|                           | The status in reference regulatory authorities                                   | (USFDA Approved) <b>CANCIDAS CASPOFUNGIN ACETATE.</b>  |
|                           | For generic drugs (me-too status)  | Caspogin Powder for concentrate for solution of infusion 50mg/vial of M/s. AJM Pharma Pvt. Ltd. (Reg.no. 106828)   |
|                           | Module-II (Quality Overall Summary)  | Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.   |
|                           | Name, address of drug substance manufacturer                                     | Teva API India Private Limited<br>Manufacturing Site: Gajraula site Plot Nos, A-2, A-2/1, A-2/2, UPSIDC Industrial Area, Bijnor Road, Distt. Amroha Gajraula - 244 235 (Uttar Pradesh), India  |
|                           | Module-III Drug Substance:   | Firm has submitted detailed drug substance data for both sources related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, characterization, impurities, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance. Forced Degradation Studies                          |
|                           | Stability Studies of Drug Substance (Conditions & duration of Stability studies) | Firm has submitted stability study data of 3 batches of API at accelerated as well as real time conditions. The accelerated and real time stability data are conducted at (-18°C±3°C) and (-70°C±5°C) respectively. The stability study data is till 24 months.  |
|                           | Module-III Drug Product:   | Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, control of critical steps and intermediate products, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability. |
|                           | Pharmaceutical Equivalence and Comparative Dissolution Profile                   | Firm has submitted pharmaceutical equivalence report against the innovator product German Product Cancidas 50mg Merck Sharp & Dhome Ltd.   |
|                           | Analytical method validation/verification of product                             | Firm has submitted analytical method validation studies for the applied product.   |
|                           | Container closure system of the drug product                                     | Type I clear glass vial closed by bromobutyl stoppers. Closed vials are secured by aluminum seal with a plastic flip-off caps.   |
|                           | Stability study data of drug product, shelf life and storage conditions          | Firm has submitted stability study data of Three batches of 6500 mL batch size production were tested: inverted and upright position. The accelerated stability study data is conducted at 25°C±2°C/60%±5% RH for 6 months. The real time stability study data is conducted at 2-8°C for 24 months.  |
| <b>Evaluation by PEC:</b> |  |  |
| <b>S.no.</b>              | <b>Observations/Deficiencies/Short-comings</b>                                   | <b>Response of the Firm</b>  |

|    |   |  |
|----|---|--|
| 1. | Submit valid drug sale license of M/s. Hakimson Impex Pvt. Ltd, Karachi.  | Firm submitted the valid DSL of applicant which is valid till 19/07/2028.  |
| 2. | Submit valid GMP certificate of Manufacturer Abroad ,since the submitted certificate was expired in 2021.   | Firm submitted the GMP certificate which was based on inspection conducted on 22-03-2019,issue dated 29-03-2021 and validity was for three years.  |
| 3. | Submit legalized agreement letter between Meraki Global Pte Ltd. Singapore and product License holder i.e. M/s. ANAFARM HELLAS SA., Greece in which Meraki Global has given the marketing rights of applied product by the said product license holder.   | Not submitted.   |
| 4. | Submit analytical method verification report of drug substance performed by drug product manufacturer, in accordance with the requirement mentioned in the CTD guidance document approved by Registration Board.  | Firm submitted the method transfer for the analytical methods of assay determination, related substances determinations and residual solvents test of Caspofungin Acetate API which are to be transferred from TEVA Laboratories to Anfarm.                    |
| 5. | Justify the stability conditions adopted for stability studies of drug substance in comparison of stability conditions recommended by innovator product for the drug substance.   | Firm replied that they adopted the reference of innovator product approved in USFDA i.e. Cancidas Powder for concentrate for solution of infusion 50mg/vial. According to the review document of innovator brand storage condition of drug substance is -70°C. |
| 6. | Scientific justification is required for an overfill of 9.2% of solution of infusion as evident from the submitted composition table in the requisite section.  | Firm replied that the overfill is needed in order to ensure the labelled amount of active in the solution for infusion. Further, the proposed composition is similar to that of reference product i.e. Cancidas.   |
| 7. | Justify for not using the succinic acid as buffering agent in the developed formulation, since the review document of innovator product highlights the importance of succinic acid in the formulation in order to ensure stability during compounding and reconstitution, as well as suitable osmolarity for infusion. It also enables production of a satisfactory cake following lyophilisation | Firm clarified that the applied formulation is qualitatively similar to the innovator product Cancidas, in which sodium hydroxide or glacial acetic acid are used as pH adjusters and not succinic acid.   |
| 8. | Submit data of Pharmaceutical equivalence of the applied drug of strength 50mg with the innovator / reference/ comparator product of same strength and results of all the quality tests (mentioned in any official pharmacopoeia or   | Firm submitted the comparative study report of applied product against the innovator product Cancidas of Merck Sharp & Dhome.  |

|     |   |   |
|-----|---|---|
|     | section 3.2.P.5.1 of this application) of the developed formulation and the innovator / reference / comparator product shall be submitted and discussed”.   |   |
| 9.  | Caspofungin acetate is highly soluble in aqueous media but sensitive to heat, oxygen and extremes of pH, the submitted manufacturing method did not include any of the precautionary measures to avoid the degradation of active substance due to the above said factors, clarification is required in this regard. | Firm submitted the forced degradation study report of drug product in response of this query.   |
| 10. | Justify for keeping the column temperature uptill 45°C by keeping in view the heat sensitivity of applied product.  | Firm replied that “Kindly note that the keeping time of the drug product at the column temperature until 45°C is so fast that it is not significant as parameter for the heat sensitivity of the drug product”. |

**Decision of 336th meeting of Registration Board:**

Deferred for submission of legalized agreement letter between Meraki Global Pte Ltd. Singapore and product License holder i.e. M/s. ANAFARM HELLAS SA., Greece in which Meraki Global has given the marketing rights of applied product by the said product license holder.

**Response of the Firm:**

Firm submit the legalized triparty agreement between M/s. ANAFARM HELLAS SA., Greece, Meraki Global Pte Ltd. Singapore and M/s. Hakimsons (Impex) Pvt. Ltd. In which ANFARM granted Meraki Global the non-exclusive license to use the proprietary information contained in the registration dossier, pertaining to the product in order to obtain the marketing authorization for the products in its own name and on its behalf in the Territory.

**Decision: Approved as per Policy for inspection of Manufacturer abroad and verification of local storage facility.**

#### Evaluation by PEC:

| S.no. | Sections    | Observations/Deficiencies/ Short-comings   |
|-------|-------------|--|
| 1.    |             | Please provide legalized documents which established the link between Fahrenhite and PT. Partapa Nirmala, since all your legalized documents including CoPP, Free Sale certificate and GMP inspection report of Manufacturer Abroad revealed that the name of manufacturer is PT. Partapa Nirmala.   |
| 2.    | 1.3.4       | Justify for not having segregated manufacturing facility for preparation of hormones, since the Manufacturer Abroad have manufactured the vasopressin injection in non-betalactum Small volume injection section.  |
| 3.    | 3.2.S.4.2   | Justify for not performing the identification test via Mass Spectral Analysis of drug substance by drug product manufacturer since the USP recommends identification test both via HPLC and Mass spectral analysis.  |
| 4.    | 3.2.S.4.4   | Batch analysis report of batch no. VP-1803 by drug product manufacturer evident that result of bacterial endotoxin test was out of specification despite of keeping the acceptance limit <100IU/mg, while Limits of BET test recommends by the official Pharmacopias and the acceptance limit adopted by the drug substance manufacturer (BCN Peptides) is <10IU/mg. Justify for accepting the batch of drug substance which is failed to pass the bacterial endotoxin test, further provide the Pharmacopial/international literature which recommends the acceptance limit <100IU/mg.                                    |
| 5.    | 3.2.S.7     | <ul style="list-style-type: none"> <li>Justify for not performing the test of water content, test for acetic acid in peptides, microbial enumeration test and test for specified microorganism while performing the stability study of drug substance despite these test are included in the USP monograph of vasopressin.</li> <li>Justify for adapting the acceptance limit of assay NLT 300IU/mg in the stability studies comparing the acceptance criteria recommended in USP monograph i.e. NLT 95.0% and NMT 105.0% of vasopressin (C46H65N15O12S2), calculated on the anhydrous, acetic acid-free basis.</li> </ul> |
| 6.    | 3.2.P.1     | <ul style="list-style-type: none"> <li>Please provide calculation along with equivalent factor to established link between 20 units /ml and 0.0667mg/ml along with evidence of reference product approved in Reference regulatory Agencies with the same composition.</li> <li>Justify for using different excipient from that of 1ml composition of innovator product approved in USFDA, since 1ml of injection of innovator brand contains sodium acetate buffer and water for injection without any preservative.</li> </ul>  |
| 7.    | 3.2.P.2.2.3 | Justify for not performing the sterility test, Bacterial endotoxin test and particulate matter in injection test while performing the pharmaceutical equivalence against the innovator/reference product.  |
| 8.    | 3.2.P.5.2   | Assay procedure specified in section 3.2.P.5.2 is not in accordance with USP monograph of vasopressin injection, justify for using different assay method from that recommended in USP.  |

#### Decision of 326<sup>th</sup> meeting of Registration Board:

Registration Board was apprised that the letter of shortcoming has been initially issued to the firm, hence Board deferred the case for submission of reply to the above cited shortcomings within six months.

#### Response of the Firm:

| S.no | Observations/Deficiencies/ Short-comings  | Response of the Firm  |
|------|---|---|
| 1.   | Please provide legalized documents which established the link between Fahrenhite and PT. Partapa Nirmala, since all your legalized documents including CoPP, Free Sale certificate and GMP inspection report of | Firm replied that "Our manufacturer has given undertaking stating their company name is indeed PT Pratapa Nirmala. According to them Fahrenheit is just their brand, is not an entity. It just a brand associated with PT Pratapa Nirmala. So, they can't |

|    |                  |  |  |
|----|------------------|--|--|
|    |                  | Manufacturer Abroad revealed that the name of manufacturer is PT. Partapa Nirmala.   | provide any document stated PT Pratapa Nirmala-Fahrenheit and PT Pratapa Nirmala is the same because Fahrenheit is not an entity, it's just company brand name. Actual company legalized name is PT Pratapa Nirmala and due to this reason, all legalized document including CoPP, Free Sale Certificate and GMP inspection report is associated with PT. Pratapa Nirmala, since it is their legalized name. For DRAP reference we have attached our manufacturer proper undertaking/justification on their letter head with company signed/stamp".  |
| 2. | <b>1.3.4</b>     | Justify for not having segregated manufacturing facility for preparation of hormones, since the Manufacturer Abroad have manufactured the vasopressin injection in non-betalactum Small volume injection section.  | Firm replied that "Kindly note our product FARPRESIN (Vasopressin) 20 units/ml is manufacture in segregated manufacturing room in which only Vasopressin 20 units/ml is filled in vials and no other product is manufacture in that particular room. Kindly note the approval in Indonesia is for Small Volume Injection not for hormone product as this product fall into FDA orange book i.e. Pharma product. So, as per FDA guidelines for Vasopressin we manufacturer this product in segregated room in small volume injection plant and hence therefore provide the GMP for Small Volume Injection. According to FDA Vasopressin fall into orange book i.e. for Pharma product while biological/hormones product fall into purple book. Since Vasopressin fall in orange book so as per FDA guideline we have manufacturer this product in our plant." |
| 3. | <b>3.2.S.4.2</b> | Justify for not performing the identification test via Mass Spectral Analysis of drug substance by drug product manufacturer since the USP recommends identification test both via HPLC and Mass spectral analysis.  | Firm submitted the revised specification of drug substance which includes identification test via Mass Spectral Analysis as recommended by USP.  |
| 4. | <b>3.2.S.4.4</b> | Batch analysis report of batch no. VP-1803 by drug product manufacturer evident that result of bacterial endotoxin test was out of specification despite of keeping the acceptance limit <100IU/mg, while Limits of BET test recommends by the official Pharmacopeias and the acceptance limit adopted by the drug substance manufacturer (BCN Peptides) is <10IU/mg. Justify for accepting the batch of drug substance which is failed to pass the bacterial endotoxin test, further provide the Pharmacopeia/international literature which recommends the acceptance limit <100IU/mg. | Firm replied that, previously we did use the old outdated specification during VP-1803 analysis. We've updated our specification now as per current standard. Now all limits are according to official pharmacopoeia and results of Bacterial Endotoxin test is within specifications and in its acceptance limits.<br>For DRAP reference Pls. find attached documents that include new translated (specification) along with the analytical method for drug substance. We also include our COA in it, in which all test results fall within acceptance limits including Bacterial Endotoxin. All these test and results are according to updated official monograph which you will also find attached with Query 8 reply in last attachment.  |
| 5. | <b>3.2.S.7</b>   | Justify for not performing the test of water content, test for acetic acid in peptides, microbial enumeration test and test for specified microorganism  | Firm replied that for water and acetic acid in peptide: Specifications according to the previous Vasopressin monograph USP31-NF26. *Water and acetic acid content were not analysed at this time point because   |

|    |                    |   |  |
|----|--------------------|---|--|
|    |                    | while performing the stability study of drug substance despite these test are included in the USP monograph of vasopressin.   | the original protocol did not establish the analysis at 6 months under accelerated ageing conditions. This protocol was updated in order to include these analyses in the calendar. Since the results obtained for the other two batches of the stability study, show that the water and the acetic acid content agree with the specifications at this time point, it can be assumed that the batch VP0401 meets the specifications for water and acetic acid content at 3 and 6 months when stored under accelerated ageing conditions. We also attached stability test with water and acetic acid parameter for DRAP reference now.  |
| 6. | <b>3.2.S.7</b>     | Justify for adapting the acceptance limit of assay NLT 300IU/mg in the stability studies comparing the acceptance criteria recommended in USP monograph i.e. NLT 95.0% and NMT 105.0% of vasopressin (C46H65N15O12S2), calculated on the anhydrous, acetic acid-free basis. | <ul style="list-style-type: none"> <li>• For adapting limit of assay: In this section the results and the primary data obtained from the regular stability studies performed until the moment are shown. It should be noticed that the stability study has been performed according to the USP monograph on Vasopressin (USP31-NF26), where it was stated that the Activity of the product should be not less than 300 IU/mg of Vasopressin. In July 2011 an update of the USP Vasopressin monograph has been published by a Revision Bulletin that will be incorporated in USP-NF 35-30. This update is focused on the assay specification. The update of the USP monograph has changed the Activity specification (300 IU/mg) by the Assay specification (95.0-105.0%). Therefore, future annual stability studies will be done according to the current monograph.</li> </ul> |
| 7. | <b>3.2.P.1</b>     | Please provide calculation along with equivalent factor to established link between 20 units /ml and 0.0667mg/ml along with evidence of reference product approved in Reference regulatory Agencies with the same composition.  | <ul style="list-style-type: none"> <li>• We, PT. PRATAPA NIRMALA, would like to clarify the link between 20 units/ml and 0.0667 mg/ml. The calculation has been submitted. However, the innovator review literature claims that the strength of the pitressin is 20 pressor unit/ml that corresponds to 0.0377mg vasopressin/ml.</li> </ul>  |
| 8. | <b>3.2.P.1</b>     | Justify for using different excipient from that of 1ml composition of innovator product approved in USFDA, since 1ml of injection of innovator brand contains sodium acetate buffer and water for injection without any preservative.                                       | <ul style="list-style-type: none"> <li>• We're using chlorobutanol is because we're referring to VASOPRESSIN injection solution (dailymed). We are using Chlorobutanol because Farpresin Injection are manufactured using aseptic method thus we are add preservative to ensure the finished product are met the microbiology parameter (sterility). For DRAP reference Pls. find attached Dailymed document along with our sign/stamp undertaking on our letterhead for both queries with justification.</li> </ul>   |
| 9. | <b>3.2.P.2.2.3</b> | Justify for not performing the sterility test, Bacterial endotoxin test and particulate matter in injection test while performing the pharmaceutical equivalence against the innovator/reference product.   | Firm replied that we have updated our pharmaceutical equivalence against the innovator/reference product now by adding the sterility test, Bacterial Endotoxin test and particulate matter in injection test result and change the comparative specification document. For reference kindly see attachment documents/test.   |
| 10 | <b>3.2.P.5.2</b>   | Assay procedure specified in section 3.2.P.5.2 is not in accordance with  | Firm replied that we have updated our assay procedure specified in section 3.2. P.5.2. in  |

|  |  |  |   |
|--|--|--|---|
|  |  | USP monograph of vasopressin injection, justify for using different assay method from that recommended in USP. | accordance with USP monograph of Vasopressin Injection. • For reference kindly see our updated SOP, the table (Specification) and the analytical method according to USP monograph. We also attached the USP monograph and the COA of finished product. |
|--|--|--|---|

