of drug substance in which test for chloride assay has been performed. • COA of drug substance (batch#NLBXO18005) from drug substance manufacturer M/s Rusan Pharma has also been submitted
3.2.S.7	• Stability study data of drug substance at real time conditions till claimed shelf life shall be submitted	• Stability study data of drug substance at real time conditions till claimed shelf life is not submitted
3.2.P.2	• Justification shall be submitted for not performing the test for extractable volume and particulate matter in pharmaceutical equivalence as recommended by innovator product • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product	• Firm has submitted revised pharmaceutical equivalence studies in which test for extractable volume and particulate matter has been performed. • The firm submitted that we perform pharmaceutical equivalence studies with innovator's product in Pakistan because of unavailability of international innovator's in local market.
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation • Justification is required for not performing terminal sterilization of applied product	• The firm has submitted revised master formulation containing no overage. • The firm has submitted revised manufacturing flow chart in which terminal sterilization step has been incorporated.
3.2.P.5	• Justification shall be submitted for selecting the limits of pH 4-6 in finished product specifications instead of 3.5-3.7 as recommended by innovator product review document • Reference shall be submitted for selecting the limits of assay test 98-102% in finished product specifications • Justification shall be submitted for not including the test for extractable volume in finished product specifications • Justification shall be submitted for submitted analytical procedure of assay by UV and method validation studies by HPLC • Clarification shall be submitted as you have mentioned *"calculate the percentage of labelled amount of Omeprazole sodium taken by the formula"* in analytical procedure for nalbuphine • Submit results for specificity test in method validation studies	• No justification is submitted. However the firm has submitted revised finished product specifications in which the limits of pH test has been revised as 3.0 to 4.5. • The firm has submitted revised finished product specifications in which the limits of assay test has been revised as 90-110%. • The firm has submitted revised finished product specifications in which test for extractable volume has been included. • The firm has submitted revised analytical method of assay test by HPLC • The firm submitted that it is mistakenly written Omeprazole Sodium instead of Nalbuphine HCl labelled amount and updated analytical procedure is submitted. • Results for specificity test in method validation studies is submitted • The firm has submitted revised batch analysis of finished product in which

	• Justification shall be submitted for selecting different limits of pH test 3.0-4.5 in batch analysis of finished product than that submitted in finished product specifications (4-6)	limits of pH test is as per submitted specifications (3.0 to 4.5)
3.2.P.8	• Documents for the procurement of API with approval from DRAP (in case of import). • Batch No. of drug product mentioned on stability summary sheet is 001, 002, 003 instead of N-003, N-004 and N-005 as mentioned in batch analysis, clarify • Batch size of drug product mentioned in stability summary sheet is 2L instead of 1000 & 900 ampoule as mentioned in batch analysis, clarify • Manufacturing date of drug product mentioned in stability summary sheet is 03-19 in all batches instead of 04-2019 for N-003, 05-2019 for N-004 and 06-2019 for N-005 mentioned in batch analysis, clarify • Clarification is required as date of initiation of stability study i.e. 28-03-2019 is prior to the manufacturing of trial batches as per submitted batch analysis report • The mobile phase ratio mentioned in raw data sheet is buffer;ACN (70;30) while buffer;ACN (60;40) in analytical method validation, clarify • *Clarification is required as the manufacturing date of drug substance as per submitted COA by drug substance manufacturer and drug product manufacturer is 03-10-2019 and receiving date is 04-12-2019 which is subsequent to the manufacturing date (3-2019) of trial batches (as per submitted stability summary sheets)* • *Stability data and analytical record is same as presented for other applied strength of 10mg/ml. justification shall be submitted.* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted copy of invoice No. ANK/18-19/069 dated 12-12-2018 for import of 02kg of Nalbuphine HCl (Batch# NLBX018005) from M/s Rusan Pharma Ltd., in name of M/s Neutro Pharma attested by AD (I&E) DRAP Lahore dated 24-12-2018. • No clarification is submitted. However, revised batch analysis report (COA) of all batches is submitted. As per revised batch analysis report (COA) the batch No# of trial batches is 001, 002, 003, batch size is 2L and manufacturing date of trial batches is 03-2019. • The firm has submitted revised analytical method validation report in which the ratio of mobile phase has been changed as buffer;ACN (70;30). • Firm has submitted another COA of drug substance from drug substance manufacturer and drug product manufacturer in which the manufacturing date of drug substance is 09-2018 (batch#NLBXO18005) which is before the manufacturing of trial batches • No justification is submitted for submitting same stability data and analytical record as for other applied strength of 10mg/ml. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted.

Decision: Deferred for submission of following:

- **Differential fee of Rs. 25,000/- for contract manufacturer, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin**

• **Clarification for difference in batch size and manufacturing date in BMR and already submitted data** • **Clarification for mentioning assay by HPLC in drug substance specifications and submitted assay method by titrimetry.** • **Stability study data of drug substance at real time conditions till claimed shelf life.** • **Justification shall be submitted for selecting the limits of pH 3.0-4.5 in finished product specifications instead of 3.5-3.7 as per innovator product review document**

No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Alcon Biosciences Private Limited., A-1/2104, phase-III, GIDC, Vapi – 396195 Dist. Valsad India issued by Food & Drugs Control Administration Gujarat State India valid upto 15-10-2020
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 25-12-2021 while R&I date of submitted application is 30th March 2022. (almost 1 year before R&I date)
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).
1.5.5	• Indicate Pharmacological class of the API (drug substance) with proper reference
1.5.10	• Dosage form of applied drug shall be mentioned clearly, with complete description of a unit
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required

2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Clarification is required as the manufacturing date mentioned on COA of drug substance by drug substance manufacturer is December 2013 (exp november2018) while manufacturing date mentioned on COA of drug substance by drug product manufacturer is 12-2019 (exp 11-2023) and receiving date 18-03-2020
3.2.P.2	• Details of module 2 are provided in section 3.2.P.2.1 to 3.2.P.2.6, of module 3 clarify • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product
3.2.P.3	• Details of module 2 are provided in section 3.2.P.3.1to 3.2.P.3.4, of module 3 clarify • Justification shall be submitted as the qualitative composition of applied product is not similar to reference product. (**reference product**; Sodium dihydrogen phosphate dihydrate, nicotinamide, alcohol, benzyl alcohol, sodium hydroxide, water for injections, propylene glycol. **Applied product;** Disodium hydrogen phosphate, L-Arginine, Ethanol, benzyl alcohol, sodium metabisulfite, water for injections, propylene glycol**)**
3.2.P.5	• Justification shall be submitted as analytical procedure for assay is submitted as per UV method while method validation studies is submitted as per HPLC method • Justification shall be submitted for not performing test for particulate matter in batch analysis as per submitted specifications
3.2.P.8	• Submit documents for procurement of API with approval from DRAP • *Clarification is required as the manufacturing date of drug substance as per submitted COA is* December 2013 and expiry date is november2018 *which is prior to the manufacturing date (04-2020) of trial batches (as per submitted batch analysis report and stability summary sheets)* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 25-12-2021 while R&I date of submitted application is 30th March 2022.	• The firm submitted that fee is submitted on 25-12-2021 while R&I date of submitted application is 30th March 2022 and stated that there is only three months difference between fee submission date and R&I date. • The firm has not submitted differential for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of	The firm submitted that in form 5F we have mistakenly submitted that applicant is

	the above (contract giver) in form 5F clarify	manufacturer, actually applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years • Submit Evidence of approval of manufacturing facility / Approved Section from Licensing Authority (Section ampoule or vial).	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Liquid Injection Ampoule / Vial (General Section), LVP section (Blow, Fill, Seal) and SVP section (Blow, Fill, Seal)
1.5.5	• Indicate Pharmacological class of the API (drug substance) with proper reference	• NSAIDs
1.5.10	• Dosage form of applied drug shall be mentioned clearly, with complete description of a unit	• Injectable Each ml Contains: Piroxicam……..20mg
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP certificate of M/s Zeon Health Industries., Plot No# J-201, 202, MIDC, Tarapur, Biosar., Tal Palghar, Dist. Thane, Tarapur-401506 Taluka District Airoli India issued by Food and Drugs Administration (Maharashtra State) India valid upto 04-11-2023. The copy of cGMP certificate from a different manufacturer is submitted than that given in form 5F.
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted.
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Clarification is required as the manufacturing date mentioned on COA of drug substance by drug substance manufacturer is December 2013 (exp november2018) while manufacturing	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • Firm has submitted another COA of drug substance (Batch#PRAH0130218) from a different drug substance manufacturer "M/s Zeon-Health industries" in which manufacturing date mentioned on COA of drug substance by drug substance

	date mentioned on COA of drug substance by drug product manufacturer is 12-2019 (exp 11-2023) and receiving date 18-03-2020	manufacturer is FEB 2018 (Exp; JAN 2023) while manufacturing date mentioned on COA of drug substance by drug product manufacturer is 02-2018 (Exp 01-2023)
3.2.P.2	• Details of module 2 are provided in section 3.2.P.2.1 to 3.2.P.2.6, of module 3 clarify • Justification shall be submitted for not performing pharmaceutical equivalence studies against the innovator product	• Details in section 3.2.P.2.1 to 3.2.P.2.6, of module 3 is not submitted. • The firm submitted that we have performed comparative study of our product with a leading brand of Pakistan Mobicam injection from M/s Sami Pharmaceuticals batch No#20H014, Mfg. date; 01-20 Exp; 01-22. • Revised pharmaceutical report is submitted
3.2.P.3	• Details of module 2 are provided in section 3.2.P.3.1to 3.2.P.3.4, of module 3 clarify • Justification shall be submitted as the qualitative composition of applied product is not similar to reference product. (**reference product**; Sodium dihydrogen phosphate dihydrate, nicotinamide, alcohol, benzyl alcohol, sodium hydroxide, water for injections, propylene glycol. **Applied product;** Disodium hydrogen phosphate, L-Arginine, Ethanol, benzyl alcohol, sodium metabisulfite, water for injections, propylene glycol**)**	• Details in section 3.2.P.3.1to 3.2.P.3.4, of module 3 is not submitted. • Drug-Excipient compatibility study is submitted
3.2.P.5	• Justification shall be submitted as analytical procedure for assay is submitted as per UV method while method validation studies is submitted as per HPLC method • Justification shall be submitted for not performing test for particulate matter in batch analysis as per submitted specifications	• Firm has submitted revised analytical method in which procedure of assay test is submitted as per HPLC method. • Firm has submitted revised batch analysis report in which test for particulate matter is performed
3.2.P.8	• Submit documents for procurement of API with approval from DRAP • *Clarification is required as the manufacturing date of drug substance as per submitted COA is* December 2013 and expiry date is november2018 *which is prior to the manufacturing date (04-2020) of trial batches (as per submitted batch analysis report and stability summary sheets)* • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted copy of commercial invoice No#ZHI-CI/2792 dated 20-03-2018 for import of 25kg of Piroxicam USP (Batch No#PRAH0130218) from M/s Zeon-Health Industries India in name of M/s Neutro Pharma (Pvt.) Ltd. However the invoice is not attested by AD (I&E) DRAP field office. • *No clarification is submitted.* However the firm has submitted another COA from another drug substance manufacturer (Piroxicam USP Batch No#PRAH0130218) from M/s Zeon-Health Industries India in which the expiry date of drug substance is prior to manufacturing of trial batches and batch No. of API is different from that already submitted in dossier. • Record of Digital data logger for temperature and humidity monitoring of

		stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Differential fee of Rs. 25,000/- for contract manufacturer, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin**
- **Details in section 3.2.P.2.1 to 3.2.P.2.6, of module 3 of form 5F**
- **Details in section 3.2.P.3.1 to 3.2.P.3.4, of module 3 of form 5F.**
- **Documents for procurement of API with approval from DRAP**

809.	Name, address of Applicant / Marketing Authorization Holder	M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore
	Name, address of Manufacturing site.	M/s Neutro Pharma (Pvt) Ltd., 9.5km Sheikhupura Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of Letter No. F. 1-3/2003-Lic (M-212) dated 14-06-2008 specifying Tablet (General), Tablet (General Antibiotic) Capsule (Cephalosporin), Dry Powder Suspension (Cephalosporin) section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6380 dated 08-03-2022
	Details of fee submitted	Rs.50,000/- dated 25-02-2021
	The proposed proprietary name / brand name	**C-Lexin 250mg Capsule**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Capsule Contains: Cefalexin as Monohydrate…….250mg
	Pharmaceutical form of applied drug	Capsule
	Pharmacotherapeutic Group of (API)	Cephalosporin-Antibiotics
	Reference to Finished product specifications	BP specifications
	Proposed Pack size	1x12's
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	KEFLEX (250mg, 500mg, 750mg) capsule USFDA Approved ***Discontinued****Federal Register determination that product was not discontinued or withdrawn for safety or effectiveness reasons*** Keflex Capsules 250mg MHRA Approved Ceporex Capsules 250mg MHRA Approved
	For generic drugs (me-too status)	Keflex Capsule 250mg by M/s AGP Ltd., (Reg#98686)
	Name and address of API manufacturer.	M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. (Batches; F2221/002/2004, F2221/040/2004, F2221/010/2005)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Ceporex capsule 250mg by M/s GSK Pakistan Ltd by performing quality tests (Description, identification, disintegration, assay).

		Firm has submitted CDP results of their product against the product Ceporex capsule 250mg by M/s GSK Pakistan Ltd in water, 0.1N HCl (pH 1.2) Acetate buffer (pH 4.5), & Phosphate Buffer (pH 6.8). The values of f2 factor are in acceptable range.
	Analytical method validation/verification of product	Firm has submitted method verification studies including precision (repeatability, intermediate), linearity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore		
API Lot No.	00214/023/2019		
Description of Pack (Container closure system)	Off white color granular powder filled in blue/blue color capsule and then in printed alu-alu foil and packed in unit carton		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	5000 capsule	5000 capsule	5000 capsule
Manufacturing Date	02-2020	02-2020	02-2020
Date of Initiation	03-02-2020	06-02-2020	10-02-2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore issued on 11-01-2019 based on inspection conduction on 08-01-2019 and valid upto three years from the date of inspection
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of delivery note from M/s Pharmagen Limited dated 12/12/2019 for Cephalexin compacted 50kg (Batch No# 00214/023/2019) to M/s Neutro Pharma.
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of	Not submitted

	stability chambers (real time and accelerated)	

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 08th March 2022. (almost 1 year before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Clarification is required as whether Drug substance follow USP or BP specifications as drug substance manufacturer has submitted specifications and analytical procedure according to both the pharmacopeias. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for not performing the test for pH, specific optical rotation and sulphated ash in batch analysis of drug substance as per BP monograph
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.P.2	• Justification is required for including lactose monohydrate in formulation which is not included in reference product formulation • Justification is required for selecting a single time point of dissolution in CDP studies instead of a minimum of three time-points (zero excluded) for both reference (comparator) and test product as per applicable guideline.
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation • Outline of method of complete manufacturing operation is not submitted
3.2.P.5	• Justification is required for not including the test for dissolution studies in finished product specifications • Results of analytical method verification studies including accuracy and specificity shall be submitted • Justification is required for assay results of batch No.003 as 1000.33% of cephalexin capsule in batch analysis • Justification is required for not performing the test for dissolution studies in batch analysis of finished product
3.2.P.8	• Justification is required for not performing the test for dissolution studies throughout stability studies • Commercial invoice for the procurement of API shall be submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 08th March 2022. (almost 1 year before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021	• The firm submitted that fee is submitted on 25-02-2021 while R&I date of submitted application is 08th March 2022. The firm submitted that we initially submitted our application on 10-03-2021, but some deficiencies were found in pre submission screening of CTD. • We re-submitted the file on 08-03-2022 along with deficient documents, that's why there is difference between fee submission date and R&I date of application. • The firm has submitted differential fee Rs. 25000/- on deposit slip No#03991636 dated 30-10-2023 for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F we have mistakenly submitted that applicant is manufacturer, actually applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Capsule (Cephalosporin) Section and Dry Powder Suspension (Cephalosporin) Section
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP certificate of M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore issued on 22-11-2022 based on inspection conduction on 18-11-2022
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted.

3.2.S.4	• Clarification is required as whether Drug substance follow USP or BP specifications as drug substance manufacturer has submitted specifications and analytical procedure according to both the pharmacopeias. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted. • Justification shall be submitted for not performing the test for pH, specific optical rotation and sulphated ash in batch analysis of drug substance as per BP monograph	• No clarification is submitted • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance is submitted. • Firm has submitted revised batch analysis report of drug substance in which test for pH, specific optical rotation and sulphated ash has been performed as per BP monograph
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of secondary reference standard including source and lot number is submitted.
3.2.P.2	• Justification is required for including lactose monohydrate in formulation which is not included in reference product formulation • Justification is required for selecting a single time point of dissolution in CDP studies instead of a minimum of three time-points (zero excluded) for both reference (comparator) and test product as per applicable guideline.	• Firm has submitted results of drug excipient compatibility study • No justification is submitted for selecting a single time point of dissolution in CDP studies
3.2.P.3	• Clarification is required as you have mentioned the use of 1% overage in master formulation • Outline of method of complete manufacturing operation is not submitted	• The firm has submitted revised master formulation containing no overage. • Complete manufacturing outline is submitted
3.2.P.5	• Justification is required for not including the test for dissolution studies in finished product specifications • Results of analytical method verification studies including accuracy and specificity shall be submitted • Justification is required for assay results of batch No.003 as 1000.33% of cephalexin capsule in batch analysis • Justification is required for not performing the test for dissolution studies in batch analysis of finished product	• No justification is submitted • Results of analytical method verification studies including accuracy and specificity is submitted • No justification is submitted • No justification is submitted

3.2.P.8	• Justification is required for not performing the test for dissolution studies throughout stability studies • Commercial invoice for the procurement of API shall be submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• No justification is submitted • Firm has submitted copy of sales tax invoice No#1014 dated 19-05-2019 for purchase of 25kg of Cephalexin (compacted) and 25kg Cephalexin (micronized) from M/s Pharmagen Limited in the name of M/s Neutro Pharma (Pvt) Limited. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Justification for selecting a single time point of dissolution in CDP studies instead of a minimum of three time-points (zero excluded) for both reference (comparator) and test product as per applicable guideline.**
- **Justification for not including the test for dissolution studies in finished product specifications**
- **Justification for assay results of batch No.003 as 1000.33% of cephalexin capsule in batch analysis**
- **Justification for not performing the test for dissolution studies in batch analysis of finished product**
- **Justification for not performing the test for dissolution studies throughout stability studies**

	Status of the applicant	☒ Manufacturer ☐ Importer ☒ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	M/s Neutro Pharma: Firm has submitted copy of cGMP certificate dated 11-07-2019 based on inspection conducted on 28-02-2019.
	Evidence of approval of manufacturing facility	Firm has submitted copy of Letter No. F. 1-3/2003-Lic (M-212) dated 14-06-2008 specifying Tablet (General), Tablet (General Antibiotic) Capsule (Cephalosporin), Dry Powder Suspension (Cephalosporin) section
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No 6379 dated 08-03-2022
	Details of fee submitted	Rs.50,000/- dated 25-02-2021
	The proposed proprietary name / brand name	**C-Lexin 125mg suspension**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml suspension Contains: Cephalexin as Monohydrate…….125mg
	Pharmaceutical form of applied drug	Dry powder suspension
	Pharmacotherapeutic Group of (API)	Cephalosporin-Antibiotics
	Reference to Finished product specifications	BP specifications
	Proposed Pack size	1x60ml
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Ceporex Syrup 125mg MHRA Approved
	For generic drugs (me-too status)	Ceporex 125mg/5ml Syrup by M/s GlaxoSmithKline Pakistan., (Reg#003374)
	Name and address of API manufacturer.	M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module III (Drug Substance)	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. (Batches; F2221/002/2004, F2221/040/2004, F2221/010/2005)
	Module-III (Drug Product):	Firm has submitted data of drug product including description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the product Ceporex suspension 125mg by M/s GSK Pakistan Ltd by performing quality tests (Description, identification, pH, assay).
	Analytical method validation/verification of product	Firm has submitted method verification studies including precision (repeatability, intermediate), linearity.

STABILITY STUDY DATA			
Manufacturer of API	M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore		
API Lot No.	00214/023/2019		
Description of Pack (Container closure system)	Amber glass bottle packed in unit carton		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	001	002	003
Batch Size	2000 packs	2000 packs	2000 packs
Manufacturing Date	02-2020	02-2020	02-2020
Date of Initiation	26-02-2020	27-02-2020	28-02-2020
No. of Batches	03		

Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm has submitted copy of cGMP certificate of M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore issued on 11-01-2019 based on inspection conduction on 08-01-2019 and valid upto three years from the date of inspection
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of delivery note from M/s Pharmagen Limited dated 12/12/2019 for Cephalexin compacted 50kg (Batch No# 00214/023/2019) to M/s Neutro Pharma.
4.	Data of stability batches will be supported by attested respective document like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like Raw data sheets, COA, chromatogram and summary data sheets etc.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 08th March 2022. (almost 1 year before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Clarification is required as whether Drug substance follow USP or BP specifications as drug substance manufacturer has submitted specifications and analytical procedure according to both the pharmacopeias. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.
3.2.P.2	• Submit results of drug excipient compatibility study as the qualitative composition of applied product is not similar to reference product • Justification shall be submitted for using compacted form of API in manufacturing of dry powder suspension • Justification is required as tests for antimicrobial preservative content and efficacy of preservative are not performed
3.2.P.3	• Clarification is required as you have mentioned the use of 1.1% overage in master formulation
3.2.P.5	• Justification is required for selecting limit of assay test in finished product specifications as 95-102% which is different from BP monograph • Results of analytical method verification studies including accuracy and specificity shall be submitted
3.2.P.8	• Commercial invoice for the procurement of API shall be submitted • In use stability study of reconstitution suspension shall be submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required

Previous Decision (M-331-DRB): Registration Board deferred the case for submission of reply to the above cited shortcomings

Response of the firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted on 25-02-2021 while R&I date of submitted application is 08th March 2022. (almost 1 year before R&I date) • Submit differential fee for contract manufacturing of applied product as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021	• The firm submitted that fee is submitted on 25-02-2021 while R&I date of submitted application is 08th March 2022. The firm submitted that we initially submitted our application on 10-03-2021, but some deficiencies were found in pre submission screening of CTD. • We re-submitted the file on 08-03-2022 along with deficient documents, that's why

		there is difference between fee submission date and R&I date of application. • The firm has submitted differential fee Rs. 25000/- on deposit slip No#6032466225 dated 30-10-2023 for contract manufacturing
1.3.1	• Submitted application is for contract manufacturing while details of applicant and manufacturer provided in module 1 of form 5F is same clarify? • Cover letter and fee submitted is from M/s Radiant Pharma Pvt Ltd	• The firm has submitted details of applicant and manufacturer in module 1 of form 5F. **Applicant details:** M/s Radiant Pharma (Pvt) Ltd., 43-E, Sundar Industrial Estate, Raiwand Road, Lahore **Manufacturer details:** M/s Neutro Pharma (Pvt) Ltd., 9.5-km Sheikhupura Road, Lahore
1.3.3	You have submitted that applicant is Manufacturer and Is involved in none of the above (contract giver) in form 5F clarify	The firm submitted that in form 5F we have mistakenly submitted that applicant is manufacturer, actually applicant is contract giver. It might be a typographical error.
1.3.5	• Submit GMP certificate / GMP inspection report of both applicant & manufacturing unit conducted with in last three years	• **M/s Radiant Pharma (Pvt) Ltd** The firm has not submitted copy of cGMP certificate or GMP inspection report. However the firm has submitted a copy of letter addressed to Additional Director DRAP Lahore dated 21-08-2023 for issuance of cGMP certificate and inspection of M/s Radiant Pharma • **M/s Neutro Pharma (Pvt):** Firm has submitted copy of cGMP certificate dated 30-06-2022 based on inspection conducted on 14-04-2022. • Firm has submitted copy of letter of M/s Neutro Pharma dated 04-07-2022 specifying Capsule (Cephalosporin) Section and Dry Powder Suspension (Cephalosporin) Section
1.6.5	• Valid GMP certificate / DML of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin is required	• The firm has submitted copy of cGMP certificate of M/s Pharmagen Limited., Kot Nabi Bukshwala, 34-Km Ferozepur Road, Lahore issued on 22-11-2022 based on inspection conduction on 18-11-2022
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3> is submitted.
3.2.S.4	• Clarification is required as whether Drug substance follow USP or BP specifications as drug substance manufacturer has submitted specifications and analytical procedure according to both the pharmacopeias.	• No clarification is submitted • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed

	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	by the Drug Product manufacturer for drug substance is submitted.
3.2.P.2	• Submit results of drug excipient compatibility study as the qualitative composition of applied product is not similar to reference product • Justification shall be submitted for using compacted form of API in manufacturing of dry powder suspension • Justification is required as tests for antimicrobial preservative content and efficacy of preservative are not performed	• Firm has submitted results of drug excipient compatibility study • Firm has submitted another COA of micronized form of Cephalexin from drug substance manufacturer • No justification is submitted
3.2.P.3	• Clarification is required as you have mentioned the use of 1.1% overage in master formulation	• The firm has submitted revised master formulation containing no overage.
3.2.P.5	• Justification is required for selecting limit of assay test in finished product specifications as 95-102% which is different from BP monograph • Results of analytical method verification studies including accuracy and specificity shall be submitted	• Firm has submitted revised finished product specifications in which limit of assay test has been revised as per BP monograph (80%-120%) • Results of analytical method verification studies including accuracy and specificity is submitted
3.2.P.8	• Commercial invoice for the procurement of API shall be submitted • In use stability study of reconstitution suspension shall be submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is required	• Firm has submitted copy of sales tax invoice No#1014 dated 19-05-2019 for purchase of 25kg of Cephalexin (compacted) and 25kg Cephalexin (micronized) from M/s Pharmagen Limited in the name of M/s Neutro Pharma (Pvt) Limited. • Firm has manufactured another trial batch and submitted in use stability study of reconstitution suspension. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **Fee of Rs. 75,000/- for change of Applicant / Marketing Authorization Holder, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**
- **GMP certificate / GMP inspection report of applicant i.e. M/s Radiant Pharma (Pvt) Ltd conducted with in last three years**
- **Justification for not performing the tests for antimicrobial preservative content and efficacy of preservative**

811.	Name, address of Applicant / Marketing Authorization Holder	M/s Vega Pharmaceuticals (Pvt.) Ltd., Plot No. 4, Pharma City, 30-Km Multan Road, Lahore
	Name, address of Manufacturing site.	M/s Vega Pharmaceuticals (Pvt.) Ltd., Plot No. 4, Pharma City, 30-Km Multan Road, Lahore
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the Finished product manufacturer	Not submitted
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-22/2001-Lic (Vol-II) dated 07-06-2021 which specifies Eye Drops Section (General) and Eye Drops Section (Steroid)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy.No. 1895 dated 20-01-2022
	Details of fee submitted	Rs. 30,000/- dated 24-05-2021 (Deposit slip#3141834076)
	The proposed proprietary name / brand name	Venac Forte 0.3% Eye Drops
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml of Suspension Contains: Nepafenac…….3mg
	Pharmaceutical form of applied drug	Eye Drops suspension
	Pharmacotherapeutic Group of (API)	NSAIDs
	Reference to Finished product specifications	Manufacturer Specifications
	Proposed Pack size	3ml
	Proposed unit price	Rs 665.00/-
	The status in reference regulatory authorities	ILEVRO 0.3%, ophthalmic suspension, USFDA Approved.
	For generic drugs (me-too status)	Curanep Forte Eye Drops by M/s The Schazoo Pharmaceutical, (Reg. No. 107144)
	Name and address of API manufacturer.	M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system of drug substance and drug product is submitted.

	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, batch analysis and justification of specification, container closure system of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Not submitted
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, analytical procedure and its validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Nepatek 0.3% eye drops by M/s Innvotek Pharmaceuticals Islamabad by performing quality tests (Physical appearance, pH, Assay).
	Analytical method validation/verification of product	Firm has submitted method validation studies including specificity, accuracy, linearity, precision, robustness, system suitability.

STABILITY STUDY DATA			
Manufacturer of API	M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China

Manufacturing Date	10-2020	10-2020	10-2020
Date of Initiation	20-10-2020	20-10-2020	20-10-2020
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted only stability summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations
1.1	• Clarification is required as the fee is submitted almost 08 months before the R&I date of submitted application.
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted
1.6.5	• Valid GMP certificate of drug substance manufacturer issued by relevant regulatory authority of country of origin is required
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both drug substance manufacturer and Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance shall be submitted. • Sterility test for drug substance is not performed in batch analysis by drug product manufacturer as recommended by drug substance manufacturer
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.
3.2.S.8	• Stability study data of drug substance from drug substance manufacturer till claimed shelf life is not submitted
3.2.P.	• Submit module 3 drug product part section 3.2.P.1 and 3.2.P.2 as per CTD guidance document • Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, in pharmaceutical equivalence studies • Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product? • Justify why complete testing has not been performed in pharmaceutical equivalence studies as per finished product specifications
3.2.P.3	• Justification is required as the manufacturing procedure of the applied product does not contain sterilization process
3.2.P.5	• Justification is required for not including test for benzalkonium chloride identity, benzalkonium chloride assay, edetate disodium identity, edetate disodium assay, osmolality, redispersibility, viscosity, particle size distribution and endotoxin content in finished product specification as recommended by innovator product review document. • The limit of pH test (pH 7.0-8.0) is different than that recommended by innovator product review document (pH 6.8). • The results of assay test are more than that recommended by innovator product review document (7.75, 7.69, 7.72)

	• Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not included in specification
3.2.P.6	• COA of secondary reference standard is submitted from M/s Precise Chem Pharma Pvt. Ltd India while drug substance manufacturer as per section 3.2.S.2 is M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China, Clarify
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP • Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA is not submitted • Justification is required as the stability study has not been performed as per the stability conditions recommended by ICH Q1A (R2) 2.2.7.3. for Drug products packaged in semipermeable containers • Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not performed in stability studies • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not submitted

Previous Decision (M-326-DRB): Board deferred the case for submission of reply to the above cited shortcomings within six months as the board was apprised that the letter of shortcoming has been initially shared with the firm and waiting for reply.

Response of firm:

Section	Deferment Reason	Firm's Response
1.1	• Clarification is required as the fee is submitted almost 08 months before the R&I date of submitted application.	• The firm submitted that fee was deposited when dossier was completed at our end and sent for screening. But during screening process, we were informed regarding some short comings. So, we worked on it to provide the required data and it took time. So this is the reason that there is gap between fee deposit date and R&I of submitted application
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted a request letter to Deputy Director General DRAP Lahore for the condution of HMP inspection dated 28-03-2022.
1.6.5	• Valid GMP certificate of drug substance manufacturer issued by relevant regulatory authority of country of origin is required	• Not submitted
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Submitted
3.2.S.4	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both drug substance manufacturer and Drug product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance by both drug substance manufacturer and Drug product manufacturer is submitted. • Analytical Method Verification studies including accuracy, repeatability (method precision),linearity, solution stability and system suitability is

	manufacturer for drug substance shall be submitted. • Sterility test for drug substance is not performed in batch analysis by drug product manufacturer as recommended by drug substance manufacturer	submitted. However, results of specificity test is not submitted. • Sterility test results for drug substance is submitted by drug product manufacturer
3.2.S.5	• COA of primary / secondary reference standard including source and lot number shall be provided.	• COA of primary reference standard including source and lot number is submitted
3.2.S.8	• Stability study data of drug substance from drug substance manufacturer till claimed shelf life is not submitted	• Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months.
3.2.P.	• Submit module 3 drug product part section 3.2.P.1 and 3.2.P.2 as per CTD guidance document • Submit details of reference / comparator product including batch numbers, manufacturing & expiry date, in pharmaceutical equivalence studies • Justify why Pharmaceutical equivalence of the applied product has not been performed against the innovator product? • Justify why complete testing has not been performed in pharmaceutical equivalence studies as per finished product specifications	• Module 3 drug product part section 3.2.P.1 and 3.2.P.2 is submitted • Details of comparator product including batch numbers, manufacturing & expiry date is submitted. • The firm submitted that innovator product is not available in Pakistan while comparator product is availbale in pakitan, so we compared our prodct with Nepatek 0.3% ophthalmic suspension • The firm submitted that description (physical appearance), pH and assay are main parameters in testing of ophthalmic suspension, so these have been performed in pharmaceutical equivalence studies.
3.2.P.3	• Justification is required as the manufacturing procedure of the applied product does not contain sterilization process	• The firm submitted that bottles with nozzles and caps are sterilized by gamma radiation. All manufacturing process are carried out under aseptic conditions • Nepafenac is available in sterilized form • Carbomer 974, guar gum and carboxymethyl cellulose sodium are mixed in water and sterilized by heating in autoclave. • Remaining excipient are mixed in purified water and sterilized by passing through 0.22 micron filter. • Final mixing tank is sterilized by steam • All the above materials are collected in final mixing tank and are mixed in final mixing tank under aseptic conditions. • Filling process is completed under aseptic conditions. • So no further sterilization is required after filling of bottles under aseptic conditions
3.2.P.5	• Justification is required for not including test for benzalkonium chloride identity,	• The firm submitted that benzalkonium chloride and edetate disodium are

	benzalkonium chloride assay, edetate disodium identity, edetate disodium assay, osmolality, redispersibility, viscosity, particle size distribution and endotoxin content in finished product specification as recommended by innovator product review document. • The limit of pH test (pH 7.0-8.0) is different than that recommended by innovator product review document (pH 6.8). • The results of assay test are more than that recommended by innovator product review document (7.75, 7.69, 7.72) • Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not included in specification	excipients, their complete analysis is conducted in raw material form. While in finished form of eye drops our claim is only for active material i.e. Nepafenac 3mg/ml. identification and assay tests of excipients are not required when they are added in formulation. Only testing and analysis of active material is conducted in finished product of eye drops. • Tests for osmolality, redispersibility, viscosity and particle size distribution will be included when commercial batches of full scale are prepared. • Bacterial Endotoxin Test is not included in finished product analysis of eye drops. Only sterility test is included • The firm submitted that the product is stable at pH between 7.0 to 8.0 with regard to colour of the product and stability of pH. Physical appearance of the product changes from yellow to orange at pH below 7.0 • Moreover we are already manufacturing Nepafenac 0.1% ophthalmic suspension with pH range of 7.0 to 8.0. this product is well stable at this pH range. • The firm submitted that assay limit of applied product is 90 to 110% of label claim. Assay results are well within this limit • SOP for tests for antimicrobial preservative and efficacy of preservative have been prepared and submitted
3.2.P.6	• COA of secondary reference standard is submitted from M/s Precise Chem Pharma Pvt. Ltd India while drug substance manufacturer as per section 3.2.S.2 is M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China, Clarify	• The firm submitted that their QA department has approved three sources for procurement of Nepafenac. These include; Hangzhou Zhongchang Scientific Co., China, Henan Purui Pharma China and Precise ChemiPharma India. • The working standard was available manufactured by Precise Chemipharma india. That is good thing that the raw material and working standard used were of different companies
3.2.P.8	• Submit documents for the procurement of API with approval from DRAP • Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA is not submitted • Justification is required as the stability study has not been performed as per the stability conditions recommended by ICH Q1A (R2) 2.2.7.3. for Drug products packaged in semipermeable containers	• The firm submitted that as we are already manufacturing Nepafenac 0.1% eye drops with DRAP registered name of Venac 0.1% eye drops. The material is always available in our raw material store. So we have not got DRAP approval for procurement of active or raw material to prepare trial batches of Nepafenac 0.3 eye drops. • K • The firm submitted that our product is not packaged in semipermeable

	• Justification is required as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not performed in stability studies • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is not submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not submitted	containers. So stability study of the product was not performed as per conditions of drug product packaged in semipermeable containers • SOP for determination of antimicrobial preservative content prepared and testing will be performed on commercial batches used for stability study. • The firm submitted that we analyzed the product on HPLC manufactured by Skyam Germany. Audit trial is not available on this instrument • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Decision: Deferred for submission of following:

- **GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years**
- **Valid copy of cGMP certificate / DML of the Drug Substance manufacturer of relevant manufacturing site issued by relevant regulatory authority of country of origin**
- **Results of specificity test in method verification of studies drug substance**
- **Justification for not including test for benzalkonium chloride identity, benzalkonium chloride assay, edetate disodium identity, edetate disodium assay, osmolality, redispersibility, viscosity, particle size distribution and endotoxin content in finished product specification as per innovator product review document.**
- **Clarification for submitting COA of secondary reference standard from M/s Precise Chem Pharma Pvt. Ltd India while drug substance manufacturer as per section 3.2.S.2 is M/s Hangzhou Zhongchang Scientific Co., Ltd., E/19 Tianyuan Mansion, No. 508, Wensan Road, Hanzghou, China**
- **Submit documents for the procurement of API with approval from DRAP**
- **Data of stability batches supported by attested respective documents like chromatograms, Raw data sheets, COA.**
- **Justification as the stability study has not been performed as per the stability conditions recommended by ICH Q1A (R2) 2.2.7.3. for Drug products packaged in semipermeable containers**
- **Justification as tests for antimicrobial preservative content and efficacy of preservative as recommended by USP chapter <51> is not performed in stability studies**

812.	Name, address of Applicant / Marketing Authorization Holder	M/s Welwrd Pharmaceuticals., Plot No#3, Block A, Phase I-II, Industrial Estate, Hattar, Haripur

	Evidence of approval of manufacturing facility	Firm has submitted copy of GMP certificate dated 08-07-2019 based on inspection conducted on 12-11-2018 which specifies Tablet section (General/Antibiotic)
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical	☐ Domestic sale

	product	☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 3728 dated 09/02/2022
	Details of fee submitted	PKR 30,000/-: dated 15/09/2021 (Deposit Slip#675681277631)
	The proposed proprietary name / brand name	**Empawrd-M 5/500mg Tablet**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Empagliflozin (In-House)……..……5mg Metformin HCl (USP)…….……...500mg
	Pharmaceutical form of applied drug	Film coated tablet
	Pharmacotherapeutic Group of (API)	Combinations of oral blood glucose lowering drugs
	Reference to Finished product specifications	Innovator's specifications
	Proposed Pack size	2x7's
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	SYNJARDY (5mg/500mg, 5mg/1000mg, 12.5mg/500mg, 12.5 mg/1000 mg) film-coated tablet USFDA approved
	For generic drugs (me-too status)	Xenglu-Met 5/500mg Tablets by M/s Hilton Pharma (Reg#105290)
	Name and address of API manufacturer.	**Empagliflozin:** M/s Fuxin Long Rui Pharmaceutical Co. Ltd., Fluoride Industrial park, Fumeng County, Fuxin city, Liaoning province, 123000, China. **Metformin HCl:** M/s Aarti Drugs Limited., Plot No. 109-D, Mahendra Industrial Estate Road No.29 Sion (East), Mumbai – 400022, India
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	The firm as submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Stability study conditions: **Metformin HCl:** Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: (MEF/1410029, MEF/1410028, MEF/1410027) **Empagliflozin:**

		Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (20160606, 20161017, 20161219)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, specifications, validation studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence have been established against the brand that is Empaa-M 5/500mg tablet by M/s Weatherfolds Pharma by performing quality tests (Identification, Assay, Dissolution, weight variation). CDP has been performed against the same brand that is Empaa M 5/500 mg Tablet by M/s Weatherfolds Pharma in Acid media (pH 1.2), Acetate Buffer (pH 4.5) & Phosphate Buffer (pH 6.8).
	Analytical method validation/verification of product	Firm has submitted summary of analytical method validation studies including linearity, range, accuracy, precision, LOD, LOQ.

STABILITY STUDY DATA

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued	**<u>Empagliflozin:</u>** Firm has submitted copy of GMP certificate in the name

	by concerned regulatory authority of country of origin.	of M/s Fuxin Long Rui Pharmaceutical Co., Ltd, Fluoride Industrial Park, Fuxin City, Liaoning Province - 123000, China issued by Fuxin Food and Drug Administration China valid upto 27-09-2020. Firm has submitted copy of DML (Certificate# Liao20150233) in the name of M/s Fuxin Long Rui Pharmaceutical CO., Ltd., China valid upto 20-12-2022. **Metformin HCl:** The firm has submitted GMP certificate for M/s Aarti Drugs Limited., (Unit-II) Plot No. 211 & 213, Road No.2 G.I.D.C., Sarigam, Dist.: Valsad, Gujarat State India issued by Food & Drug Control Administration Gandhinagar India. The certificate is valid till 09-01-2020
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Empagliflozin:** Firm has submitted copy of invoice No. HN190108-C dated 08-01-2019 for import of 0.41Kg of Empagliflozin (Batch No# E-20181027-D02-E06-01) in name of M/s Welwrd Pharmaceuticals attested by AD (I&E) DRAP Peshawar dated 23-01-2019. Firm has also submitted copy of form 6 dated 23-01-2019 for import of 0.41Kg of Empagliflozin in name of M/s Welwrd Pharmaceuticals attested by AD (I&E) DRAP Peshawar dated 23-01-2019. **Metformin HCl:** Firm has submitted copy of invoice No. EXP/1678/18-19 dated 21-11-2018 for import of 500Kg of Metformin HCl (Batch No# MEF/18091912) in name of M/s Welwrd Pharmaceuticals attested by AD (I&E) DRAP Peshawar dated 05-12-2018.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted data of stability batches supported by attested respective documents like chromatograms, summary data sheets etc. Raw data sheets and COAs are not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator [XI]:

Section	Observations	Firm's response
1.3.5	• GMP inspection report/ GMP certificate of the manufacturing unit issued within the last three years shall be submitted	• Firm has submitted copy of cGMP certificate issued on 10-06-2022 based on inspection conducted on 30-03-2022
1.4.1.	• The applied drug product is a generic drug product while you have applied for a new drug product, clarify	• Firm has corrected the application type in form 5F as Generic drug product
1.6.5	• Valid GMP certificate / DML of drug substance manufacturer for Empagliflozin and Metformin issued by relevant regulatory authority of country of origin is required • Address of M/s Aarti drugs Limited in	**Empagliflozin:** The firm has submitted written confirmation for active substance exported to EU to M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China for Active substance Empagliflozin confirming that

	submitted application is different than that mentioned in GMP certificate, clarify	the manufacturing plant complies with requirement of Chinese Good Manufacturing practices. This certificate is valid till 25-05-2024 Firm has also submitted copy of DML (License#Liao20150233) of M/s Fuxin Long Rui Pharmaceutical Co., Ltd, China valid upto 17-11-2027 verified from NMPA website. **Metformin HCl:** The firm has submitted GMP certificate for M/s Aarti Drugs Limited., (Unit-II) Plot No. 211 & 213, Road No.2 G.I.D.C., Sarigam, Dist.: Valsad, Gujarat State India issued by Food & Drug Control Administration Gandhinagar India. *The certificate is valid till 19-03-2023*
2.3.R.1	• Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>	• Firm has submitted copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3>
3.2.S.3	• Submit details in this section as per the guidance document	• Details in this section are submitted as per guidance document
3.2.S.4	• Copies of the Drug substance analytical procedures used for routine testing of the Drug Substance Metformin HCl by drug substance manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Metformin HCl by Drug Product manufacturer is required. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Empagliflozin by Drug Product manufacturer is required. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance Metformin HCl and Empagliflozin shall be submitted. • Clarification is required as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead of HPLC method as recommended by USP. • Justification is required for not performing test for identification (IR & Reaction of Chloride) and residue on ignition for drug substance metformin HCl in batch analysis by drug product manufacturer as recommended by USP	• Copies of the Drug substance analytical procedures used for routine testing of the Drug Substance Metformin HCl by drug substance manufacturer is not submitted. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Metformin HCl by Drug Product manufacturer is not submitted. • Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Empagliflozin by Drug Product manufacturer is not submitted. • Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance Metformin HCl and Empagliflozin is submitted • *No response submitted* • *No response submitted* • *No response submitted* • Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies from Drug Substance manufacturer is submitted. However, the batch No# (MEF/19040649) of Metformin HCl is different from that mentioned in batch analysis of drug product manufacturer.

