MEDICAL PRODUCT ALERT

DRAP ALERT NO. N° III/S/10-25-97

VETERINARY DRUG PRODUCTS DECLARED MISBRANDED

BY CENTRAL DRUGS LABORATORY, KARACHI.

Date: 21st October, 2025

Target Audience:

- National Regulatory Field Force of DRAP and Provincial Drug Control Departments.
- Healthcare Professionals-Veterinarians
- Farmers/consumers

Alert Summary:

Central Drugs Laboratory informed that the sample of below mentioned **Veterinary product** has been declared as '**Misbranded**'.

S#	Product Details	Batch #	Manufacturer details	Remarks
1.	LISO-10 Powder Each gm Contains: - Lysozyme.....22% Vitamin E 50 SD.....0.5% (Reg. # 049566)	IO E004	M/s Mallard Pharmaceuticals (Pvt) Ltd. 23-KM Lahore Road Qadirpur, Multan. (DML # 000622)	The sample has been declared ' Misbranded ' under Section 3(s)(i) of the Drugs Act, 1976. as the Batch Number, Date of Manufacturing, Date of Expiry, and Retail Price were not printed or written in indelible ink in a conspicuous manner on both the outer carton and the innermost sachet.

Risk Statement:

Use of a misbranded batch undermines the ability of healthcare professionals and consumers to verify product authenticity and shelf-life, posing potential risks of administering expired or improperly stored formulations. Veterinary practitioners, distributors, and retailers are therefore advised to immediately stop distribution, sale, or use of the affected batch, segregate existing stock, and verify labeling conformity before dispensing or prescribing.

Action initiated: -

The field force of DRAP and Provincial Drug Control departments have been directed to immediately conduct market surveys for detection of presence and removal of mentioned batches from the market.

Advice for Veterinarian: -

This alert applies strictly to the specific batch listed above and does not apply to other batches of the **same** product. Veterinarians are therefore advised not to prescribe, administer, or stock these identified batch under any

DRUG REGULATORY AUTHORITY OF PAKISTAN DIVISION OF QUALITY ASSURANCE & LABORATORY TESTING

circumstances.

Advice for Farmers and Livestock Owners:

Farmers and livestock owners are advised **not to use LISO-10 Powder (Batch No. IO E004)** that lacks proper labeling of **batch number, manufacturing and expiry dates, or retail price**, as such products cannot be verified for their authenticity, quality, or safety. Using an untraceable or expired product may **reduce its effectiveness** in protecting animal health and may even **cause adverse reactions** or treatment failure.

Always ensure that veterinary medicines are purchased only from **licensed veterinary stores or authorized distributors**, and that each pack clearly displays the **batch number, expiry date, and manufacturer details** in permanent ink. If any pack is found without proper labeling, **stop its use immediately**, retain the sample, and report the issue to the **nearest Drug Control Authority or veterinary officer** for regulatory follow-up and replacement through authorized channels.