**Decision: Deferred for clarification regarding the quantity of drug product filled per vial by the manufacturer, since the claimed quantity i.e. 0.0667 mg/ml is not in accordance with the claim label of innovator product i.e. *strength of the pitressin is 20 pressor unit/ml that corresponds to 0.0377mg vasopressin/ml.***

#### Agenda of Mr. M. Tahir Waqas

#### Agenda Item No. 01: Routine Applications of Human Drugs (Locally Manufactured) applied on Form - 5F.

|             |   |   |
|-------------|---|---|
| <b>294.</b> | <b>Name, address of Applicant / Marketing Authorization Holder</b>                  | <b>M/s Axis Pharmaceuticals, 3-B, Value Addition City, 1.5-KM Khurrianwala Sahianwala Road, Faisalabad.</b>   |
|             | Name, address of Manufacturing site.  | M/s Axis Pharmaceuticals, 3-B, Value Addition City, 1.5-KM Khurrianwala Sahianwala Road, Faisalabad.  |
|             | Status of the applicant   | <input checked="" type="checkbox"/> Manufacturer<br><input type="checkbox"/> Importer<br><input type="checkbox"/> Is involved in none of the above (contract giver) |
|             | Application Form Dy. No / Tracking ID & date of submission                          | Form 5F<br>Dy. No. 966 dated 11 JAN 2023  |
|             | Details of fee submitted  | PKR 30,000/- dated 29-12-2022<br>Challan Number: 72592320068  |
|             | The proposed proprietary name / brand name  | <b>MARK INSTA 20mg Sachet</b>   |
|             | Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit | Each sachet contains:<br>Omeprazole ... 20mg<br>Sodium Bicarbonate (as Buffer) ... 1680mg   |
|             | Pharmacotherapeutic Group of (API)  | A02BC01, Proton Pump Inhibitors   |
|             | Reference to Finished product specifications  | Innovator's Specifications  |
|             | The status in reference regulatory authorities                                      | USFDA Approved.   |
|             | For generic drugs (me-too status)   | RISEK INSTA 20mg Sachet of M/s Getz Pharma.   |
|             | Proposed Pack size  | As per SRO  |
|             | Proposed unit price   | As per SRO  |

#### Evaluation by PEC (XXI):

The following deficiencies / shortcomings have been communicated to the firm:

| Sr. No. | Observations   | Firm's response |
|---------|--|-----------------|
| i.      | Please provide approval for Change of Title to "M/s Axis Pharmaceuticals" since in the enclosed DML / Section Approval Letters the name of firm has been mentioned as "M/s Axis Pharmaceuticals (Pvt.) Ltd." |                 |
| ii.     | Please provide valid GMP Certificate of API Manufacturer issued by relevant Regulatory Authority of Country of   |                 |

|      |  |  |
|------|--|--|
|      | Origin. The enclosed certificate was valid till 05-2023.   |  |
| iii. | Sodium Bicarbonate has been mentioned as Excipient, throughout the application dossier. However, the same has been mentioned in label claim (as per Innovator). Please justify / provide data & relevant documents of Substance Part for “Sodium Bicarbonate”. |  |
| iv.  | Finished Product Specifications have been claimed as per Innovator, however USP Monograph for ‘Omeprazole Oral Suspension’ was available. Please justify.  |  |
| v.   | Please provide Stability Study Data (Accelerated and Real Time) along with supporting documents for 6 <sup>th</sup> Month Testing Interval.  |  |

**Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings.**

|             |   |   |

**Evaluation by PEC (XXI):**

The following deficiencies / shortcomings have been communicated to the firm:

| <b>Sr. No.</b> | <b>Observations</b>  | <b>Firm's response</b>  |
|----------------|--|---|
| i.             | Strength of API in most parts of application dossier has been mentioned as 'Terbinafine HCL 250mg' which is not as per Innovator's label claim. Please justify.                            | <b>Typographic Error.</b><br><br>Firm have submitted revised label claim as follows: -<br><br>Each Tablet contains:<br>Terbinafine HCL USP equivalent to Terbinafine ... 250mg<br><br><b>Fee for pre-registration revision / correction of label claim has not been submitted</b> |
| ii.            | Please provide valid GMP Certificate of API Manufacturer. The enclosed GMP Certificate was valid till 05/2022.   | Submitted.<br><br>However, the re-submitted Certificate was <b>valid till 04 – 2024.</b>  |
| iii.           | The applicant has submitted Justification of Stability Studies of API being conducted at 25°C ± 2°C and 60%RH ± 5%RH referring to the minutes of 290 <sup>th</sup> Meeting of Registration | The firm have submitted revised Stability Study Sheets of API conducted as per Zone IV(a).  |

|     |   |  |
|-----|---|--|
|     | <p>Board. However, the said decision of 290<sup>th</sup> Meeting of Registration Board is reproduced as follows: -</p> <p><i>Decision: Registration Board on the basis of above cited discussion decided as follows:</i></p> <p>□□<i>In case where the real time stability data of drug substance is conducted at 25°C□± 2°C/60% RH ± 5% RH, the firm shall submit the record of data logger for the storage conditions throughout the transportation.</i></p> <p>□□<i>Moreover, in case of use of ingredients whose stability testing has not been done as per Zone IVA, then the manufacturer of finished pharmaceutical product, shall submit real term stability studies data of the product for atleast 1 year along with degradation studies in the finished pharmaceutical product.</i></p> <p>No such data as required in light of above decision of Registration Board has been submitted. Please clarify.</p> | <p><b>Fee for pre-registration revision / correction of data has not been submitted.</b></p>   |
| iv. | <p>The Accelerated and Real Time Stability Study Results of Average Weight and Disintegration Time, as mentioned in submitted summary of stability reports, for each time point tested of both batches, are not as per mentioned specifications. Please clarify.</p>  | <p><b>Typographic Error.</b></p> <p>Firm have submitted revised Stability Study Sheets (Accelerated and Real Time).</p> <p><b>Fee for pre-registration revision / correction of data has not been submitted.</b></p> |
| v.  | <p>Please provide evidence of 21CFR compliance record of HPLC software &amp; audit trail reports as per 21CFR on product testing.</p>   | <p>The firm have submitted that their HPLC was <b>not 21CFR compliant</b>.</p>   |

**Decision: Approved.**

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

**Registration Board further decided that the Registration Letter will be issued after submission of:**

- **Full fee for pre-registration revision / correction of data / Typographical errors.**
- **Valid GMP Certificate of API Manufacture.**

**Agenda Item No. 02: Deferred Cases**

| No. of Batches   | 03   |  |         |
| DOCUMENTS / DATA TO BE PROVIDED ALONG WITH STABILITY STUDY DATA  |  |  |         |
| 1.   | Reference of previous approval of applications with stability study data of the firm (if any)  | Not provided.  |         |
| 2.   | Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.  | Copy of GMP Certificate issued by Zhejiang Medical Products Services Centre for Information Publicity and Development, valid till Aug 24, 2023.  |         |
| 3.   | Documents for the procurement of API with approval from DRAP (in case of import).  | Copy of Clearance (vide No. 11450/2021 DRAP dated 02-08-2021) by AD I&E DRAP, Lahore has been submitted for 1.5KGs Rosuvastatin Calcium Batch No. ROI-7-09210501 vide Invoice No. 21ZJ027 dated 2021-6-30. |         |
| 4.   | Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.  | Firm has submitted analytical record for product testing.  |         |
| 5.   | Compliance Record of HPLC software 21CFR & audit trail reports on product testing  | Audit trail reports on product testing has been submitted. Compliance Record of HPLC software 21CFR has not been submitted.  |         |
| 6.   | Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)  | Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.  |         |
| Remarks of Evaluator:<br>The following deficiencies / shortcomings have been communicated to the firm: |  |  |         |
| Deficiencies / Shortcomings  |  | Response of the firm   |         |
| i.   | Please confirm the name of Firm as it is mentioned as “M/s Axis Pharmaceuticals (Pvt.) Ltd.” on enclosed copy of DML and on Renewal of your DML whereas the same is mentioned as “M/s Axis Pharmaceuticals” throughout your application. Please provide supporting documents for the same. | The firm has submitted corrected copy of DML as “M/s Axis Pharmaceuticals”.  |         |
| ii.  | 2.3.P.3.2 The application has been claimed to be submitted for ‘film coated tablet’, whereas no ingredient for preparation of film coating has been mentioned in this section. Please clarify.   | The firm has submitted revised Section 2.3.P.3.2 mentioning information of film coating.   |         |
| iii.   | 2.3.P.5 Please specify the USP Dissolution Test (1 or 2).  | The firm has specified USP Test – I for performing Dissolution Test.   |         |
| iv.  | 2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm ×  | The firm has claimed that the analytical method was adjusted as per actual practice.   |         |

|       |  |   |
|-------|--|---|
|       | 250mm; 5-µm packing C18” for Dissolution Analysis. Please justify.   |   |
| v.    | 2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity. Please Justify   | The firm has claimed that the analytical method was adjusted as per actual practice.  |
| vi.   | 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets. Please justify.   | The firm has claimed that the analytical method was adjusted as per actual practice.  |
| vii.  | 2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.   | The firm has committed that USP Reference Standard will be used for standardization upon commercialization of drug product.   |
| viii. | 3.2.S.7.1 The real time stability data of drug substance is conducted at 25°C± 2°C/60% RH ± 5% RH, however for locally manufactured products the stability studies of the Drug substance shall be submitted as per Zone-IV(a) conditions.  | The firm has submitted that the recommended storage conditions for Rosuvastatin Calcium is 2°C - 8°C as per Drug Substance Manufacturer, hence the real time stability data of drug substance is conducted at 25°C± 2°C/60% RH ± 5% RH.   |
| ix.   | Furthermore, in case of use of ingredients whose stability testing has not been done as per Zone-IV(a), the manufacturer of finished pharmaceutical product, shall submit real term stability studies data of the product along with degradation studies in the finished pharmaceutical product. No such data on degradation studies has been submitted. Please clarify. | Same as above.  |
| x.    | 3.2.P.2.1.1 Pharmaceutical equivalence / CDP has been performed against ‘RUVASTAT 5mg Tablets’ instead of the Reference / Innovator’s Product. Please justify.   | The firm has stated that Comparator product was used as it was readily available.   |
| xi.   | Please provide Compliance Record of HPLC Software 21CFR.   | Certificate of 21CFR Compliance of HPLC Software has not been submitted.  |
| xii.  | The submitted Audit trail reports on product testing mentions “Year 2017” on multiple instances, whereas the product was developed in the year 2021. Please justify.   | The firm has stated that “ <i>Roxistat Tablets were developed in 2021, however, the testing method created in HPLC software are saved in a default folder titled “Year 2017”, created in year 2017 which is linked to the backup folder on server. Therefore, Year 2017 appears on Audit Trail Reports indicating project location</i> ”. |

|       |   |  |
|-------|---|--|
| xiii. | Please provide approval of API/DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. The enclosed copy of GMP Certificate is not from the concerned regulatory authority of country of origin and was valid till Aug 24, 2023. | Copy of GMP Certificate No. ZJ20190121 dated 10/28/2019 issued by CFDA has been submitted.   |
| xiv.  | Please provide GMP status of the FPP manufacturer (not older than 03 years).  | Copy of GMP Certificate Ref. No. 100/2022-DRAP(AD-51001963034) dated 20-06-2022 valid for two years from the date of inspection (13-06-2022) has been submitted. |
| xv.   | Please provide Reference of previous approval of applications with stability study data of the firm (if any)  | Cinaxipid Tablet 1mg, Axistart-K Tablets, Trubax Tablets etc.  |

**Decision 335<sup>th</sup> meeting of Registration Board:**

**Registration Board deferred the case for submission of:**

- **Requisite fee for pre-registration correction / Typographical Mistake.**
- **Justification / clarification for points mentioned below;**
  - **2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Dissolution Analysis.**
  - **2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity.**
  - **2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets.**
  - **2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.**

The Firm have submitted as follows:

| <b>Observation</b>  | <b>Firm’s Response</b>  |
|---|---|
| Requisite fee for pre-registration correction / Typographical Mistake.  | <b>Not Submitted</b>  |
| 2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Dissolution Analysis.        | Firm has submitted revised / updated Method wherein USP recommended “Column: 4.6-mm × 5-cm; 5-µm packing L1” has been mentioned. Furthermore, the firm have claimed that the same will be used for Commercial Batches.  |
| 2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity. | Firm has submitted revised / updated Method wherein USP recommended “Column: 3.2-mm × 25-cm; 5-µm packing L1” has been mentioned. Furthermore, the firm have claimed that the same will be used for Commercial Batches. |
| 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets.                                  | Firm has submitted revised / updated Method in accordance with USP Monograph.   |
| 2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide  | The firm have submitted that the working standard used in analytical testing was provided   |

|   |  |  |   |                                      |  |                         |   |                        |  |  |  |                       |   |  |   |                                |                                 |                          |  |  |                             |   |  |                                    |                                       |

| Module-II (Quality Overall Summary)  | Firm has submitted QOS as per WHO QOS-PD template. Firm has summarized information related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance and drug product. |
| Module-III Drug Substance:   | Firm has submitted detailed drug substance data related to nomenclature, structure, general properties, solubilities, physical form, manufacturers, description of manufacturing process and controls, specifications, analytical procedures and its validation, batch analysis and justification of specification, reference standard, container closure system and stability studies of drug substance.   |
| Stability Studies of Drug Substance (Conditions & duration of Stability studies) | Firm has submitted stability study data of 3 batches of drug substance at both accelerated as well as real time conditions. The accelerated stability data is conducted at $25^{\circ}\text{C} \pm 2^{\circ}\text{C}$ / $60\% \pm 5\%$ RH for 6 Months. The real time stability data is conducted at $5^{\circ}\text{C} \pm 3^{\circ}\text{C}$ / $65\% \pm 5\%$ RH for 36 Months.   |
| Module-III Drug Product:   | Firm has submitted data of drug product including its description, composition, pharmaceutical development, manufacture, manufacturing process and process control, process validation protocols, control of excipients, control of drug product, specifications, analytical procedures, validation of analytical procedures, batch analysis, justification of specifications, reference standard or materials, container closure system and stability.       |
| Pharmaceutical Equivalence and Comparative Dissolution Profile                   | <p>Firm has submitted pharmaceutical equivalence of their product against RUVASTAT 10mg Tablets by M/s Pharmatec Pakistan (Pvt) Ltd. by performing quality tests (Identification, Assay, Dissolution, and Uniformity of dosage unit).</p> <p>Firm has submitted CDP results of their product against</p>  |

| 1.  | Reference of previous approval of applications with stability study data of the firm (if any)   | <b>Not provided.</b>   |              |
| 2.  | Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.                         | Copy of GMP Certificate issued by Zhejiang Medical Products Services Centre for Information Publicity and Development, <b>valid till Aug 24, 2023.</b>   |              |
| 3.  | Documents for the procurement of API with approval from DRAP (in case of import).   | Copy of Clearance (vide No. 11450/2021 DRAP dated 02-08-2021) by AD I&E DRAP, Lahore has been submitted for 1.5KGs Rosuvastatin Calcium Batch No. ROI-7-09210501 vide Invoice No. 21ZJ027 dated 2021-6-30. |              |
| 4.  | Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc. | Firm has submitted analytical record for product testing.  |              |
| 5.  | Compliance Record of HPLC software 21CFR & audit trail reports on product testing   | Audit trail reports on product testing has been submitted. <b>Compliance Record of HPLC software 21CFR has not been submitted.</b>   |              |
| 6.  | Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated)                         | Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers.  |              |
| <b>Remarks of Evaluator:</b><br>The following deficiencies / shortcomings have been communicated to the firm: |   |  |              |