	• Justification is required for not performing test for identification and residue on ignition for drug substance empagliflozin in batch analysis by drug product manufacturer as recommended by drug substance manufacturer. • Provide Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies batch from Drug Substance manufacturer.	
3.2.P.2	• Justify why Pharmaceutical equivalence and CDP of the applied product has not been performed against the innovator product? • Submit detailed CDP studies including details of dissolution parameters, dissolution media, sampling time point and details of analytical parameters used and f2 factor calculation	• Firm has again submitted Pharmaceutical Equivalence of applied product against the brand that is Empaa-M 5/500mg tablet by M/s Weatherfolds Pharma by performing quality tests (Identification, Assay, Dissolution, weight variation). • Firm has submitted details of CDP studies including details of dissolution parameters, dissolution media, sampling time point and details of analytical parameters. *However CDP has been performed against the comparator product Empaa-M 5/500mg tablet by M/s Weatherfolds Pharmaceuticals.*
3.2.P.5	• Justification is required for not including the test for assay in finished product specifications • Detailed analytical procedures used for testing the drug product shall be provided. • Complete analytical method validation studies including specificity test shall be submitted • Justification is required for not performing test for uniformity of dosage units (content uniformity/weight variation) in batch analysis as recommended by innovator product review document • Submit readable copies of batch analysis report of three batches	• Firm has submitted revised finished product specifications containing content uniformity test, time point for dissolution studies and details of assay test. • Firm has submitted detailed analytical procedures used for testing the drug product shall be provided • Firm has submitted analytical method validation studies including results of specificity test. • Firm has submitted copy of revised batch analysis report containing results of content uniformity test
3.2.P.6	Clarification is required whether the same Reference Standards or Materials of empagliflozin was used for test and analysis of drug product as the expiry date mentioned on the COA of Reference Standards or Materials is 18.04.2018 while manufacturing date of drug product as per submitted COA is 08-2020	• Firm has not submitted any clarification. However, Firm has submitted COA of another working standard. The expiry date mentioned on this reference standard is 05-08-2020 and manufacturing of trial batches is subsequent to this date.
3.2.P.8	• Submit complete analytical record of stability study including summary data sheets, COA, Raw data sheets, and chromatograms. Chromatograms of accelerated stability study are attached with summary sheet of real time study and vice versa • Compliance Record of HPLC software	• Firm has submitted analytical record of stability study including summary data sheets, COA. *However detailed Raw data sheets and chromatograms are not submitted* • Compliance Record of HPLC software 21CFR & audit trail reports on product testing is submitted

	21CFR & audit trail reports on product testing is not submitted • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is not submitted	• Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) is submitted

Previous Decision (M-330-DRB): Deferred for submission of following:

- Valid GMP certificate / DML of drug substance manufacturer for Metformin issued by relevant regulatory authority of country of origin
- Copies of the Drug substance analytical procedures used for routine testing of the Drug Substance Metformin HCl by drug substance manufacturer.
- Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Metformin HCl and Empagliflozin by Drug Product manufacturer.
- Clarification as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead of HPLC method as per USP monograph.
- Justification for not performing test for identification (IR & Reaction of Chloride) and residue on ignition for drug substance metformin HCl in batch analysis by drug product manufacturer as per USP monograph
- Justification for not performing test for identification and residue on ignition for drug substance Empagliflozin in batch analysis by drug product manufacturer as recommended by drug substance manufacturer.
- Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies batch from Drug Substance manufacturer.
- Pharmaceutical equivalence and CDP of the applied product against the innovator product
- Clarification whether the same Reference Standards or Materials of empagliflozin was used for test and analysis of drug product as the expiry date mentioned on the COA of Reference Standards or Materials is 18.04.2018 while manufacturing date of trial batches is subsequent to this date.
- Detailed Raw data sheets and chromatograms are not submitted
- Fee of Rs. 7,500/- for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Firm's Response:

S No	Observations	Response by firm
1	• Valid GMP certificate / DML of drug substance manufacturer for Metformin issued by relevant regulatory authority of country of origin	• The firm has submitted copy of cGMP certificate for M/s Aarti Drugs Limited., (Unit-II) Plot No. 211 & 213, Road No.2 G.I.D.C., at & post Sarigam, Dist.: Valsad, Gujarat State India issued by Food & Drug Control Administration Gandhinagar India valid upto 20-06-2026
2	• Copies of the Drug substance analytical procedures used for routine testing of the Drug Substance Metformin HCl by drug substance manufacturer.	• Copies of the Drug substance analytical procedures used for routine testing of the Drug Substance Metformin HCl by drug substance manufacturer is submitted
3	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Metformin HCl and Empagliflozin by Drug Product manufacturer.	• Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug Substance Metformin HCl and Empagliflozin by drug product manufacturer is submitted.
4	• Clarification as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead of HPLC method as per USP monograph.	• No clarification is submitted

5	• Justification for not performing test for identification (IR & Reaction of Chloride) and residue on ignition for drug substance metformin HCl in batch analysis by drug product manufacturer as per USP monograph	• Firm has submitted revised batch analysis report for drug substance Metformin HCl in which test for identification (Reaction of Chloride) and residue on ignition is performed by drug product manufacturer
6	• Justification for not performing test for identification and residue on ignition for drug substance Empagliflozin in batch analysis by drug product manufacturer as recommended by drug substance manufacturer.	• Firm has submitted revised batch analysis report for drug substance empagliflozin in which test for identification and residue on ignition is performed by drug product manufacturer
7	• Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies batch from Drug Substance manufacturer.	• Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies from Drug Substance manufacturer is submitted. However, the batch No# (MEF/19040649) of Metformin HCl is different from that mentioned in batch analysis and stability summary sheets of drug product manufacturer
8	• Pharmaceutical equivalence and CDP of the applied product against the innovator product	• Firm has again submitted Pharmaceutical Equivalence and CDP studies of applied product against the brand that is Empaa-M 5/500mg tablet by M/s Weatherfolds Pharma.
9	• Clarification whether the same Reference Standards or Materials of empagliflozin was used for test and analysis of drug product as the expiry date mentioned on the COA of Reference Standards or Materials is 18.04.2018 while manufacturing date of trial batches is subsequent to this date.	• Firm has not submitted any clarification. However, firm has submitted another COA of Reference Standards or Materials of empagliflozin and the expiry date mentioned on the COA of Reference Standards or Materials is 05.08.2020
10	• Detailed Raw data sheets and chromatograms are not submitted	• Chromatograms for Empa-Metformin 12.5/500mg Tablet strength is submitted • Detailed Raw data sheets of stability testing is not submitted, instead chromatograms of other strenght are submitted
11	• Fee of Rs. 7,500/- for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	• Fee for correction/pre-approval change is not submitted

Previous Decision (M-331st-DRB): Deferred for submission of:

- Clarification as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead
- Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies batch from Drug Substance manufacturer.
- COA of Reference Standards or Materials of empagliflozin was used for test and analysis of drug product in stability study
- Detailed Raw data sheets and chromatograms of stability study of applied product
- Fee of Rs. 7,500/- for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Firm's Response:

S No	Deferment Reason	Response by firm

1	• Clarification as the drug substance manufacturer has performed assay of drug substance Metformin HCl in batch analysis by potentiometric method instead	• The firm has submitted response from drug substance manufacturer M/s Aarti Drugs Limited India. The firm has submitted that Metformin Hydrochloride Batch No. MEF/18091912 manufactured in Sep-2018 and USP assay by HPLC method incorporated in USP monograph on Nov 2019. At the time Sep-2018 Assay by HPLC method was not available in USP Monograph at the time of release of batch. • In the previous version USP monograph upto Nov-2019 Assay by potentiometry method was going on hence Assay analysis for Metformin Hydrochloride Batch No. MEF/18091912 was performed by potentiometry.
2	• Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies batch from Drug Substance manufacturer.	• Certificate of Analysis of the relevant batch of Drug Substance used during product development and stability studies batch from Drug Substance manufacturer is submitted
3	• COA of Reference Standards or Materials of empagliflozin was used for test and analysis of drug product in stability study	• The firm submitted that having initially utilized the working standard with batch#E6DZ201802, manufactured on 06-08-2018 and expiring on 05-08-2020, we later proceeded to meticulously develop our proprietary reference standard from the same raw material, resulting in a refined benchmark for further stability analysis. The COA of Reference Standards or Materials of empagliflozin is submitted
4	• Detailed Raw data sheets and chromatograms of stability study of applied product	• Firm has submitted data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA and summary data sheets.
5	• Fee of Rs. 7,500/- for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	• Firm has submitted fee Rs. 7,500/- vide deposit slip#60216368985 for correction/pre-approval change in product specifications

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Name and address of API manufacturer.	Jiangsu yongan Pharmaceutical Co. Ltd., No. 18, 237 provincial road economic development zone, huaian Jiangsu China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. The firm has submitted summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, control of excipients, control of drug product, specifications, analytical procedures, validation/verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard,

		container closure system and stability studies of drug substance.
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability study is conducted at 40 ^{O} ± 2 ^{O}C /75% ± 5% RH for 6 months. The real time stability study is conducted at 30^{O}C ± 2 ^{O} C / 65% ± 5% RH for 36 months. (Batch No. 130401, 130402 & 130501)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures and its verification studies, batch analysis, justification of specifications, reference standard or materials, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been performed against innovator product Forxiga 5mg tablet. CDP has been performed against innovator product Forxiga 5mg tablet in Acid media (pH 1.2), acetate buffer pH 4.5 & Phosphate Buffer (pH 6.8). The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies is submitted including linearity, range, accuracy, precision, specificity.

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm submitted copy of minutes of 296th meeting of registration board dated 8th, 9th & 10th September, 2020 in which their product Empaglif 10mg and 25mg applied on form 5F has been approved based on the inspection conducted by the panel for authenticity of stability data

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm submitted copy of GMP certificate of Jiangsu Yongan Pharmaceutical Co., Ltd China valid up to 03-03-2021
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted clearance certificate and form 6 attested by Assistant Director (I&E) DRAP Islamabad dated 01-04-2019 for the import of 200gm Dapagliflozin Propanediol Monohydrate and 5mg impurity A and 5mg Impurity B. However, the firm has not submitted invoice for import of said materials.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail reports on product testing
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.4	Submit Valid copy of Drug Manufacturing License	The firm have submitted valid Drug Manufacturing License
1.6.5	Submit valid GMP certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	The firm submitted valid GMP certificate
3.2.S.4.1. - 3.2.S.4.2	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Firm have submitted Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer. However, the chromatographic test conditions were different as compared with drug substance manufacturer. For example, the chromatographic conditions used by the **drug substance manufacturer are:** **Related substances:** Mobile phase; Water R (0.01M NaH2PO4); Acetonitrile R (50;50v/v) DetectIion; 225nm Injection; 20ul Flow rate; 1ml/min **Drug product manufacturer;** **Related substances:** Mobile phase; Methanol:Water (70;30 v/v) Detectio; 223nm Injection; 20ul Flow rate; 1.5ml/min Temperature; 40ºC **Drug substance manufacturer:** **Assay:** Mobile phase; Water R (0.01M NaH2PO4); Acetonitrile R (50;5 v/v)

		Detection; 225nm Injection; 20ul Flow rate; 1ml/min Temperature: 25ºC **Drug product manufacturer;** **Assay:** Mobile phase; Methanol:Water (70;30 v/v) Detection; 223nm Injection; 20ul Flow rate; 1.5ml/min Temperature; 40ºC
3.2.S.4.3	• Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	The firm have submitted Analytical Method validation studies performed by the Drug Product manufacturer for drug substance(s)
3.2.S.4.4	• In batch analysis of drug substance performed by drug product manufacturer, in test for identification you have submitted that it is positive for empagliflozin while the applied product is dapagliflozin, clarify? • Justification shall be provided for any incomplete analyses of the drug substance / API by Drug Product manufacturer (propanediol, residue on ignition, heavy metals, related substances, residual solvents, particle size)	• The firm submitted that during analysis Dapagliflozin was identified. *However due to typo-graphical error Empagliflozin was written instead of dapagliflozin in COA. The rectified COA with supportive documents is submitted*. • No justification provided for incomplete analysis
3.2.P.1	• You have used lactose monohydrate in your formulation while innovator product has used lactose anhydrous. Justify that the applied product is equivalent to innovator product.	The firm submitted that we designed formulation qualitatively similar to innovator (Forxiga tablet). *We actually used lactose anhydrous and was mistakenly written as lactose monohydrate. The firm have submitted revised BMR.*
3.2.P.4	• In control of excipients you have given specifications for croscarmellose while you have not used croscarmellose in formulation, clarify? Moreover, you have used lactose monohydrate while you have not provided specifications of lactose monohydrate?	The firm submitted that it was mistakenly written, specifications for lactose anhydrous is submitted
3.2.P.8.1	• Stability data of drug product at initial time point is not submitted • You have mentioned in house specifications in module I section 1.5.6 while innovators specifications in stability summary sheets, clarify?	• Stability data of drug product at initial time point is submitted • The firm submitted that they have designed their product on innovator's specifications and updated the specifications at section 1.5.6. as innovator's specifications without submission of applicable fee. The firm also submitted revised form 5F
	• Submit invoice for the imported raw materials. • Submit Compliance Record of HPLC software 21CFR	• The firm have not submitted invoice for the imported raw material • The firm submitted A General Compliance certificate of HPLC software 21CFR

	• Provide complete calculation for determining the quantity of dispensed drug substance keeping in view water content	• The firm have submitted calculation for determining the quantity of dispensed drug substance on theoretical basis. *The water content was not kept in mind while making calculation for dispensing drug substance*

Previous Decision (M-316-DRB) : Deferred for following:

- Justification for incomplete analyses of the drug substance / API by Drug Product manufacturer
- Justification for using different chromatographic conditions for analysis of related substances and assay test by the drug product manufacturer than those applied by drug substance manufacturer.
- Clarification for not considering the water content while making calculation for dispensing of drug substance
- Submission of the fee of Rs. 7,500 for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Evaluation by PEC:

Deferment reasons	**Response**
• Justification for incomplete analyses of the drug substance / API by Drug Product manufacturer	The firm submitted that testing of propanediol contents were not performed due to unavailability of GC. In future testing will be done through 3rd party i.e. M/s Rotex Pharmaceuticals and submitted copy of agreement for contract testing of raw materials
• Justification for using different chromatographic conditions for analysis of related substances and assay test by the drug product manufacturer than those applied by drug substance manufacturer.	The firm has submitted revised DMF of drug substance manufacturer from drug substance manufacturer and chromatographic conditions of drug substance manufacturer and drug product manufacturer are same. The firm further stated that this source of API have been used for the manufacturing of product for stability batches. The previous DMF has been mistakenly submitted in the dossier
• Clarification for not considering the water content while making calculation for dispensing of drug substance	The firm submitted that Water contents are already calculated in factor calculation
• Submission of the fee of Rs. 7,500 for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has submitted fee Rs. 7500/- on deposit slip# 09840920132 for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Previous Decision (M-329th-DRB): Deferred for submission of following:

- Clarification regarding legal provision of outsourcing testing of drug substance from M/s Rotex Pharmaceuticals since applied application is of self-manufacturing.
- Clarification from the drug substance manufacturer regarding revised DMF along with trail of revision of drug substance analytical procedure.

Firm's Response:

Deferment reasons	**Firm's Response**
• Clarification regarding legal provision of outsourcing testing of drug substance from M/s Rotex Pharmaceuticals since applied application is of self-manufacturing.	• The firm submitted that we have submitted the contract agreement for the outsource testing of drug substance from M/s Rotex Pharma unless and until our QC Labbs equipped with GC to test the Dapagliflozin • DRAP notification of contract manufacturing dated 15-10-2021 is submitted for reference
• Clarification from the drug substance manufacturer regarding revised DMF along with trail of revision of drug substance analytical procedure.	• The firm has submitted analytical procedure of drug substance with trail revision from drug substance manufacturer

Decision: The board deliberated the rule 20 A (1) of the Drugs (Licensing, Registering and Advertising) Rules, 1976 and directed the Division of PE & R to bring the matter of contract analysis along with the SOP containing the technical and legal explainations and procedure of grant of permission of contract analysis for the consideration of the Registration Board.		
814.	Name, address of Applicant / Marketing Authorization Holder	M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad
	Name, address of Manufacturing site.	M/s Bio Labs Pvt Ltd. Plot # 145, Industrial Triangle, Kahuta Road, Islamabad
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Form-5F Dy. No 16113 dated 10-06-2021
	Details of fee submitted	Rs.20,000/- dated 03-05-2021
	The proposed proprietary name / brand name	Gludap 10mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film Coated Tablet Contains: Dapagliflozin as Propanediol Monohydrate…10mg
	Pharmaceutical form of applied drug	Tablet
	Pharmacotherapeutic Group of (API)	Sodium-glucose co-transporter 2 (SGLT2) inhibitors
	Reference to Finished product specifications	In house
	Proposed Pack size	14’s
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	FARXIGA (5mg, 10mg) film coated tablets USFDA Approved
	For generic drugs (me-too status)	Dapa 10mg Tablet by M/s Hilton Pharma (Reg#089368)
	GMP status of the Finished product manufacturer	GMP certificate issued to firm on 21st May 2019, based on inspection conducted on 23-04-2019 and valid upto 22-04-20222
	Name and address of API manufacturer.	Jiangsu yongan Pharmaceutical Co. Ltd., No. 18, 237 provincial road economic development zone, huaian Jiangsu China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.

		The firm has submitted summarized information of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, control of excipients, control of drug product, specifications, analytical procedures, validation/verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Module III (Drug Substance)	The firm has submitted detail of nomenclature, structure, general properties, solubilities, physical form, manufacturers, tests for impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability study is conducted at 40 ^{O} ± 2 ^{O}C /75% ± 5% RH for 6 months. The real time stability study is conducted at 30^{O}C ± 2 ^{O} C / 65% ± 5% RH for 36 months. (Batch No. 130401, 130402 & 130501)
	Module-III (Drug Product):	The firm has submitted detail of manufacturers, description of manufacturing process and controls, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures and its verification studies, batch analysis, justification of specifications, reference standard or materials, container closure system and stability studies of drug product.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence has been performed against innovator product Forxiga 10mg tablet. CDP has been performed against innovator product Forxiga 10mg tablet in Acid media (pH 1.2), acetate buffer pH 4.5 & Phosphate Buffer (pH 6.8). The values for f2 are in the acceptable range.
	Analytical method validation/verification of product	Method validation studies is submitted including linearity, range, accuracy, precision, specificity.

STABILITY STUDY DATA	
Manufacturer of API	Jiangsu yongan Pharmaceutical Co. Ltd., No. 18, 237 provincial road economic development zone, huaian Jiangsu China.
API Lot No.	DGF-201902001
Description of Pack (Container closure system)	Alu/Alu Blister Packing
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH
Time Period	Real time: 24 months

	Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6, 9, 12, 18, 24 (Months)

Manufacturing Date	01-2020	01-2020	01-2020
Date of Initiation	13-01-2020	13-01-2020	13-01-2020
No. of Batches	03		

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	The firm submitted copy of minutes of 296th meeting of registration board dated 8th, 9th & 10th September, 2020 in which their product Empaglif 10mg and 25mg applied on form 5F has been approved based on the inspection conducted by the panel for authenticity of stability data
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	The firm submitted copy of GMP certificate of Jiangsu Yongan Pharmaceutical Co., Ltd China valid up to 03-03-2021
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted clearance certificate and form 6 attested by Assistant Director (I&E) DRAP Islamabad dated 01-04-2019 for the import of 200gm Dapagliflozin Propanediol Monohydrate and 5mg impurity A and 5mg Impurity B. However, the firm has not submitted invoice for import of said materials.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted record of testing of all batches along with chromatograms, raw data sheets, COA and summary data sheets.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted audit trail reports on product testing
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Firm has submitted record of data logger for temperature and humidity monitoring of real time and accelerated stability chambers.

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.4	Submit Valid copy of Drug Manufacturing License	The firm have submitted valid Drug Manufacturing License
1.6.5	Submit valid GMP certificate of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.	The firm submitted valid GMP certificate
3.2.S.4.1 . - 3.2.S.4.2	Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer is required.	Firm have submitted Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by Drug Product manufacturer. However, the chromatographic test conditions were different as compared with drug substance manufacturer.

		For example, the chromatographic conditions used by the **drug substance manufacturer are:** **Related substances:** Mobile phase; Water R (0.01M NaH2PO4); Acetonitrile R (50;5 v/v) Detector 225nm Injection; 20ul Flow rate; 1ml/min **Drug product manufacturer;** **Related substances:** Mobile phase; Methanol:Water (70;30 v/v) Detector 223nm Injection; 20ul Flow rate; 1.5ml/min Temperature; 40ºC **Drug substance manufacturer:** **Assay:** Mobile phase; Water R (0.01M NaH2PO4); Acetonitrile R (50;5 v/v) Detector 225nm Injection; 20ul Flow rate; 1ml/min Temperature: 25ºC **Drug product manufacturer;** **Assay:** Mobile phase; Methanol:Water (70;30 v/v) Detector 223nm Injection; 20ul Flow rate; 1.5ml/min Temperature; 40ºC
3.2.S.4.3	Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for drug substance(s) shall be submitted.	The firm have submitted Analytical Method validation studies performed by the Drug Product manufacturer for drug substance(s)
3.2.S.4.4	• In batch analysis of drug substance performed by drug product manufacturer, in test for identification you have submitted that it is positive for empagliflozin while the applied product is dapagliflozin, clarify? • Justification shall be provided for any incomplete analyses of the drug substance/API by Drug Product manufacturer (propanediol, residue on ignition, heavy metals, related substances, residual solvents, particle size)	• The firm submitted that during analysis Dapagliflozin was identified. *However due to typo-graphical error Empagliflozin was written instead of dapagliflozin in COA. The rectified COA with supportive documents is submitted*. • No justification provided for incomplete analysis
3.2.P.1	• You have used lactose monohydrate in your formulation while innovator product has used lactose anhydrous. Justify that the applied product is equivalent to innovator product.	The firm submitted that we designed formulation qualitatively similar to innovator (Forxiga tablet). *We actually used lactose anhydrous and was mistakenly written as lactose monohydrate. The firm have submitted revised BMR.*

3.2.P.2.2.1	The batch number of innovator product Forxiga 10mg tablet mentioned in Pharmaceutical equivalence report is 132642 while the batch number mentioned in comparative dissolution report is NX101. Clarify that which batch number product was used in both the studies	The batch No. of innovator product Forxiga 10mg tablet taken in Pharmaceutical equivalence report is NX101. Submitted chromatogram too is written with batch No. NX101. *It was a typo error in report. Corrected repot is submitted.*
3.2.P.4	• In control of excipients you have given specifications for croscarmellose while you have not used croscarmellose in formulation, clarify? Moreover, you have used lactose monohydrate while you have not provided specifications of lactose monohydrate?	It was mistakenly written, specifications for lactose anhydrous is submitted
3.2.P.5.2	• The Mobile phase composition in assay test is not mentioned in analytical procedure?	Method for analysis of drug product is submitted along with chromatographic conditions / mobile phase composition in assay analysis
3.2.P.8.1	• Stability data of drug product at initial time point is not submitted • Stability summary sheet for accelerated and real time stability data at 6th month time point is not submitted • You have mentioned in house specifications in module I section 1.5.6 while innovators specifications in stability summary sheets, clarify?	• Stability data of drug product at initial time point is submitted • Stability summary sheet for accelerated and real time stability data at 6th month time point is submitted • The firm submitted that they have designed their product on innovator's specifications and updated the specifications at section 1.5.6. as innovator's specifications without submission of applicable fee. The firm also submitted revised form 5F
	• Submit invoice for the imported raw materials. • Submit Compliance Record of HPLC software 21CFR • Provide complete calculation for determining the quantity of dispensed drug substance keeping in view water content	• The firm have not submitted invoice for the imported raw material • The firm submitted A General Compliance certificate of HPLC software 21CFR • The firm have submitted calculation for determining the quantity of dispensed drug substance on theoretical basis. *The water content was not kept in consideration while making calculation for dispensing drug substance*

Previous Decision (M-316-DRB) : Deferred for following:

- Justification for using different chromatographic conditions for analysis of related substances and assay test by the drug product manufacturer than drug substance manufacturer.
- Justification for incomplete analyses of the drug substance / API by Drug Product manufacturer
- Clarification for not considering the water content while making calculation for dispensing of drug substance
- Submission of the fee of Rs. 7,500 for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

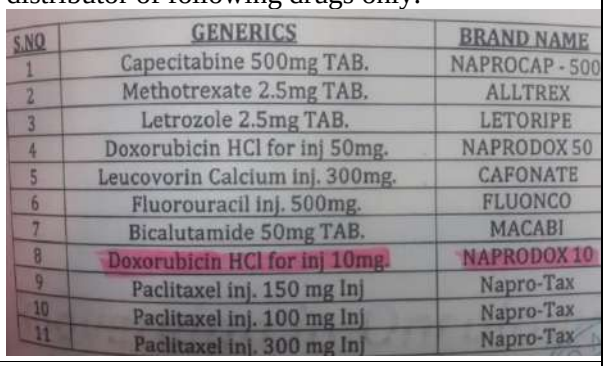
Evaluation by PEC:

Deferment reasons	**Response**
• Justification for incomplete analyses of the drug substance / API by Drug Product manufacturer	The firm submitted that testing of propanediol contents were not performed due to unavailability of GC. In future testing will be done through 3rd party i.e. M/s Rotex Pharmaceuticals and submitted copy of agreement for contract testing of raw materials

• Justification for using different chromatographic conditions for analysis of related substances and assay test by the drug product manufacturer than those applied by drug substance manufacturer.	The firm has submitted revised DMF of drug substance manufacturer from drug substance manufacturer and chromatographic conditions of drug substance manufacturer and drug product manufacturer are same. The firm further stated that this source of API have been used for the manufacturing of product for stability batches. The previous DMF has been mistakenly submitted in the dossier
• Clarification for not considering the water content while making calculation for dispensing of drug substance	The firm submitted that Water contents are already calculated in factor calculation
• Submission of the fee of Rs. 7,500 for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.	Firm has submitted fee Rs. 7500/- on deposit slip# 433726858656 for correction/pre-approval change in product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.

Previous Decision (M-329th-DRB): Deferred for submission of following:

- Clarification regarding legal provision of outsourcing testing of drug substance from M/s Rotex Pharmaceuticals since applied application is of self-manufacturing.
- Clarification from the drug substance manufacturer regarding revised DMF along with trail of revision of drug substance analytical procedure.



Firm's Response:

Deferment reasons	**Firm's Response**
• Clarification regarding legal provision of outsourcing testing of drug substance from M/s Rotex Pharmaceuticals since applied application is of self-manufacturing.	• The firm submitted that we have submitted the contract agreement for the outsource testing of drug substance from M/s Rotex Pharma unless and until our QC Labbs equipped with GC to test the Dapagliflozin • DRAP notification of contract manufacturing dated 15-10-2021 is submitted for reference
• Clarification from the drug substance manufacturer regarding revised DMF along with trail of revision of drug substance analytical procedure.	• The firm has submitted analytical procedure of drug substance with trail revision from drug substance manufacturer

Decision: The board deliberated the rule 20 A (1) of the Drugs (Licensing, Registering and Advertising) Rules, 1976 and directed the Division of PE & R to bring the matter of contract analysis along with the SOP containing the technical and legal explainations and procedure of grant of permission of contract analysis for the consideration of the Registration Board.

Case No. 13: Deferred Priority Registration application as per Decision of 257th meeting of DRB on Form 5F (Import)

815.	Name, address of Applicant / Importer	M/s Al-Habib Pharmaceuticals, Plot #81, block B, S.M.C.H.S., Karachi.
	Details of Drug Sale License of importer	**DSL No**.: 1245 **Address**: Al-Habib Pharmaceuticals, 81-B, block B, S.M.C.H.S., Karachi. **Godown:** 1. Plot No. 10 Sector 25 KIA Karachi 2. HT-8, Landhi Industrial Area, Karachi **Validity:** 18/05/2022 **Status:** Drug License by way of wholesale
	Name and address of marketing authorization holder (abroad)	Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, Thane–401506, Mahrashtra State India.

	Name, address of manufacturer(s)	Naprod Life Sciences Pvt. Ltd., G-17/1, M.I.D.C. Tarapur, Boisar, Distt – Thane – 401506 India.
	Name of exporting country	India
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted original, legalized CoPP certificate (No. COPP/CERT/KD/83867/2019/11/27845/143336 dated 02/05/2019 issued by Food and Drug Administration Mahrashtra State Mumbai India for Doxorubicin Hydrochloride for Injection BP 10mg (lyophilszed). The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodic inspection every year. The CoPP is valid upto 03/04/2022. The name of importing country mentioned on annexure attached with CoPP is mentioned as Pakistan. **GMP:** Firm has submitted notarized copy of GMP certificate (No. NEW-WHO-GMP/CERT/KD/80691/2019/11/27530 dated 04/04/2019 issued by Food and Drug Administration Mahrashtra Estate Mumbai India The GMP certificate is valid upto 03/04/2022.
	Details of letter of authorization / sole agency agreement	Firm has submitted notarized copy of letter of authorization from M/s Naprod Life Sciences Pvt. Ltd 304, Town Centre-1, Andheri Kurla Road, Andheri (East), Mumbai, India., The letter species that the manufacturer authorizes M/s Al Habib Pharmaceuticals, Plot #81, block B, SMCHS., 74400 Karachi., Pakistan as sole agent and distributor of following drugs only. 
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Buk import and local repackaging ☐ Buk import and local repackaging for export purpose only

S.NO	GENERICS	BRAND NAME

	The status in reference regulatory authorities	Doxorubicin Hydrochloride 10mg/vial for Injection by M/s Hikma USFDA Approved
	For generic drugs (me-too status)	Astrodox Lyophilized Powder for Injection 10mg by M/s Aster Life Sciences (Reg. No# 78110)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Intas Pharmaceuticals Ltd., Plot No. 2702/A, GIDC Estate, Ankleshwar-393 002, District: Bharuch, Gujarat State India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated study is conducted at 40±2°C/75± 5%RH for 6 months and the real time stability study is conducted at 25 ± 2°C/ 60 ± 5 % RH till 24 months. (Batches: 71203715, 71204715, 71204915)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing

		process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence has been established against the reference product ADRIAMYCIN RD 10 mg/vial injection by performing quality tests (Description, Identification, pH, Assay, particulate matter, reconstitution time).
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies including specificity, precision, linearity and range, accuracy and solution stability for the applied product.
	Container closure system of the drug product	5ml 20mm Flint Tubular-USP Type-I Glass vial with Rubber stopper 20mm Grey Bromo Butyl Slotted Siliconised by Silicon & Alu. Seal Lacq.20mm F/O Top Red Plain
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40° C ± 2° C / 75% ± 5% RH for 06 months and real time stability study is conducted at 30° C ± 2° C / 75% ± 5% RH for 36 months.

Batches	Mfg date	Batch size
NN7196	May 2017	18160 vials
NN7232	Jun 2017	18160 vials
NN7233	Jun 2017	18160 vials

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.3	• Submit valid Certificate of Pharmaceutical Product (CoPP) and GMP certificate of the drug product Manufacturer issued by relevant regulatory authority in the country of origin	• The firm submitted that the COPP that we submitted with CTD dossier has a validity till April 2022, as it gets expire during its period in R&I that's why as per the rule it will be considered as valid as we received R&I attested letter on 24th-Februray-2022.
1.3.4	• Submit copy of valid Drug Sale License (DSL) issued by relevant licensing authority	Firm has submitted valid copy of DSL. **DSL No**.: 0230 **Address**: Al Habib Pharmaceuticals, 81-B, block B, S.M.C.H.S., Karachi. **Godown:** Plot No. 393/7 & 393/8 Sector 7-A KIA Karachi **Validity:** 18/05/2024 **Status:** Drug License by way of wholesale
1.3.5	• Submit evidence of approval of manufacturing facility / Approved Section from Licensing Authority	Firm submitted cGMP certificate in name of Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, District Palghar–401506, Mahrashtra State India showing lyophilized / Powder injectable cytotoxic section
1.6.5	• Submit Name and address of API manufacturer.,	• Firm has submitted details of API Manufacturer:

<table>
<tr><td></td><td>• Submit valid GMP certificate / Drug Manufacturing License of the Drug Substance manufacturer issued by relevant regulatory authority of country of origin.</td><td>M/s Intas Pharmaceuticals Ltd., Plot No. 2702/A, GIDC Estate, Ankleshwar-393 002, District: Bharuch, Gujarat State India.
• Firm has submitted cGMP certificate in name of M/s Intas Pharmaceuticals Ltd., Plot No. 2702/A, GIDC Estate, Ankleshwar-393 002, District: Bharuch, Gujarat State India issued by Commissioner Food and Drug Administration Gandhinagar India valid upto 05-09-2025</td></tr>
<tr><td>3.2.S.4</td><td>• Justification is required for selecting different limits of specification of total impurities (Not more than 2.0%) by drug product manufacturer than drug substance manufacturer (Not more than 1.0%)</td><td>• Please note that we are following the BP monograph for analysis of finished product. BP Monograph of Doxorubicin for injection mentions limit of total impurities - Not more than 2.0%. BP monograph of finished product is submitted.</td></tr>
<tr><td>3.2.P.1</td><td>• Justify the role of methyl paraben in the applied formulation
<table>
<tr><th>Applied product</th><th>Reference product</th></tr>
<tr><td>Doxorubicin HCl</td><td>Doxorubicin HCl</td></tr>
<tr><td>Lactose monohydrate</td><td>Lactose Monohydrate</td></tr>
<tr><td>Methyl paraben</td><td></td></tr>
<tr><td>HCl</td><td></td></tr>
<tr><td>NaOH</td><td></td></tr>
<tr><td>Water for injection</td><td></td></tr>
</table>
• Provide information including type of diluent, its composition, quantity or volume, specifications and regulatory status in Pakistan for the diluent which is to be provided along with the applied drug</td><td>• Methyl paraben is used as Solubilizing agent in the formulation of Doxorubicin for injection 10 mg.
• Methyl paraben occurs as colorless crystals or a white crystalline powder. It is odorless or almost odorless and has a slight burning taste. Methyl paraben is widely used as an antimicrobial preservative in cosmetics, food products, and pharmaceutical formulations. Aqueous solutions at pH 3–6 are stable The WHO has set an estimated total acceptable daily intake for methyl-, ethyl-, and propyl parabens at up to 10 mg/kg body weight and official monograph available in BP.
• However as per Innovator Literature, for Doxorubicin Hydrochloride for Injection particularly used as solubilizing agent which improved or give rapid dissolution of powder in final lyophilized product. Methyl paraben was used in formulation to improve solubilization by reducing the gel formation during reconstitution. Being generic drug of existing Innovator all excipients used as per Innovator and comply as per generic drug definition.
• No information provided</td></tr>
<tr><td>3.2.P.2</td><td>• Submit details of comparator product including name of manufacturer, Batch No#, manufacturing date, expiry date etc. against which pharmaceutical equivalence is submitted
• Justify why the pharmaceutical equivalence study does not include complete testing of the drug product and the innovator/comparator product including the tests recommended by BP (Bacterial endotoxin, Water)</td><td>• Information not provided
• Pharmaceutical equivalence was proved on the basis of enclosed comparison of important physicochemical characteristic of innovator product and drug product. Also the proposed Drug product contains same active substance and excipient in similar quantity as that of innovator product. Complete testing as per the any specific pharmacopeia is not necessary during product development as we develop product for global supply with different pharmacopeia. As the results of critical Physicochemical parameters are similar and comparable, therefore both the drug product and innovator product are pharmaceutically equivalent.</td></tr>
</table>

		• Moreover Naprod ensure to perform complete analysis of drug product inline with the BP pharmacopoeia during release of every batch & Submitted stability study.
3.2.P.5.4	• In batch analysis the manufacturing date mentioned on COA of one batch No. NN7233 is Jun 2017 while batch release date is October 2017, clarify the gap between manufacturing date and batch release date.	• Please Note that the batch was manufactured in the end of June 2017. Subsequently the Mother batch was released in July-2017 as per the common pharmacopoeia grades (IP/BP). • Refer enclosed COA of mother batch with common IP/BP pharmacopoeia. Then this batch was charged on the stability study in August 2017. • Later as per export requirement, we have packed and released some quantity from same mother batch as per only BP specification in October-2017. • Since we are proposing the BP grade for finished product in Pakistan registration, we have submitted the same finished product COA which was released as per BP in October-2017 as per Pakistan requirement
3.2.P.8	• Batch release date mentioned in COA of drug product is subsequent to date of initiation of stability study mentioned in stability summary sheets, clarify • The manufacturing date mentioned on COA of batch No. NN7233 is Jun 2017and batch release date is October 2017 while date of initiation of stability study is 24-08-2017, clarify?	• Naprod had manufactured and initially released batch as per common pharmacopoeia (IP/BP) & then charged for stability study to meet domestic as well as export registration requirements. • Later as per Export requirement, we have released some quantity from these batches to export market as per BP pharmacopoeia grade. Since we are proposing the BP grade for finished product in Pakistan registration, we have submitted the same finished product COA which were released subsequently. • Hence COA of these batches have subsequent release date, after stability initiation date.

Remarks of Evaluator: Registration Board was apprised regarding an e. mail received to Director PE&R Division form M/s Miles International India (authorized exclusive representative for the export of products manufactured by Naprod Life Sciences for the Pakistan region), wherein firm has requested to not consider any product registration applications made by any other party other than LDS as they will not be able to supply these products in the future.

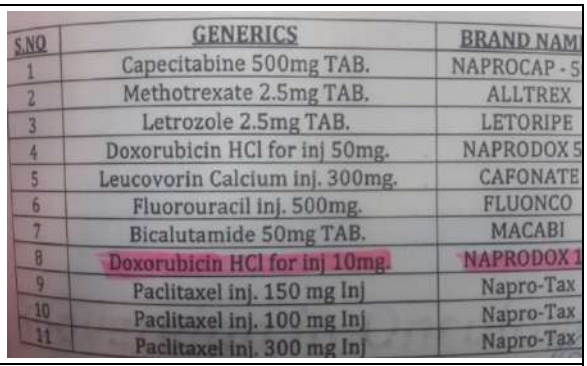
Previous Decision (M-324-DRB): Deferred for the Verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India.

Response of the Firm:

Firm has submitted Original Notarized Authorization Letter Dated: 14th July, 2023

"We (NAPROD LIFE SCIENCES PVT LTD, India) having address at (304. Town Center-1, Andheri Kurla Road, Andheri (E), Mumbai) do hereby authorize M/s Al Habib Pharmaceuticals having address at Plot following 81, BLOCK **B** SMCHS, 74400, Karachi Pakistan, As a sole agent and distribution of following drugs only.

Regarding our email Dated June 6th 2023 about the Clarification of Mile International India as an exporter of Naprod Life Sciences Pvt Ltd beside the below mentioned products.



We are again giving a firm undertaking that Al-Habib Pharmaceuticals, Karachi is an Authorize Distributor and sole agent for the following Drugs.

S.No	Generics	Brand Name
8.	Capecitabine 500mg TAB	NAPROCAP -500
9.	Methotrexate 2.5mg TAB	ALLTREX
10.	Doxorubicin HCl for inj 50mg	NAPRODOX 50

11.	Leucovorin Calcium inj. 300mg	CAFONATE
12.	Fluorouracil inj. 500mg	FLUONCO
13.	Bicalutamide 50mg TAB	MACABI
14.	Doxorubicin HCl for inj 10mg	NAPRODOX 10

Decision: Deferred for verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India through email".

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification,

		reference standard, container closure system and stability studies of drug substance and drug product.
	Name, address of drug substance manufacturer	Nantong Jinghua Pharmaceutical Co., Ltd., No.20, 3 Haibin Road, Yanhai Economic Development Zone, Rudong, Nantong, Jiangsu, China.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated study is conducted at 40±2°C/75± 5%RH for 6 months and the real time stability study is conducted at 25 ± 2°C/ 60 ± 5 % RH till 48 months. (Batches: FLU2012001-RD, FLU2012002-RD, FLU2012003-RD)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability study
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence has been established against the reference product Fluorouracil Injection 50mg/ml by M/s Accord Pharmaceutical Ltd., by performing quality tests (Description, pH, Assay, particulate matter, bacterial endotoxin, test for urea, test for related substances).
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies including specificity, precision, linearity and range, accuracy for the applied product.
	Container closure system of the drug product	10ml 20mm Amber coloured Type-I vial with 20mm Grey Bromo Butyl Rubber stopper with aluminium seal
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches. The accelerated stability study data is conducted at 40° C ± 2° C / 75% ± 5% RH for 06 months and real time stability study is

		conducted at 30° C ± 2° C / 75% ± 5% RH for 36 months. **Batches** / **Mfg date** / **Batch size** NN9308-B inverted…LT — Jul 2019 — 22828 vials NN9358-A upright….LT — Aug 2019 — 22828 vials NN9359-A inverted…..LT — Aug 2019 — 22828 vials Firm submitted accelerated stability study data at both orientation (inverted, upright)

Remarks of Evaluator [XI]:

Section	Observations	Response
1.3.3	• Submit valid Certificate of Pharmaceutical Product (CoPP) and GMP certificate of the drug product Manufacturer issued by relevant regulatory authority in the country of origin	• The firm submitted that the COPP that we submitted with CTD dossier has a validity till April 2022, as it gets expire during its period in R&I that's why as per the rule it will be considered as valid as we received R&I attested letter on 24th-Februray-2022. • Firm has submitted cGMP certificate of M/s Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, Dist. Palghar–401506, Mahrashtra State India issued by Comissioner Food and Drug Administration Maharashtra state India valid upto 27-04-2025
1.3.4	• Submit copy of valid Drug Sale License (DSL) issued by relevant licensing authority	• Firm has submitted valid copy of DSL. **DSL No**.: 0230 **Address**: Al Habib Pharmaceuticals, 81-B, block B, S.M.C.H.S., Karachi. **Godown:** Plot No. 393/7 & 393/8 Sector 7-A KIA Karachi **Validity:** 18/05/2024 **Status:** Drug License by way of wholesale
1.3.5	• Submit evidence of approval of manufacturing facility / Approved Section from Licensing Authority	Firm submitted cGMP certificate in name of Naprod Life Sciences Pvt. Ltd., Plot No. G-17/1, M.I.D.C. Tarapur, Boisar, District Palghar–401506, Mahrashtra State India showing lyophilized / Powder injectable cytotoxic section
1.5.2	• Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit shall be clearly mentioned as per reference formulation along with submission of applicable fee	Fluorouracil injection BP 500mg/10ml (50mg/ml)
1.6.5	• Submit Name and address of API manufacturer.,	Nantong Jinghua Pharmaceutical Co., Ltd., No.20, 3 Haibin Road, Yanhai Economic Development Zone, Rudong, Nantong, Jiangsu, China.
3.2.P.1	• Justify the role of Tris Buffer (tromethamine) in the applied formulation **Applied product** / **Reference product** Fluorouracil / Fluorouracil Sodium Hydroxide / Sodium Hydroxide	Based on information and rationale; Tris Buffer used as buffering agent and Sodium Hydroxide as pH adjustifier along with Water for Injection. Selected excipients are very conventional and normally used in Injection manufacturing for their particular function like buffering agent and pH adjuster.

	Tris Buffer (tromethamine) | Water for injection Water for injection |	
3.2.P.2	• Submit details of comparator product including name, manufacturing date, expiry date etc. against which pharmaceutical equivalence is submitted	• The firm submitted details of reference / comparator product. The details of reference product are: Name: Fluorouracil Injection 50mg/ml; B. No: N03889, Mfg Date: 16-06-2015, Expiry Date: 15-06-2017 Manufacturer by: Accord Pharmaceutical Ltd.
3.2.P.8	• Clarification is required as submitted long term stability summery sheets of drug product conclude as: the product meets the prescribed standards of quality after completion of 18 months long term stability study as per stability indicating specifications, while stability study data upto 36 months is submitted. • The submitted long term stability summary sheets include both the conditions 40° C ± 2° C / 75% ± 5% RH and 30° C ± 2° C / 75% ± 5%, clarify?	• The firm submitted that 36 months stability data submitted but the proposed shelf life mentioned in Stability summary sheet is 24 months. (Stability summary sheet attached) • In the sheet three conditions and temperature are mentioned but the long term and only 30°C ± 2°C and 75% ± 5%RH is marked (✓) which clearly shows the long term stability conducted on 30°C ± 2°C and 75% ± 5%RH (Sheet attach for clarification)

Remarks of Evaluator: Registration Board was apprised regarding an e. mail received to Director PE&R Division form M/s Miles International India (authorized exclusive representative for the export of products manufactured by Naprod Life Sciences for the Pakistan region), wherein firm has requested to not consider any product registration applications made by any other party other than LDS as they will not be able to supply these products in the future.

Previous Decision (M-324th-DRB): Deferred for the Verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India.

Response of the Firm:

Firm has submitted Original Notarized Authorization Letter Dated: 14th July, 2023

"We (NAPROD LIFE SCIENCES PVT LTD, India) having address at (304. Town Center-1, Andheri Kurla Road, Andheri (E), Mumbai) do hereby authorize M/s Al Habib Pharmaceuticals having address at Plot following 81, BLOCK **B** SMCHS, 74400, Karachi Pakistan, As a sole agent and distribution of following drugs only.

Regarding our email Dated June 6th 2023 about the Clarification of Mile International India as an exporter of Naprod Life Sciences Pvt Ltd beside the below mentioned products.

We are again giving a firm undertaking that Al-Habib Pharmaceuticals, Karachi is an Authorize Distributor and sole agent for the following Drugs.

S.No	Generics	Brand Name
1.	Capecitabine 500mg TAB	NAPROCAP -500
2.	Methotrexate 2.5mg TAB	ALLTREX
3.	Doxorubicin HCl for inj 50mg	NAPRODOX 50
4.	Leucovorin Calcium inj. 300mg	CAFONATE
5.	Fluorouracil inj. 500mg	FLUONCO
6.	Bicalutamide 50mg TAB	MACABI
7.	Doxorubicin HCl for inj 10mg	NAPRODOX 10

Decision: Deferred for verification of "Sole Agency Agreement" between M/s. Al Habib Pharmaceuticals, Plot # 81, Block B, SMCHS, Karachi & M/s Naprod Life Sciences Pvt. Ltd. Factory: G-17/1, M.I.D.C., Tarapur, Boisar, Dist. Thane-401 506, India through email".

Case No. 14; Deferred Registration Application of Human Drugs on form 5F (cases of Dr. Akbar Ali): Priority applications as per 257th meeting of RB

Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Farmabios S.p.A. Via Pavia, 1 27027 Gropello Cairoli, (PV) – Italy
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The real time stability data is conducted at 5oC ± 3oC. The stability study data is till 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Submitted.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	USP type-I glass

	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 3 batches The accelerated stability study data is conducted at 25 °C ± 2ºC/ 60% ± 5% RH for 6 months. The real time stability study data is conducted at 5 °C ± 3ºC. The real time stability study data of 3 batches is for 24 months

Evaluation by PEC:

Sr. No	Observations
01	DSL of Importer /applicant is expired till 29-06-2022.
02	Provided copy of GMP certificate of API/Drug substance manufacturer, I-e M/s Farmabiosa S.P.A Italy, issued by AIFA, Italy vide certificate No. IT-API/167/H/2020 based on inspection conducted on 20-09-2019 was valid for 30 months, which has been expired.
03	Justification of applied container closer system of finished drug product as glass vial whereas the innovator product Faslodox is prefilled syringe.
04	Justification of overage of 0.4 ml excess filling in vial during filling process in line with innovator product which is prefilled syringe.

Previous Decision (M-324DRB): Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Response of firm:

Sr#	**Observations**	**Response of Firm**
01	DSL of Importer /applicant is expired till 29-06-2022.	Firm has submitted valid copy of DSL. Details of DSL are; License No:05-352-0066-034461D Address: 5-KM Sunder Raiwind Road, Raiwind, District Lahore – Pakistan. Address of Godown: NA Validity: 29-06-2027. Status: License to sell drugs as distributor Renewal: NA
02	Provided copy of GMP certificate of API/Drug substance manufacturer, I-e M/s Farmabiosa S.P.A Italy, issued by AIFA, Italy vide certificate No. IT-API/167/H/2020 based on inspection conducted on 20-09-2019 was valid for 30 months, which has been expired.	Firm has submitted valid copy of GMP certificate of API/Drug substance manufacturer, i.e. M/s Farmabios S.P.A Italy, issued by AIFA, Italy vide certificate No. IT-API/167/H/2020 based on inspection conducted on 2020-06-12 was valid for three years from date of inspection.
03	Justification of applied container closer system of finished drug product as glass vial whereas the innovator product Faslodox is prefilled syringe.	Dimere 250mg solution for injection is a generic drug product whose formulation, strength, pharmaceutical form and dosage form are the same as innovator product Falsodex 250mg (Lab. Astra Zeneca) Dimere container closure system differs from Faslodex finished product which is a pre-filled syringe. It consists of vials appropriately closed with stoppers and flip-off aluminium seals evidencing the same quality on materials as pre-filled syringe. Stability studies performed on Dimere dosage form confirms compatibility and that the finished product keeps the original attributes without alteration. Selecting the right primary container presentation for a product is important decision. Dimere is packed in glass vials despite pre-filled syringes advantages due to cost / benefit analysis and

		unavailability to access to required technology facilities to use that container.
04	Justification of overage of 0.4 ml excess filling in vial during filling process in line with innovator product which is prefilled syringe.	The firm submitted explanation as: 0.4ml (0.8%) in excess is added per vial during the filling process to ensure the deliverable volume and administration of the labelled doses. The final volume overage was empirically decided during pilot batches evaluation and compliance is confirmed batch to batch by analysis extractable volume

Previous Decision (M-326-DRB): Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by the Registration Board in its 275th meeting in glass vial

Firm's Response:

The firm has submitted following response;

- Whereas, FULL V (Fulvestrant) 250mg Injection in Vial Form (M/s Laboratorios IMA S.A.I.C, Argentina) is approved for another applicant/importer during 316th (15-18 March 2023) with decision i.e. Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility. **(**Copy of minutes attached). *However, registration letter has not been issued.*
- Additionally, Fulvestrant 250mg/5ml in Vial Form is also suggested to add in WHO Model List of Essential Medicines, WHO Official link and document is attached for your kind reference.
    - *https://www.who.int/news/item/01-10-2021-who-prioritizes-access-to-diabetes-and-cancer-treatments-in-new-essential-medicines-lists*
    - *Application to add Fulvestrant to WHO Model List of Essential Medicines*

In view of above facts and references, we kindly request to re-visit the decision and allow fair chance to BF Biosciences Limited for registration of imported finished drug in Vial form, as BF Biosciences Limited is the joint venture of Ferozsons Laboratories Limited and Bago Laboratories Argentina, and through this joint venture, a number of lifesaving drugs are already registered by DRAP (eg. Panataxel, Donataxel and Oxaltie).

We also would like to apply for exemption of manufacturer abroad as **ANMAT (Administración Nacional de Medicamentos, Alimentos y Tecnología Médica) Argentina is the member of PIC/s.**

Previous Decision (M-330-DRB): Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies, which were adopted by the Registration Board in its 275th meeting in glass vial.

Firm's Response:

- We hereby submitting comprehensive comparison between Innovator and Dimere (Generic) along with relevant reference for your kind consideration and perusal.

Comprehensive Comparison between DIMERE (Generic) and Faslodex (Reference/Innovator)

Feature/Aspect	DIMERE	Faslodex
Active Substance	Fulvestrant 250mg	Fulvestrant 250mg
Formulation Development	Fulvestrant (Anti-estrogen….250mg in 5ml solution for Injection Ethanol (96%, 500 mg) Benzyl alcohol (500 mg) Benzyl benzoate (750 mg) Castor oil q.s to Solvent in IM injection (5ml)	250 mg fulvestrant in 5 ml solution Ethanol (96%, 500 mg) Benzyl alcohol (500 mg) Benzyl benzoate (750 mg) Castor oil refined Qs
Contents of the pack	DIMERE has 2 vials containing Fulvestrant	Faslodex has 2 pack presentations, either a pack containing 1 glass pre-filled syringe containing fulvestrant or a pack containing 2 glass pre-

		filled syringes containing fulvestrant.
Appearance of Drug Product	Solution for Injection Clear, yellowish, viscous liquid, free from particulate matter.	Solution for injection. Clear, colourless to yellow, viscous solution
Pharmaceutical form/Dosage form	Solution for Injection	Solution for Injection
Route of Administration	Intramuscular	Intramuscular
Dosage, Strength/Composition	250mg/5ml, Fulvestrant	250mg/5ml, Fulvestrant
Container-Closure System	Solution for Injection (Vial) (USP Type I Glass Vial;20mm)	Solution for Injection in Pre-filled Syringe (USP-Type-I) SmPC of Faslodex attached
Nature & Contents of Container	Two USP Type I Glass vials appropriately closed with halobutyl stoppers and flip-off aluminium seals.	Two clear type I glass pre-filled syringes with polystyrene plunger rod, fitted with a tamper-evident closure, each containing 5 ml Faslodex solution for injection. Safety needles (BD SafetyGlide) for connection to each barrel are also provided
Manufacturer	Bioprofarma Bagó S.A.	Astra Zeneca
Storage conditions	Refrigerate. It should be stored at 2-8 °C (36-46°F). To protect it from sunlight.	Refrigerate. It should be stored at 2-8 °C (36-46°F). To protect it from sunlight.
Pack Size	2 Vials per Pack	2 PFS per Pack
Shelf Life	2 Years (24 Months)	4 Years
Additional Documents/Studies		
Stability Studies	Fulvestrant 250mg/5ml vial appropriately closed with halobutyl stoppers and flip-off aluminium seals. Stability studies performed on DIMERE confirms compatibility and that finished product keeps the original attributes without alteration. Stability studies are performed justifying the same quality on materials as that of Faslodex in PFS (Stability studies are attached)	
Equivalence Studies	Dimere® 250 mg solution for injection is a Generic Drug Product whose formulation, strength, pharmaceutical form and dosage form are the same as that of the reference medicinal product, Nilgaban® 250 mg (Lab. Tuteur) and innovator product Faslodex® 250 mg (Lab. Astra Zeneca). Equivalence Studies has been studies performed between DIMERE & Nilgaban. (Formulation Development Attached)	
Explanation Letter	Explanation letter of applied container-closure system of finished product is attached Dimere 250mg solution for injection is a generic drug product whose formulation, strength, pharmaceutical form and dosage form are the same as innovator product Falsodex 250mg (Lab. Astra Zeneca) Dimere container closure system differs from Faslodex finished product which is a pre-filled syringe. It consists of vials appropriately closed with stoppers and flip-off aluminium seals evidencing the same quality on materials as pre-filled syringe. Stability studies performed on Dimere dosage form confirms compatibility and that the finished product keeps the original attributes without alteration. Selecting the right primary container presentation for a product is important decision. Dimere is packed in glass vials despite pre-filled syringes advantages due to cost / benefit analysis and unavailability to access to required technology facilities to use that container.	

Addition of Fulvestrant 250mg/5ml vial in WHO Essential Medicine List	• Additionally, Fulvestrant 250mg/5ml in Vial Form is also suggested to add in WHO Model List of Essential Medicines, WHO Official link and document is attached for your kind reference. • *https://www.who.int/news/item/01-10-2021-who-prioritizes-access-to-diabetes-and-cancer-treatments-in-new-essential-medicines-lists* • Application to add Fulvestrant to WHO Model List of Essential Medicines *However, WHO official link states "Other cancer medicines were not recommended for listing due to uncertain additional clinical benefit compared with already listed medicines, high price, and management issues in low-resource settings. These included osimertinib for lung cancer, daratumumab for multiple myeloma, and three types of treatment (CDK4/6 inhibitors, fulvestrant and pertuzumab) for breast cancer.*

• Moreover, the firm submitted that we came to know from market that the similar imported generic product of Fulvestrant 250 mg in Vial form (From Argentina) was approved by DRAP and issued registration letter to that applicant as well. Therefore, we are requesting to kindly re-consider our case for approval on similar grounds and give us a fair chance for registration of this imported product for redressal of needy patients.

Decision: Approved with innovatotr's specifications and as per Policy for inspection of Manufacturer abroad.

- **Registration Board further decided that registration letter will be issued after submission of following:**
  - **i. Original and valid CoPP to I&V section**
  - **ii. Original, notarized, valid letter of authorization**

Case No. 15: Deferred registration applications of Human Drugs on Form 5

818.	Name and Address of Manufacturer / Applicant	Panacea Pharmaceuticals, Plot no.4, Street no. S-6, National Industrial Zone, Rawat, Islamabad.
	Brand Name + Dosage Form + Strength	Metasone Lotion 0.1%.
	Diary No. Date of R&I & fee	***(Duplicate Dossier)*** dated 18/10/2010 Rs. 8000/- (Photocopy fee challan) Differential fee (photocopy) Rs. 12000/- submitted on 26/03/2015 Receipt of application has verified from R&I
	Composition	Each mL contains: Mometasone Furoate…….1mg.
	Pharmacological group	Corticosteroids.
	Type of Form	Form-5
	Finished Product specification	Manufacturer's Specification.
	Pack Size & Demanded Price	As per SRO
	Approval Status of Product in Reference Regulatory Authorities	MOMETASONE-ZP mometasone furoate 0.1% (1MG/GM) w/w lotion bottle by M/s Medis Pharma Pty Ltd, TGA Australia Approved.
	Me-too Status	Hivate (O.1%w/w)of M/s Saffron, Pakistan.
	GMP Status	Last GMP inspection was conducted on 08-02-2021 which concludes an acceptable level of GMP compliance.
	Remarks of the Evaluator	Firm applied for 0.1% (1mg/ml) with USP specification. Availability in RRA of 0.1%(1MG/ML) Mometasone Furoate was not confirmed.
	Previouse Decision (M-308th-DRB)	Deferred for evidence of approval of applied formulation in reference regulatory authorities/agencies which were adopted by Registration Board in its 275th meeting.
	Response of the firm	• Firm has submitted evidence of RRA. Elocon 0.1% w/w Scalp Lotion MHRA Approved

		• Firm has also revised label claim without submission of applicable fee. The revised label claim is as under: Each gram contains: Mometasone Furoate…….1mg
	Decision: Approved with innovator's specifications and following label claim: **Each gram contains:** **Mometasone Furoate…….1mg** • **Registration Board further decided to verify fee challan as per decision of 285th meeting of Registration Board.** • **Registration Board further decided that registration letter will be issued after submission of following:** **i. Fee of Rs. 30,000/- for correction/pre-approval change in composition (correction/change of strength of the applied formulation) and product specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**	
819.	Name and Address of Manufacturer / Applicant	M/s. Panacea Pharmaceuticals, Plot No. 4, Street No. S-6, National Industrial Zone, Rawat, Islamabad (DML No.000600) Tablet (general) Section.
	Brand Name + Dosage Form + Strength	Ariper Tablet 10mg
	Diary No. Date of R&I & fee	Each tablet contains: Aripiprazole……15mg
	Composition	Dy. No. 13805 dated 07.03.2019. Fee paid Rs. 20,000/- vide Slip No. 1900298 dated 07-03-2019, endorsed on 07.03.2019.
	Pharmacological group	N05AX12 Other antipsychotics
	Type of Form	Form-5
	Finished Product specification	**USP Specifications**
	Pack Size & Demanded Price	As per SRO.
	Approval Status of Product in Reference Regulatory Authorities	Aripiprazole 5, 10, 15 and 30 mg tablets (aripiprazole) - PL 24837/0050-0053; UK/H/5676/001-004/DC MHRA Approved.
	Me-too Status	Mactril tablet 15mg Reg. No. 067735 M/s Wilshire Laboratories Lahore.
	GMP Status	Report of 2018 is submitted.
	Remarks of the Evaluator	• Latest GMP inspection report/ certificate is required. • Correction of strength is required along with fee of Rs. 30000/- as brand name indicates 10mg while composition indicates 15mg strength.
	Previouse Decision (M-327th-DRB)	Deferred for following; • Latest GMP inspection report conducted within last three years. • Clarification of applied strength and label.
	Response of the firm	• Firm has submitted cGMP certificate of M/s Panacea Pharmaceuticals issued on 28-04-2023 based on inspection conducted on 24-11-2022. • Firm submitted that we applied for ariper 10mg tablet but in composition mistakenly (typographic mistake) it was written that"Each tablet contains: Aripiprazole….15mg" but in actual we applied for 10mg. Composition should be consider as: Each tablet contains: Aripiprazole…….10mg Me-Too: Apify 10mg Tablet by M/s Akhai Pharmaceuticals (Reg# 76246) Fee for correction of label claim is not submitted
	Decision: Approved with following label claim:	

	Each tablet contains: **Aripiprazole……10mg** • **Registration Board further decided that registration letter will be issued after submission of following:** **i. Fee of Rs. 30,000/- for correction/pre-approval change in composition (correction/change of strength of the applied formulation), as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021.**

820.	Name and address of manufacture / Applicant	M/s Hiranis Pharmaceuticals Pvt Ltd.Plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi, Pakistan
	Brand Name + Dosage Form and Strength	Mexate Tablet 10mg
	Composition	Each Tablet Contains: Methotrexate……..10mg
	Dairy No. date of R &I fee	Form-5 Dy.No 10798 dated 05-03-2019 Rs.20,000/- Dated 26-02-2019
	Pharmacological Group	Other immunosuppressants WHO ATC code: L04AX03
	Type of form	Form-5
	Finished product specifications	USP
	Pack size and Demand Price	As per SRO
	Approval status of product in Reference Regulatory Authorities	Methotrexate 10mg tablets MHRA Approved
	Me-too-status	Methotrexate tablet 10mg of M/s Pak China International (Reg# 066009)
	GMP Status	The firm was inspected on 29-01-2019 and was overall GMP compliant
	Remark of the Evaluator [XI]	The firm revised the 1st page of form 5 as per approved format
	Previous Decision (M-296-DRB)	Registration Board deliberated the matter and decided to defer the case for confirmation of cytotoxic facility since the applied formulation falls in both L01 and L04 categories as per WHO ATC classification.
	Firm's Response	• The firm submitted that according to W.H.O ATC Classification, our applied product "methotrexate tablet" lie in the category L-04 which refers to IMMUNOSUPPRESSANTS, indicated for the treatment of Rheumatoid Arthritis (ATC Index confirming the same is attached). However, in category L-01, Parenteral formulations used for Neoplastic diseases are classified. • The firm also refer to decision of 271th meeting of registration board, "There is no need for segregated / dedicated / self-contained premises / facilities for the production of drugs belonging to the categories namely immunosuppressants, aromatase inhibitors (letrozole, anastrozole) and clomiphene. Registration Board decided to grant registration of these products in general manufacturing areas.
	Evaluation by PEC	**Decision of 297th meeting of Registration Board:** Registration Board after thorough deliberation and considering the high-risk classification i.e., "Anticancer (L01)", and reviewing its previous decision decided to allow the manufacturing of such type of drugs which fall in both "Antineoplastic (L01)" & "Immunosuppressants (L04)" class including everolimus and methotrextare etc.

		in the "Anti-cancer" section only (being high risk products).
	Decision: Deferred for evidence of required manufacturing facility / section of "cytotoxic/oncology tablet section", from Licensing Division since the applied formulation falls in both L01 and L04 categories as per WHO ATC classification.	
821.	Name and address of manufacture / Applicant	M/s Hiranis Pharmaceuticals Pvt Ltd.Plot No. E-145 to E-149, North Western Industrial Zone, Port Qasim, Karachi, Pakistan

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Copy of GMP certificate No. 45/2021-DRAP (K) dated 29-09-2021 on the basis of inspection conducted on 27-09-2021 is submitted.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-4/98-Lic(Pt-1) dated 07-06-2022 mentioning Eye/Ear drops (Steroid).
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐Domestic sale ☐ Export sale ☒Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 28656, dated 10/10/2022.
	Details of fee submitted	PKR 30,000/- vide slip No. 328852081548 dated: 20/09/2022.
	The proposed proprietary name / brand name	Cerucil D Ear Drops.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Ciprofloxacin as HCl ……3mg Dexamethasone ……. 1mg
	Pharmacotherapeutic Group of (API)	Fluoroquinolone antibiotic/Corticosteroids.
	Pharmaceutical form of applied drug	Ear drops.
	Reference to Finished product specifications	USP specification.
	Proposed Pack size	1 x 5ml.
	Proposed unit price	238/-
	The status in reference regulatory authorities	CIPRODEX® (ciprofloxacin and dexamethasone), Otic suspension, USFDA approved.
	For generic drugs (me-too status)	Cipotic-D Ear Drops 3m/ml + 1mg/ml, Barrett Hodgson, Reg. No. 032484.
	Name and address of API manufacturer.	**Ciprofloxacin HCl:** Shangyu Jingxin Pharmaceutical Co., Ltd., No. 31 Weisan Road, Hangzhou Bay Shangyu Economic and technological development area, Shangyu, Zhejiang Province, China. **Dexamethasone:** Zhejiang Xianju Pharmaceutical Co. Ltd. No. 1 Xianyao Road, Xianju Zhejiang China.
	Module-II (Quality Overall	Firm has submitted QOS as per WHO QOS-PD template.

	Summary)	Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	**Ciprofloxacin HCl:** Firm has submitted details of the drug substance including its nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis (DK15-2111042a, Mfg. date 11-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance. **Dexamethasone:** Firm has submitted details of the drug substance including its nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis (X5-180902, Mfg. date 27-09-2018) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: **Ciprofloxacin HCl:** Real time: 30°C ± 2°C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: 0701192, 0701193 & 0701194. **Dexamethasone:** Real time: 30°C ± 2°C / 65% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: 150816, 150817 & 150818.
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Firm has submitted pharmaceutical equivalence studies of their product against Cipotec by performing identification, pH, fill volume and drug release. However, drug release has mentioned limit of 75% - 133% and no details of the comparator product are submitted.
	Analytical method validation/verification of product	Not submitted.
STABILITY STUDY DATA		

Manufacturer of API	Shangyu Jingxin Pharmaceutical Co., Ltd., No. 31 Weisan Road, Hangzhou Bay Shangyu Economic and technological development area, Shangyu, Zhejiang Province, China.		
API Lot No.	Not mentioned.		
Description of Pack (Container closure system)	Plastic bottle with cap and nozzle packed in carton along with leaflet.

Time Period	Real time: 24 months. Accelerated: 06 months.		
Frequency	Real Time: 0,3,6, 9, 12, 18 & 24 (Months) Accelerated: 0, 03 & 06 (Months).		
Batch No.	TB-101	TB-102	TB-103
Batch Size			
Manufacturing Date	05-2019	05-2019	05-2019
Date of Initiation			
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

7.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted.
9.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted.

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.6.5	Detailed information of section 1.6.5 shall be submitted with name of the drug substance manufacturer, GMP certificate vendor qualification etc.	
2.	2.3	• Copies of executed BMR's shall be submitted.	
3.	3.2.S.2 & 3.2.S.3	Detailed information of these sections for both the drug substances shall be submitted.	

4.	3.2.S.4.1	Specifications of both the drug substance from both drug substance and drug product manufacturer shall be submitted.	
5.	3.2.S.4.2	Analytical procedures of both the drug substance from both drug substance and drug product manufacturer shall be submitted.	
6.	3.2.S.4.3	• Analytical method verification of both the drug substance performed by the drug product manufacturer shall be submitted.	
7.	3.2.S.4.4	• COA of both the drug substances from drug product manufacturer with complete details i.e. batch number, manufacturing date, Expiry date etc. shall be submitted. • Analytical record of both the drug substance shall be submitted. • Clarification shall be submitted for the COA of the drug substance provided by the drug substance manufacturer as it has mentioned mfg. date of 04-11-2021 while trial batches are manufactured in May, 2019.	
8.	3.2.S.5	Details and COA of the working standard for both the drug substances used shall be submitted.	
9.	3.2.P.1	• Qualitative composition is completely different from the innovator product. Justification shall be submitted. • Innovator product has used benzalkonium chloride as preservative while the applied formulation has no preservative. Clarification shall be submitted.	
10.	3.2.P.2.2	• Pharmaceutical equivalence of the applied formulation with reference product with all the tests included in the official monograph shall be submitted. • Details of the product including name of manufacturer, manufacturing date, expiry date etc. against which PE is performed shall be submitted.	
11.	3.2.P.3.5	Process validation protocol shall be submitted.	
12.	3.2.P.5.3	Analytical method verification studies of the finished product along with analytical record shall be submitted.	
13.	3.2.P.8	• Stability data sheets as per decision of 293rd meeting of Registration Board with inclusion of batch size, date of initiation, API lot number shall be submitted. • Justification shall be submitted regarding the submitted chromatograms as they have not shown any wavelength, time, injection volume etc. • Justification shall be submitted regarding the submitted chromatograms for dexamethasone as they are for Opth-Dex eye drops instead for the applied formulation. • Justify the concentration of Dexamethasone i.e. (52.6/1000 = 0.052) with respect to that mentioned in analytical procedure 0.1mg/ml. • Justification shall be submitted for using UV method for the analysis of ciprofloxacin in the assay test in stability studies. • Stability data sheets has 35% RH in real time stability. Clarification shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin shall be submitted. • Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

		• Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	
Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

		controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. LDX180026, Mfg. date 05-2018) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5% RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 06 months Batches: (LDX180021, LDX180025 & LDX180026)
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the product i.e. Depilus Cream by performing quality tests description, identification, deliverable weight, pH, Assay & microbial limits. However, no details of the manufacturer, batch number etc. are given.
	Analytical method validation/verification of product	Method verification studies are submitted including System suitability, specificity, accuracy, precision.

STABILITY STUDY DATA

Manufacturer of API	M/s Cipla Ltd., plot D-22, MIDC Industrial Area Kurkumbh Village, Taluka Daund District Pune (Maharashtra) India.		
API Lot No.	Not submitted.		
Description of Pack (Container closure system)	Collapsible printed Aluminum tube sealed and packed in unit carton with leaflet.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	6667 Tubes	6667 Tubes	6667 Tubes
Manufacturing Date	07/2021	07/2021	07/2021
Date of Initiation	07-2021	07-2021	07-2021

No. of Batches		03
DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not Submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.3.4	• Valid copy of DML of the applicant shall be submitted. • Valid copy of GMP certificate/last inspection report conducted within last three years shall be submitted.	
2.	1.5.2	Complete label claim shall be submitted with applicable fee.	
3.		Pharmacotherapeutic group for the applied formulation shall be submitted.	
4.	1.5.8	Evidence of approval of me too product with name of the manufacturer and registration number against the label claim in 1.5.2 and 3.2.P.1 shall be submitted.	
5.	1.5.9	Evidence of approval of applied formulation in reference regulatory authorities against the label claim in 1.5.2 and 3.2.P.1 shall be submitted.	
6.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer shall be submitted.	
7.	2.3	• Copies of executed BMR's shall be submitted. • Information submitted by the drug substance manufacturer regarding the drug substance has mentioned BP/Ph. Eur. While the official monograph is not available in these. Clarification shall be submitted.	
8.	3.2.S.2 & 3.2.S.3	Detailed information of these sections for both the drug substances shall be submitted.	
9.	3.2.S.4.1	Specifications of the drug substance from both drug substance manufacturer and drug product manufacturer shall be submitted.	
10.	3.2.S.4.2	Analytical procedures of the drug substance from both drug substance manufacturer and drug product manufacturer shall be submitted.	

11.	3.2.S.4.4	• Clear and readable copy of COA of the drug substance from drug substance manufacturer shall be submitted. • COAs of the drug substance from both drug substance manufacturer and drug product manufacturer with same batch number shall be submitted.	
12.	3.2.S.4.5	Readable copy of Justification of specification shall be submitted.	
13.	3.2.S.6	Readable copy of container closure system for the drug substance shall be submitted	
14.	3.2.S.7.3	Justification shall be submitted regarding the submission of same stability batches and data of the drug substance as that of linezolid.	
15.	3.2.P.1	Qualitative composition of the applied formulation is different from the innovator product. Justification shall be submitted.	
16.	3.2.P.2.2	• Justification shall be submitted for not performing PE against the innovator product. • Details of the product i.e. name of manufacturer, batch number, manufacturing date and expiry date etc. against which PE is performed shall be submitted. • Specifications in the PE studies have mentioned JP specifications. Clarification shall be submitted.	
17.	3.2.P.5.2	• Analytical procedure has mentioned Terbinafine chloride in the assay test. Clarification shall be submitted. • Chromatographic conditions are not mentioned in the analytical procedures. Justification shall be submitted.	
18.	3.2.P.8	• Stability data sheets as per decision of 293rd meeting of Registration Board with inclusion of APLI lot number, initiation date etc. shall be submitted. • Justification shall be submitted for not performing pH and microbial studies of the finished as required by the Specifications of the finished product. • Submitted chromatograms have a run time of 8 minutes while acquisition time is less than 8 minutes. Clarification shall be submitted. • Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

824.	Name, address of Applicant / Marketing Authorization Holder	**M/s Inventor Pharma, Plot No. K/196, S.I.T.E (SHW) Phase-II, Karachi.**
	Name, address of Manufacturing site.	M/s Inventor Pharma, Plot No. K/196, S.I.T.E (SHW) Phase-II, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Not submitted.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-4/2013-Lic dated 13/07/2017 specifying Tablet (General) section.

	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 29839 dated 21-10-2022.
	Details of fee submitted	PKR 30,000/- vide slip No. 5363423303 dated: 14/04/2022.
	The proposed proprietary name / brand name	**Ledenzo-Lid 600mg Tablet.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Linezolid ……. …… 600mg
	Pharmacotherapeutic Group of (API)	Other antibacterial (J01XX)
	Pharmaceutical form of applied drug	Film coated tablet.
	Reference to Finished product specifications	USP specification.
	Proposed Pack size	1 x 10's.
	Proposed unit price	As per SRO/DPC.
	The status in reference regulatory authorities	ZYVOX® (linezolid) 600mg tablets, USFDA approved.
	For generic drugs (me-too status)	Lyzon 600mg Tablet, Getz Pharma, Reg. No. 055439.
	Name and address of API manufacturer.	M/s Cipla Ltd., plot D-22, MIDC Industrial Area Kurkumbh Village, Taluka Daund District Pune (Maharashtra) India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. LDX180026, Mfg. date 05-2018) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30°C ± 2°C / 65% ± 5% RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 06 months Batches: (LDX180021, LDX180025 & LDX180026)
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical

		development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the comparator product i.e. Zolrest 600mg tablets, by performing quality tests average weight, Dissolution & Assay. Results of both the test product and comparator product are comparable. Comparative Dissolution is also performed against the same product i.e. Zolrest 600mg tablets, B. No. 210582, Exp. date 03-2023 manufactured by M/s Bosch Pharmaceuticals. *However, only details of the product is submitted while no data for CDP studies is submitted by the firm.*
	Analytical method validation/verification of product	Method verification studies are submitted including System suitability, specificity, accuracy, precision.

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. NCF-II/1827/001/CAT dated 13-07-2018 issued by Ministry of Health of Government of Catalonia – Spain issued on the basis of inspection conducted on 25, 26, 27 & 28 July, 2016 valid for a period three years from the date of inspection is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 No. 00148/2022-DRAP(P)/394 dated 28-01-2022 mentioning Solifenacin Succinate EP attested by Assistant Drug Controller, DRAP, Peshawar. Firm has also submitted commercial invoice and copies of form 3 and form 7.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm.
1.	1.3.4	Valid copy of DML of the applicant shall be submitted as the submitted one is w.e.f. 27-09-2013. Valid copy of GMP certificate/last inspection report conducted within last three years shall be submitted.	
2.	1.3.5	Evidence of approval of manufacturing facility/section approval from licensing division shall be submitted.	
3.	1.5.2	This section has mentioned Solifenacin succinate USP (drug substance) while official pharmacopoeia of USP has no monograph for Solifenacin succinate. Clarification shall be submitted.	

4.	1.5.5	Revised Pharmacotherapeutic group with applicable fee as per WHO ATC classification shall be submitted.	
5.	1.6.5	Valid copy of GMP certificate of drug substance manufacturer shall be submitted.	
6.	2.3	Table for literature references with correct information regarding the drug substance shall be submitted.	
7.	3.2.S.4.1	Specification of the drug substance from the drug substance manufacturer shall be submitted.	
8.	3.2.S.4.2	• Analytical procedures of the drug substance from the drug substance manufacturer with details of complete test shall be submitted. • Analytical procedures of the drug substance from the drug product manufacturer shall be submitted.	
9.	3.2.S.4.3	• Analytical method verification protocol shall be submitted. • Clear and visible details of the analytical method verification shall be submitted.	
10.	3.2.S.5	• COA and details of the reference/working standard used in the development studies shall be submitted.	
11.	3.2.S.7.3	• Specifications has mentioned assay limits of 99% - 101% on titration while the stability studies have mentioned 98% - 102% on HPLC. Clarification shall be submitted.	
12.	3.2.P.2.2	• Justification for not performing CDP & PE against the innovator product shall be submitted. • Justification shall be submitted for submitting same results of CDP for both the strengths of the same formulation. • Justification shall be submitted for not performing assay and dissolution test in the PE studies shall be submitted.	
13.	3.2.P.5.1	Specification for dissolution test has not mentioned any time limit. Justification shall be submitted.	
14.	3.2.P.5.2	• Complete analytical procedures for all the tests of the finished product shall be submitted. • Justification shall be submitted for assay test on UV method instead of HPLC in the analytical procedures..	
15.	3.2.P.5.3	Analytical method verification protocol along with complete results of the analytical method as per the submitted analytical method shall be submitted.	
16.	3.2.P.6	COA and details of the reference standard used in the development studies shall be submitted.	
17.	3.2.P.8	• Justification shall be submitted regarding the raw data and chromatograms as HPLC method is used while analytical procedures has mentioned UV method for assay test. • Justification shall be submitted regarding the submitted chromatograms as the analytical method has mentioned UV method for the analysis of assay test while the submitted chromatograms are of HPLC. • Content uniformity test has not been performed in the stability studies. Clarification shall be submitted. • Submitted chromatograms has not mentioned any wavelength. Clarification shall be submitted. • Raw data sheets for calculation of assay and dissolution as per submitted formula in the analytical procedures at each time interval shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

		• Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	
Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Manufacturer of API	Union Quimico Farmaceutica, S.A. (Uquifa) Poligon Industrial Moli de les Planes Font de Bocs S/N C-35, Km. 57 08470 Sant Celoni (Barcelona) Spain.		
API Lot No.	15001825003.		
Description of Pack (Container closure system)	Alu Alu blister of 3 x 10's further packed in bleech card unit carton along with leaflet.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-04	T-05	T-06

Batch Size	1200 Tablets.	1200 Tablets.	1200 Tablets.
Manufacturing Date	03-2022	03-2022	03-2022
Date of Initiation	05-03-2022	05-03-2022	05-03-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. NCF-II/1827/001/CAT dated 13-07-2018 issued by Ministry of Health of Government of Catalonia – Spain issued on the basis of inspection conducted on 25, 26, 27 & 28 July, 2016 valid for a period three years from the date of inspection is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 No. 00148/2022-DRAP(P)/394 dated 28-01-2022 mentioning Solifenacin Succinate EP attested by Assistant Drug Controller, DRAP, Peshawar. Firm has also submitted commercial invoice and copies of form 3 and form 7.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm.
1.	1.3.4	Valid copy of DML of the applicant shall be submitted as the submitted one is w.e.f. 27-09-2013. Valid copy of GMP certificate/last inspection report conducted within last three years shall be submitted.	
2.	1.3.5	Evidence of approval of manufacturing facility/section approval from licensing division shall be submitted.	
3.	1.5.2	This section has mentioned Solifenacin succinate USP (drug substance) while official pharmacopoeia of USP has no monograph for Solifenacin succinate. Clarification shall be submitted.	
4.	1.5.5	Revised Pharmacotherapeutic group with applicable fee as per WHO ATC classification shall be submitted.	
5.	1.6.5	Valid copy of GMP certificate of drug substance manufacturer shall be submitted.	
6.	2.3	Table for literature references with correct information regarding the drug substance shall be submitted.	
7.	3.2.S.4.1	Specification of the drug substance from the drug substance manufacturer shall be submitted.	

8.	3.2.S.4.2	• Analytical procedures of the drug substance from the drug substance manufacturer with details of complete test shall be submitted. • Analytical procedures of the drug substance from the drug product manufacturer shall be submitted.	
9.	3.2.S.4.3	• Analytical method verification protocol shall be submitted. • Clear and visible details of the analytical method verification shall be submitted.	
10.	3.2.S.5	• COA and details of the reference/working standard used in the development studies shall be submitted.	
11.	3.2.S.7.3	• Specifications has mentioned assay limits of 99% - 101% on titration while the stability studies have mentioned 98% - 102% on HPLC. Clarification shall be submitted.	
12.	3.2.P.2.2	• Justification for not performing CDP & PE against the innovator product shall be submitted. • Justification shall be submitted for submitting same results of CDP for both the strengths of the same formulation. • Justification shall be submitted for not performing assay and dissolution test in the PE studies shall be submitted.	
13.	3.2.P.5.1	Specification for dissolution test has not mentioned any time limit. Justification shall be submitted.	
14.	3.2.P.5.2	• Complete analytical procedures for all the tests of the finished product shall be submitted. • Justification shall be submitted for performing assay test on UV method instead of HPLC.	
15.	3.2.P.5.3	Analytical method verification protocol along with complete results of the analytical method as per the submitted analytical method shall be submitted.	
16.	3.2.P.6	COA and details of the reference standard used in the development studies shall be submitted.	
17.	3.2.P.8	• Justification shall be submitted regarding the raw data and chromatograms as HPLC method is used while analytical procedures has mentioned UV method for assay test. • Justification shall be submitted regarding the submitted chromatograms as the analytical method has mentioned UV method for the analysis of assay test while the submitted chromatograms are of HPLC. • Content uniformity test has not been performed in the stability studies. Clarification shall be submitted. • Submitted chromatograms has not mentioned any wavelength. Clarification shall be submitted. • Raw data sheets for calculation of assay and dissolution as per submitted formula in the analytical procedures at each time interval shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Manufacturing Date	10-02-2022	15-02-2022	15-02-2022
Date of Initiation	24-02-2022	24-02-2022	24-02-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has referred to their product Pirfedow Tablets 267mg which was approved in 297th Meeting of Registration Board held on 12th – 15th January 2021 Inspection was conducted on 04th January, 2020. According to the report following points were confirmed. • The firm has 21 CFR compliant HPLC software • The firm has audit trail reports available. • The firm possesses stability chambers with digital data loggers.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 1991611 dated 24-09-2019 issued by FDA Gujrat State, India valid till 23-09-2022 is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.5.2	This section has mentioned film coated tablet. Clarification shall be submitted.	Firm has submitted that their product is not film coated and they have submitted the same in the Cover letter, Form 5F, and Section 3.2.P.1 (master formula).
2.	1.5.6	Valid copy of GMP certificate of the drug substance manufacturer issued by relevant regulatory authority shall be submitted.	Copy of GMP certificate No. 22103633 dated 20-10-2022 issued by FDA Gujrat State, India valid till 19-10-2025 is submitted.
3.	3.2.P.8	Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted.	Firm has submitted that at the time of product development, they prospected many suppliers/vendors but could not easily got the drug substance for trial and development purpose. Therefore, the API was procured free of cost from indenter GUDIA PRIVATE LIMITED on their letter head. So, we request the esteemed authority to consider the attached document for processing of our application and approval of the product. However, we hereby commit to follow the invoice clearance from I&E DRAP for imported materials in the future for product development and stability studies.