| Deficiencies / Shortcomings   | Response of the firm   |
|---|--|
| i. Please confirm the name of Firm as it is mentioned as “M/s Axis Pharmaceuticals (Pvt.) Ltd.” on enclosed copy of DML and on Renewal of your DML whereas the same is mentioned as “M/s Axis Pharmaceuticals” throughout your application. Please provide supporting documents for the same. | The firm has submitted corrected copy of DML as “M/s Axis Pharmaceuticals”.  |
| ii. 2.3.P.3.2 The application has been claimed to be submitted for ‘film coated tablet’, whereas no ingredient for preparation of film coating has been mentioned in this section. Please clarify.  | The firm has submitted revised Section 2.3.P.3.2 mentioning information of film coating.   |
| iii. 2.3.P.5 Please specify the USP Dissolution Test (1 or 2).  | The firm has specified USP Test – I for performing Dissolution Test.   |
| iv. 2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Dissolution Analysis. Please justify.  | The firm has claimed that the analytical method was adjusted as per actual practice.   |
| v. 2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity. Please Justify   | The firm has claimed that the analytical method was adjusted as per actual practice.   |
| vi. 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets. Please justify.  | The firm has claimed that the analytical method was adjusted as per actual practice.   |
| vii. 2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.   | The firm has committed that USP Reference Standard will be used for standardization upon commercialization of drug product.  |
| viii. 3.2.S.7.1 The real time stability data of drug substance is conducted at 25°C ± 2°C/60% RH ± 5% RH, however for locally manufactured products the stability studies of the Drug substance shall be submitted as per Zone-IV(a) conditions.  | The firm has submitted that the recommended storage conditions for Rosuvastatin Calcium is 2°C - 8°C as per Drug Substance Manufacturer, hence the real time stability data of drug substance is conducted at 25°C ± 2°C/60% RH ± 5% RH. |
| ix. Furthermore, in case of use of ingredients whose stability testing has not been done as per Zone-IV(a), the manufacturer of finished pharmaceutical product, shall submit real term stability studies data of the product along with degradation studies in                               | Same as above.   |

|       |   |   |
|-------|---|---|
|       | the finished pharmaceutical product. No such data on degradation studies has been submitted. Please clarify.  |   |
| x.    | 3.2.P.2.1.1 Pharmaceutical equivalence / CDP has been performed against 'RUVASTAT 10mg Tablets' instead of the Reference / Innovator's Product. Please justify.   | The firm has stated that Comparator product was used as it was readily available.   |
| xi.   | Please provide Compliance Record of HPLC Software 21CFR.  | Certificate of 21CFR Compliance of HPLC Software has not been submitted.  |
| xii.  | The submitted Audit trail reports on product testing mentions "Year 2017" on multiple instances, whereas the product was developed in the year 2021. Please justify.  | The firm has stated that " <i>Roxistat Tablets were developed in 2021, however, the testing method created in HPLC software are saved in a default folder titled "Year 2017", created in year 2017 which is linked to the backup folder on server. Therefore, Year 2017 appears on Audit Trail Reports indicating project location</i> ". |
| xiii. | Please provide approval of API/DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. The enclosed copy of GMP Certificate is not from the concerned regulatory authority of country of origin and was valid till Aug 24, 2023. | Copy of GMP Certificate No. ZJ20190121 dated 10/28/2019 issued by CFDA has been submitted.  |
| xiv.  | Please provide GMP status of the FPP manufacturer (not older than 03 years).  | Copy of GMP Certificate Ref. No. 100/2022-DRAP(AD-51001963034) dated 20-06-2022 valid for two years from the date of inspection (13-06-2022) has been submitted.  |
| xv.   | Please provide Reference of previous approval of applications with stability study data of the firm (if any).   | Cinaxipid Tablet 1mg, Axistart-K Tablets, Trubax Tablets etc.   |

#### Decision 335<sup>th</sup> meeting of Registration Board:

##### Registration Board deferred the case for submission of:

- **Requisite fee for pre-registration correction / Typographical Mistake.**
- **Justification / clarification for points mentioned below;**
  - **2.3.P.5 USP recommends "Column: 4.6-mm × 5-cm; 5-µm packing L1" whereas the applicant has used "Column: 4.6mm × 250mm; 5-µm packing C18" for Dissolution Analysis.**
  - **2.3.P.5 USP recommends "Column: 3.2-mm × 25-cm; 5-µm packing L1" whereas the applicant has used "Column: 4.6mm × 250mm; 5-µm packing C18" for Assay / Content Uniformity.**
  - **2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets.**
  - **2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.**

The Firm have submitted as follows:

| Observation | Firm's Response |
|-------------|-----------------|
|-------------|-----------------|

|  |   |
|--|---|
| Requisite fee for pre-registration correction / Typographical Mistake.   | <b>Not Submitted</b>  |
| 2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Dissolution Analysis.                                     | Firm has submitted revised / updated Method wherein USP recommended “Column: 4.6-mm × 5-cm; 5-µm packing L1” has been mentioned. Furthermore, the firm have claimed that the same will be used for Commercial Batches.  |
| 2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity.                              | Firm has submitted revised / updated Method wherein USP recommended “Column: 3.2-mm × 25-cm; 5-µm packing L1” has been mentioned. Furthermore, the firm have claimed that the same will be used for Commercial Batches. |
| 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets.   | Firm has submitted revised / updated Method in accordance with USP Monograph.   |
| 2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard. | The firm have submitted that the working standard used in analytical testing was provided by the supplier along with raw material which is traceable to USP reference standard.   |

**Decision: Approved.**

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

**Registration Board further decided that the Registration Letter will be issued after submission of:**

- **Requisite fee for pre-registration revision / correction of data.**

**Remarks of Evaluator:**

The following deficiencies / shortcomings have been communicated to the firm:

| Deficiencies / Shortcomings   | Response of the firm   |
|---|--|
| i. Please confirm the name of Firm as it is mentioned as “M/s Axis Pharmaceuticals (Pvt.) Ltd.” on enclosed copy of DML and on Renewal of your DML whereas the same is mentioned as “M/s Axis Pharmaceuticals” throughout your application. Please provide supporting documents for the same. | The firm has submitted corrected copy of DML as “M/s Axis Pharmaceuticals”.              |
| ii. 2.3.P.3.2 The application has been claimed to be submitted for ‘film coated tablet’, whereas no ingredient for preparation of film coating has been mentioned in this section. Please clarify.  | The firm has submitted revised Section 2.3.P.3.2 mentioning information of film coating. |
| iii. 2.3.P.5 Please specify the USP Dissolution Test (1 or 2).  | The firm has specified USP Test – I for performing Dissolution Test.                     |
| iv. 2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Dissolution Analysis. Please justify.  | The firm has claimed that the analytical method was adjusted as per actual practice.     |
| v. 2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity. Please Justify   | The firm has claimed that the analytical method was adjusted as per actual practice.     |
| vi. 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets. Please justify.  | The firm has claimed that the analytical method was adjusted as per actual practice.     |
| vii. 2.2.P.6 It has been mentioned that Working Standard has been used for analytical   |  |

|       |  |   |
|-------|--|---|
|       | testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.  | The firm has committed that USP Reference Standard will be used for standardization upon commercialization of drug product.   |
| viii. | 3.2.S.7.1 The real time stability data of drug substance is conducted at 25°C± 2°C/60% RH ± 5% RH, however for locally manufactured products the stability studies of the Drug substance shall be submitted as per Zone-IV(a) conditions.  | The firm has submitted that the recommended storage conditions for Rosuvastatin Calcium is 2°C - 8°C as per Drug Substance Manufacturer, hence the real time stability data of drug substance is conducted at 25°C± 2°C/60% RH ± 5% RH. |
| ix.   | Furthermore, in case of use of ingredients whose stability testing has not been done as per Zone-IV(a), the manufacturer of finished pharmaceutical product, shall submit real term stability studies data of the product along with degradation studies in the finished pharmaceutical product. No such data on degradation studies has been submitted. Please clarify. | Same as above.  |
| x.    | 3.2.P.2.1.1 Pharmaceutical equivalence / CDP has been performed against 'ROSULIN 20mg Tablets' instead of the Reference / Innovator's Product. Please justify.   | The firm has stated that Comparator product was used as it was readily available.   |
| xi.   | Please provide Compliance Record of HPLC Software 21CFR.   | Certificate of 21CFR Compliance of HPLC Software has not been submitted.  |
| xii.  | Please provide approval of API/DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. The enclosed copy of GMP Certificate is not from the concerned regulatory authority of country of origin and was valid till Aug 24, 2023.  | Copy of GMP Certificate No. ZJ20190121 dated 10/28/2019 issued by CFDA has been submitted.  |
| xiii. | Please provide GMP status of the FPP manufacturer (not older than 03 years).   | Copy of GMP Certificate Ref. No. 100/2022-DRAP(AD-51001963034) dated 20-06-2022 valid for two years from the date of inspection (13-06-2022) has been submitted.  |
| xiv.  | Please provide Reference of previous approval of applications with stability study data of the firm (if any).  | Cinaxipid Tablet 1mg, Axistart-K Tablets, Trubax Tablets etc.   |

**Decision 335<sup>th</sup> meeting of Registration Board:**

**Registration Board deferred the case for submission of:**

- **Requisite fee for pre-registration correction / Typographical Mistake.**
- **Justification / clarification for points mentioned below;**
  - **2.3.P.5 USP recommends "Column: 4.6-mm × 5-cm; 5-µm packing L1" whereas the applicant has used "Column: 4.6mm × 250mm; 5-µm packing C18" for Dissolution Analysis.**
  - **2.3.P.5 USP recommends "Column: 3.2-mm × 25-cm; 5-µm packing L1" whereas the applicant**

| has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity.   |   |   |
|--|---|---|
| ○ 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets.   |   |   |
| ○ 2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.   |   |   |
| The Firm have submitted as follows:  |   |   |
| Observation  | Firm’s Response   |   |
| Requisite fee for pre-registration correction / Typographical Mistake.   | Not Submitted   |   |
| 2.3.P.5 USP recommends “Column: 4.6-mm × 5-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Dissolution Analysis.   | Firm has submitted revised / updated Method wherein USP recommended “Column: 4.6-mm × 5-cm; 5-µm packing L1” has been mentioned. Furthermore, the firm have claimed that the same will be used for Commercial Batches.  |   |
| 2.3.P.5 USP recommends “Column: 3.2-mm × 25-cm; 5-µm packing L1” whereas the applicant has used “Column: 4.6mm × 250mm; 5-µm packing C18” for Assay / Content Uniformity.  | Firm has submitted revised / updated Method wherein USP recommended “Column: 3.2-mm × 25-cm; 5-µm packing L1” has been mentioned. Furthermore, the firm have claimed that the same will be used for Commercial Batches. |   |
| 2.3.P.5 Moreover, the Flow Rate and Injection volume are also different from that recommended in USP Monograph for Rosuvastatin Tablets.   | Firm has submitted revised / updated Method in accordance with USP Monograph.   |   |
| 2.2.P.6 It has been mentioned that Working Standard has been used for analytical testing. Please provide evidence / traceability of the mentioned Working Standard against the USP Reference Standard.   | The firm have submitted that the working standard used in analytical testing was provided by the supplier along with raw material which is traceable to USP reference standard.   |   |
| Decision: Approved.  |   |   |
| <ul style="list-style-type: none"><li>• Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.</li><li>• Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.</li></ul> |   |   |
| Registration Board further decided that the Registration Letter will be issued after submission of:  |   |   |

**Remarks of Evaluator:**

The following deficiencies / shortcomings have been communicated to the firm:

| Deficiencies / Shortcomings   | Response of the firm  |
|---|---|
| i. Please confirm the name of Firm as it is mentioned as "M/s Axis Pharmaceuticals (Pvt.) Ltd." on enclosed copy of DML and on Renewal of your DML whereas the same is mentioned as "M/s Axis Pharmaceuticals" throughout your application. Please provide supporting documents for the same. | The firm has submitted corrected copy of DML as "M/s Axis Pharmaceuticals".                 |
| ii. Finished Product Specifications have been claimed as per 'Innovator's Specifications', whereas in submitted Summary of Product Characteristics (SmPC) & Patient Information Leaflet (PIL) it is mentioned that "the product complies Axis's Specifications". Please clarify.              | Typographic Mistake. Firm has submitted revised SmPC & PIL.                                 |
| iii. Please provide valid GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin. The enclosed copy of GMP Certificate was valid till 24/05/2023.  | Valid GMP of API Manufacturer has not been submitted.                                       |
| iv. 2.3.P.3.2 The application has been claimed to be submitted for 'film coated tablet', whereas no ingredient for preparation of   | Firm has submitted revised Section 2.3.P.3.2 mentioning information regarding film coating. |

|       |   |  |
|-------|---|--|
|       | film coating has been mentioned in this section. Please clarify.  |  |
| v.    | 2.3.P.3.2 Appearance of the Tablet has been mentioned as 'light green colored film coated tablet', whereas the same has been mentioned as 'yellowish green colored film coated tablet' in Pharmaceutical Equivalence and CDP Studies. Please justify. | Typographic Mistake. Firm has stated that the appearance of product is 'light green colored film coated tablet'.   |
| vi.   | Dissolution specifications have been mentioned as 'NLT Q+5% in 30 mins' as well as 'NLT 80%(Q)' on separate instances within the application dossier. Please justify.   | Firm has submitted that the Dissolution specifications is NLT 80% (Q) in 30 minutes.   |
| vii.  | Please provide 6 <sup>th</sup> Month Data of Stability Batches, supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.   | Copy of 6 <sup>th</sup> Month Data of Stability Batches has been submitted.  |
| viii. | Please provide Compliance Record of HPLC Software 21CFR.  | Certificate of 21CFR Compliance of HPLC Software has not been submitted.   |
| ix.   | Please provide GMP status of the FPP manufacturer (not older than 03 years).  | Copy of GMP Certificate Ref. No. 100/2022-DRAP(AD-51001963034) dated 20-06-2022 valid for two years from the date of inspection (13-06-2022) has been submitted. |
| x.    | Please provide Reference of previous approval of applications with stability study data of the firm (if any).   | Cinaxipid Tablet 1mg, Axistart-K Tablets, Trubax Tablets etc.  |

**Decision 335<sup>th</sup> meeting of Registration Board:**

**Registration Board deferred the case for submission of:**

- **Full fee for pre-registration correction / Typographical Mistakes.**
- **Justification / clarification for points mentioned below;**
- **2.3.P.3.2 The application has been claimed to be submitted for 'film coated tablet', whereas no ingredient for preparation of film coating has been mentioned in this section.**
- **2.3.P.3.2 Appearance of the Tablet has been mentioned as 'light green colored film coated tablet', whereas the same has been mentioned as 'yellowish green colored film coated tablet' in Pharmaceutical Equivalence and CDP Studies.**
- **Dissolution specifications have been mentioned as 'NLT Q+5% in 30 mins' as well as 'NLT 80%(Q)' on separate instances within the application dossier.**
- **Please provide 6th Month Data of Stability Batches, supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.**

The Firm have submitted as follows:

| Observation  | Firm's Response   |
|--|---|
| Full fee for pre-registration correction / Typographical Mistakes. | Fee Challan No. 47599550 dated 23/07/2024 of Rs. 7,500/- has been submitted.<br><b>However, case was deferred for submission of Full fee.</b> |

|   |   |
|---|---|
| 2.3.P.3.2 The application has been claimed to be submitted for ‘film coated tablet’, whereas no ingredient for preparation of film coating has been mentioned in this section.  | The firm have submitted that finished product is a film coated tablet, however, only core tablet composition was described in the section.<br>Revised respective section with complete composition with coating formulation has been submitted. |
| 2.3.P.3.2 Appearance of the Tablet has been mentioned as ‘light green colored film coated tablet’, whereas the same has been mentioned as ‘yellowish green colored film coated tablet’ in Pharmaceutical Equivalence and CDP Studies. | <b>Typographic Mistake.</b><br>The appearance of the Tablet is ‘light green colored film coated tablet’.  |
| Dissolution specifications have been mentioned as ‘NLT Q+5% in 30 mins’ as well as ‘NLT 80%(Q)’ on separate instances within the application dossier.   | The firm have submitted that the Finished Product Specification is NLT 80% (Q) in 30 minutes & all the stability study has been conducted & complies against this specification.  |
| Please provide 6 <sup>th</sup> Month Data of Stability Batches, supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc.   | Submitted.  |

**Decision: Approved.**

- **Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.**
- **Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.**