Decision: Approved.

• **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	**Losartan 25mg Tablet.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Tablet Contains: Losartan Potassium ……..…25mg
	Pharmacotherapeutic Group of (API)	Angiotensin II receptor blockers (ARBs), plain. ATC code: C09CA01
	Reference to Finished product specifications	USP Specifications.
	The status in reference regulatory authorities	USFDA Approved.
	For generic drugs (me-too status)	Losmart Tablet 25mg, M/s Scilife Pharma, Reg. No. 096990.
	Proposed Pack size	As per SRO.
	Proposed unit price	As per SRO.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply submitted by the firm.
1.	1.3.4	Valid copy of GMP certificate of the applicant shall be submitted.	
2.	1.5.2	This section has not mentioned film coating while the reference product is film coated tablet. Clarification shall be submitted.	
3.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer issued by relevant/concerned regulatory authority shall be submitted.	
4.	3.2.S.4.1	• Specifications of the drug substance by the drug product manufacturer shall be submitted.	
5.	3.2.S.4.2	• Analytical procedures of the drug substance by the drug product manufacturer shall be submitted. • Analytical procedures of the drug substance submitted by the drug substance manufacturer are completely different from USP. Clarification shall be submitted.	
6.	3.2.S.4.3	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	
7.	3.2.S.4.4	Submitted COA from drug substance manufacturer has mentioned that it complies USP specifications while the analytical procedures are completely different from USP. Clarification shall be submitted.	
8.	3.2.S.5	COA/details of the working standard used during the development studies shall be submitted.	
9.	3.2.P.5.2	• Dissolution test by the finished product has mentioned UV method while official monograph has mentioned HPLC method. Clarification shall be submitted.	
10.	3.2.P.2.2	Justification shall be submitted for not performing CDP & PE studies against the innovator product.	
11.	3.2.P.8	• Justification shall be submitted for using UV method for dissolution while official monograph has mentioned HPLC method. • Documents for the procurement of API with approval from DRAP shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
1.	1.6.5	Valid copies of GMP certificate of both the drug substances issued by concerned/relevant regulatory authorities shall be submitted.	Ezetimibe: Firm has submitted copy of GMP certificate No. MI-2022-CE-08738-1 dated 03-08-2022 in the name of M/s Zhejiang Tianyu Pharmaceutical Co., Ltd., No. 15 Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw materials base Linhai Zone, Taizhou City issued by TGA Australia valid till 10-09-2025. Rosuvastatin: Firm has submitted a written confirmation for Pharmaceutical product issued by Shaoguan Pharmaceutical Association valid till 11-01-2026. *Not from relevant authority.*
2.	3.2.S.4.1	Specifications of the drug substance by the drug substance manufacturer for rosuvastatin has mentioned water content of less or equal to 3.5% while that of the drug product manufacturer has mentioned NMT 6.0%. Clarification shall be submitted.	Firm has submitted that as per the supplier's and In-house Certificate of Analysis (CoA), In-house method, and the USP monograph, the water content limit is not more than (NMT) 6.0%. However, Specifications of the drug substance by the drug substance manufacturer for rosuvastatin has mentioned water content of less or equal to 3.5%.
3.	3.2.S.4.3	• Analytical method verification studies of the drug substance Rosuvastatin calcium performed by the drug product manufacturer shall be submitted.	Submitted.
4.	3.2.P.1	• According to the formulation development data, the applied product is bilayer film coated tablet, while section 1.5.2 has mentioned only film coated tablet. Clarification shall be submitted. • Reference product of Spain is also a film coated tablet. Clarification shall be submitted.	Firm has submitted that according to literature survey regarding the Rosuvastatin and Ezetimibe, both molecules are not compatible with each other. Keeping an eye over the said issue, the formulation was designed as film coated tablet with bilayer inner core. Rosuvastatin is more stable in near neutral to alkaline pH, the same is detrimental to ezetimibe. Hence it is important to separate the two individual molecules, which creates a significant product development challenge. Hence, we have formulated bilayer core with outer film coating. *Applied strength is only available in Spain while other strengths of the same formulation are available in different RRAs with both film coated and bilayer tablets.*
5.	3.2.P.2.2	Pictorial evidence of the innovator product with visible details of batch number manufacturing date etc. shall be submitted.	Submitted and same details as provided in PE and CDP studies.

6.	3.2.P.5.2	• Justify for using same dissolution medium for both active substances when the innovator brand also recommended two different dissolutions medium (pH 6.6 citrate buffer with 50 RPM for rosuvastatin & pH 4.5 acetate buffer with 0.45% SLS and 75 RPM for Ezetimibe) for both active substances. • Justification shall be submitted for using 45 minutes' time for dissolution while the review of innovator brand has mention 30minutes.	Firm has submitted that they have performed the Comparative Dissolution Profile (CDP) of rosuvastatin and ezetimibe tablets with the innovator tablet. By considering solubility characteristics and profiling data with Innovator we select phosphate buffer pH 6.8 with 0.45% SLS as dissolution This medium ensures accurate, reliable, and reproducible results for rosuvastatin and ezetimibe tablets. We conducted the dissolution test for both rosuvastatin and ezetimibe on the combined product at 50 rpm instead of the 75 rpm as well as CDP releasing profile compare with innovator. On the basis of these study we extended our dissolution time up to 45 minutes. *Review of the innovator product recommended two different dissolutions medium (pH 6.6 citrate buffer with 50 RPM for rosuvastatin & pH 4.5 acetate buffer with 0.45% SLS and 75 RPM for Ezetimibe) for both active substances while the applied formulation has not followed the same.*
7.	3.2.P.8	Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Olagen OD Tablet (Olanzapine) 5mg, 10mg & 20mg Zpclo Tablet 1mg, 2mg & 3mg (Eszopiclone) Exifin Infusion 600mg/100ml (Ibuprofen) approved in DRB 331.

Decision: Approved.

- **Registration letter will be issued after submission of valid copy of GMP certificate/ Drug manufacturing license of the drug substance (Rosuvastatin) manufacturer i.e. Ruyuan HEC Pharm Co., Ltd. Xaiba Development Zone, Ruyuan County, Shaoguan City, Guangdong Province, P.R. China.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

		• Justification shall be submitted for using 45 minutes' time for dissolution while the review of innovator brand has mention 30minutes.	We conducted the dissolution test for both rosuvastatin and ezetimibe on the combined product at 50 rpm instead of the 75 rpm as well as CDP releasing profile compare with innovator. On the basis of these study we extended our dissolution time up to 45 minutes. *Review of the innovator product recommended two different dissolutions medium (pH 6.6 citrate buffer with 50 RPM for rosuvastatin & pH 4.5 acetate buffer with 0.45% SLS and 75 RPM for Ezetimibe) for both active substances while the applied formulation has not followed the same.*
8.	3.2.P.8	Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Olagen OD Tablet (Olanzapine) 5mg, 10mg & 20mg Zpclo Tablet 1mg, 2mg & 3mg (Eszopiclone) Exifin Infusion 600mg/100ml (Ibuprofen) approved in DRB 331.

Decision: Approved with following label claim;
Each Film Coated Tablet contains:
Rosuvastatin Calcium eq.to Rosuvastatin ……10mg
Ezetimibe …….. 10mg

- **Registration letter will be issued after submission of full fee for revision of label claim as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 and valid copy of GMP certificate/ Drug manufacturing license of the drug substance (Rosuvastatin) manufacturer i.e. Ruyuan HEC Pharm Co., Ltd. Xaiba Development Zone, Ruyuan County, Shaoguan City, Guangdong Province, P.R. China.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

838.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Genix Pharma (Pvt.) Ltd., Plot No. 44-45-B, Korangi Creek Road, Karachi.**
	Name, address of Manufacturing site.	M/s Genix Pharma (Pvt.) Ltd., Plot No. 44-45-B, Korangi Creek Road, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No 37081 dated 20-12-2022.
	Details of fee submitted	Rs.75,000/- vide slip No. 6845263523 dated 12-12-2022.
	The proposed proprietary name / brand name	**Rosca Plus Tablet.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Rosuvastatin calcium eq. to Rosuvastatin …… 40mg Ezetimibe …….. 10mg
	Pharmacotherapeutic Group of (API)	Combinations of various Lipid Modifying Agents. (C10BA)
	Reference to Finished product specifications	Innovator's Specifications.

	The status in reference regulatory authorities	Zenon 40/10mg film coated tablets, MHRA approved.
	For generic drugs (me-too status)	Not applicable.
	Proposed Pack size	7's, 9's, 10's, 14's, 20's, 28's & 30's.
	Proposed unit price	As per SRO.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
1.	1.6.5	Valid copies of GMP certificate of both the drug substances issued by concerned/relevant regulatory authorities shall be submitted.	Ezetimibe: Firm has submitted copy of GMP certificate No. MI-2022-CE-08738-1 dated 03-08-2022 in the name of M/s Zhejiang Tianyu Pharmaceutical Co., Ltd., No. 15 Donghai 5th Avenue, Zhejiang Provincial Chemical and Medical Raw materials base Linhai Zone, Taizhou City issued by TGA Australia valid till 10-09-2025. Rosuvastatin: Firm has submitted a written confirmation for Pharmaceutical product issued by Shaoguan Pharmaceutical Association valid till 11-01-2026. *Not from relevant authority.*
2.	3.2.S.4.1	Specifications of the drug substance by the drug substance manufacturer for rosuvastatin has mentioned water content of less or equal to 3.5% while that of the drug product manufacturer has mentioned NMT 6.0%. Clarification shall be submitted.	Firm has submitted that as per the supplier's and In-house Certificate of Analysis (CoA), In-house method, and the USP monograph, the water content limit is not more than (NMT) 6.0%. However, Specifications of the drug substance by the drug substance manufacturer for rosuvastatin has mentioned water content of less or equal to 3.5%.
3.	3.2.S.4.3	Analytical method verification studies of both the drug substances performed by the drug product manufacturer shall be submitted.	Submitted.
4.	3.2.P.1	According to the formulation development data, the applied product is bilayer film coated tablet, while section 1.5.2 has mentioned only film coated tablet. Clarification shall be submitted.	Firm has submitted that according to literature survey regarding the Rosuvastatin and Ezetimibe, both molecules are not compatible with each other. Keeping an eye over the said issue, the formulation was designed as film coated tablet with bilayer inner core. Rosuvastatin is more stable in near neutral to alkaline pH, the same is detrimental to ezetimibe. Hence it is important to separate the two individual molecules, which creates a significant product development challenge. Hence, we have formulated bilayer core with outer film coating. *However, firm has not replied regarding the film coating and bilayer tablet in section 1.5.2.*

5.	3.2.P.2.2	Pictorial evidence of the innovator product with visible details of batch number manufacturing date etc. shall be submitted.	Submitted and same details as provided in PE and CDP studies.
6.	3.2.P.5.2	• Justify for using same dissolution medium for both active substances when the innovator brand has recommended two different dissolutions medium (pH 6.6 citrate buffer with 50 RPM for rosuvastatin & pH 4.5 acetate buffer with 0.45% SLS and 75 RPM for Ezetimibe) for both active substances. • Justification shall be submitted for using 45 minutes' time for dissolution while the review of innovator brand has mention 30minutes.	Firm has submitted that they have performed the Comparative Dissolution Profile (CDP) of rosuvastatin and ezetimibe tablets with the innovator tablet. By considering solubility characteristics and profiling data with Innovator we select phosphate buffer pH 6.8 with 0.45% SLS as dissolution This medium ensures accurate, reliable, and reproducible results for rosuvastatin and ezetimibe tablets. We conducted the dissolution test for both rosuvastatin and ezetimibe on the combined product at 50 rpm instead of the 75 rpm as well as CDP releasing profile compare with innovator. On the basis of these study we extended our dissolution time up to 45 minutes. *Review of the innovator product recommended two different dissolutions medium (pH 6.6 citrate buffer with 50 RPM for rosuvastatin & pH 4.5 acetate buffer with 0.45% SLS and 75 RPM for Ezetimibe) for both active substances while the applied formulation has not followed the same.*
7.	3.2.P.8	Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Olagen OD Tablet (Olanzapine) 5mg, 10mg & 20mg Zpclo Tablet 1mg, 2mg & 3mg (Eszopiclone) Exifin Infusion 600mg/100ml (Ibuprofen) approved in DRB 331.

Decision: Approved. Registration letter will be issued after submission of valid copy of GMP certificate/ Drug manufacturing license of the drug substance (Rosuvastatin) manufacturer i.e. Ruyuan HEC Pharm Co., Ltd. Xaiba Development Zone, Ruyuan County, Shaoguan City, Guangdong Province, P.R. China.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No 969 dated 11-01-2023.
	Details of fee submitted	Rs.75,000/- vide slip No. 71393543061 dated 22-09-2022.

	The proposed proprietary name / brand name	**Baclast 0.05mg/ml Injection.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each ml contains: Baclofen …….. 0.05mg.
	Pharmacotherapeutic Group of (API)	Muscle relaxant.
	Reference to Finished product specifications	Innovator's Specifications.
	The status in reference regulatory authorities	Baclofen 0.05 mg/1 ml solution for injection, MHRA approved.
	For generic drugs (me-too status)	N/A.
	Proposed Pack size	1 ampoule, 5 ampoule & 10ml ampoule.
	Proposed unit price	As per SRO.

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
	1.5.7	This section has mentioned oral route of administration. Clarification shall be submitted.	Firm has submitted that it is a typographical error. Baclast Injection 0.05mg/ml is Intrathecal Injection.
8.	1.5.9	Evidence of approval of applied formulation in applied fill volume (2ml) in RRAs shall be submitted.	Firm has submitted that Innovator **Lioresal Intrathecal injection** is using 1ml Ampule for filling 0.05mg/ml. The developed product was filled in 2ml ampule due to shortage of 1ml Ampule to conduct the stability studies maintaining the label claim of 0.05mg/ml.
9.	3.2.S.7.3	Stability data sheets have mentioned Assay test by HPLC while the analytical procedures have mentioned potentiometric method. Clarification shall be submitted.	Firm has submitted that drug substance manufacturer M/s Panchsheel Organics Limited stated that "There was a typographical error in the ODMF. Mistakenly the Assay was mentioned as "By HPLC" instead of "By Potentiometric Titration". They also submitted revised stability studies with Potentiometric Titration
10.	3.2.P.2.2	Pictorial evidence of the innovator product against which PE studies are performed shall be submitted with clear details of batch number, manufacturing date and manufacturer etc.	Firm has submitted pictorial evidence of Lioresal 0.05mg/ml injection. However, details could not be confirmed from the picture.
11.	3.2.P.3.2	Justification shall be submitted for not performing terminal sterilization of the applied formulation.	Firm has submitted that Innovator's literature survey recommended statement "**DO NOT AUTOCLAVE",** therefore the applied product has subjected to Sterilization by filtration process to maintain the sterility of the subjected product.
12.	3.2.P.5.1	MHRA approved formulation has pH 5.0-7.0 and while the applied formulation has pH of 5.0 to 7.5. Clarification shall be submitted in this regard.	Firm has submitted that Innovator's pH specification for Baclofen injection is between 5.0 – 7.0. However, analytical procedure for said product is followed as per United State Pharmacopoeia and the pH range given in the USP is 5.0- 7.5,

			therefore, the range was selected as per monograph. They also submitted USP monograph. They further submitted that their Finished Product Specification claim is also "USP" enclosed find updated information of Section 1.5.6 of Baclast Injection 0.05mg/ml i.e. "USP Specification" *However, in the initially submitted dossier, firm has mentioned "innovator specifications."*
13.	3.2.P.5.2	Preparation of sample solution in the assay method of analytical procedure shall be submitted.	As per USP monograph, preparation of Sample solution are as follows: **"Nominally 50 µg/mL of baclofen from Injection. Use a portion of Injection. Dilute with water, if necessary"** As per submitted SOP of 0.05mg/ml we inject direct sample, because its concentration is already 0.05mg/ml or 50ug/ml as per USP
14.	3.2.P.8	Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Olagen OD Tablet (Olanzapine) 5mg, 10mg & 20mg. Zpclo Tablet 1mg, 2mg & 3mg (Eszopiclone). Exifin Infusion 600mg/100ml (Ibuprofen) approved in DRB 331.

Decision: Approved with USP Specifications.

- **Registration letter will be issued after submission of 7500/- fee for revision of specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.**
- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Details of fee submitted	Rs.30,000/- vide slip No. 2820251354 dated 14-11-2022.
	The proposed proprietary name / brand name	**Brivari 50mg Tablet.**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Brivaracetam …… 50mg
	Pharmacotherapeutic Group of (API)	Antiepileptic. ATC code N03Ax23
	Reference to Finished product specifications	Innovator's Specifications.
	The status in reference regulatory authorities	BRIVIACT® (brivaracetam) tablets (10mg, 25mg, 50mg, 75mg & 100mg Tablets), USFDA Approved.
	For generic drugs (me-too status)	Brivatam 50mg Tablet, CCL Pharmaceuticals, Reg. No. 109739.
	Proposed Pack size	10's, 14's, 30's (As per SRO)
	Proposed unit price	As per SRO

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
1.	1.5.2	This section has not mentioned film coated tablet. Clarification shall be submitted.	Firm has submitted that by mistake they have not written film coated tablet in this section. They also submitted corrected section with each film coated tablet.
2.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer issued by relevant authority shall be submitted.	Firm has submitted copy of GMP certificate No. Drugs (10) Pb. 2023/3750 dated 13-07-2023 issued by Food & Drugs Administration, Punjab. Valid till 12-07-2025.
3.	3.2.S.4.1	Specifications of the drug substance by the drug product manufacturer shall be submitted.	Submitted.
4.	3.2.S.4.2	Analytical procedures of the drug substance by the drug product manufacturer shall be submitted.	Submitted.
5.	3.2.P.8.3	• Stability data sheets as per decision of 293rd meeting of Registration Board with inclusion of API lot number, batch size and date of initiation shall be submitted.	Submitted and updated.

Decision: Approved. Registration letter will be issued after Submission Rs. 7,500/- for correction/pre-approval changes as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case 02: Registration applications on the basis of Export facilitation of Locally manufactured (Human) drugs on Form 5F.

Deputy Director PRV/EFD vide letter No.F.1-6/2019-PR-I (EFD) dated 26-05-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the pharmaceutical i.e. one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm i.e. **M/s CCL Pharmaceuticals (Pvt.) Ltd., Lahore** have achieved the benchmark of more than 100,000 USD during the fiscal Year 2021-2022 and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.
Following products are presented before the Board in light of the decision of the 133rd meeting of DRAP Authority held on 13th April 2022 for consideration.

848.	Name, address of Applicant / Marketing Authorization Holder	**M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.**
	Name, address of Manufacturing site.	M/s CCL Pharmaceuticals (Pvt.) Ltd., 62-Industrial Estate, Kot Lakhpat, Lahore.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Copy of GMP certificate No. 118/2019-DRAP (AD-789112-762) dated 13-05-2019 on the basis of inspection conducted on 30-04-2019 is submitted.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 1-8/84-Lic (Vol-V) dated 08/06/2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 33450 dated 21-11-2022.
	Details of fee submitted	PKR Rs. 30,000/- vide slip no. 4849434356 dated 24-10-2022.
	The proposed proprietary name / brand name	**Paracetamol ER Tablet 665mg.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Extended Release Tablet Contains: Paracetamol ……. 665mg
	Pharmacotherapeutic Group of (API)	Other Analgesics and Anti-pyretic. (N02BE01)

	Pharmaceutical form of applied drug	Film coated (Extended release) tablet.
	Reference to Finished product specifications	USP specification.
	Proposed Pack size	5's, 10's, 14's, 20's, 28's, 30's, 50's, and 100's.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Panadol Extend 665mg tablets, TGA Approved.
	For generic drugs (me-too status)	Panadol Extend 665mg tablets, GSK, Pakistan.
	Name and address of API manufacturer.	M/s Zenith Chemical Industries (Pvt.0 Ltd., Moza Donday, Jia Baga, Raiwind Road, Lahore. Copy of GMP certificate No. 75/2021-DRAP (AD-2027105-531) dated 24-09-2021 issued on the basis of inspection conducted on 14-07-2021 is submitted by the firm.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. ZPAR21-002, Mfg. date 01-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5% RH for 48 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 06 months Batches: (P11-001, P11-002 & P11-003)
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the innovator product i.e. Panadol Extend 665mg tablets, B. No. JD3R, mfg. date 01-2022 manufactured by M/s GSK, Pakistan by performing quality tests Identification, Dissolution & Assay.

		Results of both the test product and innovator product are comparable. Comparative Dissolution is also performed against the same brand that is innovator product i.e. Panadol Extend 665mg tablets, B. No. JD3R, mfg. date 01-2022 manufactured by M/s GSK, Pakistan in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). F2 values calculated are in acceptable range.
	Analytical method validation/verification of product	Method verification studies are submitted including , specificity, linearity, accuracy, precision.

STABILITY STUDY DATA			
Manufacturer of API	M/s Zenith Chemical Industries (Pvt.) Ltd., Moza Donday, Jia Baga, Raiwind Road, Lahore.		
API Lot No.	ZPAR21-002.		
Description of Pack (Container closure system)	Packed in Alu/PVC foil blister with leaflet in bleach board unit Carton.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 03 months Accelerated: 03 months		
Frequency	Accelerated: 0, 3 (Months) Real Time: 0, 3 (Months)		
Batch No.	PCMX-T2-22	PCMX-T3-22	PCMX-T4-22
Batch Size	1000 Tablets	1000 Tablets	1000 Tablets
Manufacturing Date	05/2022	05/2022	05/2022
Date of Initiation	05/2022	05/2022	05/2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 75/2021-DRAP (AD-2027105-531) dated 24-09-2021 issued on the basis of inspection conducted on 14-07-2021 is submitted by the firm.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.3.4	Valid copy of GMP certificate of the applicant shall be submitted.	Firm has submitted copy of GMP certificate No. 36/2023-DRAP (AD-957949223) dated 28-03-2023 issued on the basis of inspection conducted on 21-03-2023.
2.	2.3	Table for literature references with correct information regarding both the drug substance and drug product shall be submitted.	Firm has submitted corrected table for literature references without submission of applicable fee.
3.	3.2.S.5	COA/details of the reference standard used in the development studies shall be submitted.	Submitted.
4.	3.2.P.2.1.	Justification shall be submitted for not performing uniformity of dosage units in the pharmaceutical equivalence studies.	Firm has submitted that they have already performed the test. They also submitted revised pharmaceutical equivalence studies with inclusion of uniformity of dosage units test.
5.	3.2.P.8	• Complete six-month stability studies for both real time and accelerated stability shall be submitted. • Documents for procurement of API shall be submitted.	Submitted. Firm has submitted copy of Invoice No. 00031/521 dated 27-05-2021 from M/s Zenith Chemical Industries (Pvt.0 Ltd.

Decision: Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deputy Director (PR-II/EFD) vide letter No.F.1-6/2019-PR-I (EFD) dated 06-10-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the pharmaceutical i.e. one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm i.e. **M/s AGP Ltd., Karachi** have achieved the benchmark of more than 100,000 USD during the fiscal Year 2021-2022 and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.

Following products are presented before the Board in light of the decision of the 133rd meeting of DRAP Authority held on 13th April 2022 for consideration.

849.	Name, address of Applicant / Marketing Authorization Holder	**M/s AGP Limited, B-23-C, S.I.T.E., Karachi.**

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Copy of GMP certificate No. 43/2023-DRAP (K) dated 15-06-2023 on the basis of inspection conducted on 12-06-2023 is submitted.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-4/2010-Lic (Vol-I) dated 30/06/2020 specifying Tablet (General) section.

	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 4211, dated 14/02/2023.
	Details of fee submitted	PKR 75,000/- vide slip No. 58466719 dated: 18/01/2023.
	The proposed proprietary name / brand name	**Ameeg 500mg Tablet.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Imeglimin HCl …… 500mg
	Pharmacotherapeutic Group of (API)	Other blood glucose lowering drugs, excl. insulins. (A10BX15)
	Pharmaceutical form of applied drug	Film coated tablet.
	Reference to Finished product specifications	Manufacturer specification.
	Proposed Pack size	1 x 10's.
	Proposed unit price	As per DRAP approved price.
	The status in reference regulatory authorities	Twimig tablets 500mg, PMDA Japan approved.
	For generic drugs (me-too status)	N/A.
	Name and address of API manufacturer.	AMI Life Sciences (Pvt.) Ltd., Block No.82/B, ECP Road, At & Post: Kararkhadi-Tal- Padra, District: Vadodara, Gujrat, India. Copy of GMP certificate No. 19039306 dated 25-04-2019 issued on the basis of inspection conducted on 04-04-2019 & 22-04-2019 valid till 24-04-2022 issued by Food and Drug Control Administration Gujrat State, India is submitted.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. IME30010222M, Mfg. date 02-2022) and justification of specification, reference standard, container closure system and stability studies of

		drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 75% ± 5% RH for 03 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 03 months Batches: (IME/30030522-SET-I, IME/30040622-SET-I & IME/30060622-SET-I)
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the innovator product i.e. Twemeeg 500mg Tablet, B. No. DS222, Exp. date 04-2024 manufactured by M/s Sumitomo Dainippon Pharma, Japan by performing quality tests Identification, disintegration time, Uniformity of dosage units, Dissolution, Assay and Organic impurities. Results of both the test product and innovator product are comparable. Comparative Dissolution is also performed against the same brand that is innovator product i.e. Twemeeg 500mg Tablet, B. No. DS222, Exp. date 04-2024 manufactured by M/s Sumitomo Dainippon Pharma, Japan in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). In all the above mentioned three mediums, both comparator product and test products have shown more than 85% release within 15 minutes.
	Analytical method validation/verification of product	Method validation studies are submitted including , System suitability, specificity, linearity, accuracy, precision, LOD, LOQ, range & robustness.

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Brand name mentioned in the fee slip is Twymeeg 500mg tablet while applied brand name is some other. Clarification shall be submitted.	Firm has submitted that this is typographic error as Twymeeg is the brand name of innovator.
2.	1.6.5	Valid copy of GMP certificate of the drug substance shall be submitted.	Firm has submitted copy of GMP certificate No. S-GMP & GLP/23044097 valid till 18-04-2025 issued by Food and Drug Control Administration Gujrat State, India is submitted.
3.	3.2.S.7.3	Complete real time and accelerated stability studies for the drug substance as per Zone Iva or Zone IVb shall be submitted.	Firm has submitted 12 months' real time stability data for the already mentioned stability batches of the drug substance and 6 month accelerated stability.

Decision: Decision: Approved.

	• **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.** • **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	**P-Pride 1mg Tablet.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Prucalopride succinate eq. to Prucalopride ……1mg
	Pharmacotherapeutic Group of (API)	Other drugs for constipation. (A06AX)
	Pharmaceutical form of applied drug	Film coated tablet.
	Reference to Finished product specifications	AGP specification.
	Proposed Pack size	As approved by DRAP.
	Proposed unit price	As per DRAP approved price.
	The status in reference regulatory authorities	MOTEGRITY (Prucalopride) 1mg & 2mg tablets, USFDA approved.
	For generic drugs (me-too status)	Pri-Cic 1mg tablets, Searle Company Limited, Reg. No. 116035.
	Name and address of API manufacturer.	Symed Labs Limited, Unit-I, Survey No. 353, Domadugu (Village) Gummadidala, (Mandal), Sangareddy- 502 313, Telangana, India. Copy of License No. 1/MD/AP/99/B/R dated 18-07-2023 issued by Drugs Control Administration Government of Telangana valid till 31-12-2027 is submitted.

	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. IPCS0040722, Mfg. date 07-2022) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 75% ± 5%RH for 60 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches: (PCS 0010216, PCS 0020316 & PCS 0030316)
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the Resolor 1mg Tablet, B. No. KLL1P02, Exp. date of 11-2023 manufactured by M/s Janssen-Cilag S. p. A, Italy by performing quality tests Identification, disintegration time, Uniformity of dosage units, Dissolution, Assay and Organic impurities. Results of both the test product and innovator product are comparable. Comparative Dissolution is also performed against the same brand that is Resolor 1mg Tablet, B. No. KLL1P02, Exp. date of 11-2023 manufactured by M/s Janssen-Cilag S. p. A, Italy in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). In all the above mentioned three mediums, both comparator product and test products have shown more than 85% release within 15 minutes.
	Analytical method validation/verification of product	Method validation studies are submitted including , System suitability, specificity, linearity, accuracy, precision, LOD, LOQ, range & robustness.
STABILITY STUDY DATA		
Manufacturer of API	Symed Labs Limited, Unit-I, Survey No. 353, Domadugu (Village) Gummadidala, (Mandal), Sangareddy- 502 313, Telangana, India.

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	044DS01	044DS02	044DS01
Batch Size	4000 Tablets	4000 Tablets	4000 Tablets
Manufacturing Date	12/2022	12/2022	12/2022
Date of Initiation	19/01/2023	19/01/2023	19/01/2023
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of certificate No. L. Dis. No: 100785/TS/2023 with a subject of "List of products approved under WHO-GMP certification scheme for export purpose" wherein Prucalopride succinate IH is approved. Certificate is issued by Drugs Control Administration Government of Telangana dated 10-01-2023 valid till 08-01-2026.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 No. K-230564682416 dated 24-03-2024 mentioning Baricitinib MS from M/s Zhejiang Hongyuan Pharmaceutical Co., Ltd. *API documents are for some other API than the applied one.*
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	3.2.P.8	• Justification shall be submitted for not performing uniformity of dosage unit in the stability data sheets.	Firm has submitted that as per ICH & WHO, stability studies should include testing of stability indicating attributes of the FPP, i.e. those that are susceptible to change during storage and likely to influence quality, safety and/or efficacy.

		• Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted.	Content uniformity is a test that evaluates the quality of the dosage of a pharmaceutical drug. Hence AGP tested content uniformity on initial testing only and not tested on stability intervals. Firm has submitted copy of Form 6 No. K-969164689574 dated 13-09-2022 mentioning 0.1kg of Prucalopride Succinate MS from M/s Symed Labs, India. Firm has also submitted copy of commercial invoice No. 22-23/EXP-504 dated 31-08-2022 mentioning 0.1kg of Prucalopride Succinate, B. no. 1PCS0040722, mfg. date of 06-2022. *However, invoice is not attested by DRAP.*

Decision: Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Firm has also submitted copy of commercial invoice No. 22-23/EXP-504 dated 31-08-2022 mentioning 0.1kg of Prucalopride Succinate, B. no. 1PCS0040722, mfg. date of 06-2022. *However, invoice is not attested by DRAP.*
		• Stability data sheets as per decision of registration board with inclusion of API lot number, manufacturing date, batch size & date of initiation etc. shall be submitted.	Submitted.

Decision: Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Deputy Director (PR-II/EFD) vide letter No.F.1-6/2019-PR-I (EFD) dated 13-09-2023 has informed that DRAP Authority in its 133rd meeting held on 13th April 2022, decided to grant registration on priority basis to the pharmaceutical i.e. one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year. In compliance to the aforementioned decision of the authority, the following firm i.e. **M/s Pharmatec Pakistan (Pvt.) Ltd., Karachi** have achieved the benchmark of more than 100,000 USD during the fiscal Year 2022-2023 and submitted their applications for priority consideration in lieu of export facilitation for Registration Board please.

Following products are presented before the Board in light of the decision of the 133rd meeting of DRAP Authority held on 13th April 2022 for consideration.

852.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Pharmatec Pakistan (Pvt.) Ltd., D-86/A, S.I.T.E. Karachi.**
	Name, address of Manufacturing site.	M/s Pharmatec Pakistan (Pvt.) Ltd., D-86/A, S.I.T.E.

		Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

REQUEST OF EXEMPTION FROM ON SITE INSPECTION		
The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.		
Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	**Diphenhydramine HCl:** Qidong Dongyue Pharmaceutical Co., Ltd., No. 268 Shanghai Rd., Binjiang Fine Chemical Industry Zone, Qidong City. Firm has submitted copy of License No. SU20160261 dated 17-09-2020 valid till 16-09-2025. **Dextromethorphan Hydrobromide:** M/s Divi's Laboratories Limited, Lingojigudem village, Choutuppal Mandal, Yadadri Bhuvanagiri District Telangana, India. **Levomenthol:** M/s Anhui Great Nation Essential Oils Co., Ltd., No. 37 Xinyang Road Economy and Technology Development District, Fuyang City, Anhui Province, China. Copy of certificate No. CN14/21092 issued by SGS mentioning the M/s Anhui Great Nation Essential Oils Co., Ltd., has been assessed and certified as meeting the requirements of ISO 22000:2018 valid till 24-09-2023 is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	**Diphenhydramine HCl:** Firm has submitted copy of FedEx courier. However, firm has not submitted any attested invoice or any form 6 etc. **Dextromethorphan Hydrobromide:** Firm has submitted copy of commercial invoice No. ZHI-CI/5063/1220 dated 01-12-2020 mentioning 100kg of dextromethorphan HBr, Batch No. S-A-0101020. Invoice is attested by Assistant Director, DRAP, Karachi dated 28-01-2021. **Levomenthol:** firm has not submitted any attested invoice or any form 6 etc.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks OF Evaluator:

Sr. No.	Section No.	Observation	Response by the firm

1.	1.6.5	• Valid copy of GMP certificate for drug substance Dextromethorphan Hydrobromide issued by concerned/relevant regulatory authority shall be submitted. • GMP certificate for Levomenthol has mentioned Food grade. Justification shall be submitted regarding food grade oil used in pharmaceutical formulation. • Valid copy of GMP certificate for drug substance Levomenthol issued by concerned/relevant regulatory authority shall be submitted.	Firm has submitted copy of GMP certificate No. 87971/TS/2022 dated 05-05-2022 issued by Drugs Control Administration, Telangana valid till 03-05-2025. Firm has submitted that People republic of China is not issuing the GMP certificate of states, therefore, GMP certificate of Levomenthol from Anhui great national Essential Oils Co., Ltd, cannot be provided. In place of GMP certificate they provided a certificate of SGS certificate, Kosher certificate etc. *However, firm has not submitted any justification regarding food grade oil used in pharmaceutical formulation.*
2.	2.3	Table for literature references with correct information regarding the drug substances with applicable fee shall be submitted.	Submitted. Applicable fee is not submitted.
3.	3.2.S.4.2	• Justify the difference in the Standard concentration and sample concentration of Dextromethorphan HBr analytical method with respect to the Standard concentration and sample concentration of Dextromethorphan HBr in USP monograph. • Evidence of availability of GC and flame ionization detector for the testing of Levomenthol shall be submitted.	Firm has submitted that we reviewed the method and identified a typographical error in the testing procedure. Specifically, in the preparation of working standard solution and working sample solution. We inadvertently pipetted out 15ml of solution instead of the correct 10ml of stock standard solution and sample solution. The errors have been rectified in the standard testing method and submitted. Additionally, we have re-performed complete testing of dextromethorphan HBr Batch #S-A-0101020 as per revised method and obtained results are approximately same as initial results. The attached analytical test report provides evidence of these results. Furthermore, the attached analytical method verification of API dextromethorphan HBr fulfills all the requirements of the USP monograph for dextromethorphan HBr. Firm has submitted Protocol and report for GC.
4.	3,2.S.5	• COA/details of the reference/working standard used in the development of	Submitted.

		trial batches for diphenhydramine HCl shall be submitted. • COA/details of the reference/working standard used in the development of trial batches for Levomenthol shall be submitted.	Submitted.
5.	3.2.S.7	• Stability data sheets for Diphenhydramine HCl with stability conditions shall be submitted. • Stability data sheets for Levomenthol with stability conditions for both real time and accelerated stability shall be submitted.	Submitted. Submitted. *However, it is only table without any name of the company and signatures.*
6.	3.2.P.2.2	• Justification shall be submitted for not performing most of the tests in the PE studies. • Pictorial evidence of the innovator product with visible details of batch number, manufacturing date etc. shall be submitted.	Firm has submitted that during the trial batch manufacturing, we conducted assays for the active substance, pH, and specific gravity tests on the innovator product (Benylin Dry Cough Night Syrup, batch # M1268R, expiry 03-2022), and submitted the results to DRAP. Subsequently, during the preparation of our stability batches, we performed comprehensive testing, comparing it with the innovator product Benylin Dry Cough Night Syrup, batch # T3421R, expiry 08-2023). Firm has also submitted complete reports and pictorial evidence of the innovator product with visible details.
7.	3.2.P.5.2	• Stock sample solution has mentioned 5gm of sample solution. However, quantity of each ingredient could not be confirmed from 5gm as the label claim is in ml. clarification shall be submitted.	Firm has submitted that there might be a typo error in the testing method. As per our method we pipette out 5mL of the sample, then weigh and transfer it to achieve more accurate results. This approach, using sample weight in grams instead of millimeters, is preferred because weight measurements are generally considered more accurate and reproducible than volume measurements. Subsequently, specific gravity is utilized in the calculation to further enhance the accuracy of the results. As you can See in the calculation method "V" represents volume with a nominal value of 5ml. They also submitted revised method with correction.
8.	3.2.P.8	• Stability data sheets have mentioned different batch number for Dextromethorphan Hydrobromide than mentioned in 3.2.S.4.4. Clarification shall be submitted.	Firm has submitted that it was a typo error. They also submitted revised stability data sheets wherein they have corrected API lot number from S-A-0101020-3 to S-A-0101020.

		• Documents for the procurement of API with approval from DRAP for Levomenthol and Diphenhydramine HCl (in case of import) shall be submitted.	Firm has submitted Sales Tax Invoice No. K-106989 dated 15-12-2020 from supplier M/s Brothers Enterprises (Pvt.) Ltd., However, no clearance certificate from DRAP is submitted by the firm. Firm has submitted that Diphenhydramine HCl from Qidong Dongyue Pharmaceutical Co., Ltd. Used in the manufacturing of trial batches were procured free of cost. They also provided courier slip. However, no clearance certificate from DRAP is submitted by the firm.

Decision: Deferred for following;

- **Submission of full fee i.e. 30,000/- for more than two typo errors in the application as per decision of Registration Board shall be submitted.**
- **Justification shall be submitted regarding food grade oil used in pharmaceutical formulation.**
- **Valid copy of GMP certificate for drug substance Levomenthol issued by concerned/relevant regulatory authority shall be submitted.**
- **Stability data sheets for Levomenthol from the drug substance manufacturer with stability conditions for both real time and accelerated stability shall be submitted.**
- **Documents for the procurement of API with approval from DRAP for Levomenthol and Diphenhydramine HCl (in case of import) shall be submitted.**

Case 03: Registration applications on the basis of Export facilitation of Locally manufactured (Human) drugs on Form 5D.

853.	Name and address of manufacturer / Applicant	M/s AGP Limited, B-23-C, S.I.T.E., Karachi.
	Brand Name +Dosage Form + Strength	Cholicin 5mg Tablet.
	Diary No. Date of R& I & fee	Dy. No. 32413, R&I Dated 28.09.2018. **(Duplicate dossier)**, Rs. 50,000/- vide slip No. 0755041 dated 28-09-2018. R&I section DRAP has verified the Dy. No. and date.
	Composition	Each film-coated tablet contains: Obeticholic acid ……..…..... 5mg
	Pharmacological Group	Farnesoid X-receptor agonist.
	Type of Form	Form 5D.
	Finished Product Specification	Manufacturers specification
	Pack size & Demanded Price	10's & as per SRO.
	Approval status of product in Reference Regulatory Authorities.	Ocaliva 5mg & 10mg tablet by Intercept Pharma, USFDA approved.
	Me-too status	Abeticolic 5mg tablets, M/s Dyson Research laboratory, Reg. No. 109521.
	GMP status	Copy of GMP certificate No. 43/2023-DRAP (K) dated 15-06-2023 on the basis of inspection conducted on 12-06-2023 is submitted.

STABILITY STUDY DATA	
Drug	Cholicin 5mg Tablet.
Name of Manufacturer	M/s AGP Limited, B-23-C, S.I.T.E., Karachi.