**Registration Board further decided that the Registration Letter will be issued after submission of:**

- **Full fee for pre-registration revision / correction of data.**

**Agenda of Ms. Maham Misbah**

**I. New cases of Form 5F (CTD) (Human)**

|----------------------------|----------------------------------|--|--|
| <b>Serial No.</b>          | <b>Module/ Section</b>           | <b>Shortcomings</b>  | <b>Reply of applicant</b>  |
| <b>1.</b>                  | 3.2.S.1.2                        | Applicant has stated that API manufacturer is manufacturing polymorphic Form II. As the drug substance exhibits polymorphism, justification for the use of polymorphic Form II shall be submitted along with credible evidence.  | Polymorphic Form II is patented for use in USA. Reference literature is submitted.   |
| <b>2.</b>                  | 3.2.S.4.2, 3.2.S.4.3 & 3.2.S.4.4 | Analytical procedure is not as per USP monograph. API conforms to USP as per CoA in 3.2.S.4.4. Clarify and submit analytical method and analytical method verification, accordingly  | Submitted.   |
| <b>3.</b>                  | 3.2.P.5.2 & 3.2.P.5.3            | In method of analysis of Linezolid tablets, the chromatographic conditions for dissolution and Assay testing are as follows:<br>Lambda 254nm<br>Flow rate: 1.5ml/min<br>Column: L1<br>Injection: 10micro L<br>However, the above conditions are not as per USP monograph. Justify.<br>Moreover, validation/verification studies have been submitted for the method given in 3.2.P.5.2 while the method is not as per USP. Justify. | After six month stability studies, the firm has revised its product testing method from in-house to USP and performed testing of stability samples of real time stability studies at 12 and 18 month time point as per USP method. |
| <b>4.</b>                  | 3.2.P.8                          | Tests results and associated testing record of stability batches shall be submitted for real time and accelerated stability studies <i>at the six-month time point.</i> (12-2022)  | Submitted.   |
| <b>5.</b>                  | 3.2.P.8                          | Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin shall be submitted.<br><br>Documents for the procurement of API with approval from DRAP shall be submitted as the already submitted invoice is not attested by ADC, DRAP.   | GMP certificate is submitted.<br>Drug Import License is submitted.<br><i>Clearance certificate shall also be submitted.</i>  |

| 2.  | Approval of API/ DML/GMP certificate of API manufacturer issued by concerned regulatory authority of country of origin.                         | Firm has submitted copy of GMP Certificate (No. DCD/SPL.CI-I/CR-1884/18-19 dated 16-02-2019 issued by Drugs Control Department, Government of Karnataka. The certificate specifies that the firm is operating at satisfactory level of GMP compliance. The certificate was valid for one year from the date of issue.   |             |             |
| 3.  | Documents for the procurement of API with approval from DRAP (in case of import).   | Not submitted.  |             |             |
| 4.  | Data of stability batches will be supported by attested respective documents like chromatograms, Raw data sheets, COA, summary data sheets etc. | Firm has submitted analytical record for product testing.   |             |             |

|    |   |   |
|----|---|---|
| 5. | Compliance Record of HPLC software 21CFR & audit trail reports on product testing                                       | Firm has not submitted certificate of 21 CFR compliance for the HPLC system and audit trail report for product testing.                   |
| 6. | Record of Digital data logger for temperature and humidity monitoring of stability chambers (real time and accelerated) | Firm has submitted record of digital data logger for temperature and humidity monitoring of real time and accelerated stability chambers. |

**Remarks of Evaluator<sup>xxiii</sup>:**

| Sr. No. | Sections       | Observations/Deficiencies/ Short-comings   |
|---------|----------------|--|
| 1.      | 1.3.4          | DML of M/s Winlet Pharmaceuticals (Pvt) Ltd is dated 21-02-2018. Copy of valid DML issued by Licensing Division of DRAP shall be submitted.  |
| 2.      | 1.3.5          | GMP inspection report/ GMP certificate of the manufacturing unit/ contract acceptor issued within the last three years shall be submitted.   |
| 3.      | 3.2.S.4        | Analytical method verification of drug substance conducted by drug product manufacturer shall be submitted.  |
| 4.      | 3.2.S.7        | Real time stability studies report is submitted for 36 months at 30C and 65% RH. The shelf life assigned to the commercial batches of Ondansetron hydrochloride is 5 years. Real time stability studies data shall be submitted for the complete shelf life of the drug substance.                 |
| 5.      | 3.2.P.1        | According to the submitted composition, the quantity of Ondansetron as HCl is 50mg/25ml whereas the label claim is 4mg/5ml. Clarify and submit requisite fee in case of any change in quantity of API.   |
| 6.      | 3.2.P.1        | Applicant shall submit adjustment of salt factor and water content.  |
| 7.      | 3.2.P.2.2.1    | Manufacturer's name and registration number of reference product (Onseron Syrup) shall be submitted.   |
| 8.      | 3.2.P.2.2.1    | Applicant shall submit and discuss results of Identification test, microbial enumeration tests and tests for specified microorganisms for applied and reference/comparator product.  |
| 9.      | 3.2.P.2        | Provide details of formulation of reference/innovator product approved in RRA against which applicant has conducted formulation development. If excipients of applied formulation are different from reference product, provide drug-excipient compatibility studies.                              |
| 10.     | 3.2.P.4        | The drug product composition includes glycerine. Applicant shall submit analysis report/CoA of glycerine which includes the results of impurity testing related to the presence of ethylene glycol and diethylene glycol in compliance to DRAP's notification No. F.6-30/2022-QA dated 21-10-2022. |
| 11.     | 3.2.P.5.1      | Specifications of drug product shall include test for absence of E.coli and test for Enterobacteriaceae as given in USP monograph.   |
| 12.     | 1.6.5, 3.2.P.8 | Approval of API/ <i>valid DML/ valid GMP certificate</i> of API manufacturer issued by concerned regulatory authority of country of origin shall be submitted.   |
| 13.     | 3.2.P.8        | Documents for the procurement of API with approval from DRAP along with CoA(s) of relevant batches shall be submitted.   |
| 14.     | 3.2.P.8        | Applicant shall submit results and supporting documents of Identification test, microbial enumeration tests and tests for specified microorganisms conducted during stability studies of drug product.   |
| 15.     | 3.2.P.8        | Applicant shall submit certificate of 21 CFR compliance for the HPLC system and audit trail report for product testing.  |

**Decision of 331<sup>st</sup> meeting of RB: Registration Board deferred the case for submission of reply to the above cited shortcomings.**

**Response of applicant:**

| Sr. No. | Sections    | Observations/Deficiencies/ Short-comings   | Reply of applicant  |
|---------|-------------|--|---|
| 1.      | 1.3.4       | DML of M/s Winlet Pharmaceuticals (Pvt) Ltd is dated 21-02-2018. Copy of valid DML issued by Licensing Division of DRAP shall be submitted.  | Receiving of DML renewal application submitted in Licensing Division of DRAP dated 06-02-2023 is submitted.   |
| 2.      | 1.3.5       | GMP inspection report/ GMP certificate of the manufacturing unit/ contract acceptor issued within the last three years shall be submitted.   | GMP certificate No. 248/2022-DRAP (AD-0835218-1099) issued on the basis of evaluation conducted on 25-11-2022 is submitted.   |
| 3.      | 3.2.S.4     | Analytical method verification of drug substance conducted by drug product manufacturer shall be submitted.  | Submitted   |
| 4.      | 3.2.S.7     | Real time stability studies report is submitted for 36 months at 30C and 65% RH. The shelf life assigned to the commercial batches of Ondansetron hydrochloride is 5 years. Real time stability studies data shall be submitted for the complete shelf life of the drug substance.                 | Submitted   |
| 5.      | 3.2.P.1     | According to the submitted composition, the quantity of Ondansetron as HCl is 50mg/25ml whereas the label claim is 4mg/5ml. Clarify and submit requisite fee in case of any change in quantity of API.   | Applicant has submitted complete calculations including adjustment of salt factor. Applicant has also clarified that the fill weight is 50mL in 60mL bottle. API quantity is not changed. The applied label claim is correct. |
| 6.      | 3.2.P.1     | Applicant shall submit adjustment of salt factor and water content.  | Submitted   |
| 7.      | 3.2.P.2.2.1 | Manufacturer's name and registration number of reference product (Onseron Syrup) shall be submitted.   | M/s Indus Pharma Pvt Ltd, Karachi. Reg. No. 058677  |

**Case no. 02 Registration applications for local manufacturing of (veterinary) drugs (Priority Registration applications of Export Facilitation)**

**a. New cases**

Deputy Director PR-II/EFD vide letter NO.1-6/2019-PR-II (EFD) dated 29-05-2024 has informed that DRAP Authority in its 133<sup>rd</sup> meeting held on 13<sup>th</sup> April 2022, decided to grant registration on priority basis to the pharmaceutical i.e one molecule for each 100,000 USD worth of export of medicines (to a maximum of 15 such molecules) during a fiscal year.

In compliance to the aforementioned decision, **M/s Selmore Pharmaceuticals Pvt Ltd., 36-Km, Multan Road Lahore** has achieved the benchmark of more than 100,000 USD during the fiscal Year **2022-2023**. Following applications submitted by the firm for priority consideration/ evaluation in lieu of export facilitation are submitted before the Board for its consideration please:

|   | <b>Proposed Pack size</b>  | 10s,20s,2x7s, 4x7s,30s.   |
|   | <b>Proposed unit price</b>   | As per SRO  |
| <b>Evaluation by DD-PE&amp;R:</b><br>The applicant has applied formulation of Paracetamol with reference to innovator product <b>Panadol Advance</b> . Panadol Advance 500 mg Tablets contain a disintegrant system which accelerates tablet dissolution compared to standard paracetamol tablets. Panadol Advance 500 mg Tablets generally start to disintegrate by 5 minutes' post dose in the stomach. (15 minutes' relief from pain by Panadol Advance by Optizorb formulation)<br>The applicant has performed Pharmaceutical equivalence of their drug product with <b>Panadol Optizorb (Haleon Italy)</b> . Optizorb technology contains three main ingredients which are: alginic acid that draws fluid from the stomach into the tablet causing it to swell and break apart; calcium carbonate that works together with alginic acid to boost the disintegration of the tablet and, crospovidone which acts as a super-disintegrant due to its ability to dissolve well in water. The absorption of paracetamol occurs in the small intestine and as such is dependent on the |  |   |

rate of emptying of stomach contents into the small intestine. Optizorb technology increases the gastric emptying time of the drug. The comparative dissolution profile shows more than 90% dissolution in at pH 1.2 at time interval 15 minutes for both innovator and applicant's product. As per the nature of formulation, some information / documents was requested from firm as under: -

| Section   | Observations  | Reply of the firm  |
|-----------|---|--|
| 3.2.P.1   | <ul style="list-style-type: none"> <li>Clarify that why preservatives (Methyl &amp; Propyl Paraben) has been part of your formulation while it is not present in the innovator brand as well as your reference product (Panadol Optizorb 500 mg)</li> </ul>   | <p>These preservatives are part of innovator formulation with the synonyms of hydroxybenzoates.</p> <p><a href="http://www.panadol.com/en-au-adult-products/panadol-optizorb-tablets/">http://www.panadol.com/en-au-adult-products/panadol-optizorb-tablets/</a></p>   |
| 3.2.P.5.1 | <ul style="list-style-type: none"> <li>In the specification, clarify along with reference that that why disintegration time limits have been set to NMT 30 minutes while innovator product claim for rapid disintegration is by 5 minutes?</li> <li>As per optizorb technology used by the innovator brand for the purpose of rapid disintegration to enhance dissolution profile so that the absorption of paracetamol occurs in the small intestine and as such is dependent on the rate of emptying of stomach contents into the small intestine, clarify along with reference that why specification defines limits of 30 minutes dissolution of NLT 80% while purpose of tablet is to absorb within 15 minutes of administration of tablet?</li> </ul> | <p>Our product formulation is in accordance with the innovator's formulation. The results of disintegration test submitted in the dossier and in stability studies are less than 5 minutes. The 30 minutes disintegration time was a typographical error.</p> <p>A concern to the dissolution, in the USP general chapter "<i>The Dissolution procedure: Development &amp; Validation &lt;1092&gt;</i>" wherein (6.1 immediate release dosage form) it is mentioned that the dissolution profile data Q value of 80% should be set at the first time point where the average dissolution is at least 85%. However, this time point should not be less than 15 minutes (copy attached). This is why we have selected the Q value of 80% in less than 30 minutes. It is evident from the dissolution test and CDP results in phosphate buffer that the results are more than 85% in 15 &amp; 30 minutes. However we are submitting the revised method of testing and specifications.</p> |

**Decision: Approved.**

- Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
- Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

|      | <b>Proposed Pack size</b>  | As per SRO (LDPE Plastic bottle)  |
|      | <b>Proposed unit price</b>   | As per SRO  |

**Evaluation by DD-PE&R:**

| <b>Section</b> | <b>Observations</b>   |
|----------------|---|
| 3.2.S.4.4      | As per Certificates of analysis of API (timolol & dorzolamide HCl) performed by Ophth Pharma, submit chromatograms and relevant data along with calculation sheets for determination of impurities.   |
| 3.2.P.1        | Submit in tabulated form the comparison of your drug product formulation against innovator brand and clarify if any difference in excipients of formulation.  |
| 3.2.P.8        | <ul style="list-style-type: none"> <li>• Explain that why chromatogram table in the prints submitted doesn't contain area for the retention time near about 7 and also submit names, qualification and experience of QC manager and QA Manager who counterchecked this data before submission of dossier.</li> <li>• Submit water loss study data along with calculation sheets, print of weights etc.</li> </ul> |

**Proceedings of the case:**

The Board was apprised that the applicant has submitted application without following the DRAP's guidance document for submission of CTD application. After evaluating the stability data submitted by firm, it seems that the analyst doesn't possess basic knowledge of reading chromatograms / data presentation and there is no

counterchecking of chromatograms, calculation sheets by the QC manager. The reading of areas of peak at the specific retention time in the chromatograms considered for calculation, doesn't belong to the retention time of the peak of interest in the chromatograms. The formulation of drug product for inactive ingredients of applicant is totally different from the reference product they have mentioned in the dossier.

**Decision: The Registration Board while considering the disparities in the application and submitted data, decided to reject the instant registration application.**

**Evaluation by DD-PE&R:**

**Decision: Approved.**

- Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
- Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

|----------------|---|---|
| <b>3.2.S.4</b> | Please submit documented evidence that drug substance manufacturer has established method and facility to determine enantiomeric purity.  | For the testing of Enantiomeric purity, Drug substance manufacturer has established a HPLC based method adopted from British Pharmacopoeia.<br>Drug substance manufacturer had provided the list of instruments and Certificate of analysis confirming the performance of enantiomer purity.  |
| <b>3.2.P.1</b> | <ul style="list-style-type: none"> <li>Please submit the details of excipients used in coating of the drug product ? also clarify why excipients used in reference product are not fully followed in your formulation ?</li> </ul>  | A detail of coating formulation is submitted<br>Most of the excipient used in the formulation is as per reference product, only colloidal silicon dioxide is different from RLD product. The said ingredient is not novel and routinely used in development of tablet dosage form. Excipient compatibility study has been performed and already submitted. Copy of excipient compatibility study is submitted herewith. Annex-4 |
| <b>3.2.P.8</b> | <ul style="list-style-type: none"> <li>Please submit stability summary sheets for the comparison of results between 0,3&amp;6 months' stability studies as per format available on Page # 37-38 of <b>Guidance Document for Submission of Application On FORM 5-F (CTD) For Registration of Pharmaceutical Drug Products for Human Use available on official website of DRAP.</b><br/><a href="https://www.dra.gov.pk/wp-content/uploads/2022/01/Guidance-Documents-on-CTD-Doc-No.-PER-GL-AF-004.pdf">https://www.dra.gov.pk/wp-content/uploads/2022/01/Guidance-Documents-on-CTD-Doc-No.-PER-GL-AF-004.pdf</a>.</li> </ul> | Stability summary is provided as per approved format. Copy of stability data up to 6 months is submitted herewith. Annex-5  |

**Decision: Approved.**

- Manufacturer will place first three production batches on long term stability studies throughout proposed shelf life and on accelerated studies for six months as per the commitment submitted in the registration application.
- Manufacturer will perform process validation of first three batches as per the commitment submitted in the registration application.

**Item No. 03: New Licenses / Section**

|             |   |   |
|-------------|---|---|
| <b>725.</b> | <b><u>New Section</u></b><br>Central Licensing Board in its 278 <sup>th</sup> meeting held on 10 <sup>th</sup> & 11 <sup>th</sup> December 2020 approved the grant of additional sections including Ointment / Cream / Gel (General). |   |

|  |   |
|--|---|
| <b>The proposed proprietary name / brand name</b>  | <b>REFMO 0.3% Cream</b>                                       |
| <b>Strength / concentration of drug of Active Pharmaceutical ingredient (API) per unit</b> | Each gram of cream contains:<br>Roflumilast ..... 3 mg (0.3%) |
| <b>Pharmacotherapeutic Group of (API)</b>  | Phosphodiesterase 4 Inhibitor (treatment of plaque)           |
| <b>Reference to Finished product specifications</b>  | Innovator Specification                                       |
| <b>The status in reference regulatory authorities</b>                                      | ZORYVE ® USFDA approved formulation                           |
| <b>For generic drugs (me-too status)</b>   | N/A   |
| <b>Proposed Pack size</b>  | 60 grams' tube further packed in unit carton.                 |
| <b>Proposed unit price</b>   | As per SRO  |

**Evaluation by DD-PE&R:**

Source of API: **Glenmark Pharmaceutical, Plot # A-80, MIDC Area Kurkumbh, Taluk Daund, Dist. Pune, Maharashtra India.**

| <b>Section</b> | <b>Observation</b>  |
|----------------|---|
| <b>3.2.S.4</b> | In the COA submitted by Drug Substance manufacturer, why laser diffraction methodology to determine the PSD and its limits not mentioned?   |
| <b>3.2.S.7</b> | In the material safety data sheet for powder of drug substance Roflumilast, the storage condition mentioned are <-15°C while the stability data submitted is at Zone IV , please justify? |
| <b>3.2.P.1</b> | Roflumilast is light sensitive API, submit the precautionary measures taken for manufacturing facility.   |
| <b>3.2.P.2</b> | Submit details of the manufacturer name & address of reference product along with document of procurement.  |
| <b>3.2.P.3</b> | Submit the process validation conducted for cooling of manufacturing tank and temperature condition for maintaining viscosity of cream.   |
| <b>3.2.P.8</b> | Please justify that why test of viscosity & microbial test has not been made part of your stability studies while it is major test for determination of factors impacting CQAs.           |

**Decision: Registration Board deferred the case for submission of reply to the above cited shortcomings within six months.**

**Agenda pattern for applications submitted on Form 5F for local manufacturing (self & contract)**

**Evaluation by PEC (No IX):**

| <b>S. No.</b> | <b>Observation</b>  |
|---------------|---|
| 1             | Copy of latest GMP certificate or inspection report is required.  |
| 2             | Evidence of approval of Ceph Dry powder injection section is required.  |
| 3             | Copy of DML/GMP certificate of drug substance manufacturer is required.   |
| 4             | Copy of AD attested invoice or clearance certificate of drug substance is required.   |
| 5             | 3.2.P.5: Why test of Particulate matter in injections is not made part of product specifications?   |
| 6             | 3.2.P.5.3: It is mentioned that system suitability will be verified by repeatability of retention time and peak area value of Ceftriaxone. USP monograph states that it should be such that The relative retention times for ceftriaxone and ceftriaxone E-isomer are 1.0 and 1.4, respectively. Why USP monograph is not followed in performing assay of the drug product? |

**Decision: Registration Board was apprised that the letter of shortcoming has been issued to the firm and reply of applicant is awaited, hence Board deferred the case for submission of reply to the above cited shortcomings.**

| 1                                | 3.2.P.8   | The batch size mentioned in stability data sheets is 1L. As per bill of material in BMR, volume per bottle is 100ml,   | The firm vide letter No. RA/DRAP/708/2024 dated 24.05.2024 has  |

|  |  |   |   |  |
|--|--|---|---|--|
|  |  | It makes total batch size of 10 units each. Justify how this small batch can be used in stability studies over whole proposed shelf life. | stated that stability batch size is 10 units, One bottle was consumed in initial testing. 6 were placed on real time stability. 2 were placed on accelerated stability study. |  |
|--|--|---|---|--|

**Decision of 336<sup>th</sup> Meeting of RB:** The board deferred the case for clarification of the firm that how batch of 1 litre was manufactured and in which facility. Further the firm should justify how stability of such a small batch will represent the stability of commercial scale batches.

**Evaluation by PEC-IX:**

The firm vide letter No. RA/DRAP/708/2024 dated 30.07.2024 has submitted their response.

The firm has stated that they had already recognized the issue of small batch size and they had manufactured 2 batches of 5 liter each again in April, 2024. (TF-04 & TF-05)

The size of new stability batches is 50 units each.

The firm has submitted stability testing data of initial testing and 3<sup>rd</sup> month time point.

**Decision: Approved, Letter shall be issued on submission of 6<sup>th</sup> month time point stability data.**

| S. No. | Section | Observation  | Reply  |
|--------|---------|--|--|
| 1      | 3.2.P.5 | Under the heading of system suitability tests, its mentioned that its done by calculating symmetry factor and RSD for 5 replicate injections of standard | The firm has submitted their response vide letter No. nil dated nil. |

|   |   |  |   |
|---|---|--|---|
|   |   | preparations. As per USP monograph it is required to be assessed by using Citalopram Related Compound C.<br>Please justify this deviation from USP monograph and clarify whether USP allow such deviations from pharmacopoeial methods or otherwise. | The firm has stated that they have revised the method of analysis to comply with the USP monograph. But even in revised method there is no mentioning of Compound C for assessing system suitability. |
| 2 | - | Cop of clearance certificate or AD attested invoice of drug substance is required.   | Firm has submitted clearance certificate of batch No. AE-084/22 cleared in 2023.<br>Trial batches were manufactured by batch No. EO-108/20 in 2021 & 2022   |

**Decision of 336<sup>th</sup> RB: The board deferred the case for submission of;**

- i. Clarification of why clearance of different batch of drug substance is submitted.**
- ii. Justification of deviating from official monograph of drug product.**

**Evaluation by PEC-IX:**

The firm vide letter No nil dated 30.07.2024 has submitted their response.

- Regarding submission of different AD attested invoice, the firm has stated that they already have registration of product Escadep 10mg tablet (Reg. No. 042329) and they import API for it on regular basis. The raw material for trial batches was used from it. By mistake clearance of different batch was attached in reply. Now the firm has submitted clearance certificate of the API batch No. EO-108/20 that was used in manufacturing of trial batches.
- Regarding Deviation from USP monograph, the firm has submitted revised testing method which is in accordance with USP monograph of the applied product.

**Decision: Approved.**

#### **Evaluation by PEC (IX):**

1. Dossier is submitted for both strengths 100ml and 250ml. The firm has stated that their 250ml strength may be considered and fee should also be considered for it.
2. Application is submitted from DML No. 000281 account. Fee is submitted from same DML no. 000281, whereas applied product is imported. Firm has attached copy of DSL also.
3. Copy of DSL uploaded is not readable.
4. Container closure system is different than the innovator product.
5. Copy of executed BMR of trial batches are not attached.
6. Why stability of drug product is not done as per conditions of Zone IVa?
7. Supporting data like chromatograms are not provided in 3.2.P.5 Validation of analytical procedures neither in stability studies data 3.2.P.8
8. COPP and letter of authorization uploaded are not legalized.

**Decision of 337<sup>th</sup> meeting of RB: The board was informed that deficiencies have been communicated to the firm. The board deferred the case for submission of reply to communicated deficiencies.**

#### **Evaluation by PEC (IX):**

| S. No. | Observations  | Reply   |
|--------|---|---|
| 1      | Dossier is submitted for both strengths 100ml and 250ml. The firm has stated that their 250ml strength may be considered and fee should also be considered for it.        | The Firm has requested to consider the application of 250ml fill volume for this application.   |
| 2      | Application is submitted from DML No. 000281 account. Fee is submitted from same DML no. 000281, whereas applied product is imported. Firm has attached copy of DSL also. | Firm has not submitted any response against this observation.   |
| 3      | Copy of DSL uploaded is not readable.   | Readable copy is submitted.   |
| 4      | Container closure system is different than the innovator product.   | The firm has submitted that same product in same packaging is being exported to countries like Indonesia, Thailand etc.<br>Similar products in similar packing are available in European market also.<br>The firm has stated that M/s Otsuka Japan is using similar packing for other products being marketed in Japan. |

|   |  |   |
|---|--|---|
| 5 | Copy of executed BMR of trial batches are not attached.  | Copy is submitted   |
| 6 | Why stability of drug product is not done as per conditions of Zone IVa?   | The firm has stated that when product was placed on stability on 30°C±2°C/ 35% RH±5% RH, test results of glycerol were out of specification. The stability was then conducted at 25°C±2°C/ 40% RH±5% RH, and product was stable at these conditions. Further the firm has stated that storage conditions for innovator products are to store at not more than 25°C and do not freeze. Their product has same storage conditions, and such products only remain stable below 25°C. |
| 7 | Supporting data like chromatograms are not provided in 3.2.P.5 Validation of analytical procedures neither in stability studies data 3.2.P.8 | Data is submitted.  |
| 8 | COPP and letter of authorization uploaded are not legalized.   | Legalized documents are submitted.  |

**Decision: Approved as per policy for inspection abroad.**

**The firm shall submit full fee for registration from its DSL whose address is mentioned on the attested Letter of Authorization, submit attested Letter of authorization, legalized COPP, legalized GMP certificate before issuance of letter.**

**Further the firm shall write the required storage conditions (store below 25°C and do not freeze) in both Urdu and English languages in conspicuous way on label of the product.**

#### **Deferred Cases of Form-5**

| <b>Scope of inspection</b>  | Product specific inspection referred vide DRAP letter No. F.15-1/2022-PEC dated 28.12.2023 for confirmation of manufacturing & quality control testing facility for clopidol tablets (Clopidogrel 75mg + Aspirin 75mg) as per decision of Registration Board in its 241 <sup>st</sup> meeting. |
| <p><b>General information about the Innovator formulation:</b><br/>In year 2009, the European Medicine Agency (EMA) approved the market authorization of DuoCover Tablets in name of Bristol-Myers Squibb Pharma EEIG through centralised procedure. The formulation is a fixed-dose combination of clopidogrel (75 mg) and Acetylsalicylic acid (ASA) (75 mg or 100mg) as film-coated bilayer immediate release tablet formulations. Each tablet of the first strength contains 97.875 mg of clopidogrel hydrogen sulphate (equivalent to 75 mg clopidogrel) and 75 mg of acetylsalicylic acid. Each tablet of the second strength contains 97.875 mg of clopidogrel hydrogen sulphate (equivalent to 75 mg clopidogrel) and 100 mg of acetylsalicylic acid. DuoCover is indicated for the prevention of atherothrombotic events in adult patients.</p> <p><b>General introduction of manufacturing facility:</b><br/>M/s Caraway Pharmaceuticals situated at Plot No. 12, Street No. S-4, National Industrial Zone, Rawat holds drug manufacturing license (DML) by way of formulation vide No. 000629. The firm is involved in the manufacturing of several dosage forms including oral, topical and parenteral formulations. GMP certificate was awarded to the manufacture on 13<sup>th</sup> April 2022 based on an inspection conducted on 22.02.2022. The aforesaid certificate was valid till 21.02.2024.</p> <p><b>Brief of inspection:</b><br/>Mr. Umar Farooq (Managing Director), Dr. Syed Tauqeer Ali (Director Operations/ Production Incharge) and Mr. Mohammad Arif (Plant Manager) assisted the panel during the course of inspection. As the scope of inspection was limited only for confirmation of manufacturing &amp; quality control testing facility for clopidol tablets (Clopidogrel 75mg + Aspirin 75mg) as per decision of Registration Board in its 241<sup>st</sup> meeting, hence the panel inspected only the required areas. Details are as under:</p> <p><b>a. Tablet Section (General):</b></p> |  |

The following equipment was installed in the tablet section at the time of inspection:

- i. Ribbon Mixer.
- ii. Granulator,
- iii. Fluidized bed drier,
- iv. Compression Machine ZP17
- v. **Rotatory tablet Press/Compression Machine ZP 31**
- vi. Coating Pan
- vii. Blister machine
- viii. blister machine

Temperature & humidity monitoring devices and monometers were available. HVAC system was operational in the tablet section area at the time of inspection. The firm informed that they had imported Rotatory Tablet Press/Compression Machine ZP 31 from china in September 2022. The aforesaid machine shall be used for the manufacturing of Clopidol Tablets (Clopidogrel 75mg + Aspirin 75mg) bilayer tablets. The machine was operational at the time of inspection. Placebo bilayer tablets manufactured by aforesaid machine were also presented to the panel. The import documents (commercial invoice, bill of lading) and IQ/OQ/PQ documents of the machine provided by the firm are attached.

**b. Quality Control:**

Quality Control was situated at first floor. The lab was equipped to carryout different categories of quality tests including wet chemistry and instrumental testing. Major quality control equipments include UV Visible Spectrophotometer, HPLC, Dissolution testing apparatus, pH meter. The list is of QC equipment is attached. The FTIR was not available at the time of inspection and the firm informed that they will purchase the one in near future, however till then they will contract the identification tests by FTIR with Max Pharmaceutical Rawat. The firm also presented a contract testing agreement b/w M/s Caraway Pharmaceuticals and Max Pharmaceutical Rawat and SOP's for the contract analysis. Log books for analysis of API, excipients and finished products were maintained.

Reference standard including primary and working standards were available. Retain sample room is available in the QC Lab. The firm had installed Stability chambers for accelerated long term studies.

**c. Material management:**

The raw material store was located at first floor. The store has sufficient capacity for storage of raw materials used for manufacturing activities. Receiving, Quarantine, Sampling, Release and Dispensing areas were seen. Temperature and humidity was appropriate. Sampling and dispensing booths were provided. Finished Goods store was available with appropriate storage area.

**Conclusion:**

Based on inspection of the above mentioned manufacturing, testing and storage facility, discussion with the technical staff and review of documents provided, the panel has reached to the conclusion that M/s Caraway Pharmaceuticals situated at Plot No. 12, Street No. S-4, National Industrial Zone, Rawat has requisite manufacturing and testing facilities for Clopidol Tablets (Clopidogrel 75mg + Aspirin 75mg) bilayer tablets. **Hence the panel recommends the grant of registration of Clopidol Tablets (Clopidogrel 75mg + Aspirin 75mg) bilayer tablets in name of M/s Caraway Pharmaceuticals situated at Plot No. 12, Street No. S-4, National Industrial Zone, Rawat.**

|-------|---------|---|--|
| 1.    | 092905  | <p>Zinkrol Syrup</p> <p>Each 5ml contains:</p> <p>Zinc Sulphate Monohydrate eq. to Elemental Zinc .....20mg</p> <p>(USP Specifications)</p> | No.F.3-8/2018-Reg-II (M-285) dated 08-02-2019  |
| 2.    | 086949  | <p>Zinkrol Syrup</p> <p>Each 5ml contains:</p> <p>Zinc Sulphate Monohydrate eq. to Elemental Zinc .....20mg</p> <p>(IP Specifications)</p>  | No.F.3-13/2017-Reg-II (M-276) dated 15-03-2018 |

Show cause notice to be issued to M/s Lisko Pakistan Ltd for submitting two different applications of same formulation (same strength and same dosage form) i.e Zinkrol syrup 20mg/5ml (zinc sulphate monohydrate).

**Decision 336<sup>th</sup> meeting:** Registration Board deliberated the case and decided to issue show cause notice to the firm under Section 7 (11)(a) of the Drug Act, 1976 that why the registration of their product “Zinkrol Syrup (Reg. No. 092905)” may not be cancelled.

Accordingly show cause notice was issued to firm dated 09.07.2024 and firm had submitted reply dated 19.07.2024 as follows:

*We submitted first dossier of Zinc sulphate syrup 20mg/5ml on 31-12-2013 via Dy. No 623 with all relevant documents and challan regarding registration of product with the brand name "ZINKROL" . Later on, we came to know that our dossier file has been missed by the clerical staff of registration department of DRAP. We gave numerous reminders to registration board as well in this regard but we got no response. After waiting for around 2 years, we submitted new dossier for Zinc sulphate syrup and we applied same product second time on 31-12-2015 via Dy. No 1226 with same brand name "ZINKROL" considering the situation that first dossier file has been missed place. After couple of years, we got registration against both submitted dossiers of Zinc sulphate syrup i.e first on 15-3-2018 and second on 8-2-2019.*

*We willingly submitted an application for de-registration of product "ZINKROL SYRUP with IP Specs REG NO# 086949" on 14-7-2022 but we got no reply from registration board. Our intentions were clear to keep single registration of Zinc sulphate syrup 20mg/5ml at a time with brand name "ZINKROL". We are continuously supplying product "ZINKROL having registration no# 092905 (USP specs)" in market and also in government institutions whereas we have stopped production of "ZINKROL having registration no# 086949 (IP specs)"*

*We request you to kindly do not cancel registration letter of ZINKROL syrup (USP specs) having registration no# 092905 rather we are willing to get de-registration of our product ZINKROL syrup (IP specs) having registration no# 086949.*

Keeping in view the response submitted by the firm and in line with section 42 of the Drugs Act, 1976, firm has been called for personal hearing before the Registration Board on 08<sup>th</sup> August, 2024 at 11:00 AM.

**Proceeding 339<sup>th</sup> meeting:**

*Manager operation/Regulatory Affairs appeared before Registration Board. He again elaborated firm's stance and requested the Board to not cancel registration letter of ZINKROL syrup (USP specs) having registration no# 092905 rather they are willing to de-register their product ZINKROL syrup (IP specs) having registration no# 086949.*

The Registration Board considered the firm's request and decided to cancel registration of product ZINKROL syrup (IP specs) having registration no# 086949.