Date of Submission	21-11-2022 (Dy. No. 33452)		

DOCUMENTS / DATA PROVIDED BY THE APPLICANT FOR EXEMPTION

DOCUMENTS / DATA PROVIDED BY THE APPLICANT

S. No.	Documents To Be Provided	Status
1.	Reference of previous approval of applications with stability study data of the firm	Firm has referred to their last inspection report for their product "Glyzia XR tablet" Registration Board in its 285th meeting decided to approve Registration of "Glyzia XR tablet by M/s AGP Limited, Karachi. Date of Inspection: 26-09-2018. Software of HPLC present in the firm is 21CFR compliant and audit trail on the testing reports was available and confirmed.
2.	Certificate of Analysis of API from both API Manufacturer and Finished Product manufacturer.	Firm has submitted COA of Obeticholic acid (Batch # 210301) from M/s Fujian Jinshan Zhundian Pharmaceutical Co., Ltd., China. COA from M/s AGP Limited with same batch number is also submitted.
3.	Method used for analysis of API from both API Manufacturer and Finished Product manufacturer	Submitted.
4.	Stability study data of API from API manufacturer	The firm has submitted copy of accelerated, 06 months & long term, 12 months stability study reports of 03 batches (171001, 171002 & 171003).
5.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate No. FJ20160009 of M/s Fujian Jinshan Zhundian Pharmaceutical Co., Ltd., China issued by China Food and Drug Administration. The certificate is valid till 22-02-2021. Firm has also submitted copy of License No. 20160119 valid till 04-09-2021.
6.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has provided copy of commercial invoice No. WIS210019 dated 12-03-2021mentioning 0.55kg of Obeticholic acid. Invoice is also attested by Assistant Director, DRAP, Karachi dated 19-03-2021. Firm has also submitted attested copy of form 6

<table>
<tr><td></td><td></td><td>attested by Assistant Director, DRAP, Karachi dated 19-03-2021.</td></tr>

<tr><td>11.</td><td>Record of comparative dissolution data (where applicable)</td><td>Firm has submitted CDP against Abeticolic 5mg tablets, B. No. DY001, mfg. date of 10-2021 manufactured by Dyson Research Laboratory in three different mediums i.e. 0.1N HCl, Acetate Buffer pH 4.5 & Phosphate Buffer pH 6.8. In first two medium no release is observed while in Phosphate buffer pH 6.8 F_2 is in acceptable range.</td></tr>
<tr><td>12.</td><td>Data of 03 batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.</td><td>Submitted</td></tr>
<tr><td>13.</td><td>Compliance Record of HPLC software 21CFR & audit trail reports on product testing.</td><td>Submitted</td></tr>
<tr><td>14.</td><td>Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)</td><td>Firm has submitted record of digital data logger for temperature and humidity monitoring of stability chambers.</td></tr>
</table>

Remarks of the Evaluator:

Sr. No.	Observations	Submission by the firm.
1	Approval of API/ DML/ valid GMP certificate of drug substance manufacturer issued by concerned regulatory authority of country of origin shall be submitted.	Firm has submitted copy of license No. 20160119 for M/s Fujian Jinshan Zhundian Pharmaceutical Co., Ltd., China valid till 10-08-2026.
2	Method used for analysis of API from Finished Product manufacturer shall be submitted.	Submitted.
3	Submitted method of analysis for drug substance from drug substance manufacturer has no sample and standard preparation method in assay test.	Firm has submitted analytical procedures wherein they have mentioned sample and standard preparation methods for the assay test in the analytical method.
4	Stability data sheets with stability condition shall be submitted.	Firm has submitted stability data sheets with accelerated stability condition of 25˚C ± 2˚C / 60% ± 5%RH for 06 months and real time

		condition of 5 ± 3°C for 12 months.
5	Justification for not performing CDP against the innovator product shall be submitted.	Firm has submitted that innovator product is not available in the local market, and we could not import this medicine because this falls under the prescription drug category. They further submitted that as per DRAP, frequently asked questions about form 5F, Q-23, CDP performed against comparator product available in Pakistan is acceptable with justification. So in this regard local brand available manufactured by M/s Dyson Research Laboratories, which is easily available and approved by DRAP is taken as reference product during performing of dissolution profile.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months.**

Sr. No.	Section	Observation	Reply by the firm
1.	1.3.4	GMP certificate/last inspection report conducted within last three years of the applicant shall be submitted.	*Not submitted.*
2.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer issued by the concerned/relevant regulatory authority shall be submitted.	Firm has submitted copy of GMP certificate No. DC/A-1/WHO-GMP/2023/931 dated 22-02-2023 valid for a period of 03 years.
3.	2.3	Table for literature references of the drug substance has mentioned drug substance in BP. Clarification shall be submitted. Revised table for literature references with correct information regarding the	Firm has submitted revised table with correct information with submission of 7500/- fee vide slip No. 4468179036 dated 05-10-2023.

		drug substance and applicable fee shall be submitted.	
4.	3.2.S.4.2	Injection volume provided by the drug substance manufacturer has mentioned 20µl while drug product manufacturer has mentioned 10 µl. clarification shall be submitted.	Firm has submitted that they used 10ul injection volume to enhance column efficiency and avoid from overloading.
5.	3.2.S.4.3	Analytical method verification studies including Accuracy, Specificity and precision along with details shall be submitted.	Submitted.
6.	3.2.S.7	• Justification shall be submitted for over writing/altering the Humidity condition i.e. RH 65% ± 5% in the real time stability data of the drug substance. • Real time stability data sheets for the drug substance as per zone Iva condition shall be submitted.	*No justification is submitted against this point.* *Firm has submitted new stability data sheets for the drug substance both at real time and accelerated stability.* Real time: 30˚C ± 2˚C / 65% ± 5%RH for 36 months Accelerated: 40°C ± 2°C / 75% ± 5%RH for 6 months Batches; AESS15001, AESS15002 & AESS15003.
7.	3.2.P.2.2	• Justification shall be submitted for not performing PE against the innovator brand. • Justification shall be submitted for not performing sterility, Bacterial endotoxin and particulate matter tests in pharmaceutical equivalence studies. • Justification shall be submitted for not performing pH of the reconstituted solution in pharmaceutical equivalence studies.	Firm has submitted that because of the absence of an innovator sample, CDP was performed using the local competitor sample in accordance with section 3 of WHO Technical Report Series Number 992, 2015, "Guidance of the Selection of Comparative Pharmaceutical Products for Equivalence Assessment of Interchangeable Multi-Source (Generic) Products." General Principle 1: In profile with that of comparator products Tablets, for which a national marketing authorization has been given. Firm has replied that these tests already performed in PE study and provided updated report for pharmaceutical equivalence wherein they added these tests. Same reply as above.
8.	3.2.P.5.1	Justification shall be submitted for not including pH of the reconstituted solution in the specifications.	Firm has provided revised finished product specifications wherein they added pH of the reconstituted solution in the specifications.
9.	3.2.P.8	• Specification has mentioned filled weight of 113 ± 7% while the stability data sheets have mentioned 118.44 ± 7%. Clarification shall be submitted. • Stability data sheets as per decision of 293rd meeting of Registration Board with inclusion of API lot number shall be submitted. • Documents for procurement of API of the same batch from which batches are manufactured shall be submitted.	Firm has provided updated SOP for finished product specifications wherein they revised fill volume. Firm has submitted stability data sheets with inclusion of API lot No. AESS19006. Firm has submitted copy of invoice No. RAL2E/20-21/0183 dated 03-03-2021 specifying 4.0Kg of Esomeprazole Sodium

		• Clearance certificate provided is cleared on 05-04-2022 while the batches are manufactured in December, 2020, March 2021 & June 2021 respectively. Justification shall be submitted. • Raw data sheets for calculation of assay test and dissolution test shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Sterile with batch No. AOSS20030, mfg. date of 11-2020 & batch No. AESS20003, mfg. date of 12-2020. The invoice is cleared by AD (I&E) DRAP, Karachi dated 26-03-2021. API lot number used in the manufacturing of batches is different from that of the clearance document. Submitted. ***N/A.***

Decision of 331st meeting of Registration Board.: Deferred for submission of documents for procurement of API of the same batch from which batches are manufactured, with approval from DRAP, shall be submitted.

Reply submitted by the firm:

Firm has submitted that in finished product with batch No. 011I043, API with lot number AESS19006 was used. They also submitted copy of invoice No. RAL3E/20-21/0174 dated 10-03-2020 mentioning 02kg of Esomeprazole lyophilized powder with batch No. AESS19006, mfg. date of 02-2020. The invoice is attested by Assistant Director, DRAP, Karachi dated 03-04-2020. They also submitted COAs from both drug substance and drug product manufacturer.

Firm has further submitted that in finished product with batch No. 012I043, API with lot number AESS20003 was used. They also submitted copy of invoice dated 03-03-2021 mentioning 02kg of Esomeprazole lyophilized powder with batch No. AESS20003, mfg. date of 12-2020. The invoice is attested by Assistant Director, DRAP, Karachi dated 26-03-2021. They also submitted COAs from both drug substance and drug product manufacturer.

Firm has further submitted that in finished product with batch No. 010I043, API with lot number SI/EPZ/00041118 was used. They also submitted copy of commercial invoice No. E/168/SIPL/18-19 dated 19-12-2018 mentioning 05kg of Esomeprazole sodium sterile (lyophilized powder) with batch No. SI/EPZ/00041118, mfg. date of 11-2018. The invoice is attested by Assistant Director, DRAP, Karachi dated 03-01-2019. They also submitted COAs from both drug substance and drug product manufacturer.

Remarks of the evaluator.

Finished product with batch No. 010I043 wherein API with lot number SI/EPZ/00041118 is used has mentioned the name of manufacturer as Sterile India Pvt., Ltd., while in the submitted data at the time of Form 5F there are no details of this manufacturer. No information for this source is submitted by the firm I.e. Details of the manufacturing site, COAs of the drug substance, stability data for the drug substance as per Zone Iva, analytical method and its verification etc.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)

	GMP status of the firm	Firm has submitted copy of GMP certificate No. 198/2022-DRAP (AD-9405944056-789) dated 17-11-2022 issued on the basis of inspection 14/11/2022.
	Evidence of approval of manufacturing facility	Dry Powder suspension (Penicillin) – New section approved vide letter No. F. 1-63/84-Lic (Vol III) dated 27-12-2021 is submitted.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 14708 dated 12-06-2023.
	Details of fee submitted	PKR 30,000/- vide slip No. 9880312550 Dated 05-06-2023.
	The proposed proprietary name / brand name	**Ampiwell Dry Powder Suspension 125mg/5ml.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 5ml contains: Ampicillin as trihydrate …… 125mg.
	Pharmacotherapeutic Group of (API)	Beta-Lactam Antibacterial, Penicillin.
	Pharmaceutical form of applied drug	Dry Powder Suspension.
	Reference to Finished product specifications	BP specifications.
	Proposed Pack size	60ml.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Ampicillin 125 mg/5ml Oral Suspension, Kent Pharmaceuticals Limited, MHRA Approved.
	For generic drugs (me-too status)	Ampcin 15 mg Dry Suspension, CSH Pharmaceuticals, Reg. No. 071538.
	Name and address of API manufacturer.	M/s Zafa Chemie, Raiwind Road Bypass, Sunder Industrial Estate, Mouza Bhaikot, Tehsil & District Lahore, Pakistan. Copy of GMP Certificate No. 79/2020-DRAP (AD/1992617-228) dated 20-04-2020 issued on the basis of inspection conducted on 23-10-2019.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detail of the drug substance including its nomenclature, structure, general properties, solubility, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. 828, mfg. date 02-2021) and

		justification of specification, working standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. Real time: B. No. 804, 805 & 806. Accelerated: 808, 809 & 810.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the Ampicillin dry powder suspension with B. No. SM-022, mfg. date 05-2022 manufactured by M/s Amros Pharmaceuticals by performing quality test of identification, pH, average filled bottle weight, assay and microbial count test. Results of both the test product and reference product are within the specifications limit and comparable.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	500 bottles	500 bottles	500 bottles
Manufacturing Date	08-2022	08-2022	08-2022
Date of Initiation	16-08-2022	16-08-2022	16-08-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP Certificate No. 79/2020-DRAP (AD/1992617-228) dated 20-04-2020 issued on the basis of inspection conducted on 23-10-2019.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of Evaluator:

Sr. No.	Section	Observation	Response by the firm
1.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer shall be submitted.	Firm has once again submitted Copy of GMP Certificate No. 79/2020-DRAP (AD/1992617-228) dated 20-04-2020 issued on the basis of inspection conducted on 23-10-2019. *Not within last three years.*
2.	2.3	Table for literature references with correct information shall be submitted.	Firm has provided corrected information with submission of 7500/- fee vide slip No. 22193240162 dated 10-07-2023.
3.	3.2.S.7	Real time and accelerated stability study data of the drug substance for the same batches shall be submitted.	*Firm has once again submitted real time stability data of the drug substance for the same batches.* *Real time: B. No. 804, 805 & 806.* *Accelerated: 808, 809 & 810.* *Stability study data for same batches is not provided.*
4.	3.2.P.2.2	Justification for not performing the pharmaceutical equivalence test against the innovator product.	Firm has submitted that innovator product was not available in the market, so they used competitor product.
5.	3.2.P.8	• Stability data sheets as per decision of 293rd meeting of RB with inclusion of API lot number shall be submitted. • Justification shall be submitted for the applied wavelength (230) in the submitted chromatograms with respect to the analytical procedures and BP (254). • Justification shall be submitted for the injection volume (20) in the submitted chromatograms with respect to the analytical procedures and BP (50µl).	Firm has submitted revised stability data sheets wherein they have included API lot number in the stability data sheets. Firm has submitted that wavelength of 230nm was adopted from USP monograph of Ampicillin. *However, finished product specifications, analytical procedures have mentioned BP specifications.* Firm has submitted that to achieve system suitability, they used 20 µl injection volume as per USP <621>, method verification also has been conducted for this variation. They further submitted that at 11-month time point they had tested by using 50 µl injection volume and using 254 nm wavelength and found satisfactory results.

		• Raw data sheets for calculation of ampicillin content at each time point shall be submitted. • Documents for procurement of API shall be submitted.	Firm has submitted that they attached raw data sheets for calculation of ampicillin content. *However, they have not submitted any calculation sheets.* Firm has submitted copy of invoice No. 293913 mentioning 10kg quantity of Ampicillin trihydrate with batch No. 828.

Decision of 330th meeting of Registration Board: Deferred for following;

- Valid copy of GMP certificate/inspection report conducted within last three years of the drug substance manufacturer shall be submitted.
- Real time and accelerated stability study data of the drug substance for the same batches shall be submitted.
- Pharmaceutical equivalence test of the applied formulation against the innovator product shall be submitted.
- Justification shall be submitted for adopting wavelength (230nm) in the submitted chromatograms while the specification and analytical procedures of the finished product has mentioned BP specification with wavelength of (254nm).
- Raw data sheets for calculation of ampicillin content at each time point shall be submitted.

Submission by the firm:

Sr. No.	Reason for deferment	Reply submitted by the firm
1.	Valid copy of GMP certificate/inspection report conducted within last three years of the drug substance manufacturer shall be submitted.	Firm has submitted copy of letter dated 02-11-2020 wherein M/s Zafa Chemie has applied for renewal of DML No. 000589 endorsed in DRAP dated 05-11-2020. *However, Neither valid copy of GMP certificate nor valid copy of DML is submitted by the firm.*
2.	Real time and accelerated stability study data of the drug substance for the same batches shall be submitted.	Firm has submitted stability data of drug substance for both real time and accelerated for same batches i.e. 818, 819 & 820
3.	Pharmaceutical equivalence test of the applied formulation against the innovator product shall be submitted.	Firm has submitted that innovator reference product is not available in market, so they have performed PE studies with competitor reference pack i.e. Ampicillin dry powder suspension, B. no. SM-022, mfg. date 05-2022 manufactured by Amros pharmaceutical, Karachi.
4.	Justification shall be submitted for adopting wavelength (230nm) in the submitted chromatograms while the specification and analytical procedures of the finished product has mentioned BP specification with wavelength of (254nm).	Firm has submitted that wavelength of 230nm was adopted from USP monograph of Ampicillin. Product analytical method had been updated as per BP specifications and testing at 12 month time point is carried out at 254nm wavelength.
5.	Raw data sheets for calculation of ampicillin content at each time point shall be submitted.	Submitted.

Decision: Approved. Registration letter will be issued after submission of valid DML of the drug substance manufacturer.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

6.	Analytical method verification protocol along with complete results of the analytical method verification shall be submitted.	Submitted.
7.	COA of the drug substance from drug substance manufacturer has mentioned Assay of ≥ 99% while the drug product manufacturer has mentioned Assay limit of 98% - 102%. Clarification shall be submitted.	Firm has submitted that they mistakenly mentioned the assay limit of 98% - 102 instead of NLT 99.0%. they further submitted revised COA as per drug substance manufacturer.
8.	• COA and details of the reference standard used in the development studies shall be submitted. • For working standard firm has referred to 3.2.S.2.2 while no DMF is provided. Justification shall be submitted.	Firm has submitted COA of the reference standard.
9.	Justification for not performing CDP & PE against the innovator product shall be submitted. Content uniformity test is not performed in the pharmaceutical equivalence studies. Justify. Values of f_2 in CDPs shall be submitted for all the mediums.	Firm has submitted that due to unavailability of the innovator product in the market, they used brand leader available in local market in the CDP studies. Firm has submitted revised PE studies wherein they have added results of content uniformity test.
10.	• Complete analytical procedures for all the tests of the finished product shall be submitted. • Justify the variation of dissolution parameters i.e. rpm, dissolution medium and limits from that recommended by USFDA for the vonoprazan tablets.	Submitted. Firm has submitted revised dissolution specifications as per USFDA method for Vonoprazan tablets.
11.	Analytical method verification protocol along with complete results of the analytical method verification for the finished product shall be submitted.	Submitted.
12.	Specification of the finished product has mentioned limits of weight variation test as 220mg ± 7.5% while the COA of the finished product has mentioned 178mg ± 7.5%. clarification shall be submitted.	Firm has submitted revised COAs for all the three batches wherein they have changed weight variation specification from178mg ± 7.5% to 220mg ± 7.5% and the results are within the new limits.
13.	COA and details of the reference standard used in the development studies shall be submitted.	Submitted.
14.	• Stability summary sheets and stability data sheets are completely different with respect to batch number, batch size, manufacturing date, start date of stability studies etc. justification shall be submitted. • Content uniformity test has not been performed in the stability studies. Clarification shall be submitted. • Submitted chromatograms has not mentioned any wavelength. Clarification shall be submitted.	Firm has submitted that by clerical mistake it happened. They further submitted corrected one. Firm has submitted that they have performed content uniformity test at initial stage and also submitted COAs wherein they have included the same. Firm has submitted that HPLC chromatograms does not contain wavelength rather it is retention time versus absorbance (peak height) moreover, in UV spectrum wavelength versus absorbance is usually measured. Submitted.

	• Raw data sheets for calculation of assay and dissolution as per submitted formula in the analytical procedures at each time interval shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	irm has submitted that their product is approved in 331st meeting on form 5F. Submitted. Submitted.

Decision: Approved. Registration letter will be issued after submission of full fee i.e. 30,000/- for more typo errors and submission of valid GMP certificate/DML of the drug substance manufacturer issued by relevant/concerned regulatory authority.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

858.	**Name, address of Applicant / Marketing Authorization Holder**	**Welwrd Pharmaceuticals, Plot No. 3, Block A, Phase I-II, Industrial Estate, Hattar.**

	Evidence of approval of manufacturing facility	Not submitted.
	Status of application	☒ New Drug Product (NDP) ☐ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 6133 dated 07-03-2022.
	Details of fee submitted	PKR 30,000/-, vide slip No. 60062819 Dated 24/01/2022.
	The proposed proprietary name / brand name	**Wonowrd 20mg tablets.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Vonoprazan as Fumarate 20mg
	Pharmacotherapeutic Group of (API)	Anti-ulcerative, Proton Pump Inhibitor.
	Pharmaceutical form of applied drug	Oral tablet.
	Reference to Finished product specifications	Innovator's Specifications.
	Proposed Pack size	3 x 10's.

	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Takecab 20 mg Tablets by Takeda Pharmaceutical Company Limited, PMDA Japan approved.
	For generic drugs (me-too status)	Cindo 20mg tablets, Horizon Healthcare, Reg. No. 111619.
	Name and address of API manufacturer.	Xianqiang Pharmaceutical Pvt. Ltd., No. 6 Industrial Avenue, Conghua Economic Development Zone, Guangzhou city, Guangdong Province, China. Copy of GMP certificate No. GD20150397 dated 07-09-2015 valid till 06-09-2020 is submitted.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted details of the drug substance related to its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (TAK09R210101, mfg. date 04-01-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 24 months. Batch No. TAK09R150701, TAK09R150702 & TAK09R150703.
	Module-III Drug Product:	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical Equivalence has been established against the comparator product i.e. Vonozan 20mg tablets, B. No. 001FF9, mfg. date 05-2021 manufactured by M/s Getz pharma by performing quality tests (Identification, weight variation, Disintegration, Dissolution & Assay). CDP has been performed against the same brand that is Vonozan 10mg tablets, B. No. 002FF9, mfg. date

		05-2021 manufactured by M/s Getz pharma in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). The values for f1 and f2 are in the acceptable range.
	Analytical method validation/verification of product	Not Submitted.

STABILITY STUDY DATA

Manufacturer of API	Xianqiang Pharmaceutical Pvt. Ltd., No. 6 Industrial Avenue, Conghua Economic Development Zone, Guangzhou city, Guangdong Province, China.		
API Lot No.	VZ20190302.		
Description of Pack (Container closure system)	Alu Alu blister of 3 x 10's further packed in bleech card unit carton along with leaflet.

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. GD20150397 dated 07-09-2015 valid till 06-09-2020 is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of Form 6 No. 00135/2021-DRAP (PS)/544 dated 10-02-2021 mentioning 200GM of Vonoprazan Fumarate attested by Assistant Drug Controller, DRAP, Peshawar. Firm has also submitted commercial invoice and copies of form 3 and form 7.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm.

1.	1.3.4	Valid copy of DML and GMP certificate/last inspection report conducted within last three years of the applicant shall be submitted.	
2.	1.3.5	Evidence of approval of manufacturing facility/section approval from licensing division shall be submitted.	
3.	1.6.5	• Name of the drug substance manufacturer mentioned in section 1.6.5 and that on GMP certificate are different from each other. Clarification shall be submitted. • Valid copy of GMP certificate of the drug substance manufacturer shall be submitted.	
4.	3.2.S.4.1	Specification of the drug substance from the drug substance manufacturer shall be submitted.	
5.	3.2.S.4.2	Analytical procedures of the drug substance from the drug substance manufacturer shall be submitted.	
6.	3.2.S.4.3	Analytical method verification protocol along with complete results of the analytical method verification shall be submitted.	
7.	3.2.S.4.4	COA of the drug substance from drug substance manufacturer has mentioned Assay of ≥ 99% while the drug product manufacturer has mentioned Assay limit of 98% - 102%. Clarification shall be submitted.	
8.	3.2.S.5	• COA and details of the reference standard used in the development studies shall be submitted. • For working standard firm has referred to 3.2.S.2.2 while no DMF is provided. Justification shall be submitted.	
9.	3.2.P.2.2	Justification for not performing CDP & PE against the innovator product shall be submitted. Content uniformity test is not performed in the pharmaceutical equivalence studies. Justify. Values of f_2 in CDPs shall be submitted for all the mediums.	
10.	3.2.P.5.2	• Complete analytical procedures for all the tests of the finished product shall be submitted. • Justify the variation of dissolution parameters i.e. rpm, dissolution medium and limits from that recommended by USFDA for the vonoprazan tablets.	
11.	3.2.P.5.3	Analytical method verification protocol along with complete results of the analytical method verification for the finished product shall be submitted.	
12.	3.2.P.6	COA and details of the reference standard used in the development studies shall be submitted.	
13.	3.2.P.8	• Stability summary sheets and stability data sheets are completely different with respect to batch number, batch size, manufacturing date, start date of stability studies etc. justification shall be submitted. • Content uniformity test has not been performed in the stability studies. Clarification shall be submitted. • Submitted chromatograms has not mentioned any wavelength. Clarification shall be submitted. • Raw data sheets for calculation of assay and dissolution as per submitted formula in the analytical procedures at each time interval shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	

Decision of 331st meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm.
1.	Valid copy of DML and GMP certificate/last inspection report conducted within last three years of the applicant shall be submitted.	Firm has submitted copy of DML No. 000574 with renewal date from 20-05-2022. Copy of GMP certificate No. F.11-76/2022-DRAP-69 dated 10-06-2022 issued on the basis of inspection conducted on 30-03-2022.
2.	Evidence of approval of manufacturing facility/section approval from licensing division shall be submitted.	Firm has submitted copy of letter No. F. 3-7/2004-Lic (Vol-I) dated 04-06-2022 mentioning Tablet (General) section.
3.	• Name of the drug substance manufacturer mentioned in section 1.6.5 and that on GMP certificate are different from each other. Clarification shall be submitted. • Valid copy of GMP certificate of the drug substance manufacturer shall be submitted.	Copy of GMP certificate No. GD20150397 dated 07-09-2015 valid till 06-09-2020 is submitted. Firm has also submitted copy of License No. Yue20160016 for the drug substance manufacturer. *However, GMP certificate is invalid and the License number could not be verified from online data of NMPA website.*
4.	Specification of the drug substance from the drug substance manufacturer shall be submitted.	Submitted.
5.	Analytical procedures of the drug substance from the drug substance manufacturer shall be submitted.	Submitted.
6.	Analytical method verification protocol along with complete results of the analytical method verification shall be submitted.	Submitted.
7.	COA of the drug substance from drug substance manufacturer has mentioned Assay of ≥ 99% while the drug product manufacturer has mentioned Assay limit of 98% - 102%. Clarification shall be submitted.	Firm has submitted that they mistakenly mentioned the assay limit of 98% - 102 instead of NLT 99.0%. they further submitted revised COA as per drug substance manufacturer.
8.	• COA and details of the reference standard used in the development studies shall be submitted. • For working standard firm has referred to 3.2.S.2.2 while no DMF is provided. Justification shall be submitted.	Firm has submitted COA of the reference standard.
9.	Justification for not performing CDP & PE against the innovator product shall be submitted. Content uniformity test is not performed in the pharmaceutical equivalence studies. Justify. Values of f_2 in CDPs shall be submitted for all the mediums.	Firm has submitted that due to unavailability of the innovator product in the market, they used brand leader available in local market in the CDP studies. Firm has submitted revised PE studies wherein they have added results of content uniformity test.
10.	• Complete analytical procedures for all the tests of the finished product shall be submitted. • Justify the variation of dissolution parameters i.e. rpm, dissolution medium and limits from that recommended by USFDA for the vonoprazan tablets.	Submitted. Firm has submitted revised dissolution specifications as per USFDA method for Vonoprazan tablets.
11.	Analytical method verification protocol along with complete results of the analytical method verification for the finished product shall be submitted.	Submitted. *However, firm has once again submitted method verification studies for the drug substance instead of the drug product.*

12.	COA and details of the reference standard used in the development studies shall be submitted.	Submitted.
13.	• Stability summary sheets and stability data sheets are completely different with respect to batch number, batch size, manufacturing date, start date of stability studies etc. justification shall be submitted. • Content uniformity test has not been performed in the stability studies. Clarification shall be submitted. • Submitted chromatograms has not mentioned any wavelength. Clarification shall be submitted. • Raw data sheets for calculation of assay and dissolution as per submitted formula in the analytical procedures at each time interval shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	Firm has submitted that by clerical mistake it happened. They further submitted corrected one. Firm has submitted that they have performed content uniformity test at initial stage and also submitted COAs wherein they have included the same. Firm has submitted that HPLC chromatograms does not contain wavelength rather it is retention time versus absorbance (peak height) moreover, in UV spectrum wavelength versus absorbance is usually measured. Submitted. Firm has submitted that their product is approved in 331st meeting on form 5F. Submitted. Submitted.

Decision: Approved. Registration letter will be issued after submission of full fee i.e. 30,000/- for more typo errors and submission of valid GMP certificate/DML of the drug substance manufacturer issued by relevant/concerned regulatory authority.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
7.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
8.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. AH20150265) dated 23-12-2020 issued by China Foods & drugs Administration. The certificate specifies that the firm complies with the requirements of Chinese Good Manufacturing Practices for pharmaceutical products. Valid till 22-12-2025. Online verification confirms the validity till 22-12-2020 and the status is "Expired".
9.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. TSN0882021 dated 26-10-2021 mentioning 4kg of levofloxacin hemihydrate USP with B. No. DC-004-2007009, Mfg. date 11-07-2020 attested Assistant Director (I&E) DRAP, Karachi dated 18-11-2021. Firm has also submitted copy of Form 6 attested by Assistant Director (I&E) DRAP, Karachi dated 09-11-2021.

10.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
11.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
12.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	1.5.4	Proposed pack size for the applied formulation shall be mentioned.	
3.	1.6.5	Justification shall be submitted regarding the submitted GMP certificate for drug substance manufacturer as online database of NMPA shows it for M/s Anhui Fengyuan Likang Pharmaceutical Co., Ltd., Bengbu High-tech Development Zone, China instead of M/s Zhejiang East-Asia Pharmaceutical Co., Ltd., China. Valid copy of GMP certificate for the drug substance manufacturer issued by relevant/concerned authority shall be submitted as the submitted GMP certificate is expired and validity is till 22-12-2020 in the online database of NMPA.	
4.	2.3.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
5.		Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	
6.	3.2.S.7	Accelerated stability studies for batch No. DC-004-1512001 of the drug substance shall be submitted.	
7.	3.2.P.2.2	• Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted. • Details of the innovator product including name of the manufacturer, batch number, manufacturing date, expiry date etc. shall be submitted. • Justification shall be submitted regarding the submitted results of CDP for Levaquin 500mg and Levaquin 250mg as they are completely same in pH 1.2 and 4.5 mediums.	
8.	3.2.P.8	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	Proposed pack size for the applied formulation shall be mentioned.	As per SRO/DPC.
3.	Justification shall be submitted regarding the submitted GMP certificate for drug substance manufacturer as online database of NMPA shows it for M/s Anhui Fengyuan Likang Pharmaceutical Co., Ltd., Bengbu High-tech Development Zone, China instead of M/s Zhejiang East-Asia Pharmaceutical Co., Ltd., China. Valid copy of GMP certificate for the drug substance manufacturer issued by relevant/concerned authority shall be submitted as the submitted GMP certificate is expired and validity is till 22-12-2020 in the online database of NMPA.	Firm has submitted copy of License No. Zhejiang 20000312 issued by Zhejiang provincial Drug Administration in the name of M/s Zhejiang East-Asia Pharmaceutical Co., Ltd., dated 19-07-2022 valid till 07-10-2024.
4.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	Firm has submitted copies of executed BMRs for all the three trial batches.
5.	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	Submitted.
6.	Accelerated stability studies for batch No. DC-004-1512001 of the drug substance shall be submitted.	Submitted.
7.	• Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted. • Details of the innovator product including name of the manufacturer, batch number, manufacturing date, expiry date etc. shall be submitted. • Justification shall be submitted regarding the submitted results of CDP for Levaquin 500mg and Levaquin 250mg as they are completely same in pH 1.2 and 4.5 mediums.	*Not submitted.* Firm has submitted following details; Levaquin 250mg tablets, B. No. K44638 & Exp. date of 10-2024. Firm has submitted revised results for CDP and further submitted that during compilation of the data results of 250mg were replaced with 500mg. Newly/revised results have different values than the initially submitted ones.
8.	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted.	Firm has submitted revised stability data sheets as per decision of Registration Board with inclusion of API lot No. I.e. DC-004-2007009. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The wavelength was set in the method and saved to that method set. The product was run on that wavelength which

	• • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	was set in the method. Furthermore, the wavelength is mentioned in the standard analytical procedure. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated.

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

860.	Name, address of Applicant / Marketing Authorization Holder	**Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi.**
	Name, address of Manufacturing site.	Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	New license issued on 10-06-2021 w.e.f. 22-02-2021.
	Evidence of approval of manufacturing facility	Firm has submitted copy of letter No. F. 2-3/2016-Lic dated 14/06/2021 specifying Tablet (General) section.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 23987, dated 02/10/2023.
	Details of fee submitted	PKR 30,000/- vide slip No. 17271517116 dated: 12/09/2023.
	The proposed proprietary name / brand name	**Levocin 500mg Tablet.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each film coated tablet contains: Levofloxacin hemihydrate eq. to levofloxacin ..… 500mg
	Pharmacotherapeutic Group of (API)	J01MA Fluoroquinolones.
	Pharmaceutical form of applied drug	Film Coated Tablet
	Reference to Finished product specifications	USP specification.
	Proposed Pack size	As per SRO.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Levofloxacin 500 mg film-coated tablets, MHRA Approved.
	For generic drugs (me-too status)	Lovenox Tablets 50mg, M/s Don Valley, Reg. No. 069371.

	Name and address of API manufacturer.	M/s Zhejiang East-Asia Pharmaceutical Co., Ltd. Address: Coastal Industrial City, Pubagang town, Sanmen county, Zhejiang, P.R. China.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. DC-004-2007009, Mfg. date 11-07-2020) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30˚C ± 2˚C / 65% ± 5%RH 48 months Accelerated: 40˚C ± 2˚C / 75% ± 5%RH for 6 months Batches: DC-004-1512001, DC-004-1512002 & DC-004-1512003.
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the Innovator brand i.e. Levaquin 500mg tablets by performing quality tests identification, weight variation, uniformity of dosage unit, Dissolution & Assay. Comparative Dissolution is also performed against the same brand that is Levaquin 250mg tablets in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). values of F_2 are within the acceptable range.
	Analytical method validation/verification of product	Method verification studies are submitted including , specificity, accuracy & precision.

STABILITY STUDY DATA	
Manufacturer of API	M/s Zhejiang East-Asia Pharmaceutical Co., Ltd. Address: Coastal Industrial City, Pubagang town, Sanmen county, Zhejiang, P.R. China.
API Lot No.	Not submitted.
Description of Pack (Container closure system)	Alu-Alu Blister with leaflet packed in a unit Carton.
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH

	Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0,3,6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size	1500 Tablets	1500 Tablets	1500 Tablets
Manufacturing Date	12-2021	12-2021	12-2021
Date of Initiation	13-12-2021	14-12-2021	15-12-2021
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate (No. AH20150265) dated 23-12-2020 issued by China Foods & drugs Administration. The certificate specifies that the firm complies with the requirements of Chinese Good Manufacturing Practices for pharmaceutical products. Valid till 22-12-2025. Online verification confirms the validity till 22-12-2020 and the status is "Expired".
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. TSN0882021 dated 26-10-2021 mentioning 4kg of levofloxacin hemihydrate USP with B. No. DC-004-2007009, Mfg. date 11-07-2020 attested Assistant Director (I&E) DRAP, Karachi dated 18-11-2021. Firm has also submitted copy of Form 6 attested by Assistant Director (I&E) DRAP, Karachi dated 09-11-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	1.5.4	Proposed pack size for the applied formulation shall be mentioned.	

3.	1.6.5	Justification shall be submitted regarding the submitted GMP certificate for drug substance manufacturer as online database of NMPA shows it for M/s Anhui Fengyuan Likang Pharmaceutical Co., Ltd., Bengbu High-tech Development Zone, China instead of M/s Zhejiang East-Asia Pharmaceutical Co., Ltd., China. Valid copy of GMP certificate for the drug substance manufacturer issued by relevant/concerned authority shall be submitted as the submitted GMP certificate is expired and validity is till 22-12-2020 in the online database of NMPA.	
4.	2.3.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
5.		Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	
6.	3.2.S.7	Accelerated stability studies for batch No. DC-004-1512001 of the drug substance shall be submitted.	
7.	3.2.P.2.2	• Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted. • Details of the innovator product including name of the manufacturer, batch number, manufacturing date, expiry date etc. shall be submitted. • Justification shall be submitted regarding the submitted results of CDP for Levaquin 500mg and Levaquin 250mg as they are completely same in pH 1.2 and 4.5 mediums.	
8.	3.2.P.8	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	Proposed pack size for the applied formulation shall be mentioned.	As per SRO/DPC.
3.	Justification shall be submitted regarding the submitted GMP certificate for drug substance manufacturer as online database of NMPA shows it for M/s Anhui Fengyuan Likang Pharmaceutical Co., Ltd., Bengbu High-tech Development Zone, China instead of M/s Zhejiang East-Asia Pharmaceutical Co., Ltd., China. Valid copy of GMP certificate for the drug substance manufacturer issued by	Firm has submitted copy of License No. Zhejiang 20000312 issued by Zhejiang provincial Drug Administration in the name of M/s Zhejiang East-Asia Pharmaceutical Co., Ltd., dated 19-07-2022 valid till 07-10-2024.

	relevant/concerned authority shall be submitted as the submitted GMP certificate is expired and validity is till 22-12-2020 in the online database of NMPA.	
4.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	Firm has submitted copies of executed BMRs for all the three trial batches.
5.	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	Submitted.
6.	Accelerated stability studies for batch No. DC-004-1512001 of the drug substance shall be submitted.	Submitted.
7.	• Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted. • Details of the innovator product including name of the manufacturer, batch number, manufacturing date, expiry date etc. shall be submitted. • Justification shall be submitted regarding the submitted results of CDP for Levaquin 500mg and Levaquin 250mg as they are completely same in pH 1.2 and 4.5 mediums.	Firm has submitted following details; Levaquin 500mg tablets, B. No. M9531 & Exp. date of 03-2024. Firm has submitted that during compilation of the data results of 250mg were replaced with 500mg. Newly/revised results for 250 mg are different from the initially submitted ones.
8.	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	Firm has submitted revised stability data sheets as per decision of Registration Board with inclusion of API lot No. I.e. DC-004-2007009. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The wavelength was set in the method and saved to that method set. The product was run on that wavelength which was set in the method. Furthermore, the wavelength is mentioned in the standard analytical procedure. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated.

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of License (No. 106490/TS/2023) dated 11-03-2023 issued by Drugs Control Administration, Telangana, India. The certificate specifies that the firm is following Good manufacturing practices as stipulated under the provision of Schedule "M" of the Drugs and cosmetics Rules, 1945. Certificate is valid till 09-03-2024.

3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. TWE/CIB.I/20-21 dated 09-11-2021 mentioning 0.2Kg of Ketorolac Tromethamine with B. No. KM-0302021, manufacturing date of 03-2021 attested by Assistant Director, I&E, DRAP Karachi dated 23-11-2021. Firm has also submitted attested copy of Form 6.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	2.3.	• Table for literature references with correct information regarding the drug substance with applicable fee shall be submitted. • Provide copy of Batch manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
3.	3.2.P.1.1	Qualitative composition of the applied formulation is changed from the innovator product in regard of Ethanol and hydrochloric acid as innovator contain both of the above mentioned while applied formulation has not. Justification shall be submitted.	
4.	3.2.P.2.2	• Details of the innovator product against which pharmaceutical equivalence is performed including Manufacturer, batch number manufacturing & expiry date etc. shall be submitted. • Pictorial evidence of the innovator with visible details shall be submitted.	
5.	3.2.P.2.6	This section has mentioned that all the excipients are similar to that of the innovator. However, excipients used are different from innovator and compatibility studies are also not performed. Justification shall be submitted.	
6.	3.2.P.3.3	Justification shall be submitted for terminal sterilization of the applied formulation.	
7.	3.2.P.5.2	Analytical method for assay test has mentioned that transfer 0.83ml of solution which is equivalent to 25mg of ketorolac Tromethamine. Justification shall be submitted that how 0.83 ml will contain 25mg of ketorolac Tromethamine while 1ml of ampoule contains 10mg.	
8.	3.2.P.8	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	• Table for literature references with correct information regarding the drug substance with applicable fee shall be submitted. • Provide copy of Batch manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	Firm has submitted corrected/revised table for literature references. *However, applicable fee is not submitted.* Firm has submitted copies of executed BMR's.
3.	Qualitative composition of the applied formulation is changed from the innovator product in regard of Ethanol and hydrochloric acid as innovator contain both of the above mentioned while applied formulation has not. Justification shall be submitted.	Firm has submitted that the qualitative composition of the applied product was approximately same as that of the innovator product "Toradol injection". The propylene glycol was used to dissolve the ketorolac Tromethamine. FDA defines the use of hydrochloric acid or Sodium hydroxide to adjust the pH of the solution to a limit of 6.9 – 7.9. In our formulation the pH was adjusted with sodium hydroxide.
4.	• Details of the innovator product against which pharmaceutical equivalence is performed including Manufacturer, batch number manufacturing & expiry date etc. shall be submitted. • Pictorial evidence of the innovator with visible details shall be submitted.	Firm has submitted that Toradol injection, B. No. C1395, Exp. date 03-2023 manufactured by M/s Martin Dow, Marker Pakistan was used in PE studies.
5.	This section has mentioned that all the excipients are similar to that of the innovator. However, excipients used are different from innovator and compatibility studies are also not performed. Justification shall be submitted.	The composition of Toradol injection was followed while the formulation was developed. The qualitative composition of the applied product was approximately same as that of the innovator product "Toradol injection". The propylene glycol was used to dissolve the ketorolac Tromethamine. FDA defines the use of hydrochloric acid or Sodium hydroxide to adjust the pH of the solution to a limit of 6.9 – 7.9. In our formulation the pH was adjusted with sodium hydroxide. Hydrochloric acid was not required as pH was adjusted with sodium hydroxide.
6.	Justification shall be submitted for terminal sterilization of the applied formulation.	Firm has submitted that as per WHO guidelines (Annex 6 WHO Good manufacturing practices for sterile pharmaceutical products) products intended to be sterile should be terminally sterilized by heat in their final containers. Terminal

		sterilization is done to assure the product is sterile and free from pyrogen.
7.	Analytical method for assay test has mentioned that transfer 0.83ml of solution which is equivalent to 25mg of ketorolac Tromethamine. Justification shall be submitted that how 0.83 ml will contain 25mg of ketorolac Tromethamine while 1ml of ampoule contains 10mg.	Firm has submitted that it was a typo error. This method was for 30mg/ml injection instead of 10mg/ml. They submitted revised method.
8.	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	Firm has submitted revised stability data sheets as per decision of Registration Board with inclusion of API lot No. I.e. KM0302021. Firm has submitted that drug substance was purchased locally, therefore no approval from DRAP is required. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The wavelength was set in the method and saved to that method set. The product was run on that wavelength which was set in the method. Furthermore, the wavelength is mentioned in the standard analytical procedure. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated.