**Decision: Registration Board has decided to cancel the registration of ZINKROL syrup (IP specs) having registration no. 086949 by M/s Lisko Pakistan Pvt. Ltd. L- 10-D, Block no. 21, Shaheed Rashid Minhas Rd. F.B industrial area, Karachi 346 and decided to issue warning to firm for holding two registrations since long (dated 08.02.2019).**

**Case No. 02: Cancellation of registration of S-Rone tablet (Reg No 008379) by M/s Medicon Pharmaceutical industry, Peshawar**

Registration Board in 316<sup>th</sup> meeting (held on 15<sup>th</sup>, 16<sup>th</sup>, 17<sup>th</sup> & 18<sup>th</sup> March ,2022) deliberated on the matter regarding manufacturing facility/section approval by Licensing division for manufacturing of Dydrogesterone Tablet. As concluded after discussion with Licensing Division, DRAP, M/s Medicon, Peshawar (previously M/s S.D.H. Laboratories (Pak) Ltd) does not hold any approval of Tablet (Hormone) Section issued by Licensing Division, under Clause 5.2 of Schedule B under the Drug (L, R&A) Rules, 1976 under Drug Act, 1976.

Furthermore, firm was directed to comply official monograph i.e USP by DRAP, Peshawar (vide letter dated 02.05.2019) in compliance with the decision of 152<sup>nd</sup> meeting of Appellate Board (held on 24<sup>th</sup> and 25<sup>th</sup> April, 2019).

Proceeding regarding cancellation of product under discussion under section 7 (11) and Section 42 of the Drugs Act, 1976 could not be initiated as status quo was granted by Honorable, Civil Judge, Peshawar. Later on the court in its order dated 11.03.2024 has dismissed the suit.

Accordingly show cause was issued dated 04.07.2024 and directed to reply in writing within seven working days. However, firm has not submitted any reply against said show cause notice till date. In line with Section 42 of the Drugs Act, 1976, firm has been called for personal hearing before the Registration Board on 08<sup>th</sup> August, 2024 at 11:00 A.M.

#### **Proceeding 339<sup>th</sup> meeting:**

*Production Incharge “Rasul Muhammad” appeared before Registration Board. He apprised Board about Lay out Plan applied to Licensing division for establishing manufacturing facility of Tablet (Hormone) section. He further stated that manufacturing of said drug has been stopped, once the said facility got approved by CLB firm will start manufacturing of Dydrogesterone tablet in line with USP as directed by Registration Board. elaborated firm’s stance and requested the Board to not cancel registration letter of ZINKROL syrup*

Registration Board deliberated the matter and decided as under:

**Decision: Keeping in view the unavailability of manufacturing facility i.e Tablet (Hormone) section, Registration Board decided to cancel the registration of S-Rone tablet (Reg No 008379) by M/s Medicon Pharmaceutical industry, Peshawar.**

**Case No.03. Cancellation/ Revocation of Approval Granted to M/s Genix Pharma Pvt Ltd.**

**44,45B, Korangi Creek Road, Karachi, 75190, Pakistan for Registration of Ondonix 8mg Tablet**

Registration Board in its 336<sup>th</sup> meeting, held on 04<sup>th</sup>-06<sup>th</sup> June, 2024, approved following product in favor of M/s Genix Pharma Pvt Ltd. 44,45B, Korangi Creek Road, Karachi, 75190, Pakistan

| Table-I |  |                                 |                   |
|---------|--|---------------------------------|-------------------|
| S. No.  | Product Name & Composition   | Diary No. & Date                | Decision of M-336 |
| 1.      | <b>Ondonix 8mg Tablet</b><br><b>Each Film Coated Tablet Contains:</b><br><b>Ondansetron HCl Dihydrate Eq. to Ondansetron...8mg</b><br><b>(USP specification)</b> | Dy.No 30592<br>dated 30-10-2022 | Approved.         |

While processing for issuance of registration letter, it was identified that the firm has already been issued registration of same formulation in same strength and dosage form. Detail is as under:

| Table-II |          |   | Letter No and date   |
|----------|----------|---|--|
| S. No    | Reg. No. | Name of Drug(s) & Composition   | <b>F.3-5/2016-Reg-II(M-258)</b><br><br><b>Dated 03.08.2016</b> |

Accordingly, the case has been placed before the Board for declaring the approval of 336<sup>th</sup> meeting as mentioned in Table-I above as redundant/ disposed of.

**Decision: Registration Board considered the case and declared approvals of Ondonix 8mg tablet (336<sup>th</sup> meeting) as redundant/ disposed of.**

**Case No.04. Request for Change in Registration Status of Orlirise 120mg Capsule from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi (DML No. 000012) to M/s Aspin Pharma Pvt Ltd., Korangi Industrial Area Karachi (DML No. 000045).**

The instant case was presented before the 307<sup>th</sup> meeting of the Registration Board, the Board deferred the case with the following decision:

***“Deferred for submission of degradation studies (quantification of degradation products) at next time point till the remaining shelf life of the product.”***

However, instead of providing degradation quantification studies in the same product formulation for the time intervals in the remaining shelf life stability studies, the firm opted to change the source of drug substance (pellets) for the applied product (from M/s Surge Laboratories (Pvt) Ltd, 10th Km Faisalabad Road, Bikhi, District Sheikhpura (DML 000649) to M/s Murli Karishna Pharma Private Limited D-98,ranjangaon Taluka Shirur, Pune Maharashtra State, India) and provided the revised modules 2 and 3 of the application dossier with a pre-variation fee.

**Evaluator's Remarks:**

Forced Degradation study was performed during Analytical Method Validation as under:

- Acidic degradation
- Alkaline degradation
- Oxidative degradation
- Thermal degradation

No major degradation observed after applying oxidative and thermal stress while major degradation occurred after applying acidic and alkaline stress to the solution of orlistat pellets in initial stage and 48hr respectively.

However, quantification of degradation product was not done during stability study up to the shelf life (so far 18 months).

**Decision:** Registration Board acceded to the request of firm for change of market authorization of product of Orlistat 120mg Capsule from M/s Searle Pakistan Limited, (Formerly M/s OBS Pakistan Pvt Ltd.) C-14, S.I.T.E, Karachi (DML No. 000012) to M/s Aspin Pharma Pvt Ltd., Plots # 10 & 25, Sector 20 Korangi Industrial Area Karachi – 74900, Pakistan (DML No-00045).

**Case No.01: Cancellation of Registration of Drugs in lieu of cancellation of DML.**

Central Licensing Board in its 288<sup>th</sup> meeting held on 06-10-2022 cancelled Drug manufacturing licenses of M/s Envoy Pharmaceuticals (Pvt) Ltd. 27-Km Multan Road Maraka, Lahore. Detail is as under;

**Decision of 288<sup>th</sup> Meeting of Central Licensing Board**

*“The Board while considering the facts on record and after thread bare deliberation decided to cancel the Drug Manufacturing License No. 000607 (formulation) of M/s Envoy Pharmaceuticals (Pvt) Ltd. 27-Km Multan Road Maraka, Lahore as the Drug Manufacturing License No. 000607 is no more valid as under Rule 5 (6) of The Drugs (L, R & A) Rules, 1976.”*

**[(No.F.1-54/2003-Lic (Vol-I) dated 23-12-2022)]**

Registration Board in its 307<sup>th</sup> meeting has authorized its Chairman for issuance of show cause notice for cancellation of registration after cancellation of DML. Accordingly, M/s. Envoy was issued show cause notice.

It was appraised that no response/reply to the showcause notice was received. The company filed an appeal against the decision of CLB which was decided in 166<sup>th</sup> sitting of Appellate Board held on 5<sup>th</sup> June, 2024 as under;

**“In light of the foregoing, the Appellate Board holds that the impunged order..... the appeal is dismissed. The Drug Manufacturing Licence of Envoy Pharmaceuticals (Pvt) Limited having registered office and manufacturing unit at 27 KM, Multan Road, Maraka, Lahore shall remain cancelled.”**

**Decision: Registration Board decided to cancel registration of all the drugs registered in the name of M/s Envoy Pharmaceuticals (Pvt) Ltd. 27-Km Multan Road Maraka, Lahore in the light of cancellation of Drug Manufacturing Licence by the CLB and Appellate Board.**

**Case No. 02: Correction in registration letter of M/s Unimark Pharmaceuticals Pvt Ltd. Plot No. 7--A, Street No. S-7, National Industrial Zone, Rawat, Islamabad.**

**Case No. 03: Allocation of Quota for Control Substances Ephedrine HCl for the year 2017 to M/s. Sharex Laboratories, Sadiqabad.**

The case of M/s. Sharex Laboratories, Sadiqabad was considered in 275<sup>th</sup> and 286<sup>th</sup> meeting of Registration Board as per detailed below: -

**2. Proceedings of 275<sup>th</sup> Meeting of Registration Board:**

The instant case was presented based on the letter received from Assistant Director (CD) (Dated 21<sup>st</sup> Sep, 2017) wherein it has been stated that M/s Sharex Laboratories, sadiqabad applied for quota allocation of product Tracodil syrup (Reg. 003158). The case was presented before 43rd meeting of committee on allocation of controlled drug held on 26<sup>th</sup> July, 2017, the committee deferred the case for issuance of show cause by DRAP for manufacturing of Tracodil syrup (Reg. 003158) 60ml, 400ml pack without approval. It was requested to verify the status of product registration of Tracodil syrup (Reg. 003158) 400ml pack size.

The approved pack sizes of product Tracodil Syrup<sup>||</sup> (Reg. No. 003158) have been verified as per available record i.e 120ml, 450ml (National Formulary 1981) and 60ml (dated 27th October 1988).

**3. Decision of 275th meeting of Registration Board:**

Registration decided to call M/s Sharex Laboratories, Sadiqabad for personal hearing and for deliberating above mentioned matter before the Registration Board.

**4. Proceedings of 286<sup>th</sup> meeting of Registration Board:**

Mr. Muhammad Ishfaq, production pharmacist, appeared before Registration Board and apologized on behalf of the firm for applying quota of 400ml pack size of product Tracodil syrup (Reg.003158) without approval.

**5. Decision of 286th meeting of Registration Board:**

Registration Board in its 286<sup>th</sup> meeting decided to refer the case to Legal Affair division for legal opinion.

**6. Accordingly, the case was referred to Legal Affairs, Division and in response, Legal Affairs, Division has provided following opinion:**

- i. That M/s. Sharex Laboratory applied for the quota allocation of product Tracodil Syrup (Reg.No.003158).
- ii. That the Committee on Allocation of Controlled Drugs held on 26.07.2017 deferred the case for issuance of show cause by DRAP for manufacturing of “Tracodil Syrup” (Reg.No.003158) 60ml, 400ml pack without approval. It was requested to verify the status of product registration of “Tracodil Syrup” (Reg.No.003158) and 60ml (dated 27th October, 1988).
- iii. That the approved pack size of the product “Tracodil Syrup” (Reg.No.003158) have been verified as per available record i.e 120ml, 450ml (National Formulary 1981) and 60ml (dated 27th October, 1988).
- iv. That Mr. Muhammad Ishfaq production pharmacist, appeared in 286<sup>th</sup> meeting before Board and apologized on behalf of the firm for applying quota of 400ml pack size of product “Tracodil Syrup” (Reg.No.003158) without approval.

- v. That the Registration Board in 286<sup>th</sup> meeting referred the case to Legal Affairs, Division for legal opinion.
- vi. Drug Regulatory Authority of Pakistan Act, 2012 in Schedule-II A(1) (a) (vii) prohibits export, import or manufacture and sale or sell of any therapeutic goods which is not registered or is not in accordance with conditions of registration as disclosed in the registration dossier and that has undergone pharmaceutical evaluation. Furthermore, Schedule-II(A)(c) prohibits to sell any therapeutic goods except under, and in accordance with the conditions of a license issued under this Act. In addition, Schedule-II A(a)(f) prohibit to supply an incorrect, incomplete or misleading information when required to furnish any information under this Act or the rules.
- vii. In this regard, DRAP Act, 2012 under section 27 read with schedule-III (6) provides penalty for violating the prohibitions mentioned above.

**7. Decision of 289<sup>th</sup> meeting of Registration Board:**

In light of the opinion of Legal Affairs Division on the matter, Registration Board deliberated the case and decided to issue show cause notice to M/s Sharex Laboratories, Sadiqabad for violation of condition of drug registration, as follows:

- Cancellation of registration.
- Suspension of registration.
- Prosecution in Drug Court

8. Accordingly, a showcause notice was served to M/s. Sharex Laboratories, Sadiqabad.

9. Registration Board in its **295<sup>th</sup> meeting** deliberated on the matter in details and decided to give an opportunity of personal hearing as per Drug Act, 1976 and Rules framed there under to M/s. Sharex Laboratories, Sadiqabad in forthcoming meeting of Registration Board.

10. In **296<sup>th</sup> meeting** M/s. Sharex Laboratories, Sadiqabad was called for personal hearing. Mr. Muhammad Ishfaq, production pharmacist, appeared before Registration Board and apologized on behalf of the firm and stated that firm was unaware about the approval of pack sizes of Tracodil Syrup (Reg.No.003158) as on initial registration letter no pack size was written. He has further stated that firm will submit all the relevant documents / approvals granted by DRAP regarding said product.

11. Registration Board in 296<sup>th</sup> meeting deferred the case for further deliberation after submission of documents as stated by representative of the firm.

In compliance with 296<sup>th</sup> meeting of Registration Board firm has submitted following documents;

- i. Initial registration letter of Ammonium Chloride Syrup Reg. No. 003158 dated 06-11-1977 in which Pack size & MRP are not mentioned.
- ii. Change of brand name letter from Ammonium Chloride Syrup to Tracodil Cough Syrup dated 16-08-1979
- iii. Price revision of locally manufactured / fixation of prices of additional packs letter dated 27-10-1988 in which Pack sizes along with MRPs are mentioned with following details;

| Sr. No. | Reg. No. | Name of Drug         | Packing | MRP   |
|---------|----------|----------------------|---------|-------|
| 1.      | 003158   | Tracodil Cough Syrup | 120ml   | 8.00  |
|         |          |                      | 60ml    | 5.00  |
|         |          |                      | 450ml   | 18.50 |

**12. Decision of 308<sup>th</sup> Meeting of registration Board:**

Registration Board after through deliberation decided as follows:

- Referred the case to Costing & Pricing Division for proceeding as per rules for overcharging of MRP.
  - Manufacturing of product as per approval granted by relevant forums.
13. Accordingly, above decision of Registration Board was communicated to **Costing & Pricing Division and reply** of said Division is as under;
- “In light of opinion of the Legal Division, the matter is of selling of an un-approved pack size which may fall under violation of the conditions of Registration. Moreover, no evidence of overpricing has been provided. Therefore, Division of PE&R may proceed in accordance with the opinion of the Legal Division.”**
14. Opinion of Legal Affairs Division is as under;
- i. Drug Regulatory Authority of Pakistan Act, 2012 in Schedule-II A(1) (a) (vii) prohibits export, import or manufacture and sale or sell of any therapeutic goods which is not registered or is not in accordance with conditions of registration as disclosed in the registration dossier and that has undergone pharmaceutical evaluation. Furthermore, Schedule-II(A)(c) prohibits to sell any therapeutic goods except under, and in accordance with the conditions of a license issued under this Act. In addition, Schedule-II A(f) prohibit to supply an incorrect, incomplete or misleading information when required to furnish any information under this Act or the rules.
  - ii. In this regard, DRAP Act, 2012 under section 27 read with schedule-III (6) provides penalty for violating the prohibitions mentioned above.

#### **Decision of 317<sup>th</sup> meeting of RB**

Registration Board deliberated on the matter in details and decided to give an opportunity of personal hearing as per Drug Act, 1976 and Rules framed there under to M/s. Sharex Laboratories, Sadiqabad in forthcoming meeting of Registration Board.

As per above decision of the Board, case was referred to **Legal Affairs Division and opinion of said division** is as under:

“The apex courts have guided that Principles of natural justice must be read into each and every statute unless and until it is prohibited by the statute itself---Even if there is no provision as to issuance of notice of personal hearing to the affected party, in a statute, it cannot override the principles of natural justice and an opportunity of a hearing has to be provided to the affected party. Registration Board is statutory Board constituted under Section 7 of the drugs act, 1976. And if some new facts came before the Registration Board regarding the firm, then an opportunity of personal hearing may be provided to the firm before final decision of the Board if it thinks fit to fulfill the principle of natural justice. It is pertinent to note that in case of any grievance the firm has alternate remedy of appeal under Section 9 of the drugs act, 1976 before the Appellate Board of the Authority.”

#### **Proceedings of 323<sup>rd</sup> Meeting:**

It was discussed in meeting that before proceeding for penalty for prohibitions, as per opinion of the Legal Affairs Division mention in para 14 above, showcause notice has to be issued to the firm for violation of condition of registration as firm is manufacturing un-approved pack size of their registered product.

#### **Decision of 323<sup>rd</sup> Meeting of the Board**

**Registration Board decided to issue show-cause notice under Section 7 (11) (c) to M/s. Sharex Laboratories (Pvt) Ltd. KLP Road Sharex Colony, P.O Box No. 11, Sadiqabad District Rahim Yar Khan for violation of condition of registration.**

As per above decision of the Board, Show-Cause notice has been issued to the firm and reply of the firm is as under:

- i. They have submitted that they have been manufacturing Tracodil Syrup (Ammonium Chloride Syrup) since 1965. When the Drug Act 1976 got implemented, they were issued a Registration Letter dated 06-11-1977 for Ammonium Chloride Syrup having registration number 003158. In this letter no pack size and no retail price was mentioned.
- ii. On 16-08-1979, another letter was issued by Ministry of Health granting them the named of Tracodil Syrup for their registered product Ammonium Chloride Syrup Reg.No.003158.
- iii. On 27-11-1988, a letter was issued for Tracodil Syrup where 60ml, 120ml and 450ml pack sizes were mentioned with MRP. It is important to mention that this product was de-controlled for pricing till 2000. At that time firm was manufacturing Tracodil Syrup in 400ml pack size and continued producing in the same pack size. As the price was decontrolled at that time, fixing MRP was not used to be an issue at that time.
- iv. Firm continued producing and submitting Ephedrine HCl consumption record of Tracodil Syrup till early 2017 until the Assistant Director (CD) mentioned it in her letter dated 20-04-2017. It is to clarify that the consumption record the Ephedrine HCl was absolutely correct and no discrepancy was found as far as the consumption of Ephedrine was concerned.
- v. They have further submitted that no mal intention what so ever was involved in the production of “Tracodil Syrup” 400ml as consumption record for Ephedrine HCl was submitted according to 400ml pack size. As this is 55-year-old registered product and at that time there were not much regulations and price was also de-controlled, this product somehow mistakenly kept manufactured in this pack size.
- vi. They have requested to kindly forgive this mistake of their, as they are in this business for around 6 decades and never been involved in any unlawful activity.

Now, firm has been called for personal hearing.

#### **Proceedings of 329<sup>th</sup> meeting:**

M/s. Sharex Laboratories, Sadiqabad was called for personal hearing. Mr. Muhammad Ishfaq, production pharmacist, appeared before Registration Board and stated that they were manufacturing pack size of 400ml as till 2000, MRP of their product was decontrolled.

#### **Decision of 329<sup>th</sup> Meeting of the Board:**

**Registration Board deferred the case for further deliberation**

#### **Decision of 331<sup>st</sup> meeting**

The registration Board directed the PE&R division to consult the legal affairs division and Cost & pricing division and place the case in the next meeting.

**Decision of 339<sup>th</sup> meeting:      Registration Board after thorough deliberation with representative of Legal Affairs Division and in the light of response of Costing & Pricing Division decided as under:**

- i. To communicate status of product to Controlled Drugs Division that Tracodil Syrup (Reg. 003158) is a registered product of M/s. Sharex Laboratories (Pvt) Ltd. KLP Road Sharex Colony, P.O Box No. 11, Sadiqabad District Rahim Yar Khan with approved pack sizes of 60ml, 120ml and 450ml.
- ii. To issue strict and stern warning to M/s. Sharex Laboratories (Pvt) Ltd., KLP Road Sharex Colony, P.O Box No. 11, Sadiqabad District Rahim Yar Khan and hereby ordered to manufacture Tracodil Syrup (Reg. 003158) as per approved granted by DRAP. Non-compliance of this order shall be dealt strictly under the law.

**Case No. 1 Correction in Registration No. of Invital-D Injection M/s Kaizen Pharmaceutical Pvt Ltd, Karachi.**

M/s Kaizen Pharmaceutical Pvt Ltd, Karachi has requested for change the product registration status of Invital D 5mg/5mL injection from M/s Ray Pharma (Pvt) Ltd, S-58 S.I.T.E, Karachi to their name. the matter was approved in 336<sup>th</sup> meeting of Registration Board. However, during recording of minutes of meeting registration number was mistakenly written as 10286 instead of 061284. The firm has requested for correction in registration number. Details is as below: -

| Sr. No. | Product name and composition  | In correct registration no. | correct registration No. |
|---------|---|-----------------------------|--------------------------|
| 01.     | Invital-D Injection<br><br>Each ml contains:<br><br>Cholecalciferol B.P.....<br>5mg eq. to 200,000 IU of<br><br>Vitamin D | 102826                      | 061284                   |

**Decision:** The Registration Board acceded to the request of firm for correction of registration number of Invital-D Injection from 102826 to 061284.

**Case No. 01: APPLICATION FOR ISSUANCE OF DIFFERENT REGISTRATION NUMBERS FOR FOLLOWING ALREADY REGISTERED DRUGS.**

**M/s. OBS Pharma (Pvt.) Ltd., 108, Quaid-e-Azam Industrial Estate, Kot Lakhpat, Lahore** has submitted an application for correction in registration numbers of already registered products. The firm was issued approval letter with same registration numbers for following products. The details are as under:-

| Sr. No. | Reg. No. | Product Name & Formulation   |
|---------|----------|--|
| 1.      | 081644   | Advantan Cream<br>Each 1gm contains<br>Methyl Prednisolone aceponate.....1mg     |
| 2.      | 081644   | Advantan Ointment<br>Each 1gm contains:<br>Methyl Prednisolone aceponate.....1mg |
| 3.      | 081644   | Advantan Fatty Ointment<br>Methyl Prednisolone aceponate.....1mg                 |
| 4.      | 004105   | Nerisone Cream<br>Each 1gm contains:<br>Diflucortolone valerate.....1mg          |
| 5.      | 004105   | Nerisone Ointment<br>Each 1gm contains:<br>Diflucortolone valerate.....1mg       |

Now the firm has informed that they want to retain the already allotted registration numbers for products at **Sr. No. 1 & 4 (Advantan Cream & Nerisone Cream)** and requested to issue new registration numbers for products at **Sr. No. 2, 3 & 5 (Advantan Ointment, Advantan Fatty Ointment & Nerisone Ointment)**. The firm has submitted the following documents:

1. Copy of registration & renewal letters.
2. Original fee challans of Rs. 10,000 x 3 = Rs. 30,000/- for each product.

**Decision:**

**Registration Board acceded to the request of firm to grant separate registration numbers for Advantan Ointment, Advantan Fatty Ointment & Nerisone Ointment.**

**Case No. 02: PERSONAL HEARING REGARDING BRAND NAME SIMILARITY/ RESEMBLANCE OF M/S. PHARMASOL PVT LTD., PLOT NO. 549, SUNDAR INDUSTRIAL ESTATE, LAHORE.**

M/s Pharmasol Pvt. Ltd., Lahore has been granted registration of Myfos Sachet vide Reg. No. 090415. It is pertinent to mention that the said brand name is resembling to already registered brand name of **Myfosin Sachet Reg. No. 080687 registered in name of M/s. GT Pharma Pvt. Ltd., Lahore.**

This aforementioned similarity with an already registered product is against the condition of registration and may be misleading. M/s Pharmasol Pvt. Ltd., Lahore had already been advised to change the brand name vide this DRAP letter No. F.No.3-1/2021 (PR-II) dated 18<sup>th</sup> January, 2023 and final reminder No. F.No.3-1/2021 (PR-II) dated 03<sup>rd</sup> August, 2023. The firm did not submit the response. Accordingly, a show cause notice was issued to the firm as per decision of 331<sup>st</sup> meeting of Registration Board and firm has been called for personal hearing before the Board.

**Decision:**

Registration Board deliberated that enough time has already been granted to the firm for change in brand name but the firm did not submit the reply to the DRAP letter and its reminder and the show cause notice/personal hearing or applied for change of brand name till date. Hence, Registration Board decided to suspend the registration of Myfos Sachet (Reg. No. 090415) till appearance of M/s Pharmasol Pvt. Ltd., Lahore before Registration Board or further orders by the Board.

Mr. Salateen Wasim Philip

| <b>Proposed unit price</b>   | As per SRO   |

#### Evaluation by DD-PE&R:

At initial evaluation following information / documents were found deficient for which reply of the firm has been also reproduced.

| Section | Observations  | Reply of the firm   |
|---------|---|---|
| 1.3.4   | Submit technology transfer report, based on the data and information obtained during the project.   | Submitted   |
| 1.6.5   | Has sending unit (SU) i.e. Pfizer handed over DMF of API of their vendor to the receiving unit (RU) i.e. AGP?   | Yes, the pharmaceutical equivalency studies have been conducted among the API source of Pfizer Singapore against API source from Sirini India and found consistent with each other because monograph of API has been public since long and available in USP Pharmacopeia. |
| 3.2.P.1 | Explain the nature of technology transfer adopted during technology transfer.   | Documentation based know how technology transfer of process has been adopted.   |
| 3.2.P.8 | Submit stability data of the last interval i.e. 06 <sup>th</sup> month for the three stability batches along with stability summary sheets with comparison of analytical results between 0,3 & 6 month. | Submitted   |

Change in Source of API as under:

|   |  |  |   |
|---|--|--|---|
| <b>Previous source</b><br><b>Pfizer Asia Manufacturing PTE Ltd Singapore.</b>   |  | <b>New source</b><br><b>Sirini Pharmaceutical Pvt. Ltd.</b><br>Plot # 10, Road # 08, Film Nagar, Jubilee Hills,<br>Hyderabad, India.   |   |
| The specifications and critical material attributes of the starting materials (APIs and excipients) to be used at the Receiving unit (RU) is consistent with those materials used at the sending unit (SU).   |  |  |   |
| The formulation of drug product is same as formulation of drug product in previous manufacturing site. Firm has submitted Pharmaceutical equivalence and comparative dissolution profile against Cardura manufactured at previous plant.  |  |  |   |
| Applicant (AGP Pharma) has submitted application as per DRAP guidelines for Post Registration Variation (MaV-3). The previous manufacturer (Pfizer) has submitted NOC for transfer of registration along with manufacturing site.   |  |  |   |
| The applicant has also submitted “Asset purchase agreement” acknowledged & authorized by Competition commission of Pakistan. OBS Pakistan (Private) Limited as a special purpose vehicle for AGP Pharma Group Companies under companies (Asset backed securitization) Rules 1999 acquired certain assets of “Viatris” including Tablet Cardura 2 mg. “Viatris” itself has no presence in Pakistan but its products are sold in Pakistan through M/s Pfizer Pakistan Limited. The transaction relates to acquisition of Cardura tablet including the license & intellectual property rights from “Viatris” & “Pfizer”. |  |  |   |

#### Evaluation by DD-PE&R:

At initial evaluation following information / documents were found deficient for which reply of the firm has been also reproduced.

| Section | Observations  | Reply of the firm   |
|---------|---|---|
| 1.3.4   | Submit technology transfer report, based on the data and information obtained during the project.   | Submitted   |
| 1.6.5   | Has sending unit (SU) i.e. Pfizer handed over DMF of API of their vendor to the receiving unit (RU) i.e. AGP?   | Yes, the pharmaceutical equivalency studies have been conducted among the API source of Pfizer Singapore against API source from Sirini India and found consistent with each other because monograph of API has been public since long and available in USP Pharmacopeia. |
| 3.2.P.1 | Explain the nature of technology transfer adopted during technology transfer.   | Documentation based know how technology transfer of process has been adopted.   |
| 3.2.P.8 | Submit stability data of the last interval i.e. 06 <sup>th</sup> month for the three stability batches along with stability summary sheets with comparison of analytical results between 0,3 & 6 month. | Submitted   |

Change in Source of API as under:

| Previous source                                     | New source   |
|---|--|
| <b>Pfizer Asia Manufacturing PTE Ltd Singapore.</b> | <b>Zhejiang Hunhai Pharmaceutical Co. Ltd.</b><br>Chuannan, Duiquo, Linhai, Zhejiang, China. |

The specifications and critical material attributes of the starting materials (APIs and excipients) to be used at the Receiving unit (RU) is consistent with those materials used at the sending unit (SU).

The formulation of drug product is same as formulation of drug product in previous manufacturing site. Firm has submitted Pharmaceutical equivalence and comparative dissolution profile against Cardura manufactured at previous plant.

Applicant (AGP Pharma) has submitted application as per DRAP guidelines for Post Registration Variation (MaV-3). The applicant has submitted legalized NOC issued by Viatris for transfer of registration along with manufacturing site to applicant.

The applicant has also submitted “Asset purchase agreement” acknowledged & authorized by Competition commission of Pakistan. OBS Pakistan (Private) Limited as a special purpose vehicle for AGP Pharma Group Companies under companies (Asset backed securitization) Rules 1999 acquired certain assets of “Viatris” including Tablet Cardura 2 mg. “Viatris” itself has no presence in Pakistan but its products are sold in Pakistan through M/s Pfizer Pakistan Limited. The transaction relates to acquisition of Cardura tablet including the license & intellectual property rights from “Viatris” & “Pfizer”.

## Item No. II Recommendations of sub-committee on Veterinary Drugs

### 1. Reference Regulatory Authorities for Veterinary Drugs

Registration Board in its 274<sup>th</sup> meeting discussed the matter of reference regulatory authorities for veterinary drugs and advised PPMA to submit proposal in forthcoming meeting.

- PPMA has submitted that for Veterinary Drugs countries such as India, China, Brazil, Argentina, Korea and Thailand where Veterinary Population is large and veterinary diseases are similar to Pakistan due to hot and humid Weather and Farmers Practices should be included as reference. This shall be done with approval and guidance from Expert Veterinary Member already present in the Board. Veterinary Drugs and Supplements go directly hand in hand as Food Security Plan for any country as they are used in Food Producing Animals but are not restricted to only them but also for Pet Animals having variety of species. Veterinary Drugs plays a vital and important role to combat diseases and also encompasses many other varieties of drugs for species not present in all countries such as Camels and Water Buffaloes. Newer and Wide Range of Research based Molecules and combinations with varying concentrations are needed to totally cover the range of various diseases.
- PPMA has further submitted that after recommendations from highly respected technical recognized experts associated with Veterinary Agriculture Universities Faisalabad, UVAS, Lahore, Technical experts DVM (Doctor of Veterinary Medicine) from Veterinary Pharmaceutical Manufacturers and respected Expert Member of Registration Board 2016-2018 DR. Qurban Ali, have formulated the following recommendations:
  - 1) Veterinary Drugs in many countries do not necessarily fall under Drug Regulatory Regime and may be regulated and registered under Ministry of Health, Ministry of Agriculture and Dairy. Ministry of Feed and Animal Resources.
  - 2) Include list of 33 countries where databases are available in book form, veterinary doctor guide books, and some on the web including Argentina, Austria, Australia, Belgium, Canada, Switzerland, Germany, Denmark, Spain, Finland, France, United Kingdom, Ireland, Israel, Italy, Japan, South Korea, Malta, Malaysia, Netherlands, Norway, New Zealand, Sweden, Singapore, Thailand, Taiwan, United States, Saudia Arabia, Turkey, Brazil, Indonesia, Poland and Portugal

**Decision 275<sup>th</sup>:** Registration Board decided to further deliberate the matter. Meanwhile, present practice of considering already registered generic versions as reference shall be continued after being reviewed by veterinary expert of the Board.

Registration Board in its 275<sup>th</sup> meeting adopt 21 reference regulatory authorities including EMA & WHO for registration of Human Drugs.

Table shows veterinary drugs regulatory bodies of human adopted reference countries;

#### **Approved RRA for Human Drugs**

#### **Proposed RRA for Veterinary Drugs**

Registration Board adopted following regulatory authorities / agencies as reference for molecules/formulations (in same dosage form and strength) alongwith clinical trials for human purpose in its 275<sup>th</sup> meeting.

- a. Food & Drug Administration (FDA) of USA
- b. Health Canada of Canada
- c. Therapeutic Good Administration (TGA) of Australia
- d. Pharmaceuticals and Medical Devices Agency (PMDA) of Japan
- e. Medicines and Healthcare Regulatory Agency (MHRA) of UK
- f. National Agency for the Safety of Medicine and Health Products (ANSM) of France.
- g. Federal Institute for Drugs and Medical Devices of Germany
- h. Medicines Evaluation Board of Netherland
- i. Swissmedic of Switzerland
- j. Austrian Agency for Health and Food Safety of Austria
- k. Danish Medicines Agency of Denmark
- l. Medical Products Agency of Sweeden
- m. Norwegian Medicines Agency of Norway
- n. Federal Agency for Medicines and Health Products of Belgium
- o. Finnish Medicine Agency of Finland
- p. Italian Medicine Agency (AIFA) of Italy
- q. Health Products Regulatory Authority (HPRA) of Ireland
- r. Icelandic Medicine Agency of Iceland
- s. Spanish Agency for Medicines and Health Products of Spain
- t. European Medicines Agency (EMA) of Europe.
- u. World Health Organization (WHO)

Veterinary regulatory authorities / agencies of these countries.