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	2.3.	• Table for literature references with correct information regarding the drug substance with applicable fee shall be submitted. • Provide copy of Batch manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
3.	3.2.P.1.1	Qualitative composition of the applied formulation is changed from the innovator product in regard of Ethanol and hydrochloric acid as innovator contain both of the above mentioned while applied formulation has not. Justification shall be submitted.	
4.	3.2.P.2.2	• Details of the innovator product against which pharmaceutical equivalence is performed including Manufacturer, batch number manufacturing & expiry date etc. shall be submitted. • Pictorial evidence of the innovator with visible details shall be submitted.	
5.	3.2.P.2.6	This section has mentioned that all the excipients are similar to that of the innovator. However, excipients used are different from innovator and compatibility studies are also not performed. Justification shall be submitted.	
6.	3.2.P.3.3	Justification shall be submitted for terminal sterilization of the applied formulation.	
7.	3.2.P.8	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	• Table for literature references with correct information regarding the drug substance with applicable fee shall be submitted. • Provide copy of Batch manufacturing Record (BMR) for all the batches of drug	Firm has submitted corrected/revised table for literature references. However, applicable fee is not submitted. Firm has submitted copies of executed BMR's.

	product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
3.	Qualitative composition of the applied formulation is changed from the innovator product in regard of Ethanol and hydrochloric acid as innovator contain both of the above mentioned while applied formulation has not. Justification shall be submitted.	Firm has submitted that the qualitative composition of the applied product was approximately same as that of the innovator product "Toradol injection". The propylene glycol was used to dissolve the ketorolac Tromethamine. FDA defines the use of hydrochloric acid or Sodium hydroxide to adjust the pH of the solution to a limit of 6.9 – 7.9. In our formulation the pH was adjusted with sodium hydroxide.
4.	• Details of the innovator product against which pharmaceutical equivalence is performed including Manufacturer, batch number manufacturing & expiry date etc. shall be submitted. • Pictorial evidence of the innovator with visible details shall be submitted.	Firm has submitted that Toradol injection, B. No. manufactured by M/s Martin Dow, Marker Pakistan was used in PE studies.
5.	This section has mentioned that all the excipients are similar to that of the innovator. However, excipients used are different from innovator and compatibility studies are also not performed. Justification shall be submitted.	The composition of Toradol injection was followed while the formulation was developed. The qualitative composition of the applied product was approximately same as that of the innovator product "Toradol injection". The propylene glycol was used to dissolve the ketorolac Tromethamine. FDA defines the use of hydrochloric acid or Sodium hydroxide to adjust the pH of the solution to a limit of 6.9 – 7.9. In our formulation the pH was adjusted with sodium hydroxide. Hydrochloric acid was not required as pH was adjusted with sodium hydroxide.
6.	Justification shall be submitted for terminal sterilization of the applied formulation.	Firm has submitted that as per WHO guidelines (Annex 6 WHO Good manufacturing practices for sterile pharmaceutical products) products intended to be sterile should be terminally sterilized by heat in their final containers. Terminal sterilization is done to assure the product is sterile and free from pyrogen. *Innovator product has no terminal sterilization.*
7.	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	Firm has submitted revised stability data sheets as per decision of Registration Board with inclusion of API lot No. I.e. KM0302021. Firm has submitted that drug substance was purchased locally, therefore no approval from DRAP is required. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The wavelength was set in the method and saved to that method set. The product was run on that wavelength which was set in the method. Furthermore, the wavelength is mentioned in the standard analytical procedure. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

	Details of fee submitted	PKR 30,000/- vide slip No. 773720227775 dated: 04/07/2023.
	The proposed proprietary name / brand name	**Newgab capsule 50mg.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each hard gelatin capsule contains: Pregabalin……50mg
	Pharmacotherapeutic Group of (API)	Anticonvulsant.
	Pharmaceutical form of applied drug	Oral capsule.
	Reference to Finished product specifications	BP specification.
	Proposed Pack size	As per SRO.
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Lyrica 50mg capsule, USFDA approved.
	For generic drugs (me-too status)	Medirica 50mg Capsule, Mediate Pharmaceutical, Reg. No. 074971.
	Name and address of API manufacturer.	M/s CTX Lifesciences (Pvt.) Ltd., Block No. 251/ P, 252/ P, 253 to 255, 256/ P, 258/ P, 276/ P, 277, 278/ P, 279 to 282, 293/ P, 284/ P GIDC, City – Sachin Distt. Surat, Gujrat State, India. Copy of GMP certificate No. 22063346 in the name of M/s CTX Lifesciences (Pvt.) Ltd., issued by Food & Drugs Control Administration, Gujrat State, India valid till 29-05-2025 is submitted.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product is submitted.
	Module III (Drug Substance)	Firm has submitted details of the drug substance including its nomenclature, structure, general properties, physical form, manufacturers, description of

		manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis (B. No. PG213041, Mfg. date 10-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: Accelerated: 40°C / 75% RH for 6 months Batches: PG120001, PG120002 & PG120003.
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the brand that is Lyrica 50 mg with batch No. LR12547, expiry date 11-2024 manufactured by M/s Pfizer by performing quality tests average weight, content uniformity, Dissolution & Assay. Comparative Dissolution is also performed against the same brand that is Lyrica 50 mg with batch No. LC1254, expiry date 11-2023 manufactured by M/s Pfizer in Acid media (pH 1.2), Acetate buffer (pH 4.5) & Phosphate Buffer (pH 6.8). in all the three mediums both reference and applied formulations have shown more than 85% release within 15 minutes.
	Analytical method validation/verification of product	Method validation studies are submitted including , specificity, accuracy & precision.

No. of Batches	03		
DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA			

1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. 22063346 in the name of M/s CTX Lifesciences (Pvt.) Ltd., issued by Food & Drugs Control Administration, Gujrat State, India valid till 29-05-2025 is submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. EX/RU/031/21-22 dated 25-10-2021mentioning 1.5kg of Pregabalin with B. No. PG213041, Mfg. date 10-2021 attested by Assistant Director I&E, DRAP, Karachi dated 22-11-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	1.5.4	Proposed pack size for the applied formulation shall be mentioned.	
3.	1.5.15 to 1.5.20	All commitments shall be submitted.	
4.	2.3	• Table for literature references with correct information regarding the drug product with applicable fee shall be submitted. • Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
5.	3.2.S.4.4	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	
6.	3.2.S.7	Clear and readable copies of real time stability studies of the drug substance for three batches as per zone Iva shall be submitted.	
7.	3.2.P.2.2	Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted.	
8.	3.2.P.8	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	

Decision of 333rd meeting of Registration board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	Proposed pack size for the applied formulation shall be mentioned.	As per SRO/DPC.
3.	All commitments shall be submitted.	Submitted.
4.	• Table for literature references with correct information regarding the drug product with applicable fee shall be submitted. • Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	Firm has submitted corrected/revised table for literature references. *However, applicable fee is not submitted.* Firm has submitted copies of executed BMR's.
5.	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	Submitted.
6.	Clear and readable copies of real time stability studies of the drug substance for three batches as per zone Iva shall be submitted.	Firm has submitted real time stability study data for the same batches i.e. PG120001, PG120002 & PG120003 as per zone Iva.
7.	Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted.	Firm has submitted that PE and CDP studies are performed against Lyrica 50mg, B. No. LR12547, Exp. date 11-2024 manufactured by M/s Pfizer.
8.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated.

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	1.5.4	Proposed pack size for the applied formulation shall be mentioned.	
3.	1.5.15 to 1.5.20	All commitments shall be submitted.	

4.	2.3	• Table for literature references with correct information regarding the drug product with applicable fee shall be submitted. • Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
5.	3.2.S.4.4	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	
6.	3.2.S.7	Clear and readable copies of real time stability studies of the drug substance for three batches as per zone Iva shall be submitted.	
7.	3.2.P.2.2	• Details of the innovator product used in pharmaceutical equivalence and CDP including manufacturer name, batch number & manufacturing and expiry date shall be submitted. • Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted.	
8.	3.2.P.5.1	Dissolution specification provided by the drug product manufacturer has mentioned NLT 80% (Q) in 15 minutes while BP has mentioned time limit of 30minutes. Justification shall be submitted.	
9.	3.2.P.8	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Injection volume in the submitted chromatograms with respect to the official monograph shall be justified.	

Decision of 333rd meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	Proposed pack size for the applied formulation shall be mentioned.	As per SRO/DPC.
3.	All commitments shall be submitted.	Submitted.
4.	• Table for literature references with correct information regarding the drug product with applicable fee shall be submitted. • Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	Firm has submitted corrected/revised table for literature references. ***However, applicable fee is not submitted.*** Firm has submitted copies of executed BMR's.
5.	Analytical method verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	Submitted.
6.	Clear and readable copies of real time stability studies of the drug substance for	Firm has submitted real time stability study data for the same batches i.e. PG120001, PG120002 & PG120003 as per zone Iva.

	three batches as per zone Iva shall be submitted.	
7.	• Details of the innovator product used in pharmaceutical equivalence and CDP including manufacturer name, batch number & manufacturing and expiry date shall be submitted. • Pictorial evidence of the innovator product with clear information of batch number, manufacturing date, expiry date etc. shall be submitted.	Firm has submitted that PE and CDP studies are performed against Lyrica 100mg, B. No. LR0925, Exp. date 07-2024 manufactured by M/s Pfizer.
8.	Dissolution specification provided by the drug product manufacturer has mentioned NLT 80% (Q) in 15 minutes while BP has mentioned time limit of 30minutes. Justification shall be submitted.	Firm has submitted that their specifications NLT 80% (Q) in 15 are within the limit of BP i.e. 30 minutes.
9.	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	Firm has submitted revised stability data sheets as per decision of Registration Board with inclusion of API lot No. I.e. PG213041. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The wavelength was set in the method and saved to that method set. The product was run on that wavelength which was set in the method. Furthermore, the wavelength is mentioned in the standard analytical procedure. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated.

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

868.	Name, address of Applicant / Marketing Authorization Holder	**Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi.**

No. 202109103A, Mfg. date 23-09-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability studies (Conditions & duration of Stability studies)	Stability study conditions: Real time: 30° ±2°C / 65% ±5% RH for 48 months. Accelerated: 40°C ±2°C / 75% ±5% RH for 6 months Batches: 011608001, 011608002 & 011608001.
	Module-III (Drug Product):	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, batch formula, manufacturing process and process control, process validation protocols, control of drug product,

		specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical equivalence and comparative dissolution profile	Pharmaceutical Equivalence is established against the brand that is Calpol six plus suspension with batch No. 48693, expiry date 08-2022 by performing quality tests (identification, filled volume, pH, uniformity of dosage unit and assay).
	Analytical method validation/verification of product	Method verification studies are submitted including , specificity, accuracy & precision.

STABILITY STUDY DATA			
Manufacturer of API	M/s Hebei Jiheng Pharmaceutical Co., Ltd, 1 Weiwu Street Industrial Park Hengshui City, Hebei Province, China.		
API Lot No.	Not submitted.		
Description of Pack (Container closure system)	Amber glass bottles 0f 60ml closed with white PP child proof screw caps.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0,3,6 (Months)		
Batch No.	T004	T005	T006
Batch Size	500 Bottles	500 Bottles	500 Bottles
Manufacturing Date	01/2022	01/2022	01/2022
Date of Initiation	18/01/2022	19/01/2022	20/01/2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	N/A
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate No. HE20160062 issued by State Food and Drug Administration i.e. Hebei Provincial Drug Administration valid for the period of 15-11-2020 to 14-11-2025.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. TM20210315-7600S dated 26-10-2021 mentioning 15kg of Paracetamol attested by Assistant Director I&E, DRAP, Karachi dated 18-11-2021. Firm has also submitted copy of Form 6 mentioning 15kg of Paracetamol attested by Assistant Director I&E, DRAP, Karachi dated 18-11-2021.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.1	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	
2.	1.5.4	Proposed pack size for the applied formulation shall be mentioned.	
3.	2.3.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	
4.	3.2.S.4.4	Certificate of Analysis (COA) for the drug substance of the same batch from Drug Substance / API manufacturer and drug product manufacturer shall also be submitted.	
5.	3.2.P.8	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Submitted chromatograms have mentioned 20µl injection volume while USP has recommended 10 µl. justification shall be submitted.	

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observation	Reply by the firm
1.	Name and address on the submitted challan is Fortune pharma (Pvt.) Ltd., Plot 20/K SITE, Super High Way Phase II Karachi While the name and address mentioned on DML is M/s Fortune Pharmaceuticals, Plot No. K/201, S.ITE., Super High Way Phase II Karachi. Justification shall be submitted.	Firm has submitted that it is a typo mistake and address is Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi. Also the fee challan has been generated from the portal of M/s Fortune Pharmaceuticals which could be verified online.
2.	Proposed pack size for the applied formulation shall be mentioned.	As per SRO/DPC.
3.	Provide copy of Batch Manufacturing Record (BMR) for all the batches of drug product for which stability studies data is provided in Module 3 section 3.2.P.8.3.	Firm has submitted copies of executed BMR's.
4.	Certificate of Analysis (COA) for the drug substance of the same batch from Drug Substance / API manufacturer and drug product manufacturer shall also be submitted.	Firm has submitted COA's of the drug substance from both drug substance manufacturer and finished product manufacturer mentioning batch no. 202109103A, mfg. date 23-09-2021.

5.	• Stability data sheets as per decision of the Registration Board with inclusion of API lot number shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Submitted chromatograms does not reflect any applied wavelength. Justification shall be submitted. • Submitted chromatograms have mentioned 20µl injection volume while USP has recommended 10 µl. justification shall be submitted.	Firm has submitted revised stability data sheets as per decision of Registration Board with inclusion of API lot No. I.e. 202109103A. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The wavelength was set in the method and saved to that method set. The product was run on that wavelength which was set in the method. Furthermore, the wavelength is mentioned in the standard analytical procedure. Firm has submitted that chromatograms were obtained from "Waters" HPLC which is having the software "Empower 2". The software is 21CFR compliant but yet not activated. Firm has submitted that according to USP, minor parameters can be adjusted according to the system requirement. They further submitted that all the parameters were followed as per USP, however, injection volume was adjusted as the system suitability results with 20µl injection were more precise and accurate. All the other major parameters i.e. flow rate, concentration of standard and sample, column diameter, length and packing, temperature, detection wavelength mobile phase and diluent are same as describe in USP.

Decision: Approved. Registration letter will be issued after submission of an undertaking regarding the fee challan that it will not be used in any other application/purpose.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

871.	Name, address of Applicant / Marketing Authorization Holder	**Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi.**
	Name, address of Manufacturing site.	Fortune Pharmaceuticals, Plot No. K/201 S.I.T.E., Super Highway, Phase II Karachi.

Date of Initiation	25-04-2022	25-04-2022	
No. of Batches	03		

REQUEST OF EXEMPTION FROM ON SITE INSPECTION		
The firm has requested for Exemption from On-site Investigation of their submitted stability data and provided the following documents in conjunction with the checklist approved by the Registration Board.		
Administrative Portion		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of commercial invoice No. SOK/EXP1920/0059 dated 19-11-2019 mentioning 5kg of Montelukast sodium USP, Batch No. MTS/1907004, mfg. date 07-2019 attested bi Assistant Director, I&E, DRAP, Islamabad. Invoice has mentioned Seraph pharmaceuticals as importer of the material.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted

5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks by the Evaluator:

Sr. No.	Section	Observation
1.	1.3.4	• Valid copy of DML for Biogen life sciences shall be submitted. • Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences shall be submitted.
2.	1.3.5	Evidence of section approval letter of Biogen Life Sciences shall be submitted.
3.	1.5.4	Proposed pack size for the applied formulation shall be submitted.
4.	1.6.5	Valid copy of GMP certificate of the Drug Substance manufacturer shall be submitted.
5.	2.3.R	• Table for literature references has not mentioned status of drug substance in all pharmacopoeias i.e.JP. Revised table for literature references with applicable fee shall be submitted.
6.	3.2.S.4.1	Specification of drug substance by drug substance manufacturer shall be submitted.
7.	3.2.S.4.2	Analytical procedures in USP has mentioned up to 16 minutes' time for assay of drug substance and in enantiomeric purity while the analytical procedure provided by the drug substance manufacturer has mentioned up to 25 minutes. Clarification shall be submitted.
8.	3.2.S.4.3	Verification studies of the drug substance performed by the drug product manufacturer shall be submitted.
9.	3.2.S.5	Details and COA of the working standard used in the development of trial batches shall be submitted.
10.	3.2.P.2.2	• Justification shall be submitted for not performing identification test Pharmaceutical Equivalence. • Tabulated CDP results with all the time points in different medias shall be submitted. • Justification shall be submitted for the provided graphical results of CDP as it has mentioned some other brand names. • Raw data sheets for the CDP results shall be submitted.
11.	3.2.P.5.1	Standard solution in the analytical procedures for the finished drug product in identification, dissolution & assay test is different from official pharmacopoeia. Clarification shall be submitted.
12.	3.2.P.5.3	Complete validation/verification studies of the drug product performed by the drug product manufacturer shall be submitted.
13.	3.2.P.8	• Raw data sheets for both the assay test and dissolution test at each time point with chromatograms shall be submitted. Furthermore, each time point raw data sheets shall be accompanied with calculation formula. • Justification shall be submitted regarding the submitted chromatograms as it does not mention wave length of detector. • Justification shall be submitted regarding submitted chromatograms as it also does not reflect the resolution factor as required by the official monograph. • Complete six-month stability data shall be submitted. • Justification for manufacturing only two batches shall be submitted.
14.		• Clear and readable copy of the clearance certificate for import of raw material shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.

		• Log of HPLC run showing change in concentration of mobile phase is required. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.
15.	3.2.R	Blank master production document /batch manufacturing record to be used during the commercial manufacturing of the applied product along with copies of executed BMRs shall be submitted.

Decision of 326th meeting of Registration Board: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Sr. No.	Section	Observation	Reply by the firm
1.	1.3.4	• Valid copy of DML for Biogen life sciences shall be submitted. • Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences shall be submitted.	Firm has submitted copy of DML No. 000911 in the name of M/s Biogen Pharmaceuticals w.e.f. 13-02-2020 and also provided change of title vide letter No. F. 1-2/2019-Lic. Dated 18-03-2021 from M/s Biogen Pharmaceuticals to M/s Biogen Life Sciences. Firm has submitted copy of inspection report conducted for verification of GMP compliance dated 01-06-2023 wherein panel in the conclusion has mentioned that M/s Biogen life sciences can be considered to have acceptable compliance level of GMP subject to the condition that firm must install FTIR within one month and same be verified by the area FID.
2.	1.3.5	Evidence of section approval letter of Biogen Life Sciences shall be submitted.	Firm has submitted copy of section approval vide letter No. F. 1-2/2019-Lic. Dated 14-02-2020 wherein M/s Biogen pharmaceuticals have Sachet (general) section.
3.	1.5.4	Proposed pack size for the applied formulation shall be submitted.	14's.
4.	1.6.5	Valid copy of GMP certificate of the Drug Substance manufacturer shall be submitted.	Firm has submitted copy of GMP certificate No. DC/A-2/ WHO-GMP/2022/77 dated 27-01-2022 issued by Drugs Control Organization Jaipur (Rajasthan) valid for three years.
5.	2.3.R	Table for literature references has not mentioned status of drug substance in all pharmacopoeias i.e.JP. Revised table for literature references with applicable fee shall be submitted.	Firm has submitted revised table for literature references with correct information regarding both drug substances and drug product without any fee.
6.	3.2.S.4.1	Specification of drug substance by drug substance manufacturer shall be submitted.	Submitted.
7.	3.2.S.4.2	Analytical procedures in USP has mentioned up to 16 minutes' time for assay of drug substance and in enantiomeric purity while the analytical procedure provided by the drug substance manufacturer has mentioned	Firm has submitted that they drafted raw material test method for montelukast sodium according to USP monograph and raw material test was performed according to draft test method that complies USP parameters.

		up to 25 minutes. Clarification shall be submitted.	
8.	3.2.S.4.3	Verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	Firm has submitted analytical method verification studies for the drug substance. *However, submitted verification studies are from Biogen pharmaceuticals instead of Biogen life sciences.*
9.	3.2.S.5	Details and COA of the working standard used in the development of trial batches shall be submitted.	Firm has submitted COA of the working standard with working standard number WS/10/003.
10.	3.2.P.2.2	• Justification shall be submitted for not performing identification test Pharmaceutical Equivalence. • Tabulated CDP results with all the time points in different medias shall be submitted. • Justification shall be submitted for the provided graphical results of CDP as it has mentioned some other brand names. • Raw data sheets for the CDP results shall be submitted.	Firm has submitted that test method includes 2 tests for identification i.e. UV and HPLC. They used HPLC method instead of UV and that complies during assay of the test and reference product. Submitted. Firm has submitted that it was a typographic error and they corrected it in updated CDP results. *Not submitted.*
11.	3.2.P.5.1	Standard solution in the analytical procedures for the finished drug product in identification, dissolution & assay test is different from official pharmacopoeia. Clarification shall be submitted.	Firm has submitted that there was a drafting error in mentioning the salt form of WS/RS used for raw material and trial analysis. Working standard used during all trial analysis was montelukast dicyclohexylamine and same could be verified from COA of the working standard. *Firm was asked that Standard solution in the analytical procedures for the finished drug product in identification, dissolution & assay test is different from official pharmacopoeia. However, they didn't respond to the same.*
12.	3.2.P.5.3	Complete validation/verification studies of the drug product performed by the drug product manufacturer shall be submitted.	Firm has submitted analytical method verification studies for the drug substance. *However, submitted verification studies are from Biogen pharmaceuticals instead of Biogen life sciences.*
13.	3.2.P.8	• Raw data sheets for both the assay test and dissolution test at each time point with chromatograms shall be submitted. Furthermore, each time point raw data sheets shall be accompanied with calculation formula. • Justification shall be submitted regarding the submitted chromatograms as it does not mention wave length of detector.	Submitted. Firm has submitted that trial analysis was performed on HPLC. During the creation of method, all the method inputs i.e. wavelength, mobile phase channels & their ratio, injection volume and run time are added.

		• Justification shall be submitted regarding submitted chromatograms as it also does not reflect the resolution factor as required by the official monograph. • Complete six-month stability data shall be submitted. • Justification for manufacturing only two batches shall be submitted.	Firm has submitted that chromatograms have been generated on default report template wherein option for reporting wavelength was not enabled, however, from future onwards all data shall be generated according to the said requirements. Submitted. Firm has submitted that guidance document for submission of application on Form 5F for registration of pharmaceutical products for human use suggests that 02 batches can be taken if/for the oral suspension if their batch size is 2000 units.
14.		• Clear and readable copy of the clearance certificate for import of raw material shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Log of HPLC run showing change in concentration of mobile phase is required. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted.	Firm has submitted copy of commercial invoice No. SOK/EXP1920/0059 dated 19-11-2019 mentioning 5kg of Montelukast sodium USP, Batch No. MTS/1907004, mfg. date 07-2019 attested bi Assistant Director, I&E, DRAP, Islamabad. Invoice has mentioned Seraph pharmaceuticals as importer of the material. Firm has submitted that ADC clearance certificate of M/s Seraph pharma is submitted which is our sister concern. *However, as per decision of the Registration Board regarding the Borrowing of API's for performing Product Development, R&D & Stability testing, no receiving is submitted by the firm for borrowing of API.* *Not submitted.* Submitted.
15.	3.2.R	Blank master production document /batch manufacturing record to be used during the commercial manufacturing of the applied product along with copies of executed BMRs shall be submitted.	***Not submitted.***

Decision of 331st meeting of Registration Board:

Deferred for following;

- Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences shall be submitted.
- Verification studies of the drug substance performed by the drug product manufacturer shall be submitted.
- Raw data sheets for the CDP results shall be submitted.
- Standard solution in the analytical procedures for the finished drug product in identification, dissolution & assay test is different from official pharmacopoeia. Clarification shall be submitted.

- Complete validation/verification studies of the drug product performed by the drug product manufacturer shall be submitted.
- Documents for procurement of the drug substance attested by DRAP shall be submitted.
- Blank master production document /batch manufacturing record to be used during the commercial manufacturing of the applied product along with copies of executed BMRs shall be submitted.

Reply submitted by the firm:

Sr. No.	Observation	Reply submitted by the firm
1.	Valid copy of GMP certificate/last inspection report conducted within last three years of Biogen life sciences shall be submitted.	Firm has submitted copy of inspection report dated 09-03-2023 and the report conclude as follows; "based on the physical inspection of the unit, evaluation of the documents and discussion with the technical staff, undertaking given by the CEO of the frim and considering the findings of the inspection Biogen Life Sciences, 8-Km Chakbeli Road Rawat, Rawalpindi can be considered to have acceptable compliance level subject to the condition that firm must install FTIR within one month and the same be verified by area FID."
2.	Verification studies of the drug substance performed by the drug product manufacturer shall be submitted.	Submitted.
3.	Raw data sheets for the CDP results shall be submitted.	Submitted.
4.	Standard solution in the analytical procedures for the finished drug product in identification, dissolution & assay test is different from official pharmacopoeia. Clarification shall be submitted.	Firm has submitted no clarification. They only submitted official monograph for the applied formulation.
5.	Complete validation/verification studies of the drug product performed by the drug product manufacturer shall be submitted.	Submitted.
6.	Documents for procurement of the drug substance attested by DRAP shall be submitted.	Firm has once again submitted copy of commercial invoice No. SOK/EXP1920/0059 dated 19-11-2019 mentioning 5kg of Montelukast sodium USP, Batch No. MTS/1907004, mfg. date 07-2019 attested bi Assistant Director, I&E, DRAP, Islamabad. Invoice has mentioned Seraph pharmaceuticals as importer of the material. Firm has submitted that ADC clearance certificate of M/s Seraph pharma is submitted which is our sister concern. However, as per decision of the Registration Board regarding the Borrowing of API's for performing Product Development, R&D & Stability testing, no receiving is submitted by the firm for borrowing of API.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**

• **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**		
873.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s Biogen Life Sciences, 8-KM Chakbeli Road, Rawat, Rawalpindi.**
	Name, address of Manufacturing site.	M/s Biogen Life Sciences, 8-KM Chakbeli Road, Rawat, Rawalpindi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Not submitted.
	Evidence of approval of manufacturing facility	Firm has submitted copy of section approval letter No. F. 1-2/2019-Lic dated 14/02/2020 wherein they have Ampoule section SVP (General).
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No. 5679 dated 28-02-2023.
	Details of fee submitted	PKR 30,000/- vide slip No. 8013054618 Dated 15-02-2023
	The proposed proprietary name / brand name	Biorolac 30mg/ml injection.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each 1ml ampoule contains: Ketorolac Tromethamine 30mg
	Pharmacotherapeutic Group of (API)	NSAID's
	Pharmaceutical form of applied drug	Solution for Injection for IM/IV
	Reference to Finished product specifications	USP Specifications.
	Proposed Pack size	Not submitted.
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Toradol 30mg/ml, USFDA Approved.
	For generic drugs (me-too status)	Toradol injection 30mg/ml, Martin Dow Marker Ltd., Reg. No. 108584.
	Name and address of API manufacturer.	Saurav Chemical Limited., 370 industrial area Phase II Panchkula, Haryana, India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted details of the drug substance related to its nomenclature, structure, general properties,

		solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (KTM200008, mfg. date 01-2020) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 09 months. Batch No. KTMB100005, KTMB100006 & KTMB100007.
	Module-III Drug Product:	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against the comparator product Toradol 30 mg/ml by performing quality test of Identification, Particulate matter, pH, Assay, Bacterial endotoxin test and Sterility test.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA			
Manufacturer of API	Saurav Chemical Limited., 370 industrial area Phase II Panchkula, Haryana, India.		
API Lot No.	KTMD200008.		
Description of Pack (Container closure system)	Transparent glass USP type-I Ampoules, further packed in bleach board pack containing 5 ampoules with ALU/PVC BLISTER and insert.		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T001	T002	T003
Batch Size	1000 Ampoules	1000 Ampoules	1000 Ampoules
Manufacturing Date	07-2022	07-2022	07-2022
Date of Initiation	03-07-2022	03-07-2022	03-07-2022
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA		
1.	Reference of previous approval of applications with stability study data of the firm (if any)	Firm has submitted that Biogen pharmaceutical is a new license facility hence no such inspection has been conducted.

2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Firm has submitted that their HPLC system are not 21 CFR compliant.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted.

Remarks of Evaluator:

Sr. No.	Section	Observations	Reply by the firm
1.		First page of form 5F is not submitted.	Submitted.
2.	1.3.4	• Valid copy of DML for Biogen life sciences shall be submitted. • Valid copy of GMP certificate of the applicant shall be submitted.	Firm has submitted copy of DML No. 000911 in the name of M/s Biogen Pharmaceuticals w.e.f. 13-02-2020 and also provided change of title vide letter No. F. 1-2/2019-Lic. Dated 18-03-2021 from M/s Biogen Pharmaceuticals to M/s Biogen Life Sciences. *Not submitted.*
3.	1.3.5	Section approval letter has mentioned Ampoule section SVP (General) while the applied formulation is in vial. Justification shall be submitted.	Firm has submitted that applied formulation is in ampoule and they also have ampoule general section.
4.	1.5.4	Proposed pack size shall be submitted.	1x5's Blister contain 5 ampoule of 1 ml packed in unit carton.
5.	2.3	Table for literature references with correct information regarding the drug product with applicable fee shall be submitted.	*Revised table for literature references is submitted without fee submission.*
6.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer issued by the relevant/concerned regulatory authority shall be submitted.	Firm has submitted copy of GMP certificate No. Drugs (3) pb. 2021/3124 dated 25-06-2021 issued by Food & Drugs Administration, Punjab in the name of M/s Saurav Chemical Limited., Derabassi-Barwala Road, Village Bhagwanpura, Tehsil Derabassi, District Saibzada Ajit Singh Nagar, (Punjab) valid till 25-06-2023. *Data submitted in the dossier has mentioned Saurav Chemical Limited., 370 industrial area Phase II Panchkula, Haryana, India while the provided GMP certificate has mentioned some other address.* *Furthermore, validity of the certificate is till 25-06-2023.*

7.	3.2.S.4.1	Specifications of the drug substance by both the drug substance manufacturer and finished product manufacturer shall be submitted.	Submitted.
8.	3.2.S.4.2	Justification shall be submitted for the assay test in the analytical procedures provided by the drug substance manufacturer wherein assay test is by potentiometry while USP has mentioned HPLC method.	Firm has submitted that drug substance manufacturer used both the methods for analysis of the drug substance. They also provided analytical procedure from the drug substance manufacturer by HPLC method.
9.	3.2.S.4.3	Verification of analytical procedures of the drug substance performed by the drug product manufacturer shall be submitted.	Submitted.
10.	3.2.S.4.4	• COA's from both the drug substance and drug product manufacturer with same batch number shall be submitted. • COA of the drug substance from drug product manufacturer has only one identification test while the COA of the finished product manufacturer and USP monograph has three different test. Justification shall be submitted.	Firm has submitted copies of COAs from both the drug substance manufacturer and finished product manufacturer with COA No. KTM200008, mfg. date 01-2020. Firm has submitted they perform all the identification test on drug substance. Tests are also evident from the newly submitted COA.
11.	3.2.S.7.3	• Complete real time stability of all the three batches of the drug substance shall be submitted. • Justification shall be submitted for not conducting most of the test in the stability of the drug substance i.e. Sterility, bacterial endotoxin pH etc.	Firm has submitted real time stability data for three batches the drug substance for 48 months. Firm has submitted that due to Aseptic filling of Biorolac 30mg/ml solution (Ketorolac Tromethamine) the Raw material (Ketorolac Tromethamine) is non sterile powder. That why drug substance manufacturer does not perform Bacterial Endotoxin Test &Sterility test. Other test like pH ,LOD Melting Point, Assay Impurities performed by drug substance manufacturer which are mentioned in the stability summery sheet.
12.	3.2.P.2.2	Details of the comparator product including its manufacturer, batch No. and manufacturing date etc. shall be submitted.	Product Name: Toradol 30mg/ml Injection Registration Number: 108584 Batch No: 25003 Mfg. Date:06/2022 Exp. Date:05/2024 Manufactured by :Martin Dow Marker LTD
13.	3.2.P.3.3	Scientific justification shall be submitted for not performing the terminal sterilization of the finished product.	Firm has submitted that the Finished Product was Terminally sterilized as recorded on BMR page No. 12 Which could not be mentioned here.
14.	3.2.P.5.2	Complete analytical procedures for all the tests shall be submitted.	Submitted.
15.	3.2.P.5.6	This section has mentioned manufacturer specifications. Justification shall be submitted.	Specification of Biorolac Injection is USP specs however, due to typographical mistake, instead of USP Specifications Manufacturer specifications was mentioned.

16.	3.2.P.8	• Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted. • Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted. • Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) shall be submitted. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted.	Not applicable. Firm has submitted commercial invoice No. SCL/2020-21/138 dated 26-09-2020 mentioning 50gm of ketorolac Tromethamine USP with batch no. KTM200008, mfg. date of 01-01-2020. *However, invoice is not attested by DRAP.* Submitted. Submitted.

Decision: Deferred for following;

- Valid copy of GMP certificate of the applicant shall be submitted.
- Clarification regarding the drug substance manufacturer shall be submitted as the submitted GMP certificate has different address than the information submitted in 3.2.S.
- Valid copy of the GMP certificate of the drug substance manufacturer shall be submitted.
- Scientific justification shall be submitted for performing the terminal sterilization of the finished product with reference to innovator drug product literature.
- Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted.
- Submission of fee of Rs. 7,500/- for correction/pre-approval change in product specifications as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021 shall be submitted.

Firm has submitted new stability data for the applied formulation vide Dy. No. 3401 dated 22-02-2024 with submission of PKR 30,000/- vide slip No. 8968891512 Dated 19-02-2024.	
Name and address of API manufacturer.	M/s PERKIN LABORATORIES, Plot No. 94 TSIIC, Industrial estate, Medchal Dist. 501401, Telangana, India.
Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
Module-III Drug Substance:	Firm has submitted details of the drug substance related to its nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis (KM-1208321, mfg. date 12-2021) and justification of specification, reference standard, container closure system and stability studies of drug substance.
Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 60 months. Batch No. KM-1102215, KM-1102315 & KM-1102415.

	Module-III Drug Product:	Firm has submitted details of the drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against Toradol 30mg/ml injection, B. No.25003, mfg. date 07-2022 by performing quality test of Identification, Particulate matter, pH, Assay, Bacterial endotoxin test and Sterility test.
	Analytical method validation/verification of product	Firm has submitted analytical method verification studies reports for drug product.

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not Submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP certificate No. 5207/TS/2022 dated 14-09-2022 issued by Drugs Control Administration Government of Telangana valid till 14-12-2023.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.3.4	Valid copy of DML of the applicant shall be submitted.	
2.	1.5.6	Valid copy of GMP certificate of the drug substance manufacturer shall be submitted.	

3.	2.3	Copies of executed BMR's shall be submitted.	
4.	3.2.S.4.1	Specifications of the drug substance provided by the drug product manufacturer are different from that provided by the drug substance manufacturer. Justification shall be submitted.	
5.	3.2.S.4.2	Analytical procedures of the drug substance submitted by the drug substance manufacturer are different from USP monograph. Justification shall be submitted.	
6.	3.2.S.4.4	COA of the drug substance from drug substance manufacturer has mentioned in-house specifications while that from drug product manufacturer has mentioned USP specifications. Clarification shall be submitted.	
7.	3.2.S.4.5	Justification of specification is for some other drugs. Clarification shall be submitted.	
8.	3.2.S.7	• Justification shall be submitted for over writing the real time stability conditions in the submitted stability data sheets for the drug substance. • Real time stability data of the three batches for drug substance as per zone Iva shall be submitted.	
9.	3.2.P.2.2	• Justification shall be submitted for not performing PE & CDP against the innovator product. • Details of the product i.e. name of manufacturer, batch number, manufacturing date and expiry date etc. against which PE & CDP are performed shall be submitted with clear and visible pictorial evidence.	
10.	3.2.P.8	• Justification shall be submitted for not performing uniformity of dosage units of the finished as required by the official monograph. • Initiation date in the batch analysis and stability data sheets shall be mentioned. • Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted. • Justification shall be submitted for use of 99.6 potency in the submitted raw data sheets with respect to COA submitted in 3.2.S.4.4 wherein potency of 100 is mentioned. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	

Decision of 335th meeting of Registration Board: Registration Board deferred the case for submission of reply to the above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Section	Observation	Reply by the firm
1.	1.3.4	Valid copy of DML of the applicant shall be submitted.	Firm has submitted copy of DML No. 000609 date of renewal w.e.f. 21-03-2022.
2.	1.5.6	Valid copy of GMP certificate of the drug substance manufacturer shall be submitted.	Firm has once again submitted copy of GMP certificate No. 5207/TS/2022 dated 14-09-2022 issued by Drugs Control Administration Government of Telangana valid till 14-12-2023. ***Not valid.***
3.	2.3	Copies of executed BMR's shall be submitted.	Submitted.

4.	3.2.S.4.1	Specifications of the drug substance provided by the drug product manufacturer are different from that provided by the drug substance manufacturer. Justification shall be submitted.	Firm has submitted that specifications of drug substance by drug product manufacturer are in align with USP specifications.
5.	3.2.S.4.2	Analytical procedures of the drug substance submitted by the drug substance manufacturer are different from USP monograph. Justification shall be submitted.	Firm has submitted that updated analytical method is requested from drug substance manufacturer. However, the firm has performed analysis as per USP method.
6.	3.2.S.4.4	COA of the drug substance from drug substance manufacturer has mentioned in-house specifications while that from drug product manufacturer has mentioned USP specifications. Clarification shall be submitted.	All tests were performed as per USP monograph so the conclusion was drafted as USP Compliant.
7.	3.2.S.4.5	Justification of specification is for some other drugs. Clarification shall be submitted.	Firm has submitted that it was compilation mistake and submitted corrected justification of specifications.
8.	3.2.S.7	• Justification shall be submitted for over writing the real time stability conditions in the submitted stability data sheets for the drug substance. • Real time stability data of the three batches for drug substance as per zone Iva shall be submitted.	Firm has submitted new stability studies of the drug substance.
9.	3.2.P.2.2	• Justification shall be submitted for not performing PE & CDP against the innovator product. • Details of the product i.e. name of manufacturer, batch number, manufacturing date and expiry date etc. against which PE & CDP are performed shall be submitted with clear and visible pictorial evidence.	Guidance Document for Submission of Application On Form 5-F (CTD) For Registration of Pharmaceutical Drug Products for Human Use states that Pharmaceutical equivalence of the applied product could be established with the reference or comparator product. Reference pack used have following details: Zoldap Tablet 400mg Manufactured by GetzBatch # ZD505
10.	3.2.P.8	• Justification shall be submitted for not performing uniformity of dosage units of the finished as required by the official monograph. • Initiation date in the batch analysis and stability data sheets shall be mentioned.	Firm has submitted that as per USP (905) physical tests content uniformity of film coated tablets with strengths of 25mg or less or percentage of API as compared to weight per tablet is 25% or less, is required. Firm has submitted revised stability data sheets with initiation date and is incorporated in stability data.

		• Documents for the procurement of API with approval from DRAP (in case of import) shall be submitted. • Justification shall be submitted for use of 99.6 potency in the submitted raw data sheets with respect to COA submitted in 3.2.S.4.4 wherein potency of 100 is mentioned. • Compliance Record of HPLC software 21CFR & audit trail reports on product testing shall be submitted. • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Firm has submitted copy of commercial invoice No. 2021OT334/EXP dated 21-12-2020 in the name of M/s Biomark pharmaceuticals mentioning 25kg of linezolid IHS. However, invoice is not attested by DRAP. Firm has submitted that as identified, mistakenly the potency was taken as 99.6%. However, results measured are will within range during finished product analysis & during its stability. Firm has submitted that HPLC system used for the analysis of trial was not 21CFR compliant. Firm has submitted that no previous approval is available.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Case No. 05. Registration applications of Imported deferred applications on form 5F.

	The proposed proprietary name / brand name	Cixadin Injection 10mg.
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains; Doxorubicin hydrochloride …….. 10mg
	Pharmaceutical form of applied drug	Lyophilized Powder for solution for injection.
	Pharmacotherapeutic Group of (API)	Antimitotic and cytotoxic (L01DB01)
	Reference to Finished product specifications	USP Specification.
	Proposed Pack size	10ml is filled in 30ml USP type I clear glass tubular vial.

	Proposed unit price	Not mentioned.
	The status in reference regulatory authorities	Doxorubicin Hydrochloride10mg Powder for Injection, Hospira UK Limited, MHRA approved.
	For generic drugs (me-too status)	Adriblastina 10mg, Pfizer Pakistan, Reg. No. 002580.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	M/s Sterling Biotech Limited, Jambusar State Highway, Village: Masar-391 421, Ta: Padra, Dist. Vadodara, Gujrat, India.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data regarding nomenclature, structure, general properties, solubility, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification studies, batch analysis (061503018, 061503019 & 061503020) and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	24 months' real time stability data at 25°± 2°C / 60% RH ± 5% RH of 03 batches (2705, 2805 & 2905). 06 month accelerated stability data 40°C ± 2°C / 75% RH ± 5% RH of 03 batches. Batches (061403010, 061403011 & 061403012)
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, formulation development, pharmaceutical development, manufacturer, batch formula, manufacturing process and process control, process validation protocols/report, specifications, analytical procedures, validation of analytical procedures, batch analysis (0070717001, 0070717002 & 0070817003), justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence is established against Aderamycin by performing quality tests including identification, pH, Assay, water content & impurities. Results of both the applied as well as reference products are in acceptable range.
	Analytical method validation/verification of product	Submitted.
	Container closure system of the drug product	5ml clear tubular USP type I glass vial with 20mm bromobutyl rubber stoppers and 20mm aluminum flip off seals.
	Stability study data of drug product, shelf life and storage conditions	24-months real time stability data at 30°C ± 2°C / 75% ± 5% RH of 03 batches (0070817004, 0070817005 & 0070817006). 06-month accelerated stability data 40°C ± 2°C / 75% ± 5% RH of 03 batches (0070817004, 0070817005 & 0070817006).

Evaluation by PEC:

Sr. No.	Section	Observation	Reply by the firm
1.		Valid notarized and legalized copy of GMP certificate for of the finished product manufacturer shall be submitted.	
2.	1.1	Differential fee of 75000/- shall be submitted.	
3.	1.4.1.1	Authorization letter has mentioned the territory of Pakistan, while in module one section 1.4.1.1 has mentioned domestic and export sales. Clarification shall be submitted.	
4.	1.5.2	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit shall clearly be mentioned as this section has only mentioned 10mg.	
5.	1.6.5	Valid copy of GMP certificate of the drug substance manufacturer issued by the relevant/concerned regulatory authority shall be submitted.	
6.	3.2	Quality overall summary as per WHO QOS-PD template shall be submitted.	
7.	3.2.S.4.2	Chromatographic condition i.e. flow rate, injection volume, column temperature et. in the assay test by the drug substance manufacturer are different from USP while the specifications provided are as of USP. Clarification shall be submitted.	
8.	3.2.S.4.3	Analytical method verification studies performed by the drug product manufacturer shall be submitted.	
9.	3.2.S.4.4	COAs of the drug substance from drug product manufacturer shall be submitted.	
10.	3.2.S.7.3	Real time stability data of the drug substance as per Zone Iva or Zone IVb shall be submitted.	
11.	3.2.P.2.1	Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug.	
12.	3.2.P.2.2	Details of the reference product in CDP shall be submitted. i.e. firm name, batch number, mfg. Date & exp. Date etc.	
13.	3.2.P.5.4	COAs of the drug product for 10mg shall be submitted. COAs for 50mg is submitted instead of 10mg.	
14.	3.2.P.8.3	In use stability studies shall be submitted. Justification shall be submitted that submitted stability data is on solution form of powder form.	
15.		Justification shall be submitted whether finished Product shall be imported in combo pack or alone in powder form.	

Decision of 324th meeting of Registration Board: Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

Reply submitted by the firm:

Sr. No.	Reason for deferment	Reply by the firm
1.	Valid notarized and legalized copy of GMP certificate for of the finished product manufacturer shall be submitted.	Firm has submitted copy of GMP certificate No. 109360/TS/2023 dated 03-02-2023 issued by Drugs Control Administration Government of Telangana in the name of M/s Jodas Expoim Pvt. Ltd., Plot No. 55, Phase-III, Biotech Park, Karkapatla (V), Markook (M), Siddipet (D) Telangana - 502279, India wherein it is stated that the firm is following Good Manufacturing Practices as stipulated under the provisions of Schedule "M" of the Drugs and

		Cosmetics Rules, 1945. The certificate is valid till 02-02-2024.
2.	Differential fee of 75000/- shall be submitted.	Firm has submitted 75,000/- fee vide slip No. 2243020905 dated 21-12-2023.
3.	Authorization letter has mentioned the territory of Pakistan, while in module one section 1.4.1.1 has mentioned domestic and export sales. Clarification shall be submitted.	Corrected 1.4.1.1 section is submitted by the firm.
4.	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit shall clearly be mentioned as this section has only mentioned 10mg.	Firm has submitted following label claim; Each vial contains; Doxorubicin hydrochloride ……. 10mg
5.	Valid copy of GMP certificate of the drug substance manufacturer issued by the relevant/concerned regulatory authority shall be submitted.	Firm has submitted copy of GMP certificate No. 21062636 issued on the basis of inspection conducted on 15-16/06/2021 issued by Food & Drugs Control Administration Gujrat State, India Valid till 27-06-2024.
6.	Quality overall summary as per WHO QOS-PD template shall be submitted.	Submitted.
7.	Chromatographic condition i.e. flow rate, injection volume, column temperature et. in the assay test by the drug substance manufacturer are different from USP while the specifications provided are as of USP. Clarification shall be submitted.	Firm has submitted method equivalency report for Doxorubicin HCl. However, no clarification is submitted by the firm that why Chromatographic condition i.e. flow rate, injection volume, column temperature etc. in the assay test are different from USP while the specifications provided are as of USP.
8.	Analytical method verification studies performed by the drug product manufacturer shall be submitted.	Submitted.
9.	COAs of the drug substance from drug product manufacturer shall be submitted.	Submitted.
10.	Real time stability data of the drug substance as per Zone Iva or Zone IVb shall be submitted.	Submitted.
11.	Provide information including type of diluent, its composition, quantity or volume, specifications (as applicable) and regulatory status in Pakistan (as applicable) for the diluent which is to be provided along with the applied drug.	Firm has submitted that reply from manufacturer wherein they stated that the product Doxorubicin HCl injection 10mg is submitted alone in powder form without any diluent. Hence diluent details are not applicable.
12.	Details of the reference product in CDP shall be submitted. i.e. firm name, batch number, mfg. Date & exp. Date etc.	Firm has submitted that applied formulation developed by them is exactly same as that of the reference product in terms of composition (qualitative and quantitative) and the finished product specifications and results meet USP monograph and all impurity specifications and results are in accordance with ICH quality guidelines.
13.	COAs of the drug product for 10mg shall be submitted. COAs for 50mg is submitted instead of 10mg.	Submitted.
14.	In use stability studies shall be submitted. Justification shall be submitted that submitted stability data is on solution form of powder form.	Submitted. Firm has submitted that stability data is in powder form.

15.	Justification shall be submitted whether finished Product shall be imported in combo pack or alone in powder form.	Firm has submitted that product will be imported alone in powder form.

Decision: Approved as per policy of inspection of manufacturer abroad.

876.	Name, address of Applicant / Importer	**M/s Wellociti Healthcare (Pvt.) Ltd., Office No. 209, 2nd Floor, Thair Plaza, Near City Court, Karachi.**

The firm has summarized information of drug product including its description, composition, pharmaceutical development, manufacturer, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Name, address of drug substance manufacturer	M/s Sun pharmaceutical Industries Limited, A-7/A-8, M.I.D.C., Industrial Area, Ahmednagar – Maharashtra, India.

		Copy of GMP certificate No. NEW-WHO-GMP/CERT/NKD/72512/2018/11/24746 dated 30-08-2018 issued by Food & Drugs Administration M.S. Bandra - Mumbai valid till 29-08-2021 is submitted.
	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification studies, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	• 72 months' real time stability data at 25°± 2°C / 60% RH ± 5% RH of 03 batches (AH-3-08013, AH-3-08014 & AH-3-08015). • 06 month accelerated stability data 40°C ± 2°C / 75% RH ± 5% RH of 03 batches (AH-3-08013, AH-3-08014 & AH-3-08015).
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Pharmaceutical equivalence has been established against product i.e. Cisplatin NeoCorp 1mg/ml, Lot No. JG5128 MAH Hexal AG Industries by performing the following tests; Description, Identification, pH, Assay & Related substances.
	Analytical method validation/verification of product	Submitted.
	Container closure system of the drug product	10ml amber 20mm collar vials (flat bottoms) with 20mm 4432/50 gray fluorotec B2 coating westarrs serum stopper and sealed with 20mm easy to open C/L Alu. Seals with matt finish plastic purple.
	Stability study data of drug product, shelf life and storage conditions	• 36-month real time stability data at 30°C ± 2°C / 75% ± 5% RH of 03 batches (CISI00118C (I), CISI00118C (U) & CISI00218C (I)). • 06 month accelerated stability data 40°C ± 2°C / 75% ± 5% RH of 03 batches (CISI00118C (I), CISI00118C (U) & CISI00218C (I)).

Evaluation by PEC:

Sr. No.	**Section**	Observations	Reply by the firm.
1.	•	• Notarized agreement shall be submitted. • Address of the marketing authorization holder mentioned in 1.4 and that mentioned in sole distribution agreement are different. Clarification shall be submitted.	
2.		Valid, notarized and legalized copy of GMP certificate of the manufacturer shall be submitted.	
3.	•	• Notarized and legalized copy of CoPP certificate shall be submitted.	

		• Submitted CoPP has mentioned M/s SPAL Pvt. Ltd., India as product license holder while the agreement of the M/s Wellociti is with M/s Zydus Healthcare Limited. Clarification shall be submitted.	
4.	1.4.1	Section 1.4.1 has mentioned domestic and export sales while the sole distribution agreement has mentioned in Pakistan only. Clarification shall be submitted.	
5.	3.2.S.4.2	BP monograph has mentioned injection volume of 20µl while the specifications submitted by both the drug substance and drug product manufacturer has mentioned 10µl. clarification shall be submitted.	
6.	3.2.P.1	Qualitative composition of the applied formulation is different from innovator with respect to mannitol. Clarification shall be submitted.	
7.	3.2.P.2.2	Justification shall be submitted for not performing uniformity of content, sterility and bacterial endotoxin test in PE studies.	

Decision of 333rd meeting of registration Board: Deferred for submission of reply to above cited shortcomings.

Reply submitted by the firm:

Sr. No.	Observations	Reply by the firm.
1.	• Notarized agreement shall be submitted. • Address of the marketing authorization holder mentioned in 1.4 and that mentioned in sole distribution agreement are different. Clarification shall be submitted.	Firm has once again submitted coloured copy of agency agreement. Firm has submitted that SPAL is manufacturer, as per India FDA rule this is third party manufacturing product so license holder is SPAL. They further submitted that they also shared a letter for relationship between Zydus and SPAL. *As per submitted CoPP certificate (certificate No. 3474593/TS/2022 dated 21-10-2022 issued by Drugs Control Administration Telangana for cisplatin concentrate for solution for infusion BP 50mg/50ml valid till 24-08-2025 is submitted. The document also confirms that the applied product strength is actually on the market in exporting country.* *However, as per COPP certificate the product license holder is M/s SPAL Pvt. Ltd., India.*
2.	Valid, notarized and legalized copy of GMP certificate of the manufacturer shall be submitted.	Coloured copy of GMP certificate No. 109200/TS/2023 dated 28-03-2023 issued by Drugs Control Administration, Telangana in the name of M/s SPAL Private Limited valid till 26-03-2024 is submitted. *GMP certificate is submitted is coloured copy*.
3.	• Notarized and legalized copy of CoPP certificate shall be submitted. • Submitted CoPP has mentioned M/s SPAL Pvt. Ltd., India as product license holder while the agreement of the M/s Wellociti is with M/s Zydus Healthcare Limited. Clarification shall be submitted.	*Not submitted.* Firm has submitted that SPAL is manufacturer, as per India FDA rule this is third party manufacturing product so license holder is SPAL. They further submitted that they also shared a letter for relationship between Zydus and SPAL.
4.	Section 1.4.1 has mentioned domestic and export sales while the sole distribution	Firm has submitted that agreement between Zydus and Wellociti is for Pakistan sale only. SPAL is contract manufacturer of Zydus for domestic as

	agreement has mentioned in Pakistan only. Clarification shall be submitted.	well as export. *Section 1.4.1 from the applicant had mentioned domestic and export sales while agency agreement was for Pakistan only.*
5.	BP monograph has mentioned injection volume of 20µl while the specifications submitted by both the drug substance and drug product manufacturer has mentioned 10µl. clarification shall be submitted.	Firm has submitted that 20µl injection volume was mentioned for related substances and for assay it was mentioned as 10µl. they also submitted BP monograph for the same.
6.	Qualitative composition of the applied formulation is different from innovator with respect to mannitol. Clarification shall be submitted.	Firm has submitted that SPAL has chosen Neocorp as reference product which does not contain mannitol in its composition. SPAl product is similar to Neocorp which is the innovator. So, the composition of the applied formulation which was applied in module 3.2.P.1 does not contain mannitol. They also submitted pictures of Neocorp product. However, the language is other than English that could not be read.
7.	Justification shall be submitted for not performing uniformity of content, sterility and bacterial endotoxin test in PE studies.	Firm has submitted that PE studies only contains the information regarding the test vs RLD qualitative information. Therefore, uniformity of content, sterility and bacterial endotoxin test will not be reflected in the PE studies.

Decision: Deferred for following;

- **Notarized agreement shall be submitted.**
- **Valid, Notarized copy of CoPP certificate shall be submitted.**

Case No. 06. Registration applications of locally manufactured deferred human application on form 5.

877.	Name and address of manufacturer/ Applicant	M/s Alkemy Pharmaceuticals Labs Pvt Ltd, P/9, SITE, Hyderabad
	Brand Name + Dosage Form + Strength	Kem- Mont 10mg Tablet
	Composition	Each chewable tablet Contains: Montelukast (as sodium)…….10mg

	Approval status of product in Reference Regulatory Authorities	N/A.
	Me-too status	Alvegest powder, Star Laboratories, Reg. No. 008029.
	GMP status	Firm has submitted routine GMP inspection report dated 25-01-2022 wherein it is concluded that keeping in view the attitude of the management towards continuous improvements and current observations their overall GMP compliance is rated as good.
	Remarks of the Evaluator	• Firm was asked to revise their label claim as per their demanded pack size. They revised their label claim as follows; Each 100-gm powder contains; Propionic Acid Calcium ……..…. 25gm Propionic Acid Sodium ……40gm Acetanilide ……15gm Magnesium Oxide ……12.5gm Iron II Sulphate ……0.040mg Zinc Sulphate ……0.010mg Magnesium Sulphate ……0.020mg Copper Sulphate ……...0.045mg Cobalt Sulphate ……0.040mg Sodium Molybdate ……0.010mg Sodium Chloride ……2gm • Firm has submitted me too details as Alvegest powder manufactured by Star Laboratories, Reg. No. 008029. • *However, the composition of the applied formulation is different from the already approved formulation.*
	Decision of 307th meeting of Registration Board;	Deferred for submission evidence of already approved formulation by the Registration Board with brand name, Registration number & manufacturer name. As the composition of the applied formulation is different from submitted me too in concentration of Iron II Sulphate, Zinc, Magnesium Sulphate, Copper Sulphate, Cobalt Sulphate and Sodium Molybdate.
	Reply by the firm;	Firm has revised their formulation as per available approved/registered me too formulation without

		submission of applicable fee for Change of label claim/formulation. Revised label claim is as under; Each 1000-gm powder contains; Propionic Acid Calcium ……. 250gm Propionic Acid Sodium ……400gm Acetanilide ……150gm Magnesium Oxide ……125gm Iron II Sulphate …… 400mg Zinc Sulphate ……. 100mg Magnesium Sulphate ……. 200mg Copper Sulphate ……..... 450mg Cobalt Sulphate ……. 400mg Sodium Molybdate …… 100mg Sodium Chloride …… 20gm
	Remarks of the Evaluator PEC XIII	Full fee along with new form 5 and master formulation shall be submitted.
	Decision of 324th meeting of Registration Board:	Deferred for following; • Submission of full fee of 30,000/- for correction/pre-approval change in the label claim, method of manufacture/specifications, as per notification No.F.7-11/2012-B&A/DRAP dated 13-07-2021 along with revised form 5 shall be submitted. • Evidence of testing facility required for conducting testing of the applied formulation.
	Reply submitted by the firm:	• Firm has submitted 30,000/- fee vide slip no. 999270798078 dated 09-03-2023 along with revised Form 5. • Firm has also submitted a list of 67 equipments in their quality control laboratory mentioning 2 HPLCs, UV spectrophotometer, FTIR, 02 Atomic absorptions and many more.
	Remarks of the Evaluator PEC XIII	
	Decision: Deferred for verification of the testing facility and availability of Atomic absorption spectrophotometer in a panel inspection report. **The board also advised the Division of QA/LT to confirm the availability of required testing facilities of all the manufacturers of such formulations and make it part of GMP inspection reports.**	

Case 08: Registration applications Locally manufactured (Human) drugs New Section/New License cases on Form 5F.

899.	**Name, address of Applicant / Marketing Authorization Holder**	M/s Fynk Pharmaceuticals (Pvt.) Ltd., 19 km, G.T. Road, Kalashah Kaku, Tehsil Ferozwala, District Sheikhupura.
	Name, address of Manufacturing site.	M/s Fynk Pharmaceuticals (Pvt.) Ltd.,19 km, G.T. Road, Kalashah Kaku, Tehsil Ferozwala, District Sheikhupura.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	GMP status of the firm	Firm has submitted copy of GMP certificate No. 198/2022-DRAP (AD-9405944056-789) dated 17-11-2022 issued on the basis of inspection 14/11/2022.

	Evidence of approval of manufacturing facility	Dry powder injectable (Penicillin). – New section approved vide letter No. F. 1-63/84-Lic (Vol III) dated 27-12-2021 is submitted.
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☐ Domestic sale ☐ Export sale ☒ Domestic and Export sales
	Dy. No. and date of submission	Dy. No 8796 dated 30-03-2023.
	Details of fee submitted	PKR 30,000/- vide slip No. 0863114487 Dated 14-03-2023.
	The proposed proprietary name / brand name	**Ampiwell 1gm for injection.**
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Vial contains: Ampicillin as Sodium …… 1gm.
	Pharmacotherapeutic Group of (API)	Beta-Lactam Antibacterial, Penicillin's.
	Pharmaceutical form of applied drug	Powder for injection.
	Reference to Finished product specifications	BP specifications.
	Proposed Pack size	1's (one vial packed with 10ml of WFI).
	Proposed unit price	As per SRO.
	The status in reference regulatory authorities	Penbritin-S Eq. 1gm base/vial USFDA approved. **Federal Register determination that product was not discontinued or withdrawn for safety or effectiveness reasons**
	For generic drugs (me-too status)	Zampicillin Injection 1g, Zafa Pharmaceutical Laboratories, Reg. No. 037826.
	Name and address of API manufacturer.	Vartika Chemicals & Pharmaceuticals Pvt. Ltd., G1-567, RIICO Industrial Area, Khushkhera, Bhiwadi – 301019 Dist. Bhiwadi (Rajasthan), India.
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubility, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product.
	Module-III Drug Substance:	Firm has submitted detail of the drug substance including its nomenclature, structure, general properties, solubility, manufacturers, description of manufacturing process and controls, tests for impurity & related substances, specifications, analytical procedures and its verification, batch analysis (ASS-0422043, mfg. date 04-2022) and justification of specification, working standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time

		conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months. The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 36 months. Batch No. ASS-0117001, ASS-0117002 & ASS-0117003.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence of their product against Ampicillin sodium 500mg for injection, manufactured by Chongquing medicine and health products, batch No. 211028, mfg. date 10-2021 by performing quality test pH, Average weight, water content, assay and sterility.
	Analytical method validation/verification of product	Firm has submitted analytical method validation study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Vartika Chemicals & Pharmaceuticals Pvt. Ltd., G1-567, RIICO Industrial Area, Khushkhera, Bhiwadi – 301019 Dist. Bhiwadi (Rajasthan), India.		
API Lot No.	ASS-0422043.		
Description of Pack (Container closure system)	Glass vial type II with rubber stopper and aluminium flip of seal.		
Stability Storage Condition	Real time: 30°C ± 2°C / 65% ± 5%RH Accelerated: 40°C ± 2°C / 75% ± 5%RH		
Time Period.	Real time: 6 months Accelerated: 6 months		
Frequency.	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	T-001	T-002	T-003
Batch Size .	400 Vials	400 Vials	400 Vials
Manufacturing Date.	07-2022	07-2022	07-2022
Date of Initiation.	30-07-2022	30-07-2022	30-07-2022
No. of Batches.	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Not submitted.
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of GMP Certificate No. DC/A-I/2020/1517 dated 09-09-2020 issued by Drug Control Organization, Rajasthan, Jaipur. Valid till 11-04-2022.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm has submitted copy of clearance certificate No. 6893/2022DRAP dated 07-07-2022 mentioning 2kg of Ampicillin Sodium sterile (BP) with batch No. ASS-0422043, mfg. date of 30-04-2022 from M/s

		Vartika Chemicals & Pharmaceuticals Pvt. Ltd., India attested by Assistant Director, I&E, DRAP, Lahore dated 07-06-2022.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Submitted.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted.
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted.

Remarks of Evaluator:

Sr. No.	Section	Observation	Reply by the firm
1.	1.6.5	Valid copy of GMP certificate of drug substance manufacturer issued by the concerned/relevant regulatory authority shall be submitted.	Copy of GMP certificate (DC/Mfg-25/E-01761/GMP/2023/4069 dated 06-10-2023) of drug substance manufacturers issue by Food Safety and Drugs Control Commissionerate valid for three years is submitted.
2.	2.3	• Revised table for literature references with correct information regarding the drug substance and finished product with applicable fee shall be submitted.	Firm has submitted revised table for literature references with correct information without submission of fee.
3.	3.2.S.4.1	Specification of the drug substance by the drug substance manufacturer shall be submitted.	Submitted.
4.	3.2.P.2.2	• Justification shall be submitted for not performing pharmaceutical equivalence against the innovator product. • Justification for not performing different tests like identification, BET, particulate matter test etc. in pharmaceutical equivalence studies.	Firm has submitted that innovator pack is not available in market, so we used competitor pack pharmaceutical equivalence as per guidance documents. Firm has submitted new PE studies against comparator product i.e. Amplipen 1gm injection, B. No. AP210103 manufactured by M/s PDH Laboratories. Updated/revised pharmaceutical equivalence report has mentioned all these tests.
5.	3.2.P.5.2	Assay calculation formula in the analytical procedures shall be elaborated. As only formula is given while there is no elaboration of the formula.	Analytical procedures had been updated by incorporating the elaboration of formula for Assay calculation. **Result = (rU/rS) × (Cs/Cu) × P** rU = peak response of Ampicillin from the Sample solution rS = peak response of Ampicillin from the Standard Solution Cs = concentration of Standard Solution RS Cu = concentration of Sample Solution P = Potency of working standard

6.	3.2.P.5.3	Verification studies are for ampicillin trihydrate. Justification shall be submitted.	Firm has submitted method verification studies for Ampicillin sodium.
7.	3.2.P.8	• Raw data sheets for calculation of assay of ampicillin at each time interval with calculation formula shall be submitted. • Justify the injection volume in the submitted chromatograms (20) with respect to submitted analytical procedures and BP monograph where injection volume of 50µl is mentioned. • Justify the submitted chromatograms with respect to BP monograph wherein it is mentioned that "the assay is not valid unless, in the chromatograms obtained with solution (3), the resolution peaks between the peaks due to ampicillin and Cefradine is at least 3.0. if necessary, adjust the composition of the mobile phase to achieve the desired resolution." • Reference of previous approval of applications with stability study data of the firm (if any) shall be submitted.	Submitted. Firm has submitted that Analytical method is adjusted as per actual practice, in accordance with USP <621> chromatography and system suitability parameters complies the specification. The same had been validated. Firm has submitted that system suitability injection was run separately by preparing the solution with working standard of Ampicillin and Cefradine, it is not used for the calculation of Assay results. They also submitted separate chromatograms. Application approved in different meeting (323, 324) on Form 5F.

Decision: Approved. Registration letter will be issued after submission of 7500/- fee for pre-registration variation as per notification No.F.7-11/2012-B&A/DRAP dated 07-05-2021.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Agenda of Evaluator PEC-XV

Cases of Form 5-F (Local Manufacturing)

900.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s. Platinum Pharmaceuticals Pvt. Ltd., A-20, North Western Industrial Zone, Bin Qasim, Karachi.**
	Name, address of Manufacturing site.	M/s. Platinum Pharmaceuticals Pvt. Ltd., A-20, North Western Industrial Zone, Bin Qasim, Karachi.
	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No. 33027: 17-11-2022
	Details of fee submitted	PKR 75,000/- : vide slip no. 6925563892 dated 28-07-2022
	The proposed proprietary name / brand name	Eslicarbazepine 600mg Tablet

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each tablet contains:** **Eslicarbazepine Acetate….600mg**
	Pharmacotherapeutic Group of (API)	Antiepileptic, Carboxamide Derivatives
	Reference to Finished product specifications	Innovator's specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	USFDA Approved (APTIOM TABLET, 200mg,400mg,600mg,800mg)
	For generic drugs (me-too status)	NA

Evaluation by PEC-XV:

S.no.	Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	**3.2.S.4.1-3.2.S.4.2**	Submit copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by drug product manufacturer.	Firm submitted the copies of drug substance specification and analytical procedure used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by drug product manufacturer.
2.	**3.2.S.4.3**	Submit data of verification of analytical procedure of drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".*	Firm submitted the analytical method verification report of drug substance by drug product manufacturer.
3.	**3.2.P.2.2.1**	Justify for not performing the dissolution test in accordance with innovator product as evident from the results given in pharmaceutical equivalence report. Further, clarify the time point at which the mentioned percentage release of drug has achieved.	Firm amended the acceptance criteria of dissolution test in accordance with innovator product and accordingly submit the revised pharmaceutical equivalence report.
4.	**3.2.P.5.1**	Justify for not adopting the dissolution acceptance criteria in accordance with the innovator product approved in USFDA. Since innovator recommend two point dissolution for Eslicarbazepine acetate tablet, while you have mentioned the single time point acceptance criteria for the applied product.	Firm updated the acceptance criteria of dissolution test in line with innovator product and submit the performance report accordingly.
5.	**3.2.P.8.2**	Submit documents for the procurement of API including copy of commercial invoice attested by AD (I&E) DRAP. Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.	Firm submitted the copy of Form 6 indicating that the firm imported eslicarbazepine acetate 10 kg from M/s. CTX Life Science Pvt. Ltd., India.

6.	**3.2.P.8.2**	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin, since the submitted GMP certificate is expired.	Firm submitted the copy of GMP certificate of drug substance manufacturer, which is valid till 29/05/2025.
7.	**3.2.R.1.1**	Provide Batch Manufacturing Record (BMR) of all stability batches.	Firm submitted the BMR of three trial batches.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Status of the applicant	☒ Manufacturer ☐ Importer ☐ Is involved in none of the above (contract giver)
	Application Form Dy. No / Tracking ID & date of submission	Form 5F: Dy. No.33024 dated : 17-11-2022
	Details of fee submitted	PKR 75,000/- : vide slip no.38639256086 dated 28-07-2022
	The proposed proprietary name / brand name	**Eslicarbazepine suspension 50mg/ml**

	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	**Each ml contains:** **Eslicarbazepine Acetate….50mg**
	Pharmacotherapeutic Group of (API)	Antiepileptic, Carboxamide Derivatives
	Reference to Finished product specifications	Innovator's specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	MHRA Approved (Zebinix (Eslicarbazepine) Suspension 50mg/ml)
	For generic drugs (me-too status)	NA

Evaluation by PEC-XV:

S.no.	Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	**3.2.S.4.1-3.2.S.4.2**	Submit copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by drug product manufacturer.	Firm submitted the copies of drug substance specification and analytical procedure used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by drug product manufacturer.
2.	**3.2.S.4.3**	Submit data of verification of analytical procedure of drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".*	Firm submitted the analytical method verification report of drug substance by drug product manufacturer.
3.	**3.2.P.4**	Submit the analysis report/COA of excipients propylene glycol and sorbitol which includes the results of impurity testing related to the presence of ethylene glycol and diethylene glycol, in compliance of notification issued by DRAP vide letter No. F.3-42/2023-QC dated 1st, December,2023.	Firm submitted the COA of both excipient of propylene glycol and sorbitol including the test results of presence of ethylene glycol and diethylene glycol.
4.	**3.2.P.5.1**	Justify for not including test of dissolution in the specification of finished product since the innovator product recommends dissolution in the specification of suspension.	Firm submitted the updated specification of drug product including the test of dissolution. Further firm submitted the performance report of dissolution test.
5.	**3.2.P.8.2**	• Submit documents for the procurement of API including copy of commercial invoice attested by AD (I&E) DRAP. Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product. • Approval of API/ DML/GMP certificate of API manufacturer issued by	• Firm submitted the copy of Form 6 indicating that the firm imported eslicarbazepine acetate 10 kg from M/s. CTX Life Science Pvt. Ltd., India. • Firm submitted the copy of GMP certificate of drug substance manufacturer, which is valid till 29/05/2025.

		concerned regulatory authority of country of origin, since the submitted GMP certificate is expired.	
6.	**3.2.R.1.1**	Provide Batch Manufacturing Record (BMR) of all stability batches.	Firm submitted the BMR of three trial batches.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

905.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s. Kaizen Pharmaceuticals (Pvt.) Ltd. Plot no. E-128,E-128 & E-129, North Western Zone, Port Qasim Authority Karachi.**
	Name, address of Manufacturing site.	M/s. Kaizen Pharmaceuticals (Pvt.) Ltd. Plot no. E-128,E-128 & E-129, North Western Zone, Port Qasim Authority Karachi.

Evaluation by PEC (XV):

S.no.	Sections	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	**3.2.S.4.1-3.2.S.4.2**	Submit copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by drug product manufacturer.	Firm submitted the Copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance/Active Pharmaceutical Ingredient by drug product manufacturer.
2.	**3.2.S.4.3**	Justify for not adopting the same assay method for verification studies as recommended by the drug substance manufacturer.	Firm replied that "At Kaizen, we've conducted various assay methods, including those provided by the manufacturer and several internationally recognized methods. These methods were assessed using a PDA detector, with changing different parameters such as mobile phase, wavelength, and flow rate.

			Through optimization, we refined these parameters to develop the most effective method. Subsequently, we verified the chosen method according to the required parameters of analytical method verification, confirming its accuracy, precision, and specificity to the analyte. Notably, the developed method yields a distinct and precise analyte peak in the chromatogram. For your evaluation a chromatogram of one standard solution and one sample solution is attached for your review and evaluation".
3.	**3.2.P.2.2.1**	Justify for using 6 units of each reference and test product for CDP instead of 12 units as recommended by Registration Board in its 293rd meeting.	Firm replied that According to the available laboratory records (raw data), it appears that the analyst conducted tests on 12 units. However, due to a lack of a suitable format for calculating data for 12 units, they processed the data using a calculation sheet designed for 6 units. We want to assure you that the results for the remaining 6 units closely identical to those submitted for the initial 6 units. Subsequently, we have recalculated the data incorporating all 12 units, and no significant differences have been noted in the final results. 12 units data sheet are resubmitted.
4.	**3.2.P.5.1**	Justify for not adopting the same acceptance criteria for dissolution test as recommended by the innovator product, since the revealed literature of innovator product recommend separate acceptance criteria for 60mg and lower strength.	Firm replied that "We have established the same acceptance criteria of "Dissolution Time" as recommended by the innovator, which is 30 minutes. In accordance with this, we have performed dissolution testing for the current 18M (Batch No. TF-04) stability studies. Dissolution test report of Tolvaptan 7.5, 15 and 30mg tablet for 18M- LT (Batch No. TF-04 for each strength) are attached".
5.	**3.2.P.5.2**	Justify for performing the dissolution test on UV spectrophotometer, since the innovator product recommends the performance of dissolution test on HPLC.	Firm in their reply stated that "In the method development phase of the product, the analyst conducted UV spectrophotometer tests on a spectrum of Tolvaptan at a concentration of 10 mcg/ml. They observed a distinct peak (max) at 254 nm. Additionally, the absorbance at this wavelength showed linearity across various concentrations. Consequently, we have chosen to adopt the UV spectrophotometer as our testing method.
6.	**3.2.P.5.4**	• Justify for not performing the uniformity of dosage unit test while performing the batch analysis of drug product for 7.5mg and 15mg strength. • Clarify for giving the dissolution results of pregabalin in the batch analysis report of Tolvaptan Tablet.	• Firm replied that Based on the available raw data of 7.5mg & 15mg tablets, the analyst conducted uniformity of dosage unit testing as part of the batch analysis. However, this information was not included in the report due to the unavailability of an option for reporting in the software report format at that time. We have now updated the report

			format to include the uniformity of dosage unit testing results. The new report, which incorporates these test results, is being submitted for your review. • The word pregabalin is written by mistake in the batch analysis report of Tolvaptan tablet. It was Copy of corrected batch.
7.	**3.2.R.1.1**	Provide Batch Manufacturing Record (BMR) of all stability batches.	Firm submitted the BMR of all three trial batches.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

Notably, the developed method yields a distinct and precise analyte peak in the chromatogram. For your evaluation a chromatogram of one standard solution and one sample solution is attached for your review and evaluation".
3.	**3.2.P.2.2.1**	Justify for using 6 units of each reference and test product for CDP instead of 12 units as recommended by Registration Board in its 293rd meeting.	Firm replied that According to the available laboratory records (raw data), it appears that the analyst conducted tests on 12 units. However, due to a lack of a suitable format for calculating data for 12 units, they processed the data using a calculation sheet designed for 6 units. We want to assure you that the results for the remaining 6 units closely identical to those submitted for the initial 6 units. Subsequently, we have recalculated the data incorporating all 12 units, and no significant differences have been noted in the final results. 12 units data sheet are resubmitted.
4.	**3.2.P.5.1**	Justify for not adopting the same acceptance criteria for dissolution test as recommended by the innovator product, since the revealed literature of innovator product recommend separate acceptance criteria for 60mg and lower strength.	Firm replied that "The acceptance criteria for the current product is set at not less than 80% (Q). However, according to the British Pharmacopeia, the minimum acceptance criteria for immediate release dosage forms should be not less than 75% (Q). Through the results of numerous dissolution tests conducted at various time points and RPMs, it was determined that adhering to the NLT 80% limit ensures the discriminatory power of the dissolution test".
5.	**3.2.P.5.2**	Justify for performing the dissolution test on UV spectrophotometer, since the innovator product recommends the performance of dissolution test on HPLC.	Firm replied that "In the method development phase of the product, the analyst conducted UV spectrophotometer tests on a spectrum of Tolvaptan at a concentration of 10 mcg/ml. They observed a distinct peak (max) at 254 nm. Additionally, the absorbance at this wavelength showed linearity across various concentrations.

			Consequently, we have chosen to adopt the UV spectrophotometer as our testing method. Based on the available raw data, the analyst conducted uniformity of dosage unit testing as part of the batch analysis. However, this information was not included in the report due to the unavailability of an option for reporting in the software report format at that time. We have now updated the report format to include the uniformity of dosage unit testing results. The new report, which incorporates these test results, is being submitted for your review".
6.	**3.2.P.7**	Please specify the reference of sachet packing of granules since the innovator literature revealed that the samsca 1% granule is marketed in 30g plastic without any hint of sachet packaging.	Firm clarified that "30g of Tolvaptan 1% granules were filled into plastic jars, and stability testing was conducted in this packaging. The summary sheets mistakenly mentioned sachets. The corrected summary sheets are attached for your review". Firm corrected that 10mg of granules filled in sachet and 30 sachet filled in plastic jar.
7.	**3.2.P.8.2**	Import invoice of drug substance for confirmation of API lot no. which is actually used in the preparation of stability batches.	Firm submitted the commercial invoice attested by DRAP dated 02-12-2020.
8.	**3.2.R.1.1**	Provide Batch Manufacturing Record (BMR) of all stability batches.	Firm submitted the BMR of all three trial batches.

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	The proposed proprietary name / brand name	Neprival 24mg/26mg Tablet
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each Film coated tablet contains: Sacubitril….24mg Valsartan…..26mg
	Pharmacotherapeutic Group of (API)	Angiotensin II Receptor Antagonist
	Reference to Finished product specifications	Innovator's specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO

	The status in reference regulatory authorities	USFDA Approved (Entresto Tablet 24mg/26mg, 49mg/51mg, 97mg/103mg)
	For generic drugs (me-too status)	Valsatril Tablets 24/26mg Tablet Sami Pharmaceuticals (Pvt.) Ltd. (Reg.no. 093098)

Evaluation by PEC (XV):

S.no.	Sections	Observations/Deficiencies/ Short-comings
1.	**1.5.2**	Innovator label claim is "*Each film-coated tablet contains 24.3 mg sacubitril and 25.7 mg valsartan (as sacubitril valsartan sodium salt complex)",* while the label claim mentioned by you is "*Each film-coated tablet contains 24mg sacubitril and 26mg valsartan",* same difference is observed in other 2 stregnths,so clarification is required in this regard
2.	**3.2.S.4.1**	• Justify for adopting different specification of drug substance by drug product manufacturer from that recommended by the drug substance specifically with reference to acceptance limit of water content and assay. • Further, please provide the reference of acceptance criteria of pH , since the test of pH is not included in the specification of drug substance manufacturer.
3.	**3.2.S.4.2**	Justify for not following the same procedure for analysis of enantiomer of valsartan and sacubitril as specified by the drug substance manufacturer. Similarly, adopted assay procedure of drug substance by drug product manufacturer is also not in accordance with the assay method of drug substance manufacturer, clarification is required in this regard.
4.	**3.2.S.4.3**	Justify for performing the validation studies on assay method different from that specified in section 3.2.S.4.2.
5.	**3.2.S.4.4**	Justify for not performing the enantiomeric purity test by the drug product manufacturer while analysis of drug substance, as evident from the batch analysis report.
6.	**3.2.S.7**	Stability data of 12 months has been submitted by the drug substance manufacturer, while the innovator literature revealed that the proposed re-test period of 36 months is suggested for innovator product, in this regard clarify for submitting the stability data of only 12 months.
7.	**3.2.P.2.2.1**	Justify for not performing all the quality test while establishing the pharmaceutical equivalence against the innovator product.
8.	**3.2.P.5.2**	Justify for not adopting the acceptance criteria of dissolution test as recommended by the innovator brand, further dissolution conditions are also not in accordance with innovator product.
9.	**3.2.P.5.4**	Justify for submitting the same assay validation report for all strength despite the fact that all strength has different weight per tablet, which is crucial for sample preparation.
10.	**3.2.P.5.5**	Justify the obtained weight of tablet i.e. 204.91mg, as mentioned in the batch analysis report of drug product, when the weight of uncoated tablet as per the composition table given in section 3.2.P.1 is 205.0mg per tablet. Same clarity is required in other two strengths.
11.	**3.2.P.8**	Submit updated stability of drug product, since you have submitted stability data of only three months.
12.	**3.2.R.1.1**	Submit detailed calculation of dispensed weight of active per tablet.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	The status in reference regulatory authorities	MHRA Approved (1MIU & 2MIU)
	For generic drugs (me-too status)	Colistimethate Sodium powder for solution for IV injection/infusion of M/s Mukhtar Enterprises Lahore. Registration No. 094757

Evaluation by PEC (XV):

S.no.	Observations/Deficiencies/ Short-comings	Response of the firm
1.	Since firm has claimed USP specifications. Justify the declared label claim in terms of Colistimethate	The label claim given by the DRAP for cmyate IMIU Injection, was followed for the abovementioned strengths for the harmonization of all the strengths of (registration

	sodium instead of Colistimethate base activity as recommended by USP.	letter of cmyate IMIU Injection is as attached). However, the Assay results were calculated as Colistine base activity as defined in USP. But the firm has declared the label claim with reference to the quantity of colistimethate sodium instead of colistimethate base activity.
2.	Manufacturing procedure of drug substance did not include the step of sterilization neither the document revealed regarding the manufacturing under aseptic condition, clarify the sterilization procedure adopted during manufacturing, since, the drug substance is used in the preparation of injectable dosage form.	Firm replied that "As defined in the manufacturing procedure the of sterilization of API is assured by sequential "Ultra filtration and Nano filtration technology". Since the API is sensitive to heat so heat sterilization of the product is not suitable."
3.	Assay method specified in section 3.2.S.4.2 is not in accordance with the USP general chapter *<81> antibiotics—microbial assays*, specifically with reference to concentration of standard and sample solution and the calculation of sample potency determination, clarification is required in this regard.	The USP general chapter <81> provides the general guidelines for the microbiological assay of substances, > however product specific adjustments in the procedure are allowed by the USP (Ref: General Notice 6.30). Therefore, API manufacturer has adopted USP Chapter <81> for the procedure and dilution and concentrations are adjusted in accordance with the product requirement. 1, Moreover the standard analytical procedure is validated as per USP and ICH guidelines. So the procedure used by API manufacturer is justifiable. However as per General chapter of USP *"It is acceptable to adjust the median concentration to optimize zone sizes if the data remain in the linear range".* then firm has to provide reasons to change the conc of solutions and the limits of adjustment which is considered while adjusting the conc. as per General notices of USP. Further, provide complete calculation of petency dertermination as per the USP general chapter <81>.
4.	Justify for performing verification studies on assay method different from that recommended by USP general chapter *<81> antibiotics—microbial assays.*	Firm replied that, "In The USP general chapter <81> provides the general guidelines for the microbiological assay of substances, however product specific adjustments in the procedure are allowed by the USP. Therefore, API manufacturer has adopted USP Chapter <81> for the procedure and dilution and concentrations are adjusted in accordance with the product requirement. Moreover, the standard analytical procedure is validated as per USP and ICH guidelines. So the procedure used by API manufacturer is justifiable". Please justify the adjusted concentration of solutions in the light of allowable limits of USP.
5.	Submitted CoA does not clarify the potency whether in terms of CBA or IU of CMS.	Firm replied that "The CoA is in accordance with USP and the limit defined by the USP is as follows: "Colistimethate Sodium has a potency equivalent to not less than 390 µg of colistin per mg". From the above label claim it is evident that the potency is defined in terms of colistin base activity.
6.	Justification of declared label claim in terms of Colistimethate sodium instead of Colistimethate base activity as recommended by USP as the firm claimed USP specifications for finished drug product.	Firm replied that "The limit defined by the USP is in the monograph "Colistimethate for Injection" is"Colistimethate for Injection contains an amount of Colistimethate Sodium equivalent to not less than 90.0 percent and not more than 120.0 percent of the labeled amount of colistin"

		The limit given the CoA of finished product by drug product manufacturer is "90% to 120%" which is the limit of colistin base activity. However, the label claim specified by the drug product manufacturer needs to be amended in accordance with the colistin base activity as per USP.
7.	• Justify dispensed quantity of Colistimethate Sodium against the determined potency in terms of Colistimethate base activity (CBA). • Provide the calculation which rationalize the adopted filled weight quantity of colistimethate sodium per vial.	Firm replied that the dispensed weight is calculated in accordance with the innovator's product "COLOMYCIN 2 million International Units (IU) of Powder for solution for injection". But the firm has not submitted the calculation of dispensed quantity of Colistimethate Sodium against the determined potency in terms of Colistimethate base activity (CBA).
8.	Submit the detail of manufacturer, brand name and Registration no. in case of local manufacturer of reference/comparator product against which pharmaceutical equivalence has been established.	Firm replied that "Comparative study was performed with the following product: Product name: Colistim Injection By M/s Biopharmaceutica".
9.	Justify for not performing content uniformity test and test of *Free colistin under Colistimethate Sodium while performing the pharmaceutical equivalence against the comparator product.*	Firm replied that "The uniformity of dosage is performed at each stability interval. Therefore, in equivalence study content uniformity was not performed. Moreover, the "free colistin test is given by USP in "raw material monograph. For finished product the USP do not defines the free colistin test". However, the "*Free colistin test"* is included in the USP monograph of finished drug product, further, the pharmaceutical equivalence study should include all the test of specification of drug product.
10.	Justify for not including the test of *Free colistin under Colistimethate Sodium* in the specification of drug product.	Firm replied that "The "free colistin test is given by USP in "raw material monograph and this test were performed for the raw material by the Aulton Pharmaceutical for finished product the USP do not defines the free colistin test". However, the test of free colistin is included in the USP monograph of drug product " Colistimethate for Injection"
11.	Justify for adopting the microbial assay procedure which is not completely as per USP monograph for "Colistimethate for Injection", general chapter "Antibiotics Microbial Assays <81>", particularly the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis is in accordance with the said USP chapter.	Firm replied that "The USP general chapter <81> provides the general Assay guidelines for the microbiological assay of substances, rdance The procedure adopted was same as USP, however the dilution was prepared as defined by the assay of API manufacturer. Moreover, the standard analytical and procedure is validated as per USP and ICH guidelines. So, the procedure used by API manufacturer is nation, justifiable. Firm has not complied the requirements mentioned in the USP General Chapter <81> particularly, the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis. Further the firm submitted the raw data sheets of potency calculation of drug product, which shows that the median concentration of 5.20 is prepared for analysis while the USP recommends 1 µg/mL. Firm has to submit the adjustment limit which is considered for changing the concentration of solutions.
12.	Further, clarify the culture medium in which seed layer has been prepared.	Firm replied that "for seed layering USP <81> defined "Medium 1" was used. However for further validation specie specific medium "SB Medium" was also used.