- a. Food & Drug Administration (FDA) of USA
- b. Veterinary Drugs Directorate (VDD) is part of Health Canada's Health
- c. Australian Pesticides and Veterinary Medicine Authority (APVMA)
- d. The Ministry of Agriculture, Forestry and Fisheries (MAFF) of Japan
- e. Veterinary Medicines Directorate of UK
- f. The French Agency for Veterinary Medicinal Products (ANMV) of France.
- g. The Federal Office of Consumer Protection and Food Safety (BVL) of Germany.
- h. Medicines Evaluation Board of Netherland
- i. Swissmedic of Switzerland
- j. Austrian Federal Office for Safety in Health Care (BASG) of Austria
- k. The Danish Veterinary and Food Administration
- l. Medical Products Agency of Sweeden
- m. Norwegian Medicines Agency of Norway
- n. Federal Agency for Medicines and Health Products of Belgium
- o. Finnish Medicine Agency of Finland
- p. Italian Medicine Agency (AIFA) of Italy
- q. Health Products Regulatory Authority (HPRA) of Ireland
- r. Icelandic Medicine Agency of Iceland
- s. Spanish Agency for Medicines and Health Products of Spain
- t. European Medicines Agency (EMA) of Europe
- u. World Organization for Animal Health (WOAH)

Recommendation of Sub-committee:

After deliberation, the sub-committee on Veterinary Drugs observed that since the Registration Board approved reference regulatory authorities for human drug registration in its 275<sup>th</sup> meeting, the sub-committee decided to consider the same countries bodies for veterinary drug registration. However, the sub-committee recommends adding four more countries as authorities/agencies to serve as references for molecules/formulations (in the same dosage form and strength) along with clinical trials for veterinary purposes. Details are as follows:

- a. Food & Drug Administration (FDA) of USA
- b. Veterinary Drugs Directorate (VDD) is part of Health Canada's Health
- c. Australian Pesticides and Veterinary Medicine Authority (APVMA)
- d. The Ministry of Agriculture, Forestry and Fisheries (MAFF) of Japan
- e. Veterinary Medicines Directorate of UK
- f. The French Agency for Veterinary Medicinal Products (ANMV) of France.

- Amantadine combination.
- Composition in covering letter and form-5 is not same.

**Decision: Registration Board referred the case to Expert Working Group for review of formulation.**

**Recommendation of Sub-committee:**

**The sub-committee on Veterinary Drugs deliberated on the matter and observed that, in the absence of any recognized scientific data regarding the use of amantadine in combination in any Reference Regulatory Authority (RRA), all such combinations are recommended may be forwarded to M/o NFS&R for their comments before deregistration in the best interest of public health.**

The firm has submitted the following supporting documents / information for approval of above transfer of registrations: -

- Application on form-5F with a fee of Rs.300,000/- for each product.
- Copy of extract of minutes M-258.
- Original & Legalized CoPP issued by Spain.
- Original Legalized of Letter of authorization in the name of M/s Martin Dow Limited, Plot No. 37, Sector 19, Korangi Industrial Area, Karachi.
- Original Legalized Termination letter from Product License Holder in the name of M/s Acumen Pharma (Pvt) Ltd, Plot No.39&40, Street No.S-2, RCCI, Industrial Estate, Rawat.
- Original NOC for transfer of registrations from M/s Acumen Pharma (Pvt) Ltd, Plot No.39&40, Street No.S-2, RCCI, Industrial Estate, Rawat (**issued on 23-01-2024**).
- Undertaking.

**Decision: -**

**The Registration Board deferred the case for personal hearing of M/s Acumen Pharma (Pvt) Ltd, Plot No.39&40, Street No.S-2, RCCI, Industrial Estate, Rawat along with records.**

**Case No. 04: REGISTRATION OF DRUGS UNDER THE DRUGS ACT, 1976-VIRTUAL INSPECTION REPORT OF MANUFACTURER ABROAD.**

It is submitted that Registration Board in its 290<sup>th</sup> meeting considered and approved the following products of M/s Neutro Healthcare, 22-M, Gulberg-III, District Lahore. Details are as under:-

| S. No. | Name of Applicant/ Manufacturer   | Name of Drugs & Composition  | Panel of Inspector(s)/ Date of inspection   |
|--------|---|--|---|
| 1.     | M/s Neutro Healthcare,<br>22-M, Gulberg-III, District Lahore.<br><b>Manufacturer &amp; Product License Holder: -</b><br>M/s Getwell<br>Phaarmaceuticals, 474, | (i) I-DOX 50mg/25ml<br>Concentrate for solution for IV infusion<br>Each ml contains:<br>Doxorubicin hydrochloride.....<br>2mg<br>(as pegylated liposome) | (i) Mr. Muneeb Ahmed Cheema,<br>Deputy Director (PE&R), Drug<br>Regulatory Authority of<br>Pakistan, Islamabad.<br><br>(ii) |

|   |  |  |  |
|---|--|--|--|
|   | Udyog Vihar, Phase-V, Gurgaon-122016, Haryana, India | (ii) I-DOX 20mg/10ml Concentrate for solution for IV infusion<br>Each ml contains:<br>Doxorubicin hydrochloride.....<br>2mg<br>(as pegylated liposome) | Mr. Adil Saeed, Deputy Director (PE&R), Drug Regulatory Authority of Pakistan, Islamabad |
| <b>Decision:</b> Approved as per policy of inspection of manufacturer abroad. |  |  |  |

Accordingly, an inspection was carried out by inspection panel dated 14<sup>th</sup> & 15<sup>th</sup> February, 2024 and final remarks of the panel are as under:-

#### **Conclusion:**

The following observations were noted during the virtual inspection:

Based on the proceedings of virtual inspection, documents reviewed, videos of the unit seen, discussion with the technical staff, the panel has reached on the conclusion that M/s Getwell Pharmaceuticals situated at 474, Udyog Vihar, Phase-V, Gurgaon-122016, Haryana, India was not operating at acceptable level of cGMP compliance, hence the panel do **not recommend** the grant of registration of I-DOX 20mg & 50mg Injections in name of M/s Neutro Pharma Pvt. Ltd. 9.5km Sheikhpura Road, Lahore. The major observation though recorded above, are reiterated as under:

- a) The land of manufacturing unit is 500 square yards and the requirement as per Schedule B of Drug (LRA) Rules 1976 is 2000sq. yards.
- b) Due to old design there was no provision of proper HVAC systems for the corridors and ancillary areas.
- c) The manufacturing facility was located in commercial & residential area.
- d) The material receiving area was an open uncovered area.
- e) Primary change rooms and corridors leading to secondary change rooms were not supplied with HVAC system which is mandatory under cGMP guidelines for manufacturing of sterile products.
- f) There is no provision of Class A area at any stage of manufacturing of the drug product.
- g) Most of the processes involved in the manufacturing of above product were manual and were being performed in Class C area hence posing risk of contamination of product.
- h) Space constraints in manufacturing area leading to unnecessary movement of in-process solutions and equipment from one room to another multiple times, posing risk of contamination of product.
- i) In process quarantine area was not available, rather stored in finished good cold storage, posing a risk of mix up.
- j) Insufficient QC equipment for complete in-house testing of the drug product.
- k) Contract agreement and analytical reports for tests conducted on contract testing basis were not submitted though committed to provide the time of inspection.
- l) Space constraints in stability chambers.

**Decision: -The Board decided to reject the registration application(s) of above mentioned drugs manufactured by M/s Getwell Pharmaceuticals, 474, Udyog Vihar, Phase-V, Gurgaon-122016, Haryana, India as the inspection panel has not recommended the grant of registration.**

**Case.No.05: REQUEST OF M/S PFIZER PAKISTAN LIMITED, FOR CANCELLATION OF REGISTRATION OF IMPORTED DRUGS.**

M/s Pfizer Pakistan Limited, 12-Dockyard Road, West Wharf, Karachi has submitted request for cancellation of registration of imported drug as per following details.

| S. No   | Product(s) Name  | Reg. No. | Reason for De-Reg. (stated by firm)  |
|---|--|----------|--|
| 1.  | Zeldox IM 20mg Injection.<br>Each vial contains:-<br>Ziprasidone Mesylate<br>Trihydrate 40.93mg eq. to<br>Zipresidone 20mg | 062291   | This refers to our global asset purchase agreement with OBS Pakistan Private Limited (a subsidiary of AGP Limited) the agreement included divestment of several products including zeldox IM Injection. However, we have been informed by OBS that they will not be pursuing the transfer of registration of referred product. |
| <b>Alternative registered products: -</b><br>Not provided |  |          |  |

| SOP Requirement  | Firms Response  |

| c) Justification.  | c. As mentioned above.  |
| d) List of alternatives brands/ FPPs available in the country. | d. As mentioned above.  |

**Decision:**

**The Registration Board did not accede to the firm request.**

**Case No.06. REQUEST OF M/S RA HEALTH CARE (SMC-PVT.) LTD FOR EXEMPTION FROM LOCAL LABELING FOR HOSPITAL USE PRODUCT (SEVOFLURANE LIQUID FOR INHALATION).**

M/s RA Health Care (SMC-Pvt.) Ltd, 2<sup>nd</sup> Floor Building No. 50 Mir Arcade, Mini Commercial Phase 7, Bahria Town, Rawalpindi has submitted request with a fee of Rs.10,000/- that to meet local labeling Laws, our global manufacturing and supply chain setups require adjustments in manufacturing flow which will take a considerably long time due to the company's operational complexity. Detail of product is as under:-

**Details of Product:**

| S. No. | Reg. No. | Name of Product   | Remarks   |
|--------|----------|---|---|
| 1.     | 115751   | Sevoflurane Liquid For Inhalation<br>Each aluminium bottle contains:-<br>Sevoflurane..... 250ml<br>(USP Specification)* | E-application No.<br><br>Reg. Letter date 16 <sup>th</sup> February, 2024 |

|                                |  |
|--------------------------------|--|
| <b>Product License Holder:</b> | M/s Baxter Healthcare Corporation, 1 Baxter Parkway, Deerfield, IL 60015, United States of America.        |
| <b>Manufacturer:-</b>          | M/s Baxter Healthcare Corporation, Route 3-Km 144.2, Guayama, Puerto, Rico 00784, United States of America |

Now, firm requested for exemption from local labeling for a period of 03 years as product is for hospital use only and will be directly used by qualified anesthesiologists / health care professionals in surgical theater within hospital settings.

Further firm inform that we requested for exemption from local labeling as our product is for hospital use only and will be directly used by qualified anesthesiologists / health care professionals in surgical theater within hospital settings.

Due to quality issues, it is not possible to get the product locally labeled, for the safety of patients we request you to give us exemption from local label requirements for a period of 3 years.

It is requested to please accept our request at your earliest convenience, so we can make the product available for the patient.

**Decision:**

**The Registration Board advised the firm to reapply with a local agreement with a DML holder to comply with the Drugs (Labelling & Packing) Rules, 1986.**

**Case No.07. REQUEST OF M/S MULLER & PHIPPS PAKISTAN (PVT) LTD, KARACHI FOR REGISTRATION OF NEPHROSTERIL SOLUTION FOR INFUSION TO THEIR NAME FROM M/S FRESENIUS KABI PAKISTAN, LAHORE.**

- f) Original NOC for transfer of registrations from M/s Fresenius Kabi Pakistan (Pvt) Ltd (**issued on 20-11-2023**).
- g) Undertaking.

**Decision: -**

**In light of the above, the Registration Board decided to schedule a personal hearing for M/s Fresenius Kabi Pakistan (Pvt) Ltd, located at 1st Floor, Tanwir Ahmed Medical Center, MM Alam Road, 27 C/3, Gulberg-III, Lahore, during its forthcoming meeting.**

**RRR section**

**Case No.1      Mandatory Submission of Risk Management Plan (RMP) as a Part of Registration Application Dossier**

Pharmacy Services division has informed vide letter dated 10.07.2024 and 12.07.2024 that Drug Regulatory Authority of Pakistan (DRAP) has notified the Pharmacovigilance Rules, 2022, vide S.R.O 540 (I) /2022, dated 22<sup>nd</sup> of April 2022. Rule 11 (11) of said rules requires the mandatory submission of Risk Management Plans (RMPs) as a part of the registration dossier to the Registration Board for all new drug products. Moreover, the World Health Organization (WHO) team at the time of benchmarking of the DRAP developed the following Institutional Development Plans (IDPs):

| Indicator | Institutional Development Plans (IDP) |
|-----------|---------------------------------------|
|-----------|---------------------------------------|

## Sub-Indicator

- VL 04.01: Implement active surveillance activities. e.g. through the marketing authorization holders, through alliances with universities, with a network of sentinel hospitals, etc., especially define the criteria which would motivate the conduction of an active PV study (*e.g. introduction of new biological, monoclonal or vaccine, a serious event with an unknown occurrence, rare events, events affecting specific populations, etc*).
- VL 04.05: “Identify high-risk products that received marketing authorization before the RMP norm entered into effect, and request ad-hoc submission of such plans”
- VL 04.07: “Develop mechanisms (guidelines and/or SOPs) to systematically review the growing body of evidence on efficacy (or lack of) that is published permanently - *particularly with new high-risk products* - that may affect their risk-benefit ratio.

In order to streamline the procedure with the aforementioned rules and IDPs, Divisions of Pharmaceutical Evaluation & Registration and Biological Evaluation & Research has been requested by Pharmacy Services Division to take the necessary measures as per the following details:

- a. The RMP should be made a mandatory part of the CTD (Form-5F) application dossier for new drug products including biological and vaccines as per Pharmacovigilance Rules, 2022;
- b. Submission of approved RMP by registration holders for new drug products, biologicals and vaccines to the National Pharmacovigilance Centre (NPC) before the sale of drug product should be kept as a condition of registration;
- c. Provision of registration letter of new drugs products, biologicals and vaccines to NPC, Pharmacy Services Division for further coordination with registration holders related to pharmacovigilance activities such as submission of Periodic Benefit-Risk Evaluation Report (PBRER) and RMPs etc; and
- d. Share a list of new drug products including biological and vaccines registered since 1<sup>st</sup> January 2022, so that NPC can identify high-risk products for submission of RMP and implementation of active surveillance and benefit-risk assessment.

The division is expecting that necessary action may be taken at the earliest for the timely implementation of IDPs for confirmation by WHO in the upcoming review expected in September / October 2024.

**Decision:** Registration Board considered the proposal of Pharmacy Services Division, DRAP regarding mandatory submission of Risk Management Plan (RMP) as part of registration dossier for all new drug products. The Board deliberated that submission of RMP by the registration holders needs to be in line with the requirements laid down by the Reference Regulatory Authorities. Therefore, the Board decided that PE&R Division shall frame a guidance document in consultation with Pharmacy Services Division regarding submission of RMP by registration holders for new drug/ biological products.

**Case No. 2** M/s Himmel Pharmaceuticals (Pvt) Ltd Ground Floor 6-Judicail Colony Phase 1 Ext. Shahrah-e-Nazria Pakistan Lahore.

M/s Himmel Pharmaceuticals (Pvt) Ltd located at Ground Floor 6-Judcail Colony Phase 1 Ext. Shahrah-e-Nazria Pakistan Lahore has requested for renewal of registration of below mentioned anticancer drugs based on following reasons:

- a. Request from their principal company.
- b. Requirement for participation in tenders in institutions across Pakistan.

| Sr. No. | Reg. No. | Brand Name, Composition & Specifications   | Initial date of Registration | Date of application (R&I)                             | Decision  |

**Case No: 4      Submission of new/fresh registration applications after cancellation of registration due to non-submission/ submission of renewal after the prescribed time period as per decision of DRAP Authority in its 180<sup>th</sup>meeting**

The DRAP Authority in its 180<sup>th</sup> meeting held on 07<sup>th</sup> March 2024 while considering the application of M/s Gray's Pharmaceuticals Rawat decided as under:

*"The Authority observed that similar matter has already been decided in previous meeting in different perspectives and there is a need to adopt a uniform approach for disposing of all such cases where registration has become invalid on administrative grounds. Given the fact that manufacturing site, machinery and formulation remain the same, the Authority decide that instant and all such applications in future:*

- i) Shall be considered out-of-queue and
- ii) Shall be exempted from submission of registration dossier on Form 5F in exercise of Authority's power under Rule 26 of the Drugs (Licensing, Registering & Advertising (Rules, 1976 amended via SRO 713 (1)/2018 dated 08<sup>th</sup> June, 2018.

2. No such cases shall be forwarded to the Authority and shall be decided on the same analogy by the Division of PE&R and BE&R.

Keeping in view the above decision of the following new registration applications have been submitted on Form-5:

**i) M/s. Shazal's Pharmaceuticals, Plot No. 41/1-A-1 Phase-I Industrial Estate Hattar.**