13.	• Please provide detailed report of verification studies including the sample and standard solution preparation method and complete potency calculations. • How can the verification report of all three applied strength is same despite the initial reconstituted solution of each strength has different concentration, which ultimately change the required quantity of Buffer B.6 to achieve the concentration recommended in the general chapter "Antibiotics Microbial Assays <81>".	Not submitted the reply of this query.
14.	Submitted batch analysis report does not clarify the potency whether in terms of CBA or IU of CMS.	Firm replied that "In CoA the limits are given according to USP ie: "Colistimethate for Injection contains an amount of Colistimethate Sodium equivalent to not less than 90.0 percent and not more than 120.0 percent of the labeled amount of colistin".
15.	Description of product mentioned in the stability data sheets specify that the product is crystalline powder, while the general properties given in the documents of drug substance manufacturer revealed that the ready to fill material is amorphous in nature.	Firm replied that "As the powder is ready to fill material, so the specification of finished product given by Aulton report Pharmaceuticals are "White to slightly yellow powder filled in glass vials', which is in accordance with USP and API manufacturer specification".
16.	Provide the COA of Mueller-Hinton Agar with the facts that the composition of the media in accordance with Media 9 i.e. the recommended media for colistimethate as per USP.	Firm submitted the documents which did not mentioned the composition of Mueller-Hinton Agar.
17.	Provide calculation detail of dispensed weight of colistimethate sodium per vial. Since the submitted BMR did not contain the same information.	Firm replied that "The weight/vial is calculated in accordance with the innovator's product "COLOMYCIN 2 million International Units (IU) Powder for solution for injection". But the query is relevant to submission of calculation of dispensed weight of colistimethate sodium per vial.

Decision: Deferred for submission of following:

- **Revised label claim in terms of Colistimethate base activity as recommended by USP since the firm claimed USP specifications for finished drug product.**
- **Justify the adjusted concentration of both standard and sample solution of drug substance in the light of allowable limits of USP.**
- **Submit pharmaceutical equivalence report including the test of content uniformity and free colistin test, since both of these test is the part of USP Monograph of "Colistimethate for injection".**
- **Firm has not complied the requirements mentioned in the USP General Chapter <81> particularly, the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis. Further the firm submitted the raw data sheets of potency calculation of drug product, which shows that the median concentration of 5.20 is prepared for analysis while the USP recommends 1 µg/mL. Firm has to submit the adjustment limit which is considered for changing the concentration of solutions along with clarification regarding the said changes in the assay procedure of drug product.**
- **Please provide detailed report of verification studies including the sample and standard solution preparation method and complete potency calculations.**

- **How can the verification report of all three applied strengths is same despite the initial reconstituted solution of each strength has different concentration, which ultimately change the required quantity of Buffer B.6 to achieve the concentration recommended in the general chapter "Antibiotics Microbial Assays <81>".**
- **Provide the COA or other document of Mueller-Hinton Agar which confirm the composition of this medium.**
- **Provide calculation detail of dispensed weight of colistimethate sodium per vial. Since the submitted BMR did not contain the same information.**

16.	Provide the COA of Mueller-Hinton Agar with the facts that the composition of the media in accordance with Media 9 i.e. the recommended media for colistimethate as per USP.	Firm submitted the documents which did not mentioned the composition of Mueller-Hinton Agar.
17.	Provide calculation detail of dispensed weight of colistimethate sodium per vial. Since the submitted BMR did not contain the same information.	Firm replied that "The weight/vial is calculated in accordance with the innovator's product "COLOMYCIN 2 million International Units (IU) Powder for solution for injection". But the query is relevant to submission of calculation of dispensed weight of colistimethate sodium per vial.

Decision: Deffered for the submission of following:

- **Revised label claim in terms of Colistimethate base activity as recommended by USP since the firm claimed USP specifications for finished drug product.**
- **Justify the adjusted concentration of both standard and sample solution of drug substance in the light of allowable limits of USP.**
- **Submit pharmaceutical equivalence report including the test of content uniformity and free colistin test, since both of these test is the part of USP Monograph of "Colistimethate for injection".**
- **Firm has not complied the requirements mentioned in the USP General Chapter <81> particularly, the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis. Further the firm submitted the raw data sheets of potency calculation of drug product, which shows that the median concentration of 5.20 is prepared for analysis while the USP recommends 1 µg/mL. Firm has to submit the adjustment limit which is considered for changing the concentration of solutions along with clarification regarding the said changes in the assay procedure of drug product.**
- **Please provide detailed report of verification studies including the sample and standard solution preparation method and complete potency calculations.**
- **How can the verification report of all three applied strengths is same despite the initial reconstituted solution of each strength has different concentration, which ultimately change the required quantity of Buffer B.6 to achieve the concentration recommended in the general chapter "Antibiotics Microbial Assays <81>".**
- **Provide the COA or other document of Mueller-Hinton Agar which confirm the composition of this medium.**
- **Provide calculation detail of dispensed weight of colistimethate sodium per vial. Since the submitted BMR did not contain the same information.**

	The proposed proprietary name / brand name	Cmyate 4.5 MIU Injection
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: Colistimethate Sodium 4.5MIU eq. to colistimethate Sodium….360mg
	Pharmacotherapeutic Group of (API)	Antibacterial for systemic use, other antibacterial polymyxin
	Reference to Finished product specifications	USP specification
	Proposed Pack size	As per SRO
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	Coly-Mycin® M Parenteral 150 mg colistin base activity **USFDA** Approved
	For generic drugs (me-too status)	Colistim 4.5MIU by Biocare Pharmaceutica,

Evaluation by PEC (XV):

S.no.	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	Since firm has claimed USP specifications. Justify the declared label claim in terms of Colistimethate sodium instead of Colistimethate base activity as recommended by USP.	The label claim given by the DRAP for cmyate IMIU Injection, was followed for the abovementioned strengths for the harmonization of all the strengths of (registration letter of cmyate IMIU Injection is as attached). However, the Assay results were calculated as Colistine base activity as defined in USP. But the firm has declared the label claim with reference to the quantity of colistimethate sodium instead of colistimethate base activity.
2.	Manufacturing procedure of drug substance did not include the step of sterilization neither the document revealed regarding the manufacturing under aseptic condition, clarify the sterilization procedure adopted during manufacturing, since, the drug substance is used in the preparation of injectable dosage form.	Firm replied that "As defined in the manufacturing procedure the of sterilization of API is assured by sequential "Ultra filtration and Nano filtration technology". Since the API is sensitive to heat so heat sterilization of the product is not suitable."
3.	Assay method specified in section 3.2.S.4.2 is not in accordance with the USP general chapter *<81> antibiotics—microbial assays*, specifically with reference to concentration of standard and sample solution and the calculation of sample potency determination, clarification is required in this regard.	The USP general chapter <81> provides the general guidelines for the microbiological assay of substances, > however product specific adjustments in the procedure are allowed by the USP (Ref: General Notice 6.30). Therefore, API manufacturer has adopted USP Chapter <81> for the procedure and dilution and concentrations are adjusted in accordance with the product requirement. 1, Moreover the standard analytical procedure is validated as per USP and ICH guidelines. So the procedure used by API manufacturer is justifiable. However as per General chapter of USP *"It is acceptable to adjust the median concentration to optimize zone sizes if the data remain in the*

		linear range". then firm has to provide reasons to change the conc of solutions and the limits of adjustment which is considered while adjusting the conc. as per General notices of USP. Further, provide complete calculation of petency dertermination as per the USP general chapter <81>.
4.	Justify for performing verification studies on assay method different from that recommended by USP general chapter *<81> antibiotics—microbial assays.*	Firm replied that, "In The USP general chapter <81> provides the general guidelines for the microbiological assay of substances, however product specific adjustments in the procedure are allowed by the USP. Therefore, API manufacturer has adopted USP Chapter <81> for the procedure and dilution and concentrations are adjusted in accordance with the product requirement. Moreover, the standard analytical procedure is validated as per USP and ICH guidelines. So the procedure used by API manufacturer is justifiable". Please justify the adjusted concentration of solutions in the light of allowable limits of USP.
5.	Submitted CoA does not clarify the potency whether in terms of CBA or IU of CMS.	Firm replied that "The CoA is in accordance with USP and the limit defined by the USP is as follows: "Colistimethate Sodium has a potency equivalent to not less than 390 µg of colistin per mg". From the above label claim it is evident that the potency is defined in terms of colistin base activity.
6.	Description of applied product is different from the innovator product, since the innovator product is white to slightly yellow lyophilized cake and the applied product is white to slightly yellow powder, clarify how the applied product is similar to innovator product/reference product.	Firm has not submitted the reply of this query.
7.	Justification of declared label claim in terms of Colistimethate sodium instead of Colistimethate base activity as recommended by USP as the firm claimed USP specifications for finished drug product.	Firm replied that "The limit defined by the USP is in the monograph "Colistimethate for Injection" is"Colistimethate for Injection contains an amount of Colistimethate Sodium equivalent to not less than 90.0 percent and not more than 120.0 percent of the labeled amount of colistin" The limit given the CoA of finished product by drug product manufacturer is "90% to 120%" which is the limit of colistin base activity. However, the label claim specified by the drug product manufacturer needs to be amended in accordance with the colistin base activity as per USP.
8.	Justify dispensed quantity of Colistimethate Sodium against the determined potency in terms of Colistimethate base activity (CBA).	Firm replied that the dispensed weight is calculated in accordance with the innovator's product "COLOMYCIN 2 million International Units (IU) of Powder for solution for injection". But the firm has not submitted the calculation of dispensed quantity of Colistimethate Sodium

		against the determined potency in terms of Colistimethate base activity (CBA).
9.	Provide the calculation which rationalize the adopted filled weight quantity of colistimethate sodium per vial i.e. 360mg of colistimethate sodium.	Firm replied that the dispensed weight is calculated in accordance with the innovator's product "COLOMYCIN 2 million International Units (IU) of Powder for solution for injection". But the firm has not submitted the calculation of dispensed quantity of Colistimethate Sodium against the determined potency in terms of Colistimethate base activity (CBA).
10.	Submit the detail of manufacturer, brand name and Registration no. in case of local manufacturer of reference/comparator product against which pharmaceutical equivalence has been established.	Firm submitted the details.
11.	Justify for not performing content uniformity test and test of *Free colistin under Colistimethate Sodium while performing the pharmaceutical equivalence against the comparator product.*	Firm replied that "The uniformity of dosage is performed at each stability interval. Therefore, in equivalence study content uniformity was not performed. Moreover, the "free colistin test is given by USP in "raw material monograph. For finished product the USP do not defines the free colistin test". However, the "*Free colistin test"* is included in the USP monograph of finished drug product, further, the pharmaceutical equivalence study should include all the test of specification of drug product.
12.	Justify for not including the test of *Free colistin under Colistimethate Sodium* in the specification of drug product.	Firm replied that "The "free colistin test is given by USP in "raw material monograph and this test were performed for the raw material by the Aulton Pharmaceutical for finished product the USP do not defines the free colistin test". However, the test of free colistin is included in the USP monograph of drug product " Colistimethate for Injection"
13.	Justify for adopting the microbial assay procedure which is not completely as per USP monograph for "Colistimethate for Injection", general chapter "Antibiotics Microbial Assays <81>", particularly the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis is in accordance with the said USP chapter.	Firm replied that "The USP general chapter <81> provides the general Assay guidelines for the microbiological assay of substances, rdance The procedure adopted was same as USP, however the dilution was prepared as defined by the assay of API manufacturer. Moreover, the standard analytical and procedure is validated as per USP and ICH guidelines. So, the procedure used by API manufacturer is nation, justifiable. Firm has not complied the requirements mentioned in the USP General Chapter <81> particularly, the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis. Further the firm submitted the raw data sheets of potency calculation of drug product, which shows that the median concentration of 5.20 is prepared for analysis while the USP recommends 1 µg/mL. Firm has to submit the adjustment limit which is considered for changing the concentration of solutions.

14.	Further, clarify the culture medium in which seed layer has been prepared.	Firm replied that "for seed layering USP <81> defined "Medium 1" was used. However for further validation specie specific medium "SB Medium" was also used.
15.	• Please provide detailed report of verification studies including the sample and standard solution preparation method and complete potency calculations. • How can the verification report of all three applied strength is same despite the initial reconstituted solution of each strength has different concentration, which ultimately change the required quantity of Buffer B.6 to achieve the concentration recommended in the general chapter "Antibiotics Microbial Assays <81>".	Not submitted the reply of this query.
16.	Submitted batch analysis report does not clarify the potency whether in terms of CBA or IU of CMS.	Firm replied that "In CoA the limits are given according to USP ie: "Colistimethate for Injection contains an amount of Colistimethate Sodium equivalent to not less than 90.0 percent and not more than 120.0 percent of the labeled amount of colistin".
17.	Clarify on which batches you have performed in-use stability studies in the year 2021, because the trail batches on which stability study has been performed were manufactured in 01-2022.	Firm replied that it was a typographic mistake , in-use stability was performed on the same stability batches.
18.	Description of product mentioned in the stability data sheets specify that the product is crystalline powder, while the general properties given in the documents of drug substance manufacturer revealed that the ready to fill material is amorphous in nature.	Firm replied that "As the powder is ready to fill material, so the specification of finished product given by Aulton report Pharmaceuticals are "White to slightly yellow powder filled in glass vials', which is in accordance with USP and API manufacturer specification".
19.	Provide the COA of Mueller-Hinton Agar with the facts that the composition of the media in in accordance with Media 9 i.e. the recommended media for colistimethate as per USP.	Firm submitted the documents which did not mentioned the composition of Mueller-Hinton Agar.
20.	Provide calculation detail of dispensed weight of colistimethate sodium per vial. Since the submitted BMR did not contain the same information.	Firm replied that "The weight/vial is calculated in accordance with the innovator's product "COLOMYCIN 2 million International Units (IU) Powder for solution for injection". But the query is relevant to submission of calculation of dispensed weight of colistimethate sodium per vial.

Decision: Deffered for the submission of following:

- **Revised label claim in terms of Colistimethate base activity as recommended by USP since the firm claimed USP specifications for finished drug product.**
- **Description of applied product is different from the innovator product, since the innovator product is white to slightly yellow lyophilized cake and the applied product is white to slightly yellow powder, clarify how the applied product is similar to innovator product/reference product.**
- **Justify the adjusted concentration of both standard and sample solution of drug substance in the light of allowable limits of USP.**
- **Submit pharmaceutical equivalence report including the test of content uniformity and free colistin test, since both of these test is the part of USP Monograph of "Colistimethate for injection".**

- **Firm has not complied the requirements mentioned in the USP General Chapter <81> particularly, the volume of base layer is different, volume of bacterial layer is not same neither the standard dilutions preparation and assay calculation/analysis. Further the firm submitted the raw data sheets of potency calculation of drug product, which shows that the median concentration of 5.20 is prepared for analysis while the USP recommends 1 µg/mL. Firm has to submit the adjustment limit which is considered for changing the concentration of solutions along with clarification regarding the said changes in the assay procedure of drug product.**
- **Please provide detailed report of verification studies including the sample and standard solution preparation method and complete potency calculations.**
- **How can the verification report of all three applied strengths is same despite the initial reconstituted solution of each strength has different concentration, which ultimately change the required quantity of Buffer B.6 to achieve the concentration recommended in the general chapter "Antibiotics Microbial Assays <81>".**
- **Provide the COA or other document of Mueller-Hinton Agar which confirm the composition of this medium.**
- **Provide calculation detail of dispensed weight of colistimethate sodium per vial. Since the submitted BMR did not contain the same information.**

Evaluation by PEC (XV):

S.no.	Sections	Observations/Deficiencies/ Short-comings
1.	**3.2.S.4.1-3.2.S.4.2**	• Submit copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by drug Substance manufacturer. • Justify for adopting the different acceptance criteria for enantiomeric purity test from that recommended in USP monograph of Levocetirizine dihydrochloride.
2.	**3.2.S.4.3**	Please provide complete details of conc. of sample and standard solution along with the chromatographic conditions adopted for the verification of assay method.
3.	**3.2.P.2.5**	Formulation contain preservative, so preservative effectiveness studies to be performed as per recommendations of pharmacopoeia and shall be submit.
4.	**3.2.P.2.2.1**	Justify for not including the test of pH and microbial content test while performing the pharmaceutical equivalence of applied product against reference product.

5.	**3.2.P.4**	Submit the analysis report/COA of excipients propylene glycol and sorbitol which includes the results of impurity testing related to the presence of ethylene glycol and diethylene glycol, in compliance of notification issued by DRAP vide letter No. F.3-42/2023-QC dated 1st, December,2023.
6.	**3.2.P.5.1**	• Justify for not including the test of pH and microbial content in the specification of drug product as recommended for oral solution in the USP general chapter <2> *oral drug products—product quality tests.* • Storage condition mentioned in the specification table is between 2°C-25°C, Justify the storage condition in the light of recommended condition by the innovator product in which excursions permitted to 15°C to 30°C.
7.	**3.2.P.5.2**	Provide reference / scientific rationality for keeping the conc. of sample high in comparison to conc. of standard solution.
8.	**3.2.P.5.4**	Assay procedure given in section 3.2.P.5.2 mentioned that the percentage of levocetirizine dihydrochloride has been calculated while the assay results in batch analysis report stated that the content of Levocetirizine has quantified, clarification is required in this regard.
9.	**3.2.P.7**	Please rationalize the use of pet bottles as the primary container for applied product, since the product is light sensitive.
10.	**3.2.P.8.2**	• As per the analytical method validation report of the drug product, the average area of standard solution at 100% concentration is 1158147 while as per the stability study data the average area of standard solution using the same method is 231909. Justify how this significant difference in peak area can exist during the same analysis using similar methods and how the analytical method can be considered verified. • Import invoice of drug substance for confirmation of API lot no. which is actually used in the preparation of stability batches. • Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

	For generic drugs (me-too status)	Traumax 500mg Tablet of M/s. Siza International (Pvt.) Ltd. (Reg.no.024787)

Evaluation by PEC (XV):

S.no.	Sections	Observations/Deficiencies/ Short-comings
1.	**3.2.S.4.3**	Submit analytical method verification report of drug substance performed by drug product manufacturer.
2.	**3.2.P.5.1**	Adapt the acceptance limit of dissolution in term of Q, since the USP monograph specify the limit with Q value i.e. NLT 80% (Q) of the labeled amount of tranexamic acid dissolved.
3.	**3.2.P.5.2**	Justify how USP specification be applied on the strength of 500mg tablet considering the sample preparation procedure of assay recommended in USP monograph of Tranexamic acid tablet in which crushed powder of tablet equivalent to 650mg tranexamic acid is taken for sample preparation.
4.	**3.2.P.5.3**	Rationalize the spiked concentration of active taken while performing the accuracy parameter of verification studies of drug product specifically with reference to the applied strength.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

920.	**Name, address of Applicant / Marketing Authorization Holder**	**M/s. Welwrd Pharmaceuticals Plot no. 3, Block A, Phase-I & II, Industrial Estate, Hattar.**

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Not submitted
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Not submitted
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Not submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator:

Sr.no.	Section	Observations
1.	**3.2.S.4.1-3.2.S.4.2**	Submit copies of the Drug substance specifications and analytical procedures used for routine testing of the Drug substance /Active Pharmaceutical Ingredient by both drug product manufacturer and drug substance manufacturer .
2.	**3.2.S.4.3**	Submit data of verification of analytical procedure of drug substance in section 3.2.S.4.3 as per the guidance document approved by Registration Board which specifies that *"Analytical Method Verification studies including specificity, accuracy and repeatability (method precision) performed by the Drug Product manufacturer for both compendial as well as non-compendial drug substance(s) shall be submitted".* Since you have submitted the validation report of drug product instead of drug substance.
3.	3.2.P.2	Formulation contain preservative, so preservative effectiveness studies to be performed as per recommendations of pharmacopoeia and shall be submit.
4.	3.2.P.2.2.1	Justify for not performing all the quality parameters mentioned in the specification of drug product while performing the pharmaceutical equivalence.
5.	3.2.P.4	Submit the analysis report/COA of excipients ethylene glycol and sorbitol which includes the results of impurity testing related to the presence of ethylene glycol and diethylene glycol, in compliance of notification issued by DRAP vide letter No. F.3-6/2024-QC dated 30th January,2024.
6.	3.2.P.5.1	Justify for not including Microbial Enumeration Tests, Test for specified microorganism and antimicrobial preservative content test in the specification of drug product.

7.	3.2.P.5.3	Justify for not performing the validation studies on the same assay procedure given in section 3.2.P.5.2.
8.	3.2.P.5.4	Justify for not including the test of pH, Microbial Enumeration Tests, Test for specified microorganism and antimicrobial preservative content test in the batch analysis report of drug product.
9.	3.2.P.6	Submit COA of reference standard actually used in the analysis of drug product in section 3.2.P.5.4.
10.	3.2.P.8	• Raw data sheet of stability batches indicates that the adopted assay method was not in accordance with the assay method given in section 3.2.P.5.1, clarification is required in this regard. • Submit documents for the procurement of API including copy of commercial invoice attested by AD (I&E) DRAP. Provide details that which lot number of drug substance has been used in manufacturing of each batch of drug product. Also provide documents confirming evidence of import of each lot of drug substance used in manufacturing of these batches of drug product.
11.	2.3.R.1.1	Provide Batch Manufacturing Record (BMR) of all stability batches.

Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.

922.	Name, address of Applicant / Marketing Authorization Holder	M/s High-Q Pharmaceuticals.

Administrative Portion

1.	Reference of previous approval of applications with stability study data of the firm (if any)	Inspection dated 12th July, 2018 for verification of authenticity of stability data of Vesoft 400mg/100mg tablet (Approved in 284th meeting minute of Registration Board)
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Copy of GMP certificate No. SD20170569 issued by Shandong Food & Drug Administration valid till 25/06/2023. According to the latest Drug Administration Law of the People's Republic of China, GMP certification program for all the Chinese pharmaceutical manufacturers is cancelled and won't be issued since Dec 1st, 2019
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Copy of Form 6 license No. 2556/21, DRAP/K dated 13/8/2021 is submitted wherein the permission to import for the purpose of test/analysis and stability studies is granted. Commercial Invoice No.A21176J attested by AD I&E DRAP, Karachi dated: 13th Aug, 2021
4.	Data of stability batches will be supported by attested respective documents like chromatograms,Raw data sheets, COA, summary data sheets etc.	Submitted
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Submitted

Remarks of Evaluator:

- CAS NO. of starting material used in the applied product is 229016-73-3 i.e. sterile ceftaroline fosamil monoacetate
- CAS no. of starting material used in the manufacturing of innovator brand is 866021-48-9 i.e. Ceftaroline Fosamil monoacetate monohydrate with the statement that Ceftaroline Fosamil is not stable in the anhydrous form

S.no.	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	Submit differential fee for the registration of applied new drug product as per the notification for revision of fee vide SRO No. F.7-11/2012-B&A/DRA dated 7th May 2021.	Firm submitted the differential fee of Rs. 45,000/- vide challan no. 4428087215 dated 09-01-2023.

2. **According to the review literature of innovator brand salt form of drug substance is ceftaroline fosamil acetic acid solvate monohydrate, while the drug substance used in the applied drug product is ceftaroline fosamil monoacetate as per the information submitted in substance part. Justification is required for variation in the drug substance against the innovator product.**

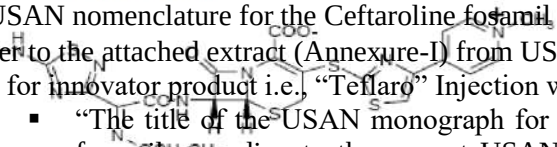
Following points are submitted for your consideration please:

1. Ceftaroline fosamil as starting material:

a. Ceftaroline fosamil monoacetate monohydrate is not a starting material rather it is formulated through chemical transformation of the starting material "Ceftaroline fosamil". The CAS number (229016-73-3) mentioned in the DMF attributes to the starting material i.e., "Ceftaroline fosamil" and the same has also been mentioned in the US FDA Chemistry review document for innovator product. While the CAS no. 866021-48-9 is for the intermediate product Ceftaroline fosamil monoacetate monohydrate, formulated subsequently.

16. CHEMICAL NAME, STRUCTURAL FORMULA, MOLECULAR FORMULA, MOLECULAR WEIGHT:

A) CAS : 229016-73-3



USAN: Ceftaroline Fosamil

(6R,7R)-7-{(2Z)-2-(ethoxyimino)-2-[5-(phosphonoamino)-1,2,4-thiadiazol-3-yl]acetamido}-3-{[4-(1-methylpyridin-1-ium-4-yl)-1,3-thiazol-2-yl]sulfanyl}-8-oxo-5-thia-1-azabicyclo[4.2.0]oct-2-ene-2-carboxylate

Molecular weight 684.68

Formula $C_{26}H_{21}N_8O_8PS_4$

Structural Formula:

2. Revised USAN nomenclature for the Ceftaroline fosamil monoacetate:

- Please refer to the attached extract (Annexure-I) from US FDA Chemistry review document for innovator product i.e., "Teflaro" Injection which states as under:
  - "The title of the USAN monograph for this drug substance is Ceftaroline fosamil according to the current USAN dictionary online (8/30/10). The USAN monograph currently lists as the chemical name the monoacetate monohydrate (Structure B). The Ceftaroline Fosamil USAN monograph may be changed in the future to show instead the chemical name and Structure A".
- Structure A refers to the title and molecular structure of "Ceftaroline Fosamil" having CAS no. 229016-73-3.
- Also in the most recent editions of USAN (United State Adopted Name) the nomenclature for Ceftaroline fosamil acetate has been revised and is adopted as "Ceftaroline Fosamil" with CAS no. 229016-73-3.
- Based upon above cited facts the nomenclature and CAS number 229016-73-3 for Ceftaroline fosamil has been mentioned in the submitted DMF from Qilu antibiotics.

3. Monohydrate monoacetate form of Ceftaroline Fosamil:
   - As submitted in above points that Ceftaroline fosamil monoacetate monohydrate is formulated as intermediate between starting material "Ceftaroline fosamil" and "Sterile Ceftaroline fosamil with arginine". Qilu antibiotics also process the starting material in the same manner as per innovator product wherein Ceftaroline fosamil is converted to Ceftaroline Fosamil monoacetate solvate (hydrate form) through reaction with acetic acid and glacial WFI (extract of DMF presented below). It is pertinent to mention that the monoacetate form is a solvate hydrate wherein water molecule is available as water of crystallization and hence it was not separately mentioned in the nomenclature of the Intermediate form, whereas it is evident form the Manufacturing outline and Drug substance specifications that "Ceftaroline fosamil monoacetate" contains water.
   - The limit of water content of $\leq$ 3.0% also makes it evident that water content equivalent to about monohydrate form is available in the drug substance.

4. Approval of DMF of Qilu antibiotics by US FDA for the ANDA applications:
   a. It is pertinent to mention that the same DMF of same drug substance titled as "STERILE CEFTAROLINE FOSAMIL WITH ARGININE" has been approved by US FDA as Type –II DMF that has passed the completeness assessment and are available for reference by ANDAs, meaning by that the submitted DMF is acceptable

	to be presented along with any ANDA (generic application) to be filed for the "Ceftaroline Fosamil Injection". DMF No.: 28245. Status: Active. Ref: Types of Drug Master Files (DMFs) | FDA	
3.	Submit stability data of drug substance as per zone-IV-A condition OR In case where the real time stability data of drug substance is not conducted at zone IV-A conditions (e.g 30°C ± 2°C/65% RH ± 5% RH), the drug product manufacturer shall have to submit long term stability studies data of the product for 6 months along with degradation studies in the finished pharmaceutical product.	Firm in their reply submit the validation report of forced degradation studies of finished pharmaceutical product.
4.	Justify for not including the test of Constitution Time and extractable volume test in the release specification of drug product, since these test are included in the specification of innovator brand.	Firm replied that Since we do not have access to innovation's specification, therefore we have performed universal tests (related to dry powder injection) and some specific tests on the finished product. However, considering the importance of these two tests (constitution time & extractable volume), we have performed the tests on retention samples of trial batches of Daytef 400 mg Injection to know the compliance level of our product in comparison with the innovator's product. The results are attached. We have also included these tests in the following documents: Specification and Testing Methods of Daytef 400 mg Injection • Stability Protocol for Commercial batches • Certificate of Analysis format for Finished Product Copies of revised documents, as above, enclosed for your reference.
5.	Elaborate the calculation formula for determination of potency of ceftaroline fosamil.	Firm submitted the following calculation formula: Calculation formula as provided in Doc # API/STM-093 (Raw Material Specification and Control methods): % of Ceftaroline Fosamil in the sample=(ru/rs) x (Cs/Cu) x P Where: ru= Peak area of sample solution rs= Peak area of standard solution Cu= Concentration of sample solution in mg/ml $= \frac{\text{Weight of sample}}{\text{Dilution (100 ml)}} \times \frac{10}{100}$ Cs= Concentration of working standard in mg/ml $= \frac{\text{Weight of standard (Ceftaroline fosamil)}}{\text{Dilution (100 ml)}}$ P= Potency of Ceftaroline Fosamil working standard = Taken from the respective CoA from the supplier $(ru/rs) = \frac{\text{Peak area of Sample}}{\text{Peak area of Standard}}$

6.	Justify, how ceftaroline fosamil separately eluted using the reference standard of ceftaroline fosamil with arginine.	Firm replied that "Prior to analyzing API mix (Ceftaroline fosamil monoacetate monohydrate + L-arginine) we had run working standard of Ceftaroline fosamil and Reference standard of L-Arginine separately, following exactly the same method as to be used for API mix analysis, in order to identify the peaks and to ensure proper resolution (Certificate of Analysis of both these standards are enclosed in Annexure 3). As you would see from the chromatograms of API mix and the reference standard; the peak due to Ceftaroline fosamil and L-arginine are completely separate and reproducible.
7.	Submit the remaining stability data of drug product ,since you have submitted only three month stability data.	Firm submit the stability data of drug product till 6 month.
8.	Justify the dispensed quantity of ceftaroline fosamil injection with respect to the potency of active.	Firm replied that Ceftaroline fosamil with L-arginine is received as sterile powder, in ready to fill form, therefore the sealed container, of known net weight, is dispensed as such to maintain the sterility. The potency of ceftaroline fosamil is adjusted while calculating the fill weight of powder in vials. % Potency of Ceftaroline fosamil (as monoacetate, monohydrate) = _____% Factor (Ceftaroline fosamil to Ceftaroline fosamil monoacetate monohydrate) = 1.114* Label Claim = Ceftaroline fosamil 400 mg (as Ceftaroline fosamil monoacetate monohydrate) and 264 mg L-arginine per vial Target Fill Weight (Ceftaroline fosamil monoacetate monohydrate) = Label claim x F x 100 / % Potency of Ceftaroline fosamil = 400 x 1.114 x 100 / % Potency of Ceftaroline fosamil = _____ mg/vial (A) Total Fill Weight (Ceftaroline fosamil monoacetate monohydrate + L-arginine) = A + 264 mg = _____ mg / vial * calculated from the molecular weights of Ceftaroline fosamil and Ceftaroline fosamil monoacetate monohydrate: Molecular weight of ceftaroline fosamil monoacetate monohydrate =762.8 Molecular weight of ceftaroline fosamil = 684.7 or 1 mg of ceftaroline fosamil = 1.114 mg of ceftaroline fosamil monoacetate monohydrate

Decision: Approved.

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

	Module-III Drug Substance:	Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its verification, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at 40°C ± 2°C / 75% ± 5% RH for 6 months.

		The real time stability data is conducted at 30°C ± 2°C / 65% ± 5% RH for 48 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, verification of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.
	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has not submitted the pharmaceutical equivalence report.
	Analytical method validation/verification of product	Firm has submitted analytical method verification study reports for drug substance as well as drug product.

STABILITY STUDY DATA

Manufacturer of API	Chemiworld Private Limited Plot no. 97, J-Industrial Estate Jamrud, Peshawar.		
API Lot No.	NA		
Description of Pack (Container closure system)	Black color Suspension filled in amber color bottles		
Stability Storage Condition	Real time: 30˚C ± 2˚C / 65% ± 5%RH Accelerated: 40˚C ± 2˚C / 75% ± 5%RH		
Time Period	Real time: 6 months Accelerated: 6 months		
Frequency	Accelerated: 0, 3, 6 (Months) Real Time: 0, 3, 6 (Months)		
Batch No.	**T-01**	**T-02**	**T-03**
Batch Size	100 bottles	100 bottles	100 bottles
Manufacturing Date	10/2021.	10/2021.	10/2021.
No. of Batches	03		

DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA

1.	Reference of previous approval of applications with stability study data of the firm (if any)	NA
2.	Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.	Firm has submitted copy of DML (Date of issue:w.e.f. 19-07-2017) of API manufacturer which was expired in 2021.
3.	Documents for the procurement of API with approval from DRAP (in case of import).	Firm submitted the copy of invoice.
4.	Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.	Firm has submitted analytical record for product testing.
5.	Compliance Record of HPLC software 21CFR & audit trail reports on product testing	Not submitted
6.	Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)	Not submitted

Remarks of Evaluator:

Sr.no.	Section	Observations	Response of the Firm

1.	**1.5.9**	As per the decision of Registration Board in its 295th meeting related to the Vitamin-Mineral Formulation, "*If any ingredient in the vitamin and mineral formulation is above UL, then it may allow only, if it is available in already defined Reference Regulatory Agencies, for intended therapeutic purpose, otherwise the Firm has to revise its formulation. Furthermore, single ingredient vitamins for certain disease conditions may be registered with therapeutic claim as per approved Reference Regulatory Agencies*". In compliance of this point, please provide the evidence of availability of applied formulation in already defined Reference Regulatory Agencies, since the quantity of iron in applied formulation is above UL Limit.	Firm submitted the international reference of capsule , while the applied product is suspension, further submitted reference neither have same composition as that of applied product nor verifiable from the official website of USFDA.

Decision: Deferred for submission of evidence of availability of applied formulation in already defined Reference Regulatory Agencies, since the quantity of iron in applied formulation is above UL Limit.

	Name of exporting country	Greece
	Detail of certificates attached (CoPP, Freesale certificate, GMP certificate)	**CoPP:** Firm has submitted **original**, legalized CoPP certificate (53850) dated 01-10-2021 issued by National Organization of Medicine for Casglo Powder for concentrate for solution of infusion 50mg/vial. The CoPP confirms free sale status of the product in exporting country as well as GMP status of the manufacturing site through periodicity of routine inspection 3 years. **GMP Certificate:** Firm has submitted GMP Certificate No.:8652/23-02-2021 dated 29-0302021 issued by National Organization for Medicine, Greece. The GMP conforms the regulations with the requirements of PIC/s and the Directives of the European Commission.
	Details of letter of authorization / sole agency agreement	Firm has submitted Original, legalized Agency Agreement from Meraki Global PTE Ltd. 20 Collyer Quay #11-05, Singapore. The supply and distribution agreement letter specifies that MERAKI is the supplier of pharmaceutical preparations and Hakimsons involve in the business off distribution, sub distrbutors of pharmaceutical product.
	Status of the applicant	☐ Manufacturer ☒ Importer ☐ Is involved in none of the above (contract giver)
	Status of application	☐ New Drug Product (NDP) ☒ Generic Drug Product (GDP)
	Intended use of pharmaceutical product	☒ Domestic sale ☐ Export sale ☐ Domestic and Export sales
	For imported products, specify one the these	☒ Finished Pharmaceutical product import ☐ Bulk import and local repackaging ☐ Bulk import and local repackaging for export purpose only
	Dy. No. and date of submission	Dy.no. 4970 Dated:22-02-2022
	Details of fee submitted	PKR 150,000/ Dated: 08-02-2022

	The proposed proprietary name / brand name	Casglo Powder for concentrate for solution of infusion 50mg/vial
	Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit	Each vial contains: 50mg Caspofungin (as acetate) After reconstitution in 10.5ml of water for injection, 1ml of concentrate contains 5.2mg Caspofungin.
	Pharmaceutical form of applied drug	IV Injection
	Pharmacotherapeutic Group of (API)	Antimycotic for systemic use, ATC code J02AX04
	Reference to Finished product specifications	In-house
	Proposed Pack size	1x50mg Vial
	Proposed unit price	As per SRO
	The status in reference regulatory authorities	**(USFDA** Approved) **CANCIDAS CASPOFUNGIN ACETATE**.
	For generic drugs (me-too status)	Caspogin Powder for concentrate for solution of infusion 50mg/vial of M/s. AJM Pharma Pvt. Ltd. (Reg.no. 106828)
	Module-II (Quality Overall Summary)	Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.
	Name, address of drug substance manufacturer	Teva API India Private Limited Manufacturing Site: Gajraula site Plot Nos, A-2, A-2/1, A-2/2, UPSIDC Industrial Area, Bijnor Road, Distt. Amroha Gajraula -244 235 (Uttar Pradesh), India
	Module-III Drug Substance:	Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Forced Degradation Studies
	Stability Studies of Drug Substance (Conditions & duration of Stability studies)	Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated and real time stability data are conducted at (-18°C±3°C) and (-70°C±5°C) respectively. The stability study data is till 24 months.
	Module-III Drug Product:	Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, control of critical steps and intermediate products, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.

	Pharmaceutical Equivalence and Comparative Dissolution Profile	Firm has submitted pharmaceutical equivalence report against the innovator product German Product Cancidas 50mg Merck Sharp & Dhome Ltd.
	Analytical method validation/verification of product	Firm has submitted analytical method validation studies for the applied product.
	Container closure system of the drug product	Type I clear glass vial closed by bromobutyl stoppers. Closed vials are secured by aluminum seal with a plastic flip-off caps.
	Stability study data of drug product, shelf life and storage conditions	Firm has submitted stability study data of 4 Three batches of 6500 mL batch size production were tested: 18E032, 18E108 and 18F262 – inverted and upright position. The accelerated stability study data is conducted at 25°C±2°C/60%±5% RH for 6 months. The real time stability study data is conducted at 2-8 °C for 24 months.

Evaluation by PEC:

S.no.	Observations/Deficiencies/ Short-comings	Response of the Firm
1.	Submit valid drug sale license of M/s. Hakimson Impex Pvt. Ltd, Karachi.	Firm submitted the valid DSL of applicant which is valid till 19/07/2028.
2.	Submit valid GMP certificate of Manufacturer Abroad ,since the submitted certificate was expired in 2021.	Firm submitted the GMP certificate which was based on inspection conducted on 22-03-2019,issue dated 29-03-2021 and validity was for three years.
3.	Submit legalized agreement letter between Meraki Global Pte Ltd. Singapore and product License holder i.e. M/s. ANAFARM HELLAS SA., Greece in which Meraki Global has given the marketing rights of applied product by the said product license holder.	Not submitted.
4.	Submit analytical method verification report of drug substance performed by drug product manufacturer, in accordance with the requirement mentioned in the CTD guidance document approved by Registration Board.	Firm submitted the method transfer for the analytical methods of assay determination, related substances determinations and residual solvents test of Caspofungin Acetate API which are to be transferred from TEVA Laboratories to Anfarm.
5.	Justify the stability conditions adopted for stability studies of drug substance in camparison of stability conditions recommended by innovator product for the drug substance.	Firm replied that they adopted the reference of innovator product approved in USFDA i.e. Cancidas Powder for concentrate for solution of infusion 50mg/vial. According to the review document of innovator brand storage condition of drug substance is -70°C.
6.	Scientific justification is required for an overfill of 9.2% of solution of infusion as evident from the submitted composition table in the requisite section.	Firm replied that the overfill is needed in order to ensure the labelled amount of active in the solution for infusion. Further, the proposed composition is similar to that of reference product i.e. Cancidas.
7.	Justify for not using the succinic acid as buffering agent in the developed formulation, since the review document of innovator	Firm clarified that the applied formulation is qualitatively similar to the innovator product Cancidas, in which sodium hydroxide or glacial acetic acid are used as pH adjusters and not succinic acid.

	product highlights the importance of succinic acid in the formulation in order to ensure stability during compounding and reconstitution, as well as suitable osmolarity for infusion. It also enables production of a satisfactory cake following lyophilisation	
8.	Submit data of Pharmaceutical equivalence of the applied drug of strength 50mg with the innovator / reference/ comparator product of same strength and results of all the quality tests (mentioned in any official pharmacopoeia or section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed".	Firm submitted the comparative study report of applied product against the innovator product Cancidas of Merck Sharp & Dhome.
9.	Caspofungin acetate is highly soluble in aqueous media but sensitive to heat, oxygen and extremes of pH, the submitted manufacturing method did not include any of the precautionary measures to avoid the degradation of active substance due to the above said factors, clarification is required in this regard.	Firm submitted the forced degradation study report of drug product in response of this query.
10.	Justify for keeping the column temperature uptill 45°C by keeping in view the heat sensitivity of applied product.	Firm replied that "Kindly note that the keeping time of the drug product at the column temperature until 45°C is so fast that it is not significant as parameter for the heat sensitivity of the drug product".

Decision:Deferred for submission of legalized agreement letter between Meraki Global Pte Ltd. Singapore and product License holder i.e. M/s. ANAFARM HELLAS SA., Greece in which Meraki Global has given the marketing rights of applied product by the said product license holder.
